Submitted on 8 Sep 2013

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Metabolic Model Generalization

Anna Zhukova

ICYSB. June 3-10, 2013

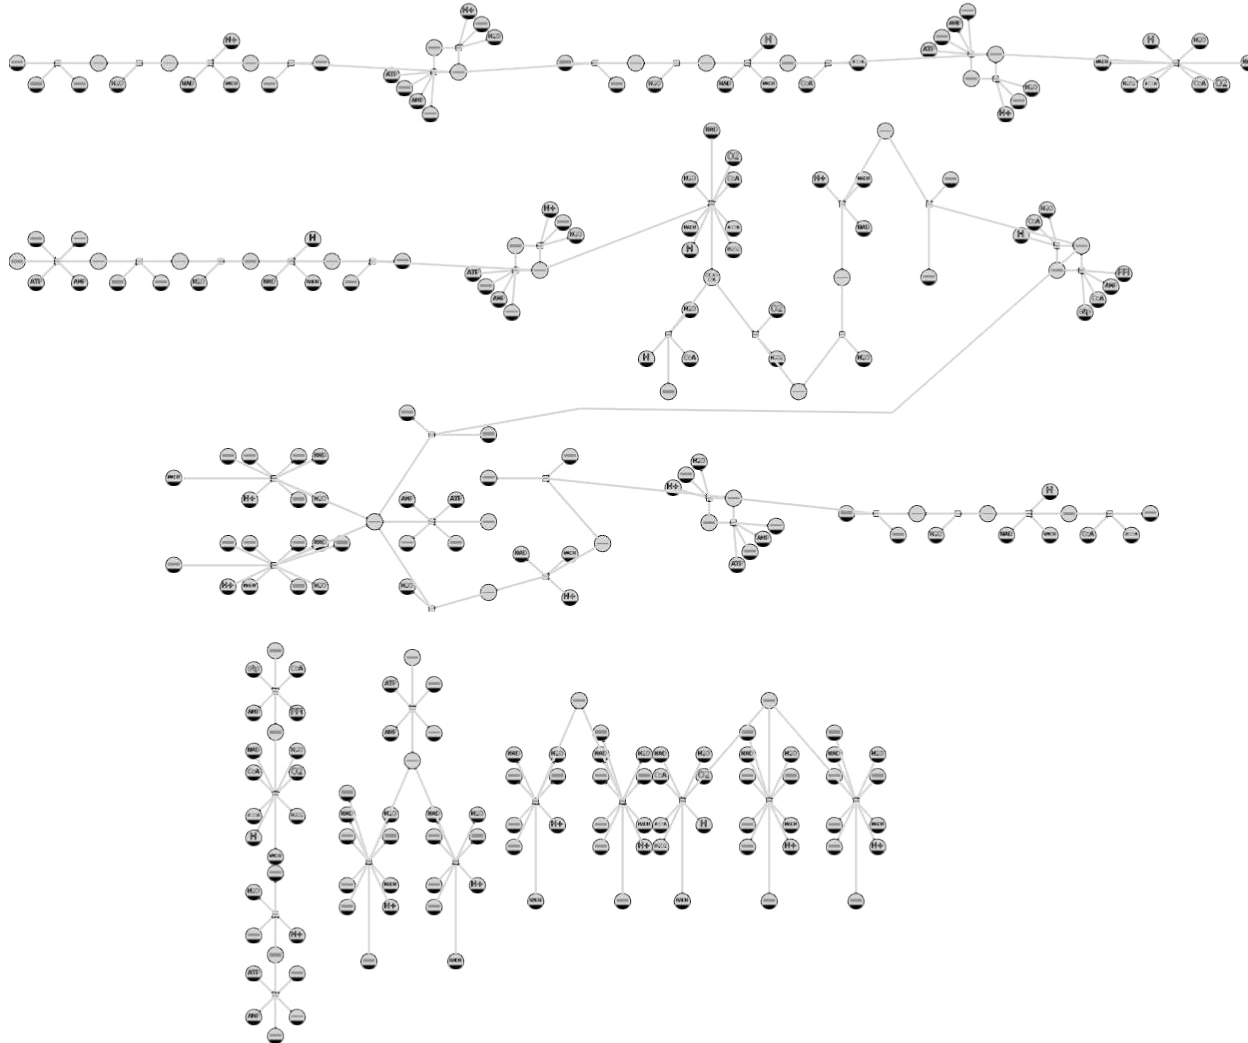

Where's Wally ?

