It is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), other than for strictly personal, individual use, unless the work is under an open content license (like Creative Commons).

Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

Chapter 1	General Introduction	7
Chapter 2	Lymphoma dissemination: the other face of lymphocyte homing	47
Chapter 3	The B Cell Antigen Receptor Controls AP-1 and NFAT Activity through Ras-Mediated Activation of Ral	59
Chapter 4	Bruton's Tyrosine Kinase and Phospholipase Cγ2 Mediate Chemokine-Controlled B Cell Migration and Homing	71
Chapter 5	The small GTPase Ral mediates SDF-1-induced migration of B cells and multiple myeloma cells	97
Chapter 6	The hepatocyte growth factor/Met pathway controls proliferation and apoptosis in multiple myeloma	119
Chapter 7	General Discussion	133
Chapter 8	Summary	152
	Nederlandse samenvatting	154
	Dankwoord	157
	Curriculum Vitae	159
	List of publications	160
