

## Flood Control Action Recommended

### Committee Advocated To Study Flood Issue

Concrete action in the control of floods and prevention of flood damage was strongly recommended by the Municipal Engineers' Association of B.C. in annual convention here during the weekend. A resolution to this effect will be presented to the Union of B.C. Municipalities, convening in Penticton next week.

### Hope Wanes In Search For Two Lost Surveyors

VANCOUVER—(B.U.P.)—Hope waned today for two prospectors missing in rugged country north of remote Vanderhoof in British Columbia's Buckley House-Fort St. James area.

A Royal Canadian Air Force Canso and a Royal Canadian Mounted Police Beaver yesterday concluded a third fruitless day of searching for Bert Lloyd, 30, and Bert Goodrich, 48, both of Williams Lake, B.C. The men, engaged in an aerial survey of placer mining claims, were last seen by a trader nine days ago on Takla Lake, 400 air miles north of Vancouver.

They were conducting their survey in a light plane piloted by Lloyd.

An air force spokesman said the search for the prospectors would be resumed today, "but there isn't much hope left." He expressed fears that the two might be suffering from exposure after having been forced down in the bush.

The temperature dropped to 25 degrees above zero in the search area last night.

### CNIB DIRECTOR SPEAKS TO CITY ROTARY CLUB

Capt. M. C. Robinson, OBE, director for Western Canada for the Canadian National Institute for the Blind, was today's speaker at the Rotary Club and District Governor for District No. 161, he spoke on Rotary objectives and accomplishments, and proved an eloquent and highly appreciated spokesman for the world-wide organization.

### Weather

Cloudy today with sunny periods in the afternoon. A few showers in the southern valleys until noon. Variable clouds on Tuesday. Little change in temperature. Light winds today. Southerly winds 20 in the main valleys Tuesday. Low tonight and high tomorrow at Penticton 42 and 65.

OTTAWA — (B.U.P.) — A Russian diplomat has been expelled from Canada, attempting to bribe a civilian air force worker.

Convening delegates went on record as recommending "the immediate formation of a committee composed of provincial and municipal representatives to study the problem of water flood damage in the province, and to make recommendations as to who shall be responsible for the problem, and what immediate steps that body should take."

In an interview with a Herald reporter, George W. Mecklin, North Vancouver city engineer, who presented the resolution explained, "I have experienced a most profound frustration in getting some satisfaction of who is actually responsible for flood damage, its prevention and control."

"I do not think that even the statutes of B.C. have decided, or dealt with it adequately at all. In British Columbia we have a province that is tailor-made for flood damage, and we may as well face the fact of it now, and at least make a concrete attempt at finding a solution."

### CAPITAL AND KNOWLEDGE

"As a case in point, Penticton creek has cost this city huge sums of money, both in attempts at preventative measures and, in actual flood damage. If the problem is tackled with vigor and ample capital at the start, supported by sound engineering, money could be saved. There are hundreds of similar streams in B.C., which people have attempted to dam."

### Drew's Retiring Could Postpone Federal Election

OTTAWA — (B.U.P.) — The federal general election freely predicted for next June might be delayed until the autumn of 1957 or even the spring of 1958, a cabinet source said today.

Emphasizing that the government had not yet given serious thought to fixing a definite date for the election, the cabinet source said that George Drew's retirement as leader of the Conservative opposition was a new factor to be taken into consideration.

The election date will be determined by Prime Minister Louis St. Laurent, on the advice of two or three of his closest political advisers — Trade Minister C. D. Howe, Finance Minister Walter Harris, and Citizenship Minister J. W. Pickersgill in particular. Whatever date he decides on their advice would be acceptable to the cabinet and party as a whole.

The consequences of Drew's retirement from the Conservative leadership will be discussed by the cabinet when it meets with Mr. St. Laurent presiding on Thursday.

CANADIAN CANCER FOUNDATION are recipients of \$550 cheque compliments of the Penticton branch of United Commercial Travellers who have held a fund-raising campaign to aid cancer research. Shown receiving the cheque on behalf of the Foundation is James Milligan at right, grand councillor for the UCT in Oregon, Washington and B.C. A. H. Frazer, at left, senior councillor of the Okanagan Council UCT, presents the cheque, while Grand Chaplain Elmer Burke of Seattle and Arnold Westaway of Penticton, member of the grand executive committee, look on.

## B.C.'s New Municipal Act To Bring Major Changes

### Taxi Cabs Take Beating Through Week-End Crashes

Two accidents over the weekend in Penticton involved city taxi cabs.

Saturday night a taxi was parked at the corner of Wade avenue and Martin street when a vehicle driven by Bent Mathiasen rammed into it, causing \$100 of damage.

Mr. Mathiasen failed to remain at the scene of the accident and was subsequently chased through several Penticton streets.

He managed to make a temporary getaway but his licence number was noted.

Mr. Mathiasen appeared in City Court today on a charge of hit and run driving.

The second accident occurred last night at 8:30 p.m. at the corner of Eckhardt avenue and Main street.

The principals involved are both residents of Penticton, J. F. Grantham and G. Hogan.

Indication that the new B.C. Municipal Act will be beneficial not only to the municipalities, but to professional municipal engineers, was conveyed to members of the Municipal Engineers' Association at the annual convention here last weekend by J. E. Brown, B.C.'s Deputy Minister of Municipal Affairs.

Mr. Brown said that today's municipal government is a dual corporation: One phase is to provide essential services to some or all of the inhabitants of the area within its jurisdiction; the second phase is that of a governing body, enacting legislation and administering it within its boundaries.

"The basic legislation now applying to municipalities in B.C. is contained in some half-dozen Acts, most of which came into existence many years ago. It is true the legislation has undergone many amendments in the intervening years, but it is sometimes difficult now to piece together the original."

"Moreover, the original Acts applied largely to cities and rural municipalities, but made no provision for any other types of organized community. Provision

### 5th Penticton Cub Pack Hears City Game Warden

The 5th Penticton Cub Pack Friday night returned to Scouting activities after a short holiday recess.

The cubs are busily engaged in finishing off their conservation program, which was the keynote project of the B.C. Boy Scouts' Association all over the province.

### GAME WARDEN TALKS

Later an educational talk was given by Game Warden H. H. Tyler on the proper handling of firearms and on hunting in general.

The meeting concluded as four cubs graduated into the 5th Penticton Scout Troop. Other members in the pack cheered on their promotion with the call of "good hunting."

The new scouts were Terry Sharp, Wayne Emsland, James Richards and Grant Mackenzie.

## Gov't Rapped For Education Stand

### Venables Criticizes Federal Indifference

WINNIPEG—(B.U.P.)—Frank Venables of Oliver, president of Canadian-School Trustees' Association, Saturday before 100 delegates registered at the association's annual convention, condemned Prime Minister Louis S. St. Laurent's refusal to discuss federal aid for education.

"The prime minister's apparent indifference came as a distinct surprise and disappointment," Mr. Venables said during the opening hours of the four-day convention.

He said that Mr. St. Laurent had refused to receive a delegation from the association, which represents 50,000 school trustees. Later, he noted, that a telegram and letter on the matter had received no better treatment.

Peter Currie, governor of the University of Manitoba, issued a further appeal to persuade the federal government to reconsider its position on federal aid.

"The time has come for Canada to pay for its growth and education," the most important item, has been neglected by the federal government," Currie said.

The trustees' meeting was the first of four conventions to be held in Winnipeg this week.

On Wednesday, the Canadian Education Association begins a three-day meetings and next Saturday the Canadian Association of Education through art and education library association will begin simultaneous meetings.

### District Students Win Scholarships, Bursaries At UBC

University of B.C. students from the south Okanagan have won scholarships and bursaries totalling \$1125, scholarship committee chairman Dean Walter Gage announces today.

The 11 district winners are among the more than 190 who won \$23,690 in scholarship and bursary funds which were donated by business and industry, organizations and individuals.

District students to receive scholarships and bursaries are: Roy Arden Sutherland of Peachland — the Admiral Jellicoe Chapter IODE Bursary of \$75. William Albert Scott of Osoyoos — Sir Anthony Eden Chapter, IODE, bursary of \$75. Judith Anne Amor of Oliver — University Women's Club General bursary of \$200.

Sharon Gail Crook of Penticton — Coronation Chapter IODE, bursary of \$75. Ida R. Motz of Osoyoos — Delta Zeta Chapter of Alpha Gamma Delta Sorority bursary of \$550.

Sharon Gail Crook of Penticton — Gamma Phi Beta bursary of \$100 for home economics. Anne Marueen Cooper of Penticton — RCAF Chapter IODE bursary in nursing of \$75.

Donald James Blacklock of Summerland — Triple Entente Chapter IODE bursary for social work of \$100. Donald James Blacklock of Summerland — War Memorial bursary for social work of \$50.

William E. S. Tennant of Naramata — Baynes Manning bursary of \$300. Laura Boinford of Okanagan Falls — Moe Cohen Bursary of \$25.

OTTAWA — (B.U.P.) — Federation of mayor and municipalities said today the Canadian Broadcasting Corporation should be divested of its "privileged status as a virtual monopoly undertaking."

### Logger In Jail Over Shooting

PORTLAND — (B.U.P.) — A 33-year-old logger from the small Columbia county town of Birkfield was being held in the Multnomah City Jail in Portland, Ore., today after the bullet-punctured body of another logger was found early today, dumped along a highway.

Officers identified the man in custody as Clinton Leroy Jeremiah.

Dead from bullet wounds was Henry Elmer Raymond of Jewell.

WASHINGTON — (B.U.P.) — Canada, U.S., Britain agreed to exchange patent rights on atomic developments held prior to last November 15.

### Undersea Cable Laying Starts

VANCOUVER — (B.U.P.) — A 130-foot barge begins the job this week of laying 80,000 feet of submarine power-cable between British Columbia's lower mainland and Texada Island.

The job, expected to take a week or ten days, will cost \$250,000 when complete, the new cable will link Powell River with the mainland coastal power-line now being built by the B.C. Electric.

NEW DIRECTORS OF THE JUNIOR CHAMBER are shown above being installed by visiting Jaycee executive Alan Dann on board the SS Slocum last Thursday evening. Left to right are directors Wilf Smith, Bill Henry and John Greekas. Stan McPherson was not present for the installation.

THREE WELL KNOWN JAYCEES WERE CHOSEN to handle the "book work" of the Penticton unit for the coming year. Shown above taking office are, left to right, corresponding secretary Ray Ferguson, recording secretary Bert White, and unit treasurer Dave Grant. Jaycees already have an ambitious program planned for the ensuing year.

## Jaycees Sponsor Two Courses On Business

The Penticton Jaycees are sponsoring two night courses next month to supply businessmen with up-to-date information and techniques on today's fast changing business conditions.

