District Apple Crop Endangered

Call Out For 400 Pickers

OKANAGAN VALLEY TEACHERS' ASSOCIATION concluded the 34th annual convention here Saturday with the election of two executives to head their group for the following year. Left to right in the photo above are Jack Michell, Salmon Arm, retiring president of the OVTA; Fred Shirley, Penticton, convention chairman; Mrs. Pauline Legg, Vernon Junior high school, elected vice-president and Charles A. Bruce, Kelowna high school, newly elected president of the OVTA.

A state of emergency is in the offing and at stake are 1,000,000 boxes of apples in the Penticton, Naramata and Kaleden districts.

The emergency will become a reality near the end of this week unless enough pickers come from the north end of the Valley where the fruit crop is nearly all harvested and unless the people of this district rally behind the growers to get the apples under cover.

H. K. Whimster, farm placement officer, says that after careful investigation it becomes apparent that about 400 local pickers are needed between October 20 and November 5 to bring in the crop.

Some help may arrive from the north, he said, but pickers are also needed in the south and help would have to be shared with these districts.

At present, about 40,000 boxes are being harvested daily in this area and at that rate over one-third of the crop would still be on the trees on November 5, considered to be the final date at which it is safe to leave apples out.

"We need local people to pick 23,000 boxes daily and that would require between 375 and 400 people," Mr. Whimster said. "Transient help is almost nonexistent because we are three weeks later than usual at this stage of the game and there is nowhere to look for help except locally."

The orderly sale of the apple crop during the winter months and until next June will provide almost the only source of income for this district. That's how important it is to get behind the grower and get these dollars off the trees."

Mr. Whimster said that after November 5 there is always the danger of a killing frost.

The farm labor office also issued an appeal to all growers in which he said, "all growers are warned to get in immediate touch with me at the office or by telephoning 2634 to check so that I am sure what help is needed by each orchardist."

HEDLEY GOOD LOCATION FOR PENITENTIARY?

A suggestion that Penticton get behind an effort to have a proposed Western Canadian penitentiary located at Hedley was put forward to the Board of Trade meeting last Thursday by Mayor Oscar Matson.

"The town has water and lights and all the needed facilities and it needs a payroll," Mr. Matson declared. "And I think Penticton would benefit as a result."

G. W. Bolton seconded the motion by the mayor to the effect that the Board of Trade should spark such a movement. "Hedley is worried about its future," he said.

"I can't see any reason why we shouldn't have the penitentiary right in this district," declared Syd Hodge, in moving an amendment to refer the resolution to the Board of Trade executive.

The amendment carried.

Union Official Bryan Cooney Replaced By FFVWU Executive

Bryan Cooney, director of organization for the Federation of Fruit and Vegetable Workers' Union, has been succeeded in that position by George Snowden of Okanagan Centre, effective today.

Mr. Snowden is president of the union. Union officials declined further comment, merely stating that Mr. Cooney was being replaced following a meeting of union heads.

Mr. Cooney confirmed to The Herald today that he has been given his release.

"I was released for reasons that were not made too clear to me," he said, "reasons known to only four members of the executive council."

"I will remain on the job for a few days cleaning up a few odds and ends. Then I'm going hunting."

Mr. Cooney led the union in the strike of Valley packinghouse workers that took place between August 25 and September 9.

Canada Needs Atom Experts

"We are living with the grim but promising spectre of the Atomic Age. The fantastic amounts of power that are about to become at our disposal can get us almost anything we want in the material sense, and Canada is about as fortunate as any other country in reserves of uranium. Yet only 15 of 10,000 youngsters who have the ability to go into scientific work actually end up as scientists in this country."

So spoke Dr. Gordon Shrum, of the University of B.C. Physics Department, in his address Friday afternoon to delegates of the 34th Annual Okanagan Valley Teachers' Association convention held in Penticton.

Dr. Shrum outlined the fantastic possibilities that lie ahead for the world in the coming Atomic Age, but said that Canada — with all its great resources of power and massive potential — may be missing the boat, since instead of stepping up scientific education in our schools we are actually taking science courses out of school curriculums all over the country.

RUSSIA WELL AHEAD

As a comparison, Dr. Shrum pointed out that high school students in Russia spend 40 percent of their time on Mathematics and science, and are forging well ahead of North America in general. (Continued on Page Seven)

Tribute Paid Former Trade Board Secretary

Appreciation for her many years' service to the Board of Trade was shown Mrs. Hettie Kingsley at the regular board meeting Thursday night when she was presented with a traveling case.

The presentation was made on behalf of the board by a former president, A. G. Schell, who spoke of her many years of work, her spirit of cooperation and untiring efforts on behalf of the tourist industry.

In reply, Mrs. Kingsley said her work with the board had been reward enough because of the experience she had gained. "The Board of Trade and Junior Chamber of Commerce are founded on the integrity with which they carry on their work and the spirit of private enterprise and through my membership in the board I hope to always be able to carry on that theme," she said.

There will be an important meeting of the Penticton Basketball Association tonight in the Alexander room of the Legion Hall, starting at 7.30 p.m.

Thumping Majority For Natural Gas Bylaw

By a majority of almost 32-1, Penticton ratepayers on Saturday declared in favor of granting a 21-year franchise to the Inland Natural Gas Co. Ltd., authorizing that company to install an underground distribution system and to distribute natural gas in the city.

Not All Valley Teachers Accept Wage Agreement

Teachers in the Kelowna district have applied to Kelowna school board district 23 for salary negotiations.

The Kelowna branch of the Okanagan Valley Teachers' Association turned down the recent agreement signed by seven other school districts which gave teachers wage increases from two and one-quarter to three percent in various districts.

A spokesman for the group states the school board has never acknowledged the teachers' letter asking for negotiations and that if the board refuses to negotiate then the teachers' will apply for arbitration.

Vernon, Revelstoke and Enderby school districts also turned down the recent agreement and are working on new salary negotiations. Vernon school board is currently carrying on talks with teachers in that district.

PENTICTON BANKER ATTENDS BROTHER'S OPERA PREMIERE

Alec Walton, manager of the Bank of Montreal here, returned to his Penticton home last week after an enjoyable visit to San Francisco. In the course of which he joined his brother, Sir William Walton, the celebrated composer whose opera, "Trollus and Cressida," was being presented at that time.

Old Age Pensioners Open Club House On Wednesday

Penticton's old age pensioners will officially open their new clubhouse, located at the corner of Westminster Avenue, east and Robinson street, one block east of the Red Cross building, at 2 p.m. Wednesday.

The opening will take the form of an open house at which tea will be served.

The old age pensioners extend a warm welcome to all those interested.

The club house was given to the association by H. S. Kenyon and Co. Ltd., when the company required the building's location on the lot adjacent to the provincial court house cleared to permit construction of an office building. The city undertook to move and renovate the building. The Junior Chamber of Commerce painted it and now the old age pensioners have a place of their own in which to while away the hours.

Elmore Philpott To Speak Here

Noted columnist, lecturer and parliamentarian Elmore Philpott will address a public meeting in the Glangarry Room of the Hotel Prince Charles on Thursday at 8.15 p.m.

Mr. Philpott, Liberal member of parliament, of Vancouver, recently toured a number of European countries with other Canadian M.P.s.

His address will be followed by the annual meeting of the Similkameen Liberal Association.

A member of the Unemployment Insurance Commission will be asked to address next month's meeting of the Penticton Board of Trade. The suggestion was put forth by G. W. Bolton who asked that a member of UIC be asked to explain the setup of the new Act.

ELMORE PHILPOTT

Summerland Woman Named To Presidency

SUMMERLAND — Mrs. F. E. Atkinson, former vice-president of the B.C. Hospital Auxiliaries, has been named president of the group.

The announcement was made at the end of the three-day session of the annual convention of the B.C. Hospital Association and the Hospital Auxiliary.

Mrs. Atkinson's capabilities are well known and she has had wide experience in organizational work. She is the wife of Reeve F. E. Atkinson.

VILLAGE TO VOTE

Villagers of North Kamloops will be asked to decide on December 10 whether natural gas should be supplied the village by Inland Natural Gas Company.

This latest development in the plans for the supply of natural gas to the village follows a series of meetings with company officials.

Local Driver Takes Prize

Ray Findlay of 1358 Kilwinning street, driver for McDonald's Consolidated, won third prize in Vancouver on Saturday in the tandem axle trailer class competition.

Mr. Findlay was in competition with other drivers from all parts of British Columbia.

SPARKLING MOUNTAINS OF DETERGENT suds which appear daily at the sewage disposal plant would seem to indicate that Pentictonites are certainly clean people. The foamy stuff is at its best about 7.30 a.m. and on washday. Monday, it will reach a height of six or seven feet. The detergents in the sewage are churned up during the disposal process and on a windy day it is not unusual to see small, white "clouds" floating around the neighborhood. Plant assistant Alex Forsyth, shown above, finds the suds a bit of a problem for they must be hosed down from the walkways and equipment.

All That Is New In Education Not Always Good

A comparison of teaching methods of years gone by and today formed the basis of an address last Friday by Dr. Henrietta Anderson, well known B.C. educator. Dr. Anderson who took as her topic "New Lamps For Old" spoke at a public meeting during the course of the 34th annual convention of the Okanagan Valley Teachers' Association. Her address was given at the High School Auditorium.

Dr. Anderson has recently retired as Regional Director of the Greater Victoria Recreational Association, and previous to that she was vice-principal of the Victoria Normal School. Born in Aberdeen, Scotland, she has been associated with education in B.C. since 1913.

