**The President's Message**

Dear Fellow Alumni,

It does not seem possible that this is the third time I have put pen to paper to write a message to the membership of the School of Nursing Alumni Association. So much has happened in such a short three years, it would seem appropriate to recap some of the changes that have occurred.

Perhaps the most gratifying is the increased attendance at the Annual Meeting before the luncheon. It is here that the membership has the opportunity to hear, first hand, what has been done for the members. They have the opportunity to ask questions, to clarify the work which is reported by committee chairpersons, and to propose other activities which could result in improvements to the total membership.

Although Jefferson University subsidizes our office by providing space, postage, telephone, printing, and etc. It is our dues and annual giving which keeps us solvent. Yes, we are a wealthy organization when you look at the Relief Fund and Scholarship Fund monies, but, and that is a big BUT, those monies are restricted and can be used only for the purposes for which they are designated. So, the increase in paid membership in the past three years has helped us maintain our independence as an organization. We have a workable budget which you will find in the Treasurer's Report.

The Scholarship Fund was studied to see how we could benefit the greatest number of Alumni, and it was suggested that children, grandchildren, and nieces and nephews, should be able to utilize the money for nursing education. This past year the first of that level of aid was given.

The Relief Fund is more difficult to dispense. We really need to keep an eye out for our classmates and alumni sisters, and a few brothers. Many are reluctant to admit that they could use assistance. But even a small amount could help over a little hump and we would like to help. We are Nurses! So, if you know someone who has been having a hard time making ends meet, let the Relief Committee know.

The Satellite Committee has worked hard to help get groups started, but it takes someone at the location to do the work. As with any activity, it does take work. "The spirit is willing but the flesh is weak." The main problems to be overcome are: a meeting place and time, and what you want to accomplish. The Officers and Board in Philadelphia are eager to have suggestions from the membership which can be incorporated into the organization and views the satellite groups as a means to learn of the needs of the members.

The By-Laws committee has reviewed the By-Laws and several amendments were approved by the membership at the Annual Meeting.

As you can see, these past three years have been busy ones. We are still in need of more people to help run the organization. We know that you who come back every five years for reunions have been renewing friendships and comparing notes on families, but your help is needed to make your day even better.

No longer is the hospital staffed with organdy capped "pink and white" nurses. Many of our graduates have gone away to demonstrate the excellent education in nursing they got at Jefferson. Many graduates have small or teenage children and have problems getting free; but it can be done. Under discussion is a change of meeting times and number of meetings each year. A consensus has not been reached, so discussion goes on. As we hear from more of the membership changes are bound to evolve.

I have enjoyed my three years as President. It has been challenging and stimulating, and I feel progress has been made, and I look forward to further developments as our needs as an organization change.

Respectfully,  
Alice C. Boehret, RN, EdD  
President

# History of the School of Nursing of The Jefferson Medical College Hospital

In the middle of the 18th century a small private school under the auspices of the Presbyterian Church was founded in Canonsburg, Washington County, Pennsylvania.

This became in 1794 the first chartered Academy, west of the Allegheny Mountains. It was founded as Jefferson College in 1802, and on February 2, 1870 united with the Washington College and became known as the Washington and Jefferson College.

Dr. George McClellan, desirous of teaching medicine in Philadelphia, enthusiastically supported by Dr. John Eberly, Dr. Joseph Klopp and Jacob Green, Esq., appealed to the Jefferson College at Canonsburg, Pennsylvania, for the establishment of a medical department. The plan was accepted in 1825 and in 1826 Jefferson Medical College was incorporated as the Medical Department of Jefferson College with the power of granting degrees.

The first course of Medical Lectures was delivered May 9, 1825, and the first operation was performed by Dr. George McClellan in the old Tivoli Theatre, 518 Locust Street.

In order to impart medical knowledge, and to demonstrate to students, it was necessary to have an infirmary where such bed side knowledge could be obtained; consequently the College organized what was called a "Teaching Infirmary" consisting of a clinical room for operations and lectures, one for general dispensary work, and two rooms, one for men and one for women and children, with about six beds in each room.

All patients, after operation, unless the operation was a serious one, were sent to their homes in carriages, where they were attended by the Clinical Assistant.

In 1843, as a Teaching Infirmary, provision was made for twenty bed patients, and not until 1877 did the Jefferson Hospital have a home of its own, accommodating one hundred and twenty-five patients, located at 1020 Sansom Street.

In the earlier days there was no science of Bacteriology or attempt at surgical cleanliness, and no course of scientific training in male or female nursing.

The nursing care of patients was assigned to women, many of whom were not pleasing. Most of the male nurses had an unfortunate predilection for alcoholic liquors. The directions of physicians were often misunderstood because of ignorance, few nurses having had even the slightest knowledge of drugs, symptoms and signs of hemorrhage, or any other dangers. There was no real sense of responsibility, no comprehension of the dignity of the nurse's responsibility and little realization of the needs of humanity.

Patients were burned with over-hot poultices. Male patients, at times, lay for hours with retention of urine, this disorder having been regarded by the nurse, unless the physician was notified, as a mere irritating obstinacy on the part of the patient.

Intra-abdominal hemorrhage occurring after operation was apt to be missed until it was too late to save life, the nurse being unaware of the significance of restlessness, rapid pulse, etc.

In head injuries it was seldom realized that coma was not sleep, and is different from sleep. The pulse was taken, but nothing was known of the significance of rapidity, weakening, tension, irregularity, etc. The presence of these signs, if understood, would have led to calling the physician. It was always necessary to detail a Clinical Assistant to sit by the patient's bedside during his or her emergence from ether in order to be certain that the patient was turned over properly during the attacks of vomiting. A number of unconscious or paralyzed patients were burned with hot water bags and hot cans because of carelessness. It was extremely difficult in cases of spinal injury to have proper care of the skin, care imperatively necessary to prevent bedsores. The dressing of bedsores, unless done by the interne, was seldom carried out with care and regularity.

The nurse was not permitted to prepare or handle the instruments or the gauze dressings during surgical operations.

When the change to professional nursing began in the Jefferson Medical College Hospital in 1891, it was in a small way; only a few student nurses were entered on probation into the Training School under the Chief Nurse, Miss Ella Benson. Many of the old type nurses were retained for a time. The old time physician and the modern physician disagreed and quarreled. In spite of the modest beginning there were members of the medical staff who opposed the entire movement and regarded it as the first step on the road to chaos and destruction. It was considered by them a new fangled notion fraught with infinite possibilities of evil, an English idea, the invention of a friend of discord, but in a few months most physicians were convinced and in a year or more all had become advocates of the value of the trained nurse.

Miss Ella Benson organized the Training School in connection with the hospital in 1891, making it a two years' training course. In a short time Miss Benson was succeeded by Miss Effie Darling as Directress of the Training School for Nurses of the Jefferson Hospital. In March 1893, the training school consisted of three graduate nurses, thirteen student nurses and six male nurses.

The first Nurses' Home was located at 518 Spruce Street and was formally opened May 22, 1893. The first graduating exercises were held in the Clinical Amphitheatre of the Hospital November 24, 1893, five nurses receiving diplomas from the training school. The next year the course of training was changed from two to three years.

*by Clara Melville, R.N., Class of 1910, Directress of Nurses, 1915-1937\**

1893 — 1894 First Graduating Class

The Directress of Nurses of the Training School was assisted in the teaching by lecturers who gave annual courses to the nurses on subjects relating to their profession. After the student nurse had attended lectures and classes on the subjects relative to nursing the various diseases and had some experience on the wards, she was sent out into the homes to care for the sick, the attending physician assuming the entire responsibility of the patient and the nurse. If the nurse proved satisfactory she was retained; if not, she was sent back to the hospital. A report concerning the nurse was submitted to the Directress of the Training School by the physician and patient, or members of the family, stating their opinions as to her adaptability, fitness, standing and future possibilities as a professional woman.

In the Fall of 1894 Miss Darling resigned to be succeeded by Miss Susan C. Hearle, a graduate of the Training School of the Philadelphia General Hospital. Miss Hearle had matriculated under Miss Alice Fisher, Directress of Nurses of the Philadelphia General Hospital, or "Old Blockley", as it was commonly called. Miss Hearle was an English woman and had received her training under Florence Nightingale. She assumed charge of the Jefferson Medical College Hospital Training School with thirty student nurses and continued with a gradual increase in number.

The Maternity Department of the Hospital was located at 327 Pine Street, Philadelphia. The nurses received instruction in maternity nursing from Dr. Theophilus Parvin, who occupied the Chair of Obstetrics for fifteen years and was succeeded by his chief assistant, Dr. Edward Parker Davis in 1898, who continued as the instructor in obstetric nursing until his resignation from the faculty of the Jefferson Medical College and Hospital in 1925.

Dr. Pascal Brooke Bland was elected to the Chair of Obstetrics May 25, 1925, which he held until he resigned May 7, 1937. He was elected Consulting Obstetrician to the Jefferson Hospital and Dr. Norris W. Vaux was elected Professor of Obstetrics to the Jefferson Medical College.

Finding the Pine Street building overtaxed, a more commodious building was leased in the Autumn of 1894 at 224 South Seventh Street. In 1894 negotiations were made to move the Nurses' Home from 519 Spruce Street to 226 South Seventh Street, and in the Spring of 1895 this building was occupied as a Nurses' Home.

The Diet Kitchen of the Hospital, where special diets could be prepared by nurses for the patients, was opened in October, 1897, and Miss Ann Bailey was employed as the teacher of the "Theory and Practice of Cooking".

The sterilizing room of the Hospital was opened in October

1897. One nurse was detailed to make and sterilize all the dressings used in the Hospital.

In August 1898, during the Spanish-American War, when the mortality of the American troops was high due to typhoid fever, and an inadequately trained nursing personnel to care for the sick, the City of Philadelphia sent a service train to Camp Fernandina, Florida. Misses Adelaide O'Laughlin and Katherine Baker were detailed to "train service". They returned to Philadelphia with fifty very ill soldiers suffering from typhoid fever, with one death during transportation. A number of graduate nurses gave their services for some time during the epidemic of typhoid fever, board and lodging being the only compensation received by these nurses for their services.

During the Galveston flood of 1900 one of the leading Philadelphia newspapers sent Miss Katherine Rogers, a Jefferson graduate nurse, to render aid and assistance to the sick and injured.

In 1899 two commencement exercises for nurses were held, one in May and another in December. At this time it was decided to have one commencement each year during the month of May. As the Hospital continued to grow in service to the community, with an increasing demand for hospital care, it became necessary to plan toward a better, more modern and larger structure with better facilities. Consequently, in 1902 plans and specifications were drawn up for the erection of an eight story building. During erection, labor disturbances prevented its completion until 1907. The opening exercises were held on June 26, 1907.

With enlargement of the hospital, which entailed more clinics, additional operating rooms, larger dispensaries, and an increased number of ward patients and with additional private rooms, it became necessary to increase the enrollment of the training school. Student nurses were no longer sent into the homes to care for the sick, but remained permanently in the hospital during the entire three years' course in nursing. The enrollment of the training school was increased in number from fifty to ninety students.

After the increase in the number of nurses the Nurses' Home and the use of the second floor of the hospital building proved inadequate to accommodate the student body and efforts were made to adjust this condition. Upon evacuating the old hospital building of patients, it was decided to renovate and equip the old building for a nurses' home. The number of staff nurses was increased to assume charge of the floors, dispensaries, operating rooms and accident ward, and, at the same time, the enrollment of the student nurses was increased to one hundred and twenty-five.

The probationers entering the school in September 1907, were housed on the second floor of the hospital building, as the wards had not been made for the admission of patients.

In October 1907, Miss Virginia McCleavy of Harrington, Delaware, a former school teacher, was appointed matron of the Nurses' Home, and assumed charge making the necessary preparation for the staff and student body. Early in November 1907, the nurses were assigned rooms with the privilege of choosing their roommate, and, moving into the old hospital building renovated as a nurses' dormitory enjoyed the freedom of a structure with ample space.

Miss Susan C. Hearle, Directress of Nurses of the Training School, a graduate of the Training School of the Philadelphia General Hospital who guided thoughtfully and wisely the administration of the school for fourteen years, resigned on August 31, 1908. She was a capable woman, for whom the nurses cherished the greatest respect and admiration.

Through her efforts she did much toward the upbuilding of the Nurses' Training School and laid the foundation of its future success. Miss Anna E. Laughlin, a graduate of the Training School of the Jefferson Medical College Hospital and chief nurse in the operating room of the hospital succeeded Miss Hearle. Miss Laughlin made but few changes, continuing the policies upon which the school had been established.

