Campus Participation Sought for New Council on Pluralism

A Standing Council on Pluralism at the University of Maine has been established to help develop, shape and foster an ideal vision of a campus which includes and celebrates cultural differences.

Edward Laverty, executive assistant to the President and associate professor of Public Administration, has been designated by Lick to chair the Council.

Formation of the Council is one of Lick's responses to the recommendations set forth in the Report of the Commission on Pluralism for the University of Maine System, accepted by the Board of Trustees in January 1990. The key recommendation called for each campus of the UM System to examine its own mission statement, its curriculum and its leadership in order to determine ways in which pluralistic values can be enhanced.

Appointments to the 15-20-member Council will be made by Lick, following a campuswide nomination process. Nominations and self-nominations of interested persons are encouraged; nomination forms will be available from the President's Office.

In keeping with the intent to seek the active participation and dialogue of the campus community as it pursues its mission, an open forum will be held at 2 p.m. Oct. 18, 140 Little Hall to outline the Council's intentions and selection process for poten-

tial members, and to gather suggestions for its agenda. Everyone concerned with issues relating to pluralism or wanting to find out more about the concept and why it is central to the University's living and learning envi-

Three-and-a-half-year-old Eric Anderson gets a helping hand from a "neighbor," University of Maine student Larry Karipedes, a member of Delta Tau Delta fraternity, as the pair indulges in a third ice cream sundae during an ice cream party at the UM Children's Center Preschool Program. The ice cream party, and an annual Christmas party, are among the activities planned by the fraternity for the children of the Preschool, located in a facility next door to the fraternity house. *Photo by John Baer*

Center for Multicultural Affairs Established

A Center for Multicultural Affairs has been established at the University of Maine to provide support services and programs to UM's minority populations, and to provide multicultural programming for the University community.

The Center brings together two multicultural advocacy groups on campus - the Office of Indian Programs and Minority Services, and the Franco-American Centre. It will work in cooperation with three major minority student associations on campus - Asian American, African American and American Indian - and a fourth that is forming - the Hispanic Student Association. In addition, programming of such annual observances as Martin Luther King Week and Black History Month will now be coordinated through the Center, under the direction of Ted Mitchell, associate dean of Student Services.

"The Center is a focus, a critical mass that allows us to pull our multicultural

programming efforts together," said Dwight Rideout, assistant vice president and dean of Student Services. "We hope to improve and expand upon what we're already doing."

The Center is designed to assist minority students in their academic, career and personal objectives. In its role of minority advocacy, the Center will assist the campus-wide planning efforts to promote a cultural diversity that "validates, reflects, (emotionally) and cognitively, multiculturalism at the University of Maine."

"One of our directives is to foster understanding of multiculturalism not as it concerns minorities but as it concerns everyone," said Mitchell. "We're not doing programming for hundreds of minority students but for the thousands of students at the University."

In addition to expanded and coordinated programming on campus, the Center will be spearheading an effort to increase

interaction with faculty, and will explore the possibilities of establishing a multicultural course for first-year students. A needs-assessment survey of minority students at UM also is being considered.

"Basically it's an opportunity to work to create an environment of pluralism on campus," said Mitchell.

There'll be more at stake than the score when the University of Maine Black Bears and University of Hawaii Rainbow Warriors hit the gridiron Oct. 6 in Aloha Stadium, Hawaii.

University of Maine President Dale Lick wagered 20 pounds of Maine lobster and University of Hawaii President Albert Simone has bet 20 pounds of macadamia nuts on the game. "Both the lobster and macadamia nut are hard-shelled, but the macadamia is tougher to crack and much more versatile," said Simone. "I challenge President Lick to put lobster into candy, cake, cookies and ice cream."

Lobsters may not be as versatile, Lick countered, "but they can nip you when and where you least expect it. While lobsters can eat macadamia nuts, macadamia nuts cannot eat lobsters.

"We'll see how the Bears like macadamia nuts," Lick said.

A 15-member delegation from the Soviet Union's Kharkov State University - 11 students and four faculty members - was on campus through Oct. 5 meeting with UM students, faculty and administration. In addition to being on campus, the delegates visited Bar Harbor, Camden and the University of Southern Maine. Seen meeting with University of Maine President Dale Lick are two members of the delegation, Vasily Chigrinov, center, vice rector for academic affairs at Kharkov State University, and Oleg Shpilman, instructor of foreign languages, specifically English, at Kharkov State. The visit by the delegation is part of an ongoing cultural and academic exchange agreement between the Universities. Next semester, a UM delegation will be headed to the Soviet Union in the third year of the exchange.

International Student Enrollment Rising

One hundred and seventy-two new international students representing 40 countries have arrived for the 1990-1991 school year, an increase of approximately 12 percent over last year.

According to Ruth Bentley, assistant dean of student services, the 140 new students, combined with the 288 returning students, make for the highest international student population ever at the University.

Factors for the increase go beyond the recent resurgence of interest in cultural diversity and global education. The University's active recruitment of international students and various academic departments receiving worldwide recognition, combined with the faculty's greater global research interests, travel to international conferences and sabbaticals abroad have all led to the substantial increase, said Bentley.

"Many students hear about the University through their professors in their

homeland, relatives who went to the University, or by meeting UM professors who have traveled abroad," Bentley said. Since 1985, the University's international student population has increased approximately 400 percent.

International students get much more than just an education, Bentley said. She feels many students come with a false sense of American life that they derive from the American media. By going abroad, international students meet Americans as individuals and get an idea of how American systems work. "Greater global understanding has to begin on a one-to-one basis," she said.

Although the benefits to the foreign students are obvious, Bentley believes the benefits to the University's other students are sometimes greater. "Where else do you get to meet people from 75 different countries in one place?," she said. "We're not only building bridges from the home country to the U.S., but

bridges that go to fourth or fifth countries as well."

