**The President's Message**

Dear Fellow Alumni,

On May 7th when I assumed office from Flossie Roche, I felt awed and honored as I looked across the sea of faces enjoying the annual luncheon and renewing friendships. I also realized at that time, that this was only a small gathering of the graduates of Jefferson Hospital School of Nursing. Generally speaking, these were mostly the reunion classes.

So how many members of the alumnae (a feminist at heart) are there? It was a real shock to learn that of over 3000 living Alumnae, only 779 are dues paying members. There are also 235 life members (those who have belonged to the association for 40 consecutive years.)

Because not all of the members live in the Philadelphia area, the work of running the organization, planning and executing the work falls on the shoulders of a few loyal and devoted members. To them we give thanks.

The annual meeting moved ahead smoothly and efficiently, and those alumnae who attended heard of the work which is being carried out in the name of all of the alumnae. There were 62 at the meeting. Many appeared impressed and pleased with the work which had been done, and that which was being planned.

The Satellite Group in New Jersey met several times last year and are continuing to plan for the future. A second group will be meeting in the Harrisburg area in August to develop an on going group, which will renew friendships and keep up with the Philadelphia group. Interest is astir in the Baltimore area, but it needs a little more nurturing to arrive as a viable group.

All these activities make for an exciting and interesting future for the alumnae of the School of Nursing of Jefferson Hospital. It also means that we need to expand the membership in the organization.

The younger members can seek funds for educational purposes. Nursing as a profession will only grow and evolve as we have prepared leaders who can move forward. As a past recipient of alumni scholarship fund, I am most grateful for the help I received while engaged in doctoral study.

More and more of our members are representative of the national population — getting older. Some of them will be in need of financial assistance from the relief fund. Fortunately, previous presidents and boards of directors have had sound financial advice, and both the Relief Fund Trust and the Scholarship Fund are secure at this time. However, we have no crystal ball, so do not know what the future will bring.

We do know that in 1992, the Alumni Association of Jefferson Hospital School of Nursing, (we have changed our name several times) will celebrate its 100th anniversary. The last class to graduate (1982) will celebrate its 10th anniversary. My class will celebrate its 50th anniversary. Will there be members to celebrate the 150th anniversary? Membership is not a big expense but it is a source of real pleasure to meet with friends and classmates several times a year, and have a voice in the progress of the nurses who shared the organdy cap, and black, blue and gold pin.

Warmest wishes to all,

Alice C. Boehret, *Class of '42*  
President

## The Jefferson Hospital School of Nursing Roll of Honor

The School of Nursing may be closed but many of its graduates have distinguished themselves and their school by their contributions to the field of nursing. It is a given fact that they were excellent patient bed-side nurses who gave full measure in caring for those committed to their care. We are interested in compiling a record of those who gave and continue to give to the growth and development of nursing.

Our successors, the graduates of the baccalaureate program, have no direct ties with the School of Nursing, so do not know of our contributions to nursing. Indeed, many of our alumnae sisters have no knowledge of the many contributions made by Jeff nurses. So, it is proposed that information be solicited and compiled into a permanent record for the edification of future nurses who will graduate from Thomas Jefferson University and give the graduates of the School of Nursing of Jefferson Hospital a source of pride in their accomplishments.

In order to determine criteria for selection of candidates for the Hall of Fame, Alumni Bulletins were reviewed and a list of criteria was prepared. The number and variety of contributions was gratifying, however, it is believed that this is only the tip of the iceberg. The major problem the committee will face is the identification of those graduates who have made significant contributions to nursing and who have died. The committee, therefore, asks that you, the living graduates, identify those mothers, sisters, aunts, and acquaintances who were and are Jeff graduates. If the maiden name is given, and approximate year of graduation, our records will identify exactly the year of graduation.

The criteria identified are as follows:

Criteria: Meets one or more of the following criteria which are beneficial to the advancement of nursing and nurses.

1. Established a nursing education program
2. Served on state, regional, national or international committees
3. Wrote or edited books on nursing (articles)
4. Received honors or awards (nurse of the year)
5. Service to Government (not military)
6. Missionary in a foreign country
7. Served as officer in Nursing Organization(s) (Local, State, National)
8. Invented, designed or improved equipment

At the back of this Bulletin is a form for you to nominate any one who will meet one or more of the criteria. Please indicate in the space below the criterion how your candidate meets it. You may nominate any number of graduates. Please use a separate sheet of paper for each nurse you wish to nominate. Remember, we also wish to identify those nurses who are no longer with us.

It is not necessary for you to sign your name if you do not wish to.

When complete, please return to

# Glimpses From An Earlier Time

Curtis Clinic 1931-1932 left to right Millie, Minnie, Miss Barnett, Ruth, Gay, Thelma and Dottie

In 1931 the members of the class of '32 were completing their training at the Training School for Nurses of the Jefferson Medical College Hospital. Yes, it was called a "Training School" in those days. Now, we say we train animals — we educate people.

We were in the midst of the Great Depression, but it didn't mean a whole lot to us. We had been well protected during our student days — clean, warm shelter, adequate nutritious food, and in addition a stipend of \$6.00 a month our first year, \$7.00 the second, and \$8.00 the third. (But we paid no tuition.) If we didn't like the menu of the day, there was always plenty of bread, molasses and milk. We stayed healthy. We saw people selling apples on the street for 5 cents, and some of our families were having a rough time, but none of us lost any money on the stock market — we didn't have any to lose.

As we completed our program in September and October of 1931, some went back to their hometowns. Many of us elected to stay in Philadelphia where we felt comfortable, particularly in our own hospital.

By and large, the hospital was staffed by student nurses. But private duty nurses were common among the private patients. Many opted for that. Ruth Ulsh (Menicon) 1931, reports that after working for 13 months in O.B.O.R. she resigned to do private duty nursing. She had one case 11 days, 12 hour duty, for \$66.00 (\$6.00) a day. She received \$75.00 a month in O.B. the first 4 months, then \$80.00 the next 9 months.

When I completed the program, I went on the registry. I had one case, a D & C on third Corridor. All I remember of that is that the patient slept all day, for which I was grateful, for I had on my first pair of white duty shoes, and they hurt my feet. I also had a blister on my heel. I wasn't called back the next day. I never knew whether she didn't need a nurse or if I wasn't satisfactory. However, I was glad. That one case convinced me I wasn't cut out for private duty nursing.

A few days later, the word was around that Miss Melville was calling to her office many young nurses. We found out that the new Curtis Clinic was opening, and she was calling nurses to staff it.

Probably the first one to be appointed was Miss Marguerite Barnett, '14, as supervisor of the clinics. Barney, as we all called her, was not only our supervisor, but our friend and professional and personal advisor.

I remember when we became 21 years old, she herded us all together, and marched us to Lombard Street to register to vote. She felt strongly about that. When Election Day came, the same procedure prevailed, and we were given time to go vote. Not given time — mandated that we go. To this day my conscience makes me vote at every primary and general election.

Each morning we congregated in her office on sixth floor of the clinic to get our supplies, tell her our problems, and get directions for the day. It made a close bond between those of us who took advantage of it.

It was during those morning conferences that we also planned get-togethers. Our most remembered was the pic-

nics. On our Sunday off, we would pack a picnic lunch, take the open air trolley to beautiful Fairmount Park, and enjoy an outing. It was so good to get out of the city, particularly on a hot summer day. You must remember there was no such thing as air conditioning in hospital or nurse's home in those days.

Sometimes we would go to the clinic rooftop for R & R. Pictures will attest to this.

Nurses were not "allowed" to fraternize with medical students or interns. One time Miss Melville saw Caroline and Millie being escorted to the door of the Nurses' home by two medical students. She called Barney the next day, and scolded her for allowing "her girls" to do such a terrible thing. She told her to tell them to cease and desist such activity. Barney relayed the message! I'm sure it didn't stop the "activity."

After Miss Barnett was appointed, Miss Melville began to summon the rest of us, one by one. A phone call: "Miss Melville wants to see you in her office Tuesday, 1:30 P.M." We never questioned the time or motive. We were accustomed to doing what Miss Melville said!

I am not sure what kinds of clinics existed before this. I know there was an OB clinic. They moved to the Curtis Clinic intact with their nurses, secretaries, white mice, rats and rabbits, and stayed pretty much to themselves.

Minnie Souder, '30 came with E.N. & T. I know this was formerly in the basement of the old hospital building for I remember as a student taking patients from the hospital floors for T & A's. The fact that you HAD tonsils was reason enough in those days to have them removed. The adults were seated in a chair, and under local anesthesia, the M.D. snared them out.

It seemed to me to be quite gruesome. The children were lined up on stretchers, and waited, one after the other. I think Edna Scott worked for a time in this operating situation. Dr. Lott was the primary physician in the department.

Minnie left in 1935, and Rita Kratzer, '35 took over. Minnie remembers that if Dr. Lott liked you, you could do almost nothing wrong. But beware if you crossed him!

A new nurse to be appointed was Dottie Dundore (Williams), '33. She had G.U. Clinic, but didn't stay too long. Dottie had a college degree, and had taught school before

Marguerite Barnett, '14

she entered nursing. A college degree was a rarity for nurses in those days, so Miss Melville soon tapped her for the nursing school office. However, not before Dottie made friends with all her co-workers. One such was Fred, the orderly in "her" clinic. Fred was quite a fisherman, and arranged deep sea fishing expeditions for us. Most of us had never been at sea, and we reacted violently. We were told to eat strawberry jam on the boat because it would taste as good coming up as going down. Those of us who were the sickest, caught the most fish, so apparently the fish liked it, too. Those who didn't get seasick got sunburned. But we sure had fun! Other classmates were always happy to go along.

Millie Smith (O'Connor), '32, was called for G.I. clinic on 8th floor, and Carolyn Jones (Transeau), '32, for Orthopedic and Neurology. Millie worked with giants like Drs. McCrae, Beardsley, Griffith, and Rhexuss. The nurses here learned to do many procedures pertaining to the G.I. tract. Three times a week gall bladder drainages were scheduled. Endless shots were given to arthritis patients for Dr. Cohen. Diabetic clinic was Saturday A.M. with Dr. Duncan. Etta Heal (Baker), '37, replaced Millie, and adds memories of Dr. Duncan. He was tall and austere, and in his English tweed suits he would give the patients H\_\_\_, and tell them not to come back again unless they "brought their blood sugar down before next week!" Millie and Etta both speak of the wonderful experience of working with such outstanding doctors. Students nurses came to these clinics too, so Etta and Millie were able to teach them, as well as the medical students, the various procedures.

Caroline's time was taken up very often in the cast room of Orthopedic clinic with Drs. Rugh, Martin, and Hand, Neurology doctors were Drs. Burns and Gilpin, whom she helped with spinal drainages every Friday.

Caroline eloped, and Millie left to work in a doctor's office. I think Etta left to marry. Remember, married nurses were not permitted to continue working at the hospital.

Jo Fink, secretary in surgical clinic, recalls the special treatment clinic for syphilis. I do not remember which clinic this was affiliated with — was it Dermatology? or was it G.U.? Anyway, secretaries and nurses from other clinics helped. The lines ran from the treatment room to the elevator, all waiting for their weekly injections of Bismuth or Neoarsphenamine. The young secretaries were frightened about those "horrible" diseases. But the patients were treated well, and appreciated the care. Many times they brought gifts — tailor

Calling for a patient's history

made woolen skirts, and mill workers brought silk stockings, etc.

I've already told you something about Ruth Ulsh. To continue, when the clinic was being staffed, Dr. Scheffey (for whom Ruth had worked in OB) asked Miss Melville to assign Ruth to Gyne clinic, fifth floor. Ruth was happy to accept the assignment, even though it was a cut in pay from O.B. At the time she was engaged to Nick Menicon. Miss Melville stopped her one day in the hall, and asked her if she were married. "No, Miss Melville." She was telling the truth. But shortly thereafter she did marry, and kept it a secret from administration until she resigned to join Nick who was a chaplain in the army. We girls knew about it, but our lips were sealed. She was in Gyne from November 1931 until April 1935. During her first week in the clinic, she heard two painters talking about the new building. "This is a white Elephant." We certainly refuted that statement over the next 40-odd years.

Also on the fifth floor was Surgical clinic. Gay Arnold (Blue), '32, was the nurse here. There was the general surgical clinic, Varicose Vein and Proctology clinics. Dr. Haskell was "her" proctology chief; Drs. Willauer and Walking, surgeons. Those of you who knew Dr. Willauer will appreciate this story. The older Italian women would come to have their varicose veins treated with injections to sclerose the vein. Some of the women would drive Dr. Willauer to distraction by wearing round elastic garters. He would take the garters, stretch them like slingshots, grab scissors and cut them to shreds. The women would come to Gay crying, not knowing how to get home with their stockings falling below their knees. Gay would make a knot on the top, fasten it with adhesive tape and admonish her to take it off the minute she got home, and not to come back until she had a garter belt.