The seal of the school of nursing was a specially designed gold pin, bearing the head of Florence Nightingale, surrounded by the name of the school, with a small edge of blue enamel encircling the pin. This pin did not meet the approval of all the graduates in the class of 1910, consequently an entirely new seal was designed. It has a gold scroll, containing a blue cross, surrounded by black enamel and lettered bearing the name of the institution. These pins were first presented in 1910 to each member of the graduating class by Dr. W. M. L. Coplin, as the personal gift of the Board of Trustees of the Hospital and each graduate nurse has received the pin to the present time.

In October 1913, the Department for Diseases of the Chest, 236-238 Pine Street, formerly the old Phipps Institute, which had been purchased and remodeled by the Jefferson Hospital, was open to receive patients, under the direction of Dr. Thomas McCrae, Professor of Medicine, and Dr. Elmer H. Funk, the Medical Director and Physician in charge. Miss Mary A. Boyle, a graduate of the Training School of the Philadelphia General Hospital was appointed chief nurse. Two student nurses were assigned on duty on October 2, 1913.

Miss Anna E. Laughlin, Directress of the Training School, a woman of high ideals and aspirations, kind, dignified and gentle in manner, with a clear vision of the needs and demands of the nurses and the public, resigned from the school in 1915, after seven years of untiring service. Dr. Henry K. Mohler, Medical Director of the Hospital since 1914, recommended to the Board of Trustees Miss Clara Melville, a graduate of the Jefferson Medical College Hospital Training School, Class of 1910, to fill this vacancy. Miss Melville, who had been a former assistant to the Directress, was elected Directress of Nurses in February, 1915, Miss Nora E. Shoemaker was elected assistant directress.

The school continued to grow along the original plans. A slight change was made in the uniforms of the student nurse. A seamstress was secured who improved the appearance of the student nurses by keeping in repair all uniforms and aprons. At this time the Directress of the School was advised by the Chief Resident Physician to adopt the flat collar rather than the Bishop collar, as it was believed it would lessen the tendency for attacks of "sore throat" among the nurses. With the approval of the Medical Director and members of the Training School Committee this recommendation was adopted and contributed much toward the comfort and general appearance of the student body.

In 1916 with the general and increasing uneasiness created by the realization that war was inevitable and that preparations must be made to meet the demands of the country, it became necessary again to increase the enrollment of the Training School. Accordingly, with the additional responsibilities to be placed upon the hospitals for nursing service, arrangements were made for the training of thirty additional student nurses.

When the United States entered the World War in 1917, numerous hospitals throughout the country were forming hospital units which offered services and supplies to the United States War Department, to render aid and assistance

to the sick and wounded. The Jefferson Hospital formed a unit which was accepted by the War Department of the United States, and was known as U.S. Army Base Hospital No. 38.

Dr. William M. L. Coplin, Professor of Pathology of the Jefferson Medical College, and former Medical Director of the Jefferson Hospital, secured the first donation, a sum of fifty thousand dollars subscribed by Mr. Henry Gibson and his sister, Mrs. Adelaide Pepper Gibson. This initial financial contribution greatly assisted in making possible the foundation of the U.S. Army Base Hospital No. 38, to which were added many other contributions from the friends of the hospital, including those from its own Board of Trustees, the medical, the nursing, and the hospital personnel.

Doctor Coplin assumed charge of Base Hospital No. 38 during the time of preparation, assembling and mobilizing the entire unit.

Miss Clara Melville, Directress of Nurses of Jefferson Hospital, was asked by Doctor Coplin to secure the nursing personnel, to consist of sixty-five Red Cross Nurses and six civilian employees which was to comprise the necessary staff for a five hundred bed war-time hospital. After considerable work, such as joining the Alumnae Association of the Jefferson Hospital, enrolling in the Red Cross Nursing organization, having the necessary physical examinations made and prophylactic measures taken, i.e., vaccination, typhoid and paratyphoid inoculations; the unit was ready to mobilize when orders were received from the office of the Surgeon General of the War Department in Washington, D.C. to increase the Unit from a five hundred to a one thousand bed hospital and to increase the number of nurses from sixty-five to one hundred. In a short time this was accomplished, and the Unit awaited orders for active duty.

In March, 1918, orders were received from Washington, D.C. to sign the muster roll, take the Oath of Allegiance to our Country and report at once to Lakewood, N.J., where an Army General Hospital had been established. Seventy-eight of the personnel proceeded from Philadelphia to Lakewood, New Jersey, and at the end of two weeks the additional members of the nursing personnel had arrived. The entire group was completed and awaited further instructions.

Two weeks later orders were issued by the War Department for nurses of Base Hospital No. 38 to proceed to New York. Arriving in New York the nursing personnel was assigned for accommodations to Hotel Bristol, located at 129 West 48th Street. The days in New York were very busy, the nurses having many duties such as securing the uniform outfit, having fingerprints taken, reporting for roll call, and being ready to receive instructions as issued. Drill was held each day at the Armory, the hotel or the Park.

Upon completion of the overseas equipment the anxiety of moving onward and preparation for the call of duty was the prime consideration uppermost in the thought of each nurse. On May 17, 1918, orders were received from Headquarters at Washington, D.C. that the nursing personnel of U.S. Base Hospital No. 38 was to embark Saturday, May 18, 1918, at eleven o'clock in the morning from Brooklyn, New York City.

Ninety-nine nurses and six civilian employees reported for embarkation. One nurse, Miss Myrtle Phillips, was unable to go because she had contracted pneumonia and was in a critical condition. She passed away June 19, 1918 in the Army Hospital, Gun Hill Road, New York.

The nurses of the unit boarded the Army Transport "Saturnia" on Saturday at noon. The ship slipped quietly out of its

berth at 6:20 A.M., Sunday, May 18, 1918, and anchored just outside New York harbor, near the Statue of Liberty, until 2:18 P.M. when fifteen camouflaged ships grouped together with the cruiser "Montana" as scout leader to the convoy, ploughed through the seething waters, those aboard not knowing the danger that a torpedo from an enemy submarine might send a ship to her final resting place. On Thursday, May 30, Memorial Day, beautiful and serene, the ocean calm and peaceful amid sadness and anxiety on every side, the convoy reached the danger zone.

Nearing the North Sea, with Ireland on one side and Scotland on the other, the submarine chasers, mine sweepers and dirigibles made their appearance on every side, hemming in the ships completely to protect and guide them to safety.

This was accomplished in the most marvelous manner. In the midst of the danger area, a submarine scare was in evidence which was quickly over. The ships finally reached the English waters of Liverpool. Lights on the ship had to be extinguished owing to the night air raids that were being made over England.

The next day the ship "Saturnia" passed through the locks of Liverpool, England, finally docking at six o'clock on Friday evening, May 24th, 1918. No one was granted permission to leave the ship, the passengers were to disembark at six o'clock Saturday morning, but debarkation did not take place until eight A.M. the following day. The nursing personnel of Base Hospital No. 38 was transported to Walton-on-the-Hill Station and welcomed to England in the name of King George. After this greeting a train was boarded for Southampton, England, where we arrived about 8 P.M. Our group was met by Army Officers, divided into smaller groups, and taken to hotels to await further orders. The next day, Sunday May 26, 1918, in the afternoon at 6 P.M. we were sent aboard the light, speedy, hospital ship St. David, to cross the channel to France.

Increasing anxiety was felt at this point, more than at any other time since leaving the United States. The night seemed long; few, if any, slept. After careful guidance through an uneventful night, the ship arrived in safety in the port of LeHavre at 4 A.M. At 10 A.M. instructions were received to proceed to a hotel in LeHavre and await further orders. Here the personnel remained all day Monday and Tuesday until early Wednesday morning when we moved onward to some unknown destination in France. We arrived in Paris about 5 P.M., again leaving about 8 P.M. and arrived at Nantes, France, at 4 A.M. on the morning of June 6, 1918.

Not knowing our destination, one can imagine our pleasant surprise to find temporary assignment to Base Hospital No. 34, the Unit of the Episcopal Hospital of Philadelphia.

On the day of arrival the nurses were divided into several groups and sent to various Army posts in France, leaving only seven nurses and the civilian employees, who were placed on duty with Base Hospital No. 34.

Base Hospital No. 38 was under construction less than five miles from Base Hospital No. 34, and in a short time was ready for occupancy. In July 1918, the male personnel of Base Hospital No. 38 arrived at St. Naziare, France, and proceeded to the Grand Blatereau, Nantes, France, to complete and prepare the hospital as quickly as possible, as there was urgent need for additional hospital facilities to care for the sick and wounded. It was not until August 1918 that the nursing and civilian personnel were relieved from duty with Base Hospital No. 34 and transferred to Base Hospital No. 38, the permanent base for the period of the war.

The nurses immediately reported for duty on the wards, assumed charge of the operating rooms, the dietitian taking charge of the diet kitchen, the civilian employees in the office, and the necessary adjustment made to the new surroundings.

At this time the weather was quite warm, the enemy using deadly gases, with much bombing and shelling. Consequently the hospital was filled with the sick and wounded. The nursing personnel of Base Hospital No. 11, arrived at their Base and some of its nurses were transferred to Base Hospital No. 38 for duty. Splendid and constant work was accomplished by the nurses during long hours of duty, with untiring devotion, always ready to help alleviate the terrible suffering of the soldiers. This excellent work continued until the Armistice was signed November 11, 1918.

When the Armistice was consummated, the Americans felt their work was completed and their one endeavor was to return to the United States. Dissatisfaction arose because real work had ceased and the vast majority were awaiting orders to return home. To adjust conditions, orders were issued to recall, detach and evacuate as rapidly as conditions and facilities permitted. Hospital teams were returned to Bases; the sick and wounded who were able to travel, were transported rapidly to army hospitals in the United States. In March 1919, orders were received for the nurses attached to Base Hospital No. 38 to be prepared to return to the United States.

Thirty-eight nurses left the Grand Blatereau, Nantes, France, and proceeded to LaBoule, France, remaining there about one week. From there they proceeded to Brest, France, and on the following morning embarked on the S.S. Harrisburg. After a rough voyage of ten days they landed in Hoboken, N.J., March 19, 1919. The nurses were stationed in New York for about three days, and then were honorably discharged from the Army and returned to their respective homes.

During the absence of Clara Melville, Nora E. Shoemaker was elected Acting Directress of Nurses. The noble and unflinching work at Jefferson Hospital was accomplished amid hard and strenuous conditions. The terrible ravages of the influenza epidemic claimed by death five student nurses. Many of the nurses were off duty each day by reason of illness. It was almost impossible to secure adequate nursing care. The epidemic claimed hundreds, placing the entire country in a general chaotic condition.

Upon the return to the United States of those engaged in military services, Miss Melville again assumed her former position as Directress of the Training School. Miss Shoemaker, Acting Directress of Nurses, had in the meantime offered her services to the American Red Cross to do relief work in Siberia. Upon Miss Melville's return, Miss Shoemaker resigned and proceeded to Siberia.

So many changes had taken place during the period of the war that considerable readjustment was necessary to return to former conditions. This required much time and energy and a clearer vision than ever before to cope with and meet the existing situation. A feeling of unrest and dissatisfaction prevailed on every side and the reason offered was "Owing to the war the country can expect nothing other than prevailing conditions". Finally, more normal conditions prevailed, people again assuming their former responsibilities.

Business had taken on new aspects, and living conditions had changed. In place of houses, as formerly, apartments

were in demand, and as a result hospitals in times of illness were in greater demand. More beds for ward patients, and an additional number of rooms for private patients were required. This problem, together with the necessity of increasing the number of students in the Training School of Nurses, again confronted the Board of Trustees of the Hospital.

The Board of Trustees decided to raze the building located at Clifton and Sansom Streets, (used as a nurses' home and formerly the first hospital building of Jefferson) and erect a sixteen story building on the site, now the Samuel Gustine Thompson Annex. It was proposed to use part of this building as dormitories for nurses, the remaining portion to be used for private patients.

The nurses were moved from the residence, 1020 Sansom Street, to the Hotel Irving, located on the north side of Walnut Street and immediately east of Tenth Street, on July 18, 1922. The razing of the old building was started July 20, 1922. Some of the staff nurses were moved from the Hotel Irving to 1029 Walnut Street on August 12, 1922, and student nurses moved to 1012, 1014 and 1016 Spruce Street August 14 and 15, 1922. During the time the day nurses occupied space in the Hotel Irving, the house at 1014 Spruce Street was opened and occupied by the night nurses.

After the nurses were located and settled at 1012, 1014, 1016 and 1018 Spruce Street and the Samuel Gustine Thompson Annex was under construction, the Board of Trustees decided that it would be inadvisable to establish the nurses' residence in the hospital building. The yard space in the rear of the Spruce Street property was utilized to erect the first section of the proposed plan for a new nurses' residence. Plans were drawn by Stone and Webster Company.

