## ADVISOR RESIGNS

April 23, Syracuse, New York-- Dr. William Stiteler announced his resignation as Not-Hole faculty advisor in a nationally telecast news conference this afternoon.

Stiteler has been the target of intense campus pressure following allegations that he had purchased (given a mound shaped distribution)  $68\% \pm$  one standard deviation of this year's Not-Whole supplies at the Varsity. An investigation of the charges revealed repeated irregularities in Dr. Stiteler's behavior. A two person (really 1.96 person) investigative panel concluded, "without a doubt" that Dr. Stiteler used Not-Whole funds to buy himself lunch at the Varsity, and may have squandered the remainder of the budget on gambling debts, video games, and ice cream sandwiches.

Former Not-Whole Co-Editor, Cary Dustin, reached at his high-rise Syracuse Play-Boy apartment, expressed his surprise. "I can't understand why Dr. Stiteler would do that. We haven't seen him in such a long time."

Stiteler, found at a certain M-Street eating establishment during lunch time, regretted any "judgemental errors" that he might have made. Commented Stiteler between mouthfuls, "Tell the staff that I want to apologize. I tried to the other day, but I couldn't find their office."

*More on p. 13*

*The Not Whole is nonsense. It is published by the SNUY College of Industrial Science and Exploitation whenever we get around to it. We will not print anything, we will crack jokes about everyone, and we will pay attention only to ourselves! We reserve the right to steal, cheat, and lie to obtain stories, no matter whether they are true, rumour or complete concoctions. Needless to say (we hope), nothing contained in this paper (unless otherwise noted) bears any resemblance to fact. The Not Whole office is located on the fifth floor of Bray and disappeared in the last wind storm.*

## Editorial

The Not Whole will no longer accept opposing viewpoints, even if they agree with ours. Freedom of the press only goes so far! It's time we ask ourselves, "Who's in charge here?" Well the answer is "Al Haig, thats who."

Since I'm in charge, I'm going to tell it like it is - my way. Some may call me biased, some may cry, "Unfair", but you just don't have all the facts that I have. If you had all the facts you'd see the truth my way.

I don't want to hear any more belly--aching from student council about vending machines or snack bar prices or library hours or muddy quads. I'm busy! I've got a newspaper to publish, an invasion to stop, and a coup to finish. You should be glad you get this paper at all!

In the future, this paper will publish editorial opinions as the issues warrant. When you vote, you will do it right - my way. If you don't like it, move to another country.

Al Haig

## To The Editor:

Recently there has been a great deal of commotion about freezing nuclear weapons. I would just like to comment that since we have more bombs than we need right now, it's a good idea to freeze all the new weapons we build. They won't spoil, and then when we do need them, we can thaw them out and they'll be fresh.

E. Litella

## To The Editor:

To the editor of the Notwhole,

This letter is in regards to the picture and caption (and I use that word loosely) that appeared on page 6 of last week's Knothole. I'm referring to the one with the accident involving the truck carrying the radioactive wastes and the traffic reporter in the helicopter commenting on residual radiation. This depicts traffic reporters as environmentally unconcerned, callous and uncaring.

Especially since this is an environmental school, indeed one of our curriculums is Environmental Helicopter Traffic Reporting, I would think that we would be more aware of what the actual response of an Environmental Helicopter Traffic Reporter would be. First, you don't even Mention the word radiation because that would start a panic situation. Seco-nd, you fly your copter right the hell out of the state before your reproductive cells start dancin' on their flagella. Finally, you call your relatives and tell them not to engage in sexual intercourse until the bedposts stop glowing. Thank-you for letting me clear up these inaccuracies.

Sincerely,  
Captain Scott King  
and WHEN Radio

## BIRDING

This week in Oakwood large numbers of turkey vultures were found circling over the pile of stiffs which were stacked near the center of the cemetery. It was interesting to note that black squirrels were readily exploiting this temporarily abundant food source. Eric Gustafson and Dr. Vandruff have been studying this unique phenomenon by disguising themselves as dead people. On Saturday night, Bill Haines found a limp downy woodpecker in the cemetery and attempted to resurrect it by giving it a vigorous massage, however, it later expired, which seems to be a typical experience for foresters working with wildlife. Following Easter weekend, a profusion of multihued hybrid blooms were seen bursting forth into synthetic flower creating a carnival of color amongst the otherwise somber tombstone laden forest.

