Build Units at Local Level

Quotes:

What Folks Say in or About North Dakota

"A dose of strychnine to the per-son or persons who are reportedly dishing it out to the pets of small boys." Corinne in Williams County Farmers Press.

Referring to the disintegration of the WPA dam south of Hazen---"If the government is bound to give away white elephants, it will have to include a generous supply of soap and brushes."--FJ.F. in of soap and prosser Hazen Star. * * *

"In the recent manhunt across the state for three Twin City Gang-sters", some folks see a reflec-tion on our North Dakota law en-forcement personnel. We cannot agree with this thought at all. In the first place those guys are not local products. Because the chase perflection on North Dakota authori-ties. Our police authorities and highway patrol in general are doing a good job."-S.H.F. in Har-vey Heralt.

"Questionable characters will be with us all summer during the dam constructions. Farm laborers are not always the best type of fellows either. Better be safe than sorry." —Tostevin in Mandan Pioneer.

"Chicago isn't what it used to be. Half a dozen Langdon people spent several days there recently and weren't even shot at once."—Cavalier County Re-

"Nine out of ten dust storms come from either the northwest, the come from either the northwest, the west or the southwest. So, we're seven miles from Canada and about thirty from Montana. Then why do we blame North Dakota for these wind and dust storms when they originate in either Montana or Can-ada?"—Divide County Journal.

Summer is the season "Summer is the season of 1-shirts and ice cream, vacations and fishing trips, heat and dust, rain and mud, gardens and lawna, but best of all it is a season in which you can look at the coal pile with a feeling of scorn and not apprehension."-Pat in McClusky Cazette.

"Naturally, we're a little more sensitive about these threats to crops here than they need be elsewhere. Simply be-cause our situation here has been almost ideal. It someone offers you a perfectly good \$10 bill you ensect it's are or offers you a perfectly good \$10 bill, you suspect it's a gag or that there's a joker that doesn't show. This growing season has been so nearly perfect that many a guy is wondering what devilment nature has in store for us at the end of the play." --Hornstein in Pierce County Terbung.

"Here is what Senator Billy Braun calls the Garden of Eden' business is good, bank deposits are at an all-time high, there's a building boom on, help is almost impossible to obtain, everyone is holding on to war bonds, crops look pretty good everywhere, folks just need about everything from clothes, furniture and household appliances to hook on the new REA line to cars and farm machinery."—Don Lum in Richland County Farmer-Globe.

"Maude Johnson, waitress at Zinke's cafe in Grafton, is being urged by her fellow workers to try out for the baseball team. Ever (Continued on Page Two)

Senator E. H. Brant of Em-Senator E. H. Brant of Em-mons county, one of the war horses of the organization, is back in harness as state ROC chairman following his re-elec-tion by the state committees of 61 on July 7. Chairman Brant, who lives at Linton, in accept-ing the office again, declared sound ROC policies are certain to carry the organization to vic-tory in 1950.

Yes, Virginia, there is a Santa Claus—the oldtime editor told the little girl in a famous editorial. We also have Santa with us today, with also have santa with us today, with something for everyone in his big federal sack. For the producer, more money for his crops; for the consumer, lower cost for his food; for the taxpayer—more taxes.

Embittered Paul Robeson, poc-kets full of U. S. cash, prefers Russia but retains his U. S. citizenship. Perhaps too much attention has been paid to the singing red.

"The faith and industry of our people, developed thru our system of free enterprise, has paced the world spiritually and materially," Jim Farley told N. D. Elks. Which shows how far Jim has strayed from the new deal line.

The Coplon trial in Washington might have been named "A Date With Judy." And Alger Hiss has a name appropriate for the villain in an oldtime melodrama.

Several North Dakota sports writers take up their pyrotechnic pens against traveling baseball clubs. Why do they abet those atrocities which have been called wrestling matches? Old Doc Talley and his whiskered pepper game surely have more on the ball than the barnatorming troupes of Abe Kasheys, Dirty Dicks, Roughhouse Coxes, Gorgeous Georges and Na-gurskis.

An "orange" car reportedly had an accident near Stanton. On the premise it might be a highway car, the ROC Messen-ger seems to be blamed for the episode by a widely unread po-litical weekly published locally. Think nothing of it—just some more screwy thinking.

The socialistic Labor government in Britain faces a sea of troubles; the socialistic C.C.F. party in Can-ada makes a sorry showing at the polls. Does the trend indicate that common sense is on the way back in the world?

