Student Publication of Pan American University

EDINBURG, TEXAS

AUGUST 4, 1976

Vol. XXIV No. 1

COLORFUL LA-On the outside, the newly-completed Liberal Arts Building may look much like the other buildings on campus, but on the inside, an interesting color scheme, among other attractive features, distinguishes it from the rest. The building will be ready for student use in the fall.

Off Campus Courses To Be Available Again

Resident credit courses that count toward any degree or certification will be offered off-campus this fall at eight centers in the Rio Grande Valley.

The courses offered at PSJA, McAllen, Mission, Weslaco, Mercedes, Harlingen, Port Isabel, and Rio Grande City-Roma will be evening classes held basically for teachers and teacher aides who are unable to attend on-campus courses.

Off-campus courses offered next semester are Ed. 6324 Second Language Teaching, Ed. 6309 Topics in Reading, Ed. 6302 Advanced Educational Psychology, Ed. 6336 Problems in Education, Ed. 6308 Foun-

dations of Reading Instructions, Ed. 6306 Supervision of Student Teaching, Ed. 6394 Psychology of Decision Making, Ed. 6300 Graduate Orientation, and Ed. 6397 Analysis of Teaching Behavior at PSJA.

Courses being offered at Weslaco are Ed. 6306, 6300, 6336, 6308, 6302, 6397, (see above for course name); Ed. 6319 Practicum in Bilingual Education, Ed. 6388 Socio-cultural Foundation of Education, Ed. 6393 Administration of School Staff Personnel, Ed. 6385 Public School Law, Ed. 6322 The Bilingual Child, Ed. 6324 Second Language Teaching, Ed. 5319 Test and Measurements for the Elementary Teacher, Ed. 6371 Practicum in Supervision, and Ed. 6379 Problems in Educational Supervision.

Education 6309, 6319, 6306, 6336, 6300, (see above for course name), Ed. 6384 Introduction to Educational Administration and Ed. 1651 Workshop for Teacher Aides will be offered at McAllen.

Mission will offer Education 6388, 6336, 6306, 6300, 6393, 6397, (see above for course name), Internship in Middle Management, Ed. 6327 Social Studies in Elementary Schools.

Course offered at Mercedes are Ed. 6336, 6308, 6309, 6319, 1651, (see above for course name), Ed. 6335 Teaching Elementary School Subjects in Bilingual Schools, and Sociology 5353 Stratification.

Rio Grande City and Roma will unit to offer the following courses—Ed. 6309, 6324, 6336, 6300, (see above for title name).

Early Classes

To Continue

Fall semester classes will begin at 7:45 a.m. to alleviate traffic congestion in the 8 a.m. rush, according to Dr. J. C. Nichols, vice president for Academic Affairs.

Although classes were held at this time on experimental basis during the summer sessions, Dr. Nichols commented that the morning traffic in the summer does not compare to the regular school term and a longer period is needed to determine if it should be placed on permanent basis.

"We need the fall semester to find out how it really works," said Dr. Nichols. "Once the public schools open there will be traffic to the junior and senior high schools as well as the local business."

Ed. 6324 Problems in the Teaching of Reading, English 5359 Introduction to Descriptive Linguistics for Classroom Teacher, Eng. 1301 Rhetoric and Composition, Spanish 6307 Advanced Spanish Grammar and Composition for Classroom Teachers, Span. 2302 Intermediate Spanish, and Sociology 5323 The Mexican-American.

Harlingen and Port Isabel courses and registration will be handled through the PAU Center at Brownsville and those interested should contact the directors there.

For further information contact Dr. Alvin Cannady, head of the university-public school cooperation program at PAU, at 381-3417.

Beginning Frosh To Be Tested

A plan designed to place beginning freshmen more effectively into math and English classes of their level has been devised at Pan American University beginning this fall.

The plan will be carried out by means of a standard test which will be administered to all beginning freshmen to determine their skill in English and math.

According to Lupita Cantu, counselor with the Learning Assistance Center, all beginning freshmen will be mailed appointment dates and times to come take the tests.

The testing will begin Aug. 16 and end Aug. 24. The approximately 2,200 beginning freshmen who have registered for the fall term will be divided into

Colorful LA Building To Alleviate Problems

Students with classes scheduled in the Liberal Arts Building in the fall will no longer be confronted with the old familiar problems of crowded halls and classrooms which either are too cold or too warm.

Instead, students will experience a change of atmosphere with the spacious, more colorful decor of the newly-completed Liberal Arts Building west of the dormitories. The new building is scheduled to be occupied by mid-August and be ready for student use in the fall.

Aside from its more spacious conditions, Dr. Bob Dowell, dean of humanities at Pan Am, said the \$2 million-plus new LA Building carries an interesting color scheme throughout its corridors and classrooms. The colors blue, red, yellow and purple are carried out on the walls and desks of the building. According to Dowell, only one wall of each corridor and one wall of each classroom will be colored. The rest of the walls will be the traditional white.

Classes of the departments of foreign languages, English, political science, government, speech and mass communications will be held in the new LA. The dean of humanities and the dean of social sciences also will have offices in the building as will eight department heads.

Twenty-six classrooms with a capacity for housing 1,200 students are on the first and second floors of the building. Offices occupy part of the second floor and the entire third floor.

Also housed in the new LA are an auditorium-classroom capable of seating 95 persons, a student and a faculty lounge, an office area for graduate teaching assistants and a psychology lab.

groups of 300 for the testing. Each group will have to come two days in the morning and afternoon to complete his orientation. Ms. Cantu emphasized that attendance for the two days is mandatory. The math, English and Student Affairs components administering the testing and counseling, will stamp the students' registration packet after he has completed his testing.