On Sundays, when we were on duty, but the clinics were closed, we would congregate in one of the surgical clinic treatment rooms, and prepare supplies for the following week. Gay would have the raw supplies ready. Bolts of gauze would have been cut to the proper sizes the day before in Central Supply. We would fold and wrap the dressings for sterilization on Monday. We made cotton balls. We made applicators. We sharpened needles. There were no disposables then. No disposable nothing that I can remember. Needles and syringes were boiled between use. We didn't worry about Aids, nor even hepatitis. I know of no case of infection being transmitted.

During this time we discussed love and life! Was it better

to have loved and lost than never to have loved at all? The problem was never solved.

Gay led the singing. It made the chore less boring. Gay was (and is) a good vocalist. Poor Gay, even though I would sit next to her, she never was able to keep me in tune!

Sometimes we would be assigned to relieve in accident ward, or perhaps to sit with a patient recovering from emergency surgery, coming out of ether. I don't remember that there was such a thing as a recovery room. We didn't much care for these assignments — only because we felt inadequate in strange surroundings.

Before patients came to the clinic they stopped on first floor, registered, told their complaint so the registrar could assign them to the appropriate clinic. They had to pay 50 cents, 25 cents, or nothing as determined. During clinic hours an operator ran the elevator. One day, a patient handed him a slip of paper that read "Pain in R ear." Mistakenly, the patient was directed to proctology clinic instead of ear clinic. Imagine being told to take your pants down to have your ear looked at!

The clinic was officially opened with appropriate dedication ceremonies on December 17, 1931, and the portrait of Cyrus Curtis was unveiled. Of course, you realize that by this time we had all settled in, and were functioning well. I hope you also realize by now that I have not mentioned Children's Clinic.

I was one of the lucky ones to receive the order to report to Miss Melville. I felt particularly grateful when she asked me (told me) to take Children's Clinic. It is the one I would have chosen had I been give a choice.

The chief of the clinic was Dr. Norman Macneill, affectionately known as "Mac." I don't remember knowing him before, but it didn't take long to realize how fortunate I was. He was very easy to get to know and I knew in short order that he was a kind and caring man. This was borne out in the eight years I was in the clinic. He sailed in, in a hue of colors, red hair complementing his green suit, pink shirt, and tie the color of "baby B.M." (his words.) This doesn't sound as bizarre today as it was in the conservative era of the 30's.

The clinics were open 11 AM to 1 PM, except on Saturday when it was 11 AM to 12 Noon. Even if we had not had a clock, we would have known when it was clinic time. The parents, mostly mothers with their children, would be in the booths usually around 10:30 AM. They would have checked in with the secretary, who called for the history to come from the record room via pneumatic tube, or write a history if the patient was new. The nurse then saw that each patient was weighed and measured. This might be done by the R.N. or a student nurse if one was available. Also Debs from the Main Line, who were Junior League trainees, came on some days. Many a Main Line deb got baptized as she placed a male baby on the baby scales, and took off his diaper. All of us learned to keep our lips closed. The R.N. tried to be in the weighing room when possible. This was her opportunity to observe the children, evaluate them and teach good health habits.

When this was done, the history was put in an open file box for the physician. The child was either put in one of the examining rooms to wait, or sent outside to the booth.

When we heard the tap-tap-tappity-tap in 16/16 double time, we knew Mac was coming down the hall. He sailed in, and firmly took charge. As the other doctors came in, they assigned students to each patient. There were usually four,

"Weighing in"

five, sometimes six doctors. Each one would be supervising the medical students.

In the hall, which was the waiting room, there were booths which were supposed to keep the mothers and their children separate from other families in order to prevent cross contamination of the so-called childhood diseases, which are practically non-existent now. But can you imagine trying to keep them separated? They ran all over the place. So we tried to screen them as soon as possible.

We did have a holding room for diagnosed or suspected communicable disease patients. If so diagnosed, they were kept here until private transportation could be arranged by parent or social worker, or they could be transferred to the Philadelphia Hospital for Contagious Diseases, (no longer in existence.)

Dr. Macneill flitted all over. Students and staff alike sought his advice. Sometimes there weren't enough patients for each two students. Sometimes there were too many. Mac said we were a weather clinic. "Whether they (the children) came or whether they didn't, depended on the weather." So true. So the students prodded, thumped, listened, looked and conferred with each other. Dr. Macneill would stand at the door of the examining room, 10 feet from the patient, and make an accurate diagnosis before the student had an inkling. He needed only his five senses, not the armada and sometimes inaccurate laboratory results which we often see today.

He didn't cotton to birth control. If the rest of us were wont to berate a poor struggling mother for having 10 children, his answer was: "God will take care of them." Most of us knew that God's initials were frequently "NMM."

Again, he would be instructing a mother in infant feeding. She would ask if her three month old baby should have solid food. "Mother, if God wanted him to eat meat and vegetables

at three months He would have given him teeth now." He was not much for bottle feeding, if breast milk was at all available. "Can I give my baby a bottle?" "Mother, cows' milk is for calves. Mother's milk is for babies."

However, we had a big walk-in closet filled with all kinds of samples of baby foods and commercial formulae. All sent by the newly emerging baby food companies. I remember the Gerber foods especially. They sent pictures of the Gerber baby which we hung all over the clinic. These samples of food and formula helped many families eke out the babies' diet. He was very generous in passing out these samples to any needy family.

The medical students received wonderful training in all the aspects of pediatric care to be found in any general practice. In addition to this general practice we had specialized services. Dr. John Coppolino had a congenital syphilis clinic. All babies born to leucic mothers in the OB department were referred to him. I think this was on Tuesday. Dr. Coppolino taught me to draw blood for the Wasserman tests, this at a time when nurses barely were allowed to take blood pressures. We drew from the jugular vein or the fontanel. Tricky business. Medical students learned from all of us. Treatment hopefully was prevention by good prenatal care. The Wasserman positive infants were given Acetarson, perorally, Ar-sphenamine or Bismuth. Also one day a week we had a heart clinic. I do not remember who was in charge of that clinic. Was it Dr. Edward Thomas or Dr. Aaron Capper? No matter. They were both involved in Children's care.

Wednesday afternoon was Well Baby Clinic. That was a day we all liked. All those healthy black, white and yellow babies! The Debs particularly liked that clinic. We averaged 1,000 babies a month for awhile. We vaccinated for smallpox, and gave DP T immunizations. One year we tuberculin tested them. (Once when I was a school nurse in Williamsport, I had to attend a two day seminar on how to do tubercular testing. I, who had done hundreds, and had taught medical students to do them.)

Thursday PM was Children's Psychiatric Clinic, under the care of Dr. Baldwin Keyes. This was primarily counselling of parents and psychological testing and evaluation — many times to facilitate placement in institutions.

I particularly remember Blaine and Evan W. (I remember their names after 55 years!) The mother had taken these two children all over Philadelphia and New York City to every facility that did psychological testing, especially to the ones that would tell her Blaine and Evan had the highest I.Q. I think they did test out to something like 130 for Blaine, and 150 for Evan. There was no question that they were bright. The mother, considering herself very bright, looked for a husband equally bright, and married him to procreate super children. The only thing was, the husband was living in New York on welfare, and she was in Philadelphia on welfare. I do wonder what happened to them! The last I saw of them she had them on a harness going down 10th Street.

Dr. Keyes had one great fault! After every clinic day, he would bring his notes for the history to Miss Edwards, the secretary, and the two of us would spend hours deciphering his writing. It consisted of a first letter, and then lots of squiggles. We got pretty good at it. If it was impossible, we would keep the history, and ask him the next week to decipher it. He usually accepted our interpretation.

During all this time I had been taking classes at the University of Pennsylvania. Finally, I went on parttime from Children's Clinic. I was taking Public Health Nursing, and Katherine

Thelma Showers Morris, '32 Retirement party 1939

Tucker, my advisor at Penn, advised me that my class work would be much more valuable if I had some actual public health experience. I thought my pediatric and Curtis Clinic was adequate.

However, I had been in the clinic 8 years, and felt it was time to move on. So, with the blessing of Dr. Macneill and the others, I resigned in 1939 with regret, and went with Philadelphia Nursing Society.

By this time there had been many changes of staff. The clinics survived until about 1974. Pediatric Clinic was the first one to close in 1974.

By 1978, all the clinics were closed, and former patients were assigned to private physicians. Now all clinic floors, with the exception of first, are used by the medical college.

And so ended a remarkable era. I wonder where the medical students now get the kinds of excellent experiences they did in the Curtis Clinic! Not only the medical students — the nurses were doubly fortunate in working with such top notch doctors in all fields. The doctors were compassionate, caring, and willing to give their time and expertise gratis to patients, medical students, nurses, secretaries; yes, even the Debs. This was the theme that ran through all the letters that I received. Each nurse thought "her" chief was the best. I knew mine was. Dr. Macneill died in 1965. He was a great doctor, and a great human being. I am grateful to have been a part of the clinic.

I'm sorry not to talk about all the R.N.'s, secretaries, and others who were part of the clinics. There was a constant going and coming. Perhaps someone else out there will pick up the story for next years Bulletin.

# Accentuate The Positive

Since my last article, some bad luck occurred. I asked myself, "Why would my fellow alumni be interested?" But since so many people continue to give me encouragement, I once again send along a report.

I've had people say, "Hang in there." "Things could always be worse." "Keep your chin up." And when kids today hear of problems, they often say, "That's deep." The phrase that helps me the most is, "One day at a time."

Now for an update on the bad luck.

In July 1987, during a pivotal transfer (necessary because I have multiple sclerosis, I was dropped. An X-ray showed that the right femur snapped, and I was sent to surgery for insertion of plates. No weight bearing allowed; therefore, no transfer.

However, thanks to Dr. Hoyer, who invented a canvas with hooks, chains and pump — the Hoyer Lift — I have been transported from bed to wheelchair, and from wheelchair to bed via this transportation.

The Hoyer was used in the hospital in July 1987. And in July 1988, I am still swinging in this remarkable contraption because the fracture has not healed, although there has been considerable progress in the healing process.

The rattle of the chains takes me back to high school literature when we studied Victor Hugo's *Les Miserables*. Jean val Jean was in chains in prison for 19 years. So my one year must be accepted.

Recently I went for my "every second month" X-ray of the femur. Although the orthopedic surgeon is anxious to have me "restart" weight bearing and pivot, he hastens to add, "You have had to be remiss for one year, so physical therapy must come first." Although I hope to get back to where I was one year ago (and even hope to start tutoring again) I am told that I have severe osteoporosis because of no weight bearing. It looks as though I am a sitting duck for another fracture.

Another obstacle that has cropped up at the worst time is a problem I am having with my left shoulder, relating to an arthrotomy eight years ago. It's slow going, and always gets back to "one day at a time."

On a happier note, I am still able to "go places" by a Septa Paratransit van. To be picked up and returned home, I must call for reservations exactly one week in advance of decided trip (allowed only within city limits). These outings allow me to keep doctors' appointments as well as enjoy trips to the grocery store or shopping malls, always with a Home Health Aide by my side. Several times a year, I make trips to my niece's home in Narberth and my sister's home in Wynnewood, ordering vans that provide services to the suburbs.

Every August, my sister, her daughters, sons-in-law, and their children spend a week at the New Jersey shore. There are five little ones now, ranging in age from three months to seven years — three boys and two girls. For my day's visit with them, I call on a friend who has multiple sclerosis and drives his own specially-equipped van from his wheelchair. My Home Health Aide accompanies me, and she and my friend "do the boardwalk" while I spend time with my family.

Vivian I. Moyer, '43

My family and I meet for a festive lunch in the lovely dining room of the Flanders Hotel in Ocean City. Then we walk the boards, giving me a chance to enjoy a look at the ocean. At the end of the day when I'm being put to bed with the help of (you guessed it) the Hoyer lift, I'm happy to have the memory of a day at the shore.

My elder niece's two little boys, age 7 and 4, come to my apartment for a weekly visit, making a bee-line to an A&P box covered with gift-wrap paper and filled with toys. We have a glorious play session.

I have been in the wheelchair for 12 years now, and "no bed sores." Jefferson training — take a bow!

Note: Miss Moyer was graduated from Jefferson Hospital School of Nursing in 1943. Her clinical experience from 1945 to 1953 was wide and varied. In addition, she served in the Army Nurse Corps, World War II, and spent 18 months in a General Hospital in England. In 1953 she received a B.S. in Nursing Education from the University of Pennsylvania, after which her teaching career began. Miss Moyer was president of the Jefferson Nurses Alumni Association, 1959, 1960, 1961.

