A Letter From The President

Dear Friends and Fellow Alumni,

As my tenure in the Office of President draws to a close, I should like to thank you for the enthusiastic cooperation and the much needed support freely given to assure the existence of a strong and continuing alumni during the coming years.

It is only because of this interest and participation that a firm foundation could be laid for our continuance as an active but separate entity of Thomas Jefferson University.

Attendance at Alumni Day was the highest ever and the enthusiasm of each class was heart-warming, as was the participation in the business meeting. It is this spirit of togetherness that assures me of continual and on-going association.

In closing, may I say that it has been an honor and a privilege to once again serve you in the capacity of President, especially during this time of transition in the closing of our school.

May your pride in being a Jefferson graduate sustain you always.

Perma E. Davis, R.N.

School of Nursing Annual Report to the Alumni Association 1980-1981

Survival, Quality of Life and Crises Resolution are terms common to the nursing profession. Each denotes learning from the past, making the most of the present and hoping in the future — in a word, change. Each describes an aspect of the School's arrival at this historic moment!

We have survived for 91 years, thanks to —

Administrative, Alumni and School of Nursing Department (Women's Board) support;

Medical Staff, Nursing Service and Patient Cooperation;

Faculty Loyalty, Foresightedness and Innovation
And

Student Determination.

We have contributed to the quality of life through preparing 5087 competent, caring, committed professional nurses who have earned for themselves and their Alma Mater a reputation for clinical excellence, surpassed by few. This reputation should continue for generations.

We have resolved our crises — Major and Minor:

Shortened skirts;

Shortened work weeks, holidays and week-ends off;

Shortened program with expanded content;

State Board and NLN Accreditation visits and reports;

Flower Children, Women's Lib, married students, male students, co-ed dorms, students attempting to dress Dr. S. Gross in their uniforms, swimming in the Otter Pond and finally;

Lack of qualified applicants in the numbers to which we were accustomed.

Our survival did not take place in a vacuum. It took place in time and history which is clearly described by Andrew Shearer in his work commissioned by Dean Lawrence Abrams in December 1981.

Within a few months the history of the School will be published. Your response to the questionnaire was overwhelming and we appreciate your cooperation in helping to make this project as complete and accurate as possible. We sent out approximately 3000 questionnaires and over 900 completed ones were returned. All of your comments were tallied, pictures screened and memorabilia categorized. Working in cooperation with author Andrew Shearer, a Faculty Committee and I have dug through the Archives, dusted the stacks and devoured hundreds of printed pages. Needless to say, not everything unearthed by you and us can be included in this monumental work.

Mr. Shearer has attempted to put into the context of world events, events at Jefferson. As you read the history, I dare say, your memory will add color that no author's pen could add.

A BIT OF NOSTALGIA 1982

(Left to right), Doris Bowman; Kathleen Santangelo (from 1959 to 1982); Ellen Holohan (from early 30's to 1959); Linda Yarnall (from 1891 to early 30's) and Judith Kreemer (seated).

In addition to the final proofreading of the history, Mrs. Casey and I will be microfiling records, preparing files for the Archives, redistributing furniture and equipment, etc., during the summer. All of our graduate records are now on microfiche but other permanent records are yet to be done.

At the Closing Exercises following Commencement on Thursday, June 10, 1982, three students appeared with me to present a facsimile copy of the history of the school to the University. The students were modeling three sets of uniforms, representing students from the time periods indicated: Linda Yarnall, from 1891 to the early 30's; Ellen Holohan, from about 1930 to 1959; and Kathleen Santangelo, from 1959 to 1982. Linda became the 5087th (approximate) and last graduate of the School of Nursing. When she wound her way through the traditional Rose Arch, the finality of it all was most acute. It was "good-bye" not only to a great institution but to the end of an epoch as well. Our traditions have held us together and our heritage has given us reason to be proud. Our heritage has been and shall continue to be A Commitment to Excellence.

With best wishes to all of you for good health, happiness and success now and in the future, I am,

Sincerely yours,

Doris E. Bowman

Historical Highlights Jefferson School of Nursing

1825

Soon after Jefferson Medical College was founded, a Teaching Infirmary was established to provide medical students with instruction in caring for ambulatory and surgical patients. The need for additional patient care soon became evident, and women were hired to provide nursing services.

1891

Jefferson Hospital Training School for Nurses began its two-year course of study under the leadership of Ella Benson. Shortly thereafter, the program was lengthened to three years, remaining that length until 1968 when it was shortened to 35 months. In 1969, it was shortened to 33 months.

1893

Five graduates received diplomas at the first commencement which was held in the clinical amphitheatre of the hospital. The Training School had grown to include three graduate nurses, 13 student nurses and six male nurses (affiliating students from Pennsylvania Hospital). The first nurses' home, located at 518 Spruce Street, was opened. Thirty student nurses were enrolled in the program.

