A Message From The President

Serving as your President in the past year, I have encountered challenge, sustained change, and growth in our Association.

Our bi-monthly meetings have been informative and stimulating, but still lack participation on your part as fellow alumni. As years pass, I still see the same 20-25 faces at our meetings who hold your Alumni Association together. If we are to remain viable, we must have your participation and input.

I know all of you enjoy the Bulletin and the luncheon. However, it takes people to make all of these things happen. These same people manage your funds and the contributions you make to the Association. But, the managers of today may not be here for tomorrow; therefore, I am appealing to you for your help and participation to assist in the endeavors of your peers in keeping the Association alive.

Benefits from new changes are occurring with our Scholarship Fund and as we mature, our Relief Fund will be more active. There have been several gifts and bequests from Alumni which have created minor legal problems and a lot of painstaking time to solve. Please use the forms in your Bulletin to allay some of these problems with Scholarship, Relief and Bequests.

I extend my wholehearted gratitude to your Board of Directors, Committee Chairpersons and their committee members and those of you who actively participated in Alumni meetings and affairs. Your support and encouragement have been most valuable to me, and I look forward with pride to my next year in serving as the President.

Fondest wishes,

Flossie Roche, R.N., CNOR

NURSES' RELIEF FUND

The Nurses' Relief Fund is available to all Diploma and White Haven graduates. The purpose of the Relief Fund is to provide financial assistance annually toward hospital bills and/or bills incurred at home due to an extended illness and requiring the services of a physician.

The fund is also available for use in cases of adversity. Nursing Home cases will be given special consideration. All things being equal, first consideration will be given to Life and Active members. However, all applications received will be reviewed and given consideration.

All or a portion of the amount distributed to a recipient from the Relief Fund may have to be reported to the Internal Revenue Service as taxable income. Each recipient will receive a statement at the end of the year showing what portion of the distribution to her/him should be reported.

During 1984 we have been able to assist eight of our graduates from the relief fund. IF YOU KNOW OF ANY JEFFERSON OR WHITE HAVEN GRADUATE IN NEED OF ASSISTANCE, PLEASE LET US KNOW AS SOON AS POSSIBLE.

An application for Relief Fund benefits can be found in the back of this bulletin.

NURSES' SCHOLARSHIP FUND

The Clara Melville-Adele Lewis Scholarship Fund continues to provide scholarships to Diploma and White Haven graduates.

Scholarships will be available for summer, fall and spring semesters.

Each application received will be reviewed by the Scholarship Committee; preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree.

Please read the Scholarship Committee report, see index for page.

A Scholarship application can be found in the back of this bulletin.

Barbara D. Schraeder, a 1965 graduate of the School of Nursing, received a Ph.D. degree from Temple University in 1984. Her dissertation is titled, *Developmental Progress and Behavioral Styles of Very Low Birth Weight Infants During the First Year of Life*.

Dr. Schraeder earned her baccalaureate and master's degrees at the University of Wisconsin in Madison.

Since 1979, Dr. Schraeder has been on the faculty of the College of Allied Health Sciences' Department of Nursing. She is currently an associate professor and teaches courses in family normal pregnancy, perinatal care, human sexuality, care of well and sick infant and child, and leadership.

Before coming to Jefferson, Dr. Schraeder was head nurse in the Pediatric Intensive Care Intermediate Unit

at the Children's Hospital of Philadelphia.

In the field of neo-natology, Dr. Schraeder has been supported by the American Nurses' Foundation and the James Picker Foundation.

Dr. Schraeder has contributed numerous articles to nursing journals on maternal child nursing, intensive care nursing, and low birth weight infants. She collaborated with M. Donor on *The Child in Chronic Respiratory Failure*, a chapter in the book, *Neonatal and Pediatric Critical Care Nursing*.

Dr. Schraeder is a member of the American Nurses Association, Pennsylvania Nurses Association, Sigma Theta Tau, Sigma Xi, and many other professional organizations.

International Travel As A Nurse

As summer approaches, I find myself getting restless. I study my photo albums; scan the book store shelves for the latest editions of Baedeker and *Foeders'* guides; remember the fun of stocking up on "travel goodies"—portable clothes lines, blow-up hangers, tiny tubes of tooth paste and bottles of shampoo. It is summer and it is travel time. The month of June brings the annual Sigma Theta Tau international research conference held this year in Tel Aviv, and the International Council of Nurses' Meeting in Jerusalem. The increasing interest of my fellow nurses in attending these and other international meetings mirrors my own enthusiasm for international travel; and more specifically, international travel as a nurse.

In 1983 I had the opportunity to present a research paper in Madrid, Spain; and in 1984 I presented a paper in Seoul, Korea. During the latter meeting and a subsequent study tour, I met formally and informally with nurse colleagues in Korea and Taiwan, Republic of China. Also joining us on the tour were nurses from Australia, Nigeria, Liberia and Thailand. To my dismay I will not be going abroad this year, but I would like to reminisce about my adventures and to share with you my thoughts about traveling internationally as a nurse.

"Welcome Honorable Nurses" proclaimed the sign outside our Seoul hotel. It is safe to say that not one of us in the study tour, from newly graduated staff nurse to dean emeritus, had ever before been described as "honorable" nurse. The name of our group, Sigma Theta Tau, National Nursing Honor Society, had obviously picked up something in the translation, and we were thrilled. We felt suffused with pride in ourselves and in our profession. This professional pride was at a very high level throughout the tour as we celebrated ourselves and our profession.

My memories of some peak experiences have sustained this pride for me. In particular I remember the opening sessions of the Korean meeting which was co-sponsored by Sigma Theta Tau and the Korean Academic Nurses' Society. I was especially stirred by the calling of the roll of delegates from the countries represented at our meeting. As each del-

egate stood up I felt a surge of energy and pride. It was wonderful to consider that despite our differences in dress, color, and language we shared a very fundamental value of commitment to helping others. In addition to my conscious awareness of lofty ideals, I found myself delighted to be a member of such an exotic group! It was fun to see nurses in dashikes and turbans, others in the beautiful hanbok of our host country, and my American colleagues dressed to the "nines" for the gala opening of the meeting and planning sessions. Thanks to the diversity of dress and culture and the Koreans' gift for form and celebration the meetings were a visual delight. Equally memorable and often moving were the papers presented by this international group of nurses. The papers discussed frankly the needs of the people and the challenges which face nurses who care about those needs.

