Students seeking certification must meet requirements for entry into the Initial Teacher Preparation Program. The course of study requires completion of general education requirements, an approved teaching minor in a secondary subject area, the Physical Education major and professional education courses.

The course of study is uniquely designed to provide students with theoretical and practical knowledge of how to deliver physical education programming to K-12 students with and without disabilities. The Exemplary Physical Education Curriculum (EPEC) is used as a model to enable students to develop exemplary physical education programs upon graduation. The methods of teaching courses provide information on the sequencing and presenting of a wide variety of activities found within the public schools.

Fieldwork experiences are a critical component of the professional program. Extracurricular assignments enhance the practical application of knowledge learned within the classroom. Majors are required to complete a minimum of 100 hours of prestudent teaching experiences with students of all ages and abilities. Fieldwork experiences will begin in the freshman year, will include students with and without disabilities and will culminate in a one semester student teaching assignment with elementary and secondary students under the supervision of master teachers.

This program primarily serves the needs of K-12 school programs in Michigan and the United States. Faculty provide students with numerous opportunities for professional growth. Opportunities for additional certifications and endorsements such as water safety instructor (WSI), American Red Cross First Aid, coaching and certification in programs for students with disabilities are also available and strongly encouraged.

The Physical Education major program participates in the Honors College. Students wishing to enroll in the Honors Program must maintain a GPA of 3.3 and fulfill all requirements in specific honor courses. See the department honors adviser for specific information.

Physical Education Majors/Minors Academic Standards

Standard I

The following core physical education courses shall be completed by Physical Education majors prior to admission into the Initial Teacher Preparation Program in addition to other requirements currently in place.

PHED 100 - History and Foundations of Physical Education (2 hrs)
PHED 200 - Anatomy and Physiology (5 hrs)
PHED 204 - Kinesiology (Biomechanics of Physical Activity) (3 hrs)
PHED 260 - Motor Development (2 hrs)

Standard II

The following GPA requirements for Physical Education majors are required prior to being admitted to the student teaching experience.

Minimum cumulative GPA of 2.75 in the following core courses with no single grade lower than a C. (Initial Teacher Preparation Program overall GPA requirements remain in effect).

PHED 100 - History and Foundations of Physical Education (2 hrs)
HLED 210 - Standard American Red Cross First Aid (2 hrs)
PHED 200 - Anatomy and Physiology (5 hrs)
PHED 204 - Kinesiology (Biomechanics of Physical Activity) (3 hrs)
PHED 260 - Motor Development (2 hrs)
PHED 300 - Physiology of Exercise (4 hrs)
PHED 330 - Adapted Physical Education (3 hrs)
PHED 360 - Motor Learning (3 hrs)

Minimum grade of B in the following Methods of Teaching courses.

PHED 215 - Methods of Teaching Individual Sports (3 hrs)
PHED 217 - Methods of Teaching Team Sports (3 hrs)
PHED 219 - Methods of Teaching Rhythmic Activities, Fundamental Movement and Movement Education (3 hrs)

PHED 315 - Methods of Teaching Conditioning Activities (2 hrs)
PHED 317 - Methods of Teaching Elementary Physical Education (2 hrs)

Standard III

The following GPA requirements and minimum grade standard are required for the completion of the physical education minor and the physical education minor for special education majors.

- Overall cumulative GPA as required by the Initial Teacher Preparation Program.
- No single grade lower than C in any required class and GPA of 2.75 in minor courses.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:

1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 2 hours

- PEGN 210L - Lifetime Wellness and Fitness (Gen Ed Area V LBC) 2 hrs

Major Requirements: 37 hours

- HLED 210 - Standard American Red Cross First Aid 2 hrs
- PHED 100 - History and Foundations of Physical Education 2 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
- PHED 215 - Methods of Teaching Individual Sports 3 hrs
- PHED 217 - Methods of Teaching Team Sports 3 hrs
- PHED 219 - Methods of Teaching Rhythmic Activities, Fundamental Movement and Movement Education 3 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 300 - Physiology of Exercise 4 hrs
- PHED 315 - Methods of Teaching Conditioning Activities 2 hrs
- PHED 317 - Methods of Teaching Elementary Physical Education 2 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PHED 360 - Motor Learning 3 hrs

Professional Education Courses: 30 hours

Pre-admission: 4 hours

- EDPS 322 - Human Development and Learning 4 hrs

Phase I: 8 hours

- PHED 415 - Curriculum and Instruction in Physical Education 3 hrs
- PHED 470 - Assessment and Evaluation in Physical Education 2 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: 5 hours

- PHED 370 - Physical Education Applied Technologies 2 hrs
- RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: 13 hours

- EDUC 496 - Student Teaching 6 hrs
- EDUC 497 - Student Teaching 6 hrs
- PHED 495 - Senior Seminar 1 hr

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Physical Education Non-Teaching Major

The physical education non-teaching option is available for students who wish to pursue careers in health and wellness other than the teaching of physical education. Graduates have found employment in fitness centers, as coaches of sports teams and in other sport-related fields and have used the degree for entry into graduate study in athletic administration, occupational and physical therapy and related careers.

Sport Management Major

Admission

Students who are interested in the sport management major will be listed as "pre-sport management" and will be considered for candidacy to "sport management" when the following criteria are met:

1. Declare intent to major in sport management with the Academic Advising Center in Pierce Hall and the School of Health Promotion and Human Performance.
2. Achieve an overall GPA at Eastern Michigan University of 2.5 (transfer GPA evaluated separately) after the sophomore year.

When a "pre-sport management" student has successfully achieved the above, he or she must complete the candidacy application, including the application form, one professional letter of recommendation, and a biographical sketch and turn this in to the assigned department advisor. Once accepted into candidacy, the student must maintain a minimum 2.5 GPA. The student will not be allowed to complete the Fieldwork experience any semester the overall average falls below 2.5. In addition, a grade of B- or better must be attained in the following courses: SMGT 255, SMGT 375, SMGT 445.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
 School Contact: ckarshin@emich.edu
 Website: <http://www.emich.edu/hphp/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Required Core Courses: 36 hours

- LAW 411 - Sports Law 3 hrs
- SMGT 201 - Foundations of Sport Management 3 hrs
- SMGT 255 - Social Psychology of Sport 3 hrs
- SMGT 325 - Sport Facilities 3 hrs
- SMGT 375 - Sport and Event Planning 3 hrs
- SMGT 385W - Introduction to Research in Sport Management (Gen Ed Area I, W) 3 hrs
- SMGT 425 - Diversity in Sport Organizations 3 hrs

- SMGT 445 - Sport Economics and Finance 3 hrs
- SMGT 460 - Sports Ethics 3 hrs
- SMGT 493 - Fieldwork in Sport Management I 3 hrs
- SMGT 495 - Fieldwork in Sport Management 3 hrs
- SMGT 494 - Fieldwork in Sport Management 3 hrs

Possible Electives:

- SMGT 477 - Special Topics 1 hr
- SMGT 478 - Special Topics 2 hrs
- SMGT 479 - Special Topics 3 hrs
- SMGT 511 - NCAA Compliance 3 hrs

Minor Requirements:

This major requires a minor. Choose a minor from the following:

Communication Minor
 Entrepreneurship Minor
 Nonprofit Administration Minor
 General Business Minor - (For nonbusiness majors)
 Hotel and Restaurant Management Minor
 Management Minor - (For nonbusiness majors)
 Marketing Minor - (For nonbusiness majors)

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Minor

Coaching Minor

This program is intended for students planning to pursue coaching as a full- or part-time activity. The minor is not considered a teacher minor for education majors.

Minor Requirements: 23 hours

Required Courses: 13 hours

- HLED 490 - Drug Use and Abuse 3 hrs

- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 421 - Legal Aspects of Sport, Physical Education, and Recreation 2 hrs
- SPMD 380W - Behavioral Aspects of Sports Medicine (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 10 hours

Four to six hours from the following:

- Other Theory Coaching Courses
- ATHL 263 - Theory of Football 2 hrs
- ATHL 265 - Theory of Baseball 2 hrs
- ATHL 267 - Theory of Basketball 2 hrs
- ATHL 268 - Theory of Coaching Swimming 2 hrs
- ATHL 269 - Theory of Track and Field 2 hrs

Four to six hours from the following:

See advisor for other approved electives.

- ATHL 261 - Techniques of Officiating I 2 hrs
- ATHL 262 - Techniques of Officiating II 2 hrs
- PHED 305 - Practical Concepts of Conditioning 2 hrs
- PHED 316 - Foundations of Coaching 2 hrs
- PHED 360 - Motor Learning 3 hrs
- PHED 389 - Sport and Activity for the Disabled 1 hr
- PHED 405 - Women in Sports 3 hrs
- PHED 477 - Special Topics 1 hr
- PHED 478 - Special Topics 2 hrs
- PHED 479 - Special Topics 3 hrs

Minor Total: 23 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).

- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Health Education Minor

This program is intended for students who wish to pursue a career in community health education. The minor is not considered a teaching minor for education majors.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
School Contact: ckarshin@emich.edu
Website: <http://www.emich.edu/hphp/>

Adviser Information:

Joan Cowdery
jcowdery@emich.edu

Minor Requirements: 20 hours

Required Courses: 17 hours

- HLED 130 - Healthy Sexuality 3 hrs
- HLED 210 - Standard American Red Cross First Aid 2 hrs
- HLED 270 - Principles of Health Education 3 hrs
- HLED 305 - Current Health Issues I 3 hrs
- HLED 315 - Current Health Issues II 3 hrs
- HLED 490 - Drug Use and Abuse 3 hrs

Restricted Elective Courses: 3 hours

Students will choose three credit hours of health-related coursework in consultation with their health minor adviser.

Minor Total: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Physical Education Minor for Special Education Majors-Special Education-Elementary and Special Education-Secondary Teacher Certification

This program is intended for special education majors interested in a teaching minor in adapted physical education. The minor in adapted physical education is designed for undergraduates who wish to earn the State of Michigan Endorsement for Teachers of Students with Disabilities. Because it is a minor, students are required to meet University requirements governing minors as well as the competencies in the revised *Administrative Rules for Special Education* (April, 1997).

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in physical education, certification code MB, according to their major area of study (i.e., a secondary education

major will receive a secondary education endorsement). The Michigan Test for Teacher Certification (MTTC) covering this field is #044, "Physical Education," and should be taken at the completion of the program.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
School Contact: ckarshin@emich.edu
Website: <http://www.emich.edu/hphp/>

Minor Requirements: 24 hours

Required Courses: 20 hours

- ** PHED 200 - Anatomy and Physiology 5 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 300 - Physiology of Exercise 4 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PHED 388 - Assessment in Adapted Physical Education 1 hr
- PHED 389 - Sport and Activity for the Disabled 1 hr
- PHED 415 - Curriculum and Instruction in Physical Education 3 hrs
- PHED 434 - Adapted Preschool Physical Education 1 hr

Restricted Elective Courses: 4 hours

Four hours from the following:

- PHED 215 - Methods of Teaching Individual Sports 3 hrs
- PHED 217 - Methods of Teaching Team Sports 3 hrs
- PHED 313 - Methods of Teaching Gymnastics 2 hrs
- PHED 315 - Methods of Teaching Conditioning Activities 2 hrs
- PHED 317 - Methods of Teaching Elementary Physical Education 2 hrs
- PHED 319 - Methods of Teaching Aquatics 2 hrs
- * PHED 490 - Field Experience in Adapted Physical Education 4 hrs

Minor Total: 24 hours

Notes:

All minors must have at least six hours of course work at the 300-level or above.

** This course is required for those students seeking the State of Michigan Endorsement as a Physical Education Teachers for Students with Disabilities.*

*** Majors in physically and otherwise health impaired (POHI) are exempt from this requirement. However, students must select an additional five credit hours of electives in consultation with the adapted physical education adviser.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

University Information: Consult the online catalog at catalog.emich.edu.

Recreation and Park Management Minor

The mission of the recreation and park management minor is to provide a core of training that is sufficient in depth and breadth for individuals from a variety of specializations to become employed in public and private agencies to supervise recreation facilities and provide recreation services. The need to integrate into the community, to reposition the recreation profession as a catalyst for decision making, and to assist in solving community problems are emphasized. Training in the minor is directed to heighten concern for providing recreation opportunities in an increasingly pluralistic society and to promote environmental stewardship and sustainability.

The recreation and parks management minor is aimed at:

1. Majors who desire training in the recreation industry and who are concurrently acquiring knowledge and skills in, for example, business, the humanities and social sciences.
2. Individuals seeking training in the recreation industry after earning a degree, but who choose not to seek a second degree.
3. Individuals who already have a degree and who have or who are working in a variety of fields but seek a change in employment to the recreation industry.
4. Majors in other fields who want to develop additional employment opportunities in the recreation industry in addition to their own specialization.
5. Individuals who desire knowledge and skills of the recreation industry.

Objectives of the minor:

1. To build on an existing and/or developing base of knowledge and skills in other occupational areas.
2. To provide knowledge and skills to succeed in the recreation industry.
3. To provide knowledge of leisure and recreation as phenomena in society.
4. To provide the opportunity to earn the minor in two semesters for individuals seeking to retool in an occupational specialty.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
School Contact: ckarshin@emich.edu
Website: <http://www.emich.edu/hphp/>

Required Courses: 9 hours

- RECR 100L - Introduction to Recreation and Leisure (Gen Ed Area V LBC) 3 hrs
- RECR 260 - Recreation Leadership 3 hrs
- RECR 360 - Recreation Program Planning 3 hrs

Restricted Elective Courses: 15 hours

- RECR 271 - Park Maintenance 3 hrs
- RECR 280L - Camping (Gen Ed Area V LBC) 2 hrs
- RECR 290 - Practical Research in Recreation 3 hrs
- RECR 370 - Leisure Facility Design and Management 3 hrs
- RECR 390 - Outdoor Recreation 3 hrs
- RECR 450 - Park Planning and Design 3 hrs
- RECR 460 - Park and Recreation Administration 3 hrs
- RECR 465 - Park and Recreation Management 3 hrs

Minor Total: 24 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Secondary Education Physical Education Minor

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in physical education, certification code MB, according to their major area of study (i.e. a secondary education major will receive a secondary education endorsement). The Michigan Test for Teacher Certification (MTTC) covering this field is #044, "Physical Education," and should be taken at the completion of the program.

School of Health Promotion and Human Performance Information:

School Director: Christine Karshin
 School Contact: ckarshin@emich.edu
 Website: <http://www.emich.edu/hphp/>

Minor Requirements: 25 hours

- PHED 200 - Anatomy and Physiology 5 hrs
- PHED 204 - Kinesiology (Biomechanics of Physical Activity) 3 hrs
- PHED 260 - Motor Development 2 hrs
- PHED 300 - Physiology of Exercise 4 hrs
- PHED 315 - Methods of Teaching Conditioning Activities 2 hrs
- PHED 330 - Adapted Physical Education 3 hrs
- PHED 415 - Curriculum and Instruction in Physical Education 3 hrs

One course from the following:

- PHED 215 - Methods of Teaching Individual Sports 3 hrs
- PHED 217 - Methods of Teaching Team Sports 3 hrs

Minor Total: 25 hours

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that

they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. Athletic Training

ATTR 201 - Human Anatomy for Sports Medicine

Required lecture course for sports medicine majors that examines the structure of the human body. In addition to lecture format, computer graphic software will be utilized to enhance the learning process.

Credit Hours: 3 hrs

Prerequisite: departmental permission and 2.5 GPA in sports medicine

Corequisites: ATTR 202

Cross-Listed with: SPMD 201

Last Updated: 2/28/2011

ATTR 202 - Human Physiology for Sports Medicine

Required lecture course for sports medicine majors that examines the structure and function of the human body.

Credit Hours: 3 hrs

Prerequisite: departmental permission and 2.5 GPA in sports medicine

Corequisites: ATTR 201

Class Restrictions: Sophomore standing or above

Cross-Listed with: SPMD 202

Last Updated: 2/28/2011

ATTR 219 - Introduction to Athletic Training

An introduction designed to expose the student to the discipline of athletic health care. The student will study modern concepts of the prevention and care of athletic injury and common health care issues.

Credit Hours: 3 hrs

Prerequisite: SPMD 119

Last Updated: 2/28/2011

ATTR 225 - Practicum I

A required course that will provide students with information regarding basic skills of athletic training. The content of the course will involve taping and wrapping skills, stethoscope and blood pressure measurement techniques, basic modality usage, record keeping, OSHA training and ambulatory aid fitting and usage.

Credit Hours: 3 hrs

Prerequisite: GPA 2.8, SPMD 119 and department permission

Last Updated: 2/28/2011

ATTR 290 - Practicum II

Students will be provided with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve topical anatomy identification and assessment, situational orthopedic assessment, development of taping, padding and bracing skills, emergency care and professional CPR training. The clinical component will require a minimum of 15 hours per week.

Credit Hours: 2 hrs

Prerequisite: ATTR 225, 2.9 GPA and department permission

Corequisites: ATTR 296 and ATTR 304

Major Restrictions: Athletic Training major

Last Updated: 2/28/2011

ATTR 295 - Assessment of Lower Body Injuries

A study of the principles, procedures and techniques that are commonly utilized in the recognition and assessment process of athletic injury to the lower body. Emphasis is placed on taking a history, physical examination and the special tests of athletic injury. The course is lecture and lab. However, demonstrations and practical skill analysis supplement the course.

Credit Hours: 3 hrs

Prerequisite: ATTR 290 and ATTR 296

Corequisites: ATTR 310, ATTR 321 and ATTR 326

Last Updated: 2/28/2011

ATTR 296 - Assessment of Upper Body Injuries

A study of principles, procedures and techniques that are commonly utilized in the recognition and assessment process of athletic injury to the upper body. Emphasis is placed on taking a history, physical examination and the special tests of athletic injury. The course is lecture and lab. However, demonstrations and practical skill analysis supplement the course.

Credit Hours: 3 hrs

Prerequisite: ATTR 219, ATTR 201, ATTR 202 and ATTR 225

Corequisites: ATTR 290 and ATTR 304

Last Updated: 2/28/2011

ATTR 304 - Structural Kinesiology

This course involves a study of the basic functional anatomy and kinesiology principles. Emphasis will be placed on musculoskeletal anatomy including, muscle origins and insertions. Additionally, special attention will be placed on joint motion identification and quantification. An understanding of basic bio-mechanics principles will also be covered, as well as general body movement analysis.

Credit Hours: 3 hrs

Prerequisite: ATTR 201, ATTR 202, ATTR 219 and ATTR 225

Corequisites: ATTR 290 and ATTR 296

Last Updated: 2/28/2011

ATTR 310 - Emergency Care in Athletic Training

Students will learn how to handle emergency situations in the arena of athletic training. This will include skills in spine boarding, oxygen administration and more advanced emergency skills. Students will also learn how to perform the skills of CPR, rescue breathing and how to use an automatic defibrillator.

Credit Hours: 2 hrs

Corequisites: ATTR 295, ATTR 321 and ATTR 326

Major Restrictions: Athletic Training Majors only

Last Updated: 2/28/2011

ATTR 321 - Therapeutic Modalities for AT. with Lab

A detailed study of theory, applications, physiological effects, and indications and contradictions of commonly used therapeutic modalities in the practice of athletic training. A laboratory experience is included for "hands on" experience.

Credit Hours: 3 hrs

Prerequisite: ATTR 290, ATTR 296 and ATTR 304

Corequisites: ATTR 295, ATTR 310 and ATTR 326

Major Restrictions: Athletic Training Majors only

Last Updated: 2/28/2011

ATTR 322 - Therapeutic Exercise for Athletic Trainers with Lab

A study of the principles of applications, physiological effects and indications and contraindications of commonly used therapeutic exercise methods in the practice of athletic training. Students will be exposed to theory as well as practical applications of the rehabilitation techniques.

Credit Hours: 3 hrs

Prerequisite: ATTR 295 and ATTR 296

Corequisites: ATTR 327 and ATTR 419

Major Restrictions: Athletic Training major

Last Updated: 2/28/2011

ATTR 326 - Practicum III

A course designed to provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve situational orthopedic assessments (upper and lower extremity), review of therapeutic modalities, skill development in orthotic fabrication, imaging and special testing methods, nutritional aspects of sport, substance abuse counseling and exposure to general medical situations. The clinical component will require a minimum of 15 hours per week.

Credit Hours: 2 hrs

Prerequisite: ATTR 290

Corequisites: ATTR 310, ATTR 321 and ATTR 295

Major Restrictions: Athletic Training Majors only

Last Updated: 2/28/2011

ATTR 327 - Practicum IV

The course will provide students with an athletic training experience under the direct supervision of a certified athletic trainer. Course content will include orthopedic assessments, therapeutic modalities, pharmacological knowledge/application, and emergency situations. There will be skill development in the areas of strength/conditioning, rehabilitation and general medical conditions. The clinical component will require a minimum of 15 hours per week.

Credit Hours: 2 hrs

Prerequisite: ATTR 326 and department permission

Corequisites: ATTR 322 and ATTR 419

Major Restrictions: Athletic Training Majors only

Last Updated: 2/28/2011

ATTR 384 - Ergogenic Aids and Athletic Performance

The course will be designed to increase the student's awareness of nutritional and pharmacological supplements relative to athletic participation. A strong emphasis will also be placed on educating students in areas of performance enhancement through psychological intervention, nutritional planning and various strength and conditioning methods. Guest speakers and in-class laboratory activities will be utilized to enhance the educational learning experience.

Credit Hours: 2 hrs

Prerequisite: ATTR 201, ATTR 202, DTC 204 and SPMD 280

Major Restrictions: Athletic Training Majors only

Last Updated: 2/28/2011

ATTR 390 - Senior Practicum

A course designed to provide students with an athletic training experience under the direct supervision of a certified athletic trainer. The content of the course will involve general medical assessments, therapeutic rehabilitation, strength/conditioning program development, skills assessment in eating disorders, psychosocial management of injuries and health care administration. The clinical component will require a minimum of 15 hours per week.

Credit Hours: 3 hrs

Prerequisite: ATTR 327, 3.0 GPA and department permission

Corequisites: ATTR 420 and ATTR 485

Major Restrictions: Athletic Training major

Last Updated: 2/28/2011

ATTR 419 - Medical Aspects of Athletic Training

To expose students to various medical specialties that an athletic trainer is likely to utilize as medical support staff. Students will learn to perform pre-participation examinations, basic medical evaluations and learn decision-making skills, including proper medical referrals. This course is primarily lecture and guest speakers from allied health professions.

Credit Hours: 3 hrs

Prerequisite: ATTR 295 and ATTR 296

Corequisites: ATTR 322 and ATTR 327

Major Restrictions: Athletic Training major

Last Updated: 2/28/2011

ATTR 420 - Administrative and Legal Aspects of Athletic Training

This course examines the administrative and legal issues surrounding the field of athletic training. Students will learn the basis of management, program management, human resource management, finance resource management, facility design and planning,

information management, athletic injury insurance and legal considerations and how these apply to the profession to athletic training.

Credit Hours: 2 hrs

Prerequisite: ATTR 327 and department permission

Corequisites: ATTR 390 and ATTR 485

Class Restrictions: Senior standing

Major Restrictions: Athletic Training major

Last Updated: 2/28/2011

ATTR 485 - Seminar in Athletic Training

A course designed to prepare students for the internship experience and future employment in the athletic training profession. The three major components of the course include professional preparation, administrative principles and procedures, and certification examination preparation. The course delivery includes computer simulations, role-playing, collaborative interaction and individual activities.

Credit Hours: 3 hrs

Prerequisite: ATTR 327 and department permission

Corequisites: ATTR 390 and ATTR 420

Class Restrictions: Senior standing

Major Restrictions: Athletic Training major

Last Updated: 2/28/2011

ATTR 490 - Internship — Athletic Training

The course is clinical experience to be conducted at an off-campus agency. The agency provides direct supervision at the site. The student will be expected to increase his/her skills and knowledge in the domains of athletic training. This course will segue the Athletic Training student into the health care arena.

Credit Hours: 6 hrs

Prerequisite: department permission

Major Restrictions: Athletic Training major

Athletics

ATHL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ATHL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 261 - Techniques of Officiating I

An elective course offered to men and women students interested in pursuing officiating as an avocation or as an integral part of a coaching background. The course covers football and men's and women's basketball. Registration with the Michigan High School Athletic Association will be available.

Credit Hours: 2 hrs

ATHL 262 - Techniques of Officiating II

An elective course offered to men and women students who are interested in pursuing officiating as an avocation. The course would also be valuable to those students who are interested in coaching, as the coach-official relationship is a valuable tool in one's coaching background. The sports covered are: track and field, baseball and softball. There will be a practical phase as well as a lecture phase of instruction.

Credit Hours: 2 hrs

ATHL 263 - Theory of Football

Lecture course covering the basic fundamentals and styles of offensive and defensive football.

Credit Hours: 2 hrs

ATHL 264 - Theory of Soccer

The purpose of this course is to explore the theory of soccer from its history to the energy demands of the sport to its mental preparation as well as its technical structure. The course will rely on the latest research on the game and look for applied solutions to the problems that arise from the data. Technical and tactical theories will cover systems of play, passing and support to attacking and defending. Notational analysis will be used during laboratory sessions to further understand the sport.

Credit Hours: 3 hrs

ATHL 265 - Theory of Baseball

The fundamental skills and strategy of baseball for the prospective teacher and coach.

Credit Hours: 2 hrs

ATHL 267 - Theory of Basketball

Lecture course covering the basic fundamentals and styles of offensive and defensive basketball.

Credit Hours: 2 hrs

ATHL 268 - Theory of Coaching Swimming

ATHL268 is a lecture course for anyone who might coach swimming. The topics covered are stroke technique, applied physiology, strength and flexibility training, rules and how these components contribute to a daily, weekly and seasonal training plan.

Credit Hours: 2 hrs

ATHL 269 - Theory of Track and Field

The fundamental techniques for coaching and administering programs of track and field for the prospective teacher and coach.

Credit Hours: 2 hrs

ATHL 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ATHL 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 317 - Theory of Coaching Individual Sports for Women

Coordinates, correlates and supplements skills and information already conveyed in badminton, golf, tennis and archery activity classes. Place of individual sports in the school intramural and interschool programs, lesson plans, unit plans, techniques and strategies of advanced play, organization of a large class, evaluation of current literature pertinent to each activity.

Credit Hours: 2 hrs

ATHL 318 - Theory of Coaching and Teaching Women's Team Sports

Coordinates, correlates and supplements skills and coaching techniques introduced in activity courses. Field sports, volleyball and basketball.

Credit Hours: 2 hrs

ATHL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ATHL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ATHL 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ATHL 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ATHL 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 1 hr

Prerequisite: department permission

ATHL 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 2 hrs

Prerequisite: department permission

ATHL 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 3 hrs

Prerequisite: department permission

Exercise Science and Athletic Training

SPMD 119 - Orientation to Sports Medicine

A class for students interested in sports medicine. An introductory course to orient students to the specialized major areas of athletic training and exercise science.

Credit Hours: 1 hr

SPMD 144 - Introduction to Exercise Science

A required course for students interested in majoring in Exercise Science. Instruction will focus on program and professional issues, the basic concepts of exercise physiology and career preparation.

Credit Hours: 2 hrs

Last Updated: New Course 03/2012

SPMD 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SPMD 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SPMD 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SPMD 201 - Human Anatomy for Sports Medicine

Required lecture course for sports medicine majors that examines the structure of the human body. In addition to lecture format, computer graphic software will be utilized to enhance the learning process.

Credit Hours: 3 hrs

Prerequisite: BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science

Corequisites: SPMD 202

Cross-Listed with: ATTR 201

Course Revisions:

Course Revisions: This course will have a prerequisite change from "BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science" to "BIO 105 or BIO 110, CHEM 120 or CHEM 121/122, departmental permission and 2.5 GPA in Exercise Science," effective Winter 2013.

Last Updated: Prerequisite Change 04/2012, effective Winter 2013; Links 03/2011

SPMD 202 - Human Physiology for Sports Medicine

Required lecture course for sports medicine majors that examines the structure and function of the human body.

Credit Hours: 3 hrs

Prerequisite: BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science

Corequisites: SPMD 201

Cross-Listed with: ATTR 202

Course Revisions:

Course Revisions: This course will have a prerequisite change from "BIO 105 or BIO 110, departmental permission and 2.5 GPA in Exercise Science" to "BIO 105 or BIO 110, CHEM 120 or CHEM 121/122, departmental permission and 2.5 GPA in Exercise Science," effective Winter 2013.

Last Updated: Prerequisite Change 04/2012, effective Winter 2013; Links 03/2011

SPMD 221 - Therapeutic Modalities for Athletic Trainers

A detailed study, with laboratory experiences, of theory, applications, physiological effects, indications, and contraindications of commonly used therapeutic modalities in the practice of athletic training.

Credit Hours: 2 hrs

Prerequisite: SPMD 119

Last Updated: Links 03/2011

SPMD 269 - Anatomy and Physiology for Dietetics

This course will provide an essential examination of the structure and function of the human organism. Emphasis will be placed on the interactions of the body systems, and all aspects of anatomy and physiology will be presented as they relate specifically to the dietetics curriculum.

Credit Hours: 3 hrs

SPMD 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SPMD 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SPMD 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SPMD 280 - Pharmacology for Sports Medicine

Provides basic components of pharmacology, theories of drug actions, physiological processes mediating drug actions, variables affecting drug actions, benefits plus unusual and adverse drug therapy responses. Physiological and cultural aspects of drug therapy and self-medication are explored.

Credit Hours: 2 hrs

Prerequisite: BIO 105 or BIO 110, SPMD 202/ATTR 202, CHEM 120 or CHEM 121

Last Updated: Links 03/2011

SPMD 300 - Physiology of Exercise

A lecture/laboratory course concerned with human responses and adaptations to muscular activity. The enhancement of health and physical fitness for the general population, optimizing performance in the various types and levels of competitive athletics.

Credit Hours: 4 hrs

Prerequisite: SPMD 201/ATTR 201 and SPMD 202/ATTR 202 or equivalent (BIO 251 & BIO 252)

Cross-Listed with: PHED 300

Last Updated: Links 03/2011

SPMD 305 - Kinesiology-Tissue Mechanics

A required course for majors in the sports medicine program. Instruction will focus on the laws of physics as they are adapted to explain motion and human performance.

Credit Hours: 3 hrs

Prerequisite: SPMD 201/ATTR 201, SPMD 202/ATTR 202 and PHY 221

Last Updated: Links 03/2011

SPMD 318 - Laboratory in Human Anatomy

A laboratory of gross anatomy utilizing computer graphic software and/or plasticized modes. Material is designed to accompany the lecture material in SPMD 201.

Credit Hours: 2

Prerequisite: BIO 105 or BIO 110

Corequisites: SPMD 201

Last Updated: 2/7/2011

SPMD 325 - Practicum in Exercise Science

A 120-hour observational experience in a department-approved agency under the supervision of certified personnel. Areas of observation may include but are not limited to cardiac rehabilitation, wellness center management, worksite health promotion or strength and conditioning.

Credit Hours: 2 hrs

Prerequisite: SPMD 300 and department permission

Major Restrictions: Exercise Science major

Last Updated: Links 03/2011

SPMD 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SPMD 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SPMD 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SPMD 380W - Behavioral Aspects of Sports Medicine (Gen Ed Area I, W)

A course to teach student psychological skills that can be applied to facilitate the rehabilitation process. The student will be able to motivate patients/injured athletes to adhere to their treatment program, manage their illness/pain more effectively and rebuild their confidence in their physical skills.

Credit Hours: 3 hrs
Prerequisite: PSY 101

Last Updated: Links 03/2011

SPMD 407 - Fitness Center Management

This course examines the role of fitness in worksite health promotion and disease prevention. Coursework will emphasize the effective management and implementation of corporate fitness programs, as well as the health and economic benefits of physical activity in the workplace.

Credit Hours: 3 hrs
Prerequisite: Department permission
Class Restrictions: Junior or Senior status
Major Restrictions: Sports Medicine-Exercise Science, Health Education or Sport Management
Last Updated: February 27, 2011; effective Spring 2011

SPMD 410 - Laboratory Techniques in Human Performance Analysis

A lecture and laboratory course that emphasizes exercise testing and assessment techniques. Specific instruction will focus on assessing anaerobic capacity, indirect and direct measures of aerobic capacity, graded exercise testing, various body composition techniques and strength and flexibility assessment.

Credit Hours: 4 hrs
Prerequisite: PHED 300/SPMD 300 and candidacy
Last Updated: Links 03/2011

SPMD 430 - Principles of Electrocardiography

A three-hour undergraduate course on the basics of electrocardiography. The student will learn the basic concepts of conduction, rate, rhythm, axis determination, hypertrophy infraction and the effects of drug therapy.

Credit Hours: 3 hrs
Prerequisite: PHED 300/SPMD 300 and candidacy
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPMD 431 - Pathophysiology for Sports Medicine

A required course for sports medicine majors that relates normal body functioning to the physiologic changes that occur as a result of injury and disease, and examines the effects of physical activity on these processes.

Credit Hours: 3 hrs
Prerequisite: PHED 300/SPMD 300 and candidacy
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Last Updated: Graduate Credit 07/2011; Links 03/2011

SPMD 432 - Introduction to Exercise Programming

A required course for students majoring in exercise science. This course provides information needed to develop, implement, and manage exercise programs in a variety of settings. Within the context of each program setting the following issues will be

discussed: 1) the health screening; 2) implementation and management of the exercise prescription; 3) identification and development of exercise leadership skills; and 4) exercise compliance issues.

Credit Hours: 3 hrs

Prerequisite: SPMD 410 and candidacy

Last Updated: Links 03/2011

SPMD 433 - Principles of Strength and Conditioning

The purpose of this course is to have the student integrate components within the discipline of exercise science (e.g., exercise physiology, biomechanics, growth and maturation, nutrition, etc.) and demonstrate an understanding of their utility in the design and implementation of aerobic and anaerobic exercise programming. Special emphasis will be placed within the area of resistance training, and the opportunity to prepare for professional fitness certification.

Credit Hours: 3 hrs

Prerequisite: (SPMD 305 or PHED 204), PHED 300/SPMD 300

Class Restrictions: Junior or Senior standing or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPMD 434 - Introduction to Echocardiography

This course is designed to give students the fundamental background in echocardiography, cardiac anatomy and function, cardiac disease states and proper terminology which will allow students entering the health care professions the ability to understand and analyze a basic two-dimensional echocardiogram.

Credit Hours: 2 hrs

Prerequisite: SPMD 430

Last Updated: Links 03/2011

SPMD 477 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 1 hr

SPMD 478 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 2 hrs

SPMD 479 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 3 hrs

SPMD 480 - Internship — Exercise Science

A 600-hour full semester field experience in a department-approved agency under the supervision of certified personnel. Areas of specialization include but are not limited to cardiac rehabilitation, wellness center management, worksite health promotion or strength and conditioning.

http://www.emich.edu/hphp/pdf/es_student_intern_manual.pdf

Credit Hours: 8 hrs

Prerequisite: Candidacy and department permission

Last Updated: Links 03/2011

SPMD 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

SPMD 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SPMD 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SPMD 508 - Exercise Epidemiology

SPMD 508 examines the relationship between physical activity and the burden of disease in the population. Specifically, activity's role in health promotion and disease prevention will be emphasized. Students will gain a basic understanding of the principles of epidemiology and specific measurements of physical activity in the population setting.

Credit Hours: 3 hrs

Prerequisite: PHED 300/SPMD 300

Last Updated: Added to Catalog 04/2012

SPMD 515 - Diabetes and Obesity

This course will provide students in clinical fields of study the knowledge and practical skills to understand the concepts of diabetes and obesity and the implications towards health status. In addition, the role of lifestyle modification will be examined in relation to managing both conditions and improving potential morbidity. Course available only to students in the Physical Education, Sports Medicine, Exercise Physiology, Health, Orthotics and Prosthetics, Dietetics, Nursing, Social Work, Occupational Therapy, Psychology and Biology programs.

Credit Hours: 3 hrs

Last Updated: Added to Catalog 04/2012

SPMD 518 - Sports Supplements

Graduate students interested in nutritional products that are purported to enhance athletic performance, further their understanding of exercise physiology through this course. Examination of research articles, student presentations, writing assignments and traditional lectures will enable the students to critically evaluate such compounds.

Credit Hours: 3 hrs

Prerequisite: PHED 300/SPMD 300 or equivalent

Last Updated: Added to Catalog 04/2012

General Activity

PEGN 101 - Weight Control and Fitness

The purpose of the course is to relate pertinent information about the effects of exercise and nutrition upon the human organism, to understand its structure, function, capabilities and limitations, and experience some of the effects of exercise and improved nutrition.

Credit Hours: 2 hrs

PEGN 102 - Aerobic Dance

A course in which the student can experience physical conditioning and fitness, utilizing dance and music as the medium for aerobic exercise.

Credit Hours: 1 hr

PEGN 103 - Ballroom Dance

Students will learn theory, technique and beginning patterns in merengue, swing, fox trot, waltz, tango and ballrooming.

Credit Hours: 1 hr

PEGN 104 - Cardio Kickboxing

A noncontact aerobic workout with the dynamic punching and kicking of the martial arts and boxing. Cardio Kick movements are very easy to follow and are choreographed to music.

Credit Hours: 1 hr

PEGN 106 - Kendo

This course introduces Kendo and the philosophy behind the Japanese culture of Bushido. Kendo is a martial art form that is focused on the development of the spirit as well as the physicality of the body.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 107 - Water Aerobics

This course will incorporate exercises designed to increase cardiovascular fitness, balance, flexibility, strength and muscular endurance. The class will utilize the shallow and deep areas of the pool. This is a class designed with low impact/no impact exercise for non-swimmers.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 108 - Basketball

The course is designed for the novice skilled player. The purpose is to learn the basics of individual and team play with emphasis on fundamentals.

Credit Hours: 1 hr

PEGN 110 - Beginning Tae Kwon Do

An introductory course showing the various techniques used in the art of self-defense. Students learn discipline, self-confidence and a vigorous physical activity.

Credit Hours: 1 hr

PEGN 111 - Volleyball

This course will provide opportunities to develop/improve basic volleyball skills, strategies and concepts via lecture, demonstration and laboratory experiences. The course is designed to enhance the student's performance and increase the enjoyment of participation.

Credit Hours: 1 hr

PEGN 112 - Spinning

A course designed to introduce indoor cycling as a workout along with core training exercises.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 113 - Core Training

This course is designed to introduce and teach students physical exercises and behaviors related to performance, care, and enhancement of the abdominal and lower back region of the human body. Coursework will include a review of basic functional

anatomy, concepts of resistance and aerobic exercise, and basic nutritional information.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 115 - Karate

This is a beginner's course in the art of self-defensive movements. The aim of self defense is to protect oneself from attack to the point where escape is possible. The student will be introduced to a variety of defensive movement.

Credit Hours: 1 hr

PEGN 116 - Bully Proofing

This course uses lecture, play-based activities and role playing to teach self-defense techniques to aid in developing lifelong communication, advocacy and physical skills that help "bully proof." An introductory course in the understanding of and participation in the various tumbling routines and apparatus used by women. Emphasis is on the ability to develop new skills and to provide an increase in the physical fitness of the participants.

Credit Hours: 1 hr

PEGN 122 - Men's Gymnastics I

This is a basic men's gymnastic skills class, and an introduction to the sport of gymnastics.

Credit Hours: 1 hr

PEGN 123 - Line Dance

Introduction to various types of line dances including country western, multicultural, contemporary club dances, as well as "classic" dances.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 124 - Fitness Walking

This course is designed to provide students with basic knowledge of physical fitness and healthy lifestyle principles. Power walking is a program that trains muscular strength and endurance, flexibility, cardiovascular endurance and promotes total body health.

Credit Hours: 1 hr

PEGN 126 - Conditioning Activities

A beginning course designed for students with limited or no experience in physical fitness conditioning activities. A variety of activities will be used to promote the skills and knowledge for individual use.

Credit Hours: 1 hr

PEGN 127 - Healthy Hearts

This course covers the essential elements of cardiovascular fitness and wellness, combining instructor lecture, small and large group discussion, activities, games, and personal assessments to achieve course objectives. Emphasis is placed on the prevention and control of cardiovascular problems through behavior modification and positive health practices.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 128 - Judo I

A beginning course in the martial arts of judo. Students will learn its history, as well as being able to demonstrate the various techniques.

Credit Hours: 1 hr

Last Updated: 04/2012

PEGN 129 - Kung Fu, Strength and Conditioning

This course teaches how to create a connection of well being within the individual such as: physical fitness for improving the body's ability to perform, as well as rehabilitation and injury prevention; mental awareness for a deeper level of concentration and understanding of one's potential; and connecting the mind and the body to achieve motion with greater ease, inner harmony, optimal health (mental and physical), and self-development.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 130 - Assault and Rape Prevention

A course designed to develop skills that will help a person to: (1) recognize possible dangers to property and self, (2) identify alternatives to physical aggression and (3) use appropriate self defense techniques when physical aggression cannot be avoided.

Credit Hours: 1 hr

PEGN 131 - Aikido I

Focuses on the objectives of Aikido: to strengthen students physically and mentally by increasing mental focus through the practice of its techniques. It is a non-competitive art of self-defense, which requires a high degree of concentration and timing. Training focuses on maintaining self-control and equanimity in any crisis situation, developing greater strength, flexibility and martial awareness.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 132 - Extreme Workout

This course is designed to provide advanced training concepts to educate the student how to create a comprehensive physical activity program for development of an extreme workout.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 133 - Women's Fitness

This course is designed to provide basic and advanced fitness concepts to educate female students how to develop a comprehensive physical activity program. Topics include basic components of fitness (cardiovascular, body composition, muscular strength, muscular endurance, and flexibility) as it relates to women's health.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 140 - Marching Band

A class taken by "Permission Only" from the Music and Dance Department. Those accepted will be part of the EMU Marching Band and are expected to be available for practices and performances.

Credit Hours: 1 hr

PEGN 142 - Racquetball and Paddleball

Students will learn the fundamental skills of forehand, backhand and serving. The student will also be responsible for learning the basic rules, strategies and scoring before being given an opportunity to compete with fellow classmates.

Credit Hours: 1 hr

PEGN 143 - Fencing

An introductory course in the history of fencing and the fundamental skills and techniques for use of the foil. Emphasis is placed on the individual body movements and skills for a novice.

Credit Hours: 1 hr

PEGN 145 - Cross-Country Skiing

A course to give the student fundamental knowledge of cross-country skiing, covering: equipment, basic skills, waxing techniques, proper dress and survival. Students furnish their own equipment, or rental from the recreation area.

Credit Hours: 1 hr

PEGN 146 - Beginning Snow Skiing

A class designed to provide instruction in the basic fundamentals of downhill snow skiing at a recreational level.

Credit Hours: 1 hr

PEGN 148 - Tennis

This course is designed to promote skill development in the basic tennis strokes and to promote an understanding of rules, etiquette, scoring, strategies and singles and doubles play.

Credit Hours: 1 hr

PEGN 149 - Badminton

A beginning course in badminton to develop sufficient skill and knowledge to permit a person to enjoy it as a recreational sport. Students will learn the basic badminton strokes, scoring procedures, rules and etiquette.

Credit Hours: 1 hr

PEGN 150 - Golf

An introductory course focusing on basic instruction on the golf swing, woods and iron play, chipping, putting and playing from the sand. The course also covers golf etiquette and discusses different types of equipment used in today's game. The commercial establishment charges an extra fee.

Credit Hours: 1 hr

PEGN 151 - Bowling

This course is designed for the beginning bowler. The student will learn basic knowledge of all aspects of bowling to include: skills, scoring, rules, etiquette and common conversions. The commercial establishment charges an extra fee.

Credit Hours: 1 hr

PEGN 152 - Sailing

This course is designed for the novice/beginning sailor. The course will provide opportunities to develop basic sailing skills via lecture, demonstration and practical experience.

Credit Hours: 1 hr

PEGN 153 - Swimming

A course for those who cannot swim or are novice swimmers, to enhance their ability to enjoy water and its recreational fitness. The student will learn to practice safe habits and increase their knowledge and ability to swim using a variety of elementary strokes.

Credit Hours: 1 hr

PEGN 157 - Rape Aggression Defense System

This course is designed to help build self-confidence, self-esteem, and physical skills to reduce the risk of experiencing an assault. Included in this course is learning to identify characteristics of perpetrators and assault situations.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 171 - Nia

Nia is a holistic approach to lifestyle and fitness that blends movement principles from dance, healing and martial arts. It increases body awareness and enhances endurance, strength, flexibility and balance in body, mind, emotions and spirit.

Credit Hours: 1 hr

PEGN 172 - Capoeira

This course will introduce students to the Afro-Brazilian martial art, Capoeira Mandinga. Basic concepts of the movement, history and music of Capoeira will be presented with emphasis on the traditions that are followed within the martial art. Calisthenics are necessary for effective class participation.

Credit Hours: 1 hr

PEGN 173 - Judo II

Judo II is designed to further familiarize students with physical Judo theory and technique, specifically naga waza and katame no kata. The physiological principles tantamount to Judo are discussed. Further, functional methodology in regard to Judo training methods is presented in traditional fashion and at the same time offering a new concept of training.

Credit Hours: 1 hr

Prerequisite: PEGN 128

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 174 - Leading Creative Play

This course is designed to develop your skills in leading activity and games. It will review theories of game and activity leadership and allow the student to put those theories into practice by demonstrating their abilities and leading a variety of activity experiences during the class.

Credit Hours: 1 hr

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 177 - Special Topics

A one-, two- or three-hour experimental course of a subject to be listed by title.

Credit Hours: 1 hr

PEGN 178 - Special Topics

A one-, two- or three-hour experimental course of a subject to be listed by title

Credit Hours: 2 hrs

PEGN 179 - Special Topics

A one-, two- or three-hour experimental course of a subject to be listed by title

Credit Hours: 3 hrs

PEGN 180 - Yoga

This course is designed to teach the student the five key elements of yoga. It will include exercises, breathing, relaxation and meditation techniques.

Credit Hours: 1 hr

PEGN 190 - Extramural Club Sports

The purpose of this course is to promote physical activity by participation in extramural club sports recognized by Campus Life, and the Rec/IM Department. Students will be required to attend all practices and club organized competitions throughout the semester.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PEGN 193 - Swing Dance I

This course is designed to teach students the theory, technique and beginning patterns in triple time and single time swing, West Coast swing, the hustle and ballrooming.

Credit Hours: 1 hr

PEGN 201 - Fitness Activities

This course is designed to provide students with a background in physical fitness, exercise and health principles and practices. These principles will be applied to personal exercise and health programs through activities such as target heart rate monitoring, body measurements, posture analysis, energy intake and expenditure assessment.

Credit Hours: 1 hr

PEGN 203 - Latin Dance

This course is designed to provide students with the technical and foundations in Latin dance. This is a beginning level course.

Credit Hours: 1 hr

PEGN 204 - Lifeguard Training

This course introduces knowledge and skills needed to prevent and respond to aquatic emergencies. The course content and activities prepare participants to recognize and respond quickly and effectively to emergencies and prevent drowning and injuries.

Credit Hours: 2 hrs

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 206 - Fitness Instructor and Personal Trainer Certification Preparation

This course is designed to provide theoretical knowledge and practical skills in preparation for a national certification exam in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate physical exercise programming.

Credit Hours: 3 hrs

Last Updated: New Course 04/2012, effective Fall 2012

PEGN 210L - Lifetime Wellness and Fitness (Gen Ed Area V LBC)

A lecture course covering the essential elements of wellness and fitness. The course is geared toward entering freshmen.

Credit Hours: 2 hrs

Last Updated: Links 03/2011

PEGN 211 - Intermediate Volleyball

An advanced course designed to develop and increase the students' ability to perform specific skills necessary for participation in the game of volleyball. The intermediate skills plus offensive and defensive strategies will be stressed.

Credit Hours: 1 hr

PEGN 215 - Tai Chi

A course designed to explore the Yang family style of Tai Chi Chuan. Students will focus on the basic long form with ancillary experiences in two person play, balance and coordination exercises and some philosophy. Beginning and continuing levels offer opportunities to develop and further skills.

Credit Hours: 1 hr

PEGN 220 - Varsity Rifle Team

This course is a coed rifle team. The course of instruction will cover the fundamentals of rifle marksmanship and firearms safety. It will focus on the National Rifle Association (NRA) basic rifle course, NCAA rifle team guidelines and the NRA small bore rifle rules for competition. The team practices and competes using three positions, which are the prone, standing (off-hand) and

kneeling positions. Throughout the course, safety and the proper use of equipment are reinforced. The majority of competitions are held on campus.

Credit Hours: 1 hr

Prerequisite: department permission

PEGN 222 - Men's Gymnastics II

This is a continuation of the knowledge and skills learned in Gymnastic I, and applied to more advanced routines on the different apparatus.

Credit Hours: 1 hr

PEGN 224 - Jogging

A course designed to provide the student with endurance training experience through jogging. The students will receive information regarding the control of intensity, duration and frequency of endurance type exercise in the promotion of optimal cardio-respiratory fitness.

Credit Hours: 1 hr

PEGN 226 - Weight Training

A beginning course for the student to gain knowledge and skills that will permit a novice to organize a personal weight training program, and measure the effects of such a program on his/her physical fitness components.

Credit Hours: 1 hr

PEGN 229 - Varsity Soccer

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of soccer. Permission required.

Credit Hours: 1 hr

PEGN 230 - Varsity Cross Country

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of cross country. Permission required.

Credit Hours: 1 hr

PEGN 231 - Varsity Football

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of football. Permission required.

Credit Hours: 1 hr

PEGN 232 - Varsity Basketball

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of basketball. Permission required.

Credit Hours: 1 hr

PEGN 233 - Varsity Swimming

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of swimming. Permission required.

Credit Hours: 1 hr

PEGN 234 - Varsity Gymnastics

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of gymnastics. Permission required.

Credit Hours: 1 hr

PEGN 235 - Varsity Wrestling

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of wrestling. Permission required.

Credit Hours: 1 hr

PEGN 236 - Varsity Track

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of track. Permission required.

Credit Hours: 1 hr

PEGN 237 - Varsity Baseball

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of baseball. Permission required.

Credit Hours: 1 hr

PEGN 238 - Varsity Golf

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of golf. Permission required.

Credit Hours: 1 hr

PEGN 239 - Varsity Tennis

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of tennis. Permission required.

Credit Hours: 1 hr

PEGN 240 - Varsity Volleyball

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of volleyball. Permission required.

Credit Hours: 1 hr

PEGN 242 - Varsity Softball

A planned program to teach and develop the advanced skills and strategies necessary for participation in the collegiate level competition of softball. Permission required.

Credit Hours: 1 hr

PEGN 256 - Basic River Kayak

The basic river kayak course is a program emphasizing safety, enjoyment and skill acquisition for entry-level through intermediate levels for individuals in public, private and commercial settings.

Credit Hours: 1 hr

PEGN 277 - Special Topics

A one-hour experimental course of a subject to be listed by title.

Credit Hours: 1 hr

PEGN 278 - Special Topics

A two-hour experimental course of a subject to be listed by title.

Credit Hours: 2 hrs

PEGN 279 - Special Topics

A three-hour experimental course of a subject to be listed by title.

Credit Hours: 3 hrs

PEGN 310 - Intermediate Tae Kwon Do

A continuum of the beginning tae kwon do (TKD) course designed for students who have mastered the initial skills and wish to advance their knowledge and skills towards a higher TKD-ability class belt.

Credit Hours: 1 hr

PEGN 348 - Basic Scuba Diving

This course will provide the student with the knowledge and skills to safely enjoy and gain limited experience in the diving environment under normal open water diving conditions. The course prepares students for open-water scuba diving certification by the Professional Associate of Diving Instructors.

Credit Hours: 1 hr

PEGN 377 - Special Topics

A one-hour experimental course of a subject to be listed by title.

Credit Hours: 1 hr

Health Education

HLED 130 - Healthy Sexuality

This course examines a variety of topics and issues related to healthy sexuality. This is an elective course which is targeted towards freshmen. Methods include lecture, discussion, individual and group learning activities as well as use of the Internet.

Credit Hours: 3 hrs

HLED 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

HLED 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

HLED 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

HLED 210 - Standard American Red Cross First Aid

For all students interested in accident prevention and in the development of the knowledge and skills essential for the immediate care of the suddenly ill or injured. Readings, lectures and practical work. Certificates for Standard first aid and for cardiopulmonary resuscitation are awarded upon successful completion of the requirements for each.

Credit Hours: 2 hrs

HLED 250 - Communicable and Noncommunicable Diseases

This course will introduce students to common communicable and noncommunicable diseases. Identifying risk factors and prevention strategies will be emphasized. Methods include lecture, discussion, small group activities and the use of Web resources.

Credit Hours: 3 hrs

HLED 270 - Principles of Health Education

This course will provide students with an understanding of the professional roles and competencies of the health educator. Course content will address professional development, code of ethics, application of health education theory and recommendations for practice. Methods will include: lecture, student presentations, cooperative learning and observation of professional practice.

Credit Hours: 3 hrs

HLED 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

HLED 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

HLED 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

HLED 302 - From Host to Host: The Communicable Diseases

Various types of communicable diseases — childhood and young adulthood, skin, upper respiratory, gastrointestinal and sexually transmitted—their causes, modes of transmission, signs and symptoms, treatment, complications and means of control. Lectures, discussions, readings and audio-visual materials.

Credit Hours: 1 hr

HLED 305 - Current Health Issues I

This course offers a broad overview of several health education issues, including consumer health education, environmental health education, intentional injury, unintentional injury and emotional health. The course is intended for those entering the health education profession. Methods include lecture, discussion, active learning projects and advocacy.

Credit Hours: 3 hrs

HLED 315 - Current Health Issues II

This course offers a broad overview of several health education issues, physical activity, nutrition, dental health and the prevention of communicable and noncommunicable disease. The course is intended for those entering the health education profession. Methods include lecture, discussion, active learning projects and developing Web resources.

Credit Hours: 3 hrs

HLED 320 - Health Education in the Elementary Grades

This course is for students preparing to teach primary and intermediate grades. It focuses on the eight-component Coordinated School Health Program (CSHP) and how teachers can utilize this program for health promotion and disease prevention for their students. Methods include lecture, discussion and the use of Web resources.

Credit Hours: 2 hrs

Prerequisite: Admission to the Initial Teacher Preparation Program

Last Updated: Links 04/2011

HLED 325 - Instructional Skills and Strategies for Health Education

This course is designed to prepare health minors to plan and implement instructional programs of quality comprehensive health education. Emphasis will be placed on development of materials as well as methods and strategies used to effectively teach K–12 health education. Methods include: lecture, cooperative learning, student presentations and peer evaluation.

Credit Hours: 3 hrs

Prerequisite: HLED 270 and HLED 305 or HLED 315

Last Updated: Links 04/2011

HLED 340 - Health Education and Nutrition: Enhancing Health and Fitness

This course offers a broad overview of nutrition and its application to enhancing healthy lifestyles. This course is intended for those entering health education or fitness-related fields who will have responsibility for educating future students or clients.

Methods include lectures, discussion, personal dietary analysis and the use of Web resources.

Credit Hours: 3 hrs

HLED 350 - Scientific Foundations in Health Education

This course will familiarize students with the scientific foundations of disease prevention and health promotion, focusing on risk and protective factors for leading causes of death and disability. This course is designed for health minors. Methods include lectures, discussion, personal health risk analysis and the use of Web resources.

Credit Hours: 3 hrs

HLED 355 - Health Education Program Planning

This course is designed to prepare school health and health minors to understand and develop the skills necessary to identify health needs, plan, implement and evaluate health education programs in the schools and in the community. Methods include: lecture, cooperative learning and student presentations.

Credit Hours: 3 hrs

Prerequisite: HLED 270 and HLED 305 or HLED 315

Last Updated: Links 04/2011

Prerequisite: department permission

Physical Education

PEGN 114 - Exercise Equipment Selection and Usage

This course introduces benefits of basic types of anaerobic and aerobic training. Includes, discussion and selection of proper equipment for the desired type of training and identification of possible problems that can arise during training.

Credit Hours: 1 hr

Last Updated: New Course, 11/2012, effective Winter 2013

PEGN 125 - Family Fitness

This course offers a lecture and practical perspective to family fitness. Health and fitness considerations, safety concerns, training concepts, and other relevant issues will be covered. The above objectives will be met through lectures, discussions, handouts, and practical activities.

Credit Hours: 1 hr

All PEGN activity courses are approved for LBC Group 1 credit

Last Updated: New Course, 11/2012, effective Winter 2013

PHED 100 - History and Foundations of Physical Education

A lecture and discussion course in the history and foundation of physical education. This course is an examination of the influence of selected cultures, peoples and events that have contributed to the development of the physical education discipline.

Credit Hours: 2 hrs

PHED 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

PHED 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

PHED 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHED 200 - Anatomy and Physiology

A textbook course, supplemented by lectures and demonstrations, on the structure and functions of the bones, joints and muscles and the organs of digestion, respiration and excretion.

Credit Hours: 5 hrs

PHED 204 - Kinesiology (Biomechanics of Physical Activity)

A required class for sports medicine and physical education majors/minors to scientifically analyze the techniques involved in the performance of human movement skills.

Credit Hours: 3 hrs

Prerequisite: PHED 200 or SPMD 201/ATTR 201 and SPMD 202/ATTR 202

Last Updated: Links 04/2011

PHED 209 - Bio-Fitness

Individual biological needs and how those needs are related to daily habits. Students will complete an individual fitness profile that will be the basis for understanding how desirable changes in fitness are achieved.

Credit Hours: 2 hrs

PHED 215 - Methods of Teaching Individual Sports

A required class for physical education majors/minors who are preparing to teach individual sports in the elementary and secondary schools. Instruction in the teaching, performance, analysis and evaluation of selected fundamental badminton, golf and tennis skills.

