# Undergraduate Catalog 2021-2022

There are those who seek knowledge for the sake of knowledge; that is curiosity.

There are those who seek knowledge to be known by others; that is vanity.

There are those who seek knowledge in order to serve; that is love.

--Bernard of Clairvaux (1090-1153)

Taylor University Founded 1846

236 West Reade Avenue, Upland, IN 46989 Telephone: (765) 998-2751 or (800) 882-3456 Fax: (765) 998-4791 <u>http://www.taylor.edu</u>

Information in this catalog, while current at the time of printing, is subject to change based on enrollment, faculty availability, and other considerations. Taylor University reserves the right to withdraw a course or program or to limit its enrollment when, for any reason, it becomes impractical to offer it as previously scheduled.

While Taylor University publishes program information and materials and assigns academic advisors, the student is ultimately responsible to ensure his or her academic program fulfills all graduation requirements. The University reserves the right to withdraw a previously awarded degree if the University subsequently determines that the degree requirements were not met appropriately.

Taylor University operates undergraduate liberal arts programs on the campus located in Upland, Indiana.

# **Our Heritage and Mission**

Taylor University is celebrating its 175<sup>th</sup> anniversary in 2021. During the year of 1846, the United States annexed New Mexico as a territory, admitted Iowa as the 29<sup>th</sup> state in the Union, and declared war on Mexico. Elias Howe patented the lockstitch sewing machine in the United States; John Deere constructed the first plow with a steel moldboard; and American dentist W. T. Morton introduced ether as an anesthetic. Also in 1846, the first officially recorded baseball game in the United States was played, the Smithsonian Institute was established in Washington D.C., and certain political and religious movements in the gained momentum in advocating the emancipation of slaves and promoting expanded rights for women. In the literary world, Henry Wadsworth Longfellow published "The Belfry of Bruges" and Herman Melville published "Typee." In London, the Evangelical Alliance was founded, and Charles Dickens introduced the English newspaper, the *Daily News*. Electric arc lighting was introduced in Paris. In Ireland, the failure of the potato crop caused a famine, which would send thousands of Irish immigrants to America. Beyond our world, one of Neptune's moons, Triton, was discovered.

Forged in the fire of intense religious beliefs, Taylor University was destined to become one of the oldest evangelical Christian colleges in America. Conceptualized with the conviction that women as well as men should have an opportunity for higher education, Taylor University began as Fort Wayne Female College in Fort Wayne, Indiana, and then became Fort Wayne College. Following the example of Oberlin College (which became the first coeducational college in America and the first to award college degrees to women in 1841), Fort Wayne College became coeducational in 1855. In 1890, the school merged with the Fort Wayne College of Medicine and changed its name to Taylor University in honor of Bishop William Taylor, an energetic missionary evangelist possessed with unusual vitality of commitment and devotion. Bishop William Taylor became a symbol of the values and ideals of the college. His voluminous writings including many books on preaching and missions and extensive worldwide missionary endeavors resulted in his being the first lay pastor to be named a bishop of the Methodist Church.

In 1893 because of the population boom in the central part of the state, Taylor University moved to Upland, Indiana. Nearly 100 years later in 1992, Taylor University reestablished its presence in Fort Wayne by acquiring Summit Christian College. (Summit had started in 1895 with the sponsorship of the Missionary Church Association and the spiritual leadership of Joseph P. Ramseyer and Daniel Y. Schultz.) In 2009, undergraduate programs at Taylor University Fort Wayne (TUFW) were discontinued and consolidated on the main campus in Upland.

With this heritage, Taylor University entered the twenty-first century. Taylor University's historian Dr. William Ringenberg noted, "The intellectual revolution at the turn of the century cracked the spiritual foundations of major universities" in America by challenging the role of the Christian worldview. "This, coupled with the dehumanizing of education" and the unrest caused by "the inability of secular education to guide students in their quest for meaning" helped to further shape, strengthen, and define Taylor's Christian educational mission. For 175 years, Taylor has been faithful to that mission.

Taylor University trustees, administrators, faculty, staff, and students stand committed to our heritage of Christian commitment and academic excellence.

# Implementation of Mission — A Christian Liberal Arts College

Taylor University is an evangelical, independent, interdenominational Christian liberal arts university in which all programs are shaped by a biblical, Christian worldview and the integration of faith, learning, and living within a community of intentional Christian nurture and relationships.

Taylor is distinctive in its commitment to both spiritual and intellectual development as symbolized by the twin spires of the Rice Bell Tower. Academic pursuits at Taylor are rigorous, demanding imagination, dedication, and integrity from both students and faculty. As a Christian institution, Taylor University has highly capable, supportive faculty who recognize that all truth has its source in God. Students' quests for truth begin with this conviction and relate to all aspects of the liberal arts curriculum.

Taylor University carries out its mission and purposes primarily by offering undergraduate programs in its residential campus setting. Within this environment, curricular and co-curricular programs advance the holistic development of students expressed through servant leadership, global and civic engagement, service, and life-long learning. These programs engage students through collaborative faculty-student research, experiential and service learning, internships, and international study.

The University offers focused graduate programs that expand and complement curricular and institutional strengths. Taylor University Online offers select undergraduate and graduate courses, including summer school opportunities and programs for students who are not in residence.

The University employs dedicated faculty, professional, and support services personnel who align with its mission and enable outstanding programs within a culture of continuous quality improvement.

Taylor's campus reflects a vision of physical facilities that combines aesthetics, functionality, and timely maintenance.

The University's location in the pastoral, small town environment of Upland, Indiana, seventy miles north of Indianapolis and fifty miles south of Fort Wayne, complements a commitment to foster interpersonal relationships that edify, enrich, and value all members of the University community. The proximity to metropolitan areas provides numerous benefits, including access to specialized healthcare and cultural and entertainment opportunities including music, theater, art, professional athletics, and commerce. There are also several nature preserves, state parks, and outdoor recreational areas reachable within two hours or less.

#### Mission

The mission of Taylor University is to develop servant leaders marked with a passion to minister Christ's redemptive love and truth to a world in need.

#### Purposes

In order to advance this mission, Taylor University is committed to the following purposes:

- To provide whole-person education, involving students in learning experiences imbued with a vital Christian interpretation of truth and life which foster their intellectual, emotional, physical, vocational, social, and spiritual development.
- To offer liberal arts, professional, and lifelong education based upon the conviction that all truth has its source in God, and that being biblically anchored, the Christian faith should permeate all learning leading to a consistent life of worship, servant leadership, stewardship, and world outreach.
- To create specific experiences wherein the integrative focus of a Christian liberal arts education is clarified, personalized, and applied.
- To contribute to the advancement of human knowledge and understanding and serve the evangelical Christian church and the larger (public) community for the glory of God.
- To foster a biblical model of relationships that acknowledges both unity and diversity of the followers of Christ within a covenant community and which can be evidenced in a continuing lifestyle of service to and concern for others.
- To maintain and foster appropriate and effective support services that enable maximum program effectiveness throughout the University.

#### **Anchor Points**

- Biblically Anchored
- Christ Centered
- Faith Learning Integrated
- Liberal Arts Grounded

- World Engaging
- Whole Person Focused
- Servant Leader Motivated

#### Statement of Faith

To more explicitly define the meaning of Christian higher education as used in the Articles of Incorporation, and the methods and policies by which the proposed results are to be achieved through the University or any affiliated educational institution under the control of the University, the following statements of belief and practice are set forth:

Taylor University is firmly committed to the lordship of Jesus Christ and evangelical Christianity. To assure the central place of Christian principles in the philosophy and life of the University, the trustees, administration, faculty, and staff believe that:

- There is one God, eternally existent in three persons—Father, Son, and Holy Spirit—the only Creator, Redeemer, and Sustainer of all things in heaven and on earth.
- The Bible is the only inspired, authoritative written word of God, true and trustworthy in all it affirms.
- Jesus Christ is the eternal, living Word of God. Through his incarnation he revealed God's plan of redemption by his virgin birth, sinless life, atoning death, bodily resurrection, and ascension. He will return in power and glory to judge the living and the dead.
- The Holy Spirit is present in the life of every believer, testifying to the lordship of Christ, illuminating the Scriptures, and empowering believers for fruitful service and obedience to God's commands.
- Humankind, though uniquely created in God's image, rebelled and stands in need of redemption. God, by his grace, extends salvation, reconciliation, and eternal life to anyone who comes to Christ by faith.
- The Church is the global body of believers across time who affirm that Jesus Christ is Lord and demonstrate their faith and unity in Christ by loving and serving him and all people.

#### Sanctity of Life Statement

Scripture affirms the sacredness of human life, which is created in the image of God. Genesis 1:27 NIV states: So God created man in His own image, in the image of God He created him; male and female He created them. Therefore, human life must be respected and protected from its inception to its completion.

#### **Multicultural Philosophy Statement**

Taylor University is a community of Christians intentionally joined together for academic progress, personal development, and spiritual growth. From Genesis through Revelation, the Scriptures testify to God's reconciling and redemptive work to restore broken relationships. Accordingly, the University is committed to fostering healthy relationships in our community – regardless of differences in race, ethnicity, or national heritage. We affirm that every person is made in the image of God and has immeasurable worth (Gen. 1:27).

We proclaim our commitment to act justly, love mercy, and walk humbly with our God (Micah 6:8). We acknowledge that the Gospel calls us to live and love as citizens of Christ's kingdom. We embrace diversity as we live out the Good News of Jesus Christ in the world and pursue the University's mission. Indeed, our Life Together Covenant calls us to be an intentional community based on the Gospel, which transcends ethnic, cultural, socio-economic, and national divisions. Jesus' love compels us to practice true friendship by loving our neighbors as ourselves, extending hospitality, forgiving one another, defending the persecuted, and living in peace with everyone.

This is a high calling that is often difficult to achieve. In this spirit, we acknowledge that our individual and community actions do not always demonstrate our commitment to treat one another as equal image bearers of Jesus Christ. When any of us falls short of obedience, God calls us to come before him in repentance and to be reconciled with one another. When we harm one another, we are expected to forgive one another, restore relationships and make restitution (Matthew 5:23-24; 18:15-17). We pledge to live out this commitment in repentance, forgiveness, and grace.

We aspire to be a welcoming place where we show respect and love for all people. We want to honor one another and celebrate our diverse ethnic, racial, cultural, socio-economic, and national backgrounds in all dimensions of our life together. Through our relationships and programs, we actively strive to increase multicultural diversity in our community. We commit that Taylor University will emulate the beautiful, diverse multitude from every language, ethnicity, and nation who will gather in eternal praise to Christ in the Kingdom of Heaven (Rev. 7:9).

#### Human Sexuality Statement

#### **Biblical Standards**

As Christians we are called not only to right belief, but good conduct. In fact, Scripture tells us that obedience is essential to the life of faith (Jn. 14:23-24; Jm. 2:20-24). This is critically important in the area of sexuality, as the body is the "temple of the Holy Spirit." Thus, we are called to honor God with our bodies and "flee from sexual immorality" (1 Cor. 6:18-20). Taylor University therefore affirms the following biblical standards for human sexuality, which constitute the consensus of the Christian church, both East and West, for nearly 2000 years.

All human beings are created in God's image and are, therefore, of immeasurable value (Gen. 1:26-27). Our male and female genders are also a part of God's original good creation, and our sexuality is to be celebrated. The God-ordained context for virtuous sexual expression and procreation is marriage, a sacred covenant between one man and one woman (Gen. 2:24; Mt. 19:4-6; Heb. 13:4). For Christians, the sanctity of the marital covenant is further reinforced by the New Testament use of marriage as a metaphor of Christ and the church (Eph. 5:31-33).

The biblical design for human sexuality demands sexual faithfulness for married couples (Exod. 20:14; 1 Cor. 6:13-20) and chastity for those who are single (I Thess. 4:3-8). All premarital and extra-marital sexual activity (e.g., fornication, adultery, incest, prostitution, homosexual behavior, and all sexual activity involving children) is immoral. And all use or involvement with pornographic materials is sinful, as are all forms of sexual abuse, exploitation, and harassment (I Cor. 6:9-10; I Tim. 1:9-10).

#### **Applications**

We endorse compassion, care, and mercy for all of us who struggle with sexual sin (James 3:17). We strive to follow the model of Christ, who did not condemn but called for repentance (John 8:1-11).

In all of these matters we recognize the critical distinction between sexual orientation and behavior. The former pertains to attraction or desire, which are not necessarily of a person's own choosing. Behavioral conduct, however, is under one's control and thus reasonably subject to biblical standards governing sexual expression.

The biblical call to sexual purity is challenging. Therefore, we encourage rigorous, sensitive, biblically informed discussion of sexuality, whether in the classroom, outside the classroom, or in the context of scholarly research. We pledge a principled and loving response to those who disagree with the university's stance on these issues, whether those within or outside of the Taylor University community. And in this matter, as with all others related to the Christian life, we depend upon and pray for God's wisdom and mercy as we seek to do his will and proclaim his Gospel to a world in need.

#### The Life Together Covenant

#### Responsibilities and Expectations for Community Life at Taylor University

#### INTRODUCTION

Taylor University is a community of Christians intentionally joined together for academic progress, personal development and spiritual growth. The mission of Taylor University is to develop servant leaders marked with a passion to minister Christ's redemptive love and truth to a world in need.<sup>1</sup> Together we seek to honor Him by integrating biblical faith and learning while our hearts and lives embrace the process of maturing in Christ.

The Taylor community consists of those who, in furtherance of our mission, are living together in intentional, voluntary fellowship, aware that we are called to live our lives before a watching world. Although primarily centered on the Upland campus, this community is not defined by geography, but rather by active engagement in the Taylor educational mission.

The Life Together Covenant (LTC) identifies the expectations for living in community as we seek to fulfill our mission. It is impossible to create a community with expectations totally acceptable to every member. Nevertheless, certain responsibilities and expectations must be specified to assure orderly community life. When individuals join the Taylor community, they freely and willingly choose to take upon themselves the responsibilities and expectations outlined in this covenant. The University Expectations are not intended to measure spirituality or to promote legalism. Nevertheless, Galatians 5:13-14 reminds us that while we were called to be free, our freedom is best used when we serve one another in love. (Romans 14:1-23; 1 Corinthians 8:1-13, 10:23-33)

A foundational support for the Life Together Covenant is the Taylor University Statement of Faith. The Statement of Faith affirms that the Bible is the inspired and authoritative word of God, and it provides the essential teachings and principles for personal and community conduct. The Statement of Faith also affirms the presence of the Holy Spirit in every believer; God, through the Holy Spirit, places in every believer the inner resources and attributes to minister to others through supportive relationships.

<sup>1</sup>Taylor University Mission Statement

#### **Biblical Responsibilities**

#### **RESPONSIBILITIES FOR LOVING GOD, OTHERS, AND SELF**

We glorify God by loving and obeying Him. Because we are commanded to love one another, relationships and behaviors which reflect such love confirm our allegiance to God and are glorifying to Him. (Matthew 22:36-40; John 15:11-14; Romans 15:5-6)

Living in daily fellowship with other Christians is a privilege and an expression of God's will and grace. In recognition of this privilege, great value is placed on the quality of relationships in our community. We acknowledge that we are living in a fellowship where we are dependent on and accountable to one another. The New Testament word for fellowship is koinonia, which is translated as a close mutual relationship, participation, sharing, partnership, contribution, or gift. Members, therefore, are encouraged to seek opportunities to demonstrate koinonia. (I Corinthians 12:12-31; Ephesians 4:1-6)

All persons are created in the image of God, and each person is known by God and knit together in the womb with intentional design. God's attention to creative detail is uniquely applied in each person in whom is given the capacity to love God with heart, soul, mind and strength. The commandment to love our neighbor as ourselves reminds us of our potential to minister to others while at the same time recognizing our own need for care and support. (Psalm 139:13-14; Mark 12:29-31; 1 Corinthians 6:19)

#### **RESPONSIBILITIES FOR COMMUNITY**

Within our community the greatest expression of fellowship and the highest principle for relationships is love. Since God first loved us, we ought to demonstrate love toward one another. (1 John 3:11, 16, 18; 4:7-21) For the purpose of our community we have identified the following specific expressions of love as being among the most desirable.

- Building Up One Another: We expect each member of the community to strive consciously to maintain relationships that support, encourage and build up one another. (Romans 15:1-2)
- Making Allowance for One Another: Because of our fallenness, difficulties in relationships do occur. In such cases we are to respond with compassion, kindness, humility, gentleness and patience, making allowance for each other and forgiving one another. (Colossians 3:12-13)
- Caring for One Another: We are responsible to come alongside those experiencing grief, discouragement, illness, tragedy, or other personal trials. Expressions of bearing one another's burdens include comfort, encouragement, consolation and intercession. (Galatians 6:2)
- Respecting One Another: Because of the God-given worth and dignity of persons, each member of the community is expected to be sensitive to the image of God created in every person. Therefore, discrimination against others on the basis of race, national origin, age, gender or disability is not acceptable. Any kind of demeaning gesture, symbol, communication, threat or act of violence directed toward another person will not be tolerated. (Colossians 3:11-14; 1 John 3:14-18)
- **Speaking the Truth in Love:** A community such as ours can be strengthened by speaking the truth to each other with love. Problems in relationships and behavior can be resolved constructively by confronting one another in an appropriate spirit. If the welfare of the one being confronted is paramount and if the confronter is motivated by and acting in love, the process can produce growth. (Ephesians 4:15)
- **Reconciliation, Restoration and Restitution: Healing** broken relationships is necessary for a healthy community. When relationships have been harmed, regardless of the reason, individuals are expected to reach out to one another, forgive one another, restore relationships and make restitution. (Matthew 5:23-24; 18:15-17)

#### **RESPONSIBILITIES FOR INDIVIDUAL ATTITUDES AND BEHAVIOR**

• Attributes of the Heart: Scripture gives us mandates for daily living through the Ten Commandments and the Sermon on the Mount. (Exodus 20:2-17; Matthew 5-7) In addition, Scripture teaches that certain attributes are available to individuals through the Holy Spirit. These attributes include: "love, joy, peace, patience, kindness, goodness, faithfulness, gentleness and self-control. Against such things there is no law." (Galatians 5:22-24 NIV) This "fruit of the Spirit" is to be sought, encouraged and demonstrated in our relationships. We are also called to live lives characterized by peace and holiness. (Hebrews 12:14) In contrast to encouraging these positive attributes of the heart, Scripture condemns injustice and attitudes such as greed, jealousy, pride, lust, prejudice and hatred. Although these attitudes are sometimes difficult to discern, they can hinder relationships with God and others and lead to unacceptable behavior. (Galatians 5:19-21; Ephesians 4:31; Micah 6:8)

- Prohibited Behaviors: Certain behaviors are expressly prohibited in Scripture and therefore are to be avoided by all members of the community. They include theft, lying, dishonesty, gossip, slander, backbiting, profanity, vulgarity, crude language, sexual immorality (including adultery, homosexual behavior, premarital sex and involvement with pornography in any form), drunkenness, immodesty of dress and occult practice. (Mark 7:20-23; Romans 13:12-14; 1 Corinthians 6:9-11)
- Academic Integrity and Truthfulness: As a Christ-centered University community we apply biblical responsibilities for honesty to all forms of academic integrity. Plagiarism is forbidden; we expect truthfulness and fidelity to be expressed in every learning context. (Luke 16:10; Ephesians 4:25)
- Submission to Civil Authority: In keeping with scriptural admonitions to bring ourselves under the authority of government, members of the Taylor community are expected to uphold the laws of the local community, the state and the nation. An exception would be those rare occasions in which obedience to civil authorities would require behavior that conflicts with the teaching of Scripture. On such occasions, each individual would submit voluntarily to the penalty for his or her behavior. (Romans 13:1-7) Behavior resulting in arrest on or off campus is subject to review within the University's disciplinary procedures.

#### **UNIVERSITY EXPECTATIONS**

In addition to subscribing to the section on Biblical Responsibilities, members of the Taylor University community voluntarily commit themselves to the following expectations of behavior. This commitment results from the conviction that these expectations serve the common good of the individual and the institution. These expectations are not set forth as an index of Christian spirituality, but rather as values and standards of the Taylor community and guidelines that serve to preserve the ethos of the campus communities. Furthermore, they reflect our commitment to helping each member of the community grow in maturity and in the ability to make wise choices. Because of the importance of trust and responsibility to one another, violations of these expectations are regarded as a serious breach of integrity within the community. The following expectations apply to all members of the campus communities: the faculty, staff, and students of Taylor University.

- Worship: Corporate worship, prayer, fellowship and instruction are essential for our community. Therefore, students, faculty and administrators are expected to attend chapel. Faithful participation is understood as a mature response to our community goals. We expect that individual honor and commitment to the Taylor community will motivate us to attend chapel. In addition, members of the community are encouraged to participate in the life of a local church.
- Lord's Day: Members of the community are to observe this day as a day set apart primarily for worship, fellowship, ministry and rest. While activities such as recreation, exercise and study may be a part of the day, "business as usual" relative to University programs and services will not be sanctioned or encouraged.
- Entertainment and Recreation: The University expects its members to use discretion and discernment in their choices of entertainment and recreation (some examples include media, Internet usage, and games). Each year, Student Development may sponsor a limited number of on-campus dances for the campus community. The University also considers the following forms of dance as acceptable for the campus community: sanctioned folk dances, dances that are designed to worship God, dancing at weddings, and the use of appropriate choreography in drama, musical productions and athletic events. In order to preserve and enhance our intentional community, other social dancing is not permitted on or away from campus. Activities and entertainment that are of questionable value or diminish a person's moral sensitivity should be avoided. Consideration for others and standards of good taste are important, and all activities should be guided by this principle.
- Illegal and Legal Substances: Taylor University prohibits the possession, use or distribution of illegal substances and the abuse or illegal use of legal substances, including prescription and over-the-counter medication.
- **Tobacco:** Recognizing that the use of tobacco is injurious to one's physical health, members of the campus communities will not possess, use, or distribute tobacco in any form on or off campus. In addition, our campuses are smoke free.
- Alcoholic Beverages: The community recognizes the potential risk to one's physical and psychological well-being in the use of alcoholic beverages. It also recognizes that use of alcoholic beverages can significantly and negatively impact the community. Accordingly, faculty, staff and students will refrain from the use of alcoholic beverages. Alcoholic beverages are not served at any University functions or programs on or off campus.
- Gambling: Gambling (the exchange of money or goods by betting or wagering) is viewed as an unwise use of God-given resources and is not acceptable in any form.
- **Respect for the Property of Others:** Members of the community are expected to respect the property of others, including University property, private property on and off campus, and public property. The intellectual property of others is also to be respected.
- Policies and Procedures: Compliance with day-to-day policies and procedures of the community is expected from members. These routine items are listed in the Student Life Handbook, the Master Policy Manual, and the University catalog.

#### **APPLICATION**

The University affirms that the Biblical Responsibilities and University Expectations outlined herein lead to responsible citizenship and positive and healthy lifestyle, and they support the fulfillment of the University mission. While members of the community are encouraged to follow the principles of this LTC throughout the year, it is specifically applicable for students while they are actively engaged in the educational mission (Fall Semester, Interterm, Spring Semester, and Summer Term, including Thanksgiving and spring breaks) or are representing Taylor in any off-campus events. For employees, it is specifically applicable during the periods of their service or employment contracts.

#### CONCLUSION

The book of Colossians provides an appropriate summary of the goals for our community:

"Therefore, as God's chosen people, holy and dearly loved, clothe yourselves with compassion, kindness, humility, gentleness and patience. Bear with each other and forgive one another if any of you has a grievance against someone. Forgive as the Lord forgave you. And over all these virtues put on love, which binds them all together in perfect unity. Let the peace of Christ rule in your hearts, since as members of one body you were called to peace. And be thankful. Let the message of Christ dwell among you richly as you teach and admonish one another. . . . And whatever you do, whether in word or deed, do it all in the name of the Lord Jesus, giving thanks to God the Father through him." (Colossians 3:12-17 TNIV)

Approved by the Taylor University Board of Trustees 02/15/2013

# **Accreditation and Memberships**

Taylor University is accredited by the Higher Learning Commission (HLC) (https://www.hlcommission.org, 312-263-0456) and has held this status since 1947. Following reaffirmation of accreditation in 2018, Taylor University transitioned from HLC's Academic Quality Improvement Program (AQIP) to the Open Pathway for accreditation. This change was prompted by HLC's decision to discontinue AQIP. The University had followed the AQIP pathway from 2004 to 2018. Taylor was approved to offer online associate degrees in 1998 and graduate programs in 2003. The University was accredited by the National Council for Accreditation of Teacher Education-Indiana Professional Standards Board in 1962, the National Association of Schools of Music in 1970, the Council on Social Work Education in 1980, and the Accreditation council for Business Schools and Programs (ACBSP) in 2016. The Computer Engineering and Engineering programs are accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org. All accreditation documents are maintained in the Office of the Provost.

Taylor University memberships include:

- American Assembly of Collegiate Schools of Business
- American Association of Colleges for Teacher Education
- American Association of Collegiate Registrars and Admissions Officers
- American Association of University Women
- American Council on Education
- Association for the Advancement of Sustainability in Higher Education
- Association of American Colleges and Universities
- Christian College Consortium
- Christian Leadership Alliance
- Commission on English Language Program Accreditation
- Community Foundation (Marion)
- Council for Christian Colleges and Universities
- Council of Independent Colleges
- Council on Undergraduate Research
- Evangelical Council for Financial Accountability
- The Forum on Education Abroad
- Fulbright Association
- Grant County Economic Growth Council

- Higher Learning Commission
- Independent Colleges and Universities of Indiana
- Indiana Campus Compact
- Indiana Chamber of Commerce
- Indiana College Network
- Indiana Consortium for International Programs
- Institute of International Education
- Lilly Fellows Program
- Midwestern Association of Graduate Schools
- Moody's
- NAFSA: Association of International Educators
- National Academic Advising Association
- National Association of College and University Business Officers
- National Association of Intercollegiate Athletics
- National Association of Student Financial Aid Administrators
- National Council for State Authorization Reciprocity Agreements (Indiana)
- Scholarship America

#### **Christian College Consortium**

To provide a variety of professional and academic experiences for faculty and students, Taylor maintains membership in the Christian College Consortium uniting thirteen Christian liberal arts colleges with programs similar to those of Taylor. Of special interest to Taylor students are the opportunities for semester visiting-student options on the other campuses and cooperative off-campus/international programs. The following institutions are included in the consortium:

- Asbury University
- Bethel University
- George Fox University
- Gordon College
- Greenville University
- Houghton College
- Malone University
- Messiah University
- Seattle Pacific University
- Taylor University
- Trinity International University
- Westmont College
- Wheaton College

#### **Council for Christian Colleges and Universities**

Taylor University is one of 180 colleges and universities that comprise the Council for Christian Colleges and Universities, a Washington, D.C.-based organization founded in 1976. The CCCU's primary focus is to help its member institutions pursue excellence through the effective integration of biblical faith, scholarship, and service. The council sponsors semester programs for qualified students from its member schools. These offerings include:

- American Studies Program (Washington, D.C.)
- Australia Studies Centre (Carindale, Australia)
- Contemporary Music Center (Nashville, TN)
- Latin American Studies Program (San Jose, Costa Rica)
- Los Angeles Film Studies Center (Los Angeles, California)
- Middle East Studies Program (Amman, Jordan)
- Oxford Summer Programme (Oxford, England)
- Scholars' Semester in Oxford (Oxford, England)
- Uganda Studies Program (Mukono, Uganda)

#### Campus Highlights

Taylor University is nestled in the rural gentleness of Upland, Indiana, population 3,726 (2018 census data). Taylor's quiet location adds to its charm, yet Upland's central location, just four miles from Interstate 69 between Indiana's two largest cities (Indianapolis and Fort Wayne), gives students quick access to the cultural diversity of larger communities.

Taylor's borders are as wholesome as the setting itself including residential areas, the Upland Health and Diagnostic Center, and the Avis Industrial Corporation, along with many natural settings such as Taylor Lake spanning eight acres, the Avis-Taylor Prairie Restoration Project, and the 65 acre beautifully preserved Arboretum. The University also owns 668 acres northwest of campus which includes the 80-acre Edwards Arboretum.

The campus is spacious and scenic with many points of interest. In addition to the Library and its collections, the Zondervan Library building, residing next to the Bell Tower, houses the Engstrom Galleria, the Ringenberg Archives and Special Collections, and several academic support services at the center of the campus.

Upon leaving the north entrance of the library, the Rice Bell Tower is visible immediately north, symbolizing our commitment to spiritual integrity and academic quality. A brief stroll north from the bell tower will reveal the Samuel Morris statues. Designed by Ken Ryden and erected in October 1995, these statues symbolize the process of enlightenment Morris experienced as he journeyed from being a tribal prince to a slave, to a student in America with a burden to share the message of God's grace. Through Ryden's work, Samuel Morris continues to inspire the Taylor community. The statues adjoin the Modelle Metcalf Visual Arts and Rupp Communication Arts Center (housing the 320-seat Mitchell theater—Taylor's theatrical history includes classics as well as original productions written by Taylor alumni and students), and the Smith-Hermanson Music building.

On the east side of Vayhinger Loop is the Rediger Chapel/Auditorium, home for our great chapel program. The LaRita Boren Campus Center surrounds the Rediger Chapel/Auditorium. This new facility is the home for our student development program as well as a community space for our students, staff, parents, and alumni to gather; it also houses the Campus Store Express and food and beverage establishments including the Jumping Bean, Fresh, Dashi, Emma and Charlie's, and Chick-fil-A.

To the north are more residence halls including Samuel Morris Hall, Swallow Robin Hall, the more recently added Wolgemuth Hall (35,970 square feet of apartment-style units for 92 students), and Campbell Hall (19,167 square feet of apartment space for 60 student beds). Also on the northside is the Bishop's Nook, our campus store. This facility, finished in 2019, is an 8,100 square foot facility also housing our print and post office services. The Freimuth Administration building is the home of several administrative functions for students and staff alike.

On the east side of campus is the Nussbaum Center. Perched atop the Nussbaum Science Center is the Robert Wolfe observatory featuring a solar telescope and two reflecting telescopes: a 10-inch Celestron and an 8-inch Meade. Both have motor mounts for all-night star tracking. The Euler Science Complex includes 137,000 square feet and connects to the north side of the Nussbaum Center. The science program space includes a green roof, geothermal cooling, photovoltaic solar, and a heliostat.

The south side of campus is known for housing and serving our students via Breuninger Hall, Wengatz Hall, Olson Hall, English Hall, Gerig Hall, and Bergwall Hall—all student resident spaces. Attached to Bergwall Hall is the Hodson Dining Commons, which has undergone transformation in food serving centers.

To the west lies our combination of artificial and natural turf athletic fields (baseball, football, track and field, softball, lacrosse, and soccer). Odle Arena is our competition floor and attached is our wonderful Kesler Student Activities Center (KSAC). An addition to KSAC, the Eichling Aquatics Wing, houses the indoor lap pool.

WBCL, located in Fort Wayne, Indiana, is a Taylor-owned professional radio station which broadcasts family-friendly content including contemporary Christian music, commentary, and coverage of local news, traffic, and events. Through additional translators, transmitters, towers, and stations, listeners from all over northeast Indiana, southeast Michigan, and northwest Ohio, as well as listeners worldwide on wbcl.org, can enjoy Christian programming.

Prayer is an important feature of our campus life and facilities. In the heart of campus, just southwest of the library, is the Memorial Prayer Chapel that honors the lives of students and staff from Taylor University. On the southwest corner of campus, students seeking solitude may wish to visit the prayer deck. Secluded among the greenery of Taylor Lake and overlooking the water, the prayer deck is a popular spot for meditation and Bible study. The original prayer chapel, presented by the graduates of 1950 and class sponsor (and future president) Milo A. Rediger, is located on the northeast side of campus in Sickler Hall and offers a spiritual respite.

#### **Academic Facilities**

The Ayres Alumni Memorial Building, a 19,000-square-foot facility, was named for Burt W. Ayres who served Taylor as professor and administrator for nearly 50 years. In addition to space on the main level, Admissions is located in the Kenyon Educational Center on the lower level along with the University's telecommunications network and staff. The offices of the President and Provost are located on the main level as is a large classroom. Psychology faculty offices and a reception area are located on the third floor.

The *Euler Science Complex* was completed in 2012. This facility includes 137,000-square-foot of science program space in a four-story building with LEED gold certification and utilizes a photovoltaic solar array, geothermal wells, and smart sensors for energy management; a green roof for water management; and a heliostat for natural lighting. It provides space for science offices, classrooms, and labs for biochemistry and chemistry, biology, computer sciences, elementary and secondary education, engineering, mathematics, and physics, as well as Academic Assessment, Bedi Center for Teaching and Learning Excellence (BCTLE), Center for Missions Computing, Dean of Sciences, Machine Shop, and Sponsored Programs.

**Modelle Metcalf Visual Arts Center**, a 38,000-square-foot center, provides specialized art studio and classroom space, a computer graphic arts lab and audio-visual classrooms, and a secure gallery adjacent to the Mitchell Theatre. The Tyndale Galleria provides space for students to display creative work. This building features dedicated spaces specifically designed and outfitted for instruction in painting, sculpture, ceramics, printmaking, metals, photography, drawing, and graphics. In addition, an outdoor sculpture garden enhances the campus on the north side of the building. Along with the Zondervan Library, the entire fine arts complex occupies the center of campus, signifying Taylor University's commitment to the fine arts as a central component of a Christian liberal arts college.

**Nussbaum Science Center** is named for Dr. Elmer N. Nussbaum, professor of physics for 31 years at Taylor. This 45,000-square-foot structure continues to support biology, chemistry, computer science, math, physics, and general purpose classrooms; laboratories; the observatory; faculty lounges; professional writing; and most of the Information Technology Department.

**Randall Environmental Studies Center** is an award-winning teaching and research facility located at the west edge of campus on the grounds of the University arboretum. Constructed in 1992 and named for Dr. Walter Randall, a Taylor trustee and former medical professor, the 20,000-square-foot facility primarily serves the needs of the Environmental Science, Sustainable Development, and Public Health programs. It has specialized laboratories equipped for analysis of soil, water, plants, and geospatial data; greenhouse facilities; and a natural history museum of North American and African specimens. The adjacent 145-acre arboretum includes a trail system and opportunities for outdoor study of prairies, woods, wetlands, lakes, streams, old fields, and small-scale agriculture. The nearby Avis-Taylor Prairie Restoration Project, the hardwood preserve, and the "Taylor Wilderness" provide additional teaching and research opportunities.

**Reade Memorial Liberal Arts Center**, named for Thaddeus C. Reade, president of Taylor University (1891-1902), is a 35,000-square-foot facility containing computer labs, the finance lab, faculty offices, and classrooms for the departments of Anthropology, Sociology, and Social Work; Biblical Studies, Christian Ministries, and Philosophy; Business; English and Modern Languages; History, Global, and Political Studies; and the Master of Arts in Ministry, as well as the Dean of Arts and Humanities.

**Rupp Communication Arts Center** is named for Taylor benefactors Ora and Herma Rupp. This 45,000-square-foot facility houses the 320-seat Mitchell Theatre, television and radio studios, yearbook and campus newspaper offices, journalism lab, and offices and classrooms for communication, film and media production, journalism, public relations, and theatre.

Smith-Hermanson Music Center, a 23,000-square-foot structure, is a sound-proof facility. Named for Nellie Scudder Smith, a friend of Taylor University, and Edward Hermanson, former professor of music, and his wife Dr. Louella Hermanson (also a musician), the building houses teaching studios, classrooms, rehearsal rooms, practice rooms, faculty offices, conference rooms, and faculty and student lounges. The Butz-Carruth Recital Hall seats 218 and boasts Boesendorfer grand and Steinway pianos and is designed to provide the best possible acoustical qualities.

#### Zondervan Library

The Zondervan Library sits in the center of campus, representing its centrality to the mission of the University and the success of academic pursuits. The Library provides information resources, services, and connections for students, faculty, and staff while striving to support curricular needs, to nurture intellectual curiosity, and to promote spiritual development.

Through the Library's website users can discover resources both within the library and beyond. In addition to books, periodicals, and DVDs within the Library's walls, it provides a vast range of electronic resources, including full-text databases and eBooks. Virtually all of these electronic resources are available both on- and off-campus to students, faculty, and staff with a valid Taylor network username and password. Zondervan Library provides even more resources through Interlibrary Loan.

One of the purposes of library faculty is to teach students skills in identifying and evaluating information as these will prove useful in every career and serve as a foundation for lifelong learning. Librarians interact with students through classroom instruction as well as individual consultations regarding information research strategies and tools. Walk-up research assistance is available from the Ask desk, which is situated directly inside the Library's main entrance. Librarians can also be reached via email (zonlib@taylor.edu) and phone (765-998-4357).

Some instructors put materials on Reserve circulation for students to check out. These resources are located behind the Check Out desk on the main level and can be used within the library for three hours at a time.

Groups can make use of study rooms of various sizes located throughout the Library. Various study tables and carrels serve as ideal study areas located throughout the main and upper levels.

**Academic Technology** is an area on the main level that is devoted to supporting faculty and students, connecting them with support for classroom technology, Blackboard, computer technology, teaching applications, and academic media. A Collaboration Space is available for reservation by faculty which provides a private space with large display, whiteboard, and room to work. The **Tech Express** provides assistance with printing, laminating, media conversion, device registration, and walk-up user support on the main level of the library.

The Academic Enrichment Center located in the northwest area of the library has personnel and technology to provide individual instruction for improving reading comprehension, writing, and math computation skills, and individual help for achieving academic success. All students are encouraged to visit the AEC.

The **Center for the Study of C.S. Lewis & Friends** is located in the Zondervan Library and includes first and rare editions, letters, and other materials by and about C.S. Lewis, Owen Barfield, George MacDonald, Dorothy L. Sayers, and Charles Williams. Finding aids for the Center's collections are available at <u>https://pillars.taylor.edu/lc-finding-aids/</u>. Additionally, copies of primary and secondary works of these authors and their contemporaries are also available for checkout.

**Disability Support Services**, located within the Academic Enrichment Center, provides services for students with disabilities. Services may include assistance with note taking, alternative testing, books on tape, or other accommodations deemed reasonable and necessary by qualified professionals. To receive these services, a student must provide documentation of his or her disability. Personnel also coordinate the peer-tutoring program available to the general student body.

The mission of the **Ringenberg Archives and Special Collections** is to collect, preserve, make accessible, and promote the history and heritage of Taylor University, beginning with its founding as Fort Wayne Female College in 1846 through present day. A reading room provides research space for visiting classes as well as internal and external researchers, and a closed stacks area houses the physical collection. Popular collections include yearbooks, campus newspapers and publications, meeting minutes and reports, syllabi, campus building information, student activities, and presidential papers. A robust digital archive featuring many University publications and other materials is also available at <a href="https://pillars.taylor.edu/rasc/">https://pillars.taylor.edu/rasc/</a>.

Taylor University Online (TUO) is located in the lower level of the library and offers online courses and programs.

The Writing Center, located in the Academic Enrichment Center, serves all students in all classes at Taylor, providing one-on-one and small group writing consultations.

#### Service and Non-Academic Facilities

The LaRita Boren Campus Center, completed in 2016, brings together the student development programs from multiple buildings on campus. These programs including the offices of Calling and Career, Campus Ministries, Center for Student Development, Counseling Center, Honors Guild, Intercultural Programs, Leadership and Student Programs, Lighthouse, Master of Arts in Higher Education (MAHE), Residence Life, Spencer Centre for Global Engagement (SCGE), Student Activities and Student Services Councils, Taylor Student Organization, and Taylor World Outreach are now located in this centralized space. This facility also provides a 300-seat auditorium, a new food service court including the Jumping Bean, Fresh, Dashi, Emma and Charlie's, and Chick-fil-A, as well as the Campus Store Express. Campus Police is also located in the facility and serves as the center for emergency communication, the police department, campus vehicle registration, and identification card/card access systems. This new facility provides our campus a central place to facilitate discipleship through our student development programs, intentional community interactions, and individual relationships. **Rediger Chapel/Auditorium**, named in honor of Dr. Milo A. Rediger, former professor, dean, and president of Taylor University, was completed in 1976. This spacious and beautiful 1,500-seat facility, formerly Maytag Gymnasium, was remodeled through the generosity of many alumni and friends of the University and is accessible by entering the Boren Campus Center.

The Boyd Building and Grounds Complex is the center of operations for general maintenance, housekeeping, building and grounds, and recycling services.

The **Bishop's Nook** hosts our campus store and is located on the north side of Reade Avenue and provides textbooks and other classroom needs. Other items are offered such as apparel, greeting cards, and gifts, as well as a drop-off and pick-up point for dry-cleaning services. It also houses the press services and postal service for the University. These services are available to students and employees.

Hodson Dining Commons, named for Arthur and Mary Hodson, Upland philanthropists, serves as the main dining hall for students. The facility is located on the southwest corner of the campus overlooking Taylor Lake. With the addition of the Nelle Alspaugh Hodson Banquet Facility, the Isely, Heritage, and Braden rooms provide space for special and private group dining.

**Memorial Prayer Chapel** honors those lost in a tragic accident on April 26, 2006, as well as other students and staff who entered eternity while attending or serving Taylor University. This 2,300-square-foot facility has room for corporate prayer for seventy individuals, as well as two ante-rooms that allow for private or small group prayer.

Taylor Lake, a picturesque eight acres on the Taylor campus, provides swimming opportunities in summer. Part of the lake is used for studies in ecology, and nearby is a wooded picnic area, beach volleyball court, and prayer deck.

#### **Student Residences**

Bergwall Hall was named for Evan Bergwall, Sr., president of Taylor University (1951-1959). This hall currently houses 207 students—women on the third and fourth floors and men on the first and second floors. In the summer of 2017, the entire building received a significant renovation.

**Breuninger Hall**, was named after Dr. Ruth Ann Breuninger, a beloved faculty member (from 1964-1975) and founder of the Lighthouse ministries, and was constructed in 2013. This new hall is also attached to Gerig Hall and is home for 150 students. Several lounge areas, significant views, and outdoor landscaping areas are an integral part of the design of this hall.

**Campbell Hall** is located on the north edge of campus, consists of fifteen apartments housing 60 students desiring off-campus housing experiences in an apartment-style setting. The apartments are named in honor of Walt and Mary Campbell.

*English Hall*, a women's residence hall housing 226 students named for Mary Tower English, wife of one of Taylor's most distinguished graduates. English Hall provides private living room areas as rooms are arranged around a suite that is shared by 8-12 women. This residence is located on the south side of the campus near several other residences.

Gerig Hall is a four-story residence hall for 96 students. This hall is arranged in a suite style that provides a level of intimacy within the setting of interacting with a larger group of students. The first floor has lounge and office areas; women are housed on the second and third floors and men on the fourth floor. Gerig Hall is named for Lester Gerig, a long-time trustee and Taylor University benefactor. Gerig Hall was remodeled in 2013 to include air conditioning and to create an attachment to Breuninger Hall.

**Morris Hall** accommodates 285 men. This residence hall was designed and built to service the needs of students with such amenities as air conditioning, laundry facilities, study lounges, social lounges, bicycle storage, and an area for off-season storage. Morris Hall is named for Samuel "Sammy" Morris, a late 19<sup>th</sup> century student from the Kru tribe in Africa, who had an enormous impact on campus and his fellow students.

**Grace Olson Hall** is the largest residence hall, housing 292 women. Rooms are arranged along a typical corridor and share a common bath. The hall is named for Grace D. Olson, distinguished history professor at Taylor.

**Swallow Robin Hall** is a residence hall accommodating 70 students. This historic building first occupied in 1917 was remodeled and restored in the fall of 1990. Silas C. Swallow and his wife, whose maiden name was Robin, financed a major portion of the original construction cost for the building and asked that it be named in honor of their mothers.

Wengatz Hall houses 267 men and includes several lounges and a recreation room. It was named in honor of Dr. John Wengatz, outstanding Taylor University graduate and pioneer missionary to Africa.

**Wolgemuth Hall**, constructed in 2011 and located on the north edge of campus, consists of 23 apartments housing 92 students desiring off-campus housing experiences in an apartment-style setting. The apartments are named in honor of Sam and Grace Wolgemuth.

#### Administrative Buildings

Ferdinand Freimuth Administration Building, a 14,000-square-foot structure, was first remodeled during 1972. The first floor houses the offices of Alumni and Parent Relations, Business Office and Student Accounts, Financial Aid, Institutional Research, and Registrar. Advancement functions are located on the second floor. The initial remodeling of this building was made possible by a gift from Ferdinand Freimuth, a Fort Wayne philanthropist.

Haakonsen Hall is named after Lily Haakonsen who provided medical care for the students of Taylor University for many years. This facilty currently serves to support isolation and guarantine needs for COVID-19.

Helena Memorial Hall, built in 1911, is a 10,000-square-foot structure that, when renovated by Christmas 2021, will serve as the home for the Boren Western Art Collection. The building will be remodeled to serve as the gallery as well as a space for various staff. Formerly a music building, then an art and theatre building, this facility recently served as the home for the offices of Admissions, Provost, and the President. This structure was named for Mrs. Helena Gehman, an early benefactress of the University.

Sickler Hall, the oldest of three remaining original buildings on the Taylor University campus, was built in 1902 with a gift from the estate of Christopher Sickler, an early Taylor trustee. Originally, the building was a residence hall that provided free housing for the children of ministers and missionaries. Later, it served as a science hall and education department center; more recently, it was the location of the communication arts department. This facility currently houses Human Resources on the lower level and Intercultural Leadership and Church Relations which includes conference room facilities. The Meredith Prayer Chapel is located on the main floor and is open each day for meditation and prayer.

#### Athletic, Physical Education, and Recreation Facilities

The *Field House* is a steel-paneled building providing additional opportunities for kinesiology and athletics. The football locker room; Pete Carlson Intercollegiate Athletic Weight Room; two batting cages for baseball and softball; classrooms; and football staff offices are contained in this facility.

The George Glass Track and Field Complex, named for George Glass (Taylor's athletic director and coach of cross country and track for 26 years), has a 440-yard rubberized, all-weather surface and facilities for field events.

**Gudakunst Field** serves as the home for the Taylor softball team and features a newly constructed playing surface with improved drainage, lights, new scoreboard, new brick and net backstop, new press box, and bleachers. The field is located southwest of the Kesler Student Activities Center.

The Kesler Student Activities Center is an 87,000-square-foot facility is named in honor of Dr. Jay Kesler, president emeritus of Taylor University, and his wife Janie. The KSAC contains four college-sized basketball courts (one with a wood floor and three with multipurpose playing surfaces which can facilitate volleyball, basketball, tennis, and badminton), "The Well" fitness center, locker rooms, and a 200-meter indoor competition-level track with Mondo flooring. The Eichling Aquatics Wing houses an indoor lap pool and the academic Kinesiology program.

Meier Tennis Courts features nine lighted and hard-surface courts.

**Odle Gymnasium** is named for the late Don J. Odle, coach and professor of physical education, and his wife Bonnie. This 45,000-square-foot facility contains a racquetball court, an all-purpose weight room, a conference room overlooking the basketball court, a new state-of-the-art golf simulator room, faculty/coaches offices, and a collegiate basketball and volleyball maple parquet floor court with three cross courts.

The **Taylor Cross Country Course** is located just over a mile west of campus. This championship quality course features both a five kilometer and eight kilometer loop which both meander through fields and wooded areas.

*Turner Stadium* serves as the home to the Taylor football, men's soccer, and women's soccer teams. The stadium, located north of Odle Arena, is a \$3.5 million complex that includes an artificial game surface, new home and visitor stands, lights, a new scoreboard, and a new stadium entrance. The stadium was renovated in the summer of 2012 thanks to a generous contribution from an anonymous donor. In the summer of 2015, a new press box, game day plaza, and additional stadium upgrades were added.

Jim Wheeler Practice Field is the practice field for the Taylor football, lacrosse, men's soccer, and women's soccer teams. The artificial surface practice facility is located northwest of Turner Stadium and features a full-sized football/soccer field with lighting for night practices.

The **Winterholter Field** is located centrally and has an artificial infield surface which was renovated in 2012, and the new amenities make this facility an exciting place to watch a baseball game. In the spring of 2015, outdoor lighting was installed, in 2017 a press box was added, and in 2020 bleachers were installed.

#### Computer and Technology Resources

Information Technology at Taylor University provides and supports reliable and secure information technology resources, helping to advance the goals and objectives of Taylor University's academics, student and employee services, community building, advancement, and financial management efforts.

Students can log into myTAYLOR to access course information, email, campus announcements, class schedules, financial aid, billing information, grades, transcripts, and more. The Blackboard course management system is widely used by professors to supplement class activities and provide online resources for students. Personally-owned student devices can be registered on the university network with wireless network access available throughout the campus. General-purpose and discipline unique computer labs are available for students.

Taylor University complies with applicable federal and state statutes related to institutions of higher education, including the Student Right to Know Act of 1990, as amended; Higher Education Act of 1965, as amended by the Higher Education Opportunity Act of 2008; the Family Educational Rights and Privacy Act of 1974, as amended; the Americans with Disabilities Act of 1990, as amended; Section 504 of the Rehabilitation Act of 1973; and all federal and state nondiscrimination laws.

#### Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

- 1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the Registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the University official to whom the request was submitted does not maintain the records, that official shall advise the student of the correct official to whom the request should be addressed. At the post-secondary level, the right to inspect is limited solely to the student. Records may be released to parents only under one of the following circumstances: 1) through the written consent of the student; 2) in compliance with a subpoena; or 3) if the University agrees to the release of records following submission of evidence that the parents declare the student as a dependent on the most recent year's Federal Income Tax form.
- 2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write to the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- 3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, or research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the University may disclose education records without consent to officials of another school in which a student seeks or intends to enroll.
- 4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Taylor University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-4605.

#### **Intellectual Property Policy**

The Taylor University Intellectual Property Policy designates that students retain copyright to most creative work for which they are solely responsible. Exceptions can include work done while employed by the University or under other extenuating circumstances. Although students retain intellectual property rights to most creative work submitted for academic credit, matriculation in the University entails an obligation for students to allow their writing or similar creative work to be used for University academic assessment. Procedures will be followed to preserve the anonymity of students for such assessment. The content and analysis of student writing or similar creative work selected for assessment will be used primarily for internal review of academic programs. Observations and derivative findings from such analysis may be reported to accreditation agencies or disseminated through professional publication but without reference to the authorship of individual students.

#### Notice of Non-discrimination

Taylor University does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities. The following persons have been designated to handle inquiries regarding the non-discrimination policies and can be contacted in person, by phone, or by email as listed below:

Chief Notification Officer: Jesse Brown Dean of Students and Title IX Coordinator Boren Campus Center #221 jesse\_brown@taylor.edu (765) 998-5344

#### Deputy Coordinators for Title IX: Erin Luthy Head Volleyball Coach Odle Gymnasium #217 erin\_luthy@taylor.edu (765) 998-4380

Tracy Manning Artistic Director of Theatre; Assistant Professor Rupp Communication Arts Center #223 trmanning@tayloru.edu (765) 998-5248 Grace Miller Dean of Sciences Euler Science Complex #106A grace\_miller@taylor.edu (765) 998-4734

Drew Moser Dean of Experiential Learning Boren Campus Center #224 drmoser@taylor.edu (765) 998-5384

#### **Public Notice Designating Directory Information**

Taylor University may release, without written consent, the following items which have been specified as public or directory information for current and former students: name, address, email address, telephone listing, gender, photograph, video image and sound, field of study, grade level, enrollment status, date and place of birth, dates of attendance, actual and anticipated graduation date, degree, honors and awards, previous educational agency or institution attended, participation in officially recognized activities and sports, and weight and height of members of athletic teams.

A current student can request that the University not release any directory information about him or her. This designation must be furnished in writing to the Registrar by the end of the first week of classes in the semester. Request to withhold prevents the disclosure of <u>all</u> directory information. Regardless of the effect upon the student, the institution assumes no liability for honoring the student's instructions that such information be withheld.

#### Publicity Release of Student Photograph

As a student at Taylor University, each student authorizes and irrevocably grants to Taylor University permission for his or her photograph or image to be used in future University brochures, video publications, newsletters, news releases, other printed materials, and in materials made available on the Internet or in other media now known or hereafter developed.

#### Services for Students with Disabilities

Taylor University complies with the federal mandates outlined in Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. Reasonable accommodations are made to give students with documentation of their disabilities an equal opportunity for success. These services are provided through the Academic Enrichment Center located in the Zondervan Library.

#### **Student Consumer Information**

The Higher Education Act of 1965, as amended by the Higher Education Opportunity Act of 2008 (HEOA), requires institutions participating in federally funded financial aid programs to make information about the institution available to current and prospective students. Taylor University has created a webpage entitled Student Consumer Information to provide resources and information for parents, students, employees, and the Taylor community in fulfillment of these mandates. This site will continue to be updated as we build more information that is useful and required.

#### Student Right to Know Act of 1990

The Student Right to Know Act of 1990 (Public Law 101-542 as amended) requires colleges and universities to maintain records of student enrollment, graduation, and participation in athletically related financial aid. These data are available on the Taylor website and upon request from the Office of Institutional Research, Taylor University, 236 West Reade Avenue, Upland, IN 46989, (765-998-4627).

Taylor University's academic year consists of Fall and Spring semesters, as well as optional January interterm and Summer sessions.

Under this schedule, Fall semester activities including examinations are concluded prior to the Christmas recess. Classes are conducted each semester for a period of 15 weeks including a 4-day examination period.

The optional January interterm provides students an intensive period of study in a single course or opportunities to study in off-campus centers in the United States and international locations.

Additionally, Summer sessions are available to enhance and supplement students' educational programs and meet special program requirements.

The academic calendar is available online at <u>https://www.taylor.edu/offices/registrar/academic-calendar</u> Students are responsible for complying with published academic deadlines and regulations as stated in the University schedule of classes, academic calendar, and academic catalog.

#### **Credit Hour**

Each course at Taylor University is assigned a number of credit hours, based on the traditional Carnegie Unit, as the unit of measure of the course's level of instruction, academic rigor, and time requirements. A credit hour, the amount of work established by stated student learning outcomes and achievement, is approximately one hour (or 50 minutes) of classroom or direct faculty instruction, and a minimum of two hours (for undergraduate) or three hours (for graduate) of out-of-class work, each week for a 15-week term (or the equivalent amount of work for a term of a different length).

Classroom or direct faculty instruction and out-of-class student work leading to the award of credit hours may vary for courses that require laboratory work, internships, practicums, studio work, online work, research, guided study, study away, and other academic work to achieve the identified student learning outcomes. In addition, student workload may vary based upon program expectations established by national or regional accrediting bodies.

For classroom-based courses, each credit hour indicates a minimum of 15 hours (of 50 minutes each) of instruction and at least 30 hours of supplementary assignments.

For non-classroom-based courses that require less time for out-of-class supplementary assignments (such as laboratories, studios, and performances), each credit hour indicates a minimum of 30 hours (of 50 minutes each) of instruction.

For non-classroom-based courses in which students are engaged in independent projects that require additional out-of-class work and are guided by regular instructor feedback (such as research and independent studies), the credit awarded for supervised individual activity will be awarded with a correspondence of one credit per 45 hours of student activity.

For mixed face-to-face, hybrid or blended courses, in which more than 25% of the instruction is provided online, credit hours are assigned based on the credit assigned to traditional courses of comparable rigor, content, and time requirements.

For online courses, in which the instruction is provided exclusively online, credit hours are assigned based on the credit assigned to traditional courses of comparable rigor, content, and time requirements.

For correspondence courses, the credit hours awarded for a course must be reasonably equivalent to the standard of three hours of combined direct instruction and student work per credit hour for a 15-week semester (45 hours for a one credit hour class, 90 hours for a 2 credit hour class, and 135 hours for a 3 credit hour class). At Taylor, the minimum course completion time is 12 weeks, and the maximum is four months from the date of enrollment.

For internship courses, each credit hour indicates a minimum of 40 clock hours of work.

For courses where the primary learning activity is experiential (such as clinical work, field work, or student teaching), credit hours are assigned in compliance with the standards of the relevant professional accrediting organization and with common practice in higher education.

Assignment of credit hours for courses occurs during program/course approval processes and is monitored through faculty, curriculum, and program reviews established by the University.

#### Instructional Time for Terms

Each credit hour represents 700 instructional minutes during a term. The following chart represents instructional minutes with no breaks included. A minimum of 50 additional minutes should be allotted for a final exam; a separate exam time is already scheduled for the full semester.

Credits	Semester <sup>1</sup>	Half-semester'	1 <b>7-day<sup>2</sup> term</b>	<b>18-day<sup>2</sup> term</b>	24-day <sup>2</sup> term
Ι	50	100	44	42	31
2	100	200	85	81	60
3	150	300	126	119	90
4	200	400	168	158	119

<sup>1</sup>Minutes indicate total instructional minutes each week of term.

<sup>2</sup>Minutes indicate total instructional minutes each day of term.

Academic policies and regulations are developed and approved by the faculty of Taylor University and are administered by the Provost working with the Registrar, Deans, and appropriate faculty committees. Intended to be rigorous and challenging, these policies and regulations are administered with individualized attention and concern for the educational advantage and well-being of each student.

#### Academic Advisors

The purpose of Academic Advising at Taylor University is to assist students in developing educational and career goals that are compatible with their perceived life calling; empower students to accept responsibility and leadership in developing their own educational plans; and aid students in their professional, emotional, and spiritual development.

Students are assigned an advisor from their academic area(s). Students that have not declared a major are assigned an advisor in the Academic Advising Office. The Academic Advising Office advisors also serve as a secondary advisor to students that have declared a major. The Office of the Registrar, with the assistance of the academic departments and the Academic Advising Office, will oversee advisor assignments. All students are required to meet with the assigned advisor prior to registering for courses each semester. Students are expected to be prepared for advising sessions and to be aware of published deadlines and regulations as stated in the University schedule of classes, academic calendar, and academic catalog.

While Taylor University publishes program information and materials and provides advisors, each student is solely responsible for ensuring that his or her academic program complies with the policies of the University. Any advice that is at variance with established policy must be confirmed by the Office of the Registrar.

#### Academic Exceptions

Students requesting exceptions to approved academic policy must submit an academic petition to the Office of the Registrar. The student must state his or her request and rationale for the petition and obtain the signatures of the instructor and department chairs, if applicable, and the academic advisor before submission to the Registrar's Office. The Registrar and Dean will review the petition before action is taken by the Academic Policies Committee, if necessary.

Academic petition forms are available through the Office of the Registrar or the advisor.

#### Academic Grievance

#### Preamble

Taylor University is committed to preserving a climate of openness and justice in all areas of academic life. To that end, procedures have been established to provide fair treatment of both any student who registers an academic complaint and any faculty member who has been accused of unfairness toward a student. These procedural guidelines are not contractually binding on the University.

#### Definition of an Academic Grievance

Whenever a student has a basis for believing that he or she has been unfairly treated in such matters as grades, course policies or expectations, false accusations of cheating, or inappropriate penalties, he or she may be said to have an academic grievance.

#### Procedure

The following steps, based upon the biblical standard of caring confrontation which should be the first step in any dispute, have been identified as necessary for consistency in the grievance process. Any student who feels that unfair treatment may be taking place in his or her academic experiences should follow the established process in sequential steps until there is satisfactory resolution of the program or until the procedures have been exhausted.

#### Informal Process

The informal process should be completed within one month of the alleged unfair treatment. Prior to the first appointment with the faculty member involved, the student should have the unfair treatment clearly focused in his or her mind by writing out a concise statement of the problem and the desired resolution. Faculty and administrators who are contacted may ask to see the written statement. By appointment, the student should discuss the issue with the faculty member involved. The student and faculty member may each invite another person to be present. If necessary, the student should discuss, by appointment, the issue with the faculty member's department chair, or the dean if the faculty member is the department chair.

#### Formal Grievance Process

If a formal grievance is deemed necessary, the steps outlined below should be followed:

- I. Within one month of the alleged unfair treatment, the student should submit a written statement of the grievance and the desired resolution to the appropriate dean who will attempt to resolve the grievance through conferences with the parties involved.
- 2. If the grievance has not been resolved within ten working days from the dean's receipt of the written grievance statement, the parties involved should meet in consultation with the appropriate dean.
- 3. If, after consultation with the parties involved, the student is still dissatisfied with the outcome, the appropriate dean should assemble, within 20 working days from receipt of the written grievance statement, a grievance committee acceptable to both parties for reviewing the complaint and submitting a recommendation. If the parties cannot agree on an acceptable grievance committee, the appropriate dean retains full discretion to select the members of the committee. The grievance committee should consist of five voting members including:
  - An administrator (may be a department chair or dean, but not the head of the involved department) appointed to serve as chair by the appropriate dean;
  - Two students; and
  - Two faculty members.
- 4. Parties directly affected by the grievance should provide the grievance committee with available data in writing, including summaries of previous conferences and actions, to bring about understanding and a timely recommendation regarding the grievance.

#### 5. The committee should then proceed as follows:

Formalize its procedure to hear the grievance;

Conduct hearings during which the grievant and the faculty member are given opportunity to present their points of view; Deliberate;

- Reach a recommendation by a simple majority vote of the committee; and
- Make a recommendation to the appropriate dean to either affirm the action which is the subject of the academic grievance, to take no action one way or the other, or to take appropriate corrective action.
- 6. The committee's recommendation should be made in writing to the appropriate dean within 15 working days of the committee's appointment.
- 7. The appropriate dean should make a decision regarding the committee's recommendation, and should notify the parties in the grievance of the outcome and any resultant action within 48 hours of receiving the committee's recommendation.

Note: Grievance actions required during calendar periods which are not working days (such as vacation), should be handled as quickly as possible and in the spirit of the "working days" listed above.

#### Appeal Procedure

Either party has an opportunity to appeal the grievance decision to the president of the University within one week of the notification by the appropriate dean (see item 7 above). Within another week, the president should review the case and render a decision to be transmitted to both parties.

#### Hearing Procedure

Grievant: The grievant should be allowed to:

- Select counsel any member of the university community willing to serve in this capacity;
- State his or her grievance, including submitting evidence of its existence;

Call as witnesses current members of the university community who consent to speak; and

Question anyone who participates in the grievance process.

Faculty Member: The faculty member should be allowed to:

- Select counsel any member of the university community willing to serve in this capacity;
- Respond to the grievance in every particular including submitting evidence to support the action or decision provoking the grievance; Call as witnesses current members of the university community who consent to speak; and
- Question anyone who participates in the grievance process.

#### Exceptions

If a grievant perceives a conflict of interest in any of the steps, he or she may proceed to the next step. If this process cannot be followed due to the unavailability of the faculty member, the appropriate dean may ask the immediate supervisor of the faculty member to assume responsibility for answering the grievance.

Additional information can be viewed at this webpage: https://www.taylor.edu/student-consumer-info

#### **Academic Integrity**

As a Christ-centered intentional community, everything we do and say reflects our identity in Christ and our position as a part of this community; thus, integrity in all areas of life is critical to our own spiritual life and is equally critical to the life of the Taylor community.

Academic dishonesty constitutes a serious violation of academic integrity and scholarship standards at Taylor that can result in substantial penalties, at the sole discretion of the University, including, but not limited to, denial of credit in a course as well as dismissal from the University. Any act that involves misrepresentation regarding the student's academic work or that abridges the rights of other students to fair academic competition is forbidden. Academic dishonesty includes, but is not limited to, cheating on assignments or exams, plagiarizing, submitting the same (or substantially the same) paper in more than one course without prior consent of all instructors concerned, depriving others of necessary academic sources, sabotaging another student's work, and using without attribution a computer algorithm or program. In short, a student violates academic integrity when he or she claims credit for any work not his or her own (e.g., words, ideas, answers, data, program codes, music) or when a student misrepresents any academic performance. All major acts of professors may have discipline- or course-specific policies.

#### <u>Plagiarism</u>

Definition: In an instructional setting, plagiarism occurs when a person presents or turns in work that includes someone else's ideas, language, or other (not commonknowledge<sup>1</sup>) material without giving appropriate credit to the source.<sup>2</sup>

Taylor distinguishes between major and minor plagiarism infractions. Examples of minor infractions include inappropriate or inadequate citing or not crediting ideas from class readings. Examples of major infractions include taking significant portions of text from any source with no attribution or having a peer help write the paper. Taylor also distinguishes between collaboration, writer's feedback, and plagiarism. Collaboration and getting feedback on one's own writing are essential parts of the writing process; however, having a text altered for the writer is not. The level of appropriate collaboration on individual writing assignments is up to each professor; and each professor should make it clear to his or her students what level of collaboration is appropriate for each writing assignment (e.g., brainstorming with other classmates for ideas). Writer's feedback means having a peer or a Writing Center tutor work with the student to provide suggestions for revision in ways that allow the student author to maintain ownership; this is *not* plagiarism. However, having a peer *make changes* to the organization, ideas, paragraphs, or sentences for the student demonstrates a level of ownership over the work; thus, these acts would be considered plagiarism.

*Plagiarism Policy:* All major acts of plagiarism must be reported by the faculty member to the appropriate academic dean and Student Development. The student and faculty member involved will receive a copy of the completed plagiarism incident report. All incident reports will be archived in both the Academic Affairs and Student Development and will be viewed and used *solely* by the deans of these offices to track plagiarism incidents in order to catch patterns of behavior. This tracking will affect student consequences for any additional plagiarism incidents reported and may affect recommendations for off-campus student activity participation. Plagiarism records in Academic Affairs and Student Development will be destroyed along with all other student records according to their respective policies.

<sup>1</sup> Common knowledge means any knowledge or facts that could be found in multiple places or as defined by a discipline, department, or faculty member.

<sup>2</sup> Adapted from the Writing Program Administrators<sup>1</sup> "Defining and Avoiding Plagiarism: The WPA Statement on Best Practices." http://www.wpacouncil.org

#### Academic Load

#### Fall/Spring Semesters

Registration for 12+ credit hours during the Fall or Spring semesters constitutes full-time enrollment status. A normal academic course load is 14-16 hours per term. Students with a minimum grade point average (GPA) of 2.00 may carry 17 credit hours.

An academic load greater than 17 hours requires a minimum GPA and authorization from the Office of the Registrar. A minimum GPA of 3.00 is necessary to carry 18 hours; 3.30 GPA for 19 hours; and 3.60 GPA for 20 hours (*the maximum load permitted*). An additional tuition charge will be assessed per credit hour above 17 hours per term.

#### Interterm (January)

Registration for 3-4 hours is considered a normal load for Interterm; the maximum load is 5 hours and requires a minimum GPA of 3.00 and authorization from the Office of the Registrar. An additional tuition charge is assessed for the fifth hour.

#### Summer Terms

A normal academic load during the May-June Summer term (18 days) is 3-4 credit hours; the maximum load is 5 hours and requires a minimum GPA of 3.00 and authorization from the Office of the Registrar.

A normal course load during the June-July Summer term (24 days) is 3-6 credit hours. Carrying 7 credit hours requires a minimum GPA of 3.00 and authorization from the Office of the Registrar; the maximum load is 8 hours which requires a minimum GPA of 3.60 and authorization from the Office of the Registrar.

The maximum course load for all Summer terms combined is 12 credit hours which includes all transfer credit, Taylor University Online (TU Online), and correspondence courses, as well as Taylor University courses. Registration for 12 credit hours of Taylor courses constitutes full-time enrollment status for Summer.

Experiential education (e.g., practicum; internship; field and travel studies) and directed research courses are only offered during the 12-week full Summer term.

Candidates for Summer graduation should participate in May Commencement provided they have submitted an approved plan with no more than 8 credit hours remaining to be completed by the official Summer graduation dates.

#### Academic Progress Policy

A student who meets the minimal GPA requirements as indicated in the chart below is considered to be a student in good academic standing. A student who falls below the minimum required GPA is placed on academic probation and enters a special advisement program under the direction of the Academic Enrichment Center and the academic advisor. For students not in good academic standing, notification will be sent by the Registrar to students and their advisors through campus email and letters will be mailed to students' permanent addresses within one week following submission of final grades by faculty.

Cumulative Earned Hours	Minimum Required GPA
00.00-12.99	1.60
13.00-30.99	1.70
31.00-44.99	1.80
45.00-60.99	1.90
61.00 +	2.00

The faculty, staff, and administration of Taylor University are committed to helping students be successful in their personal, spiritual, and intellectual lives. As such, the GPA of each student is reviewed twice annually at the end of the Fall and Spring semesters to determine whether action needs to be taken with respect to probationary status.

Students placed on probation have one semester in which to meet good academic standing as indicated in the chart above. Reevaluation does not take place after Interterm or Summer terms. Failure to reach the minimum requirements in the following semester results in suspension from the University, unless during that semester the student achieves a term GPA of 2.30. Students who earn a 2.30 term GPA may be placed on extended probation and allowed to remain at the institution for the subsequent semester. Students on extended probation are not eligible to receive financial aid; these students are required to enter a special advisement program under the direction of the Academic Enrichment Center and the academic advisor; Taylor University Online (TUO) students would be required to enter a special advisement program under the direction of TUO.

First-time suspension is for one academic semester; a second-time suspension is for one academic year (consecutive Fall and Spring semesters). Students may apply for readmission following the applicable suspension period. Readmission is not automatic and requires the approval of several offices on campus, starting with the Office of Admissions; TUO students requires the approval of TUO for readmission. Students must present evidence that they are academically prepared to return to Taylor. Additionally, readmitted students will be placed on extended probation requiring reentrance to the special advisement program under the director of the Academic Enrichment Center and the academic advisor and are not eligible for financial aid during the return semester.

Academic probation and suspension carry additional related consequences:

- Eligibility for financial aid is affected by academic standing. Probationary and suspended students should check with the Office of Financial Aid regarding academic progress regulations pertaining to their financial aid.
- No academically suspended student may enroll in any Taylor courses, including those offered by Taylor University Online (TU Online).
- No student on academic probation may enroll in distance learning or independent study courses unless repeating a course; TUO students should contact their advisor for eligibility.
- No student on academic probation may apply for any off-campus study programs.
- In some cases, it may be advisable for a suspended student to enroll in courses at another institution in order to demonstrate that he or she is prepared to achieve better academic work prior to readmission to Taylor. Students should consult with the Registrar in advance of such enrollment.

Contact the Office of the Registrar for additional information regarding academic progress.

#### Advanced Placement and Credit by Examination

Students may qualify for advanced placement and college credit by satisfying the standards set by individual departments to pass the College Board Advanced Placement Examinations (AP), the College Level Examination Program (CLEP), the International Baccalaureate (IB) credit at the higher level, and Cambridge General Certificate of Education Advanced Level Examinations (GCE A-Level).

Students may be eligible for placement at the next level of the college sequence and may receive college credit if the overall quality of their performance merits such recognition. A maximum of 30 hours of advanced placement and credit by examination may be applied to meet graduation requirements. Score levels vary between subjects; score levels considered passing may be obtained by visiting <u>https://www.taylor.edu/how-to-apply/testing-and-placement</u>.

For additional information regarding advanced placement and credit by examination, contact the Offices of the Registrar and Academic Assessment.

#### Advanced Placement Examinations (AP) and College Level Examination Program (CLEP)

Prior to entering Taylor, students interested in AP or CLEP testing credit should contact the Office of Academic Assessment to request information regarding testing policies, fees, deadlines, and limitations.

AP credit must be elected and the transcript posting fee paid in the student's first semester at Taylor. CLEP exams should be taken, credit elected, and transcript posting fee paid for prior to reaching senior status at Taylor.

Refer to the **Proficiencies** section of this catalog for specific policies, procedures, and deadlines related to AP/CLEP credit for ENG 110 College Composition. Refer to **Language Requirements for Bachelor of Arts Degree** in the Degree Requirements section of this catalog for information regarding CLEP credit for intermediate language.

#### International Baccalaureate (IB)

International Baccalaureate is a rigorous pre-university course of study that leads to examinations. For a student to obtain IB credit, the courses must be at the higher level (HL), scores must be 5 or higher, and the transcript posting fee must be paid; courses for the major are subject to departmental review. Official transcripts must be requested from the IB office, not the high school; syllabi may be required if the course subject has not been reviewed recently.

#### Cambridge General Certificate of Education Advanced Level Examinations (GCE A-Level)

GCE A-Level credit may be awarded with a grade of D or higher. Students must submit a certified copy of the examination certificate and examination syllabus to the Office of the Registrar. Credit will not be awarded on the basis of a results slip. Academic departments must approve credit for exams and the transcript posting fee must be paid.

#### **Class Attendance**

Students are expected to attend all sessions of classes for which they are registered. When a student is absent from a class, it is the student's responsibility to communicate with the faculty member about missed work, and a potential excused absence when applicable. Unexcused absences (without permission to make up work) must not exceed the equivalent of one absence per credit hour of the course. The number of class period absences will depend on the nature of the class meeting schedule. For a three credit hour class that meets three days per week, this would be three class period absences. For a three credit-hour class that meets two days a week, this would be two class period absences. For a four credit-hour class that meets four days per week, this would be four class period absences. The penalty for excessive absences (defined below) is communicated in each course syllabus. Students are responsible for obtaining and understanding the attendance policies for each of their courses. When courses are added after the first course meeting, any class sessions that have already been missed may be counted as unexcused absences.

Class attendance is important to student learning and central to Taylor's educational mission, which stresses intentional community; required attendance is also good practice for future career expectations. Faculty are required to record class attendance for financial aid compliance reporting. The Financial Aid office requires the date of last attendance for students who stop attending class.

Faculty are required to respect and maintain student confidentiality regarding attendance issues.

#### **Excused Absences**

Students are responsible to alert their faculty members when an excused absence is expected, and contact the Student Absence representative (<u>http://www.taylor.edu/excusedabsence</u>) to apply for an excused absence and provide documentation. TU sponsored group activities will be communicated via the Group Absence list (sent to all faculty). Faculty members are required to permit students to make up work missed during excused absences. It is at the discretion of the faculty to determine appropriate make-up work.

Faculty are required to excuse absences that have been approved by the University through the Student Absence representative. Excused absences are limited to:

- · Hospitalization of the student (with required documentation by a health professional)
- Serious illness (mental, emotional, or physical) needing treatment (with required documentation by a health professional)
- Death or hospitalization of an immediate family member (i.e., parent, sibling, spouse, child, grandparent with required verification).
- Participation in TU-sponsored job fair with required documentation.
- · Job, grad school, or internship/practicum interviews (two per year for seniors, one per year for juniors, with required documentation)
- TU-sponsored group activities, (e.g., field trips, athletic events, musical events) submitted by the coach, faculty member, or sponsor, then approved and distributed by the Student Absence representative.

#### Unexcused Absences

By definition, any absences that do not fall under one of the above categories are unexcused. Unexcused absences must not exceed the equivalent of missing one week's worth of classes. Each faculty member has sole discretion for clarification of what constitutes a single absence, the consequences for missed work on days with an unexcused absence, and consequences for students exceeding the allowed number of unexcused absences. These will be documented in each course syllabus.

Faculty are required to report a pattern of absenteeism (e.g., a week's worth of consecutive absences early in the semester) to the AEC to enable their intervention. Furthermore, if a student has missed 30% of scheduled meetings due to excused and/or unexcused absences, faculty must refer that student to the AEC.

Students may contact an academic dean or representative of the Provost's office if a student wishes to appeal an absence decision.

#### Classification of Students

Matriculated students are those students who have fully met all requirements for admission and have enrolled in courses to meet undergraduate degree requirements. Matriculated students are classified as follows:

Cumulative Earned Credit Hours	Class
0.00-30.99	Freshman
31.00-60.99	Sophomore
61.00-94.99	Junior
95.00 +	Senior

Entering students (first-time or transfer) are classified consistent with the Integrated Postsecondary Data System. Those students identified as first-time students are entering a postsecondary institution as an undergraduate degree-seeking student for the first time after receiving their high school diploma. This includes students with dual credit earned before they graduated from high school, or an associate degree earned before or at the same time as high school graduation. Entering students who complete a high school diploma at the same time as an associate degree are classified as first-time students requiring them to participate in the First-Year Experience course. Classification is based upon the number of credit hours a student has earned which includes transfer credit.

#### Dean's List

Full-time students are named to the Dean's List when they have earned a 3.60 or better GPA for the term and when at least 12 credit hours carry quality point values.

#### **Distance Learning Policy for Residential Students**

No more than 16 hours of distance learning may be taken to fulfill degree requirements; courses included in the regular schedule of classes as offered online during Fall, Spring, and Summer terms do not count toward this limit.

The guidelines listed below for accepting transfer credit are also used in evaluating distance learning courses taken at other accredited universities. After enrolling at Taylor, students must complete a transfer credit course approval form signed by the student's academic advisor, course department chair, and the Registrar prior to enrolling in the course. The major or minor department chair's signature may be required if the course is a major/minor requirement. Upon completion of the course, students should request their transcripts be sent directly to the Office of the Registrar at Taylor before the next enrollment period.

Courses taken through Taylor University Online (TUO) require the completion of the TUO course approval form which includes the approvals stated above. Grades earned affect the student's GPA and are recorded on the student's transcript. Normally, these online courses are not considered part of the academic load for tuition, enrollment verification, or financial aid purposes. Students on institutional academic probation are not permitted to register for courses through TUO unless repeating the course. No academically suspended student may be enrolled in any Taylor courses, including those offered by TUO. Candidates for graduation must complete all distance learning course work and exams so that final grades are submitted by the dates specified by the Office of the Registrar.

TUO course approval forms are available online at https://www.taylor.edu/offices/registrar/forms.

#### **Eligibility for Intercollegiate Athletics**

For participation in intercollegiate athletics, students must typically be enrolled full time, carrying at least 12 credit hours. In addition, they must meet the eligibility regulations and academic progress rules of the National Association of Intercollegiate Athletics (NAIA).

#### **Experiential Education**

Experiential education includes practicum experiences, internships, and field and travel studies providing students with the opportunity to integrate theoretical learning in a major field of study with actual work experience in a variety of non-classroom settings. Students should consult with academic departments and supervising faculty for departmental policies, guidelines, and responsibilities.

Tuition for experiential education completed during the Summer is at the standard Summer session credit hour rate. Check with the Financial Aid Office to inquire about possible assistance for the Summer term. Experiential education courses are not eligible for audit credit.

Registration forms for experiential education are available online at <u>https://www.taylor.edu/offices/registrar/forms</u>. For additional information, please refer to **Specific Registration** in the Registration section of this catalog.

#### Practicum

Usually completed in the Summer term, a practicum course is a significant applied-learning experience with a meaningful, supporting component that enables students to observe, apply, and better understand previously studied theory.

An individual practicum can be done for 1-4 hours of credit; a maximum of eight hours of credit can be earned through practicum experiences for degree requirements, subject to departmental requirements. Completed under the direction of a faculty advisor and an employer supervisor, students are required to complete a minimum of 40 clock hours of work experience for each academic credit earned. Academic departments may require additional work hours to meet curriculum requirements within the major program; students should consult with academic departments and supervising faculty for departmental policies, guidelines, and responsibilities.

Students generally arrange their own practicum assignment with guidance from and the approval of the supervising instructor. Registration for a practicum should take place before the term in which the practicum credit is to be given. Enrollment in a practicum requires the consent of the instructor and the approvals of the academic advisor and course department chair.

Academic credit is given for the practicum; therefore, the cost of a practicum is the same as for a regular course and is based on the number of credit hours. Tuition for a practicum completed during the Summer term is billed at the standard Summer session credit hour rate for this experience.

#### Internship

An internship is an advanced-level, discipline-related, culminating field experience directed toward preparing students for professional licensure or entrylevel positions. Internship placements should be substantive, new, and educationally rewarding, rather than a continuation of a prior work experience.

Completed under the direction of a faculty advisor and an employer supervisor, students are required to complete a minimum of 40 clock hours of work experience for each academic credit earned. Academic departments may require additional work hours to meet curriculum requirements within the major program; students should consult with academic departments and supervising faculty for departmental policies, guidelines, and responsibilities. Students may earn a maximum of 16 hours of credit, subject to departmental restrictions, toward graduation requirements through the internship experience.

Internships are usually completed during a semester and require students to devote their full time, effort, and attention to completing requirements. Therefore, it is recommended that students not enroll in additional courses during the term when internships are being completed.

Academic credit is given for the internship; therefore, the cost of an internship is the same as for a regular course and is based on the number of credit hours. Tuition for an internship completed during the Summer term is billed at the standard Summer session credit hour rate for this experience.