1907

The opening of an eight-story hospital building and the increase in the number of hospital patients resulted in the enrollment in the School of Nursing increasing to 90 students. Instead of caring for patients in their homes, as they had before, student nurses now gained all their clinical experience in the hospital. In addition, the first classroom for nurses at 1020 Sansom Street provided for the introduction of the first visual aids, the "Chase Doll" (a mock patient for students to practice on) and a skeleton.

1922

Several Spruce Street houses were renovated and furnished as nurses' residences.

1924

Nora E. Shoemaker was appointed the first full-time instructor.

1925

A six-story dormitory was built behind the renovated residences. The next year, two floors were added to the dormitory, and houses adjacent to it were purchased for use as a nurses' residence.

1931

Until this time, small monthly remunerations had been given to students. Discontinuing this practice made it possible to employ more graduates so that students could be released from the responsibilities of the wards to attend classes.

1933

The yearbook title was changed to *Nosokomos*.

1936

A nursing library consisting of 1,200 volumes was presented to the school.

1940

Major curriculum changes were initiated to bring curriculum in line with "Curriculum Guide for Schools of Nursing," published in 1937 by the National League for Nursing Education (later the National League for Nursing).

1942

"White Caps", the first student newspaper, was published.

1944

Student government was initiated.

1950

Students were paid \$.50 per hour for working in the Scott Memorial Library.

1959

The James R. Martin Residence for student nurses opened at 201 South 11th Street.

1960

The School of Nursing became fully accredited by the National League for Nursing, a status it has maintained for 22 years.

1968

The School of Nursing became part of the newly-established College of Allied Health Sciences.

1979

The Board of Trustees accepted a recommendation from the faculty of the School of Nursing to phase out the traditional diploma program, beginning with the class entering that September.

1982

On June 10, the last commencement of the School of Nursing took place. Alumna Kathleen Carlson, R.N., assistant executive director of the Pennsylvania Nurses' Association, was the speaker.

The 38 seniors who received diplomas brought the total number of graduates to 5,078. Linda Yarnall was the last student to receive a diploma from the School of Nursing.

The History of The Jefferson Cap

Jefferson graduated its first class of nurses in 1893. At that time the cap that was worn had a high crown and a wide brim with ruffle around the brim. It was made of a delicate material called "lawn", similar to material used to make handkerchiefs. The cap resembled the Philadelphia General Cap, which at that time was made of a similar material.

In 1894, Susan Hearle, a graduate of Philadelphia General became Directress of Nurses at Jefferson. When she noticed the similarity between caps, Miss Hearle decided that Jefferson Nurses should have their own distinctive cap.

The crown was lowered, the ruffle was removed and the brim was narrowed, flattened and spread like wing tips, across the front of the cap. The material was changed to organdy which gave the cap more body.

In 1932, the cap was worn with the brim starched and the wings made to stand out — that is the way we wear it today.

Initially, it was traditional to earn the cap by passing the six month probationary period. Now the cap is given to the student to wear as soon as she enters the school.

This was a great responsibility for the student, knowing that the Nurse's Cap originated historically from the veil worn by women who traditionally covered their heads in public, and the cap is a symbol of humility and service to mankind. A responsibility because the Jefferson Cap is recognized and respected the world over, being worn by

more than 4500 graduates of the school; many of whom earned their cap and consider it an honor to wear it. (With the closing of the School of Nursing in June of 1982 — the total number of graduates will be 5,078).

The student is entrusted with the cap and must wear it with dignity and respect for the tradition that is to be upheld.

(The above article was presented at Capping Exercises for the Class of 1982, by Patricia Zarella '51, R.N., B.S.N., Instructor School of Nursing, September 1958 to July 1980).

Two Firsts for Doris Bowman

Friends and colleagues of Doris E. Bowman, R.N., director of the School of Nursing for more than 23 years, paid tribute to her during a surprise pre-retirement luncheon held recently. Miss Bowman officially retired on September 20, 1982 with more than 30 years of service to Jefferson. Lawrence Abrams, Ed.D., dean of the College of Allied Health Sciences, highlighted Miss Bowman's accomplishments at Jefferson and presented her with a gift on behalf of the University.

During the luncheon, Lewis W. Bluemle, Jr., M.D., Thomas Jefferson University president, announced that he would recommend to the Board of Trustees that the title of emeritus professor of nursing be conferred upon Miss Bowman; the Board unanimously approved his recommendation on June 7. The title of emeritus professor is reserved for those of exceptional merit; Miss Bowman will be the first faculty member of the College of Allied Health Sciences and the first woman in Jefferson's history to earn this distinction.

Dean Abrams also presented gifts to the eight remaining faculty members and two secretaries of the School of Nursing in recognition of their dedication, loyalty and service.

