ALUMNAE CALENDAR 1974 - 1975

September 10, 1974	Regular meeting
October 8, 1974	Regular meeting
November 12, 1974	Regular meeting
December 1974	Christmas Dinner Time and place to be announced
January 14, 1975	Regular meeting
February 11, 1975	Regular meeting
March 11, 1975	Regular meeting
April 8, 1975	Annual meeting
May 3, 1975	Annual Luncheon
May 13, 1975	Regular meeting

All regular meetings will be held at Jefferson Hall, 11th & Locust Streets, Philadelphia. Meetings begin at 7:00 P.M. Room number posted in lobby.

THE PRESIDENT'S MESSAGE

Dear Alumna,

My pride in our Alumnae Association and all Jefferson Graduates is tremendous. I am so proud of being a part of such a fine group. The loyalty and co-operation from each one of you make the task of being president a lot easier.

One of the rewards of being president is presiding at the Annual Luncheon. It is always a pleasure to look out over the crowd and recognize so many familiar faces and to see the happy renewing of friendships. It is truly a good looking group.

This past year we have been involved in trying to get the Sesquicentennial Campaign off the ground. Although we are pleased with the response our nurses have made, it is still far from our goal. If you change your thinking, it is not too late to increase your contributions.

The Nursing Symposium presented by the College of Allied Health Sciences on Friday, May 3, 1974 at Jefferson Alumni Hall was excellent. It is hoped this will become a yearly project.

My sincere thanks to each of you for your help, because without it we would not have an Alumnae Association of which we can be so proud.
Can we continue to count on you!

Sincerely yours,

Margaret Summers

Relief Fund	19,075.93
Scholarship Fund	13,842.64
Total	\$45,726.55

**ANNUAL REPORT OF THE
SCHOOL OF NURSING**

Just to think we are nearly five years into the 70's! Daily, the clock seems to tick faster and "tempus fugit" (or as it is humorously quoted, "tempus figits"). Change keeps pace with time and we have said good-bye to the era of many of the things which some of us rather nostalgically seem to remember as the "good ole days".

Today, students may be married at any time during the program and live off campus. Maternity leave is granted. Of our 273 students, ten are married and two have children. In fact, one of our students expects to graduate next year about the time her daughter graduates from high school. Night duty is a thing of the past and relief for students is limited to four weeks under the supervision of an instructor.

Males have invaded the ranks — three in the current freshman class! It's difficult not to refer to them as male students and simply refer to them as students, but we keep trying, and by the time they graduate, we hope to have made the adjustment. Speaking of adjustment, the admission of males has not caused any major curriculum changes.

Since we shortened the program to 33 months in 1970, no major curriculum changes have occurred. One major change on the horizon is the anticipated move from our present cramped, antiquated facilities (these have not changed, except for an occasional coat of paint, since the "good ole days"), to the glistening, roomy, renovated Health Sciences Center (Edison Building) at 9th and Sansom Streets. We expect to be housed there by the beginning of classes in September of this year. Those of you dropping in for a visit, please remember our administrative offices will also be moving there, and will no longer be in the Martin Residence. Perhaps next year, prior to the luncheon, we can arrange for you to tour our new facilities.

Our faculty remains relatively stable, some being with us more than 15 years. At present, the faculty numbers 36, including 19 Jefferson graduates and 17 graduates of other programs. Eight of the faculty hold master's degrees and 21 baccalaureate degrees.

In this age of accountability, passing State Board Examinations is not sufficient evidence to a faculty that their graduates are safe, competent practitioners. Since 1970, the faculty has been carrying on a graduate follow-up study with questionnaires sent to employers nine months to a year following the new graduate's employment. Final results of the study will not be available until next year when the five-year study period is completed. However, preliminary results seem to indicate that we are, indeed, still producing in the Jefferson tradition, the nurse who is a safe, competent practitioner.

Most group activities are on the wane, as students prefer to "do their own thing", but one group activity does not seem to change — basketball. Although their league championship streak was broken this year (they finished in third place), the team won their third consecutive title in the Annual Thomas Jefferson Invitational Tournament, and their third consecutive victory at the Spectrum prior to a '76ers game. It should be noted that in the last three years, our success at the Spectrum was better than that of the '76ers, but we will not lend them our coach! Patricia Jones, '74, and Donna Ranieri, '75, two team members, had personal moments of glory when they won the Timex — National Basketball Association free throw competition at the Spectrum and, with the local title, an all expense paid trip to the national competition in San Diego, in which they were less successful than on home ground. Patricia Jones was this year's recipient of the Thomas Jefferson Award for athletic achievement, given by the School of Nursing Department of the Women's Board, and presented by the coach at the basketball banquet.

Our cheerleaders won their league title for the second consecutive year, in spite of the fact that one of the team had emergency surgery the week before the competition and could not participate, nor be replaced. That's real Jefferson Spirit!

After seven months of anticipation and preparation of the Report of Self-Evaluation, our routine visit (April 8-12, 1974), for continuing NLN accreditation is now history. We have only to wait for the recommendations from the May meeting of the Board of Review. We wait for their recommendations with confidence, anticipating continuing accreditation for the six year maximum. You will be interested, and no doubt proud, to know that the visitors complimented the faculty for their commitment and dedication to their assignments, the students, and the purposes of the diploma program. The students were complimented for being, "... alert, interested and knowledgeable about their educational program".

Respectfully submitted,

Doris E. Bowman
Director,
School of Nursing

**ANNUAL REPORT OF THE
DEPARTMENT OF BACCALAUREATE NURSING
COLLEGE OF ALLIED HEALTH SCIENCES**

Forty six students were admitted in the first class entering in September 1972. There will be 40 graduates receiving their Bachelor of Science in Nursing, in June, 1974. The fall 1974 class will number 65 men and women. Faculty have been actively involved in curriculum planning throughout our existence both in preparing for the first group of students as well as in planning the ongoing curriculum. There has been student participation since their admission. We are making sincere efforts to prepare graduates who will be able to function effectively in today's world of health care as well as to prepare them for inevitable changes that will take place in the delivery of health care as they progress in their nursing careers. Emphasis is placed on the important role of the nurse in the evolving health care system.

Many health care agencies in the Philadelphia area are being utilized to provide clinical laboratory experience in the nursing courses. These include Jefferson related hospitals and various types of neighborhood health agencies.

Charlotte E. Vass
Chairman, Department of
Baccalaureate Nursing

PROGRESS — THOMAS JEFFERSON UNIVERSITY

The last year has brought more changes and more plans for future changes emphasizing Jefferson's further growth and development.

Physical changes within the hospital have resulted in improved facilities for patient care. The newly constructed Intensive Care Nursery has provided modern facilities and equipment for the care of high risk infants, many of whom might not have survived without such support. Two operating rooms on the Sixth Floor, Pavilion have been renovated to provide more room for gynecological surgery. A second cardiac surgery room has been made available on the Fourth Floor, Pavilion. A second psychiatric unit was opened on Twelfth Floor, Thompson Building which provides care to the more disturbed patients.

In addition to the improvements made for in-patients, Jefferson recognizes the need to promote proper health care and help prevent illness among the people of South Philadelphia where readily accessible medical care is quite limited. Towards this end, Thomas Jefferson University Hospital has been co-operating with other health care institutions of the South Philadelphia area in the evolution of a Health Plan group. These institutions will develop a com-

munity health center where persons belonging to the SPHA (South Philadelphia Health Action) group will be benefited by a group of health professionals capable of managing the range of problems an individual may present. Comprehensive and continuing care will be provided with emphasis on preventive care.

Another problem in providing health care throughout the nation is the scarcity of family practitioners. Jefferson Medical College cognizant of this problem, has established a Department of Family Medicine under Dr. Paul C. Brucker. This summer a new three-year residency program in Family Medicine will begin at Jefferson. These physicians will be exposed to all phases of health care, preventive and curative, and will follow and treat patients in the hospital and on an out-patient basis. Junior medical students may take a six-week family medicine preceptorship which permits them to visit offices of family doctors in the Philadelphia area.

Over the past ten years, Thomas Jefferson University has been expanding its established tradition of serving the community. A Children and Youth Ambulatory Program for Comprehensive Child Care is located at Thirteenth and Fitzwater Streets. A Mental Health Ambulatory Program has been functioning at Twelfth and Walnut Streets with satellite clinics in South Philadelphia. Emergency care at night and on weekends and hospitalization are available at Thomas Jefferson University Hospital in both programs.

The changes in physical facilities and new programs represent only a few of the steps Jefferson has been taking to provide total patient care in both preventive and curative phases.

We know that you will be interested in keeping up to date with news of your Alma Mater and hope that you will avail yourselves of any opportunity you may have to visit the University and to see for yourselves the new Jefferson.

With good wishes to all for a happy and prosperous year.

Mabel C. Prevost
Assistant Hospital Director

**TRENDS IN NURSING AT
THOMAS JEFFERSON UNIVERSITY HOSPITAL**

The Nursing Service Department at Thomas Jefferson University Hospital has for its primary objective to deliver quality patient care and provide a stimulating environment for student education. To achieve these objectives we continually evaluate our patient care programs and implement new programs when indicated.

The Cardiac Rehabilitation program is an example of this. Rehabilitation of the cardiac patient focuses on physical conditioning through a graded exercise program and on teaching and counseling the patient about diet, health habits, and performance of activities of daily living. The program's goal is to assist the individual to live a productive life, including early return to work following a myocardial infarction. Members of the Department of Rehabilitation Medicine, Cardiology and Nursing developed the program. Nursing plays a vital role in the program as they are responsible for teaching, providing emotional support, and observing the patient's response in increased activity. All aspects of the program begin while the patient is in C.C.U. Following discharge from C.C.U., the patient transfers to Rehab, where his exercise program is instituted. Physical Therapy, physicians and nurses on Rehab closely coordinate their efforts to insure that the individual patient progresses smoothly through his program. Patient and family teaching in preparation for discharge are done by the nurses from C.C.U. and Rehab. Plans are now being made to institute a home care program for these patients.

Primary Nursing Care

In the spring of 1973, a group of staff nurses expressed dissatisfaction with team nursing as a method of delivering care. They felt that team nursing did not allow them to develop an effective relationship with patients and families. This occurred because the team leader and team members were not always assigned to the same group of patients; and team leaders were responsible for eight hours, not twenty-four hour care.

To resolve the problem expressed by the staff nurses, we looked for another method of delivering care. Primary Nursing is a method of delivering nursing care which is based on the principle that one nurse is responsible and accountable for the nursing care of a group of patients twenty-four hours a day, from the admission to the discharge. The major goal is to reduce fragmentation of care by providing the patient with one nurse who is totally responsible for his care.

The nurse's responsibility includes assessing the needs of patients, identifying nursing care problems, planning care, giving care, relating care needs to staff members on other shifts, and evaluating care. The primary nurse exercises her responsibility and account-

ability by counseling staff members on how to meet the needs of patients and by following up to see if care was given. When problems with care do occur, the primary nurse investigates why and implements a program to prevent its recurrence, i.e., education of staff.

Since June of 1973, Primary Nursing has been instituted on six nursing units. Plans are now being formulated to use this method of delivering care on all nursing units. On the units where primary care is used, patient satisfaction is much greater. Staff morale has improved. We believe this is because nurses are more involved with their patients and can see the effectiveness of their care.

Cardiac Rehabilitation and Primary Nursing are two examples of the changing focus in nursing at Jefferson. In essence, we are caring for individuals with complicated, long-term illnesses, and we are altering our approach to care to meet the needs of these patients. This implies teaching programs which help patient and family adjust to the illness. Diabetic classes and the ostomy teaching program are examples.

We also have a psychiatric nurse consultant who assists the staff in dealing with dying patients and with the emotional problems of very ill patients.

Nursing at Jefferson is dynamic. We have achieved much in the past decade, but there is much still to be done. Goals for the future include participating in an interdisciplinary approach to care, implementing a problem oriented medical record, and establishing a program of evaluating nursing care.

Carol Hutelmyer, R.N., M.S.N.
Acting Director, Nursing Service

**COLLEGE OF ALLIED HEALTH SCIENCES
SESQUICENTENNIAL SYMPOSIUM
MAY 3, 1974**

Plans in preparation for the celebration of the Sesquicentennial of Thomas Jefferson University have been in effect since 1972 with the appointment of a Steering Committee and a Themes Committee by Dr. Peter A. Herbut, President. Ideas for the celebration were explored and gradually a program for the year was developed. The resultant calendar for the year was widely distributed to Alumni, University faculty and personnel, and other institutions and schools.

We believe that it is a diversified program and that the history, the present activities of the University and future plans for "Century 21" will be illustrated through the programs during the year. Of particular interest to nursing, was the day set aside for the program of the College of Allied Health Sciences. In planning this program, the Dean, the Associate Dean and the Chairmen of the two baccalaureate programs, Medical Technology and Nursing, participated in developing the events for the day. The date selected was the day before the Annual Alumnae Luncheon of the School of Nursing. It was believed that it would attract Alumnae to come a day in advance to be able to participate in the activities. The program consisted of three concurrent symposia. One was a symposium relating to Nursing, the second one was a symposium concerned with Medical Technology and the third was an inter-professional symposium in which participants from various health related professions discussed their contributions in cancer rehabilitation.

We were extremely pleased with the enthusiastic response from the estimated 300 people who attended the three symposia.

The morning of the Nursing session, "Jefferson Nurses in Action", included participation by alumnae of the School of Nursing who have been very active in nursing and who are known nationally. Nursing in perspective from three points of view was discussed by Miss Anna Kuba, who is currently the Coordinator of the Program on State Boards of Nursing of the American Nurses' Association, Dr. Barbara Schutt, who is former editor and current contributing editor to the *American Journal of Nursing* and who will shortly be taking the position as the Director of the Department of Nursing of Mohegan Community College in Connecticut and Dr. Harriet Werley who is the Associate Dean for Research at the College of Nursing, University of Illinois. Each of the three speakers presented a very stimulating talk and I am sure prompted the members of the audience to think about not only the past and the present but the future of nursing in general and nursing in particular here at Jefferson. Another part of the morning program consisted of participation of two School of Nursing graduates who are involved in rather unique activities in nursing. The first is Miss Maureen Maguire who is Co-director of the Pediatric Nurse Practitioner program at The Johns Hopkins University Hospital and Miss Mary O'Neill who has had a great deal of background in Nephrology Nursing and is currently at the Kidney Care Unit in Jackson, Miss.; their descriptions of their activities and their impressions of the nursing contributions in these two areas were very interesting.

The afternoon of the Nursing symposium was devoted to what is happening today at Thomas Jefferson University Hospital. Several members of the nursing staff, some of whom are Alumnae of the School of Nursing, involved in rather innovative activities in nursing here at Jefferson participated. They presented a very stimulating and interesting discussion of their responsibilities and gave the audience a picture of the

innovativeness of the hospital nursing staff at the present time.