#### Field and Travel Study

Field and travel study experiences are usually a component of a regular course and provide students opportunities to learn, observe, and assist professionals with selected tasks in an off-campus setting related to a career or program goal. Students are placed, supervised, and evaluated by the faculty responsible the course. Assignments related to field experiences become part of the overall course evaluation.

Academic credit is given for field and travel studies; therefore, the cost of a field or travel study is the same as for a regular course and is based on the number of credit hours. Tuition for a field or travel study completed during the Summer term is billed at the standard Summer session credit hour rate for this experience.

#### Final Examinations

Students must take their final examinations at the assigned hours listed on the final exam schedule. Exceptions are made only by the dean due to serious illness or death of an immediate member of the family. Reasons such as plane schedules, availability of flights, and rides leaving early are not acceptable exceptions.

Students scheduled to take more than two final exams on the same day may, with written permission from the instructor, reschedule an exam(s) to maintain a maximum of two exams per day. Students must contact the Office of the Registrar to begin the rescheduling process. Rescheduling must be approved at least 10 days prior to the last class day of the semester.

For courses with "TBA" class days, the instructor will announce the exam time. Should the announced time conflict with another scheduled exam, the professor who announced the exam time will make the accommodation. Should two scheduled exams conflict, students must contact the Office of the Registrar to begin the rescheduling process.

Refer to the final exam schedules posted at https://www.taylor.edu/offices/registrar/exams for Fall and Spring semester dates and times.

Taylor University Online students should refer to the course syllabus regarding final examinations. If a proctor is required, the student must secure a pastor, librarian, or educator to serve as a proctor—a relative may not serve as a proctor.

#### Grade Changes and Disputes

Acceptance of late or missing assignments after the end of a term does not qualify for a change of grade.

All requests for change of grade (except from an INC or NR) are initiated by the student with the professor of record and then must be approved by the dean. Questions regarding the grade must be directed to the instructor within two weeks after being posted to the transcript. If the student is unable to come to an agreement with the instructor regarding the grade issued, the student must meet with the department chair. If a solution is not reached with the chair, or the chair is the instructor, the student would need to schedule an appointment with the dean. If an agreeable outcome is still not reached, the final step in the grievance process would be to request a committee hearing; the decision reached by the committee would be final. A grade change is permitted only before the end of the semester following the term the original grade was awarded.

#### Grades, Incomplete, Extension, and Not Reported

All work for credit is expected to be completed within the term it is attempted including independent studies, tutorials, and experiential education. An incomplete grade (INC) may be given when an emergency prevents a student who has been passing the course from completing some crucial portion of the required work, but not to complete late or missing assignments or extra work to raise a grade.

Incompletes should be initiated by the instructor of record prior to the final exam week and must be authorized by the appropriate dean before they are submitted to the Office of the Registrar. Incompletes should be converted to grades and reported to the Registrar by the date approved. The last possible date for completion is the week before final exams of the following full term. If the student does not complete the work by the approved deadline, the Registrar is authorized to change the INC to the grade earned by the student.

Taylor University Online guest and out-of-term program students are eligible for one 4-month extension (EXT) for a \$250 fee if requested and paid through TUO website at least 2 weeks prior to the original course end date. Students will be notified within 3 business days of the extension approval. The student will receive the grade earned at the end of the extension period, whether or not the entire course was completed.

The Registrar will record an NR (grade not reported) when grades are unavailable, such as receipt of transcripts for off-campus study programs or faculty emergencies. If no grade has been provided, the Registrar is authorized to change the NR to a grade of F.

#### **Grade Reports**

Students may view midterm and final grades through TOWER (Taylor Online Web Enabled Records); midterm grades are entered only if below C-. Midterm grades are not recorded on the student's permanent record in any way. Allow approximately one week after the last final exam for calculating and posting of final grades. Grade reports are not be mailed. Visit <u>https://www.taylor.edu/offices/registrar/tower</u> for additional information on accessing TOWER.

#### **Grades for Repeated Courses**

Any course may be repeated at Taylor University. All attempts in a course are reflected on the student's academic transcript; the cumulative GPA will reflect the most recent grade in the repeated course taken at Taylor University, even if the new grade is lower than the original attempt.

Grades of W (withdrawn), WP (withdrawn/passing), or AUD (audit) will not replace previously earned grades of A-F, WF (withdrawn/failing), or NC (no credit) in the GPA calculation. Duplicate credit hours are not awarded when repeating a course.

See Transfer Credit Policy in this section for information about courses taken from another college.

#### Grading System

The following grades and quality points are assigned to undergraduate students at Taylor University in calculating the GPA:

Grade Meaning	Quality Points	Calculated in GPA
A Superior	4.00	Yes
A-	3.67	Yes
B+	3.33	Yes
B Good	3.00	Yes
В-	2.67	Yes
C+	2.33	Yes
C Satisfactory	2.00	Yes
C-	1.67	Yes
D+	1.33	Yes
D Minimally acceptable*	1.00	Yes
D-	.67	Yes
F Failing	0	Yes
P Pass (C- or above)	0	No
CR Credit	0	No
W Withdrawn	0	No
WP Withdrawn/passing	0	No
WF Withdrawn/failing	0	Yes
INC Incomplete	0	No
EXT Course Extended	0	No
NR Grade not reported	0	No
NC No Credit/failing	0	Yes
AUD Audit	0	No

The unit of credit is the semester hour. Grade point average (GPA) is calculated by dividing quality points by GPA hours and is truncated at two decimal places. Grade point hours include only Taylor University courses taken for a grade as outlined above. \*Courses required by the major or minor require a grade of C- or above.

#### Grades for Taylor University Online Courses

A course is completed when the following have occurred: 1) a student submits all requirements in the course syllabus or the course deadline has been reached; 2) all outstanding fees have been paid; and 3) a final grade has been posted. The instructor is allowed up to one week per assignment submission to process a final grade. Final grades are maintained as a permanent record by Taylor University and are included on the official transcript. If a grade is needed in a shorter timeframe than one week per assignment, contact TUO prior to enrolling in the course for assistance.

#### Independent Study Policy

Independent studies are individualized, directed studies taken without classroom instruction or regular interaction with a faculty member. The student is required to plan with the professor an individualized schedule of reading, research, and study. Assignments, papers, tests, and other means of assessment may be completed by appointment, mail, email, remote proctors, Internet, etc.

Students and faculty alike are encouraged to schedule independent studies during the Summer term when the calendar and personal schedules of students and faculty are more flexible. The shortened academic calendar makes independent studies impractical for the January interterm. During the Fall and Spring semesters, independent studies are considered exceptions due to faculty workload limitations, but may be approved under certain circumstances, such as:

- 1. To complete a graduation requirement without which the student's graduation would be unreasonably delayed. (A student's desire to graduate in less than four years, to double-major, add a minor, etc., does not meet this requirement.)
- 2. To resolve <u>scheduling conflicts</u> beyond the student's control involving required courses which cannot be taken in a later semester or Summer term without negative impacts on the student's program of study.
- 3. To provide a scheduling efficiency or convenience to the University, such as offering the independent study as an alternative to a low-enrollment class section, deviating from regular course offering schedules, etc.
- 4. To offer both the student and supervising faculty member the opportunity to expand their Taylor experiences with <u>special/advanced topic courses</u> that may serve special needs such as specific career goals, graduate school prerequisites, etc.

No student who is on academic probation may register for an independent study unless it is to repeat a course. No student may complete more than 12 hours of independent study. All other academic policies in this catalog apply to independent studies (e.g., criteria for requesting incomplete grades, deadlines for registration). All independent studies are subject to faculty, department, and dean approval.

Typically, students will be charged a fee of \$125 per credit hour in addition to the tuition charge for an independent study; this fee will not be charged during the Summer term. Tuition for independent studies completed during the Summer is at the standard Summer session credit hour rate for this experience. Check with the Financial Aid Office to inquire about possible assistance for the Summer term.

Registration forms for independent study are available online at <u>https://www.taylor.edu/offices/registrar/forms</u>. For additional information, please refer to **Specific Registration** in the Registration section of this catalog.

#### Transfer Credit Policy

Transfer request forms are typically available from the college in which courses have been completed. Taylor University does not accept transfer credit older than 10 years.

#### **New Students**

To receive credit for course work earned at other accredited universities, new students should request that college transcripts be sent directly to the Office of Admissions at Taylor University. These transcripts are then forwarded to the Office of the Registrar for transfer credit evaluation; a copy of the evaluation is sent to the student. The Office of the Registrar evaluates courses for foundational core and elective credit and confers with the appropriate department chair to have major or minor courses evaluated for transfer credit. Course descriptions and syllabi may be required in order to evaluate transfer courses.

#### **Current Students**

After enrolling at Taylor, students who plan to take a course at another university during the summer or during a semester's absence, and wish to transfer credit to apply toward a degree, must complete a transfer credit course approval form signed by the student's academic advisor, course department chair, and the Registrar prior to enrolling in the course. The major or minor department chair's signature may be required if the course is a major/minor requirement. Upon completion of the course, students must request that an official transcript be sent directly to the Office of the Registrar at Taylor.

The guidelines for accepting transfer credit are as follows:

- Taylor University reserves the right to accept or reject courses for transfer credit. Remedial or vocational courses are not transferable.
- Accepting courses for transfer credit and applying them toward various degree requirements are separate considerations. Courses that transfer as elective credit may not be applicable to specific requirements.
- Courses accepted for transfer, but not equivalent to a Taylor University course, may be transferred in as 199 or 399 under the appropriate discipline; general electives not eligible toward any program may be transferred in as ELCT 199 or 399.
- Only course work with a grade of C- or better will be accepted. Courses taken for a grade mode of pass, credit, or satisfactory do not transfer unless the transcript indicates that the grade is equivalent to at least a C-. Although a minimum grade is required, grades do not transfer. The student's GPA is computed only on work offered by or through Taylor University.
- Only credits taken at an accredited college may be accepted for transfer credit. A maximum of 64 hours of credit may be transferred.

- Transfer credit will not be accepted and duplicate hours will not be awarded for equivalent courses previously earned with a grade of Dor better at Taylor. However, the grade on the transfer institution's transcript may be used to validate completion of the course to meet a curriculum requirement with the required grade. Students attempting to raise their cumulative GPAs must repeat the respective course(s) at Taylor.
- The Director of Teacher Certification must approve courses that apply toward teacher certification.
- Credit by examination (e.g., AP, CLEP, IB) recorded for a specific course on an official transcript must meet Taylor standards in order to be accepted for credit. Procedures for acceptance of credit may be obtained from the Office of Academic Assessment. Departmental challenge exams from other institutions are not transferable.
- Graduation honors are computed only on Taylor University course work.
- Degree residency requirements: (1) students must complete 50 percent of the minimum degree hours at Taylor University [e.g., 64 of the minimum 128 hours required for the baccalaureate degree; 32 of the minimum 64 hours required for the associate degree]; (2) students must complete 50 percent of the major or minor hours at Taylor University; and (3) at least 22 of the last 30 hours must be taken at Taylor University.

Transfer credit course approval forms are available online at https://www.taylor.edu/offices/registrar/forms.

#### Transfer Credit Policy for Non-Taylor University Off-Campus/Study-Abroad Programs

Taylor University invests considerable time, effort, and resources for the creation of off-campus/study-abroad programs consistent with the standards and educational objectives of the University and the needs of its students. Students wishing to receive credit from a study-abroad/off-campus program not offered through Taylor University are responsible for initiating the approval process prior to program application to ensure approval of the program and appropriate transfer of credits.

Taylor University will not enter into a consortium agreement with any foreign or domestic college/university or study-abroad/off-campus agency for non-Taylor programs. No financial aid (*federal, state, or institutional*) will be awarded to students participating in non-Taylor programs.

Students must be in good academic standing and meet the following policies as they plan for and participate in any non-Taylor University study-abroad/off-campus program:

- Taylor University recommends that students begin the program and course approval process one year prior to the anticipated enrollment in any non-Taylor study-abroad or offcampus program. Students should schedule an appointment with the Registrar to initiate the application process to meet all deadlines.
- The study-abroad/off-campus program must be sponsored by other regionally accredited colleges or universities.
- Transfer credit will be accepted if prior approval has been granted by the academic department, Coordinator of the Foundational Core Curriculum, and Registrar. All course approvals must be finalized by March I, for the following Summer or Fall, and October I, for the following Spring.
- Course offerings and schedules are subject to change; Taylor University cannot guarantee that course changes will be accepted without the appropriate approvals prior to attending the program.

- The sponsoring college/university must grant the credit and grade for each course. Upon completion of the approved course(s), an official transcript from the sponsoring college/university should be sent to the Office of the Registrar.
- No more than 17 credit hours will be approved for semester-long programs.
- No more than 12 hours will be approved for Summer.
- 22 of the last 30 credit hours must be completed through Taylor University.
- Fifty percent of the degree hours must be completed through Taylor University.
- Fifty percent of the major/minor hours must be completed through Taylor University.

Additional information concerning transfer credit policies is available from the Office of the Registrar.

#### Transcript of Academic Record

In accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA), transcripts may not be released without the consent of the student. Students request official transcripts by following the instructions available at <a href="https://www.taylor.edu/offices/registrar/transcripts">https://www.taylor.edu/offices/registrar/transcripts</a>. Transcripts may not be released unless all financial obligations to the University have been fulfilled according to an agreement with the Office of Student Accounts.

Students may view an unofficial copy of their academic transcript via their TOWER accounts, provided all financial obligations to the University have been fulfilled. This abstract is useful to students and academic advisors only; it is not an official transcript of academic record.

#### **TOWER Online Access System**

Taylor Online Web Enabled Records (TOWER) provides students secure online access to their academic records, including course registration, unofficial transcripts, grades, 1098T, and limited student account information. Visit <u>https://www.taylor.edu/offices/registrar/tower</u> for additional information on accessing TOWER.

#### TU Alert Emergency Messaging System

The TU Alert emergency messaging system will allow Taylor University to immediately notify students and employees of impending life-threatening or lifealtering situations including rapidly-developing, life-threatening criminal activity on campus and imminent severe weather activity. The system utilizes Wireless Emergency Notification System (WENS) technology and can send text messages to cell phones and email messages to accounts of Taylor's students and employees. TU Alert will never be used for advertising or spam.

Students may sign up for TU Alert at <u>http://entry.inspironlogistics.com/taylor/wens.cfm?ep\_id=student</u>. Employees may sign up for TU Alert at <u>http://entry.inspironlogistics.com/taylor/wens.cfm?ep\_id=employee</u>.

#### Tutorials

A tutorial course is classroom-based, individualized instruction scheduled to meet on campus at a time that is mutually convenient for the student and the professor. The contact hours for this course must meet the standard set by the appropriate dean. Any course listed in the catalog may be taught as a tutorial course with the consent of the instructor and approval of the advisor, course department chair, and dean.

Tuition for tutorials completed during the Summer is at the standard Summer session credit hour rate. Check with the Financial Aid Office to inquire about possible assistance for the Summer term.

Registration forms for tutorials are available online at <u>https://www.taylor.edu/offices/registrar/forms</u>. For additional information, please refer to **Specific Registration** in the Registration section of this catalog.

#### **University Communication Policy**

Taylor University uses @TAYLOR.EDU student email address to communicate directives relating to academic progress, advising, registration, billing, housing, financial aid, etc. to the student, faculty, and staff; for Taylor University Online, each student's email listed in Blackboard will be utilized. Students are responsible for checking email accounts regularly and complying with correspondence received from University administrators, advisors, faculty, and staff.

#### University Withdrawal

Students with no intent to return to Taylor for the next term must apply for formal withdrawal through the Academic Enrichment Center before leaving campus (prior to exam week).

Students who decide they cannot attend Taylor after enrollment in courses for the next term and prior to the start of that term must notify the Academic Enrichment Center. Students failing to request withdrawal from the University risk receiving failing grades in their courses and being financially responsible for tuition fees (Summer courses included).

Students <u>who find it necessary to withdraw from all credit classes after the semester begins</u> must apply for formal withdrawal through the Academic Enrichment Center. If a student withdraws from the University after the first week of classes (first five class days), he or she will receive a withdrawal grade (W, WP, WF) for the appropriate withdrawal deadline. If this procedure is not followed, failing grades may be assigned. Failure to complete the term does not cancel the student's obligation to pay tuition and other charges. For specific details on refunds and adjustments, refer to the **Finance** section of this catalog.

Students withdrawing with the intent to return to Taylor must initiate the withdrawal process through the Academic Enrichment Center and apply for readmission through the Office of Admissions. Students planning to take courses at another institution during their time away from Taylor University should submit transfer credit request forms to the Office of the Registrar before registering for courses at the other university to ensure proper credit will be granted by Taylor.

To withdraw from a single course, students should contact the Office of the Registrar for details.

Taylor University Online students should contact the TUO office regarding withdrawal instead of the office listed above.

# Registration

It is the responsibility of each student to follow directives published annually relating to registration, housing, billing, payment of bills, financial aid, etc. While Taylor University publishes program information and materials and assigns academic advisors, students are solely responsible for ensuring their academic programs comply with University policies. Any advice that is at variance with established policy must be verified and confirmed by the Registrar.

Course offerings (including changes in time, day, and the assignment of instructors) may be added to, amended, or canceled by the decision of a department or the University.

Registration deadlines, directives, and regulations are published each semester in the online academic calendar and schedule of classes available at <a href="https://www.taylor.edu/offices/registrar/registration">https://www.taylor.edu/offices/registrar/registration</a>. Contact the Office of the Registrar for additional details regarding course registration.

#### Advance Registration

Advance registration provides an opportunity for degree-seeking students to register via the registration app for courses for the upcoming semester(s). Registration priority is determined by cumulative earned credit hours with priority given to students with the most hours. Students who fail to register during their assigned advance registration period will lose their priority position during the registration process.

To ensure correct billing and certification of enrollment status for state and federal financial aid, scholarships, Ioan deferments, NAIA athletic eligibility, etc., students must be enrolled for at least 12 credit hours by the end of each advance registration period.

Readmitted students will be contacted by the Registrar's Office regarding registration procedures and will be required to meet with their academic advisors to pre-approve their upcoming schedules. The advisor must submit the approved class schedule to the Registrar by the published deadline in order to receive priority registration.

Guest students are not eligible for advance priority registration.

#### Audit Registration

Audit registration requires the approvals of the academic advisor and instructor and is subject to the following guidelines:

- Courses taken for audit receive no academic credit or grade.
- The audit option must be declared during the first week of classes (first five class days of Fall or Spring semester classes).
- Students must attend at least 50 percent of the class meetings as verified by the instructor in order for the course to appear on the academic transcript.
- At the discretion of the instructor, students may be required to complete course assignments, projects, etc., in order to participate in a course taken for audit credit.
- Audit registration occurs after all students requesting credit for the course have been given priority registration.
- Some courses are not available for audit registration such as private music lessons, music ensembles, laboratory courses, experiential education (e.g., practicum, internship, and field and travel studies), studio art courses, physical education courses, off-campus program courses, and distance education courses (e.g., Blackboard, online, independent study, and correspondence).

- Language courses required for the BA degree may not be taken for audit credit.
- Audit hours will be charged if the student's registration is under 12 hours or exceeds 17 hours for the enrollment term.
- Courses taken for audit do not count toward determining part-time or full-time status for enrollment status.
- Students must <u>not</u> register for the audit course. Upon approval, the Office of the Registrar will add the course to the student's schedule after the end of the advance registration period.
- The "Audit Registration" form must be pre-approved by the academic advisor and instructor before submission to the Registrar.

Registration forms for audit courses are available online at https://www.taylor.edu/offices/registrar/forms.

#### Holds on Registration

The University uses several methods in the registration process to ensure that students are eligible to enroll in courses:

Health

- If a student fails to submit complete health forms, immunization records, certification of physical examination, etc., the Office of Student Development may place a hold on the student's records and course registration until the issue is resolved.
- The student will not be permitted to register for a subsequent term and will lose his or her priority registration position.
- The Office of Student Development should send the student notification of such a hold prior to the advance registration period.

Registrar

• The Registrar may place a hold on a student's registration due to, but not limited to, academic standing, athletic eligibility, graduation progress, placement results, proficiency requirements, and repeat registration.

- If a student fails to meet payment requirements by the due date, the Office of Student Accounts may place a hold on the student's records and course registration until the problem is resolved.
- The student will not be permitted to register for a subsequent term and will lose his or her priority registration position. Graduating seniors are not exempt from registration holds.
- It is the student's responsibility to view his or her account on both TOWER and the secure billing site to remain informed of his or her financial status.
- It is extremely important that each student communicates with the Office of Student Accounts about unresolved account balances.

Students should contact the respective office who initiated the registration hold well in advance of the advance registration period. Until the hold is removed from the student's record, he or she will not be permitted to register for a subsequent term and will lose his or her priority registration position.

#### Music Lesson Registration

All students—music majors, minors, and those taking lessons to meet the foundational core participation in the arts—are encouraged to register for private music lessons via the registration app during the advance registration period. Lesson days/times will be arranged using class schedules during the first week of the semester. Students will receive email notifications of their lesson days/times and instructor assignments. No changes of schedule for music lessons will be permitted after the end of the second week of the semester.

Contact the music coordinators (Dr. Christopher Bade—Instrumental; Dr. Leon Harshenin—Piano (Keyboard); Dr. Conor Angell—Voice) for additional assistance with private music lessons.

#### Non-Music Majors/Minors

Non-music majors may register for a <sup>1</sup>/<sub>2</sub>-hour lesson (1 credit hour) via the registration app during the advance registration period. Lessons are designed for non-music majors for personal enrichment and development of musical talent and to meet the foundational core participation in the arts requirement. Private instruction content will be determined by contract with instructors at the beginning of the semester.

MUS 105S	Applied Lesson—Strings	
MUS 105V	Applied Lesson—Voice	
MUS 105W	Applied Lesson—Woodwind	

#### Music Majors and Minors

Music majors and minors may register for ½-hour or 1-hour lessons (1-4 credit hours) via the registration app during the advance registration period. Lessons are designed for music majors and minors learning practice methods, building good performance technique, acquiring sufficient repertoire, gaining a broad knowledge of literature and composers, and achieving performance skills.

Music *minors* will need to contact the respective music coordinators (Dr. Christopher Bade—Instrumental; Dr. Leon Harshenin—Piano (Keyboard); Dr. Conor Angell—Voice) for 'MAJOR' overrides in order to register online. Overrides do not automatically enroll students in their private lessons/courses; overrides are electronic approvals permitting students to register online.

#### **Overrides**

Departmental requirements on course restrictions are firm; however, a student may merit an exception based upon individual circumstances. Students must contact the course instructor for an override approval. Registration overrides are possible for the following restrictions:

- Academic Load (Registrar authorization required)
- **Closed Section**
- Class

- Prerequisite, including Test Score
- Instructor Permission
- Time Conflict (both instructors must enter overrides for their respective courses)

Major/Minor

If an override exception is deemed appropriate by the instructor or department, the instructor is to enter the section override(s) in the system. Upon entering the required override, the instructor should notify and remind the student of the student's responsibility to then register for the course. An override registration period once an override has been entered by the instructor. Students may be required to manually enter the CRN in order to register for the course, especially if the course is closed (full).

#### **Pass/Fail Registration**

The pass/fail option requires the approvals of the academic advisor and instructor and is subject to the following guidelines:

- A pass grade represents work completed at C- or above.
- The pass/fail option is open only to second-term sophomores or above with a minimum 2.30 GPA.
- No course needed for teacher certification may be taken Dass/fail.
- No course in the major, minor, or concentration field (excluding courses available only as pass/fail), and no foundational core course may be taken pass/fail until all requirements in those areas are met.
- Language courses required for the BA degree are not eligible for the pass/fail option.

- The pass/fail option must be officially declared no later than the first week of classes (first five class days of Fall or Spring semester classes).
- Pass/fail courses do not affect the cumulative GPA if passed; however, they do affect the GPA if failed.
- Pass/fail courses are limited to one course per term (excluding courses available only as pass/fail).
- Pass/fail courses are limited to a total of 13 hours (excluding courses available only as pass/fail).
- The student is responsible for registering for the course. Upon approval, the Office of the Registrar will change the grade mode from normal to pass/fail.
- The "Pass/Fail Registration" form must be pre-approved by the academic advisor and instructor before submission to the Registrar.

Registration forms for pass/fail courses are available online at https://www.taylor.edu/offices/registrar/forms.

#### **Pre-Registration Advising**

Students must meet with their academic advisors during the pre-registration advising period to receive their registration PIN. A student with double majors in different disciplines should be advised by both the primary and secondary advisors; the academic advisor for the primary major should provide the PIN. Registration time tickets will be emailed to students prior to the advisement period.

#### Pre-Registration Advising and Registration for Taylor University Online Program Students

Students must communicate with their advisor during the pre-registration advising period to determine which courses to take. Program students registering for in-term courses-including all TUO program students receiving financial aid-will receive a Course Registration form which must be completed, signed, and returned to the advisor prior to registration for Fall, Spring, and Summer terms. Out-of-term program and certificate students complete the online registration form after clicking on the "enroll now" button on the TUO website. These forms are the confirmation of the courses each student plans to take.

#### **Repeat Registration**

Any course may be repeated at Taylor University. All attempts in a course are reflected on the student's academic transcript; the cumulative GPA will include the most recent grade\* in the repeated course, even if the new grade is lower than the original attempt. Athletes and students receiving financial aid, should inquire about eligibility for repeated courses. Previously awarded credit hours are excluded when repeating a course.

\*Grades of W (withdrawn), WP (withdrawn/passing), or AUD (audit) will not replace previously earned grades of A-F, WF (withdrawn/failing), or NC (no credit) in the GPA calculation.

#### Specific Registration

Specific registration forms are required for the following courses:

- Audit
- **Departmental Honors Directed Research**
- Pass/Fail
- Selected Topics
- TU Online
- Tutorial
- Registration forms are available online at https://www.taylor.edu/offices/registrar/forms. Completed forms must be pre-approved with signatures of the instructor, academic advisor, and major and course department chairs (if applicable) before submission to the Registrar for evaluation and registration. Registration forms must be received by the registration (add/drop) deadline.

#### Schedule Adjustments

Students are solely responsible for each course in which they register and for notifying their advisors of any schedule adjustments. Students must verify their official schedules prior to the first day of classes and the last day to drop/add courses to confirm their registration. Students are not authorized to attend classes for which they are not officially enrolled.

Courses may be added during the first week of classes (first five class days of Fall/Spring semesters); however, each class missed that week counts as an unexcused absence. After the first week of classes, no additional coursework may be added or changed. Courses may be dropped during the first five class days via the registration app, if enabled; if disabled, students must initiate registration changes through the Office of the Registrar. Specific add/drop deadlines apply to Summer, Interterm, and partial-term courses; refer to the academic calendar for the respective term.

After the first week of classes (first five class days of Fall/Spring semesters), withdrawing from a course requires submission of a course withdrawal form available from the Office of the Registrar. It is the student's responsibility to formally withdraw from courses. Discontinuance of attendance does not automatically constitute withdrawal from a course. Students failing to file proper withdrawal forms by the appropriate deadline must complete classes for which they are registered or receive an automatic grade of F. Withdrawing from courses during the second and third weeks of the semester appears on the student's transcript with a grade of withdrawn (W). Students withdrawing from a course after this period and up to one week after midterm receive either a grade of withdrawn/passing (WP) or withdrawn/failing (WF). When a student withdraws from a course later than one week beyond midterm, the grade is automatically WF. The effect of WF on the GPA carries the same weight as that of a full-term failing grade. Course withdrawals are not permitted during the week of final exams.

The official process of withdrawing from a course (after the last day to drop a class without a transcript entry) begins in the Registrar's Office; notifying instructors and advisors of intent to withdraw from a course does not automatically constitute course withdrawal. Students are solely responsible for formally withdrawing from a course. Neither failure to pay nor failure to attend will automatically remove a student from a course. Students failing to properly withdraw from a course risk owing the University all tuition and fees, repayment of financial aid, and failing grades in those courses.

Taylor University Online students should follow the above procedures with the exception of contacting the TUO office to begin the process rather than the Registrar's Office and should review the withdraw dates and grades for TUO students.

#### Drop from Full- to Part-Time Hours

A full refund will be given to students dropping from full-time to part-time by the last date to drop a class without a transcript entry. There is no refund for dropped hours after this date as outlined in the academic calendar. Contact the Office of Student Accounts for further details on refund policies.

#### Drop of Overload/Audit Hours

After the last day to drop a class without a transcript entry, students registered for 18 hours or more will not have the amount of their fees reduced if they withdraw from a course (including private lessons, ensembles, and audit). Students are solely responsible for adhering to the registration deadlines outlined in the academic calendar, registration procedures, and catalog. Contact the Office of Student Accounts for further details on refund policies.

- Internship
- Field Study
- Independent Study
- Practicum

# **Academic Program Objectives**

Taylor University's academic programs:

- Require students to demonstrate depth of learning in an academic major
- Structure the foundational core experience for the dissemination of the liberal arts heritage
- Foster the capacity for making sensitive, value-oriented judgments
- Engage students and faculty in and encourage research
- Prepare students for conscientious and creative leadership in a technological world
- Establish foundations for graduate study
- Share intellectual expertise with the larger geographical, scholarly, and faith communities
- Anchor specific career preparation for a variety of professions in a foundation of appropriate academic experiences, cultural breadth, and Christian perspectives
- Prepare students to meet external certification and licensing requirements
- Provide pre-professional preparation

### **Degree Requirements**

Taylor University offers programs leading to the degrees Bachelor of Arts, Bachelor of Science, Bachelor of Music, Bachelor of Fine Arts, or Associate of Arts.

All degrees require students to fulfill foundational core and major field courses. Students must declare a major by the time they reach junior status (61 credit hours). Students must also demonstrate proficiency in the essential skill areas: reading, math, and writing.

In situations where curricular changes must be made in compliance with new licensing or credential requirements, students will be required to comply with new requirements. Otherwise, in view of occasional curricular changes, continuously attending students may elect to meet the graduation requirements that were in effect at the time they entered Taylor University or may elect to declare a subsequent year's catalog requirements. All programs completed by a student must be under the same catalog year.

While there is no official time limit for the completion of a degree for continuously attending students, those students who interrupt their enrollment for three consecutive semesters are required to meet the degree requirements current at the time of readmission. Students who wish to return after missing a semester(s) must contact the Office of Admissions for details on applying for readmission. While most courses that are equivalent to current course offerings will be accepted toward a degree, courses that are more than ten years old at the time of readmission typically will not be counted toward meeting degree requirements; when appropriate, students may request an exception to this policy if justification exists for the acceptance of credit older than ten years. All coursework taken through Taylor University will remain on the official transcript and be calculated into the grade point average (GPA).

#### **Baccalaureate Degree Requirements**

A baccalaureate degree is an award that requires the completion of at least four academic years of college-level work or the equivalent in an academic field of study and that meets the institutional standards for satisfying the requirements of this degree level. Additional majors, minors, or concentrations cannot be added to a previously awarded degree, nor can graduation honors be adjusted after degree conferral.

The **Bachelor of Arts** degree centers on courses of study in the arts and sciences. Candidates for the Bachelor of Arts degree must demonstrate the equivalent of two years of sequential college-level study in one foreign language.

The **Bachelor of Fine Arts** degree is a professional baccalaureate degree in the arts with an emphasis on practical studio work alongside classroom work in the major field of specialized focus.

The **Bachelor of Music** degree is the initial professional baccalaureate degree in music. Its primary emphasis is on development of skills, concepts, and sensitivity essential to the professional life of a musician.

The **Bachelor of Science** degree typically requires more upper-division courses, fewer electives, and a practicum or internship experience. Bachelor of Science degrees are often awarded to students preparing for professional fields. Many Bachelor of Science degree programs are available only when combined with curriculum requirements in education or information systems and analytics.

Students must make application and receive approval of each department before adding concurrent majors/minors.

The following requirements apply to the baccalaureate program:

- Minimum of 128 semester hours
- Minimum of 42 semester hours of upper-division (300-/400-level) courses
- The residency requirement for the awarding of a Taylor University degree is fifty percent of the minimum degree requirement
- At least 22 of the last 30 hours earned toward the degree must be taken in residence at Taylor University
- Completion of all foundational core requirements
- Completion of all requirements for selected major(s) and minor(s)

- Demonstration of proficiency in reading and mathematics
- Cumulative GPA of 2.00
- Passing grade in all hours for graduation
- Grade of C- or better for all major, minor, systems, and education requirements
- Students desiring to complete the requirements for two degrees (e.g., BA and BS) must make application and receive approval from both departments and the Registrar
- Candidates for two degrees (e.g., BA and BS) must complete a minimum of 158 semester hours and meet requirements for two different majors

#### Language Requirement for Bachelor of Arts Degree

Candidates for the Bachelor of Arts (BA) degree must demonstrate the equivalent of two years of sequential college-level study in one foreign language for graduation from Taylor University. Taylor offers language instruction in Chinese, French, New Testament Greek, Old Testament Hebrew, Korean, and Spanish. Foreign language courses required for the BA degree must be completed for a grade and are not eligible for the pass/fail option or for audit credit; foreign language courses may not be taken online nor through correspondence at Taylor or elsewhere for transfer credit.

For additional information regarding language proficiency, call (765) 998-5141.

#### French and Spanish

- 1. Students who have transferred in French or Spanish college credit must continue with the next sequential course. Taylor University does not accept foreign language courses taken through online or hybrid instruction.
- 2. AP Exam: Students who take and pass the AP Exam in French or Spanish with a score of 4 or higher will have met the language proficiency requirement for the BA degree and may receive credit for 201 and 202. The fee for posting credit to the transcript should be paid at the time of notification. The AP exam must be taken prior to enrollment to Taylor.
- 3. CLEP: Students who take and pass the CLEP exam with a score of 59 or higher in French or 63 or higher in Spanish will have met the language proficiency requirement for the BA degree and may receive credit for 201 and 202. The fee for posting credit to the transcript should be paid at the time of notification. The CLEP exam must be taken by the end of the first year at Taylor.
- 4. Placement via number of years of High School French or Spanish:
  - a. Students who have successfully completed one full year of high school French or Spanish and intend to continue in the respective language place into and should register for FRE 101 or SPA 101.
  - b. Students who have successfully completed two full years of high school French or Spanish and intend to continue in the respective language place into and should register for FRE 102 or SPA 102.
  - c. Students who have successfully completed three full years of high school French or Spanish and intend to continue in the respective language place into and should register for FRE 201 or SPA 201.
  - d. Students who have successfully completed four full years of high school French or Spanish and intend to continue in the respective language place into and should register for FRE 202 or SPA 202.
- 5. Placement via the placement exam:
  - a. Students may choose to take the exam to determine their placement. However, those who choose to do so should have had three or four full years of high school French or Spanish and must register for the level of placement determined by the exam and continue with each requisite course in the language sequence through FRE 202 or SPA 202.
  - b. Students who place beyond FRE 202 or SPA 202 on the placement exam will have met the language proficiency requirement. Students who place beyond 202 in Spanish on the placement exam may receive credit for SPA 201 and SPA 202 by taking and completing one upper-level SPA course with a minimum grade of B-. The upper-level course must be the first Spanish course taken at Taylor. The fee for posting credit to the transcript should be paid at the time of notification.

#### Chinese and Korean

Placement exams for Chinese and Korean are currently not available. Students interested in completing Chinese or Korean to meet the language requirement for the BA degree should contact the Department of English and Modern Languages for details. Students who take and pass the AP Exam in Chinese with a score of 4 or higher will have met the language proficiency requirement for the BA. The AP exam must be taken prior to enrollment at Taylor.

#### Greek and Hebrew

Students interested in completing Greek or Hebrew to meet the language requirement for the BA degree should contact the Department of Biblical Studies, Christian Ministries, and Philosophy for details. Both majors and non-majors are welcome to take New Testament Greek or Old Testament Hebrew to fulfill the foreign language proficiency. There are no placement exams offered for these languages.

#### English

International students who apply to Taylor University as non-native English speakers may request that English be considered as their "foreign" language for purposes of the Bachelor of Arts degree requirements under the following circumstances:

- I. Documented attainment of a score of 80 or higher on the iBT Test of English as a Foreign Language (TOEFL iBT); or
- 2. Documented attainment of a score of 550 or higher on the Test of English as a Foreign Language (TOEFL); or
- 3. Documented attainment of a score on another English language proficiency examination acceptable to the University (e.g., the International English Language Testing System (IELTS)); or
- 4. Successful completion of Taylor University's English as a Second Language (ESL) program with a written recommendation from the ESL program director.

This process is administered through Taylor University's Institute for English Language Studies.

#### Other Languages

- I. AP Exam: Students who take and pass the AP Exam in German, Italian, Japanese, or Latin with a score of 4 or higher will not receive credits but will have met the language proficiency requirement for the BA. The AP exam must be taken prior to enrollment to Taylor.
- CLEP: Students who take and pass the CLEP exam with a score of 60 or higher in German will not receive credits but will have met the language proficiency requirement for the BA degree. The CLEP exam must be taken by the end of the first year at Taylor and prior to enrollment in a language class at Taylor.
- 3. Other arrangements for meeting the language proficiency requirement must be pre-approved by the Department of English and Modern Languages and may include: a) successful completion of the equivalent of two years of sequential college-level study in one foreign language at a regionally accredited U.S. college or university; these credits from those institutions would not transfer; or b) successful completion of a Taylor University proctored ACTFL language exam with a rating of intermediate-mid or higher; no credits would be awarded.

#### American Sign Language

American Sign Language is not approved as an alternative language option and does not meet the language requirement for a Bachelor of Arts degree.

#### Information Systems and Analytics for Bachelor of Science Degree

#### Co-Directors, Stefan Brandle and Jon Denning

The Information Systems and Analytics curriculum distinguishes Taylor University from other liberal arts colleges. The curriculum complements many majors by sharpening students' analytical skills, introducing students to technology and data analytics, teaching how world-class enterprises achieve quality, and providing insights into managing organizations and people. The goal of the curriculum is to help students recognize that the world is filled with systems (e.g., educational systems, distribution systems, manufacturing systems) and that it is the processes inhabiting these systems that produce value. Worldclass organizations are the ones that can hone processes to achieve high performance. Our graduates are enjoying careers at enterprises of all sizes and in all segments of the economy.

The four major themes of the curriculum are analysis, information technology, operations, and quality. Much of the curriculum is taught by Computer Science and Engineering faculty. However, the Information Systems and Analytics curriculum is not a minor in computer science. A goal of the curriculum is to give students an in-depth exposure to system development, because this experience is essential for future systems analysts, managers, and anyone who will work in a world-class organization. Most systems analysts will never write a line of computer code in their professional careers, but they will undoubtedly manage projects involving application software where first-hand knowledge of software development and implementation is vitally important. Some students do discover they actually are very good programmers and do look for programming opportunities upon graduation.

Successful Information Systems and Analytics students are problem solvers and are analytically minded. These general traits may and do describe many in the liberal arts: artists, musicians, historians, theologians, philosophers, and writers to name a few. That is why the Information Systems and Analytics curriculum is combined with many baccalaureate majors. The skills acquired in the curriculum are not only applicable to almost any professional endeavor but also to living life: rational decision making, human relations, and problem solving. Graduates have used what they have learned in systems in a variety of arenas, beyond a career in systems analysis. For example, anyone aspiring for an MBA will be very well prepared upon graduating Taylor with the completion of the Information Systems and Analytics curriculum; psychologists and sociologists have used what they learned to conduct studies regarding human behavior. The broad applicability of systems knowledge makes the curriculum a practical enhancement to the many majors offering this curriculum under the Bachelor of Science degree.

The Information Systems and Analytics curriculum requirements are the same for all majors with very few exceptions. Some elective courses may be required by a major and cannot be used as Information Systems and Analytics electives. For specific curriculum requirements for each major, refer to the Academic Departments and Courses section of this catalog.

### Associate of Arts Degree

An **Associate of Arts** degree is an award that requires the completion of at least two academic years of college-level work, or the equivalent, in an academic or occupationally specific field of study and meets institutional standards for satisfying the requirements for this degree level.

The Associate of Arts degree requires foundational core and major/specialty area courses, along with demonstrated proficiency in essential skill areas. At Taylor University, many of the degree programs are designed to prepare students for occupational-specific fields. An Associate of Arts degree must be completed and awarded one calendar year before a baccalaureate degree from the same academic area can be awarded. The Associate of Arts in Liberal Arts is not to be taken with or awarded with any baccalaureate degree. Degrees offered through Taylor University Online may differ slightly from the requirements stated below; see program curriculum for specific requirements.

The following requirements apply to the associate's degree:

- Minimum of 64 semester hours.
- The residency requirement for the awarding of a Taylor degree is fifty percent of the minimum degree requirement.
- At least 22 of the last 30 hours must be taken in residence at Taylor University.
- Cumulative GPA of 2.00.
- Demonstrated proficiency in writing, mathematics, and reading.
- The following foundational core courses: IAS 110; ENG 110; CAC 160 or COM 210; KIN 100; KIN 200\_; BIB 110; BIB 210; COS 104; one social science or history course; HUM 230 or a literature course from ENG 230, ENG 233, ENG 240, or ENG 250; one science or math course; and fulfillment of all major/specialty area requirements. (Refer to Liberal Arts within academic departments for detailed listings.)
- This degree does not allow for more than one major area of study.

# Academic Enrichment Center Disability Support Services

### Academic Enrichment Center Director, Professor S. Gaier Academic Support Coordinator, Assistant Professor S. Barrett Academic Success Coordinator, Instructor L. Vanderberg First-Year Experience Coordinator, L. Wallace Tutor Coordinator, D. Nurkkala Writing Center Director, Associate Professor J. Moore

The Academic Enrichment Center (AEC) is housed in the northwest wing of the Zondervan Library. In keeping with Taylor University's mission statement, the AEC serves as a compassionate outreach to all students by providing academic study support so that all students may reach their academic potential. Since these support services are offered on campus, Taylor University will attempt to accommodate online students who need these services as well.

Services provided by the Academic Enrichment Center include: academic skills courses, study counseling, tutoring, disabled student services, Writing Center, academic support for students on academic probation, and academic support for provisionally accepted students. In coordination with the Office of Academic Assessment, the AEC offers academic support for students who are unable to meet proficiencies required by the University, including the math, reading, and writing proficiencies.

The learning-assistance services and programs assist and encourage all students to become active and independent learners. The specific goals of the Academic Enrichment Center are to:

- Assist members of the campus community in achieving their personal potential for learning.
- Provide instruction and services that address the cognitive, affective, and sociocultural dimensions of learning.
- Introduce students to the expectations of faculty and the culture of higher education.
- · Help students develop positive attitudes toward learning and confidence in their abilities to learn.
- Foster personal responsibility and accountability for one's own learning.
- Provide a variety of instructional approaches that are appropriate for the level of skills and learning styles of the student population.
- Assist students in transferring previously learned skills and strategies to their academic work.
- Provide services and resources to faculty, staff, and administrators that enhance and support classroom instruction and professional development.
- Support the academic standard and requirements of the University.

The purpose of the First-Year Experience program is to provide continuing services that will support new students in their transition to college life. These services include curricular and co-curricular programs which help new students integrate into the culture of the university and assist the student in understanding their relationship to the intellectual, social and spiritual climate of Taylor University

The Academic Enrichment Center offers the following courses intended to assist students in learning effective time management, efficient reading techniques, meaningful note taking strategies, excellent study models for test preparation and taking, and important math knowledge for college success. Courses are provided to help students meet the math and reading proficiency levels as outlined in the degree requirements for the University. Additionally, courses are offered to equip peer leaders to assist with instruction in the first-year seminar.

#### AEC 105

#### I hour Student-Athlete Academic Support Seminar

This course is designed to prepare student-athletes for academic success at Taylor University. Information about essential skills for academic achievement will be shared through lectures, small group discussion, homework assignments, and guest speakers. This seminar is required to earn credit in KIN 200Z Athletic Participation.

#### AEC 140

## I hour

Academic Reading An exploration and application of reading strategies to help students engage academic reading for more effective reading rate, comprehension and retention. The course will help students establish appropriate reading skills for academic success in college. Students taking IAS 140 to meet the reading proficiency required by the university must pass the reading proficiency test in order to pass IAS 140.

#### **AEC 180** I hour

Applied Learning Techniques—Verbal

Emphasizes techniques for the improvement of study skills, listening and note taking, reading and comprehension. The course meets two hours a week, with the third hour reserved for extra assignments. Work is completed in a lab setting. May be repeated one time only. Pass/fail only.

I hour

### AEC 185

#### Applied Learning Techniques-Math

Emphasizes techniques for the improvement of math study skills, listening and note taking and mathematics skills. The course meets two hours a week, with a third hour reserved for make-up or extra assignments. May be repeated one time only. Pass/fail only.

#### AEC 190 I hour

Foundations of Learning and Academic Engagement This course is specifically designed to help increase learning and academic success for students on academic probation. Students on academic probation will meet individually with a faculty or staff member in the Academic Enrichment Center throughout the entire semester. Topics covered will emphasize deep learning, academic engagement and responsibility, and study skills.

#### **AEC 280**

#### Applied Learning Techniques—Verbal

Emphasizes techniques for the improvement of study skills, listening and note taking, reading and comprehension. The course meets two hours a week, with the third hour reserved for extra assignments. Work is completed in a lab setting. May be repeated one time only. Pass/fail only.

I hour

### AEC 285

### Applied Learning Techniques-Math

Emphasizes techniques for the improvement of math study skills, listening and note taking and mathematics skills. The course meets two hours a week, with a third hour reserved for make-up or extra assignments. May be repeated one time only. Pass/fail only.

I hour

#### **AFC 350**

Introduction to Peer Leadership in the First-Year Seminar

An introduction to the role of a peer leader within the first-year seminar. Topics include peer education, group facilitation, discussion leading, lesson planning and personal leadership development. May be repeated twice for a total of 3 credits.

2 hours

#### AEC 351

#### Peer Leadership in the First-Year Seminar I

This course is designed to support the beginner peer leader within the first-year seminar. A primary focus of the course will be the study and application of small group leadership skills related to the Foundations of the Christian Liberal Arts course as well as personal leadership development for the student.

#### **AEC 352** 2 hours Peer Leadership in the First-Year Seminar II

This course is designed to support the intermediate peer leader within the first-year seminar. A primary focus of the course will be the study and application of small group leadership skills related to the Foundations of the Christian Liberal Arts course as well as personal leadership development for the student. Assignments will engage the second year leader in supporting beginner peer leaders.

2 hours

### **AEC 353**

### Peer Leadership in the First-Year Seminar III

This course is designed to support the advanced peer leader within the first-year seminar. A primary focus of the course will be the study and application of small group leadership skills related to the Foundations of the Christian Liberal Arts course as well as personal leadership development for the student. Assignments will engage the third year leader in supporting beginner and intermediate peer leaders.

#### AEC 410 Speed Reading

I hour

Emphasis on speed reading techniques and effective comprehension. Meets two hours a week. Prerequisite: 13th grade-level reading; not open to freshmen. Pass/fail only.

I hour

### **AEC 440**

**Advanced Test Preparation** 

Individualized instruction and review of both quantitative and verbal materials in preparation for passing exams such as the GRE, GMAT, LSAT, and MCAT. *Meets twice* a week for seven weeks. Pass/fail only.

## I hour

# English as a Second Language

Charlie Brainer, Program Coordinator Instructor G. Hoffman

### **IELS Program**

Through its Institute for English Language Studies (IELS), Taylor University offers a variety of programs to non-native English speakers who wish to improve their English proficiency either for entrance to an English-based academic program or for general proficiency.

Students who are planning to study at the associate, baccalaureate, or graduate level in English can enroll in the academic English program which is comprised of one or two semesters depending on the entry level of proficiency and rate of progress. This program provides gradual transitions to regular college classes through coursework in the "American Classroom," as well as through structured class observations to better understand faculty-student interaction in the Western context.

For students who wish to earn a certificate in Teaching English to Speakers of Other Languages (TESOL), the Education Department offers the TESOL program. Students who have completed the ESL program at a level sufficient for matriculation into the university's degree programs can obtain the TESOL certificate in one year of additional study. This option provides the credential often required to teach English in their home countries.

### English as a Second Language (ESL) Courses

ESL 100

### **ESL** Orientation

Taken during a student's first semester in the ESL Program, ESL Orientation provides instruction and a discussion space on academic, cultural, and spiritual issues facing ESL students.

I hour

#### ESL 101 2 hours

### **English Grammar**

This course integrates classroom grammar instruction with meaningful, individualized grammar practice in an independent lab setting. 2 hours

### ESL 102

### **TOEFL Preparation**

This course provides students with the skills and strategies needed to succeed on the Test of English as a Foreign Language (TOEFL) through test simulations, vocabulary building, and four-skill instruction and practice.

3 hours

### **FSI 103**

### Class Audit

This course, to be taken in the semester immediately preceding admittance to a degree-seeking Taylor University program, gives students extended exposure to a Taylor University class of their choosing. Students will learn the content of the course as well as gain insight into the linguistic and cultural demands of an American university.

#### ESL 104 Advanced Academic Vocabulary

### 2 hours

For English students who have attained their desired level of English proficiency, but who are planning to enter graduate or professional schools where the curriculum will be taught in English, this course provides a supplemental vocabulary pertaining to activities and subjects commonly encountered in these programs (e.g., research terminology).

### ESL 105

#### **American English Pronunciation**

Non-native English speakers typically have particular sounds that are troublesome depending on their native language. This course provides instruction in clearly and correctly pronouncing these sounds that are important to communicating effectively in English.

3 hours

2 hours

### ESL 106

## American Pop Culture

This course is designed to cause students to reflect on their home culture while

learning through discussion, lectures, and experience key aspects of American pop culture.

#### ESL 107

#### 2 hours Academic Listening Strategies

An intensive academic listening tutorial that prepares advanced level English language learners for American undergraduate-level lectures and classroom interactions through authentic listening texts.

#### ESL 108 2 hours Academic Reading Strategies

An intensive academic reading tutorial that prepares advanced level students for college undergraduate-level reading requirements through attention to strategies for reading and using authentic texts.

#### ESL 109

#### 2 hours Academic Presentation Skills

This course provides instruction and practice in the speaking, organizational, and academic skills required to make successful academic presentations in American universities.

4 hours

### ESL 110

Academic Reading and Writing

Through this course, students will be introduced to the world of academic reading and writing in an American university. Students will learn reading skills necessary to comprehend a text as well as strategies to manage a typical reading load for a university student. Students will also receive practice and instruction in composing many different forms of writing assignments found in American classrooms.

#### ESL III 4 hours Academic Listening and Speaking

This course provides students with the tools necessary to thrive in an American university, in and out of the classroom. Students will gain focused instruction and experience in speaking skills and listening skills through practical assignments that tailor the classroom experience to fit each student's academic interests and needs. Students will learn and practice classroom communication, group work. presentation skills, note-taking strategies, classroom lecture comprehension, and conversational listening.

### **FSI 200**

### Advanced Academic Language Skills

This integrated skills course ensures that English Language Learners are equipped with the linguistic tools necessary to meet the demands of an American academic environment. Students will receive focused instruction and practice in advanced academic speaking, listening, reading, and writing through college-level books, lectures, film, and other forms of academic media.

3 hours

### ESL 201

3 hours The American Classroom

This course prepares advanced students for the university classroom through content-based instruction that closely follows the curriculum format of Taylor University classrooms. Students will gain a broad perspective of historical, religious, and societal influences on American educational culture through lectures, class discussions, and practical assignments.

3 hours

#### **ESL 202**

#### Academic English Preparation for Biblical Literacy

Designed to prepare advanced English language learners for the academic rigors of Taylor University's Biblical literature courses (survey of the Old and New Testaments). It is not an introduction to the literature, content, and history of the Bible, but rather is a course that builds necessary academic reading, writing, listening, and study skills for success in these courses in subsequent semesters.

# **Foundational Core**

### Jeffry Cramer, Coordinator of Foundational Core

The liberal arts at Taylor University provide an entrance into a human dialogue about life's important questions and allow the opportunity to appreciate God's wisdom and beauty. Such a focus enables students to acquire knowledge concerning their faith in order to become better ambassadors for Christ. The practice of engaging a breadth of disciplines trains students to become intellectually open to new ideas as they acquire discernment and self-control. Studying the liberal arts allows students to develop a sense of purpose and meaning as they fulfill the biblical obligation of pursuing God with their minds while striving to become more like Christ. At Taylor, Christian faith is the foundation for the development of knowledge. All academic disciplines, in turn, inform the development of faith as well as habits of mind and action that characterize mature Christians.

The Foundational Core Curriculum at Taylor University challenges students to pursue knowledge outside of their chosen disciplines so they may make connections between disciplines, between the past and the present, and between their experiences and the experiences of others. Students dedicated to inquisitiveness, intellectual honesty, and the pursuit of truth, while demonstrating the willingness to persevere when applications are not immediate and obvious, develop the foundation to continue learning throughout their lives. Christians who value lifelong learning are intrinsically motivated to pursue God's wisdom, truth, and love.

In this light, the Foundational Core Curriculum emphasizes the Christian calling to recognize the global realities and complexities of local, national and international issues and situations in order to develop ethical positions that are informed, thoughtful and nuanced. Students will grow in their understanding of global realities from historical and cross-cultural perspectives and appreciate diverse cultural dynamics and orientations. Through coursework and personal interaction, students may develop the discernment to choose actions that promote global responsibility and uphold the dignity and worth of all people.<sup>1</sup>

# Seven Objectives for the Foundational Core Curriculum

### I. Aesthetic Literacy

Aesthetic literacy entails the capacity to effectively engage the arts (which include literature, music, architecture, and the visual, performing, and media arts) and the aesthetic dimensions found in natural phenomena and to comprehend the ways in which they contribute to culture and human flourishing. It requires a grasp of the distinctive nature of the relationship between form and meaning found in works of art and the knowledge of the critical frameworks relevant to their understanding. Aesthetic literacy enables students to recognize and develop their gifts as humans who share the image of a creative God. It invests them with the ability to engage works of art and aesthetic form in diverse contexts with discernment in order to foster a way of life that is both vibrant and in keeping with God's purposes.

### Outcomes

- 1. Students will identify the distinctive characteristics of a variety of the arts, artists, styles, cultures, and historical periods.
- 2. Students will explain how values and meaning are embedded in artistic form and design by using appropriate methods to evaluate and discern worth and ethical implications in historical and current art practice.
- 3. Students will explore their own creative potential as both participants and observers, enabling future involvement with the arts.

### 2. Civic Mindedness

Civic mindedness involves an understanding of ideals and practices of citizenship critical to full participation in a democratic society. Greater global interdependence, illustrated by the volume of international news, communication, trade, and travel, requires more awareness of a variety of social, political, and economic systems throughout the world. Informed citizens need to have a systematic knowledge of the structure and processes of economic, political, and social systems, as applicable in a local, national, or international context. Civic mindedness entails citizens valuing knowledgeable participation in the public forum for the public good.

#### Outcomes

- I. Students will acquire knowledge of political and economic systems, and of diverse cultures and subcultures to understand current events and to have an informed opinion of these issues.
- 2. Students will assess, analyze, and knowledgeably participate in public discourse.
- 3. Students will respect and evaluate diverse opinions related to local, national, and international issues.
- 4. As a portion of their Christian responsibility, students will participate in local, national, and international institutions and civic organizations in order to fulfill God's mandate to be salt and light to the world.

#### 3. Communication Fluency

Effective communication involves an awareness of rhetorical strategies and practices essential to conveying understanding in public and private discourse. Such communication requires that issues and ideas be examined from a variety of oral and written perspectives and contexts. Communication fluency is evidenced by proficiency in analyzing and applying audience-specific, message-specific, context-specific, and medium-specific factors in the formulation of meaning.

#### Outcomes

- I. Students will investigate and gain knowledge of media literacy, including the development of research techniques and critical reading strategies, to incorporate selected sources into their own work.
- 2. Students will analyze rhetorical models, and respond to ideas using appropriate patterns of reasoning, supportive evidence, and appropriate evaluative standards.
- 3. Students will apply oral and written language usage and media selection appropriate to particular rhetorical situations and particular audiences.

### 4. Critical Thinking and Information Literacy

Strong critical thinkers have the ability to access, identify, evaluate, and analyze information, concepts, assumptions, and perspectives toward the end of discovering truth and achieving relevant results. Critical thinking also requires the ability to determine the quality and the extent of information for the discovery of knowledge within a variety of academic disciplines. These skills enable students to form scholarly, sophisticated, and ethical considerations marked by integrity, fairness, empathy for others' perspectives, and openness to self-criticism. Additionally, advancing critical thinking and research skills better enables students to make informed contributions to society and scholarly conversations using diverse forms of media.

### Outcomes

I. Students will analyze an event, argument, or problem using appropriate evidence and reasoned judgments.

- 2. Students will evaluate and synthesize information from diverse resources to reach an informed conclusion.
- 3. Students will identify and assess their own and others' biases and values.
- 4. Students will apply new and prior information to a specific purpose, problem, or research question.

### 5. Quantitative and Scientific Literacy

Quantitative and scientific literacy involves theoretical, experimental, observational, and computational exploration in the context of collaboration; this entails problem solving in teams and communicating the results in a clear and logical way. Quantitative and scientific literacy enables students to explore God's creation, investigate contemporary human challenges, and use technology thoughtfully in the context of human interaction. Wise and ethical decisions that demonstrate effective stewardship of our God-given resources are the hallmark of quantitative and scientific literacy.

### Outcomes

- I. Students will apply quantitative and scientific models to solve real-world problems.
- 2. Students will clearly communicate quantitative and scientific results using words, tables, graphs, and other formats as appropriate for the intended audience.
- 3. Students will articulate the value of natural science, mathematics, and computational technology as a means of understanding their world.
- 4. Students will identify, and explain, the importance of the ethical uses of science and technology in their everyday lives.

### 6. Responsible Stewardship

Stewardship entails respect of and responsible oversight for that which belongs to another. Christian stewardship recognizes God as Creator and Owner of all things and Endower of our skills, abilities, talents, and resources. The response of the believer should be to manage purposefully all spiritual, intellectual, natural, personal, economic, technological, and physical resources provided by God with individual and social responsibility. This responsibility involves acknowledging the costs and benefits of such stewardship. As the intended caretaker, humankind is commissioned to devise and employ strategies to care for God's creation. Responsible stewardship also includes using one's body, time, talents, and personal resources in a God-honoring manner in one's vocation and personal ministry to others; one's physical, social, and spiritual wellbeing; and one's service to Him and to others in the world in which we live.

### Outcomes

- I. Students will explain the scope of responsible Christian stewardship for all that God has created.
- 2. Students will demonstrate responsible use of their minds, bodies, abilities, and resources.
- 3. Students will identify the costs and benefits involved in the wise, responsible, moderate, and sustainable use of their resources.
- 4. Students will practice wise stewardship of creation in their personal lives, vocations and ministries in their communities and the world to honor God and to serve others.

### 7. Spiritual Maturity

Spiritual maturity is the mark of a vibrant, personalized, growing faith in Jesus Christ. Students who are spiritually mature have developed a solid faith foundation, grounded in the knowledge of Scripture in its entirety, which they intentionally integrate into every aspect of their lives. This is primarily exhibited in Christ-like character (or the fruit of the Spirit), and the regular practice of spiritual disciplines including prayer, Bible study, corporate and personal worship, stewardship, and service. The Foundational Core Curriculum will provide students with the skills by which they are able to formulate and support a personal, growing, evangelical, orthodox Christian faith.

### Outcomes

- I. Students will articulate the biblical foundations of their faith and explain how they impact daily life.
- 2. Students will practice biblical principles of a growing Christian faith as evidenced by spiritual disciplines.
- 3. Students will express the philosophical and theological arguments which shaped the doctrinal understandings of the Christian faith.
- 4. Students will assess cultural values and practices in the light of biblical theology to influence culture for the Kingdom of God.

### Applying to Graduate

Candidates for graduation should apply to graduate at least one year prior to the anticipated graduation date: May I for Spring/Summer graduates and December I for Fall/Interterm graduates. This student-initiated step begins the graduation tracking process.

The student and advisor should utilize My TU Degree to review all outstanding requirements for graduation. For students who apply for graduation by the preferred deadline above, the Director of Graduation will review each student's progress toward graduation during summer (for Spring/Summer graduates) or January (for Fall/Interterm graduates). Any outstanding requirement shown should be addressed by March I for Commencement participants and all requirements must be met for degree conferral. Students anticipating a Summer completion must register for or notify the Director of Graduation of the status of all planned Summer courses by April 15 prior to Commencement.

If deficiencies exist in My TU Degree, the student will not be eligible for participation in Commencement; it is the student's responsibility to notify his or her family. If the deficiencies are addressed and My TU Degree shows no outstanding requirements (with the exception of the senior comprehensive requirement, major/minor participation requirement, and planned Summer courses not to exceed 8 credit hours) by April 15, the student will be eligible to participate in Commencement. Students addressing deficiencies after April 15 but up to one week prior to Commencement, may request permission to participate in Commencement; however, the student might not be included in the Commencement program even if approved to participate.

Students with two additional semesters remaining for graduation should visit <u>https://www.taylor.edu/offices/registrar/graduation</u> for details regarding applying to graduate. The preferred deadline for applying is May I (Spring/Summer graduates) or December I (Fall/Interterm graduates). Students are solely responsible for ensuring that their academic programs comply with the policies of the University and meet all graduation requirements.

#### **Commencement and Diplomas**

A student may complete graduation requirements and officially graduate at the end of any Taylor University instructional term concluding in December, January, May, June, July, or August. Only one Commencement ceremony is held—in May at the end of the Spring semester. Attendance at Commencement is expected; however, if a graduate is unable to participate, written notification of *in absentia* must be submitted to the Director of Graduation by April 15. Students are eligible to participate in a maximum of one Commencement per level of degree. Graduates subsequently completing a higher degree at Taylor would be eligible to participate in Commencement again. Participation in Commencement does not guarantee official graduation from Taylor University.

A Summer graduation candidate should participate in Commencement if no more than 8 credit hours remain and the student provides the Director of Graduation by April 15 details of all planned Summer courses to be completed by the respective official Summer graduation date. Fall and Interterm graduates are eligible to participate in the ceremony following their official graduation. Any exceptions must be approved by the Dean after the student has applied to graduate.

Any outstanding course, including incompletes, will prevent the conferral of the degree. A student intending to take additional courses beyond graduation must apply as a guest student or extend the graduation date. Diplomas should be mailed to graduates within three weeks of the conferral date following submission of final grades and completion of the final degree audit by the Office of the Registrar. Graduates must fulfill all financial obligations to the University before receiving a diploma.

#### Honors

In recognition of superior scholarship, the University awards three levels of honors at graduation: summa cum laude, magna cum laude, and cum laude. Summa cum laude is awarded to those with a minimum cumulative GPA of 3.90; or magna cum laude is awarded to those students with a minimum cumulative GPA of 3.70; or cum laude is awarded to those students with a cumulative GPA of at least 3.50.

Graduation honors placed on diplomas and transcripts are designated for those students who have fully completed all course work and requirements for their baccalaureate degrees. Graduation honors are computed on Taylor University credit hours only; fifty percent of the minimum degree hours must be completed through Taylor University. Associate and Master degrees are not eligible to receive honors.

For Commencement ceremony purposes only, honors will be announced and appropriate honors regalia worn using the cumulative GPA calculated after January Interterm. No grades from Spring (immediately preceding Commencement) will be used in calculating honors for Commencement.

### Major/Minor GPA Calculation

Only courses with a grade of C- or better will count in satisfying major/minor credit hour requirements. However, the institutional methodology for computing the major or minor GPA will be to include all courses that could be counted toward the major/minor, including courses in which a grade below C- is earned. This includes excessive major electives and courses taken in concentrations, tracks, education, and systems. For courses that have been repeated through Taylor due to an unsatisfactory grade, the previous attempt is excluded from GPA calculations and credit totals, but remains on the transcript.

All major and minor programs will continue to have a 2.30 major and minor GPA requirement with the exceptions of social work which requires a 2.50 major GPA and the Honors Guild which requires a 3.40 cumulative GPA. Individual programs may have circumstances unique to the discipline that would suggest that major or minor GPA requirements might be more appropriately computed in a specific manner; these exceptions are listed within the curriculum requirements for those majors and minors.

### My TU Degree Audit

My TU Degree is the official degree audit system provided to students, faculty, and staff in order to track progress toward graduation. Students are responsible to regularly review the degree audit to ensure all degree requirements are being met and that the academic plan (e.g., four-year plan) keeps the student on track for degree completion. Students should review the degree audit with the advisor to determine courses in which to register for upcoming terms and to create and update a four-year plan.

Any student meeting a requirement by a course not listed in the audit must submit a course substitution form (approved by the chair of the department requiring the course); after submission to the Office of the Registrar, the student's My TU Degree audit will be updated to show the course meeting the specific requirement. Students must contact the Office of the Registrar for clarification of any discrepancies experienced with the catalog, curriculum guides, degree audit, staff, and faculty.

### Senior Comprehensive Examination/Paper/Project

A candidate for a baccalaureate degree must successfully complete a comprehensive examination, project, or paper in the major field of study. This requirement is expected to be completed during the senior year. A student is allowed a maximum of three attempts to pass the comprehensive requirement in any single major. If a student intends to graduate with more than one major, a comprehensive examination, project, or paper is required for each major. The examinations, projects, or papers are to be marked superior, pass, or fail. Advisors can discuss available options for a specific major.

### Honor Societies

Each year, Taylor students who excel in academic pursuits are inducted into the various honor societies for specific disciplines. Appropriate ceremonies are held to give campus-wide recognition to students whose academic record earns induction into a national academic honorary society. Only honors regalia provided by the University, based upon cumulative GPA, may be worn during Commencement; no regalia from honor societies or other organizations may be worn during the ceremony.

*Alpha Psi Omega* is a national honorary dramatic fraternity organized for the purpose of providing an honor society and wider fellowship for those doing a high standard of work in dramatics. Members are elected based on their participation in the Taylor Theatre program. They must earn 50 points acting and working backstage.

**Beta Alpha Epsilon** is a University honor society rewarding scholastic attainment to students who are candidates for any baccalaureate degree within the Business Department. Candidates for membership: (1) should be of good character as verified by faculty and Student Development; (2) have completed at least 32 hours of coursework at Taylor University; (3) have achieved a cumulative GPA of at least 3.50 with at least 75 credit hours or 3.60 with at least 60 credit hours; and (4) have completed at least twelve, in-class Business major hours.

*Chi Alpha Sigma* is a National College Athlete Honor Society recognizing student-athletes who are of junior and senior status and each have earned a cumulative GPA of 3.40 or above. They must also meet character and citizenship standards established by the National Council. The mission of Chi Alpha Sigma is to bring honor and recognition to deserving student-athletes, their families, teams, athletic departments, and colleges.

Kappa Delta Pi is an international honor society in education. Candidates for membership should exhibit worthy educational ideals, demonstrate leadership potential and a commitment to education, and manifest desirable personal qualities. A GPA of 3.20 or higher is required.

Sigma Tau Delta is an English honor society open to English majors and minors with a major/minor GPA of 3.30 or higher.

### Credits-in-Escrow/High School Students

Junior and senior high school students (16-19 years old) may enrich and expand their educational experiences by enrolling at Taylor University on a space available basis for up to 2 classes each Fall and Spring semester; Taylor University Online courses are also available to juniors and seniors (16-19 years old). Full college credit is awarded for all courses satisfactorily completed according to the University's established requirements and procedures. Escrow credits earned at Taylor are included on the official transcript and may be sent to other colleges and universities for consideration of transfer credit. Students should contact the high school guidance counselor to inquire about dual-credit of Taylor courses to count as high school credit as well. Restrictions are indicated under *Guest Status* in the *Admissions* section of this catalog.

### **Pre-college Summer Experiences**

During the summer, high school students are offered the opportunity to learn more about Taylor and academic areas through various programs. Offerings range from one-week non-credit bearing academic camps to a two-week credit-bearing program.

During the two-week program, students experience a snapshot of college life at Taylor while earning college credit. This program is for high school students who have completed the junior year. Activites vary each summer, but you can count on making friends from across the country, being pushed academically, and growing spiritually.

# **Majors and Minors**

### Major

The major is the principal field of study usually consisting of 35 percent or more of the total hours required in an undergraduate curriculum. At Taylor University, fields of study require students to earn a minimum of 30 hours of credit. The following requirements apply to the major:

- A 2.30 GPA in the major field is required. Higher GPAs are required in certain curricula (e.g., social work).
- Only courses with a grade of C- or better will count in satisfying major requirements.
- The major GPA is calculated to include all courses that could be counted toward the major, including courses in which a grade below C- is earned. This includes courses taken in concentrations, tracks, education, and systems. Note that some majors require students to take some courses (including courses offered by other academic areas) which do not count in the major GPA.
- If a major course is normally taken for a letter grade (A-F), the course cannot be counted in the major if taken pass/fail.

- Fifty percent of the hours in the major field must be earned through Taylor University.
- A comprehensive examination, paper, or project in each major field of study must be successfully completed.
- Students must formal declare any addition or deletion of a major through the Office of the Registrar.
- Students must make application and receive approval from each academic area before adding concurrent majors.
- Students may not receive multiple majors in the same area.
- A maximum of 3 majors may be declared.

### Concentration

A concentration is an intensive study of a subject within a major field of study. At Taylor University, concentrations are specialized areas within the major field and include tracks, application fields, supporting areas, and areas of emphasis. There is a range of required hours determined by standards within the field, along with requirements established by the academic area.

### Minor

Minors are intended to complement the major or provide a greater breadth to liberal arts education. The minor normally consists of approximately 15 percent of the total hours required in an undergraduate curriculum and generally involves a course of study equivalent to about 40 percent of a major at Taylor University. The following requirements apply to the minor:

- A 2.30 GPA in the minor field is required.
- Only courses with a grade of C- or better will count in satisfying minor requirements.
- The minor GPA is calculated to include all courses that could be counted toward the minor, including courses in which a grade below C- is earned.
- Students may not receive major(s) and minor(s) in the same area.
- If a minor course is normally taken for a letter grade (A-F), the course cannot be counted in the minor if taken pass/fail.
- Fifty percent of the hours in the minor must be earned through Taylor University.
- Students must formal declare any addition or deletion of a minor through the Office of the Registrar.
- Students must make application and receive approval from each academic area before adding concurrent minors.
- A maximum of three minors may be declared.

# **Off-Campus/International Studies Programs**

### Jeff Miller, Director, Off-Campus Programs

One of Taylor University's objectives is to prepare students for a variety of professions on a foundation of appropriate academic experiences, cultural breadth, and Christian perspectives. Off-campus study programs challenge values and stimulate critical thinking, whether they take place in the United States or abroad. Many students return home from their off-campus experience with new perspectives, new questions, and a deeper hunger to learn more about their own society. In order to keep within its mission, Taylor University offers many opportunities for students to earn undergraduate credit for a semester, lanuary interterm, or summer in an environment of total academic and cultural immersion.

The following policies apply to off-campus/international studies programs:

- Applicants must have completed one semester in residence on campus prior to applying to any off-campus program, with the exception being programs specifically designed for a select group of students (e.g., freshmen, transfers).
- A minimum GPA of 2.75 is required for application to off-campus programs. Certain programs may require a higher GPA for participation.
- Students must maintain full-time status (12-17 hours) during off-campus program participation, except in the case where the program is specifically designed for 18 credit hours.
- Overload hours, independent study courses (offered by Taylor professors), and online distance learning courses are not permitted without prior approval during off-campus program semesters.
- All off-campus program courses must be taken for a grade-not pass/fail or audit.
- Upper-division and lower-division credit is attributed to the off-campus program course number or course-level standard. In most cases, course equivalencies are offered at the same level; however, there are exceptions: If a program's upper-division course is approved to meet a lower-division Taylor course, upper-division credit will be awarded; if a program's lower-division course is approved to meet an upper-division Taylor course, lower-division credit will be awarded.
- Grades from all approved off-campus programs listed below are considered to be credits through Taylor and will be attributed to the student's transcript and factored into the GPA.
- Within two weeks of the start of a semester, each student must provide the Department of Off-Campus Programs with a confirmed schedule for the semester along with syllabi for all enrolled courses.

Acceptance to off-campus study programs is two-fold and requires: (1) Taylor University approval; and (2) Program approval. In order to participate in any semester off-campus program, students must obtain approval from their academic advisors and the Offices of Off-Campus Programs, Student Accounts, Student Development, and the Registrar. Students interested in participating in off-campus/international studies programs should consult with the Department of Off-Campus Programs.

Since most off-campus programs are independent organizations or universities not operated by Taylor University, students should understand that not every course will fulfill a Taylor requirement, and due to international registration procedures some students may not receive every class for which they make a request. Applicability of credits earned while participating in an off-campus program to major, minor, foundational core, or general elective degree requirements are determined in advance (usually after Taylor University approval and acceptance by the program) in coordination with the appropriate department(s). Upon their return, students are responsible for any graduation requirements missed during their time off campus.

Billing for off-campus programs is facilitated through the student account of Taylor University based on the formula of: Taylor University tuition (or the program's, if higher); an off-campus study program fee; applicable on-campus fees including insurance coverage through CISI; plus the program's room, board, and other fees. If not included in whole or in part in the program's fees, travel to and from the off-campus study program is the responsibility of the student. Students approved and accepted to off-campus study programs attend several pre-departure orientation sessions in the semester prior to program participation. Topics covered include on-campus logistics (e.g., registration, housing), health and safety, cultural adjustment, and growing spiritual faith.

For additional information and a link to the online application, refer to the website at <u>http://www.taylor.edu/academics/study-abroad</u> or contact the Department of Off-Campus Programs (<u>OCP@TAYLOR.EDU</u>) in the Spencer Centre for Global Engagement.

### **American Studies Program**

The American Studies Program (ASP), located in Washington, D.C., is designed for juniors and seniors and is sponsored by the Council for Christian Colleges and Universities. ASP is an intensive Fall or Spring semester, blending seminars and hands-on internships. Creative internships are individually arranged to be pre-career work experiences to accommodate diverse majors or areas of interest. The curriculum allows students to choose either the Public Policy Initiatives Track or Strategic Communication Track. Students may earn 15-16 hours of credit through this interdisciplinary program.

#### ASP 305

#### Topics in Leadership and Vocation

The Topics in Leadership and Vocation course spans the entire semester and is divided into three sections including I) Identity and Responsibility, 2) The Centrality of Hope and God's Kingdom, and 3) Calling and Career. With respect to identity, personal narratives will be explored to find one's fullest expression and deepest sense of true place when we yield to God's calling (vocation) to embed who we are and what we do within the larger Biblical narrative. Responsibility will be examined in light of desire to live Biblically coherent lives. Properly deciphering personal responsibilities requires the hard work of using the Bible authentically and connecting knowing with doing. The role of narrative as a framework for analysis when unpacking critical questions will be used. Alternative worldview narratives are also considered in light of the biblical narrative. In particular, the modern Western culture's claim that we must personalize all normative concerns will be examined. Responsibilities are viewed as being shaped by the institutional settings (through roles and responsibilities) that normatively structure the places where we learn, work, play, and worship. The centrality of Hope and God's Kingdom is explored as motivations to be intentional actors of hopes is compared with obstructions or distractions from living Biblically coherent lives. Attention is given to view of hope as being justified and efforts not made in vain (in the reality of the Kingdom and Holy Spirit) amidst a fallen world marked by brokenness, disappointment, and suffering.

#### ASP 321

#### **Case Studies in Strategic Communication**

Students produce a portfolio comprising group and individual case-study findings, informational interviews, communications materials, and ethical reflections on strategic communication practices. The all-track case study investigates the role strategic communication—coordinating and measuring the impact of advertising direct response, fundraising and development, marketing, and public relations—plays in achieving organizational goals. Direct engagement with Washington, D.C. organizations and communication professionals helps students learn from experience how to differentiate between the practices of strategic, tactical, operational, and contingency plans. Each student produces a case study tied to his or her internship or another national or international organization. A concluding conference allows students to share and compare research findings across institutional types and sizes.

3 hours

#### **Public Policy Initiatives Track**

#### ASP 315

#### Public Policy Analysis Field Seminar

This seminar provides a detailed survey of the public policy issue of international migration. International migration refers to the movement-both emigration and immigration-of people across international borders. International migration patterns always carry important political implications for both the sending and receiving countries. Its study provides opportunity for learners to address critical questions pertaining to contemporary citizenship, democratic practice, equality, freedom, globalization, and liberalism. In this course, ASP faculty equips students through course lectures with the conceptual and analytical tools required to design a research agenda for a Washington, D.C. audience. Area experts and practitioners deliver professional briefings to introduce the myriad institutions and policy positions that animate three key public debates on migration-economics/social welfare, security, and national identity. Early in the course, students choose a salient topic within the issue area. The research proposal-the course's final project-presents a literature review on the migration topic, a preliminary assessment of how competing public arguments on the selected topic resonate you're your own (bourgeoning) understanding of what biblical justice requires in this matter, and a strategy for engaging leading institutions and individuals in Washington, D.C. through future field work.

3 hours

#### Strategic Communication Track

#### ASP 321

#### **Case Studies in Strategic Communication**

Students produce a portfolio comprising group and individual case-study findings, informational interviews, communications materials, and ethical reflections on strategic communication practices. The all-track case study investigates the role strategic communication—coordinating and measuring the impact of advertising, direct response, fundraising and development, marketing, and public relations— plays in achieving organizational goals. Direct engagement with Washington, D.C. organizations and communication professionals helps students learn from experience how to differentiate between the practices of strategic, tactical, operational, and contingency plans. Each student produces a case study tied to his or her internship or another national or international organization. #### ASP 322

#### Advocacy, Fundraising, and Development

Students work collaboratively in small teams for a real-world client to research and propose a communications strategy and an optimal target audience. This exercise in persuasive communication seeks to build constituent commitment to the client's mission, strategic initiatives, and fundraising activities. Consequently, communication objectives aim to achieve clearly specified and measurable educational, advocacy, and revenue goals. Students reflect on the ethical considerations in this work, and explain how biblical principles shaped their strategic and tactical decisions.

3 hours

#### ASP 330 Professional Mentorship

l hour

This optional course matches students with an experienced professional engaged in vocational service relevant to one's own vocational aspirations. Monthly group meetingsconsisting of 2 to 3 students sharing common professional interests-provide opportunities for you to explore further matters of both professional development and callings in your field. Meetings are structured, in part, around discussions a *Supplemental Mentorship Text*. The professional mentor selects the text, which is typically a novel or (auto) biography. The book serves as a basis of inquiry and insight into the challenges of weaving together our understandings of calling and career. Students submit a *Mentorship Write-Up* after each meeting which includes notes from and reflections on the meeting. The first meeting between mentor and student is organized by ASP, scheduled to take place within the first three weeks of the semester. Mentors will schedule all additional meetings.

#### ASP 390 Internship I

The American Studies Program internship is a service learning opportunity involving both action and reflection. The purpose of the course is to provide students opportunities to serve in the marketplace and to reflect on that work to deepen faith, facilitate learning, and know more fully how God is calling them.

4 hours

2 hours

### ASP 393

Internship II

The American Studies Program internship is a service learning opportunity involving both action and reflection. The purpose of the course is to provide students opportunities to serve in the marketplace and to reflect on that work to deepen faith, facilitate learning, and know more fully how God is calling them.

#### ASP 325 3 hours Advocacy and Diplomacy Field Seminar

The Public Policy Research Project supports the student-researcher to complete individual research projects from the Applied Politics and Public Policy Seminar and fashion empirical findings into an effective advocacy agenda. The advocacy component is designed as a group project. Students organize into a small research team tasked with the responsibility of providing policy recommendations that address three key areas of debate on immigration-economic/social welfare, security, and national identity. Research teams conduct personal interviews from among leading institutions and individuals in Washington, D.C., as well as attend area briefings, conferences, hearings, and other events related to the policy issue. Support of their domestic policy recommendations must include international sources. The final project requires each group to present an executive summary of their findings and recommendations in a mock Congressional briefing held in a Congressional office building. The executive summary should exhibit a mature policy analysis and advocate a position that connects its findings with the authors' shared understanding of the biblical themes of shalom and justice in public (i.e., non-sectarian) language.

#### ASP 322

### 3 hours

Advocacy, Fundraising, and Development Students work collaboratively in small teams for a real-world client to research and propose a communications strategy and an optimal target audience. This exercise in persuasive communication seeks to build constituent commitment to the client's mission, strategic initiatives, and fundraising activities. Consequently, communication objectives aim to achieve clearly specified and measurable educational, advocacy, and revenue goals. Students reflect on the ethical considerations in this work, and explain how biblical principles shaped their strategic and tactical decisions.

