SGA primaries over Who will clinch top seats?

By
John J. Beaton

In what seemed like an unusually high voter turnout for a mid-year election, the Student Government Association (S.G.A.) concluded its primaries for the Presidential and Vice-Presidential seats recently vacated by John J. Beaton, Jr. and Erin E. McDermott.

Dilip DeSilva, a virtual unknown to S.G.A. politics, pulled a first-place slot on the Presidential ballot with 249 votes, while veteran S.G.A. member, Daniel J. Darcy, rounded out a close second with 194 votes. Eliminated from the final round were Margaret A. Hayes (103), Joseph Mucci (94), and Mark Patterson (55). Both DeSilva and Darcy will continue on to the final elections on Tuesday, February 17 and Wednesday, February 18, in front of the bookstore.

Topping the Vice Presidential bill were Lisa Veilleux and Joseph Moore who eliminated Ed Ward, with 105 votes, from the final election. Veilleux fared considerably better than Moore with 259 votes over his 145.

Responding to his showing in the primary, Darcy commented, "I was really excited about the voter turnout and I can tell by the margin of difference that I'll have to put a lot more effort into the final election."

A student advocate for some time now, Darcy hopes to stress his experience as a leader on campus. "I've been on the S.G.A. for three and a half years now and in that time I've always

represented the students in a fair, impartial manner and I hope to continue doing so as S.G.A. President. I've long since established a good working relationship with my peers and the administration and I'd hate to lose that all now."

If elected, Darcy sees the challenge of many goals ahead of him. "There should be more student involvement on campus, not just in S.G.A., but in all walks of student life. Being a commuter for two and a half years, I'd like to see them becoming more involved - they do make up two-thirds of the students here at Bridgewater.

"I'd also like to see an alternative to the high prices of the bookstore," he continued, "I know that's not easy, but it's something that I've always wanted to tackle. Also, being familiar with the needs of the Greek Council, I would have to stress the benefits of fraternities and sororities on campus, asking that they receive fair representa-

tion and recognition from the administration."

Darcy hopes for a strong voter turnout asking that "more students recognize the need for their involvement in making the S.G.A. work for them as their official representative body."

Vice Presidential candidate Lisa Veilleux, when asked about her strong showing, responded, "I was very happy that I won by such a comfortable margin, I feel a little more secure going into the finals."

Although on the S.G.A. for a little over a semester, Veilleux has emerged as a strong student leader. Having chaired the Town/College Relations Committee last semester, Lisa was an active link between the students on campus and Bridgewater's town officials. "I hope my past record on the S.G.A. shows my sincere dedication and overall ambition to work for the students."

Senator Kerry visits BSC

By
Bill Bilodeau

On Wednesday, Feb 11, U.S. Sen. John Kerry, D-Mass., spoke before an interested crowd in an overflowing Campus Center Demonstration Room. After being introduced by BSC President Dr. Gerard Indelicato as a possible future presidential candidate, Kerry talked for about one-half hour on the problems facing the American public today. Kerry attributed most of these problems to the policies of the Reagan administration. He also touched upon the apathy of the voting public as a cause of our present economic woes.

Kerry pointed out that although the Congress has been blamed for our \$2 trillion deficit, it has been as much the fault of the present administration. "Each year Congress puts out a budget that is less than what the president has asked for."

Kerry then attacked the president's policies further by explaining how the Reagan administration's three-sided domestic policy of: i)cutting domestic spending; ii)increasing military spending; iii)lowering

taxes, has hurt everyone, including those of us in the BSC community. He remarked that "they" have cut educational funding, and cited the recent rise in the infant mortality rate in Boston as an example of how much social cuts have hurt disadvantaged women and children.

The remainder of the speech focused upon the increasing U.S. trade deficit and its long-term effect on the American consumer. According to Kerry, "The greatest export in the United States today is jobs."

He also mentioned that thirty-six of our fifty states are currently experiencing recessions, citing the euphemism "rust belt," which the Midwest's industrial belt has come to be known as.

After the speech, Kerry answered questions from the audience. He fielded inquiries on topics ranging from aid to El Salvador to his own thoughts on balancing the budget.

As the hour-long talk came to a close, former Lt. Governor Kerry was presented with a BSC hat and sweatshirt by his friend and former colleague Dr. Indelicato.

Suspect arrested in hit-and-run tragedy

By
Bill Bilodeau

During the past week, new developments have emerged in the hit-and-run death of Bridgewater State College freshman Tracy Spinazola.

Bridgewater Police last weekend arrested a sixteen year old Bridgewater man, charging him with motor vehicle homicide and leaving the scene of an accident after an injury had occurred.

The arrest followed a week-long investigation centering around eyewitness accounts of the incident, as well as evidence collected at the scene. According to Sgt. Kevin Chiocca, the Bridgewater Police had been following several leads, one of which eventually indicated a

suspect. A search warrant was obtained, and upon further investigation it was revealed that the suspect's vehicle, a black Chevrolet Camaro, matched paint chips found at the site of the accident. Sgt. Chiocca also mentioned that fabric threads found on the Camaro appear to match the clothing of the victim.

As to earlier reports that the suspect vehicle was a light colored Lincoln, Chiocca said, "There was definitely a white Lincoln present at the scene, but we also had reports of a smaller, dark vehicle there."

The suspect, whose name the police would not reveal due to his age, was arraigned Monday in Brockton District Court.

How do you feel about the new alcohol policy?

By
John J. Beaton

EDITOR'S NOTE: In last week's *Comment* there appeared a story on new sanctions that will result when the *Alcoholic Beverage Policy* is broken on campus. A memo from the *Housing Department, Office of Student Services*, stated that any violation of this policy may result in counseling for the accused student. The following students voiced their opinions on the matter.

Steven DiClemente
Senior
Student Trustee

I think it's great that the administration is trying to help the students, but I think the students of BSC should have more of a say as to what would be most beneficial to them.

(Photos by, Beaton, Beckvold, Bilodeau, Burns, and Van Dyke)

Mary Cornacchio
Senior
English Major

I think sanctions at the college level are inappropriate. A support group is necessary, although it should not be associated with offenders of the system. There should be a better way to police the resident halls.

Ed Nicoletti
Junior
Student Court

Although I agree that there is a problem with drug and alcohol abuse on campus, I think that the new sanctions in the alcohol policy will have a more negative impact than a positive one. Enforced counseling will only result in further disagreements with this policy. I would like to see a more educational and supportive program adopted prior to punitive measures.

Erin McDermott
Junior
Program Committee

I feel that the new alcohol policy seems to be a little harsh. The one-time offenders should either be warned or receive a punishment that isn't so severe, rather than getting kicked out of the dorm for seven days and having to attend counseling. I agree with the multiple offenders having to attend, but not a first-time violator.

Dan Darcy
Senior
Phi Pi Delta

The sanctions appear to be harsh and I find it a little disappointing that no students were included on the committee to adopt this policy; however, this situation should raise our awareness to the serious nature of this problem.

Carolyn Tetreault

Junior
Commuter

Drinking is a big problem among kids that must be stopped, because it does lead to alcoholism. The policy is good in some ways, although my concern is that it might turn into an Alcoholics Anonymous. I suppose the sanction depends on the individual.