Dr. Lewis W. Bluemle, Jr., M.D., president of Thomas Jefferson University, left, Doris E. Bowman, R.N., Ph.D., Director of the School of Nursing and Lawrence Abrams, Ed.D., dean of the College of Allied Health Sciences.

Congratulations, Jeraldine Kohut

Jeraldine Kohut, R.N., M.A., is shown with her husband Sylvester Kohut, Jr., Ph.D. Mrs. Kohut received the award at the Opening Exercises on September 8, 1982.

The College of Allied Health Sciences Alumni Special Achievement Award was established in 1977 to recognize the accomplishments of allied health alumni.

This year's winner is Jeraldine Marasco Kohut, R.N., M.A., class of 1964. She received the award for her many accomplishments as a nurse and an educator.

Mrs. Kohut is currently assistant professor of nursing and director of continuing education, School of Nursing, Tennessee Technological University, Cookeville, Tennessee. She is also executive director of Hospice in Cookeville. She was associated with Cookeville General Hospital as an instructor/supervisor (1979/1980); assistant director of nursing sciences (1978/1979); and director of staff development (1978).

For two years (1975/1977), she served as director of staff at a convalescent center in Camp Hill, Pennsylvania.

She worked as a nurse specialist in a critical care/special care unit; a supervisor in a coronary care unit; a staff nurse in an emergency and crisis center; and an I.V. therapy nurse in various Pennsylvania hospitals.

For two years (1971/1973), she was a nursing instructor at St. Joseph's School of Nursing in Fort Wayne, Indiana.

Following her graduation from Jefferson's School of Nursing, she became the coordinator in the intensive care unit, and I.V. therapy coordinator at Thomas Jefferson University Hospital.

In addition to the Alumni Special Achievement Award bestowed by Jefferson's College of Allied Health Sciences, in 1982 Jeraldine also received the Cookeville, Jaycees Distinguished Service Award, *Humanitarian of the Year*, and was elected to the Nursing Honor Society (Sigma Theta Tau), Tennessee Technological University Chapter.

She has attended many workshops and has published numerous articles.

Jeraldine is married to Sylvester Kohut, Jr., Ph.D., chairperson of the Department of Secondary Education and Foundations, Tennessee Technological University. They have one son, Jeremy John.

Tribute to Elizabeth J. Sweeney

With the death of Elizabeth J. Sweeney, R.N., B.S.N., M.S.Ed., in December 1981, Jefferson, especially the nursing staff, lost a true, dedicated and loyal friend.

In June of 1959, Miss Sweeney, a graduate of Abington Memorial Hospital, came to Jefferson as Director of the Nursing Service Department. When Jefferson's School of Practical Nursing was opened in 1964, Miss Sweeney was Director and also the principal organizer of the program.

The School of Practical Nursing closed in 1980. It had graduated 665 LPN's who now live and work throughout the country.

Miss Sweeney's life had been devoted to providing quality nursing care for patients and this goal was achieved.

We shall miss you, Miss Sweeney. All our lives have been enriched by knowing you.

Sculpture of mother and daughter and father and son was given by G. Walter Anderson, M.D., in memory of his wife, Helen Dick Anderson. The sculptor is Bruno Lucchesi.

1982 COMMENCEMENT ADDRESS

Kathleen Carlson

Dean Abrams, Father McCreedy, Miss Bowman, Distinguished Faculty, Honored Guests, Families, Friends — and I saved the best for last — graduates of 1982:

It is an honor for me to participate in this very traditional celebration. When I sat on the other side

of this stage fourteen years ago, I never once dreamed of this opportunity. Thank you.

Celebrations mark significant events in our lives and they are frequently accompanied by gifts. I would have liked to have given each of you a gift to make this moment particularly meaningful, but the financial reality does not permit it.

With the easy option eliminated, I was compelled to tackle the difficult task of writing this speech. Remembering my own graduation from Jefferson and that of my sister, I thought carefully about what I might say to you. What one memory could I focus on which all Jefferson nurses might relate to? I couldn't remember what was said at two previous graduation addresses, nor could I detail the events. I did, however, recall the faint fragrance of triumph — because we made it — and the bittersweet ambivalence we felt — because we were leaving one another. With enthusiasm and reluctance, we ascended the stairs through the arch of roses.

I thought about those roses . . . and perfume and . . . being easily distracted — perfume commercials.

Picture the harried nurse coming home from the 7-3 shift, flinging her cap with a carefree toss while busily transforming himself or herself into the perfect date; or the beautifully bronzed body of the 11-7 nurse lying by the pool in relaxed exhaustion, ready to spring into action at a mere whisper; or the O.R. nurses in drab garb considering anything but their tired feet. Sheer fantasy!

