### University Mace

The University Mace, a symbol of leadership and authority, is a visual embodiment of tradition in academic circles. Presented during the institution's 75th anniversary in 1987, the mace is displayed only at formal events attended by faculty and top administrators dressed in full academic regalia. The evolution of the University's name is depicted on silver disks on the mace's bronze head.

### University Banner

The University banner, introduced at our first commencement as The University of Memphis in August 1994, incorporates our seal surrounded by the traditional gold laurel wreath. The internal shield depicts higher education's torch of learning and book of knowledge as well as our state's commerce and industry symbols. Our opening date of 1912 is shown below the shield.

### Presidential Medallion

The Presidential Medallion signifies position, authority and trust and is worn by the President during official academic functions at the University. Commissioned by a group of distinguished alumni and friends and presented to the University in 1974, the Presidential Medallion combines institutional symbols with chain links honoring all presidents of the University.

## HISTORICAL HERITAGE

From the opening of its doors in 1912 as a normal school for training teachers to its present status as one of Tennessee's two comprehensive universities, The University of Memphis has been thrust forward by the growth of Memphis and the Mid-South. A town oriented to a rural economy and culture in 1900 grew into a large urban and commercial center by mid-century, and the city's public institution of higher learning experienced comparable growth.

The normal school grew from a few hundred students (1912-1925) to a teachers' college with a better staff and an enrollment of up to a thousand (1925-1941), then to a state college with an expanded curriculum in liberal arts, business and graduate education for three to four thousand students (1941-1957), until the institution achieved university status in 1957. Memphis State University became The University of Memphis as of July 1, 1994.

It was not an easy struggle. As the city of Memphis grew and prospered, the demand for a completely developed public university grew. Finally, legislators and board members agreed about The University of Memphis' role and approved the change urged so forcefully by concerned local citizens, several presidents, alumni and faculty members.

The metropolitan requirements for more highly trained university graduates have, of necessity, caused The University to expand all its offerings in arts and sciences, business, the fine arts, education, engineering and technology, law, and several special professional fields. More than 75 percent of the full-time faculty have earned the highest possible degree in their fields.

With its five Centers of Excellence and 22 Chairs of Excellence, The University of Memphis is in the forefront of research and instruction in this region. Our students have the opportunity to study under some of the country's best educators. Therefore, every graduate of The University of Memphis should be able to compete effectively with his or her counterparts from any other respected university in the nation.

## ACADEMIC DRESS

*The following information is to help our visitors identify the costumes seen in the commencement procession:*

Academic dress originated at universities in the Middle Ages when a warm gown and hood were necessary in unheated buildings. For centuries these gowns distinguished students from their fellow citizens; sometimes this distinction in dress symbolized unfortunate controversies between "town and gown". The European habit of using academic robes came to this country in the eighteenth century with the founding of what is now Columbia University. In 1895, American universities and colleges standardized their styles of academic costumes, and this system, with occasional modifications, is still in force. Today, the various colors, trimmings, and patterns of gown, hood, and cap are all traditional and symbolize both the degree and field of learning.

**GOWNS:** American academic gowns are usually of black material, and their pattern varies with the degree held. The bachelor gowns are relatively simple in design with a closed front and long, pointed, open sleeves. Master's gowns have an open front with long, closed sleeves, the arms extending through a slit at the elbow, giving the appearance of short sleeves. Doctoral gowns are the most elaborate with velvet panels down the open front and three velvet bars on the bell-shaped sleeves.

**HOODS:** The hoods, differing in length for the three degrees (bachelor's, master's, and doctor's), are lined with the colors of the institution that granted the degree. Hoods are also trimmed with the color that heralds the major field of learning.

**CAPS:** A square mortarboard is the approved headgear. The tassel, fastened to the middle point of the top of the cap, is black or the color appropriate to the subject; it may be gold if the holder has a doctor's degree. The University of Memphis has adopted the practice of having candidates for the bachelor degree wear the tassels on the right front side before degrees are conferred and shift them to the left at the moment when the degrees are awarded to them.