A highlight for all of us was a paper presented by Susie Kim, R.N., D.N.S., an outstanding nurse in the field of women's health care. She described some of the cultural and

Modern intensive care nursing in Taiwan

legal barriers experienced by Korean women in their traditional patriarchal society. We learned of the three rules which have shaped women's experiences. The first rule, the *Virtue of Three Obediences* prescribed that a woman was subject to her parents before marriage, to her husband after her marriage, and to her sons in later years. This rule effectively placed control of all aspects of a woman's life in the hands of her father, her husband and her sons. The second rule, *Women's Seven Evils* subjected a woman to divorce if she dishonored her parents-in-law, failed to bear a son, was talkative, committed adultery, was jealous, had "bad" diseases or stole. The third rule, *Dishonor of Two Husbands* demanded the complete faithfulness of a widow to her deceased husband.

Dr. Kim described some of the hardships these customs perpetrated on women's lives. For instance women who delivered sons were given the most nutritious foods and had up to 100 days to recuperate from the birth, while women who delivered daughters were considered to have "lost face," and were expected to resume their normal activities within two to three days of their delivery. Another example of the misery caused by the three rules was the blame placed on a daughter-in-law if her new family experienced physical or financial hardship within three years of her marriage. The daughter-in-law was considered the cause of the misfortune. In general the effect of the rules was to give women's lives definition only in the context of a relationship with a dominant superior male.

Dr. Kim's speech was particularly striking to the American nurses who could not help but look at their sophisticated, confident, well-educated and well-respected Korean colleagues and wonder how they had overcome such discriminatory beliefs which seemed to be so deeply embedded in their culture. We were further impressed by Dr. Kim's description of the enormous progress that has been made and her outline of solutions to the problems of ensuring optimal health care for women and children. These suggestions have worldwide applicability and include:

- the creation of a system of primary health care that provides access to services for everyone.
- a greater role for women as health care providers
- the creation of programs that strengthen the family and the position of women within the family
- increased emphasis on health education in the schools
- the development of a life-long health education program directed toward women.

Dr. Kim's recommendations and her willingness to share with us some of the powerful cultural influences that shape Korean women's lives heightened our appreciation of the style and accomplishment of our Korean nurse colleagues. Their style was one of sophisticated assertiveness combined with gentleness and sensitivity, and their accomplishments are impressive. There is university based education for all nurses. Korea now has 13 Master of Nursing Programs and two Doctor of Nursing Science Programs. Community health practitioners, nurses who have completed their basic nursing education and a 24 week program, provide primary health care in the rural towns and villages. A highlight of our study tour was a site visit to a village to see a nurse practitioner in action. This young woman provided *all* of the primary health care to the village. Data presented at the conference confirmed that there was widespread acceptance of and satisfaction with these community nurses. On every measure the people in the village preferred them to the public health doctor. A study from two major health institutions indicated that the care provided by community nurses was qualitatively equal to and economically more efficient than care provided by regular medical doctors. We learned that even internationally, when it comes to health, "nurses do it better."

After bidding a teary and affectionate farewell to our Korean nurse colleagues we flew on to Taiwan, the Republic of China. Like Korea, the clearest impression of my visit there is again, a visual one. Representatives from the Taiwan Nurses Association met us at the airport with banners proclaiming

A Korean Family

our arrival. Formal meetings, tours of hospitals and health care facilities, and opportunities for individual dialogue reinforced for me the commonalities of our interests and experiences as women and as nurses. Like their American counterparts, nurses in Taiwan, the Republic of China, are struggling to upgrade the educational preparation of nurses and to reconcile the humanistic aspects of care with high technology. We had wonderful opportunities to see the Taiwanese expression of the latter issue in the coexistence of modern western medicine and traditional Chinese medicine. We visited the "night market" where we watched individuals seeking relief from near-sightedness by drinking the bile of snakes that have been freshly killed before our eyes. We decided not to purchase dried, formerly creepy-crawly things which are the traditional cure for hemorrhoids, constipation and impotence. We found the *night market* to be quite a contrast to the modern 400 bed hospital we visited. We noted computers in every nurses' station, and small refrigerators and beds for relatives in every patient's room. The hospital has an open-heart surgery program and cardiac surgery

The night market in Taiwan

nursing team to provide health teaching, pre-operative preparation and discharge teaching to all cardiac surgery patients. It also has a well-appointed and very modern intensive care nursery and adult critical care unit.

We spoke with the director of nursing who shared with us her goals for the coming year:

- increase the education level of her staff.
- introduce a less "task-oriented" approach to nursing care.
- find ways to provide flexible scheduling for nurses who wished to combine their nursing careers with the responsibilities of a young family.

Sound familiar? Nursing with its values and challenges is truly a world-wide profession. Returning to my original premise I urge you to travel and do it as a nurse. It's a great way to meet new colleagues, and it can broaden your perspective, putting you in touch with the universal importance of our profession. It's a sure cure for burn-out, it's fun and tax deductible!

Introduction

One of the functions of an Annual Bulletin for an Alumnae organization is to keep the Alumnae up-to-date on the events and happenings of the school. However, because our school has completed its mission and closed, our Bulletin has or should take on a different mission: that of recording our past as seen through the eyes of the people who lived through the experiences. When classmates get together there is always a period of "Do you remember?" and "I remember." These can be shared in our Bulletin and far away classmates can read, laugh or cry, and also recall the halcyon days of Jeff. With that in mind, we shall begin our nostalgic journey on September 1, 1938 at 6 P.M.

There were four of us who approached the tables set up in 1014 Spruce Street that fateful September evening — Alice D., Dorothy C., Sylvia H., and Alice B. Miss Rohde, one of the housemothers, asked us if we objected to rooming together, (did we really have a choice?), and then had us sign in. She assigned the house man to escort us to room 400 in 1018. He took us to the fourth floor of 1016, then out the window, across the fire escape into 400 of 1018. There we found five cots, one bureau, two, five drawer chests and three desks. One cot had some things on it, so we knew it was taken. Oh yes, there was a big wooden wardrobe and two closets. The klinker was that one closet opened into a two bed room which was occupied by upper classmates of the February class. Also, on fourth floor was another two bed room, a single room and a bath. The ten of us who occupied that floor had one sink, one john and a shower. So we managed quite well. Brushing our teeth and the other morning functions sometimes posed problems, but none of us came from homes with more than one bath, so we were used to sharing.

The next morning our true introduction to the real world of a probationer began. We lined up along the wall for the cafeteria line and met Annie Shafer for the first time. She was to become a very important and valuable teacher as our three years progressed. The first meeting was a bit scary, though. She reigned supreme on the breakfast line. It was from her that ward assignments were received, as well as orders not to lean against the door.

It was in the cafeteria line that I met Barbara Schutt, who was to become an excellent editor of the American Journal of Nursing. She had just completed training and was awaiting State Board results before going on to start her career beyond Jeff.

