Jefferson Digital Commons Quarterly Report January - March 2016

2016 is off to a great start for the Jefferson Digital Commons. This report includes:

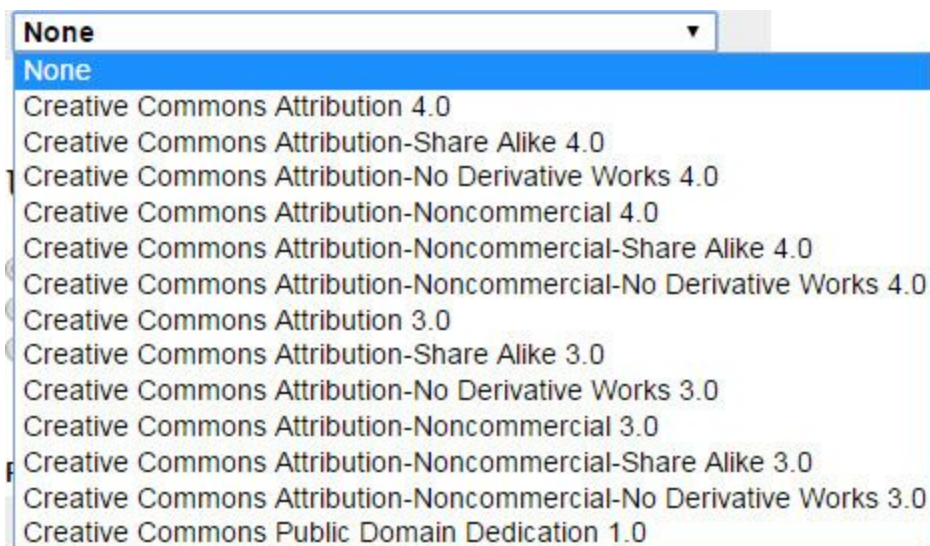

- Adding Creative Commons Licenses to works in the JDC
- Assorted new assets added to the JDC including: nursing oral histories, Physical Therapy student Capstone posters, Grand Rounds and much more
- What people are saying about the JDC from the following countries: Italy, Pakistan, Australia, Brazil, Zimbabwe and Ireland

Adding Creative Commons Licenses to works in the JDC

The JDC receives many requests from researchers from all over the world to adopt or share the assets found in the JDC for their communities. To help Jeffersonians with communicating what researchers can and can't do with their works found in the JDC, JDC Editors can add Creative Commons licenses to assets in the JDC.

A Creative Commons copyright license forges a balance inside the traditional "all rights reserved" setting that copyright law creates. The CCL grants copyright permissions to creative work. The CCL helps to convey what can be copied, distributed, edited, remixed and built upon, within the boundaries of copyright law.

Here are the licenses that can be included with any asset in the JDC:

To learn more about CCL please take 3 minutes to watch the video on this page:

<https://creativecommons.org/licenses/> and read about the licenses at the bottom of that page.

Assorted assets that have been deposited this quarter in the JDC:

Articles

- Organophosphate retinopathy
- The EFF-1A Cytoplasmic Domain Influences Hypodermal Cell Fusions in *C. elegans* But Is Not Dependent on 14-3-3 Proteins
- Preparation and biological activity of the monoclonal antibody against the second extracellular loop of the angiotensin II type 1 receptor
- The emerging roles of GPRC5A in diseases

Grand Rounds

- Lung Cancer Screening: Current Recommendations and Controversies
- Improving Diagnosis in Health Care
- Immigration Basics for Health Professionals
- Animal Assisted Therapy (AAT) Where my Dogs AAT? Behavioral Health Talk
- Review of Treatment Options for Pneumonia in the Inpatient Setting
- Communicating to Connect: Strategies to Improve Health Literacy
- Behavioral Health: Weight Loss Management
- Ethical Implications of Patients and Families Secretly Recording Conversations with Physicians (and Nurse Practitioners, Physician Assistants, Nurses and other Health Care Professionals)