In the last few years, many universities have decided to return to a distinctive gown design. For instance, Columbia's is now slate gray, Rochester's a dandelion yellow, Northwestern's is purple. The doctoral gown, with facing of black velvet, now has sleeve bands in the color of the wearer's discipline. Some have replaced the mortarboard with a soft velvet tam with a gold tassel.

Following is a list of the hood and tassel colors that represent several categories of learning:

Arts, Letters, Humanities . . . . .	White	Journalism . . . . .	Crimson
Audiology & Speech Pathology . . . . .	Dark Blue	Law . . . . .	Purple
City & Regional Planning . . . . .	Scarlet Red	Music . . . . .	Pink
Commerce, Accountancy, Business . . . . .	Sapphire Blue	Nursing . . . . .	Apricot
Communication Arts . . . . .	Silver Gray	Philosophy . . . . .	Dark Blue
Economics . . . . .	Copper	Physical Education . . . . .	Sage Green
Education . . . . .	Light Blue	Public Administration . . . . .	Peacock Blue
Engineering . . . . .	Orange	Science . . . . .	Golden Yellow
Fine Arts . . . . .	Brown	Social Work . . . . .	Citron
Home Economics . . . . .	Maroon		

All hoods are *edged* with the above colors. These same colors may be used for the facing and sleeve bars of doctoral gowns and tassels on bachelors' and masters' caps.

The *lining* of the hood indicates the university granting the degree—for The University of Memphis, blue and gray. Among other institutional colors represented at this commencement are those for Arkansas, red and white; Chicago, maroon; Columbia, light blue and white chevron; Duke, royal blue with white chevron; Emory, navy blue with gold chevron; Harvard, crimson; Illinois, navy blue with two orange chevrons; University of Iowa, old gold; Kansas, navy blue with cardinal chevron; Northwestern, purple with gold chevrons; Ohio State, scarlet with silver gray chevron; Rice, silver above blue; Texas, white above orange; Vanderbilt, black and gold; Wisconsin, bright red; Yale, royal blue.

The University of Memphis Alumni Association has been in existence for almost 70 years and represents more than 60,000 alumni of the University.

The mission of the Alumni Association is to strengthen the relationship between the alumni and their alma mater in order to effectively support the University's priorities. It seeks to achieve this mission through communication, activities and events that involve and inform alumni.

In addition to general alumni programs, the Association sponsors 19 geographically based area clubs and 16 college and special-interest constituent chapters that provide opportunities for grass-roots involvement by alumni.

The Alumni Association's activities and programs are governed by a volunteer Board of Directors, and the diverse interests of alumni are represented through the Alumni Council.

Membership in the Alumni Association is open to all graduates and former students of the University who pay annual or lifetime membership fees. New graduates receive their membership at no charge for the first year following commencement. Parents and other non-alumni supporters may become affiliate members upon payment of membership fees and acceptance by the Alumni Board.

The Association is housed in the Alumni Center, a beautifully furnished facility located on the corner of Spottswood and Normal. In addition to housing the alumni offices, the facility annually hosts more than 450 meetings and events that attract the participation of 11,000 alumni and friends.

**UNDERGRADUATE  
CANDIDATES FOR DEGREES**

**GRADUATION WITH DISTINCTION**

Based on a grading system of "A" as 4.0, three designations of graduation honors are recognized.\*

Summa Cum Laude	.....	With Highest Distinction	.....	3.80 - 4.00	.....	Gold Cord
Magna Cum Laude	.....	With High Distinction	.....	3.50 - 3.79	.....	Crimson Cord
Cum Laude	.....	With Distinction	.....	3.25 - 3.49	.....	White Cord

**GRADUATION WITH HONORS**

With the approval of the University Honors Council, The University of Memphis offers several departmental honors programs. These programs involve a combination of special honors course work, independent study, and usually an honors thesis or project. Students who successfully complete a departmental honors program are awarded their degrees with honors in their area of concentration (e.g., With Honors in English).

