

## Editorial

### Reviewers for 2015

The Ghana Medical Journal continues to be grateful for the contribution of individuals who support its peer-review mechanism. Reviewers of manuscripts for journals work quietly but effectively to maintain the standards and the quality of the manuscripts that finally get published. Their contribution requires recognition. The professional regulatory body for medicine and dentistry practice in Ghana recognizes peer-review for as a continuing professional activity for the award of credits towards re-certification. Many of the reviewers who fell in the 2015 time period were recommended to the regulatory body for the award of CME credits. We will pursue this arrangement and look for other ways of rewarding all of our reviewers. The Ghana Medical Journal is grateful for the voluntary service provided by the following reviewers for the year 2015.