Credit Hours: 3 hrs

PHED 217 - Methods of Teaching Team Sports

A required class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction in the teaching, performance, analysis and evaluation of fundamental basketball, softball and volleyball skills will be presented.

Credit Hours: 3 hrs

PHED 219 - Methods of Teaching Rhythmic Activities, Fundamental Movement and Movement Education

A required class for physical education majors who are preparing to teach in elementary and secondary schools. Instruction will focus on the teaching, performance, analysis and evaluation of fundamental rhythmic, social dance, locomotor, nonlocomotor and manipulative skills and creative movement activities.

Credit Hours: 3 hrs

PHED 231 - Service Teaching

This is an individual program under the direction of a qualified faculty member, to enhance the student's ability to gain additional professional experience.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PHED 233 - Service Teaching

For qualified students an additional opportunity to undertake an individualized program under the direction of a qualified faculty member.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PHED 257 - Physical Education for the Classroom Teacher

A methods and materials course in which the prospective classroom teacher gains knowledge in organizing and implementing a physical education program. Not intended for students majoring in physical education.

Credit Hours: 2 hrs

PHED 260 - Motor Development

A required course for physical education majors and minors. Instruction will focus on principles of motor development, with implications for learning gross motor skills. Consideration of the factors associated with individual differences in attaining motor proficiency during childhood and adolescence will be examined.

Credit Hours: 2 hrs

Prerequisite: Permission required from physical education advisor

PHED 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

PHED 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

PHED 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHED 282 - Perceptual-Motor Training

Planning and effecting gross motor activity programs for students with neurological dysfunction. Assessment procedures and activity sequences. Supervised field experiences required.

Credit Hours: 1 hr

PHED 287 - Cooperative Education

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs

Prerequisite: Nine credit hours in concentration, approval by Cooperative Education Office, and department permission
Last Updated: Links 04/2011

PHED 300 - Physiology of Exercise

A lecture/laboratory course concerned with human responses and adaptations to muscular activity. The enhancement of health and physical fitness for the general population, optimizing performance in the various types and levels of competitive athletics.

Credit Hours: 4 hrs

Prerequisite: PHED 200 or SPMD 201/ATTR 201 and SPMD 202/ATTR 202

Cross-Listed with: SPMD 300

Last Updated: Links 04/2011

PHED 305 - Practical Concepts of Conditioning

A practical experience in applying the concepts and theories of conditioning to in-class situations as well as coaching. Programs such as interval training will be designed and experienced by the student for use in a particular situation.

Credit Hours: 2 hrs

Prerequisite: PHED 204 or department permission

Last Updated: Links 04/2011

PHED 312 - Athletic Training and Physiotherapy

For prospective coaches and physical educators. Principles and skills of athletic training and physiotherapy. Lectures, demonstration and practice of massaging, bandaging, taping and therapeutic measures as applied in athletic activities and injuries.

Credit Hours: 2 hrs

Prerequisite: PHED 200

Last Updated: Links 04/2011

PHED 313 - Methods of Teaching Gymnastics

A required class for Physical Education majors/minors who are preparing to teach in elementary and secondary schools. Instruction in the teaching, performance, analysis, and evaluation of fundamental gymnastics skills will be presented.

Credit Hours: 2 hrs

Prerequisite: PHED 204

Last Updated: Links 04/2011

PHED 315 - Methods of Teaching Conditioning Activities

A required lecture/laboratory class for physical education majors/minors who are preparing to teach in elementary and secondary schools. Instruction will focus on the practical application of physical fitness and wellness concepts.

Credit Hours: 2 hrs

Prerequisite: PHED 300/SPMD 300

Last Updated: Links 04/2011

PHED 316 - Foundations of Coaching

Practical and scientific information necessary for the implementation of a successful coaching program.

Credit Hours: 2 hrs

PHED 317 - Methods of Teaching Elementary Physical Education

A required course for physical education majors who are preparing to teach and direct physical education experiences for elementary school children. The course focuses on theory and practical experience in physical education in the elementary school. It presents a variety of activities and teaching styles needed to meet the needs of children in the elementary school years.

Credit Hours: 2 hrs

Prerequisite: PHED 260

Last Updated: Links 04/2011

PHED 319 - Methods of Teaching Aquatics

An elective course for physical education majors/minors. Aquatics covers the teaching of the four competitive swimming strokes; front crawl, back crawl, breast stroke and butterfly. In addition, life saving strokes, side-stroke and elementary backstroke are studied to prepare students to teach swimming in physical education classes.

Credit Hours: 2 hrs

PHED 330 - Adapted Physical Education

A lecture and participation course covering the philosophy and goals of adaptive physical education, the relationship of adaptive physical education to the general physical education program, the needs and characteristics of the students with disabilities, and the designing of exemplary adapted physical education programs. Supervised fieldwork required.

Credit Hours: 3 hrs

Prerequisite: PHED 260

Last Updated: Links 04/2011

PHED 331 - Service Teaching

Provides additional individual opportunities at an advanced level.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PHED 333 - Service Teaching

For the advanced student who has shown some interest in undertaking a research project for professional development.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PHED 353 - American Red Cross Lifeguarding

American Red Cross (ARC). This course covers CPR for the professional rescuer (CPR-PR), first aid and in-water rescue skills. ARC lifeguarding certificates are awarded upon successful course completion.

Credit Hours: 3 hrs

PHED 354 - American Red Cross Water Safety Instructor

The purpose of this course is to train instructor candidates to teach courses in the American Red Cross Swimming and Water Safety program by developing their understanding of how to use course materials, how to conduct training sessions and how to evaluate participant's progress. Demonstration, explanation, utilization of course manuals and materials, videos and digital video discs (DVDs), analysis and practice of teaching skills are used to carry out course objectives. American Red Cross certification in Fundamentals of Instructor Training (FIT) and Water Safety Instructor are offered upon successful completion.

Credit Hours: 2 hrs

Prerequisite: PEGN 153 or instructor permission

Last Updated: Links 04/2011

PHED 360 - Motor Learning

A required course for physical education majors. Instruction will focus on learning the processes underlying skilled performance, how skilled performances are learned and how to apply the principles of skilled performance and learning in teaching and coaching situations.

Credit Hours: 3 hrs

Prerequisite: PHED 260 or instructor permission

Last Updated: Links 04/2011

PHED 370 - Physical Education Applied Technologies

This required course provides an overview of how technology can be integrated into the physical education and coaching professions. Through the use of the World WideWeb,lecture/demonstrations and hands-on experiences, students use and evaluate a variety of software applicable to school and nonschool settings.

Credit Hours: 2 hrs

Prerequisite: Admission to the Initial Teacher Preparation Program

Class Restrictions: Junior or Senior standing

Last Updated: Links 04/2011

PHED 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

PHED 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

PHED 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHED 381 - Motor Development of the Young Child

A course designed specifically for early childhood minors and others interested in young children. A study of the sequential development of motor skills during early childhood with focus on children ages birth to eight years. Investigation and application of the major learning theories in relationship to motor behavior, with specific implications for motor development programs for students of different abilities. Methods of assessment and developmentally appropriate practices for planning and conducting movement curricula will be addressed.

Credit Hours: 3 hrs

Notes: No credit in PHED 260

Last Updated: Links 04/2011

PHED 387 - Cooperative Education in Physical Education

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs

Prerequisite: Nine credit hours in concentration, approval by Cooperative Education Office and department permission

Last Updated: Links 04/2011

PHED 388 - Assessment in Adapted Physical Education

A study of the process of assessing gross motor functioning of students who exhibit a variety of disabilities. Investigation of the legislative mandates requiring assessment and application of the latest assessment instruments for students with disabilities. Fieldwork required.

Credit Hours: 1 hr

Prerequisite: PHED 330

Class Restrictions: Sophomore, Junior or Senior standing

Last Updated: Links 04/2011

PHED 389 - Sport and Activity for the Disabled

A course designed to investigate sports organizations that serve people with disabilities. Topics to be explored include the role of the United States Olympic Committee (USOC), Group E members of the USOC and Committee on Sports for the Disabled, classification of athletes for competition, role of the National Governing Bodies in promoting sports and ways people with disabilities can access sports and noncompetitive opportunities.

Credit Hours: 1 hr

Prerequisite: PHED 330

Class Restrictions: Sophomore, Junior or Senior standing

Last Updated: Links 04/2011

PHED 400W - Philosophical Aspects of Physical Education and Sport (Gen Ed Area I, W)

This course challenges students to discover the essence of physical education and sports throughout philosophy. Students will examine why we play, what we value, who we are, how we know, through physical education. This lecture/discussion course is required for physical education majors.

Credit Hours: 2 hrs

Prerequisite: PHIL 100

Class Restrictions: Junior or Senior standing

Last Updated: Links 04/2011

PHED 405 - Women in Sports

Patterns, problems, and conditions associated with women's sports involvement in selected world cultures; the sportswoman in American society.

Credit Hours: 3 hrs

Cross-Listed with: WGST 405

Last Updated: Links 04/2011

PHED 415 - Curriculum and Instruction in Physical Education

Methods and use of materials in the teaching of activities in the elementary and secondary grades. Unit and lesson planning, classroom management, audio-visual aids. Observations of physical education classes at different levels required. Entry into College of Education required.

Credit Hours: 3 hrs

Prerequisite: PHED 260; admission to the Initial Teacher Preparation Program

Last Updated: Links 04/2011

PHED 421 - Legal Aspects of Sport, Physical Education, and Recreation

Individual rights, due process, selected legal concepts and principles, liability, safe environments, risk management, contracts, insurance and other selected topics.

Credit Hours: 2 hrs

Class Restrictions: Senior standing

PHED 434 - Adapted Preschool Physical Education

This course presents instructional strategies and curricular models of instruction for preschool-aged children (age three to five) with special needs or who are at-risk for disabilities and school failure. Planning and effecting gross motor activity programs, assessment procedures and activity sequences will be emphasized. Legislative mandates and rationale for the development of preschool motor activity programs will be discussed. Supervised field experience required.

Credit Hours: 1 hr

Prerequisite: PHED 330

Class Restrictions: Sophomore, Junior or Senior standing

Last Updated: Links 04/2011

PHED 454 - American Red Cross Lifeguard Instructor

The purpose of this course is to train instructor candidates to teach courses in the American Red Cross Lifeguarding program by developing their understanding of how to use course materials, how to conduct training sessions and how to evaluate participant's progress. Demonstration, explanation, utilization of course manuals and materials, videos and digital video discs (DVDs), analysis and practice of teaching skills are used to carry out course objectives. American Red Cross certification in Fundamentals of Instructor Training (FIT) and Lifeguard Instructor (LGI) are offered upon successful completion.

Credit Hours: 2 hrs

Prerequisite: PHED 353 or instructor permission

Last Updated: Links 04/2011

PHED 470 - Assessment and Evaluation in Physical Education

The discriminating selection, administration, interpretation and use of standardized tests and measurements in physical education.

Credit Hours: 2 hrs

Prerequisite: Entry into College of Education required.

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

PHED 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

PHED 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

PHED 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

PHED 487 - Cooperative Education in Physical Education

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs

Prerequisite: Nine credit hours in concentration, approval by Cooperative Education Office and department permission

Last Updated: Links 04/2011

PHED 490 - Field Experience in Adapted Physical Education

Required course for "teachers of physical education for handicapped individuals; approval." A directed 15-week field experience in teaching physical education to handicapped persons in a school setting.

Credit Hours: 4 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PHED 495 - Senior Seminar

A synthesis of educational theories presented in the undergraduate physical education program and the student teaching experience.

Credit Hours: 1 hr

Corequisites: EDUC 496 and EDUC 497

Last Updated: Links 04/2011

PHED 497 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PHED 498 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PHED 499 - Directed Study

Directed study in areas not covered in other course offerings, or greater depth of study in areas in which the student has a continuing interest. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above, and who have completed the appropriate background courses.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

Recreation

RECR 100L - Introduction to Recreation and Leisure (Gen Ed Area V LBC)

A basic overview of the fields of recreation and leisure service delivery for the major student. Emphasizes the broad aspects of recreation and leisure as they relate to the delivery of human services. Includes history, philosophy, trends and job opportunities. Lecture, discussion, film and speakers from the field.

Credit Hours: 3 hrs

Last Updated: Links 03/2011

RECR 110 - Rediscovering Your Creativity

This course is designed to develop creative problem solving and idea generating abilities through a review of applied research. In addition, a series of in-class exercises will be facilitated and designed to enhanced latent creative abilities.

Credit Hours: 1hr

Cross-Listed with: IHHS 110

Last Updated: Links 04/2011

RECR 120 - Business Golf

This course does not teach the game itself, it focuses on how to build relationships with clients, proper etiquette on and off the course, the selection of equipment, protocol of behavior at country clubs and an overview of the process of planning and implementing a personal business golf strategy to further your career.

Credit Hours: 1 hr

RECR 165 - Leisure Lifestyles

An introduction to leisure lifestyles as related to oneself and how leisure behavior relates to an individual's work, education, economy, ethnic beliefs and values. The course involves individual leisure awareness, choices, goals and strategies to assist in creating a quality and fulfilling life. Lecture, discussion, evaluation techniques and self-exploration. Helpful for majors in any discipline.

Credit Hours: 3 hrs

RECR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

RECR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 260 - Recreation Leadership

Methods and techniques of group and individual leadership skills at three levels: direct face-to-face leadership, supervision and management. An overview of conceptual and theoretical components of the leadership process; practical application of various leadership methods and procedures in a cross section of leisure service settings. Lectures, discussion and experiential learning.

Credit Hours: 3 hrs

RECR 271 - Park Maintenance

This course will present material on the role of park maintenance in parks and open space areas; knowledge of the properties of soil for development of parks and open spaces; the fundamentals of turf management and management of woody plants, as well as the maintenance of structures and trails for parks and open spaces scheduling, and safety and practice equipment.

Credit Hours: 3 hrs

RECR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

RECR 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 280L - Camping (Gen Ed Area V LBC)

History of organized camping; camping on federal and state recreation areas; information sources for camping; planning and preparation (equipment, clothing, meals, camp schedules and camp programs). Skills areas for camping: map and compass; ropes and knot-tying; campfire construction; camp tool use and maintenance; and tents. Safety reviewed for meal preparation, use of tools, and toxic plants and animals. Lecture, demonstrations and student participation in a weekend camping trip.

Credit Hours: 2 hrs

Last Updated: Links 03/2011

RECR 282L - Backpacking (Gen Ed Area V LBC)

The history, knowledge, and skills required to participate in backpacking are introduced. Trip planning and preparation are presented. Trip topics include trip planning, meal planning and preparation, equipment, clothing, footwear, safety, and first aid. Site topics include: low impact, trail construction, backcountry travel, leadership, safety, backcountry etiquette, wildlife encounters, evacuation methods/procedures, and agency provider identification.

Credit Hours: 3 hrs

Last Updated: Links 03/2011

RECR 290 - Practical Research in Recreation

Students learn and apply research methodology, design, sampling and measurement to solve problems related to the provision of social services. Students design data collection instruments, collect and code data. Data is analyzed using appropriate statistical techniques. Results are interpreted and a research report is submitted.

Credit Hours: 3 hrs

Prerequisite: MATH 105

Last Updated: Links 04/2011

RECR 360 - Recreation Program Planning

This is an introductory course in planning and implementing recreation programs for diverse social and ethnic groups. In cooperation with a community service agency students plan, advertise, market, promote, implement, assess and evaluate the actual delivery of recreation program.

Credit Hours: 3 hrs

RECR 361 - Special Events in Recreation

This upper-level course is designed to inform the student of current trends in special events and management. The course will combine lecture materials with small group techniques to develop and present a special-event idea to a panel of professional recreators.

Credit Hours: 3 hrs

Prerequisite: RECR 100L and RECR 260

Last Updated: Links 04/2011

RECR 370 - Leisure Facility Design and Management

This course is of interest to all students involved in managing a public facility. The course will cover information needed to plan, develop and coordinate a public facility.

Credit Hours: 3 hrs

RECR 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

RECR 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 390 - Outdoor Recreation

History of outdoor recreation and outdoor recreation management. A systems view of outdoor recreation resources; federal, state, and local agencies that provide outdoor recreation opportunities; their history and management philosophies and problems. Tools utilized by managers of outdoor recreation resources to provide opportunities for recreation. Lecture, speakers, projects.

Credit Hours: 3 hrs

RECR 450 - Park Planning and Design

This course focuses on history and purpose of park planning. Discussions will include the planning process, systems and site-level planning, use of recreation standards, and use of consultants. Reviewed are principles of site design and site plans. The lab will deal with maps and aerial photos, computer drawing.

Credit Hours: 3 hrs

RECR 460 - Park and Recreation Administration

This course introduces students to organizational management approach and structures. Students learn how to design management objectives. Fundraising and fund development methods are presented. Volunteer program design is discussed. The course emphasizes marketing of leisure and social services and pricing of products and services. Administrative responsibility and ethics are covered.

Credit Hours: 3 hrs

RECR 465 - Park and Recreation Management

This course will present the philosophical stance of managers in directing nonprofit leisure service agencies; the problem solving process; policy development; and strategic planning for nonprofit leisure service agencies. Students will learn how to involve the

public in management decision making.

Credit Hours: 3 hrs

RECR 471 - Contemporary Issues in Recreation

This course is to familiarize the recreation and park management student with vital issues that practicing professionals are facing on a daily basis. The class will utilize a seminar format with each session focusing on a single issue. A wide range of leading authorities in the field will present from their perspective followed by an in-depth discussion session on how this topic affects the future professional.

Credit Hours: 3 hrs

Prerequisite: RECR 100L

Class Restrictions: Junior or Senior standing

Last Updated: Links 04/2011

RECR 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

RECR 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

RECR 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

RECR 489 - Recreation Practicum

A full-time, 15-week, 600-hour experience in a leisure services setting under a qualified recreation/leisure specialist and University supervisor.

Credit Hours: 8 hrs

Prerequisite: Completion of 90 percent of all academic courses including RECR 100L, THRC 200, THRC 250, RECR 260, RECR 360, RECR 460 and RECR 465; completion of 250 hours of fieldwork; overall grade point average of 2.5 and GPA of 2.75 in recreation and park management required and elective courses

Last Updated: Links 04/2011

RECR 497 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

RECR 498 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation and evaluation of the completed study or project. Open only to department majors and minors who have attained junior standing, with a GPA of 3.0 or above and who have completed the appropriate background courses.

Credit Hours: 2 hrs

Prerequisite: Department permission

Sport Management

SMGT 201 - Foundations of Sport Management

This course discusses the meaning of sport management in terms of its scope, principles, issues and future trends. In addition, this course examines the job responsibilities and competencies required of sport managers in a variety of sports or sports-related organizations in a hope to have the student become acquainted with the role of sport administrators and managers. Finally, this course provides the student with an overview of the different facets and career opportunities that are available in the field of sport management.

Credit Hours: 3 hrs

SMGT 255 - Social Psychology of Sport

A required course for sport management majors which examines the psychological factors that influence sport performance. The student will learn the theories and practical applications of the factors that influence athletes and coaches, such as coaching leadership, efficacy beliefs within sport group contexts, morality in sport, the coach-athlete relationship, and team cohesion.

Credit Hours: 3 hrs

Previously Listed As: SMGT 225

Last Updated: Links 03/2011

SMGT 325 - Sport Facilities

A required course for sport management majors which examines the planning and management of sport facilities. The course will focus on elements of planning, design and management, while examining functions related to maintenance, security, operations and evaluation.

Credit Hours: 3 hrs

Prerequisite: SMGT 201; SMGT 255

Class Restrictions: Junior and Senior standing only

Last Updated: Links 03/2011

SMGT 375 - Sport and Event Planning

This course offers an introduction to the planning, marketing, management and evaluation of sporting events. The course content will explore the theories and practices relevant to successful event planning for high school athletics, collegiate athletics, and other sporting events.

Credit Hours: 3 hrs

Prerequisite: SMGT 201; SMGT 255

Last Updated: Links 03/2011

SMGT 385W - Introduction to Research in Sport Management (Gen Ed Area I, W)

A course to teach students the research skills that can be applied to their professional careers. The student will be able to effectively locate research articles related to sport management, and understand how to apply the research to their professional careers.

Credit Hours: 3 hrs

Prerequisite: SMGT 201; SMGT 255

Class Restrictions: Junior or Senior standing

Last Updated: Links 04/2011

SMGT 405 - Applied Sport Psychology for Sport Management Professionals

Course covers theory analysis and understanding of applied-sport psychology for individuals in sport management. Students explore ways to use mental-skills training and educate coaches regarding applied-sport psychology. Strategies for working with consultants to enhance athlete performance are addressed.

Credit Hours: 3 hrs

Prerequisite: PSY 101 or SMGT 255 or instructor permission

Class Restrictions: Junior standing

Last Updated: Links 03/2011

SMGT 425 - Diversity in Sport Organizations

A required course for sport management majors which examines diversity management strategies used by sport organizations. Students will learn how to design an effective diversity training program.

Credit Hours: 3 hrs
Prerequisite: SMGT 201; SMGT 255
Class Restrictions: Junior or Senior standing
Last Updated: Links 03/2011

SMGT 445 - Sport Economics and Finance

Basic theory in economics and finance applied to managerial control of sport organizations.

Credit Hours: 3 hrs
Prerequisite: SMGT 201; SMGT 255
Class Restrictions: Junior or Senior standing
Last Updated: Links 03/2011

SMGT 460 - Sports Ethics

The purpose of this course is to provide students an opportunity to reflect on and discuss ethical concerns in physical education and athletics. Topics will include ergogenic aids, competition vs. cooperation, commercialization, and youth sport.

Credit Hours: 3 hrs
Prerequisite: SMGT 201
Cross-Listed with: SMGT 560
Last Updated: Links 03/2011

SMGT 477 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 1 hr
Prerequisite: SMGT 201
Class Restrictions: Junior or Senior standing only
Last Updated: Links 03/2011

SMGT 478 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and or innovations.

Credit Hours: 2 hrs
Prerequisite: SMGT 201
Class Restrictions: Junior or Senior standing
Last Updated: Links 03/2011

SMGT 479 - Special Topics

Offered on an experimental basis for one semester for purposes of meeting special needs and/or innovations.

Credit Hours: 3 hrs
Prerequisite: SMGT 201
Class Restrictions: Junior or Senior standing
Last Updated: Links 03/2011

SMGT 493 - Fieldwork in Sport Management I

This course provides students with real world experience in the area of sport management. Students will take this course before SMGT 494 and SMGT 495 for a total of 9 credits in three different sport management locations.

Credit Hours: 3 hrs

Prerequisite: SMGT 201 and department permission

Class Restrictions: Sophomore standing or above

Last Updated: Links 03/2011

SMGT 494 - Fieldwork in Sport Management

This course provides students with real world experience in the area of sport management. Students will take this course three times for a total of 9 credits in three different sport management locations.

Credit Hours: 3 hrs

Prerequisite: SMGT 201 and department permission

Class Restrictions: Sophomore standing or above

Last Updated: Links 03/2011

SMGT 495 - Fieldwork in Sport Management

This course provides students with real world experience in the area of sport management. Students will take this course three times for a total of 9 credits in three different sport management locations.

Credit Hours: 3 hrs

Prerequisite: SMGT 201 and department permission

Class Restrictions: Sophomore standing or above

Last Updated: Links 03/2011

SMGT 511 - NCAA Compliance

This course introduces students to basic compliance principles and the NCAA rules that affect the management of a college athletic department. This course offers an understanding of the structure and function of a Division I compliance operation. The governing principles of institutional control and ethical conduct will be explored from a compliance perspective.

Credit Hours: 3 hrs

Notes: This is a graduate course in an undergraduate program.

School of Health Sciences Programs and Courses

School of Health Sciences

Major

Clinical Laboratory Sciences Major - Cytogenetics Concentration

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in cytogenetics. The track is designed to prepare graduates for employment in hospitals, physician's offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their adviser each semester in which they are enrolled in classes. The MLS program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences

5600 North River Road

Suite 720

Rosemont, IL 60018

Certification as a Medical Laboratory Scientist

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

Clinical Certification Track

This curriculum is a four-year program at Eastern Michigan University:

The medical laboratory science option consists of seven semesters of course work in general education, basic sciences and clinical sciences and includes 22 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:

University of Michigan, Ann Arbor

Mercy Memorial Hospital, Monroe

Garden City Hospital, Garden City

VA Hospital, Ann Arbor

St. John Providence, Southfield

Promedica Health System, Toledo OH

Alverno Clinical Labs, Hammond IN
Henry Ford Hospital, Detroit for Cytogenetics
William Beaumont Hospital, Royal Oak Histotechnology

Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The cytogenetics and histotechnology options consist of six semesters of course work and 12 months of clinical rotations through an accredited clinical laboratory.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

- a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.
- b. No grade below C in any mathematics or science course.
- c. A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.
- d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.
- e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).
- f. Students may retake any science, math or CLSC course only one time in order to improve a grade.
- g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Clinical Track Requirements

Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences “intents.” Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or preprofessional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.
2. A minimum science GPA of 2.8.
3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.
4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.
5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the bachelor of science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.
2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisers will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July.

A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

Detroit Medical Center, Detroit

St. John Hospital, Detroit

Hurley Hospital, Flint

William Beaumont Hospital, Royal Oak

Cytogenetics Track:

Program Director: Jim Zabawski (Henry Ford Hospital)

Cytogenetic technologists work independently under general supervision and can interpret and implement established procedures to prepare biological specimens for cytogenetics analysis, perform the analysis and construct and interpret karyotypes.

Students may be accepted into the cytogenetics specialization after completing the required science, mathematics and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at Henry Ford Hospital in the Cytogenetics department. The program consists of an integrated presentation of didactic material and intensive laboratory study in the area of cytogenetics that includes specimen preparation, cell culture, chromosome analysis, microscopy and photography.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Clinical Laboratory Sciences Major Requirements: 52 hours

- AHPR 200 - Medical Terminology 1 hr
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 351 - Foundations of Biochemistry 4 hrs
- CLSC 200 - Clinical Laboratory Techniques 3 hrs
- CLSC 300 - Molecular Diagnostics 3 hrs
- CLSC 332 - Clinical Microbiology I 3 hrs
- CLSC 335 - Clinical Immunology 3 hrs
- CLSC 336 - Clinical Immunology Laboratory 1 hr
- CLSC 401W - Laboratory Management/Education (Gen Ed Area I, W) 3 hrs
- CLSC 407 - Hematology 3 hrs
- CLSC 408 - Clinical Hematology Laboratory 1 hr

One from the following:

- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

Cytogenetics Concentration Requirements: 29 hours

- BIO 120 - Introductory Biology II 5 hrs
- BIO 476 - Mammalian Histology 3 hrs
- * CLSC 410A - Cytogenetics Clinical Internship 7 hrs
OR
- * CLSC 410B - Cytogenetics Clinical Internship 7 hrs
- * CLSC 411 - Cytogenetics, Clinical Internship II 14 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These three courses are an off-campus, full-time clinical internship.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Clinical Laboratory Sciences Major - Histotechnology Concentration

The clinical laboratory sciences program offers a clinical certification track that includes a submajor in histotechnology. The tracks are designed to prepare graduates for employment in hospitals, physician's offices, private laboratories, public health agencies, pharmaceutical companies and academic or industrial research.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their adviser each semester in which they are enrolled in classes. The MLS program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences

Certification as a Medical Laboratory Scientist

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

Clinical Certification Track

This curriculum is a four-year program at Eastern Michigan University:

The medical laboratory science option consists of seven semesters of course work in general education, basic sciences and clinical sciences and includes 22 weeks of rotation through an accredited clinical laboratory. These rotations for the clinical track include:

University of Michigan, Ann Arbor
Mercy Memorial Hospital, Monroe
Garden City Hospital, Garden City
VA Hospital, Ann Arbor
St. John Providence, Southfield
Promedica Health System, Toledo OH
Alverno Clinical Labs, Hammond IN
Henry Ford Hospital, Detroit for Cytogenetics
William Beaumont Hospital, Royal Oak Histotechnology

Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The histotechnology option consists of six semesters of course work and 12 months of clinical rotations through an accredited clinical laboratory.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

- a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.
- b. No grade below C in any mathematics or science course.
- c. A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.
- d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.

- e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).
- f. Students may retake any science, math or CLSC course only one time in order to improve a grade.
- g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Clinical Track Requirements

Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences “intents.” Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or preprofessional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.
2. A minimum science GPA of 2.8.
3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.
4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.
5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory

sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the bachelor of science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.
2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisers will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July. A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

Detroit Medical Center, Detroit

St. John Hospital, Detroit

Hurley Hospital, Flint

William Beaumont Hospital, Royal Oak

Histotechnology Track:

Program Director: Peggy Wenk (William Beaumont Hospital)

Histotechnologists perform a variety of diagnostic and research procedures in the anatomic sciences. Basic histologic techniques involve the processing and staining of tissue specimens that have been removed from humans or animals by biopsy or autopsy. Advanced techniques involve the use of the electron microscope, immunofluorescence microscopy, autoradiography, cytogenetics and medical photography.

Students may be accepted into the histotechnology specialization after completing the required science, mathematics and clinical laboratory science courses. University general education requirements must also be met. The senior year consists of a 12-month internship at William Beaumont Hospital School of Histotechnology.

Henry Ford Hospital, Detroit for Cytogenetics
William Beaumont Hospital, Royal Oak Histotechnology

Because enrollment in the fourth year is limited by the size of classes in the affiliated hospitals, admission to the program does not ensure admission to the clinical rotations of the curriculum. Admission into the clinical rotations is competitive. The Medical Laboratory Science program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

- a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.
- b. No grade below C in any mathematics or science course.
- c. A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.
- d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.
- e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).
- f. Students may retake any science, math or CLSC course only one time in order to improve a grade.
- g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Clinical Track Requirements

Students must be accepted to Eastern Michigan University before they can be considered by the Clinical Laboratory Science Program Screening Committee. However, admission to EMU does not guarantee admission into the clinical track program.

Students entering the program will be classified initially as clinical laboratory sciences “intents.” Application for full admission to the clinical track program should be made during the winter semester of the junior year.

Application packets can be obtained from the program director. Completed applications must be in the office by March 15 in order to be considered for acceptance for the winter semester.

Selection criteria include overall EMU GPA, letters of recommendation, overall science GPA, interview evaluations, freedom from any academic dishonesty and completed application form.

Admission to the clinical laboratory sciences curriculum/clinical track is competitive and is based on the following:

1. A minimum GPA of 2.8 with no grade below C in any science, mathematics or preprofessional course. The prerequisite courses may be taken at EMU, or other four-year college/university or at a community college.
2. A minimum science GPA of 2.8.
3. Completion of at least 60 hours of University credit, including 45 credit hours of prerequisite mathematics and science courses, as indicated on the application form.
4. Three letters of recommendation. It is suggested that references should include a science instructor and an employer.
5. Documentation that an applicant will have completed all prerequisite clinical laboratory sciences courses prior to beginning clinical rotations in the spring of the senior year.

The first three years of clinical laboratory sciences are similar for both the professional and clinical tracks. It is likely that acceptance into the clinical track will be highly competitive. Clinical laboratory sciences majors who are not accepted into the clinical track program, yet desire to sit for the registry examination in medical laboratory science, have the following options:

1. Completion of the bachelor of science degree in clinical laboratory sciences (professional track) at Eastern Michigan University and filing a reapplication to the clinical track program.
2. Completion of all required course work for the bachelor of science degree in clinical laboratory sciences and application to an approved hospital-based school of medical technology. The faculty advisers will assist students in the application process. Students are selected for internship placement through a statewide computer matching process. The selection process is completed in September each year, with internships usually beginning during the month of July. A bachelor of science in clinical laboratory sciences will qualify the student to apply to hospitals within Michigan and throughout the United States.

Hospital-based schools of medical technology (internship programs) associated with the computer match process are:

Detroit Medical Center, Detroit

St. John Hospital, Detroit

Hurley Hospital, Flint

William Beaumont Hospital, Royal Oak

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Clinical Laboratory Sciences Major Requirements: 52-55 hours

- AHPR 200 - Medical Terminology 1 hr
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 351 - Foundations of Biochemistry 4 hrs
- CLSC 200 - Clinical Laboratory Techniques 3 hrs
- CLSC 300 - Molecular Diagnostics 3 hrs
- CLSC 332 - Clinical Microbiology I 3 hrs
- CLSC 335 - Clinical Immunology 3 hrs
- CLSC 336 - Clinical Immunology Laboratory 1 hr
- CLSC 401W - Laboratory Management/Education (Gen Ed Area I, W) 3 hrs
- CLSC 407 - Hematology 3 hrs
- CLSC 408 - Clinical Hematology Laboratory 1 hr

One from the following:

- CHEM 270 - Survey of Organic Chemistry 4 hrs
AND
- CHEM 271 - Organic Chemistry Laboratory 1 hr

OR

- CHEM 371 - Organic Chemistry I 3 hrs
AND
- CHEM 372 - Organic Chemistry II 3 hrs
AND
- CHEM 373 - Organic Chemistry Laboratory 2 hrs

One from the following:

- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

Medical Laboratory Science Concentration Requirements: 34 hours

- CLSC 307 - Urinalysis, Body Fluids and Hemostasis 3 hrs
- CLSC 402 - Clinical Chemistry 3 hrs
- CLSC 403 - Clinical Chemistry Laboratory 1 hrs
- CLSC 432 - Clinical Microbiology 3 hrs
- CLSC 433 - Clinical Microbiology Laboratory 2 hrs
- CLSC 434 - Advanced Immunohematology 3 hrs
- * CLSC 450 - Clinical Hematology 4 hrs
- * CLSC 452 - Clinical Immunology/ Immunohematology Practicum 4 hrs
- * CLSC 454 - Clinical Chemistry Practicum 4 hrs
- * CLSC 456 - Clinical Microbiology Practicum 4 hrs
- CLSC 459 - Clinical Microbiology Practicum II 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

* These four courses are an off-campus, full-time clinical internship.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Clinical Laboratory Sciences Major - Medical Laboratory Science Pre-Professional Concentration

The clinical laboratory sciences program offers a professional track. The professional track is the preferred course of study for students considering graduate school or advanced studies in the clinical sciences. The professional track also can be used as preparation for careers in medicine, dentistry, and veterinary science.

Advising is available by faculty through the clinical laboratory sciences program. To assess progress, students should meet with their adviser each semester in which they are enrolled in classes. The MLS program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences
5600 North River Road
Suite 720
Rosemont, IL 60018

Certification as a Medical Laboratory Scientist

Once the student has completed the requirements for a B.S. through our NAACLS accredited Medical Laboratory Science Program he or she is eligible to sit for the Board of Certification exam sponsored by the American Society of Clinical Pathologist.

Professional Track

This curriculum is a four-year program at Eastern Michigan University:

Preprofessional track: This option consists of eight semesters of course work in general education and in basic, advanced and clinical sciences. Graduates will be prepared for careers in medicine, dentistry, veterinary medicine and other health care industries, and as physician's assistants. Additionally, graduates will be eligible for entry into a master's or doctoral level program in the basic or clinical sciences. Students also would be eligible for one-year hospital rotations and subsequent certification as registered medical technologists.

The major in clinical laboratory sciences follows an interdisciplinary format composed of courses in clinical laboratory sciences, biology, chemistry and mathematics.

All students must complete the courses in each of the four areas of general education. At least 30 hours of the academic program must be completed at Eastern Michigan University. Students should be aware of the 60- and 75-hour rule regarding transfer of community college credit.

Admission and continuation in the clinical laboratory sciences program is based upon the following:

- a. A minimum EMU cumulative GPA of 2.0. A cumulative GPA of less than 2.8 mandates warning students of their ineligibility for acceptance into the clinical track.
- b. No grade below C in any mathematics or science course.
- c. A grade of D (including D- and E) in one courses in the clinical laboratory sciences major may, upon recommendation by the Program Review Committee, result in dismissal from the CLS program.
- d. Freedom from any kind of probation (administrative, academic, academic dishonesty or other university sanctioned probations) must be maintained. While on academic probation, no student may register for, remain in, or receive credit for science courses or practicum courses within the clinical laboratory sciences program.
- e. TOEFL scores of 570 or above (230 on the computer-based exam or 88 on the internet-based exam).
- f. Students may retake any science, math or CLSC course only one time in order to improve a grade.
- g. Transfer credits from any institution must be at least a B or above.

Successful completion of the clinical track and the bachelor of science degree qualifies students to take the national board examination in medical laboratory science.

Professional Track Requirements

The professional track is designed for students with an interest in the clinical sciences, whose career goals may not include working as a registered medical technologist in a hospital laboratory setting.

Students electing the professional track of the clinical laboratory sciences program complete eight semesters of academic course work.

Work opportunities are diverse and include employment in pharmaceutical companies, analytical laboratories and research laboratories. The clinical practicum is not required for the professional track.

Formal application into the professional track is not required. Students must maintain an overall GPA of 2.0 in the major and satisfy University requirements for graduation. Registration for cooperative courses requires a 2.5 overall GPA and 2.5 in the sciences.

These curricula lead to a bachelor of science in the clinical laboratory sciences program.

University Information: Consult the online catalog at catalog.emich.edu.

Combined Bachelor-Master's Degree in Occupational Therapy (OT-BMOT)

Established in 1941, Eastern Michigan University's Occupational Therapy Program has a long-standing tradition of excellence. The EMU OT Program provides competent and caring professionals to the local community as well as throughout the State of Michigan and across the nation.

The Bureau of Labor Statistics Occupational Outlook Handbook predicts a greater than average employment need for occupational therapists through at least 2014. This is based on the general population growth and the increasing demand for services for those aged 75 years and older who are requiring occupational therapy services to improve their quality of life. In addition, emerging practice areas for occupational therapists, for example, in such areas as driver rehabilitation and fall prevention, continue to develop. Occupational therapists are employed in diverse settings including but not limited to: hospitals, schools, rehabilitation facilities, long-term care facilities, home health care, and in areas of prevention and wellness.

Program of Study

Occupational therapy advising for occupational therapy-intent students is performed by the OT intent adviser or the College of Health and Human Services Advising Center. All students should attend a group advising session with the OT Intent Adviser to discuss admission and portfolio requirements. Upon acceptance into the occupational therapy program, students are assigned to a faculty advising team. All students admitted to the program must meet with their advising team before registering each semester.

Certification in Occupational Therapy

The National Board for Certification in Occupational Therapy, Inc. (NBCOT) administers the national certification exam for occupational therapists in the United States. All students in occupational therapy programs must successfully complete the academic requirements and fieldwork experiences in their programs in order to be eligible to sit for the national certification examination. After successful completion of this exam, the individual will be an occupational therapist, registered (OTR) and can apply for licensure or registration in the state where they choose to practice. All students must take the NBCOT Certification exam in order to practice in the profession of occupational therapy. Character background information is reviewed by NBCOT to determine a person's ability to sit for the examination. If you have any potential impediments, such as a felony charge or conviction, an encumbrance of professional license or negligence, malpractice or willful intentional misconduct, we strongly recommend that you contact NBCOT to determine your eligibility to sit for the national exam.

Combined Bachelor's-Master's Degree in Occupational Therapy

A competitive application process is utilized to select students. Please be aware that admission to Eastern Michigan University as well as successful completion of undergraduate courses does not guarantee entry into the program. A minimum GPA of 2.75 is required to be considered for admission.

There are two different tracks, or means, of entering the Masters of Occupational Therapy program, the 3+2 track and the MOT track. The 3+2 track is designed for undergraduate students who do not yet have a Bachelors degree. It combines three years of undergraduate general education classes with two years of graduate course work in occupational therapy. This track culminates in a bachelor of science degree and a Master of Occupational Therapy (MOT) degree. Undergraduates accepted into the program must have successfully completed 90 undergraduate credits by August 1 in order to begin the program in the Fall of the year in which they applied.

Required Prerequisite Courses

In order to be considered for admission to the occupational therapy program, a student must complete the following prerequisite courses with a grade of B- or better. If you have previously taken these courses at another university please note that all prerequisite substitutions must be pre-approved before the submission of your portfolio. Submission of your portfolio without prior approval will result in your application being denied.

Anatomy and Physiology

BIO 251 - Human Anatomy and Physiology I

BIO 252 - Human Anatomy and Physiology II

Neuroanatomy

BIO 330 - Neuroanatomy

Medical Terminology

AHPR 200 - Medical Terminology

Statistics

All of the following EMU courses meet this requirement: SOCL 250, EDPS 621, EDPS 651, MATH 170, MATH 360, MATH 370, MATH 571, MATH 573, MATH 574, or PSY 205

Human Growth and Development

IHHS 260 - Aging to Infancy: A Life Course Retrospective or
EDPS 325 - Life Span Human Growth and Development

NOTE: BIO 251, AHPR 200, the statistics course, and IHHS 260/EDPS 325 must be completed by the application deadline. The remaining two must be completed before entering the program.

Application Process

The competitive admission process consists of a review of portfolios by a screening committee in the occupational therapy program followed by interviews with faculty for applicants who make the cut. Portfolios are accepted once a year on August 1 for students interested in beginning the program in the winter semester of that academic year. No late submissions are accepted. The portfolio must include the following items: official college transcripts from all schools attended, results of the GRE General Test, one academic reference, documentation of 100 hours of completed volunteer service with two references from these experiences, and a sample of reflective writing. Detailed information about the application process can be found on the program's website. We strongly encourage all students interested in applying to the program to attend a group advising session with the OT Intent Advisor in order to successfully complete their application.

International Students

International students must contact the International Admissions office at 734.487.0205. They will assist in the evaluation of transcripts and determine your cumulative GPA. International students must provide a copy of the EMU Graduate School approved TOEFL score in their application portfolio.

Fieldwork

A minimum of six months of full time supervised fieldwork is required at the conclusion of the academic program. Field placements are arranged by the Occupational Therapy Fieldwork Coordinator and approved by the faculty.

Scholarships

The Occupational Therapy program offers a number of scholarships to students who are admitted to the program. For more information contact the OT program at 734.487.4096. There are also a number of University scholarships available to students. Contact the office of Financial Aid for information.

Accreditation

The EMU OT program is accredited by the American Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. Telephone number: 301.652.AOTA.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 66 hours

- HLAD 510 - Medical Care Organization 3 hrs
- OCTH 412 - Models of Practice 3 hrs
- OCTH 419 - Programming I 6 hrs
- OCTH 420 - Level I Fieldwork I 3 hrs
- OCTH 495 - Neurological Foundations of Human Occupation 3 hrs
- OCTH 500W - Philosophy of Occupational Therapy (Gen Ed Area I, W) 3 hrs
- OCTH 502 - Theory and Analysis of Occupation 3 hrs
- OCTH 516 - Level I Community Fieldwork II 3 hrs
- OCTH 517 - Level I Community Fieldwork III 3 hours
- OCTH 519 - Programming II 6 hrs
- OCTH 540 - Research Methods I 3 hrs
- OCTH 588 - Fieldwork Level II: Clinical Skills 6 hrs
- OCTH 589 - Fieldwork Level II: Clinical Skills 6 hrs
- OCTH 600 - Supervision and Professional Roles 3 hrs
- OCTH 619 - Programming III 6 hrs
- OCTH 686 - Culminating Project I 3 hrs
- OCTH 687 - Culminating Project II 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits and the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas

below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names

will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

Dietetics Program Information

The Coordinated Program in Dietetics is fully accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (A.N.D. or the Academy).

Accreditation Council for Education in Nutrition and Dietetics

The Academy of Nutrition and Dietetics

120 South Riverside Plaza, Suite 2000

Chicago, IL 60606-6995

312/889-0040, ext. 5400

www.eatright.org

www.cdrnet.org

This is a second admissions program with both online and on-campus delivery methods. Through the online delivery method, this program is available to students who do not live within 100 miles of Eastern Michigan University's campus. The program begins in the fall of the junior year. Please be aware that admission to the University is not a guarantee of entry into the dietetics program. Important information and the application for both the online and on-campus programs can be found at the Extended Programs and Educational Outreach web site. In addition, students are encouraged to contact the College of Health and Human Services Advising Center at chhsadvising@emich.edu or 734.487.0918 for additional information. The application deadline for both the online and on-campus programs is January 15 for consideration for entrance into the professional phase of the program the following fall semester.

Admission Requirements

The applicants for either delivery method must meet the following requirements to be considered for the professional phase of the program:

1. Admission to EMU;
2. Junior standing achieved by completing 56 or more credit hours or equivalent (including transfer courses);
3. Minimum GPA of 2.75; and
4. Satisfactory completion (C or above) of the following prerequisites prior to entrance into the professional phase of the program.

Recency of Education rules apply to any program courses that are transferred into Eastern Michigan University. Please follow the Recency of Education link to learn more.

The availability of clinical facilities limits the number of students admitted to each class. Therefore, a screening procedure is used to select the most qualified students for the available positions in the program. Academic status, letters of recommendation, a personal statement and answers to given questions are considered in this screening procedure.

Continuance

Once students have been accepted into the CPD, it is assumed that they will maintain their academic status.

In preparing for a professional career in dietetics, students are expected to assume responsibility for their learning, to support the ethics and standards of practice of their profession and to value honesty in the fulfillment of scholarly and professional endeavors. The department reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship and practice competence and personal integrity suitable to dietetics.

Registration in Dietetics

Upon successful completion of the coordinated dietetics curriculum and degree, students will be eligible to sit for the Registration Examination for Dietitians. Passage of the exam will provide the recognized credential of Registered Dietitian through the Commission on Dietetics Registration of the Academy of Nutrition and Dietetics.

Articulation Agreement

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Prerequisites of Professional Phase

Pre-Application Phase: 20 hours

The following prerequisites are to be completed prior to January 15th CPD application deadline.

- BIO 326 - Human Physiology 3 hrs
OR
- SPMD 269 - Anatomy and Physiology for Dietetics 3 hrs

- BIO 328 - Introductory Microbiology 3 hrs
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 351 - Foundations of Biochemistry 4 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs

- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs
OR
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs

Pre-Admission Phase: 13-14 hours

The following prerequisites are to be completed prior to start of Professional Phase.

- AHPR 200 - Medical Terminology 1 hr
- DTC 108 - Careers in Nutrition and Dietetics 2 hrs
- DTC 202 - Principles of Human Nutrition 3 hrs
- DTC 251 - Experimental Foods 4 hrs

- EDPS 325 - Life Span Human Growth and Development 4 hrs
OR

- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Major Requirements: 58 hours

- DTC 302 - Nutrient Metabolism: Macronutrients 3 hrs
- DTC 330 - Nutrition Therapy I 3 hrs
- DTC 331 - Nutrition Therapy I Experience 2 hrs
- DTC 350 - Food Systems Management I 3 hrs
- DTC 351 - Food Systems Management I Experience 4 hrs
- DTC 358 - Food and Culture (Gen Ed Area III) 3 hrs
- DTC 370 - Nutrition Therapy II 3 hrs
- DTC 371L - Nutrition Therapy II Experience (Gen Ed Area V LBC) 4 hrs
- DTC 372 - Nutrition of the Life Cycle 3 hrs
- DTC 375 - Complementary and Alternative Medicine 3 hrs
- DTC 422 - Nutrient Metabolism: Micronutrients 3 hrs
- DTC 430 - Nutrition Therapy III 3 hrs
- DTC 431W - Nutrition Therapy III Experience (Gen Ed Area I, W, or Area V LBC) 4 hrs
- DTC 435 - Seminar in Dietetics 2 hrs
- DTC 450 - Food Systems Management II 2 hrs
- DTC 451 - Food Systems Management II Experience 4 hrs
- DTC 459 - Development of Entrepreneurial Dietitian 3 hrs
- DTC 470 - Nutrition Therapy IV 2 hr
- DTC 471 - Nutrition Therapy IV Experience 4 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas

below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names

will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Health Administration Major

The program in Health Administration emphasizes the rapidly changing forms of health care delivery, health care reform, health care for the indigent and services to special populations, such as uninsured workers, the homeless and prisoners. Student writing, publication and opportunities for research are central to the program's mission.

Admission Requirements

To qualify for admission to the program in Health Administration, students must have successfully completed **45** hours of undergraduate coursework at an accredited institution of higher learning with a minimum cumulative grade point average of 2.5. In addition, the following courses must be completed with a minimum earned grade of C- (C required for transfer courses) in each:

ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) (3 hrs)

CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) (3 hrs)

Prospective majors in Health Administration who do **not** have the minimum 2.5 cumulative grade point average may petition the program in writing, through the Program Director, to request probationary admission to the major. Such applications will be considered by the program's faculty on a case-by-base basis and would be expected to include information explaining either disruption in the applicant's higher education, personal experience and achievements that counterbalance the grade point average, or other issues of relevance to the request.

Clinical Affiliations

The Health Administration program is closely affiliated with the American Academy of Medical Administrators (AAMA) and the American College of Health Executives (ACHE). The Health Administration Student Organization is a student chapter of the American College of Health Care Executives. Internship opportunities are an essential component in the curriculum of the program. The following organizations are representative of those in which health administration majors acquire field experience:

Alzheimer's Disease and Related Disorders Association, Southfield, MI

Arbor Hospice, Ann Arbor

Chelsea Community Hospital, Chelsea, MI

City of Detroit, Bureau of Substance Abuse Services, Detroit

Detroit Osteopathic Hospital Corporation, Detroit

Detroit Receiving Hospital, Detroit

Garden City Osteopathic Hospital, Garden City, MI

Gift of Life

Health Alliance Plan of Michigan, Detroit

Henry County Hospital, Napoleon, OH

Henry Ford Hospital, Detroit

Henry Ford Village

Hospice of Washtenaw, Ann Arbor

Laurel Home Health Care Centers, Ypsilanti

M-Care, Ann Arbor

McAuley-McPhearson Health Care, Howell, MI

Michigan Blue Shield and Michigan Blue Cross, Detroit

Michigan Insurance Bureau, Lansing, MI

Michigan Department of Corrections

Michigan Department of Mental Health

Michigan Department of Public Health

Munson Memorial Hospital, Traverse City

Milan Federal Correctional Institution, Milan, MI

Munson Memorial Hospital, Traverse City, MI

Oakland County Department of Public Health

Snow Health Center

St. John Hospital, Detroit

St. Joseph Mercy Hospital, Ann Arbor

St. Mary's Hospital, Saginaw, MI

Seaway Hospital, Trenton, MI

Springfield Hospital, Springfield, VT

Traverse City Osteopathic Hospital, Traverse City, MI

Trinity Health Care

University of Michigan Hospitals, Ann Arbor

Visiting Nurse Association of Huron Valley, Ann Arbor

Washtenaw County Community Mental Health, Ann Arbor
Wayne County Medical Examiner's Office, Detroit

School of Health Sciences Information:

Website: www.emich.edu/hs/

Health Administration Curriculum

The curriculum concentrates on the principles and processes utilized in the field of health administration and management. The program is designed to prepare those seeking a career in the administrative sector of the health care delivery system in any of its forms. It also is appropriate for those already working in the health care field in some other capacity but wishing to redirect their career toward the area of health administration. Practicing health administrators without previous formal education in the field also may find this program beneficial for career advancement.

All students must take a one-semester internship during their junior or senior year unless waived by the program director due to significant administrative experience. No outside minor is required. However, many students elect the Gerontology Minor. Other minors that fit well with the Health Administration Major include the American Humanics Certificate in Nonprofit Management.

A degree completion track, Health Services Management, has been established for persons with clinical associate degrees from accredited community colleges who have had five or more years of experience subsequent to that of degree completion. Associate degree trained nurses, respiratory therapists and others interested in the degree completion option in health services management should contact the program director. Successful completion of the degree completion track leads to the same degree as the regular program major.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

A B.S. in Health Administration articulation agreement has been established with the programs of radiography, nursing and dental assisting at Washtenaw Community College and a B.S. in Health Administration articulation agreement with health information technology at Schoolcraft College, which permit graduates of these two-year degree programs to complete their bachelor's degree in two years, or the equivalent of four full-time semesters at Eastern Michigan University, culminating with a degree in Health Administration. Unlike the health services management track, which is a generic degree for completion for clinicians with a two-year clinical degree, these articulations provide selected transfer students with an efficient degree completion curriculum that fits into a traditional four-year undergraduate schedule. Graduates of the programs in radiography, nursing and dental assisting at Washtenaw Community College and health information technology at Schoolcraft College should

contact the program director (program in health administration) or their community college academic adviser for complete details about these degree completion opportunities.

A Health Administration Minor is available to undergraduate students at Eastern Michigan University. The curriculum for the minor in Health Administration includes 20 to 22 hours. Students interested in the minor should contact the program in writing and meet with the program's minor curriculum adviser.

General Education Requirements:

For specific requirements refer to the General Education Program .

Additional Requirements: 13-16 hours

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

One course from the following:

- MATH 118 - Linear Models and Probability (Gen Ed Area II) 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

If student has taken MATH 118, choose one course from the following:

- DS 265 - Business Statistics I 3 hrs
- ECON 310 - Economic Statistics 3 hrs
- PSY 205 - Quantitative Methods in Psychology 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs

Major Requirements: 54 hours

Required Courses in Health Administration: 44 hours

- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 307W - Communication Effectiveness in Health Administration (Gen Ed Area I, W) 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 311 - Management of Health Services 3 hrs
- HLAD 312 - Health Personnel Management and Development 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 416 - Health Planning 3 hrs
- HLAD 418 - Principles of Healthcare Finance Management 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs

- HLAD 420 - Health Insurance and Reimbursement 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs
- HLAD 480 - Internship Seminar in Health Administration 2 hrs
- HLAD 488 - Internship 6 hrs

Required Courses in Associated Health Profession: 4 hours

- AHPR 200 - Medical Terminology 1 hr

One course from the following:

- HLAD 401 - Legal Issues in Health Care 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- PLSC 301 - American Legal System 3 hrs

Required Courses in Business Administration and Liberal Arts: 6 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ECON 436 - Health Economics 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Health Services Management Track Curriculum

This is a degree completion track leading to the bachelor of science degree in health administration for persons holding an accredited associate's degree in a recognized health services or clinical discipline and who have had five or more years of experience subsequent to that degree completion. Such disciplines include nursing, respiratory therapy or other specialized two-year programs of study.

For degree completion students in this curriculum, up to 22 credit hours may be awarded and credited toward the bachelor of science obligation of 124 credit hours on the basis of supervised clinical course work taken in the associate degree curriculum. These credits may be based on supervised clinical

courses that have no exact equivalence at Eastern Michigan University. This is determined in consultation with the program director of the health administration program.

General Education Requirements: 40 hours

For specific requirements refer to the General Education Program .

Major Requirements: 30 hours

- Two hours of applicable transfer work from an associates degree.
- AHPR 200 - Medical Terminology 1 hr
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 311 - Management of Health Services 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 401 - Legal Issues in Health Care 3 hrs
- HLAD 420 - Health Insurance and Reimbursement 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs

One course from the following:

- HLAD 416 - Health Planning 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors. A minor in management is required for non-business majors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. - For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Therapeutic Recreation Major

The therapeutic recreation curriculum leads to a bachelor of science degree in therapeutic recreation. Graduates from this program may apply for national certification as certified therapeutic recreation specialists.

This curriculum consists of a minimum of 48 hours of general education and a minimum of 63 credit hours of therapeutic recreation required courses. The therapeutic recreation student must complete 250 hours of clinical and/or paid therapeutic recreation experience before taking a full time 15-week,

600-hour practicum. The student must also file for candidate status one semester prior to enrolling in the practicum. No outside minor is required.

Students planning admission to the therapeutic recreation major must officially enroll in the program at the Academic Advising Center and complete an application for program admission at 363 Marshall.

Criteria for admission into the therapeutic recreation major are:

1. Application for program admission;
2. Interview with the therapeutic recreation faculty.

Criteria for entry into THRC 449 - Therapeutic Recreation Practicum are:

1. Minimum of 2.5 GPA overall and 2.75 GPA in all major core and required courses;
2. Completion of 180 hours of verified fieldwork experience in four or more therapeutic recreation service agencies serving people with disabilities;
3. Completion of all academic courses.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 63-64 hours

- AHPR 200 - Medical Terminology 1 hr
- COUN 450 - An Introduction: Counseling Concepts and Skills 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- PHED 200 - Anatomy and Physiology 5 hrs
- PSY 360 - Abnormal Psychology 3 hrs
- SPMD 280 - Pharmacology for Sports Medicine 2 hrs
- THRC 100 - Foundation and Advancement of the Therapeutic Recreation Profession 3 hrs
- THRC 200 - Recreation for Persons with Disabilities 3 hrs
- THRC 250 - Fieldwork in Recreation Therapeutic Recreation 1 hr
- THRC 251 - Fieldwork in Recreation Therapeutic Recreation 1 hr
- THRC 252 - Fieldwork in Recreation Therapeutic Recreation 1 hr

- THRC 290 - Quality Improvement: Research Methods in Health Care 3 hrs
- THRC 300 - Principles of Therapeutic Recreation 3 hrs
- THRC 320 - Leisure Education 3 hrs
- THRC 340 - Therapeutic Recreation Processes I 3 hrs
- THRC 360 - Therapeutic Recreation Program Planning 3 hrs
- THRC 400 - Therapeutic Recreation Process II 3 hrs
- THRC 430W - Issues in Therapeutic Recreation (Gen Ed Area I, W) 3 hrs
- THRC 449 - Therapeutic Recreation Practicum 8 hrs

Choose one from the following:

- THRC 180 - Activity Analysis and Adaption 2 hrs
- THRC 481 - Adapted Aquatics 2 hrs

Choose one from the following:

- THRC 310 - Leisure and Aging 3 hrs
- THRC 330 - Therapeutic Recreation: Substance Abuse 3 hrs

Choose one from the following:

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Elective Courses: 10-12 hours

Students may choose ten to twelve credit hours of electives in consultation with an adviser.