Jefferson, along with other hospitals in Philadelphia, was in great need of a convalescent home for men where such care could be provided in keeping with the financial ability of the patient. Mr. and Mrs. Alba B. Johnson in 1915 presented to the Jefferson Hospital for this purpose a tract of land and a house, to be known as "Ivycroft", located near Wayne, Pennsylvania. This project required the services of a nurse to act as superintendent. Miss Katherine Strohmaier, a Jefferson graduate nurse, was selected as the person qualified to fill this position. In June, 1917, the dedicatory exercises were held amid a large gathering of interested people.

The building of the first section of the residence for nurses, on Spruce Street between Tenth and Eleventh Streets, was started in October 1924, and was ready for occupancy May 15, 1925. The building has a capacity of ninety single rooms, hot and cold running water in each room and with a large closet. It was well equipped with comfortable beds, chairs, desks, dresser, reading lamp, rugs, wall cabinet and every convenience to make the student comfortable. While this new section was under course of erection, houses at 226 and 228 South Seventh Street were occupied by some of the nurses until the completion of the building in 1925. These houses were used only from October 1924 to May 1925.

Not having adequate classroom space and with constant changes in methods used to instruct nurses which required enlarged and better facilities with more modern equipment, two new laboratories were added, one for instruction in dietetics and one for chemistry. The increased classroom space was made available for nursing instruction by the Dean of the Medical School, Dr. Ross V. Patterson.

New equipment was added to the demonstration rooms and a laboratory for instruction in dietetics and also one for chemistry was provided by Dean Patterson in the college

building. Finding that additional space was needed to house the student nurses, two additional floors, the seventh and the eighth, were added to the first wing of the recently constructed nurses' residence, which increased the capacity of the building by thirty rooms, making a total of one hundred and twenty single rooms. This work, started in July 1926, was completed for occupancy on September 15, 1926.

Formerly the Directress of Nurses was responsible for and assisted in all the teaching of undergraduate nurses. The trend of times and conditions necessitated changes in Schools of Nursing. It became necessary to secure an Educational Director. Miss Nora E. Shoemaker (former teacher and acting Directress of Nurses during Miss Melville's leave of absence on account of the World War) was appointed in September 1924, the first full time instructor of nurses in the School of Nursing of the Jefferson Hospital.

The formal opening exercises of the Samuel Gustine Thompson Annex were held in the Clinical Amphitheater of the Annex on October 30, 1924. The private floors of this new building were ready to receive patients on this date, with Miss Emma P. Gillespie, previously sixth floor supervisor of the General Hospital, as supervisor of all floors of private rooms in the new building.

The maternity department of the hospital, located at 224 South Seventh Street since 1892, was moved to the third floor of the Annex building in October, 1924, with Miss Sarah J. Martin, a graduate of Jefferson, continuing as nurse-in-charge.

The Clinical Amphitheater of the Hospital was opened for operative clinics to medical students during March of 1925 with Miss Nora E. Smith, a graduate of Jefferson, as chief clinic nurse.

Following the commencement exercises of the School of Nursing on May 14, 1925, the guests were invited to inspect the first section of the new residence for the nurses which affords accommodations for one hundred and twenty nurses.

The Centennial Anniversary of the College was celebrated by Alumni Day, held May 29, 1925. The entire hospital and annex were thrown open to visitors. Friday morning the visitors arrived in large numbers and continued throughout the day. During the afternoon the Jefferson Nurses Alumnae Association entertained visitors by serving tea on the roof garden of the fifteenth floor of the Samuel Gustine Thompson Annex. Many of the older graduate nurses were present and assisted in receiving the guests. The occasion afforded an opportunity for many graduates to meet, after years of separation from their College and Hospital days and enjoy reminiscences of by-gone times. Everyone entered into the spirit of the day to make a "welcome home coming" which was an outstanding success, marking admirably the hundredth anniversary of the birth of Jefferson.

A smallpox scare raged in Philadelphia in the Spring of 1925. Miss Elizabeth Steward was nurse-in-charge of the Accident Ward, where so many patients applied for vaccination that the space could not accommodate them and a temporary dispensary at 1029 Walnut Street was used. In about seven days over forty thousand persons had been vaccinated.

The Bronchoscopic Department on the fourth floor of the Samuel Gustine Thompson Annex under the direction of Dr. Chevalier Jackson, Bronchoscopist, was opened to receive patients in September 1926. Miss Angele Piquenais, a Jefferson graduate, was appointed nurse-in-charge of the department.

In September 1928, an affiliation between the Pennsylvania Hospital for Nervous and Mental Diseases and the Jefferson Medical College Hospital School of Nursing for the training of male nurses was granted by the Board of Trustees of the Hospital, for a period of eleven months for practical work; three months of surgical, three months medicine, two months operating room, two months genito-urinary and one month dispensary. Three students were admitted to the course and a graduate male nurse had charge of the genito-urinary cases in the private building and also supervised the work of the male student nurses.

In September 1929, Miss Fern Nunemaker was elected a teacher in the Principles and Practice of Nursing and an assistant instructor.

After thirty years of devoted and enthusiastic service, Miss Sara J. Martin, chief nurse, severed her connections with the Maternity Department in November 1930.

Early in the history of the School of Nursing, in order to further promote interest, awards had been made to nurses for excellency in their work. Because much dissatisfaction arose regarding these awards, the award of prizes was discontinued.

In May 1931, Mrs. Joseph Walker Wear in memory of her father, the late Hon. William Potter, a former President of the Board of Trustees of Jefferson Medical College for more than thirty-five years, established an award consisting of twenty-five dollars and a specially designed gold medal, bearing the head of Thomas Jefferson, to the member of the graduating class attaining the highest average in the senior examinations. This award is presented each year and is known as the William Potter Memorial Prize.

The Curtis Clinic was erected to provide care for all deserving ambulatory patients, the out-patient department having outgrown the space allotted to it in the General Hospital building. In this building three floors have been set aside to be used as classrooms for student nurses of the training school. In September 1931, these rooms were ready for occupancy. On the twelfth floor is the assembly room, having a seating capacity of one hundred and seventy-five, a motion picture booth, picture screen, desk, adjustable blackboards and cabinets. The lighting arrangement is excellent, the daylight is seldom so dull as to require artificial lighting. Seats are arranged in elevation, making vision to the front of the room very clear. An Anatomy and Physiology Laboratory is provided with excellent equipment in the way of models, charts, specimens and every facility for the teaching of the subject.

On the eleventh floor is located the demonstration room containing beds, bedside tables, Chase doll and infant, blackboards, screens for motion pictures, a model bathroom for practice, a large closet containing set-up trays for the various forms of treatment and also the linen necessary for the demonstrations. There is a closet containing a supply of rubber goods and other surgical supplies to teach the student the necessary care required in the preservation of such supplies. Folding doors between classrooms and demonstration rooms can be closed to provide a classroom only, or opened into one large demonstration room for instruction in the Principles and Practice of Nursing.

A splendidly equipped science laboratory used for teaching chemistry and bacteriology is on the eleventh floor. Microscopes are kept in specially provided closets for safety. Tables for microscopes, individual equipment for each student nurse, blackboards, desks for instructor, sterilizers, in-

cubators are among the facilities found in the well lighted laboratory.

Another classroom is located on the tenth floor and is used for the theoretical and practical teaching of *Materia Medica* to classes divided into sections. The equipment consists of a double blackboard, screen for motion pictures, and two large closets for the storage of drugs and supplies. Adjacent to this room is a dietetics laboratory equipped with combination desk and table with seat attached, a sink with hot and cold running water, two gas plates and a complete set of cooking utensils for each of twenty students. A colony of four gas ovens serves the entire group. Other equipment consists of a blackboard, desk for instructor, colored nutrition charts, food models, specimens of foods, flavoring agents and other necessary household equipment.

The reference library and study room, with the instructor's office adjoining, is also located on the tenth floor. This office is equipped with desks, typewriters, filing cabinets, bulletin board, mineograph machine and all facilities required for a well regulated office. The reference library and study room has afforded unexcelled facilities to the students, in that there are found many books containing valuable information on the various subjects pertaining to nursing. Comfortable chairs and tables have been provided. A large magazine stand contains all the latest medical and professional magazines. Smaller cases are used to store magazines and periodicals to be kept in readiness to be bound and preserved for future use. A bulletin board contains class schedules and other important notices.

The needs of the student are amply provided for. There is a large closet with deep shelves where she can deposit her wrap and books during the hours she is attending classes. Lavatories on the tenth and eleventh floors and drinking fountains on the tenth, eleventh and twelfth floors are provided.

The classrooms are splendidly located and have good ventilation, sunshine and ample lighting facilities. Artificial lighting is required only on an exceptional dark day or in the very short winter season.

Through the interest of Dr. Ross V. Patterson, Dean of the Jefferson Medical College, it was made possible for the School of Nursing to have excellent modernized teaching facilities and equipment.

With the changes in the trend of nursing education, and the employment of an additional number of the graduate nurses as full or part time instructors, a serious problem had to be met. In the Fall of 1931 the small remuneration allotted to each student per month was discontinued and this sum used in the employment of graduate nurses to supplant the student having charge of the wards; relieving the student of the responsibility of the ward and assuring her of the opportunity to attend classes. A deposit of twenty-eight dollars was charged the student to defray expenses of books, laboratory equipment, thermometers, breakage, etc. At this time a special fund was created whereby all books were furnished the student nurses and paid from the fund. This amount, however, did not meet the expenses and in September 1931, the amount was raised from twenty-eight to fifty dollars.

In November 1931, the Curtis Clinic was opened to receive patients. Miss Marguerite Barnett, a graduate of the Training School of the Jefferson Medical College Hospital was placed in charge of the nursing and housekeeping personnel, each clinic having a graduate nurse in charge.

The dedicatory exercises of the Curtis Clinic, the outpatient building, were held at 11 A.M. on Thursday, December 17, 1931. James M. Willcox, a member of the Board of Trustees, presided. The portrait of Cyrus H. K. Curtis was presented to the hospital by Dr. P. Brooke Bland. Alba B. Johnson, President of the Board of Trustees, received the portrait and Mr. Curtis responded with a short address expressing appreciation of the opportunity to contribute to such a worthy cause as the foundation of the Curtis Clinic.

Through the kindness and generosity of a friend of Dr. Ross V. Patterson, Dean of the Jefferson Medical College, the Charlotte Cushman Club property at 1010 Spruce Street, with its furniture, was purchased in 1931 and presented to the hospital to be used as a residence for the staff nurses of the hospital. The building has a large double reception room beautifully furnished, a dining room, with a seating capacity of sixty, a spacious kitchen, and sleeping accommodations for about forty persons. Before possession of the property had been secured some of the furniture, especially in the reception room, was removed by the Charlotte Cushman Club and this has been replaced with new furniture similar to that removed, by Mrs. John C. Martin. An entrance was made in the hallway between 1010 Spruce Street and 1012 Spruce Street, giving access to all buildings from the inside.

The Nurses' Commencement in 1932 brought an additional award of merit. The Jefferson Nurses' Alumnae Prize of twenty-five dollars was awarded to the nurse attaining the highest average during the entire three years' course in nursing.

The Jefferson Nurses' Alumnae Association held a reunion of all the Jefferson graduates on April 21, 1933. A full program was scheduled for the day. General inspection of hospital buildings, Curtis Clinic, nurses' classrooms, which included special demonstrations in nursing procedures. In the morning were given addresses followed by class luncheons. A tea was served in the Nurses' Home, 1010 Spruce Street, in the afternoon where many of the alumnae assembled and reminisced. The reunion was concluded by a reception and dance, held in the assembly hall of the Jefferson Medical College. Many of the older graduates responded, enjoyed a thoroughly good time and hoped a homecoming could be made an annual event of the commencement each year.

On March 29, 1934, Dr. Ross V. Patterson, Dean of the Jefferson Medical College, presented to the School of Nursing, a library consisting of twelve hundred books, mostly volumes of standard works. This was the beginning of a much needed library in the nurses' residence. The rooms selected for this purpose are located on the first floor of 1012 Spruce Street, an ideal location for a library, spacious and suitably furnished. The books are all catalogued in readiness for use.

Mrs. Charles M. Lea presented to the local Red Cross Chapter a banner to stimulate interest in enrolling nurses in the Red Cross Nursing Organization, to be awarded to the school enrolling the largest number. According to the membership of the graduating class the school having the highest percentage enrollment for the year would be awarded the banner for one year and if that school succeeded in having the highest enrollment for three consecutive years, it would be awarded permanent ownership of the banner. The Jefferson Medical College Hospital School of Nursing succeeded in retaining the banner for three consecutive years, hence the final home of the Red Cross Banner in 1934.