The events of the day evoked considerable discussion and participation from the audience.

The day was climaxed by a social hour at Jefferson Alumni Hall; a large number of the participants attended. All in all, the College of Allied Health Sciences Symposium day was very successful and stimulated us to think seriously of having similar programs periodically in the future. When these are planned each Alumnae member will be notified and encouraged to attend.

Charlotte E. Vass
Chairman, Department of
Baccalaureate Nursing

CLINICAL TEACHING FACILITY

Dr. George McClellan, the founder of Jefferson Medical College, treated patients in an infirmary adjacent to the first medical college building on Prune Street (Locust Street). Since that time, patients have been continuously treated at Jefferson although it was not until 1877 that the first formal "Jefferson Hospital" was built on the site of the present Thompson Building. Jefferson now has four buildings devoted to patient care—three of which are outdated and in some areas substandard—"Old Main" (1907); Thompson Building (1927); and the Curtis Clinic (1929). Only the Foerderer Pavilion at 11th and Walnut Streets approximates today's needs for patient care. Because of these deficiencies, there has been concern for the redevelopment of clinical teaching facilities of the University in context with the Jefferson Medical College, the College of Graduate Studies, the College of Allied Health Sciences, and with the surrounding community.

In 1969 the Board of Trustees accepted and supported a proposal from President Peter A. Herbut that the present obsolete hospital facilities be replaced with a new Clinical Teaching Facility that would enable the University to provide a complete setting for its educational activities and a level of amenity that would allow the support of an appropriate community of patients. Planning has continued under the direction of the Master Planning Committee of the Board of Trustees, chaired by Frederic L. Ballard, Esquire, Vice-Chairman of the Board of Trustees, and aided by the Vice-President for Planning, Mr. George M. Norwood, Jr.

The proposed Clinical Teaching Facility will support the described goals of Thomas Jefferson University which are:

1. The education of medical and allied health personnel at undergraduate and graduate levels.
2. The provision of continuing education to practicing health professionals.
3. The maintenance of a rich environment for the continuing search for knowledge in the medical sciences and in the art of health care delivery.
4. The development of educational and care services which will contribute to improved levels of health and well-being of our community.

The Clinical Teaching Facility will be an essential element of the University. It will not alone be a hospital or a hospital and some clinics, but rather it will be an instrument of the educational process which affords students and teachers alike an exemplary setting for the interaction of superb patient care and the education of many professionals who must work together throughout their careers. It will be, as well, a mutual resource for clinical research programs and an important health resource for the community it serves.

The gradual disappearance over the past several decades of the "clinic patient" from hospitals and the evident and predictable increase in the scope of ambulatory patient services has provided a significantly different environment for the clinical education of health professionals.

A multi-disciplinary structure for care and teaching designed around physiological systems will be provided rather than continuing the traditional fractionated typical hospital organization and physical structure of today. These systems will permit the concentration of responsibility for delivering the ancillary services needed, for the provision of continuing rather than episodic care to patients, and for the attainment of both personal and professional satisfaction for patients, teachers, students, and staff.

This new concept of medical education and patient care will combine the delivery of inpatient and ambulatory care in one physical complex and will, therefore, bring about significant economies in our teaching and in the delivery of patient care while permitting the delivery of primary, secondary, and tertiary care on the Jefferson campus.

The Clinical Teaching Facility will be the result of a combination of the Foerderer Pavilion and a new building. The two will be bridged across Sansom Street at every level.

The new building, which will encompass the city block between 10th and 11th Streets and Chestnut and Sansom Streets will contain 400 beds and 110 physicians' offices. The major portion of diagnostic and therapeutic services will be provided in the southern half of the new building, and the in-patient programs in the Foerderer Pavilion and the northern

half of the new building are designed to draw on these services at each respective level. Intensive Care Units will be provided on each level and will serve the patients on that floor. The physicians' offices will be leased to staff and all ambulatory care on campus will be delivered in that setting.

The main Jefferson Hospital entrance will be in the new building at ground level on 11th Street with a service entrance and a loading dock on Sansom Street. The street level space bordering on Chestnut Street will be rented to commercial activities. There will also be a small convenience parking area at ground level.

The Foerderer Pavilion will be extensively remodeled and will contain 185 beds which will be mostly for non-acute patient care such as Psychiatry, Extended Care, and Physical Medicine and Rehabilitation. In addition, the pediatric services, the obstetrical services, delivery rooms, and an enlarged and expanded Department of Clinical Laboratories will remain in this building. The Emergency Department, the Blood Bank, and a Pre-Admission Testing unit will occupy the entire first floor of the Foerderer Pavilion.

The two buildings have been carefully planned so that the programs at each level of the combined structure will compliment each other. An example of this will be on the 7th, 8th and 9th floors of the Foerderer Pavilion where the Extended Care, Physical Medicine and Rehabilitation, and Pediatric beds are housed respectively. Many of the patients occupying these beds will have a need for the Physical Medicine and Rehabilitation modalities on the 9th floor of the new building and for services of physicians located on the 6th and 8th floors. There will be a constant flow of patients and services between the two buildings and among the adjacent floors.

When completed, the Clinical Teaching Facility will provide 585 beds for Jefferson (400 in the new building and 185 in the Foerderer Pavilion). This is a reduction of 85 beds from our present complement and will be permitted by utilizing a variety of economies such as the single bed room technique and multidisciplinary units. After the Clinical Teaching Facility is completed and fully occupied, two of our present hospital buildings (the "Old Main" and Thompson) will be retired from patient services and the Curtis Clinic will be assigned to Jefferson Medical College for educational programs.

Recently Thomas Jefferson University developed a close affiliation with the Wills Eye Hospital and present plans call for the Wills Eye Hospital to move to Jefferson's campus and locate its hospital on two floors in the new building of the Clinical Teaching Facility. This will be done on a condominium basis with the 10th floor of the new building utilized for Wills Eye Hospital's out-patient care and the 11th floor for in-patient care. The implications of this move are many, but most importantly it will provide for increased efficiency and economy in patient care in both institutions as the Wills Eye Hospital will share all major professional and hospital services with Thomas Jefferson University Hospital.

As noted, the complex is being carefully designed to support our educational programs and is probably the first patient care unit in our history in which every patient's care is being deliberately incorporated into the teaching programs of the colleges of the University. Small units are being developed at every nursing station for individualized student instruction. Several larger conference spaces will be available on every nursing floor and in every department in the Clinical Teaching Facility. These will be available for larger groups of students, for seminars, and for other educational purposes. There also will be a major conference and educational center in the basement of the Thompson Building. A capacity for educational television and individual programmed student instruction will be provided throughout the facility.

The cost of the Clinical Teaching Facility, including the renovation of the Foerderer Pavilion, will be approximately \$63,000,000 of which only \$5,100,000 will be raised in Jefferson's Sesquicentennial Fund Drive. This latter amount represents the estimated cost of the land purchased between 10th and 11th Streets and Chestnut and Sansom Streets. It is anticipated that the balance of the funds necessary for construction will be obtained through a hospital or municipal authority which will issue tax free bonds.

The proposed Clinical Teaching Facility will, therefore, be limited in size to Jefferson's educational and patient care needs and as noted will offer a full spectrum of in-patient, ambulatory, and outreach care services, it will respect the cultural and economic interests of the community, and will support the health care and educational goals implicit in national policy.

Specifically, a facility offering a single standard of exemplary in-patient and ambulatory care in multi-disciplinary settings related to physiological systems with single room accommodations, physicians' offices, and emergency services is presented in combination with a parking capability and taxable commercial space located at the northern-most part of the Jefferson campus.

Francis J. Sweeney, Jr. M.D.
Vice-President for Health Services
Thomas Jefferson University

GENETIC COUNSELING PROGRAM AT JEFFERSON

The Division of Medical Genetics of the Department of Medicine, Obstetrics and Gynecology, and Pediatrics of Jefferson Medical College has conducted a program in genetic counseling since the mid 1960s. This program has been supported from its inception by grants from the National Foundation March of Dimes, principally through the Philadelphia County Chapter. In more recent years the grants have extended from the Philadelphia County Chapter to the Pennsylvania State Chapter of the March of Dimes as our work has encompassed a wider geographic area.

The chief function of medical genetics in clinical medicine is in the delivery of a medical service which is called genetic counseling. Genetic counseling is done by a genetic counselor who in the past has usually been a Ph.D. geneticist associated with a university or a medical school, but more recently is very likely to be a physician trained in a sub-specialty of either internal medicine, pediatrics or obstetrics and gynecology. These clinical branches of medicine deal most closely, along with the family practitioner, with the problems of inherited diseases as they present in the patients. When the genetic counselor thinks of a patient he usually thinks not only of a single individual, but of that individual's relatives, in other words the entire family.

Genetic counseling consists of ascertaining the risk to a family for the occurrence or recurrence of a specific genetic disease and then communicating that risk to the family together with the means for dealing with the risk and the occurrence of genetic disease. The emphasis in this description of genetic counseling is on the communication aspect of the process. Actually the entire process of genetic counseling encompasses all of the traditional clinical maneuvers of the medical practitioner which can generally be broken down into the stages of diagnosis, prognosis and treatment. The question of risk of occurrence or recurrence of genetic diseases is invariably posed by the discovery somewhere in a family tree of an individual with a genetic disease or with an unusual gene. In the past this has always been the discovery of an individual with the genetic disease, but as screening programs for genetic disease or for asymptomatic carriers of unusual genes become more feasible we will begin to deal more and more actively with the discovery of normal persons who carry unusual genes in the absence of a patient with a genetic disease. Obviously this is a more favorable situation in terms of preventive medicine since one does not wait for the occurrence of disease in order to prevent further occurrences of that same disease.

The diagnosis of a specific genetic problem is the key to all of the management which follows. Diagnosis of genetic disease can frequently be difficult because of a phenomenon termed genetic heterogeneity. This literally means that several genes occurring in entirely different individuals may cause what superficially appears to be the same clinical condition.

In fact when one learns to look at the clinical condition more closely or to measure small differences one finds that there are separate diseases caused by separate genes. This can frequently have a great deal of significance for the prognosis in the patient because different genetic diseases may pursue different clinical courses and they may of course be inherited in entirely different manners so that the prediction for future children may be vastly different in each instance. Once a diagnosis of a specific genetic problem has been established one can usually deduce from the diagnosis and from a family pedigree the exact mode of transmission of the gene which causes the clinical condition.

The chief forms of genetic transmission are those in which a single gene will make its presence known in the form of clinical disease, will affect males and females equally and, because each person possesses two genes for any given trait, may be transmitted one half of the time one has offspring. This gene is called an autosomal dominant trait: Autosomal because it affects both sexes and dominant because it makes its presence known in single dose. Autosomal recessive genes, on the other hand, although they also affect both sexes equally, will only make their presence known when they exist in double dose in the individual. Usually these genes control some chemical reaction and both genes for the chemical property must be deficient or mutant in order to paralyze that chemical ability and manifest clinical symptoms. The parents of such a person each carry a single recessive gene which does not cause clinical problems and thus these persons are asymptomatic and are called heterozygous carriers of the gene. Finally there is the X-linked recessive gene in which the woman carries a gene on one of her two X chromosomes and is asymptomatic. When she has children, if she has a son she may either give the X chromosome containing the unusual gene or the other X chromosome to her son. This is balanced by the contribution of a Y chromosome from the father which contains no offsetting gene so that the son who receives the X chromosome with the unusual gene will manifest the disease, for example hemophilia. Thus one half of her sons by chance may be affected.

Fortunately, there are tests to detect carriers of several unusual but clinically significant recessive genes and further there are tests to detect the presence of these genes in the fetus. Therefore parents who are carriers of these genes may have pregnancies, have them monitored by amniocentesis and prenatal diagnosis without running the risk of bearing affected children. In order to avoid this they must make a difficult decision to terminate a pregnancy which is affected, but in any case of recessive disease they have a 75% chance of having an unaffected pregnancy and in a practical sense one aids these persons to have normal children where they would otherwise be unwilling to risk a pregnancy in the face of a high probability of having an affected child.

Once the diagnosis and prognosis of genetic disease has been established the counselor must be prepared

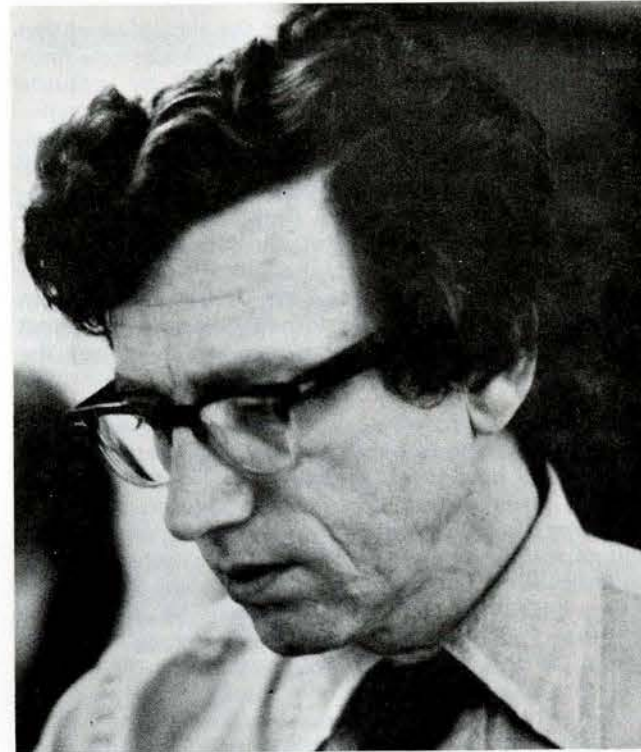

to offer support for the management of the clinical problem facing the family. The use of prenatal diagnosis or other means to avoid recurrence of genetic disease is one example of management of the clinical problem imposed by inherited diseases. Alternative means of dealing with this are adoption, a difficult alternative in the light of relaxed abortion laws, or the use of artificial insemination to avoid matching two recessive genes. In addition to dealing with the problems of recurrence of genetic disease there is often the very real problem of dealing with the existence of a child with a severe genetically determined illness. This is as much the responsibility of the genetic counselor as any other. While he may not directly manage the case or participate in the care, he should be responsible for obtaining the best in specialized care for what will frequently be a very difficult and unusual problem for a family. In addition to that, many of these diagnoses carry the implication of mental retardation and difficult problems in the development of a child. These problems require an increasing amount of specialized care as we begin to realize that many of the dire predictions about mental retardation can be at least partially ameliorated. Finally, the extension of humane care and sympathetic and understanding attitude towards families with these problems will frequently help a great deal to heal the wounds inflicted by experiencing an almost overwhelming and totally frustrating birth in a family.