All of those advertisements convey two striking messages. The first, rather romantic, is the magical transformation from one state of existence to another. That message applies to today's celebration. We observe you entering the arch of roses as students and leaving as graduates, from caterpillar to butterfly in one brief exchange.

Putting romance aside, you and I know that three years of your lives is not a brief exchange and although we gather to celebrate your graduation, we are, in reality, celebrating every step on the path to today. From your first day of nursing school — this class promptly wrote a song about it — to your first clinical experience — when you used mouthwash for backrubs (actually that was my class) — to your first final exam — when you tried your

own biofeedback techniques by playing "Rocky" — to your last supervised clinical experience and your last final exam: it is these steppingstones and your accomplishments in having fulfilled the demanding requirements necessary to pursue your career as professional nurses that we celebrate today.

This is a special time, Jefferson is a special place, and today you are very special nurses. Today you join 5,043 other Jefferson graduates in a commitment to the profession of nursing, the public you will serve, and Thomas Jefferson University. Your commitment to the profession means: that you believe in yourselves as nurses 24 hours a day, 365 days a year; that you will uphold the standards of practice established by law and your profession and judge yourselves and your peers against those standards; that you will adhere to the code of ethics; that you know the Nurse Practice Act in the state in which you practice; that you do not violate that practice act by allowing outside influences to dictate expansion of your practice beyond your legal authority; and lastly, that you are committed to lifelong learning.

Commitment to the public you serve includes life saving, life maintenance, and life restoration by providing the best possible nursing care under the conditions present at the moment. Society is also served by your competent use of the nursing process for data collection, decision making, and evaluation as required by your practice privileges. Florence Nightingale wrote in 1860: "In dwelling upon sound observation it must never be lost sight of what observation is for. It is not the piling up of miscellaneous information or curious facts but for the sake of saving life and increasing comfort." Society continues to benefit from that teaching today.

The community is also where you live. Do not neglect participation in local politics and volunteer services. Instead, capitalize on every opportunity to share your nursing expertise. Dwight Eisenhower believed that "Politics should be the part-time profession of every citizen." It is, therefore, incongruous to be professional nurses without being responsible citizens.

Your commitment to Jefferson can be expressed by remembering this school's investment in you. You are fortunate to share in the longstanding tradition of this institution which is dedicated to excellence through education. Use that education to benefit not only society but also yourselves. When opportunities present themselves, return a part of that initial investment to your alumni association. The dedication of your yearbook to the alumni demonstrates your recognition of the fact that their achievements are a rich legacy. Continue that reputation by making Jefferson significant throughout your lifetime.

One final commitment is frequently overlooked: a commitment to yourselves to be who you are — celebrators of life in the delivery room and celebrators of death when death is a welcomed friend; supporters of life, restorers of well being; teachers; and confidants. Be proud of your accomplishments.

Coming through left, Carol Meisner and right, Lisa Wolf.

The second of the two messages previously referred to is much more practical than the first. None of us can smell perfume in the commercials — the product will sell only if the consumer hears the right message. What is Nursing's message? **Nurses are the heart of health care, the pulsebeat of the industry.** But only nurses hear that message. Is the Jefferson graduate of 1982 different from the graduate of 1891? Obviously, the answer is yes. Nursing has kept pace with the technological and theoretical advances to the extent that Nursing is now recognized as a specifically applied science. Even nursing research does not fully reflect the state of the art because nursing research has not been recognized as making significant contributions. To date, only nurses are aware of our advances.

Nurses have always been publicly accepted for their service, dedication and availability, and in Pennsylvania since 1951, legally accepted as educationally prepared and examined licensees. We are accountable for the diagnosis and treatment of human responses to actual or potential health problems; nevertheless, we are taken for granted. But now I wonder — has nursing been taken so much for granted by ourselves as well as others that our source of supply has been depleted? Have we wasted this precious commodity through inappropriate use? Whether the professional nurse is packaged in white or colored uniforms, or no uniforms at all, we continue to be recognized for the same service and dedication as our predecessors, but what about our availability?

Nurses! We haven't communicated our message effectively enough to be looked at differently than we were 25 years ago. All of today's graduates and those who graduated before you and those who will graduate after you must campaign actively for increased public aware-

Officiating at the "Rose Arch," left, Margaret Summers '41, and right, Betty Piersol '34.

ness of nursing's message if our profession is to survive in today's competitive market. Until now, we have not been hard pressed to sell nursing. The majority of us are not even prepared to assume this role. But nursing **must** venture into the field of active selling in spite of the fact that the environment is fraught with risk. I believe that Jefferson has endowed its nurses with a sense of purpose: to advance the profession of nursing by educating the nursing leaders of tomorrow. Among you are those nursing leaders. Among you are nursing's brokers of tomorrow.

