

Bangalore fast losing its attraction: Tata

BANGALORE: Chairman of the Tata Group of Companies

Ratan Tata

Ratan Tata on Thursday said the attraction of Bangalore as the high tech city is on the decline and Hyderabad was fast emerging as a computer city.

"What is the attraction of Bangalore? Companies are moving towards Hyderabad," Mr Tata told PTI here when asked about the poor response to the International Technology Park Limited

(ITPL) set up by the Tata Group in collaboration with the Karnataka government and a consortium of Singapore companies.

Mr Tata's response comes in the wake that only 30 per cent of the total offered space of the ITPL commissioned last year was sold, despite serious marketing efforts, and even Microsoft has decided to set up its facility at Hyderabad.

About the Tata-Raytheon International Airport project, he said the technofeasibility study of the project was over, and final clearances were expected from the new government. — PTI