Precinct, County Organization Work Planned by Committees; E. H. Brant Elected Chairman

Bismarck-The Republican Organizing Committee, according to unanimous decision made here July 7 at a meeting of the state committees of 61, at once will begin organization work in the precincts and counties in preparation for the 1950 campaign. It was recommended by the meeting that two field men and a woman organizer be put to work, when and if funds are available, to operate at the local level.

Senator E. H. Brant of Emmons county returned to his former post as ROC state chairman, elected by unanimous and standing vote. The Linton man had resigned his office, but not his place as a worker in the ROC organization, on Feb. 19. Mrs. Ray D. Young of Fargo was named unanimously as chairman of the women's division of the enlarged committee. She had served as temporary chairman since the statewide ROC meeting held in Minot April 3.

The July 7 meeting, held on a date when many farmers were busy with their work and when business and professional men often take vacation trips, found an unexpectedly large attendance from 39 counties or districts. The 91 present came from all sections of the state—from Pembina to Williams county and from Richland to Billings, indicating the wide interest in the ROC even in an off-election year. The amazing representation, said ROC veterans, was unparalleled in past off years in organization history.

At the Meeting

government.

An inch of rain fell in the Bis-An inch of rain feil in the Bis-marck area just prior to the meet-ing—and the temperature dived sharply from a muggy 90 to a cool, comfortable 65. "ROC weather" was the comment of committee mem-

For the third time in 1949 there was a rush to get more chairs for an overflow meeting but in quick order all were made comfortable. The attendance of more than 90 was about double the expected figure.

Young Republicans were deeply interested, with the oratorical ball being carried by George Longmire of Grand Forks, past state chair-man of the XF; Leotis Vaaler of Kemmare, delegate to the recent YR national convention; and Ulric M. Gwynne, jr., of Minot, state presi-dent of the Jaycees. Young Republicans were deeply

Several familiar faces were miss-Several familiar faces were miss-ing around the conference table-detained by business affairs or ab-sent from the state. Among the absent were Milton Rue, A. R. Bergesen, Joe Bridston and Arthur Tweet.

Contributions to the ROC 1949 operating fund began coming in heavily the very day after the

Chairman Brant already has be-gun studying the appointment of five to the platform committee. His first task was the selection of two representative farmers he will name ong the five.

Many of the committee members drove between 200 and 300 miles for the occasion. Several of them returned home after the meeting adjourned tho it then was 10:40.

Eighty or 90 per cent of the Young Republicans in North Da-kota are "with the BOQ." said George Longmire of Grand Forks, past state chairman of the younger organization.

Stimulating to the membership was the keen appreciation in the ROC sound government apparent on the part of Young Republicans and women workers present. Nearly a score of legislative districts were represented by women or Young Republicans, eager to take active parts in the campaign.

In the campaign. The statewide meeting mandated Chairman Brant to name a committee of five to start work on drafting a platform to be submitted to the state committees of 61 at a later strategy session. The proposed platform or statement of policies three would be prepared for submission to the ROC state convention next spring for ratification or revision.

George Longmire, Grand Forks state's attorney, who made the motion, was assured by Brant that at least two farmers would be named on the platform study committee.

named on the platform study committee. It was decided by the assemblage that the new committees of 61 would work in unison with the state advisory committee of 27 set up by a previous convention until committees are established officially by the next convention. It appeared that there had been different interpretations of the action of the April meeting in setting up the new committees and it was the concensus of the Bismarck meeting that all elected to membership on committees would serve together. Thus members of the official committee of 27 also may serve on the enlarged committee.

"We are just one big family working in harmony in the cause of good government, and each and everyone is welcomed to serve in the effort to support our principles," said W. M. Smart of Minot, ROC executive secretary."

Both Gov. Fred G. Aandahl and Rep. Edwin G. Sailer of Mercer, ROC treasurer, cautioned the committees that prompt raising of funds for the present year's program will be necessary to make it effective. County quotas have been set, Sailer said, on a fair basis which will create no difficulty in collecting the necessary funds.