My first ward assignment was Women's Surgical on fourth floor. The probies really started at the bottom rung of hospital housekeeping which Dr. Bucher told us was what nursing was. We collected face towels, counted them, and took them to the freight elevator. We washed bedside tables, and swept the floor. As we progressed through what was really a procedure book, new chores and tasks were added: carbolizing bedpans, emptying and measuring contents, carbolizing beds after discharge, bed making and finally caring for a human being.

Actually, the procedure book was dictated to us by our nursing arts instructor, there was not one on any of the floors, so you had to rely on your memory for any procedure which

was not routine. Nor did we have faculty members who would supervise and help us when something new was to be tried. We really did learn by trial and error. The head nurses, if you had one, would help if necessary, but you were expected to know how to do anything that had been discussed in class.

Despite all our trials and tribulations, we managed to get through those first six months. Miss Shoemaker had told us in Ethics class that we were a liability to the hospital until we were capped and could work the ten hour shift with a few exceptions which were twelve hour shifts. Although we had been sixty-three strong to start, a total of forty-five were capped in the Jefferson College auditorium in February 1939. We were the first class to be capped outside the Nurses' Home, and besides our mothers and other female relatives, our fathers and brothers could also attend. The February class had had a ceremony in the "Rec" room but most men were excluded because they were only permitted in the parlor of 1012. It was quite an occasion! I remember the one straight pin that Miss Shoemaker used didn't hold too well, and the cap went lopsided. It has done it ever since. I must have a pointed head.

The next morning Miss Shafer gave us our first "nursing" assignments. Mine was Central Dressing Room. CDR was located in what had been the Accident Ward of the old hospital. You could enter through the ground floor or by way of the court yard. Miss Umberger demonstrated the dressing carriage technique because we had not yet had sterile dressing technique, or any clinical nursing courses. We had had Microbiology and were expected to utilize all we had learned there about germ transference. This experience lasted three weeks. We were not put on night duty although the student was expected to have one week of nights and it was twelve hours for seven nights a week. Now that we were capped we looked forward to a half-day off each week. Of course, we only worked half-day on Sunday.

My second assignment was Women's Special. That was real nursing! I learned to give hypodermics to real people, not an orange. It was there that I first helped with drawing blood for a transfusion. The student's job was to be lower than the donor's arm, and he was on a stretcher, and suck the air out of an Erlenmyer flask to form a vacuum so the blood would flow in. All the time, swirling the flask to mix the citrate so the blood wouldn't clot. It was also her job to watch the amount in the flask so the donor would not be over-bled. Here, too, began relief hours for me. This meant two extra hours off during the day; unless, of course, classes were scheduled. Then, the time off was spent in class.

Sleeping in class was the only way to go. After the rushing and work of the wards, no one could stay awake when she sat down in class. Elbows were jabbed into one's neighbor, as well as requests for an ink transfusion when pens ran dry. Notes were usually sparse because notebooks were rarely remembered.

But today memories crowd in and those busy and generally exciting days cause classmates to reminisce about many common recurring events. How many can remember knocking the chart rack over and breaking all the thermometers for the ward? Because we were in training at the end of the

depression, money was scarce, and to replace ten to fifteen thermometers at sixty cents each was a real disaster. How many can remember Miss Hawke holding up the wall on third floor? She had total visual command of the whole floor from that vantage point.

From third floor, I went to sixth floor and the domain of Miss Lewis and Miss Dute. I was assigned to Center Corridor, a complex of six private rooms and two baths. I believe I learned more nursing there than any place else in the hospital. Probably because we had classes in medical and surgical nursing and I was able to apply and utilize the material. Of course, it was on sixth floor that you looked forward to two half-days a week — yours and Miss Lewis'. If the two fell on the same day, you felt cheated. But the summer finally came and it was vacation time.

Vacation that year was a trip to the 1939 World's Fair in New York. That is all I remember of that three weeks — one day at the Fair.

In the fall, the class moved into specialties and night duty. The course in Urology proved to be a killer and more than half the class had to repeat when it was given to the February half of the class. I still don't know the components of urine or the parts of a cystoscope.

I was on night duty over Christmas in Corridor (third floor again). It was cold sitting by that balcony door. Miss Shafer told me to "take the clean linen out of the dirty linen hamper and push it against the door jamb." Corridor was six semi-private rooms which were full most of the time. Night duty was from 9 P.M. to 7 A.M., seven days a week and lasted for eight weeks. Classes, of course, were held as usual, but were generally scheduled for early morning (before going to bed) or late in the afternoon, so you could get supper. Meals were served to the nurses at times which would not interfere with patient's meals. And, you had a half hour for a meal, this had to include bathroom, waiting for an elevator, and waiting in line. Yet, we did gain weight!

This second year also included Pine Street. The water bugs came out at night and scared the bejabbers out of you. They were three inches long and would fly. It was at Pine Street that I learned what a "red-light" house was. The light would go on and off all night long in the little street behind

the hospital. Watching it was one way to pass the twelve hours of each night.

Our third year included Maternity and Forty-ninth Street. All our belongings had to be moved out to Pennsylvania Hospital for Mental and Nervous Diseases, because we were to be there for three months. While there, we had a whole day off a week. And, if we took a patient to an evening activity, we were given extra time off.

We did get one full day off at Jeff in our three years. It was during the Christmas Season of our senior year. I was in Diet Kitchen at that time. Diet Kitchen is memorable for the funny things that happened. Mary Rita and I were the cooks and we burned ten cups of rice. We tried to fix spaghetti so it would be long, so we stood it up in the pot. Needless to say — disaster. However, I did learn to make an egg souffle which did not fall.

At last, it was time to finish the 1095 days required by the State of Pennsylvania. I ended training in CDR, but making IV solutions. This was the job I was to have as a graduate. My finishing day is a very clear memory. I wore the same clothes I entered in and walked up Chestnut Street to Wanamaker's crying.

Our graduation date was April 30, 1942. Everyone had to have taken State Boards and the February class was included. The U.S. Army Nurse Corps got most of our class and there are many times my experiences from Jeff got me through a difficult situation. Jeff gave me a deep and firm belief in the value of nursing and what good nurses can do for those entrusted to their care. Although this belief has grown and changes as degree on degree of college work has enlarged it, it did come from our few teachers and many head nurses who pushed, demanded and helped me learn the values I hold today.

The friendships formed under these trying conditions have lasted as true friendships throughout the years.

I hope others might submit their remembrances of training at Jefferson.