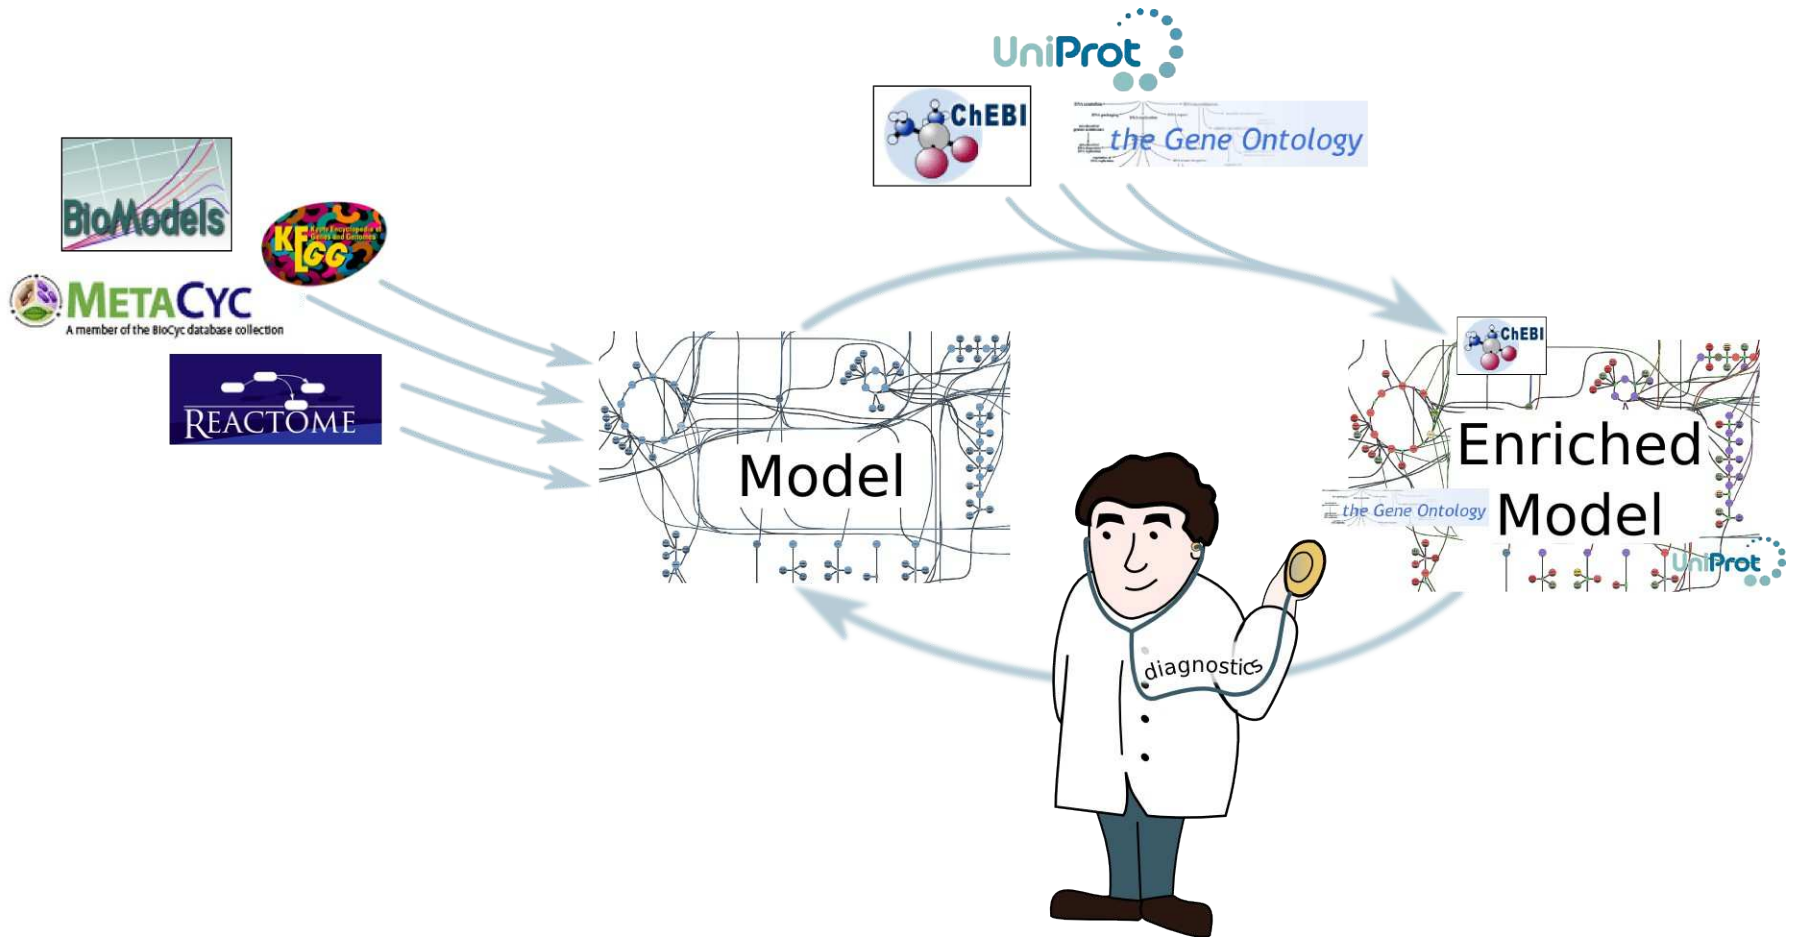

Where are missing reactions (EC 4.2.1.17) ?

Not that easy ?

Model inference and refinement

Let's generalize !

Let's generalize : ubiquitous species !

Let's generalize !

Let's generalize : fatty acyl-CoA !

