Jefferson Journal Award

The Jefferson Journal Award has been established to honor the best paper submitted during each calendar year to the Jefferson Journal of Psychiatry: A Resident Publication. An award of one thousand dollars is given to the chosen author, with an additional one thousand dollars to be given to the residency program or fellowship in which the author is enrolled. The winning submission is selected by the Journal's editorial board from manuscripts submitted on any subject related to psychiatric practice or research.

The editorial board of the Journal is proud to announce the recipient of the 1993 Jefferson Journal Award: Scott A. West, M.D., for his article entitled "Pharmacologic Advances In The Treatment Of Schizophrenia." Dr. West is a Fellow in the Biological Psychiatry Program at the University of Cincinnati College of Medicine.
