COMMITTEE ON WOMEN IN WORLD AFFAIRS

By JULIA BENTON HOPKINS, L.L.B., C.P.A., Washington, D. C.

At the 1946 convention the chairman of the legislative committee of AWSCPA was authorized to investigate various groups concerned with the promotion of women and to establish affiliation with such a group. After careful investigation, AWS-CPA became a member of the Committee on Women in World Affairs. This committee was founded in 1942 by Miss Woolley, President Emeritus of Holyoke College. The primary work of the committee has been to urge the appointment of women in the American delegation of international conferences and to present names of women qualified to serve in these capacities. The committee does not, however, limit its work to the international field but endeavors to secure qualified women appointees in all fields of government service.

The work being done by the Committee

promises real rewards. Members of the committee are asked from time to time to write letters to the appointing officials urging the appointment of the women whose names are suggested by the committee. The women nominated by the committee for such appointments are always carefully selected after a painstaking search for those who have all the qualifications for the particular position to be filled. During the past year the committee endorsed the nomination of women as United States representatives to the World Statistical Conference, for inclusion in the American delegation to the Food and Agriculture Organization Conference to be held in Genoa on August 26th, for inclusion in the American delegation to the Conference on International Refugee Organization, and for the Second Session of the United National General Assembly