JEFFERSON PROJECTS GROW

The Bodine Center for Radiation Therapy

Jefferson was pleased to name its new Center for the University's late President and Chairman, William W. Bodine, Jr. It is being constructed on 11th and Sansom Streets beneath the New Hospital Building. When completed in the Fall of 1986, the Bodine Center will have three levels. The entrance will be on the street level and will be utilized for initial patient examinations, follow-up and multi-disciplinary clinics.

The Ground Floor (first underground level) will house the professional staff, labs and treatment areas. The basement floor (second underground level) will contain all of the patient treatment planning functions, a small operating suite and a high energy accelerator room. When completed, the Bodine Center will be one of the most advanced radiation therapy facilities in the world.

On The Move

The entire Division of Ultrasound and Radiologic Imaging is moving from 5th floor Curtis to expanded facilities on 7th floor Thompson and Main and part of 8th floor Main.

Computer Tomography (CT) is moving from its current space on 5th floor New Hospital and second floor Main to 10th floor Main where it will join a newly acquired Super Conductive Resonance Imaging Machine (MRI).

These moves will centralize a large portion of Jefferson's diagnostic imaging capabilities, and will be the largest concentration of high technology imaging equipment in the Delaware Valley.

Medical Office Building

Located at 1100 Walnut Street, the new building will contain the offices of staff physicians with an ambulatory surgical center. Office space will be available on the third through the ninth floors. The ambulatory surgical center is planned for the second floor. The first floor will be available for commer-

cial tenants. A Cardiac Rehabilitation/Fitness Center is also being considered. When completed in the fall of 1985, the building's exterior will be the same reddish brick used on the Scott and Barringer buildings.

Nursing Students Benefit From Grant Program

The Nursing Education Grant Program which was instituted at CAHS is based on a similar program at Rush University in Chicago. The program provides nursing students who show need with \$2500 annually. That amount is exchanged for a commitment to work as a nurse, at full pay and benefits, at Jefferson Hospital within 30 days of graduation. Someone who begins the program as a junior makes a two-year work commitment to the hospital; the commitment is one year for a student who receives the aid only as a senior. If that commitment is honored, fully and satisfactorily, the CAHS graduate has "repaid" his or her grant — and doesn't have to face years of indebtedness.

The program, which was three years in the planning and development stages, currently involves 15 juniors and 5 seniors, and the number of students will increase next year.

"The Nursing Education Grant Program is a collaborative effort benefitting the College of Allied Health Sciences, Nursing Service of Thomas Jefferson University Hospital, and our nursing students. These grant programs are 'self-help' programs for our students," says William Thygeson, CAHS director of student affairs and services.

"The hospital benefits because the program reduces the need for costly recruitment, orientation and training. The hospital is guaranteed a certain number of well-prepared nurses, all of whom have completed rotations there, and have some familiarity with the hospital's personnel and practices. Also, the hospital staff can become acquainted with students when they are in the Department of Nursing. It seems appropriate that Nursing Service would consider the college as a prime source of qualified professionals," comments Thygeson.

Although similar programs exist, they were usually not established to provide financial aid. They evolved during a nursing shortage and were used primarily to enhance recruitment.

The emphasis of the CAHS Nursing Education Grant Program is on helping students who need financial aid, and providing a flexible work commitment. As students the participants have no special obligation to the hospital, but best of all, there's a guaranteed job waiting.

"First jobs are hard to find now, even for nurses," says Heidi Shore-Brown, a nursing senior in the program. "I'm glad I won't have to look for a job — especially since I'd have to do that around finals time."

And CAHS benefits too, "because it provides us with additional aid money," says Thygeson. How? The Jefferson Hospital's Department of Nursing Service provides the funding for the program, but as the nursing graduates fulfill their employment obligation, Nursing Service will be reimbursed by the University Benefits Program.

Though the program is need-based, it is also competitive, and only outstanding students are selected. To stay in the program, students have to maintain satisfactory academic records.

"If this program proves to be a success in nursing, we will consider similar grant programs for our other allied health programs," concluded Thygeson.

Nursing Education Grants Award — Key figures in the new Nursing Education Grant Program are Lawrence Abrams, Ed.D., left, dean, CAHS; Mary Ann McGinley, R.N., M.S.N., associate hospital director for nursing service; John McGuigan Jr. and Katherine Weidner, juniors in the CAHS department of nursing, two of the 20 grant recipients this year; Mary D. Naylor, R.N., Ph.D., chairman, department of nursing, CAHS; and William Thygeson, director of student affairs and services, CAHS. Not pictured but also instrumental in establishing the program was Michael J. Bradley, executive hospital director. A cooperative effort of CAHS and TJUH, the program provides one-year grants of \$2500 to eligible students. In return, graduates agree to accept a year's employment at TJUH as clinical nurses, at full salary and benefits.

Bequests

We have received a number of questions concerning bequests to the Nurses Alumni Association. If you are thinking about such a bequest, we would suggest the following *sample* paragraph for your consideration:

I give to the Nurses Alumni Association of the School of Nursing, Diploma Program, College of Allied Health Sciences, Thomas Jefferson University, located in Philadelphia, Pennsylvania, or its successors, the sum of _____ dollars (or identify the property, such as stock, or indicate a percentage of the estate, if appropriate), to be used for its general purposes.

This suggested clause is exclusively for the information of our alumni and friends. You should, of course, consult your own attorney as to the applicability of any item to your own situation.

Nursing Alumni Association Hosted by Alumni Office and Department of Nursing

Members of the Nurses Alumni Association attended an Open House in the Department of Nursing on January 8, 1985. Dr. Mary Naylor, chairman of the department, welcomed the group. Following her remarks, she introduced Assistant Professor Sharon Renshaw, R.N., M.S.N., who is coordinator of the Learning Resource Center. Ms. Renshaw gave the alumnae a preview of what they would see when they toured the Learning Resource Center later that evening.

The center, located on the star floor of the Edison Building, was built in 1983. It was designed to help student nurses acquire special skills before they need to use them. The facility houses a 12-bed clinical unit used for simulated patient-care sessions, and individual study carrels where students can practice their clinical skills or view instructional and audiovisuals without interruption.

Alumnae had the opportunity to chat with students and

faculty members during the tour. Students demonstrated how they use the computers and clinical equipment to strengthen their skills.

Florence Roche, R.N. '56, president of the Nurses Alumni Association, expressed her thanks to Dr. Mary Naylor and Mrs. Janet Waxman, assistant director of development and director of alumni programs, for their efforts in coordinating the nursing alumni visit.

"The tour of the Learning Resource Center for the alumnae was both eye-opening and educational," Ms. Roche said. "Our members thoroughly enjoyed the tour and the dinner. We were impressed by the students' enthusiasm in their demonstrations of their clinical skills. Such advanced technology in education as television and video cassettes plays a remarkable role in today's learning arena. The faculty was very impressive in its eagerness and interest in the program."

