Five Admit Crime Guilt

Five local and district youths are in police custody awaiting sentence in connection with the Jan. 15 robbery at Mission Creek Motors.
All five pleaded guilty before Stipendiary Magistrate Donald White to the charge of breaking and entering, and theft of tools and merchandise valued at over \$1,000.
Remanded for sentence are Victor Clay, 18, Elvin Gordon Brunett, 18, Terrance John Houston, 19, Donald Bosch, 18, and Hans Martin Hansen, 17. The latter was transferred from juvenile court to adult court.
Smart police work on the part of RCMP Constable Sam Hobbs was credited with solving this case. All the tools and merchandise have been recovered.
CHEQUE ARTIST RAPPED
A 54-year-old American salesman, who admitted to having a university education, to having served time in American prisons and to having a drinking problem, this morning was sentenced to six months in Oakalla on each of five charges of obtaining money by means of worthless cheques. Sentences were to run concurrent.
In passing sentence on Harry Edwin Vickerman, Magistrate Donald White recommended that Vickerman avail himself of treatment for alcoholism at Oakalla. Cheques cashed by Vickerman at local stores aggregated \$50.

Teachers Group "Blacklists" Valley

Kelowna School District 23 is among the two dozen school districts in the province that have been declared "closed districts" by the B.C. Teachers Federation.
In effect, it means that Kelowna and the other 23 school districts have been "black listed." Teachers of the federation will be advised not to apply for jobs in these districts.

COAST NEWS ROUNDUP

VANCOUVER (CP)—Patients of Vancouver dentists took a pounding Tuesday in the interests of dental science.
The pounding went on all afternoon at a downtown hotel as the Vancouver District Dental Society staged its annual "home talent" clinic with demonstration of a new gold-foil filling technique.
To demonstrate what they call the "ultimate in dental technique," dentists moved dental chairs, equipment and patients into the hotel's banquet room.
With their colleagues clustered around, the demonstrations showed how teeth cavities are filled by gently pounding layers of gold foil on top of each other.

Vernon Death Puzzle Will Be Probed

VERNON (CP)—An inquest into the strange death of Nicholas Kucher, 55-year-old war veteran whose body was found in his apartment amid three small fires has been adjourned to Feb. 18 by coroner Dr. J. E. Harvey.
The inquest will await outcome of an autopsy examination.
The body of Kucher was found by firemen who answered an alarm to the Goldstream Avenue apartment block where he lived. There were three small fires burning in the room but investigators estimated Kucher had been dead about two hours when he was found.
Polish-born, Mr. Kucher came to Canada in 1909 and was a veteran of the second world war. Until recently he had worked as a laborer.
Surviving are his wife, Pauline, Vancouver, son Julian of Salmon Arm and two daughters, Mrs. Irene Smith of Calgary and Mrs. Naida Schredesouth of Burnaby.

U.S.-Canada Partnership In No Danger

CLEVELAND, Ohio (CP)—Current rufflings in the "surface relations" of the Canadian-American partnership indicate adjustments in both countries to new conditions and responsibilities, president N. R. Crump of the Canadian Pacific Railways says.
"This does not mean that the partnership itself is in danger of dissolution," Mr. Crump said. "Let us never lose sight of this fundamental truth."
American investment in Canada indicated the U.S. cannot ignore policies harmful to Canada.
Mr. Crump was speaking to a Canada Day luncheon of the Cleveland Advertising Club, which was introduced by Canadian-born industrialist Cyrus Eaton as the head of the world's largest transportation organization operating 72,000 miles of service by land, sea and air over five continents.

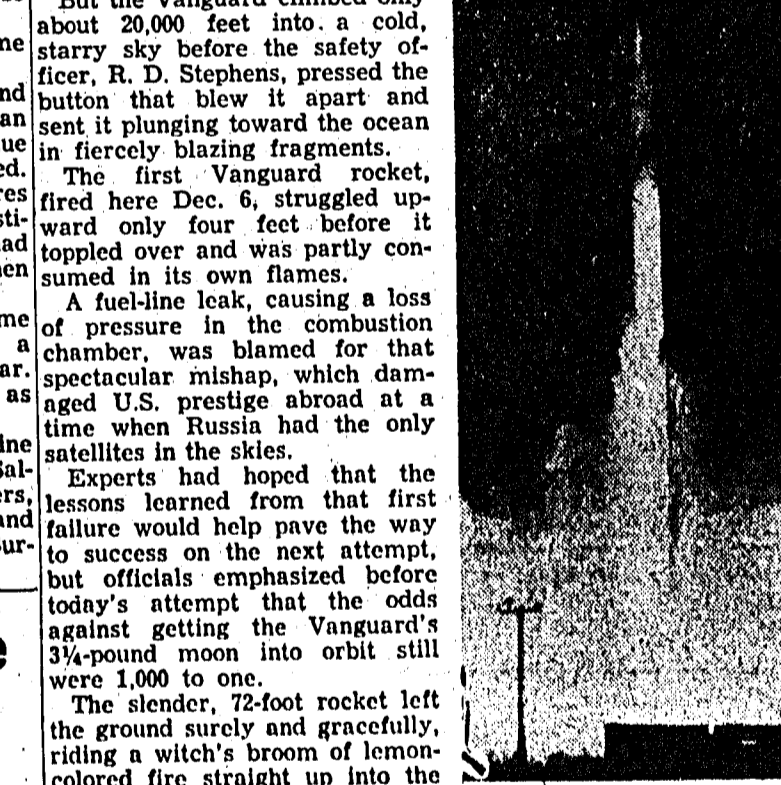

APPLE SALES RECORD SHOWS HIKE OVER '57

DR. WERNER VON BRAUN, German-born physicist who designed U.S. satellite Explorer, shows model of Jupiter-C, the missile that launched the Explorer.

2nd U.S. Rocket Exploded In Air

CAPE CANAVERAL, Fla. (AP)—The United States Navy's second Vanguard satellite rocket roared skyward early today but ended just like the first—in a fiery explosion.
Sixty seconds after a beautiful takeoff at 2:33 a.m. EST, the bullet-shaped Vanguard wobbled crazily, broke into two pieces and was destroyed by the test range safety officer.
If the flight had succeeded, the navy would have put a tiny "moon" into orbit with the Explorer, which was fired aloft Friday by the Jupiter-C missile.
But the Vanguard climbed only about 20,000 feet into a cold, starry sky before the safety officer, R. D. Stephens, pressed the button that blew it apart and sent it plunging toward the ocean in fiercely blazing fragments.
The first Vanguard rocket, fired here Dec. 6, struggled upward only four feet before it toppled over and was partly consumed in its own flames.
A fuel-line leak, causing a loss of pressure in the combustion chamber, was blamed for that spectacular mishap, which damaged U.S. prestige abroad at a time when Russia had the only satellites in the skies.
Experts had hoped that the lessons learned from that first failure would help pave the way to success on the next attempt, but officials emphasized before today's attempt that the odds against getting the Vanguard's 3½-pound moon into orbit still were 1,000 to one.
The slender, 72-foot rocket left the ground surely and gracefully, riding a witch's broom of lemon-colored fire straight up into the blue-black sky.
Its blazing exhaust lighted the countryside, and the roar of its engines shook sleeping persons awake for miles around.

JUPITER-C takes off at Cape Canaveral, Florida in a thrilling and fantastic blaze of smoke and flame. The giant missile took only 7½ minutes to put Explorer in orbit.

SUDDEN DISAPPOINTMENT
Observers watching the blast-off from vantage points inside the test centre shouted as the Vanguard began its arrow-true climb. But their cheers died in their throats when they saw the missile incline too sharply, break up and plunge back toward the moonlit Atlantic Ocean.
In an official announcement minutes later, the air force, which operates the test centre, said the Vanguard was "successfully launched... but was destroyed in flight when it failed to maintain its programmed flight path."
Maj.-Gen. Donald N. Yates.

CUT-THROAT PRICE WAR BIG HELP

Cheap Gas Sweeps U.S.

NEW YORK (AP)—Budget-minded American motorists are cashing in on the biggest epidemic of gasoline price wars since the war.
Cut-rate bargains in gasoline are available in such widely separated areas as Hartford, Conn., Norfolk, Va.; Dallas, Tex.; Detroit; Philadelphia; St. Louis; and along Puget Sound.
Oil company officials are worried. In localities where price wars conditions are keen, major companies sell gasoline to their dealers at prices substantially below cost.
Behind the rash of price wars are two factors: a huge buildup of supply and lower-than-expected demand.
"The general business recession is partly responsible," a New York marketing expert explains. "People are worried about layoffs and loss of overtime; they're watching their pennies. They're not driving around as much as that more and more Canadians will be converging on the big cities in the years ahead. Soon perhaps one-half the total population will be living in communities with populations of 100,000 or more."
"The illusion persists... that the spirit, the essence, of Canadian life is still to be found on farms and in small towns—possibly even in the bush."

MAJOR PARTY LEADERS WILL OPEN CAMPAIGNS IN EAST

OTTAWA (CP)—Prime Minister Diefenbaker will officially open his election campaign in Winnipeg next Wednesday, his office said today.
Liberal Leader Lester B. Pearson will open his election campaign by concentrating initially on the key province of Ontario, party officials said.

CCF Completes Platform Drafts

OTTAWA (CP)—The campaign plans before the end of the week. He was to attend regional conferences of the party at Vancouver Feb. 14-15 and at Brandon, Man., Feb. 19.
The CCF Tuesday got off to a quick start in its election planning by drafting a program at a meeting of the party's national executive in Toronto.
It will concentrate on problems of agriculture and employment and hopes to win more than the 25 seats it held in the Commons when Parliament was dissolved last Saturday.
On other fronts, Prime Minister Diefenbaker is expected to make his main policy speech in Winnipeg a week from today, on Feb. 12.
He made clear in a speech here Saturday night to the national convention of Young Progressive Conservatives that his chief appeal will be for a return of a majority of his supporters so they can get on with their job.
But he has indicated to reporters that the Saturday night speech, in which he said "the campaign starts tonight," was not his full fusillade.
Liberal Leader Lester B. Pearson is to retire to a "remote retreat" today to think out his campaign. His election travelling plans are being worked out at national Liberal headquarters and are expected to be announced next week.

SoCreds Ask Bryan Expulsion

NORTH VANCOUVER (CP)—The North Vancouver Social Credit Association announced today it has asked that rebel Social Credit MLA Mel Bryan be expelled from its ranks but that it has not yet asked for his resignation from the legislature.
Association president Harold Harkley said the executive has merely endorsed a resolution asking the expelling of Mr. Bryan, North Vancouver member who deserted Social Credit government ranks and crossed the legislature floor to sit as an independent. The resolution will be dealt with later by the association membership.
Mr. Harkley, previously quoted as saying the association would not move might be made but it had not yet been made.
Mr. Bryan said in Victoria Tuesday that he has no intention of resigning his seat following his floor-crossing action in protest against Social Credit government handling of conspiracy charges against former lands and forest minister Robert Sommers.
Mr. Bryan called for the resignation of Attorney-General Robert Banner, charging he took two years to act in the Sommers case.