DROEGE

## COUNCIL CORNER

As the year ends, we would like to review some of our accomplishments. The past year's Student Council saved the campus from the deadly infiltration of ECO'ites, determined the quad to be MUDDY, took on the U.S. Marines and forced them to withdraw their invasion of the Marshall basement mailboxes, sold three books of stamps in small stores, had someone staff Small Stores for a whole hour one week, sponsored Dan Spada's successful takeover of the snack bar that lasted three days, planted land mines in the paths across the quad, erected anti-Otto fences to prevent the further loss of animal appendages, changed the name of the yearbook to the Empire Industrialist, and arranged to remove all food vending machines and replace them with machines containing key chains,

gum balls, birth control devices and Skoal.

Some of the great events we put on this year include the Staten Island Beach Party and the Square Dance with the Syracuse Symphony Orchestra. In addition, we arranged the financing for the Weyerhaeuser Dome to cover the quad and provide a year-round stadium for Woodsmen's Team events. Finally, we played an instrumental role in having Barb Hassenstab sworn in as the new president of the college.

In the year to come, we hope to accomplish even more great things. In December, we will hold the second annual Chilly Cook-Out. Once again, we will serve hot dogs at all council events. Of course, there will be some new events: The First Annual Rally in Support of Nuclear War with special guests Bomb Shelter and a Harp Seal hunting trip in March for all of us who want a cheap winter coat.

Topping off the year, of course, will be our gala celebration christening the new Dome. We will hold this event as the culmination of our traditional Earth Week festival. There will of course be huge quantities of beer and potato chips and free hot dogs for dinner. The keynote speaker will be James Watt. The Woodsmen's Team will introduce their new artificial wood and demonstrate how much easier it is to chop Duraflame logs than wood logs. The Botany Club will sell plastic seedlings - "they may not grow, but they won't wilt, either." The ECommittee will sponsor a debate on the merits of astroturf with Steve Finkelstein taking the "pro" side.

In budget hearings this year, we decided it would be much easier and fairer to all the clubs if we allocated \$25 for refreshments to everyone and spent the rest for Student Council stipends. At least we'll have more candidates! Finally, in our toughest austerity move of all, we decided to limit meetings to 15 minutes. If we can't get it done in 15 minutes, we shouldn't bother doing it!

I wish everyone a happy summer skiing. And remember - don't walk on the quad. If the land mines don't get you, the bulldozers will!

E. B. Nifkin  
President

# WANTED:

Dead or Alive

Cash reward will be given to anyone with information leading to the capture of the person or persons involved in locking the ESF flag up on the S.U. quad flagpole. This was a malicious act and it could happen to you. The police have named the perpetrator "1394" after our file number. "1394" is guilty of gross criminal offense and the attempt to stir up school spirit. Shame on you "1394".

If caught, "1394" will be hung upside down from the S.U. flagpole with a sign that will read: "Dear S.U. Security: please leave this flag up until 5p.m." The perpetrator will then be promptly xeroxed and filed away in Bray Hall until further notice.

Please help us solve this difficult before "1394" strikes again.

Thank you,  
Nasal Bathroom  
Scotland Yard

## Bio-illogical Control

I woke this morning sleepily,  
rubbed my eyes and chanced to see  
A baby roach about the size  
of a speck in grasshopper's eyes  
Scurrying across my kitchen shelf.

When I saw it I just laughed to myself  
And thought, "Too early in the morning to kill  
a little baby. I think I will  
Let it grow a little bigger, a little stronger,  
and let it live a little longer."

How strange the arbitrary power and  
the will that lay at my command  
To decree if it should live or die  
and mine the sole morality.  
In my hand to hold the fate  
of that which I did not create  
As if by some means I did rob  
this power from the lap of God.

Mine the verdict, mine the plea,  
I the ax and elegy  
From my lips the word to give  
that rules if it should die or live  
Now you may slugger.  
Exterminate the bugger  
But I couldn't do it though I tried.  
It would have been, well, pesticide.

(Thanks, Mary)

# FINALS

# CANCELED

In her first move as President of the College, Mrs. Hasenstab announced the cancellation of finals. E.B. Nifkin, reached for comment at his home in Tully said, "This is the first time in my 52 years at ESF that finals have been cancelled. I hope this is the start of a new tradition."

