Resolution 00-6-f
Course Outline
November 27, 2000

PURPOSE: For the university to require all colleges to provide students with the course outlines for their respective major, which will be available to students in the upcoming course catalog.

WHEREAS: Course outlines would serve as a tool of guidance for students towards the completion of their undergraduate degree programs, and

WHEREAS: Currently less than half of the course outlines for the majors offered by the University are included in the course catalog, and

WHEREAS: Such outlines would provide more detailed information for current and prospective students, and

WHEREAS: This would simplify the registration process for first year students during Orientation Advisement and Registration.

THEREFORE: Be it resolved that we, the members of the Student Government Association, do hereby recommend that the University require all colleges to provide course outlines for all majors which are not currently available in the course catalog.