No Advertising Accepted

No Advertising Accepted The committees voted decisively against acceptance of paid adver-tising in the ROC Messenger, speakers pointing out that the publication should avoid any and all tieups which might lend to any intimation that the Messenger could be subject to outside influence. There was no discussion at any time during the meeting of any available or potential endidates for office at the next election now in the offing. Corridor and hotel room conversations before and after the meeting weighed the chances of many leaders toward obtaining the gubernatorial indorsement at the spring convention and all agreed there is a wealth of capable material for state and national offices. It was remorted at the meeting that the oncetion.

is a wealth of capable material for state and national orders. It was reported at the meeting that the opposition—Farmers Union at present aligned with the Nonpartisan League—will concentrate its efforts toward obtaining control of the legislature and several speakers pointed out that 10 or 12 legislature seats were lost in 1948 thru lack of intensive effort and perhaps over-confidence on the part of the ROC.

Those seats were lost by margins of seven to 60 votes, it was pointed out by Smart of Minot, and there is an excellent chance that all and more will be recaptured in 1960. Sees Victory in 1950

The membership present, militan and already highly confident of success at the 1950 polls, was further electrified by the forecast of Gov. Aandahl that 1960 will bring the ROC the most sweeping victory in the history of the organization.

"I want to say that I feel this has been a very wholesome get-together," said the governor. "The number of folks who have come here from all over the state indicates there is considerable enthusiasma all over the state. In 1948, too many people had too much confidence in the strength of the ROC and did not feel it was necessary to get out and work.

"The scare that we got in 1948, and probably the damage wasn't much more than a good scare, has helped to strengthen our thinking on just that particular question.

FIFTY YEARS AGO Jamestown—Fifty years ago ac-cording to an old account book kept by George Berg a pair of shoes cost \$1.80, a suit of clothes \$7.80, pair of rubbers 57 cents, cap 40 cents, pocket book 40 cents. But Berg worked for a general stor at \$25 per month. "I feel there is a stronger possi-

Success in Traill

Success in Trail In further discussion of organi-zation work, H. B. Knudson of Traill explained the successful operation as handled in his county, pointing out that the top organiza-tion includes the chairman, vice chairman, secretary-treasurer and members of the house and senate, as well as a finance committee members of the house and senate, as well as a finance committee. Then with 14 fellows to depend upon, the work gets done. He pointed out that in every election, Traill has come thur for the ROC. Knudson continued: "I feel as many of you do here the important job. Without state he dequarters, we would be lost. All in all, with a good county organi-

zation I think we have something that the opposition doesn't have, because we represent all of the people in the counties, in the cities and communities, and not just one particular group."

particular group." A discussion of the use of guide cards brot advice as to the proper time of issuing the cards, personal contact to get them into the voters' hands and general insistence that the guidecards must carry the names of local legislative cardi-dates. Among many speakers on the guidecard question were Knudson, Allen, Smart, Sailer, E. S. Evenson of Dunn, R. R. Cothus of Nelson, E. G. Langley of Towner, Mrs. J. B. Cooley of Minot, Longmire of Grand Forks and Leotis Vaaler of Kenmare, national committeeman Kenmare, national committeeman for Young Republicans.

Prompt Action

Immediate action toward organi-zation was urged by Mrs. J. B. Cooley of Ward who said: "We will have to organize not

Cooley of Ward who said: "We will have to organize not only the women but the men the same way and have an individual in each locality and precinct two or three days or a week before the election to talk to every person; then when it ensure the backing day election to talk to every person; then when it comes to election day, I think well of the Stutsman plan of taking people to the polls. I think we should start the day be-fore and arrange with people to take them to the polls and see what time they will be ready and see that they get out to vote. It must be done in person—go into the counties that are not so active and help all we can all the way down— I think a start on this plan should be made immediately." Said Vanler of Ward: "One of the

Said Vaaler of Ward: "One of the best ways to get money is to get men and women, four or five-they don't have to be ROC members but -and get them interested. I cover just the wealthiest but the farmer and the working Don' Get whatever he wishes to contribute and then he feels he is part of the organization."