**W**hat is a friend? Quite a number of things —  
 A welcome hello when the telephone rings —  
 A person who borrows — but also will lend —  
 Who hears all your woes from beginning to end —  
 A friend is a comfortable afternoon shared —  
 A note sent to show you that somebody cared —  
 A friend is the magic that brightens your day  
 And a friend is what you are in every way.

# Reaching a Cherished Goal

As far back as I can remember (and that's a very long time) I wanted to be a nurse. I was inspired by a great-aunt, who lived in a rural area and spent her life-time accompanying the local doctors to deliver babies in their homes, and caring for them and the mothers for two weeks, or until she received a call from a doctor to assist with another delivery. But in those days our parents guided our lives, and even until my graduation from high school, my parents never wavered from their decision that a nurse's life was that of slavery, and no child of theirs should choose that profession. Therefore I trained in clerical work until I was twenty-one, and in the following year, in March 1924, I was accepted into Jefferson Hospital as a "probie," determined to earn the respect and obedience that Miss Melville demanded of us. This was not difficult as I was accustomed to following orders from my elders.

There were twelve of us in that class, assigned six to a room at 1012 Spruce Street, with Miss Virginia McCleavy presenting us with more rules and regulations. Our first encounter with the awesome hospital was to have our "shots," a minor detail. OH YES! there had been an operation just before we entered the operating room, and the bloody sponges hadn't been removed from the floor, a gruesome sight. As we lined up and received the "needle," one by one we turned white and four of us, including me, slowly eased to the floor, causing the nurses dismay and hasty reviving. I expected to be sent home that night, but ethics prevailed, and I remained at Jefferson.

Our next assignment was to the "sterilizing room," where we rolled bandages, folded sponges, scrubbed floors, cleaned bathrooms, and prayed for tolerance. At the end of the first month, after uniforms and books were deducted, (in those days students received a small monthly stipend from the hospital) our first pay was fifty cents.

After three months probation, we all received our "caps," the goal for which we strived. My first assignment was to give "Mr. Jones" a bath. He related that all beginners started with him, and he helped me do a perfect job. I remember he had one leg amputated, my first encounter with such a condition.

After "capping" we thought at last we were nurses, but the struggle had just begun. Back-breaking at times, but rewarding, and my long sought goal had finally materialized.

After reading the 1987 Alumni Bulletin, which I enjoyed to the extent that I wanted to write to say—it all brought back so many memories; for instance, the descriptions and experiences of Thelma Showers Morris in her "duty" at Pine Street. Even though she followed me by five years, we shared so many memories. Miss Cushen showed patient concern for our "cogitation" in following instructions to prepare a male corpse (I'm sure we must have had more than our share of them.) But as Thelma described the working crew, "we were one big happy family."

Also the article by June Reginak Dupnock on "School Nursing" brought back memories of my thirteen years as a school nurse, which in very few ways corresponded to the present methods. I was the lone nurse in the Kennett Square Consolidated School with 1200 students. This included ele-

mentary and high school grades in the one building, and encompassed the rural area.

My first two months at the beginning of each term was spent "hunting" for head lice in the lower grades, and separating the culprits from the "clean" guys. I could give aspirin only on doctor's orders, and appeased upset tummies with "Roloids" and rest on a cot (which the patient looked forward to, especially if the next class was unpopular.)

As paper work increased, a second nurse was employed and before I retired, we had one teen-age pregnancy. One morning a drunken high school student was sent to me to be taken home to his parents. These two events aroused a turmoil among the administration, being the first of the kind to happen. I was glad I did not have to make the decisions.

Do none of the R.N.'s wear caps anymore? (I still have my first cap.) I am amazed when I do volunteer work at the bloodmobile and find none of the nurses capped. When I ask them why? they reply "too much trouble." Do they not care about the distinction between aides and R.N.'s? If they worked as hard as I did to get my cap, no one could take it away from them. Oh yes, I had to wear a complete uniform when I was a school nurse.

I am proud to be a "Jefferson" graduate. I will close my travels down memory lane by quoting the ending from the president's message, "Thanks for the Memories."

Sincerely,  
Frances Baker-Anderson-Crossan, Class of 1927

## "I Have Noticed"

Everything is further away than it used to be. It is even twice as far to the corner and they have added a hill. I have given up running for the bus; it leaves earlier than it used to. It seems to me they are making the stairs steeper than in the old days. And have you noticed the smaller print they use in the newspaper?

There is no sense in asking anyone to read aloud anymore, as everybody speaks in such a low voice I can hardly hear them. The material in dresses is so skimpy now, especially around the hips and waist, it is almost impossible to reach one's shoelaces . . . and the sizes don't run the way they used to. The 12s and 14s are much smaller.

Even people are changing. They are so much younger than they used to be when I was their age. On the other hand, people my own age are so much older than I am.

I ran into an old classmate the other day and she has aged so much that she didn't recognize me. I got to thinking about the poor dear while I was combing my hair this morning and in so doing I glanced at my own reflection.

Really now, they don't even make good mirrors like they used to.

# SPECIAL ACHIEVEMENT AWARD

This year's Alumni Achievement Award Winner, Sister Rose Kershbaumer, a member of the Medical Mission Sisters, has worked in developing African countries for the past 34 years. The Medical Mission Sisters are an order of Catholic nuns who provide medical care in developing countries around the world. The primary focus of the order is on caring for women and children. The Alumni Special Achievement Award is given each year to recognize the outstanding achievement of an alumnus in the areas of education, research, or community service.

Sister Rose Kershbaumer has attended Columbia University, the University of Pennsylvania, and the Catholic Maternity Institute since graduating from Jefferson's School of Nursing in 1948, but ask her where she went to school and she'll proudly respond "Thomas Jefferson University!" Sister Rose says "I have always identified myself with Jefferson. Jefferson taught me at an early age to be responsible, and to always be my best. I believe that what I learned at Jefferson was the basis for my future education and involvement in nursing."

Sister Rose says she joined the Mission Sisters because, "It was something I had been considering for some time. I felt it was a good way for me to achieve my goal of service. I have always been interested in other parts of the world, so I suppose I was more aware of the problems in developing countries than here in the United States."

After completing her training for the Mission Sisters in 1954, Sister Rose's first assignment was to a 100-bed hospital and nursing school in Berekum, Ghana, in West Africa. Her responsibilities included teaching and general staff nurse duties. From there she was moved to Techiman Ghana, and then to Uganda in 1964 as the matron of nursing for Virika Hospital. Virika had been in existence for some time, but was poorly staffed. A full team of professionals was brought in, including Sister Rose who served as matron of nursing for four years. She reorganized the nursing service, established outreach clinics, and began a school of nursing.

When Sister Rose was assigned to Africa, Mission Sisters' assignments were for life, but in 1957 the decision was made to allow sisters to return home every seven to ten years. Today, sisters return every three to five years, often for continuing education.

In 1969, Sister Rose returned to the United States to complete her Bachelor of Science Degree in Nursing and her Master's Degree in Nursing from the University of Pennsylvania. "I received a \$500 scholarship from Jefferson's Nurses Alumni Association, at that time \$500 was a lot of money and it enabled me to continue my education. It was one more way that Jefferson had a major impact on my life." During her time in the States she spent her summers working in New Mexico

and Utah in programs for maternal care and completed a certificate course in midwifery in New Mexico. She then returned to Holy Family Hospital in Ghana as director of nursing and became more involved in midwifery. The hospital had a school of midwifery which she supervised.

Sister Rose continues to be deeply committed to midwifery. "One of the big differences in nursing care in Africa versus America is in the area of child birth. In Africa, a midwife has complete responsibility for prenatal care and child birth. If a doctor is brought in it is at the referral of the midwife," says Sister Rose. "Another big difference is that in western medicine there is a great dependence on technology, but in Africa clinical expertise is relied upon.

"Because there are fewer doctors and the sense of need is so great, nurses have more autonomy, they are given much more control in the care of patients," says Sister Rose. "I also think there is more understanding of the demands made on a nurse's time."

After leaving Ghana in 1973, Sister Rose went to Zambia, then to Kenya and then to Malawi where she has been since 1980. Sister Rose has worked with the World Health Organization, the United States Peace Corps, the Malawi Ministry of Health, two hospitals and several major African universities.

Sister Rose says "Medical care has come a long way during my years in Africa. The goal of the Mission Sisters is to work our way out of a job, to teach locals to do what we do. In almost all of the places I have worked that has been accomplished. In 1954 we had some doctors and nurses, very few registered nurses, and no other allied health professionals. There were only a few nursing schools and they were staffed mostly by Americans. The students I taught in Nairobi in the late 1970s are now running that school, and I have worked with many of my former students as colleagues in other parts of Africa. It's a very rewarding feeling."

In the early 1980s Sister Rose was working for the World Health Organization at the University of Malawi as an educator and coordinator of their efforts to develop a school of nursing. Today the President and Dean of the University's Kamuzu College of Nursing are Malawians. Many of the teachers are also Malawians. Other changes include a new school of allied health which has been opened in Malawi, offering seven programs including pharmacology and ophthalmology.

Sister Rose, who was in the United States for a brief visit in August, is back in Africa continuing her work with the Mission Sisters. Her dedication to nursing and midwifery in developing countries is extraordinary, as is her dedication to Jefferson.

# Archives and the Nursing Experience

by Judith A. Robins,  
University Archivist

When was the first nurse hired to work at Jefferson Medical College? Who was she? Where did she get her training? What were her duties? And knowing *that*, why did she choose to become a nurse? These are the classic five W's, the questions which the University Archives strives to answer, or at least to explore. Our daily challenge is to answer hundreds of questions such as these about the University, its people, and its past. Sometimes, finding the answer is as easy as checking a catalog or an index. Sometimes, after every possible resource has been exhausted, the mystery remains.

The Archives, a department of the Library, has a five-fold mission. We identify, collect, organize and describe, preserve, and make accessible those materials that have archival value to the University, its staff, students and alumni. To determine whether an item should be kept in our permanent collections, we consider administrative, legal, fiscal, and historical values. Perhaps the item explains a policy decision, describes events from a special perspective, records operating costs and equipment purchases, or illustrates campus life. A walk through the Archives reveals Jefferson's many facets.

If we are to provide answers, we must know where to look, so our first charge is to identify and collect those materials that *hold* the answers. The official records and publications of the University are our most important source of information. In recognition of this fact, the College of Allied Health Sciences has embarked on a systematic program to transfer its inactive records to the Archives. Many of the important records of the School of Nursing have also been transferred to the Archives. Miss Doris Bowman, alumna of the class of

1942, Emeritus Professor of Nursing, and Director of the School from 1958 to 1982, has been tireless in her efforts to preserve both documents and artifacts of the School.

The official records, of course, are only a beginning. The Archives also collects the personal papers and memorabilia of our faculty, staff and alumni. Textbooks and class notes, letters and diaries, programs of commencements and cap-pings, pins, invitations and souvenirs of events are all part of Jefferson's history. One of the Archives' top goals for the coming year is to increase its documentation of nursing staff and student life through adding the personal papers of alumni.

Once materials are acquired, our next task is to put them in order, arranging them in a way that accurately reflects why they were created and how they were used. As we organize collections, we also describe their contents, so that answers can be readily found. These descriptions may be in the form of an index or an inventory, called a finding aid, that can be used to assist researchers. In addition to printed finding aids, the Archives will soon be adding holdings data to the Library's automated catalog, *Jeffline*. We will also be reporting our holdings of personal papers to the National Union Catalog of Manuscript Collections, maintained by the Library of Congress.

Because only those materials that have enduring worth are chosen for inclusion in the Archives, our next concern is to ensure their permanent preservation. This would be easy if no one ever used them, but of course, we want to preserve them so that they *can* be used. This can be quite a dilemma! Simply by storing materials in protective containers made of acid-free paper, and keeping them in a climate controlled area, their useful lifespan is greatly increased. We also re-

Hospital Library, circa 1924-1929

quest all visitors to handle them with loving care. In rare instances, we must restrict access to fragile items. Stringent controls are also placed on access to confidential information.