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Adviser: Dr. Elizabeth Schuster, Director
Gerontology Program

104 Roosevelt Hall
734.487.1361
eschuster@emich.edu

The gerontology minor is administered by the Department of Health Sciences in the College of Health and Human Services through an interdisciplinary coordinating committee composed of faculty who are actively involved in the gerontology field. The 21-semester-hour interdisciplinary minor is available to students who are majors in any department or college of the University. It may serve as a core of study for undergraduate students who wish to supplement their studies with a detailed knowledge of gerontology or who contemplate entering master's or doctoral programs in gerontology. The minor should be of particular interest to students preparing for work in the physical and mental health service careers, to those working in continuing care centers, for community organization and social service workers, and for educators.

Required Courses: 13-14 hours

- BIO 259 - Biology of Aging 2 hrs
- GERT 212 - Introduction to Gerontology 3 hrs
- PSY 323 - Psychology of Human Aging 3 hrs
- SOCL 311W - Aging and the Life Course (Gen Ed Area I, W) 3 hrs

One course from the following:

- * GERT 488 - Gerontology Practicum 2 hrs
- * GERT 489 - Gerontology Practicum 3 hrs

Elective Courses: 7-8 hours

Students must select 7-8 hours from the following courses:

- DTC 202 - Principles of Human Nutrition 3 hrs
- or
- DTC 203 - Nutrition for Health Professionals 3 hrs
- or
- DTC 204 - Sports Nutrition 3 hrs
- DTC 372 - Nutrition of the Life Cycle 3 hrs
- EDPS 325 - Life Span Human Growth and Development 4 hrs

- GERT 219 - Around the World in 80 Years: Adult Development Across Culture (Gen Ed Area III) 3 hrs
- GERT 497 - Independent Study 1 hr
- GERT 498 - Independent Study 2 hrs
- GERT 499 - Independent Study 3 hrs
- GERT 509 - Older Adults and Chemical Dependency 1 hr
- GERT 511 - Elders and Their Families 2 hrs
- GERT 513 - Intergenerational Programs and Services 2 hrs
- GERT 515 - Sexuality and Aging 1 hr
- GERT 516 - The Elderly and the Law 1 hr
- GERT 517 - Developing Funding Proposals for Aging Programs 2 hrs
- GERT 518 - Introduction to Alzheimer's and Related Dementia 2 hrs
- GERT 523 - Designing Programs for People with Dementia 2 hrs
- GERT 524 - Families and Dementia 2 hrs
- GERT 526 - Behaviors in Dementia 2 hrs
- GERT 528 - Advanced Issues in Dementia Care 2 hrs
- GERT 532 - Aging Through the Eyes of the Old 2 hrs
- GERT 590 - Special Topics 1 hr
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLED 420 - Health and Aging 3 hrs
- IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
- IDE 503 - Physical Environments for Aging 2 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs
- SWRK 413 - Women and Aging 3 hrs
- SWRK 420 - Working with Aging People 3 hrs
- THRC 310 - Leisure and Aging 3 hrs

- WGST 413 - Women and Aging 3 hrs

Minor Total: 20-22 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

** Students who are required to complete a practicum in a setting serving older people as a part of their major may request that this experience fulfill the practicum component GERT 488/489.*

Students can only take DTC 202 or DTC 203 or DTC 204.

Students cannot take both SWRK 413 and WGST 413.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Health Administration Minor

School of Health Sciences Information:

Interim School Director: Colleen Croxall

School Contact: ccroxall@emich.edu

Website: www.emich.edu/hs/

Minor Requirements: 16 hours

- AHPR 200 - Medical Terminology 1 hr
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 311 - Management of Health Services 3 hrs
- HLAD 401 - Legal Issues in Health Care 3 hrs
- HLAD 420 - Health Insurance and Reimbursement 3 hrs

Elective Courses: 6 hours

Two courses from the following:

- AAS 351 - The Social Context of African American Health (Gen Ed Area IV) 3 hrs
- HLAD 250 - Introduction to Public Health 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 416 - Health Planning 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs
- HLAD 421 - Managed Care 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs
- HLAD 460 - Long-Term Care Administration 3 hrs
- HLAD 479 - Special Topics 3 hrs

- SWRK 431 - Substance Abuse 3 hrs

Minor Total: 22 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Human Nutrition Minor

This non-teaching minor benefits students enrolled in the majors of: nursing, sports medicine, hotel and restaurant management, occupational therapy, education, psychology and biology.

School of Health Sciences Information:

Interim School Director: Colleen Croxall

School Contact: ccroxall@emich.edu

Website: www.emich.edu/hs/

Required Area Courses: 15 hours

- DTC 358 - Food and Culture (Gen Ed Area III) 3 hrs
- DTC 372 - Nutrition of the Life Cycle 3 hrs
- DTC 375 - Complementary and Alternative Medicine 3 hrs
- DTC 430 - Nutrition Therapy III 3 hrs

One course from the following:

- DTC 202 - Principles of Human Nutrition 3 hrs
- DTC 203 - Nutrition for Health Professionals 3 hrs
- DTC 204 - Sports Nutrition 3 hrs

Restricted Electives Courses: 5 hours

Five hours from the following:

- AHPR 200 - Medical Terminology 1 hr
- BIO 259 - Biology of Aging 2 hrs
- DTC 108 - Careers in Nutrition and Dietetics 2 hrs
- DTC 155 - Fundamentals of Healthy Lifestyles 2 hrs
- DTC 251 - Experimental Foods 4 hrs
- DTC 302 - Nutrient Metabolism: Macronutrients 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 308 - Ethical Dimensions in Health Care Delivery 3 hrs
- HLED 302 - From Host to Host: The Communicable Diseases 1 hr
- HLED 402 - Selecting Health Products and Services 3 hrs

- HLED 420 - Health and Aging 3 hrs
- HLED 490 - Drug Use and Abuse 3 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs
- PHED 209 - Bio-Fitness 2 hrs
- PHIL 223 - Medical Ethics (Gen Ed Area IV) 3 hrs
- THRC 310 - Leisure and Aging 3 hrs

Minor Total: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Certificate

Health Informatics Certificate (CHIN)

This certificate introduces the student to information systems terminology, structures, applications, and their relationship to management functions in health services organizations. Health providers and enterprise-wide health systems are continuing to make multimillion dollar investments in information systems in order to meet new market and regulatory requirements. Health services managers are required to play a critical role in the analysis, design, acquisition, installation, operation and ultimate success of information systems necessary to meet organizational goals and objectives in such environments. This course exposes students to the fundamental IS/IT applications used to support health care management functions. In addition, applications and management issues unique to industry segments (e.g., long-term care, home care, hospital administration, physician practice management) will also be explored. The certificate is designed to ensure that students are schooled in the terminology, conceptual models, applications, opportunities, and limitations of core technologies and their relation to information systems used in health services, to the point where they can ask appropriate questions, recognize and state significant issues, and participate in the discussion and analysis of information systems development and application. Ultimately, it seeks to provide students with an understanding of the basic structures of information systems in health administration; the relationship of these systems to managerial functions such as communications, coordination, control, strategic and process planning and decision making; and the important policy and ethical issues associated with privacy, confidentiality, and security in information systems. A key component of the certificate will be a commitment to provide continuous updates to course materials, as U.S. health care technology and policy evolves. Also, since the certificate represents the integration and application of a prerequisite CIS or Computer Science sequence, students will be grounded in fundamental technologies commonly used in health care in addition to gaining an understanding of major information management issues specific to health care systems.

Critical Information regarding Certificates

Undergraduate certificates may only be offered in conjunction with or subsequent to a baccalaureate degree. They cannot be 'stand alone' certificates, offered to students who are not pursuing or do not have a bachelor's degree. For students pursuing an undergraduate certificate concurrent with a bachelor's degree, the certificate will be awarded upon graduation.

School of Health Sciences Information:

Interim School Director: Colleen Croxall
School Contact: ccroxall@emich.edu
Website: www.emich.edu/hs/

Required Courses: 12 hours

- HLAD 476 - Introduction to Healthcare Informatics 3 hrs

Choose a track: 9 hours

CIS Track:

- IS 215 - End-User Computing 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs

COSC Track:

- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs

Choose one of the following: 3 hours

- COSC 215 - Scientific Simulation 3 hrs
- COSC 231 - Internet-based Computing 3 hrs

Electives: 6 hours

Six hours from the following:

- HLAD 311 - Management of Health Services 3 hrs
- HLAD 315 - Research Methods and Data Analysis in Health Sciences 3 hrs
- HLAD 416 - Health Planning 3 hrs
- HLAD 418 - Principles of Healthcare Finance Management 3 hrs
- HLAD 419 - Legal and Regulatory Issues in Health Care 4 hrs

Certificate Total: 18 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in

which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Clinical Laboratory Sciences

CLSC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CLSC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CLSC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CLSC 200 - Clinical Laboratory Techniques

Basic skills necessary to function in a clinical laboratory; e.g., phlebotomy, use of the microscope, specimen collection and preparation, pipetting and lab safety.

Credit Hours: 3 hrs

Prerequisite: BIO 110, CHEM 121 and CHEM 122

Last Updated: Links 04/2011

CLSC 201 - Phlebotomy Techniques

Phlebotomy Techniques is presented in a lecture-laboratory format. The course is designed to present the theory of blood collection and the practical techniques for venipuncture and skin puncture. Topics included in the course will cover the phlebotomist's role, professionalism and ethics, laboratory and hospital organization, specimen collection techniques, various blood drawing equipment, patient interaction and some medical and laboratory terminology.

Credit Hours: 3 hrs

Concurrent Prerequisite: AHPR 200 or department permission

Last Updated: Links 04/2011

CLSC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CLSC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CLSC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CLSC 300 - Molecular Diagnostics

This course covers molecular diagnostic techniques in the clinical laboratory. Topics will include laboratory diagnosis of infectious and genetic diseases through cytogenetic, molecular cytogenetic and DNA molecular technology.

Credit Hours: 3 hrs

Concurrent Prerequisite: BIO 301 and CLSC 200

Last Updated: Links 04/2011

CLSC 301 - Molecular Diagnostics Laboratory

This laboratory course will examine the techniques of molecular techniques use in the clinical laboratory, including nucleic acid extraction, nucleic acid hybridization, electrophoresis and polymerase chain reactions.

Credit Hours: 1 hr

CLSC 307 - Urinalysis, Body Fluids and Hemostasis

Lecture and laboratory covering urines, body fluids and hemostasis. Specimen collection and handling, physical examination, chemical testing, and microscopic evaluation of urines and body fluids; evaluation of hemostasis testing and hemostasis theory.

Credit Hours: 3 hrs

Prerequisite: CLSC 200 or permission

Last Updated: Links 04/2011

CLSC 322 - Clinical Microbiology I

A lecture and laboratory course on the basic disease processes and pathogenesis of clinically-relevant microorganisms. This course will discuss the major pathogenic bacteria, viruses and fungi. The laboratory portion of this course will emphasize the standard microbiological techniques, including isolation, cultivation, identification and antibiotic susceptibility testing. This course will serve as an entry-level microbiology course and is intended as a one-semester survey of microbiology for health science students and as a first semester of a two-semester sequence for clinical laboratory sciences students.

Credit Hours: 4 hrs

Prerequisite: BIO 105 or BIO 110 or with department permission

Last Updated: Links 04/2011

CLSC 332 - Clinical Microbiology I

A lecture and laboratory course on the basic disease processes and pathogenesis of clinically-relevant microorganisms. The laboratory portion of this course will emphasize the standard microbiological techniques, including isolation, cultivation and identification. This course will serve as a first semester of a two-semester sequence for clinical laboratory science students.

Credit Hours: 3 hrs

Prerequisite: BIO 105 or BIO 110 or department permission

Concurrent Prerequisite: CLSC 200

Class Restrictions: Sophomore standing

Major Restrictions: Clinical Laboratory Science Program Majors only

Last Updated: Links 04/2011

CLSC 335 - Clinical Immunology

Lecture and laboratory presenting theory, basic principles, and practical experience in clinical immunology. The correlation of basic principles to human disease state.

Credit Hours: 3 hrs

Prerequisite: CLSC 200 or permission of instructor

Last Updated: Links 04/2011

CLSC 336 - Clinical Immunology Laboratory

This laboratory course will examine the immunological diagnostic techniques use in the clinical immunology laboratory, including fluorescence immunoassay's, enzyme immunoassay's, immunoelectrophoresis and latex agglutination testing.

Credit Hours: 1 hr

Concurrent Prerequisite: CLSC 335

Last Updated: Links 04/2011

CLSC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CLSC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CLSC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CLSC 387 - Cooperative Education in Clinical Laboratory Science

Three or four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: CHEM 270 and CHEM 271; permission of program director

Notes: Offered on a graded or credit/no-credit basis

Last Updated: Links 04/2011

CLSC 401W - Laboratory Management/Education (Gen Ed Area I, W)

Basic management skills for laboratory personnel and laboratory. Personnel practices, equipment and reagent purchase, and laboratory information systems including computer applications, laboratory statistics and evaluation of methods are covered in this lecture course.

Credit Hours: 3 hrs

Prerequisite: CLSC 200 and MATH 170 or equivalent

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit. This course is offered as a part of the General Education Program and satisfies the Writing Intensive requirement.

Last Updated: Graduate Credit 07/2011; Links 03/2011

CLSC 402 - Clinical Chemistry

This lecture course covers the relationship of clinical chemistry to diagnosis, prognosis, and treatment of disease. Focus will be on testing procedures, instrumentation and controlling the functions in order to provide correct information to the medical staff.

Credit Hours: 3 hrs

Prerequisite: CHEM 351 or permission of instructor

Last Updated: 04/2011

CLSC 403 - Clinical Chemistry Laboratory

This laboratory course will examine the diagnostic testing used in the clinical chemistry laboratory. These procedures will include enzymatic diagnostic procedures, spectrophotometric analysis and protein electrophoresis using clinical samples.

Credit Hours: 1 hrs

Corequisites: CLSC 402

Last Updated: Links 04/2011

CLSC 405 - Cytotechnology Clinical Internship

Microscopic study of cellular alterations indicative of cancer and precancerous conditions, bacterial, viral and parasitic infections, and hormonal abnormalities; cytogenetics; and a research project.

Credit Hours: 14 hrs

Prerequisite: program approval

CLSC 406 - Cytotechnology Clinical Internship

Continuation of CLSC 405.

Credit Hours: 14 hrs

Prerequisite: program approval

Last Updated: Links 05/2011

CLSC 407 - Hematology

This lecture and laboratory course covers the theory and application of hematological test procedures, interpretation of results, problem solving, and correlation of laboratory findings with disease states.

Credit Hours: 3 hrs

Prerequisite: CLSC 200 or permission

Notes: Not open to those with credit in BIO 407.

Last Updated: Links 04/2011

CLSC 408 - Clinical Hematology Laboratory

This laboratory course will examine the hematological techniques used in the clinical hematology laboratory. These include the identification of abnormal blood cells, cell counting procedures and staining procedures used to identify abnormal blood cells.

Credit Hours: 1 hr

Concurrent Prerequisite: CLSC 407

Last Updated: Links 04/2011

CLSC 410A - Cytogenetics Clinical Internship

CLSC 410 and CLSC 411 cytogenetics clinical rotation I and II will be used for the clinical practice for the cytogenetics track in the CLS program. The student will set up tissue cultures, harvest cells, prepare slides for analysis and prepare analysis for a broad spectrum of genetic abnormalities. This will include photograph and computer-assisted chromosome analysis. Procedures will include chronic villus, fragile X and sister chromatid exchanges.

Credit Hours: 7 hrs

Prerequisite: program approval

Previously Listed As: CLSC 410; now split into CLSC 410A and CLSC 410B

Last Updated: Links 04/2011

CLSC 410B - Cytogenetics Clinical Internship

CLSC 410 and CLSC 411 cytogenetics clinical rotation I and II will be used for the clinical practice for the cytogenetics track in the CLS program. The student will set up tissue cultures, harvest cells, prepare slides for analysis and prepare analysis for a broad spectrum of genetic abnormalities. This will include photograph and computer-assisted chromosome analysis. Procedures will include chronic villus, fragile X

and sister chromatid exchanges.

Credit Hours: 7 hrs

Prerequisite: program approval

Previously Listed As: CLSC 410; now split into CLSC 410A and CLSC 410B

Last Updated: Links 04/2011

CLSC 411 - Cytogenetics, Clinical Internship II

Continuation of CLSC 410A or CLSC 410B.

Credit Hours: 14 hrs

Prerequisite: program approval

Last Updated: Links 04/2011

CLSC 412 - Clinical Laboratory

Individual Clinical Laboratory practicum experience. Experiences will be in the specialty areas of the clinical laboratory including, but not limited to molecular diagnosis.

Credit Hours: 14 hrs

Prerequisite: department permission

CLSC 416 - Basic Histotechnique and Histochemical Staining Methods

Didactic and practicum experience in preparing histologic sections for light microscopy, including the study of more than 50 different histologic staining methods and their specific applications.

Credit Hours: 12 hrs

Prerequisite: program approval

CLSC 417 - Basic Electron Microscopy

Didactic and practicum experience in basic biological electron microscopy. Electron microscopic histochemistry and special techniques are also covered. Emphasis is on the electron microscope as a medical diagnostic tool.

Credit Hours: 8 hrs

Prerequisite: program approval

CLSC 418 - Immunohisto-Cytochemistry

A course designed to teach basic and advanced procedures of fluorescent and enzyme-labeled antibody techniques. The course includes the preparation of tissues, staining with labeled antibodies and the use of fluorescence microscopes in clinical medicine and research.

Credit Hours: 4 hrs

Prerequisite: program approval

CLSC 419 - Internship Special Histotechnology Techniques

A course designed to present didactic and practicum experience in molecular pathology, including in-situ-hybridization and DNA analysis. Cytogenetics will be presented with emphasis on preparing karyotypes and chromosome identification. A research project will be required on a related topic, then formalized and presented as a lecture. Management and education methodologies will be presented.

Credit Hours: 4 hrs

Prerequisite: program approval

CLSC 432 - Clinical Microbiology

Course covers mechanisms of pathogenesis associated with specific bacterial, viral, fungal and parasitic etiological agents of human disease.

Credit Hours: 3 hrs

Prerequisite: CLSC 332 or permission

Last Updated: Links 04/2011

CLSC 433 - Clinical Microbiology Laboratory

Laboratory will cover methods of detection, isolation, enumeration and identification of human pathogenic microorganisms encountered in the clinical microbiology laboratory.

Credit Hours: 2 hrs

Concurrent Prerequisite: CLSC 432

Last Updated: Links 04/2011

CLSC 434 - Advanced Immunohematology

Principles and procedures used in the blood bank. The laboratory is designed to simulate problem situations in the clinical laboratory.

Credit Hours: 3 hrs

Prerequisite: CLSC 335 or permission

Last Updated: Links 04/2011

CLSC 450 - Clinical Hematology

An intensive, hands-on clinical experience in routine hematology, coagulation and special techniques at an advanced level.

Credit Hours: 4 hrs

Prerequisite: acceptance into clinical track

Last Updated: 2/4/2011

CLSC 452 - Clinical Immunology/ Immunohematology Practicum

An intensive, hands-on clinical experience at an advanced-level of instruction in blood banking, immunology and serology.

Credit Hours: 4 hrs

Prerequisite: acceptance into clinical track

CLSC 454 - Clinical Chemistry Practicum

An intensive, hands-on clinical experience at an advanced level of instruction in automated chemistry, radioimmunoassay, electrophoresis and toxicology.

Credit Hours: 4 hrs

Prerequisite: acceptance into clinical track

CLSC 456 - Clinical Microbiology Practicum

An intensive, hands-on clinical experience at an advanced-level of instruction in clinical microbiology.

Credit Hours: 4 hrs

Prerequisite: acceptance into clinical track

CLSC 459 - Clinical Microbiology Practicum II

This is an intensive introductory lecture and laboratory course highlighting medically important fungi, disease states and laboratory methods of isolation and identification.

Credit Hours: 3 hrs

Prerequisite: acceptance into clinical track or permission of instructor

CLSC 477 - Special Topics

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

Credit Hours: 1 hr

Prerequisite: permission of instructor

CLSC 478 - Special Topics

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

Credit Hours: 2 hrs

Prerequisite: permission of instructor

CLSC 479 - Special Topics

Advanced level courses covering specific topics in clinical laboratory sciences not discussed in other clinical laboratory sciences courses.

Credit Hours: 3 hrs

Prerequisite: permission of instructor

CLSC 487 - Cooperative Education in Clinical Laboratory Science

Three to four months of full-time employment at a clinical, research or industrial laboratory or related area chosen for providing a practical educational experience in clinical laboratory sciences. The program consists of two work experiences alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: CLSC 387, permission of program director

Notes: Offered on a or credit/no-credit basis.

Last Updated: Links 04/2011

CLSC 497 - Independent Study

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

Credit Hours: 1 hr

Prerequisite: permission of the instructor

CLSC 498 - Independent Study

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

Credit Hours: 2 hrs

Prerequisite: permission of the instructor

CLSC 499 - Independent Study

Independent, original endeavors involving library and/or laboratory work under the guidance of a clinical laboratory program faculty member or clinical associate faculty member.

Credit Hours: 3 hrs

Prerequisite: permission of the instructor

Dietetics

DTC 101 - Fundamentals of Personal Nutrition

How much do you know about nutrition and its impact on health, disease and lifestyle? This course will help you develop skills to critically evaluate the role of nutrition in a healthy lifestyle by providing an overview of nutrients, their functions, relationship to health and disease and explain how culture and society influences one's nutritional status.

Credit Hours: 3 hrs

DTC 108 - Careers in Nutrition and Dietetics

Orientation to dietetics profession by exploring its roles in the health care system, examining the different facets and specializations of the profession and investigating future trends.

Credit Hours: 2 hrs

Previously Listed As: DTC301, therefore students could not earn credit for both DTC108 and DTC301

DTC 155 - Fundamentals of Healthy Lifestyles

Current nutrition strategies to promote fitness and a healthy lifestyle.

Credit Hours: 2 hrs

DTC 177 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

DTC 178 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

DTC 179 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

DTC 201 - Nutrition Perspectives

Application of nutrition concepts and recommendations for health maintenance.

Credit Hours: 3 hrs

Notes: Not open to students who take DTC202, DTC203 or DTC204.

DTC 202 - Principles of Human Nutrition

A study of the functions and sources of nutrients as well as their role in health; topics include digestion, absorption and metabolism of energy nutrients; vitamin and mineral structure and function; energy balance and weight maintenance; eating disorders; nutrition and disease; food safety; and the world food situation.

Credit Hours: 3 hrs

Prerequisite: CHEM 121 and CHEM 122

Notes: Not open to students who take DTC 201, DTC 203 or DTC 204.

Last Updated: Links 04/2011

DTC 203 - Nutrition for Health Professionals

Study of the functions, digestion, absorption and metabolism of nutrients in health and wellness. Application of principles of medical nutrition therapy in the provision of care to clients in acute/long-term/and ambulatory care settings.

Credit Hours: 3 hrs

Prerequisite: CHEM 120

Corequisites: BIO 252

Last Updated: Links 04/2011

DTC 204 - Sports Nutrition

Study of sources, functions, digestion, absorption and metabolism of nutrients. Emphasis on diet in athletic training and exercise science.

Credit Hours: 3 hrs

Prerequisite: CHEM 120

Major Restrictions: Sports Medicine Majors only

Last Updated: Links 04/2011

DTC 251 - Experimental Foods

Nature and reactions of food explained in terms of chemical composition, microbial flora and manipulative practices.

Credit Hours: 4 hrs

Prerequisite: CHEM 121 and CHEM 122 and BIO 328

Last Updated: Links 04/2011

DTC 258 - American Regional Foods (Gen Ed Area IV)

This course meets the requirements for a social sciences course in the General Education Program because it covers regional American foods and the history, culture, food products and cuisines of fifteen culinary regions. The culinary regions are defined through geography, homogeneous food culture of indigenous people, the food culture of first settlers, foods and cooking techniques brought by immigrants and economic viability.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

DTC 258 American Regional Foods [effective Fall 2012]

DTC 258 meets the requirements for a social sciences course in the General Education Program because students will use historical methods, ethnographic methods, material culture, and quantitative methods to understand the relationships between food and the human experience. The course covers regional American foods and the history, culture, food products, and cuisines of fifteen culinary regions. Students will complete an interview, make observations including a household food inventory project and food waste/recycling project, and study physical objects to gain a fundamental

understanding of how social science research methods can be used to study regional American foods and culture. Therefore, DTC 258 fulfills the Social Science requirement of the General Education Program.

Last Updated: General Education Approval, 7/2012 effective Fall 2012; New Course 03/2012

DTC 277 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

DTC 278 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

DTC 279 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

DTC 302 - Nutrient Metabolism: Macronutrients

A discussion of the biochemical and metabolic functions of carbohydrates, fats and proteins. Emphasis is on the cellular reactions and their relationships to human nutrition, health and disease.

Credit Hours: 3 hrs

Prerequisite: DTC 202, CHEM 351 and department permission

Last Updated: Links 04/2011

DTC 330 - Nutrition Therapy I

Students will be introduced to the Nutrition Care Process, components of nutrition screening and assessment; topics in medical nutrition therapy relevant to gastrointestinal, cardiovascular, diabetes and pulmonary disease will be included as will an introduction to renal disease, acid-based balance and nutrition support with emphasis with an emphasis on enteral support.

Credit Hours: 3 hrs

Prerequisite: DTC 202, CHEM 351 and department permission

Major Restrictions: Dietetics Majors and Nutrition Minors only

Last Updated: Links 04/2011

DTC 331 - Nutrition Therapy I Experience

Supervised practice experience in the medical nutrition therapy professional environment. Emphasis is on nutrition assessment utilizing the Nutrition Care Process Model and ADI charting system.

Credit Hours: 2 hrs

Prerequisite: DTC 202, CHEM 351, BIO 326 and department permission

Major Restrictions: Dietetics Majors only

Last Updated: Links 04/2011

DTC 350 - Food Systems Management I

Introduction to food systems management with emphasis on sanitation safety, equipment selection and operation, food purchasing, receiving and storage, and personnel management.

Credit Hours: 3 hrs

Prerequisite: DTC 251 and department permission

Major Restrictions: Dietetics Majors only

Last Updated: Links 04/2011

DTC 351 - Food Systems Management I Experience

Supervised practice experiences related to food systems management including food production and distribution, procurement and customer satisfaction. Students also become certified in food safety.

Credit Hours: 4 hrs

Prerequisite: DTC 251; department permission

Corequisites: DTC 350

Major Restrictions: Dietetics Majors only

Last Updated: Links 04/2011

DTC 358 - Food and Culture (Gen Ed Area III)

Global food supply issues can be understood within the context of culture. This course explores factors influencing global food supply including: religion, culture, society, agricultural and livestock capabilities, environmental changes affecting food sources, malnutrition, overfeeding, fair trade agreements for growers/producers, food availability, industrialization, traditional health beliefs and intercultural communication.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

DTC 358 Food and Culture

This course addresses many global issues such as fair trade, agriculture, religion, cultural intolerances and social dynamics that influence food preferences and food habits. Fairtrade issues are explored through study of small farms that grow coffee, tea, fruit, rice and sugar and sell to processors and distributors under fair trade certification. This is compared to large commercial operations and/or purchasing through the middleman system in developing countries. Religious preference also has a great influence on food habits around the world.

This course meets the General Education Global Awareness category because students are exploring global issues through food and food habits, exploring their own culture and food habits, exploring social dynamics and cultural intolerances that influence food habits and analyzing information from diverse sources to make informed decisions regarding global issues.

DTC 370 - Nutrition Therapy II

Development, implementation, and evaluation of nutrition care plans for individuals requiring medical nutrition therapy for liver disease, cancer, weight management, transplant, HIV-AIDS, metabolic stress including burns, wounds, sepsis, pediatric nutrition and total parenteral nutrition (TPN).

Credit Hours: 3 hrs

Prerequisite: DTC 330 and department permission

Major Restrictions: Dietetics Majors only

Last Updated: Links 04/2011

DTC 371L - Nutrition Therapy II Experience (Gen Ed Area V LBC)

Supervised clinical and ambulatory site based practice experiences in the clinical nutrition professional environment.

Credit Hours: 4 hrs

Prerequisite: DTC 330, DTC 331 and department permission

Corequisites: DTC 370

Major Restrictions: Dietetics Majors only

Last Updated: Gen Ed Approval 11/2011, effective Fall 2011; Links 04/2011

DTC 372 - Nutrition of the Life Cycle

Emphasis on nutrient needs and influencing factors for each of the physiological stages of the life cycle.

Credit Hours: 3 hrs

Prerequisite: DTC 202, DTC 203 or DTC 204; and department permission

Last Updated: Links 04/2011

DTC 375 - Complementary and Alternative Medicine

This course provides an overview of current strategies to integrate fundamental concepts of nutrition, and health promotion using complementary therapies, phytochemicals, nutraceuticals and herbology to establish a healthy lifestyle.

Credit Hours: 3 hrs

Prerequisite: DTC 202, DTC 203 or DTC 204; and department permission

Last Updated: Links 04/2011

DTC 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

DTC 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

DTC 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

DTC 422 - Nutrient Metabolism: Micronutrients

This course will explore the role of vitamins and minerals in basic biochemical pathways. The role of the micronutrients in these pathways will be integrated with nutritionally relevant physiological processes such as macronutrient metabolism, bone and collagen metabolism, erythropoiesis and gene expression.

Credit Hours: 3 hrs

Prerequisite: DTC 302; department permission

Class Restrictions: Junior or Senior standing

Major Restrictions: Dietetics Majors and Nutrition Minors only

Last Updated: Links 04/2011

DTC 430 - Nutrition Therapy III

Examination of federal, state, and local nutrition programs; conduct needs assessment in community and design appropriate education program.

Credit Hours: 3 hrs

Prerequisite: DTC 202 and department permission

Major Restrictions: Dietetics Majors and Nutrition Minors only

Last Updated: Links 04/2011

DTC 431W - Nutrition Therapy III Experience (Gen Ed Area I, W, or Area V LBC)

Supervised practice experience in a variety of community settings with emphasis on nutrition education techniques and the operation of federal, state and local nutrition programs.

Credit Hours: 4 hrs

Prerequisite: department permission

Corequisites: DTC 430

Major Restrictions: Dietetics Majors only

Previously Listed As: DTC 431L

or

This course is offered as a part of the General Education Program and satisfies **either** the Writing Intensive requirement **or** Area V (Learning Beyond the Classroom), Group 2, Option VI.

DTC 431W Nutrition Therapy III Experience [was DTC 431L]

A critical skill of the Registered Dietitian (RD) is the ability to communicate in a variety of ways including through the written word. RDs use this skill daily in their jobs, as well as during their educational years. Writing skills are essential in the dietetics field because they are used continuously and consistently throughout the career.

This course provides the opportunity for students to develop competence with a variety of genres used in the profession. One of these genres is health care documentation using the discipline-specific Nutrition Care Process. Students also learn to write for a variety of audiences by writing a legislative letter, a nutrition tip of the week article targeted at a general audience, and both health fair and education materials that are developed for more specific audiences. Students complete several additional assignments that have writing components including a strategic planning paper and flow of

services project. The major assignment for this course is a 3-tier program planning project consisting of a community needs assessment, a program planning assignment, and two nutrition articles, one for professionals and one for a lay audience. Each of these assignments uses a different type of writing and is representative of writing across the discipline. Of the final grade in DTC 431W, almost 60% is based on writing assignments.

Due to the extensive writing in this course related to the role of the RD in the nutrition discipline, and instruction and support connected to that writing, DTC 431W fulfills the Writing Intensive requirement for the dietetics major.

Last Updated: Gen Ed Approval (WI) 03/2012, effective Fall 2012; Gen Ed Approval (LBC) 11/2011; Links 04/2011

DTC 435 - Seminar in Dietetics

Analysis and application of research topics and techniques as they apply to the field of dietetics.

Credit Hours: 2 hrs

Prerequisite: department permission

Class Restrictions: Senior standing

Major Restrictions: Dietetics Majors only

DTC 450 - Food Systems Management II

Advanced topics in food systems management including leadership, development of employees, accountability, budgeting, financial management, information management and managing change. Students will also prepare a professional portfolio.

Credit Hours: 2 hrs

Prerequisite: DTC 350, DTC 351 and department permission

Last Updated: Links 04/2011

DTC 451 - Food Systems Management II Experience

Supervised practice experiences that include documentation of competencies related to advanced food systems management. Students plan and implement a theme meal, conduct employee training and a quality improvement project.

Credit Hours: 4 hrs

Prerequisite: DTC 350, DTC 351 and department permission

Corequisites: DTC 450

Major Restrictions: Dietetics Majors only

Last Updated: Links 04/2011

DTC 459 - Development of Entrepreneurial Dietitian

This course emphasizes the role of the nutrition entrepreneur in the conceptualization, planning and marketing for a start-up enterprise or private practice. The focus will be on developing a business plan for a new venture and will consider legal and ethical issues in nutrition.

Credit Hours: 3 hrs

Prerequisite: DTC 108, DTC 202 and department permission

Major Restrictions: Intent to pursue Dietetics or acceptance to the Dietetics program

Last Updated: Links 04/2011

DTC 470 - Nutrition Therapy IV

Formulation, implementation, and evaluation of nutritional care plans for individuals requiring medical nutrition therapy focusing on abnormal nutrient metabolism, trauma and critical illness, examination of enteral and parenteral nutrition regimens, fluid electrolyte balance and acid-base management.

Credit Hours: 2 hr

Prerequisite: DTC 430 and department permission

Major Restrictions: Dietetics Majors only

Last Updated: Links 04/2011

DTC 471 - Nutrition Therapy IV Experience

Supervised practice experience in the medical nutrition therapy professional environment. Focus is on complicated disease states and the management of enteral and parenteral nutrition regimens.

Credit Hours: 4 hrs

Prerequisite: DTC 431W and department permission

Corequisites: DTC 470

Major Restrictions: Dietetics Majors only

Last Updated: Links 04/2011

DTC 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hrs

Prerequisite: department permission

DTC 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

DTC 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

DTC 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr

Prerequisite: department permission

DTC 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

DTC 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Health Administration

HLAD 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

HLAD 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

HLAD 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

HLAD 250 - Introduction to Public Health

This course will survey public health organizations, services, and the philosophical, legal and ethical complications of public health problems. Health status of populations, anticipation, prevention and responses to epidemics and other threats to community health will be discussed. Illustrations will be used from an international perspective.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing

HLAD 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

HLAD 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

HLAD 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

HLAD 287 - Cooperative Education in Health Education

Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD287/387) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing

Major Restrictions: Health Administration Majors only

HLAD 305 - The U.S. Health Care System

A survey of important issues facing the health field: the U.S. health care system and the relationship between components; the changing nature of the health field and implications for the future.

Credit Hours: 3 hrs

Notes: (encouraged in sophomore year or early junior year).

HLAD 307W - Communication Effectiveness in Health Administration (Gen Ed Area I, W)

This course offers a structured approach to the principal categories of formal communication within health care systems and organizations. The course highlights the need for precision and the uniqueness of the health care system as specialized venue for communications. The course includes formal writing, oral communications, writing for internal or external technical reports, proposals and evaluations. The course concludes with an assessment of evolving electronic media for communications within health systems.

Credit Hours: 3 hrs

Corequisites: HLAD 305

Major Restrictions: Health Administration Major and Intent

Last Updated: Links 04/2011

HLAD 308 - Ethical Dimensions in Health Care Delivery

This course presents information that students interested in the health professions may use to identify ethical situations and to resolve dilemmas they may face in their professional lives.

Credit Hours: 3 hrs

HLAD 310 - Administration of Health Care Organizations

Analysis of modern health care organizations with emphasis on management structure, boards of trustees, administration, physicians and others. Delivery of institutional patient care, role of professionals and other personnel, and departmental interrelatedness.

Credit Hours: 3 hrs

Prerequisite: HLAD 305

Last Updated: Prerequisites 03/2012; 2002

HLAD 311 - Management of Health Services

A continuation of HLAD 310, emphasizing quantitative methods in program implementation, control and evaluation. The administrative role in financial control, the legal aspects of control and the control of human resources is examined.

Credit Hours: 3 hrs

Prerequisite: HLAD 310

Last Updated: Links 04/2011

HLAD 312 - Health Personnel Management and Development

This course examines the concepts, models and methods used in managing and developing human resources in health care provider organizations as well as in the health care system as a whole.

Credit Hours: 3 hrs

Prerequisite: HLAD 305

Last Updated: Links 04/2011

HLAD 315 - Research Methods and Data Analysis in Health Sciences

Introduction to the application of statistical methods and research design to a range of practice and research problems in the health sciences.

Credit Hours: 3 hrs

Prerequisite: college algebra

HLAD 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

HLAD 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

HLAD 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

HLAD 387 - Cooperative Education in Health Education

Employment for pay in a work setting chosen to provide practical experience related to health administration. The cooperative education sequence consists of two work experiences (HLAD 287/HLAD 387) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: Links 04/2011

HLAD 390 - Poverty, Human Rights and Health (Gen Ed Area III)

This interdisciplinary course examines connections between poverty, human rights and health, focusing on how social/political structures and public policies affect human well being. Prerequisite for HLAD 391/PLSC 391, experiential learning through a class trip to a developing country to meet community organizers and policy specialists working on poverty and health issues.

Credit Hours: 3 hrs

Class Restrictions: Sophomore, Junior or Senior standing

Cross-Listed with: PLSC 390

Area III: Perspectives on Diverse World

HLAD 390 Poverty, Human Rights and Health [effective Spring 2008]

Poverty is a central, if not the central, global problem of our time: it is connected to, or underlies, multiple problems and issues such as pandemics, regime instability, civil strife, terrorism and war. This course addresses the extent and causes of global economic inequality as well as the effects of profound poverty on health, human rights, human development and the quality of individual life. It explores the patterns of social, political and economic domination that sustain poverty and limit the opportunities of the very poor. Particular attention is devoted to the role of international economic institutions, multinational corporations and the advanced industrial nations, including the United States, in shaping the politics and economic development of countries and peoples in the global South. The course will also introduce students to international standards of human rights and the institutions and organizations that seek to protect those rights.

Last Updated: Links 04/2011

HLAD 391 - Field Study: Global Experience - Poverty, Human Rights and Health

Interdisciplinary course offering experiential learning through travel abroad to develop country to meet community organizers and policy specialists working on poverty and health issues. Examines connections between poverty, human rights and health, focusing on how social/political structures and public policies affect human well being.

Credit Hours: 3 hrs

Prerequisite: HLAD 390/PLSC 390

Class Restrictions: Sophomore, Junior or Senior standing

Cross-Listed with: PLSC 391

Last Updated: Links 04/2011

HLAD 401 - Legal Issues in Health Care

This is a survey of the laws that govern the health care system. Litigation, malpractice, contract, regulation, licensure of health care personnel and the use of human subjects in medical research are among the topics discussed.

Credit Hours: 3 hrs

HLAD 402 - Health Policy

This course provides an overview of the American political system, the policy process and the impact on health policy in the United States. Topics include structure of the U.S. political system, public policy process, evolution of the American health insurance system, governmental programs, financing of health care, and other health policy issues.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or higher

Last Updated: New Course 10/2011, effective Winter 2012

HLAD 416 - Health Planning

This course examines in detail the essence of health planning as practiced in the health care industry. Topics include the history of health planning, planning theory and conceptual foundations, public sector planning and policy-making, private-sector planning and health planning methods. Special emphasis is placed on health planning as an ongoing process that should be developed by health care organizations in order to be successful.

Credit Hours: 3 hrs

Prerequisite: HLAD 310

Last Updated: Links 04/2011

HLAD 417 - Health Regulation (TO BE DELETED)

This course will provide an overview of health care regulation from the perspective of providers, the government regulator and the general citizenry. Topics of discussion will include licensing and private accreditation, the regulation relating to cost containment, alternative delivery systems, health care reform, rate regulation and health planning.

Credit Hours: 3 hrs

Prerequisite: HLAD 310

Course Revisions:

Course Revisions: This course will be deleted, effective Summer 2013.

Last Updated: Course Deletion 09/2012, effective Summer 2013; Links 04/2011

HLAD 418 - Principles of Healthcare Finance Management

Principles of Healthcare Finance provides students with procedures and techniques that assist healthcare managers in accomplishing the health care organizations purpose.

Credit Hours: 3 hrs

Prerequisite: HLAD 305/HLAD 310 and ACC 240

Last Updated: Links 04/2011

HLAD 419 - Legal and Regulatory Issues in Health Care

This course examines the major legal and regulatory aspects of health care administration and the impact of the U.S. political system on health care systems. American political systems, litigation,

malpractice, contracts, statutes, regulations, and legal issues for health care personnel are among the topics discussed.

Credit Hours: 4 hrs

Prerequisite: HLAD 310

Class Restrictions: Junior standing or higher

Last Updated: New Course 10/2011, effective Winter 2012

HLAD 420 - Health Insurance and Reimbursement

This course focuses on health insurance and other reimbursement methods. Key topics include private and public sectors insurance, underwriting principles, insurance contracts, inpatient and outpatient payment, mechanisms, regulations and reserves as they apply to the health care system.

Credit Hours: 3 hrs

Prerequisite: HLAD 310

Last Updated: Links 04/2011

HLAD 421 - Managed Care

This course will provide an overview of the managed-care industry. It will discuss the origins of managed care, the mechanics of managed care, and the effects of managed care across the various constituencies involved (purchaser, provider and patient). The role of managed care in the area of health reform will also be treated in some detail.

Credit Hours: 3 hrs

Prerequisite: HLAD 420

Last Updated: Links 04/2011

HLAD 425 - Decision Making for Health Administrators

The integration of many knowledge areas into health administration. A capstone course utilizing case studies, role playing, simulation and games.

Credit Hours: 3 hrs

Prerequisite: HLAD 420

Last Updated: Links 04/2011

HLAD 460 - Long-Term Care Administration

This course is for students seeking a career in long-term care services, or the regulation of long-term care. Long-term care includes care for the aged and other vulnerable people due to disease or trauma. Students will study the continuum of care and specific expectations of nursing home administrator

licensing examinations.

Credit Hours: 3 hrs

Prerequisite: HLAD 310 or HLAD 510

Class Restrictions: Senior standing

Last Updated: Links 04/2011

HLAD 476 - Introduction to Healthcare Informatics

This course introduces students to key management issues related to healthcare informatics, focusing on management strategies, evaluation methods, and strategic planning for systems and security management. The course provides advanced conceptual models, applications, methods, and management strategies related to information systems in health services organizations.

Credit Hours: 3 hrs

Prerequisite: (CIS Track: IS 215, IS 320, IS 380) OR (COSC Track: COSC 111, COSC 211, and either COSC 231 or COSC 215)

Class Restrictions: Junior standing

Last Updated: Links 04/2011

HLAD 477 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member's field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 1 hr

Prerequisite: department permission

HLAD 478 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member's field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 2 hrs

Prerequisite: department permission

HLAD 479 - Special Topics

For seniors. Topics included will depend upon the interests of the students and the faculty member's field of specialization. Topics generally include planning, regulation, and issues of special populations such as the homeless and prisoners.

Credit Hours: 3 hrs

Prerequisite: department permission

HLAD 480 - Internship Seminar in Health Administration

Seminar for those students taking an internship to provide a forum for the exchange of ideas and experiences.

Credit Hours: 2 hrs

Prerequisite: HLAD 310 and department permission

Last Updated: Links 04/2011

HLAD 488 - Internship

Internship to provide formally structured and directed work experience to assist in integrating classroom learning with professional perspectives and working requirements.

Credit Hours: 6 hrs

Prerequisite: Program permission

Concurrent Prerequisite: HLAD 480

Last Updated: Links 04/2011

HLAD 497 - Independent Study

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 1 hr

Prerequisite: program permission

HLAD 498 - Independent Study

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 2 hrs

Prerequisite: program permission

HLAD 499 - Independent Study

Under the supervision of a health administration faculty member, study in subjects not covered in other course offerings, or advanced study in areas of special interest to the student.

Credit Hours: 3 hrs

Prerequisite: program permission

HLAD 510 - Medical Care Organization

A theoretical approach to the medical care system that allows the consideration of the key problems and issues such as DRG-based prospective payment, alternative delivery systems, and cost-quality tradeoffs.

Credit Hours: 3 hrs

Prerequisite: Minimum 2.8 GPA

Class Restrictions: Senior standing

Notes: This is a graduate course in an undergraduate program.

Health Sciences

AHPR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

AHPR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

AHPR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

AHPR 196 - Introduction to Health Careers

An introductory course designed to familiarize the student with careers in the health sciences. Various careers such as medical technology, nursing, dietetics, health administration, occupational therapy, medicine, clinical psychology, physical therapy and others will be presented by individuals in the respective disciplines. Education requirements, career opportunities, and clinical experience requirements will be highlighted.

Credit Hours: 2 hrs

AHPR 200 - Medical Terminology

A detailed study of medical terminology, through which students will achieve a working medical vocabulary. Anatomical terms and terminology relating to diseases and disease processes will be presented. This course is designed for students entering a health-related education program, and is a prerequisite for admission to the occupational therapy program.

Credit Hours: 1 hr

Last Updated: Grading Type 03/2012

AHPR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

AHPR 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

AHPR 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

AHPR 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

AHPR 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

AHPR 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

AHPR 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Occupational Therapy

OCTH 100 - Orientation to Occupational Therapy

An overview of roles and functions of occupational therapists in a variety of settings. Career information is explored including helping skills, comparison to other fields, salaries, outlook and application process.

Credit Hours: 3 hrs

OCTH 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 201 - Exploring Occupational Performance in the Community

Through service learning experiences at community agencies, the student will be given opportunities to work with individuals with occupational dysfunction. A seminar will accompany the fieldwork to allow students to reflect upon their experiences, the barriers to participation that exist in the community and the impact of disability on occupation.

Credit Hours: 3 hrs

OCTH 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 287 - Cooperative Education in Occupational Therapy

A two-course sequence that provides a work position designed to offer experience related to occupational therapy while the student receives academic credit and financial support. Available to students pursuing the profession of occupational therapy at the freshmen, sophomore or junior levels. Consists of either full-time work experience alternating with full-time attendance at the University, or a combination of part-time work and academic courses. Cooperative education does not substitute for occupational therapy Fieldwork I or II.

Credit Hours: 3 hrs

Prerequisite: Approval of the Cooperative Education Office and program permission

Last Updated: Links 04/2011

OCTH 350 - Exploring Occupational Performance in the Context of a Disability

This course will provide opportunities for the student to reflect on the experiences of individuals with disabilities through the use of movies, documentaries, literary works, visual arts and a fieldwork experience. Students will explore the effect of the disability on the individual's quality of life and discuss occupational dysfunction.

Credit Hours: 3 hrs

OCTH 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 387 - Cooperative Education in Occupational Therapy

A two-course sequence that provides a work position designed to offer experience related to occupational therapy while the student receives academic credit and financial support. Available to students pursuing the profession of occupational therapy at the freshmen, sophomore or junior levels. Consists of either full-time work experience alternating with full-time attendance at the University, or a combination of part-time work and academic courses. Cooperative education does not substitute for occupational therapy Fieldwork I or II.

Credit Hours: 3 hrs

Prerequisite: OCTH 287

Last Updated: Links 04/2011

OCTH 412 - Models of Practice

This course will introduce the student to the theories and models of practice that are the foundations of practice in occupational therapy. Models from other fields that inform the occupational therapist's understanding of occupational performance will also be discussed. Students will analyze models and apply knowledge to selected cases.

Credit Hours: 3 hrs

Prerequisite: EDPS 325 or IHHS 260

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

OCTH 419 - Programming I

Students will have opportunities to learn methods of evaluating occupational performance issues present in selected conditions that affect the child from birth to adolescence. The effect of environmental, cultural, and social factors on occupational performance is emphasized. Students use critical thinking skills to develop intervention plans using theoretically sound techniques.

Credit Hours: 6 hrs

Prerequisite: OCTH 412, OCTH 495, OCTH 500W, OCTH 502

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

OCTH 420 - Level I Fieldwork I

Exploring the role of an occupational therapist in a clinical setting.

Credit Hours: 3 hrs

OCTH 477 - Special Topics

Experimental courses or special topics in occupational therapy may be offered.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 478 - Special Topics

Experimental courses or special topics in occupational therapy may be offered.

Credit Hours: 2 hrs

Prerequisite: Department permission

OCTH 480 - Special Topics

Experimental courses or special topics in occupational therapy may be offered.

Credit Hours: 4 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 495 - Neurological Foundations of Human Occupation

Students will pursue knowledge in the neurosciences related to function and dysfunction of the central nervous system. Emphasis is placed on integrated brain function impacting daily living and occupational performance. Related clinical conditions will be correlated with research investigations that support appropriate and current interventions in occupational therapy.

Credit Hours: 3 hrs

Prerequisite: BIO 330; EDPS 325 or IHHS 260

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

OCTH 497 - Independent Study

Independent work following an approved plan to develop knowledge in specialized areas.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 498 - Independent Study

Independent work following an approved plan to develop knowledge in specialized areas.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 499 - Independent Study

Independent work following an approved plan to develop knowledge in specialized areas.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

OCTH 500W - Philosophy of Occupational Therapy (Gen Ed Area I, W)

Through readings, classroom discussions and group experiences, the students will collectively develop an understanding of the philosophy of occupational therapy. This course includes analysis of experiences and examination of the documents of the profession to develop a view of occupational therapy practice today.

Credit Hours: 3 hrs

Prerequisite: Admission to program

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCTH 502 - Theory and Analysis of Occupation

Students will use laboratory, discussions, lecture, readings, observations and interviews as methods of learning about the science of occupation. This course places emphasis on the individual's experience of occupation, and the exploration of its personal, social and cultural meanings.

Credit Hours: 3 hrs

Notes: This is a graduate course in an undergraduate program.

OCTH 516 - Level I Community Fieldwork II

Students will complete a part-time fieldwork experience in a community agency. Fieldwork experiences will be accompanied by a seminar.

Credit Hours: 3 hrs

Prerequisite: OCTH 502 and BIO 330

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCTH 517 - Level I Community Fieldwork III

Students will complete a part-time fieldwork experience in a community agency or in an occupational therapy setting. Students will also participate in a directed seminar.

Credit Hours: 3 hours

Prerequisite: OCTH 516, OCTH 640 and BIO 330

Corequisites: OCTH 619

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCTH 519 - Programming II

Students will have opportunities to learn methods of evaluating occupational performance issues present in selected conditions that affect individuals from adolescence to middle adulthood. The effect of environmental, cultural and social factors on occupational performance is emphasized. Students use critical thinking skills to develop intervention plans using theoretically sound techniques.

Credit Hours: 6 hrs

Prerequisite: OCH 419 and OCH 420

Corequisites: OCH 516

Class Restrictions: Seniors and Master's students only

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCH 540 - Research Methods I

This course introduces students to research methods used in occupational therapy. Students develop beginning skills in formulation of research questions, proposal development, approaches to design and implementation, and dissemination of results. Students choose research advisers and begin to participate in research with their adviser.

Credit Hours: 3 hrs

Prerequisite: MATH 360, MATH 370, MATH 571, MATH 574, SOCL 250, EDPS 621 or EDPS 651

Class Restrictions: Junior standing or above

Notes: This is a graduate course in and undergraduate program.

Last Updated: Links 04/2011

OCH 588 - Fieldwork Level II: Clinical Skills

Students will be assigned to a 12-week fieldwork experience designed to develop and refine clinical skills. This may be completed on a part-time or a full-time basis.

Credit Hours: 6 hrs

Prerequisite: Completion of all academic work and faculty approval

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCH 589 - Fieldwork Level II: Clinical Skills

Students will be assigned to a 12-week fieldwork experience designed to develop and refine clinical skills. This may be completed on a part-time or a full-time basis.

Credit Hours: 6 hrs

Prerequisite: Completion of all academic work and faculty approval

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCTH 600 - Supervision and Professional Roles

This course covers the management of occupational therapy services in multiple environments. Students will learn grant-writing skills and complete a capstone project developing an OT program for use in a nontraditional setting.

Credit Hours: 3 hrs

Prerequisite: OCTH 517 and OCTH 619

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCTH 619 - Programming III

Students will have the opportunity to learn methods of evaluating occupational performance issues that affect individuals from middle to older adulthood. The effect of environmental, cultural and social factors on occupational performance is emphasized. Students use critical thinking skills to develop intervention plans using theoretically sound techniques.

Credit Hours: 6 hrs

Prerequisite: OCTH 516 and OCTH 519

Corequisites: OCTH 517

Class Restrictions: Master's students only

Last Updated: Links 04/2011

OCTH 686 - Culminating Project I

Under the direction of their research adviser, students will carry out a research project and develop beginning proficiency in proposal development and research skills. The completion of the project will occur in OCTH 687.

Credit Hours: 3 hrs

Prerequisite: OCTH 540

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

OCTH 687 - Culminating Project II

Under the direction of their research adviser, students will complete research projects begun in OCTH 686 and disseminate their findings. This is the culminating project in the research sequence of the master's of occupational therapy (MOT) degree.

Credit Hours: 3 hrs

Prerequisite: OCH 686

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

Therapeutic Recreation

THRC 100 - Foundation and Advancement of the Therapeutic Recreation Profession

This course is designed as an introductory course to the therapeutic recreation profession. Historical development, accreditation regulations, professional development, credentialing, service models, advocacy, ethics and professional associations will be covered. Students will also develop an initial portfolio for their own professional preparation.

Credit Hours: 3 hrs

Last Updated: Title and description change 5/2012; effective WINTER 2013

THRC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 180 - Activity Analysis and Adaption

Develops the skills necessary to analyze activities to find inherent characteristics that contribute to program objectives for special populations. Components of activity analysis (physical, cognitive, affective and social/interactional skills) are studied in detail. Lecture, discussion and experiential learning.

Credit Hours: 2 hrs

THRC 200 - Recreation for Persons with Disabilities

This course is designed to familiarize students with the nature and scope of recreation for people with disabilities. The course will explore social, environmental and psychosocial issues that influence the leisure lifestyle of people with disabilities. Other topics include: barriers to leisure participation, activity adaptation and characteristics of diagnostic groups.

Credit Hours: 3 hrs

THRC 250 - Fieldwork in Recreation Therapeutic Recreation

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 251 - Fieldwork in Recreation Therapeutic Recreation

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 252 - Fieldwork in Recreation Therapeutic Recreation

An introductory course in fieldwork. Students select a site for recreation leadership within a community or clinical setting. Students spend 60 hours on-site and participate in five classroom meetings.

Credit Hours: 1 hr

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Last Updated: Links 03/2011

THRC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 290 - Quality Improvement: Research Methods in Health Care

This course is designed to prepare the entry-level health care practitioner with a knowledge of continuous quality improvement techniques which focus on process and outcome measures relevant to individual disciplines. The student will develop an understanding of applied research methodology and its application to CQI development and evaluation.

Credit Hours: 3 hrs

THRC 300 - Principles of Therapeutic Recreation

Principles of Therapeutic Recreation is an introductory course designed to familiarize students with the diverse nature and scope of the therapeutic recreation profession. The course content includes an analysis of: historical and philosophical influences, service models, service settings, practice standards, ethics, quality improvement, credentialing, consulting and terminology.

Credit Hours: 3 hrs

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 310 - Leisure and Aging

This course will examine the physical, psychological and affective characteristics of aging, implications of leisure and retirement, and recreational services provided in community and institutional settings.

Credit Hours: 3 hrs

THRC 320 - Leisure Education

Concepts and techniques of leisure education for use with all populations. Leisure awareness, social interaction skills, leisure activity skills and leisure resources. Educates the student as a provider of leisure services. Lecture, speakers, readings and participation.

Credit Hours: 3 hrs

THRC 330 - Therapeutic Recreation: Substance Abuse

The use of leisure and recreation in the prevention and/or rehabilitation of chemical dependency. Skill development in areas of leisure education, group dynamics, facilitation techniques, communication, values clarification, decision-making, games and sports, new games, socialization and outdoor/nature techniques, and family leisure education. Lectures, discussions and experiential learning.

Credit Hours: 3 hrs

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 340 - Therapeutic Recreation Processes I

Introduction to specific techniques used in therapeutic recreation, including counseling theory, psychotherapies, medical terminology and transfers and lifts. Lecture, speakers, assessments and 30 hours of fieldwork.

Credit Hours: 3 hrs

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 360 - Therapeutic Recreation Program Planning

This course is designed to provide the therapeutic recreation student with knowledge in the planning and development of programs to achieve goals, objectives and strategies through the use of structured and systematic interventions that improve client functioning and independence in life activities and leisure functioning.

Credit Hours: 3 hrs

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 400 - Therapeutic Recreation Process II

This course is designed to familiarize students with best-practice interventions used in the treatment/program planning process, medical record documentation and evaluation techniques. Emphasis will be placed on exploring established activity-based protocols and potentially new protocols applicable to rehabilitation and health promotion settings.

Credit Hours: 3 hrs

Prerequisite: THRC 100

Last Updated: Links 03/2011

THRC 430W - Issues in Therapeutic Recreation (Gen Ed Area I, W)

This required course is designed for the senior therapeutic recreation major. Students will gain an awareness of the current issues affecting the practice of therapeutic recreation.

Credit Hours: 3 hrs

Prerequisite: THRC 200/THRC 300

Last Updated: Gen Ed Approval 09/2011, effective Fall 2011; Links 03/2011

THRC 449 - Therapeutic Recreation Practicum

A full-time, 15-week, 600-hour experience in an approved hospital, outpatient or community setting under direction of a certified therapeutic recreation specialist and University supervisor. Leadership, supervisory and administrative experience of a practical nature.

