

Survey Research Center at IUPUI

Neale R. Chumbler, Anne L. Mitchell

School of Liberal Arts

Indiana University – Purdue University Indianapolis

Abstract

This poster will describe the different ways in which the Survey Research Center at IUPUI (SRC) can help serve IUPUI faculty, staff and students as well as organizations not affiliated with the campus with research design, data collection, data management and data analyses. The poster will use recent surveys for which SRC has been a leader in designing, collecting and analyzing data to show the possibilities for collaboration to show the possibilities of collaboration within and outside the IUPUI community. SRC, a research center within the Institute for Research on Social Issues (IRSI) within the School of Liberal Arts, is an interdisciplinary survey research center that provides services to a wide variety of private, non-profit, and governmental organizations. The center also serves the entire IUPUI campus by conducting research for faculty members, students, and various university departments. The SRC is equipped with call stations (for telephone interviewing) and is equipped to conduct face-to-face, web and mail surveys depending on research design needs.