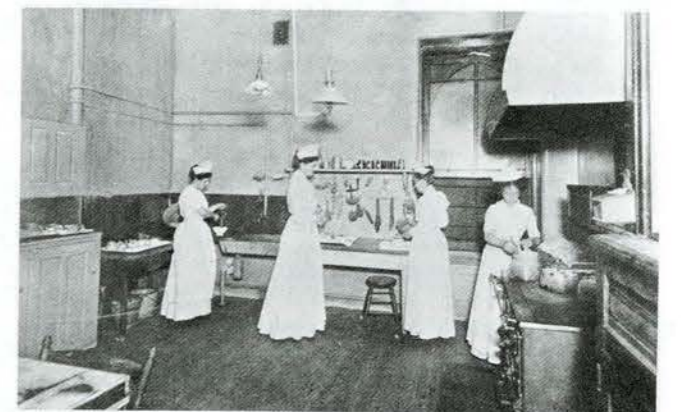

While our primary clientele are University administrators, we serve the entire staff, affiliates, alumni and students. The Archives is also open to the public; we receive many telephone calls and letters each month, requesting information about the University and its alumni. Often, these questions come from people searching for their own family history. Academic scholars, too, find answers in the archives, as well as authors of fact and fiction. These collections support research in such fields as the history of nursing, social history, minority and women's studies, history of education, health policy and hospital administration.

The Archives is a relative newcomer to Jefferson, having gotten its start in 1975. Who kept the institution's archival records, dating from as early as 1824, before us? We are very fortunate that so many offices and individuals recognized the importance of Jefferson's historical records over the years, carefully keeping them for posterity until the Archives could take up its charge. The Alumni Association of the School of Nursing is responsible for preserving much of that heritage. Since its beginnings in 1895, the Alumni Association has been a forward-looking organization, firmly rooted in the past and its traditions.

I began this brief excursion through the Archives with five W's. There are five more important questions which should now be answered. Who does the Archives serve? You! What

does it have that might interest you? A cape, a rose, a candle; a pillow, a ribbon, a cap; these and many more await you. Where can you find them? In Room 310, Scott Library Building. When can you see them? The Archives welcomes visitors from 9:00 a.m. to 5:00 p.m., Monday through Friday. Why visit the Archives? Perhaps, if you are like me, to look for answers to the *first* five questions. Come, satisfy your curiosity!

## WE'RE LOOKING FOR A FEW GOOD MEMORIES

The University Archives would like to hear from alumni of the School of Nursing. Every archives collects the publications and inactive records of its parent institution. The Thomas Jefferson University Archives has more. Lots more! In addition to the dry-as-dust reports and memos, we collect art works, medical and academic memorabilia, and most importantly of all, the personal papers and reminiscences of Jefferson personnel and alumni.

The Archives supports research in the history of nursing, minority and women's studies, hospital administration, and other fields. Personal papers round out the official record, and give a vital human dimension to the corporate history of our institution. Researchers in

many disciplines tell us these related collections are the most useful materials they have found. Your reminiscences of Jefferson and the School of Nursing can make a real contribution to the ongoing effort to document our history.

If you have class notes, photographs, and other memorabilia that you would like to donate to the Archives, or just some good memories to share, please let us know. You can reach the Archives at either of our telephone extension numbers: (215) 928-7769 or (215) 928-8097. Or, write to Judith Robins, University Archivist, Room 310, Scott Library Building, 1020 Walnut Street, Philadelphia, Pennsylvania 19107. And thanks, for the memories!

## Alumni Office News

It seems we continue to do the same things over and over. Such as making address changes, and trying to find missing addresses. You would be surprised all the ways we pursue to find the correct address of those who have moved and in the hassle forgot to notify us. Thanks to all of you who have sent the address of a missing classmate, we do appreciate it.

To our faithful volunteers, we say many, many thanks. Without your help it would be almost impossible to get our big mailings out on time.

Working in the Alumni Office continues to be a pleasure. Our office, as in the past works closely with the CAHS Alumni Office. Elisa Lang and Gale Dryden are so very kind and helpful. They are our resource when we need to know who to call for a particular service, or where some department is located within the university (departments have a habit of making frequent moves.)

Our address: Nurses' Alumni Association, Thomas Jefferson University, 11th and Walnut Streets, Philadelphia, Pennsylvania 19107, M-6 Jefferson Alumni Hall. The telephone number is: 215-928-8981. We are in the office on Tuesdays from 9:30 A.M. to 4:30 P.M. When we are not in the office our phone calls are answered and messages taken by the CAHS Alumni Office.

If you are in the vicinity, we would be happy to have you stop by for a visit. Make it on a Tuesday, call first to be sure we are in the office.

### HELP!!! WANTED!!!

For our Alumni Office files, copies of the following By-Laws books — 1906, 1919, 1936. We appreciate your help.

Betty Piersol and Peg Summers  
Alumni Office Coordinators

## Relief Fund Committee Report

During 1987 the Nurses Relief Fund Trust was able to give financial assistance to 10 of our graduates.

As stated in the 1984 revised By-Laws "Any graduate of the Diploma School of Nursing and the White Haven School of Nursing shall be given consideration for benefits from the Relief Fund Trust to help meet expenses incurred due to illness or other expenses for necessities." All things being equal first consideration will be given to Life and Active members. However, all applications received will be reviewed and given consideration.

All or a portion of the amount of money distributed to a recipient from the Relief Fund may have to be reported to the Internal Revenue Service as taxable income. Each recipient will receive a statement at the end of the year showing what portion of the distribution to her/him should be reported.

An application for Relief Fund benefits can be found in the back of the bulletin.

## The Satellite Committee

At the June meeting, your Board of Directors approved the following guidelines for Satellite Committees. These are:

Purpose: To promote fellowship among members.

Goals: 1. To provide assistance to sick members if needed, through the Relief Fund Trust.

2. To promote professional and educational advancement through the Scholarship Fund.

3. To stimulate interest in the administration of the Association, and to stimulate active involvement in the Association by sharing suggestions for the Nurses' Alumni Association with the Board of Directors.

During the first year the southern New Jersey Committee, the first satellite group has met four times. With Alice Boehret and Nancy Thompson Powell acting as advisors, they have elected officers and have had both business and program meetings.

A second satellite group will meet this month in Harrisburg, Pennsylvania at the Pennsylvania Nurses' Association Building. Dorothy Ranck and Gladys Keiper are advisors for this group. One hundred and seventy-seven letters with questionnaires as to their interest in forming a satellite group were mailed to graduates living in the Harrisburg-Ephrata area. To date thirty-one answers have been received. The majority of these plan to attend the meeting and others have expressed an interest in meeting at another time.

Plans for a meeting of a third group of Jefferson diploma nurses are well underway. We are now mailing letters and questionnaires to thirty-one members in the Baltimore, Maryland area who live within an hour's traveling time to Riderwood, Maryland where Anita Harbison Karpetsky lives. She has volunteered to host an initial meeting.

It is encouraging that so much interest has been generated, and we are hopeful that this report may stimulate graduates who live in other locales where there may be a group of members nearby, to start their own satellite group.

The Satellite Committee at Jefferson is happy to offer assistance to anyone interested.

Mabel C. Prevost

## Do Something

Help someone to carry his burden,  
And lighter will grow your load.  
Do something for somebody gladly;  
'Twill sweeten your every care;  
In sharing the sorrows of others,  
Your own are less hard to bear.

Do something for somebody, striving  
To help where the way seems long;  
And the sorrowful hearts that languish  
Cheer up with a little song.  
Do something for somebody always,  
Whatever may be your creed —  
There's nothing on earth can help you  
So much as a kindly deed.

## Social Committee Report

On Saturday May 7, 1988 the Annual Luncheon was held at Jefferson Alumni Hall, 1020 Locust Street, Philadelphia, PA 19107. 326 members attended.

The Annual Alumni meeting preceded the luncheon at 10:00 A.M., in the Solis-Cohen Auditorium. This was an excellent opportunity for members who cannot attend the regular business meetings to catch up on the business of the Association. A cocktail hour followed the meeting, and was held in the court yard, thanks to the pleasant weather.

The oldest class member to attend was Mildred Kroupa Okunski class of '25. She was presented with a corsage from the Alumni Association.

Celebrating their 40th Anniversary, the class of 1948 had the largest attendance with 43 members present.

The class of 1938 celebrated their 50th Anniversary with 17 members present. Each member of the 50th anniversary was presented with a red carnation from the Alumni Association. Other anniversary classes attending were: 1943—45th anniversary (17); 1953—35th anniversary (12); 1958—30th anniversary (26); 1963—25th anniversary (34); 1968—20th anniversary (20); 1973—15th anniversary (15); 1978—10th anniversary (17).

The following states were represented: Arizona, California, Connecticut, Delaware, Florida, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, and West Virginia.

Glass mugs, with the Jefferson logo and Jefferson Nurses' Alumni Association in blue, and Jefferson note pads were given to each one present as souvenirs. The floral basket center piece on each table was given to the oldest member at each table.

As usual the day was a wonderful opportunity to renew the

very special relationships Jefferson Nurses have developed over the years. If you could not attend, we missed you and hope to see as many as possible next year. Please mark your calendar for our next luncheon, *Saturday May 6, 1989*. See you then.

Carole Rosle, '56  
Nancy Scott, '55  
1988 Social Chairmen

(After Flossie Roche gave the Grace before the luncheon some of those present asked her for a copy because it was so touching. With Flossie's permission the following is the Grace given before the 1988 Annual Luncheon.)

### "GRACE"

Lord, we thank you for this day and for letting each of us be a part of it. We thank you for the food we are about to partake. We thank you for the bringing together of our friends, some here for the first time in many years, for those who come every year, for allowing us to share our life experiences with our buddies from another time in our lives, a time of hard work, study, and a time of sharing and giving, a time of fun and joy, and, yes, some sadness. Three years of growing in the best atmosphere, to be proud of saying we are "Jeff Nurses". Lord—"Thanks for the Memories."

Amen.

Enjoy your lunch!

## Scholarship Committee 1987-1988

The number of scholarships requested was considerably reduced this past year but the amount requested seems to have increased. Since the intent is to help as many graduates of the diploma program as possible, we hope to hear from more of you who are in need of assistance in pursuing a degree in nursing.

Awards were granted to the following:

Theresa Steinhagen Grace, 1974  
Nancy Nevin McClees, 1969  
Dorothy Widney Lucas, 1955  
Kathryn VanDyke Hayes, 1971  
Susan Nufrio Bodman, 1976  
Catherine Glavey Dowhy, 1975

Doris E. Bowman  
Chairman

## Nurses' Scholarship Fund

The Clara Melville-Adele Lewis Scholarship Fund continues to provide scholarships to diploma and White Haven graduates.

In May 1985 the scholarship committee took action to grant scholarships to part time, (as well as full time applicants) provided the applicant is enrolled in a program leading to a degree in nursing and enrolled for a minimum of six (6) credits.

Scholarships will be available for summer, fall and spring semesters.

Each application received will be reviewed by the scholarship committee; preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree.

A scholarship application can be found in the back of the bulletin.

## Bequests

We have received a number of questions concerning bequests to the Nurses Alumni Association. If you are thinking about such a bequest, we would suggest the following *sample* paragraph for your consideration:

I give to the Nurses Alumni Association of the School of Nursing, Diploma Program, College of Allied Health Sciences, Thomas Jefferson University, located in Philadelphia, Pennsylvania, or its successors, the sum of \_\_\_\_\_ dollars (or identify the property, such as stock, or indicate a percentage of the estate, if appropriate), to be used for its general purposes.

This suggested clause is exclusively for the information of our alumni and friends. You should, of course, consult your own attorney as to the applicability of any item to your own situation.

## Bulletin Committee

It is so interesting to get articles for the bulletin from graduates who remember what it was like when!!? They are all different and very interesting. How about someone writing an article for the 1989 bulletin from the 50's, 60's, 70's and yes, the 80's. Tell us what you remember about your time at "Jeff."

If we have misspelled your name, we ask your forgiveness, sometimes it is difficult to read your writing.

Has anything interesting or exciting happened to you or your family? Don't be shy, share the news with the alumni. Believe it or not, we are interested in what our graduates are doing.

Margaret Summers  
Chairman, Bulletin Committee

## Volunteers Needed

Volunteering can be a fulfilling and pleasurable way of using some of your "spare" time.

What better place to do volunteer work than at your own alma mater. You might be surprised at the number of people you meet who will remember you; there really are some old-timers still around.

Other departments in the University besides the hospital can use and would welcome volunteers.

If you are interested in being a Jefferson volunteer contact Ms. Linda Sauerwein, 215-982-6222 and tell her your interests or write to her at Thomas Jefferson University, Patient and Volunteer Services, Room 2020 New Hospital, 11th and Walnut Streets, Philadelphia, PA 19107.

## The Original Coal Miners Daughter Remembers!

I am the original coal miners daughter, the show that was given on T.V. didn't know much about it. Who remembers the 1918 Asian flu? when five young girls from the spring class at Jefferson died. They sent for my mother who sat by my bed for three weeks while I was unconscious. Then I was sent home for six months to recuperate.