ALUMNI OFFICE NEWS

On June 10, 1985, it was two years since we moved into our present office, room 105, Edison Building; time moves on and this past year has been a busy one.

Betty Piersol and Peggy Summers have so generously taken over the "running" of the office for me, while I have been recuperating from a total hip replacement, done late in 1984.

The names and addresses of all our graduates are on the computer and one of my aims this year was to have the maiden name of each married graduate included on the computerized listing, which is up-dated monthly. The computer list gets constant use and is often referred to as "the bible." With the maiden names included on the computer list it will make it much easier to identify our graduates.

I am proud of our office, and it is a pleasant place to work. The plants on the window sill, facing Ninth Street, attract a lot of attention from passers-by.

You are always welcome, and, of course, you are invited to visit the office. Located in room 105, Edison Building, 130 South Ninth Street, Philadelphia, Pennsylvania 19107. The phone number is (215) 928-8981. I am usually in the office every Tuesday, 10 A.M. to 3:30 P.M., and occasionally on Wednesday. When I am not in the office, phone calls will be answered by the CAHS Alumni Office, room M-6, Jefferson Alumni Hall, 1020 Locust Street, Philadelphia.

Our office works closely with the CAHS Alumni Office, its staff, Janet Waxman and Carolyn Robinson who have been a great help to us, we value the good working relationship between the two offices.

The following Graduation Exercises Programs are missing — 1918, Spring of 1945, 1946, 1952 and 1956. If you do not wish to part with the original copy, we would be happy to have a copy made for our files and return the original copy to you.

SCHOLARSHIP COMMITTEE REPORT 1984-1985

The Scholarship Committee met several times during the year and we are pleased with the increased number of applications and requests for information. We hope that this apparent interest in seeking additional educational preparation in nursing will continue and wish to encourage our graduates who are enrolled in a program leading to a degree in nursing to apply for scholarship assistance.

The Committee in May took action to grant scholarships to part time, as well as full time applicants, provided the applicant is enrolled in a program leading to a degree in nursing and enrolled for a minimum of 6 credits.

We are encouraged by the following letters received from our graduates and wish them well in the pursuit of an advanced degree.

The following graduates of the School of Nursing were awarded scholarships:

Spring 1985 Aileen (Ishuin) Mac Millan (1976)
Katherine (Gillen) Leslie (1980)

Summer/Fall 1985 Judith Troutman (1980)
Catherine (Glavey) Dowhy (1975)
Marguerite (Johnson) Domenick (1956)
Patricia (Mazakas) Van Strein (1960)

Doris E. Bowman, *Chairman*

Permission was given for reprinting portions of the following letters:

Graduates Appreciate Alumni Scholarships

To encourage our graduates to apply for scholarships sponsored by the Nurses Alumni Association, Miss Doris Bowman, chairman of the scholarship committee, would like to share

with you excerpts from the letters of some of our recent scholarship recipients:

Your financial assistance is sincerely appreciated. Your help is playing a major role in the realization of both my educational and nursing goals, writes Judy Troutman, '80.

I wish to express my sincere thanks and gratitude to the committee for granting me a scholarship that will enable me to complete my bachelor's degree in nursing. Though I realize the importance of continuing education, I will always cherish my basic nursing training received at Jefferson. I am, and always will be proud to say, I'm a Jefferson nurse, Kathy Glavey Dowhy, '75.

A 1956 graduate, Marguerite Domenick, has recently been accepted at St. Joseph's University. She recently thanked the scholarship committee for her scholarship. She writes: **I will continue to support the Nurses Alumni Association, so that in the future other alumni will be able to take advantage of this wonderful opportunity.**

Kate G. Felix, a 1973 graduate who was recently accepted in a graduate program at the University of Washington, Seattle, shared her feelings with Miss Bowman. Because certain educational documents were not available for Ms. Felix, she had to take equivalency exams in order to be accepted. **I passed the exams and I received some of the highest scores ever recorded by any nurse seeking admittance to the University of Washington's nursing program. My passing is the result of Jefferson's legacy of educational excellence and your efforts as director of nursing of Jefferson's program. At Jefferson, we were not TRAINED, we were EDUCATED as nursing professionals. I have achieved my goals.** Ms. Felix is currently a graduate student at the University of Washington. The program at the University of Washington has recently been recognized as the number one program in the nation, based on a study prepared by nursing deans in the United States.

COMMITTEE REPORTS

SATELLITE COMMITTEE REPORT

The Satellite Committee of the Nurses' Alumni Association held its second annual seminar program on Saturday, March 23, 1985 in Jefferson Alumni Hall.

Program Topic: "The Challenge of Nursing in the Eighties."

Collaboration: The Future of Nursing At Jefferson:
Clinicians and Educators Collaborate
— Mary Naylor, R.N., Ph.D.
— Therese S. Richmond, R.N., M.S.N., CCRN
— Judith Winterhalter, R.N., M.S.N.

Careers: Finding your Niche in Nursing
— Janie Brown Nowak, R.N., Ed.D.

Communication: Luncheon and Program
— Systems Theory: A Tool to Unify Professional Practice
— Ruth R. Levine, Ed.D., OTR

The response of those who attended was enthusiastic. However, due to the decreased number of participants and rising costs, the committee will need to address the feasibility of sponsoring future programs.

Janet Waxman, Assistant Director of Development and Director of Alumni Programs for CAHS and CGS coordinated the efforts of the Program Committee consisting of Alice Chase, '52, Jacqueline Harris, '61, Dolores Heckenberger, '55, Sandra Payne Kenton, '68, Kay K. Kinsey, '63, Valerie O'Donnell, '64, Florence Roche, '56, Barbara Schraeder, '65, Grace Spena, '71. The committee is indebted to Janet Waxman for her continued support and commitment.

Challenge of Nursing in '80's (left to right) Florence Roche, Alice Chase, Barbara Schraeder and Grace Spena.

The program was most timely and provided an educational stimulus to all present, as well as an opportunity for our alumni to share ideas and experiences.

SOCIAL COMMITTEE

The annual luncheon was held May 4th, 1985 at Jefferson Alumni Hall. There were 315 in attendance. A business meeting was held in the Solis-Cohen Auditorium prior to the luncheon. The anniversary class of 1945 had the largest number present for the luncheon.

The fiftieth anniversary class (1935) were guests of the Alumni Association. Mrs. Verna Keller Roberts, class of 1921 was the oldest member in attendance and was presented with a corsage.