Credit Hours: 8 hrs

Prerequisite: Candidate status for a minimum of one semester prior to application for practicum; completion of 90 percent of all academic courses including THRC 100, THRC 200, THRC 250, THRC 260, THRC 300, THRC 340, THRC 360, THRC 400, THRC 460; completion of 250 hours of fieldwork; grade point average of 2.5 overall and 2.75 in all major classes

Last Updated: Links 03/2011

THRC 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

THRC 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission.

Last Updated: Links 03/2011

THRC 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission.

Last Updated: Links 03/2011

THRC 481 - Adapted Aquatics

Aquatic instructional techniques in working with special populations including physically disabled, developmentally disabled, emotionally impaired and the aged. Lectures, films, swimming skills, adaptations of swimming skills and 20 hours of fieldwork.

Credit Hours: 2 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

THRC 497 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

Credit Hours: 1 hr

Class Restrictions: Junior standing or above only

Major Restrictions: Department Majors and Minors only

Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.

THRC 498 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

Credit Hours: 2 hrs

Class Restrictions: Junior standing or above only

Major Restrictions: Department Majors and Minors only

Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.

THRC 499 - Directed Study

An opportunity for directed study in areas not covered in other course offerings, or greater depth of study in areas of continued interest for the student. Students will be assigned to select faculty members for direction, consultation, and evaluation of the completed study or project.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or above only

Major Restrictions: Department Majors and Minors only

Notes: Open only to students who have attained a GPA of 3.0 or above and who have completed the appropriate background courses.

School of Nursing Programs and Courses

School of Nursing

Major

Nursing Major

The Nursing Program is approved by the State of Michigan Board of Nursing and is accredited by the Commission on Collegiate Nursing Education. The undergraduate curriculum leads to the Bachelor of Science in Nursing (B.S.N.) degree and requires the following courses to complete the 124 hours needed for graduation. Curriculum revisions may result in changes in the nursing courses listed below, as well as the pre-admission courses. Potential nursing students should consult with the College of Health and Human Services Advising Office for the most accurate information at 734.487.0918.

There are three options within the undergraduate Nursing Program at Eastern Michigan University:

1. Traditional B.S.N. - for students who are NOT already Registered Nurses and who do NOT possess a Baccalaureate Degree in another discipline.
2. R.N. to B.S.N. - for students who are already Registered Nurses (generally with a diploma or Associates Degree) who wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Completion.
3. Second Degree (B.S.N.) - for students who possess a Baccalaureate Degree in another discipline and wish to obtain a Baccalaureate Degree in Nursing. This is the Nursing Major - B.S.N. Second Degree.

Traditional B.S.N. Option

Admission to the University and indication of intent to enter the nursing curriculum do not guarantee admission to the Nursing Program. Admission to the Nursing Program is a separate application and admission process. Prospective students should contact the College of Health and Human Services Advising Office at 734.487.0918 prior to their first semester and obtain a schedule of the School of Nursing information sessions. Plan to attend one of these sessions.

All completed applications must be received in the School of Nursing office (311 Marshall) by 5 p.m. on May 15 of each calendar year.

Applicants are considered for selection into the Nursing Program upon completion of the following pre-admission courses with a GPA of 3.0 or better:

1. Completion of Quantitative Reasoning (Gen Ed Area II) 3 hrs
2. CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs
3. ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
4. PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
5. One of the two options below:
 - SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
 - or
 - ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs

6. One of the two options below:
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs
 - or
 - EDPS 325 - Life Span Human Growth and Development 4 hrs
7. One of the following two course sequences:
- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
 - and
 - SPMD 202 - Human Physiology for Sports Medicine 3 hrs
- OR**
- BIO 251 - Human Anatomy and Physiology I 4 hrs
 - and
 - BIO 252 - Human Anatomy and Physiology II 4 hrs

Recommended:

NURS 110 - Recommended and counts toward points for admission to the program. Helps to prepare students for the rigor of the undergraduate curriculum.

The University may give credit for nursing courses taken at another college of university; however, the School reserves the right to make the final decision on course substitution based on examination of course materials. Requirements may vary based on prior education. Students must speak with a pre-admission counselor in the CHHS Intent Advising Office (734.387.0918) for details.

Additional factors that are considered for admission to the nursing program include:

Official transcripts from all other schools and universities
TOEFL score if English is a second language
Completion of the ATI-TEAS examination (arranged during Winter term of freshman year)
Science GPA
Health Care related work experience
Completion of course work at EMU versus other colleges and universities
Math or English waiver with ACT/SAT/CLEP
Satisfactory completion of NURS 110

Applicants must submit a criminal background check, physical examination, and drug screening in order to receive confirmation of admission to the Nursing Program.

Following admission to the Nursing Program, and prior to taking the 300-level nursing courses, students must successfully complete:

- DTC 203 - Nutrition for Health Professionals 3 hrs

And

- Either BIO 328 - Introductory Microbiology 3 hrs
- or CLSC 432 - Clinical Microbiology 3 hrs

Nursing courses must be taken in the sequence specified by the School of Nursing.

Program Total

Students should plan carefully for the demanding nature of the Nursing Program and the extensive clinical hours required. Students must earn a minimum of 124 credits at the 100-level or above. The program requires five to six semesters of study and the School reserves the right to make changes in the curriculum as needed. To be eligible for graduation, the program (124 hours) must be completed within six calendar years from the date of enrollment in NURS 208. Eligibility to take the NCLEX exam (required to earn Registered Nurse licensure) is dependent upon graduation from the University with a B.S.N. degree.

Academic and Professional Integrity

Students are expected to assume responsibility for their learning, to support the ethics and goals of the profession and to value honesty in the fulfillment of scholarly and professional endeavors. Students must abide by the University code of conduct. Students who violate the University code of conduct will be subject to appropriate disciplinary action.

The School of Nursing recognizes its responsibilities to the public and to the nursing profession. Students and faculty must promote academic and professional integrity and take action when a violation of such integrity occurs. The School reserves the right to retain only those students who, in the judgment of the faculty, satisfy the requirements of scholarship, clinical competence, and professional and personal integrity suitable for nursing.

Clinical Learning Experience

Practical experience in nursing is provided through clinical learning experiences under the supervision of faculty in a variety of health care organizations, such as ambulatory care settings, acute care settings, medical centers, community hospitals, public schools, nursing homes, county public health agencies, and home health care agencies. **Students are expected to provide their own transportation to clinical agencies.**

Other Options

See catalog for B.S.N. - Completion and Second Degree options.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 60 hours

- NURS 208 - The Art and Science of Nursing I 2 hrs
- NURS 209 - The Art and Science of Nursing I Clinical 3 hrs
- NURS 220 - Health Assessment 2 hrs
- NURS 250 - The Art and Science of Nursing II 2 hrs

- NURS 251 - The Art and Science of Nursing II Laboratory 3 hrs
- NURS 260 - Pathophysiology 4 hrs
- NURS 270 - Pharmacology 3 hrs
- NURS 275 - Essentials of Professional Nursing Practice I 3 hrs
- NURS 304 - Nursing Care of Childbearing Families 2 hrs
- NURS 305 - Nursing Care of Childbearing Families Clinical 3 hrs
- NURS 306 - Child/Family Health Nursing 2 hrs
- NURS 307 - Child Family Health Nursing Laboratory 3 hrs
- NURS 330 - Adult Health Nursing I 2 hrs
- NURS 331 - Adult Health Nursing I Clinical 3 hrs
- NURS 350 - Psychiatric/Mental Health Nursing 2 hrs
- NURS 351 - Psychiatric/Mental Health Nursing Clinical 3 hrs
- NURS 372 - Nursing Research 2 hrs
- NURS 375W - Essentials of Professional Nursing Practice II (Gen Ed Area I, W) 3 hrs
- NURS 404 - Adult Health Nursing II 2 hrs
- NURS 405 - Adult Health Nursing II Clinical 3 hrs
- NURS 450 - Community Health Nursing 2 hrs
- NURS 451 - Community Health Nursing Clinical 3 hrs
- NURS 475 - Essentials of Professional Nursing Practice III 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

A program fee of \$73.80 per credit hour is assessed on each nursing course with 300-level or higher designation.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Nursing Major - B.S.N. Completion

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 25-28 hours

- BIO 328 - Introductory Microbiology 3 hrs
- CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV) 4 hrs
- DTC 203 - Nutrition for Health Professionals 3 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs

One course from the following:

- EDPS 325 - Life Span Human Growth and Development 4 hrs
or
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

One course from the following:

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
or
- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs

One of the following two course sequences:

Either

- SPMD 201 - Human Anatomy for Sports Medicine 3 hrs
and
- SPMD 202 - Human Physiology for Sports Medicine 3 hrs

or

- BIO 251 - Human Anatomy and Physiology I 4 hrs
and
- BIO 252 - Human Anatomy and Physiology II 4 hrs

Major Requirements: 60 hours

Required Courses: 55 hours

- NLN Exams or State of Michigan R.N. license (30 hrs)
- NURS 220 - Health Assessment 2 hrs
- NURS 260 - Pathophysiology 4 hrs
- NURS 270 - Pharmacology 3 hrs
- NURS 275 - Essentials of Professional Nursing Practice I 3 hrs
- NURS 372 - Nursing Research 2 hrs
- NURS 375W - Essentials of Professional Nursing Practice II (Gen Ed Area I, W) 3 hrs
- NURS 450 - Community Health Nursing 2 hrs
- NURS 451 - Community Health Nursing Clinical 3 hrs
- NURS 475 - Essentials of Professional Nursing Practice III 3 hrs

Restrictive Elective Courses: 5 hours

- *Five hours in nursing*

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Nursing Major - B.S.N. Second Degree

The second degree-BSN (SD-BSN) program sequence provides an opportunity for individuals who have a bachelor's degree in a discipline other than nursing to complete a B.S.N. in 16 months of full-time study. The same admission criteria apply as for the traditional B.S.N. program, plus three other prerequisite courses. Those three courses (pathophysiology, microbiology and therapeutic human nutrition) must be completed with a C or better before the admitted student is allowed to progress to the clinical nursing courses.

Please also see the Nursing Major Degree.

Nursing

NURS 110 - Introduction to Professional Nursing

This elective course identifies the nursing profession as an integral component in the health care arena. Students are introduced to this profession through seminar discussion and personal exploration.

Credit Hours: 2 hrs
Last Updated: 2/14/2011

NURS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

NURS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

NURS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

NURS 208 - The Art and Science of Nursing I

This introductory course examines professional nursing roles in health, health promotion, and illness prevention with a focus on the adult.

Credit Hours: 2 hrs
Corequisites: NURS 209
Major Restrictions: Nursing Majors only
Last Updated: 2/14/2011

NURS 209 - The Art and Science of Nursing I Clinical

This course provides the laboratory and clinical practice for the beginning nursing student. In the clinical experience the student will apply concepts learned in NURS 208, NURS 220 and NURS 275 and apply the skills necessary to provide basic nursing care to adults.

Credit Hours: 3 hrs

Corequisites: NURS 208

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 220 - Health Assessment

This course will introduce how to obtain a patient history, and perform a health and physical examination across the lifespan. Emphasis will focus on interviewing patients, hands on physical assessment, documentation and developing appropriate nursing diagnoses.

Credit Hours: 2 hrs

Corequisites: NURS 275

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 250 - The Art and Science of Nursing II

The course continues exploration of professional nursing and the development of knowledge and skills foundational to nursing care of adults in health and illness. Emphasis is placed on the nursing care of adults in the context of family and culture.

Credit Hours: 2 hrs

Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275

Corequisites: NURS 251, NURS 260, NURS 270

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 251 - The Art and Science of Nursing II Laboratory

The course focuses on providing nursing care to adults in various health and illness states in inpatient health care settings.

Credit Hours: 3 hrs

Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275

Corequisites: NURS 250, NURS 260 and NURS 270

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 260 - Pathophysiology

The course will concentrate on how physiologic functions are modified by disease processes and stress. All major physiologic functions will be presented. Knowledge gained from this course will provide the student with rationale for clinical decision making and action in related nursing courses.

Credit Hours: 4 hrs

Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275

Corequisites: NURS 250, NURS 251 and NURS 270

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 270 - Pharmacology

The course focuses on the basic concepts of pharmacology. The role and responsibility of the nurse for safe, legal, ethical and therapeutic drug therapy are developed.

Credit Hours: 3 hrs

Prerequisite: NURS 208, NURS 209, NURS 220 and NURS 275

Corequisites: NURS 250, NURS 251 and NURS 260

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 275 - Essentials of Professional Nursing Practice I

This is the first in a sequence of three courses. The course introduces the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

Credit Hours: 3 hrs

Corequisites: NURS 220

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Major Restrictions: Nursing Majors only

NURS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Major Restrictions: Nursing Majors only

NURS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Major Restrictions: Nursing Majors only

NURS 304 - Nursing Care of Childbearing Families

This course focuses on maternal-newborn nursing with a family centered approach. The course encompasses the entire childbearing process, from preconception planning through pregnancy, birth and the postpartum period.

Credit Hours: 2 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 305, NURS 306 and NURS 307

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 305 - Nursing Care of Childbearing Families Clinical

This course focuses on family theory in the care of childbearing families. Clinical experiences will occur in prenatal clinics and intra-partum and postpartum settings.

Credit Hours: 3 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 304, NURS 306 and NURS 307

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 306 - Child/Family Health Nursing

This course is designed to provide theoretical and practical knowledge in the nursing care of children and families in wellness and illness states. Health promotion, maintenance and restoration are stressed to promote physical, psychosocial, mental and spiritual wellness.

Credit Hours: 2 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 304, NURS 305 and NURS 307

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 307 - Child Family Health Nursing Laboratory

This course is designed to provide a variety of clinical experiences with healthy and ill children in acute care and community settings. These experiences are designed to facilitate sound clinical judgment and the development of leadership, collaboration, organization and management skills in pediatric clinical practice.

Credit Hours: 3 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 304, NURS 305 and NURS 306

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 330 - Adult Health Nursing I

This course focuses on nursing care of adults and families with chronic illnesses and populations vulnerable to chronic illnesses. With a focus on critical thinking, the course emphasizes the application of nursing knowledge through teaching/learning, interdisciplinary collaboration, patient advocacy, and the coordination of care.

Credit Hours: 2 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 331, NURS 350 and NURS 351

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 331 - Adult Health Nursing I Clinical

This clinical course focuses on caring for adults with chronic illnesses. The needs of adults and family members are addressed as students practice primarily in inpatient settings. Special focus is placed on patient teaching and evidence-based interventions.

Credit Hours: 3 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 330, NURS 350 and NURS 351

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 350 - Psychiatric/Mental Health Nursing

This course is designed to provide a foundation in professional psychiatric mental health nursing. Emphasis is placed on gaining knowledge of preventive interventions appropriate for provision of evidence-based, holistic nursing care to emotionally and mentally ill patients across the lifespan.

Credit Hours: 2 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 330, NURS 331 and NURS 351

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 351 - Psychiatric/Mental Health Nursing Clinical

This course focuses on student collaboration with patients, faculty, and health care professionals in public and private inpatient psychiatric hospitals. Students learn traditional and nontraditional treatment approaches; use the nursing process and evidence-based research to provide holistic, culturally competent direct care.

Credit Hours: 3 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Corequisites: NURS 330, NURS 331 and NURS 350

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 372 - Nursing Research

This course will examine nursing research as it relates to nursing practice. Nursing research literature and the importance of evidence-based nursing practice will be examined. Ethical issues involved in nursing research, adequacy of existing research and application of nursing research will be explored.

Credit Hours: 2 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 375W - Essentials of Professional Nursing Practice II (Gen Ed Area I, W)

This second of a three-course sequence builds knowledge of essential elements of professional nursing. This course builds on the foundational elements of professional nursing as identified by the American Association of Colleges of Nursing.

Credit Hours: 3 hrs

Prerequisite: NURS 208, NURS 209, NURS 220, NURS 250, NURS 251, NURS 260, NURS 270 and NURS 275

Major Restrictions: Nursing Majors only

Last Updated: Links 04/2011

NURS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Major Restrictions: Nursing Majors only

NURS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Major Restrictions: Nursing Majors only

NURS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Major Restrictions: Nursing Majors only

NURS 384 - Global Health Issues

This course explores contemporary issues in global health. Topics include health care systems, measurement and indicators of health status, emerging health problems in different countries, comparisons between developed and developing countries, and bioethics in international health care. Students will broaden and deepen their understanding of issues of health care across the globe.

Credit Hours: 3 hrs

Last Updated: 2/15/11; effective Spring 2011

NURS 404 - Adult Health Nursing II

This course focuses on the nursing care of adults and families experiencing acute, chronic, and multiple complex health problems. Critical thinking, pathophysiology, and nursing research will be emphasized in order to prepare the student for caring for this patient population.

Credit Hours: 2 hrs

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and

NURS 375W

Corequisites: NURS 405

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 405 - Adult Health Nursing II Clinical

This course will assist the student in applying and synthesizing the principles necessary for caring for adults with complex medical-surgical problems. The primary emphasis will be attainment of advanced clinical performance in adult health nursing applying clinical reasoning, critical thinking, and leadership skills.

Credit Hours: 3 hrs

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W

Corequisites: NURS 404

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 450 - Community Health Nursing

This course applies the concepts and principles from nursing and public health sciences. Approaches to health concerns include levels of prevention, health promotion, injury prevention, interdisciplinary practice, case finding, case coordination, ethical decision-making, community referrals, and cultural practices.

Credit Hours: 2 hrs

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W

Corequisites: NURS 451

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 451 - Community Health Nursing Clinical

This course applies community health nursing concepts to the care of individuals, families, groups and communities in selected clinical settings. Nursing care will include health promotion, disease and injury prevention to diverse groups of people across the lifespan.

Credit Hours: 3 hrs

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W

Corequisites: NURS 450

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 475 - Essentials of Professional Nursing Practice III

This third of a three-course sequence builds knowledge of essential elements of professional nursing as identified by the American Association of Colleges of Nursing (AACN).

Credit Hours: 3 hrs

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W

Major Restrictions: Nursing Majors only

Last Updated: 2/14/2011

NURS 477 - Special Topics

Experimental courses or special topics in nursing may be offered.

Credit Hours: 1 hr

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W

Major Restrictions: Nursing Majors only

Last Updated: Links 04/2011

NURS 478 - Special Topics

Experimental courses or special topics in nursing may be offered.

Credit Hours: 2 hrs

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W

Major Restrictions: Nursing Majors only

Last Updated: Links 04/2011

NURS 479 - Special Topics

Experimental courses or special topics in nursing may be offered.

Credit Hours: 3 hrs

Prerequisite: NURS 304, NURS 305, NURS 306, NURS 307, NURS 330, NURS 331, NURS 350, NURS 351, NURS 372 and NURS 375W

Major Restrictions: Nursing Majors only

Last Updated: Links 04/2011

NURS 480 - Evidence Based Practice in Health Care

This course explores the critical thinking and actions of evidence-based practice in nursing. Various means to access, evaluate and use evidence in nursing and health care are practiced. In addition to class discussions, students participate in web-based learning activities, independently exploring evidence-based guidelines in their areas of choice.

Credit Hours: 3 hrs

NURS 482 - Management of Health Care Delivery: Disasters & Bioterrorism

This foundational course is an examination of issues in natural and man-made disasters and bio terror events that impact the delivery of health care at local, state and national levels and the strategies necessary for preparedness, mitigation, response and evaluation in community environments. The course is designed to meet the knowledge needs and care preformed by pre-professional and professional health care providers; the lay public is also invited to join the course.

Credit Hours: 3 hrs

Cross-Listed with: IHHS 482

Last Updated: Links 04/2011

NURS 497 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 1 hr

Major Restrictions: Nursing Majors only

NURS 498 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 2 hrs

Major Restrictions: Nursing Majors only

NURS 499 - Independent Study

A student may work with a faculty member independently to pursue a topic of interest to the student. Independent study is a student-initiated project.

Credit Hours: 3 hrs

Major Restrictions: Nursing Majors only

School of Social Work Programs and Courses

School of Social Work

Major

Social Work Major

The Social Work Major leads to a bachelor of social work (BSW) and requires the following courses to complete the 124 hours needed for graduation. No outside minor is required.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

Admission Requirements

In addition to completing the University's General Education requirements, social work students complete a series of seven specific liberal arts courses in a variety of related disciplines (listed below as Liberal Arts Requirements) in order to build a foundation for their social work studies. Social work intent students also complete four pre-major social work courses (listed below as Required Courses: Pre-Major) prior to being admitted to the Major.

Admission requirements are as follows:

1. Students must complete a Social Work Admissions application. These are distributed in SWRK 251.
2. Students must earn a grade of C or higher in the following pre-major social work classes (again, listed below as Required Courses: Pre-Major):
 - SWRK 120 - Introduction to Social Work Services and Professional Roles (Ideally, this course should be taken either concurrently with or prior to the other pre-major courses)
 - SWRK 200 - Human Diversity and Social Justice
 - SWRK 222 - Social Welfare Policies and Services
 - SWRK 251 - Self Assessment and Development for Social Work (Ideally, this course should be taken concurrently with or after the other pre-major courses)
3. Students must complete a reflective essay in SWRK 251. The essay is designed to assist students in assessing their own "goodness of fit" with the values and ethics of the School of Social Work and the social work profession.
4. Students must earn a cumulative GPA of 2.3 or higher at the time of admission into the BSW program.
5. Students must complete forty (40) hours of volunteer service, internship experience, or employment within a *human service* setting.

Pre-Admission Advisor: David Manville
Contact E-mail: dmanvill@emich.edu
Phone: 734.487.0393

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Liberal Arts Requirements: 27-30 hours

- ANTH 135 - Introduction to Cultural Anthropology (Gen Ed Area III, IV) 3 hrs
- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
or a 3 credit hour course in Human Biology
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
- PSY 101 - General Psychology Lecture (Gen Ed Area IV*) 3 hrs
or PSY 101 and PSY 103 (lecture and lab) for 4 credit hours.
- PSY 360 - Abnormal Psychology 3 hrs
- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs

One course from the following:

- EDPS 325 - Life Span Human Growth and Development 4 hrs
- IHHS 260 - Aging to Infancy: A Life Course Retrospective 3 hrs

Restricted Elective Courses: 6 hours

Students are required to take six credits in cross-cultural related courses. Completion of both sections of General Education Area III (with the exception of ANTH 135) will meet this requirement. Other courses outside of Area III may also count towards this requirement with departmental permission.

Major Requirements: 56 hours

Required Courses: Pre-Major: 10 hours

- SWRK 120 - Introduction to Social Work Services and Professional Roles 3 hrs
- SWRK 200 - Human Diversity and Social Justice 3 hrs
- SWRK 222 - Social Welfare Policies and Services 3 hrs
- SWRK 251 - Self Assessment and Development for Social Work 1 hr

Required Course: Major: 44 hours

- SWRK 315 - Theoretical Bases for Social Work Practice 3 hrs
- SWRK 317 - Foundations of Social Work Practice 3 hrs
- SWRK 318 - Practice I - Skill Integration Seminar 1 hr
- SWRK 319W - Writing for Agency Practice (Gen Ed Area I, W) 3 hrs
- SWRK 350L - Generalist Social Work Practice: Organizations and Communities (Gen Ed Area V LBC) 3 hrs
- SWRK 405 - Analysis and Change of Social Welfare Policies 3 hrs
- SWRK 408 - Generalist Social Work Practice with Individuals and Families 3 hrs
- SWRK 409 - Generalist Social Work Practice with Groups 3 hrs
- SWRK 430 - Social Work Evaluation and Research: Qualitative and Statistical Methods 4 hrs
- SWRK 450 - Practice Issues with Women 3 hrs
- SWRK 451 - Social Work Practice with People of Color 3 hrs
- SWRK 488 - Field Experience I 6 hrs
- SWRK 489 - Field Experience II 6 hrs

Social Work Elective: 3 hours

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Social Work Minor

This minor is compatible with disciplines where the college graduate will be in a helping role with people.

Gerontology

GERT 177 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 06/2011

GERT 178 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 06/2011

GERT 179 - Special Topics

Specialized topics integral to the field of gerontology. Gerontology faculty members will select contemporary topics that are different from existing courses. Since topics change, a student may elect to take the course more than once.

Credit Hours: 3 hrs
Prerequisite: department permission
Last Updated: 06/2011

GERT 212 - Introduction to Gerontology

This course is designed to provide an exploration of the diverse dimensions of gerontology by studying contemporary issues relevant to the field. Students will gain an understanding of the domains of theory, research, education, practice, policy and service, all of which help to define the diverse nature of gerontology.

Credit Hours: 3 hrs
Last Updated: Course Description Change 10/2011, effective Winter 2012; Links 06/2011

GERT 219 - Around the World in 80 Years: Adult Development Across Culture (Gen Ed Area III)

Through the study of adult development, students will consider how the aging of the world's population is affecting diverse cultures, societies - and families - across the globe. Issues of social justice and empowerment related to population aging will be addressed, particularly the social, economic, political and policy consequences.

Credit Hours: 3 hrs
Cross-Listed with: ANTH 219, SOCL 219

Area III: Perspectives on a Diverse World

GERT219 Around the World in 80 years

This Global Awareness Course offers students the opportunity to examine diverse cultures and countries through a social and demographic reality shared across the world: population aging. While variances exist in lifespan, every society and every country - whether industrialized Western or least industrialized African or Asian- is faced with the circumstance of adults living longer than ever before in their history. How each culture has historically dealt with and currently deals with its aging population, as well as aging individuals, offers a lens for considering the diversities and commonalities of societies around the world. Through the study of aging issues of global relations, social justice and empowerment will be addressed, particularly the social, economic, political and policy consequences.

GERT 466 - Edna Gates Conference: Seminar on Dementia Care

This two-day seminar provides opportunity to participate in a premier regional conference on dementia care and network with hundreds of health care professionals. Experts will present on cutting edge developments in research and practice. Students will learn ways to develop partnerships with staff, people with dementia and their families.

Credit Hours: 1 hr

Class Restrictions: Junior or Senior standing

Last Updated: 06/2011

GERT 477 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 06/2011

GERT 478 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 06/2011

GERT 479 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 06/2011

GERT 488 - Gerontology Practicum

An aging focused internship provides integration of previous gerontology course work, life experience, knowledge, and skills in a practice based setting. This seminar course provides the opportunity to explore and to discuss the gerontological internship experience and to build new skills and understandings using supplemental practice information.

Credit Hours: 2 hrs

Prerequisite: Completion of two courses in the gerontology minor or advising coordinator's permission

Class Restrictions: Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Title and Description Change 12/2011, effective Winter 2012; Graduate Credit 07/2011; 06/2011

GERT 489 - Gerontology Practicum

An aging focused internship provides integration of previous gerontology course work, life experience, knowledge, and skills in a practice based setting. This seminar course provides the opportunity to explore and to discuss the gerontological internship

experience and to build new skills and understandings using supplemental practice information.

Credit Hours: 3 hrs

Prerequisite: Completion of two courses in the gerontology minor or advising coordinator's permission

Class Restrictions: Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Title and Description Change 12/2011, effective Winter 2012; Graduate Credit 07/2011; 06/2011

GERT 497 - Independent Study

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 06/2011

GERT 498 - Independent Study

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 06/2011

GERT 499 - Independent Study

Directed study in areas not provided in other course offerings or advanced study in areas of special interest to the student.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 06/2011

GERT 509 - Older Adults and Chemical Dependency

This course is a survey of the epidemiology, clinical presentation, public policy issues and current treatment models for geriatric chemical dependency. Emphasis will be placed on both clinical and policy issues related to access to treatment and the types of treatment available.

Credit Hours: 1 hr

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 511 - Elders and Their Families

Examines the nature and significance of family and family-like relationships in later life, including long-term marriage, widowhood, divorce, remarriage, adult-to-adult/parent-child relationships, grandparenthood, siblingship and friendship.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 513 - Intergenerational Programs and Services

Learners will explore common connections between elders and youth, examine factors that support or hinder intergenerational relationships and develop an intergenerational program or service plan.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 515 - Sexuality and Aging

Examines factors affecting sexual expression, capacity and relationships in later life; considers special population needs/issues (e.e., disabled elders, homosexuality, sexuality and dementia, HIV/AIDS, women).

Credit Hours: 1 hr

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 516 - The Elderly and the Law

This course discusses the legal issues and implications surrounding health care, long-term care, public entitlement programs, termination of life support, guardianship and alternatives, and intergenerational family issues.

Credit Hours: 1 hr

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 517 - Developing Funding Proposals for Aging Programs

This course is designed to provide the students with grantsmanship theory and an introduction to the basic skills needed to research and select appropriate aging funders, and develop grant proposals for funding aging programs.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program

Last Updated: 06/2011

GERT 518 - Introduction to Alzheimer's and Related Dementia

This introductory course provides an overview of Alzheimer's disease and related dementias, the clinical features of progressive dementias, and impact on quality-of-life issues for families and individuals with dementia. Emphasis is placed on developing meaningful relations with persons with dementia and exploring innovative programs and services designed to accommodate dementia-related changes throughout the continuum of illness.

Credit Hours: 2 hrs

Class Restrictions: Senior standing with permission. Certificate, Masters and Doctoral candidates.

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 523 - Designing Programs for People with Dementia

This seminar examines issues involved in designing meaningful programs that address the cognitive, physical and psychosocial needs of persons with dementia. A fieldwork assignment provides students the opportunity to design, implement and evaluate a small group program. Students may choose a site for this assignment.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 524 - Families and Dementia

This class looks at family care giving of people with dementia by addressing primary concerns, needs, assessment issues and interventions appropriate to the early, middle and late stages of dementia, and the period after the family member's death.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 526 - Behaviors in Dementia

Behaviors in Dementia identifies factors that influence behaviors common in individuals with dementia– including unmet needs, biological, psychological and environmental causes. Strategies are discussed to develop interventions for target behaviors and implementation of person-centered treatment plans.

Credit Hours: 2 hrs

Last Updated: 07/2011

GERT 528 - Advanced Issues in Dementia Care

Seminar focuses in depth on assessment and treatment of Alzheimer's disease, dementia with Lewy bodies, picks, Creutzfeldt Jakob disease and related disorders. An interdisciplinary team will facilitate discussions on specialized care issues. Students will participate in an innovative service-learning project involving in-home respite.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 532 - Aging Through the Eyes of the Old

Course is designed to provide students with an opportunity to learn what it is to experience being old by reading journals and books written by or about older people who use their writings to come to terms with old age. Also, the class will delve into a number of theories that are helpful for understanding that aging process and the readings. Film, music and storytelling will be part of the learning experience.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

GERT 590 - Special Topics

Content will change from semester to semester. An experimental course for subject matter not yet provided in other program offerings. Students may elect this course more than once, provided different topics are covered. Not more than six hours of

special topics may be used on a degree program.

Credit Hours: 1 hr

Notes: This is a graduate course in an undergraduate program.

Last Updated: 06/2011

Social Work

SWRK 120 - Introduction to Social Work Services and Professional Roles

An overview of the social work profession including its philosophy, values, professional roles, current trends and models in varied practice arenas as criminal justice, mental health, child and family services, public welfare services and medical and industrial settings.

Credit Hours: 3 hrs

Notes: Concurrent registration in SWRK222/251 is permitted, but not required.

SWRK 177 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr

SWRK 178 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 2 hrs

SWRK 179 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 3 hrs

SWRK 200 - Human Diversity and Social Justice

This course introduces students to a framework for understanding the implications of human diversity for social work practice. Dimensions of diversity addressed include race, class and gender, along with ethnicity, sexual orientation and privilege. Students develop the basis for sensitive, competent social work practice and social justice advocacy.

Credit Hours: 3 hrs

SWRK 222 - Social Welfare Policies and Services

A survey of welfare institutions and policies in their historical and modern contexts. American social welfare services as related to the economic, political and sociocultural conditions, and prevailing ideologies.

Credit Hours: 3 hrs

Notes: Concurrent registration in SWRK 120 and SWRK 251 is permitted, but not required.

Course Revisions:

Course Revisions: This course will have a prerequisite change from "SWRK 120" to "none," effective Winter 2013.

Last Updated: Prerequisite Change 09/2012, effective Winter 2013; Links 03/2011

SWRK 251 - Self Assessment and Development for Social Work

This course is required for admission to the Social Work program. It is designed to help students to self-assess their personal preparation for the social work profession. Exercises will help students explore their own values, particularly with respect to culture, gender and sexual orientation. Students will learn about the social work program sequence and requirements. Opportunities will be provided for learning about working in groups, being assertive and developing skills for educational survival.

Credit Hours: 1 hr

Prerequisite: SWRK 222

Concurrent Prerequisite: SWRK 120, SWRK 200 and SWRK 222

Major Restrictions: Social Work Intent students only

Course Revisions:

Course Revisions: This course will have a prerequisite change from "SWRK 120 and/or SWRK 222" to "none," effective Winter 2013. The course revision also includes a concurrent prerequisite change from "none" to "SWRK 120, SWRK 200 and SWRK 222" and a major restriction change from "none" to "Social Work Intent students only."

Last Updated: Prerequisite, Concurrent Prerequisite and Major Restriction Change 09/2012, effective Winter 2013; Links 03/2011

SWRK 254 - The Social Work Profession and Social Service Policies

This course is an overview of the development of the social work profession distinguishing features, including social work values and ethics, and the historical development of social welfare policies and programs. In addition, students will learn about social work roles and settings. This course is designed for students who intend to be social work majors. **It is not open to students who have already completed SWRK 120 and/or SWRK 222.**

Credit Hours: 4 hrs

Concurrent Prerequisite: SWRK 251

Last Updated: Fall 1994

SWRK 277 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

SWRK 278 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 2 hrs

Prerequisite: Department permission

SWRK 279 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SWRK 315 - Theoretical Bases for Social Work Practice

Integrating, supplementing, and translating into social work practice students' knowledge of human beings and their social environments. The purposes for which the social work professional intends to use the knowledge and the values that form the base of professional practice.

Credit Hours: 3 hrs

Concurrent Prerequisite: EDPS 325 or IHHS 260; BIO 105; ANTH 135; PSY 101; SOCL 105; PSY 360

Major Restrictions: Social Work Majors only

Last Updated: Links 03/2011; Prerequisite/Corequisite Change 06/2011, effective Fall 2011

SWRK 317 - Foundations of Social Work Practice

The first course in a sequence of social work practice, designed to prepare the student for field experience. Relationship building, information gathering and preliminary assessment and contracting.

Credit Hours: 3 hrs

Concurrent Prerequisite: SWRK 315

Corequisites: SWRK 318

Major Restrictions: Social Work Majors only

Last Updated: 01/2007, effective Spring 2007; Credit Hour/Corequisite/Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 318 - Practice I - Skill Integration Seminar

This seminar is a co-requisite of SWRK 317. The seminar focuses on practicing the skills explored during the lecture. Students engage in videotaped role-plays for feedback and skill refinement.

Credit Hours: 1 hr

Concurrent Prerequisite: SWRK 315

Corequisites: SWRK 317

Class Restrictions: Sophomore

Major Restrictions: Social Work Majors only

Last Updated: Prerequisite and Corequisite Change 06/2011, effective Fall 2011; 11/2007, effective Spring 2008

SWRK 319W - Writing for Agency Practice (Gen Ed Area I, W)

This course is a writing intensive course, preparing students for the professional writing components of professional, agency-based practice. The course will sensitize students to the agency-based demands and issues associated with professional social

work practice while developing professional writing skills focused on a simulated client situation.

Credit Hours: 3 hrs

Concurrent Prerequisite: SWRK 315

Class Restrictions: Sophomore, Junior, Senior

Major Restrictions: Social Work Majors only

Social work practice requires that record-keeping be accountable, efficient, and that it protect the client's privacy. Good records are concise, specific, relevant, clear, logical, timely, meaningful, and useful. Records are grounded in fact, professional ethics, and accepted theory. Above all, high quality records are well organized and well written. This Writing Intensive course is based on the philosophy that the most effective way to improve student social work record-keeping skills is to practice writing actual social work records. To this end, the course will be modeled after a writing lab, where each week students will be working on a particular social work record-keeping document, such as an Intake Form, Social History, Plan of Care, Case Notes, Advocacy Letter, and using a simulated case this is the focus of the Social Work practice course SWRK 317 in which students are concurrently enrolled.

Last Updated: 12/2007, effective Winter 2008; Corequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 350L - Generalist Social Work Practice: Organizations and Communities (Gen Ed Area V LBC)

This course provides generalist practice skills in organizations and communities, supported by a service-learning experiential component. Students will learn a range of macro practice assessment and intervention skills to promote improvements in social service organizations, social welfare systems and communities for the purpose of empowerment, social and economics justice and social change.

Credit Hours: 3 hrs

Concurrent Prerequisite: SWRK 315, SWRK 317 and SWRK 318

Class Restrictions: Junior or Senior standing only

Major Restrictions: Social Work Majors only

Previously Listed As: SWRK 388 and SWRK 410

Students in this course learn skills that enable them to promote improvements in social service organizations, social welfare systems, and communities for the purpose of empowerment, social and economic justice, and social change. They do this by working in groups to participate in activities that serve and enhance the community. Each student contributes at least 40 hours of such service. Through these experiences, students develop leadership, acquire skills in working collaboratively with others, prepare themselves for their careers, and broaden their understanding and empathy for others in the community.

Last Updated: 02/2008, effective Winter 2008; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 375 - Working with Youth in Care

Students explore the effects of child abuse and placement on adolescent development and necessary worker skill adaptations. The course sensitizes students to the unique needs of older youth in foster care/group living and explores strength-based/youth development approaches to service. Skills needed for social work and residential practice are developed.

Credit Hours: 3 hrs

SWRK 377 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

SWRK 387 - Cooperative Education in Social Work

Employment for pay in a work setting chosen to provide practical experience related to social work. The cooperative education sequence is alternating with full-time attendance at the University. Students who wish to substitute a cooperative education course for the practicum component of SWRK 388 must enroll in SWRK 388 concurrently with one of the cooperative courses. Cooperative education does not substitute for the field placement courses required of all social work majors.

Credit Hours: 3 hrs

Prerequisite: SWRK 120, approval of the Cooperative Education Office and department permission

Class Restrictions: Sophomore standing

Last Updated: Links 03/2011

SWRK 405 - Analysis and Change of Social Welfare Policies

Current social policy and its intended and unintended effects on client populations. Policy analysis and strategies and methods for policy change.

Credit Hours: 3 hrs

Prerequisite: PLSC 112, SWRK 315, SWRK 317, SWRK 318 and SWRK 319W

Major Restrictions: Social Work Majors only

Last Updated: 04/2009; effective Fall 2010

SWRK 408 - Generalist Social Work Practice with Individuals and Families

This course provides students with a framework for generalist social work practice with individuals and families. Content includes practice values, models of assessment and phases of planned sequential change.

Credit Hours: 3 hrs

Prerequisite: SWRK 315, SWRK 317, SWRK 318 and SWRK 319W

Concurrent Prerequisite: SWRK 350L

Major Restrictions: Social Work Majors only

Last Updated: 12/2009, effective Spring 2009; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 409 - Generalist Social Work Practice with Groups

This course explored generalist practice with groups. Students learn how to analyze group situations in different domains of social work practice. Students develop skills to intervene at both the group and the individual levels and how to develop mutual aid and empowerment among the members of the social work group.

Credit Hours: 3 hrs

Prerequisite: SWRK 315, SWRK 317, SWRK 318 and SWRK 319W

Concurrent Prerequisite: SWRK 350L

Major Restrictions: Social Work Majors only

Last Updated: 01/2009, effective Spring 2009; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 413 - Women and Aging

Designed to provide social work, women's studies, and gerontology students with the skills and sensitivity to understand the issues, needs and positive attributes of women as they grow older. Students will examine the lives of women in special groups, such as older minority women, caregivers, widows and institutionalized elderly women. Students will learn skills to provide effective services to older women in a variety of human service settings.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Cross-Listed with: WGST 413

Last Updated: Graduate Credit 07/2011; Links 03/2011

SWRK 420 - Working with Aging People

The role of social worker with aged people. The delivery of social services to the aged with a focus on practice approaches and techniques unique to various social service settings.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

SWRK 430 - Social Work Evaluation and Research: Qualitative and Statistical Methods

This course introduces knowledge and develops skills in research and practice evaluation from a social work empowerment perspective that is sensitive to diversity and social justice. Students will develop competencies in evaluation of professional literature, qualitative and quantitative methods, research skills, assessment and in utilizing technologies through a laboratory experience.

Credit Hours: 4 hrs

Class Restrictions: Junior or Senior standing only

Major Restrictions: Social Work Majors only

Last Updated: Course Number 06/2011, effective Fall 2011

SWRK 431 - Substance Abuse

Current approaches to the prevention and treatment of drug and alcohol abuse. Consideration of the physiological, psychological and social impact of substance abuse on the individual, the family, and the community. The role of the social worker in prevention and treatment.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

SWRK 435 - Group Work with Children and Families

Social group work theory and practice as a relevant way to work with children and families. Group process as it occurs in natural groups and the effect of this process on individual behavior. Techniques that can be built into the group to effect client change.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

SWRK 440 - Issues in Mental Health Practice

Issues in mental health practice with emphasis on deinstitutionalization, community mental health and the role of the entry-level social worker.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 443 - Assessment Issues in Domestic Violence

This course will explore violence in the home, focusing primarily on spouse or partner abuse and touching on elder abuse, sexual abuse and child abuse and neglect. Students will learn how to make domestic violence social work assessments.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 450 - Practice Issues with Women

This course provides a critical examination of the potential of social policies and programs, community, organizations and practice interventions to challenge women's systematic disadvantage and enhance women's welfare. Intervention strategies that give voice to women's strengths and address their unique needs are learned while exploring the diversity of women's lives. Issue of work income maintenance, family life, health, sexuality and community are addressed as they impact women.

Credit Hours: 3 hrs

Prerequisite: SWRK 315, SWRK 317, SWRK 318, SWRK 319W and SWRK 350L

Concurrent Prerequisite: SWRK 408 and SWRK 409

Major Restrictions: Social Work Majors only

Last Updated: 01/2007, effective Spring 2007; Prerequisite and Concurrent Prerequisite Changes 06/2011, effective Fall 2011

SWRK 451 - Social Work Practice with People of Color

This course is a required undergraduate course intended to prepare students for cultural competent generalist practice with people of color. The course helps students apply culturally appropriate knowledge, skills and values in their work with clients. Special attention is given to pressing regional concerns impacting clients of color and describes ways students can become active change agents as they strive to respond to the needs of agency clients.

Credit Hours: 3 hrs

Prerequisite: SWRK 315, SWRK 317, SWRK 318, SWRK 319W and SWRK 350L

Concurrent Prerequisite: SWRK 408 and SWRK 409

Major Restrictions: Social Work Majors only

Last Updated: 01/2007, effective Spring 2007; Prerequisite and Concurrent Prerequisite Change 06/2011, effective Fall 2011

SWRK 457 - Separation, Loss and Grief

Separation, loss and grief as integral aspects of the human experience. Practice issues and applications addressing the impact of loss, separation and grief on client and societal systems.

Credit Hours: 1 hr

Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 460 - The Law and Social Work with the Family

Social workers and lawyers frequently find themselves working together dealing with issues and problems involving individuals and families, such as in cases of divorce, child abuse and neglect, child custody, delinquency and mental health. Legal and social work perspectives in terms of client rights, needs and professional goals. Social work practice in the family court arena.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

SWRK 462 - Practice with Lesbian, Gay, Bisexual and Transgender Persons

This course exposes students to a wide array of life experiences of lesbian, gay, bi-attractual and transgender persons by listening to their own words — spoken, written, on film and through personal interviews. It develops a deeper contextual knowledge and understanding of life courses taken by sexual minorities.

Credit Hours: 3 hrs

Cross-Listed with: WGST 462

Last Updated: Links 03/2011

SWRK 463 - Social Work Practice with Legal Offenders

Professional roles and appropriate practice skills utilized by social workers and allied professionals in working with legal offenders.

Credit Hours: 3 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

SWRK 467 - Crisis Intervention

Systems in crisis including different types of crises, indications of a system in crisis and crisis intervention strategies.

Credit Hours: 2 hrs

Major Restrictions: Social Work Majors and Minors only or department permission

SWRK 477 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 1 hr

Prerequisite: (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission

Last Updated: Links 03/2011

SWRK 478 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 2 hrs

Prerequisite: (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission

Last Updated: Links 03/2011

SWRK 479 - Special Topics

Specialized topics integral to contemporary social work practice. Social work faculty members will select contemporary topics that are different from existing social work courses. Since topics change, a student may take the course more than once.

Credit Hours: 3 hrs

Prerequisite: (SWRK 120 and SWRK 222) or SWRK 251 and SWRK 254 or Department permission

Last Updated: Links 03/2011

SWRK 488 - Field Experience I

Field experience designed to meet the learning needs of students and the standards of professional social work education. Professional standards are fixed; however, learning needs of students may vary.

Field experience designed to meet the learning needs of students and the standards of professional social work education. Professional standards are fixed; however, learning needs of students. The field placement agency, in consultation with the School of Social Work, provides learning experiences and supervision at the senior level. Open only to students with an overall GPA of 2.3 or better in social work courses. Student may not be on academic probation.

Credit Hours: 6 hrs

Prerequisite: SWRK 350L and department permission

Major Restrictions: Social Work Majors only

Last Updated: Links 03/2011

SWRK 489 - Field Experience II

A continuation of SWRK 488.

Credit Hours: 6 hrs

Prerequisite: A student must receive a C or better in SWRK 488, have an overall GPA of 2.3 or better in social work courses, not be on academic probation and have Department permission.

Corequisites: SWRK 488

Major Restrictions: Social Work Majors only

Notes: Concurrent registration in SWRK 405, SWRK 408, SWRK 409, SWRK 410, SWRK 430, SWRK 452, SWRK 460 and SWRK 489 is permitted, but not required.

Last Updated: Links 03/2011

SWRK 490 - Senior Thesis Seminar

This is the capstone course for students completing the honors program in social work. A senior thesis or project is completed in consultation with the faculty member.

Credit Hours: 3 hrs

Prerequisite: Member of Honors College

Major Restrictions: Social Work Majors only

Military Science and Leadership Programs and Courses

Military Science and Leadership

Minor

Military Science and Leadership Minor

Military Science and Leadership Department Information:

Department Head: LTC Michael C. Wise
Department Contact: mwise2@emich.edu
Website: <http://armyrotc.com/edu/easternmi/>

Adviser Information:

Program Adviser: LTC Michael C. Wise
Email: mwise2@emich.edu
Phone: 734.487.6802

Required Courses: 20 hours

Students must take all of the following courses unless granted advanced placement. Students electing a minor in military science may not use this minor to fulfill the state secondary provisional certificate requirement of a teaching minor.

- MSL 101 - Foundations of Officership 2 hrs
- MSL 102 - Basic Leadership 2 hrs
- MSL 201 - Individual Leadership Studies 2 hrs
- MSL 202 - Leadership and Teamwork 2 hrs
- MSL 301 - Leadership and Problem Solving 3 hrs
- MSL 302 - Leadership and Ethics 3 hrs
- MSL 401 - Adaptive Leadership 3 hrs
- MSL 402 - Leadership in a Complex World 3 hrs

Minor Total: 20 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses**

will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Military Science and Leadership

MSL 101 - Foundations of Officership

Introduces students to issues and competencies that are central to a commissioned officer's responsibilities. Established framework for understanding officership, leadership, and Army values. Includes "life skills" such as physical fitness training, time management, stress management, group dynamics and briefing skills.

Credit Hours: 2 hrs

Notes: Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.

Last Updated: Requirements Added 11/2011

MSL 102 - Basic Leadership

Establishes foundation of basic leadership fundamentals such as problem solving, communications, briefings, effective writing, goal-setting, techniques for improving listening and speaking skills, an introduction to counseling, additional physical fitness training and time management training.

Credit Hours: 2 hrs

Prerequisite: MSL 101 or department permission

Notes: Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.

Last Updated: Requirements Added 11/2011; Links 04/2011

MSL 201 - Individual Leadership Studies

Students identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings, additional physical fitness training and additional time management training.

Credit Hours: 2 hrs

Prerequisite: MSL 101, MSL 102 or department permission

Notes: Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.

Last Updated: Requirements Added 11/2011; Links 04/2011

MSL 202 - Leadership and Teamwork

Students examine how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem-solving process and obtaining team buy-in through immediate feedback and additional physical fitness training.

Credit Hours: 2 hrs

Prerequisite: MSL 101, MSL 102, MSL 201 or department permission

Notes: Requires medical fitness statement, DA Form 3425-R, signed by physician. Pick up form at 18 Roosevelt prior to the first day of class.

Last Updated: Requirements Added 11/2011; Links 04/2011

MSL 301 - Leadership and Problem Solving

Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities.

Credit Hours: 3 hrs

Prerequisite: MSL 101, MSL 102, MSL 201, MSL 202 or department permission

Last Updated: Links 04/2011

MSL 302 - Leadership and Ethics

Examines the role communications, values and ethics play in effective leadership. Topics include ethical decision-making, consideration of others, spirituality in the military and survey Army leadership doctrine. Emphasis on improving oral and written communication abilities, as well as, additional physical fitness training.

Credit Hours: 3 hrs

Prerequisite: MSL 101, MSL 102, MSL 201, MSL 202, MSL 301 or department permission

Last Updated: Links 04/2011

MSL 401 - Adaptive Leadership

Develops student proficiency in planning and executing complex operations, functioning as a member of a staff and mentoring subordinates. Students explore training management, methods of effective staff collaboration and developmental counseling techniques along with additional physical fitness training.

Credit Hours: 3 hrs

Prerequisite: MSL 101, MSL 102, MSL 201, MSL 202, MSL 301, MSL 302 or department permission

Previously Listed As: MSL 401 - Leadership and Management

Last Updated: Course Name Change 02/2012, effective Fall 2012; Links 04/2011

MSL 402 - Leadership in a Complex World

Study includes case study analysis of military law and practical exercises on establishing an ethical command climate. Students must complete a semester-long Senior Leadership Project that requires them to plan, organize, collaborate, analyze, demonstrate their leadership skills and additional physical fitness training. This course is designed to transition the student/cadet to service as a second lieutenant in the Army or for government service, i.e. U.S. Army history.

Credit Hours: 3 hrs

Prerequisite: MSL 101, MSL 102, MSL 201, MSL 202, MSL 301, MSL 302, MSL 401 or department permission

Previously Listed As: MSL 402 - Officership

Last Updated: Course Name Change 02/2012, effective Fall 2012; Links 04/2011

MSL 497 - Independent Study

Intensive study or project approved by the department head. Study or project is directly related to a military subject.

Credit Hours: 1 hr

Prerequisite: department permission

MSL 498 - Independent Study

Intensive study or project approved by the department head. Study or project is directly related to a military subject.

Credit Hours: 2 hrs

Prerequisite: department permission

MSL 499 - Independent Study

Intensive study or project approved by the department head. Study or project is directly related to a military subject.

Credit Hours: 3 hrs

Prerequisite: department permission

School of Engineering Technology Programs and Courses

School of Engineering Technology

Major

Applied Technology Major

The applied technology major is designed to serve those individuals who wish to continue their technology-related community college education. The program offers the flexibility of accepting a block of up to 34 credits of technical courses as transfer credit. Articulation agreements have been established with several community colleges to ensure the maximum transfer of credits. Students transferring from other four-year higher education institutions with a technical major may also find this major suitable.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please click [here](#).

School of Engineering Technology Information:

School Director: Bob Lahidji

School Contact: bob.lahidji@emich.edu

Website: <http://www.emich.edu/set/>

General Education Requirements:

For specific requirements refer to the General Education Program .

Major Requirements: 75 hours

Required Courses: 20 hours

- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- SET 350W - Engineering Communication (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 6 hours

Select six hours of restricted electives in consultation with an adviser.

Restricted MFG Elective Courses: 15 hours

Select 15 hours at the 300- and 400-level in consultation with an adviser.

Technical Courses: 34 hours

Up to 34 hours of transferred technical courses may be applied to this major.

Minor Requirements:

This program does not require a minor.

Electives Courses: 9 hours

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.

- Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
- Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Computer Engineering Technology Major

The computer engineering technology program applies scientific, computer, and engineering knowledge, combined with technical skills, in support of computerized activities. The computing field is one of the fastest growing segments of industry, and the program is developed to include many application aspects of computer engineering technology. The graduates generally apply the theories and principles to design, analyze, produce, operate, program and maintain computer and digital control systems. In addition, the curriculum includes the study of engineering database management and engineering information technology. Graduates are employed in industry as computer engineers, computer architecture designers, software engineers and engineering information technologists.

School of Engineering Technology Information:

School Director: Bob Lahidji
 School Contact: bob.lahidji@emich.edu
 Website: <http://www.emich.edu/set/>

General Education Requirements:

For specific requirements refer to the General Education Program .

Major Requirements: 83-89 hours

Required Courses: 80-83 hours

- Writing Intensive Course (3 hrs)
- CET 151 - Introduction to Computing in Engineering Technology 3 hrs
- CET 353 - Web Development for Engineering Applications 3 hrs
- CET 387 - Cooperative Education in Computer Engineering Technology 3 hrs
- CET 427 - Programmable Logic Controller 3 hrs
- CET 451 - Engineering Database Development 3 hrs
- CET 453 - Engineering Programming 3 hrs
- CET 491 - Senior Design Capstone 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 246 - Programming in C++ 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- ELEC 215 - Computer-Aided Electronics 3 hrs
- ELEC 218 - Motors and Controls 3 hrs
- ELEC 300 - Analog Circuit Analysis I 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ET 100 - Introduction to Engineering Technology 3 hrs
- ET 101 - Introduction to Engineering Technology Computing 1 hr
- IS 380 - Introduction to Databases 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs
- PDD 122 - Engineering Graphics 4 hrs

One of the following:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 140 - Applied Trigonometry and Calculus I for Technology (Gen Ed Area II) 4 hrs

One of the following:

- MATH 121 - Calculus II 4 hrs
- MATH 141 - Applied Calculus II for Technology 3 hrs

One of the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One of the following:

- PHY 222 - Electricity and Light 4 hrs

- PHY 224 - Electricity and Light 5 hrs

Restricted Electives: 3-6 hours

Three hours from the following selected in consultation with an adviser:

- CET 426 - Engineering Product Information 3 hrs
- COSC 221 - Computer Organization I 3 hrs
- COSC 321 - Computer Organization II 3 hrs
- ELEC 314 - Digital Circuit Analysis II 3 hrs
- ELEC 420 - Advanced Microprocessors 3 hrs
- IS 315 - Object-Oriented Application Development 3 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 325 - Differential Equations 3 hrs
- MET 223 - Descriptive Geometry 2 hrs
- PDD 111 - Materials 3 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PHY 230 - Engineering Dynamics 4 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Construction Management Major

The construction management major includes course work in general education with specified science and mathematics courses, business courses, electives (a list of recommended course electives that require the prior approval of a construction or facility management adviser) and technical courses. A minor is not required. A C- or better is required for all major courses.

The construction management major is designed to prepare men and women for middle- and upper-level management in the construction industry. The major has been developed in cooperation with experts from the construction industry and guidelines are established by major construction associations and feedback from employers and graduates. The construction management major reflects the current needs and trends in the construction industry and is accredited by the American Council for Construction Education.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

School Director: Bob Lahidji

School Contact: bob.lahidji@emich.edu

Website: <http://www.emich.edu/set/>

General Education Requirements:

For specific requirements refer to the General Education Program .

Major Requirements: 97 hours

Required Courses: 52 hours

- CNST 125 - Introduction to Construction 2 hrs
- CNST 201 - Construction Systems 3 hrs
- CNST 202 - Construction Materials 3 hrs
- CNST 206 - Surveying 3 hrs
- CNST 213 - Construction Safety 3 hrs
- CNST 228 - Construction Graphics 3 hrs
- CNST 229 - Analysis of Commercial Prints 3 hrs
- CNST 302 - Contract Documents, Regulations, and Specifications 3 hrs
- CNST 303 - Electrical, Mechanical, and Equipment Systems 3 hrs
- CNST 304 - Construction Estimating and Bidding 3 hrs
- CNST 361 - Planning and Scheduling 3 hrs
- CNST 387 - Cooperative Education in Construction Management 3 hrs
- CNST 403 - Production Control 2 hrs
- CNST 406W - Construction Law (Gen Ed Area I, W) 3 hrs
- CNST 412 - Fundamentals of Structural Design 3 hrs
- CNST 436 - Heavy/Highway Construction Means and Methods 3 hrs
- CNST 440 - LEED for New Construction and Major Renovations 3 hrs
- CNST 450 - Fundamentals of Construction Project Management 3 hrs

Construction Management Restricted Electives: 12 hours

12 hours from the following (Minimum one course with CNST prefix):

- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- CNST 426 - Mechanical and Electrical Construction Applications 3 hrs
- CNST 427 - Industrial Construction 2 hrs
- CNST 437 - Environmental Construction Contracting 2 hrs
- CNST 438 - Fundamentals of Land Development 3 hrs
- CNST 446 - Senior Seminar on Professional Issues in Engineering, Technology and Construction 1 hr

- CNST 479 - Special Topics 3 hrs
- GHPR 335 - Historic Preservation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs
- IDE 208 - Introduction to Basic Design 3 hrs
- IDE 317 - Lighting Systems for Interior Designers 3 hrs

Business Major Requirements: 15 hours

- Any course from the College of Business not already taken (3 hrs)
- ACC 240 - Principles of Financial Accounting 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 384 - Human Resource Management 3 hrs

Natural Sciences/Math Restricted Elective: 4 hours

Four hours from the following:

- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
with
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Additional courses with adviser approval.