Scan Candidates

Scan Candidates "We should scan our potential candidates for the legislature not just a month before election, but a year before election," and Morton county four legislative candidates plan to take a week before election and contact every person in the county if it is possible. I believe it is a good idea to have the precinct committeemen on our ballots. In expanding the mailing list of the Messenger, I believe copies should be sent not only to all barbershops but to all hairdressers."

but to all hairdnessers." Senoto Strand said that in his our county district, an organizer could be used to advantage in at least two of them, while Evenson, perpenditude the governor appear in at least that the governor appear in the straight men, holding up fristad as the type of man needed in the organization. He also called upon all county chairmen to revise and type the source of the Messenger mailing its which have been sent to them and to mail them to state beadquarters. Sailer urged one balaced on each county committee and source thairmen of each county county quotas of funds be effected. "The that that work be done by haded to that prompt raising of county quotas of his committee," added to the source of the dessenger maintee has an important job m seeing that that work be done by the ded that collection of funds will stimulate your committee and and." **Dan Went N Field**

Objectives for Tourists

New Memorial Park But One of Many Attractions For Visitors to State

By M. J. CONNOLLY

The recent dedication of the Theodore Roosevelt National Memor-ial park, conducted so successfully and with tremendous crowds evidenc-ing the great state and national interest in the devolpment, definitely gave North Dakota a real tourist objective.

And there are other real objectives in the state to attract the tourists which throng the nation's highways. Smart tourists visit the state capitol, one of the three in the nation which is really modern, and which is 83 per cent efficient as far as

space is concerned.

Close by the capitol is the original Roosevelt Maltese Cross ranch-house, which was viewed by a million people at the world's fair in St. Louis.

Dam and Garden

Dam and Garcea The State Historical Society has exhibits which are educational and entertaining. Students of the state can well spend hours there. Across the river and south of Mandan is restored Ft. McKeen and the ancient agricultural Slant Indian village with a museum filled with interesting artifacts

<text><text><text><text><text><text><text><text>

Stockmen Oppose Brannan Plan,

Park Expansion Minot-Opposition to the Bran-nan plan for agricultural legisla-tion with a preference for the agri-cultural act of 1945 was expressed in a resolution adopted by the North Dakota Stoekmen's association in convention here.

The subcomen in resolutions also registered opposition to further acquisition of land by the federal government and went on record against further enlargement of Theodore Roosevelt Memorial National park.

The pertinent resolutions, among others adopted, said: "Whereas, the members of this association believe the agricultural act of 1948 to be the best long range program yet adopted by our

range program yet adopted by our congress: "Therefore be it resolved that the agricultural act of 1948 be con-tinued in preference to the pro-posed Brannan plan." "Whereas, the federal govern-ment now owns over 24% of total area of the entire nation, and "Whereas, the government now owns over 50 per cent of the area of the western states, now there-fore

owns over 50 per cent of the area of the western states, now there-fore "Be it resolved, that we are op-posed to any further acquisition of land on the part of the federal government." "Whereas, Secretary Krug of the department of interior has ex-pressed his belief that the Theodore Roosevelt Memorial National park should be enlarged to include the area along the Little Missouri val-ley between the park area north of Medora and the area south of Watford City, and "Whereas, this area includes some of the finest farm land and grazing land in western North Dakota, and "Whereas, the present park area

Dakota, and "Whoreas, the present park area is large enough to serve all prac-tical purposes, now therefore "Be it resolved, that we are op-posed to any further enlargement of the present Theodore Roosevelt Memorial National park."

qual in public interest that second Peace Garden started west of Glac er National park.

But North Dakotans do not need to await an appropriation from congress to learn about the real beauty spots of the state. All they need do is to hop into their cars to discover the beautiful lakes in the Turtle mountains, to view the coloring when frost touches the Pembina mountains, or on the river drive from Mandan to Ft Yates, or in the Ft. Clarke community. But North Dakotans do not need

Spots of Beauty

Spots of Healty There are hundreds of beauty spots along the great Missouri as well as the Little Missouri and 22 state parks and a couple of national monuments in addition to the Theodore Roosevelt National Memorial park.

Memorial park. It is time more of us knew more about our own state. Of course, we didn't have to dedi-cate the Roosevelt National Mem-orial park-the park had been in operation well over a year before the formal dedication ceremony was held June 4. And last year 25,000 persons visited the beautiful and historic former Badlands home of the late president. But on June 4 nearly twice that number of people visited the park in one day. Biggest at Any Park

Biggest at Any Park

Advertising brought the crowd. Julius R. Krug, secretary of the department of the interior, de-clared to his knowledge it was the G. Simpson, University of North Dakota, said: "Every con-

state. The press of this state and other states cooperated, and because of the fact that a member of the pres-ident's cabinet was brought here for the event, a half hour of time was secured over the NBC net-work, in addition to time donated by local stations in four states for the full hour and a half program. And the sneeches were reprinted in And the speeches were reprinted in the Congressional Record.