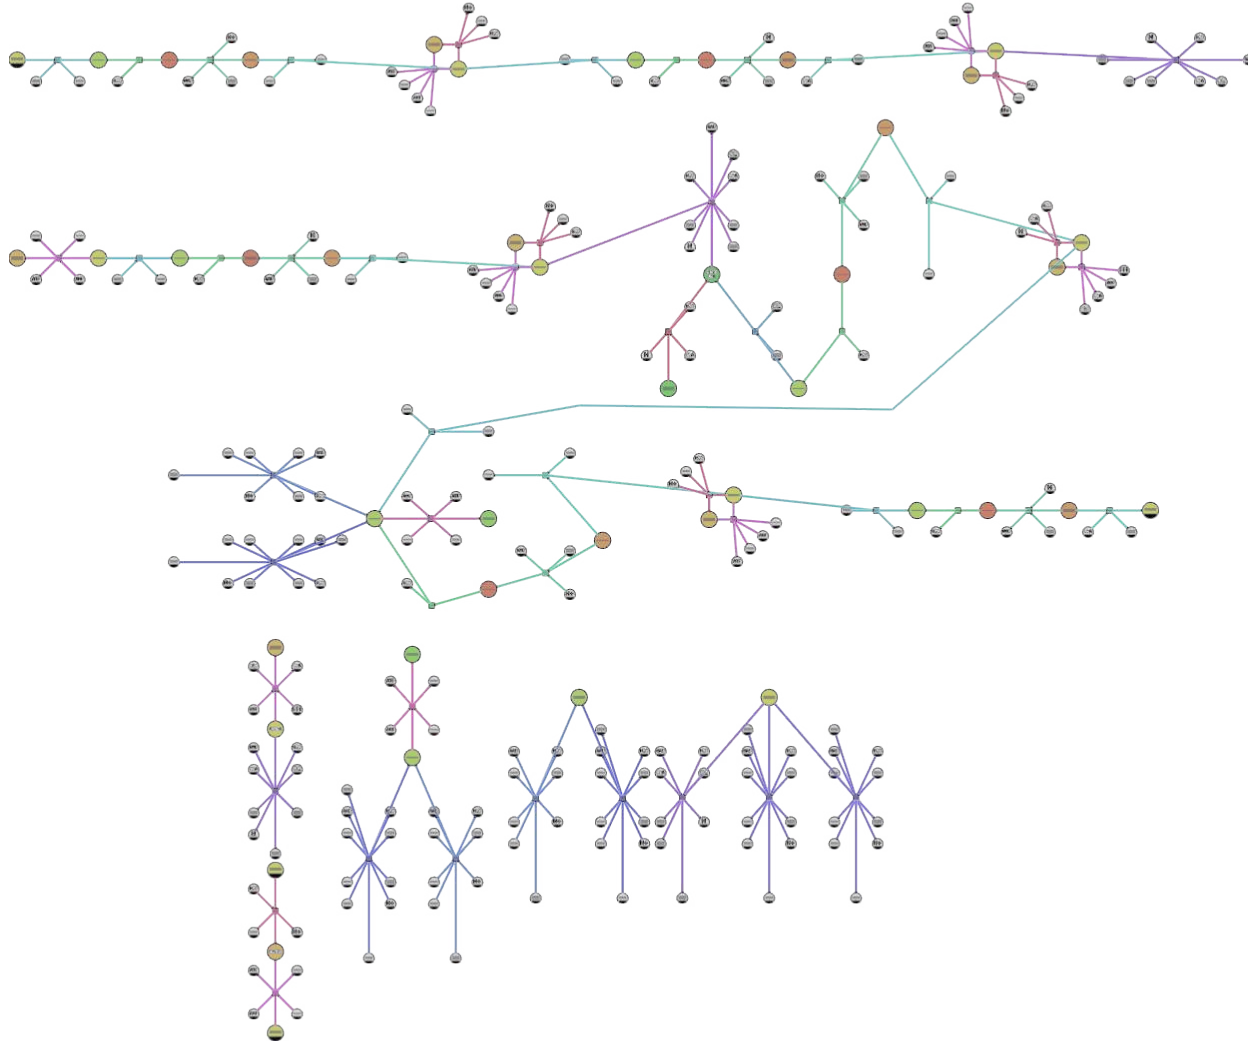

Let's generalize !

Let's generalize : oxo-acyl-CoA !

