

Catalog Home

Welcome to Eastern Michigan University's Online Catalog

A new year and a new catalog! As you can see the look of the catalog has changed. The new face-lift has refreshed the left side navigation along with adding quicker and easier access to Eastern's main web pages. The catalog has also become an annual publication, allowing changes to programs and courses to occur more quickly. As the catalog is the contract with the student, our goal is to always stay accurate and up to date with changes you need to know about. The links below are just another way the catalog has improved to meet your needs with more information beneficial to you.

If this icon is at the top right-hand corner of a program it means the program has changed. Click the icon for the new program information

2011-2012 University Calendar

Fall Semester 2011

Aug. 27, Sat.	Freshmen Residence Hall Move-In Day
Aug. 28-29, Sun., Mon.	Upperclass Residence Hall Move-In Days
Aug. 27-30, Sat., Sun., Mon., Tues.	Freshmen Orientation
Aug. 31, Wed.	Classes Begin
Sept. 5, Mon.	Labor Day no Classes- University Closed
Nov. 22, Tues. by 10 PM	Residence Halls Close
Nov. 23, Wed.	No Classes - University Open
Nov. 24-27, Thurs., Fri., Sat., Sun.	Thanksgiving Recess - University Closed
Nov. 28, Mon.	Classes Resume
Dec. 12, Mon.	Last Day of Classes
Dec. 13-19, Tues., Wed., Thurs., Fri., Sat., Sun., Mon.	Final Examinations
Dec. 18, Sun.	Commencement
Dec. 19, Mon. by 10 PM	Residence Halls Close
Dec. 19, Mon.	Close of Fall Semester
Dec. 23-Jan. 2	University Closed

Winter Semester 2012

Jan. 2-3, Mon., Tues.	University Closed
Jan. 8, Sun.	Move-In Day and Winter Orientation

Jan. 9, Mon.	Classes Begin
Jan. 16, Mon.	MLK Jr. Day - No Classes; Campus-Wide Celebration
Feb. 24, Fri. by 10 PM	Residence Halls Close
Feb. 27-March 4, Mon., Tues., Wed., Thurs., Fri., Sat., Sun.	Winter Recess - No Classes; Campus Open
March 5, Mon.	Classes Resume
April 6-8, Fri., Sat., Sun.	Spring Recess - University Closed
April 23, Mon.	Last Day of Classes
April 24-30, Tues., Wed., Thurs., Fri., Sat., Mon.	Final Examinations
April 29, Sun.	Commencement
April 30, Mon. by 10 PM	Residence Halls Close
April 30, Mon.	Close of Winter Semester

Spring Session 2012

May 6, Sun.	Move-In Day
May 7, Mon.	Classes Begin
May 28, Mon.	Memorial Day - University Closed
June 18, Mon.	Last Day of Classes - 6 Week
June 27, Wed.	Last Day of Classes - 7½ Week
	Final Exams will be held during the last scheduled class session
June 27, Wed. by 10 PM	Residence Halls Close
June 27, Wed.	Close of Spring Semester

Summer Session 2012

July, Sun.	Move-In Day
July 2, Mon.	Classes Begin
July 4, Wed.	Independence Day - University Closed
Aug. 10, Fri.	Last Day of Classes - 6 Week

Aug. 22, Wed.	Last Day of Classes - 7½ Week
	Final Exams will be held during the last scheduled class session
Aug. 22, Wed. by 10 PM	Residence Halls Close
Aug. 22, Wed.	Close of Summer Semester

2012-2013 University Calendar

Fall Semester 2012

Sept. 1, Sat.	Freshmen Residence Hall Move-In Day
Sept. 2-3, Sun., Mon.	Upperclass Residence Hall Move-In Days
Sept. 1-4, Sat., Sun., Mon., Tues.	Freshmen Orientation
Sept. 5, Wed.	Classes Begin
Nov. 20, Tues. by 10 PM	Residence Halls Close
Nov. 21, Wed.	No Classes - University Open
Nov. 22-25, Thurs., Fri., Sat., Sun.	Thanksgiving Recess - University Closed
Nov. 26, Mon.	Classes Resume
Dec. 12, Wed.	Last Day of Classes
Dec. 13-15, 17-19 Thurs., Fri., Sat., Mon., Tues., Wed.,	Final Examinations
Dec. 16, Sun.	Commencement
Dec. 19, Wed. by 10 PM	Residence Halls Close
Dec. 19, Wed.	Close of Fall Semester
TBA*	University Closed

Winter Semester 2013

Jan. 2, Wed.	University Opens
Jan. 6, Sun.	Move-In Day and Winter Orientation

Jan. 7, Mon.	Classes Begin
Jan. 21, Mon.	MLK Jr. Day - No Classes; Campus-Wide Celebration
March 1, Fri. by 10 PM	Residence Halls Close
March 4, Mon., Tues., Wed., Thurs., Fri., Sat., Sun.	Winter Recess - No Classes; Campus Open
March 11, Mon.	Classes Resume
March 29-31, Fri., Sat., Sun.	Spring Recess - University Closed
April 19, Fri.	Last Day of Classes
April 20, 22-26 Sat., Mon., Tues., Wed., Thurs., Fri.	Final Examinations
April 28, Sun.	Commencement
April 26, Fri. by 10 PM	Residence Halls Close
April 26, Fri.	Close of Winter Semester

Spring Session 2013

May 5, Sun.	Move-In Day
May 6, Mon.	Classes Begin
May 27, Mon.	Memorial Day - University Closed
June 17, Mon.	Last Day of Classes - 6 Week
June 26, Wed.	Last Day of Classes - 7½ Week
	Final Exams will be held during the last scheduled class session
June 26, Wed. by 10 PM	Residence Halls Close
June 26, Wed.	Close of Spring Semester

Summer Session 2013

July 30, Sun.	Move-In Day
July 1, Mon.	Classes Begin - 7 1/2 Weeks
July 4, Thurs.	Independence Day - University Closed
July 8, Mon.	Classes Begin - 6 Weeks

Aug. 16, Fri.	Last Day of Classes - 6 Week
Aug. 23, Fri.	Last Day of Classes - 7½ Week
	Final Exams will be held during the last scheduled class session
Aug. 23, Fri. by 10 PM	Residence Halls Close
Aug. 23, Fri.	Close of Summer Semester

Eastern Michigan University Mission

Eastern Michigan University is committed to excellence in teaching, the extension of knowledge through basic and applied research, and creative and artistic expression. Building on a proud tradition of national leadership in the preparation of teachers, we maximize educational opportunities and personal and professional growth for students from diverse backgrounds through an array of baccalaureate, master's and doctoral programs. We provide a student-focused learning environment that positively affects the lives of students and the community. We extend our commitment beyond the campus boundaries to the wider community through service initiatives and partnerships of mutual interest addressing local, regional, national and international opportunities and challenges.

Institutional Values

- Teaching and learning
- Excellence
- Human dignity and respect
- Diversity
- Scholarship and intellectual freedom
- Public engagement
- Leadership and participatory decision-making
- Integrity

Guiding Principles

- Accessibility
- Relevancy
- Responsiveness to change
- Flexibility
- Quality
- Collaboration
- Accountability
- Affordability

Eastern Michigan University Creed

We believe the **Integrity** of our work and the **Respect** we show for our fellow students, faculty, alumni and staff are an integral part of our ongoing **Education**. We believe that the **Relationships** we have and those we continue to develop will support us as we learn and grow together as a community.

University Profile and History

Eastern Michigan University is a comprehensive University whose roots date back to 1849, when the Michigan Legislature designated it as Michigan's first institution to educate teachers to serve the public schools. At that time the Detroit school system was only 10 years old and the transition from one-room school houses had just begun.

Graduate education was inaugurated in 1938, when the programs were conducted in cooperation with the University of Michigan. In 1953 Eastern gained approval to offer its own graduate programs.

During its first 100 years, Michigan State Normal School, as it was originally called, certified thousands of teachers and developed the broad-based academic curricula that prepared it for its evolution to University status in 1959. Within the University, three colleges emerged: the College of Education, the College of Arts and Sciences, and the Office of Graduate Studies and Research. The University has expanded three more times: in 1964 with the College of Business; in 1975 with the College of Health and Human Services; and in 1980 with the College of Technology.

New colleges created a need for additional acreage. The University campus spread from its original 275 acres on the south side of the Huron River to encompass an additional 182 acres west of the campus where student residences, athletic facilities and the Convocation Center are located. Among the newest buildings are the Porter College of Education building (1999); the Marshall College of Health and Human Services building (2000); and the University House (2004).

Today's student body reflects the national trend of mature adults returning to college to continue their education and prepare for new careers in a changing society. Women compose approximately 65 percent of the student body. Most students are from the state of Michigan, but 45 states and 93 countries are also represented. In fall 2006, 23,000 undergraduate and 4,650 graduate students were enrolled at Eastern Michigan University.

EMU's perspective has also grown, not only in on-campus program development, but also in online courses offered through the Office of Extended Programs and Educational Outreach.

Eastern Michigan University is known worldwide for its educational contributions. Its 105,000 living graduates are scattered among many countries as well as coast-to-coast in the United States, both strengthening and supporting the foundation that is the University in Ypsilanti.

Accreditations of Colleges and Departments

The University is fully accredited by the Higher Learning Commission, a subcommittee of the North Central Association of Colleges and Schools. In 2001 the University received an unqualified accreditation for a period of 10 years.

Eastern Michigan University also retains membership in these organizations: American Association of Colleges for Teacher Education; American Music Therapy Association; Association of Baccalaureate Social Work Program Directors; Council on Hotel, Restaurant and Institutional Education; Michigan Coalition of Schools/Departments offering the MSW; Michigan Historic Preservation Network; National Association of Deans and Directors of Schools of Social Work; National Council for Preservation Education; National Trust for Historic Preservation; and The Pioneer America Society.

Colleges and Departments

College of Arts and Sciences

- Department of African American Studies
- Department of Art
- Department of Biology
- Department of Chemistry (*accredited by the American Chemical Society*)
- Department of Communication, Media and Theatre Arts
- Department of Computer Science

- Department of Economics
- Department of English Language and Literature
- Department of Geography and Geology (*historic preservation accredited by the National Council for Preservation Education; urban and regional planning accredited by the Association of Collegiate Schools of Planning and by the Planning Accreditation Board; historic preservation affiliated with the Association for Preservation Technology, Michigan Historic Preservation Network, Pioneer America Society, Vernacular Architecture Forum and the National Trust for Historic Preservation*)
- Department of History and Philosophy
- Department of Mathematics
- Department of Music and Dance (*accredited by the National Association of Schools of Music and the American Music Therapy Association*)
- Department of Physics and Astronomy
- Department of Political Science (*public administration accredited by the National Association of Schools of Public Affairs and Administration*)
- Department of Psychology (*accredited by the Association for Behavior Analysis, American Psychological Association and Council of Applied Master's Programs in Psychology*)
- Department of Sociology, Anthropology and Criminology
- Department of Women's and Gender Studies
- Department of World Languages

College of Business

(Accredited by the Association to Advance Collegiate Schools of Business)

- Department of Accounting and Finance
- Department of Computer Information Systems
- Department of Management
- Department of Marketing

College of Education

(All professional educator preparation programs of EMU are accredited by the National Council for the Accreditation of Teacher Education and approved by the Michigan Department of Education.)

- Department of Leadership and Counseling (*community, college and school counseling programs accredited by the Council for Accreditation of Counseling and Related Educational Programs*)
- Department of Special Education (*speech-language pathology program accredited by the American Speech-Hearing Association; hearing impaired program accredited by the Council on Education for the Deaf*)
- Department of Teacher Education (*accredited by the National Council for the Accreditation of Teacher Education*)

College of Health and Human Services

- School of Health Promotion and Human Performance (*athletic training accredited by the Commission on Accreditation of Allied Health Education Programs and the Joint Review Committee on Education Planning and Athletic Training; health education accredited by the Michigan Department of Education/National Council for the Accreditation of Teacher Education; orthotics and prosthetics accredited by the National Commission on Orthotics and Prosthetics Education; physical education accredited by the National Association of Sport and Physical Education/National Council for the Accreditation of Teacher Education*)

- School of Health Sciences (*clinical laboratory sciences program accredited by the National Accreditation Agency for Clinical Laboratory Sciences; occupational therapy accredited by the Accreditation Council for Occupational Therapy Education; dietetics accredited by the Commission on Accreditation for Dietetics Education of the American Dietetic Association*)
- School of Nursing (*accredited by the Commission on Collegiate Nursing Education*)
- School of Social Work (*accredited by the Council on Social Work Education*)

College of Technology

- School of Engineering Technology (*construction management accredited by the American Council for Construction Education; computer-aided design, manufacturing technology and polymers and coatings technology accredited by the National Association of Industrial Technology; interior design accredited by the Foundation for Interior Design Education and Research*)
- School of Technology Studies (*aviation management, communication technology and industrial distribution accredited by the National Association of Industrial Technology; hospitality management program accredited by the Council on Hotel, Restaurant and Institutional Education; legal assistant [paralegal studies] program accredited by the American Bar Association; network and information technology administration, marketing education, technology education - folio approved by the National Council for Accreditation of Teacher Education/International Technology Educational Association/Council on Technology Teacher Education*)
- Military Science and Leadership

General Education

- [General Education Transfer Guidelines](#)

General Information

Director: Chris Foreman

E-mail: cforeman@emich.edu

Web site: <http://www.emich.edu/gened>

General education is the core of an undergraduate education. It is general in that it provides students with a comprehensive educational experience and prepares them for study within their major. General education teaches students to think critically and communicate effectively; it provides an introduction to the methodologies and practices of the academic disciplines; it promotes intellectual curiosity and a love of learning. General education is the heart of an EMU education and a source of institutional pride.

Curriculum Categories

Area I: Effective Communication

- Communication is frequently cited as employers' number one concern with college graduates. Education in speaking and writing is essential in helping students think clearly and in helping them organize and present their thoughts effectively. Individuals need to be able to communicate effectively for their own advancement and for their engagement with the world.

Area II: Quantitative Reasoning

- Quantitative reasoning skills are required in almost every major and professional program, as well as in personal and professional life. Students need quantitative literacy to function in society. Common examples include managing one's own finances (e.g., credit card debt), reading and understanding the newspaper, and informed voting.

Area III: Perspectives on a Diverse World

- **Global Awareness**
 - Because of the interconnectedness of nations, very few organizations function solely in the U.S. We all need to understand the world in which we live; to be informed citizens, we need to be able to think about and understand other cultures. By studying a number of nations or one nation in depth, students learn the skills for understanding other cultures.
- **U.S. Diversity**
 - College is often the first place where students are placed in an environment with people unlike them. We all need to learn respect for other persons, and such respect comes with knowledge. An understanding of and appreciation for diversity is central in employment, civic participation, and life more generally.

Area IV: Knowledge of the Disciplines

- Because each discipline offers a different perspective for understanding the world, understanding anything well requires some understanding of all of them. Students employ critical thinking skills to develop questions of inquiry that reflect an understanding of different disciplinary perspectives.

Area V: Learning Beyond the Classroom (LBC)

- A university education is about more than just classes. Students involved in activities outside of the classroom have higher retention rates and more positive educational experiences. Learning Beyond the Classroom encourages students to obtain hands-on experience and to learn about professionalism; it also provides a way to apply classroom knowledge.

Waiver, Placement and Substitutions

- Students may choose to complete ENGL 120 as an elective to prepare for the required ENGL 121 course. Students will decide this by completing the *Guided Self-Placement (GSP) Student Survey* located at: www.emich.edu/english/gsp/. Students with an ACT English sub-score of 29 or higher, or an SAT Verbal sub-score of 640 or higher, are *waived* from this requirement.
International students may use ESLN 412 to meet the ENGL 121 requirement Area I, #1.
- Students with a very strong background in oral communication (public speaking and critical listening) may contact the Communication and Theatre Arts department at 124 Quirk, 734.487.3131, for a possible *waiver* of the required CTAS 124 course. *Waivers are granted only on a case-by-case basis.*
- Students with an ACT Math sub-score of less than 19, or an SAT Math sub-score of less than 520, are encouraged to take MATH 097/098 in preparation for MATH 110. However, students may take the Math Placement Test to place into MATH 110. (*NOTE: MATH 097 and 098 do NOT count toward the minimum 124 hours required for graduation. Students who complete MATH 097 and/or 098 will be required to complete additional hours over the minimum of 124 hours to graduate.*)
- Students with
 - an ACT Math sub-score of 19-22, or an SAT Math sub-score of 520-570, are eligible to take MATH 110 based on that test score.
 - an ACT Math sub-score of 23-27, an SAT Math sub-score of 580-660, or a CLM score of 53-92 may take MATH 110 *or* another course designated as a quantitative reasoning (QR) course.
 - an ACT Math sub-score of 28 or higher, an SAT Math sub-score of 670 or higher, or a CLM score 93 or higher are *waived* from the Math 110 requirement.
- Upon a student's initial enrollment at EMU, the Academic Advising Center (734.487.2171) has the authority to exercise professional judgment when accepting transfer courses for the General Education Program. Credits earned through the Advanced Placement (AP), College-Level Examination Program (CLEP), International Baccalaureate (IB), and the military are treated as transfer credit and the scores/credits are evaluated by the following departments:
 - AP - College of Arts and Sciences, Dean's Office, 734.487.4344
 - CLEP - Academic Advising Center, 734.487.2171
 - IB - Office of Admissions, International Admissions, 734.487.0205
 - Military credit -Veterans Services, 734.487.3119
- After their initial enrollment at EMU, students who wish to receive General Education approval to take, at another institution, courses not accepted as direct (course-to-course) equivalencies to the General Education Program, must receive prior approval from the General Education Director (734.487.0439).
- Waivers and substitutions for courses taken at EMU and not approved for the General Education Program can only be granted by the General Education Director (734.487.0439) and cannot be approved for General Education credit by academic departments. NOTE: Exceptions to this are the courses in Area I and II whose guidelines appear above.

QRChoice Category Information

Students under the new General Education Program are placed into a Quantitative Reasoning (QR) category based upon their ACT or SAT math score. Students with an ACT math score greater than or equal to 23 or an SAT math score greater than or equal to 580 are in the "QRChoice" category; they can take any approved QR course (or may be waived from the requirement* if the score is 28+ for ACT or 670+ for SAT). All other students, including those without an ACT or SAT score, must take MATH 110 or MATH 110E (for Elementary Education certification) as the requirement for the General Education Program.

Students who are not eligible for QRChoice may test into this category by using the College Level Math section (CLM) of the mathematics placement test. Testing into QRChoice can only be done under the following conditions:

1. A student must obtain a form designated for this purpose from the Academic Advising Center, 301 Pierce. (This is not the same as the pink math placement authorization form.)
2. The score on the CLM must be 53 or higher. *No exceptions will be made to this cutoff.*
A score of 93 or higher will earn the student a QR waiver**.
3. The student cannot take the CLM test more than two times. This includes times that the test is taken for initial placement purposes.
4. A student must wait a minimum of 30 days between a first attempt and a second attempt.
5. The test must be taken within one calendar year from the beginning of the student's first term at EMU with an *application decision* of "regular admit." This applies also to a second attempt.
6. To take the QRChoice test, a student must have a minimum math score on the ACT of 19 or on the SAT of 520 or have passed the Elementary Algebra placement test with a minimum score of 83.

Students should consider getting the QRChoice Category Request to Test Form if this situation applies to them.

QRChoice Category Request to Test Forms will be returned to the Academic Advising Center through a secure route, and kept on file there. Students who successfully test into QRChoice will have a code entered onto their record by the Academic Advising Center to be used for graduation audit purposes. A study guide can be found at <http://math.emich.edu/placement.html>

*A QR waiver means that the QR requirement for the General Education Program is deemed to have been satisfied. A student may still have to take one of the designated QR courses if his/her program (major, minor or curriculum) requires it or if it is needed as a prerequisite to another course he/she wishes to take.

General Education Transfer Guidelines

Transfer students with MACRAO* will need to meet three requirements:

1. **QR requirement**
A course transferring in as MATH 105, MATH 112, or any course on the QR list, will meet this requirement if taken before the first semester at EMU with an *application decision* of "regular admit." If not, the student must satisfy the QR requirement by a course at EMU or a course-for-course transfer (see General Education Program, Area II).
2. **Perspectives on a Diverse World**
One course is required and may be in either Global Awareness or U.S. Diversity; it can be transferred if taken before the first semester at EMU with an *application decision* of "regular admit."
3. **Learning Beyond the Classroom**
Only one course or experience is required and must be completed at EMU.

Transfer students without MACRAO* but with 30 or more transferable hours will need to satisfy:

1. **All General Education requirements**
Requirements may be met by transferred courses if taken before the first semester at EMU with an *application decision* of "regular admit."
2. **QR requirement (exception)**
A course transferring in as MATH 105, MATH 112, or any course on the QR list will meet the requirement if taken before the first semester at EMU with an *application decision* of "regular admit." If not, the student must satisfy the QR requirement by a course at EMU or a course-for-course transfer (see General Education Program, Area II).
3. **Perspectives on a Diverse World (exception)**
One course is required and may be in either Global Awareness or U.S. Diversity; it can be transferred if taken before the first semester at EMU with an *application decision* of "regular admit."
4. **Learning Beyond the Classroom (exception)**
Only one course or experience is required and must be completed at EMU.

Transfer students without MACRAO* and with less than 30 transferable hours will need to satisfy:

1. **All General Education requirements**
Requirements may be met by transferred courses if taken before the first semester at EMU with an *application decision* of "regular admit."

2. **QR requirement (exception)**

A course transferring in as one of MATH 105, MATH 112, or any course on the QR list will meet the requirement if taken before the first semester at EMU with an *application decision* of “*regular admit*.” If not, the student must satisfy the QR requirement by a course at EMU or a course-for-course transfer (see General Education Program, Area II).

3. **Learning Beyond the Classroom (exception)**

Only one of the two LBC requirements may be an equivalent course that is transferred if taken before the first semester at EMU with an *application decision* of “*regular admit*.” The other LBC must be completed at EMU.

*MACRAO may be completed after initial enrollment at EMU

To receive credit for transfer courses completed after the first term of enrollment at EMU with an *application decision* of “*regular admit*,” the courses must be *direct equivalencies (course-to-course)* to EMU’s General Education Program in order to be applied to General Education requirements. Questions regarding course-to-course equivalencies should be directed to the Director of the General Education Program at 734.487.0439.

Co-Curricular Programs

Co-curricular programs are programs that "complement, but are not a part of the regular curriculum." Eastern Michigan University offers many of these opportunities for students.

- **Academic Service-Learning** A teaching and learning strategy that integrates meaningful community service with instruction and reflection as a means for helping students gain a deeper understanding of course objectives, acquire new knowledge and engage in civic activity.
- **Area V: Learning Beyond the Classroom (LBC)** A university education is about more than just classes. Students involved in activities outside of the classroom have higher retention rates and more positive educational experiences. Learning Beyond the Classroom encourages students to obtain hands-on experience and to learn about professionalism; it also provides a way to apply classroom knowledge. Learning Beyond the Classroom is a sub-section of the General Education curriculum.
- **The Nonprofit Leadership Alliance Program.** Designed for students from all majors and minor interested in being involved in the community, NLA provides students with a National Certification in Nonprofit Management and Leadership and the corresponding Certified Nonprofit Professional (CNP) credential. By meeting the ten core NLA competencies our students are well prepared for successful careers in the nonprofit sector. The link to the NLA program is www.emich.edu/nonprofit. Check out this video about the NLA program.

Academics

Degrees

Basic undergraduate degrees conferred by the Board of Regents on recommendation of the president and faculty are the bachelor of science (B.S.) and the bachelor of arts (B.A.) degrees. Both degrees require completion of University general education requirements, a major and a minor, and a minimum total of 124 hours. The bachelor of arts degree includes in that total one year of college credit in a foreign language. The bachelor of science degree provides greatest flexibility in selection of the major and minor and in the use of electives.

Bachelor's degrees are also awarded in fine arts (B.F.A.) and art education (B.A.E.) - see Department of Art, College of Arts and Sciences; business administration (B.B.A.) - see College of Business; bachelor of business administration and bachelor of arts in language and world business (B.B.A./B.A.) - see College of Business or Department of World Languages, College of Arts and Sciences; business education (B.B.E.) - see School of Technology Studies, College of Technology; music education (B.M.E.), music-performance (B.M.U.), and music therapy (B.M.T.) - see Department of Music and Dance, College of Arts and Sciences; nursing (B.S.N.) - see School of Nursing, College of Health and Human Services.

Many students also select preprofessional fields of study such as medicine, dentistry and forestry (listed in departments) or seek certification and/or licensing in teaching, medical technology and similar fields (listed at the end of this section). These preprofessional fields of study do not culminate in an EMU degree.

Graduate degrees offered by this University are master of arts (M.A.), master of science (M.S.), master of fine arts (M.F.A.), master of business administration (M.B.A.), master of public administration (M.P.A.), master of business education (M.B.E.), master of individualized studies (M.I.S.), master of social work (M.S.W.), master of nursing (M.N.), master of occupational therapy (M.O.T.) and master of liberal studies (M.L.S.). In addition, there is a specialist in arts degree (S.A.) and doctorates in educational leadership (Ed.D.), psychology (Psy.D.) and technology (Th.D.). All are listed in the graduate catalog.

Bachelor's degree programs require students to take courses in various subject areas as specified both in the general education requirements and in departmental majors and minors.

Majors/Minors

Each student must complete a major subject of at least 30 credit hours and a minor subject of at least 20 credit hours with the following exceptions:

1. A student in the elementary teaching curriculum may present three minors of at least 20 credit hours - each of which is a subject field taught in the elementary grades.
2. A student who completes a self-contained curriculum of 50-60 hours will automatically satisfy major/minor requirements.

Hours of credit counted toward a minor may not be applied to a major or another minor or vice versa. General education courses may be applied toward a major or a minor where appropriate.

Professional education courses do not count toward majors and minors except in cases in which such courses are specifically required or indicated as permissible as part of a major or minor.

All students, including transfer students, must complete at Eastern Michigan University the following minimum requirements in advanced courses numbered 300 or above in their majors and minors, unless specifically exempted by the department concerned:

1. At least nine hours in majors.
2. At least six hours in minors.
3. At least 15 additional hours in curricula that encompass both major and minor requirements.

Degree Requirements

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 45 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area may be applied towards the minimum of 124 hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses; that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program adviser.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas; do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education Program website: <http://www.emich.edu/gened>

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Alternative Methods for Earning University Credit

Alternative Credit Options

Eastern Michigan University offers students the opportunity to earn academic credit by examination and/or by portfolio. In some instances, students may enroll immediately in advanced courses through alternative programs. Especially high test scores may warrant additional academic credit and/or higher placement.

These programs include:

1. **Advanced Placement (AP).** Students who have taken Advanced Placement high school courses, and earn at least a three on the corresponding Advanced Placement tests, will be granted at least two hours of credit in each subject area in which they have earned that score. The Advanced Placement Credit Available by Departments table lists departments and courses for which credit can be earned.
2. **International Baccalaureate (IB).** Students who submit their IB scores to Eastern Michigan University will receive at least two hours of academic credit for a score of four or higher on the higher-level IB exam. The International Baccalaureate Diploma does not equate automatically with sophomore standing, nor does it automatically waive general education requirements.
3. **College Level Examination Program (CLEP).** Students may receive academic credit for certain EMU courses by achieving a minimum score on a test available through the College Level Examination Program. The courses for which CLEP tests are available, and the minimum score needed to receive credit, are listed in the CLEP Credit Available by Departments table.

Academic credit earned by means of AP, IB or CLEP test scores may not be duplicated for separate tests. Also, AP, IB or CLEP credit will not be awarded when EMU credit has already been earned or transfer credit awarded for courses covering the same subject matter.

4. **Credit by Examination.** Students may also receive academic credit for certain courses where CLEP tests are not available by achieving a minimum score on a departmentally administered examination. Credit by Examination is subject to the following limitations:

- Students must have been admitted to Eastern Michigan University.
- Credit normally will not be awarded for any course for which a student has credit or in which the student is currently enrolled.
- Credit by Examination is not available for workshops, special topics courses, seminars and directed studies, or any other course excluded by an academic department.

5. **Validation.** Validation may be required to earn transfer credit for courses, taken at a two-year college, whose content is sufficiently similar to that of 300- and 400-level EMU courses. Validation will be considered only after all other transfer credit earned at accredited two-year colleges has been awarded and recorded on the student's official EMU record. Validation may be achieved in either of two ways:

- Satisfactory completion of the next more advanced course as designated by the head of the appropriate department or school.
- Passing a comprehensive examination or equivalent activity in the course for which EMU validation is requested.

The following procedures must be followed to earn Credit by Examination or to validate a course by examination:

1. The student must obtain an Application for Credit by Examination/Validation at the Office of Records and Registration, 303 Pierce Hall.
2. The student should submit the application to the head of the department/school in which the course is offered. The department head will evaluate the request and determine whether to grant or deny permission for Credit by Examination/Validation or to hold the request for further investigation.
3. Once permission has been granted, the student will make arrangements with the department for a time and place for the examination or equivalent activity, and a supervising faculty evaluator.
4. Prior to the agreed-upon time, the student will validate the permission form by paying the fee to the EMU Cashier's Office. The fee will be equivalent to one credit hour of tuition for each undergraduate examination attempted.
5. The student will present the validated permission form to the faculty evaluator prior to the examination or equivalent activity.
6. After the faculty member evaluates the student's performance and indicates P/F on the permission form, a copy of the written examination or explanation of the activity as well as the instructor's total evaluation will be placed on file in the office of the department head. The department head will sign the permission form indicating receipt of the faculty member's evaluation.
7. The department head will forward the permission form to the Office of Records and Registration for posting to the student's record.

6. Portfolio-assisted Prior Learning Assessment (PLA). Portfolio-assisted Prior Learning Assessment is available through participating academic departments when CLEP, Credit by Examination and Validation are not appropriate for assessing a student's previous learning. Credit may be awarded for general education or for courses in majors, minors or concentrations. Departments or schools may choose to participate on a case-by-case basis or may designate selected courses available via PLA. Additional information is available through the Office of Prior Learning Assessment at 734.487.9801 or 800.777.3521.

CLEP Credit Available by Departments

Department	Exam/Subject	Minimum Score	Credit Awarded
Accounting and Finance	Accounting, Principles of	60	ACC000 (3 hrs)
Biology	Biology	50	BIO 105 (4 hrs)
		60	BIO 110 (5 hrs)

	Spanish Language	3	SPNH 121 (5 hrs)
		4	SPNH 122 (5 hrs)

Prior Learning Assessment

Academic standards for portfolio-assisted Prior Learning Assessment:

- Credit is given only for learning and not for experience.
- College credit is awarded only for college-level learning.
- Credit is awarded only for learning that has a balance, appropriate to the subject, between theory and practical application.
- The determination of competence levels and credit awards is made by academic experts in the appropriate subject matter.
- Credit is appropriate to the academic context in which it is accepted.

Procedures for portfolio-assisted Prior Learning Assessment:

1. The student contacts the PLA Office for information about the PLA process.
2. The student must be admitted to Eastern Michigan University.
3. The student must complete a free workshop and review syllabi to determine whether to attempt earning credit through the PLA process.
4. The student compiles portfolios to present for assessment within one year of completion of the workshop. Each portfolio to be presented to a faculty assessor contains all portfolio elements including appropriate documentation. The master portfolio contains each portfolio element including all learning statements and all documentation lists but no copies of documentation.
5. The student must present the master portfolio and departmental portfolios to the Office of Prior Learning Assessment for review. Upon successful review, the PLA office issues appropriate portfolio registration forms.
6. The student pays the required assessment fee to Eastern Michigan University as part of portfolio registration.
7. The Office of Prior Learning Assessment distributes portfolios to heads of departments or schools for assignment to faculty assessors.
8. Faculty assessors evaluate the portfolios; faculty assessors may request additional demonstrations of competence.
9. Faculty assessors return portfolios and assessments to the Office of Prior Learning Assessment.
10. The Office of Prior Learning Assessment notifies the student of credit award or denial and also notifies the Office of Records and Registration of awarded credit for posting to the student's record.

Graduation

Baccalaureates

Most students in the college pursue one of the two basic undergraduate degrees, bachelor of science (B.S.) or bachelor of arts (B.A.). Both degrees require completion of University general education requirements, a major and a minor and a minimum total of 124 hours. The bachelor of arts degree includes in that total one year of college credit in a foreign language. The bachelor of science degree provides greatest flexibility in selection of the major and minor and in the use of electives.

Additionally, specialized degrees are offered through each college. Detailed information regarding these specialized degrees can be found within individual departments.

Graduation Requirements

To graduate from Eastern Michigan University, a student must earn a bachelor of science degree, a bachelor of arts degree or one of the bachelor's degrees pertinent to the field of study. To accomplish this, students must fulfill general education requirements; a major of 30-36 hours and a minor of 20-24 hours or a self-contained program of 50-60 hours; and electives to equal the minimum total of 124 college-level credits.

The catalog requirements in effect at the time of a student's initial registration at a college or University or the requirements of a subsequent catalog, including those in effect at the time of the student's graduation, may be used to complete graduation requirements. In the event the student does not complete degree requirements within seven years of the date of his/her original registration, the student may be required to have his/her credits re-evaluated by the Office of Records and Registration in keeping with more recent catalog requirements. (See special time requirements in the description of the nursing program.)

Graduation Audit

Students who have completed 95 credit hours or more should request a graduation audit by completing the required form at the Office of Records and Registration, 303 Pierce Hall, or completing the form usually printed in the class schedule book each semester.

The form requires students to record their expected date of graduation, legal name, student number and major(s) and minor(s) elected. In addition, a check list is provided for degree expected and teacher certification expected. Accurate information is essential.

Forms are filed in the Office of Records and Registration and processed according to expected graduation date. A graduation auditor checks the credit hours taken and records the credit hours still needed. One copy of this audit is mailed to the student and another copy is filed. Students should receive their audits a semester before they apply for graduation. A graduation audit does not take the place of regular, thorough advising.

Students may return the forms by mail or in person to Room 303 Pierce Hall. Time is required by the office staff for processing, and immediate responses to requests for information cannot be made at the time of the request.

Commencement

Commencement at Eastern Michigan University represents the culmination of a student's academic achievement. It is a time of celebration and reflection for students, families, faculty and staff. It brings together a diverse community to share in the joy of the accomplished goals of students.

The commencement ceremony at Eastern Michigan University serves a dual purpose: to mark a point of accomplishment, thus completing a chapter in the lives of students and those who support them, and to encourage continued pursuit of education and personal fulfillment.

Commencement eligibility includes students who have submitted an application for graduation by the posted deadline (beginning of the semester) for the indicated semester. Commencement ceremonies are held in April and December only. June and August graduates will participate in the December ceremony following their graduation date.

Academic distinction is awarded at graduation to students whose cumulative grade point average merits special recognition. A 3.9-4.0 grade point average is accorded summa cum laude; a 3.7-3.89, magna cum laude; and 3.5-3.69, cum laude on the diploma and permanent transcript record.

Academic Assessment

The Higher Learning Commission of the North Central Association of Colleges and Schools (NCA), EMU's regional accrediting body, has mandated that every college and University in the region have a plan for assessing both general education and each existing academic major for all students enrolling in the fall 1995 semester and later. EMU endorses this mandate and believes that the University will benefit by identifying the key skills and concepts that academic programs are developing and how well these skills and concepts are being developed in our students.

Because it is important to assess a representative sample of students, Eastern Michigan University considers involvement in this assessment mandatory for students asked to participate.

In some cases all students will be asked to participate. In other cases where it is impractical to assess all students, a representative sample will be selected. In either case, the above stated requirement will apply.

General education will be assessed through use of the Educational Testing Service's "Tasks in Critical Thinking." Between 200-250 students will take this test each year and students who participate in academic assessment activities will be helping Eastern Michigan University continually refine and improve its excellent academic programs and further enhance the reputation of all degrees awarded.

Educational Opportunities

Academic Service-Learning

Academic Service-Learning is a teaching methodology which engages students in community service as a means of helping them gain a deeper understanding of course objectives, acquire new knowledge and engage in civic activity.

The Office of Academic Service-Learning provides a resource center that features journals, books, other publications related to academic service-learning. Research opportunities are also available for faculty and students. AS-L Faculty Fellow Seminars are offered each fall and winter. Over 150 EMU faculty have participated in a semester-long weekly seminar examining academic service-learning theory, implementation and assessment. For a full list of EMU faculty trained in the ASL Faculty Fellow Seminar, please visit: www.asl.emich.edu

To get involved in Academic Service-Learning, students should contact our office:

- **Office of Academic Service-Learning**
Campus Address: 219 Rackham Hall
Phone: 734.487.6570
Web site: www.asl.emich.edu

Courses taught at EMU that include a Community Service, Citizenship and Leadership component and can be taken for Gen Ed LBC credit are:

CSIE 177L Groundwater Studies
SPCI 350L Introduction to Cognitive Impairment
SPEI 401L Programming, Methods and Curriculum for Elementary Students with Emotion Impairments
SWRK 350L Generalist Social Work Practice: Organizations and Communications
WGST 230L Conversations with Girls

Sample courses taught at EMU that have included an academic service-learning component in the past are:

ACC546 Public and Nonprofit Nonsector Accounting
ATM255 Apparel Analysis
ATN210 Display Techniques
ATN437 Professional Seminar
BEDU395 Administering Workplace Systems and Technology
BEDU396 Information and Media Administration
BIOL403 Methods for Teaching Secondary Biology
CTAC224 Public Speaking
CTAC225 Listening Behavior
CTAC226 Nonverbal Communication
CTAC227 Interpersonal Communication
CTAC357 Interviewing as Communication
CTAC359 Small Group Communication
CTAC374 Intercultural Communication
CTAC379 Queer Communication
CTAC475 Research in Speech Communication
EDMT330 Institutional Application of Media and Technology
ENGL323 Writing for the Professional World
ENGL408 Writing for Writing Teachers
ENGL409 Teaching English in the Secondary Schools
FIN354 Investments
GEOG/GEOL: Many, all graduate level documenting Historic Structures and Preservation
HIST123 The United States to 1877
HIST124 The United States, 1877 to the Present

HIST317 History and Geography of Spanish America
HIST481 Teaching Methods
HLED380 Psychosocial Concepts of Health Education
HRM430 Seminar in Hospitality Management
IDE420 Studio
JRNL314 Public Relations Writing
LITR260 African American Literature
MATH381 The Teaching of Mathematics K-6
MFG111 Engineering Materials
MGMT202 Business Communications
MGMT386 Organizational Behavior and Theory
MGMT460 Management Skills
MGMT492 Managing World Business Communication
PHIL221 Business Ethics
PHIL223 Medical Ethics
PHIL226/WGST226 Feminist Theory
PHY101 Physical Science in the Arts
SOCL352 Sociology of Education
SOFD328 Schools in a Multicultural Society
SPEI240 Introductory Clinical Experiences in Emotional Impairment
SPEI301 Emotionally Impaired Children and Adolescents
SPEI449 Current Topics in Emotional Impairment
SPGN251 Education of Exceptional Children
SMPI350 Introduction to Mental Retardation
SWRK403 Practice Issues with Women
SWRK420 Working With Aging People
TEDU350 Curriculum in Technology and Vocational Education

The office of Academic Service Learning also has several grant-based Outreach Programs including:

- **Ypsilanti Youth Empowered to Act (YYEA)**- YYEA seeks to change the way the youth voice is heard by taking action and promoting engagement and decision making in the community.
- **CrossTown Theatre Troupe**- CrossTown Theatre Troupe is a program designed to help stimulate the youth voice through the use of theatre.
- **The B. Side: The Business Side of Youth**- The B. Side develops business and professional skills and encourages creative and intelligent risk taking and instills financial independence and community responsibility in youth ages 13-20.

American Humanics

Address: 215 Rackham

Phone: 734.487.1612

Fax: 734.487.8514

E-mail: humanics@emich.edu

Web site: www.americanhumanics.emich.edu

The American Humanics: The Nonprofit Scholars Program at EMU is a place for developing theoretical knowledge and practical skills. The program is part of the American Humanics Inc., a national alliance of colleges, universities and nonprofit organizations dedicated to educating, preparing and certifying professionals to strengthen and lead nonprofit organizations. To date, American Humanics Inc. is affiliated with more than 18 nonprofit agencies and numerous collaborating professional organizations and foundations, including American Red Cross, Girl Scouts, YMCA and Boys and Girls Clubs of America.

Undergraduate students earn an American Humanics certificate additionally to the bachelor degree. Students earn the certificate by:

1. Achieving 14 competencies;
2. Completing 300 hours of field-based experiences at a local nonprofit;
3. Participating in the American Humanics Student Association;
4. Attending one American Humanics Management Institute. The American Humanics certificate is provided by American Humanics, Inc. and it is recognized nationwide. The certificate gives students an edge on the job market.

The American Humanics competencies serve as a comprehensive, yet flexible framework to guide students toward certification, while providing nonprofit agencies with a pool of graduates highly qualified for employment. Examples of competencies include: marketing, management, program planning, board/committee development, human resource management and fundraising. There are two ways to achieve the competencies: by completing a portfolio or by enrolling in the interdisciplinary minor in nonprofit administration. The interdisciplinary minor in nonprofit administration is the structured way, while the portfolio is the more independent way to achieve the competencies. The interdisciplinary minor in nonprofit administration is administered by the Department of Political Science.

American Humanics certification provides significant benefits to student. It rewards students who are already volunteering with and working in the community organizations with national recognition, and introduces students who have limited or no community service experiences to the challenging life of nonprofit organizations. Most importantly, the American Humanics certification provides students with a job market advantage and networking opportunities. The nonprofit sector is the fastest growing sector of the economy, for example, in Michigan, every 11th job is in the nonprofit sector. American Humanics graduates are highly sought on the job market to fill in positions such as program directors, fundraisers, human resource directors, volunteer coordinators and other positions. American Humanics graduate have an outstanding record of job placement - nearly 100 percent for those students who complete the requirements.

CSIE Program

Address: 218 Rackham Hall

Phone: 734.487.0281

E-mail: csie.info@emich.edu

Web site: www.emich.edu/csie

Facebook Group: [CSIE@EMU](https://www.facebook.com/CSIE@EMU)

The Creative Scientific Inquiry Experience (CSIE) Program is funded through a grant from the National Science Foundation. The purpose is to increase the number of graduates with science, technology, engineering and mathematics (STEM) and related majors. The program offers unique integrated clusters of STEM courses called CSIEs, anchored by a one- or two-credit CSIE seminar.

Each CSIE features the following benefits:

- Deeper exploration of class content related to a common interdisciplinary theme through academic service-learning* (AS-L) experiences which often include community-based research projects;
- Intensive mentoring and advising by CSIE faculty and program staff to help students plan their academic careers and engage in early research experiences;
- Opportunity to learn with professionals from local industries, government organizations and non-profit agencies, through shadowing experiences, guest speaker interviews, facility tours, field work and the AS-L experiences;
- Free book loan program and of subsidized lab manuals and course supplies;
- Opportunity to satisfy general education requirements[†] for learning beyond the classroom (LBC) through 15 hours of service and/or presenting research at the Undergraduate Symposium[‡] or professional meetings or conferences.

CSIE clusters are published each term in the course schedule books and online at the program website and Facebook group. Students can enroll directly through normal registration procedures - no special permissions, restrictions or overrides. Only department-defined skill and course prerequisites apply; no additional academic requirements are mandated for the program. Students do not need a declared STEM major to participate.

Learn more about the program, read examples of previous CSIE clusters, and view upcoming offerings by going to www.emich.edu/csie.

First Year Experience Programs

EMU offers practical, yet innovative, programs for its first-year students to enhance learning experiences in the classroom, increase academic performance, improve student connections to the campus and community and aid in student retention and persistence towards an undergraduate degree.

First-Year Interest Groups (FIGs)

FIGs are learning communities in which freshmen explore common interests, develop critical thinking skills and build lasting friendships. FIG students take up to three college-level courses with the same peer group. All courses satisfy general education, program or elective credit towards graduation. FIG instructors are experienced in teaching, mentoring and developing the strengths of first year students.

Promoting Academic Success and Survival (PASS)

The PASS program is designed to challenge and support freshmen who fall just below regular admission criteria and addresses issues students face as they transition to college. The program is based on the assumption that students are willing to work hard to succeed and that effective academic programs and teaching methods can bring them to the standards expected of college students. Among the benefits of the PASS program are learning community scheduling, free academic workshops, development of study skills as well as academic monitoring, individualized instruction and advising assistance.

Institute for the Study of Children, Families and Communities

David L. Clifford Ph.D., director

Address: 203 Boone Hall

Phone: 734.487.0372

Fax: 734.487.0284

E-mail: david.clifford@emich.edu

Web site: www.iscfc.emich.edu

The Institute for the Study of Children, Families and Communities is an interdisciplinary applied research unit. It organizes teams of faculty, staff and community partners to carry out research, demonstration projects, technical assistance, consultation, training, assessment and policy analysis and advocacy. The institute executes its mission through its three centers.

The Center for Applied Research (CAR) provides a full range of research services including needs assessments, asset mapping, survey research, program monitoring and evaluation, data collection and analysis, and policy impact analysis. The CAR includes a state-of-the-art computer assisted telephone interviewing facility, the CATI Lab. Director: Peggy Wienczek, M.S., e-mail: peggy.wienczek@emich.edu

The Center for Child and Family Programs (CCFP) focuses on vulnerable children, families and marginalized youth. The CCFP conducts applied research and program evaluation, develops training curricula, provides technical assistance and develops policy recommendations at the local, state and national levels. Director: Valerie Polakow, Ph.D., e-mail: valerie.polakow@emich.edu

The Center for Community Building and Civic Engagement (CCBCE), operationally extends EMU's mission into the greater community. Through projects such as the HUD Community Outreach Partnership Center and the U.S. Department of Justice capacity building grant, it promotes community capacity building, youth violence reduction and a range of community-University collaborations. Director: Elvia R. Krajewski-Jaime, Ph.D., e-mail: ekrajewski@emich.edu

Celebration of Student Writing

At the end of every fall and winter semester, the approximately 1200 students enrolled in English 121 classes display their written work at the semi-annual Celebration of Student Writing. For the celebration, sponsored by the Department of English Language and Literature, students create products representing the research they do in their 121 classes. Students who display

their work are joined at the Celebration by EMU faculty and administrators, students from other EMU courses and visitors ranging from prospective EMU students to students in writing courses from other colleges. Attendees wander the room and talk with student authors about their Celebration projects and their research work for the semester.

Diversity in the Curriculum

The Diversity in the Curriculum program promotes the development of a curriculum of inclusion within the colleges, departments and programs of the Division of Academic Affairs at Eastern Michigan University. Our objective is to translate the growing scholarship on diversity and multiculturalism into educational practices that reflect the most constructive aspects of cultural pluralism. Eastern Michigan University is nationally recognized for a high level of diversity in its student population. The purpose of diversity in the curriculum is to ensure that our faculty and staff become characterized by an equally high level of multicultural expertise, as reflected in our curricular offerings and co-curricular services.

ElderQuest

Address: 217 Rackham Hall

Phone: 734.487.0227

E-mail: ElderQuest@emich.edu

Web site: www.emich.edu/elderquest

The ElderQuest program provides a welcoming environment for persons 50 years and older and offers the opportunity to fully participate in campus programs and activities. ElderQuest provides leadership in the identification of various pathways into the University community including building University awareness and support for programming and services targeted for the elder population. ElderQuest office staff assists the elder participant in designing an exciting and challenging plan that fits his or her needs. There are many ways that an ElderQuest participant may be involved in University life including: serving as a guest lecture, working part-time on campus, assisting with special campus events, and mentoring students.

Writing Across the Curriculum

Students at EMU experience a coordinated approach to writing instruction that begins in their first year with ENGL 120/ENGL 121, that is supported through workshops and tutoring offered by the University Writing Center and Academic Project Center, and that is continued in their majors with the Writing-Intensive courses that are now a graduation requirement for all students. The Writing Across the Curriculum program provides the outcomes for and assesses the WI courses. It supports faculty members who teach the Writing-Intensive courses as well as faculty who use writing in both their General Education and other major courses. These faculty elect to participate in summer institutes that focus on the teaching of writing in the disciplines. Students benefit directly from these faculty members' dedication to the development of their critical thinking and communication skills.

University Library

Bruce T. Halle Library

Rachel J. Cheng, University librarian

Address: 955 West Circle Drive

Phone: 734.487.0020 ext. 2200

Fax: 734.484.1151

Web site: www.emich.edu/halle

The Bruce T. Halle Library supports the academic mission of the University through its state-of-the-art services, collections, technologies, facilities and equipment.

The Library is a vital component of the University's educational mission. It houses more than one million items including books, journal subscriptions, microforms, audio visual materials and U.S. Government Documents. The library has a rapidly growing collection of state-of-the-art electronic indexes and full-text ejournals and ebooks. The library contains special collections of faculty publications, children's literature, maps, African-American history and also houses the University Archives. These extensive collections are focused to provide strong support for the instructional programs of the University. More information about the library's collections, hours, and services is available at www.emich.edu/halle.

In addition to its collections, Halle Library provides the campus with venues where people can gather to share ideas and learn including meeting/classrooms, computer labs, a 90-seat auditorium, group study rooms, a TV studio, and the Paradox Café. The Library provides hundreds of public access computers. A unique feature of the Library is the Automated Retrieval Collection (ARC). The ARC's massive robot cranes locate and move the hundreds of bins that hold more than a half-million books, videos and other items from the Library's collection. Materials from the ARC can be in your hands within ten minutes.

Materials, including reserved reading materials assigned for use in course work, are checked-in and out on the main floor at the Circulation Desk. The Information Desk is located in the center of the first floor atrium and is the place where all library users may get assistance in using the collections and locating sources. For off-campus class students, the library offers reference assistance and instruction, access to research tools and access to materials. For more information, visit www.emich.edu/halle/offcampusclasses.

Collections on the main floor include the references, legal reference collections and maps. The second floor contains the journals, newspapers, government documents and children's literature collections and provides space for collaborative study. The third floor contains the circulating book collection and is the Quiet Study Floor.

Librarians offer a comprehensive range of orientation, reference and instructional services and are available to consult with users concerning their information needs, and to assist in developing search strategies and accessing resources. Subject-specialist librarians assist teaching faculty by working with them to design tours and instructional sessions for their classes. Appointments can be scheduled with individual librarians through the Information Services Office (734.487.0020, ext. 2100).

The Academic Projects Center (Halle Room 104), is a new venture offering one-to-one writing, research, and technology assistance for all EMU students. The APC is a collaboration between the University Library, Academic Technology and Computing Services, the University Writing Center, and the Writing Across the Curriculum and First Year Writing Programs. The APC offers point-of-need help with research, writing, and technology to students working on research papers and other academic projects. University Writing Center consultants, Halle Librarians, and technologists work together in the center to provide project-oriented support.

Division of Information Technology

To learn more about all the technology services provided for students, faculty and staff, please visit the Division of Information Technology web site at <http://it.emich.edu/>

Computers on Campus

Lab locations:

Morell D. Boone Computing Commons

Address: G07 Bruce T. Halle Library

Phone: 734.487.2121

Multimedia Commons

Address: Bruce T. Halle Library, first floor

Phone: 734.487.2687

Computer Lab

Address: 2nd Floor Student Center Union

Phone: 734.487.1365

Owen Computing Lab

Address: 101 Owen Building

Phone: 734.487.2241

Pray-Harrold Computing Lab

Address: 327 Pray-Harrold

Phone: 734.487.3271

Some of the colleges and departments have specialty labs available for different uses. Your professor will tell you about using these specialty labs. If you would like to know more visit the web site of your specific college or department.

Division of Information Technology Computer Help Desk

Address: 106 Halle Library

Phone: 734.487.2120

Web site: <http://it.emich.edu/>

The Division of Information Technology Computer Help Desk can assist with problems accessing EMU's Internet-based resources such as my.emich or the residence hall network (ResNet). Check the Division of Information Technology Help Desk web site for more information on protecting your computer from viruses and other malicious programs.

my.emich Portal Account

my.emich is Eastern Michigan University's personal portal. It is a common form of communication with EMU. This secure site provides students, faculty and staff with world-class intranet and Internet services including a 20 MB e-mail account and calendar. It is where you can check e-mail, access EMU's Web, register for classes and check your grades. For complete information on setting up your account, visit the my.emich web site at: <http://my.emich.edu> and click on "How Do I Get my user name and password."

EMU Computer Store

Address: EMU Student Center, Room 101a

Phone: 734.487.2400

Web site: www.emich.edu/computerstore

Eastern Michigan University's Computer Store is the location for students, faculty and staff to purchase computers, software, and related products at an educational discount. The Division of Information Technology Computer Store web site provides information on hardware, software, special promotions and details about the computer refresh program.

ResNet

ResNet is Eastern Michigan University's residence hall network service. ResNet uses dedicated Ethernet wiring to connect students to the University network and the Internet, and works much like DSL or cable modem. Service is provided free of charge to students living in University Housing residence halls.

Advantages of ResNet: ResNet is convenient; it requires no modem or phone line to connect; it is fast; and ResNet is a 10Mbit/sec Ethernet network.

To sign up for ResNet, after you arrive on campus, plug in and go through the simple registration process. For more detailed information about ResNet, visit the Division of Information Technology web site at <http://it.emich.edu/>.

Wireless Networking

Wireless networking is available to students, faculty and staff in select locations on campus. Wireless networking allows anyone with a wireless compatible laptop computer, and a my.emich user name and password, to connect to the campus network without being "plugged in." For more details about the EMU Wireless network and responses to frequently asked questions, visit the Division of Information Technology web site at <http://it.emich.edu/wireless/>.

Registration and Grading

Academic Year

The academic year is divided into fall, winter, and summer semesters of 15 weeks each. The new student may be admitted to the University for any semester or session. The University calendar linked on the left-side navigation of the catalog.

Evening courses and Extended Programs and Educational Outreach courses permit scheduling options within each semester or session. Two-week workshops and weekend seminars provide additional course credit opportunities.

Academic Course Load

Academic course load is the number of hours that a student carries in a semester or session. The recommended full-time course load is 12-16 hours (15 with student teaching). Students must register for a minimum of 12 credit hours to qualify as full time for University purposes, including financial aid.

Occasionally an increased academic load is found to be necessary or desirable. Before registering for more than the recommended hours, the student is asked to consult an adviser. The following two restrictions are placed on increased academic load:

1. First semester freshmen may not take more than the recommended full-time academic load without special permission from the University Advising and Career Development Center (UACDC), 200 McKenny.
2. Students on academic probation may not take more than the recommended full-time academic load without special permission from the University Advising and Career Development Center (UACDC), 200 McKenny.

Qualified continuing students taking over 19 credit hours should consult carefully with an academic adviser. The registration system will prevent registration for more than 19 credit hours. Request assistance at the Records and Registration service counter to add classes in excess of 19 credits. No person is allowed to attend class unless officially registered on a credit or audit basis

with appropriate fees paid or, as full-time staff or faculty auditing under the staff benefits program. No credit will be given for work in courses not officially enrolled in by the mid-point of the term or session.

Auditing Courses

Courses may be audited subject to the approval of the head of the department offering the course. Audit applications may be obtained at, and returned to, the Office of Records and Registration, 303 Pierce Hall. No credit hours or grade points are awarded for a class audit. However, registration and payment of all fees is required for the class. Tuition and fees for auditing are the same as for the course in which credit is elected. Check the University calendar for deadlines to declare or remove audits.

Under provisions of the University staff benefits program, full-time staff, faculty and faculty spouses may audit classes by completing an approval process initiated at the Benefit Programs Office, McKenny. These students do not register for class and there is no transcript of their attendance.

Credit Hours/Class Levels/Course Numbers

Credits are determined by the units of work completed. One credit hour is the credit granted in a course that meets 50 minutes per week for 15 weeks. Credits earned on the term or quarter-hours basis at other institutions are converted to EMU credit hours by multiplying by two-thirds.

Class levels are determined by the academic hours completed as follows:

Class	Semester Hours
Freshman	0-24
Sophomore	25-55
Junior	56-84
Senior	85 or over

Administrative class levels that are not affected by academic hours completed:

Guest	GS
Non degree	ND
Second bachelor's	SB
Post-degree teaching certificate	TC

Course numbers indicate the academic level of the course as follows:

Course Number	Level of Difficulty*
100-199	Introductory

200-299

Intermediate

300-499

Advanced

Note:

**Introductory courses are appropriate for students who have had no course work at the University level in the discipline in question. Intermediate courses presuppose that the students enrolled are familiar with and able to work with the content or methods, or both, of the discipline as presented in the introductory course. Advanced courses presume that students enrolled are familiar with and able to work with content, concepts and methodology of the discipline at a level appropriate to that of undergraduate majors in the discipline.*

Courses numbered 500-599 are intended primarily for graduate students but are open in some cases to seniors. To be eligible, an undergraduate student must have successfully completed 85 hours or more of undergraduate credit, have a cumulative grade point average of 2.5 or better, and receive approval from the instructor and the Graduate School. Request forms are available at the Office of Records and Registration, 303 Pierce Hall. The maximum number of graduate hours that an advanced undergraduate can take is 15. Courses numbered in the 600s and 700s are exclusively for graduate students. Should an undergraduate student register in a 600 or higher class, they will be dropped without prior notice.

Prerequisites

Prerequisites designated in the catalog description of courses state requirements that must be completed with credit or are necessary to the understanding of the course selected. Any student not meeting prerequisites or other restrictions, unless waived by instructor's permission, may be prevented from registering for or required to drop the course. Courses at the 200-, 300- and 400-levels that carry no prerequisites are taught at the academic levels described above.

Corequisites

Corequisites designated in the catalog description of courses state requirements that must be completed at the same time of the course selected. Any student not meeting Corequisites or other restrictions, unless waived by instructor's permission, may be prevented from registering for or required to drop the course.

Concurrent Prerequisites

Concurrent Prerequisites designated in the catalog description of courses state requirements that must be completed before or at the same time as the course selected. Any student not meeting concurrent prerequisites or other restrictions, unless waived by instructor's permission, may be prevented from registering for or required to drop the course.

Final Examinations

Final examinations are given by instructors to help evaluate a student's achievement in a course. Whether or not that evaluation shall include the final examination shall be determined by the instructor in line with departmental and University policy. If a final examination is not given, the scheduled examination period shall be used for other class activity.

If a final examination is given, students shall take the examination with their own class and at the hour indicated on the examination schedule. Failure to take the examination at the scheduled time will result in a grade of E in the course, except when the requisite conditions for granting an I are present.

If a student finds that he/she has three examinations scheduled on one day, he/she may request the instructor of the class having the first examination of the day to arrange to offer the examination at another time. If he/she finds that he/she has four examinations scheduled for one day, he/she may request the instructors of the first two examinations to make arrangements so that no more than two are scheduled in one day. He/she may appeal to the head of the department in which the course is offered if a satisfactory solution is not reached.

Students who for religious reasons find that they are not able to follow the examination schedule should make special arrangements with their instructors. If arrangements are not satisfactory, a student may appeal to the head of the department in which the course is offered.

Any deviation from the student's examination schedule, other than to limit the exams to two in one day or to observe religious mandates, must be approved in advance by both the instructor and the department head, and will be granted only in cases of extreme emergency.

Failure to take an examination at the scheduled time without prior arrangement will result in a grade of E in the course.

Grades

The grades used by the University, with their corresponding values in points, are as follows:

Grade	Significance	Grade points per credit hour
A	Exceptionally high order	4.0
A-		3.7
B+		3.3
B	Distinctly above the average	3.0
B-		2.7
C+		2.3
C	Average	2.0
C-		1.7
D+		1.3
D	Below Average	1.0
D-		0.7
F	Unsatisfactory (denoting failure)	0.0
I	Incomplete	0.0
CR	Passing grade in credit/noncredit courses	0.0
NC	Failing grade in credit/noncredit courses	0.0
S	Passing grade in pass/fail elections	0.0
SC	Credit for certification in student teaching courses	0.0
PN	Passing grade in student teaching but not at level sufficient for certification	0.0
U	Failing grade in pass/fail	0.0
UN	Failing grade in student teaching elections	0.0
IP	In Progress	0.0

W	Withdrawal	0.0
2YR	E Forgiven - out of school two years	0.0
AUD	Audit	0.0
N	No grade submitted	0.0

Credits earned by student teaching, credit/noncredit classes or pass/fail options are not accorded grade points.

An E grade will be assigned for any course when the student stops attending a class without officially withdrawing from the course. Credit for courses in which either E or U grades have been received can be earned only by repeating the course at Eastern Michigan University. See repeat policy for exceptions.

A W grade is assigned only when an official withdrawal has been completed. (See Withdrawals below.)

Pass/Fail

The pass/fail option is available to students who wish to experiment in an unfamiliar field without jeopardizing their grade point averages or for other reasons. Limitations to the option are:

1. It may be exercised only by juniors and seniors who are in good academic standing (at least 2.0 at EMU).
2. It may be applied only to free electives, that is, to courses which are outside the student's major, minor, curriculum, general education requirements or a prerequisite to a required course.
3. A maximum of six such courses may be applied toward graduation.
4. Students shall indicate their intention to take a course by filing out an application with the University Advising and Career Development Center (UACDC), 200 McKenny, prior to the end of the program adjustment period. Approval or denial is available in two working days.
5. Students who elect to take a course on pass/fail may cancel the option and accept a letter grade up to the last day of class before the official University scheduled final examinations (the option for pass/fail may then be used for another course).
6. The instructor will not be notified of the student's election of this option. The regular letter grade reported by the instructor will be converted on grade reports and transcripts as follows:
 - a. Grades of A, B, C or D, including D-, will be converted to S, and shall count as credit toward graduation.
 - b. The grade of E will be converted to U, and shall not count toward graduation.
7. A course taken under this option shall not be used in any way in the computation of the student's grade point average.

Thus, a pass/fail election shall not be approved for a course in which the student previously received a letter grade.

Students should be aware that for some scholarships offered by the University pass/fail courses are not considered part of the minimum required load for scholarship. Students also should be fully aware of the possible implications of this option for acceptance into graduate schools and competition for financial aid. It has been ascertained that most graduate schools will accept students who have elected to take some courses on a pass/fail basis, but that if courses taken on this basis are sufficient in number on the transcript, Graduate School Examinations may be utilized to determine the student's acceptability. Graduate schools, in general, do tend to favor those applicants who have good letter grades on their transcripts.

Credit/Noncredit Grading

A credit/noncredit option is utilized by departments in courses where the standard letter grades do not seem appropriate. Such courses will be designated as CR/NC in the class schedule book. All students taking such courses will receive either CR or NC in place of letter grades. Neither CR nor NC will have any effect on a student's grade point average. Courses for which the CR is received will count towards graduation requirements, and there is no limit to the number of such courses that may be taken by an individual student. The CR/NC courses taken by students do not count in the number of pass-fail courses that can be elected.

Incomplete

An I (incomplete) grade is awarded only when a student has completed the majority of the work of a course and the student's work has been of acceptable quality (C or better), but the required amount of work has not been completed because of illness,

necessary absence or other satisfactory reasons. It is never applied to poor work or to absence from class by the student. The student must inform the instructor of the reason for the requested incomplete, and the instructor may at his or her discretion agree to the request.

An I grade must be removed within one calendar year from the end of the semester or session in which that grade was given. The time for removal of an I may be extended upon written recommendation of the instructor and approval of the dean of the college. Such extension will be granted only under unusual circumstances.

The initiative for conversion of an I to a letter grade rests with the student. If not converted to a grade by the end of the one-year period, the I will remain as a permanent part of the student's academic record. Students and faculty are encouraged to establish a written agreement on the work and time needed to remove the incomplete.

Grade Changes

When a letter grade (excluding I for incomplete grade or IP for in progress grade) is posted to a student's permanent record, it will be considered final unless an error was made in assigning the grade. Permitting a student to submit missing work or extra credit to improve a grade after the grade has been posted is not acceptable.

If an instructor error is identified, the instructor must file a grade change form, explaining the error. This form requires the approval of the department head. The appropriate dean will review and approve grade changes to ensure consistency with academic policies. All changes in letter grades (except from an I or IP grade) will require the signature of the dean of the college. The grade change is then submitted to and processed by personnel in the Office of Records and Registration. One year after the end of the relevant semester all grade changes from I or IP will require the permission of the dean of the college.

It is the responsibility of the student to call the instructor's attention to a possible grading error in a timely manner, but not more than 12 months after the questionable grade is posted. Three years following the close of any term of enrollment, the student's transcript will be considered to be the final indisputable record of academic achievement. Specifically, at the end of three years, grades are considered final, and no changes will be made to transcripts (e.g., no term or individual withdrawals, no grade omissions, no recalculated grades based on mathematical or clerical error, no incomplete removals). The only exception to this rule will be for master's specialist and doctoral field-based research, internships and dissertation hours.

Please Note: For the latest information on how these and other policies affect your Financial Aid, click on this link to their website.

Repeats

Students who meet the prerequisites and all other conditions for enrollment may repeat courses. All grades earned will be retained on the student's permanent record, with repeats indicated. Credit and grade point calculations for repeated courses are determined by the following rules:

Credit Earned:

1. Unless otherwise noted in the course description, credit for any repeated course (including all attempts at EMU and transfer credit granted) will apply only once toward all degree requirements.
2. The rules below do not apply to courses (such as Independent Studies) that can be taken for credit more than once. Multiple attempts in such courses are not considered repeats, and all grades received will be used in determining the student's grade point average.
3. A student who earned a passing grade in a course or who has previously received transfer credit for the course will lose the credit if he or she subsequently retakes the course and receives an E. If a student receives an Incomplete in the final attempt of a repeated course, the most recent earlier grade is the grade of record until the course work is completed and the I is replaced by the grade earned.

Repeated Courses and Grade Point Average (GPA):

1. Courses that are dropped or from which a student has withdrawn are not counted as attempts for purposes of this policy.
2. If a student repeats a course up to two times (for a total of three attempts), only the last grade received will be used in determining the student's grade point average. As stated above, all course attempts with repeats indicated will remain on the permanent record, even if not used to determine the grade point average.
3. There are no restrictions on the number of times that a student may repeat a course, however, the grades earned in the third and all subsequent attempts will be used in determining the student's grade point average unless explicit permission to have previous grades for the course eliminated from the calculation is granted by the head of the department or director of the school in which the course is offered. The student must contact the department head or school director prior to the end of the semester in which the course is repeated to obtain this permission. Such permission is required for every attempt beyond the third.
4. There are no restrictions on the number of different courses that a student may repeat, however, if a student repeats more than ten different courses, grades for ALL attempts (from the first on) for the eleventh and all subsequent courses will be used in determining the student's grade point average unless explicit permission to repeat the course is granted by the Academic Standards Committee in advance. The student must contact the University Advising and Career Development Center to request permission.
5. Such permission is required for every attempt of every course beyond the tenth. A student repeating a course may not elect a Pass/Fail grading option if the grade of record for the course is a letter grade.

Transfer Courses as Repeats:

1. If a student has credit for a course taken at EMU with a passing grade as the grade of record and subsequently transfers an equivalent course from another institution, the transfer credit will be treated as if it were another attempt at EMU, and the rules above will be applied. The grades received in previous attempts at EMU will not be used in determining the student's grade point average provided the total number of attempts, including the transfer, does not exceed three (3) and this repeat does not exceed the limit of ten (10) repeated courses. (Note that students receive credit, but not grades for transfer courses, so no grade for the course would be used in determining the student's grade point average in this case.)
2. If the grade of record is a passing grade, but the transfer course constitutes the fourth or later attempt, or if the student has already repeated ten or more courses, the grades received at EMU will be used in determining the student's grade point average as outlined in the previous section unless explicit permission is granted by the EMU Registrar to exclude the EMU grades once the transfer credit has been posted.
3. Advance permission from the EMU Registrar is required for student who want to transfer credit for a course equivalent to a course that the student has taken at EMU and for which the grade of record is a failing grade.

Note: Second admission programs and graduate programs may calculate grade point averages according to their own internal rules; for example, many specify that grades received in all attempts be used in the calculation. This policy does not apply to those admissions processes.

Grade Point Average (GPA)

The scholarship index or grade point average is the total number of Eastern Michigan University grade points acquired divided by the total number of Eastern Michigan University credit hours taken that carry grade points. When a course is repeated, only the last grade is used in the computation of the cumulative grade point average.

Transfer credit from another accredited institution is allowed for all transferable courses in which a grade of C or better is received, but is not included in computation of the GPA.

Calculation of GPA for returning former students who have not attempted any college or University work for at least two calendar years does not include courses in which a grade of less than D- was assigned. E grades will be changed to 2YR to reflect academic forgiveness.

Academic Probation and Dismissal

If, at the end of any term of enrollment, an undergraduate's cumulative GPA falls below 2.0, having previously been at or above 2.0 (or if the student is new to the University), that student will be placed on academic probation (P1). The student will then have three terms of enrollment (spring/summer count as one) to raise the cumulative GPA to 2.0 or higher. At any time that the student's cumulative GPA reaches 2.0, the student will be restored to good academic standing (GO). Unless the cumulative GPA has been raised to 2.0 by the end of the third term of probation (P3), the student will be subject to academic dismissal.

Exceptions to this policy are as follows:

1. Any student whose first term of probation is the result of a semester of all Es must earn better than 0.00 (all Es) in the first term of probation or face dismissal immediately.
2. Students who have been readmitted (RA is equivalent to P1) after a dismissal will be placed on P2 after their first term if their cumulative GPA remains below 2.0. They will have two terms to raise their cumulative GPA average to 2.0 or they will face a second and final dismissal.
3. All initial dismissal actions are subject to appeal. Procedures and deadlines for such appeals will be included in notices of academic dismissal sent to students at the conclusion of a term of enrollment. If an appeal is successful, the student will be reinstated (RN), which means the dismissal does not count. Students who are reinstated after an appeal will be given one more term to raise the GPA to 2.0 or they will be dismissed.

Students dismissed from the University for the first time may not attend Eastern Michigan University for one calendar year. They can then apply for readmission through the University Advising and Career Development Center. Procedures and deadlines for readmission are available in the University Advising and Career Development Center (200 McKenny Hall); contact the Associate Director for Academic Advising. Students dismissed more than once (excluding reinstatement) are usually not eligible to return to the University. On occasion, when students have been away from the University for at least 10 years, a request may be submitted, through the Director for Academic Advising, to the Academic Standards Committee, who will make the final decision in such a case. While remaining out of the University due to a dismissal, students may choose to attend another institution. Certain rules apply to course work taken elsewhere. Refer to the repeat policy in the catalog and consult with the University Advising and Career Development Center on transfer of courses. While on academic probation, a student may meet with the Assistant Director for Academic Actions or any adviser in the University Advising and Career Development Center. In addition, students may seek help in developing successful strategies for academic performance through the Holman Learning Center, the Counseling Services Center and the University Advising and Career Development Center

Certain conditions are attached to an academic status of probation. Students on probation may not:

- Enroll in more than the established maximum load for regular full-time status in any term of enrollment. For fall and winter, this would be 16 credits (15 credits if student teaching); in spring and summer, eight credits.
- Enroll in education courses or courses that require admission to the College of Education.
- Receive credit for graduate-level courses (500-level).
- Take courses on Pass/Fail.

Note: A revision to the Academic Probation Policy will be announced later this year, at that point in time the Catalog will be revised to reflect the changes made to the policy.

Drops/Withdrawals from Individual Classes

Drops/Withdrawals from Individual Classes

When withdrawal from a class, or from all classes, brings students' academic loads below the minimum number of hours necessary to qualify as full-time students for University housing, scholarship aid, student loans or any other benefits they enjoy for which academic enrollment was a prerequisite, the University may, at its option, take any or all of the following steps:

1. Deny permission to withdraw.

2. Cancel the benefits as of that date.
3. Declare the student ineligible for present and/or future benefits of a similar nature.
4. Deny permission to re-enroll in subsequent semesters.

Drops/withdrawals from class are permitted according to the following schedule (fall and winter):

Drop

- First eight days: All student-initiated drops during this period may be processed through the registration system. Such drops are not recorded on the student's permanent record.

Withdrawal

- Ninth day through tenth week: all student-initiated withdrawals are accepted automatically and recorded as a W (however, first semester freshmen must check with the University Advising and Career Development Center before withdrawing from courses). A withdrawal may be processed through the registration system or by submitting a withdrawal form to the Office of Records and Registration, 303 Pierce Hall.

Administrative Withdrawal

- After 10th week until beginning of final exam period: students can withdraw only if they have specific extenuating circumstances, of recent occurrence, which clearly prevent them from completing the course in question. **Withdrawals are not automatic and documentation is required.** Make application for Administrative Withdrawal at the Office of Records and Registration, 303 Pierce Hall. The decision will be communicated to the student and the instructor in question. Students must not stop attending class until they have received notification that the administrative withdrawal has been approved. If a student stops attending class and does not take the final exam without being withdrawn, University policy requires that the instructor assign a grade of E for the course.

Note:

These procedures and University withdrawal procedures also apply to spring and summer sessions, though the time frame is more condensed. The exact withdrawal and deadline dates are printed in the current Class Schedule Book for the session concerned.

Withdrawals from the University

The following University procedure is subject to change in accordance with regulatory changes initiated by the United States Department of Education.

A credit adjustment of 100 percent of tuition and fees for the fall and winter semesters, less a registration fee, will be made to those students who completely cancel their registration or withdraw from the University through the eighth business day of the semester. For the spring and summer semesters, a 100-percent credit adjustment, will be made through the first four business days of the semester. Actual dates are printed in the Class Schedule Book for each semester.

A credit adjustment for total withdrawals after the eighth day of fall and winter semesters, or the fourth day of spring and summer semesters, will be made according to the following schedule:

Withdrawal by the following day of the semester

Credit Adjustment	Fall/Winter	Spring/Summer
50-percent	19th	10th
25-percent	38th	19th

0-percent

Last day before finals

Last day before finals

Actual dates are printed in the class schedule book for each semester and session. No credit adjustments will be made after the above stipulated dates.

Retroactive Withdrawal

Retroactive withdrawal from the University may be requested by a student when unexpected circumstances arise after the completion of classes for a term. Normally, the request will be considered only for the preceding term.

The retroactive withdrawal policy is dependent on one or both of the following reasons:

1. *Administrative.* Through an administrative problem or error, the student received an E grade.
2. *Mental or physical stress.* Subsequent to awarding the term grades, the student claims that severe physical or psychological stress was present during the semester. Documentation must be presented by or on behalf of the student, and a consultation may be required. In this case, the decision will affect all the classes the student was registered for during the term in question. In cases of severe mental or physical stress, it is usually assumed that students are so incapacitated they were not able to carry on with University responsibilities.

In either situation, the student must initiate the request at the Office of Records and Registration, 303 Pierce Hall. Upon review of the documented evidence and possible further consultation, the director or designee will recommend action to the vice president for undergraduate studies or designee.

The approval of a retroactive withdrawal does not constitute approval of a tuition refund. Grades of W will be posted on the official academic record.

Student Conduct/Grievances

Grade grievance procedures may be obtained from the academic department involved. Student employment grievance procedures may be obtained from the University Advising and Career Development Center, 200 McKenny Hall.

Undergraduate Policies and Information

Return To: Academic Policies

Undergraduate Policies and Information

Admission and Financial Aid: www.emich.edu/policies/chapter7/

Admissions: www.emich.edu/admissions/

Financial Aid: www.emich.edu/finaid/

University Governance and Individuals' Rights

Board of Regents: www.emich.edu/regents

Eastern Michigan University is an autonomous University governed by an eight-member board of regents appointed by the governor of Michigan and subject to the approval of the Michigan Senate. Financial support for the University comes from student tuition and fees, and support provided by the citizens of Michigan.

Policies on Nondiscrimination

Eastern Michigan University shall not discriminate against any person because of race, color, creed, religion, national origin, gender, age, disability or sexual orientation. Further, the University shall work for the elimination of improper discrimination in the areas listed above in organizations recognized by the University and from non-University sources where students and employees of the University are involved.

Equal Opportunity and Affirmative Action Policies

Eastern Michigan University admits students of either sex, and any race, color or national or ethnic origin to all the rights, privileges, programs and activities accorded to students at this University. The University does not discriminate against students on the basis of sex, race, color or national or ethnic origin in the administration of its educational policies, admissions policies, scholarships and loan programs and athletic and other University-administered programs. Further, it is the policy and practice of Eastern Michigan University to take affirmative action in all personnel matters.

Gender Equality

It is the policy of Eastern Michigan University to comply with Title IX of the Education Amendments of 1972 and its regulations, which prohibit discrimination on the basis of sex. Anyone who believes that in some respect Eastern Michigan University is not in compliance with Title IX and its regulations should contact the executive director of Human Resources.

Nondiscrimination of the Disabled and/or Challenged: www.emich.edu/diversity/

In its programs, activities and employment, Eastern Michigan University does not discriminate on the basis of physical or other disabilities. Anyone who believes that in some respect Eastern Michigan University is not in compliance with the Rehabilitation Act and its regulations should contact the executive director of Human Resources. Prospective students with disabilities who are otherwise qualified for admission are invited to apply. Students encountering difficulty with access to full participation in University activities should contact the ombudsman.

Statement on Campus Violence

In accordance with the education mission of Eastern Michigan University, the University adopts this policy statement to promote a safe campus environment. The statement reflects the nonviolent spirit of the relationship between students, staff, administrators, faculty, contractors and visitors at Eastern Michigan University.

The safety and security of our students, staff, administrators, faculty, contractors and visitors is extremely important to Eastern Michigan University. Threats, acts of aggression and threatening or violent behavior are not tolerated by or toward students, staff, administrators, faculty, contractors or visitors. All reports of incidents will be taken seriously and will be dealt with appropriately.

Threats can be direct and immediate or indirect and implied; threats can occur verbally, nonverbally or in writing. Acts of aggression include, but are not limited to, abusive behavior, stalking and tampering with property and are intended to intimidate, create fear, imply harm or destroy property. Threatening or violent behavior is behaving in such a way that poses an immediate threat to self or others by acts of physical harm.

All students, staff, administrators, faculty, contractors and visitors are strongly encouraged to report threats, acts of aggression and threatening or violent behavior to the Campus Police (911 for all emergencies, 487.1222 for all other calls), Human Resources (487.0083), and/or your department head or supervisor, to help ensure the safety of our campus community.

Community College Relations

Pat Cygnar, Director

E-mail: pat.cygnar@emich.edu

Trish Molloy

E-mail: pmolloy@emich.edu

Address: 229 Rackham Building

Phone: 734.487.6577

Web site: www.emich.edu/ccr

The Office of Community College Relations works collaboratively with the faculty and staff of EMU and community colleges to enhance the educational transition process for community college students. Our purpose is to promote a seamless transfer process that minimizes the loss of academic credit and time in obtaining a bachelor's degree. Many EMU academic programs have signed program articulation agreements with community colleges, that ensure the transfer of credit from an associate degree program to a bachelor's degree program. Students who use an articulation agreement may receive credit for courses or blocks of courses that do not transfer outside of the agreement. The agreement also provides a curriculum guide that, makes it easier to select courses that satisfy the program and institutional requirements at both schools. Community college students should check with their counselor or program adviser about the availability of articulation agreements, or visit the CCR web site (www.emich.edu/ccr).

CCR activities include:

- Facilitating the development of program articulation agreements;
- Facilitating collaborative arrangements with community colleges (such as faculty meetings and professional workshops, joint promotion of articulated programs and joint sponsorship of student activities);
- Maintaining and updating articulation agreements;
- Maintaining a web site with articulation curriculum guides and information on the status of articulation agreements;
- Providing support to community college faculty and staff regarding transfer student issues including articulation and transfer equivalency;
- Working with the EMU Transfer Services to facilitate course credit equivalency for transfer students;
- Providing articulation information to the EMU Advising Centers;
- Collaborating with the Admissions Office in sponsoring Community College transfers events and activities;

Please also refer to the transfer website for more details on transferring to EMU.

The MACRAO Agreement

Eastern Michigan University is a signer of the MACRAO (Michigan Association of Collegiate Registrars and Admissions Officers) agreement. The purpose of this agreement is to ensure that students who complete a specified distribution of general education courses at a Michigan community college will have satisfied all or most of the general education requirements at signatory four-year colleges. Eastern Michigan University accepts the MACRAO agreement with the following provision:

Students who have been certified by a signatory community college as having satisfied the general education requirements of the MACRAO agreement will be required to fulfill only the three additional requirements now a part of Eastern Michigan University's general education requirements: a quantitative reasoning course (unless waived by ACT or SAT scores), a U.S. diversity or global awareness course, and a learning beyond the classroom experience or course. This agreement applies only to general education and does not exempt community college students from meeting all curriculum and graduation requirements.

Articulation Agreements

Articulation agreements between Eastern Michigan University and certain two-year colleges allow students to complete an associate degree and transfer into a related bachelor's degree program with minimum duplication of coursework and loss of credit. Articulation agreements list the courses that will transfer to Eastern Michigan University and show how they fulfill requirements toward completion of the bachelor's degree program. Articulation Agreement Guides are available online at www.emich.edu/ccr.

To see a complete list of current colleges with program articulation agreements with EMU, please [click here](#).

Financial Assistance

During the 2004-2005 school year, Eastern Michigan University provided \$126,256,977 in financial aid to more than 14,500 students in the form of scholarships, grants, awards, GA tuition/stipends, athletic grants-in-aid, part-time employment and fellowships.

The federal government, State of Michigan, Eastern Michigan University and private sources provide program funding. While most awards are based on financial need, scholarships often have academic achievement requirements or other eligibility criteria.

Federal and state aid is awarded to help pay college costs based on the assumption that parents and students will contribute as much as they are financially able. To the extent that the family does not have sufficient resources to meet the costs of higher education, students may qualify for need-based financial aid.

Academic Scholarships (see chart below)

- New freshmen who are admitted by Mar. 1 and transfer students by May 15 for the following fall are considered for scholarships through the EMU Admission application.
- Continuing students apply annually, by completing the University Scholarship Application. Applications are available online in the Office of Financial Aid section in October and are due in January.

Presidential Scholarship - Four-year award that pays 30 credit hours per year of in-state tuition, housing, food allowance and mandatory fees. Awards are based on a competitive exam. Requires an additional application, available at high schools beginning each September. Sixteen awards are made per year. Minimum 3.5 GPA for renewal. Recipients must live in University residence halls their first two years. Deadline to apply is generally November 20 of each year.

Regents Gold Scholarship - Four-year award that pays 30 credit hours per year of in-state tuition and fees. Awarded only to participants in the Presidential Scholarship Competition.

Regents Scholarship - Four-year award that pays \$3,000 per year. High school seniors must have a 3.7 GPA with a 25 ACT or 1150 SAT. Minimum 3.5 for renewal. Must be admitted by Mar. 1 for the fall semester (or May 15 for transfer).

Recognition of Excellence Scholarship - Four-year award that pays \$2,000 per year. High school seniors must have a 3.5 GPA with a 21 ACT or 1000 SAT. Minimum 3.3 for renewal. Must be admitted by Mar. 1 for the next fall semester (or May 15 for transfer).

National Scholars Program - Four-year award that pays 30 credit hours per year (15 per semester) of out-of-state tuition differential. High school seniors must have a 3.0 GPA with a 20 ACT or 950 SAT. Minimum 3.0 for renewal. Must be admitted by Mar. 1 for the next fall semester.

Wade McCree Scholarship - Eastern Michigan University participates in this scholarship program. The program originates at the high school and determines the student eligibility. Students receiving the scholarship should contact the program administrator about activating their scholarship or transferring remaining scholarship eligibility to EMU. The value of this scholarship is the full cost of tuition less any tuition specific scholarships or grants.

Eagle Scholarship - Four-year award to freshmen that pays \$1,500 per year. Requires 12 credit hours enrollment each semester and 2.75 GPA to renew.

Leader Award - One-year award of \$1,000. Continuing EMU students must have a GPA of 2.0 and must show volunteer involvement at EMU or in the community for consideration.

Community College Scholarship - One-year award of \$1,000. Transfer students must have completed at least 30 credit hours with a minimum cumulative 3.5 college GPA and must be admitted by May 15 for the next fall semester.

Departmental Scholarship - Award amounts vary and are made by departments. Selections can be based on academic as well as representative talent within that department or major.

Music Service Awards - Award amounts vary. Awards are made to students who perform in EMU's music programs or provide outstanding service to the Music and Dance Department. Deadline is June 1 for the next fall semester.

Communication/Theatre Arts Service Awards - Awards are made to students who perform in forensics or theatre arts programs, or make outstanding contributions to the Communication/Theatre Arts Department.

Army and Air Force ROTC Scholarships are also available. Contact the ROTC office at 734.487.1020 for more information.

Many academic scholarships are provided by external sources, including community agencies, service organizations, charitable organizations, civic groups and foundations. Students should investigate these potential resources by checking with public and University libraries for scholarship resource books and by contacting the agencies directly.

Undergraduate Academic Scholarships

Awarded	Minimum Requirements	Amount	Freshman Housing Requirement	Renewal Criteria	Deadline
Presidential Scholarship	Participate in the Presidential Scholarship Competition (PSC)	30 credit hours per year of in-state tuition, housing, food allowance and mandatory fees 4 years	Residence halls for first two years	3.5 Cumulative GPA 15 credit hours each semester	November 20

Federal and State Financial Aid

To be considered for federal and state aid programs, students complete the Free Application for Federal Student Aid (FAFSA) available at www.fafsa.ed.gov beginning each January. The FAFSA must be filed every year to determine eligibility for the upcoming academic year.

Priority funding will be offered to students who receive their Student Aid Report from the FAFSA processor dated March 1 or earlier. To meet this deadline, applications should be filed by February 15.

General Eligibility Requirements for Financial Aid

By completing the FAFSA, eligible students will be considered for all federal and state aid programs. To receive aid, a student must:

- Be enrolled in an eligible program;
- Be a U.S. citizen or an eligible noncitizen;
- Demonstrate need;
- Make satisfactory academic progress toward a degree;
- Not be in default on a federal student loan;
- Not owe a refund on any Federal Title IV, state or University aid program.

The FAFSA application collects information about family income and assets, family size and the number of family members attending college at least half time. Based on an analysis of this data, the federal government determines the expected family contribution that is identified on the Student Aid Report. The expected family contribution is subtracted from the University's cost of education to determine whether there is a difference between the family's ability to pay and the college budget. Most federal and state programs are awarded based on a student's need.

The cost of education consists of an estimate of direct and indirect expenses. The direct costs are tuition, fees and room and board. The indirect costs are books and supplies, transportation and miscellaneous personal expenses. The cost of education at EMU is determined annually.

The cost of education* for undergraduate students for fall and winter 2008-2009 semesters:

On-campus	\$17,590
Off-campus	\$17,590
Commuter	\$13,070

Note:

**Estimated and subject to change.*

Determination of Need-based Financial Aid Awards

The award process for the upcoming academic year begins in March. Aid is awarded to students once they have been officially admitted to the University and EMU receives the institutional record of the Student Aid Report from the federal government. Once the Office of Financial Aid has determined the aid package, a Financial Aid Award Statement will be made available to the student applicant. The award statement contains information regarding the type and amount of aid, disbursement information and other instructions necessary to complete the aid process.

Financial aid awards are processed and funds disbursed in compliance with established federal, state and institutional policies.

Federal Financial Aid Programs

The maximum amounts of aid described below are subject to change by federal and state regulations or University policy.

Federal Pell Grant - Annual awards of up to \$4,731 are available to undergraduate students who are enrolled and have demonstrated financial need.

Federal Supplemental Educational Opportunity Grant - Awards range from \$100 to \$2,000 per year. Priority is given to students who receive Federal Pell Grants.

Federal Academic Competitiveness Grant (ACG) - \$750 for first-year and \$1,300 for second-year undergraduate students. To be considered, a student must have completed a rigorous secondary (high school) program of study after Jan. 1, 2006, and must be Pell Grant eligible and a U.S. citizen.

Federal SMART Grant - \$4,000 per year for full time third- and fourth-year undergraduate students majoring in science, computer science, technology, math and some foreign languages. Students must have 3.0 GPA, and be Pell Grant eligible and U.S. citizens.

Federal Perkins Loan - Annual awards are available to undergraduate and graduate students who are enrolled at least half-time and have demonstrated financial need. Undergraduates may borrow up to \$4,000 per year (\$20,000 maximum) and graduate students may borrow \$6,000 per year (\$40,000 maximum including loans borrowed as an undergraduate). Priority is given to students who receive Federal Pell Grants.

Federal Subsidized and Unsubsidized Loan Program - Loans are provided through the U.S Department of Education. Following is the maximum annual amount a dependent student may borrow, based on academic level:

Freshman	\$5,500
Sophomore	\$6,500
Junior/Senior	\$7,500

Federal PLUS Loan Program

The Federal Parent Loan for Undergraduate Students (PLUS) is a loan from private lenders to parents of dependent students. Parents may borrow up to the cost of education less any other financial aid (including the Unsubsidized Stafford Loan amount). The PLUS loan is available to parents after a credit check to determine ability to repay. Interest rates are determined by the bond equivalent rate of the 91-day Treasury Bill plus 3.10 percent, not to exceed nine percent. A three percent origination fee is paid directly to the federal government from the loan proceeds. Repayment begins within 60 days after loan disbursement. Repayment may take up to 10 years. Minimum monthly payment is \$50.

Submit a pre-application online at www.emich.edu/finaid/ for a credit check. Upon successful completion of a promissory note, the loan funds are made payable to the parent and Eastern Michigan University. The funds are sent electronically to EMU in two disbursements.

Federal PLUS Loan for Graduate Students

Graduate students may apply for the Graduate PLUS Loan in addition to the Federal Stafford Loan.

Michigan Financial Aid Programs

Michigan Competitive Scholarships - This state-funded scholarship program is based on a combination of ACT tests score and financial need, as determined by completing the FAFSA. Students initially apply by taking the ACT no later than October of their senior high school year. The second step of the application process is to submit the FAFSA. The state has a deadline of March 1 for students to receive a processed FAFSA. Students may annually renew the scholarship by maintaining a 2.0 GPA and demonstrating continued financial need.

Michigan Adult Part-Time Grant - Need-based gift aid available to undergraduates who are enrolled on a part-time basis. Students must meet independent criteria as indicated on the FAFSA. Grants of up to \$600 are available for a maximum of two years.

Michigan Educational Opportunity Grant - Need-based gift aid to undergraduates enrolled at least half time. Students who meet the basic requirements for the Michigan programs are eligible. Grants of up to \$1,000 per year are available.

Michigan Work-Study Program - Need-based program that provides work opportunities for undergraduates. Both nonprofit and profit-based employers may sign agreements with Michigan colleges to participate in this program. Students who meet the basic requirements for the Michigan programs are eligible. Awards range from \$900 to \$3,000 per year.

Verification of Financial Aid Application Information

Applicants selected for verification must provide documentation to prove the accuracy of certain items reported on the FAFSA before aid is disbursed. Major items verified may include:

- Copies of federal income tax returns with schedules
- W-2 forms
- Verification Worksheet
- Most recent year-end statements for:
 - Child support
 - Social security benefits
 - Other forms of income/benefits not included on a W-2
 - Benefits received from other federal and state agencies
- Documentation of Orphan or Ward of the Court status

The deadline by which verification documentation must be submitted is published annually by the Office of Financial Aid but no later than the student's last date of enrollment for the fiscal year. Failure to submit required documents by the due date will result in the cancellation of financial aid offers.

Payment of Financial Aid

A financial aid file must be complete and verified, if required, before aid is paid to a student's account. The following aid is paid directly to a student's account:

- Federal Pell and Supplemental Educational Opportunity grants
- State of Michigan grants and scholarships
- University grants and scholarships
- Outside scholarships
- Federal Subsidized and Unsubsidized Stafford loans with electronic funds transfer

- Federal Perkins Loans
- Federal Parent (PLUS) Loans

Federal and state college work-study checks are issued directly to students for hours worked on a bi-weekly basis.

Students will be issued refunds through their EagleOne accounts for aid applied to an account that exceeds the charges on that account. Financial aid will not pay for library fines, late/installment fees, hang tags or telephone charges.

Satisfactory Academic Progress (SAP)

Federal regulations require that students progress satisfactorily toward graduation. Satisfactory Academic Progress is evaluated using three factors: grade point average, percentage of attempted courses completed and maximum credits of eligibility in which to complete a degree. Students who fail to maintain SAP may lose eligibility to receive funds from federal Title IV, state or University need-based aid programs.

Students must maintain the following requirements:

- **Undergraduate:** overall GPA of 2.0 or better;
- **Graduate:** overall GPA of 3.0 or better;
- Completion of 67 percent of all attempted credit hours;
- Completion of program of study within the maximum of 150 percent of the total program hours, including transfer credits.

Students who do not meet the SAP requirements will be put on probation. Failure to improve SAP while on probation will result in cancellation of future financial aid eligibility.

Students who had extenuating circumstances that resulted in failure to maintain SAP may appeal the cancellation. Students must submit a letter of appeal addressed to the Financial Aid Review Committee and attach third party documentation, as appropriate.

Repayment Policy

Some students who withdraw from all classes before the end of the semester and who have received federal or state aid may be required to repay all or a portion of aid paid.

Financial aid is used for expenses incurred while attending school. Any portion allocated to the weeks the student did not attend classes must be repaid.

Students are notified when funds are returned to their lender and/or when they are required to repay aid. Consult the Office of Financial Aid before dropping a class or withdrawing from all classes to determine whether aid and/or scholarships will be repaid, reduced or cancelled.

Loans without a FAFSA

Students may apply for the following loans without a FAFSA:

University Short Term Loans (USTL) - Available to part-time and full-time students who:

1. are currently enrolled at the University;
2. have earned previous credit at Eastern;
3. qualify academically (minimum GPA of 2.0 "C" undergraduate, GPA of 3.0 "B" graduate);
4. have no past due obligations;
5. have repaid previous loans satisfactorily.

Students may borrow up to \$250 without a co-signer or up to \$500 with a co-signer. Applications may be obtained at the Student Loan Accounting Office, 203 Pierce Hall. Loans are processed within 24 hours, Monday-Friday.

The Small Loan Fund - Provides 30-day, short-term, interest-free loans to \$15 maximum to help students meet emergencies. Loans are available at the Cashier's Office, Pierce Hall.

Tax Information

Grants and scholarships received in excess of qualified tuition, fees, books, supplies and equipment may be taxable income. Students who do not earn enough money to file income tax returns may need to determine if their financial aid makes a difference in their tax filing status. EMU will issue 1098T and 1098E forms to assist in determining taxable income and eligibility to claim the Hope or Lifetime Learning Tax Credits for Student Loan Interest deduction. Contact the IRS with any questions regarding tax issues.

Financial Information and Student Accounts

Tuition and Fees

All University fees and assessments are subject to change without notice at any time by action of the Board of Regents.

Registration

Students must be registered before attending class. The registration fee is \$43 for each semester. This service fee is assessed at the time the student registers.

An additional late registration fee of \$120 per semester is charged to students who do not complete registration prior to the official first day of classes each semester. The last day to register is at the mid-point of the term or session.

Financial obligations must be met by students by the posted due dates in order for students to be eligible for the next registration period (or graduation). Transcripts, diplomas or other statements of record will be withheld and students will be ineligible for further registration until obligations have been fulfilled.

Cancellation of registration by a student who decides not to return to EMU after registering in advance for classes must be initiated by the student on a signed cancellation-of-registration form either in person or by mail to the Office of Records and Registration, 303 Pierce Hall. If students have applied for University housing, they also must cancel the contract in the Housing Office. This is necessary for cancellation of room and board assessments.

Failure to withdraw may leave students with responsibilities for payment of tuition, fees and housing charges that will not be paid by financial aid.

Tuition

Tuition is assessed for all credit hours for which the student is registered. Regardless of student class level, undergraduate tuition is assessed for all courses through the 400-level; graduate tuition is assessed for all courses 500-level or above.

Off-campus tuition rates are the same as on-campus tuition rates (online courses, which are offered at in-state tuition rates, cost an additional \$43 per credit hour).

Tuition for auditing classes is the same as for-credit classes.

2008-2009 Michigan and Ohio resident rates, per credit hour:

Undergraduate courses up to 499	\$229.50
Graduate courses lower level (500-699)	\$401.50

Doctoral assessment upper level (700 and above)	\$462.00
2008-2009 nonresident rates, per credit hour:	
Undergraduate courses up to 499	\$676.00
Graduate courses lower level (500-699)	\$791.50
Doctoral assessment upper level (700 and above)	\$756.35

Residence Classification for Tuition Purposes Policy

I. Regulations for determining residence classification

A person enrolling at Eastern Michigan University shall be classified as a resident or a nonresident for tuition purposes. A student's residence status shall be determined at the time of his/her initial admission to the University. In order to determine the domicile of a student, the following regulations will be utilized:

A. Establishment of Residence

No student shall be eligible for classification as a resident for tuition purposes unless the student has demonstrated that he/she has established domicile in Michigan.

B. Minors and Dependents over 18

The domicile of a student who is not yet 18 years of age follows that of the student's parents or legal guardian. If that student's parents or legal guardian would qualify in accordance with the University's regulations for determining residence classification, that student shall be considered a Michigan resident for tuition purposes.

Students 18 years of age or older who are claimed as dependents for federal income tax purposes by their parents or guardians at the time of registration and for the tax year preceding the year in which they register will be classified for tuition purposes as though they were minors.

C. Nondependent Students

An independent student 18 years of age or older is considered eligible for residence classification if the student has demonstrated that he/she has established domicile in Michigan.

D. Spouse

The domicile of a student who otherwise would be classified as a nonresident for tuition purposes will follow that of the student's spouse, if the spouse is eligible for classification as a Michigan resident for tuition purposes (applicable only to U.S. citizens or to aliens admitted to the United States in accordance with Subsection E).

E. Aliens

An alien (noncitizen) student shall be eligible for classification as a Michigan resident for tuition purposes if he/she is domiciled in the United States and also qualifies in accordance with the University's Regulations for Determining Residence Classification.

In order to demonstrate that he/she is domiciled in the United States, the student must be a permanent resident, or an alien with one of the following visa classifications, or an alien with other documentation from the Immigration and Naturalization Services that reflects such status:

Visa classifications:

- E-1 - treaty trader, spouse, and children;
- E-2 - treaty investor, spouse, and children;
- G-4 - international organization officer or employee and members of immediate family;

- H-1 - temporary worker of distinguished merit and ability;
- H-2 - temporary worker performing services unavailable in the U.S.;
- H-3 - trainee;
- H-4 - spouse or child of H-1, H-2, or H-3;
- J-1 - exchange visitor (limited to persons engaged as trainees, teachers, professors or research scholars);
- J-2 - spouse or child of J-1 as limited above;
- L-1 - intracompany transferee;
- L-2 - spouse or child of L-1.

F. Migrants

Migrant status is one factor considered when determining if a student is domiciled in Michigan for tuition purposes. Michigan migrants are defined as individuals who have made their livelihood in seasonal work in the state of Michigan, and have traveled interstate for this purpose. Migrant students shall be considered Michigan residents for tuition purposes if they, or their parents or legal guardian, were employed in Michigan for at least two months during each of three of the preceding five years. Verification of employment as migrant workers should be secured from the Michigan Farm Labor and Rural Manpower Services Office. Other appropriate evidence also may be used by migrant workers to establish their status.

G. Spouse or Dependent of a U.S. Military Service Person

The spouse or dependent of a person currently serving in a branch of the U.S. military service (excluding reserve programs) or of a person who died while serving in a branch of the U.S. military service shall be eligible for classification as a Michigan resident for tuition purposes if that military service person qualified in accordance with the University's regulations for determining residence classification immediately before entering the military service as a Michigan resident.

H. U.S. Military Service Veteran

A veteran of a branch of the U.S. military service (excluding reserve programs) shall be eligible for classification as a Michigan resident for tuition purposes if that person qualifies in accordance with the University's regulations for determining residence classification immediately before entering the military service as a Michigan resident.

II. Guidelines And Criteria For Determining Residence Classification

Since a student normally comes to Eastern Michigan University for the primary or sole purpose of attending the University rather than to establish domicile in Michigan, students who enroll in the University as nonresidents shall continue to be so classified throughout their attendance as students, unless and until they demonstrate that their previous domicile has been abandoned and a Michigan domicile is established.

The following guidelines and criteria shall be applied when reviewing a student's classification. It is recognized that no one of the following criteria shall, standing alone, necessarily be controlling. All factors indicating an intent to make Michigan the student's domicile will be considered by the University in classifying a student.

A. The following facts and circumstances, although not necessarily conclusive, have probative value in support of a claim for residence classification:

1. Domicile in Michigan of family, guardian or other relatives or persons legally responsible for the student.
2. Former domicile in Michigan and maintenance of significant connections therein while absent.
3. Self-supporting reliance upon Michigan sources for financial support (verification of Michigan income tax liability must be provided).
4. Continuous presence in Michigan during periods when not enrolled as a student.
5. Long-term military commitments in Michigan.
6. Acceptance of an offer of permanent employment in Michigan (in a position not normally filled by a student).
7. Ownership of real estate in Michigan.

B. Please note: The following circumstances, standing alone, shall not constitute sufficient evidence of domicile to effect classification of a student as a resident under these regulations:

1. Voting or registration for voting.
2. Employment in any position normally filled by a student.

3. The lease of living quarters.
4. A statement of intention to acquire a domicile in Michigan.
5. Automobile registration, driver's license.
6. Birth records or other public records.

III. Reclassification of Residence Status

A student's residence status may be reviewed at each subsequent registration. If a student's circumstances should change to the extent that he/she would no longer be considered a Michigan resident for tuition purposes, as herein described, that student shall be reclassified as a nonresident for tuition purposes 12 months thereafter.

It shall be the responsibility of all students, prior to registering, to raise questions in the Student Business Services regarding their right to be registered as a resident for tuition purposes.

The administration is authorized to establish procedures and delegate authority for determining the residence status of students for tuition purposes.

A tuition reciprocity agreement with Ohio, entered into by the Michigan State Board of Education and the Ohio Board of Regents in 1980, allows an Ohio resident to attend Eastern Michigan University at Michigan resident tuition rates. Monroe County residents can attend the University of Toledo at Ohio resident tuition rates.

Tuition and Fee Payment

1. Log into your my.emich.edu e-mail account, or your forwarded my.emich mail. (If you use a forwarded e-mail address, keep it current.) Each month, you will receive an e-mail notifying you that your bill has been posted. It is the student's responsibility to check e-mail monthly.
2. You will need your E-ID and Personal Identification Number (PIN) to access Ebill, EPay and Payment Plans. At my.emich.edu on the bottom of the first page are instructions to access your E-ID and PIN.
3. View your bill and click on "Current Account Activity" to view transactions that are posted after the bill is issued. You can also go to your profile and add an alternate e-mail address.
4. Pay your bill with your checking account routing number (ACH), MasterCard, American Express or Discover Card via PayPath. You may pay your bill in person or by mail at 201 Pierce Hall, Ypsilanti MI, 48197. Please write your E-ID on your check payment.
5. Allow access to parents or other parties by setting them up as authorized users. All you need is their e-mail address. This will allow them to access your bill, pay your bill, and set up a payment plan. An e-mail is automatically sent to the authorized user with sign-in details. The authorized user will create a new password once in the site.
6. The University offers a payment plan to help manage the cost of education. The cost of the plan is \$29 and is added to your installment payments. The plan automatically adjusts as payments or charges are added to your account. To enroll, simply log into the Ebill site at ebill.emich.edu. Click on "Payment Plan," at the bottom of the Ebill site, and follow the four simple steps to enroll in the plan. We hope you enjoy this added convenience and we welcome any questions you may have.
7. If you have any questions about the system, please send your e-mail to ebill@emich.edu.

EMU's optional payment plan is offered in the fall and winter semesters only and is applicable to tuition and room and board. A minimum of 50 percent must be paid initially and the remainder by the eighth week of the semester. An installment service fee of \$29 is assessed with the first installment billing and a late payment fee of \$36 per month is assessed on past-due balances.

If a student's account is past due for a current semester, enrollment, University housing and other University services (such as the release of transcripts) are subject to suspension until the account is brought into current status. Payment of assessments for a current semester does not relieve the student of obligation for payment of any balance from a prior semester.

Program Adjustment Fee

Beginning with the start of classes, a program adjustment fee of \$11 per drop transaction will be assessed for each student-initiated program adjustment.

For final adjustment deadlines and coordinate fee schedules, see the Class Schedule Books or on the Web at www.emich.edu/controller/sbs.

No program adjustment fees will be assessed for changes required as a result of University actions.

Credit Adjustment for Total Withdrawal

A credit adjustment of 100 percent of tuition and fees for the fall and winter semesters, less the \$40 nonrefundable registration fee, will be made to those students who cancel their registration or withdraw from the University through the eighth class day. For the spring and summer sessions, a 100 percent credit adjustment, less the \$40 nonrefundable registration fee, will be made during the first four days of classes. Actual dates are printed in the class schedule book for each semester and session or on the Web.