Russian Jet Liner Heading For U.S.

WASHINGTON (AP)—Russia's TU-104 jet liner heads for the United States today on its second American trip.
This time the twin-jet craft, which flies 500 miles an hour at 40,000 feet, is bringing the new Soviet ambassador, Mikhail A. Menshikov.
Last fall it brought the Soviet delegation to the United Nations. Menshikov is scheduled to fly into Baltimore's Friendship Airport Thursday afternoon. The plane cannot land at Washington's airport because the runways are too short.

Canadian Housing May Get Future \$91 Billion

OTTAWA (CP)—Canada may spend an estimated \$91,200,000,000 on new housing and communities in the next 25 years, the Gordon economic commission has been told in a special study by three Canadian economists.
The estimate, made public today, includes possible outlays on hospitals, schools, roads, sewers, waterworks, airports, churches and other structures. It covers only initial capital costs. Together with other outlays for maintenance and repair, it could bring the total bill to more than \$200,000,000,000.
Based on an increase in population of about 10,000,000 to about 26,000,000, the study anticipates that Canada's total stockpile of housing and hospital beds may be more than double and that motor traffic may triple.
The forecasters estimate that approximately \$43,700,000,000 will be required to build another 3,700,000 new homes, adding to the existing 3,800,000.

Britain Clears Politicians Of Alleged "Leaks"

LONDON (Reuters)—The House of Commons Tuesday approved 322 to 253 the findings of a recent tribunal which cleared government leaders of "leaking" information about an increase in the bank rate.
The bank rate was increased to seven per cent from five last September as a means of proping up the value of the pound.
At the time of the inquiry, it was pointed out that a number of firms in which directors of the bank held interests sold large shares of government stock on the eve of the bank rate rise.
But the tribunal said there was no evidence that the Bank of England directors had leaked advance information about the increase to their firms.

But Major Stockpile Still To Be Cleared

British Columbia apple shipments to date have exceeded last year's sales for the same period by more than a million boxes.
This means shipments to date are about 500,000 boxes more than the total apple harvest in 1956.
These figures were released today by the growers central selling agency, B.C. Tree Fruits, Ltd.

Diefenbaker Promises Works Plan

OTTAWA (CP)—Plans for a "great national program" of public works aimed at combating unemployment is a major aim of the Progressive Conservative government if returned to office, Prime Minister Diefenbaker said today.
Mr. Diefenbaker said the program will involve public works in every province and will entail partly joint federal-provincial projects.
"It will be designed to meet unemployment conditions in various parts of the country," he said to reporters after a cabinet meeting.
The prime minister declined, for the moment, to specify the amount of spending involved.
Mr. Diefenbaker said he expects the first two moves will be announced in detail later today.

Bombings Force CPR Kootenay Service Cuts

VANCOUVER—Reduction in passenger train service between Pentiction and Nelson to a twice-weekly operation, through decision to operate only in daylight hours because of recent activities, has been announced by the Canadian Pacific Railway.
A CPR spokesman said: "We regret that it has become necessary to reduce passenger train service between Pentiction and Nelson but constant bombings on our lines have made it too dangerous to operate the railway during the hours of darkness."
The law enforcement officers are doing their best to apprehend the offenders, but the frequency of the bombings has increased and Canadian Pacific is not justified in the present circumstances in operating trains at night because of the risk to which our passengers and employees would be exposed."
NEW SCHEDULE
As a result, there will be a daily service between Vancouver and Pentiction, and a new service between Pentiction and Nelson leaving Pentiction 7:30 a.m. on Tuesday and Friday and leaving Nelson at 7:30 a.m. on Monday and Thursday.
The train leaving Vancouver this afternoon will terminate at Pentiction tonight and make the return trip to Vancouver on Wednesday, on the new schedule, which provides for departure daily from Vancouver at 9 a.m., and departure from Pentiction at 10:30 a.m. Schedules east of Nelson will not be altered.

Trade Deficits Dip; Exports Break Records

OTTAWA (CP)—Canada's foreign trade deficit dropped to \$693,700,000 last year from the peak of \$842,300,000 in 1956 as her exports rose slightly while her imports eased from the all-time high.
It was the fifth successive deficit—balance of imports over exports—and the seventh in post-war years. The last trade surplus was \$325,000,000 in 1952. The deficit tends to add to Canada's foreign debt.
Exports rose by \$73,000,000 to an all-time high of \$4,936,000,000, the bureau of statistics reported today in preliminary estimates. Imports eased by \$76,000,000 to \$5,629,700,000 from the record \$5,705,400,000 of 1956.

Florida Citrus, Vegetable Crop Reel In Freezing Temperatures

MIAMI, Fla. (AP)—Freezing temperatures overnight dealt Florida's reeling citrus and vegetable industry its third blow of the season. Farmers feared that this time they would strike out.
The state frost warning service forecast overnight temperatures as low as 20 degrees.
Crop experts saw the greatest danger to low-growth citrus and plants set out after mid-December and early January. The earlier cold snaps ruined about 37,000,000 boxes of citrus and damaged other fruit. The flower industry is facing a \$197.

CANADA'S HIGH AND LOW

Victoria	49
Prince George	15

Tourists, one of the state's major industries, have failed to arrive in the expected numbers. Many headed for the Caribbean to escape the cold.
The latest cold snap brought the lowest temperatures in 53 years since 1917.

More People Making More Money Than Ever Before!

It becomes increasingly evident that all Canadian political parties in the months ahead will be attempting to make political capital over the current so-called industrial slump. Members of each party see their political opponents as the architects of the impending disaster, and themselves as the only possible saviours of the Canadian economy. Already the Liberals are attempting to label the Conservatives as a depression party, while the Tories are busily digging up support for their claims that their Liberal predecessors in power were really responsible for the present state of things.

As in so many political situations, neither statement is really the whole truth. The fact is that Canada is not, economically speaking, a self-sustaining island to itself. Its economy is so integrated and involved with that of the United States and of the other nations of the world that its fortunes will fluctuate due to pressures and changes far removed from the control of any Canadian government. About all that a federal government can do is to provide a suitable atmosphere in which its economy can flourish, through currency controls, corporate and income tax regulations, and in the maintenance of good relations with customer nations abroad. Such things as public spending can provide interim relief or pump priming for a time, but solution of long-term economic problems is not really within the control of this or any other government.

However, the voter being the credulous creature he is, all parties will no doubt continue to put the blame on the other fellow and keep their own fingers crossed.

The fact is, of course, that the extent of the recession has been widely exaggerated. Canada has been experiencing a boom the like of which has never been seen before, and too many people have come to look upon these boom conditions as being merely the

norm. The boom has slackened, as indeed it had to, but actually conditions are good and the outlook even better. A great deal is made of the unemployment figures, and comparisons made with figures for other years, but what is overlooked is that immigration and natural increase have swollen the available labor force to tremendous proportions, and comparison with the unemployment figures of years past means nothing. In actual fact, in Orillia, or in Canada as a whole, more people are making more money than ever before in our history. Private savings are up, the cost of living is going down, inflationary pressures are abating, and with our rising population there is every reason for optimism.

Most business authorities agree with this view.

The pessimist has been well described as the person who only sees the hole in the doughnut. That seems to be the way these gloomsters look or rather half look at business statistics too, declares The Financial Post.

In recent weeks they have been trying to chill all foolish enough to listen with the rawest of raw statistics on business failures. They cite the total number of failures and make shuddering comparisons with the dark days of 1932. They completely ignore the fact that a lot more people and a lot of business firms have been added to Canada in the last 25 years, that totals which might have been grave for 11 million people in 1932 are little more than normal for the almost 17 million people in Canada today.

Business failures in Canada in 1952, reports Dun and Bradstreet, were 161 per 10,000 concerns. Business failures in Canada for 1956, says the same authority, were 53 per 10,000 or less than a third the depth-of-the-depression rate.

As a wise man once observed: "Figures don't lie but liars figure."

The Hoxsey Report

By all reasonable people the report of the UBC investigating committee into the Hoxsey cancer clinic of Dallas, Texas, will be accepted as conclusive. The composition of the committee, authorized by the government after claims and counter-claims on the subject, was authentic; its examination on the spot seems to have been thorough; and its conclusions cannot be set aside.

The committee's verdict is that the methods and medications used by the Hoxsey clinic are of no value in the treatment of cancer. Its judgment is that diagnosis is inadequate, that the treatment does not affect the progress of the disease, that there is no follow-up evaluation of results, and that no significant research has been done. It finds that the Hoxsey clinic arouses false hopes in patients and involves a useless expenditure of money on their part.

These are clear-cut findings incapable of misinterpretation. One can understand the plight of suffering people who naturally

will clutch at any straw to be cured. Because of the Hoxsey claims an increasing number of patients from British Columbia have been attracted to this clinic in recent years, and that is not strange. It is to the clinic's credit that the investigating committee was given every opportunity to examine cases and records, but the adverse report cannot reasonably be gainsaid.

One paragraph of the committee's report is extremely revealing. It tells of witnessing the medicative treatment of an external cancer and the application of a paste "with absolutely no regard for aseptics or anti-sepsis." There was no washing of hands or wearing of gloves. Instruments were used from an open shelf and gauze for the wound taken from an open roll. Apparently sterilization is ignored at the Hoxsey clinic.

Antiseptic precautions are so elemental in the practice of medicine it is difficult to avoid the conclusion that their absence is indicative of the philosophy which governs the operation of this clinic.

INTERPRETING THE NEWS

Egypt-Syria Union Critical For Future U.S. Influence

By WILLIAM L. RYAN
AP Foreign News Analyst

The union of Egypt and Syria will make 1958 the most critical year of the decade for United States influence in the Middle East, Arab sources say.

Unless Washington takes some strong, affirmative action toward stabilizing the area, events of the next few months will effectively isolate most of the Arab east from the U.S. before the year is out, these sources predict.

The importance of the Egyptian-Syrian union into the United Arab Republic is not in the act of union itself. It is in the impact it has on other Arab areas. The union is sure to touch off tremendous pressures against the governments of all other Arab states most particularly those of Jordan, Iraq and Lebanon, in that

union on the Palestine section of Jordan likely will bring strong popular pressure for the end of the present Western-oriented cabinet. If the cabinet falls, Hussein may be chased out of the country, and the arms the U.S. has poured in will wind up in anti-American hands.

