

Managing Electronic Theses and Dissertations (ETD) Data

Kayla Siddell

Indiana State University

ASIS&T Midwest Regional Conference

What is MetaArchive?

- MetaArchive Cooperative is a digital preservation network created and hosted by and for memory organizations

MetaArchive ETDplus

ETD +

- research data
- audio-video files
- digital art
- GIS datasets
- visualizations
- software code
- digital text

What is the ETDplus Project?

- Lifecycle Management of ETDs project to research and build tools to help manage a growing challenge in ETD programs such as the creation and submission of materials beyond the PDF of a thesis or dissertation.

MetaArchive ETDplus Aims to:

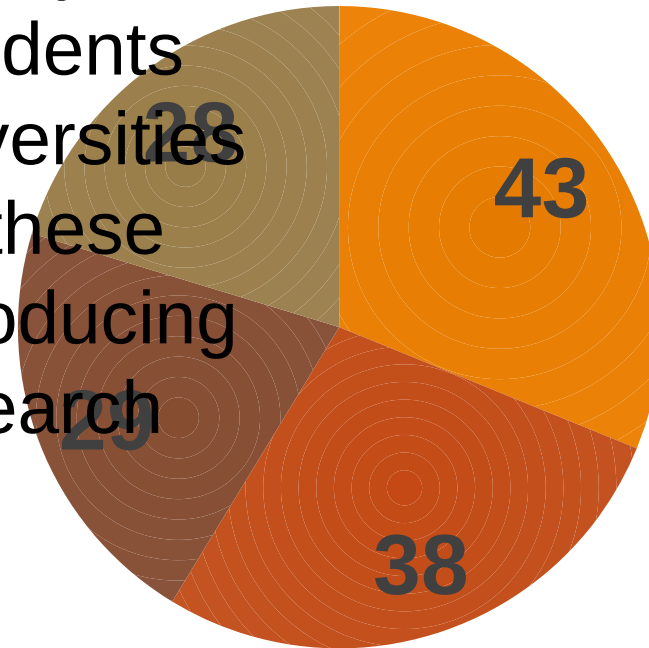

make an
INFORMED
DECISION

- In a 2014 survey of nearly 800 students across nine universities
- Fully 80% of these students are producing non-PDF research outputs

Percentage of data types

- tabular data
- digital images
- software code
- digital text

ETD+ Toolkit

Training students to manage ETD+ research outputs

The ETD+ Toolkit provides introductory training in a series of crucial data curation and digital longevity techniques. It has been designed as a training tool to help students identify and offset risks and threats to their digital research footprints.

Brought to you by Educopia Institute; funded by the Institute of Library and Museum Services.

What is the ETDplus Tool Kit

An open set of six modules and evaluation instruments that prepare students to create, store, and maintain their research outputs on durable devices and in durable formats. Each is designed to stand alone; they may also be used as a series.

What each module includes:

- Learning Objectives,
- A one-page Handout,
- A Guidance Brief that can be customized for your campus,
- A Slideshow with full presenter notes,
- An evaluation Survey.
- Each module is released under a CC-BY license and all elements are openly editable to make reuse as easy as possible.

Who it is for:

Getting Started

Begin by visiting: [https://
educopia.org/publications/etdplustoolkit](https://educopia.org/publications/etdplustoolkit)