A credit adjustment of 50 percent of tuition and fees for the fall and winter semesters, less the \$40 nonrefundable registration fee, will be made to those students who withdraw from the University (all classes) from the ninth through the 19th class day. For the spring and summer sessions, a 50 percent credit adjustment, less an administrative fee, will be made from the fifth through 10th class day of the session. Actual dates are printed in the class schedule for each semester and session.

A credit adjustment of 25 percent tuition and fees for the fall and winter semesters, less the \$40 nonrefundable registration fee, will be made to those students who withdraw from all classes between the 20th through the 38th class day. For the spring and summer sessions, a 25 percent credit adjustment, less an administrative fee, will be made from the 11th through 19th class day of the session. Actual dates are printed in the class schedule for each semester and session.

No credit adjustment will be made after the above stipulated dates.

Decrease in Academic Load

For the fall and winter semesters, 100-percent tuition credit, less an \$11 program adjustment fee, will be processed for those students who decrease their academic load through the eighth day of classes. For the spring and summer sessions, a 100 percent credit adjustment, less a \$11 program adjustment fee, will be made during the first four days of classes. Actual dates are printed in the class schedule for each semester and session.

No credit adjustments will be made after the above stipulated dates.

If a student feels that individual circumstances warrant exceptions from the credit adjustment or University withdrawal adjustment policy:

1. Obtain a Tuition Appeal Application from the Student Business Services in 201 Pierce Hall. Complete and return the application along with an explanation of the extraordinary circumstances involved and supporting documentation of those circumstances. An approval or denial will be issued in writing by return mail. If the application is denied:
2. Appeal in writing to the Director of Student Business Services at the address above. Be sure to include any additional pertinent information with your written appeal.

Tuition and fee appeal applications must be submitted as early in the semester as possible. Applications received later than 15 calendar days after the close of the semester may be denied.

The General Fee

EMU has the responsibility to maintain certain services and facilities on campus for the comfort and convenience of students, and to maintain academic accreditation. Examples are improvements to academic facilities, Snow Health Center, learning technology labs, athletic facilities, performing arts facilities and Student Government. These are funded through a general fee of \$21 per credit hour and assessed to all students. Not every supported service or facility is used by every student, but the overall good of the student body is served.

The Program Fee

Students in upper-level and graduate courses in certain areas of study will be charged program fees. A complete list of program fees can be found at www.emich.edu/controller/sbs.

Student Union Fee

A student union fee of \$3.00 per credit hour is charged to all students to service the debt on the new student union building.

The Technology Fee

Each student will be charged a technology fee of \$10 per credit hour to update the technology of the University. This fee applies to any on-campus, off-campus and online classes.

Service Fees

Room and board fees are published by the Housing Office and are set by action of the Board of Regents.

A \$90 graduation fee is charged to each student who makes application for graduation. It covers the cost of mailing of diplomas and other specific graduation items. The fee is assessed once for each degree and is non-refundable.

Parking your motor vehicle in University parking lots requires the proper parking permit. To purchase your parking permit, you must first register your motor vehicle with the Public Safety Department, located on the ground floor of the parking structure. The application will indicate whether the permit will be mailed to you or whether you must pick it up in person.

Motor vehicle rates:

Commuter Permits (per semester)

FA and WI	\$75
SP and SU	\$37.50

Resident Permits (per semester)

Apartment housing FA and WI	\$150
Apartment SP and SU	\$25
Residence Hall FA and WI	\$150
Residence Hall SP and SU	\$75
Brown-Munson FA and WI	\$100
Brown-Munson SP and SU	\$50
Graduate Assistant FA and WI	\$40
Graduate Assistant SP and SU	\$20

All students meeting the requirements of the law are eligible to operate and maintain motor vehicles on campus. Motor vehicles are required to be operated within the provisions of the traffic, parking and pedestrian ordinances of the University and the city of Ypsilanti.

Further details are available in the parking and traffic regulations brochure available from campus police. Permit cost is subject to change.

Special Fees

Music fees are charged for private lessons according to the following schedule:

Music majors: \$60 per semester (maximum) for all instruction.

Other University students: \$60 per semester for one-hour lesson, \$30 per semester for half-hour lesson.

For students from public schools, the community and EMU staff and families, lessons are available through the EMU Community Music School. Fees vary depending on the length of the lesson and the instructor. Call the Department of Music and Dance for details.

Lessons are arranged through the Department of Music and Dance.

The applied music fee is assessed to each student's account at the close of the program adjustment period. This fee is not refundable after the first lesson.

Student Expenses

Estimated Academic Year Costs

(Residence Hall and Commuter Students)

The following budget represents typical expenses for a freshman student, Michigan or Ohio resident, taking a total of 30 undergraduate credit hours during fall and winter semester, living in a University residence hall or off-campus apartment and attending the full academic year (fall and winter semesters).

Tuition and fees	\$7,590
Books and academic supplies	\$900
Residence hall room and board	\$7,220
Estimated additional costs of personal, transportation and miscellaneous expenses	\$1,880

Personal expenses include clothing allowance, medical/dental expenses, recreation, personal hygiene articles. Out-of-state students should allow for additional tuition and transportation costs.

Students can anticipate the following total costs: tuition and fees, books, room and board, personal and miscellaneous expenses and transportation for an eight-month academic year:

On-campus student \$17,590

Off-campus student \$17,590

Commuter student \$13,070

The above budgets are based on financial aid average costs for 2008-2009.

Extended Programs and Educational Outreach offers flexible, innovative and exciting credit courses and program options. Courses offered through Extended Programs and Educational Outreach are available at times and locations and in formats that are convenient for students balancing full- or part-time jobs, co-curricular activities and/or family responsibilities with their college education. Credit earned in Extended Programs and Educational Outreach courses and programs is regular University academic credit.

Each semester, Extended Programs and Educational Outreach publishes a course bulletin listing the courses available that semester. These bulletins are available at the Extended Programs and Educational Outreach Office in Boone Hall, online at www.ep.emich.edu and in display racks in various locations around the EMU campus. In addition, all EPEO course offerings are listed in the University's online class schedule at <http://insight.emich.edu/Students/ocsb/index.cfm>. Since some courses are scheduled after the EPEO course bulletin and the University class schedule are published, refer to the University's online class schedule for updates. As with all EMU courses, your academic adviser is the person best equipped to guide you and answer specific questions about which courses will meet the requirements of your program of study.

Mission Statement

It is the mission of Extended Programs and Educational Outreach to provide leadership in dissolving traditional campus boundaries through collaborative programs that complement and extend the educational, research and public service activities of the University, as understood in the context of our identity as a metropolitan and publicly engaged University. Extended Programs and Educational Outreach also engages individuals across their life span, from high school, through traditional University years, to adult working years, through individual professional development and educational/training programs for business, government and nonprofit agencies. We work to extend the reach and impact of the University not only to the State of Michigan but globally, recognizing that our students live and work in the context of a closely interconnected world.

The most important asset of any institution, corporation or business is the people that make things happen. With advanced

education and training, they become better positioned to meet the individual and collective challenges that lie ahead.

Eastern Michigan University Extended Programs and Educational Outreach is committed to helping meet these challenges. We offer flexible and innovative applied academic experiences in the State of Michigan, nationally and internationally.

Through EMU's Extended Programs and Educational Outreach units, it is now possible for individual adult students, businesses, and government and social agencies to access the tremendous resources of one of Michigan's leading universities. Using alternative formats and teaching technologies, we deliver education, applied research, training and consultation services. Ongoing research initiatives and collaborations ensure that our programs respond to changing needs in a changing environment.

Off-Campus Locations

Extended Programs and Educational Outreach offers full degree programs and certificates at convenient off-campus locations throughout Michigan. For a complete list of programs, contact the locations listed below or visit www.ep.emich.edu.

EMU-Online

Phone: 734.487.0407

E-mail:

When you're ready to learn, EMU is ready to teach. Online courses make it easy for you to learn around your schedule, in a location convenient for you. A wide range of courses are available online as an alternative to attending class on campus. They've been developed by EMU faculty and meet the same high standards as on-campus offerings. The course offerings and registration information are available at www.emuonline.edu.

Independent Learning

Phone: 734.487.0407

E-mail: emuonline@emich.edu

Satisfy general education requirements and earn college credits through self-paced instructional courses via EMU's Independent Learning program. You may register at any time, and you have up to six months to complete coursework. You'll receive instructional tapes, study guides and book lists to begin your lessons. Professors are available for consultation and to grade assignments that you send through regular mail or fax. There are proctored examinations for each course.

Prior Learning Assessment

Receive up to 30 hours for learning you've gained outside the classroom - including seminars, training completed on the job and knowledge acquired independently in a particular field. Through Prior Learning Assessment, you'll identify and analyze learning, document your experience, match the learning to EMU courses and compile a written portfolio to submit for evaluation. Credits earned through portfolio-assisted prior learning may be applied toward any degree for which they are appropriate. Students seeking credit for prior learning must attend a free required workshop.

One-Week Courses

Earn credit during EMU's winter break by taking a one-week course offered in northern Michigan.

EMU-Winter Break
Phone: 877.368.8289

E-mail: winter.break@emich.edu

Earn credit during the spring and summer by taking a one-week course offered on the campus of Northwestern Michigan College in Traverse City.

EMU-Traverse City

E-mail: traverse.city@emich.edu

Professional Programs and Training

Barbara L. Hopkins, director

Phone: 734.487.2259 or 800.932.8689

E-mail: bhopkins@emich.edu

Extended Programs and Educational Outreach's Professional Programs and Training offers programs and services for working individuals seeking professional development, ongoing educational opportunities, executive development, workshops and special events of interest to the EMU community and beyond. For a complete list of professional programs and training opportunities, visit www.ep.emich.edu/ppat.

Professional Certificates, Training and CEUs

Professional societies and organizations develop programs and award certificates to encourage members to update their knowledge and skills. The CEU (Continuing Education Unit) is a national standard of measurement to recognize participation in a wide range of organized non-credit educational activities (conferences, seminars, workshops, etc.) in all fields. Opportunities for CEUs, certificates and training include:

- Michigan State Board - Continuing Education Units (SB-CEUs)
- Certified Financial Planning
- Certificate in Information Security Systems
- SHRM Human Resource courses and certificates
- American Payroll Association courses
- Specialist Certificates in Occupational Health and Safety
- Specialist Certificates in Quality Management
- Six Sigma Green and Black Belt certification
- Online test preparation workshops

Centers for Corporate Training

- Center for Quality
- Center for Organizational Risk Reduction
- OSHA Training Institute

Web sites: www.centerforquality.org and www.emuosh.org

The Centers for Corporate Training are nationally known for designing and providing a wide range of training, technical assistance and consulting services for hundreds of companies each year in health, safety, security and quality. Our clients include automotive and non-automotive manufacturers and their suppliers, plastics and electronics producers, the construction industry, healthcare providers and government agencies.

Each of the centers works, in its own way, to help individuals and organizations reach and maintain excellence. We are dedicated to helping companies not only survive but prosper during rapid organizational, technological and economic change. We meet our customers where they are, providing on-site instruction and facilitation to help create efficiencies and help them become more

effective for their customers.

By developing customized programs, innovative training and effective, practical consulting, the centers support organizations as they improve the quality of their products, the productivity of their processes and the safety of their workplaces. Our partners are workers, supervisors, managers and executives who will create and succeed in the global marketplace.

The Centers for Corporate Training have served thousands of people in hundreds of companies in North America, Asia, Europe and South America, providing innovative education and training programs around the globe.

The Professional Education Center

Web site: www.emich.edu/public/cob/pec/index.htm

Today's business challenges require organizations to provide equally innovative and applied training and development programs. The Professional Education Center (PEC) in the College of Business at Eastern Michigan University provides customized technical and leadership training programs to help businesses and individuals meet challenges and build technical and leadership skills. Students benefit from training and professional coaching from EMU's world-class College of Business and external instructors and consultants.

The PEC tailors training programs to meet your unique organizational challenges bringing innovative and applied programs to the workplace. We can bring to your organization programs to enhance management and business skills and to support leader development including:

- Management Certificate Program – Developing the Leader in You Workshop series
- Emotional Intelligence and Leadership
- Business Skills – Finance, Marketing, Statistics, Business Communication
- Project Management – Introduction and Certificate Programs
- Biz World 101- for new business professionals

Academic Programs Abroad

George Klein, director

Address: 103 Boone Hall

Phone: 734.487.2424 or 800.777.3541

Fax: 734.487.4377

E-mail: programs.abroad@emich.edu

Web site: www.emich.edu/abroad

In today's interconnected world, a global perspective is increasingly important and valuable for all students. The Office of Academic Programs Abroad provides opportunities for EMU students to internationalize, diversify and enrich their University education through a variety of study abroad programs, including winter break, spring and summer, intensive language immersion, and exchanges and other semester and academic year opportunities. Some programs offer graduate credit.

Abroad Student Services

The Office of Academic Programs Abroad provides EMU students with:

- Comprehensive study abroad advising
- Study Abroad Orientation
- Health and safety information
- International student identity cards
- International health insurance

- Financial aid coordination and scholarship advice
- Innovative and affordable study abroad programs

In addition to EMU programs, the Office of Academic Programs Abroad maintains a library of information on hundreds of study abroad programs sponsored by universities all over the world. Students may browse the library and make appointments for advising Monday through Friday throughout the school year. Information on EMU programs abroad can be found at www.emich.edu/abroad.

Winter Break Programs

EMU students earn credit while studying abroad with EMU faculty during the break from campus. Classes are scheduled midway through the winter semester. Recent programs include:

- Art in Mexico
- Hospitality Management in London and Paris
- British Studies in London
- Power, Place and Image in Florence and Rome
- Art and History in Prague and Munich

Spring and Summer Programs

- The Cultural History Tours are unique travel-study programs that visit multiple countries throughout Europe and Asia. Five- and 10-week programs are offered. Students and professors study major historic and cultural sites while pursuing in-depth academic work in an interdisciplinary context. Since their beginnings in 1974, the Cultural History Tours have become a leader in innovative travel-study abroad, drawing students from EMU as well as other colleges and universities. The Emanuel Fenz Endowed Fund provides a competitive scholarship available to EMU students with financial need, applicable to either the Cultural History Tours or Adventures Abroad programs.
- Adventures Abroad Programs are short-term, low-cost travel-study tours that offer EMU students the opportunity to travel with EMU faculty to Europe or the Mediterranean while earning three credits in literature, art or another discipline. The Adventures Abroad program is a short-term module embedded within the longer Cultural History Tours. Students with financial need may apply for the Emanuel Fenz Scholarship applicable to this program.
- EMU students may choose from a variety of spring and summer travel and residence programs that carry credit in such fields as art, biology, business, community practice, education, history and political science. EMU faculty-led programs include such destinations as Ecuador and the Galápagos Islands, Mexico and the Americas, Europe and Asia. Several spring and summer programs are three weeks or less and designed to be especially affordable for EMU students.

Summer Intensive Language Programs

Intensive French, Spanish, German and Japanese language programs are available in France, Mexico, Spain, Germany and Japan, respectively, in settings of cultural immersion. Faculty coordinate additional instruction and provide supervision and cultural exercises. All levels of instruction are available. These programs are offered in cooperation with the Department of World Religions.

Semester/Year Exchange Programs

Eastern Michigan University students may attend one of our Exchange Partner schools for one or two semesters for a cost equivalent to that of Eastern Michigan University. Students pay for EMU tuition and fees, plus a modest program fee. The courses taken appear on the EMU transcript as EMU courses. Students may select courses to count towards a major, minor, general education or elective credit.

- United Kingdom exchanges include University of Derby, England, and Oxford-Brookes University, England.
- Other exchange programs include:
 - University of Groningen, Netherlands (English-language courses offered)

- ESIDEC - Metz, France
- Karlsruhe University, Germany
- Reutlingen University of Applied Sciences, Germany
- Kansai Gaidai University, Japan
- Business majors at EMU may participate in the Regional Area Mobility Program (RAMP) during fall and winter semesters. Courses are taught in the language of the host institution: Spanish at Mexican Universities; English or French at Canadian Universities. Proficiency in the relevant language is required.
- The Japan Center for Michigan Universities (JCMU) in Hikone, Japan, offers Japanese Language and Culture courses open to all majors; no prior knowledge of Japanese is required.
- Affiliated programs include Curtin University of Technology, Australia, and Université Catholique de l'Ouest, France.

- EMU Policy on Notification to Parents of Drug and Alcohol Violations
- Tobacco Use Policy
- Acceptable Use of Information Technology Resources

In this section you will find the FERPA law, the Student Code of Conduct, the EMU Alcohol and Other Drug Policy, the Tobacco Use Policy, the Student Involuntary Administrative Withdrawal Policy, the Grade Grievance Procedures, Class Attendance Policy, the EMU Policy on Sexual Harassment and the Residence Hall Eligibility Policy.

These policies will not only serve as an important reference during your University experience, but they will also help you as a student to make informed choices.

Undergraduate Policy on Probation/Dismissal/Readmission

If, at the end of any term of enrollment, an undergraduate's cumulative grade point average (GPA) falls below 2.0, having previously been at or above 2.0 (or if new to the University), that student will be placed on academic probation (PRB1). The student will then have three terms of enrollment (spring/summer count as one) to raise the cumulative GPA to 2.0 or higher. At any time that the student's cumulative GPA reaches 2.0, the student will be restored to good academic standing (GOOD). Unless the cumulative GPA has been raised to 2.0 by the end of the third term of probation (PRB3), the student will be subject to academic dismissal.

Exceptions to this policy are as follows:

1. Any student whose first term of probation is the result of a semester of all Es must earn better than 0.0 (all Es) in the first term of probation or face dismissal immediately.
2. Students who have been readmitted (READ is equivalent to PRB1) after a dismissal will be placed on PRB2 after their first term, if their cumulative GPA remains below 2.0. They will have two terms to raise their cumulative GPA average to 2.0 or they will face a second and final dismissal.
3. All initial dismissal actions are subject to appeal. Procedures and deadlines for such appeals will be included in notices of academic dismissal, sent to students at the conclusion of a term of enrollment. If an appeal is successful, the student will be reinstated, which means the dismissal does not count. Students who are reinstated after an appeal will be given one more term to raise the GPA to 2.0 or they will be dismissed.

Students dismissed from the University for the first time must remain away from Eastern Michigan University for one calendar year. They can then apply for readmission through the Academic Advising Center. Procedures and deadlines for readmission are available in the Academic Advising Center (301 Pierce Hall); contact the Assistant Director for Academic Actions. Students dismissed more than once (excluding reinstatement) are usually not eligible to return to the University. On occasion, when students have been away from the University for at least 10 years, a request may be submitted, through the Assistant Director for Academic Actions, to the Academic Standards Committee, who will make the final decision in such a case.

While remaining out of the University due to a dismissal, students may choose to attend another institution. Certain rules apply to course work taken elsewhere. Refer to the repeat policy in the catalog and consult with Academic Records on transfer of courses.

While on academic probation, a student may meet with the Assistant Director for Academic Actions or any adviser in the Academic Advising Center. In addition, students may seek help in developing successful strategies for academic performance through the Holman Learning Center, the Counseling Services Center and the Career Services Center.

Notification of Student Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. **The right to inspect and review the student's education records within 45 days of the day EMU receives a request for access.**
2. Students should submit to Eastern Michigan University's Office of Records and Registration written requests that identify the record(s) they wish to inspect. A University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
3. **The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.**
Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

4. **The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.**
One exception which permits disclosure without consent is disclosure to school officials with legitimate education interests. A school official is a person employed by EMU in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom EMU has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll. The University may, without the student's permission, release certain information to parents or guardians of students under the age of 21 found responsible for violating any law, rule or University policy pertaining to drugs or alcohol.

EMU has designated the following items as directory information and these items may be included in publications or disclosed upon request without consent: the student's name; address; telephone listing; electronic-mail address; date and place of birth; major field of study; participation in recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees and awards received (including, but not limited to, the Dean's List); and the most recent previous educational agency or institution attended by the student.

EMU reserves the right to make directory information public unless a student's written objection (specifying the category of information not to be made public without prior consent) is filed at the Office of Records and Registration within 14 days after each term begins.

Students who do not want to be included in the annual EMU Student Directory should either complete a directory exclusion card or request directory exclusion through the touch tone registration system (734.487.3309) by Sept. 15. Cards can be picked up from University Publications, Campus Life, Office of Records and Registration, Academic Advising Center, Office of Admissions or a residence hall information desk. They must be turned in by September 15 to Public Information, 18 Welch Hall. Requesting directory exclusion will remove your name, address and phone number from the current and subsequent telephone directories.

5. **The right to file a complaint with the U.S. Department of Education concerning alleged failures by EMU to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:**
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Ave. SW
Washington, D.C. 20202-4605

Applicable Laws for Americans with Disabilities

1973 Vocational Rehabilitation Act, Section 504

Colleges and universities nationwide have been protecting the rights of students with disabilities since the 1973 Vocational Rehabilitation Act, specifically Section 504, which states:

No otherwise qualified handicapped individual in the United States shall, solely by reason of handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

Americans with Disabilities Act (ADA)

Unlike Section 504 of the Rehabilitation Act, the ADA applies to employers, public services, public accommodations, communication providers and transportation providers regardless of whether they receive or benefit from federal funding.

The ADA defines a person with a disability to mean a person who: (1) has a physical or mental impairment that substantially limits one or more major life activities; (2) has a record of such an impairment; or (3) is regarded as having such an impairment.

The ADA provides coverage in five different areas:

Employment
Public services/transportation
Public accommodations/transportation
Telecommunications
Miscellaneous

Residence Hall Eligibility Policy

Policy Statement

All first year unmarried students shall be required to live in University residence halls, contingent on space availability. Sophomore students may be required to live on campus as well, space permitting. Exceptions may be granted to students who are:

- a. commuting from the permanent home of their parents/guardian;
- b. 21 years of age or older; or
- c. veterans who have served on active duty.

All students living in University residence halls assume responsibility for their own hours.

University Practice

Occupancy in a University residence hall is restricted to currently enrolled students at Eastern Michigan University. Occupants other than currently enrolled Eastern students are allowed on an exception basis. However, priority will be maintained for current Eastern students. Each resident is required to make application and sign a contract for the appropriate term. As such, the resident agrees to make the designated prepayment and agrees to the payment of fees as established for the term(s) of occupancy according to the current payment schedule. Additionally, the residents are responsible for compliance with all terms and conditions set forth in the contract and the Residence Hall Handbook.

Responsibility for Implementation

Housing management staff is responsible for implementing this policy and for granting waivers in a fair and consistent manner within policy guidelines.

Scope of Policy Coverage

This policy shall apply to first year and sophomore students.

EMU Policy on Sexual Harassment

The University's Mission Statement and accompanying Institutional Values and Guiding Principles reflect our collective commitment to providing an environment that positively affects the lives of all individuals who are part of the EMU community. The University's Sexual Harassment Policy affirms our shared values and responsibility to respect all individuals, and prohibits any member of the University community from engaging in sexual harassment activities that demean or diminish an individual in any way. Such activity is prohibited by law and by this policy. The rights and responsibilities inherent in this policy apply to all employees, students, guests and outside contractors. One of the strengths of Eastern Michigan University is that we value and

respect human dignity and the rights of all people. Each of us shares the responsibility for ensuring that sexual harassment will not be tolerated and that we strictly adhere to the tenets of this policy. Copies of the policy and procedures are posted on the web sites of the Office of Diversity and Affirmative Action, the Office of Judicial Services, Human Resources and the Office of the Assistant Vice President for Academic Affairs.

Policy on Sexual Harassment

It is the policy of Eastern Michigan University to provide an educational, employment and business environment free of unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct or communications constituting sexual harassment, as defined and otherwise prohibited by state and federal statutes.

Prohibited Acts

No member of the University community shall engage in sexual harassment. Persons who engage in sexual harassment are subject to disciplinary action, up to and including dismissal for employees and/or suspension or dismissal for students. Sexual harassment is defined as unwelcome advances, requests for sexual favors or other behavior of a sexual nature when:

- Submission to such conduct is made explicitly or implicitly a term or condition of an individual's employment or status in a course, program or activity.
- Submission to, or rejection of, such conduct is used as a basis for a decision affecting an individual's employment or participation in a course, program or activity.
- Such conduct has the purpose or effect of unreasonably interfering with an individual's work or performance in a course, program or activity, or of creating an intimidating, hostile or offensive environment in which one engages in employment, a course, a program or an activity.

Confidentiality

To the extent permitted by law, the confidentiality of each party involved in a sexual harassment investigation, complaint or charge will be observed, provided it does not interfere with the University's ability to investigate the allegations or take corrective action.

Examples of Sexual Harassment

- Physical assault
- Threats or insinuations which cause the victim to believe that sexual submission or rejection will affect his/her reputation, education, employment, advancement, or any conditions which concern the victim's standing at the University.
- Direct propositions of a sexual nature
- Subtle pressure for sexual activity, an element of which may be conduct such as unwelcome sexual leering
- Conduct (not legitimately related to the subject matter of the work, course, program, or activity in which one is involved) intending to or having the effect of discomforting and/or humiliating a reasonable person at whom the conduct is directed. This may include, but is not limited to, comments of a sexual nature or sexually explicit statements, questions, jokes or anecdotes, and unnecessary touching, patting, hugging or brushing against a person's body. Depending upon the circumstances, any of the above types of conduct may be sexual harassment and subject to disciplinary action, even if that conduct only occurs once.

Consensual Sexual Relationships:

Professor and student:

The ideal professor demonstrates respect for students as individuals and serves as students' mentor, intellectual guide and model of honest academic conduct. The professor acts to ensure academic evaluations of students that reflect each student's true merit. He or she respects the confidential nature of the relationship between professor and student and avoids all forms of exploitation, harassment and discriminatory treatment of students.

Sexual relations (which includes contact of a sexual nature) or requests for sexual relations between students and faculty members with whom they also have a current instructional or evaluative relationship are fraught with the potential for exploitation and must be avoided, and are prohibited. The respect and trust accorded a professor by a student, as well as the power exercised by the professor in an instructional or evaluative role, make voluntary consent by the student suspect. In their relationships with students, members of the faculty are expected to be aware of their professional responsibilities and to avoid apparent or actual conflict of interest, favoritism or bias.

Seeking Assistance for Filing a Complaint

Students, faculty and staff who believe they are the victims of sexual harassment may seek information and assistance from the Office of Student Judicial Services (204 King Hall), Jennifer Schraze, director, 734.487.2157, or the Diversity and Affirmative Action Office (11 Welch Hall), 734.487.1166. If the student, faculty member or staff member wishes to file a complaint, she/he may take the following action(s):

- If the alleged harasser is a staff or faculty member, the affected individual(s) may contact the Diversity and Affirmative Action Office (11 Welch Hall).
- If the alleged harasser is a student, the affected individual(s) may contact the Office of Student Judicial Services (204 King Hall).

Note: EMU has the obligation to investigate all complaints of sexual harassment.

Seeking Assistance Outside of the University

Persons who believe they are the victims of sexual harassment may also seek assistance from: the Equal Employment Opportunity Commission, or the Michigan Department of Civil Rights.

Awareness

Members of the University community are responsible for knowing and understanding the University's policy prohibiting sexual harassment. Students who do not understand the policy should contact the Office of Student Judicial Services at 487.2157. Faculty and staff who do not understand the policy should contact their department head or director. Department heads or directors who need assistance in understanding, interpreting or applying the policy should contact the Diversity and Affirmative Action Office at 487.1166. Persons who make false allegations subject themselves to the possibility of disciplinary action.

If You Are Accused of Sexual Harassment

You will have an opportunity to hear and respond to the charges brought against you. All situations are treated as confidential matters to the extent permitted by law. Judgments are not made nor action taken until the investigation is complete. Employees represented by collective bargaining agents may enlist assistance from their union as necessary.

Grade Grievance Procedure for the EMU Community

Timeline for Steps in the Grade Grievance Procedure

(This timeline is derived from appropriate sections in the Grade Grievance Procedure. The page number from which it is taken is underlined in parentheses following each item.)

Step I

- The student must contact the instructor within ten (10) working days after the start of the following semester: i.e., the semester following the one in which the disputed grade was given.

Step II

- A written grievance must be filed within twenty (20) working days after the start of the next semester following the one in which the disputed grade was given.
- Within ten (10) working days after receipt of the written grievance, the department head must schedule a hearing before the Department/College Grievance Committee.
- The Committee hearing shall be open unless the student or instructor requests a closed hearing. This request should be conveyed in writing to the department head prior to the hearing (After the hearing) The committee will meet in executive session and will present its findings, in writing, to the department head within ten (10) working days.
- The department head will forward the committee's written decision to the student and the instructor within five (5) working days of this committee's decision/recommendation.

Step III

- Either the instructor or the student grievant may submit a written appeal of the prior decision at Step II by the Department/College Grade Grievance Committee within ten (10) working days of written receipt of that decision, if at least one of three conditions is met:
 1. The Office of the Provost determines that there is evidence that established procedures for Step II were violated; or
 2. There was at least one dissenting vote at the Step II level; or
 3. New evidence or new witnesses not previously considered or heard at Step II become available.
- Within twenty (20) working days of the receipt of the appeal, the University Grade Grievance Committee shall issue a written Step III decision to both the instructor and the student.

A. Introduction

The Grade Grievance Procedure provides each student with the opportunity to appeal formally a final grade in a course because he or she believes that the grade has been awarded capriciously or unfairly. Capricious or unfair-grading may include but is not limited to the assignment of a course grade to a student: (1) on some basis other than relevant performance in the course; (2) by resorting to standards different from those which were applied to other students in that course; or (3) by an unreasonable and/or unannounced substantial departure from the instructor's previously articulated standards.

This procedure is not intended to handle disputes that may arise about the grading of individual exams or assignments during the semester. When such disputes arise, the student should contact the instructor immediately, rather, than waiting until the end of the semester. Class action grievances by one student on behalf of several students or an entire class are not permitted.

B. Step I

If a student wishes to appeal a final grade, the student must contact the instructor within ten (10) working days after the start of the following semester: i.e., the semester following the one in which the disputed grade was given (see General Notes #3, p. 9, for the spring-summer policy). If the instructor is teaching on campus the next semester, but is temporally unavailable or simply cannot be reached during this ten-day period, then the student should deliver a written request for an appointment with him/her, stating the reason, to the department head no later than the ten (10) day period. With the aid of the department head in scheduling an appointment, the instructor and the student must then meet as soon as possible and discuss the disputed grade privately. In the event that the department head has difficulty in assisting the student in scheduling the appointment, a detailed written record of communication or attempts to communicate between the department head and the instructor will be maintained by the department

head. Whenever possible, conflicts over grades should be resolved informally between the instructor and the student as a result of this Step I discussion.

If the instructor has left the University permanently, or is not available for a period of sixty (60) days or more (e.g., if the instructor is away on a sabbatical leave, medical leave; or in his/her "off semester" on a Plan C appointment), then the department head shall act on his/her behalf and make a decision either in support of or against the grievance. In making this decision, the department head shall review all available grade records, discuss the matter with the student, and with written consent of the student, request and evaluate within ten (10) working days a written statement by the instructor concerning the disputed grade, when possible. The department head cannot act in this manner on behalf of the instructor during the spring-summer period because the instructor is not teaching during either the spring or summer session, unless the disputed grade affects the student's plans to graduate that year.

C. Step II

If the grade dispute is not resolved in Step I to the student's satisfaction and he or she still believes that the grievance has merit based on facts of the case, the student has the right to file a formal written grievance with the department head. In the written grievance, the student must indicate whether he/she requests that the case be heard by a Departmental or College Grade Grievance Committee. The department head will forward the written grievance immediately to the chairperson of the appropriate (Department or College) Grade Grievance Committee.

Guidelines for filing a formal grievance are as follows:

1. A grievance must be based on evidence that the instructor has been capricious and/or unfair in awarding a grade. The written grievance must describe specifically the perceived capricious or unfair action of the instructor. The student also should present all other evidence or documentation in support of his or her allegations. Disagreement with an instructor's judgment in and of itself is not a basis for a grievance, nor is disagreement with an instructor's grading standards, if such standards have been described in advance for the class, and have been applied fairly to all students in the class.
2. A written grievance must be filed within twenty (20) working days after the start of the next semester following the one in which the disputed grade was given.

Within ten (10) working days after receipt of the written grievance, the department head in consultation with the chairperson of the Department/College Grade Grievance Committee will schedule a hearing before the Committee. The department head cannot simply make a personal judgment that the grievance is without merit, and thus refuse to give it to the Department/College Grade Grievance Committee. However, after scheduling the hearing, the department head may request a closed three-person meeting in his/her office with just the instructor and the student, to discuss informally the disputed grade one final time. If either the instructor or the student refuses to attend such a meeting, the department head cannot require his/her attendance, and the grievance is then held as previously scheduled. If a closed meeting is held, the department head shall act only as a facilitator or a mediator. His/her role is restricted solely to promoting further discussion, not to imposing his/her judgment and/or making a decision in the case. If the dispute is resolved in this meeting, the written grievance shall be withdrawn and the scheduled hearing canceled. The student will provide written verification of withdrawal of the grievance to the instructor and department head at the conclusion of the meeting. If the dispute is not resolved, the grievance is then held as previously scheduled. In such cases, the department head shall not communicate his/her opinions/judgments regarding the grievance and/or the discussion at the closed meeting to the members of the Department/College Grade Grievance Committee.

The Department Grade Grievance Committee shall be composed of three (3) faculty members and two (2) students. The faculty members shall be selected by appropriate department procedures. In undergraduate student grievances, the student representatives shall be selected from the list of representatives designated annually (no later than October 15 each year) by Student Government for each department in that particular college. In graduate student grievances, the student committee members must be graduate students. The graduate student representatives will be selected from the list of representatives designated annually (no later than October 15) by the Graduate School for each department in that particular college.

The College Grade Grievance Committee shall be composed of three (3) faculty members and two (2) students. One faculty person and one student must be from the department from which the grievance originated. The other faculty and student representatives must be from different departments within the college. The dean of the college in which the grievance originates

will select the appropriate faculty and student representatives to serve on a particular grievance committee from the approved designated lists. The faculty approved to serve on the committee shall be designated by the College Council from a list of faculty submitted by each department by October 15 each year. In undergraduate student grievances, the student representatives shall be selected from the list of representatives designated annually (no later than October 15 each year) by Student Government for each department in that particular college. In graduate student grievances, the student committee members must be graduate students. The graduate student representatives will be selected from the list of representatives designated annually (no later than October 15) by the Graduate School for each department in that particular college.

The student grievant may, however, request in advance of the hearing in writing that the two (2) students be excused and that his or her grievance be heard only by three (3) faculty members.

This option applies regardless of whether the grievance is being heard by the Department or College Grade Grievance Committee. The committee shall conduct a hearing according to the following guidelines:

1. Prior to the hearing, any written information in support of either the student or the instructor shall be distributed to committee members by the department head. In addition, both the student grievant and the instructor shall be provided with copies of these same written materials. All available written information shall be presented at this time.
2. A detailed record shall be kept of the hearing, preferably a taped sound recording. If a written record is kept, that record shall be signed by the Grievance Committee asserting that the written record is a true record of the hearing proceedings.

Written or recorded records of any Step II grievance shall be kept on file in the college dean's office and copies shall be provided, upon request, to the student who has filed the grade grievance or the faculty member against whom the grievance was filed. Costs associated with duplicating grade grievance records shall be borne by the individual(s) requesting copies.

3. The hearing shall be open unless the student or instructor requests a closed hearing. This request should be conveyed in writing to the department head prior to the hearing.
4. Both the student and instructor shall be permitted an adviser at the hearing. Advisers must be members of the University community, i.e., students in good standing or full-time faculty or staff members.
5. The Department/College Grade Grievance chair shall begin the hearing by beginning the tape recorder (or announcing the name of the person who will be taking minutes) and reviewing the guidelines and procedures under which the hearing shall be conducted.

The committee chair will then announce, "This Step Level II Grade Grievance Hearing is being held on (date). (Name of student) is grieving the grade of (grade) received during the (semester) in (class prefix, number, and section identification number) taught by (instructor). The following committee members are in attendance today: (members give their names)."

6. In order, the student and the instructor will present their cases. Both the student and the instructor may call witnesses, and the student, instructor, adviser(s), and committee members all have the right to question any witnesses that are called. The student and the instructor should be asked for brief closing statements.
7. The chair will then close the hearing with, "This Step Level II Grade Grievance Hearing is now concluded." The committee will meet in executive session and will present its findings, in writing, to the department head within ten (10) working days. The written decision/recommendations- will be signed by the members of the committee. The department head will forward the committee's written decision to the student and the instructor within five (5) working days of this committee's decision/recommendation.
8. If determined through the grievance process that a student's grade is to be changed, the following process will be used:
 - a. The Chair of the grade grievance committee will forward the committee's recommendation for the change of grade to the faculty member, Department Head and the student (grievant).
 - b. The faculty member shall have ten (10) working days from the issuance of the committee's recommendation to file a grade change or respond otherwise to the committee.
 - c. If the faculty member fails to change the grade or appeal the decision within the allotted time or notifies the committee of his/her intent not to comply with the recommendation to do so, the department head will file the grade change form in accordance with the committee's recommendation.
 - d. The student, faculty member, Department Head, and Grievance Committee Chairperson will receive copies of the completed grade change form.

9. Either the student or the instructor may appeal the decision/recommendations of the Department/College Grade Grievance Committee to the University Grade Grievance Committee under the conditions listed below. This appeal must be filed within ten (10) working days of receipt of the decision.

D. Step III

Either the instructor or the student grievant may submit a written appeal of the decision at Step II by the Department/College Grade Grievance Committee within ten (10) working days of written receipt of that decision, if one of the following conditions is met:

1. The Office of the Provost determines that there is evidence that established procedures for Step II were violated; or
2. There was at least one dissenting vote at the Step II level; or
3. New evidence or new witnesses not previously considered or heard at Step II become available.

In the absence of 1, 2, or 3 above, simple disagreement with the decision rendered at Step II is not sufficient basis for an appeal. In other words, there is no automatic right of appeal in every case requiring that the University Grade Grievance Committee reconsider the entire grievance case. If the appeal is based on new evidence or new witnesses, the written appeal statement must explain precisely how this evidence or testimony relates directly to the alleged unfair or capricious awarding of the disputed grade. If said evidence or witnesses had been available prior to the Step II hearing, the hearing shall be remanded back to the Step- II departmental committee. Only newly discovered evidence and/or witnesses may be introduced at the Step- III hearing level (it shall be the responsibility of the petitioner to demonstrate that the evidence and/or witnesses were not available at Step II).

The appeal shall be submitted to the provost or his/her designee with a copy to the dean of the appropriate college. The University Grade Grievance Committee shall be chaired by the provost or his/her designee and shall have the following additional members: the dean of the involved college or his/her designee; two (2) faculty members, one of whom is from the involved college, but not from the department in which the grievance originated; and one (1) student appointed by Student Government (in the case of undergraduate grievance) or by the Graduate School (in the case of graduate grievances). The two faculty members shall be selected by the provost or his/her designee from an available pool of nominees representing all colleges.

The University Grade Grievance Committee shall review all written documents that were available to the Department/College Grade Grievance Committee, the written or taped recording of the Step II hearing, and the final report and decision of the Step II Committee. The University Grade Grievance Committee may reconvene the participants in the Step II hearing to answer questions, if desired.

Within twenty (20) working days of the receipt of the appeal, the University Grade Grievance Committee shall issue a written Step III decision to both the instructor and the student. This decision shall be final; no further appeal is possible.

E. Records

When the Grade Grievance Procedure results in an instructor's grade being changed without his or her agreement, then all University records containing that grade in which the name of the instructor appears shall be identified by an asterisk (*). On these records, the asterisk will be footnoted with the following statement: "This grade is a result of an appeal procedure." On those records in which the instructor's name does not appear, the grade will not be asterisked, nor will there be any other indication that the original grade was changed.

F. General Notes

1. The time limits/deadlines for submitting grievances/appeals, holding meetings, making decisions are to be followed by all parties. However, extensions of the limits may be requested in writing by any of the involved parties. Such requests must originate prior to the expiration of the stated time limit. The dean of the involved college will make the decision to approve or to deny each request for a time limit extension at Step I or Step II. Decisions regarding Step III time limit extensions will be made by the Office of the Provost.

2. For Department Grade Grievance Committees, each academic department shall select the faculty members for the Department Grade Grievance Committee annually by October 15. The committee will hear all Step II grade grievances during the next twelve months in cases where the student requests the hearing at the departmental level. Substitute members shall be selected to replace any committee member who is personally involved in a grade grievance. Also, substitute members shall be selected to replace any faculty member who is unavailable for an extended period of time (e.g., spring and/or summer). For College Grade Grievance Committees, annually by October 15, each academic department shall select faculty members to serve on the College Grade Grievance Committee (at least one person to serve as a regular member of the Committee and one as an alternate). The Committee will hear all Step II grade grievances during the next twelve months in cases where the student requests the hearing at the college level. Substitute members shall be selected to replace any committee member who is personally involved or has a conflict of interest in a grade grievance. Also, substitute members shall be selected to replace any faculty committee member who is unavailable for an extended period of time (e.g., spring and/or summer, sabbatical, etc.).
3. Each college shall select two (2) faculty members plus one (1) alternate who are available during a twelve-month period for assignment to the Step III University Grade Grievance Committee. These selections shall be made by the appropriate college-level faculty advisory council/committee at the beginning of the academic year (by October 15). Unlike the Department/College Grade Grievance Committee, this Step III University Grade Grievance Committee may, of necessity, have a different membership for each grievance.

Grievances relating to grades awarded for the winter semester ending in April or for the Spring term ending in June shall normally be pursued the next fall, measuring all stated deadlines with respect to the start of the fall semester in September. However, if the instructor is teaching on campus during the spring or summer session and the student is enrolled on campus during the same session, then with their mutual agreement, the grievance can be pursued during the spring or summer. However, should either the instructor or the student prefer to wait, then action of the grievance will be postponed until the fall semester. The only exception in which the grievance shall be pursued during the spring or summer session without the consent of the instructor who is teaching on campus is for any case in which the disputed grade affects the student's plans to graduate that year. In such cases, if the instructor is unwilling to participate, the department head may act on his/her behalf.

4. Throughout this procedure, the title "department head" shall be interpreted to include program directors or program coordinators for appropriate academic units in which there is no administrator with the title of "department head."

Class Attendance Policy Works for You

Students

Regular class attendance and active participation in classes are important elements in the learning process. Students are at the University primarily for the sake of their intellectual growth and development. Attendance and participation provide appropriate opportunities for the evaluation of the student's progress.

Each student is personally responsible for the satisfactory completion of the course work prescribed by his/her instructors. This means specifically that he/she is expected to attend classes regularly, and that he/she is responsible for the work assigned in class, the material covered in class and for participation in class activities (including discussion and listening) designed by the instructor as part of the learning experience. However, physical attendance shall not be the sole criterion for determining the student's course grade.

Faculty

Faculty members should notify their department heads when they are going to be absent from regularly scheduled classes. Written notification of circumstances causing prolonged absences should be sent to the dean of the college. Faculty members are expected to arrange, through their department head, for a qualified substitute when they are absent from class.

Cancellation

Classes may be cancelled by the Office of the President through the Office of the Vice President for Academic Affairs. Off-campus classes are cancelled only by the dean of Extended Programs and Educational Outreach.

Changes

Faculty may not change the time or room of a class printed in the University class schedule unless the change is approved by the department head and the dean of the college.

At the End of the Semester

Classes are taught through the last teaching day of the semester as indicated in the University calendar.

Near Holidays

Students are expected to attend all classes, and faculty members are not permitted to cancel classes or excuse students prior to any holiday.

Student Involuntary Administrative Withdrawal

It is the policy of Eastern Michigan University to establish a Student Involuntary Administrative Withdrawal Policy for the purpose of maintaining a campus environment that is conducive to learning, protects the university's educational purposes, maintains reasonable order on campus, and protects the rights and safety of all members of the university community. The University may order the involuntary withdrawal of a student from the University or from University Housing in accordance with University policy, as described in the full text of this policy.

Standards for Withdrawal

In accordance with university policy, and applicable federal and state laws prohibiting discrimination based on disability, a student may be involuntarily withdrawn from the University and/or University Housing, either temporarily or permanently, if it is determined that a student suffers from a mental disorder as defined by the current American Psychiatric Association Diagnostic and Statistical Manual, and as a result of the disorder:

- Engages, or threatens to engage, in behavior which poses a danger of causing physical harm to self or others, and/or
- Engages, or threatens to engage, in behavior which would cause significant property damage, which directly and substantially impedes the lawful activities of other members of the University, and/or
- Demonstrates an inability to satisfy personal needs (e.g., nourishment, shelter) such that there is a reasonable possibility that serious physical harm or death might occur within a short period of time, and/or
- Commits a violation of the University's Student Conduct Code and lacks the capacity to comprehend and participate in the University's disciplinary process, and/or
- Commits a violation of the University's Student Conduct Code and did not understand the nature or wrongfulness of the conduct at the time of the offense.

The full Student Involuntary Administrative Withdrawal Policy, including procedures, is available at the Student Judicial Services website (www.emich.edu/sjs/). For more information, visit Student Judicial Services in 250 Student Center, or by phone at 734.487.2157.

Student Conduct Code and University Disciplinary Process

It is the policy of Eastern Michigan University to establish a student conduct code, to be administered by the Office of Student Judicial Services, for the purpose of maintaining a campus environment that is conducive to learning, protects the university's

educational purposes, maintains reasonable order on campus, and protects the rights of all members of the University community. The Eastern Michigan University Student Conduct Code and the accompanying student disciplinary processes are intended to foster ethical development, personal accountability and civility toward others.

UNIVERSITY PRACTICE

The Student Conduct Code, below, outlines the practices to be utilized in administering the student disciplinary system at Eastern Michigan University.

Section 1: Purpose

In support of the overall goals of Eastern Michigan University, the purpose of the Student Conduct Code, administered by the Office of Student Judicial Services, is to maintain a campus environment that is conducive to learning, protects the university's educational purposes, maintains reasonable order on campus, and protects the rights of all members of the University community. The Student Conduct Code and the accompanying student disciplinary processes are intended to foster ethical development, personal accountability and civility toward others.

The Code embraces several core philosophies: preservation of the rights of free speech and peaceable assembly; respect for freedom of inquiry and constructive criticism; a conviction that honesty and integrity are key values to the University community; and the belief that all members of the University should be part of a campus environment that respects differences of culture, gender, religion, race, age, lifestyle, or ability.

Section II: Responsibility for Implementation

The President, as Chief Executive Officer of the University, has overall responsibility for implementation of the Student Conduct Code and the student disciplinary process and has delegated its overall management to the Vice President for Student Affairs and the Director of Student Judicial Services. The Student Judicial Services office is directly responsible for the daily administration of the University's student judicial system.

Section III: Jurisdiction

The University will have jurisdiction over misconduct that occurs on University premises and/or at University-sponsored activities but may also address off-campus behavior if the University determines that the behavior, or the continued presence of the student, impairs, obstructs, interferes with or adversely affects the mission, processes or functions of the University.

A student committing a criminal offense off-campus that is also a violation of the Student Conduct Code may be subject to University discipline.

The University may pursue disciplinary action against a student at the same time the student is facing criminal charges for the same offense, even if the criminal prosecution is pending, has been dismissed or the charges have been reduced.

Section IV: Definitions

A. For purposes of the Student Conduct Code only, the following definitions apply:

1. FACULTY MEMBER means any person hired by the University to conduct classes.
2. INSTITUTION or UNIVERSITY means Eastern Michigan University.
3. MEMBER OF THE UNIVERSITY COMMUNITY includes any person who is a student, faculty member, University official or any other person employed by the University.
4. STUDENT includes all persons enrolled for courses through or at EMU, both full-time and part-time, and those who attend educational institutions other than EMU but who reside in EMU residence halls. Persons who are not officially enrolled for a particular term but whose EMU record indicates a continuing relationship with the University are considered "students." Persons who have been accepted into EMU but have not yet enrolled for courses are considered "students."
5. STUDENT GROUP means a number of students who are associated with each other and have not complied with University requirements for registration as an organization.

6. STUDENT IN GOOD STANDING means a student who is in good academic standing AND who is not presently under any University disciplinary sanctions.
7. STUDENT ORGANIZATION means a number of students who have complied with University requirements for registration and/or recognition.
8. UNIVERSITY PREMISES includes all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by the University.
9. UNIVERSITY SPONSORED ACTIVITY means any activity on or off campus, which is initiated, aided, authorized or supervised by the University.

Section V: Violations

The following behavior is subject to disciplinary action under this Code. An individual, a group of individuals or a student organization may be charged with any of the violations. In cases where a violation is committed by an individual member of a student organization, the entire organization may be held responsible, in addition to the individual member, when those members not directly involved participate in the activity by encouraging, witnessing or condoning the act in any manner.

A. Academic Dishonesty

Engaging in academic dishonesty in any form with respect to examinations, course assignments, research projects, grades, and/or academic records, including, but not limited to the following:

1. **Cheating** - using or attempting to use unauthorized materials, information or study aids in any academic assignment. Examples of cheating are: looking on someone else's paper; using any kind of "cheat" sheet or other enhancement during a test; allowing someone else to take an exam in your place; submitting the same work more than once for credit; using someone else's homework or lab assignments; collaborating with another student on any assignment or take-home test if told that collaboration was not allowed; assisting another student in committing an act of academic dishonesty by allowing another student to copy homework or an exam; taking an exam for someone else; or giving test information to students in other sections of the same class.
2. **Falsification** - intentional and unauthorized falsification or invention of any information or citation in an academic assignment. Examples of falsification are: making up data on an assignment; making up a source to cite in a paper; altering then resubmitting returned academic work; giving false information to a faculty or staff member to increase one's grade; or attempting to change, actually changing, altering grades or any other unauthorized tampering with grades.
3. **Plagiarism** - deliberate and knowing use of someone else's work or ideas as one's own. Examples of plagiarism are: quoting a source verbatim, or paraphrasing text from a given source, without properly citing the source; turning in a research paper that was written by someone else; or in any other way passing off someone else's work as one's own; or failing to give credit for ideas or materials taken from someone else.

B. Alcohol Violations

1. Possession or consumption of alcoholic beverages by persons under the legal drinking age as defined by Michigan law.
2. Dispensing, selling or supplying alcoholic beverages to a person under the legal drinking age as defined by Michigan law.
3. Possession or consumption of alcoholic beverages in violation of federal, state and local laws.

NOTES:

1. Transportation in sealed containers to and from an authorized area or place is permissible if the person in possession is of legal age to possess alcoholic beverages as allowed by Michigan law.
2. Use of alcohol and controlled substances by Greek Organizations is covered under Student Conduct Code Section XI: Special Provisions Governing the University Recognition and Conduct of Greek Letter Social Organizations." Those provisions should be used to address alcohol violations committed by a Greek organization.

C. Computer Misuse

1. Unauthorized access, entry or use of a computer, computer system, network, software, password, account or data.
2. Unauthorized alteration or tampering with computer equipment, software, network, or data.
3. Unauthorized copying or distribution of computer software or data.
4. Use of computing facilities or equipment to send obscene, harassing or abusive messages.
5. Use of computers to falsify records, tamper with records or commit any act of academic dishonesty.
6. Any other act in violation of law and/or University policies and guidelines regulating computer-related use.

D. Discrimination by Student Organizations

Selecting its membership upon the basis of restrictive clauses involving race, religion, color, national origin, gender, age, sexual orientation or disability unless any given student organization's membership restriction is shown to be specifically allowed by law.

E. Disruptive Conduct

1. Actions that impair, interfere with, or obstruct the normal operations of the University and/or interfere with the rights of other members of the University community or visitors. This includes intentional occupation of or blocking the entry or exit of University facilities, including but not limited to buildings, classrooms, offices, hallways, entryways, conference rooms and campus grounds.
2. Actions that impair, interfere with, or obstruct the orderly conduct, processes and functions within any classroom or other instructional setting. This includes interfering with a faculty member's or instructor's role to carry out the normal academic or educational functions of his/her class.
3. Participating in, leading or inciting others to disrupt scheduled and/or normal campus activities, events and programs.
4. Intentional obstruction of the free flow of pedestrian or vehicular traffic on University premises or at University sponsored or supervised functions.
5. Disturbance of any member of the University community or visitor.
6. Solicitation on campus without prior approval from appropriate University officials. This includes, but is not limited to, the disbursement of any forms of promotional/informational material on University property or on items (e.g. motor vehicles) on University property, requests for donations, or the selling or vending of any merchandise or services.

F. Drugs

1. Possession or use of narcotics, prescription drugs or other controlled substances in violation of local, state or federal drug or narcotic laws.
2. Distribution, delivery or sale of narcotics, prescription drugs or other controlled substances in violation of local, state or federal drug or narcotic laws.
3. Possession or use of drug paraphernalia.

G. Failure to Comply

1. Failure to comply with a lawful order of a University official, including a campus police officer, in the performance of his/her duty.
2. Failure to comply with the sanctions rendered during the student judicial process.
3. Failure to comply with a request to be interviewed by a University judicial officer during the investigation of a conduct code violation. (Students may choose not to appear and present testimony at a student judicial proceeding after meeting with the judicial officer.)

H. Falsification/Fraud/False Testimony

1. Furnishing false information to the University, including false reporting of emergencies, knowingly making false accusations or giving false testimony during the disciplinary process.
2. Misuse, reproduction, alteration or forgery of any University related documents, records, identification, keys, access codes or property.
3. Providing a worthless check or money order in payment to the University or to a member of the University community.

I. Fire and Safety

1. Damage to, removal of or tampering with any fire safety systems, firefighting equipment or other emergency warning equipment.
2. Intentional or reckless burning or setting fire to any building or piece of property owned or controlled by the University.

J. Gambling

Gambling or participation in games of chance on campus for money or other things of value except as provided by law.

K. Guests

Students are responsible for informing their guests about campus regulations and may be held accountable for the behavior of their guests.

L. Harassment/Stalking

1. Conduct (not of a sexual nature) that creates an intimidating, hostile, or offensive campus, educational or work environment for another person or group.
2. Conduct (not of a sexual nature) that threatens, intimidates, humiliates, or otherwise harms another person or group.
3. Stalking, defined as following or otherwise contacting, via any means, another person repeatedly for no legitimate purpose, so as to put that person in fear for his/her life or personal safety, or to cause that person substantial emotional distress. Stalking includes:
 - a. Repeatedly following or harassing another person.
 - b. Contacting a person after being asked or ordered not to contact the person.
 - c. Violating any provision of the Michigan Stalking Law.

M. Hazing

1. Any action or activity, committed by either active members, associate members or pledges of an organization, which inflicts or intends to cause physical or mental harm or anxieties, or which may demean, degrade, or disgrace any person, regardless of location, intent or consent of participants. Hazing includes, but is not limited to:
 - a. Interference with a student's academic or work performance.
 - b. Forced consumption of any food, alcohol, other drugs, or any other substance.
 - c. Forced physical activity.
 - d. Deprivation of food or sleep.
 - e. Physical acts such as branding and paddling.
 - f. Requiring participation in any activity that violates University policies or any local, state or federal law.
 - g. Other violations as outlined in the Interfraternity Council, Panhellenic Council or National Pan-Hellenic Council Constitutions.
2. Any action or situation which intentionally or unintentionally endangers a student who is attempting admission into or affiliation with any student organization.

NOTES:

1. In cases where the activity is performed by an individual member of a student organization, the total organization may be held responsible, when those members not directly involved participate in said activity by encouraging, witnessing, or condoning the act in any manner.
2. Any individual and/or organization found guilty of hazing will be subject to a minimum penalty of suspension.

N. Physical Abuse and Endangerment

1. Physical violence or attempted physical violence toward another person or group.
2. Threat of physical violence against another person or group.
3. Any action that endangers the health, safety or welfare of a person or group.
4. Attempt to harm, or actual harm to, oneself.

O. Property/Facilities/Services

1. Theft of University property or property of a member of the University or visitor.
2. Damage, destruction, or defacement of University property or property of a member of the University or visitor, including littering.
3. Wrongful appropriation of University property or property of a member of the University or visitor.
4. Public posting, selling of, or in any other way, distribution of notes of class lectures, course handouts and outlines, and/or any other University-supplied materials without the express written permission of the instructor.
5. Unauthorized possession and/or use of University property or property of a member of the University or visitor, including knowingly being in possession of stolen goods. This includes unauthorized use of vehicles, equipment, services, the University name and logo.
6. Unauthorized entry into University facilities, including but not limited to buildings, classrooms, hallways, entryways, conference rooms, and campus grounds.
7. Bringing animals and/or pets into University buildings, except where properly authorized. Use or operation of rollerblades, skates, skateboards, bicycles, and similar items inside University facilities, unless expressly permitted.
8. Violation of any policy or guidelines pertaining to specific usage of a University facility.

P. Sexual Misconduct/Sexual Harassment

1. Any sexual act that occurs without the consent of the other person or occurs when the other person is unable to give consent.
2. Conduct of a sexual nature that creates an intimidating, hostile or offensive campus, or educational or working environment, for another person. This includes unwelcome sexual advances or requests for sexual favors, inappropriate sexual or gender-based activities, comments or gestures, or other forms of verbal or physical conduct or communications constituting sexual harassment.
3. Obscene or indecent behavior, which includes, but is not limited to, indecent exposure or the display of sexual behavior that would reasonably be offensive to others.

Q. Weapons/Firearms/Explosives

1. Possession, storage or use of firearms and other weapons, including non-lethal weapons such as pellet guns and paintball guns.
2. Possession, storage or use of firecrackers, gunpowder, ammunition, explosives or incendiary devices, or other articles or substances which could endanger health or safety.

R. Other Violations

1. Violation of any other published or posted University regulations not specifically mentioned in this Section, including, but not limited to, the EMU Policy Manual(s); EMU'S Alcohol and Other Drug Policy; Residence Hall Contract and the Guide to Campus Living; Campus Life Council regulations and guidelines for organizations; Student Government monetary allocation guidelines; EMU published undergraduate and graduate catalogs; EMU'S Athletics Alcohol and Other Drug Education and Testing Policy; and ORD Research Guidelines.
2. Aiding and abetting another in any violation of laws and/or University policies.
3. Attempt or intent to commit any violation outlined in the Student Conduct Code.
4. Off-Campus Conduct as described in the Student Conduct Code, Section III: Jurisdiction.

Section VI: Sanctions for Misconduct

The purpose of University discipline is to be corrective and educational as well as punitive. The disciplinary experience is intended to make clear to students the limits of acceptable behavior and to give students who violate the rules an opportunity to more fully understand the rules and incorporate the experience into their overall development. Assigned discipline may include a combination of sanctions for a particular incident. The sanctions which may be incurred include, but are not limited to, the following:

A. Sanctions for Students and/or Student Groups

1. Verbal Warning: notice that continuation or repetition of prohibited conduct may be cause for additional disciplinary action.
2. Formal Reprimand: an official written statement of the University's disapproval of a student's actions and a warning that any future violation(s) will be dealt with more severely.
3. Disciplinary Probation: an official notice that the student's conduct is in violation of the Student Conduct Code but does not warrant suspension or permanent dismissal. Probation is for a designated period of time and includes the probability of more severe disciplinary sanctions if the student commits another conduct code violation during the probationary period. During the Probation period, a student will be considered "not in good standing" and may be excluded from some programs and curricular or extracurricular activities, including running for and/or holding office in any student organization.
4. Suspension: an involuntary separation of the student from the University for a definite period of time and/or until certain conditions for readmission are met. The student is not guaranteed readmission at the end of such period of time, but is guaranteed a review of the case and a decision regarding eligibility for readmission. (Suspension requires administrative review and approval by the President or his/her designee.)
5. Deferred Suspension: the sanction of suspension may be placed in deferred status provided that the student completes other assigned sanctions by the specified deadline dates. Failure to complete all sanctions and provide proof of completion by the deadline date(s) will result in the automatic enactment of the suspension without charges or hearing. If a student is found responsible for another violation of the Student Conduct Code during the period of deferred suspension, the student may be permanently dismissed from the University.
6. Permanent Dismissal: an involuntary permanent separation from the University. (Permanent dismissal requires administrative review and approval by the President or his/her designee.)
7. Delay and/or Denial of Degree Award: during the period disciplinary charges are pending against a student, the University may deny and/or delay issuance of a degree. Further, the University may refuse to issue a degree to a student who is serving a suspension or has been permanently dismissed from the University.
8. Revocation of Degree: an awarded degree may be revoked for violations of the Student Conduct Code, which occur prior to the award of the degree but are discovered after the degree has been awarded, where the violation is sufficient to justify the suspension or permanent dismissal of the student. (Revocation of a degree requires administrative review and approval by the President or his/her designee.)
9. Other secondary sanctions may be imposed instead of or in addition to those specified above. Secondary sanctions include, but are not limited to:
 - a. Restitution (compensation for loss, damage or injury)
 - b. Fines (for alcohol or drug violations) First Offense = \$100; Second Offense = \$200; Third Offense = \$300
 - c. Community Service
 - d. Educational Activities such as a reflective writing assignment or attendance at an event directly related to the violation committed. (e.g., alcohol/drug workshop, diversity awareness training)

- e. Restrictions (temporary or permanent loss of privileges or the use of a University facility or service)

B. Sanctions for Student Organizations

1. Verbal Warning: notice that continuation or repetition of prohibited conduct may be cause for additional disciplinary action.
2. Formal Reprimand: an official written statement of the University's disapproval of a student organization's actions and a warning that any future violation(s) will be dealt with more severely.
3. Disciplinary Probation: an official notice that the student organization's conduct is in violation of the Student Conduct Code but does not warrant suspension of or permanent termination of the organization's University status. Probation is for a designated period of time and includes the probability of more severe disciplinary sanctions if the student organization commits another conduct code violation during the probationary period. During the Probationary period, a student organization may also be excluded from campus activities, forfeit student monetary allocations and lose Campus Life status.
4. Suspension: an involuntary withdrawal of student organization status from the University for a definite period of time and/or until certain conditions for renewal of recognition are met. During this time, the University will not in any way recognize nor support the continued operation of said student organization. The student organization must reapply to the University for renewed recognition following any period of suspension. The suspension shall be reported to said organization's national office, if applicable. (Suspension requires administrative review and approval by the President or his/her official designee.)
5. Deferred Suspension: the sanction of suspension may be placed in deferred status provided that the student organization completes other assigned sanctions by the specified deadline dates. Failure to complete all sanctions and provide proof of completion by the deadline date(s) will result in the automatic enactment of the suspension without charges or hearing. If a student organization is found responsible for another violation of the Student Conduct Code during the period of deferred suspension, the student organization may have its University status permanently terminated.
6. Permanent Termination of University Status: an involuntary permanent withdrawal of student organization status from the University. The University will not in any way recognize nor support the continued operation of said student organization. The permanent termination shall be reported to said organization's national office, if applicable. (Permanent termination requires administrative review and approval by the President or his/her official designee.)
7. Other secondary sanctions may be imposed instead of or in addition to those specified above. Secondary sanctions include, but are not limited to:
 - a. Restitution (compensation for loss, damage or injury)
 - b. Fines (for alcohol or drug violations) First Offense = \$300; Second Offense = \$400; Third Offense = \$500
 - c. Community Service
 - d. Educational Activities such as a reflective writing assignment or attendance at an event directly related to the violation committed. (e.g., alcohol/drug workshop, diversity awareness training)
 - e. Restrictions (temporary or permanent loss of privileges or the use of a University facility or service)

C. Enhanced Sanctions

Any violation of the Student Conduct Code against any individual, group or student organization which is shown to be motivated by the individual's, group's or student organization's racial identity, religion or religious beliefs, disability, national origin, gender, sexual orientation or other personal characteristic will subject a student/student organization to a more severe sanction than would ordinarily accompany that violation.

D. Counseling Assessments and Counseling

In addition to any sanctions assigned, a student may also be required to undergo a counseling assessment and/or participate in counseling. Issuance of sanctions may be postponed pending the results of the counseling assessment.

Section VII: Organization of the University Judicial System

A. University Judicial Board

1. Composition - The University Judicial Board will consist of five enrolled students and two alternates; two full-time faculty members and one alternate; and two full-time members of the University community and one alternate. A student member must be a student in good standing in order to be selected for and remain on the University Judicial Board.
2. Selection of Board Members - In consultation with the Director of Student Judicial Services, student members will be appointed by the Student Government; faculty members will be selected by Faculty Council; and the full-time members from the University community will be selected by the President or his/her designee.
3. Terms of Office - Board members will be appointed for a two-year term. They may be reappointed by the person or body who appointed them. A Chief Justice will be elected by a majority vote of all of the University Judicial Board members.
4. Removal from Office - A board member may be removed from the board for poor attendance by a simple majority vote of the total University Judicial Board.
5. Jurisdiction - The University Judicial Board will serve as the panel to hear the case of any student(s)/student organization seeking resolution of the case through the formal hearing process.
6. Procedural Considerations
 - a. Selection of the University Judicial Board members for any given case depends on the availability of the members at the time scheduled for the hearing.
 - b. A quorum for a given hearing will exist with the presence of any five members. During vacation periods or summer session, the University Judicial Board has the authority to convene a disciplinary hearing with only three justices, provided that at least one of those justices is a student.
 - c. The Chief Justice will exercise control over the proceedings.

B. Judicial Appeals Board

1. Composition - The Judicial Appeals Board will consist of two enrolled students; two full-time faculty members; and two full-time members of the University community. A student member must be a student in good standing in order to be selected for and remain on the Judicial Appeals Board.
2. Selection of Board Members - In consultation with the Director of Student Judicial Services, student members will be appointed by the Student Government; faculty members will be selected by Faculty Council; and the full-time members from the University community will be selected by the President or his/her designee.
3. Terms of Office - Board members will be appointed for a three-year term. They may be reappointed by the person or body who appointed them. A Chief Justice will be elected by a majority vote of all of the Judicial Appeals Board members.
4. Removal from Office - A board member who is consistently unavailable for appellate reviews may be removed from the board by a simple majority vote of the total Judicial Appeals Board.
5. Jurisdiction - The Judicial Appeals Board will serve as the panel to review decisions rendered by the University Judicial Board during the formal hearing process. Both the charged party and the University will have the right to appeal a University Judicial Board decision.
6. Procedural Considerations
 - a. Selection of the Judicial Appeals Board members for any given case depends on the availability of the members at the time scheduled for the appeal.
 - b. A quorum will exist with the presence of the Chief Justice and any two other Judicial Appeals Board members, except that any three Judicial Appeals Board members may hear the appeal if the Chief Justice can not be available within a reasonable time, not to exceed 14 work days from the date of receipt of the written appeal.

Section VIII: Rights of Charged Student(s)/Student Organizations in Disciplinary Proceedings

The following rights apply to a student conduct proceeding that has reached the level of a formal hearing, **except** that Rights One through Four apply also to any investigative meeting held with Student Judicial Services and to the Informal Disposition Conference. Student(s)/student organizations will have the right to:

1. Remain silent and not have that silence used against them.
2. Have a voluntary adviser present who may participate in the proceedings. The adviser must be a member of the University community, and if the adviser is another EMU student, she/he must be a student in good standing.
3. Engage an attorney, at the student/student organization's own expense, only when criminal prosecution is pending on charges stemming from the same incident. The attorney may appear at the proceedings with the student(s) to provide advice, but may not represent the student(s)/student organization, directly question or cross-examine witnesses, or, in any other way, participate in the proceedings.
4. Be given a written statement of the charges against them, in accordance with the provisions of Section IX.B. of the Student Conduct Code.
5. Adequate notice of dates set for all hearings, and related conferences and meetings.
6. Reasonable review of the disciplinary case file maintained by Student Judicial Services prior to a formal hearing and/or appeal.
7. Question and cross-examine the complainant and all witnesses.
8. Present witnesses and submit any pertinent, supportive documentation. The hearing board, by a 2/3 vote of members present at the hearing, may limit the number of witnesses in order to avoid dilatory tactics.
9. An open or closed hearing. A hearing will be considered open if no person is excluded until the room's capacity has been reached except that a person may be removed if his/her behavior is disruptive to the hearing process. A closed hearing will include only the charged student(s)/student organization, Student Judicial Services official(s), witnesses and members of the particular judicial board hearing the case.
10. Challenge a judicial board member on the grounds of bias, conflict of interest or any other factor that could preclude the board member from rendering an impartial and fair decision. The board member may be disqualified upon majority vote of the remaining members of the board present at the hearing, conducted by secret ballot. If the board votes to exclude the challenged board member from that particular hearing, the hearing will continue with the remaining board members present, even if the number of board members remaining is less than the number required by the Student Conduct Code to reach a quorum for that hearing.
11. A written statement of the outcome of the proceeding, and a description of the appeal procedure.
12. Make a taped recording of the proceeding at their own expense.
13. Appeal the decision of the University Judicial Board, subject to the provisions of the Student Conduct Code, Section IX.E: Appeal of Formal Hearing Results.

Section IX: University Disciplinary Procedures

A. Reporting

Any member of the University community may initiate a complaint against a student or student organization for an alleged violation of the Student Conduct Code through the Student Judicial Services office. A complainant shall submit the complaint to the Student Judicial Services office within a reasonable amount of time from the date he/she becomes aware of the alleged violation. For purposes of this Code, an incident report generated by the Department of Public Safety or an incident report generated by University Housing will be considered a complaint to be reviewed by Student Judicial Services for possible Student Conduct Code violations.

B. Charges and Notice

1. Student Judicial Services will investigate each complaint, and if the circumstances surrounding the complaint indicate that a violation of the Student Conduct Code may have occurred, disciplinary charges may be issued. The student(s)/student organization will be notified of the charges in writing. Notice of the charges will be considered adequate if it is sent to the student(s)/student organization's last known address registered with the University or to the

address given by a student on either an EMU Department of Public Safety's Incident Report or on a Housing Incident Report.

2. Proper written notice to a student/student organization will include the following:
 - a. Recitation of facts surrounding the incident, in as sufficient detail as possible as to date, time, and location;
 - b. Statement of the specific Conduct Code provision(s) violated;
 - c. Any penalty assigned or other action taken;
 - d. Amount of time the student(s)/student organization has to respond to the notice;
 - e. Ramifications of not responding to the notice within the time limit; and
 - f. Copy of "Rights of Charged Students/Student Organizations in Disciplinary Proceedings."
3. Student Judicial Services may place a judicial hold on a student's academic record, and/or may go forward with disciplinary action against a student/student organization in either of the following situations:
 - a. The student or student organization fails to respond to a charge letter sent by Student Judicial Services within the applicable time limit.
 - b. The student withdraws from the University after allegedly committing a violation, whether or not Student Judicial Services has yet had the opportunity to charge the student with a Conduct Code violation.
 - c. The student/student organization fails to appear at the scheduled formal hearing or appeal hearing.

C. Disposition of Cases

1. disciplinary case may be handled in one of the following two formats:
 - a. Informal Disposition Conference - The student(s)/student organization representative and a Student Judicial Services judicial officer will meet informally to discuss the alleged violation(s). If the substantive facts and sanction(s) can be agreed upon by the judicial officer and the charged student(s), a disciplinary action agreement will be prepared and signed by both sides. A signed disciplinary action agreement will constitute a waiver of the right to a formal hearing and any appeal, and an acceptance of the finding(s) and sanction(s). The President or his/her designee must approve any suspension, permanent dismissal or permanent termination of a student organization's University status.
 - b. Formal Hearing - If, during the informal disposition conference, the student(s)/student organization disputes the findings by Student Judicial Services that a violation has occurred or if an appropriate sanction(s) cannot be agreed upon, the case will be referred to the University Judicial Board for a formal hearing.

D. Procedures for Formal Hearings

1. Notice of Hearing - After the formal hearing is scheduled, Student Judicial Services will notify the student(s)/student organization involved of the date, time and place of the hearing and of the pre-conference.
2. Pre-conference - At least two days prior to the formal hearing, a pre-hearing conference will be scheduled by Student Judicial Services for any charged student(s)/student organization. The two day requirement may be modified by mutual consent of the charged student(s)/student organization and Student Judicial Services. The conference will include the presiding officer of the University Judicial Board or a designee, the Director of Student Judicial Services or a designee, any individual designated to represent the University, and the charged student(s)/student organization and their adviser.

The purpose of the prehearing conference will be to identify those issues and facts which will be presented at the hearing, to exchange information as to witnesses likely to be called, to answer procedural questions, and to settle those matters which may be agreeably concluded. The conference will not be used to settle the issue of whether or not the violation was committed or to challenge any recommended sanctions. Failure of the charged student(s)/student organization or the adviser to appear will in no way affect any of their procedural rights and will not prohibit a hearing from being set and being held.

3. Formal Hearing Premises - The following premises will govern any formal hearing:
 - a. The focus of inquiry in a University hearing will be the determination of whether a violation of University rules occurred, and such decision will be totally unrelated to any criminal or civil decisions against the student(s)/student organization arising from the same incident.

- b. Formal rules of evidence will not apply to University proceedings, nor will deviations from these prescribed procedures necessarily invalidate a decision or proceeding unless significant prejudice to the charged student(s)/student organization or the University may result.
 - c. The charged student(s)/student organization will be presumed to have not violated the Student Conduct Code until it is proven otherwise.
 - d. The burden of proof during a formal hearing will rest with the University. The University must prove its case by a preponderance of the evidence, meaning that the evidence, considered in its entirety, indicates that, more likely than not, the charged student(s)/student organization committed the violation(s).
 - e. The Student Judicial Services officer may recommend a sanction to the University Judicial Board during the formal hearing, but the University Judicial Board will have the authority to reject the recommendation and issue any sanction(s) deemed appropriate.
 - f. All formal hearings will be tape-recorded. Tapes will remain the property of the University and will serve as the official record of the proceedings.
4. Disposition of the Case
- a. University Judicial Board decisions as to culpability of the charged student(s)/student organization and sanctions to be issued will be made by a simple majority of the University Judicial Board members present at the hearing. After hearing the case, board members will go into closed session to reach a decision.
 - b. Decisions of the University Judicial Board will be in writing. The decision will state what rule was violated, the behavior constituting the violation, and any sanctions issued. Within two working days, the written decision will be submitted to the Director of Student Judicial Services. If the recommended sanction is not a suspension, permanent dismissal of the student or permanent termination of University status, the Director of Student Judicial Services will mail the decision to the student(s)/student organization within two working days after being submitted to that office by the University Judicial Board.
 - c. If the recommended sanction is either a suspension, permanent dismissal or permanent termination of University Status, the Director of Student Judicial Services will submit the decision to the President or his/her designee for review. The President or his/her designee will either accept or reject the University Judicial Board's decision to suspend, permanently dismiss the student, or permanently terminate the University status of a student organization. If the decision is rejected, the President or his/her designee will provide to Student Judicial Services a written rationale for the rejection of the University Judicial Board's sanction. A rejection of the University Judicial Board's sanction will constitute an automatic appeal to the Judicial Appeals Board.
 - d. The President or his/her designee will have five working days after submission of the University Judicial Board's decision to take action. If no action is taken during that time, the University Judicial Board's decision will be considered approved.
 - e. Student Judicial Services will mail the written decision to the student(s)/student organization within one working day following any presidential action. If the five working days lapse without the President or his/her designee taking action, Student Judicial Services will mail the University Judicial Board's written decision to the student(s)/student organization on the sixth working day following the submission of the decision to the President or his/her designee for review.

E. Appeal of Formal Hearing Results

1. Right to Appeal - Student(s)/student organizations or the University (represented by Student Judicial Services) may request that the University's Judicial Appeals Board review the decision rendered at the conclusion of the formal hearing process. Student(s)/student organization(s) may challenge the finding of the University Judicial Board that a violation occurred and/or the sanction(s) assigned. Conversely, the University may challenge the finding of the Board that no violation occurred or that the sanction(s) issued were not severe enough for the violation committed.
2. Appeal Process for Student(s)/Student Organizations - The following steps should be followed by student(s)/student organizations in order to file an appeal:
 - a. A written request for an appeal must be submitted to Student Judicial Services within seven working days from the date of the written decision from the formal hearing. The appeal will be immediately forwarded to the Judicial Appeals Board for consideration. Unless extenuating circumstances can be shown, failure to appeal within the allotted time will render the University Judicial Board's decision final.

- b. The written request for an appeal must state the grounds for appeal (citing the appropriate grounds from the "Grounds for Appeal" list below); a discussion of the evidence and facts in support of the appeal; and a recommended solution.
 - c. The request for an appeal must be typed and should include any supporting documentation that should be considered by the Judicial Appeals Board.
 - d. Grounds for Appeal - The following will be considered the only grounds for an appeal:
 1. There were procedural errors in the case or in the interpretation of University rules and regulations serious enough to deny the student(s)/student organization a fair hearing.
 2. There is new evidence of a substantive nature not previously available at the time of the hearing, which would have materially affected the decision.
 3. The severity of the sanction is disproportionate to the violation(s) committed.
 4. The decision of the Board was not supported by the evidence presented at the hearing.
3. Appeal Process for the University - The following steps should be followed by the University in order to file an appeal:
 - a. A written request for an appeal must be submitted by Student Judicial Services to the Judicial Appeals Board within seven working days from the date of the written decision from the formal hearing. A copy of the appeal will also be made available to the student(s)/student organization. Unless extenuating circumstances can be shown, failure to appeal within the allotted time will render the University Judicial Board's decision final and conclusive.
 - b. The written request for an appeal must state the grounds for appeal (citing the appropriate grounds from the "Grounds for Appeal" list below); a discussion of the evidence and facts in support of the appeal; and a recommended solution.
 - c. The request for an appeal must be typed and should include any supporting documentation that should be considered by the Judicial Appeals Board.
 - d. Grounds for Appeal - The following will be considered the only grounds for an appeal:
 1. There were procedural errors in the case or in the interpretation of University rules and regulations serious enough to affect the University's chance of proving its case.
 2. The sanction is too lenient given the violation(s) committed.
 3. There is new evidence of a substantive nature not previously available at the time of the hearing, which would have materially affected the decision.
 4. The decision of the Board was not supported by the evidence presented at the hearing.
4. Scheduling an Appeal
 - a. The Judicial Appeals Board will convene an appeal hearing as soon as possible after receiving the written appeal. A quorum will exist with the presence of the Chief Justice and any two other board members, **except** that any three board members may handle the appeal if the Chief Justice cannot be available within a reasonable time, not to exceed 14 calendar days from the receipt of the written appeal.
 - b. After the appeal is scheduled, Student Judicial Services will notify the student(s)/student organization involved of the date, time and place of the hearing.
5. Appeal Hearing Premises - The following premises will govern any appeal hearing:
 - a. Deviations from these prescribed procedures will not necessarily invalidate a decision or proceeding unless significant prejudice to the charged student(s)/student organization or the University may result.
 - b. On appeal, the burden of proof rests with the appellant to clearly exhibit that one of the four grounds for an appeal has been met; this is not a rehearing of the entire case.
 - c. All appeal hearings will be tape-recorded. Tapes will remain the property of the University and will serve as the official record of the proceedings.
 - d. Any sanction(s) issued by the University Judicial Board will not take effect until the appeal process is completed.
6. Disposition of the Appeal
 - a. Prior to the appeal hearing, the Judicial Appeals Board will meet in closed session to review the written decision of the University Judicial Board, the written appeal, any supporting documentation provided by the Appellant, and the tape recording of the formal hearing.
 - b. After reviewing the case materials, the Judicial Appeals Board will convene the Appeal Hearing and call in both parties to the appeal. The student(s)/student organization may bring an adviser to the Hearing who may speak on their behalf. The adviser must be a member of the University community, and if the adviser is a student, he/she must be a student in good standing.

- c. The party who filed the appeal will be allowed 15 minutes to present his/her case to the Judicial Appeals Board. The Board members may then ask questions of the appellant. The opposing side will then be given 15 minutes to present its counter-arguments, after which the Board members can ask questions of that party.
- d. The Judicial Appeals Board will again go into closed session to reach a decision in the case, then reconvene the Hearing and read its decision. The decision will be made by a simple majority of the Judicial Appeals Board members present at the hearing.
- e. The Judicial Appeals Board may take one of the following actions:
 - 1. Uphold the decision of the University Judicial Board in its entirety.
 - 2. Alter the sanctions imposed by the University Judicial Board **except** that the Board cannot increase the severity of the sanctions if the appeal was filed by the student(s)/student organizations.
 - 3. Send the case back to the University Judicial Board for a new hearing only if there were errors in procedures or interpretation of University rules and regulations or there is new evidence in the case. A decision issued by the University Judicial Board in a case sent back to it by the University Appeals Board may not be appealed again and will be the final decision, pending approval by the President or his designee in accordance with sub-section F below.
 - 4. Dismiss the case against the student(s)/student organization.
- f. In cases where the Judicial Appeals Board, or the University Judicial Board upon a rehearing of the case, issues a suspension, permanent dismissal of the student or permanent termination of University status of a student organization, the decision will be sent to the President or his/her designee for review. The President or his/her designee will have five working days after submission of the decision to either affirm or alter the decision. This decision will be final. If no action is taken during that time, the appellate decision, or the decision from a re-hearing, will be considered approved.
- g. Student Judicial Services will mail the written decision to the student(s)/student organization within one working day following any presidential action. If the five working days lapse without the President or his/her designee taking action, Student Judicial Services will mail the written decision to the student(s)/student organization on the sixth working day following the submission of the decision to the President or his/her designee for review

Section X: Special Disciplinary Provisions Governing Acts of Academic

Dishonesty

- A. Academic dishonesty is both an academic matter between a student and his/her faculty member and a violation under the Student Conduct Code subject to University disciplinary action. An act of academic dishonesty may and should be handled by the faculty member, the student, and, if appropriate, the faculty member's department head and/or the dean over that particular academic department. Sanctions that can be assigned by a faculty member range from giving a reduced grade on the particular work in question to failing the student for the entire course. In addition, some academic departments and programs have their own policies for dealing with academic dishonesty and/or violations of Professional Codes of Ethics which allow the department or program to impose sanctions ranging from probation to program dismissal. A sanction assigned by a faculty member and/or an academic department or program is an academic, not a disciplinary, sanction.
- B. If the matter is resolved satisfactorily between the student and the faculty member, and the faculty member decides not to refer the student for University disciplinary action, the faculty member may still report the incident to Student Judicial Services. Student Judicial Services will maintain a record of the reported incident and may elect to pursue University disciplinary action against a student who is reported to that office for a subsequent act of academic dishonesty.
- C. If the faculty member decides that a stronger sanction is needed instead of or in addition to any academic sanctions assigned by that faculty member, the incident may be referred to Student Judicial Services for review and possible University disciplinary action. Once the referral is made to Student Judicial Services, the incident will be handled in the same manner as would any other allegation under the Student Conduct Code.
- D. In cases where the student denies the allegation of academic dishonesty, the faculty member may elect to postpone assigning any academic sanctions until after the student has gone through the University disciplinary process. If, at the end of that process, the charge of academic dishonesty is upheld, the faculty member may then assign an academic sanction. The academic sanction is independent of any disciplinary actions taken against the student by the University.

- E. Academic sanctions assigned by the faculty member in agreement with the student or assigned by the faculty member after the charge of academic dishonesty has been validated through the University disciplinary system cannot be grieved under the University's Grade Grievance Procedure.

Section XI: Special Provisions Governing the University Recognition and Conduct of Greek Letter Social Organizations

- A. Because of the importance of the Greek social system and because of the unique circumstances under which it operates, the following conditions have been established between the University and the Greek social organizations. These provisions set out the requirements for maintaining University recognition and good standing and delineate specific violations that may be handled through the Greek system's own judicial process rather than under the University's Student Conduct Code.
- B. The University reserves the right to retain jurisdiction over cases in which the conduct violates both these provisions and the University's Student Conduct Code **and** the University determines that the misconduct is of such severe nature as to impair, obstruct, interfere with or adversely affect the mission, processes or functions of the University.
- C. The University may take action against an individual member of a student organization for misconduct that is a violation both of this provision and of the Student Conduct Code, regardless of any separate disciplinary action taken against the student organization.
- D. This section of the Student Conduct Code applies only to the relationship between the University and the Greek social organizations and has no bearing on relations between chapters and national and/or alumni agreements.
- E. Good standing must be maintained in order for Greek social organizations to participate in Greek-sponsored activities. Failure to do any of the following will constitute a violation of these provisions of the Student Conduct Code and will subject the Greek social organization to disciplinary action, including possible loss of good standing, as described within these provisions under subsections F and G:
 - 1. Registering annually as a recognized student organization with the Office of Campus Life;
 - 2. Participating in the appropriate Greek governing bodies (Greek Council and either Black Greek Council, Interfraternity Council or Panhellenic Council);
 - 3. Submitting roster and grade release forms for active members and pledges/associates during the first month of the semester;
 - 4. Following all rules and guidelines for Greek Rush; and
 - 5. Abiding by all terms and conditions of the alcohol and controlled substance guidelines below:
 - a. The possession, use and/or consumption of alcoholic beverages while on chapter premises during an official event or in any situation sponsored or endorsed by the chapter or organization must be in compliance with any and all applicable laws and University rules and policies.
 - b. No chapter or organization members, collectively or individually, shall purchase for, serve to, or sell alcoholic beverages to anyone under the legal drinking age.
 - c. The possession, sale, and/or use of any illegal or controlled substance at any chapter, organization or University-sponsored event are strictly prohibited.
 - d. Alcohol or controlled substances will be prohibited at any and all rush activities.
 - e. Open parties where alcohol is provided by the host chapter, meaning those with unrestricted access by nonmembers of the organization without specific invitation, will be prohibited.
 - f. All organizations must provide, at no charge, an alternative nonalcoholic beverage and food at any event where alcohol is provided.
 - g. There will be no solicitation or encouragement of alcohol consumption by contest or promotion at any chapter event where alcoholic beverages are present.
- F. Greek organizations whose members are in violation of this policy, regardless of whether the individuals are identified, will be subject to one or more of the sanctions listed in the Student Conduct Code, Section VI.B: Sanctions for Student Organizations.
- G. The following process will be utilized in any incident alleging a violation of these policy provisions by a Greek social organization:
 - 1. The incident will be referred to the respective Greek Judicial Board for hearing and original adjudication (i.e., sorority cases will be handled by the Panhellenic Council, fraternity cases will be heard by IFC, and black Greek cases will be heard by the Black Greek Council). Each Greek Council will establish its own judicial

board and its own set of hearing procedures for handling the incident. The chair of the respective Greek Judicial Board will immediately inform Student Judicial Services about any incident referred to it.

2. A decision rendered by the respective Greek Judicial Board may be appealed either by the party alleging the violation or by the Greek social organization being accused of a violation. The appeal will be made to the Greek Council Judicial Board, which may accept, modify or reject any sanction issued by the Greek Judicial Board.
3. Student Judicial Services will receive written transcripts of all final judicial decisions, whether from the respective Greek Judicial Board (if there was no appeal of its decision) or from the Greek Council Judicial Board (for decisions that were appealed). Student Judicial Services will review the decision and may accept or reject the proposed sanctions.
4. In the event Student Judicial Services rejects the final decision, the Director will provide a written explanation of the rejection and a recommended alternative.
5. In the event that Student Judicial Services and the Greek board rendering the final decision cannot reach an agreement, the case will be referred to the Eastern Michigan University Judicial Appeals Board as outlined in the Eastern Michigan University Student Conduct Code. In this instance Student Judicial Services will notify the national or international headquarters of the organization involved. In the case of local organizations, the Alumni Association will be notified.

Section XII: Interim Suspensions and Other Interim Sanctions

- A. For alleged violations of this Code, interim sanctions, including but not limited to interim suspension, reassignment to alternate housing, limitation of access to designated University housing facilities and/or campus facilities by time and location, and limitation of privilege to engage in specified University activities, may be imposed by the President or his/her designee. Such interim sanctions are to be utilized only when there is reason to believe that the student(s)/student organization's conduct poses a substantial threat of harm to oneself or others, threatens or endangers University property, or disrupts the stability and continuance of normal University operations and functions.
- B. For interim suspensions only, a student will be denied access to the residence halls, and/or to the campus (including classes), and to all other University activities or events which the student might otherwise be eligible to participate in or attend. A student organization will lose its University student organization status and will be denied access to any University activities or events which the student organization might otherwise be eligible to participate in or attend.
- C. A student/student organization will be notified of an interim sanction or interim suspension, orally, by written notice served on the student/student organization or by written notice sent to the last address on record. The interim sanctions or interim suspension take effect the day issued by the President or his/her designee.
- D. A student/student organization issued an interim suspension or interim sanctions will be given an opportunity to appear before the Vice President of Student Affairs or a designee within three working days in order to discuss the following issues only:
 1. the reliability of the information concerning the student/student organization's alleged misconduct.
 2. whether the conduct and surrounding circumstances reasonably indicate that the continued presence of the student on University premises poses a substantial and immediate threat to himself/herself, to others, or to property.
- E. The Vice President for Student Affairs or his/her designee may affirm or alter the interim sanctions or interim suspension based on the discussion with the student/student organization. If the decision is affirmed, the Vice President or his/her designee will inform the student/student organization of that decision at the conclusion of the discussion. Regardless of whether the interim sanctions or interim suspension is affirmed or altered, the Vice President or his/her designee will direct that a formal hearing before the University Judicial Board take place within 10 days. If the University fails to schedule the formal hearing within the 10 day period, the interim sanctions or interim suspension will cease although the original charges will not be dropped and will still be handled through the University's disciplinary process.

Section XIII: Emergency Powers of the President

- A. The President, as Chief Executive Officer of the University, is charged with the maintenance of that degree of order and safety necessary to the successful continuation of the University's lawful mission, and he/she is further charged with the authority to protect the members of the University community and University property.

- B. When faced with mass disruptions, activity of a violent and destructive nature, or other dangerous violations of University rules of a serious enough nature to threaten the University, the President, after consultation with and approval of the Board of Regents, may declare a "state of emergency" and do any of the following:
1. Impose and have enforced a curfew on all or portions of the University campus.
 2. Curtail or suspend services.
 3. Close the University or portions of the University entirely for the period of emergency.
 4. Issue an emergency suspension and forbid the presence on campus of any student(s)/student organization(s) if they have been sufficiently identified to him/her as participants in activities which violated University policy and led to the conditions described above. Suspensions issued under this section of the code are effective immediately upon notice to the student(s)/student organization(s).
 5. Appoint a Special Hearing Board on an ad hoc or extraordinary basis to make a recommendation as to whether any emergency suspensions issued should be continued. The Special Hearing Board will convene and make its recommendations to the President within seven calendar days from the effective date of the emergency suspension. Regardless of the recommendation to the President as to the continuation of the emergency suspension, the President will direct Student Judicial Services to convene a formal hearing before the University Judicial Board within 10 days of the date of the Special Hearing Board's recommendation to the President in order to rule on the original charges brought against the student(s)/student organization(s).
 6. Take other actions that may be explicitly stated in or implied by any laws governing the authority of the University and/or the President in emergency situations.
- C. **Note:**
Due to the unique circumstances and severe conditions that would lead the President to exercise any of his/her emergency powers, an emergency suspension issued under this section of the Code is to be considered different from an interim suspension issued under the conditions stated in Section XIII. The issuance and review of an emergency suspension will be handled in accordance with the procedures outlined above in subsections 4 and 5.
- D. The Board of Regents, regardless of granting any emergency powers to the President, in no way restricts its own powers and prerogative to carry out its obligations and duties as imposed by the Constitution and laws of the state of Michigan.

Section XIV: Student Disciplinary Files and Records

- A. Student Judicial Services will establish a student disciplinary file whenever a case is referred for investigation of a possible Conduct Code violation. A student or student organization's file will be destroyed if the investigation indicates that no violation occurred. The file of a student/student organization found to have violated the Conduct Code will be retained for four years from the date of the sanction or until the student's graduation from the University, whichever comes first. Student conduct records may be retained longer or permanently if the student was suspended or permanently dismissed or if there is reason to believe the case could result in future litigation.
- B. A notation will be made on the student's official University transcript if the student was suspended, permanently dismissed or given an "E" grade in a course as a result of academic dishonesty.
- C. The release of student disciplinary records will be governed by applicable federal and state laws governing the privacy of educational records.

Section XV: Review of the Student Judicial System

- A. Student Judicial Services will convene a Student Judicial System Review Committee at least every four years that will be responsible for carrying out the following tasks:
1. Reviewing the goals and effectiveness of the University's disciplinary system;
 2. Reviewing the effectiveness of the types of sanctions issued;
 3. Recommending changes to the Student Conduct Code;
 4. Recommending changes in the judicial processes and procedures established and followed by Student Judicial Services; and
 5. Recommending training sessions and publications on topics related to the mission of Student Judicial Services to educate the campus community about student conduct and the campus judicial processes.
- B. The Committee will be appointed and chaired by the Director of Student Judicial Services and will include one representative from the following areas: Ombudsman; Legal Affairs; Housing; Health Services; Counseling Services; Student Government; Faculty Council; Department of Public Safety; Chief Justice of the University Judicial Board; and

Chief Justice of the Judicial Appeals Board.

Amendments to the Student Conduct Code that receive the support of the Review Committee will be forwarded, in accordance with University procedures, to the Board of Regents for approval.

University Alcohol and Other Drug Policy

The University is committed to promoting and maintaining a work and academic environment that is free from illegal alcohol and drug use and abuse, in accordance with all federal, state, and local laws. Students and employees are prohibited from reporting to work or working under the influence of alcohol or drugs.

Employees may not consume, possess, distribute, or be under the influence of alcoholic beverages on University property or while on University business (except at University functions at which use of alcohol is approved). Employees, students, and campus visitors aged twenty-one (21) years or older, consuming alcohol at University functions or while on University business, where such use is approved, are expected to use alcohol responsibly and not engage in illegal, unprofessional, or disruptive behavior.

Students and campus visitors who have attained the legal drinking age of twenty-one (21) years of age may possess and consume alcoholic beverages only at approved University functions or in residence hall rooms of students who have attained the legal drinking age. Those under twenty-one (21) years of age are not permitted to consume or possess alcoholic beverages at any time.

Students, employees and visitors are prohibited from dispensing, selling or supplying alcoholic beverages to a person under the legal drinking age as defined by Michigan law.

Students, employees, and visitors are prohibited from possessing, consuming, manufacturing, dispensing, or being under the influence of illegal drugs or engaging in improper self-medication while on University property or University business.

Any member of the University community who violates this policy is subject to both prosecution and punishment under federal, state and local laws and to disciplinary proceedings by the University.

This policy is not designed to punish people for seeking rehabilitation. All information about those individuals who voluntarily avail themselves of drug or alcohol counseling or rehabilitation services will remain confidential. Seeking counseling or rehabilitation will not be used as a basis for disciplinary action or be used against an individual in any way.

University employees and students who violate this policy shall be informed about and referred to services to assist them in determining whether they are abusing drugs and alcohol or are chemically dependent. If a problem is found to exist, the individual will be referred to resources to assist him/her in overcoming the drug or alcohol abuse pattern. This referral or assessment shall not limit the University's ability to pursue appropriate disciplinary action, up to and including termination or expulsion, when an employee or student has violated this policy or any other University policy.

This policy shall not add to or supersede union contracts or established employee work rules.

Health Risks of Alcohol and Other Drugs

- **ALCOHOL** Loss of concentration and judgment, slowed reflexes; disorientation leading to higher risk of accidents and problem behavior; risk of liver and heart damage, malnutrition, cancer and other illnesses; can be highly addictive to some persons.
- **AMPHETAMINES** Can cause rushed, careless behavior - pushing beyond your physical capacity, leading to exhaustion; tolerance increases rapidly; causes physical and psychological dependence; withdrawal can result in depression and suicide; continued high doses can cause heart problems, infections, malnutrition, and death.
- **CANNABIS** Causes permanent damage to lungs, reproductive organs and brain function; slows reflexes; increases forgetfulness; alters judgment of space and distance.
- **COCAINE** Causes damage to respiratory and immune systems; induces malnutrition, seizures and loss of brain function. Some forms (such as "crack") are highly addictive.

- **HALLUCINOGENS** (PCP, LSD, Ecstasy) Causes extreme distortions of what's seen and heard; induces sudden changes in behavior, loss of concentration and memory; increases risk of birth defects in user's children; overdose can cause psychosis, convulsions, coma, and death. Frequent use can cause permanent loss of mental function.
- **NARCOTICS** (Heroin, morphine, opium, codeine) Tolerance increases rapidly; causes physical and psychological dependence; overdose can cause coma, convulsions, respiratory arrest, and death; leads to malnutrition, infection and hepatitis; sharing needles is a leading cause of the spread of HIV and Hepatitis; highly addictive.
- **SEDATIVES** Tolerance increases rapidly; produces physical and psychological dependence; causes reduced reaction time, and confusion; overdoses can cause coma, respiratory arrest, convulsions, and death; withdrawal can be dangerous; in combination with other controlled substances can quickly cause coma and death.

 - Outpatient/assessment: 419.291.2300

Sanctions for Violations of Laws & Policies:

The laws of the State of Michigan and Eastern Michigan University's policies and rules prohibit the consumption or possession for personal consumption of alcoholic beverages by persons less than 21 years of age. Further, Michigan laws and University policies prohibit the sale, service or giving of alcoholic beverages to persons under the age of 21. Eastern Michigan University's policies and rules, local ordinances and laws, state laws and federal laws also prohibit the unlawful possession, use and/or distribution of illicit drugs and alcohol.

Community Sanctions:

Violations of laws and ordinances may result in misdemeanor or felony convictions accompanied by the imposition of legal sanctions which include, but are not limited to, the following:

- Fines as determined under local, state or federal laws.
- Imprisonment, including up to life imprisonment, for possession of more than 650 grams or trafficking in drugs such as Heroin and Cocaine.
- Forfeiture of personal and real property.
- Denial of federal benefits such as grants, contracts, and student loans.
- Loss of driving privileges.
- Required attendance at substance abuse education or treatment programs.
- Federal laws prohibit possession, use, distribution, manufacture or dispensing.

A full description of federal sanctions for drug felonies can be found at: www.usdoj.gov/dea/agency/penalties.html

University Sanctions:

Violation of University policies and rules will be subject to campus disciplinary review and action, as follows:

Faculty and Staff:

Disciplinary action will be taken as per applicable collective bargaining agreements and University policy up to and including termination of employment.

Information about violations related to tobacco use can be found under EMU Tobacco Use policy.

Students:

Disciplinary action will be taken by Student Judicial Services under the Student Conduct Code and may include sanctions ranging from formal reprimand to permanent dismissal, in addition to counseling and/or referral to a substance abuse

educational/intervention program. In certain circumstances, parents of a student under 21 years old will be notified about the drug or alcohol violation, as per Eastern Michigan University's policy on Parental Notification. The FERPA policy can be found at www.emich.edu/registrar/ferpa.htm.

Information about violations related to tobacco use can be found under EMU Tobacco Use policy.

In addition to University-level action taken under the Student Conduct Code, other University departments maintain internal policies and rules regarding alcohol and other drugs and may impose sanctions against students and/or student groups which violate these policies. For example, University Housing, Athletics, Greeks, Study Abroad and several academic departments have policies addressing alcohol and other drugs. Any action taken under one policy does not prevent action being taken under any other policy.

Employee Reporting Requirement:

Under the Drug Free Schools and Communities Act Amendments of 1989, a faculty or staff member employed under a federal grant or contract must notify the University (Human Resources, Employee Relations, 734.487.0083; or Academic Human Resources, 734.487.0076, in writing, of his or her arrest or conviction for violation of any criminal drug statute occurring in the workplace or while on University business no later than five days after such arrest or conviction.

Review of EMU's Alcohol and Other Drug Abuse Prevention Program:

The University will review its Alcohol and Other Drug Abuse Prevention Program every 2 years to determine its effectiveness and implement changes to the program as needed and to ensure that the disciplinary sanctions applied by the University are consistently enforced.

EMU Policy on Notification to Parents of Drug and Alcohol Violations

1. When the University has determined that a student has committed a second disciplinary violation with respect to campus rules regarding the use or possession of drugs or alcohol, the University will disclose to parents or legal guardians such information if the student is less than 21 years of age.
2. Parents will be notified of a first disciplinary violation with respect to campus rules regarding the use or possession of drugs or alcohol if (a) the incident also involves another serious offense; or (b) if there is reason to believe that a student's health and well-being are in jeopardy; or (c) the violation results in a sanction of either housing probation or higher or University-level probation or higher. In cases where the drug or alcohol violation also involves another serious offense, the University will only release details of the drug or alcohol violation to the parents or legal guardians.
3. At the point at which it is determined that parental notification is permitted under the provisions of this policy, the student will be given twenty-four (24) hours to make the initial contact with the parents or legal guardians prior to the University notifying the parents or legal guardians.
4. Within the twenty-four (24) hour time period that a student has to notify his/her parents or legal guardians, the student may submit documentation or a written statement indicating that there are special circumstances that make parental notification inappropriate. The University's designee will consider the request and make a determination as to notification on a case-by-case basis.
5. Parental notification is in addition to any other sanctions issued by the University.

Tobacco Use Policy

University Policy Statement

The University is committed to promoting and maintaining a healthy work and academic environment that is as close to tobacco free as practicably possible and in accordance with all federal, state and local laws. Students, employees and visitors are prohibited from using tobacco throughout all University buildings (exception University Apartments), University vehicles and outside of buildings within 25 feet of any entrance, air intake duct and/or window.

- The use of tobacco products is prohibited in all University buildings and leased spaces. This prohibition applies to any area enclosed by the perimeter (outermost) walls of the building, including restrooms, warehouses, storage spaces, atriums, balconies, stairwells and other similar building features considered “within a building.”
- The use of tobacco products is prohibited within 25 feet of any building entrance, air intake duct and window.
- Specific outside areas for tobacco use will not be established or identified.
- The University will install ashtrays and other appropriate tobacco litter appliances beyond 25 feet from buildings.
- Individuals who use tobacco products will be responsible for their proper disposal.
- The use of tobacco products is prohibited in University vehicles. This prohibition includes passenger vehicles and all other state-owned mobile equipment, including light and heavy duty trucks, cargo and passenger vans, buses, golf carts and any other mobile equipment.
- The use of tobacco products is prohibited in outdoor areas where seating is provided.
- The use of tobacco products is prohibited on the grounds of the Children’s Institute.
- University Health Services will provide educational information and programs on tobacco use cessation.
- Vice presidents, deans, directors and department heads are responsible for informing the campus community of the tobacco use policy and overseeing day-to-day compliance. The appropriate administrative division will address violations and habitual offenders of this policy.

Sanctions for Violations of Laws & Policies

The laws of the State of Michigan and Eastern Michigan University’s policies and rules prohibit the use of tobacco in public buildings.

Community Sanctions:

- Violations of the Michigan Clean Indoor Air Act are subject to civil fines of not more than \$100 for the first violation and not more than \$500 for second or subsequent violations.
- Violations of the smoking prohibition at child care centers and child care institutions are subject to a stricter penalty of a fine not less than \$100 and not more than \$1,000.

University Sanctions:

Violation of University policies and rules will be subject to campus disciplinary review and action as follows:

Faculty and Staff:

Disciplinary action will be taken as per applicable collective bargaining agreements and University policy up to and including termination of employment for habitual repeat offenders.

Students:

Students who violate this policy are subject to disciplinary action in accordance with the provisions of the Student Conduct Code. Sanctions for violations may include verbal warning, formal reprimand, probation, suspension or dismissal.

Visitors:

Violation of University rules and regulations by visitors could result in permanent removal from EMU properties.

Health Effects of Tobacco Use

Smoking

- Cigarette smoking increases the risk for many types of cancer, including cancers of the lip, oral cavity, and pharynx; esophagus; pancreas; larynx; lung; uterine cervix; urinary bladder; and kidney.
- Cigarette smokers are 2 – 4 times more likely to develop coronary heart disease than nonsmokers.
- Cigarette smoking approximately doubles a person's risk for stroke.
- Cigarette smoking has many adverse reproductive and early childhood effects, including an increased risk for infertility, preterm delivery, stillbirth, low birth weight, and sudden infant death syndrome.

Second-Hand Smoke

- Second-hand smoke is associated with an increased risk for lung cancer and coronary heart disease in nonsmoking adults. Second-hand smoke is a known human carcinogen (cancer-causing agent).
- Because their lungs are not fully developed, young children are particularly susceptible to second-hand smoke. Exposure is associated with an increased risk for sudden infant death syndrome, asthma, bronchitis, and pneumonia in young children.

Smokeless Tobacco

- Smokeless tobacco contains 28 cancer-causing agents (carcinogens). It increases the risk of developing cancer of the oral cavity.
- Smokeless tobacco use can lead to nicotine addiction and dependence.

Assistance Available to Students, Faculty, Staff and Their Families at EMU:

University Health Services:

Medical Services (734) 487-1122

Health Education Program (734) 487-2226

For further information or a pdf downloadable version of the policy go to www.emich.edu/uhs/tobaccopolicy.html

Acceptable Use of Information Technology Resources

Statement of Policy

Information technology resources are provided by Eastern Michigan University (EMU) to its students, faculty and administration in support of the University's mission. These resources include, but are not limited to, technologies and information resources required for information processing, storage, and communication, whether individually controlled or shared, stand-alone or networked. This includes in-lab and classroom technologies, electronic resources, and computing and electronic communication devices and services, both wired and wireless such as, but not limited to, computers, printers, hand held devices, e-mail, instant messages, blogs, Voice over Internet Protocol (VoIP), fax transmissions, voice, data, and video communication networks, multi-media, instructional materials, and academic and administrative systems. Personal equipment connected to the University

network is also subject to this policy. These guidelines apply to any user of any information technology resource provided by the University and attached to the University or Merit network.