The theme of her address as expressed in the title-question "New Lamps For Old?" was that people might just possibly have discarded some old ideas and methods of real value in our search for newer, more modern teaching methods. Are the new lamps we are fighting for education shedding the best possible light — or could it be that some of the old discarded ones might still do a better job?

Dr. Anderson cautioned her audience that, although she wished to look back for awhile at the "good old days" she was not in the least suggesting that we actually go back to them, as she said she was quite aware of the fact that there were many things about them which were not good. There were no income taxes, no road taxes, no luxury taxes, no cigarette taxes — but there were also no old age pensions, no national health plans, and no social security.

"We have made many advances and improvements in all phases of living — but could it be dimly possible that in casting off the old ways we may have thrown out something good?" the speaker asked. "We have," she continued, "many new objectives now. For example, we say that each child must master the fundamental skills to the best of his own ability — but are we achieving this aim?"

"A few years ago, a government examination had to be written in order to get into high school. That was not good — but in discontinuing that practice, did we do the right thing, in lowering the barriers so much that there is no challenge to the student with more ability?"

"There is a lot to say these days about self-discipline. Self-discipline is a vitally necessary thing to any person, and any discipline, at home or at school, if it does not have self-discipline, as its ultimate objective, is worse than useless. Are our methods of today doing that?"

For the answer to that question the speaker reminded us of the incidence of juvenile crime and the apparent great lack of self-discipline in so many young people of today.

"Great changes have been made, much material progress has been achieved, many new lamps have been lighted; but has all this made us any happier or (Continued on Page 5)

Phantom Bridge

From the sublime — almost to the ridiculous. Such is the history of the proposed Okanagan Lake bridge which was dreamed of by Premier W. A. C. Bennett as a magnificent structure, soaring high above the lake, to take rank as one of the biggest, if not the biggest, suspension bridges in the British Empire.

Now, out of Victoria, comes the news that engineers, defeated in their efforts to find satisfactory footings, are investigating the possibility of a pontoon bridge.

The Herald is concerned at what appears to be government intent to bridge the Okanagan Lake regardless of what it involves.

The Herald supported the bridge project when announced by the premier on the original basis, and at costs which he himself promulgated. We accepted his statements, which implied feasibility and authentic engineering studies in a good faith which we presumed he shared.

We became concerned, and rightly so, when led to believe that the government was ignoring a recommendation for a causeway type crossing which would have been cheaper to build and, more important, less costly to maintain than the bridge. The causeway plan, however, was rejected as not being feasible owing to the nature of the lake bottom and, apparently, the same quaky lake bottom has swallowed up plans

Almost Unanimous

Yes, 1502; no, 47; spoiled ballots nine. The foregoing statistics of the vote taken Saturday on the natural gas bylaw are in the opinion of the Herald highly complimentary to ratepayers of this city. For one thing, the total vote of 1558, while only 38 percent of the possible count, nevertheless represents the largest ballot cast on any straight bylaw vote in recent years.

The size of the vote indicates it was an informed vote — and the astounding more than 96 percent majority rolled up at the polls tells of an electorate that is fully convinced that natural gas will be a boon to Penticton.

Penticton, we think, can take pride in having led the way. It is quite possible that before the year is out other valley communities will have voted on the issue and that we in the valley will soon be as one, our eyes turned to the north as we watch the march of the

Vaccine Vindicated

Earlier this year, the Salk polio vaccination program in the United States bogged down badly when a number of children who had received the vaccine later developed polio as a direct result of their vaccination. Canada, fortunately, did not have the same experience. That was because the federal Department of Health and Welfare insisted on a much stricter check of the vaccine than did the U.S. authorities. So that while the United States was drastically revising its methods of producing and testing the vaccine, Canada ordered vaccine production at the Connaught Laboratories to be doubled in preparation for the 1956 immunization program.

The confidence of the Canadian authorities in the vaccine was, on the basis of the experience in this country, fully justified. And now confirmation, if it were needed, has come from the United States. Preliminary reports on the 1955 vaccination program there show that among the seven million children be-

between five and nine who were vaccinated, the incidence of polio was from 25 to 50 percent lower than is expected in a group that has not been vaccinated. Few of the children who contracted polio in the second month after being vaccinated became paralysed — which suggests that the vaccine diminishes the seriousness of the disease, even if it may not always prevent it completely. And since new methods of making and testing the vaccine were introduced, no child has come down with polio as a result of his vaccination.

In line with these findings, the executive board of the American academy of pediatrics has now reversed a decision it made last June — that vaccination with Salk vaccine be discontinued — and recommended that the program be resumed. This is heartening news for all parents. It should give fresh confidence to those fathers and mothers whose children will be vaccinated with Salk vaccine in the coming year.

Building of the pipeline is, of course, contingent upon United States authorities granting permission for the export of Canadian natural gas from the British Columbia fields, but that permission is confidently awaited and it is expected that work on the big line will be commenced in earnest as soon as weather permits next spring.

Natural gas, when it arrives, will hardly revolutionize the community overnight, but we do think that the availability of this proven fuel will contribute to the changing face of Penticton and of the Okanagan in no small degree.

The Herald is confident that the people of Penticton made no mistake in the opinion they expressed at the polls on Saturday. We would have liked a bigger vote, but we could hardly wish for one more decisive or demonstrative of confidence in civic leadership.

It is more than just a recital of Everest's conquest, however, for Hillary leads readers through a full description of his entire mountaineering career, relatively brief in comparison to the almost legendary men who had striven in vain before him to conquer Everest.

Hillary's modesty, his boyish enthusiasm and his ability to laugh at himself and even admit errors which must have been personal, lend a conversational, climbing story.

He began climbing peaks in New Zealand, at first because he

wanted to "do something". But gradually it is seen how he yielded to the fascination for snow and ice and the mysterious call of the insurmountable peak. His first trip to Everest came in 1951 when he joined Eric Shipton and others in discovering the southern route up the giant of giants. In 1952 he was back again, longing to scale it and torn between sportsmanship and pride while waiting to hear whether a Swiss team would do it first.

In 1953 came the chance to accompany the British expedition led by Sir John Hunt, and in his account Hillary recaptures the anxiety, the weariness, the fretfulness and the glory of men dedicated to mountaineering.

Hillary was chosen for the Everest expedition because of his great strength, his superb leadership and his qualities of charm and personality of a "young man unspooled by becoming a modern hero . . ."

It is Noel Airman, whom she meets at a summer camp, who fans her theatrical aspirations. Their romance takes up much of the book but Wouk never makes clear whether he is writing about true love or is writing a satire.

There are memorable scenes — a bar mitzvah at which the well-to-do members of the family sit on one side of the room and the ne'er-do-wells on the other; a comic bullfight involving the fat uncle who disgraced Marjorie at the bar mitzvah; the disastrous scene when one of her early boy friends takes her to one of Long Island's swankiest restaurants to rush her into an engagement. But the scenes are separated by many pages of irrelevant detail that might well have been omitted.

"High Adventure" (Dutton) is Edmund Hillary's awaited tale of how he climbed Mt. Everest and with the now-famed Sherpa guide, Tenzing at last stood at the summit which man had made one of his most prized goals.

BOOKS

Herman Wouk (of Caine Mutiny fame) has written another big novel already earmarked for the best seller lists — Marjorie Morningstar (Doubleday).

It is the story of a young Jewish girl from New York City's upper west side in the 1930's, one of the thousands of "Shirleys" who hope to marry a nice Jewish boy and settle down in Rye or some other suburb in Westchester and become a pillar of the community.

Marjorie (nee Morgenstern), without much talent and not too much theatrical drive, longs first for fame on Broadway as the dazzling star, Marjorie Morningstar, an affliction common among the "Shirleys" who have the good fortune to be born beautiful.

The term "Shirley" is that of Noel Airman, the boy who gave up his Jewish heritage to seek fame as a pale imitation of Noel Coward. (He changed his name from Ehrmann). He is glib and Bohemian with limited talent but to Marjorie he is a bright star of the theatrical world.

It is Noel Airman, whom she meets at a summer camp, who fans her theatrical aspirations. Their romance takes up much of the book but Wouk never makes clear whether he is writing about true love or is writing a satire.

CORRESPONDENCE

The Editor, Penticton Herald.

The petition recently presented to the City Council asking for compulsory closing of retail outlets in Penticton on Saturdays at 6 p.m. for 6 months of the year and circulated I believe by C. Leslie, violates one of the cardinal principles of our society — the right to make a living.

The City Council does not restrict the working hours of doctors, dentists, lawyers, contractors, orchardists, nor artisans such as masons, railroaders, carpenters, electricians, plumbers, printers, painters, etc., the only restrictions governing this latter group the matter of hours of work is the provision that if employed by others overtime must be paid for extra time over the statutory hours of work. Why then should the merchant be penalized?

If the profits from Mr. Leslie's business or that of any other signatory to the above petition is such that he or she craves more leisure time, I for one would not begrudge them the extra leisure. I would not for the world insist them staying open if they do not want to — but I don't want them telling me I must close shop. Therein lies the beginning of police state.

If through misfortune or sickness or family reasons it is necessary for me to work longer hours to feed, clothe and educate my children, why should I not be allowed to do so, when many of the categories mentioned above, many of whom are in the higher brackets of earnings, have no restrictions. Why must I be restricted?

