THE INTERNATIONAL CENTRE FOR OLYMPIC STUDIES

The International Centre for Olympic Studies, established at The University of Western Ontario in 1989, was the first of its kind in the world. It remains the only such Centre in the Americas. It has as its primary mission the generation and dissemination of academic scholarship focused specifically upon the socio-cultural study of the Olympic Games and the Olympic Movement. In order to bring this endeavor to fruition, the Centre pursues the following four initiatives:

1. The Centre produces *Olympika: The International Journal of Olympic Studies*. This refereed scholarly journal, which has an internationally recognized editorial review board, is currently published annually, and is available for subscription throughout the world.
2. The Centre hosts an important International Symposium for Olympic Research in every Olympic year. The Centre publishes the *Proceedings* of these symposia.
3. The Centre organizes and sponsors regular guest lectures presented by recognized Olympic scholars and officials, including three annual honor addresses entitled the Ion P. Ioannides, the J. Howard Crocker, and the Earle F. Zeigler Lectures.
4. The Centre maintains a resource unit in its home in the Arthur and Sonia Labatt Health Sciences Building (Room 317) for the use of visiting scholars worldwide, as well as for faculty members, graduate and undergraduate students at The University of Western Ontario.

The Centre welcomes and invites correspondence concerning any or all of these matters, and encourages scholars to consider participating in the Thirteenth International Symposium for Olympic Research, scheduled for the second half of 2016.

Copyright to these Proceedings is held by the International Centre for Olympic Studies
and the authors of the scholarly works herein represented.