\*Note: Because of time limitations imposed in preparing this program for commencement, listing for graduation with distinction was based on a minimum of forty-five (45) graded semester hours and the grade point average as of the term prior to the final semester. Final determination of graduation with distinction will be based on a minimum of fifty (50) graded semester hours, including the final semester, and on the cumulative grade point average as of graduation.

## THE GRADUATE SCHOOL

*Vice Provost for Research and Dean of The Graduate School*

*Linda L. Brinkley, Ph.D.*

The Graduate School of The University of Memphis is the center of advanced study and research within the University. The basic objectives of The Graduate School are (a) to preserve and disseminate knowledge now available in the humanities, the sciences, and the various professional areas represented by the departmental graduate faculties; (b) to extend knowledge through basic research; and (c) to prepare men and women to assume a more responsible and useful role in society.

## THE SCHOOL of AUDIOLOGY AND SPEECH-LANGUAGE PATHOLOGY

*Dean Maurice I. Mendel, Ph.D.*

The School of Audiology and Speech-Language Pathology provides students with the fundamentals of communication processes and disorders that provoke critical thinking and problem solving. At the **master's level**, the program places emphasis upon theoretical and applied aspects of communication disorders that prepare graduates for service provision careers within the field and for further graduate study. At the **doctoral level**, the program emphasizes the theoretical and applied aspects of communication disorders that prepare graduates for academic research and teaching positions within the field and for post-doctoral graduate study. The program is accredited by the American Speech-Language-Hearing Association. We are proud of the following graduates:

## CECIL C. HUMPHREYS SCHOOL OF LAW

*Dean Donald J. Polden, J.D.*

The faculty of the School of Law is proud to present for conferral of the Juris Doctor degree the men and women who have successfully met all of the requirements for graduation as established by the School of Law. These graduates are not only prepared to enter into the practice of law at this time, but they are prepared for a lifetime of leadership in the legal profession. The School of Law endeavors to inculcate in each graduate a sense of responsibility to improve the providing of legal services to all persons and segments of society. Above all, the School of Law endeavors to impress upon each graduate the necessity for maintaining high ethical standards which are expected of lawyers in today's society. These graduates are entering a profession that is vital to the preservation of a free and democratic society, and they are will prepared for the challenges that lie ahead.

## THE LOEWENBERG SCHOOL OF NURSING

*Dean Toni Bargagliotti, DNSc.*

The primary function of the School of Nursing is to offer a program of study designed to prepare students for careers in professional nursing. As a part of a comprehensive university, the School of Nursing is dedicated to the development of scholarship in nursing and to providing services supportive of the institutional mission. The School of Nursing is committed to the following purposes: (1) Provide a curriculum leading to the degree of Bachelor of Science in Nursing essential to beginning professional practice and graduate study in nursing; (2) Promote the intellectual, personal and professional development of students by offering a curriculum which combines a strong liberal education with the professional major; (3) Provide a plan of study with flexible options that are responsive to the individual learner's needs; (4) Encourage the use of opportunities available in a comprehensive university setting to foster values, attitudes and personal qualities essential to living a fulfilling life and contributing to society; (5) Produce graduates who demonstrate competence in conceptual, functional and interpersonal skills basic to beginning professional nursing practice in a variety of settings. (7) Prepare graduates who assume leadership roles to effect change for a healthy society. The program is accredited by the National League of Nursing.

## THE UNIVERSITY COLLEGE

*Dean H. Ramsey Fowler, Ph.D.*

As The University of Memphis' college of lifelong learning, University College works with students on the development of individualized and interdisciplinary programs and/or with students whose schedules and places of residence inhibit or prevent them from completing courses on the main campus. Through Bornblum Judaic Studies, it presents the rich intellectual and cultural traditions of the Jewish people within the contexts of world cultures. The Paralegal Studies program offers baccalaureate professional training. And finally, through its division of Baccalaureate Programs, it offers students the opportunity to develop and complete individualized and interdisciplinary concentrations within the Bachelor of Liberal Studies and the Bachelor of Professional Studies degrees.