Henry Beckvold
Senior
Yearbook Staff

Residents should have had much more of a say as to what went into the policy. It should be more structured like AA in which the program is voluntary. The emphasis of the program should be placed on the freshman and sophomores so the problem won't arise later in their college career.

as a leader, Veilleux responded, "I believe I work well and communicate with people on all levels — both with students and administrators — and when you work well with people they respect you, which makes it a lot easier to get your goals accomplished; work with people, not against them. I hope the students consider this when choosing their candidate for Vice President."

Candidates DeSilva and Moore were not available for comment.

Dean Toppi, Elections Director, was happy with the overall turnout, "It was very good for a primary election." However, he did run up against a few problems with the candidates. "A few of the candidates were campaigning in front of the elections table — this will not be tolerated in the final election. Election codes will be strictly enforced, any violations may result in immediate disqualification."

Also on the ballot next week

will be the race for Attorney General. Incumbent parliamentarian Jacqui Gravel will be running against Richard DeRosa.

The Psi Chi National Honor Society in Psychology shall conduct its annual 1987 Membership Drive at Bridgewater State College starting February 16th, according to Dr. Richard T. Colgan, Chapter Sponsor, and Miss Jeannine F. O'Donnell, President.

Membership in Psi Chi, founded in 1929 for the purpose of encouraging, stimulating, and maintaining excellence in scholarship and advancing the science of Psychology, is earned and is for life. Bridgewater State College achieved the national distinction of its own affiliated Psychology Chapter with the chartering installation ceremonies conducted Sunday, November 23rd, 1986. Psi Chi, an affiliate of the American Psychological Association and member of the Association of College Honor Societies, has, over the years, achieved the status of being the nation's top honor society in Psychology. "It (Psi Chi) has become so,"

explained President O'Donnell, "because of its phenomenal acceptance by psychology's academia—faculty, counselors, deans, and administrators—and by the profession itself as represented by national, regional and local psychological associations." At the November '86 Charter ceremonies approximately 40 students, including faculty and alumni were formally installed into BSC's newest honor society. Among those installed were Professor Emeritus Elizabeth Hollis, distinguished and longtime faculty member of the Psychology Department, Professors Drake Chisholm and Louis Schippers, currently of the Psychology Department faculty.

President O'Donnell pointed out that BSC the National Organization's requirements for consideration to candidacy in Psi Chi are registration for major or minor standing in Psychology, a "B" average or better in psychology courses, and being

in the highest 35 percent of their class in general scholarship. For graduate students, an average of "B" or better in all graduate courses, including psychology, is required. Additionally, President O'Donnell explained, the candidate shall be evaluated for high standards of personal behavior and the affirmative vote of three-fourths of the Psi Chi members present at the Chapter's regular meeting.

Juniors, Seniors, and Graduate Students who believe they meet these requirements are encouraged to obtain from President O'Donnell or Dr. Colgan, the required "Application for Psi Chi Membership." Applications may be obtained in Rm. 330 Burrill Academic Building, and the called-for application information submitted at the earliest possible date. For consideration to the 1987 Installation Ceremony, the **deadline for applications is Monday, March 30th, 1987.**

If communication's the key, this door is locked

During the recent barrage of snow which has been inflicted on Southeastern Massachusetts, one complaint has been repeatedly sounded, both to the administration and among the students themselves. *Why can't we find out earlier and easier that classes have been cancelled?* Many students are upset because they have gotten up, dug their vehicles out, and headed for the school only to find that they could have stayed in bed.

In many cases, it is the students own fault for not having tuned into school cancellation announcements, but this is not always the answer. Last Monday, classes were cancelled as of twelve noon. The decision was announced at ten thirty a.m. By the time the announcement was broadcast over regional radio stations (if they would even carry such an announcement so late in the morning), numerous students were probably already on their way to the college.

One must read these words with the realization that the responsibility of cancelling a days worth of classes is a difficult one to have, and Mother Nature has not exactly been cooperating thus far this semester. The point being made is that there is a flaw in the system of communication here.

This flaw extends throughout the BSC community. Why, for instance, must a resident of the student apartments walk (or ride) all the way to Boyden Hall to find out their French II class was cancelled for the day? More importantly why were students who had been in school all day surprised to find out that there had been a bomb scare in the morning one day last week?

There are two answers to these questions, and each points to a possible solution. First, the inter-campus communications network here is the pits. It basically consists of posting flyers in each building on campus. Second, students seem to require being hit over the head with certain information in order to comprehend it. We've all become desensitized to flyers and posters in the halls and too few of us bother to listen to the most current campus source of information—WBIM. That works out well, however, since the school rarely bothers to use the radio station to disseminate needed information.

News travels faster here from friends telling friends than by any method thus far devised by the school. The fastest method of communication here at BSC is word of mouth.

That just won't do.

The Metamorphosis of a college student..

Drug testing is a violation of our constitutional rights

By *Patricia...* began on a limited basis but was *its worth the undermining of our*

Some have called it the most controversial issue of the eighties. Others have called it a major abuse of power by a conservative administration. Some have feared it, while others have backed it whole-heartedly. Mandatory drug testing in the corporate and federal workplace has brought a new debate onto the scene of American life. This issue has divided political parties, journalists, and families themselves. But to many, it is not a two-sided issue.

On Wednesday, November 12, U.S. District Judge Robert Collins ruled that mandatory drug testing of Customs Service Employees violated individuals' Fourth Amendment Rights and should be halted. The ruling was in answer to a law suit filed in August by the National Treasury Employees Union which represents Customs Service workers. The testing program began in the summer under the direction of Customs Service Commissioner William Von Raab. The testing

there was no recognized drug problem in the workplace. This position was agreed to by Judge Collins who felt the drug testing was an act of illegal search and seizure.

Calling for a "drug-free federal workplace," President Reagan issued an executive order declaring mandatory drug testing for all federal employees. At what cost will this society receive a drug-free workplace? The Fourth Amendment discusses "the right of the people to be secure in their persons, houses, papers, and effects against unreasonable searches and seizures." The amendment goes on to give issuance of general warrants. A random drug test given to an individual, is a test given without reason. An executive order stating that all federal employees are to be subject to random mandatory drug testing is analogous to the issuance of a general warrant. The unconstitutional basis of these actions is obvious. Are the possible benef-

There is no denying the national drug problem, but there are other ways of combating it other than throwing away personal freedom and security. The writers of the Constitution of the United States set up a delicate balance. It is a balance that our country is based on. It is a balance that prevents abuses by those in power by stating clearly what rules one must live under while also stating what rights and freedoms each individual possesses to protect himself. This balance cannot be slowly chipped away and still be expected to hold up.

The Constitution must be upheld. Evidence of drug abuse or reasonable cause to suspect someone, should be a prerequisite to a drug test. If an individual is allowing outside influences to affect his job, then and only then should his private life come under scrutiny. One's Fourth Amendment rights cannot be ignored; this is after all, a democracy.