When I got home to the coal mine region, I found the flu still existed, and the nurse with only six months experience, sent home to recuperate, was called on to help care for the sick. I delivered a baby with the mother telling me what to do.

When we were student nurses we would hang out windows and watch race riots on Sanson Street. We would run over the fire escapes to go on duty in the hospital. My life was always exciting, and it still is.

My family are mostly gone during the day, I have the company of two dogs and two cats, and they run my life, they are so much company for me and keep me busy, I do not have time to be lonely.

No use to mention the health side of my life, I have a doctor who manages to keep me active. So what will be will be, its not ours to see.

Katherine Flickinger Aagaard, Class of 1921

## Have we changed?

## Congratulations from the Alumni Association

### 99th BIRTHDAY CELEBRATED

May 23rd 1988 Frances E. Butler Pangburn, class of 1916 celebrated her 99th birthday. April 5th 1988 Frances "Mayme" Pangburn was given a surprise birthday luncheon by Alan Swan and his parents Peggie and Carl Swan in the Chicago Restaurant in the Pennsauken Country Club.

Nearly 38 years ago on May 11th Mrs. Pangburn helped deliver Alan at Zurbrugg Memorial Hospital's Riverside division. They've been friends ever since.

Alan had not seen Mrs. Pangburn for nearly two decades, but they quickly recognized each other. Swan considers her to be his "second" mother. Mrs. Pangburn said she always considered Alan part of her family. She has three daughters of her own and recently became a great-great grandmother.

It may be a while before the two meet again. Mrs. Pangburn who spends the winter in Cherry Hill, NJ with her daughter and son-in-law Eleanor and Robert Shelly will return to Lewisburg, PA for the summer. Alan will be traveling around the country for Broadcast Consultants of North America.

Mrs. Pangburn sent the newspaper articles to us thinking we might be interested. She said the luncheon was quite a surprise and a bit overwhelming, after all "I was only doing my job as any good Jefferson trained nurse would do."

Frances Pangburn is looking forward to her 100th birthday and hopes to attend the Nurses' annual luncheon on May 6, 1988.

## "A nurse who cares"

Congratulations to Marie Mengel MacKenzie, '82, 280 Hudson Court, Holland, PA 18966. Marie was recognized by Hospital News/Philadelphia August 1988 under P.R.O.F.I.L.E. as a nurse, who cares. Marie is assistant head nurse at Holy Redeemer Hospital, Philadelphia, PA. She has worked on Medical Center's 3 Central Nursing Station for two years.

As a medical surgical nurse, working the 7 a.m. to 3 p.m. shift she sees it all. The unit gets its share of patients undergoing chemotherapy as well as those recovering from heart attacks. Marie and her staff of six nurses also care for a variety of surgical patients.

When Marie goes home at the end of her shift knowing she

has helped someone, then she feels rewarded. In spite of the mounds of paper work involved, her greatest satisfaction comes from direct patient care, which she considers the most essential part of her position.

Although time away from her job is short, she enjoys cooking. Marie and her husband Kevin are busy preparing to move into an old stone farm house in Warminster, PA. The MacKenzies are both antique collectors and consider this move a dream come true.

(Ed. note: The above item was taken from an article written by Marilyn Wattman-Feldman, and appeared in the publication Hospital News/Philadelphia August 1988.)

## Nominee for the President's Volunteer Action Award

The following article appeared in the Richfield Life, Spring 1988 edition

Miss Emma Bahner, a resident at Ridgecrest Apartments, was recognized Friday, April 22 at the annual Volunteer Awards Luncheon at Hotel Roanoke. All nominees of the President's Volunteer Action Award and/or the Governor's Award for Volunteer Excellence were invited and presented with a plaque. The awards luncheon was hosted by the Council of Community Services in conjunction with the Junior League of the Roanoke Valley.

Miss Bahner was nominated for the President's Volunteer

Action Award by the Volunteer Department at Richfield Nursing Center. She was very instrumental in the success of the Christmas Laprobe Project in 1987. Miss Bahner was the dominant factor behind the formation of a crochet club at Ridgecrest called "Stitch and Chat." Their hard work and dedication inspired many other church and civic groups to become involved. Richfield Nursing Center has received over 400 laprobes since the project began last fall. CONGRATULATIONS EMMA — YOU'RE TERRIFIC.

Miss Bahner also received congratulations from President and Nancy Reagan, The White House, Washington, D.C.

Emma M. Bahner, '31

## Centenarian enjoys birthday

Mary R. Godfrey, '09  
102nd Birthday

Mary Robinson Godfrey class of 1909 celebrated her 102nd birthday January 25th, 1988.

Mrs. Godfrey lives in Ligonier, PA with her daughter. Mary is an interesting and avid conversationalist and has many fond memories of her career in nursing. Mary is proud of her mementos and loves to show them to anyone who is interested.

Her health is good, she uses a walker and can do most of the things she wants to do. Mrs. Godfrey remembers with great satisfaction her career as a U.S. Navy nurse.

In 1918 The S.S. Leviathan, a former German cruise ship was converted into a troop ship to transport American "doughboys" to France. It carried 100,000 men to the battlefields of Europe and returned almost as many to the United States in 1919. Mary Robinson Godfrey, '09, served as Chief Nurse, U.S.N. on several of this great ship's voyages.

Listed among her many accomplishments is the important role she played in assisting navy nurses attain the rank of Commissioned Officers.

# The Butterfly and The Caterpillar

A Fable Old Is Here Retold

A butterfly, one summer morn,  
Sat on a spray of blossoming thorn  
And, as he sipped and drank his share  
Of honey from the flowered air,  
Below, upon the garden wall,  
A caterpillar chanced to crawl.  
"Horrors!" the butterfly exclaimed,  
"This must be stopped! I am ashamed  
That such as I should have to be  
In the same world with such as he.  
Preserve me from such hideous things!  
Disgusting shape! Where are his wings!  
Fuzzy and gray! Eater of clay!  
Won't someone take the worm away!"

The caterpillar crawled ahead,  
But, as he munched a leaf, he said,  
"Eight days ago, young butterfly,  
You worried about, the same as I;  
Within a fortnight from today  
Two wings will bear me far away,  
To brighter blooms and lovelier lures,  
With colors that outrival yours.

So, flutter-flit, be not so proud;  
Each caterpillar is endowed  
With power to make him by and by,  
A blithe and brilliant butterfly.  
While you, who scorn the common clay,  
You, in your livery so gay,  
And all the gaudy moths and millers,  
Are only dressed-up caterpillars."

**T** rue friendship, rare as precious gold,  
And as enduring to the touch of time,  
Exquisite as fine lace or filigree,  
As mellow as the taste of vintage wine.

True friendship, subtle as old tapestry,  
As undemanding as a candle flame,  
Unchanging as an ageless work of art  
That grows in worth as it remains the same.

# Class News

## Class of 1916

**Frances E. Butler Pangburn**, 39 South 4th Street, Lewisburg, PA 17837. Another year has passed and it has been a good one. I feel quite fit as I celebrate my 99th birthday. Except for my poor eyesight I'm in good health. At the present time I have seven grandchildren, six great grandchildren, and one great, great grandchild. My long association with Jefferson has been very fulfilling for me. I am as proud today as I was many years ago when I received my Jefferson cap.

## Class of 1921

**Verna M. Keller Roberts**, 11½ Main Street, Drifton, PA 18221. Sorry I will miss the luncheon this year, I fell and broke my left hip on March 20th. Recovery is slow but progressive. I will probably go to Cleveland to be with Caroline R. King, class of 1945, sometime after May 6th. I am receiving P.T. in Hazleton Geriatric Center, I would rather be doing nursing—being a patient is the pits.

## Class of 1922

**Claudia Starr Wiedlund** Villa Sancta Anna, 25000 Chagrin Blvd., Beechwood, OH 44122. I am now in the above nursing home. If anyone wishes to write to me, send mail in care of my daughter—Betty Jelniek, 262 Meadowood Lane, Moreland Hills, Ohio 44012.

## Class of 1927

**Lorraine Knoll Mayers**, 1100 East Wyomissing Blvd., 19-A, Reading, PA 19611. It is always good to read about the Jefferson news in the annual bulletin. Greetings to my classmates. Every year I hope to get to the annual luncheon but I never quite make it.

**Filomena Tiracchia Doherty**, 36 Regent Circle, Bricktown, NJ 08723. I'm growing older, and still growing roses.

**Myrtle Stickler Clough-Lee** (Ruben Lee), 301 McMechen Street, Baltimore, MD 21217. Because of or in spite of old age we keep busy. Our last trip was to Australia and New Zealand. We are elderhostel enthusiasts.

## Class of 1928

**Margaret E. Martin Lauchle**, 5909 Grand Avenue, Downers Grove, IL 60516. It doesn't seem possible that this is the 60th anniversary of our class. In August 1987 my high school class of Williamsport, PA held our 65th reunion on a river boat with 46 of the original class present, out of a class of 193, which I think is very good, after so long a time. My third great grandchild arrived in April 1987, they live in California so I haven't seen him yet. I have two other greats living here in Illinois. I would like to attend the annual luncheons, but I'm not able to do so. I always enjoy all the news that is in the bulletin. Best wishes to everyone.

**Laura A. Carleton Short**, 822 Broad Street, Apt. 15-A, Selinsgrove, PA 17870. My oldest grandson Mark Hinley, graduated from Pittsburgh law school in May 1987. He is with a law firm in Charleston, WV.

Laura Carleton Short lives only 5 miles from me in Penn Lutheran Village. My son-in-law Robert Spangler built a recording studio for rock star, Whitney Houston, near Morristown, NJ last fall. They are the parents of four sons.

**Beatrice E. Noll Smith** (A.H. Smith), P.O. Box 160, Pleasant Gap, PA 16823. As of February 1, 1988 I joined the group who wear a "pace maker," and I have arthritis about everywhere.

**Mildred English Hively**, 10824 Caron Drive, Sun City, AZ 85351. Two weeks before I was to leave for China, I got up and couldn't walk—arthritis. It reminds me of the story of the woman who had four boy friends.

She got up in the morning with Charley Horse

She went to work with Will Power

She spent the afternoon with Art Thritis

And she went to bed with Ben Gay.

My daughter is on sabbatical, and when I was able we took a cruise from San Francisco through the Panama Canal to Florida. Then we spent three weeks on the Costa Del Sol of Spain followed by a Christmas-New Year cruise. If I am able we will spend Easter in Guadalajara, Mexico. Best wishes to everyone.

**Hazel V. Oberdorf**, 139 North 2nd Street, Lewisburg, PA 17837. Hi! I just had my yearly eye check up. The cataracts are growing slowly. My vision seems to be staying about the same, I am still able to knit, crochet and read. For the past couple of weeks I have had abdominal pain due to gall stones. I have been on a low fat diet for the past two years, hoping to avoid surgery. Best regards to everyone.

**Helen Walp Hubbard**, 126 Montgomery Street #1-C, Highland Park, NJ 08904. I send my best wishes to my classmates and hope they are enjoying retirement. I manage to keep very busy doing volunteer work. See you in 1990 on our 60th, God willing.

**Adeline Roth Miller** (Benjamin), 6704 Glen Avenue, Glenn Dale, MD 20769. In 1987 our 55th reunion was very special, greeting all our friends and classmates with my husband present was a real joy. Did anyone recognize me in the pictures in the Pine Street article?

**Elizabeth H. Romich Cobb**, 12 High Street, Carbondale, PA 18407. I enjoy reading the bulletin, it is very interesting. I didn't get a Christmas card from Kay West Magin as in other years, hope all is well with her. I always appreciate hearing from my other classmates.

**Ellen E. Piatt Vetenko** (Howard), 82 Oldfield Farms, Enfield, CT 06082. By this time next year we hope to be living near Richmond, VA. I had a nice letter from Myrtle Bryant who lives in Richmond. Best wishes to all.

## Class of 1934

**Margaret Yarnall Snear** (S. Clayton), 111 East 4th Street, Media, PA 19063. My husband works two days a week and loves it. I keep busy with Red Cross bloodmobile and doing flowers for our church altar. I'm considering being a literacy tutor.

**Helen Reimer Motsay**, 24 Lake Vista Trail, Port St. Lucie, FL 34952. I am still enjoying living in Florida, and I am busier than ever. My family

**Pauline Latsha Tharp**, 21133 S.W. 85th Avenue, Apt. 311, Miami, FL 33189. I appreciate the alumni bulletin and my classmates news. I was glad to hear from Kitty Ross Sullivan at Christmas time. I'm still singing in our church sanctuary choir. We had our 1987 Christmas concert taped for television. It's February and we are beginning our rehearsals for our choir Easter program. On September 26th 1987 I met my granddaughter and her husband in Los Angeles and we attended the 1987 Retired United Air Lines Pilots Association banquet. I hope to see you at the next alumni luncheon on May 7th 1988.