In any event, I know the afore-said petition to restrict hours was only circulated to those deemed favorable and many were not connected with retail trade and as such should not be considered and the City Council rightly postponed action on the matter. Why have any restrictions on hours of work? Let every man or woman work as long as they deem it necessary to make a living.

Eric S. Murray

Latex emulsion sprays available at most garden-supply centers are good protection for new evergreens.

A large mirror on one wall of a small room will make the room appear much larger.

THANK YOU!

Officials of the Inland Natural Gas Co. Ltd., are very grateful for the wonderful affirmative support accorded the Gas Agreement By-law at the polls last Saturday.

It would be impossible to list the many groups, organizations and individuals who worked with us during the preparation and presentation of the by-law but we assure them one and all that we are grateful for their fair and business-like approach and support to this matter which will mean so much to the future of Penticton.

The large number who turned out to vote was exceptional for this type of by-law and the overwhelming "YES" vote gives us the assurance that we were so anxiously seeking. It is our pledge to be worthy of this support and we promise that natural gas will be available to this city at the very earliest moment possible. We are looking forward to serving you. Thank you.

NEWS FROM Victoria

By J. K. Nesbitt

VICTORIA — It is 20 years ago this week that the present Liberal government in Ottawa was elected. Only the government founded by Sir John A. Macdonald has beaten that record.

Twenty years — and in all that long time only two men at the head of the government, Mackenzie King, and the man he picked as his successor, Louis St. Laurent.

The Conservative government of Macdonald, born in 1873, lasted until 1896 — 23 years, but Sir John died in 1891, and there were four Conservative Prime Ministers after him — Sir John Abbott, Sir John Thompson, Sir Mackenzie Bowell and Sir Charles Tupper.

There seems every possibility that the present Liberal government will beat the Conservative government record, for another federal election won't come for two years, and it would seem at this moment the Liberals will go back, largely because there's nobody to take their place.

The Liberal government of Laurier lasted 16 years — from 1896 to 1911.

The best we've been able to do in B.C. is 13 years, for the Conservative government founded by Richard McBride in 1903.

At the general election of October 14, 1955, when the Mackenzie King Liberals threw out the H. B. Bennett Conservatives, British Columbia had 16 seats in the House of Commons. Today we have 22 — showing our growth.

Let's look at the roster of B.C. M.P.'s elected that two decades ago: Cariboo, Gray Turgeon, Liberal; Comox-Alberni, A. W. Neill, Liberal; Kootenay East, H. F. Stevens, Reconstructionist; Kootenay West, W. K. Esling, Conservative; Nanaimo, Jas. Samuel Taylor, CCF; New Westminster, Tom Reid, Liberal; Vancouver

Burrard, Gerry McGeer, Liberal; Vancouver Centre, Ian Mackenzie, Liberal; Vancouver East, Angus MacInnis, CCF; Vancouver North, Grant MacNeill, CCF; Vancouver South, Howard Green, Conservative; Victoria, D. B. Plunkett, Conservative; Skeena, Olof Hanson, Liberal; Yale, Grote Sterling, Conservative.

Only two are still in the Commons — Mr. Green and Mr. MacInnis. Mr. Turgeon and Mr. Reid are in the Senate, and will never again have to run for office. Just about every M.P., of course, wants to end his days in the Senate.

'Twenty years ago M.P.'s received \$4,000 a year. During the years they have posted their salaries 150 percent until they now receive \$10,000 a year, and a pension after so many years.

The 1955 election turned up, from this province, six Liberals, five Conservatives, three CCF's, a Reconstructionist and an Independent.

Now B.C. has in the Commons, eight Liberals, seven CCF's, four S.C.'s and three Conservatives. Only the Conservatives have not gained.

NARAMATA— Former Penticton residents, Mr. and Mrs. A. E. Tidball, were here from Vancouver last week to spend a few days with their son and daughter-in-law, Mr. and Mrs. G. M. Tidball, and family.

Jeff Burton was home from UBC over Thanksgiving to visit his mother, Mrs. Pat G. Herbert, and Mr. Herbert.

Miss Virginia Reid has returned to Naramata after spending the past three weeks as a patient in the Penticton Hospital.

THE COMMERCIALS

In introducing an older woman and a younger woman, mention the older woman's name first, "Mrs. Older I'd like you to know Mrs. Younger."

Note for teen-agers. If you want to ask your mother if you may invite a friend to stay for dinner or spend the night, don't ask in front of the friend. That puts your mother on the spot and makes it hard for her to say "No," even though the time is inconvenient.

SEA SHELL DOILY — This shell motif doily edging brings echoes of the sea — against a blue linen background. Measuring 18 inches in diameter, this doily will give protection to your table tops as well as beauty in interior decoration. If you would like to have the directions for making this doily, simply send a stamped, self-addressed envelope to the Needlework Department of this paper, requesting Sea Shells, Leaflet No. C.S.-119.

Grand Officers Of Star In British Columbia Visit Penticton's Edina Chapter

Eastern Star members from Princeton, Kelowna, Oliver, Hedley and Summerland joined with Penticton members and officers in extending a gracious welcome to the worthy grand matron of the order in British Columbia, Mrs. Jessie Allbright, of Vancouver, and other distinguished OES members when they were in this city last Monday to make their annual official visit to Edina Chapter, No. 33, Order of the Eastern Star.

Worthy matron of Edina Chapter, Mrs. W. Watts, presided when colorful ritualistic ceremonies were presented for the exemplification of the worthy grand matron and her officers among whom were William Barge, of White Rock, worthy grand patron; Mrs. Winnigene Kirkham, of Vancouver, grand conductress, and Mrs. Margaret Cary of Merritt, grand associate conductress.

The lodge room in the Masonic Temple was beautifully decorated with baskets of richly colored autumn blooms by members of the Past Matrons' Club of Edina Chapter. During the initiation ceremony a lovely solo "Down Here" was presented by a visitor, Mrs. Louise Brown, a former resident of this city.

At the close of the session, a banquet was served in the social room of the temple. Among those at the head table were the distinguished visitors, Mrs. Watts, J. S. Dieken, worthy patron of the Penticton chapter; Mrs. J. L. Hooper, past matron, acting as associate matron during the ritualistic ceremony; Mrs. F. J. McPherson, conductress; Mrs. John Henney, associate conductress; Mrs. Barge, from White Rock, and Mr. and Mrs. William Kennedy, the latter, worthy matron of Kerrisdale OES Chapter.

Mr. and Mrs. James Fleming are spending the current week in Vancouver.

Tickets Limited For Popular Auxiliary Dance

The Junior Hospital Auxiliary is finalizing plans for its annual fall fund raising project, a cabaret dance on October 28, aboard the SS Sicamous.

Among several featured attractions arranged for the popular social event are novelties, scintillating entertainment, dance music by Okanagan Orchestra and novel decorations, all based on the theme of the affair "the roaring 20's".

The auxiliary has limited the sale of tickets to 200 for the popular dance. Tickets as well as reservations should be secured early to avoid disappointment.

Mrs. H. B. McGregor is convener of the sale of tickets which may be obtained from her, the Rexall Drug Store or from members. Reservations can be made by phoning Mrs. R. V. White at 5089.

Mrs. Tommy Walker and Mrs. James Fleming are dance co-conveners.

Fall Meeting Of District R.N. Ass'n Held At Revelstoke

Mrs. Gertrude Holton, R.N., and Mrs. Clara J. Pearson, R.N., represented the Penticton Chapter of Registered Nurses at the fall meeting of the Kamloops and Okanagan District Registered Nurses' Association held in Revelstoke on Friday. Mrs. Alvira Paterson, of Vernon, presided at the dinner meeting held in the King Edward Hotel.

One of the items on the agenda was the election of Miss K. Amos, of Kelowna, as a councillor to succeed Mrs. Muriel Muschick, of this city, who had tendered her resignation owing to leaving this centre of residence.

The district was honored recently by the appointment of one of its members, Miss Christine Sinclair, senior instructor at the Royal Inland Hospital school of nursing at Kamloops, to a post on the board of examiners for the BC.R.N.A.

At the conclusion of the meeting attended by approximately 20 nurses from the Kamloops and Okanagan districts, a very interesting talk on a recent visit to Europe was presented by guest speaker, Mrs. Paula Overhill, of Revelstoke.

St. Peter's Women's Guild Plans For Annual Bazaar

NARAMATA — Major discussions centred around two forthcoming events of importance when the Women's Guild to St. Peter's Anglican Church held its monthly meeting last Wednesday at the home of Mrs. W. G. Clough with president Mrs. George Tinning in the chair. Mrs. Perry Darling was acting secretary in the absence of Mrs. G. P. Tinker.

The members of the Guild will prepare special seasonal decorations for the church at the harvest festival service to be conducted by Rev. A. R. Eagles on October 23 at 3 p.m.

Many plans were finalized for the annual Christmas bazaar to be held in the parish hall on Wednesday afternoon, November 16. A wide selection of attractive articles of sewing and fancy work will be offered for sale during the afternoon under the supervision of Mrs. L. E. Smith and Mrs. T. G. Jeal, while Mrs. Alex Sinclair and Mrs. Paul Wiseman will be in charge of the homecooking stall.

A fish pond, special attraction for the kiddies, will be convened by Mrs. Clough, and Miss Muriel Simes is making colorful posters to advertise the fall fund raising project. Two other features will be a grocery hamper to be given to the holder of the winning ticket and a white elephant booth.

Mrs. Donald Furner will be in charge of the afternoon tea arrangements and will have assisting her in the kitchen, Mrs. E. C. Tennant and Mrs. Perry Darling.