Giving American students a chance to meet students from other countries gives them a true perspective on other cultures and helps break myths and stereotypes she said. "Not every University student gets to study abroad. International students give each person they come in contact with a broader perspective on the world," Bentley said. "International students contribute more to the University than what they take from it."

According to Bentley, most of the international student population are graduate students who have gotten their undergraduate degree in their home country. For the majority, this is their first experience in the United States and according to Bentley, they're in for a series of adjustments - physical and cultural, as well as educational. In order to help these students adjust to their stay in the U.S., the International Student Office offers a wide range of services. The two most important involving the University community - Getting Acquainted Better (GAB) and the Friendship Families.

In the GAB program, an international student is paired with an American university student for one hour a week of informal conversation. Through the program, international students where they can learn the unwritten "UMaine" language and culture from a peer, and American students learn about another country and culture that they might normally not be exposed to.

The Friendship Family program involves a family in the community whose only obligation is to invite the student to dinner or some family activity occasionally. It is not a live-in program and the family assumes no responsibility in any way for the student. Like GAB, the Friendship Family program allows the student to participate in a family setting and gives the family a first-person introduction to a familiar, or unfamiliar, country and culture.

More information is available about these or any other International Student Programs by contacting Ruth Bentley, 581-1825.

Murphy Named International Student Liaison at Cutler

If you were a student in a foreign country and you became ill, who would you go to? For international students at the University of Maine, the answer is Barbara Murphy, International Student Liaison and staff nurse at Cutler Health Center.

Created last spring, the International Student Liaison position is designed to provide a friendly, reassuring person, experienced in mental and physical health problems of international students.

"The importance of a cultural perspective towards illness and health is critical for proper assistance to the international students. Barbara has demonstrated a sensitivity and familiarity for these special student needs," said Dr. Mark Jackson, director of the Cutler Health Center.

At the beginning of the academic year, the majority of international students are seen for immunizations, Murphy said. Then as the semester progresses, a variety of health problems can arise.

Two common health problems for international students involve dietary adjustments and stress. Different foods and spices, as well as new ways of preparing food, can cause dietary problems for international students. In addition, there is the general pressure of classes combined with the added stress of a new culture, environment, climate and lifestyle.

Laura Merrick, research assist. prof. in the Sustainable Agriculture Program, Dept. of Plant, Soil and Environmental Sciences presented "Folk Taxonomy of Cucurbits in Latin America, at the annual conference of the Society for Economic Botany in Madison, WIS., Jun. 12.

Howard Patterson, prof. of chemistry, presented a paper, "Photoluminescence and Electronic Structure of $Tl[Au(CN)_2]$: Evidence for Relative Thallium-Gold and Gold-Gold Covalent Interactions," (co-authored by **Zerihun Assefa**, chemistry grad. student, and M.A. Garepapaghi,

J. Nagle, Chemistry Dept., Bowdoin College) at the 200th American Chemical Society National Meeting, Aug. 26-31, Washington, D.C.

Peter Dufour, assoc. director of Facilities Management, was elected to the Executive Board of the Assn. of Physical Plant Directors at its annual meeting in Ottawa, July 2. The assn. is made up of 1,500 colleges and universities throughout the United States, Canada, and several foreign countries. Prior to his election to the executive board, Dufour

served two years as a director of APPA, representing the Eastern Region, as well as several offices within the Eastern Region, including its president from 1987-88.

John Moring, assoc. prof. of zoology, presented a talk on "Initial and Delayed Mortality of Black Basses Following Tournaments," at the National Meeting of Cooperative Fish and Wildlife Research Units, Aug. 2, Raleigh, N.C.

International

continued from page 3

International students who bring their health concerns to Cutler find that language is not a barrier. Interpreters, including friends of the international students, and staff of the International Student Office can be contacted. Immunization information sheets are available at the Health Center in seven different languages.

Along with assisting international students at UM, Murphy also advises UM students going abroad on specific health concerns. Tips on certain immunizations, different cultural diets and other general health precautions are valuable advice Murphy dispenses.

Murphy, a full-time staff nurse at Cutler since 1982, has the medical knowledge, as well as the cultural perspective, to assist the international students. "My husband and I have been abroad, so I've known what its like to be in a foreign country and different culture," she said. Aside from extensive reading and travel, Murphy has also gained experience as a member of a host family to international students in the past.

Murphy acknowledges that health care systems are different in many countries or may not be a part of a culture at all. Some students may never have seen doctors or nurses in their homeland and may be uncomfortable about visiting the center. "I just hope they take advantage of coming here, we're here for them," she said.

A 1990 Creative Programming Award by the Conferences and Institutes Division of the National University Continuing Education Association (NUCEA) is presented by Rebecca Guinlan, associate director for programming for the New England Center, to Bruce Stinson, director of the Conferences and Institutes at the University of Maine. Stinson is co-recipient of the award that was made for the New England Senior Academy, a program located on the University of New Hampshire campus that provides weekend learning experiences for mature learners. The New England Senior Academy is sponsored by the New England Center at UNH, a Kellogg Center for Continuing Education. UNH and other New England land grant universities - including UM - present educational programs designed for semi-retired and retired persons on a wide range of topics. The award to the New England Senior Academy represents creativity in programming and educational delivery.

From the Library ...

The Library has recently acquired the Disclosure database on CD-ROM. Disclosure contains detailed information on over 12,000 U.S. public operations and is a major addition to Fogler Library's resources for business research.

Disclosure includes such general information as a description of each company; standard directory information including address, telephone number, exchange and ticker symbol, SIC number and a list of officers and directors; and more unusual information, such as date and place of incorporation, auditor, legal counsel and much else. Disclosure also contains excerpts from annual reports and the full text of the president's letter, management discussions and the footnotes to the financials. Financial information includes balance sheets (assets, liabilities and income), cash flow (as provided by operations, investing and financing, price/earning data (including dividend information), and over 30 financial ratios. The financial information includes a five-year summary and detailed accounts for the last three years.