This policy outlines your responsibility in the use of these resources and is based upon the following principles:

- Electronic resources are provided for the purpose of carrying out the mission of the University.
- Your use of information resources must comply with University policies and the law.
- Your use of these resources does not cause harm to others or the electronic resources themselves.
- You are expected to use these resources ethically and responsibly.

Access

A. Ownership

Information technology resources, systems, and services are the property of EMU. These include all components of the electronic communications, physical infrastructure, and any electronic communications address, number, account, or other identifiers associated with the University.

B. ACCESS

EMU provides and maintains an EMU Access ID for each registered student, faculty, staff and affiliates (upon special approval). EMU reserves the right to withdraw the service from anyone who misuses the system.

Access to specific resources may be provided by appropriate academic departments. Third Party individuals may be provided access to EMU information technology resources through sponsorship by an appropriate University administrator.

C. USE

Those who use EMU electronic communications services are expected to do so responsibly. They must comply with state and federal laws, with this and any other University policies and procedures, and with normal standards of personal courtesy and conduct.

Expectations

As a user of information technology resources at EMU, you can expect:

A. PROTECTION OF INBOUND AND OUTBOUND E-MAIL AND ATTACHMENTS

Information Technology (IT) makes reasonable efforts to scan inbound and outbound e-mail and attachments for spam. IT also routinely scans all e-mail for anything that could be a threat to the system such as viruses and Trojans. The scanning for threats may lead to a modification of e-mail headers, non-delivery of messages containing viruses or Trojan Horses (Trojans), deleting of attachments, and blocking of messages. IT reserves the right to block e-mail that exhibits characteristics of spam, viruses, Trojans or anything else that could threaten the University's network infrastructure or services.

B. ELECTRONIC COMMUNICATIONS AND FILES

EMU follows generally accepted security measures, but cannot guarantee electronic communications are completely protected from unauthorized access by individuals who possess the skill and desire to breach security measures. Therefore, e-mail and other types of electronic communications should not be used to communicate confidential or sensitive matters.

The University reserves the right to inspect, monitor and/or disclose electronic

communications in transit or storage without consent of the holder:

- When required by and consistent with law (i.e., search warrants, subpoenas, freedom of information requests).
- When there is a reason to believe a violation of law, University policy, rules, regulations or procedures has taken place.
- To maintain the security or performance of the infrastructure.

Employees must be aware that electronic communications.

- May be accessed and monitored in the normal course of business by system administrators.
- May be released to the public (as may be requested through the Freedom of Information Act).
- May require special measures for privacy protection.
- Are subject to discovery proceedings in legal actions.

Responsibilities

Protecting EMU's systems, data, and networks is the responsibility of everyone in the university community.

A. PROTECTING IT RESOURCES FROM PHYSICAL ACCESS

You are responsible for the physical security of information technology devices you use and the data they contain. Keep doors locked to protect equipment. Portable equipment such as notebook computers, Personal Digital Assistants (PDAs), and mobile phones must be secured whether on campus, traveling, or at home. Confidential or sensitive documents and data should be encrypted.

Keep your account secure by preventing others from getting access to your computer, or to the access port assigned to you.

B. PROTECTING IT RESOURCES FROM ELECTRONIC ACCESS

It is your responsibility to use effective passwords and to safeguard those passwords. Persons attempting to gain unauthorized access to a system often do so through user accounts, and your password is a safeguard against such access.

C. USE E-MAIL AND OTHER ELECTRONIC COMMUNICATIONS RESPONSIBLY

All University electronic communications are to be used in an ethical and responsible manner.

Messages such as e-mail should meet the same standards for distribution or display as if they were hard copy documents. Identify yourself clearly and accurately in all electronic communications.

Electronic communication files are owned by someone. They are assumed to be private and confidential unless the owner has explicitly made them available. If by accident you receive a confidential file, you should not share it with anyone else.

D. USING RESOURCES RESPONSIBLY, EFFICIENTLY, AND FAIRLY

Each user should make efficient use of network resources. Use high resource activities such as streaming media at high bit rates, at non-peak times. Do not use your computer as a server.

EMU faculty and staff may use the university information technology resources for incidental personal purposes provided such use does not:

- Directly or indirectly interfere with the University operations and services.
- Burden the University with noticeable incremental cost.
- Interfere with the user's employment or other obligations to the University.
- Violate the law, University policies or procedures, or reasonable standards of decency and civility.

Electronic records arising from such personal use may, however, be subject to the presumption of being a University Electronic Record.

E. COMPLYING WITH UNIVERSITY POLICIES, RULES, AND STATE AND FEDERAL LAWS

Users of EMU information technology resources agree to comply with applicable federal and state laws and the policies, standards, and procedures of the University and of Merit Network, Inc., the Internet service provider for the University.

Users shall abide by the EDUCOM code regarding ethical and legal use of software.

Respect for intellectual labor and creativity is vital to academic discourse and enterprise. This principle applies to works of all authors and publishers in all media. It encompasses respect for the right to acknowledgment, right to privacy, and right to determine the form, manner, and terms of publication and distribution.

All EMU employees and students shall use software only in accordance with the license agreement. To transfer the possession without permission, of any copy, modification or merged portion of any licensed program, whether gratuitously or for gain, violates this policy and is prohibited. Anyone who makes, acquires, or uses unauthorized copies of computer software or otherwise violates this policy shall be subject to disciplinary action in accordance with University policy. They may also be subject to personal liability under copyright law. Anyone using personal software on University devices must demonstrate evidence of ownership. See University policy 4.4 Copyright for more detail. To learn more about copyright and fair use visit Halle Library's Copyright at Eastern Michigan University web page.

Rules for Acceptable Use

Use only your account and password. Do not share them with anyone else. If you suspect someone may have discovered your password, change it immediately. Never use another user's account and password.

You are responsible for all activity on your account. This includes destructive or illegal activity by someone using your account identity.

Use EMU electronic communication systems legally. Do not use university-provided computing resources to do something illegal, threatening, or deliberately destructive or harmful. All complaints will be investigated. Student Judicial Services investigates complaints regarding students; the Chief Information Officer in conjunction with Human Resources' or other appropriate offices will investigate complaints regarding EMU faculty and staff. The police and the FBI and other federal law enforcement agencies investigate violations of state or federal law. Violations can result in disciplinary action, civil penalties, and criminal charges.

Obey copyright laws. Copyright protected materials include but are not limited to, software, music, written works, audio and videos, photographs, and electronic books (e-books). Do not use the intellectual property rights of another without written permission. Do not install, duplicate, download, store, transmit, or use software without a valid license. Do not distribute music, video, or other files illegally. Do not use your computer or other electronic device to copy, display, store, transmit, or distribute copyrighted or illegal materials.

Protect data that is protected, confidential or restricted.

- Confidential or restricted information must not be distributed or made available to persons who are not authorized to access the information. This applies to originals, copies, and new materials, which contain all or part of the information, and to oral communication of information. When restricted information is distributed, restrictions on its future distribution must be clearly stated, and followed.
- Provide physical security for information technology devices. Doors shall be locked to protect equipment when areas housing them are unattended. Portable equipment such as laptop computers, PDAs, and mobile phones must be secured. Particular care is needed when traveling and at home to protect these devices.
- Confidential or restricted information stored in a place, which is accessible by any unauthorized person, or on or in any media or device out of your office or off-campus must be protected by encryption using University standards.
- Report violations of University policies regarding use and/or disclosure of confidential or restricted information to the Information Security Office (487-0101).

Do not send or publish threatening or harassing communications or anything which may be reasonably classified as "hate" messages. If someone asks you to stop sending mail, stop sending it. If you fail to do so, the person can file a complaint, and you may be disciplined. If you believe you are being harassed, contact Student Judicial Services at 487-2157, or contact the Information Security Office. If you are concerned for your safety, call the EMU police at 911 or 734.487.1222.

Examples of inappropriate use of communication resources are listed below (this is not intended to be an exhaustive list). These actions may result in disciplinary action.

DO NOT:

- Send unsolicited e-mail messages, including the sending of "junk mail" or other advertising material to individuals who did not specifically request such material (e-mail spam).

- Solicit e-mail for any other e-mail address, other than that of the poster's account, with the intent to harass or to collect replies.
- Create or forward spam or e-mail bombing attacks (intentional e-mail transmissions that disrupt normal e-mail service).
- Send "chain mail" or send e-mail repeatedly that misuses or disrupts resources.
- Create or intentionally send viruses or other harmful programs or files.

Do not falsify or forge authentication, e-mail headers or other postings. Sending or posting electronic mail or other communications while misrepresenting or concealing the true identity of the sender or author is prohibited by this policy and may also be a violation of the law if done with intent to cause harm, commit fraud, conceal the sender of unsolicited commercial email, or otherwise violate the law.

Do not install or attempt to install malicious computer code on the device of another or on any University owned electronic resources.

Do not try to access a computer, the EMU system, or other devices without appropriate permission and without following proper login procedures. Do not try tapping

a network or running a "sniffer" program. Do not use software tools that attack Information Technology resources. Do not cause or allow access, modification or destruction of any files, programs, settings, or data transmitted or stored by any device without permission.

You may not receive or cause any personal financial or other gains from the use of any university-provided computing resources or from any output produced resulting from such use. You may not promote any commercial or non-university activity using university resources.

ALL activities listed above can result in severe penalties, including disciplinary action by Student Judicial Services, Human Resources, or the Offices of the President and Provost.

Consequences

Any employee found to violate federal or state of Michigan laws, EMU policies, procedures or standards of conduct, will be subject to disciplinary action under University policy. Any suspected violation of State or Federal laws will be reported to the appropriate legal authority for investigation.

Consequences for violations (in no particular order) include, but are not limited to:

- Verbal warnings.
- Revocation of access privileges.
- Disciplinary actions up to and including discharge.
- Criminal prosecution.

Any student found to violate federal or state of Michigan laws, EMU policies, procedures or standards of conduct, will be subject to disciplinary action under EMU's Student Code of Conduct. Any suspected violation of State or Federal laws will be reported to the appropriate legal authority for investigation.

Consequences for violations (in no particular order) include, but are not limited to:

- Verbal warnings.
- Revocation of access privileges.
- Disciplinary actions up to and including suspension or expulsion from school.
- Criminal prosecution.

If you break the law, you can be prosecuted. Even if you are not charged criminally, you can be held personally liable, and you can be suspended or dismissed from the University, or fired if you are an employee.

The University reserves the right to protect its electronic resources from threats of immediate harm. This may include activities such as disconnecting an offending computer system from the campus network, terminating a running job on a computer system, or taking other action.

Reporting an Incident

If an incident is a threat to personal safety, contact Campus Police at the Department of Public Safety, emergency 911 or non-emergency 734.487.1222.

To report an incident involving the misuse of Information Technology resources contact (by e-mail, letter or telephone) the Chief Information Officer (CIO) or the IT Security Office, the incident will be handled by staff at the appropriate University office.

Departmental administrators responsible for managing University information technology resources may temporarily disable user accounts or workstations connected to the network if violations of this policy are suspected and they must notify the CIO of all such actions.

When an incident is reported, the CIO, IT Security Office and/or the Campus Police may as needed and appropriate consult with the Office of the President, the Office of Legal Affairs, Staff and Academic Human Resources Offices, and other University Offices/Departments.

Authoritative Source

The authority for this policy is Eastern Michigan University policy 15.2 "Information Technology Security and Confidentiality" and the responsibility for its implementation rests with the Chief Information Officer.

December 2008

EDUCOM Code

Respect for intellectual labor and creativity is vital to academic discourse and enterprise. This principle applies to works of all authors and publishers in all media. It encompasses respect for the right to acknowledgment, right to privacy and right to determine the form, manner and terms of publication and distribution. Because electronic information is volatile and easily reproduced, respect for the work and personal expression of others is especially critical in computer environments. Violations of authorial integrity, including plagiarism, invasion of privacy, unauthorized access and trade secret and copyright violations, may be grounds for sanctions against members of the academic community.

Using Software: A Guide to the Ethical and Legal Use of Software for Members of the Academic Community issued by EDUCOM and ADAPSO

Software enables us to accomplish many different tasks with computers. Unfortunately, in order to get their work done quickly and conveniently, some people justify making and using unauthorized copies of software. They may not understand the implications of their actions or the restrictions of the U.S. copyright law.

Here are some relevant facts:

1. Unauthorized copying of software is illegal. Copyright law protects software authors and publishers, just as patent law protects inventors.

2. Unauthorized copying of software by individuals can harm the entire academic community. If unauthorized copying proliferates on a campus, the institution may incur a legal liability. Also, the institution may find it more difficult to negotiate agreements that would make software more widely and less expensively available to members of the academic community.
3. Unauthorized copying of software can deprive developers of a fair return for their work, increase prices, reduce the level of future support and enhancement and inhibit the development of new software products.

Respect for the intellectual work and property of others has traditionally been essential to the mission of colleges and universities. As members of the academic community, we value the free exchange of ideas. Just as we do not tolerate plagiarism, we do not condone the unauthorized copying of software, including programs, applications, data bases and code.

Therefore, we offer the following statement of principle about intellectual property and the legal and ethical use of software. This "code"--intended for adaptation and use by individual colleges and universities-- was developed by the EDUCOM Software Initiative.

Software and Intellectual Rights

Respect for intellectual labor and creativity is vital to academic discourse and enterprise. This principle applies to works of all authors and publishers in all media. It encompasses respect for the right to acknowledgment, right to privacy, and right to determine the form, manner, and terms of publication and distribution.

Because electronic information is volatile and easily reproduced, respect for the work and personal expression of others is especially critical in computer environments. Violations of authorial integrity, including plagiarism, invasion of privacy, unauthorized access, and trade secret and copyright violations, may be grounds for sanctions against members of the academic community.

Questions You May Have about Using Software

- A. *What do I need to know about software and the U.S. Copyright Act?*
Unless it has been placed in the public domain, software is protected by copyright law. The owner of a copyright holds exclusive right to the reproduction and distribution of his or her work. Therefore, it is illegal to duplicate or distribute software or its documentation without the permission of the copyright owner. If you have purchased your copy, however, you may make a back-up for your own use in case the original is destroyed or fails to work.
- B. *Can I loan software I have purchased myself?*
If your software came with a clearly visible license agreement, or if you signed a registration card, read the license carefully before you use the software. Some licenses may restrict use to a specific computer. Copyright law does not permit you to run your software on two or more computers simultaneously unless the license agreement specifically allows it. It may, however, be legal to loan your software to a friend temporarily as long as you do not keep a copy.
- C. *If software is not copy-protected, do I have the right to copy it?*
Lack of copy-protection does not constitute permission to copy software in order to share or sell it. "Non-copy-protected" software enables you to protect your investment by making a back-up copy. In offering non-copy-protected software to you, the developer or publisher has demonstrated significant trust in your integrity.
- D. *May I copy software that is available through facilities on my campus, so that I can use it more conveniently in my own room?*
Software acquired by colleges and universities is usually licensed. The licenses restrict how and where the software may be legally used by members of the community. This applies to software installed on hard disks in microcomputer clusters, software distributed on disks by a campus lending library and software available on a campus mainframe or network. Some institutional licenses permit copying for certain purposes. Consult your campus authorities if you are unsure about the use of a particular software product.
- E. *Isn't it legally "fair use" to copy software if the purpose in sharing it is purely educational?*

No. It is illegal for a faculty member or student to copy software for distribution among the members of a class, without permission of the author or publisher.

Alternatives to Explore

Software can be expensive. You may think that you cannot afford to purchase certain programs that you need. But there are legal alternatives to unauthorized copying.

Site Licensed and Bulk-Purchased Software

Your institution may have negotiated agreements that make software available either to use or to purchase at special prices. Consult your campus computing office for information. Software available through institutional site licenses or bulk purchases is subject to copyright and license restrictions, and you may not make or distribute copies without authorization.

Shareware

Shareware, or "user-supported" software, is copyrighted software that the developer encourages you to copy and distribute to others. This permission is explicitly stated in the documentation or displayed on the computer screen. The developer of shareware generally asks for a small donation or registration fee if you like the software and plan to use it. By registering, you may receive further documentation, updates and enhancements. You are also supporting future software development.

Public Domain Software

Sometimes authors dedicate their software to the public domain, which means that the software is not subject to any copyright restrictions. It can be copied and shared freely.

Software without copyright notice is often, but not necessarily, in the public domain. Before you copy or distribute software that is not explicitly in the public domain, check with your campus computing office.

A Final Note

Restrictions on the use of software are far from uniform. You should check carefully each piece of software and the accompanying documentation yourself. In general, you do not have the right to:

1. Receive and use unauthorized copies of software, or
2. Make unauthorized copies of software for others.

If you have questions not answered by this brochure about the proper use and distribution of a software product, seek help from your computing office, from the software developer or publisher.

MichNet Policies

MichNet Acceptable Use Policy

30 May 2006

Purpose

This Policy is a guide to the acceptable use of Merit Network facilities and services (Services). Any Member or Affiliate organization or individual connected to Merit's network in order to use it directly, or to connect to any other network(s), must comply with this policy and the stated purposes and Acceptable Use policies of any other network(s) or host(s) used.

Each Member and Affiliate organization is responsible for the activity of its users (including guests and other temporary users) and for ensuring that its users are familiar with this policy or an equivalent policy. In addition, each Member and Affiliate is encouraged to maintain and enforce its own Acceptable Use policies. The provisions of this policy govern all use of the Services, including any unsupervised anonymous network access offered by Members or Affiliates.

The following guidelines will be applied to determine whether or not a particular use of the Services is appropriate:

1. Users must respect the privacy of others. Users shall not intentionally seek information on, or represent themselves as, another user unless explicitly authorized to do so by that user. Nor shall Users obtain copies of, or modify files, other data, or passwords belonging to others.
2. Users must respect the legal protection applied to programs, data, photographs, music, written documents and other material as provided by copyright, trademark, patent, licensure and other proprietary rights mechanisms.
3. Users must respect the integrity of other public or private computing and network systems. Users shall not intentionally develop or use programs that harass other users or infiltrate any other computer, computing system or network and/or damage or alter the software components or file systems of a computer, computing system or network.
4. Use should be consistent with guiding ethical statements and accepted community standards. Use of the Services for malicious, fraudulent, or misrepresentative purposes is not acceptable.
5. The Services may not be used in ways that violate applicable laws or regulations.
6. The Services may not be used in a manner that precludes or significantly hampers network access by others. Nor may the Services be used in a manner that significantly impairs access to other networks connected to Merit.
7. Connections which create routing patterns that are inconsistent with the effective and shared use of the Services may not be established.
8. Unsolicited advertising is not acceptable. Advertising is permitted on some Web pages, mailing lists, news groups and similar environments if advertising is explicitly allowed in that environment.
9. Repeated, unsolicited and/or unwanted communication of an intrusive nature is strictly prohibited. Continuing to send e-mail messages or other communications to an individual or organization after being asked to stop is not acceptable.

The intent of this policy is to identify certain types of uses that are not appropriate, but this policy does not necessarily enumerate all possible inappropriate uses. Using the guidelines given above, Merit may at any time make a determination that a particular use is not appropriate.

Merit will not monitor or judge the content of information transmitted via the Services, but will investigate complaints of possible inappropriate use. In the course of investigating complaints, Merit staff will safeguard the privacy of all parties and will themselves follow the guidelines given in this policy and in Merit's Privacy Policy. Merit will only release sensitive, confidential or personally identifiable information to third parties when required by law, or when in Merit's judgment, release is required to prevent serious injury or harm that could result from violation of this policy.

Remedial Action

When Merit learns of possible inappropriate use, Merit staff will notify the Member or Affiliate responsible, who must take immediate remedial action and inform Merit of its action. Merit will assist the Member or Affiliate in identifying the nature and

source of the inappropriate use and in implementing remedial action if requested. Provided the Member or Affiliate implements remedial action promptly, Merit will take no further action. If Merit is unable to contact the Member or Affiliate, or if the Member or Affiliate is unable to implement remedial action, Merit reserves the right to pursue remedial action independently. Wherever possible, Merit will pursue remedial action with the least impact to the overall service for the Member or Affiliate.

Should the situation be considered an emergency, and Merit deems it necessary to prevent further inappropriate activity, Merit may temporarily disconnect a Member or Affiliate from the network. An emergency is defined as: "Serious security incidents that require immediate attention to prevent harm to an individual, to protect information from loss or damage that would be difficult or impossible to correct or to deal with serious on-going denial of service attacks."

If temporary disconnection is deemed necessary by Merit staff, every effort will be made to inform the Member or Affiliate prior to disconnection, and every effort will be made to re-establish the connection as soon as it is mutually deemed safe.

Any determination of inappropriate use serious enough to require disconnection shall be promptly communicated to every member of the Merit Board of Directors through an established means of publication.

Students

Catalog Terminology

Prerequisites

A course or requirement that needs to be met prior to taking another course.

Concurrent Prerequisites

A course or requirement that needs to be met either before or at the same time as another course is taken.

Corequisites

A course or requirement that needs to be taken at the same time as another course.

Class Restrictions

A restriction on whether you have to be a Freshmen, Sophomore, Junior, Senior or Graduate student to take the course.

Major Restrictions

A restriction on whether you have to be in a specific program to take the course.

Cross-listed with

Some courses are listed under multiple departments. HIST335 is cross-listed with WGST335. They are the same class but since the class involves both history and women and gender studies the course is listed under both departments.

Frequently Asked Questions

Catalog Questions

Q. Which catalog should I be using?

A. Each student should use the catalog that was current during the first semester they started school at Eastern or any catalog that is published from there after.

General Education Questions

Q. What is the difference between a "General Education" requirement and a "Major" requirement?

A. Major requirements are courses that need to be taken or requirements that need to be met for the program of study being taken by a department. General Education requirements are a set of courses and requirements that all Undergraduates need to take by the University to graduate.

Q. What are the General Education requirements?

A. Current General Education requirements can be found at: catalog.emich.edu/content.php

Q. How do I know if a course satisfies a General Education requirement?

A. The following are ways to identify a course as one that satisfies a General Education requirement:

1. Next to the course name is (Gen Ed Area III)
2. This icon appears in the course information

Q. What is a General Education audit?

A. A General Education audit is when someone checks to see if you've completed all of the general education requirements. General Education Checklists can be found below.

1. Checklist for students who started EMU as a Freshmen: General Education Checklist
2. Checklist for students that transferred to EMU: General Education Checklist

Degree Questions

Q. When to register

A. The following websites give more information on registration and registration appointments:

<http://www.emich.edu/registrar/calendars/appointments.php>
http://www.emich.edu/registrar/registration_info/

Q. What is a Graduation audit?

A. Students who have completed 95 credit hours or more should request a graduation audit by completing the required form at the Office of Records and Registration, 303 Pierce Hall, or completing the form usually printed in the class schedule book each semester.

The form requires the student to record their expected date of graduation, legal name, social security number and major(s) and minor(s) elected. In addition, a check list is provided for degree expected and teacher certification expected. Accurate information is essential.

Forms are filed in the Office of Records and Registration and processed according to expected graduation date. A graduation auditor checks the credit hours taken and records the credit hours still needed. One copy of this audit is mailed to the student and another copy is filed. Students should receive their audits a semester before they apply for graduation. A graduation audit does not take the place of regular, thorough advising.

Students may return the forms by mail or in person to Room 303 Pierce Hall. Time is required by the office staff for processing, and immediate responses to requests for information cannot be made at the time of the request.

Q. How do I declare a major?

A. Fill out the information at the following website: <http://www.emich.edu/aac/majmin.htm>

Q. When should I meet with an advisor?

A. At least once during your first year at Eastern and once you declare your major. You can also meet with your advisor prior to registering for class each term or if there have been any academic problems.

Campus Services

Career Services Center

Career Services Center

Address: 200 McKenny Hall

Phone: 734.487.0400

Fax: 734.487.0940

Web site: <http://career.emich.edu>

Satellite Office

College of Business

Address: 210 Owen Building

Phone: 734.487.4099

The Career Services Center (CSC) helps students plan their careers, develop job search skills, obtain career-related work experience during their academic career and secure jobs upon graduation. Programs and services include student employment, cooperative education, job fairs, résumé referral, and on-campus recruiting. In the area of career planning, CSC provides personality, interest and values inventories, computerized career guidance services and personal career counseling. In addition, CSC offers an assortment of reference materials on career opportunities, self-assessment, employer literature and many other career-related items. These services are available at CSC's main office in McKenny Hall with a more limited range of services at the COB satellite location.

CSC focuses on helping students select majors and occupational fields early in their academic careers. Assistance is provided

through self-assessment, information about occupations and opportunities to secure employment and volunteer experience in career-related fields. Through its nationally recognized Professional Experience Programs (PEP), CSC assists students in obtaining such career-related work experiences as internships and cooperative education placements. These experiences help students gain exposure to their chosen career fields and gain the hands-on work experience that most employers now expect from college graduates. Academic credit can be earned for many of the PEP jobs. Students should begin participation in PEP as early as their freshman year.

Additional job opportunities are offered through CSC's student employment area. This is the central clearinghouse for all on-campus job openings for students as well as for job openings near campus and in surrounding communities. CSC also maintains an extensive listing of summer employment jobs available with camps, parks, resorts, businesses and government agencies throughout the country. As with other student employment positions, these jobs give students practical work experience and a chance to earn money toward college expenses. The Career Services Center also assists seniors, graduate students and alumni in seeking employment after graduation and obtaining professional advancement throughout their careers.

Available services include:

- Resumé, interviewing and job search strategy workshops
- *Job Choices* manual available to all seniors
- EagleCareers.erecruiting.com online posting service
- On-campus recruiting interview program
- Resumé referral program
- Three large annual job fairs that attract hundreds of employers plus several other smaller fairs
- Free drop-off resumé critiquing service

Finally, each year CSC posts more than 30,000 job listings and has more than 250 employers who participate in the on-campus interview program.

Students with Disabilities Office

Address: EMU Student Center, Room 220

Phone: 734.487.2470

TTY: 734.487.2470

Web site: www.emich.edu/disabilities

Students with physical, learning or psychological disabilities, sensory impairments or chronic health conditions must register with the Students with Disabilities Office (SWDO) in order to receive accommodations. Typical accommodations include extended time for examinations, the ability to take examinations in a distraction-free environment, access to adaptive technology, sign language interpreters, books on tape and note takers. However, all accommodations are determined on a case-by-case basis according to each student's documented limitations. The SWDO also works closely with faculty members and other University departments, such as Housing and Campus Life, to ensure that students with disabilities receive the accommodations they need to participate in all University programs, services, and activities. All disability information is strictly confidential and students are encouraged to contact the SWDO to discuss their individual needs.

Children's Institute

Address: 103 Rackham Hall

Phone: 734.487.2348

Fax: 734.487.0286

Web site: www.emich.edu/uhs/children.html

Hours: Monday-Friday, 7:30 a.m. to 5:30 p.m.

The EMU Children's Institute, accredited by the National Association for the Education of Young Children, offers high-quality early childhood education programming to families of Eastern Michigan University and surrounding communities. We offer varied programs designed to meet the needs of students and working families.

The Institute provides high-quality care and education for children ages 18 months through six years. Full and half-day programs are available for toddlers, preschoolers, and kindergartners. A special arrangement with the Ypsilanti Public School System provides transportation to and from Perry Child Development Center for the morning kindergarten program. We also offer a full-day kindergarten program at the Children's Institute.

The EMU Children's Institute serves as the practicum placement site for students preparing to be early childhood education teachers. Practicum students are closely supervised by professional classroom teachers and University faculty members.

Flights of Imagination, the summer day camp program at the Children's Institute, offers exciting and varied programs for children entering kindergarten and first grade, supervised by professional teaching staff, with EMU students as camp counselors. Camp is offered as eight weekly sessions.

Activities at the Children's Institute are play-based and developmentally appropriate, and designed to meet the needs of each child in the group. Teaching staff have completed coursework and hold degrees/advanced professional degrees in early childhood education. Staff training and in-service days are conducted throughout the year.

Cooperative Education

The Program

Cooperative education (co-op) is a unique educational plan designed to enhance academic studies and assist students in attaining career goals. The Career Services Center and academic departments cooperate with business and industry as well as private and public agencies in developing work assignments that parallel the student's academic program. Co-op provides direct, hands-on experience while adding practical dimensions to the student's academic background. Students typically earn wages and academic credit for each co-op job assignment. (For Career Services Center locations [click here](#).)

Benefits to the Student

- Increases employment opportunities upon graduation. Approximately 70 percent of co-op participants are offered permanent jobs by their employers upon graduation.
- Awards college credit while the student is being paid to work. Co-op students also earn wages significantly higher than most student employment opportunities offer.
- Increases earning and promotional potential. Co-op students start between five and 10 percent above normal entry-level salaries after graduation.
- Offers on-the-job training related to course of study. Co-op students typically perform professional level assignments.
- Links classroom and work place. Co-op placements provide the opportunity to apply academic studies while bringing career goals into focus.

Eligibility/Application

Most students must be at least of junior standing with 12-15 credit hours or prerequisites completed in the major. The College of Business (COB) and the College of Health and Human Services (CHHS) will consider second-semester sophomores in selected majors. Note that eligibility and prerequisites vary based on major/minor and that departmental approval is required in most cases. A first step in pursuing a co-op is to speak with an advisor in your program of study to determine application procedures.

Grade Point Average

A 2.5 cumulative GPA is required unless waived by faculty sponsor. Students on academic probation are not eligible to participate.

Academic Credit

Generally three credits are awarded for each placement, but this may vary by major and department. Work experiences are graded on a credit/non-credit basis.

Internships

Students interested in an internship are encouraged to seek information from their departmental office regarding placement assistance and application materials. Requirements may vary by department and academic discipline. The Career Services Center provides listings for internships at EagleCareers.eRecruiting.com and also has print materials about internship opportunities at their main office in 200 McKenny Hall. Students are encouraged to identify opportunities, seek departmental approval and apply directly.

Pre-Professional Internships

The Career Services Center facilitates the Pre-Professional Internship (PPI) program which is available for freshmen and sophomores in all academic majors at any class level. This program offers up to six elective credits for work experience that has allowed students to explore career options. For additional information go to <http://career.emich.edu>.

Counseling Services

Address: 313 Snow Health Center

Phone: 734.487.1118

Fax: 734.481.0050

Web site: www.emich.edu/uhs/counseling.html

Hours: Monday – Friday, 8 a.m. to 5 p.m.

Counseling Services provides:

- Free, confidential, personal counseling for EMU students
- Informative, interactive workshops and presentations in classrooms and other locations on topics including managing depression, resolving communication and relationship problems, building self esteem, addressing anger and test anxiety, among others
- Crisis response and support
- Screening for depression and other concerns
- Consultation with faculty and staff about student and classroom issues
- Self-help lending library

Professional, licensed psychologists and counselors provide services. Graduate students completing internships also provide services under professional staff supervision.

All registered EMU students are eligible for services. Appointments can be made by phone or in person. Counseling is confidential and at no cost to students.

Health Education and Wellness Programs

Address: Snow Health Center, Third floor

Phone: 734.487.2226

Fax: 734.481.0050

Web site: www.emich.edu/uhs/healthed.html

Health Education provides comprehensive health and wellness services and programs aimed toward the enhancement of academic achievement and the promotion of healthy lifestyles. Some of the services include:

- Alcohol, tobacco, and other drug prevention and education programs, screenings and assessments
- Checkpoint Program
- HIV counseling/testing and referral services
- Health Resource Library

- Classroom and workshop presentations
- CloseUP Theatre Troupe
- Violence Intervention Program (VIP)
- CPR/First Aid certification classes

Holman Learning Center

Peg Carter, director

Judy Mack, Learning Center specialist/Tutor Coordinator

Art Hoover, project coordinator

Sally Hattig, Supplemental Instruction coordinator

Rebekah McDow, office supervisor

Address: Bruce T. Halle Library, Room G04

Phone: 734.487.2133

TTY: 734.487.2482

E-mail: learning.center@emich.edu

Web site: www.tlc.emich.edu

Holman Learning Center (TLC) provides students with a campus-wide network of learning assistance programs designed to develop independent learning skills necessary for academic success.

Tutor Programs

TLC provides the following tutoring assistance programs: 1) Individual tutors available to undergraduate students who wish to work one-on-one with a peer tutor to improve their understanding of a particular course. Individual tutoring is nonremedial and free. 2) Supplemental Instruction (SI) to assist students who are enrolled in a first-year large lecture course to develop effective study strategies. A SI leader will lead small discussions on note-taking, study strategies and test-taking and relate the skills to the specific large lecture course.

Student Academic Success

TLC focuses on the academic success of each student during their career at Eastern Michigan University. The office continues to create new and innovative programs focusing on new students to the University and students referred to the office by other departments or faculty. These programs include the following: 1) First-Year Academic Support Program links students, faculty and parents to facilitate the student's transition into higher education and to maximize academic success. 2) Skill-building workshops expose students to information on test-taking strategies, time management, how to efficiently take notes in class and preparing for final exams. Workshops are presented in freshman residence halls, the Student Center and Halle Library. 3) Peer support sessions offer students an opportunity to talk to graduate students to get help navigating the University environment and charting a positive, goal-oriented plan for academic success.

Pre-College Programs

Pre-college programs also provide an avenue for promoting academic achievement and success. TLC coordinates the following pre-college programs: 1) Martin Luther King, Jr./César Chávez/Rosa Parks (KCP) College Days programs brings eighth- through 12th- grade students to campus and exposes them to college life. The program builds self-esteem and motivation and introduces participants to a variety of career options. 2) The Wade McCree Scholarship program awards 20 general fund scholarships each fall to underrepresented students entering the ninth grade. 3) The Summer Incentive Program (SIP) offers high school seniors showing potential for academic success an opportunity to take three college courses, live on campus and work in the campus office during the summer. Participants who successfully complete the summer program are admitted to EMU in the fall.

Retention Tracking

Retention research provides the University with the information required for strategic planning and creation of new and effective University-wide programs aimed at retention and student success. The programs and student populations TLC currently tracks

are all first time in any college (FTIAC), first-year interest groups (FIGs), and the Promote Academic Survival and Success (PASS) populations. Programming for these student populations is a collaborative effort involving both Enrollment Management and Academic Affairs.

The EMU Student Center

Address: 900 Oakwood St., Rm. 370, Ypsilanti, MI 48197

Phone: 734.487.1157

Fax: 734.487.0493

Web site: <http://www.emich.edu/studentcenter>

The EMU Student Center is the interactive heart of student life at Eastern. The building's concave east side architecturally declares the Student Center's intent to "embrace" the campus and act as a unifying force in the daily life of Eastern. This unifying mission is further reinforced in the Student Center's mix of facilities, services, and programs designed to create an environment to attract and serve students, faculty, staff, and the local community. The Student Center helps build a powerful and positive, diverse and collegiate, academic community at EMU. The Student Center is immediately adjacent to the Halle Library on the south and the Recreation/Intramural building on the southeast, and is near the academic core of the campus. The east side of the Student Center is a three-story glass wall that overlooks University Park.

The EMU Student Center's first floor consists of the EMU Bookstore operated by Follett, fireplace lounge, state of the art 250-seat auditorium, food court with comfortable seating for 450, Wendy's, Subway, Taco Bell/KFC, Sbarro's, Green Market Bistro, convenience store, TCF Bank, Eagle Card Office, Apple store, ticket office, and a gaming center. The second floor consists of the grand ballroom with banquet-style seating for 650, pre-function fireplace lounge, University Art Gallery, Student Center Art Gallery, Admissions Welcome Center, University Information Center, Service EMU, Office of International Students, New Student Programs, Student Judicial Services, Students with Disabilities Office, 24/7 computer lab, Commuter Central and lounge, and Starbucks Coffee. The third floor consists of meeting rooms including the Native American inspired Kiva Room, Event Planning Office, Student Center Administration, and the Center for Student Involvement that includes Student Government, Greek organizations, student organizations, Campus Life, Diversity and Community Involvement Programs, and VISION. For additional information about the EMU Student Center visit www.emich.edu/studentcenter. The Campus Information Center on the second floor of the Student Center can provide more information on the Center's programs and services. Call the friendly staff at 734.487.1157.

Campus Life

Address: 345 EMU Student Center

Phone: 734.487.3045

FAX: 734.480.1927

Web site: www.emich.edu/campuslife

Campus Life offers student-centered learning, development and involvement activities that challenge and support the unique gifts, needs, experiences and interests of our students, our professional staff members and members of the broader campus community.

- **Arts, Intellectual, Cultural and Entertainment Programs**
Offering social engagement and aesthetic literacy experiences through a variety of activities including late night/evening/weekend programs, intellectual/cultural experiences, guest speakers and artists, student performances, films and more.
- **Commuter Life**
Providing access to an array of services designed to support commuter students including Service EMU, temporary and one-night campus housing for commuters, commuter scholarships and Student Legal Services. Also serving the transition, student involvement and engagement needs of commuters through commuter orientation, the Commuter Student Association, and campus activities.

- **Leadership and Student Involvement**
Providing students with opportunities to enhance their personal and professional skills through student volunteer boards, student employment experiences, and an array of leadership development programs.
- **Orientation and Transition Programs**
Offering programs, services and resources assisting students to transition successfully into and through their college career including Fusion: New Student Orientation for freshmen, transfer and adult students, the MyFY Website, First Year Mentor Program, and Real Beginnings.
- **Student Organizations and Greek Life**
Providing programs, services, resources and advocacy for student organizations, including fraternities and sororities, to function safely and effectively, contributing positively to the EMU community.

Department of Diversity and Community Involvement

Diversity Programs

Address: EMU Student Center, 3rd Floor

Phone: 734.487.3118

Fax: 734.487.6910

Web site: www.emich.edu/dci

Volunteerism and Community Service

EMU Student Center, 3rd Floor

Phone: 734.487.3045

Fax: 734.480.1927

Web site: www.emich.edu/vision

The **Department of Diversity and Community Involvement (DCI)** offers numerous opportunities for engagement and learning beyond the classroom. DCI provides opportunities for students, faculty, and staff to get involved in social justice education, programming, and activism.

Diversity and Community Involvement comprises four centers: the **Center for Multicultural Affairs**, the **Lesbian, Gay, Bisexual, Transgender Resource Center (LGBTRC)**, **VISION** (Volunteers Incorporating Service into our Neighborhoods), and the **Women's Center**. The Center for Multicultural Affairs, LGBTRC and the Women's Center offer a variety of programming and services promoting diversity and inclusion. The Centers recognize, support, and celebrate diverse student populations; promote academic, personal, social and professional development of diverse student populations; provide information, resources, and referral services; and help faculty and staff teach effectively in a diverse University setting. Examples of our programming include Cultural Heritage Celebration Months, Out Month, Lavender Role Models and Mentors, Take Back the Night, and *The Vagina Monologues*.

VISION Volunteer Center – the fourth of DCI's Centers – offers opportunities for students to get involved in service. **VISION** helps students learn about social issues, address community needs and strengthen community partnerships. Our student-led programs include Alternative Breaks, America Reads, Best Buddies, GREEN, Habitat for Humanity, Jumpstart, Kid Konnection, Students Against Hunger and Homelessness, and One-Day Events.

Office of International Students

Address: 244 EMU Student Center

Phone: 734.487.3116

Web site: www.emich.edu/ois

The Office of International Students extends a welcome to all international students pursuing educational goals at Eastern Michigan University. Concerned, responsible and professional staff is available to assist students in any matter, including orientation, advice on immigration issues, academic, financial, employment and personal concerns. The staff also provides the preparation of documents needed to maintain favorable status in this country.

This office serves as a consultant to faculty and staff on international student affairs, acts as a catalyst for the development of various international connections in the University and/or community to promote international education and understanding, and initiates enhancement programs such as cross-cultural activities on and off-campus.

International students are encouraged to make regular contact with the office.

Ombudsman

Address: 112 Welch Hall

Phone: 734.487.0074

Fax: 734.487.7170

Web site: www.emich.edu/ombuds

The ombudsman facilitates the resolution of individual complaints which do not have a formal avenue of redress through official University channels. The ombudsman advises students on University policy and procedures, identifies and recommends changes to current practices, and communicates student concerns/issues to appropriate University officials. In addition, the ombudsman presents workshops, conducts needs assessments and mediates disputes.

In the event of an emergency, the ombudsman is the main contact between the student, the student's family and the University. When a student emergency exists, the ombudsman has the responsibility for notifying the student's instructors, and for contacting family members and other appropriate personnel.

University Health Services

Address: Snow Health Center Main Floor

Phone: 734.487.1122

Fax: 734.487.2342

Web site: www.emich.edu/uhs

Hours: Monday-Friday 8 a.m. to 5 p.m.

The center is closed during official university closings. Appointments are preferred, but walk-ins can usually be accommodated.

All currently enrolled students, faculty, staff and their spouses at Eastern Michigan University are eligible for services.

Medical Services provides treatment as well as preventive services for a wide range of acute, episodic and ambulatory medical conditions, some of which include:

- Evaluation and treatment for minor illness and injury
- Physical examinations
- Allergy shots, immunizations, meningitis shots, TB testing and flu shots
- Women's health care including annual exams, diagnosis and treatment for infections, birth control and pregnancy tests
- X-ray and laboratory tests

Snow Health Center is a fully staffed medical facility. The professional team includes physicians, nurse practitioners, nurses and technologists who have specialized in the health and lifestyle concerns of young adults. In addition, faculty and residents from St. Joseph Mercy Hospital work with the staff in a collaborative program to provide services.

The EMU Student Health Insurance policy, sponsored by Student Government, is accepted in full for covered services after co-pays are met. The EMU policy can be reviewed and purchased online at www.uhcsr.com

Pharmacy

Address: Snow Health Center, Main Floor

Phone: 734.487.1125

Fax: 734.487.0273

Web site: www.emich.edu/uhs

The pharmacy is licensed by the State of Michigan and provides quality pharmaceutical services with an emphasis on patient counseling regarding your medication(s), issues involving possible drug interactions, proper use and storage of your medication(s), dosage and side effects. The pharmacy can fill prescriptions written by licensed physicians in Michigan as well as most prescriptions written by out-of-state licensed providers. We participate with many prescription insurance plans. The pharmacy also maintains a variety of over-the-counter products, including no-prescription medications.

Student Government

Governed by the President (elected each spring)

Address: 342 EMU Student Center

Phone: 734.487.1470

Web site: www.emich.edu/studentorgs/studentgov

Student Government at EMU is committed to improving the quality of student life on campus. The student body each spring elects a president, vice president and 24 senators who, along with representatives appointed from various organizations, compose the Student Senate. The executive officers and members provide input to the administration of the University to help solve problems and improve programs and services. Student Government also sponsors campus-wide events and trips to Lansing to meet with state legislators.

Not only do student representatives get valuable experience in the process of government, but they also represent the University on local, state and national levels. Any EMU student may run for a Student Government position. Interested students are also welcome to serve on Student Government committees and University advisory groups.

University Student Identification Card

EagleOne Card Office

Address: EMU Student Center, First Floor

Phone: 734.487.3176

Web site: <http://it.emich.edu/eagleonecard/>

A valid Eastern Michigan University identification card is required for many services on campus including the use of special facilities. To obtain a University identification card, students must be registered for at least one class for the current or upcoming semester. You will need one piece of valid picture identification and a copy of your class schedule. Visit the EagleOne Card Office web site for office hours and updated information.

Veteran Services Office

Shaftone Dunklin, Director

Address: 246 McKenny Hall

Phone: 734.487.3119

Fax: 734.487.5060 Web site: www.emich.edu/veterans

The Veteran Services Office (VSO) coordinates all campus services for veterans who are pursuing their education at EMU. It is the resource center for veterans' benefits; veterans must report successful academic progress, class drops and adds, and/or relevant changes in personal status to the VSO in order to maintain benefits.

The office assists veterans in housing and financial aid, and works closely with disabled veterans to provide full educational benefits. Veterans should direct all questions to a representative of this office.

Campus Living

Housing

Address: Housing and Dining Services Office (lower level, The Commons)

Phone: 734.487.1300

Fax: 734.487.8513

E-mail: housing@emich.edu

Web site: www.emich.edu/housing/halls.php

Hours: Monday-Friday, 8 a.m. to 5 p.m.

Residence Halls

Eastern Michigan University's residence system provides housing for over 3,000 students, staff and faculty. Housing options include both traditional residence halls and apartments. Our 12 residence halls offer six room layouts to choose from. You can live in a double room, co-ed hall or upperclass single hall. Features include laundry and kitchen facilities, TV and study lounges, cable television, local telephone service and recreational amenities. All halls feature reception desk services and in-room network connections for Internet and e-mail service. Residence hall staff provide educational and recreational programs and promote the safety and welfare of residents.

According to Eastern Michigan University policy, all first-year unmarried students shall be required to live in University residence halls, contingent on space availability. Sophomore students may be required to live on campus as well, space permitting. Please see "Policies Affecting You" in the Indices for the complete policy.

Academic and Personal Success

Studies show that students are more likely to succeed academically and personally if they live in a residence hall. Part of the reason is the variety of academic and student support programs offered. Our Residence Education Program promotes staff organized study skills workshops and provides a nightly study center that creates a quiet, spacious atmosphere for studying.

Residence hall staff also conduct a number of informative programs on such topics as financial aid, health, fitness and personal relationships as well as recreational programming designed to promote community development and enhance your residence life experience.

Make Your Room Special

You'll be amazed at what you can do with your residence hall room. We'll supply the basic furnishings: desk, chairs, bed, dressers and window treatments. Part of the fun of living in a hall is making it feel like home. Check www.emich.edu/housing/whattobring for specific details.

Get Involved in Your Hall

What's a great way to make new friends and have fun? Get involved in residence hall programs. There are so many things to do throughout the academic year. Residence hall staff and Leadership and Advisory Boards traditionally sponsor events such as Lil' Sibs Weekend and a number of activities during Homecoming. Often individual floors and halls will organize bowling parties, volleyball games, sport outings, movie nights and live entertainment.

Residents take an active role in planning and organizing events. You can learn great leadership and organizational skills by participating on a planning committee or by getting involved in Leadership and Advisory Boards. The Residence Hall Association, the residence hall student governing board, gives you an opportunity to represent your hall or floor. So get involved! After all, it's your home away from home!

At Your Service

You can stop by your hall front desk to pick up your mail, make change or check out vacuums and recreational equipment.

Our custodial and maintenance staff will repair any permanent fixtures in your room, such as the heat, plumbing or light fixtures, as well as clean hall corridors, lounge areas and community bathrooms.

Residence hall students also enjoy the convenience of having shuttle bus stops right in front of many halls. You can catch a ride around campus, head to the College of Business in downtown Ypsilanti or go shopping in nearby Ann Arbor.

To reserve a room, students must:

1. Apply online from our web site at www.emich.edu/housing/main.php;
2. Read the contract carefully and thoroughly. The contract contains important information you need to know before reserving a room;
3. Select a meal plan;
4. Select your residence hall program:
 - First-Year Experience Halls: Phelps/Sellers, Walton/Putnam, Best (new incoming freshmen only)
 - Honors Hall (members of Honors College)
 - Upperclass hall (sophomores and above only)
 - Single Room halls (reserved for returning students, new upperclass, transfer and graduate students)
5. Make a \$200 prepayment online or print the contract and mail to:

Apartments on Campus

Eastern Michigan University offers traditional residence halls as well as apartment living options for students. Three apartment complexes are available to serve your housing needs. These include Brown/Munson, Cornell Courts and Westview apartments.

Eligibility

Applicants must be:

- enrolled in 12 undergraduate credit hours or
- enrolled in six graduate credit hours, or
- actively engaged in an internship, or writing a master's, specialist's or doctoral thesis, or
- upperclass or nontraditional first-year students

Amenities

University Apartments include:

- locations convenient to classes, the library and athletic events;

- utilities included in rent (gas, electric, water and trash collection);
- basic cable service;
- laundry rooms in each building;
- storage facilities at some locations;
- community rooms for complex activities;
- leasing options;
- Internet in Brown/Munson

Students must submit an application to be considered for an apartment. Applications are available from the apartment office and require a \$20 nonrefundable processing fee.

Assignments are made by the leasing coordinator according to the date the application is received. Applicants are notified when their application has been approved and a unit is available for occupancy. Apartments are leased as they become available.

According to Eastern Michigan University policy, the maximum number of individuals allowed to live in a two-bedroom apartment is four. The maximum number of individuals in a one-bedroom unit is two.

You will never get bored eating the same old food in the same old place at EMU. There are more than 20 locations campus-wide (including four convenience stores). All locations are open to students, faculty, staff, parents and invited guests. Various meal plan memberships which may be purchased by the university community have been designed to complement lifestyles and budgets. Meal plan memberships may be charged to student accounts, or purchased by cash, check or charge card (Visa/MasterCard). Memberships may be purchased at the Housing & Dining Services Office; Eagle Express may also be purchased at the Eagle OneCard Office in the Student Center. Following are the available meal plan memberships.

Required for all freshmen living in residence halls:

PLATINUM - 18

- 3 meals daily Monday-Friday
- 2 meals Saturday
- 1 meal Sunday
- 2 guest meal passes
- \$75 E-Dollars per semester for use at any EMU campus-operated location

GOLD - 13

- 2 meals daily Monday-Saturday
- 1 meal Sunday
- 4 guest meal passes
- \$150 E-Dollars per semester for use at any EMU campus-operated location

SILVER - 8

- 8 meals any time Monday-Sunday
- 8 guest meal passes
- \$250 E-Dollars per semester for use at any EMU campus-operated location

Available only to upperclassmen returning to the residence hall program or transferring with a minimum of 24 credit hours:

SUPER FLEX

- Debit account with total flexibility
- An additional 25% administration fee will be required

BASIC FLEX

- Debit account with total flexibility
- An additional 25% administration fee will be required

Additional memberships available to all non-residence hall students, faculty and staff:

APARTMENT RESIDENTS FLEX

- Debit account with total flexibility

THE COMMONS BLOCK PLAN

- Designed for those who enjoy The Commons' experience of all-you-care-to-eat buffet dining
- Monday-Friday, lunch and dinner
- Always fresh - many healthy options
- Wireless internet access
- Purchase in blocks of 5 meals = \$40
- Purchase 25 meals and receive 2 free meals
- Balance rolls over semester to semester

EAGLE EXPRESS

- **5% discount at all EMU operated facilities available to faculty, staff and students**
- Used in all dining locations campus-wide including 4 convenience stores
- Pre-paid debit card means safety and convenience without carrying cash
- Excellent way to supplement your meals 24/7
- Minimum beginning balance is \$25 and balance will roll over from semester to semester

NOTE: Posted hours will vary pending holidays and academic calendar. Some dining locations will remain open during unscheduled shutdowns such as snow emergencies. Contact each area for specific hours.

• The Commons

Formerly known as Dining Commons ONE. Diners will enjoy an all-you-care-to-eat self-serve food court featuring home cooked entrees, pasta and stir fry lines, soups, popular fast foods, an extensive salad bar, desserts, and the very popular make-your-own Belgium waffles. Accessible through Downing Residence Hall. 734.487.2442

• Eastern Eateries

High-tech fast food mall with 6 shops featuring 5 national franchises: Jump Asian Cuisine, A & W, Sbarro, Sunset Strips and Freshens. Sundays from 1-6 pm enjoy one-time walk through all-you-care-to-eat Buffet Extravaganzas. Conveniently located between Phelps-Sellers and Walton-Putnam Residence Halls. 734.487.0444

While at the Eateries check out the QuickFixx convenience store located on the lower level. This little store has it all: groceries, toiletries, snacks, greeting cards and video rentals. 734.487.0122

• **CrossRoads MarketPlace**

Home of the first room service venue in the country for residents "on the hill," this is a unique food court and full service grocery store concept featuring Einstein Bros. Bagels shop plus Hot Off The Grill (entrees) and Panini Grill (deli). Also featured is an extensive video rental and greeting card selection. Located in the Hoyt Conference Center. 734.487.3066

• **EMU Student Center Food Court**

Features the Lobby Shop (snack shop), Taco Bell Express, KFC Express and Starbucks. This year an exciting new GreenMarket Bistro opened its doors featuring The Garden Bistro (the first all vegetarian venue on campus), Dog Daze gourmet hot dogs, Jet Smoothies and Sbarro. 734.487.6416

Satellite Operations - all shops provide sandwiches, soups, salads, pastries and beverages.

- **Cafe Crescendo** located in Alexander Hall. 734.487.8450
- **Common Ground Cafe** located in the Marshall Building. 734.487.3412
- **Courtside** located in the Rec/IM. 734.487.6693
- **Flying Eagles** located in Pray-Harrold (northeast end). Also serves Starbucks coffee. 734.487.6965
- **Food For Thought** located in Sill Hall. 734.487.6965
- **Paradox Cafe & Commons** located in Halle Library. Also serves Starbucks coffee. 734.487.4550
- **The Bottom Line** located in the College of Business (downtown Ypsilanti). 734.487.5609
- **TO BE Cafe** located in Quirk-Sponberg Theatres. 734.487.6699

Student Rights and Responsibilities

The Office of Student Judicial Services works to create an effective living and learning environment by designing policies such as the Student Code of Conduct, providing a disciplinary process and conducting programs that foster ethical development, personal accountability and civility toward others.

For information concerning student rights and responsibilities contact:

Office of Student Judicial Services

Address: 250 EMU Student Center, 2nd Floor

Phone: 734.487.2157

Fax: 734.487.4376

University Governance and Individuals' Rights

Board of Regents

Eastern Michigan University is an autonomous University governed by an eight-member board of regents appointed by the governor of Michigan and subject to the approval of the Michigan Senate. Financial support for the University comes from student tuition and fees, and support provided by the citizens of Michigan.

Current members of the board of regents are Thomas W. Sidlik, Ann Arbor, chair; Roy E. Wilbanks, Ypsilanti, vice chair; Floyd Clack, Flint; Gary D. Hawks, Okemos; Philip A. Incarnati, Clarkston; Mohamed Okdie, Detroit; Francine Parker, St. Clair Shores; and James F. Stapleton, Ann Arbor.

Policies on Nondiscrimination

Eastern Michigan University shall not discriminate against any person because of race, color, creed, religion, national origin, gender, age, disability or sexual orientation. Further, the University shall work for the elimination of improper discrimination in the areas listed above in organizations recognized by the University and from non-University sources where students and employees of the University are involved.

Equal Opportunity and Affirmative Action Policies

Eastern Michigan University admits students of either sex, and any race, color or national or ethnic origin to all the rights, privileges, programs and activities accorded to students at this University. The University does not discriminate against students on the basis of sex, race, color or national or ethnic origin in the administration of its educational policies, admissions policies, scholarships and loan programs and athletic and other University-administered programs. Further, it is the policy and practice of Eastern Michigan University to take affirmative action in all personnel matters.

Gender Equality

It is the policy of Eastern Michigan University to comply with Title IX of the Education Amendments of 1972 and its regulations, which prohibit discrimination on the basis of sex. Anyone who believes that in some respect Eastern Michigan University is not in compliance with Title IX and its regulations should contact the executive director of Human Resources.

Nondiscrimination of the Disabled and/or Challenged

Sharon Abraham, director
Diversity and Affirmative Action
Address: 11 Welch Hall
Phone: 734.487.1166

In its programs, activities and employment, Eastern Michigan University does not discriminate on the basis of physical or other disabilities. Anyone who believes that in some respect Eastern Michigan University is not in compliance with the Rehabilitation Act and its regulations should contact the executive director of Human Resources. Prospective students with disabilities who are otherwise qualified for admission are invited to apply. Students encountering difficulty with access to full participation in University activities should contact the ombudsman.

Statement on Campus Violence

In accordance with the education mission of Eastern Michigan University, the University adopts this policy statement to promote a safe campus environment. The statement reflects the nonviolent spirit of the relationship between students, staff, administrators, faculty, contractors and visitors at Eastern Michigan University.

The safety and security of our students, staff, administrators, faculty, contractors and visitors is extremely important to Eastern Michigan University. Threats, acts of aggression and threatening or violent behavior are not tolerated by or toward students, staff administrators, faculty, contractors or visitors. All reports of incidents will be taken seriously and will be dealt with appropriately.

Threats can be direct and immediate or indirect and implied; threats can occur verbally, nonverbally or in writing. Acts of aggression include, but are not limited to, abusive behavior, stalking and tampering with property and are intended to intimidate, create fear, imply harm or destroy property. Threatening or violent behavior is behaving in such a way that poses an immediate threat to self or others by acts of physical harm.

All students, staff, administrators, faculty, contractors and visitors are strongly encouraged to report threats, acts of aggression and threatening or violent behavior to the Campus Police (911 for all emergencies, 487.1222 for all other calls), Human Resources (487.0083), and/or your department head or supervisor, to help ensure the safety of our campus community.

Family Education Rights and Privacy Act

In compliance with the Family Education Rights and Privacy Act (FERPA), Eastern Michigan University assures that any person who is or has been in attendance as a student at EMU has access to his/her educational records. Furthermore, such individual's rights to privacy are assured by limiting the transferability of records without the student's consent.

The following are matters of public record and may be included in directory publications or disclosed upon request without consent: the student's name, address, telephone listing, e-mail address, date and place of birth, major field of study, participation in recognized activities and sports, weight and height (if a member of an athletic team), dates of attendance, degree and awards received (including but not limited to the Dean's List) and most recent previous educational agency or institution. Registration documents of student organizations that contain the names and addresses of the officers and the statement of purpose of the organization also are considered public information. These documents are available in the Office of Campus Life Programs.

EMU reserves the right to make directory information public unless a student files a written request to withhold information with the University Communications Office within 14 days after the semester begins. Once such a request is filed, the information will remain private until the student requests the University Communications Office to release it.

Individuals who believe the University is not in compliance with FERPA and its regulations should contact the executive director of Human Resources.

Notification of Student Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. **The right to inspect and review the student's education records within 45 days of the day EMU receives a request for access.**

Student should submit written requests to the EMU Office of Records and Registration, identifying the record(s) they wish to inspect. A University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. **The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.**

Students may ask the University to amend records that they believe are inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify what is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to consent to disclosures of personally identifiable information contained in the student's education record, except to the extent that FERPA authorizes disclosure without consent.**

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by EMU in an administrative, supervisory, academic or research or support position (including law enforcement personnel and health staff); a person or company with whom EMU has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

The University may also disclose, without the student's permission, to parents and legal guardians when the student is under 21, any violation of existing alcohol or drug laws or University policy.

EMU has designated the following items as directory information and these items may be included in publications or disclosed upon request without consent: the student's name; address; telephone listing; e-mail address; date and place of birth; major fields of study; participation in recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees and awards received (including, but not limited to, Dean's List); and the most recent previous educational agency or institution attended by the student.

EMU reserves the right to make directory information public unless a student's written objection (specifying the category of information not to be made public without prior consent) is filed with the University Communications Office within 14 days after each term begins.

Students who do not want to be included in the annual EMU Student Telephone Directory should complete a Directory Exclusion form. Forms can be picked up from University Publications, Housing and Dining Services, Records and Registration and the Library Copy Center. They must be turned in by Sept. 15 to the Library Copy Center or to University Publications. Completing the exclusion form will remove the student's name, address and phone number from the current and subsequent telephone directories.

4. **The right to file a complaint with the U.S. Department of Education concerning alleged failures by EMU to comply with requirements of FERPA. The name and address of the office that administers FERPA is:**
Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

Hammill, Geoffrey D. (1987) Professor; Ph.D.; Bowling Green State University
Heck-Seibert, Theresa (1992) Professor; M.F.A.; University of Wisconsin
Kindred, Jeanette (2006) Assistant Professor; Ph.D.; Wayne State University
McCracken, Sally R. (1968) Professor; Ph.D.; Wayne State University
Patrick, Dennis P. (1996) Professor; Ph.D.; University of Texas
Quiel, Ramond (1999) Instructor; M.A.; Eastern Michigan University
Rich, Anita (1996) Professor; Ph.D.; Southern Illinois University
Robinson, James A. (1988) Professor; Ph.D.; University of Michigan
Schuessler, Melanie (2005) Assistant Professor; M.F.A.; University of Wisconsin
Shen, Tsai-Shan (2006) Assistant Professor; Ph.D.; Arizona State University
Simmons, Phil (2006) Assistant Professor; M.F.A.; University of Georgia
Stacey, Kathleen (1992) Professor; Ph.D.; Wayne State University
Stevens, Kenneth W. (1972) Professor; M.A.; University of Cincinnati
Stille, Lee (1998) Associate Professor; Ph.D.; University of Minnesota
Sturgis Hill, Judy (1992) Assistant Professor; M.A.; Eastern Michigan University
Tanner, Christine (2002) Assistant Professor; Ph.D.; Brigham Young University
Tew, Michael A. (1989) Professor; Ph.D.; Wayne State University
Watson, Mary Ann (1990) Professor; Ph.D.; University of Michigan
Zimmer, Patricia Moore (1980) Professor; M.F.A.; Florida State University

Computer Information Systems

Ahmad, S. Imtiaz (1981) Professor; Ph.D.; University of Ottawa
Chou, David C. (2001) Professor; Ph.D.; Georgia State University
Chung, Sock (2002) Assistant Professor; Ph.D.; Auburn University
Esteva, Juan C. (1990) Associate Professor; Ph.D.; Wayne State University
Farah, Badie N. (1982) Professor; Ph.D.; Ohio State University
Gibson, Fiason (2006) Assistant Professor; Ph.D.; Carnegie Mellon University
Lee, Huei (2001) Associate Professor; Ph.D.; Georgia State University
Mrdalj, Stevan (1987) Professor; Ph.D.; University of Belgrade, Serbia and Montenegro
Saxon, Charles S. (1976) Professor; Ph.D.; University of Michigan
Schoenherr, Tobias (2005) Assistant Professor; Ph.D.; Indiana University
Sokkar, Fathi F. (1971) Professor; Ph.D.; University of Illinois
Tang, Hung-Lian (2000) Professor; Ph.D.; University of Nebraska-Lincoln
Tummala, Rao V.M. (1981) Professor; Ph.D.; Michigan State University
Wu, Nesa L. J. (1974) Professor; Ph.D.; Purdue University

Computer Science

Bahorski, Zenia (1990) Instructor; M.S.; Eastern Michigan University
Chaudhuri, Ranjan (1984) Professor; Ph.D.; University of South Florida
Evelt, Matthew (1999) Associate Professor; Ph.D.; University of Maryland
Haynes, Susan M. (1992) Associate Professor; Ph.D.; University of Michigan
Höft, Hartmut F.W. (1970) Professor; Ph.D.; University of Houston
Ikeji, Augustine C. (1988) Associate Professor; Ph.D.; Wayne State University
Keller, Benjamin (2002) Assistant Professor; Ph.D.; Virginia Polytechnic Institute and State University
Maniccam, Suchindran (2001) Associate Professor; Ph.D.; State University of New York at Binghamton

McMillan, William W. (1984) Professor; Ph.D.; Case Western Reserve University
Moore, Pamela A. (1985) Instructor; M.S.; Michigan State University
Narayanan, Krishnakumari (2002) Assistant Professor; Ph.D.; Oakland University
Poh, Elsa S. (2001) Associate Professor; Ph.D.; University of Toledo
Sverdlik, William (1999) Associate Professor; Ph.D.; Wayne State University
Tehranipour, Aby (1990) Professor; Ph.D.; University of Nebraska
Zeiger, Michael (1979) Assistant Professor; Ph.D.; University of Michigan
Zhang, Li (2004) Assistant Professor; Ph.D.; State University of New York at Buffalo

Economics

Crary, David B. (1982) Associate Professor; Ph.D.; University of Maryland
Dewan, Abdullah (1984) Professor; Ph.D.; University of Kentucky
Edgren, John (1979) Professor; Ph.D.; University of Michigan
Erenburg, Sharon J. (1986) Professor; Ph.D.; University of Illinois
Hanna, Raouf S. (1973) Professor and Department Head; Ph.D.; Indiana University
Hayworth, Steven C. (1977) Associate Professor; Ph.D.; Massachusetts Institute of Technology
Moreland, Kemper (1980) Professor; Ph.D.; University of Wisconsin
Pearson, Donald W. (1970) Professor; Ph.D.; University of Texas
Rice, Jennifer (2004) Assistant Professor; Ph.D.; Indiana University
Thornton, James (1991) Professor; Ph.D.; University of Oregon
Vogt, Michael G. (1978) Professor; Ph.D.; University of Wisconsin
Woodland, Bill M. (1981) Professor; Ph.D.; Purdue University

Engineering Technology

Baghdachi, Jamil (1997) Professor; Ph.D.; University of Mississippi
Bari, Mohamad J. (Jamal) (2000) Associate Professor; Ph.D.; University of Arkansas
Benedict, Dozie Ilozor (2006); Associate Professor; Ph.D.; University of Technology, Sydney
Brake, Mary (2004) Professor; Ph.D.; Michigan State University
Chapman, Robert E. (1992) Assistant Professor; Ph.D.; Yale University
DeLaski-Smith, Deborah (1978) Professor and Interim Dean, Graduate Studies; Ph.D.; Michigan State University
Fields, Daniel J. (1986) Professor and Department Head; Ph.D.; Michigan State University
Greenfield, M.C. (2005) Assistant Professor; MS; Southern Illinois University
Jones, Louise (1990) Professor; Ph.D.; University of Michigan
Kanagy, Max E. (1986) Professor; Ph.D.; Ohio State University
Lahidji, Bob (Behrooz) (1994) Professor and Director; Ph.D.; University of Missouri-Columbia
Lin, Su-Chen Jonathon (1988) Professor; Ph.D.; The Iowa State University
Lokensgard, Erik (1986) Professor; Ph.D.; The Iowa State University
Love, Dian (2002) Assistant Professor; M.S.; University of Michigan
Lu, Jiang (2003) Assistant Professor; Ph.D.; Indiana University
Lyons, Harvey (1998) Associate Professor; Ph.D.; Ohio State University
Mannari, Vijaykumar(2002) Assistant Professor; Ph.D.;Sadar Patal University
Mitchell, James G. (Greg) (2000) Associate Professor; Ph.D.; Wayne State University
Moylan, William (2001) Instructor; Ph.D.; Capella University
Rufe, Phillip (1990) Instructor; M.S.; Eastern Michigan University
Shay, Tony F. (1990) Professor; Ph.D.; The Iowa State University
Sipos, Maria (2005) Assistant Professor; M.A.; Eastern Michigan University
Soyster, Thomas G. (1982) Associate Professor; Ed.D.; Temple University
Speelman, Pamela (1990) Professor; Ed.D.; Wayne State University
Stein, James (1990) Associate Professor; Ph.D.; Wayne State University
Texter, John (2002) Professor; Ph. D.; Lehigh University

Tillman, Tracy S. (1990) Associate Professor; Ph.D.; Purdue University
Tucker, Walter W. (1978) Professor; Ph.D.; University of Michigan
Wang, Jianhua (2002) Assistant Professor; Ph.D.; University of Iowa

English Language and Literature

Adler-Kassner, Linda (2000) Associate Professor; Ph.D.; University of Minnesota
Allen, Nancy (1991) Professor; Ph.D.; Purdue University
Aristar, Anthony (2006) Professor; Ph.D.; University of Texas at Austin
Aristar-Dry, Helen (1991) Professor; Ph.D.; University of Texas at Austin
Arrington, Phillip (1984) Professor; Ph.D.; University of Louisville
Baker, William Douglas (2001) Associate Professor; Ph.D.; University of California at Santa Barbara
Barr, Mark (2006) Assistant Professor; Ph.D.; Vanderbilt University
Benninghoff, Steven (2002) Assistant Professor; Ph.D.; Purdue University
Blakeslee, Ann (1996) Professor; Ph.D.; Carnegie-Mellon University
Bruss, Paul S. (1969) Professor; Ph.D.; University of Rochester
Burlingame, Lori (1997) Associate Professor; Ph.D.; University of Rochester
Cassidy, Cheryl (1990) Professor; Ph.D.; University of Michigan
Coykendall, Abigail (2002) Assistant Professor; Ph.D.; State University of New York at Buffalo
Csicsila, Joseph (2000) Associate Professor; Ph.D.; University of Nevada at Las Vegas
Cunningham, Charles (2004) Assistant Professor; Ph.D.; Carnegie-Mellon University
Daeumer, Elisabeth (1992) Professor; Ph.D.; Indiana University
Dionne, Craig (1995) Professor; Ph.D.; Carnegie-Mellon University
Duncan, Jeffrey L. (1971) Professor; Ph.D.; University of Virginia
Eiss, Harry E. (1987) Professor; Ph.D.; University of North Dakota
Fleischer, Catherine (1990) Professor; Ph.D.; University of Michigan
Garrett, Edward (2003) Assistant Professor; Ph.D.; UCLA
Geherin, David J. (1969) Professor; Ph.D.; Purdue University
George, Laura (1994) Professor and Department Head; Ph.D.; Ohio State University
Goodman, Beverly (1996) Associate Professor; Ph.D.; Cornell University
Grondona, Veronica (2000) Associate Professor; Ph.D.; University of Pittsburgh
Hendrix, Lolita (1994) Professor; M.A.; Eastern Michigan University
Hume, Christine (2001) Associate Professor; Ph.D.; University of Denver
Kaston, Andrea (2000) Associate Professor; Ph.D.; University of Wisconsin
Kauffman, Janet (1988) Professor; Ph.D.; University of Chicago
Knapp, James (1998) Associate Professor; Ph.D.; University of Rochester
Kovacevic, Natasa (2006) Assistant Professor; Ph.D.; University of Florida
Krause, Steven (1998) Associate Professor; Ph.D.; Bowling Green University
Larson, Russell R. (1970) Professor; Ph.D.; University of Michigan
Lucy, Robin (2002) Assistant Professor; Ph.D.; McMaster University
Miller, Bernard A. (1987) Professor; Ph.D.; Purdue University
Morris, Tracie (2005) Assistant Professor; Ph.D.; New York University
Most, Sheila (1971) Professor; Ph.D.; Northwestern University
Motschall, Melissa (1995) Professor; Ph.D.; Wayne State University
Neff, Heather (1993) Professor; Ph.D.; University of Zurich
Neufeld, Christine (2003) Assistant Professor; Ph.D.; McGill University
Norton, Alexandra M. (1989) Professor; Ph.D.; University of California-Berkeley
Parker, Jeff (2004) Assistant Professor; M.F.A.; Syracuse University
Pinson, James (1990) Professor; Ph.D.; University of Missouri-Columbia
Schlagheck, Carol (1995) Professor; Ph.D.; Bowling Green University
Seely, Daniel T. (1988) Professor; Ph.D.; University of Massachusetts at Amherst
Shichtman, Martin B. (1984) Professor; Ph.D.; University of Iowa
Simmons, Charles (1997) Professor; J.D.; Georgetown

Sipe, Rebecca (1997) Associate Professor; Ed.D.; Boston University
Tracey, Christine (2005) Assistant Professor; Ph.D.; Rensselaer Polytechnic Institute
Tucker, William (1993) Professor; Ph.D.; Boston College
Wannamaker, Annette (2005) Assistant Professor; Ph.D.; Bowling Green University
Wojcik-Andrews, Ian (1990) Professor; Ph.D.; University of Connecticut

Geography and Geology

Bradley, Michael D. (1995) Associate Professor; Ph.D.; University of Utah
Cherem, Gabriel J. (1987) Professor; Ph.D.; University of Michigan
Clark, Christine (2002) Assistant Professor; Ph.D.; University of Manitoba, Canada
Jones, Robert A. (2003) Assistant Professor; Ph.D.; Portland State University
Kasenow, Michael (1989) Professor; Ph.D.; Western Michigan University
Ligibel, Ted (1991) Professor; Ph.D.; Bowling Green State University
LoDuca, Steven T. (1992) Professor; Ph.D.; University of Rochester
Mayda, Chris (1999) Associate Professor; Ph.D.; University of Southern California
Nazzaro, Andrew (1969) Professor; Ph.D.; Michigan State University
Poli, Serena M. (2000) Associate Professor; Ph.D.; University of Padova, Italy
Rutherford, Sandra (2003) Assistant Professor; Ph.D.; University of Western Ontario, Canada
Semple, Hugh (2002) Assistant Professor; Ph.D.; University of Manitoba, Canada
Sickels-Taves, Lauren (1998) Associate Professor; Ph.D.; University of Edinburgh
Tyler, Norman R. (1990) Professor; Ph.D.; University of Michigan
Welsh, William (2005) Assistant Professor; Ph.D.; UNC-Chapel Hill
Xie, Yichun (1994) Professor; Ph.D.; State University of New York-Buffalo

Health Promotion and Human Performance

Bedford, Eddie (1989) Assistant Professor; M.S.; University of Wisconsin
Bretting, Michael (1993) Associate Professor and Associate Dean, College of Education; Ph.D.; University of Maryland
Chiasson, Victor (1991) Assistant Professor; M.A.; Central Michigan University
Colon, Geoffrey (1998) Associate Professor; Ph.D.; Michigan State University
Conley, Kathleen (1999) Professor; Ph.D.; Southern Illinois University at Carbondale
Cowdery, Joan (2006) Assistant Professor; Ph.D.; University of Alabama
Faust, Roberta (2000) Assistant Professor; Ph.D.; Ohio State University
Johnson, Jodi (1998) Assistant Professor, M.S.; University of Florida
Karshin, Christine M. (2001) Associate Professor; Ph.D.; The Pennsylvania State University
Levine, Shel (1999) Associate Professor; M.S., M.S.A., C.E.S.; Syracuse University
McCarthy, Susan K. (2001) Associate Professor; Ph.D.; University of Toledo
McGregor, Stephen (2000) Associate Professor; Ph.D.; University of Toledo
Moreno, A. (2004) Assistant Professor; Ph.D.; Michigan State University
Moyer, Steve W. (1988) Professor; Ed.D.; Temple University
Nair, Muralidaran (2000) Associate Professor; Ph.D.; University of Virginia
Paciorek, Michael (1981) Professor; Ph.D.; Peabody College of Vanderbilt University
Pendleton, Sharon Y. (1988) Instructor; M.A.; Oklahoma University
Ricciardo, Jerry (1988) Associate Professor; Ph.D.; Texas A&M University
Riemer, Brenda (2004) Assistant Professor; Ph.D.; Michigan State University
Woodiel, Kay (1998) Assistant Professor; Ph.D.; University of Arkansas
Zelnik-Geldys, Suzanne Marie (1990) Assistant Professor; M.A.; University of Pittsburgh

Health Sciences

Brooks, Judith (1999) Associate Professor; Ph.D.; Oklahoma State University
Clifford, David (1986) Professor; Ph.D.; University of Michigan
Croxall, Colleen L. (1996) Associate Professor; Ph.D.; Wayne State University
Douglass, Richard (1987) Professor; Ph.D.; University of Michigan
Francis-Connolly, Elizabeth (1991) Professor; Ph.D.; University of Michigan
Gossett, Andrea (2008) Assistant Professor; OTD; University of Illinois, Chicago
Hammerberg, Gary (1984) Assistant Professor; Ed.D.; Western Michigan University
Hansen, Ruth (1976) Professor Emeritus; Ph.D.; Wayne State University
Haque, Rubina (2006) Assistant Professor; Ph.D.; Wayne State University
Howells, Valerie (1998) Professor; Ph.D.; Cambridge Graduate School of Psychology
Lemerand, Pamela (2005) Assistant Professor; Ph.D.; University of Michigan
Liepa, George U. (1995) Professor; Ph.D.; Iowa State University
Mistry, Anahita (2005) Assistant Professor; Ph.D.; University of Hyderabad, India.
Olson, Judith (1991) Professor Emeritus; Ph.D.; Wayne State University
Rainville, Alice Jo (1998) Professor; Ph.D.; University of Texas-Houston
Reeves, Gretchen D. (2001) Associate Professor; Ph.D.; University of Michigan
Shetron-Rama, Lynne (2007) Assistant Professor; Ph.D.; Wayne State University
Silverman, Deborah W. (1979) Assistant Professor; M.S.; University of Cincinnati
Sonstein, Stephen (1984) Professor; Ph.D.; Hahneman Medical College
Thomas, David (1997) Associate Professor; Ed.D.; Temple University
Walsh, Pamela (2005) Assistant Professor; M.A.; Wayne State University
Yaczak, Jayne (2008) Instructor; MS, Eastern Michigan University

History and Philosophy

Bruya, Brian (2004) Assistant Professor; Ph.D.; University of Hawaii
Cassar, George H. (1968) Professor; Ph.D.; McGill University
Chamberlain, Kathleen P. (2001) Associate Professor; Ph.D.; University of New Mexico
Citino, Robert (1991) Professor; Ph.D.; Indiana University
Crouch, Margaret (1987) Professor; Ph.D.; University of Minnesota
Delph, Ronald (1993) Associate Professor; Ph.D.; University of Michigan
Dieterle, Jill Marie (1998) Associate Professor; Ph.D.; Ohio State University
Egge, James (2002) Associate Professor; Ph.D.; University of Chicago
Engwenyu, Joseph (1994) Instructor; ABD; University of Dalhousie
Graves, Pamela (1989) Associate Professor; Ph.D.; University of Pittsburgh
Higbee, Mark (1995) Professor; Ph.D.; Columbia University
Holoka, James P. (1974) Professor; Ph.D.; University of Michigan
Homel, Michael W. (1970) Professor; Ph.D.; University of Chicago
Jones, Michael T. (1973) Professor; Ph.D.; Ohio State University
Long, Roger D. (1990) Professor; Ph.D.; University of California
McCurdy, John (2004) Assistant Professor; Ph.D.; Washington University
Mehuron, Kate (1989) Professor; Ph.D.; Vanderbilt University
Moss, Walter G. (1970) Professor; Ph.D.; Georgetown University
Murcher, Stephen (2003) Assistant Professor; Ph.D.; University of Michigan
Nation, Richard F. (2001) Associate Professor; Ph.D.; University of Michigan
Nelson, Gersham A. (1997) Professor; Ph.D.; University of Illinois-Chicago
Olwell, Russell B. (1999) Associate Professor; Ph.D.; Massachusetts Institute of Technology
Pritchard, Linda K. (2002) Professor; Ph.D.; University of Pittsburgh
Ramold, Steven (1999) Assistant Professor; Ph.D.; University of Nebraska
Reed, Michael H. (1987) Professor; Ph.D.; University of Minnesota
Schmitz, Philip C. (1993) Associate Professor; Ph.D.; University of Michigan
Schott, Linda K. (2003) Professor; Ph.D.; Stanford University

Vinyard, JoEllen (1986) Professor; Ph.D.; University of Michigan
Watson, Paula Lori (2004) Assistant Professor; Ph.D.; University of Illinois-Chicago

Leadership and Counseling

Ametrano, Irene M. (1981) Professor; Ed.D.; Rutgers University
Anderson, David (1999) Associate Professor; Ed.D.; University of Michigan
Barott, James E. (1998) Associate Professor; Ph.D.; University of California-Santa Barbara
Berry, James E. (1991) Professor; Ed.D.; University of Missouri-Columbia
Bleyaert, Barbara A. (2005) Assistant Professor; Ed.D.; Eastern Michigan University
Broughton, Elizabeth (1997) Associate Professor; Ed.D.; University of Florida
Burton, Ella (2000) Associate Professor; Ed.D.; Wayne State University
Callaway, Yvonne L. (1992) Professor; Ph.D.; Wayne State University
Choudhuri, Devika (2001) Associate Professor; Ph.D.; Syracuse University
Dugger, Suzanne M. (1998) Associate Professor; Ed.D.; Western Michigan University
Flowers, Ronald D. (2006) Assistant Professor; Ed.D.; Eastern Michigan University
Francis, Perry (2005) Associate Professor; EdD; University of Northern Colorado
Marx, Gary (2005) Assistant Professor; EdD; Wayne State University
Parfitt, Diane (2006) Assistant Professor; Ph.D.; University of Toledo
Price, William J. (1991) Professor; Ph.D.; Michigan State University
Stickel, Sue A. (1991) Professor; Ph.D.; University of Wyoming
Tack, Martha W. (1990) Professor; Ph.D.; University of Alabama
Tracy, Jaclynn C. (1992) Professor and Department Head; Ph.D.; Michigan State University
Williamson, Ronald D. (2001) Professor; Ed.D.; Eastern Michigan University
Zamani-Gallaher, Eboni M. (2001) Associate Professor; Ph.D.; University of Illinois

Management

Banerji, Kunal (1992) Assistant Professor, Ph.D.; University of Kentucky
Blanchard, Nick P. (1979) Professor; Ph.D.; Wayne State University
Bush-Bacelis, Jean (1984) Professor; Ph.D.; Wayne State University
Camp, Richaard R. (1979) Professor; Ph.D.; Wayne State University
Chowdry, Pradeep (1980) Associate Professor; Ph.D.; University of Arkansas
Chowdhury, Sanjib (1999) Associate Professor; Ph.D.; University of North Texas
Endres, Megan (1998) Assistant Professor; Ph.D.; University of North Texas
Frye, Crissie M. (2000) Assistant Professor; Ph.D.; University of Iowa
Hill, Raymond E. (1978) Professor; Ph.D.; Purdue University
Huszczo, Gregory E. (1978) Professor; Ph.D.; Michigan State University
Isenhour, Linda (2004) Assistant Professor; University of Central Florida
McEnery, Jean M. (1980) Professor; Ph.D.; Wayne State University
Milner, Morgan (2004) Assistant Professor; Ph.D.; Michigan State University
Newell, Stephanie E. (1994) Associate Professor; Ph.D.; University of Massachusetts-Amherst
Schulz, Eric (2000) Associate Professor; Ph.D.; Rutgers University
Tanguay, Denise (1986) Professor; Ph.D.; University of Michigan
Tubbs, Stewart L. (1986) Professor; Ph.D.; University of Kansas
Victor, David A. (1985) Professor; Ph.D.; University of Michigan
Vielhaber, Mary E. (1977) Professor; Ph.D.; University of Michigan
Wagner-Marsh, Fraya C. (1982) Professor and Department Head; D.B.A.; Memphis State University
Waltman, John L. (1985) Professor; Ph.D.; University of Texas
Wong, Diana (1999) Associate Professor; Ph.D.; University of Massachusetts

Marketing

Allbright, David E. (2005) Assistant Professor; Ph.D.; University of Georgia
Barton, Daryl L. (1975) Associate Professor; J.D.; University of Michigan
Chao, Paul (2004) Professor; Ph.D.; University of Washington
Davis, Judy (1993) Professor; Ph.D.; Michigan State University
Defebaugh, Sandra J. (1987) Associate Professor; J.D.; Detroit College of Law
Edwards, Elizabeth A. (1992) Professor; Ph.D.; University of Michigan
Fullerton, Sam (1982) Professor; Ph.D.; Michigan State University
McCullough, Tammy M. (1994) Professor; Ph.D.; University of Washington
McSurely, Hugh B. (1981) Professor; Ph.D.; Syracuse University
Merz, G. Russell (1982) Professor; Ph.D.; Michigan State University
Neuhaus, Colin F. (1969) Professor; Ph.D.; University of Michigan
Percy, Dawn H. (2002) Assistant Professor; Ph.D.; Florida State University
Persinger, Elif (2002) Assistant Professor; Ph.D.; Michigan State University
Sachdev, Harash (1991) Professor; Ph.D.; Georgia State University
Sasser, Sheila L. (2006) Assistant Professor; Ph.D.; Wayne State University
Sauber, Matthew H. (1990) Professor; Ph.D.; University of Texas
Victor, Gary M. (1974) Professor; J.D.; University of Toledo
Zboja, James (2006) Assistant Professor; Ph.D.; Florida State University

Mathematics

Ahlbrandt, Gisela E. (1984) Professor; Ph.D.; University of Illinois-Chicago
Al-Khafaji, Mahmoud (1983) Assistant Professor; Ph.D.; New Mexico State University
Britton, Barbara (1997) Associate Professor; Ph.D.; Illinois State University
Calin, Ovidiu (2002) Associate Professor; Ph.D.; University of Toronto
Caniglia, Joanne (1994) Professor; Ph.D.; Kent State University
Carroll, Timothy B. (1986) Professor; Ph.D.; Western Michigan University
Chattopadhyay, Rita (1984) Professor; Ph.D.; University of South Florida
Chu, Shenghui (1986) Professor; Ph.D.; University of Michigan
Curran, John (2004) Assistant Professor; Ph.D.; Brown University
Folk, David B. (1987) Professor; Ph.D.; University of Michigan
Gardiner, Christopher J. (1984) Professor; Ph.D.; University of Illinois-Urbana-Champaign
Ginther, John L. (1965) Professor; Ph.D.; University of Illinois
Green, Geraldine A. (1989) Professor; Ph.D.; University of Michigan
Han, Xiaoxu (2005) Assistant Professor; Ph.D.; University of Iowa
Howard, Paul E. (1970) Professor; Ph.D.; University of Michigan
Jones, Joan Cohen (1998) Professor; Ph.D.; Georgia State University
Leapard, Barbara (2000) Associate Professor; Ph.D.; University of Toledo
Liu, Jiuqiang (1993) Professor; Ph.D.; Western Michigan University
Parry, Walter (1984) Professor; Ph.D.; University of California-Berkeley
Ramanathan, Jayakumar (1990) Professor; Ph.D.; University of Chicago
Rescorla, Kim L. (1985) Professor; Ph.D.; University of Utah
Ross, Andrew (2006) Assistant Professor; Ph.D.; University of California-Berkeley
Shapla, Tanweer (2006) Assistant Professor; Ph.D.; Bowling Green State University
Shiskowski, Kenneth M. (1983) Professor; Ph.D.; Lehigh University
Tayeh, Carla (1989) Professor; Ph.D.; Southern Illinois University
Wang, Bingwu (2002) Assistant Professor; Ph.D.; Wayne State University
Warren, Bette (1984) Professor and Department Head; Ph.D.; Indiana University

Music and Dance

Amos, Charles N. (1975) Professor; Ph.D.; University of Iowa
Babcock, Donald J. (2001) Assistant Professor; D.M.A.; Michigan State University
Boerma, Scott (2004) Assistant Professor; M.M.; University of Michigan
Brandon, Ernest M. (1975) Associate Professor; M.M.; Northwestern University
Cole-Luevano, Kimberly (1996) Associate Professor; D.M.A.; Michigan State University
Dorsey, John F. (1997) Assistant Professor; M.M.; University of Michigan
Eggers, Carter J. (1967) Professor; M.M.; Ithaca College
Foster, Daniel L. (1987) Associate Professor; M.M.; University of Michigan
Gajda, Anne B. (1979) Professor; M.M.; University of Michigan
Hornbach, Christina (2005) Assistant Professor; Ph.D.; Michigan State University
Iannaccone, Anthony J. (1971) Professor; Ph.D.; Eastman School of Music University of Rochester
Jerome, Sherry (1999) Assistant Professor; M.F.A.; Texas Christian University
Kirkland, Glenda E. (1973) Professor; M.A.; Eastern Michigan University
McGuire, Michael G. (1983) Professor; M.M.; State University of New York
McNamara, Joann (1986) Professor; Ph.D.; Texas Women's University
Meretta, Kristy L. (1987) Professor; M.A.; University of Michigan
Miller, Kevin (1991) Associate Professor; M.M.; University of Michigan
O'Brien-Pedersen, Julianne (1998) Assistant Professor; M.F.A.; Ohio State University
Patrick, Louise Rose (1990) Professor; Ph.D.; Michigan State University
Pedersen, Garik (1989) Professor; D.M.A.; University of Iowa
Pierce, David (1990) Professor; D.M.A.; University of Illinois-Urbana-Champaign
Plank, Max E. (1968) Professor; D.M.A.; University of Michigan
Prince, J. Whitney (1981) Professor; D.M.A.; University of Colorado
Ruitter-Feenstra, Pamela (1996) Associate Professor; D.M.A.; University of Iowa
Saker, Marilyn N. (1993) Associate Professor; Ph.D.; University of Wisconsin-Madison
Schoenhals, Joel (2001) Assistant Professor; D.M.A.; Eastman School of Music University of Rochester
Simmons, Phil (2006) Assistant Professor; M.F.A.; University of Georgia
Smith, John R. (1969) Assistant Professor; M.A.; Eastern Michigan University
Stone, Julie (1994) Associate Professor; D.M.A.; University of Maryland-College Park
Waymire, Mark (2006) Assistant Professor; M.M.; Sam Houston State University
Winder, Diane (1988) Professor; D.M.; Florida State University
Woike, David O. (1990) Professor and Department Head; Ph.D.; Ohio State University
Zirk, Willard D. (1981) Professor; D.M.A.; University of Michigan

Nursing

Beard, Betty J. (1976) Professor; Ph.D., R.N.; University of Michigan
Berry, Linda M. (1994) Associate Professor; Ph.D., R.N.; University of Michigan
Bigelow, April (2004) Assistant Professor; M.S.N., R.N.; University of Michigan
Branson-Hillegas, Kathleen (1981) R.N./B.S.N. Coordinator, Associate Professor; M.S.; University of Michigan
Ervin, Naomi E. (2006) Professor and Director; Ph.D., R.N., A.P.R.N., B.C., F.A.A.N.; University of Michigan
Fox, Diane (2004) Assistant Professor; M.S.N., R.N.; Eastern Michigan University
Kao, Tsui-Sui (2006) Assistant Professor; M.S.N., R.N.; University of Michigan
Lan, Virginia (1997) Associate Professor; Ph.D., R.N.; University of Michigan
Nelson, Sandra (1990) Associate Professor; Ph.D., A.P.R.N., BC.; Michigan State University
Pfoutz, Susan (1998) Professor; Ph.D., R.N.; University of Michigan
Riley, Janice (2002) Lecturer; M.S., R.N.; Eastern Michigan University
Rubinfeld, Marlene G. (1986) Associate Professor; R.N., M.S.; Ohio State University
Scheffer, Barbara K. (1976) Professor; Ed.D., R.N.; Eastern Michigan University
Tanicala, Martha (1999) Associate Professor; Ed.D., R.N.; Bowling Green University
Trewn, Peggy (1998) Associate Professor; Ph.D., R.N.; Wayne State University
Williams, Michael (1998) Associate Professor; M.S.N., R.N.; Grand Valley State University
Wilson, Lorraine (1988) Professor; Ph.D., R.N.; Wayne State University

Wiswell, Lisa (2005) Assistant Professor; Ed.D., R.N.; University of California
Wu, Tsu-Yin Stephanie (1999) Associate Professor; Ph.D., R.N.; University of Michigan

Physics and Astronomy

Behringer, Ernest R. (1995) Associate Professor; Ph.D.; Cornell University
Carroll, James J., III (1998) Associate Professor; Ph.D.; West Virginia University
Jacobs, Diane A. (1985) Professor; Ph.D.; University of Texas-Austin
Koehn, Patrick L. (2005) Assistant Professor; Ph.D.; University of Michigan.
Oakes, Alexandria (1987) Professor and Department Head; Ph.D.; Lehigh University
Porter, James C. (1967) Professor; Ph.D.; Purdue University
Sharma, Natthi L. (1986) Professor; Ph.D.; Ohio University
Sheerin, James P. (1991) Professor; Ph.D.; University of Michigan
Shen, Weidian C. (1991) Professor; Ph.D.; Wayne State University
Thomsen, J. Marshall (1986) Professor; Ph.D.; Michigan State University
Trochet, Daniel P. (1968) Professor; Ph.D.; University of Michigan
Wylo, Bonnie (1988) Professor; Ph.D.; University of Michigan

Political Science

Bernstein, Jeffrey (1997) Assistant Professor; Ph.D.; University of Michigan
Carroll, Bruce (2006) Assistant Professor; Ph.D.; University of Houston
Krause, Volker (2005) Assistant Professor; Ph.D.; University of Michigan
Kullberg, Judith (2004) Assistant Professor; Ph.D.; University of Michigan
Longworth, Rhonda (1994) Associate Professor and Interim Assistant Vice President for Academic Affairs; Ph.D.; University of Iowa
Lottie, Adrian J. (1992) Associate Professor; Ph.D.; Wayne State University
Martin, Elaine F. (1984) Professor; Ph.D.; University of Oklahoma
Monsma, Charles (1971) Professor; Ph.D.; University of Michigan
Ohren, Joseph F. (1985) Professor; Ph.D.; Syracuse University
Petrescu, Claudia (2002) Assistant Professor; Ph.D.; University of Pittsburgh
Pfister, James Wilber (1970) Associate Professor; Ph.D.; University of Michigan
Pyle, Barry (1997) Associate Professor; Ph.D.; University of Missouri-St. Louis
Rosenfeld, Raymond A. (1983) Professor and Department Head; Ph.D.; Emory University
Sabki, Mohammad Hisham (1969) Professor; Ph.D.; Indiana University
Scott, Joanna V. (1990) Professor; Ph.D.; University of Strathclyde, Scotland
Sidlow, Edward (1995) Professor; Ph.D. Ohio State University
Sneed, Bethany (2004) Assistant Professor; Ph.D.; Wayne State University
Stahler-Sholk, Richard (1997) Associate Professor; Ph.D. University of California-Berkeley
Zhao, Zhirong "Jerry" (2005) Assistant Professor; Ph.D.; University of Georgia

Psychology

Bonem, Marilyn K. (1987) Associate Professor; Ph.D.; Utah State University
Byrd, Michelle R. (2002) Assistant Professor; Ph.D.; University of Nevada at Reno
Delprato, Dennis J. (1969) Professor; Ph.D.; Michigan State University
Fish, Barry A. (1970) Professor; Ph.D.; Wayne State University
Freedman-Doan, Carol R. (1995) Professor; Ph.D.; Wayne State University
Gordon, Norman G. (1975) Professor; Ph.D.; Wayne State University
Hodges, Kay V. (1989) Professor; Ph.D.; University of Maryland
Hoodin, Flora (1998) Associate Professor; Ph.D.; Wayne State University
Huprich, Steven (2004) Assistant Professor; Ph.D.; University of North Carolina at Greensborough

Huth-Bocks, Alissa (2005) Assistant Professor; Ph.D.; Michigan State University
Jeffersom, Stephen (2006) Assistant Professor; Ph.D.; Michigan State University
Knapp, John R. (1971) Professor; Ph.D.; University of Denver
Koch, Ellen (2003) Assistant Professor; Ph.D.; Western Michigan University
Lajiness-O'Neill, Renee (2005) Assistant Professor; Ph.D.; Brigham Young University
Lauterbach, Dean (2001) Professor; Ph.D.; Purdue University
McManus, John L. (1981) Associate Professor; Ph.D.; Ohio State University
Penix, Tamara (2006) Assistant Professor; Ph.D.; University of Nevada at Reno
Rusiniak, Kenneth W. (1981) Professor; Ph.D.; University of California at Los Angeles
Saules, Karen K. (2001) Professor; Ph.D.; Wayne State University
Todd, James T. (1990) Professor; Ph.D.; University of Kansas
Von Kluge, Silvia (1990) Professor; Ph.D.; Michigan State University
Westman, Alida S. (1972) Professor; Ph.D.; Cornell University
Witkow, Melissa (2006) Assistant Professor; Ph.D.; University of California at Los Angeles

Social Work

Bombyk, Marti (1996) Professor; Ph.D.; University of Michigan
Brown-Chappell, Betty (1996) Associate Professor; Ph.D.; University of Chicago
Davis, Laura (1994) Associate Professor; Ph.D.; Cornell University
Gray, Sylvia Sims (1988) Associate Professor; Ph.D.; Wayne State University
Gunther, John (2001) Professor; Ph.D.; Tulane University (1979)
Krajewski-Jaime, Elvia (1985) Professor; Ph.D.; University of Texas
Kurtz, Linda Ferris (1989) Professor; Ph.D.; University of Georgia
Lewis, Ronald (1992) Professor; Ph.D.; University of Denver
Loppnow, Donald (1976) Professor and Senior Executive for Institutional Effectiveness; Ph.D.; University of Michigan
Massie, Enos (1989) Associate Professor; Ph.D.; University of Michigan
Mills, Crystal (1992) Professor; Ph.D.; University of Michigan
Nybell, Lynn (1983) Associate Professor; Ph.D.; M.S.W.; University of Michigan
Ragg, Mark (1996) Associate Professor; Ph.D.; Case Western Reserve
Schuster, Elizabeth Oates (1986) Professor; Ph.D.; University of Michigan
Smith, Harrison Y. (1994) Professor; Ph.D.; University of Denver
Wedenoja, Marilyn (1992) Professor; Ph.D.; University of Michigan
Weinberg, Sylvia (1996) Associate Professor; Ph.D.; University of Texas
Ziefert, Marjorie (1981) Professor and Department Head; M.S.W.; Columbia University

Sociology, Anthropology and Criminology

Adams, Anthony Troy (1985) Associate Professor; Ph.D.; University of Michigan
Ajrouch, Kristine (2000) Assistant Professor; Ph.D.; Wayne State University
Barak, Gregg (1991) Professor; Ph.D.; University of California-Berkley
Cao, Liqun (1994) Professor; Ph.D.; University of Cincinnati
Cerroni-Long, Liza (1987) Professor; Ph.D.; University of California at Los Angeles
Corsianos, Marilyn (2002) Assistant Professor; Ph.D.; York University
Kern, Roger (1998) Assistant Professor; Ph.D.; Vanderbilt University
Leighton, Paul (1997) Associate Professor; Ph.D.; American University
Moaddel, Mansoor (1987) Professor; Ph.D.; University of Wisconsin
Orange, Robert M. (2001) Assistant Professor; Ph.D.; University of Texas
Reiling, Denise (2000) Assistant Professor; Ph.D. Michigan State University
Richardson, Barbara (1991) Professor; Ph.D.; Cornell University
Simoes, Solange (2006) Assistant Professor; Ph.D. University of London
Sinclair, Karen (1976) Professor; Ph.D.; Brown University

Tomaszewski, E. Andreas (2001) Assistant Professor; Ph. D.; Carleton University
Weinstein, Jay (1986) Professor and Interim Department Head; Ph.D.; University of Illinois
Westrum, Ronald (1972) Professor; Ph.D.; University of Chicago

Special Education

Burton-Hoyle, Sally (2006) Assistant Professor; Ed.D; University of Idaho
Cameron, S. (2004) Assistant Professor; J.D.; University of Toledo
Carney, Karen (2002) Assistant Professor; Ph.D.; Arizona State University
Cupples, Willie P., Jr. (1994) Professor; Ph.D.; Northwestern University
Doster, Brenda (2006) Assistant Professor, Ph.D.; University of Michigan
Ginsberg, Sarah (2002) Assistant Professor; Ed.D; Eastern Michigan University
Gorenflo, Carole (1988) Professor; Ph.D.; Michigan State University
Hoodin, Ronald (1988) Professor; Ph.D.; Pennsylvania State University
Hric, Kathleen (2005) Assistant Professor; Ph.D.; University of Michigan
Koh, Myung-Sook (2005) Assistant Professor; Ph.D.; University of Memphis
Lee, Lidia (2002) Associate Professor; Ph.D.; Indiana University
Li, Tsai-Ping (Alicia) (1995) Assistant Professor; Ed.D.; University of Northern Colorado
McGinnis, Jacqueline (2002) Assistant Professor; Ph.D.; University of Nebraska-Lincoln
Orr, A. (2004) Assistant Professor; Ed.D.; University of Michigan
Parker, Kathlyn (1999) Assistant Professor; Ph.D.; Teacher's College- Columbia University
Polter, L. (2004) Assistant Professor; Sp.A.; Eastern Michigan University
Rocklage, Lynne A. (1991) Professor and Department Head; Ph.D.; Southern Illinois University
Schulte, K. (2004) Assistant Professor, Sp.A.; Eastern Michigan University
Smith, P. (2004) Assistant Professor; Ed.D.; University of Vermont
Stevens, Lizbeth (1998) Associate Professor; Ph.D.; Wayne State University
Stiefel, G. (2004) Assistant Professor; Ph.D.; University of Michigan
Tonkovich, John (2000) Associate Professor; Ph.D.; University of Tennessee

Teacher Education

Baiyee, Martha (1998) Associate Professor; Ph.D.; Virginia Tech
Beauvais, Kathleen (1991) Professor; Ph.D.; University of Michigan
Bednar, Anne (1991) Professor; Ed.D.; Indiana University
Bennion, Donald (1993) Professor and Department Head; Ph.D.; Ohio University
Bigler, Mary (1977) Professor; Ph.D.; University of Michigan
Bishop, J. Joe (2002) Associate Professor; Ph.D.; University of Iowa
Burke, Wendy (2000) Associate Professor; Ph.D.; University of Illinois at Urbana-Champaign
Burns, Carolyn M. (2001) Assistant Professor; M.A.; University of Michigan
Carter, Carolyn J. (2001) Associate Professor; Ph.D.; Wayne State University
Copeland, Nancy (2002) Assistant Professor; MBE; Wayne State University
Daisey, Peggy (1994) Professor; Ph.D.; Kansas State University
Dichtelmiller, Margo L. (2000) Associate Professor; Ph.D; University of Michigan
Dokes-Brown, Marion A. (2001) Associate Professor; Ph.D.; Texas Women's University
Finch, Carolyn (1999) Professor; Ph.D.; University of Maryland
Gordon, Jane (1992) Professor; Ph.D.; University of Miami
Gould, Caroline (1997) Assistant Professor; M.A.; University of Michigan
Grossman, Sue (1995) Associate Professor; Ph.D.; Michigan State University
Gwaltney, Thomas (1964) Professor; Ph.D.; Southern Illinois University
Harmon, Deborah (2000) Assistant Professor; Ph.D.; Colorado State University
Huyvaert, Sarah (1986) Professor; Ed.D.; Indiana University
Johnson, Elizabeth (1994) Associate Professor; Ed.D.; Wayne State University

Jones, Sylvia (1992) Professor; Ph.D.; University of Michigan
Jones, Toni Stokes (1999) Associate Professor; Ph.D.; Wayne State University
Jose-Kampfner, Cristina (1991) Professor; Ph.D.; University of Michigan
Kinney-Sedgwick, Martha (1987) Associate Professor; Ph.D.; University of Iowa
Langer, Georgea (1985) Professor; Ph.D.; Stanford University
Lewis-White, Linda (1996) Professor; Ph.D.; East Texas State University
Lowenstein, Ethan (2002) Assistant Professor; Ph.D.; New York University
Margerum-Leys, Jon (2000) Associate Professor; Ph.D.; University of Michigan
Martusewicz, Rebecca (1988) Professor; Ed.D.; University of Rochester
Maylone, Nelson (2000) Assistant Professor; Ed.D.; Eastern Michigan University
Moore-Hart, Margaret (1988) Professor; Ph.D.; University of South Florida
Nelson, Olga (1991) Professor; Ph.D.; Kent State University
Paciorek, Karen (1981) Professor; Ph.D.; Peabody College of Vanderbilt University
Pietig, Jeanne (1988) Professor; Ph.D.; University of Minnesota
Pokay, Patricia (1988) Professor; Ph.D.; University of Michigan
Polakow, Valerie (1988) Professor; Ph.D.; University of Michigan
Quilter, Shawn (1996) Associate Professor and Associate Dean of Academic Accountability, College of Education; Ph.D.; University of South Carolina
Rearick, Mary (2001) Associate Professor; Ed.D.; University of Massachusetts
Shellhorn, Bette (2005) Assistant Professor Ph.D. Michigan State
Skaggs, Kathryn (1997) Assistant Professor; M.S.; Peabody College of Vanderbilt University
Starko, Alane (1986) Professor; Ph.D.; University of Connecticut
Williams-Boyd, Patricia (1996) Associate Professor; Ed.D.; University of Kansas

Technology Studies

Adamski, Anthony (1997) Associate Professor; Ph.D.; Wayne State University
Becker, Pamela (2004) Assistant Professor; M.L.S.; Eastern Michigan University
Bellamy, Al (1996) Professor; Ph.D.; Purdue University
Boone, Morrell D. (2001) Professor and Interim Dean Ph.D.; Syracuse University
Boyless, John E. (1977) Associate Professor and Interim Director; M.A.; Eastern Michigan University
Buchanan, Polly (1980) Professor and Interim Associate Dean of the College of Technology; Ph.D.; University of Michigan
Cardon, Phillip (1999) Associate Professor; Ph.D.; Ohio State University
Dugger, John C. (2001) Professor; Ph.D.; Texas A&M University
Fulkert, Ronald (1997) Associate Professor; Ph.D.; University of Toledo
Ghosh, Subhas (2002) Professor; Ph.D.; University of Manchester, England
Gore, David K. (1983) Assistant Professor; M.S.; Eastern Illinois University
Gregory, Susan (2002) Professor; Ed.D.; Temple University
Haddad, Carol (1993) Professor; Ph.D.; University of Michigan
Harbour, Nancy (2005) Assistant Professor, Ph.D.; University of Detroit
Jogaratnam, Giri D. (1996) Professor; Ph.D.; Virginia Polytechnic Institute and State University
Kalian, Seema (2004) Associate Professor; Ph.D.; Michigan State University
Kinczkowski, Linda (2000) Associate Professor, Ph.D.; Wayne State University
Kustron, Konnie G. (1994) Professor; J.D.; Detroit College of Law
Kuwik, Paul D. (1980) Professor; Ph.D.; Ohio State University
Lawver, Gerald V. (1987) Associate Professor; Sp.A.; Eastern Michigan University
Leapard, David W. (1992) Professor; Ph.D.; University of South Carolina
Majeske, Paul (1997) Associate Professor; M.L.S.; Eastern Michigan University
Park, Jaehong (2005) Assistant Professor; Ph.D.; George Mason University
Pilato, Denise (2002) Professor; Ph.D.; Michigan State University
Preston, John M. (1983) Associate Professor; M.S.; Eastern Michigan University
Remp, Ann M. (1984) Professor; Ph.D.; Michigan State University
Tartalone, Phillip (2005) Assistant Professor; Ph.D.; Michigan State University

Teehan, Robert (2006) Assistant Professor; Ph.D.; Capella University
Van Der Velde, Robert (2002) Professor; J.D.; Cleveland-Marshall College of Law
Welker, Kelly (1999) Associate Professor; Ph.D.; Florida State University
White, Darcelle D. (1995) Professor; J.D.; University of Detroit

Women's and Gender Studies

Haddad, Carol (1993) Professor and Interim Director; Ph.D.; University of Michigan
Mehuron, Kate (1989) Professor and Academic Adviser; Ph.D.; Vanderbilt University
Simoës, Solange (2006) Assistant Professor; Ph.D. University of London

World Languages

Aebersold, Jo Ann (1984) Professor; Ph.D.; University of Michigan
Cere, Ronald C. (1985) Professor; Ph.D.; New York University
Cline, William J. (1970) Professor; Ph. D.; State University of New York
Cullen, Thomas J. (1994) Professor; Ph.D.; Klagenfurt University
Damiano, Carla A. (2001) Assistant Professor; Ph.D.; University of Oregon
Day, Catherine E. (1982) Professor; Ph.D.; University of Illinois
Dugan, Sanford J. (1974) Professor; Ph.D.; Washington University, Missouri
Holoka, James P. (1974) Professor; Ph.D.; University of Michigan
Illingworth-Rico, Alfonso (1994) Associate Professor; Ph.D.; University of Arizona
Kirby, Steven D. (1991) Professor; Ph.D.; University of Kentucky
Kubota, Sayuri (2005) Assistant Professor; Ph.D.; Purdue University
Mihaly, Deanna (2005) Assistant Professor; Ph.D.; Tulane University
Morgan, Elisabeth (1991) Professor and Department Head; Ph.D.; University of New York at Buffalo
Nerenz, Anne G. (1986) Professor; Ph.D.; University of Wisconsin
Oketani-Lobbezoo, Hitomi (1996) Associate Professor; Ph.D.; University of Toronto
Palmer, Benjamin W. (1970) Professor; Ph.D.; Northwestern University
Peden, Genevieve (1992) Professor; Ph.D.; Michigan State University
Popko, Alexander Jeffrey (2005) Assistant Professor; Ph.D.; University of Northern Arizona
Tabuse, Motoko (1992) Professor; Ph.D.; Ohio State University
Vosteen, Thomas R. (1991) Professor; Ph.D.; University of Iowa
Voght, Geoffrey M. (1971) Professor; Ph.D.; University of Michigan
Wang, Wendy (1999) Associate Professor; Ph.D.; University of Toronto
Zinggeler, Margrit (1999) Associate Professor; Ph.D.; University of Minnesota

Course Prefixes

A department prefix or code is used to identify courses offered by Eastern Michigan University:

Academic Affairs Division	UNIV
Creative Inquiry Experience	CSIE
Honors	HNRS
Study Abroad	SABR
College of Arts and Sciences	CASI
African American Studies	AAS
Art	ART
Biology	BIOL
Botany	BOTN
Elementary Science	ESCI
Microbiology	MICR
Zoology	ZOOL
Chemistry	CHEM
Communication and Theatre Arts	
Activity	CTAA
Communication	CTAC
Interpretation/Performance Studies	CTAO
Theatre and Educational Drama	CTAR
Fundamentals of Speech	CTAS
Telecommunications and Film	CTAT
Computer Science	COSC
Economics	ECON
English Language and Literature	
Creative Writing	CRTW
English Composition	ENGL
Journalism and Public Relations	JRNL
Linguistics	LING
Literature	LITR
Geography and Geology	
Earth System Science	ESSC
Geography	GEOG
Geology	ESCI

Historic Preservation	GHPR
Urban and Regional Planning	GPLN

History and Philosophy

History	HIST
Philosophy	PHIL

Mathematics	MATH
-------------	------

Music and Dance

Dance	DANC
Music	MUSC

Applied Music has a prefix for each instrument.

