- Earn a grade of "C" (2.0) or better in each course used to satisfy the degree program.
- Students must achieve a minimum cumulative GPA of 2.0 in all courses satisfying major requirements.
- Participate in an exit interview.
- Fulfill Exit Examination requirement.

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

### Total Semester Hours Required

- 120

### Honors In Major

- Application and admission through the Department and the Burnett Honors College.
- Fulfill University requirements for Honors in the Major.

### Advising Notes

- Students with adequate preparation can consult with the department undergraduate advisor on substituting graduate classes for departmental electives.

### Transfer Notes

- Lower division courses do not substitute for upper division courses.

- Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

### Acceptable Substitutes for Transfer Courses

- The following substitutions are acceptable for common program prerequisites if taken as part of the AA course work prior to transferring to UCF:

- Computer Programming: may use any programming course with a COP prefix.

- Laboratory Science: may use any GLY, PHY, CHM or BSC course with a lab designed for science majors; however, the biology, chemistry and physics classes are core requirements and still must be taken.

### Plan of Study

- This is one of numerous possible plans of study. See program description for all requirements. Consult a departmental advisor for alternate, new or more appropriate selections.

- Although all classes are listed as being taken during the academic year, you may be required to complete 9 hours of them during the Summer. Consult with an advisor to determine if you are exempt.

- Prior to enrolling in Chemistry, take Chemistry

## Mechanical Engineering (B.S.M.E.)

Phone: 407-823-5448

### Admission Requirements

- Students wanting to declare a major in an engineering discipline must be in good academic standing and must have a "C" (2.0) or better in each of the following courses or their equivalents: MAC 2311C, MAC 2312, PHY 2048C, and CHM 2045C or CHS 1440.

- Students wanting to declare a major in an engineering discipline must complete a change of major in the term of completion of the final pending prerequisite course(s) listed above.

### Degree Requirements

- Students in the Mechanical Engineering major are expected to make consistent good progress toward their degrees to remain enrolled in, or eligible for, any major in the College of Engineering and Computer Science (CECS) or the College of Optics and Photonics (COP). Therefore, any student majoring in Mechanical Engineering who repeats any UCF course and does not earn a grade of "C" (2.0) or better on the second attempt will be placed on Lack of Progress Probation and remain on Lack of Progress Probation as long as the student is enrolled in a CECS or COP major. If a student on Lack of Progress Probation does not receive a grade of "C" (2.0) or better by the third attempt in the same UCF course, the student will be excluded from all CECS and COP majors. Any student majoring in Mechanical Engineering who has accumulated 7 or more unsuccessful attempts (i.e., grades below "C" (2.0) and withdrawals) over all courses taken at UCF will be placed on Lack of Progress Probation and remain on Lack of Progress Probation as long as the student is enrolled in a CECS or COP major. If a student on Lack of Progress Probation has a tenth unsuccessful attempt over all courses taken at UCF, the student will be excluded from all CECS and COP majors.

## UCF Degree Programs

■ A student who is excluded from CECS and COP majors may seek readmission to a major in CECS or COP after at least one full year has passed since exclusion. Readmission is not automatic and is dependent upon a high probability of success after readmission. Any student who is readmitted to the Mechanical Engineering major will be subject to all probation conditions that applied at the time of exclusion.

### 1. UCF General Education Program (GEP) (38 hrs)

■ The UCF General Education Program (GEP) is described in the General Education Program section, located elsewhere in this catalog. Engineering students should closely study the requirements of the UCF GEP and the allowable substitutions detailed in paragraphs A. through E. below to minimize excess hours. Students transferring to UCF from within the Florida College System or State University System should complete the GEP and the Common Program Prerequisites before transferring.

### 2. Common Program Prerequisites (CPP) (19 hrs)

■ These courses are specifically required for all engineering students of the Florida State University System. CPP courses are also available at other Florida post-secondary schools and may be transferred directly to UCF programs.

■ See "Common Prerequisites" in the Transfer and Transitions Services section for more information.

| EML 4306C | Energy Systems Lab        | 3 hrs |

### 5. Restricted Electives

#### Approved Electives 18 hrs

■ Technical electives are available in the BSME program to address specific student interests in a variety of technical areas. Students should consult with their Department for a list of approved restricted technical electives and the terms when specific courses of this type are offered.

### 6. Capstone Requirements (6 hrs)

■ These courses are a capstone experience to your engineering program and should be completed in your last 2 major semesters of study.

■ CECS encourages all engineering students to take the Fundamentals Exam during their senior year.

|           |                       |       |

| EML 4931 | Mechanical Career and Academic Faculty Advising II | 0 hrs |

### Transfer Notes

- EGS 1006C and EGN 1007C are required courses for incoming freshmen only. The two credit hours for these courses will be substituted by an approved Mechanical Engineering technical elective for transfer students.
- Courses transferred must be formally evaluated for equivalency credit. The student must provide all supporting information with his/her petition for this evaluation.

### Acceptable Substitutes for Transfer Courses

- None

### Plan of Study (128 hrs)

- Tentative Course Schedule for Entering Freshmen: The tentative course schedule listed below is a guide for those students who plan on completing their degree in four years. All engineering students should meet with their Department to develop and maintain an appropriate plan of study.

### Admission Requirements

- Acceptance to the university does not necessarily constitute admission to the upper division Medical Laboratory Sciences program.
- Separate application to the limited access program should be made directly to the program in the Spring of the year admission is sought. Applications will be accepted until the class is filled.

## UCF Degree Programs

- UCF application must also be submitted prior to program application. Acceptance to UCF is necessary before acceptance to the program can occur.
- Student must complete all general education, foreign language admissions, and program prerequisites prior to the start of the program.
- This limited access program is work-intensive and courses include clinical practice in a variety of settings. Due to this, it is strongly recommended that students be at least one-year post high school prior to applying to the program. Students with concerns or questions should contact the program to schedule an appointment with an advisor.
- All applicants must have a minimum overall GPA of 2.5, and complete all program prerequisite courses with at least a grade of "C" (2.0).

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- Students should complete the General Education Program, Foreign Language Admissions and the Common Program Prerequisite Requirements before transferring within the Florida College System or State University System.
- Students should consult with a departmental advisor.
- The courses designated in sections 1 and 2 below may be taken at a Florida College System institution, and should usually be completed in the first 60 hours.
- A minimum overall GPA of 2.5 and a minimum grade of "C" (2.0) in prerequisite and major courses is required for admission to, continuation in, and graduation from the Medical Laboratory Sciences Program.
- UCF Residency Requirement: 32 hours.
- The courses designated in sections 1 (General Education) and 2 (Common Program Prerequisites) should usually be completed in the first 60 hours.
- An FDLE background check, negative drug screen, and Board of Clinical Lab Personnel trainee license are required.

### Admission Requirements

- Each student must complete an audition that demonstrates satisfactory performance proficiency.
- The audition will serve as a placement examination for accepted candidates

### Degree Requirements

- Prior to attending the first music class as a music major at UCF, all students must take a keyboard placement examination to determine the appropriate level of class piano. Go to <http://www.music.ucf.edu/students> to see the class piano requirements.

- Students who change degree programs and select this major must adopt the most current catalog.

- Departmental Residency Requirement; at least 25 hours must be taken from the UCF Music department

- Each student must complete a faculty approved capstone project.

- Co-op or internship credit cannot be used in this major
- Students should consult with a departmental advisor for course selections

- Courses designated in 1 (General Education Program) are usually spread over the full four years

- Courses designated in 2 (Common Program

Prerequisites) are usually completed in the first 60 hours

- A cumulative minimum GPA of 3.00 based upon all courses required in the major as well as all courses taken in music is required. Failure to maintain this standard may result in program probation or dismissal. Please refer to the SPA Student Handbook

(<http://performingarts.cah.ucf.edu/music/resources>) for details on program standards.

### Admission Requirements

#### Audition Requirements for Admission

■ Acceptance into the Department of Music is conditional upon completion of a successful audition. Go to <http://music.cah.ucf.edu/admissions.php> to learn more about specific audition requirements and recommended repertoire for each instrument and voice.

■ The audition will serve as a placement examination for accepted candidates.

#### Professional Sequence Entrance Review

■ During the fourth semester of applied study, each student will be required to pass the Professional Sequence Entrance Review, which will include:

- An evaluation of performance skills
- Completion of Performance I and II
- Completion of MUS 2360C
- Completion of MUT 2127, Music Theory and Musicianship IV

■ Completion of Class Piano IV

■ Completion of Class Piano IV

■ Completion of Jazz Theory I & II

■ Overall GPA of at least 2.5, and a GPA for all music courses of at least 3.0

■ This review is a pre-requisite for Performance level III.

### Degree Requirements

■ Prior to attending the first class as a music major at UCF, all students must take a keyboard placement examination to determine the appropriate level of class piano. Go to <http://music.ucf.edu/> to see the class piano requirements.

■ Students who change degree programs and select this major must adopt the most current catalog.

■ At least 65 hours of credit must be earned in music courses.

■ Departmental Residency Requirement; at least 30 hours must be taken from the UCF Music department.

■ Performance students must present two faculty-approved public recitals.

■ Students should consult with a departmental advisor for course selection.

■ Courses designated in 1 (General Education Program) are usually completed throughout four years of study.

■ Students must complete a faculty-approved Senior BM web portfolio.

■ A cumulative minimum GPA of 3.00 based upon all courses required in the major as well as all courses taken in music is required. Failure to maintain this standard may result in program probation or dismissal. Please refer to the SPA Student Handbook (<http://performingarts.cah.ucf.edu/music/resources>) for details on program standards.

### Admission Requirements

#### Audition Requirements for Admission

- Acceptance into the Department of Music is conditional upon completion of a successful audition. Go to <http://www.music.ucf.edu/admissionsauditions.php> to learn more about specific audition requirements and recommended repertoire for each instrument and voice.
- The audition will serve as a placement examination for accepted candidates

#### Professional Sequence Entrance Review

- Prospective composition students must audition for and be accepted for either the BA in Music, the BME degree or the Bachelor of Music in Performance or Jazz Studies for their first two years of study. Students will normally be considered for acceptance into the Bachelor of Music in Composition in the fourth semester of study at UCF. Students will be accepted based on the Professional Sequence Entrance Review. Students will be required to pass this evaluation before entering Level III Composition. This review will include:
  - Approval of composition portfolio
  - Completion of Composition I and II
  - Completion of Performance I and II
  - Completion of MUS 2360C
  - Completion of MUT 2127, Music Theory and Musicianship IV

- Completion of Class Piano IV

- Overall GPA of at least 2.5, and a GPA for all music courses of at least 3.0.

- This review is a pre-requisite for Composition level III.

#### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- At least 65 hours of credit must be earned in music courses.
- Departmental Residency Requirement; at least 30 hours must be taken from the UCF Music department.
- Composition students must present one faculty-approved public recital.
- Students should consult with a departmental advisor for course selection.
- Courses designated in 1 (General Education Program) are usually completed throughout four years of study.
- Students must complete a faculty-approved Senior BM web portfolio.

## UCF Degree Programs

■ A cumulative minimum GPA of 3.00 based upon all courses required in the major as well as all courses taken in music is required. Failure to maintain this standard may result in program probation or dismissal. Please refer to the SPA Student Handbook (<http://performingarts.cah.ucf.edu/music/resources>) for details on program standards.

### Admission Requirements

#### Audition Requirements for Admission

- Acceptance into the Department of Music is conditional upon completion of a successful audition. Go to <http://music.cah.ucf.edu/admissions.php> to learn more about specific audition requirements and recommended repertoire for each instrument and voice.
- The audition will serve as a placement examination for accepted candidates.

### Professional Sequence Entrance Review

- During the fourth semester of applied study, each student will be required to pass the Professional Sequence Entrance Review, which will include the following:

- An evaluation of performance skills
- Completion of Performance I and II
- Completion of Class Piano IV
- Overall GPA of at least 2.5, and a GPA for all music courses of at least 3.0.

- This review is a pre-requisite for Performance level III.

- Completion of the following courses:

|           |                                  |       |
|-----------|----------------------------------|-------|
| MUS 2360C | Introduction to Music Technology | 3 hrs |
| MUT 2127  | Music Theory and Musicianship IV | 4 hrs |

### Degree Requirements

- Prior to attending the first music class as a music major at UCF, all students must take a keyboard placement examination to determine the appropriate level of class piano. Go to <http://music.ucf.edu/students> to see the class piano requirements.

- Students who change degree programs and select this major must adopt the most current catalog.

- At least 65 hours of credit must be earned in music courses.

- Departmental Residency Requirement; at least 30 hours must be taken from the UCF Music department.

- Performance students must present two faculty-approved public recitals.

- Students should consult with a departmental advisor for course selection.

- Courses designated in 1 (General Education Program) are usually completed throughout four years of study.

- Students must complete a faculty-approved Senior BM web portfolio.

- A cumulative minimum GPA of 3.00 based upon all courses required in the major as well as all courses taken in music is required. Failure to maintain this standard may result in program probation or dismissal. Please refer to the SPA Student Handbook (<http://performingarts.cah.ucf.edu/music/resources>) for details on program standards.

### Admission Requirements

#### Admission Requirements - Music Education

- Audition. To be accepted in to Music Education, a student must demonstrate advanced proficiency by performing compositions representing a variety of musical periods (baroque, classical, romantic, contemporary).
- Memorization is required for pianists and vocalists.
- Accompanists are provided for vocalists only.
- Each candidate must bring his/her own audition music.
- The department will only provide large instruments such as a tuba, string, bass, or timpani for these auditions.
- The audition will serve as a placement exam for accepted candidates.
- Refer to the UCF Music Department website for specific audition requirements.
- Prior to attending the first music class as a music major at UCF, all students will take a keyboard placement examination to determine the appropriate level of class piano.
- Interview. In addition to a performance audition, students must successfully complete an interview with Music Education faculty.

# UCF Degree Programs

## Admission Requirements - Professional Program

■ Application into the Professional Program must be made at the conclusion of 45 hours of course work. Students must complete a formal application for the Professional Program. (Deadlines: February 15 for Fall semester admission and September 15 for Spring semester admission). Transfers may be admitted on an individual basis at the discretion of the Music Education faculty. To apply for the Music Education Professional Program, students must:

- Complete 45 hours of coursework including: 15 hours of General Education Program courses, EDF 2005, MUT 2126, first semester of Performance II.
- Have a minimum overall GPA of 2.5 and a grade of "C" (2.0) or better in each performance, education, and music education course.
- Have on file in the University admissions office passing scores on the General Knowledge Test of the Florida Teacher Competency Examination.
- Provide satisfactory documentation and reflection on 15 hours of field experiences (See Music Education Coordinator for more information).

## To be accepted into the Music Education

### Professional Program students must:

- Demonstrate proficiency with aural skills (including the ability to match pitch with the voice) and communication skills (including the ability to write and speak effectively).
- Complete MVK 2122, MUT 2127, and two semesters of Performance II.

### Notes:

- (1) Students may not enroll in Performance III or Professional Program courses unless all requirements for admission are satisfied.
- (2) Students who change degree programs and select this major must adopt the most current catalog.
- (3) Common program prerequisites are subject to revision based on changes Section 1004.04, Florida Statutes, Public Accountability and State Approval for Teacher Preparation Programs, and State Board of Education Rule 6A-5.5.066, Approval of Pre-service Teacher Preparation Programs.

## Degree Requirements

- A cumulative minimum GPA of 3.00 based upon all courses required in the major as well as all courses taken in music is required. Failure to maintain this standard may result in program probation or dismissal. Please refer to the SPA Student Handbook (<http://performingarts.cah.ucf.edu/music/resources>) for details on program standards.

### 8. Electives

- None

### 9. Additional Requirements

#### Admission to Internship I will be granted

#### to students who meet the following

#### requirements:

- Have on file passing scores on all 4 parts of the Florida Teacher Certification General Knowledge Test (no alternatives or waivers will be accepted).
- Possess minimum overall GPA of 2.5
- Possess minimum specialization GPA of 2.5
- Achieve a "C" or better in all prerequisite methods/specialization courses
- Complete a formal application for Internship I online (Deadlines: February 15 for fall semester and September 15 for spring semester).
- Current enrollment in or completion of Performance III (first semester).
- Completion of Music Education prerequisites and Education Core Requirements.
- Completion of 30 semester hours of General Education and Common Program courses.
- Completion of all Specialty Area courses except Secondary Methods II (MUE 433X) and Music Internship II (MUE 4943).
- Possess minimum professional preparation GPA of 2.5.
- Internship I: Students are assigned to a school with certified Supervising Teachers under the direction of a University Coordinator. During the semester, students spend two full days per week (Tuesday and Thursday) in assigned schools with half the time in an Elementary setting and half in a Secondary school setting. Students are expected to provide their own transportation to assigned locations.

#### Admission to Internship II will be granted to students who meet the following

#### requirements:

- Completion of all admission requirements for Internship I (see above).
- Completion of Performance III and any associated recital (students may not perform a recital during Internship II).
- Completion of all music methods and techniques courses.
- Completion of all General Education and Common Program courses.
- Internship II: Students are assigned to a school with certified Supervising Teachers under the direction of a University Coordinator five days a week for the entire semester, normally during the student's last semester. Students are permitted to enroll in other classes only with the consent of the departmental advisor. Students are expected to provide their own transportation to assigned locations.

#### Special Non-Course Requirements

- Note: Contact the Music Education Advisor for details.
- Students should register to take the General Knowledge Test of the Florida Teaching Certification Examination (FTCE) before the third semester of enrollment at UCF. (See <http://www.fl.nesinc.com/> for test information).
- Electronic Portfolio (MUE 4791). Students will develop an electronic portfolio while enrolled in upper division education courses and Internship II (MUE 4943). The portfolio requires demonstration of professional growth, reflection, and proficiency in the 12 Florida Educator Accomplished Practices. Consult with the Music Education Advisor for specific information regarding portfolio construction.

#### Ensemble Participation

- Selected from University Chorus, Women's Chorus, Symphony Orchestra, Concert Band, and Wind Ensemble. Four hours of Jazz Lab or one hour of Marching Band may be used to fulfill Major Ensemble requirements.
- Students whose primary instrument is a wind instrument must audition for Wind Ensemble whenever it is offered.
- Ensemble assignment is by the Ensemble directors in consultation with the applied faculty.
- Transfer students must take Major Ensemble during each of their remaining semesters, except when enrolled in Internship II.
- Native UCF students must take each Major Ensemble credit in separate semesters.
- Students enrolled in a Performance course must concurrently enroll in an appropriate major ensemble if accepted.

#### Recitals

- Students must complete a faculty-approved public recital fulfilled by MUS 3953. Recitals are normally performed while concurrently enrolled in the second semester of Performance III.

#### Music Education Forums

- Attendance at all Music Education Forums (except during Internship I and II) is expected

#### Public School Partnerships

- Students are expected to be in K-12 schools each semester. Prior to internship experiences, students are expected to observe, assist, and teach in variety of grade levels and settings (e.g., urban, suburban, general, choral, instrumental). Students are expected to maintain a record of and reflections on all field experiences as this will be required for the Music Education Proficiency Examination.

### 10. Required Minors

Dr. Stephanie Krick, [Stephanie.Krick@ucf.edu](mailto:Stephanie.Krick@ucf.edu), 407-823-2604

The School of Public Administration provides the highest quality undergraduate education for students interested in working in the nonprofit sector. The school strives to achieve local, state and national prominence through contemporary curriculum, innovative instruction, scholarly and applied research, and community service. Programs and services develop and enhance management skills essential to public and nonprofit organizations. The school offers an undergraduate program leading to a Bachelor of Arts (BA) or a Bachelor of Science (BS) in Nonprofit Management. The program provides opportunities for students to prepare for employment as nonprofit professionals and produces graduates with the management skills and analytical techniques needed for successful careers in nonprofit and related business fields.

### 5. Restricted Electives (24 hrs)

#### Required Minor of 18 credit hours: 18 hrs

- Students must complete a minor. Students can choose from: Emergency Management and Homeland Security; Urban and Regional Planning; or other minor approved by the Undergraduate Program Director excluding Public Administration and Nonprofit Management.

- Those who complete a recognized UCF minor in a discipline outside Public Administration must take a minimum of 18 hrs within that minor.

- Additional electives can be taken from other allied supporting fields such as accounting, legal studies, communications, computer science, criminal justice, economics, political science, social work, sociology, or statistics. Electives can also be taken from nonprofit sector "service area" concentrations such as: youth services, eldercare, environment, education, the arts, etc. Courses should be selected with the assistance of an advisor, and must be upper division (3000-4000 level).

- Students pursuing the B.A. degree must demonstrate proficiency in a foreign language equivalent to one year at the college level.

- Students pursuing the B.S. degree must complete two additional upper level courses (six credit hours).

### 6. Capstone Requirements

- PAD 3930 Nonprofit Leadership Seminar

### 7. Foreign Language Requirements

#### Admissions

- Two years of one foreign language in high school, or one year of one foreign language in college (or equivalent proficiency exam) prior to graduation.

#### Graduation

- Students pursuing the B.A. degree must demonstrate proficiency in a foreign language equivalent to two semesters or one year at the college level, beyond University requirement. ASL I, II and III can also be used to fulfill this requirement.

# UCF Degree Programs

## 8. Electives

■ Students are encouraged to select courses as electives or other course that will enhance their background in the nonprofit sector. These may be used to build minors and certificates offered by the University. Examples include: Accounting; Criminal Justice; Diversity and Social Inequality; Emergency Management and Homeland Security; Global Peace and Security Studies; Health Services Administration; Human Services; Legal Studies; Urban and Regional Planning; and Writing and Rhetoric

■ Electives can also be taken from nonprofit sector "service area" concentrations such as: youth services, eldercare, environment, education, the arts, etc. Courses should be selected with the assistance of an advisor, and must be upper division (3000-4000 level).

## 9. Additional Requirements

■ None

## 10. Required Minors

■ Students must complete a minor or certificate from the School of Public Administration offered at UCF or another minor approved by the Undergraduate Program Director. Minors in the School of Public Administration can include 1) Emergency Management and Homeland Security and 2) Urban and Regional Planning. Students majoring in Nonprofit Management cannot minor in Nonprofit Management or Public Administration. Other approved minors include: Criminal Justice; Diversity and Social Inequality; Global Peace and Security Studies; Health Services Administration; Human Services; Legal Studies; and Writing and Rhetoric.

## 11. Departmental Exit Requirements

■ The students must attain a minimum grade of "C" (2.0) in all Common Program Prerequisites courses and in all Core Requirements (see sections 2, 3, and 4 above).

■ An overall 2.0 GPA must be attained for all coursework (see sections 1, 2, 3, 4, and 5 above).

■ Students must earn a 2.5 GPA in the major in order to graduate.

## 12. University Minimum Exit Requirements

■ A 2.0 UCF GPA

■ 60 semester hours earned after CLEP awarded

■ 48 semester hours of upper division credit completed

■ 30 of the last 39 hours of course work must be completed in residency at UCF.

■ A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.

■ Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

## Total Semester Hours Required

■ 120

## Honors In Major

■ Admission: Applications to the Honors in the Major program must be approved by the Associate Dean of the Honors College and a Faculty Advisor in the School of Public Administration.

## Related Programs

■ Urban and Regional Planning

■ Writing and Rhetoric

## Advising Notes

■ Orientation and advising are two of the most valuable tools that a student can make use of when transferring to UCF. Be sure that you take advantage of both.

■ Students are urged to have access to a personal computer, modem, and appropriate software to interact with the University and professors.

## Transfer Notes

■ Florida College System students are advised to complete the Associate of Arts degree, to include the general education requirements and the common program prerequisites.

■ Lower division courses do not substitute for upper division courses.

■ Courses transferred from private and out-of-state schools must be formally evaluated for equivalency credit. The student must provide a course syllabus and any additional supporting documentation with his/her petition for this evaluation.

■ Common Program Prerequisites for the State University System for the School of Public Administration programs include Macroeconomics (ECO2013) or Microeconomics (ECO2023).

■ Subject to the general grade and residence requirements, credit will be granted for transferred course work equivalent to that required in the Nonprofit Management program. Only grades of "C" (2.0) or higher transfer into the program and students must have a "C" (2.0) or better in each common program prerequisites class.

## Acceptable Substitutes for Transfer Courses

■ None

## Nursing (B.S.N.)

### College of Nursing

**UTWR, Room: 3rd floor**

<http://www.nursing.ucf.edu>

**Email: ucnurse@ucf.edu**

Dr. Mary Lou Sole, Dean

Dr. Maureen Covelli, Associate Dean, Undergraduate

Dr. Kelly Allred, Undergraduate Coordinator

Patricia Leli, Clinical Education Coordinator

Phone: 407-823-2744

For individuals who are not Registered Nurses. The College of Nursing has a demanding curriculum. The classes are work-intensive and courses include clinical practice in a variety of settings. Due to this, it is strongly recommended that students be at least one year post high school prior to applying to the basic nursing program. Students with concerns or questions should contact the College of Nursing Undergraduate Student Services Office for an appointment with an academic advisor. Graduates are eligible to take the National Council Licensure Examination for registered nurses (NCLEX-RN). The program is accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Florida State Board of Nursing.

### Admission Requirements

- Acceptance to the university does not constitute admission to the upper division nursing program
- Separate application to the limited access program must be made directly to the College of Nursing by the posted deadline. For application deadlines, please visit <http://www.nursing.ucf.edu>.
- Admission to the University must also be completed by the program application deadline.
- All general education, foreign language, and program prerequisite requirements must be completed prior to the start of the program. Students who transfer with an AA degree and will be pursuing a BS degree must meet the University foreign language admission requirements for graduation.
- All applicants must have a minimum overall GPA of 3.0
- A standardized test and predetermined cutoff score will be required for acceptance to the College of Nursing. Information regarding this test can be found at <http://www.nursing.ucf.edu>.
- All applicants are encouraged to attend an information session, prior to submitting the application.

■ Criminal background checks including fingerprints are required for all applicants to the undergraduate nursing program. The results are reviewed as part of the admission process and may be grounds for denying a student admission to the College of Nursing.

■ At least seven (7) of the eight (8) Common Program Prerequisites must be completed by the program application deadline with at least a grade of "C" (2.0) or better in each course.

■ All 8 prerequisite courses must be completed before program begins.

### Degree Requirements

■ Students who change degree programs and select this major must adopt the most current catalog year, including any minors

■ Students should consult with a college advisor or Florida College System A.A. transfer advisor regarding completion of General Education requirements and the Common Program Prerequisites

■ A minimum overall GPA of 2.5 and a minimum 2.5 GPA in the nursing major are required for continuation and graduation from the Nursing Program

■ UCF Residency Requirement: 30 hours

### 1. UCF General Education Program (GEP) (38 hrs)

■ Note: Certain courses must be selected in the GEP for this major, bringing the total GEP hours to more than 36. The courses designated in sections 1 and 2 below may be taken at a Florida College System or State University System institution, and should be completed in the first 60 hours.

A partnership between selected Florida College System institutions and UCF College of Nursing to allow qualified Associate of Science in Nursing (ASN) students to enroll in the RN to BSN program while completing the ASN program. This program allows simultaneous enrollment in both associate and baccalaureate nursing programs.

### Admission Requirements

■ Acceptance to the University does not constitute admission to this program. Only students admitted to the Florida College System institution Nursing Programs are eligible for this enrollment option. Students must make separate application to UCF and the College of Nursing. Students are accepted into this program for their first semester of nursing and must progress according to a designated plan of study.

■ Students must be accepted by UCF prior to the Concurrent A.S.N. to B.S.N. application deadline. Upon completion of the ASN and successful licensure as a Registered Nurse, students will enroll in remaining UCF nursing upper division courses to complete the BSN.

■ Criminal background checks and drug screening may be required for all Concurrent students prior to their registering for the final practicum course NUR 4604L.

**At the time of application, students must have:**

- A cumulative GPA of 3.0 or above.
- Completed application to a Florida College System institution ASN Nursing program and the UCF College of Nursing and be admitted to the University by UCF Undergraduate Admissions.
- An AA degree from a Florida College System or State University System institution or have met ALL UCF General Education requirements prior to program start.
- Met UCF Foreign Language admission requirement prior to program start.
- Completed seven out of eight Common Program Prerequisite courses for UCF and all of the ASN nursing program's prerequisites by application deadline with at least a grade of "C" (2.0) or better in each course.
- A satisfactory score on the standardized entry test(s) required by both programs.

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog year, including minors.
- Students should consult with a college advisor or Florida College System A.A. transfer advisor regarding completion of General Education Program requirements.
- Students should consult with an advisor in the Concurrent Nursing program for clarification of questions regarding prerequisite requirements.
- The courses designated in sections 1 and 2 below may be taken at a Florida College System or State University System institution.
- A minimum overall GPA of 2.5 and a minimum 2.5 GPA in the nursing major are required for continuation in and graduation from the nursing program.
- UCF Residency Requirement: 30 hours.

## UCF Degree Programs

■ The courses designated in sections 1 (General Education) and 2 (Common Program Prerequisites) should usually be completed in the first 60 hours.

## UCF Degree Programs

### Photography (B.S.)

College of Arts and Humanities

School of Visual Arts and Design

(This program is offered at UCF at the Daytona Beach Campus)

<http://svad.cah.ucf.edu/bsphotography>

Phone: 386-506-4093

(This program is offered at UCF at the Daytona Beach Campus. Photography is also available as an area of concentration at the Orlando campus as part of the Art-Studio B.A. and Art-Studio B.F.A. programs.) The School of Visual Arts and Design affirms that a theoretical and working understanding of the historical meanings and studio applications of the human image are critical in the education of Visual Art and Art History students. To develop such an understanding, school courses often utilize images of clothed and unclothed human figures and, in certain studio classes, live nude models.

#### Admission Requirements

■ Completion of an A.S. in Photographic Technology from Daytona State College or equivalent coursework.

#### Degree Requirements

■ Students who change degree programs and select this major must adopt the most current catalog.

■ Departmental Residency Requirement consists of at least 36 semester hours of regularly scheduled 3000-4000 level courses taken from the UCF School of Visual Arts and Design

■ Students must earn at least a "C" (2.0) in each required upper level course and maintain an overall GPA of at least 2.0

■ Upper-division electives, internship credit, and course substitutions must be approved by the program director.

■ Students should consult with a Photography advisor before selecting this major, and at least annually thereafter.

#### 1. UCF General Education Program (GEP) (36 hrs)

■ Students who have not satisfied General Education Requirements before transferring will complete the remaining courses at UCF. The specific courses will depend on the general education courses completed as part of the articulated A.S., and will come from the following areas:

#### A: Communication Foundations (9 hrs)

<sup>1</sup> Required ENC 1101 Composition I 3 hrs  
Required ENC 1102 Composition II 3 hrs  
SPC 2600 Speech (A.S.) 3 hrs

<sup>1</sup> If not already completed as part of the A.S. degree, after acceptance into the program.

#### B: Cultural & Historical Foundations (9 hrs)

<sup>1</sup> Required ARH 2051 History of Western Art II 3 hrs

<sup>1</sup> If not already completed as part of the A.S. degree, after acceptance into the program.

#### C: Mathematical Foundations (6 hrs)

If not already completed as part of the A.S. degree, after acceptance into the program.

Required MAC 1105C College Algebra or 3 hrs  
MGF 2106 College Mathematics or 3 hrs  
MGF 2107 Mathematics for Liberal Arts 3 hrs  
Computer Science or Statistics 3 hrs

#### D: Social Foundations (6 hrs)

Political Science or Economics 3 hrs  
Psychology or Sociology (If not already completed as part of the A.S. degree, after acceptance into the program.) 3 hrs

#### E: Science Foundations (6 hrs)

Physical Science 3 hrs  
Life Science 3 hrs

#### 2. Common Program Prerequisites (CPP)

■ (Included in A.S. or B.S. requirements.)  
■ See "Common Prerequisites" in the Transfer and Transitions Services section for more information.

■ Subject to change. Prerequisites have not been set by the state.

<sup>1</sup> ARH 2051 History of Western Art II GEP  
<sup>2</sup> PGY 3651C Narrative Editorial Photography 3 hrs  
PGY 1403\* Fundamentals of Photography (Already included in A.S. requirements)

<sup>1</sup> Already included in A.S. requirements.

<sup>2</sup> Already included in B.S. requirements.

#### 3. Core Requirements: Basic Level (49 hrs)

■ Completed in the A.S. in Photographic Technology at Daytona State College, or equivalent coursework

#### 4. Core Requirements: Advanced Level (33 hrs)

PGY 3002 Contemporary Photography 3 hrs  
PGY 3205C Photographic Lighting Techniques 3 hrs  
PGY 3276 The Professional Environment 3 hrs  
PGY 3472C Photo Visualization 3 hrs  
PGY 3653C Advanced Editorial Photography 3 hrs  
PGY 3751C Videography 3 hrs  
PGY 3821C Advanced Digital Photography 3 hrs  
PGY 4003 Image, Culture, and Society 3 hrs  
PGY 4228C Advanced Illustrative Photography 3 hrs  
PGY 4471C Photography Thesis 3 hrs  
PGY 3651C Narrative Editorial Photography CPP

#### Select one of the following courses:

CRW 3011 Creative Writing for Non-Majors or 3 hrs  
ENC 3250 Professional Writing 3 hrs

#### 5. Restricted Electives (6 hrs)

##### Select two of the following courses:

PGY 3451C Alternative Processes 3 hrs  
PGY 3480 Museum and Gallery Practices 3 hrs  
PGY 3703C Photography & the Web 3 hrs  
PGY 4235C Professional Photographic Workshop 3 hrs  
PGY 4493C Photography and Art 3 hrs  
PGY 4941 Internship 3 hrs

#### 6. Capstone Requirements

■ None

#### 7. Foreign Language Requirements

##### Admissions

■ Two years of one foreign language in high school, or one year of one foreign language in college (or equivalent proficiency exam) prior to graduation.

##### Graduation

##### 8. Electives

■ None

##### 9. Additional Requirements

■ None

##### 10. Required Minors

■ None

##### 11. Departmental Exit Requirements

■ None

##### 12. University Minimum Exit Requirements

■ A 2.0 UCF GPA  
■ 60 semester hours earned after CLEP awarded  
■ 48 semester hours of upper division credit completed  
■ 30 of the last 39 hours of course work must be completed in residency at UCF.  
■ A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.  
■ Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

##### Total Semester Hours Required

■ 127

##### Honors In Major

■ Students interested in completing Honors in the Major should contact their program advisor. More information about Honors in the Major can be found at <http://research.honors.ucf.edu/honors-in-the-major>.

### Transfer Notes

- Students transferring from any Florida public institution with an A.A. degree or with general education program (GEP) requirements of that institution met have thereby satisfied UCF GEP requirements.
- Lower division courses do not substitute for upper division courses.
- Transfer courses must be evaluated for equivalency credit and/or for use in the area by the department. The student must provide all supporting information.

### Acceptable Substitutes for Transfer Courses

- Acceptable substitutes for General Education and Common Program Prerequisites will be determined by the School of Visual Arts and Design and the University.

## Photonic Science and Engineering (B.S.P.S.E.)

### College of Optics and Photonics

#### CREOL, Room: 108B

Phone: 407-823-6376

The Bachelor of Science in Photonic Science and Engineering degree is designed to prepare the next generation of engineers for the growing optics and photonics industry, which has a broad set of applications including manufacturing, healthcare, telecommunication, defense, security and entertainment. The program draws on UCF's internationally recognized strengths in the field of optics and lasers and is matched to the strong photonics industry in Central Florida. The degree is offered jointly by the College of Optics and Photonics and the College of Engineering and Computer Science.

### Admission Requirements

- Students who wish to declare their major in Photonic Science and Engineering must be in good academic standing and must have a "C" (2.0) or better in each of the following courses or their equivalents: MAC 2311C, MAC 2312, PHY 2048C, and CHS 1440 or CHM 2045C.

### Degree Requirements

- Majors in the B.S.P.S.E. degree are required to achieve a 2.250 or greater GPA for their engineering core courses, including STA 3032 and PHY 3101, together with the photonics courses required for the major, technical elective courses, and the senior design courses.

- Students in the Photonic Science and Engineering major are expected to make consistent good progress toward their degrees to remain enrolled in, or eligible for, any major in the College of Engineering and Computer Science (CECS) or the College of Optics and Photonics (COP). Therefore, any student majoring in Photonic Science and Engineering who repeats any UCF course and does not earn a grade of "C" (2.0) or better on the second attempt will be placed on Lack of Progress Probation and remain on Lack of Progress Probation as long as the student is enrolled in a CECS or COP major. If a student on Lack of Progress Probation does not receive a grade of "C" (2.0) or better by the third attempt in the same UCF course, the student will be excluded from all CECS and COP majors. Any student majoring in Photonic Science and Engineering who has accumulated 7 or more unsuccessful attempts (i.e., grades below "C" (2.0) and withdrawals) over all courses taken at UCF will be placed on Lack of Progress Probation and remain on Lack of Progress Probation as long as the student is enrolled in a CECS or COP major. If a student on Lack of Progress Probation has a tenth unsuccessful attempt over all courses taken at UCF, the student will be excluded from all CECS and COP majors.

- A student who is excluded from CECS and COP majors may seek readmission to a major in CECS or COP after at least one full year has passed since exclusion. Readmission is not automatic and is dependent upon a high probability of success after readmission. Any student who is readmitted to the Photonic Science and Engineering major will be subject to all probation conditions that applied at the time of exclusion.

- Students in the BSPSE Major must obtain a 2.0 or greater GPA in the following courses: EGN 3211, EEL 3004C, EEL 3123C, MAP 2302

### 1. UCF General Education Program (GEP) (38 hrs)

- Engineering students should closely study the requirements of the UCF GEP and the allowable substitutions detailed in paragraphs A through E below to minimize excess hours. Students transferring to UCF from within the Florida College System or State University System should complete the GEP and the Common Program Prerequisites before transferring.

| OSE 4930  | Frontiers of Optics and Photonics     | 2 hrs |

### 5. Restricted Electives (12 hrs)

■ Students must select at least 3 credit hours of restricted electives with the course prefix OSE. The remaining 9 hours may be taken from approved upper level photonics, engineering, physics, mathematics, or other related electives. All electives must be approved by the program advisor. See myKnight audit for complete list of approved electives. If EGS 1006C and EGN 1007C are not completed, the restricted electives requirement increases to 14 hrs.

### 6. Capstone Requirements (6 hrs)

| OSE 4952 | Senior Design II | 3 hrs |

### 7. Foreign Language Requirements

#### Admissions

■ Two years of one foreign language in high school, or one year of one foreign language in college (or equivalent proficiency exam) prior to graduation.

#### Graduation

■ None

### 8. Electives

■ None

### 9. Additional Requirements

■ Photonic science and engineering students must earn at least 32 hours in residence at UCF. 24 of the 32 Residency hours must be at the 3000-5000 level, in courses taken from the College of Optics and Photonics at UCF and applicable to the degree program.

### 10. Required Minors

■ None

### 11. Departmental Exit Requirements

■ None

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

### Total Semester Hours Required

■ 128

### Honors In Major

■ None

### Related Programs

- Electrical Engineering
- Computer Engineering
- Physics

### Certificates

■ None

### Related Minors

- Engineering Leadership
- Mathematics
- Physics

### Advising Notes

- Each engineering student should meet with their academic advisor in the department of their major regularly.
- Each student should seek academic advisement before registering for classes each semester to minimize excess hours.
- Students are assumed to have knowledge of a higher level programming language (C preferred).

## UCF Degree Programs

- Students in the BSPSE Major are required to take OSE-prefixed lab courses in the same semester as the corresponding lecture course.
- Prior to enrolling in OSE 3200, students are required to meet with the BSPSE Academic Advisor.

### Transfer Notes

- Courses taken from Florida College System institutions do not substitute for upper division courses unless part of an articulated pre-engineering degree program.
- Courses transferred must be formally evaluated for equivalency credit. The student must provide all supporting information with his/her petition for this evaluation.
- EGS 1006C and EGN 1007C are required courses for incoming freshmen only and without completion of these courses, restricted elective requirement increases to 14 credit hours.

### Acceptable Substitutes for Transfer Courses

- None

Physics majors can select from five distinct specializations to earn their physics degree, as described below in Section 4, Core Requirements, Advanced. While the various specializations share a common core of courses, they also enable students to prepare specifically for certain career paths. Students should consult their faculty advisors when deciding among these tracks.

### Admission Requirements

- None

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- Grades below "C" (2.0) in any required physics or mathematics courses are not acceptable; they must be repeated with a higher grade.
- Students must achieve a minimum cumulative GPA of 2.0 in all courses taken that could meet major requirements.
- All attempts that could meet requirements are included in the major GPA calculation. All attempts of courses listed for the major taken beyond the minimum required are included in the GPA calculation (e.g., additional restricted electives).
- Departmental Residency Requirement consists of at least 15 semester hours of regularly scheduled 3000-4000 level courses taken from the UCF Department of Physics.
- Physics majors are discouraged from taking courses as a transient student at a Florida College System institution, except in situations where one semester of a two semester sequence has already been taken at the Florida College System institution.
- All prerequisites of courses taught within the College of Sciences will be enforced.
- Courses designated in 2 (Common Program Prerequisites) are usually completed in the first 60 hours.
- AA transfer students are expected to have completed the following courses before enrolling as a Physics major. These classes are prerequisites for advanced science classes and students entering without these classes will be unable to register for most of the advanced courses.

## UCF Degree Programs

### 1. UCF General Education Program (GEP) (38 hrs)

■ Note: Certain courses must be selected in the GEP for this major which brings the GEP hours above 36.

#### A: Communication Foundations (9 hrs)

Prefer SPC 1603C Fundamentals of Technical Presentations 3 hrs

#### Take all of the following: 6 hrs

Required ENC 1101 Composition I and 3 hrs  
Required ENC 1102 Composition II 3 hrs

#### B: Cultural & Historical Foundations (9 hrs)

#### C: Mathematical Foundations (7 hrs)

Required MAC 2311C Calculus with Analytic Geometry I 4 hrs

Required COP 3502C Computer Science I 3 hrs

#### D: Social Foundations (6 hrs)

#### E: Science Foundations

##### 1. Physical Science; 4 hrs

Required PHY 2048C General Physics Using Calculus I 4 hrs

##### 2. Life sciences; 3 hrs

Select from the E.2. GEP list. 3 hrs

##### 2. Common Program Prerequisites (CPP) (20 hrs)

MAC 2311C Calculus with Analytic Geometry I GEP

MAC 2312 Calculus with Analytic Geometry II 4 hrs

MAC 2313 Calculus with Analytic Geometry III 4 hrs

#### Select one of the following sequences of courses:

CHM 2045C Chemistry Fundamentals I 4 hrs

or

CHM 2040 Chemistry Fundamentals IA and 3 hrs

CHM 2041 Chemistry Fundamentals IB 3 hrs

#### Take all of the following:

CHM 2046 Chemistry Fundamentals II 3 hrs

CHM 2046L Chemistry Fundamentals Laboratory 1 hr

PHY 2048C General Physics Using Calculus I GEP

PHY 2049C General Physics Using Calculus II 4 hrs

#### 3. Core Requirements: Basic Level (36 hrs)

■ Required of all specializations.

■ In addition to those courses specified in the Common Program Prerequisites, students also must complete the following.

#### Core: Required, satisfies the CPP

CHM 2045C Chemistry Fundamentals I CPP

- or

CHM 2040 Chemistry Fundamentals IA and CPP

CHM 2041 Chemistry Fundamentals IB CPP

- and

MAC 2311C Calculus with Analytic Geometry I and GEP/CPP

MAC 2312 Calculus with Analytic Geometry II and CPP

MAC 2313 Calculus with Analytic Geometry III and CPP

PHY 2048C General Physics Using Calculus I and GEP/CPP

PHY 2049C General Physics Using Calculus II CPP

#### Core: Additional requirements

MAP 2302 Ordinary Differential Equations I 3 hrs

PHY 3101 General Physics Using Calculus III 3 hrs

PHZ 3113 Introduction to Theoretical Methods of 3 hrs

specialization)

#### Laboratory Requirement 6 hrs

PHY 3802L Intermediate Physics Laboratory 3 hrs

#### And either

PHY 3752C Physics of Scientific Instruments or 3 hrs

PHY 3722C Physics Laboratory-Electronics 3 hrs

### 4. Core Requirements: Advanced Level

■ Select one specialization

#### 4.1. General Physics Specialization 18 hrs

PHY 4803L Advanced Physics Laboratory 3 hrs

#### - Restricted Electives: 6 hrs

Select from upper division PHY, PHZ, or AST courses 6 hrs

#### - Directed Electives: 9 hrs

Select courses at a 3000 level or higher, approved by the Physics Department. Courses must be chosen in Physics, Mathematics, Chemistry, Computer Science, or Engineering. 9 hrs

#### 4.2. Materials Physics Specialization 18 hrs

##### - Select 1 3 hrs

PHY 4803L Advanced Physics Laboratory or 3 hrs

EEE 5356C Fabrication of Solid-State Devices 4 hrs

##### - Select 3 9 hrs

EEE 3350 Semiconductor Devices I or 3 hrs

EGN 3365 Structure and Properties of Materials or 3 hrs

EMA 4413 Fundamentals of Electronic Materials or 3 hrs

CHM 3411L Physical Chemistry Laboratory or 2 hrs

PHZ 5405 Condensed Matter Physics or 3 hrs

EEE 5352C Semiconductor Material and Device 3 hrs

Characterization

#### - Directed Electives: 6 hrs

Select courses at a 3000 level or higher, approved by the Physics Department. Courses must be chosen in Physics, Mathematics, Chemistry, Computer Science, or Engineering. 6 hrs

#### 4.3. Optics and Lasers Specialization 18 hrs

PHY 4424 Optics 3 hrs

##### - Select 2 6 hrs

Physics majors can select from two curricular options: BA in Physics, which gives students the flexibility to combine physics with another focus area in an interdisciplinary program, in particular Physics Education, Nanoscale Science and Technology, Biophysics, Information Technology/Data Science, Technical Writing; and BS in Physics, which is intended to prepare students for the study of physics or a closely related subject in graduate school. In consultation with their academic advisors, students can choose between Option I and II by the end of the sophomore year.

#### Admission Requirements

- None

#### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- Grades below "C" (2.0) in any required physics or mathematics courses are not acceptable; they must be repeated with a higher grade.
- Students must achieve a minimum cumulative GPA of 2.0 in all courses taken that could meet major requirements.
- All attempts that could meet requirements are included in the major GPA calculation. All attempts of courses listed for the major taken beyond the minimum required are included in the GPA calculation (e.g., additional restricted electives).
- Departmental Residency Requirement consists of at least 15 semester hours of regularly scheduled 3000-4000 level courses taken from the UCF Department of Physics.
- Physics majors are discouraged from taking courses as a transient student at a Florida College System institution, except in situations where one semester of a two semester sequence has already been taken at the Florida College System institution.
- All prerequisites of courses taught within the College of Sciences will be enforced.
- Courses designated in 2 (Common Program Prerequisites) are usually completed in the first sixty hours.
- AA transfer students are expected to have completed the following courses before enrolling as Physics major. These classes are prerequisites for advanced science classes and students entering without these classes will be unable to register for most of the advanced courses.

## UCF Degree Programs

### 4. Core Requirements: Advanced Level

- Select one specialization

#### 4.1 Education

- Students in this specialization must declare and be admitted to the Science Education Minor.

#### Required: 19 hrs

|          |  |       |
|----------|--|-------|
| PHY 4012 | Teaching Introductory Physics                            | 3 hrs |
| EDG 4410 | Teaching Strategies and Classroom Management             | 3 hrs |
| EDF 4467 | Learning Theory and Assessment                           | 3 hrs |
| TSL 4080 | Theory and Practice of Teaching ESOL Students in Schools | 3 hrs |
| SCE 4360 | Science Instructional Analysis                           | 4 hrs |
| SCE 4361 | Programs in Teaching Science                             | 3 hrs |

#### Restricted electives: 9 hrs

- Select 9 credits from upper division PHY, PHZ, or AST courses or approved education courses to fulfill a double major or a minor in Science Education - Physics.
- The courses will be selected with advisor approval.

### 4.2 Nanoscale Science and Technology

#### Required: 12 hrs

|          |   |       |
|----------|---|-------|
| PHZ 3462 | Nanoscale I: The Science and Societal Impacts | 3 hrs |
| PHZ 3464 | Nanoscale II: Technological Applications      | 3 hrs |
| PHZ 3466 | Nanoscale III: A Virtual Laboratory           | 3 hrs |
| EMA 3691 | Nanomaterials Process Engineering             | 3 hrs |

#### Restricted electives: 9 hrs

- Selected from upper division physics, mathematics, chemistry, computer science or engineering courses.

#### Directed electives: 15 hrs

- The elective courses will be selected with advisor approval.

|           |   |       |
|-----------|---|-------|
| PHY 3722C | Physics Laboratory-Electronics                  | 3 hrs |
| PHY 3752C | Physics of Scientific Instruments               | 3 hrs |
| EMA 3014  | Nanomaterials Characterization and Applications | 3 hrs |
| PHZ 3151  | Computer Methods in Physics                     | 3 hrs |
| BSC 3424  | Nanobiotechnology                               | 3 hrs |
| OSE 3490  | Nanophotonics                                   | 3 hrs |
| PHY 5933  | Selected topics in biophysics of macromolecules | 3 hrs |
| PHI 4690  | Ethics in Nanoscience and Nanotechnology        | 3 hrs |
| PHZ 5425C | Electron Solid Interactions                     | 3 hrs |
| PHZ 5445  | Nanofabrication using Focused Ion Beam          | 3 hrs |
| PHY 5704  | Physics of Nanoelectronics Devices              | 3 hrs |

### 4.3 Biophysics

#### Required: 18 hrs

|           |   |       |
|-----------|---|-------|
| BSC 2011C | Biology II  | 4 hrs |
| CHM 2210  | Organic Chemistry I                                   | 3 hrs |
| CHM 2211  | Organic Chemistry II                                  | 3 hrs |
| CHM 2211L | Organic Laboratory Techniques I                       | 2 hrs |
| MCB 1310  | Introduction to Biotechnology and Genetic Engineering | 3 hrs |
| BSC 3424  | Nanobiotechnology                                     | 3 hrs |

#### Restricted electives: 9 hrs

- Select 9 credits from upper division PHY, PHZ, or AST courses.

- The elective courses will be selected with advisor approval.

#### Directed electives: 9 hrs

- Select 9 credits from upper division biology or chemistry
- The elective courses will be selected with advisor approval.

#### Pre-meds are advised to take:

|           |                     |       |
|-----------|---------------------|-------|
| PCB 3063  | Genetics            | 3 hrs |
| PCB 3063L | Genetics Laboratory | 1 hr  |
| PCB 3703C | Human Physiology    | 4 hrs |
| BCH 4053  | Biochemistry I      | 3 hrs |
| BCH 4054  | Biochemistry II     | 3 hrs |

### 4.4 Information Technology / Data Science

#### Required: 18 hrs

|           |                                    |       |

| COP 4710 | Database Systems                      | 3 hrs |
| CIS 3362 | Cryptography and Information Security | 3 hrs |

#### Select 1:

|           |  |       |
|-----------|--|-------|
| COT 3100C | Introduction to Discrete Structures or | 3 hrs |
| MAD 2104  | Foundations of Discrete Math           | 3 hrs |

#### Restricted electives: 9 hrs

- Select 9 credits from upper division PHY, PHZ, or AST courses.

- The elective courses will be selected with advisor approval.

#### Directed electives: 6 hrs

- Select 6 credits from the following, or other approved upper division computer science, mathematics or engineering:
- The elective courses will be selected with advisor approval.

|           |  |       |
|-----------|--|-------|
| CDA 3103C | Computer Logic and Organization              | 3 hrs |

| COP 4516C | Problem Solving Techniques and Team Dynamics | 3 hrs |

### 4.5 Technical Writing

#### Required: 15 hrs

|          |   |       |
|----------|---|-------|
| ENC 3241 | Writing for the Technical Professional        | 3 hrs |
| ENC 4280 | Technical Writing Style                       | 3 hrs |
| ENC 4293 | Documentation and the Collaborative Process   | 3 hrs |
| ENC 4290 | Usability Testing for Technical Communication | 3 hrs |
| ENC 4218 | The Visual in Technical Documentation         | 3 hrs |

#### Restricted electives: 9 hrs

- Select 9 credits from upper division PHY, PHZ, or AST courses.

- The elective courses will be selected with advisor approval.

#### Directed electives: 6 hrs

- Select 6 credits from upper division writing or communication courses:

- The elective courses will be selected with advisor approval.

| ENC 3250 | Professional Writing                  | 3 hrs |
| ENC 3351 | Writing for Publication               | 3 hrs |
| ENC 4262 | International Technical Communication | 3 hrs |

### 5. Restricted Electives

- None

### 6. Capstone Requirements

- None

### 7. Foreign Language Requirements

#### Admissions

- Met by graduation requirement

#### Graduation

- Proficiency equivalent to one year of college instruction in a foreign language taught by the Department of Modern Languages and Literatures or Judaic Studies. Standardized examinations for foreign languages may be used to meet the requirement.

### 8. Electives

- None

### 9. Additional Requirements

- None

### 10. Required Minors

- None

### 11. Departmental Exit Requirements

- Grades below "C" (2.0) in any required physics or mathematics courses are not acceptable; they must be repeated with a higher grade.
- Students must achieve a minimum cumulative GPA of 2.0 in all courses taken that could meet major requirements.

## UCF Degree Programs

■ All attempts that could meet requirements are included in the major GPA calculation. All attempts of courses listed for the major taken beyond the minimum required are included in the GPA calculation (e.g., additional restricted electives).

■ Students will be required to take a nationally normed test in Physics during their last year.

■ Students will have an exit interview in their last semester with a representative of the Physics Undergraduate Committee.

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

### Total Semester Hours Required

- 120

### Honors In Major

- None

### Related Programs

- None

### Certificates

- None

### Related Minors

- None

### Advising Notes

- None

### Transfer Notes

■ Lower division courses do not substitute for upper division courses.

■ Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

### Acceptable Substitutes for Transfer Courses

■ The following substitutions for common program prerequisites are acceptable if taken prior to transferring to UCF:

CHM 2045C: may use CHM 1040 plus CHM 1041 or CHM 2040C plus CHM 2041C

### Plan of Study

■ This is one of numerous possible plans of study. See program description for all requirements. Consult a departmental advisor for alternate, new or more appropriate selections.

■ Prior to enrolling in Chemistry, take Chemistry Placement Test ~ <http://knightsource.sdes.ucf.edu/placement>

■ Prior to enrolling in Math, take Math Placement Test ~ <http://utc.sdes.ucf.edu/math>

■ Although all classes are listed during the academic year, you may be required to complete 9 hours of them during the Summer. Consult with an advisor to determine if you are exempt.

### 6. Capstone Requirements

- None

### 7. Foreign Language Requirements

#### Admissions

- Met by graduation requirement

#### Graduation

- Proficiency equivalent to one year of college instruction in a foreign language taught by the Department of Modern Languages and Literatures or Judaic Studies. Standardized examinations for foreign languages may be used to meet the requirement.

### 8. Electives

- Select primarily from upper level courses after meeting with a departmental advisor. Courses may be outside the department.

- Internship Program: For students who excel, a limited number of internships may be available each semester for three to six hours of credit. Under the Internship Director, the student is typically placed in an office of local, state, or national government, a law office, or a campaign headquarters.

- No more than 9 credits of a combination of Honors in the Major, Independent Study, and Internship may be counted toward the major in Political Science, provided that no more than 50% of an Area be covered by such credits.

- Students who qualify for Senior Scholars Program may enroll in graduate-level courses to satisfy major requirements to take Area courses.

### 9. Additional Requirements

- None

### 10. Required Minors

- None

### 11. Departmental Exit Requirements

- Students must maintain a minimum cumulative GPA of 2.0 in all courses taken in the major. If additional major courses are taken beyond the minimum required (e.g. additional restricted electives), those courses will be included in the GPA calculation.

- Complete the Educational Testing Service Field Exam in Political Science during the student's graduating semester while enrolled in the 0 credit Exit Exam Course.

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

### Total Semester Hours Required

- 120

### Honors In Major

- Interested students who meet the requirements are encouraged to participate in the HIM program. Contact the department for information about the program and the HIM coordinator.

- No more than 9 credits of a combination of Honors in the Major, Independent Study, and Internship may be counted toward the major in Political Science, provided that no more than 50% of an Area be covered by such credits.

### Advising Notes

- None

### Transfer Notes

- Lower division courses do not substitute for upper division courses.
- Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

## UCF Degree Programs

### Acceptable Substitutes for Transfer Courses

■ The following substitutions for common program prerequisites are acceptable if taken prior to transferring to UCF:

■ POS 2041: any three hours of introductory Political Science classes will satisfy the CPP. However since this course is required in the core of the major and is a prerequisite to subsequent courses, it still must be taken.

■ POS 3703: any three hours of introductory Political Science classes will satisfy the CPP. However since this course is required in the core of the major, it still must be taken.

### Plan of Study

■ This is one of numerous possible plans of study. See program description for all requirements. Consult a departmental advisor for alternate, new or more appropriate selections.

■ Prior to enrolling in Math, take Math Placement Test ~ <http://utc.sdes.ucf.edu>

■ You may be required to complete 9 hours of them during the Summer. Consult with an advisor to determine if you are exempt.

While no specific major is prescribed for admission to law school, many prelaw students elect to major in political science. These individuals usually choose the prelaw emphasis within the political science major. Prelaw students are encouraged to work closely with a prelaw advisor in planning their programs. By judicious use of electives, students build a firm foundation for law school entry and acquire a broad training which can result in career options upon graduation. For further information, consult one of the Department's prelaw advisors or the College of Sciences Prelaw Advisor. The following represent a suggested curriculum which both meets the requirements for a Political Science degree while preparing you for professional school.

### Acceptable Substitutes for Transfer Courses

- The following substitutions for common program prerequisites are acceptable if taken prior to transferring to UCF:

- POS 2041: any three hours of introductory Political Science classes will satisfy the CPP. However since this course is required in the core of the major and is a prerequisite to subsequent courses, it still must be taken.
- POS 3703: any three hours of introductory Political Science classes will satisfy the CPP. However since this course is required in the core of the major, it still must be taken.

### Plan of Study

- This is one of numerous possible plans of study. See program description for all requirements. Consult a departmental advisor for alternate, new or more appropriate selections.
- Prior to enrolling in Math, take Math Placement Test ~ <http://utc.sdes.ucf.edu>
- You may be required to complete 9 hours of them during the Summer. Consult with an advisor to determine if you are exempt.

This degree program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See <http://ucf.edu/online> for more information.

### Admission Requirements

- None

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog
- Departmental Residency Requirement: at least 21 semester hours of regularly scheduled 3000-4000 level courses must be taken from the UCF Psychology Department
- Students must earn a grade of "C" (2.0) or better in each course used to satisfy the CPP, Core Requirements, Restricted Electives and Science Electives.
- Students must maintain a minimum cumulative GPA of 2.0 in all courses satisfying major requirements. If additional Psychology courses are taken beyond the minimum required (e.g. additional restricted electives), those courses will be included in the GPA calculation.
- Students can select only one Track.
- Co-op or internship credit cannot be used in this major without prior approval
- Students should consult with the Psychology Advising Center, prior to applying for graduation (before registration for the final term).
- Graduating seniors should complete the senior exit survey
- Additional requirements exist for students pursuing the Honors in the major program.
- All prerequisites of courses taught within the College of Sciences will be enforced.
- Courses designated in 1 (General Education Program) and 2 (Common Program Prerequisites) are usually completed in the first 60 hours.

### 1. UCF General Education Program (GEP) (36 hrs)

#### Transfer Notes

- Lower division courses do not substitute for upper division courses.
- Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

#### Acceptable Substitutes for Transfer Courses

■ The following substitutions for common program prerequisites are acceptable if taken prior to transferring to UCF:

- Biology: any lower level BSC course or ZOO X010 will satisfy the CPP. However, the course is required in the core and still must be taken. In addition, the advanced course is a prerequisite for some courses.
- Statistics; any lower level STA course will satisfy the CPP. However, the course is required in the core and still must be taken. In addition, they are prerequisites for some courses.

#### Plan of Study

- This is one of numerous possible plans of study. See program description for all requirements. Consult a departmental advisor for alternate, new or more appropriate selections.
- Although all classes are listed as being taken during the academic year, you may be required to complete 9 hours of them during the Summer. Consult with an advisor to determine if you are exempt.

The School of Public Administration provides the highest quality undergraduate education for students interested in working in the public and private sectors, as well as, nonprofit organizations. The school strives to achieve local, state and national prominence through contemporary curriculum, innovative instruction, scholarly and applied research, and community service. Programs and services develop and enhance management skills essential to public and nonprofit organizations oriented towards an evolving metropolitan environment. The school offers an undergraduate program leading to a Bachelor of Arts (BA) or a Bachelor of Science (BS) in Public Administration. The program provides opportunities for students to prepare for employment as public administrators and produces graduates with the public management skills and analytical techniques needed for successful careers in government, nonprofit and related business fields.

The minor cannot overlap with any other major requirement, PAD Core or BS required course. Students pursuing a minor outside the School of Public Administration must complete a minimum of 18 credit hours within that minor. Should that minor not require 18 credit hours the student must fulfill the 18 hour minor requirement by completing courses within the field of public administration.

## UCF Degree Programs

### Supporting Upper-Division Electives

6 hrs

- Students pursuing the B.A. degree must complete six upper-level credits. These courses may be taken from the School of Public Administration or outside the School of Public Administration, as long as the prerequisites have been met.
- Students pursuing the B.S. degree must complete six upper-level credits. These courses must be selected from the approved list of courses provided by the School of Public Administration.

### 6. Capstone Requirements

- None

### 7. Foreign Language Requirements

#### Admissions

- Two years of one foreign language in high school, or one year of one foreign language in college (or equivalent proficiency exam) prior to graduation.

#### Graduation

- Students pursuing the B.A. degree must demonstrate proficiency in a foreign language equivalent to two semesters or one year at the college level, beyond University requirement. ASL I, II and III can also be used to fulfill this requirement.

### 8. Electives

- Students are encouraged to select courses as electives or other courses that will enhance their background in the public administration field. These may be used to build minors and certificates offered by the University. Examples include: Business, Criminal Justice, Diplomacy, Economics, Environmental Studies, Florida Studies, Global Peace and Security Studies, Health Services Administration, Leadership Studies, Legal Studies, Political Science, and Terrorism Studies.

- The University requires 48 upper-level credits in order to graduate, students choosing the Nonprofit Management minor with the Generalist Emphasis may need to take additional upper-level electives to satisfy the University requirement.

### 9. Additional Requirements

- None

### 10. Required Minors

- Students must complete a minor or certificate from the School of Public Administration offered at UCF or another minor approved by the Undergraduate Program Director. Minors in Public Administration can include Emergency Management and Homeland Security; Nonprofit Management/National Certification in Nonprofit Management; and Urban and Regional Planning. Excluding the minor in Public Administration. The minor cannot overlap with any other major requirement, PAD Core or BS required course.

### Advising Notes

- Orientation and advising are two of the most valuable tools that a student can make use of when transferring to UCF. Be sure that you take advantage of both.
- Students are urged to have access to a personal computer, modem, and appropriate software to interact with the University and professors.

### Transfer Notes

- Florida College System students are advised to complete the Associate of Arts degree, to include the general education requirements and the common program prerequisites.
- Lower division courses do not substitute for upper division courses.
- Courses transferred from private and out-of-state schools must be formally evaluated for equivalency credit. The student must provide a course syllabus and any additional supporting documentation with his/her petition for this evaluation.
- Common Program Prerequisites for the State University System for the School of Public Administration programs include American National Government (POS2041), Macroeconomics (ECO2013), Microeconomics (ECO2023), Statistics (STA2014 or STA2023), and Introduction to Computer (CGS1000, CGS1060, or CGS2100).
- Subject to the general grade and residence requirements, credit will be granted for transferred course work equivalent to that required in the Public Administration program. Only grades of "C" (2.0) or higher transfer into the program and students must have a "C" (2.0) or better in each common program prerequisites class.

### Acceptable Substitutes for Transfer Courses

- None

### Plan of Study

- This is one of numerous possible plans of study.
- Although all classes are listed as being taken during the academic year, you may take classes during the summer semester.

 Phone: 407-823-2681

### Admission Requirements

- The Radio-Television program is a limited access program that requires a separate application.
- Students should apply to become Radio-Television majors only after completing all requirements for admission.

- Attain an overall minimum 2.25/4.00 GPA based on a minimum of 30 credit hours of college work. Note: meeting the minimum GPA does not guarantee admission since students are admitted on a space available basis. The GPA cut-off varies each term with the quality of applicants, and during previous years, ranged upward from a minimum of 2.9.

- Receive a positive evaluation of other factors specified by the Nicholson School of Communication.

- See an NSC advisor for additional admission criteria.

- For admission to the program, students must complete or be enrolled into and complete, RTV 3007 with at least a "C" (2.0) or better (if in progress at the time of admission, students who do not earn a "C" (2.0) or better will be removed from the program).

- Meet a grammar proficiency standard ("B" (3.0) grades or better in the following courses or pass the grammar proficiency exam).

|          |                |       |
|----------|----------------|-------|
| ENC 1101 | Composition I  | 3 hrs |
| ENC 1102 | Composition II | 3 hrs |

### Application Deadlines:

- October 1 to be admitted the next spring term;
- February 1 to be admitted the next summer term;
- June 1 to be admitted the next fall term.

### Degree Requirements

- Students must achieve a minimum cumulative GPA of 2.0 in all UCF Nicholson School of Communication (NSC) courses taken in the major.

- All attempts of UCF NSC courses that could meet major requirements are included in the major GPA calculation, including those taken beyond the minimum required (e.g. additional restricted electives).

- Students who change degree programs (other than from Radio-TV Pending) and select this major must adopt the most current catalog.

- Students may complete an internship off campus in a professional broadcast, production, or corporate operation with advisor's approval.

- Internship credit may be used in this major with prior school permission.

- Co-op credit may be used in this major with prior approval from an R-TV advisor.

- Students must consult with a school advisor.

- School residency requirement consists of at least 24 semester hours of regularly scheduled 3000-4000 level courses taken from the UCF Nicholson School of Communication.

- Of the 120 hours required for graduation, 79 hours must be taken outside of the disciplines represented within the Nicholson School of Communication.

- Of these 79 hours, 56 must be taken in the liberal arts (i.e. within the College of Arts & Humanities or the College of Sciences).

- To ensure completion within 120 hours and to comply with the 79 hour rule, no more than 41 (or 43 if a GEP speech class was taken at UCF) of the 120 hours may be taken within the Nicholson School of Communication.

- Radio-TV majors must select their required minor from outside the Nicholson School of Communication to remain below the 41 credit hour school maximum.

- Students seeking to change tracks once accepted into the major, must re-apply to the R-TV major under the new, desired track.

- A maximum of three credit hours of internship may be earned in one semester. Internship credit, plus all other hours taken within the school, must not exceed 41 hours.

- To receive credit for an internship, students must have a 2.5 GPA in their required major courses. Students with less than a 2.5 GPA will not be given academic internship credit.

### 6. Capstone Requirements

■ None

### 7. Foreign Language Requirements

#### Admissions

■ Met by graduation requirement.

#### Graduation

■ Proficiency equivalent to one year of college instruction in a foreign language taught by the Department of Modern Languages and Literatures or Judaic Studies. Standardized examinations for foreign languages may be used to meet the requirement.

■ Eight credits of American Sign Language (ASL) can satisfy this requirement for students graduating under this catalog; however it will not count toward the 56 hour Liberal Arts requirement. Consult with the NSC advising staff to understand how choosing ASL impacts hours needed to graduate.

### 8. Electives

■ Select primarily from upper level courses, with school advisor's approval. Must be from outside of the school in order to not exceed the 41 credit hour cap. The majority of electives should be taken in the Liberal Arts to comply with the 56 hour Liberal Arts requirement.

### 9. Additional Requirements

■ None

### 10. Required Minors

■ Radio-Television majors must complete a minor of at least 18 hours in an academic area outside the Nicholson School of Communication.

■ The following minors are suggested to complement the R-TV major, but any minor except those in the Nicholson School of Communication, may be taken:

## UCF Degree Programs

- Digital Media
- Film - Cinema Studies
- English - Writing
- Political Science
- Sociology
- Theatre

### 11. Departmental Exit Requirements

- To avoid delaying graduation, you must request a review of requirements before registering for your last term.
- Students must achieve a minimum cumulative GPA of 2.0 in all UCF Nicholson School of Communication (NSC) courses taken in the major.
- All attempts of UCF NSC courses that could meet major requirements are included in the major GPA calculation, including those taken beyond the minimum required (e.g. additional restricted electives).

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

### Total Semester Hours Required

- 120

- NOTE: Minors taught within the Nicholson School of Communication are not open to R-TV majors.

- Digital Media
- Film - Cinema Studies
- Marketing
- Theatre

### Advising Notes

- None

### Transfer Notes

- Lower division courses do not substitute for upper division courses.
- Courses transferred from private out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

### Acceptable Substitutes for Transfer Courses

- None

### Plan of Study

- This is one of numerous possible plans of study. See program description for all requirements.
- Consult a school advisor for alternate, new, or more appropriate selections.
- Consult the school for detailed plans of study for each specialization.
- Although most classes are listed as being taken during the academic year, you may be required to complete 9 hours of them during the Summer. Consult with an advisor to determine if you are exempt.

### Dr. P. Phillips School of Real Estate,

### Business Administration I, Room: 427

<http://business.ucf.edu/undergraduate-programs>

Phone: 407-823-3575

The study of real estate prepares students for careers in commercial & residential real estate development and sales. Not eligible for a double degree with another College of Business Administration major.

# UCF Degree Programs

## Admission Requirements

- Completion of the UCF General Education program and Gordon Rule, or an AA degree from a Florida College System or State University System institution, and completion of each Common Program Prerequisite course with a "C" (2.0) or better.
- Completion of the following courses at UCF or at an AACSB accredited institution: ECO 3411, MAR 3023, FIN 3403, MAN 3025, and ACG 3173, with a GPA of "C" (2.0) or better. One course may be repeated one time in the next term of enrollment to meet these requirements.
- See Common Program Prerequisites
- A student's academic catalog year guarantees their graduation requirements, but not their admission requirements. All pre-majors are held to the current admission standards. This applies to both native and transfer students.

## Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- Students wanting to major in real estate must apply for admission to the major.
- Any student receiving a business degree must complete a minimum of 30 of the 60 upper level business credit hours for their degree program in the UCF College of Business Administration. Additionally, 12 of the 30 credit hours completed at UCF must be from the department or school in which the student majors.
- For students seeking a double major within the College of Business, a maximum of 6 hours of Required Courses for the Major or Restricted Electives may count towards another business major.
- A maximum of 6 hours of Core Requirements or Restricted Electives may count towards another degree program or minor.
- Students in the Real Estate major must maintain a 2.0 or higher cumulative Grade Point Average in all major courses taken at UCF and a 2.0 or higher cumulative GPA in all College of Business courses taken at UCF. Failure to maintain the required GPAs will result in the student being placed on Lack of Progress in the major and/or College. If a student on Lack of Progress fails to achieve the minimum required GPA in the subsequent term of enrollment, the student will be dismissed from the Real Estate major and/or College of Business. A student who is dismissed may seek consideration for re-admittance into the College or major by submitting a letter indicating the reasons for academic difficulties and positive plans for achieving the required GPA. Readmission is not automatic or guaranteed and as an exception to College policy is rarely granted.
- Students majoring in Real Estate must earn a grade of "C" (2.0) or better in the following course and each course applied towards the major:

### Advising Notes

■ Florida College System students are advised to complete the Associate of Arts degree, to include the general education requirements, the common program prerequisites for the SUS system, and college algebra.

■ Orientation and advising are two of the most valuable tools that a student can make use of when transferring to UCF. Be sure that you take advantage of both.

### Transfer Notes

■ Lower division courses do not substitute for upper division courses.

■ Courses transferred must be formally evaluated for equivalency credit. The student must provide a course syllabus and any other supporting information with his/her petition for this evaluation.

■ Common Program Prerequisites for the State University System for College of Business Administration programs include Financial Accounting, Managerial Accounting, Macroeconomics, Microeconomics, Calculus, Statistics, and a relevant computer class. At UCF Business, students who have completed the calculus and statistics class will be waived from Quantitative Business Tools I. Students who have completed either the calculus or the statistics, but not both, must take ECO 3401.

■ Subject to the general grade and residence requirements, credit will be granted for transferred course work equivalent to that required in the UCF Business program. Only grades of "C" (2.0) or higher transfer into the program and students must have a "C" (2.0) or better in each common program prerequisites class.

■ Any student receiving a business degree must complete a minimum of 30 of the 60 upper level business credit hours for their degree program in the UCF College of Business Administration. Additionally, 12 of the 30 credit hours completed at UCF must be from the department or school in which the student majors.

Religion and Cultural Studies is a BA program designed to familiarize students with religious traditions around the world, from ancient through contemporary cultures, as well as to introduce students to critical theories and methods through which to view and analyze the category of religion and its associated concepts, practices, and meanings in all areas of life. The program emphasizes the academic study of religion, and does not privilege any particular tradition or belief. This program can be completed online, although not every course in each category is offered as an online course.

## UCF Degree Programs

### Advising Notes

■ Students must earn a "C" (2.0) or better in each course listed in the common program prerequisites, the basic and advised cores, and the restricted electives.

### Transfer Notes

■ Subject to the general grade and residence requirements, credit will be granted for transferred course work equivalent to that required in UCF's Rosen College of Hospitality Management.

■ Florida College System institution students are encouraged to complete general education requirements, prior to transferring to UCF.

■ A minimum of 30 semester hours must be completed at UCF within the Rosen College of Hospitality Management.

■ Orientation and advising are two of the most valuable tools that a student can make use of when transferring to UCF. Students should take advantage of both.

### Acceptable Substitutes for Transfer Courses

## Secondary Education - English Language Arts Education Track (B.S.)

**College of Education and Human Performance**  
**School of Teaching, Learning, and Leadership,**  
**Education Building, Room: 209**

<http://education.ucf.edu/englished/>

Dr. Elsie Olan, ED 223N, [Elsie.Olan@ucf.edu](mailto:Elsie.Olan@ucf.edu), 407-823-5179

Dr. Janet Andreasen, [Janet.Andreasen@ucf.edu](mailto:Janet.Andreasen@ucf.edu)

The Secondary Education B.S. - English Language Arts Education program offers students the option of two tracks: English Language Arts Education - Education Track and English Language Arts Education - Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment with formal, 6-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities for employment outside formal, K-12 schools that do not require certification.

### Admission Requirements

- Complete the University General Education requirements or its equivalent, i.e., an AA degree from a Florida College System or State University System institution.
- Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.
- Meet the Gordon Rule Requirement.
- Meet Foreign Language Admission Requirement.
- Have a minimum 2.5 overall GPA
- Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

### Degree Requirements

- Students should see an advisor prior to registering for classes
- The courses designated in 1 (UCF General Education Program) and 2 (Education Common Program Prerequisites) should be completed prior to admission to the major and upper division education courses.
- The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to change based on state mandates.

### 1. UCF General Education Program (GEP) (36 hrs)

## Secondary Education - Mathematics Education Track (B.S.)

**College of Education and Human Performance  
School of Teaching, Learning, and Leadership,  
Education Building, Room: 209**

<http://education.ucf.edu/mathed>

Dr. Erhan Haciomeroglu, ED 123H, Erhan.Haciomeroglu@ucf.edu,

Dr. Janet Andreasen, ED 123Q, Janet.Andreasen@ucf.edu

The Secondary Education B.S. -Mathematics Education program offers students the option of two tracks: Mathematics Education - Education Track and Mathematics Education - Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment with formal, 6-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities outside formal, K-12 schools that do not require certification.

### Admission Requirements

■ Complete the University General Education requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.  
■ Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.  
■ Meet the Gordon Rule Requirement.  
■ Meet the foreign language admission requirement.  
■ Have a minimum 2.5 overall GPA  
■ Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

### Degree Requirements

■ Students should see an advisor prior to registering for classes  
■ The courses designated in 1. (General Education) and 2. (Education Common Program Prerequisites) should be completed prior to admission to the major and upper division education courses.  
■ The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to change based on state mandates.

### 1. UCF General Education Program (GEP) (37 hrs)

■ Students are advised to take the preferred courses.

### 11. Departmental Exit Requirements

■ Achieve a minimum 2.5 GPA in all courses within the major.

■ In courses throughout the program, you must upload key assignments into your LiveText Dashboard. These key assignments are then assessed by faculty. The resulting data provides evidence of your demonstrated professional growth, reflection, and proficiency in all Florida Educator Accomplished Practices. All teacher education candidates, lifelong learning majors and early childhood and development and education majors (all ECDE tracks) are required to complete all LiveText requirements in order to be cleared for graduation. <http://livetext.education.ucf.edu/>

### Education Track

■ Pass all applicable sections of the Florida Teacher Certification Examination. See <http://www.fldoe.org> for test dates and test sites. Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBE Rule 6A-4.002)

### 12. University Minimum Exit Requirements

■ A 2.0 UCF GPA

■ 60 semester hours earned after CLEP awarded

■ 48 semester hours of upper division credit completed

■ 30 of the last 39 hours of course work must be completed in residency at UCF.

■ A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.

■ Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

## Secondary Education - Science Education Biology Track (B.S.)

**College of Education and Human Performance  
School of Teaching, Learning, and Leadership,  
Education Building, Room: 209**

<http://education.ucf.edu/science/>

Dr. Malcolm Butler, ED 322T, malcolm.butler@ucf.edu,  
407-823-3272

Dr. Janet Andreasen, ED123Q, janet.andreasen@ucf.edu

The Secondary Education B.S.- Science Education Biology program offers students the option of two tracks: Science Education- Biology Track and Science Education - Biology Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment with formal 6-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities for employment outside of formal K-12 schools that do not require certification.

### Admission Requirements

- Complete the University General Education requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.
- Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.
- Meet the Gordon Rule Requirement
- Meet Foreign Language Admission Requirement.
- Have a minimum 2.5 overall GPA
- Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

### Degree Requirements

- Students should see an advisor prior to registering for classes
- The courses designated in 1 (UCF General Education Program) and 2 (Education Common Program Prerequisites) should be completed prior to admission to the major and upper division education courses.
- The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to change based on state mandates.

### 1. UCF General Education Program (GEP) (38 hrs)

- Note: Students are advised to take the preferred courses.

### Internship I Block

7 hrs

■ Program Internship I Prerequisites: EDG 4410, TSL 4080, all Common Program Prerequisites, all Core Requirements: Basic Level, and at least 50% of all required biology courses must be completed prior to Internship I with a minimum grade of a "C-" (1.75) or better. However, a minimum GPA of 2.5 is required in the professional, specialization and overall for admission to Internship I.

■ Passing score on the General Knowledge Test portion of the Florida Teacher Certification Examination (FTCE) is required before application to Internship I.

■ Passing score on the Professional Education Test portion of the Florida Teacher Certification Examination (FTCE) is strongly recommended as soon as possible after completing the following courses: EDG 4410 Teaching Strategies and Classroom Management, EDF 4467 Learning Theory and Assessment, RED 4043 Content Reading Kindergarten through Grade 12, and TSL 4080 Theory and Practice of Teaching ESOL Students in Schools.

■ Students must apply and be approved for Internship I. Deadline dates and applications are available through the Office of Clinical Experiences at

<http://www.education.ucf.edu/clinicalexp/>

### Internship II Block

12 hrs

■ At least 80% of all required biology courses and all methods courses must be completed with a letter grade of "C-" (1.75) or better before registering for Internship II. However, a minimum GPA of 2.5 is required in the professional, specialization, and overall for admission to Internship II.

■ Passing scores on all sections [General Knowledge, Professional, and Subject Area (Biology 6-12)] of the Florida Teacher Certification Examination (FTCE) are required prior to entry into Internship II.

■ Students must apply and be approved for Internship II. Deadline dates and applications are available through the Office of Clinical Experiences at

<http://www.education.ucf.edu/clinicalexp/>

■ Satisfactory completion of Internship II requires the student to demonstrate proficiency in all 12 Florida Educator Accomplished Practices at the pre-professional level in accordance with State Board of Education Rule 6A-5.066.

### 9. Additional Requirements

- None

### 10. Required Minors

- None

### 11. Departmental Exit Requirements

■ Achieve a minimum 2.5 GPA in all courses within the major.

■ In courses throughout the program, you must upload key assignments into your LiveText Dashboard. These key assignments are then assessed by faculty. The resulting data provides evidence of your demonstrated professional growth, reflection, and proficiency in all Florida Educator Accomplished Practices. All teacher education candidates, lifelong learning majors and early childhood and development and education majors (all ECDE tracks) are required to complete all LiveText requirements in order to be cleared for graduation. <http://livetext.education.ucf.edu/>

#### Education Track

■ Pass all applicable sections of the Florida Teacher Certification Examination. See <http://www.fldoe.org> for test dates and test sites. Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBE Rule 6A-4.002)

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.

■ Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

## Secondary Education - Science Education

### Chemistry Track (B.S.)

**College of Education and Human Performance**

**School of Teaching, Learning, and Leadership,**

**Education Building, Room: 209**

<http://education.ucf.edu/science/>

Dr. Malcolm Butler, ED 322T, [malcolm.butler@ucf.edu](mailto:malcolm.butler@ucf.edu), 407-823-3272

Dr. Janet Andreasen, ED 123Q, [Janet.Andreasen@ucf.edu](mailto:Janet.Andreasen@ucf.edu)

The Secondary Education B.S. - Science Education Chemistry program offers students the option of two tracks: Science Education - Chemistry Track and Science Education - Chemistry Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment with formal, 6-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities for employment outside formal, K-12 schools that do not require certification.

### Admission Requirements

■ Complete the University General Education requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.

■ Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.

■ Meet the Gordon Rule Requirement.

■ Meet Foreign Language Admission Requirement.

■ Have a minimum 2.5 overall GPA

■ Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

### Degree Requirements

■ Students should see an advisor prior to registering for classes

■ The courses designated in 1 (UCF General Education Program) and 2 (Education Common Program Prerequisites) should be completed prior to admission to the major and upper division education courses

■ The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066.

Degree requirements are subject to change based on state mandates.

### 1. UCF General Education Program (GEP) (37 hrs)

■ Note: Students are advised to take the preferred courses.

#### A: Communication Foundations (9 hrs)

Required ENC 1101 Composition I 3 hrs

Required ENC 1102 Composition II 3 hrs

Prefer SPC 1608 Fundamentals of Oral Communication 3 hrs

#### B: Cultural & Historical Foundations (9 hrs)

Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBE Rule 6A-4.002)

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

## Secondary Education - Science Education Physics Track (B.S.)

**College of Education and Human Performance**  
**School of Teaching, Learning, and Leadership,**  
**Education Building, Room: 209**

<http://education.ucf.edu/science/>

Dr. Malcolm Butler, ED 322U, malcolm.butler@ucf.edu,  
 407-823-3272

Dr. Janet Andreasen, ED 123Q, Janet.Andreasen@ucf.edu

The Secondary Education B.S. - Science Education Physics program offers students the option of two tracks: Science Education - Physics Track and Science Education - Physics Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment in formal, 6-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities for employment outside formal, K-12 schools that do not require certification.

### Admission Requirements

- Complete the University General Education requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.
- Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.
- Meet the Gordon Rule Requirement
- Meet Foreign Language Admission Requirement
- Have a minimum 2.5 overall GPA
- Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

### Degree Requirements

- Students should see an advisor prior to registering for classes
- The courses designated in 1 (UCF General Education Program) and 2 (Education Common Program Prerequisites) should be completed prior to admission to the major and upper division education courses
- The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirement are subject to change based on state mandates.

#### 1. UCF General Education Program (GEP) (38 hrs)

- Students are advised to take the preferred courses.

### Internship I Block 7 hrs

■ Program Internship I Prerequisites: EDG 4410, TSL 4080, all Common Program Prerequisites, all Core Requirements: Basic Level, and at least 50% of all required physics courses must be completed prior to Internship I with a minimum grade of "C-" (1.75) or better. However, a minimum GPA of 2.5 is required in the professional, specialization and overall for admission to Internship I.

■ Passing score on the General Knowledge Test portion of the Florida Teacher Certification Examination (FTCE) is required before application to Internship I.

■ Passing score on the Professional Education Test portion of the Florida Teacher Certification Examination (FTCE) is strongly recommended as soon as possible after completing the following courses: EDG 4410 Teaching Strategies and Classroom Management, EDF 4467 Learning Theory and Assessment, RED 4043 Content Reading Kindergarten through Grade 12, and TSL 4080 Theory and Practice of Teaching ESOL Students in Schools.

■ Students must apply and be approved for Internship I. Deadline dates and applications are available through the Office of Clinical Experiences at

<http://www.education.ucf.edu/clinicalexp/>

| SCE 3940 | Internship                     | 3 hrs |

### Internship II Block 12 hrs

■ At least 80% of all required physics courses and all methods courses must be completed with a letter grade of "C-" (1.75) or better before registering for Internship II. However, a minimum GPA of 2.5 is required in the professional, specialization and overall for admission to Internship II.

■ Passing scores on all sections [General Knowledge, Professional, and Subject Area (Physics 6-12) of the Florida Teacher Certification Examination (FTCE) is required prior to entry into Internship II.

■ Students must apply and be approved for Internship II. Deadline dates and applications are available through the Office of Clinical Experiences at

<http://www.education.ucf.edu/clinicalexp/>

■ Satisfactory completion of Internship II requires the student to demonstrate proficiency in all Florida Educator Accomplished Practices in accordance with State Board of Education Rule 6A-5.006.

## UCF Degree Programs

The Secondary Education B.S. - Social Science Education program offers students the option of two tracks: Social Science Education - Education Track and Social Science Education - Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment with formal, 6-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities for employment outside formal, K-12 schools that do not require certification.

### Admission Requirements

- Complete the University General Education requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.
- Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.
- Meet the Gordon Rule Requirement.
- Have a minimum 2.5 overall GPA
- Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

### Degree Requirements

- Students should see an advisor prior to registering for classes
- The courses designated in 1. (General Education) and 2. (Education Common Program Prerequisites) should be completed prior to admission to the major and upper division education courses.
- The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to change based on state mandates.

## UCF Degree Programs

### Internship I Block

**6 hrs**

■ Prior to Internship I, the student must have completed EDG 4410 Teaching Strategies and Classroom Management, all Common Program Prerequisites, all Core Requirements: Basic Level, and at least 50% of all required social science courses indicated above with a letter grade of "C-" (1.75) or better prior to Internship I. However, a minimum GPA of 2.5 is required in the professional, specialization and overall for admission to Internship I.

■ Passing score on the General Knowledge Test portion of the Florida Teacher Certification Examination (FTCE) is required before application to Internship I.

■ Passing score on the Professional Education Test portion of the Florida Teacher Certification Examination (FTCE) is strongly recommended as soon as possible after completing the following courses: EDG 4410 Teaching Strategies and Classroom Management, EDF 4467 Learning Theory and Assessment, RED 4043 Content Reading Kindergarten through Grade 12, and TSL 4080 Theory and Practice of Teaching ESOL Students in Schools.

■ Students must apply and be approved for Internship I. Deadline dates and applications are available through the Office of Clinical Experiences at

<http://www.education.ucf.edu/clinicalexp/>

### 11. Departmental Exit Requirements

■ Achieve a minimum 2.5 GPA in all courses within the major.

■ In courses throughout the program, you must upload key assignments into your LiveText Dashboard. These key assignments are then assessed by faculty. The resulting data provides evidence of your demonstrated professional growth, reflection, and proficiency in all Florida Educator Accomplished Practices. All teacher education candidates, lifelong learning majors and early childhood and development and education majors (all ECDE tracks) are required to complete all LiveText requirements in order to be cleared for graduation. <http://livetext.education.ucf.edu/>

#### Education Track

■ Pass all applicable sections of the Florida Teacher Certification Examination. See <http://www.fldoe.org> for test dates and test sites. Effective January 1, 2015, only examination results earned by educators within 10 years prior to the date of application for a new Florida Educator's Certificate with the Florida Department of Education may be acceptable for certification eligibility requirements (SBE Rule 6A-4.002)

### 12. University Minimum Exit Requirements

■ A 2.0 UCF GPA

■ 60 semester hours earned after CLEP awarded

■ 48 semester hours of upper division credit completed

■ 30 of the last 39 hours of course work must be completed in residency at UCF.

■ A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.

■ Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

## Social Sciences (B.S.)

### College of Sciences

### Department of Sociology,

### Howard Phillips Hall, Room: 403

<http://sciences.ucf.edu/socialsciences/>

Dr. Elizabeth Grauerholz, [Elizabeth.Grauerholz@ucf.edu](mailto:Elizabeth.Grauerholz@ucf.edu), 407-823-4241

Students majoring in the Social Sciences Interdisciplinary B.S. program are provided with interdisciplinary breadth and depth in the Social Sciences as they fulfill the requirements of three separate social science minors of their choice, a statistics course, and a methodology course. The Social Science minors are housed in Anthropology, Communication, Political Science, Psychology, Sociology, and Women's and Gender Studies. This major supports UCF's goal of offering the best undergraduate education available in Florida with flexibility that is absent in most discipline-specific programs. This degree program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See <http://ucf.edu/online> for more information.

### Admission Requirements

- None

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must meet the residency requirements specified in each minor.
- Special topics courses may be used if they are acceptable within the specific minor.
- Grades below "C" (2.0) in lower level courses and core courses are not accepted.

## UCF Degree Programs

- Students must achieve a minimum cumulative UCF GPA of 2.0 in all courses satisfying major requirements.
- Students must maintain a minimum GPA of 2.0 in each Social Science discipline.
- Internship credit must be approved by Coordinator of Social Sciences.
- Independent Studies and Directed Independent Research (course numbers 3905, 4906, 5907, 4912, 5917, 3940, 4941) must be approved by the Coordinator of Social Sciences prior to enrollment.
- All prerequisites of courses taught within the College of Sciences will be enforced.
- Courses designated in 1 (General Education Program) and 2 (Common Program Prerequisites) are usually completed in the first 60 hours.

#### Admission Requirements

- Acceptance to the University does not necessarily constitute admission to the upper division social work program. Separate application to the limited access program must be made to the School of Social Work. Students are admitted to the undergraduate program only in the Summer or Fall terms. To be considered for admission to the program, students must have:
  - Admission to the University.
  - A 2.5 overall GPA.
  - An AA (from a Florida College System or State University System institution) or UCF General Education Program and Gordon Rule requirement.
  - 15 semester hours common program prerequisites completed with a "C" (2.0) in each course (see Section 2 below for list of courses)
  - This limited access program is work-intensive. Due to this it is strongly recommended that students be at least one year post high school prior to applying to the program. Students with concerns or questions should contact the program to schedule an appointment with an advisor.
  - Personal qualifications considered for acceptance include intelligence, initiative, social concern, appreciation for human diversity, dependability, humanitarian interests in helping people and in improving human services and college-level reading and writing skills.

#### Degree Requirements

- Students who are pending Social Work and are admitted to the program must adopt the most current catalog.

# UCF Degree Programs

■ Residency Requirement consists of at least 30 semester hours of regularly scheduled 3000-4000 level courses taken from the UCF School of Social Work.

■ Students should complete the General Education Program and the Common Program Prerequisite Requirements before beginning the Social Work Program.

■ Students entering the social work program and completing the program prerequisites including Statistics are required to earn a minimum of "C" (2.0) in each course.

■ Students should consult with a school advisor.

■ The courses designated in sections 1 (general education) and 2 (common program prerequisites) below may be taken at a college or university other than UCF, and should usually be completed in the first 60 hours.

■ Students meeting the six hours of cultural diversity requirement must earn a minimum of "C" (2.0) in each course.

■ A minimum overall GPA of 2.5 is required in all Social Work courses with a minimum grade of "C" (2.0) in each course.

■ Students must earn an overall GPA of 2.5 for entry into field education (SOW 4510 or SOW 4941 part-time) and to be eligible for graduation from the Social Work Program.

■ Students must complete all the requirements listed in 1-11 below.

The Sociology degree, which may be completed online, face-to-face, or as a mix of online and face-to-face courses, has two major goals: 1) to promote undergraduate student excellence and 2) to advance career success for graduates by providing them with tangible, career-oriented skills. A dedicated faculty offers state-of-the-art courses that are relevant to current issues affecting our students' lives and their future careers. Graduates are prepared for careers that require employees who think critically and have analytic and technical skills related to understanding crime, law, and deviance; medical sociology; diversity and inequalities; and/or mass culture and collective behavior. All students complete individual, original research projects. This degree program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See <http://ucf.edu/online> for more information.

## Spanish (B.A.)

### College of Arts and Humanities

### Department of Modern Languages and Literatures, Colbourn Hall, Room: 519

<http://ml.cah.ucf.edu/>

Dr. Francisco Fernandez-Rubiera, [Rubiera@ucf.edu](mailto:Rubiera@ucf.edu)

Placement in language courses is based on one year of high school language being equivalent to one semester of college work. For example, four years of high school Spanish place the student in the first semester of the third year. Native Spanish speakers, near-native Spanish speakers, or students who have received advanced education abroad must substitute select classes.

### Admission Requirements

- None

### Degree Requirements

- 36 credits in Spanish must be taken at the 3XXX level or above.
- At least 6 of the 36 Spanish credits must be at the 4XXX level.
- At least 30 credit hours must be taken in Modern Language courses taught in Spanish.
- Students must earn at least a "C" (2.0) in each upper division Spanish course.
- Departmental Residency Requirement consists of at least 18 semester hours of regularly scheduled 3XXX-4XXX level courses taken from the UCF Department of Modern Languages and Literatures.
- Language credit by exam will not be given in courses lower in level than those in which students are presently enrolled. Native speakers will be allowed Credit by Examination in literature courses only.
- Co-op or internship credit cannot be used in this major.
- Students must see their departmental advisor to obtain proper counseling and have their schedule approved before registering for courses in their major.
- Courses designated in 1 (General Education Program) and 2 (Common Program Prerequisites) are usually completed in the first 60 hours.

The Sport and Exercise Science B.S. program offers students the option of two tracks, Coaching and Human Performance, offered at the Orlando campus. The Coaching track is appropriate for students interested in coaching at all levels of competition, in a variety of sports, including strength and conditioning. Students are provided with a combination of course content as well as practical field and laboratory experiences. The Coaching Track includes coursework leading to partial fulfillment of the Athletic Coaching Endorsement. Full eligibility for the endorsement may require additional criteria outlined by the Florida Department of Education (FLDOE). For further information regarding the Athletic Coaching Endorsement, visit <http://www.fl DOE.org/edcert/>. The Human Performance track is appropriate for students interested in pursuing careers in sport science, health promotion, medicine, wellness, sports medicine, and allied health (i.e. physical therapy, occupational therapy, and cardiac rehabilitation). Students who may be continuing on to graduate school in a clinical or medical area should consider pre-requisites for graduate school when choosing certain classes. Students are advised to check the Graduate Program's website for updated information, as well as the Undergraduate Catalog for appropriate General Education courses.

### Admission Requirements

- Complete the University General Education Requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.
- Have a minimum 2.5 overall GPA.
- Complete program prerequisite courses prior to admission to the major and upper level courses.
- Meet the Gordon Rule requirement
- Meet the Foreign Language Admission requirement

### Degree Requirements

- Students should consult with an advisor on a regular basis.
- Students who change degree programs and select this major must adopt the most current catalog.
- Students should see an advisor prior to selecting this major, and at least every semester thereafter.
- Students must earn at least a "C" (2.0) in each required course and maintain an overall GPA of at least a 2.5.
- All pre-requisites for courses taught within the Sport and Exercise Science program will be enforced and a required grade of "C" (2.0) or better must be reflected on the degree audit.
- Students must meet with their advisor prior to enrollment in Sport and Exercise Science Practicum to complete the departmental application and approval process.

### 5. Restricted Electives (34 hrs)

■ Students have the opportunity to add learning experiences by earning a double major or minor. In addition, many students will use these electives to take the required courses necessary for graduate studies, for example in medicine, physical therapy and other allied health graduate programs.

■ Courses are required to be 2000 level or higher.

■ Courses completed and already used to satisfy General Education Program, Basic Level, Advanced Level and selected Track requirements may not be used to meet the Restricted Elective requirement.

■ Sport and Exercise Science students must select 18 credits of preferred elective courses OR PET 4926 Practicum (9 hrs) AND 9 credits of preferred elective courses.

■ If students choose to complete Practicum as part of their restricted electives, it must be done during the final semester of the program. Students may choose to complete a Practicum in an area that is specific to their desired career goals. In order to be placed into practicum, students will need to have a 2.75 GPA.

■ Select preferred electives with advisor approval. A minimum of eighteen (18) hours must be selected from the list below:

### Advising Notes

- Students must meet with their advisor before enrolling each term.
- The Practicum experience will provide the student with actual professional experiences and practical hands-on application. The students will be working directly with a Practicum Site Supervisor in the organization and their UCF Faculty Supervisor.
- Students who choose to complete Practicum will be representing not only themselves while on site but also the Sport and Exercise Science Program, the College, and UCF. Therefore, professionalism in manner, ethics, job performance, and dress will be expected at all times. Should there be any question of the performance of the students

## UCF Degree Programs

during their practicum experience, they will be required to meet with their UCF Faculty Supervisor and their Faculty Advisor for a performance evaluation before returning to the Practicum site. The performance concerns will be addressed and a plan of action regarding expectations and improvements will be developed. If the problems persist and the situation warrants, the students may be removed from their Practicum experience.

### Transfer Notes

■ Courses transferred from private and out-of-state institutions must be evaluated for equivalency credit. The student must provide all documentation.

### Acceptable Substitutes for Transfer Courses

■ The following substitutions are acceptable if taken at a Florida College System institution:

■ BSC 1010C (4 credit hours with lab) will satisfy the BSC2010C Biology I requirement.

■ BSC 2085C OR BSC 2093C (4 credit hours with lab) will satisfy the ZOO 3736C Exercise Physiology Anatomy requirement.

### Plan of Study

■ The Coaching and Human Performance Tracks follow the same Plan of Study for the Freshman and Sophomore Semesters.

#### Admission Requirements

- None

#### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- Departmental Residency Requirement: at least 15 semester hours of regularly scheduled 3000-4000 level courses must be taken from the UCF Statistics Department.
- Students must earn at least a "C" (2.0) in each course with a STA prefix.
- Students must achieve a minimum 2.0 cumulative GPA in all computer science and mathematics courses satisfying major requirements.
- Students must achieve a minimum cumulative GPA of 2.0 in all courses satisfying major requirements.
- Co-op or internship credit cannot be used in this major.
- Students should consult with a departmental advisor.
- All prerequisites of courses taught within the College of Sciences will be enforced.
- Courses designated in 1 (General Education Program) are generally spread over 4 years, and those designated in 2 (Common Program Prerequisites) are usually completed in the first 60 hours.
- All statistics courses except the following, and those protected by Florida Common Course Numbering must be taken from, or approved by the Statistics Department at UCF.

|          |  |       |
|----------|--|-------|
| STA 2023 | Statistical Methods I                    | 3 hrs |
| STA 3032 | Probability and Statistics for Engineers | 3 hrs |

#### 1. UCF General Education Program (GEP) (39 hrs)

- Certain courses must be selected in the GEP for this major bringing the total hours to more than 36.

##### A: Communication Foundations (9 hrs)

##### B: Cultural & Historical Foundations (9 hrs)

##### C: Mathematical Foundations (7 hrs)

|          |           |                                   |       |
|----------|-----------|-----------------------------------|-------|
| Required | MAC 2311C | Calculus with Analytic Geometry I | 4 hrs |
| Required | STA 2023  | Statistical Methods I             | 3 hrs |

##### D: Social Foundations (6 hrs)

##### Economics (3 hrs)

|        |          |                              |       |
|--------|----------|------------------------------|-------|
| Prefer | ECO 2013 | Principles of Macroeconomics | 3 hrs |

|----------|-----------|-----------------------------|-------|
| Required | CHM 2045C | Chemistry Fundamentals I or | 4 hrs |
| Required | PHY 2053C | College Physics I           | 4 hrs |

#### 2. Common Program Prerequisites (CPP) (11 hrs)

- See "Common Prerequisites" in the Transfer and Transitions Services section for more information, including some possible substitutes.

|           |                                     |       |
|-----------|-------------------------------------|-------|
| COP 3223C | Introduction to Programming with C  | 3 hrs |
| MAC 2311C | Calculus with Analytic Geometry I   | GEP   |
| MAC 2312  | Calculus with Analytic Geometry II  | 4 hrs |
| MAC 2313  | Calculus with Analytic Geometry III | 4 hrs |
| STA 2023  | Statistical Methods I               | GEP   |

#### Complete two laboratory courses designed for science majors;

- The state of Florida requires Statistics majors to take two laboratory-based science courses designed for science majors. Students must complete 8 credits of the following courses, and depending on what was taken in the GEP, this requirement may already be satisfied.

- Note: both semesters do not have to be in the same subject area.

- Note: depending on which courses were taken in the GEP, this requirement could require between 0 and 8 credits to complete.

#### Select two semesters within the following;

- See Basic Core for details.

Biology majors' courses with labs or  
Chemistry majors' courses with labs or  
Physics majors' courses with labs

#### 3. Core Requirements: Basic Level

- All courses specifically identified in the preceding Common Program Prerequisites section of this catalog are also required in the Basic Core, and must be taken;

#### Core: Required, satisfies the CPP

|           |   |         |
|-----------|---|---------|
| COP 3223C | Introduction to Programming with C and  | CPP     |

## UCF Degree Programs

### 5. Restricted Electives (9 hrs)

- Select from upper division or graduate (5000 level), statistics, mathematics, or computer science courses.
- Selected courses in engineering or business may be used but must first be approved by the Statistics Department.
- The following courses cannot be used to satisfy this requirement:

|                 |                        |       |
|-----------------|------------------------|-------|
| MAC 2233        | Concepts of Calculus   | 3 hrs |
| MAC 2253        | Applied Calculus       | 3 hrs |
| MAC 2254        | Applied Calculus II    | 3 hrs |
| MHF 4404        | History of Mathematics | 3 hrs |
| All MAE courses |                        |       |

### 6. Capstone Requirements

- None

### 7. Foreign Language Requirements

#### Admissions

- Two years of one foreign language in high school, or one year of one foreign language in college (or equivalent proficiency exam) prior to graduation.

#### Graduation

- None

### 8. Electives

- Select primarily from upper level courses after meeting with a departmental advisor. Courses may be outside the department.
- The following courses from business may be used without prior approval by the Statistics Department.

|          |                                     |       |
|----------|-------------------------------------|-------|
| ACG 2021 | Principles of Financial Accounting  | 3 hrs |
| ACG 2071 | Principles of Managerial Accounting | 3 hrs |
| ECO 2023 | Principles of Microeconomics        | 3 hrs |
| FIN 3403 | Business Finance                    | 3 hrs |

### 9. Additional Requirements

- None

### 10. Required Minors

- None

### 11. Departmental Exit Requirements

- Students must earn at least a "C" (2.0) in each course with a STA prefix.
- Students must achieve a minimum 2.0 cumulative GPA in all computer science and mathematics courses satisfying major requirements.
- Students must achieve a minimum cumulative GPA of 2.0 in all courses satisfying major requirements.
- Take SOA Exam P (Probability) and report the score to the department.

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

### Total Semester Hours Required

- 120

### Honors In Major

- None

### Related Programs

- Mathematics - Applied Track
- Mathematics Education

### Certificates

- None

### Related Minors

- Statistics
- Mathematics

### Advising Notes

- It is the student's responsibility to ensure they have satisfied course prerequisites before registering for a class.

### Transfer Notes

- Lower division courses do not substitute for upper division courses.

- Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

### Acceptable Substitutes for Transfer Courses

- The following substitutions are acceptable for Common Program Prerequisites if taken as part of the AA course work.

- Computer Science: any COP programming language course will satisfy the CPP. However, the listed course is a prerequisite for Computer Sciences courses and still may need to be taken.

- Biology: any 2 laboratory courses for majors with BSC, CHM, or PHY prefixes will satisfy the CPP. However the listed biology courses are also a core requirement and will need to be taken.

- Statistics: although any STA 2XXX course will satisfy the CPP, the listed course is required in the program's core and will still need to be taken.

### Plan of Study (120 hrs)

- This is one of numerous possible plans of study.

See program description for all requirements. Consult a departmental advisor for alternate, new or more appropriate selections.

- Prior to enrolling in Chemistry, take Chemistry Placement Test ~ <http://knightsource.sdes.ucf.edu/> placement

- Prior to enrolling in Math, take Math Placement Test ~ <http://utc.sdes.ucf.edu>

- Although all classes are listed as being taken during the academic year, you may be required to complete 9 hours of them during the Summer. Consult with an advisor to determine if you are exempt.

## Teacher Education - Art Education Track (B.S.)

**College of Education and Human Performance**

**School of Teaching, Learning, and Leadership,**

**Education Building, Room: 209**

<http://education.ucf.edu/arted>

Dr. Debra McGann, ED 122C, [debra.mcgann@ucf.edu](mailto:debra.mcgann@ucf.edu)

Dr. Janet Andreasen, ED 123Q, [Janet.Andreasen@ucf.edu](mailto:Janet.Andreasen@ucf.edu)

The Teacher Education B.S. - Art Education program offers students the option of two tracks: Art Education - Education Track and Art Education - Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment with formal, K-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities for employment outside formal, K-12 schools that do not require certification.

### Admission Requirements

■ Complete the University General Education requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.

■ Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.

■ Meet the Gordon Rule Requirement.

■ Meet the Foreign Language Admission Requirement.

■ Have a minimum 2.5 overall GPA

■ Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

### Degree Requirements

■ Students should see an advisor prior to registering for classes

■ The courses designated in 1. (General Education), 2. (Education Common Program Prerequisites), and 3. (Core Requirements: Basic Level) should be completed prior to admission to the major and upper division education courses.

■ The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to change based on state mandates.

### 1. UCF General Education Program (GEP) (36 hrs)

■ Students are strongly advised to take the preferred courses.

Dr. Karen Verkler, ED 220L, Karen.Verkler@ucf.edu, 407-823-5235

Dr. Janet Andreasen, ED 123Q, Janet.Andreasen@ucf.edu

The Teacher Education B.S. - World Languages Education Spanish program offers students the option of two tracks: World Languages Education - Spanish Track and World Languages Education - Spanish Lifelong Learning Track (non-certification). The Education Track is appropriate for students interested in opportunities for employment with formal, K-12 schools that require certification. The Lifelong Learning Track is appropriate for students seeking opportunities for employment outside formal, K-12 schools that do not require certification.

#### Admission Requirements

- Complete the University General Education requirements or its equivalent, i.e. an AA degree from a Florida College System or State University System institution.
- Complete the EDF 2005 Introduction to Teaching Profession, EDF 2085 Introduction to Diversity for Educators and EME 2040 Introduction to Technology for Educators courses with a minimum letter grade of "C-" (1.75) or better.
- Meet the Gordon Rule Requirement.
- Meet the foreign language admission requirement.
- Have a minimum 2.5 overall GPA
- Education Track: Pass all four parts of the General Knowledge Test (no alternatives or waivers are accepted). The Lifelong Learning Track is a non-certification program and does not require the General Knowledge Test.

#### Degree Requirements

- Students should see an advisor prior to registering for classes
- The courses designated in 1 (UCF General Education Program) and 2 (Education Common Program Prerequisites) should be completed prior to admission to the major and upper division education courses.
- The Education Track is a state-approved, initial teacher preparation program designed in compliance with Florida Statutes and State Board of Education Rule 6A-5.066. Degree requirements are subject to change based on state mandates.

This program offers upper division courses via the World Wide Web. Students must complete all University-wide graduation requirements (general education, foreign language, Gordon Rule, etc.), some of which are not available via distributed learning. For more information, see <http://distrib.ucf.edu/home>.

### Admission Requirements

- Complete the University General Education requirements or its equivalent, (i.e. an AA degree from an approved Florida College System or State University institution).
- Have a minimum 2.5 overall GPA
- Complete prerequisite courses
- Meet the Gordon Rule Requirement
- Meet Foreign Language Admission Requirement

### Degree Requirements

- Students should consult with an Education advisor prior to registration.
- This degree is for students in adult Technical Education and Industry Training. Some students are full-time or part-time teachers in the public school sector, including middle schools, high schools, adult technical centers and community and state colleges. Some serve as technical education teachers with the Department of Corrections. Other program participants are retired military personnel who were technicians or trainers and now wish to become teachers or industry-specific trainers. All students have set a common goal of attaining a bachelor's degree in an area that draws upon their experiences, interests, and expertise. This degree does not lead to initial teacher certification at the state level.

The Bachelor of Fine Arts track in Acting is offered for students who, upon graduation, plan to pursue a specialized performance career in Acting. It provides the student with a thorough foundation in theatre complemented by very structured and intensive career preparation in all areas of acting. Class work is augmented with practical production experiences. Drawing upon the teachings of Stanislavski-based methodologies, as well as other successful practical acting techniques, the professional acting program offers an organic approach to performance training. The program begins with a focus on the fundamentals of acting: development of imagination, self-awareness, improvisation, voice production/diction and movement. During the first two years, the student also receives training in script analysis, singing and dance. The training then moves to an emphasis on characterization, character development and studio training/scene study. This practical study, drawn from the total range of dramatic literature, provides the student with performance experiences ranging from the classical to the contemporary, including verse and musical theatre. The program culminates with a professional internship where students are able to apply their education in a real world work environment. While most students choose to enter the work force following graduation, the BFA is an excellent degree for students interested in pursuing graduate studies in theatre. Work within the BFA program requires energy and dedication; therefore, other part-time study or outside employment is very challenging. BFA standards are high, both for admission and for continuation in the program.

### Admission Requirements

- The departmental faculty evaluates students desiring to become BFA majors via auditions and interviews. This should be completed the academic year prior to attending UCF. For complete information visit the audition site online at <http://www.theatre.ucf.edu>. All BFA students are accepted on a "Provisional" basis their first year. Faculty will evaluate their work and decide whether or not the student may continue the program at the end of the first year.

- The Acting plan of study requires a Fall start for proper course sequencing. Students are not accepted to begin theatre courses in the Spring or Summer semesters.

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog. Students must follow the most recent department, internship and school student handbooks which are available at <http://www.performingarts.cah.ucf.edu/theatre/resources>.
- Students in this major must earn a "C" (2.0) or better or an "S" in each music or theatre course and maintain a 3.0 GPA for all courses required in the major and all courses taken in theatre; must not receive a negative evaluation in a regularly scheduled program review; and must not exhibit chronic unprofessional behavior. Failure to meet these standards will result in probation and/or dismissal from the program. Refer to the SPA Undergraduate Student Handbook- Theatre (<http://www.performingarts.cah.ucf.edu/theatre/resources>) for details on program standards.

## UCF Degree Programs

■ Departmental Residency Requirement consists of 60 semester hours of courses taken from the UCF Theatre Department.

■ All BFA Acting majors are required to audition for all Fall and Spring productions and must accept the roles assigned. Students must be registered for the appropriate Theatre Participation course in the term in which they participate. Students need not take additional hours to satisfy practicum requirements. Once students have completed their production participation requirements, they may register for a "0" credit participation course to meet departmental registration requirements if they choose. Students may use additional participation credits as electives.

■ The department will accept one credit of Theatre Participation coursework for students transferring into the program. Any additional transfer participation credits will count towards electives.

■ Internships are subject to departmental approval and may not be fulfilled through participating on a UCF theatre production.

■ Courses designated 2 (Common Program Prerequisites) are usually completed in the first 60 hours.

■ Courses designated 1 (General Education Program) are taken throughout all four years.

■ Co-op cannot be used in this major.

### Advising Notes

■ Students must consult with a departmental advisor every semester before registration. Students who do not consult with their department advisor will be placed on departmental probation. Repeated failure to consult with a department advisor may lead to release from the program.

### Transfer Notes

■ Due to its conservatory nature, the BFA demands a closely integrated four-year curriculum. Although the program is not designated for transfer students, transfer students may audition and may be admitted, but they should consult with the Department Undergraduate Coordinator to evaluate their transfer credits and to estimate the length of their program of study. We encourage any student wishing to transfer to complete the General Education Program and the Common Program Prerequisites before transferring within the Florida College System or State University System.

■ Courses taken at Florida College System institutions may substitute for select upper division courses with permission of the department, although they will not count as upper division credits. University minimum upper division credit requirements must still be met.

■ Transfer students will be required to meet the departmental theatre participation requirement through participation on UCF productions.

■ Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

The Bachelor of Fine Arts track in Design and Technology is offered for students who, upon graduation, plan to pursue a specialized career in professional theatre. It provides the student with a thorough foundation in theatre complemented by very structured and intensive career preparation in all areas of design and technology. Students can expect to work along side faculty as design or technical assistants in their first two years and will be given the opportunity for technical leadership opportunities including, prop master, master

## UCF Degree Programs

electrician, first hand, draper, scenic artist, master carpenter, technical director, etc. Those who qualify and wish to pursue design areas can be offered design positions within the production season. The curriculum requires students to become proficient in design and technology related to scenery, costumes, lighting and sound through specified coursework. Students then select one or two areas of specialization where their production assignments will focus in their junior and senior years, thus giving each student practical experience as they build their professional portfolios. The program culminates with a professional internship where students are able to apply their education in a real world work environment. While most students choose to enter the workforce following graduation, the BFA is an excellent degree for students who are interested in pursuing graduate studies in theatre. Work within the BFA program requires energy and dedication; therefore, other part-time study or outside employment is very challenging. BFA standards are high, both for admission and for continuation in the program. Production assignments are regulated to serve the artistic growth of students thus coordinating production experience with class room exploration.

### Admission Requirements

- The departmental faculty evaluates students desiring to become BFA Design and Technology majors via portfolio reviews and interviews. This should be completed the academic year prior to attending UCF. For complete information visit the audition site online at <http://www.theatre.ucf.edu>. All BFA students are accepted on a "Provisional" basis their first year. Faculty will evaluate their work and decide whether or not the student may continue the program at the end of the first year.
- The Design and Technology plan of study requires a Fall start for proper course sequencing. Students are not accepted to begin theatre courses in the Spring or Summer semesters.

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog. Students must follow the most recent department, internship and school student handbooks which are available at <http://www.performingarts.cah.ucf.edu/theatre/resources>.
- Students in this major must earn a "C" (2.0) or better or an "S" in each music or theatre course and maintain a 3.0 GPA for all courses required in the major and all courses taken in theatre; must not receive a negative evaluation in a regularly scheduled program review; and must not exhibit chronic unprofessional behavior. Failure to meet these standards will result in probation and/or dismissal from the program. Refer to the SPA Undergraduate Student Handbook- Theatre (<http://www.performingarts.cah.ucf.edu/theatre/resources>) for details on program standards.
- Departmental Residency Requirement consists of 60 semester hours of courses taken from the UCF Theatre Department.
- All BFA Design and Technology majors are required to participate in Fall and Spring productions and must accept the production positions as assigned. Students must be registered for the appropriate Theatre Participation course in the term in which they participate. Students need not take additional hours to satisfy practicum requirements. Once students have completed their production participation requirements, they may register for a "0" credit participation course to meet departmental registration requirements if they choose. Students may use additional participation credits as electives.
- The department will accept one credit of Theatre Participation coursework for students transferring into the program. Any additional transfer participation credits will count towards electives.
- Internships are subject to departmental approval and may not be fulfilled through participating on a UCF theatre production.

- Courses designated 2 (Common Program Prerequisites) are usually completed in the first 60 hours.
- Courses designated 1 (General Education Program) are taken throughout all four years.
- Co-op cannot be used in this major.

### Advising Notes

- Students must consult with a departmental advisor every semester before registration. Students who do not consult with their department advisor will be placed on departmental probation. Repeated failure to consult with a department advisor may lead to release from the program.

### Transfer Notes

- Due to its conservatory nature, the BFA demands a closely integrated four-year curriculum. Although the program is not designated for transfer students, transfer students may audition and may be admitted, but they should consult with the Department Undergraduate Coordinator to evaluate their transfer credits and to estimate the length of their program of study. We encourage any student wishing to transfer to complete the General Education Program and the Common Program Prerequisites before transferring within the Florida College System or State University System.

- Courses taken at Florida College System institutions may substitute for select upper division courses with permission of the department, although they will not count as upper division credits. University minimum upper division credit requirements must still be met.

- Transfer students will be required to meet the departmental theatre participation requirement through participation on UCF productions.

- Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

### Acceptable Substitutes for Transfer Courses

#### Acceptable substitutes for common program prerequisites if taken prior to transferring to UCF:

|   |       |
|---|-------|
| THE 2020: May use any introductory course, however all students are encouraged to take THE 2020. Some students with a transfer substitution choose to take THE 2020 at UCF as a theatre elective. | 3 hrs |
| THE 2305: May use any introductory Theatre Play or Script Analysis class. Script Analysis for Film cannot substitute. Design and Technology students are encouraged to take this course at UCF.   | 3 hrs |
| TPA 2210 may be substituted with any introductory Stagecraft course. TPA 2210L will still need to be taken at UCF.  | 3 hrs |
| TPP 3310C Directing for Theatre I may be substituted with TPP 2300 or any introductory Theatre Directing Course. Directing for Film cannot substitute.  | 3 hrs |
| TPP 2110C Acting I- Introduction may be substituted with any introductory acting for theatre course.  | 3 hrs |

The Bachelor of Fine Arts track in Musical Theatre is offered for students who, upon graduation, plan to pursue a specialized performance career on the musical theatre stage. It provides the student with a thorough foundation in theatre complemented by very structured and intensive career preparation in all areas of musical theatre. The Musical Theatre B.F.A. program offers a sequence of courses in acting, movement, voice, dance, music theory, and piano. Classwork is augmented with practical production experiences. Drawing upon a variety of acting, dance, and voice methodologies, the professional musical theatre performance program offers an organic approach to musical theatre performance training. The first two years focus on the fundamentals of music theory, piano, acting, ballet, jazz, and musical theatre voice, with an emphasis on the development of artist's instrument. During the junior and senior years, emphasis is placed on studio training, musical theatre scene study, and musical theatre repertoire. The program culminates with a professional internship where students are able to apply their education in a real world work environment. While most students choose to enter the work force following graduation, the BFA is an excellent degree for students interested in pursuing graduate studies in theatre. Work within the BFA program requires energy and dedication; therefore, other part-time study or outside employment is very challenging. BFA standards are high, both for admission and for continuation in the program.

### Admission Requirements

■ The departmental faculty evaluates students desiring to become BFA majors via auditions and interviews. This should be completed the academic year prior to attending UCF. For complete information visit the audition site online at <http://www.theatre.ucf.edu>. All BFA students are accepted on a "Provisional" basis their first year. Faculty will evaluate their work and decide whether or not the student may continue the program at the end of the first year.

■ The Musical Theatre plan of study requires a Fall start for proper course sequencing. Students are not accepted to begin theatre courses in the Spring or Summer semesters.

### Degree Requirements

■ Students who change degree programs and select this major must adopt the most current catalog. Students must follow the most recent department, internship and school student handbooks which are available on the department website at

<http://www.performingarts.cah.ucf.edu/theatre/resources>.

■ Students in this major must earn a "C" (2.0) or better or an "S" in each theatre course and maintain a 3.0 GPA for all courses required in the major and all courses taken in theatre; must not receive a negative evaluation in a regularly scheduled program review; and must not exhibit chronic unprofessional behavior. Failure to meet these standards will result in probation and/or dismissal from the program. Refer to the SPA Undergraduate Student Handbook - Theatre (<http://www.performingarts.cah.ucf.edu/theatre/resources>) for details on program standards.

■ Departmental Residency Requirement consists of 60 semester hours of courses taken from the UCF Theatre Department.

■ All BFA Musical Theatre majors are required to audition for all Fall and Spring productions and must accept the roles assigned. Students must be registered for the appropriate Theatre Participation course in the term in which they participate. Students need not take additional hours to satisfy practicum requirements. Once students have completed their production participation requirements, they may register for a "0" credit participation course to meet departmental registration requirements if they choose. Students may use additional participation credits as electives.

■ The department will accept one credit of Theatre Participation coursework for students transferring into the program. Any additional transfer participation credits will count toward electives.

■ Internships are subject to departmental approval and may not be fulfilled through participating on a UCF theatre production.

■ Courses designated 2 (Common Program Prerequisites) are usually completed in the first 60 hours.

■ Courses designated 1 (General Education Program) are taken throughout all four years.

■ Co-op cannot be used in this major.

### 5. Restricted Electives

■ Any THE, TPA, TPP, DAA, or DAN course taught by the Theatre Department and not already applied toward a program requirement. Independent Study, Undergraduate Research and Honors in the Major courses taught by the Department of Theatre can also be used as electives. Exceptions must be approved in advance by the Theatre Department Undergraduate Coordinator. Courses with these prefixes not taught by the Department of Theatre cannot be used in this program.

### 6. Capstone Requirements

■ None

### 7. Foreign Language Requirements

#### Admissions

■ Two years of one foreign language in high school, or one year of one foreign language in college (or equivalent proficiency exam) prior to graduation.

#### Graduation

■ None

### 8. Electives

■ (variable)

### 9. Additional Requirements

■ None

### 10. Required Minors

■ None

### 11. Departmental Exit Requirements

- Earn a grade of "C" (2.0) or better in each Theatre course
- Maintain a Theatre GPA of "B" (3.0) or better
- Complete an Exit Survey, Exit Interview, and Audit Check the semester prior to final semester of theatre classes
- Minimum of 60 theatre credits must be completed in residency at UCF
- Complete 93 theatre credits in addition to the GEP for a total of 129. Courses that count in the GEP cannot also count towards total theatre credits.

### 12. University Minimum Exit Requirements

- Dance

### Advising Notes

■ Students must consult with a departmental advisor every semester before registration. Students who do not consult with their department advisor will be placed on departmental probation. Repeated failure to consult with a department advisor may lead to release from the program.

### Transfer Notes

- Due to its conservatory nature, the BFA demands a closely integrated four-year curriculum. Although the program is not designed for transfer students, transfer students may audition and may be admitted, but they should consult with the Department Undergraduate Coordinator to evaluate their transfer credits and to estimate the length of their program of study. We encourage any student wishing to transfer to complete the General Education Program and the Common Program Prerequisites before transferring within the Florida College System or State University System.
- Courses taken at Florida College System institutions may substitute for select upper division courses with permission of the department, although they will not count as upper division credits. University minimum upper division credit requirement must still be met.
- Transfer students will be required to meet the departmental theatre participation requirement through participation on UCF productions.
- Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

The Bachelor of Fine Arts track in Stage Management is offered for students who, upon graduation, plan to pursue a specialized career as a Manager in the entertainment industry including Broadway, Regional Theatre, Touring, Special Events, etc. It provides the student with a thorough foundation in theatre complemented by very structured and intensive career preparation in both the art and the craft of theatrical stage management. Students spend the first year of the curriculum working within the structure of the laboratory classes to gain a thorough understanding of the structure, process, and craft skills. Within the first four semesters, those who qualify receive an assignment on a Stage Management team. The student Stage Managers work with the Faculty Directors to manage the rehearsal through performance process of all Department Productions. Stage Managers also have opportunities to work directly with our partner theatres within Orlando (ex. The Orlando Repertory Theatre) as part of the curriculum thus giving each student practical experience as they build their professional portfolios. The curriculum requires students to become proficient in design, technology, and theatre management through specified coursework. In their advanced course work, student Stage Managers receive a thorough introduction to the collective bargaining agreements within Actor's Equity Association. The program culminates with a professional internship where students are able to apply their education in a real world work environment. While most students choose to enter the workforce following graduation, the BFA is an excellent degree for students who are interested in pursuing graduate studies in all areas of theatre. Work within the BFA program requires energy and dedication; therefore, other part-time study or outside employment is very challenging. BFA standards are high, both for admission and for continuation in the program. Production assignments are regulated to serve the artistic growth of students thus coordinating production experience with class room exploration.

### Admission Requirements

■ The departmental faculty evaluates students desiring to become BFA Stage Management majors via portfolio reviews and interviews. This should be completed the academic year prior to attending UCF. For complete information visit the audition site online at <http://www.theatre.ucf.edu>. All BFA students are accepted on a "Provisional" basis their first year. Faculty will evaluate their work and decide whether or not the student may continue the program at the end of the first year.

■ The Stage Management plan of study requires a Fall start for proper course sequencing. Students are not accepted to begin theatre courses in the Spring or Summer semesters.

## Advising Notes

■ Students must consult with a departmental advisor every semester before registration. Students who do not consult with their department advisor will be placed on departmental probation. Repeated failure to consult with a department advisor may lead to release from the program.

## Transfer Notes

■ Due to its conservatory nature, the BFA demands a closely integrated four-year curriculum. Although the program is not designated for transfer students, transfer students may audition and may be admitted, but they should consult with the Department Undergraduate Coordinator to evaluate their transfer credits and to estimate the length of their program of study. We encourage any student wishing to transfer to complete the General Education Program and the Common Program Prerequisites before transferring within the Florida College System or State University System.

■ Courses taken at Florida College System institutions may substitute for select upper division courses with permission of the department, although they will not count as upper division credits. University minimum upper division credit requirements must still be met.

■ Transfer students will be required to meet the departmental theatre participation requirement through participation on UCF productions.

■ Courses transferred from private and out-of-state schools must be evaluated for equivalency credit. The student must provide all supporting information.

## Acceptable Substitutes for Transfer Courses

### Acceptable substitutes for common program prerequisites if taken prior to transferring to UCF:

|   |       |

The Bachelor of Arts Degree is designed to offer a thorough foundation in theatre while providing flexibility and opportunity for interdisciplinary study with a required minor. The strength of this program is in the opportunity to combine theatre training with the secondary area of study to create career opportunities in theatre and the entertainment industry. Students find direct career paths and a boost in the job market through the combination of major and minor. Students are open to selecting any minor or second major offered within the University. Upon graduation, students choose to enter the job market or pursue advanced education with a skill set unique to their goals.

#### Admission Requirements

■ The departmental faculty evaluates, via an interview, students who desire to become BA majors. For complete information visit <http://www.theatre.ucf.edu>.

■ All students must submit three letters of recommendation, a resume, and transcripts of previous college work at the time of interview.

■ Departmental scholarship applications are due by April 15 for returning students and are available on our department website. Scholarship applications for incoming students are available on our department website and are due at your interview appointment. Scholarship decisions are typically finalized in August prior to the Fall semester. Applications remain active for one year.

#### Degree Requirements

■ Students who change degree programs and select this major must adopt the most current catalog.

■ Students are required to complete a minor to graduate.

■ Students who complete a double major fulfill the minor requirement automatically.

■ Theatre grades of less than "C" (2.0) will not satisfy the major requirements or count towards total theatre credits.

■ Students in this major must earn a "C" (2.0) or better or an "S" in each theatre course and maintain a 3.0 GPA for all courses required in the major and all courses taken in theatre; must not receive a negative evaluation in a regularly scheduled program review; and must not exhibit chronic unprofessional behavior. Failure to meet these standards will result in probation and/or dismissal from the program. Refer to the SPA Undergraduate Student Handbook - Theatre (<http://www.performingarts.cah.ucf.edu/theatre/resources>) for details on program standards.

■ Students must consult with a departmental advisor each semester before registering. Students who do not consult with their department advisor will be placed on departmental probation which causes him/her to be ineligible for casting or other production positions. Repeated failure to consult with a department advisor may lead to release from the program.

■ Departmental Residency Requirement consists of at least 30 semester hours of courses taken from the UCF Theatre Department.

■ All BA Theatre Studies students must register for three semesters of Theatre Participation in addition to the Technical Theatre Production Lab. One Participation credit must be as part of a run crew. One Participation credit must be as part of a Front of House crew. The third required Participation credit can be in either performance, shop assignments, run crews or Front of House.

■ All Theatre majors who participate in production work must be registered for the appropriate Theatre Participation course in the term in which they are participating. Students need not take additional hours to satisfy practicum requirements. Once students have completed their production participation requirements, they may register for a "0" credit participation course to meet departmental registration requirements. Students may use additional participation credits as electives.

■ Students must follow the most recent department and school student handbooks which are available on the department website at

<http://www.performingarts.cah.ucf.edu/theatre/resources>.

■ The department will accept one credit of Theatre Participation coursework for students transferring into the program. Any additional transfer participation credits will count toward electives.

■ Courses designated in 1 (General Education Program) are usually completed in the first 90 hours.

■ Courses designated in 2 (Common Program Prerequisites) are usually completed in the first 60 hours.

■ Co-op credit cannot be used in this major.

The Bachelor of Arts degree in Writing and Rhetoric provides students with in-depth training in the interrelated fields of writing, rhetoric, and literacy studies, preparing them for a range of writing-focused jobs that involve the analysis, creation, editing, adaptation, and/or coordination of written, digital, and multimedia texts.

### Admission Requirements

- Students transferring with an AA or AS degree or who have completed their general education courses in composition elsewhere are strongly recommended to enroll in ENC 3314 (Writing & Rhetoric Foundations) as an advanced core requirement course in their first semester at UCF.

### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog.
- Students must earn at least a "C+" (2.25) in each required course.
- Students should consult with a departmental advisor.
- Departmental Residency Requirement consists of at least 18 semester hours of regularly scheduled 3000-4000 level courses taken from the UCF Writing and Rhetoric Department.
- Courses designated in 1 (General Education Program) and 2 (Common Program Prerequisites) are usually completed in the first 60 hours.
- Students must earn a minimum 2.5 GPA in coursework used to satisfy the major.

## UCF Degree Programs

### 7. Foreign Language Requirements

#### Admissions

- Met by graduation requirement.

#### Graduation

- Proficiency equivalent to one year of college instruction in a foreign language taught by the Department of Modern Languages and Literatures or Judaic Studies. Standardized examinations for foreign languages may be used to meet the requirement. Majors who are contemplating graduate school should complete two years of a foreign language.

#### 8. Electives

- Select primarily from upper-level courses after meeting with a departmental advisor. Courses may be outside of the department.

#### 9. Additional Requirements

- None

#### 10. Required Minors

- Students must complete a minor, certificate, or approved program of study (at least 18 hours minimum). A minor and/or certificate from the Department of Writing and Rhetoric cannot be used to satisfy this requirement.
- Can be a UCF minor or an interdisciplinary set of courses tailored to the student's professional goals and approved by a program advisor.
- No more than 6 hours can overlap with courses used to satisfy the major.

#### 11. Departmental Exit Requirements

- Students must complete an electronic writing portfolio (e-portfolio) that meets program requirements. This e-portfolio will be developed throughout the course of the students' work in the major. Students must also enroll in ENC 4950 (Writing ePortfolio) during their final semester; their e-portfolio will be approved in this course for program-level graduation requirements.

- Maintain and achieve a minimum GPA of 2.5 in all courses used towards the major.

#### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

#### Total Semester Hours Required

# MINORS AND CERTIFICATES

Minors are authorized only for certification with baccalaureate degrees. Minors must be certified at the same time as the student's baccalaureate degree. Unless a second baccalaureate degree is earned, certification will not be made at a later time even if additional courses have been completed.

A student may declare a minor up to but no later than the submission of the "Intent to Graduate Form." However, students are strongly urged to declare a minor as early as possible. Contact the student support office of the college offering the minor.

### Actuarial Science - Minor

College of Sciences

Department of Statistics,

Computer Center II, Room: 212

<http://statistics.cos.ucf.edu/>

Dr. David Nickerson, david.nickerson@ucf.edu, 407-823-5528

This minor is designed to satisfy the Society of Actuaries (SOA) Validation by Educational Equivalence requirements in the areas of Economics, Corporate Finance and Applied Statistics and prepare students for SOA Exam P, Exam FM and Exam MFE. It also will prepare them to take the Casualty Actuarial Society (CAS) Exam 1, Exam 2, and Exam 3F. Students who complete this minor will have completed the requirements for a Statistics minor, and should also apply for that minor prior to graduation. Alternatively, the minor will

satisfy many requirements in the Statistics B.S. degree, so students may want to consider the Statistics B.S. with the Actuarial Science minor.

#### Minor Admission Requirements

- Students need to complete the prerequisite courses.

#### Minor Requirements

- A minimum grade of "C" (2.0) is required in all courses used to satisfy the minor.
- At least 15 hours used in the minor must be earned at UCF within the Department of Statistics.

#### Prerequisite Courses

- Students must satisfy each course's prerequisites before enrolling in the class.
- Students are expected to have completed some of the following courses as part of their GEP requirement.

The Anthropological Archaeology minor offers students an opportunity to contextualize the modern world through the recent and more distant past. The minor emphasizes both the methods by which archaeologists study the past and areas of geographic and topical interest. The minor is ideal for students interested in understanding the long-term processes underlying modern global phenomena such as urban development, increasing inequality, the adoption of agriculture, foodways, and human adaptation to climate change.

### Admission Requirements

- The minor is not open to Anthropology majors.

### Minor Requirements

- Students must earn a grade of "C" (2.0) or better in all courses used to satisfy the minor.
- At least 15 hours used in the minor must be earned at UCF within the department of Anthropology.
- Only two anthropology courses can overlap for students enrolled in multiple anthropology programs (minors or certificates).

### Prerequisite Courses

- Students must satisfy each course's prerequisites before enrolling in the class.

In an increasingly connected world, a foundation in multicultural studies is more important than ever. This minor allows students to develop a broad and deep understanding of the diversity and interconnectedness of societies around the world in the past and present. Students will be exposed to various cultures around the world in comparative and specialist courses from the perspectives of cultural and archaeological anthropology, including health, environment, governance, policy, and more.

The School of Visual Arts and Design affirms that a theoretical and working understanding of the historical meanings and studio applications of the human image are critical in the education of Visual Art and Art History students. To develop such an understanding, art courses often utilize images of clothed and unclothed human figures and, in certain studio classes, live nude models.

This minor is not available to Art Education majors. This minor is well-suited for students enrolled in the School of Visual Arts and Design or Interdisciplinary Studies students with a concentration in Art. This minor is not available to students in pending status in a College of Education and Human Performance major.

### Admission Requirements

- Have a minimum 2.5 overall GPA
- Complete the University General Education requirements or its equivalent, i.e. an AA degree from an approved Florida College System or State University System institution.

### Minor Requirements

- Students should see an advisor prior to registering for classes.
- Students must complete 18 SH of co-requisites and course prefixes could be ARE, ART, ARH, or GRA.
- At least 12 hours in the minor must be earned at UCF.
- Students must have a grade of "C-" (1.75) or better in all courses required for minor.

The School of Visual Arts and Design affirms that a theoretical and working understanding of the historical meanings and studio applications of the human image are critical in the education of Visual Art and Art History students. To develop such an understanding, art courses often utilize images of clothed and unclothed human figures and, in certain studio classes, live nude models.

### Bioengineering - Minor

College of Engineering and Computer Science

Engineering, Room: 107

<http://www.cecs.ucf.edu/minors/bioengineering>

Dr. Alain Kassab, Engineering Track, [alain.kassab@ucf.edu](mailto:alain.kassab@ucf.edu), 407-823-5778

Dr. Charles Hughes, Computer Science Track, [ceh@cs.ucf.edu](mailto:ceh@cs.ucf.edu), 407-823-2762

The Bioengineering minor prepares engineering and computer science students to pursue graduate academic and professional careers serving a wide range of the medical arena in research and development. Candidates completing this minor will also satisfy course admissions requirements for the UCF Medical School and other medical schools in the US. Engineering and computer science students interested in pursuing an MD degree at UCF or elsewhere are strongly encouraged to seek further advisement from the Office of Pre-Health and Pre-Law Advising. The minor constitutes up to: (a) for the engineering track 21 hours of coursework over the requirements for a bachelor of science degree in an engineering discipline at UCF, and (b) a minimum 17 hours of coursework over the requirements for a bachelors of science degree in computer science at UCF.

## Minors

### Minor Admission Requirements

■ Well-qualified students in the College of Engineering and Computer Science with a cumulative UCF GPA of 3.0 or better are welcome to enter the minor. In order to remain in the program, students must maintain a UCF Undergraduate GPA 3.0.

The Biological Anthropology minor develops an understanding of anthropological approaches to the study of the human body from modern and/or archaeological contexts. This minor is particularly appropriate for students interested in human biology, forensic anthropology, bioarchaeology, or area studies in archaeology.

### Admission Requirements

■ The minor is not open to Anthropology majors.

### Minor Requirements

■ Students must earn a grade of "C" (2.0) or better in all courses used to satisfy the minor.

■ At least 15 hours used in the minor must be earned at UCF within the department of Anthropology.

■ Only two anthropology courses can overlap for students enrolled in multiple anthropology programs (minors or certificates).

### Prerequisite Courses

■ Students must satisfy each course's prerequisites before enrolling in the class.

The coaching minor is designed to provide a limited, but substantive experience in the field of coaching. The state of Florida requires a coaching endorsement, which includes nine hours (Human Injuries, Coaching Theory, and a Coaching Specialization course), for all persons certified to teach. This minor is appropriate for those students who plan to coach and/or are seeking a career in the fields of Physical Education and sport. The Coaching Minor includes coursework leading to partial fulfillment of the Athletic Coaching Endorsement. Full eligibility for the endorsement may require additional criteria outlined by the Florida Department of Education. For further information regarding the Athletic Coaching Endorsement, visit <http://www.fldoe.org/edcert/>. This Minor is available for students in the 2001 Catalog Year and beyond. The Coaching Minor is not available to Sport and Exercise Science Pending and Sport and Exercise Science - Coaching Track majors.

The Cultural Anthropology Minor allows students to explore the diversity of cultures in a variety of non-Western and Western contexts, both historically and in the present. Students examine how ideas about cultures have evolved over time and how anthropology has researched, analyzed, and understood cultural diversity and change. Courses include topics of colonialism, Westernization and culture change, globalization, migration and refugees, poverty, war and violence, race, gender and sexuality, media and popular culture, and medical anthropology. There are three great reasons to pursue the Cultural Anthropology Minor. First, the material is intellectually exciting and engages students in thinking about the most pressing social, global, and political issues taking place around us. Second, understanding cultural complexities complements and adds depth to any major, and demonstrates students' well-rounded education. Third, cultural anthropology opens doors in variety of career setting, including global and local advocacy, public service, health sector, business, research, and teaching.

#### Admission Requirements

- The minor is not open to Anthropology majors.

#### Minor Requirements

- Students must earn a grade of "C" (2.0) or better in all courses used to satisfy the minor.
- At least 15 hours used in the minor must be earned at UCF within the department of Anthropology.
- Only two anthropology courses can overlap for students enrolled in multiple anthropology programs (minors or certificates).

#### Prerequisite Courses

- Students must satisfy each course's prerequisites before enrolling in the class.

The Early Childhood Development and Education minor is intended to provide a limited, but substantive experience in the fields of development and early childhood education. The minor is intended for University students enrolled outside the Early Childhood Development and Education major and does not lead to teacher certification or admission to the College of Education and Human Performance. The minor is appropriate for students who are seeking an enhanced understanding of education and development or are considering a career working with young children in the fields of early childhood education, social work, psychology or health services. This minor will strengthen the marketability of the student's major program. This minor is available for students in the 2003 catalog year and beyond.

#### Minor Admission Requirements

- Complete the University General Education Program requirements or its equivalent, i.e. an A.A. degree from an approved Florida College System or State University System institution.
- A minimum overall GPA of 2.75.
- No credit by exam (CLEP, Military credit) may be used. Transfer credits from other universities will be considered.

#### Minor Requirements

- Must maintain a minimum overall MINOR GPA of 2.75.
- At least 12 hours used in the minor must be earned at UCF.

■ Once the Early Childhood Development and Education Minor has been declared and approved, Early Childhood Development and Education Minor students must schedule an appointment with their program advisor listed on their ECDE Minor DARS Audit.

- NOTE: Completion of the Early Childhood Development and Education Minor does not complete the requirements for certification in Early Childhood Development.

The Education minor is intended to provide for university students outside the College of Education and Human Performance a limited but substantial experience in the fields of professional education. Students who successfully complete this minor can expect to increase their marketability in careers that include educational components such as instructing, training, and lecturing. This minor is designed to promote student success in instructional settings, particularly in the high school setting, but does not directly qualify students for teacher certification or admission into the College of Education and Human Performance. This minor is not available to students in pending status in a College of Education and Human Performance major. This minor is available for students in the 2007 catalog year and beyond.

Dr. Claire Knox, [claire.knox@ucf.edu](mailto:claire.knox@ucf.edu), 407-823-2604

The minor in emergency management and homeland security provides students with an opportunity to comprehensively study the disaster management cycle, including emergency planning, mitigation, response and recovery. In an age of dense population, increased terrorism, unpredictable weather and high public expectations of risk reduction and public leadership, this is an exciting area of study. Students who complete a minor in emergency management and homeland security gain additional insight and knowledge that will help them find positions in various federal, state and local government or nonprofit organizations. Some of these may include the Health and Human Services Agency (HHS), the Environmental Protection Agency (EPA), the Occupational Health and Safety Administration (OSHA), the Federal Emergency Management Agency (FEMA), the Department of Homeland Security (DHS), American Red Cross, and state and local homeland security agencies.

The entrepreneurship minor provides students from all academic disciplines with entrepreneurial skills needed to create successful

startup ventures, new corporate initiatives, and potent non-profit organizations. This minor is a great complement to students' education because it adds broad entrepreneurial thinking skills to the deep discipline-based expertise provided by academic majors. Participants will learn how to recognize opportunities, formulate solutions, and deliver results to those in need. These skills are essential to starting new businesses, and are valued by small and large organizations seeking employees who can create and lead innovative new initiatives.

[http://education.ucf.edu/academics\\_minors.cfm](http://education.ucf.edu/academics_minors.cfm)

Dr. Maria Reyes, Program Coordinator, maria.reyes@ucf.edu

The Exceptional Student Education minor is intended to provide a limited, but substantive experience in the fields of education and exceptional children. The minor does not lead to teacher certification or admission to the College of Education and Human Performance. The minor is appropriate for students who are seeking an enhanced understanding of education or are considering a career in the fields of education or exceptional education. This minor will strengthen the marketability of the student's major program.

### Minor Admission Requirements

- Minimum 2.5 overall GPA
- Complete the University General Education requirements or its equivalent, i.e. an AA degree from an approved Florida College System or State University System institution.

### Minor Requirements

- Students must earn a "C" (2.0) in all minor courses.
- Students must choose an elementary, early childhood or secondary focus.

## Minors

Students taking the International and Global Studies Minor will examine the interactions between nations and the political processes within nations using a variety of perspectives. International aspects focus on how countries interact with one another, and how the social and cultural systems within them affect these interactions. Global studies looks at intra-national factors, such as how a state's internal characteristics impact that state's political processes. Immigration, technological advancements and internationalization of foreign policy make global studies a complementary approach to international studies.

### Minor Admission Requirements

- Double major/dual degree policy in Political Science programs and minors:
- 1. Students who major in any Political Science track, and minor in International and Global Studies, shall not count more than one course toward both programs.
- 2. Students who double minor in Political Science and International and Global Studies shall not count more than one course toward both programs.

### Minor Requirements

- A minimum GPA of 2.0 is required in all courses used to satisfy the minor.
- Grades below "C" (2.0) in lower level courses are not accepted in the minor.
- At least nine hours used in the minor must be earned at UCF within the department.

### Prerequisite Courses

- Students must satisfy each course's prerequisites before enrolling in the class.

### Required Courses (6 hrs)

## Minors

### Foreign Language Requirements

- None

### Total Semester Hours Required

- 18

### Other Requirements

- A minimum GPA of 2.0 is required in all courses used to satisfy the minor.
- Lower division courses taken at Florida College System institutions do not substitute for upper division courses.
- Courses taken as part of a UCF College of Business exchange program, will be reviewed for appropriateness by the College of Business Study Abroad Director. Additional information may be required by the Study Abroad Director to determine the appropriateness of the course taken.
- Courses transferred into the College of Business from a foreign institution, that are not part of a College of Business exchange program, must be formally evaluated for equivalency credit. The student must provide a course syllabus and any other supporting information with his/her petition for this evaluation.
- At least nine hours used in the minor must be coursework registered through UCF College of Business Study Abroad.
- No credit by exam (TSD, Military credit) may be used.
- Internship, Independent Study, or Directed Research credit cannot be used toward the minor.
- A maximum of six hours of the above listed required or elective courses can count toward another major or minor degree program.

## International Engineering - Minor

### College of Engineering and Computer Science

#### Engineering, Room: 107

<http://www.cecs.ucf.edu>

Dr. Avelino Gonzalez, [avelino.gonzalez@ucf.edu](mailto:avelino.gonzalez@ucf.edu), 407-823-5027  
CECS Academic Affairs Office, 407-823-2455

The objective of this minor is to provide engineering, and computer science students with the opportunity to learn about and experience firsthand the global aspects of engineering, science and technology. This minor is designed for maximum flexibility in programming, given the many different countries, cultures, partner foreign institutions and individual student needs. Through this minor, CECS students gain academic and/or work experience at an approved foreign institution compatible with UCF CECS, while simultaneously becoming familiar with the social as well as professional and technical cultures of their host country. CECS students can spend one or two semesters abroad gaining valuable international experience in their chosen field. This is especially important in today's global economy in which employers look for graduates with international experience in their major area.

### Minor Admission Requirements

- Admission by interview with the Program Coordinator
- A minimum UCF cumulative GPA of 2.75 is required to enter the minor.

### Minor Requirements

- None

### Prerequisite Courses

- Pre-requisites to the minor include completion of a minimum of 45 credit hours prior to the study abroad experience.

### Required Courses (18 hrs)

- The International minor in Engineering or Computer Science is composed of three parts:

### Language Skill Acquisition 6 hrs

- It is important that students possess a working level of language skills in the language of the prospective country to be visited in the study abroad experience of item 3 below.

Therefore, students must demonstrate proficiency in the language of their chosen country through at least the first year of college study. This can be achieved by completing six to eight hours of language coursework at UCF if such coursework is available, at the foreign institution where they will be going, or by passing an exam prior to the study abroad experience. Language coursework must relate to the country/region in which the student will be studying and must be approved beforehand by program coordinator. This requirement can be waived by the minor coordinator for study abroad in countries in where English is widely spoken.

- For International Engineering Exchange Programs that include class instruction in a language other than English, students must show advanced proficiency in that language either through a sufficient score on the Foreign Language Proficiency Exam to demonstrate fluency in the language and/or through satisfying any language proficiency requirements specified by the host institution. If the student does not demonstrate advanced proficiency in the local language of instruction, he/she must spend at least one academic year abroad with the first semester or more devoted to language study and another semester to Engineering/Computer Science coursework.

- If the student demonstrates proficiency through exam or if the language requirement is waived, he/she will instead take six hours of alternative international coursework, appropriate to the region of study, at UCF in lieu of the foreign language credits. This alternative international coursework will consist of two of the following courses (or an equivalent(s) approved by the program coordinator):

|          |   |       |
|----------|---|-------|
| ANT 3212 | Peoples of the World                        | 3 hrs |

### Cultural Coursework 3 hrs

- It is important to formally expose the students to the culture of the country or region where they plan to have their study abroad experience. This can be done in one of two ways, in decreasing order of preference:

- Option 1) Students will complete three hours of coursework in society/culture international relations, or global economics related to the country/region where the student is having his/her study abroad experience. It is recommended that this course be completed at the foreign institution if available

- Option 2) If such a course cannot be found, then the minor coordinator will select a course to take in its place at UCF that will achieve similar results.

### Study Abroad Experience 9 hrs

- The study abroad experience represents the most important aspect of this minor. To satisfy this requirement, students complete 9 hours of technical coursework (classroom studies) in residence at a partner institution abroad.

## Minors

■ Students must take coursework abroad of equivalent content and level to what they would take at UCF as part of their degree program. With the realization that courses are different in the various overseas institutions, the proposed overseas coursework must be explicitly approved by the student's home department to ensure equivalency. Students must first consult with their home department to determine the core, required and/or elective courses they are eligible to take, and look for equivalencies of courses offered at the overseas institution during the time of their expected study abroad experience. They must then proceed to consult with the international minor coordinator before seeking departmental approval. Departmental approval must be obtained before enrolling in the overseas classes.

### Mass Culture and Collective Behavior - Minor

#### College of Sciences

#### Department of Sociology,

**Howard Phillips Hall, Room: 403**

<http://sociology.ucf.edu>

Dr. Lin Huff-Corzine, 407-823-3744

This minor provides students with an opportunity to learn about sociological research within the areas of religion, sports, leisure, music, pop culture, focuses to some extent on how people consume goods and resources in society. This leads to working knowledge of how public opinion and contemporary social movements shape collective behavior and mass culture. The minor is especially appropriate for students majoring in Interdisciplinary Studies, the social sciences, business, or for any student seeking an enhanced understanding of socio-cultural change within modern society. Given this broad-based set of courses, someone interested in a career in sales, marketing, volunteer organizations, or social media, for example, would find this minor a good fit

#### Minor Admission Requirements

- The minor is not open to Sociology majors.
- Courses used to satisfy the Restricted Electives of this minor cannot be used to satisfy other Sociology minors.

#### Minor Requirements

- Students are expected to have a minimum GPA of 2.0 in the minor and earn a "C" or better in each course used to satisfy the minor.

- At least 15 hours used in the minor must be earned at UCF within the department of Sociology.

#### Prerequisite Courses

- Students must satisfy each course's prerequisites before enrolling in the class.

## Minors

### Materials Science and Engineering - Minor

#### College of Engineering and Computer Science

#### Department of Materials Science and Engineering

Dr. Jiyu Fang, jfang@ucf.edu, 407-823-0609

The field of "materials" encompasses concepts in many diverse fields ranging from chemistry, physics, and optics to mechanical, electrical, and chemical engineering. Rapid advances in technology have dramatically increased the importance of materials science and engineering to society. Materials Science and Engineering (MSE) is the study of the structure/processing/properties relationships of engineering materials. Modern MSE encompasses a broad range of materials, from traditional metallurgy to biological materials, polymers, ceramics, semiconductors, composites, and optical and magnetic materials, as well as numerous nanotechnology materials. The study of materials science allows students considerable freedom to the depth of their understanding of such materials while being simultaneously engaged in real world research. Participants in this minor will be able to improve their understanding, awareness and job skills in material selection and application to have additional opportunities and advantages to pursue a career in Engineering. Students taking graduate level EMA courses as Restricted Electives can use them for the Accelerated BS-to-MS program in Materials Science and Engineering.

The Medical Anthropology minor develops students' understanding of health from the perspective of human cultural and biological diversity. Current trends in education and employment show a growing need for medical anthropology knowledge and expertise in a variety of national and international career directions. This Minor therefore prepares students for future graduate studies and work in health professions, including medicine, global health, nursing, and social work.

#### Minor Admission Requirements

- The minor is not open to Anthropology majors.

#### Minor Requirements

- Students must earn a grade of "C" (2.0) or better in all courses used to satisfy the minor.
- At least 15 hours used in the minor must be earned at UCF within the department of Anthropology.
- Only two anthropology courses can overlap for students enrolled in multiple anthropology programs (minors or certificates).

#### Prerequisite Courses

- Students must satisfy each course's prerequisites before enrolling in the class.

## Medical Sociology - Minor

### College of Sciences

### Department of Sociology,

### Howard Phillips Hall, Room: 403

<http://sociology.cos.ucf.edu>

Dr. Lin Huff-Corzine, sociology@ucf.edu, 407-823-3744

The Medical Sociology minor examines the social determinants of health and illness, and their impact on the delivery of health care and access to medical resources. The minor also examines the role social forces play in the way society views, treats, understands, and responds to illness and disease. This minor promotes an understanding of health and illness from a sociological perspective and prepares students for careers and graduate school in health related fields.

### Minor Admission Requirements

■ The minor is not open to Sociology majors.

■ Courses used to satisfy the Restricted Electives of this minor cannot be used to satisfy other Sociology minors.

### Minor Requirements

■ Students are expected to have a minimum GPA of 2.0 in the minor and earn a "C" or better in each course used to satisfy the minor.

■ At least 15 hours used in the minor must be earned at UCF within the department of Sociology.

### Prerequisite Courses

■ Most courses for this certificate will have prerequisites completed as a part of a student's GEP requirement or as general electives.

■ Students must satisfy each course's prerequisites before enrolling in the class.

Dr. Talat Rahman, 407-823-2325

This minor is designed to offer students a working knowledge of nanoscience principles and industrial applications, and to understand the societal and technology issues that may impede the adoption of nanotechnology. In addition, students are expected to develop the ability to communicate effectively, work collaboratively, and identify paths and requisite knowledge and skills for nanotechnology careers. With the service learning component built into the three core courses, students completing the minor will only need a fourth SL-designated course of their choice to receive a UCF Service-Learning certificate.

### Admission Requirements

- None

### Minor Requirements

- A minimum GPA of 2.0 is required in all courses used to satisfy the minor.
- Grades below "C" (2.0) in lower level courses are not accepted.
- At least 12 hours used in the minor must be earned at UCF within the Department of Physics.

### Prerequisite Courses

- Students must satisfy each course's prerequisites before enrolling in the class. In addition, the students must have completed the following courses, which are taken by most science majors:

### Select 1:

|           |                                     |       |

Religion and Cultural Studies is a minor designed to familiarize students with religious traditions around the world, from ancient through contemporary cultures, as well as to introduce students to critical theories and methods through which to view and analyze the category of religion and its associated concepts, practices, and meanings in all areas of life. The program emphasizes the academic study of religion, and does not privilege any particular tradition or belief. This program can be completed online, although not every course in each category is offered as an online course.

Awareness of and knowledge about terrorism and counter-terrorism are increasingly essential in a variety of public and private sector organizations. Students in this minor will gain knowledge in competing ideologies that give rise to terrorism, coercive techniques in international affairs, global security management, and key aspects of American security policy. In addition to a core understanding of terrorism, the focus on a specific area of geographic or strategic interest will meet the market needs for individuals with substantive area knowledge. This minor program is available to students from varied disciplines to enhance their capability to address the threat of terrorism and understand how it might impact their own field.

## Urban and Regional Planning - Minor

Dr. Stephanie Krick, [Stephanie.Krick@ucf.edu](mailto:Stephanie.Krick@ucf.edu), 407-823-2604

Urban and regional planning is one area of public administration that has seen considerable growth over the past few years. Areas like Central Florida need many professionals who assist government, communities, and private sector planning organizations to provide growth that is environmentally feasible, aesthetically attractive, socially and politically acceptable, technically sustainable, and economically dynamic. This minor looks at all of these diverse and competing interests, and provides the basics for those interested in employment in this area of great demand. Students who pursue a minor in urban and regional planning may find positions as a city planner, urban designer, planning specialist, environmental program manager, or economic development specialist, among others.

The Women's and Gender Studies minor emphasizes intersectional approaches to the study of gender, race, class, ethnicity, and sexuality in national and transnational contexts. Course offerings examine social constructions of sex and gender and provide students with an opportunity to learn about women's historical and contemporary roles gain a working knowledge of interdisciplinary feminist scholarship, and reflect critically on their life experiences as shaped by gender and other forms of diversity. Courses are drawn from various departments and schools, including Anthropology, Art, Communication, Criminal Justice and Legal Studies, Film, English, Health Professions and Physical Therapy, History, Philosophy, Political Science, Psychology, Nursing, Social Work, Sociology, Theater, and the Women's and Gender Studies Program. Subcategories of focus include feminist theories, girl studies, queer studies, and global and transnational issues.

Irina McLaughlin, [irina.mclaughlin@ucf.edu](mailto:irina.mclaughlin@ucf.edu)

World Languages Education - English for Speakers of Other Languages (ESOL) Education minor is intended for College of Education and Human Performance students in undergraduate initial certification programs. The World Languages Education - ESOL minor is intended for Education majors and is well suited for College of Education and Human Performance students majoring in secondary content areas. This minor is not available to students in pending status in a College of Education and Human Performance major. Students who successfully complete this minor can expect to increase their marketability in educational professions that serve English learners. This minor is designed to promote student success in Pre-K through 12 instructional settings but does not directly qualify students for teacher certification or admission into the College of Education and Human Performance.

### Admission Requirements

- Minimum 2.5 overall GPA.

**Education Complex, Room: 220L**

<http://education.ucf.edu/language>

Dr. Karen Verkler, Karen.Verkler@ucf.edu, 407-823-5235

The World Languages Education - Languages Other Than English (LOTE) minor is intended for non-World Languages Education - Languages Other Than English (LOTE) majors. It is well suited for College of Education and Human Performance students majoring in another secondary content area. It is also intended to provide for university students outside the College of Education and Human Performance (such as students enrolled in Interdisciplinary Studies, International and Global Studies, or programs in the Department of Modern Languages and Literatures) a limited but substantial experience in the field of professional education. This minor is not available to students in pending status in a College of Education and Human Performance major. Students who successfully complete this minor can expect to increase their marketability in careers that include educational components such as instructing, training, and lecturing. This minor is designed to promote student success in instructional settings, particularly in the K-12 school setting, but does not directly qualify students for teacher certification or admission into the College of Education and Human Performance.

### Minor Admission Requirements

■ Minimum 2.5 overall GPA.  
■ Complete the University General Education Program requirements or the equivalent, i.e., an AA degree from a Florida College System or State University System institution.

### Minor Requirements

■ Students should see an advisor prior to registering for classes. Students must complete 18 hrs of language courses as co-requisites. A grade of "C" (2.0) or better is required in each course used to satisfy the minor. At least 12 hours used in the minor must be earned at UCF.

# CERTIFICATES

## Aging Studies - Certificate

College of Health and Public Affairs

School of Social Work,

Health and Public Affairs I, Room: 204

Email: [socialwk@ucf.edu](mailto:socialwk@ucf.edu)

Dr. Denise Gammonley

Phone: 407-823-2114

In recognition of the special needs of the older adults in Central Florida, the school offers a 15-credit interdisciplinary program open to all students in any major. This certificate prepares students for careers in applied gerontology, research, public service or for graduate training. Courses focus on the physiological, psychological, sociological, environmental, cultural, legal-ethical and public policy issues affecting older adults. Students majoring in health professions, biomedical sciences, criminal justice and legal studies, hospitality management, psychology, social work, nursing, sociology, business, exercise science, physical education, communication sciences and disorders or education find study of the aging process especially helpful.

Certificates will be awarded only at the time of degree completion.

The Anthropology of Global Health Certificate offers students the opportunity to pursue the rapidly growing field of global health from an anthropological perspective, which examines global health problems by situating them in local contexts. Global health issues such as refugee health, global mental health, and emergent "superbugs" (e.g., Ebola, Zika), are of increasing concern and interest. Health is also the focus of the work of numerous public, private, non-governmental and non-profit organizations in the U.S. and abroad. This Certificate allows UCF students in any major interested in health to pursue this educational focus.

### Admission Requirements

This certificate must be completed along with a Bachelor's degree program of study. Certificates will be awarded only at the time of degree completion. The Behavioral Forensics Certificate is an interdisciplinary course of study that focuses on ways society attempts to recognize and deal with various forms of criminal behavior. The certificate exposes students to the practice of psychology within the legal system, including topics such as confidentiality, competency, and insanity. Students should view this certificate only as a way to shape and organize their coursework in this particular area of study; the certificate shows potential graduate schools and employers that students have been exposed to behavioral forensics.

Phone: 407-823-2114

This certificate is awarded only to students in the undergraduate social work program. The Children's Services Certificate is designed to help students learn about practice considerations in providing services to children and families. Students are prepared to identify a variety of problems such as child abuse, neglect, childhood trauma, and family dynamics essential for identifying service delivery to this population. The certificate includes both classroom academic work and a specialized field internship. This certificate assists in improving services to children and their families. Certificates will be awarded only at the time of degree completion.

### Certificate Admission Requirements

- Must be a BSW major.

### Certificate Requirements

- Placement in an agency that serves children.
- Students need to discuss their interest in the certificate with the field office when BSW placements are being arranged.

## Crime Analysis and Crime Mapping - Certificate

### College of Health and Public Affairs

### Department of Criminal Justice,

### Health and Public Affairs I, Room: 311

Email: [cjadvise@ucf.edu](mailto:cjadvise@ucf.edu)

R. Cory Watkins, 407-823-2603

Crime analysis and crime mapping are now recognized as essential and vital functions in law enforcement. Analysts take advantage of state-of-the-art computer technologies to support operations, investigations, and management. These specialists take data and produce information that is used to identify crime patterns, monitor crime trends, forecast future crime events, prepare statistical crime reports, and work directly with investigators to identify suspects. Five courses (15 credit hours) are required for this undergraduate certificate. Certificates will be awarded only at the time of degree completion.

Department of Anthropology, Phillips Hall, Room: 403

Dr. John Schultz, jschultz@ucf.edu, 407-823-2618

Dr. Mark Winton, cjadvice@ucf.edu, 407-823-2603

Crime scene processing is increasingly becoming a multi-disciplinary endeavor with the application of technologically advanced methods. Treatment of the initial crime scene is fundamental not only to the pursuit of offenders but also to the presentation of the prosecutor's case once offenders have been apprehended. The certificate program is a means of organizing information required to perform basic crime scene investigations. It provides theoretical and practical information used to assess crime scenes, the technology available and the procedures to employ in order to produce a forensically valuable product. The program requires 15 credit hours of undergraduate work. Certificates will be awarded only at the time of degree completion.

Email: cjadvice@ucf.edu

Dr. Jeff Rosky, 407-823-2603

Management and Leadership skills are required for personnel seeking to move into positions of authority within criminal justice

agencies across local, state, federal and international jurisdictions. Leaders of these agencies should be prepared to meet the challenges of the 21st century regarding administration of human resources, personnel supervision, development, implementation and evaluation of policies, and fiscal management including budgeting and planning. The Undergraduate Certificate in Criminal Justice Management and Leadership is designed to provide a theoretical and practical knowledge-base for students with a desire to gain skills necessary to advance their careers in criminal justice agencies. This certificate requires 18 credits of undergraduate coursework. Four of the courses are in Criminal Justice and two are in Public Administration.