Beginning freshmen who have not had their packets stamped by the three components will not be allowed to register.

The procedure for each group will begin with an individual general session each day at 7:30 a.m. and be followed by a morning orientation session. While one group is testing,

unique to the building is a fire-proof system capable of detecting smoke and fire immediately. A built-in sprinkler system installed with water sheds every 100 feet, automatically sprays water if the room temperature reaches 120 degrees. When the sprinkler starts, a waterbell alarm will sound to warn the occupants of the building.

In addition to the sprinkler system, four fire extinguishers and four "pull" fire alarms are located on each floor. Also on each floor are two air-handling units equipped with smoke detectors which shut off the air conditioning system and sound an alarm at the Utility Plant when smoke is detected.

According to Dean Dowell, the old LA Building will become a math building under the jurisdiction of the Math Department.

Also completed under the Phase Two expansion Program at Pan Am is a new Fine Arts Annex which will be used for the first time this fall. The annex will be used primarily by art students and will have facilities available for kilns, ceramics and sculpting.

The last building on the agenda under the Phase Two expansion program is currently under construction between the Liberal Arts and Engineering buildings.

Leslie M. Gower, Learning Resource Center director, speculated the monumental \$5.5 million Learning Resource Center to be completed by April 1977. The previously reported date of January, 1977, is not expected.

Assuming the LRC is completed in April, Gower said the move from the library to the LRC will take place following commencement exercises in

May and should be ready for student use during the summer.

When completed, the LRC will be four stories high and cover approximately 141,000 square feet in area. Besides housing the library, it will offer a media center, computer assisted instruction center, graphic arts, closed circuit television center, an FM radio station and facilities for audio-visual equipment. Two television studios, one professional and instructional will be available to all departments.

At the present time, the LRC has an approved budget of \$5,000 with which to buy equipment to supplement the existing equipment in the present library. No budget is available with which to equip the audio-visual compartments, however. Gower indicated that an additional \$5,000 would be sought from the Texas legislature when it reconvenes in September.

Applications for positions with the LRC will be accepted in June. Gower said 10 more employees will be hired at that time in addition to the 38 already employed. When a new budget is approved in September 1977, more employees will be added to the list. Video engineers, TV production people and media specialists will be needed, according to Gower.

Plans for the old library call for remodeling and converting it into a more spacious administration building. The administration building will then be converted into a conference center.

With the completion of the buildings under Phase Two, Pan American University will have increased its worth to approximately \$30 million.

will not determine whether a student will be accepted to Pan American University or not, but rather, will only serve to advise students as to what English and math courses they should start with in college. She also said the counseling sessions be kept at a maximum of 20 students to enable the counselors to work with students more individually.

Communicators To Be Honored At Annual Media Conference

Although they remain unchosen, four communicators who best promoted inter-Americanism through mass communications during 1976 will be honored at the third annual International Media Conference being sponsored by the mass communications department at Pan American University Nov. 17-18 in the Echo Motor Hotel.

Dr. Bruce Underwood, associate professor of communications, announced he is accepting nominees for the four prestigious mass communicator awards. Nomination forms may be secured by writing Dr. Bruce Underwood, International Media Conference coordinator, Pan American University, Edinburg, Texas, 78539.

A resume of outstanding achievements in inter-American and interracial affairs

must be submitted along with the completed nomination form and a picture suitable for publication, Dr. Underwood said.

Deadline for applying is Sept. 15, he noted.

The initial 1974 media conference honored nine outstanding communicators, including Mr. and Mrs. DeWitt Wallace of *READER'S DIGEST*; Romulo O'Farrill, Jr., publisher of *NOVEDADES*, a Mexico City daily; Mrs. Ninfa Cantu, publisher of *EL MANANA* in Reynosa; and Oscar Del Castillo, editor of the Spanish section of the *BROWNSVILLE HERALD*.

Also, Dr. Cleo Dawson, author and magazine correspondent; Mrs. Jackie Guerra, editor of the *SOUTH TEXAS REPORTER* at Roma; Ignacio Lozano, Jr., publisher of *LA OPINION* in Los Angeles; and Don

Mallory, Harlingen television newsman.

Last year's conference honored eight mass media people. Among those honored were Nick Reyes of the Institute for the Study of Hispanic American and United States Life and History, Washington, D. C.; Edwina Wright Mitchell, co-publisher of *ST. LOUIS ARGUS*; Dr. Joffre de la Fontain, rector of the University of the Americas at Puebla, Mexico; Eliseo Paredes Manzano, *EL BRAVO* cor-

respondent; Fernando Pino, editor of the *LAREDO TIMES*; the late Pedro Diaz, Sr., pioneer newspaper publisher; and Joe Couder and Spencer Pearson, reporters for the *CORPUS CHRISTI CALLER-TIMES*.

Dr. Underwood said an outstanding program will be announced later, which will include activities and events for both university and high school journalists from Mexico and the United States.

STUDENT BYLINE

Patty Navarro, PAUSA President

As the new academic year draws near the Pan American University Student Association officers, student senators, court justices and committee people are preparing and organizing their efforts.

The meaning of student government is affected by other factors including, the community as a whole, since the university is state funded; the administrators, who in actuality govern the university and the faculty.

Four major pieces of legislation were passed in the Student Senate this past spring semester. Revision of the Bilingual/Bicultural Program Degree Plan. This piece of legislation was sponsored by school of Education Senator, Maria Connie Bocanegra. It called for support of student requests to revise and implement such courses as meet teacher preparation for students in this program. The proposed degree plan was accepted by the administration with a few minor changes. It is now awaiting approval of the Texas Education Agency. If the revised degree plan is approved by T.E.A. it will go into effect this fall semester.