Kelley Receives Environmental Award

Joseph Kelley, a marine geologist with the Maine Geological Survey and adjunct associate professor of geology at the University of Maine, received the 1990 Down East Environmental Award during a ceremony at the Blaine House, Augusta, Sept. 27. Gov. John McKernan presented the award to the Maine native for his "tireless commitment to preserving the state's fragile coastal environment during the past seven years."

Kelley, through his research, publications and testimonies before official environmental bodies, helped tighten the state's coastal wetlands laws, which now serve as a model for other coastal states. Kelley and his wife Alice, also a geologist, are authors of Living with the Coast of Maine, published last year and sponsored by the National Audubon Society. The book is both a scientific look at coastal dynamics and a practical guide for those developing along the shore.

Financial data is taken from the SEC filings of each corporation and the textual data is taken from annual reports, public announcements and SEC filings.

Disclosure may easily be searched by industry, company name, key words and by type of data desired to find information about individual companies. Using simple search logic, it is possible to compare sales, inventories, stock dividends, financial ratios within selected industries and geographical areas or between selected companies.

In order to be included in Disclosure, a company must:

1. be a U.S. public corporation
2. file with the Securities and Exchange Commission

3. have at least \$5 million in assets
4. have at least 500 shareholders of one class of stock and
5. provide direct goods and services.

According to this last requirement, management investment firms, mutual funds, real estate limited partnerships, and gas and oil drilling funds are not included in Disclosure.

In combination with Q-File, an annually updated collection on microfiche and standard reference works such as those from "Moody's" and "Standard and Poor," Disclosure allows library users to make detailed investigations of the operations and finances of most U.S. public corporations.

Schilmoeller Heads Services for Students with Disabilities

Kathy Schilmoeller, former international student advisor at the University of Maine, has been appointed counselor/coordinator of Services for Students with Disabilities.

Schilmoeller received her master's in human development in 1973 and a Ph.D. in experimental and developmental child psychology in 1978 from the University of Kansas.

She has taught CHF 404-Helping Skills for the past 10 years. The course focuses on, among other things, teaching people how to listen to people who come to them for help, a skill which is a necessity in her new position.

"Through the process of teaching that course I've had a lot of experience which feeds right into my role here," she said.

A more personal preparation for Schilmoeller has been her 14-year-old son with disabilities.

Through her special "14-year training period," Schilmoeller has gotten a first-hand course in learning about the needs of people with disabilities and the resources that are available, another important aspect of her job.

In her role as counselor/coordinator, Schilmoeller's responsibilities include being available to counsel students with disabilities, whether they be physical or learning. She will address issues concerning students with disabilities as they apply to getting an education, including making class accommodations. Another important function, although different from previous years, is the testing and screening of people who feel they might be learning disabled. This year testing for learning disabilities will be done in the Psychological Services Center. Other responsibilities include fielding questions and getting information to faculty who may be addressing disabilities in their coursework and need accurate, up-to-date information, and referring students to the pool of resources open to persons with disabilities.

Overseas Outlooks

Editor's Note: The following is the first in a series of biweekly columns on international activities at the University of Maine.

The Office of International Programs, established nearly one year ago to consolidate and coordinate the various international activities and affairs at UM, has been very active over the past 12 months. As international activities, interests and involvement expand throughout the campus units, the Office of International Programs (OIP) anticipates an even busier period ahead.

During the course of the year we will regularly feature articles and descriptions of the many interesting international activities coordinated by OIP, as well as other ongoing projects involving students, faculty and staff. We will also bring you updates and provide information for ongoing and new opportunities for the UM community.

In this first of our bi-monthly columns we would like to give you a brief overview of examples of activities in the International Programs Office, under the directorship of James Sherburne. OIP oversees and assists faculty and students involved in exchange programs, short- and long-term international training programs, in research and education projects, and in the development of international activities.

The Study Abroad and National Student Exchange Programs, coordinated by Mary Jo Sanger, are in the OIP. Study Abroad experiences offer UM students the opportunity to have international and multicultural academic experiences throughout the world, with courses they study abroad applied to degree programs at UM. This fall semester, 58 UM students are participating in international study programs throughout the world in Australia, Austria, Canada, Denmark, England, France, Germany, Ireland, Japan, Mexico, the Netherlands, Spain, U.S.S.R., and Wales. More students are already planning to leave for a spring semester of study abroad. On campus this fall are over 40 students who have returned from international study experiences in these same countries and Hungary.

They are valuable assets in internationalizing the UM community for they have been culturally immersed in the life of another country and have learned to relate to people whose country, culture and sometimes language, is not ours.

Thirty-five CASS students are now in the second semester of their two-year scholarship program, coordinated by Eleanor Harris. An additional 18 new students arrived in August to begin their studies.

The CASS students are making excellent progress toward becoming integrated into the University and community, and have added a real flavor of their diverse cultures to our scene.

For example, Sept. 15, the National Independence Day of most Central American countries, was celebrated with a very lively party in the Memorial Union. It was gratifying to see many U.S. students enjoying good music, food and fellowship along with many CASS students.

Conversation, education and development projects are under way in Africa, Asia and the Near-East. There are now nearly two dozen agreements for student and faculty exchanges in as many countries. Many UM faculty and students are involved in this regular column on international affairs at UM.

Along the Mall

Tom Mikotowicz, assist. prof. of theatre presented "Four Modernism to Postmodernism: The Directional Approach of Peter Sellars," at the national conference of the American Theatre for Higher Education in Chicago, Aug. 7-10.

Paul Camp, prof., Dept. of Physics, recently attended a meeting of the Fine Particle Society, San Diego. He presented a paper, "Dielectric Measurements as a Clue to the Role of the Water Molecule in the Curing of Portland Cement."

George Criner, assoc. prof., Dept. of Agricultural and Resource Economics, gave the presentation, "Anaerobic Treat-

White Appointed CED Director

Robert White has been named director of the University of Maine's Continuing Education Division.