**Ellen Crawford Teague**, 3 Oak Road via NW Avenue, Philadelphia, PA 19118. During the summer I am in New Hampshire. I remain the clerk of rural post office at Mt. **Esther Patton Weber** (Paul), 2015 Ridge Road, Box 242, Perkaskie, PA 18944. Nothing startling has occurred in my family this last year. Paul and I are enjoying good health at this time. My children gave me a lovely surprise party on my 75th birthday in October 1987. I can't believe I'm that old. I expect to be at the luncheon in May.

**Helen McDaniels Hall** (George), 2522 Belpo Lane, Sacramento, CA 95821. Things remain the same. I'm hoping to get back East this year.

**Clara Nell Sweeney McArthur** (George), P.O. Box 207, Grifton, NC 28530. I am proud to be a graduate of Jefferson, everything I learned I have used all my life. Nursing never stops, a dose of kindness is still the best medicine. Hello to everyone.

**Rebecca Thornton Ingling** (Francis), 1523 Custom Road, Virginia Beach, VA 23454. I enjoy my volunteer work with senior citizens in the local retirement homes. My husband, a retired Navy captain and I are enjoying retirement too, in our own home. Any classmates coming to our area, please call, I would love to see you.

**Mildred V. Cook Cox** (J. Perry), 815 Seacliff Road, Ocean City, NJ 08226. In 1987 both our girls acquired their M.A. degrees in their respective fields (oncological nursing and special education.) My husband and I continue to have good health, and enjoy living by the sea.

**Grace M. Bardo Ruopp** (Ernest), 25 Spruce Mountain Road, Danbury, CT 06810. I still work on pediatrics, the only nursing I'm able to do is care for infants. At present I take care of a little girl born with a spina bifida, she was operated on by a neurosurgeon when she was 1 day old. Her brain is being drained by "shunts." Great strides have been made on this case—through surgery, exercise and therapy. At 8 months of age she shows improvement.

**Elizabeth Stephan Miller** (John E.), P.O. Box 14, Sadsburyville, PA 19369. Though 50 years plus have gone by, memories of all those years at Thomas Jefferson School of Nursing remain close and continue to be a source of pride.

**Louise E. Evert Keich** (Robert G.), 7820 Chambers Hill Road, Harrisburg, PA 17111. Our oldest grandson graduated as a chemical engineer in 1988, and is fortunate to be gainfully employed in South Carolina. We are very proud of him, as we are of our five younger grandchildren.

#### Class of 1937

**Alice I. Leatherman Fulmer** (James L.), 323 North Oak Avenue, Clifton Heights, PA 19018. Our personal news is much the same as last year. We are both ambulatory, we don't need our eyeglasses except for reading and writing. We are not becoming any younger as the years go by. I remember the quality of care and instruction we received when I was in training.

**Gertrude Nichols Sessions**, 10210 Lorene Lane, San Antonio, TX 78216. Sorry I missed our "get together" for our 50th anniversary last year. Who wants to think we are getting old, but???? My annual trip to Philadelphia is always at holiday time so I can spend some time with my sister, Joan Nichols Davis, class of '54 and her family. No one would remember me as "Gertrude" anyway, I'm just plain old "Neva Nichols."

**Mildred Woodhead Hawkesworth** (Norman O.), P.O. Box 263, Goffstown, NH 03045. We are still living in a penthouse at Hampshire Towers on the Merrimack River in Manchester, NH, we keep our Goffstown post office box for convenience. In May we are moving to Maine, a little closer to our son. My mother died October 14, 1987, three months short of her 100th birthday.

**Jean Heine Arnold**, 43 N. Sunset Drive, Camano Island, WA 98292. Though I left "Jeff" over 50 years ago there will always be a great feeling of pride, and lots of good memories. Greetings to those who remember me. Happiness and good health to all.

#### Class of 1938

**Lida Pardee Goodell** (Amos J.), Rt #1, Box 190, Peartree Point Road, Chestertown, MD 21620. We have had a good year to date. I am looking forward to our 50th reunion and the luncheon on May 7, 1988.

**Elinor Miller Wentzell**, 1502 Arrowhead Drive, Sun City Center, FL 33570. News is scarce. All is fine in Sun City Center. I talk with Claire Mann, but I don't get to see her, seems time races by. This is a busy town.

**Kathryn V. Bastian**, 4208 Ford Road, Lawton, OK 73501. I'm still an "Okie." Oklahoma had a Pennsylvania winter. I had up to 13 inches of snow in my back yard.

**Claire Mann Schelle** (George), 1418 Wicklow Drive, Palm Harbor, FL 34684. Dear classmates—We've lived in Florida 3 years and we love it, but right now I wish I wasn't so far from Philadelphia. George spent quite a bit of time waiting in that uncomfortable reception room at 9th and Spruce. We married in 1941, we have two sons (a doctor and a music composer professor.) Our two daughters are both nurses, Villanova and Jefferson. While Beth was at T.J.U. the endless changes in nursing education never ceased to amaze me. We have lived in 5 states, owned 10 houses and now we have our reward, retirement, and a golf course in our backyard. Have a wonderful time at the luncheon, I'm with you in spirit. Can you believe we're so old.

**Virginia Kinter Hatton**, 3499 East Avenue, Colonial Heights, VA 23834. A brief statistical update on the Hatton family. We've had two weddings, one divorce and a brand new great grandson. Sounds a little like a storyline from a "soap opera." Sorry to have missed the reunion, but traveling alone is another thing I don't do well.

#### Class of 1939

**Kathreen Hock Martin**, 1203 Central Avenue, Sandusky, OH 44870. In February I moved to the above address. I will really miss the Philadelphia area after being here the past 34 years. Anyone living in my area who needs Jeff caps, let me know and I'll make them.

**Doris Winneshick Day**, Box 450, Gregg Neck, Galena, MD 21635. My last nestling is leaving the nest, being married in June. I'm still busy with volunteer work which is all related to nursing.

**Juliet Umberger Light**, 126 Fairlawn Avenue, State College, PA 16801. I'm still working as HN on med-surg. Nursing ain't what it used to be! Wish I had stock in a paper company.

We usually spend most of the summer at the seashore, enjoying our home and boat. Best wishes to one and all. Love, Jo Moellers.

**Sophia Pickens Driscoll** (John), 1311 Puritan Avenue, Woodbury, NJ 08096. We both remain status quo.

**Melba K. Watkins Snyder**, 1724 Grevelia Street Apt. A, South Pasadena, CA 91030. I am in an apartment of my own, living by myself. I am contemplating returning to Pennsylvania, as the smog of California has caused breathing problems, and I find it essential to change the atmospheric conditions to be able to maintain a healthy, happy existence.

**Gene Roush Jerabek**, 3245 Southern Avenue, Kingman, AZ 86401. I enjoyed visits from Winnie Redeemer Coble '41 and Lucy Powell Dye '44 this year. I have taken a part time job in our local museum and enjoy the work.

**Anna Haines Heermans** (Harry W.), 6321 W. Quaker Street, Orchard Park, NY 14127. Our first grandchild was 1 year old on June 8, 1988, her name is Caitlin Rose Heermans.

**Margaret Summers**, 2601 Pennsylvania Avenue, #C-852, Philadelphia, PA 19130. Betty Piersol and I continue to enjoy our work in the alumni office, it is interesting and challenging. Our big trip this year was a cruise through the Panama Canal. The Canal or "ditch" is surely one of the biggest engineering feats in the world.

**Harriet H. Werley**, PhD, 6809 N. Seville Avenue, Milwaukee, WI 53209. I'm still working at the University of Wisconsin-Milwaukee School of Nursing. The most recent indications of some of my efforts are reflected in the 1988 volume on Identification of the Nursing Minimum Data Set, published by Springer Publishing, and a chapter on HHW in Mosbey's 1988 volume on Making Choices: Taking Chances: Nurse Leaders Tell Their Stories.

#### Class of 1942

**Grace E. Jennings Dunkelberger** (J. Roland), 800 Housman Road, Apt. 493, Allentown, PA 18104. Our door is always open to "Jeff friends" and always glad to hear from you. **Jeanne Creswell Zukoski** (Joseph), R.D. #2, Pottstown, PA 19464. My husband and I and Elaine Meyle Trankley and her husband spent several weeks in Germany, Austria and Switzerland. #### Class of 1944

**Marion L. Kelly Carver**, 5201 Atlantic Blvd. Apt. 107, Jacksonville, FL 32207. As we get older our news involves health and grandchildren. I had a total hip replacement (left) in July 1986 and the right hip replacement January 1988. I expect to be back to work in September 1988. I will work in admitting at Baptist Medical Center in Jacksonville, FL. Ed died on May 1, 1987 after multiple M.I.'s. He had been ill for 18 years and 5 years wheelchair bound, and total care for 6 months. I'm grateful he's not suffering anymore. Now—my grandson John, age 18 years is in the Air Force Boot Camp in San Antonio (Ed would be happy—Ed was an Air Force pilot for 21 years). Grandson James, age 17 is training to be a bank teller then move onward and upward. Thank God—I only have two legs, no more hips to be replaced. Both are working well. Best wishes to all.

**E. Dorothy Gilardone Strachan** (William James), 25 Forgedale Road, Fleetwood, PA 19522. I have retired from school nursing after 18 years with our local school district; a position I loved and found great satisfaction in. We are grandparents of four children under the age of five years. They are the children of our two sons. Nurse daughter #1, just married a MD graduate of the University of Michigan. Daughter #2, is a geologist working for Freeport McMoran in New Orleans. My husband is president elect of the Pennsylvania Association of Realtors, and I join him in his travels about the country to attend meetings. In my spare time I "sub" as school nurse and volunteer time/talents to charity organizations.

**Jeanne L. Lebkicker**, 200 Northwood Drive, Rome, GA 30161. It's been a year and a half since I retired from my position as director of nursing. I am enjoying playing golf, active in civic affairs, and I am also consultant to the hospital from which I retired, I serve at least two days per month in addition to assisting with surveys for the regulatory agencies.

**Elaine Schappet Haines**, P.O. Box 127, Lynn, NC 28750. I have retired and moved to Lynn, NC, my father also retired. We built a home near my oldest son. Dad is 88 years old and a real challenge. The winters here are mild and southern living is so relaxed. Lynn is in the western mountains of North Carolina.

**Jeanne Null Collevchio** (Tom), 17 Linda Drive, Allendale, NJ 07401. Tom is planning partial retirement next year. We will have three grandchildren by August 6th. I still enjoy working part-time at Valley Hospital in Ridgewood, NJ, and I plan to continue working. Jefferson was the best investment I ever made.

**Jeanne L. Supplee**, 225 West Ridge Street, Carlisle, PA 17013. I moved to a townhouse to await completion of a condominium in March. I have found out that I'm getting too old for all this nonsense.

**Jean McCoy Pachelbel** (Robert), 1650 Claycord Avenue, Concord, CA 94521. For the past nine years I have worked at a position called "advice nurse" for the Kaiser/Permanente Medical Center in Martinez, CA. Kaiser is the prototype for most of the HMOs which are becoming more popular in other parts of the country now. My whole nursing career got me ready for this job. I tell my friends I am a medical "Ann Landers." I talk on the phone to an average of 80 to 90 callers a day. Many times I can solve their problems quickly and other times I must do some research or contact their doctor and call them back. This service is a real plus for our members, especially the new Mom just home with a newborn or a recent post-op who thinks he is in trouble. Problems range from something as simple as a prescription refill to an emergency ambulance for chest pain or a panic call from the parent of a child who has just ingested something toxic. In 9 years I have really fine tuned my listening skills and learned how to ask the right questions. We use protocols to give us guidelines and a computer on our desks to access a lot of information about our members. We document all calls and are very aware of the legal ramifications of poor advice. Although

I had to learn that I can not solve every problem that comes my way, it is gratifying to be able to solve most of them. This job allows me to feel successful and my enthusiasm for my work seldom wanes.