Refer to the class schedule book for the codes.

Physics and Astronomy

Astronomy	ASTR
Physics	PHY
Physical Science	PSCI

Political Science	PLSC
-------------------	------

Psychology	PSY
------------	-----

Sociology, Anthropology and Criminology

Anthropology	ANTH
Criminology	CRM
Sociology	SOCL

Women's and Gender Studies	WGST
----------------------------	------

World Languages	WGST
-----------------	------

Classics	CLAS
English for International Students	ESLN
French	FRNH
General Foreign Language and Bilingual-Bicultural Education	FLAN
German	GERN
Greek	GREK
Japanese	JPNE
Language	LNGE
Latin	LATN
Spanish	SPNH
Teaching English as a Second Language (TESOL)	TSLN

College of Business	COB
----------------------------	------------

Accounting and Finance

Accounting	ACC
Decision Science	DS
Finance	FIN
Computer Information Systems	IS
Production/Operations Management	POM
Management	MGMT
Marketing	MKTG
International Business	IB
Law	LAW
Supply Chain Management	SCM

College of Education

Leadership and Counseling

Counseling	COUN
Educational Leadership	EDLD

Special Education

General	SPGN
Cognitive Impairment	SPCI
Emotional Impairment	SPEI
Hearing Impairment	SPHI
Learning Disabilities	SPLI
Physical and Health Impairment	SPPI
Speech/Language Pathology	SPSI
Visual Impairment	SPVI

Student Teaching	EDUC
------------------	------

Teacher Education

Curriculum	CURR
Early Childhood Education	ECE
Educational Media	EDMD
Educational Media and Technology	EDMT
Educational Psychology	EDPS
Educational Technology	EDTC
Field Experience	FETE
Reading	RDNG
Social Foundations	SOFD

College of Health and Human Services

Health Promotion and Human Performance

Athletics	ATHL
Athletic Training	ATTR
Health Education	HLED

Physical Education	PHED
Physical Education Activity - General	PEGN
Recreation Courses	RECR
Exercise Science and Athletic Training	SPMD
Health Sciences	AHPR
Clinical Laboratory Sciences	CLSC
Human, Environmental and Consumer Resources	HECR
Health Administration	HLAD
Dietetics	DTC
Occupational Therapy	OCTH
Therapeutic Recreation	THRC
Nursing	NURS
Social Work	SWRK
Gerontology	GERT
College of Technology	COT
Engineering Technology	SET
Computer Aided Design/Manufacturing	CADM
Computer Engineering Technology	CET
Construction Management	CNST
Electronic Engineering Technology	ELEC
Engineering Technology	ET
Facility Management	FMGT
Interior Design	IDE
Mechanical Engineering Technology	MET
Manufacturing	MFG
Polymers and Coatings	PC
Quality Technology	QUAL
Military Science and Leadership	MSL
Technology Studies	STS
Apparel, Textiles and Merchandising	ATM
Aviation Technology	AVT
Business Management Marketing and Technology	BMMT
Communication Technology	CMT
Career, Technical and Workforce Education	CTWE
Hotel and Restaurant Management	HRM
Information Assurance	IA
Industrial Distribution	ID
Information Security	ISEC
Legal Assistant (Paralegal)	LEGL
Network and Information Technology Studies	NITA
Public Safety	PS
School of Staff and Command	SSC
School of Technology Studies	STS

Technology Education
Technology Management

What's New!

- Department of African American Studies is now Department of Africology and African American Studies(Effective Winter 2013)

New Programs:

- Foundations in Spanish Translation Minor (NEW PROGRAM)
- International Business Minor (NEW PROGRAM)
- Queer Studies Minor

Updated Programs:

A

- African American Studies Major
- African American Studies Minor
- Anthropology Major
- Bachelor of Fine Arts (Printmaking Concentration)

C

- Computer Information Systems Major

E

- Elementary Education Mathematics Major
- Elementary Education Mathematics Minor
- Elementary Education Social Studies Group Major
- Elementary Education Spanish Language Minor

I

- International Affairs Major
- International Business Major
- Interior Design Major

M

- Mathematics Major
- Mathematics Minor
- Music Therapy Equivalency Certificate
- Music Therapy Major
- Musical Theatre Minor

N

- Nonprofit Administration Minor

P

- Political Science Major
- Public Law and Government Major

S

- Secondary Education Earth Science Minor
- Secondary Education Economics Minor
- Secondary Education Geography Major
- Secondary Education Geography Minor
- Secondary Education History Major
- Secondary Education History Minor
- Secondary Education Political Science Teaching Minor
- Secondary Education Spanish Language Minor
- Spanish Literature Minor
- Spanish Culture and Literature Minor

New Courses:

A

- ARTH 255 - Visual and Cinematic Arts Since 1900 (NEW COURSE)
- ARTS 313 - Relief Printmaking (NEW COURSE)

C

- CHL 353 - Genders and Sexualities in Literature for Young Readers
- CHL 456 - Jewish Children's and Adolescent Literature
- CRTW 300 - Gateway to the Creative Writing Program (NEW COURSE)
- CRTW 490 - Capstone Project (NEW COURSE)
- COSC 104 - Web Science (NEW COURSE)
- CTAC 310 - Health Communication (NEW COURSE)
- CTAT 232 - Lighting for TV and Film (NEW COURSE)
- CTAT 233 - Digital Video Editing (NEW COURSE)
- CTAT 255 - Visual and Cinematic Arts Since 1900 (NEW COURSE)
- CTAT 434 - Documentary Film Production (NEW COURSE)

E

- ELEC 426 - Control Systems Engineering (NEW COURSE)

- ENVI 397 - Independent Study (NEW COURSE)
- ENVI 398 - Independent Study (NEW COURSE)
- ENVI 399 - Independent Study (NEW COURSE)
- ENVI 497 - Independent Study (NEW COURSE)
- ENVI 498 - Independent Study (NEW COURSE)
- ENVI 499 - Independent Study (NEW COURSE)

G

- GEOG 311 - History and Geography of the Modern World (NEW COURSE)

H

- HIST 204 - Introduction to the History of Judaism (NEW COURSE)
- HIST 311 - History and Geography of the Modern World (NEW COURSE)

I

- IDE 225 - History of Interiors from Antiquity to 1800 (NEW COURSE)
- IS 439 - Search Marketing Practicum (NEW COURSE)

L

- LITR 445 - Sexualities in Literature and Culture

M

- MATH 430 - Introduction to Stochastic Calculus

P

- PEGN 114 - Exercise Equipment Selection and Usage
- PEGN 125 - Family Fitness
- PHIL 326 - Philosophy & Sexuality
- PLSC 346 - International Political Economy (NEW COURSE)

S

- SABR 470 - Study Abroad at JCMU -Japan (NEW COURSE)
- SABR 471 - Study Abroad at JCMU -Japan (NEW COURSE)
- SABR 472 - Study Abroad at Tokyo Gakugei University-Japan (NEW COURSE)
- SABR 473 - Study Abroad at Tokyo Gakugei University (GEN)-Japan (NEW COURSE)
- SABR 474 - Study Abroad at Kansai Gaidai-Japan (NEW COURSE)
- SABR 475 - Study Abroad at University Of Derby-United Kingdom (NEW COURSE)
- SABR 476 - Study Abroad at Oxford Brooks University-United Kingdom (NEW COURSE)

- SABR 481 - Study Abroad at ICN Business School-France (NEW COURSE)
- SABR 482 - Study Abroad at Universite Catholique de L'Ouest-France (NEW COURSE)
- SABR 483 - Study Abroad at RUGroningen (FA)-The Netherlands (NEW COURSE)
- SABR 484 - Study Abroad at RUGroningen (FEB)-The Netherlands (NEW COURSE)
- SABR 485 - Study Abroad at JLU Giessen-Germany (NEW COURSE)
- SABR 486 - Study Abroad at Korea University, Sejong-Korea (NEW COURSE)
- SABR 491 - Study Abroad at University of Derby (NEW COURSE)
- SABR 492 - Study Abroad at Curtin University (NEW COURSE)
- SABR 493 - Study Abroad at CC-CS, Alicante, Spain
- SABR 494 - Study Abroad, EMU-Oxford Program-UK
- SABR 495 - Study Abroad, Novancia, Paris-France
- SABR 497 - Study Abroad at JLU-Giessen, Germany
- SAG 155 - Illustrator
- SAG 255 - SAG Movement
- SAG 295 - SAG Rigging
- SAG 325 - Principles of Animation
- SPGN 401 - International Teaching I (NEW COURSE)
- SPGN 402 - International Teaching II (NEW COURSE)

U

- URP 452 - Infrastructure Planning and Policy (NEW COURSE)
- URP 456 - Zoning and Land Development Regulation (NEW COURSE)
- URP 459 Planning/Preservation Studio (NEW COURSE)
- URP 460 - Transportation Modeling Systems

W

- WGST 210 - Gender in a Transnational World
- WGST 265 - Communicating and LGBT Community (NEW COURSE)
- WGST 300 - Feminist Inquiry
- WGST 305 - Queer Studies
- WGST 326 - Philosophy & Sexuality
- WGST 340 - Transgenre; Genre, Gender and Sex (A Queer Poetics)
- WGST 353 - Genders and Sexualities in Literature for Young Readers
- WGST 370 - Women's and Gender Studies Abroad (NEW COURSE)
- WGST 445 - Sexualities in Literature and Culture
- WGST 450 - Topics in Women's and Gender Studies (NEW COURSE)

Updated Courses:

A

- AAS 231 - Race, Urbanization and the Policy Mindset (title and description change, effective Winter 2013)
- AAS 301 Research Methods in African American Studies (title and number change, effective Winter 2013)
- AAS 302W Writing for African American Studies (Number change, effective, Winter 2013)
- ANTH 208 - Minority Women in the United States (TO BE DELETED) (effective Winter 2013)

- ANTH 219 - Around the World in 80 Years: Adult Development Across Culture (TO BE DELETED) (effective Winter 2013)
- ARTE 360 - Technology in Visual Arts Education
- ARTE 460 - Approaches to Teaching Visual Arts Education
- ARTS 311 - Etching and Intaglio (title and description change, effective Winter 2013)

B

- BIO 306W Cell and Molecular Biology and Genetics Laboratory (prerequisite change, effective Winter 2013)

C

- CET 426 - Engineering Product Information
- CHL 207 - Introduction to Children's Literature
- CHL 351 - World Mythology
- CHL 352 - Folk Literature: Ballads and Folk Tales
- COSC 221 - Computer Organization I (course description and prerequisite change, effective Winter 2013)
- CRTW 335W - Creative Writing (Gen Ed Area I, W) (prerequisite change, effective Winter 2013)
- CTAR 360 - Playwriting
- CTAR 370 - Audition
- CTAT 241 - Announcing Techniques for Electronic Media

E

- ENGL 408W - Writing for Secondary Teachers (Gen Ed Area I, W) (title, description and prerequisite change, effective Winter 2013)
- ESSC 370 - Glacial and Quaternary Geology (title and course description change, effective Winter 2013)

H

- HIST 313 Michigan History (change in prerequisite and restriction, effective Winter 2013)
- HLAD 417 - Health Regulation (TO BE DELETED) (effective Summer 2013)
- IDE 111 - Environmental Psychology and Behavior for Interior Design (title, description and restriction change, effective Winter 2013)

I

- IDE 325 - Professional Practice in Interior Design
- IDE 411 - Internship in Interior Design (TO BE DELETED) (merging w/ IDE 324 - Internship in Interior Design)
- IDE 425 - Mill Work Design and Detailing (change in number, description and prerequisites, effective Winter 2013, previously listed as IDE 322)

R

- RDNG 420 - Middle School Literacy and the Early Adolescent Reader (change in prerequisite, effective Winter 2013)

S

- SOCL 307 - Sociology of Work (change in title and description, effective Winter 2013)
- SPNH 221 - Intermediate Spanish Reading (TO BE DELETED) (effective Winter 2013)
- SPNH 261 - Introduction to Professional Language Study (TO BE DELETED) (effective Winter 2013)
- SPNH 322 - Introduction to Hispanic Literature (effective Winter 2013)
- SPNH 341 - Survey of Spanish Literature (TO BE DELETED) (effective Winter 2013)
- SPNH 351 - Survey of Spanish-American Literature (TO BE DELETED) (effective Winter 2013)
- SPNH 401 - Advanced Readings in Spanish Literature
- SPNH 402 - Advanced Readings in Spanish American Literature
- SPNH 447 - Business Spanish II (change in description and prerequisite, effective Winter 2013)
- SPNH 471 - Culture and Literature of the Hispanic Groups in the United States (Change in prerequisite, effective Winter 2013)
- SPSI 332 - Acoustic Phonetics: Speech Science (change in class and major restrictions, effective Winter 2013)
- SPSI 334 - Applied Phonetics (change in class and major restrictions, effective Winter 2013)
- SPSI 335 - Introduction to Communication Disorders (change in title, class and major restrictions, effective Winter 2013)
- SPSI 336 - Physiologic Phonetics: Anatomy and Physiology (change in class and major restrictions, effective Winter 2013)
- SPSI 337 - Language Acquisition (change in class and major restrictions, effective Winter 2013)
- SPSI 346 - Speech, Language and Phonological Disorders in Children (change in class and major restrictions, effective Winter 2013)
- SPSI 347 - Normal Aging and Health Issues in Speech-Language Pathology (change in class and major restrictions, effective Winter 2013)

T

- THRC 100 Foundation and Advancement of the Therapeutic Recreation Profession (change in title and description, effective Winter 2013)

U

- URP 409 - Professional Practice for Planners (change in description, prerequisite, corequisite and restriction, effective Winter 2013)

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 33 hours

Required Course: 15 hours

- AAS 101 - Introduction to African American Studies (Gen Ed Area III) 3 hrs
- AAS 201 - Foundations of Knowledge in African American Studies 3 hrs
- AAS 401 - African American Studies Research Seminar 3 hrs
- AAS 302W - Writing for African American Studies (Gen Ed Area I, W) 3 hrs
- AAS 402 - African American Studies Internship Seminar 3 hrs

Restricted Electives: 18 hours

Pick two courses from the following three subject areas: "Society" (6 hrs), "Systems, Institutions & Institutional Processes" (6 hrs), and "Culture & Arts" (6 hrs)

Society: 6 hours

Pick two courses from the following

- AAS 102 - Introduction to African Civilization (Gen Ed Area III) 3 hrs
- AAS 221 - African American Social Movements 3 hrs
- AAS 311 - The African Diaspora 3 hrs
- AAS 312 - African Civilization 3 hrs
- AAS 313 - Contemporary Africa: The Struggle and Prospects for Development (Gen Ed Area III) 3 hrs

- Any relevant 3 credit course with Department permission 3 hrs

Systems, Institutions & Institutional Processes: 6 hours

Pick two courses from the following

- AAS 231 - Race, Urbanization and the Policy Mindset 3 hrs
- AAS 232 - Politics in the African American Experience (Gen Ed Area III) 3 hrs
- AAS 233 - Public Policy and African Americans 3 hrs
- AAS 243 - Black Women: Politics and Racism 3 hrs
- AAS 351 - The Social Context of African American Health (Gen Ed Area IV) 3 hrs
- AAS 441 - Law in the African American Experience 3 hrs
- Any relevant 3 credit course with Department permission 3 hrs

Culture & Arts: 6 hours

Pick two courses from the following

- AAS 272 - Hip Hop Lyricism in African American Culture 3 hrs
- AAS 361 - The African American Family 3 hrs
- AAS 362 - Black Women: Religion and Sexism 3 hrs
- AAS 370 - Films of the African American Experience 3 hrs
- Any relevant 3 credit course with Department permission 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Any change to this program must be approved and proper paper work submitted before that change can be considered for graduation.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses**

will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Certificate

Undergraduate Certificate in African Studies

Add a specialty to your degree with an undergraduate certification in African Studies. Gain a special insight into ancient and contemporary Africa from a scholarly perspective. The certificate program encompasses such areas of African affairs as history, political economics, geography, politics, and arts. It serves as a means by which the student can enhance his/her awareness of the diversity that characterizes human existence.

In sum, this program is designed to prepare and equip students with:

1. Inter-cultural sensitivity
2. The ability to develop social policies and cultural competencies applicable to their careers
3. Knowledge of key epistemological issues in African Studies
4. Research, critical thinking and critical writing skills

Admission Requirements

In order to be admitted to this undergraduate certificate in African Studies, you have to meet any of the following conditions. One, you must be either pursuing an undergraduate degree at EMU in any field of study or you can apply as a post-baccalaureate degree holder. You can also be admitted if you are a graduate student or a graduate degree holder, and you wish to obtain the undergraduate certificate in African Studies. To apply for admission, click on the following link: [online admission forms](#).

Career Opportunities

Students who are still working towards their undergraduate degrees or many professionals with degrees in a variety of educational arenas may find this certification program a means of achieving an edge above the competition. The certificate is intended to complement careers in a wide-variety of fields, including education, social work, international jobs, health care and political science. Those with careers or majors in international relations, economic and political welfare, public policy and administration, public relations, journalism, community outreach, social services, human resources and cultural diversity may find this certificate particularly helpful.

Online & Non-online Courses

Note that for both required and restricted electives categories, online and non-online versions of the approved courses are acceptable.

Advising

If you have questions or need advising, contact Dr. Victor Oguejiofor Okafor either by email, vokafor@emich.edu or by telephone, (734)487-3460.

Critical Information regarding Certificates

Undergraduate certificates may only be offered in conjunction with or subsequent to a baccalaureate degree. They cannot be 'stand alone' certificates, offered to students who are not pursuing or do not have a bachelor's degree. For students pursuing an undergraduate certificate concurrent with a bachelor's degree, the certificate will be awarded upon graduation.

Africology and African American Studies Department Information:

Department Head: Victor O. Okafor
Department Contact: vokafor@emich.edu
Website: <http://www.emich.edu/aas/>

Required Courses: 12 hours

The certificate in African Studies requires completion of the following 12-credit hour requirement. Note that only 300-level or above courses can be applied towards this certificate program, and such courses must be completed at Eastern. In addition, credits applied to this certificate program cannot be used towards the satisfaction of any major, minor or general education requirements.

Core Courses: 6 hours

- AAS 312 - African Civilization 3 hrs
- AAS 313 - Contemporary Africa: The Struggle and Prospects for Development (Gen Ed Area III) 3 hrs

Restricted Elective Courses: 6 hours

Select six credit hours from the following:

- AAS 379 - Special Topics 3 hrs
or
- AAS 499 - Independent Study 3 hrs

- ARTH 470 - Arts of Africa 3 hrs
- GEOG 322 - Geography of Africa 3 hrs
- HIST 347 - Sub-Saharan Africa to 1885 3 hrs
- HIST 348 - 20th-Century Africa 3 hrs
- HIST 349 - South Africa, 1500-Present 3 hrs
- PLSC 372 - African Politics 3 hrs

Certificate Total: 12 hours

African American Studies

AAS 101 - Introduction to African American Studies (Gen Ed Area III)

An introductory examination of the African American experience. Acquaints students with the trends, issues and forces that have shaped that experience; considers the concepts of cultural adaptation, institutional development and group self-definition; and surveys the contemporary status and condition of African Americans.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

AAS 101 Introduction to African American Studies

AAS 101 meets the requirements for a course on U.S. diversity because it surveys the origins, development, and current status of African Americans from the perspective of a discipline that places this group at the center of its inquiry. A historically underrepresented and oppressed group, African Americans constitute one of the largest minorities in the U.S. This group has been essential to the formation and character of U.S. society from its inception to the present. The struggle by African Americans for equality and human dignity and their contributions to U.S. and world cultures reveal much about the role and significance of diversity in American society. The course examines the interactions of African Americans with U.S. immigrant groups and with Native peoples. Cultural, economic, gender, religious, racial, and class factors in oppression are of particular concern.

AAS 102 - Introduction to African Civilization (Gen Ed Area III)

This course is designed to provide the student with an introductory knowledge of centers of African civilization from antiquity to the 1960s. Those centers include ancient Egypt, Songhai, Kilwa and Monomotapa.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

AAS 102 Introduction to African Civilization

AAS 102 African Civilization is designed to provide the students with an introductory knowledge of centers of African Civilization from antiquity to the 1960s. Among those centers are Ancient Egypt, Nubia, Axum, Ghana, Mali, Songhai, Kilwa, Sofola, Malinda, Mutapa (Monomotapa), etc. Apart from becoming familiar with such key centers of African Civilization, the students will explore the influence that African Civilization exerted on other cultures, as well as the impact of cross-cultural contacts on African Civilization itself. Preliminary subjects of discussion include historical and paleontological data examining the thesis of the African origin of humanity.

AAS 177 - Special Topics

Each time offered this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 1 hr

AAS 178 - Special Topics

Each time offered this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 2 hrs

AAS 179 - Special Topics

Each time offered this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 3 hrs

AAS 201 - Foundations of Knowledge in African American Studies

Examines the empirical and theoretical foundations of African American studies, the evolution of the field and the role of key scholars in its development.

Credit Hours: 3 hrs

AAS 221 - African American Social Movements

Explores the collective efforts undertaken by African Americans to elevate their group status in American society. Analyzes the struggle for human freedom through an examination of resistance to chattel slavery, the quest for civil rights and the response to structured inequality.

Credit Hours: 3 hrs

AAS 231 - Race, Urbanization and the Policy Mindset

Examines African American urbanization, and the insight that process provides into patterns of thought, policy formulation and organizational growth among African Americans. Offers perspective on the *corpus* of knowledge regarding the African American experience, on the disciplinary tools furthering that inquiry and on policy choices in post-industrial society.

Credit Hours: 3 hrs

Previously Listed As: AAS 231 - Urbanization and the African American Community

Course Revisions: This course will have a title change from "Urbanization and the African American Community" to "Race, Urbanization and the Policy Mindset," effective Winter 2013. The revision also includes a course description change.

Last Updated: Title and Description Change 10/2012, effective Winter 2013

AAS 232 - Politics in the African American Experience (Gen Ed Area III)

This course is designed to provide the student with a knowledge of Black political behavior in the United States in its evolution from protest to contemporary institutional politics.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

AAS 232 Politics in the African American Experience

AAS 232 Politics in the African American Experience is a study of black political behavior in the United States and its evolution

from protest to institutional, electoral politics. In examining the functioning and dynamics of the American political system from historical and contemporary perspectives, the course also compares and contrasts the black political experience with other minority group politics in the United States. This course uses the African American political experience and the transformative contributions that African American historic political struggles and minority group politics have made to the expansion and public appreciation of democratic principles, values and practices in the United States as a means of not only providing students with a multicultural perspective on the evolution and functioning of the American political system, but also exposing them to the diversity that characterizes "issues and perspectives" in the American political experience.

Last Updated: Links 06/2011

AAS 233 - Public Policy and African Americans

This course examines the implications of major and evolving national public policies and policy alternatives for economically vulnerable and/or historically disadvantaged segments of the population, particularly African Americans. Such policies include those related to social welfare, education, campus climate, employment, mass communication, housing, affirmative action and drug and crime control.

Credit Hours: 3 hrs

AAS 243 - Black Women: Politics and Racism

This course examines American politics as it relates to African American women. The course analyzes ways in which political issues affect black women differently than African American men, white men and white women. Considerable attention is given to the definition of the political realm as opposed to the nonpolitical realm when discussing groups traditionally marginalized or excluded from political life.

Credit Hours: 3 hrs

Cross-Listed with: PLSC 243; WGST 243

Last Updated: 2/17/2011

AAS 272 - Hip Hop Lyricism in African American Culture

This course is an examination of the cultural continuity exemplified by the socially conscious hip hop lyricism to the African American poetic and musical forms that preceded it.

Credit Hours: 3 hrs

AAS 277 - Special Topics

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 1 hr

AAS 278 - Special Topics

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 2 hrs

AAS 279 - Special Topics

Each time offered this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 3 hrs

AAS 297 - Independent Study

Independent study of a select topic under staff supervision. Possible approaches include library research, field research and participant-observer experiences.

Credit Hours: 1 hr

Prerequisite: department permission

AAS 298 - Independent Study

Independent study of a select topic under staff supervision. Possible approaches include library research, field research and participant-observer experiences.

Credit Hours: 2 hrs

Prerequisite: department permission

AAS 299 - Independent Study

Independent study of a select topic under staff supervision. Possible approaches include library research, field research and participant-observer experiences.

Credit Hours: 3 hrs

Prerequisite: department permission

AAS 302W - Writing for African American Studies (Gen Ed Area I, W)

This course will help students produce research papers, construct analytical reviews and perform documentary research needed to better explore the literature, culture and institutional and social processes that define the field of African American Studies.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Previously Listed As: AAS 301W

Last Updated: number change 11/2012, effective Winter 2013

AAS 311 - The African Diaspora

Examines the African diaspora — the dispersion of persons of African descent throughout the world. It studies the process of dispersion, examines select diasporic communities and considers the impact of the African presence on world development.

Credit Hours: 3 hrs

AAS 312 - African Civilization

This course is designed to provide the student with an interdisciplinary knowledge of centers of African civilization from antiquity to the 1960s. Those centers include ancient Egypt, Songhai, Kilwa and Monomotapa.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing or higher

Last Updated: Class Restriction Change 08/2011, effective Fall 2011

AAS 313 - Contemporary Africa: The Struggle and Prospects for Development (Gen Ed Area III)

This course serves as a survey of Africa's contemporary political economy. In examining postcolonial developments, the course focuses on regional and national strategies for social transformation.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

AAS 313 Contemporary Africa: the Struggle and Prospects for Development

AAS313 Contemporary Africa: the Struggle & Prospects for Development is designed as a survey of Africa's contemporary political economy. In examining post-colonial efforts at development, the course focuses on a cross-section of regional and national strategies for social transformation. Among subjects emphasized are economic cooperation and coordination initiatives on the continent, side by side with domestic and/or external constraints on national socioeconomic developmental efforts. The course also compares and contrasts Africa's major socioeconomic trends and performances with those of Latin America & the Caribbean and Asia and Pacific regions. This course meets the Global Awareness category of the General Education Program because its survey of the contemporary political-economic conditions of Africa will help to provide EMU students with a global perspective on forms of development in the contemporary world. Such a global perspective on development is all the more necessary, given the leadership role that the United States and Western Europe play within the international community.

AAS 351 - The Social Context of African American Health (Gen Ed Area IV)

Examines the health status of African Americans. Explores the interplay between environment, biology and culture; folk and popular health practices; and the organization and delivery of health care.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

AAS 351 The Social Context of African American Health

AAS351 applies an analysis of the social and cultural basis of health to the African American experience. To this end the course provides a broad introduction to social science suppositions and techniques. AAS 351 moves well beyond the idea that medical care- its presence, absence or quality- is the singular or most critical factor determining the health of a people, community or society. It reveals the importance of social phenomena in disease resistance and health promotion. Historical shifts from the prominence of infectious to chronic diseases; the implications to health of chattel slavery, sharecropping, segregation, poverty and structured inequality; the relationship between psychosocial factors and disease, i.e., destabilized social settings that compromise resistance to disease; environmental racism; and the health status of African Americans as it relates to the organization of work, family structure and function, religious beliefs, the organization of medical care, lifestyle, consumer manipulation and post-industrial society are major issues addressed by the course.

AAS 361 - The African American Family

Examines the historical and contemporary forces shaping the African American family. Analyzes urbanization, economic transformations and institutionalized racism. Studies the role of the family in human survival and progress.

Credit Hours: 3 hrs

AAS 362 - Black Women: Religion and Sexism

An introduction to the social and political role of Black women in African American religious institutions. Particular attention will be placed on how African American religion has limited the power of women. Additionally, the course will examine the historical evolution of the various major black denominations in America and their political and social roles in African American communities.

Credit Hours: 3 hrs

Cross-Listed with: PLSC 362; WGST 362

Last Updated: 2/17/2011

AAS 370 - Films of the African American Experience

This course examines African American literature that has been adapted to film. Film history about African American involvement in the industry, including filmmakers is studied. The course involves developing techniques of analyzing fiction and drama as well as film adaptations of the African American experience.

Credit Hours: 3 hrs

AAS 377 - Special Topics

Each time offered this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 1 hr

Prerequisite: department permission

AAS 378 - Special Topics

Each time offered this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 2 hrs

Prerequisite: department permission

AAS 379 - Special Topics

Each time offered this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 3 hrs

Prerequisite: department permission

AAS 401 - African American Studies Research Seminar

Provides intensive exposure to research methods in African American studies, and offers an opportunity for primary research in the field.

Credit Hours: 3 hrs

Last Updated: .

AAS 402 - African American Studies Internship Seminar

The African American Studies Internship Seminar is designed as a practicum in which majors and minors in African American Studies can acquire a practical experience of an African American organization.

Credit Hours: 3 hrs

Prerequisite: AAS 101 and AAS 201 and AAS 233; or department permission

Last Updated: 2/17/2011

AAS 441 - Law in the African American Experience

Examines the African American legal experience from the Atlantic slave trade to the present. Reviews the formation of the Constitution, the law of slavery, Reconstruction-era developments, Jim Crow segregation and recent legal trends in areas such as education, voting and employment. Emphasizes law as a social process.

Credit Hours: 3 hrs

AAS 477 - Special Topics

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 1 hr

Prerequisite: department permission

AAS 478 - Special Topics

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 2 hrs

Prerequisite: department permission

AAS 479 - Special Topics

Each time offered, this course will explore a topic on an experimental basis, based on student interests and needs. This course can be used in completing requirements for the major or minor in African American studies.

Credit Hours: 3 hrs

Prerequisite: department permission

AAS 497 - Independent Study

Independent study of a select topic under staff supervision. Possible approaches include library research, field research and participant-observer experiences.

Credit Hours: 1 hr

Prerequisite: department permission

AAS 498 - Independent Study

Independent study of a select topic under staff supervision. Possible approaches include library research, field research and participant-observer experiences.

Credit Hours: 2 hrs

Prerequisite: department permission

AAS 499 - Independent Study

Independent study of a select topic under staff supervision. Possible approaches include library research, field research and participant-observer experiences.

Credit Hours: 3 hrs

Prerequisite: department permission

Art Programs and Courses

Art

Major

Art History Major

This 36-hour major prepares students for graduate study, for gallery or museum work, or, with the addition of science and studio courses, for a career in conservation.

Art history majors should note that one year of college credit in a foreign language is required for the B.A. degree in art history. Most graduate programs in art history require reading proficiency in at least two foreign languages. Teacher certification in art is not obtainable using this major.

Art Department Information:

Department Head: Colin Blakely

Department Contact: cblakely@emich.edu

Website: <http://www.emich.edu/art/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 36 hours

Students in this program are granted a waiver of the University requirement that students may not earn "more than 60 credit hours in one subject area (prefix)."

Required Courses: 18 hours

- ARTH 161 - Survey of Non-Western Art (Gen Ed Area III, IV) 3 hrs
- ARTH 162 - Survey of Western Art I (Gen Ed Area IV) 3 hrs
- ARTH 263 - Survey of Western Art II 3 hrs
- ARTH 264W - Survey of Western Art III (Gen Ed Area I, W) 3 hrs
- ARTH 361W - Art History Seminar (Gen Ed Area I, W) 3 hrs
- ARTS 121 - Two-Dimensional Design 3 hrs

Elective Courses: 15 hours

Students must choose one course from each of the following sub-sections below.

Pre-Renaissance Art

One course from the following:

- ARTH 368 - History of Classical Art 3 hrs
- ARTH 468 - Medieval Art History 3 hrs

Renaissance/Baroque Art

One course from the following:

- * ARTH 151 - Reason and Revolution (Gen Ed Area IV) 3 hrs
- ARTH 369 - History of Renaissance Art 3 hrs
- ARTH 469 - Baroque Art 3 hrs

Modern and Contemporary Art

One course from the following:

- ARTH 374 - American Painting and Sculpture 3 hrs
- ARTH 472 - History of American Architecture 3 hrs
- ARTH 473 - Women in Art 3 hrs
- ARTH 475 - Seminar in Modern and Contemporary Art 3 hrs

Non-Western or Women's Art

One course from the following:

- ARTH 267 - History of Asian Art (Gen Ed Area IV) 3 hrs
- ARTH 467 - Art of East Asia 3 hrs
- ARTH 470 - Arts of Africa 3 hrs
- ARTH 471 - Mesoamerican Art 3 hrs
- ARTH 476 - Art of China 3 hrs

Elective

Any 300-level or higher art history course not taken to fulfill another requirement

Cognate: 3 hours

Choose one of the following courses:

- AAS 102 - Introduction to African Civilization (Gen Ed Area III) 3 hrs
- AAS 311 - The African Diaspora 3 hrs
- AAS 312 - African Civilization 3 hrs
- AAS 370 - Films of the African American Experience 3 hrs
- ANTH 150 - Introductory Archaeology (Gen Ed Area IV) 3 hrs
- ANTH 236 - Peoples and Cultures of Africa 3 hrs
- CASI 240 - Reel Women/Real Women 3 hrs
- CHL 351 - World Mythology 3 hrs

- CLAS 106 - Rome and America (Gen Ed Area IV) 6 hrs
- CLAS 181 - The Legacy of Greece 3 hrs
- CLAS 301 - Classical Mythology 3 hrs
- CLAS 321 - Women and Gender in the Ancient World 3 hrs
- CTAT 145 - Introduction to Film Appreciation (Gen Ed Area IV) 3 hrs
- CTAT 245 - A Survey of American Cinema 3 hrs
- CTAT 335 - Studies in Film 3 hrs
- HIST 100 - The Comparative Study of Religion (Gen Ed Area IV) 3 hrs
- HIST 106 - Asian and African Civilizations 3 hrs
- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
- HIST 116 - Intro to American Indian History (Gen Ed Area III) 3 hrs
- HIST 151 - Reason and Revolution (Gen Ed Area IV) 3 hrs
- HIST 201 - The Religions of South and East Asia 3 hrs
- HIST 202 - Religions in Conflict and Dialogue: Judaism, Christianity, and Islam (Gen Ed Area III) 3 hrs
- HIST 303 - History of American Religion 3 hrs
- HIST 306 - Hinduism 3 hrs
- HIST 307 - Buddhism 3 hrs
- IDE 226 - History of Interiors from 1800 to Present 3 hrs
- LITR 106 - Rome and America (Gen Ed Area IV) 6 hrs
- LITR 181 - The Legacy of Greece 3 hrs
- LITR 251 - The Bible as Literature 3 hrs
- LITR 361 - Studies in Native American Literature 3 hrs
- PHIL 212 - Philosophy of Art (Gen Ed Area IV) 3 hrs
- PHY 101 - Physical Science in the Arts (Gen Ed Area IV) 4 hrs
- WGST 321 - Women and Gender in the Ancient World 3 hrs

Foreign Language Requirement: 6-10 hours

Any two sequential courses in a single foreign language

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

** Students may contract with art history faculty to include lower-numbered art courses for elective credit, with additional work.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Art Major

Catalog Correction | This major was modified on March 29, 2017, to correct an error. The "All courses must be passed with a grade of "C" or above" requirement" only applies to the *Graphic Design Concentration*.

The Bachelor of Science in Art is designed to allow students to explore Studio Art and Art History within a diverse liberal arts context. Foundation courses give students a basic skill set in both Art History and Studio practices, and a 9-credit area of concentration allows for a more in depth exploration in a medium of the student's choosing.

Art Department Information:

Department Head: Colin Blakely

Department Contact: cblakely@emich.edu

Website: <http://www.emich.edu/art/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 39 hours

Students in this program are granted a waiver of the University requirement that students may not earn "more than 60 credit hours in one subject area (prefix)."

Required Course (Foundations): 21 hours

- ARTS 121 - Two-Dimensional Design 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 126 - Foundations Drawing II 3 hrs
- ARTS 127 - Foundations Digital Media 3 hrs
- ARTH 165 - Postmodern and Contemporary Art 3 hrs
- ARTS 390W - Studio Concepts (Gen Ed Area I, W) 3 hrs

Art History (6 Credit Hours)

Students must select 2 of the following courses:

- ARTH 161 - Survey of Non-Western Art (Gen Ed Area III, IV) 3 hrs
 - ARTH 162 - Survey of Western Art I (Gen Ed Area IV) 3 hrs
 - ARTH 263 - Survey of Western Art II 3 hrs
- *students must complete ARTH 162 prior to ARTH 263.

Area of Concentration: 9 hours

Select a sequence of 3 courses (as outlined under the Bachelor of Fine Arts degree) in one of the following areas listed below. Six credit hours must be at the 300-level or above.

Ceramics Concentration
Drawing Concentration
Fibers Concentration
Furniture Design Concentration
Graphic Design Concentration
Metalsmithing Concentration
Painting Concentration
Photography Concentration
Printmaking Concentration
Sculpture Concentration
Watercolor Concentration

Elective Courses: 3 hours

3 credit hours from art studio and/or art history courses selected in consultation with an adviser.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Bachelor of Fine Arts

Catalog Correction | This major was modified on August 8, 2016, to correct an error. The "All courses must be passed with a grade of "C" or above" requirement" only applies to the Graphic Design Concentration

Revised Program November 2012, Effective Winter 2013

The Bachelor of Fine Arts is designed to encourage students to develop a personal focus and direction as well as learn to function professionally as artists.

An extensive range of foundation courses, culminating in ARTS 290 - Studio Concepts and the accompanying Foundations Review provides students with the basic skills they need to be successful in upper-level courses. The required area of concentration allows students to gain a level of expertise in a specific medium and use that expertise to refine their own artistic vision. Art elective requirements allow students to gain practical knowledge in a range of media as well as to engage in experiences that support their area of concentration. A Capstone course provides direction for their future professional careers and gives students an immersive experience by requiring them to exhibit and disseminate their work.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 81 hours

Students in this program are granted a waiver of the University requirement that students may not earn "more than 60 credit hours in one subject area (prefix)." *Students may apply up to, but not exceed 63 hours in one subject area (prefix) toward their degree.*

Foundations: 21 hours

- ARTH 165 - Postmodern and Contemporary Art 3 hrs
- ARTS 121 - Two-Dimensional Design 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 126 - Foundations Drawing II 3 hrs
- ARTS 127 - Foundations Digital Media 3 hrs
- ARTS 290 - Studio Concepts 3 hrs

Art History: 15 hours

- * One upper-level Art History course (3 hrs)
- ARTH 161 - Survey of Non-Western Art (Gen Ed Area III, IV) 3 hrs
- ARTH 162 - Survey of Western Art I (Gen Ed Area IV) 3 hrs
- ARTH 263 - Survey of Western Art II 3 hrs
- ARTH 264W - Survey of Western Art III (Gen Ed Area I, W) 3 hrs

Studio Courses: 45 hours

Required Studio Courses: 6 hours

- ARTS 205 - Beginning Life Drawing 3 hrs
- ** ARTS 490W - Capstone (Gen Ed Area I, W) 3 hrs

Area of Concentration: 15-21 hours

Choose from one of the concentrations below:

Ceramics Concentration

Drawing Concentration

Fibers Concentration

Furniture Design Concentration

Graphic Design Concentration

Metalsmithing Concentration

Painting Concentration

Photography Concentration

Printmaking Concentration

Sculpture Concentration

Time-Based Media Concentration

Watercolor Concentration

Arts Studio Electives: 18-24 hours

Select from studio arts courses in consultation with an adviser.

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

** Students in Graphic Design must take ARTH 474 - History of Graphic Design*

*** Course must be taken concurrently with the final course in chosen Area of Concentration. Capstone is a Writing Intensive class and meets the requirements of the General Education Program.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Arts Education

The K-12 Bachelor of Arts in Arts Education program is designed to prepare students to develop proficient skills in studio work, art inquiry, and teaching the visual arts. The program meets the Michigan Standards for Visual Arts Education programs and the National Art Education Standards for Teacher Preparation Programs.

Successful completion of this course of studies, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Elementary-Secondary Provisional Certificate endorsed in art, certification code LQ. The Michigan Test for Teacher Certification (MTTC) covering this field is #095, "Visual Art Education."

Art Department Information:

Department Head: Colin Blakely
Department Contact: cblakely@emich.edu
Website: <http://www.emich.edu/art/>

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:

1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 57 hours

Students in this program are granted a waiver of the University requirement that students may not earn "more than 60 credit hours in one subject area (prefix)." *Students may apply up to, but not exceed 63 hours in one subject area (prefix) toward their degree.*

Foundations: 36 hours

- ARTE 355 - Interpreting Art in Visual Arts Education 3 hrs
- ARTH 161 - Survey of Non-Western Art (Gen Ed Area III, IV) 3 hrs
- ARTH 162 - Survey of Western Art I (Gen Ed Area IV) 3 hrs
- ARTH 165 - Postmodern and Contemporary Art 3 hrs
- ARTH 263 - Survey of Western Art II 3 hrs
- ARTH 264W - Survey of Western Art III (Gen Ed Area I, W) 3 hrs
- ARTS 121 - Two-Dimensional Design 3 hrs
- ARTS 122 - Three-Dimensional Design 3 hrs
- ARTS 123 - Foundations Drawing I 3 hrs
- ARTS 126 - Foundations Drawing II 3 hrs
- ARTS 127 - Foundations Digital Media 3 hrs
- ARTS 290 - Studio Concepts 3 hrs

Studio Courses: 21 hours

Arts Studio Electives: 12 hours

Select from studio arts courses in consultation with an adviser. Students must choose a minimum of two electives in a 3-dimensional media and a minimum of two electives in a 2-dimensional media. All electives must be within different areas of concentration.

Area of Concentration: 9 hours

Select three courses in one of the concentrations below:

Ceramics Concentration

Drawing Concentration

Fibers Concentration

Furniture Design Concentration

Graphic Design Concentration

Metalsmithing Concentration

Painting Concentration

Photography Concentration

Printmaking Concentration

Sculpture Concentration

Time-Based Media Concentration

Watercolor Concentration

Professional Secondary Education Sequence

Pre-Admission Phase: The Learner and the Community: 10 hours

Prerequisite: Sophomore standing or higher.

- ARTE 357 - Introduction to Visual Arts Education 3 hrs
- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following courses require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 12 hours

Prerequisite: Completion of Pre-Admission Phase is required.

- ARTE 358 - Curriculum and Assessment in Visual Arts Education 3 hrs
- ARTE 359 - Practicum in Visual Arts Education 3 hrs
- ARTE 360 - Technology in Visual Arts Education 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 10 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- ARTE 460 - Approaches to Teaching Visual Arts Education 4 hrs
- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

All Visual Arts Education students (including double majors, second bachelors and additional endorsements) will be responsible for fulfilling student teaching requirements in visual arts.

- EDUC 496 - Student Teaching 6 hrs
- EDUC 497 - Student Teaching 6 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Notes:

* Students in Graphic Design must also take ARTH 474

** Course must be taken concurrently with the final course in chosen Area of Concentration. Capstone is a Writing Intensive class and meets the requirements of the General Education Program.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Art History Minor

Students with an art major who elect the art history minor must replace ARTH 162, ARTH 263, and ARTH 264W in the major with studio courses.

Art Department Information:

Department Head: Colin Blakely
Department Contact: cblakely@emich.edu
Website: <http://www.emich.edu/art/>

Required Courses: 15 hours

- ARTH 161 - Survey of Non-Western Art (Gen Ed Area III, IV) 3 hrs
- ARTH 162 - Survey of Western Art I (Gen Ed Area IV) 3 hrs
- ARTH 263 - Survey of Western Art II 3 hrs
- ARTH 264W - Survey of Western Art III (Gen Ed Area I, W) 3 hrs
- ARTH 475 - Seminar in Modern and Contemporary Art 3 hrs

Restricted Elective Courses: 6 hours

Six hours from art history courses selected in consultation with art history minor advising coordinator. At least 3 hours must be at the 300-level or above.

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. Art Education

ARTE 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may take this course more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART 177

Last Updated: 03/2011

ARTE 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may take this course more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART 178

Last Updated: 03/2011

ARTE 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may take this course more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART 179

Last Updated: 03/2011

ARTE 220 - Visual Arts for Elementary Teachers (Gen Ed Area IV)

Teacher candidates will develop the basic skills to meaningfully integrate the visual arts across the elementary school curricula by learning approaches to guide K-12 students to 1) create images that express their own views, 2) interpret images from diverse artistic traditions that address important life issues across time and place, and to 3) explore the differences and the commonalities that the visual arts share with other art disciplines, the humanities and the sciences.

Credit Hours: 3 hrs

Major Restrictions: Non-Art majors only

Previously Listed As: ART300, ART220

Last Updated: 03/2011

ARTE 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART 277

Last Updated: 03/2011

ARTE 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART 278

Last Updated: 03/2011

ARTE 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART 279

Last Updated: 03/2011

ARTE 355 - Interpreting Art in Visual Arts Education

The goal of this course is to teach strategies for interpreting possible meanings of visual images and objects from diverse cultural contexts as an integral and meaningful part of learning about art. It targets pre-service visual arts education students and is open to any interested students.

Credit Hours: 3 hrs

Prerequisite: ARTH 161 and one of the following: ARTH 162, ARTH 165, ARTH 263 or ARTH 264W

Class Restrictions: Sophomore standing or higher only

Previously Listed As: ARTE 458

Last Updated: Course Revision 12/2011, effective Winter 2012

ARTE 357 - Introduction to Visual Arts Education

Focuses on a comprehensive approach to art education and will include library research, readings, writings and discussions of current events aided by presentations of guest speakers. Final requirement: the development of a written personal philosophy pertaining to the teaching of art and the formulation of a general curriculum.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or above, and department permission

Previously Listed As: ART317

Last Updated: effective winter 2011

ARTE 358 - Curriculum and Assessment in Visual Arts Education

This course is designed to prepare visual arts teacher candidates to engage K-12 students of diverse backgrounds and abilities in meaningful experiences using the visual arts. Candidates explore prevailing approaches for developing curriculum and assessment tools in Visual Arts Education and then design units that facilitate students' construction of meaning.

Credit Hours: 3 hrs

Prerequisite: ARTE 357, ARTE 360, EDPS 322, admission to the Initial Teacher Preparation Program, and department permission

Corequisites: ARTE 359

Major Restrictions: BFA with K-12 certification and Bachelor of Visual Arts Education students only

Last Updated: New Course 05/2011, effective Spring 2011; Prerequisites/Concurrent Prerequisites/Corequisites 05/2011, effective Fall 2011

ARTE 359 - Practicum in Visual Arts Education

In this practicum, teacher candidates are provided extended opportunities to observe, practice, teach and reflect on their experiences in visual arts classrooms at both elementary and secondary levels. Field placements in diverse school communities are arranged and supervised by VAE faculty in collaboration with practicing visual arts educators.

Credit Hours: 3 hrs

Prerequisite: ARTE 357, ARTE 360, EDPS 322, admission to the Initial Teacher Preparation Program, and department permission

Corequisites: ARTE 358

Major Restrictions: BFA with K-12 certification and Bachelor of Visual Arts Education students only

Last Updated: New Course 05/2011, effective Spring 2011; Prerequisites/Concurrent Prerequisites/Corequisites 05/2011, effective Fall 2011

ARTE 360 - Technology in Visual Arts Education

This course prepares pre-service art teachers for technology applications in art education. These applications include artmaking, inquiry, classroom management, communication, assessment, professional development and arts advocacy. Students will learn hardware and software as well as critically and creatively apply educational concepts and principles in technology integration for meaningful art learning.

Credit Hours: 3 hrs

Prerequisite: CURR 305; department permission

Major Restrictions: Visual Arts Education Majors only and admission to the College of Education

Previously Listed As: ART 331 **Course Revisions:**

Course Revisions: This course will have a prerequisite change from "CURR 305; department permission" to "none," effective Winter 2013. The revision also includes a corequisite change from "none" to "ARTE 358 and department permission."

Last Updated: Prerequisite and Corequisite Change 05/2012, effective Winter 2013

ARTE 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART 377

Last Updated: 03/2011

ARTE 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART 378

Last Updated: 03/2011

ARTE 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART 379

Last Updated: 03/2011

ARTE 460 - Approaches to Teaching Visual Arts Education

This professional education course is designed to prepare visual art teacher candidates for engaging K-12 students of different backgrounds and abilities in meaningful visual art learning experiences. Teacher candidates investigate significant contemporary visual art education approaches and issues, and design units of instruction for elementary and secondary levels. This course includes an extended hands-on academic service learning experience at Riverside Art Center.

Credit Hours: 4 hrs

Prerequisite: ARTE 357, and department permission

Class Restrictions: Junior standing

Major Restrictions: Admission to the Initial Teacher Preparation Program

Previously Listed As: ART 416

Course Revisions: This course will have a prerequisite change from "ARTE 357, and department permission" to "ARTE 357, ARTE 358 and department permission," effective Winter 2013. The revision also includes a class restriction change from "Junior standing" to "none."

Last Updated: Prerequisite and Class Restriction Change 05/2012, effective Winter 2013; Credit Hours 07/2011

ARTE 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Art History

ARTH 100 - Art Appreciation (Gen Ed Area IV)

The aim is to acquaint students with art philosophies, their elements, principles and values.

Credit Hours: 3 hrs

Previously Listed As: ART100

Area IV: Knowledge of the Disciplines

ARTH 100 Art Appreciation [was FA 100]

Visual culture is an important means of expression and communication in the contemporary world. From advertisements to traffic signs, from television shows to food packaging, visual communication is used today to inform, manipulate and record social, political and economic values of our society. The visual culture of today is an extension and evolution of the visual culture of the past. Art is a primary means by which people throughout the world have been recording and relating their cultural values, philosophies, social identities and historical development. Art appreciation is the skill by which one can read, understand and enjoy these works of art. Through an understanding of important works of art, and the great artists who produced them, this course will be of value in the critical and intellectual understanding of the evolution of our history.

A student who successfully completes this course will learn how aesthetics, history, the visual vocabulary of art, the relationship between content and form and the dynamics of the visual language are the necessary means by which we increase our knowledge and awareness of ourselves, our culture and the world in which we live. Through the examination of important works of art, students will learn the essential descriptive vocabularies of the visual arts, how formal properties (style) shape and inform the content of a given work of art. Students will develop an ability to decode iconographic symbols and stylistic conventions that are culturally and historically specific, as well as symbols and intentions specific to particular artists and their work.

Last Updated: 07/2010 Effective 2010

ARTH 151 - Reason and Revolution (Gen Ed Area IV)

An examination of the transition in political history, philosophy, art, literature and music from Puritan England and Louis XIV's France to Napoleon. Team taught by members of the Art and History departments.

Credit Hours: 3 hrs

Previously Listed As: ART151

[Honors Only]

Area IV: Knowledge of the Disciplines

ARTH 151 Reason and Revolution [effective Fall 2008]

This inter-disciplinary course in history and art history is intended to introduce students to the works of art, philosophy and literature associated with a major turning point in European and world history- the Enlightenment and the French Revolution. It will offer students the opportunity to study the ideas that found their first political expression in the American Constitution, from their beginnings in the 17th century France and England through through the turmoil of revolution and war. The course will encourage students to analyze and write about a variety of artistic, philosophical and literary works in a specific historical context, and to understand how political events influenced humanistic thought and how the humanities shaped political and social change.

ARTH 161 - Survey of Non-Western Art (Gen Ed Area III, IV)

An introductory historical survey of the visual arts and architecture of cultures not directly linked to the artistic and cultural traditions of Western Civilization. Art works by the native inhabitants of Africa, Oceania, Asia and the Americas are examined for their historical and cultural significance.

Credit Hours: 3 hrs

Previously Listed As: ART109

Area III: Perspectives on a Diverse World

Since the dawn of humanity human societies have been driven to create and embellish material objects giving visual expression to cultural values, social identities, religious beliefs, and individual concerns. Since art is a cultural phenomenon integral to the lives of people throughout the globe the study of it is a great way to gain timely and substantive insight into diverse cultures and the issues that concern them. Art from other places and times can also reveal ways of looking and thinking about the world and the place of humans in it that are different than one's own. For these reasons this course, which is concerned with the study of artworks created by artists whose primary cultural affiliations and ethnic heritages lie outside the greater European cultural context, meets the Global Awareness category of the General Education program. Through the study of artworks, the contexts in which they were created, and the people who made them, one will gain a foundational knowledge of diverse cultures throughout the globe and help one develop an awareness and sensitivity to different viewpoints on local and global issues and concerns that are voiced by artists from cultural backgrounds beyond the Western world.

Area IV: Knowledge of the Disciplines

ARTH 161 Survey of Non-Western Art

The visual arts of non-western cultures are an important part of our world heritage. Art is an expression of cultural values, social identities and a means by which people throughout the globe have used to make meaning and sense of their world. A knowledge of non-western art should be no less important as part of a student's general education program than an understanding of great artworks and famous artists of western civilization. In the increasing interconnectedness and globalizing world of the present it is important that recognition be given to artistic achievements of other cultures as well as how those achievements relate to the art of ones own culture and that of others make meaning through art. Through the examination of non-western artworks students will learn the essential descriptive vocabularies of the visual arts, how formal properties (style) shape and inform the content of a given work of art; they will develop an ability to decode iconographic symbols and stylistic conventions that are culturally and historically specific. Students will also become more aware of the interrelationships among different cultures and the historic dynamics that have shaped the world and how an understanding of art can reveal cultural biases and help to better appreciate global diversity.

Last Updated: 12/2010

ARTH 162 - Survey of Western Art I (Gen Ed Area IV)

A survey of the development of the visual arts of the western world, from Paleolithic times art through the late Gothic period.

Credit Hours: 3 hrs

Previously Listed As: ART107

Area IV: Knowledge of the Disciplines

ARTH 162 Survey of Western Art I [was FA 107]

ARTH 162 allows students to learn the content and methodologies by which one can understand the meaning presented in the visual arts. Through lectures and discussion, students will learn the essential descriptive vocabulary of the visual arts, and how formal properties (style) shape and inform the content of a given piece of art or architecture. In addition, they will develop an ability to decode iconographic symbols and stylistic conventions that are culturally and historically specific and significant. For example, a comparison between the art of Akenaton's kingdom and both earlier and later periods of ancient Egypt, students will see the important changes wrought in the culture and religion of the Late Kingdom. Students will also become more aware of the interrelationships among different cultures and the historical dynamics that have shaped the world and its visual expression.

ARTH 165 - Postmodern and Contemporary Art

This course, an introduction to the major trends and movements in recent art, is designed to help students learn and think critically about prevalent attitudes and theories about contemporary visual culture as well as to recognize the increasingly vital role played by the mass media and technology in the creation and dissemination of art. New media, such as video and digital art, and innovative forms of visual expression, such as conceptual and environmental art, will be investigated. Art will be examined as a response to current social, cultural, political and gender issues as will the reasons why artists make the shift from modernist to post-modernist strategies for making their work.

ARTH 267 - History of Asian Art (Gen Ed Area IV)

A survey of Far Eastern art, with emphasis on the artistic and cultural traditions of South Asia, China and Japan. Works of art are examined for their cultural and historical significance.

Credit Hours: 3 hrs

Previously Listed As: ART 221

Area IV: Knowledge of the Disciplines

History of Asian Art

In this course art is treated as an expression of cultural values, social identities and a means through which the people of Asia have made meaning and sense of their world. Across the continent of Asia many rich and long lasting artistic traditions have emerged and still play an important role in the lives of the people who live there. Through the examination of Representative artworks and architectural monuments of Asia students will learn the essential descriptive vocabularies of the visual arts, how formal properties (style) shape and inform the content of a given work of art; they will develop an ability to decode iconographic symbols and stylistic conventions that are culturally and historically specific. Although this course focuses on the art of Asia the concepts and methods for understanding art learned in this class are also applicable to understanding art in other contexts. Students will also become more aware the interrelationships among different cultures and the historical dynamics that have shaped the cultural and political landscape of Asia and how an understanding of art can reveal cultural biases and help one better appreciate global diversity.

Art Studio

ARTS 101 - Introduction to Art (Gen Ed Area IV)

An introductory course designed to develop understanding of the formal and conceptual aspects of the visual arts. Students will become familiar with art and artists from historical, contemporary, stylistic, and aesthetic perspectives. Emphasis will be on basic studio practices as a means of understanding visual language. No previous experience in art expected.

Credit Hours: 3 hrs

Previously Listed As: ART101

Area IV: Knowledge of the Disciplines

ARTS 101 Introduction of Art [was FA 101]

The visual arts communicate, express, record, capture, affect and reflect the world around us. The knowledge of how and why art has been created, how art relates to history and contemporary culture and understanding creative processes are an important part of any student's general education program. In this course, students will learn how a variety of visual art is produced. They will become familiar with the visual creative process as a means of understanding and appreciating the visual arts. Investigation of contemporary art practices will lead to an understanding of form and content. This will be achieved through hands-on projects, research and writing elements. Lectures, demonstrations, discussions and studio activities will be the primary means of investigation. No previous experience in the arts is expected.

ARTS 102 - Jewelry for Nonmajors

A hands-on approach to provide students with the opportunity to develop artistic and technical skills with metal and other jewelry materials.

Credit Hours: 3 hrs

Previously Listed As: ART167

ARTS 103 - Ceramics for Nonmajors (Gen Ed Area IV)

A hands-on approach to provide students with the opportunity to develop skills and aesthetic understanding in forming, glazing and firing. The emphasis in this beginning course is on hand building forms; however, the use of the potter's wheel will be introduced.

Credit Hours: 3 hrs

Previously Listed As: ART166

Last Updated: Gen Ed Approval 11/2011, effective Fall 2011

ARTS 104 - Graphic Design for Nonmajors (Gen Ed Area IV)

Problems will explore fundamental design and basic production considerations and the development of a professional design thought process.

Credit Hours: 3 hrs

Previously Listed As: ART165

Area IV: Knowledge of the Disciplines

ARTS 104 Graphic Design for Non-Majors [effective Winter 2009]

Graphic design is a crucial component of visual communication. yet it is often "invisible" to those who encounter it, we are used to reading text without thinking about the impact of the typography- the visual vehicle by which information is transmitted. Visual communication rivals verbal communication in its ability to communicate. The correspondence between content and form is intrinsic to graphic design- design is structured around the communication of information from client and designer to a target audience. The formal material of graphic design, typography and image, must work together effectively in order to communicate the specific content of a project. Through the creation of design artifacts, students will learn the essential descriptive vocabularies of graphic design, and how a designer's choices about type and image in a piece shape the content of design. Through examination and analysis of professional graphic design, students will become familiar with the relationship between creative process and critical thinking. Graphic design offers audiences visual communicative data- in the form of type and image- that reflect, and also orchestrate, an array of cultural concerns. Understanding and experiencing how effective visual communication is produced offers students, insight into the role visual media play in molding the character of a culture.

ARTS 105 - Photography for Non-Majors (Gen Ed Area IV)

This is an introductory course in film-based art black and white photography. It covers the basic tools of the medium, including camera use, film developing, and printing. The class is designed to allow students to become familiar with visual arts and the artistic process using the camera as a tool for personal expression.

Credit Hours: 3 hrs

Notes: Students must supply their own 35 mm film camera.

Previously Listed As: ART168

Area IV: Knowledge of the Disciplines

ARTS 105 Photography for Non-Majors

The visual arts communicate, express, record, capture, affect and reflect the world around us. The knowledge of how and why art has been created, how art relates to history and contemporary culture and an understanding of creative processes are an important part of any student's general education program. This course allows students to become familiar with the visual arts and the artistic process through an in-depth exploration of a single media (photography) and the tools/concepts associated with it.

ARTS 106L - Watercolor for Non-Majors (Gen Ed Area IV, V LBC)

This course will introduce students to traditional and experimental watercolor techniques and processes. This course will provide students with studio experiences and art-making and will explore both contemporary and historical watercolor painting through slides and lectures.

Credit Hours: 3 hrs

Previously Listed As: ART169L

Area IV: Knowledge of the Disciplines

ARTS 106L Watercolor for Non-Major (also fulfills Area V, Group 3, Option III)

Visual art is an important tool for communication both in public and personal contexts. Making art as well as learning to interpret both historical and contemporary art teaches students to be more visually aware, and gives them a richer understanding of visual media in both fine arts and contemporary culture. Watercolor painting is a visual art medium that has an historical presence in world art, while continuing to play a role in contemporary painting and drawing and in popular culture. This course provides students with a hands-on experience in studio art, beyond the classroom activities in the form of arts, lectures and gallery experiences, and exposure to knowledge and skills important for both creating visual pieces and for understanding how visual art, specifically painting communicates. In this course, students learn both traditional and experimental watercolor technique and processes and explore ways to combine the formal visual elements of their work with the content. Importantly, these experiences will help to increase awareness and understanding of visual art in contemporary culture, while empowering students to investigate different and creative means of expression.

Last Updated: Links 03/2011

ARTS 121 - Two-Dimensional Design

A foundation course dealing with an analytical approach to the study of the elements of design: color, line, shape, value and texture.

Credit Hours: 3 hrs

Previously Listed As: ART122

ARTS 122 - Three-Dimensional Design

Basic study of three-dimensional structures and systems.

Credit Hours: 3 hrs

Previously Listed As: ART131

ARTS 123 - Foundations Drawing I

Introduction to drawing fundamentals with an emphasis on object and spatial representation through descriptive and expressive means. Individual problems assigned to foster the development of competent observational skills in a variety of media and to expose students to basic terminology. Group discussions and critiques are frequent.

Credit Hours: 3 hrs

Previously Listed As: ART123

ARTS 126 - Foundations Drawing II

Further exploration of drawing fundamentals with an emphasis on interpretive skills and composition. Extensive experimentation in basic drawing media, pictorial organization, and idea generation are stressed. Subjects such as the human figure are introduced and group discussions and critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 121 and ARTS 123

Previously Listed As: ART 124

Last Updated: 2/18/2011

ARTS 127 - Foundations Digital Media

This course is an introduction to the use of the computer as an art-making tool. Through readings, lectures, and discussions students will explore a wide range of approaches to digital media as well as its larger cultural implications. Exposure to contemporary artists who use the computer at some point in their process will give students insight into its applications across all media.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, and ARTS 123

Previously Listed As: ART 330

Last Updated: 2/18/2011

ARTS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may take this course more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART177

ARTS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may take this course more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART178

ARTS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may take this course more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART179

ARTS 201 - Painting I

An introductory course stressing the basics of oil and/or acrylic painting, with major emphasis on an observational approach to subject matter. Students are provided opportunities to experiment with a variety of techniques and materials, and they are introduced to conceptual and formal aspects of painting as they pertain to their work and the works of various artists throughout history.

Credit Hours: 3 hrs

Prerequisite: ARTS 121 and ARTS 126

Previously Listed As: ART 313

Last Updated: 5/2/2011 - Prerequisites

ARTS 205 - Beginning Life Drawing

Study of the human figure through the use of predominantly nude models. The dynamic and complex structure of the human figure is explored in a variety of materials and exercises designed to nurture a fluent understanding of the active and passive nature of the human body.

Credit Hours: 3 hrs

Prerequisite: ARTS 126, and department permission

Previously Listed As: ART 210

Last Updated: 2/18/2011

ARTS 210 - Screen Printing I

An introductory course that covers paper screen printing processes. Processes to be covered are reductions, transparencies, photographic processes, and methods of monoprinting. Students are expected to develop concepts and pursue a greater understanding of contemporary art.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, ARTS 123, and department permission

Previously Listed As: ART 305

Last Updated: 2/18/2011

ARTS 215 - Watercolor I

Introduction to watercolor techniques and processes with an emphasis on formal elements such as composition, color and value. Projects for the course are designed to encourage the exploration of a variety of subject matter and content. Individual and group critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 126

Previously Listed As: ART 314

Last Updated: 5/2/2011 - Prerequisites

ARTS 216 - Watermedia-Mixedmedia

The focus of this course is on connecting content with process. Students develop ideas for work and use water-based pigments with other materials to create mixed-media pieces. The class will focus on contemporary artists and ideas. Group and individual critiques are incorporated in all assignments for this course.

Credit Hours: 3 hrs

Prerequisite: ARTS 121 and ARTS 123

Previously Listed As: ART 250

Last Updated: 5/2/2011 - Prerequisites

ARTS 221 - Beginning Photography

An introduction to photography as an art form. Basic camera and darkroom techniques are covered, with an emphasis on using these tools to a creative end.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 123, and department permission

Notes: Students must furnish their own manual cameras, as well as additional supplies.

Previously Listed As: ART 304

Last Updated: 2/18/2011

ARTS 225 - Beginning Ceramics

Beginning ceramics emphasizes hand-building techniques using earthenware and stoneware clays. The focus includes sculptural and utilitarian form; portrait busts, storage jars, platters, and cups are some of the assignments. Students learn to build forms using slabs, molds, modeling, and extruding techniques; alter surfaces, apply slips and glazes; and fire in electric and gas kilns.

Credit Hours: 3 hrs

Prerequisite: ARTS 122 and department permission

Previously Listed As: ART 307

Last Updated: 2/18/2011

ARTS 230 - Metalsmithing I

The course uses the media of metal and related materials to communicate ideas. Students work on pieces of adornment (jewelry), small sculpture and/or utilitarian items. This course applies the vocabulary of art to the understanding of metalsmithing in critiques and professional work. Students will learn to work with a myriad of tools, test their time management skills, focus on details and learn to work through a strict technical process for success in this media.

Credit Hours: 3 hrs

Prerequisite: ARTS 122 and department permission

Previously Listed As: ART 320

Last Updated: 2/18/2011

ARTS 235 - Beginning Sculpture

Beginning Sculpture further emphasizes the formal and technical processes and unique qualities of three dimensions. We look closely at sculpture's connection to the human scale and architectural relationships. We cover the very basic use of materials and their plastic qualities.

Credit Hours: 3 hrs

Prerequisite: ARTS 122 and department permission

Previously Listed As: ART 310

Last Updated: 2/18/2011

ARTS 240 - Introduction to Fibers

An introduction to fibers focusing on a broad range of fiber processes and techniques including surface design, weaving and three-dimensional fibers. This course will introduce a contemporary approach to the fibers field, which will emphasize fundamental fiber processes and the creative development of ideas.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, and department permission

Previously Listed As: ART 235

Last Updated: 2/18/2011

ARTS 245 - Introduction to Furniture Design

This course introduces students to the tools and materials of furniture making, focusing on the physical characteristics of wood and ways to shape, cut, and join it. The course will also introduce design methodology, furniture design history, and drawing techniques.

Credit Hours: 3 hrs

Prerequisite: ARTS 122 and department permission

Previously Listed As: ART 280

Last Updated: 2/18/2011

ARTS 250 - Introduction to Graphic Design I

Projects examine two-dimensional typographic space; language sequence and information hierarchy; type families and their structure; typographic aesthetic; typographic history. Introduces appropriate tools.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 123, one Art History (ARTH) course, and department permission

Previously Listed As: ART 201

Last Updated: Prerequisite Change 02/2012, effective Fall 2012

ARTS 255 - Introduction to Time-based Media

This course introduces students to basic concepts and methods commonly used in the production of time-based media as it is employed in an art context. The course provides a technical foundation for subsequent time-based media courses by introducing students to a variety of techniques used for the creation of screen-based works of art such as non-linear video editing, sound, and video compositing. The course also introduces students to historic and contemporary practitioners.

Credit Hours: 3

Prerequisite: ARTS 127

Last Updated: 7/7/2011

ARTS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART277

ARTS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART278

ARTS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART279

ARTS 290 - Studio Concepts

Studio Concepts is a foundation course that emphasizes ideas and conceptual thinking as the nexus of contemporary studio practice. The course is not discipline or media specific. Contemporary themes and "large ideas" will be presented to students, who will create artworks in response to those themes using a wide variety of media and strategies. Written work, both in preparation for and in response to the completed studio projects, will assist students in building a vocabulary for communicating about visual and material language and art-related concepts. As the final studio experience within the foundation group of courses, Studio Concepts is designed to prepare students for the more rigorous conceptual thinking and self-directed work required by upper-level studio classes.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, and ARTS 123

Concurrent Prerequisite: ARTS 126, ARTS 127, ARTH 165

Last Updated: 2/18/2011

ARTS 300 - Color Theory

This is an introductory course in which students learn the basics of subtractive color. A series of lectures and related studio problems are utilized to develop an understanding of color systems, the characteristics of color, and how to control the visual aspects of color through both mixture and juxtaposition. As students gain a greater understanding of the subject matter, more individualized assignments may be introduced.

Credit Hours: 3 hrs

Prerequisite: ARTS 126 and department permission

Last Updated: 2/18/2011

ARTS 301 - Intermediate Painting: Surface, Process & Concept

This intermediate painting course will stress conceptual motivations for making paintings and focus upon the material and procedural means by which paintings are constructed. Emphasis will be placed on non-observational approaches to painting. Students will have the opportunity to experiment with a variety of techniques, materials and supports beyond those used in Beginning Painting. They will also be introduced to a range of modern and contemporary painters/artists for whom process, materials and conceptual strategies are primary concerns. This course is a studio-based workshop supplemented with lectures, discussions, readings and demonstrations. Written assignments may also be required.

Credit Hours: 3 hrs

Prerequisite: ARTS 201, ARTS 290 and completion of foundations portfolio review

Last Updated: 5/2/2011 - Prerequisites

ARTS 302 - Figurative Painting

This course investigates the human form through painting, primarily using nude models for subject matter. Students will investigate a variety of formal and technical approaches to painting the figure. Students will also be introduced to contemporary and historic artists and issues specifically related to figurative works.

Credit Hours: 3 hrs

Prerequisite: ARTS 201, ARTS 290 and completion of foundations portfolio review

Previously Listed As: ART 480

Last Updated: 5/2/2011 - Prerequisites

ARTS 305 - Intermediate Life Drawing

Further study of the human figure as a subject in various media with an emphasis on the expressive use of the figurative motif.

Credit Hours: 3 hrs

Prerequisite: ARTS 205

Previously Listed As: ART 316

Last Updated: 5/2/2011 - Prerequisites

ARTS 306 - Intermediate Drawing

Further studies in drawing with an emphasis on history, theory, and practice. Drawing techniques from previous courses will be integrated in expanded studies which focus on various concepts such as: the visual environment, narrative, and sequential art in order to establish a broad based understanding of the relationship between form and content.

Credit Hours: 3 hrs

Prerequisite: ARTS 126

Last Updated: 5/2/2011 - Prerequisites

ARTS 307 - Drawing: Contemporary Methods and Materials

Intensive study and investigation of the relationship between space, form, and content. Emphasis is placed on media and methods as a means of exploring non-traditional approaches to drawing and as a tool for problem solving ideas through drawing as a process. Students will be exposed to contemporary issues and ideas through the use of research assignments, reading, and large scale projects to expand their understanding of an artists process of conceptualization.

Credit Hours: 3 hrs

Prerequisite: ARTS 205, ARTS 290 and successful completion of Foundations Portfolio Review

Last Updated: 7/7/2011

ARTS 310 - Screen Printing II

A supplementary course on paper screen printing processes. Processes to be covered are photographic processes, CMYK, and monoprinting. Students are expected to develop concepts, work independently and pursue a greater understanding of contemporary art.

Credit Hours: 3 hrs

Prerequisite: ARTS 210, instructor approval, and department permission

Previously Listed As: ART 405

Last Updated: 2/23/2011

ARTS 311 - Etching and Intaglio

An introductory course that covers intaglio printmaking processes. Processes to be covered are drypoint, aquatint, monotyping, and etching. Students are expected to develop concepts and pursue a greater understanding of contemporary art.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, ARTS 123, and department permission

Previously Listed As: ARTS 311 - Relief and Intaglio, ART 306

Course Revisions: This course will have a title change from "Relief and Intaglio" to "Etching and Intaglio," effective Winter 2013. The revisions also includes a course description change.

Last Updated: Title and Description Change 10/2012, effective Winter 2013

ARTS 312 - Lithographic Printing

An introductory printmaking course dealing with image, design, and concepts as they relate to Lithography. Processes to be covered are stone lithography, reduction printing methods, color printing, and methods of monoprinting. Students are expected to develop concepts, and pursue a greater understanding of the contemporary art.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, ARTS 123, and department permission

Last Updated: 2/23/2011

ARTS 313 - Relief Printmaking (NEW COURSE)

An introductory course that covers relief printmaking processes. Processes to be covered are linoleum relief prints, color reduction, woodcut and multiple block printing. Students are expected to develop concepts and pursue a greater understanding of contemporary art.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, ARTS 123 and foundations review

Class Restrictions: Sophomore standing and above

Major Restrictions: BFA in Studio Art, BS in Studio Art, and BA in Visual Arts Education students only

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

ARTS 315 - Watercolor II

Further exploration of concepts and techniques introduced in Watercolor I. Projects and assignments are designed to help students refine and expand watercolor technique and processes as well as foster individual research and the development of personal direction. Individual and group critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 215, ARTS 290 and completion of foundations portfolio review

Previously Listed As: ART 414

Last Updated: 5/2/2011 - Prerequisites

ARTS 316 - Watercolor III

This course builds on concepts and techniques from Watercolor I and II. Focus is on pursuing an individual direction and establishing practices and processes for developing related series of paintings. Individual and group critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 315

Previously Listed As: ART 423

Last Updated: 5/2/2011 - Prerequisites

ARTS 321 - Intermediate Photography I

An investigation of intermediate and advanced black and white techniques. Student continue to explore a conceptual approach to the medium while beginning to develop their own personal vision. The work of other photographers is considered to give students a better understanding of the photographic language.

Credit Hours: 3 hrs

Prerequisite: ARTS 221, ARTS 290, passed foundation review, and department permission

Previously Listed As: ART 325

Last Updated: 2/23/2011

ARTS 322 - Intermediate Photography II

A continued investigation of techniques used in fine art photography with a particular focus on computer imaging. Students continue working to develop a personal style in preparation for the portfolio classes.

Credit Hours: 3 hrs

Prerequisite: ARTS 221, ARTS 290, passed foundation review, and department permission

Previously Listed As: ART 326

Last Updated: 2/23/2011

ARTS 323 - Intermediate Photography III

This is a second/third/fourth semester course in photography. It is designed to give students a better understanding of the technical aspects of photography while challenging them to refine their own artistic vision and critical abilities. Instruction will include technical lectures and demonstrations, open lab sessions for addressing problems on an individual level, critiques of class work, slide and reading discussions.

Credit Hours: 3 hrs

Prerequisite: ARTS 221, ARTS 290, passed foundation review, and department permission

Concurrent Prerequisite: ARTS 322

Last Updated: 2/24/2011

ARTS 325 - Intermediate Ceramics I

Further experiences in handbuilding with clay, in addition to beginning throwing on the wheel. A continuation of both sculptural and utilitarian ceramic assignments with an emphasis on craftsmanship; more work done at stoneware temperatures.

Credit Hours: 3 hrs

Prerequisite: ARTS 225, ARTS 290, passed foundation review, and department permission

Previously Listed As: ART 308

Last Updated: 2/24/2011

ARTS 326 - Intermediate Ceramics II

Continuing exploration of the clay medium with more emphasis on larger scale and increasingly complex sculptural and utilitarian forms. Alternative firing techniques are available -- salt, wood, and soda firings. Throwing is included. Introduction to glaze and clay testing methods.

Credit Hours: 3 hrs

Prerequisite: ARTS 325 and department permission

Previously Listed As: ART 407

Last Updated: 2/24/2011

ARTS 330 - Metalsmithing II

The course introduces complex fitting and soldering, cold forging, and small-tool making for chasing and repousse. Box construction is emphasized. The students improve their skills learned in Metalsmithing I and will begin to design with a personal style and meaning in their work.

Credit Hours: 3 hrs

Prerequisite: ARTS 230, ARTS 290, passed foundation review, and department permission

Previously Listed As: ART 321

Last Updated: 2/24/2011

ARTS 331 - Metalsmithing III

This course will focus on skills such as the use of the correct hammers for forming, raising, planishing, forging and texturing. Students learn to control a form in metal by making a template and raising according to the template. The students will also learn to increase the speed at designing and will experiment with a new technique to complete a three piece set of objects. The course will continue to develop style and meaning in student work while building a portfolio of exhibition work. Additional skills to be developed will be patina application, stick soldering, alternative finishes and hinges and photographing work.

Credit Hours: 3 hrs

Prerequisite: ARTS 330 and department permission

Previously Listed As: ART 442

Last Updated: 2/24/2011

ARTS 335 - Intermediate Sculpture

This course expands mainly on the vast number of materials, techniques and processes necessary to execute finished sculptures. Major aspects of wood and metal fabrication and mold-making are covered in depth. All of the assignments also deal with the conceptual aspects of sculpture.

Credit Hours: 3 hrs

Prerequisite: ARTS 235, ARTS 290 and completion of foundations portfolio review

Previously Listed As: ART 311

Last Updated: 5/3/2011 - Prerequisites

ARTS 340 - Weaving

An intermediate fibers class focusing on concepts using woven structures to explore historical and contemporary weaving. Fabrics will be investigated and created on the floor loom, which will be used as a tool for personal expression.

Credit Hours: 3 hrs

Prerequisite: ARTS 240, ARTS 290, passed foundation review, and department permission

Previously Listed As: ART 355

Last Updated: 2/24/2011

ARTS 341 - Intermediate Surface Design: Screen Printing

Intermediate fibers class focused on developing concepts through technical and creative solutions utilizing a broad range of materials and techniques. The techniques will range from low-tech to complex applications incorporating transparent and opaque textile pigments, thickened dye and discharge pastes.

Credit Hours: 3 hrs

Prerequisite: ARTS 240, ARTS 290, passed foundation review, and department permission

Previously Listed As: ART 356

Last Updated: 2/24/2011

ARTS 345 - Intermediate Furniture Design

Intermediate Furniture Design will focus on advanced woodworking processes along with their structural and aesthetic implications. These processes will include turning, laminate bending, vacuum bending, veneering, and relevant joinery methods. Students will design and build multiple furniture projects using these techniques.

Credit Hours: 3 hrs

Prerequisite: ARTS 245, ARTS 290, passed foundation review, and department permission

Last Updated: 2/24/2011

ARTS 350 - Introduction to Graphic Design II

Projects examine type methodology; complex typographic systems; rhetorical devices; word-image structures; typographic history and theory. Introduces appropriate tools.

Credit Hours: 3 hrs

Prerequisite: Grade of "C" or better in ARTS 250, ARTS 290 and completion of foundations portfolio review

Previously Listed As: ART 205

Last Updated: 5/3/2011 - Prerequisites

ARTS 351 - Image Making I

Image making as it applies to the materials and processes of communicating specific visual concepts. Introduces a wide variety of materials and imaging methods.

Credit Hours: 3 hrs

Prerequisite: Grade of "C" or better in ARTS 250, and department permission

Previously Listed As: ART 301

Last Updated: 2/24/2011

ARTS 352 - Intermediate Graphic Design I

Deals intensively with conceptual and technical issues; explores topics relevant to audience demographic; presents theories, philosophies, aesthetics and techniques related to mass-audience communication. Introduces appropriate methodologies.

Credit Hours: 3 hrs

Prerequisite: ARTS 350, ARTS 351, and department permission

Previously Listed As: ART 302

Last Updated: 2/24/2011

ARTS 353 - Intermediate Graphic Design II

Course analyzes symbol codes as learned and interpreted messages. Projects explore audience; context; sequence; and theories, philosophies, aesthetics, techniques and cultural references in symbol language message building. Introduces appropriate methodologies.

Credit Hours: 3 hrs

Prerequisite: Grade of 'C' or better in ARTS 352, ARTS 290, passed portfolio review, and department permission

Previously Listed As: ART 303

Last Updated: 2/24/2011

ARTS 355 - Introduction to Web and Interactive Media

This course introduces students to the fundamentals of web-based and interactive works of art. The course introduces students to appropriate scripting languages used to create web-based and interactive work. Conceptual and methodological approaches to web and interactive media are discussed. No previous programming experience is necessary.

Credit Hours: 3

Prerequisite: ARTS 127

Last Updated: 7/7/2011

ARTS 356 - Installation and Performance

This course examines methods and materials for the creation and documentation of site-specific and performative works of art. Students create work that explores the integration of video, interactivity, and performance within a physical environment. Concepts of corporeality, duration/endurance, material methodologies and space are discussed as they pertain to visual art.

Credit Hours: 3

Prerequisite: ARTS 255, ARTS 355, or instructor approval.

Last Updated: 7/7/2011

ARTS 357 - Intermediate Time-based Media

This course introduces students to advanced concepts and methods used in the production of time-based media as it is employed in an art context. Narrative, non-narrative, and performance structures are further explored. Additional methods of production, such as experimental animation, are introduced. The exhibition of scree-based work, both within the gallery and alternative venues, is further investigated.

Credit Hours: 3

Prerequisite: ARTS 255

Last Updated: 7/7/2011

ARTS 358 - Intermediate Web and Interactive Media

This course further explores web-based and interactive works of art. Conceptual and methodological approaches to web and interactive media are further discussed. The course explores web memes and their role in visual art. Interactive environments and

physical computing are introduced. The exhibition of interactive and net-based work, both within the gallery and alternative venues, is further investigated.

Credit Hours: 3

Prerequisite: ARTS 355

Last Updated: 7/7/2011

ARTS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART377

ARTS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART378

ARTS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART379

ARTS 387 - Cooperative Education in Art

Employment in a graphic design firm, studio, or agency with an opportunity for practical design experience. Placement approval required by graphic design area.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART387

ARTS 390W - Studio Concepts (Gen Ed Area I, W)

Studio Concepts addresses conceptual/methodological approaches/practices for the making of art. The course is designed to expose students to conceptualization, visual production and meaning within the art world. It will examine contemporary artist's works and writings as well as larger critical theories.

Credit Hours: 3 hrs

Prerequisite: ARTS 121, ARTS 122, ARTS 123, ARTH 165 and departmental permission

Concurrent Prerequisite: ARTS 126, ARTS 127, ARTH 165

Previously Listed As: ARTS 390

Area I: Effective Communication

ARTS 390W Studio Concepts

The Writing Intensive components in the Studio Concepts course are designed to give students experience writing within the field of visual art. Specific assignments include written artist statements, short narratives for the purpose of planning and describing upcoming projects, and written critiques and evaluations of peer work. For these writing assignments, students will be required to effectively bring together and utilize concepts and vocabulary introduced in prerequisite and co-requisite courses. Studio Concepts will provide students with practical writing skills in critical activities such as how to create an effective artist's statement, an ability studio artists need as they prepare for exhibitions and other professional events. The capacity to use writing to plan specific projects is also a critical skill; professional artists frequently apply for exhibitions, projects, and grants for which clearly written documents are essential to success. Finally, being able to write thoughtful and effective critiques of visual work is key to an artist's ability to analyze his or her own work and is important if an individual is to grow and develop effectively as an artist.

Last Updated: Gen Ed Approval 12/2011, effective Winter 2012; New Course 04/2011, effective Spring 2011

ARTS 401 - Advanced Painting I

Emphasizes the individual student's development of a personal direction in his/her work, which is supported by a sound conceptual foundation and is executed through appropriate technical means. There is a greater expectation of intellectual growth and focused skill development at this level.

Credit Hours: 3 hrs

Prerequisite: ARTS 301 and ARTS 302

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 413

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 403 - Advanced Painting II

The culmination of the five-course painting sequence. By the end of this course, students are expected to present a cogent body of work that is conceptually and technically sound and at a level that demonstrates they are reasonably situated to proceed to master's level work, or to enter society as a working artist. A greater emphasis on research and writing may be included in the curriculum at this level.

Credit Hours: 3 hrs

Prerequisite: ARTS 401 and ARTS 300

Corequisites: ARTS 490W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 481

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 405 - Advanced Life Drawing

Investigation of contemporary approaches to the human figure as a subject. Emphasis is placed on interpretive skills and the development of a personal direction, which is supported by sound technical and conceptual foundation. Group discussions and critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 290, ARTS 305 and completion of foundations portfolio review

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 419

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 406 - Advanced Drawing

Intensive studio work in selected perceptual or conceptual problems. Emphasis is on independent research and the development of a personal direction, which is supported by a sound technical and conceptual foundation. Group discussions and critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 205 and ARTS 306

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 432

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 407 - Advanced Life Drawing II

Intensive studio work involving the human figure as subject in selected projects and drawing media. Emphasis is on independent research and the development of a cogent body of work that is technically and conceptually sound. Group discussions and critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 300, ARTS 307 and ARTS 405

Corequisites: ARTS 490W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 439

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 408 - Advanced Drawing II

Further intensive studio work in selected perceptual or conceptual problems. Emphasis is on independent research and the development of a cogent body of work that is technically and conceptually sound. Group discussions and critiques are frequent. Students will explore personal and aesthetic issues through independently driven assignments, class critiques, and visual and written materials, in the pursuit of creating an individual portfolio representative of a body of work.

Credit Hours: 3 hrs

Prerequisite: ARTS 300, ARTS 307 and ARTS 406

Corequisites: ARTS 490W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 410 - Intermediate Printmaking

Intermediate level course that focuses on combining previous processes and taking a non-traditional approach. The course places an emphasis on working independently and conceptual development. This course will also include more in-depth critiques, research and presentations.

Credit Hours: 3 hrs

Prerequisite: ARTS 290; Three of the following courses: ARTS 210, ARTS 310, ARTS 311, or ARTS 312; and have passed foundation review

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 406

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 411 - Advanced Printmaking

An advanced printmaking course that pushes the understanding of earlier processes. Students develop thematic work and are expected to push the dialogue to a more advanced level. Students are also expected to work independently on projects agreed upon by the instructor.

Credit Hours: 3 hrs

Prerequisite: ARTS 410 and department permission

Corequisites: ARTS 490W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 416 - Watercolor IV

Continuing development of an individual direction through research, planning, and process. Students focus on depth of content and self-evaluation. Preparation for the Senior Exhibition is emphasized. Individual and group critiques are frequent.

Credit Hours: 3 hrs

Prerequisite: ARTS 300, ARTS 306 and ARTS 316

Concurrent Prerequisite: ARTS 216

Corequisites: ARTS 490W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 424

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 421 - Photography Portfolio I

Development of a unified body of work representing the undergraduate photographic experience.

Credit Hours: 3 hrs

Prerequisite: ARTS 321, ARTS 322, ARTS 323, and department permission

Previously Listed As: ART 449

Last Updated: 2/24/2011

ARTS 422 - Photography Portfolio II

This is a sixth semester course in photography. As a continuation of Portfolio Photography I, it is designed to give students the tools necessary to continue the pursuit of fine art photography on their own. Instruction will be based primarily around in-class critiques and discussion of student work, but will also include reading and slide discussions as well as technical demos and "workshops".

Credit Hours: 3 hrs

Prerequisite: ARTS 421 and department permission

Corequisites: ARTS 490W

Last Updated: 2/24/2011

ARTS 425 - Advanced Ceramics I

Emphasis is placed on the development of personal style. The student will concentrate on sculptural or utilitarian work, handbuilt or thrown. Further training in glaze and clay development. Emphasis is on individual style, production techniques, studio management and exhibition programs.

Credit Hours: 3 hrs

Prerequisite: ARTS 326 and department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 408

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 426 - Advanced Ceramics II

Further emphasis is placed on the development of personal style with choices made: will the student concentrate on sculptural or utilitarian work, handbuilt or thrown? Further training in glaze and clay development. The summation of the undergraduate ceramics program; emphasis on individual style, production techniques, studio management and exhibition programs.

Credit Hours: 3 hrs

Prerequisite: ARTS 421

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 430 - Metalsmith IV

The students will be responsible for developing a proposal for three exhibition pieces. This proposal will contain a theme, a list of experimental techniques to be tested and a procedural plan. At this point students are able to multitask in the studio. This way they can work on several pieces at once. All work will be photographed in a professional manner.

Credit Hours: 3 hrs

Prerequisite: ARTS 331

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 443

Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 431 - Metalsmithing V

This course is designed to allow students design complex metals pieces and encourage individual exploration of advanced techniques. Techniques include but are not limited to: blacksmithing, enameling, stone setting, die making, lathe work, electroforming, casting, patina exploration, hydraulic press work, photo etching, mold-making and commercial exploration or limited production work. Students will select a particular technique, research and experiment the technique, and complete three exhibition quality works.

Credit Hours: 3 hrs

Prerequisite: ARTS 430 and department permission

Corequisites: ARTS 490W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 435 - Advanced Sculpture I

The students in advanced sculpture are allowed to pursue a concept or technique from ARTS 335 as the beginning of their self-directed studio experience. Many types of mold making are explored. Leads to bronze and other metal casting processes. Extensive experimentation in chose technique(s) is expected.

Credit Hours: 3 hrs

Prerequisite: ARTS 335 and department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 410

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 436 - Advanced Sculpture II

The students in advanced sculpture are directed to continue working on a concept or technique from their sculpture experiences and begin to explore and create a body of work. Students are encouraged and challenged to create a strong studio work ethic and an ability to begin to make self-directed choices.

Credit Hours: 3 hrs

Prerequisite: ARTS 435 and department permission

Previously Listed As: ART 411

Last Updated: 2/24/2011

ARTS 437 - Advanced Sculpture III

The students in advanced sculpture are directed to continue working on a concept or technique from their sculpture experiences and begin to explore and create a body of work. The students are required to write an artist statement, photograph their work, and build a digital portfolio.

Credit Hours: 3 hrs

Prerequisite: ARTS 436 and department permission

Corequisites: ARTS 490W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 412

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 440 - Three-Dimensional Fibers

This course will focus on the investigation of traditional and nontraditional three-dimensional fiber processes using a broad range of materials and processes. Sculptural approaches to fiber structures will be enhanced through an investigation of material and concept exploration.

Credit Hours: 3 hrs

Prerequisite: ARTS 240 and department permission

Concurrent Prerequisite: ARTS 340

Previously Listed As: ART 458

Last Updated: 2/24/2011

ARTS 441 - Digital Printing for Fibers

Advanced fibers class focusing on digital printing onto a variety of fabrics using digital photography and computer programs as a tool for further manipulation. The investigation of concepts and use of pattern, imagery and meaning onto fabrics will further transform and manipulate the fabric surface.

Credit Hours: 3 hrs

Prerequisite: ARTS 340, ARTS 341, and department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 450

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 442 - Embellished Surfaces

This class introduces many different forms of embellishing that enhance a wide variety of surfaces. Processes will include: applique, reverse applique, beading, hand and machine sewing all on a variety of constructed surfaces. The course challenges students to develop concepts and ideas that expand the traditional boundaries of embellishment.

Credit Hours: 3 hrs

Prerequisite: ARTS 240, ARTS 290, passed foundation review, and department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 443 - Advanced Fibers

The primary focus is on developing a strong body of work created by using fiber or fiber related techniques culminating in portfolio development.

Credit Hours: 3 hrs

Prerequisite: ARTS 340; ARTS 341; and one of the following: ARTS 440, ARTS 441, or ARTS 442; and department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 455

Last Updated: Graduate Credit 07/2011; 2/24/2011

ARTS 445 - Advanced Furniture Design I

Advanced Furniture Design I will focus on non-wood fabrication processes, along with their structural and aesthetic implications. Materials used will include aluminum, steel, fiberglass, and plastics. Students will learn welding, casting, and fiberglass lay-up processes, and will design and build multiple furniture projects using these techniques.

Credit Hours: 3 hrs

Prerequisite: ARTS 345 and department permission

Last Updated: 2/24/2011

ARTS 446 - Advanced Furniture Design II

Advanced Furniture Design II will focus on chair design, ergonomics, and upholstery methods along with their structural and aesthetic implications. Students will design and build multiple chair projects combining previous methods/materials with these concepts.

Credit Hours: 3 hrs

Prerequisite: ARTS 445 and department permission

Last Updated: 2/24/2011

ARTS 447 - Furniture Design Portfolio

Furniture Design Portfolio will focus on the design and execution of each student's degree project and the preparation of a professional portfolio. Students will conduct research and/or data collection relative to the nature of each project. Projects will demonstrate a personal style of mode of expression.

Credit Hours: 3 hrs
Prerequisite: ARTS 446 and department permission
Corequisites: ARTS 490W
Last Updated: 2/24/2011

ARTS 451 - Image Making II

Image making as applied to advanced communication concepts. Students are exposed to theories, philosophies, aesthetics, techniques and experiences used in visual message building.

Credit Hours: 3 hrs
Prerequisite: Grade of "C" or better in ARTS 352 and completion of foundations portfolio review
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Previously Listed As: ART 462
Last Updated: Graduate Credit 07/2011; Prerequisites 05/2011

ARTS 452 - Advanced Graphic Design

Advanced work in visual communications; students are exposed to theories, philosophies, aesthetics, techniques and experiences used in complex visual communication environments.

Credit Hours: 3 hrs
Prerequisite: Grade of "C" or better in ARTS 353, ARTS 451 and ARTH 264W
Corequisites: ARTS 490W
Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.
Previously Listed As: ART 460
Last Updated: Graduate Credit 07/2011; 05/2011

ARTS 454 - Graphic Design Practicum

This course gives students direct experience in the field of graphic design by working on client-based projects. Projects vary each term and include both on and off campus clients.

Credit Hours: 3 hrs
Prerequisite: ARTS 352, department permission, and instructor approval
Previously Listed As: ART 348
Last Updated: 2/24/2011

ARTS 455 - Advanced Time-based Media I

Intensive studio that students begin to explore personal and aesthetic issues through independently driven assignments, class critiques, and visual and written materials, in the pursuit of creating a body of work or larger work. Students must demonstrate a conceptual, technical, and methodological understanding of time-based media. Work produced can explore any genre of time-based media including but not limited to: web media, digital video, experimental animation, interactive installation, and performance art.

Credit Hours: 3
Prerequisite: ARTS 357, ARTS 358
Last Updated: 7/7/2011

ARTS 456 - Advanced Time-based Media II

Intensive studio furthering the exploration of personal and aesthetic issues that students begin in ARTS 455 Advanced Time-based Media I. Students must demonstrate a conceptual, technical, and methodological understanding of time-based media. Work produced can explore any genre of time-based media including but not limited to: web media, digital video, experimental animation, interactive installation, and performance art. Course to be taken concurrently with ARTS 490 Capstone.

Credit Hours: 3

Prerequisite: ARTS 455

Last Updated: 7/7/2011

ARTS 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART477

ARTS 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART478

ARTS 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: ART479

ARTS 487 - Cooperative Education in Art

Employment in a graphic design firm, studio or agency with an opportunity for practical design experience. Placement approval required by graphic design area.

Credit Hours: 3 hrs

Prerequisite: ARTS 387; approval by graphic design area; department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ART 487

Last Updated: Graduate Credit 07/2011; 02/2011

ARTS 490W - Capstone (Gen Ed Area I, W)

This course is taken in conjunction with the last course in each student's area of concentration. It is designed as the culminating learning experience for students in the BFA curriculum and will help provide direction for their future professional careers. The course will focus on preparation for a required senior exhibition, the development of a professional portfolio, and the creation of necessary written documents to support one's professional career.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: Students must be enrolled in the last course of their area of concentration: ARTS 403, ARTS 407, ARTS 408, ARTS 411, ARTS 416, ARTS 422, ARTS 426, ARTS 431, ARTS 437, ARTS 443, ARTS 447, ARTS 452, or ARTS 456

Class Restrictions: Senior standing only

Previously Listed As: ARTS 490

Last Updated: 2/24/2011

ARTS 497 - Independent Study

Advanced study on an individual basis in areas in which the department does not have regular course work.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: ART497

ARTS 498 - Independent Study

Advanced study on an individual basis in areas in which the department does not have regular course work.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART498

ARTS 499 - Independent Study

Advanced study on an individual basis in areas in which the department does not have regular course work.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: ART499

Graphic Design Concentration

Required Courses: 18 hours

All courses must be passed with a grade of "C" or above.

- ARTS 250 - Introduction to Graphic Design I Credit Hours: 3 hrs
- ARTS 350 - Introduction to Graphic Design II Credit Hours: 3 hrs
- ARTS 351 - Image Making I Credit Hours: 3 hrs
- - **Portfolio Review:** The mid-program performance review provides students with an opportunity to receive feedback in one forum from the graphic design faculty, while allowing the faculty to reinforce its standards of excellence and present its performance expectations. Students are reviewed on the work presented in their portfolio as well as performance, participation, process, and effort in class. The review is intended to identify students who have the potential to successfully complete the program.
 - **Portfolio Contents and Recommendations:**
 1. Select 5-8 pieces from design courses (required or elective) that best represent your abilities.
 2. Provide a list of contents for the portfolio containing: the title of the work, a short description of the work (2-3 sentences describing the goals of your design), and the course the work was produced for. If done as a group project be sure to include all group members.
 3. The portfolio should be designed, well crafted, and well executed object. Your portfolio should be functional in terms of ease of carrying and ease of displaying/reviewing work. Keep it simple.
 4. Original 2-dimensional work (posters, brochures, etc.) can be submitted, but should be organized and presented in a professional manner. Work should be appropriately folded to fit the portfolio in relation to size.
 5. If submitting digital work (video/HTML) be sure to include appropriate files on CD or DVD.
 6. Do not submit 3-dimensional work, photograph and document work and present in a clear and professional manner.
 7. Clearly label the outside of your portfolio with your name.
 8. If using a store bought portfolio case be sure to carefully design how your work is presented in the case. Do not just stick work in plastic sleeves.
 9. Do not over-design your portfolio, keep it simple, we are mostly reviewing the work it contains.
- ARTS 353 - Intermediate Graphic Design II Credit Hours: 3 hrs
- ARTS 452 - Advanced Graphic Design Credit Hours: 3 hrs
- ARTS 451 - Image Making II Credit Hours: 3 hrs

Art Elective Courses: 3 hours

This concentration requires its students to take ART458 as part of their Art Elective credits.

- ARTS 379 - Special Topics Credit Hours: 3 hrs

Biology Programs and Courses

Biology

Major

Biology Major

Majors should start with BIO 110 followed by BIO 120 in their freshman year. Chemistry courses should also be started in the freshman year in order to fulfill the requirements for the 300- and 400- level biology courses. The core biology lectures and laboratories should be completed no later than the end of the junior year. Since BIO 301 is a pre- or corequisite for both BIO 305 and BIO 315, it should be completed as soon as possible to avoid any delay in graduation. The 15 semester hours of electives allow a student to specialize or to take a variety of biology courses. Although some electives can be taken as early as the sophomore year, most will be taken in the junior and senior years. Students are strongly advised to elect the remaining core course as one of the electives.

Biology Department Information:

Interim Department Head: Daniel Clemans
Department Contact: dclemans@emich.edu
Website: <http://www.emich.edu/biology/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 63-65

Biology: 36 hours

Required Foundation Courses: 13 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs

Biology Core Courses: 6 hours

Two courses from the following:

- BIO 305 - Cell and Molecular Biology 3 hrs
- BIO 310 - Ecology 3 hrs
- BIO 315 - Evolution 3 hrs

Biology Core Labs: 3 hours

One course from the following:

- BIO 306W - Cell and Molecular Biology and Genetics Laboratory (Gen Ed Area I, W) 3 hrs
- BIO 311W - Laboratory in Ecology (Gen Ed Area I, W) 3 hrs

Restricted Electives: 14 hours

Choose an additional 14 semester hours at the 300- and 400-level in biology. At least one course must be at the 400 level. All courses must have a minimum prerequisite of BIO 120. BIOT courses cannot be counted toward the biology major. No more than six hours of BIO 387 - Cooperative Education in Biology and BIO 497-BIO 499 - Undergraduate Research in Biology can be counted toward the major.

Chemistry: 16-17 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr

Select either option I or option II:

Option I:

- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs

Option II:

- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr

One course from the following:

- CHEM 351 - Foundations of Biochemistry 4 hrs
- CHEM 451 - Biochemistry I 3 hrs

Physics: 8 hours

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

Math: 3-4 hours

One course from the following:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Options are BIO 306W and BIO 311W.

Students who plan to pursue graduate work in biology or who are in a preprofessional program should select Option I: CHEM 371/372/373 Organic Chemistry I-II with lab.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and

the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Biology Major

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in biology, certification code DA and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the National Science Teachers Association. The Michigan Test for Teacher Certification (MTTC) covering this field is #017, "Biology."

Biology Department Information:

Interim Department Head: Daniel Clemans
Department Contact: dclemans@emich.edu
Website: <http://www.emich.edu/biology/>

Program Adviser: Jamin Eisenbach
Email: jeisenbac@emich.edu
Phone: 734.487.4242

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 57-59 hours

Required Foundation Courses: 29 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 305 - Cell and Molecular Biology 3 hrs
- BIO 310 - Ecology 3 hrs
- BIO 315 - Evolution 3 hrs
- BIO 326 - Human Physiology 3 hrs
- * BIO 406 - The Nature of Science 1 hr

One course from the following:

- BIO 306W - Cell and Molecular Biology and Genetics Laboratory (Gen Ed Area I, W) 3 hrs
- BIO 311W - Laboratory in Ecology (Gen Ed Area I, W) 3 hrs

Elective Courses: 1 hour

One hour at the 300-level or above in biology selected in consultation with a biology adviser. The courses must have a minimum prerequisite of BIO 120. BIOT courses may not be counted toward a biology major.

