FRANKLIN
UNIVERSITY

Doctoral Student Association
Doctoral Studies

Franklin University Doctoral Student Association is a dedicated space for us to collaborate, network, and socialize as a group of doctoral students and candidates. Activities include Monthly Meetings with a variety of topics and insights from experts, writing groups, public speaking groups, and special events, as well as weekly Canvas and Linked In groups to share, network, and socialize. A monthly Newsletter and communications will come through your Franklin University email. It offers us the opportunities we build into it, so feel free to provide insights, ideas, needs, and concerns.

Vision Dedicated to the engagement, collaboration, and support of all Franklin University doctoral students that encourages development, success, and growth.

Mission Franklin University's Doctoral Student Association is a student-governed organization that offers opportunities to support and collaborate with fellow students in the doctoral programs, so we can develop and share our leadership, talents, and knowledge in our communities, country, and world.
