A MESSAGE FROM THE PRESIDENT

It has been my privilege and pleasure to serve as the President of this Alumnae Association for the past several months.

I am happy and proud to announce that this past year the Alumnae Association has fulfilled its pledge of \$25,000 to the Building Fund. An Alumnae Room for the Association has also been provided by the hospital.

I would like to thank all who have helped me and ask for your continued cooperation and support throughout the coming year.

Following the resignation of the elected president, Gladys Keiper, it was the unanimous vote of the Board of Directors that I complete the unexpired term of office.

Sincerely yours,

REPORT TO ALUMNAE ASSOCIATION

As another year closes its books, I am pleased to have an opportunity to review with you some of the advances made at your Alma Mater.

Many of the plans for the progress at Jefferson have reached fruition during the past year while many more are in progress and plans for still others are in the discussion or blue print stages. We have been moving forward at such a rapid but steady pace that it isn't until data are being compiled for a report that one realizes how much has been accomplished in twelve short months.

At the time of our reunion last year, Jefferson Hall was nearing completion. This building, unique in design and function is now in use. It occupies a city block, stretching from Tenth to Eleventh Street on Locust. The student nurses enjoy the dining facilities as well as the swimming pool and game room just as do the medical students. The first function in the Student Social Lounge was a Tea given by the Hospital Director for the senior students who were returning to work on Jefferson's Nursing Staff. The building is impressive in its appearance and the design, and the appointments are beautiful and provide an atmosphere conducive to rest, study, and recreation.

In the Hospital, the new Emergency Room was opened for "business" in April. Some members of the Alumnae toured this unit after the Luncheon in May. This unit was constructed on a floor which didn't exist a few years ago. It occupies a part of the Old Amphitheater, the "Pit," on the level of the first floor, as well as the former nursing offices and mail room. Examining and Treatment Rooms, X-ray and Laboratory facilities to name a few, provide services to patients not possible in the former Accident Ward. Offices and conference rooms are such that they permit the staff opportunity to confer with patients and their relatives, and with students assigned to this service. The fact that the Emergency Room is well accepted by the public and the Philadelphia Police is supported by the vastly increased number of patients coming, or being brought to Jefferson.

The Sixth Floor, Main Building, has been renovated to provide more attractive accommodations for patients, and improved facilities to enable physicians and nurses to care more easily for their patients. The Fourth Floor, the last remaining stronghold of open wards at Jefferson, is currently being renovated to provide two-bed cubicles for patients to ensure greater privacy for the individual patients. In addition, new bathroom facilities, utility rooms, and pantries are being constructed. The Women's Board has contributed heavily to these projects. Their support to patient care at Jefferson has aided Jefferson to move ahead in the renovation of the older sections of the Hospital.

Another "first" for Jefferson is the Orlowitz Residence Building—a twenty floor apartment complex primarily intended for students, and as space is available, for house staff and staff nurses. The building is located at the corner of Tenth and Walnut Streets, opposite the Curtis Clinic Building. Two hundred and thirty-nine apartments provide one, two, and three bedroom units. Attractive draw drapes are coordinated with wall-to-wall carpeting throughout. The most modern appliances in bathrooms and kitchens have been installed and the entire building is air-conditioned. A landscape terrace in a sunken court provides space for sunning, recreation, and a children's play area. A large meeting room is adjacent to this sunken patio. It is small wonder that these apartments were oversubscribed before the building was even near completion.

The goal for Jefferson of the future, as stated by President Herbut, is the founding of Thomas Jefferson University. The fulfillment of this goal is coming closer and closer. The first step in this direction was the establishment in January 1967 of the School of Allied Health Sciences. In January of 1968, the School of Nursing, the School of Practical Nursing, as well as several other teaching programs, were transferred from under the Hospital umbrella to the School of Allied Health Sciences. We believe that Jefferson as a teaching institution must assume even greater responsibility for the preparation of health field professions, physicians, nurses, therapists in many fields, as well as persons engaged in health occupations. Jefferson, cognizant of her responsibilities, has planned for such educational preparation and training in her expansion to a university status.