### Executive Named By Engineers At Convention Here

Next convention of the Municipal Engineers' Association of B.C. will be held at Nanaimo. The chairman for 1956-57 will be the municipal engineer of that district, H. P. Dawson. Others on the executive will include Penticton's E. R. Gaylor who continues as past chairman; R. M. Martin of Vancouver; J. C. Garnett, Victoria; J. Graeme, Esquimalt; D. P. I. Hawkins, West Vancouver; A. S. G. Musgrave, Royal Oak, honorary life secretary; and J. A. Merchant, registrar of the B.C. Society of Professional Engineers, secretary.

Registration for these courses, which include a modern business course and an effective speaking course, will take place in the Penticton Senior High School Friday, September 28, at 7:30 p.m.

Classes begin October 1. Regular night school fees will be charged for the courses which last 24 weeks. The fee for each course is \$7.50.

The courses are held under the Jaycee college section of the night school.

In addition to these two courses, the night school offers commercial courses. Bookkeeping, shorthand and typing are handled by members of the high school commercial department, Bert White and Fran Laclina.

The modern business course (Continued on Page Seven)

NEW EXECUTIVE OF MUNICIPAL ENGINEERS includes above, from left to right, E. R. Gaylor, Penticton, past chairman; A. S. G. Musgrave, Oak Bay; H. P. Dawson, Nanaimo; R. M. Martin, Vancouver; and J. A. Merchant, registrar of the B.C. Society of Professional Engineers, the continuing secretary. With the exception of Mr. Merchant, each executive member is city engineer in his community.

# Penticton Herald Editorials

## Adult Education

"You cannot teach an old dog new tricks."

Of all the hoary falsehoods, this is one of the worst. It has stood in the way of the whole adult educational effort, and only lately has the truth gained some measure of acceptance—the truth that adults can indeed learn almost anything that they really need to learn.

We're making this comment at this time because there's nothing in Penticton's annual calendar of events which we support with more unqualified enthusiasm than the night classes for adults, held in conjunction with the schools here.

A great deal of care and attention is given to the preparation of what might be called a curriculum; there are many qualified instructors to deal with a variety of classes; and the accelerated interest of the public as a whole offers testimony to the success of this effort

## The Big Issue

What about Columbia River diversion plans?

The province has latterly been undergoing such a siege of argument about provincial electioneering trivialities that we have forgotten, more than ever, that these same plans carry such an immense potential for the future that there should really be little else under discussion.

As it is, politicians and the public pay little heed to the whole issue, at least so far as public discussion is concerned. Meanwhile a publication in the east seems to have summed up the thing pretty well.

The current issue of the Financial Post has suggested that "if any U.S. government official still believes that Canada's Columbia River diversion

plans are only bluff, he has another think coming. Canada has not yet decided, firmly and finally, whether to divert the Columbia into the Fraser or not. It does not yet know how it can satisfy the fishing interests; how the economics of the Fraser diversion will work out in detail; and what the U.S. may eventually offer us for not diverting.

But it certainly does know that the planned diversions are physically possible and legally unassailable; that they offer promise of tremendous advantages to B.C. for decades to come; and that any Canadian government which lightly abandoned these advantages would be guilty of the grossest treachery regarding the long-time future of Canada—for which it is responsible.

We congratulate Penticton on its adult education program and ask the entire community to interest itself in the series of classes made available, and described in recent publicity. Registration starts on Friday, and tuition at the first of next month.

plans are only bluff, he has another think coming.

Canada has not yet decided, firmly and finally, whether to divert the Columbia into the Fraser or not. It does not yet know how it can satisfy the fishing interests; how the economics of the Fraser diversion will work out in detail; and what the U.S. may eventually offer us for not diverting.

But it certainly does know that the planned diversions are physically possible and legally unassailable; that they offer promise of tremendous advantages to B.C. for decades to come; and that any Canadian government which lightly abandoned these advantages would be guilty of the grossest treachery regarding the long-time future of Canada—for which it is responsible.

THE OKANAGAN TELEPHONE CO., THE PENTICTON HERALD AND THE FIRE HALL buildings form an interesting perspective in this view of Penticton looking west from the roof of the Hotel Prince Charles. Nanaimo avenue runs into the picture from the lower right and industrial sites are mixed with residential homes, especially along the railway which slices diagonally through this section of the city from the south shore of Okanagan Lake.

## Canadian Exports To Britain Decline

In the first six months of 1956, Canadian exports to the U.K. declined by 4 per cent but imports into Canada rose by over 30 per cent to reach the highest postwar value for any half-year. The improved trade pattern may be due in part to measures taken by British authorities to curtail spending and encourage exports.

Present trade with the United Kingdom presents a situation exactly opposite to that prevailing a year ago. The strong first half-year demand in 1955 for grains, forest products and non-ferrous metals had produced a 35 per cent increase in Canadian exports to Britain while imports from Britain, affected by strikes and more active demand for goods in the U.K., declined by 10 per cent. Mr. Landey reports that the United Kingdom's share of total Canadian exports declined from almost 19 per cent last year to 16 per cent this year; her proportion of Canada's import total increased by a small fraction to over 8 per cent at the same time.

The shapest major group decline in Canada's export trade with Britain took place in forest products; exports of planks and boards, and to a lesser extent wood pulp, declined markedly although newsprint gained substantially. Greatest decline for any individual export commodity occurred in barley and the drop for tobacco was also large; wheat and flaxseed sales picked up although other agricultural products lost ground.

On the import side, gains are reported for rolling mill products, automobiles, pipes, tubes and fittings, machinery, electrical apparatus, and non-ferrous metals and products.

inent's productive capacity could be seriously impaired.

Any potential attacker of North America is faced, of course, with retaliation that could bring him the same destruction or worse. But it is obvious why officials of all western countries feel it is more vital than ever to frustrate an attack by a system of passive defence. In this continuing need to use the Deputy Co-ordinator's words again: "Civil defence is now a permanent partner of military defence."

## NEWS FROM Victoria

By J. K. Nesbitt

VICTORIA — The overwhelming victory of Premier Bennett's Social Credit government was nothing short of phenomenal. As one contemplates it, one is quite breathless.

The government might have been expected to hold its own out to increase its legislative majority the way it did was truly extraordinary, for few governments in our history had been under such fierce attack during what was a fierce election campaign.

The Premier now has a clear mandate from the people to go right ahead and do what he thinks is in the best interest of all the people. Few premiers have been so widely endorsed. Mr. Bennett has a tremendous responsibility, but so far the people have evidently not found him wanting, and he has demonstrated a quite uncanny knowledge of how to please them.

**NEW LOW EBB**  
The Liberals have reached a new low ebb — two members in the House — and they are almost finished, as most definitely the Conservatives are. The leaders of both these parties, Mr. Laing of the Liberals and Mr. Finlayson of the Conservatives suffered personal crushing defeats.

Since 1952, the electorate has been methodically, deliberately, ruthlessly whittling down the two old-line parties, until there is nothing at all left of the Conservatives in the House, and nothing much of the Liberals. Another election, and the last of the Liberals, too, will no doubt go the way of the Conservatives.

We are now back to the two-party system in B.C., a fact which became evident in the 1952 election, and those two parties are Social Credit and CCF.

**CCF OPPOSITION**  
The CCF lost seats, but should make a good opposition. Its strongest voices are back — Robert Strachan of Cowichan-Newcastle, the leader; Randolph Harving of Kaslo-Stewart, the finest, most polished legislative debater in the province; Leo Nimblett of Cranbrook, a rough-and-tumble fellow, knows how to get under the government's skin; John Squire of Alberni, who'll take no — what he considers nonsense from the government; grand old Emile Winch of Burnaby, who won't be quiet when he thinks there's something to be said; Arthur Turner of Vancouver East, the plodding type; and a very charming lady, new to the House, Mrs. R. W. Haggan of Grand Forks-Greenwood. And, in the opposition, don't forget that amazing politician who has been winning elections in B.C., all on his own, since 1920 — Tom Uphill of Fernie.

The Social Credit victory washed into the Legislature two men who had been there before, but under different labels. Bill Asselstine, who was once a cabinet minister of the Pattullo Liberal government won in Atlin and A. W. Lundell, once a Conservative MLA in Coalition days, took

Revelstoke seat from the CCF. And Mrs. Buda Brown, a lady of personality — plus, and a great worker when she gets on a crusade, who used to be a Conservative, won in Vancouver-Point Grey. Her husband, Don, was once a Conservative MLA for Vancouver-Burrard in the time of coalition.

The victory of R. E. Sommers, former minister of lands and forests, in Rossland-Trail, was nothing short of almost unbelievable. The people up there showed they had absolute confidence in him, despite all that had been said about him in the campaign by the opposition, vicious things, which often made him powerless to defend himself. So, too, did the people of B.C. vindicate Bob Sommers.

Premier Bennett didn't lose one of his cabinet ministers. Few premiers can say that. Usually, in a general election, even though the government's returned, one of the cabinet ministers falls by the wayside. But not this time in B.C. — yes, it was truly a phenomenal election, which will provide food for political thought for many months to come.

**PRIMO GETS CHANCE**  
**VANCOUVER (BUP)**—Primo Villanueva is coach Clem Crowe's choice for quarterback tonight when B.C. Lions play Edmonton Eskimos in a Western conference football game.

## civil defence notebook

Canada's armed forces exist primarily to fight the enemy if he attacks, but in recognition of the importance of civil defence, they are now prepared to lend their aid on the civilian front if necessary.

G. S. Hatton, Deputy Federal Civil Defence Co-ordinator, has said: "The successful military defence of a country is the best type of defence, but since we are assured that no defence can be perfect and that enough bombers may be expected to penetrate our military defences to cause mass destruction, we must spare no effort to build a strong civil defence."

The whole country — the services no less than the civil population — is involved in civil defence.

The army in particular has been prepared to augment civil defence. By the spring of 1956 its five commands across the country were scheduled to have set up each a mobile support group designed to meet the peculiar needs of the area it would serve in war or natural disaster.

In outlining the army's plans for supplementing civil defence organizations, Brig. E. B. Rothchild, of the Joint Chiefs of Staff Committee in Ottawa, said army commanders would appoint liaison officers to work in co-operation with local civil defence authorities.

The mobile support groups are designed to help the civil defence effort primarily in time of war, he said. But the armed forces, as he said, have always been the case, would provide all the emergency assistance required of them in event of any natural disaster such as

floods, fire and so on. In many cases this assistance likely would include the mobile support groups.

The military would come to the aid of the civilians at the request of the civil authority, as it always has. In communities with a civil defence organization, military assistance would be provided at the invitation of the civil defence authorities and over-all direction of joint army-civil defence projects would be supplied by civil defence leaders.

Everything possible is being done to provide Canada with adequate air defence, but as civil defence officials know, no such defence can be perfect.

At present, three chains of electronic warning devices are being built across the continent by Canada and the United States. One is along the U.S.-Canada boundary, another is across the middle of Canada and the third — the DEW line — along Canada's northern most fringe.

But these lines, even when completed, will not stop enemy bombers. They will warn of their approach and the task of stopping them would fall to the air forces of both Canada and the U.S. Even then, it is considered impossible to guarantee that every bomber, each of which likely would be carrying nuclear bombs, could be stopped short of the populated areas.

