Editorials

- 1 The history of Haematologica
Edoardo Ascarì
- 3 Red cells in post-genomic era: impact of personalized medicine in the treatment of anemias
Achille Iolascon, et al.

Review Articles

- 7 Deciphering the molecular landscape in chronic lymphocytic leukemia: time frame of disease evolution
Lesley-Ann Sutton, et al.

Guideline Article

- 17 Criteria for evaluating response and outcome in clinical trials for children with juvenile myelomonocytic leukemia
Charlotte M. Niemeyer, et al.

Articles

Hematopoiesis

- 23 ETV6 (TEL1) regulates embryonic hematopoiesis in zebrafish
Parisa Rasighaemi, et al.
→ This article has a graphical abstract
- 32 Erythroid differentiation of human induced pluripotent stem cells is independent of donor cell type of origin
Isabel Dorn, et al.

Bone Marrow Failure

- 42 Genomic analysis of bone marrow failure and myelodysplastic syndromes reveals phenotypic and diagnostic complexity
Michael Y. Zhang, et al.
- 49 Telomere length in inherited bone marrow failure syndromes
Blanche P. Alter, et al.

Acute Lymphoblastic Leukemia

- 55 Novel gene targets detected by genomic profiling in a consecutive series of 126 adults with acute lymphoblastic leukemia
Setareh Safavi, et al.

62 The negative impact of being underweight and weight loss on survival of children with acute lymphoblastic leukemia
Marissa A.H. den Hoed, et al.

70 Focused chemical genomics using zebrafish xenotransplantation as a pre-clinical therapeutic platform for T-cell acute lymphoblastic leukemia
Victoria L. Bentley, et al.

Chronic Lymphocytic Leukemia

77 Ibrutinib interferes with the cell-mediated anti-tumor activities of therapeutic CD20 antibodies: implications for combination therapy
Fabio Da Roit, et al.

Non-Hodgkin Lymphoma

87 Absolute peripheral monocyte count at diagnosis predicts central nervous system relapse in diffuse large B-cell lymphoma
Hideaki Nitta, et al.

Large Granular Lymphocytic Leukemia

91 The analysis of clonal diversity and therapy responses using *STAT3* mutations as a molecular marker in large granular lymphocytic leukemia
Hanna L. M. Rajala, et al.

Plasma Cell Disorders

100 Retrospective matched-pairs analysis of bortezomib plus dexamethasone versus bortezomib monotherapy in relapsed multiple myeloma
Meletios A. Dimopoulos, et al.

107 Multiple myeloma and infections: a population-based study on 9253 multiple myeloma patients
Cecilie Blimark, et al.

Stem Cell Transplantation

114 Cytomegalovirus shapes long-term immune reconstitution after allogeneic stem cell transplantation
Raphael Itzykson, et al.

Red Cell Biology & Its Disorders

124 The role of inflammation, iron, and nutritional status in cancer-related anemia: results of a large, prospective, observational study
Antonio Macciò, et al.

133 The cytoskeletal binding domain of band 3 is required for multiprotein complex formation and retention during erythropoiesis
Timothy J Satchwell, et al.

Letters to the Editor

Letters are available online only at www.haematologica.org/content/100/1.toc

e1 RNA sequencing reveals a unique fusion of the lysine (K)-specific methyltransferase 2A and smooth muscle myosin heavy chain 11 in myelodysplastic syndrome and acute myeloid leukemia
Mathijs A. Sanders, et al.
<http://www.haematologica.org/content/100/1/e1>

- e4** Biomodulatory therapy induces complete molecular remission in chemorefractory acute myeloid leukemia
Simone Thomas, et al.
<http://www.haematologica.org/content/100/1/e4>
- e7** A phase I trial of ribavirin and low-dose cytarabine for the treatment of relapsed and refractory acute myeloid leukemia with elevated eIF4E
Sarit Assouline, et al.
<http://www.haematologica.org/content/100/1/e7>
- e10** Clinical features and outcome of *SIL/TAL1*-positive T-cell acute lymphoblastic leukemia in children and adolescents: a 10-year experience of the AIEOP group
Mariella D'Angiò, et al.
<http://www.haematologica.org/content/100/1/e10>
- e14** Three novel fusion transcripts of the paired box 5 gene in B-cell precursor acute lymphoblastic leukemia
Grazia Fazio, et al.
<http://www.haematologica.org/content/100/1/e14>
- e18** Reduced dose pentostatin for initial management of hairy cell leukemia patients who have active infection or risk of hemorrhage is safe and effective
Leslie A. Andritsos, et al.
<http://www.haematologica.org/content/100/1/e18>
- e21** Paradoxical central nervous system immune reconstitution syndrome in acquired immunodeficiency syndrome-related primary central nervous system lymphoma
Sarah M. Kranick, et al.
<http://www.haematologica.org/content/100/1/e21>
- e25** Recurrent presence of the *PLCG1* S345F mutation in nodal peripheral T-cell lymphomas
Rebeca Manso, et al.
<http://www.haematologica.org/content/100/1/e25>
- e28** Invasive fungal infections in patients with multiple myeloma: a multi-center study in the era of novel myeloma therapies
Benjamin W. Teh, et al.
<http://www.haematologica.org/content/100/1/e28>
- e32** Circadian and circannual variations in cord blood hematopoietic cell composition
Sophie Servais, et al.
<http://www.haematologica.org/content/100/1/e32>
- e35** Incidence and risk factors for venous thromboembolism after laparoscopic surgery for colorectal cancer
Cecilia Becattini, et al.
<http://www.haematologica.org/content/100/1/e35>

Comments

Comments are available online only at www.haematologica.org/content/100/1.toc

- e39** Radotinib in the treatment of chronic phase chronic myeloid leukemia patients
Ahmet Emre Eskazan, et al.
<http://www.haematologica.org/content/100/1/e39>
- e40** Comment on: 'Should clinical hematologists put their microscopes on eBay?'
Shaun R. McCann
<http://www.haematologica.org/content/100/1/e40>
- e41** Answer to Comment on the Editorial 'Should hematologists put their microscopes on eBay?'
Mars van 't Veer, et al.
<http://www.haematologica.org/content/100/1/e41>