In order to learn more about dealing with inherited disease problems and the delivery of health services in this important new area of health care the Jefferson Medical Genetics Division has been working on two programs of a partially investigational nature. One of these is the community screening program for Tay Sachs carriers. This unusual genetic disease involves storage of a fat like material in the brain cells of developing children, ultimately leading to their degeneration and death before the age of five. This disease occurs almost exclusively in children of Eastern European Jewish ancestry of which the majority of Jewish persons in the eastern seaboard of the United States are derivative. Because of this, Jefferson, like other medical centers, has embarked on a program to educate the Jewish community of the greater Delaware Valley and encourage them to have a simple blood test performed before the birth of children so that they may know if both members of a couple are carriers of this gene and they are therefore at risk to bear children afflicted with this disease. Discovery of asymptomatic carriers before children are born enables them to make a choice about dealing with this problem before they experience the tragedy of an afflicted Tay Sachs child. Thus far this program has reached over 10,000 persons in the Delaware Valley in approximately 18 months of operation. 16 carrier couples have been discovered by this and 6 of these have been successfully helped through pregnancies to have a normal healthy child where they would have been at risk for affected children.

Finally, the genetic counseling services of Jefferson have reached far beyond the walls of the institution in an attempt to deliver important health services into

the community. This is accomplished through a series of what are called satellite clinics in the eastern part of Pennsylvania and the southern and central portions of New Jersey. These satellite clinics are conducted under the sponsorship of the National Foundation March of Dimes grant program and are usually conducted in affiliated medical institutions within the community. One or more of the genetic counseling center staff physicians attend the clinics together with house officers or students from Jefferson. Some of the physicians who participate in this program are Dr. Leon Peris of the Department of OB/GYN, Dr. Gary Carpenter of the Department of Pediatrics, Dr. Susan Cowchock of the Department of Internal Medicine, and Dr. Leonard Reisman of the Department of Pathology. The clinics themselves are conducted on a once monthly basis, usually for one half a day. Patients are seen by appointment and given thorough clinical evaluations plus testing for any chromosomal or biochemical phenomenon that seem appropriate. Blood or other materials are collected for such testing at the satellite center, but the laboratory work is done at Jefferson. At follow-up visits the patients are counseled or started into management programs appropriate to their problem. Usually clinicians from the affiliated institution or house officers or nurses participate in these programs so that a great deal of post graduate education occurs in an informal and very affective sense. These clinics are conducted at the Crozer-Chester Medical Center in Chester, Pa.; Our Lady of Lourdes Hospital in Camden, N. J.; St. Peter's General Hospital in New Brunswick, N. J.; St. Luke's Hospital of Bethlehem, Pa.; the Allentown Hospital of Allentown, Pa.; Community Medical Center in Scranton, Pa.; Kirby Health Center in Wilkes-Barre, Pa.; St. Joseph's Hospital of Hazleton, Pa.; the Reading Hospital in Reading, Pa.; the Doylestown Hospital in Doylestown, Pa.; the Hamburg State School in Hamburg, Pa.; and the Elizabethtown State Hospital for Crippled Children in Elizabethtown, Pa. All together some 800 to 1,000 families are seen every year in this busy and active service which we hope is helping to demonstrate how new and innovative medical services can be brought out of the medical center and into the community with great effectiveness.

Laird Jackson, M.D.
 Director, Division of Medical Genetics
 Thomas Jefferson University

LAIRD JACKSON, M.D.

THE JEFFERSON BREAST DIAGNOSTIC CENTER PROGRAM

Though it may be hard to believe, about 89,000 new cases of breast cancer will be discovered this year in the United States. These cancers will occur, for the most part, in the 33,000,000 or so women in the risk age group. The tragedy is that nearly 90% of these cancers will be found by the woman herself, and over 60% of these will be noticed at an advanced stage. Such cancers probably have been growing for eight to ten years prior to detection. Thus we have the problem of detecting at the earliest possible time the 89,000 cancers in the breasts of 33,000,000 women. This parallels the problem faced by the Pap test.

Currently there are three distinctly different techniques which can be used clinically for breast detection. The physical examination of the breast probably dates back at least to the early Egyptians, and its effectiveness is to a large measure dependent on the skill of the examiner. The second technique is a special X-ray examination of the breasts using special films, low kilovoltage and often special X-ray tubes. This is called mammography, and is a technique which has had universal usage for the past fifteen or more years. Mammography, when performed by a skilled radiologist, is capable of detecting cancers well before they can be clinically palpated. The third technique involves

the taking of hundreds of thousands of temperature measurements of the skin of the breasts. These measurements are then presented as a temperature picture in which the blacker the image the higher the temperature. Thermography, as this newest technique is called, has been shown to be especially sensitive to very early subclinical cancers.

Here at Jefferson the physical examination of the breasts has probably been routinely practiced since its founding. Mammography was first introduced in the Department of Radiology in the early 1960's by Dr. G. D. Dodd. Thermography was first introduced in conjunction with mammography in mid-1964 by Professor J. D. Wallace, and was established as a routine procedure two years later, thus making Jefferson one of the pioneering centers in the clinical application of both mammography and thermography.

Many institutions have now established mammography as a routine study, and their experience has demonstrated the value of mammography in early detection. When mammography delineates a small cancer in a breast, which by physical examination has been found clinically free of disease, such cancers are generally very small in size. Such patients have a much lower incidence of regional lymph node involvement. An example of the effectiveness of mammography is found in a recent study of 30,000 women in which mammography and a physical examination of the breasts were utilized. One third of all the cancers discovered in these women were found by mammography alone. These cancers would have been missed had mammography not been performed. This study also demonstrated that a reduction of one third was achieved in the mortality rate from breast cancer in a five year follow-up, thus demonstrating that earlier detection is highly beneficial to the woman herself.

The practical problem of screening 33,000,000 women each year is huge. If one were to employ mammography as the principal screening modality, then each of the approximately 10,000 practicing radiologists in this country would have to spend about a quarter of his work day reading these special films. The problem then is to find some technique which can prescreen the women and so select that population in whom the incidence is indeed very high. This is the role of the Pap smear in cancer of the cervix, and it is this role which we hope thermography will play in carcinoma of the breast.

If one reviews the reported experience using thermography for breast cancer detection one finds that in 38,500 reported cases there were 2,236 histologically proven cancers. Of these, 1919 were thermographically suspicious—an accuracy rate for cancer of about 86%. How does this compare with other procedures? A barium series for carcinoma of the colon has a reported accuracy rate of about 90%, as do the examinations for carcinoma of the esophagus and of the stomach. It would seem that thermography might meet the requirements and need for a screening technique!

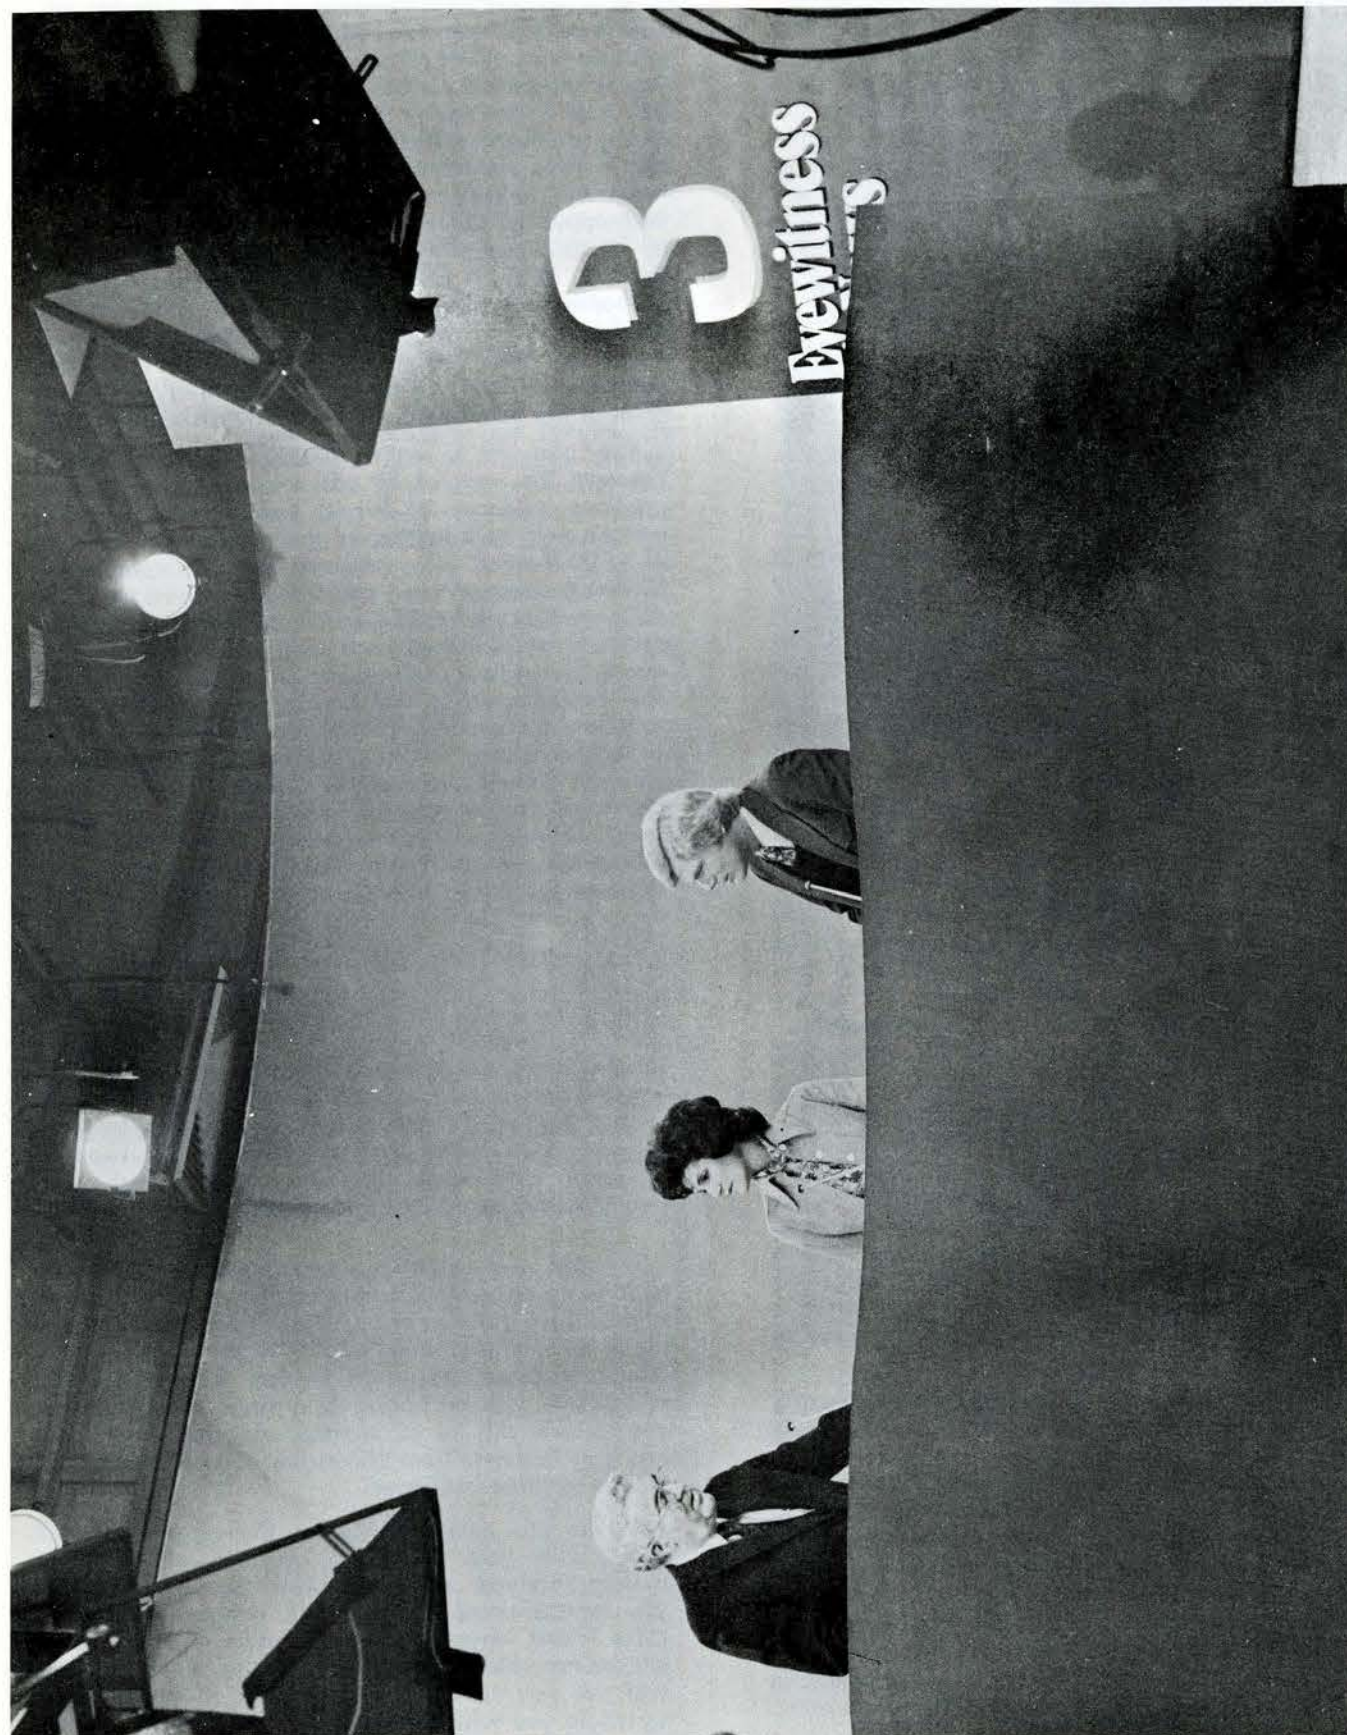

This is the question which the National Cancer Institute has asked Jefferson to try to answer. The Breast Diagnostic Center is the result of a contract between the Jefferson Medical College and the National Cancer Institute. The 3.4 million dollar program will run for five years. It is the brainchild of its Director, Prof. J. D. Wallace, who is Research Professor of Radiology. The Center is under the general responsibility of the Department of Radiology, of which Jack Edeiken, M. D. is Chairman. But in fact the Center is a cooperative effort involving several of the clinical departments: Surgery, Medicine, Pathology, Family Medicine, and Community Health and Preventive Medicine at Jefferson, as well as the Medical Department of the Bell Telephone Company of Pennsylvania.

The plan is to enlist 20,000 volunteer women between the ages of 45 and 64, who have had no previous evidence of breast cancer. New member women will be admitted to the program at the rate of 5,000 the first year, which is now near completion, 10,000 the second year, and 5,000 the third year. We estimate that about 85% of those examined will be asked to return in two years, and will be sent a status questionnaire two years after their second examination. The remaining 15% will for the most part be asked to return in 6 months. The results of the examinations will be sent only to the physician designated by the woman. In the event that she does not have a regular physician we will suggest the Jefferson Department of Family Medicine who, according to her preference, will either act as her physician, or will assist her in contacting a physician in her neighborhood.