White has served as the Division's interim director since 1988.

White brings extensive experience to the position, having served UM as a director of planning and resource development activities. Prior to his coming to the University, he served as an administrator of continuing education programs at Baylor College of Medicine, Houston.

He received his Ed.D. at Baylor College of Medicine and University of Houston in allied health administration.

The Vermont native has held several national leadership positions in two professional associations, authored numerous articles on continuing education and many successful grant applications, served on a national accreditation board, and received many honors for his professional contributions including a distinguished author award (Journal of Allied Health).

ment of Food Wastes at the University of Maine," at the 1990 BioCycle Conference, Portland, Sept. 11.

Nancy Ogle, assoc. prof. of music, sang two groups of songs at Corthell Concert Hall, USM, Sept. 15 as part of An American Art Song Festival presented by the National Assn. of Teachers of Singing, Sept. 14-16. Included in Ogle's selections were "Three Setting of Ku Kuang" by **Don Stratton**, assoc. prof. of music.

Martha Darcy, instructor of music, also participated, performing three works by Samuel Barber. Ogle's accompanist was music student **Joseph Arsenault**.

UM Calendar

October 8-22

All events are free and open to the public unless otherwise specified. Any speaker not otherwise identified is a member of the University of Maine faculty, staff or student body. Send notices of upcoming campus events to:

Maine Perspective Calendar
Public Affairs.

Calendar of events listings MUST be typewritten and should be sent AT LEAST TWO WEEKS in advance.

Deadline for each issue: 9 a.m. Friday

For more information, call x3745.

LAST-MINUTE NOTES:

"Basic Aspects of Experimental Design," Forestry Seminar Series, by William Halteman, noon, Oct. 5, 204 Nutting Hall. x2844.

8 Monday

dBase III Plus Programming Techniques, a CID Community Program, 8 a.m.-4 p.m., Oct. 8, Computer Learning Center, Bangor Campus. x4092.

Hard Disk Management, a CID Community Program, 9 a.m.-4 p.m., Oct. 8, 301 Winslow Hall. x4092.

Field Hockey with Providence, 11 a.m., Oct. 8.

Monday Jazz, with Perennial Jay & The Stompers, 12:15 p.m., Oct. 8, Bangor Lounges, Union. x1734.

Women's Soccer with Providence, 3:30 p.m., Oct. 8.

Awareness of a Healthy Planet, a CID Community Program, 6:30-8:30 p.m., Oct. 8, 257 Nutting Hall. Adm. x4092.

9 Tuesday

Classes resume Oct. 9, 8 a.m.

"The Sting," a No Popcorn Cinema presentation, noon, Oct. 9, Sutton Lounge, Union. x1734.

"Responding to a Changing University and a Changing Society," part of the Women in the Curriculum Lunch Series, by Thomas Aceto, 12:15 p.m., Oct. 9, Bangor Lounge, Union. x1228.

Peace Corps General Information Session, 2 p.m., Oct. 9, Ham Room, Union. x1734.

Introduction to REXX, a CAPS seminar, 3:30-5:30 p.m., Oct. 9, 227 Neville Hall. Consultant: Eloise Kleban. x3518.

Buddhism for Today, a CID Community Program, 6-9 p.m., Oct. 9, 115 Bennett Hall. x4092.

Nepal and Thai Culture, a CID Community Program, 7-9 p.m., Oct. 9, 218 Little Hall. x4092.

Introduction to Fly Fishing, a CID Community Program, 7-9 p.m., Oct. 9, 216 Boardman Hall. x4092.

10 Wednesday

The Fundamentals of Personnel Management: A Guide to Developing Effective and Legal Personnel Management Policies and Procedures, a Management Programs seminar by Margaret Beckman, personnel manager, Training and Development Corp., 9 a.m.-4 p.m., Oct. 10, Hilltop Conference Room. Admission. x4092.

The Farmstead Assessment System: Pollution Prevention on the Farm, by Sue Jones, Environmental Specialist, USEPA, sponsored by the Environmental Studies Center, University of Maine, 10 a.m., Oct. 10, North Bangor Lounge. x1490.

Peace Studies Film Series, noon, Oct. 10, Bangor Lounge, Union. x1734.

"The Graduate," a No Popcorn Cinema presentation, noon, Oct. 10, Sutton Lounge, Union. x1734.

Introduction to the Macintosh, a CAPS seminar, 3-5 p.m., Oct. 10, 227 Neville Hall. Consultant: Eloise Kleban. x3518.

Movie: "The Little Mermaid," 7 and 9 p.m., Oct. 10, 130 Little Hall. x1734.

11 Thursday

Sixth Annual Labor Law Conference, with keynote speaker Bruce Feldacker, 9:30 a.m.-4 p.m., (registration 8:30-9:30 a.m.), Oct. 11, Black Bear Inn and Conference Center. Admission. x4124.

Classified Employees Scholarship Committee reorganization meeting, noon, Oct. 11, Old Town Room, Union. x1850.

11 Thursday

"Panel: The War Against Freedom of Thought In the U.S. Today," Socialist and Marxist Luncheon Series, 12:20-1:30 p.m., Oct. 11, Sutton Lounge, Union. x3860.

"The Boys from Brazil," an Honors 201 film, 3:10-5 p.m., Oct. 11, 100 Neville Hall. x2777.

"An Approach to Virus Elimination and to Assessment of Leafroll Resistance in Potato Germplasm," a Botany and Plant Pathology Department Seminar by Steven Slack, Department of Plant Pathology, Cornell University, 4:10 p.m., Oct. 11, 113 Deering Hall. x2970.

Fifth Annual Maryann Hartman Awards Ceremony, 5-7 p.m., Damn Yankee, Union. Admission (students free). x1228.

UM Ca

"To Kill A Mockingbird," a No Popcorn Cinema presentation, 7 p.m., Oct. 11, Commuter/NTS Lounge, Union. x1734.