Explanation not accepted

To the Editor:

In response to your Editorial Comment in last week's issue of *The Comment*, it seems to me that Mr. Rossi conveniently dances around a major issue of his article. How did Mr. Rossi get his information about the SGA members who were on AP? He does not attribute his sources, as every good journalism student knows he must. In talking to Mr. Rossi right after the article was published, he said

that the fact that the students were on AP was a matter of "Public Record." If this is so, then how come he is not allowed to look at the students' grades who are in question. And if he is not allowed to look at those grades, then who is his source? The people who did not tell Mr. Rossi they were on AP for the "Record" and therefore Mr. Rossi is relying on hearsay, and any reasonably good journalist wouldn't use it. The issue isn't

whether the story should /shouldn't have been reported, but whether the students involved had their rights and reputations trampled on in your publication. In my opinion, the *Comment* was in grave error in printing the names and reasons of these SGA members' departure from the Student Government, and done in a slipshod manner.

Thank you,

Bridgewater State Blues

By
Joe Mucci

What causes those Bridgewater State Blues that most students get when a new semester starts up? For this semester, one cause might be those long tedious lunch lines. Another major cause is that extreme drop in energy that comes in the late afternoon and makes eyelids feel they've got 100 lb. weights attached. These blues make it tough to get any work done (especially studying). The cold, ice and snow are other things which make us sing the blues.

Do these blues give us any benefits? It's difficult to say. For some, it's enjoyment to make a soap opera of their lives and dramatize the blues. For others, it's exhilarating to control the situation and discard the blues. The latter will then dwell on a solution, instead of the problem, and most likely reach their goals.

If you enjoy soap opera and are set in your mind that you want to mirror it, you should stop reading here....If not, I have

three solutions to soothe three popular "Blues" affecting all of us; agony of lunch lines, low energy reserves, and harsh weather.

The first solution is for those lunch line blues. Why wait in line for something when it takes away your money and time (and sometimes irritates your taste buds)? What's so bad about brown bagging it anyway? You save time, money, and you get to taste what you expect.

The second solution is for that energy dip in the late afternoon. A medical term for this condition is Hypoglycemia. Hypoglycemia means "too much insulin in the blood." When there is too much insulin in the blood it eventually eats up all the natural sugar, leaving the Hypoglycemia victim with a lethargic energy level. The Hypoglycemic pancreas does not secrete insulin at a steady rate (mainly because of poor circulation). The New England Journal of Medicine has explained that exercise regulates the pancreas to turn out a steady flow of insulin, resulting

in a constant energy level. Exercise can be done three to four times a week to derive benefits. Jogging, biking, and swimming are popular but studies show that one hour of brisk walking is just as beneficial as fifteen to seventeen minutes of swimming. With this practice the energy level will rise.

When the second solution is realized and put into practice it sets the stage for the third solution. "What can we do to change the harsh weather?" The fact is we can only change our reaction to it, which is the next best thing. Colds, flus and "mono" are products of low immune-systems which cannot combat a virus or other diseases successfully. Keeping the immune system functioning at high levels is the only way to maintain physical health. What can raise our immune systems?... You guessed it, that's right--EXERCISE. Make a commitment to start today. Don't worry if it's not like you to exercise. Do it for these benefits and stick with it! You deserve to feel great!

Editorial uncalled for

To the Editor

I am writing in response to your editorial of Feb. 5, 1987, "AP or Not AP." I would like to address two issues. First, the supposed selective enforcement of Academic Probation. Second, that there is no arbitrary GPA system set up.

The first matter at hand is selective enforcement of AP. I sincerely doubt that the Academic Vice President and other administrators lie in wait for student leaders to lower their GPA, so that "they" may be placed on Academic Probation. I sincerely doubt that any student leader is that important. Furthermore whether it is the SGA Comment, or any other club, I would guess to the Academic Vice President, it probably doesn't matter. I would hope that the administration has more to do than check GPAs. My guess is that up in Boyden they hope the number of students on AP drop each semester, thus boosting the average GPA of Bridgewater.

The second item is the GPA

itself. Freshmen should be allowed more leeway in regard to Academic Probation than any other group of people. They have a very difficult time adjusting to college life. I object very strongly to the thought that because seniors have harder classes than freshmen, that the standard should be lowered. Students should have a 2.0 minimum to graduate. Just because courses are harder seniors should at least enjoy them. They should have gained a certain maturity, more knowledge of their subject areas, and knowledge of the location of the library. Freshmen seem to lack some of these at first. The idea of lowering the standards of the GPA was absurd.

I feel that the entire editorial was uncalled for. If certain students can't keep their GPA up to certain standards then they belong on AP. We are here to get an education, not to major in extra-curricular activities.

Sincerely,
Mona McNamara

Check out the lobby tables

To the Editor

It is a Wednesday morning, approximately 10:45. I am sitting in front of the college bookstore trying to get a petition signed for the reduction of toxic waste in our drinking water. Beside me is a gentleman from the Army, Navy or Air Force, and further down from him is a man selling handbags, brief cases and so forth. On my right are two students trying to sell a ski trip weekend in Canada. At the table next to these students sits a man trying to find employees for UPS. Most of you are probably wondering what I am getting at, and rightly so.

My point is that everyday hundreds of students walk past these tables without even knowing what the people seated at these tables have to offer them. Not everyone at these tables wants money. Some of us just want to offer you a chance to get involved, an opportunity to work for credits, or a way to earn extra money while in college. Last year, I wrote an article for

The Comment concerning the lack of support or interest students here at Bridgewater have for the theatre. Well now I realize that it goes further and deeper than lack of interest for the theatre. We are talking about a lack of student involvement and interest in the FUTURE. Doesn't it bother any of you that you will have outstanding college loans to pay back after graduation, or that the water you are now, and will drink in the future, is or could be contaminated? I realize that many of my colleagues are busy and don't have the extra time to get involved. But, I'm sure we all have a few minutes to spare. Why not stop by a few of these tables on your next trip by the book store to see if any of these tables have anything to offer. That man selling handbags had a lot more people stop by his table than any of the other tables did. Would you rather add another pocketbook to your collection or would you rather have a clean environment to live in?

What's in a name?

By
Christine Howard

"What is that?" My friend Kirk asked, as we stood looking at the array of pasta and three-bean salads. "I don't really know, and I don't think I want to. It looks like different colored tortellini," said F. He decided to try some, and later regretted his decision. A few minutes later, Kirk, (he's a very inquisitive fellow), asked, "What is Mash Salad?", pointing to the sandwich bar board. It read TUNA and MASH SALAD and LICED HAM. "Hmm, sounds delicious. That's Tilly for you".

Little things like this just makes you wonder what exactly it is we're being served. They have such creative names at Tilly to disguise what it is we're being served. It's not spicy chicken, it's "Five Alarm Chicken". Or how about "Meatball Subs w/Red Sauce". Very descriptive, but what is it? Ketchup?! Then there is my personal favorite, "Buddy

Boy". This tells you a lot doesn't it? It sounds like a candy bar, no it's the traditional old stand-by, grilled ham and cheese.