### AuSable Institute of Environmental Studies

Taylor's School of Natural and Applied Sciences is affiliated with the AuSable Trails Institute of Environmental Studies in Mancelona, Michigan. Students may take summer courses for credit at AuSable to fulfill major or minor requirements. Students may also complete requirements for certification as naturalists, environmental analysts, or land or water resources analysts; however, certification will not be reflected on the Taylor transcript.

### **China Semester Program**

CSP 102

The China Semester Program (CSP) is designed to give students extensive exposure to the history, culture, and people of China. The program consists of Chinese Mandarin language study, Chinese history/culture, Chinese calligraphy, and a focused study tour to other important sites and locations in China. Students live and study in Xi'an, the original capital of China and the final destination of the historic Silk Road. Travel in and around Xi'an will introduce the early history of China and travel to other major cities (Beijing, Shanghai, Guangzhou, etc.) will introduce the fast developing modern China. Requests for substitutions to the core CSP curriculum (e.g., reduced language study) will be considered on a case-by-case basis. In addition to the core curriculum, students may choose to stay in China for several weeks during the summer for an internship.practicum experience.

CSP 101 3 hours **CSP 250C** Chinese I This course in introductory Chinese focuses on acquiring survival fluency in spoken and written Chinese. The emphasis is on the spoken form of Mandarin Chinese, the national language of China. This course is only available as part of the China Semester Program.

Chinese II This course is designed to develop a student's competency in listening, speaking, reading, and writing the Chinese Mandarin language; the primary emphasis will be on listening and speaking. This course is only available as part of the China Semester Program. Prerequisite: CHI 101 or CSP 101.

4 hours

CSP 201	3 hours			
Intermediate Chinese I				
See CSP 102. Prerequisite: CHI	102 or CSP 102.			

**CSP 202** 3 hours Intermediate Chinese II See CSP 102. Prerequisite: CHI 201 or CSP 201.

I hour Chinese Calligraphy Long considered the highest art form in Chinese culture, this course is an introduction to the fundamentals of Chinese calligraphy for non-art students. Students will learn about the origin and construction of Chinese characters, the significance of calligraphy in Chinese culture, and the primary styles of Chinese calligraphy. Students will work under a Chinese calligraphy teacher to develop technique and produce calligraphy. Offered in the China Semester Abroad program and meets the Foundational Core Participation in the Arts requirement. CSP 310 3 hours

**Chinese History and Culture** 

A course designed to acquaint students thoroughly with the Chinese worldviews, political system, religious situation and philosophy through Chinese history from the earliest era to the end of Qing Dynasty, and deepen the understanding of modern Chinese society. Offered in the China Semester Abroad program and meets the Foundational Core History requirement.

CSP 381 China Study Tour 3 hours

Students will travel to several destinations within mainland China and Hong Kong to observe cultural and economic activity in one of the world's fastest-transitioning economies. They will visit companies, interact with Chinese students, and observe cultural differences. In addition, they will have the opportunity to share what is possibly America's most sought-after commodity-English language competency. Offered in the China Semester Abroad program and meets a Cross Cultural requirement. This course is only available as part of the China Semester Program.

### Christian College Consortium

The Christian College Consortium's Student Visitor Program is designed to enrich the participant's educational experience by making the resources of other Consortium colleges available as part of the undergraduate program. Through the Student Visitor Program, one semester or its equivalent can be spent on one of the Consortium campuses without completing lengthy enrollment forms. Credits with grades are transferable to Taylor. Consortium Colleges include: Asbury College, Bethel University, George Fox University, Gordon College, Greenville College, Houghton College, Malone University, Messiah College, Seattle Pacific University, Taylor University, Trinity International University, Westmont College, and Wheaton College.

Until official transcripts are received, students will be enrolled in the following course:

VIS xxx 17 hours Consortium Visitor

#### **Contemporary Music Center**

The Contemporary Music Center, a subsidiary of Greenville University, located in Nashville, Tennessee, provides a curriculum and community designed to speak to the heads, hearts, and souls of young musicians and aspiring music executives. In addition to seminars, lectures, and practicum experiences, great attention is given to the actual creation and marketing of original music. Designed as an artists' community, the program seeks to develop artists and music executives with a Christ-centered vision for music content, production, and delivery.

In addition to core courses listed below, students select courses from the Artist Track, Business Track, or Technical Track to earn 16 hours of credit.

### **CMC 300**

commercial music.

## Faith. Music and Culture

The purpose of this course is to help students develop a Christian approach to the creation, marketing, and consumption of contemporary music. While engaging in studies of theory, history, and criticism, students explore the concept of culture and the nature of popular culture. Students examine popular art and music in

contemporary aesthetic, social, cultural, and industrial contexts, and explore the

issues involved in relating faith and worldview to the production and criticism of

3 hours

CMC 301

#### 3 hours Inside the Music Industry

Through readings, lectures, and seminars delivered by leading industry figures, the course will give up-to-the-minute insight into the inner workings of the music industry. Emphasis will be given to career possibilities and the gifts and skills required to succeed in each of the major areas. Students will gain an understanding of the structure and methodologies of a typical U.S. record company.

#### **CMC 302** I hour Practicum: Contemporary Music Center Tour

Each student will participate in an intensive week-long road trip to a major music market. Briefings, tours, and meetings will be arranged with leading record companies, artist management firms, booking agencies, recording studios, concert promoters, writers, producers, and artists in various cities.

50

#### Artist Track

### CMC 401

#### Studio Recording

Artists will work via both the classroom and lab with faculty, other students, and visiting experts to learn how to produce, record, mix, and edit recordings in a professional multi-track studio.

**CMC 407** 

### Audio Engineering

This course is designed to train students for entry-level positions as a live sound engineer / front-of-house or monitor engineer. Each engineer must be able to complete line and sound checks quickly and reliably, trouble shoot problems and understand console and system signal flow.

### **Ecuador Semester Program**

### **CMC 400**

**Essentials of Songwriting** 

Artists will receive classroom instruction, participate in directed study with staff, and work in collaboration with other students to develop their use of form, melody, harmony, rhythm, and lyric. Emphasis will be placed on the song as the vehicle for the artist's creative exploration and public communication.

3 hours

**CMC 405** 3 hours Advanced Media Marketing

Through classroom instruction and presentations by visiting industry experts, executive track students will become familiar with the role of packaging, retail point-of-purchase materials, publicity, advertising, radio and video promotion, and Internet marketing and tour support in the marketing and sale of recorded music. Students will develop comprehensive marketing plans for each semester's artist recordings.

**CMC 408** Concert Production 3 hours

This course is designed to train students for entry-level positions in live concert lighting. Students will manage power distribution, DMX control of lighting fixtures and ultimately the properties of light and dispersion that artfully blend to create alternate forms of reality.

The Ecuador semester program is a partnership with the Verbo Church and the Universidad del Azuay in Cuenca, Ecuador. This multi-disciplinary program incorporates culture and language study, program courses, and practicum experience in the students' respective areas of specialization. Academic areas currently participating in programs include Biology, Business, Christian Educational Ministries, and Exercise Science. The Ecuador program is a full immersion semester with students living in home-stays facilitated through the Verbo Church.

### Greece Study Tour

Biblical Studies, Christian Ministries, and Philosophy sponsors a 3-week trip to Greece and Italy or Greece and Turkey during January Interterm. The trip focuses on biblical developments of the New Testament era and includes visits to key biblical sites. Special emphasis is placed on the life and journeys of the apostle Paul.

#### **BIB 203**

#### In the Footsteps of Paul

A study of the biblical background and contemporary significance of cities Paul visited and wrote to in Greece and Turkey or Greece and Italy. This course may count for BIB 210 or a major or minor elective. Meets the foundational core cross-cultural requirement. Offered January interterm.

### Handong Global University

An articulation agreement with Handong Global University (HGU) allows Taylor University students with a minimum GPA of 3.30 an opportunity to spend a Fall or Spring semester studying in South Korea. While living in the International House dormitory alongside many English-speaking students with vastly different backgrounds, participants can earn 12 hours of course credit. This program may appeal especially to students in the areas of Engineering, TESOL, International Law, International Relations, Global Studies, Politics, and Business.

Until official transcripts are received, students will be enrolled in the following course:

3 hours

HGU xxx 12 hours

Study in Korea

### **HEART Program**

The HEART Program is offered during January interterm for those desiring to serve in developing third world countries. Students live and learn in a simulated third world village. Emphasis is on technical skill learning in agriculture (animals and horticulture), appropriate technology, cross-cultural communication and community development, nutrition/food preparation, and primary healthcare. Students receive three hours of cross-cultural credit for this program, which takes place at the Heart Institute in Lake Wales, Florida.

HEA 370 3 hours

Heart Institute Meets foundational core cross-cultural requirement. Offered January interterm.

### Hollywood Internship Program

Taylor's Film and Media Production program runs a semester-long immersion in the entertainment industry, called the Taylor University Hollywood Internship Program (TUHIP). This program is designed for exceptional junior and senior students majoring in Film and Media Production. The program consists of one or two internships in film or television, a course taught by qualified entertainment professionals in Los Angeles, extensive networking and attendance at industry events, and opportunities for mentoring and reflection about living as a Christian in Hollywood.

**FMP 493** 

Internship

**FMP 365** 3 hours Inside the Entertainment Industry

Hong Kong Baptist University

A consortium agreement with Hong Kong Baptist University (HKBU) allows junior and senior students at Taylor University an opportunity to spend a Fall or Spring semester studying at HKBU in the People's Republic of China. While living in campus dormitories with Chinese students, participants can earn 12-17 hours of course credit in classes taught in English. Premier programs include business, music, journalism, physical science, social sciences, English-Chinese translation, and the humanities. Until official transcripts are received, students will be enrolled in the following course:

HKB xxx Study in Hong Kong

### **Irish Studies Program**

The Irish Studies Program of Taylor University is designed to help students expand cultural and spiritual awareness by studying and experiencing the history and culture of Ireland. With an emphasis on the integration of faith, learning, and living, the program seeks to develop an understanding of Ireland and its people through curricular and co-curricular activities. Students earn 16-17 hours of credit. Located outside the capital city of Dublin, the program provides students with a safe and pleasant community.

**ISP 200** 

Hill Climbing

This course is designed to introduce students to a variety of basic techniques and principles necessary for a safe and enjoyable hiking experience, as well as to promote lifelong activity that aids in developing a healthy lifestyle. Particular areas of content include gear selection, basic land navigation skills, hiking technique, trip planning, "Leave No Trace" ethic, and first aid. Students complete a variety of reading assignments and keep a journal of their hiking experiences. Prerequisite: EXS 111, KIN 100, or KIN 221. Meets a foundational core requirement.

I hour

17 hours

#### **ISP 220**

**ISP 225** 

### **Contemporary Ireland**

3 hours

This course entails an investigation into the theory and application of contemporary Irish society. It includes a study of the geographic, social, cultural, political, artistic and religious aspects of Ireland. Attention will also be paid to an understanding of historical conflict and reconciliation, especially as it is currently being played out in Northern Ireland, and its effects on the people in the Republic. Exploration of these topics occurs through involvement with Irish people, engagement in cultural activities, studying the history, culture, geography and literature of Ireland, conversations with one another and personal journaling. Meets the foundational core civic engagement requirement.

History of Ireland

#### 3 hours

This course deals with the different people who became permanent settlers in Ireland over the centuries and the contribution that each has made to the development of an Irish society and economy, as well as a distinctive Irish artistic and political life. The early lectures consider the Celts, Vikings and Anglo-Normans, but the principal focus is on the modern centuries, with a detailed treatment of English and Scottish Protestant settlements in Ireland and the interaction of these settlers and their descendants with the Catholic population. Special attention is given to the major conflicts that occurred, especially those of 1642-52, the 1790s, and the current conflict in Northern Ireland. Finally, consideration is given to the Anglo-Irish War of Independence and the Irish Civil War. Meets the foundational core history requirement. History majors who have already fulfilled the foundational core requirement may take the course for upper-division credit, by approval of the instructor.

#### **ISP 230** Irish Literature

3 hours

12-13 hours

This course concentrates upon literature written by Irish writers within Irish contexts and landscapes-intellectual and emotional when not physical. Assignments exploit unique opportunities available while studying in Ireland itself, adjacent to England. More complicated is the colonial influence upon Ireland, the island's currently divided space, "the troubles," and the connection between high art and popular expression. Thus, a focus of the course will be how the search for a literary voice not only parallels, but indeed facilitates the search for a national Irish identity. Acknowledging writers' interest in Gaelic language and culture, students read works in English. Noting the role of musical performances in pubs and the rhetoric of the public sphere, the course concentrates upon fiction, poetry, and drama. Meets the foundational core literature requirement. English majors who have already fulfilled the foundational core requirement may take the course for upper-division credit, by approval of the instructor.

### **ISP 250**

I hour Participation in the Arts This course introduces the student to part of the Irish cultural heritage through dance and

music. Students learn the basics of Irish dancing and playing the bodhran drum. Meets the foundational core participation in the arts requirement.

#### ISP 320 2 hours Living Cross Culturally

This course helps students reflect on their values, attitudes and behaviors and those of their home culture in comparison to the Irish culture. Students are encouraged to develop understanding of and adaptation to a different culture, as well as empathize with persons from that culture. Personal development through this process is emphasized. Meets the foundational core cross-cultural requirement.

**ISP 325** 3 hours History of Ireland See ISP 225. **ISP 330** 4 hours Irish Literature See ISP 230.

#### **ISP 350**

#### 3 hours History and Culture of Ireland

Students are introduced to Irish culture, history, society, and modern Ireland. Students are encouraged to develop understanding of and adaptation to a different culture as well as empathize with persons from that culture.

3 hours

#### **ISP 355** Celtic Christianity

A survey of Christian belief as developed during the history of the Church, with a special focus on Medieval Christianity in Ireland. Meets the foundational core requirement of REL 313.

52

#### International Business Study Tour

Business sponsors this business study tour during January interterm or in the summer. Students visit various international sites and use these locations as their classroom to study trade, economics, and other business topics.

### ITB 381 3-4 hours

International Business Study Tour This study tour of selected international locations focuses on regional trade, economics, and other business topics. Issues of cultural differences, conflicts, compromises, and international cooperation are examined. Throughout, the cultural dimension of international business dealings is emphasized. Instructor permission required. Prerequisites: MKT 231; ECO 202 or 190; and sophomore standing within a business major/minor. Offered January interterm or Summer.

### Jerusalem University College

Jerusalem University College (JUC) offers an opportunity for Fall or Spring semester studies in the ancient city of Jerusalem. A choice of several course offerings is available, particularly in the area of Biblical and International Studies. Students have the opportunity to study Scripture in context, view biblical sites, understand the Arab-Israeli conflict, and experience modern and ancient cultures. This program provides a basic understanding of the land and people of the Bible and of the Middle East. Availability of the program is dependent upon review of current security conditions. Until official transcripts are received, students will be enrolled in the following course:

JUC xxx Holy Land Studies/Israel

### -

### LCC International University

LCC International University, formerly Lithuania Christian College, is located in the beautiful port city of Klaipeda, Lithuania. This one-semester program is available during the Fall or Spring semester. Students live in an urban European setting with roommates from throughout Europe, and study with students from over 20 countries. The semester includes programmed travel to Russia, Latvia, Estonia, and various sites in Lithuania.

The program allows Taylor students to enroll in 12-17 credit hours of university courses, including subjects in business, English, psychology, sociology, and biblical studies. A wide variety of courses fulfilling foundational core requirements are also available.

Until official transcripts are received, students will be enrolled in the following course:

17 hours

LCC xxx I7 hours LCC International University

#### **Lighthouse Projects**

Since 1972 the Lighthouse program has been engaging students in carefully chosen international service-learning projects as they minister Christ's redemptive love and truth to a world in need. The program enables students to step out of the familiar in faith, study and build relationships in other cultures, develop and exercise their gifts and abilities, expand their global perspective, and explore vocational calling. As servant learners, teams partner with on-field ministries helping to implement their long-term ministry goals. Teams are selected in the spring for service projects the following January.

During the Fall, students take a one-credit-hour course in cross-cultural ministry and team building. In January, students earn three cross-cultural credits while engaging in work projects, compassionate ministries, community development, teaching English, performing arts, medical missions, evangelism, discipleship, and other ministries under the direction of faculty sponsors and field leaders. Lighthouse is a ministry of Taylor World Outreach; refer to the **Taylor World Outreach** in the Student Development section of this catalog.

#### IAS 120

#### Introduction to International Ministry

To prepare for Lighthouse projects, students study the concept of culture, American cultural distinctives, and the cultural, religious, and historical characteristics of Lighthouse host nations. Students examine the components of effective intercultural ministry and communicating faith in Christ cross-culturally. Attention is given to personal character, spiritual life, commitment and teamwork essential for effective service. *Enrollment by permission of instructor. Grade only. Offered Fall semester.* 

I hour

IAS 320 3 hours Cross-Cultural Outreach

Students are immersed in another culture and provide needed service to gain crosscultural understanding, interpersonal and skill development and spiritual growth. Emphasis is given to reflection on God's global purposes, intercultural relationships and life stewardship. Prerequisite: IAS 120 or permission of instructor. Meets foundational core cross-cultural requirement. Offered January interterm.

#### Literary London

A study of literature and culture is offered in England annually by English during January interterm. Students may receive credit in foundational core, literature, or cross-cultural studies. The group focuses its activities in central London with field trips to surrounding areas such as Stratford-upon-Avon, Canterbury, Oxford, Dover, and Salisbury. Students are encouraged to attend plays and musicals and to participate in British life.

ENG 233 Literary London

An annual January-term course that travels to London and elsewhere in the United Kingdom, enriching the reading and discussion of assigned works of British Literature by experiencing the locations and culture that helped shape those works. Meets foundational core literature requirement. Enrollment with permission of instructor. Offered January interterm.

3 hours

### Middle East Studies Program

The Council for Christian Colleges and Universities sponsors a Middle East Studies Program (MESP) currently located in Amman, Jordan. Junior and senior students are exposed to the vast resources of the region during the 15-week Fall or Spring semester. Students are exposed to the complex issues behind regional conflict, gain an awareness of the people and culture of the Middle East, and are educated on the global dimension of the Islamic faith. The program may include travel to Egypt, Israel/Palestine, Lebanon, Morocco, Spain, Tunisia, or Turkey, dependent upon regional conditions. Involvement in a local service project is an important component of the program. Availability of the program is dependent upon review of current security conditions.

#### **MES 100**

### Introduction to Arabic Language

This course helps students acquire basic skills in Arabic. The course emphasizes the practical use of the language, encouraging interaction with the locals through assignments and service projects. Students are provided with solid introduction to the colloquial grammar and a substantial vocabulary as students take more than 50 hours of instruction.

4 hours

#### **MES 310**

4 hours People and Cultures of the Middle East

This course seeks to acquaint students to the variety of peoples and cultures found in the Middle East. Literature, music, dance, and food are integrated into the learning experience. Students also learn about pressing issues, from gender to war to economic development, that currently animate the many religious and political communities they visit. The course examines the basic structure of historical and contemporary societies and cultures with special emphasis on those found in Egypt, Jordan, Syria, and Turkey.

#### **MES 312** 4 hours

Conflict and Change in the Middle East

The purpose of this course is to help students understand the historical, political and religious transformations that have occurred in the last century. The Arab-Israeli conflict will receive special emphasis with the goal of helping students understand the complexity of the issues surrounding the current attempts to establish a lasting peace. The course includes an extended travel component throughout the region.

#### **MES 322** 4 hours **Islamic Thought and Practice**

An emphasis on contemporary expressions of Islam in the Middle East.

This course examines many dimensions of Islamic faith-historical, legal, doctrinal, popular, and behavioral-from early times to the present. While emphasis is on the early period and its influence on latter events and people, it also attempts to relate these early developments to contemporary issues in the Middle East like the impact of colonialism, gender equality, modernization, development, and democracy.

#### **Orvieto Semester**

The Orvieto Semester through Gordon College takes an "interdisciplinary approach to the study of art, art history, history, and theology" in the historic and picturesque setting of Orvieto, Italy.

All students take an introductory course (Disegno in Orvieto) that uses drawing to introduce the themes of the entire program. Students then select three among a set of courses offered in the visual arts and humanities. In addition, students with no background in the Italian language will be expected to take a 2credit tutorial-based course in Italian Language Studies. Students earn up to 18 hours of course credit.

Until official transcripts are received, students will be enrolled in the following course:

ORV xxx 18 hours Study in Orvieto, Italy

#### **Oxford Study Program**

The Taylor Oxford Study Program offers an alternative approach to major study during January interterm. Learning is facilitated by a tutorial method at England's Oxford University. The program consists of various group meetings to assimilate British culture. Each Taylor student meets weekly with an Oxford tutor on a topic of the student's choice for Taylor credit. Students are hosted in homes of British church families.

**OSP 370** 3 hours **Oxford Special Topics** 

### Scholars' Semester in Oxford

The Scholars' Semester in Oxford (SSO) is a partnership with the Council for Christian Colleges and Universities. SSO presents an opportunity to learn about literature, the classics, history, theology, philosophy, and more in this city dedicated to scholarship. Through work with academic tutors, students hone their skills and delve into the areas that interest them most. As a visiting student of Oxford University, participants earn 17 credit hours as a member of Wycliffe Hall. Due to Oxford's intense academic environment, a minimum GPA of 3.70 is required.

#### **SSO 300**

4 hours

The British Landscape Students study how the British landscape was formed and reformed by societies which successively conquered and settled in it, looking at the dialectic relationship between culture (the economic, social, intellectual, religious, and artistic aspects of each group) and landscape (the natural landscape and the human imprint on that landscape). The aim is to enable students to 'read' and understand a long settled landscape through a sound knowledge of British culture, past and present. SSO recommends that credit be allocated in one or more of several disciplines, including literature, religion, philosophy, politics, history, and history of art.

#### SSO 310

#### 4 hours Undergraduate Research Seminar

Students follow the research seminar most appropriate to their primary tutorial subject. Students attend 16 University seminar discussion classes which address methodological questions in the students' subject area, and consultations to help in planning and writing a substantial term paper. The course is graded by a long essay and a proposal for that essay, and participation. Seminars are available in Classics, English, History, Philosophy, and Theology.

#### SSO 320 **Primary Tutorial**

### 6 hours

3 hours

This course, chosen in the same field of study as the integrative seminar, is typically one-on-one, supplemented by Oxford faculty lectures. The tutorial is usually based on the presentation of one short essay responding to an assigned question, and is carried out as a conversation between the tutor and the student. Offered tutorials cover a range of topics.

### SSO 330 Secondary Tutorial

Similar in structure to the primary tutorial, the secondary tutorial covers a different subject matter. Tutorials offered in a broad range of topics.

#### Semester in Spain

The Semester in Spain program is offered through Trinity Christian College. Students earn up to 16 hours of credit while studying with faculty members who are natives of Spain. Living with families in Seville also enhances language and cultural understanding. The city's theatres, galleries, museums, and 400-year-old university provide many opportunities for cultural activities. Students also visit Córdoba, Toledo, Granada, and the small pueblos outside Seville. All courses are taught in Spanish. Until official transcripts are received, students will be enrolled in the following course:

SIS xxx Study in Spain 17 hours

### **Uganda Studies Program**

The Uganda Studies Program (USP) is a partnership with Uganda Christian University (UCU) and is set on the outskirts of the capital city Kampala. Courses taught by local faculty in the English tutorial tradition immerse students in a uniquely African education. Topics such as African Literature, East African Politics since Independence, Understanding Worldviews, East African History from 1800 to Independence, Law and Christian Political Thought, Kiswahili, and Understanding the New Testament in Africa will present many insights into African life because of the guidance of faculty who live in and love Uganda and East Africa. Home stays, travel, service learning, and daily interaction with UCU students form the backbone of the USP experience. Students apply to the Uganda Studies Emphasis (USE) or the Social Work Emphasis (SWE). In addition to the core experiential course, students will choose from an approved selection of courses from the UCU Honours College to earn up to 16 hours of credit.

Until official transcripts are received, students will be enrolled in the following course:

15 hours

USP xxx I6 hours Study in Uganda In addition to the core course listed below, students select courses from the Uganda Studies Emphasis (USE) or Social Work Emphasis (SWE).	USP 300 4 hours Faith and Action in the Ugandan Context This course combines a traditional classroom component (consisting of reading, discussion, small group processing, and lecture) with a broad spectrum of experiential learning (e.g., living and studying with Ugandan students; home stays with Ugandan families; travel to various regions of Uganda and Rwanda; and exposure to both missionaries and Ugandans involved in various social services).

### York St. John University

Separated from the York Minister by the most complete example of medieval city walls still standing in England, York St. John University welcomes students from over 100 countries around the world. Approved as a 2-year pilot program, students must have approval of their major or minor in order to apply. Approved students will enroll in 3 modules, equivalent to 5 credit hours each. Students have the option of living in on-campus housing at Lord Mayor's Walk, or off-campus at the self-catered Grange (a short walk away). Spring semester only. Courses taken do not count towards an English major or minor. Until official transcripts are received, students will be enrolled in the following course:

YSJ xxx Study in York

55

### **English/Writing Proficiency and Requirements**

### Writing Placement

In order to ensure writing success at Taylor, all students will place into the freshman writing course that best meets their needs as college writers: ENG 101 Fundamentals of College Composition or ENG 110 College Composition.

The writing placement is determined by using SAT Critical Reading or ACT English test scores and the high school GPA for most students. Students whose combined scores are high will be placed into ENG 110 (unless they choose to attempt CLEP or AP credit); students whose combined scores are not high will be placed into ENG 101. English-speaking international students (including missionary kids and other third-culture kids) who place into ENG 101 but would prefer to take the special section for multilingual students are welcome to do so since it will focus on American academic writing and reading preparation). Any international student who is placed into ENG 110 but does not pass the reading proficiency will be placed into AEC 140, the academic reading course.

After receiving his or her placement, if a student believes that he or she has been placed into the wrong writing course—either at too high or too low of a level—the student should contact the Advising Office. The student will be given an online writing test to complete. Then, the department chair of English and Modern Language will evaluate this writing sample, along with the SAT/ACT test scores and high school GPA in order to determine if the writing placement should be changed. The student will receive an email within two weeks of completing the writing test notifying him or her of the final writing placement. In order to have the writing placement altered, the writing test should be completed by August 1. Following August 1, it is unlikely any placements can be altered.

Students who do not have SAT/ACT scores must also complete a writing test to help determine writing placement. Placement will be decided based on the writing test and the high school GPA. Students should contact the Advising Office to receive the writing test.

### Writing Requirements

Taylor University believes that writing plays a significant role in both learning and communication; thus, Taylor has several writing requirements. First, all students must meet ENG 110 College Composition in their first year at Taylor. Some students must complete ENG 101 Fundamentals of College Composition (Fall semester) prior to College Composition (Spring semester). These writing courses set the foundation for the collegelevel writing that will be expected at Taylor. Second, a large number of Taylor's foundational core courses incorporate writing in some way, from short in-class writing to research papers. Third, every student will experience a substantial amount of writing in their major, most of which will be discipline-specific writing to prepare students for the kind of writing they will need in their careers. All students, both first-time freshmen and transfer students, are expected to complete ENG 110 College Composition by the end of their first year.

### Transfer Credit for ENG 110

Writing courses transferred from other institutions to meet ENG 110 must represent the total writing requirement at that college or university (the last course in a sequence if more than one semester is offered). The course should include process writing, finished essays, and a research paper. The Registrar's Office (in consultation with the Department of English and Modern Language) must approve transfer courses.

### AP Credit for ENG 110

An AP score of 4 on the AP English Language Composition exam or AP English Literature Composition exam qualifies for ENG 110 College Composition credit.

### CLEP Credit for ENG 110

Students wishing to attempt CLEP credit must have scores at or above 35 in SAT Reading (taken after March 2016), 660 in SAT Critical Reading (taken prior to March 2016), 27 in ACT English, or 60 on the CLT Verbal Reasoning and Grammer Writing. A scaled score of 50 or higher on the CLEP College Composition Modular exam qualifies a student to write an essay evaluated by the Department of English and Modern Language. The CLEP exam must be taken and passed by October 15 for students entering in the Fall semester and March 15 for students entering in the Spring semester. Students not completing all requirements by the appropriate date must register for ENG 110 in their second semester at Taylor.

If the AP or CLEP exam for ENG 110 College Composition is passed and approved by the Office of Academic Assessment, the fee for posting credit to the transcript must be paid by November 1, for those entering in the Fall semester, and April 1, for those entering in the Spring semester. Students are solely responsible for verifying that their scores are received in the Office of Academic Assessment.

### **Reading and Math Proficiencies**

All students, including first-time freshmen and transfer students, must demonstrate proficiency in reading and mathematics. The main purpose of these proficiency requirements is to ensure that all students are prepared to successfully complete coursework at Taylor and is a requirement for graduation. Proficiency tests are administered at student orientations during the summer, Welcome Weekend, and the first week of the Fall and Spring semesters.

All students must fulfill the reading and math proficiency requirements according to the following guidelines:

### Reading

Students with an SAT Reading score of 29 or above taken after March 2016, SAT Critical Reading score of 540 or above taken prior to March 2016, ACT English score of 23 or above, or combined CLT Verbal Reasoning and Grammar/Writing scores of 55 or above are considered to have met the reading proficiency requirement.

Students without a sufficient SAT/ACT/CLT score will be registered for AEC 140 Academic Reading. Students will have the opportunity to test out of AEC 140 during Summer Orientation or Welcome Weekend by passing the reading proficiency exam with a score of at least 13.0. Students can satisfy the reading proficiency by completing AEC 140 with a grade of C- or better; no other course, including Taylor and transfer credit, will meet the reading proficiency requirement.

### Math

Students with an SAT math score of 570 or above taken after March 2016, SAT math score of 550 or above taken prior to March 2016, ACT math score of 24 or above, or CLT Quantitative Reasoning score of 21 or above are considered to have met the math proficiency requirement.

Students without sufficient SAT/ACT/CLT scores are required to attain a passing score on the math proficiency exam. Beginning Fall 2020, students must earn a score of at least 22 on the KYOTE proficiency exam. Students in this group who do not pass the proficiency exam will be enrolled in MAT 100 Mathematics Fundamentals. Failure to pass the exam as part of the course will require re-enrollment in MAT 100 for the following term.

No math course, including Taylor and transfer credit, will meet the math proficiency requirement.

# **Taylor University Online**

### Carrie Meyer, Director Noelle Brennan, Program Manager Leah Kimbrell, Program Manager Cassie Lemberg, Marketing and Communications Manager

Taylor University Online provides quality Christian higher education using innovative methods. With roots in the 1930s, TU Online has since grown to offer over 110 courses and several programs. The online delivery format is flexible and convenient. Policies included in this catalog are generally applicable to all students; however, some policies may not apply specifically or identically to TUO students and the advisor should be contacted for clarification for any policy in question.

For additional information on Taylor University Online, visit https://www.taylor.edu/online/.

### **Contact Information**

Professors should respond to students within 48 hours via the student email address listed in Blackboard.

Students are responsible for checking email accounts regularly and complying with correspondence from University administrators, advisors, faculty, and staff. Students must notify TUO when a name, address, phone, or email change occurs.

Taylor University Online may be contacted via email at <u>online@taylor.edu</u> to assist students with areas such as course and program enrollment, financial matters, academic concerns, and advisement.

#### **Course Format**

In order to offer the utmost in flexibility, the ISO (Independent Study Online) format is used. Courses are facilitated through Blackboard, an online management system, which stores all of the course information including the syllabus, instructor information, assignments, quizzes, etc. Blackboard is accessed through myTaylor, a password-protected website for Taylor students. An emphasis is placed on use of interactive electronic resources and interaction between instructor and student.

In-term program students, including all students receiving financial aid, complete the ISO courses within the specific term dates. Students have specific due dates for each assignment.

Guest and out-of-term program students enjoy open enrollment which allows registration on any business day. Students may work at their own pace—there are no specific due dates for each assignment—and have up to four months to complete the course.

### Drop or Withdraw From a Course

The refund schedule and transcript ramifications for guest and out-of-term students who withdraw from a course are as follows:

- Withdraw within 7 days of registration: 100% refund and course does not appear on the transcript.
- Withdraw between 8 to 28 days of registration: 75% refund and course appears as a "W" on the transcript.
- Withdraw between 29 days of registration and the original course due date: 0% refund and course appears as a "W" on the transcript.
- Withdraw during the extension period: 0% refund and course appears as a "WF" on the transcript.

To request to be withdrawn, contact the Taylor University Online office at <u>online@taylor.edu</u> or call I-800-845-3149. The date the request is submitted will be honored as the withdrawal date.

#### Grades and Transcript

Grades earned through TUO affect the cumulative GPA and are included on the student's transcript along with all courses taken through Taylor. All final grades (e.g., A-F, WF), excluding a grade of W, affect the cumulative GPA.

For information on requesting a transcript, please refer to Transcript of Academic Record in the Academic Policies and Regulations section of this catalog.

### Registration

Program students and out-of-term students should follow the admissions application and pre-registration processes described in the Admissions and Registration sections of this catalog.

Guest students should create a student account through the "Enroll Now" link on the website.

Residential students who intend to register for a TUO course are required to complete the TUO course approval form and obtain signatures of the student's advisor as well as the department chair of the course to be taken. The form should be submitted to the Office of the Registrar for review and approval by the Registrar. Upon approval, the student is notified to contact TUO for course registration and payment. Courses taken through TUO are not considered part of the academic load for enrollment verification, tuition, or financial aid. TUO course approval forms are available online at <a href="https://www.taylor.edu/offices/registrar/forms">https://www.taylor.edu/offices/registrar/forms</a>. No more than 16 hours of distance learning, including TUO coursework, may be taken to fulfill degree requirements for residential students; courses included in the regular schedule of classes as offered online during Fall, Spring, and Summer terms do not count toward this limit.

Students on institutional academic probation are not permitted to register for courses through TUO unless repeating a course. No academically suspended student may be enrolled in any Taylor courses, including those offered by TUO.

### **Course Information**

Lower-division courses typically numbered at the 100 and 200 levels are introductory and foundational courses designed for freshman and sophomore level students. Upper-division courses numbered at the 300 and 400 levels build upon higher knowledge and principles and usually require junior or senior classification to demonstrate an advanced level of independence, writing ability, and critical thinking skills in learning difficult content material within various academic disciplines.

Some curricular courses or course components listed in this catalog include physical or off-campus activities for which students must sign a waiver of liability as a precondition of participation.

Course offerings (including changes in time, day, and the assignment of instructors) may be added to, amended, or canceled by the decision of a department or the University.

Certain courses in the course schedules or transcripts have additional attributes added to the course title or number. "IS" indicates the course is taken as an independent study; "SL" is added to courses designated as service learning; "SP" indicates the course section includes a speaking component and meets one of two required by the foundational core curriculum; "CC" indicates the course section includes a cross-cultural component and meets the foundational core curriculum requirement; "Hon" added to the end of the course title or "H" added to the end of the course number designates the course as an honors section.

Additional courses offered through Taylor University are listed under the Academic Enrichment Center, English as a Second Language, Off-Campus Programs, and Student Development sections of this catalog.

The following courses are offered in many academic areas with descriptions for these courses being the same for all, but carrying different prefixes and applicable pre-requisites. Registration forms are available online at <u>https://www.taylor.edu/offices/registrar/forms</u>.

### Anthropology and Sociology

Sociology and anthropology offer important and distinct ways of seeing the world that enhances the skills of the intellect. Sociology and anthropology help students be aware of the impact of social experiences, conditions, and opportunities by incorporating a consciousness of history, the significance of culture, and the impact of the social structure or institutions on social life. Sociology enables students to acknowledge the social forces and factors affecting their own private lives and enhances a better understanding of complex social and cultural issues. Anthropology helps students understand the complexity of cultures across all of human history and draws and builds upon knowledge from the social and biological sciences as well as the humanities and physical sciences. A central concern of anthropologists is the application of knowledge to the solution of human problems. Sociology and anthropology encourage efforts to minister the redemptive love of Christ by recognizing the complexities of international, national, and local issues and situations, and recognize how culture and the social structure affect the way people live and understand the gospel. Moreover, sociology and anthropology encourage students to engage in action that promotes global responsibility, fosters healing, and restores human dignity.

Based on national trends, a combined anthropology and sociology major is excellent preparation for future graduate work in anthropology or sociology in order to become a professor, researcher, or applied anthropologist/sociologist. The undergraduate degree provides a strong liberal arts preparation for entry-level positions, including business, social/human services, archaeology, cultural resource management, historic preservation, community development, human rights/social justice advocacy, tourism/heritage, missions/missiology, non-profits/NGOs, and government/public service careers. Moreover, many students choose anthropology and sociology because they see it as a broad liberal arts base for professions such as law, education, medicine, social work, counseling, and missiology/missions.

### Anthropology and Sociology (BA)

The Bachelor of Arts degree with a major in Anthropology and Sociology requires two years of one foreign language and 41 hours in the major. All major courses must be completed with a grade of C- or better and are included in the major GPA.

#### Major Requirements

Major Requirements	Select one course from the following:					
ANT 200 3 Cultural Anthropology	ANT 300 3 Qualitative Research Methods					
SOC 100 3 Introduction to Sociology	SOC 350 3 Social Research Methods					
SOC 250 2 Principles of Research and Analysis	SOC 355 3 Applied Social Statistics

### Anthropology Minor

The Anthropology minor requires 18 hours. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

### **Minor Requirements**

ANT 200 3 Cultural Anthropology

Select 15 additional credits of anthropology courses

### Sociology Minor

The Sociology minor requires 20 hours. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

### **Minor Requirements**

SOC 100 Introduction to Sociology 3 SOC 250 2 Principles of Research and Analysis Select one course from the following: SOC 361 History of Social Thought SOC 365 Contemporary Social Thought

Electives Select 12 hours of sociology electives.

## Social Work

Social work is one of the major human service professions focused on enhancing the social functioning of individuals, families, groups, organizations and communities. Services are provided to all people with particular emphasis on disadvantaged populations. A variety of practice settings, including hospitals, family and children's service agencies, schools, residential facilities, healthcare facilities, home-based services, business and industry, mental health agencies and developmental disabilities agencies are used as service learning experiences.

The goals of the Taylor Social Work program are to: (1) prepare baccalaureate level social workers for beginning-level generalist practice including formal and informal lifelong learning; (2) integrate Christian values with professional values to challenge worldviews, personal beliefs and societal constructs; and (3) to globalize student perspectives and sensitize circles of influence to issues and experiences of diverse, vulnerable and marginalized population groups in an effort to advance social justice. The Social Work curriculum includes five content areas: human behavior and the social environment, practice, policy, research, and field instruction.

Taylor's Social Work program is accredited by the Council on Social Work Education (CSWE) and offers a Bachelor of Arts (includes language requirement) or Bachelor of Science degree in Social Work. Graduates are prepared to apply for state credentialing (licensure, certification, or registration) as a beginning-level social work practitioner in most states.

The formal admission process occurs as a part of the junior evaluation. This is a process in which faculty and each student sit down for a formal interview to discuss the level of learning as well as fit into the profession of social work and understanding of self. Students will be in progress or have completed:

- 30 volunteer hours
- SWK 200: Explorations in Social Work
- SWK 225: Diversity and the Disenfranchised
- SWK 351: Social Work Process and Practice I
- SWK 393: Junior Practicum or SWK 395: International Practicum

Attainment of a minimum 2.50 major GPA is required for the Social Work major.

### Social Work (BA or BS)

The Bachelor of Arts and Bachelor of Science degrees are offered in Social Work. Students considering work in areas that are bilingual are encouraged to take appropriate language courses. The Bachelor of Arts degree requires two years of one foreign language. Students in the Social Work major are expected to complete a minimum of 75 major hours. All major courses must be completed with a grade of C- or better and are included in the major GPA.

#### Human Services (AA) – Taylor University Online

The Associate of Arts with a major in Human Services requires 17 hours in the major and 48 hours in foundational core. This degree blends the disciplines of social work and psychology. Upon completion, students may apply to Taylor University residential program to seamlessly transition to campus to complete a Bachelor of Science degree in Social Work in two additional years. All major courses must be completed with a grade of C- or better and are included in the major GPA. This program is only offered through Taylor University Online and residential students are not eligible.

### Anthropology Courses

#### **ANT 170**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **ANT 200**

Cultural Anthropology

An introduction to the principles of cultural anthropology, including the analysis of major anthropological theories and concepts and an examination of social institutional arrangements in small-scale societies. Meets foundational core civic engagement or general social science requirement.

I-4 hours

3 hours

3 hours

I-4 hours

#### **ANT 270**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **ANT 280**

#### Anthropology of Study Abroad, Short-term Mission, and Tourism

The recent explosion of global travel for relatively short periods brings travelers into transient contact with people in different places. Such travel may have educational, recreational, religious, or service goals. Through anthropological readings, this course examines the nature of the intercultural encounters experienced on these trips, the motivations and outcomes of these trips for both travelers and hosts, and considers a wide variety of related dynamics. Students will be coached in engaging in research on course-related themes or in conducting research in preparation for their own upcoming global trip. Meets foundational core cross-cultural requirement; and civic engagement or general social science requirement.

#### **ANT 300** 3 hours

**Oualitative Research Methods** 

This course is designed to teach students how to collect, analyze, and write up qualitative data. Topics include conducting and coding field notes, interviewing, participant-observation, discourse analysis, as well as the ethical treatment of human subjects and the ethical code for anthropological research.

#### ANT 315 3 hours

The Anthropology of Magic, Witchcraft, and Religion This course provides an overview of anthropological approaches to the cross-cultural study of magic, witchcraft, and religion. It focuses on topics such as mythology, symbolism, ritual, magic, sorcery, witchcraft, shamanism, ancestor worship, dreams and visions, spirit possession, and rituals of purification. It will include a focus on integrating anthropological understandings with theological ones. Meets foundational core civic engagement or general social science requirement.

I-4 hours

### **ANT 360**

Independent Study

An individualized, directed study involving a specified topic. I-4 hours

### **ANT 370**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **ANT 380** 3 hours

Anthropology of Sin, Shame, and Guilt

This course involves a dialogue between anthropology and theology. Through anthropological readings, students will explore in different cultures the vocabulary of moral evil and the ways in which children are socialized morally. It will consider the ways in which cultures impact conscience, moral reasoning, and ethical understandings. The course will give special attention to the role of shame and guilt in the moral experience of people from diverse cultures. Finally, the course will consider the role of these dynamics and realities in the lives and experiences of Christians around the world.

#### **Criminal Justice Courses**

### **IUS 100**

#### 3 hours Introduction to Criminal Justice

A survey of the organization, administration, and function of law enforcement, the courts, and corrections in an historical, legal, and contemporary context. An emphasis is placed on both offenses and offenders at each stage of the process. This course is offered through Taylor University Online (TUO).

### **ANT 390**

### Anthropology of Kinship, Sex, and Gender

Through ethnographic readings, this course explores kinship, marriage, sex, and gender across diverse cultures. It will review older anthropological topics such as the incest taboo, polygamy, inheritance, gender, alliance, and descent. It will also examine recent topics, such as sex tourism, mail order brides, transnational adoptions, same-sex sexualities, new reproductive technologies, surrogacy, transgenderism, and the commercialization of sexuality (in pornography, sex work, and sex trafficking). Themes of the course will be related to issues of globalization, power, religion, and recent human rights discourses. The course will foster a dialog of anthropology with theology.

### **ANT 393**

Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

1-4 hours

### **ANT 420**

Psychological Anthropology

This course studies the interaction of cultural and mental processes. It explores ways in which enculturation within a particular cultural group shapes processes of human cognition, identity, emotion, perception, motivation, moral reasoning, states of consciousness, suffering, and mental health. The course will focus on variable cultural patterns related to such things as honor and shame, guilt, anger, envy, conscience, and suffering as well as to cultural practices involving fasting, confession, dream interpretation, vision seeking, spirit possession, and healing. It will include a description and analysis of several culture-bound syndromes.

### ANT 450

Investigative learning involving closely directed research and the use of such facilities

### ANT 480

I-4 hours Seminar A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I-2 hours

#### **ANT 490**

Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field. 2 hours

### **ANT 493**

Anthropology Integrative Seminar This course provides students with the opportunity to approach the field of anthropology holistically and integrate faith and anthropological insights. Prerequisite:

#### **ANT 498**

### Anthropology Senior Thesis

Instructor permission and senior status required.

Students will complete a senior thesis that demonstrates an ability to apply anthropological perspectives through a theoretical or methodological analysis of a topic they have chosen. Prerequisite: Instructor permission and senior status required.

I hour

#### JUS 347 Courts

3 hours

This course will examine the American court system and the components of the legal system that feed cases into the system, in both the civil and criminal legal process. Students will learn about the many elements of the court system and their interlocking relationships to the judicial process. Jurisdictional issues between state, local, and federal courts will be examined, as well as the trial and appellate process. Students will have the opportunity to do a paper on a high profile case and review the social impact of decisions. Emphasis will be on the criminal justice system since criminal cases make up the majority of court cases. This course is offered through Taylor University Online (TUO).

### Social Work Courses

SWK 170 Selected Topics I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

# SWK 200

### **Explorations in Social Work**

This course intends to assist the prospective social worker in gaining awareness and understanding of basic tenets of the social work profession, Code of Ethics, guiding principles and values, and of practice settings. Throughout the course, students are given the opportunity to explore their interest in and potential for a career in social work. The course will also assist students in understanding social welfare systems and their development, and how social welfare policy affects people across the globe. As students learn about the various social issues that social workers help to change, students will explore how their Christian faith commands their reflection and action in tackling these issues.

3 hours

## 3 hours

3 hours

I-4 hours

### **Directed Research**

as the library or laboratory.

#### **SWK 225**

#### 3 hours

**Diversity and the Disenfranchised** 

A hybrid course integrating theory and application of concepts through case study dealing with issues related to diversity, oppression, discrimination, human rights, and social justice. Dimensions related to women's issues, immigration and acculturation, religion and spirituality, social class, and sexual orientation will be explored.

3 hours

### SWK 231

## Social Welfare: Historical Perspectives and Development

This course follows the development of social welfare efforts from early civilizations to the present time. The course focuses on the emergence of the profession of social work and explores the question "Am I my brother's keeper?" in the light of biblical principles. This course is offered through Taylor University Online (TUO).

I-4 hours

3 hours

#### SWK 270

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **SWK 320**

Unleashing the Oppressed

This course is designed to provide the student with the necessary knowledge, values and skills to empower people who fall into "at-risk population" groups. Those groups who are at-risk for prejudice and discrimination typically include mental disability, developmental disability, sexual orientation, women, elderly, and religious diversity. Service-learning component provides interaction with a variety of community-based agencies. Meets foundational core civic engagement or general social science requirement. Open to all students.

#### **SWK 340**

Working with Children

# 3 hours

This course is a social work elective that is designed to provide an overview of the broad field of child welfare. Topics include the role of the family in the care of children, the history and current state of care of children, current problems such as child abuse and neglect, the impact of poverty and diversity in the well-being of children, and responses to children in need such as foster care, adoption, residential programs, the courts and school-based services. Application is made through readings, experiential activities, agency visits and guest speakers. A service learning component provides interaction with community-based agencies. Open to all students. Offered Fall semester of odd years.

#### SWK 351

#### 3 hours Social Work Process and Practice I

First in a 4-course practice sequence designed to provide the student with the necessary knowledge, values for ethical decision making and skills for successful practice with individuals at the generalist social work practitioner level. Develops understanding of the nature and process of social work practice, principles and techniques of the planned change process. Develops students' ability for selfawareness and for understanding the nature of clienthood. Prerequisites: PSY 100; SWK 200; SWK 225; COM 210 or COM 320; ANT 200 or SOC 100 or 210. Offered Fall semester.

### **SWK 354**

Social Work Process and Practice II

Second in the 4-course practice sequence. Enables further development of generalist social work skills with various client systems. Areas of group dynamics, ethical issues, developmental levels and diversity are emphasized. Participation in a group experience is required. Prerequisite: SWK 351. Offered Spring semester.

3 hours

3 hours

#### SWK 355

Helping Troubled Families

Introduces family systems theory, as well as the history and development of family interventions. Presents the major approaches of working with families and provides the opportunity to role play application of these approaches. Open to all students. Offered Fall semester.

I-4 hours

### SWK 360

Independent Study

An individualized, directed study involving a specified topic.

## **SWK 362**

Social Policy

Discusses topics related to social welfare history, public policy, and social welfare policies that exist in today's society and how they impact those most dependent on social programs. Examines social programs in light of the problems they address, the service they provide, and their effectiveness. Addresses contemporary social issues in light of public funding decisions.

I-4 hours

3 hours

### SWK 370

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

#### **SWK 380**

Understanding Suffering, Grief, and Loss

Provides a basic introduction to crucial issues related to suffering and affliction, both self-imposed and those related to the human condition. Bereavement, grief and loss across the life span will be explored. Contemporary issues related to death and dying and the roles of social institutions and services to persons affected by suffering, death and loss will be covered. Issues will be examined based on difference in gender, culture, ethnicity and religion and in light of historic and contemporary Christian faith. Open to all students. Offered Spring semester of odd years.

## **SWK 393**

## Junior Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Students spend time in a social work setting learning how an agency functions, how professional social work practice is implemented, and how the professional interacts within an agency. Passfail only. Practicum course credit requires 140 hours of observation and practice. Prerequisites: SWK 351, junior status, and approval of the Junior Practicum coordinator. Offered January Interterm.

### SWK 395

### International Practicum

During the January interterm of the junior or senior year, students would spend time in an international social work setting gaining knowledge of social work in a different country. They learn how an agency functions, how social work practice is implemented abroad, and specific needs within another culture. This practicum opportunity provides 140 hours of field lab work. Class fee assessed to cover travel and in country experience. Prerequisites: SWK 351 and permission of Director of Social Work. Pass/fail only.

4 hours

#### SWK 441 3 hours

#### Human Behavior and the Social Environment

This course serves as a capstone course for the human behavior in the social environment sequence in the social work major. The primary purpose of this course is explore the question, "Why do people behave as they do?" This question will be explored from a multi-dimensional systems social work perspective. It is designed to prepare students for multi-dimensional assessments that will be required for the senior field placement and generalist practice after graduation. Prerequisites: PSY 250; SWK 362; SWK 354; BIO 106 or 310. Offered Fall semester. I-4 hours

### SWK 450

**Directed Research** 

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

#### SWK 451 3 hours

Social Work Process and Practice III

The third in the 4-course generalist social work practice sequence. This course integrates social work practice, intervention and professional skills with regards to intervention and assessment at the organizational and community level. The course also focuses on macro social work practice, community organizing and development. Students will also participate in a grant writing project as they begin to develop grant writing and fundraising know-how and skills. As in the other courses in the practice sequence in our social work program, there will be a focus on the integration of micro, mezzo, and macro skills to empower students for effective generalist social work practice. Prerequisite: SWK 354. Offered Fall semester.

## SWK 452

### **Advanced Social Work Practice**

Last in the 4-course sequence for developing generalist practice skills. The professional helping relationship and interview process are emphasized. Simulated client-worker situations provide opportunities to practice skills. Employment interviews and strategies are also discussed. Beginning-level professional writing skills are developed through documentation exercises. Prerequisite: SWK 354. Offered Fall semester.

3 hours

#### SWK 480 Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. 2 hours

I-4 hours

#### **SWK 482**

Integrative Social Work Seminar

A seminar class taken by all social work majors during interterm of the senior year. The focus is holistic integration of: (1) faith and the social work profession; (2) self and the social work profession; (3) liberal arts education and the knowledge and practice of social work; (4) self- and civic-mindedness; and (5) self as global citizen. Students begin to develop the CSWE content. portion of their professional portfolio. Focused presentations are conducted with regard to stress and time management and burnout prevention. Pass/fail only. I-2 hours

#### SWK 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field. 12 hours

#### SWK 492 Senior Practicum

A professional semester of supervised field practicum in a social work setting; 480 hours required. Prerequisite: Completion of all required courses in the social work major. Offered Spring semester.

4 hours

### Sociology Courses

#### SOC 100

### Introduction to Sociology

A study of the principles and concepts of sociology in the context of present day social systems. Attention is given to major contemporary analyses of social events, processes, and institutions. Meets foundational core civic engagement or general social science requirement. Offered Fall semester.

3 hours

#### SOC 110

#### 3 hours Introduction to Global Societies

This course explores the nature of contemporary societies around the world by considering societal stages and development, cultural and social structural aspects of societies, international inequality, and globalization. Meets foundational core civic engagement or general social science requirement. Offered Spring semester.

#### SOC 170

Selected Topics

I-4 hours A course offered on a subject of interest but not listed as a regular course offering. 3 hours

#### SOC 210

#### **Contemporary Social Issues**

An introduction to the study of social problems from several perspectives. Problems in areas such as drug abuse, crime, education, and the family are examined in the light of basic principles of sociology. Meets foundational core civic engagement or general social science requirement. Offered Fall semester.

3 hours

#### SOC 220

Ethnic and Minority Issues

An analysis of inter-group relations in the United States. Topics include a consideration of the mechanisms of group interaction between dominant and subordinate groups and the experiences and histories of the primary minority groups in the United States. Meets foundational core civic engagement or general social science requirement. Offered Spring semester.

2 hours

#### SOC 250

#### Principles of Research and Analysis

Intended to prepare students to effectively make sense of the bewildering variety of numbers available in contemporary societies about people, organizations, and social outcomes, this course is an introduction to the key principles of social measurement and basic ways numbers are used to represent patterns in the social world. Offered Fall semester.

I-4 hours

SOC 270

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### SOC 310

**Religion and Society** 

An examination of the cultural and structural influences that guide the forms religion takes in society and the processes through which religious ideas, behaviors, and institutions are constructed. Attention is given to the sociological theory and research that underlies religious behavior. Meets foundational core general social science requirement. Offered periodically.

3 hours

3 hours

### SOC 313

#### **Statistics for Behavioral Science**

The major concepts covered in the class will be descriptive statistics, basic probability theory, and inferential statistics. Demonstrations of Microsoft Excel competency will be assigned for each segment of the class. This course is offered through Taylor University Online (TUO).

3 hours

#### SOC 315

#### **Social Inequality and Stratification**

This course examines the social systems (cultural and structural) that determine outcomes in wealth, power and social prestige. The primary focus is on class systems. Meets foundational core civic engagement or general social science requirement. Offered Spring semester.

#### SOC 330 3 hours

### **Social Change and Social Movements**

This course focuses on the basic premises of social change including the evolutionary, conflict and cyclical theories of social change, and the organized activities of collective behavior and social movements that encourage or discourage social change. Special attention is given to the theoretical contributions of the structural strain, resource mobilization and social constructionists' perspectives. Meets foundational core general social science requirement. Offered periodically.

#### SOC 340 3 hours Sociology of Children and Families

This course examines the sociological foundations of childhood including family formation, childhood socialization and the changing cultural significance of children. This course also examines the divergent roles, styles and functions of parenting. Offered Fall semester of every other year (alternates with SOC 381).

3 hours

#### SOC 350

#### Social Research Methods

An exploration of the primary methods of social research and data collection. Topics include defining a research question and design, and data collection from operationalization to data entry. Prerequisite: SOC 250. Offered Fall semester.

#### SOC 355 Applied Social Statistics

#### An introduction to statistical analysis for social research issues. The course focuses on the uses of statistics, choosing appropriate statistics for a given problem and interpreting statistical output. Meets foundational core mathematics requirement. Prerequisite: SOC 250. Offered Spring semester.

Independent Study An individualized, directed study involving a specified topic.

### SOC 361

SOC 360

History of Social Thought

Primary emphasis is placed upon the contributions of sociologists since the time of Comte. The writings and concepts of leading sociologists in both Europe and America are studied. Meets foundational core general social science requirement. Offered Fall semester of every other year (alternates with SOC 365).

### SOC 365

3 hours **Contemporary Social Thought** 

#### An analysis of social theory as it is practiced today. Building on the classical works of Marx, Durkheim, Weber, Simmel and Mead, this course focuses on how modern sociologists have incorporated the classical writers to explain social developments. Special attention is given to postmodernists, social constructionists, functionalists, neo-Marxists, neo-Weberians and leading feminist thinkers. Meets foundational core general social science requirement. Offered Fall semester of every other year (alternates with SOC 361).

I-4 hours

3 hours

SOC 370 Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### SOC 381

#### Marriage and Family Systems

A study of the changing state of family systems in America. The course also examines how work, social class, ethnicity and gender affect family structure and function. Meets foundational core general social science requirement. Offered Fall semester of every other year (alternates with SOC 340).

I-4 hours

#### SOC 393 Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

#### 3 hours **Community and Urban Affairs**

Consideration of problems relating to community structure, development and process, beginning with a historical overview of the development of cities. Special emphasis is placed upon the interrelationships of various groupings within communities, particularly within the urban scene. A field trip to a major urban center provides "hands-on" learning. Meets foundational core civic engagement or general social science requirement. Offered Spring semester.

### SOC 420 3 hours

## Organizational Policies and Programs

A study of the social dynamics that guide and shape organizations in modern societies. The class prepares students to see and work with the structures of organizations like the church, government agencies, for-profit companies and nonprofits. The focus is on the application of organizational theories to organizational settings and includes projects on the development of organizational programs. Offered periodically.

#### SOC 450 Directed Research

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

### **SOC 480**

Seminar A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I-2 hours

2 hours

I hour

#### SOC 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

#### SOC 493

Sociology Integrative Seminar This course provides students with the opportunity to approach the field of sociology holistically and integrate faith and sociological insight. Offered Spring semester.

#### SOC 498

Sociology Senior Thesis Students will complete a senior thesis that demonstrates an ability to apply sociological

perspective through a theoretical or methodological analysis of a sociological topic they have chosen. Offered Spring semester.

SOC 410

I-4 hours

I-4 hours

# Art, Film, and Media

### Co-Chairs, Associate Professor K. Bruner, Assistant Professors J. Miles, L. Stevenson Professors J. Bouw, R. Smith Associate Professor J. Bruner Assistant Professors S. Bailey, R. James, H. Richardson, J. Riggleman Visiting Assistant Professor L. Reed

In support of the overall University mission, the Department of Art, Film, and Media exists to cultivate and develop its students both artistically and spiritually, equipping them to be transformative agents in a contemporary culture significantly shaped by the arts, media, and entertainment. The department aspires to:

- 1. Develop professional practicing artists who demonstrate exemplary competence in their discipline.
- 2. Provide students with a comprehensive body of artistic knowledge and skills as they relate to their biblical worldview.
- 3. Continually engage the global community through culturally relevant artistic production and social dialog.

The department offers the following majors: Art Education; Graphic Arts: Illustration; Graphic Arts: Design; Graphic Arts: Photography; Film and Media Production; Pre-Art Therapy; and Studio Art. Minors are available in Art History, Photography, and Studio Art.

Many professional career paths are available to graduates from the department including: art education, graphic design, web design, photography, illustration, fine art production, arts administration, film and television production, independent filmmaking, broadcasting, and corporate and nonprofit media production.

All Film and Media Production, Graphic Art, and Studio Art majors are required to meet with department faculty at the end of their second year within the major to assess strengths, growth areas, and recommendations for continued participation.

A senior exhibit is also required for all majors in the department, as fulfillment of the senior comprehensive requirement.

The department provides professional development opportunities for art majors by hosting trips to major art centers such as Chicago, Miami, and New York. Furthermore, the department encourages participation in study abroad art programs such as Orvieto, Italy. The Film and Media Production program offers a Taylor-run Hollywood Internship Program, an annual trip to the Sundance Film Festival, international documentary trips, the Envision Film Festival, and a 24-hour film festival in January.

The Bachelor of Science degree in Art Education requires at 45-47 hours in addition to education courses. This major is for students who desire licensure in art for all grades (P-12). Optional concentrations are available in SpEd Mild-Moderate P-12 Licensure, SpEd Intense P-12 Licensure, and TESOL P-12 Licensure. The Bachelor of Arts degree requires two years of one foreign language. Except where indicated, no more than 50% of completed requirements may overlap with another major, minor, or concentration. All major courses, including education curriculum courses, must be completed with a grade of C- or better and are included in the major GPA.

### Studio Art/Systems (BS)

The Bachelor of Science degree with a major in Studio Art/Systems consists of the 60-hour studio art major requirements and curriculum requirements in information systems and analytics. Except where indicated, *no more than 50% of completed requirements may overlap with another major, minor, or concentration.* All major courses, including systems curriculum courses, must be completed with a grade of C- or better and are included in the major GPA.

Select at least two additional 3-hour courses in a single area from drawing, painting, ceramics, printmaking, or sculpture to complete the 24-hour minor requirement.

### Art Courses

#### ART 101 Drawing I

### 3 hours

Introduction to the fundamentals of observation and rendering, perspective and composition, using a variety of drawing mediums. Meets foundational core participation in the arts requirement.

#### ART 151

## 3 hours

**Two-Dimensional Design** A foundational course in understanding the elements and principles of two-dimensional design composition and color theory, as well as methods for creative problem solving. A studio-skills class utilizing a variety of mediums in a related series of projects. Meets foundational core participation in the arts requirement.

### **ART 152**

### Visual Communications

An introduction to the graphic design industry, with emphasis in visual problem solving, a basic understanding of typography, color and composition as well as the implementation of the various additional elements of design.

3 hours

#### **ART 154** Digital Tools: Illustrator

I hour

This course focuses on the development of drawing and design skills using Adobe Illustrator, the industry standard software for vector image and logo generation.

#### ART 156 **Digital Tools: Photoshop**

I hour

This course focuses on the development of painting and image editing skills using Adobe Photoshop, the industry standard software for bitmap image generation and digital photo manipulation.

I hour

#### ART 157 Digital Tools: InDesign

This course focuses on the development of print layout and compositing skills, manipulating type and images, using Adobe InDesign, the industry leading software for page layout construction and desktop publishing.

## **ART 160**

#### 3 hours **Contemporary Strategies in Art**

This course is designed to calibrate freshman studio art majors via collaborative engagement and exploration of processes, theories, and art works relevant to producing art in our present age.

#### ART 162

## Digital Tools: Painter

An introductory course focusing on digital image creation, utilizing the drawing and painting controls found in Corel Painter.

I-4 hours

2-3 hours

I hour

#### **ART 170**

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

#### ART 172

#### Art Appreciation A study of art through a historical survey. This course introduces the student to the

great masters and art periods of the past while broadening the student's appreciation and understanding of art. May satisfy the art-portion of a foundational core fine arts requirement. This course is offered through Taylor University Online (TUO).

#### 3 hours

Advanced conceptual approaches as they relate to drawing as an artistic end. Prerequisites: ART 101 and ART 151.

### **ART 210**

**ART 221** 

ART 203

Drawing II

#### 3 hours Introduction to Art Education/Pre-Art Therapy

A survey of the history and philosophy of art education. The course utilizes the disciplines of art criticism, history, aesthetics, and production to acquire information, develop resources, and create a variety of learning experiences for students of various developmental levels.

3 hours

Painting I Beginning experiences in the materials, theory, techniques and composition used in historical and contemporary styles of oil painting. Consideration of the work of individual painters introduces various conceptual approaches to painting. Prerequisites: ART 101 and ART 151.

#### ART 251

#### Typography

An introduction to the essential principles of typography; the design and expressive capacities of letter forms are explored through historical study, typesetting assignments, discussions, and studio projects. Prerequisites: ART 101, ART 151, ART 152, and ART 154.

3 hours

3 hours

#### **ART 253**

### Foundations of Photography

Provides ground-level introduction to the tools, concepts, and techniques of photography. Students will explore composition, style, color, tonality, and light. Strong emphasis on full comprehension and technical mastery of dSLRs, digital processing, and color-managed output. Students must provide their own dSLR cameras. Prerequisite: ART 156.

**ART 254** Illustration I

### 3 hours

An introductory course to the art and business of illustration with an emphasis in developing conceptual skills, a personal visual voice and unique stylistic approach. Coursework will include the production of editorial, promotional and personal illustrations. *Prerequisites: ART 101 and ART 151*.

### **ART 257**

### Layout and Prepress

An editorial design course, with a focus on page layout construction, digital pre-press and tabloid design. Students will learn terms and skills necessary for a career in the editorial design industry. Projects may include book covers, brochures, magazines and newspaper layouts. Prerequisites: ART 101, ART 151, ART 154, ART 156, ART 157, and ART 251.

3 hours

3 hours

### ART 261

#### Film and Darkroom

Maintains the heritage of analog photography by exploring silver halide films and various darkroom processes. Emphasis on shooting and processing black-and-white film and printing paper prints with enlargers. Color films and processing discussed, as well as experimental darkroom techniques. The course culminates with large format view camera work. Students must present a 35mm film camera in good order to enroll. Prerequisite: ART 253.

#### **ART 270**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

#### ART 271 3 hours Three-Dimensional Design

A foundational course in understanding the elements and principles of threedimensional design composition, as well as creative problem solving. A studio skills class utilizing a variety of mediums in a related series of projects. Meets foundational core participation in the arts requirement.

#### ART 272 Sculpture I

#### Three-dimensional studies on form as practiced through art history, classical to abstract representations of the human form and architectural sculptural methods (welding and additive methods). Materials for this course cover day, stone and metal. Prerequisite: ART 271.

3 hours

3 hours

#### **ART 275** Metals I

Beginning metalworking projects use various techniques, with precious and nonprecious metals. Soldering, enameling, metal casting and stone setting are covered. Meets foundational core participation in the arts requirement.

3 hours

#### ART 281 **Ceramics: Handbuilt Forms**

An introduction to basic clay formation techniques with an emphasis on the sculptural and asymmetrical potentials of hand constructed clay forms. Covers essentials of the ceramic process: forming, glazing, and transformation through firing. Meets foundational core participation in the arts requirement.

### **ART 300**

Art for Teachers Opportunities for the development of skills and learning experiences for use in the elementary classroom. Introduction to the components of Discipline-Based Art Education through lecture, studio projects and out of class assignments.

3 hours

2 hours

#### **ART 302** Figure Drawing

#### Intermediate level drawing course with emphasis in rendering the human figure. Prerequisite: ART 101.

2 hours

#### **ART 309** Secondary Art Methods

Examine methodology and teaching practices in art, organizing and writing the art curriculum, classroom management, assessment of student progress, and general strategies and methods for conducting an art program for the middle and high school level students. In addition, studio work will be utilized to create a portfolio of art projects suitable for middle and high school students. Written assignments for the course will be added to the professional portfolio.

### ART 310

Theory and foundations for the development of skills and learning experiences for use in the elementary art classroom. The Discipline-Based Art Education model will be utilized in preparing lesson plans, studio projects and practical application content.

#### ART 311 Western Art History I

A survey of architecture, sculpture, and painting from prehistory to the Late Gothic in Europe and the Near East.

3 hours

#### **ART 313**

A survey of architecture, sculpture and painting from the Proto-Renaissance to the Modern era in Western Europe and the United States. Prerequisite: ART 311.

### **ART 316**

Asian Art History A survey of the arts of South and East Asia including India, China, Japan, and Korea with an emphasis on understanding works within their cultural contexts.

3 hours

#### ART 317

Invites students not only to know the factual, international history of the medium, but to consider its implications for society and culture in general. Projects and assignments will fully acquaint students with the rudimentary mechanics of optics and cameras in their earliest development, as well as major photographers and their styles. Camera required. Prerequisites: ART 253 and ART 261.

### **ART 320**

3 hours Acrylic Painting An introduction to the techniques, materials and processes involved in acrylic painting. The course will focus on various aspects of acrylic painting on a mixed variety of surfaces and utilizing various varnishes, mediums and brush techniques. Prerequisite: ART 101.

Elementary Art Education

3 hours

3 hours

# 3 hours

Western Art History II

History of Photography

#### **ART 322** Water-Based Media

#### An introduction to distinctive techniques, materials, and processes involved in water-based painting. The course will explore watercolor, gouache, and ink wash. Prerequisite: ART 101.

3 hours

3 hours

### **ART 324**

### Painting II

An intermediate level course where students engage in the advancement of their technical proficiency, explore a greater degree of self-initiated projects, and engage in in-depth critical analysis of contemporary painting. Prerequisite: ART 221.

3 hours

ART 344

### Photojournalism Explores documentary photography from spot news to long-form photo essays. Topics include journalistic theories, ethics, and the social functions of journalism.

All assignments include photography and written captions, and in some cases longer writings. Camera required. Prerequisites: ART 253 and ART 261.

3 hours

#### **ART 345** Relief and Serigraphy

Handprinting as an expressive medium is investigated through relief and screen printing processes, including linoleum block printing, woodcut printing, cut stencils, drawing fluid/screen filler use, and photo-based silkscreen. This course serves as an introduction to the essential tools, materials, and techniques related to relief and serigraphy. Readings and discussion pertaining to the history of radical thought expressed via prints and the subsequent dissemination of printed materials will augment studio projects.

3 hours

### **ART 346**

Portraiture Provides the opportunity to explore portraiture in depth, including conventional,

## environmental, expressive and experimental work. Camera required. Prerequisite: ART 253. 3 hours

**ART 347** Intaglio and Lithography

Handprinting as an expressive medium is investigated through intaglio and lithographic processes. Projects explore the use of hardground etching, soft-ground etching, whiteground, aquatint, chine colle, drypoint, photo etching and plate and stone lithography. This course serves as an introduction to the essential tools, materials, and techniques related to intaglio and lithography. Readings and discussion pertaining to the history of radical thought expressed via prints and the subsequent dissemination of printed materials will augment studio projects.

## ART 351

Product ID

# A design course with emphasis in creating a product identity from concept to completion. This course will discuss but not be limited to, conceptual design, logo/logotype development, packaging design, advertising design and the development of promotional materials. Professional presentation and client skills will also be discussed. *Prerequisites: ART 251 and ART 257.*

3 hours

**ART 353** 

## 3 hours

**Commercial Photography** Introduces various commercial photo categories and demonstrates ways to make a living with a camera. Emphasis is always on the marketing and stylistic needs of clients rather than the personal style of the photographer. Covers images for various facets of marketing and retail: advertising, fashion, product and food photos, and selling stock. Camera required. Prerequisite: ART 253.

## ART 356

Web Design

# 4 hours

This course will teach students design fundamentals for interactive media with a focus on designing user interfaces for the internet. Students will be introduced to the vocabulary, foundational technology, design elements, and techniques for creating interactive media. Projects will cover a range of topics that will introduce students to the many uses for interactive design, identifying, and designing for different target audiences, and the basics of how to deliver the finished product to those audiences. Additionally, through the projects and class exercises, students will be introduced to and gain a better understanding of industry standard tools. Prerequisite: ART 156.

### **ART 357**

### History of Graphic Art

A design course focusing in depth on the stylistic history of graphic design, from Gutenberg to the present. Weekly studio assignments will be given with specific historical and stylistic goals. The purpose of this course is to create a strong awareness of historical styles and to develop artwork applicable to a working portfolio. Prerequisites: ART 251 and ART 257.

I-4 hours

3 hours

### **ART 360**

Independent Study An individualized, directed study involving a specified topic.

### ART 365

#### **Illustration 2: Visual Narrative** An intermediate level course focusing on continued development of the illustrator's personal voice while producing a unified series of location based sequential images useful for a professional working portfolio. Students will continue to explore new media, refine technique, and discuss essential business practices.

I-4 hours

3 hours

### ART 370

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

### **ART 372**

Sculpture II Intermediate use of technical skills and conceptual issues of creating sculpture with form and space. Prerequisites: ART 271 and ART 272 or permission of the instructor.

3 hours

3 hours

### **ART 380**

Ceramics: Wheelthrowing The use of the potter's wheel for throwing vessel and sculptural forms. Form and surface design are considered, as well as various firing techniques. Meets the foundational core participation in the arts requirement.

#### **ART** 382

The Christian and the Arts Seminar that deals with topics related to the Christian and the Arts emphasizing the development of critical abilities via the discussion of readings, student presentations, and writing assignments. Prerequisite: Junior status.

I hour

### ART 383

### The Christian and the Arts—Art Education

Seminar that deals with topics related to the Christian and the Arts for Art Education majors emphasizing the development of critical abilities via the discussion of readings, student presentations, and writing assignments. Prerequisites: Art Education major and iunior status.

### ART 393

Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. 3 hours

I-4 hours

#### ART 413

### Contemporary Art Introduces the student to a wide range of contemporary art, emphasizing the development of analytical and critical skills. Prerequisite: Junior status. 3 hours

### ART 417

# Advanced Ceramics

Largely self-directed, this course will give the student opportunity to further skills and concepts developed in their previous handbuilding and wheelthrowing courses. This course will also allow for exploration in making clay, glazes, and experimental firings. Prerequisites: ART 281 and ART 380.

#### **ART 418**

**Critical Foundations for Studio Practice** 

## . ART 160. ART 441

3 hours Advanced studies in printmaking, addressing the refining of skills, and the individual exploration of one or two printmaking processes. Prerequisites: ART 241 and ART 342.

### **ART 445**

3 hours **Illustration 3: Thesis** An advanced level course focusing on a large scale thesis project of personal imagery for the student's senior show and portfolio.

#### **ART 450 Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. 4 hours

I-4 hours

### ART 456

Web Animation

Students will build on the skills learned in ART 356, by focusing on industry standard animation and interactive software for the world wide web. This course will further develop each student's conceptual, interactive page layout, and web programming skill sets. Emphasis will be placed on fully utilizing Flash's unique animation, interactivity and scripting controls, to create a self-promotional website useful in the pursuit of a future design career. Prerequisite: ART 356 or COS 143.

# 3 hours

# This course centers around the discussion of formative essays, interviews and films,

presenting key concepts as a support for creation of work in the studio. Prerequisite:

Advanced Printmaking

2 hours

## 72

## ART 481 Senior Thesis I

## 3 hours

## Senior Thesis I serves as a culmination of students' undergraduate art making endeavor, providing guidance in the development of a body of work to be presented in a final exhibition with thematic and aesthetic cohesiveness. Class includes a trip to a significant contemporary art destination. Prerequisite: Senior status.

3 hours

## ART 484

Senior Thesis II

Senior Thesis II provides continued support as students prepare for their senior thesis exhibition. This course also serves as a seminar devoted to the conceptualization of a career in the arts, given its many forms. Students will also gain exposure to practicalities of life as a working artists such as funding, grantwriting, exhibiting, and pursuit of higher education.

3 hours

#### **ART 485** Senior Exhibition

Creation of a body of work for the student's senior exhibition with thematic and aesthetic cohesiveness. Students should plan for the costs associated with the exhibition. Prerequisite: Senior status.

I-2 hours

#### ART 490 Honors

Individualized study or research of an advanced topic within a student's major.

## Open to students with at least a 3.00 GPA in the major field.

FMP 312 2 hours Steadicam<sup>®</sup> Workshop A workshop covering the proper safety, operation, and creative use of the

## Steadicam® camera support system for cinematography. Offered January Interterm. 3 hours

## **FMP 320**

## Advanced Screenwriting An advanced exploration of the screenplay format, leading to the creation of a fulllength screenplay. Includes dramatic theory from Aristotle's Poetics, the essentials

of writing visually, story structure, beat sheets, outlines, treatments, creating story beats, mastering subtext, and finding one's voice as a writer. Prerequisite: FMP 230. Offered occasionally.

3 hours

## FMP 335

## that impact field production, and significant gathering of footage with the goal of later telling an impactful nonfiction story. Offered Interterm of even years and as needed. Prerequisites: FMP 215 and FMP 220. 3 hours

## Documentary Filmmaking

An exploration of the art of documentary film. Includes critique of notable documentaries, the study of multiple approaches to nonfiction storytelling and the creation of a festival-ready short documentary including pre-production, production, and post-production. Prerequisite: FMP 220.

## **FMP 350**

Media Theory and Ethics An overview of media communication theories and ethical challenges in the media workplace. Prerequisite: JRN 255. 3 hours

3 hours

## FMP 351

## Media Performance

An introduction to the theory and practice of television and radio announcing, commercial and corporate voice-over work, voice-over for animation, and film acting.

3 hours

## FMP 352 History and Criticism of Film

A survey of film history, artistic growth, and early influences and techniques of filmmaking. Theories for critiquing films are emphasized. Prerequisite JRN 255. Offered Spring semester of odd years.

3 hours

## EMP 355

## Multi-Camera Live Production

An overview of multi-camera live production processes, techniques and personnel in the studio setting and on-location. Students will plan and produce programming, functioning as a production team. Included required lab. Prerequisite: FMP 220. Offered Fall semesters.

## **FMP 358** Sundance Study Trip

3 hours

An exploration of the intersections between faith and independent film including reading and writing, followed by a week-long trip to the Sundance Film Festival. Offered lanuary interterm by application.

### Portfolio I Advanced design course emphasizing development of a working portfolio. Projects may include book covers, advertisements, brochures, posters, editorial design, logotypes, and corporate identity campaigns. Prerequisite: ART 351 and ART 357.

3 hours

## **ART 461**

**ART 457** 

## **Experimental Photography**

Encourages the student to explore personal photographic aesthetics, vision, and statement with an eye toward galleries and markets or a personal portfolio. Work would most likely be conceptual and expressive in nature. The course also provides wide-open opportunity for technical experimentation. Camera required. Pre-requisites: ART 253 and ART 261.

3 hours

3 hours

## **ART 471**

## Sculpture III

Advanced use of technical skills and conceptual issues of creating sculpture with form and space. Studio projects employ additive, subtractive and casting methods utilizing such materials as clay, plaster, wood, plastics, and metals. Prerequisite: ART 372 or permission of the instructor.

#### **ART 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I-4 hours

Film and Media Production Courses

## **FMP 125**

## I hour Film and Media Production: New Majors Orientation

An introduction to the Film and Media Production major, focusing on the work habits, mindset, and requirements for success in the major with preliminary work on discovering one's voice as a visual storyteller. Course includes the development of critical skills such as self-reflection, creativity, observation, collaboration, story development, and awareness of the impact of one's creative work on audiences. Offered Fall semester.

**FMP 170** 

## Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 2 hours

I-4 hours

## **EMP 185**

Digital Tools: After Effects

An introduction to Adobe After Effects software for motion graphics and animation. Prerequisite: ART 156 or CAC 156. Offered January Interterm. 3 hours

## **FMP 215**

**Audio Production** 

An exploration of the principles and applications of digital audio in today's media industries. Topics discussed include sound theory, microphones, digital audio fundamentals, systems theory and computer- and hardware-based recording and editing. Emphasis is on communicating a creative and technically excellent message. Offered Fall and Spring semesters.

**FMP 220** 

## Film and Video Production

A hands-on immersion in visual storytelling using single camera film-style shooting techniques. Course includes digital cinematography, nonlinear editing, lighting, audio for video/film and producing with an emphasis on creative storytelling and visual aesthetics. Offered Fall and Spring semesters.

3 hours

## **FMP 230**

Scriptwriting

This course covers the theory and practice of nonfiction writing (e.g., scripting for clients and documentary) and fiction writing (e.g., short film screenplay and television series).

3 hours

**FMP 270** 

## Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## **FMP 300**

#### I-2 hours Media Laboratory

Two hours of credit may be earned per semester by students holding top leadership positions in WTUR, the campus radio station or Envision Productions, the department's in-house television and video production team. One hour of credit may be earned per semester by those holding secondary positions in those organizations. One or two hours of credit may also be earned by assisting with approved departmental production projects. A maximum of six hours may be earned. Prerequisite: Permission of instructor.

3 hours

**FMP 310** Introduction to TV Writing

An introduction to writing television drama and comedy beyond the principles covered in FMP 230. Includes generating ideas, breaking a story, and how to apply the essentials of narrative storytelling to traditional half-hour and one-hour time formats. Prerequisite: FMP 230. Offered occasionally.

I-4 hours

International Production A team-based experience shooting a video or film project internationally including research and pre-production planning, exploration of cultural and technical issues

**FMP 340** 

## **EMP 360**

Independent Study

## I-4 hours

An individualized, directed study involving a specified topic.

#### **FMP 365**

#### 3 hours Inside the Entertainment Industry

An overview of the people, skills, and processes required for success in the film and television industries from both business and creative perspectives. Taught by entertainment industry professionals in Los Angeles as the academic component of Taylor University's semester-long Hollywood Internship Program. Prerequisites: FMP major, junior or senior standing, acceptance into TUHIP program.

