

"FINE OR SUPERFINE?" questions the young lady. "Guess what's in my hand and I'll let you be my Valentine," replies the boy. It's the time of year again when hearts are young and beat a little faster because next Sunday is Valentine's day. Largely celebrated today by exchanging sentimental missives, there was a time when young people would meet and each of the men drew from a number of names of the opposite sex. Each gentleman thus got a lady for his valentine, and he became the valentine of a lady, to whom he was bound to be faithful for a year.

Children And Marches

Child Dies Of Burns On Second Birthday

Yesterday would have been the second birthday of little David Neil Tattnie, but there was no party at the Tattnie home, 195 Pentiction avenue.

Instead, funeral arrangements were made for the youngster, victim of severe burns when four tiny tots, brothers and sisters, played with matches while their mother visited a neighbor.

The tragedy occurred shortly before noon, Monday, and the boy succumbed at Pentiction hospital the same night.

Reconstructing the accident by what they could learn from the other Tattnie youngsters, firemen believe the children reached up and obtained a box of matches. The box fell to the floor, spilling its contents in the kitchen.

They started to light the matches around a plastic toy and threw some into the woodbox, which caught fire.

Flames licked against David's flannel kimono and in a flash the combustible material had been seared from his body—leaving 60 percent burns. The mother, who had returned, fainted.

Inhalator squad of the fire department rushed the boy to hospital where he died overnight.

He leaves, besides his mother and father, one brother Jimmy, two sisters, Maryette and Louise, grandparents, Mr. and Mrs. J. E. Leeman, Calgary, Mr. and Mrs. G. C. Tattnie, Nelson.

Funeral services will be held from Pentiction Funeral Chapel, Friday at 2:00 p.m. Mr. Maddock officiating. Committal at Children's Plot, Lakeview Cemetery.

It is not likely an inquest will be held.

Shades Of Slave Days At Pen-Hi Girls "Sold" To Highest Bidder

Student members of the H.Y. Club chose a novel way yesterday of promoting their "Tools for Korea" drive when pretty high school girls were put on the block and auctioned off for... of all things, nails.

The boys contributed the nails, to be included in the kits for Korea, and the girls they bid on became "a date for a day."

Four-day campaign, enthusiastically sponsored by members of the H.Y. Club, and aided by teachers and members of service clubs, is going well. Students are making a house-to-house canvass, accepting any and all tools which will be repaired, made up into kits and sent to Korea to aid citizens of that devastated country in rebuilding their homes.

Already, the collection includes just about everything from sledge hammers to screwdrivers. Tonight the southwest section of Pentiction will be canvassed and the drive concludes tomorrow night when students appeal to residents in the northeast portion of the city.

Former Nurse On Board

Large Attendance At Hospital Meet

The best attended annual general meeting of the Pentiction Hospital Society in many years held Tuesday evening, elected Miss Kathleen Ellis and P. E. Pauls to two of the three vacancies on the society's board of directors and re-elected long-time trustee F. G. Eye to the remaining post.

George Lang, former vice-chairman of the board and its chairman of finance, was not successful in seeking re-election. W. B. Carter and Col. E. W. Dougherty were the other two nominees of a slate of six. Edgar Dowdney, the other retiring member of the board, did not seek re-election.

Miss Ellis, a graduate of John Hopkins, Baltimore, and pioneer resident of Pentiction, brings a wealth of experience to the board. She has held high position in many hospitals both here in Canada and also the United States.

P. E. Pauls, prominent businessman of this city for 15 years and former Rotary publicity demonstrator, has administrative ability in recent years as chairman of the fund committee when initial steps were taken to raise funds for erection of Pentiction Memorial Arena.

Before the gathering of 100, in the Anglican Parish Hall, board chairman J. T. Young paid high tribute to the services of Mr. Lang as vice-chairman and for his work as finance chairman in the difficult year of transition from the old hospital to

Committee Recommends Against Renewal Of Golf Course Lease

LEVY INCREASE JUMPS LIBRARY COSTS \$1,000

Ten cent increase in the Okanagan Regional Library Association per capita levy will cost the city of Pentiction about \$1,000 more this year than it did last, Alderman J. G. Harris reported to City Council on Monday.

People are not fully aware of the facilities offered by the library service, Alderman Harris commented, but he added that in Pentiction the location of the library in the old medical clinic building had resulted in more subscribers.

This service is free, best sellers can be acquired on request as can any reference book in British Columbia, the alderman stated.

22 Assessment Appeals Heard

Assessment's Court of Revision, which has been sitting at City Hall this week, will inspect four pieces of property today and then adjourn until next Monday, at 10 a.m.

At that time they will hear further evidence in the appeal of a group of auto court owners on Lakeshore Drive and consider farm improvements.

A total of 22 cases were considered by the court, 13 brought by registered appellants and the other nine by the assessor, with these results: 12 were confirmed, one was increased from \$2390 to \$2600, two were changed, one was increased from \$74 to \$111 and another from \$50 to \$111, one parcel of land was decreased in value from \$3600 to \$3450, another from \$3190 to \$2430, one exemption was cancelled, and the taxable improvements set at \$1430, two appeals arrived too late.

JAYCEES BAT FOR FESTIVAL

Belief that the Pentiction Peach Festival is of utmost importance as a tourist attraction and that every effort should be made to ensure its continued success, was the opinion expressed by the Pentiction Junior Chamber of Commerce in a letter received by City Council, Monday.

The festival is a community-wide project, stimulating the interest of the people in their city and, as such, deserves the support of the Pentiction City Council, the Jaycees stated.

The letter was ordered filed and along with other opinions, pro and con, will be considered by council when the controversial question of granting financial assistance to the festival is further discussed.

Fred Schofield Heads Pentiction Auto Courts Ass'n

New president of Pentiction branch, Auto Courts and Resorts Association of B.C., is Fred Schofield. He succeeds Ben Nyen. U. G. Jarly is vice-president, Fred Jamieson, secretary-treasurer and A. G. Gibbs, local representative on the provincial board of directors.

Also on the executive are the past president, Mr. Nyen, and retiring secretary-treasurer, Mrs. W. Crossley.

The meeting was well attended and plans for the coming year were discussed.

Three Fire Calls Answered This Week

Pentiction fire fighters answered three calls during the past week, one of them a woodbox at 195 Pentiction avenue, which also resulted in the fatal burning of a two-year-old, David Neil Tattnie. An overheated oil burner or call on Feb. 4 caused no damage. Third call was to Main street on Feb. 5 when a battery shorted in a Dodge. Delivery. There was no damage.

Moving Day Loomed Near For Members of the Pentiction Golf Club When, on Monday, City Council Approved in Principle the Recommendation of its Industrial Committee Against Granting Renewal of the Lease for the Course as the Site is Required for Industrial Development.

Slings of this recommendation was eased by the committee's further recommendation that City Council should take immediate steps to acquire the land lying immediately west of the golf course and extending to the Okanagan River channel for development of another course in which the existing four holes to the west of the CPR track would be incorporated.

Ald. Titchmarsh In Opposition

Opposition to this recommendation was voiced by Alderman E. A. Titchmarsh who declared that he did not believe the city could afford the kind of money required to purchase land for a new golf course. "I think the interests of the public would be adequately served if the golf course lease was not renewed on its expiration next year and if the golf club was permitted continued use on a 30 to 60 day basis, so that the land would be available for industrial purposes if required," Alderman Titchmarsh said.

On the other hand Mayor Oscar Matson saw some urgency in the situation and while he approved of the committee's recommendation in general, he questioned what would happen if an industry wanted immediate location in Pentiction. The mayor pointed out that the lease had a year and a half to run, and he expressed the view that if the city was going to acquire land to provide another course then, perhaps, the golfers should be asked to agree, in the event of need, to surrender its lease on short notice.

The mayor indicated he was thinking of the H. J. Heinz Company of Canada Ltd., which only last week informed council of its continued interest in Pentiction as a possible site of a western branch.

"Those fellows will want action right away," Mayor Matson said.

City Not Obligated To Assist

It was made clear that the city is under no obligation to the golf club and that council could permit the lease to expire and re-acquire the land considered essential for future industrial development, without assuming any obligations.

Council, however, was in overwhelming agreement with the industrial committee that both a golf course and industrial site are essential and as the golf course site in the words of Alderman F. C. Christian, "is the only land in the city bordering on trackage which is left for industry," council felt that while it had no legal obligation to the golf club it was morally bound to assist in establishment of another course.

No mention was made during the Monday discussion of the fact that the land is dedicated as park land and, as such, would require the approval by the city of the voters before it could be opened for industrial development.

Financing Is Knotty Problem

Cost to the city of acquiring the 54 acres east of Eckhardt avenue and extending from the west boundary of the present golf course to the Okanagan River was estimated during a recent meeting between council and the town planning commission as \$43,000, but later estimates are much lower.

Knotty problem for council is how to finance the purchase of the land proposed for the new golf course. General opinion appeared to favor financing out of general revenue, but after some discussion the question was referred to the finance committee for study and report.

Before the matter is finalized it is expected that council will confer with the town planning consultants, now preparing a master town plan for the city, to learn the town planners' recommendations regarding the site.

The inference is drawn from the industrial committee's report which ended, "subject to the approval of the official town plan, is submitted to council."

Ask Dollar For Dollar Assistance From B.C. Government For Creek

Faced with an estimated expenditure of \$40,000 on the Pentiction Creek channel this year, City Council will approach the provincial government asking the government to put up dollar for dollar with the city in expenditure on the creek.

Sponge Not Yet Thrown In On Old Hospital Building

"It's mighty funny that after 30 to 35 years as a hospital the building is now considered unusable for hospital purposes." Thus Mayor Oscar Matson, on Monday, received the report of the provincial fire marshal which, although approving use of the old hospital building for an old peoples' home, vetoed its use as a hospital for chronics.

Alderman E. A. Titchmarsh also had his ideas. He pointed out that major reason for refusing use of the building for a chronic hospital was that regulations called for ground floor exits. With this in mind he suggested that the lower floor, which has ground level exits, could be used for hospital purposes and the upper floor as an old peoples' home.

Mayor Matson applauded the suggestion. "We could bulldoze the earth from in front of the lower floor and give ground exits all the way round," he said with enthusiasm.

"I'm glad Alderman Titchmarsh spoke as he did," Mayor Matson said. "It is a matter of concern to us all. I'm against letting it die a natural death."

Data To Be Gathered

Lakeshore Court Owners Protest '54 Assessments

Concern over loss of revenue which they attribute to closing of Lakeshore Drive, at the new dam, was voiced by a group of auto court and resort owners at Monday's session of the Assessment's Court of Revision.

The matter was tabled for one week, to allow gathering of information from auto court owners in the south part of Pentiction, where closure of Lakeshore Drive would have little effect.

Main question broached by Mayor Oscar Matson was, as reduction in revenue sustained by these auto courts on Lakeshore caused by closure of the road or is it a condition brought about by a general reduction in public travelling?

The week's adjournment was agreed to while conditions of business will be sought from auto court operators in the southern part of the city and where unaffected by the closure of Lakeshore drive.

Appearing for the operators of the Blue and White, Pentiction, Crown, Laguna, Kelley's, Kabins and Lakeshore auto courts, P. D. O'Brien explained that operators depend solely on the travelling tourist for their income. There are two types of visitors, declared Mr. O'Brien, those who come in the summer and stay a

OUCH!

Monday night's Pentiction-Trall hockey game cost a Pentiction man about \$56, calculated this way:

Ticket to game	\$ 1.00
Reasonably good bottle of liquor	5.00
Fine for drinking in a public place	50.00
Total	\$56.00

Police say some fans are flagrantly "tipping" before their very eyes and they warn that a crackdown is imminent.

Ceaseless Traffic Patrol Reduces Accidents

BY VINCE DUGGAN

"In the true sense of the word there is no such thing as an accident as far as motor vehicles are concerned because in all such cases it is a caused occurrence."

That is how RCMP Constable Meredith "Mert" Rowden summarized the year's review of fatalities, accidents involving injuries and property damage, reckless and impaired driving, speeding and the many other breaches of good driving habits that go to make up the voluminous reports he keeps.

Constable Rowden is a man who should know. As a traffic officer, he has pushed a highway patrol car over 50,000 miles since August, 1952, in the relentless drive against erring motorists. The territory is vast, the hours uncertain, but the reward heartening. Borne out by statistics, there has been an appreciable drop in the accident rate during 1953, this in spite of the fact there has been an increase in motor vehicle registrations during the past two years of about 24 percent.

Let's look at the Mounties, who could, along with the Navy, well be termed "the silent vice," with emphasis in this report on the Pentiction detachment who police this area.

First, the patrol service, covering the territory from Westbank to the border, from Kaledon Junction to Hedley and east from Osoyoos to Rock Creek.

ONE FATALITY

In the Pentiction area alone, there was one fatality in 1953 as compared with three in 1952—accidents involving injuries decreased from 50 to 39—accidents involving property damage showed a slight drop from 151 to 129—bearing in mind that vehicle registration took a

jump of about 12 percent in the same period of time.

This only begins to tell the story. 594 motorists were "ticketed" and faced court action for a series of offences that ran the gamut of violation, excluding city by-laws.

Constable Rowden, with his pin-pointed map of explanation, much like a teacher at a blackboard, dissected his area and interpreted the meaning of each pin; one color for fatalities, a second for personal injury and a third for property damage.

Happily, the bronze pin, spelling death, showed in only three places during the year: along Summerland road, near Keremeos and east of Anarchist Mountain.

This is how the constable explained his area, section by section:

Peachland area: Five accidents involving deer, most others involved tourists not familiar with the road.

Summerland municipality: An

gle parking on Main street is a headache. Cars backing out are hit from behind or back in to another vehicle. There have been 10 accidents on the road, north of Summerland, under construction. The same applied on the road between Summerland and Pentiction while it was under re-construction; but the accident rate has been reasonably good since that time.

Pentiction proper: Traffic lights at Main and Eckhardt have appreciably cut down accidents at this intersection. Motorists are generally cautious in the school zone, with one of the most often repeated infractions being failure to stop behind school buses when they are loading or unloading.

Between Wade and Nanaimo: Three accidents caused by failure to signal when leaving the curb.

Between Guelph and Green: Three accidents, two, injuries, speeding.

Intersections of Upper and Lower Bench and Naramata Road: Sharp curve and blind intersection. Five accidents from falling to make the curve, three collisions at the intersection.

Kruger's Hill: Ice and weather conditions largely to blame. There were five slideswipes and too many motorists had the unhealthy habit of crowding on the corners.

Waterman's Hill: Mostly speed. Yellow Lake Ice curves and speed.

RCMP CONSTABLE "MERT" ROWDEN points to a cluster of pins on the road map, showing precise places where accidents occurred during the past year. Heavily bunched pins indicate danger spots. Pin-pointing of the area between Summerland and Westbank is incomplete. Smaller map to the right is of Pentiction city proper.

QUEEN ELIZABETH pauses to chat with wheelchair patient A. R. McCallum during her visit to the public hospital in Christchurch, New Zealand. Continuing their busy round of activities, the Queen and the Duke of Edinburgh were greeted by the swirl of bagpipes as they arrived at Dunedin, N.Z., the city considered more Scottish than any other outside Scotland.

Specialists Talk To Growers At Annual Chautauqua Held Here

Annual fruit growers' Chautauqua at the Hotel Prince Charles last Wednesday heard addresses by Ian Carne, district horticulturist, Salmon Arm, Dr. D. V. Fisher, Summerland Experimental Station, John Smith, supervising horticulturist for the Okanagan and Ralph Downing, Summerland entomological laboratory.

Using descriptive slides, Mr. Carne touched on various phases that should be considered in orchard management. 1. Pruning young trees — build a strong framework of limbs and avoid weak crotches. 2. Fertilizers — in most Okanagan soils nitrogen is the only element usually necessary. In the majority of our soils the most satisfactory type to use is ammonium nitrate. 3. Mineral supplements — these are a must. Include boron, zinc, manganese, and magnesium applied as sprays to tree foliage. Some doubt exists as to whether these elements should be combined with insecticidal materials and until this situation is clarified apply mineral supplements alone or with DDT only. 4. Mulching young trees with shavings — a good practice where shavings can be applied at reasonable cost. It provides more uniform soil temperature and moisture conditions, and reduces annual weed growth. 5. Mouse control — no one single method, but rather a combination of methods is usually necessary to prevent mouse damage to trees.

Other phases dealt with included irrigation, erosion effects, overcrowding of trees and cover crops. In addition, Mr. Carne showed examples of root troubles, occasionally encountered in young trees such as crown gall, hairy root and woolly aphid damage.

Dr. Fisher dealt with fruit thinning techniques. Reviewing spray thinning recommendations for apples, he noted that results will always vary from year to year and from orchard to orchard, but in the main the procedure has saved the industry money. The main change over last year is that hormones should be applied only with gun sprays and they should not be applied to varieties earlier than McIntosh or to Delicious or Stayman.

There is no quick method developed, as yet, for pears. There has been no experience with cherries but this might be possible by using about one-half pint Eigerol per 100 gallons.

For apricots, peaches and plums there is no firm recommendation but any grower interested might try chemical sprays on a few trees. Suggested materials and rates may be obtained from local district horticultural offices.

In addition to chemical methods, Dr. Fisher showed alternate manual methods, including rubber-tipped clubs for apple, and water sprays, wire claws or faggots of prunings for apricots and peaches.

Mr. Smith talked on insect and disease control. He noted the situation has changed completely from pre-war days in regard to method of application, type of spray materials and prevalence of respective insects and diseases. Prior to 1940, codling moth was the fruit grower's number one enemy.

With the introduction of DDT a miracle happened and codling moth was all but eliminated. Lately, there has been a slight buildup of this pest because many growers are not adhering strictly to the spray calendar recommendations. Mr. Smith advocated pink spray

First Things First Argues Parks Board

Parks Board is well aware of City Council's policy of replacing trees which have had to be removed, but the parks board sees no percentage in planting trees on streets which are without curbing.

In a letter to council on Monday, the parks board stated it was prepared to plant trees to replace those recently removed from Government street and Nelson avenue on the first street completed with curbing.

The board stated it had experience in planting trees on undeveloped streets, with the result the trees were considerably damaged by vehicular traffic.

"A good point," commented Alderman F. C. Christian, as the letter was ordered filed.

The Sea of Japan, dividing Japan from Korea is almost tideless for most of the year.

Keremeos Notes

KEREMEOS — At the annual meeting of the local association to the Girl Guides and Brownies the following were elected for the current year: president, Mrs. J. H. East; vice-president, Mrs. J. A. Mackenzie; secretary, Mrs. A. Van Unen; treasurer, Mrs. A. P. Beck; badges, Mrs. W. Corkle; and membership, Mrs. C. Lawler. The meeting was held at the home of Mrs. A. Van Unen with Mrs. E. Ramsay and Mrs. C. Lawler as hostesses. Satisfactory reports were received and approved. Mrs. J. A. Sykes had kindly consented to carry on with the Brownies until such time as a successor to Mrs. A. Harris, who had resigned because of ill health, could be found. At the meeting Mrs. E. Ramsay generously undertook this all-important work and Mrs. Sykes will assist Mrs. Ramsay and Mrs. Burdett for a few weeks. After the meeting, Mrs. J. A. Mackenzie provided a series of games and contests which caused much amusement. The meeting closed with the serving of refreshments.

The District Zone Council meeting of the Canadian Legion and its Auxiliaries will be held in the Legion building, next Sunday afternoon at 2:30 p.m.

Keremeos-Cawston Red Cross held a successful meeting here on Thursday evening. Reports told of the raising of last year's canvass and of 105 individuals donating blood. Mrs. J. C. Clarke in reporting on blood donors said that the procuring of the school bus for transportation of donors to Penticton had facilitated matters considerably. The following officers were elected: president, Mrs. S. R. Manery; vice-president, Miss E. Dunnett; secretary, K. G. E. Mackenzie; treasurer, J. A. Mackenzie; directors, Miss J. G. Dugdale, Mr. and Mrs. J. H. Worstold, Miss Helen Pyne, Mrs. J. H. East, Mrs. J. C. Clarke, Mrs. K. Harker and Mrs. M. Cook. Mrs. J. H. East was chosen delegate to the provincial conference. It was decided to delay plans for the annual canvass for funds until a meeting which will follow immediately after the convention.

Larry Metz, who has been seriously ill in Penticton hospital, is recuperating at the home of his grandparents, Mr. and Mrs. W. G. Smith.

Elks Take 4-3 Win From Trail; Run Second Now

KAMLOOPS — Four goals in the opening period was the margin that moved Kamloops Elks into second place in the OSAHL for the first time this season when they slipped past Trail Smokeeaters of the WIHL 4-3 here last night.

The game was a wide open, fast passing affair that sent the full house home happy. Elks broke fast in the opener with Andy Clovechok and Bud Evans blinking the light once each while Don "Slats" Slater, playing a driving game, beat Seth Martin twice.

Smokees came back in the second frame with playing coach Moe Young breaking the goose egg at 2:50 and Apps Dorohoy making the scoresheet read 4-2 at the six minute mark. Both Hal Gordon in the Elk net and Martin between the Trail pipes held off all attacks until 13:51 of the third frame when Young whistled the rubber past Gordon from just inside the blue line.

With a possible tie on the fire, Young pulled goalie Martin at 18:35 when Kamloops' Bud Evans was thumbed to the penalty box on a tripping call. Trail pushed hard with every man up but Elk coach Ken Ullyot proved a master at getting the face of drop and Kamloops controlled things until the final whistle sounded.

The Hospital Reports

Penticton's splendid new hospital has almost completed its first year of operations and, according to reports presented to the annual meeting of the hospital society last night, that first year has had many gratifying features.

Of paramount interest to the community is the fact that an anticipated loss of \$35,000 as predicted by the board some time ago was cut to some \$15,000 on actual operations, and further reduced through profits of a non-operational character to a net loss of only about \$9,500. Under all the hazards and uncertainties of the first year of operation of a new and larger institution, and considering the fact that the hospital's overall budget involves some \$400,000 the outcome is a very real tribute we think, to business-like management and direction.

The chairman of the board, John T. Young, has also emphasized that the future can be expected to yield increased efficiency with an even better balanced budget, with the disappearance of fu-

ture deficits indicated.

Penticton is proud of its new hospital, as it is, but it will be even more pleased in the news that the project's affairs reflect capable supervision.

Symbolic of the program of the hospital, we also feel, are the special courses of training completed by the administrator, Mr. Macdonald, and in course of completion by the superintendent of nurses, Miss Walker. It is such facts as these, we submit, that demonstrate that the Penticton hospital is a purposeful institution.

In any operation of this size, that there can be commentary and criticism goes without saying. That there will always be a place for constructive interest, the board members themselves will be the first to stress.

Penticton, however, can take a careful look at the first year of stewardship of our new hospital and easily reach the conclusion that, on the whole, an important job is receiving the handling it deserves.

Sensible Legislation

At the last session of the British Columbia Legislature approval without dissent was given to a bill to regulate marginal development along new highways. The fact that it was unopposed by any party shows a general recognition of the need to protect public investment. The bill itself was a carry-over from the former government which the new government carried through and placed on the statute books.

Uncontrolled strangulation of arterial highways, built at enormous cost, paid for mainly by the motoring public, presents a serious problem to governments everywhere on this continent. There has been reluctance to restrain commercial enterprises from locating wherever they may believe there is business offering; yet as the density of motor traffic increases it has become obvious that trunk highways cannot fulfill their primary purpose when hemmed in by ribbon development. British Columbia breaks new ground in Canada by taking legislative action to save these expensive highways from degenerating into mere local roads.

The measure which the House endorsed goes further than control of roadside commercial ventures. It is aimed also at preventing the cross-hatching of provincial roads with local roads likely to cause congestion of arterial traffic. Application of this restriction will affect the development projects of local authorities,

but in explaining the intention of the bill the government gave assurance that there will be full co-operation with municipal councils and planning boards in organized districts.

This legislation is framed in such a way as to place very wide authority in the hands of the minister of public works; but from a practical point of view it is difficult to see how control over ribbon development could be exercised otherwise. Situations are bound to arise which could not be foreseen in a single piece of legislation, and it will be necessary to deal with each case on its merits. So long as the act is interpreted fairly and reasonably there can be little valid objection to it, though the minister is likely to encounter opposition from the type of individual who sees a new highway built at public expense as a golden opportunity for commercial profit.

Business ventures already established alongside existing highways will not be interfered with, the government has said. The restrictions will apply only to future construction. All who might contemplate locating alongside a highway thus are forewarned, and there should be no hardship to anyone. Altogether this appears to be a sound piece of legislation, and an essential one if waste of public money is to be prevented. — Kelowna Courier.

But He Stays On

One of the subjects that never fails to find a responsive ear is that which deals with the retirement of Prime Minister Churchill from active public life.

Few writers sum up the repetition of speculative stories as did the editorial writer for the Peterborough Examiner, when he said:

"Churchill has always been going to retire — according to other people. When he was a lonely back-bencher between the two world wars they said he was a spent man. When he was preaching against the danger of Hitlerism from 1933 to 1938 they said he was a man who had his day and was now old and cracked. When he was defeated in the 1945 elections, it was said that that was the end of his great career; he would retire to the House of Lords and warm his old

age with the adulations of the crowd for their great war leader. Last year, when he suffered a stroke, was again his end. Now, back from Bermuda and with great international conferences looming, he is once more said to be on the point of retirement.

"The only validity in all these stories of his withdrawal from public life can be in this: he cannot forever outlive the rumors of his retirement. He is now in his eightieth year, and observers at Bermuda last month reported him 'visibly enfeebled' in body, though mentally agile. He is becoming old and worn after many decades of great responsibilities and lavish expenditures of energy. There on any other man would have been called unbearable responsibilities and reckless spending of his health."

The Mail Situation

As was emphasized in a recent editorial in The Vernon News, the government of Canada appears determined to proceed with the proposed increase in first class rate of postage as from April 1. By percentages, these increases are of large proportions. Local service will be increased from three to four cents and outside service from four to five cents, this giving Canada one of the highest charges in the world.

