(Northwest small-college leaders between 1969 and 1984 were compiled from Jack Sareault's Northwest Sports News Services releases. Leaders since 1985 are CFA statistical champions).

COLUMBIA FOOTBALL ASSOCIATION TIEBREAKERS

1. The team with the best league record (intraleague games only) will receive the automatic berth in the NAIA Division 2 national playoffs, i.e., the league champion.
2. In case of a two-way tie for the league championship, the automatic berth will be awarded to:
 - A. The winner of the game between the two teams tied for the league championship. If the tied teams did not play or they played to a tie, the following procedure will be used to determine which team is awarded the automatic berth:
 1. Fewest losses and ties against other CFA teams.
 2. If both teams have the same number of losses and ties, the next criteria will be common opponents in descending order of finish in their respective league.
 3. If the tie remains, the next criteria will be common opponents in descending order of finish in the opposite CFA league.
 4. If the tie remains, the team ranked highest in the final NAIA Division 2 poll will be awarded the automatic berth.
 5. If the teams are tied in the final rankings, the six football coaches will be polled with the team receiving the most votes advancing to the playoffs.
 3. In case of a multiple tie for the league championship, the automatic berth in the NAIA Division 2 national playoffs will be awarded to:
 - A. The team that has the best record in head-to-head competition in relationship to all of the other teams involved in the tie. If in applying this tiebreaker, two and only two teams remained tied, then the automatic berth will be determined under the formula outlined in 2A.
 - B. If three or more teams remained tied, then those (and only those) three or more teams (if one team has a worse record under 3A then the other three or more teams, it is eliminated in consideration for the automatic berth) will still be considered for the automatic berth under the following guidelines:
 1. Fewest losses and ties against other Columbia Football association teams. In applying this tiebreaker, if two and only two teams remained tied, then the automatic berth will be determined under the formula outlined in 2A.
 2. If three or more teams have the same number of losses and ties, the next criteria will be common opponents in descending order of finish in their respective league. In applying this tiebreaker, if two and only two teams remained tied, then the automatic berth will be determined under the formula outlined in 2A.
 3. If a tie remains among three or more teams, the next criteria will be common opponents in descending order of finish in the opposite CFA league. In applying this tiebreaker, if two and only two teams remained tied, then the automatic berth will be determined under the formula outlined in 2A.
 4. If the tie remains three or more teams, the team ranked highest in the final NAIA Division 2 poll will be awarded the automatic berth. In applying this tiebreaker, if two and only two teams remained tied, then the automatic berth will be determined under the formula outlined in 2A.
 5. If three or more teams are tied in the final rankings, the six football coaches will be polled with the team receiving a plurality of votes advancing to the playoffs. In applying this tiebreaker, if two and only two teams remained tied, then the automatic berth will be determined under the formula outlined in 2A.

(Note: In order to receive an automatic bid in the NAIA Division 2 playoffs, a team must also be ranked in the Top 20 in the final poll).