The examinations are now being made at two centers. The Jefferson Center is presently in the basement of the Curtis Clinic and is expected to move into specially designed quarters on the third floor of the Health Sciences Building on the corner of Ninth and Sansom Streets. The second center is located on the second floor of the Bell Telephone Company building at 1 Parkway. The Jefferson center has been in operation since early December 1973 and the Bell Center started operations this past March.

In order to conserve the women's time, all screening is done by appointment, and can be reliably expected to take three quarters of an hour. Appointments can be made by calling (215) 829-8350, where we have three telephone lines. Ms. Joan Franco, who is the Administrator, will be happy to arrange for groups, as she recently did for 32 women who chartered a bus and travelled here from Wilkes-Barre. All appointments will be confirmed by letter.

When you enter the Center the receptionist will check with you as to the accuracy of the information received over the phone. She will also ask you for the name, address and phone number of a close friend whom we could contact if in the future we are not able to contact you. Finally, the receptionist will ask you the name and address of the physician to whom you wish the report sent. Of course we shall

PROFESSOR JOHN D. WALLACE (LEFT), OF THOMAS JEFFERSON UNIVERSITY, WITH MARCIAROSE AND TONY LANDESS, THE KYW NOON NEWS TEAM, DISCUSSING THE UNIVERSITY'S BREAST CANCER SCREENING PROGRAM FOR WOMEN AGED 45-64.

also send you a report within about a week of the screening.

The next step is a specialized history concerned with the breasts. This history is in the form of a mark-sense sheet, on which you black in the squares for your answers. It is exactly the same type which is used for the several college board examinations.

You will then be given a colorful bag, and asked to step into a "cooling" booth where you will be requested to disrobe to the waist, putting your belongings in the bag. You will be asked to sit with hands on your hips for 7 minutes. The cooling process is really not very cold, since the temperature will be between 68° and 70°. The cooling does two things. It erases the skin's thermal memory of your clothes and it reduces the normal blood supply to the skin, but has little effect on an abnormal blood supply. After 7 minutes of "cooling" you will be asked to move, with hands still on your hips, to a seat in the thermographic room. The thermogram will be taken in three views: AP and the two obliques. Incidentally, as with normal photography, in thermography you provide the signal from your skin, so there is no radiation such as X-rays involve.

Once the thermogram is finished, you might ask the technician to sit in the chair and let you look into the viewing hood on the thermographic unit so you can see what her face looks like. You will then be given a package containing a wrap-around gown. These come in several colors. The same technician will then take you into the mammography room, where she will take two views of each breast. You might be interested in the fact that we do not use film, but rather special Xerox plates in place of the film. If you ask the technician she will show you some examples of this technique.

When the mammogram has been taken the same technician will weigh you, measure your height, and then introduce you to the physician who will examine your breasts clinically. You will hear the physician call out the findings to the technician, as she records them. If you have any questions, be sure to ask the physician.

The technician will then take you to a dressing booth. Once dressed, you can give your history form to the receptionist, and you are then a co-investigator in this project, having made your unique contribution.

It's simple, painless, and vitally important!

Behind the scenes, things are buzzing. When you made your appointment the information was immediately put into our computer at the Stein Research Center. The computer then generated the confirmation letter to you, and on the day before your appointment it provided Ms. Franco with a listing of the next day's appointments at each of the two centers. The additional information you gave the receptionist was also put into the computer. The history form, together with the clinical examination forms, were taken to Stein in the afternoon and the computer automatically read these

forms and stored all this information. While this was going on your thermograms are read separately by two thermographers. If there is any disagreement the films are read by a third thermographer. At the same time, the mammograms are read in the same way by the radiologists. All readings are reported by each reader on a report form like your history form and are also read into the computer. The computer then puts together all the information concerning you, and in most cases generates a letter to you and another to your physician, reporting normal findings. In instances where there is suspicion of an abnormality, but no direct evidence, letters to this effect are generated, are reviewed against the actual file and films, and are sent out asking you to plan to come back in for a checkup in six months. There are many benign conditions which can produce suspicion so don't be overly concerned if you are asked to come back in six months. Finally, if either the mammograms or the clinical examination leads the physician to recommend a biopsy, special letters will be written. Your physician will be personally contacted by phone by the Center physician, and the findings discussed.

Our hope and expectation is that we, that is, all of us, will find those cancers at such an early stage that they will have little or no effect on the woman's future life. If together we can achieve this, then the techniques will be reviewed to see what combination of these three types of examinations is most effective. The program will then be made available not only to our 20,000 women, but also to the 33,000,000 other women who need such an examination, as well as to generations to come.

The program is as much yours as ours—for only with your cooperation can we get the answers which have been needed for so long!

Finally, since the program is funded by the National Cancer Institute, the examinations are free for the calling. What we need are concerned and understanding women who will make their unique contribution and keep in contact with us for five years.

As nurses, you know at first hand the importance of bringing effective early detection of breast cancer to all of our people as well as to yourselves. By joining the program you can help yourself as well as contribute to the health of future generations.

Don't worry about where you live. We have already had women come in from Pittsburgh. A group of women chartered a bus in Wilkes-Barre, came down, and not only had a good time shopping and seeing the sights, but also joined the program.

It only takes a telephone call to (215) 829-8350. Ms. Franco can arrange for two of you, or for larger groups. You can become an important part of our joint effort to bring about early detection of breast cancer.

Jefferson graduates between ages 45 and 64 note: You are eligible and welcome to participate in this health maintenance program.

COMMITTEE REPORTS

SOCIAL

On December 11, 1973 the Christmas party was held in the Faculty Club of Jefferson Alumni Hall. Following the dinner Santa (Mary Ann Stauffer) made her annual visit and presented each member and guest a gift.

On March 12, 1974 the Alumnae had it's annual dinner and auction sale. Proceeds from the sale were placed in the General Fund.

The main event of the year was the Spring Luncheon held May 4, 1974 in the Crystal Ballroom of the Benjamin Franklin Hotel. There were 346 in attendance.

The graduating class of 1974 were guests of the Association. There were 29 members present. Class President, Miss Cheryl James was presented with a corsage.

The guests at the Head Table were:

Miss Doris Bowman, Director of the School of Nursing

Dr. Charlotte Voss, Chairman, Department of Baccalaureate Degree Nursing

Miss Elizabeth Sweeney, Director of the School of Practical Nursing

Mrs. Mamie Peace, Director of the Operating Room

Miss Carol Hutelmeyer, Acting Director of Nursing Service

The 50th Anniversary class was the guests of the Association. Present were: Lillian Pratt, Veronica Owens, Julia Ganster, Estelle Taylor, Blanche McGuigan.

Flowers were presented to the following Alumnae:

Miss Mary Godfrey — 65th Anniversary

Miss Elizabeth Heaton — Class of 1915

Miss Nanne Talley — Class of 1918

Mrs. Elizabeth Miller — Class of 1921

Mrs. Ann Craver — Class of 1921

Miss Clara Brunner — Class of 1923

The class of 1947 had 34 members present for their 25th anniversary. This was the largest anniversary class.

The flowers at the head table were given to Wanda Edgel Kinsey, Class of 1947, who was hospitalized on the day of the Luncheon.

The social committee wishes to thank all members for their continued support and assistance in making the social events a success.

The Annual Spring Luncheon for 1975 will be held May 3, 1975 at the Benjamin Franklin Hotel.

Janet Hindson, '50
Chairman

MEMBERSHIP

On January 11, 1974, the senior class was appraised of the functions, structure and by-laws of the Alumnae Association. Copies of the Alumnae Association Bulletin and Constitution and By-Laws were also given to the students at this time.

In meeting with the students on April 18, 1974 the senior class completed membership forms for entry into the Alumnae Association upon graduation. The class was also invited as guests to the Annual Luncheon on May 4, 1974. Thirty members accepted the invitation as guests of the Association.

Deidre Watkins Blank, '67
Chairman

SICK AND WELFARE

During this past year there were many alumnae members hospitalized at Thomas Jefferson University Hospital. Cards were sent and visits made to all known members.

Jeanette Plasterer, '51
Chairman

BULLETIN

Thank you to all contributors to the 1974 **Bulletin**. Special thanks must go to Peg Summers, Martha Riland, and Delores Heckenberger whose help made compilation a rewarding experience. One noteworthy contribution is the extensive class news of the class of 1934 upon their 40th anniversary.

I hope the 1974 **Bulletin** will renew your interest in Jefferson and rekindle relationships with your classmates.

Lenora Schwartz, '66
Chairman

HEAD TABLE AT THE ANNUAL LUNCHEON
Standing L to R: Mrs. Mamie Peace, Mrs. Caroline Masuda, Miss Elizabeth Sweeney, Miss Doris E. Bowman, Miss Margaret Summers, Miss Maryann Stauffer.
Seated L to R: Dr. Charlotte Voss, Miss Carol Hutelmeyer, Mrs. Lenora Schwartz, Miss Dolores Heckenberger, Miss Janet Headson.

ADMINISTRATION

The Alumnae Room has been as busy as a bee hive the past year. Besides sending out Alumnae material, we have been involved in addressing envelopes for the activities and the information of the University.

There have been programs of interest to nurses and there will be more programs in the future.

Please send your new addresses when moving, also change of name, so you will be on the active mailing file.

I am in the Alumnae Room on Tuesdays, 10 to 4, of each week. The Alumnae Room is on the Mezzanine Floor of Jefferson Hall, 11th and Locust Street, Room M-2. Telephone No. 829-8981.

Martha E. Riland,
Clerk-Typist

Note of interest. From 1893 to 1974, there have been 4176 Graduates from the School of Nursing.

MISSING ALUMNAE MEMBERS

Help us find the correct addresses for the following: The letters for the annual giving and luncheon invitations sent March 1974 were returned to the Alumnae Office — marked moved — no forwarding address.

"THE CLASS OF 1974 WERE GUESTS OF THE ASSOCIATION"

MISS CHERYL JAMES, PRESIDENT OF THE CLASS OF 1974 WITH
MISS MARGARET SUMMERS AND MISS MARY GODFREY

MODEL SHOWING SITE OF NEW
CLINICAL TEACHING FACILITY

RESUME OF MINUTES OF
ALUMNAE ASSOCIATION MEETINGS

September 11, 1973

A motion was made, seconded and carried to recommend to Miss Bowman and her committee to reissue the Fall scholarship to Janice Osterhus.

1100 By-Laws booklets went out in July. Thanks to Miss Riland and all who helped with the mailing.

A new Santa suit will be made by Misses Oberdorf and Hardy.

It was decided to send the **Reader's Digest** to the following:

Elizabeth Heaton	Sarah Bergey
Emma Knock	Mary Godfrey
Ethel Faust	Edith Chyfer
Mabel Miller	Freda Steinback

It was decided to send Christmas flowers to:

Mary Kimball	Violette Emig
Ann Bergner	Rosa Diserode

An appropriate gift will be sent to Bernice Collins.

October 9, 1973

Miss Bowman reported that there have been two applications for scholarships. It was moved and seconded to award scholarships for the Spring 1974 semester to Judith Johnson and Sally Dupras.

Mrs. O'Connor reported that personal contacts are being made concerning donations to the Sesquicentennial Campaign. Deidre Watkins will be the representative to the P.N.A. Convention in Pittsburgh.

It was moved and seconded to send the United Fund \$150.

A very interesting film was shown about total knee replacement.

November 13, 1973

The Christmas party will be held December 11, 1973 in Jefferson Hall.

Deidre Watkins gave an excellent report of the P.N.A. convention which she attended as a representative of the Association.

It was moved, seconded and carried to send the Christmas Seal Fund Society a contribution of \$25.00.

January 8, 1974

Miss Hindson reported that the Christmas party was a huge success with 44 persons in attendance.

The following ballot was approved:

President—Peg Summers
2nd Vice-President—Dolores Heckenberger
Evelyn Frazier
Board of Directors—Deidre Watkins Blank
Catherine Mikota
LuAnn Miller
Evelyn Dute

Mrs. Schultz, a speech therapist, showed a very interesting film about the world of the aphasic and conducted a question and answer period.

February 12, 1974

Miss Hindson reported that the annual supper and auction will be held March 12 in the Faculty Club in Jefferson Hall.

Mrs. O'Connor reported that much more effort is needed in order to reach our Sesquicentennial campaign commitment.

It was announced that the Breast Diagnostic Center survey is open to all Jefferson graduates. This is a good opportunity for health maintenance.

An interesting and informative program was then presented by Mrs. Margaret Reddy — a stoma therapist.

April 9, 1974

There were 28 reservations with 25 in attendance at the annual supper and auction. The auction raised \$118.50. The Annual Spring Luncheon is to be held May 4. Dr. Charlotte Voss is to be the speaker.

Mrs. O'Connor announced that \$31,000 has been raised so far for the Sesquicentennial campaign.

The ANA Convention will be in June in San Francisco. No one is presently able to go.

Results of election:

President—Margaret Summers
2nd Vice-President—Delores Heckenberger
Board of Directors—Janet Hindson
Deidre Watkins Blank
Evelyn Dute

A motion was made and carried to destroy the ballots.

May 14, 1974

It was moved and seconded to accept the recommendations of the Scholarship committee to grant scholarships for the Fall semester to Peggy Eckhart Hess and to Betty Billbrough Alexy.

There were 362 reservations for the luncheon with 346 in attendance. The head table flowers were sent to Wanda Edgel Kinsey.

June 30 is the deadline for all contributions to the Sesquicentennial campaign.

It was decided to contribute \$200.00 to the History of Nursing in Pennsylvania being sponsored by the College of Physicians of Philadelphia to provide for our representation in the project.

A motion was made and carried to send Lenora Schwartz to the ANA Convention as the representative of the Association:

It was decided to purchase several souvenir items of Jefferson to be available to graduates by the 1975 luncheon.

Mr. Louis McCreight from the General Electric Space Center in Valley Forge presented a program about the applications and benefits of space technology.

A motion was made and carried that the President and the Board of Directors conduct any emergency business which may arise between May and September.

All of the regular meetings of the Alumnae Association were held in room M23 of the Jefferson Alumni Hall.

Respectfully submitted,
Lenora W. Schwartz
Recording Secretary

MR. BROWN

The weather man in our town,
His name I'll now call Brown,
He used to own a scrubby farm.
Is two miles out of town.

Now Brown when he came home that night,
Was drunk of course
A strange freak too,
He harnessed up his horse.

So down the road
He staggered then
And cursed for want of light.

And when he reached the barn he found
His things were there all right,
But after fussing quite a while,
He got hisself a drink.