## THE HERFF COLLEGE OF ENGINEERING

*Dean Richard C. Warder, Jr., Ph.D.*

The Engineering College's function is to provide education and research opportunities in the principal fields of engineering and engineering technology for the benefit of the industries and agencies of the metropolitan area, the state, and the nation. This purpose is accomplished by providing professional education in the principal fields of engineering, education in the major areas of four-year engineering technology, and graduate education in all areas. The programs in engineering and engineering technology are accredited by the prestigious Accreditation Board for Engineering and Technology. The following are the degrees offered with the appropriate concentrations within the respective areas:

### BACHELOR OF SCIENCE IN CIVIL ENGINEERING

Candidates for this degree have majored in civil engineering with a concentration in environmental engineering, foundation engineering, structural engineering, transportation engineering, or construction engineering.

Scott Richard Fletcher, *summa cum laude*

## THE COLLEGE OF EDUCATION

*Dean Nathan L. Essex, Ph.D.*

The College of Education pursues six stated goals. One goal is "to provide preparation programs that produce teachers and certain other professional personnel sufficient in quantity and competence to help meet the needs of the state, region, and nation."

Undergraduate programs provided by the College of Education lead to the Bachelor of Science in Education..

Degree programs consists of three basic components. General Education courses comprise approximately 45% of each degree program. Professional courses make up from 25% to 40% of the total requirements, depending on the particular program followed. The remaining portion is used to develop one or more specializations.

In addition to prescribed courses, graduates of the various degree programs are required to meet criteria related to personal and professional fitness for their chosen careers. Field-based laboratory experiences are included in all teacher preparation programs in the College.

### BACHELOR OF SCIENCE IN EDUCATION

Candidates for this professional degree have studied in programs covering three broad fields: curriculum and instruction, health and physical education, and special education. These several teacher education preparation programs cover four majors which, in turn, are subdivided into some twenty academic teaching endorsements. The College of Education also offers through this degree majors in the non-teaching fields of consumer science and education, health and safety, recreation and park administration, and rehabilitation education.

## THE COLLEGE OF COMMUNICATION AND FINE ARTS

*Dean Richard R. Ranta, Ph.D.*

The College of Communication and Fine Arts is ultimately centered on visual and audible symbols whose rational and emotional values it is the mission of the College to create and explore. In the belief that perception is largely shaped by experience, the College of Communication and Fine Arts offers a range of symbolically rendered experiences, both individual and collective, in the hope of broadening and sensitizing the perceptions of its students.

Through its various professional courses of study, it prepares students to work toward careers in the fine or applied arts, communication, or the performing arts, whether as practitioners, teachers, artists, or consultants. The College offers three degrees by which to accomplish its purposes:

### BACHELOR OF ARTS

Candidates for the oldest of the traditional baccalaureate degrees are students who have majored in art history; journalism with concentrations in either advertising, broadcast news, public relations, or news editorial; or theatre and communication arts with concentrations in broadcast and electronic media, communication, film and video production, or theatre.

## THE FOGELMAN COLLEGE OF BUSINESS AND ECONOMICS

*Dean Donna M. Randall, Ph.D.*

The Fogelman College of Business and Economics offers a comprehensive undergraduate degree, the Bachelor of Business Administration degree. The goal of the undergraduate program of the Fogelman College of Business and Economics is to provide the basic education needed to prepare a person to enter the field of business and to move rapidly from an entry level position into a managerial position.

We believe the curriculum that best accomplishes this goal consists of four components. First, a broad foundation of course work is provided in the liberal arts and sciences. At least 40 percent of the work taken by each student in the Fogelman College of Business and Economics is in the humanities, the social sciences, the natural and physical sciences, communications, and mathematics.

Second, the curriculum includes a significant amount of study of the economic and legal environment of business and introduces each of the major functional fields of business—management information systems, accounting, finance, management, and marketing.

Third, the curriculum provides for a choice of a major by the student. The student is permitted to select a major from accounting, business economics, finance, risk management and insurance, real estate, management, management information systems, production operations management, marketing management, sales, logistics marketing and international business.