## **FMP 370**

I-4 hours Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **FMP 375**

#### **Post-Production Methods**

Video editing principles and practices, leading to the certification test for Avid Media Composer. Advanced color correction for film and television using DaVinci Resolve. Prerequisite: FMP 220. Offered Spring semester.

3 hours

## **FMP 388**

#### 3 hours Media, Faith, and Culture

An exploration of the intersections between media, popular culture and the gospel. Topics include evangelical responses to popular culture through history, religious broadcasting, religious filmmaking, media in the local church setting, media in global missions and portrayals of Christ and Christians on TV and film. Prerequisite: JRN 255; junior standing; production or layout experience is required. Offered Spring semester.

**FMP 393** I-4 hours Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Pass/fail only. Offered primarily during Summer.

**FMP 430** 

## 3 hours

**Producing for Clients** This course develops the skills required to create a client-driven video or film production project. Producing tasks including pre-production, budgeting, scheduling and client relations are emphasized. Students work in teams with an outside organization to produce a professional video or film project. Prerequisite: FMP 220. Offered Fall semester of even years.

#### **FMP 440**

Narrative Filmmaking

3 hours

Students work in teams to create a festival-ready short film including scripting, preproduction, production, and post-production. Students will develop an ability to integrate Christian thought and storytelling. Prerequisites: FMP 220 and 230.

I-4 hours

#### **FMP 450 Directed Research**

## Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

3 hours

**FMP 455** 

## **Directing and Cinematography**

An advanced production course leading to deeper understanding of image creation, both in theory and practice. Emphasizes camera technology and associated equipment such as wireless focus, aperture, and video as well as advanced lighting techniques. Course includes visualizing a script, the director/cinematographer collaboration in storytelling, how visual theories inform storytelling, and how a director directs talent. Course involves both individual and group work. Prerequisite: FMP 220. Offered Fall semester.

## FMP 480

### Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. 3 hours

I-4 hours

## **FMP 485**

Senior Capstone

Seniors will complete a senior portfolio and prepare for employment and graduate school. Offered Spring semester.

I-2 hours

8-16 hours

12-13 hours

#### FMP 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

## **FMP 492**

Internship Professional semester of supervised internship in a work setting related to the major field of study. Prerequisites: Completion of departmental core and approval of the department faculty. Pass/fail only.

#### **FMP 493**

Internship: Taylor University Hollywood Internship Program

Entertainment industry internship completed as part of Taylor University's Hollywood Internship Program.

## Notes

## **Biblical Studies, Christian Ministries, and Philosophy**

Chair, Professor P. Collins Biblical Studies Program Director, Associate Professor M. Young Christian Ministries Program Director, Professor M. Severe Philosophy Program Director, Associate Professor B. Seeman Missions Program Director, Associate Professor J. Collins Professors K. Diller, W. Heth, G. MaGee, E. Meadors, J. Pak Associate Professor R. Smith Assistant Professors D. Flanders, H. Voss Visiting Assistant Professor K. Verhagen

The purpose of the Biblical Studies, Christian Ministries, and Philosophy Department is to provide students with a substantive understanding of the foundation of the Christian faith to enhance any vocation; to prepare students for church, para-church, or cross-cultural ministry; or to prepare students for graduate study. This preparation is two-fold. First, the department provides a significant portion of the "faith" side of the integration of faith and learning by teaching the four foundational core courses required for the entire student body. These four courses (BIB 110, BIB 210, REL 313, and PHI 413) are sequenced with each successive course serving as the prerequisite for the next. These foundational core courses are designed to equip students with enough theological and philosophical substance to be able to integrate biblical truth within their respective disciplines as well as think and live "Christianly" in our post-modern world. A.W. Tozer said, "The history of mankind will probably show that no people has ever risen above its religion, and man's spiritual history will positively demonstrate that no religion has ever been greater than its idea of God." Thus, the ultimate goal of the foundational core courses taught within this department is that students know and love God with all their heart and mind (John 17:31; Luke 10:27) and become more Christ-like in thought, speech, and action (Romans 8:29).

Second, the department offers five majors-Biblical Literature, Christian Ministries, Intercultural Studies, Philosophy, and Youth Ministry-to prepare students who will demonstrate competence in biblical, educational, intercultural, and philosophical truth in preparation for graduate studies and lifelong servant/leadership roles in professional Christian ministries. In addition, eight minors are offered in Biblical Languages, Biblical Literature, Christian Ministries, Philosophy, Intercultural Studies/Missions, Applied Missions, Youth Ministry, and Ethics. These majors and minors are designed to complement other majors, and consequently, students are encouraged to consider adding a second major or a minor from the BSCP department to enhance their primary program of study.

Students within the department may choose to take advantage of Taylor's affiliation with Jerusalem University College (JUC) and spend a semester studying in Jerusalem. Men and women anticipating seminary study should also select other electives in their undergraduate course of study that encompass the world of ideas, nature and human affairs. Other overseas academic trips are offered in January for Foundational Core credit. They include Israel (BIB 110 or 210 equivalencies) and Greece and Italy (BIB 210 equivalency).

## **Biblical Studies**

The Biblical Studies program is designed for students who desire a robust intellectual understanding of the foundation of the Christian faith. In the process of the program, students study biblical texts and explore various approaches to understanding them. Majors and minors in Biblical Literature develop proficiency as informed and observant interpreters of biblical passages as they learn to draw upon theological, historical, linguistic, and literary insights for richer, more complete understandings of texts. Students also grow in their ability to think about, write about, discuss, and apply biblical teachings.

Students who take the Biblical Literature major anticipating graduate study and professional ministry should also take an introductory course in philosophy and logic and be able to read at least one theologically significant foreign language. The primary language is Greek, although Hebrew is also recommended. Students who plan to pursue seminary study should seek the counsel of the department faculty and consult with representatives from their church or ministry network to determine which graduate school(s) would best prepare them for their anticipated career. Early in their senior year, students should correspond with the school(s) to which they intend to apply.

## **Biblical Literature (BA)**

The Bachelor of Arts degree with a major in Biblical Literature includes 33 hours; two years of sequential study in one foreign language; and the writing, presenting, and defending of a scholarly paper in the senior year to meet the comprehensive exam requirement. Students are encouraged to fulfill their language requirement by studying two years of Greek or Hebrew. All major courses must be completed with a grade of C- or better and are included in the major GPA.

## Major Requirements

Major Requirements				
BIB 272 3 Inductive Study of the Bible				
BIB 320 3 Pentateuch				
BIB 341	3	The Gospels		
BIB 462	3	Biblical Theology		
BIB 493	3	Biblical Literature Capstone		
Select one course from the following:				
PHI 262	3	Contemporary Moral Issues		
PHI 371	3	Principles of Ethics		

Electives Select 9 hours of BIB<sup>+</sup> electives.

Select 6 additional elective hours from BIB<sup>†</sup>, CMI, PHI<sup>†</sup>, REL<sup>†</sup>, or YMI courses.

Major requires a minimum grade of C- in four of the Foundational Core's Spiritual Foundation<sup>†</sup> courses: BIB 110, BIB 210, REL 313, and PHI 413. These courses are not included in the major GPA nor total required credit hours for the major.

<sup>†</sup>BIB 110, BIB 210, REL 313, and PHI 413 (and any course substitutions for these foundational core courses) do not fulfill elective requirements.

## **Biblical Literature/Systems (BS)**

The Bachelor of Science degree with a major in Biblical Literature/Systems includes 33 hours in the major; curriculum requirements in information systems and analytics; and the writing, presenting, and defending of a scholarly paper in the senior year to meet the comprehensive exam requirement. All major courses, including information systems and analytics curriculum courses, must be completed with a grade of C- or better and are included in the major GPA.

## **Curriculum Requirements**

Curriculan Requirements

COS 121 4	Foundations of Computer Science
ENT 422 3	New Venture Planning
MGT 201 3	Introduction to Business
MGT 403 3	Operations Management
SYS 214 3	Principles of Human Computer Interaction
SYS 310 3	E-Commerce

\*Selection may depend on major.

Major requires a minimum grade of C- in four of the Foundational Core's Spiritual Foundation<sup>†</sup> courses: BIB 110, BIB 210, REL 313, and PHI 413. These courses are not included in the major GPA nor total required credit hours for the major.

## **Biblical Literature Minor**

A minor in Biblical Literature requires 15 hours of credit beyond the foundational core curriculum required courses of BIB 110, BIB 210, and REL 313. Courses in both areas may count only once. All minor courses must be completed with a grade of C- or better and are included in the minor GPA. Christian Ministries and Youth Ministry majors must take at least one course from Old Testament and one course from New Testament besides BIB 272 and BIB 462.

#### **Minor Requirements**

Select <u>six</u> hours of Old Testament courses from:				
BIB 272	3	Inductive Study of the Bible		
BIB 320	3	Pentateuch		
BIB 340	3	Hebrew Prophets		
BIB 350	3	Poetic and Wisdom Literature		
BIB 420	3	Apocalyptic Literature of the Bible		
BIB 452	3	Old Testament Historical Literature		
BIB 462	3	Biblical Theology		
BIB 493	3	Biblical Literature Capstone		

Select six hours of New Testament courses from:			
BIB 272	3	Inductive Study of the Bible	
BIB 330	3	Acts and the Early Church	
BIB 331	3	Pauline Epistles	
BIB 332	3	Hebrews and General Epistles	
BIB 341	3	The Gospels	
BIB 420	3	Apocalyptic Literature of the Bible	
BIB 462	3	Biblical Theology	
BIB 493	3	Biblical Literature Capstone	

Select at least one additional 3-credit BIB<sup>†</sup>, CMI, REL<sup>†</sup>, or YMI course.

<sup>†</sup>BIB 110, BIB 210, and REL 313 (and any course substitutions for these foundational core courses) do not fulfill elective requirements.

## **Biblical Languages Minor**

A minor in Biblical Languages consists of 23 credit hours. Primarily, these courses enable one to read and study the Bible in the original languages. Enrichment of historical concepts of communication, depth and breadth of Christian perspective and cultural appreciation of the biblical world are secondary concerns of biblical language studies. Two years study of Greek or Hebrew meets the language requirement for graduation and satisfies or exceeds language entrance requirements for most seminaries. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

## **Minor Requirements**

HEB 312 3 Hebrew Exegesis

## **Biblical Studies (AA) – Taylor University Online**

The Associate of Arts with a major in Biblical Studies requires 21 hours in the major and 44-45 hours in foundational core. The curriculum is designed to give the students a foundational understanding of the Bible, Christian theology, and the knowledge and skills to serve in a church or para-church setting. All major courses must be completed with a grade of C- or better and are included in the major GPA. This program is only offered through Taylor University Online and residential students are not eligible.

Select 6 hours of additional electives.

## **Christian Ministries and Youth Ministry**

The purpose of the Christian Ministries program of Taylor University is to provide a foundation for students who are pursuing careers in church, parachurch ministry, or graduate school. In addition to the Christian Ministries major and Youth Ministry major, students often pursue one of the following interdisciplinary areas of concentration: youth ministry, children's ministry, ministry leadership, intercultural ministry, urban ministry, camping and recreational ministry, administrative ministry, or music ministry. The Christian Ministries program at Taylor University is characterized by a whole-person focus. Courses balance theory and practice as the biblical, theological, historical, philosophical, and educational foundations of ministry are explored. Spiritual formation in the context of a learning community is emphasized. Students learn collaborative thinking, planning, programming, and evaluation strategies while they are encouraged to identify and use their spiritual gifts in ministry. Students are encouraged to study in an off-campus program for at least one semester. Students may apply for admission to the Christian Ministries and Youth Ministry program upon completion of CMI 100 and 262 and one semester of experience in a departmentally approved ministry. Students are considered for acceptance if they meet the following criteria: major GPA of 3.00; cumulative GPA of 2.50; at least one semester of experience in a departmentally approved ministry; and an interview with members of the Christian Ministries and Youth Ministry faculty.

The application process includes the following components: (1) complete a written application; (2) submit letters of recommendation from a pastor, ministry supervisor, and for residential students, a residence-life staff person [nonresidential students must provide an additional character reference]; and (3) participate in an interview with the Christian Ministries and Youth Ministry faculty.

## Christian Ministries (BA)

A Bachelor of Arts degree with a major in Christian Ministries includes 51-52 hours in the major, four semesters of a departmentally approved ministry, two years of sequential study in one foreign language, and the writing of a scholarly paper in the senior year to meet the comprehensive exam requirement. Students are encouraged to fulfill their language requirement by studying two years of Greek or Hebrew. Students may not double major with youth ministry. All major courses must be completed with a grade of C- or better and are included in the major GPA.

#### **Major Requirements**

major Requirements

## Youth Ministry Minor

The minor in Youth Ministry is an academic program for students from various baccalaureate majors interested in developing their skills in ministering to youth. This program also provides Christian ministries majors with an optional area of specialization in youth ministry. The minor in Youth Ministry helps prepare graduates for ministries such as InterVarsity, Campus Crusade, Young Life, and Youth for Christ. In addition, the minor may be earned in combination with any major as an ideal way for students to integrate career and ministry goals. Students majoring in Biblical Literature, Christian Ministries or Philosophy who plan to work with youth may strengthen their credentials by adding the minor. The student must complete 17-19 credit hours. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

#### Minor Requirements

BIB 272	3	Inductive Study of the Bible	YMI 315	3	Youth Culture and Issues
CMI 100	3	Introduction to Christian Ministries	YMI 325	3	Discipleship and Evangelism in Youth Ministry

			ISP 350	3	History and Culture of Ireland
			393	4	Practicum (in missions or field of choice)

Students who took ISP 225 or 325 as part of the Ireland Studies Program do not need to take ISP 350 in Galway

## **Certificate in Missions**

The BSCP department awards a Certificate in Missions to students in any baccalaureate major program. Students are required to complete 14 hours. Students desiring to work for the Missions Certificate must complete an application, which is available through the program director or the BSCP program assistant. The student will be responsible for demonstrating his or her completion of the certificate requirements by submitting a completed application along with a copy of his or her transcript to the program director no less than 30 days prior to graduation. Work in progress will be accepted. This certificate is awarded by the department and does not include a transcript entry. In addition to the courses listed, the student must complete a cross-cultural experience that may or may not be for credit; suggestions include involvement in Taylor World Outreach/Lighthouse, other Taylor service-learning trips, a semester abroad, the HEART Institute, or the REL 393 practicum; approval is to be secured in advance from the department through the program director.

## **Biblical Literature Courses**

## **BIB 103**

#### 4 hours Introduction to Holy Land Studies

A study of the biblical background and contemporary significance of Israel. Taught in Israel during January, this travel-study course may count for either BIB 110 or a departmental elective. Offered January interterm-when available.

## **BIB 110**

#### **Biblical Literature I**

A course that has as its primary content the Old Testament, with special attention given to the law, the prophets and the history of Israel. Meets foundational core requirement.

3 hours

## **BIB 170**

## Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

I-4 hours

#### **BIB 203**

## In the Footsteps of Paul

A study of the biblical background and contemporary significance of cities Paul visited and wrote to in Greece and Turkey or Greece and Italy. Taught during January, this travel-study course may count for BIB 210 or a departmental elective. Offered January interterm.

## **BIB 204**

## Introduction to Holy Land Studies

A study of the biblical background and contemporary significance of Israel and Jesus Christ. Taught in Israel during January, this travel-study course may count for either BIB 210 or a departmental elective. Offered January interterm-when available.

4 hours

**BIB 210** 

#### 3 hours **Biblical Literature II**

A course that includes a foundation in New Testament study with focus on Jesus Christ as portrayed in the Gospels and Epistles. Also included is a series of explorations into the relevancy of Christ to modern life. Meets foundational core requirement. Prerequisite: BIB 110 or BIB 310.

4 hours

### **BIB 213**

#### Survey of Biblical Literature

A survey of the Bible, both Old and New Testaments, designed to help students learn the central ideas and themes of the Bible; to become familiar with its chief persons, places, and events; to become aware of the types of biblical literature; and to develop the ability to study the Bible effectively. This course is offered through Taylor University Online (TUO).

## **BIB 217**

## Genesis

## 3 hours

A detailed study of the book of "beginnings," giving attention to its authorship, authenticity, chronology, and spiritual implication. This course is offered through Taylor University Online (TUO).

3 hours

## **BIB 218**

## Matthew

A detailed study of the purpose, structure, and theology of Matthew's gospel, with

## special emphasis on titles and teachings of Jesus, significant events in His life, and the application of the gospel to the present time. This course is offered through Taylor University Online (TUO).

I-4 hours

#### **BIB 270** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## **BIB 272**

## 3 hours Inductive Study of the Bible

Specific methods are taught to enable students to understand the propositions of the biblical text, relate those propositions to one another, and ask questions of the text in order to discover what the biblical writers meant to convey through their writings. This course incorporates the departmental computer competency requirements for biblical literature and Christian education majors. Prerequisites: BIB 110 or BIB 310; and BIB 210.

## **BIB 310**

#### **Biblical Literature I** See BIB 110. Primarily for transfer students and has additional requirements. Meets foundational core requirement. Available upon request and with permission of the instructor.

3 hours

3 hours

#### BIB 311 Gospel of John

An analytical study of the content of the fourth gospel, with special emphasis on the distinctive elements of John's message. This course is offered through Taylor University Online (TUO).

#### **BIB 313** Romans

## This course combines inductive study of the New Testament letter of Paul to the Romans with critical investigation of contemporary approaches to Paul, with special focus on the "New Perspective." Prerequisites: BIB 110 and BIB 210. This course is offered through Taylor University Online (TUO).

3 hours

#### **BIB 320** Pentateuch

Emphasizes the historical narrative and the content of the Law of God. Special attention is given to the Genesis account of the origin of the cosmos, man, sin and salvation. The authorship of the Pentateuch is considered. Prerequisite: BIB 110 or BIB 310. Offered Spring semester.

3 hours

## **BIB 330**

## Acts and the Early Church

A historical study with particular attention given to the missionary expansion of the early Church, the work of the Holy Spirit and the place of the Church in the world. Prerequisite: BIB 210. Offered Spring semester.

## **BIB 331**

3 hours **Pauline Epistles** Attention is given to the life, ministry and writings of Paul. The doctrinal, pastoral and personal epistles of Paul are studied with reference to their geographical and historical settings, the organization of the Apostolic Church and the development

of Christian doctrine. Careful exegesis is made of selected portions of each epistle.

#### **BIB 332**

3 hours

Prerequisite: BIB 210. Offered Fall semester.

## Hebrews and General Epistles

A study of the non-Pauline epistles with attention to their authorship, historical place in the canon and doctrinal uniqueness. The contents of each book are analyzed, and problem texts are treated. Prerequisite: BIB 210. Offered Spring semester of odd years.

3 hours

#### **BIB 340** Hebrew Prophets

## Selected major and minor prophetic works of the Old Testament are considered, with special emphasis given to the historical background, Messianic message and content, together with specific theological concepts and teachings that are pertinent to modern times. Prerequisite: BIB 110 or BIB 310. Offered Fall semester.

3 hours

## 3 hours

The Gospels Stresses the life and teaching of Jesus as set forth in the Synoptic Gospels and John. Attention is given to the literary and theological characteristics of each individual gospel and to the development of gospel criticism. The primary focus, however, is on the words and works of Jesus Christ and their significance for Christians today. Prerequisite: BIB 210. Offered Fall semester.

## **BIB 350**

## Poetic and Wisdom Literature

Hebrew poetry and wisdom as presented in the books of Job, Psalms, Proverbs, Ecclesiastes, Lamentations and the Song of Solomon. Prerequisite: BIB 110 or BIB 310. Offered Fall semester.

I-4 hours

I-4 hours

3 hours

#### **BIB 360**

**BIB 341** 

Independent Study

An individualized, directed study involving a specified topic.

## **BIB 370**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3-4 hours

## **BIB 393**

Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

## **BIB 420**

3 hours Apocalyptic Literature of the Bible

Examines the historical and theological dimensions of Old Testament, New Testament, and second Temple period apocalypticism. Special attention is given to apocalyptic thought in Daniel, the gospels, and Revelation. Prerequisite: BIB 210. Offered Spring semester of even years.

## **BIB 450**

### **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

I-4 hours

## **Christian Ministries Courses**

#### CMI 100

#### **Introduction to Christian Ministries**

A course that focuses on the purpose and scope of Christian ministries and the types of ministries available to majors.

I-4 hours

3 hours

## CMI 170

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

## CMI 232

Historical and Theological Foundations for Christian Ministries A course focusing on the biblical, theological, historical, and philosophical foundations for Christian ministry. Prerequisite: CMI 100. Offered Fall semester.

CMI 242

#### Psychological and Educational Foundations for Christian Ministries

A course focusing on theories of human development and learning, as well as educational theory. Applications for ministry settings are explored. Prerequisite: CMI 100. Offered Spring semester.

3 hours

3 hours

## CMI 262

## **Personal Foundations for Ministry**

Students' capacity for ministry is enhanced in this course by facilitating personal growth and development. Emphasis is given to the ways theological truths address life issues. Prerequisite: CMI 100.

I-4 hours

## CMI 270

## Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

### CMI 325

## **Discipleship and Evangelism**

An intensive study of the theology, theories and approaches used to help people grow and develop in their faith. A special focus will be placed on the life of Christ as a model for ministry. Prerequisite: CMI 100. Offered Spring semester.

3 hours

3 hours

## CMI 345

Care, Kingdom, and Culture Provides a theological and kingdom of God lens to engage contemporary, personal, and cultural issues. Includes topics relating to sexuality and gender, race and ethnicity, and mental health. Students will be equipped to engage their context missionally through cultural exegesis and connoisseurship while developing skills in pastoral care.

#### **BIB 452** 3 hours **Old Testament Historical Literature**

Selected historical books in the Old Testament are considered, with particular emphasis given to the authorship, historical theory, and theological content of these books. Prerequisite: BIB 110 or BIB 310. Offered Spring semester of odd years.

3 hours

#### **BIB 462 Biblical Theology**

## A study of the Bible and its central message and meaning. The Bible is viewed as recording a special kind of history revealing God's will and purpose and giving essential meaning to all human life and destiny. This course is normally taken during the senior year. Prerequisite: BIB 272. Offered Fall semester.

## **BIB 480**

## Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

3 hours

#### **BIB 490** Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

3 hours

I-2 hours

## **BIB 493**

**Biblical Literature Capstone** Designed as a culminating experience for all Biblical Literature majors wherein students focus on key exegetical, historical, and theological issues crucial to a proper understanding of the biblical literature. The completion of the course paper and its presentation to peers meets university requirements for senior comprehensive exams for Biblical Literature majors. Prerequisites: BIB 272, BIB 320 and BIB 341. Offered Spring semester.

#### CMI 351 **Teaching and Learning Strategies**

A practical course designed to help the student teach the Bible more effectively by the use of educational strategies. A teaching lab and supervision are included, and competency in the use of instructional media is required. Prerequisites: CMI 100 and BIB 272. Offered Fall semester.

3 hours

#### CMI 352

Program and Curriculum Development

A course that focuses on the development of educational programs within church and parachurch ministries. Emphasis is on published curricula and the development of curricular writing skills. Prerequisite: CMI 351. Offered Spring semester.

3 hours

CMI 360

## Independent Study

An individualized, directed study involving a specified topic.

A course offered on a subject of interest but not listed as a regular course offering.

3 hours Leadership Development A course designed to facilitate the development of students' skills in leadership,

## organization and management related to specific ministry situations. Prerequisite: CMI 100. Offered Fall semester.

#### CMI 393 Practicum

## Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer. Prerequisite: senior status or permission of instructor.

2-4 hours

#### CMI 421 3 hours

## Philosophy and Strategies for Christian Ministries

A research course designed to help students articulate their philosophies of ministry within a particular age group or ministry context. Attention is given to critical areas of need within Christian ministry. This course meets university requirements for senior comprehensive exams for Christian ministry majors. Graduating Christian Ministries majors only. Offered Spring semester.

## Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## PHI 371

Principles of Ethics

A survey of the theoretical foundations of ethics, such as the distinction between absolutist and relativistic views, the nature of justice, and the need for rules. Readings from classical and modern authors are included.

I hour

3 hours

## PHI 382

## Ethics Bowl

An intensive study of practical moral issues, culminating in regional and national competitions involving Ethics Bowl teams from other colleges. May be repeated twice for credit. Prerequisite: consent of the instructor.

#### PHI 393 Practicum

## I-4 hours

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

## PHI 410

## Bioethics

This course will consider, from a Christian perspective, some of the philosophical issues and questions related to many of the current health-care and end-of-life concerns in modern society. The course will consider the importance of a worldview perspective in addressing the issue of personhood and in ethical decision making. This course is offered through Taylor University Online (TUO).

### PHI 413

## **Contemporary Christian Belief**

The integration of Christian thought with contemporary ideas and an introduction to Christian apologetics. Meets foundational core requirement and is required of all students. Prerequisite: REL 313.

3 hours

3 hours

## PHI 420

## **Continental Philosophy**

A seminar giving detailed attention to influential works in continental philosophy, from its roots in Kant down to the present. Prerequisite: Any PHI course or instructor bermission.

3 hours

## PHI 425

## Philosophical and Theological Methods

An interdisciplinary examination of both the history and current movements within philosophical and theological methodology. Prerequisite: Any PHI course or instructor bermission.

## PHI 432 Epistemology

## Contemporary theories on the nature and limits of knowledge and the justification of beliefs. Prerequisite: Any PHI course or instructor permission. 3 hours

#### PHI 445 Philosophy of Mind

A study of philosophical theories of consciousness, perception, and intelligence, with special attention on contemporary research. Prerequisite: One other course in philosophy or consent of the instructor.

I-4 hours

## PHI 450

## Directed Research

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. 3 hours

## PHI 452

Philosophy of Religion A study of the major issues in the philosophy of religion, including religious experience, theism, religious language, and the problem of evil. Prerequisite: Any PHI course or instructor permission.

#### **PHI 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. Prerequisite: major GPA of at least 3.00.

I-4 hours

I-2 hours

#### PHI 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

#### **Revelation, the Seven Cities, and the Seven Councils**

A survey of Christian belief with special emphasis on Revelation and the seven church councils. January interterm course involving two weeks study on campus and two weeks on site in Turkey. Meets REL 313 foundational core requirement. Prerequisites: BIB 110 or 310; and 210.

3 hours

I-4 hours

I-4 hours

#### **REL 310**

Theology of Worship

## 3 hours

A theological Biblical and historical study of Christian worship from a classical as well as contemporary perspective. This course examines the pattern, purpose and essential and non-essential features of worship found in the Bible and in church history with the goal of formulating one's own theology and practice of Biblical worship. Open to Music, Biblical Studies, and Philosophy majors. Prerequisite: REL 313. Offered Spring semester of even years.

3 hours

## **REL 311**

#### Foundations of Christian World Mission

A study of the biblical, theological, and historical foundations of Christian mission strategy. Offered Fall semester. 3 hours

## **REL 313**

Historic Christian Belief

A survey of Christian belief as developed during the history of the Church. May not be counted toward BIB, CMI, or PHI majors or minors. Meets foundational core requirement and is required of all students. Prerequisites: BIB 110 or 310; 210 or 203; and junior or senior status.

**REL 350 Global Theology** 

## 3 hours

Global theology investigates international contemporary Christian understandings of God through the rubric of systematic theology. A seminal dimension of Christian global engagement, global theology seeks to understand how international Christians express their faith against the backgrounds of their respective histories and in the context of their current social, political, and religious contexts. The course pays special attention to dialogue between international Christians and believers of neighboring faiths, who often constitute the majority in various global contexts. A goal of the course is to increase awareness that western Christianity has much to gain through partnership with Christians from the majority world.

## **Theology Courses**

**THE 243** 

#### Introduction to Theology

A detailed study of Bibliology, theology, and angelology. This course is foundational to all systematic theology. This course is offered through Taylor University Online (TUO).

## Biology, Environmental Science, Public Health, and Sustainable Development

## Co-Chairs, Professors M. Guebert, J. Regier Professor J. Reber Associate Professors B. Dewar, J. Vanderploeg Assistant Professors S. Bielko, P. Grabowski, E. Hasenmyer, S. Justice, R. Reber

The Department of Biology, Environmental Science, Public Health, and Sustainable Development equips and mentors students with practical scientific knowledge, ethical grounding, and professional skills to effectively minister to a world in need. The department offers twelve majors and three minors in Biology, Environmental Science, Health Promotion and Wellness, Public Health, and Sustainable Development, all of which involve a deep concern for God's human and non-human creation.

Our programs include a deep understanding of the Christian foundation beneath a faith-based pursuit of knowledge and application in our courses. This approach, both inside and outside the classroom, is fundamental to our offering of foundational core courses for students completing other majors in the liberal arts as well as to students majoring in our department. Students majoring in Biology are trained to model Christ to His created world as they engage in biology investigation and practice. Biology majors in healthcare and science education professions may choose to include one of the following options: information systems and analytics, education, or pre-med. Students majoring in Environmental Science, Health Promotion and Wellness, Public Health, and Sustainable Development are trained to live out their faith through integrating environmental stewardship, social justice, and sustainable living. All majors are required to complete a senior comprehensive requirement; Biology majors meet this requirement by passing the Biology Major Field Test during the Fall semester of their senior year.

## **Biology**

The Biology program is a dynamic community of learning, leadership, and service. We equip and mentor students through faith-integrated scholarship and research in the exploration of diversity and processes of life. Students are prepared to model Christ to His created world as they engage in biology investigation and practice, and healthcare and science education professions. Biology graduates are prepared to enter diverse careers, such as biology research, healthcare (physicians, dentists, nurses, physical therapists, physician assistants, etc.), and science teaching. All majors are required to complete a senior comprehensive requirement; Biology majors meet this requirement by passing the biology Major Field Test taken during their senior year.

## Biology (BA)

The Bachelor of Arts degree with a major in Biology requires two years of one foreign language and 49 hours in the major. All major courses must be completed with a grade of C- or better and are included in the major GPA.

## **Biology Pre-Medicine Pre-Professional Program**

Biology majors wishing to pursue a career as a physician, dentist, or veterinarian should select this concentration. Students are required to make formal application to the Pre-Medicine program in the Spring semester of their sophomore year or after completion of 45 hours of course work. Students must have completed BIO 201, 202, and 203, one year of chemistry, the math requirement, and have a cumulative GPA of 3.30.

Students interested in the pre-medicine curriculum should check out during their sophomore year the medical school admissions requirements for the school(s) to which they plan to apply. The Medical School Admission Requirements guide published annually by AAMC is the best resource for this information. It is important to meet the specific entrance requirements of the medical school(s) chosen.

Maintaining at least a 3.60 GPA, scoring well on the MCAT (usually taken in Spring of the junior year), and obtaining relevant experiences in the medical field are common prerequisites for acceptance into medical school. Students may earn biology elective credit from their medical experiences by taking BIO 393 Practicum; see your department advisor for details.

## **Biology/Pre-Medicine Concentration (BA)**

The Bachelor of Arts degree with a major in Biology and a pre-professional concentration in Pre-Medicine requires two years of sequential study in one foreign language and 76-77 hours in the major. All major courses, including those in the concentration, must be completed with a grade of C- or better and are included in the major GPA.

institutions may count with departmental approval. See <u>www.ausable.org</u> or Dr. Regier for details.

Animal Physiology

Human Anatomy and Physiology II

Environmental Physiology

## **Environmental Science**

In this major, in existence since 1982, students gain knowledge in natural sciences, principles of environmental ethics, law, and stewardship, and practical skills in problem-solving. With concentrations in Biology and Geology, students may focus on deep conceptual knowledge in the natural sciences which prepares them for a variety of environmental careers in government agencies, private consulting, non-profit organizations, and education institutions.

A mid-level, field-intensive course, Field Natural History of the Black Hills (in South Dakota) is required usually in Sophomore summer and is a favorite among students. To build professional skills and experience, a practicum is required, usually in the summer following the Sophomore or Junior year. Facultymentored student research is encouraged to build capacity for graduate school. As a result of this powerful combination of relevant theory and field experience, nearly 100% of our graduates find placement in either graduate programs or the workplace.

## **Environmental Science (BS)**

The Bachelor of Science degree with a major in Environmental Science requires 77 hours. Students may not double major with Sustainable Development. All major courses, including those in the concentration, must be completed with a grade of C- or better and are included in the major GPA.

## Health Promotion and Wellness

The Health Promotion and Wellness major blends Exercise Science and Public Health and focuses on health education, whether it be in the community, corporate, school, health care, or international setting. Students are prepared for the new and expanding roles of health education, wellness coaching, nutrition counseling, health communications, health psychology, community health evangelism, and school health. The role of a Health Education Specialist is to improve the health of individuals, particularly in populations that experience disproportionate rates of preventable diseases. An international experience is required, as are additional courses in psychology, life science, and ethics.

## Health Promotion and Wellness (BA)

The Bachelor of Arts degree with a major in Health Promotion and Wellness requires two years of one foreign language and 55-59 hours. All major courses must be completed with a grade of C- or better and are included in the major GPA.

## **Public Health**

The Public Health majors, established in 2013, reflect the broad and interdisciplinary nature of the profession, and prepare students to serve effectively to a world in need. While uncommon at the undergraduate level, there is a growing national appreciation for the value of teaching public health in liberal arts institutions, where students can be challenged to consider physical, social, economic, cultural and biologic factors that impact the health of populations.

These majors offer a strong set of core courses along with great flexibility to focus elective courses in specific sub-areas of public health. Coursework is designed to be relevant, participatory, experiential, and grounded in a Biblical worldview with a commitment to joining in Christ's redemptive work for all of creation. Students complete a practicum experience that engages them with ongoing public health and community health development work in either the U.S. or abroad in communities experiencing public health problems. Innovative dual majors are encouraged.

Students will be prepared to compete for entrance into graduate programs in public health and related fields, and to effectively work in partnership with communities to address those conditions that produce poor health in populations. A Bachelor of Arts, Bachelor of Science, and a minor are offered.

## Public Health (BA)

The Bachelor of Arts degree with a major in Public Health requires two years of one foreign language and 53-55 hours in the major. All major courses must be completed with a grade of C- or better and are included in the major GPA.

	Š	0 0	MAT 210	4	Introductory Statistics
POS 331	3	Public Policy	PSY 275	3	Introductory Statistics
			SOC 355	3	Applied Social Statistics

## Sustainable Development

Sustainable Development, established in 2015, provides interdisciplinary training for solving global sustainability problems in U.S. and international settings. Students build a broad foundational understanding of the interactions of the three spheres of sustainability—environment, economics, and society. By studying at the nexus of these subjects, students develop a holistic understanding of key issues facing humanity and the environment.

In this program, students take core courses in sustainability, environmental science, sociology, public health, and economics and gain depth in a specific area by choosing elective courses that connect their passion for studies with their desire to help people. An international, field-based course during January interterm enables students to experience and apply what they have been learning. Near the end of the curriculum each student participates in a field-based development project through a required practicum and a senior capstone experience involving a research project on a local, real-world issue.

## Sustainable Development (BS)

The Bachelor of Science degree with a major in Sustainable Development requires 66 hours. Students may not double major with Environmental Science. All major courses must be completed with a grade of C- or better and are included in the major GPA.

## **BIO 100**

## General Biology

Concepts and principles are studied to provide basic knowledge that assists students to meet the obligations of an informed citizen. The Spring semester of General Biology is intended for elementary education majors as a content course that emphasizes instructional methodologies in science education. Three hours of lecture and two hours of laboratory per week. Meets foundational core life science requirement; not available to biology majors.

4 hours

#### **BIO 102**

## **Biology for Educators**

Introductory principles of biology taught with materials appropriate for future teachers. Topics include cell biology, inheritance, diversity, evolution, and ecology. Three hours of lecture and two hours of laboratory per week. Meets foundational core life science requirement; not available to biology majors.

4 hours

## **BIO 104**

## 3 hours

Animal Biology A foundational core course designed to provide a broad look at life science through the study of the Kingdom Animalia. Includes a consideration of tissues, anatomy, ecology, natural history, and human interaction with representative vertebrates and invertebrates. Two hours lecture and two hours laboratory per week. Meets foundational core life science requirement. Offered Fall semester of even years.

## **BIO 106**

4 hours

## Human Biology

This course is designed as a one semester anatomy and physiology course covering all body organ systems and the interrelatedness of human health and lifestyle, environment, etc. Three hours lecture and two hours of laboratory per week. Meets foundational core life science requirements. Offered Fall semester. Preference given to Social Work majors.

4 hours

#### **BIO 107**

## Introduction to Wildlife

This course looks at the wide range of adaptations, behavior, life history, and geographical distribution of vertebrates from fishes to mammals. Labs focus on observation (and sometimes capture) of vertebrates in their natural habitat and involve several outdoor sessions. Three hours of lecture and two to three hours of lab per week. Meets foundational core life science requirement. Does not count toward any Biology major. Offered Spring semester.

#### **BIO 112** 3 hours

## **Topics in Biology**

A study of some areas of biology most relevant to today's students with an emphasis on concepts and principles that will best assist students to meet the obligations of an informed citizen. Topics to be considered include process of science, structure and function of plants and animals, the relationship of organisms to one another and their environment, genetics, microbiology, biotechnology, bioethics, and evolution. Two hours of lecture and two hours of laboratory per week. Meets foundational core life science requirements.

## **BIO 113**

3 hours **Botany for Beginners** 

An introductory course designed for the non-science major to provide a basic understanding of the processes through which plants function, the role of plants in the environment, and to equip students with skills that will allow them to continue to enjoy plants long after the course is over. Topics covered will range from subcellular processes to ecological roles. Plant adaptation, diversity, ecological interactions, basic plant identification, plant propagation, and plants of economic importance are included. Two hours of lecture and two hours of laboratory per week. Meets foundational core life science requirements.

#### **BIO 170** I-4 hours

## Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 4 hours

## **BIO 201**

## Biology I: Foundations of Cell Biology and Genetics

Study of cellular structures and metabolism emphasizing form and function on structure; the cellular pathways of energy and matter transformation; the information flow, exchange and storage and the molecular, mitotic and meiotic mechanism of inheritance. Three hours of lecture and two hours of laboratory per week. Meets foundational core life science requirement. Majors/Minors only.

4 hours

## **BIO 202**

## **Biology II: Organisms and Diversity**

This course is the second of the two-course sequence for freshman biology majors. In this course we will examine the diversity of organisms, including algae, protozoa, fungi, plants, and animals, as they appear through the fossil record from the Paleozoic Era to the present time. Majors/Minors only. Prerequisite: BIO 201.

4 hours

## **BIO 203**

## **Principles of Genetics**

Fundamental principles of Mendelian inheritance, introduction to molecular genetics, along with quantitative and evolutionary genetics will be examined. Three hours of lecture and two hours of laboratory per week. Does not normally satisfy foundational core science requirement.

## **BIO 210** Medical Terminology

This course is designed to assist students in learning medical terminology, as well as to provide instruction in word-building skills so that words can be identified by their parts. It provides a solid vocabulary foundation for those individuals who anticipate taking the MCAT or plan to enter an area of allied health studies. I-4 hours

#### BIO 270 Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 4 hours

#### **BIO 300** Human Medical Physiology

Human Medical Physiology is an advanced study of human physiology as it examines the functional processes of the organ systems. The course covers human physiology in a clinical setting as well as laboratory experiences. Class is approached from a pathology problems based curriculum with laboratories in the university hospital. The course is part of the Global Engagement Centre program.

4 hours

## **BIO 301**

## **Taxonomy of Vascular Plants**

Identification, classification, and systematics of vascular plants are studied. Topics include basic population genetics, the process of speciation, phylogeny reconstruction, and molecular patterns of diversification. Laboratory emphasis is on local flora, plant family characteristics, and modern systematic techniques. Two hours of lecture and four hours of laboratory per week. Prerequisite: BIO 202; BIO 203 is recommended. Offered Fall semester of odd years.

4 hours

## **BIO 304**

## Field Natural History of the Black Hills

Field Course: Introduction to basic field and lab methods used in field natural history. Includes basic nomenclature of spring flora and fauna in terrestrial as well as aquatic systems. Examines the principles of geology/paleontology, ecosystems, communities, and wildlife as exhibited in the Black Hills region of South Dakota, including Mt. Rushmore, Badlands National Park, Custer State Park, Devils Tower National Monument, the Black Hills National Forest, and Yellowstone and Grand Teton National Parks. Prerequisites: BIO 202, ENS 204, or permission of instructor. Offered Summer at the Wheaton College Science Station, Black Hills South Dakota. 4 hours

## **BIO 307** Vertebrate Natural History

This course looks at the adaptive anatomy, feeding relationships, behavior, life history, and geographical distribution of vertebrates from fishes to mammals. Labs focus on methods currently employed for study and observation of vertebrates in the field and involve several outdoor sessions. Three hours of lecture and three hours of lab per week. Prerequisite: BIO 202 or permission of the instructor; ENS 204 is recommended. Offered Spring semester.

### **BIO 309**

4 hours **Directed Field Experience** 

Investigative learning involving closely directed field research or field experience. Instructor permission required.

#### **BIO 310** 4 hours Human Anatomy and Physiology I

The lecture portion focuses on structure and function of the skeletal, muscular, nervous and endocrine systems, and examines core concept of homeostasis and feedback loops. The lab portion of the course consists of detailed laboratory dissections of the dogfish shark and domestic cat, serving as models of human anatomy, coupled to computer aided examination of human anatomy and some histology. Three hours lecture and three hours of laboratory per week. Meets foundational core life science requirement. Prerequisites: BIO 201; and CHE 201 or CHE 211. Offered Fall semester.

## BIO 311

#### 4 hours Human Anatomy and Physiology II

A continuation of BIO 310, the lecture focuses on the respiratory, cardiovascular, urinary, and digestive systems, and examines several core concepts demonstrated by these systems. The lab portion of the course focuses on common experimental techniques and physiological measures relevant to respiratory, cardiovascular, and urinary systems. Three hours of lecture and two hours of lab per week. Prerequisite: BIO 310. Offered Spring semester.

#### **BIO 312** 4 hours Cellular and Molecular Biology

Analysis of the eukaryotic cell with regard to its molecular and biochemical characteristics, including bioenergetics, protein kinesis, cell signaling, cell-division cycle, cell junctions and extracellular matrix, cancer, stem cells and tissue renewal, and the adaptive immune system. Three hours lecture and three hours of lab per week. Prerequisites: BIO 201; BIO 203; CHE 201 or CHE 211; CHE 202 or CHE 212; and minimum junior status or permission of the instructor.

## BIO 331

## **Comparative Anatomy**

Classification, characteristics, and comparison of typical chordate animals with emphasis on the vertebrates. Lab contains detailed dissection of representative vertebrates. Three hours of lecture and three hours laboratory per week. Prerequisite: BIO 202 or permission of instructor. Offered Fall semester of odd years and Summer at discretion of faculty.

4 hours

## **BIO 345**

## 3 hours

**Evolution and the Nature of Science** This course introduces the conceptual and theoretical foundations of evolution and the nature of science. Students will be introduced to the longer-term processes of change. Evaluation of theories of species dynamics will be understood within the framework of the nature of science. Prerequisite: Junior standing as a biology major or instructor permission.

#### **BIO 360**

## Independent Study

An individualized, directed study involving a specified topic.

## **BIO 370**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

I-4 hours

I-4 hours

**BIO 381** 

## **Research Methods**

Research Methods will introduce students to essential components of experimental design and the research process in Biology. The goal is to prepare students to critically interpret the research of others and to undertake research projects in course-based labs, through independent or summer research projects, and postgraduation research programs. Class topics will include defining a research question, hypothesis formulation, experimental design (correlation vs. necessity or sufficiency), controls, power and the role of statistics, interpreting results, and presenting and publishing results. The course will also include a series of instructor and student led seminars on articles and techniques relevant to a targeted research field.

#### **BIO 393** Practicum

**BIO 410** 

I-4 hours

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

3 hours

**Bioethics** An introduction to bioethics, comprising an overview of ethical theory, uniquely Christian contributions to ethical theory, and a consideration of specific bioethical problems. The interaction of bioethics in the worlds of ideologies, politics, and economics, and the unique contribution a Christian bioethical perspective brings to the public square, will also be foci of the course. Designed for upper level biology students, but open to any upper division student willing and able to acquire the necessary biological competence to knowledgably deal with the biology of the course material.

## **BIO 432**

#### **Developmental Biology**

A study of development at the molecular, cellular, and organismal levels. The class sessions focus on current concepts in developmental biology. The lab utilizes living model organisms (e.g. urchin, fly, chick) to conduct inquiry-based projects. Three hours of lecture and three hours of laboratory per week. Prerequisites: BIO 201; BIO 203; and BIO 312 or BIO 462 recommended. Offered Fall semester.

4 hours

4 hours

## **BIO 441**

**Environmental Physiology** 

An introduction to the physiology of cells and tissues with emphasis on responses to environmental challenges. Topics include cell structure, protein synthesis and enzymes, water balance, transport, mineral nutrition, metabolism including photosynthesis, and responses to environmental cues stresses. Three hours of lecture and three hours of laboratory per week. Prerequisites: BIO 202; CHE 201 or CHE 211; and CHE 202 or CHE 212. Offered Spring semester of odd years.

I-4 hours

## **Environmental Science Courses**

## ENS 170

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## **ENS 201**

Introduction to Geology in the Field

Introduction to earth's materials, processes, and history as discovered through field observations of minerals, rocks, fossils, strata, caves, rivers, canyons, and mountains. Emphasis is placed on field experiences and observations, complemented by study of maps, laboratory work, and discussions. Offered during select Summers at the Black Hills Science Station near Rapid City, South Dakota.

4 hours

4 hours

## **ENS 204**

Principles of Ecology

An introduction to the relationships existing between organisms and their environment. Lectures focus on the structural and functional aspects of populations, communities, and ecosystems in the context of the major North American biomes. Three hours lecture and two hours laboratory per week. Does not normally satisfy foundational core science requirement. Prerequisite: Four hours of BIO or ENS or permission of the instructor.

3 hours

## **ENS 240**

## Introduction to Geology

Basic course dealing with the fundamental concepts of physical and historical geology. Three hours of lecture and two hours of lab per week. Meets the foundational core earth science requirement.

#### **BIO 450 Directed Research**

I-4 hours

### Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. The student must accumulate 42 hours of experience (e.g., research, class/group meetings, assignments) per credit hour earned. Departmental abbroval reauired.

4 hours

## **BIO 452** Animal Physiology

A study of the physiological nature of living organisms with special consideration of the functions of vertebrate organ systems. Practical experience is given in working with live animals and the instrumentation used to examine the functional processes of various systems. Three hours of lecture and three hours of laboratory per week. Prerequisites: BIO 331; CHE 201 or 211; and CHE 202 or 212. Offered Spring semester.

BIO 462 **Molecular Genetics** 

4 hours

The current understanding of what a gene is, how it functions, and how it is regulated, particularly from a molecular perspective, is the essence of this course. Viral, prokaryotic, and eukaryotic systems are studied. Current scientific literature as well as a published textbook serve as sources. Three hours lecture and one fourhour laboratory per week. Prerequisites: BIO 201, BIO 203, and two courses in chemistry; BIO 471 is recommended. Offered Fall semester of even years.

4 hours

## BIO 471 Microbiology and Immunology

An introduction to general microbiology and to the human immune response. Included are microbial growth and control, diversity and taxonomy, the ecological role of microorganisms, and medical microbiology. The laboratory provides basic bacterial culture techniques, including the identification of unknowns. Three hours lecture and three hours of laboratory per week. Prerequisites: BIO 201 and BIO 203. Two courses in chemistry are recommended. Offered Spring semester.

## **BIO 472** Histology

The study of minute structure, composition, and function of tissue. Lectures and laboratories help expose students to both the normal tissue formation found in animal tissues (chiefly mammalian) and many of the abnormal tissue developments associated with pathological dysfunctions. Prerequisites: Completion of the biology core courses before enrolling or permission of the instructor.

4 hours

## **BIO 480**

#### Seminar A limited-enrollment course designed especially for upper-class majors with

emphasis on directed readings and discussion. I-2 hours

I-4 hours

#### **BIO 490** Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field. 4 hours

## **BIO 493**

## **Biology Senior Capstone**

An integrative, senior-level course in which major themes from within the biology major and from the Taylor foundational core program are intentionally revisited at a depth appropriate to college seniors. Such themes include the nature of biology as a natural science, the historical and philosophical foundations of the natural sciences, and the interaction and integration of biology with the Christian faith. Students will also actively engage in the process of doing current biological science, as well as consider several ethical issues that arise from current biology. Prerequisite: Senior standing as a biology major. Offered January Interterm.

## ENS 241

## Physical Geology

A general introduction to the earth's internal and external physical, dynamic systems.

Topics include occurrence and formation of minerals and rocks, processes that shape the earth's surface, and the internal structure and dynamics that lead to plate tectonics and crustal deformation. Special emphasis is placed on the environmental aspects of humans' interaction with the earth. Three hours of lecture and two hours of lab per week. Meets foundational core earth science requirement.

4 hours

## ENS 242 Geology of Indiana

An introduction to the concepts of physical and historical geology in the context of Indiana. Topics include rocks, fossils, structure, landforms, and earth and environmental resources of the state. Offered during Summer session and includes a required field trip to several regions of Indiana for field observation and collection of mineral, rock, and fossil specimens. Meets foundational core earth science requirement.

I-4 hours

3 hours

#### ENS 270 Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## **ENS 302**

#### 4 hours

Environmental Law and Policy Lectures introduce the major elements of U.S. environmental law: NEPA, EIS, CAA, CWA, RCRA, CERCLA, TSCA, FIFRA and CRTK. The administrative process, cost/benefit analysis and the role of litigation in enforcement are also discussed. Presentation techniques and debate skills are introduced. Three hours of lecture and a discussion section per week. Prerequisite: Senior environmental science majors and minors or permission from the instructor.

#### **ENS 319**

## **Principles of Soil Science**

An introduction to soil science with an emphasis on soil formation and taxonomy in the context of the landscape. Soil physical properties, water relations, and chemistry and biological properties will be the central focus. Special emphasis is placed on human interaction with the soil resource. Agricultural and current environmental issues as they relate to the soil resource are addressed. Lab exercises focus on the analysis of basic soil physical and chemical properties. Soil fertility and conservation are additional lab topics. Prerequisite: SUS 200 or SUS 231.

4 hours

#### **ENS 341** Earth Materials

4 hours

Basic principles of mineralogy and petrology, with emphasis placed on description, identification, classification, and interpretation of rock-forming minerals and the igneous, sedimentary, and metamorphic rocks they comprise. Also includes origin and occurrence of earth materials and their uses in economic and environmental contexts. Lab emphasizes observation of hand specimens and some thin-sections. Three hours of lecture and the equivalent of two hours of lab per week, including field trips to selected locations throughout the state. Prerequisite: ENS 241 or permission from the instructor.

4 hours

## **ENS 355**

**Geospatial Analysis** 

An introduction to methods of collection, management and analysis of geospatial data. Topics include basic map properties, preparation and interpretation of thematic and topographic maps, analysis of aerial photographs, surveying by traditional and global positioning systems (GPS) techniques, and acquisition of remotely-sensed satellite data. Special emphasis is placed on methods and applications of geographic information systems (GIS) in geospatial analysis. Prerequisite: ENS 241 or SUS 200 or SUS 231.

ENS 360

## I-4 hours

per week. Prerequisite: ENS 241 or permission from the instructor.

Independent Study An individualized, directed study involving a specified topic.

## ENS 361

## Geomorphology

An applied approach to the study of earth surface processes and the landforms they produce. Topics include processes and landforms associated with weathering, mass wasting, rivers, karst, tectonics, glaciers, shorelines, and wind. Emphasis placed on environmental and land-use applications. Field and lab assignments include qualitative descriptions and quantitative measurements from fieldwork, topographic and geologic maps, and aerial photographs. Three hours of lecture and three hours of lab

4 hours

### **ENS 362**

Hydrogeology

Basic processes and measurement of the hydrologic cycle, including precipitation, evaporation, surface runoff, stream flow, soil moisture, and groundwater. Emphasis placed on groundwater, including aquifer characteristics, principles of flow, conceptual models of regional flow, geology of occurrence, well hydraulics, chemistry and quality, detection of pollutants, contaminant transport and remediation, and resource development. Three hours of lecture and three hours of lab per week. Prerequisite: ENS 241 or permission from the instructor.

3 hours

4 hours

## **Public Health Courses**

#### **PBH 100**

#### Introduction to Public Health

This course is a foundational course for the major and an elective for students wishing only to be introduced to the field. The course is built upon a population perspective and ecological perspective on disease causation and prevention. As a general overview of the field, Introduction to Public Health provides an historical perspective on the role that public health has played in improving the health status of populations, both in the US and globally. Moving beyond the biologic mechanisms of disease causation, students will gain an understanding of the environmental, social and behavioral determinants of health for populations, and factors that contribute to disparities in health between subpopulations. Students will be introduced to the core functions and essential services of public health in the US and how these are met in less economically developed societies. The core disciplines of public health will be defined and described, including epidemiology, biostatistics, environmental health, policy and administration, and the social and behavioral sciences. Students will examine current public health challenges in the US and globally.

#### PBH 110 **Global Health**

3 hours

This course provides an overview of the determinants of health, burden of disease, risk factors, health systems, and key measures to address the burden of disease in populations for both industrialized and less developed nations. The course will have a global perspective, paying particular attention to links between health and development, environment, human rights, and culture.

#### ENS 364 4 hours Water Resources and Appropriate Technology

Concepts and practices of water resource development and appropriate technology in the context of environmental resources in a developing country. Students participate in a service-learning project of design and implementation of water resource related appropriate technology (such as well-drilling, water quality protection, hygiene training, and sanitation system design) as part of a holistic ministry toward transformational development. Students develop a perspective on the role of appropriate technology in the responsibility of individuals in cross-cultural service. in issues of cross-cultural communication and interactions, and in God's purposes in missions and the worldwide church. Prerequisite: IAS 120.

I-4 hours

#### **ENS 370** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

**ENS 375** 

## Systems Ecology

The principles of systems theory are introduced in an integrated study of the development, dynamics, and disruption of natural ecosystems. Theoretical, analytical, and experimental aspects of ecosystems are explored. Students are introduced to the use of microcomputers as a tool in ecosystem modeling. Prerequisites: ENS 204 and one course in college-level mathematics or computer science.

4 hours

4 hours

## ENS 383

**Environmental Ethics** An in-depth discussion of the ethical implications of major environmental problems, such as world population and food supply, inequities in land and resource distribution,

animal rights, materialism and personal life styles, and exploitation versus stewardship of the environment. Three hours of lecture and a discussion section per week. Prerequisite: Junior or senior standing as an environmental science major or permission from the instructor.

I-4 hours

#### ENS 393 Practicum

Supervised learning involving a first-hand field experience or a project. Generally,

#### one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer. ENS 450 I-4 hours

**Directed Research** 

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

#### ENS 480 Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

#### ENS 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

## **ENS 493**

Environmental Science Capstone

An integrative, junior/senior-level course in which major themes from within the environmental science major and from the Taylor foundational core curriculum are intentionally revisited at a depth appropriate to college seniors. Offered in the Fall semester of every other year. Prerequisite: Junior or senior standing as an environmental science major.

## **PBH 170**

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

I-4 hours

## PBH 210

### Human Diseases

Introduction to biomedical concepts associated with human diseases. Emphasis is on understanding the etiology, pathogenesis, diagnosis, treatment, and risk factors of diseases affecting public health and how this impacts the prevention and control of those diseases. Offered Fall semester. Prerequisites: PBH 100 or PBH 110.

2 hours

## PBH 213

## Substance Education

The course is designed to prepare professionals for drug education. The scope of the course is wide and includes the following basic areas: drug terminology, pharmacology, psychodynamics, legal and law enforcement perspectives, social and cultural determinants, ethical and moral alternatives, behavioral aspects, and educational strategies. A strong emphasis is placed on developing guidelines for decision making in our society. The purpose is to exchange the best amount of information on drug use, misuse, and abuse available. Offered Spring semester of even years.

2 hours

Selected Topics

I-4 hours

## **PBH 224 Healthy Aging**

## 2 hours

This course will provide an overview of issues related to public health and aging. Topics such as demography and epidemiology of aging, perceptions of aging as viewed in society today, myths and stereotypes of aging, and challenges faced by elders will be addressed. The course will support health promotion for older adults and highlight the roles played by families, government, health care providers, and advocates.

3 hours

#### **PBH 244**

## Health and Human Sexuality

The course examines the basic foundations of human sexuality and incorporates topical issues of interest and importance. In addition to the dissemination of cognitive information, a strong emphasis of the course is placed on the psychosocial aspects of human sexuality and its impact on individuals and society. Students are encouraged to develop and maintain a personal philosophy concerning sexual decision-making and behavior. The broad goals of the course include an increased knowledge of the biological, developmental, and scientific aspects of human sexuality, in addition to developing a greater awareness of self and others.

## **PBH 270**

## Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 4 hours

I-4 hours

**PBH 320** Epidemiology

Study of the distribution and determinants of disease occurrence, including core concepts such as incidence, prevalence, risk, risk factors, relative risk, attributable risk, sensitivity, specificity, and different types of epidemiologic study designs. Students will use data from epidemiologic case studies to calculate odds ratios, relative risk, and confidence intervals as well as calculate sensitivity and specificity of screening tests. Offered Spring semester. Prerequisites: PBH 100; MAT 210 or SOC 355 or PSY 275.

## **PBH 330**

## Assessment for Program Planning

This course will examine intervention approaches in public health for the prevention of infectious disease, chronic disease, injury and disability, and the promotion of community health and wellbeing. Intervention approaches through environmental change, policy and systems change, social change, and behavioral change approaches will be studied. Case studies of interventions will be examined. Offered Fall semester. Prerequisites: PBH 100.

3 hours

#### **PBH 330L**

#### I hour Service Learning in Community Assessment

Students will participate in a neighborhood assessment and mapping project in a local community in partnership with a community organization. This will include neighborhood observations, neighborhood survey interviews, and participation in neighborhood events. Offered Fall semester. Prerequisite: PBH 100.

4 hours

#### **PBH 335**

## **Environmental Health**

This course will explore how both the natural and built environment affect human health by looking at the impact of physical, chemical, biological, and socioeconomic factors external to humans. Environmental health is an interdisciplinary field that focuses on the theory and practice of recognizing, assessing, controlling, and preventing environmental and occupational hazards that may adversely affect the health of the present and future generations. *Prerequisites: PBH 100; SUS 200 or SUS 231.* 

#### **PBH 340**

#### 4 hours **Community Health Development in Practice**

The course will examine the theory and practice of community health development as it is practiced by organizations doing this work internationally. The course will be offered in partnership with a non-governmental organization doing transformational development in one of the countries where they are working. The course will include a service component and discussions of those experiences will emphasize intercultural competencies. Offered Interterm of odd years. Prerequisites: PBH 100 or PBH 110; PBH 330.

## PBH 345

## International Humanitarian Response

This course examines the international humanitarian response to disasters from a Christian and public health perspective. Current crises from around the world will be discussed, including causes; effects on population health; problems associated with population displacement; public health responses; and challenges to international collaboration between governments, international organizations, and nongovernmental organizations.

3 hours

3 hours

### **PBH 346**

## **Community Health Education**

This course illustrates how the health of populations is promoted and protected by organized public health practice. Students are acquainted with current evolving concepts and performance of these practices and are introduced to essential public health services. The problem-solving approach is emphasized through small-group interaction, case-study method, and critical thinking skills. Meets foundational core civic engagement or general social science requirement. Offered Spring semester.

#### **PBH 347** 3 hours Health Policy and Law in National and Global Contexts

The course will provide a framework for understanding and analyzing a range of health policy issues in domestic and global contexts. The course will focus on the U.S. policy-making and legal system in the domestic context. It will provide additional focus on global law and policy as it relates to vulnerable populations of refugees, displaced populations, and populations living in poverty. The course will consider essential issues in health policy and law including health insurance, health economics, individual rights in health care, gender equity, and health care access and quality.

3 hours

## PBH 350

## **Determinants of Health and Health Equity**

The focus of this course will be on examining the broad range of environmental, social, cultural, and policy factors that contribute to disparate outcomes between population groups. This course will introduce students to the literature and methods of social epidemiology. Structured in a seminar format, with readings and case studies, students will examine specific cases of disparate health outcomes within communities including an analysis of the determinants of those disparities. Approaches to health equity will be discussed. Offered Spring semester. Prerequisites: PBH 100 and PBH 320; MAT 210 or SOC 355 or PSY 275.

I-4 hours

I-4 hours

I-4 hours

#### **PBH 360** Independent Study

An individualized, directed study involving a specified topic.

## **PBH 370**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

### **PBH 393**

Practicum

### Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer following junior year or Fall of senior year. Prerequisites: PBH 100, PBH 110, PBH 210, PBH 320, PBH 330, PBH 340, and PBH 350.

I hour

## **PBH 425**

**CHES Preparation Seminar** 

This course provides a detailed review of the analysis and application of the Seven Areas of Responsibilities and Competencies. Focus is on helping increase knowledge of the concepts and successfully pass the Certified Health Education Specialist (CHES) examination in either the Fall or Spring semester of the senior year. It is designed to review the health educator responsibilities, competencies, and subcompetencies and also provide an overview of the national certification examination. Additional work will be required by the student to maximize success on the exam. Prerequisite: Senior in Health Promotion and Wellness or Public Health major or permission of instructor. Pass/fail only.

#### **PBH 450** Directed Research

## Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

I-4 hours

### **PBH 480**

### Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

#### **PBH 490** Honors

### Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

## **PBH 493**

2 hours Public Health Senior Capstone

This course will be structured as a seminar, pulling together the experiences of all the students into a broad public health framework. Major challenges faced during practicum will be discussed. Readings, videos, guest lectures, and optional workshops will support the discussions that take place in class. An integrative senior paper will provide the structure for students to integrate their faith, public health coursework, and practicum experiences. Part of the comprehensive exam, paper, or project required for graduation will be completed during the practicum. Offered Spring semester. Prerequisites: PBH 100, PBH 110, PBH 210, PBH 320, PBH 330, PBH 393; and PBH 340 or PBH 350.

# I-4 hours

I-2 hours

## Sustainable Development Courses

## SUS 120

#### I hour Environmental Stewardship and Sustainable Living

Key topics related to stewardship and sustainable living are presented in a weekly seminar. Guest lecturers and discussions are focused on aspects of ecological and social sustainability and its application in daily life and on campus.

## **SUS 170**

Selected Topics

## I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

#### **SUS 200**

#### **Environment and Society**

Introduction to ecological principles and human impacts on the environment. Issues studied include population dynamics, natural resources, pollution problems, and environmental ethics. Lab exercises focus on experimental ecology and the basic techniques used to describe and measure environmental quality. Meets the foundational core life science requirement. Environmental science majors should elect SUS 231 rather than SUS 200.

#### SUS 211 **Crops and Society**

## 4 hours

This course will study the contribution of crops to society and society's development. The course will cover cereal crops, legumes, herbs, spice, fibers, medicinal plants, and tropical and temperate fruits and nuts. Soil and water conservation will be covered. Emphasis will be on agriculture in developing nations and development policies that affect agriculture, stewardship, the poor, and malnourished.

## SUS 231

## 4 hours Environmental Science, Society, and Sustainability

An introduction to environmental science, including a discussion of ecological principles and their application, energy systems, pollution problems, environmental policy and decision making, and the scientific and ethical implications of human impacts on the environment. Lab exercises focus on experimental ecology and the basic techniques used to describe and measure environmental quality. This course serves three functions: (I) it is the entry level course for environmental science majors; (2) it may be taken for foundational core lab science credit; and (3) biology majors may count it as a 200-level biology course when calculating course hour requirements in biology. Three hours of lecture and two hours of lab per week. Meets the foundational core life science requirement.

#### **SUS 270** Selected Topics

## I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

### SUS 310

## **Principles of Sustainable Development**

An exploration of the key ideas and debates in development theory with an emphasis on evaluating whether and how global poverty can be alleviated without irreparably damaging the environment. Labs feature interdisciplinary approaches to sustainable and transformational development drawn from agroecology, sociology, public health, holistic missions, and political economy. Prerequisite: SUS 231.

4 hours

4 hours

## SUS 315

#### Sustainable Agriculture and Food Systems

This course focuses on understanding agriculture and food systems from a sustainability perspective. Students learn the principles of agro-ecology and how to apply them to various types of agriculture. They also critically evaluate global and local food systems, becoming familiar with strategies that have been tried to improve the equitable distribution of food and the environmental sustainability of food systems.

## SUS 325

## Sustainable Development in Practice

This field-based course explores contemporary trends in international development through the lens of sustainable community development. The social, ecological, and economic sustainability of development are assessed through a case-study approach. The course will be offered in partnership with a non-governmental organization doing transformational development in one of the countries where they are working. The course will include a service component and discussions of those experiences will emphasize intercultural competencies. Offered Interterm of odd calendar years. Prerequisite: SUS 231.

## SUS 330L

Assessment and Planning Lab for Sustainability

Students will participate in a community-based sustainability assessment and mapping project. This will include direct observations, carrying out interviews, and gathering secondary data related to sustainability. Offered Fall semester of every other year. Prerequisite: SUS 231.

I-4 hours

I hour

#### SUS 360 Independent Study

#### **SUS 480**

### Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

#### SUS 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

2 hours

#### SUS 493

Sustainable Development Capstone

An integrative, junior/senior-level course in which major themes from within the sustainable development major and from the Taylor foundational core curriculum are intentionally revisited at a depth appropriate to college seniors. Offered Fall semester of every other year. Prerequisite: Junior or senior standing as a sustainable development major.

## Chair, Associate Professor I. Hirschv Professors M. Bates, J. Sherlock Associate Professors J. Little, D. Poucher Assistant Professors M. Chasara, J. Henegar, C. Kellner, S. Koudsia, A. Stucky

In support of the University's mission, the department prepares students to engage in a life of servant leadership characterized by lifelong learning, innovation, excellence, and ethics in organizations around the world.

As an expression of Taylor's multi-dimensional education philosophy, the department offers majors in Accounting, Finance, Management, Marketing, and Sport Management. Minors are available in Accounting, Economics, Entrepreneurship, Finance, Management, Marketing, and Sport Management.

All business curriculum courses combine theory, principles, techniques, and practical applications to enhance graduates' employment opportunities and serve as a solid groundwork for graduate studies. The relevance of Christian faith through current, real-world situations is emphasized in classes, field trips, and expert Christian guest lecturers. Team development and business projects are available in selected business courses; a practicum experience is required of all business school students. Development of communication skills, both written and oral, is emphasized. Many classes give attention to problem solving and quantitative analysis.

Formal acceptance into the Taylor University Business Department is a process that occurs by application after completing 30 credit hours of college coursework including four business prerequisite classes. Your college record serves as a predictor of success and acceptance will be based on academic performance as well as leadership and engagement. In addition to seeking students with strong academic records overall, we select candidates who display academic aptitude for business coursework by strong performance in business pre-admission courses and show evidence of leadership promise through involvement in diverse activities and strong essays. Prior to acceptance, selected major is tentative pending formal acceptance into the department. Criteria and the process for acceptance are available in the department office.

In the summer following a student's junior year, a practicum/internship for four credit hours is required of all majors except Sport Management.

Graduation requirements in the majors include passing all courses within the major with grades of C- or better. Any major course with a grade below Cmust be repeated before subsequent sequential courses may be taken. All major courses (including electives) must be passed with a grade of C- or better. Seniors must pass a senior comprehensive examination in their major.

The Accounting, Finance, Management, and Marketing majors are accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

## Accounting

The Accounting major is designed to prepare students for accounting and financial careers in public accounting, business, government, education and nonprofit organizations. The program presents accounting theory and practice, current developments and ethical considerations discussed in a Christian context. Students are taught how to develop, analyze and interpret financial plans and results and to provide management information in the most useful manner. Guided by faculty advisors, students may pursue programs leading toward certification in public accounting or management accounting. Most states require completion of 150 credit hours before being licensed as a Certified Public Accountant, with some states requiring 150 credit hours before being eligible to sit for the CPA examination.

## Accounting (BS)

The Bachelor of Science degree with a major in Accounting requires 82-86 major hours. All major courses must be completed with a grade of C- or better and are included in the major GPA.

## **Marketing Minor**

The Marketing minor requires 25 hours. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

#### **Minor Requirements**

Minor Requi	rements		Select three courses from the following:			
MAT 210	4	Introductory Statistics	MKT 312	3	Professional Selling	
MGT 201	3	Introduction to Business	MKT 313	3	Retailing and Services Marketing	
MKT 231	3	Principles of Marketing	MKT 380	3	International Marketing	
MKT 445	3	Best Practices in Marketing	MKT 390	3	Digital Marketing	
MKT 460	3	Consumer Behavior	MKT 410	3	Marketing Research	
			MKT 412	3	Advertising and Promotional Strategy	
			MKT 451	3	Marketing Analytics	

## Sport Management

The Sport Management major blends two disciplines: business and sport. This major addresses the Taylor emphasis on Christian service in the growing area of sport business. The student will learn to identify and understand the internal and external factors that shape sports in a culture, apply management skills, and evaluate the goals of a variety of sport organizations (high school, college, and professional), and be able to apply fundamental business concepts to the sports industry. The student majoring in Sport Management will become familiar with the various agencies governing sports from the professional, collegiate, high school, and amateur levels. An internship is required for both baccalaureate degrees in Sport Management.

## Sport Management (BA)

The Bachelor of Arts degree with a major in Sport Management requires two years of one foreign language and 51 hours. All major courses must be completed with a grade of C- or better and are included in the major GPA. **\_**1

## **Accounting Courses**

ACC 170 Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

3 hours

## ACC 241

Accounting Principles I An introduction to the language of business. Financial transactions are analyzed, recorded, summarized and reported in a meaningful manner to management. Also studied are basic financial statements and the various accounting and internal control procedures for recording and protecting assets. Offered Fall semester.

#### ACC 242

## Accounting Principles II

Continuation of ACC 241. Accounting problems and procedures pertaining to partnerships and corporations are studied. Also studied are various accounting procedures and reports used by management in acquiring fixed assets, budgeting and controlling manufacturing and departmental operations, reporting financial conditions, and analyzing the results of operations. Prerequisite: ACC 241. Offered Spring semester.

I-4 hours

3 hours

3 hours

## ACC 270

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## ACC 303

Cost Accounting

#### A study of the nature of costs and their importance in manufacturing, service and not-for-profit organizations. Topics include: collection and allocation of costs to products and processes, planning, budgeting, and control reports, relevant costs, cost-volume-profit analysis, responsibility accounting and other management

ACC 308

## **Integrated Accounting Systems**

analyses and reports. Prerequisite: ACC 242.

Explores the use of integrated accounting software in a variety of business types through hands on use. Reinforces accounting principles and financial analysis. Emphasizes the setup and maintenance of an integrated software system. Prerequisite: ACC 242. Offered in the Spring semester of odd calendar years.

3 hours

## ACC 341

4 hours Intermediate Accounting I

A detailed study of the theory and procedures used by accountants in recording and valuing assets and the resulting effect on profits. Emphasis is placed on current issues in accounting theory and practice in both intermediate accounting courses. Prerequisite: ACC 242. Offered Fall semester.

4 hours

## ACC 342

Intermediate Accounting II

Continuation of ACC 341. Ă study of the theory and procedures used by accountants in recording and valuing liabilities and capital accounts. Special emphasis is placed on the preparation and interpretation of balance sheets, income statements and statements of changes in financial position. Prerequisite: ACC 341 or permission of instructor. Offered Spring semester.

3 hours

## ACC 353

Fraud Examination

A study of how and why various types of frauds are committed and how they may be deterred. Topics studied include fraud prevention and detection, investigation, as well as the various types including employee, vendor, customer, management, consumer, e-commerce and investment. Recent public frauds will be investigated and analyzed. Prerequisites: ACC 342 or permission of instructor.

#### ACC 360 Independent Study

An individualized, directed study involving a specified topic.

## ACC 370

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## ACC 375

Accounting Ethics

This course develops students' knowledge of the codes of professional ethics for accountants (e.g., AICPA Professional Standards, CMA, CIA) covering various services such as audit, attestation, review, compilation, and tax. In addition, it will explore different theories of ethical behavior and development and Christian ethics. Prerequisite: ACC 242. This course is offered through Taylor University Online (TUO).

3 hours

I-4 hours

I-4 hours

#### ACC 381 3 hours

## Government and Non-profit Accounting

Introduces fund accounting and covers the theory and accounting process for state and municipal governments and non-profit organizations. Prerequisites: ACC 342.

#### ACC 393 4 hours Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Prereauisites: 15 accounting hours and SYS 101 for majors pursuing a systems curriculum. Offered primarily during Summer.

#### ACC 394 9 hours

**Extended Accounting Internship** Supervised learning involving an extended first-hand experience. Prerequisites: 15 accounting hours and SYS 101 for majors pursuing a systems curriculum. Offered primarily during Spring semester.

3 hours

## ACC 405

Auditing I (with Data Analytics) A study of how professional auditors serve the public, stockholders, and management by impartially examining the accounting records and financial statements of enterprises. Topics to be studied include: standards, ethics of the profession, internal control procedures, risk assessment and the nature of audit evidence. The course will include the use of various data analytics tools and techniques focusing on quantitative analysis, depicting data visually, managing large volumes of data, deriving insights for risk assessment, audit planning, and documenting audit evidence. Prerequisite: ACC 342 or permission of instructor. Offered Fall semester.

ACC 406

## 3 hours

Auditing II (with Data Analytics) A continuation of the study of how professional auditors serve the public, stockholders, and management by impartially examining the accounting records and financial statements of enterprises. Topics to be studied include standards, ethics of the profession, internal control procedures, risk assessment, and the nature of audit evidence. The course will include the use of various data analytics tools and techniques focusing on quantitative analysis, depicting data visually, managing large volumes of data, deriving insights for risk assessment, audit planning, and documenting audit evidence. Prerequisite: ACC 405 or permission of instructor. Offered Spring semester.

ACC 416

## 4 hours

Advanced Accounting A study of the more complex issues in accounting for partnerships, consolidated financial statements and multinational and not-for-profit enterprises. This course includes interim and financial reporting and coverage of current regulations and pronouncements pertaining to the profession. Prerequisite: ACC 342 or permission of instructor. Offered Fall semester.

## **Economics** Courses

ECO 170 Selected Topics

## I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

ECO 201

#### 3 hours **Principles of Microeconomics**

An introduction to microeconomics emphasizing decision making by individual producers and consumers. Consequences of such decisions for efficiency of resource use and income distribution in a capitalistic economy are studied. Meets foundational core civic engagement or general social science requirement. Prerequisite: MAT 110, MAT 120, MAT 140, MAT 145, MAT 151, MAT 210, MAT 352, or SOC 355. Offered Fall and Spring semesters.

3 hours

## ECO 202

## **Principles of Macroeconomics**

An introduction to macroeconomics emphasizing how the U.S. economy works. Topics studied include the factors determining the size of the national economy, inflation and unemployment and fiscal and monetary policies. Meets foundational core civic engagement or general social science requirement. Prerequisite: ECO 201 or permission of the instructor. Offered Fall and Spring semesters.

## ECO 270

#### I-4 hours Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

## ECO 331

## Intermediate Microeconomics

Intermediate-level analysis of decision making by individuals in various types of markets. Consequences of such choices for the decision-makers, other people, and society as a whole are studied. Prerequisites: MAT 146 or MAT 151; and ECO 201.

3 hours

#### ACC 442 Federal Taxes I

A study of the effect of federal income tax laws and regulations on individuals and businesses. This course includes discussion of current issues, tax research, tax planning and representative tax preparation software. Prerequisite: ACC 242. Offered Fall semester.

3 hours

3 hours

#### ACC 443 Federal Taxes 2

In depth study of taxation of entities including the tax treatment of formation and liquidation of business entities, as well as differences between book and tax income (loss). The course also includes tax treatment of C Corporations, S Corporations, partnerships, limited liability companies, and trusts and estates. The types of tax exempt organizations will be discussed. Other topics covered include tax consolidation, payroll taxes, and international topics. Prerequisite: ACC 442. Offered Spring semester of even calendar years.

#### ACC 450 **Directed Research**

I-4 hours

6 hours

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

## ACC 475 **CPA** Topics and Certification

A study of the topics tested on the Uniform Certified Public Accountant examination as published by the American Institute of Certified Public Accountants in its Content Specification Outlines. The course is designed to study these topics at a deeper level than previously introduced in previous courses, and to improve research, communication and application of these topics to business situations, demonstrating critical thinking and problem-solving skills. Prerequisites: ACC 405, ACC 416, and ACC 442 or permission of instructor.

#### ACC 480 Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

I-4 hours

#### ACC 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

ECO 332

Intermediate-level analysis of factors determining GDP, unemployment, inflation and interest rates in the U.S. Both open and closed economy models are used. The model divergences and policy implications of the various macroeconomic schools are examined. Prerequisite: ECO 202.

#### ECO 333 History of Economic Thought

Intermediate Macroeconomics

A study of the ideas of the great economic thinkers and the development of various schools of economic thought, including the mercantilists, Smith, Malthus, Ricardo, Mill, Marx, Marshall, and the Neo-classical and Keynesian revolutions. The origins of the more prominent twentieth century developments and schools are examined. Prerequisites: ECO . 201 and ECO 202.

#### ECO 360 Independent Study

An individualized, directed study involving a specified topic.

## ECO 370

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

#### ECO 393 Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered brimarily during Summer.

4 hours

## 3 hours

## 3 hours

I-4 hours

I-4 hours

## ECO 428 Money and Banking

## 3 hours

A variety of practical banking topics are covered, including a review of the development of the banking system, attention to the corresponding evolution of money and the demand deposit system, and an overview of non-bank financial intermediaries and their role in the present economy. Prerequisites: FIN 361, ECO 201, and ECO 202. Offered Spring semester.

3 hours

#### ECO 442

### **Economic Development**

A study of the principles of economic growth of lesser-developed countries (LDCs). Historical development patterns of more-developed countries and various theories of economic growth are considered for their relevance to LDCs. Policies encouraging growth are discussed. The problems of transforming former socialistic economies into free market economies are discussed. Each student does a major research project on one particular LDC. Prerequisite: ECO 202.

## Entrepreneurship Courses

#### **ENT 170**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

I-4 hours

## **ENT 240**

**Creativity and Concept Development** 

Sometimes the most difficult part of innovation is knowing where to start or the creation of an idea. As a result of this course, students acquire skills, processes, and models for enhancing the creative process and using these, develop a plausible business or ministry concept with real-world applicability. Offered Fall semester.

## **ENT 270**

## Series 66: Investment Advisor Representative This course will cover the topics for the Series 66 exam (Investment Advisor

Representative). Students will be expected to sit for the exam upon completion of this course. The Series 66 exam is administered in conjunction with the North American Securities Administrators Association (NASAA). Topics include: economic factors and business information, investment vehicle characteristics, and investment recommendations and strategies.

#### **FIN 442** SIE/Series 66 Combo

This course will combine the Securities Industry Essentials (SIE) and Series 66 courses into one course offering. See FIN 440 and FIN 441.

I-4 hours

4 hours

#### FIN 450 **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

I hour

## **FIN 451**

**Applied Portfolio Management** This course engages students in real-world portfolio management by establishing investment strategies and implementing those strategies within a portion of the university endowment. Students will engage in domestic and global equities as well as preferred shares and fixed income investments. May be repeated for credit.

#### **FIN 453** I hour Applied Portfolio Risk Management

An applied course in fixed income analysis and portfolio management. Students set objectives, strategy, and selection criteria for the Taylor University Endowment Team student-managed fixed-income fund. Securities are analyzed and proposed to the team. Students also participate in the production of quarterly reports and other meetings with the University Board of Trustees. Numerous meetings are required with an open-ended class schedule. Prerequisite: FIN 230 and permission of instructor. May be repeated for credit.

#### **FIN 461 Advanced Financial Management**

This covers the management of a firm's short and long term financial assets. This includes the evaluation of long-term investment decisions as well as short-term cash asset management decisions. Emphasis will be placed on the planning and budgeting process associated with the management of the firm's assets. Prerequisite: FIN 361.

3 hours

#### **FIN 471 Retirement Planning**

This course provides a comprehensive overview of retirement planning needs and analysis for effective planning strategies. Topics include qualified retirement plan design, social security, Medicare, group life health and disability insurance, and nonqualified deferred compensation. Prerequisite: FIN 355.