The Women's Guild will meet at the home of Mrs. Alex Sinclair on November 2 at 7:30 p.m. when last minute details pertaining to the bazaar will be discussed.

Lorraine Theroux Honored At China Shower

Mrs. James Riley was a hostess on Sunday evening at her home on Conklin avenue entertaining at a china shower for a popular bride-elect, Miss Lorraine Theroux, of Hanev, whose marriage to John Blagioni will take place on October 22.

A pretty combination of pink and white formed the attractive color theme for decorations used in the living and dining rooms and on the basket which contained the lovely gifts for the honored guest. The gaily wrapped parcels were presented to Miss Theroux by little Virginia Riley.

A pleasant social hour was concluded with the serving of refreshments by the hostess.

Among those present were Mrs. Nick Blagioni, Miss Jeanette Overton, Miss Yvonne Blagioni, Mrs. John Bechell, Mrs. Agnes Johnson, Mrs. Nellis Elder, Mrs. Edward Walker, Mrs. Thomas Pringle, Mrs. J. C. Harris, Mrs. William Dixon, Mrs. Stuart Bay, Mrs. Ralph Riley, all of Penticton; Mrs. Marcel Bonthoux, Mrs. Darlene Bonthoux and Mrs. Roy Dorosier, of Summerland; Miss Donna Blagioni and Miss Betty-Ann Blagioni, from Kelowna.

Mrs. Swen Norgren has returned home after visiting for the past two weeks in Winnipeg.

Four members of Edina Chapter No. 33, Order of the Eastern Star, motored to Kelowna on Thursday to attend the meeting of the Kelowna OES. Mrs. W. Watts, worthy Matron; Mrs. Cliff Greyell, associate matron; Mrs. E. D. Clark and Mrs. E. C. Creney.

Græme Lang is here from Vancouver making a short visit with his parents, Mr. and Mrs. George Lang, Lakeshore Drive.

the provincial gathering in May at Nanaimo and the national bi-annual meeting for Winnipeg late in June.

Nurses' Institute Being Held Here

A small group of nurse representatives from Penticton, Oliver, Princeton and Summerland is currently attending a Nursing Institute on Body Mechanics and Rehabilitation Nursing being held in this city by the British Columbia Registered Nurses' Association.

These two areas of study are of particular interest to all nurses these days, because the shortage of nursing personnel makes it necessary that they accomplish their duties without waste of time or energy. In addition it is becoming increasingly evident that the nursing profession is realizing the importance of seeing that a patient is quickly rehabilitated to a happy full and useful life and not merely discharged from the nurses' care, cured of disease or injury.

Miss Christine Charter, R.N., assistant director of the Vancouver Branch of the Victorian Order of Nurses, is presenting the course which started this morning and will conclude at noon time on Wednesday.

The selected nurses attending from each centre will return to their respective groups and lecture on the information gained at the institute, similar to others being held throughout the province in an endeavor to keep in step with the national trend in nursing.

Senior Hospital Auxiliary will sponsor a membership tea tomorrow afternoon in the Red Cross Centre. Those interested in the activities and projects of the senior hospital organization are invited to be present.

F. C. Francis G. (Buster) Kincaid, from the RCAF station at Claresholm, Alberta, is spending a two-weeks' leave in this city with his parents, Mr. and Mrs. Graham Kincaid.

Members of the Past Matrons' Club, Order of the Eastern Star, will meet tomorrow evening at the home of Mrs. E. R. Armstrong.

Vice-president of the Penticton branch Canadian Red Cross Society, Mrs. J. F. Riley, will be the official delegate to the regional conference of the society to be held in Keremeos on Friday, October 21. It is anticipated that between three and four cars of members from here will also attend the session.

Golfing Handicaps Established For Next Golf Season

Handicaps to be used by men golfers next season, were established by the Handicap committee last week. Handicaps are based on the average of the low 20 percent of all scores for the last two golf seasons.

Previously handicaps were based on the average of all cards turned in but with this new system, handicaps will be lower in most cases.

At the beginning of next season, a player shall start with the handicap listed below and his handicap shall not be lowered until the two lowest scores, from at least six indicate a lower handicap, nor shall it be raised until the three lowest of at least 11 scores indicate a raise. Handicaps are taken from the National Handicap Chart under a course rating of 68.

The following is the official list of handicaps of golf club members who have turned in sufficient score cards to enable the Handicap committee to calculate a handicap:

- 6 — Morris Schull, Bob Perkins.
- 7 — Art Marlow, Marven Syer.
- 8 — Bill Carse, Lefty Grove, Dave Stocks.
- 9 — Hec McDonald, Bob Asseltine, Nick Drossos, Les Howard.
- 10 — Merv Davis, Chuck Bleasdale.
- 12 — George Arsens, Hugh Lynch Percy Mather.
- 13 — Dave Pritchard, Bud Tidball.
- 14 — Tim Odell, Al Mather, Tony Hamilton, Joe McMurray, Bill Johnson.
- 15 — John Burbridge, John Campbell, T. M. Syer, Jack McKay.
- 16 — Bill Chalmers, Bill Perkins.
- 17 — Sam Drossos Sr., Bob Patterson, Frank Rodway, Lloyd Sundry, Merv McCune.
- 18 — George Henry, Roy Perry.
- 19 — Frank Brodie, George Drossos, Russ Jordan, Dennis Jones.
- 20 — Bob Beckett, Roy Leslie, Boyd Mather, Ray McManaman.
- 21 — Earle Swanson.
- 22 — Walter Wright, Len Hill.
- 23 — Gerald Latimer, William Dolynuk.
- 24 — Charlie Asman, Ron Brown, Ed Badcock, Clem Battye, Geo. Cady, Hugh Fitzpatrick, R. J. Flitton, Tom Fell, Allan Gartrell, C. H. Hincsesman, Fred Joplin, Frank Miggins, Ian McKenzie, Don McKay, Jack McArthur, E. J. Palmer, George Lang, John Lawson, Cecil Watson, Bill Wallace, Gliss Winter.

City Rock - Heaving Club Plans October 31 Opener

That nip in the air means a lot more than the start of the hockey season in Penticton. It also means that the great winter sport of curling is shaking off its summer snooze and preparing for another active season.

The Penticton Granite Club on south Main street will be laying its first sheet of ice within the next week or so, and the club hopes to hold its first night of activity in the 1955-56 season on the last night of the month, October 31.

There may be some curling before that, but organized play won't start until that date, says club official Bill Hauck. The rink right now is undergoing a dressing-up campaign in preparation for the rigors of the coming season.

In the following list of 40 men's rinks, the skips head each rink, with the other three players of each rink in parenthesis — not necessarily in order of play:

- Jim Carson (Duffy Volden, Dave Battison, Allan Bella)
- Glad Gerow (Bill Dolynuk, Ernie Field, Harry Fujita)
- W. Bibby (Ron Carter, Leo Bauer, Ira Betts)
- George Cady (Gliss Winter, A. Ellis, D. Davidson)
- Sam Boyd (Dr. Jack Day, Jack Lawson, Bill Watts)
- W. H. Cumberland (Ray Carter, Leonard Enns, Doug Noel)
- John Sobchuk (Nelson Rumley, Evans Loughheed, Walt Taylor)
- Sam Dunn (George Drossos, Pete Adams, Jack Grigor)
- M. S. Wilcox (A. Ante, Barney Bent, E. Gayer)
- Percy Mather (A. F. Cumming, Mark Hugo, E. Doner)
- Bill Johnson (Pat Moen, G. Brookhouse, P. K. Simpson)
- Carl Wylie (Bank of Commerce, Al Loughheed, Frank Christian)
- R. J. Dirks (Roger Lye, D. Nelson-Smith, Roy Meiklejohn)
- Jack Littlejohn (Bill Littlejohn, Gue Seronick, Dick Kerrar)
- Reil LaFrance (Joe Sather, Ron Faulkner, J. V. Carberry)
- W. Riddell (Fred Parmley, Ernie Amos, John Brodie)
- Chart Nicholl (Abbie Halverson, Maurice Finnerty, Harold Nichol)
- Tim O'Dell (Hugh Lynch, Frank Miggins, Bank of Nova Scotia)
- Paul Pauls (John Lair, W. Shepherd, Sid Kenyon)
- Joe Koenig (Frank Bertram, F. E. Wiltse, Dick Warr)
- J. Brittain (John Yung, M. J. McDonald, Bill Fraser)
- Bill Hack (Stew Reikie, Walter Krause, Bank of Montreal)
- Dick Parmley (Al Kenyon, Paul Sharp, E. Croucher)
- Chuck Emery (Jimmy Bolton, Day Washington, Grev. Rowland)
- Fred Walls (Doug Raincock, Gus Malmes, D. C. Clarke)
- Bob Cranna, (G. Rosander, Curly Cox, Abe Laddlaw)
- Bill Schram (Charlie Crawford, N. Keeler, Andy Morris)
- Harry Hines (Herb Geddes, Jack Rosander, Harvey Burt)
- Jack McKay (Allen Bent, Les Gilboard, Russ Howard)
- Geo. Watson (Les Goodfellow, Roy Chapman, G. W. Minns)
- Joe McMurray (Geo. James, Sam Drossos, Cable Freeman)
- Geo. Lang (R. A. Patterson, Art Marlow, Frank Sollice)
- Pete Gibson (Pat Hines, J. W. Lawrence, Jim McLaren)
- Alan Mather (T. McGillivray, Hec McDonald, Bill Perkins)
- E.S. Bearcroft (Royal Bank, R. Filton, Frank Sanders)
- Bill Carse (Jim Thom, Ron Carroll, W. H. Whitcombe)
- Tom Swanson (Vic Willander, Geo. Christie, H. W. Kirby)
- Jack McGown (Dick Johnston, T. Myers, Frank Richter)
- Clarence Power (Ken Lambert, E. Davidson, C. A. MacLachlin)
- W. Sanders (Tom Walker, Bruce Morris, Dr. Selwood)

"IT WAS A REAL THRILL." Those are the words of Penticton's Harry Hines (right) as he described catching the 28-pound steelhead he is holding in an hour-long battle — without a gaffing hook — at 17-Mile Bridge on the Kispiox River, not far from where ex-Pentictonite Chuck Ewart landed a world record steelhead (36 pounds) last year. Hines landed the massive salmon last Tuesday morning. It was the first fish he caught on the very first day of his fishing trip with Dr. S. Thompson (left) also of Penticton, who landed a 24-pounder. All in all the two caught 16 fish on the four-day expedition, many of which were big ones. Harry used a golf-tee spoon to land his 28-pounder, which may be a season's record... so from now on he's a sworn upholder of golf-tees, and a booster for the Kispiox River.