A reading of the debates of the House provides some interesting figures on operations of the postal service. There should exist quite a wide general agreement with the statement of the Postmaster General that the "department is a service department (of government) and should, within reason, pay its way." To have the department's operations subsidized from the general revenues rather than have those using the service pay all charges is quite unsound.

The position would seem to be that expenditures in the next fiscal year will be increased by \$13,500,000 for the implementation of the five-day, forty-hour week for employees and for a general increase in salaries and improvements for mail couriers.

These are facts which cannot be ignored and certainly improvements in the lot of postal workers are overdue. But

the Postmaster General is on much less solid ground when he tries to show that the abolition of the stamp tax on cheques has nothing to do with the contemplated boosts. Loss of revenue due to the elimination of postage for the payment of the tax on cheques and remittances amounted to \$7,500,000. The 1952-53 postal surplus — before removal of the tax — was \$8,500,000 so that the deficit by April will be at least \$1,000,000. The position is that had the tax been retained, the post office would have had to find only half the total \$13,500,000 revenue now needed for salaries and other expenses.

Another aspect of wide general interest to areas, such as the Okanagan, located away from metropolitan centres, is the increasing use being made of air-mail at regular first class rates. Wonderfully fast service between Toronto or Montreal and Vernon, for instance, is scarcely a suitable substitute for an infuriatingly slow exchange of mail between Vernon and Penticton or Kelowna. Some of the money now being expended so lavishly for "all up" mail via the nationally owned airline, and hence responsible to some extent at least for the contemplated increases, might be utilized to improve services elsewhere, in the Okanagan as one example.

The Editor,
The Penticton Herald.

BRIDGE AND PREMIER

As an old farmer I would like to comment on the short-sightedness of the man, who is supposed to be favoring the welfare of the locality and country, before political gain. By now, Mr. Bennett must have seen the mistakes made by former governments during the past 45 years. The old Granville bridge and the PCE stopped at Squamish, instead of extending to North Vancouver. The money spent on building and upkeep of barges, would in my opinion have built the PGE to North Vancouver. The same is going to happen in the Okanagan. Mr. Bennett should know by now that the Naramata road and also a shore road on the West side of the lake, have to be built in the near future. As I see it, the bridge across the lake will be a nuisance for regattas (sailings). The only thing I see in a bridge across the water is, it will be handy for anyone to take a leap in secret, the same as practised on the First Narrows Bridge in Vancouver.

Now, if the Hon. Premier wants to do something worthwhile for his riding and also for the surrounding district, I would like to suggest a trip by car from Westbridge along the Mean River Road to Summit. The farmers on the summit told me in 1918 that, by going up in the hill side, a man could see Lake Okanagan from the summit. By making a road from Kelowna or Rutland to connect with the road from West-

bridge, Kelowna would be the headquarters of Okanagan for all time to come.

If Mr. Bennett gets this road started, even if he does not finish it, the road should be called The Bennett Highway.

A. M. A. S.
Princeton.

The Editor,
Penticton Herald.

TO THE CITY COUNCIL

I noticed in The Herald that city parks board estimates for 1954 are set at \$83,767, now Vancouver City, with a population at least forty times that of Penticton, has set its parks board estimates at \$930,000, that is 10½ times the amount set for Penticton. Summerland parks board asks for \$4,050 or about 20 times less than asked by the Penticton board. These estimates seem totally out of line to me, and why is the arena not self supporting?

I wish to suggest that the city spend a whole lot less on sport and fairs and more on necessary items such as pavement and Penticton Creek, which latter will be washing town Main street this summer and into my own basement, as Mr. Harris told me, something I would not relish at all, and for the creek project you only appropriate \$40,000.

Are parks more necessary to the city, than holding Penticton Creek where it belongs?

HUGO Du MONT,
902 Government street.

Pioneer Days

10 years ago this week

Penticton Board of Trade approved a motion calling for removal of taxation of land for educational purposes. . . C. W. Stewart was re-elected to a second term as president of the Penticton Hospital Board. . . Citizens' Rehabilitation Committee swung into action by sending out a circular for a job survey. . . Council passed a bylaw to increase the reeve's salary to \$1000 annually and that of council to \$500. . . There were indications that the Aquatic Club would be taken over by council. . . Dave Smith garage, on Naramata road, was destroyed by fire. . . Principal L. B. Boggs, addressing the P.T.A., told of functions of the proposed Penticton technical school. . . W. T. Fleet was chosen to head the Penticton Scout Association. . . Adam Stark was recipient of the Summerland Good Citizenship Cup.

20 years ago this week

Growers of the South Okanagan opposed a suggestion that W. E. Haskins, president of the BCFGA, drop out of the picture as far as the new Grower Stabilization Board is concerned. . . Irrigation rate was set at \$14 per acre. . . Council decided to go ahead with the Straha flats drainage scheme at a cost of \$2,718. . . Warmest January on record was established at Summerland Experimental Station with an average temperature of 33.51. . . A rich strike was reported at the

Dominion Mine in Fairview Camp. . . Council heard a complaint that some of the relief men on Penticton Creek cleaning work were not exerting themselves unduly. . . R. S. Wilton was re-elected chairman of the Penticton school board. . . 150 sportsmen gathered for the annual Penticton Rod and Gun Club banquet. . . A petition from the 13 garage and service stations in Penticton asked council to grant no more licenses to operators of such businesses.

30 years ago this week

District fruit growers heard a suggestion that piece-work should be abolished in packinghouses, there should be more uniformity of pack put up throughout the valley and that internal competition was the cause of great loss to growers. . . Flowers were blooming in the Okanagan. . . A. T. Howe was elected president of the Associated Growers. . . E. Engen, of Penticton, won second prize in the Canadian championship ski jump at Banff. . . 22 persons were injured in a train wreck at Chilliwack as heavy rains caused washouts in the Coquihalla. . . A petition was being prepared here asking for a new post office. . . The Okanagan highway, just north of Summerland, was declared impassable. . . Over \$1,000 was raised for the proposed camp site at Straha Lake. . . For every purchase worth 50 cents at F. Burr's Meat Market a pound of sausage was offered free.

Funeral services were held in the Penticton United Church, Sunday, February 7th at 2:00 p.m. Rev. Ernest Hands officiating. Committal Kerecmeos Cemetery, Penticton. Funeral Chapel in charge of arrangements.

IN MEMORIAM

BORTHWICK - In memory of a loving wife and mother, Mary Ella Borthwick, who passed away February 8th, 1952. "Her smiling way and pleasant face, Are a pleasure to recall. She had a kindly word for each, And she died beloved by all. Some day we hope to meet her, Some day we know not when, To clasp her hand in the better land. Never to part again." - W. Borthwick and family.

CARD OF THANKS

My sincere and heartfelt thanks and gratitude to all the friends who sent cards and messages and remembered me in prayers through my recent illness, and everyone of the hospital staff who were so kindly and tenderly services to me, to the Salvation Army Officers, Rev. and Mrs. McGladdery, the Penticton Ladies, SPCA, Ladies' Aid of the Presbyterian Church, Ladies' Aid of the Canadian Legion, Ladies' Aid of the O.K. Falls Branch for the beautiful flowers and plants and to the residents of Lakawanna Trailer Park for the many kindnesses. God bless you all. Mrs. Myrtle E. Carter, Lakawanna Trailer Park.

Mrs. E. M. Crooker and family wish to express their deep appreciation for the kind expressions of sympathy and flowers received from friends and neighbors during their recent bereavement; also to the doctors and nursing staff at the hospital for their wonderful care.

CARD OF THANKS

We wish to thank all our many friends and neighbors who were so kind during our recent bereavement and loss of our beloved wife and sister, Charlotte Ann Bradley. Special thanks to the doctors and hospital staff for their wonderful care and to Rev. Ernest Hands for his kind words. William Bradley, and Mrs. Mary Smale.

I wish to thank the staff of the Penticton Hospital for their care and kindness with special appreciation to Miss McLeod. Also thanks to Mrs. Grace Fisher of Oliver for her cheery visits and to Cliff Greyell for the use of a radio. - Mrs. L. Andrews.

ENGAGEMENTS

Mr. and Mrs. J. A. Gurnes wish to announce the engagement of their younger daughter, Doreen, to Robert Mutch, elder son of Mr. and Mrs. Wallace Mutch. The wedding will take place Saturday, March 6th at 7:00 p.m. in the Naramata United Church. Rev. G. G. Harris officiating.

LEGALS

BRITISH COLUMBIA FOREST SERVICE NOTICE

Examinations for the position of Assistant Forest Ranger will be held at the following centres at the dates and times indicated.

Tuesday, March 2nd, 9:00 a.m., Williams Lake

Tuesday, March 2nd, 9:00 a.m., Penticton

Wednesday, March 3rd, 9:00 a.m., Vernon

Friday, March 5th, 9:00 a.m., Kamloops

Application forms and full particulars may be obtained from the District Forester at Kamloops or the Forest Ranger's office at examination centres.

Completed application forms should be forwarded to reach the District Forester by February 22nd, or failing this must be presented to the examiners at the time of the examination.

These examinations are being conducted to establish eligible lists for 1954 fire season employment. From such lists appointments to positions now vacant will be made according to candidates' standings in the examinations.

Employment will be for period of six (6) months at starting salary of \$225.00 per month and expenses away from Headquarters. Candidates must be citizens of one of the nations of the British Commonwealth, and must have resided in British Columbia for one year. The candidate must be physically capable of the work.

Candidates must be 21 years of age or over. No examination fee is charged.

SHERIFF'S SALE

1953 Dodge Sedan
IN THE MATTER OF Sidney F. Jeffery, judgment creditor and Peter Davidoff, judgment debtor.

By virtue of a Writ of Fieri Facias to me directed and delivered, I have seized the following motor vehicle at Grand Forks, British Columbia.

One 1953 Dodge Sedan, Engine No. D432747C, Serial No. 98059131.

NOTICE IS HEREBY GIVEN that sealed tenders will be received for the above described vehicle as is and where is, up to Wednesday, the 3rd day of March, 1954, and until the hour of three o'clock in the afternoon of the said day, at the office of Deputy Sheriff, H. H. Miller, Court House, Main Street, Penticton, B.C.

Highest or any tender not necessarily accepted. Terms: Cash. Sales tax where applicable.

The above described vehicle may be seen at Jeffery's Auto & Truck Sales, 198 Winnipeg Street, Penticton, British Columbia, or by arrangements with Deputy Sheriff H. H. Miller.

Sheriff for Southeast Yale DATED at Grand Forks, British Columbia, this 9th day of February A.D. 1954.

Province of British Columbia "CHANGE OF NAME ACT" (Section 6)

NOTICE OF APPLICATION FOR CHANGE OF NAME
NOTICE IS HEREBY GIVEN that an application will be made to the Director of Vital Statistics for a change of name, pursuant to the provisions of the "Change of Name Act" by me, William Roy Walker, of 4522 Lakeshore Drive, in the City of Penticton, in the Province of British Columbia, as follows:

My infant, unmarried, child's name from Michael Robert Barry Walker to Michael Magee Walker. DATED this 4th day of February, A.D. 1954.

W. Roy Walker, M.D.
AUCTION SALE
Timber Sale No. 2249

There will be offered for sale at Public Auction, at 10:30 a.m., on Friday, February 19th, 1954, in the office of the Forest Ranger, Penticton, B.C., the Licence No. 22203, to cut 22,000 cubic feet of Yellow Pine, Douglas Fir and other species sawlogs from an area situated on Shatford Creek, adjacent to West boundary of Lot 5165, S.D.Y.D.

One (1) year will be allowed for removal of timber. "Provided anyone unable to attend the auction in person may submit tender to be opened at the hour of auction and treated as one bid."

Further particulars may be obtained from the District Forester of Forests, Victoria, B.C., or the District Forester, Kamloops, B.C.

THIS S-CURVE in the Tappan Zee bridge being built to carry the New York State thruway over the Hudson River between Tarrytown, top, and the west bank of the river south of Nyack, N.Y., foreground, was designed by engineers because of the topography on both shores. It was considered easier to make the turns over water rather than on land, where 90 degree curves would have been necessary.

NEWS FROM Victoria By J. K. Nesbitt

VICTORIA - Next Tuesday the guns will roar and Lieutenant Governor Clarence Wallace will arrive at the Legislative Buildings to open another session of the Legislature.

There'll be the usual fuss and feathers, all the pomp and circumstance - the big show that this capital loves so dearly.

That night, at Government House, the lights will gleam, and B.C.'s top officialdom will sit down to dine in the State dining room with the Lieutenant Governor. The State Ball will follow.

The annual state ball causes many an ache in the breasts of socially ambitious people. Just about everybody wants to go to the State Ball, Victoria's most glittering social function. But there's room for only 500 to dance comfortably in the ballroom, and so people must be disappointed.

At this period of year some people absent themselves from the capital. They go to California, so that if someone should ask them: "Were you at the State Ball?" they may reply: "Oh, no, my dear - we couldn't go, our annual vacation in the south, you know." When all along they weren't invited. That's called saving society face.

In time-honored fashion, the session will drag along for almost a month, as member after member rises to take part in the Throne Speech debate. Everybody will say that, isn't all the talking awful, and that it should be stopped, but, of course, everybody will keep right on talking, hoping in this way to make an impression on the folks back home. Then will come the budget, and then the speciality will start all over again in the budget debate, in which the budget will hardly be mentioned at all. This is just an excuse to make speeches. And it won't be a debate. There'll be few interruptions to members' set speeches.

The government's legislative program is a bit hazy, yet, Premier Bennett seems determined to make this what he calls "a PGE session." He's set on starting the Squamish-North Vancouver extension bill; under way by June and into 18 months.

There shouldn't be too much in the way of politics discussed at the session. A general election's a long way off! The Liberals, naturally enough, will grow about their victory over Premier Bennett by election last November. They'll rub it in, and Social Credit will have to sit there and take it. They'll reply that Liberals and CCP are gang-banged up to beat Mr. Gundersen, that there was collusion, to less.

A new kind of coalition will say the Premier - a coalition between Liberals and CCP. Mr. Bennett always says that, with evident political satisfaction, when he sees Liberals and CCP men joining against Social Credit.

And there'll be the usual questions from the opposition - about what on earth is Social Credit anyway? Health and Welfare Minister Martin will attempt to explain, but Mr. Bennett and his attorney-general, young Mr. Bonney, who don't know what Social Credit is, and don't care either, will shut Mr. Martin out. They don't want Mr. Martin making any theoretical speeches about Social Credit. Mr. Martin has a way of getting the government into hot water when he makes a pop-off speech.

Some back-bench Social Crediters are said to be somewhat annoyed with the government. They think the government does too much without consulting the back-benchers.

Here's a case, some S.C. back-benchers think they should have been consulted before. The Premier announced that the 10 percent tax on drinks by the glass would be thrown out. It's known Mr. Chant, a former Alberta cabinet minister, who thinks he should now be in the B.C. cabinet, is particularly annoyed, and may attempt to lead a bit of a revolt against the Premier.

However, back-benchers always feel that way about the government they support. They feel they should be consulted on every government move. This, however, is nonsense; how can it be done?

If that were done, the MLA's would have to be in session day in and day out. A government is elected to make decisions and recommendations to the Legislature. It shouldn't have to get in touch with every MLA before it can move.

But, in caucus, there are always back-benchers who like to get up and howl about dictatorship in the government they support. These howls leak out, and so gets around the buzzes that there's a revolt in government ranks. However, it's never very much to worry about.

Put broken gossip into a carton and tie it safely, so that anyone handling the article will not receive dangerous cuts.

Meat Inspection Report Indicates

Subject of animals was thoroughly thrashed out in two distinct reports presented at the regular meeting of Penticton Junior Chamber of Commerce, last Thursday night.

One deal with the hazard created by domestic animals wandering on highways while the other referred to the possibility of public consumption of contaminated meat, both domestic and wild.

Dick Knight, head of the committee charged with bringing in a finding, told of extensive research work done in Penticton to determine the quality of meat consumed here.

He said that all retail meat outlets claimed their supplies were definitely inspected and listed two reasons: 1. To protect the public. 2. For the sake of better merchandising because inspected meats are graded.

At the same time, declared Mr. Knight, it has been claimed that 50 percent of the meat consumed in Penticton is not inspected and he went on to list reasons why this statement may be, at least, partly true.

He told of cases where known diseased game had been consumed and of another case where a local restaurant had purchased a carcass not bearing the inspection stamp.

Also dangerous are certain types of deep freeze units where a lengthy power failure can create contaminated meat, undetectable except under the professional eye of a veterinarian.

Added to this is the fact that Kamloops, Vernon and Kelowna maintain inspection, adding to suspicion that "bad" meat may be dumped here.

It was also revealed that a Kelowna veterinarian is available to carry out inspection in Penticton.

"Why," asked Mr. Knight, "do we have stringent laws regarding milk and no regulations about meat?"

The matter was referred back to the committee who will ascertain who would pay for an inspector, methods of control and other points.

Penticton Jaycees will propose an amendment to the Highways Act at the forthcoming B.C. convention of the Junior Chamber, scheduled for Penticton in May. Resolution would make it mandatory for owners of domestic animals to keep them off highways with a proviso that in case of collision, the animal owner is held liable for all damage.

Visitors from overseas countries spent \$18,000,000 in Canada in 1952.

Friendliness Theme Of This Year's White Cane Week For Blind

This year the theme of White Cane Week is "friendliness," declared J. A. MacNaughton, National publicity chairman, for Canadian Council of the Blind.

The theme may come as a surprise," he continued, "since Canadians are universally regarded as a friendly people, and nobody knows this better than the blind."

Since the first White Cane Week eight years ago, assistance to the carriers of the White Cane has grown tremendously.

Blindness is not restricted to any particular walk of life. The sightless person you meet on the streets may be a scholar, a business man or a craftsman. The chief difference between him and you is that he has lost his sight.

When a person first becomes blind he is depressed and sometimes very lonely. This is where The Canadian National Institute for the Blind and The Canadian Council of the Blind can offer constructive assistance.

Mr. MacNaughton observed, CNIB contributes a program of adjustment and training that not only teaches braille, typing, handicrafts, and every day household duties, but in many cases leads the newly sightless to gainful employment.

Across Canada forty-eight CCP clubs provide social and recreational rehabilitation, and many a close friendship has been formed through attendance at the club meetings.

ALL-NEW, THRILLING ADVENTURES OF THE RECKLESS HEIR OF MONTE CRISTO!

Written and Produced by AUDREY WISBROD and JACK POLLOCKER • Directed by HAROLD DANIELS

In And AROUND TOWN

Mrs. T. H. Pledge, of North Burnaby, was a weekend visitor in Penticton with her parents, Mr. and Mrs. R. S. Wilton.

Mr. and Mrs. Alan Davidson and family have returned to Kaleden after spending two months' vacation in eastern Canada and the States. While away they visited Mr. Davidson's parents in Montreal and his sister in New York.

At the February dinner meeting of the Penticton Business and Professional Women's Club to be held Friday on board the S.S. Sicamous a panel discussion on "The Problems of the Older Worker" will be presented by four speakers, well versed in the question involved.

Mrs. H. G. Garrioch, Scott avenue, will be hostess to the members of the Past Matrons' Club, of Edina Chapter, Order of the Eastern Star, at their February meeting next Tuesday evening at 7:30 p.m.

Mr. and Mrs. G. J. Winter arrived home last Thursday after a vacation visit during the month of January in eastern Canada and several centres in the United States. Leaving here the first of the year the Pentictonites travelled to Toronto where they attended the Canadian Ford Company's 50th anniversary celebrations. After spending some time in Toronto they motored south to New Orleans and home via the Gulf route, New Mexico, Arizona, California and Vancouver.

Kelowna's Little Theatre's play "Ah Wilderness" which was presented on Monday night for adjudication by the noted British actor, Graham Suter, drew many drama enthusiasts from Penticton to the Orchard City. The three-act production is one of three entries in the fifteenth B.C. Regional Drama Festival and is regional entry in the Dominion Drama Festival. Among those from this city attending the performance were Mr. and Mrs. Maurice Joslin, Miss Rosie Owen, Miss Hazel Southard and Harry Killick.

When members of the Penticton Lions Club held their February meeting this evening at the home of Mrs. C. E. Leaney, Van Horne street, discussions will centre around plans to entertain the delegation of Lions and Lady Lions which will arrive in this city on Friday. The visitors, approximately 100 in number, will be from Lions Clubs of district No. 19. A large number of the visitors who are touring the Lions Club district are arranging to attend the Friday night hockey game while here.

Mr. and Mrs. Lance Webber left last Tuesday to motor south to spend some time in California and Arizona. Mr. Webber, manager of the Capitol Theatre here, has been on leave of absence owing to ill health.

Among those from Penticton travelling to Vernon on Sunday to participate in the first annual Kivwanis curling tournament were Hugh Lynch, R. A. Patterson, George Lang, George Cady, Dr. Myles Plecash, G. J. Winter, W. A. Marlow and Frank Miggin.

L. L. (Tim) Odell, manager of the Penticton store of the T. Eaton Co. Ltd., of Canada, left last week for Prince Rupert where he will assist in the opening of a new Eaton's retail store for that centre. Mr. Odell expects to be away for approximately ten days.

Mrs. Daniel Finley, who with Mr. Finley left Penticton last year to take up residence in Queensland, is currently visiting in this city at the home of Miss Helen Leekie.

Mrs. Marty Hill has returned to Penticton after spending several days last week in Vancouver where she was called by the death of her mother-in-law.

T. Eaton Co. Employee Honored Dinner Guest

Mrs. Harry Taylor, an employee of the T. Eaton Co. Ltd., of Canada, and who is retiring after serving more than six years in the retail store here, was honored by members of the Eaton staff at a dinner party on Thursday evening in the Hotel Prince Charles.

Following a short address by the local manager, L. L. (Tim) Odell, a presentation of a table lamp was made to Mrs. Taylor on behalf of the guests by Miss Vera Davies.

Others attending the dinner were Miss Ruth Gibbs, Mrs. Dorothy Stogre, Douglas Leaney, Bill Haskett, Walter Ysistruk and Ken Millner.

Presbyterian Church L.A. Plans For Annual Fund Raising Events

Plans for two annual fund raising events, were discussed by the members of St. Andrew's Presbyterian Church Ladies' Aid at their February meeting, Wednesday, at the home of Mrs. G. O. Baulkham, with the president, Mrs. J. L. Palothorpe, occupying the chair.

The annual "Birthday Tea" scheduled to be held on May 8 will now take place with other events being held at that time.

Tentative plans were made and date set for the annual fall bazaar and tea to be held under the auspices of the L.A. November 6 was chosen for the late year event, and material was given the members to be made into articles for the bazaar sales.

Mrs. F. J. Hayhurst will be hostess to the next meeting of the church group to be held on March 4 in the church hall.

SUMMERLAND - Miss Merle Haysvold and Miss Marguerite Moun, two popular graduates of Summerland high school, entered St. Paul's Hospital, Vancouver, on Tuesday, to begin their three year courses as nurses-in-training.

A CHINESE PRISONER of war, one of those who refused repatriation to his now Communist-dominated homeland, carries a pet dog as well as his military gear as he clambers aboard a truck en route to United Nations territory from the demilitarized prison area at Panmunjom.

Reports Submitted, 1954 Officers Chosen By IODE At Annual Meeting Here

A full agenda greeted the members of the Diamond Jubilee Chapter, Imperial Order Daughters of the Empire, at their annual meeting last Tuesday in the Hotel Prince Charles. Annual reports were submitted, 1954 officers elected and plans for the annual Founders' Day luncheon on Friday finalized.

Mrs. Neil R. McElroy was returned to the office of chapter regent by acclamation; Mrs. H. E. Chalmers and Mrs. Kenneth Davenport, first and second vice-regents respectively, were also re-elected for the current year.

Others chosen to serve another term as IODE officers were Mrs. R. A. Patterson, secretary; Mrs. C. C. Sworde, treasurer; Mrs. W. L. Peaker, Echoes; Mrs. E. W. A. Cooper, educational secretary, and Mrs. Howard Logan, standard bearer. Mrs. T. Longmore was elected to succeed Mrs. A. R. Eagles as assistant secretary. Counsellors are Mrs. J. B. Feeney, Mrs. R. E. Pritchard, Mrs. J. L. Palothorpe, Miss Gladys Eyre, Mrs. H. B. Morley and Mrs. J. D. Southworth.

A very comprehensive resume of the past year's activities was given by the IODE secretary, Mrs. Patterson, prior to the choosing of current year's officers. She told of the annual luncheon last February and the picnic meeting in June at the home of Mrs. Sworde; the annual provincial meeting of the Imperial Order Daughters of the Empire held in Victoria during April with Mrs. McElroy and Mrs. Logan representing the Penticton chapter; the semi-annual meeting in West Vancouver attended by the regent and the National convention in Edmonton which was attended by Mrs. Palothorpe.

Fund raising projects sponsored during the year included the annual "Violet Tea" in April convened by Mrs. M. H. Wright; a rummage sale in October under the joint chairmanship of Mrs. Feeney and Mrs. H. G. Naves; and the annual Alexander Rose Day tag day directed by Mrs. Feeney. Mrs. R. E. Pritchard, Mrs. J. Donald Corry, Miss Eyre, Mrs. Logan and Mrs. Wright.

A scholarship of \$100 was given by the Diamond Jubilee Chapter to a Penticton high school graduate, Ronald Friend, who is now attending UBC, and the elementary school at Coalmont was added to the list of "adopted schools" which now number three. The others being Olalla and Tulameen elementary schools. Books, "treats" and numerous other donations were made to the three schools under the supervision of Mrs. E. W. A. Cooper, educational secretary.

Speakers at several meetings in 1953 were P. C. Grant, of the Penticton High School staff, Mrs. C. W. Linton on her visit abroad at the time of the Coronation and Mrs. George Kingsley, on Canadianization and Immigration.