At the Commencement exercises held in May 1935, the

1982 Last Graduating Class

Adaline Potter Wear Memorial Prize of a gold medal and twenty-five dollars was established, to be awarded to the graduate nurse attaining the highest average in the Principles and Practice of Nursing. Mrs. Wear had been associated with the Jefferson Medical College and Hospital and was an interested and untiring worker for the hospital during her entire life. She gave of her time and possessions to help the less fortunate who had suffered from illness. The family of Mrs. Wear established this prize to commemorate her devotion and untiring efforts on behalf of the hospital and its patients.

In the forty-five years since the founding of the School of Nursing it has progressed steadily. The students have had excellent opportunities of serving in all departments of the hospital. Educational facilities have been afforded the student nurse in accordance with the growth of the institution.

Since the founding of the School of Nursing to 1936, thirteen hundred and nineteen nurses have been graduated and have given service in every country of the world. Jefferson nurses have been successful in all phases of work in the nursing field open to the graduate nurse. In any wars, calamities or disasters that have occurred, the graduates of Jefferson always have cheerfully responded to the call of the City, State or Country. In the Pennsylvania flooded area of the Spring of 1936, ten nurses responded immediately upon the call for help to give temporary relief in the various stricken districts.

May the work of the School of Nursing of Jefferson Hospital continue to be carried on with the same devotion, ideals and enthusiasm as it was conducted by those in the past, thus increasing its accomplishments and hold its place among the outstanding schools of nursing in the country.

\*This manuscript was placed in the hands of the Medical Director, Dr. H. K. Mohler by Miss Melville a fortnight before her death.

Many changes in the School took place after the death of Miss Clara Melville in 1937. Some were due to changes in the School's program and some reflected the changes in the world.

Miss Nora Shoemaker, Educational Director, was promoted to the position of Director, School of Nursing and Nursing Service. She held this post until June 1942. Significant to her term as Director was the greater emphasis on the curriculum of the programs rather than the utilization of students for service to the patients in the Hospital. During her tenure, a social service course was added to the curriculum and an affiliation with the Pennsylvania Hospital for Mental and Nervous Diseases was arranged.

Toward the end of the decade war clouds were gathering in Europe. Germany invaded Poland and Nazi tanks cut France in half and the Battle of Britain was begun. President Roosevelt declared a national emergency and inaugurated a national defense program. The Japanese bombed Pearl Harbor on December 7, 1941 and the United States was at war not only with Japan, but also with Germany and Italy, joining her allies — England and France.

In 1940, Dr. Baldwin L. Keyes, Colonel in the U.S. Army Reserves, and formerly Commanding Officer of Jefferson's Base Hospital, No. 38, in WWI was asked to recruit and organize doctors and nurses to staff a 1000 bed Army Hospital.

Dr. Keyes complied and on the afternoon of December 7, 1941, reported to Washington that the Jefferson Hospital Unit was ready for active duty. The unit was activated and left Philadelphia on May 15, 1942.

So many graduate nurses had volunteered to join the 38th Hospital that the bulk of patient care was performed by the student nurses.

Student enrollment had increased to 347 by 1945. A major factor was the creation of the Cadet Nurse Corps. If necessary these nurses would spend the last six months of their program in the military service.

Miss Shoemaker resigned in June 1943. Her successor was Miss Ethel Hopkins who remained until 1944. She was succeeded by Miss Margaret Jackson who kept that position until 1947. Miss Katherine Childs was appointed in 1947 and resigned in 1953.

Each of these directors made changes in the curriculum and the overall program which improved and strengthened it. When Miss Childs tendered her resignation in June 1953, she recommended to Dr. Hayward Hamrick, Medical Director, that Miss Mabel Prevost be appointed to replace her. Miss Prevost was appointed to the position and although Miss Childs offered to stay until September, Dr. Hamrick felt that a two-week orientation would be sufficient.

In her orientation, Miss Childs told of her efforts to submit an application for accreditation of the School by the National League for Nursing (NLN). The Board of Trustees felt that the approval of the State Board of Nurse Examiners was all that was necessary.

When the nurse instructor in the basic sciences resigned three weeks before the new class was to report, Miss Prevost asked that she be permitted to seek the support of the Medical College professors. She approached Dr. George Bennett, Dean of the Medical College and asked if the Col-

lege professors in the basic sciences would teach the incoming class. Although these professors were reluctant to teach high school rather than college graduates they agreed to help until a nurse instructor was employed. After teaching Anatomy, Physiology and Microbiology for a short-time, all of the professors expressed a willingness to continue their teaching. They became strong supporters of the School of Nursing, participating in Faculty Meetings and in other activities of the student. When the time came to teach Chemistry and Pharmacology there was no objection, and two more College professors joined the Faculty. The professors joining the Faculty was a strong point in Jefferson's favor in its struggle for NLN accreditation.

The issue of NLN accreditation of the School was discussed in depth with the entire Faculty and it was unanimously agreed that an application for a review of the program be submitted. All believed that the weaknesses of the program would negate approval and cited poor housing facilities, too few well prepared faculty members and the use of students for patient service beyond the needs of the educational program.

Dr. Hamrick was acquainted with the faculties evaluation and advised that until the School was refused accreditation the Board of Trustees would not believe that Jefferson's School was not among the best in the Nation. He invited the Director to attend the next meeting of the Board.

After discussing the educational program, its strengths and weaknesses with the Trustees, Miss Prevost and Dr. Hamrick invited the members on a tour of the student's living accommodations. Trudging up flights of stairs from the 1st to 4th floor of the residence on Spruce Street, the Trustees agreed that the housing was not suitable and was inadequate and unsatisfactory.

Permission was given to submit a request for a survey of the School by the NLN. The first application for a review of the School of Nursing was submitted to the NLN in 1954.

To relieve the crowding of students in the residence, sometimes assigning 4-6 students in a room, the Quaker House at 15th and Cherry Streets was leased by Jefferson. This was to accommodate the preclinical student. Buses would be provided for the transportation to and from the Hospital. This move allowed more space for the second and third year student and all 4th floor rooms were vacated.

During this time plans were made for a new student residence to be erected at 11th and Walnut Streets which was a large parking area. The Building Committee had representation from the student body, the Faculty, Nurses' Alumnae Association, Administration and Board of Trustees. The plans provided for semi-private rooms, shower rooms and bathrooms with a sitting room-kitchen on each floor. The building was air-conditioned. A large basement recreation room provided a snack bar, with refrigerator and stove, a piano, games, and tables and chairs.

Four housemothers were accommodated with comfortable rooms on the first floor, as well as a beautiful formal, comfortable living room where students could visit with their guests. For the first time all students would be living in one building. The building was named the James Martin Student Nurses Residence, and it was completed and occupied in 1959.

In accordance with the requirements of the State Board of Nurse Examiners, an Advisory Committee to the School of Nursing was established. The first Chairman was Dr. Baldwin L. Keyes. Mrs. Charlotte Moore Burt '29 was appointed as Secretary. The purpose of the Committee was to advise and

assist the School as to its program, in relation to financial with enrollment and scholarship funds and recruitment. Mrs. Burt was a member of the Womens' Board and Chairman of the Women's Board's School of Nursing Department. Dr. Keyes later resigned and was succeeded by Mr. Revelle Brown, Trustee. Through this organization both the Board of Directors and the Women's Board were kept informed of the School's goals and needs. The Women's Board provided many amenities for the students and the School. After Dr. Rightor's death, the Women's Board purchased the roses for the "Rose Arch" at Commencement.

The School was surveyed by the NLN Accrediting Board in 1955, but as was suspected many weaknesses in the program were pointed out, which had to be corrected before applying for another survey. The visitors commended however, the changes in the educational programs which had been made and the increased number of qualified faculty. They were pleased with the plans for the new residence.

The Faculty was encouraged and attributed the performances on State Board examinations to the changes which had been made. The members of the class of 1956 had all passed Board examinations with flying colors. This was the first class to do so in recent years.

Dr. Hamrick died in 1957 and his Assistant Director, Dr. Ellsworth R. Browneller was appointed to fill his position by the Board of Trustees. Dr. Browneller was the first administrator to have had formal, postgraduate training in Medical Administration. He supported the efforts of the Administration and Faculty to obtain National Accreditation of the School of Nursing and started to make changes in the Hospital prior to applying for accreditation by the Joint Committee on Hospital Accreditation.

The School of Nursing was revisited and further changes were recommended while commending the Faculty for changes already made.

Miss Prevost and Miss Bowman were asked to visit NLN headquarters in New York. Admiral Kauffman, President of Jefferson, asked Dr. Browneller to interrupt his vacation in Florida and to attend the meeting. After another in-depth discussion between Jefferson's representatives and the NLN Board, a return visit was scheduled.

The NLN recommendation for further changes in the educational program were discussed among faculty members and several changes were made. In late 1959 the Administration received word that the program at Jefferson was approved and Jefferson's name would be listed as a NLN accredited program for a period of six years — the maximum time period. In 1959, Jefferson's School of Nursing Program was on the NLN list.

Dr. Browneller made administrative changes in the Nursing Department providing the Assistant Administrator a Director of Nursing Education and a Director of Nursing Service. He promoted the Director of the School of Nursing and Nursing Service to the position of Assistant Hospital Director. Miss Doris Bowman elected to stay with the School as Director. The position of Director of Nursing Service was filled later by Miss Elizabeth Sweeney. Both directors reported to the Assistant Hospital Director. Miss Prevost was therefore administratively responsible for the School of Nursing until 1969 when the School became a Department of the newly established College of Allied Health Sciences. This organization of Hospital Nursing Department was the first in the Delaware Valley. Within a year, similar changes were being made in several hospitals.

In the Hospital, staffing became even more of a problem. In 1963 plans to start a School of Practical Nursing became a reality. Miss Elizabeth Sweeney was transferred to the position of Director, School of Practical Nursing. The plans for curriculum and bedside nursing for a one year program was offered by the State Board of Nurse Examiners in 1964. This program was also transferred to the College of Allied Health Sciences in 1969. The graduates of this program from the beginning maintained 100% passing of State Board Examinations on a first try.

While much time and effort were spent in improving the educational quarters of the School of Nursing, the students had many recreational advantages. Student government was organized in 1945. Through this organization appeals for more time off and one late pass each week were granted. At this time a student council was also elected. In 1944 the eight-hour day became a reality.

A basketball team was organized in 1947. This was a popular recreation and the team and cheerleaders won many championships. The Student Choral group practiced and sang not only at Jefferson, but also planned visits to nursing homes. A gift from Mrs. Mabel Myrin of the Women's Board provided a hobby room, taking in one-half of the eighth floor of the residence. Sewing machines, typewriters and other relaxing games were used by the students. In 1968 Jefferson Alumni Hall was opened and student nurses were permitted to use its many facilities, not the least of these, a large swimming pool.

In 1965, the American Nurses' Association (ANA) published a document, the "ANA Position Paper," that had far-reaching effect on Schools of Nursing — it stated that basic, professional nurse education should take place in establishments of higher learning. In this the NLN agreed.

With the opening of the Baccalaureate Program in 1972 and the existing Practical Nurse program, hospital facilities for clinical practice became overburdened. In the 1970s a policy was adopted in favor of accepting married students,

## BEING EIGHTY

The first eighty years are the hardest. The second eighty, so far as my experience goes, are a succession of birthday parties. Everybody wants to carry your baggage and help you up the steps. If you forget somebody's name or fail to fulfill an appointment, or promise to be at two or three places at a time, or spell words wrong — you can explain that you are eighty.

Being eighty is a great deal better than being sixty-five or seventy. When you are sixty-five people expect you to retire to a little house in Florida and become a discontented, grumbling, limping, 'has been.' But if you survive until eighty, everyone is surprised that you can still walk and talk above a whisper. They are even surprised if you reveal signs of lucid intervals.

At seventy people are mad at you for everything; but at eighty, ah, they forgive you for everything! If you ask me "Life begins at Eighty!"

and the first male students were admitted in 1973. In August 1975 the School's Administrative Staff and Faculty moved to newly renovated and more spacious offices in the Health Sciences Building (Edison) from its former cramped offices in the Martin Residence. Classrooms were also transferred.

From 1976 there was a consistent decline in enrollment. This was in spite of stepped up recruitment efforts. After much soul-searching and efforts to consider all aspects of the School relative to its present status and future, the Faculty on March 22, 1979, resolved by consensus to recommend to the Dean of the College of Allied Health Sciences that the School be phased out over a three-year period, with the last class to be graduated in June, 1982. Dean Abrams accepted the proposal, and it was later endorsed by the University Board of Trustees.