Hasenstab offered the announcement without comment at her first press conference. She did not offer any alternative method for assigning grades, but many professors have commented they feel this move will have little effect on their classes.

"We know who's going to pass and who's going to flunk. Finals were just an excuse to give us more work at the end of the semester."

In wake of the uncertainties aroused by this move, many rumors have reached the ears of Not Whole staffers, including one that would have Dr. Stiteler assigning grades according to a random sample of his class. Dr. Stiteler refused to comment on this or any other question we asked him.

A poll of the students found this to be the most popular decision ever taken by a college president, with 85% in favor, 15% not sure and 1 opposed.

Immediately upon hearing the news, the Student Council went into emergency session and found an extra \$10,000 not already budgeted. It was unanimously voted to spend the excess funds on a week long block party on the quad to replace the more staid atmosphere that usually accompanies the first week in May.

The highlight of the week will be a ground breaking ceremony for the new Weyerhauser Dome with the Grateful Dead performing. The council additionally will be selling T-shirts with baby blue sneakers instead of a maple leaf as the insignia.

Nifkin, the incumbent student council president for a record 49 years, said he is not sure what other ways the council will recognize Mrs. Hasenstab's move, but he is sure "she will be pleased."

# ADK

## TAPPA DA KEGGA

Hello again! This week's forestry fraternity report is being written in the ruins that used to be our beautiful frat house. Seems as though some irate administrator from ESF torched it last week after one of my famous articles appeared in the Knothole. Interviewed from the Public Safety Building, D wing Sheila O'Rourke claimed (with a heavy Boston accent) "I just couldn't stand his bad jokes anymore. I lost it."

In other news, the OCC womens field hockey team drank us under the table at our last party. Our basketball team suffered another crushing loss at the hands of the geriatric ward team from Upstate Medical Center. But we're still proud of our 2-16 record. We are making a road trip down to Cortland to find a couple of pledges who haven't called in about a week. I wonder if the blindfolds were too tight? We had our little sister rush this past weekend, nobody showed, but a good time was had by all!

Dangerous Skippy  
Master of Self-gratification

## Coffee House

COFFEEHOUSE - April 1, 1983  
Come build a house out of bricks from old coffee grounds. Cosponsored by the Mollet Club and the Recycling Club.

### Special Thanks to:

Julia, Joe, Sam Droege, Smop, Larry, Bill, Dr. White, Dr. Stiteler, Steve and the printing crew.

Extra special thanks to Fred and Cary who are graduating (congraduations, guys).

## The New GSA Budget

Expected income (several bank robberies, graft, pork barrels, etc.)	\$1,000,000.47
Allocations:	
Student Council	rob your own bank
Jim Kedenberg's habits	450,000.00
Academic enhancement	who needs it?
Round-the-world cruise for all GSA officers	99,467.99
Social	100,000.00
Filet mignon dinner for entire campus	are you kidding?
New car for Russ(he has expensive taste)	32,000.00
Dynamite the Dome party (open to entire campus)	7,947.01
Steak TGIF	5,001.00
Research-Do condors live in trees?	191,700.34
Statue of Dr. Payne guarding the quad	101,499.67
Pigeons for statue	no charge
Mailbox for Sam Droege	42.51
Theses for all grad students from Acme Thesis-by-Mail Company	300 @ \$10 3,000.00
Forged signatures from your committee-extra	1,500.00
Political payoffs	18.22
Scientific expedition to Atlantic City	56,194.30
Planting grass on old Dome site	789.11
Research-Is there sex after graduation? (and what is sex, anyway?)	<u>129,762.03</u>
Total (who needs a balanced budget-the Feds don't have one!)	\$1,178,922.25

## AG CLUB

### AGRICULTURE CLUB

We will be holding a meeting of the 'back 40' members of ESF. All students in the lowest 40% of their class will meet at 852 Sumner Ave., April 28 at 12:00 p.m. for a good ol' tobacco spit. There will be mucho (and motcho) contests including spitting for distance, accuracy, height, consistency, and who can chew the most Scoal or Copenhagen without O.D.ing. Sex will be the topic of conversation.

So check your E.W.M. and if you're in the lowest 40% of your class come on over.

P.S. We will also start a petition for a Scoal/Copenhagen vending machine on campus.