### Criminal Profiling - Certificate

College of Health and Public Affairs

Department of Criminal Justice,

Health and Public Affairs I, Room: 311

Mark Winton, cjadvice@ucf.edu, 407-823-2603

New and more sophisticated techniques and tools of criminal investigation are being developed to assist in meeting the challenges facing today's law enforcement officers. One area that is becoming formalized in law enforcement is criminal profiling. The certificate program in Criminal Profiling is a way of organizing the fundamental information and education required for profiling. It provides both the theoretical and practical information related to the types of crimes for which profiling is most useful. The program requires 15 credit hours of undergraduate work. Certificates will be awarded only at the time of degree completion.

Language disorders are the most prevalent communication disorder. Typically children, adolescents and adults with language disorders are served via a team approach that includes speech-language pathologists, psychologists, neurologists, pediatricians, nurses, social workers, physical therapists, occupational therapists, school counselors, and general and special educators. This certificate is designed for undergraduate students who are not majoring or minoring in Communication Sciences and Disorders. This is for those in disciplines related to speech-language pathology who wish to pursue a special emphasis in language development and disorders in children, adolescents and adults. Certificates will be awarded only at the time of degree completion.

Dr. Sarah Barber

Phone: (407) 823-2227

This certificate provides students with a broad and diverse background in the archaeology, history and culture of Native American peoples throughout North America, Central America and South America. While this certificate has a primary focus in Anthropology, course work in other departments provides a multidisciplinary approach to the study of native peoples of the Americas. This Certificate is appropriate for all UCF undergraduates and it provides an alternative to students majoring in Anthropology who wish to focus on Native American Studies, but who are precluded from completing the American Indian Studies Minor.

Certificates will be awarded only at the time of degree completion.

### Admission Requirements

- None

### Certificate Requirements

- A minimum overall 2.0 GPA is required in courses used to satisfy the requirement.
- At least 12 hours used toward the certificate must be earned at UCF within the participating departments.
- Anthropology majors may apply only two Anthropology courses from the Certificate program curriculum toward the Anthropology Major course requirements.
- Only two anthropology courses can overlap for students enrolled in multiple anthropology programs (minors and certificates).

### Prerequisite Courses

- Most courses for this certificate will have prerequisites completed as a part of a student's GEP requirement, as general electives, or a student can enroll into courses with consent of instructor.

The Substitute Teaching Certificate is designed for undergraduates who want to prepare themselves for substitute teaching assignments in PK-12 schools. This certificate does not lead to teacher certification or admission to the College of Education and Human Performance. The certificate is appropriate for students who are seeking an enhanced understanding of how to be an effective substitute teacher in PK-12 school classrooms, or for those who are considering a future career as a fully certified teacher. This certificate may also strengthen the marketability of students' major programs. This certificate is available for students in the 2006 catalog year and beyond.

Purpose of this program - This program allows highly qualified undergraduate majors in communication sciences and disorders to enroll in 16 credit hours of graduate-level courses while completing the bachelor's degree. This enables full-time students to achieve a master's degree in one to two fewer semesters.

### Admission Requirements

- Completion of at least 15 hours of undergraduate CSD coursework at UCF.
- 3.6 GPA or better in courses in the major.
- A highly competitive GRE score taken within the past 5 years.
- Completion of an application, including three letters of recommendation from faculty in the department, and a letter of intent which indicates reasons for desiring entrance into the accelerated program, personal strengths and how they have been demonstrated, and future goals.
- Students who achieve a "B" or better for all 16 credit hours of graduate course work will be formally admitted into the master's program in Communication Sciences and Disorders following receipt of the bachelor's degree.

or

STA 2023 Statistical Methods I and GEP  
SPA 6805 Research in Communicative Disorders 3 hrs

### 5. Restricted Electives (9 hrs)

- B.A. Option: Students pursuing the B.A. degree must demonstrate proficiency in a foreign language equivalent to one year in college
- B.S. Option: Students pursuing the B.S. degree must complete two upper division health science courses (six credit hours) approved by the Department of Communication Sciences and Disorders.

### 6. Capstone Requirements (3 hrs)

- None

### 7. Foreign Language Requirements

#### Admissions

■ Two years of one foreign language in high school, or one year of one foreign language in college (or equivalent proficiency exam) prior to graduation. American Sign Language (ASL) can be used to fulfill the foreign language admission requirement.

## Accelerated Undergraduate-Graduate Programs

### Graduation

- Students pursuing the B.A. degree must demonstrate proficiency in a foreign language equivalent to one year. ASL I, II, and III can be used to fulfill this requirement.

### 8. Electives

- Select 12 hours of electives. A minor or certificate is encouraged.

### 9. Additional Requirements

- None

### 10. Required Minors

- None

### 11. Departmental Exit Requirements

- A minimum grade of "B" in all graduate courses.
- A minimum overall GPA of 3.0 in the courses used to satisfy the major.
- A passing score on the Communication Sciences and Disorders Undergraduate Competency Examination.

### 12. University Minimum Exit Requirements

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

### Advising Notes

The following will be waived for this joint degree program:

- The limit of nine hours to be shared between undergraduate and graduate programs.
- Undergraduate students taking graduate courses must be within nine hours of graduation.

## Accelerated Undergraduate-Graduate Programs

■ Undergraduate students taking graduate courses must not register for more than a total of twelve hours in that semester.

■ Undergraduate students are not eligible to take 6000-level courses.

### Transfer Notes

■ None

### Acceptable Substitutes for Transfer Courses

■ None

### Shared Courses

■ Up to 12 credit hours of approved 5000 level courses of grades B (3.0) or better may be counted towards the BS and Masters degrees. These 12 credit hours will meet either technical elective or course requirements for the major. Contact the EE/CpE Graduate Coordinator in the Electrical Engineering & Computer Science department for acceptable courses.

## History - Accelerated Undergraduate-Graduate Program (B.A / M.A.)

### College of Arts and Humanities

Department of History, Colbourn Hall, Room: 551

<http://history.cah.ucf.edu/>

Email: Graduate program: [hisgrad@ucf.edu](mailto:hisgrad@ucf.edu)

Email: Undergraduate program: [history@ucf.edu](mailto:history@ucf.edu)

Dr. Amelia Lyons

Phone: 407-823-2224

This program allows highly qualified undergraduate majors in history to begin taking graduate-level courses which will count towards their master's degree while completing their baccalaureate degree program. Participation will enable completion of a B.A. and M.A. in a shorter period of time for students enrolled in full-time course work.

### Admission Requirements

■ Students apply for admission to the accelerated program toward the end of their junior year or after 12 hours of upper-level history course work.

■ One official transcript (in a sealed envelope) from each college/university attended.

■ A 3.5 GPA or higher in history courses

■ Official competitive Graduate Record Exam (GRE) score taken within the last five years.

■ An essay indicating reasons for wishing to complete the combined bachelor's/master's program.

■ Three letters of recommendation from History faculty.

■ Students will be formally admitted to the master's program following receipt of the B.A. degree.

### Degree Requirements

■ Students who change degree programs and select this major must adopt the most current catalog.

■ Students must earn at least a "B" (3.0) in each history course for it to be counted toward the major.

■ Co-op credit cannot be used in this major.

■ Students should consult with the departmental graduate director.

■ Departmental residency requirement consists of at least 18 semester hours of regularly scheduled 3000-4000 level courses taken from the UCF History Department. Students may substitute up to nine hours of 5000- or 6000- level courses to meet this requirement.

■ Students must compile a portfolio of 8-12 examples of graded, written work from UCF History classes.

■ The B.A. will be awarded after completion of 36 hours of history classes.

■ The M.A. will be awarded upon completion of the program.

■ Courses designated in 1 (General Education Program) and 2 (Common Program Prerequisites) are usually completed in the first 60 hours (see history major requirements).

### 1. UCF General Education Program (GEP) (36 hrs)

■ See the History major in this catalog for track specific GEP requirements

### A: Communication Foundations

### B: Cultural & Historical Foundations

### C: Mathematical Foundations

### D: Social Foundations

### 5. Restricted Electives (21 hrs)

■ (Must be taken within the History Department)

Select six hours of approved history courses 18 hrs within three of the four geographic regions:

■ Asian, African, and Middle Eastern

■ British and European

■ Latin American

■ U.S. and Canadian

Select three hours of approved history courses 3 hrs

■ Students may substitute nine hours of 5000- or 6000-level course work for 3000- or 4000-level courses

### 6. Capstone Requirements

HIS 4959 History Portfolio 0 hrs

### 7. Foreign Language Requirements

#### Admissions

■ Met by graduation requirement.

#### Graduation

■ Proficiency equivalent to one year of college instruction in a foreign language taught by the Department of Modern Languages and Literatures or Judaic Studies. Standardized examinations for foreign language may be used to meet the requirement. Majors who are participating in the accelerated program should complete two years of a foreign language, preferably one functional in their area of historical interest. Students may take the department's M.A. foreign language proficiency exam immediately following the completion of their foreign language course work.

### 8. Electives

■ Select primarily from upper level courses after meeting with a departmental advisor. Courses may be outside the department.

### 9. Additional Requirements

#### Graduate Degree Requirements

■ The graduate requirements listed in the Graduate Catalog take precedence over those listed below.

## Accelerated Undergraduate-Graduate Programs

- Students admitted to the accelerated program may take a 5000-level course the first semester of their senior year.
- After successfully completing one 5000-level course, students will be eligible to take HIS 6159 (Historiography) and another 5000-level course or the 6000-level seminar following the 5000-level colloquium they have already completed.

- Students may substitute these nine hours of graduate-level work for 9 hours of 3000- or 4000-level undergraduate courses.

- Students need to pay fees at the graduate rate for the graduate courses they take.

### **Schedule for students enrolled full-time in the accelerated program:**

- Students complete nine hours of graduate-level courses their senior year.
- Students enroll in at least three hours of graduate-level course work the summer after they receive their B.A.
- Students enroll in nine hours of graduate-level courses in both spring and fall semesters during their M.A. year.
- Students complete the Capstone course, pass their preliminary exams, and fulfill their foreign language requirement by the end of their first M.A. year.
- Students complete and defend a master's thesis in six hours.

### **10. Required Minors**

- None

### **11. Departmental Exit Requirements**

- Maintain a minimum GPA of 3.5 in upper division required courses attempted.
- Submit a portfolio (HIS 4959) during the semester of graduation. The portfolio will include representative samples of the student's written work including, but not limited to, book critiques, in-class essay exams, and term papers.
- Students must complete at least 18 of the required 36 history hours at UCF.

### **12. University Minimum Exit Requirements**

- A 2.0 UCF GPA
- 60 semester hours earned after CLEP awarded
- 48 semester hours of upper division credit completed
- 30 of the last 39 hours of course work must be completed in residency at UCF.
- A maximum of 45 hours of extension, correspondence, CLEP, Credit by Exam, and Armed Forces credits permitted.
- Complete the General Education Program, the Gordon Rule, and nine hours of Summer credit.

For individuals who are not Registered Nurses but who hold a baccalaureate or higher degree from a regionally accredited college or university.

Graduates are eligible to take the National Council Licensure Examination for registered nurses (NCLEX-RN). The program is accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Florida State Board of Nursing.

#### Admission Requirements

- Acceptance to the university does not constitute admission to the upper division nursing program
- Separate application to the limited access accelerated second degree Bachelor of Science in nursing (BSN) option must be made directly to the College of Nursing prior to the posted deadline of the year of admission is sought. For application deadlines, please visit <http://www.nursing.ucf.edu/>.

- Admission to the university must also be completed by the program application deadline.

- Students who have never attended the University of Central Florida as degree seeking undergraduate students must apply to the Undergraduate Admissions Office as a second degree-seeking student.

- Students who have attended the University of Central Florida as degree seeking undergraduate students should apply through the Registrar's Office. These students complete the "Readmission Application" form.

- Students must receive a baccalaureate or higher degree from a regionally accredited college or university prior to the start of the program.

- All applicants must have a minimum overall GPA of 3.0

- Applicants are encouraged to attend an information session, prior to submitting the application.

- Criminal background checks including fingerprints are required for all applicants to the undergraduate nursing program. The results are reviewed as part of the admission process and may be grounds for denying a student admission to the College of Nursing.

- A standardized test and predetermined cutoff score will be required for acceptance to the College of Nursing. Information regarding this test can be found at <http://www.nursing.ucf.edu>.

- At least seven (7) of the eight (8) common program prerequisites must be completed by the program application deadline with at least a grade of "C" (2.0) or higher in each course.

- All 8 prerequisite courses must be completed before program begins.

#### Degree Requirements

- Students who change degree programs and select this major must adopt the most current catalog year, including any minors.

- Students should consult with an advisor in the College of Nursing Undergraduate Student Services Office for clarification of questions regarding prerequisite requirements.

- A minimum overall GPA of 2.5 and a minimum 2.5 GPA in the nursing major are required for continuation and graduation from the nursing program.

- UCF Residency requirement: 30 hours (if applicable)

Phone: 407-823-1670

Students seeking admission to either Barry University Dwayne O. Andreas School of Law in Orlando, Florida, or Touro College Jacob D. Fuchsberg Law Center in Central Islip, New York, through the accelerated legal studies program will meet all admissions requirements for the above referenced law school(s) and obtain a B.A./B.S. in Legal Studies after completion of the first year of the law school curriculum and all UCF requirements.

### Admission Requirements

- Students should apply for selection into this program no later than the end of the first semester of their junior year. Early student applications will also be accepted. Eligibility requirements include being a declared Legal Studies major, SAT score of 1175, high school GPA of 3.6, successful completion of a minimum of 15 credit hours of UCF course work with a 3.2 UCF GPA, completion of at least 33 credit hours of the required coursework in sections 4 and 5 below in residence at UCF, a personal statement essay, two letters of recommendation and a personal interview. More information about the admission and selection process (as well as deadlines for the application process) may be found at <http://www.cohpa.ucf.edu/legalstudies/index.shtml>.

### Degree Requirements

- Students selected by UCF faculty members for participation in the Accelerated Law Program must complete all UCF General Education Program requirements, all requirements for the major (B.A. or B.S.) in Legal Studies, and at least 90 total credit hours towards the baccalaureate degree.

## Accelerated Undergraduate-Graduate Programs

■ Participants must maintain a minimum 3.2 overall GPA and cumulative 3.5 GPA in all UCF legal studies coursework. Failure to achieve minimum GPA requirements in any one semester may disqualify a student from further participation in the 3+3 Accelerated Law program.

■ Participating students may elect to complete their UCF bachelor's degree in residence at UCF under the following circumstances: students not accepted by Barry or Touro Law may complete their remaining requirements for graduation from UCF with a bachelor's degree; students who decide to opt out of the 3+3 Accelerated Law Program may elect to fulfill their remaining requirements for graduation from UCF with a bachelor's degree; and students who do not successfully complete their first year of course work at law school may elect to return to UCF to fulfill their remaining requirements for graduation from UCF with a bachelor's degree. Students decelerating to UCF decelerate back into the Legal Studies B.A./B.S. degree program. Students decelerating to UCF are bound by the UCF catalog requirements applicable to the year the student first entered UCF. For students passing some, but not all, of their required first year classes at Barry or Touro, classes successfully completed with a grade of "C" (2.0) or better will transfer back to UCF towards the successful completion of the student's electives needed for graduation.

■ Only courses with grades of "C" (2.0) or better can be transferred to UCF's legal studies' program of study.

■ Students are required to consult with a departmental advisor each semester at UCF to ensure that student is wholly advised as to all specific program requirements. Failure to meet with a departmental advisor each semester constitutes grounds for dismissal from the Accelerated Law Program.

# ARTICULATED A.S. PROGRAMS

The University offers four specialized degree programs for students who have graduated from a Florida College System institution with an A.S. in the following programs: Applied Science, Criminal Justice Technology, Hospitality Management, and Nursing.

Students who wish to transfer to UCF under the provisions of the articulated A.S. programs must meet specific criteria:

1. Students must graduate with the specific program and new A.S. in Fall 2000 or later, (Fall 2003 or later for Criminal Justice) from a Florida public community or state college.
2. Students who have graduated with an A.S. prior to Fall 2000 are not eligible to participate in these programs. The pre-2000 Florida College System institution A.S. programs have slightly different requirements. Students who do not have the new A.S. should complete their general education at the community or state college and then transfer into the appropriate non-A.S. to B.S. program at UCF.
3. Students should select the appropriate major on the on-line application, designating their desire to participate in the articulation agreement.
4. Students earning an Associate in Science have the option of completing the state approved general education program at a Florida community or state college or state university and must request an official transcript with "general education requirements met" on the transcript to be sent to the UCF Registrar prior to their graduating term from the University of Central Florida. The associate in science degree must include a minimum of 15 college credits of general education coursework. Students who chose to complete their general education program at UCF must meet all of UCF's current course requirements. Students may not be transient

in their last 30 of 39 hours at UCF. Students must also meet the State General Education Core requirements.

5. Students with an Associate in Applied Science (A.A.S.) degree are not eligible for participation in these programs unless they also have the appropriate A.S. degree.

**Applicants who qualify for this program are not guaranteed admission to the limited access program in Nursing or programs that require specific grades in particular courses for admission.**

Students should consult with their community or state college advisor when pursuing one of these programs to make sure they have met all of the appropriate requirements for the degree, including the necessary General Education courses and common program prerequisites. Students are still required to complete all of the components of the Gordon Rule prior to graduation from UCF. Students may be required to complete all common program prerequisites for these majors prior to enrollment in upper division course work. To earn a bachelor's degree, students must complete 36 hours of General Education Program.

Students admitted into these programs must meet the requirements as stated in the programs listed below. Students who change majors out of these programs must adopt the requirements of the most current catalog for the selected major, including the required UCF General Education Program.

Questions concerning the requirements of these majors should be referred to the appropriate academic department, Regional Campuses Associate Director (407-823-2609), or the College of Undergraduate Studies (407-823-2373).

The Bachelor of Applied Science, available at selected sites, provides baccalaureate educational opportunities with a curriculum designed to develop competencies in organizational skills, management, and communication. Emphasis will also be placed on the development of skills in critical thinking, problem solving, and ethical decision-making. Candidates for this program must have earned a statewide articulated A.S. from a Florida College System institution in Fall 2000 or later. Students are allowed to take lower level, general education classes at the campus in Orlando if necessary. Students have the option of completing the state approved general education program at a Florida College System institution or State University and must request an official transcript with "general education requirements met" on the transcript and sent to the UCF Registrar prior to the student's graduating term from the University of Central Florida. Students who choose to complete their general education program at UCF must meet all of UCF's current course requirements. Students may not be transient in their last 30 of 39 hours at UCF. If students wish to take an upper division course at the main Orlando campus, they should see a Regional Campus academic advisor. This will be allowed only on a very limited basis and under highly extenuating circumstances. If you have any questions regarding this policy or procedure, please contact Regional Campuses Advising at 407-823-4547. This degree program may be completed online, although not all elective options or program prerequisites may be offered online. Newly admitted students choosing to complete this program exclusively via UCF online classes may enroll with a reduction in campus-based fees. See <http://ucf.edu/online> for more information.

### Admission Requirements

- Completion of an A.S. degree from a Florida College System institution in Fall 2000 or later including at least 15 hours of transferable general education courses. Other applicants will be given individual review.

### Degree Requirements

- Students must earn a "C" (2.0) or better in each course used to satisfy the BAS requirements in the core, track, and elective sections (sections 3, 5, and 8 below)
- Students must earn 42 semester hours of upper level credit.
- Students who change degree programs and select this major must adopt the most current catalog.
- Students should maintain contact with an academic advisor to guarantee timely completion of all requirements including Gordon Rule, Foreign Language Admission, and General Education.

■ Subject to the general grade and residence requirements, credit will be granted for transferred course work equivalent to that required in the UCF Rosen College of Hospitality Management.

■ A minimum of 30 semester hours must be completed at UCF within the Hospitality major.

■ Orientation and advising are two of the most valuable tools that a student can make use of when transferring to UCF. Students should take advantage of both.

## Nursing - A.S. to B.S.N. Track (B.S.N.)

### College of Nursing

UTWR, Room: 3rd floor

<http://www.nursing.ucf.edu>

Email: [ucfnurse@ucf.edu](mailto:ucfnurse@ucf.edu)

Dr. Mary Lou Sole, Dean

Dr. Maureen Covelli, Associate Dean

Dr. Stephen Heglund, RN-BSN Coordinator

Phone: 407-823-2744

BSN completion program only for individuals who have a statewide articulated A.S. in Nursing from a Florida public community or state college. (12/2000 or later)

### Admission Requirements

■ Acceptance to the university does not constitute admission to the upper division nursing program. Separate application to the limited access program must be made directly to the College of Nursing by the posted deadline.

For application deadlines, please visit

<http://www.nursing.ucf.edu>.

■ Admission to the University must be completed by the program application deadline.

■ All applicants must have a minimum overall undergraduate GPA of 2.8

■ All applicants must have completed a Statewide Articulated AS in Nursing from a Florida College System institution (graduation 12/00 or later). Individuals who received an AS in Nursing prior to 12/00 or attended nursing school other than a Florida College System or State University System institution should review the Nursing - RN to BSN Program.

■ All applicants must have current Licensure as an RN.

■ All applicants must have completed the UCF General Education Program (GEP) requirements or completed an AA

degree from a Florida College System or State University System institution or have no more than a total of 9 credit hours remaining to meet UCF General Education and/or Foreign Language graduation requirements.

■ At least seven (7) of the eight (8) Common Program Prerequisites must be completed by the program application deadline with at least a grade of "C" (2.0) or better in each course.

■ All 8 prerequisite courses must be completed before program begins.

### Degree Requirements

■ Students who change degree programs and select this major must adopt the most current catalog year, including minors.

■ Students should consult with an advisor in the College of Nursing Undergraduate Student Services Office for questions regarding completion of General Education Program requirements and Common Program Prerequisite requirements.

■ The courses designated in sections 1 and 2 below may be taken at a Florida College System or State University System institution.

■ A minimum overall undergraduate GPA of 2.5 and a minimum 2.5 GPA in the nursing major are required for continuation in and graduation from the nursing program

■ UCF Residency Requirement: 30 hours

■ The courses designated in sections 1) UCF General Education Program (GEP) and 7) Foreign Language Requirements must be completed prior to enrolling in the third semester in the BSN program. Students may have no more than 9 hours of outstanding coursework in these two areas at the time of admission.

# COMMON COURSE NUMBERING SYSTEM

## Classification of Courses

The University course numbering system is as follows:

**0-0999. Sub-collegiate level** and not counted in meeting degree requirements.

**1000-2999. Freshman- and sophomore-level courses** and are designed primarily for these students.

**3000-4999. Junior- and senior-level courses** (Upper-division). These courses contain advanced undergraduate level material and are designed primarily for undergraduate juniors and senior.

**5000-5999. Beginning graduate and advanced undergraduate level courses.** These courses provide more advanced material than that found in undergraduate courses. They are designed primarily for beginning graduate students, but may be suitable for some advanced undergraduate seniors. They are open for registration to all graduate students and those seniors who receive approval of the appropriate Dean(s).

**6000-6999. Advanced graduate level courses.** These courses are designed to build upon the beginning graduate level courses and to deliver more advanced content and experiences. They are open only to graduate students. (Seniors, within nine hours of graduation that have a minimum 3.0 GPA and do not register for more than twelve hours may request college permission to take a 6000-level class.) Students in 3+2 programs (combined bachelor's and master's programs) should check with their adviser before registering for 6000-level courses.

**7000-7999. Doctoral-level courses.** These courses provide material at the most advanced graduate level. They are restricted to admitted doctoral students only.

**8000-8999. Medical School courses.** These courses provide material for the Medical School curriculum. They are restricted to students in the Medical School.

## Florida's Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 25 participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at <http://scns.fldoe.org>.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "statewide course profiles."

## General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in *Exceptions to the General Rule for Equivalency*.

For example, a freshman composition skills course is offered by 84 different public and non-public postsecondary institutions. Each institution uses "ENC\_101" to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, "ENC" means "English Composition," the century digit "1" represents "Freshman Composition," the decade digit "0" represents "Freshman Composition Skills," and the unit digit "1" represents "Freshman Composition Skills I."

In the sciences and certain other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a Florida College System institution. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the Florida College System institution is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent. **NOTE:** Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

## The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

## Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:

Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

## Example of Course Identifier

| Prefix              | Level Code<br>(first digit)                | Century Digit<br>(second digit) | Decade Digit<br>(third digit) | Unit Digit<br>(fourth digit)  | Lab Code                               |

## Common Course Numbering System

### Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- A. Courses not offered by the receiving institution.
- B. For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question.
- C. Courses in the 900-999 series are not automatically transferable and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses and Dissertations.
- D. Applied academics for adult education courses.
- E. Graduate courses.
- F. Internships, apprenticeships, practica, clinical experiences and study abroad courses with numbers other than those ranging from 900-999.
- G. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

### Courses at Nonregionally Accredited Institutions

The SCNS makes available on its home page (<http://scns.fl DOE.org>) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Associate Dean, Undergraduate Studies, Millican Hall 210, University of Central Florida, 4365 Andromeda Loop North, Orlando, FL 32816, 407-823-2691 or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at 850-245-0427 or at <http://scns.fl DOE.org>.

## Common Course Numbering System

### Courses Numbered 0-999

Depending upon previous background and test scores earned, individual students may be required to complete more than the minimum number of credits required for graduation in their respective programs. Courses numbered less than 1000 (Statewide Common Course Numbers) are sub-collegiate level and may not be counted in meeting degree credit hour requirements for graduation.

### Special Courses

In addition to the regular courses listed in this catalog, special courses may be available. Students should consult their academic advisor for details.

| Special Course                         | Undergraduate           | Graduate <sup>1</sup> |
|--|-------------------------|-----------------------|

\*These courses may be assigned variable credit. Some may be repeated upon approval.

<sup>1</sup>The Special Graduate Courses are primarily for graduate students, but may be taken by advanced seniors with the consent of their deans.

<sup>2</sup>Enrollment is limited to those students who are fully admitted to the Graduate Program.

<sup>3</sup>Enrollment is limited to those students who are admitted into the Co-op program.

### Dual Usage of Credit Hours

With the exception of 3 + 2 programs, courses used to meet the requirements of an undergraduate degree cannot typically also be used to meet the requirements of a graduate program. Students should contact their advisor or college for specific program requirements or additional information.

### UCF Course Description Legend

**PR: (Prerequisite)** A course in which credit must be earned prior to enrollment in the listed course.

**CR: (Corequisite)** A course that must be taken concurrently with, or prior to, the listed course.

**CI: (Consent of the Instructor)**

#### Hours Code

Each course listed is followed by a code that shows hours of credit and contact hours.

Example:

**ART 2500C CAH-SVAD 3(2,4)**

ART 2500C is offered by the College of Arts and Humanities (CAH), in the School of Visual Arts & Design (SVAD), and carries 3 hours of credit but requires 6 contact hours, which consists of 2 hours in class and 4 hours laboratory or field work.

### College/School/Department Indicator

Following the course number for each course listed is an indicator denoting the college, school, and department responsible for the course. The college designators are BA = Business Administration, BHC = Burnett Honors College, CAH = Arts & Humanities, COM = Medicine, CON = Nursing, COS = Sciences, ECS = Engineering and Computer Science, ED = Education, HPA = Health and Public Affairs, OPT = Optics, RCHM = Rosen College of Hospitality Management, and UGST = Undergraduate Studies/Interdisciplinary Studies. Department indicators are listed below (by college):

**Practicum in Athletic Training III:** PR: ATR 3822L. Advanced clinical internship with increased responsibilities under the supervision of a certified athletic trainer. *Fall/Spring.*

**ATR 4842L HPA-HP 4(0,16)**  
**Practicum in Athletic Training IV:** PR: PET 4672C. Advanced clinical internship with increased responsibilities under the supervision of a certified athletic trainer. *Fall/Spring.*

**ATR 4933 HPA-HP 1(1,0)**  
**Athletic Training Seminar:** PR: ATR 4832L and Senior standing. Capstone course reviewing competencies, proficiencies, ethics and professional development for the entry-level athletic trainer. *Spring.*

**ATR 4940 HPA-HP 0-4(0,1-15)**  
**Athletic Training Elective Internship:** PR: ATR 3822L. Students will develop their knowledge, skills, and attitudes by providing direct care of athletic injuries; understand the medical delivery system in a variety of settings; and understand the legal and ethical aspects of practicing athletic training. *Occasional.*

**ATR 5106C HPA-HP 2(1,1)**  
**Prevention of Injury and Illness in Athletic Training Practice:** PR: Admission to MAT degree program Physiological, psychological, and sociological aspects of health and wellness and the prevention of injury and illness; includes physical fitness, nutrition/hydration, flexibility and prophylactic taping/bracing. *Occasional.*

## UCF Courses and Descriptions

**ATR 5206C HPA-HP 3(2,1)**  
**Functional Human Anatomy for Athletic Trainers:** PR: Admission to MAT degree program  
 Anatomical knowledge and clinical skills essential to the practice of athletic training; including knowledge of functional anatomy, manual muscle testing, goniometry, posture and gait analysis. *Occasional.*

**BCH 4024 COM-BSBS 4(4,0)**  
**Medical Biochemistry:** PR: CHM 2210 and CHM 2211. Structure/function of proteins and nucleic acids fundamental to biomedical science, biochemical concepts important in medicine, enzymology and kinetics, bioenergetics and metabolic processes and disorders. *Spring.*

**BCH 4053 COS-CHEM 3(3,0)**  
**Biochemistry I:** PR: CHM 2211. A consideration of proteins, carbohydrates, nucleic acids, enzymes and their effect on biochemical systems, and inter-relationship of intermediary metabolism. *Fall, Spring.*

**BCH 4053H COS-CHEM 3(3,0)**  
**Honors Biochemistry I:** PR: CHM 2211 and consent of Honors. Proteins, carbohydrates, nucleic acids, enzymes and their effect on biochemical systems, and inter-relationship of intermediary metabolism. With Honors content. *Occasional.*

**BCH 4054 COS-CHEM 3(3,0)**  
**Biochemistry II:** PR: BCH 4053. Continuation of BCH 4053. *Spring.*

**BCH 4103L COS-CHEM 2(0,6)**  
**Biochemical Methods:** PR: BCH 4053. A laboratory course stressing the application of the chemical arts to the separation, identification, and quantification of materials of biological significance. *Spring.* M&S fee \$70.00

**BME 3211 ECS-MECH/AERO 3(3,0)**  
**Engineering Biomechanics:** PR: EGN 3310 and (EGN 3321 or EML 3217) and EGM 3601. Knowledge of engineering approaches and tools that are used in the different aspects of biomechanics. *Odd Fall.*

**BME 5140 ECS-MECH/AERO 3(3,0)**  
**Materials Science of Instrumentation for Clinical Applications:** PR: General graduate standing in Engineering, Biomedical Science, Biotechnology, Chemistry or related disciplines or C.I. Study of engineering and materials concepts behind the clinical diagnostics currently used and under development, as well as technologies utilized in fabrication and characterization of these devices. *Odd Fall.*

**BME 5216C ECS-MECH/AERO 3(2,3)**  
**Mechanics of Biostructures I:** PR: Graduate standing or C.I. Part I of a two semester course. Mechanical analysis of hard and soft tissues and prosection lab on human anatomy and physiology. *Fall.*

**BME 5217C ECS-MECH/AERO 3(2,2)**  
**Mechanics of Biostructures II:** PR: BME 5587C or C.I. Part II of a two semester course. Cell physiology and engineering principles applied to analysis of cellular processes and prosection anatomy lab on human anatomy and physiology. *Spring.*

**BME 5267 ECS-MECH/AERO 3(3,0)**  
**Biofluid Mechanics:** PR: EML 3701 and EGM 3601 or C.I. This course will cover the physical and mathematical principals of fluid mechanics and its application and relevance to human physiology and pathology. *Fall.*

**BME 5268C ECS-MECH/AERO 3(2,2)**  
**Applied and Computational Biofluids:** PR: EML 3701 and EGM 3601 or C.I. Principles and foundations of applied fluid mechanics and computational methods to the human circulation. *Spring.*

**BME 5572 ECS-ECE 3(3,0)**  
**Biomedical Nanotechnology:** PR: EEL 3123C with a "C" (2.0) or better grade. Human Physiology, Bioelectric Phenomena and Neurons, Nanoelectronics for fabrication of biochips for human biomedical applications, self-assembly, bioelectronics, moral and ethical issues. *Spring.*

**BOT 3018C COS-BIOL 3(1,2)**  
**Culinary Botany Across the Cultures:** PR: BOT 3802, Junior standing, or C.I. Cultural food traditions and the connections between plants, people and health; examines the preparation methods that enhance the nutritional values. *Occasional.* M&S fee \$10.00

**BOT 3802 COS-BIOL 3(3,0)**  
**Ethnobotany:** PR: A "C" (2.0) or better in both BSC 2010C and BSC 2011C, or C.I. Historical and modern uses of plants economically important in various cultures. *Spring.*

**BOT 4223C COS-BIOL 4(3,3)**  
**Plant Anatomy:** PR: BOT 3802, or C.I. A study of development, structure and function of the principal organs and tissue of vascular plants. *Occasional.*

**BOT 4303C COS-BIOL 5(3,6)**  
**Plant Kingdom:** PR: BOT 3802, or C.I. A survey of the plant kingdom utilizing comparative morphology, structure and functions to demonstrate relationships among extant and extinct forms. *Occasional.* M&S fee \$40.00

**BOT 4434C COM-BSBS 4(3,1)**  
**General Mycology:** PR: BSC 2010C, MCB 3020C or BSC 2011C. This course is a survey of the Kingdom Fungi, covering the major topics of fungal diversity, structure, genetics, physiology, practical applications and pathogenicity. *Occasional.* M&S fee \$42.00

**BOT 4503 COS-BIOL 3(3,0)**  
**Plant Physiology:** PR: A "C" (2.0) or better in PCB 3023 or C.I. A Study of mechanisms used by plants to cope with the environment. *Occasional.*

**BOT 4713C COS-BIOL 5(3,6)**  
**Plant Taxonomy:** PR: BOT 3802, or C.I. Systematic classification and identification of vascular plants, with emphasis on the flora of peninsular Florida. *Occasional.* M&S fee \$45.00

**BOT 4850 COS-BIOL 3(3,0)**  
**Medicinal Botany:** PR: PCB 3522 or a "C" (2.0) or better in PCB 3023, or C.I. The medicinal properties of plants and their role in both traditional and modern medicine; history of herbal medicine and alternative medicinal practices around the world. *Even Fall.*

**BSC 1005 COS-BIOL 3(3,0)**  
**Biological Principles:** A study of various biological factors which affect the health and survival of man in modern society. Designed for non-majors. *Fall, Spring.*

**BSC 1005L COS-BIOL 1(0,2)**  
**Biological Principles Laboratory:** CR: BSC 1005. The laboratory to accompany BSC 1005. *Fall, Spring.*

**BSC 2010C COS-BIOL 4(3,2)**  
**Biology I:** PR: High school biology or C.I. Open only to students whose major requires this specific course. Cellular and chemical basis of life, genetics, and the theory of evolution. Emphasis on problem solving, analysis, synthesis of information, and applying data effectively. *Fall, Spring.* M&S fee \$2.00

**BSC 2010C COS-BIOL 4(3,3)**  
**Honors General Biology:** PR: Permission of Honors. Priority given to students whose major requires this course. Basic principles and unifying concepts of modern biology. Introduction to quantitative experimentation using intensive, open-ended labs. *Fall, Spring.* M&S fee \$24.00

**BSC 2011C COS-BIOL 4(3,3)**  
**Biology II:** PR: A "C" (2.0) or better in BSC 2010C or C.I. Preference will be given to students whose program requires this course. Continuation of BSC 2010C. Organismal anatomy and physiology as it relates to biodiversity, ecology and evolution. Emphasis on problem solving, analysis, synthesis of information, and applying data effectively. *Fall, Spring.* M&S fee \$2.00

**BSC 3052 COS-BIOL 3(3,0)**  
**Conservation Biology:** PR: or CR: A minimum grade of "C" (2.0) in PCB 3044 or C.I. Science, history and principles of conservation biology. *Occasional.*

**BSC 3312 COS-BIOL 3(3,0)**  
**Principles of Marine Biology:** PR: A minimum grade of "C" (2.0) in both BSC 2010C and BSC 2011C. Provides students with a foundation in the field of marine biology using a global perspective. *Even Fall.*

**BSC 3402C COS-BIOL 4(1,3)**  
**Integrative Biology:** PR: BSC 2010C and BSC 2011C each with a "C" (2.0) or better, and C.I. A field-based course gathering information on natural history of various organisms in Florida, with special emphasis on scientific methods. *Occasional.*

**BSC 3403C COM-BSBS 4(3,4)**  
**Honors Quantitative Biological Methods:** PR: Consent of Honors, BSC 2010C, MCB 3020C, CHM 2046. A laboratory course which presents the concepts, modern methods, techniques and instrumentation used in quantitative biological and molecular biological experimentation. Honors level content. *Fall.*

**BSC 3403C COM-BSBS 4(3,4)**  
**Quantitative Biological Methods:** PR: BSC 2010C, MCB 3020C, CHM 2046. A laboratory course which presents modern methods and instrumentation used in quantitative biological experimentation. *Fall, Spring.* M&S fee \$59.00

**BSC 3424 COM-BSBS 3(3,0)**  
**Nanobiotechnology:** PR: MCB 1310, and either CHM 2046 or PHY 2054C. Biological processes in nano scale interactions with elements of physics & engineering. *Occasional.*

**BSC 3843L COS-BIOL 2(0,2)**  
**Strategies for Biology Academic Mentoring:** PR: Junior or senior standing. Review research findings, theory, models and techniques of academic counseling and career advising. Graded S/U. May be used in the degree program a maximum of 2 times. *Occasional.*

**BSC 4312C COS-BIOL 4(3,3)**  
**Advanced Marine Biology:** PR: BSC 3312 and a "C" (2.0) or better in PCB 3044. An advanced treatment of current issues in marine biology, emphasizing biodiversity and marine conservation through research, service-learning and field experiences. *Even Spring.* M&S fee \$45.00

**BSC 4330 COS-BIOL 3(3,0)**  
**Invasion Biology:** PR: A "C" (2.0) or better in PCB 3044, or C.I. General principles of invasion ecology. The study of addition of species into ecosystems as it provides insights into basic ecological and evolutionary questions. *Even Spring.*

**BSC 4422L COS-BIOL 1-4(0,3-12)**  
**Biology Laboratory Techniques:** PR: CHM 2210 and a "C" (2.0) or better in PCB 3044, or C.I. Individual and small group instruction in current laboratory techniques beyond the scope of typical Biology laboratories. Graded S/U. May be repeated for credit. *Occasional.*

**BSC 4434 COM-BSBS 3(3,0)**  
**Biomedical Informatics: Sequence Analysis:** PR: PCB 3522 or PCB 3023 or C.I. Introduction of useful bioinformatics tools and resources on sequence analysis. *Fall.*

**BSC 4439 COM-BSBS 3(3,0)**  
**Biomedical Informatics: Structure Analysis:** PR: PCB 3522 or PCB 3023 or C.I. Introduction of useful bioinformatics tools and resources on RNA and protein structure analysis. *Spring.*

**BSC 4445C COS-BIOL 4(1,3)**  
**Genomics Lab: Methods in Data Collection and Analysis:** PR: A grade of a "B" (3.0) or better in PCB 3063 and completion of EHS Lab Safety Training online course and practical by end of add/drop, or instructor consent. Hands-on approach to understanding how genomic datasets are generated in the lab, and how they are analyzed computationally using bioinformatics pipelines. *Fall.*

**BSC 4821 COS-BIOL 4(4,0)**  
**Biogeography:** PR: A "C" (2.0) or better in both PCB 3044 and PCB 4683, or C.I. Study of geographic variation in nature, ranging from past to present and genes to ecosystems. *Occasional.*

## UCF Courses and Descriptions

**BSC 4861L COS-BIOL 3(0,3)**  
**Urban Ecological Field Studies:** PR: A "C" (2.0) or better in BSC 2010C or C.I. A service-learning course utilizing an interdisciplinary approach to developing models and implementing programs designed to result in environmental sustainability. *Even Fall.*

**BSC 4937 COS-BIOL 2(0,2)**  
**Instructional Experiences in Undergraduate Biology:** PR: PCB 3063, Biology major with 80 semester hours and 3.0 gpa. Preparation of undergraduate students to more effectively learn biological concepts by facilitating learning in variety of university biology labs. Graded S/U. May be repeated for credit. *Fall, Spring.*

**BSC 5258L COS-BIOL 3(0,3)**  
**Tropical Biology Research and Conservation:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I. Research and conservation in New World tropics, including a field trip to Belize. Tropical biodiversity and forest ecology, integrating conservation strategies in research and communication. *Occasional.*

**BSC 5316 COS-BIOL 3(3,0)**  
**Marine Conservation Biology:** PR: BSC 4312C Marine Biology, graduate standing, or C.I. Examine human impacts in marine ecosystems and how humans can become better stewards of these habitats. *Odd Spring.*

**BSC 5332 COS-BIOL 3(3,0)**  
**Invasion Biology:** PR: PCB 3044 or C.I. The three stages of biological invasion (introduction, establishment and spread) as well as impacts on native species and ecosystems. *Even Spring.*

**BSC 5408L COS-BIOL 3(0,9)**  
**Advanced Biology Laboratory Techniques:** PR: BS degree, C.I. This course will emphasize those biological techniques and resources necessary for students about to begin thesis research. Individual and small group instruction in current laboratory techniques, literature searches, and hands-on practice of techniques will be stressed. May not be repeated for credit. *Occasional.*

**BSC 5418 COM-BSBS 3(3,0)**  
**Tissue Engineering:** PR: Graduate standing. Introduction to Tissue Engineering with a special emphasis on the current status of the field, on novel methods and on cell biomaterial interactions. *Occasional.*

**BSC 5436 COM-BSBS 3(3,0)**  
**Biomedical Informatics : Structure Analysis:** PR: PCB 3522 or equivalent or C.I. Introduction of bioinformatics tools and resources on RNA and protein structure analysis. *Fall.*

**BSC 5618 COS-BIOL 3(3,0)**  
**Phylogenetic Approaches in Biological Research:** PR: Admission to Biology Department graduate program or C.I. A multidisciplinary approach to understanding evolutionary relationships among organisms using phylogenetic information to address important questions in biology. *Even Fall.*

**BSC 5665 COM-BSBS 3(3,0)**  
**Clinical Embryology and Congenital Malformations:** PR: ZOO 3733C or equivalent Functional human embryology in a clinically oriented way to study the human development and congenital malformations as a result of genetic, environmental and toxic conditions. *Spring.*

**BSC 5824 COS-BIOL 4(4,0)**  
**Biogeography:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate In Conservation Biology, PSM in Conservation Biology, or C.I. Study of geographic variation in nature, ranging from past to present and from genes to ecosystems. *Even Spring.*

**BTE 4410 ED-CFCS 3(3,0)**  
**Course Construction in Business Education:** PR: ECT 3365 or C.I. An overview and examination of business curriculum and methodology integrated into the workforce frameworks. Planning and preparation of materials, managing the laboratory and involvement in career & technical student organizations. *Occasional.*

**BUL 3130 BA-ACCT 3(3,0)**  
**Legal and Ethical Environment of Business:** PR: Completion of each course in the Business common program prerequisites with a "C" (2.0) or better. Analysis of the law as a dynamic social and political institution in the business environment, including contract law, torts, and ethical consideration. *Fall, Spring.*

**BUL 3130H BA-ACCT 3(3,0)**  
**Honors Legal & Ethical Environment of Business:** PR: Junior standing and business major or minor, permission of Honors. Analysis of the law as a dynamic social and political institution in the business environment, including ethical considerations with honors level content. *Occasional.*

**BUL 4540 BA-MAN 3(3,0)**  
**Employment Law:** PR: Management major or minor, MAN 3025 and MAN 3301. An examination of current employment law and issues/trends in the legal environment impacting human resource management system design, HRM policy and employee relations. *Fall.*

**BUL 5332 BA-ACCT 3(3,0)**  
**Advanced Business Law Topics:** PR: Admission to graduate program, or Management major or minor in term of graduation, BUL 3130. Advanced business law topics including coverage of the Uniform Commercial Code, torts, commercial paper, and secured transactions. *Fall, Spring.*

**CAP 3104 ECS-CS 3(3,0)**  
**Foundations of HCI:** PR: CGS 2545C each with a grade of "C" (2.0) or better. Students will learn the foundational concepts of Human-Computer Interaction (HCI), including human-centered design principles, interaction modalities, design guidelines and heuristics, and interface evaluation techniques. *Fall, Spring.*

**CAP 4053 ECS-CS 3(3,0)**  
**AI for Game Programming:** PR: COP 3502C with a grade of "C" (2.0) or better or C.I. Surveys cutting-edge AI techniques for video games and board games and contrasts them with more traditional approaches. *Spring.*

**CAP 4102 ECS-EECS 3(3,0)**  
**Web and User Experience (UX):** PR: COP 3502C with a grade of "C" (2.0) or better. To meet a real world customer's needs, student teams will learn and apply user-centered principles to elicit requirements, prototype, and build a complete web-based solution. *Even Fall.*

**CAP 4145 ECS-CS 3(3,0)**  
**Introduction to Malware Analysis:** PR: CIS 3360, (CGS 3269 or CDA 3103C), (CGS 3763 or COP 4600), or C.I. Introduction to using reverse engineering techniques to find and analyze the behavior of programs in binary form; assembly language, reverse engineering tools, and virtual machines. *Spring.*

**CAP 4314 ECS-CS 3(3,0)**  
**Social Network Analysis:** PR: CNT 3004 and COP 3330. Introduce the concept of social network. Network structure and measures. Network visualization. Tie strength and propagation in networks. Methods for social network analysis(SNA). Public sector applications of SNA. Business applications of SNA. *Fall.*

**CAP 4453 ECS-CS 3(3,0)**  
**Robot Vision:** PR: COP 3503C and MAC 2312 each with a grade of "C" (2.0) or better or C.I. Perspective and orthographic projections; the processing of edges, regions, motion, shading, texture, object detection, recognition, and machine learning. *Fall, Spring.*

**CAP 4630 ECS-CS 3(3,0)**  
**Artificial Intelligence:** PR: COP 3503C with a grade of "C" (2.0) or better and COT 3960. Current methods in AI: knowledge-based systems, representation, inference, planning, natural language. Programming in Lisp or Prolog required. *Fall.*

**CAP 4720 ECS-CS 3(3,0)**  
**Computer Graphics:** PR: COP 3503C and MAC 1114C each with a grade of "C" (2.0) or better, and COT 3960. Math for computer graphics, visibility and shading, graphics and data structure, curves and surfaces, commodity graphics hardware, and graphics API. *Occasional.*

**CAP 5055 ECS-CS 3(3,0)**  
**AI for Game Programming:** PR: CS Foundation Exam or EEL 4851C or C.I. Surveys cutting-edge AI techniques for video games and board games and contrasts them with more traditional approaches. *Spring.*

**CAP 5100 ECS-CS 3(3,0)**  
**Human-Computer Interface Design:** PR: COP 4331C, graduate standing and/or approval of the Director of the Software Engineering Certificate Program. Focuses on dynamics of human-computer interaction. Provides a comprehensive overview of HCI design as a software discipline. Features a user-centered approach to Web-based application design. *Fall.*

**CAP 5415 ECS-CS 3(3,0)**  
**Computer Vision:** PR: COP 3503C, MAC 2312 and COT 3960. Image formation, binary vision, region growing and edge detection, shape representation, dynamic scene analysis, texture, stereo and range images, and knowledge representation. *Fall.*

**CAP 5510 ECS-CS 3(3,0)**  
**Bioinformatics:** PR: Background in programming language or molecular biology. This course introduces problems, concepts, algorithms, and applications in Bioinformatics. It covers essential topics such as sequence alignment and prediction of gene and protein structure. *Occasional.*

**CAP 5512 ECS-CS 3(3,0)**  
**Evolutionary Computation:** PR: CAP 4630 or COP 3503C or C.I. This course covers the field of evolutionary computation, focusing on the theory and application of genetic algorithms. *Spring.*

**CAP 5610 ECS-CS 3(3,0)**  
**Machine Learning:** PR: CAP 4630 or C.I. Origin/evaluation of machine intelligence; machine learning concepts and their applications in problem solving, planning and "expert systems" symbolic role of human and computers. *Occasional.*

**CAP 5636 ECS-CS 3(3,0)**  
**Advanced Artificial Intelligence:** PR: CAP 4630. AI theory of knowledge representation, "expert systems", memory organization, problem solving, learning, planning, vision, and natural language. *Fall.*

**CAP 5725 ECS-CS 3(3,0)**  
**Computer Graphics I:** Architecture of graphics processors; display hardware; principles of programming and display software; problems and applications of graphic systems. *Spring.*

**CAP 5738 ECS-EECS 3(3,0)**  
**Visualization Techniques for Data Analysis:** PR: COP 3330, COP 3502C. Techniques for visualization that are useful for analyzing and presenting quantitative information are covered. Projects analyze one or more real-world publicly-available datasets. Understanding the data, visualizing it, creating hypotheses, and visually exploring them. Application of statistical techniques to test hypotheses about data trends and visualize how well their hypotheses match with their analysis. *Fall, Spring.*

**CAP 5937 ECS-EECS 3(3,0)**  
**Medical Image Computing:** PR: MAC 2312 and (COP 4020 or COT 4210) and (MAS 3105 or MAS 3106) The course is designed to provide the students with the foundation necessary for understanding, visualizing, and quantifying medical images. This course covers the most important imaging modalities in radiology: radiography, x-ray computed tomography, nuclear medicine, ultrasound imaging, and magnetic resonance imaging. *Occasional.*

**CCE 4003 ECS-CECE 3(3,0)**  
**Introduction to the Construction Industry:** PR: EGN 3613, EGN 3310 all with a grade of "C" (2.0) or better. Project delivery systems, construction contracts; estimating and scheduling; ethics and labor issues. *Fall, Spring.*

**CCE 4004 ECS-CECE 3(3,0)**  
**Construction Methods:** PR: CES 4100C with a grade of "C" (2.0) or better. Construction methods for civil and structural systems, design of temporary structures, safety, and building codes. *Spring.*

## UCF Courses and Descriptions

**CCE 4034 ECS-CECE 3(3,0)**  
**Construction Estimating and Scheduling:** PR: CCE 4003 with a grade of "C" (2.0) or better. Construction project estimating and bidding and the preparation of construction schedules, followed by in-depth coverage of time and cost control, and risk management. *Fall.*

**CCE 4402 ECS-CECE 3(3,0)**  
**Construction Equipment and Productivity:** PR: CCE 4003, CWR 3201 both with a grade of "C" (2.0) or better. Selection of appropriate equipment based on operational parameters, principles of construction productivity measurement and analysis, process design, and discrete event simulation. *Spring.*

**CCE 4810C ECS-CECE 3(2,2)**  
**Construction Design Project:** PR: CCE 4034 and CCE 4813 all with a grade of "C" (2.0) or better, and department consent; CR: CCE 4402 and CCE 4004. The preparation and development of a proposal and plan for a construction project, including construction engineering systems, site facilities, construction methods, coordination, leadership, and control. *Spring.*

**CCE 4813 ECS-CECE 4(4,0)**  
**Mechanical and Electrical Systems for Buildings:** PR: CCE 4003, PHY 2049C, CWR 3201 all with grades of "C" (2.0) or better. Design and construction of mechanical and electrical systems for buildings. *Fall.*

**CCE 5006 ECS-CECE 3(3,0)**  
**Infrastructure Systems Management:** PR: CCE 4004 and CCE 4034, or C.I. Essential elements of infrastructure systems and cover concepts, methods, and technologies essential for infrastructure life cycle engineering and management. *Fall, Spring.*

**CCE 5205 ECS-CECE 3(3,0)**  
**Decision Support for Infrastructure Projects:** PR: CCE 4004 and CCE 4034, or C.I. Infrastructure decision-making theories, data representation for decision analysis, advanced methods in decision-making, and applications of decision support systems in infrastructure projects. *Fall, Spring.*

**CCE 5220 ECS-CECE 3(3,0)**  
**Sustainable Infrastructure Systems:** PR: STA 3032. Introduce the principles of sustainability as they relate to the built environment and infrastructure systems; sustainability metrics; life cycle assessment; resilience; green building principles. *Spring.*

**CCJ 3014 HPA-CJ 3(3,0)**  
**Crime in America:** PR: Sophomore standing and ENC 1102. A survey of crime and criminality in the United States, with emphasis on crime data, its weaknesses, and types of criminal behavior. *Fall, Spring.*

**CCJ 3024 HPA-CJ 3(3,0)**  
**Criminal Justice System:** PR: Sophomore standing and ENC 1102. An examination of the components and of their interdependence in light of their traditional autonomy. *Fall, Spring.*

**CCJ 3450 HPA-CJ 3(3,0)**  
**The Criminal Justice Manager:** PR: CCJ 3024 or C.I. Elements of first-line supervision and executive development. Administrative leadership; its nature; methods, and traits. Recent theories and research in leadership. *Occasional.*

**CCJ 3451 HPA-CJ 3(3,0)**  
**Justice System Technology:** PR: CCJ 3024 or C.I. Examination of the relevance of scientific and technological developments to justice systems and their applicability to the operations and management of the systems. *Occasional.*

**CCJ 3483 HPA-CJ 4(4,0)**  
**Labor Relations in Criminal Justice:** PR: CCJ 3024 and CCJ 3450 or C.I. Examine the role of public sector labor relations in criminal justice to include management-employee relationships, collective bargaining process, employee organizations, and federal-state laws. *Occasional.*

**CCJ 3667 HPA-CJ 3(3,0)**  
**Victims and the CJ System:** PR: CCJ 3024 or declared Victim Advocacy Certificate or C.I. Course examines Victims as they affect the Criminal Justice system, the dimensions of criminal victimization, and victim offender programs. *Occasional.*

**CCJ 3930 HPA-CJ 3(3,0)**  
**Origins of Criminal Justice Practices and Policies:** PR: Sophomore Level Course will examine a variety of social ills and critical events in the history of humanity that led to the development of criminal justice institutions. *Occasional.*

**CCJ 4035 HPA-CJ 3(3,0)**  
**Crime and the Media:** PR: CCJ 3024 or C.I. Explore how the criminal justice system, criminals, and crime are portrayed in the media and its impact on society and the criminal justice system. *Fall, Spring.*

**CCJ 4054 HPA-CJ 3(3,0)**  
**Capstone: Criminal Justice Ethics:** PR: Senior standing and declared Criminal Justice major or C.I. Analysis of criminal justice ethical issues. Moral dilemmas across police, courts, corrections and juvenile justice including development of humane policies and procedures. *Fall, Spring.*

**CCJ 4064 HPA-CJ 3(3,0)**  
**Criminal Justice Dimensions of Genocide:** PR: CCJ 3014 or C.I. Elements of Criminal Justice approach to genocide, including theories, precursors, case studies, organization, legal outcomes, and criminal justice majors' roles in studying and preventing genocide. *Occasional.*

**CCJ 4076 HPA-CJ 3(3,0)**  
**Crime Intelligence and Investigative Support Analysis:** PR: Junior Standing. Provides an understanding of basic crime intelligence and investigative support analytical tools and information management systems employed to assist law enforcement. *Occasional.*

**CCJ 4129 HPA-CJ 3(3,0)**  
**Cultural Diversity in Criminal Justice:** PR: CCJ 3024 or (declared Victim Advocacy Certificate & Junior Standing) or C.I. This course focuses on the problems and issues associated with race, ethnic and gender relations in the administration of justice in a democratic society. *Occasional.*

**CCJ 4195 HPA-CJ 3(3,0)**  
**Interviews & Interrogations in CJ:** PR: CCJ 3024 or (Criminal Profiling or Crime Scene Investigation certificate declared & Junior standing) or C.I. The criminal justice interview process including history of criminal justice interviews, the use of Miranda, non-verbal listening, and the rules of testimonial evidence. *Fall, Spring.*

**CCJ 4296 HPA-CJ 3(3,0)**  
**Famous Crimes & Trials:** PR: CCJ 3014 or CCJ 3024 or consent of instructor. A detailed examination of selected famous American crimes and trials since 1900. *Occasional.*

**CCJ 4334 HPA-CJ 3(3,0)**  
**Punishment and Torture:** PR: ENC1102 and sophomore standing or CI Contemporary issues associated with formal social control by government and religious institutions and how it has been utilized historically. *Occasional.*

**CCJ 4361 HPA-CJ 3(3,0)**  
**Death Penalty:** PR: Sophomore standing and ENC 1102. This course provides students an opportunity to analyze and discuss complex issues surrounding the death penalty and the criminal justice system. *Occasional.*

**CCJ 4611 HPA-CJ 3(3,0)**  
**Ritualistic Crime and Investigations:** PR: ENC1102, Sophomore Standing or CI Contemporary issues associated with ritualistic crime investigations. *Occasional.*

**CCJ 4632 HPA-CJ 3(3,0)**  
**Older Adults and the Criminal Justice System:** PR: ENC 1102 and (Jr. Standing or declared Victim Advocacy Certificate) or C.I. An examination of older adults as victims and offenders within the Criminal Justice system. *Occasional.*

**CCJ 4641 HPA-CJ 3(3,0)**  
**Organized Crime:** PR: Sophomore standing and ENC 1102. An examination of organized crime, including structures, history and activities, and of issues surrounding efforts to define and control it. *Occasional.*

**CCJ 4644 HPA-CJ 3(3,0)**  
**White Collar Crime:** PR: CCJ 3014 or C.I. Classic definitions and statements on white collar crime concepts, concepts and criminal activities, types of fraud, investigations, environmental crime, and corporate crime. *Occasional.*

**CCJ 4651 HPA-CJ 3(3,0)**  
**Drugs and Crime:** PR: Sophomore standing and ENC 1102. Focuses on the problems of drugs and drug control in contemporary society. Students will examine the problems of drugs in our society as well as specific strategies used by criminal justice agencies to prevent and control illicit drug use. *Fall, Spring.*

**CCJ 4670 HPA-CJ 3(3,0)**  
**Women and Crime:** PR: Sophomore standing and ENC 1102. This course covers women in criminal justice as offenders and prisoners, as well as crime victims and professionals working in the system. *Occasional.*

**CCJ 4677 HPA-CJ 3(3,0)**  
**Human Rights and Criminal Justice:** PR: CCJ 3024 or C.I. In-depth analysis of human rights movement and its potential impact upon criminal law, as well as the juvenile and criminal justice system. *Occasional.*

**CCJ 4681 HPA-CJ 3(3,0)**  
**Domestic Violence and the Justice System:** PR: CCJ 3024 or (declared Victim Advocacy Certificate & Junior standing) or C.I. Study of the nature and causes of forms of domestic violence, pertaining to laws, prevention strategies, and justice system response. *Occasional.*

**CCJ 4690 HPA-CJ 3(3,0)**  
**Sex Offenders and the Criminal Justice System:** PR: (Junior standing and Criminal Profiling or Victim Advocacy certificate declared) or C.I. Provides students a better understanding of how the criminal justice system deals with sex offenders and their offenses. *Fall, Spring.*

**CCJ 4694 HPA-CJ 3(3,0)**  
**Human Trafficking and Criminal Justice:** PR: CCJ 3024 or C.I. Human trafficking from the global, national and local criminal justice perspectives. *Occasional.*

**CCJ 4701C HPA-CJ 4(3,1)**  
**Research Methods in Criminal Justice:** PR: CCJ 3014 and CCJ 3024, or C.I. Overview of the social science research methodologies used in criminal justice, covers the major forms of research designs used by social science and evaluates their strengths and weaknesses. *Fall, Spring.*

**CCJ 4746C HPA-CJ 4(3,1)**  
**Data Analysis for Criminal Justice:** PR: A grade of "C" or better in MAC 1105 or MGF 1106 or higher-level math class or AA Degree, and CCJ 4701, or C.I. Analytical methods useful for examining the types of data most often encountered in criminal justice research and develops the knowledge and understanding necessary to comprehend and interpret basic statistics in criminal justice research, literature and reports. *Fall, Spring.*

**CCJ 4934 HPA-CJ 1-3(1-3,0)**  
**Emergent Criminal Justice Issues:** PR: Sophomore Standing and ENC 1102. Developing trends and issues in criminal justice facing administrators, practitioners, and researchers. May be repeated for credit. *Occasional.*

**CCJ 5015 HPA-CJ 3(3,0)**  
**The Nature of Crime:** PR: Admission to Criminal Justice graduate program, graduate certificate, or C.I. This course provides an overview of major dimensions of crime in the U.S.; epidemiology of crime, costs of crime, and typologies of crime and criminals. *Occasional.*

## UCF Courses and Descriptions

**CCJ 5456 HPA-CJ 3(3,0)**  
**The Administration of Justice:** PR: Admission to Criminal Justice graduate program, graduate certificate program, or C.I. This course provides an overview of the criminal justice system and a critical analysis of formal and informal processing of offenders by criminal justice agencies. *Fall, Spring.*

**CCJ 5931 HPA-CJ 3(3,0)**  
**Contemporary Criminal Justice Strategies:** PR: Graduate standing or C.I. Graduate level analysis of contemporary crime issues and the reactions of the criminal justice system to combat those crimes at both the national and international levels. May be used in the degree program a maximum of 3 times. *Occasional.*

**CCJ 5934 HPA-CJ 1(1,0)**  
**Criminal Justice Investigative Process:** PR: Graduate standing or C.I. Advanced seminar providing students with a broad view of how the criminal justice investigative process operates. Focus on the roles and responsibilities of agents as investigators. May be used in the degree program a maximum of 3 times only when course content is different. *Occasional.*

**CDA 3103C ECS-CS 3(3,1)**  
**Computer Logic and Organization:** PR: COP 3223C with a grade of "C" (2.0) or better. Logic design, computer arithmetic, Instruction Set Architecture (MIPS, SPIM simulator), performance, data path, control unit, memory hierarchy, I/O interface. *Fall, Spring.*

**CDA 5106 ECS-CS 3(3,0)**  
**Advanced Computer Architecture:** PR: EEL 4768C. Modern processor design, instruction-level parallelism, thread-level parallelism, data-level parallelism, memory hierarchy, and I/O. *Fall, Spring.*

**CDA 5110 ECS-CS 3(3,0)**  
**Parallel Architecture and Algorithms:** PR: COT 4210, CDA 5106. General-purpose vs. special-purpose parallel computers; arrays, message-passing; shared-memory; taxonomy; parallelization techniques; communication synchronization and granularity; parallel data structures; automatic program restructuring. *Occasional.*

**CEG 4011C ECS-CECE 4(3,2)**  
**Geotechnical Engineering I:** PR: EGN 3331C and CWR 3201 both with a grade of "C" (2.0) or better. Engineering properties and classification of soils. Design considerations for compaction, seepage, consolidation, and settlement analysis. *Fall, Spring.* M&S fee \$21.00

**CEG 4012 ECS-CECE 3(3,0)**  
**Geotechnical Engineering II:** PR: CEG 4011C with a grade of "C" (2.0) or better. Consolidation, shear strength, earth pressures and retaining walls, bearing capacity, foundation considerations, and slope stability. *Fall, Spring.*

**CEG 4801C ECS-CECE 3(2,2)**  
**Geotechnical Engineering Design:** PR: CEG 4012 with a grade of "C" (2.0) or better and department consent. Project course on design of foundations and other soil structures using geotechnical design methodologies. *Fall, Spring.* M&S fee \$14.00

**CEG 5405 ECS-CECE 3(3,0)**  
**Seepage in Soils:** PR: CEG 4011C. Principles of flow through soils; flow nets, analytical solutions; seepage forces, design of filters and drainage layers; dewatering, drainage in dams, embankments, and pavement systems. *Even Spring.*

**CEN 3024 ECS-ECS 3(3,0)**  
**Software Development I:** PR: COP 3330 or C.I. Software development concepts are introduced in the context of hands-on project implementation. SDLC, version control, design with UML, documentation, testing, 2&3-tier architecture. *Spring.*

**CEN 4025 ECS-ECS 3(3,0)**  
**Software Development II:** PR: CEN 3024 or C.I. A continuation of Software Development I with larger and more complex projects. Enterprise-level applications are covered including distributed and web-based systems using n-tier architecture. *Fall.*

**CEN 4333 ECS-ECS 3(3,0)**  
**Advanced Database Development:** PR: COP 3330 or C.I. Professional-level database access from object-oriented systems, including complex SQL queries and stored procedures. Use of object-relational frameworks. Hands-on exercises with current RDBMS software. *Spring.*

**CEN 4350 ECS-ECS 3(3,0)**  
**Open Source Web Technologies:** PR: COP 3330 or C.I. Web application development using currently popular open-source/open-standard tools. User-interface, the business layer, database, and deploying to the web-server. *Spring.*

**CEN 4360 ECS-ECS 3(3,0)**  
**Mobile Device Software Development:** PR: COP 3330 or C.I. Concepts and practice of software development for mobile devices. User interface, data persistence, data communication, use of APIs for sound, mapping, GPS, sensors, etc. *Fall.*

**CEN 4370 ECS-ECS 3(3,0)**  
**.NET Software Development using C#:** PR: COP 3330 or C.I. .NET Windows and Web application development. Use of the .NET Framework class library. N-tier architecture. User interface, collections, database connectivity, and deployment. *Spring.*

**CEN 4802 ECS-ECS 3(3,0)**  
**Software Integration, Configuration, and Testing:** PR: CEN 3024 or equivalent or C.I. Addresses approaches and issues associated with integration of software subsystems and components into one system to ensure that the subsystems function together. *Fall.*

**CEN 4910 ECS-ECS 3(3,0)**  
**Software Development Project:** PR: CEN 4025 or C.I. A software development project using the skills acquired from Software Development I & II. Working in teams, students develop a software system, simulating an industry experience. *Spring.*

**CEN 5016 ECS-CS 3(3,0)**  
**Software Engineering:** PR: COP 4331C. Application of formal software processes, engineering methods, and documentation standards to the development of large scale software systems. A team project is required. *Spring.*

**CES 4100C ECS-CECE 4(3,3)**  
**Structural Analysis I and Lab:** PR: EGN 3331C and CGN 3405 both with grades of "C" (2.0) or better. Topics in structural mechanics, analysis of determinate and indeterminate structures by flexibility and stiffness methods computer and laboratory exercises on behavior of structures and materials. *Fall, Spring.* M&S fee \$21.00

**CES 4205 ECS-CECE 3(3,0)**  
**Structural Mechanics:** PR: EGN 3331C and EGN 3343 both with grades of "C" (2.0) or better. Advanced mechanics of materials applied to civil structural systems, elasticity, torsion, inelastic bending, failure theory for concrete and soils, compatibility, equilibrium, and energy methods. *Spring.*

**CES 4605 ECS-CECE 3(3,0)**  
**Steel Structures:** PR: CES 4100C with a grade of "C" (2.0) or better. Design of structural steel members and buildings; emphasis on AISC-ASD building code; introduction to AISC-LRFD building code; tension and compression members, beams, beam-columns, connections. *Fall, Spring.*

**CES 4702 ECS-CECE 3(3,0)**  
**Reinforced Concrete Structures:** PR: CES 4100C with a grade of "C" (2.0) or better. Design of RC members using ACI code; beam flexure and shear; compression bending; bond and development; introduction to continuous frames. *Fall, Spring.*

**CES 4743C ECS-CECE 3(2,2)**  
**Structural Design:** PR: CES 4605 and CES 4702 both with grade of "C" (2.0) or better and department consent. This course prepares students for real life structural design with the fundamentals and applications of both steel and concrete analysis and design at the member and system level. *Fall, Spring.* M&S fee \$24.00

**CES 5144 ECS-CECE 3(3,0)**  
**Matrix Methods for Structural Analysis:** PR: CES 4100C or C.I. Implementation of the matrix methods for structural analysis that are commonly and currently used in practice and in research, special topics such as finite element formulations, special analysis procedures, and use of software packages. *Even Fall.*

**CES 5325 ECS-CECE 3(3,0)**  
**Bridge Engineering:** PR: CES 4605 and CES 4702 or C.I. Bridge engineering fundamentals, design philosophies, analysis and design concepts for concrete and steel bridges, AASHTO specifications, Bridge rating, and introduction to Bridge health monitoring. *Occasional.*

**CES 5606 ECS-CECE 3(3,0)**  
**Advanced Steel Structures:** PR: CES 4605. Behavior and design of steel buildings; emphasis on AISC-LRFD building code; complex connections, tension members, stability of compression members, laterally unsupported beams, frames, and beam columns. *Occasional.*

**CES 5706 ECS-CECE 3(3,0)**  
**Advanced Reinforced Concrete:** PR: CES 4702 or C.I. Design of frames, two-way floor systems, shear walls; shear and torsion; compression field theory; inelastic analysis; wind and seismic design; introduction to prestressed concrete. *Occasional.*

**CES 5821 ECS-CECE 3(3,0)**  
**Masonry and Timber Design:** PR: C.I. Structural properties of masonry and timber; design loads-codes and standards; analysis for axial loads, flexure and shear. *Occasional.*

**CES 5937 ECS-CECE 3(3,0)**  
**Monitoring for Infrastructure Systems:** PR: One of the following: CES 4100C, ENV 4120, ENV 4561, CWR 4203C, CWR 4203C or CCE 4004. Applications of modern instrumentation and data processing technologies to infrastructure monitoring and assessment. Topics in current and state-of-the-art monitoring techniques, SHM for infrastructure systems, and case studies on performance-based evaluation. *Occasional.*

**CET 3010 ECS-ECS 3(3,0)**  
**Introduction to Information Technology:** PR: MAC 1105C. An introduction to IT field, including binary representation, graphics, data compression, information theory, transmission and storage technology, and communications. *Fall, Spring.*

**CET 3383 ECS-ECS 3(3,0)**  
**Applied Systems Analysis I:** PR: Approved programming course or C.I. Study of system analysis, design, development and implementation cycle. Includes Object Oriented Programming (OOP) to implement system programs. *Spring.*

**CET 4427 ECS-ECS 3(3,0)**  
**Applied Database I:** PR: Approved programming course or C.I. Design and implementation of data base systems within the concept of central administration, structured data storage. Programming project. *Fall.*

**CET 4483 ECS-ECS 3(3,0)**  
**Intro to Local Area Network Technology:** PR: Approved programming course or C.I. An introductory level course in local area networks. Topics in data communications, computer networking, local area network technology, topologies, and protocols will be covered. *Spring.*

**CET 4505 ECS-ECS 3(3,0)**  
**Applied Operating Systems I:** PR: CET 2364. Modifying the operating systems to support new types of devices. Analysis of limitations and strengths of commercial mass storage operating systems in industry. O.S. tool box usage. May be repeated for credit. *Fall.*

**CET 4663 ECS-ECS 3(3,0)**  
**Computer and Network Security:** PR: CET 4483, MAC 1105C. Fundamentals of computer security technology, including cryptography, authentication, digital signatures, and network security tools and applications. *Spring.*

## UCF Courses and Descriptions

**CET 4748 ECS-ECS 3(3,0)**  
**Wide Area Networks I:** PR: CET 4483 or C.I. Designing Wide Area Networks; determining requirements, designing the networks, structure, choosing appropriate technologies, and evaluating results. *Fall.*

**CET 4749 ECS-ECS 3(3,0)**  
**Wide Area Networks II:** PR: CET 4748. Traffic and cost generators. Access network design. Multi-speed access designs. Multilocal-access and mesh network design. *Spring.*

**CGN 3405 ECS-CECE 3(3,0)**  
**Applied Numerical Methods for Civil Engineering:** PR: MAC 2313 with a grade of "C" (2.0) or better; CR: MAP 2302. Application-driven numerical solution of common Civil and Environmental Engineering problems using linear algebra, interpolation, differentiation and integration, nonlinear systems, ODEs and IVPs, and linear programming. *Fall, Spring.*

**CGN 3501C ECS-CECE 3(2,3)**  
**Civil Engineering Materials:** PR: A grade of "C" (2.0) or better in EGN 3331C and in CHS 1440 or CHM 2045C or CHM 2041. The characterization of materials used in civil engineering works to include concrete, bituminous polymers and composite materials. *Fall, Spring.* M&S fee \$30.00

**CGN 3700C ECS-CECE 2(2,2)**  
**Civil Engineering Measurements:** PR: MAC 2312 and PHY 2049C both with a grade of "C" (2.0) or better. Engineering measurement, data analysis, and experimental hardware including electronics, system components, and calibration. Specific applications in civil engineering including surveying, GPS, and GIS *Fall, Spring.* M&S fee \$30.00

**CGN 4808C ECS-CECE 3(2,2)**  
**CECE Capstone Design:** PR: "C" (2.0) or better in a previous CECE design course and department consent. An interdisciplinary capstone design experience requiring problem definition, data collection, analysis of alternatives, economic evaluation of alternatives, and oral and written presentation of final design. *Fall, Spring.*

**CGN 5506 ECS-CECE 3(3,0)**  
**Advanced Pavement and Civil Engineering Materials:** PR: CGN 3501C, CEG 4011C. Pavement and civil engineering materials such as aggregate, Portland cement, and concrete. In addition, mechanics, modeling, analysis, and design of those materials will be included. *Occasional.*

**CGN 5877 ECS-CECE 3(3,0)**  
**Monitoring for Infrastructure Systems:** PR: One of the following: CES 4100C, ENV 4120, ENV 4561, CWR 4203C, CWR 4101C or CCE 4004. Applications of modern instrumentation and data processing technologies to infrastructure monitoring and assessment. Topics in current and state-of-the-art monitoring techniques, SHM for infrastructure systems, and case studies on performance-based evaluation. *Odd Spring.*

**CGS 1060C ECS-CS 3(2,2)**  
**Introduction to Computers:** Digital literacy, computer hardware, peripheral components, memory devices, effects of computers on society, application of computers. Not open to Computer Science majors. *Fall, Spring.*

**CGS 2100C ECS-CS 3(2,1)**  
**Computer Fundamentals for Business:** Uses of computers and software in business, including business applications, commercial packages, and the internet. Not open to Computer Science majors. *Fall, Spring.*

**CGS 2545C ECS-CS 3(2,1)**  
**Database Concepts:** PR: COP 2500C or high level programming course (C, Java, C#, C++) with a grade of "C" (2.0) or better. Entity-relation model, relational database managements systems, normal forms, performance or databases, report generation. *Fall, Spring.*

**CGS 2585C ECS-CS 3(2,1)**  
**Desktop/Internet Publishing:** PR: COP 2500C or high level programming course (C, Java, C#, C++) with a grade of "C" (2.0) or better. Principles and techniques of page layout and formatting for documents and newsletters, presentation techniques, construction of web pages and design of integrated websites. *Occasional.*

**CGS 3175 ECS-CS 3(3,0)**  
**Internet Applications:** PR: COP 2500C or high level programming course (C, Java, C#, C++) with a grade of "C" (2.0) or better. HTML coding, using images, sound and animation, advanced text formatting, forms and CGS scripts, introduction to javascript. *Fall, Spring.*

**CGS 3269 ECS-CS 3(3,0)**  
**Computer Architecture Concepts:** PR: COP 2500C or high level programming course (C, Java, C#, C++) with a grade of "C" (2.0) or better. CPU organization, current computer architectures, network file servers. *Fall, Spring.*

**CGS 3763 ECS-CS 3(3,0)**  
**Operating System Concepts:** PR: COP 2500C or high level programming course (C, Java, C#, C++) with a grade of "C" (2.0) or better. System calls, concept of processes, CPU scheduling, security issues, client server paradigms, and computer supported workgroups. *Occasional.*

**CGS 5131 ECS-CS 3(3,0)**  
**Computer Forensics I: Seizure and Examination of Computer Systems:** PR: Computer literacy and C.I. Legal issues regarding seizure and chain of custody. Technical issues in acquiring computer evidence. Popular file systems are examined. Reporting issues in the legal system. *Fall.* M&S fee \$50.00

**CHI 1120C CAH-LANG 4(3,1)**  
**Elementary Chinese Language and Civilization I:** Designed to initiate the student to the major language skills: listening, speaking, reading and writing. *Fall.*

**CHI 1121C CAH-LANG 4(3,1)**  
**Elementary Chinese Language and Civilization II:** PR: CHI 1120C or equivalent. Continuation of CHI 1120C. *Spring.*

**CHI 2200 CAH-LANG 3(3,0)**  
**Intermediate Chinese I:** PR: CHI 1121C or equivalent or C.I. Development of Chinese language skills at the intermediate level. *Fall, Spring.*

**CHI 2201 CAH-LANG 3(3,0)**  
**Intermediate Chinese II:** PR: CHI 2200. Continuation of CHI 2200 with emphasis on Chinese cultures. *Fall, Spring.*

**CHM 1020 COS-CHEM 3(3,0)**  
**Concepts in Chemistry:** PR: High school Algebra. Concepts will be examined to provide insight into the significant role that chemistry plays in our culture. Intended as a general education course. *Fall, Spring.*

**CHM 1032 COS-CHEM 3(3,0)**  
**General Chemistry:** PR: MAC 1105C or MGF 1106 or equivalent. An introductory study of the fundamental concepts of chemistry, primarily oriented toward Health Science majors. The "NC" grading policy applies to this course. *Fall, Spring.*

**CHM 1032L COS-CHEM 1(0,3)**  
**General Chemistry Laboratory:** PR: or CR: CHM 1032. Preference will be given to students whose major requires this course. An introductory study of physical and chemical properties of elements and compounds. IMPORTANT: Attendance of the first laboratory session dealing with safety procedures is mandatory; students who do not attend must immediately call the Chemistry Department, and may be dropped from the class. *Fall, Spring.* M&S fee \$54.00

**CHM 2040 COS-CHEM 3(3,0)**  
**Chemistry Fundamentals IA:** PR: A minimum score of 550 (SAT) or 24 (ACT) in the mathematics section. MAC 1105C recommended. Not open to students with credit in CHM 2045C. Priority will be given to students whose major requires this course or CHM 2045C. Principles of modern chemistry, units and measures, basic physical theory of chemical reactivity, stoichiometry, reactions in aqueous solutions, thermochemistry. The "NC" grading policy applies to this course. *Fall, Spring.* M&S fee \$6.00

**CHM 2041 COS-CHEM 3(3,0)**  
**Chemistry Fundamentals IB:** PR: CHM 2040 or its equivalent with a grade of C or better. Not open to students with credit in CHM 2045C. The second semester of CHM 2040. Atomic structure, periodicity, chemical bonding, states of matter, gases. The "NC" grading policy applies to this course. *Fall, Spring.*

**CHM 2045C COS-CHEM 4(3,1)**  
**Honors Chemistry Fundamentals I:** PR: A passing score in the Chemistry Placement Exam. Not open to students with credit in both CHM 2040C and CHM 2041C. Priority will be given to students whose major requires this course. Same as CHM 2045C with honors-level content. *Fall.* M&S fee \$9.00

**CHM 2045C COS-CHEM 4(3,1)**  
**Chemistry Fundamentals I:** PR: A passing score in the Chemistry Placement Exam. Not open to students with credit in both CHM 2040C and CHM 2041C. Priority will be given to students whose major requires this course. Principles of modern chemistry, units and measures, basic physical theory of chemical reactivity, stoichiometry, reactions in aqueous solutions, thermochemistry, atomic structure, periodicity, chemical bonding, states of matter, gases. The "NC" grading policy applies to this course. *Fall, Spring.* M&S fee \$9.00

**CHM 2046 COS-CHEM 3(3,0)**  
**Chemistry Fundamentals II:** PR: "C" (2.0) grade or better in CHM 2045C or CHM 2041. Priority will be given to students whose major requires this course. Continuation of CHM 2045C or the CHM 2040 & CHM 2041 sequence. Intermolecular forces, solutions and colligative properties, equilibria, thermodynamics, chemical kinetics, electrochemistry, nuclear chemistry. *Fall, Spring.*

**CHM 2046C COS-CHEM 4(3,3)**  
**Honors Chemistry Fundamentals II:** PR: A "C" (2.0) or better in CHM 2045C and permission of Honors. Same as CHM 2046 and CHM 2046L with honors-level content. *Spring.* M&S fee \$45.00

**CHM 2046L COS-CHEM 1(0,3)**  
**Chemistry Fundamentals Laboratory:** PR: or CR: CHM 2046. Priority will be given to students whose major requires this course. Illustration of chemical principles and introduction to the techniques of inorganic and physical chemistry. IMPORTANT: Attendance of the first laboratory session dealing with safety procedures is mandatory; students who do not attend must immediately call the Chemistry Department, and may be dropped from the class. *Fall, Spring.* M&S fee \$45.00

**CHM 2205 COS-CHEM 5(5,0)**  
**Introduction to Organic and Biochemistry:** PR: CHM 1032 or equivalent. An introduction to organic chemistry, stressing the chemistry of functional groups and a survey of the biochemistry of proteins, carbohydrates, lipids, and nucleic acids. *Spring.*

