# NEW ORLEANS YOUTH MASTER PLAN DESIRED RESULTS STATEMENTS

The children and youth of New Orleans deserve lives filled with positive experiences and healthy relationships that deliver the results and successes outlined here simply because they are our children and youth, worthy of our collective best. The Youth Master Plan will apply the positive youth development framework and an equity lens, ensuring its design and implementation sets a path for every youth to have access to what they need to be successful. In return, our children and youth can become change agents who continuously improve New Orleans.

*The Desired Results Statements were informed by lived experiences and youth perspectives; local sector-based expertise; and researched youth development goals and frameworks. The Desired Results Statements will go on to inform the creation of action strategies and steps of the New Orleans Youth Master Plan, and will ensure that our efforts are aligned with our vision.*

# NEW ORLEANS YOUTH MASTER PLAN DESIRED RESULTS STATEMENTS

## Notes

The following parties adapted and updated the Youthshift Results Statements (drafted in 2013) to take shape as the Desired Results Statements:

- [Youth Advisory Board to CYPB](#)
- [Youth Master Plan Steering Committee](#)
- CYPB Team

## Key Terms Defined

### 1. [Positive Youth Development Framework](#)

An intentional, pro-social approach that engages youth within their communities, schools, organizations, peer groups, and families in a manner that is productive and constructive; recognizes, utilizes, and enhances youths' strengths; and promotes positive outcomes for young people by providing opportunities, fostering positive relationships, and furnishing the support needed to build on their leadership strengths.

### 2. [Equity Lens](#)

Equity is when **people's race, gender, economic status, sexual orientation, etc.** do not determine their economic, social, or political opportunities. Distinct from equality, equity looks at **leveling the playing field**, ensuring the starting line does not determine where one finishes.
