# Duo-Piano Team Is Featured <br> Appearing at Gill coliseum in Cor- 

 vallis on Sunday, April 15, at 8 p.m. will be the well known Luboshutz and Nemenoff duo-planists."The Peerless Team" is the title given to Plerre Luboshutz and his whife, Genia Nemenoff.
In the 13 years of their career, Luboshutz and Nemenoff have achieved a record unparalled by any other duo-pianists. They are the only duo-pianists to have ap-
peared under the baton of Arturo peared under the baton of Arturo
Toscanini. They are an attraction with such orchestras as the Boston Symphony, the Philadelphla orchestra, and the New York Philharmonic Symphony. They are eagerly sought after by the leading concert series, and music festivals irom Massachusetts to California.
Before they formed their spectac ular musical partnership, both artists had distingulshed themselves as soloists on two continents. They began playing two planos for the sheer pleasure it gave them. Out of these informal recitals grew their public concert tours.
They average somewhere around 80 performances a season, this year they plan to set an all-time record. Every year thelr Carnegle Hall recitals are gala events in New York Clty.
They astound critics at the passages which the two play in unison. But the planists are equally famous for the warmth and variety of texture, the richness and color of their work.
Buses will be taken to Corvallis for this concert. A fee of 50 cents will be charged for students wishing to ride the buses.

## WELCOME, HIGH SCHOOL SENIORS!

The Lamron staff wishes to take this opportunity to welcome all high school seniors to Senior Day at OCE. We hope that you will enjoy the week-end here. The activities carried on this week-end should give you a picture of the life and purpose of this school. As potential members of the teaching profession, we should like to impress $\mu$ pon you the importance of the demand for teachers and the benefits which are afforded in this field.

Salaries for teachers have been on the increase, and they are now" well above the "average" yearly income. The increased demand for teachers is one of the primary advantages of the elementary teaching field over other fields of endeavor. Few, if any, OCE graduates find any trouble in securing a teaching job at salaries ranging from $\$ 2500$ to $\$ 3500$ yearly or more. Besides a good income, teaching affords a feeling of satisfaction that comes with service, both to the community and to the nation. The teacher usually holds a place of high respect in the community.

High demand for teaching personnel, economic and social satisfaction, and future security - all are in store for the person considering teaching. The time to act is now, while the door of opportunity still lies open!
-S.T.S.

## DEAR HIGH SCHOOL SENIORS:

On behalf of our Oregon College of Education students and faculty I am very happy to extend to you a cordial welcome.

Various student committees have been working hard to make your visit here an interesting one. The day is filled with various activities which we hope you will enjoy thoroughly.

We like OCE and we think you will like it very much, too, and we shall be looking forward to greeting you again next Fall.