Fourth, the Bachelor of Business Administration curriculum provides students with a number of open electives. Through these electives, the student may select courses particularly suited to her or his own interests, thus providing an opportunity for the student to pursue in greater breadth and depth the study of business or related fields.

## THE COLLEGE OF ARTS AND SCIENCES

*Dean Ralph J. Faudree, Jr., Ph.D.*

The aims and purposes of The College of Arts and Sciences are summarized in these words that serve as part of our official statement in the catalog issue of the University Bulletin: "The program of liberal studies aims (1) to provide students with a store of factual knowledge; (2) to introduce them to varying sets of principles; (3) to stimulate them to think about and to evaluate these facts and principles; and (4) to encourage them to order their own affairs and those of society with the talent, insight, and discrimination which they develop." We have been privileged to pursue these aims with the following students who are candidates for the five degrees which we offer:

### BACHELOR OF ARTS

## BACHELOR OF SCIENCE IN CHEMISTRY

The Bachelor of Science in Chemistry is a professional degree designed for students who wish to complete more work in chemistry than is possible in other programs:

Tung Thanh To, *magna cum laude*

Julie Marie Kincheloe

**THE DEPARTMENT OF AEROSPACE STUDIES  
AFROTC DETACHMENT 785  
CANDIDATES FOR AIR FORCE COMMISSION**

The Department of Aerospace Studies offers a curriculum to prepare men and women for commissioned service in the United States Air Force. The courses and Leadership Laboratory are designed to complement the student's work in her or his major field of study. A minor in Aerospace Studies is offered to those who complete 18 semester hours of Air Force ROTC courses.

The General Military Course, open to all University students, comprises four semesters of survey-level instruction on the development and organization of the Air Force. A month of summer training at an active Air Force base leads to membership in the Professional Officer Course for selected cadets and applicants from the University at large. During their final two years of graduate or undergraduate schooling, Air Force ROTC cadets study comprehensive courses in leadership and management and American defense policy. The cadets organize and conduct a broad range of extracurricular activities to develop leadership skills and managerial experience to meet the course objectives of Leadership Laboratory.

Upon graduation and completion of the Air Force ROTC program, the cadets are commissioned as active duty Second Lieutenants and assume the responsibilities of managing our nation's aerospace defense resources.

Second Lieutenant Robert D. Moelter  
Second Lieutenant Guy N. Gibson  
Second Lieutenant Christopher W. Smith

**THE DEPARTMENT OF MILITARY SCIENCE  
ARMY ROTC BATTALION  
CANDIDATES FOR ARMY COMMISSION**

The Army ROTC Department of Military Science offers a two-year and a four-year program of study in leadership and management leading to a commission as a Second Lieutenant in either the regular Army, the National Guard, or the Army Reserves. These programs are open to men and women.

The *four-year program* consists of the Basic Course, normally the Freshman and Sophomore years, and the Advanced Course, normally the Junior and Senior years. The Basic Course prepares students for the Advanced Course and provides an education in citizenship, basic leadership, management skills, and enrichment experiences required to become an effective junior officer. The student learns about the wide range of Army career specialties. Advanced Course students normally attend a six-week leadership practicum called Advanced Camp between their Junior and Senior level of the Advanced Course. This camp is conducted at an Army installation. Students are provided uniforms, room and board, medical care, travel to and from camp, and are paid approximately one-half the pay of a Second Lieutenant while in camp.

The *two-year program* consists of the Advanced Course only. Selected students may qualify for entry into the two-year program at the Advanced Course level by completing a challenging six-week basic leadership experience during the summer at Fort Knox, Kentucky. Veterans, National Guard or Army Reserve personnel, and students who have completed 3 or more years of Junior ROTC may also qualify for advanced placement into the Advanced Course.

In addition to courses offered for academic credit, the Military Science program sponsors extra-curricular activities. The Tiger Ranger Company and Color Guard are open to all Army ROTC students.

Students are eligible to participate in Army ROTC sponsored activities held throughout the school year. These challenging adventure activities include backpacking, field training, mountaineering, rappelling, land navigation, orienteering, and survival training.