Last August, Mr. Maurice P. Coffee, Jr., resigned as Hospital Director, and in September, Dr. Francis J. Sweeney, Jr., was appointed to this position. Dr. Sweeney is well-known around Jefferson's halls, and in turn, he knows the institution from top to bottom. His interest in the School of Nursing and its students has manifested itself in many aspects over the years he has been at Jefferson.

Another of our graduates has been promoted during the past year. Violet Smith Orland was appointed to the position of Director of the Central Sterile Supply Department. Under her leadership the Department was reorganized and is functioning effectively from the standpoint of improving and increasing patient services and in increasing revenue to the Hospital.

The establishment of Inhalation Therapy Services as a separate Department has been another forward move. This Department is now headed by Mr. John Kagen, Registered Therapist. The objective of this Department is to help physicians to give better and more effective care of patients. This includes the administration of medical gases except anesthetics using a variety of simple and complex equipment, assisting in the mechanical ventilation of patients and the treatment of patients with various forms of cardio-pulmonary disease.

The foregoing describes in capsule form only a few of the new trends within Jefferson's walls. Another exciting trend is Jefferson's increasing involvement in community affairs and problems.

A short time ago, an agreement was reached between Jefferson's Department of Pediatrics and the Family Service of Philadelphia under a Children's Bureau grant. In this program, emphasis was shifted from the conventional medical center with an acute disease hospital at its core, to a Community Health Center with out-patient and community services which are related to neighborhood service

centers of which health activities are a part. In this program, children under nineteen years of age in two small communities receive health services including social work and homemaker services. The headquarters for this program are located at 1332 Fitzwater Street. It has been most successful.

More recently, Jefferson established a Community Mental Health Center at Twelfth and Walnut Streets. This program includes diagnosis and evaluation, inpatient and outpatient services, day treatment and emergency services, education, and community programs in rehabilitation and after-care services.

While these two programs involve the Community in clinical related services, another program is in the investigational stages to provide education opportunities for youth, particularly in the disadvantaged areas.

In order to acquaint the young people of Philadelphia in Health Careers, a

program jointly sponsored by the Hospital through the Director of Volunteers, Miss Charlotte Day, and the Women's Board, was held in November. This program provided for a general orientation to the health career field, followed by conference groups to acquaint the students with eleven specific career opportunities. Some of these were Nursing, Practical Nursing, Pharmacy, Medical Records, and Inhalation Therapy. The program was so successful that four similar programs are being planned for this year.

We are happy to report some of the major accomplishments made at Jefferson during recent years and particularly during this past twelve months. A description in writing of these events is insignificant in comparison with first-hand visual knowledge of the changes made. For this reason, we hope that you will visit us, to see for yourselves, the new look at Jefferson. You are always welcome and we shall look forward to hearing from you.

JEFFERSON MEDICAL COLLEGE AND MEDICAL CENTER
SCHOOL OF NURSING
ANNUAL REPORT TO ALUMNAE ASSOCIATION

1967-1968

There are currently 236 students in the School of Nursing, 83 of whom were admitted into the School in September 1967.

Recruitment of students into diploma schools of nursing is presently a problem which all diploma schools of nursing are experiencing, and Jefferson is no exception. We believe this problem was caused by the misunderstanding of the position statement on nursing education published by the American Nurses' Association in December 1965. This statement suggests that all programs for the health professions be in institutions of higher learning. The statement unfortunately did not clarify that there should be orderly transition as community nursing needs are met. The statement has been widely misinterpreted by guidance counselors and, in turn, by parents and students. Since we are in a college bound generation anyway, this has created a tragic dilemma for hospital schools of nursing.

Jefferson has taken steps to initiate some aspects of the American Nurses' Association position statement through its transfer of educational activities from the hospital to the newly created School of Allied Health Sciences. The transfer occurred on January 1, 1968, with Dr. John W. Goldschmidt as Dean of the School of Allied Health Sciences. At the present time this School includes the School of Nursing, Practical Nursing, Medical Technology, X-Ray Technology,

and Pharmacy. The transfer of educational activities is designed to bring about co-ordination, expansion and reinforcement of the instructional programs, faculties and facilities for all health career students. The formal agreement with the Philadelphia College of Pharmacy which occurred on April 10, 1968 is expected to further enrich this program.