Home Appreciation

But perhaps of greater value than the national advertising se-cured, was a new appreciation on the part of North Dakotans that there is scenery in this state worthy of being set aside as a national park.

They also know now that this is the only memorial national park.

When members of the American Legion Auxiliary accepted the task of selling commemorative buttons, they did a good job in selling a great scenic area of the state.

great scenic area of the state. "In 1912," Prof. A. H. Yoder of the University of North Dakota wrote, "40 of Europe's ablest geographers accompanied by 500 scientists from America's leading universities spent two months in a transcontinental excursion." Envil Cheir, professor of each

Emil Chaix, professor of eco-nomics and political geography, wrote, "We have had no day in Yellowstone to compare with the day spent in the Badlands of the Little Missouri."

Alan Grant Ogilvie, lecturer University of Oxford, a fore-most geographer of Britain said, "The day spent in the Badlands was the finest of my life.'

William H. Davis, Harvard uni-versity, said, "Take this back to the people of North Dakota. The European geographers are almost unanimously of the opinion that the day spent in the Badlands of the Little Missouri was the finest they had in the month spent in crossing the American continent."

biggest crowd ever to attend a ded-ication of a national park. Senator Milton R. Young writes: "Krug was truly amazed. He also mentioned that when President

North Dakotan did not have to dedicate the park, but the job done was so outstanding that it is bound to have an effect upon the number of visitors in the future.

Truman dedicate. park in Florida only about tettended." But the park did not have to be dedicated. The Greater North Data to have an effect upon to share at \$30 out to have an effect upon to share at \$30 out to have an effect upon to share at \$30 out to have an effect upon the year a \$16 billion industry. Holiday Magazine a year ago esti-mated North Dalota's share at \$30 million of two for one of the 48 states, the efforts spent will be worth while. Promotion Needed

It took several years of promo-tion before Yellowstone National park entertained a million visitors in a short season.

in a short season. Only a start has been made on the T. R. park. Phelps Wyman, the landscape architect, hired 25 years ago to designate the portions of the Badlands which should be in-cluded in a national park, advocated the building of park highways from Marmarth to Watford City, with drive-ins and lookouts at points of interest, such as the burning coal mine in Slope county. And of course, hotels and motels must be con-structed to care for the visitors within the park area or close to this coming tourist attraction. this coming tourist attraction.

As the development of the T. R. park and our many other attrac-tions progresses, both North Da-kotans and our guests will show greater and greater appreciation of what the state has to offer the tourist

The rivers of traffic which each summer throng our main highways then will be diverted more and more toward enjoyment of North Lee was installed as president of the Williston Lions club. He suc-caeded George Harvey. Lee is a historical features, for the in-creased pleasure of everyone.

It's a Teddy Roosevelt year in North Dakota, with his former Bad-lands home in the Roosevelt Mem-orial National park being visited by record throngs of tourists. The picture above of Roosevelt ready for the range or the hunt, astride a sturdy mount, posed against the Badlands landscape, is perhaps the best of all pictures of the Rough Rider in the mid-sighties. Oliver and Mercer for 1,850 ft. Level

Hazen—One hundred Oliver and Mercer county farmers unanimous-ly adopted a resolution favoring the 1880-foot level of the Garrison reservoir at a meeting at Hazen.

"The politicians who say farmer favor an 1,830-foot level for th

"The politicians who say larmers favor an 1,830-foot level for the Garrison reservoir are not speaking for the farmers around here," F. J. Froeschle, Hazen Star editor, quoted one farmer as saying. Another farmer, according to Froeschle, expressed the opinion that, "So far we've given up 80,000 acres of Mercer county's best land for the Garrison dam, Let's not lose the only hope for future bene-flis the dam can offer us." Most of Mercer county is below the 1,350-foot level, but a ridge at 1,900 feet separates the county from the fature reservoir. The hope was expressed that water may someday be pumped or siphoned over this ridge to provide fassible types of irrigation for much of Mercer county.