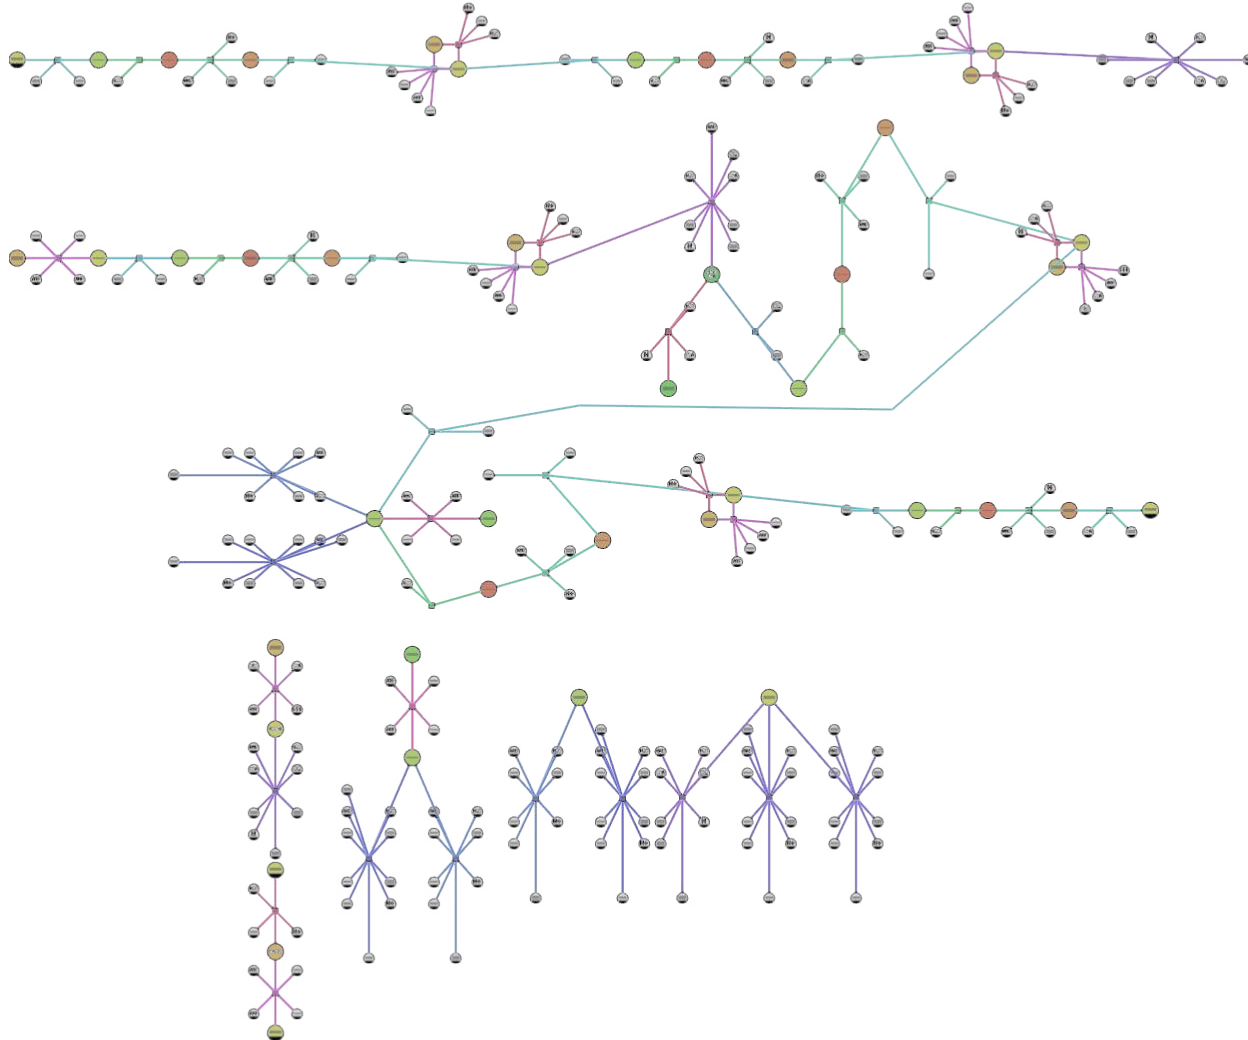

Let's generalize !

Let's generalize : fatty-acid--CoA ligase !

Let's generalize !