I realize that they are just trying to spice up the menu with creativity, but I would rather a little description please. I mean, no matter what one names it, it's still barely fit for human consumption, and these creative names don't hide the fact that it's the same old fried, starchy, cholesterol-ridden carbohydrates. How can this be called a balanced diet? No wonder people gain weight freshman year. The diet is predominately carbohydrates along with (hard to digest) red meats, and little fish. This "well balanced diet" makes it tough on the small, but significant, portion of students who are vegetarians. Students aren't the only people who are displeased. In a recent conversation, President Indelicato voiced his displeasure, "Brown, wilted lettuce is not acceptable". He menti-

oned that he was meeting with the President of Custom Management (who, by the way, didn't want to eat the food, but preferred to dine out). Wednesday, I was amused to see the brightly colored placards, labeling Baked Chicken and Broiled Cod. Yeah, two things I can eat, and even veggies galore! However, things returned to the same old monotony with Fried Seafood Platter (microscopic seafood caked in batter) and burnt cheese pizza. Mmm, Mmm, Good.

I realize that trying to satisfy the varied tastes and appetites of 1000's of finicky college students is not an easy task, but it is a service we pay for. We may be a captive market, but we are paying customers. We deserve quality, and well-balanced, edible diets, everyday, not only when the President visits. Maybe if we all declined to eat in the dining hall for a few days Food Services would finally take our complaints seriously.

Time to forgive and forget

To the Editor:

What we need in this world of ours is more understanding; not more anger. Anger only causes more problems. Anger can be unjustly thrust upon the innocent and many times is.

Last week, some of the brightest and happiest people I have had the privilege to have known were reduced to a small, quiet group of barely animate individuals. As I watched them piteously stare at each other in a dark dining room taking extreme caution to avoid breaking the cold silence, I began to wonder why this group was now the target of such oppressive anger.

It all started with carelessness. Negligence towards the feelings of other individuals had resulted in uncontrolable rage. The group had not intended to harm

anyone. They had intended only to inform.

The situation grew worse through misunderstanding. When those who had been offended by the group grew angry, trouble began. Those individuals had a right to be upset. However, to get so irate with this group was just as unfair as the original injustice, carelessly brought upon them. Those who had never expected such reaction were viciously attacked by those who had never expected, and failed to understand, the careless oversight.

But why was there so much anger in the first place? Why? Because an oversight like this can cause much embarrassment and for many it can cause a loss of respect. How can someone lose respect from anyone who

truly cares about them? They can't. Those who do manage to lose respect never really respected them in the first place. There seems to have been too much anger over too little.

Everyone makes mistakes. We all make too many. We shouldn't be ashamed of them, because everyone fails now and then. We shouldn't be afraid to admit them. But quickly pointing them out to others is a mistake in itself. We sometimes forget that we're all prone to make mistakes. It's part of being human. When we forget this, we tend to expect too much of others and too much of ourselves.

Perhaps the most important lesson we can learn from all of this is to forgive and forget.

Meet the artist presents Trudi Miller: playwright

By Debra Willis

On Tuesday, February 3rd, Trudi Miller, playwright, director and actor, came to BSC to give a speech in the Formal Dining Room.

As she began her talk, she stated she was an actor, director and playwright, respectfully. She enjoyed acting the best and she proved this as she kept us on the edge of our seats and sometimes on the floor with the stories of her acting days. She also gave many good pointers to the aspiring actors and actresses in the audience.

Miller was quoted saying, "We actors are weird. When I

act, I'm crazy, I put my heart and soul into it. But when I direct, I'm serious." She continued to say (that) you can be as crazy as you want before the play starts, but you always have to take the time to get into character before you go on. If you don't then you won't have that "believability" the audience and the directors are looking for.

Miller stated that she got into play-writing quite by accident. She was attending a Bible meeting with a friend and made a joke about something. She got mostly angry stares except for one woman who was laughing on the floor. This woman came over to Miller after and said they should write a play together. Sure

enough that next year they wrote *Bless Me Aba*, Miller's first play.

Miller has won an award for her play called *Lonely is Better* and will be directing it next year at the Your Theatre in New Bedford. She has also written a play called *Designing Women*.

After her speech, she proceeded to give us a taste of her acting talent. She put on what she called *The Twelve Days of Christmas*. This was a comical version of a lady going crazy taking care of all the gifts she keeps receiving for 12 days straight. Her extraordinary humor along with some outrageous outfits made this one of the funnest skits I have ever seen. Good Luck to her and her career.

Trudi Miller spoke on her experiences as a playwright and as an actress last Tuesday night.

By The Light Of The Moon Could this be this year's album of the year

By David Spuria

Let me tell you about the album of the year. Yes, I know the year is young, yet I don't believe that anything will surpass the new Los Lobos album, *By the Light of the Moon*. This is the album of the year, maybe the decade. Just imagine a potpourri of styles: rock, soul, country, polka, funk and a touch of folk. Now imagine all of these styles combined with honest lyrics, gritty playing, and enough rock n' roll vocals to warm your heart and hot enough to burn your rug.

This album clocks in at warp speed and is reminiscent of the constant twists and turns of an Olympic Gymnastics team. Dave Hidalgo sings and plays various instruments including accordion, lap steel and a percussion ensemble. Steve Berlin plays the most passionate saxophone I've ever heard in a rock n' roll band of this type. And with

Conrad Lozaro (bass) and Louie Perez (drums) forming what I consider to be the best rhythm section in rock, this band can't be stopped. Pass the Nachos please! Justice should also be given to Cesar Rosas who plays a killer lead guitar and a mandolin that might make Bruce Hornsby's band feel intimidated. The music contained within this vinyl is simply boundless in respect to the style, drive and emotion it evokes. "One time, One night" leads off side one in a story-like fashion, taking Americana by the horns and dragging it through a one-half tempo composition, lead by Hidalgo's soulfully crying vocal. "Shakin' Shakin' Shakes" is enough compact explosive boogie to rattle most speaker casings loose. "Is This All There Is?" asks a big question and provides the listener with perpetual hooks to dance to. Side two starts off like a cannon with "Set Me Free (Rose Lee)". There are also two incredible folk-acoustic ballads

on side two, "River of Fools" and "Tears of God". Each is sung and played beautifully. This album strays, delicately between a chocolate mousse and 12-Alarm Chili. People with high blood pressure, phobias or any health-related problems should only listen to certain parts of this conglomeration of rockers and ballads:

But why album of the year you might ask? This album is very organic in the sense it does not use synthesizers, or high tech studio effects to prove its point. That seems kind of a trendy thing to do these days, but its only impressive if it works. On "By the Light of the Moon" it not only works, it encompasses every form of rock n' roll with originality, passion and American values. This is an amazing piece of American music with an obvious Mexican flavor. Don't buy one copy, buy four of them.

The saga of Vietnam relived in Platoon

By Sharon Cignetti

Many movies present a distorted picture of past events. *Platoon* takes an in-depth look at what occurred during the Vietnam War. The events are seen through the eyes of our hero, Chris Taylor (Charlie Sheen). As the days pass, our hero changes from a middle-class college kid who volunteered for the service, into a soldier.