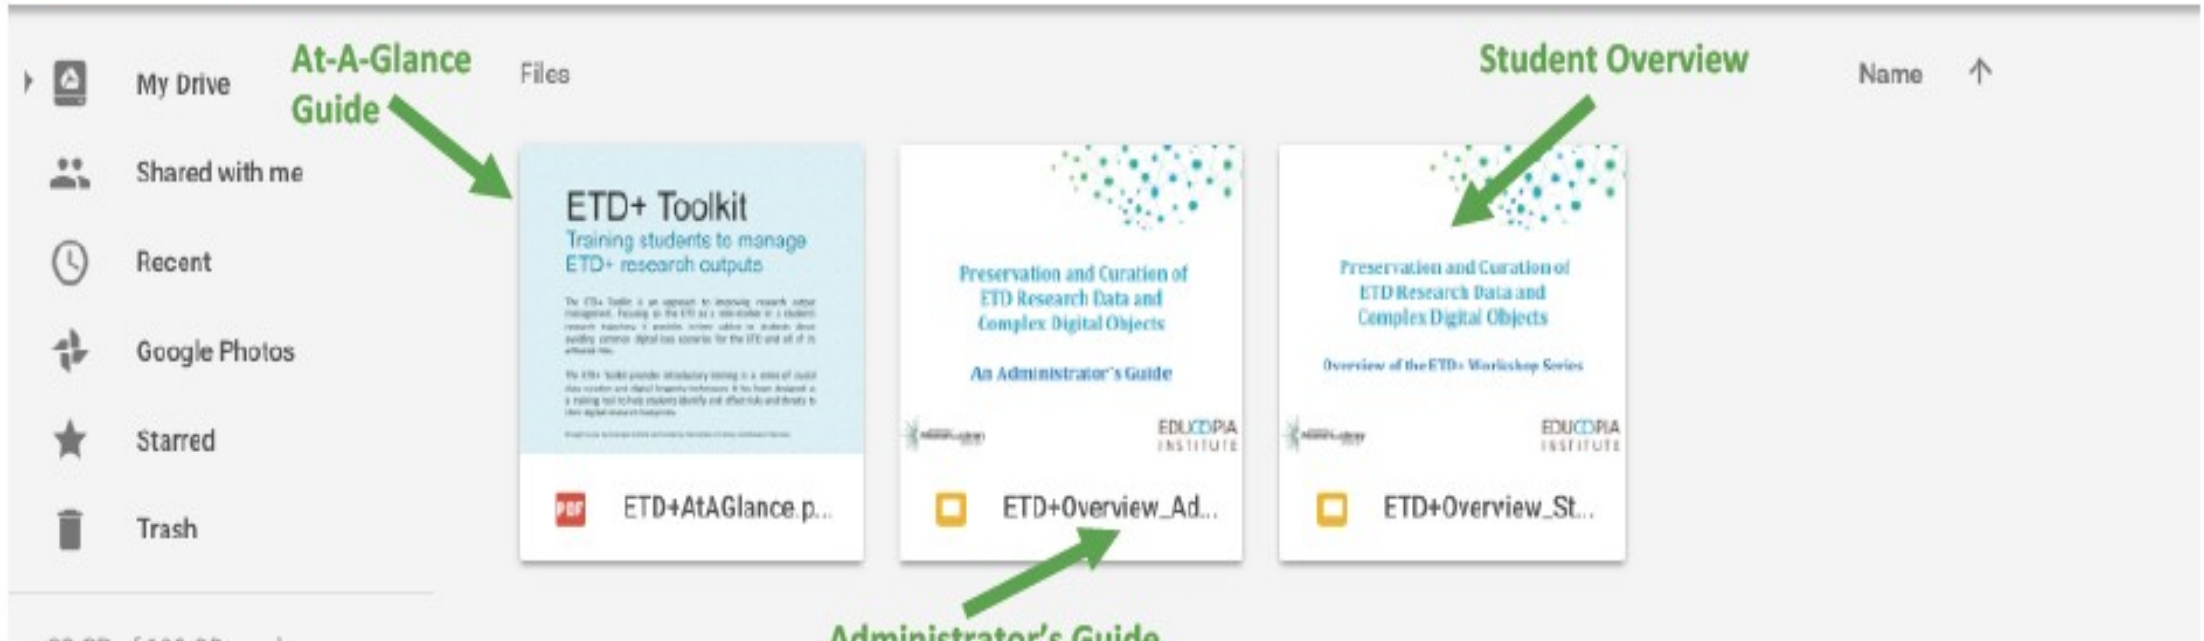

Select the **ETD+ Toolkit** link at the top of the page to access the Google Drive folder in which all of the ETD+ Toolkit materials are maintained.

Once you're in the Google Drive folder, you'll see seven folders—one "About the Toolkit," and one folder for each of the six modules.

Getting Started (cont.)

Each of these six modules is structured the same, with five key elements:

- Learning Objectives
- Handout
- Guidance Brief
- Slideshow (with full presenter notes)
- Surveys (pre and post)