On June 10, 1982, the last class (38 members) wound its way under the traditional Arch of Roses to join over 5,000 previous graduates. The joy of this occasion was somewhat marred by the realization that this was the end of one of the finest Schools of Nursing in the Country. Doris E. Bowman who had served for 24 years as Director, retired later that year and became Emeritus Professor of Nursing. The Class of 1980 honored her with a presentation of her portrait to the University. Also the history of the School of Nursing, A Commitment to Excellence (1982) was dedicated to her.

The "spirit" lives on and is destined to survive for many years. Over 300 graduates faithfully return each year to the Annual Alumni Luncheon. They all sing the praises of "Dear Old Jefferson" and the deep respect they have for the program they experienced — a program always committed to excellence.

The above article (from 1937 to 1982) was authored by Miss Mabel C. Prevost and Margaret Summers. It represents information from records of many graduates, plus excerpts from A Commitment to Excellence and Dr. Wagner's book, Thomas Jefferson University Tradition and Heritage.

## "A CHILD'S VIEW OF GRANDMOM AND GRANDPOP"

A grandmom is a lady who has no children of her own, so she likes other people's kids. A grandpop is a man grandmom. He likes to go on walks with kids and they talk about fishing and things like that.

Grandmoms don't have to do anything except be there. They're old so they shouldn't play hard or run. They let us ride the "pretend horse" at K-Mart and have plenty of quarters ready. They take us on slow walks and always stop for things like caterpillars and pretty leaves. They never, ever say, "HURRY UP!"

They don't have to be smart, only answer questions like, "Why do dogs hate cats?" "How come God isn't married?" They don't talk baby talk like visitors do, because it's hard to understand. When they read to us, they don't skip or mind if it is the same story again.

Everybody should try to have one, because grandmoms and grandpops are the only grownups who have got time.

# THE FUTURE OF NURSING

When the decision was made by each of you to enter nursing it was fundamentally activated by a desire for service. This desire must continue after graduation, if you are to succeed. In the future, as never before, will the opportunity for nurses to fulfill this desire for service be ever present. Each graduating class has certain duties and obligations to the nursing profession and the public. This class graduating as it does at a time when there is turmoil in the entire world has considerably more responsibility than others.

Your profession is in a stage of transition. Graduate nurses are in great demand for the armed forces and for civilian duty. Many changes are being instituted to cope with this demand. It will be your responsibility to see that these changes are made so that your profession maintains its high standards. The demand for nursing service has been so great that volunteers have been recruited to help care for the sick. I believe the nurses' aides are here to stay, whether as volunteers or as paid help. The supervision and education of these aides will be your duty.

Your education has been general in this special field for women. The general training you have received in the nursing school is necessary. There are some who feel there is too much theory; however, the theoretical and the practical must go together to form a well-rounded course. The training course serves as a basis for further study, just as medical

college is a basic course for further study for the physician. It is now time to begin specialized training that will fit you for greater things to come.

I believe the nursing profession will sooner or later be a group of nursing specialists. You will all have eight-hour duty and group nursing. This is bound to come. It will be up to you now to decide how these changes are to be effected. The old ideas of more or less continuous duty and every nurse being called to any patient will be a thing of the past. Specialized nursing calls for higher salary, but this should also mean continuous study and higher education of the nurse. Your salaries should be commensurate with a high standard of living and be governed in some way by your qualifications. Those of you who prefer will be supervisors and educators.

No doubt most of you will sooner or later be married, but with eight-hour duty and group nursing the married nurse will have a greater opportunity to continue with her profession.

You have great opportunities for placing your acts indelibly on the nursing profession and I wish you luck.

Adolph Walkling, M.D.

From the 1944 NOSOKOMOS — The year book was dedicated to Dr. Walkling, the above was his address to the Class of 1944.

## Nursing Education at Jefferson "A Century of Excellence"

In March of 1990, Dr. Pamela Watson, Chairman of the Department of Nursing Education convened a meeting to plan for the one hundredth anniversary of Nursing Education at Jefferson. Honorary Chairmen for the Committee were Mabel C. Prevost, Dr. Watson, and Mary Ann McGinley, Associate Executive Director/Director of Nursing.

The responsibilities for chairing the committee was shared by a representative from the College of Allied Health, and a nurse representative from the hospital. The total committee was comprised of sixteen members of which two were non-nurses. Five were members of the Alumni Board of Directors.

Although the first meeting was expected to be exploratory, much was accomplished. The Motto (slogan) was agreed upon and a number of events were suggested: A Distinguished Lecture, Research Poster Presentation, Display of Memorabilia, Alumni Newsletter, Souvenir Booklet, Poster, and a Black Tie Gala. Committees were assigned for each event and everyone began to work to make this an event to remember.

The Gala was to be held the Friday night before our luncheon which was to be the jewel in the crown. The gala committee brought to the whole group bids from decorating rental firms, and menus from caterers. Prices were agreed and plans were simplified to be elegant and tasteful.

The Archives were searched for pictures and artifacts of early nursing at Jefferson. The members of the Archive com-

mittee made the final choice and a display was set up in one of the conference rooms in Jeff Hall for Friday night and Saturday. The nurses and significant others who saw the display were delighted. Included were manikins dressed in student uniforms from the 1890's, 1930-40, and the final uniform worn by the class of 1982.

The Gala was truly that. There was a receiving line: President of the Alumni Association, Dr. Alice C. Boehret; Chairman of the Baccalaureate Program, Dr. Pamela Watson; Associate Executive Director of Nursing, Mary Ann McGinley, and Dean of the College of Allied Health, Dr. Lawrence Abrams. At the entrance to the dining room were arches of Red Roses, which were traditional at the School of Nursing Graduations.

At each place at dinner was a commemorative booklet giving a brief resume of the History of Nursing Education at Jefferson, and a few notes about the accomplishments of graduates. Dinner was excellent and it was followed by dancing and general visiting with friends and classmates who were in attendance.

As the guests left, each was given a poster, a fine collage of memories of nursing at Jefferson (see photo on page 24).

# SCHOOL HEALTH — 20 YEARS AGO — TODAY

Twenty years ago when our youngest son started school, I started school too. No, I wasn't the biggest "kid" in sixth grade, I was the school nurse.

Twenty years ago I'm sure our friends were taking "dibs" whether or not our marriage would survive, because back then few mothers of young children worked outside the home — today, probably the majority do — not by choice, but because they have to maintain a certain standard of living.

Twenty years ago day care centers, or nursery schools as they were called then were often a status symbol. Today they are a necessity.

Twenty years ago "seems like yesterday" (I remember people my age saying the same thing back then), but it's true, and I've been around long enough to see patterns and changes and I'm old enough now that I've developed some pretty strong opinions about our children's lives and their future.

Twenty years ago sick children were kept home with mom.

Today many are sent to school sick because no one is home to take care of them, so the nurse tries to make the students comfortable at school so parents won't have to leave work early — and with the economic hardships forecast for the future we'll see even more truly sick children coming to school. Hard times have already hit our county. One family has a father and mother both laid off from local employers.

Twenty years ago it was easy for the school nurse to recognize sick children. They appeared flushed, had a runny nose, looked "bleary-eyed," and had a high fever.

Today we see truly sick children with vague viral symptoms, such as headache and stomach ache, who look perfectly fine and have no elevated temperature.

Twenty years ago when a child came to the health office with a bloody nose the nurse took some tissues and applied pressure. Now we're told to put rubber gloves on first as a precautionary measure due to the onset of AIDS!

Twenty years ago we saw children with teeth that were in bad condition. Toothaches and abscesses were one of the most common complaints in the health office.

Today, rarely do we see a child with a toothache. Thanks to the "freebies" given to school children by toothpaste manufacturers and the health education done by the teachers and school nurses (and the good dental hygiene at home), "green teeth" are a thing of the past. Cumberland County also has the use of the mobile dental office where all our children can receive totally free care during school time.

Now one of the most common complaints of young children are earaches. Thank Goodness for audiometers and otoscopes for school nurses can pick up the problem right away and send the children off to the family doctor for immediate care. We see fewer children with tubes now and hope that our early diagnoses are helping reduce the number of tubes inserted into the school age child.

Twenty years ago asthma was still a relatively misunderstood childhood disease. Children were blamed for causing

their own breathing problems. I recall when my father took me to a local doctor on South Second Street with an asthma attack (mom couldn't take me because my brother or sister had just been born). The doctor's office was very crowded and we waited forever so it seemed and by the time it was my turn, the attack had subsided and I could breathe. The doctor chided me as if I deliberately brought on my own attack taking my busy father away from his business and family.

Today, there is an alarming increase in death of our school age children due to asthma, and asthma is the number one reason for school absence. Over the past twenty years, hospitalizations for asthma has increased over 200 percent for children.

Twenty years ago the medications were harsh (your heart felt as if it would come out of your chest) and you didn't understand why everyone else could go out to play in the snow but you became asthmatic.

Today the children well understand their illness, many have inhalers and know who to use them and most are even able to participate in Physical Education. A local allergist now sends out a newsletter and is participating in asthma research, asking for input from school nurses.

Twenty years ago, I covered four schools and even managed to visit all classrooms with a health lesson or two.

Today, I find it difficult to leave the health office because of the ever increasing number of children who visit and because of state mandated requirements. Do children visit because they are troubled? — or in trouble? — because they need to talk? — or have been abused? — or are they really sick? It takes time to figure out the problem — and it is stressful because you know children really belong in the classroom and you worry that you may have overlooked something by sending them back.

Twenty years ago child abuse was common. The repeated black eye — the cigarette burn — the unexplained absence from school — the "I fell" story — the dirty and poorly clothed student.

Today that type of abuse is down thanks to T.V. and other types of education. But now we see the young child who is left alone — the one who sees "cigarettes" being rolled — "white stuff" going into noses — and even the use of needles, and many live in a home where alcohol is a severe problem. It remains the number one drug abused in our country. When a child is repeatedly late for school or absent with no excuse we wonder what was wrong with the parent — not the student!

Twenty years ago child sexual abuse was almost unheard of. Children didn't know it was okay to tell — that it wasn't their fault.

Today we see many cases of reported child sexual abuse. Now our schools even have *Child Assault Programs* to teach the children how to defend themselves. A few years ago we had eight reported and confirmed cases of child sexual abuse in two of our schools.

Twenty years ago we might see an occasional father who

was jailed for some wrong doing.

Today we have seen several of our children's mothers incarcerated.

Children see enough violence in their lives. I wish television would have more comedy shows. Children need to laugh more. We're even seeing little ones in the health office with injuries they inflict upon each other.

Twenty years ago when we registered children for kindergarten there was usually a mother and a father who were married.

Today its common for our little ones to be registered with only a mother in the home — or a male in the home who is not the natural father. Schools are now not only permitted but are encouraged to teach the morals of family unity. They need to be told that a mother, a father, a child — make up a family!

Twenty years ago and many years before that, our ancestors came to America seeking a better life. They had large families, worked hard and often were very poor. Housing was often inadequate with not much furniture and maybe a woodstove for heat — or little or no heat at all. But families knew that with hard work (maybe two jobs) things would probably be better. The children knew not to ask Santa for toys because they just would not be there Christmas morning; but they shared what they did receive — a piece of fruit — a game or a puzzle — but they had the love of father and mother — the gift of a family life, which helped make up for their poverty.

Today society makes excuses for poverty. And I'm not talking about the working poor, I refer to the "deliberate" poor! Those who can work but won't.

Many of our ancestors were poor but their children didn't break store windows running off with the goods.

They were cold and poorly clothed but they didn't sell or use drugs.

They were hungry but they didn't steal from others.

Their poverty didn't give them an excuse to murder.

What are we doing to our children? Why do we deceive them with our lies??!!

## The Decade Fund

In 1984 the University launched a project to raise funds for a variety of uses. The Alumni Association was asked to contribute, and we did over the next five years. The amount we gave amounted to \$45,000.00. The Development Office asked how we wished this money used.

Our Board of Directors indicated that the funds be equally divided between the Nursing Service Department and Nursing Education. Dr. Pamela Watson, chairman of the Department of Baccalaureate Nursing, had asked the Alumni Association for scholarship assistance for second career applicants. Nursing has become very attractive to older individuals who wish a career change. Many of these people are police officers and teachers and they have responsibilities for families, so assistance is extremely welcome.

The portion of the fund that was assigned to Nursing Education was divided into two; half to be used immediately and the other half to be invested so that the interest could

We must be honest with them, we must tell them — that even if they are poor that:

It's wrong to steal

It's wrong to sell or use drugs

It's wrong to murder — no lifestyle gives us that excuse!