Student on the Board of Regents. This resolution was proposed by school of Social Sciences Senator Gilbert Quintanilla and school of Education Senator Ricardo J. Garza. It called for a student to be appointed to our Board of Regents after the resignation of Morris Atlas. There is still research being done on this proposal. PAUSA officers and members of the External Affairs Committee traveled to Austin June 5 to meet with Lieutenant Governor Bill Hobby. Avenues open to us seeking representation on governing boards were discussed. At present, the resolution is at a standstill. The Student Senate needs to look at the avenues now open to us and which stand they want to take.

The Grade Appeals Committee. Proposed by Senator David D. Garza, this legislation reinforces the need for a committee where students with just cause may voice grievance or discrimination.

Student Bill of Rights. Two versions of this legislation were proposed by Senators Garza and Saldivar. Both versions call for the establishment of a Student Bill of Rights in all school departments as adopted by the Political Science and Behavioral Science Departments during the spring semester. The Faculty Senate acted positively on a Student Bill-of-Rights presented to it by Dr. Jerry Polinard, Head of the Political Science Department, when it met on July 8th. Further action is pending departmental response.

On the state level: Students may receive better financial relief. The College Coordinating Board voted Friday, July 17, to request funding from the legislature for the Texas Assistance Grants Program (T.A.G.). This funding request was approved by the narrow margin of 7-6, with the Chairman, Mr. Harry Provence casting the critical tie-breaking vote. The Coordinating Board will seek \$3 million for fiscal '77-78 and \$5 million for fiscal '78-79 for T.A.G. Program.

Any student who can prove financial need is eligible to receive funds under the program. There is a maximum of \$1,000 per fiscal year for each student under T.A.G. Applicants are selected solely on need or other than academic standing according to a section written into the law. For every dollar designated for state grants, the federal government will match funds under the State Student Incentive Grants Program.

The PAUSA office is located at UC 314.

Yearbook Staff Seeks Volunteers

The Pan American University yearbook staff is looking for volunteers to work on the 1977 El Bronco.

Miss Martha Feldtman, El Bronco editor for the second year, said, "We badly need people to work on the yearbook staff. Students with either high school or college yearbook experience would be welcomed to the staff."

One of the openings on the staff is for sports editor.

Miss Feldtman stated, "This person should be able to communicate with the coaches and team members as well as work closely with the photographer in covering athletic events."

The staff also has an opening in the organizations department. The person who fills this position will be covering the activities of the Greeks and other PAU organizations. Background in reporting or other mass communications courses would be helpful to this staff member.

There are a limited number of paid positions and work-study program positions available on the yearbook staff, but there is no limit to the number of volunteers who can be accepted.

Miss Feldtman encourages students to join the yearbook staff "because it involves the student with a varied experience."

She said, "Working on the yearbook staff involves you with the school, students, faculty and administration. It provides a profitable learning experience for working in the world outside the university, and you become acquainted with writing, layouts, designs, photography and artwork."

Students interested in working on the yearbook staff should apply at Room 100 in Emilia Hall as soon as possible after the fall semester begins.

Positions already filled on El Bronco staff include Miss Feldtman, editor; Delia Garza, organizations editor; and Doug Athas, photo-

grapher. Harry Quin, student Publications Adviser, is the adviser for the yearbook.

Because of the new computerized pre-registration for graduate students, pictures for the yearbook will not be taken at fall registration. The pictures will be scheduled later.

Students who have not picked up their 1976 El Bronco may still do so in Room 100 of Emilia Hall.

Coed On Theatrical Tour

Going to Pan American University will really get you nowhere. This is a common idea that can be heard around students, but it is not necessarily true. A good example of the non-validity of this is a third year PAU drama student, Debbie Thomas.

Ms. Thomas, who has been a featured performer in several drama department productions such as "The Tempest" and "The Effect of Gamma Rays On Man-In-The-Moon Marigolds," is now spending an event-filled summer in Santa Fe, New Mex., and surrounding areas. The important fact is that Ms. Thomas is there doing what she likes to do best. That is theatre.

Earlier this year, Ms. Thomas, who received most of her formal training in drama at PAU, was among a number of PAU's bilingual students who auditioned for the College of Santa Fe's Mobile Theatre. Ms. Thomas was the only one selected to join eight other actors and actresses from various parts of the United States.

The Santa Fe Mobile Theatre is scheduled to produce four stage shows over the summer months. These productions will then tour northern New Mexico. The shows include three in Spanish and one musical in English.

What will Ms. Thomas be doing after the tour is over?

She'll be coming back to finish up her degree in drama at PAU and again take part in the department's productions.

Ms. Thomas has also been in UCPC for three years and has served as vice-president. This year she will be filling the position of films chairperson.

PAU Young Republicans

Plan Candidate Support

The Young Republicans of PAU are planning an aggressive campaign to support their candidates in the November general election. The organization boasts 23 active members and hopes to achieve its goal of 50 by the end of September.

Patrick Taylor, a PAU sophomore, is the group's president and organizer. Taylor is a political science major and the head of President Ford's re-election efforts in the local area. He has been politically involved since before the May primary and plans to continue his efforts until the November election.

The membership's support is split between the

presidential contenders, with a majority for President Ford and the remainder going to the challenger, Ronald Reagan.

Taylor said, "The group is extremely enthusiastic and would support either man as the party's nominee. Our members are realistic enough to understand that it's the Democratic congress and not President Ford's administration that has created the current national situation."

The organization intends to establish polling places on the campus to provide students with information concerning the Republican candidates. The group's members will also offer

voter registration services at the polling places.

"We'll be sponsoring events where the students will be able to meet with and talk to the candidates for state and congressional offices. The Young Republican will support all our party's office seekers, not just those on the presidential ticket," stated Taylor. He went on to say, "The Republicans are placing a special emphasis on the younger voters."