The chapter's regent, Mrs. McElroy, gave an address of welcome to the "New Canadians" at the Citizenship Day ceremonies on May 15 in the Penticton Court House. She also placed a wreath on the Cenotaph on Armistice Day.

Mrs. H. E. Chalmers, convener of the TB Seals committee, represented the chapter at a meeting of the provincial committee held in Vancouver.

The IODE assisted at the Red Cross Blood Donor Clinic, tagged for the Flood Relief and canvassed funds for the Canadian Cancer Society and the Canadian and Arthritis Society.

CLIFF PALMER NEW PRESIDENT OF KEREMEOS BOARD OF TRADE

KEREMEOS - The annual meeting of Keremeos Board of Trade took place here on Wednesday evening when 83 persons enjoyed a delicious turkey dinner prepared and served by Katie Clarke Auxiliary of the Keremeos United Church, under the convensership of Mrs. L. Almas.

The election of officers resulted in a slate in which for the first time, as far as can be recalled, there is no representation of fruit farmers. The following were chosen for the ensuing year, president, Cliff Palmer; vice-president, R. F. Bean; secretary, J. A. Mackenzie; executive, F. B. Tesson, C. G. Hodgson, H. H. Hill, H. Blakeborough and G. Thompson.

Frank Richter, M.L.A. for the Similkameen, and Mrs. Richter of the Cawston Board of Trade and Mrs. Morris were guests of the local board, J. H. East, retiring president, was chairman. Mr. Richter brought greetings from Cawston. The report of the year's work was submitted and included such items as the procuring of a drop letter box at the postoffice, the continuation of rail service by the Great Northern, the provision of a much needed sidewalk up the hill east of town on the Hope-Princeton highway en route to the schools and what appeared would be a successful effort to have the American Customs Office re-opened at Nighthawk, thus obviating the present necessity of clearing at Orville.

Considerable correspondence had been carried on by Cawston and Keremeos boards regarding a bridge across the Similkameen River to the Chopaka Reservation and the board has reason to believe that such a bridge would be built in a short time. The two boards of trade have combined efforts on obtaining a better road to the International border and as a result work has been done on several miles and oil topping has removed to a great extent the dust menace to orchards on the Cawston develop-

ment. The B.C. Telephone Company has assured the board that the local switchboard will be enlarged and that a spending program of \$20,000 will be undertaken on the Cawston development. This is considered a great stride as it shows the faith such a company has in the fast developing area. Twenty-four hour telephone service was the result of applications for this service by the Board of Trade.

The ever present problem of a nuisance ground was solved temporarily when Fred Klekush, a member of the executive, generously allowed the use of a piece of his property for this purpose until such time as he requires the property or for some reason sees fit to disallow the privilege.

Following the report of the board's activities Frank Richter addressed an interested audience on matters relevant to the district, prefacing his speech with a short description of the feelings of a new member of the legislature upon arrival in Victoria.

Dinner Honors B. C. Pioneer On 75th Birthday

A pioneer resident of British Columbia, Alex D. Broomfield, of Princeton, was the honored guest at a surprise party held on Monday in commemoration of his 75 birthday anniversary. Mr. Broomfield, now retired and former hotel business man, took up residence in Princeton in 1906. It was until 1946 that he continued to operate the Princeton Hotel which he built in 1912. Among the 20 dinner guests who joined the birthday celebrant and Mrs. Broomfield at their home for the happy occasion were their son Alex, D. Broomfield, Jr., of Princeton, and Dr. Lee Smith, of Vancouver, a former resident and close friend of the family. A daughter, Mrs. Truda Sisk, of Dawson City, was unable to be present for the celebrations. Mr. Broomfield was the recipient of a gift presentation from the party guests, and many congratulatory messages from his large circle of friends in Princeton and other B.C. centres.

Medical Dictionary Guide To Nurses In Valentine Dance Arrangements

A lively "Streptomycin Step", a dreamy "Medical Moonlight Waltz" or perhaps a frivolous "Penicillin Polka" will add delight or give special pleasure to the guests at the Valentine Dance being held on Friday evening in the Incola Hotel under the sponsorship of the Penticton Chapter of the Registered Nurses' Association. Programs with each dance number securing its name from the medical dictionary will be one of the many attractive features at the annual nurses' dance being arranged this year under the co-convenership of Miss Catherine Leask, Miss Lorraine Foster and Mrs. P. M. Sharp, president of the RN association. Proceeds from the Valentine Dance will go toward a nursing scholarship for a graduate of the

Penticton High School. The proposed bursary is a new venture for the local nurses and they are endeavoring to establish it as an annual contribution to nursing. The traditional Valentine motif will be interpreted in the decorative theme by a committee composed of Mrs. Lorne Chambers and Miss Joy McLeod. Refreshments for the popular annual social event are being convened by Miss Phyllis Patton. Local merchants and others have donated several door and spot dance prizes for the Friday event. A gift certificate from W. R. Cranna and Sons Ltd., Jewellers, and a cup and saucer from Don Lange Ltd., Jeweller, are among the attractive prizes to be given to the holders of the winning door tickets.

Your best beau couldn't match this shirt by Mr. Man no matter how dress conscious he is. The Italian inspired shirt called "Conte" has ocean pearl buttons and full-cut French cuffs. It's made of cotton.

Seventy-Two At Meeting Of Sr. Citizens' Club

Seventy-two members and visitors attended the February meeting of the Penticton Senior Citizens' Club held in the Alexander Room of the Canadian Legion Hall on Tuesday of last week. During the business of the afternoon advance notice was given of the Old Age Pensioners' Convention to be held in June at Victoria.

At the conclusion of the business session a pleasant social hour was highlighted by the cutting of the monthly birthday cake honoring 21 members of the senior group. Among the 12 celebrants present were two members both in their nineties, T. I. Williams and George Broderick. Others also present to receive the good wishes of the organization were W. Gillespie, Mrs. E. Hauser, Mrs. G. Foulston, Mrs. Susan Alexander, Mrs. M. E. Loughton, William J. Weaver, Rev. Jacob Plesler, B. W. Nelson, Henry Underdown and Mrs. Ann Howard. Ice cream for the occasion was donated by the Penticton Soroptimist Club.

Officers Chosen, Installed By CWL

Miss Grace d'Amour was elected to succeed Mrs. W. F. Gougeon as president of the Catholic Women's League at the annual meeting held on Thursday in St. Ann's parish hall. Also elected and installed into office by Rev. Father J. A. Jackson were Miss Margaret McAstocker, Mrs. J. S. Backmeyer and Mrs. Lawrence Lund, first, second and third vice-presidents respectively; Mrs. Mary Wayne, secretary, and Mrs. P. S. Moen, treasurer. Mrs. Gougeon will serve as publicity convener.

At the conclusion of the elections and the reading of the annual reports, various matters of interest and plans for the year's activities were discussed. Tentative plans were made to raise funds by sponsoring a social evening on March 17, and the date for the annual parish bazaar was set for Thursday, December 2. It was unanimously approved to give a contribution to the Penticton Branch of the Canadian Red Cross Society for the purchase of quilt print materials.

Following the adjournment of the meeting, refreshments were served by Mrs. William Hanlon and Miss McAstocker. Mrs. Nell R. McElroy, Skaha Lake, entertained informally at tea yesterday for Miss Donna Sigthrudur Torfason, of Vancouver, bride-elect of Bernard Hauschka, of this city. The young couple will be married Saturday in the Danish Lutheran Church, in the coast city.

Local Legion L.A. Plans For Provincial Convention To Be Held Here This Year

Mrs. Frank Eraut, president of the Ladies' Auxiliary to Branch 40, Canadian Legion, and general chairman of arrangements here for the forthcoming convention of the B.C. Command of the L.A., to be held this summer in Penticton, is currently giving close attention to this major and important event. She is setting up a number of committees to take charge of various aspects of the four-day convention being held from May 30 to June 2. Billington under the chairmanship of Mrs. Wallace Mutch will be one of the busier groups, a convention dinner will be arranged and it is expected that afternoon tea will be provided for the several auxiliary ladies comprising the South Okanagan zone. A parade to the Cenotaph, laying of a wreath and church service will fill the Sunday evening the first day of the L.A. convention.

A letter of appreciation was read during the afternoon for the electric stove presented by the senior group to the nurses' resident. This gift will facilitate the preparing of meals for approximately 14 resident nurses who, owing to the variation in work hours, find it more convenient to use their meal tickets at the residence dining room. Appreciation was also extended for the gift of children's slippers and dressing gowns presented to the Pediatric Ward in the Penticton Hospital.

Committee conveners appointed were Mrs. Gordon Harris, phoning; Mrs. L. V. Newton, corresponding secretary; Mrs. G. M. Davis, refreshments; Mrs. J. A. Rodell, baby booth, and Mrs. Hugh P. Barr, publicity and program convener. Plans were made for the annual St. Patrick's Day Tea to be held on March 13 in the Canadian Legion Hall under the auspices of the auxiliary. There will be the sale of homecooking and articles from the baby booth as featured attractions at the March event.

Three new members were welcomed to the Senior Auxiliary, Mrs. S. H. Wood, Mrs. H. G. Garroch and Mrs. Carl Nerby. At the close of the meeting an interesting and very informative address was given by Miss Kathleen Ellis, R.N., on nursing careers while serving in various executive capacities in hospitals and other institutions across Canada.

The next meeting of the senior group will be held on Tuesday afternoon at 3 p.m. in the Red Cross Centre.

Reports presented at the 1953 convention of the Canadian Legion Auxiliaries showed \$132,000 had been made the previous year with \$23,000 going to Legion Branches to assist building funds, repairs, taxes, etc. \$5,000 was contributed to veterans comforts in provincial hospitals and food parcels to the value of \$3,360 were sent overseas. Much of the clothing and layettes purchased by the auxiliaries to the value of \$1,500 was distributed to the Queen Charlotte Lying In Hospital, in London, England, where the L.A. has endowed beds and

When the forthcoming provincial session convenes here in May and June, Mrs. A. Erickson, of Creston, who is serving her second term as president of the British Columbia organization, will preside over the activities. Others officiating in their various positions will be Mrs. D. McLennan, of Vancouver, a past provincial president who has served with the auxiliary for 30 years and who is now holding the office of provincial secretary-treasurer; Mrs. Graham Kincaid, of this city, local zone representative on the Command, has held a position on the Command for ten years and served as provincial president for 1947.

Mrs. Kay Anderson, of Copper Mountain, is president of the local Okanagan Zone Council at the present time. It is expected that a provincial officer of the Canadian Legion as well as the local Legion commander, Graham Kincaid, will be in attendance for the opening ceremonies of the convention.

Goodsman-Kleven Marriage Here

Miss Edna Maxine Kleven, daughter of Mr. and Mrs. Alfred Kleven, of this city, became the bride of Frederick John Goodsman, son of Mrs. J. Goodsman, of Stalwart, Saskatchewan, and the late Mr. Goodsman, at a ceremony performed by T. S. Dalby, in the Penticton Court House on January 26 at 3:45 p.m.

The bride wore a teal blue suit with navy blue accessories and corsage of red rosebuds and lily of the valley. She was attended by her sister, Miss Norcen Kleven, who chose a navy blue dress, matching hat and red accessories for the wedding. Her corsage was of pink carnations. Frank Goodsman, twin brother of the groom, was bestman.

A reception for more than 60 guests was held following the ceremony at the home of the bride's parents, where a turkey supper, in buffet style was served. A three tier cake centred a beautifully appointed bridal table at the reception. Following the reading of many congratulatory messages, several from the groom's family in Saskatchewan, the newly married couple left for the coast to spend a honeymoon there and on Vancouver Island. Mr. and Mrs. Goodsman will return to Penticton before proceeding to Stalwart where they will take up residence.

Out of town guests at the wedding were Mr. and Mrs. Frank Goodsman, of Stalwart, Saskatchewan; Mrs. J. A. White, of Smithers; Emil Hamerston, Bruce, Hilda and Merton, all of Watrous, Saskatchewan.

"Lamb Cake" Door Prize For Tea By Rebekah Lodge

A door prize which is unique, deliciously palatable and artistically decorated will be presented at the annual "Valentine Tea" being held in the Canadian Legion Hall under the auspices of the Redland Rebekah Lodge, No. 12, on Saturday afternoon, from 2:30 to 5 p.m. The convener of the popular February tea party, Mrs. R. S. Gilbert, has made a "lamb cake" as the novel prize. The guests attending the Saturday tea and, who will be eligible for the prize, will be received by Mrs. W. H. Hill, noble grand of the Penticton Rebekahs and Mrs. Jack Hutchison, vice-grand.

Among those invited to preside during the tea hours are Mrs. C. Oscar Matson, Mrs. W. I. Batts, Mrs. Frank Eraut and Mrs. Ernest Coates.

Catering Plans Made By Maple Leaf Circle

Plans for catering to the "Father and Son" banquet to be held in the Penticton United Church on February 18 were finalized at the regular meeting of the Maple Leaf Circle held on Thursday at the home of Mrs. Ole Husted, Windsor avenue. The president of the circle, Mrs. E. W. Unwin, welcomed two visitors who were among the 22 present.

At the conclusion of the meeting tea was served by hostesses Mrs. E. S. Benarvoft, Mrs. P. P. Eraut and Mrs. H. Johnson.

Brilliant Latvian Pianist To Give Third Concert Of Community Series, Feb. 22

"Pat" Mulligan Back On The Job

The many friends of P. D. "Pat" Mulligan are giving him a warm greeting in Penticton these days. Recently returned from the western rehabilitation centre for polio victims, in Vancouver, he is now walking and, with the help of a couple of canes, is really stepping out.

A victim of last year's epidemic here, he was bed-ridden for many months.

"Can't keep an Irishman down," is Pat's comment, as he confidently predicts that he will soon be throwing his canes away.

With the Imperial Life Assurance Company, he is continuing as an active agent on their behalf.

In the near future he is scheduled to address the Kinsmen Club here on their organization's work for the polio fund.

He will be able to give a first-hand account of "fighting back" against the results of the disease, and of the many modern methods used to aid those who are stricken. He is, incidentally, highest in his praise for the care given him in the local hospital, in the early stages of his paralysis.

Herman Godes, the brilliant young pianist from Latvia, who will appear here February 22 at the Penticton High School auditorium, is making a new life for himself in North America and a new name for himself on the North American concert stage.

This is the third of four concerts sponsored by the South Okanagan Community Concert Association this winter.

Godes was a complete unknown on this continent until he made his first North American tour during the 1951-52 season. The refreshing delicacy and sensitivity of his playing quickly struck a responsive chord in his audiences. Wherever he played he won not only the accolades of the critics, but the hearts of his listeners. In addition to live reviews on the music page, several newspapers in different parts of the country accorded him the

HERMAN GODES

rare tribute of editorials on the editorial page. This is indicative of the impact that this modest but intense young man from abroad has had on his hearers on this side of the Atlantic.

CONCENTRATION CAMP.
Herman Godes was born in Riga and made his first professional debut as a concert pianist in that city at the age of thirteen.

At 17 he graduated cum laude from the Latvian State Conservatory of Music. A brilliant start on a concert career was cut short by the outbreak of World War II, during which Godes spent four years in German concentration camps. Since his liberation by the Allies in 1945 he has remained west of the Iron Curtain, rather than return to his Russian occupied homeland, and in 1950 he was brought to the United States.

At that time, Walter Gieseking, with whom Godes had been studying intensively for two years, wrote: "Godes is an accomplished pianist; exceptionally gifted both musically and technically. I feel sure that the American public will soon recognize and appreciate a pianist of such exceptional qualities."

Accidents happen in a matter of seconds but the results may last a lifetime. First aid, promptly and properly rendered, may prevent an injury from becoming more serious.

Orthodox Doukhobor Concludes Journey

Back in Penticton after a three-weeks tour that took him to points in Alberta and Saskatchewan is John Stoochnoff, member of the Orthodox Doukhobors, who will now concentrate on a new book about the life and teachings of Peter Lordy Veregh, founder of the Doukhobor colony in Canada.

He spoke at Blaine Lake, Langham and Saskatoon, in Saskatchewan, and Calgary and High River, in Alberta, where he explained that the Orthodox Doukhobors are trying to be good citizens and trying to follow their true religion.

Primarily the Doukhobors are pacifists, he said, following the teachings of Christ and living by the Ten Commandments. And they bear no resemblance to the fanatical Sons of Freedom.

Mr. Stoochnoff explained that he is attempting to promote better understanding of Doukhobor problems, meanwhile laying emphasis on differences between radicals and peace loving members. He said it is unfortunate that a small group should give a bad name to the entire community.

Mr. Stoochnoff returned from his goodwill tour bearing a long list of names of Doukhobors who are making a name for themselves in various fields of endeavor including teachers, doctors, engineers, lawyers, pharmacists, nurses, electricians and artists.

Funeral Services Here Thursday For Mrs. A. O. Burnside

Funeral services will be held tomorrow for Mrs. Alice Oakley Burnside, formerly of 259 Wade avenue west, who passed away in Penticton hospital Monday, at the age of 74.

She leaves besides her husband, two daughters, Mrs. Cyril Ketchell, Penticton, Mrs. Gordon Price, Copper Mountain, an adopted son, Philip Wilkinson, four grandchildren, 11 great-grandchildren, a brother, Gordon Wray, Prince George.

Funeral services will be held tomorrow from St. Saviour's Anglican Church at 2:00 p.m. Rev. A. R. Eagles officiating. Committal at the family plot, Lakeview Cemetery.

Pallbearers will be Oliver Egley, P. H. Wilkinson, W. Thebes, Les Gibbard, Henry Oke, P. F. Pede.

Penticton Funeral Chapel in charge of arrangements.

Naramata BCFGA Meets Next Wednesday

The Naramata local of the BCFGA will hold a meeting on Wednesday evening, February 17, at 8 p.m. in the community hall to receive reports from delegates who attended the annual BCFGA convention held in Penticton on January 19, 20 and 21. Representing the Naramata growers at the convention were W. O. June, president; Arnold Pederson, secretary, and Eldon Baker. Also arranged for the forthcoming meeting will be an address by Bryan Cooney, of Okanagan Centre, a director on the board of the Federation of Fruit and Vegetable Workers' Union. Mr. Cooney will outline the structure of the FFWU and speak on its relationship to the growers' problems. Arrangements have been made to serve coffee and donuts at the close of the meeting.

Summerland Rotarians Hold Question Panel

SUMMERLAND — Lorne Perry was master of ceremonies following the Rotary dinner on Friday night and arranged an unusual and provocative interchange of ideas.

W. M. Wright, insurance agent, Les Rumball and Ken Boothe, merchants, answered questions regarding customer relations and competitor relations with the audience at liberty to query them as well.

Household remedies that are harmless and often helpful to adults may be dangerous or even fatal to a child. All drugs and medicines should be kept out of reach of children.

Cooperation Of Penticton People And Enforcement of Regulations Credited For Small Fire Loss

A low record for fire loss over a 15 year period was set in Penticton in 1953 with a total of less than \$2,000 in building and contents. Fire Chief, H. M. Foreman, in making his report to Monday night's council, attributed the small loss to greater cooperation from the citizens of Penticton in regard to fire hazard and also to more rigid enforcement of heating regulations.

Fire calls for the year totalled an even 100 of which 35 were general alarms, six were rescue squad calls, 55 were house calls and four were investigation calls.

A breakdown shows that rubbish and brush fires accounted for 17 of the alarms. "It is interesting to note," the report continued, "that four of the rubbish and brush fires were proven to be the result of children playing with matches and one of the shed fires was suspected to be the result of the same practice, although never proven."

Of the six rescue squad calls, two were for drowning, one call each for a heart attack, electrocution, emergency transportation to hospital and one to release a small girl trapped in a dwelling bathroom. The report pointed out that 50 percent of the fire department calls were for chimney and grass-bush fires.

A breakdown of losses discloses a total loss to buildings and contents of \$1,765, only \$735 of which was covered by insurance. Car and truck fires, covered by insurance, amounted to \$1,420. Car and truck damage through fire is not assessed as property losses. Electric motor loss, covered by insurance, was given at \$40 making a total of \$3,225.

There was only one false alarm during the year.

Vessels of scalding water should never be put on the floor where small children might fall into them. The handles of kettles or saucepans should always be turned towards the back of the stove so that they cannot be pulled over.

FINNERTY HONORED BY BROADCASTERS' ASS'N.

M. P. Finnerty, managing director of Radio Station CKOK in this city, was re-elected last Friday as vice-president of the B.C. Association of Radio and Television Broadcasters at that organization's annual meeting held in Vancouver.

HISTORY OF INSURANCE RELATED BY GLEN LAWRENCE TO JAYCEES

"General insurance, today and yesterday," was the subject of an address by Glen Lawrence, of the J. W. Lawrence Real Estate and Insurance, to the Penticton Junior Chamber of Commerce, last Thursday night.

Following is a condensed form of Mr. Lawrence's speech:

Insurance is the backbone of our economy today. Without it a great many business transactions which affect our every day living, would be impossible.

The widest accepted definition of insurance is: an agreement to indemnify another against loss caused by a certain contingency or happening; and for a consideration called a premium.

HISTORY OF INSURANCE

The history of insurance dates back 2000 years B.C. Khammurabi, King of Babylon, 2250 B.C. in his famous code, set down laws concerning insurance. Insurance of those times was much different than as we know it today. Merchants advanced merchandise to traders at a high rate of interest with the understanding that the merchandise would be sold at foreign markets. In the event that the trader met with a contingency and the merchandise was lost, the merchant forfeited his loan without any liability to the trader. This is considered the earliest form of insurance contract known. Khammurabi also stated in his code that: if the brigand has not been caught, the man who has been despoiled shall recoup before God what he lost and the city render back to him, whatsoever of his was lost. If it was a life, the city and government, shall pay one mina of silver to his people.

There is an interesting bit of history from this time which cannot fail to be of interest. The Roman, Sulla, who later was to be one of the three consuls of the Roman Empire, his two companions being Julius Caesar and Antony, maintained a large fire brigade of slaves. He used this in a somewhat unorthodox way. When any desirable building that he had wanted caught fire, as they did with a strange frequency, he would contact the owner and offer him a low price for immediate purchase of it. If the owner demurred, the fire would burn on merrily. Then when it had a good hold, Sulla would make another and, as you can imagine, much lower offer. "This would go on until either the building had burned to the ground or the desperate owner accepted one of Sulla's offers. If this happened, Sulla would then send his brigade and put out the fire. In this way, he ultimately gained the ownership of much of the real estate in Rome.

If we desired to do so, and had the necessary time and patience we could prove insurance origin in all stages of civilization.

MARINE INSURANCE

According to Italian history, marine insurance first appeared in Lombardy, in the year 1182, which was on the basis of merchandise on loan to a trader, with the stipulation that if the said merchandise was lost in any way, the owner forfeited the loan. There is still a preserved document, dated 23 October, 1347, which is the earliest known contract of insurance covering voyage of the ship "Santa Clara" of the port of Genoa, Italy.

At this time, the finances of the Mediterranean world were in the hands of the Lombard Jews, and it is they who are credited with the development of insurance. It is believed that the word "policy" may come from the Italian "polizza", which means "promise".

Trade guilds, in the Middle Ages, carried insurance for the mutual benefit of their members against funeral expenses, sickness, and other calamities which befall the membership.

FIRE INSURANCE

After the great fire of London in 1666 people were brought to the realization of the need of some form of insurance against fire. The first bonafide effort to write fire insurance in a practical form, was done by Dr. Nicholas Barbon in the year 1667. Dr. Barbon opened an insurance office calling it "The Fire Office". He based insurance on the rental of the house, ten annual rentals being considered the value of the building. Policy terms were variable, the policies being obtainable for terms as long as 31 years. In 1681 a mutual insurance company entered the fire insurance field, known as the Friendly Society and was so successful that it remained in business for 100 years. By 1720 there were several companies doing business in London, and fire insurance was fairly launched well in England. At this time insurance could also be secured against other hazards such as theft and robbery.

There was considerable confusion in writing of fire insurance as some streets were not named nor houses numbered. This was solved by the introduction of fire marks which were made of metal bearing the company name and were attached to the insured house. The need arose for some form of fire protection, consequently insurance companies formed their own fire brigade. When a fire was reported each company brigade would go up to the scene. However, if the burning house did not bear their fire mark they would immediately return to their station without giving any assistance. By 1808, 55 fire engines were in existence in the city and were turned over to the city of London in 1866. It is interesting to note that the first fire engine in Canada was donated by an insurance company, to the city of Montreal in 1884.

GOOD FIRE EQUIPMENT

Today insurance is a fast moving, complex business, ever keeping pace with the times. February 1, 1951, is no exception in the city of Penticton. Fire insurance was reduced 20 percent on the majority of the mercantile buildings in this city, due to our superior and modern fire fighting equipment.

As you probably already know there has been as of February 1, a change in automobile insurance. It seems to be a general conception that a large reduction in rates is due for the automobile owner. However, this is true only in a few accident free categories, such as autos, where occasional drivers are under 25, and also claims free, business rated autos. The only change for the pleasure driver, accident free, is that a female under the age of 25 years can drive the auto without affecting her claims free select rate.

When you have an insurance claim notify your local agent, he is there to serve and represent you. He will see that your claim is adjusted fairly and advise you on all matters.

PEACHLAND

PEACHLAND — Over seventy friends and well-wishers gathered at the home of Miss Muriel MacKenzie on the occasion of a bridal shower for Eva Bradbury last Wednesday. The many lovely gifts were piled high in a decorated tub with the overflow around it. The lovely bride's cake was decorated with corsages for the bride and her mother. Eva is the eldest daughter of Mr. and Mrs. Edgar Bradbury and was married on Saturday from the home of Mr. and Mrs. Dick Smith in Penticton to Mr. Kyle Steele. Mr. and Mrs. Steele will reside at Needles, B.C. where Mr. Steele is employed.

Mr. and Mrs. Art Kopp have returned after a short visit to Barriere.