Twenty states were represented at the luncheon. The flowers from the head table were given to Janet Hindson, class of 1950. Janet was a patient in Thomas Jefferson University Hospital on the day of the luncheon.

The annual luncheon for 1986 will be Saturday May 3rd, at Jefferson Alumni Hall, 1020 Locust Street, Philadelphia, Pennsylvania.

A Prayer For The Mature

Lord, Thou knowest better than I know myself that
I am growing older, and will someday be old.

Keep me from getting talkative, and particularly from
the fatal habit of thinking I must say something
on every subject and every occasion.

Release me from craving to try to straighten out
everybody's affairs.

Make me thoughtful, but not moody; helpful but not bossy.
With my vast store of wisdom, it seems a pity not to
use it all—but Thou knowest Lord, that I want a few
friends at the end.

Keep my mind free from the recital of endless details;
give me wings to get to the point.

Seal my lips on my many aches and pains. They are increasing,
and my love of rehearsing them is becoming sweeter as the
years go by.

Teach me the glorious lesson that occasionally it is
possible that I may be mistaken.

Help me to extract all possible fun out of life. There are
so many amusing things around us, and I don't want to
miss any of them. Amen.

Class Notes

Class of 1909

Mary Robinson Godfrey, 122 McColly Street, Ligonier, PA 15658. My best regards to everyone.

Class of 1916

Frances E. Butler Pangburn, 39 South 4th Street, Lewisburg, PA 17837. I am still in good health and enjoy spending my winters in Cherry Hill, NJ. I returned to Lewisburg in April, so I was not able to attend the luncheon this year. My warmest regards to the Alumni; and hopefully I'll be with you at the luncheon next year.

Class of 1917

Frances M. Grove, RD #1, Box J47, Tionesta, PA 16353. Best regards to everyone.

Class of 1920

Henrietta L. Bigney, PO Box 542, Greenville, ME 04441. I am in my 93rd year, living in a senior citizen unit. I'm lame due to a fractured hip—plus old age, but I take care of myself. Enjoyed hearing from old friends in the last bulletin.

Class of 1921

Verna M. Keller Roberts, 11½ Main Street, Drifton, PA 18221. It is wonderful to remember all we learned at Jefferson Hospital. It made our life more useful and happy. I have four children and six great grandchildren.

Frances Glendenin Platt, Masonic Home, Elizabethtown, PA 17022. Best regards to all.

Henrietta Fitzgerald Spruance, Cadbury #409, 2150 Route 38, Cherry Hill, NJ 08002. Hello and best wishes to all my friends at Jefferson.

Katherine Flickinger Aagaard, 354 Cummor Avenue, Glen Ellyn, IL 60137. Hello to everyone.

Class of 1922

Claudia Starr Wiedlund, 6800 Mayfield Road, Apt. A-733, Mayfield Heights, OH 44124.

Viletta M. Emig, Barley Nursing and Rehabilitation Center, 1775 Barley Road, York, PA 17404.

Class of 1924

Kathryn L. Tash, Southampton Estates, Street Road, #C-119, Southampton, PA 18966.

Class of 1925

Marian Robinson Briggs, 150 Terrace Drive, Lancaster, PA 17601. I am now living in a lovely little house in the country—no steps into my garden, with blue sky above and lots of sunshine; it's like living out doors, quite a change. I was sorry not to be able to get to the Alumni Luncheon, it was our 60th. Best wishes to all.

Mildred Kroupa Okunishi, 4551 Hurley Street, Philadelphia, PA 19120. A year ago I had a heart attack and was taken to the emergency room, then the intensive care unit of the Parkview division of the Metropolitan Hospital, as that is the nearest hospital to us. We went to a Jefferson doctor for many years but Dr. Kotin died and I feel lost.

Antionette Laudano Ronayne, (W.H.), 75 Bradley Avenue, Meriden, CT 06450.

Class of 1926

Alice Casper Wright, 199 W. Vine Street, Apt. 42, Hatfield, PA 19440. I am 81 and full of arthritis, but still drive my car and am active in local organizations. Just a little slower at everything.

Ruth E. Smith Davis, Box 75 Cokesbury Village, Hockessin, DE 19707. I am still happy here at Cokesbury Village; we are taken care of very well, either well or sick. An addition is to be added to the health care center, because we are living longer than expected.

Martha Bray Clark, 4026 Greensburg Pike, Pittsburgh, PA 15221. I'm still doing my "thing." I'm a volunteer at senior citizens; president of Evergreens (pinocle club), and vice president of our woman's club. Hope to make our 60th anniversary next year.

Phoebe Fitz McCleaf, 107 S. Oller Avenue, Waynesboro, PA 17268. I often think of good old (and new) Jeff with pleasant memories of the old.

Class of 1927

Martha E. Riland, Logan Square East #802, 2 Franklin Town Blvd., Philadelphia, PA 19103. I moved to Logan Square East a year ago this past June; it is a life care residential community. Everything is for our convenience, I enjoy living here. I have recovered from a total hip replacement.

Margaret A. Carey, Box 974, Paulsboro, WA 98370. In early March we returned from spending four months in Mexico. I enjoyed each day. Without Helene, Martha, Bernice, myself and a few others the Alumni would never have had a relief or educational fund.

Filomena Tiracchia Doherty, Lions Head North, 36 Regent Circle, Brick Town, NJ 08723. Nothing more exciting than reaching the wonderful age of 80 on February 20, 1985. I'm feeling great, I worked till I was 77.

Isabella R. Kevel Heverly, 421 Burns Drive, Springfield, PA 19064.

Frances Baker Crossan, 147 Prospect Avenue, West Grove, PA 19390.

Myrtle L. Stickline Clough Lee (Reuben), 301 McMechen Street, Baltimore, MD 21217. In June 1984 (at the age of 81) I was married to Reuben Lee, a retired Westinghouse Electric engineer. Of my three children, one is a nurse living in Dallas, TX; she is medical affairs director for American Cancer Society. My younger daughter is living in York, PA, and deep into the ways of the computer. My son, Eric, the oldest is a veterinarian (VMO) in New Hampshire. I have five grandsons. My husband and I live a very full and active life. Besides our church activities, we volunteer for Meals on Wheels, high school math tutoring, serve in a food closet and an over 60 employment agency. In April I had a lens implant on my right eye. The one done on my left eye was very successful. My regards to Martha Riland.

Class of 1928

Margaret N. Wilson Kenerup, Lake Manzanedo, R.D. 4, Box 438, East Stroudsburg, PA 18301. I am still living alone in the Poconos and enjoying it. My health is fairly good, I can still take care of my home and grounds. My son, daughter-in-law and grandson keep me happy.