### BUFO Speaks, or Life in the fast lane

I was out enjoying the sun the other day when I got run over by a Maserati. Since I am no longer of this world, I must communicate my message through this newspaper.

Stay out of the fast lane, especially on sunny days. A Maserati is likely to run you over. You can take the slow lane or even the breakdown lane, it's still sunny there, but the fast lane is no place for a toad.

I'm telling you this for your protection. I'm worried by all my friends who seem to be hopping in the same dangerous way I was. Well look where I ended up. Squished in New York.

write this!*

# WHO NEEDS A JOB?

For the small percentage of May graduates who haven't found full-time employment, Career and Counseling Services has just received an avalanche of professional opportunities.

Date in: 4/19/81  
Item no.: PSE 9,765  
Position Title: Quality Control Engineer  
Employer: Weyerhaeuser Co.  
Description: Contribute to the degradation of regional air and water quality.  
Qualifications: Must be experienced at resource exploitation, and be unable to relate to crying Indians.  
Starting Salary: \$27,500

Date in: 4/11/82  
Item no.: FBO 002  
Position Title: Wildlife Biologist  
Employer: New York State Department of Environmental Conservation  
Description: Canine pellet survey  
Pay: Are you kidding?

Date in: 4/22/81  
Item no: LSA 001  
Position Title: Greenspace Planner  
Employer: Manlius Park Department  
Description: Maintain and operate our new high performance Toro lawn tractor  
Comments: B.L.A. with overseas study  
Salary: \$3.50 +tips

Date in: 4/6/82  
Item No.: FOR 026  
Position Title: Forest Crew Supervisor  
Employer: USDA Forest Service  
Description: Supervise Regional 5 man point sampling crew  
Qualifications: B.S. Forestry, Resource Mgmt. or related field. Translation: Female Puerto Rican Vietnam Veteran with a 10 point disability bonus, who's been in the woods once or twice and can distinguish trees from light poles  
Starting Salary: GS-Minority  
Application Deadline: 1/15/82

## GOV'T WORK

With the current state of the economy I know all you graduating seniors are a little scared of the job market. I would just like to take a moment to reassure you about your future.

We have a place for you! You are needed immediately, and we will even pay you. Just call me, toll free, anytime, or send in the coupon below. Remember to indicate your preference for geographical location, and include a second choice. Some spots are so "hot" we can't send everyone to their first choice.

R. Reagan

Yes, Mr. Reagan. Sign me up right away! My choice of location is:	
<input type="checkbox"/> Nicaragua	<input type="checkbox"/> Iran
<input type="checkbox"/> El Salvador	<input type="checkbox"/> Saudi Arabia
<input type="checkbox"/> Argentina	<input type="checkbox"/> Israel

Good morning, Mr. President. The news I have is bad,  
 You loved your beautiful ranch, I know, and this will make you sad—  
 Remember all those splendid trees? America needed the wood;  
 We begged them, spare the shrubs at least—it really did no good.  
 They told us it was biomass, and energy was needed;  
 At least you can be pleased with this: the total ranch was weeded.

But then 'twas rumored just below the surface lay good coal,  
 It seemed that they could mine it leaving just a shallow hole,  
 So all your ranch was strip-mined, its underbelly bared;  
 They tried, of course, their very best—your ranchhouse should be spared—  
 But geologic studies showed there might be oil down under,  
 America needs the oil, you know, so they ripped your house asunder.

## The President's Ranch,

### Alas

Remember the wildflowers, Nancy, that once rivaled your own beauty?  
 The bulldozers had to plow them up, 'twas only their doleful duty;  
 Remember the birds that used to sing? They're gone—but it was best  
 For had they stayed, there was no food, and nowhere left to nest;  
 And what of the deer and rabbits that once led you as you rode?  
 They're gone, of course—they thinned and died, bereft of their abode.

Where, you ask, are the profits someone surely must have banked?  
 We're sorry, Sir, none goes to you, not even will you be thanked,  
 But that's the American way, you know, for business must thrive,  
 Mourn not your ranch, our President, be glad that you're alive,  
 And now, at last, do you understand, with clarity superior,  
 Why Americans who love their land love not your Sec. Interior?

—R. T. SANDERSON

Attention Graduates! Bring this with  
 you to the Dome. We're gonna give it a  
 go during commencement!!!