Mr. and Mrs. Bert Baptiste of Quesnel, are visitors at the home of Mr. and Mrs. Niel Witt having spent a month's visit with Mr. and Mrs. Lee Kiser at Mountainhome, Idaho.

Mr. and Mrs. J. P. Long of Greata Ranch have left for Vancouver where they will visit friends and relatives.

There has been some damage to the peach and apricot blossoms in the district, according to reports but it is not thought to be severe.

The regular monthly meeting of the St. Margaret's Church W.A. was held at the home of Miss M. Coltham on Friday. It was decided to send a bundle of clothing to the Indian Residential school at Aklaya. NWFT, also a food parcel will be mailed to the Reverend Shute at his home in England.

Government Urged By Local Member To Aid Rural Home Builders

A plea that the government instruct the banks to be particularly helpful to potential home builders in rural areas, and "reverse the treatment that these people have received during the last year or two from Central Mortgage and Housing Corporation," was made in the House of Commons by O. L. Jones, M.P. (Okanagan Boundary).

Speaking on the debate on government legislation to give home-owners more leeway to borrow money for new structures, Mr. Jones said:

"If the people in our rural areas were properly housed it would help to attract tourists to different points throughout the country where they could look at decent homes and see our citizens living under decent conditions. But today you see houses with holes in the roof, barns that are propped up in order to keep them from falling completely over. That kind of thing is not a credit to this wealthy country."

Text of Mr. Jones' address, as reported in Hansard, follows:

"I listened with interest to the hon. member for Burnaby-Coquitlam (Mr. Rieger) refer to the tarpaper shacks in his riding. Tonight we heard the member for the adjacent riding of Burnaby-Richmond (Mr. Goode) more or less denying it but apologizing for the condition. Neither of these members needs to worry at all, because you will find tarpaper shacks in every riding in this dominion. As a matter of fact I venture to say that more tarpaper shacks were built last year than all the units under Central Mortgage and Housing Corporation. They continue to be built for the simple reason that while these people are not anxious to live in these shacks, they cannot meet the requirements of this bill or any government legislation that has ever existed so far as the securing of a home is concerned.

"These are the people who need homes; therefore I am going to say a few words on their behalf. I do not intend to deal with the particular bill before us, a bill that I call one for the upper ten. It does not have anything to do with the group to whom I am going to refer. Hansard will disclose that several excellent speeches have been made contributing, to my mind, very valuable information which if made use of would help solve the housing problem. That applies to members of every party who have spoken.

The housing problem is a growing one, and during the last few years we have not even held our own with the housing demand. I am not blaming the government entirely. I am blaming what is commonly called free or private enterprise even more, for it has failed us. For instance, insurance companies entered the housing field when they had no other outlet for their funds. They took things over, lock, stock and barrel for the purpose of investment, not as a scheme to supply homes for the people of Canada.

When other more lucrative fields opened up they withdrew from the scene, and the banks will do the same in a few years' time. The free or private enterprise group of builders in this country have practically left the speculative field of building entirely alone, and they are not interested in coming back to it. Neither the government nor private enterprise have given a thought to the millions of Canadians whose earnings are below the \$3,600 or \$3,700 mark. We in this group are particularly worried about these people, and we are not alone. There are many Liberal, Conservative and Social Credit members who are just as alarmed that nothing is being done for these people.

It may be well that after the next election several of the present members will not return to the house. They may fail at the polls or they will not be chosen. What is going to be their lot? Many of them will be entitled to the maximum pension of

\$3,000 a year, and after living in Ottawa for so long they will need homes. Under this scheme they will come to the government for a home under this act but everyone of them will be turned down. I feel that the lending provisions should be broadened to take account of character, because I fail to see why any former member with a steady income of \$3,000 who applies for a loan should be turned down. I think his character should be sufficient recompense for the lack of the \$700 needed to make up the necessary income.

LOW INCOME BRACKET
I have taken certain figures from the 1951 census. I find that we have 5 1/2 million wage earners in Canada, 4 million of whom earn less than \$3,000 a year, and one out of three less than \$2,000 a year. Furthermore I find that in the large cities 32 percent of all workers, married and single, earn less than \$1,500 a year. Ottawa, for instance, has 24 percent of its wage earning heads of families receiving less than \$2,000 a year. This bill does not mean a thing to them. Its language is not understood by them and the intention of the bill is not to cover them.

Yet I feel that if any particular group needs assistance it is the group with incomes of less than \$3,500 a year. It is this group that needs homes. Other people can find other means to raise money to build their own homes, through the loan companies or banks, and they would do so if this scheme were not in effect. These people are the victims of economic circumstances quite beyond their control. I will admit that sometimes it is their own fault, but generally speaking they are the victims of our present system. But they too are human; they too have feelings; they too have families; they too have children they would like to have properly housed. They would like decent homes in which to live just the same as the person getting \$5,000 or \$10,000 a year. That aspect has not been considered at all.

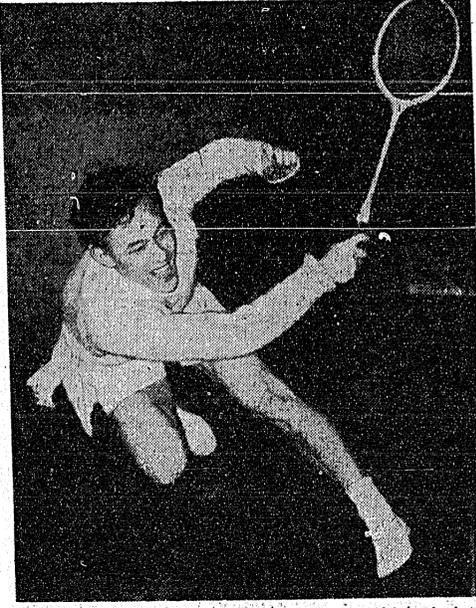

Bearing that in mind, I would suggest to the minister that after this bill is put through, as I presume it will be, he set up a commission to investigate ways and means of providing homes for this type of person who is industrious, who has a sound moral character, who is a good Canadian citizen, who was probably born in this country and who has prospects of raising a fine family. All he wants is assistance in order to build a home.

The honorable member for Cariboo (Mr. Leboe) made some reference to rural areas when he spoke. I feel the same as he does. Something should be done for the people in rural areas who also need decent homes. All you need to do is go by train or drive by car across this country, and in every province you will find evidence that what they say is absolutely true. A vast number of poorly-built houses, unpainted, sometimes covered with tarpaper, are to be found. To me they constitute a visible disgrace to a wealthy country like Canada.

DECENT HOMES
Having concentrated on the urban areas, Central Mortgage and Housing Corporation have neglected entirely this worthwhile field. If the people in our rural areas were properly housed it would help attract tourists to different points throughout the country where they could look at decent homes and see our citizens living under decent conditions. But today you see houses with holes in the roof, barns that are propped up in order to keep them from falling completely over. That kind of thing is not a credit to this wealthy country.

This bill will not change that at all. I am going to suggest that in addition to making a new survey in connection with the low income group, the minister also make a survey of the rural areas. As someone said, it is a good idea to have the people scattered instead of congested in possible slum areas. Under the old scheme the insurance companies and Central Mortgage and Housing Corporation were not interested very much in the rural areas because the lack of fire protection and other facilities made their investment less safe than investment in organized centres.

But I would not put out that even though there may be a lack of such facilities in the rural areas, they would find a higher moral responsibility among the people. Those people would be more likely to look after the loan they had acquired in order to build a home. They would meet their obligations on a higher moral basis than the people in organized centres. I realize I am sticking out my neck, but is my impression that people in the country have a high standard of morality. This would compensate for the lack of fire-fighting equipment and other things. If we are going to assist these people it is essential that money be made available at not more than 2 percent. Other speakers have dealt with this so I shall not go

THE AMAZING AGILITY OF Malaya's world badminton champion Eddie Choong, is caught by the cameraman during an exhibition display at Vancouver. Eddy and brother Dave appeared here recently on a leg of their North American tour.

Former Penticton Pastor Speaker At Summerland Church

SUMMERLAND — Rev. Dave Phillips, pastor of Penticton Baptist church 12 years ago, now a missionary in Bolivia, is on furlough at present and spoke in Summerland Baptist church on Wednesday evening.

His talk centred around his work and was beautifully illustrated with slides and motion pictures which he had taken himself. He spoke, too, of the radio station, Southern Cross, at La Paz, said to be on the top of the world because of its altitude of 13,400 feet, of which he was a director. This station is kept up by the Canadian Baptist Mission there.

Pills and tablets, especially colored ones, are a temptation to small children who often swallow them with tragic results. The contents of the medicine chest may be a lifesaver in case of emergency, but could prove exceedingly dangerous to a child.

into any further detail. I am almost sure it was the last Liberal government of British Columbia that paid particular attention to housing in rural areas. They reduced taxation on farm homes to a nominal amount in order to encourage the painting and improvement and enlargement of homes, as well as installing facilities such as baths and toilets inside the houses. Over the last few years those concessions have resulted in a definite improvement in the homes being built and those already built. That is quite evident as you cross the province of British Columbia today.

I suggest to the minister that he instruct the banks to be particularly helpful to the borrowers in rural areas, to reverse the treatment that these people have received during the last year or two from the Central Mortgage and Housing Corporation.

CPA EXCURSION FARE TO COAST REDUCED 30 PERCENT TODAY

Vancouver — A new winter excursion fare of \$19.95 Penticton to a Vancouver return will be introduced today, it was announced by Canadian Pacific Airlines. The seventeen day excursion fare represents a reduction of more than 30 percent from the existing fare. This means, that it will be cheaper to fly to Vancouver than to drive, when car costs are calculated at six cents a mile.

Beginning at the first of next month, a new service with modern pressurized Convair liners will be introduced in addition to the present daily service. The Convair, which cruises at 300 mph, will bring Penticton to within 55 minutes of Vancouver. Departing from Penticton at eight a.m. Monday, Wednesday and Saturday of each week and returning at four p.m. on Tuesdays, Fridays and Sundays.

The new excursion fare and the Convair service are being introduced as a result of the public opinion survey conducted by Canadian Pacific Airlines ten days ago. Many people will recall the visit of the Convair in Penticton when some 500 people were interviewed by company representatives.

A wide variety of synthetic rubbers and chemical treatment of natural rubber make tires today last five times as long and cost half as much as in 1920. Mileage 30 years ago averaged 5,000; today it is close to 20,000.

With today's quick-drying lacquers, developed by the chemical industry, an automobile can be finished in hours instead of the weeks required 30 years ago.

Sweater Girls Say Zero Tops
"ZERO is excellent for washing my sweaters. It keeps them lovely — no shrinking or losing shape," writes Miss MacKenzie of Vancouver. Try ZERO Cold Water Soap. 59¢ package washes up to 50 sweaters. For Free Sample write Dept. 3, ZERO Soap, Victoria, B.C.

Official statistics show that in the next four years the engineering courses of Canadian universities will graduate only 50 percent of the engineering talent required to fill immediate needs of the Dominion.

Don't just wish you were slimmer — cutting down on the rich pastries and keeping to a well-balanced diet will often help to reduce the poundage.

Four great NEW "Firsts" in Chevrolet for '54!

Count on Chevrolet to bring you the newest features first. Once again Chevrolet leads all competitive manufacturers in its field with these four great advances for '54!

These other famous Chevrolet "Firsts" over all competitive manufacturers in the low-price field offer you more than ever today!

- FIRST OVERHEAD VALVE ENGINE** ... builder of more than twice as many valve-in-head engines as all other makes combined... finest ones today
- FIRST AUTOMATIC TRANSMISSION*** ... most advanced one today
- FIRST POWER STEERING*** ... lower priced today
- FIRST "HARD-TOP" COUPE** ... more beautiful than ever today
- FIRST UNITIZED KNEE-ACTION** ... better than ever today
- FIRST IN OVER-ALL ECONOMY** ... lowest priced line today

1 NEW HIGH-COMPRESSION POWER

Two advanced, more powerful high-compression engines in Chevrolet for '54! Now in gearshift models is the "Blue-Flame 115," teamed with Powerglide, optional at extra cost on all models, is the "Blue-Flame 125" — the most powerful Chevrolet passenger car engine ever built. Both great engines deliver liner, smoother, more quiet performance with important gasoline savings!

2 NEW POWER BRAKES

For 1954, Chevrolet brings you this wonderful advance in driving ease and convenience. With Chevrolet Power Brakes you simply swing your foot from accelerator to brake pedal for a smooth, amazingly easy stop. Power Brakes are optional at extra cost on all models equipped with Powerglide automatic transmission.

3 NEW AUTOMATIC SEAT CONTROL

Touch another control to move the front seat up and forward or down and back into your most comfortable driving position! The control is placed as shown where the driver can use it conveniently. Optional at extra cost on Bel Air and "two-ten" models in combination with Automatic Window Controls.

4 NEW AUTOMATIC WINDOW CONTROLS

You just touch a button to adjust front windows to suit the weather and your liking! The driver can adjust windows on both sides from his seat, while separate controls are provided on the right-hand door for that window. Optional at extra cost on Bel Air and "two-ten" models in combination with Automatic Seat Control.

Sports - Pourri

BY SID GODBER

Business of the city is, undoubtedly, more important than a hockey game, but sitting at a council meeting, I found city business singularly uninteresting on Monday night while a few blocks from the city hall the Penticton V's, a skeleton crew, were skating to a great victory over the Trail Smokies.

I don't think I've ever heard fans so jubilant as they were after last night's game. Fact that the V's were shorthanded, still minus the three Warwickers, was bad enough, but when Ken Conway was sidelined it seemed that the Smokeaters were going to be handed a couple of points on a silver platter. Bernie Bathgate was slated to sit it out, nursing his charley horse, but Bernie could not see himself on the bench while his team mates fought against heavy odds.

Most fans were resigned to seeing the Smokies skate off with a victory but the V's had other ideas. They set out to tie the ribbon on the Frank Becker trophy, emblematic of OSAHL supremacy, and they did. That one last night clinched the championship for the V's.

No other team, even if they won every game left and the V's lost all theirs, could top the Penticton club, although if anyone wants to be sticky about it, the Kamloops Elks by winning their remaining games could tie with the V's, again assuming that the V's lost every one of their 10 remaining league fixtures.

Anytime now the Kamloops Elks can ship the Frank Becker Trophy to Penticton. The Becker trophy, incidentally, is one of the handsomest to be picked up all the way to the Allan Cup.

Becker, a Vernon man, is one of those untiring, mostly behind the scenes worker, without whom there would be no hockey. He's the B.C. representative on the CAHA and a great fighter for B.C. hockey. When the league decided to put up a trophy they honored Becker for his contribution to hockey by naming the trophy after him.

This season will be the first time Penticton will harbor this particular piece of silverware, but that's hardly a criticism of the V's. This is only their third season.

Up the valley, judging by the comments, they've missed the Warwickers. No doubt about it the Warwick brothers have added a lot to Okanagan hockey and it was fitting that OSAHL president Bill McCulloch should lead the respects paid in the arena here to the father of the colorful three.

Chatting around with visiting players I invariably hear praise of Bill Warwick. Moe Young, playing coach of the Smokies, was the latest. "A rugged player, but one of the best," says Moe. The Trail coach is having his troubles and it seems they can and do play it rough in the Kootenays. Injuries of a serious nature have weakened the Smokeaters' chances of making the playoffs, but Moe is still hopeful that when the chips are down his team will come through.

Big question of the moment is how will the teams finish in the OSAHL. Only sure thing is that the V's will be in the number one spot. On the way the teams are going now I pick the Packers to finish in second place, but there's nothing clear cut about Kamloops and Vernon. The humiliation the Canadians suffered on their WIL tour could jar them into jelling together as a team and, if so, they'll at least hold on to third spot, but as it stands now with injuries on top of dissension, it's doubtful if they'll pull together in time to keep out of the cellar. So, on the situation today, I'd say the teams will finish in the following order: V's, Packers, Elks and Canadians.

Packers have done a great job pulling themselves up by their own bootstraps. Now, with a strong goalie, they're shaping up as the big hurdle in the playoffs. I never expected to be picking them as among the top contenders.

A lot of satisfaction has been expressed since Monday's game over the stellar performance turned in by George McAvoy. Seems rugged game stuck strictly to his knitting and didn't collect any sin bin time.

Description I got of one of Jack McIntyre's goals. Two defence-men and the goalie were waiting for him to pass that puck -- they're still waiting.

Looking at the collection of silverware in Warwick's cafe, The Willoughby Cup, the Savage Cup and the Patton trophy. Those Warwickers just have to hustle -- if they have to part with all that silverware they'll have no cafe decorations left.

Most hockey teams have their ironmen but it's a question who should carry the title for the V's. My nominee would be Jack McDonald. He can play for near 60 minutes and still be going on a wide open throttle at the end. McAvoy and Conway could also rate as ironmen. It's unfortunate such as those three have which helps make a championship team.

Only five more home games and the schedule is over. Hardly seems more than a few weeks back that we were starting. No wonder people still ask what did Penticton do in winter before there was hockey?

PACKERS LAST GAME HERE ON TUESDAY

Elks Back On V's Pond Friday Night

Three lean, hungry eyed characters will be on the ice Friday night and fans with long memories will recognize the famous Warwickers back after less than two weeks out of the game, but for what seems a much longer absence.

Since the Warwickers left February 2 on their sad journey to Regina, the V's have played five games, lost three and won two, but with covering themselves with glory and proving, even to gloomy, acting coach Jack McIntyre, that the V's are more than a one line team.

Fated to meet the goal hungry Warwickers on the brothers' return to the OSAHL battles are the Kamloops Elks, the team which boomed with the New Year and which, but for inability to subdue the V's, would have been sitting comfortably in the second spot, now held by Kelowna Packers.

It's still a wide open race for that second place and if the Elks have any ambitions they've just got to slip it to the V's here Friday night.

They managed it once, in overtime, at Kamloops last Saturday but then the V's were without the Warwickers, and without Bernie

OSAHLE LEAGUE STANDINGS

Including Games Played Tuesday, February 9

Team	GP	W	L	T	GF	GA	PIM	PTS
Penticton	54	34	18	2	222	182	1016*	70
Kamloops	51	23	27	4	212	229	515*	50
Vernon	51	23	28	3	245	260	530*	49
Kelowna	54	24	29	1	222	237	684*	49

* Penalty time up to and including February 5 only.

Bathgate, Friday night will be different, the V's will be at full strength.

Needing to hustle if he is to continue holding leadership of the OSAHL point-getters is Bill Warwick. During Bill's layoff,

scrapping for place. V's have had the Indian sign on the Elks all through the season with the V's winning 11 of the 15 exchanges so far. On Saturday the Penticton club journey to Kamloops. It's an important series for the Elks, as the results could well decide where they'll finish.

On Tuesday its another big one, Kelowna Packers and Penticton V's. This game is the last appearance of the Packers on Penticton ice in the league schedule. Then there are only three more home games, Vernon plays

here twice, February 19 and 25 and the windup is on March 5, when the Kamloops Elks, the team which opened the season here way back last October 9, make their final bow of the league on Penticton ice.

The game here Tuesday promises to be one of the best. Packers need the points and also for their morale they need to beat the V's on home ice when the V's are at strength. V's will be battling for prestige. The score between the two clubs is not overly off balance but the edge is with the V's. Out of 17 games, V's have won-10.

Lakers Continue Strong: Vernon Beaten 60-28

Pen Hi Lakers still appear to be the team to beat in the Okanagan High School basketball league as they walloped the Vernon Stars 60-28 in Vernon last Friday.

The win was an expensive one for the Lakers as they lost one of their star forwards, Charlie Burch, early in the last quarter. Charlie dislocated a finger after falling over a Vernon player. He will be out for about a week.

Gordy May provided many a thrill for the Vernon crowd, scoring from all angles to become high scorer for the evening with sixteen points.

Ted Bowsfield and Charlie Burch also showed well for the winners as they scored ten and twelve points respectively.

For Vernon, Munk and Marshall each scored seven and Follis was next with six points.

The Lakers played what could be considered a near perfect game as they worked smoothly in the first half to completely baffle the Vernon zone defence and then when the Vernons made their final mistake of coming out of the zone the Lakers went to town and racked up thirty-eight points in the final two frames.

The Lakers had no trouble taking a lead during the first quarter but the score was tied three times. By the half they had lengthened the lead to ten points and in the remaining two quarters the Lakers outscored the Stars 39 to 16.

Bowling Playoffs In Men's, Ladies' Leagues At Hand

The Penticton commercial bowling league has completed its winter schedule in both men's and ladies' sections and move in to the playdowns this week.

On Wednesday night the Inco Hotel, Three Gables Hotel, P & N Body Shop and Highway Garage will play five games total pin competition for the Russ Knuff trophy, emblematic of the five pin bowling championship of Penticton for the men's league.

In the ladies' league, Krakajokes, Pronto Pups, Crammas and Hubettes teams will play four games, total pins Thursday evening for the Betts Electric trophy, emblematic of the ladies' championship. In both playoffs games will begin at 7:30.

Eleven V's Dump Touring Smokeaters 6-3 Monday

Eleven rampaging Penticton V's -- all the player power they could ice here Monday night -- proved to be more than enough hockey team for the touring Trail Smokeaters as the Penticton crew settled an old 5-5 score dating back to November by hammering the Smokies around the home town pond for a 6-3 victory.

Playing without the Warwickers and Ken Conway, V's had little trouble rolling up a 4-1 lead in the first period and salted away the game in the second as each club scored twice, the third frame going blank. Conway was sidelined with the last of a three

single helpers to Ernie Rucks, Doug Kilburn and Don Berry. Rypien played a standout game for the Smokies that netted him two markers while Kuzma found the range for number three.

Penticton appeared quite happy to breeze along pounding the rubber past Seth Martin in the Trail cage but Smokies ordered a rough contest and they got it. Jack McIntyre in the coaching slot kept his two lines chugging fast, playing for the breaks and it paid off in the third period as the V's held Trail at bay in their big bid to close the gap.

Kilburn and Manigo spawned the only fight of the game as the two clubs broke, almost even on average penalty time.

Trail's only threat came in the opening minutes of the middle frame as two fast goals closed the count to 4-3. Ivan McLelland turned in another stellar performance between the pipes for the V's and with few exceptions the defence gave him solid protection.

SUMMARY
First period -- 1, Penticton, McIntyre (Kilburn, Berry) 4:51; 2, Penticton, Fairburn (Bathgate, McIntyre) 10:59; 3, Penticton, McAvoy (McIntyre, Bathgate) 11:32; 4, Trail, Rypien, (unassisted) 12:45; 5, Penticton, Fairburn (Rucks, McAvoy) 13:49. Penalties -- Berry, Rypien, Hamilton, McIntyre.
Second period -- 6, Trail, Kuzma (Young, Shabaga) 2:25; 7, Trail, Rypien (Bursaw) 3:31; 8, Penticton, McDonald (Fairburn, McIntyre) 11:28; 9, Penticton, McIntyre (Bathgate, McAvoy) 12:13. Penalties -- Montgomery, Kilburn (minor, major), Manigo (minor, major).
Third period -- no goals. Penalties -- Mascotto, Cook.

Summerland Club Announce Curling 'Spiel Feb. 18-21

SUMMERLAND -- Summerland Curling Club has announced a four day bonspiel from February 18-21 and is expecting about 40 rinks to compete, half of them outside points.

The club, which is in a good position financially, is spending some \$2,500 in renovating the club room quarters and it is expected that they will be finished in time for the big event.

Trophies will be awarded in A, B, C and D events with individual awards to the top four winning rinks. Draw committee consists of W. Croft, H. Lemke and J. W. Mitchell.

Elks Come From Behind To Beat V's 5-4 In Overtime On Saturday

KAMLOOPS -- An overtime goal by Fred Denny at 4:27 gave the Kamloops Elks a 5-4 OSAHL victory over the league leading Penticton V's here Saturday night for the Elks first win over the V's in seven encounters.

The Penticton jinx was broken when Elks came back from a 4-2 deficit midway through the third period to tie the game and force an overtime session. Kamloops started out fast with Don Slater scoring two goals in the first frame while Doug Kilburn replied for V's to make it 2-1 going into the second.

V's controlled things in the middle session but scored only once, a light blinker by Jack McIntyre. Things looked dark for Elks when Jack McDonald flashed the puck in for V's at 8:20 of the third and McIntyre made it 4-2 at 12:31.

Seconds later Bill Swarbrick and Fred Crighton combined to set up Billy Hryciuk and bring Kamloops to within one goal. Gunnar Carlson netted the tying marker at 18:10 from Swarbrick and Mike Fischer. Both teams battled hard but neither could manage to score.

In overtime period, Swarbrick and Slater relayed the puck to Fred Denny in front of the Penticton net and he labelled it for the verdict.

SUMMARY
First period -- 1, Kamloops, Slater (Fischer, Millard) 2:11; 2, Penticton, Kilburn (Conway, McIntyre) 8:22; 3, Kamloops, Slater (Ulyot) 15:15. Penalties -- Kilburn, Ulyot, Fischer, Mascotto, McAvoy.
Second period -- 4, Penticton, McIntyre (Kilburn, Berry) 3:08; Penalties -- Carlson, McIntyre, Taggart.
Third period -- 5, Penticton, McDonald (Kilburn) 8:20; 6, Penticton, McIntyre (Berry, Montgomery) 12:31; 7, Kamloops, Hryciuk (Crighton, Swarbrick) 12:58; 8, Kamloops, Carlson (Swarbrick, Fischer) 13:10. Penalties -- Crighton, Hryciuk (minor) (10 min. miscon.).
Overtime period -- 9, Kamloops, Denny (Swarbrick, Slater) 4:27. Penalties -- McAvoy.

VERNON DOWNS LOCALS
The Penticton Coy Cup team went down to a 9-1 defeat at the hands of Vernon senior "B's" last night in the Penticton arena. Vernon took a 4-0 lead in the first frame, advanced to 6-1 in the middle stanza and added three more in the final. Ray Mascotto scored the lone Penticton goal.

