OCT.

NOV.

DEC.

Participants will learn:

- How Google Spreadsheets store and supply data to the timeline tools
- How to display the data in an open source timeline tool
- To create an exhibit by combining the spreadsheet and timeline software tools
- Gain experience with a type of digital humanities (DH) tool and get a sense of the larger context of DH

Digital Humanities (DH) Genres

Digital Music and Ethnography

Digital Storytelling

Digital Archives

Information/Data Visualization

Crowd-sourcing

3D Printing

Critical Technology Studies

Timelines

We selected TimelineJS and SIMILE Widgets

Timeline JS

Beautifully crafted timelines that are easy and intuitive to use.

SIMILE Widgets

Free, Open-Source Data Visualization Web Widgets, and More

This is an open-source "spin-off" from the SIMILE project at MIT. Here we offer free, open-source web widgets, mostly for data visualizations. They are maintained and improved over time by a community of open-source developers.