The group plans to hold an organizational meeting during the first week in September. Interested students should contact Patrick Taylor at 686-8119,

Counseling Doctoral Degree Awarded

It's one step up the ladder to success for 32-year-old Ana Maria Rodriguez, who is to become the first Mexican American woman in Texas to be awarded a doctoral degree in counseling and guidance.

A faculty member of the guidance and counseling department at Pan American University since 1975, Dr. Rodriguez will join the graduate faculty in counselor education at Pan Am this fall.

The daughter of Odilia and Rosendo Rodriguez and one of six children, Dr. Rodriguez was reared and educated through high school in Miranda City, a town of about 1,000 persons, located east of Laredo. Upon graduation from high school Dr. Rodriguez was accepted at Laredo Junior College and transferred to Texas A&I University in Kingsville where she obtained her bachelor of science degree in education. She spent the next three years teaching English courses on the secondary level in Robstown, Zapata, and Alice.

In 1972, in a 24-member program developed under the Education Professional Development Act entitled PAUTA (Pan American University in Edinburg and the University of Texas at Arlington), Dr. Rodriguez began work on her masters degree in counseling. She was one of 12 interns at Pan American and received a full fellowship under this program.

Dr. Rodriguez completed her masters studies in May, 1973, and in June of that same year entered the cooperative doctoral program in counseling offered by the Universities of Houston and Pan American. Upon completion of a maximum of 24 hours at Pan Am, Dr. Rodriguez transferred to Houston in May of 1974, to conclude her course work.

While a resident at the University of Houston, Dr. Rodriguez, under a multi-cultural education fellowship funded by the federal government, did a full year internship at an elementary school in the Houston independent school district where she developed a training module for affective education. The module, designed to aid children in coping with or developing skills to deal with their own feelings and values, was made available to combined ethnic groups. The multi-cultural aspect of the module dealt with the children identifying their own values, accepting those values and then accepting the values of others.

In July of 1975, Dr. Rodriguez simultaneously concluded her course studies in Houston, started work on her dissertation, and was hired as an assistant professor in guidance and counseling at Pan American University. Her dissertation, "The Relationship Between a Measure of Self-Actualization and the Facilitative Conditions Offered in Counseling" was finished in June of this year. Dr. Fred C. Proff of the University of Houston and Drs. Nolan Wood and Ralph Carlson of PAU served on her dissertation committee and although not a common practice, Dr. Rodriguez defended her dissertation at PAU. Her degree will be con-

firmed in August.

Adjusting to her new title, Dr. Rodriguez concludes she had no major difficulties in obtaining her degrees and was encouraged by her peers and advisers. She is primarily interested in consultant work for public schools, training counselors and teachers as well.

Dr. Rodriguez commented, "We still need a lot of work done in public schools in the psychological development of the child. Development and preventative counseling are what it is all about. Elementary counseling is new, but Valley schools are already involved

in some good programs that Pan American University staff were instrumental in setting. If we can help the children deal with problems now, they won't need remedial help later."

Dr. Rodriguez is one of three Mexican-Americans in the state to hold a doctorate degree in counseling and was the first person to graduate under the cooperative program offered by the universities of Houston and Pan American. She is currently teaching second summer term graduate courses in counseling and guidance at Pan American University.

General Information

ADMISSION

All students must file an application for admission if they were not enrolled at Pan American University during the spring semester 1976. Students enrolled at Pan American University for the spring semester 1976 should go by the registrar's office and have their card pulled in order to receive an appointment packet for registration. All beginning freshmen must file high school transcripts, certification of required immunizations, and ACT or SAT test scores. Transfer students must have on file an official transcript sent directly from each college previously attended before admission can be granted. Transfer students who expect summer session need only present a letter of standing from their dean or registrar of the last college they attended. Transfer students must also submit a certification of required immunizations.

Applications for admission may be obtained from the Admissions Office during office hours (Monday thru Friday 8-4:30) or may be requested by mail or phone.

DROPPING A COURSE OR WITHDRAWING FROM THE UNIVERSITY

Any student who wishes to drop a course or withdraw from the university should do so by obtaining the proper form from the Office of the Registrar, by obtaining the required signatures on the form, and by returning the completed form to the Office of the Registrar.

TUITION

- (1) Residents of Texas: \$4 per semester credit hour with a minimum of \$25 per semester.
- (2) Non-residents (students who are residents of another state or of any country other than the U.S.)

of America not on the coordinating board list of approved countries): \$40 per semester hour with no minimum per semester.

(3) Non-residents (students who are citizens of any country other than the U.S. of America (which is on the coordinating board list of approved countries or who attended a Texas public institution of higher education prior to June 19, 1975): \$14 per semester credit hour with a minimum of \$100.

(4) Nursing students: \$25 per semester for resident or non-resident nursing students enrolled for 6 or more semester credit hours. Note: Nursing students enrolled for less than 6-semester hours will pay an amount proportionately less than 6-semester credit hour students, but not less than \$20. Only students officially accepted by the nursing department will qualify under this classification.

(5) A teaching assistant, research assistant, or other student employee of Pan American University is entitled to register himself, his spouse, and their children by paying the tuition fees required for Texas residents, without regard to the length of time he has resided in Texas; provided the student employee is employee at least 1/2 time in a position which relates to his degree program.

(6) A non-resident student holding a competitive scholarship of at least \$200 for the academic year for which he is enrolled is entitled to

pay the fees required of Texas residents without regard to the length of time he has resided in Texas, provided that he competes with other students for the scholarship and that the scholarship be awarded by a scholarship committee officially recognized by Pan American University.

Final residency determination will be by the Admissions Office.