Ralph S. Misonor was elected president of the Winnipeg Rugby Football Club for 1954 at an executive meeting Wednesday night, succeeding Karl Slocumb.

Commerk Leaders Static; G'men Go To Third Spot

Team	GP	W	L	T	PTS	GF	GA
Summerland	16	8	5	3	19	82	61
Merchants	16	7	6	3	17	56	58
Garagemen	16	6	7	3	15	62	61
Contractors	16	6	9	1	13	61	78

The surging Garagemen broke the tie with Contractors Sunday and left them in the cellar of the Commercial loop by virtue of a hard fought 4-3 victory. It was a quiet game -- as quiet as commerc games ever are -- until the final canto when a total of 11 penalties, ranging from minors to match misconducts were handed out, between the two clubs. Meanwhile, the top dogs battled to a 2-2 saw-off that kept Summerland in the lead with Merchants' just one game behind.

CONTRACTORS 4
John Protti's Contractors held the Crown at bay in the opening period as the blueshirts collected a single goal but the Harpers crew came back strong in the second to take command 3-2. Each club notched a marker in the final canto but the one goal edge remained good as the fixture ended in a rash of sin bin time.

Wade from Harry, Tomlin and Walt Holowaty opened the scoring for Contractors at 13:50 of the first period. Ray Johnson scored their only goal in the second and Contractors' coach, John Protti, from Holowaty and Jerry Evers, completed their effort in the third. Bavy Elyan put the G'men in the scorebook at 15 seconds of the second period on a pass from Fred Castron and

Nelthorpe Quits Coaching Job For Commerks

Allan Nelthorpe, coach of the Merchants of the commercial hockey league, announced this week that he has resigned the mentor's job. He has also relinquished his position as manager of the Penticton Coy Cup team.

In making the announcement, Nelthorpe said that he is undertaking the publishing of an OSAHL yearbook that will keep him visiting valley cities for the next few weeks. However, he said he will still try and arrange a number of exhibition games for the Coy Cup team prior to the playoffs. The commerc hockey executive has not disclosed a successor as yet.

Second period -- 2, Garagemen, Elyan (Castron, Collins) 0:15; 3, Garagemen, Harris (Wyatt, Bird) 5:50; 4, Contractors, B. Johnson (unassisted) 11:40; 5, Garagemen, Castron (Collins) 14:45. Penalties, nil.
Third period -- 6, Garagemen, Gilmore (Wyatt, Mascotto) 8:35; 7, Contractors, Protti (Holowaty) 14:45. Penalties, nil.

Jack McDonald's best performance
game suspension, a hangover from the V's last four, Bernie Bathgate should have been on the bench, but he toughed it out with a painful muscle injury.
Jack McIntyre lost none of his zest for scoring, even though he was back on yearguard duty as he collected top points with two goals and three assists. Jim Fairburn, back in action only because V's are shorthanded, scored twice and added a helper.
Defenceman George McAvoy posted a singleton and picked up two assists with another one going to Jack McDonald; three assists to Bernie Bathgate and

V's Surge Back From Triple Loss To Whip Kamloops Elks 5-2 Friday

The Warwickless V's playing their third game in four nights, dispelled any conjecture that they are powerless without Bill, Grant and Dick by whipping the Kamloops Elks 5-2 before more than 2,000 home town fans Friday night.

Penticton arena was quiet for a long minute Friday evening prior to the game as over 2,000 hockey fans and players paid respect to the late Bill, Grant and Dick on the passing of their father Friday morning. Bill McCulloch, president of the OSAHL, spoke briefly to the crowd prior to the request for a moment's silence.

Two fast goals in the opening minutes of the game gave the V's the working margin needed to upset the dopsters who expected a win for Kamloops. The period closed with V's leading 3-0 as Elks felt somewhat short of their rampaging reputation earned in recent weeks. A marker by each club in the second and third period kept the gap wide open.

V's Jim Fairburn scored the opening goal on a long shot from the right boards, assists to Ernie Rucks and George McAvoy. Jack McDonald found the mark 29 seconds later and with the help of Fairburn and Rucks. Rucks followed up to squeeze the rubber by Gordon on a play with Fairburn and McDonald at 12:03 as this line debuted a night of smart hockey.

Fred Denny, making his first appearance here with Ken Ull-yot's crew, broke the goose egg as he slapped a bouncing puck past Ivan McLelland at 6:30 of the second frame. But V's held firm to their margin as Jack McDonald fired a shot from behind the Elks net to score on a carom off a Kamloops player. Don Slater, playing head and shoulders above his Elks team mates, collected Kamloops' second marker early in the third on a stellar dash that closed the gap to 4-2. Chuck Henderson and Johnny Millard assisted.

V's were stubborn about parting with that three-goal spread and at 10:12 of the final canto Jim Fairburn gave it back to them -- this time for keeps -- executing a beautiful deke on Hal Gordon. McDonald and McAvoy assisted.

The V's used their strength sparingly, waiting for the breaks, and when they came lashed out to dominate Elks in a game that was otherwise pretty ragged. V's outshot Kamloops 36-32. Penalties were light with just three minors called on each club.

The world champion Yankees and Cincinnati Red were named to play in the 13th annual major league hall of fame game at Doveday Field on Monday, August 9.

"FIRST WITH THE FINEST"

On The Sidelines

BY BOB MORRISON

In the main, Penticton Minor Hockey Jamboree in the arena Wednesday night was a show for parents of the kids participating and there were plenty of hockey on hand. For a town that has not had any hockey until very recent years, what was shown on the ice was in my estimation a major accomplishment.

still in Florida. In case you didn't hear, I caused bad feelings in Canadian-American relations recently by smearing Daytona Beach was in California. My apologies to all you people down in Florida who read the error — hope you won't cancel your subscription. Gosh, Mr. McGowan, sorry about misplacing your umpire school. You Californians can stop laughing... gee, I hope Bill Raptis got on the right train.

If you are prepared to lay out \$400 for something you think you want then it is a safe bet you are really sincere, either that or you have more money than most people. Sincerity is certainly the case with Doug Weeks, up and coming baseball player from Oliver, Doug, aged 20, recently gave ample demonstration of his desire to learn baseball by laying 400 greenbacks on the line to pay expenses of attending Ed Lopat's ball school at St. Petersburg, Florida.

And still on the baseball front, Mickey Martino, another promising Oliver ball player, is scheduled to leave for Thomasville, Georgia, for spring training with the Baltimore Orioles around the end of February. Les Edwards gave Mickey, aged 19, the big time chance and all indications are that he has the ability to get places in professional ball if he shows the desire to battle his way up.

Doug Stevenson, wonderboy between the pipes for Kelowna Packers, comes by those Dexterous hands honestly. Les Edwards mentioned that Doug played behind the plate for him in Edmonton when they had the semi-pro four baseball league a couple of years back.

The commerk hockey league played what amounts to about four months hockey last Sunday is the loop tallied their sixteenth game of the season.

Let's see... Daytona Beach, Yup, I guess you are right, it's

Jukes Injured: Vernon Bows To Trail Wednesday

TRAIL — More than 3,200 Trail fans went home happy last Wednesday night but Vernon Canadians were a most unhappy lot after blowing a 5-3 decision to Moe Young's Smoke Eaters on the first leg of their Kootenay visit.

A goal by Johnny Ripstein at 18:21 of the final cracked a 3-3 tie in favor of the home team and when Coach George Agger pulled Johnny Sofiak in the final minute, Mike Shabaga clinched it with an easy breakaway goal into the empty net.

The loss was a costly one for the bluishirts. Bing Jukes went out in the first period after a hard check by Dino Maniago and was found to have a torn cartilage on his left leg. He is expected to be out of action for three weeks.

The American Football Coaches' Association, ruled that faking of injuries to stop the clock violates the spirit of the rules and urged the practice be discontinued.

Richmond nalled down a berth in the class AAAA International Baseball League.

Minor Hockey Jamboree Reflects A Year Of Progress And Hard Work

The minor hockey association proved themselves to be the fastest growing organization in Penticton on Wednesday evening as they paraded their talents before close to 1,000 spectators in the arena. The annual jamboree, displaying hockey in all ranks, from the amusing eagerness of the Tebo Toddlers, to the speedy juvenile and commercial hockey level, gave proof positive of the recreational value of the Penticton and District Memorial arena.

Hockey scouts could have done a lot worse than view the opening skate past of young players who, standing shoulder to shoulder along the boards, lined up along the full length of the ice and curved around both ends of the ice surface. Spectators from this hockey crazy town showed just as much enthusiasm for the abbreviated games as is lavished on the senior V's.

The Peach Buds, first grade in minor hockey, stole the show with their sample of puck chasing. They made quite a picture in their green and white "Vilke" hockey sweaters.

The Bantam Pool, the boys who are down at the arena Saturday morning before most people are even thinking of getting out of bed, showed their stuff in a short game, followed by the Bantam All Stars session.

Promising figure skater, Jim Corrigan, of the Glengarry Figure Skating club, gave a performance an other features of the varied program included several novelty races — and what show would be complete without the clowns on super-slippery skates.

A group of Bantam players provided thrills and skills as they raced around the ice towing riders on sleds. Equally popular were the bantam and midget pole races as teams of skaters straddled two-by-fours and dashed precariously around the ice like giant centipedes.

Following the drawing for door prizes from a long list of "country store" items, donated by the merchants of Penticton, the Midget All Stars hit the ice for five minutes of speedy puck chasing.

Juvenile class straight skating races drew plenty of response as Barry Gartrell came from behind for a close win. Final number on the two hour program was some fast skating by members of the V's. Kev. Conway, Don Berry, Jack McDonald and Dino Masotto, won the top honors in a puck carrying dash around the circuit. Berry and McDonald tied at 12 and nine-tenths seconds and a secure gave the decision to McDonald by the hair splitting margin of one-tenth second.

Tabo Toddlers gave an inspiring performance, punctuated with a number of falls but their enthusiasm was not matched during the evening. The sub-midget skaters were all three years of age or under, with Barry Warr, son of Mr. and Mrs. Dick Warr, Vancouver avenue, just two years.

BANTAM ACTION — In Bantam league action Saturday, Rangers downed Black Hawks 2-1, Maple Leafs edged Canadians 3-2 and the Red Wings sidelined Bruins 4-1. Penalties were few and far between in all games.

Pen Hi Lakers Edge Out Kamloops In High School League Fixture

Pen Hi Lakers edged out the Kamloops Red Devils 4-3 in a hard fought high school league fixture in Kamloops last Saturday. This was an important win for the Lakers as previous to this all each team had lost only one league game. The victory put the Pen Hi team in first place.

The Lakers victory was almost a one man effort. Ted Bowsfield plodded up 28 points. Ted was sinking them from everywhere on Saturday but got most of his points from hook shots across the middle of the key with some superb blocking by Gordy May. Kamloops took an early eight point lead in the first quarter but the Lakers came back strong to tie the quarter time score at nine all. From there on it was a see-saw battle with both teams seeing the lead. The Lakers pulled ahead 37-32 at the beginning of the final quarter and couldn't be caught.

The Red Devil scoring was limited to four players with Macdonald and Boyd each potting eleven. Gale scored nine and Tutelch seven.

These two teams meet in Penticton on Saturday, February 20 for what should be the game of the year in high school division because the Red Devils could go into a tie for first place if they win.

SUMMARY — Red Devils — Gale 9, Macdonald 11, Hanson, Hoover, Glauve, Tutelch 7, Verchere, Boyd 11, Fraser, Lyons, Total 38. Lakers — Bowsfield 28, May 2, Puddy 3, Preen, Bargar, 2, Macdonald, Madill 2, Drossos 4, Total 41.

Bantam League

ART FISHER minor hockey workhorse

"In the Bantam ranks of minor hockey, we have showed a gain of 50 percent in numbers, bringing this group of players to 95. More important, the hockey produced by these young fellows is at least 35 percent better than last year and enthusiasm is still growing. Discipline and sportsmanship is increasing steadily, among the boys and the general cooperation in the league has shown a substantial improvement." Art Fisher's statement as manager of the Bantam league.

There has been a considerable increase in minor hockey during the past year. Teams from Penticton have made a very good showing throughout the Okanagan Valley in intercity competition due to the fine work of the various coaches who have been unstinting of their time in this endeavor. "I have been very fortunate in having an executive who has worked exceptionally hard in the interest of minor hockey and a reasonably successful season has been the result." A statement by Bill Lemm, president of the minor hockey association. "Since its inauguration two years ago, this hardy group of

skaters, who appear every Saturday morning from seven o'clock to nine, have contributed a great deal of manpower to the Minor Hockey Association. The average membership has been around 100 and from the group about 20 to 30 boys graduate each year into the Bantam league. "The main object is to teach the boys how to stop, turn and skate and they learn with everyone skating the full two hours. As long as the Bantam Pool hockey keeps going the more manpower for the organized teams will be developed." Fred Madden's statement as manager of the Bantam Pool group.

380 Entries In Southern Okanagan Shuttle Tournney

The Penticton Badminton Club played host to the cream of shuttle talent from all parts of north and south Okanagan and the Similkameen district over the weekend, at the annual playing of the South Okanagan Badminton Championships.

Ron Rutherglen, president of the local club and tournament chairman, said it was one of the most successful tournaments held here and attracted 380 entries for a long list of events.

Players from Vernon, Kelowna, Summerland, Naramata, Kalceden, Oliver, Osoyoos, Keremeos, Princeton and Penticton battled for a share of the hardware. The two day event, which concluded about 10:30 Sunday evening, played to a full gallery for the final games that saw some outstanding badminton from recognized masters of the sport and strong junior contenders.

Working with Mr. Rutherglen on the tournament committee were Dorrie Holmes, secretary, Ralph Riley, Shirley Pollock, Eleanor Rutherglen, and Dorothy MacLeod, Sumnerland. Mixed doubles — Ted Cardinal and John Cooper, Penticton, defeated John Cooper and Maria Busch, Penticton.

Open Events — Men's singles — Gene Homer, Penticton, defeated Aidan Spiller, Kelowna. Ladies' singles — Eleanor Rutherglen, Penticton, defeated Dorothy MacLeod, Sumnerland. Men's doubles — Fred Stevens and Ches Larson, Kelowna, defeated Eian Lamont and Aidan Spiller, Kelowna.

Ladies' doubles — Val Van Ackeren and Joan Motowlyo, Kelowna, defeated Eleanor Rutherglen, Penticton, and Dorothy MacLeod, Sumnerland. Mixed doubles — Dorothy MacLeod and George Fudge, Sumnerland, defeated Ted and Kay Cardinal, Penticton.

Under 15 years — Boys' singles — Darryl Knott, Keremeos, defeated Les Trabert, Penticton. Girls' singles — Marion McFarlane, Naramata, defeated Jackie Young, Penticton. Boys' doubles — Les Trabert, Penticton, and Mel Chapman, Princeton, defeated Darryl Knott and Mickey Knott, Keremeos. Girls' doubles — Marion McFarlane and Margery McFarlane, Naramata, defeated Jackie Young and Wendy Farmer, Penticton. Mixed doubles — Darryl Knott, Keremeos, Wendy Farmer, Penticton, defeated Les Trabert and Jackie Young, Penticton.

Under 18 years — Boys' singles — Darryl Knott, Keremeos, defeated John Cooper, Penticton. Girls' singles — Chloe Cardinal, Penticton, defeated Maria Busch, Penticton. Boys' doubles — Ted Cardinal and John Cooper, Penticton, defeated Dave Lockhart and Allan Garlinge. Girls' doubles — Chloe Cardinal and Maria Busch, Penticton.

Dixon, Vernon, defeated Aidan Spiller, Kelowna. Ladies' singles — Eleanor Rutherglen, Penticton, defeated Dorothy MacLeod, Sumnerland. Men's doubles — Fred Stevens and Ches Larson, Kelowna, defeated Eian Lamont and Aidan Spiller, Kelowna. Ladies' doubles — Val Van Ackeren and Joan Motowlyo, Kelowna, defeated Eleanor Rutherglen, Penticton, and Dorothy MacLeod, Sumnerland. Mixed doubles — Dorothy MacLeod and George Fudge, Sumnerland, defeated Ted and Kay Cardinal, Penticton.

Vernon's Miller On Heels Of Bill Warwick's Scoring Lead

The week's absence of Bill Warwick, long time holder of the OSAHL scoring lead, gave Vernon's hard driving Jack Miller a big opportunity to pull up with him but the final result will not become evident until next week's statistics are released. For the period to February 5, Miller has crept within four points of the lead with Vernon coach George Agger still running a good third. Andy Clovechok, Kamloops, and Don Jakes, Vernon, have vanished from the lineup this week. Kelowna's Doug Stevenson, although having played only a fraction of the games to the credit of Ivan McLelland is creeping up on the V's goaltending average but Ivan still dominates by a margin of 40.

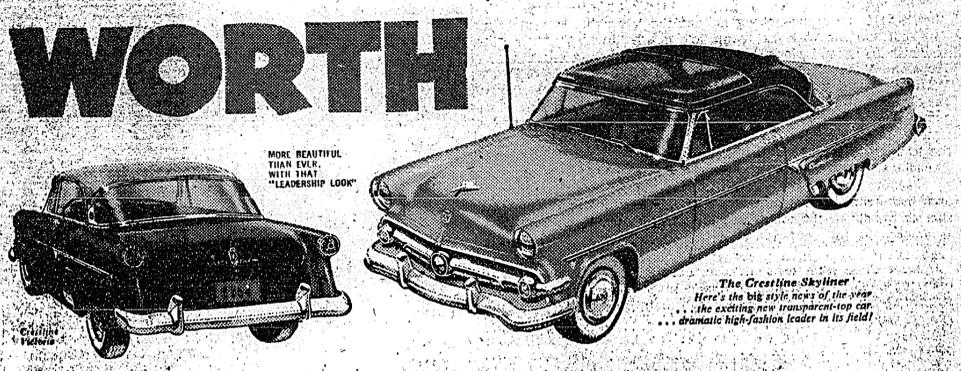

FOR GAMES INCLUDING FEBRUARY 5 BIG TEN SCORES. Table with columns: GP, G, A, PIM, M, MIS, PTS. Rows include B. Warwick, J. Miller, G. Agger, D. Culley, J. Middleton, M. Durban, G. Warwick, J. McIntyre, D. Butler, J. Millard, D. Warwick, B. Ballance.

GOALKEEPERS' AVERAGES. Table with columns: GP, GA, PIM, AVG. Rows include I. McLelland, D. Stevenson, H. Gordon, J. Sofiak.

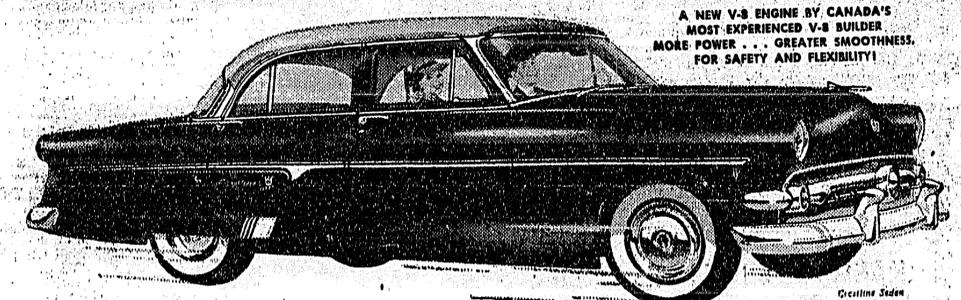

Brightwood Golf and Country Club at Dartmouth, N.S., has been selected as the site for four Canadian ladies' golf championships next summer. Bob Turley of Baltimore Orioles, pitching for San Juan of the Puerto Rican Winter League, struck out 17 men to tie a 14-year-old Puerto Rican record.

Standings Released For Minor Hockey Midget And Bantam

Minor hockey league statistician, Art Fisher, has released the following league standings up to date and announced that Bantam league playoffs will commence February 27. Commenting on the Bantam standings, Mr. Fisher pointed out that while the Canadians team had only three points, of the eight games they lost, Canadians were outplayed by just one goal in four of them, two goals in two games and four goals in two games.

Lakettes Split Two Away Games Over Weekend

Pen-Hi Lakettes broke even on their weekend trip to the northern Okanagan as they defeated the Vernon Stilettes on Friday night 3-2, and the Kamloops Red Angels were the victors, 3-2, on Saturday. In the Vernon game, the local girls were out for revenge but it appeared as though they would never make it as the Vernon team took a 1-7 lead but a spurt in the third and fourth quarter sent Lakettes out in front 2-25 before the hometowners could turn around and the game was salted away before Vernon recovered. The Penticton win was almost a girl effort as Elanore Hines played her best game of the year and racked up fifteen points. The next night was an entirely different story as the Penticton and Kamloops teams were evenly matched for the first three quarters of the game until the results of the previous night's long trip began to show on Lakettes. The Kamloops team took a six-one lead early in the first quarter but the Lakettes fought back and were behind only one point at half time. The gap was

Topping's Rink Wins Victoria Grand Challenge

SUMMERLAND — Dick Topping's rink came back from Victoria Sunday night, a tired and happy curling crew, who won the Grand Challenge at Victoria, after taking a beating from the Gooder rink of Vancouver which won the Grand Aggregate. Handsome prizes of silverware were awarded, and each player in the Topping quartette was given two silver entrance dishes. Ray Fredrickson, Summerland, played best; Bob Hopkins, Oliver, 2nd; Bob Cranna, Penticton, 3rd, with Topping skip. Stretched to three points at the three-quarter mark and in the final frame the Lakettes just couldn't hold any longer as Kamloops surged to a 3-23 win. These two teams meet here on February 20 for their final league game. **SUMMARIES** Vernon — Huluschak 6, Hien 1, Ursulak 7, Tyrell 2, Curry 3, Kresinski 7, Hanson 3, Total 27. Pen-Hi — Gordon 7, Hines 15, Burch 2, Parnley 4, Sykes 1, Cox 1, Gibson 1, Total 33. Pen-Hi — Gordon 7, Campbell 4, Hines 7, Burch 2, Puddy 3, Total 23. Kamloops — Fowles 8, Allen 6, Kennard 4, Stuckstad 1, Chalmers 10, Bernan 2, Linnell 2, Total 33.

SUB ZERO TEMPERATURES mean nothing to Blondy and Whitey, two polar bears at the Vilas Park Zoo, so for something to do they sharpen their teeth on the bars that surround them. Cold weather may bring discomfort to humans, but for Blondy and Whitey it means play time.

Packers Take A 4-3 Decision On V's Thursday

KELOWNA — Kelowna Packers jumped from the OSAHL cellar to a second place tie with Vernon Canadians in Kelowna Thursday as they picked out a 4-3 victory over Penticton V's. A series of breaks and good luck gave Packers their sixth win in 16 starts with V's. The first break came when V's defenseman, George McAvoy, and Kevin Conway were sitting it out in the penalty box when winger Mike Durban, on a pass from Jim Hanson, found a home for the rubber at 14:31 of the final frame. Kelowna outscored V's 3-1 in the first period, V's scored the only second period marker and a marker by each club in the final canto gave the Hergemen the slim 4-3 victory. Jack McDonald tied up the game at 3:3 on a Fairburn pass at 2:43 of the final period. **SUMMARY** First period — 1, Kelowna, Amundrud (Middleton, Leek) 3-1; 2, Penticton, Bathgate (Kilburn, McIntyre) 8-0; 3, Kelowna, McCullay (Kell, Connors) 11-1; 4, Kelowna, Culley (Hanson) 17-58. Penalties — Hanson, Berry, Conway, Kirk. Second period — 5, Penticton, Fairburn (McAvoy, Bathgate) 7-35. Penalties — Leek (major), Kilburn (major plus minor), Montgomery. Third period — 6, Penticton, McDonald (Fairburn) 2-43; 7, Kelowna, Durban (Hanson) 14-31. Penalties — McAvoy (major plus minor), McCullay (major plus minor), Conway.

Growers' Chautauqua Held At Summerland

SUMMERLAND — A growers' Chautauqua was held in the IOOF hall, West Summerland, Thursday afternoon and evening, with a capacity attendance of interested fruit men. Ralph Downing and John A. Smith were the afternoon speakers. Mr. Downing, an entomologist, talked on concentrate spraying machines, and Mr. Smith, supervising horticulturist, on control of orchard diseases and insects. In the evening Dr. D. V. Fisher addressed the growers on blossom thinning, and the second speaker was Ian C. Carne, district horticulturist, on orchard culture methods. Rocky Kansas, former lightweight boxing champion of the world, died of cancer recently at Roswell Park Memorial Institute. He was 58. Charles Moran of Rye, N.Y., has been elected president of the Sports Car Club of America at the group's annual meeting.