The Iraq government will be under violent popular pressure to get out of the Baghdad alliance, now that Egypt and Syria have given Arab hopes for unity, a new shot in the arm. If that happens, Western fortunes in the Middle East will plunge to a new low.

SECURITY PLAN
HAVANA (AP)—Cuba's musicians want a retirement fund. They have asked Congress to enact legislation guaranteeing them pay after they stop playing.

The union makes Gamal Abdel Nasser of Egypt more sure than ever the dominant Arab figure. It is with him the West must deal. What does he want?
No more, competent observers say, than to talk directly with Americans on Arab-American differences. To be heard out, to find out what it is the U.S. seeks. Nasser, these sources insist, never vowed to throw Israel into the Mediterranean, as the other Arab leaders have. He is looking, they say, first for a guarantee of Arab security, then for some common ground which might save the new Arab union from sinking helplessly into the iron embrace of the Communists.

The union move is having its effect already. Jordan likely is the first trouble spot—and the trouble probably will come soon. Young King Hussein, noting the handwriting on the wall, already has turned Jwa's sort of desperation to his two fellow kings, Saud of Saudi Arabia and Faisal of Iraq, in what appears to be a quest for some sort of mutual protective association for Middle Eastern monarchs.

Jordan still is ready to fall apart. Only Hussein's new royal dictatorship holds it together. The impact of the Egypt-Syria

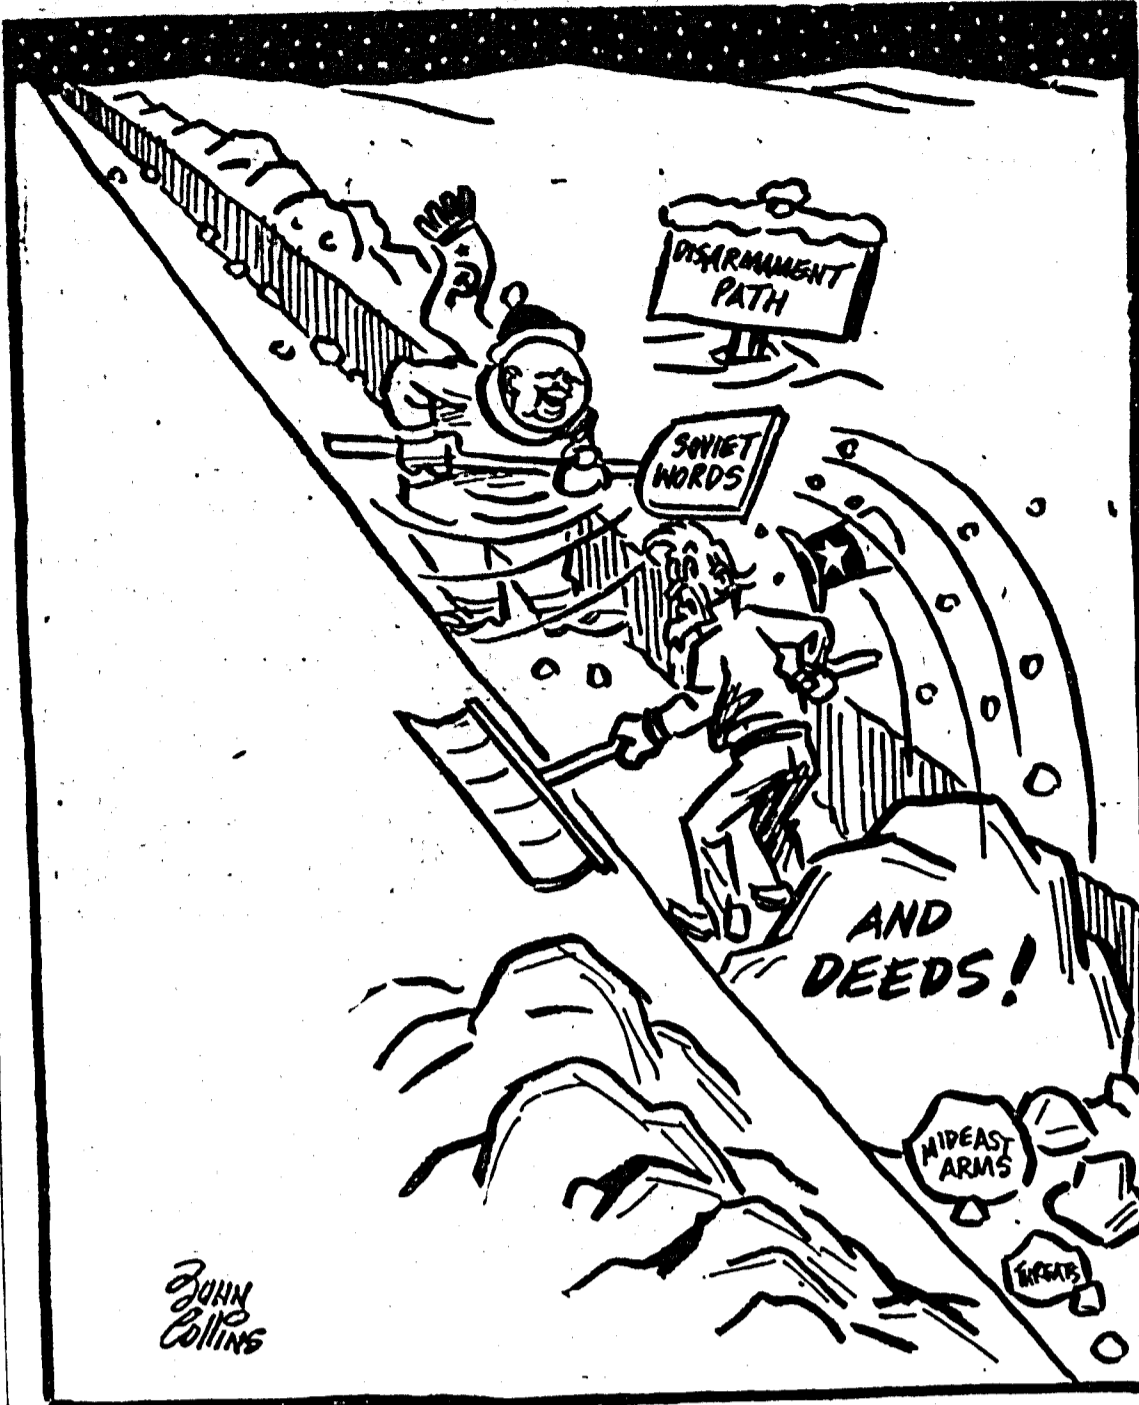

On The Other Side

Remember when "anything you can do I can do better" was just a catchy show tune and not the guiding principle of international relations?

Spain has slashed seven from its list of 44 national holidays. There is also some talk, we understand, of reducing the mid-day siesta to six hours.

An optimist believes that everyone is comfortable because he is.

It's a bit tragic that many a bride spends less time and thought in picking a husband than she does on her trousseau.

THE DIFFICULTY IN MEETING THEM HALFWAY

BY JAMES K. NESBITT

THE VICTORIA MERRY-GO-ROUND

VICTORIA — Already this session we've heard some highly unparliamentary remarks flying around our Legislature.

S.C. Mr. Sommers of Rossland, Trail, for instance, called Liberal Mr. Gregory of Victoria "yellow", and said he had no guts—his very words' no guts. 'Tis quite true, Mr. Gregory, in a cold and calculating way, had first taunted Mr. Sommers, but just the same, it was surprising Mr. Speaker Hugh Shantz didn't pound his gavel and put an end to such nasty, insulting words. They didn't improve the Legislature's dignity, which Mr. Speaker is supposed to uphold. MLA's were stunned by them into silence, and didn't utter a word of protest. For a moment or two it seemed that Messrs. Sommers and Gregory would leap across their desks and physically pound away at each other. It was a brief encounter, but considerably terrifying.

The Leader of the Opposition, who's the CCF MLA for Cowichan-Newcastle, is, this session, showing a new sureness in himself. Last session he was feeling his way, for it was his first as leader of the Opposition, a position in the Legislature second only to that of the Premier himself. This was proved when Lieut.-Governor Ross invited the Premier and Mr. Strachan, all the 52 MLA's to have tea with Queen Mother Elizabeth.

Mr. Strachan has always been a burly speaker, rough-hewn; he has lost none of his natural burliness, but he has toned it down, and polished it up. Now he gets across his points with a great deal of suavity and personal charm, a certain whimsy, rather than clubbing his victims. He has a glib tongue, a quick mind; he's fast heading into the realm of the top-flight speakers of B.C. He has learned a wide smile has more power than a black sneer.

It was a sensation that SC Mr. Mel Bryan of North Vancouver caused when he got up in the

House and said Attorney-General Bonner should resign over the Sommers case. Oppositionists, of course, are always saying cabinet ministers should resign over something or other, but it's routine with them, and when they say it the government pays no attention. However, when a government supporter, which Mr. Bryan purports to be, says a cabinet minister should resign, it's far different—it's serious for the government. It means there's rumblings of discontent from the government backbenches.

If the attorney-general doesn't resign—and he's not going to—Mr. Bryan won't have much alternative but to walk across the floor of the House and sit on the opposition side. Will he go back to the Liberals, from whence he came, or become a CCFer? His late father was once a Liberal MLA. Mr. Bryan walked across the house floor Monday afternoon. — Editor's note.)

MLA's speeches may oftentimes be dull, but if we listen to them we get a good picture of what goes on throughout this tremendous province of ours, with its varied interests and huge potential.

For instance, SC Mr. Stanley Carnell of South Peace River, gave the House a talk all about the vast northern riding, and MLAs from the big cities sat up and took notice. They had no idea of the great goings-on, and the future and the promise up there, until Mr. Carnell waxed enthusiastic.

The session is only two weeks old, but it shows promise of being a lively one. The Premier and Mr. Strachan evidently are going to let no opportunity pass to get at each other's political throats. When they fly at each other across the floor of the House they're enjoying themselves hugely, though the galleries often think they're not. When, thusly, they roar forth, one at the other, they're proud of the sound of their voices, and

they have their eyes on the politicians, the Premier wanting to remain Mr. Premier, and Mr. Strachan wanting to become Mr. Premier. However, that's up to you and me—we the people.

BULL CAUSES HAVOC

ROME (AP)—An errant bull stopped all traffic for nearly half an hour Monday night at Rome's busy Ciampino Airport. The animal broke through a fence and strayed on to the runways. Planes circled the field until police caught it.

OIL REPORTED

BELGRADE (Reuters)—Bulgarian press reports say engineers have discovered oil under the Black Sea near the port of Varna. The discovery was made about 330 feet from the shore and 1,368 feet under the sea.

