BIOSENSORS 2021 – ONLINE

31st Anniversary World Congress on Biosensors

Live and On-demand
26-29 July 2021

TIME ZONE = BST

26th July 2021 Summer School (additional registration fee)

09:45-11:30	Biosensors 2020 Summer School: Commercialising Biosensors Introduction, Welcome & Session 1 (Man Bock Gu, Anthony Turner and Martin Peacock) CASE HISTORIES – Success, failure and lessons learnt. (Chair: Martin Peacock) Each speaker will outline selected successes and failures with a reflection on lessons learnt. 10.00 – 10.30 Martin Peacock (Zimmer and Peacock, UK) The good, the bad and the ugly - a life in business. 10.30 - 11.00 Nancy Allbritton (University of Washington, USA) Persistence pays - A tale of four biotech start-ups. 11.00 – 11.30 Surendar Magar (President and CEO, LifeSignals, Inc., USA) Challenges facing a start-up targeting wireless biosensors for mass markets.
11:30-11:45	Break
11:45-13:45	11.45 - 12.15 Frances Ligler (University of North Carolina at Chapel Hill and North Carolina State University, USA) The path to license: How to commercialize your inventions without being an entrepreneur. 12.15 - 12.45 Menno Prins (Eindhoven University of Technology, The Netherlands) Heli Biomonitoring – a journey in continuous sensing. 12.45 – 13.15 Koji Sode (Ultizyme International Ltd., Japan & University of North Carolina at Chapel Hill and North Carolina State University, USA) Rewards and drawbacks of being engaged in the R&D of blood glucose monitoring, the largest market in the biosensor industry. 13.15 – 13.45 George Ligler (University of North Carolina at Chapel Hill and North Carolina State University, USA) To publish or patent—or both, or neither.
13:45-14:15	Break
14:15-15:45	Breakout sessions led by each of the speakers via zoom
15:45-16:00	Break
16:00-17:10	Chaired panel discussion & Wrap-up and farewell Chair: Anthony Turner Martin Peacock, Nancy Allbritton, Surendar Magar, Frances Ligler, Menno Prins, Koji Sode, George Ligler. The panel will discuss question from the chair together with questions from the audience including the broad areas of: • How best to protect your technology? • Choosing whether to start a company or to license technology. • How to sell your technology. • Making a success of a start-up.

27th July 2021
