Toward Collaborative Print Retention

Background:

In order to serve the many member libraries who were faced with the loss of space and the subsequent need to downsize and discard print collections in a very short time, the NN/LM SE/A formed a task force on print retention in the spring of 2010. The task force recommended, among other things, that a committee be formed to identify the potential for a collaborative print retention project in the region, develop educational resources on the topic of print retention, and recommend future directions.
Methods:

The ad-hoc committee met, brainstormed ideas, and developed a survey for resource and primary access libraries. The committee received responses from 128 libraries.

Conclusions:

An interesting and encouraging discovery was that almost one and a half times as many libraries expressed an interest in participating in a print retention project as were feeling pressure to give back space to their parent institution. This led the committee to conclude that space pressures and the resulting loss of print resources are a continuing concern for health sciences libraries. Even those who are not now facing pressures are interested in collaboration. Moreover, only a small number of the libraries were currently participating in print retention projects. The committee recommended that the NN/LM SE/A, in collaboration with the National Library of Medicine, continue work to develop a collaborative print retention project and to educate members on the resources available.

NSU Works - Nova Southeastern University's institutional repository
- Author Agreement –

Submission to *NSU Works* requires that authors enter into an author's agreement regarding the deposit and use of the items being submitted by the author. This agreement reaffirms your desire to deposit your work in an openly accessible repository, and warrants the rights and permissions associated with that action.

This agreement grants NSU Works ("the Repository") permission by the author of the submission for the deposit and use of the items being submitted. This agreement reaffirms the author's desire to deposit his or her work in an openly accessible repository, and warrants the permissions to the Repository associated with that action.

By checking the box below, I direct that the work I am depositing (the "Work") be stored and made available publicly in NSU Works, *Nova Southeastern University's* open access repository, as it may evolve (the "Repository").

Where I, the author, retain the right, I grant to *Nova Southeastern University* the non-exclusive right to preserve and reproduce the Work, and to display, distribute and make the Work available publicly without charge from the Repository, in any compatible format, so long as it does not alter the original contents of the Work. Where I, as author, do not retain the right, it remains with the publisher.

I understand that the administrator(s) of the Repository will take the necessary actions to obtain or verify copyright permissions of the Work to the best of his or her knowledge and ability before posting it to the Repository.

I represent and warrant that:

1. I have the right to deposit the Work in the Repository and to grant to Nova Southeastern University the rights stated in this agreement;

2. The Work does not infringe or violate any copyright or other rights of a publisher or any other party. Distribution of the Works from the Repository will not infringe or violate any such rights;

3. If the Work contains any material for which I do not hold copyright, and for which I have not obtained rights to distribute or make available, my use of that material is protected under the fair use doctrine;

4. If the Work contains any material for which I do not hold copyright, I have obtained all rights necessary to permit the Works, including that material, to be distributed and made available from the Repository;

5. If the Work is based upon work that has been sponsored or supported by an agency or organization other than *Nova Southeastern University*, any right to review or other such obligations of the sponsorship or support agreement have been fulfilled.

6. If I have specified an embargo date as allowed in the deposit process, I will inform the repository of the embargo date so that Nova Southeastern University can delay in making the work publicly available in the repository until that date has passed.

7. If the Work was prepared jointly with other authors, I am authorized to sign this Agreement on their behalf as well as my own.

8. I understand that once a Work is deposited in the repository, it may not be removed. If I have specified an embargo date as allowed in the deposit process, I understand that *Nova Southeastern University* will delay making the Work publicly available in the Repository until that date.