There are about 40 cities in North America where population and industry is concentrated. If only 10 per cent of a 400-plane attacking force — a very small average compared to Second World War experiences — got through, the heart of the con-

## Our Glorious Commonwealth

Canadians may be forgiven for wondering whether the Commonwealth, which now includes one police state patterned in fascist tradition, and one other state that is well on the way to abolishing press freedom, is not becoming more of a liability than an asset.

Such are thoughts that come to mind in light of the South African Government's move to enforce as part of policy of "apartheid," which is the Boer word for segregation, the so-called Group Areas Law.

First step in enforcement of this totalitarian-tainted law is forcible eviction from their homes of 60,000 Africans living in the suburbs of Johannesburg. All are being transferred to new townships, really glorified concentration camps, set up in remote farmland

districts. Authoritarian South Africa today is a far cry from the great dream of imperial freedom cherished by Cecil Rhodes. It is a grim travesty of the democratic traditions of the late Jan Christian Smuts who, with Canada's late Prime Minister Sir Robert Borden, was one of the founders of the Commonwealth.

Totalitarian taint may be detected too in India, where Parliament has just passed a new press law, which provides for government control of size of newspapers and volume and cost of advertising. Such control, which empowers the government to pass sentence of economic death on any publication that incurs official disfavor, is not different in principle from political censorship and foreshadows the end of press freedom in India.

## Okanagan Bananas

Since 1885 the world has been warming up. If the trend continues, says The Financial Post, in its current issue, that could mean for Canada a northern extension of the tree belt and grain-growing areas, wider use of tender crops like tobacco, corn and soybeans, more power from bigger rivers and a longer season for navigating.

Unfortunately, however, the weather men are by no means agreed that the recent warming trend will continue.

Some say it will because world industry is establishing an insulating blanket of carbon dioxide above us, more being pumped into the air than can be absorbed by the oceans. Others equally emphatic say we are due for a regular cooling cycle and that it has already started as indicated by the re-advance, after a long retreat, of northern glaciers.

It's going to take a few years at least to settle that argument.

# In And AROUND TOWN

SOCIAL EDITOR

MRS. HAROLD MITCHELL

DIAL 4055

# The Woman's Page

Mr. and Mrs. G. F. Berryman, Poplar Grove, have returned after visiting in Vancouver with their son-in-law and daughter, Mr. and Mrs. Cliff Wight, and three sons.

Visiting in Penticton last week with Mrs. Tommy Walker and daughter Janice was her son-in-law, George Daft, of Vancouver.

Mr. and Mrs. Thomas Clements and son Tommy were weekend visitors in Vancouver.

R. G. Reid returned on Friday to his home at Edmonton after visiting for the past three weeks with his sister, Mrs. Margaret Young, his brother George Reid, and his niece, Mrs. James Hendry, Mr. Hendry and Linn.

The Misses Lila and Katie McIntosh have returned home after a week's vacation at Shuswap.

When a group of Peach City Promenaders motored to Coulee Dam last week to attend a square dance session, they were all recipients of "Knot Head" badges, a token awarded to any square dance enthusiast travelling more than a hundred miles to attend such a function. This badge is presented in the western provinces and the States in promotion of interclub visits.

Among those attending the dance were Mr. and Mrs. Dave Craig, Mr. and Mrs. James Hendry, Mr. and Mrs. Harold Hoy, Mr. and Mrs. James Jenkins and Mr. and Mrs. Percy Coulter.

Mrs. Kenneth Davenport has arrived home after making a short business visit in Vancouver.

## Music Teachers Elect Slate For New Term

Mrs. Monica Craig Fisher was re-elected president of the Penticton Branch of the Registered Music Teachers' Association at a recent meeting held at the home of Mrs. Dorothy Fraser, Osyoos. Other chosen to hold office for the ensuing term were Miss Kay Hamilton of West Summerland, vice-president, and Mrs. Catherine Lee, secretary-treasurer. Final arrangements were made to sponsor the concert being given in Penticton next month by two outstanding Vancouver artists, Valery Lloyd, pianist, and Verek Hewett, soprano.

A forum of valley music teachers is planned in the near future with several interesting speakers. This will bring together teachers from Vernon, Kelowna, Summerland, Penticton, Oliver and Osyoos, with the main subject for discussion being complete registration of music teachers of B.C. Reports were read from Victoria on the recent music teachers' convention held there, and plans were discussed regarding the suggestion that next year's provincial convention be held in Penticton.

Those present were Mrs. T. M. Houghton and Harold Ball, Oliver; Mrs. Lee, a new member; Mrs. Craig Fisher, Mrs. H. D. Hughes, Miss Frances Latimer and Mrs. Mayda Estabrook, all of Penticton; Miss Hamilton, West Summerland; Mrs. Sutherland, Oliver, and Mrs. Fraser, Osyoos.

## Naramata Institute Holds Hobby Show At Fall Meeting

NARAMATA — A lovely and unique collection of china cups and saucers and souvenir spoons which belongs to Mrs. James Gawne was displayed in the hobby show held by the Naramata Women's Institute following the first meeting of the fall session at her home Monday evening. Other interesting hobbies included displays of handcraft of various kinds, copper and enamel craft, ceramics, and needlework. Although not a member of the WI, Mrs. Gawne invited the members to hold their meeting at her home to see her hobby collection.

A short business meeting preceding the social hour and show was conducted by Mrs. Donald Salting in the absence, owing to illness, of president Mrs. J. A. Drought.

A motion proposing a donation to the Little League and to the Soap Box Derby was approved.

Following adjournment, refreshments were served by Mrs. Jens Pedersen, and Mrs. W. V. Hardman. The next meeting of the Institute will be held at the home of Mrs. Hardman.

ROLAND GEORGE SCHWARZ AND HIS LOVELY BRIDE, the former Miss Chloe Joan Cardinall, principals in a ceremony on Saturday evening in St. Saviour's Anglican Church, are shown above with the bride's charming attendants, Miss Joyce Elgert (left) and Miss Sandra Cardinall, her sister, standing next to the young couple.

## Similkameen P-TA Scholarship For Barbara Andrews

KEREMEOS — Miss Barbara Andrews, currently attending UBC, was named winner of the South Similkameen Parent-Teacher \$100 scholarship at a meeting of the organization on Monday evening. Mrs. B. Sykes, chairman of the scholarship committee, released this information to the many attending the first meeting of the season following a summer recess.

A welcome was extended to the new teachers; Mrs. E. C. Clarke, who was introduced by K. E. Wilson, principal of the Cawston Elementary School; to Mrs. R. Anderson, home economist; Mrs. M. Boyko, in charge of music, and Michael Lutack, instructor in French, the latter group being introduced by F. C. McCague, principal of the Similkameen Junior High School.

Committees were appointed for the ensuing school term; Mrs. S. Broderick, Mrs. K. Walters, Mrs. L. Peach and Mrs. E. M. Burdett, program; Mrs. A. Egl and Mrs. M. Boyko, music and fine arts.

There was some discussion regarding sewing classes under the Extension Department, UBC. Those wishing to take instructions are requested to contact the secretary, Mrs. F. B. Tesscan, as soon as possible.

It was decided to invite the Oliver Choral Society to bring its Christmas production to Keremeos.

President Mrs. A. F. A. Yung announced the P-TA Regional Conference in Grand Forks on September 27. Another announcement was the possibility of grade one pupils being able to receive Salk vaccine at an early date.

Mrs. Yung also made an interesting announcement concerning Alvin Neumeier, winner of the McLean Scholarship for \$250. Apart from the scholarship Alvin is financing his course at UBC, having spent the vacation in forestry in central British Columbia. This promising young student intends to become a doctor with specializing in brain surgery as his goal.

Mrs. Yung also submitted a short but excellent address in which she outlined briefly tentative plans for a busy productive year's work for the organization.

Mrs. Donald Fry, in her usual pleasing manner, rendered two musical selections, accompanied by Mrs. B. Sykes. Community singing under the direction of Mrs. Fry was much enjoyed. There was an excellent attendance, particularly for this busy season and delicious refreshments were served by the committee in charge.

## FUR MUFFS GO BIG IN AUTUMN FASHION

Big fur muffs are big fall, fashion — the bigger (and softer) the better. Flat, squared to rectangular shapes are favored.

Shorter sleeves on jackets and coats make muffs a beautiful necessity in cold weather, and they're appropriate to the current styles that recall pre-World War I days when muffs were a must.

MR. AND MRS. ROLAND GEORGE SCHWARZ are pictured as they leave the church following the pretty autumn wedding.

## "Blues In The Night" Musical Theme Chosen For Cabaret Dance

Final plans for the fall cabaret dance with the romantic musical theme "Blues in the Night" were made at the first general meeting of the Junior Auxillary to the Penticton Hospital following the summer recess. Mrs. Louis Hohenadel, president of the auxiliary, conducted the meeting in the Red Cross Centre last Wednesday when reports were made regarding arrangements for this annual social event to be held in the Legion Hall October 19 under the convener'ship of Mrs. H. B. McGregor with Mrs. W. Roy Walker as co-convenor.

Entertainment featured for the dance is under the direction of Mrs. W. F. Gartrell and rehearsals are in progress. Mrs. A. Earl Wells is convener of the decorations committee and a most effective setting has been planned. Mrs. James Fleming is in charge of the raffle and reported that the first prize would be a 15-piece Paragon bone china coffee set donated by W. R. Cranna and Sons Ltd. Second prize will be a Berkeley automatic frying pan donated by the T. Eaton Co. Ltd. with the third prize consisting of a back-up light donated by Bella Paris and Equipment Ltd. and a fishing rod donated by Pye and Hillyard.

Mrs. J. A. Holla reported that tickets would be available at the O. M. MacInnis Rexall Drug Store as well as from members. Other committees for the dance also reported on their arrangements, including Mrs. R. W. Slade, novelties; Mrs. C. L. Cedarstrand, costumes; Mrs. O. M. MacInnis, advertising; Mrs. Ralph Robertson, poster; Mrs. D. J. Delves, reservations; Mrs. Gordon G. Walker, refreshments; Mrs. Howard Ware, soft drinks; Mrs. H. L. Campbell, servitours. The president was pleased to report that the first prize had been won by the auxiliary float in the Peach Festival parade and the silver trophy was displayed at the meeting. The report of the float committee was given by Mrs. J. G. H. Edwards.

## Chloe Cardinall Bride Of Roland Schwarz In Pretty Autumn Ceremony

Chrysanthemums in all their richly shaded hues of the golden yellows and bronze banked the altar in St. Saviour's Anglican Church on Saturday evening to provide a lovely setting for one of the prettiest ceremonies of the season uniting in marriage Chloe Joan Cardinall and Roland George Schwarz. Rev. Canon A. R. Eagles officiated for the daughter of Mr. and Mrs. E. C. R. Cardinall of this city and the son of Mr. and Mrs. G. F. Schwarz of Kaleden.