One important element of nursing remains the same. Perhaps society identifies most with this component of our practice. *From Nightingale until today and in our future, the "essence of nursing" has not changed and will not change.* It is not tangible, we cannot research it, but every nurse — without exception — is innately affected by it. The essence of nursing cannot adequately be described, but all nurses experience it similarly. *As a driving force, it is the core of our existence: "Nursings encompassing involvement in life."*

Before us in this sea of white uniforms are beautiful faces and eager sojourners. Your career is launched — you are young professionals. As a graduate nurse, you will have only a brief time to become proficient in patient problem solving. Seek out mentors to assist you, find resources to capsulize the information explosion to which you will be exposed, and above all, keep your practice competent and current. Take time to mature.

YOU HAVE EXPERIENCED "A CLOSE ENCOUNTER OF A SPECIAL KIND": BEDSIDE NURSING. TREASURE IT!

From the first refrain of the "first day of nursing" to the last splash in the otter pond, remember, Class of 1982, that you are special unto yourselves. Assume your positions as nurses of the 80's with Jefferson's heritage to support you.

Thank you.

Kathleen Carlson, Class of '68

NERO FIDDLES WHILE ROME BURNS

Historical fact or fiction and what difference does it make to us? What does it matter to us that ages ago a significant individual may have done his own thing while something of beauty was allowed to be destroyed. Should beauty be allowed to exist only if it serves the need of selected individuals? When one lives so close to beauty does the closeness diminish our perception? As a consequence do we then lose sight of all the major dimensions of beauty? Do we blot out the large picture and focus only on those small sections that please us? Is that an inevitable human response? Is it fixed or can we change?

These questions may sound foolish but I ask them because I think there is a parallel with nursing. Are we allowing the beauty of our profession to be lost because our major interest is in doing our own thing? In making judgments based on own wants are we assisting in the destruction of nursing? Have we narrowed our perception and lost sight of the total picture? Is the action irreversible? Of course not, it is up to us. Man is a rational animal. He makes free choices. If we appreciate the beauty of nursing, if we recognize the quality of the profession, if we respect one another as members of that profession, if we are at all concerned about the people who require our services, we can enhance the beauty of the profession. But enhancement doesn't mean to manipulate it your way or my way. It means to raise it to a higher degree, to magnify, to make it greater. And isn't that what we all want for the profession; to magnify it, to raise it to the highest level possible? Our goal for the profession, whatever our vested interests in education and practice, is a common goal. It is to meet the nursing needs of people. It is in the areas of educational preparation and practice fields that we have differences of opinion. If we are to work for the future of the profession of nursing we need to take a careful look at its past. In Thomas Jefferson University publication "Directions" June, 1982 issue, pages 4 and 5 are devoted to "An Era Ends, But The Tradition of The "Jefferson Nurse" Will Live On Forever." We have a choice. Will it live on in memory or in reality? If you choose memory and the choice is yours, how long is forever? In the year 2042 on June 10, that's sixty years from the last graduation of the school of nursing, who will know and revere the tradition of the "Jefferson Nurse"?

Doris Bowman, as you know, a professional woman of integrity, sees the closing of the school as the end of an era. Although as the article states, "she confesses to feelings of sadness and nostalgia," I infer from her comments a measure of hope. An era is simply a period of time marked by distinctive character or events. The history of nursing is made up of many eras. As each one ended, those who helped fashion that era, those who had a hand in creating the successful efforts of that era were saddened by its end. Knowledge of and familiarity with our historical eras ought to give us a sense of appreciation for nursing history and a sense of direction for nursing future.

The School of Nursing was founded in 1891. It was a response to the needs of patients for outstanding nursing

Dr. Ann Douglas, R.N., Ph.D.

care. It was designed as a two year course of study. Although the founders assumed and planned to teach all the essential content in a two year period, they found it necessary to extend the program to three years. One era ended and another began because a need was manifested and responded to by responsible professional nurses. A program well designed was changed to ensure that educational preparation enabled the graduates to meet the current nursing needs of people. What did the change mean to the alumni who were graduates of the two year program? Did it demean them? Were they something less than the graduates of the new three year program? Was their existence forgotten in the documented success of the alumni? Or in light of bigger battles to wage do we gloss over that era as if it never happened? Do we learn anything at all from history? In the spring of this year I heard a Jefferson Medical College alumnus say: "Once we are entered on the pages of history we never cease to exist."¹ The truth is the value of the graduates of the two year program will never cease to exist. Their efforts compose the qualitative base upon which all of Jefferson nursing quality was built. From their strength, the three year program was cultivated. Your existence, your contributions and even your reputation had their origins in that beginning two year program. Now what will happen? Will it all come to an end? Will you let that happen? Will you deprive the nursing future of its legitimate past?