We now have 25 nurse instructors and three non-nurse instructors on the faculty of our School of Nursing, in addition to the Medical College faculty who teach the basic sciences. Our five budgeted vacant positions will be filled by September 1968. Three of our graduates who have been attending school full time are scheduled to assume faculty positions in June. The committee structure of the faculty organization permits each member to participate in the development of the program.

Our most recent innovation in teaching has been the purchase and initiation of the use of a videotape recorder to be used with our closed circuit television equipment which was purchased several years ago. Miss Patricia Zarella, Nursing I co-ordinator, is responsible for the development of the use of this equipment. She and her assistants, Miss Vicki Gobrecht and Mrs. Lenora Schwartz, already have developed tapes on tracheostomy care, colostomy care, colonic irrigation care, Wangenstein suction, and the use of IPPB. We plan to extend the use of this method of teaching as applicable throughout the curriculum. While it is expensive, it will permit us to take advantage of top quality instruction during the time it is available to us. In view of the critical shortage of qualified nurse instructors, we see this as a definite advantage.

For the first time in many years, we were able this year to employ a qualified guidance counselor. Miss Margaret Mackenzie, a graduate of the School, assumed this position following the completion of her master's degree in counseling and guidance at Temple University. Miss Mackenzie is responsible for the counseling program including recruitment, and for the coordination of all social activities.

We were visited on April 2 and 3, 1968 by the State Board Consultant for continued approval. She highly commended the administration and faculty of the School for the continued progress and strengths noted in the school program.

Student activities this past year were many and varied, as you will note in the report of the Student Council president. Students are looking forward to the use of the Jefferson Hall Commons, which will offer many additional recreational opportunities.

Commencement exercises were held on Saturday, September 9, 1967 in the ballroom of the Sheraton Hotel. Miss Jane Wilcox, Executive Secretary, Epidemiology and Disease Control, Division of Research Grants, National Institute of Health, Bethesda, Maryland, was guest speaker. Her message to our 90 graduates was stimulating and timely. Laurie Pollock was the recipient of the Jefferson Medical College Hospital Nurses' Alumnae prize and Susan Good was the recipient of the Thomas A. Shallow award.

We, at Jefferson, are proud of our graduates who, in turn, as alumnae have been such a cogent factor in providing stimulation and direction in the development of the School of Nursing. We hope that you will continue to support us in the recruitment of students as well as faculty for our School, and that some of you might possibly be interested in joining the staff of the School of Nursing in the development of your Alma Mater.

Respectfully submitted,
Director, School of Nursing
DORIS E. BOWMAN

SCHOOL OF PRACTICAL NURSING ANNUAL REPORT TO ALUMNAE ASSOCIATION

The School of Practical Nursing of the Jefferson Medical College and Medical Center has graduated ninety-six women as of July 11, 1968 after three and one half years of operation. This number of graduates represents six classes entering at approximately six month intervals and the classes have varied from 15 to 26 entering students. We anticipate the entrance of our largest class of thirty students on August 21, 1968. A sizable number of graduates of the first five classes are still employed by Jefferson Hospital and the faculty has reason to believe that they have contributed a great deal to the progress made by this category of nursing service personnel within the Nursing Service Department.

As the year 1968 began, this school along with the School of Nursing changed affiliations within the Medical Center from the hospital to the newly created School of Allied Health Sciences. No great changes have resulted to date from this transfer since many details must be settled as this new school develops for allied health fields of all types. Since a number of our graduates have found encouragement to continue their education on a professional level it is hoped that sometime in the future it will be possible to encourage them to remain at Jefferson rather than going to other educational institutions to fulfill their desire to become registered nurses.