"Lumberjack" Monty Python

I'm a lumberjack and I'm okay  
 I sleep all night and I work all day  
 I cut down trees, I eat my lunch  
 I go to the lavatory. (lavatree)  
 On wednesdays I go shopping  
 Have buttered scones for tea.

chorus

I cut down trees, I skip and jump,  
 I like to press wildflowers.  
 I put on women's clothing  
 And hang around in bars.

chorus

I cut down trees, I wear high heels,  
 Suspenders and a bra.  
 I wish I was a girlie,  
 Just like my dear papa.

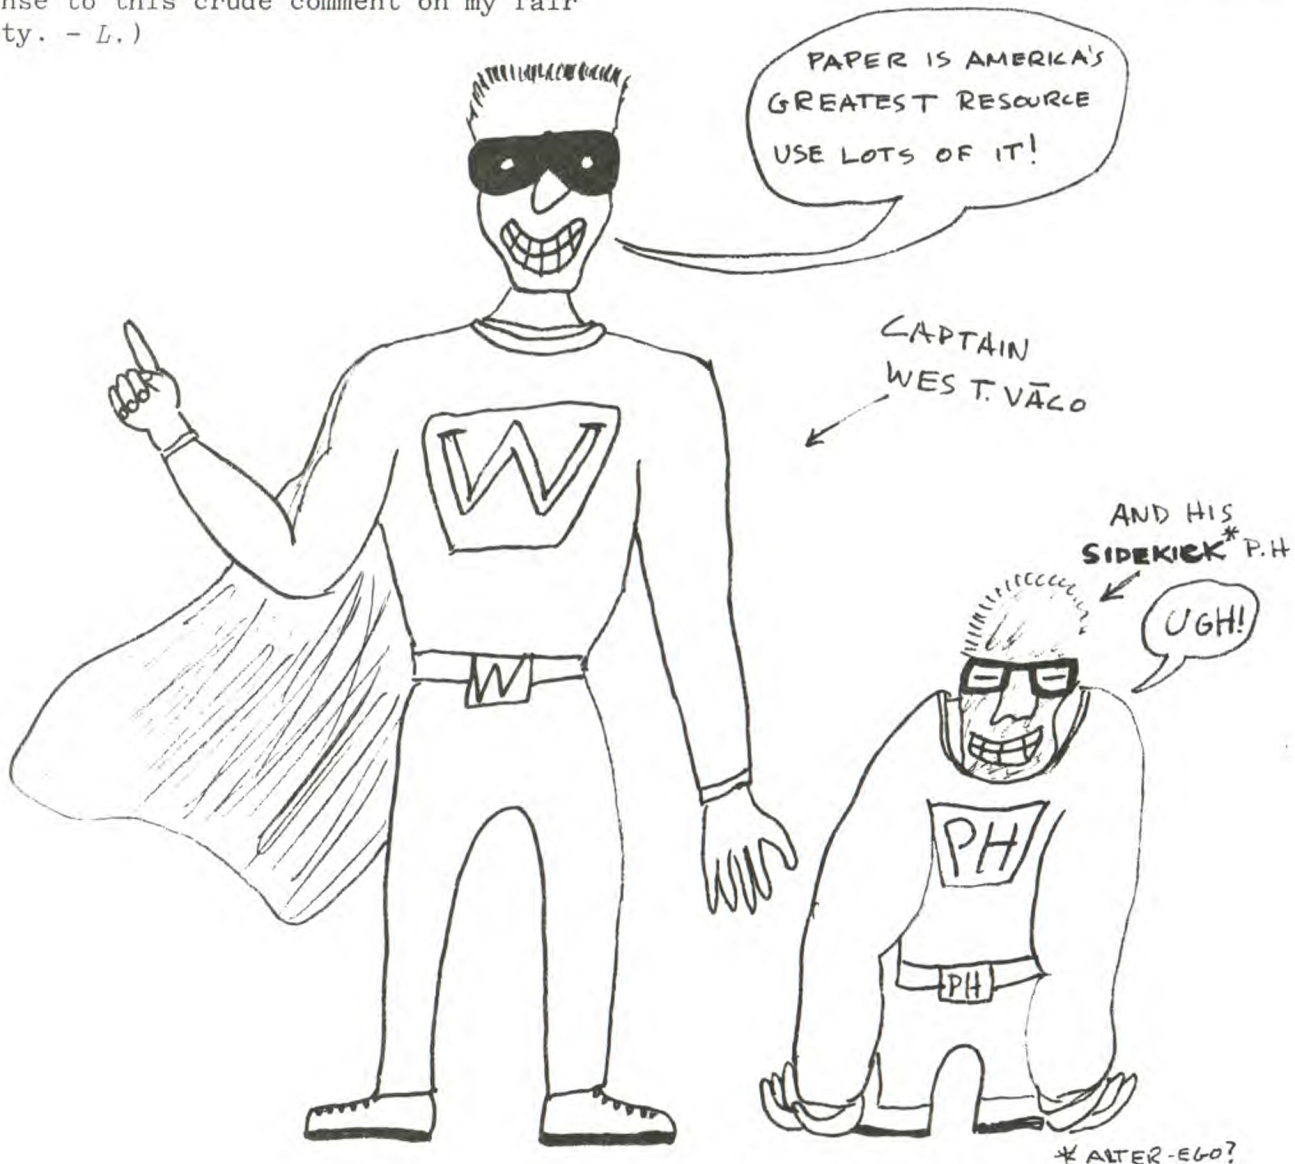

chorus

ESF Vice-President of Student Follies  
 Gary Wilson

# WARNING! SERIOUS PAGE

**gsa** news

seniors

Will all new GSA reps please contact Russ Briggs (our president, for those of you didn't wait for the election results with baited breath) and tell him how he can get in touch with you (i.e. where is your office?) Russ lives in 344 Illick. Call hfm at extension 6775.

Secondly, at the new administration's first meeting, the budget was (seriously) allocated as follows:

Expected Income (not real money yet)	...\$6,600
Allocations:	
Student Council	\$ 900
Academic enhancement	\$2,600
Social	\$3,000
Recreational	\$ 100
	<hr/>
	\$6,600

We give money to Student Council in return for attending their social events and getting ticket subsidies to the fall barbecue and the spring banquet. Academic enhancement essentially supports our speaker series. We hope to have even better lecture series next year. Any suggestions for speakers will be appreciated. Contact Russ (if you have a strong heart). The social budget covers our TG's, picnic, square dance, ect. Recreational expenses are primarily for sports equipment, which all graduate students are welcome to use. If the graduate students in your department want to put on some sort of function (i.e. seminars, lectures) which is open to the entire campus, let us know and we might be able to cough up some money for you.