S. Elizabeth Neely Joy, 786 Hope Street, Mountain View, CA 84040. I'm doing pretty well. Hope to come East in 1986.

Frances Pierson Woolf (Kenneth), 1605 Monmouth Drive, Sun City Center, FL 33570. I'm still doing volunteer work in our regional medical center and enjoying it tremendously.

Margaret E. Martin Lauchle, 5909 Grand Avenue, Downers Grove, IL 69516. I feel sadness at the loss of more of my classmates. A six week trip at holiday time helped my own loneliness. I saw my two daughters who live in California and Texas; also friends in California and Arizona. Best wishes to all.

Mary A. Stauffer Malick (Alton W.), R.D. #2, Box 372, Sunbury, PA 17801.

Dorothy Smith Bennett, RR 1, 18306 Killian Road, Spencerville, IN 46788.

Mae Faust Mitchell (W.H.), 2550 South 11th Street, Allentown, PA 18110.

Margery Bargar, Cornelia Nixon Davis Nursing Home, Route 1, Box 644, Wilmington, NC 28405.

Laura Carleton Short, 802 Broad Street, Apt. 15A, Selinsgrove, PA 17870. My youngest granddaughter was married June 15, 1985 in Lyndonville, VT and I was able to attend. My oldest grandson is going to Pittsburgh Law School and the youngest one will get a B.S. in nursing next May from the University of Georgia.

Class of 1929

Hazel Besecker Beach (Justice H.), 3210 Overbrook, N.W. Canton, OH 44709. In October 1984 I went to see Alice Worthington at Meno Nursing Home in Chambersburg, PA. That is my hometown. I am getting older but still on my feet and going places.

Verna R. Weiss Herber, 416 W. South Street, Carlisle, PA 17013.

Zelda Rowe Mencer, 314 April Drive, Camp Hill, PA 17011. I was happy to return for the reunion in 1985, I enjoyed the luncheon and meeting my friends. It has been three years since I attended the luncheon.

Class of 1930

Blanche Ford, Box 13 Park—1119 Periwinkle Way, Sanibel, FL 33957. I'm still an active volunteer and enjoy it all, church, shell club and community work, on Sanibel.

Muriel Stevens Canis (Elwin), 98 Durland Avenue, Elmira, NY 14905. Since retiring my husband and I enjoy traveling. In May we toured the canyons of Arizona. We also enjoy our four granddaughters.

Thelma McArthur Wolford, Country Home R.D. 3, Box 92, Indiana, PA 15701. In late 1984 and early 1985 I spent four months in a hospital, the first time in my life. I'm 77 years old and now retired.

Nina Irvin Studebaker, 4739—55th Street, San Diego, CA 92115. My husband Marvin died suddenly of a heart attack two years ago.

Hazel V. Oberdorf, 139 North 2nd Street, Lewisburg, PA 17837. I had a low anterior resection and splenectomy, due to diverticulitis and perforated bowel, slow recovery. My love to all friends at "Jeff."

Ella Engel Welsh, Box 363 Rt. 2, Elberta, AL 36530. My multiple sclerosis is getting worse but I still get around by using a walker and a cane. Sorry I couldn't make the reunion. I gave my "pinkie" uniform, apron, bib and cuffs, to the Alumni Association; they will be placed in the nursing archives.

Class of 1931

Emma M. Bahner, Ridgecrest Apt. 617, 20 Knollridge Road, Salem, VA 24153. Looking forward to our 55th anniversary in 1986.

Evelyn Reeser Arnold (Walter), 1201 Bahama Bend H-1, Coconut Creek, FL 33066. Luckily both my husband and I are in good health, we travel and visit with 10 grandchildren and 2 great grandchildren, with another expected in late summer.

Dorothy T. Peterson, Paul's Run Apt. A-239, 9896 Bustleton Avenue, Philadelphia, PA 19115. I have returned to Philadelphia and am now living at Paul's Run which is a "life-time care place." I would enjoy hearing from my classmates.

Mary Taylor Lawley (William B.), Route 1, Box 592, Lacombe, LA 70445. Bill and I enjoy a contented, semi-rural life, with gardening, golfing and community affairs filling our time. Our 3 children have provided us with a total of 6 grandchildren. Hope to get to Philadelphia in 1991 for our 60th reunion.

Virginia Emmert Leo, 1749 Edgewood Hill Circle, Hagerstown, MD 21740. Just waiting to attend our 55th anniversary next year.

Marie Hosage DeStefano, 78 South Welles Street, Wilkes-Barre, PA 18702. Hello to everyone.

Mary R. Crowe Murtha (Joseph), 25 Grandview Avenue, Pleasantville, NY 10570. In September 1984 I had a total hip replacement done. Thanks and praise to modern medicine! I can now walk, dance and drive my car, I feel like a new person.

Shirley Darling McDonald, 29 Culberson Road, Basking Ridge, NJ 07920. I couldn't write last year as I was too emotional. My second husband Joseph McDonald died of pancreatic cancer. I've gone through some dark days, but I am happy to say I am now fine. I recently returned from a six week trip in the United States and Canada; it was fabulous. Perhaps next May I will get to the annual luncheon.

Class of 1949

I enjoy spending time with them. I hope everyone writes a note next year, I would love to know how everyone is and what they are doing.

Florence Servello McAlpin (Alton), 8431 Hearth Drive #3, Houston, TX 77054. Time literally flies by, it seems as though I just finished reading the latest alumni bulletin. I am back to work after a six month hiatus; I am not quite ready to turn in my cap. Best wishes to former classmates.

Class of 1950

Elinore Satterfield Lynch (Norman), Timber Road Box #12, Mt. Gretna, PA 17064. I have been a school nurse for the past fifteen years. We have three children. The girls are in health-related fields, and our son is in pre-med at Pennsylvania State University. My husband and I are in good health. We enjoyed a trip to Italy and Greece last year.

Currently I'm head nurse of chronic peritoneal dialysis unit at Yale New Haven Hospital, New Haven, CT. On May 21 I presented a paper to the national organization of nephrology nurses in San Diego, CA.

Barbara Fisher Ackerman (F. Eugene, D.D.S.), Applebrook Farm, Linfield, PA 19468. This a year of celebrating graduation anniversaries for Gene and me. Gene is celebrating his 30th from University of Pennsylvania Dental School and my 35th from Jefferson — isn't it wonderful?

Mary Louise Moore Brumbaugh (Simon), 7337 Central Avenue, Lemon Grove, CA 92045. It was wonderful to attend my 35th reunion and to look in on my daughter Patty who is a freshman medical student at Jefferson.