And picking up the whip and rein,
He jumped into his jig.
His wife, she heard him from the house,
And wondered what could be.

So down the road she came
In breathless haste to see.
Why Brown what does this mean,
You're horrid drunk tonight.

And going closer up to him,
She held aloft the light,
But back she fell with sudden fear,
The sight was strange I vow.
For he had not hitched up his horse,
But harnessed up his cow.

Rosa Diserode, '23

"THE CLASS OF 1924"

WAYS AND MEANS COMMITTEE REPORT
May 15, 1973 - May 15, 1974

Thank you once again for your continued support and your generous giving to your Alumnae Association. The contributions to the Relief Fund, Scholarship and General Fund brought the total amount to \$5,053.00. All contributions received after May 15, 1974 will be acknowledged in the Alumnae Bulletin for 1975. Following is a list of contributors and contributions according to classes.

- | | | | |
|--|--|--|---|
| 1909—\$15.00

CLASS NEWS

1909—Mary Robinson Godfrey, My granddaughter, Mrs. Pandora Gerard Coleman, graduated Cornell University in 1963. Promoted to Editor and Planning Office Services at Brooke Air Force Base, Canal Zone Panama.

1920—Anna C. Campbell Trego, Maple Garden, Apt. 73, Pottstown, Pa. 19464. Many fond memories of Jefferson and Miss Melville.

Ann Vehma DeWitt, 17153 Delaware, Detroit, Mich. 48240. I nursed in one home in Buffalo, N.Y. for 35 years. After their death I came to Detroit in 1959 to nurse my brother. I have had only two cases in 50 years.

1921—Elizabeth Garner Miller, R.D. #4, West Chester, Pa. 19380. Widowed — adult children a constant comfort.

1923—Jessie Harriet Strunk Reed, 5830 Ohio Ave., Altoona, Pa. 16602. One son, G. Walter Reed, Jr., and four grandchildren. He is an account executive with Merrill Lynch in Williamsport, Pa.

Clara M. Brunner, 8 East Broad Street, Trumbauersville, Pa. 18970. In May 1972 I received a plaque from the Bucks County District of the Pennsylvania Nurses Association for being its oldest member.

1924—Lula Randels Kuntz, Rt. 3 Box 16, Mills Gap Road, Arden, N.C. 28704. Enjoying retirement and good health.

Kathryn Tash, 313 Clearbrook Ave., Lansdowne, Pa. 19050. 50th Anniversary — a long time!

1925—Marian L. Robinson Briggs, C 104 Concord Arms, 215 W. Montgomery Ave., Haverford, Pa. 19041. Will look forward to our 50th next year.

Elizabeth Stewart Ewing, 202 Parkway, Elkton, Maryland 21921. Widow since 1953.

S. Elizabeth Scetton, P.O. Box 36, Hartly, Del. 19953. I am retired and working harder than I ever did when I worked. My sister is blind and requires a lot of care.

Sara Elizabeth Gilbert Conrad, 709 Hartranft Ave., Fort Washington, Pa. 19034. Retired.

1926—Martha Bray Clark, 4026 Greensburg Pike, Pittsburgh, Pa. 15221. Am living with my daughter Gwen. She is Senior Medical Technician at St. Margaret's Hospital and mother of three children. My time is spent helping charities and member of the Woman's Club of Wilkian Township.

Ruth Evelyn Smith Davis, #2 Box 270, Camden, Del. 19934. Still caring for invalid sister who will be 88 years old May 4. Sorry to miss the reunion.

1927—Amme H. Phillips, Kendal at Longwood, Kennett Square, Pa. 19348. Moved to retirement home Nov. 1, 1973.

1928—Margaret Martin Lauchle, 5909 Grand Ave., Downers Grove, Ill. 60515. I was among 20 women who were honored as charter members of the Graduate Nurses Club of Downers Grove at a meeting of the club, organized in 1942.

Marion Warner Scarlett, 256 85th Street, Stone Harbor, N.J. 08247. Enjoying retirement. Keep busy. Both daughters (Jeff. graduates) happily married — 5 lovely grandchildren, ages from 16 to 12 years.

Mary Stauffer Malick, R.D. #2, Sunbury, Pa. 17801. I retired in January 1973 after being an office nurse for 20 years. My husband and I were to Florida in April and Europe in October. I have undergone 5 operations in less than 6 months — 4 to correct the first one. I hope this is it. I'm looking forward to our 50th Anniversary in 1978.

1929—Hazel Besecker Beach, 3210 Overbrook N.W., Canton, Ohio. 44709. My husband has been retired for five years. We both enjoy the retirement. We travel when the urge hits us.

Charlotte Moore Burt, 111 3rd Ave., Haddon Heights, N.J. 08035. Husband retired. We spend most of our time at our summer home in Stone Harbor, N.J. and in Florida.

Zelda K. Rowe Mencer, 910 S. 30th Street, Camp Hill, Pa. 17011. In 1973 was fortunate in achieving a desire of long standing to become a Life Master at Contract Bridge. In October I was awarded my Certificate and Silver Cup.

Mabel C. Prevost, 5831 Chew Street, Philadelphia, Pa. 19138. Appointed to the Health Advisory Committee, Governor's Commission on the Status of Women.

1930—Thelma McArthur Wolford, 928 Church Street, Indiana, Pennsylvania 15701. Was hospitalized on Jan. 7, 1973 and had my left lower leg amputated. Now I am back home recovering and wearing an appliance. Doing fine and living alone. Thanks for the interest.

1931—Helen Rodeurg, 7024 Rising Sun Ave., Philadelphia, Pa. 19111. Retired.

1932—Mildred V. Garman Jeffers, 2406 Waverly Street, Phila., Pa. 19146. Greeting to all my classmates. Still working for the city in the Police and Fire Medical Dispensary in the Municipal Services Building.

Mary Crowe Murtha, 25 Grandview Ave., Pleasantville, N.Y. 10570. I retired from my position as School Nurse in the Mt. Pleasant School District, and now spend part of our time in South Casco, Maine. Our daughter Connie is married and living in Farmingdale, Long Island.

Thelma Showers Morris, 1406 Elman St., Williamsport, Pa. 17701. Grandmother — beautiful baby girl 8/5/73. Tour of Persia, Nepal, India in Summer 1973.

1933—Helen Deane Kiraly, 2592 Locust Lane, Allison Park, Pa. 15101. Nothing interesting.

Carolyn Olson Kahtenstein, 2754 Emerald St., Phila., Pa. 19134. Still 11-7 and happily engaged in experimental work on hi-risk potential OB. and GYN. patients — fascinating.

Marion Pollitti Carey, 321 Union Street, Milton, Del. 19968.

Katherine Kinch Leach, 60 Madison Pl., Apt. C3, Ridgewood, N.J. 07450. Our son Chris graduated as an M.D. in June 1973 from Jeff. Taking 1 year internship at Air Force hospital in Biloxi, Miss. Will take a 4 year residency in surgery at the University of Miss. He is a Captain in the Air Force.

1934—Ruth Adams Fritch, R.D. #2, Kempton, Pa. 19529. Ethel Artman, Deceased April 13, 1969.

Mildred Aumiller Brown, 1670 Arboles Drive, Glenside, Calif. 91207.

Margaret Blake, 125 58th St., Altoona, Pa. 16602. I retired from GTE Sylvania Inc., October 1, 1973. They gave me a lovely retirement party and gifts. I had 21 years of service there. I hoped to get in some traveling but this gas shortage has sorta suspended that. My sister and I live together and she retired from teaching 3 years ago. We just had a swimming pool installed in the back yard. So if weather permits I will be there most of the summer. The real reason I can't make the luncheon is because of my pet dog. She has a heart block condition and requires medication twice a day and if one can imagine she is just like one of the family as she has been very badly spoiled. She follows me around constantly and I am the only one she will allow to give her medicine and also feed her. She had two heart attacks recently and kept me up most of the night. Say hello to the gang for me and maybe I will be able to make it some other time.

Mary Alice Bowman Grazioli, 16 Barren Rd., Newtown Square, Pa. 19073. Mary Alice and John are enjoying retirement — traveling a great deal.

Isaphine Bowmaster Kasper, 3 Howard Ave., Shippensburg, Pa. 17257.

Anna Breining Hartman, 216 W. Center St., Nazareth, Pa. 18064.

Elma Carey Frampton, 823 Herschel Rd., Philadelphia, Pa. 19116. Reunions are wonderful and I would attend more often, but they come at a time when trout fishing is great, and that's where we usually are. However, our 40th is a milestone and I will attend the reunion this year. On April 1st we leave for Australia, New Zealand and Tahiti, but we will be back for May 4th.

Donna Carr Cornelius, 804 Pennsylvania Ave., York, Pa. 17404.

Nellie Clapsaddle Gillis, P.O. Box 98, Mill Valley, Calif. 94941.

Margaret Clayton Schellenger, 33 Fifthian Ave., Merchantville, N.J. 07042. We have just returned from Lake Zurich, Illinois. Our first grandson, a beautiful baby, arrived February 18th. Every one is fine. Best wishes for a great reunion!

Ruth Davis Wolfe, 521 West 4th St., Lewistown, Pa. 17044.

Catherine D'Espinosa Klein, 731 Cypress St., Yeadon, Pa. 19050.

Mildred Dore Estrada, 5 West Cardiff Rd., Ocean City, N.J. 08226. Winter address: 103 N.E. 19th Ave., Deerfield, Fla. 33441. Am very sorry that I can't be present for the luncheon this year. It sounds great and would love to be with you all, however, we won't be coming up north until the 16th of May, at which time we have a reservation on the Auto train. We are all well, have fourteen grandchildren and one due in June. Al and I are enjoying retirement, went around the world last summer and just returned from a trip to the South Pacific. Expect to go to Africa next year. So you see — we keep going. Give my best regards to all who are lucky to be there.

Mildred Dunkle Bowman, 122 Iris Court, Aldersgate Retirement Center, Orange City, Fla. 32763. I retired this year, but work five days a month. Ruth Dunfee and Howard stopped here recently. They both looked real well. I hope we have a big turnout for our reunion. As far as I know now, I am planning to come up if I can get the gas.

Clara Dunn Miller, Main Street, Woodstown, N.J. 08098.

Alda Engle Brammer, 204 Morton Ave., Ruthledge, Pa. 19070. The past five years have been both interesting and busy. We have taken four cruises in different directions and have been to California several times. My husband will retire from the Fidelity Bank as Vice President in four more years, after 46 years with the bank. As for myself, I keep busy with Red Cross Volunteer work, on an average of 1 or 2 days a week; baby sit occasionally with my one daughter who is a widow for 2 1/2 years — we help her out. Have three granddaughters—no additions to the family in the last five years. We have lived at the same address for 36 years and our plans are uncertain after Al retires. Will attend the 40th reunion!

Harriet Fisher Thompson, R.D. #1, Salem, N.J. 08079.

Enid Haller Colantino, 1103 Union St., Hollidaysburg, Pa. 16648. Just returned from Florida and received your letter. Sorry that I can't make our 40th Anniversary. Maybe the 50th!! Tom retired July 15, 1973 and I retired Jan. 12, 1974. We left for Florida Jan. 14th. Really enjoyed our stay. The weather was beautiful and fine for golf. Expect to go away every winter, God willing. Sorry that I can't locate any of the girls except Bunny Hare Duncan — Mrs. Bowman S. Duncan, 522 Walnut St., Hollidaysburg, Pa. 16648. Haven't seen her for about a year, her husband is deceased. Sure wish you could find Wanda Harrison, I have lost contact with her. Best wishes for a happy 40th Anniversary celebration! Will be thinking of all of you. Please give my best regards to all the girls!

Helen Hare Duncan, 522 Walnut St., Hollidaysburg, Pa. 16648.

Marion Hartman Burch, 41 - 47th Ave., Long Island, N.Y. 11104. There is nothing new with us except John will retire this year and we are looking forward to it. John and I are planning to attend the 40th celebration!

Edna Hastings Plagens, 8476 Virgil St., Dearborn, Mich. 48120.

Verna Hertzler Diehm, R.F.D. #3, Lititz, Pa. 17543. I am still working at the Court House. Two daughters are married; six grandchildren; one son in Washington who is a lawyer and works for the Federal Government. Hope to see you all May 4th!

Kathryn Hoffman Snader, 7 North Church St., Ephrata, Pa. 17522.

Marion Hoffman Miller, 42 Westland Terrace, Haverhill, Mass. 01830. Understand that Marion has a physical condition that will not allow her to be with us. Best wishes Marion!

Eva Ingraham Grenoble, 206 N. Main St., Muncy, Pa. 17756.

Frances Johnston LeFavour, 35127 Beacon Hill Dr., Mt. Clemens, Mich. 48043.

Anna Jacoby Gehrke, 3404 Romig Ave., Reading, Pa. 19696. I will be returning from American Industrial Health Conference on May 4th, which is being held in Bal Harbour, Florida. If everything works out as planned, I should get to the Benjamin Franklin Hotel at least by 4:00 P.M. I am enclosing some snapshots of myself and the grandchildren who are my whole life. I am still working and active in Industrial Health Associations. On March 3, 1973, I was the 18th nurse to receive my certification for Occupational Health through the American Association of Industrial Nurses.

Sara Jones Ross, Deceased July 1971.

Marie Keene Lawton, Old Littleton Rd., Harvard, Mass. 01451. Ben and I keep very busy — he with his active dental practice and I with Hospital Auxiliary, Women's Club, Garden Club, and Church activities. We spend most of our free time skiing in Vermont in the winter time and boating, sailing and swimming in Lake Winnepesaukee, N.H., in the summer time. Ben, Jr., is a dentist in Friday Harbor, Wash. (one of the San Juan Islands in Puget Sound.) They have presented us with a grandson 5, a granddaughter 4 and twin granddaughters 2 1/2. Our daughter, Linda, has been in Bethesda, Maryland, but will be coming back to the Boston Area July 1st. David has accepted an Associate Professorship at Tufts Medical School in the Psychiatry Department. Our younger son lives in Jackson, Wyoming. Still single and enjoying the mountain climbing and skiing there. We plan a trip west the month of June to visit all the family out there.

Laura Klink Williams, 28 Cromwell Parkway, Summit, N.J. 07901.

Margaret Mariano Pargola, 2736 S. Smedley St., Philadelphia, Pa. 19145.

Tasamine Martin Zelt, Deceased 1957.

Maude Metzler, 1051 Walnut St., Columbia, Pa. 17512.

Margaret Moore Chew, R. #3, Bridgeton, N.J. 08302.