**CHM 2210 COS-CHEM 3(3,0)**  
**Organic Chemistry I:** PR: A "C" (2.0) or better in CHM 2046. Priority will be given to students whose major requires this course. Theory and applications of organic chemistry: structure, bonding, kinetics, thermodynamics, reaction mechanisms, synthesis, and stereochemistry. Structure elucidation via spectrometric techniques. *Fall, Spring.*

**CHM 2211 COS-CHEM 3(3,0)**  
**Organic Chemistry II:** PR: CHM 2210. Priority will be given to students whose major requires this course. Continuation of CHM 2210. *Fall, Spring.*

**CHM 2211L COS-CHEM 2(0,6)**  
**Organic Laboratory Techniques I:** PR: CHM 2046L and CHM 2210. Priority will be given to students whose major requires this course. An introduction to the laboratory techniques of organic chemistry, including the preparation, reaction, and analysis of organic compounds. IMPORTANT: Attendance of the first laboratory session dealing with safety procedures is mandatory; students who do not attend must immediately call the Chemistry Department, and may be dropped from the class. *Fall, Spring.* M&S fee \$70.00

## UCF Courses and Descriptions

**CHM 3120 COS-CHEM 3(3,0)**  
**Analytical Chemistry:** PR: CHM 2046, CHM 2046L. Classical and instrumental analysis. Choice of preferred analytical methods and techniques is emphasized through applications involving both inorganic and organic systems. *Fall, Spring.*

**CHM 3120L COS-CHEM 1(0,3)**  
**Analytical Chemistry Laboratory:** PR: CHM 2046, CHM 2046L, and PR: or CR: CHM 3120. Experimental exercise of quantitative methods of analysis using titrimetric, gravimetric, potentiometric and photometric methods of analysis including statistical treatment of experimental data. IMPORTANT: Attendance of the first laboratory session dealing with safety procedures is mandatory; students who do not attend must immediately call the Chemistry Department, and may be dropped from the class. *Fall, Spring.* M&S fee \$70.00

**CHM 3215L COS-CHEM 2(0,6)**  
**Organic Laboratory Techniques II:** PR: CHM 2211 and CHM 2211L. Open-end laboratory to develop synthesis techniques and structure elucidation skills. IMPORTANT: Attendance of the first laboratory session dealing with safety procedures is mandatory; students who do not attend must immediately call the Chemistry Department, and may be dropped from the class. *Fall.* M&S fee \$70.00

**CHM 3410 COS-CHEM 4(3,1)**  
**Physical Chemistry I:** PR: CHM 2046, PHY 2049C, and MAC 2312. Rigorous treatment of atomic and molecular structure, thermodynamics, kinetics, and chemical bonding. *Fall.*

**CHM 3411 COS-CHEM 3(3,0)**  
**Physical Chemistry II:** PR: CHM 3410. Continuation of CHM 3410. *Spring.*

**CHM 3411L COS-CHEM 2(0,6)**  
**Physical Chemistry Laboratory:** PR: CHM 3120 and CR: CHM 3411. Classical as well as modern instrumental techniques coupled with computer data processing to measure physical properties and determine atomic and molecular parameters. *Spring.* M&S fee \$70.00

**CHM 3422 COS-CHEM 3(3,0)**  
**Applied Physical Chemistry:** PR: PHY 2049C and MAC 2312. Physical chemistry as applied to the study of biological and forensic science. *Fall.*

**CHM 4130 COS-CHEM 3(3,0)**  
**Advanced Analytical Laboratory Technique:** PR: CHM 2211, CHM 3120 (with a minimum grade of "C" or 2.0) and CR: CHM 3411 or PR: CHM 3422. Modern methods of analysis including electrochemistry, spectroscopy, and separation techniques. *Spring.*

**CHM 4130L COS-CHEM 2(0,6)**  
**Advanced Analytical Chemistry Laboratory:** PR: or CR: CHM 4130. Experimental exercise of instrumental methods of analysis. Successful students will develop practical skills performing experiments based on spectroscopic and chromatographic methods of analysis. Statistical data treatment of experimental results will be also exercised. *Spring.* M&S fee \$70.00

**CHM 4220 COS-CHEM 3(3,0)**  
**Organic Chemistry III:** PR: CHM 2211 or its equivalent. Organic reaction mechanisms and retrosynthetic analysis and their application to synthetic chemistry. *Even Fall.*

**CHM 4427 COS-CHEM 3(3,0)**  
**Electrochemistry:** PR: CHM 2046. Electrochemical methods and their applications. *Odd Fall.*

**CHM 4610 COS-CHEM 3(3,0)**  
**Inorganic Chemistry:** PR: or CR: CHM 3411. A discussion of descriptive inorganic chemistry based on various bonding theories, thermodynamics, and kinetics. *Spring.*

**CHM 4610L COS-CHEM 2(0,6)**  
**Inorganic Chemistry Laboratory:** PR: CHM 4610. A study of physical and chemical properties and synthetic techniques in Inorganic Chemistry. *Fall.* M&S fee \$70.00

**CHM 4930 COS-CHEM 1(1,0)**  
**Chemistry Seminar I:** CR: CHM 4912, or CI In consultation with research adviser, student selects faculty committee. Prepares draft seminar on undergraduate research. Attends and reports on faculty seminars. Completes CITI ethics course. *Fall, Spring.*

**CHM 4931 COS-CHEM 1(1,0)**  
**Chemistry Seminar II:** PR: CHM 4930. Student builds upon the seminar prepared in CHM 4930 and presents it to the student's faculty committee. Attends and reports on faculty level seminars. *Fall, Spring.*

**CHM 5225 COS-CHEM 3(3,0)**  
**Advanced Organic Chemistry:** PR: CHM 2211, graduate status or senior standing, or C.I. Theoretical and physical organic concepts of organic systems from the perspective of modern structural theory, thermodynamics, and kinetics. *Odd Fall.*

**CHM 5235 COS-CHEM 3(3,0)**  
**Applied Molecular Spectroscopy:** PR: CHM 3120 and CHM 2211, and graduate status or senior standing or C.I. Determination of chemical structure through interpretation of UV, IR, NMR and Mass Spectra. *Occasional.*

**CHM 5305 COS-CHEM 3(3,0)**  
**Applied Biological Chemistry:** PR: CHM 2211, and graduate status or senior standing or C.I. The identification from plants, synthesis, assessment of bioactivity, and design of pharmaceuticals and agrochemicals, as well as the impact of biotechnology in the chemical industry. *Occasional.*

**CHM 5450 COS-CHEM 3(3,0)**  
**Polymer Chemistry:** PR: CHM 2211, and graduate status or senior standing or C.I. An introduction to the chemistry of synthetic polymers. Synthetic methods, polymerization mechanisms, characterization techniques, and polymer properties will be considered. *Even Fall.*

**CHM 5451C COS-CHEM 3(1,5)**  
**Techniques in Polymer Science:** PR: CHM 2211 and CHM 3410, graduate status or senior standing, or C.I. A laboratory and lecture course designed to introduce students to the major polymerization mechanisms along with polymer characterization and processing methods using modern instrumentation. *Odd Spring.* M&S fee \$63.00

**CHM 5580 COS-CHEM 3(3,0)**  
**Advanced Physical Chemistry:** CR: CHM 3411 and PR: MAC 2313, and graduate standing or senior standing or C.I. Selected topics of thermodynamics, kinetics, quantum mechanics, and structure. *Occasional.*

**CHM 5715C COS-CHEM 3(2,3)**  
**Optical Materials Processing and Characterization Techniques:** PR: CHM 3411 and CHM 4610 or equivalent. Glasses, crystals and polymeric materials will be processed and characterized for their properties. Laboratory will emphasize material structure and physical property relationships. *Occasional.*

**CHS 1440 COS-CHEM 4(3,1)**  
**Principles of Chemistry:** PR: One year of high school chemistry or CHM 1032. Basic concepts of chemistry, with emphasis on problem solving, including atomic and molecular structure, states of matter, stoichiometry, equilibria, electrochemistry and thermodynamics. The "NC" grading policy applies to this course. *Fall, Spring.*

**CHS 3501 COS-CHEM 3(3,0)**  
**Introduction to Forensic Science:** PR: Preference will be given to students whose majors require this course. Intended for majors and non-majors to provide an overview of the specialty areas in the forensic crime lab. *Fall.*

**CHS 3505C COS-CHEM 4(2,6)**  
**Forensic Microscopy:** PR: 'C' grade or better in CHM 2046 & L, and CHS 3501; and PR: or CR: PHY 2049C. The study of the polarized light microscope and its use in the identification and comparison of trace evidence. *Fall.* M&S fee \$69.00

**CHS 3511C COS-CHEM 4(2,6)**  
**Trace Evidence:** PR: 'C' grade or better in CHS 3505C & CHM 2211. An advanced study of the techniques used to identify and compare trace evidence. *Spring.* M&S fee \$45.00

**CHS 3530C COS-CHEM 4(3,3)**  
**Forensic Analysis of Controlled Substances:** PR: 'C' grade or better in CHM 2211, PR: or CR: CHS 3505C & CHM 3120, or C.I. Study of presumptive tests, isolation, and instrumental techniques used in identification of controlled substances. *Fall.* M&S fee \$68.00

**CHS 3533 COS-CHEM 2(2,0)**  
**Forensic Biochemistry I:** PR: 'C' or better in PCB 3063. Concepts and procedures of contemporary forensic biochemistry, including the identification of body fluids and the use of genetic markers to establish identity. *Fall.*

**CHS 3533L COS-CHEM 1(0,3)**  
**Forensic Biochemistry I Laboratory:** PR: 'C' or better in PCB 3063, PCB 3063L and PR: or CR: CHS 3533. Concepts and procedures of contemporary forensic biochemistry. Emphasis on techniques and procedures used in operational crime laboratories in the U.S. *Fall.* M&S fee \$70.00

**CHS 3595 COS-CHEM 3(3,0)**  
**Forensic Science in the Courtroom:** PR: or CR: CHS 3501 or C.I., and Forensic Science major. The special needs of the forensic scientist in preparing for and participating in courtroom proceedings. *Spring.*

**CHS 4506C COS-CHEM 3(2,3)**  
**Forensic Investigation Technology:** PR: A grade of "C" or better in CHS 3505C or C.I. Modern technology applied to forensic investigation. *Occasional.*

**CHS 4515C COS-CHEM 4(2,6)**  
**Forensic Crime Scene Investigation:** PR: Grade of 'C' or better in CHS 3511C, or C.I. Procedures for the investigation of arson, explosives, and crime scenes. *Occasional.*

**CHS 4534C COS-CHEM 3(1,6)**  
**Forensic Biochemistry II:** PR: CHS 3533C and C.I. Advanced treatment of the theoretical and practical aspects of forensic DNA analysis and the use of population genetics and genetic data analysis for evidence interpretation. *Spring.* M&S fee \$70.00

**CHS 4537 COS-CHEM 2(2,0)**  
**Forensic Laboratory Quality Assurance:** PR: Grade of "C" or better in CHS 3501, STA 2023, CHM 3120 and CHM 3120L or C.I. Concepts and principles of quality assurance and quality systems management in forensic laboratories. *Spring.*

**CHS 4591 COS-CHEM 4(0,40)**  
**Forensic Science Internship:** PR: Senior standing, within 8 hrs. of completion of degree requirements, and 2.5 overall GPA. Credit for full-time work (one semester; 400 hours) for a professional forensic laboratory. May be repeated for credit *Fall, Spring.*

**CHS 4615 COS-CHEM 3(3,0)**  
**Environmental Chemistry:** PR: CHM 2046, senior level in biological, molecular, chemical or engineering sciences, or C.I. Principles of environmental chemistry, survey of environmental law, remediation technologies, industrial practices and environmentally responsible chemistry. *Odd Spring.*

**CHS 5502 COS-CHEM 3(3,0)**  
**Principles of Forensic Science:** PR: Admission to Forensic Science MS program or C.I. Principles of forensic science crime scene investigation, concepts in physical and biological evidence, evidence collection and transport, discrimination and individualization of evidence. *Even Spring.*

**CHS 5504 COS-CHEM 3(3,0)**  
**Topics in Forensic Science:** PR: Admission to Digital Forensics M.S. or Computer Forensics graduate certificate or C.I. History and current topics in Forensic Science. *Fall.*

## UCF Courses and Descriptions

**CHS 5507 COS-CHEM 3(3,0)**  
**Chemometric Applications in Forensic Science:** PR: CHS 5504 or C.I. Modern methods of evaluating the evidential value of forensic data from physical evidence, including fibers, glass, ignitable liquids and others. *Odd Spring.*

**CHS 5518 COS-CHEM 3(3,0)**  
**The Forensic Collection and Examination of Digital Evidence:** PR: Adv topics in Forensic Science, graduate status, or C.I. This course will cover the nature of Digital Evidence collection and examination under the constraints of Law and courtroom procedures. *Occasional.*

**CHS 5596 COS-CHEM 3(3,0)**  
**The Forensic Expert in the Courtroom:** PR: CHS 5533, CHS 5535, CHS 5536, or C.I. A study of the uses of technically and scientifically trained expert witnesses at trial. *Even Spring.*

**CHS 5937 COS-CHEM 3(3,0)**  
**Chemometric Applications in Forensic Science:** PR: CHS 5504 or C.I. Modern methods of evaluating the evidential value of forensic data from physical evidence, including fibers, glass, ignitable liquids and others. *Occasional.*

**CIS 3003 ECS-CS 3(3,0)**  
**Fundamentals of Information Technology:** PR: CGS 2545C and COP 3223C each with a grade of "C" (2.0) or better. Pervasive themes in IT. Organizational issues. History of IT. IT and its related and informing disciplines. Application domains. Applications of math and statistics to IT. *Fall.*

**CIS 3360 ECS-CS 3(3,0)**  
**Security in Computing:** PR: COP 3223C or EGN 3211 with a grade of "C" (2.0) or better. Security theory. Legal and human factors, Malware, Intrusion patterns and tools, Windows, Unix, TCP/IP, and applications vulnerabilities. Detection. Policies and enforcement. Protection and assurance. *Occasional.*

**CIS 3362 ECS-CS 3(3,0)**  
**Cryptography and Information Security:** PR: COP 3223C or EGN 3211, and MAC 1114C each with a grade of "C" (2.0) or better. Encryption algorithms and ciphers. Public and private keys. Key infrastructures. Authentication, confidentiality, integrity, and nonrepudiation. Digital signatures and certificates. Hash and digest algorithms. Standards. *Occasional.*

**CIS 3921 ECS-CS 1(1,0)**  
**Careers in IT:** PR: COP 3223C and IT major. An overview of the IT field, job opportunities and careers in information technology, detailed information about some jobs as well as a broad survey. *Fall/Spring.*

**CIS 3990 ECS-CS 0(0,0)**  
**IT Career and Academic Advising I:** PR: PHY 2053C and IT major. Mandatory meeting with students and their faculty advisor for career/academic advising. *Fall/Spring.*

**CIS 4004 ECS-CS 3(3,0)**  
**Web-Based Information Technology:** PR: CNT 3004 and COP 3330 each with grades of "C" (2.0) or better. Digital libraries. Media formats. Compression. Streaming Media. Mobile internet and WML. Emerging technologies. Capacity planning for web services. *Fall/Spring.*

**CIS 4203C ECS-EECS 3(2,2)**  
**Digital Forensics:** PR: (COP 4600 or CGS 3763) and (CIS 3360 or CIS 3362) or C.I. Operating system forensics, digital media forensics, networking forensics, various digital devices forensics. User activity profiling and digital storage recovery. *Fall.*

**CIS 4361 ECS-CS 3(3,0)**  
**Secure Operating Systems and Administration:** PR: CIS 3360 with a grade of "C" (2.0) or better; CR: COP 4600 or CGS 3763 or EEL 4882. Understanding of secure operating systems requirements, design principles and theories, protection methods, access control, authentication, vulnerability, analysis and case studies. *Occasional.*

**CIS 4524 ECS-CS 3(3,0)**  
**Managing IT Integration:** PR: CIS 3003 with a grade of "C" (2.0) or better. Requirements, acquisition and sourcing. Integration. Project management. Testing and QA. Organizational context. Architecture. *Spring.*

**CIS 4615 ECS-CS 3(3,0)**  
**Secure Software Development and Assurance:** PR: (COP 4600 or CGS 3763) and (CIS 3360 or CIS 3362) or C.I. Threat modeling and risk analysis, development of secure software, software assurance techniques, analyzing and auditing software. *Occasional.*

**CIS 4940C ECS-EECS 3(1,3)**  
**Topics in Cybersecurity:** PR: CIS 3360 or C.I. A directed and supervised investigation of selected problems, issues, and trends in cybersecurity, with emphasis on laboratory simulations of system penetration methods and network defense strategies. *Spring.*

**CIS 4991 ECS-CS 0(0,0)**  
**IT Career and Academic Advising II:** PR: CIS 3990 and department consent. Mandatory meeting with students and their faculty advisor for career/academic advising. *Fall/Spring.*

**CIS 5256 ECS-CS 3(3,0)**  
**Software Development Leadership:** PR: COP 4331C and Computer Science major The course teaches the concepts necessary to manage software projects successfully, with a focus on software quality, effective development practices, team dynamics, appropriate leadership style. *Fall.*

**CJC 3010 HPA-CJ 3(3,0)**  
**Corrections and Penology:** PR: CCJ 3024 or C.I. Theories, structures, and methods of institutional and non-institutional processing and treatment of convicted criminals and juvenile offenders. *Fall/Spring.*

**CJC 3134 HPA-CJ 3(3,0)**  
**Prisons and jails:** PR: CJC 3010. An overview and analysis of issues in institutional corrections, focussing on prison and jail history, inmates, guards, administration and management, and programming. *Occasional.*

**CJC 3164 HPA-CJ 3(3,0)**  
**Community-Based Corrections:** PR: CCJ 3024 and CJC 3010 or C.I. An overview and analysis of correction interventions and treatment programs in the community. *Occasional.*

**CJC 4410 HPA-CJ 3(3,0)**  
**Correctional Interventions in Criminal Justice:** PR: Junior Standing and CJC 3010. Intervention techniques used with juvenile and adult offenders in institutional and community-based settings and study of the theoretical foundations. *Occasional.*

**CJC 5020 HPA-CJ 3(3,0)**  
**Foundations of Corrections:** PR: Admission to Criminal Justice graduate program, graduate certificate, or C.I. Provides an overview of correction process in U.S., including philosophical foundations and contemporary practices. *Occasional.*

**CJE 3001 HPA-CJ 4(4,0)**  
**Careers in Criminal Justice:** PR: Sophomore Standing and ENC 1102. Introductory course with focus on components of the Criminal Justice process (police, courts, and corrections) and employment opportunities within the criminal justice system. *Fall/Spring.*

**CJE 3444 HPA-CJ 3(3,0)**  
**Crime Prevention:** PR: Sophomore Standing and ENC 1102. An overview and analysis of crime prevention strategies used in the private and public sectors. *Fall/Spring.*

**CJE 3662 HPA-CJ 3(3,0)**  
**CJ Information Technology and Data Management:** PR: (Sophomore Standing and CGS 1060C) or C.I. Designed to familiarize with concepts of databases, uses, and applicability to crime analysis. *Occasional.*

**CJE 4012 HPA-CJ 3(3,0)**  
**Criminal Profiling in Criminal Justice:** PR: CCJ 3014 or (Criminal Profiling or Crime Scene Investigation Certificate declared and Junior Standing) or C.I. Examines criminal profiling undertaken by law enforcement and prosecution authorities which consists of gathering, reviewing and analyzing evidence pertaining to violent crimes. *Occasional.*

**CJE 4014 HPA-CJ 3(3,0)**  
**Police and Society:** PR: CCJ 3024 or C.I. An examination of the varied roles of police in contemporary society. Emphasis is on dynamics of police/citizen interactions and the police subculture. *Fall/Spring.*

**CJE 4174 HPA-CJ 4(4,0)**  
**Comparative Justice Systems:** PR: CCJ 3024 and CJL 3510 or C.I. A survey of contemporary foreign criminal justice and differences emerging from various political, cultural and legal systems. *Occasional.*

**CJE 4352 HPA-CJ 3(3,0)**  
**Policy Development in Law Enforcement:** PR: Sophomore Standing and ENC 1102. The course is designed to deal with policy development in law enforcement. Major issues of organization, administration, personnel practices and police operations will be addressed. *Occasional.*

**CJE 4410 HPA-CJ 3(3,0)**  
**Community Policing:** PR: Sophomore Standing and ENC 1102. The viability of community policing. The theoretical basis for community interventions are related to the daily operations required by community policing. *Occasional.*

**CJE 4572 HPA-CJ 3(3,0)**  
**Justice Agency Operations:** PR: CCJ 3024 or C.I. Elements, functions, and processes essential to the continuing management of various criminal justice agencies, institutions and court systems. *Occasional.*

**CJE 4610 HPA-CJ 3(3,0)**  
**Criminal Investigation:** PR: CJE 4014 or (Criminal Profiling or Crime Scene Investigation certificate declared) or C.I. Course acquaints students with basic Procedures used in Criminal investigations, purpose of investigations, and ingredients for successful investigations. *Fall/Spring.*

**CJE 4630 HPA-CJ 3(3,0)**  
**Serial Murder and Criminal Justice:** PR: Junior Standing and ENC 1102 or C.I. Study of extent, types, and explanations of serial murder, and responses of the general public, law enforcement, and prosecution. *Occasional.*

**CJE 4654 HPA-CJ 3(3,0)**  
**Crime and Place:** PR: CCJ 3024 or (Crime Analysis and Crime Mapping Certificate declared and Junior Standing) or C.I. Provides an understanding of how physical environmental features - the natural and built environment - influences crime events. *Occasional.*

**CJE 4663 HPA-CJ 3(3,0)**  
**Crime Mapping and Pattern Analysis:** PR: CJE 3662 or C.I. Provides essential theoretical knowledge and hands on experience mapping crime and other spatial criminal justice data and analyzing crime patterns. *Occasional.*

**CJE 4694 HPA-CJ 3(3,0)**  
**Cybercrime and the Criminal Justice System:** PR: CCJ 3024 or C.I. An overview of criminal justice responses to cybercrime including enforcement, behavioral, and social factors that influence its perpetration, prevention, and prosecution. *Occasional.*

**CJE 5021 HPA-CJ 3(3,0)**  
**Foundations of Law Enforcement:** PR: Admission to Criminal Justice graduate program, graduate certificate program, or C.I. Examines police role in modern society and law enforcement policy. *Occasional.*

**CJJ 4564 HPA-CJ 3(3,0)**  
**Juvenile Justice System:** PR: (CCJ 3024 and CJ Majors) or Victim Advocacy Certificate declared or C.I. Examination of programs and institutions including juvenile court process, intake services, and remedial procedures and practices. *Occasional.*

## UCF Courses and Descriptions

**CJL 3110 HPA-CJ 3(3,0)**  
**Criminal Law in Action:** PR: Sophomore Standing and ENC 1102. Basic concepts of criminal law: elements of major crimes, criminal responsibility, defenses, and parties to crime. *Fall, Spring.*

**CJL 3510 HPA-CJ 3(3,0)**  
**Prosecution and Adjudication:** PR: CCJ 3024 or C.I. Examination of structures and goals of offices and prosecution and criminal trial courts, and of the processes of charging, adjudicating, and sentencing defendants. *Fall, Spring.*

**CJL 4010 HPA-CJ 3(3,0)**  
**Legal Aspects of Policing:** PR: CJE 4014. The legal dimensions of various police decision-making stages; including stops and frisks; arrests; searches and seizures; wiretappings; and, interrogations *Occasional.*

**CJL 4046 HPA-CJ 3(3,0)**  
**Liability Issues in Criminal Justice:** PR: CCJ 3024 or C.I. Study of fundamental liability concepts regarding criminal justice practices including the use of force across policing, courts and corrections. *Occasional.*

**CJL 4410 HPA-CJ 3(3,0)**  
**Legal Aspects of the Criminal Court Process:** PR: CJL 3510. The legal dimension of various criminal court decision making stages, including; bail; charging; preliminary hearing; grand jury; pretrial hearings plea hearings; trial; and, sentencing *Occasional.*

**CJL 4514 HPA-CJ 3(3,0)**  
**Criminal Sentencing:** PR: CCJ 3024, CJL 3510. Examines the myriad theoretical, empirical and operational issues involved in criminal sentencing policy in American society. *Occasional.*

**CJL 5049 HPA-CJ 3(3,0)**  
**International Perspectives on Law and Justice:** PR: Graduate standing or C.I. Examination of the legal and criminal justice systems of other nations and territories through lecture, seminar, research and field visits. *Occasional.*

**CJT 3803 HPA-CJ 3(3,0)**  
**Security Management:** PR: SCC 3311 or C.I. Examination of a global security management environment impacted by downsizing a dramatically changing work force, religious extremism/terrorism, technological revolution and other challenges. *Occasional.*

**CJT 3821 HPA-CJ 3(3,0)**  
**Practical Security Applications:** An examination of basic security principles applied to practical specific security situations encountered in the Central Florida area. *Occasional.*

**CJT 4843 HPA-CJ 3(3,0)**  
**Risk Management in Criminal Justice/Private Security:** PR: SCC 3311 or C.I. This course examines the concept of risk management in a criminal justice context. *Occasional.*

**CLP 3004 COS-PSYCH 3(3,0)**  
**Behavioral Self Control:** PR: PSY 2012. Application of behavioral and biofeedback techniques to self-regulation. *Occasional.*

**CLP 3143 COS-PSYCH 3(3,0)**  
**Abnormal Psychology:** PR: PSY 2012. Classification, causation, and treatment of deviant patterns of behavior. *Fall, Spring.*

**CLP 3143H COS-PSYCH 3(3,0)**  
**Honors Abnormal Psychology:** PR: PSY 2012 and consent of Honors. Classification, causation, and treatment of deviant patterns of behavior. With Honors content. *Occasional.*

**CLP 3184 COS-PSYCH 3(3,0)**  
**Women's Mental Health:** PR: PSY 2012. Social and cultural factors of mental health issues and conditions that are unique to or primarily impact women in the U.S. today. *Occasional.*

**CLP 3302 COS-PSYCH 3(3,0)**  
**Clinical Psychology:** PR: CLP 3143. An overview of approaches to psychopathology, methods of clinical assessment, and various approaches to individual and group counseling. *Fall, Spring.*

**CLP 3413 COS-PSYCH 3(3,0)**  
**Contemporary Behavior Therapy:** PR: CLP 3143. Emphasis on the underlying principles and the specific intervention procedures which are utilized in contemporary behavior therapy, including treatment strategies for particular behavior disorders. *Occasional.*

**CLP 3467 COS-PSYCH 3(3,0)**  
**Interpersonal Effectiveness and Group Psychotherapy:** PR: PSY 2012. Psychological aspects of interpersonal relationships, the rationale for group therapy, and strategies for enhancing interpersonal skills and personal growth. *Occasional.*

**CLP 4134 COS-PSYCH 3(3,0)**  
**Childhood Psychopathology:** PR: PSY 2012, CLP 3143, DEP 2004C. An in-depth survey of the prevalence, classification, symptoms, diagnosis, consequences, and treatments of disorders of infancy, childhood, and adolescence. *Fall, Odd Spring.*

**CLP 4314 COS-PSYCH 3(3,0)**  
**Health Psychology:** PR: PSY 2012. Interactions between psychosocial and physical conditions, in prevention, diagnosis, intervention and health care delivery policy planning. Course will cover empirical phases for prevention, assessment and intervention approaches for these focal areas: cancer, chronic heart disease, diabetes, HIV disease, pain and stress. *Occasional.*

**CLP 4390 COS-PSYCH 3(3,0)**  
**Forensic Psychology:** PR: PSY 2012. Clinical practice of psychology within the legal system, including forensic evaluation of competency/insanity, treatment, and criminal profiling. *Occasional.*

**CLP 5166 COS-PSYCH 3(3,0)**  
**Advanced Abnormal Psychology:** PR: Graduate status or senior standing or C.I. Consideration of classification, causation, management and treatment of emotional disorders. Review of theories and research in the field. Lecture/Laboratory. *Occasional.*

**CLP 5187 COS-PSYCH 3(3,0)**  
**Mental Health and Aging:** PR: Graduate status or senior standing or C.I. Introduction to assessment and intervention issues, practice and research related to problems with cognitive and emotional functioning among older adults. May be repeated for credit. *Occasional.*

**CLT 3370 CAH-PHIL 3(3,0)**  
**Classical Mythology:** PR: Any HUM course or C.I. Myths of the Greeks & Romans studied through excerpts from ancient sources and experienced through works of art, literature, and music. *Occasional.*

**CLT 3378 CAH-PHIL 3(3,0)**  
**Comparative Mythology:** PR: Any HUM course or C.I. Common themes found in the myths of various cultures; theories of their origins, meaning and value in human experience. *Occasional.*

**CNT 3004 ECS-CS 3(3,0)**  
**Computer Network Concepts:** PR: PHY 2053C with a grade of "C" (2.0) or better and, CR: CIS 3990. Network media, protocol, current and evolving standards for local, metropolitan, wide area and wireless networks. *Fall, Spring.*

**CNT 4403 ECS-CS 3(3,0)**  
**Network Security and Privacy:** PR: (CNT 3004 or EEL 4781 or CNT 4704) and (CIS 3360 or CIS 3362) all with a grade of "C" (2.0) or better or C.I. Fundamentals of network security, protocols, secure applications, network intrusion detection, security policy, firewalls, and privacy issues. *Occasional.*

**CNT 4425C ECS-CS 3(3,1)**  
**Cloud Computing Management:** PR: CGS 3763 or COP 4600 with a grade of "C" (2.0) or better. Administration of cloud computing. Topics include virtualization, container, resource management, programming models, application models, and system administration. Real-world Cloud Computing systems and tools, such as OpenStack, Amazon/Microsoft/Google public cloud systems, as well as Hadoop and Spark. *Spring.*

**CNT 4603 ECS-CS 3(3,0)**  
**System Administration and Maintenance:** PR: CGS 3763 with a grade of "C" (2.0) or better. An examination of operating systems and applications installation, configuration, and maintenance, including client-server services, content management and deployment, server administration and management, and user/group management. *Fall, Spring.*

**CNT 4703C ECS-CS 3(1,2)**  
**Design and Implementation of Computer Communication Networks:** PR: CNT 3004 and COP 3502C and (MAD 2104 or COT 3100C) all with a grade of "C" (2.0) or better. Data communication networking technologies (TCP/IP, Ethernet, Gigabit Ethernet, ATM, Frame Relay), products (routers, switches, adapters, cabling). Base design and detailed configuration including hands-on exercises. *Fall, Spring.* M&S fee \$16.00

**CNT 4704 ECS-CS 3(3,0)**  
**Analysis of Computer Communication Networks:** PR: (COT 3100C or MAD 2104) and STA 2023 each with grades of "C" (2.0) or better. Network design using layering. Introduces cabling, topology, architecture, hardware and software. Includes performance and control issues such as congestion control, error control, contention resolution. *Occasional.*

**CNT 4714 ECS-CS 3(3,0)**  
**Enterprise Computing:** PR: CGS 3269, MAD 2104, COP 3330 and COP 3502C all with a grade of "C" (2.0) or better. Client-server architecture. Server-side scripting: Servlets, JSP, PHP. JDBC and MySQL database; connectivity. Multi-threaded Java applications. J2EE development. SSL, Event-driven programming. *Fall, Spring.*

**CNT 4932 ECS-ECS 3(3,0)**  
**Wireless Communication and Networking:** PR: CNT 4703 or CNT 4704 or C.I. Wireless transmission basics, radio propagation, antennas, digital modulation, spread spectrum techniques, their applications. Design and testing Wi-Fi, WiMAX and microwave systems. Introduction to cellular technology. *Occasional.*

**CNT 4932C ECS-CS 3(3,1)**  
**Wireless Communications Technology:** PR: CNT 3004 or CNT 4704 An overview of wireless data communications systems and devices. Topics include explanation of the technology and implementing, testing, configuring, and troubleshooting equipment in the lab. *Occasional.*

**CNT 5008 ECS-CS 3(3,0)**  
**Computer Communication Networks Architecture:** PR: EEL 4768C. Computer networks, layers, protocols and interfaces, local area networks networking. *Fall.*

**CNT 5410L ECS-CS 3(1,3)**  
**Cyber Operations Lab:** PR: IDC 5602 or C.I. Programming, software, and hardware components for cybersecurity operations related to system administration, firewalls, cyber attack, cyber defense, security, secure architectures at network and computer level. *Occasional.*

**CNT 5805 ECS-ECS 3(3,0)**  
**Network Science:** PR: Undergraduate degree in CS, EE, or CpE. The emerging science of complex networks and their applications. Focus will be on algorithms, mathematical theories, and computational methods that analyze complex networks and predict their behavior. *Even Fall.*

**COM 1000 COS-COMM 3(3,0)**  
**Introduction to Communication:** Survey course introducing students to theory, research, and practical principles associated with human communication in interpersonal, public, and professional contexts. *Fall, Spring.*

**COM 3003 COS-COMM 3(3,0)**  
**Exploring Human Communication:** PR: Either SPC 1608, SPC 1603C, COM 1000, or C.I. The variety of topics and contexts that human communication scholars examine, the theories that have emerged and the research that creates the theories. *Occasional.*

## UCF Courses and Descriptions

**COM 3011C COS-COMM 3(1,2)**  
**Communication and Human Relations:** PR: or CR: COM 3311 or COM 3003, or CI Semantics; symbols and meaning and their relationship with human behavior. *Fall, Spring.*

**COM 3013 COS-COMM 3(3,0)**  
**Communication and the Family:** PR: One of the following; SPC 1608, SPC 1603C, COM 1000, or C.I. The ways members of a family unit interact verbally and nonverbally to influence one another. *Fall, Spring.*

**COM 3022 COS-COMM 3(3,0)**  
**Health Communication:** PR: SPC 1608, SPC 1603C, COM 1000, or CI. Theories and research about the role communication plays in health. *Fall.*

**COM 3110 COS-COMM 3(3,0)**  
**Business and Professional Communication:** PR: Human Communication, Ad-PR, or R-TV Majors or Human Communication Minors only; and one of the following; SPC 1608, SPC 1603C, or C.I. Theoretical and practical training in effective presentational speaking for business and professions. *Fall, Spring.*

**COM 3120 COS-COMM 3(3,0)**  
**Organizational Communication:** PR: or CR: COM 3311 or COM 3003, or C.I. A study of communication functions and problems within the contexts of hierarchies. *Fall, Spring.*

**COM 3311 COS-COMM 3(3,0)**  
**Communication Research Methods:** PR: STA 2014C and I-O Major or I-O Minor, or Human Communication major or Human Communication minor, or C.I. Research methods used in communication. Understanding and interpretation of original research emphasized. *Fall, Spring.*

**COM 3330 COS-COMM 3(3,0)**  
**Computer Mediated Communication:** PR: RTV major: Media Management & Operations specialization or Mass Communication Minor, and CGS 1060 or STA 2014C or STA 2023, or C.I. Communicating through computers. The foundations and applications of online and interactive multimedia applications, including trends and limitations. *Occasional.*

**COM 3332 COS-COMM 3(3,0)**  
**Communication, Technology, and Change:** PR: One of the following; SPC 1608, SPC 1603C, COM 1000, or C.I. How new technologies influence (and are influenced by) communication in a variety of contexts, including organization and interpersonal settings. *Fall, Spring.*

**COM 3406 COS-COMM 3(3,0)**  
**Role of Motivation in Communication:** PR: or CR: COM 3311 or COM 3003, or C.I. Motivation theories that directly affect the process of human communication. *Occasional.*

**COM 3800 COS-COMM 3(3,0)**  
**Conflict Communication Research Methods:** PR: Communication & Conflict major and either SPC 1608, or SPC 1603, or COM 1000, or C.I. Survey of research methods used by conflict communication scholars; emphasis on approaches, methodologies, and analyses used to inform the process of human conflict communication. *Fall, Spring.*

**COM 3801 COS-COMM 3(3,0)**  
**Communication Theories of Interpersonal Conflict:** PR: or CR: Communication & Conflict major and COM 3800, or CI. Examination of social dynamics, interpersonal behavior, and motivation in a variety of settings in order to analyze intergroup conflict, and violence reducing strategies and techniques. *Fall, Spring.*

**COM 3802 COS-COMM 3(3,0)**  
**Communication & Conflict:** PR: or CR: Communication & Conflict major and COM 3800, or CI. Examination of major theories and concepts related to communication and conflict focusing on the influence of message content, relationships, and environments in multiple conflict scenarios. *Fall, Spring.*

**COM 3912 COS-COMM 3(3,0)**  
**Collaborative Experiential Research Practicum:** PR: Either SPC 1608, SPC 1603C or COM 1000, and C.I. Students will work as research assistants in a team, under faculty supervision, and learn first-hand the process of conducting communication/social scientific research. May be used in the degree program a maximum of 2 times. *Occasional.*

**COM 4014 COS-COMM 3(3,0)**  
**Gender Issues in Communication:** PR: Junior Standing, and one of the following; SPC 1608, SPC 1603C, COM 1000, or C.I. A study of how communication exchanges, both verbal and non-verbal, differ between men and women, and how these differences are manifested. *Fall, Spring.*

**COM 4416 COS-COMM 3(3,0)**  
**Terrorism and Communication:** PR: One of the following: SPC 1603C, SPC 1608, COM 1000 or CI. How terrorism is a communication process. How mass media, symbols, linguistic devices, e-terrorism, and theoretical dimensions play a role in terrorism. How communities respond to terrorist attacks. *Fall, Spring.*

**COM 4416H COS-COMM 3(3,0)**  
**Honors Terrorism and Communication:** PR: One of the following: SPC 1603C, or SPC 1608, or COM 1000 or C.I., and Consent of Honors. How terrorism is a communication process. How mass media, symbols, linguistic devices, e-terrorism, and theoretical dimensions play a role in terrorism. How communities respond to terrorist attacks. *Occasional.*

**COM 4461 COS-COMM 3(3,0)**  
**Intercultural Communication:** PR: Junior Standing, and one of the following; SPC 1608, SPC 1603C, COM 1000, or C.I. Study of variables affecting messages and participants in intercultural contexts. *Fall, Spring.*

**COM 4462 COS-COMM 3(3,0)**  
**Conflict Management:** PR: or CR: COM 3311 or COM 3003, or C.I. The study of communication in everyday conflicts. *Fall, Spring.*

**COM 4550 COS-COMM 3(3,0)**  
**Health Communication Campaigns:** PR: COM 3311. Strategies and effects of health communication campaigns aimed at informing and persuading audiences. *Spring.*

**COM 4803 COS-COMM 3(3,0)**  
**Third Party Processes & Intervention:** PR: or CR: COM 3800. Identify components and skills in multiple third party processes including mediation, arbitration, and facilitation; build conflict management and process design skills. *Spring.*

**COM 4804 COS-COMM 3(3,0)**  
**Conflict & Communication Context:** PR: or CR: Communication & Conflict major and COM 3800, or CI. Exploration of communication factors that contribute to the development of conflict across groups, cultures and societies. *Fall, Spring.*

**COM 4805 COS-COMM 3(3,0)**  
**Transformative Communication:** PR: or CR: COM 3800. Examines various western and non-western belief/ethical systems, and how conflict may be perceived, communicated and interpreted using metaphysical approaches to conflict management. *Fall.*

**COM 4806 COS-COMM 3(3,0)**  
**Communication & Conflict Case Studies:** PR: Communication & Conflict major and Senior Standing, or C.I. Application of communication and conflict theories to intercultural and community case studies, examining historical, political, and cultural elements of empowerment and peace-building. *Spring.*

**COM 5312 COS-COMM 3(3,0)**  
**Introduction of Communication Research:** PR: Graduate standing or C.I. Provides the foundational knowledge and skills for conducting research in graduate Communication coursework including both quantitative and qualitative approaches. *Fall, Spring.*

**COM 5932 COS-COMM 3(3,0)**  
**Topics in Communication Theory and Research:** PR: Admission to Communication M.A. program or C.I. In-depth examination of a particular area of communication theory and research, emphasizing major developments, current uses, implications for research, and overall impact on the field. *Occasional.*

**COP 2500C ECS-CS 4(3,1)**  
**Concepts in Computer Science:** Fundamental concepts in program design, data structures, algorithms, analysis and a survey of topics in CS. Not open to Computer Science majors. *Fall, Spring.*

**COP 3223C ECS-CS 3(3,1)**  
**Introduction to Programming with C:** Programming in C including arrays, pointer manipulation and use of standard C math and IO libraries. *Fall, Spring.*

**COP 3223H ECS-CS 3(3,0)**  
**Honors Introduction to Programming with C:** PR: Consent of Honors. Programming with C including arrays, pointer manipulation and use of standard C math and IO libraries. With Honors content. *Fall.*

**COP 3330 ECS-CS 3(3,0)**  
**Object Oriented Programming:** PR: COP 3223C or EGN 3211 with a grade of "C" (2.0) or better. Object oriented programming concepts (classes, objects, methods, encapsulating, inheritance, interfaces) and the expression of these concepts in the programming languages such as JAVA. *Fall, Spring.*

**COP 3402 ECS-CS 3(3,0)**  
**Systems Software:** PR: CDA 3103C and COP 3502C each with a grade of "C" (2.0) or better. Design and development of assemblers, linkers, loaders, and compilers. Study memory hierarchy, program performance, and system level I/O. *Fall, Spring.*

**COP 3502C ECS-CS 3(3,1)**  
**Computer Science I:** PR: (COP 3223C or EGN 3211) and MAC 1105C all with a grade of "C" (2.0) or better. Problem solving techniques, order analysis and notation, abstract data types, and recursion. *Fall, Spring.*

**COP 3502H ECS-CS 3(3,0)**  
**Honors Computer Science I:** PR: Permission of Honors and (COP 3223C or EGN 3211) and MAC 1105C all with a grade of "C" (2.0) or better. Problem solving techniques, order analysis and notation, abstract data types, and recursion. *Spring.*

**COP 3503C ECS-CS 3(3,1)**  
**Computer Science II:** PR: COP 3502C and COP 3330 and (MAD 2104 or COT 3100C) all with a grade of "C" (2.0) or better. Algorithm design and analysis for tree, list, set, and graph data models; algorithmic strategies and applications, and algorithmic complexity analysis; sorting and searching; practical applications. *Fall, Spring.*

**COP 3503H ECS-CS 3(3,0)**  
**Honors Computer Science II:** PR: Permission of Honors and (COP 3502H or COP 3502C) and COP 3330 and (MAD 2104 or COT 3100C) each with a grade of "C" (2.0) or better. Algorithm design and analysis for tree, list, set, and graph data models; algorithmic strategies and applications, and algorithmic complexity analysis; sorting and searching; practical applications. With honors content. *Fall.*

**COP 4020 ECS-CS 3(3,0)**  
**Programming Languages I:** PR: COP 3503C with a grade of "C" or better and COT 3960. Paradigms and fundamental concepts of programming languages are presented, including: scope, binding, abstraction, encapsulation, typing etc. Design paradigms object-oriented, functional and logic programming are presented. *Fall, Spring.*

**COP 4331C ECS-CS 3(3,1)**  
**Processes for Object-Oriented Software Development:** PR: COP 3503C with a grade of "C" (2.0) or better and COT 3960 (CS majors). Concepts, principles, processes and methods for developing large software systems featuring a team project using object-oriented design in UML and implementation in C++. *Fall, Spring.*

## UCF Courses and Descriptions

**COP 4516C ECS-CS 3(1,3)**  
**Problem Solving Techniques and Team Dynamics:** PR: COP 3503C with a grade of "C" (2.0) or better. Design and implement solutions to problems requiring the applications of the different algorithms. Team project format. *Occasional*.

**COP 4520 ECS-CS 3(3,0)**  
**Concepts of Parallel and Distributed Processing:** PR: COP 3402 and COP 3503C each with a grade of "C" (2.0) or better and COT 3960. Parallel and distributed paradigms, architectures and algorithms, and the analytical tools, environments and languages needed to support these paradigms. *Occasional*.

**COP 4600 ECS-CS 3(3,0)**  
**Operating Systems:** PR: COP 3503C and COP 3402 (CS majors) each with a grade of "C" (2.0) or better and COT 3960 (CS majors). Function and organization of operating systems, process management, virtual memory, I/O management, and file management. *Fall, Spring*.

**COP 4710 ECS-CS 3(3,0)**  
**Database Systems:** PR: COP 3503C with a grade of "C" (2.0) or better. Storage and access Structures, database models and languages, related database design, and implementation techniques for database management systems. *Fall, Spring*.

**COP 4910 ECS-CS 3(3,0)**  
**Frontiers in Information Technology:** PR: CNT 4603 with a grade of "C" (2.0) or better; CR: CNT 4703C and CIS 4991. Research into leading edge information technologies that have a high likelihood of affecting the work place in the two to five year time frame. *Fall, Spring*.

**COP 4934 ECS-CS 3(3,0)**  
**Senior Design I:** PR: COP 3402 and COP 3503C each with a grade of "C" (2.0) or better and consent of Department of EECS; CR: COP 4331C. Students work in teams to demonstrate their knowledge of computer science and apply it to realistic and meaningful problems. *Fall, Spring*.

**COP 4935 ECS-CS 3(3,0)**  
**Senior Design II:** PR: COP 4934 with a grade of "C" (2.0) or better. Students work in teams to demonstrate their knowledge of computer science and apply it to realistic and meaningful problems. *Fall, Spring*.

**COP 5021 ECS-CS 3(3,0)**  
**Program Analysis:** PR: COP 4020 and COT 4210 or C.I. Static analysis of programs including theoretical and practical limitations, data flow analysis, abstract interpretation, and type and effect systems. Tools to automate program analysis. *Even Spring*.

**COP 5537 ECS-CS 3(3,0)**  
**Network Optimization:** PR: Graduate standing or C.I. Techniques for modeling complex, interconnected systems as networks; optimization with graph theory; algorithms, data structures, and computational complexity; statistical methods for studying large, evolving networks. *Fall*.

**COP 5611 ECS-CS 3(3,0)**  
**Operating Systems Design Principles:** PR: COP 4600. Structure and functions of operating systems, process communication techniques, high-level concurrent programming, virtual memory systems, elementary queuing theory, security, distributed systems, case studies. *Spring*.

**COP 5621 ECS-CS 3(3,0)**  
**Compiler Construction:** PR: COP4020 and COT 4210. Techniques in the design and implementation of compilers. Optimization, code generation, error recovery, attributed grammars. A project is required. *Odd Fall*.

**COP 5711 ECS-CS 3(3,0)**  
**Parallel and Distributed Database Systems:** PR: COP 4710. Storage manager, implementation techniques for parallel DBMSs, distributed DBMS architectures, distributed database design, query processing, multidatabase systems. *Occasional*.

**COP 5937 ECS-EECS 3(3,0)**  
**Advanced Web Programming:** PR: COT 3100C How to build efficient interactive multiuser web applications using modern web technologies such as Node.js. *Occasional*.

**COT 3100C ECS-CS 3(3,1)**  
**Introduction to Discrete Structures:** PR: MAC 2311C with a grade of "C" (2.0) or better. Logic, sets, functions, relations, combinatorics, graphics, Boolean algebras, finite-state machines, Turing machines, unsolvability, computational complexity. *Fall, Spring*.

**COT 3100H ECS-CS 3(3,0)**  
**Honors Introduction to Discrete Structures:** PR: Permission of Honors and MAC 1105C and MAC 1114C each with a grade of "C" (2.0) or better. Logic, sets, functions, relations, combinatorics, graphics, Boolean algebras, finite-state machines, Turing machines, unsolvability, computational complexity. *Occasional*.

**COT 3960 ECS-CS 0(1,0)**  
**CS Foundation Exam:** PR: COP 3502C and COT 3100C each with a grade of "C" (2.0) or better. Foundation examination for computer science majors. Required before taking advanced core courses in Computer Science and upper-division 4000 and 5000 level CS electives. Graded S/U. *Fall, Spring*.

**COT 4210 ECS-CS 3(3,0)**  
**Discrete Structures II:** PR: COP 3503C and MAC 2312 each with a grade of "C" (2.0) or better and COT 3960. Computation theory. A study of the properties of grammars and automata as formal specifications for algorithms and families of languages. *Fall, Spring*.

**COT 4400 ECS-CS 3(3,0)**  
**Tools for Algorithm Analysis:** PR: COT 3960 and COP 3503C. Tools from discrete and continuous mathematics for analyzing complexity of algorithms. Order notation use and manipulation. *Occasional*.

**COT 4500 ECS-CS 3(3,0)**  
**Numerical Calculus:** PR: MAC 2312 and COP 3223C each with a grade of "C" (2.0) or better. Numerical methods for finding roots of nonlinear equations, solutions of systems of linear equations, and ordinary differential equations. *Occasional*.

**COT 4810 ECS-CS 3(3,0)**  
**Topics in Computer Science:** PR: COP 3402 and COP 3503C each with a grade of "C" (2.0) or better and COT 3960. A range of topics from the field of Computer science; application of oral and written communication skills; social, ethical and moral issues of computing. *Fall, Spring*.

**COT 5405 ECS-CS 3(3,0)**  
**Design and Analysis of Algorithms:** PR: COT 4210. Classification of algorithms, e.g., recursive, divide-and-conquer, greedy, etc. Data Structures and algorithm design and performance. Time and space complexity analysis. *Fall, Spring*.

**COT 5937 ECS-EECS 3(3,0)**  
**Advanced Cryptography:** PR: COT 3100C This course explains the inner workings of public-key systems and higher-level cryptographic protocols. It introduces senior undergraduate students and graduate students to (1) advanced cryptographic protocols such as multi-party computation and homomorphic encryption, (2) important real-life applications such as e-cash systems, and (3) advanced topics in algorithmic number theory such as lattices and elliptic curves. *Occasional*.

**CPO 3034 COS-POLS 3(3,0)**  
**Politics of Developing Areas:** PR: INR 2002 or C.I. Comparative analysis of theories, problems and politics of development in Third World nations. *Even Fall*.

**CPO 3057 COS-POLS 3(3,0)**  
**Contemporary Revolution and Political Violence:** PR: ENC 1102 or C.I. Theories and cases of revolutionary change and political violence in the contemporary world. *Occasional*.

**CPO 3103 COS-POLS 3(3,0)**  
**Comparative Politics:** PR: ENC 1102 or POS 2041 or C.I. Government and politics in selected nations, with emphasis upon comparative analysis of contemporary problems, politics, political culture, behavior, and institutions. *Spring*.

**CPO 3104 COS-POLS 3(3,0)**  
**Politics of Western Europe:** PR: ENC 1102 or POS 2041 or C.I. An examination of the political and economic dynamics of Western Europe in the post-1945 era. *Odd Spring*.

**CPO 3132 COS-POLS 3(3,0)**  
**Canadian Politics:** PR: POS 2041 or C.I. Canadian politics including identity formation, political institutions, political culture, and U.S./Canada relations. *Occasional*.

**Creative Nonfiction Writing:** PR: English major or minor, junior standing, and grade of C (2.0) or better required in CRW 3013 and CRW 3053, or C.I. Writers present original nonfiction writing for class response and individual conferences. Reading of key works of creative nonfiction with discussion of definitions of the genre. *Fall, Spring.*

**CRW 3310 CAH-ENG 3(3,0)**  
**Poetry Writing Workshop:** PR: English major or minor, junior standing, and a grade of C (2.0) or better required in CRW 3013 and CRW 3053, or C.I. An intermediate level poetry workshop for English majors. Group analysis and criticism; close reading of contemporary poetry and poetic theory. *Fall, Spring.*

**CRW 3311 CAH-ENG 3(3,0)**  
**Readings in Poetry for Creative Writing:** PR: English major or minor, junior standing, and grade of "C" (2.0) or better required in CRW 3013 and CRW 3053, or C.I. Intensive study of the structural characteristics of English, poetry, metrical systems, rhyme, scansion, and poetic rhetorical devices. *Occasional.*

**CRW 3540 CAH-ENG 3(3,0)**  
**Literary Magazines:** PR: English major or minor and grade of "C" (2.0) or better required in CRW 3013 and CRW 3053, or C.I. Examination of fiction and poetry trends in current literary magazines, identifying editorial policies in publication of contemporary literature. *Occasional.*

**CRW 3610 CAH-ENG 3(3,0)**  
**Writing Scripts:** PR: English major or minor and grade of "C" (2.0) or better required in CRW 3013 and CRW 3053, or C.I. Theory and practice of writing scripts for film and TV. *Fall, Spring.*

**CRW 3713 CAH-ENG 3(3,0)**  
**Writing for Video Games:** PR: English major or minor and grade of "C" (2.0) or better required in CRW 3013 and CRW 3053, or C.I. Basic theories and practices associated with game design. Students learn effective writing techniques for developing original video games. *Occasional.*

**CRW 3950 CAH-ENG 3(3,0)**  
**Cypress Dome Editorship:** PR: C.I. Responsibility for all aspects of editing The Cypress Dome-UCF's student literary journal. May be used in the degree program a maximum of 2 times. *Fall, Spring.*

**CRW 4114 CAH-ENG 3(3,0)**  
**History of Prose Style:** PR: English major or minor and grade of "C" (2.0) or better required in CRW 3013 and CRW 3053, or C.I. Close study of style and craft in exemplary works of fiction and creative nonfiction from various time periods. *Occasional.*

**CRW 4122 CAH-ENG 3(3,0)**  
**Advanced Fiction Writing Workshop:** PR: English major or minor, and grade of "C" (2.0) or better required in CRW 3120, or C.I. Intensive writing practice in fiction. Peer critique and group discussion of original manuscripts. *Fall, Spring.*

**CRW 4123 CAH-ENG 3(3,0)**  
**Science Fiction Writing:** PR: English major or minor, and grade of "C" (2.0) or better required in CRW 3120, or C.I. Study of science fiction literature and writing of original science fiction stories. Workshop format with critique of writing assignments. *Occasional.*

**CRW 4224 CAH-ENG 3(3,0)**  
**Advanced Nonfiction Workshop:** PR: English major or minor, and grade of "C" (2.0) or better required in CRW 3211, or C.I. Intensive reading, writing, and workshop of creative nonfiction drawing on memory, observation, journalistic research, and literary techniques. *Fall, Spring.*

**CRW 4320 CAH-ENG 3(3,0)**  
**Advanced Poetry Writing Workshop:** PR: English major or minor, and grade of "C" (2.0) or better required in CRW 3310, or C.I. Intensive writing practice in poetry. Peer critique and group discussion of original manuscripts. *Fall, Spring.*

**CRW 4616 CAH-ENG 3(3,0)**  
**Advanced Scriptwriting Workshop:** PR: English major or minor, and grade of "C" (2.0) or better required in CRW 3610, or C.I. Intensive practice in writing scripts. Peer critique and group discussion of original manuscripts. *Fall, Spring.*

**CRW 4722 CAH-ENG 3(3,0)**  
**Editing for Creative Writers:** PR: English major or minor, and grade of "C" (2.0) or better required in CRW 3013, CRW 3053 and at least one of CRW 3120, CRW 3211, CRW 3310, or CRW 3610 or C.I. Overview of editing processes, the history and future of editing, issues and areas of literary and trade book publishing, and style through grammar and syntax. *Occasional.*

**CRW 4724 CAH-ENG 3(3,0)**  
**The Florida Review:** PR: English major or minor, junior standing, and a grade of "C" (2.0) or better required in CRW 3013, CRW 3053, and C.I. Hands-on experience with all aspects of Florida Review publishing, editing, and production in conjunction with this national journal. May be used in the degree program a maximum of 2 times. *Fall, Spring.*

**CRW 4804 CAH-ENG 3(3,0)**  
**Creative Writing in the Community:** PR: English major or minor, and grade of C (2.0) or better required in CRW 3013, CRW 3053 and at least one of CRW 3120, CRW 3211, CRW 3310, or CRW 3610 or C.I. Teaching creative writing to community groups through service-learning. *Occasional.*

**CRW 5130 CAH-ENG 3(3,0)**  
**Form and Theory in Creative Writing:** PR: Admission to Creative Writing MFA or C.I. Formal and theoretical study of creative writing of given genre (poetry, short fiction, etc.). May be used in the degree program a maximum of 3 times. *Occasional.*

**CRW 5948C CAH-ENG 3(2,1)**  
**Creative Writing Service Learning:** PR: Admission to Creative Writing MFA or C.I. On-site experience leading and sharing creative writing in community settings. May be used in the degree program a maximum of 3 times. *Occasional.*

**CWR 3201 ECS-CECE 3(3,0)**  
**Engineering Fluid Mechanics:** PR: MAP 2302, EGN 3310 both with a grade of "C" (2.0) or better; CR: EGN 3321. Fundamentals of fluid mechanics with hydraulic applications: fluid properties, hydrostatics, dimensional analysis, energy, momentum, continuity, and steady flow. *Fall, Spring.*

**CWR 4120 ECS-CECE 3(3,0)**  
**Hydrology:** PR: CWR 4202C and STA 3032 both with grades of "C" (2.0) or better. Occurrence, distribution, and properties of fresh water on Earth and movement via physical processes. Application of hydrology, fluid mechanics, and computation to water resources. *Fall, Spring.*

**CWR 4124 ECS-CECE 3(3,0)**  
**Hydrogeology:** PR: CWR 4202C and CEG 4011C both with grades of "C" (2.0) or better. Fundamentals of subsurface flow and transport, role of groundwater in the hydrologic cycle, relation of groundwater flow to geologic structure, and management of contaminated groundwater. *Spring.*

**CWR 4202C ECS-CECE 3(3,2)**  
**Hydraulics:** PR: CWR 3201 with a grade of "C" (2.0) or better. Application of basic principles of fluids at rest and in motion to analysis and design of hydraulic systems. Empirical relationships for practical engineering problems. *Fall, Spring.*

**CWR 4632C ECS-CECE 4(3,2)**  
**Water Resources Engineering I:** PR: STA 3032 and CWR 3201 both with a grade of "C" (2.0) or better. Descriptive and quantitative aspect of water in the earth's environment and its engineering implications, including analysis of surface water systems, design of hydraulic structures, and stormwater management. *Fall, Spring.* M&S fee \$21.00

**CWR 4633C ECS-CECE 3(3,2)**  
**Water Resources Engineering II:** PR: CWR 4632C with a grade of "C" (2.0) or better. Provision of advanced understanding of hydrology, hydrologic river routing, open/closed channel, and groundwater hydraulic and some engineering applications of these concepts. *Fall, Spring.*

**CWR 4812C ECS-CECE 3(2,2)**  
**Water Resources Design:** PR: CWR 4120 with a grade of "C" (2.0) or better and department consent. Project course for the design of storm water, potable and sewer transmission systems using local and state regulations. *Fall, Spring.* M&S fee \$15.00

**CWR 5125 ECS-CECE 3(3,0)**  
**Groundwater Hydrology:** PR: CWR 4124C or C.I. Theories of groundwater movement, geological factors, analysis and design techniques, etc. Emphasis on practical considerations. *Occasional.*

## UCF Courses and Descriptions

**DIG 3355C CAH-SVAD 3(2,2)**  
**Artificial Environments and Effects:** PR: DIG 2109 and C.I. CR: DIG 3951. Design and manipulation to convey a story, thought, and concept in visual medium. New imagery in motion such as non-character entities, music videos, and scientific visualization. *Fall, Spring.*

**DIG 3362C CAH-SVAD 3(2,2)**  
**Artificial Characters:** PR: DIG 2109 and C.I. CR: DIG 3951. Processes and techniques for design and manipulation of artificial characters to convey story, thought, or concept in a visual medium. *Fall, Spring.*

**DIG 3433C CAH-SVAD 3(2,2)**  
**Visual Storytelling and Visual Development:** PR: DIG 2109 and DIG 2500 and C.I. CR: DIG 3951. Processes and techniques to transform story concepts into a producible visual experience. *Fall, Spring.*

**DIG 3450 CAH-SVAD 3(3,0)**  
**Interactive Performance I:** PR: Admission by audition only. Digital Media, Theatre majors, or C.I. Techniques of interactive acting, with emphasis on interpersonal awareness and audience facilitation. *Fall, Spring.*

**DIG 3450H CAH-SVAD 3(3,0)**  
**Honors Interactive Performance I:** PR: C.I. and consent of Honors. Techniques of interactive acting, with emphasis on interpersonal awareness and audience facilitation. With Honors content. *Occasional.*

**DIG 3480 CAH-SVAD 3(3,0)**  
**Computer as a Medium:** PR: DIG 2500 and a minimum grade of "B" (3.0) in DIG 2000. Fundamentals of client-side scripting with an emphasis on web technologies. Development of interactive web sites using current scripting languages. *Fall, Spring.*

**DIG 3525 CAH-SVAD 3(3,0)**  
**Digital Media Production I:** PR: DIG 2030, DIG 2109, DIG 2500, and a minimum grade of "B" (3.0) in DIG 2000. Media project planning, organization and execution; group dynamics. Software tools for project planning, scheduling and management. *Fall, Spring.*

**DIG 3543C CAH-SVAD 3(2,2)**  
**The Production Process:** PR: DIG 2030 and DIG 2109 and C.I. CR: DIG 3951. Production in a visual medium from narrative idea to finished artifact. *Fall, Spring.*

**DIG 3554 CAH-SVAD 3(3,0)**  
**Digital Tools and Technologies: Web Design:** PR: Grade of "C" (2.0) or better in DIG 2000 or C.I. Creative and functional website design and development using Adobe Dreamweaver, including use of CSS, HTML, and incorporation of media and mobile design. *Fall, Spring.*

**DIG 3563 CAH-SVAD 3(3,0)**  
**Information Management and Entrepreneurship:** PR: DIG 3525. Managing digital assets from both technical and fiduciary aspects with a view towards creating, storing, retrieving assets, and authoring of databases and file types. Introduction of basic financial and entrepreneurial elements of starting and running a small business. *Fall, Spring.*

**DIG 3716C CAH-SVAD 3(2,2)**  
**Internet Interaction:** PR: DIG 3480. Front end planning and design of web pages. Design using markup languages and style sheets to produce visually pleasing and usable interactive interfaces. *Fall, Spring.*

**DIG 3811 CAH-SVAD 3(3,0)**  
**User-Centered Design:** PR: DIG 3525. Applying knowledge about cognition and behavior to design usable interfaces and systems. *Fall, Spring.*

**DIG 3951 CAH-SVAD 0(0,0)**  
**Character Animation Portfolio Review:** PR: C.I. Review of relevant digital and artistic works in a student's portfolio. Graded S/U. *Fall.*

**DIG 4104C CAH-SVAD 3(2,2)**  
**Web Design Workshop:** PR: DIG 3134C, DIG 3716C, DIG 3563, and DIG 3811. Students will practice designing and implementing professional-quality websites. May be used in the degree program a maximum of 2 times. *Fall, Spring.*

**DIG 4204C CAH-SVAD 3(2,2)**  
**Generating and Manipulating Digital Imagery:** PR: DIG 2030, DIG 2109, and DIG 2500, or C.I. CR: DIG 3951. Core techniques for creating and manipulating second and third digital representations. *Fall, Spring.*

**DIG 4206C CAH-SVAD 3(1,4)**  
**New Imagery in Motion Workshop:** PR: DIG 4325C, successful portfolio review, or C.I. Conceptual and technical aspects of scripting, image processing, 3D/2D data acquisition while practicing the use of generators, filters, particles, masks, and audio into digital projects. *Spring.*

**DIG 4323C CAH-SVAD 3(1,4)**  
**Modeling for Visual Language:** PR: DIG 4451C or C.I. Application of techniques taught to model, rig, and prepare artificial characters so that they may be animated effectively and express narrative for digital production. *Fall.*

**DIG 4324C CAH-SVAD 3(2,2)**  
**Modeling for Realtime Systems II:** PR: DIG 4780C. Advanced techniques for character animation, texture, lighting, rendering. Project oriented. *Spring.*

**DIG 4325C CAH-SVAD 3(1,4)**  
**Look Modeling Workshop:** PR: DIG 4780C and successful portfolio review, or C.I. Techniques, mechanics of designing, developing finished look emphasis on rendering, shading, texturing, and lighting. *Spring.*

**DIG 4326C CAH-SVAD 3(1,4)**  
**Geometrical Modeling Workshop:** PR: DIG 4780C and successful portfolio review or C.I. Techniques and mechanics of designing and manipulating geometrical representations of artificial characters and their environments; introduction to procedural models. *Spring.*

**DIG 4354C CAH-SVAD 3(1,4)**  
**Advanced 3D Animation:** PR: DIG 4323C, successful portfolio review, or C.I. Advanced tools, concepts and techniques developed in the previous 3D animation courses. Students apply techniques to 3D character animation. *Spring.*

**DIG 4359C CAH-SVAD 3(1,4)**  
**Artificial Environments and Effects Workshop:** PR: DIG 3355C and successful portfolio review, or C.I. Techniques and mechanics of artificial environments, with emphasis on compositing, image processing, visual style, visual continuity. *Spring.*

**DIG 4369C CAH-SVAD 3(1,4)**  
**Artificial Characters Workshop:** PR: DIG 3362C and successful portfolio review, or C.I. Techniques and mechanics of artificial characters, with emphasis on attitude in action, personality of character expressions, and bringing characters to life. *Spring.*

**DIG 4373C CAH-SVAD 3(1,4)**  
**3D Textures:** PR: DIG 4323C or C.I. Advanced application of lighting and surface attributes, improving on the tools, concepts, and techniques learned in previous 3D courses. *Spring.*

**DIG 4394C CAH-SVAD 3(1,4)**  
**Motion Graphics: Advanced Compositing:** PR: DIG 4359C, successful portfolio review, or C.I. Advanced techniques including 3D modeling, texturing, lighting, particles, and compositing to create motion graphics. Manage and navigate objects, images and other media in visual narratives, as pertaining to 3-D Content. *Spring.*

**DIG 4395 CAH-SVAD 3(3,0)**  
**Motion Capture for Performance:** PR: MAC 1105C, and DIG 3480 or TPA 2200, or C.I. Develop creative skills, learn theory and technology of motion capture systems for live and recorded dramatic performance, augmented & virtual reality, training, and educational applications. *Spring.*

**DIG 4434C CAH-SVAD 3(1,4)**  
**Narrative Techniques in the Moving Image:** PR: DIG 4451C, successful portfolio review, or C.I. Advanced application of techniques in Visual Language employed in story production focusing on advancing a narrative and evoking emotion. *Spring.*

**DIG 4451C CAH-SVAD 3(1,4)**  
**Visual Storytelling and Visual Development Workshop:** PR: DIG 3433C and successful portfolio review, or C.I. Techniques, mechanics of visual development with emphasis on strong visual designs which communicate effectively. *Odd Spring.*

**DIG 4455 CAH-SVAD 3(3,0)**  
**Interactive Performance II:** PR: DIG 3450C or C.I. Continuation of Interactive Performance I, with focus on the integration of actors, audience participation, technology, and story structure. *Spring.*

**DIG 4486C CAH-SVAD 3(1,4)**  
**Visual Language of Moving Image II:** PR: DIG 3433C, successful portfolio review, or C.I. Application of techniques taught to design, create, and refine visual development, story board, story reel, character design, and animation that expresses a narrative for digital production. *Fall.*

**DIG 4503 CAH-SVAD 3(3,0)**  
**Rapid Application Web Development:** PR: DIG 3134 and DIG 3716C. Asynchronous web development using current server-side and client-side scripting techniques and database technologies. *Spring.*

**DIG 4526 CAH-SVAD 3(3,0)**  
**Digital Media Production II:** PR: DIG 3525 and a minimum grade of "B" (3.0) or better in DIG 2000. Management and execution of large digital media projects, using structured methods and tools learned in Digital Media Production I. *Fall, Spring.*

**DIG 4530C CAH-SVAD 3(2,2)**  
**Media for e-Commerce:** PR: DIG 3134C and DIG 3716C. The applications of server-side internet programming languages and media theory to e-commerce, internet security, and online portals. *Fall, Spring.*

**DIG 4624C CAH-SVAD 3(1,4)**  
**Digital Production in Artificial Environments:** PR: DIG 4359C, successful portfolio review, or C.I. Application of techniques to continue building artificial environments and effects, addressing lighting, continuity, movement, theme and mood to help express a narrative for digital production. *Fall.*

**DIG 4630C CAH-SVAD 3(2,2)**  
**Media Business Practices:** PR: DIG 3525. Media business practices for working with interactive web sites and other media interfaces. Covers skills related to e-commerce and other forms of dynamic media. *Fall, Spring.*

**DIG 4693C CAH-SVAD 3(2,2)**  
**Production Software Workshop:** PR: DIG 3134C or C.I. Advanced programming techniques for a variety of web-based applications using ActionScript, including dynamic and input text, variables, physics, artificial intelligence, collision detection, user interaction, and animation. *Spring.*

**DIG 4704 CAH-SVAD 3(3,0)**  
**Interactive Entertainment:** PR: DIG 3525 or C.I. Ways to apply diverse skills of film making to digital media, non-linear story telling, virtual reality, video games and non-traditional education and military simulation. *Fall, Spring.*

**DIG 4713 CAH-SVAD 3(3,0)**  
**Game Design:** PR: DIG 3024, DIG 3525 and declared Game Design Track. Principles and theories of video game design, including software, content, interaction, and game play design. Project based. *Fall, Spring.*

**DIG 4715C CAH-SVAD 3(2,2)**  
**Game Production:** PR: A minimum grade of "B" (3.0) in DIG 4713 and a satisfactory portfolio review. Principles and theories of video game production, including project planning, scripting, 3D modeling and texturing, level design, and audio. Project based. *Fall, Spring.*

**DIG 4720C CAH-SVAD 3(2,2)**  
**Casual Game Production:** PR: DIG 2500, a minimum grade of "B" (3.0) in DIG 4713, and a satisfactory portfolio review. Students will learn to design and implement casual video games using professional tools and iterative design techniques. *Fall, Spring.*

## UCF Courses and Descriptions

**DIG 4725C CAH-SVAD 3(2,2)**  
**Game Design Workshop:** PR: DIG 4715C, FIL 3720C, a minimum grade of "B" (3.0) in DIG 4713, and a satisfactory portfolio review. Students will learn to design and implement video games using professional tools and iterative design techniques. May be used in the degree program a maximum of 4 times. *Fall, Spring.*

**DIG 4780C CAH-SVAD 3(2,2)**  
**Modeling for Realtime Systems:** PR: DIG 2109 and a minimum grade of "B" (3.0) in DIG 2000. Principles of construction of 3D models for real-time applications. Topics include level of detail management and efficiency versus visual quality for video games and simulation. *Fall, Spring.*

**DIG 4855 CAH-SVAD 3(3,0)**  
**Converging Media Capstone:** PR: GEB 3031 Cornerstone and 12 hours of restrictive electives within the Visual Arts and Emerging Media Management Track. Team based converging media projects leading to a capstone project that emphasizes creative thinking, proto-typing, development, marketing and assessment paralleling the business world. *Even Fall, Even Spring.*

**DIG 5045C CAH-FIEA 3(1,3)**  
**Principles of Interactive Entertainment I:** PR: Admission to Digital Media MS program or C.I. Interactive digital content creation technologies and development processes. *Fall.*

**DIG 5046C CAH-FIEA 3(1,3)**  
**Principles of Interactive Entertainment II:** PR: DIG 5045C or C.I. Advanced principles of interactive digital content creation technologies and development processes. *Fall.*

**DIG 5137 CAH-SVAD 3(3,0)**  
**Information Architecture:** PR: Film and digital media majors or C.I. Exploration of the process of formal design of interactive processes, examining the theories of usability and object oriented design. *Fall.*

**DIG 5348C CAH-FIEA 3(1,3)**  
**Digital Asset Creation:** PR: Admission to FIEA MS in Interactive Entertainment program or C.I. Introduction to digital art asset creation fundamentals, including figure drawing, digital painting, 3d modeling, animation, character setup, technical art and contemporary game engine topics. *Fall.*

**DIG 5366C CAH-SVAD 3(1,2)**  
**Animation and Visual Effects Production II :** PR: DIG 5386C Animation and Visual Effects Production I or C.I. Topics in animation and visual effects project creation and production pipeline management in a team environment. *Spring.*

**DIG 5378C CAH-SVAD 3(1,2)**  
**Editing for Animation and Visual Effects I: Theory and Production :** PR: Emerging Media MFA - Animation and Visual Effects track student or C.I. Exploration of history and grammar of editing will be examined, adapted and applied to the specific needs of narrative animation and live-action visual effects. *Spring.*

**DIG 5385C CAH-SVAD 3(1,2)**  
**Visual Effects for Animation and Live Action I:** PR: Emerging Media MFA - Animation and Visual Effects track student or C.I. Application of digital tools to generate visual effects animation for successful integration with animate and live action media, and the aesthetic critique of results. *Spring.*

**DIG 5386C CAH-SVAD 3(1,2)**  
**Animation and Visual Effects Production I:** PR: Emerging Media MFA - Animation and Visual Effects track student or C.I. Production of a short animated or visual effects concept to completion with the focus on working as an individual to meet deadlines. *Fall.*

**DIG 5387C CAH-SVAD 3(1,2)**  
**Visual Development and Design for Animation and Visual Effects :** PR: Emerging Media MFA - Animation and Visual Effects track student or C.I. Design concepts are applied to animation environments to create a "personality of place", visual continuity, and to create the visual universe of the story. *Spring.*

**DIG 5439C CAH-SVAD 3(1,2)**  
**Script and Story Development for Animation and Visual Effects:** PR: Emerging Media MFA - Animation and Visual Effects track student or C.I. Students will write and storyboard original narrative short animation, or script and storyboard solutions addressing specific live action problems in visual effects. *Fall.*

**DIG 5487 CAH-SVAD 3(3,0)**  
**Principles of Visual Language:** PR: Film and digital media majors or C.I. Overview of Visual Language, including the nature of perceptions and cognitions of imagery. *Fall.*

**DIG 5529C CAH-FIEA 3(1,3)**  
**Production for Media:** PR: Admission to Digital Media MS program or C.I. Theories and practices of production processes for interactive entertainment. *Fall.*

**DIG 5548C CAH-FIEA 3(1,3)**  
**Rapid Prototype Production I:** PR: Admission to Digital Media MS or C.I. Students engage in interdisciplinary teams to create rapid development projects. *Fall.*

**DIG 5549 CAH-FIEA 3(3,0)**  
**Experimentation, Application, and Innovation in Games:** PR: DIG 5529C or C.I. Survey and development of games being used in non-traditional applications, such as medical simulation, education and research. *Spring.*

**DIG 5557 CAH-FIEA 3(3,0)**  
**Production and Design I:** PR: Admission to FIEA MS in Interactive Entertainment program or C.I. Theory and methodology for creation and communication of videogame designs. *Fall.*

**DIG 5565C CAH-SVAD 3(1,3)**  
**Digital Asset Management Systems:** PR: Graduate standing or C.I. Structure and use of Digital Asset Management Systems (DAMS). Protection of intellectual property rights by encryption, water marking, steganography. Version and work process flow control systems. *Occasional.*

**DIG 5637 CAH-FIEA 3(3,0)**  
**Game Programming Fundamentals:** PR: Admission to FIEA M.S. in Interactive Entertainment program or C.I. An introduction to real-time game programming fundamentals, including computer architecture and low-level programming and optimization. Specific attention to game consoles and cross-platform software development. *Fall.*

**DIG 5810 CAH-SVAD 3(3,0)**  
**Ways of Seeing: Cultural and Technological Perspectives:** PR: Admission to Film and Digital Media master's program or C.I. Cultural and technological perspectives formed by the intersection of media and cultural studies, art history and criticism, and cinema studies. *Fall.*

**DIG 5856 CAH-FIEA 3(3,0)**  
**Experimentation, Application and Innovation in Games:** PR: DIG 5529C or C.I. Survey and development of games being used in non-traditional applications, such as medical simulation, education and research. *Spring.*

**DIG 5865 CAH-SVAD 3(3,0)**  
**The History of Animation and Visual Effects :** PR: Emerging Media MFA - Animation and Visual Effects track student or C.I. History of animation and visual effects from beginning to present covering a wide-range of narrative, independent, commercial, and experimental projects produced throughout the world. *Fall.*

**DIG 5876 GRDST-INTERDIS 3(3,0)**  
**Quantitative Aspects of Modeling and Simulation:** PR: Graduate Standing or C.I. Introduction to matrix algebra and other discrete mathematics topics for modeling and simulation applications. *Spring.*

**DSC 4012 HPA-CJ 3(3,0)**  
**Terrorism:** PR: Sophomore Standing and ENC 1102. An examination of competing ideologies of a variety of social and political conflicts (both international and domestic) that give rise to terrorism and of the implications for the criminal justice system. *Occasional.*

**DSC 4013 HPA-CJ 3(3,0)**  
**Homeland Security and Criminal Justice:** PR: Sophomore standing and ENC 1102. Analysis of homeland safety and security in contemporary society and government. *Occasional.*

**EAB 3703 COS-PSYCH 3(3,0)**  
**Principles of Behavior Modification:** PR: PSY 2012. An examination of the control of behavior through applications of principles and theories of learning. Examples are drawn from clinical and social psychology and from child rearing. *Fall.*

**EAB 3706 COS-PSYCH 3(3,0)**  
**Behavior Modification - Part II:** PR: EAB 3703 Continued examination of the principles of behavior analysis and their application, as well as ethical issues related to the delivery of behavior analysis programs. *Occasional.*

**EAB 5765 COS-PSYCH 3(3,0)**  
**Applied Behavior Analysis with Children and Youth:** PR: Graduate standing or senior standing or C.I. Advanced survey of principles, procedures, and techniques of applied behavior analysis, with special attention to applications with children and youth. *Occasional.*

**EAP 1850 CAH-LANG 6(6,0)**  
**English for Academic Purposes I:** PR: Admission to the Global Achievement Academy (GAA). Development of academic skills for international students. Topics include academic reading and vocabulary development; listening and note-taking; and writing practice and oral communication. *Fall, Spring.*

**EAP 2851 CAH-LANG 3(3,0)**  
**English for Academic Purposes II:** PR: Admission to the Global Achievement Academy (GAA) and a grade of "C" (2.0) or higher in EAP 1850 or consent of Global Achievement Academy. Development of advanced academic skills for international students. Topics include academic reading and vocabulary development; listening and note-taking; and writing practice and oral communication. *Fall, Spring.*

**EAS 3010 ECS-MECH/AERO 3(3,0)**  
**Fundamentals of Aerospace Flight:** PR: EGN 3321 and a "C" (2.0) or better in all of the following prerequisites: MAC 2311C, MAC 2312 and PHY 2048; CR: EGN 3343. Fundamental theories of inviscid, incompressible aerodynamics and flight mechanics, airfoil theory, external and internal flows, airplane performance. *Fall.*

**EAS 3101 ECS-MECH/AERO 3(3,0)**  
**Fundamentals of Aerodynamics:** PR: "C" (2.0), or better in EML 3701. Viscous, incompressible fluid flow; flow over finite wings; aerodynamic design; introduction to computational fluid dynamics. *Spring.*

**EAS 3530 ECS-MECH/AERO 3(3,0)**  
**Space Systems Concepts:** PR: EGN 3321, PHY 2049C, MAP 2302. Physical and engineering aspects of current space flights. Space nuclear propulsion and power. Design of spacecraft for space environment. Communication with spacecraft. Space-borne instrumentation. *Spring.*

**EAS 3800C ECS-MECH/AERO 3(2,3)**  
**Aerospace Engineering Measurements:** PR: "C" (2.0), or better in EGN 3343. Theory, calibration and use of instruments. Measurement techniques, data analysis, report writing. Laboratory topics related to aerospace engineering. *Fall, Spring.* M&S fee \$15.00

**EAS 3810C ECS-MECH/AERO 3(1,3)**  
**Design of Aerospace Experiments:** PR: EAS 3800C; and EAS 3010 or EML 3701. Extension of EAS 3800C. Design of experiments in aeronautic/aerospace systems with emphasis on project team activity. *Spring.* M&S fee \$45.00

**EAS 3933 ECS-MECH/AERO 0(0,0)**  
**Aerospace Career and Academic Faculty Advising I:** PR: MAP 2302. Mandatory meeting with students and their faculty advisor for career/academic advising. Graded S/U. *Fall, Spring.*

## UCF Courses and Descriptions

**EAS 4105 ECS-MECH/AERO 3(3,0)**  
**Flight Mechanics:** PR: EAS 3101; CR: EML 4225.  
 Analysis and design of aircraft performance, static and dynamic stability and automatic control systems. *Fall*.

**EAS 4134 ECS-MECH/AERO 3(3,0)**  
**High-Speed Aerodynamics:** PR: EAS 3101.  
 Normal and oblique shock waves, nozzles and wind tunnels, methods of analyzing compressible flow about airfoils, wings, and bodies. Viscous boundary layers and applications to the design process. *Fall*.