Nearly 200 Fans See Penticton's First Home-Brew Boxing Exhibit

Close to 200 curious sport fans turned out to Penticton's first real staging of a home-brew boxing show Friday evening, and the reactions of this modest but promising crowd — plus the reactions of the Penticton Athletic Association which put on the show — indicate that boxing could be on its way "in" in this city.

While Canadian welterweight champ Jimmy Walters was the top attraction, publicity-wise, in his scheduled exhibition bout with Vancouver's "Lindy" Lindmeyer, he by no means stole the show as far as crowd appeal was concerned.

Limelighting stealing was also served out in respectable helpings by a dozen or so young boxers from Penticton and Keremeos, with many nine- and ten-year olds putting on razzle-dazzle scraps that would make Rocky Marciano sit up and take notice.

All in all, says association manager Andy McGoldrick, the show was a great success. Financially it was as good as expected; and as far as pleasing the crowd and stimulating an interest in boxing are concerned, McGoldrick feels that most expectations were surpassed.

NEUMANN WINS

One of the highlights of the show was the exhibition put on by mitt-swinging Zeko Neumann, who battled to a roughhouse light-middleweight victory over classy Gerry Kleyns of Vancouver in a bout that had the fans sitting on the edges of their seats most of the way. Neumann is 24, Kleyns is 23.

Seventeen-year-old Jimmy Walters and his opponent Lindmeyer fought to a stiff draw in their welterweight bout. Walters, 17, is a year younger than the other boy. Welterweight is the 130 pound class.

In other boxing action nine-year-olds Ian Egely and Tommy Agar, both of Keremeos, battled to a torrid draw, the same result as achieved by McGoldrick's son Dennis "The Menace" and Tommy Knott, the latter of Keremeos.

Penticton's Lloyd Kolbeck, aged 10, lost a close one to Keremeos' Gerald Willis, while a pair of city 12-year-olds, Aphonse Slinger and Danny "Kangaroo" Coe, slugged it out to a draw described by the trainer as "A humdinger".

Rog Dunham, Penticton, lost an extremely close decision to

ARENA SCHEDULE

Oct. 17 — 3:30 to 5:30 p.m., minor hockey; 6 to 7:30 p.m., senior hockey practice; 8 to 11 p.m., minor hockey.

Oct. 18 — 10 to 11 a.m., tiny tots; 3:15 to 5:15 p.m., children's skating; 6 to 7:30 p.m., senior hockey practice; 8 to 10 p.m., general skating session.

Oct. 19 — 10 to 11 a.m., tiny tots; 11 to 12 a.m., Greyhound hockey; 4 to 5:30 p.m., figure skating; 6 to 7:30 p.m., senior hockey club; 8 to 11 p.m., figure skating club.

OSOYOOS — The 1955-56 mixed bowling league has elected Bruno Wurm as its president; Bill Koenig, vice president, and Doris Lemke is secretary-treasurer.

Bowling is now underway every Tuesday, Wednesday and Thursday, with 12 teams entered in the league.

clubmate Ted Sylvester in the 13-14 year class, putting on a great battle despite being 15 pounds lighter; and in the same age group Alice Peelo of Penticton pointed out a decision over Norman Trigg of Keremeos, after some great toe-to-toe battling.

In the side attractions Friday night, fans were treated to an exhibition of Judo and Karate. Japanese defensive wrestling and a stylized form of fencing. It was the Judo that was especially well received, with trainer Sakamoto of Kelowna making a running commentary on the proceedings.

At one point, he showed how to disarm a man with a knife in such a casual manner that it seemed as if the one with the weapon was at a disadvantage.

Queen's Park Rangers Hold 1st With 3-1 Victory Over Hotspurs

Grant Warwick Presented With Cake By Flyers

In the kitchen of the Warwick brothers' cafe on Main street in Penticton is a cake. But no ordinary cake, this. It was presented to Grant by the Flyers Hockey Club at the Vees' Exhibition game in Spokane for his birthday.

The ingenious work of eatable art is a gastronomic replica of an arena, complete with blue, red and goal lines, simulated boards and goals made out of half a paper cup-cake cover.

Covering the sheet of white icing is written "Happy Birthday Grant" in large letters, and there is one player — presumably Grant himself — sitting up on top of the two-foot cake in sugary glory.

Took 700 Calories Per Hour To Swim Across Lake Ontario

The only measuring stick available to establish the amount of energy used in swimming is calories, says the Sports College News. On this basis it is possible to make a reasonable estimate of the energy cost of any length of swim.

However, it must be remembered that wind and water conditions, the build of the athlete and his or her temperament are all factors that have an effect on the actual energy output.

In calculating the energy used by Marilyn Bell in her Lake Ontario swim the News first estimated the energy cost under ideal water conditions and then added a buffer for the extra cost of the actual conditions of the Lake-shore star faced.

According to the breakdown of the time it took Marilyn to cross the lake (approximately 21 hours) she was using calories at the rate of 700 per hour. This is the established energy cost of swimming at approximately 1.7 mph as calculated by Dr. Lawrence E. Morehouse for the crawl stroke.

Her total energy output was in the neighborhood of 14,700 calories. Add to this a buffer of 4,500 calories used up in battling waves and currents and you have a total energy cost of 19,200 calories.

This is about six times as many calories as used during the same period of time by an ordinary person in the average working day. It is about five times as many as a football player would use up if he played the while 60 minutes of a game.

Shuttle-Smashers Hold Annual Meet Thursday Evening

The Penticton Badminton Club will hold its annual meeting this Thursday evening in the High School Gymnasium at about 9 p.m., directly following the club's regular Thursday evening activity which starts at 7:30 p.m.

Purpose of the meeting is to elect officers for the coming season, reports club president Bert Kendrick. Also, the new club set-up, in which it will function as a branch of the Night Schools, will be explained to members.

Both Forward Lines Were Strong, and Played Excellent Soccer, Though the Edge Was in Penticton's Favor

Both forward lines were strong, and played excellent soccer, though the edge was in Penticton's favor. Greatest difference between the two teams, though, was in their respective defenses. Queen's Park Rangers' halves and full-backs were greatly superior to Hotspurs', and continually transformed Kelowna attacking movements into Penticton ones with some clever two-way play.

On the other hand Kelowna forwards were bottled up in their own end most of the time, acting in a defensive capacity, as their own halves and backs were not able to cope with the strong Penticton forward line on most occasions.

GOALIES GREAT

Both goalies put on a good performance, with Kelowna's hard-pressed netminder pulling off some fancy work and thwarting Penticton offensive stabs on four or five occasions, sometimes at point blank range.

Morgan opened the scoring with a long, hard shot into the right side of the goal, about ten minutes from the start. Neither side was able to score again in that half, though several opportunities presented themselves.

Right at the start of the second half Bob Conway had two narrow misses as he tried to head the leather into the Kelowna goal, but both times luck eluded the speedy inside left, as it did the entire game.

Babe Brochu made it 2-0 on a pretty goal from three feet out, picking up Christie's long pass, deking the Kelowna goalie and slipping it past him into the lower right corner as players milled all about him.

MUELLER TALLIES

Kelowna made it 2-1 minutes after, climaxing one of their dashes downfield with most of the Penticton players caught off guard around the Kelowna goal. The whole Kelowna forward line got into the play, with left winger Mueller slamming a hard ground-er past goalie Dewhurst into the right-hand corner.

Penticton really started moving after this, and could easily have racked up three or four more goals. The only one QPR's managed, though, was substitute centre-forward Charlie Goezel's tally just seven minutes from full time. Graham McLaren started the play, feeding the ball to Morgan who put Charlie in the clear for his low, hard shot from six feet out.

Two more scoring chances were

SOCER LINEUP

Following is the lineup of the Penticton Queen's Park Rangers as it was at yesterday's game here against Kelowna, won by the locals 3-1: Ron Dewhurst (goal); Stan Kelly and Gerry Ritchie (fullbacks); Robert McLaren, Graham McLaren and George Christie (halfbacks); Tom McLaren and Casey Jong (wing forwards); Wally Morgan, George Brochu and Bob Conway (forwards); and Charlie Goezel (substitute forward).

Nervousness is possibly the greatest cause of hunting accidents.