"Navajo Weaving and Culture," gallery presentation, part of the exhibition, "Forgotten Connections: Maine's Role in the Navajo Textile Trade, 1880-1930," 7 p.m., Oct. 11, Hudson Museum. x1901.

Movie: "The Little Mermaid," 7 and 9 p.m., Oct. 11, 130 Little Hall, x1734.

"Coming Out & Acting Up: Lesbian and Gay Politics for the 90s," part of the Multicultural Series, by Diane Elze, president, Maine Lesbian and Gay Political Alliance, and advisor, Out Right: A Support Group for Gay and Lesbian Youths, 7:30 p.m., Oct. 11, Damn Yankee, Union. x1417.

ONGOING

"Noises Off," a play by Michael Frayn, directed by Sandra Hardy, 2 p.m. Oct. 19 and Oct. 21; 8 p.m. Oct. 18-20. Hauck Auditorium. Admission. x1755.

"Night World," a Planetarium show, Oct. 20-Nov. 8, Saturdays, 7 p.m.; Sundays, 2 p.m., Wingate Hall. Admission. x1341.

"Wendy Mark: A Light of a Certain Kind," a University of Maine Art Museum exhibit featuring the landscapes of the New York artist, Oct. 22-Nov. 9. x3255.

SAS, the Statistical Analysis System, a five-part short course, part of the CAPS Seminars, 3:30-5:30 p.m., on consecutive Thursdays through Oct. 11, 227 Neville Hall. Consultant: Wayne Persons. x3518.

"Anders Knutsson: Lightscaapes/Ljusskap," a University of Maine Museum of Art exhibit that focuses on Knutsson's 22-year involvement with developing the potential of light in painting, through Oct. 12. x3255.

"Forgotten Connections: Maine's Role in the Navajo Textile Trade, 1880-1930," a Hudson Museum exhibit, through Nov. 7. x1901.

"Life Beyond Earth," a Planetarium show, every Friday evening through Nov. 16, Wingate Hall. Admission. x1341.

Wilson Center Worship and Celebration, 5 p.m., every Sunday, followed by a light supper, Wilson Center, 67 College Ave. 866-4227.

Maine Peace Action Committee (MPAC) Meeting, 4-5:30 p.m., every Tuesday, Virtue Room, The Maples. x3860.

"The Spiritual in the Everyday - Journal Writing for Women," 7-8:30 p.m., every Tuesday, Wilson Center, 67 College Ave. 866-4227.

Yoga and Meditation, 7:30-8:30 a.m., every Thursday, Wilson Center, 67 College Ave. 866-4227.

Orono Campus Ministries Bible Study, noon, every Thursday, Stodder Private Dining Room. 866-4227.

Center for Noetic Studies meets 9 a.m., the third Saturday of every month, Sutton Lounge, Union.

International Coffee Hour, every Friday, 4:30 p.m., Bangor Lounge, Union. x1825.

Navajo Weaving Workshop, Oct. 22-Oct. 25, Bodwell Dining Area, Maine Center for the Arts. x4092.

12 Friday

Job Descriptions: Management's Most Powerful Tool, a Management Programs seminar by Philip Grant, management consultant and professor of management, Husson College, 9 a.m.-4 p.m., Oct. 12, Hilltop. Admission. x4092.

"How to Become Famous by Being Wrong in Science," a Physics Colloquium by Irving Klotz, Northwestern Univ., 3:10 p.m., Oct. 12, 140 Bennett Hall.

"Salmonid Reproduction in the Tributaries of Lake Ontario - Is It Important?," by Neil Ringler, SUNY-ESF, Syracuse, Migratory Fish Research Seminar, 3:10 p.m., Oct. 12, 102 Murray.

"The Sting," a No Popcorn Cinema presentation, 7 p.m., Oct. 12, Commuter/NTS Lounge, Union. x1734.

After Hours Series with singer/songwriter Barb Schloff, 8 p.m., Oct. 12, Damn Yankee. X1734.

endar

13 Saturday

Men's Soccer with Vermont, 10:30 a.m., Oct. 13.

Football with Rhode Island, 1 p.m., Oct. 13. Admission.

Women's Soccer with Connecticut College, 3:30 p.m., Oct. 13.

1990 Gala Benefit Performance with Works of Mozart, Beethoven and Dvořak, by the Czech Philharmonic, 8 p.m., Oct. 13, Hutchins Concert Hall, Maine Center for the Arts. Admission. x1755.

Comedy Series: Wendy Liebman & Nick Pipaolo, 9 p.m., Oct. 13, Damn Yankee, Union. x1734.

Spring Concert
8 p.m. April 12-13

Schoenberger Recognized by UM Faculty Senate

Walter "Bud" Schoenberger, foreground, addresses the University of Maine Faculty Senate following the reading of a resolution citing appreciation for his "able leadership, his support for an open and tolerant society, his concern for the faculty at this University, and his willingness to speak out on unpopular issues." Looking on are, center, Tom Christensen, Senate president, and Ken Hayes, member of Faculty Senate.

Photo by John Baer

The recipient of the University of Maine's first Distinguished Professor Award has retired from his position as professor of political science after 34 years at UM.

Walter "Bud" Schoenberger retired effective Sept. 1, and is planning to leave his extensive personal collection of books to Fogler Library.

Schoenberger joined the UM faculty as an instructor in history and government in 1956. He was selected as the first Distinguished Professor in 1963 and, six years later, published *Decision of Destiny*, a major study of the decision to use the atomic bomb in World War II. Known as a faculty member whose door was always open to students and as an advocate of student and faculty rights, Schoenberger has been an active and contributing member of the University community, especially in issues affecting faculty. He is one of the founders of AFUM.

He served on the Faculty Council and Council of Colleges, chairing the latter in 1980. For many years, Schoenberger was the "James Madison" of the University, according to his colleagues. He chaired the committees that wrote the constitution and bylaws for the Council of Colleges, and the constitution for the Athletic Advisory Board. Among his many appointments, he has been a University of Maine System Board of Trustees faculty representative and chair of the International Affairs Committee.