FREE CHAIRS

SYDNEY, N.S. (CP)—The Independent Order of Oddfellows is working on a non-profit wheelchair project to make the chairs available free to invalids who cannot afford them.

BYGONE DAYS

10 YEARS AGO
FEBRUARY, 1948
Construction of a second theatre in Kelowna by Famous Players Corporation will get underway within the next two months, cost of which will exceed \$200,000. It was revealed by Will Harper, local manager of the theatre company. Mr. Harper said the movie house will be called the "Capitol Theatre" and will be capable of seating approximately 900 people.

One of Kelowna's best known citizens, who has probably had more to do with the actual development of the Orchard City than any other resident, has stepped down from office. He is Harry A. Blakeborough, city engineer for the past 27 years. Mr. Blakeborough reached the superannuation age on January 12 of this year, and has been succeeded by George Mockling, who has been assistant city engineer for the past two years.

20 YEARS AGO
FEBRUARY, 1938
Amount of building permits for the month of January, 1938—the total was \$9,880—was considered an indication that Kelowna was headed for a building boom during the year.

30 YEARS AGO
FEBRUARY, 1928
N. M. Foulks was elected president of the Kelowna Board of Trade in succession to W. R. Trench, who had served two successive terms in that office, and T. G. Norris was chosen as vice-president.

FEBRUARY, 1918
40 YEARS AGO
The Kelowna Hospital Society wound up the year 1917 with all accounts and salaries paid in full and a balance in the bank of \$480. Directors named D. Leckie as president, P. DuMoulin as vice-president, and J. A. Bigger as secretary-treasurer.

50 YEARS AGO
FEBRUARY, 1908
The masquerade ball, given by the Kelowna Quadrille Band, proved a most enjoyable and social affair. Thirty-five couples in costume took the floor, and a large number of spectators were present to view the pretty

spectacle. The costumes were of all descriptions, many of them elaborate and handsome. Finally, Mr. R. H. Parkinson, as Charles I, was awarded the gentleman's prize, and the lady's prize was bestowed on Miss Maud Raymer, as a Turkish lady. Handsome and valuable prizes were given.

Insurgent MLA Gets Messages

VICTORIA (CP)—A man who said he was president of a B.C. Social Credit constituency association sent MLA Mel Bryan congratulatory notes after he demanded the resignation of Attorney-General Robert Bonner last week.

Mr. Bryan released the letters and telegrams to the press after he "walked the floor" to become an independent member of the legislature Monday.

"We are happy to learn there is one man in our government who has the fortitude to stand up for right, regardless of consequences to himself," wrote one person.

"I did not vote for you in the last election," wrote another. "The stand you have taken in the house the last few days, however, assures you of my vote in the next election."

A telegram read: "Heartily endorse your demand Bonner's resignation. Hope you will persist. Action such as yours shows integrity and honesty both of which sadly lacking in present government."

Bryan's Action Shakes Socreds

By AL MARKLE

Canadian Press Staff Writer
VICTORIA—With all the fire and fury surrounding the floor-crossing of rebel Social Creditter Mel Bryan Monday, one question remained unanswered.

That question: why did he choose that particular time, only three days after his demand for the resignation of Attorney-General Robert Bonner for his handling of the Sommers case?
The question was answered today after many corridor talks, and by the North Vancouver Social Credit Constituency Association's demand for Mr. Bryan's resignation from the legislature.

Mr. Bryan knew the association planned to meet Monday night. He had a good idea of what their decision would be. Originally he planned to wait until later in the week to make his statement and cross the floor. The constituency meeting, however, ruled that out.

If they got their ruling in first it would mean that Premier Bennett could have made an announcement in the House and asked Mr. Bryan to cross over and sit with the opposition.

In order to carry through his claims that the demand was a matter of personal principle, therefore, Mr. Bryan had to move first.

roots level he says is the foundation of Social Credit.

The fact that Mr. Bryan made the move himself and wasn't prompted by Premier Bennett may have saved the premier further embarrassment.

Several members of the rank and file of the government said today, after asking to remain anonymous, that if Mr. Bryan had been drummed out of caucus or the party by the premier they would have joined him.

"If we can't say what we think," said one, "if we have to agree with the government or leave it—I'll leave it."

With a new baby in the house, a mother needs lots of fluffy-dry clothes every day. Her automatic gas dryer fulfills her needs... supplies her with sunshine-dry clothes swiftly and automatically! Laundry problems just don't exist with a gas dryer because drying is done indoors... away from unpredictable weather. See your local appliance dealer and find out how easy it is for you to own an automatic gas dryer. And ask about the low natural gas rates at your local Inland Natural Gas Co. Ltd. office.

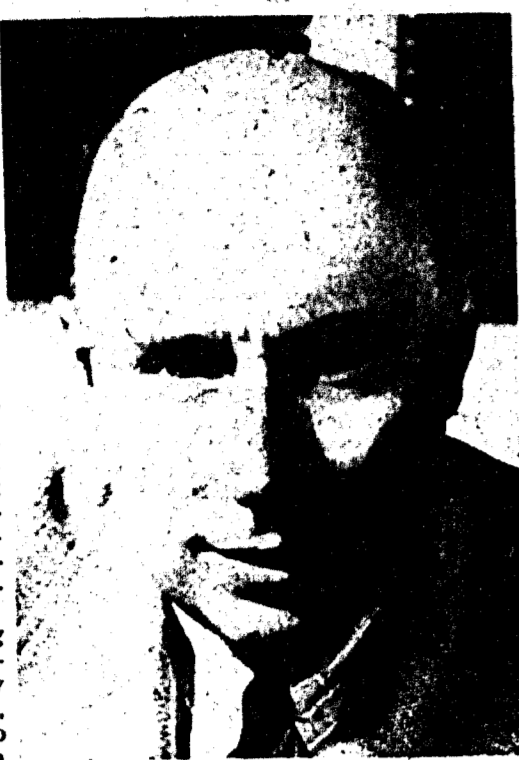

Special Scientific Forum Will Be Held In High School Tonight

Dr. Gordon Merritt Shrum, director of B.C. Research Council and professor and head of the department of physics, at University of British Columbia, will be among the guest speakers at a special scientific forum to be held tonight at the high school auditorium commencing at 8 o'clock.

Other speakers will include Dr. Marvin Darrach, head of the UBC department of chemistry; Dr. Fred Noakes, professor and head of the department of electrical engineering, and Dr. Ian McTaggart Cowan, professor and head of the department of zoology.

The forum is being brought to the Okanagan by the University of British Columbia and will be similar to that held at Georgia Auditorium a few weeks ago.

Dr. Shrum obtained his B.A., M.A., and Ph.D. degrees from the University of Toronto. In World War I he received the Military Medal serving with the Canadian Field Artillery. From 1937-1946 he was officer commanding.

DR. GORDON SHRUM

ation for the Advancement of Science; Canadian Association of Physicists; defence research board; National Research Council of Canada; Pacific Science Association, and Pacific Science Council.

He has taken a keen interest in scientific matters, and has served on the executives of many organizations.

Film Festival Planned Here October 7, 8, 9

Kelowna Film Council plans a "film festival" October 7-9 to commemorate B.C.'s centennial year.

This was disclosed by J. A. Bartel, chairman of the film festival committee. Plans call for the showing of pictures in the Empress Theatre.

Annual meeting of the organization will be held next Monday in the Okanagan Regional Library board room at which time plans will be further discussed. It is hoped to have arrangements finalized by the end of May.

UBC LIBRARY FACILITIES CRAMPED

Crowded conditions in the UBC library emphasize the need for expanded facilities at the university. The \$7,500,000 now being raised will be matched by the provincial government.

Rutland Parley Delegates Submit Reports To Local

RUTLAND—Rutland delegates to the BCFGA convention made their reports to the local recently. Joe Follmer reported on the fate of the locally supported resolutions, and J. Simla told of the main features of the various sessions. A. L. Baldock reported on the banquet which he considered the highlight of the convention.

There was a discussion on compulsory spraying, but the meeting appeared to lack unanimity on this subject, and it was agreed to table the matter. George Whittaker, member of the board of governors, answered a number of questions regarding Tree Fruit operations. There was some criticism of the appointment by the government of R. P. Walrod as member of a royal commission on Education. Mr. Follmer also doubted the necessity for sending so many of the sales staff to the fruit jobbers meeting in San Francisco, but Mr. Whittaker answered his objections to the satisfaction of the meeting when he pointed out that a great deal of business was transacted at such meetings, in particular the development of export business.

Miss Alwina Kitch of Williams Lake was a weekend visitor at the home of Mr. and Mrs. A. W. Gray.

Miss Betty Barber was a visitor at the home of her parents, Mr. and Mrs. West Barber on the occasion of their 23rd wedding anniversary.

The Farmers Union met in the high school on Friday evening last for their regular monthly business meeting.

Mr. Neil Kerr of the Rutland Senior-Junior High staff received a letter of thanks from the Canadian branch of the United Nations Society for the contribution of \$68 toward the work of "Unicef," collected by the students last year. An objective of \$50 had been set, but this was exceeded by \$18 by the students, with their voluntary donations.

Re-Imposition Spud Control Is Requested

B.C. Interior Vegetable Marketing Board has received a number of requests from shippers and growers for re-imposition of control on late potatoes covering the 1958-59 crop.

C. C. Reeve, board secretary, said that if the IVMB directors feel satisfied that there is a substantial majority for re-control, the board will at the appropriate time, again take the matter under consideration.

Mrs. Ellen Kyle Funeral Rites Conducted Today

Mrs. Ellen Kyle, who had spent more than 50 years in the Canadian west, and whose Kelowna residence dated back to 1947, died Monday at Vernon at the age of 85 years.

She came to Canada from England (where she was born in Devonshire) as a young woman, married in Medicine Hat in 1905, and subsequently farmed there, and then at Killarney, Man., and at Winnipegosis, Man.

She was an enthusiastic church worker, and for a number of years on the Prairies conducted Sunday school in her own home. There was no church in her community.

Her husband predeceased her the same year they settled in Kelowna in 1948, leaving three sons: Perry, Kelowna; George, Winnipeg; and Charles, Winnipegosis; two daughters, Mrs. A. (Mary) Parsons, Smithers, B.C. and Mrs. H. (Margaret) Heppner, Winnipegosis. Fourteen grandchildren and four great-grandchildren also are left.

Funeral service was held this afternoon at Day's Chapel of Remembrance, with Lt. A. R. Jarvie and Lt. R. W. Wicks, both of the Salvage Army, officiating. Burial was in the family plot at the Kelowna cemetery.

POLICE COURT

Fine of \$10 plus costs, was levied in city police court Tuesday on Wayne Mervin Layng, 19, for double parking on Bernard Ave.

