Table of contents

Chapter 1	Introduction and aim	9
Chapter 2	Plasma kidney injury molecule-1 in heart failure: renal mechanisms and clinical outcome <i>European Journal of Heart Failure</i> 2016 Jun;18(6):641-649	19
Chapter 3	Proenkephalin, an opioid system surrogate, as a novel comprehensive renal marker in heart failure <i>Circulation: Heart Failure</i> 2019 May;12(5):e005544	43
	Enkephalins and the opioid system of the heart: too much of a good thing or the goldilocks syndrome? Complimentary editorial by Biykem Bozkurt <i>Circulation: Heart Failure</i> 2019 May;12(5):e005851	83
Chapter 4	Proenkephalin and risk of new-onset heart failure: data from PREVEND Submitted	93
Chapter 5	Worsening renal function in acute heart failure in the context of diuretic response Submitted	117
Chapter 6	Assessment of proximal tubular function by tubular maximum phosphate reabsorption capacity in heart failure Submitted	151
Chapter 7	Are circulating relaxin levels related to pulmonary hypertension in patients with heart failure? <i>European Journal of Heart Failure</i> 2017 Jul;19(7):958-960	197
Chapter 8	Proteomic diversity of high-density lipoprotein explains its association with clinical outcome in heart failure <i>European Journal of Heart Failure</i> 2018 Feb;20(2):260-267	205

Chapter 9	Impaired high-density lipoprotein function in patients with heart failure <i>Journal of the American Heart Association</i> 2021 May 4;10(9):e019123	229
Chapter 10	Summary and future perspectives	269
Appendices	Dutch summary Nederlandse samenvatting	286
	Acknowledgements Dankwoord	294
	Bibliography	298
	Curriculum Vitae	300