An era is not marked by a specific number of years but rather by the distinctive system of chronology starting from a particular event. The era of the three year program was a much longer one. You had more time to leave your mark upon the profession of nursing. Within that period of time

there were tremendous social changes and advances in medical science. The amount of new knowledge and technical know how to be mastered accumulated geometrically. Even more important was the awareness that in addition to the proliferation of new nursing knowledge and skill the base for analytic thinking and clinical judgement in professional nursing was grounded in the humanities, the social, biological and physical sciences. This was a great significance as nursing identified more and more its interdependent and independent nursing functions.

Where as formerly the practice of nursing may have included some independent and interdependent functions, these were sporadic and acceptable surreptitiously on the basis of a fragile gentlemen's agreement. Aware of the danger of such a position many of the three year programs began to establish contracts with colleges for basic courses in the humanities and the essential sciences. While this effort offered strength it also added stress. Two very different educational systems based on different philosophical bases with totally different notions of the use of time in learning were now intimately involved in the preparation of the professional nurse. These systems each engineered for its own end were not entirely compatible. Most of the adjustment had to be done by the student. This added stress to an already stressful program. And those of us in education instead of cooperatively concentrating all our efforts on designing and implementing the best program possible for professional nursing divided our efforts and fought each other. Our peers in nursing service fanned the flame. No nurses profited from the conflagration. It left us a divided group without strength and often without honor. It gave rise to new groups to replace us in patient care. Does this need to go on?

The fear and anxiety which divided us should not be allowed to continue. We are a learned profession. We have the ability to determine our own end. We ought not to allow the glory of our past to end up as a folk tale. Because of the kind of people we are we ought not to let something as beautiful as nursing, as we know it, die. We must keep our past alive and use it as leaven for the future.

The era of the three year school is over. It is nursing past and it had a glorious history. You will be able to

read yours in the soon to be published history of the Jefferson University School of Nursing. Is that the end you want, the end between the covers of a book? Or do you want to be instrumental in the future directions of nursing at Jefferson? Do you want the quality you designed, perfected and personified to be continued throughout the future of nursing at Jefferson? It can be. There is no need to cut it off unless our own vindictiveness gets in the way, i.e., if you refuse to help us and we refuse to accept your help and work together. You are a source of strength, knowledge, skill and determination. With your help nursing future will be a better kind of nursing. Without your help professional nursing will grow and develop but something will be missing. Together, we can enhance the beauty of our profession. Can we, will we reach out and help one another?

Years ago, I had the honor of working at Georgetown University. Each year junior and senior students participated in a pre-graduation exercise called "Pro Grediamur" (Let us go forth). The seniors wearing their graduation uniforms and cap and gown, took off their cap and gown and gave them to the juniors. It now was their responsibility to carry on the traditions of the school while the seniors went on to demonstrate the quality of their education in the practice of professional nursing. Each junior student presented a senior with a long stemmed rose in recognition of their accomplishments. And so, year after year they recognized ability and accepted responsibility for carrying on the tradition of quality. Those students understood what the profession should be all about. Can we do the same? Is the profession worth it to us? Can we at Jefferson put aside our personal preferences and work toward a kind of nursing that transcends what we each have now? If so, let us go forth and begin a new era.

A FIFTIETH REUNION

We, the Class of 1932, thank the Alumni Association for giving us such a delightful day and the opportunity to get together and reminisce. And reminisce we did — all about those good old days when Miss Melville not only tried to make us good nurses (oh, yes she made us furious in the process), but also tried to make us into *ladies*.

She said, "A lady never leaves her boudoir without wearing a hat and gloves." Or, lifting the hem of an ankle-length pink uniform from above black lisle stockings and shoes on the old third floor corridor between Gyne Ward and 3 OR, she would say, "Miss Showers (or it could have been any other one of 50 students on any corridor), where is your petticoat?" Next day, to avoid those piercing black eyes, the petticoat was on — even though it was still 110 F on that August day.

Then there were the nights of 9:00 p.m. curfews, when we lowered baskets over the fire escape railing so we could get a half-pint of chocolate ice cream for 13 cents from Pop Kessels.

And the boxes from home. "This room looks like a South Street kitchen," said Ma McCleavy. Classmates vanished into thin air, leaving only the occupants of the room to face the music.

On and on we went — even into an anteroom after the luncheon for more remembering, picture looking, and talking. "You haven't changed a bit." (prevaricator — we are older, grayer, fatter and more wrinkled.)

Before this we had some other things to do. You can't have a reunion without statistics. Of the 55 graduates in our class, we have no addresses for three. Nine are deceased, and we contributed \$278 to the alumni association in their memory; one is in a nursing home. That leaves 43 available to attend. Several were not well enough to make the trip. We thought about you, missed you, and wish you well. Thirty-three actually came.