2LT Christia D. Churchill  
2LT Michael W. Wood

**THE DEPARTMENT OF NAVAL SCIENCE  
NAVAL ROTC UNIT  
CANDIDATES FOR NAVY AND MARINE CORPS COMMISSION**

The Department of Naval Science provides a four-year and a two-year program of instruction leading to a commission as an officer in the United States Naval Reserve or Marine Corps Reserves. The program is voluntary and students may withdraw from the program at any time during their freshman year. At the start of the sophomore year, scholarship students enter into an agreement with the Department of the Navy that specifies active duty service after college work is completed. These programs are open to men and women.

The four-year program is geared to students who enter the NROTC program as freshmen. Students are introduced to the field of naval science, which encompasses a broad variety of subjects ranging from basic seamanship to fleet operations. Topics covered during the first half of the four-year program include principles of naval ships systems, naval weaponry, seapower, and maritime affairs. The second half (junior and senior years) is devoted to navigation and naval operations, naval leadership and management, and, for Marine option students, amphibious warfare and a study of warfare through the ages. Six-week summer training cruises are also part of the naval science program. While participating in summer training, students receive per diem and are provided room, board, medical care, and travel to and from training.

The two-year program is offered to upper level students only. Students apply for enrollment through the Professor of Naval Science before the spring semester of their sophomore year. Following acceptance, students attend the six-week Naval Science Institute in Newport, Rhode Island, during the summer between the sophomore and junior years. Upon return to campus, students are enrolled in the NROTC program and participate as regular scholarship students.

Upon graduation and completion of the Naval ROTC Program, midshipmen are commissioned as Ensigns in the United States Naval Reserves or Second Lieutenants in the Marine Corps Reserves and execute their active duty service agreements.

# UNIVERSITY IMPACTS LOCAL ECONOMY

The University of Memphis contributes almost three-quarters of a billion dollars to the Memphis economy each year, a study by the U of M's Bureau of Business and Economic Research has revealed.

But the bureau's report points out that the University has a far greater impact on the community because of the increased earning power of its graduates and their role in business and civic activities.

Among the key findings of the study:

- The University of Memphis, with a \$153 million annual budget, pays its faculty and staff \$111 million a year.
- The University spends \$42 million for goods and services—most of them purchased in the Memphis area.
- The University's approximately 20,000 students earn an estimated \$175 million at full- and part-time jobs off campus.
- University graduates typically earn \$600,000 more over their working career than their high school classmates who did not complete college. That means the almost 36,000 U of M graduates living in Shelby County will earn \$21 billion more during their working lives.

The report said the University's direct impact on the local economy amounted to \$341 million. That figure included salaries, goods and services, student salaries and visitors.

But when the researchers considered the effect of the University's expenditures and salaries as the money was spent throughout the community, the total impact was placed at \$774 million. Economists assume that a dollar paid in salaries or for goods and services "turns over" or is spent more than twice within a community, thus increasing the total impact of the money.

The Bureau of Business and Economic Research, an arm of the Fogelman College of Business and Economics, began the study early this year by surveying U of M employees, faculty, students and