Work Wins Elections

286

Work WINS Liections The ROC state committees of 61 have held the first state-wide meeting, while a spirit of determined confidence hovered over the discussions and optimism and enthusiasm fairly exuded from the audience as speaker after speaker looked toward 1950. The same situa-tion prevailed at previous ROC meetings this year. Sound decisions were made in Bismarck July 7—to start precinct and county organization work at once and to encourage the volunteered support of Young Republicans and women of the state. Those groups perhaps look with brightire eyes toward the future and thus lend more vigorous action to the campaign which faces the sponsors of sound government ideas. But the old formula remains—ti takes work to win elections, work and finances which are closely coupled in any campaign. Onfidence

But the old Jornua remains—it takes work to win elections, work and finances which are closely coupled in any campaign. Confidence and enthusiasm will not bring the victory ribbon to ROC hanners unless they are accompanied by a copious amount of sweat. Personal contacts with the voters are important in harvesting votes—and also such contacts will prevent confidence from becoming over-confidence,

No Service Is Free

The English government provides free dental service and a lot of other so-called free things that certain groups are trying to put across in this country, but the income tax rate necessary to pay for it is enormous. The word "free" in connection with any paternalistic program is a mockery. Everyone with a grain of common sense knows there is no such thing as free service. It all has to be paid for by the worker who not only pays for his own service, but also, through taxes, the service for two or three others., Bichland County Farmer-Globe.

Sellers Market for Bonds

Sellers Market for Bonds Treasury department officials pushing the sale of U.S. savings bonds in North Dakota point to income tax statistics to support their contention that bonds should sell easily in this state. For example, they point out that farm income increased 42 per cent in North Dakota from 1946 to 1948, according to the department of agriculture. Department figures show farm income was \$512,000,000 in 1946 and \$726,000,000 in 1948. The same two years. In the same years, personal income tax payments jumped 52 per cent, according to the internal revenue bureau. The same two years. In the same years, personal income tax payments jumped 52 per cent, according to the internal revenue bureau. The Ministry of the same years of the same years, personal farm income tax are manueated to figure was only 25 per cent and for South Dakota's twas 38 per cent. The percentage of increase was 46 as compared to Minnesota's 1948 revent and South Dakota's 22,—Valley City Times-Record.

Last Hymn for Uncle Joe

Last hymn for Uncle Joe Taul Robeson, the famous colored bartione, recently returned from Soviet Russia, while addressing a group of persons at a welcome-home rally the other day, stated that he loves the "Soviet people more than any other nation." This is rather a blunt statement for Robeson too make in America, the country that made him what he is. I wonder if Robeson would have had the opportunity to develop his vocal talent in Russia, the same as he has in the United States. The Tribune editor doubts very much that he would, It is just too bad that America has to tolerate people of the Robeson stamp. Now that the wedding is over, and his son has a white wife, it would be a good idea if Robeson would return to his much loved Russia. No doubt it would be a highly appre-ciated honor if he were permitted to sing the final hymn and holw Taps when Uncle Joe passes on. America doesn't need and has no place for men the stamp of Robeson. We have many other good American bari-tones to take his place.—Bowbells Tribune.

High Brass Paid Enough

At the present time there is a bill before congress to raise the pay of practically all personnel in the U. S. armed forces with the greater percentage of the increase going to the higher ranking officers. We do not favor this bill and believe that congress should vote it down. In the face of world conditions, we believe that our lawmakers should maintain our strong armed condition and that we should motion darger in going too far in allocating money for military men as there is in voting too little. Insofar as the present raises for the individual military men are concerned, we believe there are justifiable arguments for and against the measure. Without a doubt many good men leave the armed services

is in voting too little. Insofar as the present raises for the individual military men as there concerned, we believe there are justifiable arguments for and against the measure. Without a doubt many good men leave the armed services because of inadequate pay. Along the same vein, however, there are many in the army or navy who do not justify their present pay. It is a fact, as many a former army or navy man will testify, that after the recent war the least capable and least ambitious were more prone to remain in peacetime military service. We believe, however, that we should have a dollar's worth of defense for the dollar we earn and give to the government for this purpose. —D. J. Shults in Adams County Record.

Chaos and Fear Seen by Lemke; **Congress Notes**

We live in a world without a radder. There is chaos and fear in every nation of the world. There are runnors of war, runnors of com-munistic threat and runnors of imperialism. Let us pause for a moment and find out what brought about this untenable situation-this condition of confusion, revenge, hered and fear. hatred and fear.

Thated and fax. We are responsible for the pres-ent conditions because our Presi-dant followed the revengeful and hateful doctrine of Morgenthau. We were responsible when we de-manded unconditional surrender in place of a negotiated peace of com-plete disarmament and justice to all nations. We were responsible when we continued giving aid and assistance and participated in the unlawful execution of war prison-ers....