THE JEFFERSON MEDICAL COLLEGE AND MEDICAL CENTER SCHOOL OF NURSING STUDENT ACTIVITIES ANNUAL REPORT FOR ALUMNAE BULLETIN 1967-1968

The year began with the entrance of the Class of 1970 on September 11, 1967. Student Council presented each girl with a welcoming folder containing the Student Handbook; they also entertained them at a Welcome Party. During the first year of school the freshmen were also entertained at a Big and Little Sister Party.

S.N.A.P. activities took place throughout the year with several highlights. The first was the S.N.A.P. Area #1 "Nursing Bowl" held at Episcopal Hospital, November 14, 1967. Competing with Einstein and Temple Schools of Nursing, Jefferson students, Miss Rosalyn Feller and Miss Shirley Dubis won the contest; for their achievement they were presented with a Silver Revere Bowl which is on display in the trophy case of the residence. With the help of liberal funds from the Alumnae Association, Jefferson School of Nursing sent three students Misses Donna Buscher, Hope Russo and Shirley Dubis to the S.N.A.P. Convention in Lancaster, November 27-30. April 17th S.N.A.P. Area #1 held its Mock Convention at the Marriott Motor Lodge. Jefferson sent five delegates, including Miss Marie Seebauer who was Jefferson's representative in the competition for Outstanding Student Nurse of S.N.A.P. Area #1. S.N.A.P. activities for the year concluded with the N.S.N.A. Convention in Dallas, attended by Misses Elvira Paoletti and Kathleen Logan; funds for this trip being once again aided by the generosity of the Alumnae Association.

Several other additions have been made to the trophy case due to the fine teamwork of the Basketball Squad. They had an undefeated season and on April 2, 1968 won over Cooper for the League Championship. For their outstanding achievement they were presented the League Trophy, which becomes the property of the school winning it three times; the League Championship Trophy; and the Pennsylvania American Legion Trophy. As a final conclusion for the victors, a banquet was held on May 21st at the Pub Tiki for both the team and the cheerleaders.

The Newspaper Club made themselves busy throughout the year publishing approximately five additions. To raise funds for their publications they sponsored two Sundae Parties which were deliciously enjoyable. For the seventh year the Newspaper Club sponsored the Miss Jefferson Contest. In March, Miss Marie Seebauer, a Junior student, was selected on the basis of nursing ability, talent, and personality to bear the title, "Miss Jefferson 1968."

The Freshman Chorus participated in a number of activities. They sang at the Practical School of Nursing Graduation and several homes for the aged; participated in the Tree Lighting Ceremony and carol singing through the hospital, and are anticipating singing at the graduation in September.

Three dances were held during the school year. The first was the Halloween Dance; music was provided by a band and the unique costumes added to the fun. The Christmas Semi-Formal was a lovely affair and added much to the Christmas spirit. Finally in March, the freshmen started to fill their treasury by sponsoring a Mixer which was well attended and enjoyed by all.

Student Council involved itself with innumerable ways to raise money to sponsor activities of interest for all. Some of these projects included selling fruit-cakes at Christmas, candy bars, holding doughnut sales and selling items in the student store. The resulting activities included not only their dances, but the showing of full length films in the recreation room six times during the year. An Ice Skating Party was held in March at Penn Center Skating Ring which proved to be fun for all.

Class sponsored dinners served the classes as a means of raising funds. As for a number of years in the past, the senior class sponsored the Annual Spaghetti Dinner to raise funds for their yearbook. The freshmen also inaugurated something along this line with a Doggie Frizzle, which was held in May.

The students also participated in various other worthwhile activities through the year. To help make the Christmas season a little brighter for the neighborhood children, the Social Committee sponsored a Christmas Party at Segar Recreation Center which included gifts for all the children. A number of the students also served as tour guides on the Ship Hope while it was in the Philadelphia Port, February 24th and 25th. The Annual "Old Market Fair" sponsored by the Women's Board, May 4th and 5th, provided another opportunity for students to participate; some served as models for the fashion show, others worked in the booths.

Beside the many other activities of the Christmas season mentioned thus far, the Faculty sponsored a Christmas Party for the students which included good food, fun, and of course Santa.