General Restricted Electives: 14 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

Choose one of the following:

- ECON 100 - Introduction to Economic Problems and Policies (Gen Ed Area IV) 3 hrs
- ECON 200 - The American Economy 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General**

Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Electronic Engineering Technology Major

The electronic engineering technology major is designed to prepare students for interesting and challenging positions in the diverse field of electronics. The curriculum provides for a strong foundation in electronics to support future changes in technology or the career roles of the individual. The graduate may find employment on engineering teams in product design and development, in production and automation, in instrumentation and communications or in technical sales and operations.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 90-93 hours

Required Courses: 90-93 hours

- Writing Intensive Course (3 hrs)
- CET 427 - Programmable Logic Controller 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- COSC 246 - Programming in C++ 3 hrs
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 210 - Circuit Analysis II 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- ELEC 215 - Computer-Aided Electronics 3 hrs
- ELEC 218 - Motors and Controls 3 hrs
- ELEC 300 - Analog Circuit Analysis I 3 hrs
- ELEC 310 - Analog Circuit Analysis II 3 hrs
- ELEC 314 - Digital Circuit Analysis II 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ELEC 326 - Transform Circuit Analysis with Calculus 3 hrs
- ELEC 387 - Cooperative Education in Electronic Technology 3 hrs

- ELEC 415 - Communication Circuits 3 hrs
- ELEC 420 - Advanced Microprocessors 3 hrs
- ELEC 426 - Control Systems Engineering (NEW COURSE) 3 hrs
- ELEC 450 - Senior Design Project 3 hrs
- ET 100 - Introduction to Engineering Technology 3 hrs
- ET 101 - Introduction to Engineering Technology Computing 1 hr
- MATH 122 - Elementary Linear Algebra 3 hrs
- MET 312 - Applied Dynamics Principles 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- QUAL 320 - Industrial Quality Control 3 hrs

One of the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One of the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

One of the following:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 140 - Applied Trigonometry and Calculus I for Technology (Gen Ed Area II) 4 hrs

One of the following:

- MATH 121 - Calculus II 4 hrs
- MATH 141 - Applied Calculus II for Technology 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Interior Design Major

The interior design program offers a Council for Interior Design Accreditation (CIDA) accredited, four-year studio based curriculum, culminating in a bachelor of science degree. The program's mission is to academically prepare students to enable them to creatively solve problems related to the function and quality of interior environments.

The program promotes critical thinking by requiring a balance between broad liberal arts courses, specific courses in fine arts, management, marketing, construction and an intense curriculum of interior design courses. The interior design curriculum provides experiential educational opportunities to investigate the interaction of humans and environments through the integration of theory, knowledge and technical skills, preparing students to achieve in the challenging profession of interior design. Central to a mission of preparing students to achieve as professional interior design practitioners is our goal to impart to our students a holistic view of people and their environments in multicultural, multiracial and multiethnic settings; a sensitivity to environmentally conscious design issues; a consideration of the needs of all people, regardless of age, stature or ability; and the ability to creatively analyze design problems in order to create interior environments that meet human needs and fulfill human aspirations.

Students must complete IDE courses with a grade of C or better.

Additional Requirements: 12 hours

- ARTS 123 - Foundations Drawing I 3 hrs
- CNST 201 - Construction Systems 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs

Major Requirements: 76 hours

Required Courses: 70 hours

- IDE 110 - Interior Design Studio I 3 hrs
- IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
- IDE 120 - Interior Design Studio II 3 hrs
- IDE 121 - Interior Design Materials and Components 3 hrs
- IDE 122 - Interior Design Theory II 3 hrs
- IDE 123 - Computers for Interior Design I 3 hrs
- IDE 131 - Interior Design Theory I 3 hrs

- IDE 210 - Interior Design Studio III 3 hrs
- IDE 219 - Computers for Interior Design II 3 hrs
- IDE 220 - Interior Design Studio IV 3 hrs
- IDE 221 - Environmental Systems for Interior Designers 3 hrs
- IDE 225 - History of Interiors from Antiquity to 1800 (NEW COURSE) 3 hrs
- IDE 226 - History of Interiors from 1800 to Present 3 hrs
- IDE 310 - Interior Design Studio V 3 hrs
- IDE 317 - Lighting Systems for Interior Designers 3 hrs
- IDE 318 - Interior Building Codes and ADA 3 hrs
- IDE 320 - Interior Design Studio VI 3 hrs
- IDE 324 - Internship in Interior Design 4 hrs
- IDE 325 - Professional Practice in Interior Design 3 hrs
- IDE 410 - Interior Design Studio VII 3 hrs
- IDE 420 - Interior Design Studio VIII 3 hrs
- IDE 425 - Mill Work Design and Detailing 3 hrs
- IDE 430W - Writing for Interior Design (Gen Ed Area I, W) 3 hrs

Interior Design Elective Courses: 6 hours

Any two courses with an IDE prefix. Selected in consultation with the interior design adviser.

Mechanical Engineering Technology Major

<http://www.emich.edu/cot/met>

The mechanical engineering technology major offers the opportunity to prepare for rewarding and responsible careers in support of technical and engineering activities. The program is designed to provide graduates with a strong technical foundation that integrates the methods, materials, machinery and power resources found in modern industry. Students receive both lecture and

hands-on laboratory training in manufacturing processes, engineering mechanics, thermo-fluid sciences and machine design, culminating in a senior design capstone project.

Polymers and Coatings Technology Major

The polymers and coatings curriculum is designed to provide the background necessary for graduates to find employment in companies that manufacture and use paints, coatings, rubber, plastics, polymers, adhesives and inks, or in companies that manufacture raw materials for these industries. Students completing this curriculum have met the major and minor requirements for graduation. No outside minor is needed.

Product Design and Development Major

Students majoring in Product Design and Development are prepared for a wide range of product design and development job opportunities. The program prepares students to participate in the customer driven product realization process including concept generation, evaluating design alternatives, computer modeling, prototyping, engineering analysis, selecting materials and processes, cost estimating, tool development, quality and production.

- PDD 111 - Materials 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PDD 156 - Teamwork in Product Design and Development 3 hrs
- PDD 157 - Introduction to Product Design 3 hrs
- PDD 212 - Molding Materials and Processes 3 hrs
- PDD 220 - Geometric Dimensioning and Tolerancing 3 hrs
- PDD 224 - 3-D Solid Modeling 3 hrs
- PDD 309 - Molded Product Design 3 hrs
- PDD 310 - Formed Product Design 3 hrs
- PDD 316 - Concept Development Studio 3 hrs
- PDD 325 - Applied Statics and Strength of Materials 4 hrs
- PDD 331 - Product Design Data Management 3 hrs
- PDD 350 - Prototyping 3 hrs
- PDD 380 - Engineering Cost Estimating 3 hrs
- PDD 387 - Cooperative Education in Product Design 3 hrs
- PDD 432 - 3-D Modeling and Surfacing Techniques 3 hrs
- PDD 433 - Advanced Tool Development 3 hrs
- PDD 435 - Finite Element Analysis 3 hrs
- PDD 491 - Computer-Aided Design Studio 3 hrs
- PDD 492 - Product Realization Studio 3 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs
- QUAL 320 - Industrial Quality Control 3 hrs
- SET 350W - Engineering Communication (Gen Ed Area I, W) 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

60 Hour Waiver

Students in this program are granted a waiver of the University requirement that students may not earn "more than 60 credit hours in one subject area (prefix)." **Students in this program may earn up to (but not exceed) 70 hours in "PDD" credit towards graduation.**

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General**

Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Construction Management Minor

This minor is designed to provide a background in fundamental technical applications for students with majors outside the department who expect to work in industry. Employment opportunities are enhanced for persons with technical course work.

University elective courses in the minor are selected to relate to the student's major subject area. Academic advising to determine elective course choices is provided by the School of Engineering Technology. A maximum of six hours may be transferred from outside the department

School of Engineering Technology Information:

School Director: Bob Lahidji

School Contact: bob.lahidji@emich.edu

Website: <http://www.emich.edu/set/>

Required Courses: 23 hours

- CNST 125 - Introduction to Construction 2 hrs
- CNST 201 - Construction Systems 3 hrs
- CNST 202 - Construction Materials 3 hrs
- CNST 228 - Construction Graphics 3 hrs
- CNST 229 - Analysis of Commercial Prints 3 hrs
- CNST 302 - Contract Documents, Regulations, and Specifications 3 hrs
- CNST 304 - Construction Estimating and Bidding 3 hrs
- CNST 361 - Planning and Scheduling 3 hrs

Minor Total: 23 hours

Note:

All minors must have at least six hours of course work at the 300 level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Electronic Engineering Technology Minor (EET)

The Electronic Engineering Technology Minor will incorporate to enhance the quality of research through diversification and help disseminate the findings among students with different backgrounds.

To complete the minor, students must fulfill the following:

- Minimum of 6 hours from 200-level courses (maximum of 12 hours)
- Minimum of 6 hours from 300-level courses
- Minimum of 3 hours from 400-level courses
- Satisfaction of all prerequisites

See following required courses for specifics.

Core Courses: 6 hours

Choose a minimum of six hours from the following:

- * ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 210 - Circuit Analysis II 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- * ELEC 218 - Motors and Controls 3 hrs

Choose one option from the following:

Option I (Microprocessors): 9 hours

- ELEC 314 - Digital Circuit Analysis II 3 hrs
- ELEC 320 - Microcomputer Circuits 3 hrs
- ELEC 420 - Advanced Microprocessors 3 hrs

Option II (Analog & Communication): 9 hours

- ELEC 300 - Analog Circuit Analysis I 3 hrs
- ELEC 310 - Analog Circuit Analysis II 3 hrs
- ELEC 415 - Communication Circuits 3 hrs

Option III (Controls): 9 hours

- Additional 300-level ELEC course chosen in collaboration with Minor adviser (3 hrs)
- ELEC 326 - Transform Circuit Analysis with Calculus 3 hrs
- ELEC 450 - Senior Design Project 3 hrs

Minor Total: 18-21 hours

Notes:

* If student's major requires them to take ELEC 200 and/or ELEC 218, then student will only be required to take the minor as eighteen hours. All others will be required to take the minor as twenty-one hours.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Interior Design Minor

School of Engineering Technology Information:

School Director: Bob Lahidji

School Contact: bob.lahidji@emich.edu

Website: <http://www.emich.edu/set/>

Required Courses: 6 hours

- IDE 111 - Environmental Psychology and Behavior for Interior Design 3 hrs
- IDE 131 - Interior Design Theory I 3 hrs

Restricted Elective Courses: 14 hours

Fourteen hours from the following:

- IDE Elective (2 hrs)
Selected in consultation with the interior design adviser
- IDE 110 - Interior Design Studio I 3 hrs
- IDE 120 - Interior Design Studio II 3 hrs
- IDE 121 - Interior Design Materials and Components 3 hrs
- IDE 122 - Interior Design Theory II 3 hrs
- IDE 123 - Computers for Interior Design I 3 hrs
- IDE 210 - Interior Design Studio III 3 hrs
- IDE 219 - Computers for Interior Design II 3 hrs
- IDE 220 - Interior Design Studio IV 3 hrs
- IDE 221 - Environmental Systems for Interior Designers 3 hrs
- IDE 226 - History of Interiors from 1800 to Present 3 hrs
- IDE 317 - Lighting Systems for Interior Designers 3 hrs
- IDE 318 - Interior Building Codes and ADA 3 hrs
- IDE 425 - Mill Work Design and Detailing 3 hrs

Minor Total: 20 hours

Note

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

University Information: Consult the online catalog at catalog.emich.edu.

Manufacturing Minor

The manufacturing minor is designed to provide majors in business and science with an introduction to manufacturing engineering. Employment opportunities typically increase for persons with this minor.

University elective courses in the minor are selected to relate to the student's major. Academic advising to determine elective course choices is provided by a manufacturing adviser in the School of Engineering Technology.

School of Engineering Technology Information:

School Director: Bob Lahidji

School Contact: bob.lahidji@emich.edu

Website: <http://www.emich.edu/set/>

Required Courses: 13 hours

- MFG 124 - Manufacturing Processes and Methods II 3 hrs
- PDD 203 - Industrial Operations 3 hrs
- PDD 111 - Materials 3 hrs
- PDD 123 - Manufacturing Processes 4 hrs

Restricted Electives: 9 hours

Choose nine hours from the following:

- MET 223 - Descriptive Geometry 2 hrs
- MFG 306 - Plastic Processing 3 hrs
- MFG 361 - Computer Numerical Control 3 hrs
- MFG 421 - Manufacturing Engineering Analysis 3 hrs
- MFG 425 - Advanced Manufacturing Methods 3 hrs
- PDD 470 - Integrated Product and Process Design 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 212 - Molding Materials and Processes 3 hrs
- PDD 220 - Geometric Dimensioning and Tolerancing 3 hrs
- PDD 316 - Concept Development Studio 3 hrs
- PDD 492 - Product Realization Studio 3 hrs
- QUAL 320 - Industrial Quality Control 3 hrs

Minor Total: 22 hours

Note:

All minors must have at least six hours of course work at the 300 level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

CAD

CADM 105 - Computer Applications for Industry

Provides the theory, general applications, and specific applications of microcomputers. Students are exposed to software packages commonly used for general and specific applications in industry.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course.

CADM 106 - Industrial Computer Applications for Manufacturing

This course presents advanced DOS commands and concepts appropriate for microcomputers configured for CAD/CAM and other similar industrial applications.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course.

Prerequisite: a course in computer literacy

CADM 120 - Computer-Aided Print Reading

A manufacturing print reading course which includes an introduction to computer-aided drawing. This course is intended for manufacturing cost analysis majors with no previous engineering drawing experience.

Credit Hours: 3 hrs

Prerequisite: CADM 105 or IS 215

Last Updated: Links 03/2011

CADM 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CADM 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CADM 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CADM 231 - Computer Graphic Programming for Industry

A series of computer graphics programs illustrate graphics algorithms and terminology. Students write similar computer programs using graphics functions. Topics include computer graphics, multi-view drawings, multiaxis rotations, CAD databases, animation and interactive programming.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course

Prerequisite: MATH 107 and a course in C programming

Last Updated: Links 03/2011

CADM 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CADM 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CADM 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CADM 334 - 3-D Computer-Aided Design Modeling

This course provides the advanced CAD user with an in-depth understanding and skill of constructing and integrating 3-D solid modeling and surfacing techniques into part modeling, assembly and animation using commercial CAD software.

Credit Hours: 3 hrs

Prerequisite: PDD 122

Last Updated: Links 03/2011

CADM 360 - CIM Operations

Concepts, components, and application of computer-based industrial automation. The integration and implications of CAD, CAM and business functions into CIM are included.

Credit Hours: 3 hrs

Prerequisite: PDD 203

Last Updated: Links 03/2011

CADM 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CADM 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CADM 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CADM 387 - Cooperative Education in CAD/CAM Technology

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: department permission

Major Restrictions: Industrial Technology and Industrial Teacher Education Majors only

Notes: Offered on a credit/no-credit basis.

CADM 417 - Industrial Robotics

The nature and use of industrial robotics: capabilities, equipment and associated hardware, justification, preparation and installation, launching and monitoring.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course

Prerequisite: CADM 106, PDD 203, ELEC 218 and MFG 318

Last Updated: Links 03/2011

CADM 461 - CAD/CAM NC Programming

Study of conversion of part descriptions to numerical control programs for mill, lathe, and three-axis machining center. Advanced APT and CAD/CAM NC programming for producing the instruction codes necessary to manufacture parts with NC machine tools are emphasized. Verification of the computer assisted NC programs are accomplished by laboratory work.

Credit Hours: 3 hrs

Prerequisite: MFG 361

Last Updated: Links 03/2011

CADM 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CADM 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CADM 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CADM 485 - Flexible Manufacturing Systems

Design and implementation of a flexible manufacturing cell. Machining materials, material handling and storage, inspection and inventory are emphasized. Part programming using numerical control, robotics/programmable automation programming, development of a manufacturing database and hierarchical computer control.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course

Prerequisite: PDD 316, PDD 224, MFG 361, QUAL 320 and MFG 425

Last Updated: Links 03/2011

CADM 487 - Cooperative Education in CAD/CAM Technology

The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received

Credit Hours: 3 hrs

Prerequisite: CADM 387 and department permission

Notes: Graded on a credit/no-credit basis.

Last Updated: Links 03/2011

CADM 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 1 hr

Notes: Offered on a credit/no-credit basis

CADM 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 2 hrs

Notes: Offered on a credit/no-credit basis.

CADM 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 3 hrs

Notes: Offered on a credit/no-credit basis.

CADM 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hrs

Prerequisite: department permission

CADM 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: department permission

CADM 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: department permission

Computer Engineering Technology

CET 151 - Introduction to Computing in Engineering Technology

This course introduces a variety of software tools and techniques used by engineers. It is intended for anyone interested in engineering design, analysis and software development. Engineering software developments related to real life applications are included.

Credit Hours: 3 hrs

Previously Listed As: CET 251 Engineering Software and Applications

Last Updated: Links 03/2011

CET 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr

Notes: Students may elect more than once, provided different topics are studied.

CET 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 2 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 3 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr

Notes: Students may elect more than once, provided different topics are studied.

CET 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 2 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 3 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 353 - Web Development for Engineering Applications

The application of Web technology to engineering disciplines. Emphasis is given to designing, analyzing and developing Web applications for various engineering disciplines and enterprises. Projects integrate various Web-based engineering software to be simultaneously used and managed for concurrent engineering and business activities in virtual environment.

Credit Hours: 3 hrs

Prerequisite: CET 151, IS 380

Last Updated: Links 03/2011

CET 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr

Notes: Students may elect more than once, provided different topics are studied.

CET 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 2 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 3 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 387 - Cooperative Education in Computer Engineering Technology

An industrial experience in business and industrial where primary work emphasis is related to computer engineering technology. During this period employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: department permission

CET 426 - Engineering Product Information

An overview of the information related to product design and manufacturing production. Emphasis will be given to utilize product information in various aspects of engineering design, analysis, manufacturing and concurrent engineering.

Credit Hours: 3 hrs

Prerequisite: ELEC 218

Last Updated: Links 03/2011

CET 427 - Programmable Logic Controller

The application of electricity, electronics, programmable logic controller, data acquisition, and analysis techniques to the open-loop and closed-loop control of machines and processes. Emphasis will be given to utilization of computers and programmable logic controllers for industrial control purposes.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course.

Prerequisite: ELEC 218

Last Updated: Links 03/2011

CET 451 - Engineering Database Development

This course covers the essentials of developing and implementing database system for engineering applications. The emphasis is given to the development of database applications for integrating product design, production analysis, manufacturing, process control, assembly, inventory control and other engineering functions. Practical examples of C3P that integrate CAD systems, CAM systems, FEA systems, SQC, etc. are presented. Several popular products data management systems such as Parametric Technology's Windchill, EDS's PLM (Product Lifecycle Management) and IBM's PLM will be introduced.

Credit Hours: 3 hrs

Prerequisite: IS 380

Last Updated: Links 03/2011

CET 453 - Engineering Programming

Cover Java programming essentials with emphasis in the object-oriented programs for engineering applications. Emphasis will be given to the development of interface programs that allow popular engineering application software to be used in specific applications and the development of Web-based programs for engineering applications.

Credit Hours: 3 hrs

Prerequisite: CET 353 and CET 451

Last Updated: Links 03/2011

CET 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 1 hr

Notes: Students may elect more than once, provided different topics are studied.

CET 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 2 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings.

Credit Hours: 3 hrs

Notes: Students may elect more than once, provided different topics are studied.

CET 491 - Senior Design Capstone

A synthesis of all previous academic course work for the capstone activity for the computer engineering technology student; includes a proposal phase, development phase and final project. This course focuses on the effective teamwork strategies and the applications of computer software and hardware in engineering activities. Technical reports and presentations are required.

Credit Hours: 3 hrs

Prerequisite: ELEC 218, ENGL 324W and CET 353

Class Restrictions: Senior standing

Last Updated: Links 03/2011

CET 497 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr

Prerequisite: department permission

Class Restrictions: Sophomore or Junior standing

CET 498 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: department permission

Class Restrictions: Junior or Senior standing

CET 499 - Independent Study

Available to selected students who have demonstrated ability to profit from directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Election and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: department permission

Class Restrictions: Junior or Senior standing

Construction Management

CNST 125 - Introduction to Construction

An overview of the construction industry, including the developing, planning, and scheduling of construction projects. Site development, material usage, specifications, estimating and managing cost control are included as topic areas.

Credit Hours: 2 hrs

CNST 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CNST 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CNST 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CNST 201 - Construction Systems

Structural systems, associated nonstructural components and considerations appropriate to mechanical, electrical, plumbing and support equipment. Lecture and laboratory course.

Credit Hours: 3 hrs

CNST 202 - Construction Materials

The characteristics, specifications, and applications of basic construction materials such as stone, concrete, wood, glass, plastics, metals and bituminous products. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: CNST 125
Last Updated: Links 04/2011

CNST 206 - Surveying

The fundamental use of the transit and level. Linear measurement, angle measurements, differential and profile leveling, a simple transverse survey, and the keeping of accurate notes. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: MATH 107
Last Updated: Links 04/2011

CNST 213 - Construction Safety

Philosophical, social, economic, and technological bases for safety related to the development of a construction job-site safety plan. Emphasis is also placed on the OSHA and MIOSHA construction industry standards.

Credit Hours: 3 hrs

CNST 228 - Construction Graphics

Basic print reading skills. Symbols, terminology, print organization, and basic material take-off techniques. Sketching and some basic drawing skills will be required. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: CNST 125 and CNST 201
Last Updated: Links 04/2011

CNST 229 - Analysis of Commercial Prints

Development of the ability to read and interpret prints. Actual commercial prints and project manuals are used for analysis and material take-off procedures. Preparation of field drawings using graph paper and sketching techniques. Lecture and laboratory course.

Credit Hours: 3 hrs
Prerequisite: CNST 228
Last Updated: Links 04/2011

CNST 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

CNST 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CNST 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CNST 302 - Contract Documents, Regulations, and Specifications

The different types of construction contracts, construction documents and regulations, the role of specifications, and the project manual in the construction process.

Credit Hours: 3 hrs

Prerequisite: CNST 201, LAW 293 and CNST 125 or department permission

Last Updated: Links 04/2011

CNST 303 - Electrical, Mechanical, and Equipment Systems

This course provides an understanding of mechanical, electrical, plumbing, drain-waste-vent, equipment considerations and other specialized nonstructural systems found in commercial buildings.

Credit Hours: 3 hrs

Prerequisite: CNST 228

Last Updated: Links 04/2011

CNST 304 - Construction Estimating and Bidding

The principles and procedures for developing estimates, bids and contracts for heavy/highway and commercial construction. Computer applications are included.

Credit Hours: 3 hrs

Prerequisite: CNST 229 and CNST 302

Last Updated: Links 04/2011

CNST 361 - Planning and Scheduling

The planning process of the construction industry. Various scheduling systems commonly used within the industry are studied including scheduling software.

Credit Hours: 3 hrs

Prerequisite: CADM 105 and CNST 229

Last Updated: Links 04/2011

CNST 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CNST 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CNST 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CNST 387 - Cooperative Education in Construction Management

Construction management majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: department permission

Major Restrictions: Credit applicable to the major in Construction Management only

Notes: Offered on a credit/no-credit basis.

CNST 403 - Production Control

Methods of control used in the construction industry for production problems involving the estimate, bidding schedules, cost analysis, cost comparison, scheduling systems, evaluation and debriefing.

Credit Hours: 2 hrs

Prerequisite: ACC 130, CNST 304 and CNST 361

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 406W - Construction Law (Gen Ed Area I, W)

Common basic legal problems associated with construction contracting. Current areas of concern and their significant implications are covered.

Credit Hours: 3 hrs

Prerequisite: CNST 302

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 412 - Fundamentals of Structural Design

Fundamentals and theory of construction design including soil mechanics and basic structural elements. This is an elementary, analytical and practical approach to the principles and physical concepts of statics, strength of materials, and soils as they relate to construction.

Credit Hours: 3 hrs

Prerequisite: PHY 221, CNST 202 and MATH 107

Last Updated: Links 04/2011

CNST 426 - Mechanical and Electrical Construction Applications

This course provides the student with a broad understanding of the principles and construction of plumbing, heating, ventilating and air conditioning (HVAC) and electrical systems for nonresidential buildings. Emphasis will be placed on project management issues relating to these systems including estimating, coordinating, change orders and commissioning.

Credit Hours: 3 hrs

Prerequisite: CNST 303

Major Restrictions: Available only to students in the Construction Management program

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 427 - Industrial Construction

This lecture course provides an overview of the design, installation, and start-up of various industrial systems as they relate to construction management. Emphasis is placed on construction pertaining to: automotive, food & beverage, chemical/refinery, pharmaceutical, steel and cast metals, machining, plastic molding, power generation, electronics manufacturing and others.

Credit Hours: 2 hrs

Prerequisite: CNST 303, CNST 304 and CNST 361

Last Updated: Links 04/2011

CNST 436 - Heavy/Highway Construction Means and Methods

The study of the means and methods of construction used in the heavy/highway construction industry. Soil, aggregate, concrete, and asphalt properties will be studied, and their associated design theories. Means and methods of construction will also be examined, including earthwork excavation, hauling and compaction. Operational characteristics of heavy equipment will be evaluated.

Credit Hours: 3 hrs

Prerequisite: CNST 202/CNST 302/CNST 304

Major Restrictions: Available only to students in the Construction Management program

Previously Listed As: CNST 436 - Heavy/Highway Construction Contracting

Last Updated: Title and Course Description Change 02/2012, effective Fall 2012; Graduate Credit 07/2011; Links 04/2011

CNST 437 - Environmental Construction Contracting

This course covers a wide range of environmental construction contracting project types. It is delivered in three main segments: the regulatory framework; assessment and design elements used in environmental remediation projects; and managing the construction process. Actual projects are studied in order to provide students with a variety of construction methods.

Credit Hours: 2 hrs

Prerequisite: CNST 213 and CNST 302

Last Updated: Links 04/2011

CNST 438 - Fundamentals of Land Development

An examination of the land development process, including its market, finance, design, construction and regulatory aspects. The course will focus on actual residential and commercial projects underway or recently completed by local developers, along with the challenges and opportunities encountered in managing these projects from initial inception to final sale.

Credit Hours: 3 hrs

Prerequisite: CNST 302

Last Updated: Credit Hour Change 02/2012, effective Fall 2012; Links 04/2011

CNST 440 - LEED for New Construction and Major Renovations

This course provides an understanding of how green building intents, strategies and technologies are considered, coordinated, implemented, and verified while designing, constructing, commissioning, and using commercial buildings in particular, and the greater built environment in general. It expands on how LEED accredited professionals oversee building certification processes, and the documents and standards required to attain LEED certification at all levels. Materials for the course derive from the United States Green Building Council's Green Building Rating System for New Constructions and Major Renovations, Reference Guides, Registered Project Checklist, and Green Building Certification Institute's web resources. This course is required for Construction Management Major.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: CNST470

Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 446 - Senior Seminar on Professional Issues in Engineering, Technology and Construction

The seminar course addresses the important elements of professional conduct essential for the starting professional to succeed in technology-based industries. The course will focus on building the appropriate personal skills including networking, work relations, technical communications, ethics, diversity sensitivity, professionalism, public speaking and community service.

Credit Hours: 1 hr

CNST 450 - Fundamentals of Construction Project Management

Students combine many previous concepts and skills into a single comprehensive project that includes estimating, scheduling, production control techniques and documentation procedures. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: ENGL 324W (B or better), MGMT 384, CNST 304 and CNST 361

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CNST 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CNST 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CNST 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CNST 487 - Cooperative Education in Construction Management

The second in a two-course sequence for construction management majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: CNST 387 and department permission

Notes: Graded on a credit/no-credit basis

Last Updated: Links 04/2011

CNST 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 1 hrs

Prerequisite: Offered on a credit/no-credit basis.

CNST 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 2 hrs

Prerequisite: Offered on a credit/no-credit basis.

CNST 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 3 hrs

Prerequisite: Offered on a credit/no-credit basis.

CNST 497 - Directed Study in Construction Management Techniques

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hrs

Prerequisite: department permission

CNST 498 - Directed Study in Construction Management Techniques

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: department permission

CNST 499 - Directed Study in Construction Management Techniques

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: department permission

Electronic Engineering Technology

ELEC 120 - Principles of Electrical Theory

This course presents an introduction to principles of electrical circuits and components using an applied approach which includes hands-on activity.

Credit Hours: 3 hrs

ELEC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ELEC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ELEC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ELEC 200 - Circuit Analysis I

A first course in the fundamentals of circuit analysis and design. Kirchoff's and Ohm's Laws. Thevenin and Norton network theorems, with primary emphasis on DC circuits. Electronic instruments, laboratory data collection and report writing are also emphasized. Simulation software is used for computer assisted learning.

Credit Hours: 3 hrs

Prerequisite: MATH 105/MATH 107

Last Updated: Links 04/2011

ELEC 210 - Circuit Analysis II

Second course in fundamental circuit analysis and design. Emphasis will be on steady state analysis and power in AC circuits. Laboratory data collection and report writing. Simulation software is used.

Credit Hours: 3 hrs

Prerequisite: ELEC 200

Corequisites: MATH 112, MATH 120 or Math Placement

Last Updated: Links 04/2011

ELEC 214 - Digital Circuit Analysis I

The study of combinational and sequential circuits, logic families and design procedures. Simulation software is used for computer-assisted learning. Lab exercises with typical circuits data collection and report writing.

Credit Hours: 3 hrs

Prerequisite: ELEC 200

Last Updated: Links 04/2011

ELEC 215 - Computer-Aided Electronics

This course will introduce the student to the computers and software used for electronic circuit design and layout. CAD tools are used to develop block diagrams, electronic symbols, component representation, layout and assemblies.

Credit Hours: 3 hrs

ELEC 218 - Motors and Controls

The study of DC and AC motor theory, operation and control. Power, energy, efficiency and applications of motors and motor control circuitry are featured.

Credit Hours: 3 hrs

Prerequisite: ELEC 200

Last Updated: Links 04/2011

ELEC 219 - Techniques of Energy Control

An introduction to the use of tools, materials, machines, equipment, supplies, and mechanisms utilized in power mechanics for energy control. Lecture and laboratory course.

Credit Hours: 3 hrs

ELEC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ELEC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ELEC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ELEC 300 - Analog Circuit Analysis I

The study of the fundamentals of discrete solid state devices and linear integrated circuits. The concepts of instrumentation and control applications are included. Data collection and report writing are required.

Credit Hours: 3 hrs

Prerequisite: ELEC 210

Corequisites: MATH 120

Last Updated: Links 04/2011

ELEC 310 - Analog Circuit Analysis II

The continuation of analog circuit design and analysis, including operational amplifiers, filters and phase-locked-loops. Laboratory exercises, data collection and report writing are included; and simulation software is used for enhanced learning.

Credit Hours: 3 hrs

Prerequisite: ELEC 300

Corequisites: MATH 121

Last Updated: Links 04/2011

ELEC 314 - Digital Circuit Analysis II

The continuation of digital circuit design and analysis. Laboratory exercises with circuitry interfaced to a personal computer and report writing. Simulation software is also used.

Credit Hours: 3 hrs

Prerequisite: ELEC 214

Last Updated: Links 04/2011

ELEC 320 - Microcomputer Circuits

Circuit design and principles are considered, including address-control-data lines in microprocessors, memory and interfacing. Machines and other programming languages are used in laboratory exercises.

Credit Hours: 3 hrs

Prerequisite: ELEC 214/ELEC 300

Corequisites: COSC 111

Last Updated: Links 04/2011

ELEC 326 - Transform Circuit Analysis with Calculus

This course presents the fundamentals of transient circuit and system analysis with an emphasis on the Laplace transform and pole-zero approach for analyzing and interpreting problems.

Credit Hours: 3 hrs

Prerequisite: ELEC 120 and MATH 120

Last Updated: Links 04/2011

ELEC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ELEC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ELEC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ELEC 387 - Cooperative Education in Electronic Technology

An industrial experience in some facet of business or industry where the primary work emphasis is related to electronic engineering technology. During this period employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: department permission

Notes: Offered on a credit/no-credit basis.

ELEC 415 - Communication Circuits

The principles of communication circuits and systems are studied, including oscillators, amplifiers, modulation, antennas and transmission lines. Information theory, voice and data communications are considered also.

Credit Hours: 3 hrs

Prerequisite: ELEC 310

Corequisites: ELEC 314

Last Updated: Links 04/2011

ELEC 420 - Advanced Microprocessors

Further study of microprocessors and interfacing applications. Use of personal computers as the platform for data collection, instrumentation and control applications.

Credit Hours: 3 hrs

Prerequisite: ELEC 310, ELEC 314 and COSC 211

Last Updated: Links 04/2011

ELEC 426 - Control Systems Engineering (NEW COURSE)

This course presents control system concepts including the skills needed to identify control systems models and their transfer functions. Simulation software will be used to illustrate mathematical procedures and provide computer solutions to practical problems.

Credit Hours: 3 hrs

Prerequisite: ELEC 326

Class Restrictions: Junior standing and above only

Last Updated: New Course 05/2012, effective Winter 2013

ELEC 450 - Senior Design Project

This course is intended to be the capstone activity for the student; includes a proposal phase, development phase and final project, using the skills learned throughout the program.

Credit Hours: 3 hrs

Prerequisite: ELEC 420 and ELEC 415

Last Updated: Links 04/2011

ELEC 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ELEC 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ELEC 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ELEC 487 - Cooperative Education in Electronic Technology

The second industrial experience for electronic technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: ELEC 387 and department permission

Notes: Offered on a credit/no-credit basis.

Last Updated: Links 04/2011

ELEC 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 1 hr

Notes: Offered on a credit/no-credit basis

ELEC 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 2 hrs

Notes: Offered on a credit/no-credit basis.

ELEC 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 3 hrs

Notes: Offered on a credit/no-credit basis.

ELEC 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hrs

Prerequisite: department permission

ELEC 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: department permission

ELEC 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: department permission

Engineering Technology

ET 100 - Introduction to Engineering Technology

Introduction to the Engineering Technology profession by demonstrating and applying problem solving concepts from science and technology courses. Development of open-ended technological design projects which emphasize the communication skills. Supporting these activities is a structured syllabus that employs mathematical and physical reasoning towards the solution of fundamental engineering problems.

Credit Hours: 3 hrs

Concurrent Prerequisite: MATH 104 or higher

Last Updated: Credit Hour Change 02/2012, effective Fall 2012; Links 04/2011

ET 101 - Introduction to Engineering Technology Computing

Introduction to Engineering Technology Computing will cover the basics of Matlab and Excel. Data input, basic commands, predefined functions, plotting and simple programming as applied to engineering technology problems will be covered. Laboratory course.

Credit Hours: 1 hr

Concurrent Prerequisite: MATH 104 or higher

Last Updated: Links 04/2011

ET 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ET 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ET 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ET 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr

Prerequisite: department permission

ET 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the

department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: department permission

ET 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: department permission

Facility Management

FMGT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

FMGT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

FMGT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

FMGT 202 - Introduction to Facility Management

The student will gain an overview of the facility management profession. The following topics will be introduced: history of the facility management profession, organizational structure, property management, facilities planning, maintenance and operations, managing support services, managing construction projects, strategic planning and budgeting, and conducting a facilities audit.

Credit Hours: 3 hrs

FMGT 230 - Facility Operations and Maintenance

This course provides the student with an introduction to the operation and maintenance of facility systems. These systems include: heating, ventilation and air conditioning; elevators; grounds; building exterior and roof; interior walls and floors; plumbing; electrical; telecommunications; fire safety; and security.

Credit Hours: 3 hrs

FMGT 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

FMGT 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

FMGT 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

FMGT 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

FMGT 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

FMGT 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

FMGT 387 - Cooperative Education in Facility Management

Facility management majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: department permission

Major Restrictions: Credit applicable to Facility Management Majors only

Notes: Offered on a credit/no-credit basis

FMGT 416 - Managing Utilities, Lighting Systems and Code Compliance

This course covers utility rate structures and their effect on building operation strategies, building code requirements, and managing lighting systems for cost efficiency and code compliance.

Credit Hours: 3 hrs

Prerequisite: CADM 105 and FMGT 202

Last Updated: Links 04/2011

FMGT 417 - Computer-Aided Facility Management

This course teaches the student how to use software that is dedicated to managing facilities.

Credit Hours: 3 hrs

Prerequisite: CADM 105 and FMGT 230

Last Updated: Links 04/2011

FMGT 418 - Building Automation Systems

This course teaches the student how computerized control systems work in a building. The principal systems covered will be: heating, ventilation and air conditioning control; lighting systems-switching and dimming; elevators-optimum scheduling; security-access control and monitoring; and fire safety-air flow controls, alarms and sprinklers.

Credit Hours: 3 hrs

Prerequisite: CADM 105 and FMGT 202

Last Updated: Links 04/2011

FMGT 424 - Industrial Plant Facilities and Planning

Planning procedures related to small plant and heavy industrial production. Mass production layout methods, machine and production equipment arrangements, types of plant architecture and related facilities, transportation and handling facilities, lighting, sewerage, ventilation, water supply, electrical power and personal facilities are included.

Credit Hours: 3 hrs

FMGT 432 - Senior Seminar in Facility Management

This course is a capstone experience that considers and integrates special problems in facility management.

Credit Hours: 3 hrs

Prerequisite: FMGT 202 and FMGT 230

Concurrent Prerequisite: Completed or concurrent co-op

Class Restrictions: Senior standing

Last Updated: Links 04/2011

FMGT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

FMGT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

FMGT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

FMGT 487 - Cooperative Education in Facility Management

The second in a two-course sequence for facility management majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received..

Credit Hours: 3 hrs

Prerequisite: FMGT 387 and department permission.

Notes: Graded on a credit/no-credit basis

Last Updated: Links 04/2011

FMGT 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 1 hr

Notes: Offered on a credit/no-credit basis.

FMGT 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 2 hrs

Notes: Offered on a credit/no-credit basis

FMGT 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 3 hrs

Notes: Offered on a credit/no-credit basis

FMGT 497 - Directed Study in Facility Management Techniques

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr

Prerequisite: department permission

FMGT 498 - Directed Study in Facility Management Techniques

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: department permission

FMGT 499 - Directed Study in Facility Management Techniques

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: department permission

Interior Design

IDE 110 - Interior Design Studio I

Introduction to technical drawing techniques, interior construction processes and construction materials used in interior design. Emphasis on basic architectural drafting skills and conventions as applied to wood frame construction.

Credit Hours: 3 hrs

IDE 111 - Environmental Psychology and Behavior for Interior Design

Introduction to human factors, anthropometric, the precepts of Universal Design and ADA, as the foundation for the design process for interior environments. The course explores the program diversity in interior environments for both residential and commercial design using basic concepts of environmental psychology and behavior.

Credit Hours: 3 hrs

Class Restrictions: First-Year and Sophomore standing only

Previously Listed As: IDE 111 Human Factors and Universal Design

Last Updated: Title, description and restriction change 6/2012, effective winter 2013

IDE 120 - Interior Design Studio II

Development of interior design graphic presentation skills. Emphasis on quick sketched, 1 and 2 points perspectives and rendering techniques.

Credit Hours: 3 hrs

IDE 121 - Interior Design Materials and Components

Investigation of characteristics, properties, and uses of materials and components specified by the interior designer. Emphasis: Life cycle analysis of interior finishes, furnishings and equipment (FF&E) with discussion of relevant environmentally responsible design considerations.

Credit Hours: 3 hrs

IDE 122 - Interior Design Theory II

Introduction to environment and behavior and psychosocial theories as they apply to the design of interior environments. Emphasis: Environment and behavior and psychosocial theories, as relevant to environmentally responsible design, as a platform for exploration of environmentally responsible design in interior design practices.

Credit Hours: 3 hrs

IDE 123 - Computers for Interior Design I

Introduction to the use of computers in interior design. Emphasis: two-dimensional computer-aided drafting and three-dimensional modeling and rendering.

Credit Hours: 3 hrs

IDE 131 - Interior Design Theory I

Introduction to design theories as the foundation for planning interior environments. Emphasis: Discussion and exploration of relevant design theories including environment and behavior, design composition, spatial relationships and principles and elements of design.

Credit Hours: 3 hrs

IDE 177 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

IDE 178 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

IDE 179 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

IDE 208 - Introduction to Basic Design

Application of the basic principles and concepts of design as they pertain to the relationship between contemporary human needs and environmental needs. Color theory; functional and creative interior design

Credit Hours: 3 hrs

Major Restrictions: Non-majors only

IDE 210 - Interior Design Studio III

Introduction to the design process used in the interior design profession. Emphasis: programming, ideation, concept development, space planning, design development and documentation, and presentation of design projects.

Credit Hours: 3 hrs

Prerequisite: IDE 110, IDE 120 and IDE 123

Last Updated: Links 04/2011

IDE 219 - Computers for Interior Design II

Advanced computer-aided design techniques for multimedia presentations. Emphasis: Three-dimensional modeling, interior design graphics, presentation of interior design projects and the parametric design system.

Credit Hours: 3 hrs

Prerequisite: IDE 123

Last Updated: Links 04/2011

IDE 220 - Interior Design Studio IV

Engagement in creative problem solving using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of an interior environment; analysis, synthesis and presentation of three-dimensional solutions to a beginning-level, small scale design problem.

Credit Hours: 3 hrs

Prerequisite: IDE 210 and IDE 219

Last Updated: Links 04/2011

IDE 221 - Environmental Systems for Interior Designers

Introduction to acoustics, noise control, climate control, plumbing and electrical systems. Emphasis: Investigation of building systems to enable interior designers to work within the parameters dictated by these systems and to communicate effectively with the subcontractors who design and install these systems.

Credit Hours: 3 hrs

IDE 225 - History of Interiors from Antiquity to 1800 (NEW COURSE)

Chronological survey of styles in architecture, interiors, furniture, and decorative arts from Antiquity to 1800. Emphasis on the design, function, construction, and evolution of interior environments and the sociological, psychological, and cultural factors that influenced the characteristics of each style.

Credit Hours: 3 hrs

Class Restrictions: All undergraduates and second bacc.

Last Updated: New Course 06/2012, effective Winter 2013

IDE 226 - History of Interiors from 1800 to Present

Chronological survey of styles in architecture, interiors, furniture, and decorative arts from 1800 to present. Emphasis on the design, function, construction, and evolution of interior environments and the sociological psychological, and cultural factors that influenced the characteristics of each style.

Credit Hours: 3 hrs

Major Restrictions: All undergraduates and second bacc.

Previously Listed As: IDE 222 History of Interiors

Last Updated: number, title and description change 6/2012, effective Winter 2013

IDE 277 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

IDE 278 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

IDE 279 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

IDE 310 - Interior Design Studio V

Engagement in creative problem solving using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis and presentation of three-dimensional solution to an intermediate-level, medium scale design problem.

Credit Hours: 3 hrs

Prerequisite: IDE 220

Last Updated: Links 04/2011

IDE 317 - Lighting Systems for Interior Designers

Introduction to lighting design for interior environments. Emphasis on lighting design fundamentals, the lighting design process, light sources and energy conservation. Application: Retail lighting design.

Credit Hours: 3 hrs

Prerequisite: IDE 122 and IDE 131

Last Updated: Links 04/2011

IDE 318 - Interior Building Codes and ADA

Examination of the codes and laws relevant to the design of the interior environment with in-depth analysis of ADA as it relates to interior designers. Emphasis is implementation of the code check process and ADA compliance evaluations.

Credit Hours: 3 hrs

Prerequisite: IDE 122 and IDE 131

Last Updated: Links 04/2011

IDE 320 - Interior Design Studio VI

Engagement in creative problem solving using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis, and presentation of a three-dimensional solution to an intermediate-level, medium scale, non-residential design problem.

Credit Hours: 3 hrs

Prerequisite: IDE 310

Major Restrictions: Interior Design Majors only

Last Updated: Links 04/2011

IDE 324 - Internship in Interior Design

Development of communication tools required for Interior Design internship placement with emphasis on portfolio and resume preparation, and interviewing techniques, Evaluation of the supervised internship student work experience in the Interior Design professional practice learning outcomes in specific design domain.

Credit Hours: 4 hrs

Prerequisite: IDE 310

Concurrent Prerequisite: IDE 310

Previously Listed As: IDE 411 & IDE 323 **Course Revisions:**

Merge of IDE 411 Internship in Interior Design and IDE 323 Internship in Interior Design Preparation

Last Updated: Number change 7/2012, effective Winter 2013; course merge, description, credit and prerequisite change 6/2012, effective Winter 2013; Links 04/2011

IDE 325 - Professional Practice in Interior Design

Examination of business principles and practices in the interior design profession. This course will cover the different types of business organizations, marketing practices, management practices, and legal aspects specific to interior design firms, the management of interior design projects, warranties, and liabilities for products and service provided by interior designers.

Credit Hours: 3 hrs

Major Restrictions: Interior Design Majors only

Previously Listed As: IDE 422 Professional Practice in Interior Design

Last Updated: number and description change 6/2012, effective Winter 2013

IDE 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

IDE 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

IDE 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

IDE 410 - Interior Design Studio VII

Engagement in creative problem solving and critical thinking, using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis and presentation of a three-dimensional solution to an advanced-level, large scale, non-residential design problem. Emphasis: Mixed-use design project in an adaptive reuse of a mid or high-rise building.

Credit Hours: 3 hrs

Prerequisite: IDE 320

Last Updated: Links 04/2011

IDE 411 - Internship in Interior Design (TO BE DELETED)

Supervised work experience in the interior design profession (120 hours). Emphasis: Opportunity to work with an NCIDQ certificate holder to observe and participate in the day-to-day operations of the firm to gain a better understanding of professional practice in that particular design domain.

Credit Hours: 1 hrs

Prerequisite: IDE 324

Last Updated: Merge with IDE 323, effective Winter 2013; Links 04/2011

IDE 420 - Interior Design Studio VIII

Engagement in creative problem solving and critical thinking, using the design process to integrate both physiological and socio-psychological user needs with the functional and aesthetic design of the interior environment through analysis, synthesis and presentation of a three-dimensional solution to an advanced-level, large scale, non-residential design problem.

Credit Hours: 3 hrs

Prerequisite: IDE 410

Last Updated: Links 04/2011

IDE 425 - Mill Work Design and Detailing

The design of architectural detail and mil-work correlated with construction specifications development for commercial environments. Emphasis on research based design of the different materials and their applications with the building's electrical, plumbing, mechanical, acoustical, security, fire suppression and lighting systems.

Credit Hours: 3 hrs

Prerequisite: IDE 320

Concurrent Prerequisite: IDE 320

Class Restrictions: Senior standing only

Previously Listed As: IDE 322

Last Updated: Change in number, description and prerequisites, 6/2012, effective Winter 2013; Links 04/2011

IDE 430W - Writing for Interior Design (Gen Ed Area I, W)

The course focuses on writing about interior design topics. Students will develop their skills in presenting design content accurately and efficiently on a variety of topics dealing with design discourse, business practices, and technical processes. By focusing the students' attention on writing for a professional audience, a higher degree of relevancy will be stressed.

Credit Hours: 3 hrs

Prerequisite: IDE 410

Class Restrictions: Senior standing only

Major Restrictions: Interior Design Majors only

Area I: Effective Communication

IDE 430W Writing for Interior Design

This course is intended for students in the Interior Design program in the School of Engineering Technology (SET). The purpose of this course is to provide students with the opportunity to excel in writing that is relevant to the Interior Design profession. By connecting writing and design content more closely, this course will better prepare students for the expectations of the workplace, and improve their opportunities for professional advancement.

Interior design professionals must be able to use appropriate language for the appropriate audiences in presenting their ideas and designs. In the Interior Design profession, visual presentations are used to make the initial impact, however what is appealing to

the eye needs to be justified on paper and followed through throughout the design process in order for designs to come alive. It is important for students to leave the program with sufficient knowledge about how to prepare and administer contract documents, how to use persuasion when pursuing potential projects, and how to engage in profitable discourse about any given design project. Inclusion of an intensive writing course that focuses strictly on the Interior Design profession will allow students to develop these skills.

In contrast to most IDE courses, which emphasize the applications of interior design theory and technology via graphic presentation, this course focuses entirely on clear and concise writing. The writing activities will count for 75 percent of the course grade.

Last Updated: Gen Ed Approval 12/2011, effective Winter 2012; New Course 08/2011, effective Winter 2012

IDE 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

IDE 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

IDE 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

IDE 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr

Prerequisite: department permission

IDE 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

IDE 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

IDE 503 - Physical Environments for Aging

The course will explore the interrelationship between the physical and psychosocial changes that occur with normal aging and the designed environment. Environmental assessments and recommendations to accommodate normal aging and the related physical impairments will be addressed.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

Manufacturing

MFG 103 - Introduction to Automation

An introduction to the technology of discrete parts manufacturing. Topics include the contemporary manufacturing environment, new and emerging technologies, human-machine interfaces and human resource issues. Course includes field trips.

Credit Hours: 3 hrs

Last Updated: 2/8/2011

MFG 124 - Manufacturing Processes and Methods II

An introduction and survey of machines, tools, processes and materials of industry. Includes conventional and nonconventional machining, theory of metal removal, cutting tool geometry and materials, fixturing and measuring devices. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: MATH 107 or Level 4 math placement

Last Updated: Links 04/2011

MFG 140 - Science, Technology and People

This course will help people better understand the complementary relationship between science and technology in (a) creating technical devices, services and systems; and (b) solving problems.

Credit Hours: 3 hrs

Last Updated: 2/8/2011

MFG 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/8/2011

MFG 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/8/2011

MFG 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 2/8/2011

MFG 215 - Machine Tool Metalworking

Machine tools and metalworking processes including turning, drilling, shaping, milling and grinding. Principles of tooling, precision measurement and identification of metals. Lecture and laboratory course.

Credit Hours: 3 hrs

Last Updated: 2/8/2011

MFG 251 - Material Analysis and Testing

Study of the structure, characteristics, and working qualities of common industrial materials. Lecture and laboratory course.

Credit Hours: 3 hrs

Last Updated: 2/8/2011

MFG 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 306 - Plastic Processing

A study of high polymers, basic resin types, and their application to molding and fabrication process. Analysis of chemical and physical properties, mold design, and problems of production. Experimentation and testing required. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: PDD 111

Last Updated: Links 05/2011

MFG 318 - Fluid Power

Industrial hydraulic and pneumatic power transmission. Emphasis is on components, system control techniques, logic, system analysis and design. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: PHY 221

Last Updated: Links 04/2011

MFG 361 - Computer Numerical Control

NC programming for both CNC mill and lathe. The transfer of part descriptions into a detailed process plan, tool selection, and finally into NC machine codes. Computer-assisted programming, APT, and CAD/CAM for 2-D machining is emphasized. Verification is accomplished by laboratory work.

Credit Hours: 3 hrs

Prerequisite: MATH 107 or Level 6 math placement, MFG 124 and PDD 122

Last Updated: Links 04/2011

MFG 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 411 - Plastics Fabricating and Decorating

Processes involved in forming and fastening of standard profile materials in plastics. Methods of joining, machining and decorating of plastics materials and products are required. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: MFG 306

Last Updated: Links 04/2011

MFG 421 - Manufacturing Engineering Analysis

An advanced course in the analysis of manufacturing operations, utilizing current and new concepts and methods of manufacturing engineering and quality. Students from various programs will work together in integrated teams and utilize complementary tools and skills to identify and solve problems. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: PDD 316

Last Updated: Links 05/2011

MFG 425 - Advanced Manufacturing Methods

The course emphasizes computerized methods of planning, material handling, machining cells and inspection. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: MFG 103, MFG 124, PDD 203, ELEC 218 and PDD 123

Last Updated: Links 04/2011

MFG 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 1 hr

Notes: Offered on a credit/no-credit basis.

Last Updated: 2/9/2011

MFG 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 2 hrs

Notes: Offered on a credit/no-credit basis.

Last Updated: 2/9/2011

MFG 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 3 hrs

Notes: Offered on a credit/no-credit basis.

Last Updated: 2/9/2011

MFG 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

MFG 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 2/9/2011

Mechanical Engineering Technology

MET 211 - Statics

This course is an applied and analytical study of structural components in static equilibrium with emphasis on engineering applications. Topics include force resultants, moments, trusses, frames, centroids and moments of inertia.

Credit Hours: 3 hrs

Prerequisite: (MATH 120 or MATH 140) and (a C- or better in PHY 221 or PHY 223)

Last Updated: Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 223 - Descriptive Geometry

Students will develop the graphical procedures for working with points, lines, planes and solids in space and in relation to other points, lines, planes and solids. Intersections and developments of these geometric features will be performed.

Credit Hours: 2 hrs

Lecture/Lab Hours: Lecture and laboratory course

Prerequisite: MATH 107 and PDD 122

Last Updated: Links 04/2011

MET 312 - Applied Dynamics Principles

Fundamentals of the kinematics and kinetics of motion with emphasis on practical applications of engineering systems. Theory and application of Newton's Laws of Motion, displacement, velocity, acceleration, rectilinear and curvilinear motion, power, impulse and momentum.

Credit Hours: 3 hrs

Prerequisite: MET 211 and (a C- or better in PHY 221 or PHY 223)

Class Restrictions: Sophomore standing

Last Updated: Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 313 - Applied Mechanics of Materials

Analysis and design of structural members subjected to external forces, considering stress, strain and deformation of elastic solids. Study of tension, compression, shear, torsion and combined stress. Emphasis on the practical application of these concepts to the analysis of beams, columns, pressure vessels and machine members. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: MET 211 and (a C- or better in PHY 221 or PHY 223)

Class Restrictions: Sophomore standing

Last Updated: Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 314 - Applied Thermodynamics and Heat Transfer

Applications of the first and second laws of thermodynamics. Study of thermodynamics steam and refrigeration cycles. Availability and conservation of energy. Power and efficiency. Introduction heat transfer by conduction, convection and radiation. Fundamental laws governing the transformation of heat into mechanical energy with emphasis on practical applications of engineering systems. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: (MATH 120 or MATH 140) and (a C- or better in PHY 221 or PHY 223)

Class Restrictions: Sophomore standing

Last Updated: Prerequisite Revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 316 - Design for Manufacturing and Tooling

A study of manufacturing tooling systems integrated with product and process design principles, utilizing concurrent engineering methods. Students from various programs will work together in integrated teams and utilize complementary tools and skills to solve design problems. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: PDD 122 and PDD 123

Class Restrictions: Sophomore standing

Last Updated: Links 04/2011

MET 319 - Fluid Mechanics

An analytical study of fluids under all conditions of rest and motion. The emphasis is on physical concepts rather than mathematical manipulation. Topics include fluid statics, kinematics of fluid motion, incompressible and compressible flow, impulse momentum principle, fluid flow in pipes and open channels, and fluid measurement. Lecture and Laboratory course.

Credit Hours: 3 hrs

Prerequisite: MET 211, and (a C- or better in PHY 221 or PHY 223)

Class Restrictions: Sophomore standing

Last Updated: Prerequisite revision 7/2012; Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 387 - Cooperative Education in Mechanical Engineering Technology

Mechanical Engineering Technology majors will be placed in a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: department permission

Notes: Offered on a credit/no-credit basis.

MET 411 - Mechanical/Machine Design

A study of the decision-making processes which mechanical engineers use in the formulation of plans for the physical realization of machines, devices, and systems. Topics include the phases of design, codes and standards, stress analysis, failure criteria, design for fatigue strength and the design of mechanical elements.

Credit Hours: 3 hrs

Prerequisite: PDD 123, MET 312 and MET 313

Class Restrictions: Junior standing

Last Updated: Links 04/2011

MET 437 - Kinematics of Machines

Static, kinematic and dynamic analysis of plane motion. A study of instantaneous centers, velocities, accelerations and forces in mechanisms and machine elements. Development and analysis by analytical and graphical methods.

Credit Hours: 3 hrs

Prerequisite: MET 313 and MET 312

Last Updated: Links 04/2011

MET 470 - Mechanical Vibrations

Time and frequency domain mathematical techniques for linear system vibrations. Equations of motion of discrete systems. Vibration of two-degree-of-freedom systems. Oscillation Theory. Undamped system response. Viscously damped systems.

Credit Hours: 2 hrs

Prerequisite: MET 312

Last Updated: Links 04/2011

MET 492 - Senior Design Projects I

The first term of a two-term, comprehensive, capstone, open-ended design project. Establishment and development of the design process with special emphasis placed on teamwork towards the initial design proposal — written and oral.

Credit Hours: 3 hrs

Prerequisite: SET 350W

Concurrent Prerequisite: MET 437

Class Restrictions: Senior standing

Last Updated: Prerequisite Change 11/2011, effective Winter 2012; Links 04/2011

MET 493 - Senior Design Projects II

The concluding term of a two-term, comprehensive, capstone, open-ended design project. Generation and conclusive development of the final design with consideration for design reviews, prototype requirements, scheduling, ergonomics, safety

and economic constraints. A written report and oral defense of the project is required.

Credit Hours: 3 hrs

Prerequisite: MET 492

Last Updated: Links 04/2011

Polymers and Coatings

PC 185 - World of the Super Small

This course acquaints students with nanotechnology phenomena in basic science and engineering disciplines. The material presented broadly illustrates the diversity of nanoscale phenomena and how these phenomena impact our daily lives. A prime objective is to inculcate the ability to discuss and understand basic aspects of interesting "nano" phenomena.

Credit Hours: 3 hrs

PC 203 - Miniaturization in Technology

Miniaturization as a scientific, sociological or economic driver in the evolution of technology is examined. This specialized history course focuses on technology development from the 19th through 21st centuries and illustrates how various industrial and consumer products and manufacturing processes have led to the current focus on nanotechnology.

Credit Hours: 3 hrs

PC 260 - Introduction to Coatings Science and Technology

The course is designed for the science and engineering undergraduates who want to gain basic understanding about the coatings. Coatings are used in myriad applications such as buildings, automobiles, industrial products, construction, electronics, etc. and fundamental knowledge of this interdisciplinary field is very useful to the future scientists and engineers.