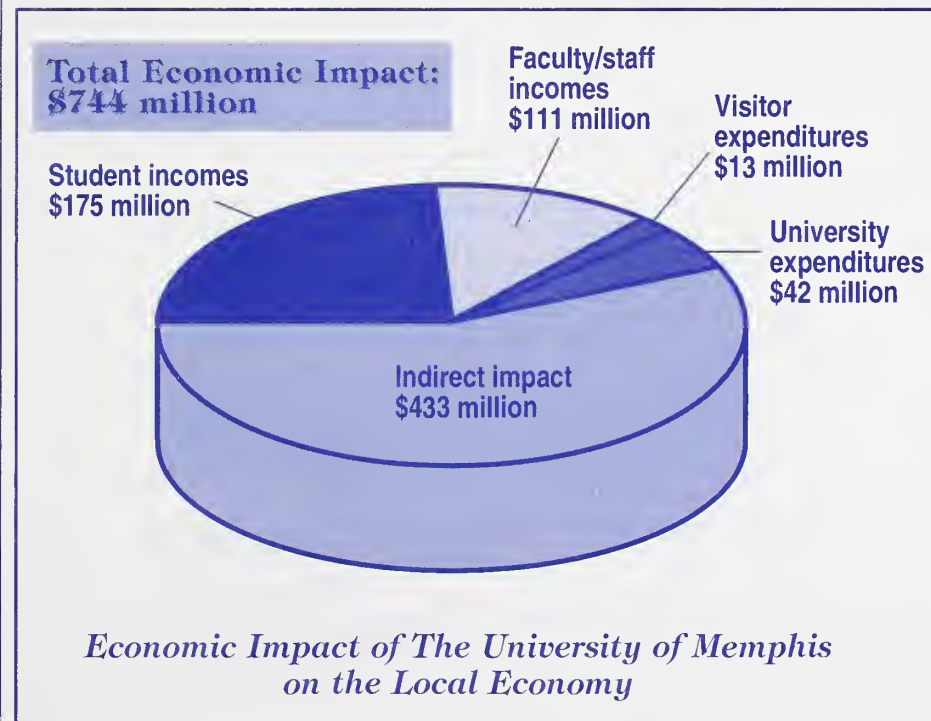

graduates. More than 1,400 people responded to detailed questionnaires about their spending habits, income, jobs and civic activities. Data were also supplied by several University agencies.

The study revealed the gross family income for faculty and staff averaged \$62,444, with each employee contributing an average of \$26,510 to the local economy. Typically, employees spent \$600 a month on housing, \$200 a month for utilities and \$400 a month for food. The typical employee spent \$1,000 a year for recreation and another \$1,000 for medical expenses. They also contributed \$1,000 a year to religious and charitable organizations.

Thirty-eight percent of the approximately 20,000 students have part-time jobs, and 43 percent are working full-time, the survey said. The full-time workers who attend The University average more than \$27,000 a year in salaries while part-time workers average almost \$19,000.

"With more than 3,000 faculty and staff members, The University of Memphis is one of the community's largest employers," said U of M President V. Lane Rawlins. "The financial impact of what we pay our employees and what we spend with local businesses is an important part of the Memphis economy.

"But this survey shows that we are much more," Rawlins said. The contribution we make to our community is multiplied many times over by the increased earnings college graduates can expect during their lifetime. Our faculty and staff are active members of the community, and are a crucial source of well-trained, well-educated workers for Memphis-area businesses. Our University contributes to a higher quality of life for everyone in the community."

## NATIONAL ANTHEM

Oh, say can you see by the dawn's early light  
What so proudly we hail'd at the twilight's last gleaming,  
Whose broad stripes and bright stars through the perilous fight  
O'er the ramparts we watch'd were so gallantly streaming?  
And the rockets' red glare, the bombs bursting in air,  
Gave proof through the night that our flag was still there.  
Oh, say does that star-spangled banner yet wave  
O'er the land of the free and the home of the brave?

## ALMA MATER

Stand firm, O Alma Mater,  
Through all the years to come;  
In days of youth and beauty  
Thy halls have been our home.  
In time of preparation  
Great lessons didst thou teach  
Til now, O Alma Mater,  
The stars we'll strive to reach.

The University of Memphis is one of 46 institutions in the Tennessee Board of Regents system, the seventh largest system of higher education in the nation. The Tennessee Board of Regents is the governing board for this system which comprises six universities, 14 community colleges and 26 area technology centers. The TBR system enrolls more than 80 percent of all Tennessee students attending public institutions of higher education.

The University of Memphis is an Equal Opportunity/Affirmative Action University. It is committed to education of a non-racially identifiable student body.

### College and School Banners

Adding to the pageantry of official ceremonies and featuring symbolic images for each of the University's colleges and schools, the banners were first used in 1989. The background of each banner corresponds to the color of that unit's academic

regalia hoods and sleeve chevrons. Crowning each ensign are stripes indicating disciplines within the division, while a gold laurel wreath encircles each emblem.
