AIM AND SCOPE

The Journal Forest Systems publishes research articles, reviews and short communications. Papers can be written either in English or Spanish. Research articles and short communications must report original work not previously published in any language, nor under consideration for publication elsewhere.

After peer review and approval by the editorial board, FS publishes papers reporting research findings dealing with all aspects on forestry and forest products, such as genetics, breeding, ecology, silviculture, forest management, socio-economic, policy and forest products and technology.

Forest Systems is indexed in: **Agricola, Agris, CAB Abstracts, Dialnet, FSTA (Food Science and Technology Abstracts), Global Health, ICyT, Pascal, PIRA, Scopus, Science Citation Index Expanded.** It is also included in the following automated directories: **Jake, Latindex Catalogue, Latindex Directory, Ulrich's Periodical Directory.**

Forest Systems is published quarterly (April, August, December) by the Instituto Nacional de Investigaciones Agrarias (INIA). Autopista A-6, km 7.5. 28040 Madrid. Spain.