What People Are Saying about the Jefferson Digital Commons:

Laura

Country: US

Role: Investigating my father's diagnosis

Resource URL: <http://jdc.jefferson.edu/cgi/viewcontent.cgi?article=1012&context=surgeryfp>

Comments: Thank you for the valuable information. I feel more informed for tomorrow's conversation with my father's oncologist. My father just had a splenectomy and cancer was discovered on the spleen and pancreas. I have time to prepare my mom for the news that these may not be the primary sites where the cancer originated. Thanks again, Laura in Missouri

Country: IT (Italy)

Role: faculty

Resource URL: <http://jdc.jefferson.edu/cgi/viewcontent.cgi?article=1013&context=orthofp>

Comments:

I need to deepen my knowledge about the cervical facets fracture/dislocations. Your article is cited in many cases.

Country: Pakistan

Hi Sir

I hope you are fine. I am c5 quadriplegic from Pakistan. In my country alot of people die after spinal cord injury because of lack of education and information. I am writing a book in local language on how to take care of yourself after spinal cord injury.

Please kindly allow me to use some of information and images from book of your centre.

Thanks

Regards

Asif.

Country: Australia

My name is Amanda and I am the patient educator on the Spinal Unit in Perth, Western Australia. I have been looking at your patient care manual and am very impressed with its content. I am looking at available resources that would facilitate to use here. Am I able to access your patient care manual as a resource in generating best practice for the spinal unit here at Fiona Stanley Hospital please?

Sandra L. Felix de Freitas

Country: BR (Brazil)

Role: researcher

Resource URL: <http://jdc.jefferson.edu/cgi/viewcontent.cgi?article=1088&context=medfp>

Comments: The article written by Dr Ballas helped me a lot in my research

Country: US

Role: patient with chemo induced pneumonitis

Resource URL: <http://jdc.jefferson.edu/cgi/viewcontent.cgi?article=1301&context=tmf>

Comments: Have been on high dose prednisone for several months to treat pneumonitis suspected to be reaction to Herceptin. Bactrim was prescribed along with the prednisone to guard against pneumonia.

Name: Natalia B.

Country: ZW (Zimbabwe)

Role: researcher

Resource URL: <http://jdc.jefferson.edu/neurosurgeryfp/18/>

Comments: !Need recommendation or consultation, if possible!

First, thank you so much for the article "Malignant Peripheral Nerve Sheath Tumor (MPNST)- An overview with emphasis on pathology, imaging and management strategies", it already turned to be very helpful in treatment and examination approach choosing for a 13-year patient with MPNST (proved by biopsy) and NF1.

I'm working as an oncologist in Moscow pediatric clinic (Russia - actually I haven't found my country in country-choosing list :), and this is one of my patients, the tumor is unresectable (involving near half of his neck with CA and VUI inside), so now we are trying to find out optimal non-surgical treatment tactics, but the information is rather poor and not really promising. So actually I'm looking for an experience share, as the tumor is rather rare and the methods of treatment are still not very effective.

Thank you again, email filled (eager to share documents on the case), sincerely - Natalia B.

Name: Dr P Prabhakar

Country: Ireland

Role: faculty

Resource URL: Common peroneal nerve palsy following total knee arthroplasty: prognostic factors and course of recovery.

Comments: The article would be of use in management of post TKR complications

Name: Aileen

Country: US

Role: student

Resource URL: Intel Corp. Chronic care at the crossroads: exploring solutions for chronic care management. 2007, Intel Corp: <http://jdc.jefferson.edu/healthpolicyfaculty/38/>

.Comments: Access to this document further substantiates the background to my dissertation proposal

Country: US

Role: patient

Resource URL:

http://jdc.jefferson.edu/cgi/viewcontent.cgi?article=1052&context=rothman_institute

Comments: I have a partial hamstring tendon tear and this article helped me learn about my injury