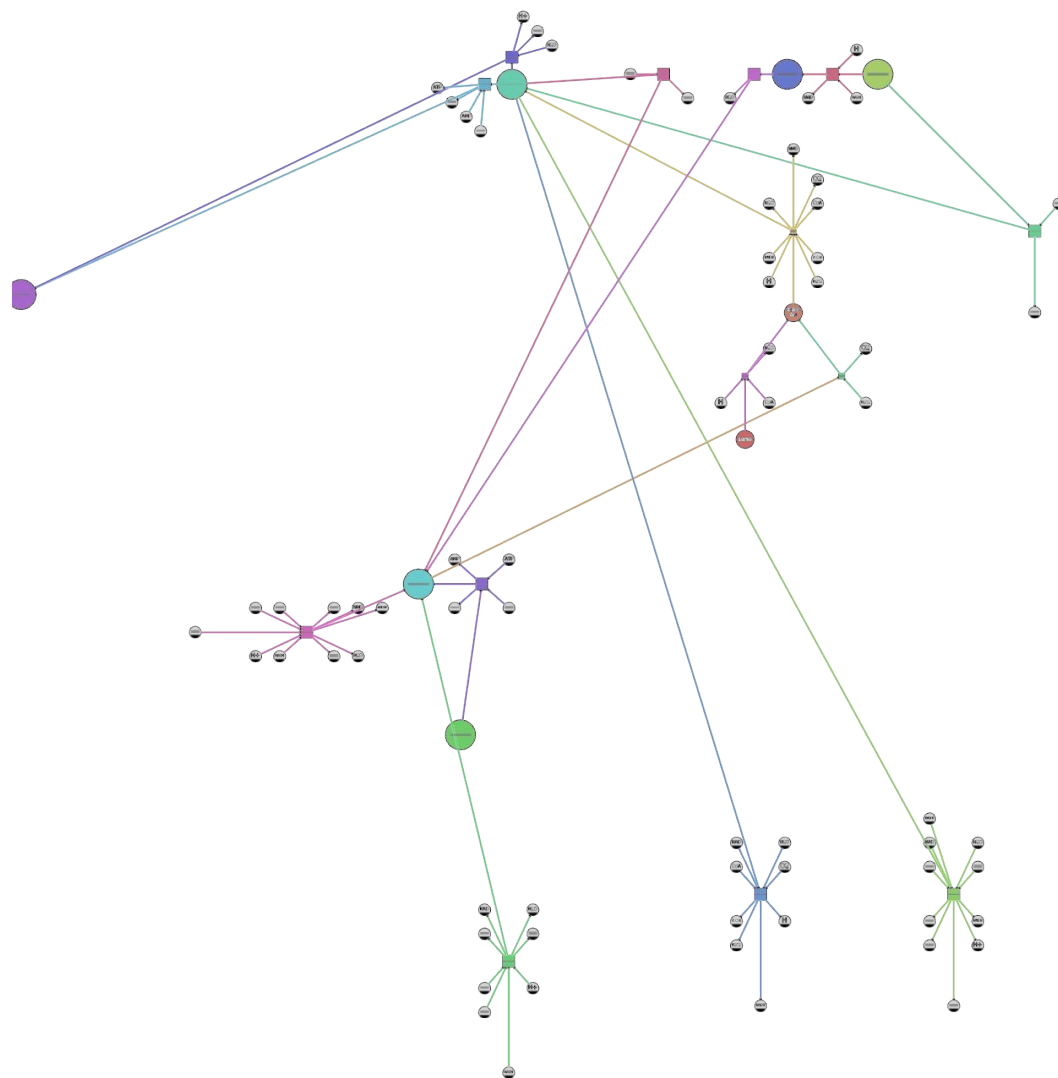

Let's generalize : acyl-CoA oxidase !