Taylor describes his regiment as the men who have been forgotten by the rest of society. When he meets up with the platoon he is given the jobs that no one else wants. Taylor soon wins the respect of the other members of his platoon and is accepted into their family.

The command was divided between two platoon leaders, Sergeant Barnes (Tom Berenger)

and Sergeant Elias (William Defoe). Barnes is portrayed as an evil killing machine who is indestructible, while Elias is the protector of good. Conflict develops between the two sergeants, which brings a civil war upon the regiment, platoon against platoon. Morale becomes low because of the inner conflict that exists among the men.

The saga is a realistic account of combat during the Vietnam era. Unlike earlier movies about the war, *Platoon* shows the emotion and the day to day activities of the American soldiers. None of the men in the movie are made out to be super human, unlike earlier movies that depict the Vietnam War. Also starring Kevin Dillon, Keith David, and John C. McGinley, *Platoon* is a movie worth seeing.

A look at the latest films

By M. J. Gensler

The first movie I want to review is the new Judd Nelson film, *From the Hip*. The movie is about the trials and tribulations of Robin "Stormy" Weathers (played by Judd Nelson), a law school graduate who is sick of doing legal briefs in the law firm where he works. Stormy wants to get trial experience and will go to any length to get it. The story can be divided into two court cases. The second one becomes muddled by poor direction and what looks like a number of changes in the way the ending comes out.

From the Hip has a lot going for it, excellent cast, reasonably good plot, and a good location

(Boston-my favorite city). Judd Nelson and his co-star, Elizabeth Perkins, make a great team. I would rather have seen them in a romantic comedy together, than in this directionless picture. Somewhere the film lost something and it fails to satisfy the viewer. For what it attempts to do, it isn't that bad, it just shouldn't be taken on a serious level.

For a completely different film, Woody Allen's *Radio Days* couldn't be more different than *From the Hip*. Despite the title, the movie isn't strictly about radio from 1940 - 1945, but a vehicle used to describe the details about Woody Allen's childhood in Brooklyn, New York.

Catch A Rising Star

Catch A Rising Star will open its doors in Harvard Square this month, bringing regularly scheduled headline comedy to the Boston area for the first time. Following the booking policy of the Club's New York namesake, Catch A Rising Star will present nationally known

comedians Tuesday thru Saturday nights. The club is scheduled to open its doors on Tuesday, February 17, will also play host to special events, music and open mike nights on a regular basis.

Formerly Jonathan Swift's, Catch A Rising Star, will be highlighting such comedians as Jerry Seinfeld, Joy Behar, Roseanne Barr, Richard Belzer, John Mendoza, Barry Crimmins and Michael Hampton Cain. The new comedy spot will be located at 30 JFK Street, Harvard Square, Cambridge. For more information, please call (617) 661-9887.

Nite Club Confidential

Nite Club Confidential the fresh, funny and fast-paced musical that affectionately parodies the sophisticated night club scene, and the movies of the 1950's, comes to Boston for a four week engagement at the Next Move Theatre. It opens on February 10, with previews beginning February 3. Mail orders are now being accepted at Nite Club Confidential, Next Move Theatre, One Boylston Place, Boston, MA 02116 or by calling Zipcharge at (617) 423-5572.

Impulse Dance Company

The Newton Art Center will present the Impulse Dance Company on Sunday, February 22 at 2:00 p.m. Impulse will perform a sampler of choreography illustrating the roots and evolution of jazz dance. Impulse Dance Company fuses blues, funk and contemporary idioms with traditional dance styles to form a straightforward, without reservations espousal of concert jazz dance that has been entertaining audiences for over a decade. Tickets are on \$4 for NAC members, \$5 for general admission. Call (617) 964-3424 for reservations. The Newton Art Center is located at 61 Washington Park, Newtonville, MA

Boys Of The Lough

The Boys of the Lough will appear in concert at Sanders Theatre, Harvard University, Cambridge, MA at 8:00 p.m. on March 1. The Boys Of The Lough have taken the musical heritage of their native Ireland and Scotland around the world. The group consists of Aly Bain on fiddle, Cathal McConnell on flute and tin whistle, Dave Richardson on mandolin, cittern, and concertina, Christy O'Leary on

uilleann (elbow) pipes, and John Coakley on piano and guitar. Tickets are \$9.50 in advance and \$10.50 at the door. For more information call (617) 862-7837.

Campus Events

Carrie Lenard: Painter

On February 24, at 7:00 p.m. in the Bridgewater Formal Dining Room, Ms. Carrie Lenard of Palmer, MA will give a talk on her work as a painter.

Carol Daiker: Flower Arranger

Ms. Carol Daiker of Carol Daiker's Flowers will give a demonstration of the art of flower arranging. By using the influence of paintings such as Monet's *Waterlilies*, Ms Daiker will create six floral arrangements. The Demonstration will be held in the Bridgewater Formal Dining Room on March 31 at 7:00p.m.

American Women Poets: Silent No Longer

On March 10, in the Bridgewater Formal Dining Room, at 7:00p.m., Professor Lee Dunne of the Speech Communication, Theatre Arts, and Communication Disorders Department will

discuss the thinking of three major American women writers (Tillie Olsen, Denise Levertov, and Adreinne Rich), based on their books and poems. It will focus on the emergence of the voices of women poets.

College Bowl 87: The Varsity Sport of the Mind

The College Bowl will take place on February 10, 12, and 17, at 11 am in the Campus Center Foyer. The winning team will represent B.S.C. at the finals at Boston University. ACUI regulations require that to be eligible to enter the competition, individuals must be full-time status having a GPA minimum of 2.0.

Air Band Contest

Thursday, March 5, The Class of 87 will sponsor an Air Band Contest in the Campus Center Ballroom. Sign-up deadline is February 20. For more information stop by the info booth in the Campus Center.

Hypnotist

The *Astonishing Neal* will appear in the Campus Center Auditorium on February 25 at 8:00 p.m. Admission is \$2.00. Sponsored by the CCPC.

"Night, Mother"

A first in BSC theatre history

Marsha Norman's 1983 Pulitzer Prize-winning play, "Night, Mother", will be performed on the stage of the Rondileau Campus Center Auditorium February 19, 20 and 21. The production is being presented as a benefit for the Robert S. Mello Memorial Fund which provides financial support for B.S.C.'s theatre program. The two roles in this two-character play will be taken by Associate Professor Lee A. Dunne, acting Chairperson of the Department of Speech Communication, Theatre Arts, and Communication Disorders, and Dr. Suzanne Ramczyk, also of the department. The play is a study of a young woman who looks out on life and sees it as unfair. In addition, her lifetime with her mother is condensed into the 90 minute running time of the play.

This recital production of theatre faculty is a first in B.S.C. theatre history. It will provide an opportunity for the college community to observe those who teach can also do. Prof. Dunne

Radio Days

Cont. from p. 5

What Allen gives us is a glimpse into a culture that has long since vanished. Allen does not appear in the film, but rather plays narrator in this journey through yesteryear. Many of his regulars in his past projects are in this movie. Among the cast, the most pleasant is the infamous Diane Keaton.

received her undergraduate theatre training at Northwestern University and has studied with Lee Strasburg and Wynn Handman. She has also acted professionally in New York City. Dr. Ramczyk received her professional training on the West Coast and received her Ph.D. in theatre from the University of Oregon this past December.

