Correction to: Neurointervention <https://doi.org/10.5469/neuroint.2020.00255>, published on March, 2021, Neurointervention 2021;16:70-77.

In the originally published version of this article, there were some missing contents in the Ethics Statement section, which should be properly revised as follows:

Before correction:

Ethics Statement

Our Institutional Review Board (IRB) waived the approval for the present case report.

After correction:

Ethics Statement

The Institutional Review Board (IRB) of our institution waived the informed consent for this case report. Since the patients' informed consent for publication was not available, the authors minimized information identifying the patients.

The authors apologize for any inconvenience that it may have caused.
