iTunes U

An Open Solution for Hosting Multimedia

Presented by:

Andrew Hinote & Diane Forand

What is iTunes U?

iTunes U is a powerful distribution system for everything from lectures to language lessons, films to labs, audiobooks to tours. iTunes U is an innovative way to get educational content into the hands of students.

Building Your Site

- Private site to start off
  - Same features as a public site, for you to develop in and build up a library.

- A library must have approximately 100 pieces of educational content, and meet Apples design requirements to become publicly listed in their directory.

- You can run private and public sites to provide faculty with the option to keep content private or open to the world.

YOU, *improved!*

A comprehensive community college.
Offering career and transfer associate degrees

More Information

Check out the next few slides for more information that answers most of the questions asked in the session.
More Info

- **Getting to iTunes U:**
  - Download and install iTunes.
 - Open iTunes and click the "iTunes Store" menu item in the left pane.

  - Click "iTunes U" along the menu at the top of the store.

More Info

- **Getting to a Specific Institutions iTunes U Page**
  - Enter the main iTunes U site
  - Click "Universities and Colleges" on the right side of the window.

  - Pick the school you want to view (I recommend Bristol Community College!)

More Info

- **Apply for your own iTunes U Site**

  Use the following URL:

  https://eduapp.apple.com/qforms/start/itu?dst=enroll0&pdname =Itunesu#main:enroll0:NEW_RECORD@Itunesu@null@null@fal se

  I recommend you apply for an Internal (private) site for now. You can work with your Apple rep later on if you want to transition your site from Private to public. Internal will also allow you to play and learn the system before going public!
