# WHY IS THIS NECESSARY?

Introduction and Motivation

## THE WAY WE LIVE NOW...

There is no denying that the events of the past two years - a devastating global pandemic and a reckoning on race and justice - has caused people and institutions alike to rethink how they interact with and approach the world

# CONVERSATIONS

As we have conversations about our institutional values and ethical standards, we need to scrutinize how those values and standards connect with our collections decisions

## CONVERSATIONS

We pour a tremendous amount of our budgets into purchasing and licensing resources for our users

But what about our partners in the publishing world? Do their values align with ours?

# CONVERSATIONS

Instead of wondering about our partner's values, we decided to test it  
But first, we needed to take a look at our strategic plan and determine our values

# NEW STRATEGIC PLAN: THIS IS WHAT WE VALUE

## **Innovation**

We encourage new ideas and creative approaches in all we do

## **Collaboration**

We work together, with campus and others, to find solutions

## **Agility**

We embrace change and shift nimbly to meet emerging needs

## **Equity**

We advance access, diversity, inclusion, and a sense of belonging

## **Stewardship**

We thoughtfully harness and leverage our human and financial resources for maximum impact

## **Service**

We gladly share our knowledge and expertise with Purdue students, faculty, and staff and beyond

## CREATING THE RUBRIC

Methods and Materials

SO, I GUESS WE NEED A  
RUBRIC OF SOME KIND?

We need to capture our  
institution's values and  
translate them into a tool for  
answering these questions.

# THE RUBRIC MAKING PROCESS

1

## Finding Institutional Values

We need to find the values and other similar statements at the different levels of the organization and assemble them into a list.

2

## Values in a Collections Context

These values are often very broad and apply to many different aspects of the organization. We need to apply them to library collections.

3

## Indicators and Areas of Concern

Once in the context of collections, we need to identify specific factors to investigate when evaluating a particular vendor.

# FINDING INSTITUTIONAL VALUES

What does our organization  
(at the library level, the  
university level, and others)  
value?

# \* FINDING INSTITUTIONAL VALUES

## Libraries

From the new strategic plan:

- Innovation
- Collaboration
- Agility
- Equity
- Stewardship
- Service

## University

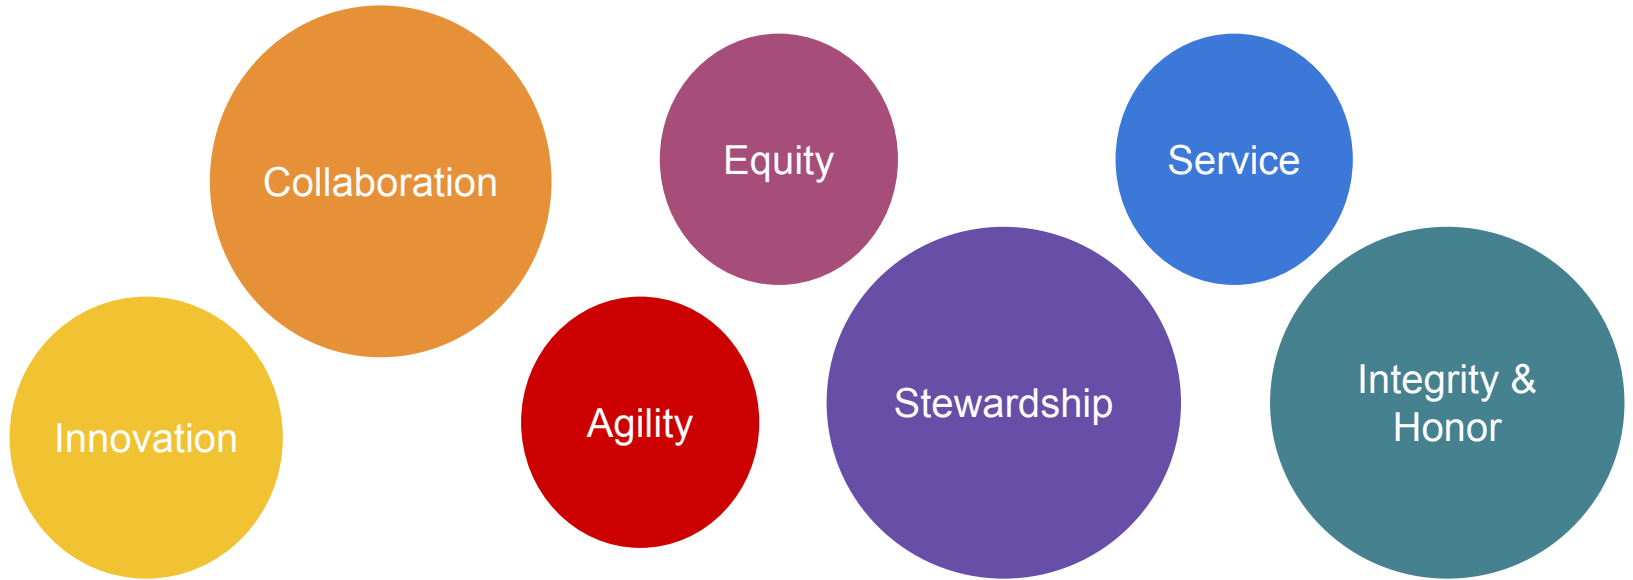

From the “We are Purdue” statement:

- Integrity
- Respect
- Honor
- Inclusion
- Innovation
- Growth

## Partners

Consortial partners, specific departments, and others might need to be included, depending on the context. E.g. chemistry values safety, business values innovation, etc.

Compiling and consolidating a group of values from the various stakeholders

## APPLYING VALUES TO A COLLECTIONS CONTEXT

“Innovation” is great, but  
what does that mean for  
someone who’s thinking  
about library collections?

# \* APPLYING TO LIBRARY COLLECTIONS CONTEXT

## Collaboration

Collaborating with librarians, authors, and researchers

## Agility

Flexibility in a crisis; embracing new trends in scholarship

## Equity

Addressing concerns about equity, diversity, and inclusion; accessibility

## Integrity & Honor

Ethics in business practices; impact on society overall

## Innovation

Adapting to changing technologies; willingness to explore alternate funding and access models

## Stewardship

Fair rate increases, including flexibility with respect to budget crunches; how they treat their employees; social responsibility

## Service

Flexibility on access for community users, off-campus and distance students; service to local communities

# INDICATORS & AREAS OF CONCERN FOR LIBRARIES

Okay, so what about stuff we can actually search for and find to figure out if our values and actions align?

LET'S MAKE A  
RUBRIC!

## THE RUBRIC IN ACTION

Test Cases

GOOD

MID

POOR

### INNOVATION

Some OA content.  
Platform is functional.  
Found one example of a transformative agreement.

### COLLABORATION

No advisory board that we could find.  
Some consortial negotiation.  
Standard copyright agreements.

### AGILITY

Made health science resources related to COVID-19 freely available during pandemic.

### EQUITY

No statement on site regarding accessibility. Used Total1y tool to check WCAG compliance and found a few minor issues with headings, but overall seems accessible.  
No EDI language on website.  
Bad EDI review online.

## COMPANY A: SMALL PRIVATE

GOOD

MID

**STEWARDSHIP**

In our own experience:  
History of large percentage price increases.  
Have been difficult to deal with, in terms of negotiation, in the past.

Middling to poor reviews on Glassdoor.

**SERVICE**

In our own experience:  
Limited flexibility in negotiating license terms.

**INTEGRITY**

No information found.

This is a private company and there is a lack of transparency regarding company values on the website.

Little to no info in Mergent, Privco, and S&P Capital IQ.

POOR

COMPANY A: SMALL PRIVATE

GOOD

### INNOVATION

Found two Transformative agreements.

Public statement supporting Open Access Policies.

MID

### COLLABORATION

Unclear if they have academic advisory boards.

Tangential projects do have boards and include librarians.

### AGILITY

Made health science resources related to COVID-19 freely available during pandemic.

### EQUITY

DEI statements online.

Women in top leadership positions, unsure about BIPOC representation.

Above and beyond regarding accessibility.

POOR

## COMPANY B: LARGE PUBLIC

GOOD

MID

### STEWARDSHIP

Working to become a sustainable and positive impact business.

Positive reviews on Glassdoor.

Nothing obviously problematic in company investments.

### SERVICE

Local community service.

Supportive of researchers in developing countries.

### INTEGRITY

Troubling history of conflicts with editorial boards.

No major lawsuits found in Nexis Uni.

POOR

## COMPANY B: LARGE PUBLIC