Mildred Myers Smith, 31 Stanford Place, Montclair, N.J. 07042. As you know I have been very interested in Japan, and since Bob's death I have become more involved. On my fourth trip (1972) I rented an apartment in Tokyo and taught Japanese students from several Universities Conversational English. I made these connections through an International Red Cross Youth Program between Montclair and Japan. I attended two seminars, one with the Lutheran Church, and one on Folk Crafts with the Council of International Education Exchange. I also went to Seoul, Korea, and attended an Asian Conference for Nurses at Yonsei University and visited Severance Hospital. Had fun being a chaperon at the Seoul International High School Fall Party. I did not go to Japan last year because I have a Japanese pastor, his wife and two daughters living with me. He is working on his S.T.M. at the Philadelphia Lutheran Seminary. My daughter, Jennifer, has followed me in her desire to travel. Last spring she went on a seminar to Africa, and has had many speaking engagements since her return. She had three years of college as an Art Major — but in September started on a Medical Assistants course and loves it. Now I wonder if she will go back to Africa to work in one of the Hospitals for Lepers. After surgery and phlebitis in October the doctor won't let me work, but I think I am doing more as a volunteer. I teach for Red Cross about three days a week plus all the work as President of our L.C.W., and a member of our church council also V.P. for Ikebana International N.J. Chapter.

Ruth Myers Peterson — Deceased January 9, 1951.

Rhca Orner Kassay, Jr., 828 Cibby St., Easton, Pa. 18042.

Elizabeth Piersol (Betty), 1002 Spruce St., Philadelphia, Pa. 19107. Peggy Summers and I are spending two weeks in Hawaii — leaving Saturday, February 23rd. I am celebrating two anniversaries this year of 1974. It is my 40th year as Staff Nurse at Thomas Jefferson University Hospital and the 40th Anniversary as a Graduate and Alumnae of Jefferson. I have a new project this year as I am taking organ lessons on my new Hammond organ and intend to be able to play for my own enjoyment in the near future. I am working in the position of Home Care Coordinator and Utilization Nurse.

Dorothy Raubenhold, 19 Valley Rd., Drexel Hill, Pa. 19026.

Helen Ritchey Frederick, Woodlawn Court, Woodlawn Ave., Aldan, Pa. 19018.

Helen Reimer Motsay, 305 Chemung Drive, Waverly, N.Y. 14892. I would love to come to the luncheon in May, but don't think I can. My life has turned upside down since Sept. 28, 1973 when my husband died suddenly of heart failure. I am slowly picking up the pieces, but it is rough. My children have been wonderful, so I have some purpose left in life. Please say hello to everyone for me!

Alice Rickard James, 1045 N. West End Blvd., Quakertown, Pa. 18951. Nothing new or exciting — we retired in October 1971 and moved to Quakertown. Had our first grandchild in July. My husband and I plan to attend the celebration!

Charlotte Roeder Jacques, Deceased May 1963.

Ruth Spencer Dunfee, 200 W. 40th St., Shadyside, Ohio 43947. We have just returned from Venice, Florida. We had been there for two months. We spend a great deal of our time in travel and it is always good to get home. My husband plans to be with me for our celebration!

Elizabeth Taylor Davidson, 1100 Grandview Blvd., Lancaster, Pa. 17601.

Julia Tyler McCracken, 524 Revere Rd., Merion Station, Pa. 19066. Dr. Nelson retired three years ago and so did I. Have been busy with church, civic and golf activities. Golf has been most time consuming since I have been Ladies Golf Chairman at our club for the past two years, also won the Ladies Championship there for the past two years — not that good a player — lucky! Took up sewing and am enjoying it a lot. We went to Scotland, Ireland to play golf in 1971. Tip had lower lobe of right lung removed last year (cancer), which slowed us down a bit. We did get to Aca-pulco this winter.

Dorothy Wall Ghare (Tillie), 609 Arlington St., Tamaqua, Pa. 18252. Sam retired from business as of Sept. 1st, 1973. We sure have been enjoying his retirement. I am keeping him busy doing jobs around the house, which he never had time to do. We have done some visiting and plan to do a little traveling. Daughter, Ruth Ann, and family live in Allentown. Her husband is practicing Eye, Ear, Nose and Throat there. They have four sons — so we baby sit quite often for them. Son, Richard, also lives in Allentown. They have a son. So between both of them they keep us busy. We are both enjoying good health and try to keep busy with church, civic activities, etc. I haven't done any nursing except with the Red Cross Bloodmobile and at the Crippled Children's Clinic. Sam will be with me for our celebration!

Kathleen Warner Armitage, R.D. #1, McVeytown, Pa. 17051.

Evelyn Wilson Frazier, 1308 Park Blvd., Cherry Hill, N.J. 08034. I retired in February 1969; my husband retired in October 1969. 1970 was our big year. We went on a 14 day cruise in the Caribbean and our son became an Eagle Scout. He is now in his second year at Philadelphia College of Pharmacy and Science. I keep busy in civic and church activities and am taking courses at Extension Class — chair caning being my favorite course. Jim, my husband, died Feb. 20th, 1974.

Eva Woosley Warren, Route 4, Box 507, Hillsborough, N.C. 27278. I promise myself each year that I will be there for a reunion, but again I must say no. I retired as Dean, School of Nursing, East Carolina University in 1969 and have not worked at nursing since that time for pay. I am a volunteer

with the Orange County Blood Mobile and have recently been appointed to the Advisory Committee for the Orange County Home Health Agency. In addition, I am Secretary of the Hillsborough Garden Club and we are preparing for our Spring Garden Show. I am also Chairman of my church circle, am a member of the Orange County Democratic Women and former Vice Chairman, a member of the Business and Professional Women. I am a member of the Society for the Preservation of the ENO and hike most Tuesdays with an Explorer group. I continue to be active in the State Nurses Association and was honored at the October Convention for having served 20 years in the elective office of Treasurer. My son expects to graduate in June with a Masters in Forestry from North Carolina State University. I have a small hobby greenhouse which is a joy and garden vegetables as well as flowers. The remainder of my time is spent sewing, reading, doing needle work, and some housekeeping. I hope you folks have a wonderful time in May and wish I could be with you!

Margaret Yarnall Snear, 230 West Rose Tree Road, Media, Pa. 19063. Rob and I just celebrated our 35th Wedding Anniversary. We went to see "The Sting" — things have changed. We have our daughter, Joanne coming for lunch with her husband and four boys. She has recently gone back to work part time for an urologist at Hunterdon Center, N.J. We have a son in Indiana — he has two children — a boy and a girl. They are coming this weekend and we are going to Bermuda for a week. So things keep us busy. Rob and I will attend the celebration!

Catherine Smulling Gair, Box 287, Douglas, Alaska 99824. Guess I'm going to have to make the 45th or 50th Anniversary instead of this one. I'm on the Governor's Advisory Board on Alcoholism and its most important meeting is May 30th thru June 2nd, when I'll have to be in Fairbanks. Despite having retired, I have allowed myself to get involved in the local hospital nurses organizing a unit for collective bargaining. They are a grand group and I am their local advisor. They have just won 2 major victories and their continued effectiveness will be largely determined by their activities these next two months. Somehow, I have come to believe true professionalism can best be evaluated by the degrees of self determination a nurse exercises on the job. So I can't walk out at this stage of organization. Fortunately the officers are exceptional, but they still need support. Please say "hello" to everyone for me and tell them I'll be there sooner or later — for sure.

1935—Erma McCullar O'Donnell, 11-8 Wilde Ave., Drexel Hill, Pa. 19026. Carroll, our oldest son, received his doctor's degree at the University of Pennsylvania, daughter-in-law Renee received her Law degree from Temple, Barbara an L.P.N. from Sacred Heart Hospital.

M. Pauline Latsha Sharp, 5498 So. Belmont Road, Downers Grove, Ill. 60515. Husband Floyd had chemoablation in 1972; cataract extraction in 1973. Enjoying singing in church choir and working in church and missionary activities. Spend winters in Illinois and summer and fall in Tennessee.

1936—Elizabeth Stephan Miller, Box 14, Sadsburyville, Pa. 19369. Have continued working with American Hospital Association on the development of the Patient Representative Society and am proud to say we grew from 60 members in Jan. of 1973 to 357 before the end of 1973. A seminar is scheduled for New Orleans in May and San Francisco in November of 1974.

1937—Florence Shive Keffer, 3430 Galt Ocean Dr., Ft. Lauderdale, Fla. 33308. Son, Clayton, an M.D. in Calif. Son, Richard, C.P.A. in Miami, Fla. Daughter Beverly, 2nd year Master's student in Russian Literature in Washington, D.C.

Mary Roshinko Nylund, 62 Farmers Ave., Bethpage, N.Y. 11714. Retired Feb. 1974.

Laura Zukowski Johnson, 121 Union St., Mt. Holly, N.J. 08060. Retired from full time School Nursing this year. Will still do part time or substitute school nursing.

Mildred Woodhead Hawkesworth, P.O. Box 166, Rockport, Mass. 01966. Enjoying retirement and leisure activities.

1938—Edith Owen McCutcheon, 70 Collins Rd., Trenton, N.J. 08619. I am honored to have been accepted for certification in Occupational Health — so I am now a C.O.H.N.

Elinor Miller Wentzell, 1502 Arrowhead Dr., Suncity Ctr., Fla. 33570. Just received a Florida nursing license to be able to do volunteer work in our community.

1939—Stephanie Musial Taylor, Box 204 C, Route 4, Anderson, S. Carolina 29621. We took early retirement and moved to a warmer climate on the lake.

Miriam Brunner Cureton, 1444 Myrtle Ave., Plainfield, N.J. 07063. Now retired from nursing.

Barbara Schutt, #2 Noble Hill Rd., Norwich, Conn. Doctor of Science (honorary) conferred May 1973 by Bethany College of Bethany W. Va. Named the new director of Mohegan Community College's Associate Degree Nursing Program.

Mary Rebecca Martin McCoy, R.D. 2, Littlestown, Pa. 17340. Working I.C.C.U. at Warner Hospital in Gettysburg. Sons married — expecting first grandchild in June.

Doris Winneshiek Day, Landing Point, Gregg Neck, Galena, Md. 21635. "Who's Who of American Women", 1974. Corporate Secretary-Treasurer and Community Affairs.

1940—Mary Flyte Rosser, 69-60 108th St., Forest Hills, N.Y. 11375. Our son, Marvin, is Resident in Ophthalmology at Yale-New Haven in Conn.

Margaret Fox Miller, 155 Mt. Vernon St., Dedham, Mass. 02026. Daughter Karin teaching physical education in the Boston schools.

1941—Geraldine Chamberlain Topping, 10225 Kensington Pkwy #704, Kensington, Md. 20795. We are moving to Florida June 1, 1974 — New address is Remuda Ranch, P.O. Box #188, Goodland, Fla. 33933.

Margaret Evans Koehler, Old Parklane Rd., New Milford, Conn. 06776. I am Director of Volunteer Services at the New Milford Hospital.

Josephine Barbour Moellers, 7 E. Center Ave., Maple Shade, N.J. 08052. I am attending Glassboro State College — enrolled in the Health Education Degree Program. Working as School Nurse in Maple Shade Public Schools.

Margaret Summers, 1002 Spruce St., Phila., Pa. 19107. Enjoy my work in Staff Development at T.J.U.H. The changes taking place here are fantastic. Had wonderful trip to Hawaii this past March.

1942—Alice C. Boehret, 109 Aspen Court, Marlton, N.J. 08053. Beginning a B.S.N. program at Rutgers in Camden.

Rhoda Burg Weisz, 3 Delaware Rim Dr., Yardley, Pa. 19067. On May 16 my husband, Paul, received the Chemical Pioneer Award for 1974 from the American Institute of Chemists.

Gladys Reed White, 301 South 6th St., North Wales, Pa. 19454. Oldest — Mary Sue — graduates from Wesley College, Dover, Del. as Medical Secretary, son — R. Jack graduates from North Penn High School and was accepted at Slippery Rock College, youngest — Bette Ann — a sophomore at North Penn has won 1st prize in two sewing contests on tailoring.

Myrtle Taylor Berman, 310 Colonial Ave., Moorestown, N.J. 08057. Our No. 1 daughter, Anna Lee, received her master's in Public Administration from George Washington University and is now working in Fairfax Co., Virginia.

1943—Marion Rutter Morris, Rt. 1 Box KK-73, Quinlan, Texas 75474. Son, Stephen, graduated from Baylor Dental School in Jan. 1974 — 1st in class. Son, David, will graduate from Southwestern Med. School, Dallas, May 1974. My husband and I are retired and enjoying lake living.

1944—Rosie Mae Smith Jones. Has received certification as a Occupational Health Nurse. Position in Industrial Nursing in Beaumont, Texas.

1945—Col. Catherine T. Betz, 3402 Craigo Drive, El Paso, Texas 79904. Col. Marge Wilson S'45 and I have built a Villa in Southern Spain on the Mediterranean as a hideaway place.

Florence Schmick Howanitz, 574 Rutter Avenue, Kingston, Pa. 18704. My husband, who is a graduate of Jefferson Medical College, and I are thrilled that our son Paul has been accepted to the Medical College and will start at Jefferson in September.

Patricia Crawford, 1685 B 33rd Street S.W., Allentown, Pa. 18103. Retired 1 December 1973 from USAF Nurse Corps.

1947—Beryl Miller Bashore, 110 East Oak Street, Palmyra, Pa. At the present time my husband is C.O. of the U.S.A.F. Hospital here in the Azores. We will be rotating this summer for a stateside assignment at Andrews AFB in Washington, D.C.

Carol Stevens Coveri, 715 Winchester Road, Broomall, Pa. 19008. Son is teaching school in Martinsburg, W. Va. Daughter — Sophomore at Drexel University.

Emmabelle Gleichert Yahres, 517 Locust Lane N, West Chester, Pa. 19380. My husband William F. Beyer, M.D., died in 1972. I remarried recently to Robert M. Yahres.

Marie L. Balaga, Trust Territory School of Nursing, Saipan, Mariana Islands, 96950. I am now Superintendent of the Trust Territory School of Nursing.

1948—Betty Towsey Daughenbaugh, 180 Trudy Avenue, Munroe Falls, Ohio 44262. I was granted Certification as an Occupational Health Nurse 6-4-73, by the American Board for Occupational Health Nurses, Inc., Certificate number 341.

Mary Patricia Long Haupt, 708 Old Lancaster Road, Bryn Mawr, Pa. 19010. Husband (Dr. George) made Chief of Cardio-Vascular Surgery at Lankenau Hospital, Overbrook.

Inez Cronelius Mirenda, 22 Rampart East, Media, Pa. 19063. Our son William, Jr., is a junior at Jefferson. Cathy will enter Penn State in September.

1949—Helen Daugherty Barrett, 588 Lynn Avenue, Woodbury, N.J. 08096. In May, I will receive my 10 year Service Pin from Underwood Memorial Hospital in Woodbury, N.J. My oldest daughter, Karen, will graduate in June from Rutgers University as an Art Major. We have two other daughters in college, and our youngest is in 8th grade.