3 hours

3 hours

## **FIN 472**

### Insurance Planning

This course focuses on assessing and mitigating risk in the financial industry while integrating insurance considerations to manage both risk and return. Topics include business and personal risk, corporate investments, diversification, ownership and property, and legal liability. Prerequisite: FIN 355.

#### **FIN 474** Estate Planning

This course focuses on the transfer of assets from one generation to another. Students will seek to understand how control of money after death can be accomplished. Prerequisite: FIN 355.

3 hours

3 hours

## **FIN 475**

Financial Planning Capstone

This course will allow the student to create a written financial plan using the knowledge acquired from previous course work in the financial planning classes. The student will use a software package to incorporate all the elements of a successful financial plan for a case study client. Prerequisites: ACC 443, FIN 355, FIN 471, FIN 472, and FIN 474.

## **FIN 480**

## Seminar

## I-4 hours A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

#### **FIN 490** Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

3 hours

I-2 hours

## **FIN 494**

**Christian Financial Planning** This course provides the framework for biblical stewardship with regard to financial planning. Successful completion of this course allows students to take the Certified Kingdom Advisors (CKA®) national protoctored exam.

#### **International Business Courses**

#### **ITB 375**

**International Business** 

# 3 hours

An in-depth examination of business practices in other countries, leading to a better understanding of intercultural relationships with trading partners, investors, and host countries. Prerequisite: MKT 231. Offered Fall semester.

#### **Management** Courses

I-4 hours

3 hours

#### Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **MGT 201**

**MGT 170** 

Introduction to Business

Students learn the foundational concepts of establishing and operating successful ventures in the highly competitive global economy. The business major as well as other disciplines are exposed to key business leadership principles, strategies, technologies, and disciplines used in the 21st Century enterprise through a combination of lecture, case analysis, group projects, and simulation exercises. Offered Fall and Spring semesters.

#### **MGT 260** 3 hours

#### **Business Systems Applications**

This course introduces and develops competency in various systems and technologies commonly employed in the business environment. Specific topics addressed include spreadsheet applications (formulas, functions, charts, pivot tables, formatting, customizations, and data analysis), document presentation and productivity, business presentation tools, and integrated accounting systems. Prerequisites: COS 104 and ACC 241.

## **MGT 270**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

3 hours

3 hours

#### **MGT 311**

#### **Business Law**

An overview and summary of the basic business law topics that the majority of students will encounter in their business careers and personal lives. Topics include contracts, agencies, personal property, torts, bailments, real property, leases, estates, trusts and insurance. Prerequisite: Junior status preferred.

#### **MGT 322**

#### **Business and Missions: Philosophy and Practicality**

This course examines the historical, philosophical and scriptural foundations for the emerging Business as Missions movement. Students will wrestle with the practical challenges of maintaining effectiveness and spiritual vitality while balancing the competing demands of simultaneously leading business and ministry initiatives. Offered periodically.

#### **MGT 352** 3 hours

#### **Management Analysis and Practice**

A course designed to acquaint students thoroughly with the theories, principles, and practical applications of management (planning, organizing, staffing, leading and controlling). Management principles are learned in the context of a work team developing and administering a business project. Emphasizes business presentations and written reports involving current, real-life situations. Prerequisite: Sophomore status. Offered Fall and Spring semesters.

I-4 hours

#### **MGT 360**

Independent Study

An individualized, directed study involving a specified topic.

#### **MGT 362** 3 hours

Human Resource Management

A study of the role and functions of the human resource department of an organization, with an up-to-date examination of the principles, policies and problems of labor and management. Topics include employee relations, job analysis, compensation structures, recruitment practices, training, promotion, transfer, and management-union relationships. Prerequisite: MGT 352. Offered Fall semester.

### **MGT 370**

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

# ITB 381

# International Business Study Tour

A study tour of selected international locations to focus on regional trade, economics and business topics. Issues of cultural differences, conflicts, compromises and international cooperation are examined. Throughout, the cultural dimension of international business dealings is emphasized. Prerequisites: Sophomore standing within a business school major/minor or permission of the instructor. Offered Interterm and selected Summer terms.

3-4 hours

4 hours

3 hours

3 hours

#### **MGT 393**

#### Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

# **MGT 403**

**Operations Management** 

This course presents the design (quality management, process design, and statistical process control) and operations (supply chain management, forecasting, inventory management, and resource planning) of productive systems. Quality, competitiveness in a global economy, and quantitative management are emphasized throughout the course. Prerequisites: MAT 151; MAT 210 or MAT 352.

# MGT 431

Project Management

This course presents the specific concepts, techniques, and tools for managing projects effectively. The role of the project manager as team leader is examined, together with important techniques for planning, scheduling, and monitoring successful projects through the project life cycle. Lectures, case studies, and projects are combined to develop skills needed by project managers in today's environment. In addition, special emphasis is placed on managing technology related projects, leading to the potential for obtaining industry certification in project management. This course is offered through Taylor University Online (TUO).

#### MGT 442 3 hours **Business Ethics**

A course designed to analyze the ethical dilemmas described in case studies of managers in private and corporate businesses. Studies include philosophical foundations for Christian ethical model applications and the development of ethical dilemma resolution. Particular business ethics issues are studied that are realistic and relevant to many business professions. Offered Fall semester.

#### **MGT 450**

### **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

I-4 hours

3 hours

#### **MGT 452** Strategic Management

An advanced course dealing with integrative issues in management, encompassing longrange and short-term objectives, planned and pursued in breadth and depth in an everchanging environment. Prerequisites: ECO 201; ACC 241; MGT 352; senior status or instructor permission. Offered Fall and Spring semesters.

#### **MGT 462** 3 hours

**Organizational Behavior and Development** 

Organizational behavior is the study and application of knowledge about how and why people, as individuals and as groups, act within organizations. Organizational development is the systematic application of behavioral science knowledge at various levels-group, intergroup, and total organization-to bring about planned change. The goal is to describe, understand, predict, develop, and (to some degree) control human activity at work. This course will prompt the student to develop a cognitive framework for understanding organizational behavior combined with an integration of the Christian faith. Students develop a capacity to analyze organizational behavior situations critically and to give thoughtful answers to situations and case studies. Prerequisites: MGT 352 and MGT 362. Offered Spring semester.

#### **MGT 480**

#### Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I-4 hours

I-2 hours

#### MGT 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

#### **Marketing Courses**

**MKT 170** I-4 hours Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

**MKT 231** 

#### 3 hours **Principles of Marketing**

A study of the many facets involved in the field of marketing. Emphasis is given to both the modern marketing system in today's international economy and to the marketing strategies of an organization. Topics include types of markets, market segmentation methods, research methods, product and service strategies, product planning, new product development, distribution channels, sales, advertising and pricing. Special emphasis is given to applications in international service and nonprofit disciplines. Offered Fall and Spring semesters.

**MKT 270** 

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

3 hours

#### **MKT 312 Professional Selling**

A study of the discipline of the sales professional, including both sales strategies and sales management. Primary emphasis is given to business and industry sales applications. Topics include sales training, sales preparation, prospecting methods, types of presentations, handling buyer questions, closing methods, post-sales service, and sales management. Course applications include the development and presentation of actual sales demonstrations in class. Prerequisite: MKT 231. Offered Fall semester.

I-4 hours

#### **MKT 313** 3 hours

#### **Retailing and Services Marketing**

A study of the creative and challenging field of retailing and service marketing, this course takes both a practical and conceptual approach. Topics include problems commonly encountered in service business including service quality, service guarantees, internal marketing, and assessing satisfaction. Additionally, standard marketing actions including consumer behavior, promotion, merchandise planning and buying, store layout and design, pricing, personnel management and careers relative to retailing and services marketing will be addressed. Prerequisite: MKT 231. Offered beriodically.

#### **MKT 360**

Independent Study

An individualized, directed study involving a specified topic.

**MKT 370** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

3 hours

designed to improve the experience of the consumer. Prerequisite: MKT 231.

I-4 hours

I-4 hours

**MKT 380** 

#### 3 hours International Marketing

A study of the factors involved in marketing products and services in other countries. Major geopolitical regions are analyzed and evaluated through practical assignments. Topics include: market segmentation analysis, culture, language, values, finance, transportation and distribution networks, international pricing strategies, political structures, exporting organization, promotion and selling practices. Selected research projects and strategic plans provide students with practical applications of key marketing skills. Prerequisite: MKT 231. Offered Spring semester.

#### **MKT 390 Digital Marketing**

The internet is a dynamic marketplace, and it has become imperative for a business to integrate ethical digital marketing efforts into its overall marketing strategy. Students in this course will explore the development, production, and implementation of digital-marketing methods including, but not limited to, email marketing, web-based marketing, search-engine optimization (SEO), online advertising, social media, and web analytics. The class introduces tools to appropriately measure and evaluate the effectiveness of digital-marketing campaigns that are

#### MKT 393 Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during

4 hours

3 hours

#### MKT 410 3 hours **Marketing Research**

A course designed to provide students with a fundamental understanding of the role and methods of marketing research as a means to enhance the marketing strategies of any modern organization. Topics such as problem identification, proposal and research design, question and survey development, sampling methodology, data analysis, and report presentation are covered in both theory and application. Prerequisites: MKT 231 and MAT 210. Offered Fall semester.

#### **MKT 412**

Advertising and Promotional Strategy

A study of the strategic use of advertising and promotional strategy in today's business environment. Students examine advertising and promotional strategy and its influence in the marketplace. Topics include advertising and promotional management, effectiveness, creative design, copy development, media selection, agencies and research. Practical experience is gained through the development of advertising and promotional campaigns using various media. Prerequisite: MKT 231. Offered Spring semester.

#### **MKT 445** 3 hours

Best Practices in Marketing

The dynamic business environment requires marketing professionals to continually reassess their position relative to changes in the industry. This course is intended for senior marketing majors preparing to embark on a career in marketing. It will acquaint students with the best thinking and practice currently being pursued by leading organizations. Class sessions are conducted in a workshop or seminar format where students are expected to comment on cases, solve problems, and pose questions from the reading materials. Prerequisite: MKT 231. Senior status preferred. Offered Fall semester.

#### MKT 450 I-4 hours Directed Research

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

3 hours

3 hours

I-4 hours

I-2 hours

MKT 451

Marketing Analytics

An experiential learning course with introduction to basic Salesforce administration skills and related tools to accomplish marketing and business process functions. This course includes cumulative training with Salesforce to learn the basics of a customer relationship management (CRM) tool and the ways to implement, problem solve, and serve business needs of any organization. Students will be positioned to prepare for Salesforce certification and gain hands-on experience in real-world data management and analysis skills. In addition to technical training, students will explore the impact and best practices of data for ethical decision-making and informed analysis. Prerequisites: MAT 210 and MKT 231.

#### **MKT 460**

#### Consumer Behavior

A course which examines such fundamental areas as consumer decision-making, processes, information processing, external and internal influences and business effects on consumer purchase/choice patterns. An analysis of the psychological, social, and economic influences on consumption. Prerequisite: MKT 231. Offered Spring semester.

#### **MKT 480**

#### Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

MKT 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

#### Sport Management Courses

#### SMA 115

## Introduction to Sport Management

The course is an introduction to the profession of sport management. The student will study the history and philosophies of sport and be introduced to research in the profession. The course will also clarify the requirements of the Taylor University Sport Management major, explore career opportunities in the profession, and assist the student in preparing for employment in the profession.

## **SMA 350**

Sport Management This course is a study of the roles, functions, and responsibilities of the person who manages sports programs. The emphasis is on how these functions can be successfully performed in various sports organizations. Prerequisite: SMA 115. Offered Fall semester.

#### SMA 351

Sport Public Relations

This course is an introduction to the responsibilities of communicating with the public in a sports organization and the techniques and strategies that can be used to promote sports effectively. Assignments provide students with practical experiences with these techniques and strategies. Prerequisite: SMA 115. Offered Fall semester of odd years.

#### SMA 352 3 hours

**Event and Facility Management** 

This course covers the duties that need to be performed in managing various types of sports events and different types of sports facilities. The process and features of designing new facilities and remodeling existing ones and the maintenance responsibilities of facility managers will also be studied. Prerequisite: SMA 115 or permission of instructor. Offered Spring semester.

#### SMA 354 3 hours

#### Sport Finance

A comprehensive analysis of financial and economic issues related to the sports industry. Topics include budgeting, capital structuring, planning processes, taxation, public funding, fundraising, and sponsorships. Also, topics of a macro perspective that affect various levels of sport and various leagues will be discussed. Prerequisite: SMA 115 or permission of instructor. Offered Fall semester.

#### **SMA 355** 2 hours **Research Methods for Sport Management**

An exploration of the basic methods of research and data collection in the realms of sport management, in a lecture format. Topics include defining a research question, reviewing and analyzing past research, designing a research project, collecting and analyzing data, and interpreting results. Students will also learn basic statistics and Excel and PowerPoint table and figure making skills. Prerequisite: SMA 115. Offered Interterm

# SMA 492

Sport Management Internship

This field experience is designed to have the students apply what they have learned in their courses and to extend that learning by working in an organization that is appropriate for their major. Students work on a regular basis at the organization under the supervision of approved staff members. Student are also under the supervision of a member of Taylor University Sport Management faculty. Each student must comply with the guidelines for credit hours, clock hours, and other criteria that are specific for the internship in his or her major. To register for this internship, the student must submit a proposal and have it approved.

4 hours

# I-2 hours

# **Chemistry and Biochemistry**

#### Chair, Professor D. King (Fall), Associate Professor P. Stan (Spring) Associate Professor V. Sichula Assistant Professor M. Bowman, D. Kaluka

The Department of Chemistry and Biochemistry provides high-quality training in chemistry and biochemistry while providing opportunities for meaningful spiritual and interpersonal experiences that will enable students to move successfully into the next phase of their professional training or the career of their choice. Chemistry is an excellent starting point for careers in research within the physical and life sciences, medicine, veterinary medicine, dentistry, pharmacy, environmental science, forensic science, education, industry, food science, and many others.

### **Biochemistry (BS)**

The Bachelor of Science degree with a major in Biochemistry requires 70-73 hours. This program prepares students for a career in biochemistry, medicine, molecular biology, and other related fields. All major courses must be completed with a grade of C- or better and are included in the major GPA.

#### Chemistry/Pre-Medicine Concentration (BA)

The Bachelor of Arts degree with a major in Chemistry and a pre-professional concentration in Pre-Medicine requires two years, sequential study of one foreign language and 66-69 major hours.

Students interested in the pre-medicine curriculum should check out during their sophomore year the medical school admissions requirements for the school(s) to which they plan to apply. The Medical School Admission Requirements guide published annually by AAMC is the best resource for this information. It is important to meet the specific entrance requirements of the medical school(s) chosen.

Maintaining at least an A- average and scoring well on the MCAT test (usually taken in the Spring of the junior year) are common prerequisites for acceptance to a medical school. Assistance is available in preparing for the MCAT examinations. All major courses, including those in the concentration, must be completed with a grade of C- or better and are included in the major GPA.

#### **Chemistry Minor**

The Chemistry minor requires a minimum of 22-24 hours and includes at least four semesters of core chemistry lab courses. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

PSY\_ SOC

#### Minor Requirements

CHE 211	4	College Chemistry I
CHE 212	4	College Chemistry II
CHE 311	4	Organic Chemistry I

#### Electives

Select one of th	e following ch	emistry options:
CHE 301	4	Analytical Chemistry I
CHE 302	4	Analytical Chemistry II
CHE 320	4	Environmental Pollution and Toxicology
CHE 330	4	Advanced Inorganic Chemistry

Any Psychology course

Any Sociology course

Select at least two additional, 3-4 credit hour upper-division (300/400-level) chemistry courses.

#### **Chemistry Courses**

#### CHE 100

**Chemistry for Living** 

A course designed for students who have little or no background in chemistry. Basic principles of chemistry are applied in a social context. Three hours of lecture and one two-hour lab per week. Meets foundational core physical science requirement. No prerequisite, although high school algebra is recommended.

4 hours

CHE 120 Forensic Science

#### 4 hours

This course is a one semester introduction to forensic science which will focus on the application of physical and life sciences to criminal investigation. Topics include the crime scene, physical evidence, fingerprints, forensic toxicology, forensic serology, as well as many others. There are no prerequisites. Based upon the course section selected, will meet either a life or physical science foundational core requirement.

#### CHE 170 Selected Topics

I-4 hours

4 hours

A course offered on a subject of interest but not listed as a regular course offering.

#### CHE 201

General, Organic, and Biochemistry I

This is the first semester of a two-semester sequence designed for students with minimal backgrounds in chemistry yet need a solid foundation in chemistry for their major. These students do not typically take other chemistry courses beyond this sequence. The two semesters are a comprehensive overview of general chemistry, organic chemistry, and biochemistry. The first semester focuses on general chemistry with an introduction to organic chemistry. Three hours of lecture and three hours of lab per week. Meets foundational core physical science requirement. No college level prerequisites, but high school algebra and chemistry are strongly recommended.

#### **CHE 202** 4 hours

## General, Organic, and Biochemistry II

This is the continuation of CHE 201 (see CHE 201 description). The second semester continues with the introduction to organic chemistry and includes an overview of biochemistry. Three hours of lecture and three hours of lab per week. Prerequisite: CHE 201.

4 hours

#### CHE 211 College Chemistry I

This is a general chemistry course for those intending to take later coursework in chemistry, such as organic, inorganic, analytical, or environmental chemistries. The course thoroughly explores the basic concepts and theories of chemistry, using quantitative skills to predict and characterize chemical properties and changes. The nature of atomic structure and chemical bonding and the properties of solids, liquids, and gases are all presented and studied using lectures, demonstrations, and computerassisted teaching and testing methods. Chemical change is studied in terms of reaction classes, energy flows, and kinetic theories. Three hours of lecture and three hours of lab per week. Meets the foundational core physical science requirement. High school algebra and chemistry are strongly recommended.

CHE 212

#### 4 hours

College Chemistry II The second general chemistry course for those intending to take later coursework in chemistry, such as organic, inorganic, analytical, or environmental chemistries. This course thoroughly explores the basic concepts and theories of chemistry using quantitative skills to predict and characterize chemical properties and changes. The nature of organic chemistry, complexes, equilibria, electrochemistry, and advanced acid-base properties are all presented and studied using lectures, demonstrations, and computer-assisted teaching and testing methods. Chemical change is studied in terms of entropy, free energy, and kinetic theories. Three hours of lecture and three hours of lab per week. Prerequisite: CHE 211.

**CHE 270** 

## I-4 hours

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

CHE 301

#### Analytical Chemistry I Introduction to modern theories and methods used in separations and quantitative determinations. Topics include basic statistics and treatment of data, gravimetry,

titrations, and spectroscopy. Topics correlate with the lab. Lab includes gravimetric, titrations, and spectroscopy. Some instrumentation is used including AA and GCMS. Three hours of lecture and three hours of lab per week. Prerequisite: CHE 212 or permission of instructor.

4 hours

4 hours

CHE 302

# Analytical Chemistry II

A continuation of CHE 301 in which instrumental methods of analysis are emphasized. A survey of instrumental methods used in modern analytical chemistry. Topics include the general principles of basic instrument components and their integration into the wide variety of modern instrumentation. Students will gain hands-on experience with a variety of spectroscopic (UV, VIS, AA), spectrometric (MS), electrochemical, chromatographic (HPLC, GC, IC), and hybrid (GC/MS, LC/MS) analytical instrumentations. Three hours of lecture and three hours of lab per week. Prerequisite: CHE 301 or permission of instructor.

4 hours

#### CHE 311

# Organic Chemistry I

The study of covalent carbon compounds. Nomenclature, properties, and reactions (including reaction mechanisms) of all classes of hydrocarbons, alcohols, ethers, halides, and organometallic substances are studied. NMR, IR, and MS spectroscopic methods are learned and applied. The lab includes development of advanced lab skills and study of the kinetics and properties of organic substances in reactions. Three hours of lecture and three hours of lab per week. Prerequisite: CHE 212.

#### CHE 312

#### Organic Chemistry II

Continuation of CHE 311. Focuses on carbonyl and carboxylate compounds and their derivatives, amines, and polyfunctional compounds, including biomolecules. Lab work includes study of the properties of aromatic compounds, qualitative organic analysis, and small group original research projects. Three hours of lecture and three hours of lab per week. Prerequisite: CHE 311.

4 hours

4 hours

### **CHE 320**

# **Environmental Pollution and Toxicology**

A course that emphasizes principles and analysis of pollution sources, movement, distribution, and toxic effects in natural and biological environment. The principles of toxicology related to industry and the environment, including dose response, mechanisms of toxicity, hazard evaluation will be explored. The laboratory work will provide experience in sampling and analysis of water, as well as common toxicology techniques. Three hours of lecture and three hours of lab per week. One year of general chemistry is recommended.

#### 4 hours CHE 330

## Advanced Inorganic Chemistry

Coverage of the bonding and properties of the main group and especially transition metal elements with a focus on their coordination and solid-state chemistry. Molecular symmetry principles, spectroscopy, materials science and catalytic applications of these substances are discussed in lecture and studied in lab. Three hours of lecture and three hours of lab per week. Prerequisite: CHE 311.

I-4 hours

I-4 hours

#### CHE 360 Independent Study

### An individualized, directed study involving a specified topic.

#### **CHE 370**

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

#### CHE 393

Practicum Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

2 hours

I-4 hours

# CHE 410L

**Biochemistry Lab** The lab uses a case study approach in which an enzyme is isolated and characterized

in detail. The molecular genetics, structure, regulation, and kinetics of the enzyme are studied using a wide range of techniques. This course is designed for chemistry and biology majors with a background in organic chemistry. There will be some lecture, but the primary experience will be in the lab. Prerequisite: CHE 411 or consent of instructor. BIO 201 is strongly recommended. Offered January interterm.

#### CHE 411 **Biochemistry I**

## An introduction to the principles of biochemistry in which conformation and biosynthesis of macromolecules, bioenergetics, molecular genetics, and techniques of separation and analysis are studied. This course is designed for chemistry and biology majors with a background in organic chemistry. Three hours of lecture per week. Prerequisite: CHE 311 or permissions of instructor. BIO 201 and CHE 312 are strongly

3 hours

# recommended. CHE 412

**Biochemistry II** This course is a continuation of CHE 411. The emphasis is on metabolism, molecular genetics, and molecular physiology. This course is designed for chemistry and biology majors with a background in organic chemistry. Three hours of lecture per week. Prerequisite: CHE 411 or consent of instructor. BIO 201 is strongly recommended.

I hour

3 hours

## CHE 420

**Chemistry Thesis** Students write a major paper, receive coaching and feedback, modify their paper if necessary, and give an oral presentation. Prerequisite: Successful completion of Fall term paper writing workshop. Required of all chemistry seniors.

## CHE 431

Physical Chemistry I

An introduction to the principles of thermodynamics, kinetic-molecular theory of gases, and chemical kinetics. The lab includes vacuum techniques, calorimetry, electrochemistry, physical characterization of solutions, and optical techniques. Three hours of lecture and three hours of lab per week. Prerequisites: CHE 211; CHE 212; PHY 211; PHY 204 or PHY 212; MAT 146 or MAT 151; and MAT 230.

## CHE 432

## Physical Chemistry II

Emphasis on elementary principles of quantum mechanics, molecular structure, spectroscopy, and photochemistry. The lab focuses on computational chemistry, mathematical modeling, and spectroscopy. Three hours of lecture and three hours of lab per week. Prerequisites: CHE 211; CHE 212; PHY 211; PHY 204 or PHY 212; MAT 146 or MAT 151; and MAT 230.

I-4 hours

4 hours

## CHE 450

# **Directed Research**

#### Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

#### **CHE 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

I-4 hours

#### CHE 490 Honors

#### Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

#### 114

# 4 hours

# Communication

#### Chair, Professor J. Groeling Associate Professors A. Blanchard, D. Downs Assistant Professors J. Borkin, L. Taylor Instructor T. Berkey

Grounded in the understanding that the Word becoming flesh was the ultimate communicative act, the mission of the Communication Department is to develop competent, caring communicators prepared for world service.

Within the Communication Department, students may select one of four majors: Communication, Multimedia Journalism, Professional Writing, or Public Relations. Additional majors or minors may be added with no more than 50 percent of credits overlapping with a major in this department. The Bachelor of Arts degree requires the completion of two years sequential study in one foreign language. Minors are available.

#### **Communication (BA)**

3

3

3

3

3

L

The Bachelor of Arts degree with a major in Communication requires two years of one foreign language and 44-53 major hours. An optional concentration in Organizational Communication may be added. No more than 50% of the credits may overlap with another major or minor. All major courses must be completed with a grade of C- or better and are included in the major GPA.

## **Multimedia Journalism Courses**

#### JRN 115

#### Introduction to Media Writing

Examines a variety of journalistic writing techniques and formats, with a focus on accurate and concise writing. Students will write for print, broadcast, and the web. Emphasis is on improving writing/editing and on telling stories across different media platforms. Offered Fall and Spring semesters.

3 hours

#### **JRN 170**

#### I-4 hours Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **IRN 225**

#### 3 hours Foundations of Photojournalism

Provides a solid understanding of camera use, focusing on camera settings, equipment, techniques, skills, and concepts of digital photography as applied to journalistic storytelling for news, features, and photo essay. Students should own or have access to a digital SLR camera (some department cameras are available to loan). Prerequisite: CAC 156 or ART 156. Offered Spring semester of odd years.

#### **IRN 230**

#### 3 hours Introduction to Sports Writing

This introductory course in sports writing and reporting covers the basics of how to create and pursue story ideas, then write and execute them for public consumption, whether in print or online. Students will receive experience covering live sporting events of area high school, collegiate, or professional athletic teams and writing stories about the same.

3 hours

#### **IRN 245**

#### Introduction to Multimedia Storytelling

Teaches students basics of multimedia storytelling best practices to produce multimedia news and feature stories via video, audio, photography, research and writing. Specifically, this course will help prepare students to further develop their skills as reporters, interviewers, writers, photographers and audio/video recorders, and editors for traditional media, nonprofits, business, and industry. Prerequisites: JRN 115; JRN 225 is preferred.

#### **JRN 255**

#### Media and Society

This course examines the history, operations, and effects of media industries including magazines, newspapers, radio, television, film, public relations, advertising, and the Internet. Offered Fall and Spring semesters.

I-4 hours

3 hours

#### **IRN 270**

Media Laboratory

Two hours may be earned per semester by students holding the top leadership positions in authorized campus student communications: newspaper, yearbook, radio, or in-house production. One hour of credit may be earned per semester by those holding secondary media positions. Media lab hours may also be earned for special departmental projects approved by the faculty advisor and department chair. A maximum of eight hours of media lab may be counted toward graduation. Offered Fall and Spring semesters. Prerequisite: Instructor permission.

#### **IRN 315**

#### 3 hours Advanced Media Writing

Explores in-depth journalistic writing, introducing students to advanced research and interviewing methods, writing, and editing. Prerequisite: JRN 115. 3 hours

#### **IRN 332**

Layout and Design

Provides communication students with an understanding of the basic principles of graphic design. Students will learn to recognize, evaluate, and create good design by practicing the points presented in class. Prerequisites: ART 156 or CAC 156; and ART 157 or CAC 157. Meets foundational core participation in the arts requirement. Offered Fall and Spring semesters.

#### JRN 355 Networking Study Trip

#### Offers an off-campus, partially online course. Students spend the equivalent of one week in a midwest city (e.g. Chicago, Columbus, Grand Rapids). Students read and research corporate culture and communication before visiting various organizations

#### **JRN 360**

Independent Study

#### **IRN 370**

#### JRN 393 Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

3 hours

#### **IRN 435**

#### Magazine Production and Feature Writing

Develops advanced student research and reporting skills in magazine writing. Specifically, this course prepares students to be competent reporters, interviewers, designers, and writers as they plan and create a magazine. The course also introduces students to the magazine industry and its inner workings. Prerequisites: JRN 115 and JRN 332. Offered Fall semester of even years.

#### **IRN 450**

#### **Directed Research** Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

3 hours

I-4 hours

#### JRN 457 Media Agency

Provides a real-world, client-focused experience for students through an in-house media agency. Select students will manage media campaigns from start to completion, assuming a variety of roles: writing, graphic design, web design, social media, public relations, photography, and communication strategy. Prerequisites: JRN 332, significant upper division courses in the major, and instructor permission. Offered Fall semester of even years.

# IRN 480

# Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

#### **PBR 461**

**Public Relations Writing and Production** Emphasizes the development and application of public relations writing, including

promotional kits, grant proposals, pitches, and other forms of PR writing. This class connects with outside clients for real-world experience. Prerequisites: JRN 115 and PBR 261. Offered Spring semester.

#### **PBR 480** Seminar

#### A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I hour

I-4 hours

#### **PBR 486**

Senior Portfolio Development Senior public relations majors will complete a senior portfolio. Prerequisite: CAC

#### **PBR 490**

485. Offered Spring semester.

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

I-2 hours

8-16 hours

#### **PBR 492** Internship

Honors

Professional semester of supervised internship in a work setting related to the major field of study. Prerequisites: Completion of departmental core and approval of the department faculty.

# magazines, and newspapers. Prerequisites: JRN 115 and PWR 101. Offered Fall semester.

**PWR 243** 

Editing

#### **PWR 270** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **PWR 313** Article Writing I

An introduction to writing from a Christian worldview and an overview of the different writing genres, with an emphasis on writing articles for publication. Stresses functional skills such as self-editing, interviewing techniques, developing vocabulary skills, and learning to cover news. Through readings and writing assignments, the student will follow a step-by-step process of learning the foundations of article writing. This course is offered through Taylor University Online (TUO).

2 hours

#### **PWR 314** Article Writing II

#### A course concentrating on finding, evaluating, researching, and writing the various kinds of non-fiction articles. Self-editing, interviewing techniques, and developing vocabulary skills are emphasized as students write humor, how-to, inspirational, investigative, opinion, and other types of articles. Building on the foundational skills learned in Article Writing I, students will learn the advanced specialty areas of article writing. This course is offered through Taylor University Online (TUO).

2 hours

3 hours

Provides training in content editing, copyediting, and proofreading for book publishers,

I-4 hours

#### **PWR 323**

#### 3 hours

## Non-Fiction and Scriptwriting

Introductory course and workshop in the instruction and practice of writing nonfiction and scriptwriting. This course is offered through Taylor University Online (TUO).

#### **PWR 327**

#### 3 hours Introduction to Fiction Writing

An introductory course concentrating on the instruction and practice of writing fiction. This course is offered through Taylor University Online (TUO).

3 hours

#### **PWR 345**

### Inspirational Writing

Focuses on writing for the Christian market: nonfiction (using the Bible well to write good Bible questions for studies and lesson plans for various age groups), devotionals, personal testimonies, and fiction (e.g., short stories, flash fiction). Students develop the ability to write in a captivating manner, showing solid Bible knowledge and understanding. Students also explore Christian writers past and present. Prerequisite: PWR 101.

#### **PWR 360** I-4 hours

Independent Study

An individualized, directed study involving a specified topic.

#### **PWR 365**

#### 3 hours Writing Seminar

Concentrated instruction in an area of specialized writing. Writers in residence lead classes and writing workshops on such topics as Detective Fiction, Inspirational Writing, Biography, Magazine Features, Screenplays, and Writing for Children and Young Adults. Students may receive credit for approved off-campus experiences such as the Los Angeles Film Studies Program and semester at York St. John University. Prerequisite: Permission of chair of the Communication Department. May be taken multiple times for credit. May only count twice toward major or minor requirements.

**PWR 370** Selected Topics I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours **PWR 393** Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience.

3 hours

**PWR 423** 

#### Advanced Non-Fiction Writing

The purpose of this course is to provide advanced academic instruction in applying ethical principles to the process of gathering, analyzing and integrating information into powerful nonfiction books. The ultimate goal is to seek out powerful stories reflecting a Christian worldview and in all work to clearly and accurately communicate truth. This course is offered through Taylor University Online (TUO).

3 hours

#### **PWR 427**

#### Advanced Fiction Writing

The purpose of this course is to provide academic instruction in reviewing classic and current prominent fiction written from a Christian perspective, analyzing current fiction and novels, and learning the basics of writing effective fiction. The ultimate goal is to clearly and accurately communicate themes that reflect a Christian worldview in an excellent and effective manner. Prerequisites: PWR 313, PWR 314, PWR 323, and PWR 327. This course is offered through Taylor University Online (TUO).

#### **PWR 444 Book Editing and Publishing**

Students participate in the process of turning a manuscript into a print-ready book. Instructor will solicit manuscripts (potentially from faculty or other established writers) and walk students through the entire process as if they are a publishing house. Students will study publishing houses in depth, work as publishing boards, create pro formas and budgets, work as agents and acquisition editors, then as editors and copy editors. Offered Spring semester.

3 hours

# PWR 450

#### Directed Research

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

I-4 hours

#### PWR 472 Freelance Writing

3 hours

Offers experience in the techniques and strategies of freelance writing. This course focuses on writing and marketing manuscripts for both religious and secular publications. Students will be required to submit work for publication. Prerequisite: PWR 101 or instructor permission. Offered Fall semester.

3 hours

## **PWR 475**

# Writing for Publication

Intensive seminar on writing manuscripts for publication. Course offered in partnership with "Write to Publish" conference, often held in Wheaton each June. Students participate in conference and attend workshops with authors, editors, literary agents, and publishers. Students then work closely with instructor to prepare manuscripts for publication. In addition to tuition, students must pay conference registration fee. Offered Summer term.

I-4 hours

## **PWR 480**

Seminar A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

#### **PWR 486**

#### Senior Paper/Portfolio Development

Seniors will develop their senior paper/portfolio. Prerequisite: CAC 485. Offered Spring semester.

I hour

**PWR 490** Honors

# Individualized study or research of an advanced topic within a student's major.

I-2 hours

8-16 hours

Open to students with at least a 3.00 GPA in the major field.

### PWR 492

Internship

Professional semester of supervised internship in a work setting related to the major field of study. Prerequisites: Completion of departmental core and major core courses and approval of the department faculty.

# **Computer Science and Engineering**

#### Co-Chairs, Professor S. Brandle, Associate Professors D. Stanley (Fall), J. Geisler (Spring) Professor A. White Associate Professors J. Cramer, J. Denning, T. Nurkkala Visiting Instructor B. Roller

In support of the overall Taylor University mission, the mission of Computer Science and Engineering is to:

- Honor God in all we do
- Pursue excellence
- Help students become
  - Outstanding computer scientists
  - Exceptional systems analysts
  - Committed Christians
  - Highly motivated to serve

#### Baccalaureate majors are offered by the department:

- Computer Science (BA)
- Computer Science (BS)
- Computer Science/Systems (BS)
  - Systems requirements in addition to the Computer Science (BA) curriculum.
- Computer Science—Cybersecurity (BS)

The Computer Science—Cybersecurity major has been patterned around the curricular learning outcomes set by the Association for Computing Machinery and the National Center of Academic Excellence in Cyber Defense Education.

Computer Science—Digital Media (BA)

Computer Science core with courses from Computer Science; Communication; and Art, Film, and Media emphasizing media use and computation.

- Computer Science—Digital Media/Systems (BS) Systems requirements in addition to the Computer Science-New Media (BA) curriculum.
- Computer Engineering (BS)

Combination of fundamental engineering, computer science, and electronics curricula. Program is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone (410) 347-7700.

Each year the Department of Computer Science and Engineering offers at least ten sanctioned events such as special lectures, workshops, or colloquiums. All majors are required to participate in at least 21 sanctioned events before completing COS 493.

#### Information Systems and Analytics for Bachelor of Science Degree

The information systems and analytics program is offered by the Computer Science and Engineering Department. For a description of the program and requirements for majors outside of the department, refer to Academic Programs and Requirements and Academic Departments and Courses sections of this catalog.

### **Computer Science (BA)**

The Bachelor of Arts degree with a major in Computer Science requires the completion of two years of one foreign language and 64 hours in the major. Majors are required to attend 21 sanctioned events. Majors are also required to complete a comprehensive examination during their senior year. This examination includes an implementation project, written and oral presentation of this work, and a written examination over coursework in the major field. The project and presentation portions of this examination are included in COS 492 Senior Project. Courses may not be used to fulfill more than one requirement: core or elective. All major courses must be completed with a grade of C- or better and are included in the major GPA.

Core Require	ments		Electives		
COS 102	3	Fundamentals of Systems and Computing	Select addition	nal electives	to complete the <u>64-hour requirement from the following</u> :
COS 103	1	Computer Science and Engineering: New Majors Orientation	COS I	1-16	Any 100-level COS course

MAT 210	4	Introductory Statistics			
MAT 352	4	Mathematical Statistics			

#### Computer Science/Systems (BS)

The Bachelor of Science degree with a major in Computer Science/Systems consists of the 64-hour BA major requirement and the following 19-hour curriculum requirements in information systems and analytics. Majors are required to attend 21 sanctioned events. Majors are also required to complete a comprehensive examination during their senior year. This examination may include an implementation project, written and oral presentation of this work, and a written examination over coursework in the major field. The project and presentation portions of this examination are included in COS 492 Senior Project. Courses may not be used to fulfill more than one requirement: core or elective. All major courses, including information systems and analytics curriculum courses, must be completed with a grade of *C*- or better and are included in the major GPA.

Information	n Systei	ms and Analytics Curriculum Requirements	Electives

			SYS 411	3	Machine Learning		

#### Computer Engineering (BS)

Intimate knowledge of both physics and computer science is the foundation of the design and development of powerful and efficient embedded computer systems. The Computer Engineering major is offered jointly by the Computer Science and Engineering and the Physics and Engineering Departments and focuses on the theoretical and applied operation of computer hardware and software.

The computer engineering program is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone (410) 347-7700.

#### **Program Objectives:**

- Ι. Prepare our graduates to serve others dependably, most importantly their employer, customers, and community.
- Prepare our graduates to practice technical competence, producing reliable engineering designs. 2.
- 3. Prepare our graduates to exercise creativity in their work, fostering innovative solutions.
- 4. Prepare our graduates to pursue growth in their faith, social understanding, and technical competence so that they can adapt to meet the needs of an ever-changing world.

The Bachelor of Science degree with a major in Computer Engineering requires 98 hours. Majors are required to attend 21 sanctioned events. Majors are also required to complete a comprehensive examination during their senior year. This examination includes a major design and implementation project (COS 491, 494, 495), written and oral presentation of this work, and a written examination over coursework in the major field. All major courses must be completed with a grade of C- or better and are included in the major GPA.

MAT 251

MAT 352

#### 2 hours Information Technology Concepts

The course focuses on practical understanding and application of computing technology in educational, small business, or organizational environments. Specific topics include an overview of operating systems, application software, computing hardware, telecommunications, networking, and information management systems and analysis. In addition, it heavily emphasizes the impact of technology on modern society and the ethical issues related to use of information and communication systems. This course is offered through Taylor University Online (TUO) and does not count toward any major, minor, or foundational core curriculum requirement for residential students.

#### COS 102

#### 3 hours Fundamentals of Systems and Computing

An introduction to the basic concepts of "system" and "process" with particular emphasis on computing systems. Major topics include systems thinking, quality, problem solving, and design. Computing-specific topics include algorithms, networks, computer hardware, and basic relational database concepts. The learning experience features field trips and guest lectures.

I hour

#### COS 103

#### **Computer Science and Engineering: New Majors Orientation**

Provides an introduction to the Computer Science and Engineering majors focusing on the habits, mindset, and requirements for success in the major. The course includes an overview of the discipline with an exploration of various career paths in computing (e.g., industry, missions, graduate school). A significant portion of the course involves a weekend retreat with faculty, staff, and graduating seniors. Lastly, students are introduced to integrating faith and computing. Offered Fall semester.

2 hours

#### COS 104

#### **Computing and Culture – Applications and Context**

An introduction to the ideas of computational technology including the use of applications, ethical foundations and the understanding of the context of technology in our world. Analysis from a Christian perspective is emphasized. Topics discussed include algorithmic thinking, organization of data with spreadsheets and databases, internet and security, hardware, software, and the history of computers. Important skills covered in the course include web design, spreadsheet and database applications, video and photo manipulation, information literacy, and an introduction to the process of programming. Meets foundational core computation requirement.

Computer Science Requirements

- nior Capstone
- oject II
- oject III

#### COS 105 I hour Ethics, Computing, and Society

As computing technology becomes more complex and less visible, we understand less about how the world functions. Our worldview is impacted by technology in ways that are not recognized and, therefore, not critically evaluated, particularly with a Christian understanding. This course is designed to introduce students to the context of computation in their world. Through writing, discussions, and class assignments, students will gain an understanding of computing technology that goes beyond its use and explores the impact of technology on our world view. The context provided includes an introduction to the issues in our society associated with ethics and technology. Main topics addressed include: applying major ethical theories, intellectual property, privacy, and putting technology into context with a Christian perspective. This course is available only to transfer students who have credit in an acceptable computer competency course and will meet the foundational core computation requirement for such students.

#### COS 109

#### **Computer and Network Operations**

A study of the concepts, principles, tools, and constraints related to computer and network operations, including the following topics: shell scripting, information technology system components, systems policy and governance, operating systems management, network devices, and virtual machines. Students will install and configure commodity operating systems, manage users, analyze system logs, write scripts to automate systems administration, review and write information technology policies, and related activities.

3 hours

#### COS 120

#### 4 hours Introduction to Computational Problem Solving

Approaches to computing solutions for problems from a variety of subject areas are examined and provide motivation for the study of the development of algorithms and their implementation. Programming concepts are introduced incrementally in order to solve increasingly complex problems. Good algorithm design and program structure are emphasized. Introductory data structures and software engineering principles are stressed. An introduction to object-oriented programming is included. Three hours of lecture and two hours of lab per week. Meets foundation core computation requirement.

#### COS 121 4 hours

#### Foundations of Computer Science

This course builds on COS 120 by emphasizing object-oriented programming and including concepts of computer science such as computational complexity simulation and recursion. The use and implementation of data structures such as lists, stacks, queues, and trees are introduced as they are needed in developing algorithms for problems studied. Additional topics include the Linux operating system and tools, source code versioning, unit testing, and code refactoring. Three hours of lecture and two hours of lab per week. Prerequisite: COS 120 or COS 130 or SYS 120.

#### COS 130 3 hours **Computational Problem Solving for Engineers**

This introductory programming course will take a similar approach to solving problems as COS 120. The differences will be an accelerated pace and using computational tools (emphasis on the C language) expected to be used in the various fields of engineering. Meets foundation core computation requirement.

#### COS 143 3 hours

Interactive Webpage Development

A study of how to deliver interactive webpages through a web browser. Students will learn to represent the data structurally with HTML, the presentation with CSS, and the functionality with Javascript. Students will explore good design strategies that promote useful webpages. In order to deliver interactive sites, the students will utilize remote scripting (AJAX) to connect with existing server functionality to receive XML or JSON data for page updates. Modern web technologies including HTML5, CSS3, DOM manipulation, etc. will be explored. *Prerequisite: COS 120 or COS 130 or SYS 120*.

### COS 170

I-4 hours Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### COS 230

**Missions Technology** 

A survey and in-depth study of the range of technology applied to Christian missions. Theory and issues in sustainable application are developed. Interaction with mission agencies and a practical project are included.

3 hours

3 hours

#### COS 232

#### **Computer and Network Security I**

A study of the fundamentals of operating system, network, and application security. Major areas of exploration include: fundamental security design principles, application vulnerability analysis, network penetration testing, basic cryptography, and defensive programming techniques. Prerequisite: COS 121.

3 hours

#### COS 243

#### Multi-tier Web Application Development

The course will explore how to develop a complete web application with implementation separating concerns between content delivery, business logic, and data storage. An emphasis on a modern MVC platform will be used to provide the separation of concerns. Additionally, core database knowledge for a functioning application will be explored including data modeling for a relational database, common SQL queries, data normalization foreign key constraints, and aggregate operations. Prerequisites: COS 121 and COS 143.

#### COS 265

4 hours **Data Structures and Algorithms** 

A survey of data structures and algorithms that operate on them, with an emphasis on abstract data types and analysis of computational complexity. Prerequisite: COS 121.

I-4 hours

#### **COS 270**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### COS 280

#### Introduction to Artificial Intelligence

A survey of the field of artificial intelligence. Major areas of exploration include search, logic, learning, knowledge representation, problem solving, natural language processing, computer vision, robotics, expert systems, and neural networks. An introduction to Lisp is included. Prerequisite: COS 121.

3 hours

#### **COS 284** 3 hours Introduction to Computer Systems

An integrated introduction to computer hardware architecture, operating systems, and their interaction. Assembly language and operating system programming are emphasized. Prerequisites: COS 121 and MAT 215.

#### COS 310 I hour

#### **Current Literature Survey**

A survey of classical and current literature in computer science. A goal of the course is to produce a concept for a research proposal with literature survey appropriate for an undergraduate research project. Students lead discussions on papers and topics of interest. Prerequisite: one 300-level COS course.

#### COS 311 3 hours Ethics in Computer Science

#### A study of the ethical implications of computers in society and the role of Christians as computer science and engineering professionals. Foundational concepts of Western moral philosophy are presented. Major ethical issues, such as privacy, piracy, liability, equity, and whistle-blowing are explored. Professional society codes of conduct are examined and discussed. Legal and ethical issues such as piracy, copyright, and fair use related to media are also addressed. Ethical concerns of computer science and systems analysis and their relationship to one's faith are an integral part of this course.

#### COS 320 Algorithm Design

3 hours

Algorithms and related data structures from a variety of areas are examined and analyzed. Parallel processing paradigms and theoretical topics, such as complexity models, are introduced. Prerequisites: COS 265 and MAT 215.

3 hours

### COS 321H

Ethics and Technology

A study of the ethical implications of computing technology in society and the role of Christians as users, people impacted by, and shapers of computing technology. Foundational concepts of Western moral philosophy are presented. Major ethical issues, such as privacy, piracy, liability, equity, and whistle-blowing are explored. Professional society codes of conduct are examined and discussed. Legal and ethical issues such as piracy, copyright, and fair use related to media are also addressed. Ethical concerns of computer science and systems analysis and their relationship to one's faith are an integral part of this course. This course is intended for students in the Honors Guild but will also meet the COS 311 requirement for majors in computer science and engineering. Meets foundational core computation requirement.

#### COS 323 3 hours Computer and Network Security II

A study of operating system, network, and application security. This course is a continuation of COS 232 (Computer and Network Security). Major areas of exploration include: software reverse engineering, static and dynamic program analysis, basic cryptanalysis, and related current topics. Prerequisite: COS 232.

3 hours

## COS 326

# Data Visualization

This course introduces explanatory and exploratory data visualization, including principles, techniques, and tools, that facilitate understanding and action based on very big data sets. Principles from graphic design, visual perception, and cognitive science are considered. Students employ modern tools and languages to access, analyze, and visualize Internet-scale data. Participants are encouraged to take MAT 311 and a statistics course before enrolling. Prerequisites: COS 120 or SYS 120; and COS 143.

### COS 331

#### 3 hours Data Communications

A study of the nature and applications of data communications in use today. Fundamental concepts of types, modes, and media of transmission are studied. Communication protocols and their encompassing architectures are analyzed and compared. Practical applications of data communications concepts are demonstrated through networking projects and development of communications software. Prerequisite: COS 121.

#### COS 333 **Missions Computing**

Combining computer science and service to the missions community, students travel to an international location during Interterm to undertake software development and systems analysis for a missions partner. Students design, construct, test, document, and deploy a non-trivial software system that meets the partner's requirements. Students experience the local culture and participate in direct ministry as opportunities arise. Meets foundational core cross-cultural requirement. Prerequisite: COS 121 or COS 143; and instructor permission.

#### **COS 340** Software Engineering

3 hours

A study of the concepts, tools, best practices, and lifecycle phases associated with developing large software systems, in groups, over prolonged durations. Using an agile software development process, students gather requirements, design, and begin construction of a non-trivial software system. Prerequisite: COS 121.

3 hours

### COS 343

#### Database Systems

A study of the fundamental concepts of how database technologies work. An emphasis on relational databases will be explored, including normalization, advanced SQL queries, indexing, physical data storage, performance and tuning strategies, and concurrency control. Students will be introduced to other database technologies possibly including object-oriented databases, NoSQL, replication, etc. Prerequisites: COS 121 and MAT 215.

# COS 350

# **Computer Graphics**

An introductory course in computer graphics with an emphasis on 3D image production using a variety of approaches, including ray tracing and raster graphics. Basic algorithms, data structures, and GUI programming are introduced. Prerequisite: COS 121.

3 hours

3 hours

# COS 351

#### **Computer Vision**

#### A study of the fundamental concepts of digital image acquisition, manipulation, enhancement, representation, analysis, and understanding. Prerequisite: COS 121. Offered Spring semester of even years.

3 hours

3 hours

#### COS 355

#### Mobile Application Development

A study of the concepts, principles, tools, and constraints related to developing mobile applications, including: power-performance tradeoffs, sensor management, location acquisition, and responsive user interface design. Students will develop mobile applications within large software ecosystems (mobile operating system APIs and web services) and as a result gain significant experience using current software development tools, asynchronous programming techniques, and object-oriented design patterns. Prerequisite: COS 265.

COS 360 Independent Study

# I-4 hours

An individualized, directed study involving a specified topic.

#### COS 370

#### Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **COS 380**

#### Natural Language Processing

A study of the automation of human communication abilities, covering both textual and vocal aspects. Major topics include language parsing, understanding, representation, enhancement, generation, translation, and speaker/author recognition. Prerequisite: COS 280. Offered Spring semester of odd years.

3 hours

3 hours

I-4 hours

#### COS 381

#### **Computer Architecture**

A study of the hardware structure of computer systems, including arithmetic/logic units, memory organization, control unit design, pipelining, and instruction set design. A brief introduction to advanced topics, such as out-of-order execution, branch prediction, multi-core systems, and parallel processing cache coherency will prepare the student for graduate level courses in architecture. Prerequisite: COS 284.

#### COS 382

#### Language Structures

A study of the features and implementation issues of programming languages, including a survey of language paradigms. Grammars, syntax, semantics, translation, lexical analysis, and parsing are introduced. Prerequisite: COS 265.

I-4 hours

3 hours

# COS 393

Practicum

#### Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Grade only. Practicum course credit requires a minimum of 320 hours of work experience. Offered primarily during Summer.

COS 394 Advanced Project

Students complete an open-ended software development project or laboratory experiment project. The individual project depends on students and faculty interest. Specific learning outcomes vary depending on faculty, student, and project selected. Independent or small group projects are possible. May be taken by any Computer Science major with instructor permission. May be taken multiple times for credit.

I-4 hours

#### COS 411

#### **Digital Forensics**

#### A study of the concepts, tools, methodologies, and analysis techniques used for host, media, and network forensic investigations. Students will learn how to capture, decipher, reconstruct, and analyze digital data. Prerequisite: COS 331.

3 hours

#### COS 421

**Operating Systems** 

# 3 hours

A study of the design considerations of computer operating systems and their interaction with hardware features. Topics covered include process management, storage management, protection and security, file systems, and concurrency. Prerequisites: COS 265 and COS 284.

3 hours

#### **COS 424**

#### Surfaces and Modeling

An advanced graphics course with emphasis on curve and surface representation and geometric modeling. Mathematics and algorithms are studied. Topics include Bezier and B-spline curves and surfaces and geometric modeling techniques. Prerequisite: COS 350.

3 hours

#### COS 425 Animation

An advanced graphics course with emphasis on techniques for rendering and animation. Mathematics and algorithms are studied. Topics include light and illumination models, ray tracing, methods to enhance realism, and standard animation techniques. A professional software package will be used to create a significant animation. Prerequisite: COS 350.

#### COS 432 3 hours Software Reverse Engineering and Analysis

A study of defensive programming techniques, platform security, secure software engineering, software reverse engineering, and vulnerability analysis. Students will perform static and dynamic software analysis, identify and analyze malicious software, and apply tools and techniques for identifying software vulnerabilities. Prerequisite: COS 284

3 hours

#### COS 433

## **Missions Computing Senior Project**

Combining computer science and service to the missions community, students travel to an international location during Interterm to undertake software development and systems analysis for a missions partner. Students design, construct, test, document, and deploy a non-trivial software system that meets the partner's requirements. Students experience the local culture and participate in direct ministry as opportunities arise. Students share their experience on campus in a formal paper, presentation, and poster. Satisfies the senior project requirement. Meets foundational core cross-cultural requirement. Prerequisites: senior standing and instructor permission.

#### COS 435

#### Theory of Computation

A theoretical treatment of what can be computed and how efficiently computation can be done. Topics include models of computation and automata, deterministic and nondeterministic computations, and formal language theory. Prerequisite: COS 265. 3 hours

3 hours

#### COS 436

# Parallel and Distributed Computing

A study of concepts and models of distributed and parallel computing, including concurrency, synchronization, algorithms, hardware organization, and common programming environments. Implementation of parallel algorithms on multicore CPUs and many-core GPUs. Prerequisites: COS 265 and COS 284.

I-4 hours

#### COS 450 **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. Independent or small group projects. May be taken by any COS major with instructor approval. May be taken multiple times for credit. 3 hours

#### COS 452 Research I

Participation in a research project under faculty direction. Prerequisite: COS 310 or instructor permission. 3 hours

#### COS 453 Research II

Participation in a research project under faculty direction. A formal presentation of results is required. Prerequisite: COS 452 or instructor permission. I-4 hours

#### COS 480 Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

### COS 490

Honors Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field. 2 hours

## COS 491

## Senior Engineering Project I

The first of a three course culminating experience preparing students for engineering practice through a major design and implementation project. Prerequisite: senior status, CEN major. Offered Fall semester. 3-4 hours

#### COS 492 Senior Project

Designed to exercise each senior's technical analysis, design, and development skills and showcase his/her documentation and presentation skills. The student develops a project through multiple phases of the software lifecycle frequently beginning at the design stage. The project is typically chosen to reflect the student's area of concentration. Prerequisite: Senior status.

I hour

### COS 493

**Computer Science Senior Capstone** A survey of topics useful for graduates of the department, but not covered by other courses. The emphasis is on non-technical issues such as making a budget, finding a

church, balancing career and family, etc. The course is conducted as a trip off-campus to further strengthen relationships with the department. Prerequisite: Senior status. COS 494 3 hours

# Senior Engineering Project II

The second in a three course culminating experience preparing students for engineering practice through a major design and implementation project. Prerequisite: COS 491. Offered January interterm.

I hour

#### COS 495

#### Senior Engineering Project III

The third of a three course culminating experience preparing students for engineering practice through a major design and implementation project. It includes the Engineering poster session for assessment of the project. Prerequisite: COS 494. Offered Spring semester.

#### **SYS** 101

#### Introduction to Systems

An introduction to the basic concepts of "system" and "process". Systems thinking,

quality, and problem solving are major topics. Because almost every modern system uses database to control processes, basic relational database concepts and structured query language (SQL) are taught. Field trips and guest lectures are featured in the learning experience.

3 hours

#### **SYS** 120

#### 4 hours Introduction to Problem Solving

An introduction to problem solving strategies applied to problems from numerous domains, resulting in the development of algorithms that are programmed in Python. The basic control structures, functions and parameter passing, and the concept of abstraction are all emphasized. Simple data structures (e.g., lists and dictionaries) and basic file processing are introduced. Incremental construction of large programs is practiced. Three hours of lecture and two hours of lab per week.

#### SYS 125 2 hours

Introduction to Object Oriented Programming

This course is an introduction to object oriented design and programming. Students will apply problem solving strategies to devise OOD descriptions of problems formerly solved via procedural coding methods. Implementation of increasingly complex OOD solutions will be carried out in the Python programming language. Prerequisite: COS 120 or SYS 120.

I-4 hours

#### **SYS** 170

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **SYS 214**

**Principles of Human Computer Interaction** 

This course discusses the analysis, design, development, and evaluation of interfaces allowing humans to interact with computers and the presentation of information in formats designed for human understanding. People-centered design is emphasized through prototyping and information visualization are also discussed.

I-4 hours

3 hours

3 hours

#### **SYS** 270

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### SYS 310 E-Commerce

Examines the development of and future prospects for electronic commerce. It focuses on the use of electronic transmissions to engage in exchange of products and services. Students will consider the emerging changes in business as well as the new opportunities for entrepreneurship brought on by e-commerce. They will explore the dynamics of technical innovations as well as the organizational and societal consequences of moving commerce electronically. They will also evaluate the operations of a variety of web-based businesses. Guest speakers from industry will lecture regarding the technical, economic, and political/regulatory aspects of e-commerce. Prerequisites: COS 120 or COS 130 or COS 143 or SYS 120; and COS 102 or SYS 101.

#### **SYS 320**

Economic Decision Analysis

This course covers the fundamentals of economic decision making for non-business majors. Topics include general accounting basics (general ledger, how to interpret an annual report, expenditure as expense or capital, and depreciation), cost accounting basics, capital feasibility analysis, and finance basics. Course is for systems engineering majors. Prerequisite: ECO 201.

3 hours

#### **SYS** 330

#### 3 hours Human Relations in Organizations

The necessity of constructive conflict in organizations and the inevitability of destructive personal conflict are the reasons for studying human relations. Five books, some classic like Carnegie's How to Win Friends and Influence People, some near classic like Covey's The Seven Habits of Effective People, and possible future classics like Sande's The Peacemaker, are read and discussed. The goal is to improve understanding of conflict: That constructive conflict is healthy and necessary, how creative conflict can degenerate into destructive personal conflict, the causes of team dysfunction, how to achieve team synergy, and personal techniques for engaging in constructive conflict, avoiding destructive conflict and redeeming it should it happen. The Bible is used as a discussion resource. The pre-supposition of the course is that evangelical Christian culture encourages conflict avoidance within the culture and often without. Some strive to be "meek and mild" like Jesus, an aspiration that belies an incomplete understanding of Jesus' character and behavior. This is a writing course with a strong emphasis on discussion. Meets foundational core social science requirement.

#### SYS 352

3 hours

Knowledge Based Systems Prominent knowledge-based system approaches are introduced including crisp production rule systems and fuzzy logic systems. Principles of knowledge acquisition are taught and applied. Various forms of knowledge representation are experienced, including rules, nets, frames, and predicate logic. Programming is primarily in CLIPS. Prerequisites: COS 121; and COS 102 or SYS 101.

#### **SYS 360** I-4 hours

Independent Study

An individualized, directed study involving a specified topic.

#### **SYS** 370 Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **SYS 390**

#### Information Systems Analysis

A study of the knowledge and skills needed to conduct the definition and analysis phases of an information system project. Central concepts are quality management and business process reengineering. Problem definition, information gathering, user experience modeling, data and process modeling, and specification of logical system requirements using a business event methodology are emphasized. Learning is by doing: a major project is begun in this course and completed in SYS 394. Prerequisites: Junior standing; COS 120 or COS 130 or COS 143 or SYS 120; and COS 102 or SYS 101.

I-4 hours

This course provides a survey of systems topics with an emphasis on current development in many disciplines. Guest, faculty, and student presentations, plus occasional panel discussions, provide the format. May be taken twice. Prerequisite: COS 102 or SYS 101. I-4 hours

SYS 393 Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

#### SYS 394

Information Systems Design

A study of the knowledge and skills needed to conduct the design and construction phases of an information system project. Central concepts are: translating a logical design into a physical design, project management, and client-server architectures. Students will learn and use application technologies powering the World Wide Web. Learning is by doing; the major project defined and analyzed in SYS 390 will be designed and built. Prerequisites: COS 120 or COS 130 or SYS 120; COS 121 or COS 143; and SYS 390.

3 hours

# SYS 401

**Operations Research** An introduction to operations research (management science), which is quantitative decision making. Emphasis is on linear programming and its application to financial decisions, distribution problems, project scheduling, and other network problems.

Decision analysis with probabilities and multi-goal decisions are discussed as well. Prerequisites: COS 102 or SYS 101; COS 121 or COS 143; MAT 210 or MAT 352; MAT 151. SYS 402

# Modeling and Simulation

A study of mathematical modeling and simulation methods, focusing on discrete systems. Simil and pysym are used in hands on exercises. Many applications are surveyed and group term projects are carried out. Prerequisites: COS 121 or COS 143; MAT 210 or MAT 352; MAT 151. 3 hours

The focus of this second course in operations research is stochastic modeling with application to industrial engineering. Topics include Markov chains, Monte Carlo techniques, Brownian motion with application to queuing theory, stochastic inventory models, reliability, and decision models. Prerequisites: MAT 382 and SYS 401.

#### SYS 410 2 hours

**Fundamentals of Quality Management** 

This course is an overview of the fundamentals of quality management. Part of the course is a review of topics covered in other systems courses: definition of quality, problem solving process, Crosby's absolutes, process diagrams, cost of quality, and statistical process control. New topics include: Deming's and Juran's management philosophies, understanding teams, improvement tools, quality audits, methods for collecting data and sampling, and customer-supplier relations. The course will prepare the student to earn ASQ certification as either Quality Improvement Associate or Quality Process Analyst. Prerequisites: SYS 390, SYS 394, and MAT 382.

#### SYS 411 Machine Learning

3 hours

Classification learning systems of various types are explored. These include statistical pattern recognition, neural networks, genetic algorithms, and methods for inducing decision trees and production rules induction. Existing systems are reviewed. Group term projects allow development of and experimentation with a system of interest. Prerequisites: COS 121; MAT 210 or MAT 352.

I-4 hours

#### **SYS 450** Directed Research

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. I-4 hours

#### **SYS 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

#### **SYS 490**

Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

# 3 hours

3 hours

Systems Seminar

# Education

#### Chair, Associate Professor B. Hotmire Professors A. Armstrong, J. Dormer, Q. White Associate Professor C. Sisson Assistant Professors S. Engle, M. Jessup, D. McGinness, C. Moore Director of Teacher Licensure K. Overbey

Taylor University seeks to develop competent, caring, and reflective teachers prepared for world service. The belief that teachers who have experienced a vigorous professional preparation within the framework of evangelical Christian values will have a profound influence on the students they teach in public, independent, or overseas schools pervades the education program approach. A comprehensive liberal arts curriculum provides the foundation for subject matter competence as well as lifelong learning, leadership, and continued growth in the teaching profession. The Education Department cooperates with other departments to ensure the development of high quality foundational core and major fields of study. Taylor University's teacher education program is accredited by CAEP (Council for the Accreditation of Educator Preparation) and the Indiana Department of Education. Admission to, retention in, and completion of an approved teacher education program at Taylor University is coordinated by the Director of Teacher Education.

Students seeking a teaching license may fulfill the curriculum requirements in education while earning either a Bachelor of Arts or Bachelor of Science degree. The Bachelor of Arts degree requires the completion of two years of one foreign language.

Students wishing to explore or prepare for the teaching profession should become involved in the teacher education program as early as possible in their college careers. It is advised that initial steps be taken as an entering freshman or as soon as possible after entering Taylor. Upon declaring a major area of study (elementary or a secondary area), the student is assigned an academic advisor. This academic advisor continues to advise the student throughout the entire program. However, by use of the curriculum guide for the chosen area of study, much of the student's planning may be self-directed. Curriculum guides containing course requirements for all teacher education programs offered at Taylor may be obtained from the Education Department. The Teacher Education Program Candidate Handbook includes a 4-year program timeline and course sequence for foundational core, major, and professional education courses that assist the candidates in planning their teacher education programs.

The Indiana Department of Education has approved new teacher licensure rules: Rules for Educator Preparation and Accountability 3. Interpretation of the new licensure rules by the Indiana Department of Education is modified from time to time. Candidates must follow the most current curriculum guides and licensing tests as required by the Indiana Department of Education. The most current program information and licensure requirements can be obtained in the Education Department Office.

#### Admission to the Teacher Education Program: Step One

There is a formal admission procedure to the teacher education program. A student is admitted to the program upon completion of an official application form (initiated through the office of the Director of Teacher Licensure) and favorable action by the Teacher Education Committee. The application should be completed during the first term of a student's sophomore year. Candidates are formally admitted to the teacher education program after completing three terms of college work, one of which must have been at Taylor. The Teacher Education Committee has established standards that candidates must meet in order to be admitted to and remain in the program. Factors encompassed by these standards are scholastic performance, communication skills, portfolio requirements, qualifying SAT or ACT scores, and departmental recommendation. Detailed explanations of these standards may be obtained from the department.

#### Admission to Supervised Internship (Student Teaching): Step Two

Subsequent to admission to the program, there is a formal admission procedure to student teaching. The application is initiated and facilitated through the Office of the Director of Student Teaching and should be prepared and ready for consideration (by the Teacher Education Committee) by the first semester of the junior year. The factors considered by the Teacher Education Committee include: (1) successful completion of prerequisite courses; (2) departmental recommendation; (3) portfolio requirements; and (4) scholastic performance. Detailed explanations of these standards may be obtained from the department.

#### Scholastic Performance

Teacher education program standards include students passing COM 210 or CAC 160, ENG 110, all professional education, and all major courses with grades of C- or better. Also, a grade of C- or better in education courses must be achieved as a condition for taking sequential courses for which the course is a prerequisite and for graduation.

#### Transfer of Credit from Other Institutions

Students seeking admission to the Taylor teacher education program through transfer from another institution must meet the standards required of regularly enrolled students. Credits are assessed by the Registrar. The Director of Teacher Licensure, after consultation with the appropriate department chair, will accept transfer credit when the courses taken are equivalent to requirements on a designated major curriculum guide.

#### Field Experiences and Student Teaching

Field experiences with children and youth, with strong emphasis on multicultural education, are considered a vital part of teacher preparation. Beginning with the first professional education course and continuing through the senior year, such experiences are required for each prospective teacher. The culmination of these professional experiences occurs during the senior year with full-time student teaching. During this final experience, a student is expected to assume as much as possible the total responsibilities of a teacher. Student teaching is a 16-week Fall or Spring semester activity.

Opportunities are provided for overseas student teaching. After completing a 10-week experience stateside, students may teach for six or more weeks in an overseas setting. Application for overseas student teaching must be submitted during the Fall semester of the junior year. Applications are available in the department.

#### Junior Methods Practicum (JuMP)

All elementary education candidates will take the junior block field experience during both Fall and Spring of the junior year. Students will be placed in an all day field experience on Tuesday and Thursday.

#### Comprehensive Exam Requirement

All Elementary Education candidates are required to take the Elementary Pedagogy (CORE) and score 220 or above. Any elementary education candidate who does not successfully pass is provided opportunity to participate in a tutorial-guided instruction program under the direction of the Academic Enrichment Center or Education Department to prepare for retaking the test or a departmental exam. In secondary education, the comprehensive examination is in the major teaching field. A candidate is allowed a maximum of three attempts to pass the comprehensive examination in any single major.

#### **Practicum**

Opportunities for practicum experiences in rural, urban, and overseas settings are available. A practicum is supervised learning involving a firsthand field experience or project. Approval is needed from the supervising professor and the department chair. Under certain conditions a practicum may be required to demonstrate readiness for student teaching. In order to receive a grade, the experience or project must be supervised.

### Fields of Study

Curricula that meet the licensing standards of the Indiana Department of Education are listed on the curriculum guides available to each candidate. Preparation for initial teaching Indiana licenses in the following fields is provided at Taylor.

#### Licensing

All teacher education programs have been designed to meet Indiana licensure requirements and have been approved by the Indiana Department of Education. Candidates who meet graduation requirements, complete an approved teacher education program, successfully complete student teaching, and meet the Indiana qualifying scores on the required CORE and Pedagogy tests will be eligible for an Indiana license. Taylor's Teacher Licensure Office is responsible for verifying to the Indiana Department of Education that all requirements for licensure have been met and for processing all applications for licensure.

Indiana has some degree of Interstate Agreement contract with 50 states (reciprocity). However, additional requirements may need to be met in order to receive permanent licensure in these states. Those who plan to teach outside of Indiana should visit the reciprocal states link provided on our departmental webpage. Requirements often change from year to year, so candidates should verify this information and work with the Director of Teacher Licensure. Contact information for every state department of education are also available online.

#### Secondary Grades 5-12 and All Grades P-12

The following areas offer majors for secondary grades 5-12: Biology, Chemistry, English, Mathematics, Mathematics/Computer Science, Physics, Physics/Mathematics, Social Studies (Economics, Geographical Perspectives, Government and Citizenship, Psychology, Sociology, Historical Perspectives), and Spanish. The candidate preparing to teach in secondary schools will select a content major. The following areas offer majors for all grades P-12: Art Education and Music Education. Art Education and the secondary education majors lead to a Bachelor of Science degree, but a Bachelor of Arts degree may be granted if a candidate completes the language requirement and requests a BA degree prior to degree conferral. Music Education is awarded with the Bachelor of Music degree. Requirements for all grades P-12 and secondary grades 5-12 license include foundational core, professional education, and subject matter concentration (see departmental curriculum guides for detailed requirements) as well as PSY 340 and either CAC 160 or COM 210.

Three optional concentrations are available to all secondary and all-grade education majors: SpEd Mild-Moderate P-12 Licensure, SpEd Intense P-12 Licensure, and TESOL P-12 Licensure. SpEd Intense P-12 Licensure requires the completion of SpEd Mild-Moderate P-12 Licensure concentration.

SpEd Intense P-12 Licensure Concentration (must also complete SpEd Mild-Moderate P-12 Licensure Concentration)

#### Transition to Teaching

The Transition to Teaching Program is an alternate licensure process designed for individuals who have previously graduated from college and wish to obtain an Indiana Teaching License. The elementary program prepares candidates for licensure in grades K-6, the secondary program prepares candidates for licensure in specific content areas in grades 5-12, and the all-grade program prepares candidates for licensure in specific content areas in grades P-12. The program is composed of online graduate courses. Individuals interested in the Transition to Teaching Program should view the following: http://online.taylor.edu/transition-to-teaching/.

#### **Educational Studies (BS)**

The Bachelor of Science degree in Educational Studies requires 48 major hours. The Educational Studies degree does not lead to a teaching license. Students may not double major with elementary education. All major courses must be completed with a grade of C- or better and are included in the major GPA.

# Elementary Education (BA or BS)

Candidates seeking a teaching licensure may fulfill the curriculum requirements in education while earning either a Bachelor of Arts or Bachelor of Science degree. The Bachelor of Arts degree requires the completion of two years of one foreign language.

The Elementary Education (kindergarten through 6<sup>th</sup> grade) major requires 94-121 hours. The major also requires a concentration or one of the following minors: Applied Music, Biology, Chemistry, History, Mathematics, Music Composition, Physics, Psychology, Sociology, or Spanish. All major courses, including those in the concentration, must be completed with a grade of C- or better; the major GPA is calculated using the courses marked with an asterisk (\*).

## **TESOL Program**

In addition to the TESOL licensure for education majors, the TESOL Program offers two programs for students of other majors. The TESOL minor and Certificate prepare students to work both domestically with immigrants, and internationally with people learning English for international communication.

ART

3

Any Art History course

#### Teaching English to Speakers of Other Languages (TESOL) Minor

Open to all majors, except those majors leading to education licensure, the TESOL minor requires 18 hours and provides training to those interested in teaching English in international or non-public education contexts. The minor also provides cross-cultural and pedagogical training. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

#### **Minor Requirements**

TSL 201 3 Introduction to SLA and the Field of Teaching ESOL

- TSL 303 3 Methods of TESOL
- TSL 305 3 Pedagogical Grammar and Applied Linguistics in TESOL
- TSL 310 3 Teaching the Skill Areas in TESOL
- TSL 482 3 Practicum and Seminar in TESOL

Select one course from the following:

TSL 210 3 Teaching ELL in P-12 Classroom

TSL 211 3 Teaching English Internationally

TSL 304 3 Issues in Second Language Acquisition

#### Certificate in Teaching English to Speakers of Other Languages (TESOL)

Requiring the completion of 12 credit hours, the department offers a Teaching English to Speakers of Other Languages (TESOL) certificate for all students who want to more effectively teach students for whom English is a second or foreign language. The TESOL certificate exists to provide a broad base to anyone interested in TESOL, introduces students to the ELT field in North America and worldwide, and provides basic understanding of cross-cultural relations and TESOL theory, methods, and materials.

The student will be responsible for demonstrating his or her completion of the certificate requirements by submitting a completed application along with a copy of his or her transcript to the program director. Work in progress will be accepted. This certificate is awarded by the Education Department and does not include a transcript entry.

#### Certificate Requirements

- TSL 201 3 Introduction to SLA and the Field of Teaching ESOL
- TSL 303 3 Methods of TESOL
- TSL 305 3 Pedagogical Grammar and Applied Linguistics in TESOL

TSL 482 3 Practicum and Seminar in TESOL

#### **Education Courses**

#### EDU 150

Education in America

A study of the historical, philosophical, and sociological foundations of education. The organization and role of the public school, P-12, in a multicultural society are examined. An analysis of teaching is made, including implications of some court cases related to teaching, concepts of teaching, and leadership roles. The course includes a study of multicultural and ethnic differences among students and the resulting effect on the teacher's role. Includes a field experience lab.

3 hours

## EDU 151 I hour

Introduction to the Teacher Education Program

This course is designed to assist students who wish to transfer the equivalent of EDU 150 Education in America, but have unmet requirements. In this course, students will complete outstanding requirements for EDU 150 and become familiar with requirements for the teacher education program at Taylor University. A field experience may be required.

#### EDU 170 Selected Topics

I-4 hours

3 hours

A course offered on a subject of interest but not listed as a regular course offering.

## EDU 200

Introduction to Early Childhood Programs

This course deals with the history of early childhood education and also takes an in-depth look at the qualities needed to become an effective early childhood teacher. Students study the professional aspects of developing appropriate curriculum and physical settings for the preschool and kindergarten classroom. Methods that meet the physical, emotional, social, mental, and spiritual developmental growth of young children are explored. Includes weekly observation of and participation with children in preschool, kindergarten, and Headstart programs. *Prerequisite: EDU 150*.

#### EDU 222

#### 2 hours

Reading in the Content Area for Secondary Teachers

Designed to provide practical procedures for developing effective reading skills at the junior high, middle, and secondary school levels. Attention centers on understanding the relationships between the processes of reading and the learning of content. Suggestions on how to meet the total range of student reading needs in the classroom are addressed. Methods and materials to enhance advanced comprehension and study skills of adolescents in a multicultural society are presented. Includes a field experience lab. Required for all secondary/all-grade majors seeking licensure. Prerequisite: EDU 150.

#### EDU 242

#### 3 hours Educational Technology in Elementary Education

Students develop skills in using presentational software, video conferencing, smart boards, portable devices, and video editing and discover their application to classroom instruction. Students will understand the International Society for Technology in Education (ISTE) standards. Ethical and fair use issues regarding educational technology and media will also be addressed. Meets the foundational core computation requirement.

#### EDU 243

## Technology Applications in Elementary Education

The course examines the pedagogical value of technology in the elementary school. Students will learn how to apply technology to classroom instruction. Ethical and fair use issues regarding educational technology and media will also be addressed. Prerequisite: COS 104 or equivalent. Offered Spring semester only.

I hour

#### EDU 255

#### 3 hours Foundations of Literacy and Language Arts in the Elementary Classroom

Course explores fundamental concepts concerning the development of children's language and literacy and the teacher's role in this process including the selection of appropriate instructional materials and strategies to meet the literacy needs of children. This course also investigates the techniques and methods necessary for integrating language arts in the elementary classroom. Topics include core literacy issues, energent literacy, word identification and recognition, phonological awareness, and methods for language arts instruction. Required for all elementary majors seeking licensure. Prerequisite: EDU 150.

#### EDU 260

Educational Psychology

# 3 hours

The course focuses on the study and application of learning theories and psychological concepts and principles to the teaching-learning process. Developmental stages, age-level characteristics of students, gender differences, learning styles, contemporary views of intelligence, effects of ethnicity and social class on teaching and learning, principles of multicultural education, the teacher's role in accommodating special needs in the regular classroom, learning theories, various instructional approaches, theories of motivation, and various types of assessment, including standardized and high-stakes tests, are examined. Prerequisite: EDU 150.

#### EDU 270 Selected Topics

EDU 306

# I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

#### 2 hours

#### **Discipline and Classroom Management for Elementary Teachers**

This course is designed to assist students preparing for the elementary classroom in developing practical skills and techniques for organizing the classroom and maintaining effective discipline. Students develop a plan for discipline and classroom management which utilizes a proactive approach based on positive ethical practices consistent with Christian and democratic principles. Several widely accepted discipline theories along with the study of legal implications for teachers are used in conjunction with observations and case studies to assist students in developing effective discipline plans. Prerequisite: EDU 150. Elementary Education majors only.

#### **FDU 307**

#### 2 hours **Discipline and Classroom Management for Secondary Teachers**

This course is designed to assist students preparing for the secondary or all grade classroom in developing practical skills and techniques for organizing the classroom and maintaining effective discipline. Students develop a plan for discipline and classroom management which utilizes a proactive approach based on positive ethical practices consistent with Christian and democratic principles. Several widely accepted discipline theories along with the study of legal implications for teachers are used in conjunction with observations and case studies to assist students in developing effective discipline plans. Prerequisite: EDU 150. Secondary/all grade education majors only.

#### EDU 309 I hour

Methods of Instruction and Assessment in Secondary Education A junior level course that focuses upon pedagogical methods including assessment, instructional strategies, and culturally responsive teaching practices. The majority of the course includes a placement in a secondary school for a laboratory field experience. Prerequisites: EDU 150, EDU 222, EDU 260, and approval into the teacher education program. Offered Fall semester.

#### EDU 315 I hour An Exploration of Young Adult Literature

The course will explore the genre of young adult literature. Students will critically evaluate the strengths and weaknesses of young adult literature. Students will recognize current themes and topics of young adult literature.

#### EDU 321 2 hours

# **Teaching Science in the Elementary Classroom**

This course is designed to introduce students to hands-on, inquiry based methods of teaching science in the elementary classroom. Content from physical sciences, life sciences, and earth/space sciences will be included. Course will include objectives and lesson plans linked to national and state standards; integration of reading, writing, and other content areas to science; and using a variety of assessment strategies. JuMP field experience. Prerequisites: EDU 150 and approval into the teacher education program.

#### EDU 332 2 hours The Junior High/Middle School

A study of the philosophy, development, and organization of middle schools and junior high schools. Examines through readings, seminars, field experiences, and classroom investigations the purpose, curriculum, and instructional strategies, including the use of appropriate media and technology, for effective teaching in junior high/middle schools. This course provides prospective teachers with knowledge and understanding of the adolescent, the school, and practical teaching activities. Includes a field experience lab. Must be completed prior to student teaching. Prerequisites: EDU 150 and EDU 260.

#### EDU 344

I hour Educational Technology in Secondary Education

This course addresses fundamental principles related to the appropriate, responsible, and ethical use of the Internet and relevant technology as integrated in the secondary education classroom. Through understanding and applying the International Society for Technology in Education (ISTE) standards, students will develop a philosophy for effectively integrating technology into the secondary classroom and will practice these principles through the creation of content specific instructional models and learning activities. Students will investigate the potential for technology to expand research opportunities, increase skill development, and encourage the curating of content knowledge. Required for secondary education majors seeking teacher licensure. Corequisite: EDU 332.

#### EDU 351 3 hours Methods and Materials for Elementary Teachers

An integrative approach of utilizing a variety of effective instructional methods and resources with content areas, including science and social studies, appropriate for elementary children. Strategies for working with diverse student populations and incorporating current educational technology competencies are included. JuMP field experience. Prerequisites: EDU 150, EDU 260, and approval into the teacher education program. Offered Fall semester.

#### EDU 355

#### 3 hours Early Literacy Experiences and Assessments: K-3

Course focuses upon the teaching and assessment of literacy in the early classroom. Topics include emergent literacy, word identification and recognition, fluency, and assessments. JuMP field experience. Prerequisites: EDU 150, EDU 260, and approval into the teacher education program. Corequisite: EDU 355L and EDU 371. Offered Fall semester.

#### EDU 355L

#### Elementary Education Junior Block Field Experience Lab

This lab experience is to be taken concurrently with elementary education junior block methods classes. *Corequisite with EDU 355. Offered Fall semester.* 

3 hours

I hour

#### EDU 356

#### Middle Childhood Literacy Experiences and Assessments: 4-6

Course focuses upon the teaching and assessment of literacy in the middle childhood classroom. Topics include vocabulary, comprehension, study skills, content area literacy, and assessments. JuMP field experience. Prerequisites: EDU 150, EDU 260, EDU 355, and approval into the teacher education program. Corequisite: EDU 351 and EDU 356L. Offered Spring semester.