Given in marriage by her father, the lovely brown-eyed bride chose cotton Valencia lace and net over crinoline for her bouffant floor length original model gown. Net ruching and scroll braid defined the lace panels set into the full skirt topped with a matching cutaway lace jacket featuring long sleeves, and portrait collar. Seed pearls and sequins dusted the pretty collar. A circlet of carnations clasped an embroidered veil as it misted to cathedral length. She carried yellow and bronze chrysanthemums in her bouquet reflecting the autumn motif of the wedding.

Attending the bride were her sister, Miss Sandra Cardinall, and Miss Joyce Elgert, both in full length frocks of aqua blue. They wore white carnation hair bandeaux and carried yellow 'mums and white carnations in their bouquets.

Dannie Fretz was best man, while the bride's twin brother, Edward Cardinall, and Allen Garlinge ushered.

During the signing of the register, Mrs. J. A. English sang "The Lord's Prayer". H. J. Lupton was wedding organist.

A reception followed at the

Skaha Lake Bench home of the bride's parents where the toast to the bride was proposed by Edgar Dewdney.

Autumn pink and white roses decorated the beautifully appointed reception table centred with a tiered wedding cake and tapers. Among those assisting in serving were the Misses Trudy Dafoe, Maureen O'Brian, Wendy Farmer, Doris Schwarz and Joan Graham.

When the young couple left for a motor trip to the States, the bride was charming in a pink suit, white accessories and pink carnation corsage. They will take up residence in Penticton on their return.

Among the out of town guests were Mr. and Mrs. E. R. Cardinall and family, Vancouver; Miss Pamela Jackson, Esquimalt; Mr. and Mrs. G. Homer, Vernon; Dr. R. F. McNaughton, Vancouver; Miss Joan McKinnon, Salmon Arm; Ken Phipps, Vancouver; Miss Pam Hawtree, Kamloops; George Fudge and Mr. and Mrs. I. Wittner, all of Summerland, and Mr. and Mrs. I. Jackson, Tripanier.

## NARAMATA LOCALS

Miss Yvonne Partridge left on Sunday to return to the RCAF station at Rockcliffe after spending the past two weeks visiting her parents, Mr. and Mrs. Roy Partridge. Miss Partridge will leave shortly for England where she has been posted with the Air Force for two years.

Mr. and Mrs. F. N. Ritchie, recent arrivals in Naramata from Quebec, have purchased the P. B. Chambers orchard and will take up residence there with their four children the first of next month.

Mr. and Mrs. Fred Mathers of Vancouver and Miss Gretchen Mathers of Wetaskiwin, Alberta, were weekend visitors with Mrs. Mathers' sisters at the Naramata Lodge.

Mr. and Mrs. Donald Salting left Friday on a fishing trip which will take them to points north.

The Naramata Women's Institute held a successful "Bake Sale" on Wednesday afternoon in the fire hall. Arrangements for the first fund raising project of the fall were under the direction of Mrs. C. K. Raitt, Mrs. L. N. Wishart and Mrs. J. E. Gawne.

Mrs. Gwen Hayman will leave on Monday for a visit in Vancouver.

Mrs. Charles Miller of Gearhart, Oregon, is a guest with her son-in-law and daughter, Mr. and Mrs. Charles Tyndall.

Miss Allison Braidwood, daughter of Mr. and Mrs. W. G. Braidwood of Sandy Beach Lodge, left on Monday for Vancouver where she will resume her studies at the University of British Columbia.

Former Penticton residents, Mr. and Mrs. Bob McDougall and family are in residence in the H. P. Salting home in the Naramata village.

Mrs. David Berry of Victoria is currently visiting her son and daughter-in-law, Mr. and Mrs. Stuart Berry, and family.

The work of the retiring members of the executive, Mrs. A. F. Day, Mrs. W. H. Morgan and Mrs. Dinney, and also thanked Mrs. Tommy Walker, who is moving to Kelowna, for the active part she took in the work of the auxiliary.

The auxiliary welcomed as new members, Mrs. D. A. Beresford, Mrs. D. Bruce, Mrs. Eric J. Cunningham, Miss Marge Delaney, Miss Nan Campbell, Mrs. J. B. Duns, Mrs. W. D. Heron and Mrs. L. J. Rees.

**SHAKING HANDS AFTER A CLIMACTIC BATTLE FOR THE HERALD CUP**, yesterday, at Penticton Lawn Bowling club are Bert Lintott (left) and George Hill. Hill's Civic B club won the triples crown 19-14 after tying Lintott's Legion A three times during the game. Looking on in the background are, left to right, Lintott's lead George Chapman and second Orlo Murray, and Hill's lead Willie Dunbar and second King Gurney.

**Braves Regain Top Place But...**

Opportunity knocks twice tonight for the Brooklyn Dodgers to take tactical command of a National league pennant race that's in "suspended animation" for 24 hours.

Even the official standings of today don't present a clear picture of this craziest, most-mixed-up of all races.

They show the Milwaukee Braves leading the Dodgers by a half game but they don't show that the world champions need only three little putouts to make yesterday's suspended game with the Pittsburgh Pirates an 8-3 victory and go into first place by one point.

Then, the Dodgers would have the second opportunity—to beat the Pirates in the regularly-scheduled night game and go a half-game ahead of the Braves with the added advantage of having one more game to play than Milwaukee.

Clem Labine is expected to pitch for the Dodgers in the regular game with Bob Friend going for the Pirates. Friend has beaten the Dodgers three times this year and only last Thursday topped the Braves, 2-1.

When—and there's always that wee little "if"—the Dodgers officially close out the suspended "victory," Don Newcombe will be credited with his 26th win of the season. The big right-hander was touched for eight hits but the Dodgers supported him with a 12-hit attack that included two homers and a single by Gil Hodges. Duke Snider and Roy Campanella also weighed in with two hits each for the Dodgers.

Bill Bruton smashed a grand-slam homer and collected three other hits to lead the Braves to their 7-4 victory over the Chicago Cubs. Bob Buhl received credit for his 18th win although he needed help from Gene Conley for the last 1 1/3-innings. It was the first grand slam of Bruton's career.

The Cincinnati Redlegs, refusing to give up in the face of overwhelming odds, moved within a game and a half of first place when they beat the St. Louis Cardinals, 3-2 and 5-4. Ed Bailey's 10th-inning pinch-homer won the opener while a three-run homer by Gus Bell and Wally Post's 36th round-tripper powered the Redlegs to victory in the nightcap. Rookies Don Gross and Tom Ackler were the winning pitchers.

**SEATTLE—(UP)**—Seattle Americans of the Pacific Western Hockey league start training today for an exhibition game against Vancouver Canucks Saturday.

They open their season against New Westminster Royals October 9.

**Sox Take One-Game Lead In Baseball's Final Series**

**Bud Russell Hits Three-Run Homer As Sox Globber Kamloops In Opener**

**KAMLOOPS**—Len Gatin, the man with the iron arm, rusted out at last yesterday and Penticton Red Sox began to look like potential Okanagan Mainline baseball league champions.

The Sox walloped Kamloops, Okonots 9-1 on an eight-hit attack and took a one-game lead in the best-of-three series for the OMBL crown.

Okonots, first-place finishers at the end of the regular season, left their fans wondering how they did get into top place. They fumbled six times and were generally sloppy in all departments.

**RUSSELL HOMERS AGAIN**

The Sox, sharp as a mother-in-law's tongue, outpitched and outfielded Kamloops. They committed no errors.

Bud Russell, who knocked a grand-slam homer last week against Kelowna Orioles, nearly matched his feat again yesterday, hitting a three-run homer that contributed nearly half the seven runs Sox scored in the deciding sixth inning.

Sox got their other two runs in the first.

Gatin, who pitched Kamloops single-handedly to the finals, went to the showers in the sixth after Russell's homer and doubles by Bill Raptis and Doug Moore.

**DURSTON FANS SIX**

Jack Olson took over to hold the Sox hitless through the last three innings.

Winner was Jack Durston, who allowed only five well-spaced hits, struck out six men and walked only three.

Kamloops' only run came in the sixth inning, when Jack Fowles scored on a fielder's choice. The Okonots banded out three of their five hits—all singles—in that frame. It was the most they could get off Durston at any one time.

Sox started the scoring after Gatin walked both George Drossos and Russell. Bill Raptis knocked in Drossos and Doug Moore smacked a long sacrifice fly to bring Russell home.

**DROSSOS TO DROSSOS**

In the sixth inning, Sam Drossos reached first base on a walk and scored on a wild pitch to put Penticton ahead 3-0.

Durston's single scored Doug Moore. Durston, and Charlie Richards were on the bases when Russell stepped up to knock the ball out of the park and the Okonots' chances.

Completing the cycle, Sam Drossos bashed out a single to score Bill Raptis before the side was retired.

Next game of the finals is scheduled for Sunday at King's Park here.

**BUD RUSSELL**  
... three-runner

**JACK DURSTON**  
... five-hitter

**Marauders Win Second Straight**

Penticton's Marauders got off to a two-game winning streak during the weekend—a feat unparalleled in the team's short history.

Marauding for the first time, the intermediate football team crushed Surrey Rams 26-13 at New Westminster with rookie Doug Weeks scoring two touchdowns—both on long broken-field runs.

The Marauders are now assured of probably breaking and at least tying their former win record. They've never managed to win more than two games a season.

**O'Doul Leaves Mounties**

**VANCOUVER—(BUP)**—Vancouver Mounties of the Pacific Coast baseball league were without a field boss today with the announcement that manager Frank J. (Lefty) O'Doul had signed to handle the rival Seattle Rainiers in 1957.

Seattle officials said O'Doul would be paid approximately \$18,000 for the season. In the Rainiers, the 59-year-old one-time National League batting champion will be taking over his fourth PCL club.

He was hired to launch the Mounties this summer in their first fling at PCL competition.

With the announcement of O'Doul's switch to Seattle, speculation arose that Bill Brenner might be named to pilot the Vancouver club in 1957. Brenner, currently a coach with the Vancouver Caplanos to a pennant in 1954 in the now-defunct class "A" Western International League.

He managed the Rainiers on a temporary basis through the latter weeks of the season just ended after Luke Sewell resigned from the job.

**Stamps Sign Douglas Replaces Hennemier**

**CALGARY, ALTA.—(BUP)**—Calgary Stampede, collar-dwellers in the Western football conference, today announced the signing of Oris Douglas as their new head coach.

Douglas takes over the job of coaching the cowboys from Jack Hennemier, fired by the directors of the WIFU club last week.

Byers took a kickoff and raced it back to the two-yard line to set up Eddy John's touchdown—the good one. John bucked the centre of the line to get it.

Penticton's other two points came on a safety touch. They nailed the Rams quarterback behind his own goal-line with the ball. Stoochnoff and quarterback Bud Tibball were outstanding for the Marauders and got a lot of protection from the charging line. Davis particularly praised Bill Neaves, Benly Corrigan and Bill Swardy for outstanding line work.

Only bad news to come out of the game is that Ernie Seronik, the Marauders' rough-house tackle, has torn his ankle ligaments and may be out of action for as long as a month.

Next practice for the Marauders is tomorrow and next game will probably be Sunday at Kelowna against Kamloops Kougars.