Chemistry: 16-17 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr

Select either option I or option II:

Option I:

- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs

Option II:

- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr

One course from the following:

- CHEM 351 - Foundations of Biochemistry 4 hrs
- CHEM 451 - Biochemistry I 3 hrs

Physics: 8 hours

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

Math: 3-4 hours

One course from the following:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs

- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Biology Majors take:

- BIOT 403 - Methods for Teaching Secondary Biology 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Options are BIO 306W and BIO 311W.

* PHY 406, CHEM 406 or ESSC 406 may be substituted for BIO 406

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General**

Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Biology Minor

Minors should start with BIO 110 - Introductory Biology I (Gen Ed Area IV) followed by BIO 120 - Introductory Biology II in their freshman or sophomore year. Minors without high school biology should take BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) before taking BIO 110. (Although BIO 105 will not count toward the biology minor, credit earned in this course will count toward the 124 hours required for graduation.)

Students need to take CHEM 121/CHEM 122 and CHEM 123/CHEM 124 to satisfy the prerequisites for BIO 305.

Biology Department Information:

Interim Department Head: Daniel Clemans

Department Contact: dclemans@emich.edu

Website: <http://www.emich.edu/biology/>

Required Courses: 13 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs

Restricted Elective Courses: 3 hours

One course from the following:

- BIO 305 - Cell and Molecular Biology 3 hrs
- BIO 310 - Ecology 3 hrs
- BIO 315 - Evolution 3 hrs

Elective Courses: 6 hours

Six hours at the 300- or 400-level in biology selected in consultation with a biology adviser. All elective courses must have a minimum prerequisite of BIO 120. BIOT courses may NOT be counted toward a biology minor. Students are strongly advised to select other restricted electives to fulfill this requirement. No more than six hours of BIO 387 - Cooperative Education in Biology and BIO 497-499 - Undergraduate Research in Biology can be counted toward the minor.

Minor Total: 22 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Conservation and Resource Use Minor

This program is administered jointly by the heads of the Department of Biology, the Department of Economics, The Department of Geography and Geology and the Department of Sociology, Anthropology and Criminology.

Students electing this minor must confer with the advising coordinator for conservation and resource use to obtain an approved schedule of electives. Substitutions on the approved program will count only if approved by the adviser.

Students are strongly urged to take PLSC 202 - State and Local Government (Gen Ed Area IV)

Biology Department Information:

Interim Department Head: Daniel Clemans
Department Contact: dclemons@emich.edu
Website: <http://www.emich.edu/biology/>

Required Courses: 13-14 hours

- BIO 107 - Introduction to Environmental Science (Gen Ed Area III) 3 hrs
or
- ESSC 107 - Introduction to Environmental Science (Gen Ed Area III) 3 hrs

- * BIO 226 - Global Ecology and the Environment 4 hrs
- ** ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

One course from the following:

- *** ESSC 108 - Earth Science for Nonscience Majors (Gen Ed Area IV) 3 hrs
- *** ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs

Elective Courses: 9 hours

Nine hours from the following selected in consultation with the advising coordinator:

- BIO 130 - Biology of Plants 4 hrs
- BIO 140 - Biology of Animals 4 hrs
- BIO 215 - Plants and People (Gen Ed Area III) 3 hrs
- BIO 310 - Ecology 3 hrs
- BIO 311W - Laboratory in Ecology (Gen Ed Area I, W) 3 hrs
- BIO 410 - Limnology 3 hrs
- BIO 413 - Wetland Ecosystems 3 hrs
- BIO 414 - Terrestrial Ecosystems 3 hrs
- BIO 455 - Plant Evolution and Classification 3 hrs

- BIO 456 - Freshwater Algae 3 hrs
- BIO 457 - Aquatic Plants 3 hrs
- BIO 458 - Trees and Shrubs 3 hrs
- BIO 460 - Plant Anatomy 3 hrs
- BIO 480 - Natural History of Invertebrates 3 hrs
- BIO 481 - Natural History of Vertebrates 3 hrs
- BIO 482 - Ichthyology 3 hrs
- BIO 483 - Mammalogy 3 hrs
- BIO 484 - Herpetology 3 hrs
- BIO 485 - Ornithology 3 hrs
- BIO 486 - Entomology 3 hrs
- CHEM 115 - Chemistry and Society (Gen Ed Area IV) 3 hrs
- CHEM 415 - Environmental Chemistry 3 hrs
- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 336 - Economics of Environment and Natural Resources 3 hrs
- ECON 337 - Energy Economics and Policies 3 hrs
- ESSC 114 - Geology of the National Parks (Gen Ed Area IV) 4 hrs
- ESSC 208 - Natural Environmental Hazards 3 hrs
- ESSC 229 - Rocks and Minerals 3 hrs
- ESSC 320 - Oceanography 3 hrs
- ESSC 324 - Weather 3 hrs
- ESSC 327 - Soil Science 4 hrs
- ESSC 424 - Climatology 3 hrs
- ESSC 495 - Environmental Assessment and Planning 3 hrs
- GEOG 235 - Economic Geography 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- GEOG 332 - Urban Geography 3 hrs
- GEOG 361 - Geography of Population 3 hrs
- GEOG 405 - Aerial Photo Interpretation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs
- URP 495 - Environmental Assessment and Planning 3 hrs
- SOCL 306 - The Urban Community 3 hrs
- SOCL 334 - Population 3 hrs

Minor Total: 22-23 hours

Notes:

All minors must have at least six hours of course work at the 300-level or above.

** Biology majors minoring in conservation will take BIO 310 and BIO 311W on the major and substitute additional approved electives on the minor.*

*** Students who prefer to elect ECON 201-202 to satisfy general education requirements may count ECON 201 as an elective on the minor. Students who are required to take ECON 201-202 for other purposes on their curricula, as in business administration, may not count it on this minor and must substitute an additional elective for ECON 202.*

*** Students required to take ESSC 108 - Earth Science for Nonscience Majors (Gen Ed Area IV) on a major or minor in the Geography and Geology Department will take an additional four hours of electives on this minor from the approved list.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General**

Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Human Biology Minor

The Human Biology minor is open to all majors including Biology.

Required courses provide students with a background in biology with electives that highlight contemporary issues in human biology.

Biology Department Information:

Interim Department Head: Daniel Clemans

Department Contact: dclemons@emich.edu

Website: <http://www.emich.edu/biology/>

Required Courses: 4-5 hours

One course from the following:

- BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV) 4 hrs
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs

Elective Courses: 15-16 hours

15 to 16 hours of the following:

- BIO 251 - Human Anatomy and Physiology I 4 hrs
- BIO 255 - Human Genetics 3 hrs
- BIO 256 - The Biology of Cancer 2 hrs
- BIO 257 - Human Embryonic Development 3 hrs
- BIO 258 - Germs, Plagues and Human Infections 3 hrs
- BIO 259 - Biology of Aging 2 hrs
- BIO 269 - Biology of Sex and Gender 3 hrs
- BIO 328 - Introductory Microbiology 3 hrs
- BIO 330 - Neuroanatomy 4 hrs

No more than one course from the following:

- * BIO 252 - Human Anatomy and Physiology II 4 hrs
- * BIO 326 - Human Physiology 3 hrs

Minor Total: 20 hours

Note:

Minors should start with either BIO 105 or BIO 110.

** For students choosing to take an additional course in human physiology after completing BIO 251, they may choose either BIO 252 or BIO 326, but not both.*

The Human Biology Minor is open to the biology major, however these students will not be able to apply BIO 110 toward the Human Biology Minor because it must be applied to the biology major. Instead, these students are required to make up 4 credit hours from the above electives or consult with an adviser for details.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Plant Biology Minor

Open to both Biology majors and non-majors. The minor is intended to provide students with opportunities to study plants from a variety of perspectives, ranging from molecular to ecological levels of organization. Students who are not majoring in biology will not have the necessary prerequisites for certain courses, so it is important to meet with a Plant Biology Minor adviser early in their program.

Biology Department Information:

Interim Department Head: Daniel Clemans
Department Contact: dclemans@emich.edu
Website: <http://www.emich.edu/biology/>

Required Course: 4 hours

- * BIO 130 - Biology of Plants 4 hrs

Restricted Electives: 16 hours

16 hours from the following:

- BIO 215 - Plants and People (Gen Ed Area III) 3 hrs
- BIO 226 - Global Ecology and the Environment 4 hrs
- ** BIO 412 - Biogeography 3 hrs
- BIO 455 - Plant Evolution and Classification 3 hrs
- BIO 456 - Freshwater Algae 3 hrs
- BIO 457 - Aquatic Plants 3 hrs
- BIO 458 - Trees and Shrubs 3 hrs
- BIO 459 - Mycology 3 hrs
- BIO 460 - Plant Anatomy 3 hrs
- ** BIO 461 - Plant Physiology 3 hrs

- ** BIO 462 - Plant Biotechnology 3 hrs

Minor Total: 20 hours

Notes:

All minors must have at least six hours of course work at the 300 level or above.

** No credit will be given to students who have completed BIO 120. Biology majors electing the plant biology minor must take an additional four credits of restricted electives in place of BIO 130.*

*** These courses have additional prerequisites other than BIO 130. Consult with adviser for details.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Biology Minor

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in biology, certification code DA. The Michigan Test for Teacher Certification (MTTC) covering this field is #017, "Biology."

Biology Department Information:

Interim Department Head: Daniel Clemans
 Department Contact: dclemans@emich.edu
 Website: <http://www.emich.edu/biology/>

Adviser Information:

Program Adviser: Jamin Eisenbach
 Phone: 734.487.4242
 Email: jeisenbac@emich.edu

Required Courses: 25 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs
- BIO 301 - Genetics 3 hrs
- BIO 310 - Ecology 3 hrs
- BIO 326 - Human Physiology 3 hrs

One course from the following:

- ** BIO 305 - Cell and Molecular Biology 3 hrs
- BIO 315 - Evolution 3 hrs

One course from the following:

- BIO 306W - Cell and Molecular Biology and Genetics Laboratory (Gen Ed Area I, W) 3 hrs
- BIO 311W - Laboratory in Ecology (Gen Ed Area I, W) 3 hrs

Minor Total for Science Majors: 25 hours

Students minoring in Biology with secondary certification, but not majoring in a science teaching program must take the following courses:

- BIOT 403 - Methods for Teaching Secondary Biology 3 hrs
- * BIO 406 - The Nature of Science 1 hr

Minor Total for Non-Science Majors: 29 hours

Notes:

All minors must have at least six hours of course work at the 300-level or above.

** CHEM 406, ESSC 406, or PHY 406 may be substituted for BIO 406.*

*** Students need to take CHEM 121/122 and CHEM 123/124 to satisfy the prerequisites for BIO 305.*

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Zoology Minor

Biology Department Information:

Interim Department Head: Daniel Clemans
 Department Contact: dclemons@emich.edu
 Website: <http://www.emich.edu/biology/>

Minor Total: 20 hours

Open only to students majoring in biology. Students electing this minor must file an approved program of required/elective courses with a faculty advisor and with the Department of Biology undergraduate coordinator. Any program changes require prior written approval of the faculty advisor and the Department of Biology undergraduate coordinator.

This minor is not to be considered as a teaching minor for prospective elementary or secondary teachers. Prospective teachers who wish to elect this minor must complete a second minor outside of the Biology Department to satisfy the current requirements for teacher certification.

Note:

All minors must have at least six hours of course work at the 300 level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Biology

BIO 105 - Introductory Biology for Non-majors (Gen Ed Area IV)

A study of the basic concepts of modern biology common to all organisms with an emphasis on human systems and issues. Designed for students who are not majoring or minoring in biology.

Credit Hours: 4 hrs

Lecture/Lab Hours: The course consists of two 75-minute lectures and three hours of laboratory each week

Notes: This course is not open to students with credit in BIO 110 and/or BIO 120.

Previously Listed As: BIOL 105

Area IV: Knowledge of the Disciplines

BIO 105 Introduction to Biology for Non-Majors

BIO 105 is designed to enable students who are not biology majors to understand the fundamental concepts, principles and processes upon which all life is based, the relationship between biology and their day-to-day world; how scientists acquire scientific knowledge; and how this methodology is used to address questions important to health and environmental issues around the world. This information provides students with the tools to enable them to become responsible, scientifically literate global citizens and voters. Students who successfully complete BIO 105 have the ability to critically evaluate popular press articles and other media reporting on technological, health-related and environmental issues. This ability empowers students to make better, scientifically-informed life decisions.

Last Updated: Links 02/2011

BIO 106 - Biology from a Human Perspective (Gen Ed Area IV)

This course is an introductory course that emphasizes human biology for the non-major in lecture and a laboratory that includes dissections. We cover the fundamental concepts, principles, and processes upon which life is based and the use of the scientific method through the application of these principles, concepts and processes.

Credit Hours: 4 hrs

Equivalent Courses: BIO 105

Area IV: Knowledge of the Disciplines

BIO 106 Biology From a Human Perspective

BIO 106 is designed to enable students who are not biology majors to understand the following: the fundamental concepts, principles, and processes upon which life is based; the relationship between biology and their day-to-day world; how scientists acquire scientific knowledge; and how this methodology is used to address questions important to health and environmental issues around the world. This information provides students with the tools to enable them to become responsible, scientifically literate global citizens and voters. Students who successfully complete BIO 106 have the ability to critically evaluate popular press articles and other media reporting on technological, health-related and environmental issues. This ability empowers students to make better, scientifically-informed life decisions. As such, BIO 106 meets the requirements of a Natural Science Course in the Knowledge of the Disciplines portion of the new General Education program.

Last Updated: Gen Edu Approval. 6/2012, effective Winter 2013; Change in Equivalency 05/2012, effective Fall 2012; New Course 04/2012

BIO 107 - Introduction to Environmental Science (Gen Ed Area III)

An introduction to the basic biological, physical and chemical processes that control today's environmental conditions. The global ecosystem is presented as a structure that includes human society. The understanding of local and global environmental problems and discussion of potential solutions are emphasized.

Credit Hours: 3 hrs

Cross-Listed with: ESSC 107

Previously Listed As: BIOL 107

Area III: Perspectives on a Diverse World

BIOL/ESSC 107 Introduction to Environmental Science

This course gives students an understanding of important challenges to the integrity of the global ecosystem and begins to explain many of the scientific and social issues that surround them. Globally, human health and economic well-being can only be sustained under amenable environmental conditions, which depend on climate, atmosphere, water, forests, agricultural soils, human population density and biodiversity. Every bit of the surface of Earth is influenced by human activities; the global connectedness of our economic activities means that many of our everyday decisions impact far-flung corners of the planet. The goal of this class is for students to gain a better understanding of the workings of the global ecosystem and how the expanding human population interacts with it and depends on it. Learning the basics of environmental science will allow students to make informed decisions about individual and collective actions that impact the present and future state of the environment, both locally and globally.

Last Updated: 2/28/2011

BIO 110 - Introductory Biology I (Gen Ed Area IV)

The basic concepts of biology upon which students can begin to develop a conceptual framework of the discipline will be developed in this course and reinforced in upper-level courses. Cell structure and function, molecular biology, Mendelian and population genetics, evolutionary theory and ecology will be covered in this first semester of a two-semester sequence. Inquiry-oriented laboratory exercises and inquiry-oriented methods will be emphasized in lecture and discussion sections.

Credit Hours: 5 hrs

Lecture/Lab Hours: Course meets for two 75-minute lectures, one hour of discussion and three hours of laboratory each week

Prerequisite: MATH 098 or above or Math level 2 with concurrent registration in MATH 098

Notes: BIO 110 is required for students taking a major or minor in biology.

Previously Listed As: BIOL 110

Area IV: Knowledge of the Disciplines

BIO 110 Introduction to Biology I

BIO 110 is designed to enable students to understand the fundamental concepts, principles and processes upon which all life is based; the relationship of the course material to their day-to-day world; and how to apply the scientific method. Students are provided with the tools to enable them to become responsible, scientifically literate global citizens and voters. Students who successfully complete BIO 110 have the ability to read critically a biologically relevant popular press article and to evaluate the reporting of technological, health-related and environmental issues. The ability empowers students to make better, scientifically-informed life decisions.

Last Updated: Links 02/2011

BIO 120 - Introductory Biology II

The basic concepts of biology upon which students can begin to develop a conceptual framework of the discipline will be developed in this course and reinforced in upper-level courses. Plant physiology, development and diversity; and animal physiology, development, diversity and behavior, will be covered in this second semester of a two-semester sequence. A continued emphasis on inquiry-oriented laboratory exercises and inquiry-oriented methods will be applied to lecture and discussion sections.

Credit Hours: 5 hrs

Lecture/Lab Hours: Course meets for two 75-minute lectures, one hour of discussion and three hours of laboratory each week

Prerequisite: C or better in BIO 110

Notes: BIO 120 is required for students taking a major or minor in biology.

Previously Listed As: BIOL 120

Last Updated: 2/28/2011

BIO 130 - Biology of Plants

An introduction to the plant kingdom for non-biology majors. The biology of plants is explored from the cellular through whole-organism levels of organization, focusing on the roles of diverse plant groups in our environment.

Credit Hours: 4 hrs

Lecture/Lab Hours: Two 75-minute lectures plus three hours of laboratory experience.

Notes: Does not count toward the biology major or minor.

Previously Listed As: BOTN 130

Last Updated: 2/16/2011

BIO 140 - Biology of Animals

With three hours of lecture and three hours of combined recitation/demonstration and laboratory this course will focus on the biology and impact of the diverse animal groups in their interaction with humans. Diseases caused, new medical contributions, economic costs and benefits and ecological roles of repressive animals will be studied.

Credit Hours: 4 hrs

Notes: Does not count toward the Biology major or minor.

Previously Listed As: ZOOL 140

BIO 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Previously Listed As: BIOL 177

BIO 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Previously Listed As: BIOL 178

BIO 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Previously Listed As: BIOL 179

BIO 205 - Field Biology

A lecture, laboratory and field course in the behavior, ecology and broad classification of plants and animals, giving training in recognition of common plants and animals of Michigan. Gives background material to the nonspecialist interested in outdoor life, and to the elementary school teacher.

Credit Hours: 4 hrs
Previously Listed As: BIOL 205

BIO 215 - Plants and People (Gen Ed Area III)

A study of the characteristics, cultural history, and current uses of plants that yield food, fiber, pharmaceuticals, and industrial products. Emphasis is placed on the roles of plants in the development of civilization. Topics such as genetically engineered food and sustainable agriculture are also discussed.

Credit Hours: 3 hrs
Cross-Listed with: BIOT 504
Previously Listed As: BOTN 215

Area III: Global Perspectives on a Diverse World

BIO 215 Plants and People

We frequently encounter the plant kingdom in our daily lives - in food, shelter, textiles, medicines, drugs, pesticides and perfumes. In this course we will learn about the fascinating interactions between plants and humans. We will investigate how plants are named and classified in various cultures, how plants played an important role in the origins of civilization, and how plants may likely be the solution to serious global issues like hunger, malnutrition, and our current energy crisis. Topics will

include: crop domestication (how did we get the rice and wheat all humans now depend on?); the evolution and conservation of genetic and biological diversity (why is it important to conserve the Amazon forest before it disappears?); biotechnology (is it ethically acceptable to export a crop that we manipulated in the lab that we, Americans, are reluctant to consume?); drugs and alcohol (should Michigan residents be allowed to use Marijuana for medicinal purposes?); natural dyes (how do we make blue jeans blue?); the movement of plants among cultures around the world (coffee and tea are not native to North America and yet we depend on them to start our day) and biofuel alternatives (will we all be driving cars fueled by algae soon?). These topics are selected for both their local and global impacts in order to help students become critical thinkers on important issues that have direct influence on their daily lives. With the successful completion of this course students will see plants, the campus, their world and their decisions in a new light. As such, BIO 215 meets the requirements of a Global Awareness Course in the General Education program.

Last Updated: General Education Approval 02/2012, effective Fall 2012

BIO 226 - Global Ecology and the Environment

This course is an introduction to basic ecological principles and their application to current global environmental issues and conservation practices. The effect of the human population explosion on the conservation and use of resources and biodiversity is emphasized.

Credit Hours: 4 hrs

Prerequisite: BIO 107/ESSC 107, BIO 105, or BIO 110

Previously Listed As: BIOL 226

Last Updated: 2/28/2011

BIO 251 - Human Anatomy and Physiology I

An intensive lecture and laboratory course investigating human anatomy and physiology with emphasis on both normal and pathological conditions, in a two-semester sequence. First semester will cover the basic structure and functions of the integumentary, muscular, skeletal, nervous and endocrine systems.

Credit Hours: 4 hrs

Prerequisite: High school Biology

Previously Listed As: ZOOL 201

BIO 252 - Human Anatomy and Physiology II

An intensive lecture and laboratory course investigating human anatomy and physiology with emphasis on both normal and pathological conditions, in a two-semester sequence. The second semester will cover circulation, metabolism, the cardiovascular, digestive, excretory and reproductive systems, and the integration of the systems of the body.

Credit Hours: 4 hrs

Prerequisite: BIO 251 and either BIO 105 or CHEM 120

Previously Listed As: ZOOL 202

Last Updated: 03/2011

BIO 255 - Human Genetics

A lecture course emphasizing fundamental concepts of human genetics specifically designed to provide the non-biology major a framework to understand and assess recent advances and ethical issues concerning medical genetics, molecular diagnostics and genetic engineering.

Credit Hours: 3 hrs

Prerequisite: BIO 105 or BIO 110

Previously Listed As: BIOL 201

Last Updated: 03/2011

BIO 256 - The Biology of Cancer

Introduces the types, characteristics, putative causes and current treatments of cancer.

Credit Hours: 2 hrs

Prerequisite: BIO 105 or BIO 110

Previously Listed As: BIOL 204

Last Updated: 03/2011

BIO 257 - Human Embryonic Development

A study of the embryonic development of humans from fertilization to birth, with emphasis on the development of the major organ systems and the birth defects that occur when development occurs abnormally.

Credit Hours: 3 hrs

Prerequisite: BIO 105, BIO 110 or BIO 251

Previously Listed As: BIOL 223

Last Updated: 03/2011

BIO 258 - Germs, Plagues and Human Infections

This course provides the nonscientist with a basic understanding of the biology of human infectious diseases. The course uses lecture, discussion and small group activities to examine the biology of microbes and of human defenses, the evolution of infectious disease, the history of epidemics and current issues in infectious diseases.

Credit Hours: 3 hrs

Prerequisite: BIO 105 or BIO 110 or BIO 251

Previously Listed As: BIOL 228

Last Updated: 03/2011

BIO 259 - Biology of Aging

The study of the aging process at the molecular, cellular, tissue and systems level of organization. Theories of aging will be considered.

Credit Hours: 2 hrs

Prerequisite: BIO 105

Previously Listed As: BIOL 239

Last Updated: 03/2011

BIO 269 - Biology of Sex and Gender

Lectures will address the biology of sex and gender from early stages of development throughout life. Anatomy and physiology of gender and behaviors in humans and other animals will be discussed. Topics include: sexual differentiation, puberty, reproductive patterns and the effects of aging on the sexual response.

Credit Hours: 3 hrs

Prerequisite: BIO 105, BIO 110 or BIO 251

Cross-Listed with: WGST 269
Previously Listed As: BIOL 269
Last Updated: Links 10/2012

BIO 277 - Special Topics

An examination of topics in biology not covered in other department offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 1 hr
Prerequisite: department permission
Previously Listed As: BIOL 277

BIO 278 - Special Topics

An examination of topics in biology not covered in other department offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 2 hrs
Prerequisite: department permission
Previously Listed As: BIOL 278

BIO 279 - Special Topics

An examination of topics in biology not covered in other department offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 3 hrs
Prerequisite: department permission
Previously Listed As: BIOL 279

BIO 301 - Genetics

A lecture course emphasizing the basic principles of inheritance with their application to plants and animals.

Credit Hours: 3 hrs
Prerequisite: C or better in BIO 120
Previously Listed As: BIOL 301
Last Updated: 03/2011

BIO 305 - Cell and Molecular Biology

A lecture course that examines the basic unit of structure and function in life, the cell. The course uses concepts of molecular biology to survey aspects of cellular function, such as metabolism, intercellular communication and cell division.

Credit Hours: 3 hrs
Prerequisite: CHEM 123 and CHEM 124 and C or better in BIO 301
Previously Listed As: BIOL 305
Last Updated: 03/2011

BIO 306W - Cell and Molecular Biology and Genetics Laboratory (Gen Ed Area I, W)

This laboratory course provides students with an opportunity to use molecular and cellular techniques to probe aspects of gene inheritance and expression. Students will develop critical reasoning and laboratory skills in preparation for advanced laboratory studies, independent research projects at the sub-organismal level, as well as for cooperative learning internships.

Credit Hours: 3 hrs

Concurrent Prerequisite: BIO 305

Previously Listed As: BIOL 306

Last Updated: Prerequisite change 12/2012

BIO 310 - Ecology

A lecture course introducing the concepts involved in the study of terrestrial and aquatic communities, their physical environment, and their integration into ecosystems. Emphasis will be on properties at the ecosystems, community and population levels.

Credit Hours: 3 hrs

Prerequisite: C or better in BIO 120

Previously Listed As: BIOL 310

Last Updated: 03/2011

BIO 311W - Laboratory in Ecology (Gen Ed Area I, W)

A laboratory and field course with two main objectives: (1) to introduce students to the methods and concepts involved in the study of the distribution and abundance of organisms, and (2) to familiarize students with the structure and function of aquatic and terrestrial communities.

Credit Hours: 3 hrs

Concurrent Prerequisite: Grade of C or better in BIO 310

Previously Listed As: BIOL 311

Last Updated: 03/2011

BIO 315 - Evolution

This lecture and discussion class examines basic concepts of evolutionary biology emphasizing evolutionary theory, evolutionary processes and contemporary topics in evolutionary biology. An integrative approach at the cell and molecular, organismal, population and higher taxonomic levels will be incorporated to understand the role of evolution as the organizing principle of all levels of biology and life.

Credit Hours: 3 hrs

Prerequisite: C or better in BIO 301

Previously Listed As: BIOL 315

Last Updated: 03/2011

BIO 326 - Human Physiology

A study of the functioning of the human body. Lecture, laboratory and demonstration.

Credit Hours: 3 hrs

Prerequisite: BIO 105 or BIO 120 or BIO 140

Previously Listed As: ZOOL 326

Last Updated: 03/2011

BIO 328 - Introductory Microbiology

Introduction to the biology of bacteria and other microbes; transmission of infectious diseases; and principles of, control of, and immunity to infectious diseases. A lecture/lab course.

Credit Hours: 3 hrs

Prerequisite: BIO 105 and CHEM 121; or BIO 251; or SPMD 202; or BIO 120 and all prerequisites require a C or better grade

Notes: This course does not apply on the curriculum in clinical laboratory sciences, but will count as an elective towards the biology major or minor

Previously Listed As: MICR 328

Last Updated: 03/2011

BIO 330 - Neuroanatomy

A lecture/laboratory course concerned with the study of the human nervous system, lesions and resulting disabilities.

Credit Hours: 4 hrs

Prerequisite: BIO 252 or BIO 326

Previously Listed As: ZOOL 316

Last Updated: Credit Hour 03/2012; 03/2011

BIO 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: BIOL 377

BIO 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: BIOL 378

BIO 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: BIOL 379

BIO 387 - Cooperative Education in Biology

Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in biology of technology. The program consists of two work experiences (BIO395/495) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Class Restrictions: Junior Standing

Notes: Admittance to program by application only. Graded on a credit/no-credit basis.

Previously Listed As: BIOL 387

BIO 406 - The Nature of Science

This course examines the nature of scientific evidence, inquiry, hypothesis, models and laws. The development of science is put in the context of the structure and history of the scientific community. Interactions among scientists and between scientists and the rest of society are studied from an ethical perspective.

Credit Hours: 1 hr

Prerequisite: C- or better in BIO 301

Major Restrictions: Department permission required for science majors or minors from other programs.

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Cross-Listed with: CHEM 406 and ESSC 406

Previously Listed As: BIOL 406

Last Updated: Cross-Listed 09/2011; Graduate Credit 07/2011; 03/2011

BIO 410 - Limnology

A lecture, laboratory and field course dealing with physicochemical and biological interrelationships in standing waters.

Credit Hours: 3 hrs

Prerequisite: BIO 310 and BIO 311W

Cross-Listed with: BIO 510

Previously Listed As: BIOL 410

Last Updated: Links 03/2011

BIO 411 - Animal Physiological Ecology

A lecture, laboratory and discussion course covering thermoregulation, metabolic rate, torpor, water flux, and specific adaptations for life in the cold, deserts, high altitude and great depths. Laboratory work emphasizes computerized data acquisition.

Credit Hours: 3 hrs

Prerequisite: BIO 305 or BIO 310

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Cross-Listed with: BIO 511

Previously Listed As: ZOOL 439

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 412 - Biogeography

A lecture course involving the descriptive and historical aspects of plant and animal distribution and the basic principles governing their natural distribution in both space and time.

Credit Hours: 3 hrs

Prerequisite: BIO 120 and ESSC 108, ESSC 202, ESSC 110 or ESSC 111

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: BIOL 412

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 413 - Wetland Ecosystems

Advanced field ecology course in the theory and methods of study of wetland ecosystems.

Credit Hours: 3 hrs

Prerequisite: BIO 310 and BIO 311W

Cross-Listed with: BIO 513

Previously Listed As: BIOL 435

Last Updated: Links 03/2011

BIO 414 - Terrestrial Ecosystems

Advanced field ecology course in the theory and methods of study of the structure and dynamics of terrestrial ecosystems.

Credit Hours: 3 hrs

Prerequisite: BIO 310 and BIO 311W

Cross-Listed with: BIO 514

Previously Listed As: BIOL 436

Last Updated: Links 03/2011

BIO 415 - Microbial Ecology

Interactions among microbes (fungi, bacteria, some phages), other living organisms and the environment, with emphases on parasitism, mutualism, commensalism and biogeochemical recycling of matter. Includes both laboratory and field exercises.

Credit Hours: 3 hrs

Prerequisite: BIO 425

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: MICR 442

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 425 - General Microbiology

A lecture and laboratory course on the nature and biology of bacteria and other microbes, their physiological relationships in natural and controlled environments, and the interactions of pathogenic microorganisms with their hosts. Laboratory includes an introduction to the techniques of isolating, cultivating, and identifying bacteria and other microbes, and their physiological, serological and pathological properties.

Credit Hours: 5 hrs

Prerequisite: C- or better in BIO 301; and CHEM 270 or CHEM 372

Notes: Not open to those who take BIO 328. CHEM 451 is highly recommended.

Previously Listed As: MICR 329

Last Updated: Links 03/2011

BIO 426 - Immunobiology

Cellular and molecular responses to immunogens; primary and peripheral immune organs; T-cells and B-cells in cell-mediated and humoral immunity, immune regulation and mechanisms; hypersensitivity; immunity against microbial infectious agents; antigen/antibody reactions in vitro used in research and diagnostics.

Credit Hours: 3 hrs

Prerequisite: BIO 425

Class Restrictions: Junior standing

Cross-Listed with: BIO 526

Last Updated: Links 03/2011

BIO 429 - Bacterial Pathogenesis

A lecture course that examines the mechanisms of bacterial pathogenesis. Emphasis will be placed on host-bacterial interactions that lead toward bacterial infection.

Credit Hours: 3 hrs

Prerequisite: BIO 425

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: MICR 455

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 443 - Developmental Biology

A course on the molecular aspects of early development, cytodifferentiation, cell communication, morphogenesis, pattern formation and developmental genetics.

Credit Hours: 3 hrs

Prerequisite: BIO 305

Class Restrictions: Junior standing

Cross-Listed with: BIO 543

Last Updated: Links 03/2011

BIO 446 - Genome Analysis

An introductory course to the field of genomics. This involves the study of genome data and exploration of the organization, dynamics and evolution of genes and genomes. The laboratory component involves analyses of genes, genomic variation/DNA fingerprinting, DNA sequences and molecular evolution.

Credit Hours: 4 hrs

Prerequisite: BIO 305, BIO 306W or BIO 548

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Cross-Listed with: BIO 546

Previously Listed As: BIOL 401

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 447 - Scanning Electron Microscopy

A lecture-laboratory course that provides the basic theory and practice of scanning electron microscopy. Lectures are coordinated with individualized instruction on laboratory equipment. Students design and conduct an original research project that is

presented in both written and oral forms at the end of the semester.

Credit Hours: 3 hrs

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: BIOL 418

Last Updated: Graduate Credit 07/2011

BIO 455 - Plant Evolution and Classification

Classification and identification of plants, including methods of collection and preservation of vascular plants. Lectures will introduce processes of evolution that have influenced the diversity and relationships among plant groups.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 130

Cross-Listed with: BIO 555

Previously Listed As: BOTN 455

Last Updated: Links 03/2011

BIO 456 - Freshwater Algae

A survey of the freshwater algal divisions; their morphology, taxonomy, ecology and economic importance. Lectures emphasize an evolutionary approach. Laboratory work stresses the identification of representative algal taxa. Class field collections are made.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 130

Cross-Listed with: BIO 556

Previously Listed As: BOTN 451

Last Updated: Links 03/2011

BIO 457 - Aquatic Plants

Analysis of vascular aquatic and wetland plants and habitats. Lectures stress physical and biological habitat features and plant adaptations. Laboratories stress identification of aquatic and wetland species.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 130

Cross-Listed with: BIO 557

Previously Listed As: BOTN 450

Last Updated: Links 03/2011

BIO 458 - Trees and Shrubs

A taxonomic field course on the biology, classification and identification of native trees and shrubs in winter and summer conditions.

Credit Hours: 3 hrs

Prerequisite: BIO 205 or BIO 120 or BIO 130

Cross-Listed with: BIO 558

Previously Listed As: BOTN 354

Last Updated: Links 03/2011

BIO 459 - Mycology

A lecture-laboratory course on the study of molds, rusts, mildews, edible and poisonous mushrooms, and other fungi. Their life history, economic importance, method of identification and preservation are considered.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 130

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: BOTN 404

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 460 - Plant Anatomy

A basic lecture-laboratory course in plant histology emphasizing recognition of primary and secondary tissues as variously combined in root, stem, leaf and flower of a wide variety of representative seed plants.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 130

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: BOTN 412

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 461 - Plant Physiology

A detailed study of major plant functions with emphasis on growth and development presented by lecture, demonstration and experimentation in laboratory and greenhouse.

Credit Hours: 3 hrs

Prerequisite: BIO 305 and BIO 306W; and CHEM 270 or CHEM 372

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: BOTN 442

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 462 - Plant Biotechnology

A hands-on exploration of the techniques used in plant biotechnology and their application to agricultural biotechnology and basic science. State-of-the-art molecular biology techniques are applied to genetic engineering of plants and plant products. Lecture and discussion provide the theoretical basis for the techniques used.

Credit Hours: 3 hrs

Prerequisite: BIO 305 and BIO 306W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: BOTN 445

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 472 - Parasitology

A survey of animal parasites that affect other animals including the human.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Cross-Listed with: BIO 572

Previously Listed As: ZOOL 462

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 473 - Concepts in Animal Physiology

Central themes in physiology (circulation, metabolism, water balance, temperature regulation, communication, movement, reproduction) will be studied. Class activities will examine strategies used by vertebrates and invertebrates with regard to these physiological concepts. Current literature, experiments and case studies will be used to demonstrate the diverse physiological responses of animals.

Credit Hours: 3 hrs

Prerequisite: BIO 305

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ZOOL 445

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 474 - Comparative Anatomy of Vertebrates

The anatomy of the vertebrate organ systems is studied on a comparative basis, which emphasizes the evolutionary development of the groups. Laboratory work includes detailed dissection of a shark and cat.

Credit Hours: 4 hrs

Lecture/Lab Hours: Three one-hour lectures and two two-hour laboratory periods per week.

Prerequisite: BIO 120 or BIO 140

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ZOOL 431

Last Updated: Graduate Credit 07/2011; Links 03/2011

BIO 476 - Mammalian Histology

A lecture/laboratory course dealing with the structure and properties of mammalian organs and their component tissues.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 576

Previously Listed As: ZOOL 404

Last Updated: Links 03/2011

BIO 480 - Natural History of Invertebrates

A field course in the recognition, collection, identification and preservation of common invertebrates of Michigan, exclusive of the insects, with emphasis on their natural history, ecology and economic importance.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 580

Previously Listed As: ZOOL 300

Last Updated: Links 03/2011

BIO 481 - Natural History of Vertebrates

A survey of vertebrates, emphasizing their adaptations and their natural history. Laboratory work will stress the taxonomic classification, identification and distribution of local and other forms. Fieldwork will emphasize accurate observation and permanent recording of original data on local species.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 581

Previously Listed As: ZOOL 310

Last Updated: Links 03/2011

BIO 482 - Ichthyology

A study of the biology, classification, distribution and evolution of fishes. Attention is given to the morphology, physiology, behavior, natural history and ecology of fishes through work in lecture, laboratory and in the field. Specific experience in the identification of the freshwater fishes of the Great Lakes region is provided in addition to a general survey of some marine fish families.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 582

Previously Listed As: ZOOL 422

Last Updated: Links 03/2011

BIO 483 - Mammalogy

Some aspects of the biology of mammals: origins and evolution, anatomy, classification, adaptations and zoogeography. Natural history and aspects of their ecology are studied in the field. A collection of study specimens of different species is required of each student.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 583

Previously Listed As: ZOOL 485

Last Updated: Links 03/2011

BIO 484 - Herpetology

Taxonomy, distribution, life histories, behavior and ecology of amphibians and reptiles with an emphasis on local species.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 584

Previously Listed As: ZOOL 474

Last Updated: Links 03/2011

BIO 485 - Ornithology

A course in bird biology for the secondary teacher and students with advanced interest in biology. Field identification and census methods will be used to introduce the study of bird populations, behavior and ecology.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 585

Notes: A student field project will be required. A survey of major North American bird families will be made in the laboratory.

Previously Listed As: ZOOL 425

Last Updated: Links 03/2011

BIO 486 - Entomology

A survey of the world of insects, their structure, function, behavior and ecology. The identification and classification of local insects will be stressed. A student field project will be required.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Cross-Listed with: BIO 586

Previously Listed As: ZOOL 421

Last Updated: Links 03/2011

BIO 487 - Cooperative Education in Biology

Four or six months of full-time employment at an industrial firm or laboratory specially chosen for imparting a practical educational experience in biology or technology. The program consists of two work experiences (BIO395/495) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: BIO 395

Notes: Admittance to program by application only. Graded on a credit/no-credit basis

Previously Listed As: BIOL 487

Last Updated: Links 03/2011

BIO 488 - Biology of Arachnids

Lecture, lab and field course addressing principles of arachnid biology. Course covers morphology, physiology, behavior, natural history and ecology. Identification and classification of major arachnid families supported by collections and observations of organisms from southern Michigan.

Credit Hours: 3 hrs

Prerequisite: BIO 120 or BIO 140

Class Restrictions: Sophomore standing

Last Updated: Links 03/2011

BIO 490 - Special Topics

An examination of advanced topics in biology not covered in other department offerings.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: BIOL 490

BIO 491 - Special Topics

An examination of advanced topics in biology not covered in other department offerings.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: BIOL 491

BIO 492 - Special Topics

An examination of advanced topics in biology not covered in other department offerings.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: BIOL 492

BIO 497 - Undergraduate Research in Biology

Independent, original research in biology involving extensive library, computation, field, and/or laboratory study, under the guidance of a biology faculty member. May be elected more than once upon approval.

Credit Hours: 1 hr

Prerequisite: department permission

Previously Listed As: BIOL 497

BIO 498 - Undergraduate Research in Biology

Independent, original research in biology involving extensive library, computation, field, and/or laboratory study, under the guidance of a biology faculty member. May be elected more than once upon approval.

Credit Hours: 2 hrs

Prerequisite: department permission

Previously Listed As: BIOL 498

BIO 499 - Undergraduate Research in Biology

Independent, original research in biology involving extensive library, computation, field, and/or laboratory study, under the guidance of a biology faculty member. May be elected more than once upon approval.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: BIOL 499

Biology Teaching

BIOT 303 - Life Science for Elementary Teachers

Major biological concepts and best practices for teaching science, including inquiry and the "discovery" approach, will be covered. Class configuration — methods or fieldwork and web-based instruction involving inquiry, resource evaluation and recitation. Concluding course in the elementary science sequence.

Credit Hours: 3 hrs

Prerequisite: CURR 304 and ESSC 202

Major Restrictions: Admission to the Initial Teacher Preparation Program

Previously Listed As: BIOL 303

Last Updated: Links 03/2011

BIOT 403 - Methods for Teaching Secondary Biology

A lecture-laboratory course providing knowledge, training and practice in the presentation of biological principles, analysis of texts, selection of course content, effective classroom methods and preparation of classroom materials used in the teaching of biology.

Credit Hours: 3 hrs

Prerequisite: BIO 120, CURR 305 and EDPS 340

Major Restrictions: Admission to the Initial Teacher Preparation Program

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: BIOL 403

Last Updated: Graduate Credit 7/2011; Links 03/2011

BIOT 407 - Nature of Science for Elementary Teachers

This course examines the nature of scientific evidence, inquiry, hypotheses, models and laws. The development of science is put in the context of the structure of the discipline, its history, and interactions with society. Discussions of modern theories and laws will integrate scientific concepts with the processes of how science works. The class will also provide students with activities to demonstrate these concepts.

Credit Hours: 2 hrs

Prerequisite: ASTR 105, BIO 105, PHY 311, CHEM 312 and ESSC 311

Class Restrictions: Junior standing

Major Restrictions: Elementary Integrated Science Majors only

Last Updated: Links 03/2011

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 69 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- * BIO 301 - Genetics 3 hrs
- * BIO 476 - Mammalian Histology 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 270 - Survey of Organic Chemistry 4 hrs
- CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 361 - Fundamentals of Physical Chemistry 3 hrs
- CHEM 381W - Instrumentation for Chemical Technology (Gen Ed Area I, W) 2 hrs
- CHEM 411 - Toxicology I 2 hrs
- CHEM 412 - Toxicology II 3 hrs
- CHEM 413 - Toxicology Laboratory 2 hrs
- CHEM 451 - Biochemistry I 3 hrs
- CHEM 452 - Biochemistry II 3 hrs
- CHEM 453W - Biochemistry Laboratory (Gen Ed Area I, W) 2 hrs

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 222 - Electricity and Light 4 hrs

One course from the following:

- * BIO 305 - Cell and Molecular Biology 3 hrs
- * BIO 326 - Human Physiology 3 hrs

One course from the following:

- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs
- PSY 205 - Quantitative Methods in Psychology 3 hrs

Toxicology cooperative education project:

At least two hours from a toxicology cooperative education project.

- CHEM 487 - Cooperative Education in Chemistry 1 hr
- CHEM 488 - Cooperative Education in Chemistry 2 hrs
- CHEM 489 - Cooperative Education in Chemistry 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

** Completion of BIO 110, or equivalent coursework, is required for Biochemistry students to obtain Biology departmental permission for 300- and 400-level biology courses.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses

will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

General Biochemistry Major

This curriculum is design for students with an interest in biochemistry but who require a less extensive background than that presented in the professional biochemistry curriculum. It is often selected by students in premedical and preidental programs.

The program includes a group minor composed of the required courses in biology, mathematics and physics. No other minor is needed to meet graduation requirements.

Chemistry Department Information:

Department Head: Steven Pernecky
Department Contact: spernecky@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 55-57

Required Coures: 50-52 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- * BIO 301 - Genetics 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- ** CHEM 270 - Survey of Organic Chemistry 4 hrs
- ** CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 361 - Fundamentals of Physical Chemistry 3 hrs
- CHEM 381W - Instrumentation for Chemical Technology (Gen Ed Area I, W) 2 hrs
- CHEM 451 - Biochemistry I 3 hrs
- CHEM 452 - Biochemistry II 3 hrs
- CHEM 453W - Biochemistry Laboratory (Gen Ed Area I, W) 2 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

One course from the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One course from the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

Elective Courses: 5 hours

* Five credits from any 300-level or above biology courses.

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

** Completion of BIO 110, or equivalent coursework, is required for Biochemistry students to obtain Biology departmental permission for 300- and 400-level biology courses.*

*** Premedicine and predentistry students should substitute CHEM 371, CHEM 372, and CHEM 373 to satisfy the requirements for organic chemistry of most medical and dental schools.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. University Information: Consult the online catalog at catalog.emich.edu.

General Chemistry Major

The general chemistry major is for students who seek work in the chemical or pharmaceutical industry, who are preparing for careers in health fields such as medicine or dentistry, or who are interested in a career combining chemistry with fields such as business, patent law, technical writing or industrial health and safety. Students who are interested in graduate training in chemistry should elect the professional chemistry curriculum.

Chemistry Department Information:

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 12-14 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

One course from the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One course from the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

Major Requirements: 30 hours

Required Courses: 25 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 361 - Fundamentals of Physical Chemistry 3 hrs
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- CHEM 381W - Instrumentation for Chemical Technology (Gen Ed Area I, W) 2 hrs

Elective Courses: 5 hours

Five hours from 300- and 400-level courses in chemistry.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Professional Biochemistry Major

The professional biochemistry curriculum prepares students for graduate study or a research career in biochemistry. With the appropriate elective (CHEM 332 or CHEM 432), it meets the requirements established for certification by the American Chemical Society. The program includes a group minor composed of the required courses in biology, mathematics and physics. No other minor is needed to meet graduation requirements.

Chemistry Department Information:

Department Head: Steven Pernecky
Department Contact: spernecky@emich.edu
Website: <http://www.emich.edu/chemistry>

Adviser Information:

Program Adviser: Steve Pernecky
Phone: 734.487.0106
Email: spernecky@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 78 hours

Required Courses: 71 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- * BIO 301 - Genetics 3 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs

- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- CHEM 451 - Biochemistry I 3 hrs
- CHEM 452 - Biochemistry II 3 hrs
- CHEM 453W - Biochemistry Laboratory (Gen Ed Area I, W) 2 hrs
- CHEM 461 - Chemical Thermodynamics and Kinetics 3 hrs
- CHEM 463W - Physical Chemistry Laboratory (Gen Ed Area I, W) 2 hrs
- CHEM 465 - Quantum and Statistical Mechanics 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs

Two hours from the following:

- CHEM 487 - Cooperative Education in Chemistry 1 hr
- CHEM 488 - Cooperative Education in Chemistry 2 hrs
- CHEM 489 - Cooperative Education in Chemistry 3 hrs
- CHEM 497 - Undergraduate Research in Chemistry 1 hr
- CHEM 498 - Undergraduate Research in Chemistry 2 hrs
- CHEM 499 - Undergraduate Research in Chemistry 3 hrs

Elective Courses: 7 hours

- *Three hours from any courses in biology 300-level or above and...*

Four hours from the following:

- ** CHEM 332 - Inorganic Chemistry 2 hrs
- CHEM 411 - Toxicology I 2 hrs
- CHEM 412 - Toxicology II 3 hrs
- CHEM 413 - Toxicology Laboratory 2 hrs
- ** CHEM 432 - Advanced Inorganic Chemistry 3 hrs
- CHEM 433 - Inorganic-Organic Synthesis Laboratory 2 hrs
- CHEM 475 - Introduction to Polymer Chemistry 3 hrs
- CHEM 477 - Special Topics 1 hr
- CHEM 478 - Special Topics 2 hrs
- CHEM 479 - Special Topics 3 hrs
- CHEM 481 - Instrumental Analysis 4 hrs
- CHEM 485 - Introduction to Radiotracer Techniques 2 hrs
- CHEM 487 - Cooperative Education in Chemistry 1 hr
- CHEM 488 - Cooperative Education in Chemistry 2 hrs

- CHEM 489 - Cooperative Education in Chemistry 3 hrs
- CHEM 497 - Undergraduate Research in Chemistry 1 hr
- CHEM 498 - Undergraduate Research in Chemistry 2 hrs
- CHEM 499 - Undergraduate Research in Chemistry 3 hrs
- CHEM 551 - Macromolecular Biochemistry 2 hrs
- CHEM 554 - Protein Structure and Function 2 hrs
- CHEM 555 - Neurochemistry 3 hrs
- CHEM 572 - Spectrometric Organic Structure Determination 4 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

** Completion of BIO 110, or equivalent coursework, is required for biochemistry students to obtain biology departmental permission for 300- and 400-level biology courses.*

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

*** Certification by the American Chemical Society requires appropriate selection of electives from among those indicated with ***.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a

minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Professional Chemistry Major

This curriculum provides the necessary background for those planning to become professional chemists. The professional chemistry curriculum meets the requirements established for certification by the American Chemical Society. Students successfully completing the curriculum are prepared to undertake graduate study in chemistry or enter technical positions in industrial and governmental research. The program includes a group minor composed of the required courses in mathematics and physics. No other minor is needed to meet graduation requirements.

For students planning graduate study in chemistry (especially organic chemistry), 10 hours or an equivalent reading knowledge of a foreign language, preferably German, is recommended

- CHEM 572 - Spectrometric Organic Structure Determination 4 hrs
- CHEM 574 - Advanced Organic Chemistry Topics 2 hrs
- CHEM 581 - Advanced Analytical Chemistry 3 hrs

Mathematics and Computer Science

- Other 400-level courses with department permission
- MATH 325 - Differential Equations 3 hrs
- MATH 425 - Mathematics for Scientists 3 hrs

Physics

- Other 400-level courses with department permission
- PHY 450 - Electricity and Magnetism II 3 hrs
- PHY 452 - Electrical Measurements 4 hrs
- PHY 456 - Electronics for Scientists 4 hrs
- PHY 471 - Atomic and Nuclear Physics 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Chemistry Major

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in chemistry, certification code DC, and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the National Science Teachers Association. The Michigan Test for Teacher Certification (MTTC) covering this field is #018, "Chemistry."

Chemistry Department Information:

Department Head: Steven Pernecky
 Department Contact: spernecky@emich.edu

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 12-14 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

One course from the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One course from the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

Major Requirements: 32 hours

Required Courses: 29-30 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 361 - Fundamentals of Physical Chemistry 3 hrs
- CHEM 371 - Organic Chemistry I 3 hrs
- CHEM 372 - Organic Chemistry II 3 hrs
- CHEM 373 - Organic Chemistry Laboratory 2 hrs
- CHEM 381W - Instrumentation for Chemical Technology (Gen Ed Area I, W) 2 hrs
- CHEM 406 - The Nature of Science 1 hr
or equivalent (see course description)

One course from the following:

- CHEM 351 - Foundations of Biochemistry 4 hrs
- CHEM 451 - Biochemistry I 3 hrs

Elective Courses: 2-3 hours

Two to three hours from 300- and 400-level courses in chemistry.

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Chemistry Majors take one of:

- CHEM 325 - Methodology for Secondary Chemistry Teachers 3 hrs
- PHY 325 - Methods of Teaching the Physical Sciences 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Biochemistry Minor

Chemistry Department Information:

Department Head: Steven Pernecky
 Department Contact: spernecky@emich.edu
 Website: <http://www.emich.edu/chemistry>

Adviser Information:

Program Adviser: Steve Pernecky
Phone: 734.487.0106
Email: spernecky@emich.edu

Required Courses: 22-23 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- * CHEM 270 - Survey of Organic Chemistry 4 hrs
- * CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs
- CHEM 453W - Biochemistry Laboratory (Gen Ed Area I, W) 2 hrs

One course from the following:

- CHEM 351 - Foundations of Biochemistry 4 hrs
- CHEM 451 - Biochemistry I 3 hrs

Minor Total: 22-23 hours

Notes:

All minors must have at least six hours of course work at the 300-level or above.

** The CHEM 371/372/373 sequence may be substituted for CHEM 270/271 if a stronger background is desired.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Chemistry Minor

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in chemistry, certification code DC. The Michigan Test for Teacher Certification (MTTC) covering this field is #018, "Chemistry."

Chemistry Department Information:

Department Head: Steven Pernecky
 Department Contact: spernecky@emich.edu
 Website: <http://www.emich.edu/chemistry>

Adviser Information:

Program Adviser: Larry Kolopajlo
 Phone: 734.487.0106
 Email: lkolopajl@emich.edu

Required Courses: 24 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- * CHEM 270 - Survey of Organic Chemistry 4 hrs
- * CHEM 271 - Organic Chemistry Laboratory 1 hr
- CHEM 281 - Introduction to Analytical Chemistry 4 hrs

Choose one option from the following:

Option I

Electives: Three hours in Chemistry from courses numbered above 200. If a student is a nonscience major, then that student will take CHEM 325 or PHY 325 (3 hrs) as an elective course and either BIO 406, CHEM 406, ESSC 406, or PHY 406 (1 hr).

- CHEM 351 - Foundations of Biochemistry 4 hrs

Option II

Four elective hours in chemistry from courses numbered above 200. If a student is a nonscience major, then that student will take CHEM 325 or PHY 325 (3 hrs) as an elective course and either BIO 406, CHEM 406, ESSC 406, or PHY 406 (1 hr).

- CHEM 451 - Biochemistry I 3 hrs

Minor Total: 24 hours

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Notes:

All minors must have at least six hours of course work at the 300-level or above.

** The CHEM 371/372/373 sequence may be substituted for CHEM 270/271 if a stronger background is desired. The 8 hour sequence CHEM 371/372/373 will also count for three hours of electives for science majors. Non-science majors who take CHEM 371/372/373 must still take CHEM 325 and CHEM 406.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Chemistry

CHEM 101 - Chemistry for Elementary Teachers (Gen Ed Area IV)

Designed for students who plan to teach in elementary school. Lectures deal with some basic principles of chemistry while the laboratory work emphasizes the discovery approach as it may be used in an elementary classroom. Simple equipment and easily obtained chemicals are used in the experiments. Does not count toward major or minor.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: two hours per week. Laboratory: two hours per week.

Prerequisite: PHY 100

Area IV: Knowledge of the Disciplines

CHEM 101 Chemistry for Elementary Teachers

Chemistry for Elementary Teachers is one of four science courses that are required for all Elementary Education majors. This set of required courses in the natural sciences is designed to give students a general understanding of the laws that govern the natural world, an introduction to the scientific method, and provide strategies for teaching these concepts to elementary school students. In particular, the CHEM101 course provides an introduction to basic chemical theories and concepts, while the laboratory portion of the course gives students the opportunity to employ the scientific method to solve simple chemical problems. Finally, the course aims at providing students with the tools to understand the physical world and everyday manifestations of chemical laws. Because of the introductory nature of the course and given the relevance of the topics discussed in the course to everyday life.

Last Updated: Links 03/2011

CHEM 115 - Chemistry and Society (Gen Ed Area IV)

Examines the relevance of chemistry to the problem of how humans relate to the environment. It is designed for humanities and other nonscience majors. No previous mathematics or chemistry is required. In order to satisfy four credits of Knowledge of the Disciplines - Natural Science portion of the General Education program, CHEM116 must be taken concurrently.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Notes: Does not count toward major or minor.

Area IV: Knowledge of the Disciplines

CHEM 115 Chemistry and Society & Lab

Chemistry and Society and its required companion laboratory course (CHEM116) examine the relevance of chemistry to the problem of how humans relate to the environment. This pair of courses explores some of the major environmental issues of our time, such as global warming, air and water pollution and energy consumption. During the discussion of these problems, chemical concepts are introduced as a tool to understand the scientific basis of possible solutions. The courses are designed for non-science majors and in this context they discuss many of the basic concepts, theories and techniques that are fundamental to the chemical sciences. The aim of the course is to enable students to examine science-related societal issues using the basic knowledge and tools of chemistry and to evaluate proposed solutions to the issues using a scientific approach.

CHEM 116 - Chemistry and Society Laboratory (Gen Ed Area IV)

The course consists of a set of laboratory experiments based on environmental problems such as water and air pollution, drugs and pesticides. CHEM115 must be taken concurrently to satisfy four credits of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

Credit Hours: 1 hr

Lecture/Lab Hours: Laboratory: two hours per week.

Concurrent Prerequisite: CHEM 115

Area IV: Knowledge of the Disciplines

CHEM 116 Chemistry and Society & Lab

Chemistry and Society (CHEM 115) and its required companion laboratory course examine the relevance of chemistry to the problem of how humans relate to the environment. This pair of courses explores some of the major environmental issues of our time, such as global warming, air and water pollution and energy consumption. During the discussion of these problems, chemical concepts are introduced as a tool to understand the scientific basis of possible solutions. The courses are designed for non-science majors and in this context they discuss many of the basic concepts, theories and techniques that are fundamental to the chemical sciences. The aim of the course is to enable students to examine science-related societal issues using the basic knowledge and tools of chemistry and to evaluate proposed solutions to the issues using a scientific approach.

Last Updated: 3/1/2011

CHEM 117 - Fundamentals of Chemistry-Lecture (Gen Ed Area IV)

A rapidly moving introductory study of basic principles in general chemistry. Includes elements, compounds, periodic properties, atomic structure, gas laws and stoichiometry. Can be used with CHEM 118 to satisfy the chemistry prerequisite for CHEM 121. CHEM 118 must be taken concurrently to satisfy four credits of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: MATH 098 (C), MATH 098B (C), MATH 104, MATH 105, MATH 107, MATH 110, MATH 110E, MATH 112, MATH 118, MATH 119, MATH 120, MATH 170 or Level 3 math placement

Corequisites: CHEM 118

Area IV: Knowledge of the Disciplines

CHEM 117 Fundamentals of Chemistry & Lab [was CHEM 119]

Fundamentals of Chemistry and its required companion laboratory class (CHEM 118) provide an introduction to basic chemical principles for students with minimal or no chemistry background. The pair of courses presents an overview of fundamental concepts such as molecular structure, stoichiometry and acid-base chemistry. They are a stand-alone, introductory pair of courses, as well as preparatory courses to others that are taught at a more advanced level, such as CHEM 120 (Fundamentals of Organic and Biochemistry) and CHEM 121 (General Chemistry). The laboratory portion of the course provides an introduction to the process of scientific discovery and basic laboratory techniques. The experiments are drawn from topics presented in the lecture course. The goal of the courses is to familiarize students with the scientific method as it applies to chemistry, basic experimental techniques and fundamental chemical concepts.

Last Updated: Links 03/2011

CHEM 118 - Fundamentals of Chemistry Laboratory (Gen Ed Area IV)

This course is designed to accompany CHEM 117 lecture. Will provide an introduction to scientific discovery through experimentation and observation. Experiments are drawn from topics presented in the chemistry lectures in CHEM 117. CHEM 117 must be taken concurrently to satisfy four credits of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

Credit Hours: 1 hr

Lecture/Lab Hours: Laboratory: two hours per week.

Corequisites: CHEM 117

Area IV: Knowledge of the Disciplines

CHEM 118 Fundamentals of Chemistry & Lab [was CHEM 119]

Fundamentals of Chemistry (CHEM117) and its required companion laboratory class provide an introduction to basic chemical principles for students with minimal or no chemistry background. The pair of courses presents an overview of fundamental concepts such as molecular structure, stoichiometry and acid-base chemistry. They are a stand-alone, introductory pair of courses, as well as preparatory courses to others that are taught at a more advanced level, such as CHEM 120 (Fundamentals of Organic and Biochemistry) and CHEM 121 (General Chemistry). The laboratory portion of the course provides an introduction to the process of scientific discovery and basic laboratory techniques. The experiments are drawn from topics presented in the lecture course. The goal of the courses is to familiarize students with the scientific method as it applies to chemistry, basic experimental techniques and fundamental chemical concepts.

Last Updated: Links 03/2011

CHEM 120 - Fundamentals of Organic and Biochemistry (Gen Ed Area IV)

A survey of organic chemistry and biochemistry; completes the study of chemistry begun in CHEM 117/CHEM 118 and is a terminal course. Does not count toward major or minor.

Credit Hours: 4 hrs

Lecture/Lab Hours: Lecture: three hours per week. Laboratory: two hours per week

Prerequisite: high school chemistry or CHEM 117

Area IV: Knowledge of the Disciplines

CHEM 120 Fundamentals of Organic Biochemistry

Fundamentals of Organic and Biochemistry is a one-semester survey course that introduces students to some basic principles of organic chemistry and its applications to biochemistry. The course is designed for students who have an interest in health-related topics and who are considering careers in the medical and allied fields. In the first portion of the course, the structure and reactivity of all major classes of organic compounds are discussed, these include saturated and unsaturated hydrocarbons, aromatic compounds, amines, alcohols and others. During the second part of the course, the basic terminology and fundamental concepts of organic chemistry are applied to the understanding of biochemical processes. After a survey of the major categories of biochemical compounds, such as carbohydrates, lipids, amino acids and proteins, several overarching themes of biochemistry are explored. These include the structure and function of enzymes, bioenergetic cycles such as the citric acid cycle and oxidative phosphorylation and important catabolic pathways such as glycolysis and fatty acid oxidation. Lastly, the field of molecular biology is briefly discussed, including the role of nucleic acids and protein syntheses. The laboratory portion of the course complements the lecture by introducing students to basic experimental techniques and by reinforcing concepts discussed in lecture.

Last Updated: Links 03/2011

CHEM 121 - General Chemistry I (Gen Ed Area IV)

The first semester of a two-semester sequence covering the principles of chemistry for science majors and others with an interest and background in science. CHEM 122 must be taken concurrently to satisfy four credits of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: MATH 104, MATH 105, MATH 112, MATH 119, MATH 120, Level 4 placement or Level 3 math placement

with concurrent registration in MATH 104; High school chemistry

Corequisites: CHEM 122

Area IV: Knowledge of the Disciplines

CHEM 121 General Chemistry I & Lab

General Chemistry I and its required companion laboratory course are the first half of a two-semester introductory chemistry sequence aimed at students who will pursue science-related majors. The courses introduce some of the fundamental concepts in the chemical sciences, such as atomic structure and bonding, stoichiometry, the periodic table, chemical reactivity and thermochemistry. In the laboratory portion of the course, students are exposed to basic techniques such as proper use of glassware, observations, simple syntheses, colorimetry and titration. In addition, students are shown how mathematical models and error analysis can be used to analyze data and draw conclusions. The goal of the courses is to introduce the field of chemistry, its fundamental concepts and theories and its basic experimental techniques to students who have an interest in science.

Last Updated: Links 03/2011

CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV)

The laboratory class to accompany CHEM 121. Students learn basic techniques employed in a chemistry laboratory, including use of analytical balances, quantitative glassware, spectrophotometry and computers for data acquisition and analysis. CHEM 121 must be taken concurrently to satisfy four credits of the Knowledge of the Disciplines - Natural Science portion of the General Education program.

Credit Hours: 1 hr

Lecture/Lab Hours: Laboratory: three hours per week.

Corequisites: CHEM 121

Area IV: Knowledge of the Disciplines

CHEM 121 General Chemistry I & Lab

General Chemistry I and its required companion laboratory course are the first half of a two-semester introductory chemistry sequence aimed at students who will pursue science-related majors. The courses introduce some of the fundamental concepts in the chemical sciences, such as atomic structure and bonding, stoichiometry, the periodic table, chemical reactivity and thermochemistry. In the laboratory portion of the course, students are exposed to basic techniques such as proper use of glassware, observations, simple syntheses, colorimetry and titration. In addition, students are shown how mathematical models and error analysis can be used to analyze data and draw conclusions. The goal of the courses is to introduce the field of chemistry, its fundamental concepts and theories and its basic experimental techniques to students who have an interest in science.

Last Updated: Links 03/2011

CHEM 123 - General Chemistry II

A continuation of the two-semester sequence covering the general principles of chemistry for science majors and others with an interest and background in science.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week

Prerequisite: (C- or better in CHEM 121) and CHEM 122 and (MATH 104 or MATH 105 or MATH 112 or MATH 119 or MATH 120 or Level 4 math placement)

Corequisites: CHEM 124

Last Updated: Links 03/2011

CHEM 124 - General Chemistry II Laboratory

The techniques learned in CHEM 122 are reemphasized and supplemented.

Credit Hours: 1 hr

Lecture/Lab Hours: Laboratory: three hours per week

Prerequisite: C- or better in CHEM 122

Corequisites: CHEM 123

Last Updated: Links 03/2011

CHEM 125 - Honors General Chemistry II (Lecture)

A continuation of CHEM 121 General Chemistry for students of superior ability. The sequence of CHEM 121, CHEM 122, CHEM 125 and CHEM 126 can constitute the customary year of general chemistry.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: CHEM 121 and CHEM 122; and MATH 105 or MATH 107 or MATH 112 or MATH 119 or MATH 120 or Level 5 math placement; and consent of Honors Committee

Corequisites: CHEM 126

Last Updated: Links 03/2011

CHEM 126 - Honors General Chemistry II (lab)

The laboratory to accompany CHEM 125. The techniques learned in CHEM 122 are reemphasized and supplemented. Preparation of a laboratory notebook is required. The sequence of CHEM 121, CHEM 122, CHEM 125 and CHEM 126 can constitute the customary year of general chemistry.

Credit Hours: 1 hr

Lecture/Lab Hours: Laboratory: three hours per week.

Corequisites: CHEM 125

Last Updated: Links 03/2011

CHEM 177 - Special Topics

Covers specific chemistry topics not discussed in any regular, introductory chemistry course.

Credit Hours: 1 hr

Prerequisite: department permission

CHEM 178 - Special Topics

Covers specific chemistry topics not discussed in any regular, introductory chemistry course

Credit Hours: 2 hrs

Prerequisite: department permission

CHEM 179 - Special Topics

Covers specific chemistry topics not discussed in any regular, introductory chemistry course.

Credit Hours: 3 hrs

Prerequisite: department permission

CHEM 270 - Survey of Organic Chemistry

A comprehensive one-semester survey course in organic chemistry. Includes aliphatic and aromatic compounds plus functional group chemistry. Chemistry majors and other students requiring a full-year sequence of organic chemistry should enroll in CHEM 371 and CHEM 372.

Credit Hours: 4 hrs

Lecture/Lab Hours: Lecture: four hours per week.

Prerequisite: CHEM 121 and CHEM 122

Last Updated: Links 03/2011

CHEM 271 - Organic Chemistry Laboratory

Instruction in the basic manipulative techniques of experimental organic chemistry and experience with organic chemicals.

Credit Hours: 1 hr

Lecture/Lab Hours: Laboratory: three hours per week.

Concurrent Prerequisite: CHEM 270

Last Updated: 3/1/2011

CHEM 277 - Special Topics

Covers specific chemistry topics not discussed in any regular chemistry course at this level.

Credit Hours: 1 hr

Prerequisite: one 100-level chemistry course and department permission

CHEM 278 - Special Topics

Covers specific chemistry topics not discussed in any regular chemistry course at this level.

Credit Hours: 2 hr

Prerequisite: one 100-level chemistry course and department permission

CHEM 279 - Special Topics

Covers specific chemistry topics not discussed in any regular chemistry course at this level.

Credit Hours: 3 hr

Prerequisite: one 100-level chemistry course and department permission

CHEM 281 - Introduction to Analytical Chemistry

An introduction to theory, methods, and techniques relevant to chemical analysis, including sample collection, handling, and preparation, analytical methods and instruments, data collection, and the statistical treatment and evaluation of data.

Credit Hours: 4 hrs

Lecture/Lab Hours: Laboratory: six hours per week. Lecture: two hours per week.

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126)

Last Updated: Title and Description Change 12/2011, effective Winter 2012; Links 03/2011

CHEM 282 - Honors Introduction to Analytical Chemistry

An introduction and evaluation of theory, methods, and techniques relevant to chemical analysis. Topics include sample collection, handling, and preparation, analytical methods and instruments, data collection, and critical assessment and the statistical treatment of data.

Credit Hours: 4 hrs

Lecture/Lab Hours: Laboratory: six hours per week. Lecture: two hours per week..

Prerequisite: Consent of honors coordinator and either (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126)

Last Updated: Title and Description Change 12/2011, effective Winter 2012; Links 03/2011

CHEM 287 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 1 hr

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); admission by application only

Class Restrictions: Sophomore standing

Notes: Graded on a credit/no-credit basis. No credit granted toward chemistry degree programs, except with departmental permission

Last Updated: Links 03/2011

CHEM 288 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 2 hrs

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); admission by application only

Class Restrictions: Sophomore standing

Notes: Graded on a credit/no-credit basis. No credit granted toward chemistry degree programs, except with departmental permission.

Last Updated: Links 03/2011

CHEM 289 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 3 hrs

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); admission by application only

Class Restrictions: Sophomore standing

Notes: Graded on a credit/no-credit basis. No credit granted toward chemistry degree programs, except with departmental permission.

Last Updated: Links 03/2011

CHEM 297 - Undergraduate Research in Chemistry

An independent, original endeavor involving laboratory and/or library study under the guidance of a chemistry faculty member. A formal written report is required at the end of the semester.

Credit Hours: 1 hr

Prerequisite: department permission

CHEM 312 - Teaching Elementary Chemistry

This course is designed for prospective elementary teachers. Students will develop a meaningful and functional understanding of key chemistry concepts and their interrelations through a variety of hands-on experiences. Practical methods for conducting demonstrations, using models, planning laboratory experiences, managing standard scientific equipment, and establishing safe laboratory environments will be developed and discussed.

Credit Hours: 3 hrs

Prerequisite: CHEM 101

Class Restrictions: Sophomore standing or above

Last Updated: Removal of Major Restriction 11/2011, effective Winter 2012; 07/2009, effective Fall 2009

CHEM 315 - Green Chemistry and the Environment for Elementary Teachers

This course will provide prospective elementary teachers with an overview of the principles of green chemistry and sustainability. Students will apply fundamental chemistry concepts to such issues as renewable energy, climate change, water resource management, and environmental pollution. An emphasis will be placed on how "green" concepts can be incorporated into an elementary classroom.

Credit Hours: 3 hrs

Prerequisite: CHEM 101

Class Restrictions: Sophomore standing or above

Major Restrictions: Elementary Integrated Science programs only

Last Updated: Links 03/2011

CHEM 325 - Methodology for Secondary Chemistry Teachers

A comprehensive methods course for teaching chemistry in secondary schools. Students use modern technology to design and deliver instructional material and demonstrations for classrooms laboratories. CHEM325 will examine inquiry, computer-based instruction, computer data acquisition and other methodology.

Credit Hours: 3 hrs

Lecture/Lab Hours: Two hours of lecture and three hours of lab per week.

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); CHEM 281 or CHEM 282; (CHEM 270 and CHEM 271) or (CHEM 372 and CHEM 373) or (CHEM 372 and CHEM 376)

Last Updated: Links 03/2011

CHEM 332 - Inorganic Chemistry

This course will discuss the fundamental themes of bonding, structure and reactivity, primarily in the context of inorganic chemistry. In addition, the course will give students an introduction to some of the newer and more exciting areas of interest to inorganic chemists, such as catalytic cycles and bioinorganic chemistry.

Credit Hours: 2 hrs

Prerequisite: CHEM 123 or CHEM 125

Last Updated: Links 03/2011

CHEM 340 - Introduction to Industrial Chemistry

Discussion of the important aspects of the manufacture and chemistry of the major organic and inorganic chemicals and their use through commercially available products such as polymers. Includes environmental and economic aspects of industry.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); CHEM 270 or (CHEM 371 and CHEM 372); and (PHY 221 or PHY 223)

Last Updated: Links 03/2011

CHEM 341 - Fundamentals of Material Science

A general overview of the fundamental principles of materials science. Addresses the relationship of atomic/molecular structure to physical properties for metals, ceramics, glasses, polymers, semiconductors, and composite materials.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); CHEM 270 or CHEM 372

Last Updated: Links 03/2011

CHEM 351 - Foundations of Biochemistry

Deals with biological structures and the interactions that confer activity upon biological molecules. Metabolism and synthesis of biological molecules, and the controls that integrate the various process at the molecular and cellular level are presented. Bioenergetics, including equilibria, catalysis, and the production/utilization of biological forms of energy, are discussed.

Credit Hours: 4 hrs

Prerequisite: CHEM 270 or CHEM 372

Major Restrictions: Not open to Freshmen or Graduate students

Last Updated: Links 03/2011

CHEM 361 - Fundamentals of Physical Chemistry

Calculus-based introduction to quantum mechanics, thermodynamics and kinetics. Serves as survey course for general curricula and major.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: MATH 120, CHEM 281 or CHEM 282

Concurrent Prerequisite: PHY 222 or PHY 224

Last Updated: Links 03/2011

CHEM 371 - Organic Chemistry I

The first semester of a two-semester sequence covering the general principles of organic chemistry for students specializing in science and those preparing for dentistry or medicine.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126)

Notes: Credit cannot be earned in both CHEM 270 and CHEM 371

Last Updated: Links 03/2011

CHEM 372 - Organic Chemistry II

A continuation of CHEM 371. CHEM 371 and CHEM 372 constitute the customary year of foundation/lecture work in organic chemistry.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: C- or better in CHEM 371

Last Updated: Links 03/2011

CHEM 373 - Organic Chemistry Laboratory

Covers the basic techniques involved in organic chemistry.

Credit Hours: 2 hrs

Lecture/Lab Hours: Laboratory: six hours per week.

Concurrent Prerequisite: CHEM 372

Last Updated: 3/1/2011

CHEM 376 - Honors Organic Chemistry Laboratory

Covers the basic techniques involved in organic chemistry for students of superior ability. The sequence of CHEM 371, CHEM 372 and CHEM 376 can constitute the customary year of organic chemistry

Credit Hours: 2 hrs

Lecture/Lab Hours: Laboratory: six hours per week.

Concurrent Prerequisite: CHEM 372

Last Updated: 3/1/2011

CHEM 377 - Special Topics

Covers specific chemical topics not discussed in any regular chemistry course at this level.

Credit Hours: 1 hr

Prerequisite: department permission

CHEM 378 - Special Topics

Covers specific chemical topics not discussed in any regular chemistry course at this level.

Credit Hours: 2 hrs

Prerequisite: department permission

CHEM 379 - Special Topics

Covers specific chemical topics not discussed in any regular chemistry course at this level.

Credit Hours: 3 hrs

Prerequisite: department permission

CHEM 381W - Instrumentation for Chemical Technology (Gen Ed Area I, W)

A lecture and laboratory course that surveys various types of analytical instrumentation and their uses in chemical industry.

Credit Hours: 2 hrs

Lecture/Lab Hours: Lecture: one hour per week. Laboratory: three hours per week.

Prerequisite: (CHEM 281 or CHEM 282) and (CHEM 270 or CHEM 372) and (CHEM 271 or CHEM 373 or CHEM 376)

Last Updated: Links 03/2011

CHEM 387 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 1 hrs

Class Restrictions: Junior standing

Notes: Graded on a credit/no-credit basis for junior-level students. No credit granted toward chemistry degree programs, except with department permission

CHEM 388 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 2 hrs

Class Restrictions: Junior standing

Notes: Graded on a credit/no-credit basis. For junior-level students. No credit granted toward chemistry degree programs, except with department permission

CHEM 389 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement

Credit Hours: 3 hrs

Class Restrictions: Junior standing

Notes: Graded on a credit/no-credit basis. For junior-level students. No credit granted toward chemistry degree programs, except with department permission

CHEM 397 - Undergraduate Research in Chemistry

An independent, original endeavor involving laboratory and/or library study, under the guidance of a chemistry faculty member. A formal written report is required at the end of the semester.

Credit Hours: 1 hr

Prerequisite: department permission

CHEM 406 - The Nature of Science

This course examines the nature of scientific evidence, inquiry, hypothesis, models and laws. The development of science is put in the context of the structure and history of the scientific community. Interactions among scientists and between scientists and the rest of society are studied from an ethical perspective.

Credit Hours: 1 hr

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126)

Major Restrictions: Department permission for Non-Chemistry Majors

Cross-Listed with: BIO 406 and ESSC 406

Last Updated: Cross-Listed 09/2011; Links 03/2011

CHEM 407 - Nature of Science for Elementary Teachers

This course examines the nature of scientific evidence, inquiry, hypotheses, models and laws. The development of science is put in the context of the structure of the discipline, its history, and interactions with society. Discussions of modern theories and laws will integrate scientific concepts with the processes of how science works. The class will also provide students with activities to demonstrate these concepts.

Credit Hours: 2 hrs

Prerequisite: ASTR 105, PHY 100, CHEM 101, ESSC 202, BIO 105, PHY 311, CHEM 312 and ESSC 311

Class Restrictions: Junior standing

Major Restrictions: Elementary Integrated Science Majors only

Cross-Listed with: BIOT 407, ESSC 407, PSCI 407

Last Updated: Links 03/2011

CHEM 411 - Toxicology I

An introduction to the principles and methods of toxicology. Special cases of toxic response including carcinogenesis, teratogenesis and mutagenesis, and the effects of radiation are discussed.

Credit Hours: 2 hrs

Lecture/Lab Hours: Lecture: two hours per week.

Prerequisite: CHEM 270 or CHEM 372

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

CHEM 412 - Toxicology II

Discussion of the metabolism of toxicants and their effect on specific organ systems; specific classes of toxicants and legal aspects of toxicology.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: CHEM 411; biochemistry recommended

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 02/2005 effective Winter 2006

CHEM 413 - Toxicology Laboratory

A lecture and laboratory covering the techniques employed in a toxicology laboratory including methods of calculation, interpretation and presentation of experimental data. The theory and practical aspects of toxicological procedures will be discussed.

Credit Hours: 2 hrs

Lecture/Lab Hours: Lecture: one hour per week. Laboratory: three hours per week.

Prerequisite: CHEM 411; CHEM 281 recommended

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

CHEM 415 - Environmental Chemistry

A survey of environmental and energy-related problems and the ways in which chemistry may be applied to them. Important topics include air and water pollution, energy and other resources, solid wastes and recycling, and toxic chemicals.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); CHEM 270 or CHEM 372 and CHEM 281 recommended

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

CHEM 432 - Advanced Inorganic Chemistry

An advanced-level treatment of the newer inorganic chemical developments, with emphasis on theoretical advances in the interpretation of bonding and reactivity of inorganic compounds.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: CHEM 465 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 02/2010

CHEM 433 - Inorganic-Organic Synthesis Laboratory

Covers advanced preparative and analytical techniques of inorganic and organic chemistry including extensive use of IR, NMR, UV-visible and other instruments.

Credit Hours: 2 hrs

Lecture/Lab Hours: Lab: 6 hours per week

Prerequisite: CHEM 281 or CHEM 282; and CHEM 373 or CHEM 376

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 02/2010

CHEM 451 - Biochemistry I

Chemistry of biologically significant compounds such as proteins, nucleic acids, carbohydrates and lipids. Enzymes are introduced, bioenergetics is discussed and the most central topics of metabolism are outlined. This course is intended as a one-semester survey of biochemistry for health science students and as the first semester of a two-semester sequence for chemistry, biology and toxicology students.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); and (CHEM 270 or CHEM 372); and (CHEM 281 or CHEM 282) recommended

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

CHEM 452 - Biochemistry II

Continues the survey of biochemistry begun in CHEM 451. Membranes and transport, enzyme kinetics, further topics in metabolism, replication, transcription, translation and regulation of cell processes are discussed

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: CHEM 451; (C- or better in CHEM 451 is recommended)

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

CHEM 453W - Biochemistry Laboratory (Gen Ed Area I, W)

Theory and application of preparative and analytical techniques in the investigation of the biochemical and biophysical properties of proteins and nucleic acids. Emphasis is placed on communication of experimental results in the form of scientific manuscripts.

Credit Hours: 2 hrs

Lecture/Lab Hours: Laboratory: six hours per week.

Prerequisite: (CHEM 451 or CHEM 351); CHEM 271 or CHEM 373 or CHEM 376; and (CHEM 281 or CHEM 282)

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

CHEM 461 - Chemical Thermodynamics and Kinetics

The study of the principles of thermodynamics, the equilibrium properties of systems and the rates of chemical reactions.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: PHY 224 and (CHEM 281 or CHEM 282)

Concurrent Prerequisite: MATH 223

Last Updated: Links 04/2011

CHEM 463W - Physical Chemistry Laboratory (Gen Ed Area I, W)

Determination of the physical properties of substances, rate studies and measurement of the thermochemical properties. Emphasis on scientific report writing and oral presentation of work.

Credit Hours: 2 hrs

Lecture/Lab Hours: Laboratory: six hours per week.

Prerequisite: MATH 121 and either (C- or better in CHEM 361) or CHEM 461

Last Updated: Links 04/2011

CHEM 465 - Quantum and Statistical Mechanics

The study of quantum mechanics and its application to atomic structure, molecular bonding and spectroscopy. An introduction to statistical mechanics and modern theories of the rate constant.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week

Prerequisite: CHEM 461, CHEM 281 or CHEM 282, MATH 223, PHY 224

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CHEM 475 - Introduction to Polymer Chemistry

An emphasis on the organic chemistry involved in the preparation of synthetic high polymers. Topics include: chain-growth vinyl polymers, step-growth polymerization, copolymerization, cationic and anionic polymerization, and complex coordination catalysts.

Credit Hours: 3 hrs

Lecture/Lab Hours: Lecture: three hours per week.

Prerequisite: CHEM 270 or CHEM 372

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CHEM 477 - Special Topics

Covers specific chemistry topics not discussed in any regular chemistry courses at this level.

Credit Hours: 1 hr

Prerequisite: department permission

CHEM 478 - Special Topics

Covers specific chemistry topics not discussed in any regular chemistry courses at this level.

Credit Hours: 2 hrs

Prerequisite: department permission

CHEM 479 - Special Topics

Covers specific chemistry topics not discussed in any regular chemistry courses at this level.

Credit Hours: 3 hrs

Prerequisite: department permission

CHEM 481 - Instrumental Analysis

Theory and practice of chemical analysis and measurements and data processing by instrumental methods.

Credit Hours: 4 hrs

Lecture/Lab Hours: Lecture: two hours per week. Laboratory: six hours per week.

Prerequisite: CHEM 281 or CHEM 282; and CHEM 463W

Concurrent Prerequisite: CHEM 465

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CHEM 485 - Introduction to Radiotracer Techniques

Measurement of radiation and principles of radiation safety; experiments with emphasis on beta and gamma-ray counting and handling radioactivity.

Credit Hours: 2 hrs

Lecture/Lab Hours: Lecture: one hour per week. Laboratory: three hours per week.

Prerequisite: (CHEM 123 and CHEM 124) or (CHEM 125 and CHEM 126); and either CHEM 281, one science laboratory course above the 200-level or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CHEM 487 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 1 hr

Class Restrictions: Senior standing

Notes: Graded on a credit/no-credit basis.

CHEM 488 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 2 hrs

Class Restrictions: Senior standing

Notes: Graded on a credit/no-credit basis.

CHEM 489 - Cooperative Education in Chemistry

Full- or part-time employment at an industrial, federal or state agency chemistry laboratory providing an applied experience in chemistry. Amount of credit granted determined by the nature of job responsibilities and/or duration of placement.

Credit Hours: 3 hrs

Class Restrictions: Senior standing

Notes: Graded on a credit/no-credit basis.

CHEM 497 - Undergraduate Research in Chemistry

Independent, original endeavors involving extensive library and/or laboratory study, under the guidance of a chemistry faculty member. A formal written report is required at the end of the semester.

Credit Hours: 1 hr

Prerequisite: department permission

CHEM 498 - Undergraduate Research in Chemistry

Independent, original endeavors involving extensive library and/or laboratory study, under the guidance of a chemistry faculty member. A formal written report is required at the end of the semester.

Credit Hours: 2 hrs

Prerequisite: department permission

CHEM 499 - Undergraduate Research in Chemistry

Independent, original endeavors involving extensive library and/or laboratory study, under the guidance of a chemistry faculty member. A formal written report is required at the end of the semester.

Credit Hours: 3 hrs

Prerequisite: department permission

CHEM 551 - Macromolecular Biochemistry

This course considers the fundamental themes of nucleic acid biochemistry including DNA structure, folding, replication and repair mechanisms transcription; translation; gene regulation and techniques in recombinant DNA technology. Emphasis is placed on chemical mechanisms of these processes and targets for drug development. Text and literature articles are utilized.

Credit Hours: 2 hrs

Prerequisite: CHEM 451 or instructor permission

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

CHEM 554 - Protein Structure and Function

The description of chemical and molecular biological approaches to investigating protein structure, and methods to analyze protein function. Rapid and steady-rate kinetics, recombinant DNA technology and expression systems, metabolic and protein assay development and relevant computer applications will be highlighted.

Credit Hours: 2 hrs

Prerequisite: CHEM 451 or equivalent or instructor permission

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

CHEM 555 - Neurochemistry

Discussion of the biochemistry of the nervous system covering the synthesis, distribution, mechanism of function and degradation of compounds involved in neural function (including neurotransmitters, neurohormones, brain sphingolipids, steroids and prostaglandins). Mental diseases with a known biochemical basis and the rationale for drug therapy are described.

Credit Hours: 3 hrs

Prerequisite: CHEM 452 or equivalent

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

CHEM 561 - Quantum Chemistry and Spectroscopy

A study of atomic and molecular structure and spectroscopy based on quantum chemistry.

Credit Hours: 2 hrs

Prerequisite: CHEM 465 or equivalent

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

CHEM 562 - Statistical Mechanics and Chemical Kinetics

Introduction to the principles of statistical mechanics, the connection between the microscopic world and classical thermodynamics, and modern theories of chemical reaction rates.

Credit Hours: 2 hrs

Prerequisite: CHEM 465 or equivalent

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

CHEM 565 - Nuclear Chemistry

The course will cover topics such as radioactive decay, decay systematics, nuclear models and nuclear reactions. Applications of radioactivity to chemical problems will be discussed. Techniques of nuclear chemistry, nuclear processes as chemical probes and other such topics will be covered. A discussion of the preparation and properties of transplutonium elements will be included.

Credit Hours: 3 hrs

Prerequisite: one year of college chemistry; one course in physical chemistry or modern physics

Notes: This is a graduate course in an undergraduate program.

CHEM 571 - Advanced Organic Chemistry

A lecture course devoted to developing a deeper understanding of the structure of organic compounds and the mechanism of organic reactions. The structural aspects of bonding, stereochemistry and conformation will be extended beyond the introductory level prior to considering mechanistic studies on several fundamental reaction types.

Credit Hours: 3 hrs

Prerequisite: one year of organic chemistry

Notes: This is a graduate course in an undergraduate program.

CHEM 572 - Spectrometric Organic Structure Determination

The use of infrared, Raman, ultraviolet, mass and nuclear magnetic resonance spectroscopy in organic structure determination will be discussed. Emphasizes problem-solving and practical applications.

Credit Hours: 4 hrs

Prerequisite: CHEM 372 or equivalent

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

CHEM 574 - Advanced Organic Chemistry Topics

Two or three advanced topics are treated in depth. The topics selected will vary from offering to offering and could include such examples as: stereochemistry and conformational analysis, natural product chemistry, heterocyclic compounds, orbital symmetry rule and applications, and photochemistry.

Credit Hours: 2 hrs

Prerequisite: CHEM 372 or equivalent

Notes: This is a graduate course in an undergraduate program.

Last Updated: Links 04/2011

CHEM 581 - Advanced Analytical Chemistry

Practical applications of modern chemical analysis using instrumental methods, which may include optical, x-ray and nuclear spectroscopy, mass spectrometry and separations.

Credit Hours: 3 hrs

Prerequisite: CHEM 481, CHEM 463W, and either CHEM 361 or CHEM 461

Notes: This is a graduate course in an undergraduate program.

Last Updated: 02/2010

Communication, Media and Theatre Arts Programs and Courses

Communication, Media and Theatre Arts

Major

Arts Management Major

The arts management curriculum provides career training and practical experience for those with a passion for the arts and whose talents are in the field of administration, marketing and/or entrepreneurship. The arts manager not only must develop a variety of management skills but also must maintain a high degree of sensitivity to aesthetics.

Students are provided a broad background in all of the arts with an opportunity to study a specific art in more depth. Additionally, each student gains vital practical experience working in the arts during internships on the University campus and in an approved off-campus professional arts organization.

Training in the arts is combined with the development of skills in accounting, advertising, personnel management, labor relations and various other areas of business through a program of study that includes management, marketing and entrepreneurship. Graduates are equipped to enter the arts management field or to pursue further study in arts administration.

Because the arts management field is rapidly evolving, it is advantageous for students to maintain regular contact with an adviser during their entire program to avoid unnecessary difficulties before and after completion of the program. Arts institutions vary in their personnel needs.

EMU's arts management curriculum is divided into four sections: general education requirements, arts management major, a management or marketing minor (see College of Business) and two internships.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 39 hours

Required Courses: 27 hours

Art Fundamentals: 18 hours

- ARTH 162 - Survey of Western Art I (Gen Ed Area IV) 3 hrs
- ARTH 263 - Survey of Western Art II 3 hrs

- CTAR 155 - Producing Theatre 3 hrs
- DANC 102 - Modern Dance Fundamentals (Gen Ed Area IV) 3 hrs
- MUSC 107 - Music Appreciation (Gen Ed Area IV) 3 hrs
- CTAR 150L - Introduction to Theatre (Gen Ed Area IV) 3 hrs

Media and Arts Management: 9 hours

- CTAR 452 - Arts Management 3 hrs
- CTAT 334 - Radio-Television News 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs

Restrictive Elective Courses: 10 hours

One course from each of the following areas:

- academic dance
- art
- music
- theatre

Strongly Recommended Elective Courses:

- A course in technical theatre
- CTAR 426 - Fund Raising in the Arts 2 hrs
- CTAR 427 - Grant Writing for the Arts 2 hrs
- CTAR 453W - Marketing the Arts (Gen Ed Area I, W) 3 hrs
- CTAR 454 - Law, Public Policy and the Arts 3 hrs

Internships: 2 hours

Two are required for this major: a one-semester, on-campus internship and a one-semester practicum with an approved off-campus arts institution. Application procedures and minimum requirements for credit should be obtained from the advising coordinator not later than the first semester of the junior year.

An on-campus internship is approved part-time work as a member of the management staff of such EMU arts institutions as the Ford Gallery or EMU Dancers.

Practica are available to the junior/senior-level student who has a minimum GPA of 2.5 in the arts management curriculum.

Minor Requirements:

Select from either management, marketing or entrepreneurship in consultation with the arts management advising coordinator.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Communication and Theatre Arts Major with Concentrations

The comprehensive major allows each student to develop a variety of communication skills with one or two areas of concentration (12 to 18 credit hours each). Within the 36 credit hours, at least nine must be in 300- and 400-level courses. Majors should plan their course selections carefully with a departmental adviser and present a copy of this plan to Academic Records and Certification when requesting senior checkout.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 33-45 hours

Required Courses: 6 hours

- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- CTAO 205 - Voice and Articulation 3 hrs

Restricted Elective Courses: 15 hours

At least three credits from each of the five following concentrations

I. Communication

- CTAC 224 - Public Speaking 3 hrs
- * CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- * CTAC 274 - Intercultural Communication (Gen Ed Area III) 3 hrs
- CTAC 350 - Persuasion 3 hrs
- CTAC 354 - Organizational Communication 3 hrs
- CTAC 359 - Small Group Communication 3 hrs

II. Interpretation/Performance Studies

- * CTAO 210 - Interpretative Reading (Gen Ed Area IV) 3 hrs

III. Electronic Media and Film Studies

- CTAT 130 - Introduction to Electronic Media 3 hrs
- CTAT 131 - Introduction to Audio Production and Direction 2 hrs
- CTAT 132 - Introduction to Video Production and Direction 2 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs
- * CTAT 145 - Introduction to Film Appreciation (Gen Ed Area IV) 3 hrs

IV. Theatre Arts

- * CTAR 150L - Introduction to Theatre (Gen Ed Area IV) 3 hrs
- * CTAR 151 - African American Theatre: An Introduction (Gen Ed Area III) 3 hrs
- CTAR 152 - Technical Theatre: Scenery and Lighting 3 hrs
- CTAR 153 - Technical Theatre: Costume and Makeup 3 hrs
- CTAR 155 - Producing Theatre 3 hrs
- * CTAR 158 - Fundamentals of Acting (Gen Ed Area IV) 3 hrs

V. Educational Drama

- * CTAR 222 - Drama and Play in the Human Experience (Gen Ed Area IV) 3 hrs
- CTAR 322 - Theatre for Children 3 hrs
- CTAR 323 - Improvising and Role-Play 3 hrs
- CTAR 327 - Plays for the Young 3 hrs

Concentration: 9-15 hours

*At least one concentration (above) selected in consultation with advising coordinator (hours here are in addition to the restricted elective courses above). *Course satisfies both General Education and Program Requirements. Each student must choose a writing intensive course as part of major completion requirements. Writing intensive course must correspond to concentration area. Consult your adviser for course options.*

Elective Courses: 3-9 hours

Three to nine hours selected from areas outside the concentration

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Communication Major

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 36 hours

Foundation Courses: 15 hours

- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs

Cultural Communication: 3 hours

One course from the following:

- CTAC 260 - Gender Communication (Gen Ed Area III) 3 hrs
- CTAC 274 - Intercultural Communication (Gen Ed Area III) 3 hrs
- CTAC 275 - Interracial/Interethnic Communication (Gen Ed Area III) 3 hrs

Public Communication: 3 hours

One course from the following:

- CTAC 224 - Public Speaking 3 hrs
- CTAC 340 - Communication Ethics 3 hrs
- CTAC 350 - Persuasion 3 hrs
- CTAC 356 - Argumentation and Debate 3 hrs

Relational Communication: 3 hours

One course from the following:

- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 226 - Nonverbal Communication (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs

Organizational Communication: 3 hours

One course from the following:

- CTAC 354 - Organizational Communication 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- CTAC 370 - Nonprofit Organizational Communication 3 hrs

Advanced Theory and Research: 6 hours

Two courses from the following:

- CTAC 440W - Public Discourse Analysis (Gen Ed Area I, W) 3 hrs
- CTAC 460 - Theories of Speech Criticism 3 hrs
- CTAC 475W - Research in Speech Communication (Gen Ed Area I, W) 3 hrs
- CTAC 485W - Communication Theory (Gen Ed Area I, W) 3 hrs

Capstone Experience: 3 hours

This course is restricted to Communication Majors only.

- CTAC 495L - Communication Capstone (Gen Ed Area V LBC) 3 hrs

Restricted Elective Courses: 12 hours

Twelve hours from the list of restricted elective courses below that were not selected as a required course above:

- CTAC 224 - Public Speaking 3 hrs
- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 226 - Nonverbal Communication (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- CTAC 260 - Gender Communication (Gen Ed Area III) 3 hrs
- CTAC 274 - Intercultural Communication (Gen Ed Area III) 3 hrs
- CTAC 275 - Interracial/Interethnic Communication (Gen Ed Area III) 3 hrs
- CTAC 310 - Health Communication (NEW COURSE) 3 hrs
- CTAC 340 - Communication Ethics 3 hrs
- CTAC 350 - Persuasion 3 hrs
- CTAC 352 - Communication in Negotiation 3 hrs
- CTAC 354 - Organizational Communication 3 hrs
- CTAC 356 - Argumentation and Debate 3 hrs
- CTAC 357 - Interviewing as Communication 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- CTAC 370 - Nonprofit Organizational Communication 3 hrs
- CTAC 372 - Assertive Communication 3 hrs
- CTAC 373 - Family Communication 3 hrs
- CTAC 376 - Communication and Conflict Resolution 3 hrs
- CTAC 379 - Special Topics 3 hrs
- CTAC 440W - Public Discourse Analysis (Gen Ed Area I, W) 3 hrs

- CTAC 460 - Theories of Speech Criticism 3 hrs
- CTAC 475W - Research in Speech Communication (Gen Ed Area I, W) 3 hrs
- CTAC 485W - Communication Theory (Gen Ed Area I, W) 3 hrs

No more than six credit hours from the following courses:

- CTAA 166 - Forensics 1 hr
- CTAA 266 - Forensics 1 hr
- CTAA 366 - Forensics 1 hr
- CTAA 466 - Forensics 1 hr
- CTAC 387 - Cooperative Education in Communication 1 hr
- CTAC 388 - Cooperative Education in Communication 2 hrs
- CTAC 389 - Cooperative Education in Communication 3 hrs
- CTAC 407 - Directing the Secondary Communication and Theatre Co-Curriculum 3 hrs
- CTAC 487 - Internship in Communication 1 hr
- CTAC 488 - Internship in Communication 2 hrs
- CTAC 489 - Internship in Communication 3 hrs
- CTAC 497 - Independent Study 1 hr
- CTAC 498 - Independent Study 2 hrs
- CTAC 499 - Independent Study 3 hrs

Alternate department courses. No more than three credit hours substituted for a restricted elective:

- CTAO 205 - Voice and Articulation 3 hrs
- CTAO 210 - Interpretative Reading (Gen Ed Area IV) 3 hrs
- CTAT 241 - Announcing Techniques for Electronic Media 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Electronic Media and Film Studies Major

This major was modified on November 1, 2016, to correct an error. CTAT 235 is now listed as an option under Restricted Elective Courses - Theory Courses.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 30-34 hours

Students must earn a "C" or better in each of the required courses for this major.

Required Courses: 11 hours

- CTAT 130 - Introduction to Electronic Media 3 hrs
- CTAT 131 - Introduction to Audio Production and Direction 2 hrs
- CTAT 132 - Introduction to Video Production and Direction 2 hrs

One course from the following:

- CTAT 145 - Introduction to Film Appreciation (Gen Ed Area IV) 3 hrs
- CTAT 236 - History and Criticism of Radio and Television 3 hrs

One course from the following:

- CTAA 165 - Television Laboratory 1 hr
- CTAA 169 - Radio Station WQBR 1 hr

Restricted Elective Courses: 16-18 hours

Production Courses: 6 hours

Six hours from the following, at least three hours must be at the 300- or 400-level:

- CTAT 231 - Audio Recording Techniques 3 hrs
- CTAT 232 - Lighting for TV and Film (NEW COURSE) 3 hrs
- CTAT 233 - Digital Video Editing (NEW COURSE) 3 hrs
- CTAT 241 - Announcing Techniques for Electronic Media 3 hrs
- CTAT 331 - Intermediate Radio Production and direction 3 hrs
- CTAT 332 - Intermediate Television Production and Direction 3 hrs
- CTAT 333 - Fundamentals of Electronic Moviemaking 3 hrs
- CTAT 341 - Radio-Television-Film Dramatic Performance 3 hrs
- CTAT 431 - Advanced Radio Production and Direction 3 hrs
- CTAT 432 - Advanced Television Production and Direction 3 hrs

- CTAT 433 - Advanced Electronic Moviemaking 3 hrs
- CTAT 434 - Documentary Film Production (NEW COURSE) 3 hrs

Writing Courses: 3 hours

Three hours from the following:

- CTAT 334 - Radio-Television News 3 hrs
- CTAT 344W - Continuity Writing for Electronic Media (Gen Ed Area I, W) 3 hrs
- CTAT 444 - Dramatic Scriptwriting for Visual Media 3 hrs

Theory Courses: 6 hours

Six hours from the following, three hours must be at the 400-level:

- CTAT 145 - Introduction to Film Appreciation (Gen Ed Area IV) 3 hrs
- CTAT 235 - International Cinema (Gen Ed Area III) 3 hrs
- CTAT 236 - History and Criticism of Radio and Television 3 hrs
- CTAT 245 - A Survey of American Cinema 3 hrs
- CTAT 335 - Studies in Film 3 hrs
- CTAT 336 - Studies in Electronic Media 3 hrs
- CTAT 345 - American Film Genres 3 hrs
- CTAT 445 - Film Theory and Criticism 3 hrs
- CTAT 446 - Contemporary Problems in Electronic Media 3 hrs
- CTAT 447 - Radio-Television Station Management 3 hrs
- CTAT 479 - Special Topics 3 hrs

Internship or Cooperative Education: 1-3 hours

- CTAT 387 - Cooperative Education in Radio-TV-Film 1 hr
- CTAT 388 - Cooperative Education in Radio-TV-Film 2 hrs
- CTAT 389 - Cooperative Education in Radio-TV-Film 3 hrs
- CTAT 487 - Internship in Radio-TV-Film 1 hr
- CTAT 488 - Internship in Radio-TV-Film 2 hrs
- CTAT 489 - Internship in Radio-TV-Film 3 hrs

Elective Courses: 3-5 hours

Three hours from Electronic Media and Film Studies and the remaining hours from Communication, Media and Theatre Arts courses, excluding CTAC 124 - Foundations of Speech Communication.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Electronic Media and Film Studies Major with a Concentration in Film Studies

This major was modified on November 1, 2016, to correct an error. CTAT 235 is now listed as an option under Restricted Elective Courses - Theory Courses.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 30 hours

Students must earn a "C" or better in all required courses for this major.

Required Courses: 13 hours

- CTAT 130 - Introduction to Electronic Media 3 hrs
- CTAT 131 - Introduction to Audio Production and Direction 2 hrs
- CTAT 132 - Introduction to Video Production and Direction 2 hrs
- CTAT 145 - Introduction to Film Appreciation (Gen Ed Area IV) 3 hrs
- CTAT 445 - Film Theory and Criticism 3 hrs

Restricted Elective Courses: 12 hours

Production Courses: 3 hours

- CTAT 333 - Fundamentals of Electronic Moviemaking 3 hrs

Writing Courses: 3 hours

- CTAT 344W - Continuity Writing for Electronic Media (Gen Ed Area I, W) 3 hrs
- CTAT 444 - Dramatic Scriptwriting for Visual Media 3 hrs

Theory Courses: 6 hours

Six hours from the following:

- CTAT 235 - International Cinema (Gen Ed Area III) 3 hrs
- CTAT 245 - A Survey of American Cinema 3 hrs
- CTAT 335 - Studies in Film 3 hrs
- CTAT 345 - American Film Genres 3 hrs

Internship or Cooperative Education: 1-3 hours

- CTAT 387 - Cooperative Education in Radio-TV-Film 1 hr
- CTAT 388 - Cooperative Education in Radio-TV-Film 2 hrs
- CTAT 389 - Cooperative Education in Radio-TV-Film 3 hrs
- CTAT 487 - Internship in Radio-TV-Film 1 hr
- CTAT 488 - Internship in Radio-TV-Film 2 hrs
- CTAT 489 - Internship in Radio-TV-Film 3 hrs
- CTAT 497 - Independent Study 1 hr
- CTAT 498 - Independent Study 2 hrs
- CTAT 499 - Independent Study 3 hrs

Elective Courses: 4-2 hours

Elective courses may be taken in electronic media and film studies or courses in other departments, selected in consultation with an adviser.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Public Relations Major (Interdisciplinary - Communication)

Admission to the program will require a 2.8 GPA, which must be maintained in the major as well as in the minor selected. Admission is granted by the Department of English Language and Literature. Courses from both the Department of English Language and Literature and the Department of Communication, Media and Theatre Arts are offered as requirements and restricted elective courses.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 45 hours

Required Fundamental Courses: 18 hours

- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs
- JRNL 312 - Introduction to Public Relations 3 hrs
- JRNL 314 - Writing for Public Relations 3 hrs

One course from the following:

- CTAC 224 - Public Speaking 3 hrs
- CTAC 350 - Persuasion 3 hrs

Required Advanced Courses: 18 hours

- CTAC 475W - Research in Speech Communication (Gen Ed Area I, W) 3 hrs
- JRNL 306W - Feature Writing (Gen Ed Area I, W) 3 hrs
- JRNL 408W - Case Studies in Public Relations (Gen Ed Area I, W) 3 hrs

One course from the following:

- JRNL 487 - Cooperative Education in Journalism/Public Relations 3 hrs
- JRNL 490 - Internship in Journalism/Public Relations 3 hrs

One course from the following:

- CTAT 334 - Radio-Television News 3 hrs
- CTAT 344W - Continuity Writing for Electronic Media (Gen Ed Area I, W) 3 hrs

One course from the following:

- CTAC 354 - Organizational Communication 3 hrs
- CTAC 357 - Interviewing as Communication 3 hrs

Restricted Elective Courses: 9 hours

- ARTS 104 - Graphic Design for Nonmajors (Gen Ed Area IV) 3 hrs
- CMT 204 - Photographic Communication 3 hrs
- CMT 336 - Electronic Publishing Technology 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- CTAT 241 - Announcing Techniques for Electronic Media 3 hrs
- ENGL 323W - Writing in the Professional World (Gen Ed Area I, W) 3 hrs
- ENGL 444 - Writing for the World Wide Web 3 hrs
- JRNL 307 - Copy Editing 3 hrs
- JRNL 311 - Newspaper Layout and Design 3 hrs
- JRNL 423 - Magazine Article Writing 3 hrs
- JRNL 455 - Journalism Law and Ethics 3 hrs

- CTAT 334 - Radio-Television News 3 hrs
- **or**
- CTAT 344W - Continuity Writing for Electronic Media (Gen Ed Area I, W) 3 hrs

- CTAC 224 - Public Speaking 3 hrs
- **or**
- CTAC 350 - Persuasion 3 hrs

Maximum of six-hours from the following:

- CTAC 387 - Cooperative Education in Communication 1 hr
- CTAC 388 - Cooperative Education in Communication 2 hrs
- CTAC 389 - Cooperative Education in Communication 3 hrs
- CTAC 487 - Internship in Communication 1 hr
- CTAC 488 - Internship in Communication 2 hrs
- CTAC 489 - Internship in Communication 3 hrs
- JRNL 387 - Cooperative Education in Journalism/Public Relations 3 hrs
- JRNL 487 - Cooperative Education in Journalism/Public Relations 3 hrs
- JRNL 488 - Internship in Journalism/Public Relations 1 hr
- JRNL 489 - Internship in Journalism/Public Relations 2 hrs
- JRNL 490 - Internship in Journalism/Public Relations 3 hrs

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Communication and Theatre Arts Teaching Major

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in speech, certification code BD, and, depending on the minor selected, an additional endorsement. The Michigan Test for Teacher Certification (MTTC) covering this field is #004, "Speech." At least nine credit hours must be taken at the 300-400 level.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey
Department Contact: kstacey@emich.edu
Website: <http://www.emich.edu/cta/>

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab.** Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 39 hours

- CTAC 224 - Public Speaking 3 hrs
- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- CTAC 356 - Argumentation and Debate 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- CTAC 407 - Directing the Secondary Communication and Theatre Co-Curriculum 3 hrs

- CTAO 210 - Interpretative Reading (Gen Ed Area IV) 3 hrs
- CTAR 150L - Introduction to Theatre (Gen Ed Area IV) 3 hrs
- CTAR 155 - Producing Theatre 3 hrs
- CTAR 158 - Fundamentals of Acting (Gen Ed Area IV) 3 hrs
- CTAR 323 - Improvising and Role-Play 3 hrs
- CTAT 130 - Introduction to Electronic Media 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Communication, Media and Theatre Arts Teaching Majors take:

- CTAC 307 - The Teaching of Speech 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors. Language, Literature and Writing Minor strongly recommended.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Students will declare a teaching major or minor in conjunction with their CTA program - there is no restriction on General Education course selections - students complete standard College of Education Initial Teacher Preparation Program.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)

- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Theatre Arts Major

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 48-51 hours

Core Courses: Foundation: 15 hours

- CTAR 140 - Script Analysis for Theatre Artists 3 hrs
- CTAR 152 - Technical Theatre: Scenery and Lighting 3 hrs
- CTAR 153 - Technical Theatre: Costume and Makeup 3 hrs
- CTAR 155 - Producing Theatre 3 hrs
- CTAR 158 - Fundamentals of Acting (Gen Ed Area IV) 3 hrs

Applied Study: 4 hours

Majors are required to take four hours of applied theatre participation. Classes may be taken out of sequence. Students may not register for more than two Theatre Practice credits in a single semester.