#### EDU 356L

#### I hour **Elementary Education Junior Block Field Experience Lab**

#### Independent Study An individualized, directed study involving a specified topic.

EDU 370 Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### EDU 371

#### Literature for Children and Adolescents

The various genres of children's literature and young adult literature are explored. Course focuses upon new literacy, multicultural literature, special needs, and other appropriate literature. Materials range from emergent books to young adult literature. JuMP field experience. Prerequisites: EDU 150, EDU 260, and approval into the teacher education program. Corequisite: EDU 355. Offered Fall semester.

3 hours

#### EDU 384 I hour

#### Perspectives on Diversity

This seminar focuses on education in diverse settings. Emphasis is given to the impact of learning of social class, race/ethnicity, and English language proficiency through readings and discussions. The roles of local, state, and federal agencies in relationship to public educational policy are discussed and analyzed. Field-trip exploration of various schools and organizations serving diverse populations is a key component of the course. A class fee is necessary to cover field trip expenses. Prerequisite: EDU 150. Meets foundational core civic engagement requirement. Offered Fall and Spring semesters.

#### EDU 385 Diversity in the Classroom

#### 3 hours

This courses provides a pre-student teaching experience working in either an urban public school or overseas in a school with English as the medium of instruction. Placements are in diverse settings. Emphasis is given to application of and written reflection on issues explored in EDU 384. Observation, participation, and a limited amount of supervised classroom teaching are expected. Prerequisites: EDU 260 and EDU 384. Meets foundational core cross-cultural (CC) requirement. Offered January interterm.

EDU 393 Practicum

# I-4 hours

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

#### **Special Education Courses**

#### SED 220

#### Exceptional Children

This course is designed to prepare the teacher for the challenge of meeting the needs of exceptional children in the regular classroom. A general study of exceptional children focuses on mainstreamed and included special education students. Various topics included are identification of exceptional children, their characteristics and special needs, delivery of services, instructional methods and techniques, and evaluation.

3 hours

#### **SED 330**

#### Foundations of Special Education

A study of the profession of special education, this course deals with the philosophical, historical, ethical, and legal foundations of special education. The responsibilities and rights of students, their parents, all involved educators and other professionals are studied as they relate to meeting the needs of exceptional learners. Prerequisite: SED 220. Offered Spring.

3 hours

#### **SED 340**

#### 3 hours Assessment of Exceptional Learners

This course focuses on formal and informal assessments used to identify, plan for, and teach students with exceptional needs, including the use of that information to develop individual education plans. Communication of that information with students, parents, and other professionals is discussed. Includes a field experience lab. Prerequisites: SED 220 and SED 330. Offered Fall semester.

3 hours

#### **SED 350**

#### **Behavior Management and Disorders**

Managing the learning environment of students with special needs is the focus of this course. Topics covered include behavioral assessments and their use in developing behavior intervention plans for exceptional students, as well as the legal implications of laws and regulations regarding the implementation of these plans in various learning environments. JuMP field experience. Prerequisites: SED 220 and SED 330. Offered Spring semester

#### **SED 355**

#### 3 hours Methods of Special Education

Methods and materials used in the intervention of exceptional learners are presented in this course. Strategies of instruction in the least restrictive environment, modification of curriculum, and collaboration and consultation across the spectrum of services are presented in conjunction with the daily teaching and planning required of students' individual education plans. Includes a field experience lab. JuMP field experience. Prerequisites: SED 220 and SED 330. Offered Fall semester.

#### EDU 421 17 hours

## Supervised Internship in Elementary Schools

Full-time teaching experiences for the intern at two grade levels under the supervision of public and private school and college personnel. Multicultural/multiethnic education placement is required in one of the experiences. Prerequisites: (a) approval by the Teacher Education Committee; (b) EDU 150, 255, 260, 306, 351, 355, and 356. Credit only.

#### FDU 431 17 hours

Supervised Internship in Secondary Schools

Full-time teaching experiences for the intern at two grade levels under the supervision of public school and college personnel. Prerequisites: (a) approval of the Teacher Education Committee; (b) EDU 150, 222, 260, 307, 309. See individual majors for additional prerequisite courses. Credit only.

#### EDU 450

Directed Research

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

I-4 hours

I-4 hours

### EDU 480

Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

#### EDU 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

I-2 hours

3 hours

#### EDU 493

**Elementary Education Senior Capstone** 

Students address current and future issues related to teaching through lectures, readings, school visits, and discussion. The integration of Christian philosophical concerns with the current role and responsibilities of teachers is emphasized. Required Washington D.C. field trip. Fee required. Prerequisite: Approval into the teacher education program. Offered January interterm only.

3 hours

#### **SED 375**

#### Low-Incidence Disabilities-Instruction and Learning

A study of the curriculum principles related to the design of systematic instruction for individuals with intense disabilities. The focus is on research-based strategies for promoting academic and social-emotional success for students from preschool through adolescence. The roles and types of technologies in the teaching and learning process are included. To apply knowledge of systematic instruction with assessment, candidates will gain understanding of the history, legal, characteristics, and etiological background of children and adolescence with intense disabilities. Includes a field experience teaching students with intense disabilities. Prerequisites: SED 350 and SED 355.

#### **SED 380**

#### Low-Incidence Disabilities-Independence and Self-determination

This course provides candidates with the skills to understand and interpret the instructional needs of students with intense disabilities related to independence and self-determination. The student, family, and diagnostic procedures to inform decision-making is the focus. Theories and principles related to the development of skills for independence and self-determination are used to integrate daily living, job and community, and behavior self-management into individualized programs for students. This course includes a field experience teaching students with intense disabilities. Prerequisites: SED 350 and SED 355.

3 hours

#### **SED 390**

#### 3 hours Low-Incidence Disabilities-Collaboration and Individualized Programs

The course focuses on the strategies of effective communication and collaboration for promoting the success of children and adolescents with intense disabilities. The consultative and collaborative skills and roles of special education teachers will be studied to advance the learning experiences and outcomes for students. Content includes the functions and roles of various professionals, settings, programs, and services. Culturally competent services, parent involvement, and the role of students with intense disabilities are addressed. This course includes a field experience teaching students with intense disabilities. Prerequisites: SED 350 and SED 355

#### **SED 440**

#### **Special Education Integrative Seminar**

This special education capstone course provides students with the opportunity to approach the field of special education holistically, examining contemporary and critical issues in special education as these issues are examined through a theological lens. Prerequisites: SED 220, SED 330, SED 340, SED 350, and SED 355. Offered Spring semester.

#### Teaching English to Speakers of Other Languages (TESOL) Courses

I-4 hours

#### **TSL 170**

#### Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

### **TSL 201**

#### Introduction to SLA and the Field of Teaching ESOL

This course discusses the role of the English language in the contemporary world and how language and culture shape human interactions. It provides an introductory understanding of the field of second language acquisition, from the perspective of both learning and teaching a new language. It also explores the teaching of English in ministry in U.S. and international contexts. Includes 5 hours of TESOL/cross cultural experience.

3 hours

#### **TSL 202**

#### Introduction to the ESOL classroom

Geared towards non-education majors, this course introduces elements of effective English language instruction in an ESOL (English for Speakers of Other Languages) classroom. Includes 3 hours of practical TESOL experience. Must be take concurrently with TSL 201. Offered Fall and Spring semesters.

I hour

I hour

#### **TSL 203**

#### Introduction to ESOL in American Public Schools

Geared towards future teachers in American public schools, this course introduces elements of effective English language instruction in the P-12 classroom. It presents effective ways of scaffolding and making accommodations for English language learners in content- and standards-based instruction. Includes 3 hours of practical TESOL experience. Must be take concurrently with TSL 201. Offered Fall and Spring semesters.

3 hours

### **TSL 210**

#### Teaching ELL in P-12 Classroom

Intended for future US public school ESOL professionals, this course addresses English language learners (ELLs) in P-12 classrooms. Investigates TESOL-related legislation and its effect on schools, students, and teachers, as well as types of ESOL programs used in U.S. schools and their effectiveness. Studies effective advocacy, strategies for collaboration with families and non-ESOL colleagues and paraprofessionals, and helpful resources and services. Prerequisites: EDU 150 and TSL 201. Offered Spring semester.

#### TSL 211 3 hours

#### **Teaching English Internationally**

This course provides an analysis of background issues in teaching English to speakers of other languages outside the U.S. Primary focus will be on covering nonpedagogical aspects of preparing for an English teaching position overseas. This will include better understanding the cultural and classroom challenges of teaching English internationally as well as helping students more effectively assess prospective teaching opportunities. Offered Fall semester of even years.

#### TSL 212

#### Adult ESL Literacy Development

Examines aspects of teaching literacy skills to adult ESL students such as refugees or immigrants with limited or interrupted education. Prerequisites: TSL 201; and TSL 202 or TSL 203. Offered Fall semester of odd years.

3 hours

I hour

#### **TSL 240**

#### **Introduction to Linguistics**

Linguistics is the scientific study of spoken or signed human Language. This course introduces the core areas of linguistics (i.e., phonology, morphology, syntax, semantics, pragmatics) that are common to all human languages. The goal is to understand the basic structure of Language, and develop the analytical skills to observe and describe any human language. It will also explore how languages are learned, and how language is tied to a sense of identity.

TSI 270 I-4 hours

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### TSL 302 Language and Culture

#### Introductory course providing brief overview of phonology, morphology, syntax, semantics and pragmatics. Examines areas of phonetics and language variations (such as language and power, socioeconomic status, regionalisms, ethnicity, bilingualism, multilingualism, globalization) in more depth. Prerequisites: TSL 201; and TSL 202 or TSL 203.

## TSL 303

## Methods and Assessment in TESOL

This course develops understanding and skill in classroom instruction of English learners including lesson planning, teaching, and assessment. Topics covered include teaching methods and techniques for all aspects of English language development, educational technology, curricular planning, and formative assessment. Includes a 20hour field experience lab. Prerequisite: TSL 201.

3 hours

#### **TSL 304**

#### Issues in Second Language Acquisition

This course offers a review of second language acquisition theory and research and introduces current issues in second language acquisition. Prerequisites: TSL 201, TSL 305, and TSL 303

3 hours

#### **TSL 305** 3 hours

Pedagogical Grammar and Applied Linguistics in TESOL This course introduces applied linguistics and its practical implications in language teaching. It provides study of English grammar and how English structures are taught and explained to English learners. Prerequisite: TSL 201.

3 hours

#### TSL 310

#### Teaching the Skill Areas in TESOL

This course develops understanding and skill in classroom instruction of English learners in the skill areas of reading, writing, speaking, and listening. Students will apply their growing knowledge of how English learners develop these language skills to their own current or intended teaching context and age group. Prerequisites: TSL 201, TSL 303, and TSL 305.

3 hours

# English and Modern Languages

#### Chair, Professor A. Housholder Professors B. Bird, A. Chang, N. Dayton, C. Warren Associate Professors D. Bowman, C. King, L. Mook, J. Moore Assistant Professor A. Pacheco Instructor G. Hoffman

The Department of English and Modern Languages offers courses intended to help students write clearly and effectively and to read literature with critical appreciation and provides the opportunity for students to develop their communication skills in another language in order to gain linguistic, cultural, and literary understanding and to interact meaningfully with people from other cultures.

A major in English prepares students to enter such careers as education, law, business, Christian ministry, writing, editing, research, library science, public relations, travel, civil service, and administration. The major also prepares for graduate-level studies in English. Creative writers will find opportunity in Parnassus, a literary magazine published each Spring semester. The January interterm offers a tour to London, England, that combines the study of British literature with visits to important literary and historical sites. The major in English is offered with a concentration in either Creative Writing or Literature, or in both if there are no overlaps except for ENG 212, ENG 493, and one foundational core survey course.

A major in Spanish prepares students for the future, whether that means sharing their faith, conversing with a neighbor whose first language is not English, or performing a job in the professional realm. In addition to offering foreign language courses to meet the two-year language requirement for the Bachelor of Arts degree, the department offers teaching and non-teaching majors and a minor in Spanish. Majors will need to take courses abroad in order to complete the departmental requirements; in all cases, the department must approve the study abroad courses in advance.

The Bachelor of Arts degree requires completion of two years of one foreign language. The Bachelor of Science degree must be combined with education or systems analysis.

#### English—Creative Writing Concentration (BA)

The Bachelor of Arts degree in English with a concentration in Creative Writing requires two years of sequential college-level study in one foreign language and at least 46 hours in addition to ENG 110 College Composition. All major courses, including those in the concentration, must be completed with a grade of Cor better and are included in the major GPA.

### Spanish Education (BA/BS)

The Spanish Education major consists of the 30-hour major in addition to education curriculum courses. Majors will need to take courses abroad in order to complete the departmental requirements. A minimum of 15 of the 30 major credit hours above must be completed through Taylor and approved off-campus programs. A maximum of 15 of the 30 major credit hours above may be met through transfer courses and AP/CLEP testing. Optional concentrations are available in SpEd Mild-Moderate P-12 Licensure, SpEd Intense P-12 Licensure, and TESOL P-12 Licensure. The Bachelor of Arts degree requires two years of one foreign language. All major courses, including education curriculum courses, must be completed with a grade of C- or better and are included in the major GPA.

#### **Professional Education**

EDU 150	3	Education in America
EDU 222	2	Reading in the Content Area for Secondary Teachers

### CHI 101

### Elementary Chinese I

The skills of listening, speaking, and writing are taught in the context of daily happenings in the Chinese-speaking world. The essentials of grammar are studied. Lab activities are provided. Offered Fall semester.

4 hours

4 hours

#### CHI 102

Elementary Chinese II See CHI 101. Prerequisite CHI 101. Offered Spring semester.

### **English Courses**

#### ENG 101

#### 3 hours **Fundamentals of College Composition**

Introduction to college-level writing and preparation for ENG 110. Students will improve their ability to read academic texts and respond to them in their own writing. They will learn fundamental writing processes, including improving their credibility, confidence, and voice as writers and revising their writing to meet minimum college-level standards. Offered Fall semester.

ENG 110

### **College Composition**

3 hours

Practice in writing clear and effective prose through several expository modes, including a formal research paper. Brief review of grammar and mechanics as necessary, with concentration on analytical thinking. This course must be taken during the freshman year. Meets foundational core writing requirement. ENG 110 is a prerequisite to all other English courses except ENG 101, ENG 230, ENG 233, ENG 240, ENG 243, and ENG 250.

#### ENG 170 Selected Topics

I-4 hours

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

#### ENG 211

#### Introduction to Creative Writing

A general introduction to and overview of creative writing (including poetry, fiction, drama, and creative nonfiction) that meets the requirement for secondary education students and also serves potential majors and other interested students. Classroom setting with textbook; directed workshop activities after midterm facilitated by selected ENG 410 students. Prerequisite: ENG 110. Offered Fall semester.

3 hours

#### **ENG 212**

**Critical Approaches to Literature** 

Introduction to basic literary analysis and theory with emphasis on informed reading and critical, written response to selections of poetry, fiction, drama and film. Includes minorities literature. Primarily intended for English majors, but recommended for all students who desire greater reading and writing skills. Prerequisite: ENG 110.

#### **ENG 230**

#### 3 hours World Literature

A selective survey of world literary achievement from antiquity to the present, tracing the development of themes and ideas. Meets foundational core literature requirement.

#### **ENG 233**

#### Literary London

3 hours

An annual January-term course that travels to London and elsewhere in the United Kingdom, enriching the reading and discussion of assigned works of British Literature by experiencing the locations and culture that helped shape those works. Meets foundational core literature requirement. Enrollment with permission of instructor. Offered January interterm.

#### **ENG 240**

**American Literature** 

A survey of the American literary tradition from its origins to the present, evaluating and comparing themes, ideas and styles. Meets foundational core literature reauirement.

3 hours

### **ENG 243**

#### 3 hours Latin American Literature

Survey of Latin American Literature offered through the Taylor University Ecuador program. Students will study a variety of genres and literary periods comparing themes, ideas, and styles. Meets the foundational core literature requirement.

3 hours

#### **ENG 250**

#### **British Literature** Explores British literature from its beginnings to the present, including a brief

historical overview of the development of the English language. Meets foundational core literature requirement.

ENG 270	I-4 hours	
Selected Topics		

A course offered on a subject of interest but not listed as a regular course offering.

#### CHI 201 Intermediate Chinese I

#### Emphasis is placed on the conversational approach with additional reading and writing. Prerequisite: CHI 102. Offered Fall semester.

CHI 202

#### See CHI 201. Prerequisite CHI 201. Offered Spring semester.

#### ENG 300 I-2 hours Literary Editing and Publishing I: Parnassus

Hands-on production of Taylor's literary magazine from concept to finished product. Two credit hours per semester may be earned by students holding senior editorships of Taylor's official literary magazine. One hour per semester may be earned by those holding secondary positions approved by the instructor. A maximum of four hours may count toward fulfilling the English writing concentration requirements; two hours maximum may count toward the English literature concentration requirements. A maximum of six hours in all writing lab courses from any discipline may be earned toward graduation. Prerequisites: Permission of writing coordinator, ENG 211, and ENG 212.

#### **ENG 305**

An introduction to the theories, research, and pedagogy of composition (including grammar). Topics include rhetorical, philosophical, and cognitive theories of writing; composition research; and writing pedagogy. Course designed for both creative writing and English education majors. Prerequisite: ENG 110.

3 hours

#### ENG 309

#### Teaching English in Secondary, Junior High/Middle School

A junior-level course that presents models of professionalism for English Education majors. Strategies and techniques for effective planning, teaching, and evaluating materials with English/Language Arts curricula are demonstrated and developed. Does not count as a major or minor elective. Prerequisites: EDU 150, EDU 260, and approval into the Teacher Educational Program.

### ENG 311

Writing and Rhetoric

Examines the foundational ideas from rhetoric and composition studies that relate to the effectiveness of written communication. Students will learn to apply these ideas to their own writing. Topics include classical to contemporary rhetoric, the essay, persuasion, and construction of meaning through writing, invention, and voice. Offered January Interterm of odd years. Prerequisites: ENG 211 and 212.

## **ENG 320**

Poetry Writing Comprehensive instruction and guided workshop in writing poetry. Recommended for English BA majors with either literature or writing concentrations; available to all majors. Prerequisites: ENG 110 and 211. Offered Spring semester.

3 hours

3 hours

#### ENG 321 **Fiction Writing**

#### Comprehensive instruction and guided workshop in writing fiction. Recommended for English BA majors with either literature or writing concentrations; available to all majors. Prerequisites: ENG 110 and 211. Offered Spring semester.

#### **ENG 325 Creative Nonfiction**

Comprehensive instruction and guided workshop in creative nonfiction. Emphasis on distinguishing and practicing sub-genres, such as memoir, nature essay, personal essay and journalistic essay. Prerequisites: ENG 110 and ENG 211. Offered Spring semester of even years.

3 hours

3 hours

#### ENG 361 Drama

A selective survey of the historical development of drama from its origins to the Counts for either pre-twentieth- or twentieth-century requirement. present day. Prerequisite: ENG 212 and 200-level English literature course. Offered Spring semester of odd years.

3 hours

3 hours

### ENG 362

Shakespeare

#### Intensive analysis of selected plays and sonnets. Attention is given to the conventions of the Elizabethan and Jacobean theater. Prerequisite: ENG 212 and 200level English literature course. Offered Spring semester.

**ENG 370** Selected Topics

### I-4 hours

A course offered on a subject of interest at the discretion of the department but not listed as a regular course offering. Such courses may count as major elective hours or foundational core hours, pending the approval of the English Department. Prerequisite: ENG 212 and 200-level English literature course. Offered primarily during January interterm and occasional Fall or Spring semesters.

#### ENG 371 The Novel

# 3 hours

A selective survey of the historical development of the novel, from its origins to the present day. Counts for either pre-twentieth- or twentieth-century requirement. Prerequisite: ENG 212 and 200-level English literature course. Offered Spring semester of even years.

#### **ENG 373**

#### 3 hours Literature of Diverse Cultures

A critical study of life in a global community, focusing on the twentieth-century literature of one or more cultures. Primarily intended for English majors, but recommended for all students desiring cross-cultural awareness. Prerequisite: ENG 212 and 200-level English literature course. Offered Spring semester of even years.

I-4 hours

### ENG 393

#### Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer. Prerequisites: ENG 211 and ENG 212.

#### ENG 410

Advanced Creative Writing

Intensive practice in selected creative genres. Students may also serve as workshop leaders for ENG 211 students. May be taken twice. Prerequisite: Permission of instructor and ENG 211, ENG 212, ENG 320, ENG 321, ENG 325, or ENG 472. Offered Fall semester

3 hours

#### ENG 412

#### 3 hours Early English Literature

A selective study of English literature from "Beowulf" through Chaucer and Malory's "Le Morte d'Arthur." Prerequisite: ENG 212 and 200-level English literature course. Offered Fall semester of odd years.

3 hours

#### **ENG 422**

#### **Renaissance Literature**

A study of representative prose writers and non-dramatic poets of the English Renaissance, such as More, Spenser, Donne, Herbert, and Milton. Prerequisite: ENG 212 and 200-level English literature course. Offered Spring semester of even years.

3 hours

### ENG 426

FRE 101

## Restoration and Eighteenth-Century Literature

A selective study of poets and prose writers from 1660 to 1798, such as Defoe, Dryden, Fielding, Pope, Swift, Boswell, and Johnson. Prerequisites: ENG 212 and 200level English literature course. Offered Fall semester of even years.

#### SPA 301 Spanish Conversation I

Intensive practice in oral Spanish to increase fluency and authenticity through activities and conversation in Cuenca, Ecuador. 3 hours

3-6 hours

#### **SPA 302**

Spanish Language Study

A course designed for the promotion of oral and written proficiency with an emphasis on experiential learning, cultural and linguistic immersion. Students will have intensive practice to increase communicative competence through advanced level activities and conversations. Offered as Interterm and Summer trips in various locations and Fall and Spring in Ecuador.

#### **SPA 304**

#### 3 hours Introduction to Spanish Linguistics

Introduction to the way the Spanish language is structured and to the various subfields of linguistic analysis, such as morphology, syntax, and semantics. Students will be required to analyze the linguistic structure of sounds, words, and phrases. Prerequisite: SPA 202.

3 hours

### SPA 305

Communication in Spanish

A course designed for the promotion of oral proficiency that focuses on interpersonal and academic discourse of cultural topics related to the Spanishspeaking world. Prerequisite: SPA 202.

### **Modern Languages Courses**

#### **MDL 309**

Teaching Modern Languages in Secondary, Junior High/Middle School

2 hours

This course is designed to provide students with fundamental linguistic knowledge of Spanish and French and the application of this knowledge to different aspects of instruction of Spanish/French and to language learning and teaching in bilingual situations. Those aspects include the acquisition of first and second language, the methodologies of foreign language instruction, socio-cultural variables and general knowledge of Spanish morphology and grammar, and understanding the difficulties of English-speaking students in Spanish class. This course consists of three major parts: (1) second language acquisition; (2) Spanish/French grammar approached from the teacher perspective; and (3) sociolinguistics, instructional technology and language assessment. Prerequisites: EDU 150, 260, approval into the teacher education program, and junior status.

#### KOR 201 Intermediate Korean I

The first half of second year Korean language course. The objective of the course is to equip students with communicative skills in speaking, reading, and writing at the intermediate level in Korean, such as expanding simple ideas into imposing various kinds of the speaker's stance. Prerequisite: KOR 102. Offered Fall semester.

3 hours

3 hours

## **KOR 202**

Intermediate Korean II

The second part of second year Korean. The course provides students with further conversational and grammatical skills beyond those learned in the first semester. Prerequisite KOR 201. Offered Spring semester.

NOTE: SPA 305 or instructor's permission is a prerequisite to all higher upper-division Spanish courses.

#### SPA 310 3 hours **Culture and Civilization of Hispanic America**

An historical/cultural overview of the people, and the political, economic, and social forces that have shaped Spanish-speaking countries in the western hemisphere from the 15th century through the contemporary period. Prerequisite: SPA 305 or instructor's permission.

### SPA 321

The Art of Writing Spanish

An advanced workshop experience in the writing of Spanish. Includes a review of grammar and mechanics and practice in several expository modes, including a formal research paper. Prerequisite: SPA 305 or instructor's permission.

3 hours

#### SPA 360 Independent Study

An individualized, directed study involving a specified topic. Prerequisite: SPA 305 or instructor's permission.

#### **SPA 370** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. Prerequisite: SPA 305 or instructor's permission.

I-4 hours

I-4 hours

#### **SPA 393** Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Prerequisite: SPA 305 or instructor's permission. Offered primarily during summer.

#### SPA 450 **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. Prerequisite: SPA 305 or instructor's permission.

I-4 hours

#### **SPA 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. Prerequisite: SPA 305 or instructor's permission.

I-2 hours

I-4 hours

#### SPA 490

Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field. Prerequisite: SPA 305 or instructor's permission.

# I-4 hours

## Human Physiology and Preventive Medicine

Erik Hayes and Brian Dewar, Advisors

Human Physiology and Preventive Medicine is designed specifically for students seeking to enter into professional schools related to health care (e.g., medical school, physician assistant, physical therapist, occupational therapist, nursing). It first explores a basic foundation of human anatomy, physiology, cellular biology, and chemistry followed by more in depth physiology courses related specifically to physiological systems, the pathophysiology of chronic disease of those systems, and the scientific evidence and mechanism for prevention of disease through lifestyle modification. Students will gain a basic background in human nutrition, health psychology, and public health preparing them for work as health educators in our local medical clinic working to help members of the community prevent and treat chronic disease. The major is intentionally small enough to allow students space to meet all the prerequisite requirements for professional school entrance exams and professional school admission requirements. In addition, students will have room to pursue semester abroad experiences, faculty mentored research, and clinical internships.

Students wishing to follow more traditional paths to professional schools in medicine and health care (e.g., biology or chemistry) or choosing majors that would not typically be associated directly with health care but are nonetheless related to human health and flourishing (e.g., social work, music therapy, missions) may choose to complete a minor in Preventive Medicine.

#### Human Physiology and Preventive Medicine (BS)

The Bachelor of Science degree with a major in Human Physiology and Preventive Medicine 55-56 major hours. Students must also complete at least 160 clinical hours as approved and verified by department. All major courses must be completed with a grade of C- or better and are included in the major GPA.

# **Preventive Medicine Minor**

A minor in Preventive Medicine requires 20 hours. Students must also complete two semesters of 80 clinical hours each semester as approved and verified by department. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

**Minor Requirements** 

- EXS 316 Applied Nutrition
- KIN 221 Exercise as Medicine 3
- NAS 230 2 Health Education for Behavior Change
- Introduction to Public Health **PBH 100** 3
- PHI 311 3 Medical Ethics
- PSY 100 3 Introductory Psychology
- PSY 395 3 Health Psychology

### **Pre-Nursing**

Erik Hayes, Advisor

While preparation for graduate work in medicine or allied health fields can be done through any major available at Taylor, if necessary preparatory courses are taken, majors in these areas offer concentrations designed specifically for this purpose. The Pre-Nursing major includes a dual degree program leading to an undergraduate degree in Nursing.

A major in Pre-Nursing is offered with an optional concentration in Public Health. Upon successful completion of the three years of required curriculum at Taylor University, students must then complete the Indiana Wesleyan University Transition to Nursing program. Following the receipt of an official transcript verifying the satisfactory completion of the Bachelor of Science in Nursing (BSN) program, the student is awarded a Bachelor of Science degree by Taylor University.

Careful planning should allow opportunity for study in affiliated programs, including health science and public health courses in Ecuador.

All Taylor University degree requirements are applicable with the following exception: 22 of the final 30 credit hours completed through Taylor. Normally, students complete all applicable requirements within three years, including a total of 101 credits from a minimum of 43 major hours, foundational core curriculum, and general electives. A minimum of 64 earned credit hours must be through Taylor.

Taylor University currently maintains a preferred admissions agreement with Indiana Wesleyan University's 14 month accelerated nursing program, but cannot guarantee acceptance into this BSN program for any individual student.

### Pre-Nursing (BS)

The Bachelor of Science degree with a major in Pre-Nursing requires 42-65 hours with an optional concentration in Public Health in addition to the successful completion of an approved BSN program from an accredited school. Taylor University cannot guarantee acceptance into a BSN program. All major courses, including those in the concentration, must be completed with a grade of C- or better and are included in the major GPA; only courses taken through Taylor count toward the major and cumulative GPA.

#### **Major Requirements**

CHE 211	4	College Chemistry I			
CHE 212	4	College Chemistry II			

Successful completion of an approved BSN program from an accredited school.

\*Must be an approved Microbiology for Nursing course.

#### Human Physiology Courses

### HPH 310

#### Cardiorespiratory Physiology and Chronic Disease

This course explores the physiology of the cardiac, respiratory and vascular systems, pathophysiology of the most common cardiorespiratory diseases, and current evidence and mechanisms for disease prevention through lifestyle modification. Prerequisites: BIO 201; BIO 310; BIO 311; and CHE 202 or CHE 212.

3 hours

#### HPH 315 3 hours

Pathophysiology of Immunological & Metabolic Chronic Diseases

This course explores the pathophysiology of immunological and metabolic chronic diseases with specific emphasis on cancer, hyperlipidemia, diabetes, obesity, and frailty, as well as the major organ systems most commonly impacted by those diseases and current evidence and mechanisms for disease prevention through lifestyle modification. Prerequisites: BIO 201; BIO 310; BIO 311; and CHE 202 or CHE 212.

#### An optional concentration may be added:

PBH 110 PBH 320 PBH 330 PBH 350	3 4 3 3	Global Health Epidemiology Assessment for Program Planning Determinants of Health and Health Equity
Select 9 credits	from the	following courses:
EXS 217	3	Health Promotion Program Planning
PBH 340	4	Community Health Development in Practice
PBH 346	3	Public and Community Health
PBH 393	3	Practicum

#### HPH 320 3 hours Neuromuscular Physiology and Chronic Disease

This course explores the physiology of the central and peripheral nervous system with specific emphasis on neuromuscular control, the pathophysiology of the most common neurological and neuromuscular diseases (e.g., stroke, Parkinson's, Alzheimer's, mental illness), and the current evidence and mechanisms for disease

prevention through lifestyle modification. Prerequisites: BIO 201; BIO 310; BIO 311;

#### HPH 493

and CHE 202 or CHE 212.

3 hours Human Physiology Capstone

This course will revisit and add to the theological and philosophical underpinnings of human health and medicine that were initially explored in KIN 221 Exercise as Medicine. Students will review their reflective writings from their freshmen year and develop an updated philosophy of human health and flourishing and the practice of medicine. In addition students will be required to research a specific chronic disease and present an in depth presentation of the current scientific evidence for disease prevention. This course will culminate in a multi-day retreat where students will give their presentations and engage their peers and faculty in discussions centered around their philosophy papers. Must be a graduating senior to enroll. Offered Interterm.

# History, Global, and Political Studies

Chair, Associate Professor K. Johnson

Orphans and Vulnerable Children Director, Professor S. Moeschberger

### Associate Professors E. George, N. Kerton-Johnson

Assistant Professors J. Miller, B. Wetzel

The Department of History, Global, and Political Studies prepares students for careers as servant leaders in public service, teaching, law, ministry, public history, and to enter into the challenges presented by a world with millions of at-risk children and communities. The department offers majors in History; Global Studies; Orphans and Vulnerable Children; Political Science, Philosophy, and Economics (PPE); Politics and Law; Politics and Public Service; and Social Studies Education. Minors are offered in Geography, Global Studies, History, International Relations, Legal Studies, Orphans and Vulnerable Children, and Political Science, and PPE.

Most majors require a practicum (1-3 hours) in a professional setting for a Bachelor of Arts; the Bachelor of Science, which includes information systems and analytics, requires most majors to complete 3-4 hours of practicum. Orphans and Vulnerable Children requires two 3-credit practicums, PPE requires one 3-credit practicum, and Social Studies Education requires a 15-credit (student teaching) internship. Practicums are most often completed during the summer and must be pre-approved by the department chair.

## **Global Studies**

The Global Studies program seeks to assist students in preparing for living and serving in the modern world. The focus of the Global Studies curriculum is upon the twenty-first century world and the humane disciplines more than the technical and scientific ones.

Majors from all disciplines who wish to develop a broad understanding of God's people throughout the world and are interested in careers in foreign service, humanitarian agencies, international law, overseas teaching, journalism and other mass media, translation, missions, or international business would clearly benefit from a major or minor in Global Studies.

Students interested in pursuing a major or minor in this program should consult the program director.

#### Global Studies (BA)

The Bachelor of Arts degree with a major in Global Studies requires completion of 45-47 hours in foundational courses, related field requirements, and a concentration area. Other requirements include a January interterm or semester of international study experience, and a senior paper. In addition, majors must also complete two years of one foreign language. All major courses, including those in the concentration, must be completed with a grade of C- or better and are included in the major GPA.

Foundation	Cours	es	†Cross-Cult	ural Mir	nistries Related Field Courses Requirements	
GBS 130	3	Introduction to Global Studies	ANT 200	3	Cultural Anthropology (may be taken through TU Online)

			HIS 317	3	The Gilded Age and Progressive Era (1877-1920)
			HIS 320	3	Ancient Near Eastern History
			HIS 340	3	Colonial America

### Legal Studies

The best preparation for graduate training in the field of law is a regular four-year college academic program leading to the Bachelor of Arts degree. The student's major, chosen in consultation with the pre-law advisor, should be one that enhances reading, writing, and analytical skills.

Normally, the courses are taken during the junior or senior years. If, however, the student plans to participate in an off-campus program, such as the American Studies Program, it may be necessary to take one or two of the courses during the sophomore year. Students should consult with their academic advisors or the pre-law advisor about the best time to take pre-law courses.

#### Legal Studies Minor

As a supplement to their major, students may opt for a Legal Studies minor which consists of 18 hours. Not available to students with a major in Politics and Law. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

Select one course from the following:

3

3

Business Law

International Law and Justice

MGT 311

POS 327

LGS 441	3	Principles of Legal Analysis
LGS 442	3	Legal Thought
POS 385	3	Constitutional Law I: Foundation
POS 386	3	Constitutional Law II: Civil Liberties and Rights

### **Orphans and Vulnerable Children**

#### Scott Moeschberger, Director

The Orphans and Vulnerable Children major is an innovative "problem-focused major" where students can start with the challenges of a global orphan crisis and take courses designed to equip them to intervene in meaningful ways. It is designed to pair easily with a complementary discipline. By design, this interdisciplinary major includes elements of developmental psychology, global health, principles of community development, working with families, assessment, and skills in philanthropy.

Students will gain an understanding of issues that range from the development of the individual (including exposure to trauma and violence), to global health and policy issues, to assessing intervention efforts at all levels. Service-learning through practicums and research provide opportunities to apply learning in a hands-on environment and create opportunities for students to contribute to the field as emerging scholars.

#### **Orphans and Vulnerable Children (BA)**

The Bachelor of Arts degree with a major in Orphans and Vulnerable Children requires two years of one foreign language and 51 major hours. All major courses must be completed with a grade of C- or better and are included in the major GPA.

This course serves as a culminating learning experience that requires students to develop a senior portfolio that synthesizes the curriculum. Students will be encouraged to work on projects that would lead to focus on selected topics.

3 hours

### POS 232

#### **Political Thinking**

Introduces students to central concepts and theories of politics and engages students in critical analysis of those concepts and theories. Special consideration is given to key works on the integration of Christianity and politics. Offered Spring semester.

3 hours

3 hours

#### POS 233 State and Local Politics

This course is designed to introduce the student to the theory, function, institutions, processes, policies, and operations of state and local government and politics. The increase in the importance and status of state and local politics and policy in meeting the needs of its citizens necessitates such a course, particularly with the increasing complexity of constitutional challenges, policy advocacy and innovation, and intergovernmental relations. During times of economic and political crises, and the increasing expansion of national governmental legal and regulatory authority, state and local government politics is under increasing pressure to adapt during times of economic and constitutional crisis. It is imperative that students have a solid understanding of how state and local governments and politics work with the non-profit and private sectors.

### **POS 245**

**Research in Political Studies** An introduction to the conduct of research in the study of politics. Students engage in activities that help them develop basic research literacy and understanding as they apply basic research methodology utilized by political scientists and practitioners.

I-4 hours

3 hours

#### **POS 270** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

A political history of Southwest Asia and North Africa in the 20th century. Special attention is given to the variety of governments in the region, Islam and politics and domestic and international conflict. Meets general social science requirement. Offered Spring semester.

3 hours

#### POS 325

#### American Foreign Policy

Uses case studies of major events in U.S. foreign relations since World War II to consider the relationship between morality and politics. Includes an overview of the process of making and implementing foreign policy within the U.S. government. Offered Fall semester of odd years.

#### **POS 327**

## 3 hours

International Law and Justice International Law and Justice offers students an overview of the role of law in international affairs and the benefits and challenges of supranational legal structures, including international organizations, conventions, and other bilateral and multilateral arrangements. The course will commence with an analysis of the foundational definitions and components of international law and the oftencomplicated relationships between domestic legal systems and international legal frameworks. Students then will explore in greater depth several specific content areas of international law, including trade, the environment, security, and human rights. The course also will provide an opportunity for critical engagement with the concept of justice in the development and application of international law, particularly for vulnerable and marginalized individuals and communities, as well as the theological foundations of justice. Throughout the course, students will have opportunities to discuss the unique expectations and opportunities for Christ followers to pursue justice in a global context.

#### POS 331

#### Public Policy

An extensive examination of the interaction between Congress and the Presidency in making public policy. The course focuses on major theories of public policy and examines governmental policy-making from these perspectives. Meets civic engagement or general social science requirement. Offered Fall semester.

3 hours

3 hours

### **POS 344**

**Campaigns and Elections** 

This course will examine the foundation and development of campaigns and elections in the US. In addition, it will also focus on the role of political parties and media and political communication. Students will engage in actual campaign and electoral behavior activity. Participation as a volunteer in an actual campaign is expected as part of course requirements. Recommended course pre-requisite: POS 100 and sophomore standing. Offered every two years coinciding with fall election cycle.

#### POS 345

#### Congress and the Presidency

Studies congressional processes such as leadership, committees and rules and the role of the President in American politics. Special emphasis is given to the interaction between Congress and the President in formulating public policy. Offered Spring semester of even years.

3 hours

3 hours

#### **POS 350**

### International Security

The concept of security is used very frequently in relation to international issues. This course introduces students to the study of international security, including theoretical, normative, and policy issues. Offered January interterm.

I-4 hours

#### POS 360

Independent Study An individualized, directed study involving a specified topic.

#### **Social Studies Courses**

#### **SOS 309**

**Religious Liberty and Christian Freedom** 

This course introduces students to the subject of religious liberty and Christian freedom, analyzing the nature of freedom and the position of Christianity as foundational to liberty. Students are then exposed to a comparative analysis of hostility and persecution, its development, and its typology. Offered Spring semester.

#### **POS 385** 3 hours

### **Constitutional Law I: Foundation**

Considers the development of judicial review in relation to the powers of the President and Congress. Focuses on judicial interpretations of the commerce and taxing clauses, as well as state powers under the due process clause of the 14th Amendment. Offered Fall semester.

#### POS 386

#### Constitutional Law II: Civil Liberties and Rights

Focus is on the Bill of Rights and the equal protection clause of the 14th Amendment. Considers such topics as freedoms of speech, press and religion, the civil rights movement and the controversy over privacy rights. Offered Spring semester.

3 hours

#### POS 393 Practicum

#### Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

I-4 hours

#### POS 450 **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. Advanced work under the supervision of a professor in connection with a special project or to enhance preparation for graduate work.

3 hours

I-4 hours

### POS 462

#### **Theories of International Relations**

International Relations as a discipline has always been characterized by the extensive and significant theoretical ferment. This course will provide an overview of key theoretical traditions in International Relations and their evolution and contestations in recent year. Offered in odd years.

2 hours

### POS 465

## Senior Paper

A journal-length analytical research paper based on scholarship in the field that is related to the student's chosen topic. Fulfills the senior comprehensive requirement. 3 hours

#### POS 467 Senior Seminar

Senior Seminar is designed to accomplish three goals: 1) engage the political science graduating seniors in an overall assessment of the theory and practice of political science and international relations, largely through approved and required readings and writing projects; 2) provide the opportunity for political science graduating seniors to develop a comprehensive and integrative faith and learning component into a final research and writing project; and 3) to provide political science graduating seniors to present their research findings before an on campus and/or off campus audience, including faculty and peers.

#### POS 480 Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I-4 hours

I-2 hours

#### POS 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

# Honors Guild

#### Jeffry Cramer, Director

Taylor University's Honors Guild is a challenging academic experience for high ability, highly motivated students from across academic disciplines. Students must be selected to be part of the Honors Guild. The Honors Guild seeks to provide an intentional environment where curiosity is nurtured and ideas are examined. The honors curriculum emphasizes the integration of faith and learning, ideas, and values through discussion-based courses, mentoring relationships, global engagement, and student initiative. All students participating in the Honors Guild should register for the honors preceptorial discussion group associated with IAS 110. The Honors Guild functions as an academic minor, but is designed to offer students a fouryear experience through diverse course offerings (many of which meet foundational core requirements) and co-curricular programming. Many honors courses are listed in the schedule of classes by the academic areas that offer them and are noted by an "H" after the course number.

Due to the structure of the first year, as well as the intended four-year design, students must apply to the Honors Guild by February I, prior to their freshman year. Typically, incoming freshmen applying to the program have earned a minimum 3.70 high school GPA and a combined (Math and Reading) SAT score of 1280 or ACT composite score of 28. The application process is competitive due to size limitations. Further information about the Honors Guild, including application procedures, may be obtained by contacting the Director of the Honors Guild.

#### Honors Guild

The requirements for completion of the Honors Guild includes at least 18 hours and a cumulative GPA of 3.40. A 3-4 credit study abroad course approved by and designated for the Honors Guild during Interterm is required. All courses counting toward the Honors Guild must be completed with a grade of C- or better.

#### Honors Colloquium

The Honors colloquium is an interdisciplinary course which brings together a group of like-minded students to discuss a variety of topics with a focus on the year's theme. Requirements for this course include attending a variety of campus lectures and events and engaging in dialogue around "big ideas" in culture, Christianity, and public discourse. Students will have the opportunity to facilitate discussion of a topic of their choosing. May be repeated for credit.

#### **HNR 264** 4 hours

#### Going Up to Glory: Migration and Voice in African American Lives

This interdisciplinary course presents an integrative survey of African American literature and history from African origins through the modern civil rights movement. The historical focus is on the three major migrations African Americans have experienced during this period. Literary selections from multiple genres will span these eras and highlight the development and patterns of African American voice. Meets both the foundational core literature and history requirements. Prerequisite: ENG 110.

This interdisciplinary course investigates the nature of human culture and creativity as prime aspects of what it means to be human through a consideration of the arts. Focusing on the visual arts, music, theater, and film, this course emphasizes the consideration of works within their original historical and cultural contexts and the ideas that inform them. Through discussion, collaborative and active learning assignments, and hands-on projects, students engage a wide range of frameworks for understanding human creativity and the arts from a multitude of disciplines as varied as psychology, marketing, neuroscience, and Christian theology. Meets a foundational core fine arts requirement.

164

The Individual Goal-Oriented major recognizes that available majors may not meet the unique needs of some students who attend Taylor University. This major allows a student (with faculty guidance and University approval) to design, from existing courses, a program of study that is valid academically and meets personal or professional goals. It is expected that the major will be thoughtfully and carefully designed. Therefore, a student should have some college experience before applying for the Individual Goal-Oriented major. The Curriculum Management Committee (CMC) will make the final decision on the approval of the application. All major courses must be completed with a grade of C- or better and are included in the major GPA.

To explore an Individual Goal-Oriented major, the student must meet the following requirements:

- Student must be at least a second-semester sophomore.
- Student must have a minimum 2.80 GPA to request an Individual Goal-Oriented major.
- Student must consult with an individual within the field of interest.
- Student must seek advice from at least two faculty advisors from different departments that most appropriately relate to the proposed major.

To begin the official process of requesting an Individual Goal-Oriented major, the student must complete the following steps in order:

- Student must write a detailed rationale for pursuing the major, including opportunities the major might offer after graduation.
- Student must work with the two advisors referenced above and utilize the rationale to develop an academically challenging curriculum of required courses to be included in the Individual Goal-Oriented major.
- Student must create a complete four-year plan addressing all degree requirements, including this major.
- Student must obtain letters of support from both faculty advisors.
- Student must complete the "Request for Goal-Oriented Major" form available from the Office of the Registrar.
- Student must submit the items listed above to the Registrar and schedule a meeting.
- Student must meet with the Registrar to discuss the proposed curriculum and four-year plan.
- Student must meet with the designated representative of CMC to discuss plans for the Individual Goal-Oriented major.
- Student must complete all steps above and request the Individual Goal-Oriented major by April 15 of the academic year.

The requirements for an Individual Goal-Oriented major include the following:

- An academically challenging curriculum that adheres to one of the following:
  - Bachelor of Arts degree requires 46 credit hours in the major and proficiency in two years of one foreign language.
  - Bachelor of Science degree requires 46 credit hours in the major when combined with the curriculum requirements in information systems and analytics.
  - Bachelor of Science degree requires 60 credit hours in the major, including a minimum 3-credit hour practicum.
- 48 credit hours must be completed after the approval of the Individual Goal-Oriented major.
- All degrees with this major require 128 credit hours, including 42 upper-division credit hours, proficiency requirements, foundational core curriculum, a minimum cumulative GPA of 2.00, a minimum major GPA of 2.30, a senior comprehensive paper (3,000 words minimum) integrating several components of the major, along with residency requirements (i.e., 22 of final 30 hours, fifty percent of major, and fifty percent of degree hours must be completed through Taylor). See academic catalog for additional degree requirements.

Interarea courses are general in scope and exist apart from any single academic area. For additional course offerings, refer to the Academic Enrichment Center and Student Development sections of this catalog.

#### Interarea Courses

#### IAS 102 **Orientation to Distance Learning**

This course is an introduction to Blackboard, TU Online history and staff, and University policies that pertain to the distance learner. An overview of learning styles and time management strategies make up the content of the course which is supplemented by John Stott's Your Mind Matters. Student will use Blackboard communication tools to complete assignments. This course is offered through Taylor University Online (TUO).

I hour

#### IAS 110 4 hours Foundations of the Christian Liberal Arts

This course is an introduction to the liberal arts, the integration of faith and learning, the foundational core, improved learning, and the transition to college. Through large group lectures and small group discussion sessions, the themes of right relationship with God, self, others, and the world are developed. Required of all students. Meets foundational core requirement. Offered Fall semester.

#### IAS III 3 hours

#### God, Humanity, and Knowledge

An interdisciplinary introduction to the liberal arts and the integration of faith and learning. Through lectures, readings, films, and discussion, the course intentionally seeks to challenge students to be more confident in the development of a meaningful belief system. For students enrolled in two-week pre-college summer program. Meets foundational core requirement for IAS I 10. Offered Summer term.

I hour

### **IAS** 120

#### Introduction to International Ministry

To prepare for Lighthouse projects, students study the concept of culture, American cultural distinctives, and the cultural, religious and historical characteristics of Lighthouse host nations. Students examine the components of effective intercultural ministry and communicating faith in Christ crossculturally. Attention is given to personal character, spiritual life, commitment, and teamwork essential for effective service. Offered Fall semester. Grade only.

I hour

#### IAS 125

## Short-Term Missions Engagement

This course is designed to prepare students for and involve them in a spring break ministry experience within the framework of service-learning. Students will receive training specific to the ministry in which they will participate, experience a pre-trip local service experience with their team, participate in an 8-10 day spring break missions project, and reflect upon what they are learning throughout the course. Through participation in this course, students should have a greater understanding of an involvement in the Christian call to service. Concepts related to a life of service will be addressed including evangelism, cultural awareness, team dynamics, meaningful service, reflection, debriefing, and stewardship. Offered Spring semester.

#### IAS 170 Selected Topics

### I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

#### IAS 230 I hour **Issues in Science and Religion**

An interdisciplinary examination of key issues underlying the relationship of science and Christianity, focusing on issues concerning creation, the fall, the flood, and the world in which we live today. The course will be a focus on general scientific concepts and theological principles involved in the integration of faith and learning. Counts as one elective credit in either physics or religion and toward foundational core science credits.

#### IAS 231H Issues in Science and Religion

2 hours

A more in depth interdisciplinary examination of key issues underlying the relationship of science and Christianity, focusing on issues concerning creation, the fall, the flood, and the world in which we live today. The course will be a focus on general scientific concepts and theological principles involved in the integration of faith and learning. Students will pursue research into a particular issue within this area, as well as more in depth study groups. Counts as elective credit in both physics and religion and toward foundational core science credits.

#### **IAS 270** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

3 hours

#### **IAS 320**

**Cross-Cultural Outreach** 

Through this Lighthouse service-learning experience, students are immersed in another culture and provide needed service to gain cross-cultural understanding, interpersonal and skill development and spiritual growth. Emphasis is given to reflection on God's global purposes, intercultural relationships and life stewardship. Prerequisite: IAS 120 or permission of instructor. Meets foundational core cross-cultural requirement. Offered January Interterm.

#### I-2 hours **IAS 340**

#### Lewis and Related Authors Seminar

A seminar offered by the Center for the Study of C. S. Lewis and Friends focusing on the works of authors represented in the Edwin W. Brown Collection: C. S. Lewis, George MacDonald, Dorothy Sayers, Charles Williams, and Owen Barfield as well as related authors. An interdisciplinary course which seeks to encourage scholarship and critical thinking. Specific topics vary from semester to semester. May be repeated three times for credit. Open to all students.

I-4 hours

#### IAS 370

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

#### IAS 373

I hour **Conversations on Race** 

This course is designed to help students explore the topic of race through readings, discussions, media presentations, and reflection on personal and field experiences. It will guide students in a meaningful thought process and dialogue that will allow them to consider their own racial identity, the meaning of race in interpersonal relationships on this campus and in society, as well as the important connection between Christian faith and race in the church and American society. An emphasis will be placed upon creating a safe environment where questions and dissent will be respected and welcomed, resulting in learning for all involved.

4 hours

#### **IAS 403**

#### A Christian Worldview

A foundational course designed to introduce students to a Christian worldview. Attention is given to the definition, function, formation, and evaluation of worldview. The course then explores significant biblical and theological perspectives on the ultimate issues of life, including God's purposes for humans, the reality of sin, God's redemption of humanity, and the ultimate realization of glory. Students will also learn how the church historically has faced these issues and how these issues have shaped the church. This course is offered through Taylor University Online (TUO).

#### **IAS 495** Senior Seminar

I hour

Senior Seminar is an integrative, interdisciplinary foundational core requirement. Students will register for it during either the Fall or Spring semester of their senior year. Meets foundational core requirement.

# **Kinesiology**

#### Co-Chairs, Professor M. Renfrow, Assistant Professor B. Dykstra Professor E. Hayes Assistant Professors B. Kendall, S. Fenstermacher Instructor G. Wolfe

The Kinesiology Department has two major purposes: (1) to prepare competent, caring, and reflective Christian leaders for world service in exercise science; and (2) to help students acquire the skills and attitudes for lifetime wellness, as well as wholesome and active use of their leisure time.

Baccalaureate degrees are offered with a major in Exercise Science. Candidates for the Bachelor of Arts degree must complete two years of a foreign language.

The three credits required in the foundational core curriculum must be met by taking KIN 100 plus KIN 200 or one of the following to substitute for KIN 200: KIN 250, 300, 302, 333, 334, or EXS 280. Elementary Education majors must take KIN 250. Exercise Science majors complete this requirement by taking EXS 111, 316, and 318. Pre-Med, Public Health, and allied health students who are not Exercise Science majors are recommended to take KIN 221 for the three credits required for the foundational core curriculum.

One aspect of professors' work at a Christian liberal arts university is to build relationships with students to participate in God's work of preparing students for a well-lived and meaningful life. The Kinesiology Department aims to fulfill this educational calling through a whole-person focused curriculum. The Fitness for Life course will provide specific instruction in the more technical aspects of caring for the human body as part of the created order including rest/shalom, nutrition, and activity. As such, this course will serve as the foundation for an understanding of basic principles of a well-lived embodied life. The connections between mind, body, and spirit will be explored knowing that we are living, breathing, touchable souls made by a mysterious union of the sacred dust of God and the sacred breath of God.

### **Exercise Science**

Our mission is to develop Christ-like servant leaders who possess the wisdom, technical skills, and relational abilities to lead others towards holistic health.

### Exercise Science/Health Science and Human Performance (BA)

The Bachelor of Arts degree with a major in Exercise Science and a concentration in Health Science and Human Performance requires two years of sequential study in one foreign language and 55 hours in the major. Students must complete the senior comprehensive requirement by completing 4 credits of directed research or internship. All major courses must be completed with a grade of C- or better and are included in the major GPA.

### Exercise Science/Pre-Allied Health (BS)

This course of study is recommended for students interested in preparing for graduate school for physical therapy, occupational therapy, nurse practioner, physician assistant, medical doctor, cardiac rehabilitation, and other allied health fields. The Bachelor of Science degree with a major in Exercise Science and a Pre-Allied Health concentration requires 65 hours in the major. Students must complete the senior comprehensive requirement by completing 4 credits of directed research or internship. All major courses must be completed with a grade of C- or better and are included in the major GPA.

Event and Facility Management

#### **Coaching Minor**

The department offers a 19-20-hour Coaching minor for any student interested in preparing for the coaching profession. Students from any major are eligible for this course of study. The minor helps prepare students for opportunities in coaching, leading camps, youth athletic ministry, and recreational leadership. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

SMA 352

### **Exercise Science Courses**

#### EXS III

EXS 170

Selected Topics

3 hours Foundations of Exercise Science

This course is an introduction to the field of exercise science. The content includes definitions, objectives, and philosophies of the field; basic content of components of exercise science, contemporary issues and research, and potential career options. This introduction to the field of exercise science will have a foundation of the Christian perspective of vocational gifting, calling, preparation and service to humankind. Offered Fall and Spring semesters.

#### EXS 214 Health and Sexuality

3 hours

This course is designed to prepare future health educators to teach the relationship between health and human sexuality. The class activities will include lectures/discussions, peer teaching, development of an abstinence-based curriculum, and lectures by outside resource personnel.

## EXS 215

#### Health, Exercise, and Aging

The course is designed to examine common health-related physiological changes, current issues, and concerns as they pertain to the aging individual. Prerequisite: EXS III or permission of instructor.

2 hours

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

#### 169

#### **EXS 217**

#### 3 hours

Health Promotion Program Planning

This course is a study of the philosophy, goals, objectives, organization, content, and methods of wellness programs. Characteristics of various clientele and how programs can be developed to meet their specific needs will be studied. Prerequisite: EXS III. Offered Fall semester of odd years.

I-4 hours

### **EXS** 270

#### Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. I hour

#### **EXS 273**

#### Introduction to Exercise Science Research

Students will gain a basic introduction to research through a field experience in an exercise science research project. Students will help with data collection, data entry, and data analysis portions of the study. May be repeated once for credit. By permission of instructor only.

### **EXS** 274

#### I hour Introduction to Exercise Testing

This course will introduce students to the basic skills of cardiovascular disease risk assessment, anthropometric measures, basic muscle strength and endurance assessment, EKG preparation, and data collection. Prerequisite: EXS 111 or permission of instructor.

#### **EXS 280**

#### I hour **Exercise Techniques for Physical Fitness**

A course designed to teach various motor skills needed to effectively improve physical fitness such as proper running mechanics, basic lifting techniques, and common stretches. Students will also develop presentation and group exercise leadership skills. Meets foundational core stewardship of the body requirement beyond KIN 100. Exercise Science majors and Coaching minors only.

3 hours

#### EXS 306

#### **Physiology of Exercise**

A study of how the body adapts and responds to acute and chronic exercise. Attention is given to skeletal muscle structure and function, neurological control of movement, metabolic systems, and cardiovascular and pulmonary systems. Prerequisite: BIO 310 or permission of instructor. Offered Spring semester.

#### EXS 316

## **Applied Nutrition**

This course is a study of basic principles of human nutrition including fundamentals of digestion, absorption, and metabolism; nutrients and their roles for the lifespan; eating disorders; and nutrition for performance. Exercise Science, Health Science, and Human Physiology and Preventative Medicine majors only or by permission of instructor. Offered Fall and Spring semesters.

2 hours

3 hours

#### EXS 317

#### EKG and Stress Testing

This course is designed to provide the undergraduate exercise science student with the basic knowledge and skills needed to interpret resting and exercise EKG's. Emphasis will be placed on 1) learning normal vs. abnormal EKG patterns at rest and during exercise; and, 2) the effects of cardiovascular medication on the resting or exercise EKG and various physiologic responses to exercise testing. An additional purpose of the course is to introduce the undergraduate exercise student to selected cardiac assessment techniques. Prerequisite: EXS 306 or permission of instructor.

#### EXS 318

### Therapeutic Exercise and Pharmacotherapy

A detailed study of the role exercise plays in preventing and treating chronic diseases and conditions including metabolic diseases, obesity, cardiovascular conditions, systemic inflammatory diseases, neurological diseases, cancer, orthopedic conditions, and aging. Prerequisite: EXS 306 or permission of instructor. Offered January interterm.

3 hours

3 hours

#### **EXS 320**

#### **Community Health Promotion**

This course introduces students to health promotion in a community setting. The content explores the theoretical and practical issues of the field of community health that enable students to identify and apply health education principles to health challenges facing individuals, groups, and communities. Local cultures will be explored throughout the trip and students will be expected to reflect on their experience. Meets foundational core cross-cultural requirement. Offered: January interterm of even years. Prerequisite: Permission of instructor.

#### **EXS 328** 3 hours Principles of Strength Training and Conditioning

This course is the study of the essentials of strength training and conditioning for practitioners and prepares students for certification with the National Strength and Conditioning Association (NSCA). The course will cover the following: biomechanics of exercise, rehabilitation, bioenergetics of training, aerobic exercise prescription, resistance training, and speed and plyometric training. Prerequisites: EXS 280, 306, 316, and 381; or permission of instructor. Offered Spring semester of even years.

3 hours

### **EXS 353**

**Physical Fitness Assessment** 

This course will provide a comprehensive study of the components of physical fitness and methods of assessing fitness levels within each component. Health assessment and risk analysis instruments will also be examined. The course consists of classroom work, practical assessment projects, and some field experiences. Each student will participate in "hands-on" fitness assessments of various population groups. Prerequisites: EXS 111, 274, and 306; or permission of instructor. Offered Fall and Spring semesters.

### EXS 360

Independent Study An individualized, directed study involving a specified topic.

#### **EXS 370**

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

#### EXS 381

Kinesiology

An analysis of human movement based on anatomic and mechanical principles. Emphasis is given to the application of these principles to the understanding of athletic performance. Prerequisites: BIO 310 or permission of instructor. Offered Fall semester

#### EXS 393 Practicum

#### Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Prerequisite: Permission of KIN department.

I-4 hours

#### EXS 450

#### **Directed Research** Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. Prerequisite: Permission of instructor.

3 hours

I-4 hours

### EXS 453

#### **Physical Fitness Prescription**

This course provides a study of the prescription and development of appropriate exercise programs based on accurate assessment of each component. Appropriate programs for various populations groups will be considered. The course will consist of classroom work, practical prescription projects, and some field experiences. Each student will participate in "hands-on" prescription and program development for a variety of individuals. Prerequisite: EXS 306. Offered Spring semester.

#### **EXS 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. 3 hours

2 hours

#### **EXS 482**

#### Lifespan and Environmental Physiology

This is a seminar-style course which will examine the differences in pediatric physiology and geriatric physiology as well as address physiological adaptations to different natural environments. A variety of topics related to pediatric and geriatric physiology will be explored including growth, maturation and aging, underlying mechanisms for changes in fitness in children and older adults, and specific health challenges facing these populations. Topics relevant to environmental physiology that will be explored include adaptations related to hot, humid, and hypoxic environments. Prerequisite: EXS 306. Offered Fall semester.

#### EXS 490 Honors

### I-2 hours

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

# I-4 hours 3 hours

I-4 hours

#### **Kinesiology Courses**

**KIN 100** 

# **Fitness for Life**

## 2 hours

This course will assist students in developing an understanding of human flourishing founded on biblical principles and scientific evidence in the areas of sleep, stress and time management, nutrition, and various aspects of physical fitness. Students will engage in various assignments and physical activities related to these areas with the purpose of providing the abilities to make healthy lifestyle and behavior choices. This course satisfies two of the three hours of foundational core requirements for stewardship of the body.

#### **KIN 170**

### Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. I hour

I-4 hours

#### **KIN 200**

#### **General Physical Education Activity Courses**

These courses encourage students to adopt an active physical lifestyle and maintain physical fitness and wellness throughout their lives. Students learn about activities and develop skills for participation in lifetime activities. One KIN 200 course is taken after KIN 100 to meet the three-hour foundational core requirement. Prerequisite: EXS 111, KIN 100, or KIN 221.

KIN 200A	Aerobic Conditioning
KIN 200AW	Aerobic Walking
KIN 200B	Badminton
KIN 200C	Weight Control and Fitness
KIN 200CC	Camping and Canoeing
KIN 200D	Square Dance
KIN 200F	Softball
KIN 200FD	Folk Dances of Other Cultures
KIN 200FF	Fly Fishing
KIN 200FN	Functional Fitness
KIN 200G	Golf
KIN 200H	Beginning Horsemanship
KIN 200J	Acting
KIN 200jG	Jogging
KIN 200K	Basketball
KIN 200KT	Karate
KIN 200L	Bowling
KIN 200M	Challenge Adventures
KIN 200N	Total Fitness
KIN 200P	Personal Fitness
KIN 200PB	Pickle ball
KIN 200Q	Outdoor Activities
KIN 200R	Racquetball
KIN 200RU	Running
KIN 200S	Soccer
KIN 200SB	Beginning Swimming
KIN 200SF	Fitness Swimming
KIN 200T	Tennis
KIN 200U	Circuit Training
KIN 200V	Volleyball
KIN 200W	Weight Training
KIN 200WA	Well Aerobics
KIN 200Y	Cycling

### KIN 2001

#### Individualized Physical Education

The individualized physical education course is designed for students who fit into one of the following categories: (1) the student has a physical problem that prohibits completion of another KIN 200 course; (2) the student would like to do an activity that is not offered as an KIN 200 course; or (3) the student is near graduation and cannot schedule another KIN 200 course. Students design a program with the instructor's supervision and then engage in that program throughout the semester. Physical fitness assessments may be included as well as cognitive assignments. Students must apply for acceptance into the class and be approved by the instructor in order to register for the course. Prerequisite: EXS 111, KIN 100, or KIN 221.

I hour

#### KIN 200Z Athletic Participation

# I hour

The athletic participation course is designed for students who compete on an NAIA intercollegiate athletic team. Students must be approved by the athletic department to receive academic credit for this course. Credit is awarded only during the sport season and credit will not be granted retroactively for athletic participation from a previous season.

#### **KIN 220** Principles of Coaching

This course is a study of the duties and responsibilities of coaches and the potential problems and issues they may face. The content will include the four major areas of coaching certification programs: medical aspects, physiological aspects, psychological aspects, and organizational and administrative aspects. Methods and strategies of handling the responsibilities and the problems will be studied. Offered Spring semester of even years.

3 hours

#### KIN 221 **Exercise as Medicine**

This class examines the impact of physical activity, exercise, nutrition, and lifestyle related factors on health and the prevention and treatment of chronic disease. Students will learn the physiological basis of cardiorespiratory and musculoskeletal fitness, how these are influenced by exercise and physical activity, and their relation to health and disease. The therapeutic effect of exercise will be compared to traditional pharmacological treatment approaches where applicable. In addition students will be challenged to consider the personal, spiritual, and social responsibilities of maintaining an optimal level of fitness as they apply course content to their own life. Meets the 3 hour foundational core stewardship of the body requirement. Open to Pre-Med students and Public Health, Health Promotion and Wellness, Health Science, and Human Physiology and Preventative Medicine majors only or by permission of instructor

## KIN 223

**Emergency Health Care** 

Prevention, treatment, and emergency care of various health problems and injuries will be examined. Skills will be obtained in CPR, AED, first aid, blood and airborne pathogens, and use of PPEs according to guidelines of the Emergency Care and Safety Institute and American Red Cross.

3 hours

# **KIN 231**

Officiating Sports A study of the officiating skills and techniques needed for various sports. The opportunity to earn official's rating is provided. Offered Fall semester of odd years.

2 hours

#### **KIN 250** 2 hours Elementary School Health Program

A course designed to equip the elementary education student with a basic understanding of teaching concepts associated with physical education activities and appropriate health and safety practices. Fundamental content of the areas of physical education, health, and safety, as well as teaching methods, are explored. Meets foundational core stewardship of the body requirement beyond KIN 100. Prerequisite: KIN 100. Open to Elementary Education, Health Promotion and Wellness, and Public Health majors only or permission of instructor.

#### KIN 270 Selected Topics

I-4 hours

A course offered on a subject of interest but not listed as a regular course offering. I hour

# **KIN 271**

#### **CPR** for Healthcare Providers

Successful completion of this course will certify participants in the techniques of CPR and AED use for adults, children, and infants; foreign body obstruction; and cardiac emergency management according to American Red Cross standards. Priority registration for this course is given to students in the KIN majors.

I hour

### **KIN 300**

Basic Swimming Skills

For KIN majors who have satisfactorily completed a basic swimming, intermediate swimming, or emergency water safety course at another institution. Students will receive credit for basic proficiency in swimming skills and water safety upon submission of official transcript. Meets foundational core stewardship of the body requirement beyond KIN 100.

#### KIN 302 Lifeguard Training

#### 2 hours

This course is designed to train an individual in the proper methods for rescue, water safety, first aid, CPR, and other skills necessary for lifeguarding. Meets foundational core stewardship of the body requirement beyond KIN 100. Prerequisite: KIN 100.

2 hours

#### **KIN 324**

### Motor Learning

A study of the theories and research of the processes of learning motor skills. The application of appropriate methods of teaching motor skills is studied and practiced to enable the students to understand how they can be used effectively. Prerequisite: EXS III or permission of instructor.

#### 171

#### **KIN 333**

#### 2 hours

Water Safety Instructor Instruction in the skills, terminology, and progressions of teaching swimming strokes and water safety. The course includes knowledge of the skills, physical performance of the skills, and teaching skills. Successful completion of the American Red Cross requirements leads to certification in Red Cross WSI. Advanced swimming skills are necessary. Meets foundational core stewardship of the body requirement beyond KIN 100. Prerequisites: KIN 100 and permission of instructor.

I hour

### **KIN 334**

#### Lifeguard Training Instructor

Acquisition of the skills, terminology, and progressions for teaching American Red Cross Lifeguard Instructor Training. The course includes both knowledge of the skills and physical performance of the skills. Successful completion of the American Red Cross requirements leads to certification as a Red Cross LGI. Meets foundational core stewardship of the body requirement beyond KIN 100. Prerequisites: KIN 302 and permission of instructor.

KIN 355 **Research Methods** 

### 3 hours

An exploration of the basic methods of research and data collection in the realms of sport management, physical education, and exercise science in a lecture format. Topics include defining a research question, reviewing and analyzing past research, designing a research project, collecting and analyzing data, and interpreting results. Students will also learn basic statistics and Excel and PowerPoint table and figure making skills. Prerequisite: EXS 111 or KIN 221. Exercise Science, Health Science, and Human Physiology and Preventative Medicine majors only. Offered Fall and Spring semesters.

**KIN 360** 

#### I-4 hours Independent Study

An individualized, directed study involving a specified topic.

**KIN 367** 

## 3 hours

**Coaching Methods** This course will assist the student in learning how to teach the skills and strategies of selected sports and how to utilize that information to be an effective coach. The content includes basic sport skills, types of offenses and defenses, special situation strategies and other strategies specific to selected sports. The student will learn correct techniques of skills and skill progressions as well as drills to teach skills and strategies.

#### **KIN 370** Selected Topics

#### I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

**KIN 393** Practicum I-4 hours

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Prerequisite: Permission of KIN department.

### **KIN 450**

#### **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. Prerequisite: Permission of instructor. 2 hours

I-4 hours

#### **KIN 472**

Psychology of Coaching This course is a study of the role of psychology in coaching and how coaches can use psychology to enhance the performance of athletes and teams. Topics include psychology, philosophy of sport, motivation, self-confidence, goal setting, attention/concentration, imagery, arousal, self-talk, stress management, and mental skill methods/training. An application of appropriate mental skills will be addressed for each topic. Biblical principles of psychology will be integrated into topics.

#### KIN 480 Seminar

2 hours

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. Students examine contemporary issues in sport.

I-2 hours

#### **KIN 490** Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field. 4 hours

**KIN 492** Internship

This field experience is designed to have the students apply what they have learned in their courses and to extend that learning by working in an organization that is appropriate for their major. Students work on a regular basis at the organization under the supervision of approved staff members. Students are also under the supervision of a member of the Taylor University Department of Kinesiology. Each student must comply with the guidelines for credit hours, clock hours, and other criteria that are specific for the internship in his/her major. To register for this internship, the student must submit a proposal for the internship and have it approved by the KIN department and the internship organization. Prerequisites: All designated prerequisites for the internship in that major.

Notes

# **Liberal Arts**

The Associate of Arts degree in Liberal Arts is offered for students who desire a two-year program that emphasizes a breadth of knowledge. It is not to be taken with nor awarded with any baccalaureate degree.

A core of courses from a variety of academic disciplines is combined with 14 hours from the student's specialty area plus sufficient elective hours to total 64 credit hours. The cross-cultural course may double count with either the core requirement or the specialty area, but not both. No other core requirement may be used to meet the 14 credit specialty requirement.

The area of specialty (or a combination of related areas if sufficient offerings are not available in one selected field of study) must be approved by the Dean.

### Liberal Arts (AA)

Notes

# **Mathematics**

#### Chair, Professor J. Case (Fall), Associate Professor D. Thompson (Spring) Professor M. Colgan, P. Eggleton, M. Maxwell Assistant Professors E. Matangi, D. Rodman

The major purposes of the Mathematics Department are to help students increase their knowledge and understanding of mathematical concepts, develop their reasoning ability and problem-solving skills, and improve their ability to apply mathematics in a variety of areas. The department prepares students to become teachers of mathematics; to enter careers in actuarial science, business, industry, and government; and to pursue graduate study in mathematics and related areas.

The student expecting to major in Mathematics should have four years of high school mathematics, including two years of high school algebra, geometry, trigonometry and preferably calculus. In the freshman year, students planning to major in mathematics and those preparing for scientific work, including engineering, should be qualified to begin with MAT 151 or MAT 230.

Students interested in pursuing a career in data science should major in Mathematics, Data, and Systems. Those interested in augmenting their coursework may select the Data Science minor.

Students interested in actuarial science should consider the Actuary Science certificate and major in Mathematics-Interdisciplinary with a minor in Accounting, Economics, or Finance, or they should major in Mathematics, Data, and Systems. They should take MAT 352, MAT 382, and MAT 385 as preparation for the first two actuarial exams. Students can also receive VEE credit (Validation by Educational Experience) from the Society of Actuaries with grades of Bor higher in ECO 201, ECO 202, FIN 361, and MAT 382. See the guidelines from the Society of Actuaries webpage for further details.

The department offers five majors: Mathematics; Mathematics, Data, and Systems; Mathematics Education; Mathematics/Computer Science Education; and Mathematics-Interdisciplinary.

Each year the Mathematics Department offers at least four sanctioned events such as special lectures or colloquiums. All majors are required to attend at least 15 sanctioned events for graduation and at least 12 sanctioned events before taking the MAT 493 course.

#### Mathematics (BA)

The Bachelor of Arts degree with a major in Mathematics requires two years of one foreign language and 46-47 hours (42-43 math hours), attendance at 15 sanctioned events, and is designed for students planning to attend graduate school. All major courses must be completed with a grade of C- or better and are included in the major GPA.

#### Mathematics Education (BA/BS)

The Bachelor of Science degree in Mathematics Education requires 50-51 hours in addition to education courses and attendance at 15 sanctioned events. Optional concentrations are available in SpEd Mild-Moderate P-12 Licensure, SpEd Intense P-12 Licensure, and TESOL P-12 Licensure. The Bachelor of Arts degree requires two years of one foreign language. All major courses, including education curriculum courses, must be completed with a grade of C- or better and are included in the major GPA.

### Mathematics/Computer Science Education (BA/BS)

The Bachelor of Science degree with a major in Mathematics/Computer Science Education requires 60 hours in addition to education courses and attendance at least 18 Mathematics or Computer Science and Engineering sanctioned events. Optional concentrations are available in SpEd Mild-Moderate P-12 Licensure, SpEd Intense P-12 Licensure, and TESOL P-12 Licensure. The Bachelor of Arts degree requires two years of one foreign language. All major courses, including education curriculum courses, must be completed with a grade of C- or better and are included in the major GPA.

#### Mathematics—Interdisciplinary (BS)

The Bachelor of Science degree with a major in Mathematics—Interdisciplinary requires a minimum of 51-55 hours, attendance at 15 sanctioned events, and the completion of a minor (or major) in Accounting, Biology, Chemistry, Computer Engineering, Environmental Science, Engineering, Computer Science, Economics, Finance, or Physics. Minor (or major) requirements are listed under the offering department. The practicum may be in a supporting area (major or minor) instead of mathematics. All major courses must be completed with a grade of C- or better and are included in the major GPA; additional courses from other major (or minor) are not included in this major GPA unless also required for this major.

C

#### **Major Requirements**

MAT 180	3	Problem Solving		
MAT 230	4	Calculus II		
MAT 240	4	Calculus III		
MAT 251	4	Differential Equations		
MAT 255	3	Justifications in Mathematics		
MAT 310	3	Mathematical Modeling with Numerical Analysis		
MAT 345	4	Linear Algebra

#### **Mathematics Minor**

A Mathematics minor requires a minimum of 23-25 hours. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

**Minor Requirements** MAT 230 Calculus II 4 Select one option from the following: MAT 151 Calculus I 4 MAT 145<sup>†</sup> 3 Introduction to Functions and Calculus and MAT 146† 3 Functions and Calculus †MAT 145 & 146 count as one option

Select an additional 15 hours of mathematics elective hours above MAT 151-MAT 205, 301, 302, and 309 do not count toward the minor.

#### **Certificate in Actuary Science**

The department awards a certificate in Actuary Science to students in any baccalaureate major program. Students are required to complete 37 hours and pass at least one actuary exam. Students must complete an application and demonstrate passing a Society of Actuaries Exam no less than 30 days prior to graduation. Work in progress will be accepted. This certificate is awarded by the department and does not include a transcript entry.

**Recommended Courses** 

Certificate	Requirements

3 hours

#### MAT 110

#### **Finite Mathematics**

A study of selected topics from set theory, matrices, systems of linear equations and inequalities, linear programming, counting and probability, statistics, and mathematics of finance. Prerequisite: A good understanding of algebra. Does not count toward a mathematics major or minor. Meets foundational core mathematics requirement.

#### **MAT 120** 3 hours

Investigations in Mathematics

A course designed to engage students in relevant college-level mathematics and its connection to the Christian faith and everyday life. Students will experience interesting questions and real-life applications of mathematics from a variety of contexts while using appropriate technology. Emphasis will be on thinking, reasoning, and exploring patterns as well as communicating mathematical ideas. Topics will be chosen from data analysis, modeling, probability, statistics, mathematics of finance, logic, infinity, geometric applications, and fundamentals of problem solving. Does not count toward a mathematics major or minor. Meets foundational core mathematics requirement.

### MAT 140

#### **Fundamental Calculus for Applications**

An introductory study of derivatives, series, and integrals with a wide range of applications, including maximum and minimum problems. Prerequisite: A good understanding of algebra. Does not count toward a mathematics major or minor. Meets foundational core mathematics requirement.

3 hours

#### **MAT 145** 3 hours

#### Introduction to Functions and Calculus

The MAT 145-146 sequence aims to provide a deep understanding of topics from precalculus and calculus as well as a strong sense of their usefulness. Fundamental ideas of calculus, specifically rates of change, are introduced early and used to provide a framework for the study of mathematical modeling involving algebraic, exponential, and logarithmic functions. Applications to business, economics, and science are emphasized. Meets foundational core mathematics requirement. MAT 145-146 may be taken as a twosemester substitute for MAT 151.

#### **MAT 146**

#### **Functions and Calculus**

MAT 146 is the second of a two-course sequence which begins with MAT 145, and continues the investigation of functions, including trigonometric functions, and their rate of change. Students are introduced to integrals and methods of integrations with applications. Further topics, such as infinite series and differential equations are included. Prerequisite: MAT 145. MAT 145-146 may be taken as a two-semester substitute for MAT 151.

4 hours

3 hours

# MAT 151

Calculus I

A study of functions, including algebraic and trigonometric functions. An introduction to the algebraic, numerical, and graphical approaches to calculus, including limits, continuity, derivatives, integrals, and applications. Prerequisite: A good understanding of algebra and trigonometry. Meets foundational core mathematics requirement. MAT 145 and MAT 146 may be taken as a two-semester substitute for MAT 151.

I-4 hours

#### MAT 170

### Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

#### MAT 180

**Problem Solving** 

An introduction to the mathematical sciences through the study of problem solving. An overview of various methods of problem solving to discover patterns, construct and modify conjectures and develop proofs of those conjectures. There will be an emphasis on developing creativity, confidence, and concentration. Content areas studied will include algebra, combinatorics, number theory and calculus, all from a problem-solving point of view. Prerequisite: MAT 151 or one semester of high school calculus. Meets foundational core mathematics requirement.

#### **MAT 205** 2 hours

**Explorations in Elementary School Mathematics** 

An introductory math course for elementary education majors that focuses on helping prospective teachers develop an understanding of the topics of algebra, probability, and data analysis as they relate to the elementary school curriculum. Two hours of lecture and one hour of lab.

#### MAT 210 4 hours Introductory Statistics

A study of basic statistical methods with a focus on applied data analysis in a group setting using statistical software. Develops proficiency in the use of descriptive methods, sampling, linear regression and correlation, probability theory and distributions, statistical inference techniques for estimation and hypothesis testing and experimental design. Meets foundational core mathematics requirement.

#### **MAT 215**

#### **Discrete Mathematics for Computer Science**

Discrete mathematics concepts are studied that are foundational for further study in computer science. Topics include propositional logic and quantifiers, proofs with emphasis on induction, relations and functions on sets, graph theory, solution of certain classes of recurrence and equivalence relations, combinatorics, and discrete probability. Prerequisites: COS 120 or COS 130 or SYS 120; and MAT 146 or MAT 151.

4 hours

# **MAT 220**

Ways of Knowing

Topics studied include number, logic, Euclidean and non-Euclidean geometry, algebraic structures, dimension, and infinity. A study is made of the deductive method in mathematics and its relationship to ways of knowing in other areas. There is an emphasis on the beauty of mathematics and the relationship of mathematics to science and other forms of culture including the arts and religion. Course is offered within the Honors Guild. Meets foundational core mathematics requirement.

#### **MAT 230** Calculus II

A study of analytic geometry, functions, limits and derivatives, differentiation and integration of algebraic functions and elementary transcendental functions, applications of the integral, the definite integral, sequences, series, Taylor's formula, and special techniques of integration. Prerequisite: MAT 146 or MAT 151.

4 hours

4 hours

# **MAT 240**

#### Calculus III

This is the final course in the three-course sequence that is the standard complete introduction to the concepts and methods of calculus. The emphasis is on concepts and solving problems rather than on theory and proof. The course presents the concepts of calculus from three points of view: geometric, numeric, and algebraic. Topics typically include multivariable functions; contour diagrams and cross-sections; vectors; the dot product and the cross product; vector projection; partial derivatives; the gradient; directional derivatives; local linearity; local extrema and critical points; double integrals in Cartesian and polar coordinates; triple integrals in Cartesian, cylindrical, and spherical coordinates; parametric curves; vector fields; line integrals; gradient fields, path-independence, and the Fundamental Theorem of Calculus for Line Integrals; Green's Theorem; flux integrals; and the Divergence Theorem and Stokes' Theorem. Prerequisite: MAT 230.

4 hours

## MAT 251

#### **Differential Equations**

This course is about analytic, graphical, and numerical techniques for solving ordinary differential equations and systems of ordinary differential equations. Students will also study "real world" phenomena using ordinary differential equations. Topics typically include separation of variables; slope fields; linear first-order equations and the method of integrating factors; Euler's method for both first- and second-order autonomous equations; phase lines; methods for solving second-order linear equations with constant coefficients having exponential, polynomial, or sinusoidal forcing functions, including the method of undetermined coefficients, the method of integrating factors, and the method of finding series solutions; spring-mass systems; linear systems of equations of the form x' = Ax; the trace-determinant plane; Laplace transforms; and existence and uniqueness theorems for various families of equations. Prerequisite: MAT 240. Offered Spring semester.