**GAME POSTPONED**

A scheduled soccer game between Penticton's Queen's Park Rangers and Kamloops United was called off yesterday when Kamloops was unable to make the trip.

Next game for the Rangers is this coming Sunday against Armstrong at Queen's Park.

**Western U., Paraplegics The Winners**

**VANCOUVER—(BUP)**—The University of Western Ontario Mustangs headed east today packing the Churchill cup after trouncing the University of British Columbia Thunderbirds 38-14 in the fourth annual Paraplegic Bowl exhibition football clash in Vancouver Saturday.

The Mustangs, in their first appearance in the series, gave the east its third win in four tries. The McGill Redmen, their rivals in the Eastern Inter-Collegiate Football Union, appeared in all three previous presentations of the now-traditional September exhibition.

With quarterback Art Turner sparking their newly adopted split-T attack, the Mustangs led throughout the game, opening with a rouge in the first quarter. The B.C. squad at no time posed a threat.

In the second quarter, the Mustangs piled up two converted majors, while the Thunderbirds countered with one.

B.C. got a rouge in the third and then went over for their second touchdown, after the Mustangs added a converted major, and followed with another.

Proceeds of the game go each year to the Canadian Paraplegic Association.

**Arsens, Marlow Top Fraser Cup Golf Matches**

Winners of the qualifying round for the Fraser cup on Sept. 11 were M. Arsen, Silver Div., with a gross 95 and J. Marlow, Bronze Div., with a 94.

Last week in the two ball foursome mixer Y. McCune and M. Hill were the winners with a net 37.

Draw for Tuesday, Sept. 25, qualifying round for Malkin Cup-P. Betts, E. Johnston, F. Latimer, I. Guile, M. Perkins, M. Arsen, G. Ritchie, G. Mather, B. Jamieson, M. Joplin, E. Kernaghan, G. Parnley, E. Grove, P. McDonald, G. Syer, L. Tyley, N. Dalnes, J. Marlow, M. McArthur, E. Southworth, M. Hill, G. Dean, A. Lawson, M. Thom, P. Gwyer, B. Fuller, Y. McCune, P. Parnley.

**Vees Scout Pro Players**

The Vees are on the prowl for hockey players—and coaches.

Team manager Don Emery will be down in Seattle and at Vancouver this week scouting prospects at the Seattle Americans, Vancouver Canucks and New Westminster Royals' training camps.

At the same time another party of Vees' directors—possibly including publicity director Grant King—will be off in the other direction at Calgary.

Coach? The Vees still aren't saying anything but they hope to have word sometime this week.

**COMING!**  
Thurs.-Fri.-Sat.  
Sept. 27-28-29

**Buy Day!**

Read All About It In Wednesday's Penticton Herald 4 FULL PAGES crammed with DAY SUPER VALUES

**Kencos, Omegas Both Pre-Season Champions**

By TED SMITH

Penticton basketball officials over the weekend expressed optimism for the coming basketball season.

They expect this season to be one of the best since basketball went into the doldrums because of hockey.

For the last two seasons Penticton has hosted the B.C. Interior senior women's basketball by a small margin to UBC champions. Last Penticton women's team, the Kencos, lost out Thunders in a tough series here at Vancouver. If this series had been played in Penticton, it is quite likely the verdict would have been reversed.

At the present time the strength of the Kencos squad is very doubtful, says coach Dennis Jeffery.

This year's team could be even stronger than those of the past two years if two doubtful starters return to the lineup. Janis Corbett and Del Herbert, stars of last year's playoffs, maintain they will not be back this year which could mean a much weakened team.

Returns from last year's team include Joan Buffum, Miriam Dennis, Mariene Almas, Mary Brelekovich, and Sheila White. Former Pen Hill Lakettes star Elnore Hines, now teaching in Penticton, is expected to play for the Kencos, so is Francis Stonehouse, formerly of Chilliwack.

Penticton's Omegas are planning to field a championship team this year. Many stars of former years plan to return to the Omegas lineup which, with a liberal sprinkling of recent high school graduates, should give Kamloops a good run for the league championship.

Lloyd Burtart, Dennis Jeffery, Bill Raptis and Tod Foley Bennett are leading the returnees from last year's team along with Ted Mossell, who moved to Penticton late in the season. Some names that have been missing from the Penticton lineup for the past few years and who are expected to be heard from frequently this year are Larry Eshleman, Eric Boutbee, Bill Hanton and Willard Burtart.

Coming up to the Omegas from the Pen Hill Lakettes this year will be guards George Drossos, Charlie Preen, Charlie Richards, Don Marshall and Mike Derrl.

Preen and Drossos were starters for the Lakers for many seasons and helped take the Pen Hill team to two straight Interior championships.

Penticton Basketball Association is organizing a raffle of two watches donated by Crannas Jewellers. Tickets go on sale next week. The proceeds from these raffles will go to purchase uniforms for the Omegas. Tickets are available from any executive member.

Practices for the Penticton teams are expected to start Oct. 3 in the old high school gymnasium. Times for the various teams will be announced later.

With two contending teams like the Kencos and Omegas, Penticton Basketball association is hoping for a good year at the gate as well as on the floor.

Only through the generosity of the Penticton School Board has it been able to maintain basketball here for the past few years and it is hoped that this year it will be able to more than adequately cover their own expenses.

**Fur Will Fly As Eskis, Lions Meet Or Will It Be Glem Crowe's Hide?**

Western football's mighty Edmonton Eskimos hit the west coast bent on fattening their first-place cushion today after burying the Calgary Stampede's 52-0 Saturday night for their seventh win in eight starts.

With a chance to stretch their lead over the Saskatchewan Roughriders, who captured second place Saturday by beating Winnipeg 24-7, coach Frank Ivy's national champions were solid favorites to register their 12th straight triumph over British Columbia's leaderless Lions at Empire Stadium.

The forecast was bleak for the partisan British Columbia supporters whose fourth-place team has gone winless in 10 league meetings and one exhibition against the Eskis.

Quarterback Jerry Gustafson was reportedly definitely out with a back injury that hasn't responded.

The Eskimos, meanwhile, were in fighting trim after picking on Calgary for the most lopsided conference win of the year. The champions scored seven touchdowns against the hapless cowboys, who fired head coach Jack Hennemier last week and went into the game under the direction of Tommy Thompson.

They added three converts, a field goal, a safety-touch and two singles while burying Calgary deeper in the league cellar with a dismal 2-7 record.

Second-string fullback Bob Kimoff paced the Eskimos with two majors.

The season's biggest crowd at Winnipeg stadium experienced bitter disappointment as Saskatchewan employed the passing arm of Frank Tripucka to flatten the Blue Bombers and snap a second-place tie between the two. A total of 19,053 fans saw the Riders strike for 256 yards through the air on 18 completions in 30 attempts.

Quarterback Eagle Day of the Bombers countered with 11 completions in 24 tries, good for only 158 yards.

The Riders got in front on a punt by halfback Larry Isbell that went for a single.

Isbell and fullback Bobby Marlow counted touchdowns for Saskatchewan, with Isbell's coming off a 20-yard Tripucka pass. Guard Reggie Whitthouse converted both, and kicked two field goals.

The Riders got their other three points on three rouges against Winnipeg halfback Glen McWhinney, all of them off Isbell's punting.

Day punched over on a quarterback sneak from one yard out in the third quarter, to cap the only sustained Blue Bomber drive of the night.

**It's Hat Week at GRANT KING**  
MEN'S WEAR Company Ltd.  
323 Main St. Penticton, B.C. Dial 4025  
"FIRST WITH THE FINEST"

IT'S SCHOOL time again and that means milk time for growing youngsters. B.C. dairy farmers produce the best milk in Canada for the thousands of children in our expanding province. Seven-year-old Joanne Surplis found her glass of milk by going right to the producer.

# Delicious Apple Picking Work Starts This Week

General picking of Delicious apples will get under way this Thursday in the Penticton area, reports the Department of Agriculture in its latest Horticultural News-letter.

**Armstrong, Vernon, Oyama Winfield and Okanagan Centre**

As reported September 18: Since our last report the weather has been mostly warm and very dry with temperatures around the 80 mark, although quite cool at night. No frost has been recorded during the past two weeks and weather during that period has been ideal for the harvesting of ground crops and the picking of tree fruits.

The first spot picking of McIntosh was made in Oyama area on September 7 but picking in general did not get under way until September 13. Color of McIntosh has improved greatly during the past week and some good quality fruit is now moving into the packing houses. A heavy drop of McIntosh is now taking place in many orchards. The drop and small sizes could reduce our tonnage considerably. It now looks as though the apple crop in general will run heavily to smaller sizes. Harvesting of crabapples and prunes is now completed and Flemish Beauty pears were cleaned up during the past week. Picking of Anjou pears has now commenced but will likely not be general until the weekend. Some picking of early grapes has been made in the Winfield area. The grape crop is very light and it is doubtful if very much of the grape tonnage will reach the packing houses as much of it will be sold locally. Picking of Jonathan apples will likely start this week and Delicious will not be ready until the week following.

Vegetables are still moving in mixed car lots and at present growers are busy harvesting onions. The local cannery is working to capacity canning. Tomatoes for canning has been the best for many years. Watermelons of good quality have been harvested in the Armstrong area and is now almost completed. It is likely that the balance of the melon crop will be shipped out by this week end.

The last of the grain crop is now being harvested and should be completed within the next few days. Other growers are, at present, getting their land ready for fall crops. The early seeded fall grains are now well above the ground.

Codling moth and bud moth injury is now more noticeable than for the past two or three years and has caused considerable loss to growers who have omitted the regular control sprays.

Weather since the last report has been clear and warmer than normal for this time of year. Daytime temperatures up to 85 deg. F. have been recorded. At time of writing it is overcast and cooler. A few light showers would help put needed color on the Delicious crop.

The McIntosh harvest is now at the peak after getting away to a slow start with color picking. The warm dry weather has advanced the maturity rapidly while slowing up the color development. Apples have started to drop even in orchards that were sprayed with stop-drop hormones. Size of McIntosh apples is disappointing and with the drop an unknown factor at present the crop estimate for this variety in the Kelowna area has been reduced to two thirds of last year. Anjou pear harvest is under way on the earlier lots and here the picture is much brighter, with the crop heavy and the size peaking in the mediums. The date to start harvesting light crop Jonathans (most trees) has been set at September 18. However, growers will not start the Jonathans until the McIntosh are harvested. Harvest of the early lots of Delicious should start within a week's time. Delicious is generally satisfactory but color is slow.

Pests and diseases are well under control except for a few orchards where additional sprays for mites and aphids have been required to protect the fruit from loss of color and stickiness. Grape harvest is in full swing.

The weather this season has been favorable for the vegetable grower. Tomato fields are nearly cleaned of fruit and since there has been little verticillium wilt the yields are better than for several years. Onion harvest is over. The ideal curing weather has produced excellent quality onions free from neck rot which has plagued onion growers in recent years. Pole beans harvest is completed. Late lettuce, celery, cucumbers and peppers are available. Potatoes are being dug to order. Summerland, Westbank and Peachland.