Throughout his tenure at the University, Schoenberger was the resident expert on international politics.

To my friends on the faculty, on the staff, and to students I have known over the years:

Thank you for making my stay at the University such a joy. Maralyn and I wish you happy days and warm nights.

Bud Schoenberger

Pluralism *continued from page 1*

ronment, and its approach to teaching, learning and research is encouraged to attend. Lick will make opening remarks at the forum, which will be hosted by Laverly and Suzanne Estler, director of Equal Opportunity.

"Pluralism is a celebration of who we are as individuals, as a campus and as a University," said Laverly. "We must respond to and take advantage of the diversity of our students, faculty and staff and to open ourselves to other valid ways of understanding, thinking and teaching if the University is to become a better marketplace of ideas."

Participation on the Council represents a chance to develop a vision for the community that will move the University into the next century and build an atmosphere of trust and respect where all dif-

ferences - cultural, religious, racial, gender and sexual orientation - can be explored, affirmed and accommodated, according to Laverly.

"If higher education is to be culturally relevant and prepare students to live fulfilling and effective lives in a culturally diverse world, curricula and university life must reflect and be enriched by the increasing diversity of our society," said Laverly.

The Council will be a working committee whose ongoing efforts will be aimed at encouraging and nurturing initiatives across the University, and assuring that pluralistic values have active impact in the University decision-making process. It will provide annual reports to the President that assess the status of progress toward the realization of a pluralistic

campus and recommend strategies and priorities for further action.

In its work, the Council will operate with the following definition of pluralism: "Pluralism as a social condition is that state of affairs in which several distinct ethnic, religious, cultural and racial communities live side by side, willing to affirm each other's dignity, ready to benefit from each other's experience, and quick to acknowledge each other's contributions to the common welfare. Pluralism is different from the contemporary concept of diversity in which individuals from various groups are merely present, just as it differs from the idea of integration in which minority individuals are asked, explicitly or implicitly, to abandon their cultural identity in order to merge into the majority community."

Marc Daenan, director of the Center for European Studies at the University of Limburg, will visit the University of Maine Oct. 15. He will present slides and answer questions about the University of Limburg campus located in Maastricht, The Netherlands from 1:30-4 p.m., South Bangor Lounge, Union. Administrators, faculty and students interested in English-speaking overseas programs including business, politics, economics, culture and Dutch language are invited to attend. There are openings in existing and new programs, and scholarships for University of Maine students are available. For more information, contact Diane Garsombke, 16 South Stevens, x1982.

The Credit Union will be closed for business Oct. 8 for Columbus Day. The drive-up will re-open for business at 7 a.m. and the lobby at 9 a.m. Oct. 9.

Fogler Library will be closed for the holiday Oct. 8 and will re-open 8 a.m. Oct. 9.

The Health Profession Office, located in 285 Aubert Hall, will no longer be covered by a clerical person on site. Anyone seeking assistance may leave messages with the Dean's Office of the College of Sciences by calling x3847.

The Environmental Studies Center is soliciting faculty proposals for its FY91 USGS Water Institute Program. Proposals are sought for research projects addressing program priorities below. Up to \$60,000 is expected to be available for work beginning June 1, 1991, terminating May 31, 1992. Funding is contingent on availability of appropriated federal funds. Applicants for funding must submit names and telephone numbers of at least six potential peer reviewers to the Center along with the title and a one-paragraph synopsis of the proposed project **no later than Dec. 5**. Full proposals are due to 11 Coburn Hall by **noon Dec. 14**. Proposal and budget preparation guidelines must be obtained from the Center, x1490. Research topics: storm-water runoff; surface and ground-water protection from mineral mining

operations; wetlands; water impacts of forest or agricultural practices; compliance with safe drinking water standards; other water-related topics of relevance to Maine or the region.

The Institutional Animal Care and Use Committee announces a newly revised Protocol Review Form to be used for all applications to the IACUC; there are no longer separate applications for research and teaching. Copies of the previous versions should be discarded. Copies of the new form can be obtained from the Office of the Assistant Vice President for Research, x1498.

The Classified Employees Scholarship Committee awarded 10 scholarships during the Fall 1990 semester. The recipients were: Heidi Boyle, daughter of Faye Boyle, Art Department; Wendy Cote, daughter of Brenda Cote, Geological Sci-

The Margaret Chase Smith Public Affairs Lecture Committee announces that Hedrick Smith, a well-known journalist and sovietologist, will present a public lecture at noon, Oct. 16 at the Maine Center for the Arts. Faculty and students are urged to attend. Smith's address, "Inside Gorbachev's USSR," is based on his recent extensive travels and reporting on events in the Soviet Union. Smith's documentary on the USSR aired last April, and his newest book, The New Russians, will be published by Random House later this year.

Smith received the Pulitzer Prize for international reporting for his coverage of Moscow and Eastern Europe in the 1970s. In 26 years as a New York Times correspondent in such world capitals as Washington, D.C., Moscow, Paris, Cairo and Saigon, Smith gained a reputation for sound, timely, analytical reporting of policy developments, and for fair-minded assessment of American politics through six presidential administrations. He combines a highly readable style with provocative analysis. He is a well-known and successful lecturer on public affairs.

ences; Lynn Hedman, daughter of Linda Hedman, Counseling Center; Wendy King, daughter of Veronica King, College of Business Administration; Toyna LaChance, daughter of Diana LaChance, Administrative Services; Debbie Oakes, daughter of Donna Oakes, Admissions Office; Jennifer Sirois, daughter of Kenneth Sirois, Public Safety; Michelle Steele, daughter of Sharon Steele, Economics Department; and Jan and Jill Vaillancourt, daughters of Doreen Vaillancourt, College of Engineering.