OTHER ADDITIONAL FEES

(7) Student service fee: \$3 per semester credit hour, with a maximum of \$15 for 5 or more semester credit hours.

(8) Building use fee: \$3 per semester credit hour.

(9) Laboratory fee: \$2 to \$10.

(10) Individual instruction fee: \$20 per one-semester credit hour course and \$35 per two-semester credit hour course.

(11) Bowling fee: \$15.

(12) Parking permit fee: \$1.50 (Edinburg campus valid until Aug. 31, 1976); \$2 (Brownsville campus valid June 1 thru July 2, 1976); \$2 (Brownsville campus valid July 2 thru Aug. 31, 1976).

(13) Late registration fee: \$5.

(14) Change of schedule fee: \$2.

(15) Audit fee: \$10 per course plus student service fee of \$5 per course.

(16) Replacement of ID card: \$5.

(17) Horsemanship fee: \$75.

REFUNDS

A student who withdraws the first through the fourth class day may receive a refund of 75%, after the fourth day there is no refund. Sat-

No student will be admitted to the registration packets will be mailed on or about May 25 for new applicants and currently enrolled undergraduate students and graduate students who had their card pulled at the registrar's office.

June 1, Tuesday
Classes begin at the Brownsville Center campus.

June 2, Wednesday
Classes begin at the Edinburg campus. First day for late registration and schedule changes on either campus.

June 3, Thursday
Last day to register or make necessary changes in class schedule.

June 5, Saturday
Fourth class day, last day to receive 75% tuition or fee refund. After this date no refund. ***Note: Offices are not open on Saturday therefore all changes must be completed before 4 p.m. on Friday, June 4.

June 11, Friday
Last day to drop a course or to withdraw from the University without having a grade recorded.

July 2, Friday
First term final examinations-Brownsville

urday is classified under this schedule as a class day regardless of class schedule. Refunds will only be made if the student has officially withdrawn through the Registrar's and Business Affairs' offices.

Tuition is payable in full at the time of registration. If a student plans to pay his registration fees by check, he should bring with him a check form printed by his bank.

CLASS OFFERINGS

The university reserves the right to cancel any class listed on the schedule if registration does not justify offering the class. Since the schedule printed in this announcement is tentative, there can be no guarantee that classes will be offered at the time indicated. It is possible that other sections may be added if the demand is sufficient.

center only.
July 6, Tuesday
First term final examinations-Brownsville campus only.

July 6, Tuesday
Registration for Brownsville classes by appointment for second summer term at Brownsville center.

July 7, Wednesday
Registration for Edinburg or Brownsville classes by appointment for second summer term at Edinburg campus.

July 8, Thursday
Classes begin at Brownsville Center campus only.

July 9, Friday
Classes begin at Edinburg campus. First day for late registration and schedule changes on either campus.

July 12, Monday
Last day to make changes in class schedule.

July 13, Tuesday
Fourth class day. Last day to receive 75% tuition or fee refund, after this date no refund.

July 16, Friday
Last day to drop a course or to withdraw from the university without having a grade recorded.

August 11, Wednesday
Second term final examinations-Brownsville campus only.

August 12, Thursday
Second term final examinations-Edinburg campus only.

August 15, Sunday
Commencement exercises.

(All comment lines within the schedule precede the specific course and section it affects.)

Newsbits

Summer Term Enrollment Up

The total class enrollment for the second summer session is up one per cent from last year, according to Bill Morris, director of admissions at PAU.

Of the total, 271 students are registered at the Brownsville Center and 528 are attending graduate school.

Comparative figures for a year ago include a 3,782 total with 216 registered at Brownsville and 499 graduate students.

The increase is due to normal growth of the enrollment at a university, but the important thing is that it is growing, Morris said. Morris projects the enrollment for the fall to be around 8,950.

Commencement exercises are slated for Aug. 15 and registration for the fall semester will be in the field house Aug. 25-27.

Dr. Nevarez

Dr. Miguel Nevarez, vice president for student affairs at Pan Am, has been named to the state advisory committee of the American College Testing Program, Texas council.

Notification of his appointment of the advisory group came from Dr. Domingo Arechiga, president of Laredo Junior College and chairman of the state ACT advisory council.

Dr. Nevarez's tenure on the committee will expire in April 1978.

Book Buy-Back

The book buy-back at the University Bookstore will be opened Aug. 11, according to Andy Prycer, textbook manager.

Hardback and paperback books being used in the fall will be bought back at the rate of half the owner's original purchase cost for hard bound editions and third for paperback.

Prycer indicated that students wanting to sell back books should do so before Aug. 27 when the buy-back will close. In all cases the student will need to present an ID card or some identification that the student is enrolled at Pan Am before attempting to sell back books.

Mail Boxes

As of Aug. 30, organizational mail will be dated upon arrival in the University Center office and distributed to organization mail boxes, according to Judy Burks, university center program council director at Pan Am.

Organizations will have two weeks to pick up their mail from the mailroom on the second floor of the UC.

Any mail not picked up will be stored in a central warehouse.

Yearbook Pics

Due to the computer-aided registration program to be implemented at Pan Am in the fall for graduate students, faculty and student yearbook pictures for the 1976-77 academic year will be taken in the same manner as were last fall's mugshots, according to Harry Quin, Student Publications adviser.

Quin said that although there may be minor changes made in the picture sche-

duling it is still mandatory that all students have their pictures taken. The exact dates for the picture taking have not been set but will be about two weeks after fall registration for undergraduate students.

Presently the yearbook has begun preparing for this year's El Bronco but, according to Martha Feldman, yearbook editor, there are still paid positions open and volunteer work will be readily accepted.

Interested students should go by the Student Publications office at Emilia Hall 100 or phone at 381-2542.