Gail brought a card, and we all signed it and sent it to Ethel Lynch Taylor at the Chateau Convalescent Center, Bryn Mawr, PA.

Twenty-nine of us live in Pennsylvania; five in New Jersey; four in Florida; two in Maryland; and one each in Delaware, New Mexico and California.

Laura DeWitt, who came from California, traveled the farthest. She is one of four sisters who are Jefferson nurses — all of them still living. They are Ann, '20; Lulu M. Hunsinger, '23; and Catherine DeWitt Smith, '29. So for these two honors, here is an award and our congratulations, Laura.

Peg Felker Reinhard has a daughter, Nancy Reinhard Wandschneider, a Jefferson graduate of the Class of 1959.

Others attending from a distance were Dora Adams Reynolds from New Mexico; Caroline Jones Transue from Ormand Beach, Florida; and Dorothy Dundore Williams from St. Petersburg, Florida. Dotty is the widow of a Jefferson doctor and the mother and mother-in-law of two other Jefferson doctors. In addition, Dotty was in Miss Melville's office the year we graduated and the year the annual luncheon was begun. In fact, Dotty and some of her classmates did a lot of the leg work that was involved.

50th REUNION — MAY 1982

Left to right: Betty Ent, Marie Maxwell (Scherer), Dorothy Williams (Dundore) and Gladys Blue (Arnold).

Left side: Isabelle Lindecamp (Russell), Theresa Wakeley (Pucci), Gladys Blue (Arnold), Rose Dodson (Selgrath), Alma Johnson (Andrews) and Emma Kelly (Phoebus), end of table.

As far as we know, in our class there are no Ph.D.s, M.D.s, D.D.S.s, etc. Also *no bums* — just good solid hard working citizens who have made the world a better place because they passed through.

We've left intangible marks all along the way, but Addie Roth Miller made the most tangible impact. She already has 13 progeny, including one great grandchild. Congratulations and an award to you, Addie.

Now we come to attendance records. Since we've sorta felt like "Ma Luncheon," because our attendance over the years has always been outstanding, we'll blow our own horn.

Emma Phoebus Kelly, Gay Arnold Blue, and Alma Andrews Johnson don't remember exactly how many

they missed, but it's "very few," — only when they were having babies, were ill, or there was some other unavoidable accident.

Marie Scherer Maxwell missed three when she was with the Jefferson Unit during World War II. (I'll bet the class of 1982 thinks that makes us pre-historic. We assure you we don't feel it.)

Sylvia Cole Vlam missed only 2 of the 50. Betty Ent missed one. She had had surgery in the days when you dangled on the 10th day, went home on the 14th, and to be released for a social event was unheard of!

Now to get to the *BIGGIE*. Gail Gonder Willard has attended *all* 50 of the 50 luncheons. Hurrah and hallelujah, and an award to Gail. Do I hear 60?

Now we want to greet the class of 1982, the last class to graduate from the Diploma School of Nursing. We wish them the health and happiness we have had — sure we've had sorrows, but they make the rainbows. We wish them the pride of being a Jefferson nurse, fond memories of their nursing school days, a future of service to mankind, and the realization of their fondest dreams. Now we suppose they won't get all this *high falutin'* stuff; but wherever they go, whatever they do, we hope they remember that being a Jefferson nurse is one of the greatest things that could happen to them.

We hate to see the demise of the Diploma program, but Jefferson has always been a vanguard in health care, and must go on to the Baccalaureate program or even to a master's degree. As sad as we are, we support the B.S.N. program. We hope we can all continue to work together to make Jefferson nurses *THE BEST NURSES*.

The self-appointed committee,

Betty Ent
Marie Scherer Maxwell
Thelma Showers Morris

White Haven Alumnae Celebrate 35th Anniversary

On June 1, 1946, the White Haven Sanitarium merged with the Jefferson Medical College Hospital.

The procedure had been to invite the graduate registered nurses who were members of the Alumnae Association no longer in existence to merge with the hospital it had become part of. Therefore, the White Haven alumnae merged with the Jefferson Nurses' Alumni Association on March 21, 1947.

The following resolutions were discussed and accepted:

Upon motion, duly made, seconded and carried, the following preambles and resolutions were adopted:

WHEREAS, Jefferson Hospital has acquired all of the assets of White Haven Hospital, of White Haven, Pennsylvania, and said White Haven Hospital as such is no longer in existence and its facilities are now being operated as a part of Jefferson Hospital:

WHEREAS, White Haven Nurses' Alumni Association is considering dissolving and has indicated to this Association that some of its members may desire to become members of this Association:

WHEREAS, it is the sense of this meeting that it would be desirable to work out a plan under which certain of the members of the members of White Haven Alumni Association may become members of this Association:

NOW, THEREFORE, RESOLVED, that the President of this Association be and she hereby is authorized and empowered to appoint a committee of three members of this Association (one of which members may be the President, if she so desires) to meet and negotiate with the representative of the White Haven Alumni Association for the purpose of seeking to work out a plan acceptable to both Associations under which the acceptable members of the White Haven Alumni Association may become members of this Association.