Lastly but not leastly, GSA presents: The last TGIF (of this semester) or A Farewell to Arms, (legs, hands, and feet of all graduate students who are leaving us) - Friday, April 30th at 4:30p.m. in Nifkin Lounge (where else?)

All graduate students, invited guests, staff, and administration are encouraged to attend to wish a fond farewell to those among our ranks who are presently searching for jobs.

## ATTENTION SENIORS

The senior class picnic is looking for entertainers. There will be an open mike for anyone who would like to play guitars, spoons, combs or anything you would like. Want to be a stand-up comic? Here is your chance. Want to try out your new play before it goes Broadway? Bring along a script and a cast and the stage is yours. The sign up sheet is on the bulletin board near Nifkin Lounge. Go ahead, this will be your last chance to look foolish in front of your classmates. If you have not paid your \$3.00 then do it this minute or it will be too late. Go to the student council office now!!

Sincerely,  
Senior Class Picnic Comm.

## MOON HOURS

Wednesday, 4/28	8am -1am
Thursday, 4/29	8am -1am
Friday, 4/30	8am -7pm
Saturday, 5/1	11am - 1pm
Sunday, 5/2	11am - 1am
Monday, 5/3	8am - 1am
Tuesday, 5/4	"
Wednesday, 5/5	"
Thursday, 5/6	8am -4:30pm
Friday, 5/7	"
Saturday and Sunday 8-9	CLOSED
Monday, 5/10	Begin summer hours
mon.-fri.....	8am - 4:30 pm

All library materials are due APRIL 28 (the last day of classes). Overdue notices will be sent on May 10th and fines will be effective on that day. Remember that fines are 50¢ per day, per book when book is returned (or \$1 per day per book if the library needs to send a bill).

Save yourself money and the library staff time by observing the APRIL 28 DUE DATE.