Reading Lab

This fall the Learning Assistance Center will offer a reading lab.

Tony Romano, LAC reading lab specialist, said the purpose of the lab is to develop the student's ability to read critically and analytically.

Romano said that when a student goes to the reading lab he is first given a test to discover what his reading level is. He is then given a program to follow. If the program is too hard or too easy he is given another program.

Many students, Romano said, are disappointed when they aren't reading better after one or two sessions, but when someone reads at the 10th grade level it's impossible to learn in two weeks what took other students four years to learn.

The students do the work on their own time.

The LAC will have a booth at fall registration where students can sign up for reading classes. Only the first 100 persons can take the classes as there is limited space available. Assignments will be made on a first come first served basis, said Romano.

CAMP Tutors

The College Assistance Migrant Program at Pan Am is in need of tutors for the fall semester.

Persons interested in tutoring English, math, Spanish, history or psychology should contact Mrs. Jerry Baldwin in office building F 104 or phone 381-3111.

Applicants must have at

least a junior classification or be graduate students with a minimum GPA of 2.5. The work load will be nine to 15 hours per week.

Applications will be taken from Aug. 16-19 at the CAMP office.

UCPC Posts

PAU students wishing to be more involved with University Center Program Council activities are eligible to become a UCPC chairperson or co-chairperson for 1976-77.

Chairperson positions available include hospitality, films, ideas and issues, concerts-Fine Arts, special events, freebie and games and tournaments. Each committee will have one chairperson who is eligible to vote at UCPC executive council meetings, and one co-chairperson who serves as a type of vice-president for each committee.

According to Judy Burks, UCPC advisor, anyone seeking a position as a chairperson or co-chairperson must be willing to dedicate a good amount of time to his committee's work and be able to accept responsibility.

Applications may be picked up in University Center 205.

Summer Program

Forty College Assistance Migrant Program students studied dictionary and English usage in a special summer program offered at Pan American University.

Dr. J. G. Barefield of the Pan Am speech and drama department volunteered his services to instruct the course for the CAMP students. The unit of study developed by Dr. Barefield included a study manual and 150 visual aids lettered in diacritical markings.

Dr. Barefield said he used students in his speech classes to test the material and found that more than 95 percent of the students were seriously concerned with pronunciation of English.

Chorus Class

The department of music at Pan Am will offer a music course for the non-musician in the fall and spring semesters.

There will be no audi-

tions nor music reading ability required to take University Chorus 1109-4110 and 5109-5110 which, according to James A. Stover, associate professor of music at PAU, is the largest vocal music organization open to all university students.

The class will be offered MWF 6 during the fall and spring semesters.

Godspell

The Kiwanis Club of McAllen will present the Performing Player Touring Company of Corpus Christi in "Godspell," a rock musical based on the Gospel according to St. Matthew, on Aug. 13, at the McAllen Civic Center Auditorium at 8:30 p.m.

The original production, which opened off-Broadway some five years ago with a recent and still running revival on Broadway, has a cast of 11 and a rock band made up of nine instrumentalists and vocalists. The actors and band present the story found in Matthew in a free, and improvisational manner, utilizing many different styles of drama and song.

The tale is told by a

group of clowns using mime, song and dance in a child-like manner. The Performer Player group is touring churches and theatres in the South Texas area.

Tickets will be available Aug. 9-13 from all Kiwanis members; The First National Bank, McAllen State Bank, Metropolitan National

Bank, Valley National Bank and Civic Center Box office. The theatre will not have reserved seats, and tickets will be priced \$3 for adults, \$1.50 children and \$1.50 for senior citizens or two senior citizens will be admitted to the performance for the price of one adult ticket, \$3.00.

Department Head, Pan Am Days Originator Dies

Dr. Arthur R. Hayes, the first head of the Speech and Drama Department of Pan American University, died July 20 at McAllen Hospital of pneumonia after having been in ill health for about five years.

Hayes, 71, was a native of Hill County in Central Texas. He was credited with originating Pan American Days at the University and with being a prime mover in originating the Mission Citrus Fiesta.

Funeral services were held at 4 p.m. July 22 at the Edinburg First Presbyterian

Church, of which Hayes was a member.

The Rev. William R. Dunaway of the Mission Presbyter Church, will officiate with Dr. H. A. Hodges, Pan American University vice president emeritus, making a biographical tribute.

Hayes was a 32nd degree Mason and belonged to the Alzear Shrine and the Rio Grande and Nomad Shrine Clubs. He was an active member of the Presbyterian Men of the Church, served as a deacon and as superintendent of the Sunday School. He belonged to the

Texas Speech Association, American Association of University Professors and Phi Delta Kappa speech fraternity. He was active in the Speech Association of America and of Texas, a member of the National Education Assn., and the Hidalgo County Retired Teachers Assn., and state and local retired teach groups. He was a governor of the International Platform Assn. and a member of Kappa Sigma social fraternity.

Hayes, who lived at 209 Enfield, once debated Lyndon B. Johnson when both were

on college teams, on the question of whether the United States should cease protecting capital investments in foreign countries.

The former speech and drama department head received his bachelor's degree from Sam Houston University at Huntsville. He was president of his senior class. He continued his education at the University of Texas at Austin, where he received both master's and doctoral degrees, the latter in 1952.

Hayes came to the Valley to teach at Mission High School in 1929 and later

was an elementary school principal there. He came to Pan American in the fall of 1953 and inaugurated Pan American Days in November of that year. It is a celebration which continues.

Dr. Ralph Schilling, Pan American president, awarded Hayes a plaque in 1975 in appreciation of the founding and observance of the celebration and for Hayes' continued support of Inter-American studies at the University. Schilling said at the time the recognition was long overdue.