#### MAT 255 3 hours

#### Justifications in Mathematics

The purpose of this course is for students to acquire the ability to create and express mathematical arguments through the exploration of mathematical ideas. In addition to gaining an understanding and appreciation for important and interesting mathematics, students will develop an ability to think creatively, to analyze critically, and to communicate clearly and correctly using mathematical reasoning and argumentation. Students are introduced to logic, number theory, sets, functions, infinity, graph theory, and abstract algebra, with an emphasis on proof techniques throughout. Prerequisite: MAT 151. Offered Fall semester.

I hour

I-4 hours

MAT 261		
Special Pro	blems	

Selected topics in mathematics. Prerequisite: Consent of the department chair.

#### **MAT 262**

Special Problems-TEMP

Selected topics in mathematics.

#### **MAT 270** Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **MAT 280**

Mathematics in the Junior High/Middle School

An integrated content-methods course for middle school and introductory high school preparation. This course includes the mathematical strands of reasoning and algebra, rational numbers, geometry/measurement, and data analysis and probability, interwoven with the connections to appropriate pedagogical strategies for middle grades' teaching and learning. Should be taken with an education course with a fieldbased teaching lab component (e.g. JuMP, EDU 222, EDU 332). Mathematics and elementary education majors only or permission of the instructor. Offered Spring semester of even years.

3 hours

#### **MAT 285**

#### 3 hours

**Technology for Mathematics Education** 

The course will cover effective use of technology in a mathematics classroom and the inextricable connection between technology, pedagogy, and content knowledge. Students will also explore and think critically about how technology use relates to their faith. The course will focus on free, web-based technologies and pedagogical principles that are relevant regardless of the technology used. All student artifacts (e.g., homework, lesson plans, and personal statement of technology) will be collected into a digital portfolio for future use. Meets foundation core computation requirement. Prerequisites: MAT 151 and EDU 150; or permission of instructor.

3 hours

### MAT 301

### Number Concepts for Elementary Teachers

A junior-level integrated content-methods course for elementary teacher preparation. The course includes a study of number systems and operations with emphasis on current standards and research-based pedagogical practices which focus on communication, reasoning, and representation standards. Each student will also participate in corresponding field experience (JuMP practicum). Prerequisite: approval into the teacher education program. Does not count toward a mathematics major or minor. Open to majors in elementary education. The MAT 301-302 sequence meets the mathematics foundational core requirement.

#### **MAT 302**

#### 3 hours Geometry and Measurement for Elementary Teachers

A junior-level integrated content-methods course for elementary teacher preparation. The course utilizes a problem-solving approach to the study of geometry and measurement with emphasis on current standards and researchbased pedagogical practices which focus on communication, reasoning, and representation. Each student will also participate in a corresponding field experience (JuMP practicum). Prerequisite: approval into the teacher education program and MAT 301. Does not count toward a mathematics major or minor. Open to majors in elementary education. The MAT 301-302 sequence meets the mathematics foundational core requirement.

2 hours

#### **MAT 309**

#### **Teaching Math in Secondary Schools**

This course is designed to assist teacher candidates in developing their pedagogical content knowledge in the area of mathematics. It addresses such topics as lesson planning, higher-order thinking, professional development, content-appropriate teaching strategies, standards-based instruction, assessment of student learning, educational technology, motivational techniques, and instructional resources. National and state math standards are examined as a basis for reflective teaching and best practices. Should be taken with an education course that has a field-based teaching lab component (e.g. EDU 222 or EDU 332). Prerequisites: EDU 150 and EDU 260. Offered Spring semester of odd years.

#### **MAT 310**

#### 3 hours Mathematical Modeling with Numerical Analysis

An introduction to modeling and the methods, techniques, and pitfalls in scientific computing and numerical analysis. The course will emphasize projects, writing, technology, and applications. Topics include iterative and algorithmic processes, error analysis, numerical integration and differentiation, curve fitting, and numerical solutions to different equations. Prerequisites: COS 120 or COS 130 or SYS 120; and MAT 240. Offered Fall semester of even years.

MAT 311

#### 3 hours Introduction to Data Science

Provides a practical foundation to data science through the data analysis cycle of data of acquisition, cleaning, transforming, modeling, and interpretation. An introduction to data wrangling and management with real world applications. The statistical program R will be introduced. Prerequisites: MAT 210 or MAT 240; COS 120 or SYS 120.

#### MAT 312

**College Geometry** 

Advanced Euclidean plane geometry with a brief survey of some of the non-Euclidean geometries and vector and transformational geometry. Prerequisites: MAT 180 or MAT 345. Offered Spring semester of odd years.

4 hours

4 hours

#### **MAT 340**

Advanced Calculus

An introduction to a rigorous development of the fundamental concepts of calculus. The real numbers and their standard topology, sequences, series, limits, differentiation, and integration are developed rigorously. Prerequisites: MAT 240; MAT 180 or MAT 255. Offered Spring semester of even years.

#### **MAT 345** Linear Algebra

# 4 hours

A course on matrix theory, linear equations and linear dependence, vector spaces and linear transformations, characteristic equation, quadratic forms, and the singular value decomposition. Prerequisite: MAT 240. Offered Spring semester of even years.

### **MAT 352**

#### Mathematical Statistics

A theoretical, as well as applied, study of counting outcomes, probability, probability distributions, sampling distributions, confidence intervals, tests of hypotheses, linear regression, and correlation. Prerequisite: MAT 240. Offered Fall semester.

4 hours

#### **MAT 353** I hour Actuarial Exam Preparation (PI)

The focus of the course is to prepare students to take the Society of Actuaries Exam P in probability. Topics include applications of calculus, probability, and statistics to risk management. Sitting for the Society of Actuaries Exam P is required for successful completion of the course. Prerequisite: MAT 352 or equivalent.

I-4 hours

# **MAT 360**

Independent Study

An individualized, directed study involving a specified topic.

**MAT 370** I-4 hours

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **MAT 382**

#### Advanced Statistical Methods

Introduction to a variety of topics including nonparametric statistical methods linear models, with simple linear regression, multiple regression, and analysis of variance as special cases of the linear model. The emphasis will be on translating applied questions into an appropriate statistical model, checking model assumptions, and interpreting analyses in applied contexts. A brief introduction to time series is included. Prerequisites: MAT 210 or MAT 352; and MAT 146 or MAT 151.

3 hours

3 hours

### **MAT 385**

#### Mathematics of Finance

This course is an introduction to the mathematical models used in finance and economics with a focus on interest theory (discrete and continuous). The goal is to provide an understanding of the fundamental concepts of financial mathematics and how those concepts are applied in calculating present and accumulated values for various streams of cash flows. Topics include the mathematical foundations of interest theory, annuities, loans, stocks, financial markets, arbitrage, and financial derivatives. The course can be used as a foundation for the second actuarial exam. Prerequisites or corequisites: MAT 352; or both MAT 210 and MAT 230. Offered Fall semester of odd years. **MAT 386** I hour

### Actuarial Exam Preparation (FMI)

The focus of the course is to prepare students to take the Society of Actuaries Exam FM in Financial Mathematics. Topics include the fundamental concepts of financial mathematics, calculating present and accumulated values for various streams of cash flows. Sitting for the Society of Actuaries Exam FM is required for successful completion of the course. Corequisite: MAT 385 or equivalent.

# MAT 392

#### Mathematics Seminar

Each student in the seminar researches a mathematical topic and makes a presentation to the entire group. Prerequisite: MAT 240. Offered Fall semester.

I hour

**MAT 393** I-4 hours

#### Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during the Summer. I-4 hours

#### **MAT 450 Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

The development of the postulates of group theory, rings, integral domains, and fields. Applications to cryptography. Prerequisites: MAT 180 and 240. Offered Spring semester 3 hours

A continued study of Abstract and Linear Algebra. Topics include Galois Theory, cryptography, and field extensions. Prerequisite: MAT 455.

A study of the Lebesgue integral and its consequences, including convergence theorems, function spaces, and introductions to measure theory and operator theory. Metric spaces, uniform convergence of functions, and topological approaches to continuity are also considered. Prerequisite: MAT 340. Offered Fall semester of even years.

#### **MAT 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

I-4 hours

#### **MAT 490** Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field. 3 hours

#### **MAT 493** Senior Capstone

An overview of mathematics with an emphasis on the integration of all areas in undergraduate mathematics with an exploration of the relationship between mathematics and the Christian faith. Open to senior status mathematics majors only. Offered during January interterm.

3 hours

**MAT 455** Abstract Algebra

# of odd years. **MAT 456**

Advanced Algebra

# MAT 461

Real Analysis

# Music, Theatre, and Dance

#### Co-Chairs, Professor C. Bade, Assistant Professor T. Manning Professor L. Harshenin Associate Professors C. Angell, E. Kwan Assistant Professors L. Songer, R. Spencer

The Department of Music, Theatre, and Dance exists with a three-fold purpose: to equip students with discipline specific skills and experiences needed for their future academic and professional work; to educate students and the community in the value and integrity of music, theatre, and dance as expressive art forms; and to present performances and productions that creatively engage the minds and hearts of the community.

The department offers the Bachelor of Arts degree, Bachelor of Fine Arts degree, Bachelor of Science degree, and Bachelor of Music degree programs. A Department of Music, Theatre, and Dance handbook, outlining all areas of degree concentration and operational policies, is available on the Taylor University web site and from the department offices. Students in the BS in Music with concentration in Marketing or Management may apply for an off-campus semester in Nashville, Tennessee, for the purpose of more focused study in contemporary music. Please consult the appendix of the Department of Music, Theatre, and Dance handbook; for more details, refer to **Contemporary Music Center** in the Off-Campus/International Programs section of this catalog.

The department offers minors in Applied Music, Dance, Keyboard Pedagogy, Music Composition, Theatre Arts, and Worship Arts.

Taylor University is an institutional member of the National Association of Schools of Music (NASM).

A senior performance recital or project is required for all music degree programs. Performance guidelines for juries, proficiencies, and recitals/projects may be found in the department handbook

### Music (BA)

The Bachelor of Arts degree with a major in Music requires completion of 54-56 hours and two years, sequential study in one foreign language. This degree is designed for students who are primarily interested in a liberal arts degree program with a focus in music. This broadly based degree program has as its foundation the study of music, history, theory, and literature. The program prepares students for diverse career opportunities or graduate study. All major courses must be completed with a grade of C- or better and are included in the major GPA.

# Performance (BM)

The Bachelor of Music degree with a major in Performance is offered to students in three concentration areas. The major with an Instrumental concentration requires 81-82 credit hours; the major with a Piano concentration requires 79-80 credit hours; and the major with a Vocal concentration requires 72-73 credit hours. The Bachelor of Music degree is the initial degree in the study of music performance and prepares students for graduate school and possible careers as solo performers in concert or church music, accompanists, private teachers, professional ensemble members, conductors, or college teachers. Its primary emphasis is on development of the skills, concepts, and sensitivity essential to the professional life of a musician. All major courses, including those in the concentration, must be completed with a grade of C- or better and are included in the major GPA.

# Music Education (BM)

The Bachelor of Music degree with a major in Music Education requires 64-67 hours in addition to education courses. Completion of this program in four years may require 17 credit hours each semester and 3 credit hours each January interterm; the requirements of this program including the teacher education professional licensure program will result in certification for either Instrumental/General P-12 or Choral/General P-12. Optional concentrations are available in SpEd Mild-Moderate P-12 Licensure, SpEd Intense P-12 Licensure, and TESOL P-12 Licensure. *All major courses, including education curriculum courses, must be completed with a grade of C- or better and are included in the major GPA.*

The Bachelor of Fine Arts degree with a major in Musical Theatre requires 74-75 credits and is the initial professional baccalaureate degree in Musical Theatre. Its primary emphasis is on development of the skills, concepts, and sensitivity essential to the professional life of a performer. Participation in two faculty directed productions required each year; one production each year must be a fully staged musical production or an opera; student must perform at least one significant role in a full production, musical, or opera during the course of the degree. All major courses must be completed with a grade of C- or better and are included in the major GPA.

# Dance Minor

The Dance minor serves to prepare the young performer to explore, master, and integrate diverse styles within the performance area of dance. The aesthetic, intellectual, and physical learning objectives in the discipline of dance closely align with Taylor's whole person focused mission. The minor exists alongside the disciplines of music and theatre and often combining with these disciplines in performance settings. The minor consists of 22 hours. All minor courses must be completed with a grade of C- or better and are included in the minor GPA. No more than 50% of the credits may overlap with any major or minor. Students must participate in a faculty-directed dance production or musical theatre production each year.

# **Dance Courses**

#### **DAN 22**

#### 2 hours Dance Technique for the Actor I: Ballet

This course is designed to teach positions, steps, terminology, and introductory level skills that form the basis of ballet technique. Barre exercises, center exercises including adagio, petite allegro and grand allegro, and quality stretching for a dancer's workout will be taught and perfected. Additionally, there will be an introduction to various notable performers and some of the historical and cultural aspects of ballet, presented through discussion and video observations. Meets foundational core participation in the arts requirement. Offered Fall semester of odd years

# **DAN 222**

#### 2 hours Dance Technique for the Actor II: Jazz

This course is designed to teach positions, steps, terminology, and introductory level skills that form the basis of jazz technique. A brief study of Luigi, Fosse, and contemporary jazz will be introduced. Stretches appropriate for the increase of flexibility and support will be stressed and perfected. Additionally, there will be an introduction to various notable performers and some of the historical and cultural aspects of jazz, presented through discussion and video observations. Jazz, contemporary and modern, techniques will be explored in this class. Meets foundational core participation in the arts requirement. Offered every fourth Spring semester (alternates with DAN 221, 223, 224).

2 hours

# **DAN 223**

# Dance Technique for the Actor III: Tap

This course is designed to teach positions, steps, terminology, and introductory level skills that form the basic tap technique. This course will be an elementary level of tap, teaching the basics steps in tap dancing. Theatre tap will be focused on in this class and taught while learning some invaluable time steps for future use in auditions and professional work. Additionally, there will be an introduction to various notable performers and some of the historical and cultural aspects of tap, presented through discussion and video observations. Meets foundational core participation in the arts requirement. Offered every fourth Spring semester (alternates with DAN 221, 222, 224).

2 hours

### **DAN 224**

#### Dance Technique for the Actor IV: Musical Theatre Styles

This course is designed to develop technique and ability from all aspects of dance (ballet, jazz, and tap) and incorporate them into performance of Musical Theatre. Students will be taught the importance of routine, weekly classes, and flexibility to maintain their craft. Classwork in stretching, small combinations, and a longer musical theatre dance will be incorporated in every class. Additionally, there will be an introduction to various notable performers and choreographers of Broadway and theatre, presented through discussion and video observations. Meets foundational core participation in the arts requirement. Offered every fourth Spring semester (alternates with DAN 221, 222, 223).

# Vocal Diction I

A study of the International Phonetic Alphabet and its application for singers in Italian, German, French, and English. Students will use classical and contemporary texts and songs as their basis of study. This class is to be taken in conjunction with Applied Lessons, supplying a firm foundation for future study. Required of all Voice specialties and Musical Theatre majors. Offered Spring semester.

I hour

2 hours

# MUS 119

Vocal Diction II

A study of English, French, Italian, and German diction and its application in songs and arias. A working knowledge of the International Phonetic Alphabet is utilized as a learning tool. This class is to be taken in conjunction with applied lessons, supplying a firm foundation for future study. Required of all voice and musical theatre majors and minors. Prerequisite: MUS 118 or permission of instructor. Offered Fall semester.

#### MUS 121 2 hours

Seminar in Composition I Original composition in elementary and advanced forms. Emphasis is on development

#### of individual style of expression. Prerequisite: MUS 101 or permission of instructor. MUS 122 2 hours

# Seminar in Composition II

Original composition in elementary and advanced forms. Continued emphasis is on development of individual style of expression. Prerequisite: MUS 121 or permission of instructor.

#### **DAN 334** 3 hours

# Dance Improvisation and Composition

This course concentrates on techniques of improvisation and dance choreography: improvisation in both singular and contact, composition in forms of ballet, modern, and musical theatre production. Offered Fall semester of even years.

I-4 hours

# **DAN 383**

#### Applications in Technique

Application of study will serve as a practical measure of learning and expertise. The student will either serve as a teaching assistant for a modern, ballet, tap, jazz, or musical theatre class, or serve as dance captain in a faculty directed production.

### **MUS 124**

#### 3 hours Music Theory and Harmony I

A study of the basic structural elements of tonal theory and harmony. Topics covered include construction of 7th chords, principles of part writing and voice leading, melodic phrase analysis, diatonic harmonic progression (including function progression, cadence types, and non-harmonic chord tones), and analysis of small forms. Prerequisite: MUS 101 or successful passing of music department's Music Theory placement exam. Corequisite: MUS 124L. Offered Fall semester and January interterm.

#### MUS 124L I hour Music Theory and Harmony I Lab

A laboratory experience that is designed to reinforce the content covered in MUS 124 through the development of aural and keyboard skills. Corequisite: MUS 124. Offered Fall semester and January interterm.

# MUS 125

3 hours Music Theory and Harmony II

A continuation of Music Theory and Harmony I. An intermediate study in the principles of tonal harmonic progression, with an emphasis on the principles of chromaticism and modulation. Topics will include secondary dominants (vocabulary and part writing), closely related key structures, modulation types (common chard, chromatic, phrase, and sequential), and analysis of binary, ternary and sonata forms. Prerequisite: MUS 124 and 124L. Corequisite: MUS 125L. Offered Spring semester.

# MUS 125L

Music Theory and Harmony II Lab

A laboratory experience that is designed to reinforce the content covered in MUS 125 through the development of aural and keyboard skills. Corequisite: MUS 125. Offered Spring semester. 2 hours

I hour

### MUS 132 Survey of Music History

This course will explore the basic elements of music. It is a survey course of music history and literature in the Western-European tradition, with emphasis on the major composers, genres, forms, stylistic characteristics and aesthetic principles of the various eras. The survey also includes a review of the American Vernacular music culture, emphasizing the collateral influence it and European art music had on each other.

2 hours

# MUS 135

# Introduction to Music Education

An introduction to the field of music education (P-I2, general, choral, instrumental) in general, and the areas of licensure (performance, knowledge, and dispositions) that need to be demonstrated and documented in particular. The IPSB components-Indiana Standards, technology, diversity, service learning, literacy, exceptionality, P-12 proficiencies, induction and portfolio development and assessment-will be introduced in class. In addition, an all-day field trip will be taken to observe the music program in a model school and attendance will be expected at the IMEA state conference. Offered Fall semester.

2-3 hours

# MUS 149

**Music Appreciation** 

An introduction to the art of music and its materials. A course designed to develop greater understanding and appreciation of music and the various historical periods. Considerable attention is given to listening to recordings and studying the lives of leading composers. May satisfy the music-portion of a foundational core fine arts requirement. This course is offered through Taylor University Online (TUO). MUS 170 I-4 hours

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### MUS 200 Applied Lesson

Learning practice methods, building good techniques, acquiring sufficient repertoire, gaining a broad knowledge of literature and composers, and achieving performance skills. Lessons are designed for music majors and minors (registration overrides will be required for minors). Lessons are 1 hour

# I hour

Computers, Technology, and Music

This is a preliminary-level instructional course designed to train the music major in the knowledge and applications of computer and MIDI systems as used in the music profession. Emphasis is placed on acquiring basic knowledge and skills in MIDI and hardware systems, synthesizer performance, sequencing and desktop publishing. Basic keyboard skills are essential. Includes a supervised lab each week. Prerequisites: MUS 124 and 124L; or permission of the instructor.

#### MUS 210AC I hour

# Adoration Chorus (Female Chorus)

A choral ensemble open by audition to all women at Taylor University. This choir utilizes contemporary sacred choral arrangements, spirituals, and praise and worship songs as a means of ministering. Pursuing vocal excellence, the Adoration Chorus focuses on leading others in worship, performing in churches, university functions, schools, and community venues. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; O credit registration does not fulfill foundational core participation in the arts requirement.

### **MUS 210GM**

#### I hour **Exploration of Global Music Ensemble**

Exploration of Global Music Ensemble is an ensemble of singers and instrumentalists. Students will experience hands-on exploration of traditional musical repertoires from around the world. Students will perform on instruments and sing songs from Asia, Africa, and many countries around the world. Sometimes these styles are learned aurally/orally or with different kinds of musical notation. No prior experience with western music notation is necessary. This ensemble is opened to all students. Singers and instrumentalists are welcomed.

I hour

MUS 210HC

#### Handbell Choir

The Handbell Choir is open to students with bell ringing experience, as well as to students with no previous experience who are willing to learn the art of bell ringing. The group performs in chapel, as well as in programs on and off campus. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

#### MUS 210JC lazz Combo

# I hour

The Jazz Combo is a selected ensemble by audition. The combo explores improvisatory stylings and performs a concert each semester. Beginning, intermediate and advanced level instruction is given. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

# MUS 210JE

Jazz Ensemble

# I hour

The Jazz Ensemble is open to all wind and percussion players by audition. It performs contemporary stage band literature, as well as the jazz classics. This ensemble performs a concert each semester and tours in local schools and regional festivals. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

I hour

#### MUS 210LT Lyric Theatre

The Lyric Theatre program supports the liberal arts mission of Taylor University by providing a broad range of performance experiences that span historic and contemporary operatic and music theatre periods, genres, and styles. Lyric Theatre is open to all students by audition. Performances include fully-staged productions and semi-staged "scenes" productions. The primary goal of the ensemble is to create live performances in which students demonstrate dramatic confidence, vocal ease, and aesthetic sensibility. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

#### MUS 210PB Pep Band

I hour

The Pep Band is open to all students who enjoy performing contemporary music at football and basketball home games. (No audition required.) Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

#### MUS 210TR **Taylor Ringers**

# I hour

The Taylor Ringers consists of 13 members chosen by audition. The group performs a variety of 4-5 octave literature of a moderate-to-difficult nature on campus and during tours each spring. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

#### **MUS 210TS** Taylor Sounds

I hour

The Taylor Sounds is a select group of musicians dedicated to a high standard of chamber choral performance. The goal of the group is to learn a breadth of quality musical styles by notable composers. The mission of the ensemble is to express the highest divine and human values through the choral chamber music art. Performance tours include domestic and overseas venues, as well as conferences, conventions and banquets. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

# MUS 210UC

### University Chorus

The University Chorus is a mixed choral ensemble open by audition to all men and women at Taylor University. The chorus sings diverse literature from all historic periods and performs on campus in chapel and concerts. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

3 hours

I hour

#### **MUS 224**

# Music Theory and Harmony III

A continuation of Theory and Harmony II. Advanced studies in the principles of extended tonal harmony, including introduction to hyper-tonal and post-tonal concepts as found in the early 20th century. Topics will include chromatic chord vocabulary and part writing practice, foreign-key and enharmonic modulation, consecutive and passing regions, inferred tonality technique, early twentieth century structural concepts, and analysis of ritornell/fugue forms. Prerequisite: MUS 125 and 125L. Corequisite: MUS 224L. Offered Fall semester.

#### **MUS 224L**

### Music Theory and Harmony III Lab

A laboratory experience that is designed to reinforce the content covered in MUS 224 through the development of aural and keyboard skills. Corequisite: MUS 224. Offered Fall semester.

I hour

# **MUS 240**

# I hour Taylor University Chorale

The Taylor Chorale is open to all Taylor students on an audition basis. Repertoire consists of music drawn from the spectrum of sacred choral works. The mission of the ensemble is to express the highest divine and human values through the choral arts. Performances include domestic and international tours, as well as concerts for conferences and conventions. Performance of sacred works with professional orchestras are also part of the chorale tradition. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

# **MUS 243**

#### 3 hours Music and World Cultures

An investigative study of selected non-Western cultures and the role of music within the cultures. Three components are basic principles of culture and basic principles of music, Asian culture and music, and African culture and music. This cross-cultural course is open to all students. Upper-division credit requires a paper pertaining to music and a culture of the student's choice. Offered January interterm.

3 hours

# MUS 245

#### Foundations of Worship Arts

Biblical and musical foundations of Christian worship ministry. A survey of various worship styles including historic and contemporary worship formats. Principles of leadership and creativity in worship planning will be discussed. Open to all majors. Offered Fall semester of odd years.

I hour

# MUS 250

# Audio Visual Technologies in the Church

A study of the use of technology in the modern Christian Church including sound reinforcement, video projection, computer assisted worship, and lighting formats. This course will have a practical application component which includes laboratory work with the chapel media technicians. Offered January interterm of odd years.

#### MUS 270 Selected Topics

# I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

#### MUS 280

#### Wind Ensemble

The wind ensemble is open to all wind and percussion players by audition. The Wind Ensemble performs the classic and contemporary wind repertoire, sacred, pops and pep band literature. The wind ensemble presents one full concert program each semester. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

I hour

#### **MUS 290** Symphony Orchestra

# I hour

The Symphony Orchestra is open to all string, wind and percussion players by audition. The symphony orchestra performs selected masterworks of the symphonic repertoire written for full orchestra from each of the major historical periods. The symphony orchestra performs one full concert program each semester. Meets foundational core participation in the arts requirement when taken for credit. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill foundational core participation in the arts requirement.

# MUS 292

#### 3 hours Introduction to Electronic Music

Emphasis is placed on working with current technology with the objective of an introduction to the aesthetics and types of electronic music, creating an electronic composition as a final project. Prerequisite: MUS 201. Offered Fall semester of odd years.

#### **MUS 300** Applied Lesson

I hour

Learning practice methods, building good techniques, acquiring sufficient repertoire, gaining a broad knowledge of literature and composers, and achieving performance skills. Lessons are designed for music majors and minors (registration overrides will be required for minors). Lessons are I hour.

# MUS 311

Elementary School Music

A study of the role of the music specialist in planning musical experiences for children, with emphasis on child development, music literature, teaching aids, and teaching practices, utilizing recorders and Orff Instruments. Curriculum development and the organization of the elementary school music program are also included. A laboratory experience is also included. Offered Spring semester of odd years.

#### **MUS 320** Internship

In-depth experience with a minister of music involving responsibilities in various phases of the church music program, including administration, organization, rehearsal and worship.

I-4 hours

# **MUS 323**

I hour Functional Keyboard Skills

The facilitating of practical keyboard skills, including scales, chords, arpeggios, sight reading and harmonization of melodies at sight. In addition, students complete the requirements needed for transposition, score reading and accompanying in order to pass the Piano Proficiency. Offered Spring semester.

## MUS 331

Instrumental Methods III—Percussion

Class instruction in percussion instruments. Designed to acquaint music education specialists, composition students, and church musicians with basic techniques for performing, arranging, and teaching percussion instruments. Offered Spring semester of even years.

I hour

I hour

# MUS 332

Instrumental Methods IV—Strings

Class instruction in string instruments. Designed to acquaint music education specialists, composition students, and church musicians with basic techniques for performing, arranging, and teaching orchestral stringed instruments. Offered Fall semester of odd years.

# MUS 340

**Taylor University Chorale** See MUS 240.

#### **MUS 342**

Advanced Form and Analysis

Exploration of representative works after 1600 through the lens of formal structure, harmonic analysis, and counterpoint, with an emphasis on the stylistic aspects of music. Prerequisites or corequisites: MUS 125 and 125L. Offered Spring semester of even years.

3 hours

3 hours

# **MUS 343**

Music and World Cultures See MUS 243

#### **MUS 345**

3 hours **Twenty Centuries of Christian Song** 

An introduction to the use of Christian congregational song through historical survey and theological reflection of music and lyrics from chant to rhythm-section led music. Additional focus on how to include a variety of song types in Christian worship and ways to introduce music to congregations.

#### **MUS 346** I hour

Instrumental Methods I—Brass Instruments Class instruction in various brass instruments. Designed to acquaint music

education specialists, composition students and church musicians with basic performance problems, arranging and teaching techniques of the brasses. Offered Fall semester of even years.

I hour

### **MUS 347**

Instrumental Methods II—Woodwinds

Class instruction in various woodwind instruments. Designed to acquaint music education specialists, composition students and church musicians with basic techniques for teaching, arranging and playing woodwind instruments. Offered Spring semester of odd years.

#### MUS 351 2 hours Choral Arranging

A course on the ranges, tonal possibilities, and technical limitations of the different voices and the analysis of scores of standard choral compositions. Arranging and adapting scores for various vocal combinations are included. Prerequisites or corequisites: MUS 125 and 125L. Offered Fall semester of even years.

2 hours

# MUS 352

Instrumental Arranging Band and orchestral instruments are studied with a view to practical and effective writing. Arranging of compositions for various instrumental combinations is included. Prerequisites or corequisites: MUS 125 and 125L. Offered Fall semester of odd years.

I hour

# 3 hours

# **MUS 357**

#### 3 hours

**Resources and Methodologies in the Worship Arts** 

A study of the organization, administration and operation of the Christian church music program. Areas of study include the graded children's choir program, adult choir ministry, praise team ministry, and utilization of various instruments. Open to music majors and minors. Prerequisite: MUS 245 or permission of instructor. Offered Spring semester of even years.

I-4 hours

# **MUS 360**

Independent Study

An individualized, directed study involving a specified topic.

# MUS 361

Conducting I

An introduction to the psychological, technical and musical elements of choral conducting. Study of musical scores of choral literature is also stressed. Offered Fall semester. 3 hours

3 hours

### **MUS 362**

Conducting II

Continuation of MUS 361 with emphasis on advanced score studies, conducting, and rehearsal techniques of instrumental works. Lab experience with band and orchestra ensembles is included. Prerequisite: MUS 361 or permission of the instructor. Offered Spring semester.

I-4 hours

#### **MUS 370**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### MUS 371

Music History and Literature I

An introduction to western music and styles from the Middle Ages to the Classical period. Stylistic cognizance is acquired through examination of prevailing musical idioms, forms and literature. Composers, performers and historical figures that influenced music history are also examined briefly, as well as terminology and vocabulary common to musicology. Prerequisites: MUS 124 and MUS 132. Offered Fall semester.

3 hours

# MUS 372

# **Music History and Literature II**

An introduction to western music and musical style from the Romantic period to the present. Stylistic cognizance is acquired through examination of prevailing musical idioms, forms and literature. Composers, performers, and historical figures that influence music history are also examined, as well as terminology and vocabulary common to musicology. Prerequisites: MUS 124 and MUS 132. Offered Spring semester.

#### **MUS 440**

3 hours Vocal Pedagogy and Literature

Introduction to the scientific principles and theories of vocal production. Guides the student in building an appropriate repertoire of pedagogic materials and repertoire choices through class demonstration, discussion, and examination of current pedagogical attitudes and research. Class members are required to observe and teach voice lessons. Offered Spring semester of even years.

# MUS 450

# **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. I hour

I-4 hours

# **MUS 462**

Instrumental Pedagogy

Explores techniques and materials related to the teaching of instruments. A supervised lab experience is included. I hour

# MUS 463

Instrumental Literature

A study of the literature of specific instruments from various historical periods with emphasis placed on current practice. Graded method books and technical materials will also be reviewed. Taught as a private lesson with specialist instructor and requisite fee. Prerequisite: MUS 462. Offered Spring semester of even years.

# **MUS 470**

Piano Literature

A survey of keyboard works chosen from Baroque to contemporary periods. Lecture, performance, recorded examples and pedagogy techniques are used. Open to piano majors, minors and others by permission of the instructor. Offered Spring semester of odd years.

#### MUS 480 Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. I-2 hours

# MUS 490

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

# MTD 392

3 hours Entrepreneurship in the Arts

A study of the entrepreneurial aspects of the performing arts industry including marketing and branding, the recording industry, leading and sustaining arts ventures, communication, networking, and the overarching business of profit and not for profit artistic enterprises. Offered Spring semester of even years.

# THR 110P

# Theatre Laboratory—Production

Credit for participation in theatrical productions. Requires a minimum of 30 hours, one reflection paper, and peer and instructor assessment. For work in costume and makeup, management, or stagecraft—includes project work and working within a group. Students may register to participate for 0 credit hours; 0 credit registration does not fulfill major/minor requirement. May be repeated for five credits total. For theatre majors and minors. Instructor permission required.

Performing Literature This literature and performance course aims to explore the relationship between literature and theatre with emphasis given to translating analytical decisions into performance. The main focus of the course is the interaction between the literary skills of close reading, critical writing, and discussion and the practical, aesthetic, and symbolic elements of performance. Meets foundational core literature requirement. Offered Fall semester.

#### **THR 130**

# Theatre History I: Antiquity to the Renaissance

This survey course covers the development of the theatre from its supposed origins in ancient Greece and Rome to the European Renaissance including its architecture, production values, acting and directing styles, and the political and social movements that informed these traditions. Students will engage with selected readings, discussion, projects, and multimedia presentations. Offered Spring semester.

I-4 hours

3 hours

**THR 170** 

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

#### **THR 212**

#### 3 hours Acting I: Mask and Movement

Study of the theories and principles of acting as an art, approached through a Christian perspective of life and the human situation. Practical application of performance techniques and character development are provided through laboratory theatre experiences. Corequisite: KIN 2001. Offered Spring semester of even years.

I hour

# **THR 220**

# Stage Diction: Fundamentals and Dialect

Introduces and develops speech techniques for the actor, specifically in the areas of relaxation, posture and alignment, respiration, phonation, registration, resonance, and articulation, as well as, study of the fundamental knowledge and skills required to perform specific and credible dialects for the stage. Offered January interterm of even years.

#### **THR 230** 3 hours

# Theatre History II: Renaissance to Postmodernism

A continuation of Theatre History I. This course will continue to explore the history of theatre including its architecture, production values, acting and directing styles, and the political and social movements that informed the traditions from the Renaissance to the present. Students will engage with selected readings, discussion, projects, and multimedia presentations. Offered Spring semester.

# **THR 240**

#### 3 hours Acting II: Methods and Theories

The purpose of this course is to explore acting theory and teaching methods of those whose names are associated with the evolution of the modern theatre. This course will aid the student in the development of basic performance skills through the building and refining of audition monologue repertoire.

3 hours

# **THR 241**

#### Stagecraft and Design

This course is designed as an introduction to the art of theatrical design and production. It will be taught as a survey course, exploring the many technical aspects of theatrical production work from the conceptual beginnings, through the design process, to the final work. Students will gain a basic understanding and competency in the areas of production research, scenic design, set construction, costume research and design, make-up design and application, scenic art techniques, properties, lighting, and sound design through projects and class discussion. Offered Fall semester of even years.

# **THR 270**

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

I-4 hours

# **THR 301**

# Theories and History of Applied Theatre

Theories and history of applied theatre covering a wide range of theatre applications in education, health, community development, and human rights. Prerequisite THR 112 or permission of instructor. Offered Fall semester of odd years.

# **THR 330**

# **Audition Techniques**

2 hours

Students cultivate an understanding of the realities of the marketplace and necessary techniques for professional acting. The focus is on acquisition of performance skills. This course will aid the student in the development of basic performance skills through the building and refining of vocal/monologue audition repertoire. Offered January interterm of odd years.

#### **THR 335** 3 hours **Music Theatre: History and Styles**

A practical application course that focuses on learning the ways in which musical and textual understanding inform the interpretation and performing of acting and singing techniques in various musical theatre forms from the 1920's through the 20th century. Offered Spring semester of even years.

# **THR 340**

# Applications in Dramaturgy

This course is recommended for anyone who loves theatre and wishes to acquire a more sophisticated understanding of this art form. This course will introduce students to the profession of dramaturgy which began in 1867 in Germany and took root in the United States in the late 1960's. A single course or even an academic program in this field cannot train a professional dramaturg all at once. A mature dramaturg emerges gradually through incremental learning and hands-on-experience. This study and practical application will provide the student with an introduction to the discipline. Offered Spring semester of even years.

3 hours

I-4 hours

3 hours

#### **THR 345** Stage Management

This course will provide students with the opportunity to explore their leadership potential and capabilities through the role of the Stage Manager in a theatrical context. Students will have the opportunity to interact with SM professionals. Students will be encouraged to assess their own skills and consider how to best address improvement. Offered Fall semester of odd years.

## THR 360

# Independent Study

An individualized, directed study involving a specified topic.

# **THR 362**

Theatre and the Church

Explores the biblical foundations of theatre arts following its origin and development. We will purpose to increase recognition of significant figures in the field of religious drama, theology, church growth, and worship planning. The course will give students an introduction to producing and directing for the church, exploring its uniqueness and challenges. Offered Fall semester of even years.

3 hours

# Science Research Training Program

The purpose of the Science Research Training Program is to stimulate students beyond "normal education" with hands-on practical experiences, promote real-world industrial relationships (careers), and prepare future graduate students. As faculty, students and staff, our goal is to pursue excellence (world leadership in selected research areas) and thereby stay on the cutting edge of scientific research and thought.

We encourage scholarly research and crossover interactions between various disciplines, and we promote publications in professional journals by Taylor University faculty and students. Where possible, we relate science with society and apply science and technology to various mission field needs. Research activities are carried on quietly and often on a long-range basis, but are essential to leadership and progress. During the summer months, when faculty and students can devote more time to independent research, student stipends are available for research one-on-one with a faculty member. These projects include the areas of biology, chemistry, computer science, engineering, environmental science, mathematics, and physics.

# **Natural Science Courses**

# **NAS 170**

Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

#### NAS 201 Nature of Science

# 3 hours

A lecture and seminar based introduction to the nature of science in three main areas: life sciences, physical sciences, and earth and space sciences. The course will examine the scientific paradigm, the nature of science, and the characteristics of good science applied in these three main areas. The course will have three laboratory projects examining the nature of science in each area. Offered Fall or Spring semesters. Meets the foundational core life science, physical science, or earth science requirement.

#### **NAS 220**

#### 4 hours **Natural Science Research Methods**

To introduce general science research in the fields of biology, chemistry, computer science, engineering environmental science, mathematics, and physics. An overview of selected representative research topics, problem solving approaches, instrumentation, and analysis techniques. The lab emphasizes the use of scientific instrumentation and advanced computer software tools. For students enrolled in pre-college summer experience. Meets any foundational core lab science requirement.

#### **NAS 230**

Health Education for Behavior Change

This course prepares students interested in various health care careers to perform health education in community settings. Topics include disease prevention, principles of exercise and movement, nutrition, helping skills, and behavior change theories. After successful completion of course, students are able to work in the Invitation Diabetes Prevention Program.

2 hours

#### **NAS 270** Selected Topics

# I-4 hours

A course offered on a subject of interest but not listed as a regular course offering.

#### **NAS 309** Science Education Methods

This is a junior-level science education methods course for biology, chemistry, and physics majors obtaining certification in secondary education. This course covers the philosophy of science, science educational psychology, the science standards (both national and state), science curriculum development, classroom management and assessment, laboratory management and development, and technology and professional development in the sciences. Prerequisites: EDU 150 and EDU 260.

I-4 hours

#### **NAS** 480 Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. Seminar focuses on the integration of topics from contemporary science with an emphasis on recent research reports of interdisciplinary interest. Guest lecturers, faculty, and student reports serve as the method of instruction. Offered Fall semester.

#### NAS 490 Honors

I-2 hours

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

# **Physics and Engineering**

# Co-Chairs, Professor K. Kiers, Assistant Professor J. McClurg **Professor R. Davis** Assistant Professors D. Nobles-Lookingbill, P. Staritz, Y. Zhao

The purpose of the Physics and Engineering Department is to provide an educational experience within a Christian context that equips students with the ability to obtain knowledge and understanding about the physical world for use in research, graduate studies, and careers and to positively impact society. The Physics and Engineering Department offers instruction in physics, engineering, astronomy, and physical science. Theoretical high-energy physics, advanced engineering instrumentation, smart grid technologies, power electronics, advanced heat exchange manufacturing technology, thermal management systems, and microelectronics provide the major research interests in the department.

Departmental majors include: Physics, Engineering, Physics Science Education, and Physics/Mathematics Education.

# Physics (BA)

The Bachelor of Arts degree with a major in Physics requires two years of one foreign language, 78-80 hours in the major, and participation in a weekend retreat for students in the department. All major courses must be completed with a grade of C- or better and are included in the major GPA.

# **Physics/Mathematics Education (BA/BS)**

The Physics/Mathematics Education major requires 61 hours in addition to education courses and participation in a weekend retreat for students in the department. Optional concentrations are available in SpEd Mild-Moderate P-12 Licensure, SpEd Intense P-12 Licensure, and TESOL P-12 Licensure. The Bachelor of Arts degree requires two years of one foreign language. All major courses, including education curriculum courses, must be completed with a grade of *C*- or better and are included in the major GPA.

# **Physics Minor**

PHY 300-/400-level courses

A minor in Physics consists of 20 hours. This minor may not be awarded with a major from within the department. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

# **Minor Requirements**

PHY 2114-5University Physics IPHY 2125University Physics II

#### Electives

Select enough elective credit hours of upper-division (300- or 400-level) physics and engineering courses to reach 20 credit hours. ENP 231 and 252 may also meet elective hours.

# **Engineering (BS)**

The Bachelor of Science degree with a major in Engineering requires the completion of 104-106 hours and participation in a weekend retreat for students in the department. It is a general engineering degree which prepares students for industry practice and/or graduate study in a variety of engineering disciplines. Students select one or two\* of four concentrations to align with individual interests and career goals. This program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org. Courses may not be used to fulfill more than one major requirement: core, concentration, elective. \*Engineering students may elect any double concentration, provided (1) they meet the requirements of both concentrations, (2) neither of the concentrations is General engineering, and (3) the total number of concentration credits (non-core) is at least 28 (30 if Physics is one concentration). These restrictions mean that any double concentration will require at least 8 Tier B credit hours beyond the credit hours required for a single concentration. All major courses, including those in the concentration(s), must be completed with a grade of C- or better and are included in the major GPA.

# **Program Objectives:**

- ١. Prepare our graduates to serve others dependably, most importantly their employer, customers, and community.
- 2. Prepare our graduates to practice technical competence, producing trustworthy engineering designs.
- Prepare our graduates to exercise creativity in their work, fostering innovative solutions. 3.
- 4 Prepare our graduates to pursue growth in their faith, social understanding, and technical competence so that they can adapt to meet the needs of an ever-changing world.

# **Computer Engineering**

Computer Engineering is an interdisciplinary major offered jointly by the Physics and Engineering and the Computer Science and Engineering Departments. For program details, refer to the Computer Science and Engineering section of this catalog.

#### ENP 104

#### 3 hours Introduction to Engineering and Software Tools

This course introduces the students to the engineering discipline, providing a handson overview of the tools they will acquire and use over the course of their major. These tools include process and methodology tools, analytical tools, software tools, and hardware tools. A goal of the course is to provide the students with a framework for their engineering studies along with a practical 'hands-on' example of what engineering might "look like." This framework should help the student better understand the role, need, and benefit of each successive course in their major. A group hardware project will be carried out as part of the course, helping to engage the students' learning and interest, and re-enforcing the concepts taught in class. One hour of lecture and three hours of lab. Offered January interterm. Prerequisite: PHY 211.

### ENP 170

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering.

I-4 hours

### **ENP 231**

#### 4 hours Introduction to Electric Circuits

First course in electric circuits, where DC, time-dependent, and AC circuits are each introduced. Network analysis, network reduction techniques, time-domain solutions to simple 1st and 2nd order circuits, and steady-state analysis of sinusoidally excited circuits are each developed. Weekly lab introduces breadboarding, debugging, and testing of basic electric and electronic circuits using common test equipment. An introduction and use of basic electronic devices such as op-amps, the Shockley diode and BJT or MOSFET transistors is also included. An emphasis is placed on SPICE circuit simulation throughout the semester. A course project introduces students to ECAD software, where they create, build, and test a custom printed circuit board (PCB) circuit. Prerequisites: PHY 212 and ENP 104, or permission of instructor. Offered Fall semester.

### **ENP 252**

# **Principles of Engineering**

4 hours

The course focuses on the mathematical modeling and analysis of lumped-element physical systems-translational and rotational mechanical systems, electrical systems, heat transfer systems, and fluid systems. Unifying concepts of flow, effort, and impedance are emphasized, along with the use of transfer function descriptions, frequency domain analysis, and Laplace Transform analysis. Labs focus on modeling and simulation, design of experiments, directed design process, and software skill development, including MATLAB and Simulink. Prerequisite: ENP 231. Corequiste: MAT 251. Offered Spring semester.

# ENP 261

# Digital Systems Design

Digital Systems are explored, including combinational (e.g., multiplexors and decoders) and sequential (e.g., flip-flops and registers) logic. Circuit minimization techniques such as Boolean algebra and Karnaugh maps are examined. Mealy and Moore finite state machines will be developed to model systems. Designs will culminate in projects that simulate circuits with a hardware description language and then synthesized on an FPGA. Offered Spring semester of even years.

I-4 hours

3 hours

# **ENP 270**

Selected Topics A course offered on a subject of interest but not listed as a regular course offering.

#### ENP 301 3 hours

# Statics

This course is a one-semester introduction to the statics of particles and rigid bodies. Topics include: forces, moments, equilibrium, and structures in equilibrium. Course makes applications to engineering and uses software tools for engineering mechanics. Prerequisites: PHY 211 and MAT 230. Offered Fall semester.

3 hours

### **ENP 302**

# Strength of Materials

Course investigates the fundamentals of the mechanics and strength of materials. Topics covered include stress-strain relationships, Mohr's circle, axial loading, torsion, beam loading, and linear buckling. Prerequisite: ENP 301. Offered Spring semester of even years.

#### **ENP 303 Dynamics**

# 3 hours

This course covers the basic principles of dynamic mechanical systems, as derived from Newtonian mechanics. The main topics covered include kinematics of particles, kinetics of particles (using both force and energy/momentum methods), kinetics of systems of particles, kinematics of rigid bodies, and 2-D kinetics (plane motion) of rigid bodies (using both force and energy/momentum methods). Prerequisite: ENP 301. Offered Spring semester of odd years.

#### ENP 321 Applied Electromagnetics

# The course considers the application and technology of electromagnetic field theory to computing and communications systems. Topics may include wave propagation, transmission lines, fiber optics, high frequency communication networks, antennas, and satellite communications. *Prerequisites: ENP 252, MAT 251,* and ENP 231. Offered Spring semester of odd years.

4 hours

# **ENP 332**

### Control Systems

This is an introductory course in Signals, Systems and Controls. A selection of topics is chosen from a conventional two-course sequence of "Signals and Systems" and "Automatic Control". Mathematical tools for studying linear time invariant (LTI) continuous time systems are developed. These include describing and analyzing LTI systems according to their 1) differential equation, 2) impulse response, 3) state-space representation, and 4) frequency response representation. Transform methods including Fourier series, Fourier Transform, and Laplace Transform are also developed as needed. The Controls portion of the course includes time-domain transient response, steady-state response, and stability tests. Frequency domain analysis such as root-locus and Nyquist stability are also introduced. Prerequisites: ENP 252 and MAT 251. Offered Spring semester of odd years.

# ENP 341

**Microcomputer Interfacing** 

Course develops the student's ability to design, build and test embedded systems. Hardware architecture and software programming of microcontrollers and other embedded system devices are studied. Operation and use of LCDs, A to D and D to A converters, keypads and other interface devices are investigated. Serial communication through 12C, OneWire, USB and RS232 are used. In addition, networking and RF techniques and protocols are studied. Prerequisite: ENP 231 or permission of instructor. Offered Fall semester of even years.

3 hours

4 hours

# ENP 351

# Engineering Thermodynamics

Course develops engineering thermodynamics including use of the first and second law, phase diagrams, properties, heat transfer, second law consequences, power and refrigeration cycles as well as other selected topics. Prerequisites: ENP 252, MAT 251, and PHY 212. Offered Fall semester.

3 hours

# ENP 352

# Materials Science

The structure, processing, and properties of engineering materials are studied with an emphasis on metallic systems. This includes crystal structure, defects, diffusion, phase transformations, deformation mechanisms, strength, and fracture toughness. Also covered are material selection, linear elastic fracture mechanics, and dislocation theory. Prerequisite: ENP 252. Offered Fall semester of odd years.

3 hours

# **ENP 355** Fluid Mechanics and Water Flow

An introduction to the basic properties of fluids in motion. Topics include: Differential fluid equations, streamlines, continuity, energy and linear angular momentum, incompressible viscous flow, potential flow, Navier-Stokes equations, open channel flow, pipe flow, laminar and turbulent boundary layers. Prerequisite: ENP 252. Corequisite: MAT 251. Offered Fall semester.

#### **ENP 357** Heat Transfer

Course investigates the fundamentals of heat transfer and applies those fundamentals to engineering applications. Topics covered include modeling of conduction, convection, radiation, and mixed mode heat transfer problems. Course covers both steady state and transient response. Prerequisites: ENP 252, ENP 351, and ENP 355. Offered Spring semester.

3 hours

# **ENP 359**

#### 2 hours Mechanical Engineering Laboratory

In this course, laboratory experiments reinforce key concepts encountered in mechanical engineering. Topics include materials science, fluid mechanics, thermodynamics, heat transfer, dynamics, and mechanics of materials. Students actively participate in the configuration of sensors and build data acquisition programs as they develop familiarity with various aspects of experimental measurements. Laboratory exercises include elements of data analysis, assessment of experimental uncertainty, and technical writing. Prerequisite: ENP 252. Offered Fall semester of even years.

I-4 hours

# **ENP 360**

Independent Study

An individualized, directed study involving a specified topic.

# 2 hours

# **ENP 370**

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 2-4 hours

I-4 hours

#### **ENP 392**

# Junior Engineering Project

In the context of completing an engineering project, students learn and practice: elements of the design process, the ability to be innovative and think creatively, the ability to acquire new knowledge and skills, the ability to solve engineering problems, the application of analytical and software tools to engineering problems, and the ability to communicate effectively. Focus on the "thoughtful design process" is particularly emphasized. Prerequisite: ENP 252. Offered Spring semesters.

I-4 hours

# **ENP 393**

# Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Practicum must involve a significant engineering work experience and preference is given to an experience away from the Taylor campus. Offered primarily

during Summer. Prerequisite: ENP 252 and junior or senior status.

## **ENP 394**

# Advanced Engineering Project

Students complete an open-ended project, laboratory experiment or research project. The individual project depends on student and faculty interest. Many projects are externally funded. Specific learning outcomes vary depending on faculty, student, and project selected. Prerequisite: ENP 252.

I-4 hours

I hour

### **ENP 405 Engineering Ethics**

Course introduces students to the ethical requirements of the engineering profession and the ethical issues associated with living in a technological intense digital society. Through the course, students should: appreciate the ethical use of computers and dangers of computer misuses, have knowledge of professional codes of ethics, be aware of the impact of technology on society, have an appreciation for the needs of society and how engineering can meet those needs, and begin developing an understanding of how their Christian faith integrates with their engineering practice. Prerequisite: ENP 492. Offered Spring semester.

### ENP 431

#### 4 hours **Advanced Electronics and Microcircuits**

Modeling and analysis of basic electronic devices-primarily diodes and transistors. Applications are made to various analog and digital circuits, including single and multistage amplifiers. Prerequisites: ENP 231 and ENP 252. Offered Fall semester of odd years.

#### ENP 450

I-4 hours

**Directed Research** 

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

#### ENP 480

Seminar A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I-2 hours

#### ENP 490 Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

I hour

# ENP 491

Review of the Fundamentals of Engineering

Course reviews the fundamentals of engineering and prepares students to enter the engineering profession. Depending on students' incoming ability, the course will review subjects from chemistry, computers, dynamics, electric circuits, engineering economics, ethics, fluid mechanics, materials science, mathematics, mechanics of materials, statics, and thermodynamics. Prerequisite: Senior status. Offered Spring semester.

2 hours

#### ENP 492 Engineering Senior Capstone I

Course is the first of a three-course culminating experience which prepares students for engineering practice through a major design experience based on the knowledge and skills acquired in earlier course work and incorporating engineering standards and realistic constraints that include most of the following considerations: economic, environmental, sustainability, manufacturability, ethical, health and safety, social and political. Prerequisite: Senior status. Offered Fall semester.

#### ENP 493 3 hours Engineering Senior Capstone II

Course is the second of a three-course culminating experience which prepares students for engineering practice through a major design experience based on the knowledge and skills acquired in earlier course work and incorporating engineering standards and realistic constraints that include most of the following considerations: economic, environmental, sustainability, manufacturability, ethical, health and safety, social and political. Course also prepares students to serve God and humanity through active service to their family, church, employer and global community. Prerequisite: ENP 492. Offered January interterm.

I hour

#### ENP 494

#### Engineering Senior Capstone III

Course is the third of a three-course culminating experience which prepares students for engineering practice through a major design experience based on the knowledge and skills acquired in earlier course work and incorporating engineering standards and realistic constraints that include most of the following considerations: economic, environmental, sustainability, manufacturability, ethical, health and safety, social and political. Course focuses mainly on documenting and presenting work completed in the first two courses of the capstone experience. Prerequisite: ENP 493. Offered Spring semester.

4 hours

A study of mechanics, thermodynamics, waves and sound, electricity, magnetism,

physical science requirement. Three hours of lecture and two hours of lab. Offered

4 hours

# **Physics Courses**

PHY 120

# 4 hours

**Renewable Energy Principles** Intended for non-science majors. The continuum of energy use drives society to consider renewable and sustainable resource models based on physical principles, chemistry, and Earth science while connecting to theology and the "big picture" of the universe. Three hours of lecture and two hours of lab (focusing on renewable energy) each week. Meets foundational core physical science requirements.

#### PHY 170

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3-4 hours

I-4 hours

# PHY 201

# Introductory Astronomy

A descriptive course about the solar system, stars and stellar evolution, and galaxies and the universe. Recent findings of space exploration and radio astronomy are included. Telescopes are provided for viewing sessions. Two or three hours of lecture and two hours of lab. Physics majors wishing to take PHY 201 for elective credit must take the "majors-only" lab section that is offered intermittently. Students interested in this option should consult with the department chair to determine availability of this special lab section. Students taking PHY 201 for elective credit should also check to ensure that they maintain the required minimum number of upper-division credit hours. Meets foundational core earth science requirement.

and optics. Assumes mathematics at the algebra-trigonometry level. For majors that do not require a calculus-based treatment of physics. Meets foundational core

General Physics I

**PHY 203** 

annually.

# PHY 204

General Physics II See PHY 203.

#### PHY 211 University Physics I

4-5 hours

A calculus-based study of mechanics, waves and sound, electricity and magnetism, optics, fluids, and the structure of matter. The 4 hour course consists of four hours of lecture (for three-quarters of the term) and two hours of lab (for the entire term). The five-hour version also incorporates the study of thermodynamics and consists of four hours of lectures and two hours of lab. Meets foundational core physical science requirement. Corequisite: MAT 146 or MAT 151. Offered annually.

#### PHY 212 5 hours

#### University Physics II Four hours of lecture and two hours of lab. See PHY 211. Prerequisite: PHY 211. Corequisite: MAT 230.

I-4 hours

# **PHY 270**

### Selected Topics

# A course offered on a subject of interest but not listed as a regular course offering. 3 hours

I-4 hours

#### PHY 310

#### Modern Physics

An introduction to modern physics, including special relativity, quantum effects of radiation and particles, and elementary particles. Three hours of lecture per week. Prerequisites: PHY 211 and PHY 212. Offered Fall semester.

PHY 311 Modern Physics

# 4 hours

An introduction to modern physics, including special relativity, quantum effects of radiation and particles, atomic structure, and elementary particles. Three hours of lecture and two hours of lab per week. Prerequisites: PHY 211 and PHY 212. Offered Fall semester.

2 hours

# PHY 313

# **Nuclear Radiation Experimental Methods**

A study of nuclear radiation and detection and experimental methods of measuring nuclear radiation. One hour of lecture and two hours of lab per week. Prerequisites: PHY 211 and PHY 212. Offered intermittently.

#### PHY 321

# 3 hours

**Electricity and Magnetism** The vector field approach to electromagnetic theory. Includes electrostatics, magnetostatics, induction, dielectric and magnetic materials, and Maxwell's equations. Co-requisites: MAT 251 and PHY 341. Prerequisites: PHY 211 and PHY 212. Offered Fall semester of even years.

**PHY 322** 

# 4 hours

Waves and Physical Optics Applications of Maxwell's equations, including electromagnetic waves, wave guides, diffraction, and Fourier optics. Three hours of lecture and three hours of lab per week. Prerequisites: PHY 211, PHY 212, and PHY 321. Offered Spring semester of odd years.

**PHY 330** Advanced Lab

# I-2 hours

Students complete an open-ended project, laboratory experiment or research project. The individual project depends on student and faculty interests. Specific learning outcomes vary depending on faculty, student and project selected. Prerequisites: ENP 252 or ENP 301 or PHY 311 and junior classification. Offered as needed for physics and engineering physics majors.

3 hours

#### **PHY 341**

# Math Methods in Physics and Engineering

An application of analytical and computational methods to various mathematical topics, including linear algebra, matrices, eigenequations, vector field theory, partial differential equations, Fourier series and transforms, orthogonal functions, and complex analysis. Use of a computer application such as  $\ensuremath{\mathsf{MATLAB}}$  is required. Prerequisite: PHY 212. Corequisite: MAT 251. Offered Spring semester.

3 hours

# PHY 342

#### **Analytical Mechanics**

A formal treatment of mechanics covering harmonic motion, the translation and rotation of rigid bodies, non-inertial reference frames, and gravitation. The course concludes with the Hamiltonian and Lagrangian formulations of mechanics. Prerequisites: PHY 211, PHY 212, and PHY 341. Offered Spring semester of even years.

#### **PHY 350**

#### 4 hours Thermodynamics and Statistical Mechanics

Develops thermal physics and statistical mechanics, with application to solid state physics. In the thermal physics portion of the course, the three laws of thermodynamics are developed and applied to problems. In the statistical mechanics portion, the development of the partition function is accomplished through the microcanonical formalism. The partition function is then applied to various problems, such as: Bose-Einstein and Fermi-Dirac statistics, Bose-Einstein condensation, blackbody radiation, and the behavior of electrons and phonons in solid materials. Prerequisite: PHY 341.

#### PHY 360

# Independent Study

An individualized, directed study involving a specified topic.

#### **PHY 370** Selected Topics

# I-4 hours A course offered on a subject of interest but not listed as a regular course offering. I-4 hours

I-4 hours

PHY 393

# Practicum

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

3 hours

#### PHY 412 **Quantum Mechanics**

A quantum mechanical treatment of the free particle, harmonic oscillator and hydrogen atom. Includes creation and annihilation operators and an introduction to angular momentum. Prerequisites: PHY 211, PHY 212, PHY 311 and PHY 341. Offered Spring semester of odd years.

#### PHY 413 **Ouantum Mechanics II**

An in-depth treatment of several advanced topics in guantum mechanics. Topics covered include spin, angular momentum, three-dimensional problems, matrix mechanics, the density matrix, and perturbation theory. Prerequisite: PHY 412. Offered Fall semester of odd years.

2 hours

# PHY 441

#### 3 hours Advanced Mathematical Methods in Physics

Application of analytical and computational methods to various advanced mathematical topics in physics, such as: group theory, complex analysis, partial differential equations, Green's functions, the Gamma function, Bessel functions, Legendre functions, and Fourier analysis. Prerequisite: PHY 341. Offered Fall semester of even years.

### PHY 450 Directed Research

### Investigative learning involving closely directed research and the use of such facilities as the library or laboratory.

I-4 hours

I-4 hours

#### **PHY 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion.

I-2 hours

#### PHY 490 Honors

#### Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

I hour

#### PHY 491

# Preparation for the Physics GRE

A review of topics covered in the undergraduate physics curriculum. The purpose of the course is to help students prepare for the GRE Subject Test in Physics. Topics reviewed include: Classical Mechanics (including the Lagrangian formalism), Modern Physics (including Quantum Mechanics and Special Relativity), Electricity and Magnetism, Optics, Thermodynamics, and Electronics. Prerequisite: junior or senior status.

3 hours

#### PHY 493 Physics Senior Capstone

A capstone course in which each senior's technical, analytical, and laboratory skills, along with coursework knowledge, are applied to an intensive physics or engineering project. Three weeks are devoted to the completion of the project, and the remainder of the term is spent off-campus, strengthening interpersonal relationships, integrating faith and learning, and examining topics critical to postbaccalaureate life. Prerequisite: Senior status.

# Notes

# **Psychology**

# Chair, Associate Professor D. Dungan Professor V. Maloney Associate Professor L. Gerig Assistant Professors L. McClelland, L. Edwards

Psychology involves the systematic study of human behavior and the mental and physiological processes that underlie it. Each course seeks to integrate psychological data with major biblical beliefs. The aim of the department is to train Christian psychology students who upon graduation are prepared for further academic studies or professional responsibilities.

The Bachelor of Arts degree requires proficiency of two years of one foreign language. The Bachelor of Science degree must be combined with curriculum requirements in systems analysis. Psychology may also be selected as a concentration in the Social Studies Education major; for detailed curriculum, refer to **History, Global, and Political Studies** section in this catalog.

# Pre-Art Therapy (BA or BS)

Pre-Art Therapy is an interdisciplinary major offered jointly by the Psychology Department and the Art, Film, and Media Department. For program details, refer to Art, Film, and Media section in this catalog.

# Psychology (BA)

The Bachelor of Arts degree with a major in Psychology requires two years of one foreign language and 43 major hours. All major courses must be completed with a grade of C- or better and are included in the major GPA.

# **Psychology Minor**

A minor in Psychology requires 18 hours. All minor courses must be completed with a grade of C- or better and are included in the minor GPA.

#### **Minor Requirements**

PSY 100 Introductory Psychology 3

#### Electives

Select an additional 15 hours\* of psychology electives.

\*Only one developmental class may be taken for the minor (PSY 240, 250, 340, or 350).

# **Psychology Courses**

# **PSY 100**

# Introductory Psychology

An introduction to the subject matter and methods of psychology. Topics on human development, personality, learning, sensation, perception, motivation, emotion, mental health and social psychology are considered. Meets foundational core general social science requirement.

3 hours

3 hours

#### **PSY 105**

Foundations and Applications of Psychology

An exploration of worldviews and philosophical views in psychology, current perspectives and ethical issues in psychology, and models of integration of psychology and Christianity. Self-reflection and development of a sense of calling/vocation in psychology are explored as the breadth and depth of the field are introduced. Does not meet a foundational core requirement. Prerequisite: PSY 100 or instructor's permission.

#### **PSY 125** 2 hours

# Intrapersonal Psychology

The study of how to process the emotional dynamics of anger, guilt, anxiety and grief while becoming mature, emotionally integrated social beings.

I-4 hours

# **PSY 170**

Selected Topics

# A course offered on a subject of interest but not listed as a regular course offering.

# **PSY 210**

**Ethics in Psychology** 

# 2 hours

A study of various models of ethics, with a desire to develop a Christian model. The Christian model is then applied to various issues in counseling, psychopathology, research, human development, law, and educational psychology. Prerequisite: PSY 100.

### **PSY 220** Sport Psychology

3 hours

This course investigates the interpersonal, societal, and cultural variables that surround athletics and sports in our contemporary culture. Topics include personality variables of the successful athlete; anxiety and arousal in sports, as well as strategies to assist in the control of these states; motivation; casual attributions for success and failure in athletes and coaches; the role of the direct and indirect contexts of sports and competition; and exercise psychology. Prerequisite: PSY 100.

#### PSY 240 Child Psychology

3 hours

This course deals with the subject matter of developmental psychology (cognitive, physical, and socio-emotional development) and also applies the subject matter to those actively working with children, including parents, teachers, coaches, etc. Meets foundational core general social science requirement.

# **PSY 250**

This course is designed to provide a general overview of the developmental process in humans from conception through death and dying. Included is attention to the physical, cognitive psychosocial and spiritual developments. Meets foundational core general social science requirement.

I hour

3 hours

# PSY 251

#### Life Span Development: Adolescence, Adulthood, and Aging

This course is designed to provide a general overview of the developmental processes in humans from adolescence through, adulthood, aging and the dying process. Included is attention to the physical, cognitive, psychosocial and spiritual developments. Intended for majors and non-majors (e.g., Social Work, Christian Ministries, Exercise Science) who have taken Child Psychology (PSY 240) or Child and Adolescent Psychology (PSY 350) but need a life span perspective as required by their program or as recommended for their future graduate school plans. The class meets with PSY 250 for the second half of the semester. Does not meet a foundational core requirement. Prerequisite: PSY 240 or PSY 350.

#### PSY 260 Applied Psychology

3 hours

An introduction to practical uses and applications of psychology. Topics cover a variety of fields of psychology (e.g., industrial/organizational psychology, educational psychology, clinical/counseling psychology) and applications within each field with different psychological degrees, developing a career identity that intersects with values and beliefs.

I-4 hours

# **PSY 270**

# Selected Topics

A course offered on a subject of interest but not listed as a regular course offering. 3 hours

# **PSY 272**

#### **Research Methods in Psychology**

Research methods in psychology are studied and critiqued. Students are involved in practical research and writing assignments. Prerequisite: PSY 100.

Life Span Development

# **PSY 275**

# 3 hours

Introductory Statistics

An introduction to descriptive and inferential statistics used in research. Students will be involved in the computation, application, and interpretation of various elementary statistics.

#### **PSY 280** 3 hours Introduction to Autism Spectrum Disorders

This course will help students develop an understanding of the social, behavioral, and developmental issues for individuals with ASD across the life span. After the course, students will know and understand the etiology, symptoms, and diagnostic criteria of Autism Spectrum Disorder.

# **PSY 281**

#### 3 hours **Applied Behavior Analysis and Autism Treatments**

The course focuses on understanding autism spectrum disorders through the life span. Diagnostic criteria, identification, assessment, and the variety of treatment and interventions used with individuals with autism spectrum disorders are reviewed.

**PSY 300** 

# 3 hours

Abnormal Psychology A study of the nature, causes, and treatment of maladaptive behavior, with special consideration given to the symptoms and dynamics of psychological disorders. Prerequisite: PSY 100 or instructor's permission.

#### **PSY 305** 3 hours

**Behavior Problems of Children and Adolescents** A study of major behavioral disorders, with emphasis on empirical research and clinical description, relative to etiology, assessment, prognosis, and treatment. Cultural influences on child and adolescent behavioral disorders will also be explored. Prerequisite: PSY 240 or PSY 250 or PSY 350.

### **PSY 313**

#### 3 hours **Statistics for Behavioral Sciences**

The major concepts covered in the class will be descriptive statistics, basic probability theory, and inferential statistics. Demonstrations of Microsoft Excel competency will be assigned for each segment of the class. This course is offered through Taylor University Online (TUO).

# PSY 317

# 3 hours

Psychology of Learning

In this course, students will become acquainted with the major theories of the psychology of learning, along with basic biblical principles about humanity. Through personal investigation, observation, and basic research, students will learn to recognize and apply the theories of psychology of learning to their own lives as well as in the lives of others. This course is offered through Taylor University Online (TUO).

**PSY 320** 

# 3 hours

**Multicultural Psychology** An introduction to the psychological development of differences in worldviews; cultural identity development; discrimination & racism; acculturation processes, and building multicultural skills and competence. The course provides students an opportunity to begin to build knowledge, skill, and awareness in serving, working, and/or being with individuals of different ethnic and cultural groups from a psychological and Christian worldview. The goal of this course is to facilitate selfreflection and self-growth among participants, preparing them to more critically, actively, and effectively participate in a diverse environment. Prerequisites: PSY 100 and PSY 272 or instructor's permission.

# **PSY 321**

Social Psychology A study of how the thought, feeling, or behavior of individuals is influenced by the actual, imagined, or implied presence of others. Topics include social perception, conformity prejudice, aggression, attitudes and their change, affiliation, and altruism.

3 hours

# **PSY 325**

I hour **Career and Vocational Issues Seminar** 

Prerequisites: PSY 100 and PSY 272 or instructor's permission.

## A career and vocational seminar with an emphasis on reading and discussion. Prerequisites: PSY 100 and PSY 272; junior standing required.

#### PSY 331 **Biblical Psychology**

# 3 hours

A survey of biblical teaching on the nature of the person, its relationship to emotional and behavioral problems, and solutions to those problems. 3 hours

# **PSY 340**

# Adolescent Psychology

This course deals with the problems of adolescent development and resulting issues, including peer pressure and conformity, adult-adolescent conflicts, cognitive changes, adjustments to physical changes, struggles with identity, etc. Contemporary issues, including drug and alcohol use, eating disorders, and teen sexuality are also discussed. The focus is on a practical application of research literature with an integration of biblical principles. Meets foundational core general social science requirement.

# PSY 341

# Neuroscience and the Soul

This course is a study of the human brain and the question of the existence of a soul or immaterial mind. Content to be studied will include areas of the brain related to this question of the existence of the soul. The course will study leading researchers in neuroscience as well as key experiments examining the issue. Parallel to this search on neuroscience, the class will also examine some philosophy, theology, and the biblical content in order to keep the larger question of the immortal soul in view.

#### PSY 345 Applied Research

This lab experience allows students to apply their research and statistical skills on meaningful service learning projects. Prerequisite: PSY 272; Prerequisite or Corequisite: PSY 275

3 hours

# **PSY 350**

3 hours Child and Adolescent Psychology

This course surveys the characteristics of growth and development of children through adolescence, including physical, psychological, social, cognitive, and emotional aspects. School-related contemporary issues such as child abuse, drug and alcohol use, peer pressure, and teenage sexuality are discussed. Meets foundational core general social science requirement.

# PSY 357

3 hours Peace, Reconciliation, and Justice

This course provides a basic introduction to the role of psychology in helping to establish peaceful societies around the world. It will seek to integrate a Christian worldview with current trends in peacemaking, including topics such as forgiveness, reconciliation, and social justice. Attention will be given to ethnopolitical conflicts from a multi-disciplinary perspective. Prerequisites: PSY 100 and PSY 272 or instructor's bermission

I-4 hours

# **PSY 360**

Independent Study

An individualized, directed study involving a specified topic.

### **PSY 370** Selected Topics

I-4 hours A course offered on a subject of interest but not listed as a regular course offering. 3 hours

# **PSY 375**

Loss and Bereavement

This course examines the journey through loss and grief and includes not only death-related bereavement but also psychological, physical, developmental, and situational losses that occur throughout the life. While the course is designed with a systemic perspective, a more general grieving paradigm is also presented through current theories and research. Students have the opportunity to practice helpful responses to loss and learn how to facilitate healthy adaptation to change. The role of culture in the experience of loss and grief is explored. Prerequisite: PSY 100 or instructor's bermission.

#### PSY 380

Ethical and Professional Issues in Autism Intervention Seminar

This course covers specific issues related to work in autism related fields. Students are exposed to legislation, rights, and ethical issues related to working with individuals with autism across the life span. At the completion of the course, all students must pass the RBT exam to be certified as a Registered Behavior Technician. Prerequisites: PSY 280 and PSY 281.

3 hours

3 hours

# **PSY 381**

# Single Subject Research and Behavioral Assessment

This course will introduce students to methods of conducting single subject designs for behavioral intervention. Students will also learn the salient features of common single subject designs as well as the advantages and disadvantages of these methodologies. Students will learn to visually inspect data and make treatment decisions regarding intervention effectiveness. Additionally, students will learn how to review published research based on single subject methods and will have opportunities to explore how these methods can be used to answer applied and basic science research questions and how results inform therapeutic intervention choices.

# PSY 382

Sensation and Perception Examination of how observers perceive their environment through sensory information; emphasis on major sensory systems including vision, audition, spatial orientation, touch, taste, and olfaction. In addition, the integration of these sensory systems and subjective experience will be explored.

3 hours

3 hours

#### PSY 390 Christian Marriage

A practical and applied course that integrates psychological literature and biblical teaching in the subject areas of the marriage relationship. These areas include marriage foundations, dating and engagement, premarital sexual behavior, singleness, mate selection, marriage success and satisfaction, love and infatuation, marriage roles, communication and conflict and divorce.

# 3 hours

#### **PSY 393** Practicum

# I-4 hours

Supervised learning involving a first-hand field experience or a project. Generally, one hour of credit is awarded for a minimum of 40 hours of practicum experience. Offered primarily during Summer.

3 hours

**PSY 395** Health Psychology

This course provides an overview of the research and practice of psychology as applied to health and health systems. Topics include the biopsychosocial model. personality and psychological issues related to health behaviors, stress and coping, patient-provider relationships, use of health services, pain management, chronic illness, advancing and terminal illness, heart disease, hypertension, stroke, diabetes, psychoneuroimmunology, aids, cancer and arthritis. Students also explore psychological issues related to personal health behavior change.

**PSY 400** 

# **Theories of Personality**

A study of the major current systematic psychological theories of personality. Consideration is given to their underlying assumptions and usefulness for research and therapeutic practice. Prerequisites: PSY 100 and three additional hours in psychology or social work.

3 hours

# **PSY 410**

#### Motivation

3 hours

This course is designed to provide a theoretical, Christian, practical understanding of motivation. Motivation is addressed by looking at its historical development and models of volition, affection, intellect, and biology. Prerequisites: PSY 100 and six additional hours in psychology or instructor's permission.

#### **PSY 411** 3 hours

Learning: Theory and Application The study of major learning theories and their application to advertising, education,

counseling, and daily problems of life. Prerequisite: PSY 100.

**PSY 420** Cognition

The scientific study of the cognitive functions of memory, attention, perception, learning styles, imagery, decision making, problem solving, and metacognition, with application for implementing this information. Prerequisites: PSY 100 and six additional hours in psychology.

3 hours

3 hours

### **PSY 422**

# **Psychological Testing**

A study of the principles of psychological testing, considering both the theoretical and practical foundations underlying the construction, use, and interpretation of various psychometric instruments. The student is given opportunity to administer, score, and interpret selected instruments. Prerequisites: PSY 100 and PSY 275.

3 hours

# **PSY 425**

#### Industrial-Organizational Psychology

This course is designed to provide an introduction to applying psychological principles, theory, and research to the work environment. Topics include hiring, job fit, performance, assessment, training, motivation, stress, leadership, teams, and interpersonal relationships. Students will complete an applied project examining and evaluating the hiring process and performance evaluation of an organizational job. Prerequisite: PSY 100 or instructor's permission.

#### PSY 435 3 hours Applied Advanced Psychological Statistics

The course provides students with knowledge of statistical methods, how to effectively use them in real world settings doing meaningful projects and when to use the methods based on the data and research design that is utilized. The SPSS statistical package is integrated into the structure of the course content that includes Repeating Measures ANOVA; multiple comparison tests; Two-Way and Three-Way ANOVA Independent groups; One-Way and Two-Way ANCOVA; Simple and Multiple Regression; One-Way, Two-Way, and Mixed factors MANOVA; Point Biserial Correlation; statistics for validity and reliability; Path Analysis; and effect sizes that these statistics tests. Prerequisite: PSY 275.

#### **PSY 441**

# Physiological Psychology

A study of the neurophysiology underlying human behavior. Emphasis is given to central nervous system mechanisms that mediate sensation, consciousness, learning, motivation, and emotional behavior.

I-4 hours

3 hours

#### PSY 450 **Directed Research**

Investigative learning involving closely directed research and the use of such facilities as the library or laboratory. Prerequisites: PSY 100 and PSY 272.

3 hours

#### PSY 461 Fundamentals of Counseling

An analysis of the major theories and approaches to counseling, correlating them with counterpart theories of personality and learning. Each major theory is dealt with in the light of biblical revelation. As a result, the student is encouraged to formulate a tentative theory of counseling consistent with biblical truth. Prerequisites: PSY 100 or instructor's permission.

#### PSY 462 Counseling Skills

This course introduces and provides foundational communication and interpersonal counseling skills from therapeutic listening and empathy to interviewing skills. It is experiential and aimed at helping students develop a foundation of strong, effective therapeutic people helping skills.

3 hours

3 hours

#### **PSY 480** Seminar

A limited-enrollment course designed especially for upper-class majors with emphasis on directed readings and discussion. The content of the readings and discussions will focus on integrative material in the discipline, as well as contemporary issues confronting not only professional psychologists, but lay persons as well. Offered January interterm.

#### **PSY 490** Honors

Individualized study or research of an advanced topic within a student's major. Open to students with at least a 3.00 GPA in the major field.

I-2 hours

#### PSY 495

#### 3 hours Integration of Psychology and Christianity

An examination of the relationship between psychology and Christian beliefs about human nature. Topics involve the presuppositions of modern psychology, the Christian view of the person, and tension areas between psychology and theology. Prerequisites: PSY 100 and completion of 38 total hours in the major.

# Notes

# **Application Process**

The application process at Taylor University is more than paperwork. Through this process, students are invited to join Taylor's intentional Christ-centered community, developing minds for relentless discovery and a vision for engaging the world.

# **Application Procedures and Review**

Students may apply to Taylor University any time after the completion of their junior year of high school, but should apply early in the academic year preceding their desired enrollment. Students may apply online at <a href="https://www.taylor.edu/admissions/how-to-apply/">https://www.taylor.edu/admissions/how-to-apply/</a>. Application materials may be requested by phone, via email at admissions\_u@taylor.edu, or by writing the Office of Admissions, Taylor University, 236 West Reade Avenue, Upland, IN 46989.

The application review is intended to evaluate the whole person in the process. We look to see first and foremost if a student has articulated having a personal relationship with Jesus Christ. We assess high school academic information to ensure a student is not being set up to fail in this rigorous collegiate academic environment. Each component of the application file is thoroughly reviewed by the admissions office prior to offer of enrollment.

# Application Procedures and Review for Taylor University Online Students

Students are encouraged to apply as early as possible before the term of desired enrollment. To apply for admission into a degree program, complete the online application located here: <a href="https://www.taylor.edu/online/programs-licensures/online-associates-degree-application">https://www.taylor.edu/online/programs-licensures/online-associates-degree-application</a>. In addition to the application, applicants must also provide a personal recommendation, official (sealed) transcript(s) from high school and any college attended, and an application fee of \$40 to Taylor University Online. Submission of official ACT, CLT, or SAT scores is recommended but not required. Applications will not be reviewed until all materials are submitted. Students should be notified of a decision within one week of TUO receiving all required items.

The application review is intended to evaluate the whole person in the process. Applications are assessed to determine if the student has articulated having a personal relationship with Jesus Christ and if the student's academic history indicates probable success in collegiate online courses. Each component of that application file is thoroughly reviewed. TU Online programs are specifically designed for motivated, self-directed learners who desire to maximize their learning experience through a unique, flexible, and learner-empowered educational process. Qualified applicants possess:

- Motivation to work toward the completion of a program with TUO
- Ability to successfully engage in college-level coursework as demonstrated by transcripted credits from previously attended colleges or related experiences
- Ability to become a self-directed learner
- · Computer capabilities for involvement in electronic communication with other learners, faculty, and staff
- Clear sense of educational direction

Upon acceptance into a program, a student will work with an assigned advisor to determine a course schedule and to register for classes.

# **Readmission and Guest Applications**

Applications for readmission to Taylor University, or for those who wish to be a guest student (including high school/credits-in-escrow) can be found at <a href="https://taylor.edu/admissions/how-to-apply/">https://taylor.edu/admissions/how-to-apply/</a> at the very bottom of the page. Taylor University Online students should contact TUO for details on applying for readmission or admission as a guest student.

# Secondary School Preparation

Applicants to Taylor University should graduate from an accredited secondary school. Test scores are recommended but not required for application review. Applicants should pursue a challenging college preparatory course load, including four years of English, a minimum of three years of math, a minimum of three years of laboratory science, and two years of social science. Two years of a foreign language are recommended.

Required credentials include the application form, a personal statement of faith, official high school transcript (GED may also be accepted), and a Christian character reference. Official test scores (ACT, SAT, or CLT) are recommended but not required. For test scores to be considered official, they must be sent to the Admissions Office either included on a high school transcript or directly from the College Entrance Examination Board, the American College Testing Service, or the Classical Learning Test.

An official campus visit and personal interview are essential components of the decision making process.

# **Decisions and Notification**

The Admissions Office works to evaluate an application and send decision notification to a student within a month of receiving a completed application file. Based on the evaluation of the application, a student will receive one of three types of notifications:

Standard Notification of Acceptance offered to those found to be a good fit for the institution.

Provisional Acceptance for those who may be a good fit for the institution yet need some support to help ensure academic success.

Denial of Admission is possible if a student's success at Taylor is in question.