The Department of Foreign Languages and Classics will host a reception to honor Professor Robert Rioux, who retired after 31 years of service to the University of Maine at 3 p.m., Oct. 15, 207 Little Hall. Colleagues, students and staff who know and worked with Rioux are cordially invited to attend. Contact the Foreign Languages and Classics Office or call x2073 no later than Oct. 11.

International Friendship Family Program welcomes those who would like to extend friendship to an international student during the academic year. This is not a "live in" program and there is no financial responsibility. You would have the opportunity to make an international friend, learn about another culture, and offer your hospitality (a meal, a walk, or a conversation). Your friendship can make a difference. If you are interested in participating or if you would like more information, contact Nancy Anchors, International Student Office, x1285.

The Personal Growth and Development Center is a counseling facility provided by the Department of Counselor Education. The many services of the Center are to assist individuals in developing problem-solving skills, coping strategies and interpersonal skills to more effectively manage everyday problems. Individual counseling, couples and family counseling and personal growth groups are available. The Center provides services for part-time students, faculty, staff school and community agencies. For information about appointments and services, call x2499.

For the holiday season, the Hudson Museum will be hosting a special exhibit of children's toys from around the world. If you have toys from other cultures that you would be willing to loan for this exhibit, call the Museum office, x1901. Deadline: Oct. 26.

John M. Oak Tuition Scholarship Contest in Public Speaking is for full-time students with 60 hours of completed credits. The awards are tuition scholarship awards. First prize: \$200, second prize: \$100, third: \$75. Registration deadline: Oct. 12, Department of Speech Communication. Preliminary rounds: 4-6 p.m. Oct. 22; final rounds 4-6 p.m. Oct. 25. This year's topic: editorial speaking in which the speaker will refute some recent editorial they select.

The Northeast Archives of Folklore and Oral History will sponsor the "Traditional Culture in the Classroom" workshop, Nov. 17, 8:30 a.m.-3:30 p.m., at the University of Maine. The workshop is for teachers off all grade levels and will feature the use of folklore, oral history and the traditional arts in the classroom. Led by folklorists, oral historians and educators, the workshop will also serve as an introduction to a possible semester-long course at UM in the spring or summer, E.D.I.S.-C.E.U.'s available, \$15 tuition (\$20 at the door) includes materials and lunch. Contact Teresa Hollingsworth, Northeast Archives of Folklore and Oral History, South Stevens Hall, x1891.

Fifth Annual Maryann Hartman Awards Ceremony: 5-7 p.m., Oct. 11, Damn Yankee, Union. Reception follows. Admission: \$12; students free. The ceremony will honor Eunice Bauman-Nelson for her accomplishments in preserving Native American Culture; Kathy McInnis for her accomplishments as a disability rights activist; and Elizabeth Russell for her accomplishments in scientific research. The ceremony will be handicapped-accessible; a signer will be available. For more information, call the Women in the Curriculum Office, Shibles Hall, x1228.

The Faculty Research Funds Committee for FY 91 announces the following deadline dates: Regular Faculty Research Fund Award: Oct. 26; Summer Faculty Research Fund Award: Dec. 14; Scientific Equipment and Book Fund Award: Feb. 8; Presidential Research and Creative Achievement Award (nominations): March 20. A total of \$40,000 has been allocated for the Regular Faculty Research Fund Award (8-10 awards expected to be made); \$80,000 for the Summer Faculty Research Fund Award (16 awards expected); and \$38,000 for the Scientific Equipment and Book Fund Award (8-10 awards expected). For applications, contact the Office of the Assistant Vice President for Research, 201 Alumni Hall, x1498.

Mellon Fellowships in the Humanities will be given to 100 exceptionally promising students who wish to begin their graduate work in the humanities in fall 1991. These top-level awards are intended for students of outstanding intellectual promise who have genuine commitment to teaching and scholarship in the humanities. Fellowships include awards of \$12,000 plus tuition and standard fees for the first year of graduate study with the expectation of renewal. Students, either seniors or recent graduates, must be nominated by faculty. Deadline: Nov. 5, and early nominations encouraged. Brief nominating letters may convey just the student's name, college, current address, proposed field of study and current status as a senior or recent graduate. For brochures and additional information, contact: Douglas Allen, The Maples, x3866.

A Message from Office of the Registrar: Deadline for withdrawing from the University at the end of the first third of the semester is 4:30 p.m. Oct. 9. Students who are considering withdrawal from the University should report to Dwight Rideout, dean of Student Services, Union, for information about the correct procedure. Before making a final decision, however, students are urged to explore all possible options that might help them complete the semester. If a

student withdraws from the University during the first third of a semester, all courses for that semester will be deleted from the student's record and only an entry typed on the record stating that the withdrawal (and date) has been accomplished.

The Student Meeting and Conference Travel Fund (SMCTF) for undergraduate students will hold its first competition of the academic year. This fund serves undergraduate students who need financial assistance for travel to meetings/conferences of an academic nature. Applications must be submitted to the Office of Academic Affairs, 209 Alumni Hall, by Oct. 5. Money will be awarded for travel taking place prior to Feb. 8. Applications are available in the Office of Academic Affairs, x1547.

Co-Dependency Group: Who am I? How am I living my life? Am I repeating the same mistakes? Do I have low self-worth? Am I taking care of others rather than myself? Co-dependency is when you lose your sense of self as you become preoccupied in pleasing others. A new co-dependency group for UM employees will be held on Thursdays, 4:30-6 p.m., Oct. 11-Dec. 20, at the Employee Assistance Program office, 126A College Ave. It will be facilitated by an experienced therapist. Call EAP, x4014 for further information as number of participants is limited. Nominal fee.

"Take Control:" A New Approach to Weight Control. Have you tried diet after diet only to lose and then regain the weight? The purpose of the group is to teach you why you're overweight, and show you how to make permanent lifestyle changes to keep your weight where you want it. The program will be run by a registered dietitian from a local hospital. This group for UM employees will be held Oct. 11-Dec. 12. If this group seems to be of interest, call the Employee Assistance Program Office, x4014, for further information as number of participants is limited. Nominal fee.