**EAS 4154 ECS-MECH/AERO 3(3,0)**  
**Rotorcraft Aerodynamics:** PR: EAS 3101.  
 Helicopter aerodynamics. Momentum and blade element theories applied to hover, vertical and forward flight. Factors affecting design, performance & stability will be discussed. *Occasional*.

**EAS 4200 ECS-MECH/AERO 3(3,0)**  
**Analysis & Design of Aerospace Structures:** PR: "C" (2.0) or better in EGM 3601. Aerospace structures and components, loads, bending, shear and torsion of thin-walled open and closed section beams, structural idealization, analysis of fuselage and wing sections, structural instability (buckling) of columns and monocoque cylinders. *Fall*.

**EAS 4300 ECS-MECH/AERO 3(3,0)**  
**Aerothermodynamics of Propulsion Systems:** PR: EAS 4134 or EML 4703. Fundamental analysis and design considerations of propulsion systems. Turbojets, ramjets and rockets. *Spring*.

**EAS 4400 ECS-MECH/AERO 3(3,0)**  
**Spacecraft Attitude Dynamics:** PR: EML 4312C or EML 4225. Kinematics and dynamics of rigid and multibody spacecraft rotational motion. Attitude control with momentum exchange actuators and thrusters. *Occasional*.

**EAS 4404C ECS-MECH/AERO 3(2,3)**  
**Discrete Control in Aerospace Vehicles:** PR: EAS 3800C; and (EAS 4210 and EML 4312C) or (EML 4225 and EML 4313). Discrete control aspects of aerospace vehicles, digital controller, design, state-space representation, Z-transform, system response. *Spring*. M&S fee \$15.00

**EAS 4505 ECS-MECH/AERO 3(3,0)**  
**Orbital Mechanics:** PR: EGN 3321 and a "C" (2.0) or better in all of the following: MAC 2311C, MAC 2312, MAC 2313, MAP 2302 and PHY 2048. Two-body problem, orbital equations, orbital transfer, earth satellite operation. *Spring*.

**EAS 4700C ECS-MECH/AERO 3(1,6)**  
**Aerospace Design I:** PR: EGN 3373, EAS 3800C, (EAS 3010 or EML 3701), EML 4142, EML 4225, and department consent; CR: EAS 4991. Application of the design process to the team solution of a state-of-the-art problem. Airplanes and space vehicles, systems and devices are considered. *Fall, Spring*.

**EAS 4703C ECS-MECH/AERO 3(2,4)**  
**Small Satellite Payloads and Integration:** PR: EML 3303C or EAS 3800C or EEL 3801C or ESI 4523. Evaluate overall impact of integration and design concepts on various satellite component subsystems and their payloads into a small satellite system design leading to a final configuration. *Occasional*. M&S fee \$45.00

**EAS 4710C ECS-MECH/AERO 3(1,6)**  
**Aerospace Design II:** PR: EAS 4700C, EAS 4931. Continuation of the design process in the team building and testing of a prototype/model of an airplane, spacecraft, system or device. *Fall, Spring*. M&S fee \$60.00

**EAS 4931 ECS-MECH/AERO 0(0,0)**  
**Aerospace Career and Academic Faculty Advising II:** PR: EAS 3933 and department consent. Mandatory meeting with students and their faculty advisor for career/academic advising. Graded S/U. *Fall, Spring*.

**Intermediate Aerodynamics:** PR: EAS 4134; CR: EML 5060. Aerodynamic characteristics of airfoils, finite wings, waves, wing-body combinations, viscous flow and flow instabilities. Airfoil design. *Occasional*.

**EAS 5157 ECS-MECH/AERO 3(3,0)**  
**V/Stol Aerodynamics and Performance:** PR: EAS 4105; CR: EML 5060. Momentum theory, blade element theory, hover and forward flight, stability, aeroelasticity. *Occasional*.

**EAS 5211 ECS-MECH/AERO 3(3,0)**  
**Aeroelasticity:** PR: EAS 3101 or EML 3701 and EAS 4210 or EML 4220. Concerned with consequences and trade-offs created by interactions between aerodynamic forces and structural deformation. Static aeroelastic problems; control effectiveness; lift effectiveness; divergence. Dynamic aeroelasticity; flutter and vibration. *Occasional*.

**EAS 5302 ECS-MECH/AERO 3(3,0)**  
**Direct Energy Conversion:** PR: EML 3101 and EML 4142. Direct methods of energy conversion; particular emphasis on fuel cells, thermoelectrics, thermionics, solar energy, photovoltaics and magnetohydrodynamics. Analysis and systems design. *Occasional*.

**EAS 5315 ECS-MECH/AERO 3(3,0)**  
**Rocket Propulsion:** PR: EAS 4134 or EML 4703. Analysis and performance of rocket motors; selection and thermochemistry of chemical propellants: liquid and solid propellant rockets. *Occasional*.

**EAS 5407C ECS-MECH/AERO 3(2,3)**  
**Mechatronic Systems:** PR: EML 3034C. Discrete control techniques for aerospace mechatronic systems. Controller design, test and evaluation. *Occasional*.

**EAS 5535 ECS-MECH/AERO 3(3,0)**  
**Engineering Design for Aerospace Vehicles:** PR: EAS 4700C, EAS 4710C, EML 4501C, EML 4502C, or equivalent. Applications of the design process to aerospace vehicles. A system approach will be emphasized. Techniques for optimizing interface requirements will be covered. *Occasional*.

**ECM 4504C ECS-ECE 4(3,3)**  
**Embedded Computer Systems:** PR: EEL 4768C, EEL 4851C, EEL 4635C. Computer Applications in Systems role, sensor and actuator interfacing. Design projects, including problem statements and specifications, design methodology, implementation, testing, and documentation. *Occasional*.

**ECO 2013 BA-ECON 3(3,0)**  
**Principles of Macroeconomics:** An introduction to macroeconomics, including an overview of the market economy; national income, employment, and price level determination, stabilization policies, and international economics. *Fall, Spring*.

**ECO 2013H BA-ECON 3(3,0)**  
**Honors Principles of Economics Macroeconomics:** PR: Permission of Honors. Same as ECO 2013 with honors-level content. *Fall, Spring*.

**ECO 2023 BA-ECON 3(3,0)**  
**Principles of Microeconomics:** The determination of prices in a market economy; their role in allocating consumer and producer goods and in distributing incomes, including attempts to improve market efficiency through public policy. *Fall, Spring*.

**ECO 2023H BA-ECON 3(3,0)**  
**Honors Principles of Microeconomics:** PR: Permission of Honors. The determination of prices in a market economy; their role in allocating consumer and producer goods and in distributing incomes, including attempts to improve market efficiency through public policy. Honors content. *Fall, Spring*.

**ECO 3070 BA-ECON 1(1,0)**  
**Tutoring/Teaching Techniques for Undergraduate Economics:** PR: Satisfactory completion of same course the student is tutoring. Prepare undergraduate students to more effectively learn economics concepts through tutoring/teaching. Graded S/U. May be used in the degree program a maximum of 4 times. *Fall, Spring*.

**ECO 3101 BA-ECON 3(3,0)**  
**Intermediate Macroeconomics:** PR: ECO 2013, ECO 2023 and ECO 3401. Theoretical study of the behavior of households, firms, and the markets in which they operate with issues and applications. *Fall, Spring*.

**ECO 3203 BA-ECON 3(3,0)**  
**Intermediate Macroeconomics:** PR: ECO 2013 and ECO 2023 and ECO 3401. Measurement, analysis, and control of aggregate economic activity. *Fall, Spring*.

**ECO 3223 BA-ECON 3(3,0)**  
**Money and Banking:** PR: ECO 2013. Nature of money, commercial banking system, and monetary theory, and their relationship to the level of economic activity and activities of the Federal Reserve and U.S. Treasury. *Fall, Spring*.

**ECO 3401 BA-ECON 3(3,0)**  
**Quantitative Business Tools I:** PR: MAC 1105C with a "C" (2.0) or better. Introduction to mathematical and statistical analysis of economics and business problems. *Fall, Spring*.

**ECO 3410 BA-ECON 3(3,0)**  
**Mathematical Economics:** PR: ECO 3101. Mathematical methods with particular focus on microeconomics foundations of individual decision-making. *Spring*.

**ECO 3411 BA-ECON 3(3,0)**  
**Quantitative Business Tools II:** PR: ECO 3401 with a grade of "C" (2.0) or better. The use of statistical methods as scientific tools in the analysis of economics and business problems. *Fall, Spring*.

**ECO 3703 BA-ECON 3(3,0)**  
**International Microeconomics:** PR: ECO 3101. Fundamental principles of Classical and Neoclassical international trade theories, as well as trade's impact on global resource flows and the impact of trade on the developing world. Trade policy both in theory and practice is also examined. *Fall*.

**ECO 4303 BA-ECON 3(3,0)**  
**History of Economic Thought:** PR: ECO 2013 or ECO 2023. A study of the principal ideas of the major contributors to the development of economic thought. *Occasional*.

**ECO 4400 BA-ECON 3(3,0)**  
**Game Theory and Economics:** PR: ECO 3101. A study of the strategic decision-making of parties having opposed, mixed, or similar interests. *Fall*.

**ECO 4412 BA-ECON 3(3,0)**  
**Econometrics I:** PR: ECO 2013, ECO 2023 and ECO 3411. Students will study the linear regression model, first developing the theory and then applying it to data. *Fall*.

**ECO 4422 BA-ECON 3(3,0)**  
**Econometrics II:** PR: Econometrics I Building on the linear regression model of Econometrics I, students will study generalized linear models, first developing the theory and then applying it to data. *Spring*.

**ECO 4443 BA-ECON 3(3,0)**  
**Introduction to Business Analytics:** PR: Mathematical Economics, Econometrics I and Econometrics II Students are introduced to important tools of business analytics; first, UNIX, SQLite, and Python; then analyzing data using R and implementing numerical methods using Python. *Fall*.

**ECO 4504 BA-ECON 3(3,0)**  
**Public Economics:** PR: ECO 3101. A study of fiscal institutions and decision-making, and how government budgetary policy (spending, taxing, borrowing, and debt management) affects the economy and its citizens. *Spring*.

**ECO 4713 BA-ECON 3(3,0)**  
**International Macroeconomics:** PR: ECO 3101 or ECO 3203 or ECO 3223. International macroeconomics with review and analysis of current international macroeconomics, financial issues, policies and events. *Spring*.

**ECO 4751 BA-ECON 3(3,0)**  
**Law and Economics:** PR: ECO 2013 and ECO 2023. Impact of law on economic behavior; how economic behavior changes with legal rules and penalties; and the economic logic underlying the law. *Occasional*.

## UCF Courses and Descriptions

**ECO 4902 BA-ECON 1(1,0)**  
**Capstone in Economics:** PR: ECO 3101, ECO 3203, ECO 3411, Senior Standing, Economics Major. Students use critical thinking and written communication to integrate and apply material learned in economics courses to economics problem and policies. Graded S/U. *Fall, Spring.*

**ECO 4934 BA-ECON 3(3,0)**  
**Topics in Econometrics:** PR: ECO 4412. Emphasis on international topics in linear and nonlinear econometric models. *Spring.*

**ECO 4941 BA-ECON 3(3,0)**  
**Economics Internship:** PR: Consent of department chair, ECO 3101, and ECO 3203. Supervised economics-related work experience in a pre-approved sponsoring organization. See department for information/application. Graded S/U. *Fall, Spring.*

**ECO 5445 BA-ECON 3(3,0)**  
**Introduction to Business Analytics:** PR: Admission to the Master's in Economics or C.I. Students are introduced to important tools of business analytics; first, UNIX, SQLite, and Python; then analyzing data using R and implementing numerical methods using Python. *Fall.*

**ECP 3004 BA-ECON 3(3,0)**  
**Seminar on Current Economic Topics:** PR: ECO 3101. Content may include, but is not limited to, the analysis of current economic issues and policy, and the study of current economic methods and theories. May be used in the degree program a maximum of 1 times. *Occasional.*

**ECP 3006 BA-ECON 3(3,0)**  
**Economics of Sports:** PR: ECO 2023. Microeconomics is used to evaluate and analyze the business and practice of sports including the structure and conduct of sports leagues, revenue sharing and other forms of cooperation, labor markets and compensation for professional athletes, public financing of sport facilities, and sports in the not-for-profit sector. *Fall.*

**ECP 3203 BA-ECON 3(3,0)**  
**Labor Economics:** PR: ECO 3101 or ECP 4703. The analysis of labor problems and issues in a dynamic contemporary economy through the interaction of the four major institutions: households, firms, government, and unions. *Fall, Spring.*

**ECP 3302 BA-ECON 3(3,0)**  
**Economics and the Environment:** PR: ECO 2023. Analysis of environmental problems from an economic perspective, its relationship to other disciplines, and the international dimension of environmental policy. Not open to Economics majors. *Fall, Spring.*

**ECP 4303 BA-ECON 3(3,0)**  
**Environmental and Natural Resource Economics:** PR: ECO 3101. Provide fundamental insights into the interdependence between energy use, environmental quality, and the economy at both the microeconomic and macroeconomic level. *Fall.*

**ECP 4403 BA-ECON 3(3,0)**  
**Industrial Organization :** PR: ECO 3101. A study of the performance of industries representative of various types of market structure and practices, as well as the public policies affecting these industries. *Fall.*

**ECP 4530 BA-ECON 3(3,0)**  
**Health Economics:** PR: ECO 3101. Analysis of the market for health and the derived market for health care using intermediate micro-economic modeling. *Fall.*

**ECP 4703 BA-ECON 3(3,0)**  
**Managerial Economics:** PR: Admission to the Integrated Business major. Applies economic theory, principles, and techniques to business decision making. Students improve critical thinking skills and learn analytical tools needed to address key business issues. *Fall, Spring.*

**ECS 4013 BA-ECON 3(3,0)**  
**Development Economics:** PR: ECO 2013 and ECO 2023. The study of problems, theories, and issues of economic development in the global economy. *Spring.*

**ECT 3062 ED-CFCS 3(3,0)**  
**Professional Roles of the Career & Technical Teacher:** PR: ECT 3365 or C.I. Introspection into career and technical education teaching and the transition from industry to education. *Occasional.*

**ECT 3365 ED-CFCS 3(3,0)**  
**General Methods/Testing Evaluation in Career & Technical Education:** General teaching methods, testing and evaluation. Techniques specific to Career & Technical Education and Industry Training. *Fall.*

**ECT 3367 ED-CFCS 3(3,0)**  
**Evaluation of Career & Technical Education Instruction:** PR: ECT 3365 or C.I. Assessing student cognitive, affective, and psychomotor performance in the technical environment. *Spring.*

**ECT 3371 ED-CFCS 3(3,0)**  
**Course Construction in Industrial Education:** PR: ECT 3365 or C.I. Planning and preparing instructional materials, organizing and managing the Industrial Education laboratory, and involvement in VICA. *Occasional.*

**ECT 4004 ED-CFCS 3(3,0)**  
**Principles and Practices of Technical Education:** PR: ECT 3365 or C.I. Integrating historical principles, career structure, and current trends in technical education. *Fall.*

**ECT 4184 ED-CFCS 3(3,0)**  
**Curriculum Development Techniques for Industry Training:** The practical application of fundamental knowledge, important skills, alternative analysis methods, and the critical elements of the trainers analysis tasks. *Spring.*

**ECT 4384 ED-CFCS 3(3,0)**  
**Advanced Teaching Techniques for Career Education:** PR: ECT 3365 or C.I. Developing techniques including cooperative learning, simulation, instructional modeling, and evaluation of instructional effectiveness. *Fall.*

**ECT 4815 ED-CFCS 3(3,0)**  
**Safety in the Technical Education Classroom and Laboratory:** PR: ECT 3365 or C.I. Federal regulations, safety practices, guidance, and support materials for technical trainers and teachers in school and industrial settings. *Occasional.*

**ECW 3312 ED-CFCS 3(3,0)**  
**Course Construction in Health Occupations Education:** PR: ECT 3365 or C.I. Planning and preparation of materials, managing the laboratory and involvement in appropriate Vocational Student Organizations. Clinical instruction related to vocational education and industry training. *Occasional.*

**ECW 3564 ED-CFCS 3(3,0)**  
**Special Populations in Career & Technical Education:** PR: ECT 3365 or C.I. Overview of strategies and resources in meeting the needs of special populations in career and technical education settings. *Spring.*

**ECW 5207 ED-CFCS 2-4(2-4,0)**  
**Management of Vocational Programs:** PR: Rank III Certificate or C.I. Study and achievement of selected competencies needed by vocational teachers, supervisors, and local administrators in the management of vocational education programs in the schools. *Occasional.*

**ECW 5265 ED-CFCS 2-4(2-4,0)**  
**Cooperative Programs in Vocational Education:** PR: Regular Certificate or C.I. Study of cooperative vocational programs and achievement of competencies needed to establish, manage, and coordinate co-op program activities in all vocational areas. *Occasional.*

**ECW 5561 ED-CFCS 2-3(2-3,0)**  
**Student Guidance in the Vocational Program:** PR: Basic Teacher Certificate or C.I. Achievement of skills used by teachers as they gather student data, confer with students, and help students plan for employment or further education. *Occasional.*

**EDE 2280 ED-TL&L 3(3,0)**  
**Arts and Wellness in Elementary Classrooms:** Provides the prospective teacher with knowledge, skills, and the dispositions to integrate arts and wellness into the elementary classroom curriculum. *Fall, Spring.*

**EDE 3942 ED-TL&L 3(3,0)**  
**Internship I:** PR: EDG 4410, RED 3012, RED 4519, MAE 3310, MAE 3311, TSL 4080. CR: MAE 4326, RED 4942, SCE 3310. Student teaching assignment in an elementary school under the supervision of a certified classroom teacher. Graded S/U. *Fall, Spring.*

**EDE 4223 ED-TL&L 3(3,0)**  
**Integrated Arts and Movement in the Elementary School:** PR: Admission to Elementary Education. Provides the prospective teacher with knowledge, skills, and dispositions to integrate arts and movement into the education of elementary school children. *Fall, Spring.* M&S fee \$10.00

**EDE 4301 ED-TL&L 3(3,0)**  
**Seminar in Elementary Education:** PR: EDE 3942 and Senior Standing. CR: EDE 4943 Refine skills and competencies in teaching and learning as identified by the Florida Educator Accomplished Practices and examine contemporary issues in elementary education. *Fall, Spring.*

**EDE 4943 ED-TL&L 7-12(0,35)**  
**Internship II (Elementary):** PR: EDE 3942. Student teaching in an elementary school under the supervision of a certified classroom teacher. Scheduled concurrent seminars. Graded S/U. *Occasional.*

**EDE 4945 ED-TL&L 1(1,0)**  
**Internship II Seminar:** PR: All required program courses; CR: EDE 4943 Internship II. Culminating seminar emphasizing current classroom management and assessment issues as they relate to teaching in the elementary grades. *Fall, Spring.*

**EDF 2005 ED-TL&L 3(3,0)**  
**Introduction to the Teaching Profession:** A survey course including an orientation to education careers, ethics, and the historical, philosophical and sociological foundations of education. This course has a field component. *Fall, Spring.*

**EDF 2007 ED-TL&L 3(3,0)**  
**Introduction to Substitute Teaching:** Social and legal factors related to PK-12 teaching, including school safety, ethics, legal aspects, and roles and responsibilities of substitute teachers. *Fall, Spring.*

**EDF 2085 ED-TL&L 3(3,0)**  
**Introduction to Diversity for Educators:** An introduction to cultural factors and their impact on education and life changes. Explores stereotyping, prejudice and changing classroom demographics. Includes directed field experience. *Fall, Spring.*

**EDF 2130 ED-TL&L 3(3,0)**  
**Child and Adolescent Development for Educators:** Critical examination of developmental stages and characteristics of individuals from infancy through adolescence with application to learners in educational settings. *Fall, Spring.*

**EDF 2250 ED-TL&L 3(3,0)**  
**Classroom Management for Substitute Teachers:** Instructional and classroom management strategies to optimize student learning and maximize the effectiveness of substitute teachers. *Fall, Spring.*

**EDF 2510 ED-TL&L 3(3,0)**  
**Education and Nation Building: American Historical Perspectives:** An historical analysis of why education remains critical to nation building in the U.S. and elsewhere, including education's impact on current policies and issues. *Occasional.*

**EDF 2720 ED-TL&L 3(3,0)**  
**Children in Schools: Legal, Ethical and Safety Concerns:** PR: EDF 2005, EDF 2085, EME 2040, or C.I. The role of education in children's lives through the analysis of legal, ethical and safety concerns. *Fall, Spring.*

## UCF Courses and Descriptions

**EDF 2801 ED-TL&L 3(3,0)**  
**Global Perspectives on Education:** National systems of education from a global perspective and exposure to the global and international challenges facing educators in the new millennium. *Fall.*

**EDF 3120 ED-TL&L 3(3,0)**  
**Observing Child Growth and Development:** PR: Admission to the program. Provides a comprehensive introduction to the principles and basic theories of child growth and development from pre-natal development through age eight. *Fall, Odd Spring.*

**EDF 3601 ED-TL&L 3(3,0)**  
**Professional Ethics in Education:** Pedagogical knowledge, awareness of educational process and the analytical skills necessary for responsible public involvement in educational policy making. *Fall, Spring.*

**EDF 4466 ED-E&HS 3(3,0)**  
**Classroom Assessment & Evaluation Techniques:** PR: Completion of Internship I or C.I. Classroom measurement skills in designing traditional and alternative assessments, using results for student evaluation and instructor performance, and interpretation of standardized test results. *Fall, Spring.*

**EDF 4467 ED-TL&L 3(3,0)**  
**Learning Theory and Assessment:** PR: EDF 2005, EDF 2085, EME 2040, or C.I. Application of learning theory and assessment principles to classroom teaching situations. Fifteen hour in-school experience required. *Fall, Spring.*

**EDF 4467H ED-TL&L 3(3,0)**  
**Honors Learning Theory and Assessment:** PR: EDF 2005, EDF 2085, and EME 2040, or C.I. Application of learning theory and assessment principles to classroom teaching situations using a case study design, teacher work samples, and a theoretical/conceptual debate. Fifteen hour in-school experience required. *Even Fall.*

**EDF 4603 ED-TL&L 3(3,0)**  
**Analysis and Application of Ethical, Legal, and Safety Issues in Schools:** PR: EDF 2005, EDF 2085, EME 2040 or C.I. Critical analysis of contemporary educational issues, including ethical, safety, legal, cultural, and linguistic considerations which directly impact schooling in a democracy. *Fall, Spring.*

**EDF 4603H ED-TL&L 3(3,0)**  
**Honors Analysis and Application of Ethical, Legal, and Safety Issues in Schools:** PR: Consent of Honors. Critical analysis of contemporary educational issues, including ethical, safety, legal, cultural, and linguistic considerations which directly impact schooling in a democracy with Honors content. *Fall.*

**EDF 5607 ED-TL&L 3(3,0)**  
**Language, Culture and Pedagogy: Impact and Implications:** PR: C.I. Explores in-depth issues surrounding learning needs of students from linguistically and culturally diverse populations. Research on language, culture and pedagogy will be highlighted. *Occasional.*

**EDG 2311 ED-TL&L 3(3,0)**  
**Teaching Strategies for Substitute Teachers:** Planning, adapting and implementing effective instructional practices and assessing student performance in K-12 settings with diverse populations. *Fall, Spring.*

**EDG 4410 ED-TL&L 3(3,0)**  
**Teaching Strategies and Classroom Management:** PR: EDF 2005, EDF 2085, EME 2040, or C.I. Instructional, organizational and classroom management strategies to create effective learning environments. Fifteen hour in-school experience required. *Fall, Spring.*

**EDG 4941 ED-TL&L 1-8(0,1-8)**  
**Directed Field Experience:** PR: Approval of Professional Laboratory. Field experience in an appropriate educational setting under the direction of a supervising teacher and/or university supervisor. *Occasional.*

**EDG 4948 ED-TL&L 3(3,0)**  
**Service Learning:** PR: PSY 2012 or C.I. Involvement with not-for-profit agencies and/or schools to gain a new perspective on civic/community engagement. May be repeated for credit. *Fall, Spring.*

**EDG 4954 ED-TL&L 3(3,0)**  
**International Education Field Experiences:** PR: Junior standing or C.I. A guided field experience for students participating in a study abroad program. Students gain insights into global and local issues through educational and cultural experiences. *Fall, Spring.*

**EDG 5356 ED-TL&L 3(3,0)**  
**Instructional Coaching:** PR: Graduate standing or C.I. This course will prepare educators to become instructional coaches, developing skills and methods to impact student achievement by influencing teachers' instructional practices. *Occasional.*

**EDG 5745 ED-TL&L 3(3,0)**  
**Teaching the Non-English Student:** PR: C.I. Bilingual and non-linguistic instruction in curriculum areas in English as a second language. *Occasional.*

**EDG 5941 ED-TL&L 2-8(0,11)**  
**Clinical Practice:** PR: Admission to STEP II, III or IV. Clinical Internship in an appropriate educational setting under the direction of a university supervisor or peer teacher. *Occasional.*

**EDP 2270 ED-TL&L 3(3,0)**  
**Adult Development & Learning:** An examination of theory and research on adult learning and development with emphasis on practical applications, instruction, and technology use in educational and workplace settings. *Fall, Spring.*

**EDS 5356 ED-TL&L 3(2,1)**  
**Mentoring and Clinical Supervision of Pre-professional Educators:** PR: C.I. The practical application of coaching and mentoring practices that satisfy the standards of clinical supervision and assure attainment of the Florida Educator Accomplished Practices. *Fall, Spring.*

**EEC 2732 ED-CFCS 3(3,0)**  
**Health, Safety, and Nutrition for Young Children:** Health, safety and legal issues in early childhood (0-8) including protection from injury and infection; promotion of healthy development, good nutrition, and appropriate health and fitness habits. *Spring.*

**EEC 3008 ED-CFCS 3(3,0)**  
**Early Childhood Children's Literature:** PR: Admission into the Early Childhood Development and Education Program (Track 2). A study of literature written for children ages birth through kindergarten, including an introduction to genres, authors and illustrators of children's books. *Spring.*

**EEC 3214 ED-CFCS 3(3,0)**  
**Child Development:** PR: Admission to the Early Childhood Development and Education Program -Track 2. Provides pre-service early childhood professionals with an overview of theories and research related to early childhood development (Birth-Age 8). *Fall, Spring.*

**EEC 3613 ED-CFCS 3(3,0)**  
**Observation and Assessment of Young Children:** PR: Admission to the program. Appropriate methods for diagnosing, assessing, and evaluating young children, including children with diverse cultural and ethnic backgrounds. Appropriate interventions, remediations, and enrichment. *Occasional.*

**EEC 3700 ED-CFCS 3(3,0)**  
**Social and Emotional Development of Young Children:** Provides an in-depth understanding of the social and emotional development of the young child. Examines the implication for curriculum development. *Occasional.*

**EEC 4207 ED-CFCS 3(3,0)**  
**Assessment and Evaluation of Young Children:** PR: Admission to the Early Childhood Program and EEC 3700. Early childhood education and services for young children and families. Includes early childhood historical, philosophical, and sociological perspectives, learning theories and field-based experiences. *Fall.*

**EEC 4211 ED-CFCS 3(3,0)**  
**Science and Math Learning for Young Children:** PR: Admission into Early Childhood Development and Education Program (Track 3), EEC 4303, and EEC 4528. Methodologies for teaching and assessing young children in mathematics and science concepts and skills through an integrated developmentally appropriate program. *Fall.*

**EEC 4235C ED-CFCS 3(2,1)**  
**Early Childhood Education Seminar: Bridging Theory to Practice:** PR: TSL 4240, EEC 4268, EEX 3450 and completion of semester II in the junior year. Corequisites: MAE 4300, RED 4311, SCE 4304. Seminar course which combines coursework, research, and practical experience. *Fall, Spring.*

**EEC 4260 ED-CFCS 3(3,0)**  
**Early Childhood Program Evaluation:** PR: Admission into the Early Childhood Development and Education Program (Track 3), EEC 4303, and EEC 4528. Formal and informal evaluation theories, methods and tools for implementing comprehensive evaluations of early childhood programs and policies and how they impact the program's stakeholders. *Fall.*

**EEC 4268 ED-CFCS 3(3,0)**  
**Curriculum Activities in Early Childhood:** PR: Admission to Early Childhood Education Program. An integrated approach to curriculum planning and scheduling including materials, strategies, and environments for young children which emphasize active learning. *Fall, Spring.*

**EEC 4303 ED-CFCS 3(3,0)**  
**Planning Creative Activities in Early Childhood Education:** PR: Admission into Early Childhood Development and Education program or C.I. Instructional methods for teaching skills to young children in PK-3rd grade. Hands-on creative play activities involve dance, music, theatre, visual arts, science, math, and literature. *Occasional.*

**EEC 4314 ED-CFCS 3(3,0)**  
**Effective Practices for Guiding Young Children's Behavior:** PR: Admission into Early Childhood Development and Education Program (Track 3), EEC 4303, and EEC 4528. Techniques to guide behavior of young children emphasizing classroom management, routines, and pro-social skills. *Spring.*

**EEC 4402 ED-CFCS 3(3,0)**  
**Cultural and Family Systems:** Explores the institution of family in its cultural context as a living dynamic system. *Occasional.*

**EEC 4414 ED-CFCS 3(3,0)**  
**Parent-Child Relations:** PR: EEC 3700; EEC 4661; or C.I. Review of research on child-rearing and parent-child relationships using case studies to explore influences of personality, developmental stages, family structure, ethnic and cultural factors on parenting. *Fall, Spring.*

**EEC 4524 ED-CFCS 3(3,0)**  
**Organization and Management in Early Childhood:** Provides students with managerial and supervisory skills required to administer a developmentally appropriate early childhood program. *Occasional.*

**EEC 4528 ED-CFCS 3(3,0)**  
**Infant/Toddler Care and Education:** Provides the knowledge and skills that will enable the student to become a competent worker with very young children and their families. *Occasional.*

**EEC 4604 ED-CFCS 3(3,0)**  
**Classroom Management and Guidance of Young Children:** PR: Admission into Early Childhood Education Program and EEC 3700. Techniques to guide behavior of young children, emphasizing classroom management and pro-social skills. *Spring.*

**EEC 4661 ED-CFCS 3(3,0)**  
**Early Childhood Education Theory and Practice:** PR: Admission to the Early Childhood Program. Study of early childhood education and services for young children and families. Includes early childhood historical, philosophical, and sociological perspectives, learning theories and field-based experiences. *Fall, Spring.*

## UCF Courses and Descriptions

**EEC 4744 ED-CFCS 3(3,0)**  
**Child Life: Psychosocial Care of Children in Health Settings:** PR: EEC 3700. Course teaches Child Life theory and practice to students wanting to work with children, youth and their families in hospitals and pediatric clinical settings. *Spring*.

**EEC 4936 ED-CFCS 2(2,0)**  
**Seminar in Early Childhood:** Current trends, issues and advocacy in field of early childhood education. Includes guidance and clarification concerning student teaching. *Occasional*.

**EEC 4940 ED-CFCS 12(0,12)**  
**Practicum: Early Childhood Development:** PR: Must have completed all course work. A fieldwork practicum experience linking developmental theory with practice to provide students with a supervised, hands-on experience working with children, parents, families, and/or agencies. Graded S/U. *Fall, Spring*.

**EEC 4942 ED-CFCS 9(0,9)**  
**Practicum: Early Childhood Careers:** PR: Admission into the Early Childhood Development and Education Program (Track 3), EEC 4414, EEC 4260, EEC 4314, and EEC 4211. A fieldwork practicum experience linking developmental theory with practice to provide students with a supervised, hands-on experience working with children, parents, families, and/or agencies. Graded S/U. *Spring*.

**EEC 4943 ED-CFCS 12(0,12)**  
**Student Teaching:** Provides opportunities for student teachers to use the knowledge and skills they acquired in a supervised public school setting. Graded S/U. *Occasional*.

**EEC 5205 ED-CFCS 3(3,0)**  
**Programs and Trends in Early Childhood Education:** PR: Regular Certificate or C.I. Philosophy, content, facilities, instructional materials, and activities appropriate for children ages 3 to 8 years; current research; issues and trends. Concurrent laboratory experiences. *Occasional*.

**EEC 5745 ED-CFCS 3(3,0)**  
**Child Life: Psychosocial Care of Children in Health Settings:** PR: EEC 3700 or C.I. Course teaches Child Life theory and practice to students wanting to work with children, youth, and their families in hospitals and pediatric health settings. *Odd Spring*.

**EEE 3307C ECS-ECE 4(3,3)**  
**Electronics I:** PR: EEL 3123C with a grade of "C" (2.0) or better. Electronic devices including p-n junctions, bipolar transistors, field effect transistors and device models. *Fall, Spring*. M&S fee \$15.00

**EEE 3342C ECS-ECE 3(2,3)**  
**Digital Systems:** PR: MAC 2311C, MAC 2312, PHY 2048C, PHY 2049C all with a "C" (2.0) or better grade. Combinational and sequential logic circuits including registers, arithmetic units, memories, finite state machines, and design with programmable logic devices. *Fall, Spring*. M&S fee \$9.00

**EEE 3350 ECS-ECE 3(3,0)**  
**Semiconductor Devices I:** PR: EEL 3004C with a grade of "C" (2.0) or better and PHY 3101. Semiconductor device physics, energy band diagrams, electronic devices including p-n junctions, bipolar transistors, field effect transistors and device models. *Fall, Spring*.

**EEE 4309C ECS-ECE 4(3,3)**  
**Electronics II:** PR: EEE 3307C, EEE 3342C with a grade of "C" (2.0) or better. Ideal Op-Amps and applications. Introduction to Logic Circuits; Bipolar, MOS and CMOS families; Flip-flops and memory cells, comparators and timing circuits: A/D and D/A converters. *Fall, Spring*. M&S fee \$20.00

**EEE 4314 ECS-ECE 3(3,0)**  
**Device Electronics for Integrated Circuits:** PR: EEE 3350, P.N. Junctions, Bipolar Transistor Analysis, Metal Semiconductor contacts, MOS Systems MOSFET Analysis and Limitations. *Occasional*.

**EEE 4346C ECS-ECE 3(2,3)**  
**Hardware Security and Trusted Circuit Design:** PR: EEL 3801C with a grade of "C" (2.0) or better. Design, analysis and synthesis of sequential logic circuits and systems. Data path and controller design using a hardware descriptive language. Case studies on hardware security. *Spring*.

**EEE 4463 ECS-ECE 3(3,0)**  
**MEMS Devices and Applications:** PR: EEE 3350 or C.I. Micro-Electro Mechanical Systems devices, microfabrication, sensors and actuators, bulk and surface micromachining, optical MEMS, instrumentation and applications. *Fall*.

**EEE 5265 ECS-ECE 3(3,0)**  
**Biomedical Effects and Applications of Electromagnetic Energy:** PR: EEL 3470 or C.I. RF and microwave energy and their interaction with biological materials. Specific biomedical effects such as absorption, thermal therapy, hyperthermia, etc., will be discussed. *Even Spring*.

**EEE 5272 ECS-ECE 3(3,0)**  
**Biomedical Sensors:** PR: EEL 4750 or EEL 4832 or C.I. Study of engineering concepts behind the various biomedical sensors used to monitor a patient undergoing clinical therapy. *Occasional*.

**EEE 5279 ECS-ECE 3(3,0)**  
**Advanced Bioelectronics Systems:** PR: EEE 4309C or C.I. Advanced bioelectronics systems and techniques that enable recent biophysical and biomedical research will be discussed. *Spring*.

**EEE 5332C ECS-ECE 3(2,1)**  
**Thin Film Technology:** PR: EEE 3350 or equivalent. Presents the various thin film deposition techniques for the fabrication of microelectronic, semiconductor, and optical devices. *Occasional*. M&S fee \$70.00

**EEE 5352C ECS-ECE 3(2,3)**  
**Semiconductor Material and Device Characterization:** PR: EEE 3350 or C.I. Semiconductor material characterization resistivity, mobility, doping carrier lifetime, device properties, threshold voltage, interface charge of MOS devices, optical and surface characterization of films. *Odd Fall*.

**EEE 5353 ECS-ECE 3(3,0)**  
**Semiconductor Device Modeling and Simulation:** PR: EEE 3307C. Large signal and small signal model development for semiconductor diodes, BJTs, and MOSFETs. Parameter extraction, numerical algorithm, and SPICE simulation are included. *Spring*.

**EEE 5356C ECS-ECE 4(3,3)**  
**Fabrication of Solid-State Devices:** PR: EEE 3350. Fabrication of microelectronic devices, processing technology, ion implantation and diffusion, device design, and layout. Laboratory includes device processing technology. *Fall, Spring*. M&S fee \$70.00

**EEE 5370 ECS-ECE 3(3,0)**  
**Operational Amplifiers:** PR: EEE 4309C. Ideal and non-ideal Op-Amps. Linear applications. Active RC and switched-capacitor filters. Non-linear and other functional circuits. Frequency stability and compensation of Op-Amps. *Even Fall*.

**EEE 5378 ECS-ECE 3(3,0)**  
**CMOS Analog and Digital Circuit Design:** PR: EEE 4309C. Advanced principles and design techniques for CMOS ICs including most recent published results. *Fall*.

**EEE 5390C ECS-ECE 3(2,3)**  
**Full-Custom VLSI Design:** PR: EEE 3307C and EEE 3342C with a "C" (2.0) or better grade. Provide background in integrated devices, circuits, and digital subsystems needed for design and implementation of silicon logic chips. *Occasional*.

**EEE 5513 ECS-ECE 3(3,0)**  
**Digital Signal Processing Applications:** PR: EEL 4750. The design and practical consideration for implementing Digital Signal Processing Algorithms including Fast Fourier Transform techniques, and some useful applications. *Spring*.

**EEE 5542 ECS-ECE 3(3,0)**  
**Random Processes I:** PR: EEL 3552C and STA 3032. Elements of probability theory, random variables, and stochastic processes. *Fall, Spring*.

**EEE 5555 ECS-ECE 3(3,0)**  
**Surface Acoustic Wave Devices and Systems:** PR: EEL 3552C. Course discusses SAW technology which includes the physical phenomenon, transducer design and synthesis, filter design and performance parameters. Actual devices and communication systems are presented. *Occasional*.

**EEE 5557 ECS-ECE 3(3,0)**  
**Introduction to Radar Systems:** PR: EEL 3552C. Introduction to Pulse and CW Radar Systems. Chirp Radar Systems. Tracking Radar. Noise in Radar Systems. *Spring*.

**EEL 3004C ECS-ECE 3(3,2)**  
**Honors Electrical Networks:** PR: Permission of Honors and MAC 2311C, MAC 2312, MAC 2313, PHY 2048C, PHY 2049C all with a "C" (2.0) or better grade. CR: MAP 2302. Analysis and design of linear circuits, transients, AC analysis, power calculations. The course includes recitation and exploration of areas of study within electrical and computer engineering. *Fall*.

**EEL 3004C ECS-ECE 3(3,2)**  
**Electrical Networks:** PR: MAC 2311C, MAC 2312, MAC 2313, PHY 2048C, PHY 2049C all with a "C" (2.0) or better grade. CR: MAP 2302. Analysis and design of linear circuits, transients, AC analysis, power calculations. The course includes recitation and exploration of areas of study within electrical and computer engineering. *Fall, Spring*.

**EEL 3021 ECS-ECE 3(3,0)**  
**Introduction to Applied Randomness for Engineers:** PR: MAC 2312 with a grade of "C" (2.0) or better. Restricted to students from College of Engineering and Computer Science only. Axioms of probability, conditional probability, independence, law of total probability, random variables, probability distributions and density functions, second order statistics, joint distributions, random vectors, limit theorems, transformations of random variables. *Spring*.

**EEL 3123C ECS-ECE 3(3,2)**  
**Honors Networks and Systems:** PR: Consent of Honors and EEL 3004C, MAP 2302 both with grades of "C" (2.0) or better. Network functions, Laplace transforms, frequency domain analysis using Fourier series and transforms, sampling theory and Z-transforms. *Spring*.

**EEL 3123C ECS-ECE 3(3,2)**  
**Networks and Systems:** PR: EEL 3004C and MAP 2302 both with a grade of "C" (2.0) or better. Network functions, Laplace transforms, frequency domain analysis using Fourier series and transforms, sampling theory and Z-transforms. *Fall, Spring*. M&S fee \$15.00

**EEL 3290 ECS-ECE 3(3,0)**  
**Global Energy Issues:** PR: EEL 3004C with a grade of "C" (2.0) or better. Critically examines issues associated with the technical, economic, societal, environmental, and geopolitical aspects of energy. Taught through lectures and discussions. *Spring*.

**EEL 3470 ECS-ECE 3(3,0)**  
**Electromagnetic Fields:** PR: EEL 3004C with a grade of "C" (2.0) or better. Electric and magnet fields and electromagnetic waves. *Fall, Spring*.

**EEL 3552C ECS-ECE 4(3,3)**  
**Signal Analysis and Analog Communication:** PR: EEL 3123C with a grade of "C" (2.0) or better. Signals and signal space, Fourier series, Fourier Integral, transmission over linear systems, AM, FM, PM, sampling theorem and Nyquist rate. *Fall, Spring*. M&S fee \$15.00

**EEL 3657 ECS-ECE 3(3,0)**  
**Linear Control Systems:** PR: EEL 3123C with a grade of "C" (2.0) or better. Control theory, transfer function modeling, Nyquist criteria, root locus, Bode plots, and Design of lead and lag compensation. *Fall, Spring*.

## UCF Courses and Descriptions

**Computer Organization:** PR: EGN 3211 and EEE 3342C both with grades of "C" (2.0) or better. Computer arithmetic, instruction set architecture, performance, data path, control unit, memory hierarchy, I/O interface. *Fall, Spring.*

**EEL 3926L ECS-ECE 1(0,3)**  
**Junior Design:** CR: EEE 3307C and EEL 4742C Preparatory skills are developed for Senior Design: Engineering design requirements specifications, test equipment utilization, microcontroller development tool usage, schematic capture and PCB design tools. *Fall, Spring.*

**EEL 4140C ECS-ECE 4(3,3)**  
**Analog Filter Design:** PR: EEL 3123C with a grade of "C" (2.0) or better. Passive and active analog filter design. *Fall.* M&S fee \$15.00

**EEL 4205 ECS-ECE 3(3,0)**  
**Electric Machinery:** PR: EEL 3004C with a grade of "C" (2.0) or better. Fundamentals of DC and AC electric machines. *Fall.*

**EEL 4216 ECS-ECE 3(3,0)**  
**Fundamentals of Electric Power Systems:** PR: EEL 3004C with a grade of "C" (2.0) or better. Three-phase power representation and analysis, transformers, per unit system, symmetrical components, faults, and transmission lines. *Spring.*

**EEL 4294 ECS-ECE 3(3,0)**  
**Introduction to Smart Grid:** PR: (EEE 3307C and EEL 3657) or EEL 4216 or C.I. Fundamentals of electric power systems, distributed generation and smart grid components, voltage control and VAR compensation, demand response, leader-follower optimization, resiliency. *Even Spring.*

**EEL 4362 ECS-ECE 3(3,0)**  
**Post-CMOS Devices and Circuits:** PR: EEE 3342C with a grade of "C" (2.0) or better and EEE 3307C. Post-CMOS device technologies for next-generation energy efficient memory and logic designs. *Fall.*

**EEL 4436C ECS-ECE 4(3,3)**  
**Microwave Engineering:** PR: EEL 3470. Transmission line theory, Smith charts, S-parameters, simple impedance matching circuits, wave guides, resonators, basic microwave measurements. May be repeated for credit. *Fall.* M&S fee \$35.00

**EEL 4440 ECS-ECE 3(3,0)**  
**Optical Engineering:** PR: EEL 3470 or C.I. Lens systems, aberrations, sources, radiometry, detectors, physical optics, interferometric devices, applications to engineering design problems. *Occasional.*

**EEL 4515C ECS-ECE 4(3,3)**  
**Fundamentals of Digital Communication:** PR: EEL 3552C and EEL 3021 (Introduction to Randomness). Sampling and aliasing, quantization, PCM, delta modulation, line coding, intersymbol interference, Digital carrier systems, ASK, FSK, PSK, M-ary communication, Noise, BER analysis. *Spring.* M&S fee \$20.00

**EEL 4518 ECS-ECE 3(3,0)**  
**Satellite Communications:** PR: EEL 3552C. The principles of satellite communications, including communications satellites, Earth stations, link analysis, FDMA and TDMA. May be repeated for credit. *Fall.*

**EEL 4612C ECS-ECE 4(3,3)**  
**Introduction to Modern and Robust Control:** PR: EEL 3657. Classical control theory including differential equations and Laplace transform techniques, stability analysis, and classical frequency domain design. Modeling and Position, Speed, Vibration Control Design Laboratories. *Occasional.*

**EEL 4635C ECS-ECE 4(3,3)**  
**Computer Control Systems:** PR: EEL 3657. Discrete-time systems, the z-transform, and single loop computer control systems. Digital simulation in the analysis and design of processes with embedded computers. No graduate credit for both EEL 5630 and this course. *Occasional.*

**EEL 4660 ECS-ECE 3(3,0)**  
**Robotic Systems:** PR: EGN 4060C or EEL 4742C or COP 3503C. Team based development of a robotic system incorporating concepts such as sensing, computer vision, machine learning, localization, mapping, manipulation and locomotion. *Spring.*

**EEL 4742C ECS-ECE 3(3,2)**  
**Embedded Systems:** PR: EEL 3801C with a grade of "C" (2.0) or better. Microcontroller systems, assembly language programming, data representation, memory and device interfacing, timing analysis, parallel and serial communication, timers, interrupts, signal interfacing considerations, and applications. *Fall, Spring.* M&S fee \$15.00

**EEL 4750 ECS-ECE 3(3,0)**  
**Digital Signal Processing Fundamentals:** PR: EEL 3123C with a grade of "C" (2.0) or better. Study of discrete-time signals and systems, Z-transform, DFT introduction to digital filter design. *Fall, Spring.*

**EEL 4768 ECS-ECE 3(3,0)**  
**Computer Architecture:** PR: EEL 3801C or CDA 3103C with a grade of "C" (2.0) or better. Computer systems performance and evaluation, processor datapath and control, microprogrammed architectures, instruction and arithmetic pipelines, cache and virtual memory, and RISC vs. CISC. *Fall, Spring.*

**EEL 4781 ECS-ECE 3(3,0)**  
**Computer Communication Networks:** PR: EEL 3801C with a grade of "C" (2.0) or better and STA 3032. Network models. Media access protocols. Data link control. Routing and flow control. Internetworking. Current architectures and protocols: OSI, ethernet, token, ring, FDDI, HSLC, X.25, etc. *Fall, Spring.*

**EEL 4783 ECS-ECE 3(3,0)**  
**Hardware Description Languages in Digital Systems Design:** PR: EEE 3342C with a grade of "C" (2.0) or better. Hardware description languages, simulation and synthesis of RTL circuits and systems, design examples and projects. *Occasional.*

**EEL 4798 ECS-EECS 3(3,0)**  
**Massive Storage and Big Data:** PR: EEL 3801C or CDA 3103C. Fundamentals in big data architecture and its enabling file storage systems Infrastructure such as MapReduce and storage, with a focus on system architecture, file storage, programming models, application development and performance evaluation. *Spring.*

**EEL 4817H ECS-ECE 3(3,0)**  
**Honors Current Topics in Machine Learning II:** PR: Consent of Honors and EEL 4818H. Research topics in Machine Learning. Students will be assigned a research project and a faculty mentor who will supervise this project. *Spring.*

**EEL 4818H ECS-ECE 3(3,0)**  
**Honors Current Topics in Machine Learning I:** PR: Consent of Honors and EEL 3801 with a grade of "C" (2.0) or better or COP 3223C with a grade of "C" (2.0) or better or STA 3032 or C.I. Machine Learning and Applications. ART Neural Networks, Genetic Algorithms, Decision Trees, Evolutionary Hardware, Evolutionary Neural Networks, and Reinforcement Learning. *Occasional.*

**EEL 4832 ECS-ECE 3(3,0)**  
**Engineering Applications of Computer Methods:** PR: EEL 3123C and EGN 3211 both with a grade of "C" (2.0) or better. Engineering applications of numerical methods, including solution of differential equations, simulation, optimization, and multidimensional root-finding, integration and series approximations. *Fall, Spring.*

**EEL 4851C ECS-ECE 4(3,3)**  
**Engineering Data Structures:** PR: EEL 3801C with a grade of "C" (2.0) or better. Design of data structures and algorithms, with emphasis on performance analysis, memory organization, stacks, queues, linked lists, trees, graphs, searches, and sorts. Introduction to object-oriented structures. *Occasional.*

**EEL 4872 ECS-ECE 3(3,0)**  
**Engineering Applications of Intelligent Systems:** PR: EEL 4851C or COP 3503C or equivalent or C.I. Knowledge and intelligence, predicate logic and automated reasoning, heuristic search, knowledge representation, automated planning, introduction to machine learning, knowledge-based systems and philosophy of AI. *Occasional.*

**EEL 4882 ECS-ECE 3(3,0)**  
**Engineering Systems Software:** PR: EEL 3801C. Introduction to operating systems concepts and facilities for engineering applications, including multiprogramming, resource allocation and management, systems utilities, and operating system implementation. *Fall, Spring.*

**EEL 4884C ECS-ECE 4(3,3)**  
**Engineering Software Design:** PR: EEL 4851C. Software systems development life cycle, function and object-oriented methodologies, CASE; Analysis, design, and development of a large software project. *Fall, Spring.*

**EEL 4890 ECS-ECE 3(3,0)**  
**Continuous System Simulation I:** PR: MAP 2302. Numerical integration techniques and discrete time system models for approximating the dynamics of continuous systems. *Occasional.*

**EEL 4914 ECS-ECE 3(3,0)**  
**Senior Design I:** PR: EEE 3307C, EEL 4742C, and consent of School of EECS. Applications of engineering design to realistic and meaningful problems. Constraints such as economic factors, safety, reliability, aesthetics, ethics, social impact and engineering organizations are considered. *Fall, Spring.*

**EEL 4915L ECS-ECE 3(0,3)**  
**Senior Design II:** PR: EEL 4914. Execution of electrical and computer engineering project including complete project design review, construction, testing and demonstration. Emphasis on design, prototyping, cost, functionality, presentation, team effort and final report. *Fall, Spring.* M&S fee \$15.00

**EEL 4932 ECS-ECE 3(3,0)**  
**Computer-Aided Design of VLSI:** PR: Grade of "C" (2.0) or better in both COP 3503C and EEE 3342C. Introduction to computer-aided design techniques for high-level synthesis, logic synthesis, and physical synthesis. Emphasis on algorithms and data structures. *Occasional.*

**EEL 5173 ECS-ECE 3(3,0)**  
**Linear Systems Theory:** PR: EEL 3657. Models and properties of linear systems, transformation, controllability and observability, control and observer designs, MFD, and realization theory. *Spring.*

**EEL 5185 ECS-ECE 3(3,0)**  
**System Identification:** PR: EEL 3657 or C.I. Dynamic systems, models of time-invariant linear, time-varying and nonlinear systems, nonparametric frequency- and time-domain identification methods, kernel expansion techniques, parameter estimation methods, experiment design, and applications. *Spring.*

**EEL 5245C ECS-ECE 3(2,1)**  
**Power Electronics:** PR: EEE 4309C. Principles of power electronics, power semiconductor devices, inverter topologies, switch-mode and resonant dc-to-dc converters, cyclo-converters, applications. *Fall.*

**EEL 5255 ECS-ECE 3(3,0)**  
**Advanced Power Systems Analysis:** PR: EEL 4216 or C.I. This is an advanced course in power systems engineering, designed to provide a student with the knowledge of steady-state analysis in power system operation. *Even Spring.*

**EEL 5268 ECS-EECS 3(3,0)**  
**Communications and Networking for Smart Grid:** PR: EEL 4515C. Introduction to smart grid communication infrastructure, communication technologies in smart grid, communication networking in smart grid, communication for vehicle-to-grid systems, secure communication and networking. *Occasional.*

## UCF Courses and Descriptions

**EEL 5291 ECS-ECE 3(3,0)**  
**Distributed Control and Optimization for Smart Grid:** PR: EEL 3657 and EEL 4216 or C.I. Electric power systems, transmission and distribution networks, voltage stability and VAR control, dispatch of distributed generation, optimization, frequency control, electricity markets and incentive controls. *Odd Fall.*

**EEL 5432 ECS-ECE 3(3,0)**  
**Satellite Remote Sensing:** PR: EEL 3470 or PHY 4324. Fundamentals of satellite remote sensing, orbits and geometry, radiative transfer theory, microwave and infrared sensing techniques, ocean, ice and atmosphere geophysical measurements. *Occasional.*

**EEL 5437C ECS-ECE 4(3,3)**  
**Microwave Engineering:** PR: EEL 3470 or C.I. Transmission line theory, Smith charts, S-parameters, simple impedance matching circuits, wave guides, resonators, basic microwave measurements. *Fall.* M&S fee \$40.00

**EEL 5439C ECS-ECE 4(3,3)**  
**RF and Microwave Communications:** PR: EEL 4436C or equivalent. RF and microwave active circuits microstrip amplifier, oscillator, and mixer design and fabrication. Receiver design, noise, familiarization with network and spectrum analyzers. *Spring.* M&S fee \$40.00

**EEL 5462C ECS-ECE 3(3,1)**  
**Antenna Analysis and Design:** PR: EEL 3470 or equivalent. Fundamentals of antennas; dipoles, loops, arrays, apertures, and horns. Analysis and design of various antennas. *Odd Fall.*

**EEL 5582 ECS-ECE 3(3,0)**  
**Fundamentals of Wireless Communications:** PR: EEL 4515C and EEL 3021 Introduction to Randomness Large and small scale radio propagation effects, performance of digital modulation over wireless channels, capacity analysis of wireless channels, signal processing techniques to mitigate fading effects and improve performance of wireless systems (diversity techniques, adaptive modulation, multiple antenna and MIMO systems). *Even Spring.*

**EEL 5625 ECS-MECH/AERO 3(3,0)**  
**Applied Control Systems:** PR: C.I. Designed to develop basic understanding of advanced control methods for nonlinear systems described by ordinary and partial differential equations and to expose recent results and ongoing research issues in the area of MEMS. *Occasional.*

**EEL 5630 ECS-ECE 3(3,0)**  
**Digital Control Systems:** PR: EEL 3657. Real-time digital control system analysis and design, Z-transforms, sampling and reconstruction, time and frequency response, stability analysis, digital controller design. *Fall.*

**EEL 5669 ECS-ECE 3(3,0)**  
**Introduction to Robotics and Autonomous Vehicles:** PR: EEL 5173 or C.I. Forward and inverse kinematics, velocity kinematics, dynamics, constrained motions, path and trajectory planning, position and trajectory control, single and multivariable control, introduction to force/impedance control, introduction to consensus-based control. *Fall.*

**EEL 5690 ECS-ECE 3(3,0)**  
**Introduction to Medical Robotics and Tele-Operation:** PR: EEL 3657 or Medical students in their second year or later. Medical robots for minimally invasive surgery, kinematics, constrained workspace and dexterity, haptics, tele-operation and network based control, basics of laparoscopic surgery. *Occasional.*

**EEL 5704 ECS-ECE 3(3,0)**  
**Computer Aided Logical Design:** PR: EEL 4742C. Design, analysis and synthesis of sequential logic circuits and systems. Data path and controller design using a hardware description language. *Occasional.*

**EEL 5706 ECS-ECE 3(3,0)**  
**Resilient Computer System Design:** PR: EEL 4768 or CDA 5106 or EEL 5708, or C.I. Advanced concepts in hardware/software fault tolerance: fault models, coding in computer systems, module and system level fault detection mechanisms, such as TMR, rollback, and recovery. *Occasional.*

**EEL 5722C ECS-ECE 3(3,3)**  
**Field-Programmable Gate Array (FPGA) Design:** PR: EEL 3342C with a "C" (2.0) or better grade. FPGA architectures, design flow, technology mapping, placement, routing, reconfigurable computing applications, and evolvable hardware. *Even Fall.*

**EEL 5771C ECS-ECE 3(2,3)**  
**Engineering Applications of Computer Graphics:** PR: EGN 3420 or C.I. Computer graphics in engineering applications. Laboratory assignments. *Occasional.*

**EEL 5780 ECS-ECE 3(3,0)**  
**Wireless Networks:** PR: EEL 4781 or C.I. The wireless networking topics include: cellular networks, multiple access protocols, channel assignment and resource allocation, mobility and location management, handoffs, routing, authentication, call admission control and QoS provisioning, network layer issues, wireless data networking (WAP, GSM, GPRS, CDMA, WCDMA.). *Even Spring.*

**EEL 5796 ECS-ECE 3(3,0)**  
**Big Data Computer Architecture and Systems:** PR: EEL 4768 or CGS 3763 or C.I. Computer hardware architecture and operating systems design, implementation and administrative techniques for big data computing platforms which run applications to analyze datasets of massive size and dimensionality. *Even Fall, Odd Spring.*

**EEL 5820 ECS-ECE 3(3,0)**  
**Image Processing:** PR: MAP 2302, EEL 4750 or C.I. Two-dimensional signal processing techniques; pictorial image representation; spatial filtering; image enhancement and encoding; segmentation and feature extraction; introduction to image understanding techniques. *Odd Spring.*

**EEL 5825 ECS-ECE 3(3,0)**  
**Pattern Recognition:** PR: EEL 4750 or C.I. Preliminaries of pattern recognition, Bayesian Decision Theory, linear discriminant functions, Neural Network approaches, decision tree classifiers, unsupervised learning and clustering, non-parametric techniques, and other topics reflecting the state-of-the-art. *Occasional.*

**EEL 5860 ECS-ECE 3(3,0)**  
**Software Requirements Engineering:** PR: Graduate standing or C.I. Excellent oral and written communication skills. Excellent problem solving skills. In-depth study of software requirements engineering within a process centered framework. Methods for requirements elicitation, analysis, description, and validation. Formal and informal specification. *Occasional.*

**EEL 5874 ECS-ECE 3(3,0)**  
**Expert Systems and Knowledge Engineering:** PR: EEL 4872 or CAP 4630 C.I. Introduction to expert systems in engineering. Expert systems tools and interviewing techniques. This course is hands-on and project oriented. *Spring.*

**EEL 5881 ECS-ECE 3(3,0)**  
**Software Engineering I:** PR: COP 4331C or C.I. Design, implementation, and testing of computer software for Engineering applications. *Fall, Spring.*

**EEL 5936 ECS-ECE 0(1,0)**  
**Current Topics in EECS:** PR: Open to all ECE graduate students. Lectures presented by ECE and national lectures will provide our students a broad view of the state of the art EE and CE fields. Graded S/U. *Occasional.*

**EEL 5937 ECS-ECE 3(3,0)**  
**Advanced Bioelectronics Systems:** PR: EEL 4309C or C.I. Advanced bioelectronics systems and techniques that enable recent biophysical and biomedical research will be discussed. *Occasional.*

**EEL 5937 ECS-ECE 3(3,0)**  
**Distributed Control and Optimization for Smart Grid:** PR: EEL 3657 and EEL 4216 or C.I. Electric power systems, transmission and distribution networks, voltage stability and VAR control, dispatch of distributed generation, optimization, frequency control, electricity markets and incentive controls. *Occasional.*

**EEL 5937 ECS-ECE 3(3,0)**  
**Communications and Networking for Smart Grid:** PR: EEL 4515C. Introduction to smart grid communication infrastructure, communication technologies in smart grid, communication networking in smart grid, communication for vehicle-to-grid systems, secure communication and networking. *Occasional.*

**EES 4111C ECS-CECE 4(3,3)**  
**Biological Process Control:** PR: ENV 3001 with a grade of "C" (2.0) or better. Engineering design, measurements and analysis of biological systems in environmental engineering for water management, bio-energy products, wastewater treatment, and others. *Spring.* M&S fee \$70.00

**EES 4202C ECS-CECE 4(3,3)**  
**Chemical Process Control:** PR: CHM 2046 and ENV 3001 both with a grade of "C" (2.0) or better. Engineering design, measurements, and analysis of chemical systems in environmental engineering to control treatment processes such as softening, coagulation, disinfection, scrubbing, neutralization, and others. *Fall.* M&S fee \$60.00

**EES 5318 ECS-CECE 3(3,0)**  
**Industrial Ecology:** PR: ENV 3001, ENV 4341. Discussion of similarities between ecological systems and industrial systems with the emphasis on material cycles, energy flow, pollution prevention, organizational structures, and environmental management. *Occasional.*

**EEX 2010 ED-CFCS 3(3,0)**  
**Introduction to Special Education:** Orientation to the education of children and adolescents with special needs in the schools. The course includes characteristics, trends, mainstreaming, and other issues. *Fall, Spring.*

**EEX 2090 ED-CFCS 3(3,0)**  
**Exceptional Populations in School and Society:** Characteristics of exceptionalities in school and society to increase student awareness and comfort levels with individuals with exceptionalities. *Fall, Even Spring.*

**EEX 2758 ED-CFCS 2(2,0)**  
**Enhancing Family Involvement in Education:** Development of partnerships with families of students with disabilities and their communities to address the educational needs of all students. *Fall, Spring.*

**EEX 3221 ED-CFCS 3(3,0)**  
**Assessment of Exceptional Students:** Formal and informal assessment techniques for screening, placement, program planning, program evaluation, and monitoring of progress of exceptional students. *Fall, Spring.*

**EEX 3241 ED-CFCS 3(3,0)**  
**Methods for Academic Skills for Exceptional Students:** PR: Admission to the CED or Admission to the ESE Minor. Teaching strategies, instructional materials, and monitoring techniques for children and adolescents with special needs. Must be taken before Internship I. *Fall, Spring.*

**EEX 3243 ED-CFCS 3(3,1)**  
**Techniques for Exceptional Adolescents-Adults:** CR: EEX 3241. A study of strategies, basic and functional content, career and vocational educational, and transition planning for adolescents and adults with special needs. *Spring.*

**EEX 3450 ED-CFCS 3(3,0)**  
**Young Children With Special Needs:** Provides an overview of the unique field of early childhood special education, its mission, and approaches to helping young children and their families. *Spring.*

**EEX 3942 ED-CFCS 3(3,0)**  
**Internship I Exceptional Education:** PR: EDG 4410, RED 3012, EEX 2010, EEX 3241, MAE 2801. Student teaching in exceptional education in both elementary and secondary school settings under the supervision of a certified classroom teacher. Graded S/U. *Fall, Spring.*

**EEX 4054 ED-CFCS 2(2,0)**  
**Application and Theories for Students with Special Needs:** PR: EEX 2010. Theories and historical foundations for students with specific learning, physical, cognitive, and emotional disabilities. *Spring.*

## UCF Courses and Descriptions

**EEX 4066 ED-CFCS 3(3,0)**  
**Curriculum, Theory and Instructional Strategies for Students with Special Needs:** PR: EEX 3241, RED 3012, LAE 4314. Theoretical concepts, curriculum development and specialized strategies for students with special needs. *Occasional.*

**EEX 4070 ED-CFCS 3(3,0)**  
**Teaching Exceptional Students:** PR: EDG 4410. Development and practice of effective teaching and management strategies for elementary regular classroom teachers to use in working with mild disabilities. *Fall, Spring.*

**EEX 4204 ED-CFCS 1-3(1-3,0)**  
**Instructional Strategies for Effective Inclusive Settings:** PR: Overall minimum 2.5 GPA or C.I. A comprehensive background on Exceptional Education history, reform, and educational strategies to teach students with disabilities in inclusive settings. *Spring.*

**EEX 4242 ED-CFCS 3(3,0)**  
**Teaching Exceptional Students in Secondary Settings:** PR: EDF 2085. Instructional and management strategies for secondary general education teachers to use in working with students with disabilities. *Fall, Spring.*

**EEX 4601 ED-CFCS 3(3,0)**  
**Introduction to Behavior Management:** Study of management techniques based on applied behavioral analysis principles for modifying inappropriate behaviors and maintaining appropriate behaviors of exceptional students. *Fall, Spring.*

**EEX 4751 ED-CFCS 3(3,0)**  
**Parent Involvement in Education:** This course prepares students to successfully interact with and involve parents in their child's education. *Occasional.*

**EEX 4757 ED-CFCS 3(3,0)**  
**Respite Care:** PR: Junior Standing or C.I. General knowledge and best practice in the field of temporary care: the nature and needs of care givers and care recipients, including special populations. *Occasional.*

**EEX 4763 ED-CFCS 3(3,0)**  
**Technology for Classroom Teachers of Students with Special Needs:** PR: EEX 3241, RED 3012, LAE 4314, MAE 2801. Enhancing teacher preparation through the use of technology for students with special needs. *Fall, Spring.*

**EEX 5051 ED-CFCS 3(3,0)**  
**Exceptional Children in the Schools:** PR: Senior standing or C.I. Characteristics, definitions, educational problems, and appropriate educational programs for the exceptional children in schools. *Fall.*

**EEX 5702 ED-CFCS 3(3,0)**  
**Planning Curriculum for Pre-Kindergarten Children with Disabilities:** Focus on curriculum planning; developmentally appropriate practices and implementation of individualized instruction for pre-kindergarten children with disabilities. *Spring.*

**EEX 5750 ED-CFCS 3(3,0)**  
**Communication with Parents and Agencies:** Presentation of methods of interacting with community agencies, supporting and collaborating with families, developing a case management system, and facilitating program transition. *Occasional.*

**EGM 3601 ECS-MECH/AERO 3(3,0)**  
**Solid Mechanics:** PR: "C" (2.0) or better in the following MAC 2311C, MAC 2312, MAC 2313, PHY 2048C and EGN 3310; PR: or CR: MAP 2302. Concepts of stress, strain, deflection; axial force, torsion, bending, combined stress, Mohr's circle, failure theories, design concepts, application to machines and vehicles. *Fall, Spring.*

**EGM 3601H ECS-MECH/AERO 3(3,0)**  
**Honors Solid Mechanics :** PR: with a grade of "C" or better (2.0) or better in each of the following MAC 2311C, MAC 2312, MAC 2313, PHY 2048C and EGN 3310; CR: MAP 2302 Concepts of stress, strain, deflection, axial force, energy, torsion, bending, buckling, combined stress/strain, Mohr's circles, failure theories; design concepts, application to machines and vehicles. With Honors content *Fall, Spring.*

**EGN 1007C ECS-ECS 1(1,2)**  
**Engineering Concepts and Methods:** PR: EGS 1006C and New student status or C.I. Introduction to the use of computer and applications software in solving engineering problems. Introduction to the concepts of engineering design through the use of teams: engineering communication; engineering professionalism and ethics. *Spring.*

**EGN 2920C ECS-IEMS 2(1,1)**  
**LEAD Colloquium:** PR: C.I., LEAD Scholars Program, Must have completed at least two of the following with a grade of B or better, IDS 1040C, GEB 1091C, EGS 1036C, EDG 1005C or HSC 1931C. Provides experiential leadership experience in an appropriate leadership setting under the direction of a university supervisor with the LEAD Scholars Program. May be repeated for credit. *Occasional.*

**EGN 3211 ECS-ECE 3(3,0)**  
**Engineering Analysis and Computation:** PR: MAC 2312 with a "C" (2.0) or better. Engineering analysis and computation with structured constructs. Subscripted variables, functions, input/output. Applications in embedded systems and examples in numerical methods. *Fall, Spring.*

**EGN 3310 ECS-CECE 3(3,0)**  
**Engineering Analysis-Statics:** PR: MAC 2311C, PHY 2048C both with a grade of "C" (2.0) or better; CR: MAC 2312. Fundamental concepts of mechanics, including resultants of force systems, free-body diagrams, equilibrium of rigid bodies, and analyses of structures. *Fall, Spring.*

**EGN 3310H ECS-CECE 3(3,0)**  
**Honors Engineering Analysis-Statics:** PR: Permission of Honors and MAC 2311C, PHY 2048C both with grades of "C" (2.0) or better; CR: MAC 2312. Advanced treatment of material and additional topics, including project work. With Honors content. *Fall, Spring.*

**EGN 3321 ECS-MECH/AERO 3(3,0)**  
**Engineering Analysis-Dynamics:** PR: "C" (2.0) or better in EGN 3310 and MAC 2313; PR: or CR: MAP 2302. Kinematics and kinetics of particles and rigid bodies; mass and acceleration, work and energy, impulse and momentum, introduction to kinematics of mechanisms; introduction to 3D rigid body dynamics; central force. *Fall, Spring.*

**EGN 3321H ECS-MECH/AERO 3(3,0)**  
**Honors Engineering Analysis - Dynamics:** PR: Permission of Honors and EGN 3310, MAC 2313 both with a grade of "C" (2.0) or better; CR: MAP 2302. Kinematics and kinetics of particles and rigid bodies; mass and acceleration, work and energy, impulse and momentum, introduction to kinematics of mechanisms; introduction to 3D rigid body dynamics; central force. *Spring.*

**EGN 3331C ECS-CECE 3(3,2)**  
**Mechanics of Materials:** PR: EGN 3310 with a grade of "C" or better; CR: MAP 2302. Concepts of stress, strain, strength, deflection of axial force members, shafts in torsion, beams in flexure, combined stress, stability of columns, and design of simple elements. *Fall, Spring.*

**EGN 3343 ECS-MECH/AERO 3(3,0)**  
**Thermodynamics:** PR: "C" (2.0) or better in both MAC 2313 and EGN 3310; CR: MAP 2302. Work, heat, and energy transformations. Relation of properties. Laws, concepts, and modes of analysis common to all applications of thermodynamics in engineering. *Fall, Spring.*

**EGN 3343H ECS-MECH/AERO 3(3,0)**  
**Honors Thermodynamics:** PR: Honors status; CR: EGN 3321 or EGN 3321H or EML 3217, & MAP 2302. Work, heat, and energy transformations. Relation of properties. Laws, concepts, and models of analysis common to all applications of thermodynamics in engineering. Honors content. *Spring.*

**EGN 3358 ECS-MECH/AERO 3(3,0)**  
**Thermo-Fluids-Heat Transfer:** PR: EGN 3310, MAP 2302. Introduction to first and second laws of thermodynamics, continuum fluid mechanics, and heat transfer for electrical, industrial, and computer engineering majors. *Fall, Spring.*

**EGN 3365 ECS-MECH/AERO 3(3,0)**  
**Structure and Properties of Materials:** PR: (CHS 1440 or CHM 2045C) and MAC 2312 with grades of "C" (2.0) or better in both. Atomic structure and bonding, crystal structure and imperfections, solidification, phase transformations, phase diagrams, heat treatment, mechanical & electrical properties, materials characterization techniques. *Fall, Spring.*

**EGN 3365H ECS-MECH/AERO 3(3,0)**  
**Honors Structure and Properties of Materials:** PR: MAC 2312, and (CHS 1440 or CHM 2045C), with grades of "C" (2.0) or better in both; and consent of Honors. Atomic bonding; lattices; phonons; crystal structure; diffraction; defects; diffusion; phase equilibria and diagrams; transformations kinetics; mechanical, thermal, electrical, optical, and magnetic properties. With Honors content. *Spring.*

**EGN 3373 ECS-ECE 3(3,0)**  
**Principles of Electrical Engineering:** PR: PHY 2049C; CR: MAP 2302. Fundamentals of electrical circuits and analysis; fundamentals of electronics and AC power systems, transformers, electromechanics and rotating machines. *Fall, Spring.*

**EGN 3373H ECS-ECE 3(3,0)**  
**Honors Principles of Electrical Engineering:** PR: Permission of Honors and PHY 2049C, CR: MAP 2302. Fundamentals of electrical circuits and analysis. Fundamentals of electronics and AC power systems, transformers, electromechanics and rotating machines. *Spring.*

**EGN 3420 ECS-ECE 3(3,0)**  
**Engineering Analysis:** PR: EGN 3211, and MAC 2312 with a "C" (2.0) or better. Engineering applications of numerical methods including curve fitting, matrix operations, root finding, interpolating, integration and plotting. *Occasional.*

**EGN 3613 ECS-IEMS 2(2,0)**  
**Engineering Economic Analysis:** PR: MAC 2311C with a grade of "C" (2.0) or better, not open to Industrial Engineering students. Economic evaluation of engineering alternatives and design. Time value of money and economic impact of taxes, risk, depreciation. *Fall, Spring.*

**EGN 4060C ECS-ECS 3(2,3)**  
**Introduction to Robotics:** PR: COP 3223C or EGN 3211; and EEL 3657 or EEL 4742C or COP 3503C or EGN 3321 or EML 3217. Theory and application of robotics topics including: architecture, path planning, sensing and manipulation. *Fall.*

**EGN 4641C ECS-ECS 3(2,2)**  
**Engineering Entrepreneurship:** PR: Senior standing, ENT 4183, or C.I. All aspects of a successful engineering entrepreneurship enterprise. Content includes lectures, case studies, and seminars. Active student participation. Course material is augmented through seminars given by engineers, business people, and specialists, based on their own experiences. *Occasional.*

**EGN 4931H ECS-ECS 3(3,0)**  
**Honors Engineering Seminar:** PR: Permission of Honors and Senior standing and C.I. Introduces a select group of students in engineering or other fields of science to the methodology commonly employed in research. Students will carry out independent research which will prepare them for graduate study. *Occasional.*

**EGS 1006C ECS-ECS 1(1,2)**  
**Introduction to the Engineering Profession:** PR: New students status or C.I. Overview of academic and professional requirements in various engineering disciplines. *Fall.*

**EGS 1036C ECS-IEMS 2(1,1)**  
**Foundations of Leadership:** PR: LEAD Scholars Program. Seminar for LEAD Scholars in the College of Engineering & Computer Science providing a foundation of leadership, scholarship, and service regarding disciplines in the college. *Fall, Spring.*

**EGS 3030 ECS-ECS 0(2,0)**  
**Leadership in Engineering I:** PR: Junior standing in a CECS major. Leadership roles for engineers are presented by prominent professionals in industry and government. Graded S/U. *Fall.*

## UCF Courses and Descriptions

**EGS 3031 ECS-ECS 0(2,0)**  
**Leadership in Engineering II:** PR: Junior standing in a CECS major. Leadership roles for engineers are presented by prominent professionals in industry and government. Graded S/U. *Spring.*

**EGS 4624 ECS-IEMS 3(3,0)**  
**Engineering Innovation and Leadership:** PR: Senior standing. A broad range of topics including corporate organization structures, individual and team leadership, and techniques to enhance innovation and creativity. *Spring.*

**EGS 4710 ECS-ECS 3(3,0)**  
**Energy and Society:** Investigation of available energy forms; energy resources versus requirements in an increasingly complex technological society; possible solutions and future predictions. *Occasional.*

**EGS 4950 ECS-ECS 3(3,0)**  
**Engineering Leadership Capstone:** PR: Enrolled in Engineering Leadership Minor or Certificate; CR: approved design course in Engineering or Computer Science. Students will reflect upon and define their professional approach. Students will develop their professional portfolio, concept of operations, and individual strategic plan. *Fall, Spring.*

**EIN 2002 ECS-IEMS 1(1,0)**  
**Introduction to Industrial Engineering and Management Systems:** PR: MAC 2311C with a grade of a "C" (2.0) or better and sophomore standing. Introduction to the profession of Industrial Engineering and important skills necessary for success. Course includes presentations by local IE professionals. *Fall.*

**EIN 3314 ECS-IEMS 3(3,0)**  
**Work Analysis and Design:** PR: STA 3032 with a grade of "C" (2.0) or better or C.I. Introduction to lean six sigma analysis as applied to design and improvement of work systems in any organization. Various data collection and analysis methods utilized. *Fall.*

**EIN 3351 ECS-IEMS 3(3,0)**  
**Engineering Economic Analysis and Cost Engineering:** PR: MAC 2311C with a grade of "C" (2.0) or better. Knowledge and understanding of economic evaluation of engineering and management alternatives, cost analysis, budgeting and estimating techniques. *Spring.*

**EIN 3354 ECS-IEMS 3(3,0)**  
**Principles of Cost Engineering:** PR: EGN 3613. This course is to provide engineers from all disciplines the background for the cost estimation of engineering systems throughout the product life cycle. *Fall.*

**EIN 4191C ECS-IEMS 2(2,2)**  
**Engineering Leadership Seminar I:** PR: Junior or better standing in engineering with C.I. Progressive engineering leadership development (intrapersonal to interpersonal to organizational to community) via a combination of experiential and practical experiences in engineering-specific corporate and community settings. *Fall.*

**EIN 4192C ECS-IEMS 2(2,2)**  
**Engineering Leadership Seminar II:** PR: EIN 4191C. Continuation of EIN 4191C. *Spring.*

**EIN 4214 ECS-IEMS 3(3,0)**  
**Safety Engineering and Administration:** Analysis of accidents in the industrial operating environment. Application of fault trees, OSHA requirements. Consideration of accident costs and organizational aspects of accident prevention. *Occasional.*

**EIN 4243C ECS-IEMS 3(2,2)**  
**Human Engineering:** PR: STA 3032 with a grade of "C" (2.0) or better. Man/machine systems; design and conduct of human engineering studies. *Spring.*

**EIN 4333 ECS-IEMS 3(3,0)**  
**Production and Distribution Systems:** PR: ESI 4312 with a grade of "C" (2.0) or better. Decision policies in manufacturing and logistics systems including forecasting, production planning, operations scheduling, deterministic and stochastic inventory control and project scheduling. *Spring.*

**EIN 4360 ECS-IEMS 4(4,0)**  
**Facilities Planning and Work Design:** PR: STA 3032 with a grade of "C" (2.0) or better. Introduces fundamental concepts in facility planning, material handling systems and work analysis/design including work space/flow analysis, layout, warehousing operations and work measurement. *Fall.*

**EIN 4364 ECS-IEMS 3(3,0)**  
**Facilities Planning:** PR: EIN 3314 with a grade of "C" (2.0) or better; PR: or CR: EIN 3351. Planning and design of production systems including interrelationships between process layouts, material handling, warehousing and site selection. *Spring.*

**EIN 4391 ECS-IEMS 3(3,0)**  
**Manufacturing Engineering:** PR: Grade of "C" (2.0) or better in any of the following course options CHM 2045C or CHS 1440 or (CHM 2040 and CHM 2041); and Junior Standing. Introduction to manufacturing engineering, with emphasis on current and emerging technologies in metalworking and electronics. *Fall, Spring.*

**EIN 4517 ECS-IEMS 3(3,0)**  
**Systems Engineering:** PR: STA 3032 with a grade of "C" (2.0) or better. Fundamental principles of systems engineering and their application to the development of industrial complex engineered systems. *Spring.*

**EIN 4545 ECS-IEMS 3(3,0)**  
**Industrial Engineering Applications in The Service Industries:** PR: ESI 4312 with a grade of "C" (2.0) or better. Application of industrial engineering principles to improve the quality and productivity of service industries such as restaurants, banks, hotels, health care, etc. *Fall.*

**EIN 4891C ECS-IEMS 4(2,4)**  
**Industrial Engineering Senior Design Project:** PR: ESI 4523 and EIN 4360 (Facilities Planning and Work Design) both with grades of "C" (2.0) or better and department consent. Capstone design course; application of IEMS techniques to real-world design applications. *Fall, Spring.*

**EIN 5108 ECS-IEMS 3(3,0)**  
**The Environment of Technical Organizations:** PR: Graduate status or CI; EGS 4624 recommended. Presentation and investigation into the principles required to transform technologists into managers focusing on engineers, scientists, and other professionals providing services in technically-oriented organizations. *Fall.*

**EIN 5117 ECS-IEMS 3(3,0)**  
**Management Information Systems I:** PR: C.I. The design and implementation of computer-based Management Information Systems. Consideration is given to the organizational, managerial, and economic aspects of MIS. *Spring.*

**EIN 5140 ECS-IEMS 3(3,0)**  
**Project Engineering:** PR: Graduate standing or C.I. Role of engineer in project management with emphasis on project life cycle, quantitative and qualitative methods of cost, schedule, and performance control. *Fall, Spring.*

**EIN 5248C ECS-IEMS 3(2,2)**  
**Ergonomics:** PR: C.I. Applications of anthropometry, functional anatomy, mechanics, and physiology of musculoskeletal system concepts in the engineering design of industrial tools, equipments, and workstations. *Fall.*

**EIN 5251 ECS-IEMS 3(3,0)**  
**Usability Engineering:** PR: STA 3032 or equivalent. Usability paradigms/principles; cognitive walk-throughs; heuristic, review-based, model-based, empirical and storyboard evaluation; techniques; query techniques; laboratory techniques; and field study approaches. *Spring.*

**EIN 5255C ECS-IEMS 3(2,2)**  
**Interactive Simulation:** PR: Graduate standing or C.I. Introduction to significant topics relative to the development and use of simulators for knowledge transfer in the technical environment. *Fall.*

**EIN 5317 ECS-IEMS 3(3,0)**  
**Training System Design:** PR: Seniors, post bac or graduate standing or C.I. How human performance deficiencies should be addressed from a systems design point of view. Manpower, personnel, and training considerations will be examined. *Occasional.*

**EIN 5346 ECS-IEMS 3(3,0)**  
**Engineering Logistics:** PR: ESI 5306 or ESI 4312. Study of the logistics life cycle involving planning, analysis and design, testing, production, distribution, and support. *Occasional.*

**EIN 5356 ECS-IEMS 3(3,0)**  
**Cost Engineering:** Cost estimation and control of engineering systems throughout the product life cycle. *Occasional.*

**EIN 5392C ECS-IEMS 3(2,2)**  
**Manufacturing Systems Engineering:** PR: EIN 4391C or C.I. The integration of manufacturing technologies and information processing concepts into a system for controlling the manufacturing enterprise. *Occasional.*

**EMA 3000 ECS-MSE 3(3,0)**  
**Engineering Polymeric, Ceramic, and Composite Materials:** PR: EGN 3365 or EMA 3706. Structure, properties, processing of engineering polymeric, ceramic, and composite materials. *Occasional.*

**EMA 3012C ECS-MSE 3(2,2)**  
**Experimental Techniques in Mechanics and Materials:** PR: EGN 3365, EGM 3601. Materials characterization (optical and scanning electron microscopy, x-ray diffraction), heat treatment, mechanical testing (hardness, tensile, impact, etc.). *Fall, Spring.* M&S fee \$45.00

**EMA 3124 ECS-MSE 3(3,0)**  
**Design and Selection of Materials:** PR: EGM 3601, and EGN 3365 or EMA 3706. Relationship between processing, structure and properties of various engineering materials and their selection in engineering design. *Fall.*

**EMA 3691 ECS-MSE 3(3,0)**  
**Nanomaterials Process Engineering:** PR: CHS 1440 or CHM 2045C, and PHY 2048 or PHY 2053C and EGN 3365. Nanomaterials, processing, nanomachining, nanocompositions, nanocomposites and computations of devices. *Occasional.*

**EMA 3706 ECS-MECH/AERO 3(3,0)**  
**Structure and Properties of Aerospace Materials:** PR: (CHS 1440 or CHM 2045C) and MAC 2312 with grades of "C" (2.0) or better in both. Atomic structure, bonding, crystal structures, solidification, phase transformations, heat treatment, mechanical behavior, specific aerospace materials, materials design *Fall, Spring.*

**EMA 4102 ECS-MSE 3(3,0)**  
**Thermodynamics and Kinetics of Materials:** PR: EGN 3343, EGN 3365 or EMA 3706; and a "C" (2.0) or better in all of the following; CHS 1440 or CHM 2045C, MAC 2311C, MAC 2312, MAC 2313, MAP 2302 and PHY 2048. Application of first, second and third laws of thermodynamics to materials, phase diagrams, statistical thermodynamics, kinetic processes in materials, diffusion, nucleation and growth, and phase transformations. *Fall.*

**EMA 4223 ECS-MSE 3(3,0)**  
**Fundamentals of Mechanical Behavior of Materials:** PR: EGM 3601, and EGN 3365 or EMA 3706. Elementary treatment of elasticity, plasticity, viscoelasticity, creep, fracture, and fatigue. *Spring.*

**EMA 4413 ECS-MECH/AERO 3(3,0)**  
**Fundamentals of Electronic Materials:** PR: EGN 3365 or EMA 3706 or PHY 3101. Electronic processes in solids. Electrical, magnetic, and optical properties of solids. Electron energies in solids. Superconducting materials. *Spring.*

**EMA 4501C ECS-MSE 3(2,2)**  
**Scanning Electron Microscopy:** PR: EGN 3365 or EMA 3706. A review of electron optics, beam/specimen interactions, image formation, x-ray analysis, specimen preparation, microelectronic applications, and crystallography in the SEM. *Occasional.*

## UCF Courses and Descriptions

**EMA 4503 ECS-MSE 3(3,0)**  
**Materials Characterization Techniques:** PR: EMA 3012C, and EGN 3365 or EMA 3706. Theory and practice of commonly used techniques for characterization of crystal structure, microstructure and chemistry *Occasional*.

