TO THOSE WHO ARE

Some people that I meet in life
Help me in my earthly strife
And put my mind in overdrive

They hold a mirror up to me
In which I often vaguely see
The person I would like to be

As a brightly burning star
They're shining through me, near and far
Just by being who they are

They help me up before I fall
They boost my spirit and my soul
To those who are; I thank you all

The study described in this thesis was performed at the Radiotherapy Department of The Netherlands Cancer Institute (Antoni van Leeuwenhoek Hospital) in Amsterdam and was financially supported by the Dutch Cancer Society (grant 98-1831 and gift for printing this thesis).