It's wrong to make a baby without a married mother and father!

It's wrong to use children and babies as the receipt for a monthly check!

Twenty years ago I was a young wife and mother entering into an exciting new career — a job that was mine to develop and change.

Today that same career is still challenging and still changing. But instead of the great hope I had for children, I find myself worrying about their future — and ultimately my own. When I saw the atrocities happening to the children in Romania, I was stunned and I couldn't say — that was twenty years ago because it happened today — in the 1990s. What will happen to the "crack" babies as they enter school? Will AIDS become even more virulent?!

I'd like to think that our children are tough — that they'll survive. I can't help but wonder what will happen to them twenty years from now? . . . and to their children twenty years from then . . . and to their children. . . .

perpetuate the scholarship assistance. The first recipient never used the help, she did not enter the program. But, this 1990-91 year we had a School of Nursing Alumni Scholar. She was a junior and will be eligible for assistance her senior year. She has maintained a 3.64 GPA (B+ or A-) and because she has a family, needs aid. She writes enthusiastically about her personal growth as she moved thru the nursing program.

The Nursing Service Department used our contribution as "seed" money for several research projects in the practice of nursing, an area which needs research. We do not know the results of any of these projects as research is a slow process. We hope to be able to give you reports from time to time.

Our contribution has gone to further Nursing which is good.

## Alumni Office News

As the saying goes "work goes on", this is so true for the Alumni Office. It is not unusual for us to be in the office more than Tuesday, especially from January through May, which is our busiest time.

Would you believe, over 14,000 pieces of mail goes out from this office each year?

**BIRTHDAYS** — Flowers and/or cards were sent to 27 of our graduates this past year. One recipient was 105 in January and she wrote her own thank you note. If you know of any Jeff graduate 85 or over please send us the following: Name — first, maiden, married. Year of graduation, birthday (month, day, year), social security number and their address.

**COMMITMENT TO EXCELLENCE** — If you did not receive a copy of this book when the School closed in 1982 and want a copy, no charge, let us know and we will be happy to send you a copy as long as the supply lasts. The book is the history of our school from its beginning in 1891 until the closing in 1982.

**CAPS** — There is approximately 50 caps remaining in the office, they are for sale at \$5.00 each plus \$1.00 handling and postage. Sorry, when this supply is gone a Jeff cap will no longer be available, unless you make your own.

**NOSOKOMOS** — To complete the set of year books in the office we need a book from the following years 1953, 1955 and 1968. Care to help us complete our set!

**VOLUNTEERS** — A hundred million thanks to all our volunteers, our work would be a lot harder without your willing assistance.

**MEMORABILIA POSTERS** — **JEFFERSON NURSING 1891 — 1991**. We will have about 225 Jefferson Nursing Memorabilia (1891-1991) posters which will be for sale at the Annual Luncheon on Saturday, May 2nd, 1992. SORRY, MAIL ORDERS NOT ACCEPTED.

If you plan to stop in the office for a visit, please call first to be sure we are in.

## Bulletin Committee

Many thanks to everyone who has contributed in any way to the 1991, "CENTENNIAL EDITION" of the Nurses' Alumni Bulletin. We hope you enjoy reading it.

Honestly, we do edit the material carefully, but occasionally a misspelled word or punctuation mark escapes our alert eyes, maybe we try too hard, so please excuse all errors, believe me they are not intentional.

Now that the 1991 bulletin is printed, we are looking for interesting news and articles for the 1992 edition. We are asking for your help, let us be the judge as to whether or not your news or articles are interesting.

Thanks again for all your help.

Peg Summers

## Relief Fund

Jefferson Diploma Nurses, do you know we have a "Relief Fund Trust?" The purpose of this trust is to assist the graduates of the School of Nursing (Diploma Program) and the White Haven School of Nursing who are ill, disabled or in need of additional support or maintenance.

The preliminary application found in the back of the bulletin can be sent to the Alumni Association. A second application will be sent to the applicant by the committee. When completed and returned the committee will evaluate the request, and the applicant will be notified as soon as possible. All the information on the application is confidential.

This past year seven of our graduates requested and were granted assistance. Four are receiving monthly stipends and three received a one time gift.

The Relief Fund committee also sends monetary gifts at Christmas time to those graduates known to be home bound or in a nursing home. Birthday flowers are sent to our graduates who we know will be celebrating their 85th or over birthday.

## Satellite Committee

The past year has seen some further progress of the Satellite program, but also some disappointing inactivity in other areas.

The first venture, that of the South New Jersey group was reactivated and we were encouraged and hopeful that this Satellite would gain strength. Although several meetings were scheduled with a program, attendance was poor and it was evident that there was little interest. Demanding positions with varied time schedules, as well as family responsibilities accounted for most of the problem.

Knowing that a great many of our graduates live in the Willingboro and adjacent areas, we contacted Mrs. Joanne Welsko O'Donnell, '56 and enlisted her support. Joanne is known for her dedication to nursing and was a most enthusiastic student and young graduate. She did not disappoint us, she has recruited a co-leader, Sandy Segal Lord '56 and they are planning a luncheon or dinner meeting in October or November, hoping for a group of 20-25 alumni members.

The Central Pennsylvania Satellite with Dorothy Ranck, '39 as coordinator and leader continues its successful programs. This group had business and luncheon program meetings — all were accompanied by great camaraderie. At their last meeting held at Pennsylvania Nurses Association Headquarters in Harrisburg, the guest speaker, Marjorie Key, R.N. from the Long Term Care Division Bureau of Quality Assurance, Department of Health, spoke of the role of the bureau in assessing the care and safety of patients in nursing homes and the survey process for licensure of nursing homes.

The Harrisburg Satellite expressed interest in attending an alumnae luncheon meeting in Philadelphia, if held either on a weekday or a Saturday.

The Western Pennsylvania Satellite seems to be doing well. Sally Hindson Wagner, '54, coordinator, reported another meeting held in McKeesport. Although the group was small, the participants were interested and had some valuable input to be considered by our Association. These members are interested in planning future meetings this year.

We hope the Scranton-Wilkes-Barre graduates with Gladys Wilson Kitchen, '57 as coordinator will have its initial meeting before the snow flies. The bad weather cancelled their last planned meeting.

Knowing that a number of Jeff graduates live and work in the Jersey Shore area, we are planning to send letters about the Satellite program to them before the end of the summer. Doris Bowman, '42 is interested in helping to get a satellite group started in this location and has promised to help.

We know that there are other concentrations of Jeff graduates in other areas throughout the United States, and hope that we can interest other Alumni members in helping to extend the satellite program concept beyond the State of Pennsylvania. We would appreciate hearing from you and receiving your thoughts about the program and any ideas you may have for improving and extending it.

## Social Committee

On a beautiful May day, to be specific, May 4, 1991 the 58th annual alumni luncheon was held. On this day we celebrated 100 years of Nursing Education at Jefferson.

The annual meeting was held in the Solis-Cohen auditorium at 10 A.M., with a cocktail hour following the meeting, in the Eakin lounge and the West courtyard.

There were 425 luncheon reservations, representing 27 states, including Hong Kong and England.

Three mother and daughter members were present: Ann Woodring Crofford, class of 1933 and her daughter Bonnie Ann Crofford, class of 1966; Elinor E. Brosious, class of 1936 and her daughter Joann R. Brosious, class of 1963; Frances Huston Rumberger, class of 1941 and her daughter Suzanne Rumberger Holden, class of 1962.

There were 2 members from the class of 1925. They were celebrating their 66th anniversary. Mildred Kroupa Okunishi and Marion Styver Carey. Each of these lovely ladies received a wrist corsage from the Alumni Association.

The class of 1941 celebrated their 50th anniversary with 20 graduates present.

Betty Piersol and Peg Summers were each presented with a plaque expressing our sincere thanks and appreciation for the excellent job they are doing for the association.

Six students from the Baccalaureate Nursing program assisted us with the registration and remained to enjoy the luncheon. We do appreciate their help.

The memorabilia, which was on display, commemorating the Centennial of Nursing Education at Jefferson was enjoyed by all.

I wish to thank everyone who helped to make this Alumni Day special. Our next annual meeting and luncheon will be held on Saturday, May 2nd, 1992.

COME, RENEW THE JEFF CONNECTION!

Ruth Thorp West, '42  
Chairman, Social Committee

## Nominating Committee

The results of the 1991 election for officers as follows:

Vice President — Carole Rosle  
Recording Secretary — Nancy Powell  
Board of Directors — Janet Hindson  
(4 elected) Paula Levine  
Betty Piersol  
Jeanette Plasterer

We need greater participation from our graduates who would be willing to run for office.

A slate consisting of more names, would provide a better choice when you vote. GIVE IT YOUR SERIOUS CONSIDERATION.

Patricia A. Dunn, '71  
Chairman

My Dear Son:

Just a few lines to let you know I am still alive. I am writing this very slowly because I know you can't read fast.

You simply won't know the house when you come home — we've moved. It was a lot of trouble moving. The most difficult thing was the bed. The man couldn't get it in the truck. It wouldn't have been so bad if your father had not been sleeping in it at the time.

About your father. He has a new job with three hundred men under him. He cuts the grass in the cemetery.

Your sister got herself engaged. He gave her a beautiful ring with three diamonds missing.

Our neighbors — the Browns — have started to keep pigs. We got full wind of it this morning.

Finally, I got my appendix out and a new washer put it. The washing machine in this new place wasn't working too good. Last week I put four shirts into the bowl, pulled the chain and they just disappeared.

Your sister, Mary, had a baby this morning. As yet I haven't heard if it is a boy or a girl so can't tell whether you are an Aunt or an Uncle.

Your Uncle Dick has drowned. He drowned in a vat of whiskey in a Polish Brewery. Four of his work mates dived in to rescue him but he fought them off. We cremated his body and it took three whole days to put out the fire.

Kate is now working in a factory. She has been working in the same shift since it started.

Your father has not had much to drink lately. At Christmas I put a bottle of castor oil in his mug of beer and it has kept him going till New Year.

I went to the doctor on Thursday. Your father came with me. The doctor put a small glass tube in my mouth and told me to keep it there for ten minutes. Your father offered him a hundred dollars for it. Ridiculous!

It rained only twice last week. First for three days and then for four.

Yesterday we had a letter from the undertaker. He claims if the last installment is not paid immediately on your grandmother's grave — up she comes.

Your loving Mother

P.S. I was going to enclose \$10.00 but I had already sealed the envelope.

## FINANCE COMMITTEE REPORT 1991

The Finance Committee wishes to thank each one of you for your generous giving, continued support and loyalty to our Alumni Association. All contributions received after the Bulletin goes to the printers will be gratefully accepted and acknowledged. However, your names will not be listed in the Bulletin as a contributor.

So far this year we have received 17 matching gifts. The total contributions for all funds from January 1st to press time, (including matching and memorial gifts, general, scholarship and relief funds) were \$25,260.94.

**Frances E. Butler Pangburn**, 39 South 4th Street, Lewisburg, PA 17837. I'm sorry I couldn't be with you to celebrate our "100th" anniversary but I don't travel as much as I have in the past. My health is good, and I enjoy having my family and friends visit with me. Warmest regards to all the Alumni. I hope you had a good time at your luncheon.

**Class of 1926**

**Anna F. Sickler Polk**, 15340 Jackson Drive, Leisure City, FL 33033. My sister Norma Sickler Bond passed way January 4, 1991, she was 80 years old. She passed her nursing state boards in the early thirties.

**Class of 1927**

**Lorraine Knoll Mayers**, Grace Community — 133, Myerstown, PA 17067. I am living in a retirement community since December 1990. I send greetings and best wishes to all my classmates of long ago. I would like to hear from them.

**Myrtle Stickler Lee (Reuben)**, 301 McMechen Street #1204, Baltimore, MD 21217. Hello to all my classmates.

**Martha E. Riland**, Logan Square East #802, Philadelphia, PA 19103. I am living comfortably in a retirement community.

**Pauline McElwee Gillen**, 133 Pythian Avenue, Torrington, CT 06790. In May 1991 I moved to Connecticut to live with my son and his family.

**Class of 1928**

**Mary A. Stauffer Malick**, 802 Broad Street, Apt. 20-A, Selinsgrove, PA 17870. Laura Carleton Short, a member of my class lives in Pennsfield apartments with me. She lives across the hall. We both live on the first floor and play pinochle on Saturday nights in the social room. We also attend the senior center one day a week. We have been close friends since 1924. Laura is from Montrose, Pennsylvania.