While Hayes was at Mission, he was an organizer of the Citrus Fiesta, which started in 1932. He wrote a Valley history that was presented in play form at a Citrus Fiesta. He originated the title Queen Citriana, used at the Fiesta. Hayes was honored for that work by being named grand marshal for the 1974 fiesta. When speech and drama classes were separated from the English Department at Pan American in 1968

Hayes became the first head of the new department and served in that capacity until he retired in 1971.

At Mission and San Marcos, where Hayes taught earlier, his high school teams won one-act play awards at the state level in 1940 and 1935. He had studied at the Pasadena Playhouse in California and directed many dramas in the old drama building at Pan American.

Survivors are his widow, Leora; a daughter, Mrs. Kenneth W. Schebesta of East Greenwich, R. I.; three grandchildren, Erik, Leif and Sherrill Schebesta; sister, Mrs. Frank E. Fry of Garland; and a brother, B. Frank Hayes of Wichita Falls.

Mrs. Hayes said persons considering memorials might consider the Easter Seal Treatment Center where Dr. Hayes took treatments, the Rio Grande Childrens' Home at Mission or the establishment of a speech and drama scholarship at Pan American.

Valley Tourism 5,000 Years Old

While winter tourism has become a commonplace occurrence in the Rio Grande Valley, few local folks realize just how long the practice has been popular.

Evidence discovered by a 21-member archaeological expedition from Pan American University during June and July indicates our first winter tourists may have been Indians who migrated to this area 5,000 years ago.

The archaeological team, composed of Pan Am students and headed by Dr. Joel Shiner of Southern Methodist University, found two stone fireplaces or cooking hearths on a site southeast of Sullivan City. The fireplaces were discovered from one to six inches below the surface of ranch land in a previously uncultivated area.

Purpose of the expedition—which doubled as a six-week course offered for six credit hours in sociology or PAU's new anthropology minor—was to attempt to discover how people lived, worked and died in this area between 4000 BC and 1000 AD.

The group also found, in addition to the stone fireplaces, numerous charcoal bits, arrow and spear heads, stones used for scraping hides of animals, and snail shells. The great abundance of the snail shells led Dr. Shiner to speculate the people living in the area may have used the snails for food.

All items found during the dig were mapped and catalogued by the group as part of the course's instruction on how to survey an archaeological site correctly and map it as to the exact location of each discovery.

In this type of expedition, Dr. Shiner explained, many times the location of the items discovered is equally or more important than the actual items. This is one reason the group was not searching for burial sites or arrow heads specifically, but concentrated on reconstructing life styles. The two major finds, therefore, became valuable as starting points in the team's attempt to determine what activities occurred at the site.

Numerous square pits were dug on the excavation site, located about two-and-a-half miles north of the Los Ebanos ferry landing. The site itself included approximately a half acre.

The expedition was termed the first scientific controlled excavation in the Valley. Robert Trotter, assistant professor in the behavioral sciences department, arranged the course and said he hopes the archaeological field experience will become an annual summer event. Dr. Shiner also said he hopes to return to the same excavation site later to do further study on the early Indians.

Women To Tackle Full Season

By Elizabeth Brammar

Pan American University women's intercollegiate athletic teams will be competing against eight teams instead of four in zone competition for the 1976-77 year.

The change comes as a result of rezoning in the Texas Association of Intercollegiate Athletics for Women.

Intramural Meeting Opens New Campaign

The intramural people are getting set for another full year of activities. The best way to get started has always been with an intramural meeting, which is scheduled this year for Sept. 8 at the intramural office.

This meeting is specifically designed to prepare and obtain prospective managers for men's flag football and women's volleyball, which are the first intramural activities.

Anyone may be a prospective manager if he fits into a couple of sets of rules. The first set of rules deals with intramural competitors in general. They must (1) be Pan American University students, (2) be in good health, (3) abide by the policies and rules of the Intramural Program and (4) exemplify their best behavior while involved in the Intramural Program.

With that set out of the way, anyone that fits into those rules can try for the

The state organization formerly was divided into six zones with PAU women competing in the South Zone against Texas A&I, Incarnate Word, St. Mary's University and Trinity University.

Now the TAIW has been reorganized into four zones and the South Central Zone has been eliminated. The teams formerly included in the South Central Zone

are now part of the South.

PAU women will now be competing against teams from the University of Texas at Austin, Texas Lutheran College, Southwest Texas State University and Southwestern University as well as A&I, Incarnate Word, St. Mary's and Trinity.

As in the past, first and second place finishers in each sport will qualify for state competition.

PAU women's teams compete in intercollegiate volleyball, basketball, badminton, softball and gymnastics.

Last year the PAU women's volleyball and softball teams qualified to compete at the state contests by finishing second in zone competition. The 1976 gymnastics team won the Best All-Around Team title at the state tournament.

Dr. Amilda Thomas, director of the PAU women's athletic program, said,

"Zone competition will be tougher. Having women's teams from schools the size of Pan American compete against schools such as the University of Texas at Austin creates an inequity concerning size of enrollment, finances, publicity and commitment of the university."

She continued, "In the future to make it feasible for competition at all levels, it may be necessary to go to division of large school and small school competition."

Dr. Thomas commented, "There are many fine women athletes in the valley, but to successfully compete with schools the size of UT at Austin, we need to make a firm decision with regard to what Pan American will do for women in athletics. This means employing first class coaches and financial assistance to women who qualify for this level of competition."

SPEECH CLASS--Ms. Cherry Wright, speech clinician, listens attentively to student presentations in Speech 1300, a speech improvement course offered by the Communications Department at Pan Am. Designed for the student with overlay of Spanish over English, this course will be offered in the fall semester.