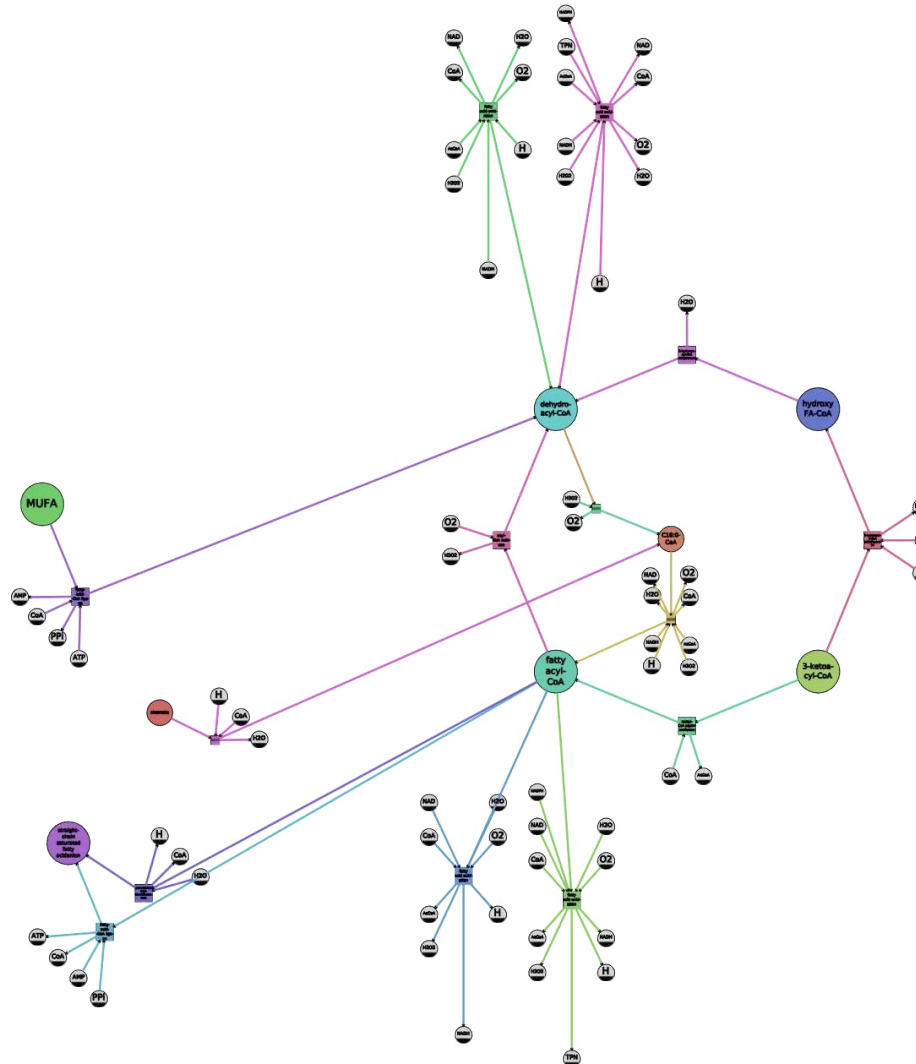

Let's generalize !

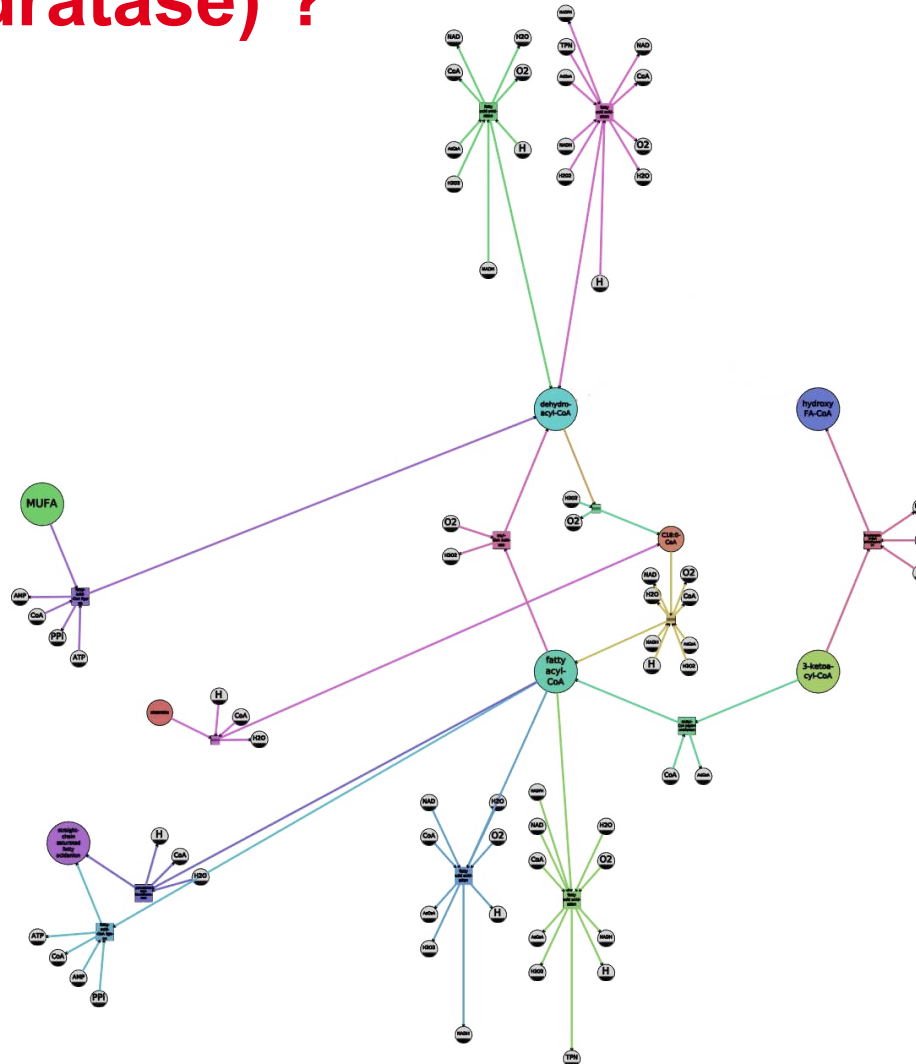

Let's factor !

Let's improve the layout a bit...

So, where's Wally (aka 3-hydroxyacyl-CoA dehydratase) ?