When you get a French chef to touch mass-produced, quick-frozen foods with a ten-foot spoon—that's a kitchen revolution. Yet some fifty quick-frozen Gallic delicacies are now being marketed by a French company of cooks.

We're glad to report that aluminum gets Cordon Bleu from the gastronomes. They use it in conveyors; containers and kitchen equipment; and they use nothing else for packaging their products. They respect the way tasteless, odorless, moisture-proof aluminum respects their creations, keeping their freshness and delicacy of flavor till the magic moment when they reach the table.

Penticton Athletic Association Plans Oliver Show In 3 Weeks

Penticton Athletic Association head trainer Andy McGoldrick informed the Herald yesterday that he is making tentative plans to take his up-and-coming young boxers to Oliver in about three weeks time.

On the heels of the group's successful sporting card here Friday night, McGoldrick said he wants to cover as much of the South Okanagan as possible in the PAA's campaign to popularize boxing on an amateur scale in the region.

The immediate plan is to stage a show around the beginning of November at Oliver.

The lumber industry claims to be the oldest in America, since Captain John Smith brought "eight Poles and Dutchmen for the purpose of erecting sawmills" to Jamestown Colony in 1608.

City Air Cadet Trophy Winner

The local Air Cadet Squadron announces that Sergeant John B. Gates of this squadron is the winner of the Royal Canadian Air Force Association trophy for his achievement in taking second place in the provincial flying training scholarship course last July.

Sergeant Gates spent one month at the Chilliwack Flying Club during which time he qualified for his civil pilot's licence and his air cadet wings. The examinations, on which he was so successful, covered flying navigation, meteorology, airman-ship and air regulations.

Cotton and linen shirts are worn year around now. Pair them with wool for fall and winter, heavy linen for spring and summer. Have fun collecting cuff links, too.

Community Concert Goers Hear Teltchicks Friday

Dr. Anderson

(Continued from Page One) been the basis of a happy or contented life.

Penticton music lovers have an opportunity to hear the brilliant playing of duo-pianists Alfred and Herbert Teltchick on Oct. 21 in the Penticton High School auditorium. Here under the sponsorship of the South Okanagan Community Concerts Association, they are now on their seventh sold-out tour of the country. The brothers had their earliest musical training under their father, an old musician, in Floresville, Texas, where they were born. When the family moved to Houston, the boys continued their study there under Aldridge Kidd, until they entered the Juillard School of Music where they studied under Mme. Olga Samaroff-Stokowski.

After graduation, they returned to Houston, where they both worked, and then began to teach piano in the city's public schools and in their own studio. **START RECITALS** To satisfy their own love of making music the Teltchicks began giving two-piano recitals in Houston, in addition to their teaching. That started them off in their rich and fortunate careers together, for their success was immediate and their popularity grew with it.

Their perfect blending of tone, their unusual programs, were but a few of the pianistic attributes that carried them to the top rank of their art. "A touch of genius," a music critic has called their playing.

Another music reviewer has put it more colorfully, describing their repertee as "a thing of joy, combining somehow the exhilaration and satisfaction of a fast game of tennis and first class chamber music."

UNHACKNEYED An important factor in the response the gifted brothers evoke from their recitals is the noteworthy talent they share for building programs of universal and sustained interest.

Thoroughly unhackneyed, their programs blend the beloved and familiar with the new and intriguing, a mixture as satisfying as it is provocative.

Nevertheless, it remains an acute problem for a duo-piano team to build up an extensive, varied repertee. The Teltchick brothers are consistently hailed as a piano team of high polish and striking brilliance.

Summerland Interested in Proposed Pipeline

SUMMERLAND — Summerland Council will ask officials of the Inland Natural Gas Co., to come to talk over the possibilities of the use of gas in Summerland.

The proposed pipeline would come through Summerland, and it was thought that canneries and possibly some other places might be interested in using this method of heating.

"We seem to have discarded many of the drill methods of learning tables, map names and so forth, and though our new methods are more psychological and are probably potentially as useful, do we use such drill to a sufficient degree to make the results equal to those of the past? Have we perhaps, Dr. Anderson queried, "pushed the pendulum too far?"

Dr. Anderson drew a telling comparison between our country and Russia. In Russia, children are taught the fundamentals of mathematics and science, just as ours are, but their methods are much sterner and the children know the meaning of discipline. "The question is, can our children ever stand up to them, if the test ever comes, with their softer backgrounds?" she asked.

"We are indeed favored," the speaker pointed out in making comparison of our country with New Zealand and Australia, which countries Dr. Anderson has recently visited. "They have not changed the old fashioned methods to the same extent that we have, they do not have the many beautiful new schools, as we have; they have no frills; the average home does not have a refrigerator, and they lack a great many of the things we take for granted — but the people seem to be happier than we. Why?"

"Perhaps," Dr. Anderson said, "it is because parents spend much more time with their children, therefore, children have learned to respect and be happy with their elders. Could this older way of teaching be one of the old lamps we ought not to have put away?"

"It is a tragic thing," Dr. Anderson commented, "to have to tell a parent that her teen-age child no longer respects her, that if she had begun a few years ago she could have won the child to her, but now it is too late. Parents must face up to the fact that they must teach a child self discipline and respect for his elders, — but too often they do not know how far they can go. They feel that they must not deviate too much from the pattern set by their neighbors. It is here that parents do depend upon teachers, and teachers must lead the way," the speaker emphasized.

"Standards have been lowered, and there is a tendency for all of us to tolerate evil, to say, 'so what,' to an act which displeases us, but which we feel is not our business. But, if the trend to juvenile behavior problems is to stop," Dr. Anderson said, "it is the teachers who must take the lead. And they must ask themselves whether their modern methods are adequate, or whether there might be a better one somewhere on the discard shelf."

Such things as a sense of duty, service to mankind, respect for age, obedience — all these Dr. Anderson feels are being taught our youngsters much less adequately than a generation ago.

Dr. Anderson concluded her talk by wishing the teachers God speed, and expressing her lifelong conviction that teaching children is the grandest and noblest work that any one can be called upon to do.

Handy little gadget for your handbag is the combination bill-fold and purse that also can double as handbags. Holds a lot in addition to everything that would ordinarily go into a bill-fold.

Long Established Summerland Hardware Firm Changes Hands

SUMMERLAND — Saturday morning one of the oldest businesses in West Summerland changed hands, when the hardware firm of Butler and Walden was taken over by Varty and Lusih. After a partnership of 35 years, E. R. Butler and T. A. Walden are retiring.

Russell Varty, formerly of Cranbrook started work on Saturday. Lusih of Abbotsford will be a silent partner.

Alan Butler, son of E. R. Butler, will continue as a clerk in the new firm.

E. R. Butler came to Summerland in the early days of 1905

and worked in the Summerland Supply Co., one of the original stores in Summerland, which later moved to West Summerland, now the site of Laidlaw and Co. The hardware store is next door to it.

Austin Walden had a business on the prairies, and came here in 1920, when the long partnership began.

The first nickel the partners ever took in, a 1917 one, was nailed to the wall in the main store. It has been passed on to the new proprietors, and Mr. Varty is going to put his first nickel beside it.

Osoyoos Notes

Films to be shown at the Osoyoos Community Hall unfortunately did not arrive as Mr. Swan of the Department of Fisheries had car trouble somewhere near Hope and was unable to deliver the film, and the showing had to be cancelled at the last minute. A business meeting was held instead.

It was moved that the Osoyoos Fish and Game club hold a game banquet on December 7 and that the films of the fisheries department be shown at that time and also that music be supplied.

The public should pay more attention to signs put up by farmers and ranchers and most important of all gates should be left the way the ranchers leave them, whether they are open or closed.

Ken Messer, federal fisheries officer addressed the meeting and gave a very interesting talk on the spawning route and habits of the Sockeye salmon that spawn in the Okanagan River. This run of salmon is one of two major spawning areas still existing on the Columbia River system, the other is the Wenatchee River and Lake.

At present Okanagan River is undergoing a straightening project as a flood control measure and workmen are also building spawning beds. One of these beds which was built two years ago is now being used as if it was natural by the salmon, there are approximately 70,000 fish in the river at the Osoyoos Lake.

The Okanagan River flow has been cut from 0,000 feet per second to 5,000 feet.

The Southern Okanagan Sportsman Ass'n at Oliver were told by Mr. Stevens that the Allandale Lake has not been restocked since 1953 but fisheries biologist George Stringer of Kelowna is going to investigate the advisability of restocking the lake in 1956.

Jack Fleming was elected treasurer for the balance of the year as the result of the resignation of treasurer Stan Reynolds.

The SOSA voted to purchase a partially furnished cabin for the caretaker's use, the cabin is to cost \$150 and will be moved to the SOSA Sportsman's Bowl near the Okanagan River. Russ White is to be the caretaker.

Dig game biologist Pat Martin was the guest of the Southern Okanagan Sportsmen at the meeting and he showed color slides of the game department's trip through the Atlin and Tassiss lakes and the moose, caribou and sheep country, which will be flooded when the new hydro-electric project takes place in the near future. Mr. Martin explained that the mountains are so steep that not much grazing land would be lost in its flooding.

At noon last Friday freshmen students of the South Okanagan

High School conducted hijinks including a snake parade on Main street with the boys dressed as girls and the girls dressed in longjohns as part of their initiation. Activities concluded with an evening dance.