- CTAA 167 - Theatre Practice 1 hr
- CTAA 267 - Theatre Practice 1 hr
- CTAA 367 - Theatre Practice 1 hr
- CTAA 467 - Theatre Practice 1 hr

Restricted Electives: Applied Technique: 11 hours

- CTAR 355 - Play Direction 3 hrs
- CTAR 396 - Career Seminar 2 hrs

Two of the following courses:

- CTAO 210 - Interpretative Reading (Gen Ed Area IV) 3 hrs
- CTAR 252 - Stagecraft: Scenery & Props 3 hrs
- CTAR 253 - Stagecraft: Lighting & Sound 3 hrs
- CTAR 256 - Costume Construction and Crafts 3 hrs
- CTAR 323 - Improvising and Role-Play 3 hrs
- CTAR 358 - Characterization 3 hrs

History & Theory: 9 hours

- CTAR 450 - History of the Theatre to 1642 3 hrs
- CTAR 451 - History of the Theatre 1642 to the Present 3 hrs
- CTAR 455W - Dramaturgy (Gen Ed Area I, W) 3 hrs

Electives: Advanced Specialization: 9-12 hours

In consultation with an adviser, students will select an additional nine to twelve hours of 200-, 300- or 400-level coursework from CTAR or CTAO areas. This will permit students to concentrate studies in any one or combination of the following areas:

- Acting
- Technical Theatre
- Directing
- Theatre for the Young
- Interpretation & Performance Studies

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for

college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Arts Management Minor

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

Required Courses: 20-21 hours

- CTAR 452 - Arts Management 3 hrs
- CTAR 453W - Marketing the Arts (Gen Ed Area I, W) 3 hrs
- CTAR 454 - Law, Public Policy and the Arts 3 hrs
- CTAC 354 - Organizational Communication 3 hrs
- MGMT 388 - Introduction to Entrepreneurship 3 hrs

Select one course from the following:

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 246 - Accounting for Public Administrators 3 hrs

Select one course from the following:

- CTAR 488 - Internship in Arts Management 2 hrs
- CTAR 489 - Internship in Arts Management 3 hrs

Elective Courses: 2-3 hours

Select one course from the following:

- ARTS 104 - Graphic Design for Nonmajors (Gen Ed Area IV) 3 hrs
- CMT 121 - Graphic Communication 3 hrs
- CTAR 378 - Special Topics 2 hrs
- CTAR 427 - Grant Writing for the Arts 2 hrs
- CTAT 334 - Radio-Television News 3 hrs
- CTAT 344W - Continuity Writing for Electronic Media (Gen Ed Area I, W) 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs
- IS 215 - End-User Computing 3 hrs

Minor Total: 22-24 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Communication Minor

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

Required Courses: 21 hours

Foundation Courses: 15 hours

- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs

Public Communication: 3 hours

One course from the following:

- CTAC 224 - Public Speaking 3 hrs
- CTAC 340 - Communication Ethics 3 hrs
- CTAC 350 - Persuasion 3 hrs
- CTAC 356 - Argumentation and Debate 3 hrs

Relational Communication: 3 hours

One course from the following:

- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs

- CTAC 226 - Nonverbal Communication (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs

Organizational Communication: 3 hours

One course from the following:

- CTAC 354 - Organizational Communication 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- CTAC 370 - Nonprofit Organizational Communication 3 hrs

Cultural Communication: 3 hours

One course from the following:

- CTAC 260 - Gender Communication (Gen Ed Area III) 3 hrs
- CTAC 274 - Intercultural Communication (Gen Ed Area III) 3 hrs
- CTAC 275 - Interracial/Interethnic Communication (Gen Ed Area III) 3 hrs

Advanced Theory and Research: 3 hours

One course from the following:

- CTAC 440W - Public Discourse Analysis (Gen Ed Area I, W) 3 hrs
- CTAC 460 - Theories of Speech Criticism 3 hrs
- CTAC 475W - Research in Speech Communication (Gen Ed Area I, W) 3 hrs
- CTAC 485W - Communication Theory (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 3 hours

Three hours from the list of restricted elective courses below that were not selected as a required course above:

- CTAC 224 - Public Speaking 3 hrs
- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 226 - Nonverbal Communication (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- CTAC 260 - Gender Communication (Gen Ed Area III) 3 hrs
- CTAC 274 - Intercultural Communication (Gen Ed Area III) 3 hrs
- CTAC 275 - Interracial/Interethnic Communication (Gen Ed Area III) 3 hrs
- CTAC 350 - Persuasion 3 hrs
- CTAC 352 - Communication in Negotiation 3 hrs
- CTAC 354 - Organizational Communication 3 hrs
- CTAC 356 - Argumentation and Debate 3 hrs
- CTAC 357 - Interviewing as Communication 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- CTAC 370 - Nonprofit Organizational Communication 3 hrs
- CTAC 372 - Assertive Communication 3 hrs
- CTAC 373 - Family Communication 3 hrs

- CTAC 376 - Communication and Conflict Resolution 3 hrs
- CTAC 379 - Special Topics 3 hrs
- CTAC 440W - Public Discourse Analysis (Gen Ed Area I, W) 3 hrs
- CTAC 460 - Theories of Speech Criticism 3 hrs
- CTAC 475W - Research in Speech Communication (Gen Ed Area I, W) 3 hrs
- CTAC 485W - Communication Theory (Gen Ed Area I, W) 3 hrs

No more than six credit hours from the following courses:

- CTAA 166 - Forensics 1 hr
- CTAA 266 - Forensics 1 hr
- CTAA 366 - Forensics 1 hr
- CTAA 466 - Forensics 1 hr
- CTAC 387 - Cooperative Education in Communication 1 hr
- CTAC 388 - Cooperative Education in Communication 2 hrs
- CTAC 389 - Cooperative Education in Communication 3 hrs
- CTAC 487 - Internship in Communication 1 hr
- CTAC 488 - Internship in Communication 2 hrs
- CTAC 489 - Internship in Communication 3 hrs
- CTAC 497 - Independent Study 1 hr
- CTAC 498 - Independent Study 2 hrs
- CTAC 499 - Independent Study 3 hrs

Alternate department courses. No more than three hours substituted for a restricted elective:

- CTAO 205 - Voice and Articulation 3 hrs
- CTAO 210 - Interpretative Reading (Gen Ed Area IV) 3 hrs
- CTAT 241 - Announcing Techniques for Electronic Media 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Drama/Theatre for the Young Minor

The undergraduate minor in drama/theatre for the young is designed to serve students wishing to prepare for a variety of careers — some already existing, others emerging — involving work with and for the young through drama and communication. The minor is useful in conjunction with many other minors and majors including early childhood, elementary and secondary education, special education, language and literature, history and social studies, art, music, dance, social work, sociology, psychology, recreation, business management, counseling, library science, communication, gerontology, theatre and applied theatre.

It provides a strong base and, at the same time, flexibility is ensured through freedom in choosing from a wide range of electives.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

Required Courses: 15 hours

- CTAC 124 - Foundations of Speech Communication (Gen Ed Area I) 3 hrs
- CTAR 222 - Drama and Play in the Human Experience (Gen Ed Area IV) 3 hrs

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Interdisciplinary Film Studies Minor

Film is the most interdisciplinary of all the arts in that it represents a synthesis of literature, theatre, painting, photography, music, and video. It borrows from all of them to create the most powerful, persuasive, and popular art form of the past 120 years. As a narrative art, it closely resembles painting and photography. As a time art, it is structured much like music.

In their borrowing from other arts, motion pictures naturally embrace a diversity of themes and address a multitude of complex issues. They take students to other times and places and encourage them to consider viewpoints beyond their immediate circumstances. Through the study of films, students develop a greater appreciation for cultural diversity and a better knowledge of human history.

The purpose of this program is to encourage students to understand the relationship between film and other arts and to gain an appreciation for those motion pictures that address diverse themes and reflect the values of other cultures.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

Required Courses: 9 hours

Students must earn a "C" or better each of the required courses in this major

- CTAT 145 - Introduction to Film Appreciation (Gen Ed Area IV) 3 hrs
- CTAT 245 - A Survey of American Cinema 3 hrs
- CTAT 445 - Film Theory and Criticism 3 hrs

Restricted Electives: 12 hours

Choose at least one course from each of the following categories:

Related Arts:

- Approved Special Topics courses
- * CTAT 335 - Studies in Film 3 hrs
- CTAT 345 - American Film Genres 3 hrs
- CTAT 444 - Dramatic Scriptwriting for Visual Media 3 hrs

Diverse Perspectives:

- Approved Special Topics courses
- AAS 370 - Films of the African American Experience 3 hrs
- CASI 240 - Reel Women/Real Women 3 hrs
- * CTAT 335 - Studies in Film 3 hrs
- GERN 428 - German Literature and Film from 1945 to the Present 3 hrs
- LITR 241 - Global Images, Narrative Worlds (Gen Ed Area III) 3 hrs

Theory:

- Approved Special Topics courses

- LITR 400 - Narrative in Literature and Film 3 hrs
- PHIL 370W - Philosophy and Narrative (Gen Ed Area I, W) 3 hrs
- PLSC 320 - Political Science in Literature and Film 3 hrs
- PSY 460 - Psychology of Film 3 hrs

Capstone Experience: 3 hours

- CTAT 495 - Capstone Experience 3 hrs

Minor Total: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

* CTAT 335 may be taken twice if topics are different.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for

college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Musical Theatre Minor

Revised Minor, Effective Winter 2013

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

Basic Core: 17 hours

The courses required are determined by your major.

Dance Majors: 17 hours

This set of classes is for students with a Dance major:

- MUSC 100 - Music Fundamentals (Gen Ed Area IV) 3 hrs
- MUSC 232 - Voice Class 1 hr

Four credit hours from the following: 4 hours

Level of classes will be determined by audition.

- AMUS 115A - Secondary Applied Music 1 hr
- AMUS 115B - Secondary Applied Music 2 hrs
- AMUS 116A - Principal Applied Music 2 hrs
- AMUS 116B - Principal Applied Music 4 hrs
- AMUS 415A - Secondary Applied Music 1 hr
- AMUS 415B - Secondary Applied Music 2 hrs
- AMUS 416A - Principal Applied Music 2 hrs
- AMUS 416B - Principal Applied Music 4 hrs

Nine credits from the following: 9 hours

- CTAR 158 - Fundamentals of Acting (Gen Ed Area IV) 3 hrs
- CTAR 254 - Stage Makeup 1 hr
- CTAR 358 - Characterization 3 hrs
- CTAR 370 - Audition 3 hrs
- CTAR 464 - Style for the Actor 3 hrs

Music Majors: 17 hours

This set of classes is for students with a Music major:

- DANC 100 - Ballet I (Gen Ed Area IV) 3 hrs
- DANC 200 - Ballet II 2 hrs
- DANC 478 - Special Topics 2 hrs

One course from the following: 2 hours

- DANC 101 - Jazz I 2 hrs
- DANC 201 - Jazz II 2 hrs

Eight credits from the following: 8 hours

- CTAR 158 - Fundamentals of Acting (Gen Ed Area IV) 3 hrs
- CTAR 254 - Stage Makeup 1 hr
- CTAR 358 - Characterization 3 hrs
- CTAR 370 - Audition 3 hrs
- CTAR 464 - Style for the Actor 3 hrs

Theatre Majors: 17 hours

This set of classes is for students with a Theatre major:

- DANC 100 - Ballet I (Gen Ed Area IV) 3 hrs
- DANC 200 - Ballet II 2 hrs
- DANC 478 - Special Topics 2 hrs
- MUSC 100 - Music Fundamentals (Gen Ed Area IV) 3 hrs
- MUSC 232 - Voice Class 1 hr

Four credits from the following: 4 hours

Level of classes will be determined by audition.

- AMUS 115A - Secondary Applied Music 1 hr
- AMUS 115B - Secondary Applied Music 2 hrs
- AMUS 116A - Principal Applied Music 2 hrs
- AMUS 116B - Principal Applied Music 4 hrs
- AMUS 415A - Secondary Applied Music 1 hr
- AMUS 415B - Secondary Applied Music 2 hrs
- AMUS 416A - Principal Applied Music 2 hrs
- AMUS 416B - Principal Applied Music 4 hrs

One course from the following: 2 hours

- DANC 101 - Jazz I 2 hrs
- DANC 201 - Jazz II 2 hrs

Advanced Core: 8 hours

Select eight credit hours from the following:

- CTAR 380 - Musical Theatre Acting 2 hrs
- CTAR 421 - Musical Theatre Styles 2 hrs
- CTAR 463 - The American Musical Stage 3 hrs
- CTAR 471 - Musical Theatre Workshop 1 hr
* This course is cross-listed with MUSC571
- DANC 110 - Modern Dance I for Dance Majors/Minors 3 hrs
- MUSC 228 - Basic Music Literature 3 hrs
- MUSC 251 - Functional Piano 1 hr
- MUSC 252 - Functional Piano 1 hr
- MUSC 253 - Functional Piano 1 hr
- MUSC 254 - Functional Piano 1 hr

Minor Total: 25 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Communication and Theatre Arts Teaching Minor

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in speech, certification code BD. The Michigan Test for Teacher Certification (MTTC) covering this field is #004, "Speech." At least six hours must be taken at the 300-400 level.

Communication, Media and Theatre Arts Department Information:

Interim Department Head: Kathleen Stacey

Department Contact: kstacey@emich.edu

Website: <http://www.emich.edu/cta/>

Required Courses: 24 hours

- CTAC 225 - Listening Behavior (Gen Ed Area IV) 3 hrs
- CTAC 227 - Interpersonal Communication (Gen Ed Area IV) 3 hrs
- * CTAC 307 - The Teaching of Speech 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- CTAC 407 - Directing the Secondary Communication and Theatre Co-Curriculum 3 hrs
- CTAO 210 - Interpretative Reading (Gen Ed Area IV) 3 hrs
- CTAR 150L - Introduction to Theatre (Gen Ed Area IV) 3 hrs
- CTAT 141 - Audio and Video Production for Nonmajors 3 hrs

Minor Total: 24 hours

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Students will declare a teaching major or minor in conjunction with their CTA program - there is no restriction on General Education course selections - students complete standard Initial Teacher Preparation Program professional education coursework.

All minors must have at least six hours of course work at the 300-level or above.

** Majors take CTAC 307 as part of the Initial Teacher Preparation Program.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. Communication

CTAC 124 - Foundations of Speech Communication (Gen Ed Area I)

This course develops students' public speaking skills and introduces students to foundational concepts in communication studies.

Credit Hours: 3 hrs

Previously Listed As: CTAC 124 - Fundamentals of Speech

Area I: Effective Communication

CTAC 124 Foundations of Speech Communication or *departmental waiver* [was CTAS124]

The ability to communicate is fundamental to human life. We spend more time communicating than doing anything else. The ability to communicate effectively has a profound impact on an individual's personal, social, academic, professional and civic life. Developing the skills of speaking and listening effectively is a critical not only to the individual, but also to the successful functioning of a growing and increasingly diverse democratic society.

Successful accomplishment of the Fundamentals of Speech course will enable students to prepare, present and evaluate speeches; thus enhancing and developing their ability to communicate effectively. Students will receive the appropriate instruction and have multiple opportunities to demonstrate the ability to conceptualize, analyze and research a topic; organize information; adapt to the audience; craft the message with an introduction, body, and a conclusion; create speaking notes; utilize a variety of audio-visual material; make appropriate choices in both verbal and nonverbal communication during the presentation; manage speech anxiety; and listen both critically and emphatically. This course will assist the university in meeting the charge of the Boyer Commission when it stressed in 1998 that "Undergraduate education must enable students to acquire strong communication skills and thereby create graduates who are proficient in both written and oral communication."

Last Updated: Title and Course Description Change 04/2012, effective Fall 2012

CTAC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAC 224 - Public Speaking

The characteristics of various types of speeches and speech situations and practice in the preparation and delivery of speeches for various occasions.

Credit Hours: 3 hrs

Prerequisite: CTAC 124

Last Updated: Links 04/2011

CTAC 225 - Listening Behavior (Gen Ed Area IV)

The study of the behavior, processes and theory of human listening; practice in improving listening skills.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CTAC 225 Listening Behavior

While people often think of communication as primarily what is spoken, what is heard is equally important. Social scientists have estimated that approximately 85% of what people know has been learned through listening. In our field, we study and investigate individual communication behaviors such as listening, which in turn influence and change organizational, societal and cultural behavior. As a result, communication researchers have investigated, measured and analyzed listening behaviors in various contexts. Students will investigate the complexity of listening through assignments designed to provide experience with social science methods utilized to conduct qualitative and quantitative research, and read the existing social scientific research in listening behavior; and be able to evaluate their proficiency levels in various listening situations using instruments commonly used in the communication discipline. Students will also formulate research questions and investigate human listening behavior through discussion, reading assignments and interactive exercises.

CTAC 226 - Nonverbal Communication (Gen Ed Area IV)

An examination of nonverbal and situational behaviors, relationships, objects and events surrounding speech communication acts.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CTAC 226 Nonverbal Communication

Social scientists have estimated that 60-70% of what we communicate to one another is through the nonverbal channel. Nonverbal communication is the primary mode of expressing emotion, creating and managing impressions and communicating messages of attraction, liking, distance and dominance. This course is designed to introduce students to the social scientific study and analysis of nonverbal communication. For this reason the emphasis of CTAC 226 is on scientific knowledge rather than anecdotal experience. the course will cover both classic and current theories and research related to nonverbal communication. From Darwin's seminal work on the study of emotional expression in humans to current methods of conversational analysis, the field of nonverbal communication has a long history of research from a social scientific perspectives.

CTAC 227 - Interpersonal Communication (Gen Ed Area IV)

Study and practice of the basic elements of interpersonal communication with emphasis on perception, meanings, attention, listening, feedback and communication barriers. Particular attention is given to improving interpersonal communication skills. This course may not substitute as the fundamentals of speech requirement in general education.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CTAC 227 Interpersonal Communication

Interpersonal communication is the exchange of symbols used to achieve self-presentation, relational and instrumental goals. In other words, how we present ourselves and manage our image to others, how we develop, maintain and terminate relationships and how we use communication to develop and obtain resources. Interpersonal communication is the foundation upon which all relationships, organizations and societies are built. Interpersonal communication is often taken for granted. We assume since we engage in interpersonal interactions on a daily basis we understand what it is. Students will move from their personal understanding of interpersonal communication to the social scientific perspective existing within the discipline. This course is designed to introduce students to the social scientific study and analysis of interpersonal communication. Theories such as attribution, expectancy violation, uncertainty reduction, social exchange, coordinated management of meaning and cognitive dissonance and research methods such as experimental design, conversational analysis, content analysis and ethnography will be explored.

CTAC 260 - Gender Communication (Gen Ed Area III)

Exploration of the multifaceted ways communication, culture, and gender are interconnected and the influences of each. Critical analysis of gender communications "differences" as they are influenced by culture and our everyday communication.

Credit Hours: 3 hrs

Cross-Listed with: WGST 260

Area III: Perspectives on a Diverse World

CTAC 260 Gender Communication [was CTAC/WGST 360]

Gender Communication is communication *about* and *between* men and women. It is communication *about* men and women because gender communication is reflected in everything around us. From the time we are born important people in our life communicate our society's gender expectations to us. While individuals vary in the extent to which they accept or reject those messages, we all "do gender" by expressing our views about what we believe is normal or natural for a member of our sex. Since gender is a social construction that changes over time, it is important that we systematically study it to determine how it affects us, the people with whom we interact, and the world in which we live. Gender communication is also communication *between* men and women. In the United States interactions between women and men occur every hour of every day. The sheer number of contacts we have with the opposite sex heightens the need to study the effects of gender on the communication process.

CTAC 260 meets the U.S. diversity requirement of general education because it allows students to examine their gender identity and relate it to the gender identity of others. This ultimately leads to an understanding of the many different ways people view gender and communication in the United States. Attention is also focused on the communication-related causes and consequences of social intolerance toward individuals who deviate from normative sex and gender roles, and how that intolerance relates to racism, ethnocentrism, and exclusion in the United States. Last but not least, students explore the association between gender and income distribution, economic opportunities, political participation and the U.S. democratic process, and how those variables impact communication between and within the sexes.

Last Updated: Links 04/2011

CTAC 265 - Communicating and LGBT Community

Communication and LGBT Community examines communication about and within diverse Lesbian, Gay, Bisexual, and Transgender identity communities. Patterns in social movement, issue advocacy, group identity expression, and media representation are reviewed and evaluated. The course explores questions of intolerance, stereotyping, and intersectionality, applying perspectives drawn from communication and queer theories.

Credit Hours: 3 hrs

Cross-Listed with: WGST 265

Last Updated: New Course 12/2011, effective Winter 2012

CTAC 274 - Intercultural Communication (Gen Ed Area III)

Analysis of processes and problems of communication as affected by national cultures; effects of differences in verbal and nonverbal communication, values, meaning, perception and thought.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

CTAC 274 Intercultural Communication [was CTAC 374]

The modern world is characterized by a dramatic increase in communication between people of different cultural backgrounds. Students are now graduating into a world where intercultural communication is increasingly common. Business, science, education, mass media, entertainment, tourism, politics, war and the internet all provide opportunities and challenges associated with intercultural encounters. CTAC 274 is designed to help students better understand their own cultural communication style and those of other people, groups and nations. Upon completion of this course students will have a better understanding of cultures that differ from their own, develop a universalistic, realistic, worldview and learn how culture impacts communication at both the interpersonal and societal levels.

CTAC 275 - Interracial/Interethnic Communication (Gen Ed Area III)

The analysis of how ethnocentric attitudes toward perceived racial/ethnic minority group speakers/listeners influence interpersonal communication transactions.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

CTAC 275 Interracial/Interethnic Communication [was CTAC 375]

CTAC 275 Interracial/Interethnic Communication meets the U.S. diversity requirement of general education because it prompts students to consider and evaluate the foundations of race/ethnicity based identities and assumptions in the context of interpersonal interacting. Attitudes about racially and ethnically different "others" are both developed and expressed through conversation (Debra J. Dickerson, *The End of Blackness: Returning the Souls of Black Folk to their Rightful Owners*). The persistent issue of racial and ethnic inequality in the United States becomes visible in the language and non-verbal expression of people between and within diverse identity groups. When viewed through the lens of communicative interaction, we understand how interpersonal interaction offers socially and persuasively constructed identities, social roles and status. The increasingly racially and ethnically diverse fabric of American Culture suggests that our interaction with "others" is near constant. The need to understand how race and ethnicity inform our communication choices, shape our understanding of messages and clarify our individual and group relationship to a changing world is vital.

CTAC 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAC 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAC 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAC 307 - The Teaching of Speech

Emphasizes the analysis and construction of courses of study, evaluation of textbooks and teaching materials, methods of directing co-curricular speech activities and demonstrations of teaching methods. Required of students majoring in communication and theatre arts in the junior or senior high school teaching curriculum. Does not count toward the major or minor. Not open to students on academic probation.

Credit Hours: 3 hrs

Prerequisite: CTAC 124, CURR 305 and admission to College of Education

Last Updated: Links 04/2011

CTAC 310 - Health Communication (NEW COURSE)

Examines the nature, contexts, theories, and selected research within the field of health communication. Topics include physician-patient interactions, public health awareness/prevention/intervention campaigns, media images of health, cultural constructions of health, and hospital and health-care organizations.

Credit Hours: 3 hrs

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

CTAC 340 - Communication Ethics

This course will examine frameworks for ethics guiding human communication conduct in various contexts including public, interpersonal and organizational settings. Freedom of Speech will be explored as a privilege and responsibility of American life. Historical cases and contemporary trends will be examined in both free speech and ethical studies.

Credit Hours: 3 hrs

Prerequisite: CTAC 124

Last Updated: Links 04/2011

CTAC 350 - Persuasion

The study of the basic elements inherent in persuasion; the analysis of representative persuasive speeches; practice in securing the acceptance of ideas through psychological appeals as well as logical reasoning.

Credit Hours: 3 hrs
Prerequisite: CTAC 124
Last Updated: Links 04/2011

CTAC 352 - Communication in Negotiation

The course emphasizes the principles and practice of negotiation strategies and techniques in interpersonal and group interactions, grievance handling and collective bargaining.

Credit Hours: 3 hrs
Prerequisite: CTAC 124 or department permission
Last Updated: Links 04/2011

CTAC 354 - Organizational Communication

The course examines the relationship between organizational structures and communication patterns with an emphasis on individual communication strategies appropriate in different organizational settings.

Credit Hours: 3 hrs
Prerequisite: CTAC 124
Last Updated: Links 04/2011

CTAC 356 - Argumentation and Debate

Emphasizes the principles of logical reasoning and oral presentation of reasoned discourse in group situations. Exercise in debate and in general argumentative speaking.

Credit Hours: 3 hrs
Prerequisite: CTAC 124
Last Updated: Links 04/2011

CTAC 357 - Interviewing as Communication

The principles and practices of the interview as they relate to communication elements; the interview process, structure, functions and techniques explored from both the perspective of the interviewer and the interviewee.

Credit Hours: 3 hrs
Prerequisite: CTAC 124 or department permission
Last Updated: Links 04/2011

CTAC 359 - Small Group Communication

The course provides students with an understanding of theory and research in small group interaction. Practical dimensions of group communication are emphasized through group projects and exercises.

Credit Hours: 3 hrs
Prerequisite: CTAC 124
Last Updated: Links 04/2011

CTAC 370 - Nonprofit Organizational Communication

A critical examination of the fundamental differences between communication in a for-profit organization and communication in a nonprofit organization. Students will learn and apply communication skills necessary to effectively and efficiently communicate in a nonprofit organization.

Credit Hours: 3 hrs

CTAC 372 - Assertive Communication

Individualized approach to study and training in effective assertive communication for social, conversational and career-oriented situations.

Credit Hours: 3 hrs

Prerequisite: CTAC 124 or department permission

Last Updated: Links 04/2011

CTAC 373 - Family Communication

Descriptive and theoretical study of communication in families with emphasis on the influence of family communication on individuals.

Credit Hours: 3 hrs

Prerequisite: CTAC 124 and CTAC 227

Last Updated: Links 04/2011

CTAC 376 - Communication and Conflict Resolution

This course explores communication dynamics, processes and applications of conflict resolution procedures to the areas of interpersonal and organizational communication interactions. Emphasis will be on the theory and practice of the communication principles involved in these processes.

Credit Hours: 3 hrs

CTAC 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAC 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAC 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAC 387 - Cooperative Education in Communication

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 1 hr

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAC 388 - Cooperative Education in Communication

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 2 hrs

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAC 389 - Cooperative Education in Communication

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

Notes: One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

CTAC 407 - Directing the Secondary Communication and Theatre Co-Curriculum

The course provides an exploration of the philosophy, pedagogy, organization and administration of co-curricular activities associated with communication and theatre arts at the secondary level. Students will study current trends in the Michigan secondary education communication and theatre co-curriculum and acquire skills essential to directing such programs.

Credit Hours: 3 hrs

Prerequisite: CTAC 124

Last Updated: Credit Hour Change 04/2012, effective Fall 2012; Links 04/2011

CTAC 440W - Public Discourse Analysis (Gen Ed Area I, W)

The course provides a critical study of public communication focusing on the role of advocates and their messages in an open society.

Credit Hours: 3 hrs

Prerequisite: CTAC 124

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAC 460 - Theories of Speech Criticism

A study of the theoretical and critical works from various eras of western culture.

Credit Hours: 3 hrs

Prerequisite: CTAC 124

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAC 475W - Research in Speech Communication (Gen Ed Area I, W)

An examination of methods currently employed in speech communication, as well as a review of the many types of application now being made. Course includes analysis of speech communication behavior.

Credit Hours: 3 hrs

Prerequisite: CTAC 124

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAC 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAC 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAC 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAC 485W - Communication Theory (Gen Ed Area I, W)

Communication Theory offers an analysis and application of classic and current theories in the communication discipline.

Credit Hours: 3 hrs

Prerequisite: CTAC 124

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAC 487 - Internship in Communication

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

<http://www.emich.edu/cta/opp-career.html>

Credit Hours: 1 hr

Prerequisite: 20 credit hours of concentration courses and department permission

CTAC 488 - Internship in Communication

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

<http://www.emich.edu/cta/opp-career.html>

Credit Hours: 2 hrs

Prerequisite: 20 credit hours of concentration courses and department permission

CTAC 489 - Internship in Communication

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

<http://www.emich.edu/cta/opp-career.html>

Credit Hours: 3 hrs

Prerequisite: 20 credit hours of concentration courses and department permission

CTAC 495L - Communication Capstone (Gen Ed Area V LBC)

This course requires students to integrate knowledge obtained throughout the degree program and demonstrate communication competency through the development of a significant academic service-learning project. Students will also assess their own knowledge and skills and begin preparing for life after graduation.

Credit Hours: 3 hrs

Prerequisite: CTAC 124 and one of the following: CTAC 440W, CTAC 460, CTAC 475W or CTAC 485W

Class Restrictions: Senior standing

Major Restrictions: Communication Majors only

Rationale: This course allows students to integrate knowledge obtained throughout the degree program and demonstrate communication competency. Students will also reflect on their learning and begin framing and applying their degree program for life after graduation. The course will be focused around a significant Academic Service-Learning project. Through identifying a community need, designing and implementing a project based on that need, and then presenting that project to the larger campus community, CTAC 495 requires students to draw on their broad communication knowledge, find and evaluate specific and relevant research, and demonstrate appropriate and effective leadership, interpersonal, small group, organizational and public communication skills.

Last Updated: 02/2011; effective Fall 2011

CTAC 497 - Independent Study

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: 20 credit hours of concentration courses and department permission

CTAC 498 - Independent Study

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: 20 credit hours of concentration courses and department permission

CTAC 499 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 3 hrs

Prerequisite: department permission

Communication and Theater Arts

CTAA 165 - Television Laboratory

Students who participate in co-instructional activities may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in one activity or in several. Admission to the activity does not ensure credit.

Credit Hours: 1 hr

Prerequisite: CTAT 130, CTAT 131 and CTAT 132; or department permission

CTAA 469 - Radio Station WQBR

Students who participate in co-instructional programs may, with the approval of the professor in charge and the department head, receive one hour of credit in a single activity during one semester. Students may earn up to four hours credit in such activities, and the credits may be earned in one activity or in several activities.

Credit Hours: 1 hr

Prerequisite: CTAT 130 and CTAT 131; or department permission

Notes: Admission to the activity does not ensure credit.

Last Updated: Links 04/2011

CTAA 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CTAA 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CTAA 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CTAA 497 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 1 hr

Prerequisite: department permission

CTAA 498 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 2 hrs

Prerequisite: department permission

CTAA 499 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 3 hrs

Prerequisite: department permission

Interpretation/Performance Studies

CTAO 102 - Voice Development

A laboratory for developing strength and control of the speaking voice through physical and tonal exercises and choral speaking. Two regularly scheduled hours each week and additional sessions as arranged.

Credit Hours: 1 hr

CTAO 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CTAO 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CTAO 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CTAO 202 - Voice Development

Advanced laboratory exercises and specialized projects: pronouncing foreign terms for professional speaking.

Credit Hours: 1 hr

Prerequisite: department permission

CTAO 205 - Voice and Articulation

An introductory course for improving personal speaking habits. Emphasis is placed on regular practice to develop relaxed tone support, efficient articulation and vocal variety. Recording and listening laboratory hours arranged.

Credit Hours: 3 hrs

CTAO 210 - Interpretative Reading (Gen Ed Area IV)

The fundamentals of oral interpretation; developing poise and ease before an audience, a clear, forceful and flexible voice, and discrimination in interpreting thought to others. Selections will be prepared and presented in class.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CTAO 210 Interpretative Reading

In CTAO 210 Interpretative Reading students examine literature as a means of confronting, challenging and comprehending diverse histories, perspectives, cultural values and modes of expression. Through analysis and performance of literary texts students investigate a multiplicity of viewpoints, both similar to and divergent from their own. Ultimately, students seek to better understand literature as well as what it means both to be human and live in our world. Students will analyze literary texts and

their intellectual, aesthetic and human dimensions through the methodology of solo performance. They will participate in activities aimed at developing skills in textual analysis, sensory and cultural responsiveness, vocal and physical expression, and enhance their ability to make and communicate interpretive choices to others.

CTAO 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CTAO 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CTAO 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CTAO 302 - Voice Development

Advanced laboratory exercises and specialized projects: energetic vocal skills for theatre/interpretation.

Credit Hours: 1 hr

Prerequisite: department permission

CTAO 310 - Ensemble Interpretation

Ensemble Interpretation explores literary text from the group perspective. The emphasis is on staging literature through multiple bodies and voices utilizing presentational modes of performance, including reader's theater and chamber theater.

Credit Hours: 3 hrs

Prerequisite: CTAO 210 or department permission

Last Updated: Links 04/2011

CTAO 311 - Interpretation of Prose

The application of the fundamentals of oral interpretation to the reading of prose with emphasis on the short story and excerpts from longer works of fiction. Special attention given to problems involved in the interpretation of prose.

Credit Hours: 3 hrs

CTAO 314 - Interpretation of Drama

Specific problems involved in interpreting dramatic literature. Emphasis placed on selection of materials, cutting and arrangement of materials, dialogue, characterization and character placement. Students will work individually and collectively in interpreting scenes from plays.

Credit Hours: 3 hrs

CTAO 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAO 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAO 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAO 387 - Cooperative Education in Oral Interpretation

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 1 hr

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAO 388 - Cooperative Education in Oral Interpretation

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 2 hrs

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAO 389 - Cooperative Education in Oral Interpretation

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAO 402 - Voice Development

Advanced laboratory exercises and specialized projects: skills, theory and individualized projects.

Credit Hours: 1 hr

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CTAO 404 - Dynamic Speaking Skills

Projects emphasizing intensive application of voice and articulation theory and professional diction standards for actors, broadcasters, educators, forensic speakers, interpreters and other professional communicators. Laboratory hours arranged.

Credit Hours: 3 hrs

Prerequisite: Three courses in the department including either CTAO 102 or CTAO 205; or take CTAO 402 concurrently

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAO 405 - Voice and Dialects

Advanced projects in preparing oral presentations and characterizations in regional and foreign dialects.

Credit Hours: 3 hrs

Prerequisite: CTAO 205 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAO 411 - Adapting and Directing Literature

Analysis, adaptation, and direction of literature, particularly prose fiction, for group performance and theatre. This course explores group performance as dramatic enactment, interrogation, cultural and critical expression as well as experimentation in emergent forms.

Credit Hours: 3 hrs

Prerequisite: three hours in CTAO (interpretation/performance studies) or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Title and Prerequisite Change 06/2011, effective Fall 2011

CTAO 412 - Oral Interpretation of Poetry

The application of the principles of oral interpretation to the reading of poetry, with emphasis on modern and contemporary poetry.

Credit Hours: 3 hrs

Prerequisite: CTAO 210

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAO 415 - Performing Oral Narratives

This course explores the nature of oral narratives, both personal and historical, and the development of skills necessary for their collection. The focus is on primary sources, including interviewing, transcribing, scripting and staging for performance, as well as ethical considerations.

Credit Hours: 3 hrs

Prerequisite: Three credit hours in CTAO (interpretation/performance studies) or department permission

CTAO 418 - Performing Shakespeare I

Foundational course in approaching the performance of Shakespeare's texts. Emphasis placed on language devices and structures, unique challenges for characterization and exploring his drama in and out of context. Students will work individually and collectively with Shakespeare's Histories and Comedies.

Credit Hours: 3 hrs

CTAO 419 - Performing Shakespeare II

Workshop in approaching the performance of Shakespeare's tragedies. Emphasis placed on individual proficiency in the use of his language and group exploration of his dramas.

Credit Hours: 3 hrs

Prerequisite: CTAO 418 or instructor permission

Last Updated: Links 04/2011

CTAO 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAO 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAO 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAO 487 - Internship in Interpretation

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: 20 credit hours of concentration courses and department permission

CTAO 488 - Internship in Interpretation

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: 20 credit hours of concentration courses and department permission

CTAO 489 - Internship in Interpretation

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: 20 credit hours of concentration courses and department permission

CTAO 497 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 1 hr

Prerequisite: department permission

CTAO 498 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Telecommunications and Film

CTAT 130 - Introduction to Electronic Media

An introduction to electronic media systems in the United States. Emphasis on development of electronic media industries including radio, television, cable and the Internet. Programming, technologies, government regulation, financial support and

social effects are covered.

Credit Hours: 3 hrs

CTAT 131 - Introduction to Audio Production and Direction

For majors and minors only. This course emphasizes basic skills, concepts and strategies for audio production projects including radio ads, sound pictures, air checks and actualities. This is a required course for all majors and minors and a prerequisite to other production courses.

Credit Hours: 2 hrs

CTAT 132 - Introduction to Video Production and Direction

For majors and minors only. Class meets three times a week and emphasizes studio television production. Students learn the process of writing, producing and directing of commercials, news and talk shows in a multiple camera studio setting.

Credit Hours: 2 hrs

Prerequisite: CTAT 131

Last Updated: Links 04/2011

CTAT 141 - Audio and Video Production for Nonmajors

For non-majors and nonminors. A study and application of the technical elements of audio and video production with an emphasis on the operation of studio equipment. In addition to the hands-on participation, emphasis will be placed on theory, writing, and pre-production.

Credit Hours: 3 hrs

CTAT 145 - Introduction to Film Appreciation (Gen Ed Area IV)

An introduction to understanding the moving image as a medium of artistic expression and persuasion. The course will consider the principal components of film/video language including photography, writing, performances, editing, mise-en-scène and major classification systems such as genres and auteurism. It will include an historical overview of the development of film/video industries, major theoretical approaches, and an analysis of the moving image's effects on audiences.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CTAT 145 Introduction to Film Appreciation

Motion pictures are one of the most dominant, dynamic and influential art form of the past 100 years, and a knowledge of how they are made, their modes of style and methods of shaping content, and their interaction with the culture that produces them are an important part of any student's general education program. In studying motion pictures, students learn about key issues that are found in all the arts. These include the relationship between style and content, the influence of technology on form and substance, the effect of cultural norms, the definition of time and space, the creation of order and coherence, and stylistic change over time. In this course, students will learn how motion pictures are made and will become familiar with the creative processes used to shape content to the unique requirements of film art. They will develop the critical skills necessary to evaluate films from an historical perspective and compare them to related art forms. They will learn to judge a motion picture's success in using visual design, narrative structure, language, music and performance to create an effective and meaningful cinematic experience.

CTAT 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAT 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAT 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAT 231 - Audio Recording Techniques

An introduction to the practical problems of recording music ensembles from soloists to symphony orchestras. A professional audio engineer will supervise on-site recording sessions and all postproduction work.

Credit Hours: 3 hrs

Lecture/Lab Hours: Two regular lecture hours and two hours of laboratory per week. Fieldwork projects arranged. Laboratory fee.

Prerequisite: CTAT 130 and CTAT 131; or department permission

Last Updated: Links 04/2011

CTAT 232 - Lighting for TV and Film (NEW COURSE)

Lighting for TV and Film is a course in lighting design, distribution and implementation. It addresses the needs of studio-based television production and remote operations as well as the requirements of electronically-based cinematography.

Credit Hours: 3 hrs

Prerequisite: CTAT 132 or CTAT 141

Class Restrictions: Sophomore standing or higher

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

CTAT 233 - Digital Video Editing (NEW COURSE)

This course is designed to teach the basic aesthetics and mechanics of digital video editing. The course covers editing theories as well as practice in using industry-standard software. The student will complete several editing projects using digital video files.

Credit Hours: 3 hrs

Prerequisite: CTAT 130 and CTAT 131

Concurrent Prerequisite: CTAT 132

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

CTAT 235 - International Cinema (Gen Ed Area III)

An exploration of cinema produced in other countries, including essential films, directors, and production systems; an introduction to the study of international films by analyzing their influence on film history, investigating important cultural issues and the depiction of those issues, and comparing films of other nations to US cinema.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

CTAT 235 International Cinema

Film is one of the most dominant, influential, and message intensive art forms of the past 100 years. Knowledge of international cinema allows for students to use moving pictures as a catalyst to critique social and cultural issues in different cultures and investigate how history has changed nations and shaped the world.

In this course, students will learn the major motion pictures made in a variety of countries and will become familiar with the important cinematic movements from each country, including the most influential directors. They will develop the critical skills necessary to evaluate international films from an historical perspective and compare them to the dominant American cinematic style. Finally, they will learn to evaluate the messages within a motion picture and its success in using visual design, narrative structure, language, music and performance to create an effective and meaningful cinematic experience that speaks to cultural and social issues of that nation's cinema both in history and contemporarily. Students will learn how international films can be used to investigate global perspectives on world history, political systems, and national issues within specific countries. As the number of international film productions increases, these skills are an important part of any student's global perspectives knowledge. As such, CTAT 235 International Cinema satisfies the Global Awareness area of the General Education Program.

Last Updated: Gen Ed Approval 12/2011, effective Winter 2012; New Course 06/2011, effective Fall 2011

CTAT 236 - History and Criticism of Radio and Television

An historical and critical survey of radio and television entertainment and public affairs programming with an emphasis on how the networks' offerings were received by a select number of social and cultural critics of the two media.

Credit Hours: 3 hrs

Prerequisite: CTAT 130

Last Updated: Links 04/2011

CTAT 241 - Announcing Techniques for Electronic Media

A study of the various types of radio and television nondramatic speaking such as news, commercials, interviews and documentaries. Practice and evaluation of announcing types and styles.

Credit Hours: 3 hrs

Previously Listed As: CTAT Radio-Television-Film Announcing

Last Updated: Title change 5/2012

CTAT 245 - A Survey of American Cinema

This course is a chronological survey of the development of American cinema with an emphasis on the roles played by technological innovations, corporate development, government intervention and the emergence of a dominant mode of film production practice. Key films by important directors from the entire period will be screened and discussed.

Credit Hours: 3 hrs

Prerequisite: CTAT 145 or department permission

Last Updated: Links 04/2011

CTAT 255 - Visual and Cinematic Arts Since 1900 (NEW COURSE)

This is an interdisciplinary course that explores the similarities and differences among the visual and cinematic arts as well as their influences on one another since 1900. Students will see paintings, drawing, photographs, and films representative of key artistic movements of the last century and explore the social, economic, political, and aesthetic factors that influenced their creation.

Credit Hours: 3 hrs

Cross-Listed with: ARTH 255

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

CTAT 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAT 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAT 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAT 331 - Intermediate Radio Production and direction

This course focuses on the production of nondramatic radio programming including promotional spots, advertisements, documentaries and air checks in a variety of formats. Emphasis is on advanced production skills and developing broader knowledge of the industry.

Credit Hours: 3 hrs

Prerequisite: CTAT 130, CTAT 131 and CTAT 132 or CTAT 141; or department permission

Last Updated: Links 04/2011

CTAT 332 - Intermediate Television Production and Direction

The fundamentals of nondramatic ENG single camera and studio style production are explored as well as basic electronic video editing. More advanced production techniques and theory are applied in both studio and field settings.

Credit Hours: 3 hrs

Prerequisite: CTAT 130, CTAT 131 and CTAT 132; or department permission

Last Updated: Links 04/2011

CTAT 333 - Fundamentals of Electronic Moviemaking

An introduction to the principles of digital video production. Course offers theory and practice of digital video continuity, master sequencing, narrative and non-narrative editing. Two short video projects will be required.

Credit Hours: 3 hrs

Prerequisite: CTAT 130, CTAT 131 and CTAT 132; or department permission

Last Updated: Links 04/2011

CTAT 334 - Radio-Television News

A study of the principles, techniques and forms of broadcast journalism. Emphasis is placed on broadcast news writing, editing, and delivery.

Credit Hours: 3 hrs

Prerequisite: JRNL 215

Major Restrictions: Journalism Majors and Minors only

Last Updated: Links 04/2011

CTAT 335 - Studies in Film

Students will examine non-Hollywood films including European, Asian and Third World theatrical film or documentary, animated and experimental films or film music. The topics will alternate over terms to allow for an in-depth approach.

Credit Hours: 3 hrs

Prerequisite: CTAT 145

Last Updated: Links 04/2011

CTAT 336 - Studies in Electronic Media

In this course, students will be able to study a variety of different electronic media topics including media literacy, international broadcasting and electronic media regulation. Other topics may be introduced.

Credit Hours: 3 hrs

Prerequisite: CTAT 130 or department permission

Last Updated: Links 04/2011

CTAT 341 - Radio-Television-Film Dramatic Performance

A study of types and styles of dramatic speaking for radio, television and film. Practice in the basic techniques of acting for the three media.

Credit Hours: 3 hrs

Prerequisite: CTAR 158 or CTAT 241 or department permission

Last Updated: Links 04/2011

CTAT 344W - Continuity Writing for Electronic Media (Gen Ed Area I, W)

A study of the nondramatic writing forms for electronic media, including commercials, public service announcements, interview programs and documentaries.

Credit Hours: 3 hrs

Prerequisite: department permission

CTAT 345 - American Film Genres

This course examines key American film genres, both past and present, identifies their unique narrative and stylistic properties and shows their important economic, social, psychological and symbolic functions. Genres to be considered include westerns, musicals, horror films, science fiction films, the "woman's" film, detective films, African American films and sequels.

Credit Hours: 3 hrs

Prerequisite: CTAT 145 or department permission

Last Updated: Links 04/2011

Prerequisite: department permission

Theatre and Educational Drama

CTAR 106 - Introduction to the Performing Arts (Gen Ed Area IV)

A survey of the arts of dance, theatre and music, developing an understanding and appreciation of representative works in the three fields. The place of these arts in contemporary society and their contribution to a richer life receive special emphasis. Attendance required at specific on-campus performances. Not open to those with credit in MUSC 106/DANC 106.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CTAR 106 Introduction to Performing Arts

Introduction to the Performing Arts meets the general education requirement for Arts in the knowledge of the disciplines. The performing arts provide knowledge about the world and ways of experience it that contribute to an understanding that is both unique and different from those gained through other disciplines. The arts present insights about personal experiences common to us all- experiences such as birth, love, conflict and death. They also convey cultural meanings and values, such as patriotism and war. In the arts, personal and cultural meanings go far beyond the enjoyment of beauty. The arts convey knowledge and meaning not learned through the study of other subjects. In this course, students will learn how the performing arts convey personal and cultural meaning in lived space and time through qualities such as movement and sound that are unique to dance, music and theatre, they will discover the rich and unique ways that meaning in the performing arts takes shape in specific mediums, genres and styles.

Last Updated: Links 06/2011

CTAR 140 - Script Analysis for Theatre Artists

This course concentrates on the techniques of analyzing dramatic texts for theatre students prior to their approach to characterization, conceptualization, and creation of a tangible visual score for a play.

Credit Hours: 3 hrs

Last Updated: New Course 02/2012, effective Fall 2012

CTAR 150L - Introduction to Theatre (Gen Ed Area IV)

A lecture-demonstration course with the purpose of fostering appreciation of theatre through an understanding of its production components, its forms and styles, and its historical development. Attendance required at select EMU theatre productions. Required of theatre arts majors and minors.

Credit Hours: 3 hrs

Notes: This course will count as credit for Learning Beyond the Classroom.

Area IV: Knowledge of the Disciplines

CTAR 150L Introduction to Theatre (also fulfills Area V #3 Group C)

Theatre is an integral component of human experience. The study of theatre promotes reflection, collaboration and individual expression. As a reflector of cultural traditions, theatre illuminates customs, mores and behaviors. As a collaborative endeavor it encourages both critical and creative thinking. As a method of individual expression it facilitates the articulation of intellectual and emotional experience. Since theatrical production involves literature, music, movement and design it is an ideal vehicle for the study of the arts.

CTAR 151 - African American Theatre: An Introduction (Gen Ed Area III)

An introductory survey of the roots, purposes and contemporary manifestations of theatre and drama reflecting the African American experience. Emphasis will be placed on the reading, analysis and discussion of representative African American plays.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

CTAR 151 African American Theatre: An Introduction

CTAR 151- African American Theatre is a study of African American drama and theatre arts in the United States and its evolution from the nineteenth century to contemporary expressions. In examining African American drama and theatre arts from historical and contemporary viewpoints, through reading, viewing, discussion and writing about plays, the course also compares and contrasts the African American experience with other cultural groups in the United States. This Afrocentric approach to drama and theatre arts develops an appreciation for "ideas, concepts, events, personalities and political and economic process from a standpoint of black people as subjects, and not as objects, basing all knowledge on the authentic interrogation of *location*." In this course, students will further read, view, discuss and write about plays applying the concepts of Afrocentric perspective, dispelling stereotypes, theatre production, script analysis and specific examples. CTAR151 meets the U.S. diversity requirement of general education because it uses the African Americans' experiences in the plays read, and the participants' contributions to drama and theatre arts, as a means to explore the diversity of the American experience. This course provides students with a multicultural perspective on the development of American drama and theatre arts, and also exposes them to the diversity of the American condition, which is often ignored. Students are encouraged by this course to continue their pursuit of critical-thinking discussion and writing skills, as well as developing an increased appreciation for African American drama and theatre arts. When Afrocentric productions are presented on campus, students will be required to see a live theatrical production.

CTAR 152 - Technical Theatre: Scenery and Lighting

The comprehensive study and application of design fundamentals and basic technology for theatrical scenery and lighting.

Credit Hours: 3 hrs

CTAR 153 - Technical Theatre: Costume and Makeup

The comprehensive study and application of design fundamentals and basic technology for theatrical costuming and makeup.

Credit Hours: 3 hrs

CTAR 155 - Producing Theatre

A comprehensive introduction to theatrical production organization: business management, direction and technical production. Laboratory hours by appointment.

Credit Hours: 3 hrs

Prerequisite: CTAR 150L strongly recommended for majors and minors

Last Updated: Links 04/2011

CTAR 157 - Beginning Acting

This course is designed for nontheatre majors desiring basic knowledge and practice of acting skills as related to the stage. Nonmajors will gain experience in self-awareness, relationships, character analysis, improvisation, scene study and acting exercises. Attention will be given to overcoming stage fright. For nontheatre majors only.

Credit Hours: 3 hrs

CTAR 158 - Fundamentals of Acting (Gen Ed Area IV)

A study of the fundamental theories and techniques of acting. Major emphasis on theatre acting, but consideration given to radio and television acting. Laboratory hours by arrangement.

Credit Hours: 3 hrs

Area IV: Knowledge of the Discipline

CTAR 158 Fundamentals of Acting

Theatre is central to reflecting and critiquing the human condition. Acting is a vital and core component of this discipline. This course enhances an appreciation of acting as art form, and develops fundamental knowledge and abilities necessary both to the craft of acting and other professions where proficiency in self-expression and clear communication are deemed valuable. Students learn to analyze the physical, cultural and emotional lives of characters in order to create honest portrayals for both peers and audience. This examination and reflection of the human condition engenders enthusiasm for continued pursuit of knowledge and learning as well as an increased appreciation of the arts.

CTAR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAR 222 - Drama and Play in the Human Experience (Gen Ed Area IV)

A study of dramatic experience as intrinsic in human development. An introduction to spontaneous dramatic games and exercises as a way of sharpening imagination, deepening interpersonal relations and strengthening individual identity. Integration of such experience in learning and growth is emphasized.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CTAR 222 Drama & Play in Human Experience

Theatre reflects, challenges and celebrates the human experience. The first stepping-stones to understanding the human experience and the art of theatre reside universally in childhood. Here we learn and practice our ability to imitate others, transform reality and create meaning from our lives. Theatre artists use the same fundamental skills learned in childhood to create theatre productions. CTAR222 demystifies the theatre experience by directly teaching this relationship between play in childhood and theatre through participation in games and dramatic activities, lectures, readings, papers, journals, theatre attendance and participatory projects. This demystification process will reawaken skills in students that have often been buried or discarded in adulthood and provide students with the vocabulary to talk about their own and others dramatic experience. A critical viewpoint for analysis and a historical context of both play and theatre is founded on Aristotle's six elements of drama: (1)plot, (2) character, (3) thought (or theme), (4) dialogue, (5) rhythm, and (6) spectacle. As students develop skills in identifying and using these elements, their ability to generate and understand creative theatre products will increase.

CTAR 227 - Grant Writing for the Arts

This course provides students with the knowledge and skills needed to be successful in the development and submission of proposals to public and private funding agencies in support of arts and cultural programs. In this class students develop contemporary grant writing skills by participating in all phases of the grant process from research to program assessment.

Credit Hours: 2 hrs

Last Updated: Course active; 03/2012

CTAR 251 - African American Theatre: Creative Problems

A practical consideration of those creative aspects of the theatre production particular to African American theatre. Emphasis will be placed on the presentation of scenes from African American theatre.

Credit Hours: 3 hrs

CTAR 252 - Stagecraft: Scenery & Props

An intermediate exploration of stagecraft practices related to scenery and props for the entertainment industry. The course will explore scenic construction, interpreting technical drawings, and properties techniques. Emphasis will be placed on the use of tools and technology and their practical application.

Credit Hours: 3 hrs

Prerequisite: CTAR 152

Previously Listed As: CTAR 252 - Stagecraft

Last Updated: Course Revision 02/2012, effective Fall 2012; Links 04/2011

CTAR 253 - Stagecraft: Lighting & Sound

An intermediate exploration of stagecraft practices related to lighting and sound for the entertainment industry. The course will explore lighting design/technology and sound design/engineering. Emphasis will be placed on equipment use and practical application through projects.

Credit Hours: 3 hrs

Prerequisite: CTAR 152

Last Updated: New Course 02/2012, effective Fall 2012

CTAR 254 - Stage Makeup

The theory and techniques of theatrical makeup. Laboratory hours to be arranged.

Credit Hours: 1 hr

CTAR 256 - Costume Construction and Crafts

A study and application of the techniques and materials associated with costume construction and crafts.

Credit Hours: 3 hrs

Prerequisite: CTAR 153 or permission of instructor

Last Updated: New Course 02/2012, effective Fall 2012

CTAR 258 - Movement for Actors

This is a performance-oriented survey of techniques exploring styles, history and theory of movement for actors. The class will include physical preparation, preparation of production materials, scripting movement design and actual performance.

Credit Hours: 3 hrs

CTAR 277 - Special Topic: Portfolio Development

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studies.

Credit Hours: 1 hr

Notes: This course is temporary; it is serving as a place holder for CTAR 268 which is currently going through the course approval process. This course will be deleted following the approval of CTAR 268, and CTAR 268 will be added in its place.

Last Updated: New Temporary Course 08/2012

CTAR 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAR 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAR 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAR 300 - Integrated Arts

This course will expose students to multiple strategies on how to use the arts (drama, dance, music and visual arts) as means of fostering greater comprehension of any subjects within non-art disciplines.

Credit Hours: 3 hrs

Prerequisite: ARTE 220, DANC 220, MUSC 220

Major Restrictions: Elementary Education (all concentrations) and Special Education students only

Last Updated: Links 04/2011

CTAR 313 - Contemporary Issues in Arts Management

The influence of *Arts and Entertainment* in the economy, education, public policy and regional planning are critical to the growth of this discipline. Contemporary Issues allows students to develop a broad array of skills and knowledge in this uniquely diverse field.

Credit Hours: 3 hrs

Prerequisite: departmental or instructor permission required

Last Updated: New Course 06/2011, effective Fall 2011

CTAR 317 - Case Studies in Arts Management

This is a course that shares the benchmark events, artists and organizations that form the history of American arts management. In-depth study in specific subject areas such as the Creative Economy, Artist Live Work Spaces or Public Art Management will be covered. Specific subject areas will change each semester.

Credit Hours: 3 hrs

Prerequisite: department or instructor permission required

Last Updated: New Course 06/2011, effective Fall 2011

CTAR 322 - Theatre for Children

An introductory study of the development, philosophy and techniques of theatre for the young.

Credit Hours: 3 hrs

CTAR 323 - Improvising and Role-Play

Exploration of spontaneous dramatic play through intensive exercise and dramatic games meant to generate greater individual freedom and self-discipline, as well as to expand resources and techniques for teaching and directing.

Credit Hours: 3 hrs

CTAR 324 - Oral Interpretation of Children's Literature

Selection and evaluation of literature for oral interpretation with and for young people. Focus is on the use of narrative prose and folktales.

Credit Hours: 3 hrs

CTAR 326 - Drama/Theatre for Persons with Disabilities

Study of principles, theories and practices of developmental drama/theatre as related to physically challenged persons. Application to educational, recreational and institutional settings stressed.

Credit Hours: 2 hrs

CTAR 327 - Plays for the Young

A study of dramatic literature for the young from developmental and artistic viewpoints in the total educational experience of children and adolescents.

Credit Hours: 3 hrs

CTAR 329 - Performing Theatre for the Young

Students will gain practical experience in play development and performance for young audiences. A theatre production designed for touring will be performed at area schools and other community sites.

Credit Hours: 3 hrs

CTAR 351 - Scene Design

The history of design in terms of stage scenery; an investigation of current trends, techniques and media of scene design and the practical execution of models and sketches by the student.

Credit Hours: 3 hrs

Prerequisite: CTAR 252, CTAR 155 or department permission

Last Updated: Links 04/2011

CTAR 355 - Play Direction

An intensive study of the process of directing plays. Whenever possible, students in the course will direct a one-act play for public presentation. Laboratory hours by arrangement.

Credit Hours: 3 hrs

Prerequisite: CTAR 155 or department permission

Last Updated: Links 04/2011

CTAR 358 - Characterization

The creation of character and characterization by the actor. Analysis, development and performance of roles studied in depth.

Credit Hours: 3 hrs

Prerequisite: CTAR 157 or CTAR 158

Last Updated: Links 04/2011

CTAR 360 - Playwriting

An examination of the elements of dramatic structure through the analysis and composition of works of varying scope. Emphasis on adult plays for the stage; the special problems of drama for children and for the various broadcast media also considered.

Credit Hours: 3 hrs

Prerequisite: department permission

Previously Listed As: CTAR 360 Dramatic Composition

Last Updated: Title change 5/2012

CTAR 361 - Dramatic Writing

Intensive concentration on the writing of a significant example of adult or children's drama for the stage or the broadcast media.

Credit Hours: 2 hrs

Prerequisite: department permission

CTAR 362 - Lighting Design: Stage and Beyond

The theory and practice of lighting design, primarily for the stage, but also in areas of dance, entertainment design, architectural lighting, music, clubs and restaurant lighting design. Topics will include basic electrical theory, lighting instruments, lighting consoles and dimmers, color theory, drafting light plots, and practices in stage lighting.

Credit Hours: 3 hrs

Prerequisite: CTAR 152

Last Updated: Links 04/2011

CTAR 363 - Stage Costume: History and Theory

A survey of the principles and practices of stage costuming from antiquity to the present.

Credit Hours: 3 hrs

Prerequisite: department permission

CTAR 364 - Stage Costume: Design and Construction

The fundamentals of designing theatrical costumes and a study of specific construction problems found in the making of period costumes.

Credit Hours: 3 hrs

Prerequisite: department permission

CTAR 370 - Audition

Intensive study in the preparation of audition material for a wide range of stylistic demands that exist within the professional theatre.

Credit Hours: 3 hrs

Prerequisite: CTAR 157, CTAR 158, CTAR 358, CTAR 380 or CTAR 464

Previously Listed As: CTAR 457

Last Updated: Number change 5/2012; Links 04/2011

CTAR 377 - Special Topic: Applied Design & Technology I

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Notes: This course is temporary; it is serving as a place holder for CTAR 368 which is currently going through the course approval process. This course will be deleted following the approval of CTAR 368, and CTAR 368 will be added in its place.

Last Updated: New Temporary Course 08/2012

CTAR 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAR 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAR 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAR 380 - Musical Theatre Acting

Analysis and application of the performance skills needed by the actor/singer in musical theatre.

Credit Hours: 2 hrs

Prerequisite: nine hours in theatre arts or department permission

Previously Listed As: CTAR 461

Last Updated: Course Number Change 04/2012, effective Fall 2012; Graduate Credit Removal 04/2012; Graduate Credit 07/2011

CTAR 387 - Cooperative Education in Arts Management

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 1 hr

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAR 388 - Cooperative Education in Arts Management

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 2 hrs

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAR 389 - Cooperative Education in Arts Management

One semester of supervised work in concentration area. An evaluation is required at the end of the employment period.

Credit Hours: 3 hrs

Prerequisite: nine credit hours in concentration, approval by Cooperative Education Office and department permission

CTAR 396 - Career Seminar

This course will address challenges inherent to pursuing a career in the professional theatre. Students will conduct comprehensive and unified investigations of job opportunities, professional unions, and networking skills within the profession in general and relevant to unique specializations.

Credit Hours: 2 hrs

Class Restrictions: Junior standing or higher, or department permission

Previously Listed As: CTAR 496 - Senior Seminar

Last Updated: Course Revision 02/2012, effective Fall 2012

CTAR 421 - Musical Theatre Styles

Musical Theatre Styles is a performance course in which students address specific genre, style, or specific period of Musical Theatre with regard to performance. Students match their existing skills and talents with the chosen genre, style, or period through research, presentations, rehearsal and technique development - culminating in a showcase performance for an invited audience.

Credit Hours: 2 hrs

Prerequisite: CTAR 380; department permission

Notes: This course may be repeated for credit.

Last Updated: Links 04/2011

CTAR 426 - Fund Raising in the Arts

Fund Raising in the Arts provides a comprehensive analysis of what students need to know about securing donations for Non-profit Art Organizations. Units include: managing the giving process, securing the gift, relationship building, donor research, volunteer involvement, and ethical accountability.

Credit Hours: 2 hrs

Class Restrictions: Sophomore, Junior or Senior standing

CTAR 427 - Grant Writing for the Arts

This course provides students with the knowledge and skills needed to be successful in the development and submission of proposals to public and private funding agencies. In this class students develop contemporary grant writing skills by participating in all phases of the grant process from research to program assessment.

Credit Hours: 2 hrs

CTAR 429 - History and Theory of Developmental Drama/Theatre

An introductory study of the history and theory of developmental drama/theatre. Students will become familiar with the current thinking of major practitioners in the field of developmental drama/theatre and consider the current research that involves the development of new or the validation of existing knowledge relating to history and/or theory of developmental drama/theatre.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CTAR 450 - History of the Theatre to 1642

This course provides a culturally based survey of historical trends in world theatre, from antiquity to 1642. Specific attention will be paid to performance style, production practice, theatre architecture and dramatic literature. The course will investigate how theatre both reflects and has evolved via respective historical periods.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or department permission

CTAR 451 - History of the Theatre 1642 to the Present

This course provides a culturally based survey of historical trends in world theatre, from 1642 to the present. Specific attention will be paid to performance style, production practice, theatre architecture and dramatic literature. The course will investigate how theatre both reflects and has evolved via respective historical periods.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or department permission

CTAR 452 - Arts Management

A study of managerial practices of arts organizations and agencies. Emphasis on facility planning, personnel, income sources, promotion, budget development and management.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CTAR 453W - Marketing the Arts (Gen Ed Area I, W)

Relates traditional marketing practices to arts administration and provides experience in applying marketing skills to the arts. The study of marketing in the arts and information relating to past market analysis; research and preparation of a specific market plan for an arts organization; presentation of market plan.

Credit Hours: 3 hrs

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CTAR 454 - Law, Public Policy and the Arts

Examination of the impact of public policy and law on arts organizations and the individual artist. Particular attention is paid to tax policy, copyright, arts advocacy and contract law.

Credit Hours: 3 hrs

Prerequisite: 12 hours in arts management or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CTAR 455W - Dramaturgy (Gen Ed Area I, W)

Theoretical and applied investigation of dramatic texts in historical, literary and performative contexts as it contributes to collaborative production of theatre. Special attention will be given to research strategies, modes of textual analysis, genres of writing for/about theatre and dramaturgy's utility within various aspects of production.

Credit Hours: 3 hrs

Prerequisite: CTAR 450 or CTAR 451 or department permission

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAR 462 - Directors on Directing

Study of select, noted stage directors past and present.

Credit Hours: 2 hrs

Prerequisite: CTAR 355 and nine hours in theatre arts or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAR 463 - The American Musical Stage

Character, production, style in the American musical including concept musicals, operetta, golden age, rock, and musical revues. Historical survey and production workshop format.

Credit Hours: 3 hrs

Class Restrictions: Junior standing or above

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

CTAR 464 - Style for the Actor

This course will address the challenge of matching the actor's personal methods with a wide range of stylistic demands that exist in the theatrical repertory. The student will discover that acting means translating the text into a series of actions and that physical actions take on a particular shape or style in accordance with the given circumstances of the text.

Credit Hours: 3 hrs

Prerequisite: CTAR 158 or CTAR 157

Class Restrictions: Open to Senior, Junior and Graduate students with permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CTAR 471 - Musical Theatre Workshop

This course is a laboratory-performance course in which students prepare performances of landmark musicals. The course promotes the development of skills necessary for students to effectively address the technical and stylistic demands of musicals as defined by period or genre. Particular attention is given to contemporary performance standards in structured production. The class culminates in a public performance.

Credit Hours: 1 hr

Prerequisite: CTAR 380

Notes: May be repeated for credit.

Last Updated: Links 04/2011

CTAR 477 - Special Topic: Applied Design & Technology II

A continuation of CTAR 377 - Special Topic: Applied Design & Technology I.

Credit Hours: 1 hr

Notes: This course is temporary; it is serving as a place holder for CTAR 468 which is currently going through the course approval process. This course will be deleted following the approval of CTAR 468, and CTAR 468 will be added in its place.

Last Updated: New Temporary Course 08/2012

CTAR 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

CTAR 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

CTAR 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

CTAR 487 - Internship in Arts Management

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 1 hr

Prerequisite: 20 credit hours of concentration courses and department permission

CTAR 488 - Internship in Arts Management

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 2 hrs

Prerequisite: 20 credit hours of concentration courses and department permission

CTAR 489 - Internship in Arts Management

One semester of practical, on-the-job work experience and training (four hours per week minimum) at select on-campus or off-campus facilities.

Credit Hours: 3 hrs

Prerequisite: 20 credit hours of concentration courses and department permission

CTAR 497 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 1 hr

Prerequisite: department permission

CTAR 498 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 2 hrs

Prerequisite: department permission

CTAR 499 - Independent Study

Advanced study on individual basis in areas in which the department does not offer a formal course. Normally restricted to proficient students in the senior year under the general conditions prescribed for honors courses.

Credit Hours: 3 hrs

Prerequisite: department permission

CTAR 504 - Performing Youth Literature

Emphasis on the study and practice of performing story, poetry, mythology, mythmaking and oral interpretation of adolescent literature for multi-age audiences.

Credit Hours: 3 hrs

Notes: This is a graduate course in an undergraduate program.

CTAR 522 - TIE: Theatre-in-Education

A study of the origin, principles and forms of TIE: Theatre-in-Education. Students will have opportunities to plan and evaluate TIE sessions.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

CTAR 523 - Puppetry: Catalyst in Human Development

Consideration of puppetry as a medium for learning and creative expression. Experience in constructing puppets for purposeful work with people. Examination of the applications of puppetry to many disciplines.

Credit Hours: 3 hrs

Notes: This is a graduate course in an undergraduate program.

CTAR 524 - Developmental Drama/Theatre for Persons with Disabilities

Study of principles, theories and practices of developmental drama/theatre for persons with disabilities. Applications to educational, recreational and institutional settings will be stressed.

Credit Hours: 2 hrs

CTAR 525 - Developmental Drama/Theatre in Recreational Settings

An exploration of the theory and practice of developmental drama/theatre in various recreational settings, such as camps, parks, community centers, Girl Scouts, 4-H Clubs.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

CTAR 528 - Developmental Drama/Theatre in Religion

Consideration of and experience in uses of developmental drama/theatre for various religious settings and purposes.

Credit Hours: 2 hrs

Notes: This is a graduate course in an undergraduate program.

CTAR 565 - Studies in Educational Drama and Theatre

Studies and practice of significant trends, movements and theory in educational drama and theatre.

Credit Hours: 3 hrs

Prerequisite: CTAR 322 or CTAR 323 or CTAR 501 or CTAR 504 or CTAR 529 or CTAR 657 or CTAR 658

Notes: This is a graduate course in an undergraduate program.

Computer Science Programs and Courses

Computer Science

Major

Computer Science - Applied Major

Successful completion of this major satisfies one of the requirements for graduation with a bachelor of science or bachelor of arts degree with a major in computer science. Graduates will be able to pursue advanced graduate degrees. The applied computer science major offers a mix of practice and theory that prepares students for career employment in computer science fields such as systems programming and analysis, software development and maintenance, as well as applications programming.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 11 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 205 - Mathematical Structures for Computer Science 4 hrs
- MATH 360 - Statistical Methods 3 hrs

Major Requirements: 36 hours

Required Courses: 24 hours

- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs

- COSC 221 - Computer Organization I 3 hrs
- COSC 231 - Internet-based Computing 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs
- COSC 314 - Computational Discrete Structures 3 hrs
- COSC 341 - Programming Languages 3 hrs
- COSC 481W - Software Engineering and Senior Project (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 12 hours

Four courses from the following:

- COSC 315 - Symbolic Computing 3 hrs
- COSC 321 - Computer Organization II 3 hrs
- COSC 405 - Switching Theory 3 hrs
- COSC 421 - Systems Programming 3 hrs

- COSC 374 - Applied Cryptography 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Computer Science Major

The curriculum offers graduates an extensive background in the major fields of computer science. Graduates will have received the highest degree of preparation for either the pursuit of a graduate degree in the field, or for a career in the computer industry.

Computer Science Department Information:

Department Head: William McMillan
Department Contact: wcmillan@emich.edu
Website: <http://www.emich.edu/compsci/>

Adviser Information:

Adviser: Dr. Michael Zeiger
Phone: 734.487.3203
Email: mzeiger@emich.edu

Adviser: Pamela Moore
Phone: 734.487.3205
Email: pamela.moore@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Comprehensive Computer Science Curriculum Major: 77-81 hours

Required Courses: 39 hours

- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 221 - Computer Organization I 3 hrs
- COSC 231 - Internet-based Computing 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs
- COSC 314 - Computational Discrete Structures 3 hrs
- COSC 321 - Computer Organization II 3 hrs
- COSC 341 - Programming Languages 3 hrs
- COSC 423 - Computer Operating Systems 3 hrs
- COSC 439 - Computing Network Principles 3 hrs
- COSC 444 - Foundations of Automata and Languages 3 hrs
- COSC 471 - Database Principles 3 hrs
- COSC 481W - Software Engineering and Senior Project (Gen Ed Area I, W) 3 hrs

Elective Courses: 6 hours

Any 400-level computer science courses not already taken or select two from the list of courses below:

- COSC 315 - Symbolic Computing 3 hrs
- COSC 374 - Applied Cryptography 3 hrs

- COSC 405 - Switching Theory 3 hrs
- COSC 421 - Systems Programming 3 hrs
- COSC 422 - Introduction to Microprocessors 3 hrs
- COSC 436 - Web Programming 3 hrs
- COSC 445 - Compiler Construction 3 hrs
- COSC 456 - Computer Graphics 3 hrs
- COSC 457 - Computer Game Programming 3 hrs
- COSC 461 - Heuristic Programming 3 hrs

Mathematics Requirements: 17-18 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 205 - Mathematical Structures for Computer Science 4 hrs
- MATH 360 - Statistical Methods 3 hrs

One course from the following:

- Any 200- or higher level course offered by the Mathematics Department not oriented specifically toward a teaching specialization (3 hrs)
- MATH 121 - Calculus II 4 hrs

Science Requirements: 15-18 hours

Four science classes are required.

1. Three of these (with prefix BIOL, CHEM, PHY, or ESSC) must be intended for majors in their respective disciplines, with two classes having the same prefix (e.g., CHEM) and being in sequence.

The various sequences are:

- BIO 110 followed by BIO 120
- CHEM 121/CHEM 122 followed by either CHEM 123/CHEM 124 or CHEM 125/CHEM 126
- ESSC 110 followed by ESSC 111
- PHY 223 followed by PHY 224

2. The third class intended for majors must have a different prefix (e.g., if the sequence of two were in CHEM, the third would be in BIOL, ESSC, or PHY).

3. Additionally, a fourth science class is required. This class need not be intended for majors in that discipline. This fourth course should have a prefix of BIOL, CHEM, PHY, or PSY (not ESSC).

Option I: Biology

- An additional course from the Biology, Chemistry, Physics or Psychology department. This course need not be intended for majors in that discipline (3-5 hrs)
- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- BIO 120 - Introductory Biology II 5 hrs

Option II: Chemistry

- An additional course from the Biology, Chemistry, Physics or Psychology department. This course need not be intended for majors in that discipline (3-5 hrs)
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

Select one of the following options:

- CHEM 123 - General Chemistry II 3 hrs
and
 - CHEM 124 - General Chemistry II Laboratory 1 hr
- or
- CHEM 125 - Honors General Chemistry II (Lecture) 3 hrs
and
 - CHEM 126 - Honors General Chemistry II (lab) 1 hr

Option III: Geology

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs

Option IV: Physics

- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs
- PHY 224 - Electricity and Light 5 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Computer Science Minor

Successful completion of this minor satisfies one of the requirements for graduation with a bachelor of science or a bachelor of arts degree. Students pursuing majors in other fields such as mathematics, the physical and social sciences, the arts or business will learn the practical tools for applying current computer technology to their major areas of study.

Computer Science Department Information:

Department Head: William McMillan
Department Contact: wcmillan@emich.edu

Adviser: Pamela Moore
Phone: 734.487.3205
Email: pamela.moore@emich.edu

Required Courses: 15 hours

- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 221 - Computer Organization I 3 hrs
- COSC 231 - Internet-based Computing 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs

Restricted Elective Courses: 6 hours

Two courses from the following:

- COSC 314 - Computational Discrete Structures 3 hrs
- COSC 315 - Symbolic Computing 3 hrs
- COSC 321 - Computer Organization II 3 hrs
- COSC 341 - Programming Languages 3 hrs
- COSC 374 - Applied Cryptography 3 hrs
- COSC 405 - Switching Theory 3 hrs

- COSC 421 - Systems Programming 3 hrs
- COSC 422 - Introduction to Microprocessors 3 hrs
- COSC 423 - Computer Operating Systems 3 hrs
- COSC 436 - Web Programming 3 hrs
- COSC 439 - Computing Network Principles 3 hrs
- COSC 444 - Foundations of Automata and Languages 3 hrs
- COSC 445 - Compiler Construction 3 hrs
- COSC 456 - Computer Graphics 3 hrs
- COSC 457 - Computer Game Programming 3 hrs
- COSC 461 - Heuristic Programming 3 hrs
- COSC 471 - Database Principles 3 hrs
- COSC 481W - Software Engineering and Senior Project (Gen Ed Area I, W) 3 hrs

Minor Total: 21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Computer Science Education Minor

Successful completion of this program, in conjunction with other teacher education requirements, qualifies students for recommendation for endorsement in computer science, certification code NR and an additional endorsement dependent on the major selected. The Michigan Test for Teacher Certification (MTTC) covering this field is #050, "Computer Science."

Students must be accepted into the Initial Teacher Preparation Program before enrolling in COSC 342 - Programming Languages for Educators, COSC 303 - Applications in Computer Science and COSC 306 - Methods of Teaching Computer Science in the Secondary Schools.

Computer Science Department Information:

Phone: 734.487.3205

Additional Requirements: 3 hours

- COSC 306 - Methods of Teaching Computer Science in the Secondary Schools 3 hrs

Required Courses: 21 hours

- COSC 101 - Computer Science Concepts and Practical Applications 3 hrs
- COSC 111 - Introduction to Programming 3 hrs
- COSC 211 - Programming Data Structures 3 hrs
- COSC 221 - Computer Organization I 3 hrs
- COSC 303 - Applications in Computer Science 3 hrs
- COSC 311 - Algorithms and Data Structures 3 hrs
- COSC 342 - Programming Languages for Educators 3 hrs

Minor Total: 24 hours

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Computer Science

COSC 101 - Computer Science Concepts and Practical Applications

The course emphasizes the uses and capabilities of computers in our society. Students will be exposed to several popular applications through hands-on lab activities. No previous experience with computers is assumed.

Credit Hours: 3 hrs

Notes: Counts toward the computer science minor if taken prior to or concurrently with COSC111 Introduction to Programming.

COSC 104 - Web Science (NEW COURSE)

Empirical study of the global, emergent systems facilitated by the World Wide Web. Computing infrastructure that enables entities to interact and share information via dynamic, virtual systems. Theoretical foundations such as chaotic and complex systems, computational thinking, and virtual interaction spaces. Empirical methods. Forming hypotheses from general principles and testing them through data collection and analysis.

Credit Hours: 3 hrs

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

COSC 105 - Everyday Computing and Social Responsibility

Two hours lecture/discussion, two hours lab. This course combines extensive exploration of ethical issues faced by everyday computer users with hands-on practice using a broad variety of online and computer productivity tools to support socially responsible computer use.

Credit Hours: 3 hrs

COSC 106 - Explorations in Robotics (Gen Ed Area II)

Introduction to the theory of robotics and autonomous agents. Students will be exposed to technical and social aspects of robots in society. Students will complete selected readings, write several short papers and design and program simple robots. Rudiments of computer science topics as applied to robotics will be covered.

Credit Hours: 3 hrs

Last Updated: Gen Ed Approval 11/2009, effective Winter 2010

COSC 111 - Introduction to Programming

An introduction to computers, programming, algorithm development and a high-level language such as Java. In particular, strategies for problem solving, problem analysis, algorithm representation and algorithm verification are balanced with actual program development using good design and documentation techniques. The first course in the computer science major and minor, but open to all students.

Credit Hours: 3 hrs

Prerequisite: MATH 104 or equivalent

Last Updated: Links 04/2011

COSC 120 - Computational Principles for Mathematics and the Sciences

A hands-on introduction to programming and computational principles; use of programming and mathematical modeling to solve computational problems. Variables, types, data imprecision, arrays, conditionals, iteration, functions, recursion, file I/O, scripting, and documentation. Data analysis simulation and visualization. MATLAB or similar environment.

Credit Hours: 3 hrs

Prerequisite: (MATH 105 and MATH 107) or (MATH 112) or (MATH 107 and MATH 210) or placement*

Notes: *Math placement exam level 5 (ACT math \geq 26, SAT math \geq 640, MPT3 \geq 73)

Last Updated: Placement scores 01/2012; Links 04/2011

COSC 145 - Introduction to FORTRAN Programming

An introductory course for persons wishing to learn programming and applications of computers. Using the FORTRAN language, students develop and run programs to solve a variety of problems.

Credit Hours: 3 hrs

Prerequisite: minimum ACT score of 19, minimum SAT score of 520 or math placement test in elementary algebra greater than or equal to 53

Major Restrictions: Does not count toward Computer Science Major or Minor

Notes: Credit will not be given for more than one of COSC145 and COSC245.

COSC 146 - Applied Programming

Introduction to computer programming for the non-major. Introduces students to integrated development environments such as Visual Basic and other application tools. Students work in a combination of lectures and supervised computer labs.

Credit Hours: 3 hrs

Major Restrictions: Does not count towards the Computer Science Minor, Major or Curriculum

COSC 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

COSC 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

COSC 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

COSC 205 - Computer Hardware and Software Systems

An applied introduction to computers including: computer hardware, operating systems, Web design, networking, trouble shooting and maintenance of computers. Lab projects include: Taking apart computers, installing operating systems, building a network and creating a web page.

Credit Hours: 3 hrs

Prerequisite: CADM 105 or COSC 101

Last Updated: Links 04/2011

COSC 211 - Programming Data Structures

The second course in an introductory sequence for the computer science major, minor and others. Continues software engineering methodology through specification, design, coding and program correctness. Nested procedures and functions, scope and recursion. Introduction to data structures such as stacks, queues, linear lists, trees, sets and files. Analysis of sorting and searching algorithms.

Credit Hours: 3 hrs

Prerequisite: COSC 111

Last Updated: Links 04/2011

COSC 215 - Scientific Simulation

An introductory, non-calculus based, interdisciplinary course in simulation for the sciences, gaming, and engineering. Modeling dynamically changing systems. Approximations and errors. Single scale and multi-scale models. Grid and particle systems. May be team taught by faculty in computer science, physics, chemistry, earth science, biology and others.

Credit Hours: 3 hrs

Prerequisite: (PHY 221 or CHEM 117 or ESSC 110 or BIO 105) and (COSC 111 or COSC 246)

Last Updated: Links 04/2011

COSC 221 - Computer Organization I

Introduces students to basic concepts of computer hardware and organization including: computer structure, machine language, instruction execution, traps and interrupts, digital representation of data, computer systems organization, elementary digital circuits, including memory and arithmetical. Students will write several programs in an assembly language simulator.

Credit Hours: 3 hrs

Prerequisite: COSC 111, COSC 145, COSC 245 or IS 219 or permission of the School of Engineering Technology

Course Revisions:

Course Revisions: This course will have a prerequisite change from "COSC 111, COSC 145, COSC 245 or IS 219 or permission of the School of Engineering Technology" to "COSC 111 or COSC 146 or COSC 246", effective Winter 2013. The course revision also includes a course description change.

Last Updated: Change in description and prerequisites 06/2012, effective Winter 2013; Links 04/2011

COSC 231 - Internet-based Computing

Programming for the Internet, including GUI design and development, event-driven programming, web page design and construction, programming for current Internet and Web technologies. Ethical issues on the Internet.

Credit Hours: 3 hrs

Prerequisite: COSC 111

Concurrent Prerequisite: COSC 211

Last Updated: Links 04/2011

COSC 245 - Computer Programming and Numeric Methods

An introductory programming course focusing on numerical algorithms fundamental to scientific computer work. Discussion of polynomial interpolation, numerical integration, solutions of systems of equations and error analysis. Using the FORTRAN language, students develop and run programs to solve a variety of problems.

Credit Hours: 3 hrs

Concurrent Prerequisite: MATH 121

Major Restrictions: Does not count toward Computer Science Major or Minor

Notes: Credit will not be given for more than one of COSC 145 and COSC 245

Last Updated: Links 04/2011

COSC 246 - Programming in C++

Introduction to computers, programming techniques and integrated development environments using C and C++. Students work in a combination of lectures and supervised computer labs. Emphasis is on problem solving using good design principles and documentation techniques. Does not count towards the computer science minor, major or curriculum.

Credit Hours: 3 hrs

Prerequisite: COSC 101, COSC 111, COSC 145, COSC 146, MATH 105, MATH 107, MATH 118, MATH 119, MATH 120, an ACT score of 26, a minimum SAT score of 640 or math placement test in elementary algebra greater than or equal to 73

Last Updated: Links 04/2011

COSC 255 - Computer Hardware and Software Systems

An applied introduction to computers including: computer hardware, operating systems, web design, networking, trouble shooting and maintenance of computers. Lab projects include: Taking apart computers, installing operating systems, building a network, and creating a web page.

Credit Hours: 3 hrs

Prerequisite: CADM 105 and COSC 101

Last Updated: Links 04/2011

COSC 277 - Special Topics

A 200-level course in a specific area of computer science, to be determined by the field of specialization of the instructor and the interest of the students.

Credit Hours: 1 hr

COSC 278 - Special Topics

A 200-level course in a specific area of computer science, to be determined by the field of specialization of the instructor and the interest of the students.

Credit Hours: 2 hrs

COSC 279 - Special Topics

A 200-level course in a specific area of computer science, to be determined by the field of specialization of the instructor and the interest of the students.

Credit Hours: 3 hrs

COSC 303 - Applications in Computer Science

Information systems, simulation, graphics, audio communication, artificial intelligence, instruction and training, and communications. The student will write or use previously written programs in each of the above areas using microcomputers. These programs will use many languages and programs including LOGO, PASCAL, BASIC, electronic spreadsheet and a database program.

Credit Hours: 3 hrs

Prerequisite: COSC 101 and COSC 211

Class Restrictions: Junior standing

Last Updated: Links 04/2011

COSC 306 - Methods of Teaching Computer Science in the Secondary Schools

Computer science programs in the high school, information and materials needed to prepare students for the teaching of computer science in these schools. Organization and content, methods of teaching and learning, security and maintenance of equipment, professional journals and magazines available for future growth, copying software and the legality of software duplication, dealing with diversity of abilities, problem-solving skills and strategies for debugging programs. This methods class does not count toward the major or minor.

Credit Hours: 3 hrs

Prerequisite: COSC 342, CURR 305 and admission to the Initial Teacher Preparation Program

Last Updated: Links 04/2011

COSC 311 - Algorithms and Data Structures

Linear lists, strings, arrays and orthogonal lists. Representation of trees and graphs. Storage systems, structures, storage allocation and collection. Symbol tables, searching and sorting techniques. Formal specification of data structures and data management systems.

Credit Hours: 3 hrs

Prerequisite: COSC 211 and COSC 221

Last Updated: Links 04/2011

COSC 314 - Computational Discrete Structures

Relations and algebraic structures, counting techniques, graphs, automata and languages and number theoretical algorithms. This course emphasizes discrete mathematical algorithms, their applications to problems in computer science and their implementations.

Credit Hours: 3 hrs

Prerequisite: COSC 211 and MATH 205

Last Updated: Links 04/2011

COSC 315 - Symbolic Computing

Symbolic computations and graphic representations in a computer algebra system such as mathematical; design of interactive notebooks; extensive use of electronic communications; applications from various areas of computer science, mathematics and the natural sciences; oral presentation of a project in an electronic classroom is required; lectures (two hours) and supervised lab (two hours).

Credit Hours: 3 hrs

Prerequisite: COSC 111 and MATH 122

Last Updated: Links 04/2011

COSC 321 - Computer Organization II

Basic digital circuits, data representation and transfer, digital arithmetic. Digital storage and accessing, control functions, input-output facilities, systems organization, reliability, simulation techniques. Multiprogramming, multiprocessing and real-time systems.

Credit Hours: 3 hrs

Prerequisite: COSC 211 and COSC 221

Last Updated: Links 04/2011

COSC 341 - Programming Languages

Formal definition of programming languages; structure of statements; global properties of algorithmic languages; data description; run time representation of programs; procedural languages such as C or C++ and nonprocedural languages such as lisp or prolog.

Credit Hours: 3 hrs

Prerequisite: COSC 211 and COSC 221

Notes: Credit will not be given for both COSC 341 and COSC 342

Last Updated: Links 04/2011

COSC 342 - Programming Languages for Educators

Formal definition of programming languages; structure of simple statements; global properties of algorithmic languages; structure of list processing, string manipulation, data description and simulation languages; run-time representation of program and data structures. Special emphasis will be placed on education-oriented languages.

Credit Hours: 3 hrs

Prerequisite: COSC 211 and COSC 221

Notes: Credit will not be given for both COSC 341 and COSC 342

Last Updated: Links 04/2011

COSC 374 - Applied Cryptography

An introduction to cryptography and its relationship to secure systems. Making and breaking codes and ciphers. Encryption, authentication, public-key encryption, digital signatures, cipher text and plain text, block ciphers, hash functions, RSA, key management. Cryptographic protocols as a part of securing digital systems.

Credit Hours: 3 hrs

Prerequisite: (MATH 170 or MATH 205) and COSC 211

Last Updated: Links 04/2011

COSC 377 - Special Topics

Covers topics not considered in other courses when the immediate needs of the field, interests of the students and expertise of the faculty coincide.

Credit Hours: 1 hrs

Prerequisite: COSC 211, COSC 221 and department permission

Last Updated: Links 04/2011

COSC 378 - Special Topics

Covers topics not considered in other courses when the immediate needs of the field, interests of the students and expertise of the faculty coincide.

Credit Hours: 2 hrs

Prerequisite: COSC 211, COSC 221 and department permission

Last Updated: Links 04/2011

COSC 379 - Special Topics

Covers topics not considered in other courses when the immediate needs of the field, interests of the students and expertise of the faculty coincide.

Credit Hours: 3 hrs

Prerequisite: COSC 211, COSC 221 and department permission

Last Updated: Links 04/2011

COSC 388 - Cooperative Education in Computer Science

Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in computer science. The program consists of two work experiences (COSC388/COSC 488) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: Any 300-level course in computer science; admittance to program by application; department permission

Class Restrictions: Junior or Senior standing

Major Restrictions: Computer Science Majors only

Notes: Graded on a credit/no-credit basis

Last Updated: Links 04/2011

COSC 403 - Seminar and Project Design for Educators

Major project design and more formalized, structured programming. Each student will work on two original major programs, one of which will be a group project. The student will report on both projects (written and oral) and give a formal presentation of the individual project to the University community in the form of a public lecture.

Credit Hours: 3 hrs

Prerequisite: COSC 311 and COSC 342

Class Restrictions: Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate credit 07/2011; Links 04/2011

COSC 405 - Switching Theory

Switching algebra, gate network and sequential circuit analysis and synthesis. Boolean algebra, sequential circuit state and combinational circuit minimization, hazards and races, elementary number systems and codes.

Credit Hours: 3 hrs

Prerequisite: COSC 211 and COSC 221

Class Restrictions: Juniors and Seniors only

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 421 - Systems Programming

Batch-process systems programs, components and operating characteristics. Implementation techniques for parallel processing and interrupt handling. Overall structure of multiprogramming systems. Addressing techniques, file system design and management. Interprocess communication, design of system modules and interfaces.

Credit Hours: 3 hrs

Prerequisite: COSC 221, COSC 311 and COSC 341

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 422 - Introduction to Microprocessors

The fundamentals of small-system software development as it applies to microprocessors and minicomputers. Introduction to microprocessors and peripheral hardware; software and software development; applications. Students will have access to both microcomputers and a minicomputer to gain first-hand knowledge of this field.

Credit Hours: 3 hrs

Prerequisite: COSC 221 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 423 - Computer Operating Systems

Computer operating systems functions and concepts. Processor allocation: multiprogramming and scheduling algorithms. Memory tasks and data management. The deadlock problem. Virtual memory, allocation strategies and analysis of their algorithms. Design, implementation and protection of I/O files. Survey of available computer operating systems.

Credit Hours: 3 hrs

Prerequisite: COSC 221 and COSC 311

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 436 - Web Programming

Students will learn how to set up and configure a web server and associated services. Topics covered will include: CGI, JavaScript, Web security tools, server-side programming multfiles applets, data description languages, database connectivity, scripting languages and distributed applications. Exposure to security and efficiency issues.

Credit Hours: 3 hrs

Prerequisite: COSC 231, COSC 311 and COSC 341

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 439 - Computing Network Principles

The basic concepts of computer communication systems with particular emphasis on communication hardware and microcomputer networks. Students will be involved in the development and writing of software components of communications such as terminal emulators and file transfer packages. Basic communication theory and terminology, communication hardware devices, communication protocols and microcomputer networks.

Credit Hours: 3 hrs

Prerequisite: COSC 221 and COSC 311; COSC 314 recommended

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 444 - Foundations of Automata and Languages

A review of finite automata. A rigorous treatment of regular languages including closure properties and the Pumping Lemma. An investigation of context-free languages, context-free grammars, simplification of grammars, normal forms and related topics. Turing machines and the Halting Problem. Applications to lexical analysis.

Credit Hours: 3 hrs

Prerequisite: COSC 311 and COSC 314

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 445 - Compiler Construction

Review of programming language structures, translation, loading, execution and storage allocation. Compilation of simple statements. Organization and overall design of a compiler. Use of compiler writing languages.

Credit Hours: 3 hrs

Prerequisite: COSC 311 and COSC 314 and COSC 341

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 456 - Computer Graphics

An in-depth exploration of fundamental concepts of 2D and 3D computer graphics. Topics include: geometric transformations, lighting and shading models, texture mapping, animation, solid modeling, ray-tracing, hidden-surface removal and the use of graphics in visualization and computer gaming. Course is project oriented, including interactive 3D animations.

Credit Hours: 3 hrs

Prerequisite: COSC 311 and either the completion of MATH 122 or MATH 205

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 457 - Computer Game Programming

Introduces the central components of 3D computer game programming: game design, using a 3D graphics engine (lighting, shading, textures, etc.), terrain modeling, solid modeling, kinematics, collision detection, real-time animation, simple AI agency, sound integration.

Credit Hours: 3 hrs

Prerequisite: COSC 311

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 461 - Heuristic Programming

Programming techniques for problems with large-state spaces or uncertain knowledge: searches, heuristic evaluation, rule-based inference, approximate reasoning and adaptation using neural nets, genetic algorithms and reinforcement learning.

Credit Hours: 3 hrs

Prerequisite: COSC 311 and COSC 314

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 471 - Database Principles

A technical review of the theory and principles of database design and organization. The concepts and structures necessary to design and implement a database management system. Network, hierarchical and relational database models. Data normalization, data description languages, query languages, data integrity and security.

Credit Hours: 3 hrs

Prerequisite: COSC 311 and COSC 314 and COSC 341

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 477 - Special Topics

Covers topics not considered in other courses when the immediate needs of the field, interests of the students and expertise of the faculty coincide.

Credit Hours: 1 hr

Prerequisite: department permission

Class Restrictions: Senior standing

Major Restrictions: Computer Science Majors only

COSC 478 - Special Topics

Covers topics not considered in other courses when the immediate needs of the field, interests of the students and expertise of the faculty coincide.

Credit Hours: 2 hrs

Prerequisite: department permission

Class Restrictions: Senior standing

Major Restrictions: Computer Science Majors only

COSC 479 - Special Topics

Covers topics not considered in other courses when the immediate needs of the field, interests of the students and expertise of the faculty coincide.

Credit Hours: 3 hrs

Prerequisite: department permission

Class Restrictions: Senior standing

Major Restrictions: Computer Science Majors only

COSC 481W - Software Engineering and Senior Project (Gen Ed Area I, W)

This capstone course surveys the fundamentals of software engineering, including requirements analysis, design, disciplined implementation and evaluation. Students will work on a semester-long software project that employs principles learned in other computer science classes.

Credit Hours: 3 hrs

Prerequisite: COSC 311 and department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

COSC 485 - Senior Projects in SAG

The application of simulation, animation and gaming techniques for the completion of a team based final project. Also covered will be a discussion of necessary skills for career success. Guest speakers and site visitations will be part of the class.

Credit Hours: 3 hrs

Prerequisite: SAG 470

Class Restrictions: Junior or Senior standing

Cross-Listed with: SAG 485

Last Updated: Links 04/2011

COSC 486 - Cooperative Education in Computer Science

Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in computer science. The program consists of two work experiences (COSC 388/COSC 488) alternating with full-time attendance at the University.

Credit Hours: 1 hrs

Prerequisite: COSC 388 and department permission

Notes: Use on computer science major subject to department permission. Graded on a credit/no-credit basis.

Last Updated: Links 04/2011

COSC 487 - Cooperative Education in Computer Science

Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in computer science. The program consists of two work experiences (COSC 388/COSC 488) alternating with full-time attendance at the University.

Credit Hours: 2 hrs

Prerequisite: COSC 388 and department permission

Notes: Use on computer science major subject to department permission. Graded on a credit/no-credit basis.

Last Updated: Links 04/2011

COSC 488 - Cooperative Education in Computer Science

Four to six months of full-time employment at an industrial firm specially chosen to provide practical experience in computer science. The program consists of two work experiences (COSC 388/COSC 488) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: COSC 388 and department permission

Notes: Use on computer science major subject to department permission. Graded on a credit/no-credit basis.

Last Updated: Links 04/2011

COSC 497 - Independent Study

A report or project on an approved subject in the field of computer science under the guidance of the staff of the Department of Computer Science.

Credit Hours: 1 hr

Prerequisite: department permission

Class Restrictions: Junior or Senior standing

Major Restrictions: Computer Science Majors only

COSC 498 - Independent Study

A report or project on an approved subject in the field of computer science under the guidance of the staff of the Department of Computer Science.

Credit Hours: 2 hrs

Prerequisite: department permission

Class Restrictions: Junior or Senior standing

Major Restrictions: Computer Science Majors only

COSC 499 - Independent Study

A report or project on an approved subject in the field of computer science under the guidance of the staff of the Department of Computer Science.

Credit Hours: 3 hrs

Prerequisite: department permission

Class Restrictions: Junior or Senior standing

Major Restrictions: Computer Science Majors only

Economics Programs and Courses

Economics

Major

Actuarial Science and Economics Major - Economics

Actuarial science and economics is a joint program of the Mathematics and Economics departments. In addition to following a prescribed series of courses, students are expected to pass the first two actuarial examinations. The examinations are sponsored by leading actuarial societies and administered in numerous U.S. locations. MATH 372 and MATH 472 are designed to prepare students for these examinations.

All majors must meet with the undergraduate advising coordinator in the Department of Mathematics to fill out a program sheet before graduation. At least 15 credit hours in the program, at the 300 level or above, must be taken at Eastern Michigan University.

Economics Department Information:

Interim Department Head: Kemper Moreland
Department Contact: kmoreland@emich.edu
Website: <http://www.emich.edu/economics/>

Adviser Information:

Program Adviser: Abdullah Dewan
Phone: 734.487.3395
Email: adewan@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 61 hours

Required Courses: 12 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs

One course from the following:

- COSC 111 - Introduction to Programming 3 hrs
- COSC 120 - Computational Principles for Mathematics and the Sciences 3 hrs

One course from the following:

- ECON 361 - Financial Economics 3 hrs
- FIN 350 - Principles of Finance 3 hrs

Required Mathematics Courses: 25 hours

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs
- MATH 223 - Multivariable Calculus 4 hrs
- MATH 370 - Probability and Statistics I 3 hrs
- MATH 372 - Problems in Actuarial Studies I 2 hrs
- MATH 471 - Probability and Statistics II 3 hrs
- MATH 472 - Problems in Actuarial Studies II 2 hrs

Required Economics Courses: 18 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
- ECON 412 - Intermediate Microeconomic Analysis 3 hrs
- ECON 405 - Economic Analysis for Business 3 hrs
- ECON 415 - Introduction to Econometrics 3 hrs

Restricted Elective Courses: 6 hours

Any combination of electives from:

- Courses at the 300-level or above in mathematics
- ECON 340 - Money and Banking 3 hrs
- ECON 445 - Economic Fluctuations and Forecasting 3 hrs
- ECON 455W - Cost-Benefit Analysis (Gen Ed Area I, W) 3 hrs

Minor Requirements:

This major does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Economics Major

The Economics major in the College of Arts and Sciences is designed to prepare students for administrative or research careers in business, finance, government and social service agencies. The Economics major is also an excellent preparation for students planning to attend Law School. Students in this major are encouraged to consider a minor or second major in Finance, General Business (or other business field), Mathematics, Political Science, or Philosophy to match their specific career goal. Students planning to pursue graduate studies in Economics are strongly encouraged to complete a minor in Mathematics.

Economics Department Information:

Interim Department Head: Kemper Moreland

Department Contact: kmoreland@emich.edu

Website: <http://www.emich.edu/economics/>

Adviser Information:

Program Adviser: Abdullah Dewan

Phone: 734.487.3395

Email: adewan@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 3-4 hours

One course from the following:

Note: If pursuing a BBA, please see note below before selecting a course in this section.

- MATH 118 - Linear Models and Probability (Gen Ed Area II) 3 hrs
- MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Major Requirements: 30 hours

Required Courses: 15 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ECON 411 - Intermediate Macroeconomic Analysis 3 hrs
- ECON 412 - Intermediate Microeconomic Analysis 3 hrs

One course from the following:

If pursuing a BBA in Economics:

Students who take DS 265 first, may not take ECON 310 for credit toward the major. Instead they must take another economics class, ECON 415 preferred.

Students who take ECON 310 first will be excused from the requirement of completing DS 265 in the Business Core (in this case, a COB waiver may be required for graduation audit).

- ECON 310 - Economic Statistics 3 hrs
- ECON 415 - Introduction to Econometrics 3 hrs

Elective Courses: 15 hours

Although any 15 credit hours of 300-level or above electives in economics will complete the requirements for the major, students should choose courses related to the career path they wish to pursue. Inquire at the Department of Economics regarding suggested concentrations, suggested career paths and course selection.

For students pursuing a BBA in Economics: *Although any 15 credit hours of 300-level or above electives in economics will complete the requirements for the major, students should select courses most closely related to business applications. Students selecting this economics major are encouraged to include at least one 400-level course offered in the College of Business as an elective.*

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Bachelor of Business Administration in Economics

Students who wish to earn a Bachelor of Business Administration in Economics, can do so by completing the above requirements of the Economics Major in addition to the following requirements:

Business Core Courses: 36 hours

- ACC 240 - Principles of Financial Accounting 3 hrs
- ACC 241 - Principles of Managerial Accounting 3 hrs
- COB 200L - Introduction to Business (Gen Ed Area V LBC) 3 hrs
- DS 265 - Business Statistics I 3 hrs
- FIN 350 - Principles of Finance 3 hrs
- IS 215 - End-User Computing 3 hrs
- LAW 293 - Legal Environment of Business 3 hrs
- MGMT 202 - Business Communication 3 hrs
- MGMT 386 - Organizational Behavior and Theory 3 hrs
- MGMT 490 - Business Policy 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- OM 374 - Introduction to Operations Management 3 hrs

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.

- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Minor

Economics Minor

An Economics minor provides a useful combination with majors in Business, Mathematics, Political Science, Pre-Law, Philosophy and related fields.

Economics Department Information:

Interim Department Head: Kemper Moreland
Department Contact: kmoreland@emich.edu
Website: <http://www.emich.edu/economics/>

Adviser Information:

Program Adviser: Abdullah Dewan
Phone: 734.487.3395
Email: adewan@emich.edu

Required Course: 6 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs

Elective Courses: 14 hours

Fourteen hours from any 300-level and above economics courses. ECON 411 and ECON 412 are highly recommended.

Minor Total: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.

Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Economics Minor

PROGRAM WILL BE PHASED OUT: EFFECTIVE FALL 2012

Successful completion of this minor, in the context of other program requirements, qualifies the student for recommendation for endorsement in economics, certification code CA. The Michigan Test for Teacher Certification (MTTC) covering this field is #007, "Economics."

Economics Department Information:

Interim Department Head: Kemper Moreland
Department Contact: kmoreland@emich.edu
Website: <http://www.emich.edu/economics/>

Required Courses: 9 hours

- ECON 201 - Principles of Macroeconomics (Gen Ed Area IV) 3 hrs
- ECON 202 - Principles of Microeconomics (Gen Ed Area IV) 3 hrs
- ECON 375 - Economic History of the United States 3 hrs

Restricted Elective Courses: 11 hours

Eleven hours of electives in economics including at least two courses from the following:

- ECON 300 - Contemporary Economic Issues 3 hrs
- ECON 303 - Consumer Economics 3 hrs
- ECON 327 - Economics of Poverty, Inequality and Discrimination 3 hrs
- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 385 - Economic Development 3 hrs
- ECON 480W - International Economics (Gen Ed Area I, W) 3 hrs

Minor Total: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above. ECON 411 and ECON 412 are also recommended.