Sun Life Ups Policyholder Dividends to \$24 1/2 Million

Continues to sell more life insurance than any other Canadian company — \$576 million new business written in '53. A higher dividend scale which for the fifth consecutive year will again reduce the cost of life insurance for the holders of two million Sun Life of Canada policies, is announced by George W. Bourke, President, in his Annual Review of the Company's business for 1953. Dividends to policyholders during 1954, will amount to \$24 1/2 million, 11% more than in 1953 and an increase of more than 50% over the last five years. Most policyholders carrying participating plans with the Company will benefit by this increase, with the largest payments being distributed in respect of policies long in force. New life insurance issued during the year amounted to \$576,946,000, an increase of \$81 million over 1952, and the largest amount for the year of any Canadian life company. New Group Insurance included in the above figure amounts to \$170 million, an increase of more than \$5 million over the previous year. This rising volume of business was spread over world-wide territory in the newly 30 countries covered by Sun Life service. In his survey of the figures for the year, Mr. Bourke comments on the manner in which life insurance meets the responsibilities of its purpose. The Sun Life of Canada, he said, has paid \$2,720,000,000 in benefits since the first policy was issued in 1871, and during 1953 no less than half a million dollars was paid out by the Company each working day. Total amount paid during the twelve month period was \$125,057,000. **GROUP BUSINESS UP 17%** New annuity contracts during the year included individual annuities and group pensions guaranteeing payments of more than \$1 million per annum. Total annuity payments to be made by the Company either immediately or in the future, through group pension plans and individual contracts, increased to \$120 million per annum. Total Sun Life insurance in force at the end of 1953 amounted to \$5,978,000,000. Group Insurance included in this figure is \$1,781,000,000, an increase of 17%. The growth of Group Insurance and pension plans reflects the business and industrial expansion of recent years during which time the Company, a pioneer in this form of insurance, has retained a leading position, profiting many hundreds of thousands of employees of business and industrial organizations throughout North America. The total amount of life in-

Valley Man Wins Chinchilla Award

An Okanagan man was successful in winning an award at the Mainland Chinchilla Show held at New Westminster on January 23. R. H. Brown of Chinwagger Chinchilla Ranch and Ford E. Marshall of Wood End Chinchilla Ranch, both of Kelowna, attended the event. Mr. Brown entered two Chinchillas but, due to the train arriving five hours late, only one was in time to be judged. Despite the hectic trip, this Chinchilla, a female, was given second prize in its class. There are now about ten Chinchilla ranches in the Okanagan Valley reaching from Osoyoos to Revelstoke. It is considered that the climate conditions of the Okanagan Valley are ideal for the raising of Chinchillas. George Kelly, who gained fame as a first baseman with New York Giants in the John McGraw era, will manage Wenatchee Chiefs of the Western International League in 1954. Dick Steininger's goal clipped off hope for the narrow win and time ran out. Penalties were few and far between with just two minors called on each club. Oddly enough the Merchants' calls went to their point getters, Corrigan and Seely. **SUMMARY** First period — 1, Merchants, Corrigan (unassisted) 3-15; 2, Summerland, Carston (Croft, Furuya) 4-45. Penalties — all. Second period — no scores, Penalties — Corrigan, Carston. Third period — 3, Merchants, Seely (Corrigan) 0-35; 4, Summerland, Steininger (Taylor) 8-00. Penalties — Seely, Hooker.

EXECUTORS AND TRUSTEES FOR OVER HALF A CENTURY

54th ANNUAL REPORT

A satisfactory volume of new business was received during the year and Earnings, Profit and Assets under Administration set new high records. Particularly gratifying was the number of new Wills recorded, which we regard as the measure of our success in supplying the vital need for reliable Executor and Trustee services.

Our Investment Management service, used extensively by individuals, companies, institutions and pension funds, is a rapidly expanding department of our business, and our facilities for providing our clients with the highest standard of Investment Service are being constantly improved, in keeping with modern developments.

EARNINGS	\$5,958,000
EXPENSES	4,609,000
PROFIT	1,349,000
TAXES	470,000
NET PROFIT	879,000
DIVIDENDS	430,000
CAPITAL, RESERVE AND SURPLUS \$8,778,000	
ASSETS UNDER ADMINISTRATION \$1,192,000,000

The Member Reports

By O. L. Jones, M.P. for Yale

Radio reception in the two Okanagan Ridings has created a problem for sometime and it is still a problem in some of the rural areas. Yesterday, during one of my periodical discussions with the CBC headquarters here in Ottawa, I was informed by the engineer that booster stations at Oliver and Osoyoos should be in operation within two months. This particular area had difficulties with reception, particularly of Canadian programs, for some time but the engineers feel that with the booster stations good programs will be readily available.

As the result of receiving a letter from one of my constituents which was forwarded to the Postmaster General in which the design and color of the last issue of stamps was criticized, the Postmaster General admits that the criticism was justified but that the current issue of small denomination stamps portraying Her Majesty Queen Elizabeth II will be replaced with a new series that will display a more satisfactory likeness and more prominent denominations. Elderly people particularly find it difficult to distinguish the difference in stamp values at the present time. The new issue will be on sale in the not-too-distant future.

The Commons, by a vote of 155 to 45, approved in principle the bill increasing the indemnities of Members of Parliament and Senators. This bill was sponsored by the Prime Minister and supported solidly by the Liberal and Social Credit members of parliament and by 7 CCF members. Fifteen CCF members joined the Conservatives in voting against the bill.

The Conservative opposition was mainly on the ground of the method adopted to increase the pay but not in opposition to the actual increase itself. This was made clear by several of their speakers. Many of the CCF members who opposed the bill, including myself, felt that it was unfair to give such a substantial raise to members and senators while refusing to increase veterans' allowances, old age pensions etc. Practically all the speakers objected to the inclusion of members of the senate in the bill. It was felt that their duties are very limited while here in Ottawa and do not exist at all when the Senate is not in session. They have no responsibility to give their services to any electoral district nor any particular province. Their usefulness, if any, is confined to the few sittings they have here in Ottawa. The Prime Minister did suggest that the senators themselves may consider reducing the amount of their compensation when the bill is before the House. The pension payable to members of parliament will not be increased as the result of increased pay.

Mr. R. R. Knight, of Saskatoon, drew to the attention of the Minister of Resources and Development allegations made in a book called "People of the Deer". This book charged the government with the plight of a tribe of Eskimos who had been lured away from their traditional way of life and were finally abandoned to face starvation. Mr. Lesage, the minister, denied the allegations but Mr. Knight maintained that they were correct. The minister was willing to have mimeographed a monograph written by Dr. A. E. Forsyth who has been employed by the government in the Northwest Territories and which refutes the charges made in this book. On a suggestion by a member, Mr. Lesage agreed to have this letter distributed. Mr. Knight then declared that in all fairness the same publicity should be accorded Mr. Mowat, the author of the book concerned. Mr. Lesage promptly adopted the attitude that the controversy should end and announced that nothing would be mimeographed. The charges against the government are quite serious and yet the minister concerned was only agreeable to having the favorable testimony published. More will be heard of this case later on.

The action of the United States Senate, in passing the bill authorizing American cooperation in the construction of the St. Lawrence waterway, was hailed with pleasure in Ottawa. It is well to point out that it has yet to receive the approval of the House of Representatives. I understand the opposition in this House has been stronger and more obstinate than in the Senate. It has been very difficult to find out whether Canada has been bluffing or not by the constant statements made by the Minister of Transport that we are prepared to build the seaway alone. Now the minister says that we should give the United States reasonable time to make up its mind about cooperation. The American government has played around with this idea of an international waterway for over 30 years. In the meantime, labor unions and other interested parties have been writing the members of parliament urging an immediate start on the construction of this seaway as a means of combating the present unemployment situation, particularly in the industrial towns of southern Ontario.

From time to time, there has been a desire expressed by the agricultural people of British Columbia to have the services of the PFRA extended to operate in this province of ours. Actually, this act has been operative in special cases even in British Columbia. To satisfy myself that a request had been made for the PFRA to operate in British Columbia, I asked a question on the Order Paper and received the following answer:

"The Prairie Farm Rehabilitation Act was passed in 1935 to provide for the rehabilitation of the drought and soil drifting areas in the provinces of Manitoba, Saskatchewan and Alberta only. It enabled the undertaking, over a five year period, of methods of farm practice and water development to minimize the very serious problems of drought and soil drifting that existed there at the time. In the area commonly referred to as the Palliser Triangle.

Representations have been made on a number of occasions to have PFRA extended to all prairie provinces as well as to British Columbia. The last request from British Columbia was made by letter on February 2, 1953, by the Honorable R. E. Sommers. In a letter dated February 6, 1953, the Minister of Agriculture stated that the government has had this matter under consideration for some time and that until a decision has been reached, specific problems in that province would be dealt with by special parliamentary appropriations, as in the past.

In British Columbia, in response to representations over a number of years, a total of \$1,163,811 was expended for flood control, \$1,574,715 for the development of irrigation projects for the rehabilitation of veterans and 2,797 acres on seven projects have been developed for irrigation, providing locations for 304 veterans of World War II."

Former Keremeos Resident Dies

KEREMEOS - Again within a week the ranks of oldtimers of this district lost one of their own in the passing on Thursday of Ernest M. Crooker, of Penticton, but for nearly 40 years, a highly respected resident of the Similkameen. David John Innis, another pioneer, died recently.

Mr. Crooker was born in 1873 near Hamilton, Ontario. He came to southern Alberta in 1892 and then to British Columbia in 1908. He visited relatives in Armstrong for a short time and then settled in Keremeos where he was in business for some time, eventually taking up fruit ranching.

Both Mr. and Mrs. Crooker were active in community work. The late Mr. Crooker was for 20 years a member of the school board and served at various times on the board of the United Church, the Victory Hall, the water board, the Public Properties Society and other organizations.

Eight years ago Mr. and Mrs. Crooker retired to live in Penticton. Mr. Crooker was able to enjoy life to his full. Besides his wife, Mr. Crooker is survived by one son, Frederick Gordon, one grandson, Grant, two sisters, Mrs. A. Bradley of Lacombe and Mrs. M. Nicholson of Edmonton and a niece, Mrs. H. Sawyer, also of Lacombe.

The funeral service took place in Penticton United Church with Rev. Rands officiating, with a long cortege of cars accompanying the remains to Keremeos Cemetery, where many friends and oldtimers, waited to pay their last respects to a friend. Burial was by Mrs. S. H. Manery of Coquitlam, H. B. Parsons of Vancouver, I. B. Hunter, of Armstrong, and L. E. Burlow, G. E. Willis and F. C. Sarge, of Keremeos. Penticton Funeral Chapel were in charge of arrangements and many beautiful flowers bore tribute to the departed.

JACK PENHOKÉ, C.M.E., General Manager of THE ROYAL TRUST CO., who has been elected a Vice-President of the Company.

MOUNTAIN SHEEP VIEWED SUMMERLAND — Mr. and Mrs. C. Denike and Mrs. W. M. Wright, motoring back from Oilver on Saturday, had a splendid view of mountain sheep at Vaseaux Lake, and counted 35 without difficulty. The sheep seemed quite tame and were wandering around in the meadow just above the road at the north end of the lake.

One child with a contagious disease may infect a whole community — unless other children have been immunized against the particular ailment. Simple immunization against smallpox, diphtheria and whooping cough, available free of charge in most parts of Canada, offers the best form of protection.

THREE-DAY WEEK

The three-day work week, says a trade union magazine, is the "ultimate and obvious goal" of organized labor and darned if I don't think they're right.

Even now the trade unionists — and, of course, those non-organized parasites who share the benefits — are the true leisure class of today.

The man with the so-called five-day week, the man who can leave an office or factory at noon on a Saturday and return Tuesday morning has something as good as money in the bank — and maybe a little better.

Indeed, negotiations these days

are often more concerned with hours-of-work than rates-of-pay, for labor is all too aware that a wage boost may be swiftly swallowed by rising prices but time — ah, time — knows no inflation.

Management invariably reacts to labor's incessant appetite for shorter hours by a sort of shocked and disbelieving attitude, often genuinely, astonished that employees should be so disinterested in production.

The clarion cry of management in good times and bad is: "What the country needs is more hard work."

Some of my best friends are in the management class and it surprises me to find them so sincerely disappointed in their staffs when this matter of time-off is discussed. I have heard it said: "I wish they were as interested in the product as they are in an extra week of holidays."

This overlooks the whole philosophy of the modern wage earner.

In most cases his work to him is merely a disagreeable necessity. Show me a man who would continue at his job if he were to win a \$100,000 sweepstake prize and you show me a freak.

Why is this so? Is it because the average wage earner is bone lazy or short of ambition? Not at all. It is simply because his job is not done for profit. His salary is a payment for services, but there is no reward, as there is for management.

Does management want to stop the drift to the three-day week? Very simple. Share the profit.

Does management want a staff keen on increasing production? Easily done. Split the loot.

Without that incentive, without that active participation in "free enterprise," the wage earner will continue to retreat from work.

If it is true, as I've suggested, that most men look upon their means of livelihood as a chore and a drudgery, then think of the appalling waste of time this represents!

We're accustomed to look upon "leisure" in its old-fashioned sense, as something not altogether respectable and hard work as something almost noble. Some men, indeed, have a guilt complex about every moment that is their own, as if freedom were an unearned luxury. This will have to be overcome.

The "leisure" of the three day week, I predict, will become the most productive of all. For then men will turn to those things that are the real interests and challenges. Men will have that much more freedom to gain knowledge, to find happiness, each in his own way, to explore, to think, to write, to create.

In short, the whole idea is a splendid one, offering the most high-minded rewards and four days a week of golf.

If your body is not getting sufficient iron, eat more liver, kidney, heart and tongue, as well as leafy vegetables.

THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA

Take notice that the Liquor Control Board of British Columbia, with the approval of the Lieutenant-Governor in Council, has designated the following area as a licensing area for the issuance of licences under the "Government Liquor Act, 1953":—

Licensing Area No. 18. Description: City of Penticton.

And further take notice that the Board will receive applications for licences within that area until the 31st day of March, 1954.

And further take notice that the Board will, at a meeting to be held at the Board's office, 525 Fort Street, in the City of Victoria, on the 1st day of April, 1954, commencing at the hour of ten o'clock in the forenoon, proceed to deal with the applications for licences received prior to the 31st day of March, 1954, unless in the meantime:—

- (a) The Municipal Council of the Corporation of the City of Penticton requests the Lieutenant-Governor in Council to submit to a vote of the electors of the polling divisions within the licensing area any or all of the questions hereinafter set out; or
(b) The Lieutenant-Governor receives a petition in the form prescribed by these regulations or to a like effect signed by thirty-five per centum of the electors of the polling divisions within the licensing area requesting that any or all of the questions hereinafter set out be submitted to a vote of the electors of the polling divisions within the licensing area.

The questions that shall upon request as aforesaid be submitted to a vote of the electors in the licensing area are as follows:—

- (a) Are you in favour of the sale of beer, ale, and stout only under a public-house licence for consumption on licensed premises? (Note:—A public-house licence will be similar to the present beer-parlour licence.)
(b) Are you in favour of the sale of beer, ale, stout, and wine only under a dining-room licence for consumption with meals on licensed premises? (Note:—Dining-room licences will be granted to hotels, restaurants, clubs, railway-cars, steamships, and resorts.)
(c) Are you in favour of the sale of liquor under a dining-lounge licence for consumption with meals on licensed premises? (Note:—Dining-lounge licences will be issued principally to what are commonly known as cabarets and to clubs.)
(d) Are you in favour of the sale of liquor under a lounge licence for consumption on licensed premises? (Note:—Lounge licences will be issued to cocktail-bars. They will be granted only to hotels, resorts, railway-cars, and steamships.)

VOL. XLIV.—No. 6

PENTICTON, B.C., WEDNESDAY, FEBRUARY 10, 1954

They nipped at my heels about this column business for quite some time and it appears I lacked the courage to say "no" outright. Meantime, I ducked and became quite adept at the art of dodging. But nothing makes a fellow feel more foolish than peering around a corner when nobody's there. So here goes folks — each week in this space we'll try to mirror your opinions and present some of the more unusual things that add up to a four letter word called "news". And this looks to be a likely place to say that your suggestions, tips and contributions will be greatly appreciated.

HOCKEY FANS take heed. This happened to a well known Penticton man at a recent hockey game and it almost cost him \$39. Taking issue with a referee's call, he didn't scream blue murder. No sir. He took his program and flung it to the ice. So far so good. Then George Morrison announced the lucky number and there was a mad scramble as the then cooled-off fan retrieved his program from the end behind the enemy's player box. Yes, that program had the lucky number worth \$39.

DID YOU KNOW that two city aldermen were recently acquitted of four serious charges? Aldermen Wilson Hunt and Herb Goddes faced the bar of justice at a recent Gyro meeting and the alleged offences would make a hardened criminal wince — conspiracy to defraud, theft, misrepresentation and defamation of character. This is how it happened. The city fathers attended a recent Gyro dinner but had to leave immediately to attend a meeting of civic matter. They didn't pay for their dinners, said the Gyro members. "Yes we did," was the reply in righteous indignation. "We gave the \$2 to Dr. John Gibson." Dr. Gibson denied it and that's how the defamation charge cropped up. Came the night of reckoning, Jim Halderow prosecuted and Peter Van Der Hoop defended. Judge was none other than A. D. C. Washington, suitably attired in a regal bathrobe. There were many witnesses, Fred Kay, Jimmie Beason and Tom Osborne. SS Scamoun echoed with heated shouts of "har". Fines of 25 cents were meted out for contempt. Key witness for the prosecution was, of course, Dr. Gibson. Asked if he had anything to identify himself as a doctor, "honest John" produced a receipt from a recent fishing trip. "Doesn't Gyro business come before city business?" the accused aldermen were asked, but their answers were drowned out in the general din and the fine box bulged some more. Finally came the verdict as Judge Washington declared, "I throw this case out for lack of evidence." Unsettled was the status of Dr. Gibson's character.

A BENCH ORCHARDIST dropped in the other day with an opinion on complaints of fruit growers that their taxes are high, compared with other districts. "What are they complaining about?" he wanted to know. "My taxes have gone up about \$15 while mine means that I pay \$230 for water and taxes. Why that's less than what it costs for a good home in Penticton. I have three and a half acres and in 1953 I grossed \$1,630.22." Comparing Penticton with other areas is somewhat ridiculous, he asserted, and produced the 1949-50 Dominion Department of Agriculture booklet. The booklet says: "In Penticton the soil consists of deep silt deposits of clay and very fine sand, and is rated one of the most fertile and productive types of soil in the Okanagan Valley." What do you think?

A BOUQUET to Jack Carter, of Carter Bros., whose presence of mind averted a tragic accident. This makes you feel acquainted but it is our hope it will be heard by all motorists and drivers alike. Jack was heading up a back alley between King and Queen streets the other day with a truckload of coal when he spotted a tattered cardboard box on the ground. His first impulse was to drive over it but something told him

Brief Joyride For Juveniles Ends In Court

Two Vancouver juveniles had a brief but unlawful joyride last Thursday that terminated abruptly when they were nabbed by the long arm of the law in the vicinity of Skaha Lake.

Time was the element in the case, the owner having left his car for two or three minutes while the boys' ride lasted less than 10 minutes before quick police action brought it to an end.

The brush act cost the boys' fathers, two well-known Vancouver businessmen, \$20 each after the juveniles were fined that amount and given sentences of six month's probation in juvenile court, Friday.

Clarence Burtch left his car with the keys in it, parking lights on and radio running as he stopped across the street to purchase a package of cigarettes.

The boys, hitchhiking to the prairies, spotted the car and made good their getaway before Mr. Burtch returned.

Caught by police less than 10 minutes later, they were charged with taking the car without the owner's consent, a lesser offence than that of car theft.

Until notified that their sons were in jail here, the parents had been searching the Seattle area, where they were told the boys had gone.

Summerland Regional Library Branch Shows Increased Circulation

SUMMERLAND — At the annual meeting of the Okanagan regional library held at Kelowna on Thursday it was announced that Summerland was now third largest in circulation in the district with the number of books borrowed during 1953 having reached 18,000.

Since last July the circulation has risen month by month and at the end of January had almost doubled last summer's figure.

that Summerland was now third largest in circulation in the district with the number of books borrowed during 1953 having reached 18,000.

Since last July the circulation has risen month by month and at the end of January had almost doubled last summer's figure.

Regional Library Board Increases Per Capita Rate To Meet Demands

W. B. Hughes-Games, Kelowna, was returned as chairman of the Okanagan Regional Library board at the annual meeting held at the Royal Anne hotel, Kelowna, on Thursday.

Alderman J. G. Harris, Penticton, was made vice-chairman, and G. C. Hume, Kelowna, continues as treasurer. Mrs. F. F. Foulkes, the regional librarian, is secretary.

Selected to the executive were Mrs. A. W. Vanderburgh, Summerland; Capt. C. R. Bull, Kelowna; Mayor G. W. Game, Armstrong, and councillor E. G. Broeder, Salmon Arm.

Alderman Harris and school trustee, Mrs. Leslie Bulla, Penticton, attended the meeting at which most of the larger branches in the area were represented. C. K. Morrison, Vancouver, superintendent and secretary of the Public Libraries' Commission, was present in an advisory capacity.

Working With The Red Cross

Back in the days when Canada was participating in World War II a group of graduate nurses of this city...

From this group the first Home Nursing classes in Penticton were started under the auspices of the Canadian Red Cross Society.

There is quite a contrast between the bright cheery quarters where the women and girls now take their course in the Red Cross Centre on Main street...

Amongst those who first started this worth while work were Mrs. Harry Davis and Mrs. John Westcott.

The present instructor in the Home Nursing classes, Mrs. Leighton Traviss, had very well attended groups last year with an enrolment of 56 and hopes this year will prove as successful.

The three-months' course of spring classes commenced last Friday but it is not too late to join. Just report at the Red Cross Centre at 7:30 p.m. Friday evening and Mrs. Traviss will make you welcome.

The current Red Cross slogan for the project is "A home nurse in every home".

INTERCHANGEABLE SHOES

First right and left shoes in the United States were made in 1822. Prior to that time, both right and left shoes were identical and could be worn interchangeably.

\$200 Cheque For Church Women's Ass'n At Naramata From Former Resident

NARAMATA — After reading in the Penticton Herald that the current year's objective of the Naramata United Church Women's Association was to retire the balance on the manse debt, a former resident of Naramata, Mrs. J. M. Myers, of Vancouver, sent a \$200 cheque to the church women to apply to the debt.

Other business of the afternoon included the appointment of several committees. Mrs. J. A. Ganes, will convene the sewing committee making articles for the annual winter bazaar.

Those appointed to the visiting committee were Mrs. J. S. Dicken, Mrs. A. C. Pound and Mrs. Kathleen Couston, Naramata Village; Mrs. Flora Littlejohn and Mrs. Sammet, south benches; Mrs. W. S. McFarlane and Mrs. Janet Siffert, north benches, and Mrs. Reilly and Mrs. Pound, centre bench road.

PLASTIC BAGS SAVE WARE PLANT LEAKS There's no need to worry about leakage when you wash flower pots hanging from the wall brackets. Slip a small plastic bowl cover, with elastic edge, over the bottom of the pot.

You can't go ALL-OUT If you feel ALL-IN These days most people work under pressure, worry more, sleep less. This strain on body and brain makes physical fitness easier to lose—harder to regain.

Summerland Guide Ass'n Holds Annual Meeting

SUMMERLAND — Mrs. A. R. Dunsdon, as president, Mrs. James Marshall, secretary, and Mrs. Frank Beavan, treasurer, were all re-elected officers in the local association to the Girl Guides at the annual meeting in the Anglican parish hall on Thursday.

The Recipe Corner

Parties are fine for Valentine. You'll be delighted with these rosy pineapple Valentine tarts, and so will all your friends and family.

Rosy Pineapple Tarts: One can No. 2 1/2 pineapple chunks, 1/2 cup sugar, 3 tablespoons cornstarch, 1 teaspoon grated lemon peel, 1/2 teaspoon red food coloring, 1 package (3-ounce) cream cheese, 6 tart shells.

Orange Nut Pie: Two cups milk, 1/2 to 2/3 cup sugar, 3 tablespoons cornstarch, 1/4 teaspoon salt, 2 eggs (separated), 1 orange (grated rind and juice), 1/2 cup chopped walnut or pecan nut meats, pastry, 4 tablespoons sugar.

DEVOTIONAL AT WCTU MEETING LED BY REV. H. G. HUX At the regular monthly meeting of the Women's Christian Temperance Union held recently in the Penticton United Church hall the devotional period was led by Rev. Howard G. Hux, pastor of the Foursquare Gospel Church.

During the business of the meeting a letter was read from Mrs. P. C. Gerrie, of Westbank, district superintendent of the Sunday School Temperance course, naming the contestants whose papers had been sent to the provincial office in Vancouver for further judging.

Those chosen were Wayne Biffert, of Kaleden, in the nine year age group; and Joan Galbraith and Doreen Jeffery, from the Bethel Tabernacle entries in the 13 year age class.

NEW! Wonderful PRE-COOKED pudding

We do the cooking - You simply mix with milk! Creamier Texture, Richer Flavor than any pudding you've ever tasted!

INSTANT

Royal pudding

AT LAST! The kind of puddings you've always wanted - sensational Royal INSTANT! Need absolutely no cooking. Just mix with milk and serve! It's as easy as that! And because Royal INSTANT Puddings are homogenized, they're creamier in texture, richer in taste...

No Cooking! So Quick! So Easy! What flavor! And no pot to wash! Light as a whisper! No lumps! No film!

You have to put in a better tea bag to pour out a better tea!

Canterbury Deluxe ORANGE PEKOE tea bags. This is tea at its best - de luxe orange pekoe - straight orange pekoe alone. No tea bag ever held richer flavor. No teapot ever poured a heartier, more vigorous tea. Make Canterbury de luxe orange pekoe in your own teapot and see.

TEA THE TEA OF TEAS! Canterbury ORANGE PEKOE tea bags at SAFEWAY

The increase in heart diseases during the past quarter century, is probably partly due to the increased tension and speed at which we live. Many people over forty forget that they are no longer teenagers. A medical checkup at least once a year will help to discover most heart conditions in their earliest stages.

WHAT A DAY!

What a misery it can be on those days when you are feeling way below par. How slowly the hours drag by when you feel seedy and sluggish and seem to ache all over. And how unnecessary it all is, very often. Most times that dull, lousy feeling is the direct result of constipation and kidneys not working properly. You need something more than a simple laxative these times. You need Kruschen Salts. Millions the world over have learned the benefits of Kruschen... the salts that are like those in the waters of famous Mineral Springs. Acting in two ways at once, laxative and diuretic (for sluggish kidneys), Kruschen helps rid the body of waste matter. It goes right to the cause of that miserable, sickish feeling that constipation brings about.

Get some Kruschen today. Less than half a teaspoonful can make you feel better all day long.

THE RECENT DISPUTE between National Hockey League president Clarence Campbell and Maurice Richard probably reached the ears of these Basutoland natives shown here admiring a photograph of the famous star of the Montreal Canadiens with the Rey, Gerard Desrochers. The Roman Catholic priest says the natives in this far off land often sit up long past midnight to listen to shortwave broadcasts from the Montreal Forum.