On April 16, 1947, Miss Schmidt and Miss McGlade, two members from the White Haven Alumnae Association, met with the Misses Riland, Carey, and Piersol. A plan was accepted by both committees.

The assets of the White Haven Sanitarium Alumnae Association were turned over to the Jefferson Nurses' Relief Fund. The same privileges were extended to the registered nurses of the White Haven Sanitarium Alumnae Association as the Jefferson Hospital Nurses' Alumni Association members.

We were very happy to have the White Haven Alumnae members with us and extended to them a warm welcome.

The resolutions are reprinted from the 1947 Nurses' Alumni Bulletin.

SCHOLARSHIP REPORT 1981-82

Ten applications for scholarship assistance were sent, six were returned and reviewed by the committee.

Joyce Hagopian (Wyse) (1956) and Loretta Heyduk (Suber) (1971), were granted scholarships for the Spring Semester of 1982 and Judith Ann Jones (1971) and Adrienne Doughenbaugh (Lowe) (1965), for the Fall Semester of 1982.

Committee members wish to take this opportunity to encourage graduates enrolled full time in a program leading to a degree in nursing to apply for scholarship assistance, especially if financial problems interfere with the completion of the program.

Martha Riland Reports

The response of the anniversary classes to our request for changes of address and new names helps the Alumni Office to keep our computerized mailing lists up to date. This is greatly appreciated, since many of our nurses seem to move frequently. There are currently 3,150 alumni of the School of Nursing on file. Please send address changes to the Alumni Office, Room M-2, 1020 Locust Street, Philadelphia, PA 19107.

The Department of Baccalaureate Nursing of the College of Allied Health Sciences seeks to bring programs to campus that will enrich the professional lives of nurses. In keeping with this aim, the Department has again scheduled the Nurse Scholar Series for the Spring of 1983. In 1981, this program was designed to invite nationally recognized leaders in nursing to Jefferson's campus to share their expertise with faculty, students and alumni.

Diploma graduates residing in the Delaware Valley are invited to attend this program and others, but please remember we need your correct address to notify you of these events during 1982/1983.

In the past year we have received gifts of memorabilia for the collection displayed in the Nurses Alumni Office. Mary Stauffer Malick, '28, has donated her class pin, which will be added to the collection of Jefferson nurses pins displayed in the shadowbox.

The following graduates have sent us programs of commencement exercises: Marjorie Lambert Swindlehurst, '44; Theresa Bushek Poli, '49; E. Nancy Culp Scott, '55. Joyce Spangler Weik, '48, has given a baccalaureate service program and capping exercise program. Zelda Rowe Mencer, '29 and Gertrude Lange Amend, '53, sent a picture and yearbook for our collection. Patricia Crawford, '45, sent photographs of her classmates as students.

The Class of 1981 gave their class picture and dedicated *Nosokomas* "to those who have experienced the diploma tradition: the past, present and future alumni of the Thomas Jefferson University School of Nursing."

The graduating Class of 1982 gave their class picture; their yearbook, *Nosokomas*, was dedicated "last of its kind to the alumni of Thomas Jefferson University School of Nursing. We wish to thank the alumni for leaving behind a legacy of outstanding nursing service to the community and its people. As we take our place among you, we hope that we can achieve and maintain the standard of excellence that you have shown possible in nursing."

An oil painting of a seascape, the gift of the Class of 1975 to the School of Nursing, has recently been given to the Nurses' Alumni Office. It had formerly been hung in a classroom in the School of Nursing.

G. Walter Anderson, M.D., gave a sculpture depicting a family scene in memory of his wife, Helen Dick Anderson, DN '45. Miss Doris Bowman has recently sent the artwork to the Nurses' Alumni Office. We invite all alumni to visit the Alumni Office to see our new gifts and memorabilia.

The Alumni Office will continue its tradition of giving Christmas checks to our alumni who live in nursing homes.

Please notify us if you know of any alumni who are ill or in need of financial assistance.

If you wish to contact the Alumni Office, I may be reached there every Tuesday and Wednesday from 10:00 a.m. to 4:00 p.m. Our telephone number is (215) 928-8981. If there is no answer, calls should be directed to the College of Allied Health Sciences Alumni Office, Room M34, (215) 928-7709.

April 1 is the closing date for applications for the fall semester, and September 1 for the spring semester.

Each application will be reviewed by the Scholarship Committee; preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree.

NURSES' RELIEF FUND