As reported September 18: During the past two weeks we have experienced a late summer warm spell. Temperatures have been in the 80's almost every day and night temperatures have been warm.

The extremely warm weather is hastening maturity of the fruit and holding back full color development. McIntosh picking is in progress with about 60 per cent of the crop now off the trees. The picking of Anjou pears will be starting this week. The crop is heavy and size good. Italian prunes are being picked. The crop is larger than for several years and of excellent quality. This is the first year for several that little or no shrivelling has developed in this crop. The light crop on most late apple varieties and the warm summer, have hastened maturity of Jonathan, Delicious and other later apple types. Tree fruit harvesting will likely be completed by mid-October this year.

Owing to the dry warm season scab has not been a factor this year. Add fungus diseases have been at a low ebb. Insect activity has, however, been high. Codling moth are very numerous where inadequate spraying has been done. Mites have been troublesome all summer and even now the two-spotted and yellow mites are still active. Most apple orchards have been experiencing a late attack of green apple and woolly apple aphids. These aphids are feeding on the rather large proportion of late new growth found in the apple trees. In some cases late sprays have been needed to protect the fruit from "vanishing" with the honey dew exudate from the aphids.

In the field of vegetable crops this has been an ideal year. Consistently warm dry weather and the absence of frosts have permitted a much better than average tomato harvest. Onions and potatoes have also done well.

### Penticton-Naramata, Kaledon-Okanagan Falls, Keremeos-Cawston

As reported September 18: The weather has warmed up considerably since the last News Letter with day temperatures in the 80's and night temperatures in the high 40's. Soils are drying out and many growers are applying extra water. A strong south wind, which occurred on September 8, knocked off some Elberta peaches and apples, but the overall loss was not serious.

All tree fruits have been harvested except Anjou and sundry pears and apples. Growers are now in the middle of picking McIntosh and, due to drop and a predominance of small sizes, estimates have been reduced for this variety. Color of McIntosh likewise has not come up to earlier expectations. Delicious apples are scheduled to start in the Penticton area on September 27 for general picking. Size and color of Delicious are extremely variable, and in many cases a buckskin color is developing. Winesaps are sizing favorably but there is a suggestion of buckskin color, developing on this variety too.

Two-spot mites continue to persist while green apple aphids, which appeared to have subsided earlier, have built up rapidly in the past week.

### Oliver and Osoyoos

As reported September 18: The weather remains warm and dry. During the past few days a high of 89 has been recorded twice.

Several growers have found it necessary to spray for green apple aphids in order to stop the honey dew which is dripping onto the fruit. Other pests are of little concern at present.

Anjou pears and late varieties of apples are all that remain to be harvested. A few Delicious have been harvested but most growers are holding back a few days. The color which was improving very fast earlier in the month has slowed down with the warmer weather of the past several days.

## U.N. To Be Asked For Approval On Dulles Suez Plan

LONDON — (UP) — Britain will ask the United Nations Security Council to endorse the Dulles plan for internationalizing the Suez Canal, the foreign office announced today.

A foreign office spokesman said Britain will present the Dulles plan, accepted by 18 nations at the first London Suez conference, to the council when it meets Wednesday.

The plan drafted by Secretary of State John Foster Dulles has been rejected by Egypt.

### OLD INTO NEW

BUFFALO, N.Y. — (UP) — Silvio Barball recently turned down an offer of \$2,500 for an automobile that cost him only \$50. Barball, a garage operator, reconditioned the old car's two cylinder engine and rebuilt the wooden body. He also had the 42-inch wheels re-spoked and the rims capped with hard rubber new is a 1909 Chase runabout.

## Last Rites For Former Employee On Paddlewheelers

Funeral services were held Thursday, September 20, for Leslie V. Francis, 68, who was a former steward and purser on the Okanagan Lake paddlewheelers.

Mr. Francis died in Vernon on September 16.

Born in England, Leslie Francis came to Penticton in 1911 to work on the S.S. Okanagan, which plied between Penticton and Okanagan Landing along with her sister ship S.S. Sicamous.

In 1914 he became steward on the S.S. Sicamous. Later Mr. Francis transferred back to the S.S. Okanagan where he worked as a purser.

In 1931 he purchased an orchard in Naramata and has worked as an orchardist ever since.

His wife, Fannie Mabel, predeceased him on August 31, 1954.

Mr. Francis is survived by one sister, Ethel of New Milton on Hantsire, England; one brother, William of Bristol, and nephews and nieces in England.

Canon A. R. Eagles conducted the services for the late Leslie

HOLLAND, Mich.—(UP)—Ottawa County deputies and Coast Guardsmen leaped into action at reports of a rowboat adrift in Lake Macatawa shortly after 5 a.m. They boarded a cruiser and raced to the scene. "Man, what's the trouble?" came a voice from the bottom of the boat. "Can't a guy get a decent night's sleep around here?"

Francis in Penticton Funeral Chapel.

Committal followed in the family plot at Naramata Cemetery.

R. J. Pollock and J. Vince Carberry were in charge of arrangements.

## Triplets Given \$227, Numerous Gifts By Donors

At a presentation last week in Penticton Hospital, Mr. and Mrs. Earl Young, parents of the city's first triplets — Barbara, Beverly and Brenda — were given a cheque for \$227 and baby articles totalling approximately \$150.

These gifts were raised by the fund for the Triplets Committee, seven energetic women headed by Mrs. Robert Lampard.

Attending the presentation were the committee, E. F. MacDonald, hospital superintendent, and hospital matron Miss M. E. Walker.

In slightly over two weeks the committee collected the gifts and money donations. People from Vancouver and Summerland were among those who donated money.

The Penticton hospital had a fund container into which the hospital staff donated \$20.

**NUMEROUS GIFTS**

The gifts and their donors were as follows: three pairs of crib sheets, plastic pants and oyllets — Dean's Tots and Teens; three pair of plastic pants — Taylor's Drugstore; six feeding bottles and extra nipples — Robinson's Variety Store; three rubber dolls — Reid Coats Hardware Ltd.; electric bottle sterilizer — Wilcox Hall Co. Ltd.

Three feeding dishes, forks and spoons — Cranna and Sons Jewellers; three baby jackets — Connors's 5c to \$1.00 store; baby oil and three face cloths — Turk's Pharmacy; three plastic bibs, cans of baby powder — Rexall Drugstore; gift certificate for shoes — Barley's Shoe Store; one case of canned milk — anorimous; three bunny bags — Hudson's Bay Co.; three silver spoons — Berke's Jewellery.

Free portrait — Cameo Studio; clothes basket — Bennett's Hardware; six feeding bottles — Hickory Shop; \$2 gift certificate — Phil's Grocery; three rubber teddy bears — J. K. Novelty; three china mugs — Book Nook; three baby blankets — past child of Pythian Sisters; three pairs of felt shoes, plastic pants, socks — O.K. Exchange; month's supply of milk tickets — Royal Dairy.

Three vests — Penticton 5c to \$1 Store; fork and spoon — Jewel Box; three toys dogs — Street's Seed Store; month's supply of milk tickets — Valley Dairy; nightgown — Mrs. P. Van der Hoop; clothing — Mrs. G. Roberts; three highchairs — Pacific Brewers, agents.

Mrs. Lampard wishes to thank the members of her committee and the various householders and businesses who contributed to the fund.

## Bungalows by Burro

The United Nations estimates that 150 million families in underdeveloped areas lack adequate housing.

One answer is a frameless, build-it-yourself house designed by Canadians of Canadian aluminum. It needs no foundation; is non-corrosive and verminproof; is so lightweight that it is packed in cartons easily carried by plane, jeep or even burro.

The Colombian government has ordered 3,200 of them to help relieve the shortage of rural housing in that South American country. So it's not surprising, with aluminum travelling so far and doing so much, that Alcan is again increasing its smelting capacity in both Quebec and British Columbia.

## "Where, oh where, does our money go?"

**It's easy to keep track of your money with a Current Account at The Canadian Bank of Commerce**

You may wonder where your money goes. But one thing is certain, you can't save much unless you spend wisely and budget well. For good reason, you'll be far better able to keep track of your expenditures when you open a Current Account with The Canadian Bank of Commerce. This gives you these outstanding advantages:

At the end of each month, you receive a typed statement from us. This shows every deposit and every withdrawal you have made—as well as the balance standing to your credit. You also receive all your cancelled cheques. You'll find this combination a great help in keeping an exact record of your expenditures and receipts.

Open a Current Account with us today. Our nearest branch will be glad to help you.

**AUCTION OF TIMBER SALE X73017** There will be offered for sale at public auction, at 11:00 a.m. on Friday, October 12, 1956, in the office of the Forest Ranger, Penticton, B.C., the Licence X73017, to cut 187,000 cubic feet of Fir and other species sawlogs on an area situated covering Lot 3776, D.D.Y.D., south of Trout Creek. Three (3) years will be allowed for removal of timber. Provided anyone who is unable to attend the auction in person may submit a sealed tender, to be opened at the hour of auction and treated as one bid. Further particulars may be obtained from the Deputy Minister of Forests, Victoria, B.C.; the District Forester, Kamloops, B.C. or the Forest Ranger, Penticton, B.C. M110-113

**Faces Contempt Of Court Proceedings** VANCOUVER — (BUP) Contempt of court proceedings will be launched against a striking union in British Columbia today. Construction contractors accuse the president and secretary-treasurer of the tunnel and rockworkers union of defying an injunction issued a week ago against picketing. The strike has been going on for 12 days. Other unions have ordered their men to return to work on the strike-bound construction jobs. However, they have been reluctant to cross the rockworkers' picket lines.

TONS OF THE B.C. ATLAS of Resources are stacked and ready for mailing. Twenty-thousand pounds of a special paper was used for the 86 maps and photographs in this unusual book. Publication of the first atlas of this kind in North America was undertaken by the B.C. Natural Resources Conference.

## Flood Control

(Continued from Front Page) ed to solve without having adequate knowledge at their command to arrive at definite measures for control.

Mr. Meckling praised the more recent works undertaken on Penticton creek. He indicated that the combination of the use of weirs upstream and the clearance of the water below, as well as the concreting of the channel, seemed to work extremely well. Plain concreting of a channel does not always work, he added. In Trail, he pointed out, the concrete tube was eroded through by the abrading action of sharp grits carried by the stream.

On the flood measures presented to the convention, Meckling's resolution was vigorously debated. While the idea was not accepted unanimously, it was overwhelmingly supported.

Chief basis of the opposition: That the engineers' actions might be construed as attempts to dictate to the municipal governments. This idea was not accepted by the majority of delegates, however, who expressed the view that "someone must start this program, and it might as well be us."

**PIN-POINTS PROBLEMS** Discussions of the B.C. legislation governing provincial waters pin-pointed one of the problems linked with flood control in this province. It is the difference between the riparian rights existing in other parts of the world, and the system in B.C., where the use of the water may gain precedence over the rights of those owning properties flanking a stream.

In the debate of the resolution at the convention, it being

### Business Course

(Continued from Page One)

of the Jaycee college section runs for 24 weeks and is divided into four six-week sessions.