**EMA 4506 ECS-MSE 3(3,0)**  
**Emerging Materials:** PR: EGN 3365, or EMA 3706. Structure, properties and processing of modern emerging materials *Occasional*.

**EMA 5060 ECS-MSE 3(3,0)**  
**Polymer Science and Engineering:** PR: EGN 3365. Structure and properties of polymers, preparation and processing of polymers, mechanical properties, use in manufacturing and high tech applications. *Occasional*.

**EMA 5104 ECS-MSE 3(3,0)**  
**Intermediate Structure and Properties of Materials:** PR: EGN 3365. Fundamentals of dislocation theory, metallurgical thermodynamics and diffusion. Phase transformations, strengthening mechanisms and fracture. Introduction to engineering polymers, ceramics, and composites. *Fall*.

**EMA 5106 ECS-MSE 3(3,0)**  
**Metallurgical Thermodynamics:** PR: EGN 3365. Laws of thermodynamics, phase equilibria, reactions between condensed and gaseous phases, reaction equilibria in condensed solution and phase diagrams. *Occasional*.

**EMA 5108 ECS-MSE 3(3,0)**  
**Surface Science:** PR: PHY 2049C and C.I. Methods of chemical and physical analysis of surfaces, with emphasis on ultra-high vacuum spectroscopies utilizing electron, ion and photon probes. *Occasional*.

**EMA 5140 ECS-MSE 3(3,0)**  
**Introduction to Ceramic Materials:** PR: EGN 3365. Uses, structure, physical and chemical properties, and processing of ceramic materials. Discussions will include recent developments for high technology applications. *Occasional*.

**EMA 5317 ECS-MSE 3(3,0)**  
**Materials Kinetics:** PR: C.I. Mass and thermal transport, phase transformations and Arrhenius rate processes. *Occasional*.

**EMA 5326 ECS-MSE 3(3,0)**  
**Corrosion Science and Engineering:** PR: EGN 3365. Electrochemical principles and applications to detecting and monitoring corrosion processes. Various forms of corrosion, their causes and control. Techniques of corrosion protection. *Occasional*.

**EMA 5415 ECS-MSE 3(3,0)**  
**Electronic Principles of Materials Properties:** PR: EGN 3365 or EMA 3706 or C.I. The course covers the fundamental concepts of band structure and bonding of materials, electrical and thermal conduction in metals and semiconductors. *Occasional*.

**EMA 5504 ECS-MSE 3(2,2)**  
**Modern Characterization of Materials:** PR: EMA 5104 or C.I. Techniques and operation of instrumentation (light, scanning, transmission, and auger microscopy) for the characterization of structure, defects, composition, and surfaces. *Occasional*.

**EMA 5505 ECS-MSE 3(2,2)**  
**Scanning Electron Microscopy:** PR: EMA 5104 or C.I. A review of electron optics, beam/specimen interactions, image formation, X-ray analysis, specimen preparation, microelectronic applications and crystallography in the SEM. *Occasional*.

**EMA 5584 ECS-MSE 3(3,0)**  
**Biomaterials:** PR: EGN 3365. Properties of natural biological materials and their relation to microstructure, biocompatibility, specific applications in orthopedic, cardiovascular, visual, neural, and reconstruction implants. *Even Spring*.

**EMA 5585 ECS-MSE 3(3,0)**  
**Materials Science of Thin Films:** PR: Graduate standing or C.I. Interaction of thin film processing techniques with the structure and properties of the materials deposited. *Odd Fall*.

**EMA 5586 ECS-MSE 3(3,0)**  
**Photovoltaic Solar Energy Materials:** PR: EGN 3365. Materials properties basic to photovoltaics, structures, homojunction, heterojunction, and surface barrier solar cells, AMDS-1D modeling of c-Si, GaAs bulk and a-Si:H, CIGS, and CdTe thin film solar cells. May be repeated for credit. *Occasional*.

**EMA 5588 ECS-MSE 3(3,0)**  
**Biocompatibility of Materials:** PR: EGN 3365 or C.I. Biocompatibility and bioactivity; cell-biomaterials interactions; engineering bone and cartilage; soft-tissue replacements; total hip replacements; nanostructured biomaterials, imaging techniques, preservation techniques for biomaterials, MSDS and FDA compatibility data. *Occasional*.

**EMA 5610 ECS-MSE 3(3,0)**  
**Laser Materials Processing:** PR: EGN 3343 or EMA 5106 or C.I. Laser beam optics; laser-material interactions; laser heating, melting, vaporization. Plasma formation; laser surface treatment, welding, machining; laser material synthesis. Thin film deposition, crystal growth. *Occasional*.

**EMA 5705 ECS-MSE 3(3,0)**  
**High Temperature Materials:** PR: EMA 5104 or C.I. The course covers the principles of strengthening alloys for high temperature service, alloy and process selection, alloy development and design principles for elevated temperature applications. *Occasional*.

**EMA 5937 ECS-MSE 3(3,0)**  
**Biomedical Sensor Fabrication, Characterization and Applications:** PR: General graduate standing in Engineering, Biomedical Science, Biotechnology, Chemistry or related disciplines or C.I. Study of engineering and materials concepts behind the biomedical sensors currently used and under development, as well as technologies utilized in fabrication and characterization of these devices. *Occasional*.

**EME 2040 ED-TL&L 3(3,0)**  
**Introduction to Technology for Educators:** Introduction to technology for educators, including classroom management tools, multimedia, communication networks, interactivity, educational software and legal, ethical and social issues. *Fall/Spring*.

**EME 2041 ED-E&HS 3(3,0)**  
**Introduction to Applications of Technology in Education:** Classroom applications of instructional media including computers. *Occasional*.

**EME 4312 ED-E&HS 3(3,0)**  
**Applications of Technology in Education:** Classroom applications of instructional media. including computers. Includes experiences with equipment, commercial and teacher-made media, and their uses. *Occasional*.

**EME 5050 ED-E&HS 3(3,0)**  
**Fundamentals of Technology for Educators:** PR: Post bac or C.I. Designed to provide participants with an introduction to the field of educational technology content with emphasis on using and integrating technology in K-12 to improve the teaching and learning process. *Fall/Spring*.

**EME 5811 ED-TL&L 1(1,0)**  
**Teaching and Learning with Technology:** Overview of technologies for teaching and for learning. Practical strategies for using technology in the classroom. May be used in the degree program a maximum of 4 times. *Occasional*.

**EML 3001C ECS-MECH/AERO 1(1,2)**  
**Machine Shop Practice:** PR: EGM 3601, EGN 3365 or EMA 3706. Set up and operation of mill and lathe, cutting tools, holding devices, cutting speeds and feed rates. Measurement devices. Hands-on experience. *Occasional*. M&S fee \$29.00

**EML 3022C ECS-MECH/AERO 3(2,2)**  
**Introduction to Computer Aided Engineering:** PR: EGM 3601 with a grade of "C" (2.0) or better. Introductory understanding and hands-on experience on computer aided engineering including computer aided design (CAD), computer aided manufacturing (CAM), and computer aided analysis. *Fall/Spring*.

**EML 3034C ECS-MECH/AERO 3(3,1)**  
**Modeling Methods in Mechanical and Aerospace Engineering:** PR: "C" (2.0) or better in all of the following prerequisites: MAC 2311C, MAC 2312, MAC 2313, MAP 2302 and PHY 2048C. CR: EGN 3321 and EAS 3933 or EML 3933. Computer aided modeling of mechanical and aerospace systems. Solution methods. Curve fitting. Numerical calculus and solution of differential equations with applications to mechanical and aerospace engineering. *Fall/Spring*.

**EML 3101 ECS-MECH/AERO 3(3,0)**  
**Thermodynamics of Mechanical Systems:** PR: EGN 3343 and a "C" (2.0) or better in all of the following: MAC 2311C, MAC 2312, MAC 2313, MAP 2302 and PHY 2048. Applied thermodynamics, availability analysis, thermodynamics of reactive and non-reactive mixtures, thermodynamic relations of properties. Thermodynamic design analysis of complete mechanical systems. *Spring*.

**EML 3217 ECS-MECH/AERO 3(3,0)**  
**Engineering Mechanics - Dynamics:** PR: MAC 2313 with a grade of "C" (2.0) or better, EGN 3310; CR: MAP 2302. Kinematics and kinetics of particles and rigid bodies; mass and acceleration, work and energy, impulse and momentum, introduction to kinematics of mechanisms; introduction to 3D rigid body dynamics; central force. *Fall/Spring*.

**EML 3262 ECS-MECH/AERO 3(3,0)**  
**Kinematics of Mechanisms:** PR: EGN 3321 and a "C" (2.0) or better in all of the following: MAC 2311C, MAC 2312, MAC 2313, MAP 2302 and PHY 2048. Graphical, mathematical, and computer-aided kinematics, analysis, and synthesis of basic mechanisms. *Fall*.

**EML 3303C ECS-MECH/AERO 3(2,3)**  
**Mechanical Engineering Measurements:** PR: "C" (2.0) or better in EGN 3343. Theory, calibration and use of instruments. Measurement techniques, data analysis, report writing. Laboratory topics related to mechanical engineering. *Fall/Spring*. M&S fee \$15.00

**EML 3500 ECS-MECH/AERO 3(3,0)**  
**Design and Analysis of Machine Components:** PR: "C" (2.0) or better in EGM 3601. Application of the principles of mechanics of materials to the design of mechanical components. *Fall/Spring*.

**EML 3701 ECS-MECH/AERO 3(3,0)**  
**Fluid Mechanics I:** PR: "C" (2.0) or better in all of the following: MAC 2311C, MAC 2312, MAC 2313, MAP 2302, PHY 2048C, EGN 3321 and EGN 3343. Principles of continuum fluid mechanics. Integral and differential forms of governing equations, fluid statics, dimensional analysis, measurements, internal flows. *Fall/Spring*.

**EML 3933 ECS-MECH/AERO 0(0,0)**  
**Mechanical Career and Academic Faculty Advising I:** PR: MAP 2302. Mandatory meeting with students and their faculty advisor for career/academic advising. Graded S/U. *Fall/Spring*.

**EML 4024C ECS-MECH/AERO 3(2,2)**  
**Engineering Design Practice:** PR: EGM 3601 and EML 3022C (Introduction to Computer Aided Engineering) with grades of "C" (2.0) or better in both. A project oriented computer aided engineering design practice including design, simulation, analysis, and manufacturing. *Fall/Spring*.

**EML 4142 ECS-MECH/AERO 3(3,0)**  
**Heat Transfer:** PR: "C" (2.0) or better in both EML 3701 and EML 3034C. Conduction, radiation, and convection heat transfer. Basic energy balances emphasized. Steady state and transient problems, analysis and design of simple heat exchangers. *Fall/Spring*.

**EML 4143 ECS-MECH/AERO 3(3,0)**  
**Heat Transfer II:** PR: EML 4142. Advanced topics in heat transfer, multi-dimensional conduction, transient conduction, convection heat transfer, participating medium, boiling and condensation. *Fall*.

## UCF Courses and Descriptions

**EML 4225 ECS-MECH/AERO 3(3,0)**  
**Introduction to Vibrations and Controls:** PR: "C" (2.0), or better in each of the following courses EGN 3321, EGM 3601, EML 3034C, and EGN 3373. Undamped and damped vibration analysis of mechanical systems with single and two degrees of freedom; forced vibration; concepts of feedback controls; classical proportional, derivative and integral (PID) feedback controls and root locus. *Fall, Spring.*

**EML 4260 ECS-MECH/AERO 3(3,0)**  
**Dynamics of Machinery:** PR: EML 3262 or EML 3217, EML 4220 or EML 4225. Critical speeds and response of flexible rotor systems, whirl, gyroscopic effects; balancing of rotating and reciprocating masses; cam dynamics. *Occasional.*

**EML 4264 ECS-MECH/AERO 3(3,0)**  
**Vehicle Dynamics:** PR: EML 3262 or EML 3217, EML 4220 or EML 4225. Basic mechanics governing vehicle dynamics, performance and handling; acceleration, braking, ride, cornering, suspension, steering, rollover. *Occasional.*

**EML 4301C ECS-MECH/AERO 3(2,3)**  
**Mechanical Systems Lab:** PR: EML 3303C, EGM 3601; CR: EML 4225. Teaching laboratory in solid mechanics, dynamic vibrations and control-feedback testing and theory; designing and conducting experiments; analyzing and interpreting data. *Spring.*

**EML 4306C ECS-MECH/AERO 3(2,3)**  
**Energy Systems Lab:** PR: EML 3303C; CR: EML 4142. Design of experiments in Thermo-Fluid Systems with emphasis on project team activity. *Spring.*

**EML 4312C ECS-MECH/AERO 3(2,3)**  
**Feedback Control:** PR: EGN 3321, MAP 2302, EGN 3373 and EML 4220 or EAS 4210C. Mathematical modeling of dynamic systems: transient and steady state response; Root Locus and z-transform methods; discrete systems analysis; controller design. *Fall.*

**EML 4313 ECS-MECH/AERO 3(3,0)**  
**Intermediate System Dynamics and Controls:** PR: EML 3217, MAP 2302, EGN 3373 and EML 4225. Free and forced vibration analysis of mechanical systems with multi degrees of freedom; normal modes and modal analysis; systems concepts, stability criteria, role of uncertainty in feedback and frequency domain control design. *Fall.*

**EML 4411 ECS-MECH/AERO 3(3,0)**  
**Mechanical Power Systems:** CR: EML 3101. Analysis and design of large power generating systems and components, with emphasis on steam plants utilizing both chemical and nuclear fuels. *Occasional.*

**EML 4454 ECS-MECH/AERO 3(3,0)**  
**Turbines for Sustainable Power:** PR: EGM 3601, EGN 3365 or EMA 3706, EML 3701 or EAS 3101; CR: EML 4142. Multidisciplinary aspects of turbine design for sustainable power generation including aerodynamics to combustion and emissions to reliability; covers multiple applications of conventional and green technologies. *Fall.*

**EML 4501C ECS-MECH/AERO 3(1,6)**  
**Engineering Design I:** PR: EGN 3373, EML 3303C, EML 3701, EML 4142, EML 4225 and department consent; CR: EML 4931. Application of the design process in the team solution of a state-of-the-art problem. Aerospace, mechanical, thermo-fluid, or material problems are considered. *Fall, Spring.*

**EML 4502C ECS-MECH/AERO 3(1,6)**  
**Engineering Design II:** PR: EML 4501C, EML 4931. Continuation of the design process in the team building and testing of a prototype. A test plan and a test report are completed. *Fall, Spring.* M&S fee \$60.00

**EML 4504 ECS-MECH/AERO 3(3,0)**  
**Design & Analysis of Machine Components II:** PR: EML 3500. Application of the principles of component analysis to the design of mechanisms. *Spring.*

**EML 4600 ECS-MECH/AERO 3(3,0)**  
**HVAC Systems Engineering:** PR: EGN 3343. Heating, ventilation, air-conditioning, and refrigeration principles and systems design. Psychrometrics, heating and cooling loads, equipment and components, and distribution systems. *Fall.*

**EML 4602 ECS-MECH/AERO 3(3,0)**  
**Applied HVAC Engineering:** PR: EGN 3343; CR: EML 4142. Applications of HVAC systems design with the objective of optimizing energy efficiency, humidity control, ventilation, and indoor air quality. Dehumidification performance of the various HVAC system types and their interactions with the building. *Spring.*

**EML 4703 ECS-MECH/AERO 3(3,0)**  
**Fluid Mechanics II:** PR: EML 3701. Continuation of Fluid Mechanics I. External flows, fluid machinery, compressible flows, design projects. *Fall.*

**EML 4804C ECS-MECH/AERO 3(2,3)**  
**Digital Control in Mechatronics:** PR: EML 3303C; and (EML 4220 and EML 4312C) or (EML 4225 and EML 4313). Discrete microprocessor control of mechatronics dynamic systems using state-space representation, digital controllers, design for mechatronic applications. *Spring.* M&S fee \$15.00

**EML 4931 ECS-MECH/AERO 0(0,0)**  
**Mechanical Career and Academic Faculty Advising II:** PR: EML 3933 and department consent. Mandatory meeting with students and their faculty advisor for career/academic advising. Graded S/U. *Fall, Spring.*

**EML 5026C ECS-MECH/AERO 3(2,2)**  
**Computational Engineering Analysis:** PR: EML 4024C. Principle understanding and project based hands-on experience on computational engineering analysis including Finite Element Analysis (FEA), Computational Fluid Dynamics (CFD), and Multi-body Dynamics (MBD) *Occasional.*

**EML 5060 ECS-MECH/AERO 3(3,0)**  
**Mathematical Methods in Mechanical and Aerospace Engineering:** PR: MAP 2302. Vector field theory, generalized coordinates, complex variables, contour integration and Laplace and Fourier transforms and inversions, variable coefficient ODEs and solution of PDEs for governing equations of heat transfer, ideal fluid flow, and mechanics. *Fall.*

**EML 5066 ECS-MECH/AERO 3(3,0)**  
**Computational Methods in Mechanical and Aerospace Engineering:** PR: EML 3034C. Error Norms, interpolation and extrapolation, quadratures and adaptive quadratures, solutions of linear and nonlinear systems of equations, functional approximation, solution of ODE's and MWR. *Occasional.*

**EML 5090 ECS-MECH/AERO 0(0,0)**  
**Mechanical and Aerospace Seminar:** PR: Graduate standing or C.I. The course is intended to help MAE graduate students practice public speaking, learn skills of scientific communication, expand their width of knowledge, and promote collaborations. May be repeated. *Fall, Spring.*

**EML 5105 ECS-MECH/AERO 3(3,0)**  
**Gas Kinetics and Statistical Thermodynamics:** PR: EAS 4134 or EML 4703. Molecular and statistical viewpoint of gases and thermodynamics; Boltzmann collision integral, partition functions, non-equilibrium flows. Applications in thermo-fluid systems. *Occasional.*

**EML 5152 ECS-MECH/AERO 3(3,0)**  
**Intermediate Heat Transfer:** PR: EML 4142, EML 5060. An intermediate-level course dealing with heat and mass diffusion, boundary layer problems, and radiation from real bodies. Emphasis on combined modes, numerical methods. *Occasional.*

**EML 5228C ECS-MECH/AERO 3(3,0)**  
**Modal Analysis:** PR: EML 3303C, EML 4220, and EML 5060. Theoretical basis. Measurement techniques, excitation, transducers, data acquisition. Detailed data analysis, modal parameter extraction, curve-fitting procedures. Modeling. *Occasional.*

**EML 5237 ECS-MECH/AERO 3(3,0)**  
**Intermediate Mechanics of Materials:** PR: EML 3500 or EAS 4200. Elements of elasticity. Failure theories. Bending and torsion. Thin plates. Energy principles. Thick-walled cylinders. Applications to design. *Fall.*

**EML 5271 ECS-MECH/AERO 3(3,0)**  
**Intermediate Dynamics:** PR: EGN 3321 or EML 3217. Dynamics of particles, rigid bodies, and distributed mass systems. Topics include: Hamilton's principle, Lagrange's equations, Numerical methods, and Mechanisms. *Occasional.*

**EML 5290 ECS-MECH/AERO 3(3,0)**  
**Introduction to MEMS and Micromachining:** PR: Graduate standing or C.I. Introduction of Micro-Electro-Mechanical-Systems (MEMS) and micromachining (microfabrication) methods. Etching and etching mask. Basics of silicon macromachining processing. Fundamentals of bulk micromachining. Thin film formation and surface micromachining. Microplating and LIGA process. Nonlithographic micromachining process including laser. May be repeated for credit. *Odd Fall.*

**EML 5291 ECS-MECH/AERO 3(3,0)**  
**MEMS Materials:** PR: EML 5060, EML 6211, or C.I. Introduction of materials that are frequently used for MEMS applications such as silicon, metal, ceramics and polymers. The course will focus on fundamental principles involved in structures and properties of the materials, and their applications in MEMS. *Even Spring.*

**EML 5311 ECS-MECH/AERO 3(3,0)**  
**System Control:** PR: EML 4312C; CR: EML 5060. Modern control theory for linear and non-linear systems; controllability and observability. Linear state feedback and state estimators, compensator design. *Occasional.*

**EML 5402 ECS-MECH/AERO 3(3,0)**  
**Turbomachinery:** PR: EML 3101, EML 4703 or EAS 4134. Application of the principles of fluid mechanics, thermodynamics, and aerodynamics to the design and analysis of steam and gas turbines, compressors, and pumps. *Occasional.*

**EML 5403 ECS-MECH/AERO 3(3,0)**  
**Science and Technology of Fuel Cells:** PR: EGN 3365, EMA 4102 or C.I. Fundamental knowledge along with hands-on experience with design, manufacturing and operation of fuel cells. *Occasional.*

**EML 5430C ECS-MECH/AERO 3(2,3)**  
**Design for Manufacturing in Turbomachinery: Gas/Steam/Wind Turbines & Generators:** PR: EGN 3365 or EMA 3706. Overall assembly of rotating and stationary components in power generation powertrains; probabilistic design, materials, coatings, manufacturing steps, defects for gas/steam/wind turbines and generators. *Fall.*

**EML 5431C ECS-MECH/AERO 3(2,3)**  
**Design for Mechanical & Dynamic Integrity and Reliability in Turbomachinery:** PR: EGM 3601, EML 4220 or EML 4225, EGN 3365 or EMA 3706. Mechanical & dynamic integrity issues such as creep, fatigue, fracture, rotordynamics, vibration, flutter, as related to turbines and generators; reliability; cost-time-performance trade-off in design. *Spring.*

**EML 5456 ECS-MECH/AERO 3(3,0)**  
**Turbines for Sustainable Power:** PR: EGM 3601, (EGN 3365 or EMA 3706), (EML 3701 or EAS 3101); CR: EML 4142. Multidisciplinary aspects of turbine design for sustainable power generation including aerodynamics to combustion and emissions to reliability; covers multiple applications of convention and green technology. *Fall.*

**EML 5532C ECS-MECH/AERO 3(2,3)**  
**Computer-Aided Design for Manufacture:** PR: EML 3022C. Builds on introductory material covered in EML 3022C. Topics include computer modeling for the synthesis, simulation, design and manufacture of mechanical, thermal, and aerospace systems. *Occasional.*

**EML 5545 ECS-MECH/AERO 3(3,0)**  
**Smart and Adaptive Structures:** PR: (EAS 4200 or EML 3500) and EML 4225 and (EGN 3365 or EMA 3706) or C.I. Modeling and design of structures with integrated active materials: piezoelectric ceramics and polymers, shape memory alloys and polymers, magneto-/ electro-rheological fluids, magneto-/ electro-strictives. Multi-stable structures. *Even Spring.*

## UCF Courses and Descriptions

**EML 5546 ECS-MECH/AERO 3(3,0)**  
**Engineering Design with Composite Materials:** PR: EML 5237. Mechanics of structural components of composite materials under static, thermal, vibratory loads. Instability. Lamina and laminate theory, energy methods, failure theories, and structural joining methods. *Occasional*.

**EML 5572 ECS-MECH/AERO 3(3,0)**  
**Probabilistic Methods in Mechanical Design:** PR: EML 3500, STA 3032. Uncertainty modeling in design. Use of probabilistic mathematics to assess strength, stiffness, toughness, and stability. Applications. *Occasional*.

**EML 5713 ECS-MECH/AERO 3(3,0)**  
**Intermediate Fluid Mechanics:** PR: EML 4703. CR: EML 5060. Fluid kinematics; conservation equations; Navier-Stokes equations; boundary layer flow, inviscid flow, circulation and vorticity; low Reynolds number flow; turbulence. *Occasional*.

**EML 5937 ECS-MECH/AERO 3(3,0)**  
**Advanced Composites Manufacturing:** PR: EGN 3365 or EMA 3706 Selection of materials for PMCs, CMCs, C/C and MMCs; manufacturing processes processing science; processing-structure-property relationship; manufacturing defects; life cycle analysis (LCA). *Occasional*.

**EML 5937 ECS-MECH/AERO 3(3,0)**  
**Smart and Adaptive Structures:** PR: (EAS 4200 or EML 3500) and EML 4225 and (EGN 3365 or EMA 3706) or C.I. Modeling and design of structures with integrated active materials: piezoelectric ceramics and polymers, shape memory alloys and polymer, magneto- / electro-rheological fluids, magneto- / electro-strictives. Multi-scale structures. *Occasional*.

**ENC 1101 CAH-WRITE 3(3,0)**  
**Composition I:** Expository writing with emphasis on effective communication and critical thinking. Emphasizing the writing process writing topics are based on selected readings and on student experiences. The "NC" grading policy applies to this course. *Fall/Spring*.

**ENC 1101H CAH-WRITE 3(3,0)**  
**Honors Freshman Composition I:** PR: Score of 60+ on TSWE of SAT or C.I. and permission of Honors. Expository writing with emphasis on effective communication and critical thinking. Emphasizing the writing process writing topics are based on selected readings and on student experiences. The "NC" grading policy applies to this course. Honors-level content. *Fall/Spring*.

**ENC 1102 CAH-WRITE 3(3,0)**  
**Composition II:** PR: ENC 1101 with a grade of "C-" or better. Focus on extensive research in analytical and argumentative writing based on a variety of readings from the humanities. Emphasis on developing critical thinking and diversity of perspective. The "NC" grading policy applies to this course. *Fall/Spring*.

**ENC 1102H CAH-WRITE 3(3,0)**  
**Honors Freshman Composition II:** PR: ENC 1101H with a grade of "C-" or better or C.I. and permission of Honors. Same as ENC 1102, with honors-level content. Note on Freshman English Program: ENC 1101 and 1102 must be taken before enrolling in any English course numbered above 1102. The "NC" grading policy applies to this course. *Fall/Spring*.

**ENC 1130 CAH-WRITE 3(3,0)**  
**Improving College-Level Writing:** Entry-level writing course designed to prepare students to read and write effectively at the college level. *Fall*.

**ENC 2127 CAH-WRITE 3(3,0)**  
**Grammar and Composition:** A systematic study of grammar and mechanics to improve editing for clarity and accuracy in writing. *Occasional*.

**ENC 3241 CAH-ENG 3(3,0)**  
**Writing for the Technical Professional:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Writing effective correspondence, instructions, proposals, and informal and formal reports. *Fall/Spring*.

**ENC 3241H CAH-ENG 3(3,0)**  
**Honors Writing for the Technical Professional:** PR: Grade of C (2.0) or better required in ENC 1102H or equivalent credit, and Consent of Honors. Instruction and practice in expository prose used in technical writing, layout and design of data, and translation of technical documents for the lay audience. With Honors content. *Occasional*.

**ENC 3250 CAH-WRITE 3(3,0)**  
**Professional Writing:** PR: Grade of "C" (2.0) or better required in ENC 1102. Study of and practice with professional writing as a rhetorical act involving problem solving and audience accommodation; includes research and text production practices as well as business genres and conventions. *Fall/Spring*.

**ENC 3250H CAH-WRITE 3(3,0)**  
**Honors Professional Writing:** PR: Consent of Honors. Study of and practice with professional writing as a rhetorical act involving problem solving and audience accommodation; includes research and text production practices as well as business genres and conventions. With Honors content. *Occasional*.

**ENC 3310 CAH-ENG 3(3,0)**  
**Magazine Writing I:** PR: Grade of C (2.0) or better required in ENC 1102. Intensive practice in description narration, exposition and argumentation; control of tone, mood, viewpoint, and level of diction. Applicable to article, essay, and short story writing. *Fall/Spring*.

**ENC 3311 CAH-WRITE 3(3,0)**  
**Essay as Cultural Commentary:** PR: Grade of C (2.0) or better required in ENC 1102 or C.I. Rhetorical and historical study, analysis, and writing of essay as reflective exploration and cultural commentary. *Fall/Spring*.

**ENC 3314 CAH-WRITE 3(3,0)**  
**Writing and Rhetoric Foundations:** PR: Grade of "C" (2.0) or better in ENC 1102 or equivalent or C.I. Study and practice of research, writing, and rhetorical skills that enable successful (inter)disciplinary writing in and across the university. *Fall/Spring*.

**ENC 3315 CAH-WRITE 3(3,0)**  
**Argumentative Writing:** PR: Grade of "C" (2.0) or better required in ENC 1102. Students will analyze current issues, assess others' arguments, and construct various types of arguments, including visual and multimedia. *Fall/Spring*.

**ENC 3330 CAH-WRITE 3(3,0)**  
**Rhetorical Traditions:** PR: Grade of "C" (2.0) or better required in ENC 1102. Examines the roots of rhetoric and the evolution of its theoretical, pedagogical and civic tradition. *Even Spring*.

**ENC 3331 CAH-WRITE 3(3,0)**  
**Rhetoric and Civic Engagement:** PR: Grade of "C" (2.0) or better required in ENC 1102. Examines rhetorical theory in order to analyze and participate in contemporary public debates and civic engagement efforts. *Fall/Spring*.

**ENC 3331H CAH-WRITE 3(3,0)**  
**Honors Rhetoric and Civic Engagement:** PR: Consent of Honors. Examines rhetorical theory in order to analyze and participate in contemporary public debates and civic engagement efforts. With Honors Content. *Even Spring*.

**ENC 3351 CAH-WRITE 3(3,0)**  
**Writing for Publication:** PR: Grade of "C" (2.0) or better required in ENC 1102. Examines freelance markets, article genre, and the rhetorical skills needed to design and produce articles for specific audiences and publications. *Occasional*.

**ENC 3351H CAH-WRITE 3(3,0)**  
**Honors Writing for Publication:** PR: Grade of "C" (2.0) or better required in ENC 1102, and consent of Honors. Examines freelance markets, article genres, and rhetorical skills needed to design and produce articles for specific audiences and publications, and editorial roles for publications. With Honors content. *Occasional*.

**ENC 3372 CAH-WRITE 3(3,0)**  
**Topics in Civic Rhetoric and Writing:** PR: Grade of "C" (2.0) or better required in ENC 1102. In-depth study and application of a specific issue related to civic rhetoric and writing. *Occasional*.

**ENC 3373 CAH-WRITE 3(3,0)**  
**Cultural Rhetorics:** PR: Grade of "C" (2.0) or better required in ENC 1102. Study of the diverse cultural production of and the cultural forces impacting the rhetoric of individuals and communities. *Occasional*.

**ENC 3375 CAH-WRITE 3(3,0)**  
**Rhetoric in Popular Culture:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Exploration of how persuasion works in a specific set of popular culture discourses, such as sports, music, and gaming. *Occasional*.

**ENC 3417 CAH-WRITE 3(3,0)**  
**Literacy and Technology:** PR: Grade of "C" (2.0) or better required in ENC 1102. Study of technology's impact on writing and literacy, focus on new media. *Spring*.

**ENC 3433 CAH-WRITE 3(3,0)**  
**Multimedia Writing and Composition:** PR: "C" (2.0) or better in ENC 1102 or C.I. Study and practice of multimedia writing (involving sound, visual, and linguistic forms) with an emphasis on the process of text production and remixing for different rhetorical contexts and audiences. *Occasional*.

**ENC 3453 CAH-WRITE 3(3,0)**  
**Writing About Health and Medicine:** PR: Grade of "C" (2.0) or better required in ENC 1102 or C.I. Writing practices and genres of the health professions, with emphasis on writing about health and medicine for lay audiences. *Occasional*.

**ENC 3454 CAH-WRITE 3(3,0)**  
**Topics in Professional and Digital Writing:** PR: Grade of "C" (2.0) or better required in ENC 1102. In-depth study and application of a specific issue related to professional and/or digital writing. *Occasional*.

**ENC 3455 CAH-WRITE 3(3,0)**  
**Writing about Science and Technology:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Writing about scientific and technological research and developments for non-scientific audiences (including novices and policymakers). *Occasional*.

**ENC 3455H CAH-WRITE 3(3,0)**  
**Honors Writing About Science and Technology:** PR: Consent of Honors. Writing about scientific and technological research and issues for nonscientific audiences, including laypeople and policymakers. With Honors content. *Occasional*.

**ENC 3456H CAH-WRITE 3(3,0)**  
**Honors Writing about Health and Medicine:** PR: Consent of Honors. Writing practices and genres of the health professions, with emphasis on writing about health and medicine for lay audiences. With Honors content. *Occasional*.

**ENC 3473 CAH-WRITE VAR(VAR,0)**  
**Writing in Disciplinary Cultures:** PR: Grade of "C" (2.0) or better required in ENC 1102. Project-based study of writing (including genres, conventions, and arguments) in disciplines across the university. May be repeated for credit. *Occasional*.

**ENC 3502 CAH-WRITE 3(3,0)**  
**Researching Writing and Literacy:** PR: Grade of "C" (2.0) or better required in ENC 1102. Overview of important knowledge domains and lines of inquiry in writing and literacy research, with emphasis on research methodologies. *Occasional*.

**ENC 3503 CAH-WRITE 3(3,0)**  
**Topics in Writing & Literacy Studies:** PR: Grade of "C" (2.0) or better required in ENC 1102. An in-depth study of and practice with a specific issue related to language theory and/or the teaching of writing. *Occasional*.

## UCF Courses and Descriptions

**ENC 3521 CAH-WRITE 3(3,0)**  
**Writing Across Difference:** PR: Grade of "C" (2.0) or better required in ENC 1102. Examines cultural influences on language and literacy practices, with emphasis on applications for writing teachers. *Occasional.*

**ENC 3905 CAH-ENG 3(3,0)**  
**Directed experience in Writing:** PR: Grade of C (2.0) or better required in ENC 1102 and C.I. Individualized topics of study and/or research in writing with personalized faculty direction. May be repeated for credit. *Occasional.*

**ENC 4212 CAH-WRITE 3(3,0)**  
**Professional Editing:** PR: Grade of "C" (2.0) or better required in ENC 1102. Students will perform different types and levels of editing on a range of print and online texts from business and non-profit contexts. *Even Fall.*

**ENC 4215 CAH-ENG 3(3,0)**  
**Technical Publication and Project Management:** PR: Grade of C (2.0) or better required in ENC 3211 or ENC 3241 or C.I. New publishing technology, stressing composition and printing; word processing, automated text processing, methods of reproduction. Introduction of graphics; style, format, layout, and boardwork. *Spring.*

**ENC 4218 CAH-ENG 3(3,0)**  
**The Visual in Technical Documentation:** PR: Grade of C (2.0) or better required in ENC 4293. Relevant theories of the visual and their application to technical communication practice. *Fall.*

**ENC 4219 CAH-ENG 3(3,0)**  
**Technical Communication and Plain Language:** PR: Grade of "C" (2.0) or better in ENC 3241 or C.I. A study of the origins and elements of plain language and the strategies for applying it to technical communication. *Occasional.*

**ENC 4262 CAH-ENG 3(3,0)**  
**International Technical Communication:** PR: Grade of C (2.0) or better required in ENC 3211 or ENC 3241 or C.I. International issues in the field of technical communication including internationalizing documents, user interface design, international collaboration, and rhetorical and logistical challenges. *Occasional.*

**ENC 4265 CAH-ENG 3(3,0)**  
**Writing for the Computer Industry:** PR: Grade of C (2.0) or better in ENC 1102 or C.I. Creating different kinds of software manuals or online help systems for the computer industry. *Occasional.*

**ENC 4275 CAH-WRITE 3(3,0)**  
**Theory and Practice of Tutoring Writing:** PR: Grade of "C" (2.0) or better in ENC 1102 and C.I. Theory and practice of assessing and responding to writing from the standpoint of a collaborator, as opposed to evaluator. *Fall.*

**ENC 4280 CAH-ENG 3(3,0)**  
**Technical Writing Style:** PR: Grade of C (2.0) or better required in ENC 3211 or ENC 3241 or C.I. Strategies for understanding and improving writing styles, particularly for a variety of technical writing genres. *Spring.*

**ENC 4290 CAH-ENG 3(3,0)**  
**Usability Testing for Technical Communication:** PR: Grade of "C" (2.0) or better required in ENC 3241 or C.I. Usability theory and techniques for evaluating manuals, online documentation, and other technical communication genres. *Occasional.*

**ENC 4293 CAH-ENG 3(3,0)**  
**Documentation and the Collaborative Process:** PR: Grade of C (2.0) or better required in ENC 3211 or ENC 3241. Development of a book-length project from idea to final published product. Examples may include style manuals, policies and procedures, and training manuals. *Fall/Spring.*

**ENC 4294 CAH-ENG 3(3,0)**  
**Documentation and Client-Based Collaboration:** PR: Grade of C (2.0) or better required in ENC 4293. Practical application of editing theory to large ongoing projects from the student's particular field. Should be taken concurrently with ENC 4215. *Fall/Spring.*

**ENC 4298 CAH-ENG 3(3,0)**  
**Technical Communication for the Virtual Workplace:** PR: Grade of C (2.0) or better in ENC 1102 or C.I. Collaborative technologies used in the modern workplace and the challenges associated with virtual collaboration. Students will participate in a virtual team project. *Occasional.*

**ENC 4312 CAH-ENG 3(3,0)**  
**Theory & Practice Persuasive Writing:** PR: Grade of C (2.0) or better required in ENC 1102. A study of the theory and practice of persuasion, including logical emotional and ethical appeals. *Occasional.*

**ENC 4313 CAH-ENG 3(3,0)**  
**Research Writing:** PR: Grade of C (2.0) or better in ENC 1102, junior standing, and C.I. Writing correspondence, instructions, proposals, and informal and formal reports in various disciplines. *Occasional.*

**ENC 4353 CAH-WRITE 3(3,0)**  
**Writing for Social Change:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Study of how activist writing and other symbolic action can be used to mobilize social or policy change around contemporary controversial issues. *Occasional.*

**ENC 4354 CAH-WRITE 3(3,0)**  
**Writing with Communities and Nonprofits:** PR: Grade of "C" (2.0) or better required in ENC 1102. Study and practice of methods for writing in partnership with nonprofits and the communities they serve, with an emphasis on audience analysis and community engagement. *Occasional.*

**ENC 4354H CAH-WRITE 3(3,0)**  
**Honors Writing with Communities and Nonprofits:** PR: Grade of "C" (2.0) or better required in ENC 1102, and consent of Honors. Study and practice of methods for writing in partnership with nonprofits and the communities they serve, with an emphasis on audience analysis and community engagement. With Honors content. *Occasional.*

**ENC 4360 CAH-ENG 3(3,0)**  
**Nature Writing:** PR: English major or minor and grade of "C" (2.0) or better required in CRW 3013 and CRW 3053, or C.I. Students will write essays that explore different approaches to writing about the natural world, and will discuss issues raised by such writing. *Occasional.*

**ENC 4374 CAH-WRITE 3(3,0)**  
**Gendered Rhetorics:** PR: Grade of "C" (2.0) or better required in ENC 1102. Historical and theoretical study of gendered rhetorical practices, with emphasis on women rhetors. *Occasional.*

**ENC 4378 CAH-WRITE 3(3,0)**  
**Writing in Global and Transnational Contexts:** PR: "C" (2.0) or better in ENC 1102 or C.I. Examination of the ways language and rhetoric travel across cultures and countries, with practice strategies for transnational communication with local and global audiences. *Occasional.*

**ENC 4379 CAH-WRITE 3(3,0)**  
**Writing and Rhetoric Capstone:** PR: Senior standing; ENC 3331, ENC 3505, and ENG 3836; PR or CR: ENC 4944, ENC 3473, or ENC 4275. Culminating required course for students majoring in Writing and Rhetoric. Students reflect on disciplinary identity, possible career trajectories, and transferrable strategies for writing in their lives. *Spring.*

**ENC 4414 CAH-ENG 3(3,0)**  
**Writing and Hypertext:** PR: Grade of C (2.0) or better required in ENC 3211 or ENC 3241. Theories of electronic literacy and information to develop a more critical sensibility regarding hypertext. *Occasional.*

**ENC 4415 CAH-ENG 3(3,0)**  
**Digital Rhetorics and The Modern Dialectic:** PR: Grade of "C" (2.0) or better required in ENC 1102. Explores the development of digital rhetorics appearing in online environments through close reading and analysis of formative rhetorical texts, fiction, and internet materials. *Fall/Spring.*

**ENC 4416 CAH-WRITE 3(3,0)**  
**Writing in Digital Environments:** PR: Grade of "C" (2.0) or better required in ENC 1102. Study and practice of new media/Internet writing and publishing, covering a range of online and multimedia genres. *Occasional.*

**ENC 4416H CAH-WRITE 3(3,0)**  
**Honors Writing in Digital Environments:** PR: Consent of Honors. Critical and rhetorical engagement with digital writing and networked systems, including a range of online media and genres. With Honors content. *Occasional.*

**ENC 4434 CAH-WRITE 3(3,0)**  
**Visual and Material Rhetorics:** PR: "C" (2.0) or better in ENC 1102 or C.I. Study of visual and material textual elements within different historical and contemporary rhetorical practices and performances. Students will use a variety of compositional materials to produce texts. *Occasional.*

**ENC 4504 CAH-WRITE 3(3,0)**  
**Contemporary Composition Theory:** PR: Grade of "C" (2.0) or better required in ENC 1102. Considers major theoretical paradigms and more emergent theoretical explorations in modern and contemporary composition studies. *Occasional.*

**ENC 4523 CAH-WRITE 3(3,0)**  
**Writing and Identity:** PR: Grade of "C" (2.0) or better required in ENC 1102. Explores the role of identity in writing, particularly negotiating gender, race, class, sexual identity and other difference issues. *Occasional.*

**ENC 4944 CAH-WRITE 3(3,0)**  
**Writing Internship:** PR: Junior standing and ENC 3331 and ENG 3836 and declared Writing and Rhetoric Major. Training and practice in professional and/or civic writing through approved internship with business or organization; involves reporting and reflecting on experience *Fall.*

**ENC 4950 CAH-WRITE 0(0,0)**  
**Writing ePortfolio:** PR: "C" or better in ENC 1102. Student must have completed at least 33 hours toward the B.A. in Writing & Rhetoric, 9 hours toward the Minor in Writing & Rhetoric, or at least 6 hours toward the Certificate in Public and Professional Writing. In their graduation term, Writing & Rhetoric majors, minors, or Public & Professional Writing Certificate students revise and submit their writing e-portfolio for departmental approval. *Occasional.*

**ENC 5225 CAH-ENG 3(3,0)**  
**Theory and Practice of Document Usability:** PR: Graduate status or senior standing or C.I. Presents theory and practice of how document usability is assessed and improved. *Occasional.*

**ENC 5237 CAH-WRITE 3(3,0)**  
**Writing for the Business Professional:** PR: Graduate status or senior standing or C.I. A study of the major document designs for professionals in business, focusing on audience, purpose, style, arrangements, and content. *Fall/Spring.*

**ENC 5276 CAH-WRITE 3(3,0)**  
**Theory and Practice of Tutoring Writing:** PR: Admission to the M.A. in Rhetoric and Composition program, graduate standing or C.I. The theory and practice of assessing and responding to writing as a collaborator (as opposed to evaluator). *Fall.*

**ENC 5337 CAH-ENG 3(3,0)**  
**Rhetorical Theory:** PR: Graduate standing or C.I. Overview of theory and history of classical and modern rhetorical theory and rhetorical instruction. *Fall.*

**ENC 5705 CAH-WRITE 3(2,1)**  
**Theory and Practice in Composition:** PR: Graduate status or senior standing or C.I. Intensive study of theories of composition, with practical experience in the writing laboratory and in composition classes. *Spring.*

**ENC 5930 CAH-WRITE 3(3,0)**  
**Current Topics in Professional Writing:** PR: Graduate status or C.I. Students will learn how to produce texts for specialized fields of discourse, including the medical and legal profession, as well as for general publication. *Occasional.*

## UCF Courses and Descriptions

**ENG 3010 CAH-ENG 3(3,0)**  
**Practical Criticism:** PR: Grade of C (2.0) or better required in ENC 1102. Student evaluation of selected fiction, poetry, and drama through practical exercises in literary criticism. *Occasional.*

**ENG 3014 CAH-ENG 3(3,0)**  
**Theories and Techniques of Literature Study:** PR: Grade of "C" (2.0) or better required in ENC 1102 or C.I. Techniques of analysis, theories of interpretation, and application of critical approaches to selected works. *Fall, Spring.*

**ENG 3073 CAH-ENG 3(3,0)**  
**Cultural Studies Literature:** PR: Grade of C (2.0) or better required in ENC 1102. The theoretical and cultural developments over time that call for broadening the applications of literary analysis to produce "cultural studies." *Occasional.*

**ENG 3612 CAH-ENG 3(3,0)**  
**Trends in Literary, Cultural, and Textual Studies:** PR: Grade of "C" (2.0) or better in ENC 1102. Literary analysis of textual production within contemporary social trends and new technologies. May be used in the degree program a maximum of 2 times only when course content is different. *Occasional.*

**ENG 3817 CAH-ENG 3(3,0)**  
**Digital Archives:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Examines "debates" in the digital humanities and prepares students to work with the creation, management, and preservation of digital archives content. *Occasional.*

**ENG 3821 CAH-ENG 3(3,0)**  
**What's Next For English Majors:** PR: Grade of C (2.0) or better required in ENC 1102 and English major or minor, or C.I. Professional development strategies and career options for English majors after graduation. *Occasional.*

**ENG 3833 CAH-WRITE 3(3,0)**  
**Marketing Your Writing:** PR: "C" (2.0) or better in ENC 3351. Exploration of writing markets and publishing opportunities therein, the submission process, and author marketing and negotiation strategies. *Spring.*

**ENG 3836 CAH-WRITE 3(3,0)**  
**Professional Lives and Literacy Practices:** PR: "C" (2.0) or better in ENC 1102. Study of technology-assisted professional writing and literacy practices around knowledge management work in organizations and communities. *Fall, Spring.*

**ENG 4114 CAH-ENG 3(3,0)**  
**Literature and Film:** PR: Grade of C (2.0) or better required in ENG 3014. The differences in emphasis, medium, and technique in selected novels and their film adaptations. *Occasional.*

**ENG 4614 CAH-ENG 3(3,0)**  
**Discourse of Global Cultural Studies:** PR: Grade of "C" (2.0) or better required in ENG 3014, or C.I. American popular culture texts in world context, using concepts and theories from global cultural studies to analyze transmission, translation, and appropriation. *Occasional.*

**ENG 5009 CAH-ENG 3(3,0)**  
**Methods of Bibliography and Research:** PR: Graduate status or senior standing or C.I. Bibliographical, library and systematic approaches to research at the graduate level in language and literature. *Fall.*

**ENL 2012 CAH-ENG 3(3,0)**  
**English Literature I:** PR: Grade of C (2.0) or better required in ENC 1102. Beowulf to 1798. *Fall, Spring.*

**ENL 2022 CAH-ENG 3(3,0)**  
**English Literature II:** PR: Grade of C (2.0) or better required in ENC 1102. From 1798 to 1914. *Fall, Spring.*

**ENL 3220 CAH-ENG 3(3,0)**  
**English Renaissance Poetry and Prose:** PR: Grade of "C" (2.0) or better required in ENC 1102 or C.I. Selected authors and major themes in English Renaissance poetry and prose. *Occasional.*

**ENL 3222 CAH-ENG 3(3,0)**  
**Renaissance Women in Literature:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Literature by and about women in the Renaissance. *Occasional.*

**ENL 3231 CAH-ENG 3(3,0)**  
**Restoration Literature:** PR: Grade of "C" or better in ENC 1102. This course surveys the poetry, drama, and prose written during the Restoration era (1660-1700) and the social, historical, and political contexts. *Occasional.*

**ENL 3296 CAH-ENG 3(3,0)**  
**Gothic Literature:** PR: Grade of "C" or better required in ENC 1102. A study of Gothic literature (prose, poetry, drama) in the British Isles and its cultural contexts. *Occasional.*

**ENL 3296H CAH-ENG 3(3,0)**  
**Honors Gothic Literature:** PR: ENC 1102 and Consent of Honors. A study of Gothic literature (prose, poetry, drama) in the British Isles and its cultural contexts. With Honors content. *Occasional.*

**ENL 3378 CAH-ENG 3(3,0)**  
**Harry Potter Studies:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Examines J. K. Rowling's Harry Potter series of books and other adaptations. *Occasional.*

**ENL 3451 CAH-ENG 3(3,0)**  
**Topics in British Literature:** PR: Grade of C (2.0) or better required in ENC 1102 or C.I. Linguistic, literary, and cultural elements of British writing through various time periods and genres. *Occasional.*

**ENL 3654 CAH-ENG 3(3,0)**  
**Black British Literature:** PR: Grade of "C" or better required in ENC 1102. Study of literature written inside the UK by authors of African, South Asian, and Caribbean lineage. *Occasional.*

**ENL 4101 CAH-ENG 3(3,0)**  
**English Novel:** PR: Grade of C (2.0) or better required in ENG 3014. Analysis of major English novelists. *Occasional.*

**ENL 4230 CAH-ENG 3(3,0)**  
**Eighteenth-Century Studies:** PR: Grade of "C" (2.0) or better required in ENG 3014. A study of English literature from 1660 to 1800 and its cultural contexts. *Occasional.*

**ENL 4240 CAH-ENG 3(3,0)**  
**English Romantic Writers:** PR: Grade of C (2.0) or better required in ENG 3014. Study of English poets and essayists of the romantic period, such as Wordsworth, Coleridge, Hazlitt, Lamb, Byron, Shelley and Keats. *Occasional.*

**ENL 4253 CAH-ENG 3(3,0)**  
**The Victorian Age:** PR: Grade of "C" (2.0) or better required in ENG 3014 or C.I. Key issues and authors of the Victorian age (1837-1901) covering, fiction, poetry, and nonfiction prose. *Occasional.*

**ENL 4262 CAH-ENG 3(3,0)**  
**Nineteenth Century British Prose:** PR: Grade of C (2.0) or better required in ENG 3014. Essays and fiction of the nineteenth century. *Occasional.*

**ENL 4273 CAH-ENG 3(3,0)**  
**Modern British Literature:** PR: Grade of C (2.0) or better required in ENG 3014. Major writers of modern British literature. *Occasional.*

**ENL 4303 CAH-ENG 3(3,0)**  
**British Authors:** PR: Grade of "C" (2.0) or better required in ENG 3014, or C.I. Study of the works of a single British author. May be used in the degree program a maximum of 2 times only when course content is different. *Occasional.*

**ENL 4311 CAH-ENG 3(3,0)**  
**Chaucer:** PR: Grade of C (2.0) or better required in ENG 3014. The Canterbury Tales, Troilus and Criseyde, and other works. *Occasional.*

**ENL 4333 CAH-ENG 3(3,0)**  
**Shakespeare Studies:** PR: Grade of "C" (2.0) or better required in ENG 3014. Reading, analysis, and discussion of Shakespeare's plays. *Occasional.*

**ENL 4341 CAH-ENG 3(3,0)**  
**Milton and His Age:** PR: Grade of C (2.0) or better required in ENG 3014. Paradise Lost, Paradise Regained, Samson Agonistes, shorter poems and selected prose. *Occasional.*

**ENT 3613 BA-MAN 3(3,0)**  
**Creativity and Entrepreneurship:** PR: Sophomore Standing. This course portrays entrepreneurship as a creative problem solving process emphasizing opportunity recognition, resourcefulness, and leadership that results in startup, social, government and corporate ventures. *Fall, Spring.*

**ENT 4013 BA-MAN 3(3,0)**  
**New Venture Design:** PR: Junior standing. Applied course which focuses on the creation, evaluation, development and launch readiness of a new business or social venture. *Fall, Spring.*

**ENT 4014 BA-MAN 3(3,0)**  
**New Venture Implementation:** PR: ENT 4013. Develops procedure by which start-up businesses can implement a well-researched business model by planning standard business functions necessary to launch the venture. *Fall, Spring.*

**ENT 4183 BA-MAN 3(3,0)**  
**Technological Entrepreneurship:** PR: Junior Standing. How technology and innovation processes affect social and organizational change, and the distinct challenges associated with launching, managing and growing technology-based business ventures. *Spring.*

**ENT 4412 BA-FIN 3(3,0)**  
**Managing Small Business Finances:** PR: Admission to the Integrated Business major. Emphasizes the relationships between the finance function and other company activities. Focuses on financial statements, cash flow, sources of financing, valuation, inventory and vendor management. *Fall, Spring.*

**ENT 4503 BA-MAN 3(3,0)**  
**Social Entrepreneurship:** PR: Junior standing. Emphasis on understanding how social entrepreneurs effect change in poor communities in the developing world. *Fall, Spring.*

**ENT 4942 BA-MAN 3(0,3)**  
**Entrepreneurial Internship:** PR: Junior standing, application approval, and consent of Management Department. Supervised, entrepreneurial-related work experience in a sponsoring organization. See Management Department for information. Application required. *Fall, Spring.*

**ENT 5016 BA-MAN 3(3,0)**  
**New Venture Design:** PR: Graduate standing or C.I. Applies contemporary methodologies to guide the creation, validation, and ongoing development of new business models for startup businesses and other new ventures. *Fall.*

**ENT 5185 BA-MAN 3(3,0)**  
**Technological Entrepreneurship:** PR: Graduate standing Examines how technology and innovation processes affect social and organizational change, and the distinct challenges associated with launching, managing and growing technology-based business ventures. *Spring.*

**ENT 5206 BA-MAN 3(3,0)**  
**New Venture Implementation:** PR: ENT 5016 New Venture Design Explains how to execute a well-researched business model by implementing required and strategic actions necessary to launch a new venture. *Spring.*

**ENT 5946 BA-MAN 3(3,0)**  
**Small Business Consulting:** PR: Graduate standing This is a highly experiential course where students are assigned to teams that complete consulting projects for local small businesses. *Fall.*

**ENV 3001 ECS-CECE 3(3,0)**  
**Environmental Engineering:** PR: A grade of "C" (2.0) or better in MAC 2312 and in CHM 2045C or CHS 1440 or CHM 2041. Introduction to concepts and terminology of environmental engineering. Stresses material and energy balances. Covers air, water and land pollution. *Fall, Spring.*

## UCF Courses and Descriptions

**ENV 4120 ECS-CECE 3(3,0)**  
**Air Pollution and Hazardous Waste Control:** PR: EGN 3343, CWR 3201 and ENV 3001 all with a grade of "C" (2.0) or better. Air pollution and hazardous waste engineering. Air resources management, engineering design, and operation of air pollution control systems. Storage, collection, processing, and disposal of hazardous wastes. *Fall.*

**ENV 4122C ECS-CECE 3(2,2)**  
**Air Pollution Control Design:** PR: ENV 4120 with grade of "C" (2.0) or better and department consent. Project course on design of air pollution control equipment and systems. *Spring.*

**ENV 4300C ECS-CECE 3(2,2)**  
**Solid Waste Facility Design:** PR: ENV 4341 with grade of "C" (2.0) or better and department consent. Project course on design of a municipal solid waste landfill. *Occasional.*

**ENV 4341 ECS-CECE 3(3,0)**  
**Sustainable Resource Management:** PR: ENV 3001 with a grade of "C" (2.0) or better. Principles of industrial ecology, life cycle analysis, regulation of solid wastes, and sustainable engineering design. Solid waste management facilities, food-energy-water nexus, carbon and water footprints. *Fall.*

**ENV 4433C ECS-CECE 3(2,2)**  
**Environmental Engineering Wastewater Design:** PR: EES 4111C, ENV 4531 both with grades of "C" (2.0) or better and department consent. Project course in advanced municipal and industrial wastewater treatment design with emphasis on teamwork to complete the design process. *Occasional.*

**ENV 4531 ECS-CECE 3(3,0)**  
**Environmental Engineering Unit Operations & Processes:** PR: ENV 3001, CWR 3201 both with a minimum grade of "C" (2.0) or better. Water and wastewater treatment design considerations with effluent and sludge handling, treatment, and disposal. *Fall/Spring.*

**ENV 4561 ECS-CECE 3(3,0)**  
**Advanced Environmental Engineering Operations & Processes:** PR: ENV 4531 with a grade of "C" (2.0) or better. Advanced water and wastewater treatment including biological nutrient removal and desalination. *Spring.*

**ENV 4562C ECS-CECE 3(2,2)**  
**Environmental Engineering Water Treatment Design:** PR: EES 4202C and ENV 4531 both with grades of "C" (2.0) or better and department consent. Application of systems design criteria in the specification and design of a full scale potable water treatment plant. *Spring.* M&S fee \$43.00

**ENV 5410 ECS-CECE 3(3,0)**  
**Water Treatment:** PR: EES 4202C or ENV 5517 or C.I. Potable water regulations, standards, chemical reactors, oxidation, disinfection, disinfection by-products, ultraviolet irradiation. Internal corrosion and microbial control in municipal and industrial water distribution systems. *Odd Spring.*

**ENV 5505 ECS-CECE 3(3,0)**  
**Sludge Management Operations in Environmental Engineering:** PR: ENV 4561. Theory and design of sludge management operations and processes in environmental engineering, including stabilization dewatering and ultimate disposal. *Occasional.*

**ENV 5517 ECS-CECE 3(3,0)**  
**Engineering Chemical and Biological Processes:** CR: ENV 4561(or equivalent) or C.I. Coverage of equilibrium/aquatic chemistry, softening and coagulation, and disinfection of water. Microbiology and biochemistry as applied to activated sludge system design. *Fall.*

**ENV 5636 ECS-CECE 3(3,0)**  
**Environmental and Water Resources Systems Analysis:** PR: ENV 3001 or C.I. Discussion of environmental and water resources systems with the emphasis on cost-effectiveness, pollution prevention, and sustainability to aid in environmental engineering decision-making. *Occasional.*

**ENY 4004C COS-BIOL 4(2,6)**  
**General Entomology:** PR: A "C" (2.0) or better in both BSC 2010C and BSC 2011C, or C.I. Biology of insects: identification, taxonomy, physiology, behavior, and ecology. *Occasional.* M&S fee \$15.00

**ENY 5006C COS-BIOL 4(2,6)**  
**Entomology:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Morphology, physiology, ontogeny, behavior, ecology and population biology of insects. *Odd Fall.* M&S fee \$40.00

**EPD 5395 ED-CFCS 3(3,0)**  
**Physical and Sociological Implications of Handicapping Conditions:** Overview of physical and sociological factors which may contribute to delayed learning or physical impairments in the exceptional populations. Physical interventions and first-aid practices are examined. *Occasional.*

**ESE 3940 ED-TL&L 3-16(0,3-16)**  
**Internship I - Secondary:** PR: EDG 4410 and C.I. Student teaching in a secondary school under the supervision of a certified classroom teacher. Graded S/U. *Occasional.*

**ESE 4033C ED-TL&L 3(2,2)**  
**Critical Issues and Trends in Secondary Education:** PR: Internship I in specific discipline. CR: ARE 4941, FLE 4941, LAE 4941, MAE 4941, SCE 4941, or SSE 4941. Examination of critical and contemporary issues and trends in secondary education classrooms. Laboratory experiences will connect to the issues and trends specific to particular content areas. *Fall/Spring.*

**ESE 4942 ED-TL&L 1(1,0)**  
**Internship II Seminar:** PR: Internship I in the specific discipline; CR: Internship II in the specific discipline. Culminating seminar emphasizing current classroom management and assessment issues, as they relate to teaching in the secondary grades. *Fall/Spring.*

**ESE 4943 ED-TL&L 7-12(0,35)**  
**Internship II - Secondary:** PR: ESE 3940 or EDE 3942. Student teaching in a secondary school under the direction of a certified classroom teacher. Scheduled concurrent seminars. Graded S/U or Letter grade. *Occasional.*

**ESE 5214 ED-TL&L 3(3,0)**  
**Secondary School Curriculum Improvement I:** PR: Regular Certificate or C.I. Secondary School self studies for curriculum projects, accreditation reports, or staff development. *Occasional.*

**ESE 5344 ED-TL&L 3(3,0)**  
**Managing the Secondary Classroom:** PR: Graduate Standing or C.I. Strategies, methods, materials, and technologies for managing the secondary classroom. Creating positive classroom environments, maintaining/increasing appropriate behaviors, and teaching behavior appropriate to all students. *Fall.*

**ESI 4221 ECS-IEMS 3(3,0)**  
**Empirical Methods for Industrial Engineering:** PR: STA 3032 with a grade of "C" (2.0) or better. Application of empirical methods for industrial engineering problem solving. *Fall.*

**ESI 4234 ECS-IEMS 3(3,0)**  
**Quality Engineering:** PR: STA 3032 with a grade of "C" (2.0) or better. Basic concepts and techniques of quality control; applications of statistics in industrial research; design of quality assurance systems; reliability engineering. *Fall.*

**ESI 4312 ECS-IEMS 3(3,0)**  
**Deterministic Methods for Operations Research:** PR: STA 3032 and MAS 3105 with grades of "C" (2.0) or better in both. An introduction to basic principles and deterministic techniques of operations research. topics include linear programming, integer programming, network flow problems, and non-linear programming. *Fall.*

**ESI 4313 ECS-IEMS 3(3,0)**  
**Stochastic Methods for Operations Research:** PR: STA 3032 with a grade of "C" (2.0) or better. Introduction to techniques of operations research involving probabilistic and stochastic models. Topics include stochastic processes (e.g. Poisson and Markovian processes, Queuing Theory, and Stochastic Programming). *Spring.*

**ESI 4523 ECS-IEMS 3(3,0)**  
**Systems Simulation:** PR: STA 3032 with a grade of "C" (2.0) or better. Methods and procedures for simulating large-scale systems with digital computers. High level simulation languages are used. *Spring.*

**ESI 4628 ECS-IEMS 3(3,0)**  
**Decision Support Systems for Industrial Engineers:** PR: STA 3032 with a grade of "C" (2.0) or better and COP 3223C (or any other high level computer programming). Development of complete spreadsheet-based decision support system applications for analyzing and modeling real-world IE problems. *Fall.*

**ESI 5219 ECS-IEMS 3(3,0)**  
**Engineering Statistics:** PR: C.I. Discrete and continuous probability distributions, hypothesis testing, regression, nonparametric stats and ANOVA. *Fall/Spring.*

**ESI 5227 ECS-IEMS 3(3,0)**  
**Total Quality Improvement:** PR: STA 3032 or equivalent. Quality improvement (QI) tools and techniques, advanced QI techniques, quality improvement systems, total quality management concepts and implementation, planning and management tools, and case studies. *Occasional.*

**ESI 5236 ECS-IEMS 3(3,0)**  
**Reliability Engineering:** PR: ESI 4234 or equivalent, or C.I. Reliability theory and modeling approaches. Topics include: failure data analysis, maintainability, reliability standards (DOD), software reliability, reliability in design, and electronic systems reliability. *Fall.*

**ESI 5306 ECS-IEMS 3(3,0)**  
**Operations Research:** PR: STA 3032. Methods of operations research, including formulation for models and derivation of solutions; linear programming, network models queueing theory, simulation, and nonlinear optimization techniques. *Fall.*

**ESI 5359 ECS-IEMS 3(3,0)**  
**Risk Assessment and Management:** PR: ESI 5219 or STA 3032. Problems and complexities involved in risk assessment and management. Selected methodologies are illustrated through realistic applications in engineering and the sciences. *Occasional.*

**ESI 5419C ECS-IEMS 3(2,2)**  
**Engineering Applications of Linear and Nonlinear Optimization:** PR: ESI 4312 or ESI 5306. Course covers linear and nonlinear optimization applications in production planning, staffing, engineering design, distribution networks, and other engineering areas. Focuses on practicing or analyses. *Occasional.*

**ESI 5531 ECS-IEMS 3(3,0)**  
**Discrete Systems Simulation:** PR: STA 3032. Methods for performing discrete systems simulation, including network modeling, will be treated. *Spring.*

**ETI 3116 ECS-ECS 3(3,0)**  
**Applied Engineering Quality Assurance:** PR: STA 2014C or STA 2023. Fundamentals of industrial quality control. Technical specifications, measurements standards, inspection, and gaging. Process control techniques. *Fall.*

**ETI 3671 ECS-ECS 3(3,0)**  
**Technical Economic Analysis:** PR: MAC 1105C or equivalent. Analysis of cost elements in technical operations. Basis for comparison of alternatives. *Spring.*

**ETI 4186 ECS-ECS 3(3,0)**  
**Applied Reliability:** PR: ETI 3116. Practical application of reliability concepts and analysis applicable to the design, production and logistics phases of systems and system components. *Odd Spring.*

## UCF Courses and Descriptions

**ETI 4448 ECS-ECS 3(3,0)**  
**Applied Project Management:** PR: Junior Standing. Statement of work, activity decisions, timelines, scheduling, and resource allocation methods. Techniques will be appropriate for large and small projects within commercial, academic, or non-profit organizations. *Fall.*

**ETI 4640 ECS-ECS 3(3,0)**  
**Operations Management for Technologists:** PR: ETI 4635. Scheduling techniques (PERT), (CPM), are presented. Time Study Methods, Work Sampling and MTM are covered. *Fall.*

**EUH 2000 CAH-HIST 3(3,0)**  
**Western Civilization I:** A survey of western civilization from ancient to 1648. *Fall, Spring.*

**EUH 2000H CAH-HIST 3(3,0)**  
**Honors Western Civilization I:** PR: Permission of Honors. A survey of western civilization from ancient to 1648. Honors-level content. *Fall, Spring.*

**EUH 2001 CAH-HIST 3(3,0)**  
**Western Civilization II:** A survey of western civilization from 1648 to present. May be taken before EUH 2000. *Fall, Spring.*

**EUH 2001H CAH-HIST 3(3,0)**  
**Honors Western Civilization II:** PR: Permission of Honors. A survey of western civilization from 1648 to present. May be taken before EUH 2000. Honors-level content. *Fall, Spring.*

**EUH 3122 CAH-HIST 3(3,0)**  
**Medieval Society and Civilization:** PR: EUH 2000 and EUH 2001 or C.I. *Fall, Spring.*

**EUH 3124 CAH-HIST 3(3,0)**  
**The Crusades:** PR: EUH 2000 and EUH 2001, or C.I. The phenomenon of crusading in medieval Europe and the Middle East, including theories of "just war" and jihad. *Even Spring.*

**EUH 3142 CAH-HIST 3(3,0)**  
**Renaissance and Reformation:** PR: EUH 2000 and EUH 2001 or C.I. Influence of Renaissance humanism on arts, letters, and politics; Luther and Protestantism; the Catholic Counter-Reformation and the Thirty Years' War. *Occasional.*

**EUH 3180 CAH-HIST 3(3,0)**  
**Sorcerers, Saints and Heretics: Religion in the Medieval World:** PR: EUH 2000 or C.I. Examines the mixture of superstition, paganism, heresies, Jewish and Muslim communities and the rising Catholic Church that formed religious life and shaped society and culture in Medieval Europe. *Occasional.*

**EUH 3235 CAH-HIST 3(3,0)**  
**Romanticism and Realism:** PR: EUH 2000 and EUH 2001 or C.I. Napoleon and nationalism; new ideas; conservatism; liberalism, romanticism, republicanism and socialism; urbanization, technology and mass culture, religious decline; Realpolitik, racism, imperialism, and militarism. *Occasional.*

**Modern Drama As Literature:** PR: Grade of C (2.0) or better required in ENG 3014. A study of important plays, playwrights, themes, movements, and styles in modern American, British, and European drama. *Occasional*.

**LIT 4184 CAH-ENG 3(3,0)**  
**Irish Literature:** PR: Grade of C (2.0) or better required in ENG 3014. Study of literature written in Ireland, within the context of Irish history, politics, culture and colonial experience. *Occasional*.

**LIT 4233 CAH-ENG 3(3,0)**  
**Postcolonial Theory and Literature:** PR: Grade of C (2.0) or better required in ENG 3014. Focus on the nature of colonial discourse, the strength of postcolonial rewritings, and the relationship of postcolonial theory to other theories. *Occasional*.

**LIT 4244 CAH-ENG 3(3,0)**  
**World Authors:** PR: Grade of "C" (2.0) or better required in ENG 3014 or C.I. Study of the works of a single non-British and non-U.S. author who composes in English. May be used in the degree program a maximum of 2 times only when course content is different. *Occasional*.

**LIT 4303 CAH-ENG 3(3,0)**  
**Post-World War II Fiction:** PR: Grade of C (2.0) or better required in ENG 3014. An investigation of various modes of reality in the works of significant postmodernist world authors, crossing cultural boundaries. *Occasional*.

**LIT 4374 CAH-ENG 3(3,0)**  
**Literature of the Bible:** PR: Grade of C (2.0) or better required in ENG 3014. Literary forms in the Bible — narrative, poetic, and dramatic — and their reflection in modern literature. *Occasional*.

**LIT 4374H CAH-ENG 3(3,0)**  
**Honors Literature of the Bible:** PR: Permission of Honors and ENC 1102H or equivalent credit. Literary forms in the Bible — narrative, poetic, and dramatic — and their reflection in modern literature. Honors content. *Occasional*.

**LIT 4433 CAH-ENG 3(3,0)**  
**Literature of Science and Technology:** PR: Grade of "C" (2.0) or better in ENC 1102 or C.I. Major works of non-fiction that address and describe the history, philosophy, politics, and new ideas in science and technology. *Fall*.

**LIT 4554 CAH-ENG 3(3,0)**  
**Advanced Feminist Theories:** PR: Grade of C (2.0) or better required in ENC 1102, WST 3015 or ENG 3014. An advanced exploration of feminist critical theories and practices. *Occasional*.

**MAA 4226 COS-MATH 4(4,0)**  
**Advanced Calculus I:** PR: MHF 3302, MAC 2313 and MAS 3106, or C.I. Limits, sequences, and continuity, differentiation and integration. Derivations of integrals. Infinite series and convergence. The Balzano-Weierstrass Theorem and the Heine-Borel Theorem. Extensions in Euclidean n-space. *Fall*.

**MAA 4227 COS-MATH 3(3,0)**  
**Advanced Calculus II:** PR: MAA 4226 or C.I. Continuation of MAA 4226. *Spring*.

**MAA 4402 COS-MATH 3(3,0)**  
**Introduction to Complex Variables:** PR: MAC 2313 and MAP 2302 and MHF 3302, or C.I. Analytic functions and complex integration. Residue integration, Taylor and Laurent series, conformal mapping and the application of complex analysis to Potential Theory. *Spring*.

**MAA 4934 COS-MATH 3(3,0)**  
**Topics in Analysis:** PR: MAS 3106 and MAA 4226, or C.I. Advanced topics in analysis. Selection of topics will vary. May be used in the degree program a maximum of 3 times. *Occasional*.

**MAA 5210 COS-MATH 3(3,0)**  
**Topics in Advanced Calculus:** PR: MAS 3105, MAP 2302, or equivalent or C.I. Real numbers, epsilon-delta language, limits, continuity, integration, differentiation, Taylor's theorem, series, uniform convergence, inverse and implicit function theorems. *Fall*.

**MAA 5228 COS-MATH 3(3,0)**  
**Analysis I:** PR: MAS 3106 or C.I. Real numbers, limits, differentiation, Riemann integrals, Riemann-Stieltjes integrals, calculus in  $\mathbb{R}^n$ , metric and normed spaces, contraction mapping theorem, inverse and implicit functions. *Fall*.

**MAC 1105C COS-MATH 3(1,3)**  
**College Algebra:** PR: Appropriate score on the UCF Math Placement Exam, or MAT 1033C with a "C" (2.0) or better, or C.I. Inequalities. High degree polynomials. Graphs, rational, logarithmic, and exponential functions. Systems of equations. The "NC" grading policy applies to this course. *Fall, Spring*.

**MAC 1114C COS-MATH 3(1,3)**  
**College Trigonometry:** PR: Appropriate score on the UCF Math Placement Exam, or MAC 1105C with a "C" (2.0) or higher, or C.I. The circle arc length, identities, trigonometric functions, inverse functions, applications to simple harmonic motion, function of angles, complete development of triangle solving. Prepares students for upper level mathematics. The "NC" grading policy applies to this course. *Fall, Spring*.

**MAC 1140C COS-MATH 3(1,3)**  
**Pre-Calculus Algebra:** PR: Appropriate score on the Math Placement Exam, or MAC 1105C with a "C" (2.0) or better, or C.I. Properties and graphs of polynomials, rational, exponential and logarithmic functions, matrices, sequences and series, conics, induction, binomial theorem. Introduction to limits. Prepares students for upper level mathematics. The "NC" grading policy applies to this course. *Fall, Spring*.

**MAC 2147 COS-MATH 5(5,0)**  
**Mathematics for Calculus:** PR: Solid background in algebra or trigonometry, or C.I. For students with good mathematical backgrounds who do not want to go directly into calculus. Topics include matrices, determinants, permutations, combinations, sequences, series, induction, trigonometric functions. The "NC" grading policy applies to this course. *Even Fall, Spring*.

**MAC 2233 COS-MATH 3(3,0)**  
**Concepts of Calculus:** PR: Appropriate score on the UCF Math Placement Exam, or MAC 1140C with a C (2.0) or better, or C.I. The differential and integral calculus of rational, exponential and logarithmic functions, with applications to business analysis. Not open to students with credit in MAC 2253 or MAC 2311C. The "NC" grading policy applies to this course. *Occasional*.

**MAC 2253 COS-MATH 3(3,0)**  
**Applied Calculus:** PR: Appropriate score on the UCF Math Placement Exam, or MAC 1140C with a C (2.0) or better and MAC 1114C with a C (2.0) or better, or C.I. Differential and integral calculus. Applications to engineering technology. Not open to students with credit in MAC 2233 or MAC 2311C. The "NC" grading policy applies to this course. *Fall, Spring*.