Elizabeth Sannino Fischer, P.O. Box 307, Elkton, Md. 21921. Husband — General Surgeon — 4 daughters, one, Sophomore at Gettysburg College majoring in Accounting. One, entering Mount St. Mary College in Emmetsburg in September. Other two in High School.

Florence Servello McAlpin, 3036 Cartwright, Beaumont, Texas 77701. Son Bruce, serving 4 years in the Navy Submarine Service, promoted to E-4. We are very proud.

Barbara Brown Breen, 1177 Omaha Road, North Brunswick, N.J. 08902. Husband, Jim, is executive pilot for Johnson & Johnson (Hospital Supplies, band-aids, baby powder, etc.) and in addition a partner in underground lawn irrigation business. 49er's — remember him? Still as handsome as ever! Oldest daughter Pat (24) and her husband will present us with our first grandchild before the year is out, if all goes well. Pat's a Registered Dental Hygienist. Daughter Jackie (23) is a Sgt. in the Air Force, works as a Medical Service Specialist, just married May 11, '74 and will be making her home near Bozeman, Montana after discharge in June. Son Jim (18) graduates from Rutgers Prep School in June, plans a future in aviation engineering, works with his dad part-time and all summer. Daughter Steffie (14) completes 8th grade this year, planning a career in veterinary medicine. As for me — besides being a busy wife and mother, I work for Planned Parenthood League of Middlesex County as supervisor of the South County Clinic. Also, "Woman - Friday" for the sprinkler business. One thing I'm not, is bored! So sorry to have missed my 25th reunion. Would love to hear from any and all of my classmates.

1950—Joan Christman Clauss, R.D. #1, Olyphant, Pa. 18447. Oldest son, teacher, getting married August 3rd. They will both be entering their Senior year at Yale in September. Daughter Joan entered Ithaca College in January skipping the latter half of her Senior year in High School.

Sara Young Konstanzer, 132 Delview Drive, Wilmington, Del. 19810. My oldest daughter Daria, was married April 27, 1974, she was given in marriage by her brother Robert.

1951—Jane Hawk Aires, 16653 Pineridge Drive, Granada Hills, Ca. 91344. I returned to Nursing at one of the Growing Hospitals in the San Fernando Valley — Northridge — and just love it. Much to learn and I must admit the background we got at Jeff made it very easy to return. As many of the RN's I've met who trained in the Philadelphia area have told me, "You girls from Jeff can really pick up where you left off"! And that's the truth!

Barbara Edwards Beam, 350 Oakdale Place, Springfield, Pa. 19064. Our son Eric received a full 4 year Track Scholarship, to Auburn University, Alabama.

Nina Davis Weller, 1227 Starling, Millville, N.J. 08332. I am still working on my degree. Will be working in the State Migrant Program this summer. Have a son and daughter in college. Karen is taking Fashion Designing at University of North Carolina. Tom in pre-med at Muhlenberg.

1952—Jeanne Flanagan Ryan, 7452 Hill Road, Philadelphia, Pa. 19128. Visited Lynn Plaisted Havard and her family in September 1973 at their homes in Visalia and Shaver Lake, Ca. Her husband Bob then flew us in his plane to Las Vegas where we spent a few days. Lynn is teaching Med-Surg. Nursing at the College of the Sequoias in Visalia. Wonderful to see old friends again after 11 years.

1953—Frances Kazmer Balistreri, 2455 N. 116th Street, Milwaukee, Wis. 53226. Busy — Daddy — as PHD-M.D.-Psychiatrist, gives us as a family an active life. Busy mother with 4 living children (6-10) at home.

1954—Elizabeth Snyder Swartz, 678 County Line, Telford, Pa. 18969. I will be graduating from Cedar Crest College in Allentown, Pa. with a B.S. in Nursing this May. My oldest son Frederick graduates from High School, he has majored in art and won many prizes and awards in the past 2 years. He plans to enter York Academy of Arts in September.

Jean Barbara Tomlin Dempsey, 100 Schafer Blvd., New Castle, Del. 19720. Sandra, our oldest daughter, graduates from High School this year, enters Wilmington College in September. Last spring she traveled to Holland and this spring she traveled to Spain. Cindy, our 15 year old has been showing her horse in local shows. My husband has retired from General Motors.

Mary Ann Stauffer, 1020 Spruce Street, Philadelphia, Pa. 19107. Great day, May 4, 1974, we had 22 classmates present. Open house at 1020 Spruce Street. Hope we can double this in 1979 for our 25th.

1956—E. Lorraine Pope Baird, 1782 Paper Mill Road, Meadowbrook, Pa. 19046. My husband, Dr. Robert M. Baird, Neurosurgeon, is now in Private Practice at Nazareth and Holy Redeemer Hospitals, after having served 15 years in the U.S. Navy. We have 4 children, ages 11 to 16.

M. Faith Stewart Graham, 649B Waupelani Drive, State College, PA 16801. Received B.S. in Nursing from Penn State University in December 1973.

1957—Constance Sierant Vetter, 1911 Kennedy Drive #104, McLean, Va. 22101. Son born August 13, 1973.

1958—Annunciata J. Sakella Daneman, 2934 Capri, Memphis, TN 38118. My husband, Jay is now the Director of Construction for Nonconah Corporate Center. All 3 children now in school.

Drosalina (Dee) Riccio Riffle, 6180 S.W. 90th Court, Miami, FL 33143. 1. After graduation in 1958 I worked in a Doctors Office in Atlantic City, NJ for 1 1/2 years. 2. In February 1960 I became a Stewardess for Northeast Airlines for 11 1/2 years and recently resigned to adopt two children, John 5 and Amy 4. During my flying career I worked part-time as an RN in Hospitals throughout the East Coast where I was based. 3. My husband is a Captain and also a Flight Instructor with Delta Airlines. He was also with Northeast Airlines until the merger two years ago with Delta.

Muriel Joan LeVan Keller, 428-B, R.D. 1, Palmyra, Pa. 17078. New Addition to family. Cheryl Lynn born February 14, 1974.

1960—Sara Lipan Callanen, 125 Casmar Street, Vienna, Va. 22180. Steve and I traveling to Edinburgh, Scotland in early September, where he presents a paper.

Bette Reaver Light, 12 Eklcf Court, Croton-on-Hudson, NY 10520. 1973, received my B.S. in Education, currently I'm Director of Nursing Services at a new Nursing Home in Ossining, N.Y.

Sandra R. Mathie Manning, 103 Hunter, Plymouth Meeting, Pa. 19462. Our daughter Barbara Jane was born in 1973 at Jefferson.

Judith Haas Stauffer, 3729 Meyer Lane, Hatboro, Pa. 19040. Housewife, mother to Todd 8 years and Tim 5 years old. Not presently employed.

Martina Mockaitis Martin, 829 Coopertown Road, Bryn Mawr, Pa. 19010. I am presently in Private Practice of Internal Medicine and Rheumatology with Bryn Mawr Medical Specialists Association, 933 Haverford Road, Bryn Mawr, Pa.

1961—Mary Jill Danch Mascena, 425 Overhill Road, Haddonfield, N.J. 08033. We acquired a sheepdog, a new house and my husband is now a Power Engineer with Stone and Webster. It's been a busy year with school and the Marriage Encounter Movement.

Barbara Jaszczalt Birney, 707 Windsor Place, Wallingford, Pa. 19086. M.A. in Ed. in May 1974 from Villanova University.

Loretta Davis Cunninghame, 914 3rd Place, Plainfield, N.J. 07060. I am now attending the United Hospitals of Newark School of Anesthesia. My husband is Lt. of Police in Plainfield.

1962—Barbara Hartwell Akerei, 109 E. Penna Avenue, Absecon, N.J. 08201. Worked as Pediatric Nurse for 7 years after graduation. Married, two daughters, age 5 years and 2 years.

Carol Frame Green, (after July 1st) 615 W. South Street, Carlisle, Pa. 17013. My husband Tom (Jeff '66) finishes his Orthopaedic Residency in June and will go into practice with Dr. Frank Byron (also a Jefferson graduate) in Carlisle, Pa. After all these years of studying combined with a tour of duty in the Navy which took us to the far ends of the earth, we are looking forward to settling down in Carlisle with our three children, Jeff, Donna and Debbie.

Corrine Kurzen, 211 W. Tulpehocken Street, Philadelphia, Pa. 19144. Appointed Coordinator, School of Practical Nursing, Philadelphia School District on 8/73; M. Ed. from Temple University 8/72; elected Honorary Chairman, Delaware Valley Inservice Association 1/72.

Carolee Joyce Swalm Mitchell, 19224 Germantown Road, Germantown, Md. 20767. Billy 6 1/2, Tommy 4 1/2, Michael 2. Husband to begin school in September at Northern Virginia Community College, under Navy ADCOP Program.

Marcie Grieshaber Moore, South 67 West 13014 Larkspur Road, Hales Corners, Wisc. 53130. Mark begins Kindergarten, September 1974. I was elected Secretary of PTA and also serve as Secretary of NEMCA, a Community Civic Association. Received my Wisconsin RN license, but at present it is idle. Bob still Midwest Regional Manager with Warren-Teed Pharmaceuticals, Inc. Enjoyed our first year in Wisconsin very much.

Theresa Lefchick Lamberth, 209 Camino Elevado, Bonita, Ca. 92002. 1973 has been another fine year. My husband assumed command of H C-7 "Big Mother's" the Navy's only squadron of combat search and rescue helicopters. He had returned from Vietnam where he made several successful rescues of pilots who were shot down. All rescues were under combat and heavily opposed. Command tour is exciting and we are enjoying it immensely. After this it appears that we'll be packing our bags and heading for the Orient again. I have developed an interest in art and am taking classes in oil painting.

Ellen Glaspey Willard, 76 Boxwood Drive, Hershey, Pa. 17033. Thomas Edward Willard was born July 23, 1973. He joins two sisters, Valerie, age 7 and Stefanie age 4.

1963—Donna Fletcher Adams, 10324 Toledo Circle, Bloomington, Minn. 55437. Husband George (Jeff Class of '66) Assistant Professor of Otolaryngology at University of Minnesota.

Suzanne Vache Blackburn, 543 Nettleton Drive, E. Windsor, N.J. 08520. Busy enjoying growth and development of our 2 sons, Keith 5 years and Kyle 16 months. Spent a great weekend with "Fanelle" & Co., in their beautiful new home in Ohio.

Katherine Marie Kingsley Kinsey, 3004 Quail Hollow Terrace, Brookville, Md. 20729. Husband Dean, at Walter Reed Institute of Research until 1976. I'm employed part-time as Public Health Nurse for The Home Care Department, Holy Cross Hospital, Silver Springs, Md. Keven is a year old and busily toddling everywhere.

Loretta Rich Kurland, 8822 Tidesebb Court, Columbia, Md. 21045. We have been living in Maryland one year now and like it here very much. My husband is District Manager for Hershey Foods covering Baltimore-Washington area.

Maureen C. Maguire, 6908 Lachlan Cr., Baltimore, Md. 21239. I am delighted to be the Co-Director of the Pediatric Nurse Practitioner Program at John's Hopkins, it's really an exciting and fulfilling role.

Ann T. (Terry) Camilli Musitano, 12736 Soule Street, Poway, Ca. 92064. Husband Jack, promoted to Lt. Commander; son Jacky very active 2 1/2 year old. I just returned from 2 weeks vacation in Hong Kong, visiting my husband who is on cruise. He is a pilot in the Navy.

Shirley Marai Weller, 6075 Soledad Mountain Road, LaJolla, Ca. 92037. Husband Michael, promoted to Associate Professor of Pediatrics and Radiology. Life is very busy thanks to 2 year old Jennifer and her brother Andrew, born November 11, 1973.

Mary Elizabeth Speicher Gillin, 26 E. Langhorne Avenue, Havertown, Pa. 19083. Hilary Meredith Gillin joined her big sister Heather on 7-8-73. She was delivered at Jefferson by the Lamaze method.

1964—Barbara Nase Anderson, 1139 Tilghman Street, Allentown, Pa. 20007. I received my Masters Degree in Medical-Surgical Nursing January 1974. My husband Bob is working for the Veterans Administration in the field of Hospital Administration.

Vivian Mead Caceres, 111 Centre Street, Haddonfield, N.J. 08033. September will start my fifth year at teaching in the School of Nursing at Jeff.

Marilyn Miller Long, 163 Cheyenne Tr., Medford Lakes, N.J. 08055. We have 3 daughters, Amy - 5, Susan - 4, Leslie - 2.

Judith Downing Maloney, 1004 Mitchell Avenue, Morton, Pa. 19070. My husband Don has just been promoted to District Manager of the San Francisco Office of the Elliott Co., and we are moving in June to Clayton, Ca.

Barbara Ciabocchi Violanti, 119 Greenbrier Drive, Clarks Green, Pa. 18411. We moved into our new home in September and love it. Joe is still controller for the Sisters of Mercy and I enjoy being at home with our children. Michelle is 7 now and Joseph Paul will be 3 in July.

1965—Jenny Jongenburger Adams, 1140 W. Farwell, Chicago, Ill. 60626. We now have 2 wonderful children, J.D., almost 3 and Christine Louise 15 months. Jim will be done with his residency in December, then we hope to find our place in the Colorado Mountains.

Carolyn Widman Bohn, 1240 Brennan Drive, Warminster, Pa. 18974. Caryn, 3 years old and Greg, 14 months are growing nicely. Looking forward to working again.

Adrienne Lowe Daughenbaugh, 11 Forest Drive, Northfield, N.J. 08225. Our second child due 4-9-74. Our daughter Lori is 3 years old. On temporary leave from Shore Memorial Hospital.

Judith Abbott Getz, 111 N. Pelham Road, Voorhees, N.J. 08043. Two sons D. David 3 years old and Travis Garrison, 8 months. Teaching and studying cooking. Plans for Cordon Bleu (London) this July. Don finishes his Ortho Residency this September, but no plans yet.

Barbara J. Ott Keller, 1032 Cheyenne Blvd., Indian Harbor Beach, Fla. 32937. Our 3rd daughter Maureen arrived in September 1973. Kelly Anne is 5 and Bridget is 4. Basil has a very busy Neurosurgical Practice at Brevard Hospital.

Janet Carolyn Walker Respass, 2-3649A East Cliff Drive, Santa Cruz, Ca. 95062. My husband and I are planning a three month trip to Europe this fall. I hope to graduate from the University of California, Santa Cruz with a B.A. in Biology in June of 1975.

Gail Elizabeth Wright Schutz, 321 Bellanca Road, Bricktown, N.J. 08723. I have been installed as president for 2nd year of Junior Woman's Club. Also still working part-time in O.R. at Jersey Shore. Krystine is 6 years old and enjoying school. Jennifer is 3 already. Chuck's business "Bricktown Electric" is really growing, now he has his own office in town. Life is busy, but fun. Let's hear from you.

Carolyn Jones Walchak, 8155 SW 71 Avenue, Portland, Or. 97223. Frank and I have just been blessed with a beautiful baby girl. I am retired for awhile.

