The American Journal of Medical Quality is focused on keeping readers informed of the resources, processes, and perspectives contributing to health care services. This peer-reviewed journal presents a forum for the exchange of ideas, strategies, and methods in the delivery and management of health care.

The journal publishes:

- Research studies measuring quality in terms of productivity, cost, timeliness, and patient and employee satisfaction

- Evaluations of the delivery and management of health care, including the results of surveys, research review papers, and book reviews
- Timely reports on changes in the field of medical quality, utilization and risk management, clarified with graphs and tables
- Content applicable to those practicing, conducting research, and teaching in the field of clinical quality improvement, as well as academics and other professionals connected to the health care system

Senior Scholars Program:

Building Connections with the Department of Health Policy

The Department of Health Policy of Jefferson Medical College created the Senior Scholar program as an alternative to traditional faculty affiliations (i.e., adjunct or secondary status). The Senior Scholars program provides the opportunity for individuals to benefit from an association with the Department while contributing meaningfully to current Department research, mentoring, teaching, funding, and/or publication activities. Professionals from government, industry, business, marketing, academia, and medicine are encouraged to apply. For further information, visit the Department website at www.jefferson.edu/dhp or call 215-955-6969.

Research Faculty, Project Manager, and Analyst Positions

The Department of Health Policy of Jefferson Medical College has several new openings for its rapidly growing research program. We seek individuals with interest/experience in outcomes research, statistical analysis, pharmacoeconomics, and/or health services research.

See www.jefferson.edu/dhp for information on our exciting activities. Email resume to Neil Goldfarb, Director of Research, neil.goldfarb@jefferson.edu

Department of Health Policy Offers **PHYSICIAN FELLOWSHIP** in Outcomes Research

For over a decade, the Department of Health Policy (DHP) has offered outcomes research fellowships for doctoral graduates. Through the program, fellows learn to design, implement, and communicate the results of outcomes research studies and develop an understanding of policy implications.

In 2004, DHP partnered with GlaxoSmithKline to offer a physician outcomes research fellowship. The program consists of two years of post-graduate training. During the first year, the fellow will work under the mentorship of Dr. Nash at our office in Center City, Philadelphia. The fellow's primary role will be to serve as a member of the DHP Research Group. The fellow will also be encouraged to take classes in epidemiology, biostatistics, research design, and health policy and will have the opportunity to attend and present at DHP's short courses, research meetings, journal clubs, health policy forums, and sponsored educational programs. Writing skills will be developed through publication of the fellow's research projects and authorship of articles for the peer-reviewed journals. During the second year, the fellow will work as a researcher within the Global Health Outcomes department of GlaxoSmithKline, located in the Philadelphia area. A competitive stipend is provided.

Recruitment is underway for the 2006-2008 fellow, who will begin in June 2006. Applicants must be U.S. board eligible or already have U.S. medical licensure. Experience in health services research and/or health policy is preferred.

To apply, please contact Laura Pizzi, PharmD, MPH, Associate Director of Research, at **215-955-1159** or **laura.pizzi@jefferson.edu**.

TWO NEW RESOURCES FROM LEADING EXPERTS!

ECONOMIC EVALUATION IN U.S. HEALTH CARE: PRINCIPLES AND APPLICATIONS

Laura T. Pizzi, PharmD, MPH and Jennifer Lofland,
PharmD, MPH, PhD, both of Jefferson Medical College

ISBN: 0-7637-2746-6 • \$49.95* (Sugg. US List)
Paperback • 200 Pages • © 2006

Skillfully and effectively interpret economic evaluations
with this essential resource!

Based on the core principles of pharmacoeconomics, this
text provides an overview of the methodologies that can
be applied to new drug and non-drug interventions.

*Economic Evaluation in U.S. Health Care: Principles
and Applications* offers health professionals a solid
foundation for understanding, interpreting, and applying
the tools of economic evaluation and is essential
for anyone involved in healthcare
decision-making.

THE QUALITY SOLUTION: THE STAKEHOLDER'S GUIDE TO IMPROVING HEALTH CARE

David B. Nash, MD, MBA and Neil I. Goldfarb,
both of Jefferson Medical College

ISBN: 0-7637-2748-2 • \$49.95* (Sugg. US List)
Paperback • 321 Pages • © 2006

Look no further for pragmatic solutions to the quality
measurement and safety improvement challenge!

The Institute of Medicine called the substantial gulf
between the vision of ideal care and the reality of what
most individuals receive a "quality chasm." *The Quality
Solution* enlightens, informs, and challenges professionals
in public health, medicine, health administration, and
health law to bridge this "chasm" and to
participate in the transformation
of the healthcare system through the
science of healthcare
quality measurement
and improvement.