## UCF Courses and Descriptions

**MAC 2311C COS-MATH 4(3,2)**  
**Calculus with Analytic Geometry I:** PR: Appropriate score on the UCF Math Placement Exam, or MAC 1140C with a "C" (2.0) or better and MAC 1114C with a grade of "C" (2.0) or better, or combination of appropriate score on the UCF Math Placement Exam and "C" (2.0) or better in MAC 1114 or MAC 1140C, or MAC 2147 or score of 3 or better on the Calculus AB Advanced Placement Exam, or C.I. Analytic geometry; limits, continuity, differentiation of algebraic and trigonometric functions; applications of derivatives; integration and the fundamental theorem of calculus; applications of definite integrals. Not open to students with credit in MAC 2241. The "NC" grading policy applies to this course. *Fall/Spring.*

**MAC 2311H COS-MATH 4(4,0)**  
**Honors Calculus with Analytic Geometry I:** PR: Appropriate score on the UCF Math Placement Exam, or MAC 1140C with a C (2.0) or better and MAC 1114C with a grade of C (2.0) or better, or score of 3 or better on the Calculus AB Advanced Placement Exam, and consent of Honors. Analytic geometry; limits, continuity, differentiation of algebraic and trigonometric functions; applications of derivatives; integration and the fundamental theorem of calculus; applications of definite integrals. The "NC" grading policy applies to this course. With Honors content. *Fall/Spring.*

**MAC 2312 COS-MATH 4(4,0)**  
**Calculus with Analytic Geometry II:** PR: Grade of "C" (2.0) or better in MAC 2311C, or score of 5 on the Calculus AB Advanced Placement Exam, or an AB sub-score of 5 or better on the Calculus BC Advanced Placement Exam. Differentiation and integration of exponential, logarithmic, inverse trigonometric functions; techniques of integration; further applications of integration; parametric equations, polar coordinates; infinite sequences and series. *Fall/Spring.*

**MAC 2312H COS-MATH 4(4,0)**  
**Honors Calculus with Analytic Geometry II:** PR: Grade of "C" (2.0) or better in MAC 2311C, or score of 5 on the Calculus AB Advanced Placement Exam, and permission of Honors. Differentiation and integration of exponential, logarithmic, inverse trigonometric functions; techniques of integration; further applications of integration; parametric equations, polar coordinates; infinite sequences and series. With Honors content. *Fall/Spring.*

**MAC 2313 COS-MATH 4(4,0)**  
**Calculus with Analytic Geometry III:** PR: Grade of "C" (2.0) or better in MAC 2312, or score of 5 on the Calculus BC Advanced Placement Exam, or C.I. Geometry of higher dimensional Euclidean space; vectors and vector functions; partial derivatives; multiple integrals; line integrals; vector fields; Green's Theorem and Stoke's Theorem. *Fall/Spring.*

**MAC 2313H COS-MATH 4(4,0)**  
**Honors Calculus with Analytic Geometry III:** PR: Grade of "C" (2.0) or better in MAC 2312, or score of 5 on the Calculus BC Advanced Placement Exam, and permission of Honors. Geometry of higher dimensional Euclidean space; vectors and vector functions; partial derivatives; multiple integrals; line integrals; vector fields; Green's Theorem and Stoke's Theorem. With Honors content. *Spring.*

**MAD 2104 COS-MATH 3(3,0)**  
**Foundations of Discrete Math:** PR: 2 years of high school algebra and 1 year of geometry or C.I. Basic mathematical logic, methods of proof in mathematics, and application to elementary discrete structure. *Fall/Spring.*

**MAD 4203 COS-MATH 3(3,0)**  
**Introduction to Combinatorics:** PR: MAC 2312, and either MHF 3302 or COT 3100C, or C.I. Counting principles; permutations and combinations, multisets; recurrence relations and generating functions; combinatorial designs; the Polya theory of counting. *Fall.*

**MAD 4301 COS-MATH 3(3,0)**  
**Introduction to Graph Theory:** PR: Either MHF 3302 or COT 3100C, or C.I. Graph theory; isomorphism, connectivity; traversability, matchings, factorizations; planarity, colorings, and Ramsey number. *Spring.*

**MAD 4934 COS-MATH 3(3,0)**  
**Topics in Discrete Mathematics:** PR: MAS 3106 and either MAD 4203 or MAD 4301, or C.I. Advanced topics in discrete mathematics. Selection of topics will vary. May be used in the degree program a maximum of 3 times. *Occasional.*

**MAD 5205 COS-MATH 3(3,0)**  
**Graph Theory I:** PR: MAD 4203, graduate standing or C.I. Connectivity, Hamilton cycles, spanning trees, network flows, matchings, vertex and edge colorings planar graphs, extremal problems, Ramsey theory, spectral graph theory. *Odd Spring.*

**MAE 2801 ED-TL&L 4(3,1)**  
**Elementary School Mathematics:** PR: MAC 1105C or MGF 1106. Mathematics appropriate for the elementary school including the six basic sets of numbers, concepts, learning sequences, algorithms, problem-solving techniques, error patterns, number systems, and geometry. *Fall/Spring.*

**MAE 3310 ED-TL&L 3(3,0)**  
**Elementary Mathematics for Teaching I:** PR: Admission to the Elementary Education B.S., Exceptional Student Education B.S., Early Childhood Development and Education B.S. or Early Childhood Development and Education Pending program. This course will address pedagogical content knowledge for teaching whole number concepts and operations, integer concepts, geometry and algebraic reasoning. *Fall/Spring.*

**MAE 3311 ED-TL&L 3(3,0)**  
**Elementary Mathematics for Teaching II:** PR: MAE 3310 with a "C" (2.0) or better. This course will address pedagogical content knowledge for teaching rational number concepts and operations, measurement, and algebraic reasoning. *Fall/Spring.*

**MAE 3366 ED-TL&L 3(3,0)**  
**Middle and High School Mathematics for Teaching:** PR: Admission to Mathematics Education major or minor. This course provides a foundation in the pedagogical content knowledge for teaching mathematics appropriate for the middle and high school settings with an emphasis on algebra and geometry. *Spring.*

**MAE 4300 ED-CFCS 3(3,0)**  
**Math Curriculum and Assessment in Early Childhood:** PR: EEC 4661, EEC 4207; CR: EEC 3940. Methodologies for teaching and assessing young children in mathematics concepts and skills through an integrated, developmentally appropriate program. *Fall.*

**MAE 4326 ED-TL&L 3(3,0)**  
**How Children Learn Mathematics:** PR: MAE 3310 and MAE 3311. CR: EDE 3942. Instructional strategies, learning activities, the use of manipulatives, lesson planning, evaluation of mathematical learning, and diagnostic techniques. *Fall/Spring.* M&S fee \$10.00

**MAE 4360 ED-TL&L 4(3,2)**  
**Mathematics Instructional Analysis:** PR: EDG 4410 and MAE 4634. CR: MAE 3940. Study of course objectives for the middle grades and high school curriculum and survey of methods and materials which have special application for teaching mathematics. *Fall.*

**MAE 4634 ED-TL&L 3(2,1)**  
**Programs in Teaching of Mathematics:** PR: Admission to Mathematics Education Major or Minor, CR: MAE 3366. A consideration of special programs, strategies, and materials. Emphasis on individual needs of students. *Spring.*

**MAE 5327 ED-TL&L 3(3,0)**  
**Teaching Middle School Mathematics:** PR: EDG 6415 and TSL 5085 or admission to Initial Teacher Professional Preparation certificate. Students will develop skills in planning and delivering mathematics instruction in grades 5-9. The use of technology, cooperative learning, ESOL, and manipulatives is considered. *Occasional.*

**MAE 5336 ED-TL&L 3(3,0)**  
**Current Methods in Secondary School Mathematics:** PR: EDG 6415, TSL 5085, or admission to MED program or Initial Teacher Professional Preparation certificate. Required special methods course for mathematics 6-12 certification. Assessment, curriculum, technology, practical classroom ideas and activities. *Occasional.*

**MAE 5935 COS-MATH 3(3,0)**  
**Post-Secondary Mathematics:** PR: Graduate standing or senior standing or C.I. The course will focus on issues which are faced by teachers of collegiate mathematics. Topics will be selected from teaching issues, program issues, and other issues. *Even Fall.*

**MAN 3025 BA-MAN 3(3,0)**  
**Management of Organizations:** PR: ACG 2021 and ECO 2013 or ECO 2023 each with a grade of "C" (2.0) or better, or for non-business majors, ECO 2013 or ECO 2023 with a grade of "C" (2.0) or better. Introduction to the theory and practice of managing formal organizations, including planning, organization theory, human behavior and control. *Fall/Spring.*

**MAN 3025H BA-MAN 3(3,0)**  
**Honors Management of Organizations:** PR: ACG 2021 and ECO 2013 or ECO 2023 each with a grade of "C" (2.0) or better, and consent of Honors. Introduction to the theory and practice of managing formal organizations, including planning, organization theory, human behavior, and control. Applicable to honors students. *Spring.*

**MAN 3301 BA-MAN 3(3,0)**  
**Strategic Human Resource Management:** PR: Admission to the Management major. Provides students with a complete, comprehensive review of the strategic importance of the essential human resource management concepts and techniques for any student majoring in Management. *Fall/Spring.*

**MAN 3302 BA-MAN 3(3,0)**  
**Essentials of Human Resource Management for Integrated Business:** PR: Admission to the Integrated Business major. Prepares managers to contribute to the development and implementation of HR policies and practices. Legal issues and relationships with other business functions are emphasized. *Fall/Spring.*

**MAN 3354 BA-MAN 3(3,0)**  
**Employee Training for Non-Business Majors:** PR: MAN 3025. Employee training needs and practices as performed by supervisors and managers under the direction of organizational specialists. Designed for non-business majors. *Occasional.*

**MAN 3520 BA-MAN 3(3,0)**  
**Quality & Productivity Management:** PR: GEB 3031, MAN 3025. Management Majors and Minors and students whose major requires it. Principles and theories of quality and operations management in manufacturing and service organizations. *Occasional.*

**MAN 4029 BA-MAN 3(3,0)**  
**Service Organization Management:** PR: Management major, MAN 3025 and MAN 3520. Study of the special characteristics, problems, and methods for managing service-oriented organizations. *Occasional.*

**MAN 4046 BA-MAN 3(3,0)**  
**Teamwork, Collaboration, and Group Dynamics:** PR: Admission to the Management major, Technological Entrepreneurship Minor, Entrepreneurship Minor or Entrepreneurship Certificate program Examination of concepts related to teams and group dynamics, and development of an understanding of how to become an effective team member, leader, and designer. *Fall/Spring.*

**MAN 4101 BA-MAN 3(3,0)**  
**Human Relations in Management:** PR: Management major, MAN 3025. The study of individual, interpersonal, group, and intergroup problems in business organizations through the use of cases and experimental exercises. *Fall/Spring.*

**MAN 4143 BA-MAN 3(3,0)**  
**Leadership Development:** PR: Admission to the Management major, Technological Entrepreneurship Minor, Entrepreneurship Minor or Entrepreneurship Certificate program. Provides a foundation on the leadership development process and the impact leaders can have on individuals, groups, and organizations. *Fall/Spring.*

## UCF Courses and Descriptions

**MAN 4209 BA-MAN 3(3,0)**  
**Designing Dynamic Organizations:** PR: Admission to the Management major. Explores how innovative organization design represents an important source of competitive advantage for organizations of all types. *Fall, Spring.*

**MAN 4240 BA-MAN 3(3,0)**  
**Organizations: Theory and Behavior:** PR: Management major, MAN 3025. A course providing a micro/macro approach to the study of organizations by integrating organizational theory and organizational behavioral science concepts. *Fall, Spring.*

**MAN 4320 BA-MAN 3(3,0)**  
**Human Resources Recruitment and Selection:** PR: Management major, MAN 3301. A concentrated investigation of the methods appropriate to the development, implementation and administration of the staffing process in contemporary organizations. *Fall, Spring.*

**MAN 4329 BA-MAN 3(3,0)**  
**Business Analytics in Human Resource Management:** PR: Admission to the Management major. Processes, methodologies, infrastructure, and current practices used to transform data from many sources into useful information for human resource management and decisions. *Fall, Spring.*

**MAN 4330 BA-MAN 3(3,0)**  
**Compensation Administration:** PR: Management major, MAN 3301. Presentation of compensation theory and current pay related issues and their application to the design and administration of pay systems in large and small organizations. *Fall, Odd Spring.*

**MAN 4350 BA-MAN 3(3,0)**  
**Performance Management:** PR: Admission to the Management major. The management of worker performance through the training and development activities delivered by organizational specialists. Theory, issues, practices and problems are discussed. *Fall, Spring.*

**MAN 4441 BA-MAN 3(3,0)**  
**Conflict Resolution and Negotiation:** PR: MAN 3025. Conflict resolution and negotiation theories and processes applied to human resource management practices and other management activities in work organizations. *Occasional.*

**MAN 4532 BA-MAN 3(3,0)**  
**Introduction to Collaborative Design:** PR: Senior standing and C.I. Business students will team with engineering students to obtain hands on experience at solving real world design problems in a team based environment. *Fall, Spring.*

**MAN 4583 BA-MAN 3(3,0)**  
**Project Management:** PR: Admission to the Integrated Business major. Foundations of project management in assorted organizations and industries. Covers the project environment, the project manager's role, and project phases from initiation to closing. *Fall, Spring.*

**MAN 4600 BA-MAN 3(3,0)**  
**International Management:** PR: Approved major or minor, MAN 3025. The course examines issues involved in multinational management of business firms, with special emphasis on comparative management. *Fall, Spring.*

**MAN 4701 BA-MAN 3(3,0)**  
**Business Ethics and Society:** PR: Management major, MAN 3025. This course applies the ethics dimension to business decisions in today's complex political, social, economic and technological environment. *Fall, Spring.*

**MAN 4720 BA-MAN 3(3,0)**  
**Strategic Management:** PR: Admitted to Business major, senior standing, and completion of MAN 3025, MAR 3023, FIN 3403, ECO 3411, and ACG 3173 or ACG 3131. Students assume a strategic view of organizations and integrate and apply material learned in their business courses to modern organizational problems and opportunities. *Fall, Spring.*

**MAN 4941 BA-MAN 3(0,3)**  
**Management Internship:** PR: Management major, application approval, consent of department chair. Provides student with supervised, management-related work experience in a sponsoring organization. See department for information; application required. May be repeated for credit. *Occasional.*

**MAP 2302 COS-MATH 3(3,0)**  
**Ordinary Differential Equations I:** PR: Grade of "C" (2.0) or better in MAC 2313, or C.I. Methods of solution for first order equations. Linear equations. Laplace transforms. Series solutions. Selected applications. *Fall, Spring.*

**MAP 2302H COS-MATH 3(3,0)**  
**Honors Differential Equations:** PR: Grade of "C" (2.0) or better in MAC 2313, and permission of Honors. Methods of solution for first order equations. Linear equations. Numerical methods; Laplace transforms. Series solutions. Selected applications. Students will complete projects. For Honors students from all disciplines. *Occasional.*

**MAP 3482H COS-MATH 3(3,0)**  
**Honors Systems Modeling and Simulation:** PR: Permission of Honors and MAC 2312. Population growth dynamics; spread of an epidemic; ecological predator-prey relationships; insulin and its use in the control of diabetes; economic systems. *Occasional.*

**MAP 3923 COS-MATH 1(1,0)**  
**Frontiers in Mathematical Research: Colloquia and Public Talks:** PR: MAP 2302 or C.I. Current research in mathematics and related fields, as presented by leading national and international researchers. May not be used to satisfy requirements for mathematics major or minor. Graded S/U. May be used in the degree program a maximum of 3 times. *Fall, Spring.*

**MAP 4103 COS-MATH 3(3,0)**  
**Mathematical Modeling I:** PR: MAS 3105 or MAS 3106, and MAP 2302, or C.I. An introduction to the study of mathematical modeling. *Spring.*

**MAP 4113 COS-MATH 3(3,0)**  
**Probability, Random Processes and Applications:** PR: MAC 2313. Elementary probability theory; modes of convergence; martingales, Gaussian, Wiener, and diffusion processes; Brownian motion; applications. *Fall.*

**MAP 4153 COS-MATH 3(3,0)**  
**Vector and Tensor Analysis:** PR: MAS 3105 or MAS 3106, and MAP 2302, or C.I. Vector calculus. The theorems of Green, Gauss and Stokes. Introduction to tensors. Application in engineering and physical sciences. *Fall.*

**MAP 4171 COS-MATH 3(3,0)**  
**Optimization:** PR: MAC 2313, and MAP 2302, and MAS 3105 or MAS 3106, or C.I. Linear programming, dynamic programming, control theory, integer programming. *Occasional.*

**MAP 4303 COS-MATH 3(3,0)**  
**Ordinary Differential Equations II:** PR: MAP 2302, and MAS 3105 or MAS 3106, or C.I. Systems of linear differential equations, introduction to numerical solutions, stability theory and phase plane analysis, an introduction to limit cycles, bifurcations and chaos, power series solutions of differential equations. *Occasional.*

**MAP 4341 COS-MATH 3(3,0)**  
**Introduction to Partial Differential Equations:** PR: MAP 2302, and MAS 3105 or MAS 3106, or C.I. Introduction to second-order linear partial differential equations - heat, wave and Laplace equations, separation of variables in PDEs, Sturm-Liouville eigenvalue problems, Fourier series analysis and Green's functions, Laplace and Fourier transform methods. *Occasional.*

**MAP 4342 COS-MATH 3(3,0)**  
**Partial Differential Equations II:** PR: MAS 3105 or MAS 3106, and MAP 4341. Green's Functions, Integral Transforms, Laplace and Fourier transforms applied to heat, wave and potential equations. Bessel functions, Legendre functions, Fourier-Bessel series, PDEs in higher dimensions. *Spring.*

**MAP 4371 COS-MATH 3(3,0)**  
**Numerical Methods for Differential Equations:** PR: MAC 2313, and MAP 2302, and COP 3223C, and MAS 3105 or MAS 3106, or C.I. Numerical theory and practices used in solving ordinary differential equations and PDE. Covers Euler's method, trapezoidal rule, multi-step methods, Runge-Kutta, error control, finite differences, implicit and explicit schemes, iterative methods, and stability. *Fall.*

**MAP 4384 COS-MATH 3(3,0)**  
**Numerical Methods for Computational Sciences:** PR: MAP 2302, and COP 3223C, and MAS 3105 or MAS 3106. Theory of modern methods of numerical computation and numerical analysis in linear algebra and differential equations; non-linear optimization, finite element methods, adaptive quadrature. *Occasional.*

**MAP 4484 COS-MATH 3(3,0)**  
**Mathematical Biology I:** PR: MAP 2302, and MAS 3105 or MAS 3106, or C.I. Mathematical models of single populations, predator-prey systems, competition between species, host-parasite systems, epidemics, genetics, excitable systems. *Occasional.*

**MAP 4494 COS-MATH 3(3,0)**  
**Mathematical Biology II:** PR: MAP 4484. Mathematics of permanence, persistence and stability of ecological communities; competition in special habitats; epidemics; immune system; optimal foraging; cancer modeling; physiological modeling; genetics; protein folding. *Occasional.*

**MAP 4640 COS-MATH 3(3,0)**  
**Financial Mathematics:** PR: MAP 4113 or C.I. Binomial no-arbitrage pricing model, Martingales, Markov processes, capital asset pricing model, stopping times, American derivative securities, random walks, interest rates, fixed-income derivatives, futures. *Occasional.*

**MAP 4934 COS-MATH 3(3,0)**  
**Topics in Applied Mathematics:** PR: MAP 2302 and MAS 3105, or C.I. Advanced topics in applied mathematics. Selection of topics will vary. May be used in the degree program a maximum of 3 times. *Occasional.*

**MAP 5117 COS-MATH 3(3,0)**  
**Mathematical Modeling:** PR: STA 4321, MAP 4303, graduate standing or senior standing, or C.I. Introduction to modeling in industrial and scientific applications; techniques for studying statistical and deterministic models. *Even Fall.*

**MAP 5336 COS-MATH 3(3,0)**  
**Ordinary Differential Equations and Applications:** PR: MAA 5228 or C.I. Existence and uniqueness of solutions of differential equations, systems of ordinary differential equations, autonomous systems, phase plane analysis, stability, bifurcations. *Spring.*

**MAP 5426 COS-MATH 3(3,0)**  
**Special Functions:** PR: MAP 2302, and graduate status or senior standing or C.I. Series and integral representations, generating functions, recurrence relations and orthogonality properties of the special functions. Emphasis on Bessel, Legendre and hypergeometric functions. *Occasional.*

**MAP 5435 COS-MATH 3(3,0)**  
**Advanced Mathematics for Engineers:** PR: MAP 2302, and graduate status or senior standing or C.I. Linear Algebra and matrix methods, ordinary differential equations, Fourier series, partial differential equations, numerical methods for differential equations, and applications to engineering. *Occasional.*

**MAP 5514 COS-MATH 3(3,0)**  
**Linear and Nonlinear Waves I:** PR: MAP 2302, and graduate standing or senior standing, or C.I. Equations of motion in inviscid and viscous fluids, energy equation and energy flux, linear theory of gravity and capillary-gravity waves, variational principles for water waves. *Occasional.*

**MAP 5931 COS-MATH 1(1,0)**  
**Research Seminar:** PR: Graduate status or senior standing or C.I. Four instructors will introduce the students to a research area by presenting necessary background and presenting current investigations. Different branches of mathematics will be presented for a sense of diversity. *Occasional.*

## UCF Courses and Descriptions

**MAR 3023 BA-MAR 3(3,0)**  
**Marketing:** PR: ACG 2021 and ECO 2013 or ECO 2023 each with a grade of "C" (2.0) or better, or for non-business majors, ECO 2013 or ECO 2023 with a grade of "C" (2.0) or better. Study of how firms create and communicate value in order to build and maintain customer relationships while benefitting the organization and its stakeholders. *Fall, Spring.*

**MAR 3023H BA-MAR 3(3,0)**  
**Honors Marketing:** PR: ACG 2021 and ECO 2013 or ECO 2023 each with a grade of "C" (2.0) or better, and consent of Honors. Study of how firms create and communicate value in order to build and maintain customer relationships while benefitting the organization and its stakeholders; course has honors content. *Fall, Spring.*

**MAR 3203 BA-MAR 3(3,0)**  
**Supply Chain and Operations Management:** PR: Completion of each course in the Business common program prerequisites with a "C" (2.0) or better. Study of the planning and management of all activities involved in processes, assets, and flows of materials and information to meet customers' needs. *Fall, Spring.*

**MAR 3203H BA-MAR 3(3,0)**  
**Honors Supply Chain and Operations Management:** PR: Completion of each course in the Business common program prerequisites with a "C" (2.0) or better, and consent of the Honors College. Study of the planning and management of all activities involved in processes, assets, and flows of materials and information to meet customers' needs. *Fall.*

**MAR 3323 BA-MAR 3(3,0)**  
**Integrated Marketing Communication:** PR: Marketing Minor and MAR 3023 with a "B" (3.0) or better. Planning and execution of advertising, sales promotion, and public relations programs consistent with integrated marketing communications programs. *Fall, Spring.*

**MAR 3391 BA-MAR 3(3,0)**  
**Professional Selling:** PR: Marketing major or Marketing minor, and MAR 3023 with a grade of "B" (3.0) or better. The communication processes that form the basis of professional selling to businesses and to individuals. Focus is on applied exercises and role-play situations. *Fall, Spring.*

**MAR 3391H BA-MAR 3(3,0)**  
**Honors Professional Selling:** PR: Marketing major or Marketing minor, and MAR 3023 with a grade of "B" (3.0) or better, and consent of the Honors College. The communication processes that form the basis of professional selling to business and to individuals. Focus is on applied exercises and role-play situations. *Occasional.*

**MAR 3403 BA-MAR 3(3,0)**  
**Sales Force Management:** PR: MAR 3023 with a "B" (3.0) or better and appropriate major or minor. An overview of the sales management process. Emphasis on sales program formulation and implementation. *Occasional.*

**MAR 3407 BA-MAR 3(3,0)**  
**Contemporary Selling:** PR: Admission to the Integrated Business major. Examines functions, methodologies and basic problems involved in selling. Introduces the sales process for smaller companies in Business-to-Consumer and Business-to-Business markets. *Fall, Spring.*

**MAR 3503 BA-MAR 3(3,0)**  
**Consumer Behavior:** PR: Admission to the Marketing major. Individuals, groups, or organizations and the processes utilized to select, secure, use, and dispose of products, services, or experiences to satisfy consumer needs and wants. *Fall, Spring.*

**MAR 3611 BA-MAR 3(3,0)**  
**Marketing Analysis and Research Methods:** PR: Marketing minor or Professional Selling minor, and MAR 3023 with a "B" (3.0) or better. Study of the analytical tools and research methods used by marketers to make more effective decisions. *Fall, Spring.*

**MAR 3613 BA-MAR 3(3,0)**  
**Marketing Research:** PR: MAR 3615 with a grade of "C" (2.0) or better. The acquisition of information using various marketing research methods, as well as the application of results to marketing decision making. *Fall, Spring.*

**MAR 3615 BA-MAR 3(3,0)**  
**Marketing Analysis:** PR: Admission to the Marketing major. Study of analytic methods, tools, processes, and technologies that enable marketers to evaluate the success of marketing activities and initiatives. *Fall, Spring.*

**MAR 3641 BA-MAR 3(3,0)**  
**Marketing Intelligence:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better. Contemporary sources and applications of information concerning external forces impacting marketing decision making. *Occasional.*

**MAR 3721 BA-MAR 3(3,0)**  
**Digital Media Marketing:** PR: Admission to the marketing major. The application of contemporary digital media technologies to marketing decision making. *Fall, Spring.*

**MAR 3765 BA-MAR 3(3,0)**  
**Entrepreneurial Marketing:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better, or admission to the Entrepreneurship certificate or the Entrepreneurship minor or the Technological Entrepreneurship minor. Exploration of how marketing and entrepreneurship affect and are affected by one another. *Fall, Spring.*

**MAR 4156 BA-MAR 3(3,0)**  
**International Marketing:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better. Investigates strategy, policy and the variables relevant to international marketing decisions. *Occasional.*

**MAR 4231 BA-MAR 3(3,0)**  
**Retailing Management:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better. The field of retailing. Emphasis on planning for profitability through demand forecasting, inventory control, customer relationship management and brand leadership. *Occasional.*

**MAR 4413C BA-MAR 3(2,3)**  
**Strategic Issues in Sales:** PR: MAR 4415C with a grade of "C" (2.0) or better. Advanced study of selected contemporary strategic issues in selling and sales management. *Occasional.*

**MAR 4415C BA-MAR 3(2,3)**  
**Advanced Professional Selling:** PR: Admission to the professional selling track in the Marketing major or to the Professional Selling minor. Advanced study of the professional selling process, including team selling, negotiating, customer conflict management, and CRM systems. *Occasional.*

**MAR 4418 BA-MAR 3(3,0)**  
**Strategic Sales Force Management:** PR: Admission to the Marketing major or the Professional Selling minor. Study of the effective strategic management of contemporary sales forces. Emphasis on sales program formulation, implementation, and control, with a focus on strategy. *Fall, Spring.*

**MAR 4711 BA-MAR 3(3,0)**  
**Sport Marketing:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better. Marketing as it applies to the sport and leisure industry. *Occasional.*

**MAR 4712 BA-MAR 3(3,0)**  
**Healthcare Marketing:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better. Marketing as it applies to healthcare manufacturers, intermediaries and providers. *Occasional.*

**MAR 4715 BA-MAR 3(3,0)**  
**Entertainment Marketing:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better. Application of marketing theory and tools to the marketing of products and services in the entertainment industry. *Occasional.*

**MAR 4803 BA-MAR 3(3,0)**  
**Marketing Management:** PR: Marketing Minor and MAR 3611 with a grade of "C" (2.0) or better. Planning, organizing, implementing, monitoring and controlling marketing programs to effectively compete in dynamic and diverse business environments. *Fall, Spring.*

**MAR 4804 BA-MAR 3(3,0)**  
**Marketing Strategy:** PR: MAR 3613 with a grade of "C" (2.0) or better. Marketing issues are explored, with emphasis on strategy formulation and integrative marketing decision making. *Fall, Spring.*

**MAR 4832 BA-MAR 3(3,0)**  
**Product Management:** PR: MAR 3613 with a grade of "C" (2.0) or better. Study of the theory and practice of managing innovation and product design, testing, branding, and introduction of new products. *Fall, Spring.*

**MAR 4840 BA-MAR 3(3,0)**  
**Fundamentals of Services Marketing:** PR: Admission to the Integrated Business major. Study of marketing decision making in services sectors. Primary focus is on the unique aspects of services that impact marketing decision making in small and medium-size enterprises. *Occasional.*

**MAR 4841 BA-MAR 3(3,0)**  
**Services Marketing:** PR: Admission to the marketing major. Examination of marketing in services industries, with particular emphasis on unique aspects of services marketing, the service marketing mix, and the implementation of services strategies. *Fall, Spring.*

**MAR 4934 BA-MAR 3(3,0)**  
**Contemporary Marketing Topics in Florida:** PR: Marketing minor and MAR 3023 with a "B" (3.0) or better. Advanced study of marketing topics relevant to major business sectors in the state of Florida, e.g., high technology, health care, sustainable marketing, housing, real estate, tourism, hospitality, sports, gaming, etc. Topics may vary from term to term. May be repeated for credit only when course content is different. *Occasional.*

**MAR 4941 BA-MAR 3(3,0)**  
**Marketing Internship:** PR: Admission to the Marketing major or minor, and application to and approval by the Department of Marketing. Provides student with supervised, market-related work experience in a sponsoring organization. Application and approval required. *Fall, Spring.*

**MAS 3105 COS-MATH 4(4,0)**  
**Matrix and Linear Algebra:** PR: MAC 2312 or C.I. Matrices, determinants, vector spaces over the reals, linear independence, basis, solutions of systems, range of linear transformations, eigenvectors, singular value decomposition *Fall, Spring.*

**MAS 3105H COS-MATH 4(4,0)**  
**Honors Matrix and Linear Algebra:** PR: MAC 2312 and permission of Honors or C.I. Matrices, determinants, vector spaces over the reals, linear independence, basis, solutions of systems, range of linear transformations, eigenvectors, singular value decomposition. With Honors consent. *Fall, Spring.*

**MAS 3106 COS-MATH 4(4,0)**  
**Linear Algebra:** PR: MHF 3302 and MAS 3105, or C.I. Abstract vector spaces, linear transformations, isomorphisms, projections, inner products, spectral theorem, Jordan Canonical Form, quadratic forms. *Fall, Spring.*

**MAS 3203 COS-MATH 3(3,0)**  
**Introduction to Number Theory:** PR: MHF 3302 or C.I. The course will include the following topics: inductive reasoning, factorization, the division algorithm and congruences. *Spring.*

**MAS 4301 COS-MATH 3(3,0)**  
**Abstract Algebra I:** PR: MHF 3302 and MAS 3106, or C.I. Sets and mappings, groups, subgroups, permutation groups, homomorphisms and isomorphisms, the isomorphism theorems, groups actions, the class equation, Sylow theorems, and rings. *Fall.*

**MAS 4302 COS-MATH 3(3,0)**  
**Abstract Algebra II:** PR: MAS 4301 or C.I. Advanced topics in abstract algebra, including ring theory and field theory; introduction to Galois theory. *Spring.*

**MAS 4934 COS-MATH 3(3,0)**  
**Topics in Algebra:** PR: MAS 3106 and MAS 4301, or C.I. Advanced topics in abstract algebra and discrete mathematics. Selection of topics will vary. May be used in the degree program a maximum of 3 times. *Occasional.*

**MAS 5145 COS-MATH 3(3,0)**  
**Advanced Linear Algebra and Matrix Theory:** PR: MAS 3106 or C.I. Linear spaces, subspaces, linear transformations, matrices, eigenvalues and eigenvectors, Jordan forms, positive definite matrices, bilinear and quadratic forms, functions of matrices. *Even Fall.*

## UCF Courses and Descriptions

**MAS 5311 COS-MATH 3(3,0)**  
**Algebra I:** PR: MAS 4301 or graduate standing or C.I. Sets and categories, groups and groupoids, group actions, the class equation, Sylow theorems, Jordan-Hölder Theorem, Rings, Modules, Complexes, Factorization, and Irreducibility. *Occasional.*

**MAT 1033C COS-MATH 3(1,3)**  
**Intermediate Algebra:** PR: None. Reinforcement and development of algebra skills. Operations with polynomial, rational expressions; radicals; rational exponents; linear and quadratic equations, linear inequalities, and applications. This course is a "bridge course" which may be applied towards a degree as elective credit. This course will not satisfy either the GEP or Gordon Rule. *Occasional.*

**MAT 3937 COS-MATH 1(1,0)**  
**Techniques of Problem Solving:** PR: MAC 2311C and CR: MAC 2312; or C.I. Methods for solving problems in a wide variety of mathematical fields, with an emphasis on proper mathematical technique and writing of solutions. Graded S/U. May be repeated for credit. *Fall.*

**MAT 5712 COS-MATH 3(3,0)**  
**Scientific Computing:** PR: MAC 2313, MAP 2302, and either MAS 3105 or MAS 3106, or C.I. Matlab fundamentals, computer arithmetic, nonlinear equations, polynomial interpolation, divided differences, splines, curve fitting, least-squares method, numerical differentiation and integration. *Even Fall.*

**MCB 1000 COM-BSBS 3(3,0)**  
**The Invisible World:** Introduction to microbes, their beneficial and detrimental activities, and their importance to our every day lives. *Fall.*

**MCB 1310 COM-BSBS 3(3,0)**  
**Introduction to Biotechnology and Genetic Engineering:** Introduction to theories, laws, principles, foundations, scientific methods of genetic engineering & biotechnology and their applications in agriculture, environment and human health. *Fall, Spring.*

**MCB 2004C COM-BSBS 4(3,2)**  
**Microbiology for Health Professionals:** PR: BSC 2010C, CHM 1032 or CHM 2045C. A survey of microbiology for the health professional. *Spring.* M&S fee \$53.00

**MCB 3020C COM-BSBS 5(3,4)**  
**General Microbiology:** PR: BSC 2010C, CHM 2046, or CR: CHM 2210. Fundamentals of microbiology, evaluating microbial structure and function, metabolism, growth, genetics, virology environmental control, ecology, pathogenicity; and laboratory techniques. *Fall, Spring.* M&S fee \$53.00

**MCB 3020C COM-BSBS 5(3,5)**  
**Honors General Microbiology:** PR: BSC 2010C, CHM 2046 or CR: CHM 2210, and consent of Honors. Same as MCB 3020C with enrichment and further development of analytical skills in a separate laboratory and discussion section. With Honors content. *Fall.* M&S fee \$53.00

**MCB 3202 COM-BSBS 3(3,0)**  
**Principles of Infectious Disease:** PR: MCB 3020C. Introduction to host-pathogen interactions and microbial pathogenesis, with topics covering eukaryotic pathogens, virology, prokaryotic structure, pathogen identification, epidemiology, immunity, vaccines and antimicrobials, and virulence mechanisms. *Occasional.*

**MCB 3203 COM-BSBS 3(3,0)**  
**Pathogenic Microbiology:** PR: MCB 3020C or C.I. Microorganisms producing disease in man and other animals; means of transmission; protection against disease. *Spring.*

**MCB 3203L COM-BSBS 1(0,3)**  
**Pathogenic Microbiology Lab:** CR: MCB 3203. Laboratory investigation of pathogenic microorganisms, with emphasis on isolation and identification of pathogenic microorganisms. *Spring.* M&S fee \$53.00

**MCB 3316H COM-BSBS 3(3,0)**  
**Honors Biotechnology and Genetic Engineering Seminar:** PR: Permission of Honors. Principles, applications, laws, ethics and impact on society of biotechnology and genetic engineering in agriculture, medicine, forestry, environment, computer/ industrial/ chemical engineering and business administration. *Occasional.*

**MCB 4114C COM-BSBS 4(3,3)**  
**Determinative & Systemic Microbiology:** PR: MCB 3020C, MCB 3203. Microbial classification taxonomic rules and nomenclature techniques for identification and interrelating the phyla and taxa of bacteria. *Occasional.*

**MCB 4201 COM-BSBS 3(3,0)**  
**Microbial Stress Response:** PR: MCB 3020C and PCB 3522. Examination of the molecular genetic mechanisms that bacterial and fungal pathogens use to adapt to changes in their environment. *Fall.*

**MCB 4204 COM-BSBS 3(3,0)**  
**Cellular Microbiology: Host-Pathogen Interactions:** PR: MCB 3020C, PCB 3522. Examination of the molecular details of host-pathogen interactions. Key areas of cell biology will be considered in relation to microbial pathogenesis. *Spring.*

**MCB 4207 COM-BSBS 3(3,0)**  
**Infectious Processes:** PR: MCB 3020C. The infectious process and the response of host cells and tissue to infection. *Fall.*

**MCB 4224 COM-BSBS 3(3,0)**  
**Molecular Biology of Diseases:** PR: PCB 3522 or PCB 3023. In-depth knowledge of current advances in the molecular mechanisms underlying human diseases. Topics include autoimmunity, neurodegeneration, aging, drug addiction, obesity, and cancer. *Spring.*

**MCB 4276 COM-BSBS 3(3,0)**  
**Epidemiology of Infectious Diseases:** PR: MCB 3020C. Study of descriptive and analytic epidemiology and its application to the analysis of infectious diseases and in the community health status. *Spring.*

**MCB 4312 COM-BSBS 3(3,0)**  
**Molecular Biotechnology:** PR: MCB 3020C. Principles, techniques, and applications of Molecular Biotechnology in genetically modified food, cloning, gene therapy, and forensics; transgenic animals; patents and regulations. *Fall.*

**MCB 4404 COM-BSBS 3(3,0)**  
**Bacterial Genetics and Physiology:** PR: PCB 3522. Basic principles of microbial genetic analysis emphasizing how microbial genetic approaches are used to understand fundamental physiological processes in bacteria. *Spring.*

**MCB 4410 COM-BSBS 3(3,0)**  
**Cellular Metabolism:** PR: PCB 3522 or PCB 3023. Basic concepts of the mechanisms that define the functioning and regulation of prokaryotic and eukaryotic cell metabolism. *Fall.*

**MCB 4414 COM-BSBS 3(3,0)**  
**Microbial Metabolism:** PR: BSC 3403. Interrelationship between cellular structure function and genetic traits in microorganisms. The interaction between microorganisms and their nutritional environment. *Fall, Spring.*

**MCB 4503C COM-BSBS 3(3,0)**  
**Virology:** PR: PCB 3522. Concepts of structure and function of viruses, virus-host interactions and viral, and related disease states. *Occasional.*

**MCB 4603 COM-BSBS 3(3,0)**  
**Environmental Microbiology:** PR: MCB 3020C. Interrelationships between the biological activities of microorganisms and their terrestrial and aquatic environments. *Fall.*

**MCB 4653 COM-BSBS 3(1,6)**  
**Applied Industrial Microbiology:** PR: MCB 3020C and BSC 3403C. Combination of molecular and biochemical analyses with applied industrial microbiology projects. *Fall.*

**MCB 4720 COM-BSBS 3(3,0)**  
**Industrial Perspectives Seminar:** PR: Biotechnology major and CR: MCB 3020C. Concepts and techniques of basic research and drug development. Speakers from the biotechnology/pharmaceutical industry will show applications. *Fall.*

**MCB 4721C COM-BSBS 4(2,4)**  
**Methods in Biotechnology:** PR: BSC 3403C. Fluorescence and luminescence-based assays used in biopharmaceutical industry for target validation. *Occasional.* M&S fee \$70.00

**MCB 4920C COM-BSBS 3(1,4)**  
**Group-Effort Applied Research:** PR: MCB 3020C and BSC 3403C. Hands-on training class focused on real-world, applied research. Students participate as a group in a research project focusing on highly-parallel technical applications. May be used in the degree program a maximum of 2 times only when course content is different. *Occasional.*

**MCB 4920H COM-BSBS 3(1,4)**  
**Honors Group Effort Applied Research (GEAR):** PR: BSC 3403C and Consent from Honors. Hands-on training class focused on real-world, applied research. Students participate as a group in a research project focusing on highly-parallel technical applications. May be used in the degree program a maximum of 2 times only when course content is different. *Occasional.*

**MCB 4940 COM-BSBS 0-3(0,3-4)**  
**Methodology in Biomedical Sciences Instruction:** PR: MCB 3203L or PCB 3233L or PCB 3703C or ZOO 3733C or MCB 3020C, and C.I. Reinforces lab techniques; students will also gain experience in teaching by assisting instructors of different biomedical science labs. *Fall, Spring.*

**MCB 5205 COM-BSBS 3(3,0)**  
**Infectious Processes:** PR: MCB 3020C or C.I. Discussion of current theories of the infectious process and the response of host cells and tissue to infection. *Fall.*

**MCB 5208 COM-BSBS 3(3,0)**  
**Cellular Microbiology: Host-Pathogen Interactions:** PR: Graduate standing, PCB 3522. Examination of the molecular details of host-pathogen interactions. Key areas of cell biology will be considered in relation to microbial pathogenesis. *Spring.*

**MCB 5209 COM-BSBS 3(3,0)**  
**Microbial Stress Response:** PR: Graduate standing or C.I. Examination of the molecular genetic mechanisms, bacterial and fungal pathogens used to adapt to changes in their environment. *Fall.*

**MCB 5225 COM-BSBS 3(3,0)**  
**Molecular Biology of Disease:** PR: Graduate standing or C.I. An in-depth study of the molecular biological mechanism of diseases in experimental animal models and human populations. *Occasional.*

**MCB 5415 COM-BSBS 3(3,0)**  
**Cellular Metabolism:** PR: Graduate standing or C.I. Basic concepts of the mechanisms that define the functioning and regulation of prokaryotic and eukaryotic cell metabolism. *Fall.*

**MCB 5505 COM-BSBS 3(3,0)**  
**Molecular Virology:** PR: Graduate standing or C.I. An in-depth overview of the fundamental aspects and current concerns in modern virology including HIV, tumor viruses Prion disease, virus-host interaction, genome replication and pathogenesis. *Occasional.*

**MCB 5654C COM-BSBS 3(1,6)**  
**Applied Industrial Microbiology:** PR: MCB 3020C, BSC 3403C or C.I. Combination of molecular and biochemical analyses with applied industrial microbiology projects. *Occasional.*

**MCB 5722C COM-BSBS 4(2,4)**  
**Methods in Biotechnology:** PR: Graduate standing. A laboratory course that will train graduate students in fluorescence and luminescence-based assays used in biopharmaceutical industry for target validation. *Occasional.* M&S fee \$70.00

## UCF Courses and Descriptions

**MCB 5932 COM-BSBS VAR(VAR,VAR)**  
**Current Topics in Molecular Biology:** PR: Graduate standing or C.I. Selected current research topics from the primary literature reflecting recent advances in molecular biology. May be repeated for credit. *Occasional.*

**MET 2104 COS-PHYS 3(3,0)**  
**The Earth's Climate:** PR: None History, physics and dynamics of the Earth's climate. *Odd Spring.*

**MGF 1106 COS-MATH 3(3,0)**  
**Finite Mathematics:** PR: Appropriate score on the UCF Math Placement test, or MAT 1033C with a "C" (2.0) or better, or C.I. Introduction to systematic counting, probability, geometry, statistics, sets and logic. This course is intended for students who are not planning to take upper level courses in mathematics. *Fall.*

**MGF 1107 COS-MATH 3(3,0)**  
**Explorations in Mathematics:** The beauty and utility of mathematics, including patterns and symmetry, voting strategies, and finance. Connections between math and music, art, architecture, and nature. This course is intended for students not planning to take upper level mathematics. *Fall, Spring.*

**MHF 3302 COS-MATH 3(3,0)**  
**Logic and Proof in Mathematics:** PR: MAC 2311C. CR: MAC 2312. Basic mathematical logic. Methods of proof in mathematics. Application of proofs to elementary mathematical structures. *Fall, Spring.*

**MHF 4404 COS-MATH 3(3,0)**  
**History of Mathematics:** PR: MAC 2312 or C.I. A chronological study of the evolution of mathematical thought from primitive counting through modern ideas of the 20th century. Recommended for prospective teachers in mathematics. *Fall.*

**MHF 4934 COS-MATH 3(3,0)**  
**Topics in Foundations and History of Mathematics:** PR: MHF 3302 and MAS 3106, or C.I. Advanced, specialized topics in the foundations and history of mathematics, ranging from set theory and mathematical logic to the history and development of mathematical theories. May be used in the degree program a maximum of 3 times. *Occasional.*

**MHS 2090 ED-CFCS 3(3,0)**  
**Introduction to Human Services:** An overview of the field of human services including roles, boundaries and ethical issues. The course orients students to the operation of human service agencies. *Fall, Spring.*

**MHS 2330 ED-CFCS 3(3,0)**  
**Career Planning:** Introduction to career and life planning theories and concepts that assists students in applying these to their own lives. *Odd Fall, Even Spring.*

**MHS 2441 ED-CFCS 3(3,0)**  
**Couples, Families and Intimate Relationships:** Dynamics of families, couples, intimate relationships, dating, courtship and challenges of establishing stable and satisfying couples and families, impact of divorce, premarital and couples education. *Fall, Spring.*

**MHS 3052 ED-CFCS 3(3,0)**  
**Helping Skills for Human Service Providers:** PR: MHS 2090. Focuses on the interpersonal skills necessary to the practice of the human service industry. Emphasis on motivating and supporting clients who are experiencing challenging situations. *Spring.*

**MHS 3426 ED-CFCS 3(3,0)**  
**Diversity Issues in Human Services:** PR: MHS 2090. An introduction to multicultural aspects of helping including race, ethnicity, religion, gender, socioeconomic status, spirituality, sexual orientation and disability. *Fall, Spring.*

**MHS 5005 ED-CFCS 3(3,0)**  
**Introduction to the Counseling Profession:** PR: Completion of Phase II of Education Professional Preparation or C.I. Overview of the philosophy, organization, administration, and roles of counselors in various work settings. *Fall, Spring.*

**MLS 3220C COM-BSBS 3(3,3)**  
**Techniques in Clinical Microscopy:** PR: CHM 2210, PCB 3703C or C.I. Analysis of body fluids and urine by chemical and microscopic methods with interpretation and correlation to human disease. *Fall.* M&S fee \$70.00

**MLS 3305 COM-BSBS 3(3,0)**  
**Hematology:** PR: CHM 2210 and PCB 3703C. Overview of the hematopoietic system and disease states associated with blood and bone marrow. *Spring.*

**MLS 3305L COM-BSBS 1(0,6)**  
**Hematology Lab:** PR: MLS 3305. Practical laboratory procedures routinely performed for analyzing hematologic abnormalities. *Spring.*

**MLS 3705 COM-BSBS 3(3,0)**  
**Concepts in Education/Management:** PR: Admission to professional phase of the MLS Program or C.I. Introduction to laboratory management, health delivery systems, and educational practices in clinical settings. *Spring.*

**MLS 4334 COM-BSBS 3(3,0)**  
**Hemostasis:** PR: CHM 2210 and PCB 3703C. Overview of hemostatic and fibrinolytic conditions at the time of disease and the relationship of lab tests to diagnosis. *Occasional.*

**MLS 4430C COM-BSBS 3(2,3)**  
**Clinical Parasitology:** PR: MCB 3020C, CHM 2210, PCB 3703C or C.I. Instruction and laboratory practice in the examination and study of clinical material for the detection and identification of human parasites. *Fall.* M&S fee \$46.00

**MLS 4460L COM-BSBS 1(0,6)**  
**Clinical Pathogenic Microbiology Lab:** PR: Admission to the professional phase of the MLS program. CR: MCB 3203. Laboratory analysis of human pathogens from clinical samples to include bacteria and fungi. *Spring.* M&S fee \$53.00

**MLS 4505C COM-BSBS 3(2,3)**  
**Immunodiagnostics:** PR: PCB 3233 and PCB 3233L. Theory and application of immunologic principles and their use in diagnosis of human disease. *Spring.* M&S fee \$70.00

**MLS 4550 COM-BSBS 4(2,6)**  
**Clinical Immunohematology:** PR: Admission to the professional phase of the MLS program or C.I. Investigation of incompatible crossmatches; antibody identification, leukocyte antigens and identification procedures, problem solving. *Spring.* M&S fee \$70.00

**MLS 4625 COM-BSBS 3(3,0)**  
**Advanced Clinical Chemistry I:** PR: CHM 2210, PCB 3703C or C.I. Correlation of lab test to specific disease states including deviations in carbohydrate, amino acid metabolism, renal function, gastric function, electrolytes, and blood gases. *Fall.*

**MLS 4625L COM-BSBS 1(0,3)**  
**Advanced Clinical Chem I Lab:** CR: MLS 4625. Laboratory procedures routinely performed in a clinical chemistry laboratory. *Fall.* M&S fee \$70.00

**MLS 4630 COM-BSBS 3(3,0)**  
**Advanced Clinical Chemistry II:** PR: CHM 2210, PCB 3703C or C.I. Correlation of laboratory tests to specific human disease states. *Spring.*

**MLS 4830L COM-BSBS 4(0,8)**  
**Interpretive & Practical Clinical Chemistry:** PR: Admission to the MLS program, MLS 4625, MLS 4630. Instruction and practice of clinical chemistry laboratory procedures at an off-campus affiliated hospital/clinical site. *Fall.*

**MLS 4831L COM-BSBS 4(0,8)**  
**Interpretive & Practical Immunohematology:** PR: Admission to the MLS program, MLS 4550, MLS 4505C. Instruction and practice of blood banking and transfusion medicine laboratory procedures at an off-campus affiliated hospital/clinical site. *Fall.*

**MLS 4832L COM-BSBS 4(0,8)**

Critical examination of the physiological and pathophysiological mechanisms affecting individuals. May be used in the degree program a maximum of 2 times. *Fall, Spring.*

**NGR 5190 CON-NURS 3(3,0)**  
**Core Clinical Concepts for Nurse Educators:** PR: Admission to the Graduate Nursing Program or C.I.; NGR 5141 or equivalent. Integrate concepts of Pharmacology and Health Assessment. Provides the foundation for Advanced Nursing Practice within the Nurse Educator role. *Fall, Spring.*

**NGR 5638 CON-NURS 3(3,0)**  
**Health Promotion:** PR: Admission to M. S. in Nursing or Doctor of Nursing Practice or C.I. Exploration and analysis of concepts, theories, research evidence, clinical assessment and interventions for health promotion and wellness. May be used in the degree program a maximum of 2 times. *Fall, Spring.*

**NGR 5660 CON-NURS 3(3,0)**  
**Health Disparities: Issues and Strategies:** PR: Graduate standing. Explores disparities in access, utilization, services, outcomes, and status for different U.S. populations: data, research, programmatic issues, and strategies to close the gaps. May be used in the degree program a maximum of 2 times. *Occasional.*

**NGR 5690 CON-NURS 3(3,0)**  
**Interdisciplinary Care at End-of-Life:** PR: Graduate status or C.I. Examination of interdisciplinary roles and strategies for enabling patients, families; and caregivers to approach end-of-life free from avoidable distress and suffering. May be used in the degree program a maximum of 2 times. *Fall.*

**NGR 5720 CON-NURS 3(3,0)**  
**Organizational Dynamics:** PR: Baccalaureate degree in Nursing or C.I. Analysis of organizational theories related to health care organizations and the use of leadership, communication and power to influence health care delivery and policy. May be used in the degree program a maximum of 2 times. *Fall.*

**NGR 5800 CON-NURS 3(3,0)**  
**Theory for Advanced Practice Nursing:** PR: Baccalaureate degree in Nursing or C.I. Conceptual and theoretical bases of nursing practice and research with emphasis on scholarly writing and critique. May be used in the degree program a maximum of 2 times. *Fall, Spring.*

**NGR 5871 CON-NURS 3(3,0)**  
**Health Care Informatics:** PR: Baccalaureate in health related field or C.I. Use of information systems, clinical data management, communication strategies, and decision-making models. May be used in the degree program a maximum of 2 times. *Fall.*

**NGR 5884 CON-NURS 3(3,0)**  
**Legal and Professional Behavior in Advanced Practice Nursing:** PR: Graduate standing and admission to the M.S. in Nursing or Doctor of Nursing Practice program. Examination of legal, ethical, cultural, and political issues related to professional advanced practice nursing. May be used in the degree program a maximum of 2 times. *Fall, Spring.*

**NGR 5894C CON-NURS 3(2,1)**  
**International Perspectives of Global Health:** PR: Graduate standing or C.I. An analysis of global health in comparison with that of USA and other nation's health care systems. *Occasional.*

**PAD 3040 HPA-PUB 3(3,0)**  
**Ethics and Values in Public Administration:** PR: Junior standing; and Public Administration major or declared Leadership Studies Certificate or declared Leadership Studies minor; or C.I. Ethical dimensions of public administration. Develops the awareness, skills, and value framework to act ethically. *Occasional.*

**PAD 3330 HPA-PUB 3(3,0)**  
**Urban and Regional Planning:** PR: Junior standing; and Public Administration major, or Urban and Regional Planning minor, or Interdisciplinary Studies Environmental Studies Track major, or Environmental Studies minor; or C.I. Planning topics such as land-use, and comprehensive and urban planning as they relate to the physical aspects of the natural and human environment. *Fall, Spring.*

**PAD 3733 HPA-PUB 3(3,0)**  
**Professional Administrative Writing in the Public Sector:** PR: "C" (2.0) or better in POS 2041; Sophomore standing, Public Administration major or Public Administration minor, or C.I. Professional and technical writing for the field of public administration. *Fall, Spring.*

**PAD 3930 HPA-PUB 3(3,0)**  
**Nonprofit Leadership Seminar:** PR: Declared Nonprofit Management minor, Junior standing, and minimum of "C" (2.0) in ENC 1102. Discussion and activity based course exploring nonprofit competencies to prepare students for management and leadership positions in human services. Service learning activities included. *Fall, Spring.*

**PAD 4034 HPA-PUB 3(3,0)**  
**The Administration of Public Policy:** PR: Junior standing, and either a Public Administration major with a "C" (2.0) or better in PAD 3003 and PAD 3733 and in all PAD common program prerequisites courses, or Public Administration minor with a "C" (2.0) or better in PAD 3003 and PAD 3733, or C.I. Problems of values, interests, and objectives and their impact on the administration of public programs, stressing the interplay between social values, policies and administration. *Fall, Spring.*

**PAD 4104 HPA-PUB 3(3,0)**  
**Administrative Theory:** PR: Junior standing, and either a Public Administration major with a "C" (2.0) or better in PAD 3003 and PAD 3733 and in all PAD common program prerequisites courses, or Public Administration minor with a "C" (2.0) or better in PAD 3003 and PAD 3733, or Leadership Studies minor or certificate, or Applied Science major; or C.I. A review of the behavioral aspects of the administrative process, its impact on organizational goal achievement and on supervisory strategies. Some social and structural pathologies affecting administrative practice. *Fall, Spring.*

**PAD 4131 HPA-PUB 3(3,0)**  
**Public Sector Project Management:** PR: Junior Standing. Various approaches to managing projects, including using scheduling techniques such as GANTT, CPM, and PERT, as well as team building, facilitating, and leadership skills. *Occasional.*

**PAD 4144 HPA-PUB 3(3,0)**  
**Nonprofit Organizations:** PR: Junior standing and declared Nonprofit Minor or Certificate, or Performing Arts Management minor, or C.I. The operations of nonprofit organizations, including working with board of directors, volunteer services, fund-raising and grantsmanship, financial management and marketing. *Fall, Spring.*

**PAD 4147 HPA-PUB 3(3,0)**  
**Resource Development in the Nonprofit Sector:** PR: Junior standing, and Public Administration major or Nonprofit Management minor or certificate, or Performing Arts Administration minor, or C.I. Examination of the development and management of human resources and financial resource development in nonprofit organizations is discussed. *Fall.*

**PAD 4148 HPA-PUB 3(3,0)**  
**Volunteer Management:** PR: Junior standing, and Public Administration major or Nonprofit Management minor or certificate, or Performing Arts Administration minor, or C.I. Examination of recruitment, selection, training and management of volunteers in nonprofit organizations and the application of management theory. *Spring.*

**PAD 4153 HPA-PUB 3(3,0)**  
**Planning and Improvement for Public Organizations:** PR: Junior standing and Public Administration major or Nonprofit Management minor or certificate, or C.I. Prepare future leaders for the changing paradigms of the public sector by providing education in a variety of quality related areas. *Fall.*

**PAD 4204 HPA-PUB 3(3,0)**  
**Fiscal Management:** PR: Junior standing, and either a Public Administration major with a "C" (2.0) or better in PAD 3003 and PAD 3733 and in PAD common program prerequisites courses, or Public Administration minor with a "C" (2.0) or better in PAD 3003 and PAD 3733, or Nonprofit Management minor, or C.I. Analysis of methods of securing public funds, the process of budget making, and techniques of management used in managing public funds. *Fall, Spring.*

**PAD 4223 HPA-PUB 3(3,0)**  
**Public Budgeting: Skills and Techniques:** PR: PAD 4204 or C.I. Analytical skills and administrative techniques employed by public budget analysis, focusing on the process of generating and using information. *Occasional.*

**PAD 4253 HPA-PUB 3(3,0)**  
**Community & Economic Development:** PR: Public Administration major or Non Profit minor or Urban Regional Planning minor, and Junior standing, or C.I. This course will examine local and regional economic development strategies, with an emphasis on effective policy setting and planning. *Fall.*

**PAD 4325 HPA-PUB 3(3,0)**  
**Program Evaluation for Public and Nonprofit Organizations:** PR: Junior standing and (declared nonprofit minor or declared Nonprofit certificate or Public Administration major) or C.I. To develop an understanding of program evaluation and to apply the process by developing a program evaluation for a program. *Spring.*

**PAD 4331 HPA-PUB 3(3,0)**  
**Land Use and Planning:** PR: Junior standing and Public Administration major or Urban and Regional Planning minor; or C.I. The study of land use and planning to include zoning variances, non-conformities, development agreements, subdivision controls, redevelopment and sprawl. *Fall.*

**PAD 4334 HPA-PUB 3(3,0)**  
**Urban Design:** PR: Junior standing and Public Administration major or Urban and Regional Planning minor, or C.I. Theories and concepts of the physical, cultural, social and financial factors associated with urban design. *Spring.*

**PAD 4351 HPA-PUB 3(3,0)**  
**Issues in Environmental Program Management:** PR: Junior standing, and Public Administration major or Urban and Regional Planning minor, or Interdisciplinary Studies Environmental Studies Track major, or Environmental Studies minor, or Energy and Sustainability minor, or C.I. The study of environmental policy making processes, programs, and problems through lectures, field study, and research projects. *Spring.*

## UCF Courses and Descriptions

**PAD 4371 HPA-PUB 3(3,0)**  
**Community Resiliency & Sustainability:** PR: (ENC 1102 & Sophomore Standing) or C.I. Issues of community resiliency & sustainability specific to emergency & crisis management. Includes coverage of public policy & management, urban planning & development, and community sociology. *Occasional.*

**PAD 4390 HPA-PUB 3(3,0)**  
**Hazard Mitigation and Preparedness:** PR: Junior standing and Public Administration major or Emergency Management and Homeland Security minor or Urban and Regional Planning minor, or C.I. Specialized knowledge and skills necessary to develop a proactive hazard mitigation plan to reduce the effects of natural and technological disasters. *Fall.*

**PAD 4392 HPA-PUB 3(3,0)**  
**Emergency Management and Homeland Security:** PR: Junior standing and Public Administration major or Emergency Management and Homeland Security minor or Urban and Regional Planning minor, or C.I. After a public emergency, a variety of services must be provided to the victims. This course reviews and analyzes coordination and management of these services. *Fall.*

**PAD 4395 HPA-PUB 3(3,0)**  
**Disaster Response and Recovery:** PR: Junior standing and Public Administration major or Emergency Management and Homeland Security minor or Urban and Regional Planning minor, or C.I. Individual, group, organizations and community behavior and recovery from disasters. Service delivery strategies are highlighted and complex dynamics of the recovery process are emphasized. *Spring.*

**PAD 4414 HPA-PUB 3(3,0)**  
**Human Resource Administration:** PR: Either a Public Administration major with a "C" or better in PAD 3003 and PAD 3733 and in all PAD common program prerequisites courses, or Public Administration minor with a "C" (2.0) or better in PAD 3003 and PAD 3733, or Nonprofit Management minor, or C.I. The history, operating components, structural characteristics, and increasing impact of laws and related sanctions on personnel practices of public agencies. *Fall/Spring.*

**PAD 4446 HPA-PUB 3(3,0)**  
**Multiculturalism in Public Administration:** PR: COHPA major or minor, and Junior standing, or C.I. This course is designed to help public managers examine public and personal attitudes and values, ethical dilemmas, and social consequences related to issues of diversity. *Occasional.*

**PAD 4712 HPA-PUB 3(3,0)**  
**Information Systems for Public Managers and Planners:** PR: Junior standing and Public Administration major or Emergency Management and Homeland Security minor or Urban and Regional Planning minor, or C.I. Knowledge and skills concerning information technologies important for planners and public managers, including use of GIS to manipulate and analyze spatial data. *Spring.*

**PAD 4720 HPA-PUB 3(3,0)**  
**Survey Research in Public Administration:** PR: Either a Public Administration major with a "C" (2.0) or better in PAD 3003 and PAD 3733 and in all PAD common program prerequisites courses, or Public Administration minor with a "C" (2.0) or better in PAD 3003 and PAD 3733, or C.I. Introduction to the concepts, design, methodology, computer applications, and data analysis in applied research in the public sector. *Fall/Spring.*

**PAD 4803 HPA-PUB 3(3,0)**  
**Issues in Urban Administration:** PR: Junior standing and Public Administration major or Urban and Regional Planning minor, or C.I. To provide students with an understanding of public policy and administrative responses to socioeconomic problems within the urban context. *Occasional.*

**PAD 4822 HPA-PUB 3(3,0)**  
**Intergovernmental Administration:** PR: Junior standing and Public Administration major or Emergency Management and Homeland Security minor or Urban and Regional Planning minor, or C.I. Various approaches to studying and explaining the American intergovernmental system. Emphasis on interorganizational activities, i.e., negotiation, cooperation, and coordination within the legal setting. *Fall.*

**PAD 4941 HPA-PUB 3-12(0,3-12)**  
**Public Administration Internship:** PR: Junior Standing and permission by the internship coordinator in the Public Administration program. Internship in municipal, county, state, or federal government, including assignments in such fields as personnel, planning, budget, and fiscal, procurement, and public safety. *Fall/Spring.*

**PAD 4948 HPA-PUB 3(0,20)**  
**Nonprofit Management Internship:** PR: Junior standing; and enrollment in nonprofit minor; and PR or CR: one credit hour of PAD 3930. Supervised internship for students in the Nonprofit Leadership Alliance program. Requires minimum of 300 hours placement in a nonprofit human services organization. May be used in the degree program a maximum of 2 times. *Fall/Spring.*

**PAD 5041 HPA-PUB 3(3,0)**  
**Ethics and Values in Public Administration:** Examination of ethics in the public sector. Public concerns, past patterns, and individual/social aspects of ethical behavior are explored. *Occasional.*

**PAD 5145 HPA-PUB 3(3,0)**  
**Volunteerism in Nonprofit Management:** PR: Admission to Master of Nonprofit Management degree, Nonprofit certificate or C.I. Volunteer development in nonprofit organizations, including board selection, development and leadership, volunteer recruitment, training, retention and theories of motivation, leadership, ethical issues. *Fall/Spring.*

**PAD 5146 HPA-PUB 3(3,0)**  
**Nonprofit Resource Development:** PR: Admission to Master of Nonprofit Management, Certificate in Nonprofit Management, Certificate in Fundraising or C.I. Examines human resource development and financial resource development in nonprofit organizations including management issues. *Fall/Spring.*

**PAD 5336 HPA-PUB 3(3,0)**  
**Introduction to Urban Planning:** PR: Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Emergency Management and Homeland Security, or Certificate in Urban and Regional Planning, or C.I. Issues of urbanization, regional development, land use and comprehensive planning, environmental planning, and social planning. *Fall.*

**PAD 5337 HPA-PUB 3(3,0)**  
**Urban Design:** PR: Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Emergency Management and Homeland Security, or Certificate in Urban and Regional Planning, or C.I. Planning techniques such as planned unit developments, capital improvements planning, and growth management, and planning methods, including needs assessment and graphic design. *Fall.*

**PAD 5338 HPA-PUB 3(3,0)**  
**Land Use and Planning Law:** PR: Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Emergency Management and Homeland Security, or Certificate in Urban and Regional Planning, or C.I. Review of national and local aspects of the legal underpinnings of urban planning aspects such as zoning, growth management, and environmental regulation. *Spring.*

**PAD 5356 HPA-PUB 3(3,0)**  
**Managing Community and Economic Development:** PR: Admission to Master of Science in Urban and Regional Planning, or Master of Public Administration, or Master of Nonprofit Management, or Certificate in Emergency Management and Homeland Security, or Certificate in Urban and Regional Planning, or C.I. Overview of economic development activities focusing on policy and managerial issues at the local level. *Spring.*

**PAD 5425 HPA-PUB 3(3,0)**  
**Dispute Resolution in the Public Sector:** An examination of the skills needed to resolve disputes in the public sector through facilitation, mediation, and other alternative methods. *Occasional.*

**PAD 5427 HPA-PUB 3(3,0)**  
**Labor Relations in the Public Sector:** Current trends and developments in employment relations in the public sector, especially employee organization, negotiations, and the collective bargaining process. *Occasional.*

**PAD 5807 HPA-PUB 3(3,0)**  
**Local Government Operations:** Operational Functions of municipal and county governments and the role of the chief executive officer. *Occasional.*

**PAD 5850 HPA-PUB 3(3,0)**  
**Grant and Contract Management:** PR: Admission to the Master of Nonprofit Management, or Master of Research Administration, Certificate in Nonprofit Management, Certificate in Emergency Management and Homeland Security, Certificate in Public Administration, or Certificate in Fundraising, or C.I. Study of government or public nonprofit agency grant and contract administration and management responding to funding assistance solicitations and grant and contract preparation, evaluation, and presentation. *Fall/Spring.*

**PAD 5855 HPA-PUB 3(3,0)**  
**Introduction to Public Procurement:** PR: Admission to Master of Public Administration, or Master of Nonprofit Management, or C.I. Acquisition of knowledge and skills relating to the public procurement process. *Occasional.*

**PAD 5937 HPA-PUB 3(3,0)**  
**Introduction to Public Procurement:** PR: C.I. Acquisition of knowledge and skills relating to the public procurement process. *Occasional.*

**PAF 2102 HPA-HPA 2(2,0)**  
**Public Affairs Careers:** Introduction and examination of public affairs programs of study and career opportunities that will prepare students for future careers. *Fall.*

**PAF 4754 HPA-PUB AFF 3(3,0)**  
**Interdisciplinary Leadership in Public Affairs:** PR: Junior Standing and ENC 1101 or C.I. Global public affairs leadership in social and economic development, social justice, transnational and interdisciplinary partnerships, and social change. *Occasional.*

**PAZ 4234 COS-BIOL 3(3,0)**  
**Zoo and Aquarium Management:** PR: A "C" (2.0) or better in both PCB 3044 and PCB 3063, or C.I. Conservation, propagation and exhibition of wild animals in captivity. *Occasional.*

**PAZ 5235 COS-BIOL 3(3,0)**  
**Zoo and Aquarium Biology Management:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Conservation, propagation and exhibition of wild animals in captivity. *Occasional.*

**PCB 3023 COS-BIOL 3(3,0)**  
**Molecular Cell Biology:** PR: CHM 2210 and a "C" (2.0) or better in both BSC 2010C and PCB 3063, or C.I. Structure and function of eukaryotic cells including bioenergetics, protein structure and function, chromosome structure, DNA repair and recombination, membrane structure and transport, intracellular vesicle trafficking, cell signaling, apoptosis and cell cycle control and organization and functions of the cytoskeleton and extracellular matrix. *Fall/Spring.*

**PCB 3044 COS-BIOL 3(3,0)**  
**Principles of Ecology:** PR: CHM 2045C or CHM 2041, and a "C" (2.0) or better in both BSC 2010C and BSC 2011C, or C.I. Elements of ecosystems, biogeochemical cycling, environmental factor interactions, population dynamics, and community development. *Fall.*

## UCF Courses and Descriptions

**PCB 3044H COS-BIOL 3(3,0)**  
**Honors Principles of Ecology** : PR: CHM 2045 or CHM 2041, and a 'C' (2.0) or better in BSC 2010C or BSC 2011C. CR: PCB 3044L (Honors version) Elements of ecosystem ecology, biogeochemical cycling, environmental and biotic interactions, population dynamics, and community change. With Honors content *Occasional*.

**PCB 3044L COS-BIOL 1(0,1)**  
**Honors Principles of Ecology Lab** : PR: (CHM 2045 or CHM 2041) and a C (2.0) or better in BSC 2010C and BSC 2011C. <br />Co-Requisite: PCB 3044H Ecology (Honors Version) Elements of ecosystem ecology, biogeochemical cycling, environmental and biotic interactions, population dynamics, and community change. With Honors content *Occasional*.

**PCB 3044L COS-BIOL 1(0,3)**  
**Principles of Ecology Laboratory**: PR: or CR: PCB 3044 or C.I. Field and laboratory investigations of natural ecosystems, with emphasis on current methodology in ecology. *Fall*.

**PCB 3063 COS-BIOL 3(3,0)**  
**Genetics**: PR: CHM 2046 and a "C" (2.0) or better in BSC 2010C, or C.I. Basic principles of heredity as applied to prokaryotes and eukaryotes. *Fall, Spring*.

**PCB 3063H COS-BIOL 3(3,0)**  
**Honors Genetics**: PR: CHM 2046 and a "C" (2.0) or better in BSC 2010C, or C.I., and consent of Honors. Basic principles of heredity as applied to prokaryotes and eukaryotes with honors content. *Occasional*.

**PCB 3063L COS-BIOL 1(0,3)**  
**Genetics Laboratory**: PR: or CR: PCB 3063 or C.I. Introduction to laboratory techniques of genetics. *Fall, Spring*. M&S fee \$28.00

**PCB 3233 COM-BSBS 3(3,0)**  
**Immunology**: PR: BSC 2010C. Basic principles of immune reactions, antigen antibody interactions, cell mediated immunity, tumor immunology, and immuno therapy. *Fall*.

**PCB 3233L COM-BSBS 1(0,3)**  
**Immunology Laboratory**: CR: PCB 3233. Introduction to laboratory techniques in immunology. *Fall, Spring*. M&S fee \$46.00

**PCB 3343L COS-BIOL 2-5(0,6-15)**  
**Principles of Field Ecology**: PR: BSC 2011C, PCB 3044 or C.I. Applied study of biodiversity, ecology and conservation through field trips, field research and/or lectures. Emphasis and location varies by instructor. May be repeated for credit only when course content is different. *Occasional*.

**PCB 3354 COS-BIOL 3(3,0)**  
**Tropical Ecology and Conservation**: PR: PCB 3044 with a grade of "C" (2.0) or better, or C.I. Geography, ecology, and environmental problems encountered in various tropical ecosystems with particular emphasis towards terrestrial systems in tropical rainforests. *Occasional*.

**PCB 3355L COS-BIOL 2(0,2)**  
**Tropical Marine Biology**: PR: A "C" (2.0) or better in both BSC 2010C and BSC 2011C, or C.I. Intensive, one week field course at an institute of marine science. Diving/snorkeling will be used extensively to study organisms on pristine coral reefs. *Occasional*.

**PCB 3442 COS-BIOL 3(3,0)**  
**Aquatic Ecology**: PR: A minimum grade of "C" (2.0) in both BSC 2010C and BSC 2011C, or C.I. An introduction to aquatic ecology of Florida with emphasis on ponds, lakes, streams, and rivers. *Occasional*.

**PCB 3522 COM-BSBS 3(3,0)**  
**Molecular Biology I**: PR: CHM 2211 and MCB 3020C or C.I. The general principles governing the structure and function of both procaryotic and eucaryotic genes. *Fall, Spring*.

**PCB 3522H COM-BSBS 3(3,0)**  
**Honors Molecular Biology I**: PR: CHM 2211 and MCB 3020C or C.I. The general principles governing the structure and function of both prokaryotic and eukaryotic genes. *Occasional*.

**PCB 3703C COM-BSBS 4(3,3)**  
**Honors Human Physiology**: PR: BSC 2010C, CHM 2046 and consent of Honors College. The physiology and interrelationships of organ systems of the human body. With honors level content. *Fall*.

**PCB 3703C COM-BSBS 4(3,3)**  
**Human Physiology**: PR: BSC 2010C, CHM 1032 or CHM 2045C. The physiology and interrelationships of organ systems of the human body. *Fall, Spring*. M&S fee \$70.00

**PCB 4028 COM-BSBS 3(3,0)**  
**Molecular and Cellular Pharmacology**: PR: PCB 3522. The cellular and molecular events that lead to disease states and the molecular basis of agents that modulate these processes will be covered. *Spring*.

**PCB 4135 COM-BSBS 3(3,0)**  
**Applied Molecular Cell Biology**: PR: PCB 3522. PR or CR: PCB 4524. Discussion on concepts and experimental approaches in molecular cell biology for discovery of modern therapeutics. *Spring*.

**PCB 4174 COM-BSBS 3(3,0)**  
**Foundation of Bio-Imaging Science**: PR: BSC 2010C, CHM 2045C, CHM 2210, MAC 2311C, PHY 2049. Fundamental theory, design, and practice of modern bio-imaging techniques applicable for basic biomedical research. *Occasional*.

**PCB 4234 COM-BSBS 3(3,0)**  
**Cancer Biology**: PR: PCB 3522 or PCB 3023. Current knowledge and research on molecular mechanism of tumor development, tumor progression, metastasis and therapy of cancer. *Occasional*.

**PCB 4264 COM-BSBS 3(3,0)**  
**Stem Cell Biology**: PR: PCB 3522 or PCB 3023. Introduction to embryonic and adult stem cells, procedures to isolate them, principles and applications of stem cells in animal and human diseases. *Occasional*.

**PCB 4280 COM-BSBS 3(3,0)**  
**Molecular Immunology**: PR: MCB 3020C. Advanced understanding of the workings of the immune system, correlating cellular and molecular mechanisms with clinical cases. *Fall*.

**PCB 4284 COM-BSBS 3(3,0)**  
**Immunobiology**: PR: PCB 3233. Investigating innate host defense utilizing an approach that combines online didactic coursework with paper-based analytical studies. Recommended for students interested in research. *Occasional*.

**PCB 4353 COS-BIOL 3(3,0)**  
**Florida Ecology, Natural History and Conservation**: PR: PCB 3044C, or C.I. General ecology, habitats, vegetation types, wildlife, and conservation issues of Florida. *Odd Fall*.

**PCB 4402 COS-BIOL 3(3,0)**  
**Disease Ecology & Ecoimmunology**: PR: A grade of "B" (3.0) or better in PCB 3063 and PCB 3044 or C.I. Examination of how hosts, parasites and environment interact to shape organisms, populations and communities. *Occasional*.

**PCB 4408 COS-BIOL 3(3,0)**  
**Urban Ecology**: PR: PCB 3044 with a "B" (3.0) or better, or C.I. Urban ecosystems, urbanizing landscapes, and the impacts of urban areas on ecological pattern and processes at local, regional and global scales. *Occasional*.

**PCB 4514 COS-BIOL 3(3,0)**  
**Genetics II**: PR: A minimum grade of "B" (3.0) in PCB 3063, or C.I. Advanced topics in genetics and epigenetics including genome organization, gene regulation, chromosome mutation, developmental genetics and the effect of environment on phenotype. *Even Fall*.

**PCB 4521 COM-BSBS 3(3,0)**  
**Tissue Engineering**: PR: MCB 3020C or CHM 2045C. Tissue engineering with a special emphasis on the current status of the field, on novel methods and on cell-biomaterial interactions. *Occasional*.

**PCB 4524 COM-BSBS 3(3,0)**  
**Molecular Biology II**: PR: PCB 3522. The processes regulating gene function in procaryotes and eucaryotes; specialized genetic aspects underlying multi-cellular existence, DNA evolution. *Spring*.

**PCB 4524H COM-BSBS 3(3,0)**  
**Honors Molecular Biology II**: PR: Permission of Honors and PCB 3522. Same as PCB 4524 with honors level content. *Spring*.

**PCB 4529C COM-BSBS 4(3,4)**  
**Experimental Molecular Cell Biology**: PR: BSC 3403C with a "B" (3.0) or better, or PCB 3023 with a "B" (3.0) or better. Examination of the experimental basis for current knowledge in molecular and cellular biology topics and will link classroom discussions with a required laboratory component. *Spring*.

**PCB 4663 COM-BSBS 3(3,0)**  
**Human Genetics**: PR: PCB 3522 or PCB 3023. Topics include the principles of genetics as applied in humans, human hereditary disorders, and the impact of genetics and technology on medicine and medical practices. *Spring*.

**PCB 4678 COS-BIOL 3(3,0)**  
**Evolution and Medicine**: PR: A "B" (3.0) or better in PCB 4683, or C.I. Evolutionary theory and perspectives to investigate problems in human health and disease. *Odd Fall*.

**PCB 4683 COS-BIOL 4(4,0)**  
**Evolutionary Biology**: PR: A grade of "C" (2.0) or better in PCB 3063 and junior standing or C.I. Demographic and genetic structure of populations and their relationship to speciation, adaptation, and macroevolutionary processes in plants and animals. *Fall, Spring*.

**PCB 4683L COS-BIOL 1(0,2)**  
**Evolutionary Biology Lab**: PR: or CR: PCB 4683. Reading, problem solving and discussion on current topics in evolutionary biology. *Fall, Spring*. M&S fee \$3.00

**PCB 4684 COS-BIOL 3(3,0)**  
**Population Genetics**: PR: A "C" (2.0) or better in both PCB 3063 and PCB 4683, or C.I. Field of population genetics and the study of the various forces that result in evolutionary changes through time. *Even Spring*.

**PCB 4708L COM-BSBS 3(0,6)**  
**Laboratory Virtual Simulations in Physiology**: PR: PCB 3703C or ZOO 3733C. Conduct experiments in physiology that enhance the ability to design, collect, analyze data and report results in a scientific manner. *Occasional*.

**PCB 4722 COS-BIOL 4(4,0)**  
**Comparative Animal Nutrition**: PR: BSC 2010C, BSC 2011C, CHM 2210, CHM 2211, PCB 3044. The fundamental topics of animal nutrition, including all known nutrients important for animal life. *Spring*.

**PCB 4723 COS-BIOL 4(4,0)**  
**Animal Physiology**: PR: A "C" (2.0) or better in PCB 3023, or C.I. Functions of body processes occurring in animals, with emphasis on vertebrate physiology. *Fall*.

**PCB 4802 COS-BIOL 3(3,0)**  
**Comparative Endocrinology**: PR: A "C" (2.0) or better in both PCB 3023 and PCB 3044, or C.I. Hormonal regulation of an animal's physiological responses to environmental changes. *Occasional*.

**PCB 4805 COM-BSBS 3(3,0)**  
**Endocrinology**: PR: PCB 3703C or equivalent; CHM 2211. Mechanisms of action of hormones; interrelationship between the nervous and endocrine systems. *Occasional*.

**PCB 4813 COM-BSBS 3(3,0)**  
**Molecular Aspects of Obesity, Diabetes & Metabolism**: PR: PCB 3522 or BCH 4053. Advanced topics of physiological processes at the cellular, molecular and system level. *Spring*.

## UCF Courses and Descriptions

**PCB 4832 COM-BSBS 3(3,0)**  
**Cellular and Molecular Basis of Brain Functions:** PR: PCB 3522, PCB 3703C, ZOO 3733C. Designed to provide advanced undergraduate students the concepts required to understand the physiological basis of brain functions at the molecular, cellular and system levels. *Fall*.

**PCB 4833 COM-BSBS 3(3,0)**  
**Advanced Human Physiology:** PR: PCB 3522, PCB 3703C, ZOO 3733C. Advanced topics of physiological processes at the cellular, molecular and system levels. *Fall*.

**PCB 4843 COM-BSBS 3(3,0)**  
**Cellular and Molecular Neuroscience:** PR: ZOO 3744. An advanced and thorough course providing understanding of the cellular components and molecular signaling pathways involved in the nervous system function. *Spring*.

**PCB 4943 COM-BSBS 3(3,0)**  
**Peer Instruction and Laboratory Occupational Training:** PR: BSC 3403C or BSC 3403H. Internship practicum in a molecular biology laboratory where students teach, present, read journal articles, and work on a research project. May be repeated for credit. *Occasional*.

**PCB 5025 COM-BSBS 3(3,0)**  
**Molecular and Cellular Pharmacology:** PR: Graduate standing, PCB 3522. The cellular and molecular events that lead to disease states and the molecular basis of agents that modulate these processes will be covered. *Spring*.

**PCB 5045 COS-BIOL 4(4,0)**  
**Conservation Biology:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, or Certificate in Conservation Biology, or C.I. Scientific basis of conservation; conservation of ecosystems, populations, exploited species, and endangered species. *Fall*.

**PCB 5235 COM-BSBS 3(3,0)**  
**Molecular Immunology:** PR: MCB 3020C or equivalent. Fundamental functions of the human immune system, focusing on cellular and molecular aspects of the innate and adaptive immune response. *Fall*.

**PCB 5236 COM-BSBS 3(3,0)**  
**Cancer Biology:** PR: PCB 4524 and graduate standing. Current knowledge and research on molecular mechanism of tumor development, tumor progression, metastasis and therapy of cancer. *Occasional*.

**PCB 5238 COM-BSBS 3(3,0)**  
**Immunobiology:** PR: PCB 3233, PCB 4280. Advanced topics in immune system dysregulation with special emphasis on innate immunity. *Spring*.

**PCB 5265 COM-BSBS 3(3,0)**  
**Stem Cell Biology:** PR: Graduate standing. Introduction to embryonic and adult stem cells, procedures to isolate them, principles and applications of stem cells in animal and human diseases. *Occasional*.

**PCB 5275 COM-BSBS 3(3,0)**  
**Signal Transduction Mechanics:** PR: PCB 3522 and PCB 4524. A course emphasizing various signal transduction cascades used in mammalian cells to control growth and differentiation. Discussion of original research papers will occur. *Occasional*.

**PCB 5326C COS-BIOL 5(3,2)**  
**Ecosystems of Florida:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Ecosystems of Florida will be discussed to include geography, geology, climate, energetics, nutrient cycling, community structure and conservation. *Occasional*. M&S fee \$15.00

**PCB 5435C COS-BIOL 4(2,6)**  
**Marine Ecology of Florida:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, PSM in Conservation Biology, or Certificate in Conservation Biology, or C.I. Survey of experimental methods used in the study of marine communities in central and southern Florida, combining field manipulation and readings from primary literature. *Odd Spring*.

**PCB 5447 COS-BIOL 3(3,0)**  
**Disease Ecology & Ecoimmunology:** PR: A grade of B (3.0) or better in Genetics (PCB 3063 or equivalent) and Ecology (PCB 3044 or equivalent), or C.I., or graduate standing. Examination of how hosts, parasites and environment interact to shape organisms, populations and communities. *Occasional*.

**PCB 5485 COS-BIOL 3(3,0)**  
**Models in Ecology:** PR: PCB 3044, MAC 2311C (or equivalent), and graduate status or senior standing or C.I. A survey of how simulation models are applied to ecological questions of both a theoretical and managerial nature. *Occasional*.

**PCB 5527 COM-BSBS 3(3,0)**  
**Genetic Engineering and Biotechnology:** PR: PCB 3522 and PCB 4524 or C.I. Principles of Genetic Engineering/Biotechnology in Bacteria, Yeast, Viral, Mammalian, Non-mammalian systems, Plants, including human gene therapy, novel pharmaceuticals, recombinant proteins will be discussed in depth. *Fall*.

**PCB 5596 COM-BSBS 3(3,0)**  
**Biomedical Informatics: Sequence Analysis:** PR: PCB 3522 or equivalent or C.I. Introduction of useful bioinformatics tools and resources on sequence analysis. *Fall*.

**PCB 5687 COS-BIOL 3(3,0)**  
**Evolutionary Ecology:** PR: PCB 4683 or equivalent and C.I. Evolution of life history traits (e.g., propagule size/number, age/size at maturity, survivorship and senescence) examined using a quantitative genetic framework. *Even Fall*.