Carolyn McDowell Yasinski, 1213 Thurston Drive, Wilson, N.C. 27893. I married Andrew Yasinski in May 1974. Andy is the Associate Administrator of Eastern North Carolina Hospital, Wilson, N.C. I work part-time in the Recovery Room, Emergency Room and Intensive Care Unit of Wilson Memorial Hospital.

Bonnie Sandt Inglis, 4 Crenshaw Drive, Daly City, Ca. 94015. Our first child Erika Michelle was born on February 9, 1974.

Sandra Schmidt Kolodziej, 17 Revere Road, Monterey, Ca. 93940. After a one year tour in the Pacific my husband is now stationed at the Navy Postgraduate School as an Instructor in Oceanography. We all enjoyed our trip cross country, especially our two day stay at Disneyland. The children are fine and really growing up. Chris will be 7 years in July, Kelly 5 years and Karen 2 years in October. Hope to find a part-time job in the fall.

1966—Mona Kadushin Berch, 1201 S. Scott Street, Arlington, Va. 22204. My husband received his doctorate from MIT and is now employed by the Patent Office.

Tracy Valentine Booth, 154 Mill Street, Burlington, Ma. 01803. Presently my nursing consists of mothering Andrew 4 1/2 and Eliza 3, breeding Airedale Terriers and being Coordinator for High School Sex Ed Class. Don will finish Ortho Residency June '74 so we will be moving again.

Nancy Ayres Bowman, 1701 Newport Road, Croyden, Pa. 19020. Birth of a baby girl, Jennifer Anne, March 5, 1974.

Bonnie Ann Crawford, 45 Sullivan Road, Wayne, Pa. 19087. Still working full time as 11-7 Supervisor, Cathcart Home, Devon, Pa. Also I still have my horse, which I ride infrequently due to the fact that I am now attending college full time, in quest of a B.S. in Nursing. Makes for a very busy life. I also made a return trip to Hawaii on Thanksgiving vacation.

Barbara Shermer Ruel, 531 Linden Avenue, Doylestown, Pa. 18901. My husband was promoted to Assistant Manager of the Bristol Office of Fidelity Bank last January. I'm still working part-time nights and trying to keep up with Stephanie our busy two year old.

Martha Roe Russell, 26 S. Vernon Street, York, Pa. 17402. In February I started working 4 days a month at York Hospital, but will give it up by summer to get ready for our third baby, due in October. Michael will be 3 and John 1 1/2. Bob is now an Assistant Vice-President with National Central Bank.

Karen Shearer Hughes, 818 North Lois Avenue, Newbury Park, Ca. 91320. Am working in CCU at Los Robles Hospital.

Lenora Weiner Schwartz, Kennedy House, Apt. 2321, 1901 Kennedy Boulevard, Phila., Pa. 19103. I've enjoyed an active year with our three year old — Gary. Allen and I are looking forward to our simultaneous graduations this summer. I've also been elected President of the Rittenhouse Chapter of Women's American O.R.T.

1967—Karen Lawer Bedell, 1698 Westhaven Drive, San Jose, Ca. 95132. John will finish his MBA in May. We're enjoying our son Patrick and I'm working part-time and going to school part-time.

Deidre M. Watkins Blank, 1014 Spruce Street, Philadelphia, Pa. 19107. Married Michael S. Blank on December 1, 1973. Michael is a Doctoral Candidate in Physiology at Jefferson.

Karen Neubeck Brady, 180 Beach 117 Street, Belle Harbor, N.J. 11694. Not working due to illness but feeling better now. Would love to hear from my classmates.

Sally Higham Fenlin, 836 Bryn Mawr Avenue, Narberth, Pa. 19072. Housewife — children John Jr., 12, Joseph 9, Rodger 7, Brian 2, Kelly (girl) 5 months.

Suzanne K. Stevens Fiore, 631 Argyle Avenue, Ambler, Pa. 19002. Lovely daughter Suzanne born November 23, 1973. I'm working as Relief Supervisor at Ambler Rest Center.

Kathleen Raab Fitzgerald, 114 E. Seventh Street, Burlington, N.J. 80816. Had a new baby boy October 28, 1973.

Rosemary Aubrey Gamburg, 621 Topsfield Road, Hatboro, Pa. 19040. Baby boy, Derek Aubrey Gamburg born December 23, 1973.

Paula Laros, 4311 Spruce Street, Apt. B14, Philadelphia, Pa. 19104. Received my B.S.N. from University of Pennsylvania last year and am now an Assistant Instructor in Jefferson's School of Nursing.

Linda Louise Streze Lauria, 127 Center Avenue, Terre Hill, Pa. 17581. Birth of a daughter — Lisa Marie in May 1973. Husband Michael, continues in General Practice.

Diane Jakabcin Perkins, 412 Karen Court, Marina, Ca. 93933. We will be in Monterey area until September, when Tom graduates from Naval Postgraduate School with M.S. in Oceanography. I am working part-time as Pediatric Nurse. Our sons are now 17 months old and 4 1/2 years.

Linda M. Valentine Russell, 3307 Chippendale Street, Philadelphia, Pa. 19136 (DE 8-1487). Bud and I have two boys, 3 year old William and 1 year old Patrick. I am doing some private duty nursing to keep in touch. Anybody living in the Northeast Philadelphia, why not call or stop over.

1968—Nancy Jones Harrington, 14 Wilbur Street, South River, N.J. 08882. I am retired for only a few months — after the birth of our son Jerry, born January 11, 1974.

Carol Cohen Leventhal, Bellefonte Apts. Tivoli C-2, Scranton, Pa. 18505. I am presently employed as a full time housewife and mother. My husband Jeff and I have 2 children — Scott David and Cari Lyn. Cari was just born on March 15, 1974. My husband Jeff has a Masters Degree in Business Administration and is employed in Dental Supply Business. Son Scott was born in 1973.

Virginia Bozarth Waldron, 5245 H Broadway, APO, Seattle, Wash. 98737. I will graduate with an AA in Liberal Arts from the University of Alaska this May. Our first child is also due in May.

Halina Piekarska Warmbrod, 280 Stonehaven Cove, Jackson, Tenn. 38301. Jim will start practicing Orthopaedics in the Jackson Clinic as of July 1974. We have 2 daughters, Stephanie Ann 3 1/2 years and Monela Lynn 20 months.

1969—Linda Barbour, 102 C Haddon Hills, Haddonfield, N.J. 08033. Continuing my education while working full time in CCU.

Sandra Jane Ramsey Bauer, 195 Belair Road, Warminster, Pa. 18974. Bill and I were married in August 1972. He is an electrical engineer with Philco Ford. I took an educational LOA from work at Abington Hospital and finished at U of P in August 1973, after receiving my BSN. I'm back at Abington until the end of June '74, when we'll be adding a new member to our family.

Kathleen Shanahan Huffman, 15 Euclid Avenue, Merchantville, N.J. 08109. We now have two daughters — Rebecca Ann born March 8, 1972 and Jessica Marie born June 2, 1973. My husband Jerry is now a Junior at Drexel Evening College.

Dolores T. Hughes, 1525 E. Alcott Street, Philadelphia, Pa. 19149. Guest speaker on Post-Operative Coronary Care Conference at York, Pa. "Update '73" 11/73.

Virginia S. Morris Hunter, 6140 Lawndale Avenue, Philadelphia, Pa. 19111. Susan Michele born June 19, 1973. Our second child is expected this summer.

Annie Marguerite Liliane Eldredge Kahn, 2147 "O" Street N.W. #207, Washington, DC. 20037. I was promoted to Staff Nurse II at George Washington University Hospital Emergency Room. My husband is now employed at the Treasury Department as an Accounting Technician. He is a part-time student pursuing an Accounting Degree.

Elizabeth Anne Reed Kirschling, 767 Bevier Road, Piscataway, N.J. 08854. I am a Sophomore at Douglass College (Rutgers University) in New Brunswick, N.J.

Marie Seebauer Panebianco, 242 Tilford Road, Somerdale, N.J. I am currently employed as a Regional Nurse Coordinator for N.J. Medicaid in Camden, Ca. My husband completed his Master's Degree in 1973 in Chemical Engineering and is now employed at Scott Paper Co., Philadelphia, Pa.

Irene Tachovsky, 606 Alvarad Avenue #94, Davis, Ca. 95616. Spent '70 - '73 in San Francisco, Ca. Worked at UCSF in O.R. moved to Davis, Ca., in '73. Working at Sacramento Medical Center in O.R. Beginning studies for B.S. in Nursing at U.C. Davis in June '74. Love California!

Vera Paoletti, 338 South 12th Street, Philadelphia, Pa. 19107. Hoping all my classmates are as happy as possible! Working as Head Nurse on 6th Main at TJUH and loving it!

Caroline Brunt Moriuchi, Fellowship Rd., Moorestown, N.J. 08057. Fred and I have a beautiful 14 mos. old boy named Takashi Bayaro after his two grandfathers. He was born Feb. 17, 1973. We are really enjoying him.

1970—Linda Burger Belis, 1367 Headlee Avenue, Morgantown, W.V. 26505. I'm now Charge Nurse of the Cardio-Vascular Service Operating Room, W.V. University Hospital. Husband John is a Urologic Research Fellow at W.V. University Medical Center.

Margaret Connors, 200 E. 33rd Street, New York, N.Y. 10016. Still working as an Operating Room Specialist Senior in the Cardio-Vascular Surgery Department at NYU Medical Center.

Nancy Lukiewski Hagdorn, 1246 Shelmire Street, Philadelphia, Pa. 19111. I returned to TJUH and I am working in Intensive Care Nursery and going for my BS. My husband is still attending Drexel.

Sandra Clark Hall, 94 Ridgelawn Road, Reisterstown, Md. 21136. Still working as Staff Nurse in O.R. at Greater Baltimore Medical Center in Towson, Md. Husband, George is now a Maryland State Trooper and really enjoys it. We bought our first home before Christmas and are enjoying fixing it up.

Linda Hook, 217 N. Blackhorse Pike #9, Mt. Ephraim, N.J. 08059. Engaged to Fred Garbrecht in October 1973, wedding set for October '74. We're both very active instructors in Training Programs for Ambulance Personnel in the area.

Sue Lin Helen Hom Makowski, 976 Keene Road, Largo, Fla. 33540. Head Nurse of CCU at CLW Community Hospital.

Suzanne Peters, P.O. Box 583, Havertown, Pa. 19083. Have been Head Nurse of the Newborn Nursery at Pennsylvania Hospital for 3 years. Plan to be married this summer.

Carol Ann Evans Phillips, 17 Summer Street, Rochester, N.H. 03867. Dave and I have a baby boy, Scott David, born December 21, 1973! He's really cute. I'm working ICU-CCU. Dave is almost finished with his Doctorate.

Gini-Ann Moyer Scott, 910 S. 12th Street Apt. F4, Allentown, Pa. 18103. Gregg couldn't enjoy architecture more. Jenny's lots of fun. We're all looking forward to a new baby this fall.

Susan Boyeronus Smolensky, 145 W. 74th Street, New York, N.Y. 10023. Married to Victor Smolensky of New York City on March 23, 1974. Full time student majoring in Biology at NYU, I will graduate in 1976. Working part-time in the Coronary, Intensive Care Unit of New York Hospital.

1971—Linda Smith Korey, 1002 Spruce Street, Philadelphia, Pa. 19107. I am currently an Assistant Instructor at TJUH School of Nursing. My husband, Joe, is finishing his third year of Medical School at Jefferson.

Grace Ann Spena, 2551 S. Sartain Street, Philadelphia, Pa. 19148. Presently on staff at the Medical College of Pennsylvania Hospital in the Intensive Care and Coronary Care Units.

1972—Margaret VanDyke Beattie, 1606 Lynnewood Drive, Haver-town, Pa. 19083. Currently working as Staff Nurse in Emergency Room at Jefferson. Husband, David, graduated from Philadelphia College of Pharmacy and Science.

Elizabeth J. Engle Corcory, 937 1/2 Central Avenue, Ocean City, N.J. 08226. Will be moving into our own house on September 1, 1974, E. Merchant Street, Audubon, N.J. My husband, Ron, will graduate from Stockton State College this summer.

1973—Karen J. Baals Jaxheimer, 9537 Banes Street, Philadelphia, Pa. 19115. Married November 2, 1973 to Francis H. Jaxheimer.

Margaret Marie Malone, 1219 Orange Bc. Rd., Apt. #204, Chas., S.C. 29407. I am now an Ensign in the Navy Nurse Corps, working on a Male Medical Floor at Chas. Naval Regional Medical Center.

CLASS ADDRESS LISTS

Class address lists will be available from the Alumnae Office Clerk-Typist, at a charge of \$2.00 per list. Enclose a long, self addressed, stamped envelope.

ALUMNAE BULLETIN

The Alumnae Bulletin will be sent automatically to all Association members. Individuals who are not Association members may obtain a copy of the Bulletin upon request, at a cost of \$3.00 per copy. An order form will be mailed to all graduates in the Spring of 1975

MAIDEN NAME — YEAR OF GRADUATION

Whenever you have occasion to write to your Alumnae Association, please use your first name, maiden name, then married name and the year you graduated.

Example: Janice Smith Green — 1972

Mrs. John Green makes it very difficult for the Association to locate your card in the files. You are urged to notify the Secretary of the Alumnae Association of any corrections, marriages, deaths or changes of address. Please help us keep errors at a minimum, and our files accurate.

CAP CHARMS

Jefferson cap charms are available in sterling silver and 14 carat gold. For information, please write Betty Piersol or Margaret Summers, 1002 Spruce Street, Phila., Pa. 19107.

ALUMNAE DAY—FIRST SATURDAY IN MAY

CAPS

Jefferson caps may be purchased from the Marvin-Neitzel Corporation, 2016 Fifth Avenue, Troy, New York 12181. (C. D. Williams & Company was purchased by Marvin-Neitzel). The minimum order is for three caps at a cost of \$1.50 each, plus a fifty cents postage and handling charge.

Identification may be obtained by directing correspondence to the Director, School of Nursing, Thomas Jefferson University, 11th and Walnut Streets, Philadelphia, Pa. 19107.

PINS

Jefferson pins may be purchased at J. E. Caldwell and Company, Chestnut and Juniper Streets, Philadelphia, Pa. 19107.

Identification may be obtained by directing correspondence to the Director, School of Nursing, Thomas Jefferson University, 11th and Walnut Streets, Philadelphia, Pa. 19107.

TRANSCRIPTS

All requests for transcripts should be submitted in writing to the Director, School of Nursing, Thomas Jefferson University, 11th and Walnut Streets, Phila., Pa. 19107. Requests should be submitted at least a month prior to the date needed. There is a \$2.00 fee for each transcript. Checks should be made payable to School of Nursing, Thomas Jefferson University.