Students seeking a teaching certificate in Social Studies with an endorsement in Economics are required, in addition to the Economics courses above, to take HIST 481 - The Teaching of Social Studies, as their teaching methods course.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. University Information: Consult the online catalog at catalog.emich.edu.

Economics

ECON 100 - Introduction to Economic Problems and Policies (Gen Ed Area IV)

A nontechnical introduction to basic problems facing the U.S. economy and different opinions over economic policy choices. Analysis of the controversial role of government in a private market economy.

Credit Hours: 3 hrs

Notes: Not recommended for business students. Not open to students with ECON201/202.

Area IV: Knowledge of the Disciplines

ECON 100 Introduction to Economics

Students in the course acquire a basic understanding of both the subject of economics and the approach used by economists in their study of economic questions. Thus students learn about both the content and the methodology of economics. The contemporary international economic environment is characterized by globalization and competition. This reality confronts the USA and its people with a number of economic challenges and opportunities. Economics 100 presents students with an opportunity to read about, think about and discuss these issues. In a series of written assignments, students are asked to apply their developing knowledge of the content and methodology of economics to an analysis of a variety of economic problems, as well as to an evaluation of government policy measures designed to respond to these problems. In summary, Economics 100 students learn the following: (1) The basic concepts and principles of economics, such as efficiency and productivity, markets and prices; (2) The "economic way of thinking", that is, identifying measuring, quantifying and comparing costs and benefits as a basis for informed decision-making; (3) How to apply both of the above to real-world economic problems, such as the outsourcing of jobs to low-wage countries and the escalating costs of prescription drugs.

ECON 103L - Economics for Living (Gen Ed Area V LBC)

This course develops the tools and skills needed to survive and thrive in daily life. Focus is on understanding the economy and on how to evaluate costs and benefits related to everyday choices like student loans, the use of banks and credit, healthcare insurance options, and retirement plan participation.

Credit Hours: 3 hrs

Notes: This course will count as credit for Learning Beyond the Classroom.

Last Updated: Links 03/2011

ECON 108 - Introduction to the Global Economy (Gen Ed Area III)

An introductory-level course accessible to student who have had no prior exposure to economics. It explains the basic concepts and principles of global economics in a non-technical, non-mathematical manner. Students learn about the challenges and the opportunities that are presented by the globalization of the world economy.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

ECON 108 Introduction to the Global Economy

Students in the course acquire a basic understanding of, and appreciation for, the variety of economic systems, economic models and economic policies that have been adopted by different nations to guide their respective paths of economic growth and development. Students also receive an introduction to the web of economic relations that tie nations ever more tightly in the globalizing world economy.

The globalization of the world economy implies increasing interaction among the economies of different nations. Economic interrelationships are complex and dynamic. Our competitors in the globalized world economy, such as China, India and Japan, are at the same time our partners. This reality poses both challenges and opportunities. The possibility of achieving positive, peaceful outcomes is enhanced by a thorough understanding of the differences among the economies of the world.

ECON 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

ECON 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

ECON 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

ECON 200 - The American Economy

Survey of the principles of economics; the basic knowledge of the functioning of the present-day American economy.

Credit Hours: 3 hrs

Notes: Not open to students with ECON201/202.

ECON 201 - Principles of Macroeconomics (Gen Ed Area IV)

The first half of basic principles of economics. Emphasizes macroeconomic concepts of national income, fiscal and monetary policy, and problems of unemployment, inflation and economic growth.

Credit Hours: 3 hrs

Prerequisite: Level 3 Math Placement or (at least a C in MATH 098 or above)

Area IV: Knowledge of the Disciplines

ECON 210 Principles of Macroeconomics

Economics is one of the fundamental social sciences because it systematically investigates the economic relationships and interactions among people living in society. In the course acquire a basic understanding of both the subject of economics and the tools used by economists in their study of economic questions. (1) macroeconomics looks at how people and societies make choices, while weighing the costs and benefits of those choices. The basic assumption is that normal economic behavior is guided by a process of always seeking to get the maximum benefit at minimum cost; (2) introduces students to concepts such as supply and demand, business cycles, inflation and unemployment, money and banking, and taxing and government spending. Here students learn how economics research develops and uses numbers and models (simplifications) to explain changes in these concepts; (3) introduces students to some of the different interpretations of the desirability of changes and their outcomes. One school of thought explored focuses on "what is," with no value judgments implied. Another school of thought focuses on "what ought to be," based on value judgments about the social desirability of outcomes.

Last Updated: Links 04/2011

ECON 202 - Principles of Microeconomics (Gen Ed Area IV)

Second half of an introduction to basic principles of economics. Emphasizes microeconomic concepts of demand, supply and problems relating to prices and resource allocation.

Credit Hours: 3 hrs

Prerequisite: Level 3 math placement or above, or MATH 098 or above.

Area IV: Knowledge of the Disciplines

ECON 202 Principles of Microeconomics

Economics is one of the fundamental social sciences because it systematically investigates the economic relationships and interactions among people living in a society. Students in the course acquire a basic understanding of both the subject of economics and the approach used by economists in their study of economic questions. Thus, students learn about both the content and the methodology of economics. The contemporary international economic environment is characterized by globalization and competition. This reality confronts the USA and its people with a number of economic challenges and opportunities. Economics 202 presents students with an opportunity to read about, think about and discuss these issues. In discussions and exams students are asked to apply their developing knowledge of the content and methodology of economics to an analysis of a variety of economic problems, as well as to an evaluation of government policy measures designed to respond to these problems.

Last Updated: Links 04/2011

ECON 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: one 100- or 200-level course in economics

ECON 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: one 100- or 200-level course in economics

ECON 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: one 100- or 200-level course in economics

ECON 300 - Contemporary Economic Issues

Analysis of contemporary economic problems. Topics may change each semester as the interests and/or problems change.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

ECON 303 - Consumer Economics

This course focuses on the analysis of consumer economic behavior, the public and private institutions designed to protect consumer's interests and the evolution as well as the effectiveness of consumer education. This course will also include emphasis on buying skills, money management and consumer-citizenship responsibility.

Credit Hours: 3 hrs

Prerequisite: one 100-200 or 300-level course in Economics

ECON 310 - Economic Statistics

Introduction to the statistical measurement and analysis of data with applications to economics. Elements of descriptive statistics, probability, random samples, point and interval estimation, hypothesis testing and regression analysis are examined.

Credit Hours: 3 hrs

Prerequisite: MATH 105, MATH 118, MATH 119 or MATH 120

Last Updated: Links 04/2011

ECON 320 - Labor Economics

Analysis of the theory of wage determination, with attention to labor supply and labor demand, human resource development, trade unions and labor market institutions.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 321 - Minority Workers in the Labor Market

Special problems and unique employment situations of minority workers (racial and ethnic minorities, women, handicapped) involving historical and market influences, and employer, union and government policies. Recent and proposed legislation affecting the labor force status of minorities.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

ECON 325 - Collective Bargaining

Major problems in present-day collective bargaining including the negotiation of collective agreements, practical aspects and economic implications.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

ECON 327 - Economics of Poverty, Inequality and Discrimination

An economic analysis of poverty and income inequality in the U.S., including the effects of discrimination. Examining U.S. income maintenance programs, including social security. Includes international comparisons.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

ECON 328 - Economics of Women

The changing economic role of women in the labor force. Analysis of policies affecting earnings, employment, and work and family issues in traditional and nontraditional occupations. Includes some international comparisons.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

Cross-Listed with: WGST 328

Last Updated: Links 04/2011

ECON 329 - Economics of Crime

The use of economic concepts and tools to analyze economic causes of crime and economic policies relevant to crime.

Credit Hours: 3 hrs

Prerequisite: ECON 202 or equivalent

Last Updated: Links 04/2011

ECON 332 - Urban Economics

The level, distribution, stability and growth of urban income and employment. Analysis of contemporary urban problems, such as inner-city poverty, housing-land use, transportation and local public services with special reference to economic efficiency and programs.

Credit Hours: 3 hrs

Prerequisite: ECON 202 or equivalent

Last Updated: Links 04/2011

ECON 336 - Economics of Environment and Natural Resources

The application of economic concepts and analysis to problems of environment and management of natural resources.

Credit Hours: 3 hrs

Prerequisite: ECON 202 or equivalent

Last Updated: Links 04/2011

ECON 337 - Energy Economics and Policies

Introduction to the economics of energy in the U.S. and world economies, including a critical analysis of the policies of the governments involved.

Credit Hours: 3 hrs

Prerequisite: ECON 202 or equivalent

Last Updated: Links 04/2011

ECON 340 - Money and Banking

The nature and role of money and credit, the banking system and other financial institutions, and the relation of monetary policy to the level of economic activity.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 350 - Government Finance

This course examines the role of government in market economies. We analyze current government expenditure programs, such as welfare, health, environmental, housing, education and social security programs. We also analyze equity and efficiency effects of taxes including personal income, corporate income, sales, property and Social Security taxes.

Credit Hours: 3 hrs

Prerequisite: ECON 202 or equivalent

Last Updated: Links 04/2011

ECON 361 - Financial Economics

This course provides an introduction to the fundamentals of modern financial economics and their applications in managing financial health and performance, time and resource allocation, household decisions, asset valuation and pricing, risk and efficiency, and corporate finance.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

Previously Listed As: ECON 361 - Corporation Finance

Last Updated: Title and Description 07/2011

ECON 370 - Comparative Economic Systems

Alternative approaches to organizing economic activity, emphasizing advantages and disadvantages as compared to the U.S. economic system. Illustrations are taken from non-capitalist economies such as Cuba and China.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

ECON 375 - Economic History of the United States

Analyzes economic history of the United States including colonial relationships; regional specialization; slavery; property rights; technology; transportation; industrialization; trade flow; monetary and fiscal policy and income distribution.

Credit Hours: 3 hrs

Prerequisite: one course in economics or department permission

ECON 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 385 - Economic Development

The causes, the consequences and possible solutions of economic problems facing the developing countries of Latin America, Africa and Asia. Emphasis on mass poverty, food shortages, overpopulation, unemployment and unequal income distribution.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

ECON 386 - Technology and Economic Growth

The nature of technology and its importance for contemporary economic growth. Includes technological change and its effects on society and the individual.

Credit Hours: 3 hrs

Prerequisite: one 100-, 200- or 300-level course in economics

ECON 387 - Cooperative Education in Economics

Provides practical experience in the student's major field for four to six months of full-time employment at an individual employer. The program consists of one or two work experiences (ECON 387/ECON 487) alternating with full-time attendance at

the University. A written report is required at the end of each employment period..

Credit Hours: 3 hrs

Prerequisite: ECON 201, ECON 202 and department permission

Notes: Admittance to program by application only. Graded on a credit/no-credit basis. Credits do not count towards the economics major or minor

Last Updated: Links 04/2011

ECON 401 - Use of Quantitative Methods in Economics

Introduction to Contemporary National Databases and current econometric computer packages. Special attention is given on how to do empirical research: formulating hypotheses, estimating relationships, testing hypotheses, and dissemination of findings.

Credit Hours: 3 hrs

Prerequisite: ECON 411 and ECON 310 or equivalent

Class Restrictions: Only open to Juniors, Seniors and MA in Trade Development students

Last Updated: Removal of Graduate Credit 07/2011; Links 04/2011

ECON 402 - Computer Applications in Microeconomics

Applied linear and nonlinear models of the consumer and the firm. Estimates demand functions (for example housing demand and energy demand), cost functions and production functions.

Credit Hours: 3 hrs

Prerequisite: ECON 412 and ECON 310 or equivalent

Last Updated: Links 04/2011

ECON 405 - Economic Analysis for Business

Analytical tools and methods of economic theory used in business management, focusing on production, cost, pricing and investment. Application includes demand estimation and economic forecasting.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Removed Grad Credit 07/2011; Links 04/2011

ECON 406W - History of Economic Thought (Gen Ed Area I, W)

A review of the development of economic thought from the age of mercantilism to present times, with the particular emphasis on landmark contributions of writers such as Adam Smith, Karl Marx, Alfred Marshall, J. M. Keynes and significant 20th-century economists.

Credit Hours: 3 hrs

Prerequisite: ECON 201 or ECON 202

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ECON 407 - Economic Analysis and Law

The application of economic analysis to the law, including property law, contract law, family law, torts, criminal law, constitutional law, antitrust and environmental law.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Removed Graduate Credit 07/2011; Links 04/2011

ECON 411 - Intermediate Macroeconomic Analysis

Examines macroeconomic theories of the determination of national income, employment, the price level, interest rates and economic growth; and linkages between the domestic and international economies. Topics include unemployment, inflation, monetary and fiscal policy, and the policy positions of various schools of thought. Standard analytical tools, such as IS-LM and aggregate demand and supply are examined.

Credit Hours: 3 hrs

Prerequisite: ECON 201, ECON 202 and either MATH 105, MATH 118, MATH 119 or MATH 120

Previously Listed As: ECON 301

Last Updated: Links 04/2011; Course Number Change 06/2011, effective Fall 2011

ECON 412 - Intermediate Microeconomic Analysis

Analyzes contemporary theories of consumer and firm behavior, prices, and resource allocation. Examines firm behavior for several market structures, and evaluates the efficiency and equity implications of market outcomes.

Credit Hours: 3 hrs

Prerequisite: ECON 201, ECON 202, and either MATH 105, MATH 118, MATH 119 or MATH 120

Previously Listed As: ECON 302

Last Updated: Links 04/2011; Course Number Change 06/2011, effective Fall 2011

ECON 415 - Introduction to Econometrics

Introduction to the mathematical formulation of economic theories. The use of statistical procedures to measure the theoretical relationships and to verify or reject the theories. Quantitative predictions, measurements and statistical test of the predictions.

Credit Hours: 3 hrs

Prerequisite: ECON 201, ECON 202, and either ECON 310, MATH 360, MATH 370 or DS 265

Last Updated: Removed Graduate Credit 07/2011; Links 04/2011

ECON 436 - Health Economics

The production, distribution, supply and utilization of health care resources, especially in the United States. Relevant tools of economic analysis and empirical studies, allocation of resources to the health care sector.

Credit Hours: 3 hrs

Prerequisite: ECON 202 or equivalent

Last Updated: Removed Graduate Credit 07/2011; Links 04/2011

ECON 440 - Money, Credit, and Monetary Policy

An analytical study of the theories of money demand and money supply. Also studied are commercial banking and the operations and conduct of Federal Reserve monetary policy under alternative policy procedures and economic disturbances. The subject is

viewed from both domestic and international perspectives.

Credit Hours: 3 hrs

Prerequisite: ECON 411 or ECON 340

Last Updated: Links 04/2011

ECON 445 - Economic Fluctuations and Forecasting

Study of the history, nature and causes of economic fluctuations. Also included are alternate approaches to economic forecasting used by business and government including econometric forecasting; and the role of monetary and fiscal policies, supply shocks, international factors and structural change in generating economic fluctuations.

Credit Hours: 3 hrs

Prerequisite: ECON 201, ECON 202 and ECON 411

Notes: This course has been approved for General Education - Writing Intensive Credit, effective Winter 2013.

Last Updated: Prerequisites 07/2011; Links 04/2011

ECON 455W - Cost-Benefit Analysis (Gen Ed Area I, W)

Cost-benefit analysis techniques and their application to evaluating economic efficiency of government expenditure programs. Determination and distribution of benefits and costs in specific public projects.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 460 - Industrial Organization

Monopoly, competition, mergers, concentration and antitrust, and other public policies affecting private enterprise in the United States.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 04/2011

ECON 480W - International Economics (Gen Ed Area I, W)

Analysis of theory and economic problems of international trade factor movements, exchange mechanisms, balance of payments, regional economic integration, assistance agencies, and adjustments to changing conditions.

Credit Hours: 3 hrs

Prerequisite: ECON 201 and ECON 202

Last Updated: Links 03/2011

ECON 487 - Cooperative Education in Economics

Provides practical experience in the student's major field for four to six months of full-time employment at an individual employer. The program consists of one or two work experiences (ECON 387/ECON 487) alternating with full-time attendance at the University. A written report is required at the end of each employment period.

Credit Hours: 3 hrs

Prerequisite: ECON 387

Notes: Admittance to program by application only. Graded on a credit/no-credit basis. Credits do not count towards the economics major or minor.

Last Updated: Links 04/2011

ECON 491 - Research Seminar in Economics

Selected issues in economic methodology, research procedures, and techniques with the preparation of a major research paper and group analysis of its findings.

Credit Hours: 3 hrs

Prerequisite: ECON 411 and ECON 412

Last Updated: Links 04/2011

ECON 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work. Restricted to economics majors and minors.

Credit Hours: 1 hr

ECON 498 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work. Restricted to economics majors and minors.

Credit Hours: 2 hrs

ECON 499 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work. Restricted to economics majors and minors.

Credit Hours: 3 hrs

ECON 585 - Economic Growth and Development

Conditions, causes and consequences of growth and development; instruments of expansion and control, and important theories and models of growth. Economic growth in both the United States and underdeveloped countries.

Credit Hours: 3 hrs

Prerequisite: ECON 411 and ECON 412, or equivalent

Notes: This is a graduate course in an undergraduate program.

English Language and Literature Programs and Courses

English Language and Literature

Major

Creative Writing Major

English Language and Literature Department Information:

Department Head: Mary K. Ramsey
Department Contact: mramsey6@emich.edu
Website: <http://www.emich.edu/english/>

Adviser Information:

Program Adviser: Christine Hume
Email: chume@emich.edu

Program Adviser: Carla Harryman
Email: charryma@emich.edu

Phone Number for Advisers: 734.487.4220

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 33 hours

Required Courses: 24 hours

- CRTW 201 - Introduction to Creative Writing (Gen Ed Area IV) 3 hrs
- CRTW 426 - Contemporary Forms 3 hrs
- ENGL 300W - Writing About Literature (Gen Ed Area I, W) 3 hrs
- LITR 360 - Recent Trends in British and American Literature 3 hrs

The following courses must be taken twice:

- CRTW 335W - Creative Writing (Gen Ed Area I, W) 3 hrs
- CRTW 422W - Writer's Workshop (Gen Ed Area I, W) 3 hrs

Restricted Electives: 9 hours

Three courses selected from the following:

- 300-400 level courses in CRTW, LITR, ENGL, JRNL, LING
- ARTH 475 - Seminar in Modern and Contemporary Art 3 hrs
- CTAR 360 - Playwriting 3 hrs
- PHIL 460W - Philosophy of Language (Gen Ed Area I, W) 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

The interdisciplinary nature of the Creative Writing Major encourages students to minor in areas such as Philosophy, Art and Drama. The PHIL, ART, CTAR courses below are therefore also acceptable restricted electives, but students should be aware that they require prerequisites and are suggested as part of a program involving a minor in the relevant area. Students choosing the Philosophy elective, for instance, should consider designating Philosophy as a minor. Likewise students choosing the Art/Drama elective should consider Art/Drama as a minor.

** This course must be repeated as a different topic.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Major Requirements: 30 hours

Required Courses: 19-21 hours

- ENGL 324W - Principles of Technical Communication (Gen Ed Area I, W) 3 hrs
- ENGL 328W - Writing, Style and Technology (Gen Ed Area I, W) 3 hrs
- ENGL 417 - Rhetoric and the Written Word 3 hrs
- LING 201 - An Introduction to Linguistics 3 hrs
- LING 402 - Modern English Grammar 3 hrs

One course from the following:

- LING 205 - English Words 3 hrs
- LING 421 - The History of the English Language 3 hrs

One course from the following:

- ENGL 484W - Seminar in Written Communications (Gen Ed Area I, W) 3 hrs
- LING 497 - Independent Study 1 hr
- LING 498 - Independent Study 2 hrs
- LING 499 - Independent Study 3 hrs

Restricted Elective Courses: 9-12 hours

- Any LING course approved by the undergraduate adviser.
- ENGL 225 - Writing in a Changing World 3 hrs
- ENGL 326 - Research Writing 3 hrs
- ENGL 387 - Cooperative Education in English 3 hrs
- ENGL 424 - Technical Writing 3 hrs
- ENGL 427 - Technical Editing 3 hrs
- ENGL 428 - Writing Computer Documentation 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs
- JRNL 306W - Feature Writing (Gen Ed Area I, W) 3 hrs
- JRNL 307 - Copy Editing 3 hrs
- JRNL 314 - Writing for Public Relations 3 hrs

- JRNL 423 - Magazine Article Writing 3 hrs
- JRNL 453 - Advanced Reporting 3 hrs

Interdisciplinary Major in Children's Literature and Drama/Theatre for the Young

English Language and Literature Department Information:

Department Head: Mary K. Ramsey
 Department Contact: mramsey6@emich.edu
 Website: <http://www.emich.edu/english/>

Adviser Information:

Program Adviser: Annette Wannamaker
 Phone: 734.487.4220
 Email: awannamak@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 36 hours

Required Courses: 21 hours

- * CHL 207 - Introduction to Children's Literature (Gen Ed Area IV) 3 hrs
- * CHL 208 - Multicultural Children's Literature (Gen Ed Area III) 3 hrs
- CTAR 327 - Plays for the Young 3 hrs

One course from the following:

- CHL 351 - World Mythology 3 hrs
- CHL 352 - Folk Literature: Ballads and Folk Tales 3 hrs

One course from the following:

- CHL 450W - Children's Literature: Criticism and Response (Gen Ed Area I, W) 3 hrs
- CHL 451W - Writing about Controversy in Literature for the Young (Gen Ed Area I, W) 3 hrs

One course from the following:

- * CTAR 222 - Drama and Play in the Human Experience (Gen Ed Area IV) 3 hrs
- CTAR 323 - Improvising and Role-Play 3 hrs

One course from the following:

- CTAR 322 - Theatre for Children 3 hrs
- CTAR 324 - Oral Interpretation of Children's Literature 3 hrs

Restricted Elective Courses: 15 hours

Courses not chosen to fulfill program requirements above may be taken as restricted electives.

Occasionally special topics courses may be offered (such as children's film, storytelling, or puppetry) which may be substituted for a restricted elective with departmental permission. Qualified seniors may, with an advisers permission, substitute appropriate 500- level course.

- CHL 209 - Global Children's Literature (Gen Ed Area III) 3 hrs
- CHL 351 - World Mythology 3 hrs
- CHL 352 - Folk Literature: Ballads and Folk Tales 3 hrs
- CHL 450W - Children's Literature: Criticism and Response (Gen Ed Area I, W) 3 hrs
- CHL 451W - Writing about Controversy in Literature for the Young (Gen Ed Area I, W) 3 hrs
- CHL 453 - Illustrated Texts: Picture Books, Comics, and Graphic Novels 3 hrs
- CHL 454 - Children's Literature: Fiction 3 hrs
- CHL 455 - Adolescent Literature 3 hrs

- CTAR 497 - Independent Study 1 hr
- CTAR 498 - Independent Study 2 hrs
- CTAR 499 - Independent Study 3 hrs

Capstone Experience

At the conclusion of the program, the students will submit a portfolio of three papers/projects/performances which the student believes are representative of his/her best work produced for the major. By the middle of the student's final semester, he/she will consult with his/her adviser about the materials to be submitted and the date that they are due. All materials must be submitted at least one month prior to the close of the semester in question. This portfolio will be evaluated by a committee composed of members of the English Department's Children's Literature faculty and Drama/Theatre for the Young faculty from the Department of Communication, Media and Theatre Arts. Portfolios will be maintained by the Children's Literature faculty. Students whose portfolios are found to be deficient will be asked to make up that deficiency and submit new materials.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

** These courses satisfy both general education requirements and requirements of the major. In order to avoid taking excess hours, students are advised to take these courses, or approved substitutes from another institution, as part of the general education requirements.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Journalism Major

Students will be required to complete 30 credit hours in professional journalism and writing courses (see below), plus a 20-hour minor in a specified field. Admission to the program will require a 2.5 GPA.

- JRNL 488 - Internship in Journalism/Public Relations 1 hr
- JRNL 489 - Internship in Journalism/Public Relations 2 hrs
- JRNL 490 - Internship in Journalism/Public Relations 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).

- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Language, Literature and Writing Major

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in English, certification code BA, and, depending on the minor selected, an additional endorsement. This program of study meets all requirements of the National Council of Teachers of English. The Michigan Test for Teacher Certification (MTTC) covering this field is #002, "English."

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.

3. A grade of “C” or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 36 hours

Required Courses: 9 hours

- ENGL 300W - Writing About Literature (Gen Ed Area I, W) 3 hrs
- ENGL 328W - Writing, Style and Technology (Gen Ed Area I, W) 3 hrs
- LING 201 - An Introduction to Linguistics 3 hrs

Restricted Elective Courses: 27 hours

One course from Genre:

- LITR 411 - Studies in Epic and Romance 3 hrs
- LITR 420 - Studies in the British Novel 3 hrs
- LITR 421 - Studies in the American Novel 3 hrs
- LITR 422 - Studies in the Novel in Global Perspective 3 hrs
- LITR 430 - Studies in Drama 3 hrs
- LITR 440 - Genre Studies 3 hrs

- LITR 470 - Studies in Poetry 3 hrs

One course from Language Study:

- LING 401 - Introduction to Linguistic Science 3 hrs
- LING 402 - Modern English Grammar 3 hrs
- LING 421 - The History of the English Language 3 hrs

One course from Multicultural Literature:

- LITR 361 - Studies in Native American Literature 3 hrs
- LITR 362 - Studies in African American Literature 3 hrs

One course from British Literature:

- LITR 312 - English Literature in the Middle Ages 3 hrs
- LITR 314 - English Renaissance Prose and Poetry 1500-1660 3 hrs
- LITR 315 - Restoration and 18th-Century Literature 3 hrs
- LITR 316 - Romantic Rebellion in Britain 1798-1832 3 hrs
- LITR 317 - Victorian and Edwardian Literature 1832-1914 3 hrs

One course from American Literature:

- LITR 309 - The Development of American Literature 3 hrs
- LITR 310 - Modern American Literature 3 hrs
- LITR 360 - Recent Trends in British and American Literature 3 hrs

One course from Major Authors:

- LITR 405 - Shakespeare 3 hrs
- LITR 413 - The Poetry of Chaucer 3 hrs
- LITR 450 - Major Authors 3 hrs

One course from Writing, Literature or Language Study:

Choose one additional course from any Restricted Electives category or from one of the following:

- CRTW 335W - Creative Writing (Gen Ed Area I, W) 3 hrs
- ENGL 323W - Writing in the Professional World (Gen Ed Area I, W) 3 hrs
- ENGL 324W - Principles of Technical Communication (Gen Ed Area I, W) 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs
- LITR 400 - Narrative in Literature and Film 3 hrs
- LITR 443 - Women in Literature 3 hrs
- LITR 480 - Studies in Literature and Culture 3 hrs
- LING 310 - African American Language 3 hrs
- LING 340 - Language and Culture 3 hrs

One course from Writing Pedagogy:

- ENGL 408W - Writing for Secondary Teachers (Gen Ed Area I, W) 3 hrs

One course from Young Adult Literature:

- CHL 455 - Adolescent Literature 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Language, Literature and Writing Majors take:

- ENGL 409 - Teaching English in the Secondary Schools 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Major Requirements: 18 hours

Choose one option from the following:

Option I: Technical Communication Courses: 18 hours

- ENGL 324W - Principles of Technical Communication (Gen Ed Area I, W) 3 hrs
- ENGL 424 - Technical Writing 3 hrs
- ENGL 427 - Technical Editing 3 hrs
- ENGL 428 - Writing Computer Documentation 3 hrs
- ENGL 444 - Writing for the World Wide Web 3 hrs
- ENGL 484W - Seminar in Written Communications (Gen Ed Area I, W) 3 hrs

Option II: Professional Writing Courses: 18 hours

- ENGL 323W - Writing in the Professional World (Gen Ed Area I, W) 3 hrs
- ENGL 424 - Technical Writing 3 hrs
- ENGL 484W - Seminar in Written Communications (Gen Ed Area I, W) 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs
- JRNL 312 - Introduction to Public Relations 3 hrs

One course from the following:

- ENGL 354 - Critical Digital Literacies 3 hrs
- ENGL 427 - Technical Editing 3 hrs
- ENGL 428 - Writing Computer Documentation 3 hrs
- ENGL 444 - Writing for the World Wide Web 3 hrs

Option III: Writing Studies Courses: 18 hours

- ENGL 328W - Writing, Style and Technology (Gen Ed Area I, W) 3 hrs
- ENGL 417 - Rhetoric and the Written Word 3 hrs
- ENGL 484W - Seminar in Written Communications (Gen Ed Area I, W) 3 hrs

One course from the following:

- ENGL 310 - Writing and Civic Literacy 3 hrs
- ENGL 354 - Critical Digital Literacies 3 hrs

One course from the following:

- ENGL 424 - Technical Writing 3 hrs
- ENGL 427 - Technical Editing 3 hrs
- ENGL 444 - Writing for the World Wide Web 3 hrs

One course from the following:

- CRTW 335W - Creative Writing (Gen Ed Area I, W) 3 hrs
- JRNL 306W - Feature Writing (Gen Ed Area I, W) 3 hrs

Restricted Elective Courses: 12 hours

Choose three courses from the following; however to fulfill this requirement, students cannot choose a course they took in their Major Requirement Option.

- CRTW 335W - Creative Writing (Gen Ed Area I, W) 3 hrs
- ENGL 310 - Writing and Civic Literacy 3 hrs
- ENGL 323W - Writing in the Professional World (Gen Ed Area I, W) 3 hrs
- ENGL 324W - Principles of Technical Communication (Gen Ed Area I, W) 3 hrs
- ENGL 326 - Research Writing 3 hrs
- ENGL 328W - Writing, Style and Technology (Gen Ed Area I, W) 3 hrs
- ENGL 354 - Critical Digital Literacies 3 hrs
- ENGL 387 - Cooperative Education in English 3 hrs
- ENGL 417 - Rhetoric and the Written Word 3 hrs
- ENGL 424 - Technical Writing 3 hrs
- ENGL 427 - Technical Editing 3 hrs
- ENGL 428 - Writing Computer Documentation 3 hrs
- ENGL 444 - Writing for the World Wide Web 3 hrs
- ENGL 488 - Internship in Technical Writing 1 hr
- ENGL 489 - Internship in Technical Writing 2 hrs
- ENGL 490 - Internship in Technical Writing 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs
- JRNL 306W - Feature Writing (Gen Ed Area I, W) 3 hrs
- JRNL 312 - Introduction to Public Relations 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

- CHL 497 - Independent Study 1 hr
- CHL 498 - Independent Study 2 hrs
- CHL 499 - Independent Study 3 hrs

Minor Total: 21 hours

Notes:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and

the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Jewish Studies (JSTS) Minor

Mission Statement

Eastern Michigan University's Interdisciplinary Jewish Studies program offers courses concerned with the history of the Jewish people, a story of survival under extraordinary circumstances. It considers the cultural and intellectual gifts Jews have given the world. It also focuses on the Jewish faith, its richness, its intricacy, its demands, as well as its complex and fascinating relationships with other religions. This program draws on faculty expertise from throughout the College of Arts and Sciences - ultimately it will draw on such expertise from throughout the university. It engages students in a wide realm of co-curricular activities including lectures and study abroad opportunities. EMU's program in Jewish Studies provides a gathering place for EMU's numerous ethnic communities to learn more about Jews and Judaism, a space to build bridges, to open and engage in discourse, to create new understandings between Jews and the many other groups that comprise the diverse culture of southeast Michigan.

Minor Total: 21 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

- JRNL 311 - Newspaper Layout and Design 3 hrs
- JRNL 312 - Introduction to Public Relations 3 hrs
- JRNL 314 - Writing for Public Relations 3 hrs
- JRNL 423 - Magazine Article Writing 3 hrs
- JRNL 453 - Advanced Reporting 3 hrs
- JRNL 454 - Contemporary Problems in Journalism 3 hrs

Minor Total: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses**

will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Phone Number for Advisers: 734.487.4220

Required Courses: 6 hours

- ENGL 300W - Writing About Literature (Gen Ed Area I, W) 3 hrs
- LING 201 - An Introduction to Linguistics 3 hrs

Restricted Elective Courses: 18 hours

One course from the following:

- CHL 208 - Multicultural Children's Literature (Gen Ed Area III) 3 hrs
- LITR 361 - Studies in Native American Literature 3 hrs
- LITR 362 - Studies in African American Literature 3 hrs

One period course from the following:

- LITR 309 - The Development of American Literature 3 hrs
- LITR 310 - Modern American Literature 3 hrs
- LITR 312 - English Literature in the Middle Ages 3 hrs
- LITR 314 - English Renaissance Prose and Poetry 1500-1660 3 hrs
- LITR 315 - Restoration and 18th-Century Literature 3 hrs
- LITR 316 - Romantic Rebellion in Britain 1798-1832 3 hrs
- LITR 317 - Victorian and Edwardian Literature 1832-1914 3 hrs
- LITR 360 - Recent Trends in British and American Literature 3 hrs

One course from major author, genre or literature and culture:

- LITR 400 - Narrative in Literature and Film 3 hrs
- LITR 405 - Shakespeare 3 hrs

- LITR 411 - Studies in Epic and Romance 3 hrs
- LITR 413 - The Poetry of Chaucer 3 hrs
- LITR 420 - Studies in the British Novel 3 hrs
- LITR 421 - Studies in the American Novel 3 hrs
- LITR 422 - Studies in the Novel in Global Perspective 3 hrs
- LITR 430 - Studies in Drama 3 hrs
- LITR 440 - Genre Studies 3 hrs
- LITR 443 - Women in Literature 3 hrs
- LITR 445 - Sexualities in Literature and Culture 3 hrs
- LITR 450 - Major Authors 3 hrs
- LITR 470 - Studies in Poetry 3 hrs
- LITR 480 - Studies in Literature and Culture 3 hrs

One Linguistics course from the following:

- LING 205 - English Words 3 hrs
- LING 310 - African American Language 3 hrs
- LING 340 - Language and Culture 3 hrs
- LING 401 - Introduction to Linguistic Science 3 hrs
- LING 402 - Modern English Grammar 3 hrs
- LING 421 - The History of the English Language 3 hrs

One writing course from the following:

- ENGL 328W - Writing, Style and Technology (Gen Ed Area I, W) 3 hrs
- ENGL 417 - Rhetoric and the Written Word 3 hrs

A second writing course from the following:

- ENGL 225 - Writing in a Changing World 3 hrs
- ENGL 323W - Writing in the Professional World (Gen Ed Area I, W) 3 hrs
- ENGL 324W - Principles of Technical Communication (Gen Ed Area I, W) 3 hrs
- ENGL 326 - Research Writing 3 hrs
- ENGL 328W - Writing, Style and Technology (Gen Ed Area I, W) 3 hrs
- ENGL 417 - Rhetoric and the Written Word 3 hrs
- JRNL 215 - News Writing and Reporting 3 hrs
- JRNL 314 - Writing for Public Relations 3 hrs

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor

- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Children's Literature

CHL 137 - Harry Potter: Literary Allusion, Children's Literature and Popular Culture (Gen Ed Area IV)

Students will read novels in J.K. Rowling's Harry Potter series; myths, legends and folktales on which they are based; and criticism written about the novels. They will focus on literary terminology, literary allusion, literary merit and the public debates about the role of the humanities in contemporary culture.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CHL 137 Harry Potter: Literary Allusion, Children's Literature & Popular Culture [was LITR137]

Since the books in the *Harry Potter* series are children's texts and a cultural phenomenon, they also have become symbols in larger cultural battles over religious values, literacy and the role of the children's literature in shaping the next generation's beliefs about gender, social class, race, imperialism, capitalism and spirituality. This makes these books an ideal model to use in a classroom to illustrate the relevance of literature and literary studies to society. A close study of these novels as complex literary works that have roots in classic literature, as cultural phenomena and as the objects of public debates can highlight for students all that is at stake in literary interpretation and cultural producing. Therefore, students in this course will explore questions such as: Do the books have literary value, or are they just commercial products? Are the books dangerous for children to read, or do they benefit children? Where is the line between literature, media and mass-produced products and should there/can there be a line? Why are these books so popular, and what does their popularity tell us about how we are and what we, as a culture, believe ourselves to be?

This engages students in current public debates about the Harry Potter novels, which can lead to an emphatic understanding of other points of view; because it will introduce students to basic literary terms and concepts and to current debates in the field; because students will be required to analyze and think critically about literary works in class discussion and in various writing assignments; and because students will be asked to develop their own interpretations of texts.

Last Updated: -

CHL 207 - Introduction to Children's Literature (Gen Ed Area IV)

A concentrated reading course designed to impart the knowledge necessary for an appreciation and understanding of children's literature and its use in the schools. In addition to reading the classics and the critically acclaimed works of both fiction and nonfiction by modern writers, students will study poetry, folklore and mythology, and examine the relationship between illustration and text. Does not count toward a major or minor in curricula for teachers in junior and senior high school.

Credit Hours: 3 hrs

Prerequisite: One 100-level LITR course

Class Restrictions: Sophomore standing

Course Revisions:

Course Revisions: This course will have a prerequisite change from "One 100-level LITR course" to "none," effective Winter 2013. The course revision also includes a class restriction change from "Sophomore standing" to "none."

Area IV: Knowledge of the Disciplines

CHL 207 Introduction to Children's Literature [was LITR 207]

Students will learn about the ways that children's literature cultivates aesthetic appreciation for both adults and children; they will learn literary terms and concepts and use these to discuss and to carefully read, research, interpret and write about works of children's literature; they will apply discursive practices of the field by completing a variety of written assignments; they will study works within social and historical contexts considering such factors as the publishing industry, printing technology, literacy development and the cultural construction of the child; and students will gain an understanding of the importance of diverse children's literatures to our culture. Students in the course will study a rich body of texts that can help to develop students' cultural literacy and knowledge of the humanities. A course introducing students to children's literature should cover not only contemporary works, but also the mythology, legends and folktales upon which many contemporary texts are based. Students also will read and study class texts from the Golden Age of children's literature such as *Alice's Adventure in Wonderland* or *The Wizard of Oz*. A necessary focus of the course is also the role of literature in a society and the ways that literature both affects and reflects cultural values: the books a culture writes for its children often reflect deeply-held beliefs about children, childhood and the role of literature their construction. Conversely, a culture's values and beliefs also are reflected in the books it chooses to keep away from its children. Therefore, the history of censorship of children's books also must be discussed and analyzed.

Last Updated: Prerequisite and Class Restriction Change 05/2012, effective Winter 2013

CHL 208 - Multicultural Children's Literature (Gen Ed Area III)

Introduction to literature for children and young adults by and about African Americans, Asian Americans, Latinos and Native Americans, including history of multicultural writing for the young; major issues of multiculturalism; historical and cultural background of each group; and critical apparatus for the selection, interpretation, and evaluation of such literature.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

CHL 208 Multicultural Children's Literature [was LITR 208]

A study of children's literature is also a study of the values, beliefs and attitudes of a society, since what adults offer to children reflects contemporary adult views. This course exposes students to multicultural literature for young readers, as well as the

history, beliefs, values and attitudes of underrepresented groups in the United States. Course design assures adequate representation of the literature by and about a wide selection of minorities in our country, with emphasis on four major cultures- African, Asian, Latino and Native Americans- as well as the diversity within each culture. Supplementary materials in history, cultural anthropology and philosophy provide a sound basis for the discussion of the literary works, but the primary focus is on the literature itself. The history of the development of multicultural literature for young readers, criteria for evaluation, literary criticism, as well as cultural authenticity are explored. Since this is an introductory course, it will also include a discussion of basic literary terms and literary criticism, as well as fundamental issues such as why we study literature, what culture means, how literature for young readers can inform us about culture, etc.

Last Updated: -

CHL 209 - Global Children's Literature (Gen Ed Area III)

Students will learn to examine critically a variety of literature for young readers from around the world, and thereby to comprehend and appreciate it. History and culture of representative nations and important political and social issues- such as human rights, war, genocide, social structure, intolerance, poverty, education and religion - will be explored. The course is designed for students who intend to work with children and young adults as teachers, librarians, parents, caregivers etc.

Credit Hours: 3 hrs

CHL 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CHL 351 - World Mythology

A study of the mythological traditions that have most significantly informed western civilization. The myths are discussed as literature and as people's attempts to understand themselves, their society and their physical environment.

Credit Hours: 3 hrs

Prerequisite: any 200-level LITR course

Course Revisions:

Course Revisions: This course will have a prerequisite change from "any 200-level LITR course" to "none," effective Winter 2013.

Last Updated: Prerequisite Change 05/2012, effective Winter 2013

CHL 352 - Folk Literature: Ballads and Folk Tales

A reading course in the traditional ballads and folk tales of Europe and North America with emphasis on those that appear in children's literature. Applies toward minor in children's literature only, but may be taken as a free elective.

Credit Hours: 3 hrs

Prerequisite: any 200-level LITR course

Course Revisions:

Course Revisions: This course will have a prerequisite change from "any 200-level LITR course" to "none," effective Winter 2013.

Last Updated: Prerequisite Change 05/2012, effective Winter 2013

CHL 353 - Genders and Sexualities in Literature for Young Readers

Students in this course will read, discuss, research and write about works of literature written for children and young adults and focused on issues of sexuality and gender.

Credit Hours: 3 hrs

Cross-Listed with: WGST 353

Last Updated: New Course, 11/2012, effective Winter 2013

CHL 450W - Children's Literature: Criticism and Response (Gen Ed Area I, W)

Practical criticism of children's literature, prose and poetry, designed to help students develop critical judgment and a clear prose style. Applies toward the minor in children's literature and the interdisciplinary major in children's literature and drama/theatre for the young.

Credit Hours: 3 hrs

Prerequisite: CHL 207

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CHL 451W - Writing about Controversy in Literature for the Young (Gen Ed Area I, W)

This course will deal with strategies for the collection, organization and presentation of materials dealing with controversial issues in literature for young adults.

Credit Hours: 3 hrs

Prerequisite: ENGL 121 and CHL 207 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CHL 453 - Illustrated Texts: Picture Books, Comics, and Graphic Novels

Course examines different kinds of illustrated texts written for audiences of young readers, including picture books, comics, graphic novels and illustrated novels. Students will learn about the history of and development of the genres and will learn terms and concepts to enable them to analyze complex interactions between words and images.

Credit Hours: 3 hrs

Last Updated: 6/29/2011

CHL 454 - Children's Literature: Fiction

An intensive study of major works of fiction for children with emphasis placed upon literary criticism, textual analysis and wide reading. Students will write papers, present oral reports and be tested regularly.

Credit Hours: 3 hrs

Last Updated: -

CHL 455 - Adolescent Literature

This course provides a forum for intense reading, discussion and exploration of the texts and issues associated with adolescent literature.

Credit Hours: 3 hrs

Prerequisite: CHL 207 or ENGL 300W

Last Updated: Links 04/2011

CHL 456 - Jewish Children's and Adolescent Literature

Students in this course will read and write about broad range of literary texts for children and adolescent readers written in or translated into English and chronicling the Jewish experience around the world.

Credit Hours: 3 hrs

Last Updated: New Course, 11/2012, effective Winter 2013

CHL 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the teacher and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 3 hrs

Prerequisite: nine hours in the appropriate major or minor

Creative Writing

CRTW 201 - Introduction to Creative Writing (Gen Ed Area IV)

A writing workshop introducing the basic forms and methods of poetry and fiction, through student writing projects, workshop discussions and the reading of contemporary creative work in these genres.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

CRTW 201 Introduction to Creative Writing

This course is a workshop in creative writing. Students acquire basic knowledge in the practice and evaluation of poetry and fiction, as well as in the use of literary vocabularies and techniques. Literary models will inspire and direct students' own creative writing and inquiry into the relationship between form and content and between critical and creative thinking. The discipline of creative writing as a field of art, one continuous with other arts, will be stressed in the course by focusing on the process of creativity and procedures for generating new writing. We expect students to experiment in forms and to explore the genres of

fiction and poetry, including the ground between them. We also encourage students to find forums and audiences for their creative work by editing and printing small collections of writing and by reading, exhibiting and performing their creative work.

CRTW 300 - Gateway to the Creative Writing Program (NEW COURSE)

This course is the point of entry for the Major and Minor in Creative Writing. The course is tailored specifically to equip students with the tools they need to succeed in upper division Creative Writing workshops, practicums and reading courses, as well as in the Capstone project. Topics include: theory and practice, formal innovation, interdisciplinarity, among others.

Credit Hours: 3 hrs

Prerequisite: CRTW 201

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

CRTW 335W - Creative Writing (Gen Ed Area I, W)

The study and practice of the techniques of creative writing, CRTW 335 focuses on a specific topic or approach to creative writing. Workshops of student writing, creative and critical responses to readings, and attendance at literary and artistic events on campus will be required.

Credit Hours: 3 hrs

Prerequisite: CRTW 300

Course Revisions:

Course Revisions: This course will have a prerequisite change from "CRTW 201" to "CRTW 300," effective Winter 2013.

Last Updated: Prerequisite Change 10/2012, effective Winter 2013; Links 04/2011

CRTW 422W - Writer's Workshop (Gen Ed Area I, W)

An advanced seminar workshop in a specific genre, sub-genre or approach to creative writing, CRTW 422W is designed to focus equally on student writing and examination of contemporary literary practices. This class is offered in a variety of topics and may be repeated for additional credit if topic is different.

Credit Hours: 3 hrs

Prerequisite: CRTW 335W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

CRTW 426 - Contemporary Forms

An advanced, reading-intensive course on contemporary and innovative forms of literature, emphasizing structural models, formal techniques and redefinitions of literary conventions.

Credit Hours: 3 hrs

Prerequisite: CRTW 422W and any 200- or 300-level LITR course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Prerequisite Change 10/2011, effective Winter 2012; Graduate Credit 07/2011; Links 04/2011

CRTW 490 - Capstone Project (NEW COURSE)

Students in this course will create and complete capstone requirements for creative writing majors and gain experience in presenting their work to audiences.

Credit Hours: 3 hrs

Prerequisite: CRTW 201, CRTW 300, CRTW 335W and CRTW 422W

Concurrent Prerequisite: After completing all of the above, students may take additional classes in CRTW 335W and CRTW 422W concurrently with CRTW 490

Class Restrictions: Senior standing and above

Major Restrictions: Creative Writing students only

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

English Composition

ENGL 120 - Composition I: Writing the College Experience

Introduces use of writing and reading for inquiry. Students write extended essays about subjects relevant to the college experience using conventions of standard written English; assignments may also incorporate other genres and styles. Emphasis is placed on using writing and reading as a process for discovery, and on communicating ideas to audiences.

Credit Hours: 3 hrs

ENGL 121 - Composition II: Researching the Public Experience (Gen Ed Area I)

Focuses on academic writing and inquiry. Students use multiple modes of research to develop literacy used in academic and other public contexts. Through extended reading and writing, students engage in the process of writing researched essays that reflect conventions of standard written English and standard documentation styles.

Credit Hours: 3 hrs

Area I: Effective Communication

ENGL121 Composition II: Research and Writing the Public Experience or *waiver*

In English 121, EMU students develop the foundation for writing, research and critical thinking strategies that they will use throughout their college careers and in the workplace. Writing is both a means of communication, and a tool for developing new ideas. Good writers are flexible. They know how to assess the expectations of a variety of audiences with whom they want to communicate and how to draw on or develop different strategies to meet those expectations. Good writers also understand that different kinds of writing have different conventions and they can move fluidly between those conventions. English 121 students develop these strategies that are key to effective communication throughout the course. Students write between 50-70 pages of draft work and between 20-30 pages of polished, final-draft work during the course of the semester, and that work is supported and directed by frequent feedback from the instructor.

ENGL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ENGL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ENGL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ENGL 225 - Writing in a Changing World

Students will analyze and produce writing intended to affect change in particular contexts. Writing in the course will include analysis of and reflections on contexts, genre features and audiences for writing. The course will culminate in a document reflecting understanding of these issues, preferably for an audience beyond the class.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Class Restrictions: Sophomore or Graduate standing

Last Updated: Links 04/2011

ENGL 277 - Special Topics

An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: ENGL 121

Last Updated: Links 04/2011

ENGL 278 - Special Topics

An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: ENGL 121

Last Updated: Links 04/2011

ENGL 279 - Special Topics

An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Last Updated: Links 04/2011

ENGL 300W - Writing About Literature (Gen Ed Area I, W)

An intermediate writing course that introduces students to a variety of critical practices in the study of literature and that teaches the conventions of writing about literature by focusing on reading and writing as interrelated activities.

Credit Hours: 3 hrs

Prerequisite: 6 hours of Humanities General Education coursework

Previously Listed As: ENGL 300

Last Updated: Links 01/2012

ENGL 307 - Writing Process for Elementary Teachers

A course integrating writing in various genres, editing with the conventions of grammar and usage, and teaching with writing-to-learn, reflection, and authentic assessment. Students will develop a writing portfolio and investigate strategies for teaching writing in the elementary classroom.

Credit Hours: 3 hrs

Major Restrictions: Language Arts Major, Language Arts Group Minor, and Elementary and Special Education—Elementary Teacher Certification students only

Notes: This course is typically offered fall, winter and spring or summer semesters

Last Updated: Prerequisite Change 06/2011, effective Summer 2011

ENGL 310 - Writing and Civic Literacy

An examination of the role of writing and rhetoric in shaping an informed public. Students use writing and related media to explore, analyze and advocate on issues of public concern. Emphasizes Literacy as the art and responsibility of contemporary citizenship.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Class Restrictions: Junior standing (Sophomore standing with restrictions)

Last Updated: Links 04/2011

ENGL 323W - Writing in the Professional World (Gen Ed Area I, W)

Prepares juniors and seniors majoring in education, the humanities and the social sciences to write in their profession.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Class Restrictions: Junior standing or higher

Previously Listed As: ENGL 323

Last Updated: Gen Ed Approval 5/2012; Links 01/2012

ENGL 324W - Principles of Technical Communication (Gen Ed Area I, W)

A course for juniors and seniors who wish to study the style and focus of communication that is particularly appropriate to the fields of science and technology.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Class Restrictions: Junior or Graduate standing

Previously Listed As: ENGL 324

Last Updated: Gen Ed Approval 5/2012; Links 04/2011

ENGL 326 - Research Writing

A course designed to explore the strategies, format and styles of writing appropriate for academic research with emphasis on the student's own field of study.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Class Restrictions: Sophomore or Graduate standing

Last Updated: Links 04/2011

ENGL 328W - Writing, Style and Technology (Gen Ed Area I, W)

An advanced writing course that explores a range of styles for multiple purposes, audiences and technologies. Applications of word processing, on-line discussion and Internet resources will be integrated with writing assignments.

Credit Hours: 3 hrs

Prerequisite: JRNL 215, ENGL 225, ENGL 300W, ENGL 323W, ENGL 324W or ENGL 326

Previously Listed As: ENGL 328

Last Updated: Gen Ed Approval 5/2012; Links 04/2011

ENGL 354 - Critical Digital Literacies

This course engages students in examining the new literacy practices of digital writing forums and technologies in concert with projects where they employ, learn and experience new digital writing technologies.

Credit Hours: 3 hrs

Prerequisite: ENGL 121

Class Restrictions: Sophomore standing

Last Updated: Links 04/2011

ENGL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ENGL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ENGL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ENGL 387 - Cooperative Education in English

Employment for pay in a business or industry chosen to provide practical experience in the use of English skills. Work experiences generally are alternated with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: Admittance by application only

Class Restrictions: Junior standing

ENGL 408W - Writing for Secondary Teachers (Gen Ed Area I, W)

A writing course for students preparing to teach in various disciplines in secondary schools. Students develop their skills as writers and learn how to teach writing in all content areas. Special focus on recent composition research, theory, and practices, and on strategies, materials and evaluation techniques.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W, ENGL 328W and admission to the Initial Teacher Preparation Program or permission of the instructor. Note: 10-hour practicum required - see instructor.

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: ENGL 408W - Writing for Writing Teachers

Course Revisions:

Course Revisions: This course will have a title change from "Writing for Writing Teachers" to "Writing for Secondary Teachers," effective Winter 2013. The revision also includes a course description change and a prerequisite change from "ENGL 300W, ENGL 328W and admission to the Initial Teacher Preparation Program. Note: 10-hour practicum required - see instructor" to "ENGL 300W, ENGL 328W and admission to the Initial Teacher Preparation Program or permission of the instructor. Note: 10-hour practicum required - see instructor."

Last Updated: Title, Description and Prerequisite Change 10/2012, effective Winter 2013; Graduate Credit 07/2011; Links 04/2011

ENGL 409 - Teaching English in the Secondary Schools

For secondary English education majors with focus on appropriate methods and materials for teaching language arts in grades 7-12. Special attention will be given to lesson planning, evaluation techniques and classroom management.

Credit Hours: 3 hrs

Prerequisite: CURR 305, LING 201 and one LITR course at the 300-level; taken the term before student teaching; not open to students on academic probation; must have at least a 2.75 GPA in major; admission to the Initial Teacher Preparation Program

Concurrent Prerequisite: ENGL 408W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ENGL 417 - Rhetoric and the Written Word

An advanced course introducing students to the concepts, principles, and approaches to classical and contemporary rhetoric and their relationship to today's written media.

Credit Hours: 3 hrs

Prerequisite: at least one 200-or-300-level ENGL course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ENGL 424 - Technical Writing

An advanced workshop that prepares students to communicate, particularly to write, on the job.

Credit Hours: 3 hrs

Prerequisite: ENGL 324W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ENGL 427 - Technical Editing

Editing of technical material for publication. Principles of style, format, graphics layout and publication management.

Credit Hours: 3 hrs

Prerequisite: ENGL 324W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ENGL 428 - Writing Computer Documentation

An advanced writing course that introduces students to the principles of designing, preparing and testing documents common in the computer industry, particularly software documentation for users.

Credit Hours: 3 hrs

Prerequisite: COSC 101 and ENGL 324W or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ENGL 444 - Writing for the World Wide Web

An advanced writing course focused on composing documents for publication on the World Wide Web and other electronic spaces, such as interactive CD-ROMs.

Credit Hours: 3 hrs

Prerequisite: ENGL 121 and ENGL 225, ENGL 300W or any 300-level ENGL class

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ENGL 477 - Special Topics

An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: ENGL 121 and one writing course at the 200-level or above or department permission

Last Updated: Links 04/2011

ENGL 478 - Special Topics

An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: ENGL 121 and one writing course at the 200-level or above or department permission

Last Updated: Links 04/2011

ENGL 479 - Special Topics

An examination of topics in English not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: ENGL 121 and one writing course at the 200-level or above or department permission

Last Updated: Links 04/2011

ENGL 484W - Seminar in Written Communications (Gen Ed Area I, W)

A seminar requiring students to assess their progress in the major and to consider how their beliefs and practices concerning written communications relate to larger social and rhetorical considerations.

Credit Hours: 3 hrs

Prerequisite: ENGL 424

Previously Listed As: ENGL 484

Last Updated: Gen Ed Approval 5/2012; Links 04/2011

ENGL 487 - Cooperative Education in English

Employment for pay in a business or industry chosen to provide practical experience in the use of English skills. Work experiences generally are alternated with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: Admittance by application only

Class Restrictions: Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

ENGL 488 - Internship in Technical Writing

Optional, practical on-the-job work experience for recommended students electing an opportunity provided by the department or finding an appropriate outside opportunity subsequently approved by the intern supervisor; paid or non paid. One hour credit for 10-15 hours per week; two hours for 16-25 hours; three hours for 26 and above.

Credit Hours: 1 hr

Prerequisite: Recommendation of technical writing professor; ENGL 324W and cumulative 3.0 GPA

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

ENGL 489 - Internship in Technical Writing

Optional, practical on-the-job work experience for recommended students electing an opportunity provided by the department or finding an appropriate outside opportunity subsequently approved by the intern supervisor; paid or non paid. One hour credit for 10-15 hours per week; two hours for 16-25 hours; three hours for 26 and above.

Credit Hours: 2 hrs

Prerequisite: Recommendation of technical writing professor; ENGL 324W and cumulative 3.0 GPA

Class Restrictions: Junior or Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

ENGL 497 - Independent Study

An intensive study of a topic not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the teacher and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 1 hr

Prerequisite: nine hours in the appropriate major or minor

ENGL 498 - Independent Study

An intensive study of a topic not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the teacher and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 2 hrs

Prerequisite: nine hours in the appropriate major or minor

Journalism and Public Relations

JRNL 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

JRNL 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

JRNL 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

JRNL 201 - Public Relations and Public Responsibility (Gen Ed Area IV)

An examination of professional responsibility in the context of public relations and business theory and practices. Throughout this course, students will examine various ethical questions and issues as they draw on a wide variety of sources including social science and management theories and models.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

JRNL 201 Public Relations & Public Responsibility

This course provides an introduction to a variety of social science methodologies while emphasizing the unique contribution and impact of public relations and business ethics on organizations, institutions, society and culture. In pursuit of that aim, students will study the various misconceptions about the practice of public relations, recognizing that many people hold varying definitions of the profession. Students will move from their widely held definitions of public relations to studying and investigating the social functions of public relations- on their way to understanding the all-inclusive and ethical roles public relations practitioners serve throughout our society in numerous different sectors- and how public relations ethics affect power relations and social change in society.

JRNL 213 - Introduction to Journalism (Gen Ed Area IV)

An exploration of the role and responsibility of journalism in American Society. Using historical context as well as contemporary media research and theory, the course examines the practices, obligations, and freedom of news producers, while focusing on the evolving responsibility of citizens in a democracy to become critical consumers of an participants in journalism. Student media

research.

Credit Hours: 3 hrs

Last Updated: 03/2011

JRNL 215 - News Writing and Reporting

An introduction to newspaper reporting. Learning to gather information and to write in an approved journalistic style. Courses offer practical instruction and working exercises in interviewing, news story development, lead writing and editing skills. Substantial use of computer lab.

Credit Hours: 3 hrs

JRNL 277 - Special Topics

An examination of topics in journalism not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 1 hr

Class Restrictions: Sophomore standing

JRNL 278 - Special Topics

An examination of topics in journalism not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 2 hrs

Class Restrictions: Sophomore standing

JRNL 279 - Special Topics

An examination of topics in journalism not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing

JRNL 305 - Editorial, Column, and Review Writing

Writing of interpretive articles, editorials, reviews and columns. Aimed at developing the student's critical faculties, it includes the study of public opinion and efforts to change it, the principles of argument and persuasion, and the aesthetic principles guiding cultural criticism.

Credit Hours: 3 hrs

Prerequisite: JRNL 215

Last Updated: Links 04/2011

JRNL 306W - Feature Writing (Gen Ed Area I, W)

Writing of feature and interpretive articles for newspapers and magazines. Emphasis is on idea generation, research, interviewing, narrative technique and organization of longer articles.

Credit Hours: 3 hrs

Prerequisite: JRNL 215

Last Updated: Links 03/2011

JRNL 307 - Copy Editing

Editing news articles for publication. Students learn style (Associated Press) and grammar in detail. Also study techniques for improving stories by tightening, checking accuracy and protecting against legal and ethical problems. Includes headline writing.

Credit Hours: 3 hrs

Prerequisite: JRNL 215

Last Updated: Links 04/2011

JRNL 309 - Sports Writing

A sports writing and reporting course that introduces students to the theory and practice of covering athletic events and sports controversies, interviewing players and coaches and writing under deadline pressure.

Credit Hours: 3 hrs

Prerequisite: JRNL 215

Last Updated: Links 04/2011

JRNL 310 - Digital Journalism

This course focuses on the recent history and current theories relevant to the digital news environment and the development of effective writing and reporting practices. Students also learn to use and enjoy technical tools and develop a dynamic understanding of the rhetorical, technical and aesthetic conventions of digital media.

Credit Hours: 3 hrs

Prerequisite: JRNL 213 and JRNL 215

Last Updated: Links 04/2011

JRNL 311 - Newspaper Layout and Design

Hands-on study of newspaper layout, design, pagination, and production. Emphasis is on presentation of the written word, photographs and graphics, using current newsroom publishing standards and software.

Credit Hours: 3 hrs

Prerequisite: JRNL 215

Last Updated: Links 04/2011

JRNL 312 - Introduction to Public Relations

Definition, historic aspects, evolution and ethics of public relations; the practical use of public relations by corporations, not-for-profit organizations, businesses, institutions and government; correlation of written, oral and visual skills.

Credit Hours: 3 hrs

Prerequisite: JRNL 215 and CTAC 124

Last Updated: Links 04/2011

JRNL 313 - History of American Journalism

A survey of the evolution of journalism in the United States and how journalism both has influenced and been influenced by the larger history of America. Emphasis is placed on the history of newspaper and magazine journalism and on key journalists of enduring importance.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing

JRNL 314 - Writing for Public Relations

Practical experience in writing press releases, broadcast announcements, speeches and scripts to present a project or product; preparing brochures, newsletters, annual reports, memos and proposals; implementing public relations campaigns.

Credit Hours: 3 hrs

Prerequisite: JRNL 312

Last Updated: Links 04/2011

JRNL 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

JRNL 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

JRNL 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

JRNL 387 - Cooperative Education in Journalism/Public Relations

Employment for pay in the print media, public relations or publishing fields to provide practical experience for skills learned in the classroom. Work experiences generally are alternated with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: Admittance by application to the Cooperative Education Office and recommendation approved by a journalism professor

Class Restrictions: Junior or Senior standing

JRNL 408W - Case Studies in Public Relations (Gen Ed Area I, W)

Solving problems and managing controversy in the day-to-day pursuit of public relations; legal considerations; crisis communication; professionalism and public responsibility in public relations.

Credit Hours: 3 hrs

Prerequisite: JRNL 314

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

JRNL 423 - Magazine Article Writing

A writing course to develop skills in researching, writing and marketing nonfiction articles longer and more complex than newspaper feature stories. Emphasis is on individual completion of articles of professional quality.

Credit Hours: 3 hrs

Prerequisite: ENGL 328W or JRNL 306W

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

JRNL 453 - Advanced Reporting

Researching and writing news stories dealing with complex topics including courts, politics, government, finance, labor and education. Emphasis is on journalistic initiative and investigative reporting.

Credit Hours: 3 hrs

Prerequisite: JRNL 215

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

JRNL 454 - Contemporary Problems in Journalism

Emphasis on student investigation, reporting and writing on selected ethical problems in the media industry, such as conflicts between advertising and editorial content and actual or perceived conflicts of interest between journalists and people they cover. Emphasis on conducting in-depth studies of major social issues and quality of media coverage.

Credit Hours: 3 hrs

Class Restrictions: Junior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

JRNL 455 - Journalism Law and Ethics

An advanced professional course exploring legal and ethical issues surrounding journalism. Topics will include defamation of character, invasion of privacy, copyright, conflicts between the press and the courts, hate speech, obscenity, access to government records, broadcast regulations and various forms of censorship, as well as conflicts of interest, fairness and professional conduct.

Credit Hours: 3 hrs

Class Restrictions: Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

Credit Hours: 2 hrs

Prerequisite: Recommendation of journalism professor

Class Restrictions: Junior or Senior standing

JRNL 490 - Internship in Journalism/Public Relations

Optional, practical on-the-job work experience for recommended students electing an opportunity provided by the department or finding an appropriate outside opportunity subsequently approved by the intern supervisor; paid or nonpaid. One hour credit for 10 hours work per week; two hours for 11-17 hours; three hours for 18 and above.

http://www.emich.edu/english/journalism/career_resources.php

Credit Hours: 3 hrs

Prerequisite: Recommendation of journalism professor

Class Restrictions: Junior or Senior standing

JRNL 497 - Independent Study

Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the instructor and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 1 hr

Prerequisite: nine hours in the appropriate major or minor

JRNL 498 - Independent Study

Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the instructor and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 2 hrs

Prerequisite: nine hours in the appropriate major or minor

JRNL 499 - Independent Study

Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the instructor and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 3 hrs

Prerequisite: nine hours in the appropriate major or minor

Linguistics

LING 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LING 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LING 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LING 201 - An Introduction to Linguistics

An introduction to phonology, morphology, syntax, the lexicon, semantics, sociolinguistics, psycholinguistics and other concerns.

Credit Hours: 3 hrs

Class Restrictions: Sophomore standing

LING 205 - English Words

Principles of sound, form and meaning relationships facilitate the student's mastery of word structure, spelling, use and comprehension in a language science approach to the analysis of native English words and the foreign vocabulary that is frequently used in English speech and writing. Addresses linguistic, social, historical and other factors in the development of English, fostering greater linguistic sophistication and appreciation for the richness of the English language.

Credit Hours: 3 hrs

LING 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LING 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LING 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LING 310 - African American Language

A survey of the history of African American language from African origins to the present day. Details of the structure (i.e. sounds, words, sentence and discourse patterns) of African American English and its functions in American culture, from everyday language use to its employment in literature and other verbal arts. Special attention is paid to issues resulting from contact between different language varieties and the pervasiveness of linguistic diversity in the U.S. and around the world.

Credit Hours: 3 hrs

Prerequisite: LING 201 or LNGE 223 or AAS 101

Last Updated: Links 04/2011

LING 322 - Languages of the World

A survey of the variety of language and language groups of the world. Topics covered include: origins of human language, language relationships, the ways language changes and why, unusual writing systems and linguistic exotica.

Credit Hours: 3 hrs

LING 340 - Language and Culture

An introduction to a linguistic view of language and the ways it is influenced by the cultural and social context. Topics covered may include, but are not limited to: argots, jargon, metaphor, names, kinship systems, cross-cultural communication, ethnography of communication, dialectology and sociolinguistics, language and ethnicity, and language and gender.

Credit Hours: 3 hrs

Prerequisite: ANTH 135 or LING 201 or LNGE 223

Cross-Listed with: ANTH 340

Previously Listed As: ENG 340

Last Updated: Cross-listed Course Update 01/2012; Links 04/2011

LING 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

LING 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

LING 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

LING 401 - Introduction to Linguistic Science

An introduction to linguistic theory and analytical procedures. Students will apply theoretical principles to problems of phonological and syntactic analysis.

Credit Hours: 3 hrs

Prerequisite: LING 201 or LING 223

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LING 402 - Modern English Grammar

An introduction to the grammar of modern English: problems in the description and analysis of English grammar.

Credit Hours: 3 hrs

Prerequisite: Junior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

LING 415 - Women and Language

This course analyzes the way that gender is reflected in language structure and linguistic behavior, in both English and other languages. It will consider such topics as gender-related vocabulary and morphology, gender differences in discourse styles and the question of whether gender-related language differences have neurological correlates or are exclusively social in origin.

Credit Hours: 3 hrs

Prerequisite: a 200-, 300- or 400-level LING course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

LING 420W - Introduction to Phonetics and Phonology (Gen Ed Area I, W)

An introduction to articulatory and acoustic phonetics and to the basic principles and methodology of phonological analysis.

Credit Hours: 3 hrs

Prerequisite: LING 401

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Previously Listed As: LING 420

Last Updated: Gen Ed Approval 5/2012; Graduate Credit 07/2011; Links 04/2011

LING 421 - The History of the English Language

A study of the development of the language from its earliest stages to the present with attention to social influences as well as matters of sound, word formation and sentence structure.

Credit Hours: 3 hrs

Prerequisite: LING 201 or LING 401

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LING 425W - Introduction to Syntax (Gen Ed Area I, W)

The development of a base in syntactic theory, learning both the mechanisms of a transformational grammar and the argumentation used in syntactic analysis.

Credit Hours: 3 hrs

Prerequisite: LING 401

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 02/2011 effective Fall 2011

LING 426 - Topics in Linguistics

Advanced study in specific areas of linguistics for which the department does not regularly offer a course. The area to be studied will vary and will be determined by the field of specialization of the staff members and by student interest. This course may be taken more than once, provided the topics are different.

Credit Hours: 3 hrs

Prerequisite: a 200-, 300- or 400-level LING course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

LING 434 - The Linguistic Analysis of Literature

Examination of the linguistic knowledge which allows readers to recognize certain literary effects. Consideration of point of view shift, foregrounding, narrative time movement, presupposition and other aspects of literary interpretation.

Credit Hours: 3 hrs

Prerequisite: a 200-, 300- or 400-level LING course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

LING 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LING 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

LING 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

LING 497 - Independent Study

Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the instructor and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 1 hr

Prerequisite: nine hours in the appropriate major or minor

LING 498 - Independent Study

Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the instructor and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 2 hrs

Prerequisite: nine hours in the appropriate major or minor

LING 499 - Independent Study

Study of topics not offered in the regular curriculum, the particular topic to be defined (and credit hours set) by the instructor and student, subject to approval by the curriculum committee. Restricted to students taking majors or minors in the English Language and Literature Department.

Credit Hours: 3 hrs

Prerequisite: nine hours in the appropriate major or minor

Literature

LITR 100 - Worlds on the Page: An Intro to LIT (Gen Ed Area IV)

An introduction to the techniques of critical reading with equal emphasis on prose fiction, poetry and drama. Development of a fundamental understanding and enjoyment of reading.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

LITR 100 Reading of Literature

Literature captures the hopes, politics, emotions and ideals not just of individuals, but of generations. Reading literature provides a window into cultures past. It also reveals how creative expressions can shape individual and community understandings of the world in which we live. Literature 100 is designed to cultivate students appreciation of literary texts by providing a context to learn about the formal and historical features of different kinds of poems, plays and works of fiction. This class introduces terms important for the critical understanding of poetry, drama and fiction as imaginative literary forms. It also helps students analyze poems, plays and stories as products of the cultures that produced them and as texts that have impacted and influenced societies. Because the course focuses on different types of literature in historical contexts, students will gain a nuanced understanding of the cultural meaning of poetry, drama and fiction and learn to interpret literary texts as complex social practices that are also meaningful as human art.

LITR 101 - Imaginary Worlds: An Intro to Fiction (Gen Ed Area IV)

Reading and critical analysis of prose fiction intended to deepen the student's understanding and enjoyment of prose fiction.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

LITR 101 Reading of Literature: Fiction

Fiction draws readers in by presenting compelling characters, engaging situations or familiar human problems. Whether the worlds in fiction feel comfortably realistic or expand a reader's horizons with their newness, fiction remains popular for its ability to explore the boundaries of human possibility. Literature 1010 is designed to cultivate students' appreciation of prose fiction by providing a context to learn about the formal and historical features of different kinds of short stories and novels. This class introduces terms important for the critical understanding of fiction as an imaginative literary form. It also helps students analyze the plots, character and setting of fiction not only as windows into the themes of the texts but as literary works that have impacted and influenced the on-going traditions of Western literature. Because the course focuses on different types of fiction in historical contexts, students gain a nuanced understanding of the cultural meaning of fiction and learn to interpret these texts as a complex social practice meaningful as human art.

LITR 102 - Metaphor Matters: An Intro to Poetry (Gen Ed Area IV)

Reading and critical analysis of poetry intended to deepen the student's understanding and enjoyment of poetry.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

LITR 102 Reading of Literature: Poetry

Literature 102 provides an overview of key elements poets consider while writing and readers consider when reading poetry-including imagery, voice, tone, rhythm and poetic forms. It is designed to introduces students to poetry by a wide range of writers living at different historical moments, discussing the relationship between culture and literature as well as offering a vision of

how poetry changes over time. Literature 102 will help students learn to analyze poetry not only in terms of its form and its ideas but also as an art form with implications for the development of and/or response to culture.

LITR 103 - All the World's a Stage: An Intro to Drama (Gen Ed Area IV)

Reading and critical analysis of drama intended to deepen the student's understanding and enjoyment of drama.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

LITR 103 Reading of Literature: Drama

Drama, perhaps more than any other literary form, brings the written word to life. On stage, actors offer an audience an interpretation of a play. In writing, drama offers readers a chance to imagine themselves as other people and to examine the consequences of making choices in situations that might otherwise feel foreign. The result of reading drama thus can often be greater understanding of both oneself and others. Literature 103 is designed to cultivate students' appreciation of dramatic literature by giving them a context to learn about the formal and historical features of different kinds of plays and theatrical texts. This class gives students terms important for the critical understanding of drama as an imaginative literary form. It also helps students analyze the plots, character and setting of drama not only as windows into the themes of the plays but as literary works that have impacted and influenced the on-going traditions of literature. Because the course focuses on different types of drama in historical contexts, students gain a nuanced understanding of the cultural meaning of drama and learn to interpret drama as a complex social practice meaningful as human art.

LITR 106 - Rome and America (Gen Ed Area IV)

A comparison of the people and culture of ancient Rome and modern America, considering individual hopes and ideals, religious beliefs and ideas about death, government, morality, love and sex. Team taught by a member of the English Department and a classicist.

Credit Hours: 6 hrs

Cross-Listed with: CLAS 106

Area IV: Knowledge of the Disciplines

LITR 106 Rome & America (Honors ONLY) [effective Spring 2008]

This course introduces students to the humanities disciplines of the study of American literature and of ancient Roman literature. By its strong emphasis on comparative analysis, the course facilitates a clear understanding of the literary concept of genre (e.g., satire, epic, lyric, novel, etc.). Besides issues of literary theory, the course also encourages the appreciation of continuity in major themes, such as the definition of "heroism" or of the "successful" life, the gender system of the relevant cultures, and social class distinctions, as well as the techniques (e.g., parody, irony, allegory, symbolism, etc.) common to the literatures of classical Roman antiquity and present-day American. By examining literary works from two cultures remote in time and place from each other, students learn to grasp and evaluate what is traditional and what is innovative in each.

Last Updated: Links 04/2011

LITR 150 - Humanity and Technology

A brief study of distinctive and influential perceptions of the impact of technology on human values just after the first Industrial Revolution, with critical emphasis on problems concerning the use of special, refined technologies. Primary readings from Thoreau, Mark Twain, Henry Adams, Aldous Huxley, Lewis Mumford and Garrett Hardin. This course satisfies one literature requirement.

Credit Hours: 3 hrs

Notes: See honors humanities courses.

LITR 160 - African American Literature (Gen Ed Area III, IV)

This course introduces students to the study of African American literature, thought and cultural practices through an examination of the oral traditional, texts, music and visual arts of African Americans and other peoples of the African diaspora. Readings include oral narratives, fiction, poetry, drama, autobiography, political treatises and essays from 1619 to the present.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

LITR 160 African American Literature [was LITR 260]

Literature 160 introduces students to the study of African American literature, thought and cultural practices through an examination of the oral traditions and literary texts of African Americans. Throughout the study of spoken stories and written texts we will also examine the formation and expression of African American identity in relation to Europeans and other non-white ethnic groups. The class will explore the legacy of slavery in its many forms, including disenfranchisement, racial and economic segregation and the history of violence against African Americans, as well as the struggle of African Americans to be recognized as an integral political and cultural presence within the United States. Through the reading, discussion and analysis of African American literature, we will examine the development of this literary tradition and the histories, philosophies and sociological and cultural practices of African Americans.

Area IV: Knowledge of the Disciplines

LITR 160 African American Literature [was LITR 260]

Literature 160 introduces students to the study of African American literature, thought and cultural practices through an examination of the oral traditions and literary texts of African Americans. Through the study of spoken stories and written texts we will also examine the formation and expression of African American identity in relation to Europeans and other non-white ethnic groups. The class will explore the legacy of slavery in its many forms, including disenfranchisement, racial and economic segregation and the history of violence against African Americans, as well as the struggle of African Americans to be recognized as an integral political and cultural presence within the United States. Through the reading, discussion and analysis of African American literature, we will examine the development of this literary tradition and the histories, philosophies and sociological and cultural practices of African Americans.

LITR 161 - Native American Literature (Gen Ed Area III, IV)

A course in the oral and written literature of Native American cultures — emphasizing memoirs, essays, fiction, poetry, drama and film of the 20th and 21st centuries — examined within their cultural and historical contexts. This course will promote and understanding of traditional Native world views, as well as examine the impact of Native peoples' contact with other cultures.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

LITR 161 Native American Literature [was LITR204]

Literature 161 will study the oral and written literature's of Native American cultures, with emphasis upon the authored memoirs, essays, fiction, poetry and film of the twentieth and twenty-first centuries. Students will read and become familiar with a range of oral traditional and 19th, 20th and 21st century texts by Native American writers from a variety of Native North American cultures, and they should be able to identify continuities between oral traditional and contemporary Native texts. Texts studied

will be examined within their cultural and historical contexts. This course will promote an understanding of traditional Native world views, in conjunction with an awareness of the ways in which the ongoing legacy of colonialism and contact with other cultures have impacted Native peoples, and it will explore current debates and issues in the field of Native American studies. Through their exposure to Native literatures, students should become more sensitive to and understanding of other cultures. They should also be aware of their own cultural views and the impact that those views have on other cultures. Students should more readily recognize stereotypes about Native Americans and other groups of peoples. In general, they should become better world citizens through their development of critical thinking skills about cross-cultural issues. Students will be encouraged to make connections to the local Native American community by attending PowWows and other available events. Through their studies, students will gain an appreciation of the rich diversity, strength and beauty in Native cultures and literary traditions.

Area IV: Knowledge of the Disciplines

LITR 161 Native American Literatures [was LITR 204]

Literature 161 will study the oral and written literatures of Native American cultures, with emphasis upon the authored memoirs, essays, fiction, poetry and film of the twentieth and twenty-first centuries. Students will read and become familiar with a range of oral traditional and 19th, 20th and 21st century texts by Native American writers from a variety of Native North American cultures, and they should be able to identify continuities between oral traditional and contemporary Native texts. Texts studied will be examined within their cultural and historical contexts. LITR 163 - Jewish-American Literature and Culture (Gen Ed Area III)

This course examines the complex position of Jews in America — considering minority status, assimilation and cultural history of Jewish population — by focusing on poetry, prose and drama that reflects awareness of both an oppressive European past and a desire to move forward in the vibrant intellectual life of the 20th and 21st centuries.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

LITR 163 Introduction to Jewish American Literature [was LITR279]

Introduction to Jewish American Literature asks students to consider what kinds of contributions Jews have made to American life, and what kinds of struggles they have had to endure in order to make those contributions. In particular, the course asks students to consider how American Jews have represented themselves and their cultural situations in the literary genres of poetry, prose and drama. Introduction to Jewish-American Literature meets the U.S. Diversity requirement of the new general education curriculum because it demonstrates how Jewish Americans have constructed themselves within a nation that has often been far from accepting of difference. It also asks students to appreciate how literature written by Jews has helped to reconstruct American attitudes about the accommodation of marginalized groups.

LITR 164 - Introduction to Asian American Literature (Gen Ed Area III)

This course is designed to help students examine the experiences of Asian Americans in the U.S. as shown through prose and poetry. Course work is framed through historical cultural backgrounds, the immigrant experience and current ideological perspectives of persons who self-identify as both Asian and American. Film screenings provide further context for study.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

LITR 164 Introduction to Asian American Literature [effective Spring 2008]

Asian peoples account for a significant portion of immigrants to the U.S. Asian American literature will provide a means for students to understand Asian American experiences in the U.S. through fiction and poetry, supplemented by occasional films. By discussing the relationship between literature and culture, students will identify issues related to ethnicity, class and gender in the U.S. from multiple Asian perspectives. Understanding these issues can promote their success in the global U.S. community. For these reasons Literature 164 meets the requirements for a U.S. Diversity course in the General Education program.

LITR 171 - Imagining the Holy Land (Gen Ed Area III)

"Imagining the Holy Land," looks at a multiplicity of texts-literary, historical, political, cinematic- and asks General Education level students to consider why, since the time of the Crusades, the three "peoples of the book," Jews, Christians, and Muslims, have engaged in conflict over the area now called Israel.

Credit Hours: 3 hrs

Last Updated: Links 03/2011

LITR 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LITR 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

LITR 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

LITR 180 - Rebels and Outsiders in Literature (NEW COURSE)

In-depth, multi-genre study of literature that goes against the grain of societal and/or literary conventions; the focus is on themes or literary movements that represent the position of outsiders or rebels. Texts will be examined in their historical, cultural, and

critical contexts. Specific topics vary by instructor (see subtitles in the schedule).

Credit Hours: 3 hrs

Course Revisions:

Course Revisions: This is a new course, effective Winter 2013.

Last Updated: New Course 10/2012, effective Winter 2013

LITR 181 - The Legacy of Greece

An introduction to Greek epic, drama, poetry, history and philosophy, illustrating the influence of the Greek tradition on Western civilization. The literature is read in English translation. Representative examples of Greek architecture and sculpture also are examined. Team taught by a classicist and/or a member of the English Department. This course satisfies one literature requirement.

Credit Hours: 3 hrs

Cross-Listed with: CLAS 181

Notes: See honors humanities courses.

Last Updated: Links 04/2011

LITR 200 - Literary Studies for Literature Lovers (Gen Ed Area IV)

An intensive introduction to poetry, fiction and drama designed to appeal to the enthusiast who loves reading literature. Especially useful for those considering majoring in literary studies or English education. Course content is thematically focused (themes vary by instructor) and covers multiple literary periods as well as writing in different styles.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

LITR 200 Literary Studies for Literature Lovers

LITR 200 is designed to provide students who love literature with a framework for thinking critically about the texts that they read. In this intensive introduction to literary studies, course readings focus on exposing students to multiple genres of writing (fiction, poetry and drama), locating particular texts within the cultural context in which they were produced, and tracing the evolution of one or more literary themes through multiple historical periods. Students will be challenged to consider literature from a range of perspectives and literary periods, through a sustained look at different types of writing within each major genre. In considering thematic or structural similarities between individual texts, students will come to see how literature both reflects and inspires changes in imaginative, political, social and/or cultural practices.

LITR 201 - Introduction to Science Fiction (Gen Ed Area IV)

This course is designed to expose students to the genre of science fiction through a survey of some of the greatest short stories and novels of this genre. We will explore the elements of science fiction through a study of form, theme, character and technique and develop the critical reading skills necessary for independent literary analysis.

Credit Hours: 3 hrs

Last Updated: 03/2011

LITR 202 - Current Events in World Literature (Gen Ed Area III)

An introduction to world literature designed to appeal to the students interested in reading contemporary novels, plays and poetry in the context of current events in culture and politics of different communities across the globe. Course content is thematically focused and covers multiple literary genres as well as writing in different styles.

Credit Hours: 3 hrs

Last Updated: Links 03/2011

LITR 210 - Introduction to Shakespeare (Gen Ed Area IV)

An introduction to at least five of Shakespeare's plays with emphasis upon the tragedies.

Credit Hours: 3 hrs

Area IV: Knowledge of the Disciplines

LITR 210 Introduction to Shakespeare

LITR 210 allows students to explore the creative imagination of one of the most influential geniuses of western culture, William Shakespeare, as well as the cultural environment- Elizabethan and Jacobean London- that stimulated and shaped it. LITR 210 is designed to provide students who love literature- and have an interest in learning more about Shakespeare - with a framework for thinking critically about Shakespeare's writing. Students will conduct formal analysis of plays, as well as more critical analysis of the surrounding history and language associated with his work. Students will not only develop a sense of Shakespeare's plays as theatrical productions, they also interact with the plays as literary texts, developing interpretations of character motivation, exchanging ideas on possible themes and dramatic conflicts and comparing and contrasting one play with another. In this intensive introduction to Shakespeare's dramatic and lyric writing, course readings focus on exposing students to Shakespeare's different genres of writing, locating his drama in the cultural contexts in which they were produced. Because Shakespeare has been such an influence on many writers throughout the centuries, the study of his work provides the opportunity to study how different literary and dramatic tastes evolve through time.

LITR 241 - Global Images, Narrative Worlds (Gen Ed Area III)

A survey of fiction and film from around the world that elucidates the narrative structures in international fiction and film; illustrates how these structures influence the perception of other people and places; and demonstrates the ways in which narrative imagination promotes global awareness and cross-cultural understanding.

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

LITR 241 Global Images, Narrative Worlds

LITR 241 will draw on the considerable expertise of English Department faculty in both narrative theory and cultural studies, expertise which befits the host department for the *Journal of Narrative Theory*. This course concentrates on the narrative techniques found in fiction and film from around the world. Finally, the film series organized in conjunction with this course (provided room and instructor availability) will be open to the larger EMU community, not just to students officially registered for the class.

Last Updated: Title change 10/2009

LITR 251 - The Bible as Literature

Introduction to the literary study of the Bible. The Old Testament is represented chiefly by specimens of narrative and prophetic writings; the New Testament by selected incidents, parables and sayings from the life of Jesus as portrayed in the synoptic

gospels. Discussion of Biblical influences upon English and American literature.

Credit Hours: 3 hrs

Prerequisite: one 100- or 200-level LITR course

LITR 277 - Special Topics

An examination of topics in literature not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: one 100- or 200-level LITR course

LITR 278 - Special Topics

An examination of topics in literature not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: one 100- or 200-level LITR course

LITR 279 - Special Topics

An examination of topics in literature not covered in other departmental offerings. Students may elect this course more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: one 100- or 200-level LITR course

LITR 309 - The Development of American Literature

A study of American literature from colonial times to 1890, including such writers as Bradstreet, Franklin, Hawthorne, Melville, Thoreau, Emerson, Whitman, Dickinson, Twain and James.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 310 - Modern American Literature

A study of American literature from 1890 to the present, including such writers as Crane, Frost, Cather, Elliot, O'Neill, Fitzgerald, Faulkner, Hemingway, Bellow, Baldwin, O'Connor and Updike.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 312 - English Literature in the Middle Ages

A survey of Old and Middle English literature from Beowulf to Malory, tracing the themes, genres and literary techniques of early English literature.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 314 - English Renaissance Prose and Poetry 1500-1660

Major authors from the age of Shakespeare to the close of the Renaissance, including the humanists, lyric poets, Spenser, Bacon, Donne and the metaphysicals, and Milton.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 315 - Restoration and 18th-Century Literature

A study of British literature from the Restoration of Charles II through the Enlightenment and French Revolution (1660-1798), including such authors as Ben, Defoe, Swift, Montague, Equiano, Pope, Fielding, Gray, Walpole, Burney, Goldsmith and Wollstonecraft.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 316 - Romantic Rebellion in Britain 1798-1832

A study of the shift in literary emphasis in Britain from reason to the emotions, imagination and individualism in the works of Wordsworth, Coleridge, Lamb, DeQuincey, Hazlitt, Byron, Shelley and Keats.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 317 - Victorian and Edwardian Literature 1832-1914

A study of prose and poetry of such authors as Carlyle, Mill, Tennyson, Browning, Ruskin, Arnold, Hopkins, Swinburne, Hardy, Pater, Wilde, Kipling and others.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 360 - Recent Trends in British and American Literature

A study of innovations in recent British and American poetry, fiction or drama. The particular focus of the course to be taught in a given semester will be announced in the class schedule bulletin.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 361 - Studies in Native American Literature

This course will study in-depth, the oral and written literature of Native North American cultures, with emphasis on the authored memoirs, essays, fiction, poetry and drama of the 20th and 21st centuries. Students will become familiar with the historical, cultural and critical contexts for oral traditional and contemporary texts studied.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 362 - Studies in African American Literature

This course will examine the development of the African American literary tradition from its beginnings as an oral and aural art to texts written in the 21st century. Emphasis will be on the literary movements which define the tradition. Students will become conversant with the theory, critical terminology, historical contexts and interpretive practices relevant to the study of African American literature.

Credit Hours: 3 hrs

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

Concurrent Prerequisite: ENGL 300W

Last Updated: Links 04/2011

LITR 400 - Narrative in Literature and Film

A study of the aesthetic parallels in narrative technique between certain prose forms (novel, novella, romance, satire) and film as a means of enhancing verbal, visual and cultural literacy. This course will comprehend films from the origin of cinema to the present, as well as a variety of literary works from multiple periods, showing how they have worked in tandem to engender social constructs and the cultural heritage.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Class Restrictions: Sophomore standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LITR 405 - Shakespeare

A study of at least eight of the principal plays.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Class Restrictions: Sophomore standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LITR 411 - Studies in Epic and Romance

A critical reading of foreign (in translation) and English epics and romances (and their sources). The treatment will be both historical and comparative.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LITR 413 - The Poetry of Chaucer

An introduction to the major works of Chaucer: a close reading of representative poetry.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LITR 420 - Studies in the British Novel

This course will explore the emergence and development of the novel as a popular genre in English literature, with special emphasis on the cultural, political and historical conditions that it both reflects and helps to construct.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Last Updated: Links 04/2011

LITR 421 - Studies in the American Novel

A study of the American novel from its beginnings in the 19th century to the present, with particular emphasis on its development over time.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Last Updated: Links 04/2011

LITR 422 - Studies in the Novel in Global Perspective

A study of the novel outside England and the United States, with particular emphasis on generic variations that reflect political and social forces within specific contexts.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Last Updated: Links 04/2011

LITR 430 - Studies in Drama

A study of drama as it develops over time and is shaped by changing literary and social practices, including but not limited to the early British drama, restoration comedy, modern drama and English theatre in a global perspective.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Last Updated: Links 04/2011

LITR 440 - Genre Studies

A study of the characteristics of a particular literary genre, independent of chronology, theme or author.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LITR 443 - Women in Literature

A study of women and their experiences as described in literature.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Cross-Listed with: WGST 443

Last Updated: Graduate Credit 07/2011; Links 04/2011

LITR 445 - Sexualities in Literature and Culture

A seminar devoted to theorizing and articulating the relationships between literature and culture, focusing on the diverse and shifting forms of sexuality manifested in the cultural imagination across several literary periods.

Credit Hours: 3 hrs

Prerequisite: Six hours of 300-level course work in one of the following prefixes-ENGL, LITR, HIST, PHIL - or Department Permission

Cross-Listed with: WGST 445

Last Updated: New Course, 11/2012, effective Winter 2013

LITR 450 - Major Authors

An intensive study of a major literary figure or a group of related authors. The particular author to be taught in a given semester will be announced in the class schedule bulletin.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

LITR 470 - Studies in Poetry

A study of different poetic genres in English literature as they develop over time and are shaped by changing aesthetic conventions and social practices.

Credit Hours: 3 hrs

Prerequisite: ENGL 300W and one 300-level LITR course

World Languages Programs and Courses

World Languages

Major

French Major

Depending on initial placement, students may need to take up to 22 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

It is recommended that students specializing in French, or planning to continue with graduate work, carry their undergraduate study beyond the minimum requirements listed below. Many graduate schools require additional course work in literature.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
Department Contact: rweston3@emich.edu
Website: <http://www.emich.edu/worldlanguages/>

General Education Requirements:

For specific requirements refer to the General Education Program .

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs
- FRNH 443W - Advanced French Grammar and Composition (Gen Ed Area I, W) 3 hrs
- FRNH 444 - Advanced French Conversation 3 hrs

Group II: Civilization and Literature: 12 hours

- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs
- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs

Group III: Immersion Experience: 6 hours

- FRNH 490 - Intensive French Abroad 6 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

German Language and Literature Major

Depending on initial placement, students may need to take up to 22 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

- GERN 441 - Survey of German Literature 800-Enlightenment 3 hrs
- GERN 442 - Survey of German Literature: Enlightenment to 1945 3 hrs

Group III: Culture: 6 hours

- GERN 366 - The Cultures of German-Speaking Europe 3 hrs
- GERN 428 - German Literature and Film from 1945 to the Present 3 hrs

Group IV: Immersion Experience: 6 hours

- GERN 490 - Intensive German in Europe 6 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.

- Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

Group Major in Language and International Trade - Japanese

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. The major in language and international trade is designed to integrate the study of modern foreign languages and cultures with preparation in the field of international business.

The major objective of the program is to provide students with the skills, knowledge and understanding needed to function in a foreign environment and in professional dealings with business people and clients who speak foreign languages. Students completing this group major will have met the major and minor requirements for graduation. The minor is included in the major requirements.

Qualified students in Japanese may have the option of participating in a cooperative work exchange in an area of the world where Japanese is spoken.

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Group Major in Language and International Trade- Spanish

Depending on initial placement, students may need to take up to 24 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major.

The major in language and international trade is designed to integrate the study of modern foreign languages and cultures with preparation in the field of international business. The major objective of the program is to provide students with the skills, knowledge and understanding needed to function in a foreign environment and in professional dealings with business people and clients who speak foreign languages. Students completing this group major will have met the major and minor requirements for graduation. The minor is included in the major requirements.

Qualified students in Spanish may have the option of participating in a cooperative work exchange in an area of the world where Spanish is spoken. Students may take examinations leading to foreign certification in business Spanish.

World Languages Department Information:

Department Head: Rosemary Weston-Gil

Department Contact: rweston3@emich.edu

Website: <http://www.emich.edu/worldlanguages/>

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 57-60 hours

Additional Required Business Courses: 6 hours

- MKTG 460 - International Marketing 3 hrs

One course from the following:

- ECON 370 - Comparative Economic Systems 3 hrs
- ECON 480W - International Economics (Gen Ed Area I, W) 3 hrs

Language Area Studies Courses: 27 hours

- One SPNH at the 300- or 400-level 3 hrs
- One SPNH at the 400-level 3 hrs
- SPNH 343 - Spanish Grammar and Composition 3 hrs
- SPNH 361 - Spanish for International Trade 3 hrs
- SPNH 446 - Business Spanish I 3 hrs

- SPNH 447 - Business Spanish II 3 hrs

One course from the following:

- PLSC 211 - Introduction to Comparative Government (Gen Ed Area III) 3 hrs
- PLSC 212 - Introduction to International Politics (Gen Ed Area IV) 3 hrs
- PLSC 341 - International Law 3 hrs
- PLSC 342 - International Organizations 3 hrs
- PLSC 354 - Canadian Politics 3 hrs
- PLSC 367 - Latin American Politics 3 hrs
- PLSC 412W - Comparative Legal Systems (Gen Ed Area I, W) 3 hrs

One option from the following:

Option I: Geography and History: 6 hours

- One 300/400 level GEOG course of the geography of Spain.
- One 300/400 level HIST course of the history of Spain.

Option II: Geography and Foreign Language: 6 hours

- One 300/400 level GEOG course of the geography of Spain.
- One additional 300/400 level SPNH course.

Option III: History and Foreign Language: 6 hours

- One 300/400 level HIST course of the history of Spain.
- One additional 300/400 level SPNH course.

Field Experience: 3-6 Hours

Consult with LIC Adviser for one of the following:

- SPNH 490 - Intensive Spanish 6 hrs
(Intensive program of six weeks, also counts for General Education- Learning Beyond the Classroom)
- FLAN 387 - Cooperative Education in Foreign Language 3 hrs
- FLAN 487 - Cooperative Education in Foreign Language 3 hrs
- FLAN 489 - Internship in Language and International Trade 3 hrs

Business Minor: 21 hours

Students must complete requirements for a minor in an operational area of business of their choosing. These areas include: economics, marketing, management, accounting, finance, business computer systems and general business, among others. Special combinations of business courses equivalent to a minor are possible in consultation with an adviser.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Japanese Language and Culture Major

Depending on initial placement, students may need to take up to 20 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 33 hours

Group I: Language Development: 18 hrs

- JPNE 343W - Japanese Composition (Gen Ed Area I, W) 3 hrs
- JPNE 344 - Japanese Conversation 3 hrs
- JPNE 361 - Japanese for International Trade 3 hrs
- JPNE 444 - Advanced Japanese Conversation 3 hrs
- JPNE 446 - Business Japanese I 3 hrs
- JPNE 447 - Business Japanese II 3 hrs

Group II: Literature: 3 hrs

- JPNE 445 - Survey of Japanese Literature 3 hrs

Group III: Culture: 3 hrs

Choose one of the following:

- ANTH 385 - Culture of Japan 3 hrs
- JPNE 448 - Readings on Japanese Culture 3 hrs

Group IV: Immersion Experience: 6 hrs

- JPNE 490 - Intensive Japanese Abroad 6 hrs

Group V: Capstone Seminar: 3 hrs

- JPNE 494 - Seminar in Japanese Studies 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

K-12 French Teaching Major

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education K-12 Provisional Certificate in French, certification code FA, and, depending on the minor selected, an additional endorsement. The Michigan Test for Teacher Certification (MTTC) covering this field is #23, "French." In addition, all students must pass the Oral Proficiency Interview (OPI) for French.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state "for elementary teachers," and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.

2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program .

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs
- FRNH 443W - Advanced French Grammar and Composition (Gen Ed Area I, W) 3 hrs
- FRNH 444 - Advanced French Conversation 3 hrs

Group II: Civilization and Literature: 12 hours

- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs
- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs

Group III: Immersion Courses: 6 hours

- FRNH 490 - Intensive French Abroad 6 hrs

K-12 Foreign Language Methods Core: 12 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs
- FLAN 442 - Practicum in World Language Instruction - Elementary 3 hrs

Professional K-12 Education Sequence

Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 12 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 489 - Student Teaching 12 hrs
In order to meet NCATE standards, candidates who:
- major in a language shall complete more than half of their student teaching contact hours in that language.
- double major in a language and in another content area shall complete a portion of the student teaching experience in that language.
- double major in two languages shall student teach in each language.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. - GERN 428 - German Literature and Film from 1945 to the Present 3 hrs

Group IV. Immersion Experience: 6 hours

- GERN 490 - Intensive German in Europe 6 hrs

K-12 Foreign Language Methods Core: 12 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs
- FLAN 442 - Practicum in World Language Instruction - Elementary 3 hrs

Professional K-12 Education Sequence

Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Phase I: Curriculum, Assessment and the Social Context: 12 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs

- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Phase II: Content and Methods and Teaching: 15 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades 3 hrs
- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Phase III: Capstone Experience: 12 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 489 - Student Teaching 12 hrs
In order to meet NCATE standards, candidates who:
 - major in a language shall complete more than half of their student teaching contact hours in that language.
 - double major in a language and in another content area shall complete a portion of the student teaching experience in that language.
 - double major in two languages shall student teach in each language.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

K-12 Japanese Language and Culture Teaching Major

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education K-12 Provisional Certificate in Japanese, certification code FL. The Michigan Test for Teacher Certification (MTTC) covering this field is #100, "Japanese." In addition, all students must pass the Oral Proficiency Interview (OPI) for Japanese.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 33 hours

Group I: Language Development: 18 hours

- JPNE 343W - Japanese Composition (Gen Ed Area I, W) 3 hrs
- JPNE 344 - Japanese Conversation 3 hrs
- JPNE 361 - Japanese for International Trade 3 hrs
- JPNE 444 - Advanced Japanese Conversation 3 hrs
- JPNE 446 - Business Japanese I 3 hrs
- JPNE 447 - Business Japanese II 3 hrs

Group II: Literature: 3 hours

- JPNE 445 - Survey of Japanese Literature 3 hrs

Group III: Civilization and Culture: 3 hours

Choose one from the following:

- ANTH 385 - Culture of Japan 3 hrs
- JPNE 448 - Readings on Japanese Culture 3 hrs

Secondary Education French Major

Depending on initial placement, students may need to take up to 16 additional credit hours of 100 and 200 level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this course of study, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate in French, certification code FA, and, depending on the minor selected, an additional endorsement. The Michigan Test for Teacher Certification (MTTC) covering this field is #023, "French." In addition, all students must pass the Oral Proficiency Interview (OPI) for French.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of "C" or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.

2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program .

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs
- FRNH 443W - Advanced French Grammar and Composition (Gen Ed Area I, W) 3 hrs
- FRNH 444 - Advanced French Conversation 3 hrs

Group II: Civilization and Literature: 12 hours

- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs
- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs

Group III: Immersion Course: 6 hours

- FRNH 490 - Intensive French Abroad 6 hrs

Secondary Education Foreign Language Methods Core: 6 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

World Languages Majors take:

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education German Language and Literature Major

Depending on initial placement, students may need to take up to 16 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

Successful completion of this major, in the context of other program and NCATE requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate in German, certification code FB. The Michigan Test for Teacher Certification (MTTC) covering this field is #024, "German." In addition, all students must pass the Oral Proficiency Interview (OPI) for German.

At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.

institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Spanish Major

Depending on initial placement, students may need to take up to 24 additional credit hours of 100- and 200-level classes in the language before they can begin courses required in the major. Students with prior language study or knowledge will be placed at an appropriate level in consultation with an advising coordinator.

The courses listed below meet the minimum requirements only; it is recommended that students specializing in Spanish, or planning to continue with graduate work, carry their undergraduate study beyond the minimum. Many graduate schools require additional course work in literature.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
Department Contact: rweston3@emich.edu
Website: <http://www.emich.edu/worldlanguages/>

General Education Requirements:

For specific requirements refer to the General Education Program.

Major Requirements: 30 hours

Group I: Language Development: 12 hours

- SPNH 343 - Spanish Grammar and Composition 3 hrs
- SPNH 344 - Spanish Conversation and Composition 3 hrs

- SPNH 443 - Advanced Spanish Grammar and Composition 3 hrs

One of the following:

- SPNH 423 - Hispanic Linguistics 3 hrs
- SPNH 430 - Spanish Phonetics and Phonology 3 hrs
- SPNH 444 - Advanced Spanish Conversation and Composition 3 hrs

Group II: Literature: 6 hours

- SPNH 401 - Advanced Readings in Spanish Literature 3 hrs
- SPNH 402 - Advanced Readings in Spanish American Literature 3 hrs

Group III: Culture: 6 hours

- SPNH 411 - The Cultures of Spain 3 hrs
- SPNH 412 - The Cultures of Spanish America 3 hrs

Group IV. Immersion Experience: 6 hours

- SPNH 490 - Intensive Spanish 6 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).

- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Elementary Education French Language Minor

Successful completion of this minor, in the context of other program and NCATE requirements, qualifies the student for recommendation for endorsement in French, certification code FA. The Michigan Test for Teacher Certification (MTTC) covering this field is #023, "French." In addition, all students must pass the Oral Proficiency Interview (OPI) for French.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

Required Courses: 12 hours

- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs
- FRNH 443W - Advanced French Grammar and Composition (Gen Ed Area I, W) 3 hrs
- FRNH 444 - Advanced French Conversation 3 hrs

Required French Language and Culture Immersion Program: 6 hours

- FRNH 490 - Intensive French Abroad 6 hrs

Restricted Elective Courses: 6 hours

Choose six credit hours from the following:

One course from the following:

- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs

And one course from the following:

- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs

*** Minor Total: 24 hours**

Note:

All minors must have at least six hours of course work at the 300-level or above.

** In addition to the FRNH courses listed here, the Elementary Education French Language Minor also requires FLAN 411 - Theory and Methods of Modern Language Teaching.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.

- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Elementary Education German Language and Literature Minor

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

Required Courses: 12 hours

- GERN 343 - German Composition on Cultures and Civilization 3 hrs
- GERN 344 - Principles of German Phonetics and Conversation 3 hrs
- GERN 441 - Survey of German Literature 800-Enlightenment 3 hrs
- GERN 442 - Survey of German Literature: Enlightenment to 1945 3 hrs

Restricted Elective Courses: 8 hours

Eight hours in German at any level selected in consultation with an adviser.

Minor Total: 20 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Elementary Education Spanish Language Minor

Successful completion of this minor, in the context of other program and NCATE requirements, qualifies the student for recommendation for endorsement in Spanish, certification code FF. The Michigan Test for Teacher Certification (MTTC) covering this field is #028, "Spanish." In addition, all students must pass the Oral Proficiency Interview (OPI) for Spanish.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

Required Courses: 12 hours

- SPNH 343 - Spanish Grammar and Composition 3 hrs
- SPNH 344 - Spanish Conversation and Composition 3 hrs
- SPNH 443 - Advanced Spanish Grammar and Composition 3 hrs

One of the following restricted electives:

- SPNH 423 - Hispanic Linguistics 3 hrs
- SPNH 430 - Spanish Phonetics and Phonology 3 hrs
- SPNH 444 - Advanced Spanish Conversation and Composition 3 hrs

Culture Course: 3 Hours

Pick one course from the following

- SPNH 411 - The Cultures of Spain 3 hrs
- SPNH 412 - The Cultures of Spanish America 3 hrs

Literature Course: 3 Hours

Pick one course from the following

- SPNH 401 - Advanced Readings in Spanish Literature 3 hrs
- SPNH 402 - Advanced Readings in Spanish American Literature 3 hrs

Required Spanish Language and Culture Immersion Program: 6 hours

- SPNH 490 - Intensive Spanish 6 hrs

* Minor Total: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

** In addition to the SPNH courses listed here, the Elementary Education Spanish Language Minor also requires FLAN 411 - Theory and Methods of Modern Language Teaching.*

The minimum residency requirement for transfer students seeking a minor in Spanish for teaching is 12 hours taken through EMU, including SPNH 343 and 344 (or SPNH 442 and 44, if appropriate) plus SPNH 490.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

English as a Second Language for Non-Native Speakers of English Minor (ESL)

This minor is limited to international students who are non-native speakers of English and conditionally admitted to the University on the basis of English language proficiency. It is administered jointly by the Department of World Languages and the Department of English Language and Literature.