KELOWNA TRADE BOARD WILL APPOINT BRIDGE COMMITTEE

KELOWNA — An Okanagan Lake bridge committee under the chairmanship of C. E. R. Bazzett will be set up by the Kelowna Board of Trade within the near future.

This was disclosed at last week's executive meeting when president J. K. Campbell stated that a "definite plan of action will be formulated." Most of next week's meeting will be devoted to discussing the bridge question.

Sweeping support for the bridge has been received by the Kelowna Board of Trade from a wide area. Formation of a valley-wide committee will likely follow, and it is expected that support from Revelstoke and Kamloops will serve the whole network of interior and Trans-Canada highways.

Nearly thirty organizations have endorsed the bridge, including boards of trade at Summerland, Rutland, Westbank, Kelowna; City of Kelowna, Kelowna Rural Ratepayers, Kelowna Junior Chamber of Commerce, Kelowna and District Tourist Association, Kelowna and District Auto Court and Resorts Association, Kelowna Motorcycle Club, Retail Merchants' Bureau, Kelowna Council of Women which represents sixteen organizations, Junior Hospital Women's Auxiliary, Business and Professional Women's Club, Soroptimist Club, CCF women, Progressive Conservative women, Liberal Women's Association, Jessie Finlay Auxiliary, Dr. Knox LODGE Chapter, Anglican WA and Guild, Stagesettes, Registered Nurses Association, local branch of the Canadian Association of Consumers, Rebekahs Lodge, United Church Federation and Kelowna Arts Council.

Prime objective of the bridge committee will be to solicit the support of all the interior organizations and individuals.

While the Pentlton Board of Trade has tabled a resolution regarding the bridge and has appointed a special committee to investigate the matter, local trade board officials hope that this group, too, will throw their weight behind the scheme.

It was pointed out that through united effort, the Okanagan was able to interest the federal and provincial government in the Okanagan Flood Control project.

Remarkable trade board vice-president W. B. Hughes-Games: "We worked hard to help Pentlton get the Hope-Princeton Highway," suggesting that it was now time the whole Okanagan united in getting a bridge.

Gadgets of various kinds often help to save labor but one that should never be used is a prop to hold the baby's feeding bottle. An infant that is too small to move about by himself may actually drown from the liquid in the bottle. Babies should always be held or at least watched during their feeding time.

Pot-Luck Supper Prior To Annual Church Meeting

SUMMERLAND — Pot-luck supper with an amazing variety of dishes preceded the annual meeting of Lakeside United church on Monday evening of last week, with seventy-six present.

Films and games were arranged to keep the children amused while business of the church was done.

Excellent reports showing accelerated interest were given by Mrs. J. vanCameron, Sunday school; Mrs. A. D. Glen, Sunday school; Mrs. W. Greer, W.A.; Mrs. V. Charles, WMS; Walter Boushale, board of stewards; J. Brown, choir; and Rev. C. O. Richmond told of the work of the session and Summerland charge.

Elected as stewards for 1954 were Mrs. E. R. Butler, Mrs. Max McKechnie, Miss Mary Scott, J. Brown, J. Raincock, W. Beaudale, George Wolffe, V. Charles, Jack Wilson, Lee McLaughlin, Don Tait and A. D. Glen.

Repairs to the church and the organ and other improvements were planned.

While many countries still have epidemics of smallpox, typhus and plague, Canada has fortunately been able to wipe out these killers. We still have to conquer tuberculosis, which was once our most serious cause of death. Much of the credit for its low incidence today is due to the chest x-ray examination, freely available in most parts of Canada.

From Famous egg laying strains R.O.P. bred New Hampshire pullets, Vaccinated against Newcastle and Bronchitis. 10 weeks old \$1.20, 3 months old \$1.50, any quantities, year around. Kromhoff Farms, R.R. No. 5, New Westminster, B.C.

PURITY

Another of Canada's Leading Recipes
CINNAMON BUTTER BARS

Mix together: 1 cup soft butter
1 cup granulated white sugar
2 cups Purity Flour
1 tablespoon ground cinnamon
1 egg yolk

Knead thoroughly, then press 1/2" thick in a buttered pan, 10"x16"x1".

Over cookie surface brush 2 slightly beaten egg whites.

Mix together: 1/2 cup granulated white sugar
1/2 tablespoon cinnamon
1 cup finely chopped nuts

Sprinkle this mixture over egg whites.

Bake at 350° F. for 20-25 minutes.

Remove from oven, cut in squares while hot, but allow to cool in pan before storing in an air-tight tin.

Facts About Cancer

Strange but true... it was a group of chimney sweeps who first started a systematic scientific search for the cause of cancer.

About 200 years ago an alert physician, Dr. Percival Pott, noticed that an extraordinary number of chimney sweeps were subject to cancer of the skin. These runty, adolescent boys, who shimmied up and down London's chimneys stark naked, developed an alarming number of cancers of the skin in later life. Dr. Pott announced this fact to the medical societies of the world and this was the first time that men of "modern" science started to look for a cause of cancer.

The first known special refuge for cancer victims was set up in Rheims, France, in 1740; and the first special hospital for cancer patients was built in London, and opened in 1792.

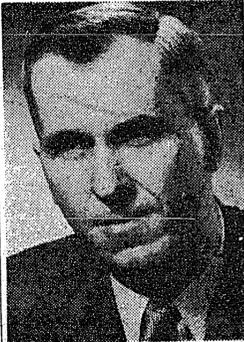

Dates can be so dull... but look at these. They reveal such achievements in the new, fast-growing world of cancer research: 1821-1902 — A German histologist, Virchow, suggested cancer always arises from some sort of irritation like soot, heat, jagged teeth. We now know that many cancers can be evaded by avoiding such irritants.

1895 — The x-ray, discovered by the German, Roentgen, enabled doctors to make non-destructive studies of the unopened body and show the surgeon precisely where the cancer lay. These x-rays, further intensified, are also being used to destroy cancers.

1898 — Marie and Pierre Curie discovered radium, today one of the most successful means of treating cancer.

1925 — Papinicolou of Cornell Medical College began to study single cells. Within a few years he worked out a method of recognizing single and groups of cancer cells from any part of the body from which specimens can be obtained.

And — although not scientific, —

John Wach, formerly operations superintendent at the British American Oil Company Limited Refinery at Montreal, East, who has been appointed superintendent of the Royalite Products Limited 5,000 barrels a day refinery now nearing completion at Kamloops, B.C. Mr. Wach, who is a graduate of the University of Manitoba, has had wide experience in the refining phase of the oil industry. He has already assumed his duties at Kamloops.

Vehicle License Deadline Feb. 26

Deadline for new motor vehicle licenses is officially February 28 — but there's a catch to it this year!

February 28 is a Sunday and February 27 is a Saturday—the government office here is closed Saturdays — so motorists are advised to buy their new 1954 commercial or passenger licenses by February 26 at the latest.

Some large factories in the Dutch ceramics industry date from the 16th Century.

Just as important — only 25 years ago people begged their doctors not to mark "cancer" on their death certificates. Today just a handful of people still ask for this evasion of the truth; and nearly every newspaper across this continent reports cancer in its obituaries. Thus today the word is accepted. The disease is no longer considered shameful, nor is it any longer hopeless.

While this column is being written... just a few minutes ago... a driver from one of the large Vancouver department stores came into the Cancer Society office. He said he had noticed in his ride to work on the bus, an advertisement stating that pamphlets on cancer could be obtained from this office. He came in, he said, to collect a handful... he'd like to give them to the fellows in his department.

Another example of the changing times... changing from fear to intelligent open-mindedness; from loat to action.

QUESTIONS AND ANSWERS

Q. Are all tumours cancer?
A. No. Tumours are of two kinds — benign and usually harmless, and malignant, or cancer.

Q. What is the difference between a benign and a malignant growth?

A. Benign growths usually have a limiting membrane and push aside the cells of the tissue in which they are found. They never spread to other parts of the body. Malignant cells grow among normal cells and prevent the latter from functioning normally. Cancer cells may spread to other parts of the body.

TASTES SWEETER FRESHER THAN EVER

GOLDEN LINED VACUUM SEALED CAN!

Always milk in the house with handy Milk Powder

When the day's supply of milk is running short Milk Powder is a real convenience! It's easy to mix a quart or a cupful of milk to add flavour and food value to your cooking. Milk Powder is an excellent, inexpensive source of complete protein, calcium, riboflavin, Vitamin A. In many recipes, you do not need to rehydrate Milk Powder; just mix it with the dry ingredients. When using it to drink, you'll find its flavour improves after standing overnight in the refrigerator.

- TO RELIEFIFY MILK POWDER:**
- 1 To make 1 cup, sprinkle 1/4 cup Milk Powder on 1 cup lukewarm water.
 - 2 Boil or shake until Powder dissolves.
 - 3 Pour into container, cover and store overnight in refrigerator. This improves consistency and flavour.
- For Marie Fraser's free booklet of tasty, tested Milk Powder recipes write:

Memorial Dedicated At Summerland Church

SUMMERLAND—Hymn books presented to Summerland Baptist church as a memorial to Mrs. J. H. Bowering were dedicated at the morning service on Sunday. They were given by members of the Bowering family who lived here for many years when Mr.

Bowering was postmaster at West Summerland. Mrs. Bowering, who was loved and respected by all who knew her, worked for the church and community. Mr. Bowering and his son and daughter-in-law, Mr. and Mrs. Ewart Bowering of Oliver, with whom he makes his home, were at the service, which was conducted by Rev. Kenneth Knight.

AN UNIDENTIFIED BOXER dog, rallied to the aid of Golden Gloves boxer Jimmy Hager, 17, who was taking a mandatory eight-count, at a Lexington, Ky., show. The dog jumped from the audience and tried to scramble under the ropes when Hager was knocked down. Referee Varney stopped the dog and an unidentified fan scooped him from the ring and left.

Your stake in the search for Better Health

Everyone has a vital interest in science's efforts to help us live longer. But life insurance policyholders have a special stake in this work.

You see, certain important medical research projects are supported wholly or in part by funds from all the life insurance companies in Canada with their millions of policyholders. As a result, skilled scientists in many Canadian medical research centres can carry on their task of attacking some of mankind's deadliest enemies. Their names: cancer, heart ailments, tuberculosis and poliomyelitis.

Other vital studies are supported in a similar way. These focus on processes of ageing, cellular growth, dental hygiene, pregnancy complications, thyroid hormones, blood clotting and asthma, to mention but a few.

Will all these efforts help you and your family to live longer, healthier lives?

Yes! Thanks chiefly to the advances of modern medicine, babies born today can expect to live about 20 years longer than those of 50 years ago. Many dread diseases have been banished or controlled. Ahead lies further progress that will surely benefit you and yours.

And, if you are a life insurance policyholder, you also have the satisfaction of knowing you have participated in this program designed to bring the blessings of good health to all!

AT YOUR SERVICE!

A trained life underwriter... representing one of the more than 30 Canadian, British and United States life insurance companies in Canada... will gladly help you plan now for your family's security and your own needs in later years. Rely on him!

THE LIFE INSURANCE COMPANIES IN CANADA

"It is Good Citizenship to own Life Insurance"

Summerland P-TA Hears Panel Discussion On Home Responsibility

NARAMATA

Thirty-one enrolled in the home nursing classes which started here the first of February under the auspices of the Naramata Branch of the Canadian Red Cross Society. The response to the course organized under the chairmanship of Mrs. Charles Grimaldi has been most gratifying. Mrs. Winnifred Peebles, R.N., assisted by Miss Joyce Fry, R.N., will give the weekly instructions in home nursing and first aid. The classes are held in the Red Cross workroom at the community hall every Monday evening at 7:30 p.m. and anyone interested in taking the course is invited to attend.

Mrs. O. G. Hogg was hostess to the members of the Guild to St. Peter's Anglican Church at their February meeting held last Wednesday afternoon. The next regular meeting of the guild will be held on March 3 at the home of Mrs. T. G. Deal.

Mr. and Mrs. J. H. Ward, recent arrivals in Naramata from Saskatchewan, have taken up residence in their newly constructed home on Robinson avenue.

Miss Ruth Simpson, dean of women at the Christian Leadership Training School, officiated on Thursday evening to install the recently elected 1954 slate of officers of the school's Students' Council. Assuming office at that time were Kenneth Morris, of Didsbury, Alberta as president; Miss Eileen McGhan, Bremer, Alberta, vice-president; Miss Shirley Anderson, Vancouver, secretary; and Leonard Parr, Alberta, treasurer. Convening committees are Miss Ruth Sawyer, North Burnaby, house committee; Miss Lois Lane, North Vancouver, social; Miss Betty Anne Potter, Oliver, publicity and year book; and Douglas Black, Kelowna, sports and crafts.

Percy Tinker, a UBC student, was called to Naramata last week by the illness of his father, G. P. Tinker, who is a patient in the Penticton Hospital.

Mrs. Ruth Rounds, president of the Naramata Branch of the Canadian Red Cross, reported the monthly shipment of finished articles from the workroom included 8 quilts, 2 lounging robes for children, 12 baby nighties, 24 blankets, 5 sweaters and 2 pairs of socks, all made by the Thursday afternoon workers, and 5200 surgical wipes made by the Wednesday evening group.

After spending the past four weeks in Vancouver, W. A. Pentecost returned to Naramata on Saturday and is again staying with his son-in-law and daughter, Mr. and Mrs. W. H. Whitmaster.

William Nicol, a resident of Naramata for the past several years, left today for San Carlos, California, to take up residence with his daughters, Mrs. Margaret Nicol, R.N., and Mrs. Mary Agnew. Mr. Nicol, who has been a patient in the Penticton Hospital since falling and breaking his hip last fall, was accompanied south by Miss Nicol, who came here to travel to California with her father. Visiting here for several days with their father before he left Canada were Mr. Nicol's sons from Alberta, David, Calgary; Ray, Albert and Austin, Edmonton.

On Sunday afternoon, Mr. Nicol was honored by fellow members of the session of the United Church. Mr. Nicol, with members of his family and Rev. A. C. Pound, enjoyed the fellowship of communion at a ceremony held in the hospital. At the conclusion of the service a travelling clock was presented to Mr. Nicol by James Gawne from the congregation of the Naramata United Church.

A record number of surgical dressings were made last Wednesday by the 17 members of the Naramata Red Cross sewing group at their weekly meeting in the work room at the community hall. Working under the supervision of Mrs. Cliff Nottelofan

SUMMERLAND — "What is expected of the home to prepare the child for community living? What is its responsibility?" was the topic for discussion by a panel of three Penticton people, Miss Ruth Adams, provincial government social worker, George Gay, senior boys' counselor at Penticton high school, and the Rev. S. McGladdery, minister of St. Andrew's Presbyterian church, Penticton, at the P-TA meeting here last Thursday.

Introducing the guests was Lashley Haggman who took the place of Constable Butler, RCMP, Summerland, who was unable to attend. Miss Adams discussed the child within the home and his school entrance, with serenity, consistency, guidance and example, etc., desirable in the home to prepare the boy or girl for difficulties as well as happiness he or she may encounter. The speaker said, "If the child receives the discipline he needs at home there will be no trouble with this in the school or community."

Mr. Gay, going a step further in the life of a child, took "The child goes to school," as his contribution to the three-way argument, maintaining at the outset that the physical needs of the pupil, such as regular meals, and sleep are of vital importance. He asked the parents to take an interest in school affairs, from the time that the child is in grade 1, and give help with home study, at the cost of a few minutes of the evening, and the resulting amount necessary for dress, etc., catalogued parents to try and not become caught in this alarming situation, citing unreasonable graduation expenses as an example.

Mr. McGladdery, who was new to a Summerland audience, told with wit and charm of his belief in the principle of graduation in spiritual development of the child. "Does the home recognize a greater level and force than its own?" he asked, developing the idea that, from respect and reverence in the home the youngster goes on to recognition and respect for higher authority. He thought the parent should bring rather than send his child to a piece of worship. Loyalty was cited by Mr. McGladdery as important, too, in spiritual development, the adherence to a principle or given word. "Parents are the natural educators. They must give the lead," he concluded.

Mr. Haggman thought that self-discipline in parents as they set examples would result in self-disciplined children. Main thought was that all development stemmed from the home where the child must first be loved and taught, and that where both parents make a job of parenthood, good results are usually obtained.

W. W. Burke thanked the speakers for a stimulating evening. Loyalty was important, too, in spiritual development, the adherence to a principle or given word. "Parents are the natural educators. They must give the lead," he concluded.

Mr. and Mrs. J. A. Noyes left on Wednesday for the coast where they plan a vacation in Vancouver and on the Island.

The Christian educational secretary of the British Columbia conference of the United Church of Canada, arrived by Naramata last weekend to spend the next two weeks as guest lecturer at the Christian Leadership Training School.

Mr. and Mrs. Stuart McPhee and children, Laine, Jimmy and Bruce, were weekend visitors in Saltpan Arm with Mrs. McPhee's cousin, Mr. and Mrs. Reed Burford.

Mr. and Mrs. W. L. Watson, who have been holidaying in Vancouver since Christmas time, are arriving home this week.

The heat generated by the sun now is considered by Canadian scientists to be the result of nuclear reaction similar to the mechanism of the hydrogen bomb.

Summerland Group Presents English Comedy Next Week

SUMMERLAND — Mrs. A. K. Macleod is directing "The Children Hundreds", written by Douglas Howe, an English comedy revolving around a by-election, which the players' section of the Summerland Singers and Players' Club is presenting next week. Alan McKenzie stars as the absent-minded Earl of Lister, who shoots rabbits through the drawing-room window. Mollie Russell plays the part of Lady Lister, and Charlie Rennie that of Lord Pym.

Doreen Kilbach is the American girl, June Farrell; Clark Wilkin, the butler, and Sylvia Perry, is Bessie, the maid. The Laborite, Cleghorn, will be depicted by Frank Plunkett, with Gwen O'Leary, who several times appeared last summer in the Theatre Under the Stars at Penticton, appearing as Lady Caroline. Scenery is by Stan Gladwell, assisted by Doreen Fredrickson, and George Washington.

Jean Gately has been attending to business of which Charlie Rennie is convener. The average capacity of Canadian railway freight cars rose to 45,961 tons in 1951, from 45,564 in 1950 and 43,905 in 1945.

Reviews Plans For Education Week In March

SUMMERLAND — A. D. Gately, chairman of the education committee, Summerland P-TA, told of plans for Education Week in March, to the regular P-TA meeting on Thursday. Joint committee from P-TA and the teachers' association will sponsor an essay contest and prizes will be provided by P-TA. Local clergy has been asked, and agreed, to directing part of their sermons at the beginning of Education Week towards that end, Mr. Gately reported.

It is hoped to send a delegate to the provincial meeting to be held in Burnaby south high school April 21, 22 and 23. Mrs. J. Martin will attend in her capacity as director and the matter of a delegate was left to the executive.

When perspiring freely after strenuous exercise or during hot weather, take a shower. If this is not convenient, a good rub-down with a wet towel and then a dry one will remove the accumulation of waste materials.

Where Do I Go From Here?

MARRIED EXEMPTION IN YEAR OF MARRIAGE

Q. I was married in November 1953. My wife earned \$2,250.00 during 1953 but has not worked since our marriage. What exemption may I claim.

A. You may claim the married exemption of \$2,000.00. Monies earned by your wife prior to your marriage do not affect your status.

AVERAGING OF INCOME

Q. I am engaged in a small manufacturing operation in an agricultural community. My profits are subject to wide annual variations. I am told that I can average my income over the past 5 years. Is this correct?

A. No. This privilege is extended only to farmers and fishermen and has proven very beneficial to these classes of taxpayers. You may, however, spread any actual losses over as much as a 7 year period. The Income Tax Act provides that a loss may be carried back 1 year and forward 5 years. The losses must be deducted in that order and you must be carrying on the same business.

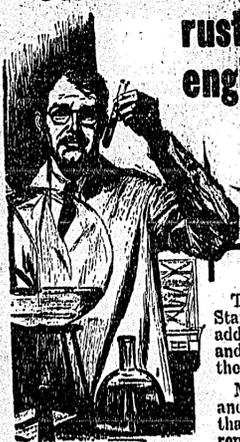

If you have a personal Tax problem you are invited to contact

**Now! for the first time
in Canada... New Improved
CHEVRON SUPREME**

**rust-proofs your
engine while you
drive.**

To an already fine gasoline Standard of B.C. scientists have added a safeguard against rust and corrosion, the scourge of the modern automobile engine.

Motorists throughout Canada and the United States pay more than \$100,000,000 a year to replace and repair fuel pumps, carburetors, fuel lines and other valuable engine parts.

The fuel system of your engine is positively protected against rust and corrosion when you drive with the New Improved CHEVRON SUPREME GASOLINE.

Here's how it works: There is water condensation wherever gasoline is stored in metal tanks. This rusts and corrodes metal. Now, with Standard of B.C.'s new anti-rust additive X-36A, the problem no longer exists because the surface of the metal is covered with a thin protective film. IT AUTOMATICALLY SEALS OFF RUST WHILE YOU DRIVE. WHAT IT MEANS TO YOU: You no longer face the prospect of repairs to fuel pumps, carburetors, fuel lines and other engine parts, due to rust. You get a cleaner fuel, free from storage tank impurities. Yes, improved Chevron Supreme Gasoline with the anti-rust additive is your guarantee of better, more economical motoring. Try a tankful today!

of your car**

**Many Accomplishments In Past Year
Chairman J. T. Young Tells Annual
Meeting Penticton Hospital Society**

Review of the year's activities of the Penticton Hospital Society was given by chairman J. T. Young in his annual report presented at the annual meeting of the group held last night. Highlight of the year was the change-over from the old hospital to the new \$1,500,000 hospital on Carmi avenue, a changeover which had many problems, problems which, according to Mr. Young, were solved by the wholehearted devotion of the staff. The chairman's report follows in full:

The past twelve months was a period resulting in many satisfactory accomplishments yet beset with difficulties that I am glad are at last behind us. Like any business that enters into a new phase of existence we were faced with the problems of re-adjustment to a completely new environment requiring a fresh outlook to overall patient care and an assessment of our capabilities in handling these major problems. This change-over did not occur without intensive planning and hard work joined with that all important factor—co-operation between all branches of the hospital administration. The housekeeping staff, dietary staff, engineers, laundry personnel, nursing staff and the medical staff along with the office group, were, through their cheerful co-operation and serious interest, the means by which your board were able to effect the transition. I cannot be too high in my praise of all those men and women connected with the hospital and I wish to tell you that monetary return cannot buy that ideal of service that motivates their actions.

NEW HOSPITAL
On March 11 the ceremony for the opening of the new hospital took place and on Sunday, March 15, the change-over from the old occurred. I wish to tender special thanks to Dr. Roy Walker, the B.C. Dragons, Nurses' Association, Medical staff and the Ladies Auxiliaries to the hospital for the efficient handling of this major operation.

By that time we had completed our staff complement and the hospital started smoothly and without incident. During the year we arranged for landscaping of the grounds under the direction of Mr. Schinz and I know that those who have seen the grounds will agree that great work has been done. I wish to give special commendation to Mr. Schinz and the Wilcox Nurseries of Oliver who between them supplied all the shrubs and flowers without cost.

FURNISHING FUND
On October 31 the Penticton Hospital Furnishing Fund Campaign officially was concluded. It was an undoubted success. Without the generous giving of the citizens your board would have had serious difficulty furnishing and equipping the building and I wish to publicly thank those people for their generosity. Miss Frank Bowsfield was secretary for this particular work and our thanks go to her for a job well done.

HOLD THAT LINE
The department of health and welfare stated at the end of 1952 that the per diem rate being paid to hospitals in B.C. must be maintained for 1953. We had balanced our budget in 1952 on a per diem rate of \$11.90 but were concerned in being able to operate the new hospital on this rate.

In drawing up the budget at the beginning of 1953 it was estimated that we would end the year with a deficit of approximately \$35,000. This, of course, included the implementation of the conciliation award for wage increases across the board to all lay staff employees and subsequent salary increase to the nursing staff.

Though we had our initial points of difference with the department of health and welfare, an additional .70 per patient day was allowed to cover these wage increases and with other additions which were granted, we have needed the year with a net deficit of approximately \$9,500. It is only fair to point out that we were wrong in a few cases over-estimating our staff needs and I would tell you that the advice and assistance we received from the B.C. Hospital Insurance Service contributed in no small degree to the reduction of this deficit. However, I am not prepared to be modest on behalf of the board, the administrator and our accounting department for we had resolved that this hospital would be run efficiently and well to provide the optimum in patient care on the most efficient cost basis.

UNREALISTIC
It is the opinion of the hospital board that it is unrealistic of the department of Health and Welfare to believe hospitals can operate on a fixed per diem rate that does not change with the years. No business functions on the same budget year after year. Conditions and costs are constantly variable and this must be recognized by the government so that taxpayers can expect to receive from hospital boards a business-like operation. Following

this thought to its logical conclusion we presented a resolution to the B.C. Hospital Association meeting in Vancouver and I am glad to say that this resolution was discussed with the minister by the president of the B.C. Hospital Association. The resolution was not contradicted in principle and the minister declared that the request will be given intensive study and consideration. The medical staff co-operated with the board in forming a committee to standardize drugs used in the hospital which has effected a considerable saving in drug costs.

NURSES' HOME
The financing of the nurses' home was successfully concluded in 1953 by the sale of 36 lots surrounding the home which, with the co-operation of the department of health and welfare and the city, gave us a lovely residence capable of accommodating 23 nurses. This was the Leir home on Main street and I wish to publicly thank Mr. and Mrs. Leir for the manner in which they allowed the hospital board to finance the purchase of this property before the lots were sold.

Your chairman was honored last year by being elected to the office of the president of the Okanagan and District Regional Council of the B.C. Hospital Association.

We were happy to welcome Dr. J. S. Campbell as resident radiologist last year and Dr. Campbell is doing an excellent job for the hospital.