Failure to stop at a stop sign where Leathard road joins Highway 97 in Rutland cost Anthony Roth, 22, a fine of \$20 and costs in district police court Tuesday.

Charged in magistrate's court Tuesday with being in control of a motor vehicle while his ability was impaired by alcohol, Frederick Faubt, 21, pleaded guilty and was fined \$50, plus \$6.50 costs or in default 15 days. His driver's licence was suspended 30 days.

IMPORTANT NOTICE

Because of terrorist activities in the Kootenays, we regret that in the interests of safety it is necessary to reduce passenger service between Pentiction and Nelson and restrict schedules of all trains in this area to daylight operation.

Effective February 5 the following service will be operated:

Read Down Daily	Read Up Daily
Train 46	Train 45
9:00 a.m. LV. Vancouver	AR. 6:00 p.m. Pentiction
4:30 p.m. AR. Pentiction	LV. 10:30 a.m. Vancouver
Tuesday and Friday	
7:30 a.m. LV. Pentiction	AR. 5:00 p.m. Nelson
4:45 p.m. AR. Nelson	LV. 7:30 a.m. Pentiction

Normal service will continue to operate between Nelson and Medicine Hat.

For full information please consult your local agent.

OYAMA

OYAMA — Visiting with her parents, Mr. and Mrs. W. E. Sproule, is Mrs. H. Shyshka and infant son Tim, of Nanaimo, B.C.

On Thursday evening of last week The Oyama Twirlers Square Dance Club, entertained the youngsters with some lively dancing at a Family Night.

Several members travelled to Salmon Arm on Saturday evening to attend the North Okanagan Square Dance Jamboree, and reported an excellent evening of dancing.

Mr. and Mrs. John Von-Harten proudly received their Canadian Citizenship papers, at Vernon, on Monday of this week.

The 1958 chautauqua meeting for the Winfield Okanagan Centre and Oyama areas were held in the Oyama Community Hall.

The afternoon program consisted of: The present status of bulk handling of British Columbia Tree Fruits by N. F. Norton, District Horticulturist, Kelowna; tree fruit maturity, by D. A. Allan, district Horticulturist, Oliver; orchard disease control in 1958 by Dr. M. F. Welsh, plant Pathology Laboratory, Summerland.

Resuming the meeting in the evening A. W. Watt spoke on orchard insect control. Mr. Watt is district horticulturist at Summerland Experimental Farm.

Dr. D. V. Fisher also of Summerland, discussed varieties and planting recommendations.

Films and slides augmented several of the lectures, and a large number of "Red Spots" of Delicious Apples were on display.

The entire program was most informative and well received by a good turnout of growers.

WANTED BABY

ST. LOUIS (AP) — A pigeon with a stubborn mother instinct was rescued Monday after being found covered with ice and trying to hatch two eggs in her nest beneath a dripping spout. The pigeon zealously kept to her uncomfortable post on a window ledge at the old St. Louis County courthouse through a 10-inch snowstorm Friday, ducking her head trying to keep it free of dripping snow that had sheathed the rest of her body in ice.

LOCAL AND DISTRICT SPEAKING OF WEATHER

No Immediate Cause Of Alarm For Growers, Says Horticulturist

Even if the central Okanagan valley moves over the Okanagan valley, such as has settled over the Peace River country now, the chances are excellent that Kelowna and its environs, and like-ly the entire Okanagan valley, will experience its warmest winter on record.

Kelowna weather records date back to 1899.

A sustained and severe cold spell now could cause some root damage without a ground cover of snow, but the mildness has not yet disturbed the orchards from their winter period of dormancy, according to Frank Morton, district horticulturist with the provincial agriculture department.

Mr. Morton spiked rumors that fruit trees were "awakening" in this area. "There has been some swelling in peach buds, but nothing more than normal," he ruled.

STILL DORMANT

He said it would require temperatures of between 40 to 45 at least, for several days, "possibly a week" to start any movement in the fruit trees.

First to show life under such conditions would be the apricots, followed by the peach trees and cherry trees. Apple trees have a longer dormant period, Mr. Morton pointed out.

Mr. Morton asserted that there has been no appreciable damage to fruit trees yet, but he admitted that some damage could follow from a hard cold spell.

Some trees against sheds and barns have shown signs of life, and would be the first to suffer if a cold spell occurred, but Mr. Morton pointed out, the number of trees next to sheds and shelter buildings are a small percentage of the fruit trees flourishing in the valley.

Average high temperature last month was 39.42. The mercury last month hit 40 or better on 19 days, with the maximum being 44. So far this month, the Kelowna maximums have been between 40 and 38.

Bulbous garden flowers and pussy willows are well advanced for this time of year, according to Mr. Morton.

Many claims have been made that tulips and snowdrops have broken the ground earlier than in any other previous year, but there is no way to verify the statements.

Unless a mass of frigid Arctic

COUNCIL SETS ASIDE \$3,000 FOR PURCHASE OF AMBULANCE

The day when a new ambulance can be purchased by the city came \$3,000 closer this week when city fathers decided to set aside that amount in their forthcoming estimates.

To date, the ambulance fund totals at \$4,259. Balance was made up of \$835 realized by the firemen and Lions club on a deal with the Gayland Shows last year, \$324 realized from the annual firemen's ball, and a \$100 donation from the Women's Institute.

Another deal is expected to be made with Gayland this year for the same purpose.

City fathers also have decided to approach rural groups for donations to the fund, since all district areas use the city's ambulance.

A new ambulance will cost in the neighborhood of \$10,000.

New Brownies At East Kelowna

EAST KELOWNA — At the meeting of the 1st East Kelowna Brownie Pack, six new brownies were enrolled and were presented with their Brownie pins.

They were Carol Ramponne, Jillian Neid, Janis Evans, Donna Ramponne, Patricia Carter, Judy Malen.

Mr. and Mrs. W. J. Hrynyk are the proud parents of a baby boy born at the Kelowna General Hospital Feb. 1.

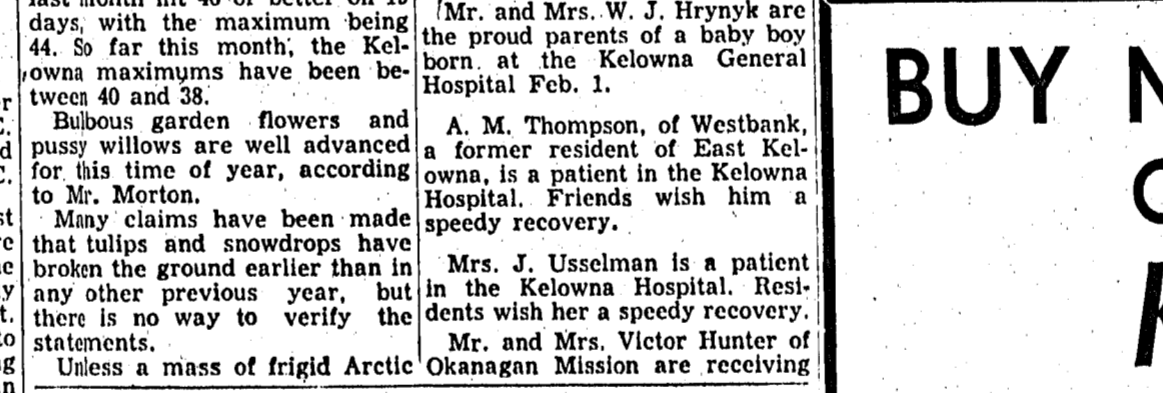

A. M. Thompson, of Westbank, a former resident of East Kelowna, is a patient in the Kelowna Hospital. Friends wish him a speedy recovery.

Mrs. J. Usselman is a patient in the Kelowna Hospital. Residents wish her a speedy recovery.

Mr. and Mrs. Victor Hunter of Okanagan Mission are receiving congratulations from their friends in the district on the birth of a baby girl at the Kelowna Hospital. Mrs. Hunter was the former Kay Spalek.

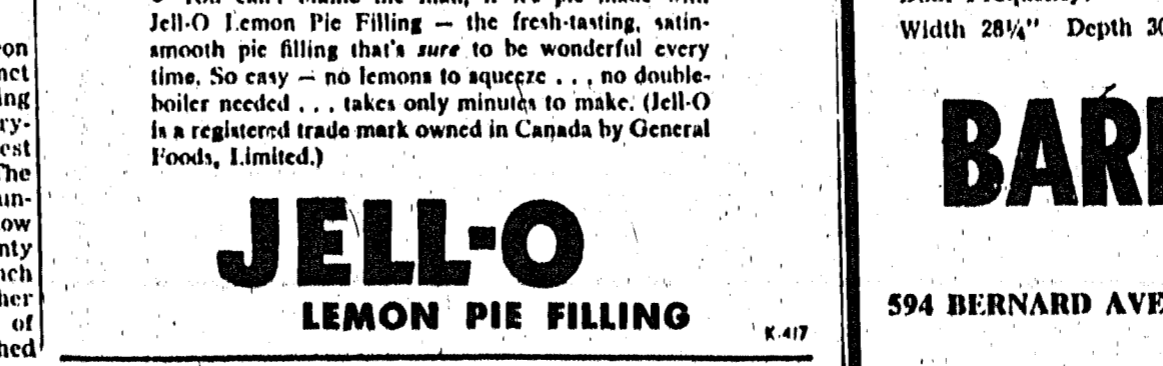

Ernie Ramponne is a patient in the hospital as the result of an accident at the weekend. His condition is reported to be good.

W. Borecz recently purchased the orchard previously owned by Nick Bullock.

GAS EXPLOSION BLOWS HOUSE TO PIECES

Residents of this demolished Toronto house owe their lives to the fact they were away when a gas explosion blew it to pieces and fire completed the destruction. The fire spread to several other houses but was kept under control. The explosion occurred when an excavating machine cut a gas service line leading to the house.

CHOOSE SNOW QUEEN
QUEBEC (CP)—Pert Brigitte Desrochers, 22, of nearby Ste. Anne de Beaupre Monday night was elected queen of Quebec City's 18-day Winter Carnival. Queen Brigitte won out over six other contestants who now will act as her duchesses until Mardi Gras, Feb. 18.

26,000-MAN FORCE
ALGIERS (Reuters)—Algerian nationalist insurgents have a strength of about 26,000 men, Gen. Paul Allard, commander of France's Algiers army corps, said Monday. Rebel armament was believed to include 85 machine-guns, 80 mortars and 15 anti-tank weapons. France has more than 500,000 troops fighting the uprising against French rule in this North African territory.

TOO EARLY
NIAGARA FALLS, Ont. (CP)—Police, entering a coffee shop early Monday after seeing a man inside, found \$130 missing from a drawer, and a man coolly munching doughnuts and sipping milk. Douglas Collins, 22, was charged with breaking and entering.