Speech Course Helps Improve Enunciation

The newly formed Department of Communications will offer a Speech Improvement course that was piloted in the spring semester. This course, listed as Speech 1300, is designed to aid the student with speech problems resulting from an overlay of Spanish over English.

The pilot course initiated during the spring semester was taught by Cherry Wright, director of clinical services, Sue Behrens, instructor in the department of speech and drama, and

Dr. Opal T. White, acting head of the department of speech and drama. Ms. Wright did the profiling on each of the students as well as concentrated on intonation patterns. Ms. Behrens taught the phonetic sounds in English and Spanish while Dr. White brought all the areas together in presentations by the students.

Results from the pilot course showed remarkable improvements by each student. The profiles made at the beginning of the course when compared with pro-

files conducted at end of the semester indicated that each student had improved in many areas.

Speech 1300 will be offered second and fourth periods on MWF and fifth period on TT. A Speech Lab will be available second period on TT in room 3 of the Speech Clinic in its new location in Southwick Hall.

For further information on the new speech course by the Communications Department in Southwick Hall, or call 381-3581.

Career Planning, Never Too Early

Look out, world! It's almost "that time" for thousands of college seniors throughout the country. Commencement exercises for prospective PAU graduates will be held Aug. 15 and bright young people will leap into the business world, eager to find jobs.

How do you plan to compete with that?

If you happen to be one of the many students already involved in the program sponsored by Pan Am's Career Planning, Placement and Testing office, you are one step ahead of the rest. If you are a graduating senior not yet involved in the program, you're still in luck.

According to Romulo D. Martinez, director of Career Planning, Placement and Testing, the ideal time for students to enroll in the program is when they are freshmen. However, Martinez added, we've had students come in the day after graduation looking for a job, and we've found them jobs.

Outlining the ideal schedule for the program, Martinez said, Beginning freshmen should come in and let us help them examine themselves. We examine things like aptitudes and educational background, find their best suitability and then explore all occupations in that area.

We also outline a course of action and advise students what courses to take, Martinez said, plus, we have a career planner in many of the schools to further advise the students.

In his freshman year, a student involved in the program is introduced to five employers on Career

Day. This continues through his senior year, so by the time he is ready to graduate, the student has met 20 employers involved in his chosen field, Martinez said.

Lectures on how to interview, videotapes of good interviews and speakers commenting on the do's and don'ts of interviews are also offered. By the time the student is ready to attend the interview seminar, he has already met many of the interviewers and is usually full of confidence, Martinez continued.

A senior just beginning the program would have the disadvantage of having met fewer employers, but there is still a chance for him to find a job.

As soon as possible in his senior year, the student should register at the office, and by the next week have ready his credentials of resume, letters of reference and transcript, Martinez said.

Interviewers come from all over the country, he continued. We feel it's best to find a job in your major, but if not, try for any type of job to expose yourself to the world of business and provide work experience.

The most marketable majors at this time are education, especially teaching math, and business with an emphasis on accounting, Martinez said. But, he added, Pan American has

'You and PAU' Awaiting Distribution To Frosh

As part of freshman orientation, a new student handbook "YOU AND PAU" is now being published for all beginning freshmen.

The 32 page booklet focuses on relevant information about the Pan American University Student Association, the University Center Program Council and Student Publications. Also included is a current directory of student organizations.

The handbook's fresh approach to student information features caricatures of Student Association and UCPC officers, "The Pan American" and "El Bronco" editors and their respective faculty advisors.

"YOU AND PAU" was written and edited by Judy Flores, PAUSA secretary-treasurer and information committee chairman. All art work, including a specially-designed front cover that commemorates this University's golden anniversary, was provided courtesy of Hector G. Lizcano through UCPC. The handbook features a centerfold collage spotlighting student activities designed by Aida Lizcano and Patty Flores. All photographs were provided courtesy of Harry Quin, Student Publications adviser, Johnny de la Vina,

Sam Saldivar Jr., and Gilbert Tagie contributed articles to the booklet.

"YOU AND PAU" was funded by the dean of men's office with arrangements for printing 2,000 copies. These will be provided free of charge to beginning freshmen, depart-

ment heads, deans and student organizations on campus.

"YOU AND PAU" will be available to beginning freshmen at the information desk in the University Center August 16-24 during freshman orientation.

Mini-Courses Offered In Fall

Interested in macrame, auto repair, folk medicine or kicker dancing?

These are just a few of the topics offered as mini-courses by the Pan American University Center Program Council (PAUCPC).

The mini-courses were introduced at PAU during the summer session. Of the 30 courses offered, eight materialized and continued. From those eight, all except one, yoga, will be offered again during the fall.

Other courses will be offered in beginning macrame, exercise, beginning chess, basic auto repair, children's theater, advanced studio theater, kicker dancing, belly dancing, interior design, folk medicine, card games, beginning bridge, drug awareness for parents and eastern religion and philosophy.

Other classes may be organized if an interest is indicated.

Judy Burks, director of the PAUCPC, said the informal mini-courses were established "to develop the skills of the faculty, staff and students at PAU."

Anyone who has an interest or hobby in which he has skills may offer to teach a course in that area. The University Center provides publicity for the courses ad rooms where the courses can be held.

To register for a course, the interested people and the instructor meet in an assigned room and work out the details such as cost, scheduling and length of the course.

Mrs. Burks said, "The mini-courses offer a wonderful opportunity for people to make extra money."

Anyone interested in teaching a mini-course should call Mrs. Burks at 381-2601.

The schedule for the mini-courses will be available at fall registration and at freshman orientation. These non-credit courses are open not only to PAU students, but to any community citizens who are interested.

Mrs. Burks said, "We are expecting more participation in the fall. People are so busy during the summer, they will probably have more time to devote to their own interests after summer ends."