Rose M. Gaudel Mulligan (Robert L.), 600 Brobst Street, Shillington, PA 19607. Our daughter, Marta Ann was married February 16, 1985 to Peter Jeffrey Lang.

Janet C. Hindson, 1014 Spruce Street, Philadelphia, PA 19107. I was sorry to miss our 35th reunion and seeing everyone. Many thanks for your visits, cards and plant. Everyone looked great on the group picture. Will be looking forward to seeing everyone in 1990.

Margaret J. Henry Jones (Donald E.), 3117 Catherine Avenue, Allentown, PA 18103. I spent a week in Dallas at AORN convention in February. I'm still working full-time and babysitting for my five grandchildren very often. I enjoyed seeing my classmates at our 35th year reunion in May.

Germaine Ross Nadler, 4003 West Benden Drive, Murrysville, PA 15668. My husband Ronald, died September 6, 1984. I have two grandchildren living in the Harrisburg area.

Clara C. Richardson Flynn (Owen), 9021 Mojave Drive, Sacramento, CA 95826. No special news in our family this year. I just wonder where all the nurses are. Are nurses with degrees ever going to "work" in convalescent hospitals? I wonder what's going to happen to long term care facilities when all the old timers, the old "trained nurses" are dead and gone. It seems nurses with degrees can't find jobs unless they have experience, so they come to us and we train them and give them experience and then they are gone. I know it's the low pay, but still convalescent hospitals need super nurses, too. I wish I knew the answer how to get higher salaries for convalescent hospital nurses. I'm getting frustrated; I'm director of staff development, but I must work the floor when there is absolutely no one else.

Class of 1951

Jane E. Hawk Aires (Ramon), 16653 Pineridge Drive, Granada Hills, CA 92344. Wonderful news! we're grandparents. Garret Daniel was born June 1984 to our daughter Vicki and her husband Dan Tauchstone. David and Patty expect their first child in September. Ray and I are

delighted. I've given up thoughts of nursing and have started a small business doing hand knitting. I'm known as "Aire-Looms by Jane." Quite a switch. Mother passed away in May of 1984, so reasons for visiting in the East are slowly disappearing.

Dolores Ann Pauster Gorham (William), 405 Atwater Road, Broomall, PA 19008. I am looking forward to our thirty-fifth reunion next year!!!

Marian E. Hoffman Narbuth (Benjamin), 1626 St. John's Drive, El Paso, TX 79903. Our son Edward graduated magna cum laude from Texas Tech University in May. He received a B.S. in soils. In August our daughter Carol received a M.S. in chemistry. Barbara is an honor student in the nursing program at the University of Texas, El Paso. This past year I was involved in volunteer work in the school where Nancy teaches. It has been satisfying to give that extra "push" to slow readers and witness their success.

Marian Thorp Williams (Arthur R.), 5812 Saul Street, Philadelphia, PA 19149. We are enjoying our grandchildren, Richard Tustin II and Lauren Williams Tustin, born May 1, 1985.

Class of 1952

Nancy L. Greising Wilhelm (George A.), 993 Bellaire Lane, Rockledge, FL 32955. A really great year for us! We are tickled blue—blessed with our first grandchild Joseph Hans Wilhelm in August 1984. I had a quadruple cardiac by-pass in November 1984. Quite an experience, nursing has really changed since those first heart surgery patients at Jefferson with Dr. Gibbon. I feel great and am very busy, as usual, but gradually learning to cut out that "superwoman" complex and take time to do the things that are essential to my own well being. Practicing what you preach can really be difficult, at times, but we are all happy and well. Sorry to hear of "Radishes" (Joan Hardish Reid 1952) passing away. Remember how we used to sing "Danny Boy" out the windows of Sheppard Pratt when she was saying goodnight to Danny! Have a good year.

Eric is teaching computer electronics in Los Angeles, California. Joe is still in pediatrics and I still do community theater, just finished the leading role as Mama Rose in the show "Gypsy." Since graduating from Jefferson, I have worked in maternity, geriatric care and as a records surveyor examining nursing homes. I have not worked for twelve years. Betty Lou Simonson Woods, 114 Grand Parkway North, Lewistown, PA 17044. Sorry I was unable to attend the luncheon this year due to another commitment the same day. I am now vice president for nursing service at Lewistown Hospital and enjoying all the challenges of this difficult time we are in. Our children are grown — son Jamie, was married last fall; daughter, Kimberly is in beauty school in Philadelphia. We welcomed a new member to our family in April, Heidi, an eight week old Doberman puppy. She's our second Doberman and we are delighted with her. I think about our education and can't help comparing it to today's world; also didn't think I would ever be in a position to say "how times have changed!" It sometimes makes one appreciate the orderliness of a world which will never return.

Ann Barron McBeth (William), 23 Circle Drive, Telford, PA 18969. Class of 1961, please keep in touch with me for our 25th reunion in 1986.

Terry Lefchick Lamberth, 726 Pomona Avenue, Coronado, CA 92118. 1984 was fantastic! We had a marvelous six month holiday in England and Europe, and visited friends in many countries. We picked up our car at the factory in Stuttgart, Germany and that alone was quite an experience. We had our own flat in London which we used as home base. From there we planned our trips and went anywhere at anytime. Some friends allowed us to use their Swiss chalet in the Alps on the edge of the Matterhorn. It was in a tiny French speaking village, 6,000 feet up, and nowhere near tourist areas. Skiing was the prime interest and we had lots of snow and more falling during the end of May and early June, a lovely time. We had lots of wonderful adventures and bought lots of lovely things, since we shopped only at factory outlets; the prices are so affordable for crystal, wools, bone china, and anything one can imagine. We hated to leave. Here at home I stay fairly busy. Work some days at the neonatology unit, a very busy one. We do over five hundred deliveries every month, we have the third busiest obstetric department in the whole state of California. My husband, being fully retired, is devoting all his time to his newest hobby — becoming a computer whiz. We have already begun to plan the next six month holiday to England and Europe for January 1986. Can hardly wait!

I have maintained my ties to Jeff through the Women's Board, Martha Jefferson Committee and the "Hello Hospital" program for first grade students attending Philadelphia Public Schools. I have also fallen in love with tennis and have a tennis elbow to show for my efforts. We spent a week skiing in Utah with Patti White Block and husband Bob, class of 1967, in March. Eileen Cancelli DeSipio and family are our neighbors since we moved two and a half years ago. For the record — they both look like a million dollars, better than when they were 18, if that's possible! My best to all.

Dave is still teaching auto mechanics and I'm now working part time at a private psychiatric hospital. David's son Jeremy, will soon be 3 years old; yes, that's right we are grandparents.
