

Jefferson Medical College  
Department of Surgery  
Presents: Grand Rounds

## “The Evolving Endocrine Management of Metastatic Breast Cancer”

*Given by*

***Massimo Cristofanilli, MD, FACP***

Deputy Director of Translational Research  
Director of the Breast Cancer Clinical Program &  
The Jefferson Breast Care Center  
Thomas Jefferson University Hospital  
Kimmel Cancer Center

At the conclusion of this presentation the participant should be able to:

1. Recognize the clinical and molecular subtypes of breast cancer.
2. Recognize the standard endocrine therapies for Estrogen-resistant metastatic breast cancer.
3. Recognize and implement novel molecular therapies in Estrogen-resistant metastatic breast cancer.