**Jeanne Flanagan Ryan** (Daniel), 2016 Line Lexington Road, Hatfield, PA 19440. I have been working in occupational health for 32 years. 27 of them with Smith Kline and French Laboratories, where I am now coordinator of health services. Jean, with the assistance of Ron, gave us a surprise party which was really a surprise. My sister and brother-in-law came from New Jersey for the occasion along with their granddaughter Shannon. We went to Hawaii in early November to celebrate. It was beautiful and reminded us very much of Okinawa where we had met. We took my folks along for a belated 50th wedding anniversary trip. Jean will be graduating from Loyola University degree in nursing in May 1988. She will be married on June 11th to Andrew Cross, whom she had known for a long time—playing violin in the same orchestra. Spring will be a busy time for all of us. Ron keeps on his toes with his career in auto body and has just transformed Jean's car into a beauty from a rusty beast. He is so philosophical sometimes, just like Ray. We had a great summer. We spent one weekend in Rochester, NY at the annual Stiles Family of America reunion. I was elected president and will be hosting a reunion in Chicago in 1988. We spent 2 weeks in New Jersey visiting relatives and did see some climbing on the family tree. Visited cousins whom we hadn't seen for years, yet it seemed like we had seen them just yesterday. One cousin showed us the Medal of Honor that had been awarded to her great grandfather (my great, great). The government was as slow then as it is now, he earned it in 1862 and he received it in 1900. Their

efficiency is dazzling! We also went to see his grave in Philadelphia. We arrived at the designated place only to find that there is no stone apparent even though the office had assured us that there was indeed a stone. As I circled the area in puzzlement, I saw the shadow of an upright stone through an azalea bush. Ray leaned through the azalea and pulled it to either side and read the inscription to me because a photo was out of the question. The cemetery hounds strike again!!! Hello to all that I know at Jeff. I'm still working in the O.R. at a 400 bed community hospital.

**Bonnie Schultz Pizzuttillo Ceglie** (Vic), 3846 E. Cherokee Street, Phoenix, AZ 85044. I'm assistant director of nursing at Maricopa Medical Center in Phoenix, AZ. I work in the adult intensive care areas. The institution is reminiscent of the Jeff of old, a teaching hospital, ward situation, 600 beds. We have a grand total of 5 children (3 by my previous marriage.) Lara 19, Peter 17, Amy 15, Vic 2½, and Casey 1 year. My husband is assistant athletic director at Arizona State Univer-

sity. I finished my masters in critical care nursing in May. We are enjoying Arizona weather, and welcome all visitors. Maybe next year I'll join the class of '69 for their 20th reunion.

**Lynne J. Roat Juel**, 346 Rainbow Circle, Inman, SC 29349. Life is busier than ever. I love working in utilization, the days and hours are terrific and I get to use my medical knowledge. Heather is 9, and almost as tall as me. We enjoy each other tremendously. Hi to all my classmates, I think of you often.

**SueLin Hom Makowski** (Stephen), 1702 Allens Creek Drive, Clearwater, FL 34624. I'm coordinator of Morton Plant Hospital cardiac rehabilitation program. Recently pulmonary rehabilitation was added to the program. I will have an article published on cardiac rehabilitation. I continue to expand "wok-out." Our son Stephen is a real challenge.

**Maria Gratzik Marinelli** (Fred), 1229 Cardinal Lake Drive, Cherry Hill, NJ 08003. I'm still working part time at WJHS, Garden State Division, as a peri operative nurse. Our son David is 5½ years old and keeps me busy when I'm not working at the hospital. I would like to organize a 20th year reunion in 1990 and would appreciate hearing from other classmates who would be interested in coordinating this effort.

**Linda R. Fenning Johnson** (Alan), RD #1, Box 88-G, Whitehall Road, Williamstown, NJ 08094. We moved last November and are getting settled in our new home that Alan built. Christopher, age 14 is starting high school, Rachel, age 8 is starting 3rd grade. I will graduate from LaSalle May 1989, getting my BSN at long last. I still work at Lourdes, but I now work in ICU/CCU on the weekend program.

#### **Class of 1971**

**Major Annette Brownstein**, 1517 Carol Lane, Wichita Falls, TX 76302. I'm back in the U.S.A. I'm now stationed at Sheppard AFB where I'm the nurse project officer and hospital training coordinator for an MIS system being tested for possible world wide military use. Another big challenge I'm looking forward to.

**Kathryn C. Hudak Behm** (Kurt), 283 Hilldale Road, Villanova, PA 19088. All is great here in Villanova. I would love to hear from anyone in the class of '71.

**Deidre Mullin Yuknavich** (Richard), 708 Fontaine Bleau Avenue, Mary Esther, FL 32569. I am enjoying full time motherhood since the birth of Aaron Christian on September 15, 1987. What a joy. He keeps us both busy. I will probably return to work part time next year.

**Major Kathryn M. Francis**, PSC 1, Box 99 APO NY 09292-5360. Hello everyone! It's hard to believe that I'm passing my 10 year mark in the Air Force this year. I put on my Major's "leaves" in November 1987, and my little clinic keeps me far busier than I'd like to be. I'm planning trips to Rome, Germany and Ireland this year. Even though my soul longs for sunshine, I'm hoping for an assignment to England or Germany next year. Best wishes to all my classmates from "Jeff."

**Eileen Blum Moran** (James), 452 Howell Street, Philadelphia, PA 19120. I'm very busy with our new daughter, Jill Ann, who arrived from South Korea last April. She is one year old. Our daughter Erin is 5½ years old. I'm working part time (when I can find the time). Best regards to all my classmates. I appreciate hearing about them in the bulletin.

**Grace Ann Spena**, 2551 S. Sartain Street, Philadelphia, PA 19148. Hello to everyone! Hope that all is well with you. I didn't make it to Vermont this year to ski (more like trying to ski). I hope to get up there to bike this fall. The best to each of you. Take time to relax and enjoy the wonders of nature.

**Loretta J. Suber Heyduk** (Charles R.), Apt. B-234, 1000 Conestoga Road, Rosemont, PA 19010. I finished my master's in nursing administration at Villanova University in December 1987.

**Elizabeth Engle Corcory** (Ron), 32 E. Merchant Street, Audubon, NJ 08109. I am working part time in labor and delivery and neonatal special care at West Jersey Hospital. Our 3 children keep Ron and I busy. Jeffrey 11, Matthew 9, and Rebecca 5.

**Deborah Waters Wayne** (Vince), 6053 Wenrich Drive, San Diego, CA 92120. In June 1987 I accepted a position as manager of the ortho/trauma unit at Sharp Hospital. Vince and I have just finished remodeling our kitchen. We're still enjoying San Diego.

**Patricia Haney Hemphill** (Thomas), 306 Brainerd Blvd, Sharon Hill, PA 19079. I am still working at Crozer Hospital, but I'm now in supervision. I am enjoying the change a lot. Jennie 10, and Beth Anne 7, are both active in scouts and school interests. Tom and I are kept busy just keeping schedules straight. I would love to hear from classmates.

**Connie Cmar Brophy** (Terry), 605 East Wadsworth Avenue, Philadelphia, PA 19119. Hello to everyone. Things have been fine here. I am currently head nurse in o.r./p.a.r.r. at The Fox Chase Cancer Center. Terry is still teaching high school and the girls, Colleen 8, and Janelle 7, are growing up too fast.

#### **Class of 1973**

**Karen J. Huber Ciarrochi** (John), 512 Clothier Road, Wynnewood, PA 19096. We are all fine. Michelle will be 8 in October, and Stephanie will be 6 next March. Hello to everyone and I hope you are all well. It is fun to think about "the old days." Remember 7th and 8th floors at the dorm? Pick up your yearbook.

**Sue Broadwater Franklin** (Don), 15 Oxley Drive, Mechanicsville, MD 20659. There's not much new in the Franklin family this year. **Leslie Sawka Hildrew** (Lance), 1328 Edgewood Drive, Hummelstown, PA 17036. We are all fine. Lance has been an emergency room physician at Harrisburg Hospital for the past 10 years. We have 3 sons, Geoffrey 11, Christopher 9, and Douglas 5. They are all very musical and play several instruments apiece. I'd love to hear from some of the girls from the 8th floor. Visit Hershey Park and give me a call.

**Shelah Hoberman Luber** (Robert), 4010 Winchester Road, Allentown, PA 18104. Allentown is great. I would love to hear from my classmates. My husband's practice is busy. Our children are growing up too fast. Harold is 10, Mark 7, and Elizabeth is 3.

**Mary Ann Roddy Puglis** (Joe), 7229 Woodhaven Drive, Lockport, NY 14094. Here we are back in Western New York. The children are growing fast—Gina is 8 and into dancing and Brownies; Carl 6½ loves karate and teasing his sisters; Christie 2½ just takes everything in and loves all the attention she gets. Baby #4 arrived July 13, 1988, his name is James Michael. Joe is working hard both at work and at home. As for me, my career is on hold for the time being. Hello to everyone.

**JoAnne Bender**, 37 Williamsburg Court, Glassboro, NJ 08028. Life continues on. I am still working in the operating room at Underwood Hospital in Woodbury. I bought a new home in October 1987. After all the initial hassles, I'm finally settled. Starting over after a divorce sure has been an exciting challenge.

**Kate G. Felix Snyder** (Scott D.), 44-170-5 Lana Street, Kaneohe, Hawaii 96744. Aloha! Hawaii is every bit as beautiful as the tourist posters. But being a local is not quite the same. I have to pinch myself at times, as it's hard to believe I'm living in a tropical paradise. Trying to manage a 19 bed unit with 3 beds in the only burn unit for the Pacific and 4 beds of a step-down unit in spite of an overwhelming nurse shortage brings me back to reality. If you get to Hawaii—please call. 808-235-3358.

**Barbara Willey Blood** (Jerry), Box 557, Glennallen, AK 99588. Sorry I couldn't make it to our 15th reunion. I'll have to try for our 20th. I work a half day a week as a nurse and then a few hours a month in medical records. Otherwise I'm home with Janie 5½, and Matthew 3½.

**Gina Corotto Kramer** (Ken), 158 Shawnee Avenue, Easton, PA 18042. We're still here in Easton where Ken is head of radiology at Easton Hospital. I'm busier than ever coping with the demands of Jonah 13, Sarah 10, Jordy 7, Laura 6, and Nathaniel 3, while having a super time being a partner in the antique and new quilt business.

#### **Class of 1974**

**Wendy Obst Manganiello** (Paul), PO Box 1001, Norwich, VT 05055. Hello to everyone! We are still in Vermont and loving it. Marc is now 9, and Lisa is 7. Paul continues with his reproductive endocrine practice, and I am working per diem with med-surg patients. I'll graduate from my BSN program in May 1989—just 15 years since our graduation from Jeff.

**Jeanne Marie Margraf Wagner** (K. Thomas, M.D.), 31 Hidden Oaks Drive, Colchester, VT 05446. We have built a new home and moved in freezing weather, but we enjoyed the experience of building, not moving. I would love to hear from Julie Jennings and Carol (Micky) McLaughlin. My best to all.

**Kathleen Kane Karlowicz** (Robert), 152 Randy Lane, Johnstown, PA 15904. Bob's transfer in the J.C. Penney Company has moved us to Johnstown, PA in late January 1988. Our 5th child, Megan arrived June of 1987. I'm not working at present due to the move.

**Margi Ott Martin** (Michael), 2001 Apricot Glen Drive, Austin, TX 78746. Texas seems like home now. I am keeping busy working on the elusive BSN. Our two sons Christopher 6½, and Andrew 3½ prevent anyone in this house from turning into couch potatoes. I am also actively involved in the Naval Reserve. I really do enjoy my two weeks annual Navy training in San Diego.

**Susan Sheaffer Cantwell** (Jeffrey), 804 Plumtry Drive, West Chester, PA 19382. Another busy year has gone by as we have tried to keep up with our two children. Matt is 10, and Katie is 7. We have all enjoyed the second year in our new home and like this area very much. I'm occasionally working at Lankenau Hospital. Hopefully, many of us will get together for our 15th anniversary. Janet Stockton—whatever has happened to you?

#### **Class of 1975**

**Terry O'Brien Funt** (Mark J.), 1179 Plowshare Road, Blue Bell, PA 19422. We have a new addition to our family. Caitlin Melissa Funt, born July 11, 1988. We are rapidly adjusting to our new roles and enjoying every minute of it.

**June Matthews DeMoya** (José), 695 Hillcrest Drive, Maysville, KY 41056. All is well here in Kentucky. I am working part time in extended care and enjoy it very much. Life stays busy with our three children, Margo 7, John 5, and Peter 2½. It doesn't seem possible that our 15th reunion is rapidly approaching. We would welcome a visit from anyone traveling through this way.

**Cathy Glavey Dowhy** (Dennis), 128 Lambert Street, Atco, NJ 08004. I finally completed my MSN from Jefferson this summer. It's great to be a Jeff grad twice in one lifetime. Hello to all. I would love to hear from former classmates.

**Jane Husband Mueller** (Michael), 105 Rice Drive, Morrisville, PA 19067. We just moved back to Pennsylvania. I am working for a temporary agency so I can set my own hours, and take off the summer

to be at summer camp as camp nurse with my girls, ages 6 and 9. Mike is now a partner in a land planning consulting firm in Princeton, NJ.