**INVESTMENT SESSION**  
The first session, investment, will run from the beginning of October to mid November and will be given by Jack Young of Okanagan Investments, who was Jaycee president during 1943-44.

The second session, insurance, is being offered by members of the Underwriters' Association.

A six-week session in business law is offered by the local Bar Association under the direction of Jaycee Fred Herbert assisted by Howard Callaghan and Peter Van Der Hoop.

The final six-week session will cover the subject of internal control and income tax, under the direction of accountant Merv Davis.

**PUBLIC SPEAKING**  
Students in the second course, effective public speaking, will be instructed to observe platform appearance and manner, and on how to create an effective speech by using correct procedure in speech construction and speech delivery.

Training in impromptu speaking and the art of introducing and thanking a guest speaker is also included in the course.

**LARGEST SINGLE-STOREY BUILDING** under one roof in Western Canada—Crown Zellerbach Canada Limited's Richmond box and paper converting division—was officially opened Tuesday (September 25). Main building of the plant, located on the south arm of the Fraser River, 25 miles south of Vancouver, covers 8½ acres. At peak season, more than 600 people are employed, producing a variety of products ranging from paper board boxes and cartons to table napkins, paper towels, waxed breadwrap and fruitwrap.

## Water Supply Problems Outlined To Engineers

Governing the legal phase of B.C.'s swift-moving streams, one of the province's greatest assets, was clarified for the B.C. Municipal Engineers at their convention here last week by W. A. Ker, deputy comptroller of water rights.

"In B.C., the hydraulic miners of the Cariboo gold rush days, and later the fruit ranchers of the interior, found that they required an assured supply of water not necessarily in the river or stream, but at the place of use, which might be some distance from the normal course of a specific stream," he said. "The present B.C. legislation is founded on the principle that that need must be met and assured."

"To accomplish this, the Act established that the sole right to the use of water is vested in the Crown; that to obtain usage of a stream necessitates a licence from the government. If this licence is not used, after having been granted, it can be cancelled. An appeal against cancellation can be made to the Court of Appeal of the province.

Priorities between various holders of licences on any stream are governed by "earliest date recorded", he explained.

**LAND EXPROPRIATION**  
"Holders of water licences have the right to expropriate land on which to construct pipe lines or other works that may be required," he said. "Compensation for land expropriation is settled by arbitration, or, in some instances by an engineer appointed by the Comptroller of Water Rights of B.C."

"Disputes between licences as to the mechanics of diversion of water are settled by engineers on the ground. There is the right of appeal to the Comptroller of Water Rights, and then, if a satisfactory answer is not obtained, to the provincial Minister of Lands."

The mechanics of obtaining a licence to use water by posting notices were outlined by Mr. Ker who also stated that to keep a licence in "good standing" the holder is required to make beneficial use of the water and to pay the annual rental fee to the province.

**FINAL WATER LICENCE**  
The speaker touched on another problem of particular interest to Penticton at this time: "The granting of a 'final water licence' as differing from the conditional licence. Though the final water licence does not give more authority, he said that it describes more accurately the works and the amount of water put to beneficial use.

"The operations division of the branch must give approval of all engineering plans for new dams and major hydraulic structures in the province authorized under licence, he pointed out. When plans are approved, the work itself is then subject to supervision to ensure that the project is constructed in accordance with the plans as submitted.

Leach noted the Alcan project, which was originally surveyed by the Water Branch in the 1930's; the Campbell River project, first investigated by the Branch in 1926, and, finally, the Whatshan plan, envisioned by them in 1944.

**IRRIGATION PROJECTS**  
Studies have also been made of several irrigation projects in the Okanagan, including seepage studies of the Vernon irrigation system, canal carrying capacities and extensions in the South Okanagan—Lands Project near Oliver; and on the proposed irrigation of the Cap Lister district near Creston.

Flood control and drainage are also studied by this branch, which also conducts snow surveys to forecast river and stream run-offs and the availability of supply for storage dams.

The speaker revealed that today licence fees collected annually by the branch are approaching the million dollar mark, while operational costs run to less than a third of this amount. More than 90 percent of the revenue comes from hydro-electric power, he added, brought into being through studies by the hydraulics division and branch engineers.

"Thus it can be said that this is one instance at least, where research and planning have paid off to the benefit of residents of British Columbia," said Mr. Leach.

**FINANCIAL ASSISTANCE**  
Methods of obtaining financial assistance for districts that are established were outlined by Mr. Ker, as well as the controls placed on the borrowing of funds. Two items are essential, he said. The life of the system should be at least equal to the term of the debenture issue, and adequate for the purpose; the government must be satisfied of the district's ability to retire the issue.

Following Mr. Ker's address T. J. Leach, chief of the hydraulics division of the water rights branch, said that not only fair licensing by means of water rights, but also the gathering of basic data from which can be assessed the existing and potential use of water resources are necessary functions of the branch.

To date, over 200 power sites in B.C. have been reported on and while the original investigations were for power, the field has now broadened to include irrigation, surface and ground water supplies (diking, drainage, snow surveys and sedimentation).

These reports are available at a nominal charge covering the assembling and drafting only, and extensive use has been made of them, particularly by the larger companies in their search for power. As an instance, Mr.

## New Municipal Act

(Continued from Page One)

was made about 1920 for village municipalities by the enactment of the Village Municipalities Act. Recently, it was decided that the entire legislation applicable to municipalities needed a new and fresh approach, and work along that line has now been in progress for two years.

### MAJOR CHANGES

"Certain major changes in policy have been suggested by the government.

First it is proposed to combine together into one Act, the material now found in six or seven separate legislative items. This will bring about greater continuity and harmony between the various provisions.

"The present Act for villages has always been a source of difficulty or embarrassment, because in some instances, villages have actually been given more power than cities. This situation will now be eliminated."

He also stressed these points in the new Act: "The procedure through the entire Act, will be standardized, so that each of the legal processes are treated in a similar manner.

Additional types of local government, scaled according to size and population, will be provided. At the present time a special Act of the Legislature is required to change, for example a district municipality into a city municipality (as happened for Penticton).

### TERMS INCREASED

The term of office of the members of council will be increased from two to three years. This will improve the continuity of council policy and action to the benefit of the municipality.

A change in basis of the municipal franchise is proposed. At the present time this franchise is extended only to owners, trade licence holders and what are termed "householders."

"Under the new plan," said Mr. Brown, the list of voters will include owners, residents, and tenants. The voters' list once certified will be used at all elections through the year. Only owners, however, will be able to vote on money measures.

Other proposals pin-pointed were:

Municipalities will be required to prepare and adopt annual budgets and to operate in accordance with the budgets.

Revenue surpluses will be set aside for special purposes either as a revolving fund, or for capital works.

"What is the significance of all these proposals for you as municipal engineers?" asked the deputy minister of Municipal Affairs. "If a member of council knows he will be or that council for three years, and if two-thirds of the members of council are always present for each succeeding year, councils will adopt a much longer range view of municipal works and improvements."

"Engineers will then be in a position to lay out a program of works extending over a period of years, with some hope of seeing the program carried to completion."

He also declared that the general adoption of budget techniques will increase the orderliness with which expenditures are forecast and made, and permit a greater delegation of powers by council to staff.

**BORROWING POWERS**  
One further point of significance, he said, will be the proposed power given councils, enabling them to borrow minimum sums of money for a medium term of years, without having to make reference to the electors. He explained that the term of years would be limited to five; that there would be a definite "ceiling" on the amounts borrowed, which would also be governed by the size and financial status of the municipality.

This new provision should enable councils to make smaller capital purchases which are urgently needed, he added, increas-

ing the smoothness of the operations of the municipality. "I have no expectation that the new Act will be a perfect piece of legislation," he said. "But the Act can be amended or adjusted from time to time as need arises."

## Frost Damage To Roads Stressed At Engineers' Meeting

Despite its mild climate, Vancouver is one of the worst places in the west for road frost damage, it was disclosed at the B.C. Municipal Engineers' convention underway here on the weekend.

The point came out during a debate following the talk by G. P. Harford, City Engineer of Prince George, on frost damage.

Dean R. M. Hardy, head of the engineering faculty of the University of Alberta, said that due to the constant temperature fluctuation at the coast, the expansion and contraction had a more deleterious effect on roads.

E. B. Wilkins, of the B.C. Dept. of Highways, Victoria, co-speaker on the frost subject, dealt with the loss of strength in a highway due to constant cycles of freezing and thawing. A series of tests had been devised in many places, he said, to seek some method of correcting it.

He pointed out that use of the

better types of material, and the more solid types of construction, where warranted, can circumvent the effects of frost. Methods used on airfields by the Department of Transport were cited as "one form of corrective measure, both in construction and maintenance."

D. McMullen, of the Dominion Meteorological Service, Vancouver, outlined the vagaries of the weather and the methods used in obtaining accurate information. He showed the importance of accurate information concerning the weather.

"Want some help with your homework, Dad?"

It's a good thing young Ted is only joking. His dad is studying the needs of families like yours for financial protection. If he took Ted up on his offer, the boy would be overwhelmed by problems about managing family incomes, succession duties, protecting a business against losses caused by the death of the owner, and other matters.

Ted's father is a modern life underwriter. Today, life insurance representatives not only study better ways to provide life insurance protection—they seek a real understanding of people's needs, and shape plans to meet these needs, which differ with every family.

You'll find today's life insurance man a good man to know. His progress reflects the many ways in which the life insurance business has developed with the times to meet your changing needs!

Canadians have a wide choice of life insurance plans—offered by more than 60 life insurance companies operating in this country.

### Search On For Lost Fishermen

VANCOUVER — (BUP) — Two unidentified men have disappeared from a fishpacker off the Sechart peninsula in British Columbia.

The men left Pender Harbor yesterday evening to go to an upcast logging camp. The empty fishpacker was found last night and reported to police and RCAF search and rescue today.

An RCMP boat from Campbell River is scouring the area but so far has found no trace of the two men.

### PEACHLAND NEWS

V. Pocock arrived from Alberta early in the week to visit Mr. and Mrs. R. B. Spackman en route to his home in Victoria. Accompanying Mr. Pocock was M. K. Manning who has recently arrived in Canada from Melksham, Wilts, England.

Mrs. M. Chisholm has returned to her home from the Kelowna Hospital.

Herb Coleman has left for Edmonton where he will enter the University of Alberta.

Mrs. Fred Topham Sr., returned from Vancouver on Wednesday where she spent a holiday with her son-in-law and daughter, Mr. and Mrs. D. Fridge.

Mrs. Zeb Witt is a patient in the Kelowna Hospital.

Mrs. M. Orr has arrived from Carman, Manitoba, to visit her nephew and niece, Mr. and Mrs. Hamish MacNeill.

The P.T.A. held its first meeting of the fall season on Wednesday evening in the school lunch room. In the absence of president Mrs. A. Kopp, Mrs. Eric Turner took the chair. Reports of various activities during the summer were given, and an interesting report of the Red Cross swim classes was presented by Mrs. Turner. Ninety-six children registered for instruction by Miss Donna Clements and 19 of that number passed the examinations given by Dr. Howell, the Red Cross examiner.