Credit Hours: 3 hrs

Prerequisite: CHEM 123, CHEM 124 and PHY 222

Class Restrictions: Sophomore, Junior or Senior standing

Last Updated: Links 04/2011

PC 310 - Polymers for Engineers and Technologists

Introduction to polymer science, polymerization, polymer modifications, size and weight of polymer molecules, plastics, adhesives, silicones, foams, surface coatings, fibers, elastomers, transitions and relaxations in polymers, rheology, polymer fabrication techniques.

Credit Hours: 3 hrs

Prerequisite: CHEM 123 and CHEM 124 or department permission

Last Updated: Links 04/2011

PC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 387 - Cooperative Education in Interdisciplinary Technology

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 04/2011

PC 400 - Polymers and Coatings Technology I

Introduction to synthesis, film formation, structure, and properties of polymers commonly used in coatings. Polymer systems to be covered include acrylic, vinyls, polyesters, alkyds, oils, epoxies, epoxyesters, aminoplasts, urethanes, phenolics, hydrocarbons, cellulose.

Credit Hours: 3 hrs
Prerequisite: CHEM 371 and CHEM 372
Last Updated: Links 04/2011

PC 401 - Polymers and Coatings Technology I Laboratory

Synthesis, characterization and identification of polymers used in coatings. The synthesis of solution acrylic, vinyl, acrylic emulsion, polyester, alkyd, epoxyester, melamine formaldehyde and urethane polymers with extensive use of physical techniques such as GIRT, GP and calorimetry.

Credit Hours: 3 hrs
Corequisites: PC 400
Last Updated: Links 04/2011

PC 402 - Polymers and Coatings Technology II

Formulation in oil-based and waterborne coatings covering the use of solvents, pigments and additives. Principles of adhesion and corrosion, and the use of conversion coatings. Safety, health, government regulations and paint production techniques.

Credit Hours: 3 hrs

Prerequisite: PC 400

Last Updated: Links 04/2011

PC 403 - Polymers and Coatings Technology II Laboratory

Practical formulation in oil-based and waterborne systems including the preparation and evaluation of various topcoats and primers currently used in the coatings industry (e.g., oil-based air-dry enamel, thermosetting coating, epoxyester primer, two-package urethane, acrylic latex and ED primer).

Credit Hours: 3 hrs

Corequisites: PC 402

Last Updated: Links 04/2011

PC 404 - Coatings Raw Materials

Coating industry is raw material intensive. Understanding of properties of coatings, their optimization and trouble shooting requires thorough knowledge about the raw materials used in coatings. This course provides basic understanding of chemistry and technology of different classes of raw materials used in formulations of coatings.

Credit Hours: 3 hrs

Prerequisite: CHEM 123 and CHEM 124

Class Restrictions: Sophomore, Junior or Senior standing

Last Updated: Links 04/2011

PC 405 - Coating Processes I

Development of expertise in industrial coating processes. Substrate preparation, principles of adhesion, corrosion control, industrial coating materials, industrial coating systems and regulatory compliance in the coatings industry.

Credit Hours: 3 hrs

Prerequisite: PC 310 or PC 400 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

PC 406 - Colloids and Interfaces

The basics of surface and interfacial physical chemistry are presented and tied to the important elements of coating and dispersions technology. Surface tension, capillarity, thermodynamics, surface films on liquids, contact angles, wetting, detergency, friction, lubrication, electrical double layer, stabilization, comminution, dispersions, and emulsions are the main topics covered.

Credit Hours: 3 hrs

Prerequisite: CHEM 361 or department permission

Last Updated: Links 04/2011

PC 407 - Coating Processes II

Process and equipment for coatings application, economic analysis of coating operations, paint defects and line design for productivity and energy conservation.

Credit Hours: 3 hrs

Prerequisite: PC 405 or department permission

Last Updated: Links 04/2011

PC 408 - Patent Drafting and Prosecution

Elementary patent law, efficient methods of reviewing patents, careers in the patenting arena and learning technology from patent publications are discussed and illustrated. Technical writing skills for drafting patent applications and for partnering with patent attorneys in prosecuting patent applications are developed in homework and in-class workshop exercises.

Credit Hours: 3 hrs

Class Restrictions: Junior or Senior standing

PC 416 - Water-Based Coatings

A course to present the technology involved in preparing and utilizing water-based coatings (solvent-based, powder and others) are presented. The requirements for polymers and other ingredients of water-based coatings formulations are taught.

Credit Hours: 3 hrs

Prerequisite: PC 310

Corequisites: PC 400

Last Updated: Links 04/2011

PC 460 - Advanced Coatings Topics

Development of in-depth formulating skills; new technology areas in coatings and polymers.

Credit Hours: 3 hrs

Prerequisite: PC 402, PC 403 or department permission

Last Updated: Links 04/2011

PC 477 - Special Topics

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PC 478 - Special Topics

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PC 479 - Special Topics

An examination of topics in interdisciplinary technology not covered in other departmental offerings. Students may elect these courses more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PC 487 - Cooperative Education in Interdisciplinary Technology

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PC 497 - Independent Study

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PC 498 - Independent Study

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PC 499 - Independent Study

Individual work in some area of interdisciplinary technology under the direction of a faculty member. Preliminary draft of proposed study must be approved by the department prior to enrollment. May be selected more than once, after resubmission and approval.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

Product Design and Development

PDD 101 - Introduction to Industrial Drawing

An introductory mechanical drawing course emphasizing lettering, measuring, geometric construction, sketching, equipment usage, pictorials, orthographic projection and dimensioning. This course is intended for students without previous drafting experience.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course.

Notes: This course does not count toward a CAD/CAM major.

Previously Listed As: CADM 101

Last Updated: Links 04/2011

PDD 111 - Materials

This course introduces students to the major categories of engineering materials. It focuses on selection, failure and degradation of metals, polymers, ceramics and composites.

Credit Hours: 3 hrs

Previously Listed As: MFG 111

Last Updated: Links 04/2011

PDD 122 - Engineering Graphics

An introductory product design course emphasizing the creation and documentation of drawings using software application packages. Some of the units of instruction include orthographic projection, dimensioning, threads, fasteners, tolerancing, gears, cams, sheet metal and weldments. The students in this course will be required to design simple mechanisms throughout the course.

Credit Hours: 4 hrs

Lecture/Lab Hours: Lecture and laboratory course.

Prerequisite: PDD 101 or one year of high school drafting

Previously Listed As: CADM 122

Last Updated: Links 04/2011

PDD 123 - Manufacturing Processes

An introduction and survey of manufacturing process and materials. Lecture, laboratory, and outside study assignments are an essential part of this course and are related to heat training, properties of materials, casting, forming, joining, survey of machines, tools, conventional and non-traditional machining, theory of metal removal, cutting tool geometry and materials, fixturing and measuring devices.

Credit Hours: 4 hrs

Previously Listed As: MFG 123

Last Updated: Links 04/2011

PDD 156 - Teamwork in Product Design and Development

An introduction to the formation and use of teams and the structures and tools utilized in the product design and development process. The course includes skills needed by individuals in order to be a part of a successful product design and development team.

Credit Hours: 3 hrs

PDD 157 - Introduction to Product Design

Presents an in-depth study of structured product design processes and methods. Methods discussed include experiences with hands-on products, applications of contemporary technologies, realistic applications of mathematics and scientific principles, studies of systematic experimentation, exploration of the design methodology and decision making for real product development.

Credit Hours: 3 hrs

PDD 203 - Industrial Operations

A survey course in the practices of manufacturing organizations. Units include careers, regulatory agencies, facilities management, group technology, problem solving and quality decision-making.

Credit Hours: 3 hrs

Previously Listed As: MFG 203

Last Updated: Subject Code Change 08/2011, effective Fall 2011

PDD 212 - Molding Materials and Processes

A study of molded products: material properties and identification, processing techniques, and application of design to product manufacture. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: PDD 111 and PDD 123

Previously Listed As: MFG 112

Last Updated: Links 04/2011

PDD 220 - Geometric Dimensioning and Tolerancing

Introduction to metrology and geometric dimensioning and tolerancing concepts. Practical applications of metrology including geometric dimensioning and tolerancing will be focused on through lecture and laboratory experiences.

Credit Hours: 3 hrs

Prerequisite: PDD 122 and PDD 123

Previously Listed As: MFG 290

Last Updated: Links 04/2011

PDD 224 - 3-D Solid Modeling

Examination and production of engineering designs/drawings using 3-D solid and wireframe techniques. Software generation of drawings, models and assemblies, including exploration of file formats and transfers. Class files utilized to construct physical prototypes using rapid prototyping equipment as an output device. Models can be used for testing and visualization.

Credit Hours: 3 hrs

Prerequisite: PDD 122 and PDD 123

Previously Listed As: CADM 324

Last Updated: Links 04/2011

PDD 309 - Molded Product Design

Principles of mold design for a variety of molded products. Topics include gating, venting, risering, parting, ejection, mold materials, machining, fabricating and testing. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: PDD 156, PDD 157, PDD 212, PDD 220 and PDD 224

Previously Listed As: MFG 409

Last Updated: Links 04/2011

PDD 310 - Formed Product Design

Principles of tooling design for a variety of formed products. Topics include tooling for thermoforming, blow molding, stamping, hydroforming and other forming processes. Lecture and laboratory course.

Credit Hours: 3 hrs

Prerequisite: PDD 156, PDD 157, PDD 212, PDD 220, PDD 224

Previously Listed As: MFG 410

Last Updated: Links 04/2011

PDD 311 - Engineering Intellectual Property

Introduction to intellectual property as related to the field of engineering. Topics include patents, copyrights, trademarks, trade secrets and intellectual property licensing.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing or higher

Previously Listed As: MFG 311

Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 316 - Concept Development Studio

A course in the generation, selection and testing of new and revised product concepts. Converting customer needs and specification into a set of product concepts from which the product development team will make a final selection. Includes the methods, processes and procedures for making sound decisions in a cross functional product team environment.

Credit Hours: 3 hrs

Prerequisite: ARTS 122, PDD 156, PDD 157, PDD 220 and PDD 224

Previously Listed As: MFG 316

Last Updated: Links 04/2011

PDD 325 - Applied Statics and Strength of Materials

Students will understand the fundamentals of statics of mechanical body and system. This course is the study of elementary, analytical and practical approaches to the principles of physical concepts of static and strength materials.

Credit Hours: 4 hrs

Lecture/Lab Hours: Lecture and laboratory course

Prerequisite: PHY 221

Previously Listed As: CADM 325

Last Updated: Links 04/2011

PDD 327 - Engineering Project Management

A study of project management activities associated with design and manufacturing engineering. Topics include project management concepts, methodologies, planning, budgeting, scheduling, evaluation, communication and implementation.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing or higher

Previously Listed As: MFG 327

Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 331 - Product Design Data Management

Students develop an interactive CAD software package. Principles of software design, the use of graphics hardware and the generating, modifying, and transforming of CAD entities and databases are included.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and laboratory course

Prerequisite: PDD 224

Previously Listed As: CADM 331

Last Updated: Links 04/2011

PDD 340 - Engineering Ethics

Study of professional moral frameworks and applications in the engineering profession. Real and theoretical cases in addition to codes of ethics from numerous professional engineering organizations will be examined.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or higher only

Previously Listed As: EM 340

Last Updated: Course Revision 05/2012, effective Fall 2012; Links 04/2011

PDD 350 - Prototyping

An introduction into the purpose, planning, construction and testing of prototypes and their application to the product design and development process. Topics include: prototyping types and uses, principles, technologies, plans and reverse engineering.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture and Laboratory Course

Prerequisite: PDD 316

Last Updated: Links 04/2011

PDD 380 - Engineering Cost Estimating

Analysis of product design and manufacturing costs. Methodology for product design and manufacturing based on economic factors. Development of cost estimates for product design, tooling, and manufacturing costs. Introduction to bidding and the preparation of part quotes.

Credit Hours: 3 hrs
Prerequisite: PDD 203 or PDD 309, PDD 310 and QUAL 320
Previously Listed As: MFG 380
Last Updated: Links 04/2011

PDD 387 - Cooperative Education in Product Design

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs
Prerequisite: Department permission
Major Restrictions: Industrial technology or Industrial Teacher Education Majors only
Notes: Offered on a credit/no-credit basis.
Previously Listed As: MFG 387
Last Updated: 02/2011

PDD 432 - 3-D Modeling and Surfacing Techniques

Students learn and practice surface modeling techniques using a 3-D CAD surface modeling software application package and measurement data. Free form surface modeling techniques and scanned or digitized point data will be created to produce high-quality surface models.

Credit Hours: 3 hrs
Lecture/Lab Hours: Lecture and laboratory course
Prerequisite: PDD 309, PDD 310 and PDD 350
Previously Listed As: CADM 432
Last Updated: Links 04/2011

PDD 433 - Advanced Tool Development

This course will introduce students to the generation of tool paths for 2.5 and 3-axis milling and drilling application. This class, as a continuation of modeling, adds knowledge and experience related to product design, assembly modeling, master model concepts and basic NX CAM functionality.

Credit Hours: 3 hrs
Prerequisite: PDD 309, PDD 310 and PDD 350
Previously Listed As: CADM 433
Last Updated: Links 04/2011

PDD 435 - Finite Element Analysis

Finite element analysis (FEA) is a powerful tool used by industries to solve many engineering problems. Basic concepts of this technique will be introduced and the students will have hands-on experience to analyze truss, beam, stress and strain problems by using FEA software packages.

Credit Hours: 3 hrs
Prerequisite: PDD 325 or MET 313
Previously Listed As: CADM 435
Last Updated: Links 04/2011

PDD 450 - Lean Enterprise

Overview of lean philosophy and lean practices. Application of lean practices in manufacturing and service industries. Topics include by are not limited to standardized work, muda, kanban, 5S, jidoka, value stream mapping, JIT and Hoshin planning.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing or higher

Previously Listed As: MFG 450

Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 470 - Integrated Product and Process Design

This course investigates the integration of product and process design methodologies. It is intended for anyone involved in product design, manufacturing engineering, process engineering, or manufacturing management. The course investigates design for manufacture and assembly, quality function deployment, value analysis, failure mode and effects analysis, error/mistake proofing, team dynamics and design of experiments.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing or higher

Previously Listed As: MFG 470

Last Updated: Links 04/2011; Subject Code/Prerequisite/Restriction Change 08/2011, effective Fall 2011

PDD 487 - Cooperative Education in Manufacturing Technology

The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study, for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: PDD 387 and department permission

Notes: Graded on a credit/no-credit basis

Last Updated: Links 04/2011

PDD 491 - Computer-Aided Design Studio

The design studio will focus on the design and development of products in a teamwork environment using CAD/CAE tools. This is a comprehensive, capstone design project class for senior Product and Design Development majors.

Credit Hours: 3 hrs

Prerequisite: PDD 435, PDD 432 and PDD 433

Previously Listed As: CADM 491

Last Updated: Links 04/2011

PDD 492 - Product Realization Studio

This design studio will focus on the design and development of a product and the production system and enterprise for its manufacture. Students will work together in integrated teams and utilize complementary tools and skills to solve design, planning and production problems.

Credit Hours: 3 hrs

Prerequisite: PDD 380 or MFG 421

Previously Listed As: MFG 490

Last Updated: Links 04/2011

Quality Technology

QUAL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 320 - Industrial Quality Control

An introduction to quality control systems and methods utilized in industry. Topics include quality policy and organization, data collection, and reporting, control charts, process and gauge capability, sampling plans, reliability, cost of quality, product liability and problem analysis.

Credit Hours: 3 hrs

Prerequisite: College Algebra or equivalent

QUAL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 387 - Cooperative Education in Quality Technology

Industrial technology majors will be placed on a job that relates to their primary area of study, for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: Department permission

Major Restrictions: Credit applicable to Industrial Technology Majors and Industrial Teacher Education Majors only

Notes: Offered on a credit/no-credit basis.

Last Updated: Links 04/2011

QUAL 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 487 - Cooperative Education in Quality Technology

The second in a two-course sequence for industrial technology majors. The students will be placed on a job that relates to their primary area of study for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: QUAL 387 and department permission

Notes: Graded on a credit/no-credit basis.

Last Updated: Links 04/2011

QUAL 494 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 1 hr

Notes: Offered on a credit/no-credit basis

QUAL 495 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 2 hrs

Notes: Offered on a credit/no-credit basis

QUAL 496 - Industry-Based Special Topics

Course descriptions are formulated at the time of an industry's request and reflect the particular requirements of the client company.

Credit Hours: 3 hrs

Notes: Offered on a credit/no-credit basis

QUAL 497 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 498 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

QUAL 499 - Independent Study

Available to selected students who have demonstrated ability to profit from a directed-study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser and chair.

Credit Hours: 3 hrs

Prerequisite: Department permission

School of Engineering Technology

SET 102 - World Wide Production: Global Impacts (Gen Ed Area III)

A course on the effects of globalization of the production of consumer products. Students will explore the production of selected common products in China, India, Uzbekistan, Cambodia, Brazil, and Pakistan. Students will consider the changing role of

women, debt bondage, child labor, health and safety issues, and environmental degradation. These workforce issues are also entwined with immigration, trade agreements, natural resources, standards of living, and social/cultural systems.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

SET 102 World Wide Production

In this course, students will investigate how global trade has and is changing the lives of people around the world. The course focuses on the production of several simple products (such as paperclips, candlesticks, blue jeans, bricks and charcoal) in order to learn about several countries and the conditions of life for the people who make these items. This knowledge will help students make informed decisions about global issues and will assist them in understanding the changing modern world.

Last Updated: Links 03/2011

SET 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SET 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SET 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SET 277 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr

SET 278 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs

SET 279 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 3 hrs

SET 350W - Engineering Communication (Gen Ed Area I, W)

A writing course that focuses on writing about scientific and technical topics. Students will develop their skills in presenting technical content accurately and efficiently.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Last Updated: Links 04/2011

SET 377 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr

SET 378 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs

SET 379 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 3 hrs

SET 477 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 1 hr

SET 478 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 2 hrs

SET 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied, but only twice for credit toward a major or minor in sociology.

Credit Hours: 3 hrs

SET 497 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 1 hr

Prerequisite: Department permission and consent of instructor

Last Updated: Links 03/2011

SET 498 - Independent Study

Intensive study of a problem or theory supervised by a faculty member in social foundations of education.

Credit Hours: 2 hrs

Prerequisite: Department permission and consent of instructor

School of Technology Studies Programs and Courses

School of Technology Studies

Major

Apparel, Textiles and Merchandising Major

The apparel, textiles and merchandising curriculum offers practical career oriented knowledge and skills as well as theoretical foundations of manufacturing and marketing fashion apparel and furnishing textiles. The program offers research opportunities for undergraduate students in textile science. A minor in art, communication, physical science, journalism, management, marketing or theatre is required

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: <http://www.emich.edu/sts/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 27 hours

- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs
- ATM 118 - Apparel Studio 3 hrs
- ATM 145 - Introduction to Apparel and Textile Merchandising 3 hrs
- ATM 212 - Textile Science I: Fibers & Yarns 3 hrs
- ATM 255 - Apparel Analysis 3 hrs
- ATM 312 - Textile Science II: Fabric Formation, Dyeing and Finishing 3 hrs
- ATM 345 - Merchandise Planning and Control 3 hrs
- ATM 355 - Application of Merchandising Practices 3 hrs
- ATM 487 - Field Experience 3 hrs

Elective Courses: 18 hours

Eighteen hours from the following:

- ATM 105 - Integrated Arts 3 hrs
- ATM 135 - Cultural Study of Dress 3 hrs
- ATM 200 - Aesthetics and Design for the Apparel Industry 3 hrs
- ATM 210 - Display Techniques 3 hr
- ATM 265 - Merchandising of Interior Furnishings 3 hrs
- ATM 271 - Woven Structures and Design 3 hrs

- ATM 302 - Fashion Manufacturing Techniques 3 hrs
- ATM 372 - Design and Production of a Fashion Show 3 hrs
- ATM 380 - Fashion of the Haute Couture 3 hrs
- ATM 390 - Visual Merchandising 3 hrs
- ATM 392 - Pattern Design 3 hrs
- ATM 404 - Textiles for Merchandising 3 hrs
- ATM 439 - Fashion Markets 3 hrs

General Electives: 18 hours

Minor Requirements:

This major requires a minor. Select a minor from the following:

- Art
- Communication
- Journalism
- Management
- Marketing
- Theatre Arts

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Aviation Flight Technology Major

This program is designed to prepare individuals for positions as entry-level professional pilots in the aviation industry. Based upon the needs of the aviation industry, the program encompasses a program of study that takes an individual from student pilot to certified flight instructor. It also includes a number of specialized courses that incorporate aviation business and management skills, safety, human factors, aerodynamics, aviation law and regulations, and crew resource management. The program includes a general education curriculum designed to provide a well-rounded knowledge foundation.

The aviation flight technology program has amendments to the basic aviation program designed to accommodate ROTC students planning on applying for military pilot training. The accommodations include the Eastern Michigan University U.S. Army ROTC

program and the Air Force or Naval ROTC programs located at the University of Michigan which may be attended by Eastern Michigan University students. Please contact the aviation flight technology program coordinator for further information.

Click here to watch a short video about this program.

A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Communication Technology Major

Communication Technology is a joint program offered by the School of Technology Studies and the Department of Communication, Media and Theatre Arts. This curriculum is designed to provide the background necessary for graduates to find employment as managers in communication-based industries. The program emphasis is on having the student acquire those business, manufacturing, media, computer and communication skills necessary for employment in today's communication technology industries and business organizations.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: <http://www.emich.edu/sts/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 65 hours

Media Production: 9 hours

- CTAT 130 - Introduction to Electronic Media 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs

One course from the following:

- CTAT 331 - Intermediate Radio Production and direction 3 hrs
- CTAT 332 - Intermediate Television Production and Direction 3 hrs

Transmission Systems: 9 hours

- CMT 305W - Communication Transmission Systems (Gen Ed Area I, W) 3 hrs
- CMT 408 - Telephone Technology 3 hrs
- ELEC 120 - Principles of Electrical Theory 3 hrs

Computer Technology: 12 hours

Choose one option from the following:

Option I: Computer Programming

- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 221 - Computer Organization I 3 hrs

- COSC 255 - Computer Hardware and Software Systems 3 hrs

Option II: Information Management

- IS 219 - File Processing and COBOL Programming 3 hrs
- IS 320 - Business Data Communications and Information Security 3 hrs
- IS 380 - Introduction to Databases 3 hrs

One course from the following:

- IS 417 - Systems Analysis and Design 3 hrs
- IS 442 - Information Resource Management 3 hrs

Option III: Graphic Applications

- CMT 205 - Digital Photo-Technology 3 hrs
- CMT 301 - Multimedia Authoring Techniques 3 hrs
- CMT 421 - Web Publishing Technology 3 hrs
- CMT 336 - Electronic Publishing Technology 3 hrs

Communication Theory and Practice: 6 hours

- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- CTAC 354 - Organizational Communication 3 hrs

Business and Investment Skills: 6 hours

- MKTG 360 - Principles of Marketing 3 hrs
- PSY 205 - Quantitative Methods in Psychology 3 hrs

Management Skills: 6 hours

- ACC 130 - Accounting for Nonbusiness Majors 3 hrs
- MGMT 202 - Business Communication 3 hrs

Interdisciplinary Technology: 17 hours

- CMT 121 - Graphic Communication 3 hrs
- CMT 131 - Introduction to Computer Graphic Systems 3 hrs
- CMT 387 - Co-operative Education 3 hrs
- CMT 409 - Emerging Technologies in Storage and Retrieval 3 hrs
- CMT 425 - Communication Technology and Social Change 3 hrs
- CMT 470 - Senior Seminar in Communication Technology 2 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Hotel and Restaurant Management Major

Hotel and restaurant management is a comprehensive program that integrates principles of hotel and restaurant management with club and resort management. The hotel and restaurant management program provides experiential educational opportunities in a wide variety of hospitality organizations through co-op or internships (contact an advisor). A wide variety of minors are available to meet the diverse needs of our students in meeting their career objectives. The program offers a bachelor of science, graduate certificate and master of science degree.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

Additional Requirements: 3 hours

- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

Major Requirements: 56 hours

Specialization Courses: 44 hours

- HRM 103 - Introduction to the Hospitality Industry 3 hrs
- HRM 150 - Sanitation in the Hospitality Industry 2 hrs
- HRM 180 - Food Production 3 hrs

- HRM 251 - Meal Service Management 3 hrs
- HRM 268 - Hotel Operations Management 3 hrs
- HRM 289 - Cooperative Education in Hotel and Restaurant Management 3 hrs
- HRM 340 - Cost Controls in the Hospitality Industry 3 hrs
- HRM 376 - Legal Aspects of the Hospitality Industry 3 hrs
- HRM 389 - Cooperative Education in Hotel and Restaurant Management 3 hrs
- HRM 410 - Human Resource Issues in the Hospitality Industry 3 hrs
- HRM 430 - Seminar in Hospitality Management 3 hrs
- HRM 441 - Commercial Purchasing 3 hrs
- HRM 450 - Meetings and Events Management 3 hrs
- HRM 470 - Hospitality Industry Marketing 3 hrs
- HRM 496 - Strategies in Hospitality Management 3 hrs

Elective Courses: 12 hours

CORRECTION: HRM 485 can be used as an elective

Twelve hours from the following:

- HRM 177 - Special Topics 1 hr
- HRM 178 - Special Topics 2 hrs
- HRM 179 - Special Topics 3 hrs
- HRM 270 - People Skills for the Hospitality Industry 3 hrs
- HRM 277 - Special Topics 1 hr
- HRM 278 - Special Topics 2 hrs
- HRM 279 - Special Topics 3 hrs
- HRM 330 - Hotel and Restaurant Management 3 hrs
- HRM 350 - Lodging Facilities Management 3 hrs
- HRM 360 - Franchising and Contract Management 3 hrs
- HRM 377 - Special Topics 1 hr
- HRM 378 - Special Topics 2 hrs
- HRM 379 - Special Topics 3 hrs
- HRM 396 - Club and Resort Management 3 hrs
- HRM 420 - Quality Service Management 3 hrs
- HRM 460 - Advanced Foodservice Management 3 hrs
- HRM 465 - Advance Topics in Hospitality Management 3 hrs
- HRM 475 - International Hospitality Management 3 hrs
- HRM 480 - Gaming and Casino Management 3 hrs
- HRM 497 - Independent Study 1 hr
- HRM 498 - Independent Study 2 hrs
- HRM 499 - Independent Study 3 hrs

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Industrial Distribution Major

The industrial distribution program emphasizes professional communication and is designed to provide graduates with the theoretical as well as practical applications today's industry is seeking. It develops graduates for career opportunities in industrial and technical sales, sales management, materials planning, quality assurance, purchasing, inventory control and branch/operations management. Students complete a set of required courses and either three concentrations, at least one of which must be technical, or a technical concentration and an academic minor in a related field which is chosen with adviser approval. The program is National Association of Industrial Technology accredited. Advising or additional information is available within the school.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

General Education Requirements:

For specific requirements refer to the General Education Program. [Download the Gen Ed Checklist here.](#)

Major Requirements: 66-75 hours

Correction: The minimum credit hours for this major is 70 not 66.

Required Courses: 43 hours

- ID 140 - Introduction to Wholesale Distribution 3 hrs
- ID 240 - Profit Strategies in Distribution 3 hrs
- ID 340 - Relationships in Wholesaling 3 hrs
- ID 345 - Marketing in Wholesale Distribution 3 hrs
- ID 346 - Industrial Climate 3 hrs
- ID 387 - Co-operative Education 3 hrs

- ID 391 - Wholesale Account Development 3 hrs
- ID 440 - Inventory Strategies in Distribution 3 hrs
- ID 444 - Quality Planning in Distribution 3 hrs
- ID 448 - Best Practices in Wholesale Distribution 3 hrs
- IS 215 - End-User Computing 3 hrs
- IS 350 - Enterprise Resource Planning 3 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

Concentrations: 27-36 hours

Students may select concentrations from the following:

General Concentrations:

- Communication (9 hrs)
- International Business (9 hrs)
- Management (12 hrs)
- Purchasing/Materials Management (12 hrs)
- Sales (12 hrs)
- Supply Chain Management (12 hrs)

Other concentrations with advisery approval.

Technical Concentrations:

- Apparel, Textiles and Merchandising (9 hrs)
- Electronics (9 hrs)
- Information Systems (9 hrs)
- Manufacturing (9 hrs)
- Pharmaceutical and Sales - Combined Concentration (24 hrs)

Other concentrations with advisery approval.

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Information Assurance Major

Individuals selecting the information assurance degree will have the flexibility to focus on a concentration of classes that will prepare them for employment after graduation or to take that next step to an advanced degree. There are four unique concentrations to this degree: IA management, applied IA, IA cryptography and network security/administration.

The unique interdisciplinary nature of information assurance requires a diverse educational approach. The purpose of this undergraduate interdisciplinary program is to:

1. Meet society's need for educated professionals in information assurance.
2. Provide graduates with the knowledge and skills required to protect the informational technology needs of society which includes all government branches and the private sector.
3. To propagate a new generation of research scientists in information assurance. As a National Security Agency (NSA) Center of Academic Excellence in Information Assurance Education, the program offers tremendous opportunities that are excellent preparation for an advanced degree in information assurance.

What is Information Assurance?

The term "information assurance" encompasses the scientific, technical and management disciplines required to ensure computer and network security, such as:

Systems/network administration and operation
 Systems security engineering
 Information assurance systems and product acquisition
 Cryptography
 Threat and vulnerability assessment (includes risk management)
 Web security
 Computer emergency response team operation
 Information assurance training, education and management
 Computer forensics
 Defensive information operations

NSA Center of Academic Excellence

Eastern Michigan University's Center of Academic Excellence is one the 106 federally designated Centers of Academic Excellence in Information Assurance Education in the nation. This valued designation provides students with a wealth of research, scholarship and educational opportunities. The National Centers of Academic Excellence in Information Assurance Education (CAEIAE) program is an outreach program designed and operated by the National Security Agency (NSA) and the Department of Homeland Security (DHS) in support of the President's National Strategy to Secure Cyberspace. The goal of the program is to reduce vulnerability in our national information infrastructure by promoting higher education in information assurance.

All incoming students will take a placement examination prior to enrolling in IA 300-level courses. This examination will be offered on-line and available for the student to take.

For more information, please visit the program website.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: <http://www.emich.edu/sts/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 93 hours

Foundation Courses: 42 hours

- COSC 146 - Applied Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- IA 103 - Information Security Overview 3 hrs
- IA 202L - Risk-Vulnerability Analysis (Gen Ed Area V LBC) 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- IA 212 - Open Systems Platform and Network Administration 3 hrs
- IA 213 - Privacy and Technology 3 hrs
- IA 215 - System Support and Troubleshooting 3 hrs
- IA 240 - Intelligence Analysis I 3 hrs
- IA 329 - Policy Development in Information Assurance 3 hrs
- LEGL 320 - Cyber Law and Compliance 3 hrs
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

One course from the following: 3 hours

- CTAC 224 - Public Speaking 3 hrs
- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- CTAC 350 - Persuasion 3 hrs

Choose one concentration from the following:

Information Assurance Management: Concentration for Second Admission

Information assurance management will enable the student to focus on management of information systems. The practice of vulnerability, risk, countermeasures and ethics enable the IA manager to meet cyber security in the 21st century. The management of information in today's business, industry, government, education and other related fields is how persons in

positions of trust manage information systems and apply secure computing to their business enterprise. This concentration of study will enable that management oriented student to apply secure computing concepts in the protection of cyberspace.

Concentration Courses: 42 hours

- IA 343 - Intelligence Analysis II 3 hrs
- IA 344 - Administration of Computer Systems 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 422 - Networks: Planning and Design 3 hrs
- IA 425 - Cyber Crime Investigation I 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 480 - SQL Database Security 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 403 - Managerial Communication: Theory and Application 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Applied Information Assurance: Concentration for Second Admission

Applied information assurance management prepares the student with hands-on applications for analysis, prevention, deterrence and countermeasures of information security and integrity in the global arena. Students who select this concentration of study will find that hands-on application will enable them to embrace the concepts studied in lecture format and apply those concepts in a laboratory setting. This concentration also provides an opportunity to conduct directed research as a final project.

Concentration Courses: 42 hours

- COSC 374 - Applied Cryptography 3 hrs
- IA 343 - Intelligence Analysis II 3 hrs
- IA 344 - Administration of Computer Systems 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 412 - Linux Security Administration 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 425 - Cyber Crime Investigation I 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 428 - Digital Forensics II 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 455 - Incident Response 3 hrs
- IA 480 - SQL Database Security 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Information Assurance Encryption: Concentration for Second Admission

The sustained and rapid advance of information technology in the 21st century dictates the adoption of a flexible and adaptable cryptographic strategy for protecting national security information. This strategy complements the existing policy for the use of the advanced encryption standard (AES) to protect national security systems and information as specified in The National Policy on the Use of the Advanced Encryption Standard (AES) to Protect National Security Systems and National Security Information (CNSSP-15)

Over the past 30 years, public key cryptography has become a mainstay for secure communications over the Internet and throughout many other forms of communication. It provides the foundation for both key management and digital signatures. In key management, public key cryptography is used to distribute secret keys used in other cryptographic algorithms (e.g., DES). For digital signatures, public key cryptography is used to authenticate the origin of data and protect the integrity of that data. For the past 20 years, Internet communications have been secured by the first generation of public key cryptographic algorithms developed in the mid-1970s. Notably, they form the basis for key management and authentication for IP encryption (IKE/IPSEC), Web traffic (SSL/TLS) and secure electronic mail.

Information assurance encryption will prepare the students for master's or doctoral work. The student may want to teach upon completion of the degree or enter into the area of information security research. This block also provides an opportunity to conduct directed research as a final project.

Concentration Courses: 42 hours

- COSC 314 - Computational Discrete Structures 3 hrs
- COSC 374 - Applied Cryptography 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 415 - Introduction to Research in Information Assurance 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 480 - SQL Database Security 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 205 - Mathematical Structures for Computer Science 4 hrs
- MATH 319 - Mathematical Modeling 3 hrs
- * MATH 409 - Cryptology 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Information Assurance Network Security/Administration: Concentration for Second Admission

The Network Security and Administration concentration prepares the student with hands-on applications for administration, design, and implementation of secure computer networks. Students will learn to administer network environments to be scalable, secure and available. Student work will center on best practice administration across Microsoft, Open Source and CISCO

products. Students will implement these products and build countermeasures for defending services that underpin the product solution. Students who select this concentration of study will find that hands-on application of classes will enable them to embrace the concepts studied in lecture format and apply those concepts in a laboratory setting. This concentration also provides an opportunity to conduct research as a final project.

Concentration Courses: 42 hours

- IA 344 - Administration of Computer Systems 3 hrs
- IA 350 - Network Connectivity 3 hrs
- IA 354 - Multi-Level Networking 3 hrs
- IA 364 - Advanced Windows Security 3 hrs
- IA 400 - Malware Analysis and Reverse Engineering 3 hrs
- IA 412 - Linux Security Administration 3 hrs
- IA 422 - Networks: Planning and Design 3 hrs
- IA 427 - Digital Forensics I 3 hrs
- IA 430 - Network Forensics 3 hrs
- IA 445 - Ethical Hacking and Offensive Security 3 hrs
- IA 455 - Incident Response 3 hrs
- IA 480 - SQL Database Security 3 hrs
- IA 495 - Networks: Implementation and Evaluation 3 hrs

And one of the following:

- IA 387 - Cooperative Education 3 hrs
- IA 416 - Applied Research Project 3 hrs

Electives: 9 hours

Student may select any course from other concentrations (above) as an elective. Suggested electives are:

- BMMT 396 - Information and Media Administration 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- CMT 305W - Communication Transmission Systems (Gen Ed Area I, W) 3 hrs
- COSC 105 - Everyday Computing and Social Responsibility 3 hrs
- IA 426 - Cyber Crime Investigation II 3 hrs
- IA 429 - Enterprise Digital Analysis 3 hrs
- IA 441 - Foreign and Domestic Terrorism and Information Warfare 3 hrs
- IA 442 - Cyber Intelligence 3 hrs
- MGMT 202 - Business Communication 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

** Student must complete math sequence prior to taking Cryptology.*

Additional courses may be required as some of the "Concentrations" include courses with prerequisites that are not included in the program.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Technology and Engineering Teacher Preparation Major

The technology and engineering teacher preparation major prepares teachers of technology education for grades K-12.

This major must be completed in conjunction with the technology education curriculum. Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in technology and design, certification code TX. The Michigan Test for Teacher Certification (MTTC) covering this field is #088, "Technology and Design."

Graduates may qualify for a vocational endorsement by completing BMMT 200 - Principles of Career and Technical Education and BMMT 363 - Curriculum for Career and Technical Education, and have two years of occupational experience in employment related to the area of study. Options for cooperative work experience are available to students as partial credit toward that occupational requirement.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 48-50 hours

- TEDU 110 - Teaching Impacts of Technology (3 hrs)
- TEDU 340 - Teaching Introduction to Engineering Design (3 hrs)

- CNST 201 - Construction Systems 3 hrs
- ELEC 200 - Circuit Analysis I 3 hrs
- ELEC 214 - Digital Circuit Analysis I 3 hrs
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs
- MFG 140 - Science, Technology and People 3 hrs
- PDD 111 - Materials 3 hrs
- PDD 123 - Manufacturing Processes 4 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- TEDU 250 - Foundations of Technology, Vocational, and Engineering Teacher Education 3 hrs
- TEDU 345 - Teaching Energy and Transportation in Technology and Engineering Teacher Education 3 hrs
- TEDU 350 - Curriculum in Technology, Vocational, and Engineering Teacher Education 3 hrs
- TEDU 450 - Capstone in Technology and Engineering Teacher Education 3 hrs

Technical Concentration: 2-4 hours

Choose 2-4 hours from the following:

- CMT 121 - Graphic Communication 3 hrs
- CMT 131 - Introduction to Computer Graphic Systems 3 hrs
- CMT 427 - Digital Imaging and Reproduction 3 hrs
- CMT 470 - Senior Seminar in Communication Technology 2 hrs
- CNST 125 - Introduction to Construction 2 hrs
- ELEC 314 - Digital Circuit Analysis II 3 hrs
- PDD 101 - Introduction to Industrial Drawing 3 hrs
- PDD 122 - Engineering Graphics 4 hrs
- PDD 325 - Applied Statics and Strength of Materials 4 hrs
- SAG 105 - Introduction to Simulation, Animation and Gaming 3 hrs
- SAG 175 - Graphics for Simulation I 3 hrs
- SAG 225 - Graphics for Simulation II 3 hrs
- SAG 235 - Flash I 3 hrs
- SAG 285 - Studio I Simulation 3 hrs
- TEDU 104 - Modeling, Automation, and Energy 3 hours
- TEDU 107 - Flight, Electronics, and Science of Technology 3 hrs

Professional Studies: 31 hours

Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 6 hours

Prerequisite: Completion of Pre-Admission Phase is required.

- EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs
- TEDU 460 - Methods of Teaching Technology, Vocational, and Engineering Education 3 hrs

Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors. Students who have at least 4,000 hours of work experience (2 years) and/or 18 credits in an occupational area related to automotive, construction, drafting/CAD, Electricity, graphics, machining, or radio and TV broadcasting may want to consider the Vocational Technical Endorsement Minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Paralegal Major

The paralegal major focuses on the skills necessary for the graduate to work under the supervision and direction of an attorney with the understanding that the practice of law by lay persons is strictly prohibited. Students get inside the law and develop skills including proficiency in legal research, writing and analysis, drafting legal instruments and pleadings, interviewing clients and witnesses, doing discovery, preparing for trial and using computer-assisted research tools. Employment opportunities are excellent in law firms, corporations, banks, human resource offices, hospitals, state and federal governments and court systems. This major offers professional training and lays a foundation for a career in the legal field. It also qualifies as a pre-law major. This program is approved by the American Bar Association.

For students who have earned a prior degree, the paralegal major can be pursued through a second bachelor's degree. The completion of 50 hours of study is required for the second bachelor's degree. These 50 hours must include the required courses and the business and information processing core. The remaining hours are to be selected from either restricted University elective courses or University elective courses.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

[Click here](#) to watch a short video about this program.

Secondary Admission and Retention Policy

Students who wish to be Paralegal (Legal Assistant) Studies Program majors must apply for admission to the program. Students may be admitted to the program in the fall or winter terms. Applications for a winter term will be due by Dec. 1 of the preceding fall term. Applications for a fall term will be due by April 1 of the preceding winter term.

Program Admission

Program admission criteria are:

1. Admission to the University as an undergraduate or second bachelor's degree candidate;
2. * Completion of ENGL 121 with a grade of B or higher;
3. Completion of LEGL 211 - Introduction to Paralegalism and Legal Terminology, with a grade of B- or higher;
4. Completion of LEGL 304W - Legal Writing, Research and Analysis I with a grade of C+ or higher; and
5. A cumulative GPA of at least 2.5 on a 4.0 scale.

Students satisfying these criteria are eligible to apply for admission to the program, but admission is not guaranteed.

Program Retention Policy

In addition to secondary admission requirements, program majors will be required to:

1. Complete each program core course (e.g., all courses having a LEGL prefix [except LEGL 211 and LEGL 304W — see above]), with a minimum grade of C;
2. ** Maintain a cumulative GPA of at least 2.5 on a 4.0 scale
3. ** Maintain a GPA within the major of at least 2.5 on a 4.0 scale

Notes:

** Students applying for admission to the program as second bachelor's degree candidates must present evidence of having completed an acceptable college-level English composition course with a grade of B or higher. A remedial English composition or writing course is not an acceptable college-level English composition course.*

*** A student whose cumulative GPA or cumulative major GPA falls below 2.5 will be placed on program probation for the next succeeding term. If the student fails to raise his or her cumulative GPA, cumulative major GPA or both to 2.5 or higher with the grades earned during the probationary term, the student will be dismissed from the program. For purposes of this policy, a student who is placed on program probation as the result of a deficient GPA at the close of a winter term will have until the close of the next fall term to raise his or her GPA to 2.5 or higher. If a student earns lower than a C in any program core course (except LEGL 211 and LEGL 304W — see above), the student will be allowed to repeat the course twice. If the student fails to earn a C or better in the repeated courses, the student will be dismissed from the program.*

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 6 hours

Option I:

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

Option II:

- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
- SOCL 202 - Social Problems 3 hrs

Major Requirements: 69-72 hours

Required Courses: 33-36 hours

- LEGL 211 - Introduction to Paralegalism and Legal Terminology 3 hrs
- LEGL 212 - Law Office Administration and Technology 3 hrs
- *** LEGL 304W - Legal Writing, Research and Analysis I (Gen Ed Area I, W) 3 hrs
- LEGL 305 - Advanced Legal Writing, Research and Analysis II 3 hrs
- LEGL 400 - Advanced Legal Writing, Research and Analysis III 3 hrs
- LEGL 311 - Probate, Estates and Wills 3 hrs
- LEGL 313 - Family Law 3 hrs
- LEGL 404 - Court Rules, Forms and Drafting Contracts 3 hrs
- LEGL 405 - Civil Litigation, Investigation and Procedure I 3 hrs

- LEGL 406 - Civil Litigation, Investigation and Procedure II 3 hrs
- ** LEGL 416 - Legal Assistant Internship 3-6 hrs

Restricted Elective Courses: 21 hours

21 hours from the following or any other law-related course with department permission:

- BMMT 220 - Word/Information Processing Operations 3 hrs
- BMMT 396 - Information and Media Administration 3 hrs
- BMMT 497 - Independent Study 1 hrs
- BMMT 498 - Independent Study 2 hrs
- BMMT 499 - Independent Study 3 hrs
- CTAC 357 - Interviewing as Communication 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- LAW 393 - Law of Business Enterprises 3 hrs
- LAW 403 - Employment Law 3 hrs
- LEGL 278 - Special Topics 2 hrs
- LEGL 279 - Special Topics 3 hrs
- LEGL 315 - Land Transaction and Real Estate for Paralegals 3 hrs
- LEGL 379 - Special Topics 3 hrs
- LEGL 320 - Cyber Law and Compliance 3 hrs
- LEGL 414 - Legal Assistance Center Clinical Experience 3 hrs
- LEGL 415 - Bankruptcy Law 3 hrs
- LEGL 418 - Women and Law 3
- LEGL 478 - Special Topics 2 hrs
- LEGL 479 - Special Topics 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- PHIL 355W - Philosophy of Law (Gen Ed Area I, W) 3 hrs
- PLSC 301 - American Legal System 3 hrs
- PLSC 312 - Constitutional Law: Institutions and Process 3 hrs
- PLSC 313 - Constitutional Law: Civil Rights and Liberties 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 385 - Judicial Process and Behavior 3 hrs
- PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs
- PLSC 456 - Criminal Law I 3 hrs
- STS 202 - Disabled in the U.S.A. - Rights, Prejudice, Claims and Responsibilities 3 hrs

Business and Information Processing Core: 15 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- BMMT 201 - Microcomputers for Business Applications 3 hrs
- BMMT 396 - Information and Media Administration 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- * STS 224 - Solving Quantitative Problems in Technology (Gen Ed Area II) 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Select one option from the following:

Note:

* This course meets the "Quantitative Reasoning" requirement.

** These courses meet the "Learning Beyond the Classroom" requirement.

*** LEGL 304W meets the writing intensive requirement.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.

institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Business, Management, Marketing and Technology Major (with Minor)

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in Business, Management, Marketing and Technology, certification code GQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #098, "Business, Management, Marketing and Technology." In addition, upon meeting the requirements according to the current Michigan State Plan, it leads to a vocational endorsement. The program prepares prospective teachers in the areas of information processing and management, administrative services, accounting and computing, and basic business such as economics, consumer economics, business law, business management, computer literacy and introduction to business.

Important BMMT Information

1. There is a 36 credit hour requirement for BMMT and this major requires a teachable minor. The Vocational Minor is recommended, however any teachable minor may be approved.
2. Students are required to take ECON 201 as part of their general education degree requirements. See the Additional Requirements core listed below.
3. A vocational endorsement in either Business (VB) or Marketing (VM) requires work experience which meets state requirements. Hours must be recent, relevant and of appropriate duration. With approved work experience, a person may receive vocational endorsements in both areas.
4. Students must earn a C or better in all of the following courses: writing, speech, math, lab science, and all professional education courses. A C- (or lower) is not acceptable and needs to be addressed immediately.
5. Post-Baccalaureate students that take ACC 501 for the business core will need to choose an alternative elective in the College of Business.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.

4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program .

Vocational Endorsement Requirements

A combination of work experience may be used for both Vocational Business (VB) and Vocational Marketing (VM); however, hours can only be used once. All hours must be verified by the BMMT Program Coordinator (or coordinator's selected assignee) using designated documents (i.e. personal records, tax documents, Social Security records, etc.).

Required Work Experience:

Work (within last 6 years)

- Option I: 4,000 hours total (2 years) (evidence required)
- Option II: 2,000 hours total + one semester EMU co-op course work
- Option III: 3,000 hours total + MOCAC Test (qualifies for 1,000)

Required Courses: 6 hours

- * BMMT 200 - Principles of Career and Technical Education 3 hrs
- * BMMT 363 - Curriculum for Career and Technical Education 3 hrs

Additional Requirements: 8 hours

- BMMT 123 - Word Processing/Keyboarding Applications 2 hrs
- BMMT 201 - Microcomputers for Business Applications 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs

Major Requirements: 36 hours

Business Core: 9 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- BMMT 100 - Contemporary Business 3 hrs

Undergraduates choose one course from the following:

- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 296 - The Accounting Cycle and Profession 3 hrs

Post-Baccalaureates choose one course from the following:

- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 501 - Accounting Principles 3 hrs

Management Core: 9 hours

One course from the following:

- LAW 293 - Legal Environment of Business 3 hrs
- LAW 503 - Legal Environment of Business 3 hrs

One course from the following:

- BMMT 250 - Personal Finance 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- FIN 502 - Financial Principles 3 hrs

One course from the following:

- MGMT 384 - Human Resource Management 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- TM 212 - The Management of Technological Change 3 hrs

Marketing Core: 9 hours

One course from the following:

- MKTG 360 - Principles of Marketing 3 hrs
- MKTG 510 - Marketing Management 3 hrs

Choose two courses from the following:

- Any other pre-approved Marketing course not listed below (3 hrs)
- MKTG 261 - Contemporary Selling 3 hrs
- MKTG 363 - Retailing 3 hrs
- MKTG 368W - Marketing Strategy (Gen Ed Area I, W) 3 hrs
- MKTG 369 - Advertising 3 hrs
- MKTG 374 - Business to Business Marketing 3 hrs
- MKTG 461 - Sales Management 3 hrs

Information Technology Core: 9 hours

- Any other pre-approved Information or Communication Technology course not listed below (3 hrs)
- BMMT 321 - Digital Tools: Communication 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- CMT 421 - Web Publishing Technology 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 10 hours

Prerequisite: Sophomore standing or higher.

- * BMMT 200 - Principles of Career and Technical Education 3 hrs
- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 11 hours

Prerequisite: Completion of Pre-Admission Phase is required.

- * BMMT 363 - Curriculum for Career and Technical Education 3 hrs
- BMMT 366 - Methods of Teaching Marketing Education 2 hrs
- EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

** These two courses must be taken together.

- ** PRCT 311 - Practicum II: Secondary 3 hrs
- ** RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Business, Management, Marketing and Technology Majors take:

- BMMT 360 - Methods of Teaching General Business and Office Education 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors (the Vocational Minor is recommended).

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

** These courses need only be taken once to count for Vocational Endorsement and Professional Education cores.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses**

will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Simulation, Animation and Gaming Major

[Click here to watch a short video about this program.](#)

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: <http://www.emich.edu/sts/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Required Courses: 54 hours

- ARTS 121 - Two-Dimensional Design 3 hrs
- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- CMT 131 - Introduction to Computer Graphic Systems 3 hrs
- CMT 205 - Digital Photo-Technology 3 hrs
- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 215 - Scientific Simulation 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 486 - Organizational Change and Team Building 3 hrs
- SAG 105 - Introduction to Simulation, Animation and Gaming 3 hrs
- SAG 175 - Graphics for Simulation I 3 hrs
- SAG 225 - Graphics for Simulation II 3 hrs
- SAG 235 - Flash I 3 hrs
- SAG 245 - Story Development 3 hrs
- SAG 285 - Studio I Simulation 3 hrs
- STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W) 3 hrs

Select from either Cognate A or Cognate B:

Cognate A: 18 hours

This cognate allows students to continue in the graphic and design aspect of simulation, animation and gaming.

Required Courses: 15 hours

- SAG 275 - Texturing and Mapping 3 hrs
- SAG 305 - Environment Design 3 hrs
- SAG 355 - Lighting and Camera Techniques 3 hrs
- SAG 375 - Studio II 3 hrs
- SAG 470 - Simulation and Animation Dynamics 3 hrs

Capstone Experience: 3 hours

- COSC 485 - Senior Projects in SAG 3 hrs
or
- SAG 485 - Senior Projects in SAG 3 hrs

Cognate B: 23 hours

This cognate allows the students to pursue their final two years in the Computer Science Department, learning the programming languages needed to succeed in the SAG profession. The courses in this cognate utilize existing courses within the department.

- COSC 221 - Computer Organization I 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs
- COSC 456 - Computer Graphics 3 hrs
- COSC 457 - Computer Game Programming 3 hrs
- COSC 461 - Heuristic Programming 3 hrs
- COSC 481W - Software Engineering and Senior Project (Gen Ed Area I, W) 3 hrs
- COSC 486 - Cooperative Education in Computer Science 1 hrs
- MATH 205 - Mathematical Structures for Computer Science 4 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

University Information: Consult the online catalog at catalog.emich.edu.

Technology Management Major

The technology management program is designed for transfer students with an associate of applied science degree. The interdisciplinary curriculum provides the necessary foundation to meet the changing needs of management in a variety of fields; ranging from business and health to criminal justice, environmental sciences, automotive technology and computer service technology.

An active articulation agreement exists between this program and several community colleges. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

More information about this major can be found at the program website.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
 School Contact: wade.tornquist@emich.edu
 Website: <http://www.emich.edu/sts/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 9-12 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

One course from the following:

- MATH 118 - Linear Models and Probability (Gen Ed Area II) 3 hrs
- STS 224 - Solving Quantitative Problems in Technology (Gen Ed Area II) 3 hrs

Must take this course or a proficiency exam:

- STS 201 - Microcomputer Applications in Technology 3 hrs

Major Requirements: 60-79 hours

Core Courses: 18 hours

- TM 130 - Introduction to Technology Management 3 hrs
- TM 212 - The Management of Technological Change 3 hrs
- TM 311 - Information Technology Management and Organizations 3 hrs
- TM 314W - A Socio-Technical Systems Approach to Process Improvement (Gen Ed Area I, W) 3 hrs
- TM 402 - Technology Project Management 3 hrs
- TM 415 - Senior Seminar in Technology Management 3 hrs

Technology Management Elective Courses: 12-15 hours

Choose four of the following. At least one must be a 300- or 400-level course.

- ACC 130 - Accounting for Nonbusiness Majors 3 hrs
- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- ACC 358 - Analysis of Financial Statements 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- LAW 403 - Employment Law 3 hrs
- MGMT 384 - Human Resource Management 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs

- MKTG 369 - Advertising 3 hrs
- MKTG 473 - Marketing and Product Innovation 3 hrs
- TM 306 - Quantitative Analysis of Sustainability Issues (Gen Ed Area II) 3 hrs
- TM 308 - Seminar in Technological Impacts 3 hrs
- TM 377 - Special Topics 1 hr
- TM 378 - Special Topics 2 hrs
- TM 379 - Special Topics 3 hrs
- TM 387 - Cooperative Education 3 hrs
- TM 477 - Special Topics 1 hr
- TM 478 - Special Topics 2 hrs
- TM 479 - Special Topics 3 hrs

Technical Concentration 30-46 hours

The following technical specializations from two-year institutions may be transferable into this concentration. These technical specializations will include, but are not limited to, the following areas:

Automotive service technology
 Biomedical engineering technology
 Computer service technology
 Correctional science
 Criminology
 Emergency medical technician
 Environmental technology
 Fire technology
 Fluid power technology
 Graphic design technology
 Health information technology
 Laser-electro optics
 Photographic technology
 Public Safety technology
 Refrigeration and air conditioning technology
 Telecommunication technology

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Minor

Administrative Management Minor

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: <http://www.emich.edu/sts/>

Required Courses: 12 hours

- BMMT 310 - Word/Information Processing Administration 3 hrs
- BMMT 387 - Co-operative Education 3 hrs
- BMMT 395 - Administering Workplace Systems and Technology 3 hrs
- BMMT 396 - Information and Media Administration 3 hrs

Restricted Elective Courses: 9 hours

Nine hours from the following:

- BMMT 220 - Word/Information Processing Operations 3 hrs
- BMMT 496 - Records Administration Using Database 3 hrs
- HLAD 305 - The U.S. Health Care System 3 hrs
- HLAD 310 - Administration of Health Care Organizations 3 hrs
- HLAD 425 - Decision Making for Health Administrators 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- LEGL 211 - Introduction to Paralegalism and Legal Terminology 3 hrs
- LEGL 212 - Law Office Administration and Technology 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs
- MGMT 480W - Management Responsibility and Ethics (Gen Ed Area I, W) 3 hrs
- IA 210 - Concepts of Network and Business Technology 3 hrs
- STS 202 - Disabled in the U.S.A. - Rights, Prejudice, Claims and Responsibilities 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Apparel, Textiles and Merchandising Minor

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: <http://www.emich.edu/sts/>

Required Courses: 9 hours

- ATM 118 - Apparel Studio 3 hrs
- ATM 145 - Introduction to Apparel and Textile Merchandising 3 hrs
- ATM 255 - Apparel Analysis 3 hrs

Restricted Elective Courses: 12 hours

One course from each of the following areas:

I. Construction skills:

- ATM 302 - Fashion Manufacturing Techniques 3 hrs
- ATM 392 - Pattern Design 3 hrs
- ATM 460 - Tailoring 3 hrs

II. Methodology:

- ATM 390 - Visual Merchandising 3 hrs

III. Social-psychological-historical:

- ATM 135 - Cultural Study of Dress 3 hrs
- ATM 380 - Fashion of the Haute Couture 3 hrs

IV. Textiles application:

- ATM 119 - Early American Textiles 3 hrs
- ATM 265 - Merchandising of Interior Furnishings 3 hrs
- ATM 404 - Textiles for Merchandising 3 hrs

Graphic Communication Minor

This minor is designed to provide technical communication skills to majors in fields such as graphic design and journalism. The electives in the minor are diverse and extensive enough to allow for individual flexibility.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
School Contact: wade.tornquist@emich.edu
Website: <http://www.emich.edu/sts/>

Required Courses: 12 hours

- CMT 104 - Introduction to Communication Technology 3 hrs
- CMT 121 - Graphic Communication 3 hrs
- CMT 204 - Photographic Communication 3 hrs
- CMT 427 - Digital Imaging and Reproduction 3 hrs

Elective Courses: 11-12 hours

Electives selected with an adviser to equal 11-12 credit hours from the areas of:

Communication Technology
Art
Telecommunication and Film
Written Communication
Journalism/ Public Relations
Interior Design
BMMT
CAD/CAM
ELEC
Advertising
Marketing/Management

Minor Requirements: 23-24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

Secondary Education Vocational Technical Endorsement Minor

Successful completion of this program, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate, endorsed in Vocational Technical, certification code VT. The student also qualifies for the Interim Occupational Certificate.