**Judi Phillips Vadurro** (Ron), 164 Kendall Blvd., Oaklyn, NJ 08107. I have "retired" from nursing management to a part time faculty position in the school of nursing at the University of Pennsylvania. I serve as clinical instructor of ob-post partum and team nursing for junior students. It's wonderful and I have time and energy to spend time with Julie 6, and Meryn 3. We're bowing out of our hectic suburban life and planning a move to Vermont in the spring of '89.

**Patricia Dick Walsh** (Daniel), 562 Grant Avenue, Collingswood, NJ 08107. I'm working part time in dialysis. We have two children, Kathryn 4, and Julianne 3.

**Bonnie M. Gaymon Morris** (Wayne), 137 Hanover Circle, Bogart, GA 30622. The Lord has blessed us with a prosperous medical practice in internal medicine in Athens, GA. Wayne graduated from Jefferson in '75 also. I am a homemaker and work part time for Wayne. We have three beautiful children, Christina Noelle 9 years, Jessica Joy 6 years, and Christopher Wayne 2½ years. I usually only get to visit Philadelphia once a year, during the summer. God bless all of you.

**Linda Bingaman Napieralski** (Thomas), 609 Jackson Road, Atco, NJ 08004. I'm working in neonatal ICU at West Jersey Hospital in Voorhees, NJ. Lisa was 3 in May, and Jennifer was 1 year old in February.

**Janet Moore**, 801 Monte Vista Avenue, Ventura, CA 93003. Does anyone know what happened to Debra Deame—diploma nurse 1975?

**Susanne McCullough Hoffman** (Greg), 2925 Chichester Lane, Fort Wayne, IN 46815. We are enjoying life in Fort Wayne, Indiana. We have four healthy children, Amanda 8½, Matthew 6½, Claire 3½, and Rachel 17 months.

#### **Class of 1976**

**Betsy Souders Machelette** (Michael), 304 Garth Road, Oreland, PA 19075. I am still working part time in an acute/chronic hemodialysis unit in Norristown, PA. I have been there 10 years. When I'm not working I'm home with Susan 7, Kristina 3, and Amy 6 months. I'd love to hear from anyone, and I hope everyone's doing well.

**Kathy Ankenbrand Cochlin** (Robert), 477 Stewart Drive, West Chester, PA 19380. Our daughters, Karyn 8, will be in 3rd grade in September, and Kelly 5, will begin kindergarten. Karyn is a class IV gymnast and competes two times a month. Mom keeps busy being chauffeur and working part time 11-7 in the nursery at Chester County Hospital. I would love to hear from TJU graduates.

**Janice E. Richmond Malloy** (Michael), 515 B1 West Court, Andalusia, PA 19020. Mike and I had one of our best vacations ever in March. We stayed in Salt Lake City with Terry and Steve Homel and their 3 great kids, Jennifer 11, Kristen 8, and Michael 7. After a terrific week of Utah skiing, Mike, Terry and I took a short trip to Las Vegas to visit another classmate, Cyndi Fink Runion. Mike entertained Cyndi's children, Jeff 6, Bret 14 months, while the 3 of us reminisced. We really had a lot of laughs.

**Karen Asper Jordan**, 1816 Glenifer Street, Philadelphia, PA 19141. After 11 years on an oncology unit, I am now working in the intensive care nursery. Rashida 17, graduated from high school this year, Thursday 15, is going to the 11th grade. I am presently a volunteer with BEBASHI (Blacks Educating Blacks About Sexual Health Issues.)

#### **Class of 1977**

I'm working as staff nurse in Holy Redeemer Hospital ICU-CCU. I recently passed the CCRN exam. Hello to our crazy class.

**Karen A. Mirecki Webster** (Philip), 711 Seminole Avenue, Philadelphia, PA 19111. We have two children, Sarah 3½ years old, and Gregory 2 years old. I'm a full time mother for now.

#### **Class of 1978**

**Deborah Jones** 13 Derry Lane, Hudson, NH 03081. We had a great time at the luncheon, but we missed quite a few people. It's so hard to believe 10 years have gone by. I landed in New Hampshire, found a job that I could use both my FNP and CARN skills, a city clinic for teens. Come visit me.

**Patty Ward Collingwood** (John, M.D. '80), 17000 Stonegate Court, Granger, IN 46530. We moved to South Bend after John's training in 1985. I stopped working and I am learning to golf, play tennis, and sail. It's a different life than when I was a head nurse. I'm enjoying myself.

**Diane Warden Carugno** (Lonnie), 779 Cinnamonson Street, Philadelphia, PA 19128. I enjoy my work. The world of high risk obstetrics is fascinating. Lonnie, the boys and I took a marvelous vacation to Florida, and saw Disney. We all had a great time. Nick and Anthony are characters at 4 and 2½ years. Hello to all.

**Lorraine McCullough MacFeeters** (Richard, M.D.), 853 Edge Park Drive, Haddonfield, NJ 08033. Our new arrival, Lyndsay Christine was born on February 18, 1988. John is 3 years old. Richard's dental practice is doing well, and I am the business manager.

**Joan Wolbert Reimer** (Chip), 440-C Sunnyhill Avenue, Franklinville, NJ 08322. Hi to the class of 1978—happy 10 years. Sorry to miss the luncheon. I'm going to Lake Tahoe, Nevada for 2 weeks. My youngest sister is getting married. My boys and I are in the wedding. I'm still working full time 7pm-7am at West Jersey-Voorhees in labor and delivery. We are busy with our boys. Shawn is 8, and Kevin is 6½. We recently added on to our house and are still remodeling. We like to work in our yard, spend time with the boys, and bike ride. I still have my horses and various other pets. I enjoy my needlework, arts and crafts and reading. Hi to all the class of '78.

**Regina Insogna Procopio**, 130 Congress Avenue, Oaklyn, NJ 08107. No accidents, no hospitalizations, no divorces this year. On those premises alone, I'd have to say all in all it was a very good year. I have happily defected to the State of New Jersey from "the Philadelphia metropolitan area and vicinity." This makes me very happy because I am closer to the beloved beach. I continue to work at Jefferson in the operating room as evening shift nurse. I have finally given in to my biorhythms and have admitted that I deplored getting up in the morning. It crunches my social life, but working in the evening suits me much better, as those from school who had to drag me out of bed can remember. Being in the "get your BSN in 20 year plan," work and domestic engineering keep me busy. But as those who know me best can confirm I always find time to play. I'm looking forward to seeing you at our 10th Alumni luncheon. Diane Scott Ross, I think of you often.

**Joanne Stock Petrelli** (Gene), 16 Washington Drive, Havelock, NC 28532. This summer we'll be moving to Iwakuni, Japan for 3 years. Wish me luck. I've been working part time as a home health nurse for the county here in North Carolina. It's very interesting. Hope everyone is doing well and in good health.

**Leslie Wilkinson Stickley** (Bill), 546 Parkway Avenue, Penndel, PA 19047. I can't believe it has been 10 years since we graduated from Jeff. (really I feel like I've been a nurse forever!) I don't know which end is up most of the time. I still work 4 days a week in a rehabilitation center for retarded children and adults, and with a perpetual nursing shortage. At home, Billy started kindergarten in September '87. Rachel at 4 is battling a hearing problem and is noisy as a result, and Sara, one year old February '88, is a true angel. We saved the best for last but the three of them and my husband's ever increasing travel for IHOP as a coordinator and trainer keep me from knowing which end is up. I miss my old friends a lot, and hope people make it to the luncheon this year. I would love to hear from classmates.

**Carol Miller Muller** (Carl), 1024 Martha Blvd., Atco, NJ 08004. Erika was four years old in June '88. She started pre-school in September '87, and loves it. I'm working part time in labor and delivery at West Jersey Eastern, Garden State merged with them in July 1987. We're all healthy and happy.

**Barbara Ann McGrenra Doerr** (Kreg), 9691 Greenwich Lane, Anaheim, CA 92804-3411. April 30th, 1988 I married Kreg Doerr. He's an electrical engineer, working at McDonnell-Douglas in Avionics. I finally left Jefferson after 13 years. I am working for a nursing agency.

#### **Class of 1979**

**Lisa Keegan Sarcewicz** (Peter), 1674 Point Drive, Bensalem, PA 19020. We have been busy and blessed. Our family includes three growing children: Joshua 4, Joy 3, and Amy 9 months old. I am doing some home nursing visits in between changing diapers and chasing children. I thank God for my training at Jefferson. It has been invaluable both at home and in the field.

**Deborah Anderson Johnson** (Kyle), 604 Lorraine Avenue, Oreland, PA 19075. I've just returned to work at Chestnut Hill Hospital, part time in the maternity unit, following the birth of our first child, Cullen Ian, born March 29th, 1988. I'm enjoying my new role as a "mommy."

**Rhonda Mote Pierce** (Jeff), 321 Virginia Avenue, Phoenixville, PA 19460. Jeff has finally finished his Masters. I guess it's time for me to go back to school. I've been busy studying for the CCRN exam. I'm still working ICU/CCU at Paoli Hospital. Kelly will be five this year. We bought a house in Phoenixville, and moved in April. Hello to all.

**Alice Leisch Guarino** (Carl), 60 Cedar Drive, Richboro, PA 18954. Hi everyone. I'm looking forward to seeing a lot of you at our reunion. Best wishes to all.

**Annamarie Sloss Moritz** (Joseph), 311 Patricia Circle, King of Prussia, PA 19406. We moved back to the Philadelphia area in July 1987. I gave birth to our little wonder, Kathryn. She is truly the joy of our lives. I have taken off some time to be with Katie. After taking a trip down south for a month we will both be returning to work. My regards to all my classmates.

**Stacey Cassel Busch** (Howard), 12260 Sag Harbor #2, West Palm Beach, FL 33414. Hi everyone! We've recently moved to sunny Florida. I didn't miss the winter a bit. My husband has opened his second rheumatology office. I keep busy with Rachael, now one year old, helping out in the office, and teaching at the local college. I'd love to hear from you.

**Judy M. DiCristofano**, 3215-A Red Lion Road, Philadelphia, PA 19114. I hope all is well with everyone. I finally left "the Jefferson Family" and now I am the director of nursing for Home IV Therapy Company. What a big transition. I still haven't hooked the right guy, but I'm keeping real busy.

**Carmen William Russo** (Robin), RR1-67C, Sewell, NJ 08080. I left Metro-Parkview to work closer to home. I am now anesthesiologist at Kennedy Memorial-Washington Township Division. Robin also left her nurse manager job at Nazareth after seven years to work at Kennedy. We are looking forward to a new arrival—no not a baby—a thoroughbred horse. We are going to cruise to Bermuda this summer for two weeks.

**Sandra Lee Wilson** (Robert), 111 N. Huntington Avenue, Margate, NJ 08402. I'm still at Widener studying for my BSN. It's a long road and I'll be glad when I'm finished.

**M. Elaine Harkins Lack** (Craig), 203 Deptford Road, Glassboro, NJ 08028. I am currently working as a school nurse and health teacher. I plan on pursuing a master's degree starting in the fall of 1988. Hello to fellow classmates.

**Karen Hollander Bernardini** (Richard), 54 Green Tree Drive, West Chester, PA 19382. We moved to West Chester in the spring of 1987. I'm still working part time at Children's Hospital, and I am kept busy at home with Lisa 4, and David 2.

**Sharon Miller Chilton** (Mark), 8110 Clearfield Road, Frederick, MD 21701. Everyone is doing fine. Mark is working hard and the practice is doing well. The boys are growing up very fast. I now have some time to enjoy myself for things like tennis and painting. Matthew was 3 in April, and Craig will be going on 2.

**Deborah Samuel Timpano** (Gene), 4 Radford Court, Marlton, NJ 08053. I continue to work part time at TJUH in the intensive care nursery—pool status. Christopher Ryan was 1 year old on March 20th, and Eugene was 4 in July.

**Theresa McGlynn Rupp** (Jim), RD#5 23 Gaye Drive, Seaford, DE 19973. Hello to all. We moved back to Seaford, DE in January, and we were blessed by the birth of our 3rd child, Cassie, on August 28, 1987.

**F**riendship—like music heard on the waters,  
Like pines when the wind passeth by,  
Like pearls in the depths of the ocean,  
Like stars that enamel the sky,  
Like June and the odor of roses,  
Like dew and the freshness of morn,  
Like sunshine that kisseth the clover,  
Like tassels of silk on the corn,  
Like mountains that arch the blue heavens,  
Like clouds when the sun dippeth low,  
Like songs of birds in the forest,  
Like brooks where the sweet waters flow,  
Like dreams of Arcadian pleasures,  
Like colors that gratefully blend,  
Like everything breathing of kindness—  
Like these is the love of a friend.