Eldercare: How to Help You and Your Aging Parents. This group for UM employees is designed to offer members support while providing them with some direction in making important decisions for themselves and their elderly loved ones. There will be a facilitator trained in geriatric issues. The Eldercare Support Group will meet every other Thursday, 4:30-6:30 p.m., beginning Oct. 11, Cross-

land Alumni Center Lounge. Call the Employee Assistance Program, x4014, for more information. Nominal fee.

Surplus Sale: The University of Maine offers for sale on an as-is, where-is basis the following: (1) LARGE FLOOR SCALE, \$15; (7 boxes) SPIRIT MASTERS, for duplicator, FREE; (1) ENVIRONMENTAL CHAMBER, FREE; (5) COPYHOLDERS, \$1 ea.; (5) DESK CALENDAR

UM Hockey Ticket Distribution Schedule

Tickets for University of Maine Hockey games will be distributed on a first come, first served basis at the Information Center for Off Campus students, 9 a.m.-3 p.m., according to the following schedule. Students must present an All Sports Pass and a student I.D. for each individual ticket.

Nov. 12 & 13	Nov. 16 & 17	Alaska-Anchorage
Nov. 12 & 13	Nov. 23	Northern Michigan
Dec. 3 & 4	Dec. 7 & 8	Lowell
Dec. 3 & 4	Dec. 11	New Hampshire
Dec. 10 & 11	Dec. 21 & 22	Dexter Classic

University of Maine Department of Chemical Engineering Chair David Kraske details how a newly donated computer network will operate in the University's Pulp and Paper Pilot Plant. The IBM and Heuristics Inc., donation of \$600,000 in computer hardware, software programs and engineering support for education and research will be the key to a state-of-the-art data acquisition and analysis system in the plant, its product testing laboratory and newly equipped student computing laboratory. The plant uses a process called computer integrated manufacturing to link all production and product testing activities within the facility.

Off-campus inquires are welcome. Items usually sell for the prices specified, however, lower offers are sometimes considered. For further information contact Ron Logan, Purchasing Dept., x2692.

Positions

Advertisements for job openings to appear in Maine Perspective must be submitted to the Office of Equal Opportunity, 318 Alumni Hall, no later than noon Wednesday. Guidelines for filling professional positions, including forms for posting positions in Maine Perspective, are available by contacting the office of Equal Opportunity, x1226. A Request to Fill Form must be approved before posting in Maine Perspective (if not already approved).

Extension Educator, Somerset County, Cooperative Extension Service. Full-time regular position. Responsibilities: Develop, conduct and maintain educational programs in 4-H/youth in Somerset County, Maine. The educator will work with volunteers, volunteer groups, other educators, and the public to assess and address educational needs in a variety of issue areas such as aspirations and youth development. Qualifications: Master's degree required in a discipline such as education, youth development, environmental education, family life. Salary Range: \$22,854-\$28,227. Deadline for applications: Oct. 23. Start Date: Jan. 1 or as soon as possible. For further information and to apply, request application materials by Oct. 16. from: 103 Libby Hall, University of Maine, Orono.

Assistant Professor of Anthropology, Department of Anthropology. Tenure track position. Primary responsibility will be teaching two sections of a large introductory course covering all four fields of anthropology. Qualifications: Minimum requirements - three years full-time teaching experience, Ph.D. in anthropology, and demonstrated commitment to research. Salary Range: \$28,000-\$30,000. Review of applications will begin Dec. 5. Start Date: Sept. 1, 1991. For further information and to apply, send vita, list of references, and teaching evaluations to: James Acheson, Department of Anthropology, University of Maine, Orono.

Assistant Professor, Department of Economics. Tenure track position. Responsibilities: In addition to teaching responsibilities in the international finance area, the applicant is expected to be able to teach macroeconomics at the undergraduate and graduate levels. Depending upon the interests and background of the candidates as well as departmental needs, other courses may be part of the course load. Qualifications: Ph.D. in economics is required; ABDs will be considered. A research specialization is required in open economy macroeconomics, exchange rate determi-

nation and the balance of payments with a policy orientation. Review of applications will begin Dec. 1. For further information and to apply, send resume, and three letters of reference to: International Finance Screening Committee, Department of Economics, University of Maine.

President, University of Southern Maine. Full-time regular position. Responsible for all aspects of the operation as the chief academic and administrative officer of the institution. The president reports directly to the Chancellor of the system and serves as a member of the Presidents Council. Qualifications: A proven record of academic leadership and successful administrative experience; an established record of continuing scholarship; and an understanding of the objectives of a metropolitan, comprehensive institution. Review of candidates will begin in early November. For further information and to apply, send nominations and expressions of interest to: Patricia Collins, Chair, Presidential Search Committee and Vice Chair, Board of Trustees, University of Maine System, 107 Maine Ave., Bangor.

Assistant Director of Student Aid, Office of Student Aid. Full-time position. **Clarification regarding educational requirements:** Bachelor's degree required or extensive experience providing comparable background for the position with at least two years of related work experience. Applicant should have academic orientation and/or practical experience in human services.

The University of Maine does not discriminate on the basis of race, color, religion, sex, sexual orientation, national origin or citizenship status, age, disability or veteran status, and promotes affirmative action for women, minorities, persons with disabilities and veterans. Unless otherwise specified, the jobs are full-time, and the address for application information is: The contact person listed, department, University of Maine, Orono, Maine 04469. The listings above are greatly abbreviated. In order to assess your background relative to the job and to submit the most effective application, contact the hiring department for more complete information.

Along the Mall

Michael Greenwood, Ruth Hutchins Prof. of Tree Physiology and Forest Biology Dept. chair, gave an invited keynote speech, "A Physiological Understanding of Genetic Differences in Tree Growth," to the Plenary Session of the 11th North American Forest Biology Workshop in Athens, Georgia, Jun. 12-15.