EXTEND DEATH PENALTY
CAPE TOWN, South Africa (Reuters)—Only seven members voted against the second reading of a bill in the South African assembly Monday extending the death penalty to cases of robbery and housebreaking with violence. The seven who opposed the second reading were three African representatives, two Labor members and two independents.

EAT LESS PORK
TORONTO (CP)—Ontario Livestock Commissioner W. F. Watson said Monday this year's hog market may decline because Canadians are eating less pork. Mr. Watson told the annual meeting of the Ontario Swine Breeders' Association Canadians ate more than 100,000 hogs a week in 1956 but last year they ate about 90,000 hogs a week.

ACTRESS FOUND GUILTY
LOS ANGELES (AP)—Actress Gail Russell, 33, was found guilty of drunk driving Monday. The actress was arrested last July after her car crashed into the front of a restaurant and injured a janitor, Robert Reynolds, 28. She is to be sentenced Feb. 28.

TO REPRESENT CANADA
OTTAWA (CP)—Gen. H.D.G. Crear, 69, of Ottawa, wartime commander of First Canadian Army, will act as aide-de-camp general to Queen Elizabeth during her state visit to the Netherlands March 24-28, army headquarters announced Monday. Gen. Crear is a personal acquaintance of the Netherlands royal family and was decorated by Queen Wilhelmina after the Second World War.

HAILS ARAB UNION
ATHENS (AP)—Greek Foreign Minister Evangelos A. Arofi Monday night hailed the union of Syria and Egypt as a factor that "will contribute to the maintenance of peace and security in the Middle East." He also said in a statement it will "help the economic development of the whole area and raise the living standards of its populations."

FOUND IN BATH TUB
TORONTO (CP)—Mrs. Jessica Toy, 52, Monday night was charged with murder in the suffocation of her granddaughter, Diane Lynn Robertson, 5, found Monday in a bath tub at her home. Police said the girl, daughter of Mr. and Mrs. Gerald Robertson, had been suffocated with two wet towels, found on the floor of the bathroom. They said Mrs. Toy had been under psychiatric treatment for some time.

TECHNICIANS NEEDED
COWES, Eng. (CP)—Twelve technicians in the design department of Saunders-Roe aircraft company here have been offered contracts with De Havilland in Canada.

Strong Winds Dampen 2nd U.S. Satellite Firing

By JOHN H. AVERILL
WASHINGTON (AP)—Strong winds put a damper on any new United States satellite firing today as scientists came up with more details of Explorer, the army satellite circling the globe every 115 minutes.
There was no damper on planning, however.
Army scientists are reported to be proposing that an elaborate satellite, loaded with instruments and weighing up to 700 pounds, be fired before the end of the year to gather data for building a space station. It would be the fourth artificial moon in an ambitious satellite program advocated by army scientists.
And the navy is said to be hoping to put a 20-inch satellite in orbit on schedule next month despite delays in preliminary tests.

VANGUARD WAITS
At present, though, the navy is waiting to fire aloft its first six-inch test sphere when weather permits.
A slim, 72-foot Vanguard rocket, vehicle for the navy satellite, stood on a launching pad at the Cape Canaveral, Fla., testing grounds throughout Monday. But high winds for the third straight day apparently frustrated any new firing attempts.
The army has another Jupiter-C on a nearby launching pad, but apparently is not ready for a second satellite firing.

Army scientists, buoyed by their success with the Explorer, plan to launch some time between now and April a second Explorer.
PLAN TV SATELLITE
Already they are planning to ward a third satellite, weighing 300 pounds and equipped with television for reconnaissance. That would be followed by the 700-pound Explorer IV as the forerunner of a space station.
It was learned Monday that Dr. Werner von Braun, Major Gen. John B. Medaris and others

instrumental in developing the Explorer have asked the army for permission to start building the huge satellite.
They contend they could do the job with the basic Redstone rocket model which put the Explorer in orbit. Some changes, probably including fuel and possibly addition of another solid-fuel rocket cluster, would be made to provide extra power.
The big satellite would carry cameras and television recording equipment like those planned for Explorer III, plus elaborate electronic and photographic equipment to provide data needed for building a space station.

House Fires Kill Eleven In Three Days
EDMONTON (CP)—Deaths caused by house fires in Alberta and Saskatchewan in three days stood at 11 today, 10 of the victims children.
The third house fire in the two provinces in three days took the lives of five children Monday near Lac La Biche, Alta., 100 miles northeast of Edmonton.
A mother and four children died when their home was destroyed at Moose Jaw Saturday. Two little girls died Sunday in a house fire at Whitewood, Sask., 115 miles east of Regina.
Officials have not yet determined the cause of any of the three blazes.

4 Crash Victims Flown To Safety
WINNIPEG (CP)—Four badly injured persons, rescued under almost unbelievable lucky circumstances from a sub-Arctic plane crash, were under treatment today in Winnipeg hospitals.
Heavily drugged to ease their pain, they were flown here Monday night aboard an RCAF mercy plane in a four-hour-and-50 minute flight from Churchill, Man.
When a single-engined Norseman owned by TransAir Limited crashed on the uninhabited west coast of Hudson Bay Friday, they were hurled into the snow.
CHANCE IN A MILLION
With the nearest outpost at Chesterfield Inlet 18 miles to the north, only a million-to-one chance brought rescue.
Constable Len Mascatto of the

RCMP was making a once-a-year patrol along the coast 200 miles south of the Arctic Circle. He happened on the scene of the crash 30 minutes after the plane plunged to the rocky and frozen ground.
Beside the aircraft, he found pilot Wiggo Norwang, a Norwegian; Dr. Jean Charles Patry, resident doctor at Chesterfield Inlet; Avaruak, an Eskimo, and Avaruak's daughter, Annie, 11. The Eskimo and the pilot are about 40 years old and the doctor about 30.
The RCMP officer gave first aid while his Eskimo guide went for help by dogteam. Then the victims were taken by snowmobile to the mission hospital at Chesterfield Inlet. They were flown from there to Churchill Saturday.

An RCAF Dakota of 111 Communications and Rescue Flight in Winnipeg flew to Churchill Monday. As night fell and a strong north wind chilled service personnel, the survivors were transferred on stretchers from two ambulances to the plane.

Borden Probe Hears History Of Alberta Oil
CALGARY (CP)—The Borden commission on Canada's resources moved into its second day of hearings today and received at the same time its second straight lesson in history.
Floyd K. Beach, Calgary oil and natural gas consultant, submitted a paper on the history of oil and gas in Western Canada up to 1947. Its contents consisted of the basic facts leading up to and ushering in the multi-million-dollar oil boom of the last decade.
Most of Monday's opening session was taken up by a presentation from the Alberta department of mines and minerals, outlining the history of legislation of Saunders-Roe aircraft affecting land leases, royalties, bonuses and pipeline regulations in Alberta from 1939 to the present.

Television Believed Responsible For Decline In Reading Habits

Is television interfering with reading?
Certainly that has been found to be so in many other places, and it may be true in Kelowna, too.
For library circulation figures for the month of January, just released by librarian Mrs. M. Foulkes, showed a drop of more than 1,000 in circulation of books among adult and juvenile readers from the totals of a year ago. Television first was introduced here in the late summer and each month sees more homes in the central Okanagan with television sets as the main object of interest in the living room for several hours.
Mrs. Foulkes reported that 9,693 books were circulated by the adult readers, including 3,356 non-fiction and 6,337 fiction.
NEW ADDITIONS
- Adult total for January, 1957, was 9,751.
Circulation for juvenile books for last month was 1,821, compared with 1,932 a year ago.
The monthly report showed there were 121 new adult registrations and 34 juvenile, for a combined total of 155. A year ago, the combined total was 129.
The Martin Luther film is available for any who wish to use it, the report revealed.
Also reported were 44 non-fiction books added to the library shelves and 32 fiction.
Latest additions are:
FICTION
Fondle, Booth; Best detective stories of the year (12th); Cooke; Mooliki; Godden; Fifth daughter, Gurney; Tamarac, Hutchison; The valley, the city, the village, Jones; Christmas Eve, Kornbluth; The cruise of the Dolphin, Lallemand; Rockets galore, Mackenzie; The inevitable hour, Marshall; Among the dahlias, Santoni; The wounds of hunger, Spota; Coronets and buckskin, Barratt; The woman of my life, Belmelans; White August; Boland; The world of Carricks cove, Brace; A distant drum, Flood.
Ann Fuller, librarian, Ford; That Egyptian woman, Gerson; How to grow them, Greig; The city of libertines, Hardy; Cork in the doghouse, Hastings; The doctors' signature, Johnston; Some came running, Jones; Lady Wu, Lin Yu-fang; The velvet horn, Lytle.
The birth of a grandfather, Sartori; The deep of the earth, Traver; The new people, Trevor; The longest second, Ballinger; All of one company, Moore.
NON-FICTION
Delinquents in the making, Glueck; Living in the kindergarten, Willis; General college chemistry, Wood; Amavillie, and how to grow them, Schulz; The complete book of rug braiding, Feeley; The ballet annual (12th), 1958, Haskell; Index to the story of my days, Craig; Gilbert, his life and strife, Gilbert; The sea my surgery, Maguire; Forbidden childhood, Slenczynska; Air spy, Babbington-Smith.
Mission completed, Embury; Guerilla surgeon, Rogers; Heirs

B.C. SHORTS

VANCOUVER (CP)—The CCF provincial office is clearing its desks of provincial affairs temporarily to make way for planning for the March 31 federal election.
Officials announced today that the CCF provincial convention planned April 11-13, has been postponed until May.
Deadline for resolutions has been changed from Feb. 21 to April 25.
TERRACE (CP)—Rudolph Rapske was elected Social Credit candidate for Skeena riding at a meeting Monday night, to run in the March 31 federal election.
Born July 8, 1920, he came to Canada from Poland in 1928 and lived in Manitoba where he received primary education. For several years he served in North America Baptist Churches and for four years was assistant secretary North American Baptist Immigration Association.

TRAIL (CP)—The provincial government's announced intention of not opening a new, 200-bed wing at the Woodlands School for Retarded Children, is to be investigated by city council's Health and Welfare Committee.
The committee will try to determine whether the interests of any Trail citizens are being jeopardized.
TRAIL (CP)—Trail's Mayor Leslie A. Read Monday night issued challenges to the mayors of five interior cities to grow better beards than he in honor of British Columbia's centennial of British Columbia's centennial.
The challenges went out in the mail today to the mayors of Fernie, Grand Forks, Rossland and Nelson, and to Mayor Frank F. Becker of Vernon.
"I thought it would be nice to drag an Okanagan city into it too," said Mayor Read.