Taking all things together we can say the year was busy, "award winning" and pleasurable for all the students.

Student Council officers for the year 1967-1968 were:

President—Shirley Dubis
Vice President—Carolyn Carey
Corresponding Secretary—Marie Seebauer
Recording Secretary—Christine Mullen
Treasurer—Marion Freeman
House President—Barbara Davis
Social Committee—Carolyn Kinna
S.N.A.P. Representative—Donna Buscher

NURSING SERVICE STAFF ASSOCIATION

The Nursing Service Staff Association has enjoyed another year of successful endeavor.

Our social activities and fund raising projects this year have included the Annual Christmas Tea, Candy Sale and Annual Strawberry Festival.

This year brought a change in the usual meeting schedule. The Business Meetings and the Interservice Educational Programs for professional staff have been combined and are held on the second and third Tuesdays of each month.

Miss Elizabeth T. Heaton, one of our members retired during 1967. She was presented with a charm bracelet at the Annual Christmas Tea.

Representatives were sent to the Pennsylvania Nurses' Association Convention in Lancaster, Penna. and to the American Nurses' Association Convention in Dallas, Texas.

The Association has grown in the last year and with the continued support of its members we trust that it will continue to do so in the future.

LETTER FROM VIETNAM

Christmas, 1966

Well, like I said last Christmas, you would find me in Vietnam this year and sure enough. Can think of no more satisfying place to celebrate the birth of the Savior of mankind. Time has that forgiveable habit of slipping by unnoticed, and in another 3½ months I'll be packing again and wondering where to next. It was only yesterday, April 10th, that I stepped off the plane in Saigon to have the oppressing heat knock my breath away, blackout to grope my way through, and machine guns, M-16s, and M.P. guards to remind me that I've landed in a country at war. Didn't take long for the war part to ring home, for 36 short hours later, Tan Son Nhut was mortared and I saw casualties of such numbers you only study and hear about. In 30 short minutes we counted 83, and our personnel were yanked out of bed in the wee hours of the morning not to return until late the next nite, and only then to collapse with exhaustion. Now I'm no teenager that can burn the candle at both ends, and all I could think of as we worked, and the hours ticked by, is I'll never last the year if it's anything like this. But here, the year is about to be a memory, and somehow we thrive on the unexpected, and the calls during the night.

Like usual in the Army, I was most fortunate to be assigned to a hospital that would put many a stateside one to shame. Two years ago it was a school with

romping grade school youngsters, mostly American. Today it is a modern, air-conditioned hospital of 400 beds, that boasts the very latest medical equipment and know how. It is a sight to warm many a mother's, sweetheart's, or wife's heart to know her loved one will be taken care if the need arises. We have all the specialties, including neurosurgery, the latest X-ray and Lab equipments, and a fine group of physicians, nurses, and corpsmen. Most of the nurses are volunteers, so no job is too difficult nor hours too long, for these young men and women, and believe me they are youngsters of barely voting age. They have grown over here; where death is a daily visitor among their age group.

No I haven't said where we are located. But if you wish to check your map we are in a suburb of Saigon called Tan Son Nhut. Saigon is a typical French city complete with crazy drivers (the Paris type), high prices, good but expensive restaurants, and some beautiful homes for those with the money. Have the money, and you can forget a war is being fought.

What do we do for relaxation? Well all of us got one R&R while here, plus a Leave if we wish. Being so close to the capital, a night out for a good meal is relaxing in itself, when we aren't restricted. I went on R&R to Hong Kong in September and found the paradise on earth that suits my pocketbook. Saw so many bargains which I simply had to have that I returned to Vietnam flat broke, but certainly cleaner after three baths a day. You see bath tubs aren't to be had over here, and there is nothing like a bath no matter what those shower addicts say.