Admission to the performances costs \$3.00 for B.S.C. students and senior citizens. Others will pay \$5.00. Tickets will be available from tables in the bookstore lobby or from the theatre box office in the foyer of the Campus Center Auditorium. Seating is limited and reserved, so early purchase is recommended. Performance times are 8:00 P.M. Thursday and Friday, and 7:00 P.M. on Saturday. Since the content of the play deals with suicide, a special panel discussion will be held following Saturday's performance featuring psychologists, a sociologist, and a modern drama specialist.

Speaking of voices, anybody who has ever taken a Voice and Diction course here at the college can do nothing but admire Mia Farrow and her incredible voice changing act in the movie. She gives an excellent performance. This film is *not* Woody Allen at his best, but it is definitely one of his better films.

\$70G Available in Scholarships

During the spring of this year at the College Honors Convocation and at the Annual Meeting of the Alumni Association \$70,000 will be awarded to undergraduate students--the result of the largest scholarship endowment ever assembled in the history of the College. In addition a number of awards will recognize individual accomplishments in a variety of academic fields and through involvement in campus and community leadership activities.

Information on each of the scholarship and award programs is outlined in detail in the 1986-1987 Student Handbook on pages 101 through 107. While a number of programs involve nomination and selection by members of the Faculty and Administration, others require direct application by the student candidate. Students who meet the award criteria are urged to obtain application materials at the Office of Student Services (Boyden Hall), the Financial Aid Office (Tillinghast Hall), or the Campus Center Information Booth.

Obtain a copy of the "Scholarship Capsule" which highlights specific award criteria. Of spe-

cial interest are the Alumni Scholarship Program, the Presidential Scholars Program, and the Shea Scholars Program (soon to be announced). In addition, the Dr. Edmund Haughey Memorial Scholarship, the Stephen Laskoff Scholarship, the Lincoln Trust Company Scholarship, and the Henry Werner Memorial Scholarship have broad criteria.

Application Deadline:
Friday, March 6, 1987

Special category awards recognize academic excellence in a variety of fields including Education, Management Science, the Humanities, and Media. Students who will be entering graduate level study in September should review criteria for the Chellis and Shea scholarships. Older than average students who have transferred from Massasoit, individuals of Portuguese heritage, graduates of Bourne or Barnstable high schools, and students who have relatives who graduated from Bridgewater

may qualify for one of the specially designated Alumni Scholarships.

The following steps are suggested to award applicants.

1. Immediately request a copy of your college transcript at the Registrar's Office (Boyden Hall) which will be processed at no charge. If you will be applying for more than one scholarship you may make additional copies of the transcript to be sent to the various selection committees.
2. Application forms should be typewritten and completed according to the directions.
3. It is recommended that you make an appointment with members of the Faculty or Administration from whom you will request letters of recommendation to review specific scholarship criteria.
4. Unless otherwise noted on the scholarship application, the deadline for the submission of all application materials is Friday, March 6, 1987. It is your responsibility to make certain that the appropriate materials have been submitted and that your application is complete.
5. If you have questions please contact the Office of Student Services (Boyden Hall).

Dell Publishing Releases Job-finding Aids

On February 3, 1987, Dell Trade Paperbacks published two essential guides for students and professionals alike seeking valuable career experience and guidance: *THE JOB HUNTER'S DIARY: The Working Companion For Anyone Looking For Work* by Barbara Binswanger and Jim Charlton and *GETTING WORK EXPERIENCE: The Directory of Summer Internship Programs That Lead to Careers* by Betsy Bauer, A Dell Trade Paperback reissue for 1987.

The Job Hunter's Diary by Barbara Binswanger and Jim Charlton, authors of Dell's successful *The Perfect Wedding*

Planner, is for anyone looking for a first job, hoping to change positions, or in between jobs.

In the convenient pocket format of other Dell planners, *The Job Hunter's Diary* includes hundreds of practical tips on preparing resumes, visiting employment agencies, and researching job sources. The book also contains a 3-month calendar and organizer to manage your search with optimum skill and efficiency. Worksheets include: Weekly Calendars to record appointments, interviews, and expenses, Weekly Worksheets to write down your plans of action and Contact Worksheets to keep track of

names, addresses, and telephone numbers of contacts and referrals.

Since the average American holds eight jobs in his or her lifetime, almost everyone will face the challenge of looking for a job several times over. *The Job Hunter's Diary* tells you everything you need to know to best organize your search and land the most desirable job possible. A self-evaluation chart helps you pinpoint your strengths and weaknesses and the worksheets provide the vehicle for an organized and intelligent search. Sized to fit comfortably into a pocketbook, jacket or briefcase, this diary will be the job seeker's con-

stant companion for the duration of the search.

A must for career-minded college students, *Getting Work Experience* features a comprehensive listing of more than 10,000 paid internship opportunities and includes company profiles, addresses and telephone numbers in all areas of business, technology and government. Next to a diploma, work experience and contacts gained during a summer internship are valuable assets for college students when applying for their first job. The internship listings include such foundations as Rockwell International, The United States General Account-

ing Office, National 4-H Foundation, WBCN-Radio, and many others.

Betsy Bauer, a business reporter for *USA Today*, outlines what students should look for in an internship, and how they can find a program to fit their geographic and career needs. Specific listings include location of the internship, job description, length of position, necessary qualification, and availability of college credit. Tips on living arrangements, transportation, salary, and even proper dress for the job complete this comprehensive guide.

Betsy Bauer is a graduate of Temple University.

Summer Opportunity

The Institute on Comparative Political and Economic Systems (ICPES) and the Institute on Political Journalism (IPJ), both held at Georgetown University, offer unique opportunities for students with demonstrated leadership skills, academic achievement, and extracurricular involvement in political science, economics, or journalism. These two unparalleled summer opportunities will be held in Washington D.C. for six weeks from June 5 through July 18, both Institutes offer:

Internships and Lectures with Ambassadors, Members of Con-

gress (ICPES) and top media professionals (IPJ); Site Briefings at locations of national importance; and Accredited courses in Comparative Political Systems and Comparative Economic Systems (ICPES) or Economics in Public Policy and Ethics and the Media (IPJ).

Students earn a minimum of six credit hours for participation in either program and scholarships are available for qualified students. A brochure and applications for further details is located at the Bridgewater State *Comment* office.

Your Stars This Week

By Stella Wilder

The coming week sees a trend developing that favors stability in many areas. Relationships which, in the recent past, have suffered from insecurity or even mistrust benefit from a willingness to open up and communicate with greater freedom. The working environment sees changes for the better. This is a good week for settling into routine, greater enjoyment -- and profit! -- ensue. Those who will play vital roles make themselves known early on.

Those who have been influential to you throughout recent weeks may be even more prominent this week. Those who are indeed on top of things will have no difficulty retaining control over projects, finances, relationships, etc. The unsuspecting, however, may find that he is not his own boss!