School of Technology Studies Information:

Interim School Director: Wade Tornquist
 School Contact: wade.tornquist@emich.edu
 Website: <http://www.emich.edu/sts/>

Adviser Information:

Program Adviser: Ron Fulkert
 Email: ron.fulkert@emich.edu
 Phone: 734.487.4330

Required Work Experience:

Work (within last 5 years)

- Option I: 4,000 hours total (2 years)
- Option II: 2,000 hours total + one semester EMU co-op course work, + MOCAC/NOCTI test

Required Courses: 6 hours

- BMMT 200 - Principles of Career and Technical Education 3 hrs
- BMMT 363 - Curriculum for Career and Technical Education 3 hrs

Select a concentration from the following: 18 hours

Whenever possible, courses should be taken at EMU. Credits to satisfy this requirement may be taken at another institution. Students must meet with adviser to ensure coursework satisfies concentration area.

- 47.0604 - Automotive Technician Concentration
- 47.0603 - Collision Repair Technician Concentration
- 46.0000 - Construction Trades Concentration
- 15.1301 - Drafting & Design Concentration
- 47.0101 - Electrical/Electronics Concentration
- 15.0000 - Engineering and Technology Concentration
- 10.0301 - Graphics/Visual Communications Concentration
- 48.0501 - Machine Tool Operation Concentration
- 47.0613 - Medium/Heavy Truck Technician Concentration
- 10.0202 - Radio & TV Broadcasting Concentration
- 48.0508 - Welding, Braising, and Soldering Concentration

Minor Total: 24 hours

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.

University Information: Consult the online catalog at catalog.emich.edu.

Apparel Textiles Merchandising

ATM 105 - Integrated Arts

The application of design elements and principles to human and contemporary environmental needs.

Credit Hours: 3 hrs

Lecture/Lab Hours: Laboratory required

ATM 118 - Apparel Studio

Apparel construction using a commercial pattern. Emphasis is placed on fabric selection, fit and techniques.

Credit Hours: 3 hrs

ATM 119 - Early American Textiles

Survey of textiles used in early history of North America; laboratory experience allow students to develop skills in spinning wool and flax, traditional weaving and natural dyeing.

Credit Hours: 3 hrs

ATM 135 - Cultural Study of Dress

A study of the social, psychological and physical aspects of dress as related to culture, society and the individual.

Credit Hours: 3 hrs

ATM 145 - Introduction to Apparel and Textile Merchandising

Analysis of the apparel and textiles industry from the designing to distribution through major domestic and foreign markets. Emphasis is placed on fashion trends and cycles, history of merchandising and careers.

Credit Hours: 3 hrs

ATM 177 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

ATM 178 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

ATM 179 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

ATM 200 - Aesthetics and Design for the Apparel Industry

This course will explore current and historical trends in design and aesthetics within and related to the apparel and merchandising industry. Concept development in visual design is the primary focus. Students will work individually and in teams to develop concepts and presentations in multiple media.

Credit Hours: 3 hrs

ATM 210 - Display Techniques

Study and evaluation of visual presentations for store interiors and window displays for fashion retailing, educational and trade exhibits. Basic principles of design, as applied to merchandise displays are examined. Provides a hands-on opportunity to create window display designs with other students in campus buildings and the local community.

Credit Hours: 3 hr

Prerequisite: ATM 105

Last Updated: 2/28/2011

ATM 212 - Textile Science I: Fibers & Yarns

This course is an intensive study of natural and man-made fibers and yarns. Both fiber production methods and properties are discussed. Yarn classifications, construction and production are also taught. Both swatch book exercise and laboratory practice are utilized for hands on training. All fibers and yarns used in apparel, furnishing and technical textiles are covered.

Credit Hours: 3 hrs

ATM 255 - Apparel Analysis

A study of the components of apparel at the various price and quality levels. Emphasis placed on standard terminology necessary to describe/evaluate apparel.

Credit Hours: 3 hrs

Lecture/Lab Hours: Laboratory required

Prerequisite: ATM 118

Last Updated: Prerequisite Change 11/2011, effective Winter 2012; Links 02/2011

ATM 265 - Merchandising of Interior Furnishings

Study of fashion marketing practices, buying techniques, and promotional activities as they relate to home furnishings industries

Credit Hours: 3 hrs

Notes: Field trips required

ATM 271 - Woven Structures and Design

Practical applications in current technologies in woven fabric design and construction, including the history of technological developments in the design and development of woven structures.

Credit Hours: 3 hrs

ATM 277 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

ATM 278 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

ATM 279 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

ATM 302 - Fashion Manufacturing Techniques

Experiences and analysis of apparel and textile product production. Includes selection of commercial equipment and textiles.

Credit Hours: 3 hrs

Prerequisite: ATM 118

Last Updated: 2/28/2011

ATM 312 - Textile Science II: Fabric Formation, Dyeing and Finishing

This course deals with the formation of fabric by different technologies including weaving, knitting, braiding and nonwoven. Color science and textile dyeing are also taught.

Credit Hours: 3 hrs

Concurrent Prerequisite: ATM 145 and ATM 212

Class Restrictions: Sophomore standing or above

Last Updated: 2/28/2011

ATM 345 - Merchandise Planning and Control

Applications of merchandising mathematical concepts to buying functions and activities. Major focus on problem solving.

Credit Hours: 3 hrs

Prerequisite: ATM 145

Notes: Field trips required

Last Updated: 2/28/2011

ATM 355 - Application of Merchandising Practices

Adaptation of apparel and textile merchandising concepts (ATM345) to computer systems. Development of processing tasks using specific merchandising information, utilizing the computer for simulation problem solving.

Credit Hours: 3 hrs

Prerequisite: COSC 101 or IHHS224

Last Updated: 2/28/2011

ATM 371 - Textiles for Interior Design

Textiles for Interior Design is a study of textile fibers, yarns and fabrics that are used in interior furnishing. Selection of textile for interior based on durability, aesthetics, safety and environmental issues are discussed. The course includes lab sections on fiber identification and fabric analysis for properties and design.

Credit Hours: 3 hrs

Class Restrictions: Junior and Senior students only

ATM 372 - Design and Production of a Fashion Show

Students work as a team to design, develop and produce a fashion show. Emphasis is on project development, including budget, scheduling, communication, management, leadership and synthesis of program area skills.

Credit Hours: 3 hrs

Prerequisite: ATM 145

Notes: Students may repeat this course.

Last Updated: 2/28/2011

ATM 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

ATM 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

ATM 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

ATM 380 - Fashion of the Haute Couture

A detailed study of 20th-century American and European fashion and its relationship to identifiable costumes of the past with emphasis on haute couture

Credit Hours: 3 hrs

Notes: Field trip required

ATM 390 - Visual Merchandising

Analysis of visual media and techniques used in presentation of merchandise in a variety of settings. Laboratory participation integrates theory and practice.

Credit Hours: 3 hrs

Prerequisite: ATM 105

Last Updated: 2/28/2011

ATM 392 - Pattern Design

Principles of pattern making, and special problems in clothing construction and design.

Credit Hours: 3 hrs

Prerequisite: ATM 118 or equivalent

Last Updated: 2/28/2011

ATM 404 - Textiles for Merchandising

Recent technological developments in textiles; textile testing techniques.

Credit Hours: 3 hrs

Prerequisite: ATM 118 and one laboratory science course

Last Updated: Prerequisite Change 11/2011, effective Winter 2012; Links 02/2011

ATM 437 - Professional Seminar

Exploration of professional aspects of merchandising. Emphasis on career preparation. Presentation of fashion related enterprises. Lectures by specialists.

Credit Hours: 3 hrs

Concurrent Prerequisite: ATM 355 can be taken concurrently

Class Restrictions: Senior standing

Notes: Field trips required

Last Updated: 2/28/2011

ATM 439 - Fashion Markets

Comprehensive overview of the world fashion markets with emphasis on their development, operation and contribution; includes a trip to one fashion-related market.

Credit Hours: 3 hrs

Prerequisite: department permission

ATM 460 - Tailoring

Fundamental construction processes and special techniques applied to the construction of tailored garments; alterations and adaptations.

Credit Hours: 3 hrs

Prerequisite: ATM 118 or equivalent

Last Updated: 2/28/2011

ATM 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hrs

Prerequisite: department permission

ATM 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

ATM 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

ATM 487 - Field Experience

Supervised field experiences working with family social agencies and/or businesses in the area of specialization emphasizing professional competencies and self-evaluation. Sections of course offered for specialization areas as needed. International students need a work permit before registration.

Credit Hours: 3 hrs

Prerequisite: department permission

Class Restrictions: Senior standing

ATM 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hrs

Prerequisite: department permission

ATM 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

ATM 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Aviation Technology

AVT 100 - Introduction to Air Transportation

This course is designed to provide a basic understanding of the operational categories within civil aviation and the functions of state and federal government in its control and regulation. The history, scope, and diverse nature of aviation will be discussed, together with some of the many occupational opportunities available.

Credit Hours: 3 hrs

AVT 110 - Aircraft Maintenance I

The functions and roles of maintenance procedures in an aviation maintenance organization structure.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

AVT 120 - Flight Operations I

The role of aviation in general aviation and the interface with regulatory agencies and parent organizations.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

AVT 170 - Aviation Ground Instruction

Basic ground instruction in aerodynamics, navigation, federal aviation regulations, meteorology, and flight procedures directed toward preparation for the private pilot written examination.

Credit Hours: 3 hrs

AVT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

AVT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

AVT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

AVT 208 - Aviation Human Factors

A course designed to provide the student with an introduction to human factors as applied in aviation. Topics include human error, fatigue, visual illusions, attitudes, training, displays and controls, biological factors, psychological factors and social factors.

Credit Hours: 3 hrs

AVT 215 - Aviation Weather

This course provides the student with an introduction to the properties and processes that create weather and addresses aviation specific weather topics to prepare the student for Federal Aviation Administration examinations. Topics include types of weather that adversely affect flight operation and aviation weather services.

Credit Hours: 3 hrs

Major Restrictions: Aviation Flight Technology and Aviation Management majors/minors only

AVT 220 - Flight Operations II

In-depth study of the functions and organization of operations and the relationship with the other departments within an aviation organization.

Credit Hours: 3 hrs

Prerequisite: AVT 120

Last Updated: 2/28/2011

AVT 222 - Introduction to Automation in Aviation

This course examines the world of aircraft automation including a review of its history, capabilities of automated aircraft cockpit systems, aspects of automated aircraft design, the human role in automated flight, crew coordination errors and an examination of the automated systems used in Eastern Michigan University flight training.

Credit Hours: 3 hrs

Major Restrictions: Aviation Flight Technology Majors only

AVT 250 - Aircraft Transition

This course provides a means for incoming students with past flight experience of FAA ratings to transition into the advanced cockpit aircraft used in the Eastern Michigan University Flight Technology Program. The transition consists of oral examination and flight instruction as needed followed by a flight transition demonstration.

Credit Hours: 1 hr

Major Restrictions: Students in Aviation Flight Technology only

AVT 255 - Private Pilot Certification

The student will receive dual instruction in flight operations to achieve solo flights in accordance with Federal Aviation Administration requirements. The student will then receive dual instruction and conduct solo practice in extended cross-country flight, flight maneuvers, and be prepared to take the oral and flight examination for the Private Pilot Certificate.

Credit Hours: 4 hrs

Prerequisite: Student Pilot Certificate: FAA Class I Medical

Major Restrictions: Aviation Flight Technology and Aviation Management Technology Majors only

AVT 263 - Aircraft Systems

This course is designed to provide an understanding of aircraft systems. The course will focus on electrical, hydraulic, pneumatic, power plant, fuel, oil, lubrication, cooling and aerodynamic control systems. The course will prepare the student pilot to succeed in future employer-required aircraft system classes.

Credit Hours: 3 hrs

Major Restrictions: Aviation Flight Technology and Aviation Management Technology Majors only

AVT 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

AVT 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

AVT 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

AVT 285 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: department permission

AVT 286 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: department permission

AVT 287 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: department permission

AVT 303 - Aviation Law and Insurance

Overview of legal considerations in general aviation, government agencies exercising control, regulations, laws, advisory information and insurance requirements and considerations.

Credit Hours: 3 hrs

AVT 313 - Aviation Industry Regulations

The major significance of aviation regulations and policies including the development and enforcement of federal aviation regulations will be presented. The major elements of managing an aviation operation within the guidelines of international and federal aviation industry regulations together with the influence of local and state requirements will be presented.

Credit Hours: 3 hrs

AVT 315 - Airport Management

The major elements in the process of planning and managing airports are presented including federal airport policy, the airport master-planning process, capacity analysis, site selection and funding. The historical development of and current practices in airport administration, operations management, maintenance and safety will be presented.

Credit Hours: 3 hrs

AVT 320 - Aviation Safety

A study of basic aviation safety concepts related to accident causation and prevention. The course will provide an overview of current safety issues relative to risk management, human factors, aviation security and safety education. In addition, resources and techniques needed for the development and implementation of aviation safety programs will be discussed.

Credit Hours: 3 hrs

Prerequisite: AVT 170

Last Updated: 2/28/2011

AVT 321 - Cockpit and Crew Resource Management

The major elements in the process of planning and managing airports are presented including This course will present an introduction to the theories and concepts that make up the elements of cockpit and crew resource management (CRM). Topics including aviation human factors, high integrity flight teams, stress and performance, situational awareness and assessment, decision making, conflict resolution and problem solving will be explored.

Credit Hours: 3 hrs

AVT 322 - System Safety in Aviation

This course explores the Federal Aviation Administration's air carrier certification processes and the air transportation oversight system. Topics include the FAA systems approach to safety; aircraft configuration control, manual subsystems, flight operation subsystems, personnel training and qualifications, route structures, airmen duty time and technical administration of air carrier systems. Restricted to Aviation Flight Technology majors and minors, and Aviation Management Technology majors and minors.

Credit Hours: 3 hrs

Prerequisite: AVT 313

Class Restrictions: Sophomore standing

Last Updated: 2/28/2011

AVT 341 - Instrument Ground Instruction

Advanced ground instruction in flight instrument systems, attitude instrument flying, instrument navigation, weather, Air Traffic control systems and Federal Aviation Regulations directed toward preparation for the FAA instrument written and practical examinations..

Credit Hours: 2 hrs

Prerequisite: AVT 170

Major Restrictions: Aviation Flight Technology Majors only

Last Updated: 2/28/2011

AVT 342 - Commercial Ground Instruction

Advanced ground instruction will be presented to include aerodynamics, airports and airport operations, Federal Aviation Regulations, metrology, weather reports, aircraft performance, aircraft systems, weight and balance, and commercial pilot operations.

Credit Hours: 2 hrs

Major Restrictions: Aviation Flight Technology Majors only

AVT 355 - Instrument Pilot Certification

The student will receive an introduction in cross-country operations and instrument flying techniques, including radio navigation, instrument approaches, and IFR operations. The course will prepare the student for the FAA instrument pilot written, oral, and practical examinations to achieve instrument pilot certification.

Credit Hours: 4 hrs

Prerequisite: AVT 251

Previously Listed As: AVT 271

Last Updated: 2/4/2011

AVT 355 - Instrument Pilot Certification

The student will receive instruction in cross-country and instrument flying techniques, including radio navigation, instrument approaches, and IFR operations. This course will prepare the student for the FAA instrument pilot written, oral and practical examinations to achieve instrument pilot certification.

Credit Hours: 4 hrs

Prerequisite: AVT 255

Major Restrictions: Aviation Flight Technology and Aviation Management Technology Majors only; department permission required for Aviation Management Majors

Last Updated: 2/28/2011

AVT 361 - Commercial/Complex Flight Instruction

The student will receive dual instruction to introduce commercial flight operations. The student will also complete instruction in complex aircraft for the purpose of preparing for Commercial Pilot Certification.

Credit Hours: 2 hrs

Prerequisite: AVT351

Major Restrictions: Aviation Flight Technology Majors only

Last Updated: 2/28/2011

AVT 371 - Commercial Certification

The student will complete the dual instruction and solo practice in all phases of flight training specified by the Federal Aviation Administration for the insurance of the Commercial Pilot Certificate. The student will complete the oral examinations and flight tests required for this certificate and rating.

Credit Hours: 2 hrs

Prerequisite: AVT 361

Major Restrictions: Aviation Flight Technology Majors only

Last Updated: 2/28/2011

AVT 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

AVT 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

AVT 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

AVT 382 - Flight Instructor Ground Instruction

A course designed to prepare the student to meet Federal Aviation Administration requirements for the FAA Flight Instructor Certificate for an airplane category rating and single-engine land class rating. Theories of instruction, the learning process, instructor responsibilities and authority will be presented.

Credit Hours: 3 hrs

Major Restrictions: Aviation Flight Technology Majors only

AVT 384 - Multi-engine/Aircraft Systems Ground Instruction

A course designed to prepare the student for FAA multiengine certification. The course will present the areas of aeronautical knowledge required for the multiengine pilot rating and the oral portion of the FAA multiengine practical test.

Credit Hours: 3 hrs

Major Restrictions: Aviation Flight Technology Majors only

AVT 387 - Co-operative Education in Aviation Technology

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs

Prerequisite: department permission

AVT 419 - High Airspeed Aerodynamics/High Altitude Flight

A course designed to meet the Federal Aviation Administration ground training requirements for pilots who will conduct flight operations above 25,000 feet. The course will cover aerodynamic and physiological considerations for high altitude flight.

Credit Hours: 3 hrs

Major Restrictions: Aviation Flight Technology Majors only

AVT 422 - Senior Seminar in Aviation Management

Current issues in aviation management will be explored using group and individual projects and analysis of case studies. Research, analysis and application of skills and knowledge acquired in other course work will be stressed.

Credit Hours: 3 hrs

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

AVT 426 - Multi-Engine Flight Instruction

This course consists of the flight training and ground training requirements to meet FAA airplane class rating for multi-engine land. This course is conducted off campus by the approved flight training provider.

Credit Hours: 3 hrs

Major Restrictions: Aviation Flight Technology Majors only

AVT 427 - Flight Instructor: Airplane

This course consists of the flight training requirements for the student to meet Federal Aviation Administration standards for the rating of Certified Flight Instructor-Airplane.

Credit Hours: 2 hrs

Major Restrictions: Aviation Flight Technology Majors only

AVT 428 - Flight Instructor: Instrument

This course consists of the flight training requirements for the student to meet Federal Aviation Administration standards for the rating of Certified Flight Instructor-Instrument.

Credit Hours: 2 hrs

Prerequisite: AVT 427

Major Restrictions: Aviation Flight Technology Majors only

Last Updated: 2/28/2011

AVT 429 - Flight Instructor: Multi-Engine

This course consists of the flight training requirements for the student to meet Federal Aviation Administration standards for the rating of Certified Flight Instructor-Multiengine.

Credit Hours: 2 hrs

Prerequisite: AVT 428

Major Restrictions: Aviation Flight Technology Majors only
Last Updated: 2/28/2011

AVT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

AVT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

AVT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

AVT 487 - Co-operative Education in Interdisciplinary Technology

A minimum of three to four months of full-time employment in a business or industry that provides experiences directly related to the major area of study. Work sites must be approved in advance by the Interdisciplinary Technology Department. Regular employee benefits may be received during the employment period.

Credit Hours: 3 hrs

Prerequisite: department permission

AVT 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr

Prerequisite: department permission

AVT 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

AVT 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Business Management Marketing and Technology

BMMT 100 - Contemporary Business

The American business enterprise and international business. Contemporary problems and future challenges. Career decision-making in terms of business careers

Credit Hours: 3 hrs

Notes: Open to all students except upper-division business majors.

BMMT 123 - Word Processing/Keyboarding Applications

Continued keyboarding and word processing skill development. Application of skill to business documents, manuscripts and reports. Emphasis on improved editing, proofreading and referencing skills.

Credit Hours: 2 hrs

BMMT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

BMMT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

BMMT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

BMMT 200 - Principles of Career and Technical Education

An introduction to career and technical education. The scope and importance of vocational education. Vocational curriculum development, including standards, unit plans, lesson plans and assessment objectives. Safety, ethical issues and management of vocational programs. Pre-student teaching experience will be initiated in conjunction with this course.

Credit Hours: 3 hrs

BMMT 201 - Microcomputers for Business Applications

Computer hardware and software for office use including both mainframe and microcomputer systems. "Hands-on" experience limited to microcomputers. Basic skills in using prepared software and developing programs for office applications using Microsoft BASIC. Requires no prior knowledge of computers or programming.

Credit Hours: 3 hrs

BMMT 205 - Women in Business

Social and business conditions that support the entry of women to executive positions in business; career opportunities at the professional and executive levels of business.

Credit Hours: 3 hours

Cross-Listed with: WGST 205

Last Updated: Links 03/2011

BMMT 220 - Word/Information Processing Operations

Continued development of editing, proofreading and referencing techniques. Emphasis on advanced functions of word processing software, typography, graphics and other desktop publishing concepts. Advanced document applications including merge and list processing, math operations and importing from other software programs.

Credit Hours: 3 hrs

Prerequisite: BMMT 123 and BMMT 201

Last Updated: Links 03/2011

BMMT 250 - Personal Finance

The management of financial resources to satisfy personal or family goals. Budgeting, consumer credit, investments, insurance, real estate, wills and trusts, and income taxes. Students learn to make decisions within the context of a realistic consumer-oriented environment.

Credit Hours: 3 hrs

Notes: Open to all students.

BMMT 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

BMMT 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

BMMT 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

BMMT 285 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hrs

Prerequisite: department permission

BMMT 286 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: department permission

BMMT 287 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: department permission

BMMT 310 - Word/Information Processing Administration

Techniques to utilize staff and equipment most effectively, record keeping, work flow, evaluating personnel, establishing policies and standards of operation as applied to word processing.

Credit Hours: 3 hrs

Prerequisite: IA 210 and BMMT 220

Last Updated: Links 03/2011

BMMT 321 - Digital Tools: Communication

Learning and teaching digital tools and systems provide an opportunity to learn new technology input skills in a hands-on setting and methods of teaching are deeply integrated. A portion of the course is to help develop and revise curriculum for classes taught at the high school level in which digitools is incorporated. The class will delve into the national and state standards pertinent to the BMMT program.

Credit Hours: 3 hrs

BMMT 360 - Methods of Teaching General Business and Office Education

This course will take the performance-based teacher education (PBTE) approach to instructor/facilitator preparation in which the educator is required to demonstrate essential competencies. Procedures for developing behavioral objectives, selecting appropriate methods and media, lesson planning, and evaluation will be introduced and/or reviewed through formative evaluation and discussion of reading assignments.

Credit Hours: 3 hrs

Prerequisite: BMMT 200, and admission to the Initial Teacher Preparation Program

Last Updated: New Course 01/2012, effective Winter 2012

BMMT 363 - Curriculum for Career and Technical Education

This course is sequenced to take students through the process of curriculum planning and design for a Career and Technical Education Program and is required by the state to receive a vocational endorsement. The process results in both the assembly of a curriculum package and mastery of the process.

Credit Hours: 3 hrs

Prerequisite: BMMT 200

Major Restrictions: Admission to the Initial Teacher Preparation Program

Last Updated: Links 03/2011

BMMT 364 - Methods in Teaching General Business Subjects

Methods in teaching general business, law and keyboarding with application to classroom situations. Objectives, lesson planning, techniques of teaching, and sources of materials.

Credit Hours: 2 hrs

Prerequisite: RDNG 311 and EDPS 322; 2.5 GPA in all business education subjects taken at EMU; no academic probation

Major Restrictions: Admission to the Initial Teacher Preparation Program

Last Updated: Links 03/2011

BMMT 366 - Methods of Teaching Marketing Education

Techniques and practices utilized in teaching marketing and cooperative education in secondary schools, community colleges and adult evening schools.

Credit Hours: 2 hrs

Prerequisite: EDPS 322; 2.5 GPA in all business education subjects taken at EMU; no academic probation

Major Restrictions: Admission to the Initial Teacher Preparation Program

Last Updated: Links 03/2011

BMMT 367 - Curriculum in Marketing Education

Overviews content bases and other factors affecting marketing education curriculum. Includes development of comprehensive curriculum plans for a variety of marketing education settings, utilization of nonclassroom curriculum delivery systems, and implementation of curriculum evaluation and revision procedures. Examines current trends in marketing education curriculum.

Credit Hours: 2 hrs

BMMT 368 - Management of Marketing Education Programs

Examines the marketing educator roles of DECA adviser, public relations specialist, career counselor, program administrator/supervisor and professional educator.

Credit Hours: 2 hrs

BMMT 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

BMMT 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

BMMT 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

BMMT 387 - Co-operative Education

Graduate students who are completing research (Master's or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources.

Credit Hours: 3 hrs

Prerequisite: department permission

Notes: Credit will not apply toward degree completion. Course is offered on a credit/no-credit basis

BMMT 395 - Administering Workplace Systems and Technology

Assessment, implementations and utilization of workplace systems and technology from the point of view of the administrative manager. Examination of workplace organization, physical facilities and productivity.

Credit Hours: 3 hrs

Prerequisite: BMMT 201
Last Updated: Links 03/2011

BMMT 396 - Information and Media Administration

Management methodology in records, control, costs, protection, retention, retrieval and disposal. Records administration as a management tool.

Credit Hours: 3 hrs
Prerequisite: BMMT 201
Last Updated: Links 03/2011

BMMT 461 - Projects and Simulations in Marketing Education

Projects and simulations methods in marketing education are explored with a major focus on the organization and coordination of the school store. Implementation steps for the entrepreneurship simulation are developed. Small scale simulations and projects are also studied as well as procedures for developing simulations and projects.

Credit Hours: 2 hrs

BMMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission

BMMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission

BMMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission

BMMT 487 - Co-operative Education

Graduate students who are completing research (Master's or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources.

Credit Hours: 3 hrs

Prerequisite: department permission

Notes: Credit will not apply toward degree completion. Course is offered on a credit/no-credit basis

BMMT 496 - Records Administration Using Database

Database as a tool of automated search and retrieval. Identifying information needs of users: design and development of records classification structures suitable for automated records systems; searching techniques; generation of reports such as records user listings, master record listings and records retention schedules. Extensive applications using database software.

Credit Hours: 3 hrs

Prerequisite: BMMT 396

Last Updated: Links 03/2011

BMMT 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hrs

Prerequisite: department permission

BMMT 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

BMMT 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Communication Technology

CMT 104 - Introduction to Communication Technology

An introduction to the field of communication technology. Communication theory and the graphic and telecommunication industries.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: two hours per week.

CMT 121 - Graphic Communication

Preparation and design of graphic media. The theory and application of effective communications. Information collection, analysis and dissemination; survey of the graphic communication industry.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.

CMT 131 - Introduction to Computer Graphic Systems

Students are provided with opportunities to work on a variety of vector-based, paint-based and timeline-based software applications including the Adobe Suite of applications. Students will learn terminology for graphics, hardware and software. Students will explore applications of graphics to their own field of study. Lecture and laboratory course.

Credit Hours: 3 hrs

Major Restrictions: Course does not count for CAD majors

CMT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CMT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CMT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CMT 204 - Photographic Communication

Basic functions, principles and applications of photography in graphic communication.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.

Notes: Students must furnish their own camera and photo materials.

CMT 205 - Digital Photo-Technology

A course designed to develop an understanding of pixel-based images and color theory as applied in graphic communication. Students will learn all aspects of pixel based imaging software through hands-on demonstration and laboratory work.

Credit Hours: 3 hrs

CMT 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CMT 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CMT 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CMT 285 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: department permission

CMT 286 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: department permission

CMT 287 - Preprofessional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: department permission

CMT 301 - Multimedia Authoring Techniques

Students are provided with opportunities to design and develop multimedia presentations. During this course there will be lecture on the history of multimedia presentation, theories involving multimedia and how to properly script for a variety of multimedia productions. Students are encouraged to work in groups to produce usable multimedia presentations.

Credit Hours: 3 hrs

Prerequisite: CMT 131 or CTAT 242

Last Updated: Links 04/2011

CMT 304 - Advanced Photographic Communication

Photographic theory and techniques, with particular emphasis upon commercial and industrial applications.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.

Prerequisite: CMT 204

Notes: The student must furnish a camera and photo materials.

Last Updated: Links 04/2011

CMT 305W - Communication Transmission Systems (Gen Ed Area I, W)

Consideration of source, encoder (transmitter), channel and receiver functions. Principles of line communication, a study of various systems and future developments in communication transmission systems.

Credit Hours: 3 hrs

CMT 318 - Graphic Arts Workshop

Selected topics in the field of graphic arts technology, such as composition, press work, screen process and advanced photomechanics.

Credit Hours: 3 hrs

CMT 336 - Electronic Publishing Technology

The application of electronic design and layout principles to publication and presentation documents. Develop skills in graphics, type, file creation and manipulation, word processing interface, and output of paginated, camera-ready copy through several software packages.

Credit Hours: 3 hrs

Notes: This course was previously listed as an undergraduate course available to graduate students for graduate credit; the course is no longer available for graduate credit.

Previously Listed As: CMT 436

Last Updated: Course Number Change 02/2012, effective Fall 2012; Graduate Credit 07/2011

CMT 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CMT 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CMT 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CMT 387 - Co-operative Education

Graduate students who are completing research (Master's or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources.

Credit Hours: 3 hrs

Prerequisite: department permission

Notes: Credit will not apply toward degree completion. Course is offered on a credit/no-credit basis

CMT 404 - Photo Communication Workshop

Selected topics in photo communications, such as commercial and industrial photography, photo journalism, sensitometry and photography, and photo processing. The class schedule describes the specific topic being offered during a given semester.

Credit Hours: 3 hrs

Prerequisite: CMT 304

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CMT 408 - Telephone Technology

This class will cover an introduction to telecommunications theory and practice. The course content will include both traditional private branch exchanges (PBX's) and voice over Internet protocol (VoIP) systems. The administration of these systems, their configuration and the testing of the hardware and software components will be covered. Lecture/lab course.

Credit Hours: 3 hrs

Prerequisite: CMT 305W

Last Updated: Links 04/2011

CMT 409 - Emerging Technologies in Storage and Retrieval

Conventional as well as emerging technologies of information storage and retrieval. Lecture and laboratory.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CMT 421 - Web Publishing Technology

An introduction to HTML coding, web page design, web page editors, graphics, sound files and multimedia. Also included will be an introduction to online services, servers and ongoing maintenance of the web site.

Credit Hours: 3 hrs

Prerequisite: CMT 121/CMT 205

Major Restrictions: Not available to students in Extended Programs and Educational Outreach

Last Updated: Links 04/2011

CMT 425 - Communication Technology and Social Change

The social implications of recent and future developments in communication technology. The effects upon education, research and scientific knowledge, business and entertainment.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CMT 427 - Digital Imaging and Reproduction

Study and laboratory work in scanning, measuring and reproducing graphic images as applied to offset presswork and other forms of digital reproduction which includes the preparation and proofing of files for color separation and electronic transfer.

Credit Hours: 3 hrs

Prerequisite: CMT 336

Previously Listed As: CMT 207

Last Updated: Course Number Change 02/2012, effective Fall 2012; Links 04/2011

CMT 470 - Senior Seminar in Communication Technology

Guest speakers and/or site visitations will be used to illustrate the application of new communication technologies common to business, industrial or governmental environments.

Credit Hours: 2 hrs

CMT 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CMT 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CMT 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CMT 487 - Co-operative Education

Graduate students who are completing research (Master's or Specialist), capstone or internship experiences and have completed all other graduate program course requirements may remain affiliated with the University through Continuous Enrollment. Enrollment enables access to library, health services and other resources. Credit will not apply toward degree completion.

Credit Hours: 3 hrs

Prerequisite: department permission

Notes: Course is offered on a credit/no-credit basis.

CMT 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hrs

Prerequisite: department permission

CMT 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

CMT 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Homeland Security and Emergency Management

HSEM 255 - Emergency Preparedness Planning

An introduction to emergency planning, including assessment of community hazards and resources, for students responsible for civil defense or emergency-preparedness tasks. Provides a planning and analytical framework, hazard/vulnerability analysis, that can be applied to the local comprehensive emergency-management context.

Credit Hours: 3 hrs

Last Updated: Course type 07/2011

HSEM 306 - Issues in Emergency Preparedness

This course is designed for emergency managers to explore strategies in management and organizational development for improving skills and understanding of an effective emergency management organization. It is comprised of five key areas: legal issues, strategic management, executive skills, service quality in the public sector, and stress management.

Credit Hours: 3 hrs

Prerequisite: HSEM 255 or department permission

Last Updated: Links 04/2011

HSEM 309 - Natural Hazard Mitigation

The purpose of natural hazard mitigation is to introduce the concepts and skills of hazard mitigation and recovery planning, vulnerability risk analysis and implementation of a community-wide program, and to relate natural hazard mitigation processes to disaster planning.

Credit Hours: 3 hrs

Prerequisite: HSEM 255 or department permission

Last Updated: Links 04/2011

HSEM 380 - Planning and Decision-Making for Public Safety

Planning and decision-making is central to the command officer's role. This course provides the foundation for the planning and decisions that must be made relevant to every aspect of administering an agency. The KSA's acquired will assist the student as they approach the topics in human resource management, administration of the agency and homeland security.

Credit Hours: 3 hrs

Last Updated: Course type 07/2011

HSEM 381 - Public Relations and Public Safety

An examination of the relationship between public safety agencies and the larger community, with particular emphasis on administrative and policy dimensions; the role of public safety agencies, the community's involvement in establishing that role, police-community relations programs, relationships with the media and professionalization and accreditation movements in public safety agencies are addressed.

Credit Hours: 3 hrs

Last Updated: Course type 07/2011

HSEM 412 - Administration of Public Safety Agencies

This course addresses the management and administrative duties associated with administering a public safety agency. Topics include community relations, budgeting, employee wellness, line of duty deaths, labor law and legal issues, consolidation of services and negotiation of labor contracts are addressed from a management perspective.

Credit Hours: 3 hrs

Last Updated: Course type 07/2011

HSEM 433 - Arson Investigation

An examination of the nature and causes of suspicious and incendiary fires, their detection and investigation; involves classroom lecture and field training. Students will conduct fire scene investigations, collect evidence, document findings, and participate in a mock trial. Assumes no previous experience in fire investigation. Students must provide their own 35mm camera, safety shoes, gloves and hard hat.

Credit Hours: 3 hrs

Prerequisite: (CHEM 117 and CHEM 118) or PHY 221

Previously Listed As: SSC 433

Last Updated: Links 04/2011

HSEM 434 - Hazardous Materials

An examination of hazardous material incidents from the perspective of the public safety officer/manager charged with protecting people and property; identifying hazardous materials, assessing hazardous material accidents, planning and tactics for addressing hazardous material problems.

Credit Hours: 3 hrs

Prerequisite: (CHEM 117 and CHEM 118) or PHY 221

Last Updated: Links 04/2011

HSEM 435 - Incident Command

The study of complex fire situations, including analysis of prefire planning, establishing and managing the command post, and effective management of complex fireground operations. Emphasizes the study of multiple company response and the efficient utilization of available and prospective resources in handling major fires.

Credit Hours: 3 hrs

Prerequisite: PLSC 450 or department permission

Last Updated: Links 04/2011

HSEM 438 - Human Resource Management for Public Safety Agencies

Human Resource Management includes the process of recruiting, assessing, selecting, and promotion of employees. This course examines the staffing process and provides participants with tactics to ensure the highest qualified candidate is selected and managed. The course addresses employment law, Assessment Centers, as well as traditional interviewing and testing.

Credit Hours: 3 hrs

Prerequisite: PLSC 334 or department permission

Last Updated: Links 04/2011

HSEM 439 - Managing Critical Incidents for Homeland Security

This course applies current Homeland Security Policies in budgeting and management. The student will also apply critical decision making in crisis situations. A table top exercise will provide a capstone experience for application of concepts taught.

Credit Hours: 3 hrs

Last Updated: Course type 07/2011

HSEM 452 - Current Trends in Emergency Management

This course was designed to provide students with the knowledge of emergency management and the philosophy of emergency planning for community, business and industry. Students will develop a management perspective on issues, concerns and constraints effective to emergencies that responders must think about today.

Credit Hours: 3 hrs

Prerequisite: HSEM 255

Last Updated: Links 04/2011

HSEM 453 - Management/Leadership for Public Safety

This course addresses the various styles of leadership theories and an analysis of public safety management elements, including planning, organizing, leading, controlling and communicating. Presented in the context of, and applied to internal police/fire/emergency management administration.

Credit Hours: 3 hrs

Prerequisite: HSEM 380

Notes: Equivalent to PLSC450

Last Updated: Links 04/2011

HSEM 454 - Managing Technology for Public Safety Agencies

This course applies IT function and electronic research into accomplishing organizational objectives in a Public Safety Agency. The student will distinguish between reliable and questionable sources of information. Managing and controlling of the IT function.

Credit Hours: 3 hrs

Prerequisite: HSEM 453

Notes: Equivalent to PLSC 451

Last Updated: Links 04/2011

HSEM 475 - Managing Correctional Agencies and Facilities

A study of administrative practices in correctional agencies and facilities, including attention to organization structure, management problems, financing, rights of offenders, intervention strategies and community-based programs.

Credit Hours: 3 hrs

Prerequisite: PLSC 450 or department permission

Last Updated: Links 04/2011

Hotel and Restaurant Management

HRM 103 - Introduction to the Hospitality Industry

This is a course designed to expose the hospitality undergraduate to the food service and lodging industries. It covers an introduction to the various segments of the food service industry and lodging industry. Career choices in food service and lodging

industries will also be discussed.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 150 - Sanitation in the Hospitality Industry

Management of basic sanitation in food-service and lodging facilities. Meets specifications required for National Institute for the Food Service Industry certification.

Credit Hours: 2 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 177 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

HRM 178 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

HRM 179 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

HRM 180 - Food Production

Study of kitchen sanitation and safety, food preparation and storage. Includes menu design based on customer needs and preparation of final buffet.

Credit Hours: 3 hrs

Prerequisite: HRM 150

Major Restrictions: Admission to the Hotel and Restaurant Management Program

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

HRM 251 - Meal Service Management

Theories, principles and skills for food and beverage service in institutional, commercial and resort properties. Supervisory techniques and training styles effective for food service.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 268 - Hotel Operations Management

This course provides a systematic approach to hotel operations including front office and housekeeping operations. Topics covered include reservation processes, revenue management, customer relations and an overview of housekeeping management.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 270 - People Skills for the Hospitality Industry

Applied approach to encourage the improvement of human relation skills. Addresses personal and professional skills in human relations and encourages the improvement of human interactions. Focused on efforts to enhance the quality of interactions between the service provider and customer/client.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 277 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

HRM 278 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

HRM 279 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

HRM 287 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic advise.

Credit Hours: 1 hr

Prerequisite: approval of the Cooperative Education Office and department permission

Notes: Offered on credit/no-credit basis only

HRM 288 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 2 hrs

Prerequisite: approval of the Cooperative Education Office and department permission

Notes: Offered on credit/no-credit basis only.

HRM 289 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser

Credit Hours: 3 hrs

Prerequisite: approval of the Cooperative Education Office and department permission

Notes: Offered on credit/no-credit basis only.

HRM 330 - Hotel and Restaurant Management

This course explores the issues related to managing hotels and restaurants using computer technology. Principles of networking, security, and databases provide the basis for understanding how computer technology is used to make reservations, manage inventory, process food orders, manage facilities and market over the Internet.

Credit Hours: 3 hrs

Prerequisite: STS 201 or BMMT 201 or instructor permission

Class Restrictions: Junior standing

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Prerequisite Clarification 03/2012; Links 04/2011

HRM 340 - Cost Controls in the Hospitality Industry

Techniques used by hospitality managers to control food, equipment, labor and operating costs. Purchasing, labor and pilferage controls and fiscal management.

Credit Hours: 3 hrs

Prerequisite: MATH 110 or higher

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

HRM 350 - Lodging Facilities Management

Organization and management of operational departments and functional areas involved in the operation of various types of lodging properties. Planning and control systems, especially physical, mechanical, engineering and electrical systems.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 360 - Franchising and Contract Management

This course covers franchise operations from franchisor and owner/operator perspectives regarding product/service offering, contract options and evaluation of relationship requirements. In addition, responsibilities and advantages of contract management in food-service and lodging establishments will be discussed.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 376 - Legal Aspects of the Hospitality Industry

An introduction to the rights and responsibilities that the law grants to or imposes upon hospitality managers is covered in this class. In addition, illustrations of possible consequences of failure to comply with legal obligations are covered.

Credit Hours: 3 hrs

Prerequisite: three courses in major

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 377 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

HRM 378 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

HRM 379 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

HRM 387 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 1 hr

Prerequisite: approval of the Cooperative Education Office and department permission

Notes: Offered on credit/no-credit basis only.

HRM 388 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 2 hrs

Prerequisite: approval of the Cooperative Education Office and department permission

Notes: Offered on credit/no-credit basis only.

HRM 389 - Cooperative Education in Hotel and Restaurant Management

Employment in an appropriate setting, chosen to provide supervised practical experience. Credit hours determined by program area and academic adviser.

Credit Hours: 3 hrs

Prerequisite: approval of the Cooperative Education Office and department permission

Notes: Offered on credit/no-credit basis only.

HRM 396 - Club and Resort Management

Examination of historical background and development of clubs and administrative procedures typically practiced. Discussion of goals and objectives of clubs, governance structures, buildings and facilities operations plus programming components including food and beverages operations, golf, tennis and pool management. Accounting and finance issues of clubs and marketing strategies are studied.

Credit Hours: 3 hrs

Prerequisite: three courses in major

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 410 - Human Resource Issues in the Hospitality Industry

Hotel and restaurant industry issues related to the administration of personnel with emphasis on strategies for successful recruitment, employment and retention of employees, particularly teenaged, senior, immigrant and disabled candidates. Includes worker-environment fit, motivation of minimum-wage employees and general legal issues relevant to personnel laws in this industry.

Credit Hours: 3 hrs

Prerequisite: MGMT 384

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

HRM 420 - Quality Service Management

This course is designed to explore, challenge and define the principles of guest service management in any hospitality organization. Topics include characteristics and attributes of service, analysis of service gaps and development of service strategies to address these gaps and develop service recovery procedures.

Credit Hours: 3 hrs

Prerequisite: HRM 289 and HRM 268

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

HRM 430 - Seminar in Hospitality Management

Current topics in hospitality management will be covered along with professional development topics related to finding and obtaining a position upon graduation. The development and implementation of a professional or community project will be included in the course.

Credit Hours: 3 hrs

Class Restrictions: Senior standing

Major Restrictions: Hospitality Management Majors only

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 441 - Commercial Purchasing

Study of principles and techniques applicable to purchasing with emphasis on selection and specification requirements for food, supplies, equipment and contract services.

Credit Hours: 3 hrs

Corequisites: HRM 180 and HRM 340

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

HRM 450 - Meetings and Events Management

Overview of meeting planning, and events management with emphasis on defining the management of events. Discussion of components of various types of events, negotiating contracts, facilities, costing, support services and legal issues will be covered. Students will be required to assist with several events planned during the semester.

Credit Hours: 3 hrs

Prerequisite: HRM 180 and HRM 251

Class Restrictions: Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Graduate Credit 07/2011; Links 04/2011

HRM 460 - Advanced Foodservice Management

Evaluation of recent trends in the foodservice management including systems, food and equipment innovations and operational issues will be covered. Students will have the opportunity to apply knowledge and skills gained through previous courses and work experiences in a foodservice operations project.

Credit Hours: 3 hrs

Prerequisite: HRM 251

Major Restrictions: Hotel and Restaurant Majors and Minors only

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

HRM 465 - Advance Topics in Hospitality Management

This course is designed to acquaint the student with the major trends and other current issues of concern to the hospitality management professional. Issues pertaining to the identification and analysis of events, trends and forces arising from the external environment will be explored, integrated and applied to the hospitality context.

Credit Hours: 3 hrs

Prerequisite: HRM 268

Major Restrictions: Hotel and Restaurant Majors and Minors only

Last Updated: Links 04/2011

HRM 470 - Hospitality Industry Marketing

This course covers basic knowledge for developing, implementing and evaluating strategic marketing plans for hospitality properties. Principles of service marketing are covered as they apply to the hospitality industry.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 475 - International Hospitality Management

This course is focused on providing a better understanding and deeper appreciation of management and marketing applications within a globalized context. The course presents a systematic approach to preparing students for leadership roles in tomorrow's worldwide lodging industry.

Credit Hours: 3 hrs

Prerequisite: HRM 470

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; Links 04/2011

HRM 477 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 1 hr

Prerequisite: department permission

HRM 478 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 2 hrs

Prerequisite: department permission

HRM 479 - Special Topics

An experimental course designed to investigate specific topics of concern in specialization areas.

Credit Hours: 3 hrs

Prerequisite: department permission

HRM 480 - Gaming and Casino Management

This course provides an overview of gaming and casino operations and management. Topics include gaming trends in the United States and the world, casino hotel organizational structure, government regulations and casino games. Also covered are the practices and concerns associated with casino management including staffing, controls, security, marketing and entertainment.

Credit Hours: 3 hrs

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012

HRM 485 - Beverage Management

This course introduces responsible beverage operations in a hospitality operation. Topics include history, service, procurement, storage, and control. Beverages discussed are: sparkling waters, coffees, teas, wine, and fermented and distilled beverages. Management topics will include operations, trend identification, basic production methods, costing and pricing, and inventory methods. Students must be over 21 years old.

Credit Hours: 3 hrs

Prerequisite: HRM 103 and HRM 251

Class Restrictions: Junior standing or higher

Terms Offered: Course Rotation Schedules

Last Updated: Link 5/2012; New Course 09/2011, effective Winter 2012

HRM 496 - Strategies in Hospitality Management

Strategies for assessing, planning, implementation, evaluation and training in hospitality operations will be addressed.

Credit Hours: 3 hrs

Prerequisite: HRM 410 and HRM 470

Class Restrictions: Senior standing

Major Restrictions: Hospitality Management Majors only

Last Updated: Link 5/2012; Links 04/2011

HRM 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr

Prerequisite: department permission

HRM 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

HRM 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Industrial Distribution

ID 140 - Introduction to Wholesale Distribution

This course is an introduction to wholesale distribution. Students will explore the history and theory of wholesaling and its impact on today's economy. Through lectures, discussions, presentations by industry experts and field experiences, students will examine the various industries and supply channels and will develop an understanding of wholesale distribution.

Credit Hours: 3 hrs

ID 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ID 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ID 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ID 240 - Profit Strategies in Distribution

Explanation of the terms related to profits and markup, calculation of profit, discounts, markups, identification and interpretation of profitability ratios, and the distribution of financial resources.

Credit Hours: 3 hrs

ID 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ID 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ID 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ID 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: department permission

ID 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: department permission

ID 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: department permission

ID 340 - Relationships in Wholesaling

Analysis of major industries and professional trade associations, and their interaction within the marketing channel. Emphasis will be placed on the relationship between trade associations and industry, elements of the marketing channel (manufacturer, distributor, customer and the employer and employee).

Credit Hours: 3 hrs

ID 345 - Marketing in Wholesale Distribution

The course focuses on strategies, processes, and techniques used to elicit industrial sales and develop markets by distributors. Students will examine the tools various "key" industry leaders use to penetrate the industrial market. Through case study and field experience, the students will be able to problem solve and provide cost-effective solutions to industry concerns.

Credit Hours: 3 hrs

ID 346 - Industrial Climate

Focus will be on various "key" industries that makeup the wholesale market. Manufacturing and the tiered supply base, HVAC, electrical, electronic, abrasives and cutting tools, fluid power, fasteners, safety and security equipment, paper, sporting goods, clothing etc. will be areas of concentration with emphasis on the role distributors play in the process.

Credit Hours: 3 hrs

ID 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ID 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ID 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ID 387 - Co-operative Education

Credit Hours: 3 hrs

ID 391 - Wholesale Account Development

An in-depth study into the processes and techniques involved in acquiring and developing industrial accounts from the distributor's and the manufacturer's point of view. The course will develop practical and effectual skills in the area of advanced industrial wholesale account development. Guest lectures by manufacturers' representatives and from purchasing agents will augment the course.

Credit Hours: 3 hrs

ID 440 - Inventory Strategies in Distribution

An examination of the wholesale inventory management problem. The interrelationship between physical inventory, profitability and customer service will be explored.

Credit Hours: 3 hrs

ID 444 - Quality Planning in Distribution

Wholesale distributors are moving toward a total commitment to the philosophy of continuous improvement with zero errors as their ultimate goal. The course explores the quality assurance movement as it applies to wholesalers.

Credit Hours: 3 hrs

ID 448 - Best Practices in Wholesale Distribution

Wholesale policies used to support supply integration from the manufacturers to the end users will be examined. The balance of power between the manufacturers and distributors has changed significantly. This course will examine those changes and the effect they are having in today's economy through an analysis of sound principles/policies that are utilized by industry leaders.

Credit Hours: 3 hrs

ID 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ID 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ID 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ID 487 - Co-operative Education

Credit Hours: 3 hrs

ID 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr

Prerequisite: department permission

ID 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

ID 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Information Assurance

IA 103 - Information Security Overview

A study of security in both the voice and data networks and an examination of the security issues associated with the movement toward a convergence of the two infrastructures. Topics include voice and data network connectivity, modem security, VOIP security, wireless security, cryptography, intrusion detection systems, voice and data firewalls, malicious software, information operations and warfare, and denial of service attacks.

Credit Hours: 3 hrs

Last Updated: 2/10/2011

IA 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1hr

Prerequisite: department permission

Last Updated: 2/10/2011

IA 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 202L - Risk-Vulnerability Analysis (Gen Ed Area V LBC)

Tools, techniques, and methodologies in performing computer system and network security vulnerability-risk analyses. "Security best practices" and audit requirements for specific environments will be studied. Topics to be covered include internal and external penetration tests, wireless security technology, risk and analysis methodology, and security audits.

Credit Hours: 3 hrs

This course has been approved as a General Education Program "Learning Beyond the Classroom, Group 4: Career and Professional Development" course.

This course will assist students in their career preparation as information system security managers. Upon successful completion of this course, students should be able to:

- demonstrate risk management and risk analysis
- demonstrate vulnerability assessment techniques
- demonstrate threat analysis techniques
- plan vulnerability assessment, threat assessment, and risk analysis projects
- apply risk management principles throughout the software and systems development life cycles to include continuity
- demonstrate incident handling, continuity, and disaster recovery techniques
- define network security assessment and accreditation techniques

Last Updated: 2/10/2011

IA 210 - Concepts of Network and Business Technology

The concepts and functions of networks and related business technology. The course emphasizes administration client/server and peer-to-peer networks. The course includes equipment, procedures and career opportunities.

Credit Hours: 3 hrs

Previously Listed As: NITA 210

Last Updated: Prerequisite Change 02/2012, effective Fall 2012; Links 04/2011

IA 212 - Open Systems Platform and Network Administration

Introduction to open source client/server networking, careers and basic information security and assurance concepts. Focusing on Linux as a platform and server operating system, students learn through theory and applied work. Topics included are: file and hardware management, user account management, TCP/IP protocols and installation of the Linux client and server. Students build and administer a basic network.

Credit Hours: 3 hrs

Previously Listed As: NITA 212

Last Updated: 2/10/2011

IA 213 - Privacy and Technology

This course prepares students to recognize, analyze, and manage privacy challenges created by technology. Both business and self regulatory efforts will be reviewed.

Credit Hours: 3 hrs

Last Updated: 2/10/2011

IA 215 - System Support and Troubleshooting

IA215 maps fully to CompTIA's A+ Exam objectives. This course is focused on learning the fundamentals of supporting and troubleshooting computer hardware. At the same time, it prepares students to successfully pass the A+ 220-701 and 220-702 exams. Students will be instructed via theory and practical pedagogy in the world of PC hardware support.

Credit Hours: 3 hrs

Last Updated: 2/10/2011

IA 240 - Intelligence Analysis I

An introductory intelligence analysis course designed to prepare intelligence products, hypothesis, along with collection and dissemination planning. Students will explore historical, legal, and ethical basis for intelligence collection, retention and of the analytical product.

Credit Hours: 3 hrs

Previously Listed As: IA 440 - Intelligence Analyst I

Last Updated: Course Number and Prerequisite Change 02/2012, effective Fall 2012

IA 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1hr

Prerequisite: department permission

Last Updated: 2/10/2011

IA 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1hr

Prerequisite: department permission

Last Updated: 2/10/2011

IA 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2hrs

Last Updated: 2/10/2011

IA 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 329 - Policy Development in Information Assurance

This course serves the essential aspects for developing sound information security policy. Organizational objectives,, threats, risk mitigation and cost-benefit analysis will be explored. The student will utilize industry accepted methodologies to create practical security policy that will communicate the organization's asset protection objectives.

Credit Hours: 3 hrs

Prerequisite: IA 202L

Class Restrictions: Sophomore standing

Last Updated: 2/10/2011

IA 343 - Intelligence Analysis II

The second course in the Intelligence Analysis Series that uses technical software in the analysis of data. Material presented through analysis software, oral and written presentations and case analysis. The student will be required to understand the relationship between demographics, technology and the impacts on critical infrastructures within the assigned areas of research.

Credit Hours: 3 hrs

Prerequisite: IA 240

Class Restrictions: Sophomore standing or higher

Last Updated: New Course 02/2012, effective Fall 2012

IA 344 - Administration of Computer Systems

Principles and practices of computer operating systems for networks in educational or small to mid-sized organizations. The course will emphasize the tasks the administrator must perform frequently.

Credit Hours: 3 hrs

Prerequisite: IA 210

Class Restrictions: Sophomore, Junior or Senior standing

Previously Listed As: NITA 344

Last Updated: 2/10/2011

IA 350 - Network Connectivity

This course is focused on managing CISCO switches in practical environments. It prepares students for a portion of the Cisco Certified Network Associate (CCNA) certification examination. It provides students with knowledge and skills necessary to install, configure, update, and troubleshoot switched LANs and VLANs.

Credit Hours: 3 hrs

Last Updated: 2/10/2011

IA 354 - Multi-Level Networking

This course will focus on the connectivity required to build two- to n-tiered networks. Students will configure and administer routers utilizing CISCO IOS. Security concepts for LAN and WAN environments are discussed. This course builds on prerequisite knowledge of the TCP/IP protocol suite, networking, and WAN/LAN topology concepts.

Credit Hours: 3 hrs

Class Restrictions: Junior or Senior standing

Major Restrictions: Admitted to the Network Security/Administration Concentration program

Previously Listed As: NITA354

Last Updated: 2/10/2011

IA 364 - Advanced Windows Security

This course will focus on the technology, methodology and implementation issues of network based application. Special network services include electronic mail, Web/Application, proxy, storage, and collaboration services. Security issues related to the technology are discussed. This course contains a lab component in which students assemble server technology discussed in lecture.

Credit Hours: 3 hrs

Prerequisite: IA 344

Major Restrictions: Admitted to the Information Assurance program

Previously Listed As: NITA 364 Special Network Server Administration

Last Updated: 2/10/2011

IA 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/10/2011

IA 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: IA 344

Previously Listed As: NITA 379

Last Updated: 2/10/2011

IA 387 - Cooperative Education

Credit Hours: 3 hrs

Previously Listed As: NITA387

Last Updated: 2/10/2011

IA 400 - Malware Analysis and Reverse Engineering

This course adopts a practical approach in detecting, analyzing, reverse engineering, and eradicating malicious software (or malware). It uses a standard methodology, which includes setting up an inexpensive laboratory and utilizing a selected set of forensic tools to dissect a malware, discover its characteristics, and neutralize its effects.

Credit Hours: 3 hrs

Prerequisite: COSC 146 and COSC 205

Class Restrictions: Sophomore standing or higher

Last Updated: New Course 02/2012, effective Fall 2012

IA 412 - Linux Security Administration

Students in this course build complex Linux-based networks, implement selected special servers in the network and test various configurations for performance and security. Students identify the vulnerabilities of a complex network, apply security controls and troubleshoot problems in complex networks. Ethical, legal, professional conduct and security policy are discussed in this course.

Credit Hours: 3 hrs

Prerequisite: IA 212

Previously Listed As: NITA 412

Last Updated: 2/10/2011

IA 415 - Introduction to Research in Information Assurance

An introduction to the conduct of studies in information and network assurance and security, including the reading of published research studies, selected approaches used for research, and formulation of researchable questions. Students will prepare a proposal for the study to be completed in IA 416.

Credit Hours: 3 hrs

Prerequisite: STS 300W, all IA foundation courses and at least 15 hours in concentration

Last Updated: 2/10/2011

IA 416 - Applied Research Project

Students will conduct and write results of the research study proposed in IA 415, Foundations of Information Assurance Research. This includes modifying any aspects of the methods of the study that may be necessary. The final results will be prepared and presented according to guidelines of an appropriate style manual.

Credit Hours: 3 hrs

Prerequisite: IA 415

Last Updated: 2/10/2011

IA 422 - Networks: Planning and Design

The course focuses on planning and designing networks systems that deliver information services and resources. Emphasis is on end-user needs assessment, alternative system designs, security planning, support issues, and training and development. Students will develop a proposal for a new or revised end-user system that reflects the principles covered in the course.

Credit Hours: 3 hrs

Prerequisite: IA 344

Previously Listed As: NITA 422

Last Updated: 2/10/2011

IA 425 - Cyber Crime Investigation I

This course is part one of a two sequence course of study. It is designed to prepare students to become effective cyber crime investigators. The course examines the basic steps required in hardware identification, TCP-IP, rules of electronic evidence, DOS, network investigation, case management and intrusion detection.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing

Previously Listed As: IA325

Last Updated: 2/10/2011

IA 426 - Cyber Crime Investigation II

Intensive hands on investigation of computer related crime designed for the professional electronic crime investigator. The course will focus on Internet crimes, fraud investigation, malicious logic, encryption and intrusion detection involving hacking networks and software. This is the second part of two semester course offering.