One keeps reading about, and is constantly asked of, what about the American soldier in Vietnam. As you well know this is my second war, if Korea was a war, and I feel I can honestly express an opinion and yes even make a comparison or two. The American soldier today is in better physical condition to cope with this heat, humidity, and jungle fighting, is a far better fighter, is more motivated, and certainly knows why he is over here. The "esprit de corps" is amazing, and all our wounded have only one wish, "Get me back to my unit, so I can get Charlie for sure". We see all these things in a hospital where a man arrives with little breath in his body, and in 24-48 hours is making a pass at a pretty nurse. This is what we see and let me tell you every American at home should be justly proud of this. The Fullbrights, the Vietniks don't bother us in the least, we are too busy to give them more than a passing comment. And the news media that thrives on the spectacular is exaggerated. Our spectacular is working at our orphanage on days off, or going out to the villages several times a week to hold sick call, or bringing into a hospital a badly burned child or one born with a congenital defect to cure or construct to a human again. But somehow, these civic action, people to people things, don't make the news back home—yet almost every G.I. over here works at winning the people to the human aspect of living. Yes, bubble gum is still the favorite candy of children, and for most they learn this word before any other.

I just can't sign off without satisfying your curiosity on what my job is. Especially for you whom I've known so well all these years. After teaching for four years I'm finally getting the taste of administration. I am Chief Nurse here and let me tell you it's been a very humble experience.

Well, I guess I haven't given you facts and statistics but I hope I have imparted to you that we all have much to be thankful this Christmas Season, for Vietnam could be the U.S.A. I wish you a happy Christmas, a prosperous New Year, and an ending to life's miseries.

RESUME OF ALUMNAE MEETINGS

The business meeting of the Jefferson Nurses' Alumnae Association was called to order by the President, Miss Margaret Cossman, at 8 P.M. on *Tuesday, September 12, 1967*, in the Recreation Room of the James R. Martin Nurses' Residence.

Thirty-four members were present.

Miss Cossman deviated from the normal procedure telling the group that she met with the Board of Directors three (3) times during the summer. Once in May (5/17/67) in order to send flowers to Miss Doris E. Bowman, Director of the School of Nursing following the death of her father and again in July (7/11/67) following the death of Miss Bowman's mother. The other meeting Miss Cossman held with the Board of Directors was in reference to contributing \$500.00 towards Miss Margaret Summers' hospital bill during her many bouts of illness over the past year.

The minutes of the May 2, 1967 meeting were read and approved.

The treasurer's report was read and approved.

Committee reports—

Nominating—In the absence of Mrs. Betty Stone, Miss Cossman reported there is a full slate of nominees to be presented at the October meeting.

Sick and Welfare—Evelyn Dute reports she knows of no alumnae members who are ill at present.

Program—Dorothy Sampsell was not present.

Social—Miss Mabel C. Prevost has done research to determine the amount alumnae members had contributed as members of the hospital staff which should be counted along with the amount contributed by other alumnae. The total contributed by these alumnae staff members is \$6,073.84 which, plus the \$22,071.03 in the building fund, brings the total over the original amount to be donated (\$25,000.00) or a total figure of \$28,144.87.

Bulletin—The bulletin for 1967 has been issued. There are extra copies available should anyone wish one at a cost of \$1.00. Mrs. Scott was not present.

Scholarship—Miss Bowman announced that Miss Alice Boehret was awarded the second available scholarship. There is an applicant for the spring scholarship.

Private Duty—Since Sandra Bunker was absent, no report was given.

Old Business—Miss Cossman tells us there is a room allocated to the alumnae situated on the second floor behind the elevators of the Thompson Building. This is temporary. Miss Prevost announced there is a room set aside in the new college student commons building.

Correspondence—1. The lawyer of the estate of Mary H. Moore bequeathed \$10,000 to the welfare fund.

2. Miss Prevost expressed her appreciation for participation in bringing the alumnae up-to-date on Alumnae Day.
3. Miss Bowman's notes of appreciation for the flowers sent on the death of her parents.
4. The Industrial Nurses' Association sent the Alumnae a notification of the appointment of Miss Mary Bonnenberger as Chairman of the Nominating Committee.
5. Thank you notes from Margaret Summers for flowers, cards, and monetary gifts were read.