**Class of 1929**

**Joyce Frantz**, 17 Maple Place, Hicksville, NY 11801. As a minister I discovered there is a power in the universe greater than I am and I can use it.

**Hazel Besecker Beach (Justice H.)**, 750-C Menno Village, Chambersburg, PA 17201. I was 87 years old on July 31st. I never expected to live that long. Glad we are here at Menno Haven — a beautiful retirement home.

**Class of 1930**

**Marian Lewis Petrosky**, 1806 Brady Lake Road, Kent, OH 44240. I am in my 80 something — and thank the Good Lord I only visit Nursing Homes. I take care of myself, my home and my garden. So far life is beautiful. I'd like to see Jefferson once again, but if I don't I have wonderful memories.

**Ruth Sellers Johnson**, PO Box 2886, Sarasota, FL 34278. August 28, 1990 I had a total hip (left) replacement. This is my second, the right one was done at Cooper Hospital in Camden, New Jersey. I am coming along as well as can be expected for an 82 year old gal.

**Class of 1931**

**Evelyn Reeser Arnold (Walter)**, 23287 Blue Water Circle, Boca Raton, FL 33433. I had to make the difficult choice of coming to Jefferson or being with our family of 3 children and spouses, 7 grandchildren and spouses, and 6 great grandchildren ages 1 to 9 for a week together to celebrate our 60th wedding anniversary June 2-9th. I will be with you in spirit and have always been proud to say, I am a graduate nurse

from Thomas Jefferson University School of Nursing now celebrating its Nursing Centennial.

**Dorothy T. Peterson**, Paul's Run, Apt. A-239, 9896 Bustleton Avenue, Philadelphia, PA 19115. Little did I think I would live to celebrate my class's 60th birthday nor the 100th anniversary of the School of Nursing. I am sorry I am not able to attend the festivities, but will enjoy reading about them in the bulletin.

**Mary R. Crowe Murtha**, 25 Grandview Avenue, Pleasantville, NY 10570. Nothing new with me this year. Wish I was near enough to attend the celebration activities.

**Virginia Emmert Leo**, 3300 Darby Road, Elm 3323, Haverford, PA 19041. I was so happy to attend this year's annual luncheon, especially since it was my 60th year reunion.

**Helen Walp Hubbard (Alfred)**, 126 Montgomery Street, 1-C, Highland Park, NJ 08904. I was so happy to attend our 60th reunion. How fortunate we are to be able to be a part of this reunion on the 100th anniversary of the establishment of the Training School for Nurses. Best wishes to all.

#### Class of 1948

**Rachel Irvine Herbert**, 26525 via Juanita, Mission Viejo, CA 92691. I retired from nursing in 1987 at 65 years of age, and moved to sunny California to live with my daughter Diane and grandson. I spent 16 years at Crozer-Chester Medical Center and 23 years at Phoenix Steel Corp., where I wrote a procedure manual and a 3 shift nurses schedule. I received an award for performing a life saving procedure on a Phoenix employee. I was active in Delaware Valley Occupational Nurses Association. I am currently very active as a docent (tour guide) in a Historical Park, secretary of the Rancho Viejo Woman's Club, Federated, AARP, Saddleback Historical Society, Saddleback Senior Club, and in my church. I house sit for extra money to spend in Las Vegas, and I travel a lot. I have had an M.I. and two angioplasties. They were hardly a pause in my busy life. Praise be to God!

**Inez Cornelius Miranda** (William), 22 Rampart East, Media, PA 19063. Seventeen members of our January '48 class gathered at my home on October 31, 1990. We enjoyed a great day of fun and fellowship.

**Betty L. Johns Budrow**, 345 Cherry Street, Pottstown, PA 19464. My husband Leon passed away very suddenly June 16, 1990. We all miss him terribly. His son George and wife Lisa have a new baby, Leon George, born 2/10/91. I have started volunteer work one day a week in the E.R. of the local hospital, a most rewarding experience.

**Mercedes Geil Weber** (Stephen), 436 Fairview Avenue, Penndel, PA 19047-5514. Congratulations on the 100th Anniversary for Nursing at Jefferson!! I'm proud to be a "Jeff" graduate. I continue to work every other week-end in a nursing home. Geriatric nursing is challenging and interesting. Despite my husband's many illnesses, he continues to remain as active as possible with his gardening hobby. Our daughter and son-in-law continue to do well in their fields of work.

**Aileen R. Hickey Wapner** (John), 3635 Fox Run Drive, Allentown, PA 18103. We are the grandparents of 7½ grandchildren. We have 5 children and they all live in the Allentown area except one who lives in Downingtown.

Jose is still as busy as ever in the practice of Internal Medicine and Cardiology. J.D. is with Marathon Oil in Houston, Texas as a geologist. John as a Public Defender in Tampa, Florida. Jeff is in Marketing for Pizza Hut in South Florida, Jim is an interior designer for Parbel, a French Firm, in their international division and does a great deal of traveling. **Nancy Weikel Ritzman** (E. Roland), 226 Willow Valley Drive, Lancaster, PA 17602. Six of us from our class vacationed in Cape May, New Jersey in September 1990. We did this also in September 1948. It was great visiting and enjoying time together, after a 42 year interval.

You cannot imagine how many times I think of all of you and one day I will get around to writing.

**Elsie Skvir Nierle** (Richard), RD 1, Box 550, Montgomery, PA 17752. Hello to all friends and classmates at Jefferson. We reminisce our student days at Jefferson at every opportunity.

**Helen Daugherty Barrett** (Lewis), 588 Lynn Avenue, Woodbury, NJ 08096. Congratulations to the School of Nursing on its 100th anniversary. I'm very proud to be one of its many graduates. My husband and I celebrated our 40th anniversary in June 1990.

**Louise Dietz Strayer** (Kermit), 362 S. Charles Street, Dallastown, PA 17313. Kermy and I spent an exciting day in March visiting with Mary Levinsky and her sister Ruth. They were great hostesses and tour guides, as they drove us around Jupiter and Palm Springs in Florida. It is great seeing classmates.

**Priscilla Kresge Nicholson** (Samuel), 4903 Canyonwood Drive, Austin, TX 78735. My husband and I have recently returned home after spending two years teaching in the People's Republic of China.

**Jane E. Beard Davison** (William R., M.D.), 145 Glen Cannon Drive, Pisgah Forest, NC 28768. Bill is still practicing orthopedics. We're living in North Carolina and probably will retire here. We have a new grandchild on the way (due in December), that will make three. All is well.

#### Class of 1950

**Margaret Henry Jones** (Donald E.), 3117 Catherine Avenue, Allentown, PA 18103. I have finally retired after working 38 years full time in O.R. Now I have been caring for my parents this past year. My mother died in November 1990, but I still have my father with me. Along with baby sitting for 7 grandchildren I keep very busy.

**Jean Hohe Larkin**, 1150 N. 16th Street, Allentown, PA 18102. I hope to retire at the end of 1991. I'm still doing oncology nursing at Sacred Heart Hospital in Allentown.

**Helen Sheriff Rightor** (John), 210 Beechwood Drive, Oil City, PA 16301. Our youngest finished Penn State last fall. We became grandparents for the first time, the kids are in California. It's nice to qualify for the airline "grandparent tickets."

**Jane Heffelfinger Whipple** (Harry), 112 Centerbrook Road, Hamden, CT 06518. I'm still working part time in our angioplasty unit at Yale New Haven Medical Center, New Haven, Connecticut. Six private rooms for pre-heart transplant patients were opened in June. Harry and I travel whenever we can. We're still at 7 grandchildren. Retirement may happen in the fall.

**Barbara Fisher Ackerman** (Dr. F. Eugene), 444 Roland Avenue, Pottstown, PA 19464. I am working as a clinical analyst for a clinical service company in Blue Bell. **Mary Louise Moore Brumbaugh** (Simon C., Jr., M.D.), 7337 Central Avenue, Lemon Grove, CA 91945. It was great seeing everyone at our 40th reunion in May 1990. I plan to attend with my husband his 40th this year from Jefferson Medical College.

**Sara Young Konstanzer**, 132 Delview Drive, Wilmington, DE 19810. I'm still working at Kendal at Longwood as the 3-11 supervisor. Daria, Robert, and Paul are all happily married and Linda is still at home.

**Clara C. Richardson Flynn** (Owen), 9021 Mojave Drive, Sacramento, CA 95826. Owen is officially retired from the Air Force (27 years) and the Sacramento County Sheriff's Department (20 years). I'm considering retirement so we can travel together. But for today I'm still working in the Elk Grove Convalescent Hospital as director of Staff Development. I tried to join the Navy during the build-up in the Gulf, but was told I was just a shade past the age limit. For anyone who is interested, I would recommend the service. It's an experience learning to live, and ripen, and to give back something to Your Country. Four years are not so long, and when you grow to be a "senior citizen" you can amaze your grandkids with assorted stories and pictures of gramma in the plexiglass nose of a B-26!! I do have fond memories of the Air Force.

**Eleanor Mannino Reibel**, PhD., R.N. (Kurt), 4514 Loos Circle, Columbus, OH 43214. After many years as nurse educator and assistant director of Ohio Board of Nursing, I retired. **Rebecca "Becky" Fox Cella** (Robert), 56 Island Park Avenue, Ramsey, NJ 07446. At last, with mixed feelings, I look forward to retirement after 25 years as Nurse/Health Educator in a middle school. My advanced degree, etc. is actually mental health and I've maintained a small private practice in psychotherapy for the past ten years. When my school job ends I hope to beef up my practice, but more importantly, to have TIME to re-connect with the many persons who have touched my life along this fast track journey. My ultimate hop is to slow down and really "smell the daisys."

**Phyllis M. Haney Heim** (Paul), 1307 Jefferson Avenue, Lewisburg, PA 17837. I've finally completed a BS Degree! Earlier I went back to school for an Associate Degree in Art (1979) and last August (1990) a BS in Health. I'm working full time as a director of staff development at a Tressler Lutheran Service LTC facility. We have five married daughters, the fifth one was married in September 1991. That's my next task and all ideas will be appreciated.

#### Class of 1954

school nurse, and we're still farming. I continue to enjoy having our family nearby, our daughter, son-in-law and 3 grandchildren.

**Jane Snyder Wilgus** (Donald L.), PO Box 93 Bethany Beach, DE 19930. I haven't done any nursing for the past 10 years. Golf has taken up a lot of my leisure time. We have 7 wonderful grandchildren and are discovering more and more that this is a great time of life!

I needed to settle down for some re-evaluation of life. Since my husband died 3 years ago, I have traveled extensively. The world is too volatile for present day travel. My Community is a "Senior Utopia" except for aging illnesses. Perhaps I'll learn something, or at least put what little I know to some positive service.

**Noreen King Poole** (William E.), 162 Hampton Circle, Jupiter, FL 33458. Bill and I are preparing for retirement to Prescott, Arizona in late '91 or early '92. I will be retiring from Palm Beach Community College in June, I know I will miss nursing and teaching, but I hope to use my skills as a volunteer in the years to come. We now have 3 grandchildren living in California and Arizona, so I need to develop some "grandmothering" skills too. Best wishes to all.

**Margaret Milotich Martin** (Jack), 2412 131st Place N.E., Bellevue, WA 98005. Life is good here in Washington but still more hectic than I'd like it to be. Our daughter Lisa R.N., lives in Chicago, married to a 3rd year medical student, Patrick, who was missing since 10-5-90. Amy (26) Bucknell '86 works at Provident Bank in Philadelphia and lives in Narberth. Our son Dr. Wally F. Bloes (30) is chief resident in oral maxillofacial surgery at Albert Einstein in New York. If any of you should happen to pass through Central Florida (Lake Wales), we would love to hear from you.

Both of them have had recent job changes. I had the thrill of my life, I found my roots in Germany. In 1853 my mother's side of the family set sail for the new world. I continue to work on the Retention Recruitment committee for Nurses plus the Clinical Ladder committee and take

additional training in the O.R. for the heart program which started in February at Northwest Community Hospital, Arlington Heights, Illinois. In July Ray and I plan to go to England with the Stiles Family of America. I will be group leader to assist the official guide. I'm working on weekends and at Lower Bucks Hospital in the CCU and one day a week in the E.D. Hi to Sue S., Kathy S., Debbie C., Terrie F.M., and Patty F.C., where are all of you? My love and prayers to all of the class of '82. See you all at our 10th reunion.

**Barbara A. Kominsky Leone** (Chuck), 193 Leonard Avenue, Clarksboro, NJ 08020. I'm director of Nursing/Case Management with Medplex Outpatient Rehab. I work with traumatic brain injury survivors. I'm married 9 years, we have two sons, Carman (7) and Joseph (5½). Chuck is working as Prison Warden.