Prisoners Hit Guard; Escape

KINGSTON, Ont. (CP)—Four prisoners slugged a guard and escaped from nearby Collins Bay penitentiary in a dump truck they had been unloading outside the prison walls.
Three were recaptured within minutes but the fourth man escaped on to the mist-shrouded ice of Lake Ontario. Between 50 and 100 guards were searching for him.
Guard Norman Axford was taken to hospital with undetermined injuries.
Police identified the missing man as Robert McKnight, 20, sent to the prison after breaking out of the Ontario reformatory at Guelph, Ont.
The three recaptured were identified as Robert Best, 24, of Toronto and Paul Atkins, 21, and Donald Olbey, 21, both of Windsor. They were recaptured in the prison truck.

Rail Box Car Hearings End

OTTAWA (CP)—Presiding commissioner Hugh Wardrop of the board of transport commissioners has reserved judgment on a railways' bid to extend demurrage penalty charges to bulk grain.
A argument by counsel representing the various groups in the big elevator-railway battle was concluded Monday, 11 days after the final stage of the hearings started.
The battle started 18 months ago, when the railways announced plans to levy penalties ranging from \$3 to \$7 daily on grain-filled boxcars delayed more than 48 hours at terminals.

Sitting down is too ticklish for these bar belles of a Paris, France, cafe, so they take their nourishment standing up. Ost- rich feathers, which are the major part of their costumes, are responsible for their reluctance to sit.

Freak Accident Brings \$25 Fine

A freak accident in the 800 block Fuller Ave. had its sequel in city police court Monday when a local man was fined \$25 and \$3 costs.
Alfred John Mash pleaded guilty before Magistrate Donald White to a charge of allowing a minor, not in possession of a driver's licence, to drive his auto.
According to testimony in court, Mash's nine-year-old daughter was at the wheel when it crashed through a fence and slammed into the side of a house. Court was told that Mash had made restitution for the damages.
RABIES SCARE
LACHUTE, Que. (CP)—The federal agriculture department plans to hold an immunization clinic for dogs and farm animals following an outbreak of rabies believed to have infected most of the foxes in this area.
TRICK OF THE CHEF
Dust corn bread batter with caraway or celery seed before baking.

SHADES OF SHAPES TO COME

Woven fabrics form petal skirted dancing dress by France Davies; in pink and white, with petal tiers to form a full skirt. Orange sherbet is color of this fitted chemise-like spring coat designed by Eve Lynn, Montreal.

Cute Coed Changes Atmosphere Lone Girl In Masculine College

SUDBURY, Ont. (CP) — A pretty teen-aged Sudbury girl is making history here. Anita Chevrier is the first co-ed to be admitted to the Sacred Heart College, an affiliate of the projected University of Sudbury, which has 346 male students.

With the opening of English faculties of arts and sciences next year co-eds will be generally admitted. But until more suitable quarters are available, probably next year, there has been no change in the rules and discipline of Sacred Heart College.

"Only the atmosphere is changed," said Rev. Alphonse Raymond, rector of the college, who will become president of the new university.

Anita found this atmosphere a little severe at first. Some senior students took a dark view of feminine invasion of their retreat.

A diminutive brunette with a pleasant smile, Anita had little to prepare herself because her entire high school education was taken at the all-girl Notre Dame Academy.

"I knew it wasn't going to be a picnic," she said. But a keen sense of humor helped her to withstand classroom jokes, such as when she was nominated as goaltender for the class hockey team, and when a group pleaded with their form teacher to have the room decorated in pink and blue for Anita's benefit.

"I feel in a way that I'm on trial," she said. "The teachers and the students notice almost everything I do. If I don't succeed in my subject, or if I fail to create the right atmosphere in school, a lot of girls may be influenced not to come."

She is in the first year of a general arts course, and expects to complete it in three years, then try for a career in journalism.

Anita had a good high school record to ease her entry to higher education. In her final year at St. Albert Separate School she won a French scholastic contest for Ontario, and two years ago she won a second-place standing in the same class for all Sudbury secondary schools.

HITHER AND YON

WINTER HOLIDAY — Mr. and Mrs. John Dyck have returned from Vancouver after holidaying for a week at the coast city.

ATTEND SKI MEET — Participating in the annual junior ski championships at Revelstoke this weekend were Jackie Stinson and Billy Ahrens.

MR. AND MRS. H. G. TRUSS — have returned after a week holidaying in Victoria and Vancouver. Mrs. S. A. Mathews travelled home with them after spending two weeks in Vancouver.

FASHIONABLE KNITWEAR

By VERA WINSTON

Knit dresses get better all the time, adjusting smartly to fashion lines and changes. Here is a new number that can be worn as a straight chemise or with its belt, as shown. It is done in gray-brown or off-white tones, with a heavier rib for the rolled collar. The dress opens part-way down the back and is completely lined.

BOATS MISSING — TOKYO (AP) — Two Japanese fishing boats with 36 board have been missing for eight days and are believed sunk near the Soviet Union's Kamchatka Peninsula. The maritime safety board reported that the 70-ton Kasuga Maru and 89-ton Yuko Maru were last heard from Jan. 27.

SHE'S RIGHT — MORRISON, Colo. (AP) — Mrs. Thyra Baker celebrated her 100th birthday Monday. Asked if she had any advice about how to live long, Mrs. Baker replied: "Just don't die."

New Name Sought For Outline; No Longer "Sad Sack" In Paris

PARIS (AP) — Buyers who gave a standing ovation to Yves Saint-Laurent's debut collection for the late Christian Dior are still raving over the new fashion collection. "What a job Saint-Laurent has done on the chemise!"

"I predict you'll see Paris mobbed with buyers next summer," said Joseph Frumkes of Monarch Garments. "It's provocative, this loose waist, and it stimulates business for at least two years."

"Anyway, it's no longer a sad sack," declared John Schoonbrood of B. Woolman and Brothers. "Let's call it something else."

The Paris press is unanimous in acclaiming success of the first "Dior without Dior" collection. "How disappointed are the gloomy and the pessimists," says Le Figaro. "French couture is not yet dead, for its possibilities are immense. The tour de force of Yves Saint-Laurent is striking proof of it."

The Parisian: "Once again Paris gambled its reputation for elegance; once again Paris won. It succeeded thanks to this shy and distinguished young man named Yves Saint-Laurent."

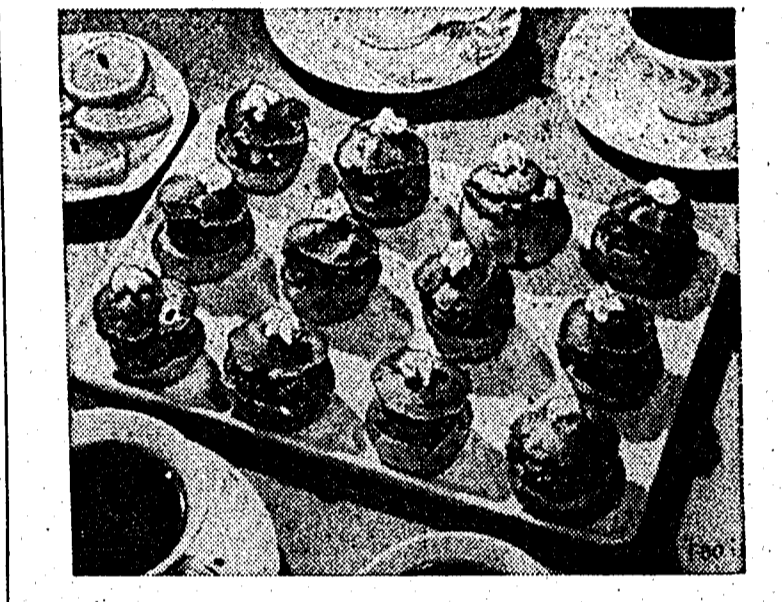

LET'S EAT

Hot Hors D'Oeuvres Appeal; Create Variety With Puffs

"Remember when we were on tour in Australia, Madame, giving those big theatre food presentations?" reminisced the Chef. "And how interested the Australian ladies were when we demonstrated Cream Puffs Melba!"

"We filled the cream puff shells with ice cream, Chef," I said, "and served them topped with Melba sauce and whipped cream."

PARTY PUFFS — "Our Australian friends would

For afternoon tea or party refreshments, fill hot cream puff shells with either hot crabmeat, salmon or chicken salad.

be equally enthusiastic over our new tiny party salad puffs to serve as a hot hors d'oeuvre with the hot crabmeat, salmon, or chicken almond filling. A rosette of whipped cream, these should be placed on each."

All measurements are level for all recipes.

Party Salad Puffs: Make up 1 recipe standard cream puff dough or use the new cream puff mix. In either case, make very small puffs using 1/2 tsp. dough per puff. Drop on baking sheet.

Bake about 10 min. in a moderate oven, 375 deg. F. or until puffy and browned. Fill while hot with hot crabmeat, salmon or chicken salad for a hot hors d'oeuvre. Makes about 40 puffs.

Cream Puff Dough: In a saucepan, combine 1 c. boiling water and 1/2 c. butter or margarine.

Meanwhile, sift together 1 c. already-sifted enriched flour and 1/2 tsp. salt. Stir all at once into the boiling mixture. Cook-stir constantly until dough forms a ball and leaves sides of pan clean. Cool.

Finish as previously directed.

SUNDAY DINNER

Celery Saladettes
Nut Dressing
Roast Beef au Jus
Pan Roast Potatoes and Onions
Raisin Gingerbread

Whipped Topping
Coffee Tea Milk
Orange Shortcake New England: This easy-do dessert is a perfect finish to a dinner starring oyster stew.

Just bake one recipe rich baking powder biscuit dough in a thin layer in a 7x11-in shallow pan.

Cut in halves, butter generously, put together and top with slightly warmed, sugared sliced

Officers Elected At Recent Square Dance Meeting

The Kelowna Wagon Wheelers held their annual general meeting on Monday and the following slate of officers was elected: president, Mr. and Mrs. D. A. MacKinnon; vice-president, Dr. and Mrs. K. E. Geis; secretary-treasurer, Mr. and Mrs. R. Suter; director, Mr. and Mrs. H. H. Vickers.

The new executive would like to take this opportunity to wish you all the best in square dancing for the coming season. They would like also to tell you about their next party, which will be held on Saturday, February 15 in the Legion Hall in Kelowna at 8 p.m. There is a very small charge and please bring a sack lunch. The master of ceremonies will be our caller, Chester Larson.

Wife Preservers

You can create a charming coffee tray table by putting new canvas straps on an old camp stool or suitcase rack and topping it with a decorative tray.