Details regarding decision making and notification may be obtained from the Executive Director of Admissions.

# **Provisional Acceptance**

This admissions classification is for applicants who, because of unusual circumstances, do not meet the minimum academic standards for regular admission. Students admitted under this classification must earn a minimum GPA of 1.70 during the first year as a full-time student in order to remain at Taylor. Students accepted under this classification are given a prescribed schedule (less than 15 hours) and are assigned an advisor from the Academic Enrichment Center. Please contact the Admissions Office for additional information.

# Matriculation Deposit

Matriculation deposits are required for the following terms:

• Fall

All applicants accepted for the Fall semester are required to submit a \$200 matriculation deposit (\$150 toward tuition and \$50 housing deposit) that secures the student's place in the student body and begins the housing process. Students not living in university housing must submit a \$150 matriculation deposit. All new students are required to live on campus unless they are commuting from their parents' home. The matriculation deposit deadline for Fall admission is May 1. A new or readmitted student who cancels prior to May 1 will receive a full refund.

# Spring

Students applying for the Spring semester may pay their \$200 matriculation deposit any time after they have been accepted. A new or readmitted student who cancels prior to November I will receive a full refund.

# Summer

Students enrolling for Summer term may pay their matriculation deposit of \$20 upon notification of acceptance. A new or readmitted student who cancels prior to the first day of classes will receive a full refund.

All refund requests must be submitted in writing.

# International Students

International students desiring admission should provide the following for consideration:

- TOEFL iBT score of at least 80 or a 6.5 band score on the IELTS. Scores must not be more than two years old. When registering, students should indicate code 1802 to have the scores sent directly to Taylor. The TOEFL may be waived if the student has a good academic record of study in an English medium high-school or college within the last two years.
- Certificate showing completion of secondary school, including the results of any examinations. Official English translations of the certificates are required.
- ACT, CLT, or SAT scores. These scores are recommended for students who wish to be considered for merit scholarships. They are also used to determine proficiency requirements in math, reading, and writing.

An application will not be evaluated until the student submits a completed application (including essays), completed recommendation forms, official academic records and test scores, TOEFL scores, an affidavit of support, and a signed Life Together Covenant.

International students have to show evidence of financial support before full acceptance can be granted. The Form I-20 will not be issued until documentation showing sources of financial support is submitted. International students may work on campus part time during the academic year; however, the income generated will not be sufficient to cover education costs.

# Transfer Students

Transfer students must submit the transfer application form, a high school transcript, a Christian character recommendation, and an official transcript from each institution previously attended. Generally, a B- average is required. ACT, CLT, or SAT scores are recommended but not required.

For information regarding the transfer of credit to Taylor University, refer to Transfer Credit Policy in the Academic Policies and Regulations section of this catalog.

# Advanced Placement and Credit by Examination

For information, refer to Advanced Placement and Credit by Examination in the Academic Policies and Regulations section of this catalog.

# **Guest Status**

Guest students may earn no more than 24 credit hours with this status. Transfer credit is not accepted while the student holds guest status. Students who wish to apply credits toward a degree must apply for regular admission to Taylor University. Students are considered guests when they are not seeking a degree from Taylor University and fall into one of the following categories:

- Students who desire to take courses at Taylor for the specific purpose of transferring the credit earned to another institution.
- Students who attend one of the Christian College Consortium schools and desire to complement their preparation with coursework at Taylor.
- Individuals who wish to take courses solely for the purpose of self-improvement.
- Students who are pursuing a non-degree certificate
- High school students who wish to take college courses (See Honor Societies and Pre-College Credit section of this catalog).

# Credits-in-Escrow/High School Students

For information, refer to Honor Societies and Pre-College Credit section of this catalog.

The University recognizes and accepts the educational, social, and promotional impact the athletic program has on the institution and its constituency. Athletics is an integral part of the "whole person" education at Taylor University. The athletic program complements the institution in its mission "to develop servant leaders marked with a passion to minister Christ's redemptive love and truth to a world in need."

The total development of the student athlete is paramount in the organization and implementation of the athletic program. Participation in intercollegiate athletics provides an arena whereby the student athlete may be developed, tested, and encouraged to achieve maximum physical, emotional, intellectual, and spiritual potential. The goal, through competition, is to assist and support student athletes in their understanding of a Christian response to a fundamental human experience.

The Taylor University philosophy of athletics is framed within the following understandings:

- The athletic department is staffed by those who articulate and evidence a life committed to Jesus Christ. Further, they regard their profession, whether
  in or out of the classroom, as an opportunity to educate, mentor, and model the core values of what it means to be a man or woman of God.
  Commitment to Jesus Christ signifies a lifestyle and coaching style that calls for a standard of competitive excellence (Col. 3:23). It is intended that all
  coaches hold faculty rank and that all coaches function as educators.
- 2. Taylor University has a rich heritage of utilizing athletics as a means of Christian outreach and service. It is our intent to reaffirm, build upon, and create opportunities for Christian witness and discipleship through a successful intercollegiate athletic program.
- 3. The intellectual, spiritual, emotional, physical, and social well-being and development of our student athletes is paramount in our dealings with student athletes. Athletic participation is a platform not only for complementing our liberal arts and foundational core programs, but also for assuring that the core values (Biblically Anchored, Christ Centered, Faith Learning Integrated, Liberal Arts Grounded, World Engaging, Whole Person Focused, and Servant Leader Motivated) of the University are being developed.
- 4. A successful intercollegiate athletic program creates a strong sense of community spirit. Athletics significantly contributes to a positive campus ethos and to constituent goodwill. The University as a whole benefits by giving visibility to both the athletic programs and to the athletes involved in these programs. We endeavor to make our programs an enduring source of pride for the university, participants, alumni, and the greater Taylor community.
- 5. The development of student leadership has long been a hallmark of Taylor University objectives and Student Development. The dynamics of intercollegiate competition, coupled with mentoring by Christian coaches, represents the potential for a rich environment of leadership development that is personalized and tested.

# Intercollegiate Sports

Intercollegiate sports for men include baseball, basketball, cross-country, football, golf, lacrosse, soccer, and track and field; women compete in basketball, competitive cheer, cross-country, golf, soccer, softball, track and field, and volleyball. Taylor Athletics sponsors a pom squad that performs at various events.

# National/Conference Affiliations

Taylor holds membership in the National Association of Intercollegiate Athletics (NAIA). The men and women compete in the Crossroads League. The Crossroads League consists of Bethel University, Goshen College, Grace College, Huntington University, Indiana Wesleyan University, Marian University, Mount Vernon Nazarene University, Spring Arbor University, Taylor University, and University of Saint Francis (IN). Lacrosse competes in the Wolverine-Hoosier Athletic Conference (WHAC) against Aquinas College, Cleary University, Concordia University, Cornerstone University, Indiana Tech, Lawrence Tech, Lourdes University, Madonna University, University of Michigan—Dearborn, University of Northwestern Ohio, Rochester University, and Siena Heights University. Football competes in the Mid-States Football Association (MSFA); the Mideast League includes Concordia University, Indiana Wesleyan University, Indiana University, Marian University, Siena Heights University, Taylor University, and University, Indiana Wesleyan University, Indiana Wesleyan University, Indiana Tech, Lawrence Tech, Madonna University, University of Michigan—Dearborn, University of Northwestern Ohio, Rochester University, Indiana Wesleyan University, Lawrence Tech, Madonna University, Marian University, Siena Heights University, Taylor University, and University, Indiana Wesleyan University, Indiana University, Marian University, Olivet Nazarene University, Roosevelt University, St. Ambrose University, St. Xavier University, Trinity International University, and University of Saint Francis (IL).

# Finance

We know the sacrifices made by each family are significant in obtaining a Taylor University education. We would like you to know that the charges billed cover approximately 90% of our costs for delivering a Taylor education. Alumni, friends, parents, and others provide the remaining 10% of our costs through gifts and other sources of revenue. We thank God for each student and the support of others as we prepare students to minister the redemptive love and truth of Christ to a world in need.

The University reserves the right to increase rates if and when necessary.

### Annual Costs

Refer to the Taylor University Tuition and Fee Schedule for the current costs for an academic year. This publication is available from the Office of Student Accounts.

# **Advance Payment**

All returning students are requested to pay an advance payment of \$100 to secure their enrollment for the Fall semester. Advance payment is due by June I. If no outstanding balance is due to the University, a refund of the \$100 advance payment will be provided if canceled by July 30.

### Advanced Placement (AP) Credit

A \$20 posting fee is assessed for each hour of AP credit awarded and posted to the Taylor transcript.

# **College Level Examination Program (CLEP)**

An examination fee of \$89 (subject to change by College Board) is charged for each test administered, plus a \$15 administration fee. A \$20 additional fee exists for each hour of CLEP college credit awarded and posted to the Taylor transcript.

# Change of Registration

A refund of charges will be given to students dropping from full-time to part-time status, or lowering their part-time hours, by the last date to drop a class without a transcript entry ("drop/add" period) for the Fall and Spring semesters. There is no reduction to the tuition charge for dropped hours after this drop/add period. Course fees are refundable only during the drop/add period. Off-campus program tuition and fees are refundable only in accordance with each program's specific refund policy.

# **Emergency Funds**

The Taylor Parents Association raises financial resources each year to be allocated for student emergencies. Medical costs not covered by insurance and emergency travel in case of death or severe sickness of immediate family are two of the most frequent reasons for allocations of this fund. Other emergency costs may be considered. Contact the Dean of Students for more information.

# **Other Charges**

Certain classes may require the student to purchase materials for specific projects or may require a basic materials charge. These costs vary by course and are charged equally to each student enrolled in the course. Certain other charges are assessed for courses requiring private or special instruction and for administrative costs for special services and transportation.

# **Payment of Bills**

The billing statement access information is emailed on or about the last day of each month to the student's TU email address, with payment due the 20th of the month. The initial billing statement for the Fall semester is available in late July and is due in full by August 20 unless enrolled in a payment plan. Note: Taylor University Online students will have bills for Fall semester sent around September 1 with a due date of September 20.

The January interterm and Spring billing statement is available in late December and is due in full by January 20 unless enrolled in a payment plan. Historically, January interterm charges have been billed with spring semester.

Statements are issued each month for students who owe a balance or have had transactions to their account during that billing cycle. Any new charges that may occur are due the 20th of the month in which they are billed. Full account information is available through the portal and includes unbilled activity as well as statements. Payment can be submitted online through this secure site. There is no fee to pay with electronic check. Payment by credit card (American Express, Discover, MasterCard, or VISA) will incur a convenience fee. If parental access is necessary, it is the student's responsibility to provide access to their account information, and the student may do so by authorizing their parent on the billing site.

Taylor University uses the @TAYLOR.EDU student email address to communicate, and students are responsible to check their Taylor email account regularly as they miss important information if they do not do so. Students can set up their preferred address for online billing and also authorize additional (e.g., parent) e-billing addresses by completing the authorization that can be accessed through their online account.

There are two payment options available:

- Payment in full by the due date of August 20 for Fall semester and January 20 for Spring semester. Payment for incremental additional charges that
  may occur are due by the 20th of the month for which charges are billed. Note: Taylor University Online students have a payment due date of September
  20 for Fall semester and January 20 for Spring semester.
- Enroll in a Taylor University monthly payment plan to split the semester payment into equal monthly payments. The only cost to enroll is \$30 per semester and several options are available ranging from 6 to 2 payments per semester. Enrollment is at the online student account site. Note: Taylor University Online students are not eligible for this payment plan.

Taylor charges a monthly penalty on late payments based on the following policy: Any account balance not paid by the due date when first billed, or deferred pursuant to one of the payment options described above, will be subject to a monthly late fee equal to the greater of \$5 or interest accrued at 1.08% (annual percentage rate of 13 percent).

A student's account must be current to avoid a hold on registration, and a student's account must be paid in full for release of transcripts or diploma. Additional information may be found in the Tuition and Fees Schedule available in the Office of Student Accounts.

# Payment of Bills for TU Online Guest and Out-of-Term Students

Once a guest student has completed the online application found on the website, the student will be emailed an e-store link, which will be used to accept payment information. Out-of-term campus students will be emailed the e-store link, without needing to complete the application. Tuition must be paid in full before being registered for a course. Accepted forms of payment include check, Discover, MasterCard and Visa.

# **Refund Schedule (Fall and Spring Semesters)**

This refund schedule applies only to students with full withdrawal from the University. Students who withdraw from a course or courses but remain enrolled at the University do not receive any adjustment to their charges. Drops/Adds prior to the end of the first week of a semester (resulting in no transcript entry) could result in tuition changes.

Withdrawals to the end of:	Tuition	Room	Board
First Week*	90%	Prorated	Prorated
Second Week	90%	Prorated	Prorated
Third Week	75%	Prorated	Prorated
Fourth Week	60%	Prorated	Prorated
Fifth Week	45%	Prorated	Prorated
Sixth Week	20%	Prorated	Prorated
Seventh Week to end of semester	0%	Prorated	Prorated

\*First five class days of the Fall/Spring terms.

# Refund Schedule for TU Online Guest and Out-of-Term Students

Taylor University Online students registered within a term should refer to the refund schedule listed above or contact their advisor for withdrawing from a single course.

This refund schedule and transcript ramifications for guest and out-of-term program students who withdraw from a course are as follows:

Withdrawal requested	Tuition	Grade
Day I-7	100%	n/a
Day 8-28	75%	W
Prior to Original Completion Date	0%	W
Prior to Extended Completion Date	0%	WF

A course dropped during the first 7 days of registration does not appear on the transcript. Another course may be added during the first 7 days and the student will pay or be refunded any disparity in tuition between the 2 courses.

To request to be withdrawn, contact TU Online at online@taylor.edu or call I-800-845-3149. The date the request is submitted will be honored as the withdrawal date.

# University Withdrawal Procedures

The withdrawal process is initiated by contacting the Coordinator Academic Success in the Academic Enrichment Center. Note: Taylor University Online students should contact the TUO office for initiating full withdrawal.

If a student completely withdraws from all courses in a semester, refunds of student charges for tuition, room, and board are based on the refund schedule. Mandatory student fees and course fees are nonrefundable. No refund of tuition will be given for withdrawal after the end of the sixth week.

Refund of charges are based on the total term bill and on the date the official withdrawal form is completed. The matriculation and housing deposits are forfeited for students who complete registration but must withdraw before May I. Any deviations from the refund policy are at the discretion of the Accounts Receivable Manager, Dean, and Vice President for Student Development.

If a student is receiving financial aid, funds will be returned to the aid source(s) according to the Taylor University Return of Financial Aid Funds policy available online at https://www.taylor.edu/docs/tuition-financial-aid/return-of-funds-policy.pdf.

# **VA Benefits**

Taylor University will accept tuition payments from the Department of Veterans Affairs. Any eligible student will need to apply and be approved for VA Education and Training Benefits by following the instructions found at <a href="https://benefits.va.gov/gibill/">https://benefits.va.gov/gibill/</a>. Upon approval, the student should receive a Certificate of Eligibility, which formally confirms the VA benefits program under which the student may receive payment and how many months of benefits the student is entitled to receive. The Office of the Registrar will need a copy of the Certificate of Eligibility to create a VA benefits file for the student and to report him or her as a Taylor University student. A copy of the Certificate of Eligibility may be emailed to registrar@taylor.edu.

Veterans, reserves, and active duty military enrolling in Taylor University Online courses are eligible for a discounted tuition rate for most TUO courses.

The following information regarding financial aid is accurate at the time of the catalog printing, but is subject to change due to changing federal and state regulations and institutional policies and budgetary constraints. For the most current information, please refer to the financial aid section of our website at <a href="https://www.taylor.edu/admissions/tuition-and-funding/">https://www.taylor.edu/admissions/tuition-and-funding/</a> or contact the Financial Aid Office.

The financial aid programs at Taylor recognize that it is the basic responsibility of students and their families to finance a college education. However, the rising cost of education has made it necessary for many students to enlist financial assistance outside their personal resources. Financial aid can help many qualified students attend Taylor regardless of financial circumstances.

The financial aid programs offer assistance to students in need in the form of scholarships, grants, loans, and employment. Financial aid is awarded primarily on the basis of financial need, except in the case of merit scholarships that require superior academic achievement and ability. If the student's aid package is based on financial need, the total aid package (including merit and outside scholarships) cannot exceed the student's financial need.

Financial need is defined as the difference between a family's resources and the total cost of attending college. If a difference exists between the total cost of attending Taylor (including all tuition, fees, room, board, books, supplies, and personal expenses) and the ability of the family to meet these educational costs, the student is determined to have financial need. An evaluation of financial need includes consideration of the parents' and student's income and assets, household size, and number of household members in college.

To determine the extent of the student's financial need and the family's ability to pay for educational expenses, Taylor uses the Free Application for Federal Student Aid (FAFSA). An analysis of this data determines the student's eligibility for need-based grants, loans, and work study.

Students enrolled in Taylor University's established off-campus programs will receive financial aid as though they were on campus. Students may only receive institutional financial aid for their first off-campus program. Federal financial aid is available for additional study abroad programs. No financial aid (federal or institutional) will be awarded to students attending off-campus programs not offered through Taylor University.

Students who plan to enroll on a part-time basis should consult the director of financial aid about the availability of financial aid programs. It should be noted that many aid programs require that a student be enrolled full time (a minimum of 12 credit hours per semester).

To continue to receive need-based financial aid, a student cannot be on extended academic probation and must meet the criteria established in the Taylor University Satisfactory Academic Progress Policy. Visit <u>https://www.taylor.edu/tuition-and-funding/additional-resources</u> for a copy of this policy online. Satisfactory academic progress for financial aid applicants/recipients shall be measured both qualitatively and quantitatively. In order to maintain eligibility to receive financial aid, a student must successfully complete at least 50% of the credit hours attempted in a given term and 80% of the overall credit hours attempted. The student must also complete his/her undergraduate degree within 160 credit hours attempted (80 credit hours for associate degree), including transfer hours, AP and CLEP credit, and any other credits listed on the academic transcript.

Any Taylor University Online student wishing to be considered for financial aid must be registered within a specific term, including specific due dates for assignments.

# How to Apply for Financial Aid

Students should begin the application process for financial aid as soon as possible after October I. Those only interested in merit-based programs need not submit any financial aid forms. The Financial Aid Office automatically awards merit-based scholarships after receiving the student's SAT/ACT/CLT scores and high school GPA information from the Admissions Office.

# In order to receive timely consideration in the awarding of financial aid, students must: (1) submit the indicated forms; (2) respond promptly to requests for additional information, documentation, etc.; and (3) comply with the following directives:

- Be accepted for admission to Taylor University. Students may apply for financial aid prior to their acceptance at Taylor, but financial aid will not be awarded until acceptance is finalized. Please note that transfer students must indicate Taylor University as a recipient of their Free Application for Federal Student Aid (FAFSA) information and have their financial aid forms received by the federal processor by April 15.
- Complete the FAFSA online at <a href="https://studentaid.gov">https://studentaid.gov</a> as soon as possible after October 1. The federal processor must receive the FAFSA by April 15, in order to be considered for need-based institutional aid. Students whose forms are received after this date will only be eligible for the Federal Stafford Loan, Federal Pell Grant, Federal PLUS funds, and non-need merit-based aid. Please also consider the following:
  - 1. The release of information to Taylor University should be clearly requested on the FAFSA (code # 001838).
  - 2. Additional forms may be required in order to receive state aid from Vermont or Rhode Island. Students should check with their high school guidance officer regarding which forms are required by their state.
  - 3. In order for Indiana residents to be considered for state aid, the FAFSA must be received by April 15. No other form is required.

# Merit-Based Awards

Merit-based awards are presented to students who demonstrate outstanding scholarship. Financial need is not considered for this type of aid. The President Scholarship, Dean Scholarship, Faculty Scholarship, Trustee Scholarship, Academic Merit Award, and Class Merit Award are awarded to all students entering Taylor during the 2021-2022 academic year who meet the specified criteria. A student can only receive one academic scholarship from Taylor. Scholarships are renewable each year with a minimum 2.95 GPA at Taylor. Scholarships are awarded for a maximum of 8 semesters.

Academic Merit Awards are given to all National Merit Finalists. The amount is \$16,000. The Academic Merit Award is given in place of other Taylor academic scholarships.

Students qualifying for a President, Dean, Faculty, or Trustee Scholarship are determined based upon each student's high school grade point average (GPA) and as well as the ACT (English, Math, Reading, Science) average score, SAT (Reading and Math) combined score or CLT score. Test scores are super scored, meaning the highest subset scores are added together from multiple test dates to determine a student's academic scholarship. In order to be eligible for one of these scholarships, a student must have a minimum high school GPA of 2.90 as well as a minimum ACT (English, Math, Reading, Science) average score of 18. SAT (Reading and Math) combined score of 980, or CLT score of 63. Eligible students can estimate their award by using the charts below. Students may add together scholarship points awarded for high school GPA and scholarship points awarded for ACT, SAT, or CLT scores to estimate their scholarship.

H.S. GPA (minimum)	Scholarship Points	ACT <sup>†</sup> / SAT <sup>‡</sup> / CLT scores (minimum)
4.00	10	32 / 1430 / 98
3.93	9	31 / 1390 / 94
3.88	8	29 / 1330 / 89
3.83	7	28 / 1300 / 86
3.78	6	27 / 1280 / 85
3.70	5	25 / 1200 / 78
3.60	4	24 / 1160 / 76
3.40	3	22 / 1110 / 73
3.20	2	21 / 1070 / 69
3.00	1	19 / 1000 / 65

Scholarship Points	Scholarship	Scholarship Amount
18-20	President	\$16,000
14-17	Dean	\$14,000
10-13	Faculty	\$12,000
4-9	Trustee	\$10,000

<sup>†</sup>ACT scores are calculated by averaging the highest English, Math, Reading, and Science scores (may be from separate test dates).

<sup>±</sup>SAT scores are calculated by adding the highest Reading and Math section scores (may be from separate test dates).

Note: These charts are provided as a guide only and actual eligibility is determined by the Financial Aid office at Taylor University.

Class Merit Awards are given to the top students, by GPA, in each of the sophomore, junior, and senior classes who are not already receiving an academic scholarship from Taylor. Awards range from \$4,000 to \$8,000.

# Merit-Based Award for Taylor University Online Students

Merit-based awards are presented to students who demonstrate outstanding scholarship. Financial need is not considered for this type of aid, and the completion of the FAFSA is not required to qualify. Taylor employees and dependents are not eligible for this scholarship. This scholarship is available to TUO students beginning with their second term through the completion of their degree. The scholarship will be based on the student's GPA from the first semester with Taylor University Online and is renewable each year provided the student maintains a minimum 3.50 cumulative GPA. The scholarship amount is based on the number of credit hours for which a student is registered in the term the scholarship will be applied.

<ul><li>To be eligible for this scholarship, the student must meet the following criteria:</li><li>Registered for at least six credit hours the following term.</li></ul>	Registered Credits	Scholarship Amount
<ul> <li>Maintain a cumulative 3.50 GPA or above.</li> <li>Registered for at least six credit hours in the previous semester.</li> <li>Note: If the student takes one or more semesters off, the student will not be eligible for the scholarship the semester he or she returns.</li> </ul>	6-8	\$250
	9-11	\$375
	12+	\$500

# **Need-Based Awards**

The FAFSA determines need-based awards, which include need-based grants, loans, and work-study eligibility. The total aid package may not exceed the student's financial need as determined by the FAFSA.

- The only criterion for the Taylor Fund Grant is financial need. The amount will vary from year to year based on financial need as determined by the FAFSA.
- The maximum amount for the Taylor University Loan is \$1,500 per year according to financial need; repayment with a 7 percent interest rate begins six months after the student leaves school. This long-term, low-interest loan program is designed to assist students who demonstrate financial need as determined by the FAFSA. Repayment and interest on this loan begin after a student ceases to be enrolled on at least a half-time basis.
- To qualify for student employment, a student generally must demonstrate financial need. Exceptions include personnel assistants in residence halls or students who possess required skills, such as computer knowledge.

# Other Available Awards

Students may be eligible for other types of awards besides the merit-based and need-based scholarships:

- The Community Scholarship, for up to \$3,000, is awarded yearly to select incoming freshmen. Accepted students who have interviewed and completed an application for admission by December I are considered. Interested students must complete a scholarship application by January I and return to campus for additional scholarship interviews. This scholarship is awarded for a maximum of eight semesters provided the student is enrolled full-time, lives in university-owned housing, and maintains good academic and citizenship standing.
- The Church Matching Grant enables Taylor University to match 100 percent of a church's gift to a student, with Taylor's maximum match totaling \$2,000 (a maximum of \$100 per semester for TU Online students). A pledge form must be received by or submitted online to the Financial Aid Office by April 15, and the church gift must be received by July 1.
- Athletic Scholarships are awarded by the coaches to students who demonstrate exceptional ability in athletics.
- Music Scholarships are awarded to students majoring in music who display special talent with musical instruments or voice and who show promise of superior accomplishments in this field. Students interested in applying should contact the chair of the music department.

# **Federal Aid**

Anyone may apply for federal aid by completing the Free Application for Federal Student Aid (FAFSA).

### Grants

Anyone may apply for the following grants by completing the Free Application for Federal Student Aid (FAFSA):

- The Federal Pell Grant is based on financial need as determined by the FAFSA. It offers a maximum of \$6,495 per year (amount subject to change on a yearly basis).
- The Federal Supplemental Educational Opportunity Grant is based on financial need as determined by the FAFSA. It replaces the Taylor Fund Grant. The usual amount awarded is \$2,000 per year with a maximum of \$4,000 per year.

# Loans

Anyone may apply for the following loans by completing the appropriate applications:

- The Federal Direct Subsidized Loan is a student loan provided directly from the federal government. If you are interested in this loan, follow the
  instructions listed in your electronic award notification. To ensure disbursement for the August payment, you must apply online at <a href="https://myfa.taylor.edu">https://myfa.taylor.edu</a>
  by July 1. This loan is based on financial need as determined by the FAFSA. The loan provides a maximum of \$3,500 per year for freshmen; \$4,500 per
  year for sophomores; and \$5,500 per year for juniors and seniors, depending on financial need. Repayment begins six months after the student leaves
  school. This loan has a fixed interest rate of 3.73 percent.
- The Federal Direct Unsubsidized Federal Loan is not based on financial need. Interest accrues from the date of disbursement and will be capitalized into the loan. Otherwise, it operates the same as a subsidized loan. It cannot exceed maximum loan limits when combined with a subsidized loan. This loan has a fixed interest rate of 3.73 percent.
- The Federal Direct PLUS Loan is a loan for parents provided directly from the federal government, and a separate application must be completed online at <u>https://studentloans.gov</u>. To ensure disbursement for the August payment, the online application must be completed by July 1. It is not based on financial need and may not exceed the cost of attendance minus other aid. Interest on each disbursement amount begins to accrue at the time of disbursement. Repayment begins 60 days after the final disbursement of the loan period. Federal PLUS has a fixed interest rate of 6.28 percent.

# State Aid

Students from Indiana may qualify for the following:

- The 21st Century Scholarship is based on financial need as determined by the FAFSA. It provides a maximum of \$8,748 per year (amount subject to change on yearly basis).
- The Freedom of Choice Grant (part of the Frank O'Bannon Grant Program) is based on financial need as determined by the FAFSA. It offers a maximum of \$9,200 per year (amount subject to change on yearly basis).

The following states offer applicable state grants: Rhode Island and Vermont. These state grants are awarded to students even if they attend out-of-state colleges. These grants are based on financial need as determined by the FAFSA and additional forms.

# Work Study

Federal Work Study is based on financial need as determined by the FAFSA. Students are generally awarded a maximum of \$2,400 per year. Federal work study earnings are not automatically credited to the students accounts. Students may contact the Office of Student Accounts after securing a campus job if they wish to enroll in the student employment payment plan.

# **Intercultural Programs**

The Office of Intercultural Programs (OIP) exists as part of Intercultural Leadership and Church Relations to meet the specific needs of American Ethnic students, international students, missionary kids (MKs), and third culture kids (TCKs) at Taylor University. OIP works to cultivate an intercultural safe and welcoming environment that also provides educational and experiential opportunities for all students, staff, and faculty. Our programs and events promote racial reconciliation, global engagement, and highlight the beauty of God's creation in every person.

We operate with an awareness of these five pillars:

- Keeping God at the center of diversity efforts
- Building on our individual and organizational strengths
- Celebrating and engaging diversity
- Recognizing the struggles faced by those around you
- Operating with amazing generosity

We are committed to providing an environment where:

- Students are developed to be Christ-centered servant leaders
- Students are assured support and advocacy relative to their unique concerns
- Students are being prepared for the future by engaging in programs that cultivate understanding and interaction with a diverse community
- Positive, respectful, and meaningful dialogue regarding issues of diversity is encouraged
- The recruitment, retention, and graduation of American minoritized students, international students, MKs, and TCKs is supported
- Engagement and collaboration with Taylor's community, faculty, and staff is encouraged

The Office of Intercultural Programs houses eight student organizations and two scholarly programs:

- Act Six Scholars Program
- Asian Society for Intercultural Awareness (ASIA)
- Black Student Union (BSU)
- Cultural Diversity Scholarship Program
- International Student Society (ISS)
- Latino Student Union (LSU)
- Middle Eastern Collegiate Association (MECA)
- MuKappa
- Multicultural Student Association (MSA)
- Voices of Praise Gospel Choir

In keeping with the mission of Taylor University, the purpose of Student Development is to provide a life-changing student development program and services within a decidedly Christian residential community by caring for the needs of a diverse student body in ways that foster the holistic growth of each individual.

Student Development is committed to the following objectives:

- Provide the environment, resources, and programs that maximize the potential for Christian students to grow in their understanding and expression of their Christian faith.
- Provide programs that promote ethnic and cultural understanding.
- Provide professional counseling and healthcare services for students.
- Create a residence life program which encourages personal growth and fosters a living out of the Life Together Covenant.
- Provide safe, attractive, and comfortable housing facilities for students.
- · Provide wellness programs, experiences, and information which help students to live healthy and balanced lives.
- Provide a campus community which is safe and secure for students.
- Provide orientation services that will aid students in their transition to Taylor University and college life.
- Enhance the overall educational experience of students through development of, exposure to, and participation in social, cultural, intellectual, recreational, athletic, and leadership programs.
- Assist students with career planning that will result in professional preparation for placement.
- Ensure a student body profile, both in numbers and quality, that is supportive of Taylor's strategic educational and institutional planning.

# Courses

#### SDV 215 I hour God's Call: Exploring a Theology of Vocation

This course is designed to engage students from every discipline in understanding the concept of vocation within the liberal arts from a theological point of view. Through lectures and readings the course will provide a history of vocation along with different understandings and uses of the concept. Offered Fall semester.

# SDV 216

#### Vocation: Living a Faithful Response

This course is designed to engage students in a deeper understanding of vocation specifically through personal exploration and discovery of one's particular vocation as understood within the context of the Christian liberal arts. This course will build upon content from SDV 215. Offered Spring semester. Prerequisite: SDV 215.

I hour

I hour

### SDV 217

#### Exploring Your Calling

This course is designed to engage students from every discipline seeking to maximize their internship experience. Through lectures, networking sessions, and practical assignments rooted in best practice research, students will be better prepared to effectively seek and prepare for, participate in, and build upon a quality internship experience. Offered Fall semester for elective credit.

SDV 218 I hour Transitions: Living a Good Life After College

This fourth course in the Calling and Career Office's vocation sequence is designed to engage students from every discipline in understanding the concept of transitioning faithfully to life after Taylor. Through classroom discussions, interactive exercises, and curated readings, students will explore faithful living in five critical aspects of post-college life: spirituality, church, family, community, and work. Designed primarily for juniors and seniors, this course has no prerequisites and will help students develop a helpful answer to the question, "What are you going to do after college?"

#### SDV 252 I hour Developmental Processes in Leadership

Designed to provide theoretical foundations and experiential opportunities structured toward personal growth and organizational effectiveness. Strongly recommended for all students interested in on-campus leadership positions. Not available for audit (AUD) credit. Offered Interterm and Spring semester.

# SDV 352

# Student Development Seminar

Designed to provide instruction and study in topics relevant to specific student leadership positions on campus. Prerequisite: SDV 252 or permission of instructor. Offered Spring semester.

I hour

# **Calling and Career**

The Calling and Career Office, located in the LaRita R. Boren Campus Center, connects students to people and experiences that equip them to live a faithful response to God's call. Staff members assist students in exploring how their values, interests, personality, and skills connect to potential career paths and assist students in creating a plan to achieve their goals. The staff reviews resumes and cover letters, prepares students for professional interviews, conducts workshops, and facilitates networking opportunities to connect students with alumni and employers.

Taylor's calling and career resources are available to serve students, faculty, and alumni. Resources include self-assessment tools, online resources, books, graduate school information, and employer and alumni contact information. The Calling and Career Office utilizes both Strong Interest Inventory and StrengthsQuest assessments to assist students in identifying their passions and abilities. The CCO maintains online databases that connect students and alumni to current full-time, internship, and part-time positions. For information, contact the Calling and Career Office at (765) 998-5382.

# **Campus Ministries**

The Campus Ministries office is an integral part of Taylor's whole person education. The Office of the Campus Pastor oversees the chapel program and provides for the pastoral needs of the University. Chapel for the entire community is held Mondays, Wednesdays, and Fridays at 10:00 AM throughout each semester as well as Interterm. Spiritual renewal is held at the beginning of Fall and Spring semesters.

# Counseling Center

The Counseling Center offers students professional counseling services. Individual, couples, group, and crisis counseling are available, along with workshops and mental health wellness programs. The goal of the Counseling Center is to enhance the mission of Taylor University by supporting students as they navigate academic, personal, and spiritual growth. The Counseling Center is located on the second floor of the Student Center. Students are seen by appointment, as well as on an emergency basis. Referrals can also be made to other qualified Christian professionals in the area. For more information about the Counseling Center, please visit the website <a href="https://taylor.edu/offices/counseling-center/index.shtml">https://taylor.edu/offices/counseling-center/index.shtml</a>. If a student is interested in setting up an appointment, they can contact the Counseling Center at counselingcenter@taylor.edu or at (765) 998-5222.

# **Health Services**

A full-time student pays a health service fee each Fall and Spring semester and January interterm. This fee may be waived only if the student is married, a commuter from his or her parent's home, or studying away from campus. In order for this fee to be removed from the bill of an eligible student, a waiver must be obtained from the Office of Student Accounts and signed by the end of the second week of classes each semester. Health services are not available during Summer sessions.

If a student has an illness that results in missed class(es) and is treated, he or she should obtain verification of the treatment and provide this as documentation along with a request for an excused absence. For details, refer to **Class Attendance** in the **Academic Policies and Regulations** section in this catalog. Only documentation as to the treatment administered should be provided.

# Housing Information

Taylor University is a residential campus by design; therefore, each single undergraduate student must live in university-owned housing or with his or her parent or legal guardian in their home and commute from a distance of no greater than 50 miles. Students who have been admitted to Taylor University and have paid the \$200 matriculation deposit will receive a residence hall application from the Admissions Office. This material is to be completed and returned to the Admissions Office before housing assignments will be made. \$50 of the \$200 matriculation deposit serves as a housing deposit and is returned when the student leaves Taylor or cancels his or her acceptance; for additional details, refer to the **Finance** section of this catalog. Charges for damage to residence hall property and other university-administered facilities are deducted from this housing deposit.

In order to accommodate the entire student body, it is sometimes necessary to supplement campus residential facilities. Off-campus housing is considered overflow housing and is limited to the number of upperclassmen who cannot be accommodated in the residence halls. The number of students approved to live off campus is dependent on projected enrollment and retention. Because these figures change from year to year, an application and approval process has been established. Upperclassmen who have met the eligibility requirements are given the opportunity to apply (in February of a given year) to live off campus the following year. Students living off campus are expected to abide by both the biblical and Taylor University responsibilities outlined in the Life Together Covenant.

Married students and students over the age of 25 are automatically approved to live off campus. They must arrange to do so through the Center for Student Development but may select housing that meets their particular needs.

# Intramural Sports and Recreation Program

The Intramural Sports and Recreation Program, coordinated by the Taylor Student Organization, provides a wide variety of activities for meeting the recreational and competitive needs of the entire Taylor student body. Team events may include both a men's and a women's league for flag football, soccer, dodge ball, ultimate Frisbee, and basketball; coed leagues exist for volleyball and softball. Many other individual tournaments, such as wiffle ball, tennis, 3 on 3 basketball, and 4 on 4 sand volleyball are held throughout the year.

Taylor's Intramural Sports and Recreation Program has high participation rates. For example, flag football alone has more than 300 men and women participants each year. Residence hall competition has been the driving force behind these high numbers. Intramural sports serve as another venue for our community to holistically grow in worship of the Lord through fellowship, upright competition, and stewardship of the body, mind, and spirit.

# **Residence Life**

Taylor University is a residential campus with a strong emphasis on community living. The purpose of the Residence Life program is to provide safe, attractive, and comfortable physical facilities, structured educational programming, and an atmosphere conducive to unstructured learning experiences. In addition, Residence Life seeks to create an environment that fosters the values of Christian community. The residence halls serve as living-learning communities where students are challenged to grow and apply their faith through interaction with their neighbors. As living-learning communities, residence halls at Taylor are designed to fulfill two goals: the first is to provide a living experience where students are exposed to a variety of educational opportunities that transcend their acacemic courses; second, they provide the resources and professional staff necessary to assist students in developing a high degree of self-direction and responsible citizenship.

There are eight residence halls and two University apartments housing over 1,700 students. The halls have different room and floor configurations, affording students the opportunity to choose a living environment that best suits them. Room assignments are made prior to the beginning of the Fall term. Room and roommate preferences are honored within the limits of available space. The University reserves the right to assign rooms when deemed appropriate. Individual rooms are furnished with window coverings, beds, mattresses, desks, chairs, and dressers.

Each residence hall has a leadership team that includes personnel assistants, discipleship assistants, and representatives who serve on Student Senate. These student leaders are supervised by residence hall directors who work as educators, counselors, and members of Taylor University faculty.

# **Student Clubs**

Student clubs exist to provide a wide array of co-curricular experiences that meet social, academic, and practical needs of the Taylor University community. Club interests range from academic (e.g., Psychology, Social Work, Environmental Science, Art, German, and Pre-Med) to activity-oriented (e.g., Equestrian, Rugby). Students who have special interests not represented on campus are encouraged to seek club status through the Student Senate approval process.

# Student Programs

The Office of Student Programs at Taylor University provides dynamic student leadership experiences that cultivate faith, passion, and calling and service through relationships, learning, and excellent programs. The philosophy of our office is founded in the desire to develop thoughtful, Christ-centered leaders. Programs encourage whole-person student learning and are marked by educational out-of-the-class experiences that connect with and complement in-class experiences. Events build campus community through fun and meaningful activities that create a common context of experiences and values. Student leaders represent diverse needs and concerns to the Taylor University community and engage in collaborative efforts to address those issues. Our goal is to produce students who are equipped to engage the culture as passionate world-transformers according to their calling in Christ.

# **Taylor Student Organization**

The Director of Student Programs and the Student Body President provide the leadership for the Taylor Student Organization (TSO). Through innovative and educational opportunities, activities, and services, TSO addresses diverse student needs, encourages whole-person learning, and builds community. TSO is comprised of over 100 students serving in the following areas:

- Integration of Faith and Culture Programs
- Inter-class Council
- Intramural Sports and Recreation
- Leadership Programs Cabinet

- Office of Global Engagement
- Office of the Student Body President
- Student Activities Council
- Student Senate

# **Taylor University Police Department**

Taylor University Police Department provides a variety of services to the students, faculty, and staff of Taylor University. The University employs full- and part-time police officers and security officers to provide around-the-clock law enforcement and security services year round. As the chief law enforcement office for Taylor, the Chief of Police works in conjunction with local, state, and federal law enforcement agencies to ensure a safe campus environment. Taylor University Police Department, located in the LaRita Boren Campus Center, also oversees the identification card system and lost and found, as well as the after-hours telephone, motor vehicle registration, and parking programs. Taylor University complies with the *Crime Awareness and Campus Security Act of 1990*.

# **Taylor World Outreach**

Taylor World Outreach (TWO) emphasizes practical experience in ministry and leadership. Four student-led departments are committed to leadership development, outreach, and service learning:

- Community Outreach
- Lighthouse (sponsoring January interterm mission trips)

- Spring Break Missions
- World Opportunities

Officers of the Board

Chris Goeglein, Chairman

Manuel Rosado, Vice Chairman

Heather Larson, Secretary

Carl Chapman, Treasurer

### **Board Members**

Angela Angelovska-Wilson, Attorney and Founder, DLx Law, Washington, D.C.

Jonathan Beukelman, Senior Vice President, UBS Financial Services, Denver, Colorado.

Carl Chapman, Retired Chairman, President, and CEO, Vectren Corporation, Newburgh, Indiana.

Minda Chow, Retired Nurse/Homemaker, Redington Shores, Florida.

Mark Davis, Ministry Consultant/President, Atlantic Christian Academy, West Palm Beach, Florida.

 $\mbox{Chris}$ Goeglein, Managing Partner, True North Strategic Advisors, LLC, Fort Wayne, Indiana.

Erik Hotmire, Public Relations/Corporate Affairs, Falls Church, Virginia.

**Rhonda Jeter**, Professor and Dean of the College of Education, Bowie State University, Bowie, Maryland.

Stephen Johnson, President of Stephen L. Johnson & Associates Strategic Consulting, LLC, Frederick, Maryland.

Heather Larson, Founder, LiveGive, Barrington, Illinois.

D. Michael Lindsay, President, Taylor University, Upland, Indiana.

Susan McCabe, Christian Laywoman, Tyrone, Georgia.

Gregory Poland, Director, Mayo Vaccine Research Group and Professor of Medicine, Rochester, Minnesota.

Manuel Rosado, President, Spectrum Investment Advisors, Inc., Mequon, Wisconsin.

Tamara Shaya Hoffmann, Diplomat, Department of State, Alexandria, Virginia.

Kathy Stevens, Homemaker, Philanthropist, Dallas, Texas.

Mark Taylor, Chairman of the Board, Tyndale House Publishers, Carol Stream, Illinois.

Karen Thomas, Christian Laywoman/Homemaker, Lexington, Kentucky.

P. Eric Turner, President and CEO, T3 Investments Corporation, Cicero, Indiana.

Nicholas Wallace, CPA, BKD, LLP, Indianapolis, Indiana.

Shani Wilfred, General Education Coordinator and Professor of Criminal Justice, Valdosta State University, Valdosta, Georgia.

Dan Wolgemuth, Retired President, Youth for Christ, Englewood, Colorado.

# **Emeriti Board Members**

James Blum, Retired Chairman, Brotherhood Mutual Insurance Company, Fort Wayne, Indiana.

David Boyer, Attorney at Law, Boyer and Boyer, Fort Wayne, Indiana.

Joseph Brain, Drinker Professor of Environmental Physiology, Harvard University, Boston, Massachusetts.

Theodore Brolund, Retired President, W.A. Whitney Company, Rockford, Illinois.

Barbara Dickinson, Christian Laywoman, Birmingham, Alabama.

Kenneth Flanigan, Retired Executive Vice President, Christianity Today International, Wheaton, Illinois.

Marta Gabre-Tsadick, President, I.T.G. Commercial Trading, Executive Director, Project Mercy, Fort Wayne, Indiana.

J. Paul Gentile, Medical Doctor, Fort Wayne, Indiana.

Richard Gygi, Fuel for Good, LLC, Franklin, Tennessee.

Jerry Horne, Retired Chief Executive Officer, Manpower Temporary Services of Western Michigan, Fort Myers, Florida.

John Horne, Retired Chairman, President and Chief Executive Officer, Navistar International Transportation Corporation, St. Charles, Illinois.

V. Donald Jacobsen, Retired, AT&T, Dunwoody, Georgia.

Carl Moellering, President, Moellering Management Company, Fort Wayne, Indiana.

William Pannell, Professor of Preaching and Special Assistant to the President, Fuller Theological Seminary, Pasadena, California.

**Paul Robbins**, Retired President and Publisher, Christianity Today International, West Chicago, Illinois.

Richard Russell, President, Russell Homes, Inc., Grosse Pointe Farms, Michigan.

Fred Stockinger, Medical Director, Stockinger, Stockinger & Associates, Naples, Florida.

Steven Whiteman, Former Chairman, President, and CEO of Viasoft, Scottsdale, Arizona.

James Woods, General and Vascular Surgeon, Bellingham, Washington.

# Executive Administration

D. Michael Lindsay, President

Rex E. Bennett, Vice President for University Advancement

Gregory S. Dyson, Vice President for Intercultural Leadership and Church Relations

William C. Hagen, Vice President of Strategy / Chief of Staff

Thomas G. Jones, Interim Provost

Stephen P. Olson, Vice President of Business and Finance / CFO
Ronald B. Sutherland, Special Assistant to the President
C. Skip Trudeau, Vice President for Student Development

# Campus Administration

**Barbara Bird**, Dean of Faculty Development and Director, Bedi Center for Teaching and Learning Excellence

**Charles Brainer**, Dean of International Programs, and Director, Spencer Centre for Global Engagement

Shannon Brooks, Director of Zondervan Library

Kimberly Case, Director of Assessment and Quality Improvement

Nancy Dayton, Interim Dean of Arts, Humanities, Business, and Higher Education

Robert Linehan, Chief Information Officer Carrie Meyer, Director of Online Learning Grace Miller, Dean of Sciences Jill Thurman, Accounts Receivable Manager Timothy Nace, Associate Vice President of Financial Aid Janet Rogers, University Registrar

# Additional Academic Administration

Christopher Bade, Co-Chair, Music, Theatre, and Dance Benjamin Hotmire, Chair, Education Jonathan Bouw, Co-Chair, Art, Film, and Media Aaron Householder, Chair, English and Modern Languages Stefan Brandle, Co-Chair, Computer Science and Engineering Michael Jessup, Chair, Anthropology, Sociology, and Social Work Kathleen Bruner, Co-Chair, Art, Film, and Media Kevin Johnson, Chair, History, Global, and Political Studies Kenneth Kiers, Co-Chair, Physics and Engineering Jeremy Case, Chair (Fall), Mathematics Philip Collins, Chair, Biblical Studies, Christian Ministries, and Philosophy Daniel King, Chair (Fall), Chemistry and Biochemistry Jeffry Cramer, Coordinator of Foundational Core Tracy Manning, Co-Chair, Music, Theatre, and Dance April Dickey, Director, Transition to Teaching Josiah McClurg, Co-Chair, Physics and Engineering Diane Dungan, Chair, Psychology Julie Moore, Director of Writing Center Brandon Dykstra, Co-Chair, Kinesiology Jeffrey Regier, Co-Chair, Biology, Environmental Sciences, Public Health, and Sustainable Development Scott Gaier, Director, Academic Enrichment Center and Instructional Design Matthew Renfrow, Co-Chair, Kinesiology Jonathan Geisler, Co-Chair (Spring), Computer Science and Engineering Michael Severe, Graduate Chair, Master of Arts in Ministry Jeffery Groeling, Chair, Communication Patricia Stan, Chair (Spring), Chemistry and Biochemistry Michael Guebert, Co-Chair, Biology, Environmental Sciences, Public Health, and Sustainable Development Dannie Stanley, Co-Chair (Fall), Computer Science and Engineering Trina Hartman, Director of Academic Advising Derek Thompson, Chair (Spring), Mathematics Mary Jo Hirschy, Chair, Business C. Skip Trudeau, Chair, Master of Arts in Higher Education

### Faculty of Instruction

The year appearing immediately after each name indicates the first year of full-time faculty service at Taylor.

H. Conor Angell, 2013. Associate Professor of Music. BM, Taylor University, 2006; MM, University of North Carolina, 2008; DMus, Indiana University, 2012.

Alexandria J. Armstrong, 1997. Professor of Education. AA, San Diego Mesa College, 1980; BA, San Diego State University, 1982; MA, San Diego State University, 1983; EdD, University of Northern Colorado, 1988.

Christopher G. Bade, 2004. Professor of Music. BME, Illinois Wesleyan University, 1980; MM, University of Akron, 1982; DMA, University of Illinois, 1989.

Stephen P. Bailey, 2013. Assistant Professor of Film and Media Production. BA, Asbury University, 1998; MA, University of Kentucky, 2013.

Michael J. Bates, 2004-2012, 2018. Professor of Marketing. BS, United States Military Academy, 1979; MBA, Regent University, 2004; DM, George Fox University, 2011.

Timothy W. Berkey, 2018. Instructor of Communication. BS, Olivet Nazarene University, 2015; MA, Ball State University, 2018.

Sylvanna L. Bielko, 2018. Assistant Professor of Public Health. BA, Hanover College, 2009; MS, Indiana University, 2013; additional graduate studies, Indiana University.

**Barbara J. Bird**, 2001. Dean of Faculty Development; Director of BCTLE; Professor of English. BA, Taylor University, 1999; MA, Ball State University, 2001; PhD, Ball State University, 2005.

Steven P. Bird, 1993. Professor of Sociology. BS, Boise State, 1986; MA, University of Washington, 1990; PhD, Purdue University, 1993.

Alan D. Blanchard, 2017. Associate Professor of Journalism. BA, Eastern New Mexico University, 1988; PhD, Michigan State University, 2014.

Julie A. Borkin, 2018. Assistant Professor of Communication. BA, Oakland University, 2000; PhD, Wayne State University, 2018.

Jonathan H. Bouw, 2007. Professor of Art. BA, Nyack College, 1987; MFA, School of Visual Arts, 1990.

Daniel R. Bowman, Jr., 2011. Associate Professor of English. BA, Roberts Wesleyan College, 2001; MA, University of Cincinnati, 2006; MFA, Seattle Pacific University, 2011.

Michael C. Bowman, 2020. Assistant Professor of Chemistry. BS, Huntington University, 2017; PhD, University of Georgia, 2020.

S. Stefan Brandle, 1999. Professor of Computer Science and Engineering. BA, Wheaton College, 1986; MS, Illinois Institute of Technology, 1992; PhD, Illinois Institute of Technology, 1998.

**A. John Bruner**, 2005. Associate Professor of Film and Media Production. BA, Asbury College, 1987; MA, Asbury College, 2004; MFA, Vermont College of Fine Arts, 2018.

Kathleen M. Bruner, 2005. Associate Professor of Film and Media Production. BA, Asbury College, 1987; MA, Baylor University, 1988; MFA, Vermont College of Fine Arts, 2018.

Jeremy S. Case, 1995. Professor of Mathematics. BA, Taylor University, 1987; MA, Miami University (OH), 1989; MS, PhD, University of Minnesota, 1995.

A. Chin Chang, 2004. Professor of Modern Languages. BA, Korea University, 1992; MA, Instituto Caro y Cuervo, 1995; PhD, University of Texas at Austin, 2003.

Margaret Chasara, 2021. Assistant Professor of Economics. BA, Taylor University, 2011; MA, Duke University, 2013; PhD, George Mason University, 2016.

Mark D. Colgan, 1992-98, 1999. Professor of Mathematics. BA, Anderson University, 1985; MA, Indiana University, 1988; PhD, Indiana University, 1991.

Jennifer L. Collins, 2003. Associate Professor of Missions. BS, Taylor University, 1989; MAR, Trinity Evangelical Divinity School, 2000.

Philip J. Collins, 1999. Professor of Christian Ministries. BA, Taylor University, 1982; MA, Trinity Evangelical Divinity School, 1993; PhD, Purdue University, 2005.

Jeffry P. Cramer, 1998. Associate Professor of Computer Science and Engineering; Director of Honors Guild. BS, Taylor University, 1990; MS, Indiana University, 1998; PhD, Purdue University, 2007. Robert E. Davis, 1995. Professor of Physics. BS, Illinois State University, 1976; MS, Purdue University, 1982; PhD, Purdue University, 1988.

Nancy C. Dayton, 1988. Dean of Arts, Humanities, Business, and Higher Education; Professor of English. BA, Marion College, 1985; MA, Indiana University, 1987; PhD, Miami (Ohio) University, 1996.

Jonathan D. Denning, 2014. Associate Professor of Computer Science and Engineering. BA, Tabor College, 2009; PhD, Dartmouth College, 2014.

Brian J. Dewar, 2010. Associate Professor of Biology. BS, Geneva College, 1998; PhD, University of North Carolina, 2007.

Kevin S. Diller, 2009. Professor of Philosophy and Religion. BA, Taylor University, 1993; MDiv, Princeton Theological Seminary, 1997; ThM, Calvin Theological Seminary, 2001; PhD, University of St Andrews, 2008.

Jan E. Dormer, 2021. Professor of TESOL. BA, Asbury College, 1983; MA, Ball State University, 1986; EdD, University of Toronto, 2006.

**Donna J. Downs**, 2001. Associate Professor of Media Communication. BA, Indiana University, 1980; MA, Ball State University, 1988; EdD, Ball State University, 2005.

Diane E. Dungan, 2000. Associate Professor of Psychology. BA, Indiana University, 1993; PhD, Texas Tech University, 2001.

Brandon J. Dykstra, 2018. Assistant Professor of Exercise Science. BA, Calvin College, 2012; MS, Ball State University, 2015; additional graduate studies, Ball State University.

Laura C. Edwards, 2016. Assistant Professor of Psychology. BS, Berea University, 1996; MA, Wheaton College, 1998; PhD, Regent University, 2015.

Patrick J. Eggleton, 2016. Professor of Mathematics. BS, University of South Florida, 1987; MEd, University of South Florida, 1991; PhD, University of Georgia, 1995.

Shelly E. Engle, 2021. Assistant Professor of Education. BS, Indiana University— Purdue University Fort Wayne, 2008; MAE, Ball State University, 2011; PhD, Ball State University, 2017.

Scott D. Fenstermacher, 2021. Assistant Professor of Kinesiology. BS, Taylor University, 2013; DPT, University of Delaware, 2016.

Denise C. Flanders, 2019. Assistant Professor of Biblical Studies. BA, University of North Carolina, 2005; MA, Gordon-Conwell Theological Seminary, 2013.

Jonathan G. Geisler, 2002. Associate Professor of Computer Science and Engineering. BS, Taylor University, 1994; MS, Northwestern University, 1999; PhD, Northwestern University, 2003.

Elizabeth B. George, 2018. Associate Professor of History. BA, Houghton College, 2002; MA, Stony Brook University, 2005; PhD, Stony Brook University, 2011.

Laura M. Gerig, 2021. Associate Professor of Psychology. BA, Taylor University, 1991; MA, Ball State University, 1992; PhD, Ball State University, 1996.

Phillip P. Grabowski, 2017. Assistant Professor of Sustainable Development. BS, Michigan State University, 2002; MS, Michigan State University, 2011; PhD, Michigan State University, 2015.

Jeffery P. Groeling, 2007. Professor of Communication. BS, Ball State University, 1990; MS, Ball State University, 1992; PhD, University of Kentucky, 2004.

Michael D. Guebert, 1999. Professor of Geology and Environmental Science. BS, University of Illinois, 1985; MS, Penn State University, 1988; PhD, Penn State University, 1991.

Leon A. Harshenin, 1998. Professor of Music. BA, Dominican College of San Rafael, 1981; BM, Juilliard School, 1984; MM, Juilliard School, 1985; DMA, University of Michigan, 1998.

Elizabeth D. Hasenmyer, 2006-07, 2008. Assistant Professor of Biology. BS, Taylor University, 2000; MS, Ball State University, 2005.

Erik S. Hayes, 1998. Professor of Kinesiology. BA, Asbury College, 1996; MS, Indiana State University, 1997; PhD, Ball State University, 2010.

Justin M. Henegar, 2019. Assistant Professor of Finance. BLS, University of Oklahoma, 2004; MBA, Oklahoma Christian University, 2005; MSF, Texas A&M University, 2017; PhD, Kansas State University, 2014.

William A. Heth, 1987. Professor of Biblical Studies. BA, University of Michigan, 1974; ThM, Dallas Theological Seminary, 1982; ThD, Dallas Theological Seminary, 1986.

Mary Jo Hirschy, 2005. Associate Professor of Business. BA, DePauw University, 1997; MA, DePaul University, 2003, PhD, Regent University, 2012.

Geoffrey S. Hoffmann, 2012. Instructor of ESL; China Project Specialist. BS, Taylor University, 2002; MS, Indiana University, 2006.

Benjamin J. Hotmire, 2014. Associate Professor of Education. BS, Taylor University, 1998; MS, Wright State University, 2002; PhD, Ball State University, 2015.

Aaron J. Housholder, 2007. Professor of English. BA, Anderson University, 1995; MA, Ball State University, 1998; MA, Ball State University, 2007; PhD, Ball State University, 2012.

Ryan G. James, 2015. Assistant Professor of Art. BA, Taylor University, 2001; MFA, Vermont College of Fine Arts, 2014.

Melissa K. Jessup, 2018. Assistant Professor of Education. BA, Idaho State University, 1984; MA, Ball State University, 1998; additional graduate studies, Ball State University.

Michael M. Jessup, 1996. Professor of Sociology. BA, Idaho State University, 1985; MS, Iowa State University, 1987; PhD, Southern Illinois University, 1992.

Kevin L. Johnson, 2016. Associate Professor of History. BA, Erskine College, 2000; MA, University of Memphis, 2002; MA, University of Chicago, 2005; MA, Harding University, 2010; PhD, University of Memphis, 2012.

Sarah P. Justice, 2020. Assistant Professor of Biology. BS, Colorado State University, 2014; PhD, Indiana University, 2020.

Daniel Kaluka, 2019. Assistant Professor of Chemistry and Biochemistry. BS, University of Zimbabwe, 2003; MS, Marquette University, 2009; PhD, Marquette University, 2012.

Christopher A. Kellner, 2021. Assistant Professor of Finance. BS, Grove City College, 2010; MBA, Waynesburg University, 2015.

**Bradley J. Kendall**, 2018. Assistant Professor of Kinesiology. BA, Bethel College, 2012; MS, University of Western Michigan, 2014; PhD, Wayne State University, 2018.

Nicholas B. Kerton-Johnson, 2010. Associate Professor of Political Science. BA, University of Cape Town, 1996; MA, Kings College London, 1999; PhD, University of Bristol, 2008.

Kenneth A. Kiers, 1998. Professor of Physics. BS, McMaster University, 1991; PhD, University of British Columbia, 1996.

Carie A. King, 2016. Associate Professor of English. BA, University of Georgia, 2012; PhD, Ball State University, 2017.

Daniel A. King, 2005. Professor of Chemistry. BS, Huntington College, 1998; PhD, University of Georgia, 2002.

Samer M. Koudsia, 2019. Assistant Professor of Accounting. BS, Indiana University Fort Wayne; MBA, Indiana Wesleyan University, 2008.

Yin Ling Eva Kwan, 2011. Associate Professor of Music. BS, Cheltenham and Gloucester College of Higher Education, UK, 1998; MM, Rider University Westminster Choir College, 1997; DME, Indiana University, 2007.

Julie M. Little, 2015. Associate Professor of Management. BS, Indiana University, 1997; MSM, Indiana Wesleyan University, 1999; PhD, Purdue University, 2012.

Gregory S. MaGee, 2008. Professor of Biblical Studies. BA, Rice University, 1992; ThM, Dallas Theological Seminary, 2005; PhD, Trinity Evangelical Divinity School, 2009.

Vance E. Maloney, 1981. Professor of Psychology. BA, Cedarville College, 1979; MA, Ball State University, 1981; PhD, Ball State University, 1989.

Tracy S. Manning, 2011. Assistant Professor of Theatre Arts; Artistic Director of Theatre. BA, Taylor University, 1992; MLSt, Indiana University, 2011.

**Evidence S. Matangi**, 2021. Assistant Professor of Mathematics. BS, University of Zimbabwe, 2001; MS, University of Zimbabwe, 2010; MS, Purdue University, 2016; PhD, Purdue University, 2019.

Mandi S. Maxwell, 2019. Professor of Mathematics. BS, Taylor University, 1996; MS, Miami University, 1998; PhD, Iowa State University, 2005.

Laura E. McClelland, 2016. Assistant Professor of Psychology. BS, Iowa State University, 2001; PhD, Clemson University, 2007.

Josiah C. McClurg, 2017. Assistant Professor of Electrical Engineering. BS, University of Iowa, 2011; MS, University of Iowa, 2012; MS, University of Illinois, 2014; PhD, University of Iowa, 2017.

David A. McGinness, 2019. Assistant Professor of Education. BS, Taylor University, 1996; BA, Taylor University, 1996; MA, Indiana University-Purdue University Indianapolis, 2009.

Edward P. Meadors, 1995. Professor of Biblical Studies. BA, Wheaton College, 1986; MA, Wheaton College Graduate School, 1988; PhD, University of Aberdeen, Scotland, 1993.

James W. Miles, II, 2008. Assistant Professor of Art. BA, Indiana Wesleyan University, 1990; MA, Regent University, 1994; MA, Ball State University, 1999.

Jakob A. Miller, 2017. Assistant Professor of American Politics. BA, Purdue University, 2011; PhD, Ohio State University, 2017.

Scott L. Moeschberger, 2003-04, 2005. Professor of Psychology. BS, Taylor University, 1997; MA, Trinity Evangelical Divinity School, 2000; PhD, Ball State University, 2006.

Lorne R. Mook, 2001. Associate Professor of English. BS, Taylor University, 1987; MFA, University of Maryland, 1994; PhD, University of Cincinnati, 2003.

**Christine A. Moore**, 2019. Assistant Professor of Education. AA, Taylor University, 1993; BS, Taylor University, 2003; MEd, University of Arkansas at Little Rock, 2014.

Julie L. Moore, 2017. Associate Professor of English; Director of the Writing Center. BA, Cedarville College, 1987; MA, University of Dayton, 1989.

Danielle H. Nobles-Lookingbill, 2019. Assistant Professor of Engineering. BS, Indiana University, 1999; BS, University of Nevada, 2014; PhD, University of Nevada, 2018.

Thomas B. Nurkkala, 2008. Associate Professor of Computer Science and Engineering. BS, Michigan Technological University, 1985; MA, Bethel Theological Seminary, 1990; MS, University of Minnesota, 1992; PhD, University of Minnesota, 1996.

Angela P. Pacheco, 2018. Assistant Professor of Spanish. BA, University of Salamanca, Spain, 2011; MA University of Salamanca, Spain, 2012; PhD, Purdue University, 2017.

Joseph K. Pak, 2008. Professor of Biblical Studies. BS, Virginia Tech, 1985; MDiv, Liberty Baptist Theological Seminary, 1988; STM, Dallas Theological Seminary, 1993; PhD, Dallas Theological Seminary, 2001.

David R. Poucher, 2007. Associate Professor of Accounting. BS, Taylor University, 1981; MA, Fuller Theological Seminary, 1986; MBA, University of North Carolina, 1999.

Todd C. Ream, 2013. Professor of Higher Education. BA, Baylor University, 1993; MDiv, Duke University Divinity School, 1996; PhD, Pennsylvania State University, 2001.

Jan M. Reber, 1994. Professor of Biology. BA, Taylor University, 1989; MS, Purdue University, 1991; PhD, Purdue University, 1994.

**Robert T. Reber**, 1996. Assistant Professor of Environmental Science. BS, University of Illinois, 1989; MSF, Purdue University, 1991; additional graduate studies, Purdue University.

Lincoln P. Reed, 2020. Assistant Professor of Film and Media Production. BA, Taylor University, 2017; MFA, Miami University, 2019.

Jeffrey L. Regier, 1999. Professor of Biology. BA, Taylor University, 1988; PhD, Michigan State University, 1993.

Matthew S. Renfrow, 2010. Professor of Kinesiology. BS, Belmont University, 2005; MS, Middle Tennessee State University, 2006; PhD, Middle Tennessee State University, 2009.

Hannah E. Richardson, 2021. Assistant Professor of Art. BS, Taylor University, 2010; MA, Moore College of Art and Design, 2017.

Jeremie D. Riggleman, 2017. Assistant Professor of Art. BA, Bethel College (Mishawaka), 2000; MFA, Azusa Pacific University, 2015.

Kara J. Riggleman, 2020. Assistant Professor of Social Work. BA, Moody Bible Institute, 2006; MSW, Azusa Pacific University, 2016.

Daniel L. Rodman, 2017. Assistant Professor of Mathematics. BA, Taylor University, 2012; MS, University of Iowa, 2014; PhD, University of Iowa, 2017.

Ben E. Roller, 2019. Visiting Instructor of Computer Science and Engineering. BS, Taylor University, 2015; MS, Grace College, 2017.

**Bradley N. Seeman**, 2007. Associate Professor of Philosophy. BA, Wheaton College, 1990; MA, Trinity Evangelical Divinity School, 1995; MA, Loyola University, 2006; PhD, Loyola University, 2009.

Michael K. Severe, 2011. Professor of Christian Ministries. BS, Multnomah Bible College, 1999; MA, Wheaton College, 2004; PhD, Trinity Evangelical Divinity School, 2008.

Jeffrey F. Sherlock, 2007. Professor of Business. BBA, Ohio University, 1988; MBA Ohio University, 1990; EdD, Ball State University, 1997.

Vincent A. Sichula, 2018. Associate Professor of Chemistry. BS, Moscow State University of Fine Chemical Technology, 2001; PhD, Bowling Green State University, 2011.

Carol B. Sisson, 2008. Associate Professor of Education. BA, Taylor University, 1988; MA, Ball State University, 1990; EdS, Ball State University, 1991; EdD, Regent University, 2008.

Rachel Hostetter Smith, 1998. Professor of Art. BA, Michigan State University, 1981; MA, Michigan State University, 1991; PhD, Indiana University, 1996.

Richard G. Smith, 2001. Associate Professor of Biblical Studies. BSA, University of Arkansas, 1988; ThM, Dallas Theological Seminary, 1996; PhD, University of Cambridge, 2000.

Loralee S. Songer, 2019. Assistant Professor of Music. BM, Taylor University, 2004; MM, Ball State University, 2006; DA, Ball State University, 2010.

Reed M. Spencer, 2019. Assistant Professor of Music. BM, Taylor University, 2011; MM, Indiana University School of Music, 2013; DMA, Boston University, 2018.

Patricia L. Stan, 2006. Associate Professor of Chemistry. BS, Houghton College, 1985; AM, Washington University, 1987; PhD, Washington University, 1990.

Dannie M. Stanley, 2014. Associate Professor of Computer Science and Engineering. BGS, Ball State University, 1999; MS, Ball State University, 2008; PhD, Purdue University, 2013.

Peter J. Staritz, 2019. Assistant Professor of Engineering. BE, State University of New York, 1998; PhD, Carnegie Mellon University, 2003.

Laura S. Stevenson, 2017. Assistant Professor of Art. BA, Taylor University, 2009; MFA, University of New Hampshire, 2015.

Deborah R. Stiles, 2016. Assistant Professor of Social Work. BSW, Northwest Nazarene University, 1990; MSW, University of Kansas, 1994.

Arny M. Stucky, 1997. Assistant Professor of Sport Management. BA, Taylor University, 1992; MA, Ball State University, 1998.

Linda K. Taylor, 2014. Assistant Professor of Professional Writing. BA, Houghton College, 1980; MA, Ball State University, 2013.

Cheryl E. Thompson, 2018. Assistant Professor of Social Work. BA, University of Illinois, 1987; MSW, University of Illinois, 1989.

**Derek A. Thompson**, 2014. Associate Professor of Mathematics. BS, Indiana Wesleyan University, 2006; MA, Ball State University, 2008; PhD, Purdue University, 2013.

Jessica L. Vanderploeg. 2015. Associate Professor of Biology. BS, Trinity Western University, 2009; PhD, McMaster University, 2014.

Koert A. Verhagen, 2020. Visiting Assistant Professor of Philosophy and Religion. BA, Taylor University, 2011; MA, Gordon-Conwell Theological Seminary, 2014; PhD, University of St. Andrews, 2019.

Henry J. Voss, Jr., 2017. Assistant Professor of Christian Ministries. BA, Taylor University, 1999; MA, Talbot School of Theology, 2003; PhD, Wheaton College, 2014.

Colleen A. Warren, 1992. Professor of English. BA, Olivet Nazarene University, 1981; MA, University of Florida, 1987; PhD, University of Florida, 1992.

Benjamin J. Wetzel, 2018. Assistant Professor of History. BA, Grove City College, 2009; MA, Baylor University, 2011; PhD, University of Notre Dame, 2016.

Arthur J. White, 1984. Professor of Computer Science and Engineering. BS, Christian Heritage College, 1979; MS, Ball State University, 1981; MA, Ball State University, 1984; EdD, Ball State University, 1985.

W. Quinn White, 1999. Professor of Education. BS, Taylor University, 1988; MA, Ohio State University, 1996; PhD, Ohio State University, 2005.

**Gregory J. Wolfe**, 2007. Visiting Instructor of Kinesiology. BA, Wheaton College, 2003; MA, Ohio State University, 2005.

May H. Young, 2015. Associate Professor of Biblical Studies. BA, University of Illinois, 1992; MDiv, Trinity Evangelical Divinity School, 2007; PhD, Trinity Evangelical Divinity School, 2015.

Yang Zhao, 2019. Assistant Professor of Engineering. BS, Shenyang University of Technology, 2009; MS, Cleveland State University, 2013.

# Academic Support Faculty

Scott T. Barrett, 2015. Assistant Director of Academic Enrichment Center and Coordinator of Academic Support; Assistant Professor. BS, Taylor University, 2007; MA, Grand Rapids Theological Seminary, 2010; PhD, Indiana State University, 2017.

Shannon N. Brooks, 2021. Director of Zondervan Library; Assistant Professor. BA, Bob Jones University, 2000; MS, Bob Jones University, 2004; MLS, University of South Carolina, 2008.

**Kimberly F. Case**, Director of Assessment and Quality Improvement. BA, Asbury College, 1982; MAR, Asbury Theological Seminary, 1984; PhD, Azusa Pacific University, 2010.

Ashley N. Chu, 2013. University Archivist/Special Collections Librarian; Assistant Professor. BA, Taylor University, 2007; MLS, Indiana University, 2012.

Shawn D. Denny, 2006. Information Services Librarian; Associate Professor. BA, Taylor University, 1990; MLS, Indiana University, 1994; MA, Taylor University, 2015.

David C. Dunham, 2020. Academic Engagement Librarian; Assistant Professor. BS, Ball State University, 2000; MA, Ball State University, 2003; MLS, Indiana University, 2005. Scott E. Gaier, 2006. Director of Academic Enrichment Center and Instructional Design; Professor. BA, Huntington College, 1994; MS, Purdue University, 1996; PhD, Purdue University, 2003.

Kristin W. Johnson, 2020. Director of Sponsored Programs; Assistant Professor. BA, Erskine College, 2000; MA, University of Memphis, 2001; PhD, University of Memphis, 2019.

Lance A. Vanderberg, 2013. Assistant Director of Academic Enrichment Center and Coordinator of Academic Success; Instructor. BS, Taylor University, 2006; MA, Taylor University, 2013.

Lana J. Wilson, 2007. Assistant Director/Research Librarian; Associate Professor. BA, Taylor University, 2005; MLS, Indiana University, 2006; MA, University of Indianapolis, 2013.

# Student Development and Additional Faculty

Jeffry T. Aupperle, 2014. Director of Calling and Career Office; Assistant Professor. BA, Bethel College, 2003; MA, Taylor University, 2014; PhD, Indiana State University, 2018.

Stephen W. Austin, 1995. Associate Dean/Director of Student Programs; Associate Professor. BS, Taylor University, 1995; MA, Ball State University, 2001.

Matthew Levi Beck, 2021. Residence Hall Director. BA, Indiana Wesleyan University, 2005; MDiv, Wesley Seminary at Indiana Wesleyan University, 2018.

Kiplangat Cheruiyot Bii, 2018. Director of Taylor World Outreach, Assistant Professor. BA, Kenya Highlands Evangelical University, 2006; MTh, Daystar University, 2009; MA, Taylor University, 2015.

Jesse M. Brown, 2017. Dean of Students, Instructor. BA, Valley Forge Christian College, 1997; MA, Eastern University, 1999; PhD, Indiana State University, 2020.

Jonathon J. Cavanagh, 2007. Campus Pastor; Assistant Professor. BA, Taylor University, 1998; MDiv, Winebrenner Theological Seminary, 2008.

Kathy L. Chamberlain, 2020. Director of Counseling Center; Instructor. BA, Malone College, 1990; MSSA, Madel School of Applied Social Sciences, 1991.

Jacob R. Gerding, 2021. Residence Hall Director; Instructor. BS, Evangel University, 2018; M, Taylor University, 2020.

Julia R. Hurlow, 2016. Associate Dean for Residence Life and Discipleship; Assistant Professor. BS, Indiana Wesleyan. 2004; MA, Indiana Wesleyan. 2007; DMin, George Fox University, 2018. Jennifer L. Moeschberger, 2001. Director of Honors Programming and Irish Studies; Assistant Professor. BA, Taylor University, 1996; MA, Trinity University, 1999.

Drew B. Moser, 2009. Dean of Student Engagement; Professor. BA, Taylor University, 2002; MA, Denver Seminary, 2005; PhD, Indiana State University, 2013.

Josiah Daniel Peterson, 2021. Residence Hall Director; Instructor. BA, Taylor University 2019; MA, Taylor University, 2021.

Amber D. Stanley, 2017. Assistant Director of Calling and Career; Instructor. BS, Ball State University, 1998; MA, Taylor University, 2021.

Jessica Torres, 2018. Residence Hall Director; Instructor. BA, Rollins College, 2001; MA, Wheaton College, 2009.

**C. Skip Trudeau**, 1999. Vice President for Student Development; Associate Professor. BA, John Brown University, 1985; MSE, SUNY College at Buffalo, 1987; EdD, Indiana University, 1999.

Jeffrey J. Wallace, 2003. Chief of Police; Instructor. BS, Taylor University, 1989; MA, Taylor University, 2014.

Jessica P. Woodring, 2017. Residence Hall Director; Instructor. BS, Gordon College, 2015; MA, Taylor University, 2017.

Peter Yeung, 2019. Residence Hall Director; Instructor. BA, Colorado Christian University, 2017; MA, Wheaton College, 2019.

# **Emeriti Faculty**

H. Leon Adkison, Professor of Systems, 1974-2008. James B. Law, Associate Professor of Health, Physical Education, and Recreation, 1982-1997. Felix Aguilar, Professor of Computer Science and Engineering, 1999-2013. Wynn A. Lembright, Assistant Professor, 1983-2008. Beulah P. Baker, Professor of English, 1979-2016, Connie D. Lightfoot. Dean of Social Sciences. Education, and Business; Professor of Computer Science, 1982-1993, 2008-2016. Douglas Barcalow, Professor of Christian Education; Academic Dean, 1983-2009. Pamela Jordan-Long, Professor of Professional Writing, 1992-2014. Eleanor A. Barrick, Professor of Modern Languages, 1990-2005. Janet C. Loy, Associate Professor of Modern Languages, 1971-2005. Stephen S. Bedi, Professor of Higher Education, 1991-2014. R. Philip Loy, Professor of Political Science, 1964-2012. Ronald Benbow, Professor of Mathematics, 1987-2017. Joe W. Lund, Professor of Psychology, 1973-2016. Robert P. Benjamin, Associate Professor of Business, 1979-2005. Billie I. Manor, Associate Professor: Academic Enrichment Center, 1976-2005. Christopher P. Bennett, Dean of International Programs; Director of Spencer Pamela L. Medows, Professor of Education, 1997-2018. Centre for Global Engagement; Professor of Business, 1989-2014. Arlan Birkey, Associate Professor of Greek, 1968-2007. Elizabeth B. Messer, Professor of Modern Languages, 1988-2018. Daniel J. Bowell, University Librarian; Associate Professor, 2000-2020. Stephen C. Messer, Professor of History, 1990-2018. Hadley T. Mitchell, Professor of Economics, 1993-2020. Stanley L. Burden, Professor of Chemistry and Biochemistry, 1966-2010. Timothy J. Burkholder, Professor of Biology, 1970-2010. Craig W. Moore, Associate Professor of Art, 1979-2010. Walter E. Campbell, Assistant Professor, 1969-2004. John M. Moore, Professor of Biology, 1992-2020. Mildred S. Chapman, Professor of Education, 1956-1961, 1975-1991. Rebecca S. Moore, Instructor of Education, 1990-2007. Faye E. Chechowich, Dean of Faculty Development; Director of BCTLE; Professor Mary Muchiri, Associate Professor of English, 2001-2017. of Christian Ministries. 1989-2017. Paul W. Patterson, Associate Professor of Physical Education and Human Performance, 1979-Winfried Corduan, Professor of Philosophy and Religion, 1977-2009. 2013 Mark P. Cosgrove, Professor of Psychology, 1976-2021. Roger W. Phillips, Associate Professor; Library, 1982-2006. Timothy C. Diller, Professor of Computing and System Sciences, 1981-2005. Ianice L. Pletcher, Assistant Professor of Communication Arts, 1987-2005. Richard Dixon, Professor of Modern Languages, 1982-2002. Bruce A. Pratt, Associate Professor of Kinesiology, 1992-2017. Randall Dodge, Associate Professor; Dean of Student Development, 1984-1988, 1997-2009. Roger Ringenberg, Associate Professor of World Missions and Biblical Studies, 1983-2015. Ruth Elder, Associate Professor: Assistant Librarian, 1992-2009. William C. Ringenberg, Professor of History, 1967-2008. Lee Erickson, Professor of Economics, 1979-2017. Patricia C. Robertson, Professor of Music, 1998-2021. George A. Glass, Associate Professor of Physical Education, 1960-1999. Roger W. Roth, Associate Professor of Physics, 1965-1998. Bud Hamilton, Assistant Professor; Athletic Director, 1990-2009. Paul E. Rothrock, Professor of Environmental Science and Biology, 1981-2014. Paul M. Harms, Associate Professor of Mathematics, 1971-1997. Jessica L. Rousselow-Winquist, Professor of Communication, 1967-2016. Cathy J. Harner, Professor of Social Work, 1992-2020. James Saddington, Associate Professor of History, 1988-2007. Albert D. Harrison, Professor of Music, 1978-2018. Iohn Schutt. Professor of Biology and Environmental Science, 1988-2009. George W. Harrison, Professor of Biology, 1963-1994. Carl R. Siler. Professor of Education, 1996-2012. Ronald Sloan, Professor of Music, 1981-2007. Barbara A. Heavilin, Associate Professor of English, 1991-2009. Larry R. Helyer, Professor of Biblical Studies, 1979-2008. Dan P. Smith, Assistant Professor of Chemistry, 1992-2007. Kathryn A. Herrmann, Assistant Professor of Art, 1998-2021. Stephen J. Snyder, Professor of Psychology, 1982-2021. Timothy W. Herrmann, Professor of Higher Education, 1999-2021. E. Richard Squiers, Professor of Environmental Science, 1976-2012. David D. Hess. Associate Professor of Education, 1967-1997. Sonia Strahm, Associate Professor: Director of Academic Center for Enrichment, 1977-2009. M. Jane Hodson, Associate Professor of Education, 1966-1997. Kenneth D. Swan, Professor of English, 1968-2001. Stephen P. Hoffmann, Professor of Political Science, 1976-1977, 1981-2010. Donald Taylor, Professor of Kinesiology, 1991-2017. William E. Toll, Dean of Natural and Applied Sciences; Professor of Computer Science Dale M. Jackson, Professor of Communication Arts, 1966-2000. and Engineering, 1990-2018. Dwight Jessup, Professor of History and Political Science, 1993-2004. Cynthia A. Tyner, Professor of Education, 1996-2021. Dale S. Keller, Professor of Communication, 2000-2018. Michael VanHuisen, Assistant Professor; Assistant Librarian, 1985-2009. Jay Kesler, President; Chancellor, 1985-2003. Henry D. Voss, Professor of Physics and Engineering, 1994-2016. Charles B. Kirkpatrick, Professor of Communication Arts, 1979-2002. Andrew Whipple, Professor of Biology, 1984-2015. Patricia E. Kirkpatrick, Associate Professor; Academic Enrichment Center, 1982-2004. Alan H. Winguist, Professor of History, 1974-2016. Philip K. Kroeker, Professor of Music, 1963-1996. Larry E. Winterholter, Associate Professor of Physical Education and Human Performance, Linda J. Lambert, Instruction Librarian; Associate Professor, 2001-2019. 1979-2010 Laurie J. Wolcott, Technical Services Librarian, Associate Professor, 1983-2014.