AQUARIUS (Jan. 20-Feb. 3) -- Highly emotional moments occur throughout the week. Protect yourself, avoid important decisions. (Feb. 4-Feb. 18) -- Your ability to persuade others to do your bidding puts you in line for exceptional gain this week.

PISCES (Feb. 19-March 5) -- Your dynamic nature may prove too much for less active, less involved companions. Put on the brakes. (March 6-March 20) -- Legalities may slow your progress. Even so, you make unexpected gains and catch up late in the week.

ARIES (March 21-April 4) -- Added responsibility proves depressing early on. Your ability to adapt leads to gainful action later. (April 5-April 19) -- This is the perfect week for making a new start. Past failures count for little -- if you've learned.

TAURUS (April 20-May 5) -- You should be able to gain a bird's-eye view of the future by reading this week's signs correctly. (May 6-May 20) -- A surge of energy early in the week makes possible both beginnings and conclusions. Be enthusiastic.

GEMINI (May 21-June 6) -- Style is more valued this week than quantity. You can carry off a sticky situation with panache. (June 7-June 20) -- You

receive the kind of favorable publicity you've been hoping for. Use it to further a brand-new interest.

CANCER (June 21-July 7) -- Achievement is featured early in the week; later on, however, you rest on your laurels gainfully. (July 8-July 22) -- Exceptional sources yield just the material support you need to carry out plans for launching a new project.

LEO (July 23-Aug. 7) -- Take the direct approach. Any use of subterfuge to achieve your ends will surely backfire by week's end. (Aug. 8-Aug. 22) -- Discoveries in the realms of the physical, the emotional and the spiritual cap a week of enterprise.

VIRGO (Aug. 23-Sept. 7) -- Home matters take time and energy this week. Don't expect gain unless you are willing to give. (Sept. 8-Sept. 22) -- Good news from one long dropped out of sight sends you into high-gear emotionally. Prospects increase.

LIBRA (Sept. 23-Oct. 7) -- Be guided by what you see in the eyes of family and friends when you reveal your plans. Do nothing rash. (Oct. 8-Oct. 22) -- Any information pertinent to the success of present operations must be gleaned by week's end. Move!

SCORPIO (Oct. 23-Nov. 7) -- Libra and Virgo persons play vital roles in your success this week. Refuse to procrastinate further. (Nov. 8-Nov. 21) -- A fascination with a member of the opposite sex could cause you to lose an advantage recently gained.

SAGITTARIUS (Nov. 22-Dec. 7) -- Unless you can come to terms with family members regarding immediate plans, you can kiss this week goodbye. (Dec. 8-Dec. 21) -- What you take to be merely a token of another's affection may be all you get. Look to the new.

CAPRICORN (Dec. 22-Jan. 6) -- The prominence of the elderly and the very young in your life this week make a change in plans necessary. (Jan. 7-Jan. 19) -- Chronological age matters little this week. It's how you feel that will guide activities at this time.

Psychologically Yours

By Dr. Richard T. Colgan, Professor of Psychology

"A college is buildings with four walls--with tomorrow inside"

Welcome...to a New Year and 365 days and 8760 hours of personal growth, intellectual development, and a multitude of opportunities to enrich your life. The 1987 classes in psychology began with increased enrollments and the introduction of Dr. David Richards as Psychology Department Chairman. Warmest "thanks" "standing ovation" is due to outgoing chair Dr. Louis Shippers who steered the department through burgeoning enrollments and B.S.C.'s first Graduate Program in Psychology. The B.S.C. student may now continue or embark upon a Master of Arts in Clinical-Psychodynamic Therapy or Industrial-Personnel at B.S.C., or in conjunction with S.M.U. specializations in Human Services Administration or Clinical-Behavioral Analysis.

whatever their job goal, but that psychology is emerging as a good occupation for which there is a demand. Want to know more -- Then write for a free copy of "Careers in Psychology," Publication Sales Department, American Psychological Association, 1200 17th Street, N.W., Washington, D.C. 20036. It is chock full of careers in Psychology, education and training required, how to become a psychologist, and the wonderful future and opportunities in psychology.

"Keep an eye peeled"...for applications to join the *Psychology Club* expected to be distributed shortly... or if you can't hold your breath, see Dr. Colgan in Rm. 330 Burrill Academic Bldg.

The "Second Annual Conference for Industrial and Organizational Psychology" (Division 14 of the American Psychological Assn.) will be held at the Hyatt Regency Hotel, Atlanta, GA., April 3-4, 1987. Conference and workshops registration information is on reserve for you in the *Psychology Club Library*, Rm 303, Burrill Academic Bldg.

Did you know? The Parapsychology Foundation, N.Y., considers proposals for original study, experiments or projects in telepathy, precognition, psychokinesis and related phenomena with awarded grants from \$100 to \$3,000. Applications may be made at any time by submitting a proposal outline to the Foundation at 228 East 71st St., New York, NY. 10021.

The spiraling increase in psychology majors at our nation's colleges and universities from 2.3 percent in 1977 to 3.2 percent in 1985 is an interesting phenomenon deserving of further analysis especially when one considers that advancement in psychology is ordinarily predicated upon advanced degrees. However, college students tend to be very astute and the lure of psychology may be because they discern psychology not only as interesting and beneficial to

Lady Bears beat Clark

Ranked in top 20 Nationaly

By
Mike Storey

The Bridgewater State College women's basketball team cracked the prestigious top 20 in the latest NCAA Division III poll, with an impressive (17-3) record.

The key to Bridgewater's jump in the rankings was a stellar come-from-behind victory over Clark University (57-52), who were (13-2) going into the game. BSC trailed at halftime (28-21) but came out smoking in the second half as they out-scored their opponents, (18-4) in the first eight minutes. Freshman, Mary Cawley led the charge scoring fourteen of her game high eighteen in that half. Christine Choukas was solid at both ends of the court scoring 11 points and snaring 10 rebounds. All-Star guard JoAnn Runge

dished out a season high of 12 assists.

In other action during the week, the Lady Bears chalked up two more victories against MASCAC opponents as they easily defeated Westfield State (57-34) and Framingham State (90-47). The wins raised Bridgewater's record to (7-1) in the MASCAC conference as they trail only Salem State who is currently undefeated.

In the Westfield State contest the Lady Bears started off slow offensively leading (23-19) at halftime. They found their shooting touch in the final period and maintained their stingy defense holding the Lady Owls to fifteen points in the second half. Mary Cawley and Lynn Malkasian shared scoring honors with ten each.

The Framingham State game was over early as BSC raced out

to a (51-24) halftime lead as they cruised to an easy win. Twelve players made the scoring column in this one, led by Christine Choukas (16), JoAnn Runge (14) and Lynn Malkasian (11). Runge notched her season high of 12 assists as the BSC fast-break was in overdrive this game.

The Lady Bears have now won twelve of their last thirteen games and there seems to be no stopping them now. Coach Bo Ruggiero puts it this way. "It's always been one of our team goals to be in the top 20 nationally. We've done that now and have our sight set on moving up even higher over the next few weeks. The Clark game was a big win for us. We showed a lot of character and mental toughness that wins ball games against top competition."