OSOYOOS — Visiting at the home of Mr. and Mrs. H. H. Hesketh are Mrs. Hesketh's sister, Mrs. Jean McFarlane and children, Jimmy and Gwen, from Peebles, Sask.

Miss Audrey Johannessen has left for Vancouver where she will further her education.

Mr. and Mrs. Don Weddell and children of Salmo spent Thanksgiving weekend with their parents Mr. and Mrs. Ralph Weddell.

Mr. and Mrs. Leon Stappler and Beverly spent Thanksgiving with relatives in Kelowna.

Mrs. V. Svendsen, together with Mr. and Mrs. Christiansen, left for Saskatchewan where they will attend their brother's wedding.

Bob and Ray Goertssen of Vancouver were holiday visitors at the home of Mr. and Mrs. Jack Shaw.

Mrs. Hoop from the Isle of Man is a guest at the Harry Mahler home.

Mr. Hesketh, Sr., spent two weeks at Quesnel and is now visiting his son Dave and family at Langley Prairie.

Mr. and Mrs. S. A. Randall of Tullameen spent a day here with their daughter Mrs. Emily Kay before continuing their tour through the state of Washington, entering Canada again via Vancouver to return home. Mr. Randall is 84.

Mr. and Mrs. Tom Prontlee have returned from holidaying at the coast.

Insurance Protection Plus Return of Your Premium Deposits!

Read how you can have low-cost family protection when you need it most and get back every cent you pay in!

Often when you need insurance most (when you're young, establishing yourself, raising a family, buying a house), you feel you can afford it least. One answer is to buy 'term' insurance. But at 60 or 65 when your protection ceases, what have you to show for your money? Nothing!

Well, here's an insurance plan that provides you with ample insurance—low cost insurance—and at the same time provides for the refund of all your regular premiums when you reach the maturity age

of the policy. This is Mutual Life's '60-65 Commander' policy.

As you can see from the sample table below, insurance protection with this policy is at its greatest when you need it most.

The '60-65 Commander' is a sound beginning for an insurance estate. If you'd like to see what it can do for you in the way of protection and savings, your Mutual Life of Canada representative will be glad to give you complete information.

Here are examples of benefits that could be paid under this policy Presuming that the assured purchased 5 Units at Age 30—Annual Premium \$166.65

IF DEATH OCCURRED IN THE FIRST POLICY YEAR HIS ESTATE WOULD RECEIVE:

A. Monthly income of \$50 for 30 years (to assured's age 60).....\$18,000.00

B. Return of 10 Premiums.....\$ 1,666.50

TOTAL DEATH BENEFIT \$19,666.50

IF DEATH OCCURRED AT THE END OF THE 10th YEAR HIS ESTATE WOULD RECEIVE:

A. Monthly Income of \$50 for 20 years \$18,000.00

B. Return of 10 Premiums.....\$ 1,666.50

C. Accumulated Dividends.....\$ 351.60*

TOTAL.....\$19,018.10

IF DEATH OCCURRED AT THE END OF THE 20th YEAR HIS ESTATE WOULD RECEIVE:

A. Monthly Income of \$50 for 10 years \$ 4,000.00

B. Return of 20 Premiums.....\$ 3,333.00

C. Accumulated Dividends.....\$ 1,060.20*

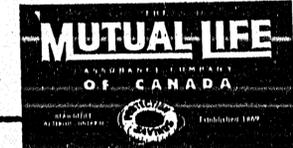

TOTAL.....\$ 8,393.20

*The dividends shown illustrate the 1955 dividend scale. Future dividends will depend upon actual earnings of the Company.

IF HE LIVES TO AGE 65 HE WILL RECEIVE:

A. Return of 30 Premiums.....\$ 5,000.00

B. Plus Accumulated Dividends for 35 years.

PEACHLAND NOTES

PEACHLAND - Mr. and Mrs. J. Richards and family have returned from a trip to Ashcroft where they visited Mr. Ritchard's parents.

Mr. and Mrs. T. Redstone left for Vancouver early this week.

Mr. and Mrs. C. C. Heighway spent several days in Vernon last week.

The Peachland Curling Club held its initial meeting of the season on October 12. Owing to the very poor attendance the meeting was adjourned until Wednesday, October 26, when it is hoped, a greater number of members and shareholders will be present. An executive committee was named and are Verne Cousens, John Brown, Douglas Renfrew, Verne Oakes and Dick Renneberg.

Danny Blower is home from the coast for a few days holiday.

Mr. and Mrs. Pete Spackman are receiving congratulations on the birth of a seven pounds, 13 ounce daughter on October 3, a sister for Beverly.

Mr. and Mrs. Burnett and son Denis, of Burnaby, who have been visiting Mrs. Red Blower left early in the week for the Cariboo, to hunt mouse. While here they bagged two deer.

Mrs. Reg Fulks has been a patient in the Kelowna hospital for several days.

Mr. and Mrs. George Birkelund left for Vancouver this week for a short holiday.

Mrs. Roth, of Penticton, arrived recently at the home of Mrs. E. Manning to spend the winter.

It was decided a special dog tax fund was to be set up in compliance with the Municipal and Sheep Protection Acts. This has always been required but never carried out. No money can be spent for general purposes from this fund until it reaches \$1,000. Any amount over and above this figure may be transferred to general revenue.

A series of 28 low altitude air photos were ordered from the Provincial mapping service to supplement the presently used composite map of the municipality now badly out of date, having been compiled 35 years ago.

As considerable pressure has been put on the council members to float a loan to bring about an early completion of the paving program, council members gave full consideration to this problem and expressed their decision by the following resolution:

Whereas the question of financing completion of the road paving program by means of a five-year loan, has been thoroughly discussed;

And whereas, it was generally agreed that the present paving could not be evaluated until at least one winter had been experienced and, therefore the council would not be justified in recommending such a loan until May 1 at the earliest;

And whereas it is felt that provisions should be made in the 1956 budget for completing the paving of the main hill portion of Princeton Avenue and consideration given the matter of raising money for a more ambitious program in May 1956;

Therefore be it resolved that we recommend the above policy to the 1956 council for consideration.

This resolution was carried unanimously.

Water consumption has fallen off so that only one pump is now necessary to maintain adequate pressure.

Although the date for the annual meeting has not been set, it was decided that a change be made in the type of interim statement to be prepared for this meeting. Instead of only giving actual expenditures and income to the end of October, the treasurer would prepare a statement of expenditures and receipts to that date, but beyond that anticipated income and expenditures to the end of the year would be indicated so that ratepayers would see a full picture for the year under review and be in a better position to judge the stewardship of the retiring council.

The next council meeting will be held in the municipal hall on Thursday, October 27 at 7:30 p.m.

210 Main Street, 736 Lakeshore Drive,

Penticton, B.C.

As official sub-agents for

CANADA SAVINGS BONDS

GEORGE CASTLEDINE

New location manager of Penticton's Canada Safeway Limited branch. Mr. Castledine started taking over his new duties today from relief Location Manager C. F. Banner, who has been running the store's affairs since former manager C. Bedford left Penticton last month. Mr. Castledine is one of the oldest location managers in point of service in B.C., being with the company for 24 years. He is married and has two children, and comes from North Vancouver where he has lived for 37 years. The new Safeway manager was treasurer of the North Vancouver BPO Elks, and a member of that city's Board of Trade. He brings to Penticton a wealth of experience in food merchandising.

Dr. Gordon Shrum

(Continued from Page One)

eral scientific training — if not in quality, certainly in number. To emphasize the energy that exists "in the atom", the well known physicist mentioned that one bomber loaded with hydrogen bombs is more lethal, could do more damage, than all the bombers used by all countries during the Second World War, all loaded to the hilt with ordinary bombs.

"The possibilities of atomic energy in the fields of industry, agriculture, medicine and transportation are fantastic," he said. "It could mean the economic emancipation of mankind, raising the standards of living of all the needy peoples on earth up to the level we now have in North America.

MEDICAL BENEFITS
"So great are the medical potentialities, for instance, that the expense we have gone to on atomic development is warranted for medical uses alone."

And to stress the "newness" of the concept of harnessing atomic power for practical uses, Dr. Shrum reminded the audience that up to ten years ago all the energy used by man throughout all his existence on earth has come directly or indirectly from the sun — Now, man can go elsewhere for his power.

The fuel situation, though, if not desperate is at least causing some concern. Our fuel reserves are getting lower all the time; as much gasoline has been used in the last 15 years as has been consumed by man in the rest of his history. Also, the population of the world — now some 2,500 millions — will probably double inside of the next 85 years.

Extensive development of atomic power could reap benefits untold of by man. Uranium, for example, is around three million times as efficient as coal, pound for pound, and with atomic energy we could even get all our minerals from the sea, if

need be.

BLESSED NATION

Canada is just about the most blessed nation on earth, in the material sense. Only three-fifths of one percent of the world's people live here, yet we produce enough wheat to feed 90 million, 60 percent of the world's wood pulp, 50 percent of the world's aluminum and Canada is high up in the production of petroleum, iron, nickel, asbestos, gold, etc., besides being one of the world's richest possessors of uranium deposits.

By 1957 uranium could become Canada's fourth largest metal product in terms of dollars and cents, yet we are desperately short of personnel to develop this resource, and are becoming more and more desperate all the time.

Dr. Shrum pointed out that school teachers are the key to raising this interest in the sciences, since they hold such an influence over youth. The public often criticizes the government for spending so much of its budget on defence, while allotting only two percent to independent scientific research. But the reason is simply that Canada does not have sufficient personnel to spend any more money on, however much the government would like to.