# The History of the Jefferson Cap

Jefferson graduated its first class of nurses in 1893. At that time the cap that was worn had a high crown and a wide brim with ruffle around the brim. It was made of a delicate material called "lawn", similar to material used to make handkerchiefs. The cap resembled the Philadelphia General Cap, which at that time was made of a similar material.

In 1894, Susan Hearle, a graduate of Philadelphia General became Directress of Nurses at Jefferson. When she noticed the similarity between caps, Miss Hearle decided that Jefferson Nurses should have their own distinctive cap.

The crown was lowered, the ruffle was removed and the brim was narrowed, flattened and spread like wing tips, across the front of the cap. The material was changed to organdy which gave the cap more body.

In 1932, the cap was worn with the brim starched and the wings made to stand out—that is the way we wear it today.

Initially, it was traditional to earn the cap by passing the six month probationary period. Now the cap is given to the student to wear as soon as she enters the school.

This was a great responsibility for the student, knowing that the Nurse's Cap originated historically from the veil worn by women who traditionally covered their heads in public, and the cap is a symbol of humility and service to mankind. A responsibility because the Jefferson Cap is recognized and respected the world over, being worn by more than 4500

graduates of the school; many of whom earned their cap and consider it an honor to wear it. (With the closing of the School of Nursing in June of 1982—the total number of graduates will be 5,078).

The student is entrusted with the cap and must wear it with dignity and respect for the tradition that is to be upheld. (The above article was presented at Capping Exercises for the Class of 1982, by Patricia Zarella '51, R.N., B.S.N., Instructor School of Nursing, September 1958 to July 1980).

## RENDEZVOUS

I cannot do my work today,  
A butterfly is on the fence,  
And though I try to concentrate,  
I've given up the dull pretense.  
How can I think of anything,  
When skies are blue and clouds are white,  
And crystal waters ripple so,  
And little forest trails invite?  
I have a rendezvous to keep,  
With long-awaited spring this year.  
Oh, do not scold me if I seem,  
A little absent-minded, dear!  
There is a sunny, windblown hill,  
Just waiting there for me to climb.  
Pack up a lunch and come with me,  
There'll never be a better time.  
Look how the ivy hugs the wall,  
See how the squirrels run and play!  
I am a miser who cannot  
Afford to waste a single day!  
Oh, can't you feel it everywhere?  
Impossible, it's only me,  
Caught up within the age-old charm,  
Of springtime's flowered sorcery!

Grace E. Easley

## JUST A LITTLE BIT MIXED UP

Just a line to say I'm living,  
That I'm not among the dead,  
Tho' I'm getting more forgetful  
And more mixed up in the head.  
For sometimes I can't remember  
When I stand at foot of stairs  
If I must go up for something,  
Or I've just come down from there.  
And before the frig, so often,  
My poor mind is filled with doubt,  
Have I just put food away,  
or have I come to take some out.  
And there's time when it is dark out,  
With my nightcap on my head,  
I don't know if I'm retiring,  
Or just getting out of bed.  
So, if it's time to write you,  
There's no need of getting sore,  
I may think I have written,  
And don't want to be a bore.  
So remember I do love you,  
And wish that you were here,  
But now it's nearly mail time,  
So I must say, "Goodbye, Dear."  
There I stand beside the mailbox,  
With my face so very red,  
Found I didn't mail your letter,  
I opened it instead!

## Weather Lore

Whether it's cold or whether it's hot . . .  
We shall have weather, whether or not!

Evening red and morning gray  
speed the traveler on his way.  
Evening grey and morning red  
bring down rain upon his head.

It rains as long as it takes rain to come.

Rain, rain go away . . .  
Come again another day.

When the dew is on the grass,  
rain will never come to pass.

When sea birds fly to land  
there truly is a storm at hand.

Year of snow . . .  
fruit will grow.

The chill is on, near and far,  
in all the months that have an "R".

Ice in November  
to walk a duck,  
the winter will be  
all rain and muck.

From twelve till two  
tells what the day will do.

Rain before seven  
quit by eleven.

Rainbow at noon,  
more rain soon.

Rainbow in morning, shepherds take warning;  
rainbow at night, shepherds' delight.

Rainbow in the east, sailors at peace.  
Rainbow in the west, sailors in distress.

When a cow tries to scratch her ear  
it means a shower is very near.

No weather is ill,  
if the wind is still.

The more rain, the more rest . . .  
fair weather's not always best.

A sunshiny shower won't last half an hour.

The sharper the blast, the sooner it's past.

News and weather . . . they travel together.

To talk of the weather  
is nothing folly;  
when it rains on the hill,  
it suns in the valley.

Yellow streaks in sunset sky,  
wind and day-long rain is nigh.

The south wind brings wet weather;  
the north wind, wet and cold together;  
the west wind always brings us rain . . .  
the east wind blows it back again.

When the morning sun is red . . .  
ewe and lamb go wet to bed.

Onion skin is very thin  
mild winter is coming in.  
Onion skin is thick and tough  
winter will be cold and rough.

Clear moon, frost soon.

The moon and the weather may change together,  
but change of the moon does not change the weather.

Pale moon doth rain,  
red moon doth blow,  
white moon doth neither rain nor snow.

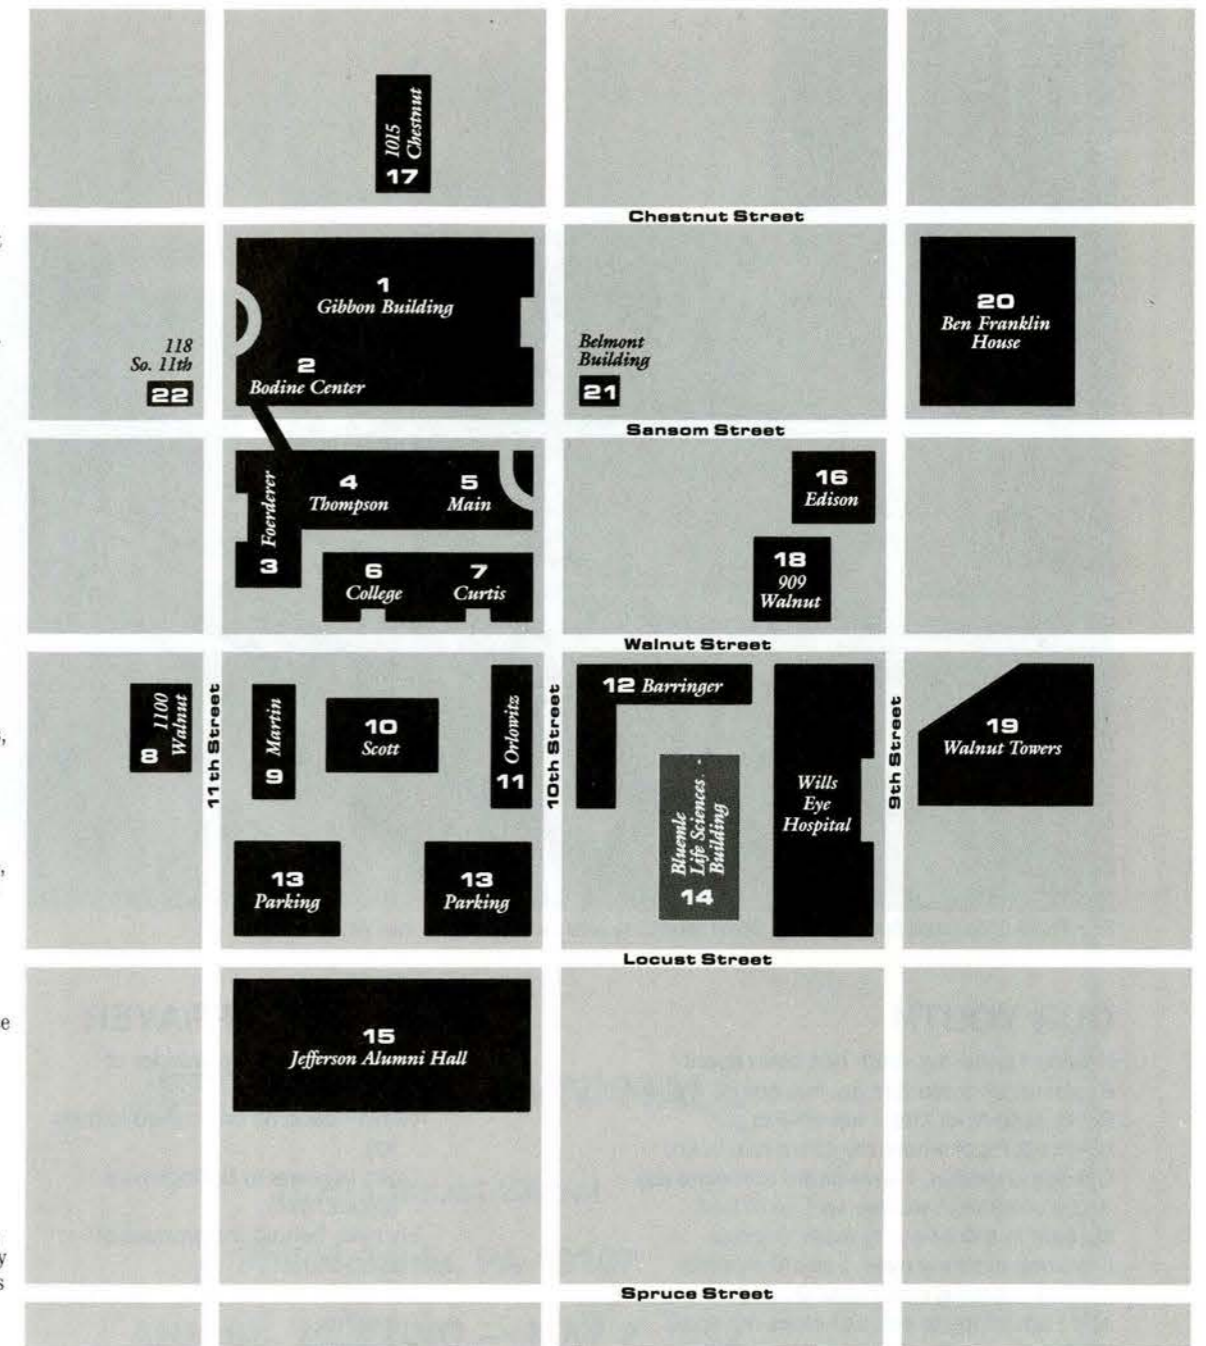

When the stars begin to huddle  
the earth will soon begin to puddle.

According to old lore, rain is coming if:

1. Birds sit on telephone wires.
2. Cats sneeze.
3. Dogs refuse meat.
4. Fireflies fly low.
5. Bees stay in hives.
6. Pigeons fly slowly.
7. Tarantulas crawl in daytime.
8. Horses grin.

### OUR YOUTH

How do I know my youth has been spent?  
 Because my getup and go, has got up and went!  
 But in spite of all that; I am able to grin  
 When I think of where my getup has been;  
 Old age is golden, I have heard someone say.  
 And sometimes I wonder as I go to bed.  
 My ears in a drawer, my teeth in a cup  
 Ere sleep dims my eyes, I say to myself;  
 Is there anything else I should lay on the shelf?  
 And I am happy to say as I close my door,  
 My friends are the same as in days of yore.  
 When I was young my slippers were red  
 I could kick my heels way over my head.  
 When I grew older my slippers were blue  
 But I could dance the whole night thru.  
 Now I am old, my slippers are black  
 I walk to the corner and puff my way back.  
 The reason I know my youth has been spent  
 My get up and go, has got up and went.  
 But I really don't mind; when I think with a grin  
 Of the places my getup has been.  
 Since I have retired from life's competition  
 I busy myself with complete repetition.  
 I get up each morning; dust off my wits  
 Pick up my paper and read the obits.  
 If my name is still missing, I'm sure I'm not dead  
 So I eat a good breakfast and go back to bed.

### A POET'S PRAYER

Let me not lose the wonder of  
 this earth  
 When I become enmeshed in daily  
 toil.  
 Open my ears to Springtime's  
 joyous mirth,  
 My eyes behold the promise of  
 the soil.  
 Let me remember quiet mountain  
 heights,  
 Or dusk who folds her wings above  
 the sea.  
 Awake to crystal dawn's first  
 freshening lights,  
 These things made life so beautiful  
 for me.  
 Give me the faith to see beyond  
 all fears,  
 And wisdom for each trial that  
 meets my day.  
 Teach me the words to halt my  
 brother's tears,  
 And find the courage in truth's  
 shining way.  
 Of all my prayers, Lord, grant me  
 this one part,  
 The understanding of a loving heart.