SOCIAL COMMITTEE REPORT

A Christmas Party and Buffet Supper was held in December 1967. The party was a great success and each guest received a present from Santa Stauffer. Decorations for the party were done by Miss Deidra Watkins.

On March 5, 1968 forty seven guests attended the traditional Buffet Supper and Auction Sale held in the Recreation Room of the Nurses' Residence. Miss Mary Ann Stauffer was again the auctioneer. Proceeds from the Auction Sale will be placed in a fund to be recommended by the Board of Directors.

The Crystal Ballroom of the Benjamin Franklin Hotel was the setting for the Annual Alumnae Association's Luncheon on May 4, 1968. Three hundred and forty eight alumnae members were present. Twelve states were represented with California and Hawaii the most distant geographically.

The Class of 1967, with seventeen members in attendance, were guests of the Alumnae Association. Forty six members of the 1968 graduating class were also guests. Corsages were presented to the following members:

Elizabeth Jones—1911—Oldest Member
Elizabeth Heaton—1914
Lydia Cannon—1916
Elsie Lomlin—1918—Fiftieth Anniversary

Miss Gladys Keiper, president, honored Miss Doris E. Bowman, Director, School of Nursing for her devoted and continued efforts in her contributions to the development and education of the future nurses of Jefferson as well as for her loyalty to the Alumnae Association.

The Social Committee extends their sincere "thank you" to all members for their interest and support which made every function really worthwhile. It is hoped that next year will show continued growth and satisfaction in effort.

ELIZABETH STONE, *Chairman*

BUILDING FUND COMMITTEE REPORT

In 1963, a few years after the Jefferson Nurses' Alumnae Association fulfilled its pledge of \$25,000 toward the James R. Martin Student Nurses' Residence Fund, we were again asked to take part in the \$42,000,000 Expansion Program of the Jefferson Medical College Hospital.

At that time work had already begun on this project. Land had been acquired and was being cleared for the Basic Science and Student Commons Building on Locust Street between 10th and 11th Streets. Part of it is now being used although it is not quite completed.

After much consideration our Nurses' Alumnae felt that we had to be a part of this program and we pledged another \$25,000, and were given five years to meet our goal. The drive began. We had great help from the Jefferson Medical College Building Fund Committee in getting the drive under way. All sorts of plans were put into motion, knowing well that this would be a much more difficult pledge to meet than the one for the Nurses' Residence, in which every nurse who had graduated from Jefferson was vitally interested.

Here it must be known and grateful thanks given to Miss Margaret Melville who helped us in our drive by contributing a generous sum of money. This contribution was presented in memory of Clara Melville who for many years was Director of Nurses at Jefferson.

Sincere thanks goes also to Miss Mabel C. Prevost, class of 1929. She, as Assistant Hospital Administrator, was of great help in guiding us in our work and serving as a much needed liaison between the Hospital Building Fund and the Nurses' Building Fund Committee.

It was a happy occasion when on April 10, 1968, representatives of our Alumnae Association met in the office of the President, Doctor Peter Herbut, and presented him with the check, not only fulfilling our pledge but doing so a few months before the five years were up and by exceeding our pledge to the amount of \$28,432.30.

I would like to add that WE DO HAVE OUR LONG PROMISED ALUMNAE ROOM. How wonderful it is to have a place in which to work, to keep our files, machines and records in one place and in order.

Sincere thanks to each Alumna who has never failed to help when it was for her Alma Mater.

HENRIETTA F. SPRUANCE, *Chairman*

BULLETIN COMMITTEE REPORT

I want to extend my sincere apology to each of you for the delay in getting the Alumnae Bulletin to you earlier. I am anticipating a good bit of ringing in my ears to the tune of "Why doesn't it have a red cover this year, it's arriving so close to Christmas"? However, I trust that when you do receive your copy you will enjoy reading it as you have, I'm sure, in the past.

I am very grateful to, and wish to thank each of you who has given your time and has shown your interest in helping with the bulletin this year, for without My deepest thanks.

your help I could not have met even this very late deadline.

Sincerely,
MARION J. RAMP, *Chairman*