**PCB 5709C COM-BSBS 3(1,2)**  
**Laboratory Virtual Simulations in Physiology:** CR: PCB 5834C Advanced Human Physiology. Conduct experiments in physiology that enhance the ability to design, collect, analyze data and report results in a scientific manner. *Occasional*.

**PCB 5815 COM-BSBS 3(3,0)**  
**Molecular Aspects of Obesity, Diabetes & Metabolism:** PR: PCB 3522 or BCH 4053 or BSC 6432. Biochemical, molecular and physiological aspects of obesity, diabetes and metabolic diseases and how scientific findings can be translated towards prevention and treatment. *Odd Spring*.

**PCB 5834C COM-BSBS 4(3,2)**  
**Advanced Human Physiology:** PR: Graduate standing or C.I. Designed to provide graduate students advanced knowledge of physiological processes at the cellular, molecular and system levels. *Fall*.

**PCB 5837 COM-BSBS 3(3,0)**  
**Cellular and Molecular Neuroscience:** PR: Graduate standing. An advanced and thorough course providing understanding of the cellular components and molecular signaling pathways involved in the nervous system function. *Spring*.

**PCB 5838 COM-BSBS 3(3,0)**  
**Cellular and Molecular Basis of Brain Functions:** PR: Graduate Standing or C.I. Designed to provide graduate students the concepts required to understand the physiological basis of brain functions at the molecular, cellular and system levels. *Fall*.

**PCB 5935 COS-BIOL 3(3,0)**  
**Population Genetics:** PR: Admission to the M.S. in Biology, Ph.D. in Conservation Biology, Certificate in Conservation Biology, PSM in Conservation Biology, or C.I. Population genetics and the study of the various forces that result in evolutionary changes through time. *Even Fall*.

**PCO 4203 COS-PSYCH 3(3,0)**  
**Interviewing and Counseling:** PR: PSY 2012. A review of various interviewing and counseling theories and techniques used in Mental Health settings as well as practical experience in interviewing and counseling procedures. *Fall/Spring*.

**PEL 2011 ED-E&HS 2(1,1)**  
**Basic Volleyball and Softball:** The analysis of offensive and defensive alignment, techniques, and strategies. *Occasional*.

**PEL 2111 ED-E&HS 2(1,1)**  
**Bowling:** Fundamentals of bowling techniques and the development of skills based on those fundamentals. *Occasional*.

**PEL 2112 ED-E&HS 2(1,1)**  
**Intermediate Bowling:** PR: PEL 2111, bowling experience, or average of 140 verification by league sheet. This course provides in-depth information that is necessary for the development of high bowling averages. *Occasional*.

**PEL 2121 ED-E&HS 2(1,1)**  
**Beginning Golf:** Performance and application of basic skills, rules, and etiquette. Physiological and social values accruing from this lifetime sport. *Fall/Spring*.

**PEL 2122 ED-E&HS 2(1,1)**  
**Intermediate Golf:** PR: PEL 2121 or equivalent competency. A study of performance and application of intermediate skills, rules, and etiquette. Physiological and social values accruing from this lifetime sport. *Occasional*.

**PEL 2341 ED-E&HS 2(1,1)**  
**Beginning Tennis:** Performance and application of basic skills, rules and etiquette. Physiological and social values accruing from this lifetime sport. *Occasional*.

**PEL 2342 ED-E&HS 2(1,1)**  
**Intermediate Tennis:** PR: PEL 2341 or equivalent competency. Performance and application of advanced skills, rules, and etiquette. Physiological and social values accruing from this lifetime sport. *Occasional*.

**PEL 2640 ED-E&HS 2(1,1)**  
**Basic Football and Basketball:** The analysis of offensive and defensive alignment, techniques, and strategies. *Occasional*.

**PEM 2101 ED-E&HS 2(1,1)**  
**Body Development:** An in-depth study of individual physical (musculo-skeletal, neuromuscular, cardiorespiratory) fitness. Emphasis on individual diagnosis, principles, procedures, and conduct of related exercise programs. *Fall/Even Spring*.

**PEM 2104 ED-E&HS 3(2,1)**  
**Personal Fitness:** Study of personal fitness concepts, with opportunities to develop an individual, optimal level of fitness and an improved lifestyle through high-level wellness. *Fall/Spring*.

**PEM 2121C ED-E&HS 3(1,3)**  
**Yoga:** Performance and application of a series of basic movement, breathing, and concentration techniques designed to enhance body awareness, flexibility, strength, and balance, and to allow the mind to be focused and centered. *Fall/Spring*.

**PEM 2122 CAH-MUSIC 1(0,2)**  
**Yoga for Performers:** The practice and study of Yoga, including postures, breathing and meditation, focusing on the needs of performers *Fall/Spring*.

**PEM 2127C ED-E&HS 2(1,1)**  
**Pilates:** The Pilates method of body conditioning emphasizing core musculature as it applies to everyday movement. *Occasional*.

**PEM 2131 ED-E&HS 2(1,1)**  
**Strength Resistance Training:** Study of fitness and strength development through resistance exercise. *Fall/Spring*.

**PEM 2134C ED-E&HS 2(1,1)**  
**Adventure Recreation:** Options for adventure recreation including: outdoor living skills, canoeing, kayaking, rock climbing, hiking and backpacking. *Occasional*.

**PEM 2171 ED-E&HS 2(1,1)**  
**Aerobics:** Appropriate rhythmical muscle toning movements that develop aerobic fitness; concepts taught include warm-up, flexibility, stretching, cool down, and heart rate. *Fall/Spring*.

**PEM 2173 ED-E&HS 2(1,1)**  
**Step Aerobics:** Appropriate rhythmical muscle toning movements utilizing the step to develop aerobic fitness. Concepts taught include warm-up, flexibility, work-out, and cool-down. *Occasional*.

## UCF Courses and Descriptions

**PEM 2175 ED-E&HS 2(1,1)**  
**Country/Western Dance:** Basic instruction in Country/Western Dance. Improve aerobic fitness by learning line dances, circle dances and basic partner steps, such as two-step and waltz. *Occasional.*

**PEM 2405 ED-E&HS 3(1,2)**  
**Self Defense for Women and Men:** Designed to provide students with self defense skills. *Fall, Spring.*

**PEM 2431 ED-E&HS 2(2,0)**  
**Beginning Judo:** Study and application of basic skills; falling, throwing, ground techniques, basic self-defense, terminology, philosophy and fitness training involved in the Olympic sport of Judo. *Fall, Spring.*

**PEM 2432 ED-E&HS 2(2,0)**  
**Intermediate Judo:** PR: PEM 2431 or C.I. Study and application of intermediate skills, body and strength conditioning, appropriate protocols and terminology involved in Judo training. *Fall, Spring.*

**PEM 5408C ED-CFCS 3(2,1)**  
**Controlling Classroom Violence:** PR: Graduate standing; certified teacher. A hands-on course dealing with controlling disruption and violence as well as how teachers can protect themselves. *Occasional.*

**PEO 2011 ED-E&HS 3(2,1)**  
**Team Sports:** This course is designed to develop skill proficiency and knowledge to plan, implement and evaluate team sports as part of the Physical Education program. *Fall, Spring.*

**PEO 2031 ED-E&HS 3(2,1)**  
**Individual Sports:** Skill proficiency and knowledge to plan, implement and evaluate individual sports. *Fall, Spring.*

**PEO 3041 ED-E&HS 3(3,0)**  
**Games Analysis:** PR: Admission to Sport and Exercise Science program and minimum overall 2.5 GPA. Teaching methodology utilizing games for specific outcome behaviors in grades K-12. *Fall, Spring.*

**PEO 3324 ED-E&HS 3(2,1)**  
**Coaching Volleyball:** PR: Admission to Sport and Exercise Science program, Sport and Exercise Science Pending or Coaching Minor. Theory and methods of coaching volleyball, including the analysis of offensive and defensive alignment techniques and strategies. *Spring.*

**PEO 3514C ED-E&HS 3(2,1)**  
**Coaching Soccer:** PR: Admission to the Sport and Exercise Science program, Sport and Exercise Science Pending or Coaching Minor. Theory and methods of coaching soccer, including the analysis of offensive and defensive techniques and strategies. *Fall, Spring.*

**PEO 3624 ED-E&HS 3(3,0)**  
**Coaching Basketball:** PR: Admission to the Sport and Exercise Science program, Sport and Exercise Science Pending or Coaching Minor. Theory and methods of coaching basketball, including the analysis of offensive and defensive techniques and strategies. *Fall, Spring.*

**PEO 3644 ED-E&HS 3(2,1)**  
**Coaching Football:** PR: Admission to the Sport and Exercise Science program, Sport and Exercise Science Pending or Coaching Minor. Theory and methods of coaching football, including the analysis of offensive and defensive techniques and strategies. *Occasional.*

**PEO 5645C ED-CFCS 3(2,1)**  
**Coaching Football:** PR: C.I. Advanced principles and methods common to the coaching of football. Includes teaching and training methods, organization, motivation and strategies. *Occasional.*

**PET 2081 ED-E&HS 1(1,0)**  
**Wellness, Children and Schools:** Exploration and promotion of wellness for children in schools. *Fall, Spring.*

**PET 3005 ED-E&HS 3(3,0)**  
**Introduction to Sport and Exercise Science:** PR: Admission to Sport and Exercise Science program or Sport and Exercise Science Pending or department consent. An introduction to sport and exercise science with emphasis in fitness, recreation, physical activity, and human performance. *Fall, Spring.*

**PET 3097 ED-E&HS 3(3,0)**  
**Health and Wellness:** PR: Admission to Sport and Exercise Science program or Sport and Exercise Science Pending. Explore wellness through science and the statistics of risk factors for mortality and morbidity. Students will interpret indicators, evaluate choices using assessment-intervention-reinforcement protocols. *Fall, Spring.*

**PET 3125 ED-E&HS 3(3,0)**  
**Fitness and Weight Management:** PR: Admission to Sport and Exercise Science program or Fitness Training Minor and minimum overall 2.5 GPA. Provides current and future professionals with the requisite knowledge of fitness and weight management research, theories, and practice. *Fall, Spring.*

**PET 3137 ED-E&HS 3(3,0)**  
**Concepts and Practices in Sport and Exercise Science:** PR: Admission to the Sport and Exercise Science program or C.I. Examination of experiences in Sport and Exercise Science program: concepts, practices, and science. *Fall, Spring.*

**PET 3361 ED-E&HS 3(3,0)**  
**Nutrition and Metabolism in Sport and Exercise Science:** PR: Admission to Sport and Exercise Science program or Fitness Training Minor, BSC 2010C or equivalent and minimum overall 2.5 GPA. Study of nutrition with focus on the strategies designed to meet nutrient demands for physical activity, exercise, metabolism, and athletic performance in sport and exercise sciences. *Fall, Spring.*

**PET 3510C HPA-HP 3(2,1)**  
**Physiologic & Metabolic Basis of Human Movement & Performance:** PR: Admission to Athletic Training B.S. Program. Exercise physiology, drugs & nutrition, and performance & injury; each focusing on the key elements for the application of athletic training principles. *Fall.*

**PET 3765 ED-E&HS 3(3,0)**  
**Coaching Theory:** PR: Admission to Sport and Exercise Science program, Sport and Exercise Science Pending or Coaching Minor. Theories of coaching team and individual sports. *Fall, Spring.*

**PET 3768 ED-E&HS 3(3,0)**  
**Group Exercise Instruction:** PR: Admission to Sport and Exercise Science program or Fitness Training Minor and minimum overall 2.5 GPA. An in-depth study into group exercise instruction and fitness related concepts. *Fall.*

**PET 3771 ED-E&HS 3(3,0)**  
**Strength and Conditioning Concepts:** PR: Admission to the Sport and Exercise Science Program or Fitness Training Minor, BSC 2010C or equivalent, ZOO 3736C or ZOO 3733C or equivalent and minimum overall 2.5 GPA. Integration of advanced components of muscular strength training and endurance conditioning for the sport and exercise professional. *Fall, Spring.*

**PET 3820 ED-E&HS 3(3,0)**  
**Teaching Sports Skills I:** PR: Admission to the Sport and Exercise Science Program, Sport and Exercise Science Pending or Community Sport and Fitness Minor. Skill proficiency and knowledge to plan, implement and evaluate sports and leisure activities in physical education programs. *Fall, Spring.*

**PET 4050C ED-E&HS 3(2,1)**  
**Motor Development and Learning:** PR: Admission to Sport and Exercise Science program or Early Childhood Development and Education program and minimum overall 2.5 GPA. An analysis of the theories and factors influencing the motor development of children and the learning of gross and fine motor skills. *Fall, Spring.*

**PET 4083 ED-E&HS 3(3,0)**  
**Personal Training Methods:** PR: Admission to Sport and Exercise Science program or Fitness Training Minor and minimum overall 2.5 GPA. An in-depth study into personal training and fitness related concepts. *Fall, Spring.*

**PET 4088 ED-E&HS 3(3,0)**  
**Physical Activity & Preventive Medicine:** PR: Admission to the Sport and Exercise Science Program, BSC 2010C or equivalent, ZOO 3736C or ZOO 3733C or equivalent and minimum overall 2.5 GPA. Critique and analysis of evidence that exercise training can prevent some diseases and increase quality of life. *Fall, Spring.*

**PET 4143 ED-E&HS 3(3,0)**  
**Current Issues & Trends in Sport and Exercise Science:** PR: Admission to Sport and Exercise Science program and minimum overall 2.5 GPA. Examination of the current issues and trends encountered by professionals in sport and exercise science. *Fall, Spring.*

**PET 4215 ED-E&HS 3(3,0)**  
**Motivational Aspects of Athletic Performance:** PR: Admission to Sport and Exercise Science program, Fitness Training Minor or Coaching Minor and minimum overall 2.5 GPA. Theories of attitude, motivation, effort, persistence, mental focus, visualization, and an exploration of techniques to enhance athlete performance. *Fall, Spring.*

**PET 4312C ED-E&HS 3(2,1)**  
**Applied Biomechanics:** PR: Admission to the Sport and Exercise Science Program or Fitness Training Minor, BSC 2010C or equivalent, ZOO 3736C or ZOO 3733C or equivalent and minimum overall 2.5 GPA. The comprehension and application of anatomical and mechanical principles involved in human movement. *Fall, Spring.*

**PET 4315C HPA-HP 3(2,1)**  
**Biomechanics of Sport:** PR: PHY 2053C or PHY 2048C. Assessment and recognition of physiological and mechanical aspects of sports and injuries. *Spring.*

**PET 4325 ED-E&HS 3(3,0)**  
**Functional Kinesiology for Sport and Exercise Science:** PR: Admission to the Sport and Exercise Science Program or Fitness Training Minor, BSC 2010C or equivalent, ZOO 3736C or ZOO 3733C or equivalent and minimum overall 2.5 GPA. Study of functional anatomy and elementary biomechanics. Emphasis placed on analysis of skeletal, muscular and nervous systems and biomechanical factors associated with efficient motor development. *Fall, Spring.*

**PET 4401 ED-E&HS 3(3,0)**  
**Administration and Evaluation in Sport and Fitness:** PR: Admission to the Sport and Exercise Science Program and minimum overall 2.5 GPA. Addressing administrative, measurement and evaluation aspects of Sport and Fitness programs. *Fall, Spring.*

**PET 4550C ED-E&HS 3(2,1)**  
**Assessment and Evaluation in Exercise Science:** PR: Admission to the Sport and Exercise Science Program or Fitness Training Minor, BSC 2010C or equivalent, ZOO 3736C or ZOO 3733C or equivalent, APK 4110C and minimum overall 2.5 GPA. A study and acquisition of health related fitness, exercise strategies and related assessment techniques. *Fall, Spring.*

**PET 4552 ED-E&HS 3(3,0)**  
**Exercise Prescription for Special Populations:** PR: Admission to the Sport and Exercise Science Program or Fitness Training Minor, BSC 2010C or equivalent, ZOO 3736C or ZOO 3733C or equivalent, APK 4110C and minimum overall 2.5 GPA. Students integrate knowledge of exercise science, physiology, and fitness conditioning to develop exercise for populations dealing with aging, osteoporosis, diabetes, obesity, heart disease, and pregnancy. *Fall, Spring.*

**PET 4606 HPA-HP 3(3,0)**  
**Applied Fitness in Sport:** PR: ZOO 3733C or ZOO 3736C and PCB 3703C; Junior standing; COHPA majors and Health Sciences minors only. Physiological adaptations to exercise, biomechanics, psychology, performance enhancing substances, nutrition, fitness testing procedures, exercise technique, program design, advanced rehabilitation and administration. *Spring.*

## UCF Courses and Descriptions

**PET 4710 ED-E&HS 3(3,0)**  
**Methods for Physical Activity for Children and Adolescents:** PR: Admission to Sport and Exercise Science program and minimum overall 2.5 GPA. Develop effective instructional skills through planning, teaching, and assessment. Curricular and instructional considerations for physical activity in children and adolescents. *Fall, Spring.*

**PET 4763 ED-E&HS 3(3,0)**  
**Coaching Methods And Principles:** PR: Admission to Sport and Exercise Science program, Sport and Exercise Science Pending or Coaching Minor. Assist students in understanding and conceptually integrating teaching methods/coaching strategies with emphasis given to conditioning and leadership styles. *Fall, Spring.*

**PET 4901 ED-E&HS 3(3,0)**  
**Capstone in Sport and Exercise Science:** PR: Senior standing in Sport and Exercise Science program, minimum overall 2.5 GPA and Advisor Consent. Enhances students' oral and written presentation ability in issues and topics related to sport and exercise science. *Fall, Spring.*

**PET 4925 ED-E&HS 6(0,16)**  
**Sport and Fitness Practicum I:** PR: Overall GPA of 2.5 and completion of 1/3 of the Sport and Fitness program requirements. Field experience in a sport and fitness related organization. Graded S/U. *Fall, Spring.*

**PET 4926 ED-E&HS 9(9,0)**  
**Sport and Exercise Science Practicum:** PR: Senior standing in Sport and Exercise Science program, minimum 2.75 GPA and Advisor Consent. Field experience in a sport and exercise science organization, association, or business. Graded S/U. *Fall, Spring.*

**PET 5216 ED-E&HS 3(3,0)**  
**Motivational Aspects of Coaching:** PR: Graduate standing or C.I. Assist students to understand and conceptually integrate mental and physical performance, mental rehearsal, motivation, effort, persistence, adherence and compliance, measurement and evaluation, and other related topics of interest. *Occasional.*

**PET 5355 ED-E&HS 3(3,0)**  
**Exercise and Health:** PR: Admission to master's program or certificate program. Will provide educators an in-depth understanding of energy pathways, and neuromuscular, cardiovascular, and respiratory systems during exercise. Emphasis on understanding principles of exercise adaptations and applying those principles to fitness/wellness settings. *Occasional.*

**PET 5495 ED-E&HS 3(3,0)**  
**Critical Issues: Ethics in Coaching and Sport:** PR: Graduate standing or C.I. Specializes in coaching and sport leadership in self-evaluating, examining, and developing philosophy, values, and moral reasoning skills. *Occasional.*

**PET 5766 ED-E&HS 3(3,0)**  
**Advanced Coaching Theory:** PR: C.I. Advanced study of theories and methods of coaching for optimum sports performance. *Occasional.*

**PGY 2401C CAH-SVAD 3(3,2)**  
**Beginning Photography:** PR: ART 2201C, ART 2300C or C.I. Introduction to photography with an art emphasis. *Fall, Spring.* M&S fee \$45.00

**PGY 3002 CAH-SVAD 3(3,0)**  
**Contemporary Photography:** PR: PGY 2401C or C.I. Late 20th and 21st century (1970's-present) contemporary movements in photography, special emphasis on issues and ideas relative to contemporary image making. *Occasional.*

**PGY 3205C CAH-SVAD 3(2,4)**  
**Photographic Lighting Techniques:** PR: PGY 2107 (offered through Daytona State College) or equivalent. Advanced lighting techniques in both the studio and on location, with projects in the editorial, advertising, or fine art genres. *Occasional.* M&S fee \$70.00

**PGY 3276 CAH-SVAD 3(3,0)**  
**The Professional Environment:** PR: PGY 3002 or C.I. Concepts necessary for operation of a photography studio. Includes legal, ethical issues; marketing; self-promotion strategies; funding opportunities; professional development; and professional presentation. *Occasional.*

**PGY 3410C CAH-SVAD 3(3,2)**  
**Intermediate Photography:** PR: ART 2201C, ART 2203C, ART 2300C, ART 2301C, PGY 2401C. Intermediate camera and darkroom practice designed for art majors with studio skills. *Spring.* M&S fee \$49.00

**PGY 3451C CAH-SVAD 3(2,4)**  
**Alternative Processes:** PR: PGY 3472C or C.I. 19th century photographic processes with related contemporary non-traditional methods of image creation and presentation. *Occasional.* M&S fee \$45.00

**PGY 3472C CAH-SVAD 3(2,4)**  
**Photo Visualization:** PR: PGY 2000 (offered through Daytona State College) or equivalent. Analysis of visual problems with an emphasis on communicating and applying a theoretical language to photographic imagery. *Occasional.* M&S fee \$68.00

**PGY 3480 CAH-SVAD 3(3,0)**  
**Museum and Gallery Practices:** PR: PGY 3002 Contemporary Photography. The museum and gallery environment focusing on the acquisition and display of photographic materials and curatorial functions. The course includes a service learning component. *Occasional.*

**PGY 3610C COS-COMM 3(1,4)**  
**Photojournalism I:** PR: Journalism majors only. Digital photojournalism and visual storytelling, with emphasis on camera basics, composition skills, digital photo-editing skills, and caption writing skills. See instructor for minimal camera requirements. *Occasional.*

**PGY 3620C COS-COMM 3(1,2)**  
**Photojournalism II:** PR: PGY 3610C. The Picture Story. Individual and group projects for extended documentary coverage. *Occasional.*

**PGY 3651C CAH-SVAD 3(2,4)**  
**Narrative Editorial Photography:** PR: PGY 2650 (offered through Daytona State College) or equivalent. Explores photography in narrative, documentary, and editorial form. Research, story, text, and visual style will be addressed. *Occasional.* M&S fee \$70.00

**PGY 3653C CAH-SVAD 3(2,4)**  
**Advanced Editorial Photography:** PR: PGY 3651C. Exploration of imagery created to illustrate articles, including still-life, portrait, documentary, and/or fashion photography. Emphasis on the creation of multiple or consecutive images. *Spring.* M&S fee \$69.00

**PGY 3703C CAH-SVAD 3(2,4)**  
**Photography & the Web:** PR: PGY 3821C or C.I. Advanced issues in digital imaging, emphasis on professional output solutions for the photographer such as web as an interface, large format printing, and film recorder. *Occasional.* M&S fee \$45.00

**PGY 3751C CAH-SVAD 3(2,4)**  
**Videography:** PR: PGY 3821C or C.I. Creation of video narratives using the digital environment. *Occasional.*

**PGY 3821C CAH-SVAD 3(2,4)**  
**Advanced Digital Photography:** PR: PGY 2401C or C.I. Current digital imaging software and its application to contemporary work. *Occasional.* M&S fee \$69.00

**PGY 3933C CAH-SVAD 3(2,4)**  
**The Photo-book:** PR: PGY 2401C. The study and application of the major trends and movements that have shaped the photo-book genre since the birth of photography to the self-publishing boom. *Spring.*

**PGY 4003 CAH-SVAD 3(3,0)**  
**Image, Culture, and Society:** PR: PGY 3002 or C.I. The role of the media and media imagery in culture and society. *Occasional.*

**PGY 4228C CAH-SVAD 3(2,4)**  
**Advanced Illustrative Photography:** PR: PGY 3205C or C.I. Various avenues of photographic illustration, including lighting, historical and contemporary issues, style, presentation, and social concerns. *Occasional.* M&S fee \$70.00

**PGY 4235C CAH-SVAD 3(2,4)**  
**Professional Photographic Workshop:** PR: PGY 3205C. Creative, logistical, and technical processes as related to a variety of special lighting problems in the photographic studio and on location. *Occasional.* M&S fee \$70.00

**PGY 4420C CAH-SVAD 3(3,3)**  
**Advanced Photography:** PR: ART 2201C, ART 2203C, ART 2300C, ART 2301C, PGY 3410C, and a satisfactory portfolio review or C.I. Advanced photography skills and portfolio development. Designed for art majors. May be repeated for credit. *Fall, Spring.* M&S fee \$49.00

**PGY 4440C CAH-SVAD 3(3,3)**  
**Special Problems in Photography:** PR: ART 2201C, ART 2203C, ART 2300C, ART 2301C, PGY 3410C, and a satisfactory portfolio review or C.I. Designed for upper division art majors with photography concentration. A series of directed photographic problems of a research nature. *Occasional.* M&S fee \$20.00

**PGY 4471C CAH-SVAD 3(2,4)**  
**Photography Thesis:** PR: PGY 3276. Senior thesis project culminating in a public exhibition or portfolio presentation. *Occasional.* M&S fee \$68.00

**PGY 4493C CAH-SVAD 3(2,4)**  
**Photography and Art:** PR: PGY 3472C, or PGY 3002, or C.I. Creation of photographs related to the expression of personal, political, aesthetic, and theoretical issues and ideas found in historical and contemporary imagery. *Occasional.* M&S fee \$68.00

**PHY 3101H COS-PHYS 3(3,0)**  
**Honors General Physics Using Calculus III:** PR: PHY 2049C, MAC 2313, and consent of Honors. Same as PHY 3101 with honors-level content. *Fall, Spring*.

**PHY 3220 COS-PHYS 3(3,0)**  
**Mechanics I:** PR: PHY 2048C or PHY 2048H, MAP 2302. Particle dynamics, rigid bodies, Lagrangian formulation of mechanics, Hamilton's equations. *Spring*.

**PHY 3323 COS-PHYS 3(3,0)**  
**Electricity and Magnetism I:** PR: PHY 2049C, MAP 2302. Electrostatics, magnetostatics, Lorentz force current electricity, Maxwell's equations. *Fall*.

**PHY 3513 COS-PHYS 3(3,0)**  
**Thermal and Statistical Physics:** PR: PHY 3101 or PHY 3101H or C.I. Thermodynamics, kinetic theory, elements of statistical mechanics. *Fall*.

**PHY 3722C COS-PHYS 3(1,5)**  
**Physics Laboratory-Electronics:** PR: PHY 2049C. State-of-the-art electronics, transducers, operational amplifiers, phase sensitive circuits, active filters. *Occasional*. M&S fee \$20.00

**PHY 3752C COS-PHYS 3(1,5)**  
**Physics of Scientific Instruments:** PR: PHY 3101 or C.I. Applications, functions and operation of electronic instruments. *Occasional*. M&S fee \$28.00

**PHY 3802L COS-PHYS 3(1,5)**  
**Intermediate Physics Laboratory:** PR: PHY 3101 or C.I. Laboratory work in basic measurements of physical constants; experiments in electronics, modern physics, nuclear physics, optics, and solid state physics. May be repeated for credit. *Fall*.

**PHY 3945 COS-PHYS 1(2,0)**  
**Physics Pedagogy Seminar:** PR: PHY 2048C or PHY 2053C. Designed for students serving as Learning Assistants in the physics department and will help LAS to integrate educational theory, pedagogy and practice. Graded S/U. May be used in the degree program a maximum of 2 times. *Occasional*.

**PHY 4012 COS-PHYS 3(3,0)**  
**Teaching Introductory Physics:** PR: PHY 3101 or C.I. Students build specialized matter required for teaching introductory physics by reviewing variety of physics concepts integrated with coherent teaching methods. *Odd Spring*.

**PHY 4254 COS-PHYS 3(3,0)**  
**Physics of Fluids and Biofluids:** PR: PHY 3513, PHY 3323, and MAP 2302, or C.I. Ideal fluids; basic equation of fluid flow; viscous flow, instability and turbulence; thermal and mass transfers in fluids; biofluid mechanics of blood circulation. *Even Spring*.

**PHY 4324 COS-PHYS 3(3,0)**  
**Electricity and Magnetism II:** PR: PHY 3323. Dielectrics, magnetic materials, electromagnetic waves, reflection, complex impedance, static solutions to Laplace's Equation, radiation from an accelerated charge and antennae, special relativity. *Spring*.

**PHY 4424 COS-PHYS 3(3,0)**  
**Optics:** PR: PHY 3101 and PHY 3323. Wave optics, absorption, stimulated emission, lasers, transforms, coherence, holography. *Occasional*.

**PHY 4445 COS-PHYS 3(3,0)**  
**Lasers:** PR: PHY 3101, MAP 2302, PHY 4424, or C.I. Principles of laser gain media, properties of resonators and modes, and description of specific laser systems. *Occasional*.

**PHY 4604 COS-PHYS 3(3,0)**  
**Wave Mechanics I:** PR: PHZ 3113 and PHY 3220 Postulates of quantum mechanics, operators and observables, Schrodinger equation with simple applications. *Odd Fall*.

**PHY 4605 COS-PHYS 3(3,0)**  
**Wave Mechanics II:** PR: PHY 4604. Further applications of quantum mechanics, perturbation theory, scattering theory, identical particles. *Spring*.

**PHY 4803L COS-PHYS 3(1,5)**  
**Advanced Physics Laboratory:** PR: PHY 3802L. Experiments in optics, electronics, nuclear and solid state physics. Emphasis on design, data, and scientific writing. *Occasional*. M&S fee \$20.00

**PHY 5015C COS-PHYS 3(2,2)**  
**Physics for Teachers II:** PR: Graduate status or senior standing or C.I. "Hands-on" lecture-laboratory course. Dynamics, electricity, magnetism, optics, nuclear radiation. *Occasional*.

**PHY 5140C COS-PHYS 3(3,2)**  
**Ion-Solid Interactions:** PR: PHY 4604 or PHY 4324, graduate status or senior standing, or C.I. Physical principals and related scientific and technological applications of ion-solid interactions. *Occasional*.

**PHY 5255 COS-PHYS 3(3,0)**  
**Physics of Fluids and Biofluids:** PR: PHY 3513, PHY 3323, and MAP 2302 or C.I. Ideal Fluids; Basic equation of fluid flow; Viscous flow, instability and turbulence; Thermal and mass transfers in fluids, biofluid mechanics of blood circulation. *Even Spring*.

**PHY 5346 COS-PHYS 3(3,0)**  
**Electrodynamics I:** PR: PHY 4324, and graduate status or senior standing or C.I. Boundary value problems in electrostatics and magnetostatics. Maxwell's equations. EM fields in matter, wave generation and propagation; wave guides, resonant cavities. *Fall*.

**PHY 5524 COS-PHYS 3(3,0)**  
**Statistical Physics:** PR: PHY 3513, STA 3032, and graduate status or senior standing or C.I. A study of physical concepts and methods appropriate for the description of systems involving many particles. Ensemble theory, partition functions. Maxwell Boltzmann, Bose-Einstein, Fermi-Dirac statistics. *Spring*.

**PHY 5606 COS-PHYS 3(3,0)**  
**Quantum Mechanics I:** PR: PHY 4605, and graduate status or senior standing or C.I. Basic postulates of quantum mechanics, operators, eigenvalues, parity, potential wells, harmonic oscillator, time dependent and time independent Schrodinger equation, matrix formulation, and time independent perturbation theory. *Fall*.

**PHY 5704 COS-PHYS 3(3,0)**  
**Physics of Nanoelectronics Devices:** PR: Graduate standing or C.I. Fabrication techniques of nanoscale electronic devices and understanding of their charge transport properties. *Odd Fall*.

**PHY 5715 COS-PHYS 3(3,0)**  
**Physical Basis of Life:** PR: Graduate standing or C.I. Molecular and physical principles of origin of life, physical and chemical interpretation of life processes. *Fall*.

## UCF Courses and Descriptions

**PHY 5817L COS-PHYS 1(0,3)**  
**Building Physics Apparatus:** PR: Graduate standing or senior standing and C.I. Hands-on shop course. Focus will be machine shop practice with possible extension to printed circuit boards and glass work. *Occasional.* M&S fee \$45.00

**PHY 5933 COS-PHYS 3(3,0)**  
**Selected topics in biophysics of macromolecules:** PR: PHY 3101, CHM 2046, and graduate status or senior standing or C.I. Physical concepts and techniques used in the spectroscopic study of dynamic structure and function of biological macromolecules such as proteins; Connections with other complex systems. May be repeated for credit. *Occasional.*

**PHY 5937 COS-PHYS 3(0,3)**  
**Device Prototyping:** PR: Graduate standing or C.I. Fabrication and characterization of micro-scale devices, including micro-electrical-mechanical systems, sensors, optical devices and micro-fluidic devices. *Occasional.*

**PHZ 3113 COS-PHYS 3(3,0)**  
**Introduction to Theoretical Methods of Physics:** PR: MAP 2302. Analytical techniques to solve problems of physics. *Spring.*

**PHZ 3150 COS-PHYS 3(3,0)**  
**Introduction to Numerical Computing:** PR: MAC 2311C, or CI First exposure to computer as a calculation tool. Simple programming, problem-solving workflows, 2D and 3D visualization principles, logging, numerical methods and tools. Computer required. *Fall, Spring.*

**PHZ 3151 COS-PHYS 3(3,0)**  
**Computer Methods in Physics:** PR: PHY 3101. Non-analytical problems in physics and astronomy solved by approximation with computer assistance. *Occasional.*

**PHZ 3422 COS-PHYS 3(3,0)**  
**Nanophysics:** PR: PHY 3101 or C.I. Physical phenomena occurring in nanometer-length scale, including nano colloids, and nano transport. *Occasional.*

**PHZ 3462 COS-PHYS 3(3,0)**  
**Nanoscience I: The Science and Societal Impacts:** PR: (PHY 2049C or PHY 2054C) and (CHM 2045C or CHS 1440) Provides a broad view of nanoscience and the basic theoretical principles behind it, with special focus on fundamental properties and implications to society. *Fall.*

**PHZ 3464 COS-PHYS 3(3,0)**  
**Nanoscience II: Technological Applications:** PR: (PHY 2049C or PHY 2054C), and (CHM 2045C or CHS 1440) Provides a comprehensive summary of the most relevant experimental advances in nanoscience and their applications in current technologies as well as their potential for future emerging technologies. *Spring.*

**PHZ 3466 COS-PHYS 3(3,0)**  
**Nanoscience III: A Virtual Laboratory:** PR: (PHY 2049C or PHY 2054C) and (CHM 2045C or CHS 1440) The computational aspects of nanoscience. Students will model the nano-world using simulation software. *Fall.*

**PHZ 3601 COS-PHYS 3(3,0)**  
**Einstein's Theory of Relativity:** PR: PHY 2049. Einstein's special theory of relativity. Introduction to general relativity. *Occasional.*

**PHZ 4390 COS-PHYS 3(3,0)**  
**Nuclear and Particle Physics:** PR: PHY 4605 or C.I. The properties of the nuclei and the fundamental particles and how the universe is built from particles. *Occasional.*

**PHZ 4404 COS-PHYS 3(3,0)**  
**Solid State Physics:** PR: PHY 3101 or C.I. Atomic binding, crystalline structure, diffraction and reciprocal lattice, lattice vibration, phonons, electrons in solids, energy bands, semiconductors. *Occasional.*

**PHZ 4434 COS-PHYS 3(3,0)**  
**Nanoscale Surface Physics:** PR: PHY 3101 or C.I. Physical and chemical properties of nanoscale surfaces. *Even Fall.*

**PHZ 5156 COS-PHYS 3(3,0)**  
**Computational Physics:** PR: PHZ 3151 or C.I. Computational methods applied to the solution of problems in many branches of physics. May be repeated for credit. *Fall.*

**PHZ 5304 COS-PHYS 3(3,0)**  
**Nuclear and Particle Physics:** PR: PHY 4604 or equivalent, and graduate status or senior standing or C.I. Particles and nuclei, symmetries and conservation laws, interactions, models. *Occasional.*

**PHZ 5405 COS-PHYS 3(3,0)**  
**Condensed Matter Physics:** PR: PHY 4604, PHY 3101, and graduate status or senior standing or C.I. Crystal lattice cell structure, phonons, free electron model, band theory of solids, Fermi surface, solid state applications, and polymers. *Occasional.*

**PHZ 5425C COS-PHYS 3(3,3)**  
**Electron Solid Interactions:** PR: Undergraduate senior or graduate status or C.I. The physics and applications of electron interactions with solids. Classroom and hands-on laboratory content. *Occasional.*

**PHZ 5432 COS-PHYS 3(3,0)**  
**Introduction to Soft Condensed Matter Physics:** PR: PHY 3513 or C.I. Introduction to the physics of polymers, colloids, surfactants using basic tools of statistical mechanics. *Occasional.*

**PHZ 5437 COS-PHYS 3(3,0)**  
**Nanoscale Surface Physics:** PR: Undergraduate Quantum Mechanics at the level of PHY 4604 or C.I. Overview of physical and chemical properties of nanoscale surfaces. *Occasional.*

**PHZ 5505 COS-PHYS 3(3,0)**  
**Plasma Physics:** PR: PHY 4324, and graduate status or senior standing or C.I. Introduction to theory and experimental basis of both weakly and highly ionized plasmas. Instabilities, plasma waves, nonlinear effects, controlled thermonuclear fusion. *Occasional.*

**PHZ 5625 COS-PHYS 3(3,0)**  
**General Relativity:** PR: Graduate standing or C.I. Introduction to Einstein's theory of gravitation. *Odd Spring.*

**PLA 3014 HPA-LS 3(3,0)**  
**Law and the Legal System:** PR: ENC 1102. A survey course designed to familiarize the student with the American legal system, ethical considerations, terminology, legal reasoning, and the role of the legal assistant. *Fall, Spring.*

**PLA 3108 HPA-LS 3(3,0)**  
**Legal Research:** PR: or CR: PLA 3014, or C.I. A study of the various research tools used in legal investigation and the methods used to conduct legal research. *Fall, Spring.*

**PLA 3155 HPA-LS 3(3,0)**  
**Legal Writing:** PR: PLA 3108. A study of legal writing format and technique and the preparation of memoranda and other legal documents, using research skills learned in PLA 3108. *Fall, Spring.*

**PLA 3205 HPA-LS 3(3,0)**  
**Civil Practice and Procedure:** PR: or CR: PLA 3014 or C.I. The student becomes familiar with the Florida civil procedure before trial and acquires the ability to prepare basic pleadings. *Fall, Spring.*

**PLA 3277 HPA-LS 3(3,0)**  
**The Law of Torts:** PR: or CR: PLA 3014 or C.I. Theories governing liability for civil injuries not arising from contractual obligations; systems and procedures used in preparation, trial and appeal of torts cases. *Fall, Spring.*

**PLA 3306 HPA-LS 3(3,0)**  
**Criminal Law:** PR: ENC 1102 and Sophomore Standing. Basic concepts of substantive criminal law. The course includes examination of elements of major crimes, criminal responsibility, legal defenses, and parties to crime. *Fall, Spring.*

**PLA 3309 HPA-LS 3(3,0)**  
**Criminal Procedure:** PR: ENC 1102 and Sophomore Standing. Rules of criminal procedure, with emphasis on Florida rules, including right to counsel, bail, search and seizure, arrest, identification, trial, and post-trial proceedings. *Fall, Spring.*

**PLA 3615 HPA-LS 3(3,0)**  
**Property and Real Estate Law:** PR: or CR: PLA 3014 or C.I. Study of the law of real and personal property; real estate transactions and conveyances; closing procedures and title problems. *Fall, Spring.*

**PLA 3871 HPA-LS 3(3,0)**  
**Law and Technology: Drones and Artificial Intelligence:** PR: PLA 3014, or C.I. This course prepares students to critically analyze the law as a driver and inhibitor of technology by examining innovations in automated and unmanned aircraft. *Fall, Spring.*

**PLA 3871H HPA-LS 3(3,0)**  
**Honors Law and Technology: Drones and Artificial Intelligence :** PR: ENC 1102; Consent of Honors This course prepares students to critically analyze the law as a driver and inhibitor of technology by examining innovations in automated and unmanned aircraft. *Fall, Spring.*

**PLA 3951H HPA-LS 3(3,0)**  
**Honors Moot Court:** PR: Junior Standing and Consent of Honors, and C.I. Interdisciplinary course on selective principles of Constitutional Law, focusing on persuasive writing, oral advocacy, public speaking, and analytical skills through UCF's appellate advocacy/moot court tournament. *Fall.*

**PLA 4020 HPA-LS 3(3,0)**  
**Law and Society:** PR: or CR: PLA 3014, and PR: Junior Standing, or C.I. Examination of the relationship between law and American society including the impact on the legal system and legal profession of major social movements. *Occasional.*

**PLA 4022 HPA-LS 3(3,0)**  
**Contemporary Issues in Law:** PR: ENC 1102 and Junior Standing. Examine and analyze contemporary legal issues and interplay between state and federal law applications. Topics track current social legal issues. May be used in the degree program a maximum of 2 times only when course content is different. *Occasional.*

**PLA 4226 HPA-LS 3(3,0)**  
**Advanced Trial Advocacy:** PR: (PLA 4910 and Junior Standing) or C.I. Litigation and trials at an advanced level; students must handle a trial from beginning to end. May be repeated for credit. *Fall, Spring.*

**PLA 4240 HPA-LS 3(3,0)**  
**Negotiation Alternatives in Law:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Theories and skills involved in negotiation, mediation and other dispute resolutions processes. *Occasional.*

**PLA 4263 HPA-LS 3(3,0)**  
**Evidence:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. An examination of statutes and cases that define rules of evidence for trial courts. Primary emphasis is on the Florida Evidence Code. *Fall, Spring.*

**PLA 4410 HPA-LS 3(3,0)**  
**Intellectual Property Law and Practice:** PR: PLA 3014 and Junior Standing, or C.I. This course provides a comprehensive understanding of intellectual property law and practice based on the four areas of trademark, copyright, patent and trade secrets. *Fall, Spring.*

**PLA 4424 HPA-LS 3(3,0)**  
**The Law of Contracts:** PR: or CR: PLA 3014, and PR: Junior Standing, or C.I. Study of the basic law of contracts as developed in Anglo-American law and as changed by modern statutes, including the Uniform Commercial Code. Florida contract law will be emphasized. *Fall, Spring.*

**PLA 4436 HPA-LS 3(3,0)**  
**Florida Partnerships and Corporations:** PR: or CR: PLA 3014, and PR: Junior Standing, or C.I. Statutory requirements of Florida partnerships and corporations; creation and dissolution of business organizations; responsibilities of officers and basic rights of stockholders. *Fall, Spring.*

## UCF Courses and Descriptions

**PLA 4464 HPA-LS 3(3,0)**  
**Bankruptcy Law:** PR: or CR: PLA 3014, and PR: Junior Standing, or C.I. This course will acquaint the student with the substantive law and procedures associated with the rights and obligations of debtors and creditors. *Occasional.*

**PLA 4472 HPA-LS 3(3,0)**  
**Employment Discrimination Law:** PR: or CR: PLA 3014, and PR: Junior Standing, or C.I. Course will address employment discrimination based on race, gender, religion, national origin, age, disability and sexual orientation. Issues such as workplace harassment will be analyzed. *Occasional.*

**PLA 4485 HPA-LS 3(3,0)**  
**Administrative Law:** PR: or CR: PLA 3014, and PR: Junior Standing, or C.I. The law regarding governmental agencies with emphasis on the administrative process, Administrative Procedures Acts and special problems of state administrative law. *Fall, Spring.*

**PLA 4521 HPA-LS 3(3,0)**  
**World Hunger Morality & the Law:** PR: Junior Standing and C.I. Examine world hunger as a complex issue of sustainable human development, root causes and consequences of domestic and global hunger, and effect on legal systems. *Spring.*

**PLA 4530 HPA-LS 3(3,0)**  
**Legal Issues of the Elderly:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Legal concerns faced by older Americans as they plan their later years and seek to maximize their personal autonomy. *Occasional.*

**PLA 4554 HPA-LS 3(3,0)**  
**Environmental Law:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Environmental law and policy related to the protection of natural resources, including an examination of toxic pollutants, endangered species, and climate change. *Odd Fall, Odd Spring.*

**PLA 4583 HPA-LS 3(3,0)**  
**Cyber Law I:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Analysis of copyright, trademark, and patent issues in cyberspace. *Occasional.*

**PLA 4607 HPA-LS 3(3,0)**  
**Estates and Trusts:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. A study of wills and trusts, and applicable legal principles of administration of estates through the processes of the Probate Court. *Fall, Spring.*

**PLA 4609 HPA-LS 3(3,0)**  
**Estate Administration:** PR: (PLA 4607 and Junior standing) or C.I. Study of the laws and procedures applicable to administration of estates. *Occasional.*

**PLA 4703 HPA-LS 3(3,0)**  
**Professional Ethics and Liability:** PR: or CR: PLA 3014, and PR: Sophomore Standing, or C.I. Ethical responsibilities of professionals, canons of legal ethics, liability for professional malpractice. *Fall, Spring.*

**PLA 4734 HPA-LS 3(3,0)**  
**Advanced Legal Applications Computer Software:** PR: or CR: PLA 3014, and PR: Junior Standing, or C.I. Course will acquaint students with contemporary computer software applications used to satisfy the demands of today's law firms and law-related fields. *Occasional.*

**PLA 4764 HPA-LS 3(3,0)**  
**Law Office Practices:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Organization, operation and management of law office. Interviewing techniques and practical application of work that is done in a law office. *Occasional.*

**PLA 4806 HPA-LS 3(3,0)**  
**Domestic Relations Law:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. An in-depth study of family law focusing on divorce, custody, child support, alimony, adoption and other related matters with an emphasis on Florida law. *Fall, Spring.*

**PLA 4813 HPA-LS 3(3,0)**  
**Juvenile Law and Procedure:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Examines both the substantive and procedural law for juvenile delinquency and dependency. Emphasis on Florida law and comparison with other jurisdictions. *Occasional.*

**PLA 4823 HPA-LS 3(3,0)**  
**Sports Law:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Introduction to the legal issues and regulation of sports, focusing on torts, contracts, agency and constitutional law as applied to athletes. *Occasional.*

**PLA 4824 HPA-LS 3(3,0)**  
**Legal Issues for Athletic Trainers:** PR: ATR 3102 and Athletic Training major. Analysis of the legal issues affecting athletic trainers. *Occasional.*

**PLA 4825 HPA-LS 3(3,0)**  
**Entertainment Law:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Introduction to the control and regulation of the entertainment industry and the associated legal issues. *Occasional.*

**PLA 4830 HPA-LS 3(3,0)**  
**World Legal Systems:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. An examination of various legal traditions and systems of the World. Substantive and procedural laws will be examined. *Occasional.*

**PLA 4834 HPA-LS 3(3,0)**  
**Study Abroad: US/UK Comparative Law:** PR: PLA 3014. The structures of the legal systems of the United States and the United Kingdom. A comparative examination of the institutions, structure and sources of law in the Continental, Common Law and Anglo-American legal systems. *Occasional.*

**PLA 4843 HPA-LS 3(3,0)**  
**Immigration Law and Policy:** PR: PLA 3014, and Junior standing. Major topics in U.S. immigration law to include the statutory, historical, and procedural foundations of U.S. immigration law and policy. *Fall, Spring.*

**PLA 4861 HPA-LS 3(3,0)**  
**Aviation Law:** PR: PLA 3014 and Junior standing, or C.I. The law as it applies to aviation and aerospace activities domestically and internationally, including post-9/11 national aviation policy and emerging technologies (drones). *Fall, Spring.*

**PLA 4864 HPA-LS 3(3,0)**  
**Admiralty and Maritime Law:** PR: or CR: PLA 3014, and PR: Junior standing, or C.I. Admiralty jurisdiction and procedure including contracts for carriage of goods, seaman's contracts and claims, collision and salvage law, and wrongful death. *Occasional.*

**PLA 4910 HPA-LS 3(3,0)**  
**Trial Advocacy:** PR: PLA 4263 or C.I. Analysis of the entire litigation process from the initial client interview through the appellate stage, and development of oral advocacy skills. *Fall, Spring.*

**PLA 4935 HPA-LS 3(3,0)**  
**Capstone: Legal Issues:** PR: senior status, PLA 3155, Legal Studies major. The legal and socio-legal analysis of issues that require students to synthesize their legal studies education. Course will assist students entering employment or graduate education. *Fall, Spring.*

**PLA 5587 HPA-LS 3(3,0)**  
**Current Issues in Cyberlaw:** PR: Graduate standing or C.I. Advanced examination and discussion of free speech, copyright, trademark, patent and privacy issues in the online environment through interactive class discussions, online discussions, postings, case study reviews, and legal research projects. *Occasional.*

**POR 1120C CAH-LANG 4(3,1)**  
**Elementary Portuguese Language and Civilization I:** Introduces the student to Portuguese culture through the major language skills: listening, speaking, reading, and writing. Open only to students with no experience in this language. *Fall.*

**POR 1121C CAH-LANG 4(3,1)**  
**Elementary Portuguese Language and Civilization II:** PR: POR 1120C or C.I. Continuation of POR 1120C. The course emphasizes the four major language skills: reading, writing, listening, and speaking. *Spring.*

**POR 2200 CAH-LANG 3(3,0)**  
**Intermediate Portuguese I:** PR: POR 1120C or equivalent or C.I. Development of Portuguese language skills at the intermediate level. *Fall, Spring.*

**POR 2201 CAH-LANG 3(3,0)**  
**Intermediate Portuguese II:** PR: POR 2200 or equivalent or C.I. Continuation of POR 2200 with emphasis on Portuguese cultures. *Fall, Spring.*

**POR 3140 CAH-LANG 3(3,0)**  
**Accelerated Portuguese for Speakers of Romance Languages:** PR: FRE 2201, or ITA 2201, or SPN 2201, or course equivalent. Accelerated Portuguese for proficient speakers of Romance Languages. It is expected that students have no prior knowledge of Portuguese. *Occasional.*

**POR 3300 CAH-LANG 3(3,0)**  
**Portuguese Composition :** PR: POR 2201 or C.I. Enhance and develop student's ability to communicate in written Portuguese. *Spring.*

**POR 3301 CAH-LANG 3(3,0)**  
**Advanced Portuguese Grammar and Composition:** PR: POR 2201 or C.I. Develop student's proficiency in reading and writing of the Portuguese Language. *Fall.*

**POR 3413 CAH-LANG 3(3,0)**  
**Advanced Portuguese Oral Communication :** PR: POR 2201 or C.I. Develop student's skills at an advanced level, focusing substantially on speaking and listening activities. *Spring.*

**POR 3440 CAH-LANG 3(3,0)**  
**Business Portuguese:** PR: POR2201 or C.I. Prepares students for careers in business and other professions involving business activities in Portuguese-speaking environments around the world and in the U.S. *Occasional.*

**POR 3450 CAH-LANG 3(3,0)**  
**Luso-Afro-Brazilian Triangle :** PR: POR 3301 or POR 3300 or POR 3413 or C.I. Examines three historical components of the South Atlantic in terms of history, culture, and contemporary political and economic consequences as these influence Lusophone literature. *Occasional.*

**POS 2012 COS-POLS 1(1,0)**  
**Working in Politics:** PR: ENC 1101, or CI. Prepares students for the practical elements of working in politics. Offers professional development in areas such as communication, resume writing, and confidentiality among others. *Fall, Spring.*

**POS 2041 COS-POLS 3(3,0)**  
**American National Government:** A study of the dynamics of American national government, including its structure, organization, powers, and procedures. *Fall, Spring.*

**POS 2041H COS-POLS 3(3,0)**  
**Honors American National Government:** PR: Permission of Honors. Same as POS 2041 with honors-level content. *Occasional.*

**POS 3076 COS-POLS 3(3,0)**  
**American Indian Politics:** PR: POS 2041 or C.I. Politics and policies specific to indigenous peoples of the United States. *Occasional.*

**POS 3122 COS-POLS 3(3,0)**  
**State Government and Public Policy:** PR: POS 2041 or C.I. A comparative study of American state governments, political processes, and public policies, with emphasis on Florida. *Occasional.*

## UCF Courses and Descriptions

**POS 3122H COS-POLS 3(3,0)**  
**Honors State Government and Public Policy:** PR: POS 2041 or C.I. and permission of Honors. A comparative study of American state governments, political processes, and public policies, with emphasis on Florida. With Honors content. *Occasional.*

**POS 3173 COS-POLS 3(3,0)**  
**Southern Politics:** PR: POS 2041 or C.I. Study of southern politics past and present. Emphasis on factors effecting changes in the region and the states. Southern and national relationship examined. *Occasional.*

**POS 3182 COS-POLS 3(3,0)**

**SPW 4720 CAH-LANG 3(3,0)**  
**The Generation of 1898:** PR: SPW 3101 or C.I. A study of the generation's main authors and their works. *Occasional*.

**SPW 4730 CAH-LANG 3(3,0)**  
**Hispanic Literature of the United States:** PR: SPW 3101 or SPW 3131 or C.I. Reading and study of outstanding works written by Hispanic writers of the United States. *Occasional*.

**SPW 4770 CAH-LANG 3(3,0)**  
**Caribbean Spanish Literature:** PR: SPW 3101 or SPW 3131 or C.I. An overview of the literature of the Spanish-speaking Caribbean countries from colonial times to the present. *Occasional*.

**SPW 4773 CAH-LANG 3(3,0)**  
**Puerto Rican Literature:** PR: SPW 3100 and SPW 3101 or SPW 3130 and SPW 3131. Puerto Rican Literature from XIX Century to present. Conducted in Spanish. *Occasional*.

**SPW 5741 CAH-LANG 3(3,0)**  
**Contemporary Spanish American Southern Cone Literature:** PR: Enrolled in Spanish M.A. Program or C.I. Regional as well as international literary cultures and disciplines in southern cone literature. *Occasional*.

**SSE 3312 ED-TL&L 3(3,0)**  
**Teaching Social Science in the Elementary School:** PR: EDG 4410 or C.I. Selected themes, problems, and concepts; organizing for instruction; techniques; evaluation procedures. *Fall, Spring*.

**SSE 4323 ED-TL&L 3(3,0)**  
**Teaching Civics in Florida:** PR: POS 2041 and admission to Civics Teaching Certificate. Pedagogical skills for teaching civics including state mandates for teaching middle school civics and preparing middle school students for the Civics End of Course Assessment. *Spring*.

**SSE 4361 ED-TL&L 3(3,0)**  
**Social Science Instructional Analysis:** PR: EDG 4410 and SSE 4936. CR: SSE 3940. Analysis of secondary (grades 6-12) social science instructional programs including development of objectives, materials, processes, and assessment procedures in light of current research and practice. *Fall, Spring*.

**SSE 4395 ED-TL&L 3(3,0)**  
**Teaching with Primary Sources:** PR: Minimum 2.5 overall GPA. This course focuses on the creation, teaching, and evaluation of effective instructional practices that integrate primary sources into the teaching of social studies content. *Occasional*.

**SSE 4936 ED-TL&L 3(3,0)**  
**Programs in Teaching Social Science:** PR: Admission to the Bachelor of Science in Social Science Education program. Special programs, strategies, and materials for middle and secondary social science majors. *Fall*.

**SSE 5391 ED-TL&L 3(3,0)**  
**Global Education: Theory and Practice:** PR: Graduate standing or C.I. Examines the theoretical underpinnings of teaching about the world along with a variety of theoretically grounded teaching strategies for engaging students in global education. *Spring*.

**SSE 5776 ED-TL&L 3(3,0)**  
**Democracy and Education:** PR: Graduate standing or C.I. Explores the intersection of theory and practice with regard to promoting democratic life in schools. Will examine competing theories of democracy and education, investigate problem areas in schools related to democracy, and consider examples of practice. *Fall*.

**SSE 5790 ED-TL&L 3(3,0)**  
**Inquiry and Instructional Analysis in Social Science Education:** PR: EDG 6415 or admission to Teacher Leadership MEd program or Initial Teacher Professional Preparation certificate. Study of instructional programs in social science education and related scholarship; development of an inquiry about the intersection of theory and practice in social science teaching. *Occasional*.

**STA 1063C COS-STAT 3(2,1)**  
**Basic Statistics Using Microsoft Excel:** Applications of Excel; manipulating data; single variable graphs and statistics; scatterplots; probability distributions; statistical inference. *Fall, Spring*.

**STA 2014C COS-STAT 3(2,1)**  
**Principles of Statistics:** Introduction to statistical concepts in modern society. Basic principles, frequency distributions, measures of location and dispersion, probability, statistical inference. The "NC" grading policy applies to this course. *Fall, Spring*.

**STA 2023 COS-STAT 3(3,0)**  
**Statistical Methods I:** PR: MGF 1106 or any other MAC course. First methods course introducing probability and statistical inference, including estimation, hypothesis testing, binomial and normal distributions, sample size. *Fall, Spring*.

**STA 2023H COS-STAT 3(3,0)**  
**Honors Statistical Methods I:** PR: Permission of Honors; Calculus desired by not necessary. Same as STA 2023 with honors-level content. *Fall, Spring*.

**STA 3032 ECS-IEMS 3(3,0)**  
**Probability and Statistics for Engineers:** PR: MAC 2312 with a grade of "C" (2.0) or better. Axioms of probability; combinatorial and geometrical probability; probability distributions; measures of location and dispersion; sampling and sampling distributions; estimation and tests of hypotheses; engineering applications. *Fall, Spring*.

**STA 3032H ECS-IEMS 3(3,0)**  
**Honors Probability and Statistics for Engineers:** PR: MAC 2312 with a grade of "C" (2.0) or better and honors standing. Fundamental probability and statistics principles, the underlying assumptions, the procedures for implementing and interpreting them. With honors content. *Fall, Spring*.

**STA 4102 COS-STAT 3(3,0)**  
**Computer Processing of Statistical Data:** PR: STA 4163 and knowledge of a programming language. Use of packages such as SAS, BMD, SPSS for data validation, description and analysis of data, regression and analysis of variance and covariance. *Fall*.

**STA 4130 COS-STAT 3(3,0)**  
**Life Contingencies I:** PR: STA 4183 (or old number STA 3183). Economics of insurance, utility theory, single premiums for insurance and annuities in both discrete and continuous cases. Net annual premium and net premium reserves. *Fall*.

**STA 4131 COS-STAT 3(3,0)**  
**Life Contingencies II:** PR: STA 4130 (or old number STA 3130). Multiple-decrement and multi-life models. Insurance models including expenses. Modified reserves. Cash values, insurance options and asset shares. Non forfeiture benefits and dividends. *Spring*.

**STA 4133 COS-STAT 3(3,0)**  
**Loss Models I:** PR: MAC 2313 and STA 4322. Distributional quantities, characteristics of actuarial models, continuous models, discrete distributions, frequency and severity with coverage modifications, aggregate loss models, estimation for modified data, frequentist estimation. *Fall*.

**STA 4135 COS-STAT 3(3,0)**  
**Loss Models II:** PR: STA 4133. Frequentist estimation for discrete distributions, Bayesian estimation, model selection, simulation, credibility for aggregate losses, pure premiums and loss ratios, EPV, VHM, Buhlmann and Buhlmann-Straub credibility. *Spring*.

**STA 4163 COS-STAT 3(3,0)**  
**Statistical Methods II:** PR: STA 2023 or STA 3032. Not open to students with credit in STA 4165. Methods of analyzing data, statistical models, estimation, tests of hypotheses, regression and correlation, an introduction to analysis of variance, chi-square, and nonparametric methods. *Fall, Spring*.

**STA 4163H COS-STAT 3(3,0)**  
**Honors Statistical Methods II:** PR: STA 2023H; Consent of Honors Methods of analyzing data, statistical models, estimation, tests of hypotheses, regression and correlation, introduction to analysis of variance, and nonparametric methods. With honors content. *Occasional*.

**STA 4164 COS-STAT 3(3,0)**  
**Statistical Methods III:** PR: STA 4163. A continuation of STA 4163, including further study of regression, analysis of variance and covariance and multiple comparisons. *Fall, Spring*.

## UCF Courses and Descriptions

**STA 4173 COS-STAT 3(3,0)**  
**Biostatistical Methods:** CR: STA 4163 or C.I. Applied statistical principles and methods applied to problems in medical, biological, and health sciences. *Occasional.*

**STA 4183 COS-STAT 3(3,0)**  
**Theory of Interest:** PR: MAC 2312 (or equivalent) and STA 2023. Measurement of simple and compound interests, accumulated and present values factors. Annuities certain, yield rates, amortization schedules and sinking funds. Bonds, securities and related funds. *Fall.*

**STA 4184 COS-STAT 3(3,0)**  
**Introduction to Derivative Markets:** PR: STA 4183 or C.I. Cash flow and profit for simple options and forwards, hedging strategies, Black-Scholes option pricing, simple swaps, portfolio management with derivatives, duration analysis, callable bonds. *Spring.*

**STA 4186 COS-STAT 3(3,0)**  
**Theory of Derivative Pricing:** PR: STA 4184 or C.I. Assumptions of derivative pricing, put-call parity, binomial pricing, market making, delta hedging, exotic options, distributions, Monte Carlo distributions, Brownian motion, interest rate models. *Spring.*

**STA 4222 COS-STAT 3(3,0)**  
**Sample Survey Methods:** PR: STA 2023 or STA 3032. Constructing and analyzing survey designs. Sampling and non-sampling errors. Simple random, stratified, systematic, and multiphase sampling. Methods of estimation. *Occasional.*

**STA 4321 COS-STAT 3(3,0)**  
**Statistical Theory I:** PR: STA 2023 or STA 3032; CR: MAC 2313. Probability axioms, discrete and continuous sample spaces, conditional probability, independence, one-dimensional random variables, moment generating functions, transformations, jointly distributed random variables. *Fall.*

**STA 4322 COS-STAT 3(3,0)**  
**Statistical Theory II:** PR: STA 4321. Conditional distributions, sums of random variables. Chebyshev's inequality, central limit theorem, method of moments, maximum likelihood, confidence intervals, hypothesis testing, transformations of two random variables. *Spring.*

**STA 4502 COS-STAT 3(3,0)**  
**Nonparametric Statistical Methods:** PR: STA 2023 or STA 3032. Distribution-free tests on location and dispersion, goodness of fit tests, tests of independence, measures of association, nonparametric analysis of variance. *Occasional.*

**STA 4504 COS-STAT 3(3,0)**  
**Categorical Data Analysis:** PR: STA 4163. Two-way and three-way contingency tables, odds ratios, partial association, logistic regression and log linear models. *Occasional.*

**STA 4641 COS-STAT 3(3,0)**  
**Risk Theory and Decision:** PR: STA 4322. Individual and collective risk models for short terms and for extended periods, applications of risk theory to actuarial problems. Risk factors and their financial effects. *Occasional.*

**STA 4664 COS-STAT 3(3,0)**  
**Statistical Quality Control:** PR: STA 2023 or STA 3032. Statistical concepts and methods applied to the control of quality of manufactured products. *Occasional.*

**STA 4674 COS-STAT 3(3,0)**  
**Life Testing Analysis:** PR: STA 4322. Models of survival analysis including random and non-random censoring and truncation. Parametric estimation of life distribution. Nonparametric methods. Grouped data. *Occasional.*

**STA 4852 COS-STAT 3(3,0)**  
**Applied Time Series:** PR: STA 4163. Forecasting methods, time series analysis, stationary and nonstationary time series, ARIMA models, forecasting processes. *Occasional.*

**STA 5104 COS-STAT 3(3,0)**  
**Advanced Computer Processing of Statistical Data:** PR: STA 4163 and knowledge of a programming language, graduate status or senior standing, or C.I. Use of SAS and other statistical software packages; data manipulation; graphical data presentation; data analysis; creating analytical reports. *Fall.*

**STA 5176 COS-STAT 3(3,0)**  
**Introduction to Biostatistics:** PR: STA 4163 or STA 4173, graduate status or senior standing, or C.I. Fixed-effects model, random-effects model, repeated measures design, logistic regression, survival analysis, Kaplan-Meier estimates, proportional hazards model. *Occasional.*

**STA 5205 COS-STAT 3(3,0)**  
**Experimental Design:** PR: STA 4164, STA 5206 or ESI 5219, and graduate status or senior standing, or C.I. Construction and analysis of designs for experimental investigations. Blocking, randomization, replication; incomplete block designs; factorial and fractional designs; design resolution. *Spring.*

**STA 5206 COS-STAT 3(3,0)**  
**Statistical Analysis:** PR: STA 2023; not open to students who have completed STA 4164. Graduate status or senior standing or C.I. Data analysis; statistical models; estimation; tests or hypotheses; analysis of variance, covariance, and multiple comparisons; regression and nonparametric methods. *Fall.*

**STA 5505 COS-STAT 3(3,0)**  
**Categorical Data Methods:** PR: STA 4163 or STA 5206, and graduate status or senior standing or C.I. Considers discrete probability distributions, contingency tables, measures of association, and advanced methods, including loglinear modeling, logistic regression, McNemar's Test, Mantel-Haenszel test. *Occasional.*

**STA 5703 COS-STAT 3(3,0)**  
**Data Mining Methodology I:** PR: STA 5104 and STA 5206, graduate status or senior standing, or C.I. Supervised data mining tools including boosting trees, SV machine, regression, and neural network will be covered. The Enterprise Miner (R or Python) will be used. *Fall.*

**STA 5825 COS-STAT 3(3,0)**  
**Stochastic Processes and Applied Probability Theory:** PR: STA 4321, and graduate status or senior standing or C.I. Conditional probability and conditional expectations, sequences of random variables, branching processes, random walks, Markov chains, recurrent events, renewal theory, queueing theory, and simple stochastic processes. *Spring.*

**SYA 3110 COS-SOC 3(3,0)**  
**Social Theory:** PR: SYG 2000 or C.I. Examines major theoretical perspectives in sociology, from foundational theories that contributed to the development of the discipline to today. *Fall, Spring.*

**SYA 3352 COS-SOC 3(3,0)**  
**Spatial Sociology I: Intro to GIS:** PR: SYG 2000 or SYG 2010. The basics of GIS as it applies to issues in society including, but not limited to those related to criminology, medical, urban, and environmental sociology. *Fall.*

**SYA 3400C COS-SOC 4(3,1)**  
**Applied Social Statistics:** PR: Junior standing and grade of "C" (2.0) or better in SYG 2000. Sociology or Social Sciences majors only, or C.I.; CR: SYA 4300C required. Application of statistical techniques to sociological data as conducted in the research and writing of social scientists. Focus is on the analysis and interpretation of data used by sociologists. *Fall.*

**SYA 4300C COS-SOC 4(3,2)**  
**Research Methods:** PR: Junior standing and grade of "C" (2.0) or better in SYG 2000. Sociology or Social Sciences majors only, or C.I. Sociological data collections, sampling techniques, proposal development, critical evaluation of social research, and relationship between theory and social research. *Fall.*

**SYA 4310C COS-SOC 4(3,1)**  
**Qualitative Research Analysis in Sociology:** PR: SYA 4300C. Advanced research design and analysis focusing on qualitative research methodologies in sociology. Emphasizes data collection, management, analysis, interpretation, integration, presentation, and report writing. *Occasional.*

**SYA 4354 COS-SOC 3(3,0)**

**Accreditation:** certification that the college/school or program has met established standards and is nationally recognized by appropriate accrediting agencies.

**ACT:** American College Testing program is used for undergraduate admission purposes.

**Add:** online procedure used to alter class schedules after registration. During this time, students can adjust their schedules through myUCF (<https://my.ucf.edu>) by adding courses. Students should check the appropriate term's Web Enrollment Guide for details.

**A.S.:** associate in science degree. A broad-based degree designed to prepare students to enter a wide variety of careers.

**ASSA:** Academic Services for Student Athletes.

**Audit (course):** to attend classes without receiving academic credit.

**Audit (Degree):** computerized summary of progress toward completion of degree requirements to be used with academic advising and registration. Available from myUCF at <https://my.ucf.edu>. (See also "Degree Audit")

**BA:** Business Administration. This abbreviation appears in the listing of courses and refers to the College of Business Administration (CBA). Also see Bachelors Degree.

**Baccalaureate or Bachelors Degree:** completion of all University and major graduation requirements as certified by the University (B.A. is the Bachelor of Arts degree and B.S. is the Bachelor of Science degree).

**BHC:** Burnett Honors College

**Breaking Catalog:** loss of eligibility to follow graduation requirements in a specific catalog.

**BSBS:** Burnett School of Biomedical Sciences within the College of Medicine.

**CAH:** College of Arts and Humanities.

**Catalog:** resource for UCF academic policies and procedures, college/school and degree requirements, course descriptions and faculty listings. It is published annually and its contents are subject to change. Available online at <http://www.catalog.sdes.ucf.edu>.

**Catalog Year:** the edition of the University catalog that governs graduation requirements for a particular academic year.

**CBA:** College of Business Administration.

**CECS:** College of Engineering and Computer Science.

**CEDHP:** College of Education and Human Performance.

**Certificate:** special program of study supplemental to a major.

**CI:** consent of instructor.

**Class Schedule Search:** a component of the online myUCF system (at <https://my.ucf.edu>) that lists courses and class sections offered each academic term.

**COHPA:** College of Health and Public Affairs.

**College:** collection of related academic departments. There are thirteen colleges at UCF: Burnett Honors College (BHC), Arts and Humanities (CAH), Business Administration (CBA), Education and Human Performance (CEDHP), Engineering and Computer Science (CECS), Graduate Studies, Health and Public Affairs (COHPA), Medicine (COM), Nursing, Optics and Photonics (CREOL), Sciences (COS), Undergraduate Studies, and Rosen College of Hospitality Management (RCHM).

**COM:** College of Medicine.

**Common Course Numbering:** the statewide course numbering system (SCNS) uses a course designation that consists of a 3-letter prefix and a 4-digit number and when necessary a one-letter laboratory (L) or lecture/laboratory (C) suffix.

**Common Program Prerequisite:** the State of Florida has identified Common Program Prerequisites for all University programs. These prerequisites must be completed by all students entering that field of study, must be accepted by all state universities and must be applied towards the degree.

**Contact hours:** number of hours students meet in class.

**Continuous Enrollment:** enrollment not interrupted by non-attendance for either consecutive Fall and Spring terms, or consecutive Spring, Summer term, and Fall.

**COS:** College of Sciences.

**CR:** co-requisite is an additional course in which you must enroll during the same term as the primary course you desire to take.

**Credit Hour or Semester Hour:** every course taught is designated a total number of credit hours. The number of credit hours for a class reflects approximately the total hours a student spends per week in class. Most lecture courses are three credit hours and meet three hours each week. Students should expect to spend at least two hours of study time outside of class for every hour spent in class. One semester hour equals 1.5 quarter hour.

**Degree Audit:** a computerized degree audit lists courses completed toward major and degree requirements.

**Diploma:** official certificate displaying earned degree, major and baccalaureate honors.

**Directory Information:** information items that the Family Educational Rights and Privacy Act of 1974, as Amended (FERPA) authorizes the University to release without the student's prior consent, unless the student has filed a "Directory Disclosure/Release Authorization Form" with the Registrar's Office. Directory information at UCF includes the student's name, current mailing address, telephone number, date of birth, enrollment status, dates of attendance, major field of study, degree and awards received, participation in officially recognized activities and sports, and athletes' height and weight.

**Disqualified:** a student on academic probation who fails to achieve a minimum 2.0 UCF GPA during a subsequent term is disqualified. A student who is disqualified may not enroll at the University for two terms following disqualification. Readmission after two terms is not automatic.

**Distance and Distributed Learning:** learning online through the UCF Virtual Campus, which provides opportunities for students to enroll in credit courses and select degree programs through a variety of interactive distributed technologies.

**Double Major:** awarded when the student concurrently satisfies requirements for two majors.

**Drop/Swap:** a student may drop or swap a course(s) during the official Drop/Swap period. A dropped course will not appear on the student's permanent record. Students are not fee liable for dropped courses.

**Elective:** any course not required as part of the General Education Program or as part of your major/minor.

**Email:** primary official means of communication with students regarding University business and information.

**Enrollment:** the act of registering in classes. This may be done through myUCF at <https://my.ucf.edu> and, in limited circumstances, at the colleges' advising offices.

**Enrollment Certification:** an official University document that provides a student's enrollment history including status, dates enrolled, and degrees awarded, available online at <https://my.ucf.edu> in Student Self Service.

**Equipment Fee:** a charge associated with some majors to cover the use and replacement of equipment.

**Excess Credit Hour Surcharge:** a surcharge to each credit hour taken in excess of the total number of credit hours required to complete the degree being pursued. The amount in excess of the total hours is calculated based on a percentage defined in statute and is referred to by the University of Central Florida as baseline hours limit.

**Excluded:** a student readmitted following disqualification who fails to achieve a minimum 2.0 GPA during a subsequent term is excluded from the University. Students are not eligible for readmission after exclusion. See "Readmission" for details.

**Fee Invoice:** a printout of courses for which the student has registered that lists each specific course, its meeting time(s) and day(s). The amount of tuition and fees due for all courses registered and the payment deadline date also is indicated. Available online at <https://my.ucf.edu> in Student Self Service.

**Freshman and Sophomore Courses:** lower level courses with common course numbers ranging from 1000-2999 (e.g., ENC 1101, English Composition I). Generally, freshmen should enroll in 1000 and 2000 level courses.

**FTIC:** abbreviation for "First Time In College," referring to those students who currently are in their first term as a UCF college student after high school.

**Full-Time Course Load:** for undergraduates, a minimum of 12 credits in the fall and spring and summer terms.

**FYAE:** First Year Advising and Exploration.

**FYE:** First Year Experience.

**GEP:** General Education Program: Specific courses required for all UCF degree programs providing skills and knowledge in general subject areas essential to continued learning and success, not only in college but throughout the student's life.

**Gordon Rule:** requires students to complete four composition courses (12 semester hours) and two courses (six semester hours) of mathematics at the level of college algebra or higher. Each course must be completed with a grade of "C-" (1.75) or better.

**GPA:** "Grade Point Average": the average number of grade points per semester hour attempted. GPA is computed by dividing the total number of grade points assigned by the total number of semester hours attempted, less hours resulting from NC, W, WP, and I grades.

## UCF Glossary

**Grade Forgiveness:** refers to when a course taken at UCF is repeated, and for grade point average purposes, the grade earned in the first attempt is replaced by the grade earned in the second attempt at UCF (may be used only twice in the student's academic career).

**Grade Point Deficiency:** for readmission purposes only, this term is defined as the number of UCF credit hours earned with a "B" (3.0 GPA) grade that a student requires to raise his or her UCF cumulative grade point average to 2.0. A student's grade point deficiency is calculated when the student applies for readmission.

**Health Form:** documentation of immunity for measles and rubella, as well as consent for treatment at the University Health Center (must be completed and returned to Student Health Services prior to the first registration).

**Hold:** also called a "negative service indicator", this is a block on activity for transcripts, grades, diploma, or registration because of financial or other obligations to UCF.

**Incomplete:** grade assigned by the instructor when a student is unable to complete a course due to extenuating circumstances. Must be completed in 12 months or by graduation, whichever comes first.

**Junior and Senior Courses:** upper level courses with common course numbers ranging from 3000-4999 (e.g., ENG 3311, Advanced Expository Writing).

**Kiosk:** stand-alone PCs located in UCF public areas providing access to student records and general information.

**Limited Access:** a major that has additional admission requirements (e.g. early application date, a separate application, or specific GPA requirements). Certain academic programs designated as "limited access" only guarantee admission to a limited number of applicants.

**Lower Level Courses:** courses with a number of 1000-2999 (not less than 1000).

**Major:** group of related courses that constitute a focused program of study in a specific area of knowledge.

**MASS:** Multicultural Academic and Support Services

**Material and Supply Fee:** a charge associated with some courses to cover items consumed within the class.

**Matriculation:** enrollment and attendance your initial term at UCF. Can be as an admitted, degree-seeking student or as a nondegree student.

**MEP:** Major Exploration Program to assist students who are undecided about a major.

**Minor:** a complement to a bachelor's degree program/ major requiring at least 18 credit hours in a field.

**mySchedule Builder:** a course scheduling tool designed to allow students to plan their class schedules around their life commitments. It allows students to review and compare every possible class schedule.

**myUCF:** the UCF/student information portal online at <https://my.ucf.edu>. myUCF is a powerful, security-encrypted, personal identification and Password-access information system that will facilitate a variety of transactions in which students will engage at UCF. In myUCF, students may obtain a list of current holds, change the Password, sign up for a Knights Email account, telephone number, and permanent/mailling addresses; search for courses each term; register, drop/swap and add courses each term; withdraw from courses following the close of Late Registration and Drop/Swap, print the "Degree Audit," obtain the registration appointment day and time for each term, print

a "Fee Invoice," pay fees by credit card, gain access to financial aid and accounts receivable information; obtain the term final grades, and a list of current courses.

**NID:** Network Identification Number that students use to log in to web courses and UCF computer labs and, since July 1, 2014, when logging into myUCF or the UCF Information Kiosks.

**Nursing:** College of Nursing.

**Overall GPA:** cumulative GPA of UCF and transfer course work.

**Password:** a series of four to eight characters and numbers chosen by the student that is associated with the NID (Network Identification Number). Each time you use the NID to enter myUCF, you also will enter your password.

**Pending Status:** category assigned to students who desire to enter limited or restricted access programs. Typically, students are required to complete the GEP and all major pre-requisites prior to admission into the desired limited access program. (Department will change student's status upon acceptance into the program.)

**PR:** prerequisite refers to a specific course that must be taken and passed prior to enrolling in the primary course the student desires to take.

**Probation:** action taken when a student's UCF overall GPA drops below 2.0.

**Readmission:** reapply to the Registrar's Office after an absence of two or more terms.

**Registration:** the act of enrolling in classes. This may be done through myUCF at <https://my.ucf.edu> and, in limited circumstances, at the colleges' advising offices.

**Repeat Surcharge:** additional fee applied when a student enrolls in the same course three or more times.

**Restricted Access:** a major that has additional admission requirements (e.g. early application date, a separate application or specific GPA requirements). There is no limit to the number of students who can be enrolled. Students meeting the specified requirement(s) normally will be admitted.

**Restricted Electives:** a specified group of courses within a major from which students must make selections.

**Retention:** a term used to describe students' continued enrollment at the University until successful completion of their educational goals.

**RCHM:** Rosen College of Hospitality Management

**SARC:** Student Academic Resource Center provides academic support programs, including supplemental instruction, tutoring, academic advising, and various other programs and services to students.

**SAT:** Scholastic Assessment Test is an assessment used for University admission purposes.

**Satisfactory Academic Progress:** a general eligibility requirement for financial assistance. (see the "Student Financial Assistance" section of this Undergraduate Catalog.)

**Second Bachelors Degree:** awarded when the student meets the requirements for both degrees and earns a minimum of 150 credit hours.

**Section:** refers to one of several offerings of the same course scheduled at different days of the week and hours of the day. For example: There may be 40 different sections of ENC 1101 offered within a term.

**Sequence:** a series of courses within the same subject area. Generally, the student takes these courses in numerical order (e.g., PHY 2053 then 2054). Students should consult the advisor before registering out of sequence.

**STEP:** State Tuition Exemption Program

**Student Success Center:** advising offices and other academic support services for first-year students located on the first two floors of Howard Phillips Hall.

**SUS:** State University System. All twelve Florida public universities are part of the SUS.

**Term:** the academic year at UCF is divided into segments called "terms" (also called "semesters"). Each lasts approximately 16 weeks. Some universities break the year into fourths and call them "quarters." UCF is on the semester system; however, we usually speak of "Fall Term," "Spring Term," or "Summer Sessions."

**Term GPA:** grade point average (GPA) on work attempted during any given term.

**Third Attempt Charge:** see "Repeat Surcharge."

**Track:** one of two or more significant variations in a degree program or major. Approximately 50% of the courses in one track differ from the courses required in other tracks.

**Transcript:** official academic record mailed from the Registrar's Office.

**TSD:** Accelerated education opportunities.

**TSR:** Transfer Summary Report is a listing of all coursework transferring to the University for credit. A preliminary TSR is generated at the time of acceptance. A final TSR is processed after all final transcripts have been received by the Admissions Office.

**Transient Student:** a UCF student enrolled in courses at another regionally-accredited institution.

**UCF Regional Campus System:** UCF Altamonte Springs, UCF Cocoa, UCF Daytona Beach, UCF Leesburg, UCF Ocala, UCF Palm Bay, UCF Sanford/Lake Mary, UCF South Lake, UCF Valencia East, UCF Valencia Osceola, and UCF Valencia West.

**UCF GPA:** grade point average (GPA) on all work attempted while in attendance at UCF.

**UCF ID:** (UCF IDentification number): personal seven-digit number required as a unique identifier for each student.

**Upper Level Courses:** courses with a course number of 3000-4999.

**VARC:** Veterans Academic Resource Center providing GI Bill educational benefit certification and academic support programs, including supplemental instruction, tutoring, academic advising, career advising, student accommodation services, counseling services, and various other programs and services for student veterans.

**Withdrawal, Withdraw from a Course:** to formally request an official departure from one or more courses during the first half of the term or session through myUCF (<https://my.ucf.edu>) or at the Registrar's Office. Students who withdraw from a class are still responsible for tuition and fees for that withdrawn course.