Students who have placed in the 300 level ESL classes will complete all of the following required courses. Students who have placed at the 400 level will begin this minor by taking ESLN 412 - Academic ESL Writing (Gen Ed Area I), ESLN 414 - Academic ESL Reading and ESLN 416 - Academic ESL Speaking and Listening. These students must choose six credit hours from the restricted elective courses or other courses with the permission of the adviser.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

Required Courses: 21 hours

- ENGL 225 - Writing in a Changing World 3 hrs
- ENGL 326 - Research Writing 3 hrs
- ESLN 412 - Academic ESL Writing (Gen Ed Area I) 3 hrs

- ESLN 414 - Academic ESL Reading 3 hrs
- ESLN 416 - Academic ESL Speaking and Listening 3 hrs

One course from the following:

- ESLN 310 - Advanced ESL Grammar 3 hrs
- ESLN 312 - Advanced ESL Writing 3 hrs

One course from the following:

- ESLN 314 - Advanced ESL Reading 3 hrs
- ESLN 316 - Advanced ESL Speaking and Listening 3 hrs

Restricted Elective Courses: 3 hours

One course from the following:

- Other English language or linguistics course (written permission required) (3 hrs)
- Other speech communication course (written permission required) (3 hrs)
- Other advanced (speech) courses not including theatre arts courses, with written permission from the ESL coordinator
- CTAC 224 - Public Speaking 3 hrs
- CTAC 350 - Persuasion 3 hrs
- CTAC 356 - Argumentation and Debate 3 hrs
- CTAC 359 - Small Group Communication 3 hrs
- LING 201 - An Introduction to Linguistics 3 hrs
- LING 402 - Modern English Grammar 3 hrs

Minor Total: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Foundations in Spanish Translation Minor (NEW PROGRAM)

New Minor, Effective Winter 2013

Translation and interpretation are intellectual activities that aim to bridge the gap between individuals and groups with different languages. The main goal of such activities is to bring people together that would otherwise remain strangers so they can communicate orally and in writing for multiple everyday and/or professional purposes. Thinking of translation and interpretation in widest sense, it can be seen that they not only happen when different languages come into contact, but rather on any occasion

when individuals or groups with different backgrounds and/or lifestyles come into contact - even if they communicate in a common language. For example, the expression "economic crisis" has different means for different peoples not only worldwide but also in the United States.

We are now aware that translation and interpretation are preformed daily by many of us at different levels. As such, they quite spontaneously overflow the four walls of a classroom or the campus of a university, to find themselves at work in various settings. Extensive and intensive reflection on translation, interpretation, and services learning provide students with the professional tools needed to the most adequate translations and interpretations. Such work is based on deep linguistic, knowledge of the target audience (i.e. the Spanish translation of the source texts, as well as the interpretation of conversations), and their social, political, cultural, educational and linguistic uses. Both this knowledge base as well as the necessary related skills needed to be proficient will be achieved in the minor in Foundations in Spanish Translations via extensive practice, both in and outside of the classroom (internships and service learning contracts will be sought for students) as they pertain to professional fields, but, especially, to those of business, education, health, and law.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
Department Contact: rweston3@emich.edu
Website: <http://www.emich.edu/worldlanguages/>

Required Course: 12 hours

- SPNH 420 - Introduction to Translation 3 hrs
- SPNH 430 - Spanish Phonetics and Phonology 3 hrs
- SPNH 443 - Advanced Spanish Grammar and Composition 3 hrs
- SPNH 467 - Introduction to Spanish Interpretation 3 hrs

Restricted Electives: 9 hours

- SPNH 411 - The Cultures of Spain 3 hrs
- SPNH 412 - The Cultures of Spanish America 3 hrs
- SPNH 423 - Hispanic Linguistics 3 hrs
- SPNH 444 - Advanced Spanish Conversation and Composition 3 hrs
- SPNH 490 - Intensive Spanish 6 hrs
- or an additional 3 credit Spanish course approved by faculty

Minor Total: 21 hours

Notes:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

German Language and Literature Minor

World Languages Department Information:

Department Head: Rosemary Weston-Gil

Department Contact: rweston3@emich.edu

Website: <http://www.emich.edu/worldlanguages/>

Required Course: 12 hours

- GERN 343 - German Composition on Cultures and Civilization 3 hrs
- GERN 344 - Principles of German Phonetics and Conversation 3 hrs
- GERN 441 - Survey of German Literature 800-Enlightenment 3 hrs
- GERN 442 - Survey of German Literature: Enlightenment to 1945 3 hrs

Restricted Elective Courses: 8 hours

Eight hours in German starting at the 200-level selected in consultation with an adviser.

Minor Total: 20 hours

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Secondary Education French Language Minor

Successful completion of this minor, in the context of other program and NCATE requirements, qualifies the student for recommendation for endorsement in French, certification code FA. The Michigan Test for Teacher Certification (MTTC) covering this field is #023, "French." In addition, all students must pass the Oral Proficiency Interview (OPI) for French.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
 Department Contact: rweston3@emich.edu
 Website: <http://www.emich.edu/worldlanguages/>

Required Courses: 12 hours

- FRNH 343 - French Composition 3 hrs
- FRNH 344 - French Conversation 3 hrs

- FRNH 443W - Advanced French Grammar and Composition (Gen Ed Area I, W) 3 hrs
- FRNH 444 - Advanced French Conversation 3 hrs

Required French Language and Culture Immersion Program: 6 hours

- FRNH 490 - Intensive French Abroad 6 hrs

Secondary Education Foreign Language Methods Core: 6 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs

Restricted Elective Courses: 6 hours

Choose six credit hours from the following:

One course from the following:

- FRNH 345 - French Culture and Civilization 3 hrs
- FRNH 346 - 20th-Century French Civilization 3 hrs

And one course from the following:

- FRNH 441 - Survey of French Literature I 3 hrs
- FRNH 442 - Survey of French Literature II 3 hrs

Minor Total: 30 hours

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Spanish Language Minor

Revised Minor, Effective Winter 2013

Successful completion of this minor, in the context of other program and NCATE requirements, qualifies the student for recommendation for endorsement in Spanish, certification code FF. The Michigan Test for Teacher Certification (MTTC) covering this field is #028, "Spanish." In addition, all students must pass the Oral Proficiency Interview (OPI) for Spanish.

World Languages Department Information:

Department Head: Rosemary Weston-Gil
Department Contact: rweston3@emich.edu
Website: <http://www.emich.edu/worldlanguages/>

Required Courses: 12 hours

- SPNH 343 - Spanish Grammar and Composition 3 hrs
- SPNH 344 - Spanish Conversation and Composition 3 hrs
- SPNH 443 - Advanced Spanish Grammar and Composition 3 hrs

One of the following restricted electives

- SPNH 423 - Hispanic Linguistics 3 hrs
- SPNH 430 - Spanish Phonetics and Phonology 3 hrs
- SPNH 444 - Advanced Spanish Conversation and Composition 3 hrs

Culture Course: 3 hours

Pick one of the following courses

- SPNH 411 - The Cultures of Spain 3 hrs

- SPNH 412 - The Cultures of Spanish America 3 hrs

Literature Course: 3 hours

Pick one of the following courses

- SPNH 401 - Advanced Readings in Spanish Literature 3 hrs
- SPNH 402 - Advanced Readings in Spanish American Literature 3 hrs

Required Immersion Experience: 6 hours

- SPNH 490 - Intensive Spanish 6 hrs

Secondary Education Foreign Language Methods Core: 6 hours

- FLAN 411 - Theory and Methods of Modern Language Teaching 3 hrs
- FLAN 441 - Practicum in World Language Instruction - Secondary 3 hrs

Minor Total: 30 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.

- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

Adviser Information:

Program Adviser: Jeff Popko
Email: apopko@emich.edu
Phone: 734.487.0130

Required Courses: 24 hours

- LNGE 202 - Grammar for ESL Teachers 3 hrs
- LNGE 223 - Introduction to Language 3 hrs
- LNGE 325 - Second Language Acquisition 3 hrs
- TSLN 330 - TESOL Methodology: Literacy 3 hrs
- TSLN 332 - Methodology: Listening and Speaking 3 hrs
- TSLN 410 - TESOL Methodology: Content-Based Approaches 3 hrs
- TSLN 420 - SLA Testing and Assessment 3 hrs

One course from the following:

- LNGE 240 - Linguistic and Cultural Diversity in the U.S. 3 hrs
- LNGE 242 - Linguistic and Cultural Diversity: Global Englishes 3 hrs

Minor Requirements: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.**

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Chinese

CHNE 121 - Beginning Chinese I (Gen Ed Area IV)

This is an introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

Credit Hours: 5 hrs

CHNE 122 - Beginning Chinese II (Gen Ed Area IV)

This is the second introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

Credit Hours: 5 hrs

Prerequisite: CHNE 121

Last Updated: Links 04/2011

CHNE 211 - Beginning Chinese III (Gen Ed Area IV)

This is the third introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

Credit Hours: 5 hrs

Prerequisite: CHNE 122

Last Updated: Links 04/2011

CHNE 212 - Beginning Chinese IV (Gen Ed Area IV)

The is the fourth introductory course in Mandarin Chinese. Students will communicate in a variety of practical contexts, analyze the cultural practices, products and perspectives shaping everyday situations, develop oral communication skills, read and write simplified versions of characters and gain exposure to the traditional characters.

Credit Hours: 5 hrs

Prerequisite: CHNE 211

Last Updated: Links 04/2011

Classics Courses

CLAS 104 - Quest for Power: Famous Figures in History

An examination of the lives and times of select leaders from the ancient and modern worlds. Examples of figures to be covered are Pericles, Nero, Napoleon I and Adolf Hitler. Major literary monuments of the periods will be examined as well. Team taught

by a member of the History Department and a classicist. This course satisfies one literature or one history requirement.

Credit Hours: 3 hrs

Cross-Listed with: HIST 104

Notes: See honors humanities courses

Last Updated: Links 04/2011

CLAS 106 - Rome and America (Gen Ed Area IV)

An investigation into problems and pressures comparing the people and culture of ancient Rome and modern America, considering individual hopes and ideals, religious beliefs and ideas about death, government, morality, love and sex. Team taught by a member of the English Department and a classicist. These courses must be taken concurrently and satisfy two literature requirements..

Credit Hours: 6 hrs

Cross-Listed with: LITR 106

Notes: See honors humanities courses

Area IV: Knowledge of the Disciplines

CLAS 106 Rome & America (Honors ONLY) [effective Spring 2008]

This course introduces students to the humanities disciplines of the study of American literature and of ancient Roman literature. By its strong emphasis on comparative analysis, the course facilitates a clear understanding of the literary concept of genre (e.g., satire, epic, lyric, novel, etc.). Besides issues of literary theory, the course also encourages the appreciation of continuity in major themes, such as the definition of "heroism" or of the "successful" life, the gender system of the relevant cultures, and social class distinctions, as well as the techniques (e.g., parody, irony, allegory, symbolism, etc.) common to the literatures of classical Roman antiquity and present-day American. By examining literary works from two cultures remote in time and place from each other, students learn to grasp and evaluate what is traditional and what is innovative in each.

CLAS 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CLAS 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CLAS 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CLAS 181 - The Legacy of Greece

An introduction to Greek epic, drama, poetry, history and philosophy, illustrating the influence of the Greek tradition on western civilization. The literature is read in English translation. Representative examples of Greek architecture and sculpture also are examined. Team taught by a classicist and/or a member of the English Department. This course satisfies one literature requirement.

Credit Hours: 3 hrs

Cross-Listed with: LITR 181

Notes: See Honor's humanities courses

CLAS 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

CLAS 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CLAS 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CLAS 301 - Classical Mythology

An examination of classical Greek and Roman mythology, chiefly through the study of literary and artistic works. The influence of classical mythology in later literature will also be considered.

Credit Hours: 3 hrs

CLAS 321 - Women and Gender in the Ancient World

An investigation of life for women in antiquity, focusing on the sex-gender system of Greek and Roman societies. Literary, inscriptional and other evidence will be studied to disclose the classical roots of western beliefs and attitudes about women.

Credit Hours: 3 hrs

Prerequisite: HIST 321, WGST 321

Last Updated: Links 04/2011

CLAS 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied

Credit Hours: 1 hr

Prerequisite: department permission

CLAS 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

CLAS 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CLAS 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hrs

Prerequisite: department permission

CLAS 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

CLAS 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

CLAS 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 1 hr

Prerequisite: department permission

CLAS 498 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 2 hrs

Prerequisite: department permission

CLAS 499 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 3 hrs

Prerequisite: department permission

English for International Students

ESLN 010 - Beginning ESL Grammer

This course focuses on the knowledge and skills necessary to produce grammatically accurate simple and compound sentences in conversation and simple writing assignments. Students will examine the parts of speech, the basic verb tenses, questions and negative forms in sentences and paragraphs.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 012

Cross-Listed with: ESLN 110

Last Updated: Links 04/2011

ESLN 012 - Beginning ESL Writing

This course leads students through the process of writing paragraphs. Students learn forms of the English paragraph and write, revise and edit paragraphs on a variety of personal topics, while developing their vocabulary and grammatical accuracy.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 010

Cross-Listed with: ESLN 112

Last Updated: Links 04/2011

ESLN 013 - American Pronunciation I

Students will learn to recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility through listening, analyzing, repeating, and correcting both recorded examples and their own production. Students will focus on

consonant and vowel sounds, and will be able to discriminate and produce these sounds.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

Cross-Listed with: ESLN 113

Last Updated: Links 04/2011

ESLN 014 - Beginning ESL Reading

Students in this course will develop reading and vocabulary skills to comprehend simplified reading passages by using the following methods; identifying word meaning and recognizing main ideas and supporting details at the paragraph level.

Credit Hours: 3 hrs

Prerequisite: department permission

Cross-Listed with: ESLN 114

Last Updated: Links 04/2011

ESLN 016 - Beginning ESL Speaking and Listening

This course builds oral communication skills in social settings. Students practice short expressions and sentences to talk about basic communicative tasks such as asking and answering techniques on personal topics. Students develop vocabulary and improve fluency, using understandable pronunciation.

Credit Hours: 3 hrs

Prerequisite: department permission

Cross-Listed with: ESLN 116

Last Updated: Links 04/2011

ESLN 017 - American Language and Culture I

This course introduces students to broad themes in American Culture and targeted issues related to the academic culture of American universities. The course uses reading, media, and external oral assignments to provide international students with knowledge, skills, and cultural capital needed to understand America and to succeed in the university.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

Cross-Listed with: ESLN 117

Last Updated: Links 04/2011

ESLN 018 - Study Skills for the English Language Learner I

The purpose of this course is to provide international students with the information and language skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and ESL study techniques, how to manage their time and prioritize tasks based on importance, and how to prepare for ESL classes and language tests.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: Links 04/2011

ESLN 019 - Community and Current Events I

This course focuses on integrating students into the American university and surrounding community by promoting cultural knowledge. Students have opportunities to interact with Ypsilanti citizens during community participation. Through regular contact with native speakers, the international students practice listening, speaking and vocabulary in an informal environment with supplemental technology use.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL/MELAB/IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

Cross-Listed with: ESLN 119

Last Updated: Links 04/2011

ESLN 020 - Intermediate ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate, coherent texts in speaking and writing assignments on personal topics. Students review basic grammar components and clause structure and study the concepts of time and aspect in verb tenses, comparisons, modals, infinitives, gerunds and passive voice.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 022

Cross-Listed with: ESLN 210

Last Updated: Links 04/2011

ESLN 022 - Intermediate ESL Writing

This course reviews the writing process at the paragraph level and engages students in writing a series of related paragraphs and short essays on personal and general interest topics in various genres. Students demonstrate control of grammar, word usage, coherence and unity.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 020

Cross-Listed with: ESLN 212

Last Updated: Links 04/2011

ESLN 024 - Intermediate ESL Reading

Students in this course will develop their ability to comprehend simplified reading texts on general topics of interest. Students will use reading strategies to increase comprehension and ease of reading. Students will learn to identify the structure, main ideas and supporting details of texts.

Credit Hours: 3 hrs

Prerequisite: department permission

Cross-Listed with: ESLN 214

Last Updated: Links 04/2011

ESLN 026 - Intermediate ESL Speaking and Listening

This course builds oral communication skills in social and informal settings. Students practice sentences and short conversations to talk about basic communicative tasks on personal and informal academic topics. Students develop vocabulary and improve fluency, using understandable pronunciation.

Credit Hours: 3 hrs

Prerequisite: department permission

Cross-Listed with: ESLN 216

Last Updated: Links 04/2011

ESLN 030 - Advanced ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate, coherent texts in spoken and written assignments on general academic topics. Students review intermediate grammar structures and study advanced structures, including parallelism, less frequently used verb tenses, complex sentences and clauses.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 032

Cross-Listed with: ESLN 310

Last Updated: Links 04/2011

ESLN 032 - Advanced ESL Writing

This course introduces students to composition writing in the academic context. Students review paragraph structure, identify and produce effective compositions in multiple genres, and develop their ability to analyze and critique peer writing.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 030

Cross-Listed with: ESLN 312

Last Updated: Links 04/2011

ESLN 033 - American Pronunciation II

Students practice recognizing and producing fundamental patterns of stress in advanced-level phrase structures as well as rhythm, sentence stress and intonation as they occur in extended conversation and informational media sources. Attention is given to reinforcing accurate pronunciation of vocabulary targeted at this level.

Credit Hours: 3 hrs

Prerequisite: department permission

Cross-Listed with: ESLN 313

Last Updated: Links 04/2011

ESLN 034 - Advanced ESL Reading

Students in this course will develop skills in comprehending different kinds of authentic, informational texts. Students will identify main and supporting ideas, summarize information in a text, pose critical questions and infer the meaning of new vocabulary from context and word components. Students will practice skills in both intensive and extensive reading.

Credit Hours: 3 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 314
Last Updated: Links 04/2011

ESLN 036 - Advanced ESL Speaking and Listening

This course improves speaking and listening skills for active participation in academic and social settings. Students practice effective listening and speaking skills in group study sessions and classroom presentations and discussions. Students develop strategies for effective note-taking skills, especially from talks featuring a variety of accents.

Credit Hours: 3 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 316
Last Updated: Links 04/2011

ESLN 037 - American Language and Culture II

Students explore themes in American society and pop culture. Using reading, media, and oral assignments, international students develop American cultural capital to help them better understand America's people and society. The focus is on building the four linguistic communicative competencies through practice and application.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL/MELAB/IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Cross-Listed with: ESLN 317
Last Updated: Links 04/2011

ESLN 038 - Study Skills for the English Language Learner II

The purpose of this course is to provide international students with the information and skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and study techniques, how to manage their time and prioritize tasks based on individual goals, and to live and learn in a multicultural environment.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL/MELAB/IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Cross-Listed with: ESLN 313
Last Updated: Links 06/2011

ESLN 039 - Community and Current Events II

This course provides students with practice in the English listening/speaking skills necessary to succeed in the American university. It also will provide students with the chance to combine critical thinking with practical experience as they make an active contribution with community-based projects. Students will learn about themselves and their community.

Credit Hours: 3 hrs
Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a

TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission
Cross-Listed with: ESLN 319
Last Updated: Links 04/2011

ESLN 040 - Academic ESL Grammar

This course focuses on the knowledge and skills required to produce grammatically accurate and coherent texts in extended academic oral and written discourse. Students practice less frequently used verb tense sequencing, modifications to adjective and adverb clauses and multiple forms of noun clauses in various complex sentences.

Credit Hours: 3 hrs
Prerequisite: department permission
Corequisites: ESLN 042
Cross-Listed with: ESLN 410
Last Updated: Links 04/2011

ESLN 042 - Academic ESL Writing

This course focuses on academic inquiry and writing with an emphasis on American conventions for non-native speakers of English. Students utilize critical reading and thinking skills to engage in the process of writing researched essays.

Credit Hours: 3 hrs
Prerequisite: department permission
Corequisites: ESLN 040
Cross-Listed with: ESLN 412
Last Updated: Links 04/2011

ESLN 044 - Academic ESL Reading

Students in this course will explore various strategies when reading university-level academic texts. Students will compare and synthesize different points of view and recognize and respond to the rhetorical techniques and structures used by writers to achieve their purpose. Students further develop their academic vocabulary skills and strategies.

Credit Hours: 3 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 414
Last Updated: Links 04/2011

ESLN 046 - Academic ESL Speaking and Listening

This course improves speaking and listening skills for active participation in academic settings. Student practice comprehending lectures on academic topics, taking notes and effectively participating in informal and formal classroom speaking activities. Students continue to build and use academic vocabulary in oral discourse.

Credit Hours: 3 hrs
Prerequisite: department permission
Cross-Listed with: ESLN 416
Last Updated: Links 04/2011

ESLN 048 - American Pronunciation for Professionals

Students recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility by analyzing, repeating, and monitoring both recorded examples of speech in academic and professional contexts and their own production. They also develop oral control of the academic vocabulary in their field of study.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

Cross-Listed with: ESLN 418

Last Updated: Links 04/2011

ESLN 052 - Academic Writing for International Graduate Students

Students engage in extensive critical reading and analysis of discipline-specific topics and compose well-documented papers on the basis of their research using standard English conversations and documentation. Attention is given to grammatical accuracy and language usage in written assignments.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 040

Cross-Listed with: ESLN 512

Last Updated: Links 04/2011

ESLN 055 - Graduate ESL Seminar in Academic Communication

This course is designed for non-native speakers of English to improve their oral communication skills for participation in graduate-level classes in their degree program. Students read authentic academic texts and develop skills and strategies for oral presentations and critical response. A major emphasis is on having students learn academic vocabulary and enhance reading skills.

Credit Hours: 3 hrs

Prerequisite: department permission

Cross-Listed with: ESLN 515

Last Updated: Links 04/2011

ESLN 110 - Beginning ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate simple and compound sentences in conversation and simple writing assignments. Students will examine the parts of speech, the basic verb tenses, questions and negative forms in sentences and paragraphs.

Credit Hours: 3 hrs

Prerequisite: department permission

ESLN 112 - Beginning ESL Writing

This course leads students through the process of writing paragraphs. Students learn forms of the English paragraph and write, revise and edit paragraphs on a variety of personal topics, while developing their vocabulary and grammatical accuracy.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 110
Last Updated: Links 04/2011

ESLN 113 - American Pronunciation I

Students will learn to recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility through listening, analyzing, repeating, and correcting both recorded examples and their own production. Students will focus on consonant and vowel sounds, and will be able to discriminate and produce these sounds.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 114 - Beginning ESL Reading

Students in this course will develop reading and vocabulary skills to comprehend simplified reading passages by using the following methods: Identifying word meaning and recognizing main ideas and supporting details at the paragraph level.

Credit Hours: 3 hrs

Prerequisite: department permission or placement exam

ESLN 115 - Study Skills for the English Language Learner

The purpose of this course is to provide international students with the information and language skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and ESL study techniques, how to manage their time and prioritize tasks based on importance, and how to prepare for ESL classes and language tests.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 116 - Beginning ESL Speaking and Listening

This course builds oral communication skills in social settings. Students practice short expressions and sentences to talk about basic communicative tasks such as asking and answering techniques on personal topics. Students develop vocabulary and improve fluency, using understandable pronunciation.

Credit Hours: 3 hrs

Prerequisite: department permission

ESLN 117 - American Language and Culture I

This course introduces students to broad themes in American Culture and targeted issues related to the academic culture of American universities. The course uses reading, media, and external oral assignments to provide international students with knowledge, skills, and cultural capital needed to understand American and to succeed in the university.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores

on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 310 - Advanced ESL Grammar

This course focuses on the knowledge and skills necessary to produce grammatically accurate, coherent texts in spoken and written assignments on general academic topics. Students review intermediate grammar structures and study advanced structures, including parallelism, less frequently used verb tenses, complex sentences and clauses.

Credit Hours: 3 hrs

Prerequisite: department permission

ESLN 312 - Advanced ESL Writing

This course introduces students to composition writing in the academic context. Students review paragraph structure, identify and produce effective compositions in multiple genres, and develop their ability to analyze and critique peer writing.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 310

Last Updated: Links 04/2011

ESLN 313 - American Pronunciation II

Students practice recognizing and producing fundamental patterns of stress in advanced-level phrase structures as well as rhythm, sentence stress and intonation as they occur in extended conversation and informational media sources. Attention is given to reinforcing accurate pronunciation of vocabulary targeted at this level.

Credit Hours: 1 hr

Prerequisite: department permission

ESLN 314 - Advanced ESL Reading

Students in this course will develop skills in comprehending different kinds of authentic, informational texts. Students will identify main and supporting ideas, summarize information in a text, pose critical questions and infer the meaning of new vocabulary from context and word components. Students will practice both intensive and extensive reading.

Credit Hours: 3 hrs

Prerequisite: ESLN 214, department permission or placement

Last Updated: Links 04/2011

ESLN 315 - Study Skills for the English Language Learner II

The purpose of this course is to provide international students with the information and skills that help make the transition to an American college more successful. Students learn how to effectively use their syllabus, determine their own learning styles and study techniques, how to manage their time and prioritize tasks based on individual goals, and to live and learn in a multicultural environment.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 316 - Advanced ESL Speaking and Listening

This course improves speaking and listening skills for active participation in academic and social settings. Students practice effective listening and speaking skills in group study sessions and classroom presentations and discussions. Students develop strategies for effective note-taking skills, especially from talks featuring a variety of accents.

Credit Hours: 3 hrs

Prerequisite: ESLN 216, department permission or placement

Last Updated: Links 04/2011

ESLN 317 - American Language and Culture II

Students explore themes in American society and pop culture. Using reading, media, and oral assignments, international students develop American cultural capital to help them better understand America's people and society. The focus is on building the four linguistic communicative competencies through practice and application.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 319 - Community and Current Events II

This course provides students with practice in the English listening/speaking skills necessary to succeed in the American university. It also will provide students with the chance to combine critical thinking with practical experiences as they make an active contribution with community-based projects. Students will learn about themselves and their community.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ESLN 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ESLN 410 - Academic ESL Grammar

This course focuses on the knowledge and skills required to produce grammatically accurate and coherent texts in extended academic oral and written discourse. Students practice less frequently used verb tenses, verb tense sequencing, modifications to adjective and adverb clauses and multiple forms of noun clauses in various complex sentences.

Credit Hours: 3 hrs

Prerequisite: department permission

ESLN 412 - Academic ESL Writing (Gen Ed Area I)

This course focuses on academic inquiry and writing with an emphasis on American conventions for non-native speakers of English. Students utilize critical reading and thinking skills to engage in the process of writing researched essays.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 410

Area I: Effective Communication

ESLN 412 Academic Writing

In ESLN 412, EMU students develop the foundation for writing, research and critical thinking strategies that they will use throughout their college careers and in the workplace. Writing is both a means of communication, and a tool for developing new ideas. Good writers are flexible. They know how to assess the expectations of a variety of audiences with whom they want to communicate and how to draw on or develop different writing strategies to meet those expectations. Good writers also understand that different kinds of writing have different conventions and they can move fluidly between those conventions. ESLN 412 students develop these strategies that are key to effective communication throughout the course. Students write between 50-70 pages of draft work and between 20-30 pages of polished, final-draft work during the course of the semester, and that work is supported and directed by frequent feedback from the instructor.

Last Updated: Links 04/2011

ESLN 414 - Academic ESL Reading

Students in this course will explore various strategies when reading university-level academic texts. Students will compare and synthesize different points of view and recognize and respond to the rhetorical techniques and structures used by writers to achieve their purposes. Students further develop their academic vocabulary skills and strategies.

Credit Hours: 3 hrs

Prerequisite: ESLN 314, department permission or placement

Last Updated: Links 04/2011

ESLN 416 - Academic ESL Speaking and Listening

This course improves speaking and listening skills for active participation in academic settings. Students practice comprehending lectures on academic topics, taking notes and effectively participating in informal and formal classroom speaking activities. Students continue to build and use academic vocabulary in oral discourse.

Credit Hours: 3 hrs

Prerequisite: ESLN 316, department permission or placement

Last Updated: Links 04/2011

ESLN 418 - American Pronunciation for Professionals

Students recognize and correct those aspects of pronunciation that hinder overall oral and aural comprehensibility by analyzing, repeating, and monitoring both recorded examples of speech in academic and professional contexts and their own production. They also develop oral control of the academic vocabulary in their field of study.

Credit Hours: 3 hrs

Prerequisite: Placement by the ESL Advisor according to on-campus placement test through the ESL Office or by the sub-scores on either the TOEFL, MELAB, or IELTS exam (at the time of application, students have the option of providing a TOEFL/MELAB/IELTS score, or taking a placement test upon arrival); department permission

ESLN 477 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

ESLN 478 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

ESLN 479 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

ESLN 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 1 hrs

Prerequisite: department permission

ESLN 498 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 2 hrs

Prerequisite: department permission

ESLN 499 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 3 hrs

Prerequisite: department permission

ESLN 512 - Academic Writing for International Graduate Students

Students engage in extensive critical reading and analysis of discipline-specific topics and compose well-documented papers on the basis of their research using standard English conventions and documentation. Attention is given to grammatical accuracy and language usage in written assignments.

Credit Hours: 3 hrs

Prerequisite: department permission

Corequisites: ESLN 410

Last Updated: Links 04/2011

ESLN 515 - Graduate ESL Seminar in Academic Communication

This course is designed for non-native speakers of English to improve their oral communication skills for participation in graduate-level classes in their degree program. Students read authentic academic texts and develop skills and strategies for oral presentations and critical response. A major emphasis is on having students learn academic vocabulary and enhance reading skills.

Credit Hours: 3 hrs

Prerequisite: department permission

Last Updated: Links 04/2011

French

FRNH 111 - Introduction to French and the French-Speaking World (Gen Ed Area III)

An introduction to the thirty plus countries where French is spoken. Survey of their cultures, history, geography, religions, politics, economy, literature and arts. Comparison of cultural practices in daily life and the professional world. Acquisition of basic language skills.

No prerequisites. Does not count for FRNH major or minor. *In English and French.*

Credit Hours: 3 hrs

Area III: Perspectives on a Diverse World

FRNH 111: Introduction to French and the French-Speaking World

The study of French-speaking countries, including France, their cultures, is critical for students to expand their understanding of global cultural dynamics and critically compare their own culture to others. French is spoken as a native, official or business language in more than 30 countries in the world. This course aims at furthering the internationalization of EMU students by addressing some of the issues that have been at the forefront of EMU's Administrators' recent campaign in that regard. It will help students adapt for the future in a global society, develop a philosophy of inclusion, become aware of a great variety of cultures other than their own, fight cultural stereotypes, expand their comfort zones with cultural differences, adopt positive attitudes towards and avoid discriminating against others. It will also help them develop a sense of self and understand their own place in the global community.

Last Updated: New Course 12/2011, effective Winter 2012, Gen Ed Approval 5/2012, effective Winter 2013

FRNH 121 - Beginning French (Gen Ed Area IV)

Introductory course including practice in listening, speaking, reading and writing in French. Sessions in the language laboratory are part of regular assignments.

Credit Hours: 5 hrs

Area IV: Knowledge of the Disciplines

FRNH 121 Beginning French I

To be able to communicate in French and appreciate linguistic and cultural similarities and differences, FRNH 121 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of the French language necessary to be able to function at a basic level in a French-speaking environment. Instruction in FRNH 121 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

FRNH 122 - Beginning French (Gen Ed Area IV)

Introductory course including practice in listening, speaking, reading and writing in French. Sessions in the language laboratory are part of regular assignments.

Credit Hours: 5 hrs

Prerequisite: FRNH 121 or by placement exam

Area IV: Knowledge of the Disciplines

FRNH 122 Beginning French II

To be able to communicate in French and appreciate linguistic and cultural similarities and differences, FRNH 122 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of the French language necessary to be able to function at a basic level in a French-speaking environment. Instruction in FRNH122 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

FRNH 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

FRNH 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

FRNH 221 - Intermediate French (Reading) (Gen Ed Area IV)

Rapid reading of large quantities of French. Materials include readings in literature and civilization. Students who plan to continue in French should take this course concurrently with FRNH 233.

Credit Hours: 3 hrs

Prerequisite: FRNH 122 or by placement exam

Last Updated: Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

FRNH 222 - Intermediate French (Reading) (Gen Ed Area IV)

Rapid reading of large quantities of French. Materials include readings in literature and civilization. Students who plan to continue in French should take this course concurrently with FRNH 234.

Credit Hours: 3 hrs

Prerequisite: FRNH 221 or by placement exam

Last Updated: Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

FRNH 233 - Intermediate French Conversation, Composition and Grammar (Gen Ed Area IV)

A review of grammar; practice in writing and speaking. Sessions in the language laboratory are available. Students who plan to continue in French should take this course concurrently with FRNH 221.

Credit Hours: 3 hrs

Prerequisite: FRNH 122 or by placement exam

Last Updated: Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

FRNH 234 - Intermediate French Conversation, Composition and Grammar (Gen Ed Area IV)

A review of grammar; practice in writing and speaking. Sessions in the language laboratory are available. Students who plan to continue in French should take this course concurrently with FRNH 222.

Credit Hours: 3 hrs

Prerequisite: FRNH 233 or placement exam

Last Updated: Gen Ed Approval 04/2012, effective Fall 2012; Links 04/2011

FRNH 261 - Introduction to Professional Language Study

This course introduces students to the application of professional languages in a variety of settings focusing on oral and written communication. Students acquire the vocabulary and phrases of basic professional interactions, learn to translate documents of different professions and acquire basic interpreting techniques. Students with interests in other careers will find the course helpful and they can complete special projects.

Credit Hours: 3 hrs

Prerequisite: FRNH 121, FRNH 122, FRNH 221, FRNH 222, FRNH 233, FRNH 234

Last Updated: Links 04/2011

FRNH 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

FRNH 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

FRNH 343 - French Composition

A review and expansion of the elements of the grammar, idioms and deep structures of French. English to French translation exercises provide practice and clarification of the relationship between morphology and syntax. Written compositions on a wide choice of topics are assigned to demonstrate students' mastery of acquired linguistic competence. In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 234 or department permission

Last Updated: Description 07/2011; Links 04/2011

FRNH 344 - French Conversation

Builds on the foundation in speaking skills acquired in previous courses. Emphasizes pronunciation, acquisition of vocabulary and idioms for daily life, basic sentence structures and the development of greater oral proficiency. Presentation and practice of phonological principles. In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 234 or department permission

Last Updated: Links 04/2011

FRNH 345 - French Culture and Civilization

A study of French history and civilization. All major pre-World War I historical periods and cultural movements will be covered. In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 222 and FRNH 234

Previously Listed As: FRNH 467

Last Updated: Links 04/2011

FRNH 346 - 20th-Century French Civilization

A study of the main events of the 20th century. The major historical and social movements will be covered. *In French.*

Credit Hours: 3 hrs

Prerequisite: FRNH 345

Previously Listed As: FRNH 476

Last Updated: Links 04/2011

FRNH 361 - French for International Trade

This course is intended for students who already have a solid intermediate-level command of French and who wish to acquire minimum professional competence in the French language as it is used in the world of international business. It includes practice in various forms of business communication, both oral and written. In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 343 or department permission

Last Updated: Links 04/2011

Prerequisite: FRNH 346

Previously Listed As: FRNH 342

Last Updated: Links 04/2011

FRNH 443W - Advanced French Grammar and Composition (Gen Ed Area I, W)

An advanced study of the morphology and syntax of French. Students will further develop their knowledge of the deep structure and lexicon of the language through translation and compositions on a wide variety of topics, demonstrating mastery of idioms, stylistic levels, textual comprehension and an awareness of the distinction between English and French. In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 343

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Description 07/2011; Graduate Credit 07/2011; Links 04/2011

FRNH 444 - Advanced French Conversation

Development of advanced oral proficiency. Emphasizes pronunciation, acquisition of vocabulary and idioms for daily life, advanced sentence structures. Advanced presentation and practice of phonological principles. Includes a formal proficiency assessment in French.

Credit Hours: 3 hrs

Prerequisite: FRNH 343 and FRNH 344 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

FRNH 445 - French Phonetics

Study of the sound system of the French language including both theory and practice. Major focus on the International Phonetic Alphabet as it applies to French. Lecture and practical exercises in class. In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 344

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

FRNH 446 - Business French I

Study of principles and practices of business communication in France with emphasis on business correspondence and translation. Introduction to the French economy including business law, industry, business and services. In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 361 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

FRNH 447 - Business French II

Further study of business practices, business law and the French economy. Emphasis on business correspondence and translation and on French ties with the European economic community, the U.S., the East, developing countries and Francophone countries. Prepares student for language proficiency examinations (CCIP diplomas). In French.

Credit Hours: 3 hrs

Prerequisite: FRNH 446 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

FRNH 450 - French Civilization in Film

The purpose of this course is to study a number of French films and distinguish between fiction and reality as portrayed in the film. Students will research the era and compare the events shown in the film with the societal or historical facts found in their research.

Credit Hours: 3 hrs

Prerequisite: FRNH 343 and FRNH 344

Last Updated: Links 04/2011

FRNH 451 - Readings in French

Special projects in directed readings for majors and minors who have completed the available offerings in French or who, because of most unusual circumstances, are granted department approval to substitute one or both of these for the regular courses.

Credit Hours: 1 hr

Prerequisite: FRNH 441, FRNH 442 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

FRNH 452 - Readings in French

Special projects in directed readings for majors and minors who have completed the available offerings in French or who, because of most unusual circumstances, are granted department approval to substitute one or both of these for the regular courses.

Credit Hours: 2 hrs

Prerequisite: FRNH 441, FRNH 442 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

FLAN 387 - Cooperative Education in Foreign Language

Four to six months of full-time employment in a position designed to give practical experience in a field related to the student's foreign language major. The program ordinarily consists of two work experiences (FLAN 387/FLAN 487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: Admission to the program by application only

Class Restrictions: Junior standing

Notes: Offered on a credit/no-credit basis.

Last Updated: Links 06/2011

FLAN 388 - Internship

An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

Credit Hours: 1 hr

Prerequisite: department permission

Notes: Offered on a credit/no-credit basis.

FLAN 411 - Theory and Methods of Modern Language Teaching

The history, theory and techniques of modern language teaching. Not counted in the language area of the degree requirements, nor toward a major in any modern language. Should be taken during the fall semester prior to student teaching. Not open to students on academic probation.

Credit Hours: 3 hrs

Prerequisite: FRNH 343, SPNH 343, GERN 343 or department permission

Corequisites: FLAN 441

Class Restrictions: Junior standing

Major Restrictions: Admission to the Initial Teacher Preparation Program

Last Updated: Co-requisite update, 07/2012; Links 04/2011

FLAN 412 - Methods of Teaching Modern Languages in the Elementary Grades

This course is designed to prepare students who have already earned secondary teaching certificates in French, German, Japanese and Spanish for careers as foreign language teachers in elementary (K-6) school settings.

Credit Hours: 3 hrs

Prerequisite: FLAN 411; department permission

Corequisites: FLAN 442

Class Restrictions: Senior standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Corequisite update 08/2012; Graduate Credit 07/2011; Links 04/2011

FLAN 421 - History and Theory of Bilingual Education

Sociolinguistic and psycholinguistic aspects of bilingualism, language acquisition and cognitive development in the bilingual child, different instructional models for bilingual education programs, and school and community relations. A minimum of 24 hours of field experience required. Not open to students on academic probation.

Credit Hours: 3 hrs

FLAN 422 - Teaching Hispanic Culture and Language

The techniques and materials for teaching the language and culture of Hispanic groups within the bilingual classroom. Techniques and materials for teaching other subject-matter areas in Spanish. A minimum of 24 hours of field experience in a bilingual classroom required. Not open to students on academic probation.

Credit Hours: 3 hrs

Major Restrictions: Admission to the Initial Teacher Preparation Program

Last Updated: Links 04/2011

FLAN 441 - Practicum in World Language Instruction - Secondary

Students apply concepts and theories learned in FLAN 411 to teach varied lesson designs in mentored, weekly small group micro-teaching sessions.

Credit Hours: 3 hrs

Prerequisite: Successful completion of Phase I of the Initial Teacher Preparation Program, and department permission

Corequisites: FLAN 411

Last Updated: New Course 04/2012, effective Fall 2012

FLAN 442 - Practicum in World Language Instruction - Elementary

This course prepares teacher candidates for careers as world language teachers in elementary schools. Students participate in weekly guided discussion sessions based on concepts and theories learned in FLAN 412 and complete a minimum of 45 hours of observation in approved K-5 auxiliary, elementary, exploratory, and immersion world language programs.

Credit Hours: 3 hrs

Prerequisite: FLAN 411, FLAN 441, successful completion of Phase I of the Initial Teacher Preparation Program, and department permission

Corequisites: FLAN 412

Last Updated: New Course 04/2012, effective Fall 2012

FLAN 477 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

FLAN 478 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

FLAN 479 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

FLAN 487 - Cooperative Education in Foreign Language

Four to six months of full-time employment in a position designed to give practical experience in a field related to the student's foreign language major. The program ordinarily consists of two work experiences (FLAN387/487) alternating with full-time attendance at the University.

Credit Hours: 3 hrs

Prerequisite: FLAN 387; admission to the program by application only

Notes: Offered on a credit/no-credit basis.

Last Updated: Links 04/2011

FLAN 488 - Internship in Language and International Trade

An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

Credit Hours: 2 hrs

Prerequisite: department permission

Notes: Offered on a credit/no-credit basis.

FLAN 489 - Internship in Language and International Trade

An opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

Credit Hours: 3 hrs

Prerequisite: department permission

Notes: Offered on a credit/no-credit basis.

FLAN 497 - Independent Study

Advanced study on an individual basis in areas not covered in formal course work.

Credit Hours: 1 hr

Prerequisite: department permission

FLAN 498 - Independent Study

Advanced study on an individual basis in areas not covered in formal course work.

Credit Hours: 2 hrs

Prerequisite: department permission

FLAN 499 - Independent Study

Advanced study on an individual basis in areas not covered in formal course work

Credit Hours: 3 hrs

Prerequisite: department permission

German

GERN 121 - Beginning German (Gen Ed Area IV)

Instruction includes pronunciation, aural-oral pattern practice, the fundamentals of grammar, written exercises and reading.

Credit Hours: 5 hrs

Area IV: Knowledge of the Disciplines

GERN 121 Beginning German I

Beginning German qualifies as a General Education course for the Humanities because it satisfies the outcome requirements for Foreign Language courses: 1. Communicate at a basic functional level in a language other than their own native tongue; 2. Demonstrate a basic understanding of the relationship between culture and language; and 3. Use basic forms and structures of a language in communicating in that language. Students learn to produce, through speaking and writing, and to understand, through

reading and listening, the elements of the German language necessary to be able to function on a basic level in a German-speaking environment.

GERN 122 - Beginning German (Gen Ed Area IV)

The goals of the two-course Beginning German sequence are the development of oral and written communication through the use of verbal and nonverbal symbols. The emphasis is on communicative competence (both spoken and written) through the mastery of vocabulary and grammar appropriate to given communicational situations. Besides gaining communicative skills in German, the student can expect to gain some familiarity with modern German culture.

Credit Hours: 5 hrs

Prerequisite: GERN 121 or by placement examination

Area IV: Knowledge of the Disciplines

GERN 122 Beginning German II

The second semester course of Beginning German satisfies the outcome requirements for Foreign Language courses. To be able to communicate in German and appreciate linguistic and cultural similarities and difference, GERN 122 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of their German language necessary to be able to function at a basic level in a German-speaking environment. Instruction in GERN 122 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

Last Updated: Links 04/2011

GERN 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

GERN 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

GERN 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

GERN 221 - Intermediate German Reading (Gen Ed Area IV)

This course consists of readings in German literature and civilization. Students who plan to continue in German should take GERN 233 concurrently with GERN 221, and GERN 234 concurrently with GERN 222.

Credit Hours: 3 hrs

Prerequisite: GERN 122 or by placement examination

Area IV: Knowledge of the Disciplines

GERN 221 Intermediate German Reading

As a language course sequence, GERN 221 and GERN 222 are designed to strengthen and improve students' language skills (speaking, reading, listening and writing) at the appropriate level. The contents of the course enable students to develop an appreciation and understanding of other cultures (German-speaking countries of Europe), in the domains of literature, films, the arts, as well as linguistic, cultural and societal differences. The students are expected to express their knowledge and understanding of these topics in German.

Last Updated: Links 04/2011

GERN 222 - Intermediate German Reading (Gen Ed Area IV)

This course consists of readings in German literature and civilization. Students who plan to continue in German should take GERN 233 concurrently with GERN 221, and GERN 234 concurrently with GERN 222.

Credit Hours: 3 hrs

Prerequisite: GERN 122 or by placement examination

Area IV: Knowledge of the Disciplines

GERN 222 Intermediate German Reading

As a language course sequence, GERN 221 and GERN 222 are designed to strengthen and improve students' language skills (speaking, reading, listening and writing) at the appropriate level. The contents of the course enable students to develop an appreciation and understanding of other cultures (German-speaking countries of Europe), in the domains of literature, films, the arts, as well as linguistic, cultural and societal differences. The students are expected to express their knowledge and understanding of these topics in German.

Last Updated: Links 04/2011

GERN 233 - Intermediate German Conversation, Composition and Grammar (Gen Ed Area IV)

This course requires the student to practice spoken and authentically correct language in the social cultural situations that occur in German-speaking Europe.

Credit Hours: 3 hrs

Prerequisite: GERN 122 or equivalent

Area IV: Knowledge of the Disciplines

GERN 233 Intermediate German Conversation, Composition and Grammar [effective Winter 2009]

As a language course sequence, GERN 233 and GERN234 are designed to develop and improve students' language skills (speaking, reading, listening and writing) at an intermediate level. The contents of the course enable the students to develop an appreciation and understanding of other cultures (German-speaking countries of Europe), in the domains of literature, films, the arts, as well as linguistic, cultural and societal differences. Students are expected to express their knowledge and understanding of these topics in German at an intermediate level of proficiency.

Last Updated: Links 04/2011

GERN 234 - Intermediate German Conversation, Composition and Grammar (Gen Ed Area IV)

This course requires the student to practice spoken and authentically correct language in the social cultural situations that occur in German-speaking Europe.

Credit Hours: 3 hrs

Prerequisite: GERN 233 or equivalent

Area IV: Knowledge of the Disciplines

GERN 234 Intermediate German Conversation, Composition and Grammar [effective Winter 2009]

As a language course sequence, GERN 233 and GERN234 are designed to develop and improve students' language skills (speaking, reading, listening and writing) at an intermediate level. The contents of the course enable the students to develop an appreciation and understanding of other cultures (German-speaking countries of Europe), in the domains of literature, films, the arts, as well as linguistic, cultural and societal differences. Students are expected to express their knowledge and understanding of these topics in German at an intermediate level of proficiency.

GERN 261 - Introduction to Professional Language Study

This course introduces students to the application of professional languages in a variety of settings focusing on oral and written communication. Students acquire the vocabulary and phrases of basic professional interactions, learn to translate documents of different professions and acquire basic interpreting techniques. Students with interests in other careers will find the course helpful and they can complete special projects.

Credit Hours: 3 hrs

Prerequisite: GERN 121, GERN 122, GERN 221, GERN 222, GERN 233 and GERN 234

Last Updated: Links 04/2011

GERN 277 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

GERN 278 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

GERN 279 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

GERN 343 - German Composition on Cultures and Civilization

A detailed examination of German cultures and historical and contemporary German, Austrian and Swiss life. A systematic grammar review accomplishes process-oriented composition writing.

Credit Hours: 3 hrs

Prerequisite: GERN 234 or department permission

Last Updated: Links 04/2011

GERN 344 - Principles of German Phonetics and Conversation

Students learn where and how German language sounds are formed and articulated. Pronunciation exercises and applied German phonetics are the basis for improved speaking competence in combination with vocabulary and idiom building. Readings, tapes, video, the Internet and film provide conversation stimulus.

Credit Hours: 3 hrs

Prerequisite: GERN 234 or department permission

Last Updated: Links 04/2011

GERN 361 - German for International Trade

Develops working knowledge of commercial material including economics and business in multinational setting. Cross-cultural references provide opportunity for comparative and contrastive analysis of American and German cultural patterns in a business setting. In German.

Credit Hours: 3 hrs

Prerequisite: GERN 343 or department permission

Last Updated: Links 04/2011

GERN 366 - The Cultures of German-Speaking Europe

Compares and analyzes the history, the culture, and regional varieties of German in Germany, Austria, Switzerland, Lichtenstein, Northern Italy, parts of Belgium, Luxembourg and Romania. Students will compare the societal and historical facts and their implications in the European Union. Discussions, presentations and papers. In German.

Credit Hours: 3 hrs

Prerequisite: GERN 343 and GERN 344

Last Updated: Links 04/2011

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

GERN 427 - German Literature from 1850-1945

Selections from the literature of Poetic Realism, Biedermeier, Naturalism, Neo-Romanticism and Expressionism viewed against the background of political and cultural history. Classroom discussion and student reports. In German.

Credit Hours: 3 hrs

Prerequisite: GERN 442 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

GERN 428 - German Literature and Film from 1945 to the Present

This course explores how literary works and films have shaped the cultural life in post-war German-speaking countries of Europe. Classroom discussions, papers and reports. In German.

Credit Hours: 3 hrs

Prerequisite: GERN 442

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

GERN 441 - Survey of German Literature 800-Enlightenment

This course is an introduction to representative works from the earliest period of German literature and culture through the *Enlightenment*. This includes a close analysis of literary texts, an introduction to scholarly terminology, and developing critical thinking skills in German. Students will also gain exposure to developments in literary criticism.

Credit Hours: 3 hrs

Prerequisite: GERN 343, GERN 344 and GERN 366; department permission

Class Restrictions: Sophomore standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

GERN 442 - Survey of German Literature: Enlightenment to 1945

This course begins with the Sturm und Drang period (1767-1790) and traces the development of German literature up through 1945. Representative literary texts will be analyzed against the backdrop of their socio-historical context and in light of contemporary criticism and cultural movements of the time.

Credit Hours: 3 hrs

Prerequisite: GERN 343, GERN 344, GERN 366 and GERN 441 or instructor approval; department permission

Class Restrictions: Sophomore standing

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

GERN 443W - German Syntax and Advanced Composition (Gen Ed Area I, W)

Builds on the foundation in written expression acquired in GERN 343. Intensive vocabulary and idiomatic writing; treatment of the more complex structural features of German and stylistics. Frequent assignments increase the student's ability to write for a variety of purposes.

Credit Hours: 3 hrs

Prerequisite: GERN 343 and GERN 344 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

GERN 444 - Advanced German Conversation

Development of advanced conversational fluency. A variety of media are employed to increase the student's facility in oral comprehension, and to stimulate conversational exchange among the class members.

Credit Hours: 3 hrs

Prerequisite: GERN 343 and GERN 344 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

GERN 446 - Business German I

The idiomatic and terminology of the German economy and economic geography. Emphasis on business communication in German.

Credit Hours: 3 hrs

GERN 447 - Business German II

The idiomatic and terminology of the German economy and management. Emphasis on business communication and correspondence in German.

Credit Hours: 3 hrs

Prerequisite: GERN 446 or department permission

Last Updated: Links 04/2011

GERN 451 - Readings in German

Special projects in directed reading for majors and minors who have completed the available offerings in German or who, because of most unusual circumstances, are granted department approval to substitute this for the regular courses.

Credit Hours: 1 hr

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

GERN 452 - Readings in German

Special projects in directed reading for majors and minors who have completed the available offerings in German or who, because of most unusual circumstances, are granted department approval to substitute this for the regular courses.

Credit Hours: 2 hrs

Prerequisite: department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011

GERN 456 - Technical German I

Specialized vocabulary and jargon used in selected fields of technology. Basic technical concepts and terminology that students may encounter in German industry. Development of oral and reading facility as well as accurate translation of technical documents. Selected aspects of electronics, wood and metalworking, metallurgy, brake systems, computers, robotics, and auto production. Content areas will occasionally be changed and updated in order to keep pace with changed student needs and changes in technology.

Credit Hours: 3 hrs

Prerequisite: GERN 343 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

JPNE 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

JPNE 385 - Culture of Japan

An analysis of Japanese culture from a comparative perspective. The course presents the ethnological approach to cross-cultural understanding as applied to the study of Japanese culture. By contrasting and comparing insider and outsider analyses of

Japanese behavior, the dynamics of cross-cultural research are documented and discussed.

Credit Hours: 3 hrs

Prerequisite: ANTH 135 or department permission

Cross-Listed with: ANTH 385

Last Updated: Links 04/2011

JPNE 444 - Advanced Japanese Conversation

The course aims to develop advanced conversational fluency. Students are expected to participate actively in group discussion. Instruction includes extensive vocabulary building for discussing a variety of subjects in Japanese.

Credit Hours: 3 hrs

Prerequisite: JPNE 344 or department permission

Last Updated: Links 04/2011

JPNE 445 - Survey of Japanese Literature

Guides students to an understanding of the value and role of literary and cultural texts and uses them to interpret and recognize distinctive Japanese cultural perspectives over time.

Credit Hours: 3 hrs

Prerequisite: JPNE 444 or department permission

Last Updated: Links 04/2011

JPNE 446 - Business Japanese I

The course aims to increase proficiency in business communication in Japanese and to develop knowledge of Japanese economy, industry and foreign trade. Extensive work on the vocabulary and idiom of Japanese economy and business. In Japanese.

Credit Hours: 3 hrs

Prerequisite: JPNE 361 or department permission

Last Updated: Links 04/2011

JPNE 447 - Business Japanese II

The course provides an overview of the system of organization, managerial style and personnel relations of Japanese companies. Study of business communication focuses on business correspondence. In Japanese.

Credit Hours: 3 hrs

Prerequisite: JPNE 446 or department permission

Last Updated: Links 04/2011

JPNE 448 - Readings on Japanese Culture

This is a course of study designed to introduce contemporary Japanese culture and civilization through reading.

Credit Hours: 3 hrs

Prerequisite: JPNE 444 or department permission

Last Updated: Links 04/2011

JPNE 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

JPNE 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

JPNE 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

JPNE 490 - Intensive Japanese Abroad

An intensive linguistic and cultural immersion experience of at least one academic semester duration offered in Japan. Instruction at many different levels. May be repeated for credit

Credit Hours: 6 hrs

Notes: In Japanese.

JPNE 494 - Seminar in Japanese Studies

Required of students majoring in teaching Japanese language and culture. Extensive study and discussion of issues related to Japanese society and to language structures. Students are required to apply Japanese language skills in research, presentations and papers.

Credit Hours: 3 hrs

Prerequisite: JPNE 446 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 04/2011

JPNE 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 1 hr

Prerequisite: department permission

JPNE 498 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 2 hrs

Prerequisite: department permission

JPNE 499 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 3 hrs

Prerequisite: department permission

Language

LNGE 134 - Etymology

Greek and Latin words and roots that are current in English forms are studied in order to enlarge the vocabulary and to produce a more discriminating use of words.

Credit Hours: 3 hrs

LNGE 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LNGE 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

LNGE 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

LNGE 202 - Grammar for ESL Teachers

The main purpose of this course is to help students to develop: (a) an explicit understanding of the most frequently occurring English structures, (b) a working knowledge of prescriptive and descriptive rules, (c) sensitivity to learners' developmental errors and (d) the analytical skills needed to teach grammar to English language learners.

Credit Hours: 3 hrs

LNGE 223 - Introduction to Language

The basic principles of linguistic structure as they apply to the western European languages taught in the department.

Credit Hours: 3 hrs

LNGE 240 - Linguistic and Cultural Diversity in the U.S.

Students explore the nature of language and its relationship to culture as it impacts the classroom. Special emphasis will be placed on the dissemination and use of English in the U.S., the role of geography, ethnicity, and social status in language diversity, and the impact of language choice as they impact TESOL.

Credit Hours: 3 hrs

Last Updated: 04/2006; effective Summer 2007

LNGE 242 - Linguistic and Cultural Diversity: Global Englishes

Students will explore the nature of language and its relationship to culture as it impacts the classroom. Emphasis will be on the dissemination of Englishes around the world through TESOL, the role of geography, ethnicity, and social status in language diversity, and the impact of language choice within educational settings.

Credit Hours: 3 hrs

Last Updated: 04/2006; effective Summer 2007

LNGE 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LNGE 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

LNGE 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

LNGE 325 - Second Language Acquisition

Students examine the nature of learning a second language simultaneously with, or subsequent to, one's first language. Linguistic, cognitive, affective, cultural and social factors influencing the acquisition of another language are explored. Focus includes various age and English ability levels.

Credit Hours: 3 hrs

Prerequisite: LNGE 223 and LNGE 202

Last Updated: Links 04/2011

LNGE 377 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LNGE 378 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

LNGE 379 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

LNGE 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LNGE 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Prerequisite: department permission

Latin

LATN 101 - Beginning Latin I

This course introduces students to the basic vocabulary, grammar, and syntax of the Latin language with a view to the reading of Roman literature.

Credit Hours: 3 hrs

LATN 102 - Beginning Latin II

As a follow-up to LATN 101, this course will continue a general introduction to the basic vocabulary, grammar and syntax of the Latin language with a view to the reading of Roman literature.

Credit Hours: 3 hrs

Prerequisite: LATN 101

Last Updated: Links 04/2011

LATN 177 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LATN 178 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

LATN 179 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

LATN 201 - Intermediate Latin I

As a follow-up to LATN 101-LATN 102, this course will complete a full survey of the elements of Latin grammar and syntax. It will also introduce students to the reading of original passages of major authors, especially prose writers such as Cicero, Caesar, Sallust and Livy.

Credit Hours: 3 hrs

Prerequisite: LATN 102

Last Updated: Links 04/2011

LATN 202 - Intermediate Latin II

As a follow-up to LATN 201, this course will review basic and finer points of the grammar and syntax of ancient Latin during the reading of major authors such as Lucretius, Catullus, Virgil, Cicero, Seneca, Tacitus and Juvenal.

Credit Hours: 3 hrs

Prerequisite: LATN 201

Last Updated: Links 04/2011

LATN 277 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

LATN 278 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

LATN 279 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

Spanish

SPNH 121 - Beginning Spanish I (Gen Ed Area IV)

First semester of beginning Spanish covering basic principles of grammar. Practice in elementary conversation, pronunciation, composition and reading. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources).

Credit Hours: 5 hrs

Area IV: Knowledge of the Disciplines

SPNH 121 Beginning Spanish I

To be able to communicate in Spanish and appreciate linguistic and cultural similarities and differences, SPNH 121 students learn to produce through speaking and writing, and to understand through reading and listening, the elements of the Spanish

language necessary to be able to function at a basic level in a Spanish-speaking environment. Instruction in SPNH 121 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of a foreign cultural viewpoint.

SPNH 122 - Beginning Spanish II (Gen Ed Area IV)

Second semester of beginning Spanish covering basic principles of grammar. Practice in elementary conversation, pronunciation, composition and reading. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources).

Credit Hours: 5 hrs

Prerequisite: SPNH 121 or by placement exam

Area IV: Knowledge of the Disciplines

SPNH 122 Beginning Spanish II

To be able to communicate in Spanish and appreciate linguistic and cultural similarities and differences, SPNH 122 students learn to produce through speaking and writing, and to understand through reading and listening the elements of the Spanish language necessary to be able to function at a basic level in a Spanish speaking environment. Instruction in SPNH 122 provides examples of speaking and writing that native speakers use to accomplish real tasks; students learn to master these structures while developing a new perspective on their own language, and an appreciation of foreign cultural viewpoint.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SPNH 201 - Intermediate Spanish I (Gen Ed Area IV)

First semester of second-year Spanish focusing on a review of Spanish grammar, composition, and oral work. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources). In Spanish.

Credit Hours: 4 hrs

Prerequisite: SPNH 122 or by placement exam

Area IV: Knowledge of the Disciplines

SPNH201 Intermediate Spanish I

Intermediate Spanish prepares students to communicate effectively through both oral and written language comprehension and production, by offering a thorough review of elementary structures along with an introduction to and practice of more complicated grammatical concepts and more sophisticated vocabulary terms. The course meets four hours weekly, which provides students continuing contact with the language and consistent exposure to the cultural components of language acquisition, including: study of the customs and history of Spanish-speaking places, knowledge of linguistic developments, exposure to works of art, music and literary selections produced within a Hispanic context, and a global awareness through knowledge of particular social and political issues affecting Spanish-speaking populations in the United States and abroad.

Last Updated: Links 03/2011

SPNH 202 - Intermediate Spanish II (Gen Ed Area IV)

Second semester of second-year Spanish focusing on a review of Spanish grammar, composition, and oral work. Regular use of language laboratory and ancillaries (e.g., workbook, compact discs, tapes and publisher Internet resources). In Spanish.

Credit Hours: 4 hrs

Prerequisite: SPNH 201 or by placement exam

Area IV: Knowledge of the Disciplines

SPNH 202 Intermediate Spanish II

Intermediate Spanish II prepares students to communicate effectively through both oral and written language comprehension and production, by offering an introduction to and practice of complicated grammatical concepts and sophisticated vocabulary terms. The course meets four hours weekly, which provides students continuing contact with the language and consistent exposure to the cultural components of language acquisition including: study of the customs and history of Spanish-speaking places, knowledge of linguistic developments, exposure to works of art, music and literary selections produced within a Hispanic context, and global awareness through knowledge of particular social and political issues affecting Spanish-speaking populations in the United States and abroad.

Last Updated: Links 03/2011

SPNH 221 - Intermediate Spanish Reading (TO BE DELETED) (Gen Ed Area IV)

An introduction to literary criticism as applied to Hispanic literature. Extensive reading of materials in Hispanic literature and culture. In Spanish.

Credit Hours: 3 hrs

Prerequisite: SPNH 202 or by placement exam

Course Revisions:

Course Revisions: This course will be deleted, effective Winter 2013.

SPNH 456 - Scientific and Technical Spanish I

Study of the fundamental Spanish terminology required for scientific and technical contexts, including basic vocabulary for mathematics, geometry and physics. In-depth study of at least one scientific or technical field (e.g., automobile industry, automated processes). Students will explore the vocabulary and resources in their chosen fields.

Credit Hours: 3 hrs

Prerequisite: SPNH 343 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPNH 457 - Scientific and Technical Spanish II

Study of the fundamental Spanish terminology required for scientific and technical contexts, including basic vocabulary for computers, chemistry and biology. In-depth study of at least one scientific or technical field (e.g., data processing, nutrition). Students will explore the vocabulary and resources in their chosen fields.

Credit Hours: 3 hrs

Prerequisite: SPNH 456 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPNH 463 - Don Quixote

The universal qualities of both the book and its author, as well as their relation to Spanish life and literature of the period. In Spanish.

Credit Hours: 3 hrs

Prerequisite: SPNH 401 or department permission

Last Updated: 03/2011

SPNH 464 - Drama of the Golden Age

The drama of the 16th and 17th centuries. Works of the major authors will be read and discussed. In Spanish.

Credit Hours: 3 hrs

Prerequisite: SPNH 401 or department permission

Last Updated: 03/2011

SPNH 465 - Modern Novel

Study of the development of the modern novel in Spain during the 19th and 20th centuries. Representative novels will be read and discussed. In Spanish.

Credit Hours: 3 hrs

Prerequisite: SPNH 401 or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; 03/2011

SPNH 467 - Introduction to Spanish Interpretation

Introductory course in consecutive interpreting for the professions. Compare modes of express of expression and introduce theoretical aspects and practical techniques of interpreting using simulations. Students interpret from English to Spanish and from Spanish to English. Professional area changes each time offered. Students also do a field project and write a research paper on an aspect of interpreting.

Credit Hours: 3 hrs

Prerequisite: SPNH 443

Last Updated: New Course, 11/2012, effective Winter 2013

SPNH 471 - Culture and Literature of the Hispanic Groups in the United States

A study of the cultures of the major Hispanic groups in the U.S. The study of representative literary works is intended to lead to an increased appreciation of the cultural roots and current life styles of these groups. In Spanish. A minimum of 24 hours of field experience required.

Credit Hours: 3 hrs

Prerequisite: SPNH 322, or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Course Revisions:

SPNH 322 added as a Prerequisite, effective Winter 2013

Last Updated: Prerequisite added 11/2012, effective Winter 2013; Graduate Credit 07/2011

SPNH 477 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

SPNH 478 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SPNH 479 - Special Topics

These courses deal with subject matter not provided in other department offerings. Students may elect such a course several times, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SPNH 482 - Language of the Hispanic Groups in the United States

A survey of present-day social and regional variations in the Spanish spoken in the U.S. and the historical background of these variations. In Spanish. A minimum of 24 hours of field experience required.

Credit Hours: 3 hrs

Prerequisite: An introductory course in linguistics or department permission

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

SPNH 488 - Internship

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

Credit Hours: 2 hrs

Prerequisite: Department permission

Notes: Offered on a credit/no-credit basis

Last Updated: Links 03/2011

SPNH 489 - Internship

Provides an opportunity for the student to extend theoretical classroom learning through working experience in an appropriate setting. Field experience will be supplemented by regular meetings with the faculty supervisors.

Credit Hours: 3 hrs

Prerequisite: Department permission

Notes: Offered on a credit/no-credit basis.

Last Updated: Links 03/2011

SPNH 490 - Intensive Spanish

An intensive linguistic and cultural immersion experience of at least six weeks' duration in a Spanish-speaking country. Instruction at many different levels. May be repeated for credit. In Spanish.

Credit Hours: 6 hrs

SPNH 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 1 hr

Prerequisite: Department permission

Last Updated: Links 03/2011

SPNH 498 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 2 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

SPNH 499 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 3 hrs

Prerequisite: Department permission

Last Updated: Links 03/2011

TESOL

TSLN 330 - TESOL Methodology: Literacy

This course teaches recent literacy theory and its application to pedagogy, including research-based concepts of literacy and their relationship to practical aspects of language acquisition. The course builds teacher candidates' understanding of language and literacy development with an emphasis on teaching English to speakers of other languages.

Credit Hours: 3 hrs

Prerequisite: LNGE 325

Last Updated: Links 03/2011

TSLN 332 - Methodology: Listening and Speaking

This course connects recent language theory and research-based concepts of the teaching of oral/aural language to practical aspects of language acquisition and teaching. The course builds teacher candidates' understanding of oral/aural language development with an emphasis on teaching English to speakers of other languages.

Credit Hours: 3 hrs

Prerequisite: LNGE 325

Last Updated: Links 03/2011

TSLN 410 - TESOL Methodology: Content-Based Approaches

This course focuses on applying principles of English language instruction within content courses. Emphasis is placed on teaching students to use research-based methods of teaching language components (i.e. grammar, vocabulary and pronunciation) and integrating the 4-skills (listening, speaking, reading and writing) with teaching specific content (e.g. science, social studies).

Credit Hours: 3 hrs

Prerequisite: TSLN 330 and TSLN 332

Graduate Credit: This is an undergraduate course available to graduate students for graduate credit.

Last Updated: Graduate Credit 07/2011; Links 03/2011

TSLN 420 - SLA Testing and Assessment

This course teaches students the basics of testing English speakers of other languages (ESOL) based on current second language acquisition theory, reviews existing tests used with ESOL students, develops tests and alternative assessments for ESOL students, and practices administering ESOL test used in public schools.

Credit Hours: 3 hrs

Prerequisite: TSLN 330 and TSLN 332

Concurrent Prerequisite: TSLN 410

Last Updated: Links 03/2011

TSLN 477 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 1 hr

Prerequisite: department permission

TSLN 478 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 2 hrs

Prerequisite: department permission

TSLN 479 - Special Topics

An exploration and study of topics not covered in other departmental offerings. Students may elect more than once, provided different topics are studied.

Credit Hours: 3 hrs

Prerequisite: department permission

TSLN 497 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 1 hr

Prerequisite: department permission

TSLN 498 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 2 hrs

Prerequisite: department permission

TSLN 499 - Independent Study

Advanced study on an individual research basis in areas not covered in formal course work.

Credit Hours: 3 hrs

Prerequisite: department permission

Geography and Geology Programs and Courses

Geography and Geology

Major

Earth Science Major

The earth science major is designed for those interested in pursuing a career as an earth science technician or interested in combining a background in earth science with other fields, including surveying and spatial analysis or even journalism and law. Students pursuing careers as professional earth scientists or considering graduate studies in this area should follow the Geology Major Professional Concentration and carefully select elective courses within that program, in consultation with an adviser, to provide complementary training in either the atmosphere, hydrosphere, or biosphere, or some combination there of, depending on the student's specific area of interest. Numerous minors complement the earth science major. These include, but are not limited to, the following: coastal environments, environmental analysis, chemistry, biology, physics and math.

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 12-13 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

One of the following:

- **Either**
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- **or**
- MATH 119 - Applied Calculus (Gen Ed Area II) 3 hrs
- **and**
- MATH 107 - Plane Trigonometry 2 hrs
- **or**
- MATH 112 - Topics in Precalculus Mathematics 4 hrs
- **or**
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs

Major Requirements: 34-35 hours

Required Courses: 31 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 212 - Weather, Climate and the Earth System 3 hrs
- ESSC 300 - Introduction to Hydrology 3 hrs
- ESSC 320 - Oceanography 3 hrs
- ESSC 324 - Weather 3 hrs
- ESSC 425W - Severe and Unusual Weather (Gen Ed Area I, W) 3 hrs

One of the following:

- ESSC 325 - Geomorphology 4 hrs
- ESSC 370 - Glacial and Quaternary Geology 4 hrs

One of the following:

- ESSC 228 - Mineralogy 4 hrs
- ESSC 229 - Rocks and Minerals 3 hrs

Restricted Elective Courses: 3-4 hours

Three to four credit hours from the following:

- ESSC 325 - Geomorphology 4 hrs
- ESSC 326 - Structural Geology 4 hrs
- ESSC 327 - Soil Science 4 hrs
- ESSC 329 - Igneous and Metamorphic Petrology 4 hrs
- ESSC 330 - Sedimentology and Stratigraphy 4 hrs
- ESSC 331 - Paleontology 4 hrs
- ESSC 370 - Glacial and Quaternary Geology 4 hrs
- ESSC 422 - Environmental Geochemistry 3 hrs
- ESSC 424 - Climatology 3 hrs
- ESSC 430 - Petroleum Geology 3 hrs
- ESSC 448 - Hydrogeology 3 hrs
- ESSC 450 - Lake and Coastal Processes 3 hrs
- ESSC 466W - Global Tectonics (Gen Ed Area I, W) 3 hrs
- ESSC 497 - Independent Study 1 hr
- ESSC 498 - Independent Study 2 hrs
- ESSC 499 - Independent Study 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Geography Major

Adviser:

Andrew Nazzaro, Ph.D.

Professor

Geography and Geology

205 Strong Hall

(734) 487-0218

anazzaro@emich.edu

The geography major includes the study of physical landscapes, their origins and the processes that alter them; the imprint of human activity on the earth's surface; the complex relationships among places; and the application of technology to human resource identification, conservation and management.

Phone Number for Advisers: 734.487.0218

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 33-34 hours

Required Courses: 18 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 227 - Topographic Maps 2 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 276 - Principles of Geographic Information Systems 3 hrs

One course from the following:

- GEOG 100 - Introduction to Geospatial Sciences and Technology 3 hrs
- GEOG 235 - Economic Geography 3 hrs
- GEOG 360 - Cultural Geography 3 hrs

Specialization Courses: 9-10 hours

Three courses from one of the following areas of specialization:

Geographic Techniques

- ESSC 303 - Field Geography 3 hrs
- ESSC 485 - Introduction to Remote Sensing 3 hrs
- GEOG 376 - Spatial Analysis 3 hrs
- GEOG 476 - Geodatabases and GIS Client Applications 3 hrs
- GEOG 480 - Geographic Information Systems Projects 3 hrs

Physical Geography

- ESSC 250 - Introduction to Coastal Processes 3 hrs
- ESSC 300 - Introduction to Hydrology 3 hrs
- ESSC 320 - Oceanography 3 hrs
- ESSC 324 - Weather 3 hrs
- ESSC 325 - Geomorphology 4 hrs
- ESSC 327 - Soil Science 4 hrs
- ESSC 350 - Biogeography 3 hrs
- ESSC 424 - Climatology 3 hrs
- ESSC 425W - Severe and Unusual Weather (Gen Ed Area I, W) 3 hrs
- ESSC 450 - Lake and Coastal Processes 3 hrs

Human Geography

- GEOG 212 - Geography of Travel and Tourism 3 hrs

- GEOG 332 - Urban Geography 3 hrs
- GEOG 333 - Settlement Geography 3 hrs
- GEOG 361 - Geography of Population 3 hrs
- GEOG 405 - Aerial Photo Interpretation 3 hrs
- GEOG 441 - Transportation Geography and Planning 3 hrs
- GHPR 335 - Historic Preservation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs

Regional Geography

- GEOG 314W - Geography of Russia and Neighboring States (Gen Ed Area I, W) 3 hrs
- GEOG 318 - Geography of Asia 3 hrs
- GEOG 319 - Geography of Europe 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- GEOG 321 - Geography of Latin America 3 hrs
- GEOG 322 - Geography of Africa 3 hrs

Restricted Elective Courses: 6 hours

Select two departmental courses outside of the selected area of specialization.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

Geography Major - Geo-Tourism Concentration

Adviser:

Andrew Nazzaro, Ph.D.

Professor

Geography and Geology

205 Strong Hall
(734) 487-0218
anazzaro@emich.edu

A geographic approach to tourism represents a distinctly different emphasis from the traditional business approach to the travel industry. The traditional business approach to travel necessarily sees an industry that must be efficiently managed for maximum sustainability of profit. The tourism geography approach, by contrast, focuses upon the physical and human geographic setting of the tourism experience. In addition, it focuses upon the intimate connection of the “internal” tourist experience with the “external” geography of the destination.

The geo-tourism specialist asks, “Specifically, what geographic images and expectations might the tourist carry internally, images and expectations that will color their transactions with the physical setting and culture of that destination? Further, what planning and presentational means will most successfully allow the tourist to fully experience and remember the destination’s unique geography?”

This geo-tourism approach represents an excellent example of applied human geography. Upon completion of the concentration, students will be well prepared as geo-tourism specialists.

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 57 hours

Required Courses: 30 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 227 - Topographic Maps 2 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 276 - Principles of Geographic Information Systems 3 hrs
- GEOG 360 - Cultural Geography 3 hrs

One course from the following:

- GEOG 100 - Introduction to Geospatial Sciences and Technology 3 hrs
- GEOG 235 - Economic Geography 3 hrs

One course from the following:

- GEOG 332 - Urban Geography 3 hrs
- GEOG 441 - Transportation Geography and Planning 3 hrs

- GHPR 335 - Historic Preservation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs

Two courses from the following:

- GEOG 314W - Geography of Russia and Neighboring States (Gen Ed Area I, W) 3 hrs
- GEOG 318 - Geography of Asia 3 hrs
- GEOG 319 - Geography of Europe 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- GEOG 321 - Geography of Latin America 3 hrs
- GEOG 322 - Geography of Africa 3 hrs

Concentration Courses: 21 hours

- GEOG 112 - Introduction to Travel and Tourism 3 hrs
- GEOG 113 - Foundations of Guest Service 3 hrs
- GEOG 212 - Geography of Travel and Tourism 3 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs
- GEOG 336 - Tourism and Socioeconomic Development 3 hrs
- GEOG 445 - Cultural Tourism Resources 3 hrs
- GEOG 446 - Heritage Interpretation and Tourism 3 hrs

Elective Courses: 6 hours

Six hours from the following:

- COSC 101 - Computer Science Concepts and Practical Applications 3 hrs
- CTAC 274 - Intercultural Communication (Gen Ed Area III) 3 hrs
- ESSC 114 - Geology of the National Parks (Gen Ed Area IV) 4 hrs
- ESSC 324 - Weather 3 hrs
- ESSC 424 - Climatology 3 hrs
- GEOG 115 - Observing the Human Landscape 2 hrs
- GEOG 387 - Cooperative Education in Geography 3 hrs
- GEOG 487 - Cooperative Education in Geography 3 hrs
- GEOG 488 - Internship 4 hrs
- HLED 210 - Standard American Red Cross First Aid 2 hrs
- HRM 103 - Introduction to the Hospitality Industry 3 hrs
- MKTG 360 - Principles of Marketing 3 hrs
- THRC 100 - Foundation and Advancement of the Therapeutic Recreation Profession 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Geology Major - General Geology Concentration

Advisor:

Dr. Mike Bradley
Professor
mbradley@emich.edu

Dr. Steve LoDuca
Professor
sloduca@emich.edu

Dr. Cristine Clark
Professor
cclark7@emich.edu

Geography and Geology
205 Strong Hall
(734) 487-0218

This concentration is for those who seek a general liberal arts education in geology or who are interested in a career combining geology with fields such as business, patent law, technical writing or industrial health and safety. Students planning to pursue a career as a professional geologist or who are interested in graduate training in geology should elect the professional concentration.

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 6-8 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr

One of the following:

- MATH 107 - Plane Trigonometry 2 hrs
- MATH 112 - Topics in Precalculus Mathematics 4 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 122 - Elementary Linear Algebra 3 hrs

Major Requirements: 35 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 228 - Mineralogy 4 hrs
- ESSC 325 - Geomorphology 4 hrs
- ESSC 326 - Structural Geology 4 hrs
- ESSC 329 - Igneous and Metamorphic Petrology 4 hrs
- ESSC 330 - Sedimentology and Stratigraphy 4 hrs
- ESSC 331 - Paleontology 4 hrs
- ESSC 466W - Global Tectonics (Gen Ed Area I, W) 3 hrs

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.

- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. Geology Major - Hydrogeology Concentration

Advisor:

Dr. Mike Bradley
Professor
mbradley@emich.edu

Dr. Steve LoDuca
Professor
sloluca@emich.edu

Dr. Cristine Clark
Professor
cclark7@emich.edu

Geography and Geology
205 Strong Hall
(734) 487-0218

The hydrogeology concentration prepares students for graduate study or employment in the hydrogeology industry. It focuses on those aspects of geology and related sciences that pertain to the occurrence, movement, supply and quality of water. The program is designed to provide a strong technical base. Students will be educated in skills that are required to gather and process data with particular attention to water-related problems. The program includes a group minor composed of the required courses in mathematics, chemistry and physics. No other minor is needed to meet graduation requirements.

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 68-70 hours

- Field Hydrogeology (2 hrs)
* see note
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 228 - Mineralogy 4 hrs
- ESSC 300 - Introduction to Hydrology 3 hrs
- ESSC 325 - Geomorphology 4 hrs
- ESSC 326 - Structural Geology 4 hrs
- ESSC 329 - Igneous and Metamorphic Petrology 4 hrs
- ESSC 330 - Sedimentology and Stratigraphy 4 hrs
- ESSC 355 - Field Geology I 2 hrs
- ESSC 356 - Field Geology II 3 hrs
- ESSC 448 - Hydrogeology 3 hrs
- ESSC 466W - Global Tectonics (Gen Ed Area I, W) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs

One course from the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One course from the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

** The hydrogeology field course may be selected from a number of universities with approval from a geology adviser.*

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.

Geology Major - Professional Concentration

Advisor:

Dr. Mike Bradley
Professor
mbradley@emich.edu

Dr. Steve LoDuca
Professor
sloduca@emich.edu

Dr. Cristine Clark
Professor
cclark7@emich.edu

Geography and Geology
205 Strong Hall
(734) 487-0218

This concentration provides the necessary background for students planning to become professional geologists. Students who successfully complete the curriculum are prepared to enter positions in industry or to undertake graduate study in geology. The

program includes a group minor composed of the required courses in mathematics, chemistry and physics. No other minor is needed to meet graduation requirements.

Required courses and elective courses in science and mathematics are listed below. Additional general education and elective courses totaling 124 hours are required to complete a degree.

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook

Department Contact: rsambroo@emich.edu

Website: emich.edu/geo

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist here.

Major Requirements: 69-74 hours

Required Courses: 60-62 hours

- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- CHEM 123 - General Chemistry II 3 hrs
- CHEM 124 - General Chemistry II Laboratory 1 hr
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 228 - Mineralogy 4 hrs
- ESSC 326 - Structural Geology 4 hrs
- ESSC 329 - Igneous and Metamorphic Petrology 4 hrs
- ESSC 330 - Sedimentology and Stratigraphy 4 hrs
- ESSC 331 - Paleontology 4 hrs
- ESSC 355 - Field Geology I 2 hrs
- ESSC 356 - Field Geology II 3 hrs
- ESSC 466W - Global Tectonics (Gen Ed Area I, W) 3 hrs
- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 121 - Calculus II 4 hrs

One course from the following:

- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs
- PHY 223 - Mechanics and Sound (Gen Ed Area IV) 5 hrs

One course from the following:

- PHY 222 - Electricity and Light 4 hrs
- PHY 224 - Electricity and Light 5 hrs

Elective Courses: 9-12 hours

Three courses from the following:

- ESSC 300 - Introduction to Hydrology 3 hrs
- ESSC 320 - Oceanography 3 hrs
- ESSC 325 - Geomorphology 4 hrs
- ESSC 327 - Soil Science 4 hrs
- ESSC 370 - Glacial and Quaternary Geology 4 hrs
- ESSC 387 - Cooperative Education in Geoscience 3 hrs
- ESSC 422 - Environmental Geochemistry 3 hrs
- ESSC 428 - Optical Mineralogy 3 hrs
- ESSC 430 - Petroleum Geology 3 hrs
- ESSC 439 - Economic Geology 3 hrs
- ESSC 448 - Hydrogeology 3 hrs
- ESSC 450 - Lake and Coastal Processes 3 hrs
- ESSC 459 - Aquifer Analysis 3 hrs
- ESSC 460 - Contaminant Hydrology 3 hrs
- ESSC 470 - Quantitative Methods in Geography and Geology 3 hrs
- ESSC 487 - Cooperative Education in Geoscience 3 hrs
- ESSC 488 - Internship 4 hrs
- ESSC 489 - Internship 5 hrs
- ESSC 490 - Internship 6 hrs
- ESSC 499 - Independent Study 3 hrs

Minor Requirements:

This program does not require a minor.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses**

will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.

- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

Secondary Education Earth Science Major

Correction - This program was revised on May 2, 2019, to correct an error. Under "Major Requirements," "BIOT 403" was replaced with "BIO 406."

Adviser:

Andrew Nazzaro, Ph.D.

Professor

Geography and Geology

205 Strong Hall

(734) 487-0218

anazzaro@emich.edu

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for the Michigan Department of Education Secondary Provisional Certificate endorsed in earth/space science, certification code DH. The Michigan Test for Teacher Certification (MTTC) covering this field is #020, "Earth/Space Science." Consult a department adviser before you declare this major.

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours
2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 16-17 hours

- BIO 110 - Introductory Biology I (Gen Ed Area IV) 5 hrs
- CHEM 121 - General Chemistry I (Gen Ed Area IV) 3 hrs
- CHEM 122 - General Chemistry I Laboratory (Gen Ed Area IV) 1 hr
- PHY 221 - Mechanics, Sound and Heat (Gen Ed Area IV) 4 hrs

One course from the following:

- MATH 120 - Calculus I (Gen Ed Area II) 4 hrs
- MATH 170 - Elementary Statistics (Gen Ed Area II) 3 hrs

Major Requirements: 36 hours

Required Courses: 36 hours

- ASTR 205 - Principles of Astronomy (Gen Ed Area IV) 4 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 212 - Weather, Climate and the Earth System 3 hrs
- ESSC 229 - Rocks and Minerals 3 hrs
- ESSC 300 - Introduction to Hydrology 3 hrs
- ESSC 320 - Oceanography 3 hrs
- ESSC 324 - Weather 3 hrs
- ESSC 331 - Paleontology 4 hrs
- * ESSC 406 - The Nature of Science 1 hr
- * PHY 406, CHEM 406, or BIO 406 may be substituted for ESSC 406.

One course from the following:

- ESSC 325 - Geomorphology 4 hrs
- ESSC 370 - Glacial and Quaternary Geology 4 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Earth Science Majors take:

- ESSC 347 - Methods for Teaching Secondary Earth Science 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs
This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

MTTC Subject Area Test

Starting January 1, 2013, Students seeking licensure in a secondary or K-12 area are not required to take the MTTC subject area test in their minor area. Students who elect not to take the test in their minor will be required to sign a statement indicating that they understand that they will not be endorsed in their minor area and will not be eligible for teaching positions in their minor unless they pass the minor subject area test within five years of completing field experience and course requirements.

Notes:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. **Please note that students who wish to graduate under pre-2007 General**

Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Secondary Education Geography Major

PROGRAM WILL BE PHASED OUT: EFFECTIVE FALL 2012

Successful completion of this course of study, in the context of other program requirements, qualifies the student for recommendation for certification for the Michigan Department of Education Secondary Provisional Certificate endorsed in geography, certification code CB, and, depending on the minor selected, endorsement in economics (CA), history (CC), or political science (CD). The certification test covering this field is #008 "Geography".

Department Contact: rsambroo@emich.edu

Website: emich.edu/geo

Initial Teacher Preparation Program Admission

In order to pursue the sequence of courses necessary to complete eligibility for recommendation for certification, one must apply for and be admitted to the teacher preparation program. Admission requirements are common for all teacher preparation programs, except that certain special education programs have additional requirements.

Each undergraduate student is responsible for applying to the teacher preparation program immediately after the semester in which the student has earned 56 credit hours. Transfer students with more than 56 credit hours should apply immediately after the semester in which they have earned 12 hours at EMU, including at least one course in their major. Students with 56 hours of transfer course work with a decision GPA of 3.0 may apply for admission to the teacher preparation program without 12 earned hours at EMU.

Admission to the teacher preparation program is not automatic. Only those persons who have formally applied are considered for admission. Not all persons who apply become eligible for admission.

Applications for the Initial Teacher Preparation Program at EMU **are available within your my.emich account under the "Student" tab**. Submit your completed application to the Office of Academic Services once you have earned 56 credit hours.

Teaching majors and minors are unofficial until program admission. Students pursuing teacher certification should follow the catalog that exists at the time of program admission. It is important that students apply to the teacher preparation program as soon as they have earned 56 credit hours.

Criteria

1. Completion of 56 credit hours

2. Appropriate cumulative GPA. One of:
 1. An overall EMU GPA of 2.5 or higher. At least 12 of the 56 credit hours taken at EMU with an EMU GPA of 2.5 or higher in your major (each of your majors if declaring a double major). You must complete at least one course in your major(s) in order to be eligible.
 2. Transferred 56 credits with a cumulative 3.0 GPA from all previous institutions.
3. A grade of “C” or higher (if taken) in the following courses:
 1. Secondary: ENGL 121 , CTAC 124, quantitative reasoning, one lab science, all professional education courses, and, if special education, PSY 101.
 2. Elementary: ENGL 121, CTAC 124, MATH 108, MATH 110E, PHY 100, CHEM 101, ESSC 202, all of the professional education courses, all courses that state “for elementary teachers,” and, if special education, PSY 101.
4. Passing scores on all three sections of the Michigan Test for Teacher Certification Basic Skills Test (MTTC) (reading, mathematics, and writing). Official score report must be on file at Eastern Michigan University.
5. Personal statement about your experiences with youth/children and why you are going into teaching. This statement will be read for content, grammar, and punctuation.
6. Completion of a Disposition Self Evaluation Form.
7. ICHAT criminal background check and Statement of Civil/Criminal Convictions. If you answered yes to any of the civil/criminal conviction questions on the application, you will need to provide:
 1. A copy of the Judgment of Sentence, or Registrar of Actions, or Certification of Conviction.
 2. A written explanation of the offense(s). Application of students with civil/criminal convictions will be carefully reviewed and may take longer to process.
8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Additional Requirements: 9 hours

- A course in economics, if not included in the minor (3 hrs)
- HIST 102 - Western Civilization, 1648 to World War II (Gen Ed Area IV) 3 hrs
- HIST 103 - 20th-Century Civilization (Gen Ed Area III) 3 hrs

Major Requirements: 30-31 hours

Required Courses: 15 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs

- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 313 - Geography of Michigan 2 hrs
- GEOG 320 - Geography of the United States and Canada 3 hrs

Restricted Elective Courses: 15-16 hours

Regional Geography

Two courses from the following:

- GEOG 111 - Regions and Resources 3 hrs
- GEOG 314W - Geography of Russia and Neighboring States (Gen Ed Area I, W) 3 hrs
- GEOG 318 - Geography of Asia 3 hrs
- GEOG 319 - Geography of Europe 3 hrs
- GEOG 321 - Geography of Latin America 3 hrs
- GEOG 322 - Geography of Africa 3 hrs

One course from each of the following three areas: (9-10 hours) total

Geographic Techniques

- ESSC 303 - Field Geography 3 hrs
- GEOG 276 - Principles of Geographic Information Systems 3 hrs

Physical Geography

- ESSC 250 - Introduction to Coastal Processes 3 hrs
- ESSC 300 - Introduction to Hydrology 3 hrs
- ESSC 320 - Oceanography 3 hrs
- ESSC 324 - Weather 3 hrs
- ESSC 325 - Geomorphology 4 hrs
- ESSC 327 - Soil Science 4 hrs
- ESSC 350 - Biogeography 3 hrs

Human Geography

- GEOG 100 - Introduction to Geospatial Sciences and Technology 3 hrs
- GEOG 235 - Economic Geography 3 hrs
- GEOG 332 - Urban Geography 3 hrs
- GEOG 333 - Settlement Geography 3 hrs
- GEOG 360 - Cultural Geography 3 hrs
- GEOG 361 - Geography of Population 3 hrs
- GHPR 335 - Historic Preservation 3 hrs

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

- * CURR 305 - Curriculum and Methods: Secondary 3 hrs
- ** EDMT 330 - Instructional Applications of Media and Technology 3 hrs
- ** EDPS 340 - Introduction to Assessment and Evaluation 3 hrs
- * PRCT 305 - Practicum I: Secondary 3 hrs
- SOFD 328W - Schools for a Diverse and Democratic Society (Gen Ed Area I, W) 3 hrs

Secondary Education Phase II: Content and Methods and Teaching: 9 hours

Prerequisite: Completion of Phase I is required.

* These two courses must be taken together.

- * PRCT 311 - Practicum II: Secondary 3 hrs
- * RDNG 311 - Teaching Reading in the Secondary School 3 hrs

Methods Course by Major:

Geography Majors take:

- HIST 481 - The Teaching of Social Studies 3 hrs

Secondary Education Phase III: Capstone Experience: 9 hours

Prerequisite: Completion of Phase II and 100 pre-student teaching hours is required.

- EDUC 492 - Student Teaching 9 hrs

This course requires a formal application to be submitted 7-8 months prior to the Student Teaching semester.

Minor Requirements:

This program requires a minor. Select a teaching minor from the following: economics, history, and political science.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S.

institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: General Education

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

8. Meet academic, social, moral, and financial obligations as a member of the EMU community.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Required Courses: 45 hours

These courses cannot be taken separately in any way and form a single integrated program of study.

- ECON 375 - Economic History of the United States 3 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs
- GEOG 110 - World Regions (Gen Ed Area III) 3 hrs
- GEOG 276 - Principles of Geographic Information Systems 3 hrs
- GEOG 313 - Geography of Michigan 2 hrs

- GEOG 316 - History and Geography of Modern Europe 3 hrs
- OR**
- HIST 316 - History and Geography of Modern Europe 3 hrs

- GEOG 320 - Geography of the United States and Canada 3 hrs
- HIST 109 - World History to 1500 3 hrs
- HIST 110 - World History since 1500 (Gen Ed Area III) 3 hrs
- HIST 123 - The United States to 1877 (Gen Ed Area IV) 3 hrs
- HIST 124 - The United States, 1877 to the Present (Gen Ed Area IV) 3 hrs
- HIST 300W - Researching and Writing History (Gen Ed Area I, W) 3 hrs
- HIST 416 - American Environmental History 3 hrs
- PLSC 112 - American Government (Gen Ed Area IV) 3 hrs

Geography/History Electives: 15-18 hours

- Three Geography (GEOG) or Earth System Science (ESSC) courses at 200-level and above.
- Three upper-level History (HIST) courses (3 credits each, 300-level and above): one in United States or Canada (Area A), one in Europe (Area B), and one in Africa, Asia or Latin America (Area C).

Professional Secondary Education Sequence

Secondary Education Pre-Admission Phase: The Learner and the Community: 7 hours

Prerequisite: Sophomore standing or higher.

- EDPS 322 - Human Development and Learning 4 hrs
- SPGN 251 - Education of Students with Exceptionalities 3 hrs

The following phases require formal admission to the Initial Teacher Preparation Program:

Secondary Education Phase I: Curriculum, Assessment and the Social Context: 15 hours

Prerequisite: Completion of Pre-Admission Phase is required.

* These two courses must be taken together.

** These courses must be taken with or after CURR 305.

Urban and Regional Planning Major

This interdisciplinary major studies the current situation in urban and regional planning, including land use, zoning, problems of urban growth and local decision-making. The program is designed to prepare students for positions in public planning agencies, private planning firms or other positions where planning skills are needed and relevant. Courses provide necessary skills to develop zoning ordinances, analyze site plans, critique general development plans, administer local planning regulations as well as prepare and review grant applications, environmental impact statements and policy planning programs.

General Education Requirements:

For specific requirements refer to the General Education Program. Download the Gen Ed Checklist [here](#).

Major Requirements: 36 hours

Required Courses: 30 hours

- PLSC 270 - Public Administration 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs
- URP 216 - Readings in Urban Planning 2 hrs
- URP 276 - Principles of Geographic Information Systems 3 hrs
- URP 306 - Comprehensive Planning and Zoning 3 hrs
- URP 401 - Planning/Preservation Graphics 3 hrs
- URP 410L - Site Planning Studio (Gen Ed Area V LBC) 4 hrs
- URP 415W - Methods of Planning Analysis (Gen Ed Area I, W) 3 hrs
- URP 435 - History of Urban Form and Function 3 hrs
- URP 495 - Environmental Assessment and Planning 3 hrs

Restricted Elective Courses: 6 hours

Six hours from the following selected in consultation with the advising coordinator:

- ESSC 303 - Field Geography 3 hrs
- GEOG 332 - Urban Geography 3 hrs
- GEOG 376 - Spatial Analysis 3 hrs

- GEOG 405 - Aerial Photo Interpretation 3 hrs
- GEOG 441 - Transportation Geography and Planning 3 hrs
- GEOG 476 - Geodatabases and GIS Client Applications 3 hrs
- GHPR 335 - Historic Preservation 3 hrs
- GPLN 387 - Cooperative Education 3 hrs
- GPLN 487 - Cooperative Education 3 hrs
- GPLN 488 - Internship 4 hrs
- GPLN 489 - Internship 5 hrs
- GPLN 490 - Internship 6 hrs
- GPLN 497 - Independent Study 1 hrs
- GPLN 498 - Independent Study 2 hrs
- GPLN 499 - Independent Study 3 hrs
- SOCL 250 - Quantitative Applications in Sociology (Gen Ed Area II) 3 hrs
- URP 409 - Professional Practice for Planners 2 hrs
- URP 452 - Infrastructure Planning and Policy (NEW COURSE) 3 hrs
- URP 456 - Zoning and Land Development Regulation (NEW COURSE) 2 hrs
- URP 459 - Planning/Preservation Studio (NEW COURSE) 3 hrs

Minor Requirements: 20 hours

This program requires a minor. Please contact your program adviser for a list of possible minors.

Program Total:

Students must earn a minimum total of 124 credits at the 100-level or above.

Note:

Each student must choose a writing intensive course as part of major completion requirements. Consult your adviser for course options.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.

- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Minor

Cartography and Remote Sensing Minor

Cartography (map-making) is an ancient science designed to depict the earth's features and human activities. Today maps are made with several significant functions in mind to understand spatial phenomena, to store information and to analyze areal relationships.

Remote sensing uses space-age technology to sense, record and transmit information about the biosphere and atmosphere. Satellite imagery is an important element in collecting remote sensing data. Remote sensing information is often used in constructing modern maps, whether by hand or through the use of computer mapping and geographic information systems software.

The goal of the minor is to provide an employment track for undergraduates to entry-level positions as cartographers and remote sensing technicians. The minor provides balanced training between traditional cartographic work and computer maps. Emphasis is on map properties, spatial concepts, mapping techniques, drafting skills, graphic storage and display of data. A strongly recommended aspect of this training is the internship or cooperative education experience at nearby private and public agencies.

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

Required Courses: 15 hours

- ESSC 485 - Introduction to Remote Sensing 3 hrs
- GEOG 276 - Principles of Geographic Information Systems 3 hrs
or
- URP 276 - Principles of Geographic Information Systems 3 hrs
- GEOG 376 - Spatial Analysis 3 hrs
- GEOG 405 - Aerial Photo Interpretation 3 hrs
- GHPR 401 - Planning/ Preservation Graphics 3 hrs
or
- URP 401 - Planning/Preservation Graphics 3 hrs

Restricted Elective Courses: 5 hours

Five hours from the following:

- ARTS 104 - Graphic Design for Nonmajors (Gen Ed Area IV) 3 hrs
- CADM 231 - Computer Graphic Programming for Industry 3 hrs
- CMT 121 - Graphic Communication 3 hrs
- CNST 206 - Surveying 3 hrs
- ESSC 227 - Topographic Maps 2 hrs
- ESSC 355 - Field Geology I 2 hrs
- ESSC 387 - Cooperative Education in Geoscience 3 hrs
- ESSC 487 - Cooperative Education in Geoscience 3 hrs
- ESSC 488 - Internship 4 hrs
- ESSC 489 - Internship 5 hrs
- ESSC 490 - Internship 6 hrs
- IS 417 - Systems Analysis and Design 3 hrs
- MATH 105 - College Algebra (Gen Ed Area II) 3 hrs
- MATH 107 - Plane Trigonometry 2 hrs

One course from the following:

- COSC 145 - Introduction to FORTRAN Programming 3 hrs
- IS 215 - End-User Computing 3 hrs

Minor Total: 20 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

Students who transferred to EMU may have modified general education requirements based on MACRAO or articulation agreements; consult your academic adviser for additional information.

University Information: Consult the online catalog at catalog.emich.edu.

Coastal Environments Minor

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook

Department Contact: rsambroo@emich.edu

Website: emich.edu/geo

Required Courses: 16 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 250 - Introduction to Coastal Processes 3 hrs
- ESSC 320 - Oceanography 3 hrs
- ESSC 350 - Biogeography 3 hrs
- ESSC 450 - Lake and Coastal Processes 3 hrs

Restricted Elective Courses: 6 hours

Six hours from the following:

- ESSC 208 - Natural Environmental Hazards 3 hrs
- ESSC 325 - Geomorphology 4 hrs
- ESSC 330 - Sedimentology and Stratigraphy 4 hrs
- ESSC 495 - Environmental Assessment and Planning 3 hrs
- GEOG 405 - Aerial Photo Interpretation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs
- URP 495 - Environmental Assessment and Planning 3 hrs

Minor Total: 22 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Students, in consultation with the minor adviser, may choose other elective courses not listed above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 **unique** credit hours in their major and 20 **unique** credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.

Earth Science Minor

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook

Department Contact: rsambroo@emich.edu

Website: emich.edu/geo

Required Courses: 17 hours

- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- ESSC 111 - The Earth System through Time 4 hrs
- ESSC 212 - Weather, Climate and the Earth System 3 hrs
- ESSC 229 - Rocks and Minerals 3 hrs
- ESSC 320 - Oceanography 3 hrs

Restricted Elective Courses: 3-4 hours

One course from the following:

- ESSC 324 - Weather 3 hrs
- ESSC 325 - Geomorphology 4 hrs
- ESSC 327 - Soil Science 4 hrs
- ESSC 331 - Paleontology 4 hrs
- ESSC 370 - Glacial and Quaternary Geology 4 hrs
- ESSC 424 - Climatology 3 hrs
- ESSC 425W - Severe and Unusual Weather (Gen Ed Area I, W) 3 hrs
- ESSC 466W - Global Tectonics (Gen Ed Area I, W) 3 hrs
- GEOG 476 - Geodatabases and GIS Client Applications 3 hrs

Minor Total: 20-21 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the *100-level and above*. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement. A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).
- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement**. (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

Environmental Analysis Minor

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook

Department Contact: rsambroo@emich.edu

Website: emich.edu/geo

Required Courses: 24 hours

- ESSC 459 - Aquifer Analysis 3 hrs
- ESSC 460 - Contaminant Hydrology 3 hrs
- ESSC 470 - Quantitative Methods in Geography and Geology 3 hrs

- ESSC 495 - Environmental Assessment and Planning 3 hrs
or
- URP 495 - Environmental Assessment and Planning 3 hrs

- GEOG 376 - Spatial Analysis 3 hrs
- GEOG 405 - Aerial Photo Interpretation 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs

One course from the following:

- ESSC 250 - Introduction to Coastal Processes 3 hrs
- ESSC 485 - Introduction to Remote Sensing 3 hrs

Minor Requirements: 24 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above**. **Courses with numbers below 100 will not be counted toward this degree requirement. Geographic Information Systems Minor

Geography and Geology Department Information:

Department Head: Richard Alan Sambrook
Department Contact: rsambroo@emich.edu
Website: emich.edu/geo

Required Courses: 15 hours

- GEOG 276 - Principles of Geographic Information Systems 3 hrs
or
- URP 276 - Principles of Geographic Information Systems 3 hrs

- GEOG 376 - Spatial Analysis 3 hrs
- GEOG 405 - Aerial Photo Interpretation 3 hrs
- GEOG 476 - Geodatabases and GIS Client Applications 3 hrs
- GEOG 480 - Geographic Information Systems Projects 3 hrs

Restricted Elective Courses: 6-7 hours

One course from the following:

- ESSC 108 - Earth Science for Nonscience Majors (Gen Ed Area IV) 3 hrs
- ESSC 110 - The Dynamic Earth System (Gen Ed Area IV) 4 hrs
- GEOG 107 - Introduction to Geography (Gen Ed Area IV) 3 hrs

One course from the following:

- ESSC 485 - Introduction to Remote Sensing 3 hrs
- GEOG 361 - Geography of Population 3 hrs
- URP 215 - Introduction to Urban and Regional Planning 3 hrs

Minor Total: 21-22 hours

Note:

All minors must have at least six hours of course work at the 300-level or above.

Critical Graduation Information:

The following are minimum requirements for all bachelor's degrees awarded by Eastern Michigan University. Some majors and minors require more than the minimum in one or more of the areas below; students are urged to consult the online catalog for the requirements of their particular programs.

- Earn a minimum total of 124 credits at the **100-level and above. Courses with numbers below 100 will not be counted toward this degree requirement. At most 8 credit hours of physical education (PEGN) activity courses will be counted toward this requirement.** A Bachelor of Arts degree requires completion of one year of college credit in a world language.
- Meet the requirements of the General Education program (see information below).

- Earn a minimum of 60 credits from a four-year college or university; **courses taken at community colleges cannot be used to meet this requirement.** (Some formal program-to-program articulation agreements modify this requirement. See specific agreements for details.)
- Earn a minimum of 30 credits from courses taken at EMU.
- Complete 10 of the last 30 hours for the degree from courses taken at EMU.
- Have a minimum of 30 *unique* credit hours in their major and 20 *unique* credit hours in their minor for a total of at least 50 unique credit hours between them. Some majors that require 50 or more hours themselves do not require a minor; students should check requirements of the selected major in the undergraduate catalog to see if a minor is required.
- Not more than 60 credit hours in one subject area (prefix) may be applied towards the minimum of 124 credit hours required for a bachelor's degree.
- Earn the minimum number of credits in 300-level and above courses in each major and minor as specified below - these credits must be earned in distinct courses, that is, no course can be used to fulfill this requirement in more than one major or minor.
 - Earn a minimum of 6 credits in 300-level or higher courses at EMU in each minor
 - Earn a minimum of 9 credits in 300-level or higher courses at EMU in each major that requires a minor.
 - Earn a minimum of 15 credits in 300-level or higher courses at EMU in each major that does not require a minor
- Transfer credit will be awarded for courses taken at colleges and universities that are accredited by one of the recognized regional accrediting bodies only if the courses are college-level (equated to 100-level or above at EMU) and the student earned a "C" (or 2.0 on a 4 point scale) or better. Transfer credit may be awarded on a case-by-case basis for college-level courses in which a "C" (2.0) or better was earned at institutions outside the U.S. or at non-accredited U.S. institutions; the internal review of such courses is coordinated by the Office of Admissions, and additional documentation may be required.
- Earn a minimum cumulative GPA of 2.0 in courses taken at EMU in order to graduate. In addition, a minimum GPA of 2.0 must be earned in courses taken at EMU in each major and minor. (Note: some programs may require a higher GPA - check with your program advisor.)

General Education Requirements:

EMU's General Education Program requires students to choose from a menu of approved courses in several different areas do not assume that other courses in the same department or with similar names will fulfill these requirements. A detailed description of General Education requirements is available on the General Education section of the catalog: [General Education](#)

- For Students who began their undergraduate program at EMU in Fall 2007 or later or who have elected to follow the current ("new") General Education Program, follow the "For Students" link under the *Current Program* heading.
- For Students who began their undergraduate program at EMU before Fall 2007 and who have elected to follow the Pre-2007 General Education Requirements, follow the "General Education Program Prior to Fall 2007 (pdf file)" link under the *Program Prior to Fall 2007* heading. ***Please note that students who wish to graduate under pre-2007 General Education requirements must graduate by August 2014; those who have not completed all degree requirements by that time will need to satisfy the current (Fall 2007) General Education requirements.***