One solution, suggested by the speaker, would be to pay science teachers a scientist's salary, so that more highly trained persons would teach science, and want to teach science; and also improve greatly the actual teaching of the subject. This could help stimulate a general increased interest in science among Canada's youth.

Discussion On Thirsk Dam Road

SUMMERLAND — Regarding the road to Thirsk Dam, Councillor H. R. J. Richards reported to Tuesday's council meeting that he and government engineers Willis and Underwood had gone over it last week. He said that the engineers agreed that the bridges between the Klirton to Mazama section were in a deplorable condition, but that they disclaimed responsibility in the matter, since there are six railroad crossings in the area each marked "Private", and they contended that it is the CPR's property and should be maintained by it.

Summerland Council believes that the bridges were built by Chapman Brothers under government contract and a search is being made to back up this belief. Thirsk Dam is one of those supplying water to Summerland municipality and is used by the local water department going in to work at, or inspect the dam.

Former High Ranking British Official Occupies Pulpit Here

Herbert L. Harris, OBE, J.P., a former Governor-General of Jamaica, preached in the Central Gospel Chapel yesterday. Mr. Harris has been retired from the service of the British Government for seven years, and is now residing in Victoria. Besides being a government official, Mr. Harris has for many years been a devout student of

the Scriptures, and is a capable speaker. His final meetings of his visit here, will be held tonight, Tuesday and Wednesday at 8 p.m. in the Central Gospel Chapel.

BUGS BUNNY

ALLEY OOP

She's A CANADA SAVINGS BOND TALLER EACH YEAR

It's an exciting adventure . . . growing up. The world is so new and big . . . and one can never quite get over the huge discovery that one is becoming a person.

No one knows today how many thousands of young Canadians are leading fuller, happier lives because their parents bought Canada Savings Bonds regularly over the years.

There are people who always intend to do something about things like this and then forget. So make a cast-iron resolve now to get your order in to your bank or investment dealer right away.

And whether you are a parent or not, discover how the ownership of these fine investments will put a twinkle in any eye—your own included.

Ex-Railroader James Agnew Passes; Funeral Wednesday

Resident of Penticton since his retirement from the railway in 1943, James Agnew passed away in Penticton Hospital yesterday, age 78 years.

Born at Pakenham, Ontario, he trekked west from Ottawa in an ox cart and the family settled in the Wapella district of Saskatchewan.

He joined the Canadian Pacific Railway as a young man and worked under his father who was a section foreman on the Brandon division of the CPR.

When he retired in April, 1943 he had served 51 years, 9 months with the company with only a three months' break in all the years.

He transferred from bridge building to train service and rose to the rank of conductor.

He leaves to mourn his loss his wife, four daughters, Mrs. Kathleen Henshaw, Penticton

JAMES AGNEW

Mrs. Marjorie Wagstaff, Strathroy, Ontario, Mrs. Muriel Finch, Penticton, Mrs. Gloria Lee, Penticton, two sons, George and Clifford of Penticton, 21 grandchildren, two brothers, Dave of Studio City, California, Herbert of Moose Jaw, three sisters, Mrs. G. V. Hawks of Santa Barbara, California, Mrs. Alice McDonald and Mrs. J. L. McTaggart, both of Winnipeg.

Funeral services will be held on Wednesday at 2:30 p.m. from Roselawn Funeral Home. Reverend Samuel McGladdery officiating with committal at Lakeview Cemetery.

Roselawn Funeral Home is in charge of arrangements.

CNR Train Smashes Into Stalled Car

MONTREAL — (BUP) — The crack Canadian National Railway No. 6 pool train bound from Toronto to Montreal smashed into a stalled car at a level crossing last night. There were no fatalities. Forty persons were injured in the accident, which occurred at Riviere Beaudette.

Nine cars of the 15-coach train and its engine were derailed in the collision near the Ontario border, 60 miles west of here.

Police said the train hit an automobile which had been abandoned by its three occupants after it stalled at the crossing.

To remove glue from a washable fabric soak it in warm soapsuds until glue soaks off. Then wash and rinse.

Keremeos Notes

KEREMEOS — Keremeos Adult Players' Group was well pleased with its first "studio party", instituted to arouse interest in the study and production of drama and, if possible, to add to its membership. A one-act comedy entitled "The Dear Departed" was produced by permission of Samuel French, for the entertainment of visitors who were invited to attend the "makeup session" in charge of Mrs. F. C. McCague and several availed themselves of the opportunity. Mrs. Millar Kirkpatrick, directed the production, the cast of which in order of appearance was: Amelia Slater, Mona East; Victoria Slater, Shirley Harris, Henry Slater, Weldon Munden, Elizabeth Jordan, Ruby Shaffer, Ben Jordan, Dev. Munden, Abel Merryweather, Lloyd Rees. Guests expressed themselves as enjoying the short play and several new members joined. Miss Joyce Graham was in charge of properties and also assisted Mrs. Kirkpatrick in prompting. Mrs. E. C. Armstrong was in charge of sandwiches and coffee. A meeting will be held on October 18 to discuss further studio parties and read plays.

Corporate Communion in St. John's Anglican Church here, with the High Reverend Philip Beattie, Bishop of Kootenay as celebrant, assisted by Rev. C. S. Lutener, vicar of the parish, preceded the opening of the 31st conference of the Kootenay Archdiocese of the Women's Auxiliaries of the Anglican Church of Canada. Delegates and guests were welcomed by Mrs. J. H. T. Worsfold, president of the W.A. of St. John's. Mrs. Lutener presided. Excellent reports of the various branches were read and accepted, all bearing tribute to the excellent work by this hard-working group. Bishop Beattie addressed the conference and

Mrs. N. Solly submitted a full and inspiring report of the Dominion Conference in Winnipeg at which she was a delegate. Mrs. Horswill of Castlegar, diocesan president, spoke briefly on matters pertinent to the auxiliaries. Election of officers for the ensuing year resulted in the following slate being re-elected: president, Mrs. C. S. Lutener of Oliver; vice-president, Mrs. G. W. Aitkens, Peachland, and secretary-treasurer, Mrs. T. Stephens, Kelowna. Mrs. A. Sladen convened a committee providing tea and coffee upon arrival of the delegates and at luncheon, and Mrs. O'Connell was in charge of afternoon tea.

Keremeos Guides, Brownies, Guides and members of the local association, who attended the mass rally of Scouts, Guides, Cubs and Brownies in Penticton on Sunday, as is always the case wherever the Chief Scout, goes, fell in love with Lady Baden-Powell and without exception were thrilled with the experience and the opportunity to see for themselves the founder of the great world-wide movement. Transportation for the local Guides and Brownies was provided by Mrs. A. Sladen, Brown Owl, Mrs. G. Barker, Mrs. A. Winkler and J. H. East.

Local residents who are patients in Penticton Hospital include Grover Crowder, recuperating from an operation, J. Sharpe, suffering back injuries resulting from a fall, J. L. Marston and J. L. Innis.

On tiny Providence Island north of Madagascar the hearts of coconut palm trees provide a delicacy known as "the millionaire's salad," says the National Geographic Society. A palm heart is obtained by cutting down a mature tree. To serve ten persons costs about \$200.

Believe Missing Princeton Lawyer Dead Of Exposure

PRINCETON — (BUP) — Organized search for a 39-year-old lawyer missing in the Princeton area for a week has been called off. RCMP said they cancelled the search last night after a week's intensive scouring of the countryside failed to reveal any trace of lawyer John Ewing.

Ewing went for a walk on the old Hope-Princeton trail a week ago Saturday and was to be picked up by his wife on the highway at dark. However, he failed to show up and search parties were organized.

When last seen Ewing was clad only in light clothing and carried two chocolate bars for nourishment. He is believed to have become lost and died of exposure.

Reunion Saturday For Air Force Vets At Vernon

Third annual Okanagan Air Force reunion will be held in the B.C. Dragons Armories at Vernon on Saturday, commencing at 7 p.m.

Tickets will be available at the door or may be reserved by contracting C. G. Belsdon, Box 271, Kelowna, or C. Brodie at the T. Eaton Co. in Vernon.

Special rates have been offered by the National Hotel in Vernon and reservations will not be necessary.

Just because you are dining at a small cafe, doesn't mean your table manners shouldn't be as good as if you were eating in a high-priced restaurant. The person of breeding eats like a lady or gentleman, whether at a picnic, eating at a hamburger counter, or dining by shaded lights to the strains of a dance orchestra.

In And Out Of Summerland

Mr. and Mrs. R. L. Angus have returned from a short holiday in Victoria.

Mr. and Mrs. V. M. Lockwood and Mrs. W. Snow returned from visiting at the home of the Lockwood's son-in-law and daughter, Mr. and Mrs. H. Pierson, Euphrates, Wash. At the end of the week Mr. and Mrs. Lockwood accompanied by Mr. and Mrs. Cliff Hultgren of Penticton left for a hunting trip in Alberta.

Attending the archdeaconry meeting at Keremeos last week were Mrs. F. V. Harrison, Mrs. W. Beattie, Rev. and Mrs. A. A. T. Northrop, Mrs. N. O. Solly and Mrs. R. A. Fredrickson.

Ted Danson has gone to Prince George where he expects to be until nearly Christmas.

Guests of Dr. and Mrs. M. D. Proverbs is the former's father who has come from his home in Barbados for an extended visit.

Thought it was bad taking a bath twice a day in the hot weather? Well, circus beauties take five baths a day, winter and summer.