Men shoot for better

The Bridgewater State's men's basketball team won their tenth game of the season, but also lost two important MASCAC conference games, as their overall record stands at 10-8, but is only 2-6 in the MASCAC.

The Bears started the week off right as they pounded Curry College for the second time this season, 81-72. Forward Rob Pimental hit a season high 25 points hitting 11 for 17 from the field. Steve Lopes added 21 and John Dillman chipped in with 10 while dishing out six assists.

Bridgewater took to the road

caught on fire shooting 60% from the field in the second half to pull away to an 87-64 victory. The Bears only had two players in double figures with Rich Maguire hitting for 16 and John Dillman adding 1.

Against Framingham State, the BSC hoopsters battled the entire game, but just couldn't catch the talented Rams dropping a 76-71 decision. The Bears trailed at halftime, 40-35, and maintained that five point margin, 53-48, until the eight minute mark when Rich Maguire was lost for the night with five fouls and silencing the Bridgewater inside game. Maguire left the game with 20 points and 11

field State. After a 31-31 deadlock at halftime, Westfield rebounds to lead all BSC scorers.

With five games remaining on the schedule the Bears hopes for the post-season play look dim, but the opportunity to improve on last season's 13-11 mark is well within reach. "We have five tough ball games left this year," says BSC coach Mark Champagne. "We'll need a maximum effort from the entire team if we intend to better our season from last year. We come to play every night so with a few breaks here and there we'll be able to reach our goal this year."

Swim teams win

The BSC men's and women's swim teams finally broke into the win column last Saturday, as they defeated the Beacons of UMASS, Boston at the Harbor Campus. The men upped their record to 1-3 with a 93-63 score, while the women went to 1-6 with a 102-52 score.

In the men's meet, the 400yd medley relay team of Scott Goodrich, Bryan King, Dave Savaria, and Pete Berthiaume won, then Rob Lyons took second in the 1000 free, followed a Dave Savaria win in the 200 individual medley, and Lou Pereira and Tony LaCourse went 1-2 sweep of the 100 freestyle. Pete Berthiaume and Scott Goodrich then put the meet out of the reach with a 1-2 sweep of the 100 backstroke. Rob Lyons then finished second in the 500 Freestyle, and Lou Pereira and

Tony LaCourse took another 1-2 finish in the one meter optional diving.

Scott Goodrich scored a win in the 100 breaststroke, and the Bears closed out the scoring with the 400 freestyle relay team of Paul Catoggio, Rob Lyons, Lou Pereira, and Bryan King taking second place.

Last Wednesday the men took an 89-60 loss to Holy Cross, and will host the Camels of Connecticut College this Friday at 4 p.m. This will mark the last home meet appearance of senior captain Bryan King.

After suffering a 137-101 loss at Plymouth State last Wednesday, the BSC "Swimming Women" bounced back with a convincing win over U.Mass, Boston. Despite distance/utility swimmer Kate Grady being sidelined, the Bears dominated the

meet with the Beacons.

Jen Mirgon, Lynn Mulkerrin, Chris Mirgon, and Jean Bailey got the Bears off to a fast start with a win in the 200 yard medley relay, then Kathy Sugrue and Janice Manley came in 2-3 in the 200 freestyle. Lynn Mulkerrin, veteran Lydia Joyce, and Anja Van Hagens did further damage with a 1-4-5 finish in the 50 free, then Joanne Anderson and Jean Bailey scored with a 1-3 finish in the 200 individual medley. Diver Sandy Menard won the one-meter required diving, followed by Joanne Anderson's win in the 100 butterfly.

The Bears put the meet out of reach with a 1-2-3 finish in the 100 free by Kathy Sugrue, Chris Mirgon, and Lydia Joyce. Jen Mirgon and Janice Manley kept the momentum with a 1-2 sweep in the 100 backstroke, then

Mary Cawley

By
F. Scott Longo

This week's profile is an introduction of Mary Cawley, the 6-foot center from west Roxbury. Mary a freshman was chosen ECAC "Rookie of the week" for her performance during the week of January 18-24 against North Adams and Western Connecticut.

Since then she has led the Bears in scoring twice once against Clark with 18 and the other against Westfield with 10, while pulling down 9 rebounds against Clark. For the season, after playing eighteen games she is averaging 9.9

points a game and 6.4 rebounds.

Head Coach Bo Ruggiero commented that "She has really been a key factor in our success this year." High praise for a freshman that is playing on a nationally ranked team.

Cawley's height, scoring and rebounding abilities put her in a position to be a corner stone on the Lady Bears team for the next four years and possibly fill the void left by JoAnn Runge when she graduates. But before that the Lady Bears will look forward to this year and possibly a National Championship.

Intramurals and BAIRS Club

The BSC winter intramural program is well under way as we reach the cold month of February. In between academic classes and varsity games and practices the Kelly Gym is jumping every night from Sunday through Thursday.

In men's Basketball the 28-team league is divided into four divisions. Currently sporting undefeated marks and leading their respective divisions are:

- Division A X-Press
- Division B Run BSC
- Division C Over the Hill Gang
- Division D Hitmen

All Games are played on Monday, Wednesday and Friday nights.

Sunday night are reserved for Co-ed where "The Balls" and "The Runner Ups" are now tied for the lead in the 10-team league.

On Tuesday nights you'll find some hot competition when the ladies battle each other in the Women's Basketball league. "The Fireballs" are leading the league with an unblemished mark.

Because of the many school closings we've had so far this winter, there has been quite a bit of rescheduling of games to later

dates. Check the Intramural bulletin board in the Kelly Gym lobby for new dates. Remember if school is closed due to poor weather conditions all intramurals will be cancelled that night.

Aerobics Classes have been getting excellent attendance this winter as between 75-100 students take part in the 8:30-9:30 class that runs Monday-Thursday. Your instructors, Joy Fessler (Mon/Wed) and Dale Deconto (Tue/Thur), have been doing an outstanding job this year.

The annual BAIRS Club ski weekend will be making their second visit to Mt. Orford, Canada (Feb. 20-22). Last year 46 ski enthusiasts went on the trip north. Word has spread around campus as to how great a time this is so now the trip will have 92 skiers hitting the slopes.

Those people who still need to make their final payment should see Mike Storey (Kelly Gym) or Chris Burt (Shea-Durgin) as soon as possible. Remember the bus will be leaving at exactly 3:00 p.m. from the Kelly Gym. Be at the gym by 2:30 so we can get the bus loaded with equipment and luggage so we can get off on time.

Ladies

Cont. from p. 18

Kathy Sugrue took 2nd in the 500 free. Sam Menard won the one-meter optional diving, and Jean Bailey and Anja Van Hagens took 1-4 in the 100 breaststroke.

The Lady Bears finished the meet with a strong 1:51.31 clocking in the 200 freestyle relay, swum by Joanne Anderson, Lynn Mulkerrin, Jen Mirgon, and Chris Mirgon.

After a co-ed meet with WPI, the Bears will finish their dual meet season with a co-ed meet at Babson College next Tuesday.
