BILL 93-6-F

SECURITY PHONES

Introduced: November 9, 1993

PURPOSE: To purchase and install security telephones around the campus of Western Kentucky University.

WHEREAS: Security is always a pressing issue at any college or university campus, and

WHEREAS: Western Kentucky University has always had a commitment to excellence and the well-being of its students, and

WHEREAS: The Executive Council has allocated monies to purchase two security phones this first year, and the University has agreed to purchase four additional security phones, and

WHEREAS: This is a good foundation, but more phones are needed, and

WHEREAS: A strong commitment from the Student Government Association would illustrate how pressing this issue is to the University in the years to come.

THEREFORE: Be it resolved, that we the members of Student Government Association, in addition to the \$4000 allocated this year for the purchase of the two security phones, agree to purchase one phone each additional year at a cost of \$2000 per phone until the initial plan of all fifteen phones is in place around campus.

FURTHERMORE: This should be considered an item of major importance and stressed to the University administration to allocate money each year to expedite this process.