Back to Lincoln

Back to Lincoln Now we are confronted with the reality of how to get out of this situation. Let us go back to the noble sentiment expressed by Abraham Lincoln. Let us under-stand clearly that there can be no peace as long as half of the world is arming against the other half. There can be no peace as long as imperialistic nations are at large. It makes no difference whether it is communistic imperialism or capi-talistic imperialism.

The house by an overwhelming majority passed the Rankin pen-sion bill. We are getting tired of committing national suicide by squandering our wealth and deplet-ing our natural resources for for-eign mations-for people who do not understand our motives and mistake our charity for imper-ialism. ialism.

These people accept our charity with one hand and are getting ready to battle us with the other. We are reliably informed that we are fast beco-ler ever was ing as hated as Hit

Among these are the reds who have no other design than to bleed us white so that we will be easy prey for Stalin and his gang when our re-sources are finally depleted.

We will shortly be called upon to spend billions in rearming half of the world, thus assuring World War III.

War III. There are bills introduced to out-law so-called Russian communists. However, we know that you can-not stop people from thinking by passing a law. That is not the way to stop treasonable teachings and propaganda. You cannot, by law, stop people's brain cells from oper-ating. ating

Truth Will Prevail Let us teach the truth, and then only those who are mentally de-fective would want to surrender our government for Russian dif-tatorship—liquidation and enalave-ment. Let's give a little more pub-licity to the fact that Russia has millions of her own people in con-centration camps—a little more publicity that she has destroyed by starvation millions of war prison-strong the source of the publicity that she has destroyed by starvation millions of the source of the

In the meantime, we are continu-ing our stupid foreign policy—the policy of an international WPA. President Dutra is in the country for a weekend. I am wondering whether he is here to play us for a sucker the same as the European and other Latin American nations have done, or whether he is here for sincere friendship. Time will tell.

simply a medium of exchange—a yardstick with which to get wealth.

On our domestic front, nearly every person is talking economy, but economy at the other fellow's expense. Each one seems to be un-willing to economize on any pro-ject he is interested in. It is not uncommon to receive a telegram in the morning from state or city official asking us to support some particular project or to get federal aid for some particular project, and in the afternoon get a tele-sram from the same individual ask-ing us to balance the budget.

It's in the air—slum clearance. The housing bill just passed by the house will not clear many slums, if any. Let us make clear that under this bill, the government will build second class slums with the tax-payers' money and the real slums will increase faster than they can build the second class ones. The people will be taxed \$400,000,000 a year so that some politicians can

people will be taxed \$400,000,000 a year so that some politicians can build political slums.... The public conscience in Balti-more has discovered that a city, that has a right to tell you where you can build and what you can build, has also a right to say: "There shall be no slums within our borders." Baltimore has discovered that as a city it has the right to insist that all buildings used for the purpose of habitation or rental must Nearly everyone expects to get something without effort — for you can build and what you can build, has a right to toll you where you can build and what you can build, has also a right to say: "There shall be no slums within our bot forgets that the dollar has as compared with the 100-cent dol-lar of a few years ago. The truth is that money is not wealth, but

Paid by N. D. Bismarck—With state adjusted compensation checks now going to World War II veterans in North Dakota, veterans organizations are quick to point out that the N. D. bonus is the most liberal being paid

Tops in Bonus

bound is the most liberal being paid in the United States. The vets' compensation in this state is \$12.50 per month for domes-tic service and \$17.50 for oversees service with no maximum set. Any man or woman is eligible who served for 60 days during the period from Jan. 1, 1941 to Jan. 1, 1946, a longer period than provided by most states. Also the amounts, con-sidering the lack of a maximum limit, are the highest yet voted. Last Bill Passed

Last Bill Passed

limit, are the highest yet voted. Last Bill Passed The state bonus was provided for in two bills which passed the legis-lature at the 1949 secsion, Senate Bill No. 1 and Senate Bill No. 2. The bills, one to arrange the me-chanics of operation and determines who should receive the payments and the other to raise the finances, were drawn by the interim legis-lative research committee, and the eventual laws followed closely the pattern of the twin bills. The finance bill, Senate No. 1, was the last bill passed before adjourn-ment, delay occasioned by the fail-ure of conferees from the League house and ROC senate to agree on certain provisions of financing. Sittee house bills and North Dako-ta's liberality toward the geterans is shown by comparative figures in states where houses have been paid or are being paid.

CONNECTICUT-\$10 each tonth of service; maximum \$300; tinimum of service 90 days.