Credit Hours: 3 hrs

Prerequisite: IA 425

Previously Listed As: IA 326

Last Updated: 2/10/2011

IA 427 - Digital Forensics I

This course addresses the comprehension and application of Digital Forensic Investigations. Students will evaluate and synthesize technical and legal issues in relation to digital evidence. Students will apply various skills and techniques, combined with numerous investigative software tools to analyze seized electronic media. Students subject to background investigation prior to admittance.

Credit Hours: 3 hrs

Prerequisite: IA 210

Class Restrictions: Sophomore standing

Previously Listed As: IA 327

Last Updated: 2/10/2011

IA 428 - Digital Forensics II

This advanced course addresses the comprehension and application of Digital Forensic Investigations. Students will evaluate and synthesize technical and legal issues in relation to digital evidence. Students will apply various skills and techniques, combined with numerous investigative software tools to analyze seized electronic media. Students subject to background investigation prior to admittance.

Credit Hours: 3 hrs

Prerequisite: IA 427

Class Restrictions: Sophomore standing

Previously Listed As: IA 328

Last Updated: 2/10/2011

IA 429 - Enterprise Digital Analysis

Credit Hours: 3 hrs

Prerequisite: IA 427 and IA 428

Last Updated: 2/10/2011

IA 430 - Network Forensics

This course will introduce the student to the essential best practices in database security strategies. The student will be provided with the tools, techniques and industry accepted methodologies so that upon completion of the course the student will be able to describe key concepts of database security and how to apply those concepts to securing database management systems within their organization.

Credit Hours: 3 hrs

Prerequisite: IA 427

Class Restrictions: Sophomore standing or higher

Last Updated: New Course 02/2012, effective Fall 2012

IA 441 - Foreign and Domestic Terrorism and Information Warfare

This course provides for the preparation and response to a foreign or domestic act of terrorism including Information Warfare. Students will explore the technology of weapons of mass destruction, how to prepare their communities, respond to the incident, and mitigate the effects of a terrorist act.

Credit Hours: 3 hrs

Previously Listed As: SSC441

Last Updated: 2/10/2011

IA 442 - Cyber Intelligence

Cyber intelligence analysis training. Students will examine concepts of cyber warfare attacks and threats to critical systems. Students will also examine government, military, and business responsibility through a centric approach to include security, law enforcement, and intelligence applications. Intelligence software will be introduced for link analysis.

Credit Hours: 3 hrs

Prerequisite: IA 240

Class Restrictions: Sophomore standing or higher

Last Updated: New Course 02/2012, effective Fall 2012

IA 445 - Ethical Hacking and Offensive Security

This course will use hacking techniques used by malicious, black hat hackers as a means to learn best defense from these same hackers. The course is an in-depth study using hands-on lab exercises. While these hacking skills can be used for malicious purposes, this class teaches you how to use the same hacking techniques to perform a white-hat, ethical hack, on your organization.

Credit Hours: 3 hrs

Prerequisite: IA 103 and IA 210

Last Updated: Links 05/2011

IA 455 - Incident Response

This course will introduce the student to the essential aspects of information security and incident response. The student will be provided with the tools, techniques and industry accepted methodologies so that upon completion of the course the student will be able to describe key concepts of network security and incident response and how those concepts apply to themselves and their organization.

Credit Hours: 3 hrs

Prerequisite: IA 430

Previously Listed As: IA 455 - Network Security Hardening

Last Updated: Title/Course Description/Prerequisite Change 02/2012, effective Fall 2012

IA 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/10/2011

IA 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 480 - SQL Database Security

This course will introduce the student to the essential best practices in database security strategies. The student will be provided with the tools, techniques and industry accepted methodologies so that upon completion of the course the student will be able to describe key concepts database security and how to apply those concepts to securing database management systems within their organization.

Credit Hours: 3 hrs

Prerequisite: IA 210

Class Restrictions: Sophomore standing or higher

Last Updated: New Course 02/2012, effective Fall 2012

IA 487 - Cooperative Education

Credit Hours: 3 hrs

Last Updated: 2/10/2011

IA 495 - Networks: Implementation and Evaluation

The course focuses on implementing and evaluating network systems that deliver information services and resources. Emphasis is on implementation based on current theories of innovation and change and on development of evaluation criteria. Testing information security and service delivery is included. Students will evaluate an actual or hypothetical end-user system.

Credit Hours: 3 hrs

Prerequisite: IA 344

Previously Listed As: NITA 495

Last Updated: 2/10/2011

IA 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr

Prerequisite: department permission

Last Updated: 2/10/2011

IA 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

Last Updated: 2/10/2011

IA 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Legal Assistant

LEGL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LEGL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LEGL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LEGL 211 - Introduction to Paralegalism and Legal Terminology

An overview of the nature of the legal assistant (paralegal) program, with a look at the roles, opportunities, responsibilities and problems encountered. The student is introduced to areas of the law in which the legal assistant may work. Ethical considerations are addressed and legal terminology will be introduced and emphasized. Must be completed in the first 12 hours of the major.

Credit Hours: 3 hrs

Notes: A minimum grade of "B-" is required if taken towards the Legal Assistant (Paralegal) Program.

LEGL 212 - Law Office Administration and Technology

This course will teach the fundamentals of law office management and organization, and introduce the student to technologies used in a typical law practice. Subjects covered include: basic principles and structure of law firm management, computerized conflict-checking, timekeeping and accounting systems, marketing issues, ethical issues, and the Michigan Code of Professional Responsibility, administrative and substantive systems in the law office and law practice technology.

Credit Hours: 3 hrs

Prerequisite: BMMT 201

Major Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required.

Last Updated: Links 04/2011

LEGL 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LEGL 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LEGL 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LEGL 304W - Legal Writing, Research and Analysis I (Gen Ed Area I, W)

This course is designed to develop basic skills in analyzing legal problems, researching those problems and searching for legal authority. Students are also introduced to primary and secondary legal resources. Emphasis is given to preparing and writing legal memoranda. Extensive use of library law materials is required.

Credit Hours: 3 hrs

Prerequisite: ENGL 121 and BMMT 123 (majors only)

Notes: A minimum grade of "C+" is required if taken towards the Legal Assistant (Paralegal) Program

Last Updated: Links 03/2011

LEGL 305 - Advanced Legal Writing, Research and Analysis II

This course will build upon skills acquired in LEGL 304W. Students will be introduced to computerized research sources with a special emphasis on LEXIS and Westlaw. Discussion will also focus on the state appellate process. Students will learn how to prepare an appellate brief and do online legal research to complete their brief. Special emphasis will be placed on students improving their legal writing techniques.

Credit Hours: 3 hrs

Prerequisite: BMMT 201 or equivalent; ENGL 121; LEGL 304W

Major Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required.

Last Updated: Links 04/2011

LEGL 311 - Probate, Estates and Wills

The student will study the probate code and probate procedures, descendants' estates, death and inheritance taxes, and other related problems. Special attention will be given to wills and how wills are drafted.

Credit Hours: 3 hrs

Prerequisite: LEGL 211

Major Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required.

Last Updated: Links 04/2011

LEGL 313 - Family Law

A basic introduction to the areas of domestic law, including such subjects as divorce, adoption, abortion, parental rights, children's rights, child abuse, neglect and guardianship. The course will be directed toward the legal assistant's role in preparing court documents and other tasks of the paralegal in this area.

Credit Hours: 3 hrs

Prerequisite: LEGL 211

Major Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required.

Last Updated: Links 04/2011

LEGL 315 - Land Transaction and Real Estate for Paralegals

Introduction to the skills needed to assist an attorney in representing clients in real property transactions, including closings for purchase/sale of residential property; examining issues of ownership of real property; financing real property transactions; and the landlord-tenant relationship in leasing real property.

Credit Hours: 3 hrs

Prerequisite: LEGL 211 or LAW 293

Class Restrictions: Sophomore standing

Last Updated: Links 04/2011

LEGL 320 - Cyber Law and Compliance

An in-depth examination of the law dealing with computers and the Internet, including such issues as intellectual property, electronic commerce, information privacy, freedom of expression, cybercrime and jurisdiction. Included are detailed analyses of significant legal case studies plus review of applicable federal and state legislation.

Credit Hours: 3 hrs

Previously Listed As: LEGL 413 Internet Law

Last Updated: Number and Title Change 10/2012;effective Winter 2013

LEGL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LEGL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LEGL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LEGL 400 - Advanced Legal Writing, Research and Analysis III

This course will build upon the skills learned in LEGL 304W and LEGL 305. Students will refine their legal writing skills through critical thinking by integrating legal analysis, writing, and research. Plain English will also be discussed. Competency in computer assisted legal research is required.

Credit Hours: 3 hrs

Prerequisite: LEGL 304W and LEGL 305

Major Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required.

Previously Listed As: LEGL 306

Last Updated: Course Number and Description Change 05/2012, effective Fall 2012; Links 04/2011

LEGL 404 - Court Rules, Forms and Drafting Contracts

Study will be made of Michigan court rules and court forms commonly used in the Michigan court system. Students will do problems preparing court forms for a variety of legal actions. Students will also study contract law and learn to draft documents.

Credit Hours: 3 hrs

Prerequisite: LEGL 304W

Major Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required.

Last Updated: Links 04/2011

LEGL 405 - Civil Litigation, Investigation and Procedure I

A study of the law and litigation techniques in personal injury cases. Students will become acquainted with such torts as assault, battery, false imprisonment, defamation and strict product liability. Study will be directed particularly to the fields of negligence and medical malpractice.

Credit Hours: 3 hrs

Prerequisite: LEGL 404

Major Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required.

Last Updated: Links 04/2011

LEGL 406 - Civil Litigation, Investigation and Procedure II

A comprehensive survey of civil litigation and procedure. The student will be introduced to every phase of litigation starting with the filing of the lawsuit through the appellate process. The student will be expected to draw up a complaint and a number of pleadings, as well as drafting interrogatories and digesting depositions. Legal investigations will be addressed.

Credit Hours: 3 hrs

Prerequisite: LEGL 405

Major Restrictions: Legal Assistant (Paralegal) majors only

Notes: A minimum grade of "C" is required.

Last Updated: Links 04/2011

LEGL 414 - Legal Assistance Center Clinical Experience

Student work at the Washtenaw County-Eastern Michigan University Legal Assistance Center providing legal assistance to people with basic legal problems. All student work must be done under attorney supervision, and students may not engage in activities that constitute the unauthorized practice of law.

Credit Hours: 3 hrs

Prerequisite: LEGL 211, LEGL 304W and LEGL 404; department permission

Concurrent Prerequisite: LEGL 311, LEGL 313 and LEGL 405

Major Restrictions: Legal Assistant (Paralegal) Majors only

Last Updated: Links 04/2011

LEGL 415 - Bankruptcy Law

A study will be made of the Federal Bankruptcy Code, with emphasis on Chapters 7, 11 and 13. Students will learn how to prepare the necessary papers for filing for bankruptcy.

Credit Hours: 3 hrs

Prerequisite: LEGL 304W

Last Updated: Links 04/2011

LEGL 416 - Legal Assistant Internship

Students work with law firms, courts, corporations, etc, for on-the-job training as a legal assistant. Each student will have a supervisor on the job and a faculty supervisor. The latter will consult with students individually or in a group meeting. A written report is required upon completion of the internship.

<http://www.emich.edu/cot/internships.htm>

Credit Hours: 3-6 hrs

Prerequisite: LEGL 211, LEGL 304W, LEGL 305, LEGL 404, LEGL 405 and permission of instructor; Must have completed required courses in the curriculum

Class Restrictions: Legal Assistant (Paralegal) Majors only

Notes: A minimum grade of "C" is required Where appropriate criteria are met; Cooperative education can be substituted for an internship.

Last Updated: Links 04/2011

LEGL 418 - Women and Law

A critical analysis how gender, as an element of the American legal system, impacts the lives of women. Major U.S. cases and state and federal laws will be evaluated and challenged as appropriate.

Credit Hours: 3

Prerequisite: One of the following: LAW 293, LEGL 211, PLSC 301, or WGST 200

Last Updated: 05/2006

LEGL 477 - Special Topics

An exploration and study of topics not covered in other program offerings. Student may elect more than once.

Credit Hours: 1 hr

LEGL 478 - Special Topics

An exploration and study of topics not covered in other program offerings. Student may elect more than once.

Credit Hours: 2 hrs

LEGL 479 - Special Topics

An exploration and study of topics not covered in other program offerings. Student may elect more than once.

Credit Hours: 3 hrs

LEGL 497 - Independent Study

Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.

Credit Hours: 1 hr

LEGL 498 - Independent Study

Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.

Credit Hours: 2 hrs

LEGL 499 - Independent Study

Students pursue some special area of study or experimentation under the direction of a designated faculty member from the department.

Credit Hours: 3 hrs

Public Safety

PS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 04/2011

PS 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: Department permission

School of Technology Studies

STS 150 - Understanding Technology

An introduction to the discipline of technology focusing on technological concepts and problems. Several technological systems and their dynamics, particularly as they relate to global issues and culture, will be examined.

Credit Hours: 3 hrs

STS 170L - Global Technologies (Gen Ed Area III)

Students analyze and synthesize information from diverse sources to explore how communications, energy and medical technologies influence cultural interactions. Students explore the issues of intolerance, along with historical, social and cultural differences and how they affect interactions with those cultures in order to make informed decisions.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

STS 170 Global Technologies [effective Winter 2008]

STS170 meets the general education requirement for Global Awareness by exploring the choices people made in the past and the choices today's students will have to make in the near future with regard to energy, medical and communication technology. Students analyze examples of the impact of technological change in energy and medicine and develop consideration for other cultures when making decisions. They apply the lessons learned from historical examples in energy technology and medical technology to emerging issues related to alternative energy and communication technology. After completing the course, students

should have a better understanding of the international impact of technological change and a better idea of how to anticipate and cope with changes caused by new technologies in ways that consider the effect of their choices on other cultures.

Last Updated: Links 09/2011

STS 201 - Microcomputer Applications in Technology

An introduction to microcomputers and their applications in technology. The course contains an introduction to word processing, spreadsheets, database management and their applications.

Credit Hours: 3 hrs

Prerequisite: basic keyboard skill is recommended

STS 202 - Disabled in the U.S.A. - Rights, Prejudice, Claims and Responsibilities

Examines responsibility of society from legal perspective towards persons with disabilities, including intensive examination of their rights in all aspects of society, their challenges and strategies for successful integration in diverse settings. Explores skills necessary to assist in protecting rights and assist in defending lawsuits filed by the disabled.

Credit Hours: 3 hrs

STS 224 - Solving Quantitative Problems in Technology (Gen Ed Area II)

Application of computer-based tools and procedures to the solution of mathematical problems encountered in technology.

Credit Hours: 3 hrs

Last Updated: Gen Ed Approval 10/2006, effective Winter 2007

STS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

STS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

STS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

STS 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

STS 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

STS 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs
Prerequisite: Department permission
Last Updated: Links 03/2011

STS 300W - Research and Writing: The Technology Career Perspective (Gen Ed Area I, W)

Focuses on research and writing in technology career fields. Students analyze documents, writing standards, and audiences. They integrate research findings to construct effective arguments. Genres include policies, procedures, reports, and presentations for the workplace and for community, professional, and governmental bodies. Assignments are customized to School of Technology Studies majors.

Credit Hours: 3 hrs
Prerequisite: ENGL 121
Class Restrictions: Junior standing

Last Updated: Links 03/2011

STS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: Department permission
Last Updated: Links 03/2011

STS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

STS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

STS 387 - Cooperative Education

Credit Hours: 3 hrs

STS 420 - Women and Technology

This course surveys gender issues surrounding technology development, transfer and use. We will examine these issues from historical, contemporary and global perspectives.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Cross-Listed with: WGST 420

Last Updated: Graduate Credit 07/2011; Links 03/2011

STS 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prerequisite: Department permission

Last Updated: Links 03/2011

STS 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

STS 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

STS 487 - Cooperative Education

Credit Hours: 3 hrs

STS 495 - Technology, Values, and the Future

The development of modern technological society: major breakthroughs in the physical and life sciences, the influence of some of these breakthroughs on technological development, the consequent shaping of new world views and, hence, values in contemporary and future societies. Interrelationships between technology and political, socioeconomic and environmental systems; the relationship between technology and values.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

STS 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Simulation, Animation and Gaming

SAG 105 - Introduction to Simulation, Animation and Gaming

This course will be an overview of the software and hardware associated with simulation and gaming. It will also explore the creativity and development skills necessary. It is an introductory overview of the electronic game development process and underlines its history, content creation strategies and future trends in the industry.

Credit Hours: 3 hrs

SAG 155 - Illustrator

This course is an introduction of illustrator software features. This class prepares students with the aptitude to use an innovate process in order to produce artistic work for use in print, multimedia, and web creations. In addition, students will combine Illustrator with Adobe products to further enhance their media production abilities. Emphasis of the class will be on techniques, aesthetics and creative imagery for all medium types.

Credit Hours: 3 hrs

Last Updated: New Course, 11/2012, effective Winter 2013

SAG 175 - Graphics for Simulation I

This course is an introduction to the development of graphics for simulation. Students will develop skills involved in the principle of realistic graphics from a variety of views. The main focus will be on the comprehension and creation of accurate 2-dimensional graphics for use and development of 3-dimensional models.

Credit Hours: 3 hrs

SAG 225 - Graphics for Simulation II

In this course, students continue their application of graphics for construction and refinement of 3-dimensional models to develop a variety of high quality 3-dimensional objects. Students will develop a number of computer simulation applications using 3-dimensional graphic and beginning multimedia software.

Credit Hours: 3 hrs

Prerequisite: SAG 175

Last Updated: Links 04/2011

SAG 235 - Flash I

This course is an introduction to Flash software features. The main focus of the class will be on designing Flash projects, working with animation, creating interactive files and incorporating sound and video files. Students will be introduced to the techniques of optimization, publishing to the Web and ActionScript programming.

Credit Hours: 3 hrs

Prerequisite: CMT 131

Last Updated: Links 04/2011

SAG 245 - Story Development

This course examines how to create an engaging, effective story while relating the practical considerations of building a simulation, animation or game. Emphasis will be placed on traditional narrative development as well as interactive design necessary for game development. Techniques such as storyboarding and flow-charting for interaction are introduced.

Credit Hours: 3 hrs
Prerequisite: ENGL 121
Last Updated: Links 04/2011

SAG 255 - SAG Movement

Simulation, Animation and Gaming (SAG) Movement specifically teaches how humans, animals, insects, and microbes move in both realistic and SAG settings. SAG Movement involves project-based application and crossover of life science principles to simulation, animation and gaming contexts. It is required of SAG Majors but also open to student from other majors.

Credit Hours: 3 hrs
Prerequisite: SAG 105
Last Updated: New Course, 11/2012, effective Winter 2013

SAG 275 - Texturing and Mapping

This course focuses on learning the techniques and constraints used to create textures for 3-dimensional models and environments used in gaming and simulation. Through instruction and lab, this course provides basic principles, research tools, techniques and in-depth tutorials of texturing and mapping.

Credit Hours: 3 hrs
Prerequisite: CMT 205
Last Updated: Links 04/2011

SAG 285 - Studio I Simulation

This course is a practical survey covering the principles of simulation. Multimedia exercises are explored and students learn to use a variety of techniques to produce games and simulation situations using software, such as 3-D Max. Students will use their graphics skills to build 3-dimensional models and simulate them in different settings.

Credit Hours: 3 hrs
Prerequisite: SAG 225
Last Updated: Links 04/2011

SAG 295 - SAG Rigging

This course is an introduction of Character Rigging. This class prepares students with the aptitude to use industry standard processes in order to produce hierarchical bone structures to easily control three dimensional models. In addition, students will combine the knowledge gained from SAG Movement and Studio 1 further in the course to become more knowledgeable in 3D Studio Max. Emphasis of the class will be on techniques, workflows, naming conventions and organization of the rigging process.

Credit Hours: 3 hrs
Prerequisite: SAG 255 and SAG 285
Last Updated: New Course, 11/2012, effective Winter 2013

SAG 305 - Environment Design

This course focuses on the creation of virtual spaces and environments that you move through in games or simulations. Through instruction and tutorials, this course introduces the techniques used for creating detailed interiors, landscapes, cityscapes and

nature assets for those environments.

Credit Hours: 3 hrs

Prerequisite: SAG 285

Class Restrictions: Junior or Senior standing

Last Updated: Links 04/2011

SAG 325 - Principles of Animation

This course teaches the principles of animation and prepares students with the aptitude to use industry standard processes in order to produce visually realistic three dimensional animations using industry standard software. In addition, students will combine the knowledge gained from SAG movement and rigging in the course to become more knowledgeable in 3D studio Max. Emphasis of the class will be on techniques, workflows, theories and organization of the animation process.

Credit Hours: 3 hrs

Prerequisite: SAG 295

Last Updated: New Course, 11/2012, effective Winter 2013

SAG 335 - Flash II

The focus of this class is a continued study of Flash. In this class, the students will learn important steps using the illustrative tools of the software. Topics include techniques for drawing photorealistic vector illustrations for game art.

Credit Hours: 3 hrs

Prerequisite: SAG 235

Class Restrictions: Junior or Senior standing

Last Updated: Links 04/2011

SAG 355 - Lighting and Camera Techniques

This course covers the concepts, theoretical aspects and techniques necessary to create convincing digital lighting. Also covered are camera techniques to produce realistic and dramatic visual presentations and how to effectively utilize these in any simulation.

Credit Hours: 3 hrs

Prerequisite: CMT 205

Last Updated: Links 04/2011

SAG 365 - Flash III

This class advances the student's skills with Flash by using ActionScript to produce interactive games. The coding covered are the principles of animation, math and physics concepts, interaction from input devices, data collection, render methods and sound effects. Students in this class will produce and publish an animated game.

Credit Hours: 3 hrs

Prerequisite: SAG 335

Class Restrictions: Junior or Senior standing

Last Updated: Links 03/2011

SAG 375 - Studio II

A continued study of 3-dimensional graphics and multimedia software used for simulation. Students will advance their skills to create 3-dimensional simulation models in different realistic environments. Topics covered in this hands-on course include creating natural elements and special effects such as fire, earth, air and water.

Credit Hours: 3 hrs

Prerequisite: SAG 285

Class Restrictions: Junior or Senior standing

Last Updated: Links 04/2011

SAG 470 - Simulation and Animation Dynamics

This course focuses on a host of constraints used to create accurate physical relationships between rigid-body and soft-body objects for simulations and animation. The techniques taught are used to create high-speed simulations with interactions between multiple objects with control over mass, friction and elasticity.

Credit Hours: 3 hrs

Prerequisite: PHY 221

Class Restrictions: Junior or Senior standing

Last Updated: Links 03/2011

SAG 485 - Senior Projects in SAG

The application of simulation, animation and gaming techniques for the completion of a team based final project. Also covered will be a discussion of necessary skills for career success. Guest speakers and site visitations will be part of the class.

Credit Hours: 3 hrs

Prerequisite: SAG 470

Corequisites: Junior or Senior standing

Cross-Listed with: COSC 485

Last Updated: Links 03/2011

Technology Education

TEDU 104 - Modeling, Automation, and Energy

A middle school approach demonstrating how to excite students with hands-on Science-, Technology-, Engineering-, and Mathematics-related (STEM) activities. Future teachers will discuss, demonstrate and develop hands-on units of study surrounding design and modeling, automation and robotics, and power and energy. Safety practiced while developing teaching skills.

Credit Hours: 3 hours

Last Updated: New Course 08/2011, effective Fall 2011

TEDU 105 - History of Industrial Technology

An introduction to the history of industrial technology. The development of industry and its impact on the other arts and culture in general. Basic principles of design in industrial and home arts, and the eotechnic, paleotechnic, neotechnic and atomic periods of technology.

Credit Hours: 3 hrs

TEDU 106 - Processing Technology

An introduction to tools, materials, and processes and their application to discrete and integrated systems of technology. Interrelationships between humans and machines will be studied to develop the student's ability to transfer knowledge of processes from one environment to the other.

Credit Hours: 3 hrs

TEDU 107 - Flight, Electronics, and Science of Technology

A middle school approach demonstrating how to excite students with hands-on Science-, Technology-, Engineering-, and Mathematics-related (STEM) activities. Future teachers will discuss, demonstrate and develop hands-on units of study surrounding flight, electricity/electronics, and science of technology. Safety practices while developing teaching skills.

Credit Hours: 3 hrs

Last Updated: New Course 03/2012

TEDU 114 - Information and Control Technology

Access, manage and control information and technology through the application of technological systems. Design and construct models, devices and mechanisms that will process information and control technology through the use of machines and humans.

Credit Hours: 3 hrs

TEDU 152 - Arts and Crafts

Experience in design and use of a wide variety of craft materials. A vocational and recreational use of craft media.

Credit Hours: 3 hrs

TEDU 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 246 - Safety in Technology and Vocational Education

Safety, health and environmental factors and their implications for technology and vocational educators, students, laboratories and instructional programs.

Credit Hours: 2 hrs

TEDU 250 - Foundations of Technology, Vocational, and Engineering Teacher Education

An introduction to the foundations and implementations of technology, vocational and engineering teacher education. Past, present, and future developments in the profession will be studied through lectures, discussions, seminars, micro-teaching, school visitations, and pre-student teaching activities.

Credit Hours: 3 hrs

Last Updated: Title and Course Description Change 11/2011, effective Winter 2012

TEDU 253 - Technology Education for Children

Content and methods which enable the elementary teacher to assist children in learning about the concepts, processes, systems and impacts of technology. Individual and group laboratory activities involve applications of technology with other subject areas through problem solving experiences.

Credit Hours: 3 hrs

TEDU 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 345 - Teaching Energy and Transportation in Technology and Engineering Teacher Education

Forms, sources, and uses of past, present, and future energy and transportation systems and their relationships to technology and engineering. Description of technology and engineering systems that transform, transmit, store, control and/or utilize energy and/or transportation. Other topics include principles of engineering conservation, and K-12 education instructional methods.

Credit Hours: 3 hrs

Prerequisite: TEDU 340, PHY 221, PHY 222

Previously Listed As: TEDU 118 - Energy and Transportation Technology

Last Updated: Number/Title/Description/Prerequisite Change 12/2011, effective Winter 2012.

TEDU 350 - Curriculum in Technology, Vocational, and Engineering Teacher Education

Curriculum bases, the derivation of content, the formulation of objectives, the selection and organization of learning activities, and the selection and development of procedures for evaluating K-12 education technology, vocational, and engineering students and programs.

Credit Hours: 3 hrs

Prerequisite: TEDU 250

Major Restrictions: Admission to the College of Education

Last Updated: Title/Course Description/Prerequisite Change 11/2011, effective Winter 2012; Links 03/2011

TEDU 354 - Experiences in Technology for Children

Laboratory experiences in the use of materials, tools, processes and products of industry as utilized in the elementary and middle school. Emphasis is on individual and group learning situations relevant to integrated curriculum activities.

Credit Hours: 2 hrs

Prerequisite: TEDU 253

Last Updated: Links 03/2011

TEDU 355 - Seminar in Technology for the Elementary School

Practical experiences in integrating concepts of technology with existing elementary and special education curricula. Students will design, conduct and evaluate manipulative activities for and with children.

Credit Hours: 2 hrs

Prerequisite: TEDU 354

Last Updated: Links 03/2011

TEDU 358 - Tools and Materials

Experiences in the use of selected tools, machines and materials following contemporary therapeutic practices in occupational therapy and related professions.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.

TEDU 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 387 - Cooperative Education in Technology Education

Technology education majors will be placed on a job that relates to their primary area of study for one semester. During this period regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: Department permission

Major Restrictions: Technology Education Majors only

Notes: Offered on a credit/no-credit basis.

Last Updated: Links 03/2011

TEDU 450 - Capstone in Technology and Engineering Teacher Education

A capstone experience in the components of the technology and engineering education curriculum. Student applies problem-solving and engineering techniques to arrive at solutions to technological and engineering problems.

Credit Hours: 3 hrs

Prerequisite: TEDU 350

Last Updated: Course Revision 11/2011, effective Winter 2012; Links 03/2011

TEDU 452 - Principles of Vocational Education

Concepts and principles of vocational education; current issues in vocational education in Michigan.

Credit Hours: 3 hrs

Prerequisite: TEDU 350

Last Updated: Links 03/2011

TEDU 460 - Methods of Teaching Technology, Vocational, and Engineering Education

Direct involvement in solving teaching and learning problem in K-12 technology, vocational, and engineering education. Emphasis upon developing appropriate strategies for managing the classroom and laboratory environments.

Credit Hours: 3 hrs

Prerequisite: TEDU 350

Class Restrictions: Junior or Senior standing only

Last Updated: Title and Course Description Change 11/2011, effective Winter 2012; Links 03/2011

TEDU 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 487 - Cooperative Education in Technology Education

The second in a two-course sequence for technology education majors. The students will be placed on a job that relates to their primary area of study for one semester. Regular employee benefits may be received.

Credit Hours: 3 hrs

Prerequisite: TEDU 387 and Department permission

Major Restrictions: Technology Education Majors only

Last Updated: Links 03/2011

TEDU 497 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 498 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TEDU 499 - Directed Study—Technology Education

Available to select students who have demonstrated ability to profit from a directed study project. Intensive study of a problem appropriate to the student's area of concentration. Enrollment and selection of a project proposal must be approved by the department adviser-chair.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

Technology Management

TM 130 - Introduction to Technology Management

This course will provide the student with an understanding of technology management issues and introduce them to the necessary aspects required to manage a technological enterprise.

Credit Hours: 3 hrs

TM 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

TM 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

TM 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

TM 212 - The Management of Technological Change

The implementation of new technology within organizations often requires substantial changes in organizational, group and individual work processes. This course will present change frameworks that enhance the effectiveness and efficiency of technology change and implementation. It will integrate materials from several disciplines including organizational development, management, industrial engineering and organizational science.

Credit Hours: 3 hrs

TM 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

TM 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

TM 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

TM 285 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: department permission

TM 286 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: department permission

TM 287 - Pre-Professional Internship

One semester of practical, on-the-job work experience and training at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: department permission

TM 306 - Quantitative Analysis of Sustainability Issues (Gen Ed Area II)

Quantitative analysis of issues and technologies related to sustainable use of limited resources such as energy, fresh water, arable land, forests, and clean air. Students extrapolate resource usage and population trends, make numerical comparisons of alternative technologies, interpret statistical studies, analyze raw data, and compare costs of implementation using financial models that

predict cash flow and payback.

Credit Hours: 3 hrs

Prerequisite: One of the following: MATH 104 with a grade of "C" or higher, or an ACT math score of 23 or higher, or an SAT math subscore of 580 or higher, or an EMU CLM placement score of 53 or higher, or MATH 110, or MATH 110E, or any other course that satisfies Quantitative Reasoning requirement.

Class Restrictions: Junior standing or higher

Area II: Quantitative Reasoning

TM 306 Quantitative Analysis of Sustainability Issueses

Transitioning from a dramatically increasing world population that is using diminishing natural resources into a stable, sustainable society is one of the most important challenges facing human kind in this century. The future availability of limited resources such as energy, food, fresh water, and clean air will depend on what technologies we choose to use and understanding the results of those choices. Most discussions about creating a sustainable society use qualitative reasoning to set appropriate goals but this is only the first step. To implement those goals, it is vitally important to choose appropriate technologies. This course applies the tools of quantitative reasoning to the choices that must be made between competing technologies to achieve those goals with our limited financial resources in the time we have available.

Last Updated: Gen Ed Approval 03/2012, effective Fall 2012; New Course 02/2012

TM 308 - Seminar in Technological Impacts

An undergraduate-level introduction to technology assessment. Development of skills related to forecasting technological inventions and assessing their effect if adopted by society.

Credit Hours: 3 hrs

TM 311 - Information Technology Management and Organizations

This course will introduce the student to the varying aspects of information technology management in organizations. Emphasis will be placed on the technical and organizational foundations of information systems along with contemporary approaches to building and managing information systems and their respective support systems.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or proficiency exam only

TM 314W - A Socio-Technical Systems Approach to Process Improvement (Gen Ed Area I, W)

The purpose of this course is to describe an approach to process improvement that integrates technical aspects of industrial engineering with social psychological dimensions of work processes. The course will delineate ideas for strategically incorporating technology levers into plans for improving work processes on an individual and work group level.

Credit Hours: 3 hrs

Concurrent Prerequisite: TM 130

TM 314W A Socio-Technical Systems Approach to Process Improvement is a writing intensive course designed to equip Technology Management graduates with those writing skills which are peculiar to the goals and directives peculiar to process improvement. As our graduates move into the workplace they will find themselves writing documents intended for both internal and external audiences, such as procedure and policy papers, white papers (or other authoritative reports), interdepartmental memos, business letters, professional emails and written proposals. Graduates will not only be expected to have a working knowledge of the syntactical standards for such documents, but also with the structure and conventions that said documents will

be expected to satisfy. In TM 314W you will learn to tailor your writing to meet the demands and expectations of specific audiences, research topics that are relevant to the field, and build and deliver persuasive arguments relating to process improvements.

Last Updated: Gen Ed Approval 05/2011, effective Fall 2011

TM 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

TM 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

TM 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

TM 387 - Cooperative Education

Credit Hours: 3 hrs

TM 402 - Technology Project Management

A study of the core subjects of project management as they relate to the management of technology-oriented projects using communication technologies that enable virtual teams to function in a global work environment.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

TM 415 - Senior Seminar in Technology Management

This course will allow students to synthesize the structure and procedures of strategic management and project management. The course will integrate the ideas and information presented in other courses within the technology management concentration core. Students will demonstrate their ability to integrate information ascertained from previous classes within a capstone project.

Credit Hours: 3 hrs

Prerequisite: TM 130

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 06/2011

TM 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

TM 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

TM 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

TM 487 - Cooperative Education

Credit Hours: 3 hrs

TM 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 1 hr

Prerequisite: department permission

TM 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 2 hrs

Prerequisite: department permission

TM 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not offer a formal course.

Credit Hours: 3 hrs

Prerequisite: department permission

Academic Affairs Programs and Courses

Academic Programming

Pre-Professional Studies

Pre-Architecture Program

This program is designed for students who wish to transfer to an architecture program at another university. Students are strongly advised to consult with an adviser as soon as possible to select courses and to review admission requirements to architectural school. Typically, a student will transfer to an architectural school after a maximum of two years. Department advisers at EMU maintain contact with universities that offer related four-year programs in order to maximize the value of the transfer program of study at the University to other universities. Students planning to transfer to four-year programs should not complete EMU's general education requirements.

Required Courses: 58 hours

- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV) 3 hrs
- CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV) 1 hr
- COSC 111 - Introduction to Programming 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- PHIL 130 - Introduction to Logic 3 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs

One course from the following:

- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs
- PLSC 113 - American Government Honors (Gen Ed Area IV) 3 hrs

Two Literature courses: 6 hours

Recommended Courses (course may not transfer): 2 hours

- CNST 125 - Introduction to Construction 2 hrs

Pre-Dentistry

Most students select either a chemistry major and biology minor or a biology major and chemistry minor as preparation for admission to dental school. The exact requirements for a particular dental school can be found in the publication *Admission Requirements of U.S. and Canadian Dental Schools*, available in the office of the pre-dentistry adviser.

The majority of pre-dental students complete four years of undergraduate work, earning a B.S. degree. Since admission to dental school is very competitive, it is recommended that alternative career plans be a part of every pre-dental student's program.

Students seeking admission to dental school take the Dental Aptitude Test, usually late in the junior year or early in the senior year. Application is generally made between August and December for the class beginning the following fall. Virtually all dental schools require the use of a central agency, the American Association of Dental Schools Application Service, when applying for admission.

Science courses required for admission into most dental schools are listed below. Careful scheduling will allow the student to complete these courses in three years.

Adviser Information:

Program Adviser: Gregg Wilmes

Phone: 734.487.0106

Email: gwilmes@emich.edu

Required Courses: 34 hours

**see note*

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

Notes:

Introductory courses in histology or human physiology, biochemistry and microbiology are recommended. One year of English composition/ literature. On course in sociology, psychology or anthropology.

Dental Hygiene and Dental Assisting

Eastern Michigan University offers no degrees or certificates in these areas. Two-year certificates and four-year degree programs are available at the University of Michigan, Ferris State University and the University of Detroit-Mercy. Two-year programs also are available at numerous community colleges.

Students interested in these programs should plan on transferring after completing their freshman year at EMU. Liberal arts preparation in English composition, speech, chemistry (CHEM 117/118 Fundamentals of Chemistry with lab), psychology, sociology and political science, plus electives in social science, natural science and humanities, generally will be transferable. More specific descriptions of requirements should be obtained by writing to the schools in question since requirements vary from school to school.

Pre-Engineering Program

This program is a two-year program designed for the student who wishes to transfer to an engineering program at another University. Students are strongly advised to consult with the engineering school to which they plan to transfer for specific requirements. Courses taken may apply to other majors at the University if the student chooses to remain on campus to complete a bachelor's degree.

Pre-engineering advisers in the department maintain contact with universities that offer related four-year programs in order to maximize the value of the transfer program of study at the University to other universities. Currently we offer a formal program with the University of Detroit-Mercy and transfer agreements with the University of Michigan in Ann Arbor and the University of Michigan in Dearborn.

An active articulation agreement exists between this program and a community college. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

Required Mathematics Courses: 18 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 325 - Differential Equations 3 hrs

Required Physics Courses: 18 hours

- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs
- PHY 229 - Strength and Elasticity of Materials 4 hrs
- PHY 230 - Engineering Dynamics 4 hrs

Other Required Courses: 16 hours

- One literature course (3 hrs)
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- COSC 246 - Programming in C++ 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs

Electives: 15 hours

**see note*

- More than three credit hours of computer science courses
- More than three credit hours of literature courses
- More than three credit hours of humanities courses
- More than three credit hours of social science courses
- Other courses with consultation
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 341 - Fundamentals of Material Science 3 hrs
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ENGL 225 - Writing in a Changing World 3 hrs
- PHY 360 - Heat and Thermodynamics 4 hrs
- PHY 370 - Introduction to Modern Physics 3 hrs
- PHY 456 - Electronics for Scientists 4 hrs
- PHY 471 - Atomic and Nuclear Physics 3 hrs
- PHY 485 - Fluid Dynamics 3 hrs

Note:

All electives should be chosen in consultation with a pre-engineering adviser. Every engineering program has different requirements. Different fields in engineering (mechanical, electrical, nuclear, chemical, civil, aerospace, environmental, etc) requires different courses. Meeting with a pre-engineering adviser to develop a plan of study will maximize the value of your transfer program.

Pre-Law

Most law schools require a bachelor's degree and evidence of potential for law school as measured by grade point average and the results of the Law School Admission Test (LSAT). In addition, most law school admission officers emphasize the importance of a broad academic background and the development of analytical and communication skills. The Department of Political Science provides counseling for prelaw students, LSAT registration, and application materials and catalogs from many law schools throughout the country.

Because law schools typically do not require specific courses for admission or identify any particular major or curriculum as preferable, it is necessary for prelaw students to plan their own academic programs. Given the increasing competitiveness of admission to law school, it is important that great care be exercised in selecting a program of study appropriate to a legal career and in maintaining a high level of academic performance. It is also prudent to choose a program that will provide a suitable alternative career.

The majors most commonly selected by prelaw students are political science, economics, history and sociology. Other frequent choices include English language and literature, communications, psychology, philosophy and business administration. Although less numerous, students with majors in mathematics, the natural sciences, foreign languages, music, and art also enter law school to enhance their career potential.

Whatever major and minor combination is chosen, attention also should be given to the selection of appropriate elective courses. Generally, any challenging course that will facilitate mastery of the use of language, develop critical understanding of human values and institutions, or contribute to the capacity for independent and creative thinking is likely to be useful. Among specific

courses that are often recommended by prelaw advisers are advanced English composition, persuasive speech, logic and accounting. Mathematics and science courses are frequently cited as helpful in developing needed analytical skills.

Prelaw students who desire to gain greater insight into the law and legal procedures, and law school approaches to legal studies, may choose from a broad range of courses offered by the Departments of Political Science, Sociology, Economics, History and Philosophy, and Marketing. The major and minor in public law and government, offered by the Department of Political Science, provides a firm foundation on which to build a career in law.

Phone: 734.487.3113
Email: bpyle@emich.edu

Pre-Medicine (Allopathic and Osteopathic), Pre-Veterinary, and Pre-Chiropractic, Pre-Optometry and Pre-Podiatry

Students planning on pursuing a career in the medical field can complete course requirements at EMU for admission to medicine, optometry, podiatry, veterinary and chiropractic programs. For information on these programs, see the advising coordinator.

While medical schools do not prescribe a premedical curriculum, they expect a thorough understanding of modern concepts in biology, chemistry and physics, and all value mathematical competence, with some specifying a course sequence in mathematics. Most pre-medical students, therefore, select a major in one of these areas, although this is not mandatory. Students should earn the bachelor's degree prior to admission to medical school.

An important admission requirement for most medical schools, the Medical College Admission Test (MCAT), is given in April and August in various centers throughout the nation. This test should be taken after prerequisites in biology, chemistry and physics are completed, typically during the junior year.

Each allopathic and osteopathic medical school establishes its own admission requirements. The course requirements are similar but differ enough so that students should consult the catalogs of the schools in which they are interested. The latest edition of *Medical School Admission Requirements*, available at the reference desk of Halle library and in the pre-medicine adviser's office, should be consulted. The introductory chapters of this book should be read by every prospective medical student.

If students electing the pre-medicine sequence are not achieving at least a 2.75 GPA (overall and in their major), their chances of acceptance by a medical school are minimal, and they should plan their programs so that other professional or vocational goals are possible.

The following programs have articulation agreements with the colleges listed below. For more information, please contact the department head or the Office of Community College Relations at 229 Rackham Hall, 487.6577. To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

B.S. Pre-Chiropractic — Logan University

Adviser Information:

Program Adviser: Michael Angell
Phone: 734.487.4242
Email: mangell@emich.edu

General Requirements: 60 hours

Students planning to apply for admission to a medical school should plan their schedule to include the following general requirements:

- Elective in English language or literature (3 hrs)
- Sociology and psychology courses (8 hrs)
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- BIO 306W - Cell and Molecular Biology and Genetics Laboratory (Gen Ed Area I, W) 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- CHEM 451 - Biochemistry I 3 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

First Year-Pre-Medicine: 27-39 hours

Because of the nature of the premedical program, if the student is a biology or chemistry major it is almost mandatory to follow the first year as patterned below.

First Semester: 13-19 hours

- Mathematics (2-4 hrs)
**see note
- General education (2-6 hrs)
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

Second Semester: 14-20 hours

**see note*

- Mathematics (2-4 hrs)
**see note
- General education (3-7 hrs)
- BIO 120 - Introductory Biology II 5 hrs
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr

Notes:

* Prior to registering for the second semester, the student should see the premedical coordinator.

** *Students with one to two years of less than high-level algebra take MATH 105 - College Algebra (Gen Ed Area II). Students with only one year of algebra take MATH 104 - Intermediate Algebra, followed by MATH 105. Students without trigonometry take MATH 107 - Plane Trigonometry. Although students may need to take MATH 104, MATH 105 or MATH 107 these courses do not satisfy general education requirements. Students must still complete a mathematics course from the list of approved mathematics courses; biology majors will satisfy both general education and biology major requirements by taking MATH 120.*

Pre-Mortuary Science

The pre-mortuary science program requires two academic years. Before entering the professional mortuary school, the student must complete at least 60 hours of college work that includes the following science and mathematics courses:

Adviser Information:

Program Adviser: Heather Holmes

Phone: 734.487.0106

Email: hholmes1@emich.edu

Recommended Courses

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- MATH 104 - Intermediate Algebra 3 hrs
Another mathematics elective may be substituted.
- PHY 101 - Physical Science in the Arts (Gen Ed Area IV) 4 hrs

Recommended Elective Courses

The Board of Examiners in Mortuary Science recommends the following courses for elective hours. They include behavioral sciences, business, counseling, first aid and public speaking.

- ACC 240 - Principles of Financial Accounting 3 hrs
- COUN 450 - An Introduction: Counseling Concepts and Skills 3 hrs
- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 226 - Nonverbal Communication (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- ECON 200 - The American Economy 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- HLED 210 - Standard American Red Cross First Aid 2 hrs
- LAW 293 - Legal Environment of Business 3 hrs

- MKTG 360 - Principles of Marketing 3 hrs
- MKTG 363 - Retailing 3 hrs
- PSY 225 - Psychology of Religion 3 hrs
- PSY 323 - Psychology of Human Aging 3 hrs
- SOCL 105 - Introductory Sociology (Gen Ed Area IV) 3 hrs
- SOCL 311W - Aging and the Life Course (Gen Ed Area I, W) 3 hrs

Pre-Pharmacy

Two years of college work (60 transferable hours, including the courses listed below) are required for admission to a professional school of pharmacy. Some schools have additional required or recommended courses.

Programs in pharmacy require two to four additional years of study after acceptance into the program. Clinical experience is required for some, especially doctoral programs. These are minimal requirements. To be competitive for some pharmacy programs, students may need to complete a bachelors program. It is strongly advised that students contact pharmacy schools directly to determine whether additional coursework and PCAT exam scores are required.

Adviser Information:

Program Adviser: Tim Friebe

Phone: 734.487.0106

Email: tfriebe@emich.edu

Recommended Courses

- One biology course with a lab (Some schools require additional courses.)
- Two social science courses
- Two humanities courses (two foreign language courses may be substituted.)
- BIO 328 - Introductory Microbiology 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Academic Programming

SABR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

SABR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

SABR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

SABR 277 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 1 hr

SABR 278 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 2 hrs

SABR 279 - Special Topics

A single topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 3 hrs

SABR 377 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 1 hr

SABR 378 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 2 hrs

SABR 379 - Special Topics

One topic is covered each semester, selected as the interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 3 hrs

SABR 477 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 1 hr

SABR 478 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 2 hrs

SABR 479 - Special Topics

A single topic is covered each semester, selected as interest and/or problems change. Students may elect this course several times, provided different topics are studied.

Credit Hours: 3 hrs

SABR 480 - Special Topics

Credit Hours: 4 hrs

Last Updated: New Course 08/2011, effective Fall 2011

SABR 490 - Special Topics

Credit Hours: 8 hrs

Last Updated: New Course 08/2011, effective Fall 2011

UNIV 100L - Introduction to the University (Gen Ed Area V LBC)

This course facilitates students' successful transition to college. Students learn to navigate the University system and to identify and develop strategies for enhancing their learning. Through academically-engaging activities that connect the classroom to the EMU community, students learn how to live and learn in a multicultural environment.

Credit Hours: 1 hr

Last Updated: 11/2006

UNIV 101L - Introduction to the University (Gen Ed Area V LBC)

Restricted to first-time entering freshman and first semester transfer students. This course provides students the information and skills that help make the transition to college more successful. Students learn how to successfully manage the university system,

what study techniques can enhance their grades, and how to live and learn in a multicultural environment. In addition, the classes are small and allow students to develop individual relationships with the faculty/staff teaching team members and other students in the class. This class prepares students for success at EMU and beyond.

Credit Hours: 3 hrs

Class Restrictions: First Term Freshman Only

UNIV 101L extends the orientation experience for first-year students. The course helps students learn and use the skills and sensibilities of successful college students, in and out of the classroom. The course connects students with themselves, others holding a stake in their success, and the University. Students make these connections by completing a variety of assignments involving writing, reading, and learning skills, as well as interviewing and public speaking. In addition, this course satisfies the requirements in Area V: Life Beyond the Classroom by requiring students to participate in at least four cultural and/ or academic events sponsored by an EMU organization.

Last Updated: Links 04/2011

Creative Scientific Inquiry Experience

CSIE 150L - Cyanobacteria in Ford Lake/ Huron River Watershed (Gen Ed Area V LBC)

The focus of the course is an Academic Service-Learning project to characterize the genotype, and conditions for growth of potentially harmful cyanobacteria in Southeast Michigan waterways.

Credit Hours: 1 hr

Corequisites: BIO 110, CHEM 121 and CHEM 122

Last Updated: Links 03/2011

CSIE 177 - Five Miles to Clean Water

Students will investigate various methods for providing clean drinking water in rural developing countries. Challenges include drilling down to the water table, bringing water from miles away, filtering out infectious/toxic contaminants, and water storage. Students will also conduct patent searches and build scaled down models of such devices as the Play Pump, Sono arsenic filter, and the Hippo Water Roller.

Credit Hours: 1 hr

Corequisites: MATH 121 and PHY 223

Last Updated: Links 04/2011

CSIE 177 - Inconvenient Truths

Students will evaluate science topics for clarity, accuracy and misleading information using a variety of media sources including science periodicals, TV, and the internet. Students will prepare PowerPoint presentations for the public or a conference-quality poster to communicate complex information and research findings from the Great Lake Environmental Research Laboratory to the general public.

Credit Hours: 1 hr

Corequisites: CTAC 124, CHEM 117 and CHEM 118

Last Updated: Links 04/2011

CSIE 177 - Super-powered Applications for Elementary Math and Physics

CSIE students will learn how to integrate physics and mathematics content and demonstrate applications through hands on classroom experiences and experiments.

Credit Hours: 1 hr

Corequisites: MATH 108 and PHY 100

Last Updated: Links 04/2011

CSIE 177L - Groundwater Studies (Gen Ed Area I, W)

This course provides students that aspire to be professional scientists with an opportunity to participate in a real-world, environment-based scientific investigation while still at a very early stage of their studies. Investigations will be conducted in collaboration with a local government agency and will focus on sites in southeast Michigan.

Credit Hours: 1 hr

Concurrent Prerequisite: ESSC 110 or BIO 110 or CHEM 121

Last Updated: Links 04/2011

CSIE 277 - Coaching Science Olympiad

This special CSIE seminar trains EMU students to become effective Science Olympiad Coaches and to assist area 6th – 12th grade teams. Science Olympiad is an extra-curricular program with regional, state and national competitions.

Credit Hours: 1 hr

Corequisites: Enrollment in Phase I Content Methods, Literacy and Technology

Last Updated: Course type 07/2011

CSIE 277 - Digitized Motion Studies

In this cluster, calculus and physics students will apply such principles as vector analysis, integrals, velocity, and Newtonian laws to model real-life scenarios. Students analyze digital videos using sophisticated graphing programs to visualize 3-dimensional motion in 2-dimensional equations.

Credit Hours: 1 hr

Corequisites: PHY 223 and MATH 121

Last Updated: Links 04/2011

CSIE 277 - Indicator Species- Stoneflies Search for Huron River Watershed and Friends of Rouge River

This course is intended to complement and integrate the material covered in both BIO120 Introductory Biology II and CHEM 123/124 General Chemistry II. The course will include participation in the Friends of the Rouge's (FOTR) Annual Stonefly Search as an integral academic service-learning project.

Credit Hours: 1 hr

Last Updated: Course type 07/2011

CSIE 377 - Brownbag Organic Analysis

This seminar course will explore relationships between organic chemistry and quantitative analysis, focusing on thermodynamic properties such as pH and pKa, and structures and functions of relevant organic molecules such as indicators for titrations and

analytes.

Credit Hours: 1 hr

Corequisites: CHEM 281 and CHEM 371

Last Updated: Links 04/2011

CSIE 377 - Modeling Concrete Mechanical Systems using MATLAB

An interdisciplinary course on the connections between classical mechanics and differential equations. The seminar will explore the mathematical modeling of various concrete mechanical systems using differential equations and software.

Credit Hours: 1 hr

Corequisites: MATH 325 and PHY 330

Last Updated: Links 04/2011

Study Abroad

SABR 470 - Study Abroad at JCMU -Japan (NEW COURSE)

Credit Hours: 13

Last Updated: New Course 8/2012

SABR 471 - Study Abroad at JCMU -Japan (NEW COURSE)

Credit Hours: 14

Last Updated: New Course 8/2012, effective Winter 2013

SABR 472 - Study Abroad at Tokyo Gakugei University-Japan (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Winter 2013

SABR 473 - Study Abroad at Tokyo Gakugei University (GEN)-Japan (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Fall 2012

SABR 474 - Study Abroad at Kansai Gaidai-Japan (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Fall 2012

SABR 475 - Study Abroad at University Of Derby-United Kingdom (NEW COURSE)

Credit Hours: 12

Last Updated: New Course 8/2012, effective Fall 2012

SABR 476 - Study Abroad at Oxford Brooks University-United Kingdom (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Fall 2012

SABR 481 - Study Abroad at ICN Business School-France (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Winter 2013

SABR 482 - Study Abroad at Universite Catholique de L'Ouest-France (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Winter 2013

SABR 483 - Study Abroad at RUGroningen (FA)-The Netherlands (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Winter 2013

SABR 484 - Study Abroad at RUGroningen (FEB)-The Netherlands (NEW COURSE)

Credit Hours: 15

Last Updated: New Course 8/2012, effective Winter 2013

SABR 485 - Study Abroad at JLU Giessen-Germany (NEW COURSE)

Credit Hours: 14

Last Updated: New Course 8/2012, effective Winter 2013

SABR 486 - Study Abroad at Korea University, Sejong-Korea (NEW COURSE)

Credit Hours: 12

Last Updated: New Course 8/2012, effective Winter 2013

SABR 491 - Study Abroad at University of Derby (NEW COURSE)

Credit Hours: 16

Last Updated: New Course 8/2012, effective Winter 2013

SABR 492 - Study Abroad at Curtin University (NEW COURSE)

Credit Hours: 12

Last Updated: New Course 8/2012, effective Winter 2013

SABR 493 - Study Abroad at CC-CS, Alicante, Spain

Students that opt for this course of study attend classes alongside other international students for whom Spanish is not their first language.

Designed as a language-intensive program at the intermediate to advanced Spanish levels, you will benefit from a rich language-

focused curriculum, taught by professors at *Universidad de Alicante* (UA). Spanish Studies students in this program also benefit from a unique culture course taught by the Resident Director called Social & Cultural Realities of Spain. This course allows you to synthesize your immersion experience from understanding daily life in the home stay to the historic and sociological foundations of Spain's current social reality.

Credit Hours: 18 hrs

Last Updated: New Course, 12/2012, effective Winter 2013

SABR 495 - Study Abroad, Novancia, Paris-France

The courses taken at the Novancia Business School appear on the EMU transcript as EMU courses. Students may select courses to count towards a major, minor or General Education requirements, with approval from the appropriate department. Students may attend for one or two semesters.

Credit Hours: 15 hrs

Last Updated: New Course, 11/2012, effective Winter 2013

SABR 496 - Study Abroad at CC-CS, Alicante, Spain

Credit Hours: 16 hrs

Last Updated: New Course, 12/2012, effective Winter 2013

SABR 497 - Study Abroad at JLU-Giessen, Germany

Credit Hours: 16 hrs

Class Restrictions: 3.0 GPA, and sophomore standing or above with completion of at least two semesters of study at EMU prior to departure.

Major Restrictions: Priority is given to German Language Majors.

Last Updated: New course 1/2013; effective Winter 2013

Other Courses

SABR 494 - Study Abroad, EMU-Oxford Program-UK

Eastern Michigan University operates an integrated academic study abroad program in Oxford. The EMU Oxford Program places students into one of a number of Oxford Colleges, including; Christ Church, Hertford College, New College, and St. Catherine's College.

Instruction is provided by Oxford University faculty and is based on the same individualized tutorial system that makes Oxford University one of the most distinguished educational institutions in the world. With on-campus advisers and on-site staff in Oxford, EMU ensures a unique and challenging academic experience. The staff in the office of Academic Programs Abroad are your first point of contact and can answer all your questions. The Oxford staff conducts an on-site orientation, coordinates housing and excursions, as well as works closely with faculty and advisers from many Oxford University Colleges to assure a high quality personal and academic experience.

Credit Hours: 12 hrs

Last Updated: New Course, 12/2012, effective Winter 2013

Confirming Student LBC Participation

LBC Approved Experiences

- Students enrolled in **approved LBC courses**
 - automatically confirmed upon successful completion of the course
- Events and experiences where **student rosters** exist (e.g., coached sports)
 - final rosters (with student E#) should be submitted to General Education Office for upload into Banner
- **Non-course related community service**
 - coordination and confirmation will be done through the VISION office
- **Co-ops, internships**, student teaching, practicums, clinicals (and other course-related field experiences identified and approved through the Gen Ed Office)
 - students satisfactorily completing these courses will be automatically confirmed as meeting LBC(4) – Career and Professional Development
- **Approved non-course related experiences** (e.g., Echo editor; Wellness Wheel; performer in an EMU theatre production; participation on the MLK Day Planning Committee; presenter at the Undergraduate Symposium)
 - confirmed by the supervising “EMU employee” through my.emich¹
- **Attendance at EMU-sponsored cultural or academic events**
 - capture student names and E#s and submit for data entry²

How to Confirm LBC Participation for Students

¹Confirming LBC participation through my.emich

- Click on the “Employee” tab or “Faculty” tab
- Click on “Application Administration” tab
- Click on “Confirm Student LBC Participation”
- Enter E# of the “EMU employee” confirming the participation
- Enter E# of the student
- Enter (through drop down menu) the LBC category being confirmed
- Click “submit”

²Confirming LBC participation using Excel spreadsheet

- Open an Excel spreadsheet
- Enter the following information – do NOT use column headings (see attached example)
 - Column A – Confirmer E#
 - Column B – LBC code (e.g. LB1, LB2, LB3, LB4, LB5, or LB6)
 - Column C – Date of event (mm/dd/yyyy format)
 - Column D – Student E#
 - Column E – Student last name
- Save as a text file (.csv) with this name: LBC_EVENT_DATA_MMDDYY (reflecting Event Name and Date of Event)
- Send file as email attachment to Chris Foreman (chris.foreman@emich.edu) as an attachment