NEW TALL LOOK LIME GREEN SKYSCRAPER STRAW BRETON, MR. JOHN

Business And Professional Women Send Delegation To PM

A delegation from the Canadian Federation of Business and Professional Women's Clubs met with the prime minister recently to discuss resolutions from this organization for the attention of the federal government. Members of the delegation were, Mrs. Maude Baylay, National President, Miss Isabel Menzies, First Vice-President, Mrs. Florence Chinn, Honorary Secretary, Treasurer and Mrs. Margery Peatstress, International Relations Chairman.

Mr. Diefenbaker was congratulated on the action taken by his government in removing the discrimination against newly married women workers, when section 161 of the Unemployment Insurance Act was rescinded. This section had long been a matter of great concern to the Canadian Federation of Business and Professional Women's Clubs.

The delegation urged strongly for more women in policy making positions, women well qualified and ready to accept their responsibilities. More women in the senate is and has been a constant appeal from this organization, and while talking with the prime minister the appointment of women senators was stressed once more.

A further resolution from the Canadian Federation that Canada accept a seat on the Status of Women Commission at the United Nations is now an accomplished fact. Improving the status of women is one of the prime objectives of this organization nationally and they feel that Canada has a great opportunity to make a fine contribution to this commission at the international level.

However, by looking for his worthy deeds and ways and praising him for them, we will soon find that they will tend to outnumber less desirable ones.

We will then get in the habit of taking note of his good deeds and his behaviour will improve accordingly.

ANSWERING PARENTS' QUESTIONS

Q. Is a boy, 6, too young to learn to make his own bed?
A. No.

Bake this delicious COFFEE LAYER CAKE!

Sift together 3 times

1 1/4 c. once-sifted pastry flour or 1 1/2 c. once-sifted all-purpose flour

2 tps. Magic Baking Powder

1/4 tsp. baking soda

2 tps. Instant Choco A. Sunborn Coffee

1/2 tsp. salt

Combine

3/4 c. milk

1/2 tsp. vanilla

Add dry ingredients to creamed mixture alternately with milk, combining after each addition. Turn into 2 greased 8-inch round cake pans, lined in bottom with greased waxed paper. Bake in moderately hot oven, 375°, 25 to 30 minutes. Put layers of cold cake together with thick raspberry jam between and cover with a coffee-flavored frosting.

You can depend on MAGIC to protect all your fine ingredients... give you lighter, finer-textured results. Buy MAGIC Baking Powder next time you shop.

Ballroom Dancing Championship Hope Of Halifax Teacher, Pupil

HALIFAX (CP) — Peter Gunter, 40, former Budapest criminal lawyer who now teaches dancing here, glows with pride when asked about chances of Canada winning a title in the world ballroom dancing championships at London, England, April 14.

"I am so happy and so proud," he said. "I hope we will win."

By "we," he means pretty Joyda Perry, a ballet student in her native Galt, Ont., before she moved here with her naval husband. She met Mr. Buchta at his first dance class here.

The two were selected last December by the Canadian Dancing Teachers' Association along with Basil Valvason and Mary Anderson of Hamilton. At least 15 countries are entered at London this year. Canada has never placed higher than third.

HAPPY CITIZEN

Mr. Buchta says the happiest moment of his life was when he became a Canadian citizen two years ago. He had arrived in Canada in 1950, and promoted the first Canadian ballroom dancing championships here in 1956. The event was so successful it was held here again in 1957, and won by a Halifax couple taught by Mr. Buchta.

Born in Ploen, Germany, he grew up in Hungary. His law career ended after the war, during which he was wounded four times. Shrapnel had gouged his leg and doctors advised him to exercise it by dancing or bicycling.

He picked dancing, studying under prominent teachers. His Hungarian fiancée Irma—now his wife—had sent him \$400 she had saved as a domestic after a year in Canada and he arrived here. He had been in Canada only three weeks when he was asked to dance at an exhibition in Nova Scotia's Annapolis Valley, which led to an invitation to start a dancing class for the Maritime Conservatory of Music in Halifax.

PUBLIC APPEARANCES

Five attended that first class. Today three instructors conduct day and night classes for adults and teen-agers. The 100-member Corte Dance Club is composed of his adult students, and the Cortees is for teen-agers.

In between classes, he finds time for public appearances, work in television and radio, and "public service" duties. One of the latter is teaching dancing to students at the local school for the blind, believed unique in Canada.

UBC CAFETERIAS OVERTAXED

The cafeterias at the University of British Columbia are greatly overtaxed by the 8,900 students who crowd into them every day. New food service facilities in new government's matching policy, every donated dollar counts double and thus the appeal will actually yield \$15,000,000.

Young Lady Calls Newfoundland Soon To Make 1,000th Broadcast

LONDON (CP) — Seventeen years ago a slim, dark-haired girl led a group of bashful Newfoundland servicemen before a microphone in London to say hello to the folks back home.

The date was March 5, 1941, and to Margot Davies the assignment was just one of a number of voluntary wartime jobs she had undertaken as the daughter of the high commissioner for Newfoundland in London, the late Daniel James Davies.

It was an assignment that was to turn into a full-time career for her. 9 radio listeners in the island province will hear Miss Davies introducing the 1,000th regular edition of the British Broadcasting Corporation's Calling Newfoundland program.

LINK WITH HOME

It will be Miss Davies' 999th broadcast. She missed one about five years ago when ill with neuritis.

During the war years, the program was broadcast twice a week and was designed primarily to provide a link between Newfoundland servicemen in Britain and their families and friends across the Atlantic. With the return home of the soldiers, sailors and airmen, the need for broadcast messages dwindled and Calling Newfoundland graduated to a daily changed to a magazine-type program beamed from Britain once a week.

Miss Davies, in planning her programs, has always included a large number of people from Newfoundland or those having close connections with the province. A guest on her 1,000th program will be Col. H. G. Lambert, a retired British Army officer who commanded the predominantly Newfoundland 166th Field Regiment in Africa and Italy during the Second World War.

Miss Davies was born in St. John's, but has not been back to Newfoundland since the mid-1930s. "I am looking forward to going back one of these days, but I haven't any idea when it will be. There is always another program to look after."

Her fan mail from Newfoundland often exceeds 200 letters a month, many from old wartime acquaintances. It also includes a considerable volume of requests for information concerning former Newfoundlanders now living in Britain.

BACKACHE May be Warning

Backache is often caused by lazy kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest or that tired-out and heavy-headed feeling may soon follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulates the kidneys to normal action. Then you feel better—Kidney Pills—work better. Get Dodd's Kidney Pills now.

TO SAIL AROUND NORTH AMERICA

John H. Bremer (white hat) and Kai Petersen, both of Lake Zurich, Ill., have announced plans of sailing around the North American continent. They are holding a map showing the direction of the 10,000-mile route. They will attempt to skirt the continent in a clockwise direction in an 18-foot craft powered by outboard motors.

Diet Or Clothing Might Be The Cause Of Itch

By Herman N. Bundesen, M.D.
First, get your doctor's advice about bathing. It may have therapeutic value or harmful effects, depending upon the cause of the itching.
If he advises it, the bath water should contain some soothing agent such as menthol, bran, Aveeno or sodium bicarbonate.
Water temperature at the beginning of the bath should be about 78 degrees and then gradually cooled to about 68 degrees. Or, if you prefer, you can follow your tepid bath with a cold spray from the shower spout.
An oatmeal bath may be helpful. It is easily made by boiling two cups of oatmeal in a gauze bag for five minutes. Then place the bag in your bath, to which sodium bicarbonate already has been added and dissolved. Squeeze the bag to force out the fine particles.
This should help a great deal in relieving itching sensation.
When you finish your bath pat yourself dry with a soft hand towel and then cover the itchy area with a cream, powder or suspension.
QUESTION AND ANSWER
B. P.: Is there a cure for pruritis ani? What is its treatment?
Answer: In treating pruritis ani, the application of mercury ointment is helpful. The underclothing should be soft and non-irritating.
The diet should be nutritious and you should drink a plentiful amount of water. Sedatives also are of some help.

AT EAST KELOWNA

Orchard Practices Covered At Two Chautauqua Meetings

EAST KELOWNA — An address by Dr. D. V. Fisher of the Summerland Experimental Farm highlighted the afternoon session of the growers' chautauqua held in the community hall. Dr. Fisher touched on varieties of trees and the trend of planting in the U.S. and Canada.
Horticulturist Alex Watt spoke on the control of mites and insects.

Cheque Charge Brings Year Jail Sentence

A 40-year-old Calgary man was sentenced Tuesday morning to 12 months in Oakalla prison farm on each of three charges of obtaining money by means of a worthless cheque.
Magistrate Donald White also gave Henry Duffy a warning that unless he mended his ways, a long term in the penitentiary lay ahead of him.
Duffy pleaded guilty to cashing bogus cheques in the sum of \$20 and \$37.50, and was convicted for passing a \$50 cheque at a local store, though he denied it.

DIES FROM POISON

BUFFALO, N.Y. (AP) — A medical examiner has ruled that Vincent Martin, 4, died of having eaten rat poison accidentally.
The coroner said the boy apparently ate a piece of bread that his parents had covered with poison and set out to trap rats.

YOUR HOROSCOPE The Stars Say

FOR TOMORROW
Stick-to-it-iveness should be your byword today. Prevailing influences may cause you to be lethargic, easily distracted from necessary tasks. Offset such tendencies by keeping your nose to the proverbial grindstone and you'll be surprised at how much you can achieve.
FOR THE BIRTHDAY
If tomorrow is your birthday, you should find this year marked by exceptional progress where ambitious and worthwhile projects are concerned. The stellar influences encourage imagination and a spirit of enterprise, so if, despite occasional setbacks—especially in July, August and November—you put forth your best efforts, you should find your affairs in excellent shape by year's end.
The next five months (also September) will be good for finances, also for benefiting through the cooperation of others. But don't, in a spirit of enthusiasm, go overboard in spending or you will negate all advances made. Stick to the conservative path.
Late June will be excellent for travel and romance, but be alert to possible domestic crises in July and August. You can avert these by being your usual kindly and understanding self.
A child born on this day will be loyal, tolerant and a delightful companion.

Opening lead—Jack of clubs.
Bridge is a game of probabilities. Although some hands do occur with a declarer can prove to a certainty that a particular line of play will succeed, such hands are far outnumbered by those where declarer can only estimate that one method of play will more probably succeed than another.
Here is a case in point. A club is led and South notes there are two possible losers—a heart and a club. Since there is no finesse possible to save either trick, the best solution appears to lie in arranging an endplay to avoid one loser.
So declarer wins the club with the ace, draws one trump, and plays the ace and another diamond, ruffing in dummy. He then enters his hand with a trump and ruffs another diamond. Next he