Dr. Roy Walker is to be congratulated on his appointment to the presidency of the College of Physicians and Surgeons of B.C.—an honor that comes seldom to an interior city.

CONGRATULATIONS
I wish to congratulate our administrator, Mr. Macdonald, on obtaining his certification from the Canadian Hospital Association as a qualified administrator of hospital organization and management. This required two years of intensive study and Mr. Macdonald is to be commended on his zeal in undertaking this course which is of direct help to the board.

Miss Walker, our director of nurses, was given six months leave of absence in January to attend the University of British Columbia for a certificate course in nursing administration. During her absence the assistant director of nurses, Miss McTavish, took over her post and is doing an admirable job. It is gratifying to the board that our department heads are taking these courses and we are ready to encourage any medium that enables them to advance knowledge of their work and thereby makes them more valuable employees of the hospital.

A forward step was taken by your board and the Royal Inland Hospital, Kamloops, the Vernon Jubilee Hospital and the Kelowna General Hospital, when we decided to act in concert on all matters affecting the four hospitals.

It was a particularly significant step where it applied to negotiating with the unions representing our nursing and lay staffs. At a meeting in Vernon a few weeks ago a standardization of job classification was made by representatives of the four boards which created a standard common to these four institutions. As closely as possible we also equalized the wage rates for the work done. This enables us to meet with the representatives of the unions during wage negotiations with a greater ability to assess their demands and result was demonstrated by the signing of a wage agreement for 1954 with Local 150 of the Hospital Employees Union.

EXTENDS THANKS
I wish to thank all the organizations that assisted in making Christmas a more cheerful day for the patients by their voluntary help and generous giving.

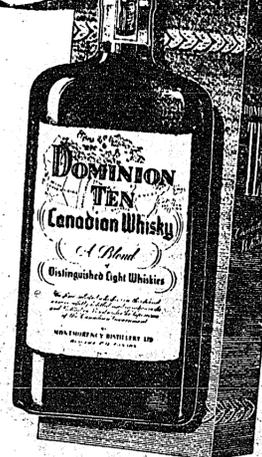

Every year I have the pleasure of thanking the Junior Women's Hospital Auxiliary and the Senior Ladies Hospital Auxiliary and those other organizations who so ably assist the hospital in its work. Their untiring efforts on our behalf makes our work that much easier.

It is gratifying to know that there are so many interested citizens standing for the three vacancies that are occurring on the board at this time. I know that whoever is elected will enjoy the work and find it worthy of the effort they must put in. I can assure them that they should be prepared to give freely and willingly of their time and energy. They should possess a genuine and abiding interest in the health and welfare of the people in the community. They must be broad minded, tolerant of the opinion of others and fair and just in dealing with their fellow men and must be interested in and willing to inform themselves concerning the ethics, principles and practices of the medical, nursing and allied professions.

co-operation and to the patients who through their letters and personal comments encouraged all of us in the hospital to feel that our efforts were appreciated.

It is estimated that nearly 2800 languages are spoken in the world today.

Operation Of Large Hospital Presents Many Problems Annual Administrator's Report Shows

Ramifications of operating a large hospital were illustrated in the report of Gene Macdonald, administrator of the Penticton hospital, in his annual report presented at last night's meeting of the hospital society. Mr. Macdonald's report, in full, follows:

TRYING YEAR

The year 1953 was a very trying year and despite the fact that we are now accustomed to our new environment, there were occasions when we missed the tranquil atmosphere of the old hospital.

You will recall problems involving budget, staffing, arranging of schedules and parking as well as problems involving major equipment such as elevators, dumb waiters and standby power plant that were to be expected during the breaking in period. We have been told, by several authorities that it will take up to two years to get many of our problems straightened away and this looks to be the case.

Many of us thought that our waiting list would vanish as soon as we opened the new hospital. However, it was June 30 before we were able to write that problem off. Many people fail to realize that 47 beds of our total 121 beds are allocated for maternity and pediatric use. Our percentage occupancy for our adult, male and female, medical and surgical cases, as housed on our top floor was 85.1 per cent, which means that we had an average of 63 patients on the third floor every day.

Recommended occupancy for good patient care is 75 per cent, or 53 patients per day.

It is interesting to note the increase in operations, x-ray and lab procedures as well as patients

admitted as shown in the statistical section of the annual report.

CLINICS

The arthritic clinic, under the capable direction of Miss Southard treated 386 patients during the year. This space in our hospital is made available to the local arthritic society and is outside the orbit of hospital control. Other clinics making use of our hospital during the year were the consultative cancer clinic, which made 11 visits and saw 453 referrals. The children's clinic made two visits and examined 136 cases. The child guidance clinic made one visit to attend 8 cases and the travelling "D" clinic made three visits with the total attendance numbering 138. The service rendered to our area by these clinics is of inestimable value and we are pleased to afford them proper space for this program of public health service.

The audited financial report is very complete and I will not discuss it as such. However, I would like to mention something regarding our budget and deficit and while I realize that figures make rather dry listening, I will try to make them as clear as possible.

Our salary costs amounted to \$323,000 and accounted for 69 per cent of our budget expense on a patient day calculation—the basis for computation of our daily rate; salaries cost us \$10.41 per patient, day. The daily amount allowed us under the fixed 1952 budget was \$8.55 per patient day based on the staff employed in the old hospital. As you know a seven per cent wage increase was granted for 1953 with the result that BCHIS allowed us an additional 70 cents per day. It must be remembered however, that this 70 cent adjustment covered just those on staff in 1952 and did not make any allowance for necessary additional staff required for operating our new hospital.

REVISED BUDGET

As you are well aware, Mr. Chairman, we revised our salary budget last May and submitted a figure to BCHIS showing a reduction of almost \$30,000. The budget salary cost per patient day with this reduced figure amounted to \$10.40. That our actual 1953 cash as previously mentioned is \$10.41, an indication of the effort made by all our departments to hold this line.

In all other expenditure accounts, Mr. Chairman, we were able to effect an overall reduction of 13 cents per day below fixed budget allowance. For example, our 1952 budget allowed us \$1.13 per day for drugs and sterile supplies. Our cost was \$1.26 or 13 cents per day above. Our food allowance per day was \$1.43. We cut this to \$1.30, a reduction of 13 cents per day. Our 1952 fixed budget allowed us \$2.16 for all other costs such as fuel, light, linen supplies, etc. Our 1953 costs were \$2.03, another 13 cents per day reduction. The net result was that we had one over expenditure of 13 cents per day and two 13 cent reductions per day which means that a net reduction of 13 cents per day was made on all expenditures exclusive of wage costs.

There is another factor to consider and I refer to other operating revenue. BCHIS reduces our daily rate by the amount of other operating revenue that we expect to earn and this is made up of out patient revenue, revenue from board, lodging and cafeteria, cash discounts etc., also rebates and bad debt write-offs. This is a very difficult and perhaps the most difficult figure to determine and one over which we have no control. Our estimate of \$1.37 per day was short 5 cents and amounted to \$1.32 per day. Therefore we suffered another loss of 5 cents per day.

AFFECT ON BUDGET

I have mentioned savings on one hand and losses on the other and now let us consider how they affect our budget and review the results of my previous statements.

BCHIS allowed us \$8.55 per patient day as a fixed 1952 cash for salaries. We spent \$10.41, which means a loss of \$1.86. We had a loss of 5 cents per day in revenue and that brings our loss to \$1.91. You will recall that we had an overall reduction of 13 cents per day on all other expenses which reduces our daily loss to \$1.78.

Our operating loss, therefore, before adjustments, amounted to \$53,461 or 30995 days times \$1.73. To reduce that loss we received our 70 cents per day from BCHIS for the salary increases, mentioned previously and this amounted to \$22,271. We also received a \$10,000 allowance to cover our loss in revenue during the "opening in period" and \$7,312 which was an adjustment covering 321 patient days below budget estimate. These three figures total \$39,583 and bring our operating deficit down to \$15,668.

We had a non operating surplus of \$6,040, which brings our net loss down to \$9,628.

Other figures that may prove of interest are as follows.

BIG CONSUMPTION

Our meal day cost was .985. We consumed 14,250 quarts of milk, 2400 dozen eggs and 10 tons of potatoes. We burned 525 tons of coal. We used 160 gallons of wax and have 214 rooms to clean. In one year we cover approximately .3 miles of corridor by sweeping, washing, waxing and polishing. Our janitors handle approximately 1200 pounds of garbage per day.

Our expenditure for supplies amounted to \$110,000, which means that we turned our stock over five times.

On March 23, one week after moving in, we had our first internal management committee meeting and have had 19 meetings since. This group comprises the heads of the various departments within the hospital and our main function is to discuss and correct problems arising within the hospital and to assist other department heads where ever possible. Many of our problems and recommendations are those that affect policy and as you are aware, they are brought to the board for attention.

STUDENTS

During the year the board accepted the honor extended to them by participating in the teaching program, established by the University of B.C. in conjunction with the Vancouver General Hospital, leading to a degree in hospital administration. One of the phases of this program includes the sending of a student in his final year to a small hospital for a two month period. Our first experience in this connection was to have Donald Gray with us for the months of July and August. Judging from our experience with Mr. Gray, I know that you, Mr. Chairman and the members of your board realize that we received as much help from Mr. Gray, as he received from us. We hope to have two more students in 1954.

A vehicle without wheels is not going very far—neither is an organization such as ours going to make progress without good department heads and supervisors. I am particularly proud of our people in these categories. In our nursing department we have Miss McTavish as our director, Miss Foster as assistant director; Miss Leash as our operating room supervisor; Mrs. Brown as our maternity supervisor; Miss Caplett our pediatric supervisor; Mrs. Darters our drug room supervisor; Miss McLeod day supervisor; Mrs. Gale our afternoon supervisor; Miss Patton night supervisor and Mrs. Lemm our capable relief supervisor.

OUTSTANDING JOB

Mr. Kenia as our accountant has done an outstanding job and has had an extremely busy year with a lot of added work including Furnishing Fund and building expenses. Judging from the financial and statistical reports required from a hospital of over 100 beds, 1954 will keep him busy too. Mrs. White, our housekeeper and her staff, have a tremendous responsibility in trying to keep the building with its perpetual new appearance. Miss McGregor, our dietitian, is a recent addition to our staff and has shown excellent results already.

During the year we were able to secure four top flight men—specialists in their own field, who are doing a splendid job for us. I refer, of course, to Mr. Doyle, our purchasing agent, and maintenance supervisor; Mr. Gore, our laundry supervisor; Mr. Lloyd as plant engineer and Mr. Holson as chief lab technician. I doubt if four such people of equal calibre are engaged anywhere within the region.

It is not possible for me to mention all other people of our staff, suffice it to say, that our patients and visitors speak very highly of the pleasant attitude of all our people with whom they come in contact or see about the hospital.

We have going a lot of unfinished business going into 1954 and we can expect many more problems. However, with the staff such as we have, eager and interested in their work and all working together, I think we can face most anything since we are all as one in our desire to serve the people of this area.

In conclusion, Mr. Chairman, I would like to thank you and the members of the board for your help and understanding through this very busy year and for making it possible for me to complete my course in hospital organization and management.

U.S. Firm Spends 85% Of Advertising Budget In Newspapers

Rightly used, newspaper advertising produces immediate sales action, say officials of Carson, Pirie Scott and Co., Chicago mercantile family on State street, now observing their firm's centennial year.

The department store in recent years has been spending annually approximately \$2,300,000 for newspaper advertising space. This represents from 85 to 90 percent of the store's total advertising budget. Last year Carson's newspaper ad budget rose to 2,749,000.

A youngster who is exposed to frequent family quarrels and bickering may be so affected by these conditions that he develops a feeling of insecurity lasting into his adult life.

Being born again, not of corruptible seed, but of incorruptible, by the Word of God, which liveth and abideth forever.

—1 Pet. 1:23

Waste Closet Space Can Be Put To Use

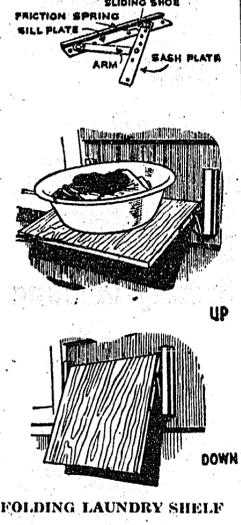

Almost a third of the space in a standard closet is wasted, but with the help of Douglas fir plywood there is something you can do about it with a minimum outlay of time and money.

Raise the clothes rod as high as it will go without sacrificing convenience. That should leave about two feet or more beneath the bottom of most of the clothes that hang there.

Then build in a box with 1/2-inch fir plywood at the bottom of the closet with three shelves or a combination of shelves and drawers.

If you slant one of the shelves and nail a stringer across it near the back it will serve as a shoe rack that is more convenient and neater than a shoe bag.

Knick-knacks like this can also be installed in other types of closets, in the front hall or on the back porch. They make your storage areas more convenient and can add considerably to the comfort of your home.

FOLDING LAUNDRY SHELF

Does your wife lose her temper easily? Like when a basket full of wet laundry tips off the back porch-rail into the garden?

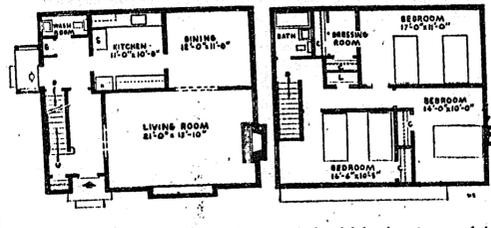

Mine does. At least she did until I built her this fir plywood fold-down shelf. Now when she uses the clothes line she sets the clothes on the shelf where they can't fall off. The shelf is just under the line, at about waist height for easy lifting of wet clothes.

Since our back porch is narrow—so are most of them these days—the fold-down feature is essential when the shelf is not in use.

Anyone can build it. Perhaps even the wife, if you stall around long enough. The shelf is 3/4" fir plywood—because this plywood is water-resistant and won't come apart with the weather. Vary the size to suit yourself. Most lumber dealers keep stocks of odd-sized plywood pieces in their display rooms. This shelf is 18"x18". If the shelf projects too far of course the load may be too heavy for the supports.

The hinges are 10" or 12" galvanized Whites' specially designed for casement windows and available at builders' hardware dealers. Screw the base of the hinge to wooden side brackets, and fasten the brackets firmly to the wall with nails or screws. The hinges are friction type and self-supporting for light loads. Should the shelf fold down with heavy loads, use a nail as a 'pin' to keep it up. The 'pin' goes into one of the screw holes in the hinge base, and is removed when the shelf is to be dropped.

Use galvanized or copper nails and screws to prevent rust. Paint the shelf and the brackets, and the job is done.

A large living room with bay window and cheerful fireplace is one of the many features that make this two-story house ideal as a family home. Factors which will find considerable favour with the busy housewife are the compact and well-planned kitchen and the ground floor washroom conveniently located, next to the kitchen and the side entrance.

The bedrooms are generously supplied with natural lighting, all three of them having two windows or more. There should be no problem in the storage of clothing for closet space is ample. An interesting innovation is the dressing room adjacent to the master bedroom. The recessed front entrance, with the ledge roof above it offering protection against snow and rain, and the pleasing exterior combination of horizontal and vertical wood siding enhance the outside appearance of the house.

The total floor area is 1,565 square feet and the cubic measurement is 22,105 cubic feet. Exterior dimensions are 30 feet by 26 feet. Working drawings of the house, known as Design 515, may be obtained from Central Mortgage and Housing Corporation at minimum cost.

Safety Measures Recommended To Cut Down Tragic Fire Loss Caused By Deficient Wiring

- 1. Careless use of electricity ranks second only to cigarettes and matches as cause of fires, according to officials of the All Canada Insurance Federation.
 - 2. It is estimated that more than 6,000 fires a year are caused by electrical appliances and wiring, with a total damage of more than \$8,000,000.
 - 3. The Federation, which represents more than 200 fire, automobile, and casualty insurance companies, reports that overloading of circuits and faulty wiring are two of the largest causes of electrical fires. It recommends these safety measures to be used in cutting down the possibilities of fire:
1. Employ only experts for installation and maintenance of electrical wiring and appliances. Be sure circuits are heavy enough to carry peak loads.
 2. Never overload circuits.
 3. Never string wires under rugs, through doors, over hooks and beams, or in any exposed places. Constant wear will make them dangerous.
 4. Cords should be replaced when worn. They are usually not worth repairing.
 5. Laundry and clothing should never be strung over wires.
 6. Never use improper fuses or substitutes. They may cause overloading.
 7. Homemade extensions are seldom reliable.
 8. Use only recognized makes of appliances. Never leave them active for long periods.
 9. If fire should break out, shut all doors and windows to eliminate drafts and phone fire department without delay. In Penticton, the number to call is 115.

Canada today is second only to the United States as a producer of aluminum.

A Tie With The Past ORIGIN OF FAMILY FIREPLACE DATES BEYOND CHRISTIANITY

Too few builders realize just how significant that little item found in most west coast homes — namely the fireplace — is, and how some of its features reach far, far back in history.

It may surprise them to know, for example, that even today most architects are unknowingly following the teachings of one of the earliest gods in history when they put a mantel over the fireplace. That decoration is in reality an altar and was so used for thousands of years by one of the world's oldest religions. Even today the fireworshippers of Day, whose religion still survives in many countries, even though its origin reaches back thousands of years before Christianity.

The truth is that most new religions took the principle of the mantel and by divorcing it from the fire made it into what they called an altar. It might surprise them even more to realize that the growth in the new type one-story home is also leading to a revival of the family altar such as the Romans adopted from the Parsees about 300 B.C. and which led to the patriarchal state.

In many respects there is quite a similarity between the homes in the city of Rome about 100 A.D. and the modern house of today, even to the swimming pool and plumbing.

That is why it is interesting to look back in history to find the origin of the family fireplace and what it means before Christianity appeared on the scene.

The real beginning is, of course, lost in history, but nevertheless, it can be assumed that one of the earliest discoveries made by man was that fire could be a good friend if properly controlled. Man was a fearless animal which meant he was more than sensitive to changes in the weather. Clothing was, of course, a partial answer, but there was no doubt that when man found the first fire, probably caused by lightning, he tested it out and found it good.

The big question, however, was how to have permanent fires which could be kept going, for as yet, man had not found out about friction and such things. Thus he did not know how to start a fire.

It is highly probable, therefore, that once they found some form of a fire the men in that era started a system whereby the fire could be kept going all the time.

This in time led to the idea that there should be one central place where a fire would always be maintained and where the people could go to get embers to start one of their own. People were still living in caves, for as yet they had not thought of building homes.

RAIN A PROBLEM

That was when another problem arose, and that was rain. Rain, of course, could not be put these permanent fires out. This was bad, for a tribe might have to go months before being able to obtain another fire.

Men began to put a roof over their fires in order to keep out the rain and then to devise means whereby the fire would not be smothered out by smoke. First they tried a simple hole in the roof, and then bit by bit developed the chimney, and the fireplace as it stands today.

It wasn't long before it dawned on man that once he had built a shelter for the fire it was much simpler to live beside it than to carry the fire into the caves; this started "homes" as we know them.

This, of course, was not done in one year, but in fact took hundreds of years with some problems still not solved.

It was natural for the people sitting around the fire at night to chat and tell stories which led, in time, to the first religion. It happened in this fashion.

First, mention has been made of the central place where a fire was maintained at all times for use as a source of fuel for the entire tribe. It happened that the older men of the tribe took over the care of looking after the fire in this central place. More to the point, the children of the tribe liked to stick around the old men and get them to tell them

The 12-mile Simplon tunnel in the Swiss Alps took eight years to construct.

AN AERIAL VIEW of a fire which cost one man his life and caused damage estimated at \$500,000 when it swept through four stores on the main street of Aurora, Ont., a suburb of Toronto.

Polio Victim Tells Jaycees Of Life At Rehabilitation Centre

Addressing the regular meeting of Penticton Jaycees, last Thursday night, P. D. "Pat" Mulligan, a polio victim last spring, told of life in the Vancouver Rehabilitation Centre.

His remarks, punctuated with humorous anecdotes, left no doubt that while life at the centre is not all rosy, it has its lighter and brighter moments.

"Morale is excellent," he declared, "because all patients are aware that the centre is geared for one objective and that is the restoration of the individual to a normal life."

Mr. Mulligan, a long-time Jaycee member, recalled that in former years he had usually taken a holiday after an annual Jaycee convention so as to recuperate but this year his holiday was an extended one, eight months, in fact.

He revealed that the Vancouver centre is one of two in Canada and is the only one wholly designed to take persons from the wheelchair back to normal life. 'Lauding the Kinsmen polo fund, Mr. Mulligan revealed that about 60 percent of the cases treated at the centre were polio, others were compensation cases and there were some arthritic and rheumatism victims.

Vance Hull reported on the Peach Festival pamphlets that are being prepared by the Board of Trade, Jaycees, Tourist Association and Peach Festival Association who, with other bodies, have formed a joint committee under chairmanship of Edgar Dewdney.

Mr. Hull said it seems assured that the Peach Festival pamphlet will be one of few that the provincial government will print free of charge.

An important district meeting is scheduled for this evening at 7 p.m., aboard SS Sicamous. Chairman will be Bill Adams, of Oliver, district councillor, and this will be the final district meeting before the B.C. convention, to be held here in May.

OSOYOOS

OSOYOOS — Mr. and Mrs. Eric Lohlein are visiting in Vancouver.

Mr. and Mrs. F. VanDuzer are spending a few days in Vancouver.

The United Church W.A. held its monthly meeting at the home of Mrs. H. P. Mahler last week. Plans were made for the World Day of Prayer to be held on March 5.

The Snowball Frolic, held in the Community Centre on Friday, sponsored by the Osoyoos Gyo Club, was an outstanding success. The hall had been turned into a winter wonderland complete with northern lights, and the capacity crowd had a most enjoyable evening. Music was by Saxie's Orchestra.

The Junior Snowball Frolic is always held on the following evening to let the juniors enjoy the decorations. There was a fairly good turnout for a very enjoyable evening.

Mr. and Mrs. R. L. Cawston, of Penticton, spent a couple of days with Mr. and Mrs. E. J. Lacey last week.

Mr. and Mrs. A. Murphy and son have returned from a holiday in California and Arizona.

Mrs. Cyril Hope and Mrs. Helch Mack were joint hostesses at a surprise going-away party, at the home of Mrs. Dorner held in honor of Mrs. Mike Tota. Mrs. Tota was presented with a Planter lamp. Those present were Mrs. Rudy Miller, Mrs. E. Gaetner, Miss Shirley Dennis, Mrs. Ed Mattes, Miss Leona Miller, Mrs. H. Comeau, Mrs. W. Thebes, Miss Nellie Van Egmond, Miss Anne Degenhart, Mrs. Alec Wovchuck, Mrs. H. Hopner, Mrs. M. Tota, Mr. and Mrs. Tota are

P-TA News

Penticton Carmi P-TA will hold their regular meeting in their school cafeteria, tomorrow night. Guest speaker will be Inspector of schools, Ernest Hyndman whose topic will be "Elementary School's Curriculum". His talk will be followed by a full group discussion on the subject.

Meanwhile, the group has already donated \$50 to the school, as the first step in its project to provide library books for the new school's classrooms.

A rummage sale will be held in the Oddfellows Hall, February 27, in an effort to raise further funds for this project.

Horticultural Society Meeting

Gladiolus and tuberous begonias was the subject of a talk by Ernest Bennett, of Summerland, given at the regular meeting of the Penticton Horticultural Society, held last Thursday, at the Hotel Prince Charles.

Mr. Bennett told of the time and conditions for their planting, their care and cultivation during the growing period, preparations for exhibition and the harvesting and storing of bulbs.

He showed colored slide pictures of gardens and flowers taken in or near Summerland and named blossoms for those wishing to obtain special plants. Indicative of the interest was the number of questions the audience asked regarding the culture of these gorgeous flowers.

Next meeting will be the annual one, highlighted by election of officers. It is slated for the month of March.

leaving to make their home in Vancouver.

Aerial poles have been erected outside the CPR station where the equipment for a booster station for the CBC will be located. The date when this outlet will go into operation has not yet been announced.

Trade And Industry Head Reveals B.C. Among Top Three Provinces As Tourist Attraction In 1953

British Columbia's growing popularity with American tourists attained a new stature in statistical terms today as 1953's year-end summary of the visitor traffic broke all existing records.

Hon. Ralph Chetwynd, Minister of Trade and Industry, released tourist arrival figures based on travellers' vehicle permits issued at border points showing that both the month of December and the twelve-month period of 1953 had registered substantial increases over 1952. During the year a grand total of 283,837 incoming motorists drew permits for visits of

longer than 48 hours, 8.1 percent or 21,287 vehicles more than the record of 262,550 set in 1952. Visiting American cars to the number of 13,203 entered British Columbia during December, 15.2 percent or 1,742 cars over the figure of 11,461 for December of the preceding year.

British Columbia is now firmly placed among the top three holiday provinces in Canada," said Mr. Chetwynd, pointing out that the provincial total of 283,837 vehicle-entries for 1953 is more than the combined totals of all other provinces and the Yukon Territory except On-

tarlo and Quebec. "We must strive by all means at our disposal," said the minister, to encourage an even greater influx of tourists in 1954."

Courtesy and service on the part of resort owners, hotels, tourist operators, shopping and entertainment services can do much to prolong the visits of our friends and to bring them back again.

"We must supplement the natural attractions of our great province with the warmth of our welcome," he concluded.

Retirement may be a matter of months or years away but it is important that preparations be made to ease this sudden change in the general way of life. Planned hobbies will help to make the years to come much more interesting than just killing time.

Dollar Day at the Bay

THURSDAY - FRIDAY - SATURDAY - FEBRUARY 11, 12, 13

MEN'S DIAMOND SOCKS

Hand framed diamond anklets in quality yarn with nylon reinforced heels and toes. Shrink resistant to retain fit. Wanted fashion colours. Sizes 10 to 12
