### **Cataloging Three-Dimensional Artifacts and Realia Highlights**

- **Cataloger's judgement is essential**
- The Bibliographic Format is "Visual Materials"
- Usually title is the main entry and most of the time cataloger supplies a title
- For a piece of art, main entry could be the creator
- For <u>Type</u> (Type of record) field we usually use "r" for three-dimensional artifact or naturally occurring object and "o" for kits
- For <u>TMat</u> (Type of material) field we usually use "r" for realia, "g" games, "w" toys, "a" art original, "c" art reproduction, "d" diorama, "p" microscope slide, "q" model, and "b" for kits

#### What is Realia?

- Three-dimensional objects from real life.
- Realia may include coins, textiles, artifacts, tools, utensils, models, toys, games, puppets, musical instruments, specimens,
- It's hard to incorporate objects of realia in the general collection or to describe them easily in the catalog.
- It requires special formats cataloging rules.
- Unlike books, the artifactual value of these materials is important.