Letters will be sent to all local organizations suggesting that a petition be forwarded to Victoria which would ask the government to refrain from cutting down any more trees on the beach through

own. The P.T.A. expressed concern about the beach where the swim classes are held each year. Arrangements were made for the P.T.A. to cater for the supper, held in conjunction with the mid-October meeting of the teachers of School District No. 3. Plans were also discussed for a rummage sale to be held later in the fall and the children's Halloween party held annually in the Athletic Hall.

Three teachers were appointed to the executive — Mrs. Chas. Parker, program convener; Mrs. Lucier, citizens' convener, and Miss Carter, historian convener. A discussion took place regarding a new new school trustee to replace John Cameron, who has resigned after many years' service. Mr. Parker, school principal, introduced Miss Carter, the new teacher of grades 3 and 4. Hostesses for the evening were Mrs. Ray Miller and Mrs. Norman Bradbury.

L. G. Taylor and J. Jamison, of Cowichan, V.I., were guests at the Totem Inn for several days this week.

Mrs. Sudaby of Vancouver is visiting at the home of her brother and sister-in-law, Mr. and Mrs. Thomas McLaughlin Sr.

### Services Held For Former Penticton CPR Despatcher

Funeral services were held September 19 in Victoria for John H. Scott, former chief despatcher for the CPR in Penticton who died in St. Joseph's Hospital, Victoria, September 16.

Born in Thornton, Ont., September 9, 1865; the late John Scott served as chief despatcher in many CPR centres since 1891. He came to Penticton in June of 1928 from Calgary and served in that position here until his retirement in 1935.

Mr. Scott then went to Victoria where he has resided for the past 19 years.

Surviving are one daughter, Mrs. Charles J. Clark of Victoria, two brothers, Walter and Victor both of Vancouver.

Services were held in the Chaplin Funeral Chapel in Victoria. Reverend C. R. McGillivray officiated. Interment followed in Royal Oak Burial Park.

Kansas repealed its 68-year-old law forbidding liquor sale and manufacture in 1948.

SUNSHINE-REDDENED Okanagan apples on their way to market this month from Canada's top fruit-growing area. An apple a day in children's lunch boxes will give them many of the vitamins needed to keep growing youngsters peppy through those busy days. For six-year-old Jill McClean, a red, red McIntosh is the tastiest tidbit of the day.

### Reviews Traffic Light System Requirements

Traffic signals at certain street intersections can actually be a hazard, slowing and impeding traffic rather than expediting it. F. R. Hole, assistant director of traffic for the city of Vancouver, told municipal engineers in an annual convention here last week.

"The traffic slow-up occurs when communities install traffic lights at intersections where there is not sufficient traffic to warrant them," he said. Consultation with experts should be carried out first to determine their need.

"In undertaking such studies, the directional flow of both vehicular and pedestrian traffic must be determined. If signals are installed where they impede traffic, they can actually become a hazard instead of an aid."

Mr. Hole analyzed the various types of installations, from the older, single-overhead centre of crossing signal to the more modern dual-head type. He said that he preferred the dual-head, though he admitted that, where conditions warrant it, three-head signals may be needed to maintain the steady movement of traffic.

"Care should be taken to see that signal heads do not become confused with either neon signs, or blinded by street-lighting," he said. "In so doing, standard or post-type may be varied with the far-right or far-left suspension heads."

He pointed out that when the required form of traffic signal system is determined, then the cycling of the stop-and-go ratio in either direction must be studied and determined. This is governed by the volume of traffic in each direction, he added, and may call for a longer green in one direction than in the other (as is the case in Penticton).

Where more than one intersection is involved, the problem of the elapsed time from one signal to the next must be considered, he said. The reason: To make sure that traffic moving at a pre-determined rate of speed will not be interrupted; that "dashing" between intersections will be rendered valueless.

**THE "FREE RIGHT TURN"**

One of the first questions posed Mr. Hole at the conclusion of his main address was the "free right turn" (as used in Penticton). He said that he did not favor it, particularly in the larger cities. He noted that it is now only used in the smaller cities, where it has certain value. Where it is used, he added, it should only be used in conjunction with a "right turn arrow."

"The Vancouver traffic expert said that inevitably a street will reach its saturation-point and then carry no additional traffic. This situation has been happening in certain thoroughfares in downtown Vancouver, he added, and drastic steps will be needed to divert part of the flow to other streets.

"Prudence on the part of those installing signals is urgently needed," he said.

He mentioned another type of signal used in parts of Vancouver, the traffic-operated signal. It is fixed normally for traffic in a single direction, he said, but a lesser-used direction by the changed by oncoming traffic in action of vehicles passing over devices in the pavement.

"This means that the signal is red as these vehicles approach

### Naval Recruiting Team Visits Here

A Royal Canadian Navy recruiting team stayed in the Three Gables Hotel for three days last week as part of a special naval recruiting tour throughout B.C.

Lieut. George W. Tanner, who heads the team, reports that the tour is meeting with success, and that his group is looking for greater success as the drive progresses.

Comprising the team are Lieut. Tanner, with 26½ years service on ships of the Canadian and Royal Navies, Chief Petty Officer Wesley Clark, with 19 years service, and Leading Seaman Ernest Read, with five years service.

In charge of recruiting for the B.C. area is Lt. Cmdr. F. J. Heatley.

While in Penticton, the group showed a naval film to the Lions Thursday night. They will return to the city during the first week of November.

Today and tomorrow the recruiting team will be in Kelowna. Wednesday and Thursday they set up their recruiting office in Vernon. October 1 to 3 they will be in Kamloops.

"To prevent war we must be prepared," points out Lieut. Tanner. He compared the role of the armed forces to the job of the local police and fire departments. These departments may not work every hour and minute of the day, he explains, but when a fire breaks out or some criminal offence is committed they are certainly needed.

"As long as we are prepared there will be no threat of aggression," he said, noting that Canada's defence is part of the North Atlantic Treaty Organization.

The role of the Canadian navy is to specialize in anti-submarine and anti-air training.

New recruits, he says, must be willing to work as well as travel and see the world. Other qualifications include that the recruit must be between the ages of 17 and 25 and must have a grade 8 education or better.

**CLEARED**

RENO, Nov.—(UP)—At least one of Reno's 1,200 parking meters apparently is playing second fiddle to the city's slot machines and gambling games. A car bearing a California license was ticketed for over-parking on a downtown street. The combination citation-envelope turned up a few days later in the office of the municipal clerk. On it were these words: "All we got left, Goodbye Reno!" Inside was a penny candy bar.

**FINES BY MAIL**

BELDING, Mich. — (UP) — Traffic tickets here come complete with envelopes. A parking violator may slip 25 cents in the envelope to pay his fine and drop it in a box at the curb in front of City Hall. One envelope held 27 cents. A note said the extra two cents were to "buy the cop a sucker."

it, but changes to green at a given time, then, after allowing sufficient time for them to pass through the intersection on the cross-street, the signal again reverts to its normal "through traffic" position," he explained.

### Holiday Theatre Will Perform In Okanagan Valley

UBC's "Holiday Theatre" has again taken to wheels and will be journeying through B.C. Interior centres this month and next with performances in Oliver on October 9, in Penticton on October 10, and in Summerland, October 11.

This year the caravan contains a witch, a fairy and talking cat — all versatile members of the children's play Hansel and Gretel.

Holiday Theatre's home is in Vancouver where children's plays are presented throughout the year at the Frederick Wood Theatre on the University of B.C. campus.

The play adaptation of Hansel and Gretel is full of the suspense and delight of the original story.

The Wicked Witch in this production, though retaining her "witchiness," is also a figure of fun; the Forest Fairy adds protective magic to the story, and the innovation of a boy-turned-into-cat is a delight to the tiniest patron.

Tour manager is Myra Benson, a founder and business manager of Holiday Theatre and an actress of great scope, who doubles as the Wicked Witch and Stepmother in Hansel and Gretel.

Joy Coghill, well-known throughout Canada as a director, actress, teacher and adjudicator, has directed the play for the tour.

Sets for Hansel and Gretel were designed by Charles Stegeman, a painter and stage designer of note both in his native Holland and Canada.

All members of the cast have had long and varied experience in theatre.

During the Holiday Theatre tour, they will be kept busy with the mechanics of production and with turning themselves into the enchanting characters of the play Hansel and Gretel.

### Last Rites Held For Lars Hansen

Funeral services were held Thursday in the Penticton Funeral Chapel for the late Lars Hansen who passed away in Penticton Hospital on September 18.

Born in Denmark, Mr. Hansen came to Canada 55 years ago. He arrived in Penticton in 1951 from the prairies where he worked as a farmer.

Mr. Hansen is survived by his wife, Hanna, four sons, Henry and Raymond of Granum, Alta., William of Creston, Lewis of Penticton, three daughters, Mrs. Robert Scafe of Victoria, Mrs. Carl Pederson of Penticton, Mrs. John Alexander of Vancouver, and eighteen grandchildren.

Officiating during the services was Canon A. R. Eagles. Remains were forwarded to Vancouver for cremation.

R. J. Pollock and J. V. Carberry acted as directors.

Kinsley, Kans., is exactly halfway between New York and San Francisco, 1,728 miles each way.

### Complete Municipal Course At University

H. W. Cooper of Penticton and G. D. Smith of Summerland have successfully completed their third-year of the municipal administration course, University of B.C. officials announce.

The four year course is sponsored by the Department of Municipal Affairs and the Faculty of Commerce and Business Administration at the University of B.C.

Members in each year must complete 15 correspondence lessons and write final examinations at the Municipal Affairs Institute held at UBC.

The municipal officials are taught accounting, administration, law, finance and economics by UBC professors.

A junior diploma is awarded at the end of the second year, and a senior diploma at the end of the final year.

**FIREWORKS**

MIRAMONTE, Calif.—(UP)—Roman candles set off by detonators, were used to start fires in the centre of a 1,000-acre area control burn in Eshom Valley near here to destroy brush.

# ARMSTRONG

## Solves Your Heating Problem!

Here's the smart way to be ready for natural gas when it comes... see your Armstrong dealer now, ask him to tell you about the Guaranteed Conversion Plan. This plan, the only one of its kind, takes the guesswork out of natural gas heating, protects you against high conversion costs, gives you the finest automatic oil heating right away. It's as simple as this; you get a magnificent Armstrong oil furnace now... then, if you want to switch to gas later, your Armstrong dealer will convert it for you at a nominal cost. This cost is covered by a written guarantee the moment your Armstrong furnace is installed... and it's way below what a conversion will normally cost. So you're protected right down the line... you have the best available heating system now, and you can convert to gas at the lowest possible cost later. Yes, you'd be smart to find out about the Armstrong Guaranteed Conversion Plan... it solves your heating problem.

EFFICIENT OIL HEAT NOW...FOR THIS WINTER...  
CONVERT TO GAS LATER AT A FIXED LOW COST!
