What people are saying about the JDC

Name: Colonel Jeffrey A. Bailey, MD, FACS

Country: US

Role: Military Surgeon in War

Comments: Thank you for making this manual available by open access. The responsibilities and attributes of a military surgeon that Dr. Gross "hastily" characterized in this manual are as relevant and poignant today as they were in the opening days of the American Civil War. These words have inspired a new generation of military surgeons and resolve us to our purpose, service, and calling.

Name: Jerry J. Svoboda, MD

Country: US

Role: surgeon, amateur medical historian

Comments: Dear friends,

I am the owner of the surgical instruments of Civil War surgeon Joseph R. Martin, Jefferson class of 1862. I printed out the 1861-62 catalogue to keep with the instruments as part of the historical record. Many thanks for this service to the profession and the ease of accessibility.
